

1

00:00:00,000 --> 00:00:05,000

Control outer space and you control the world.

2

00:00:05,000 --> 00:00:10,000

Recent news reports suggest that China, Russia and the US

3

00:00:10,000 --> 00:00:14,000

are caught in a new high-tech space race.

4

00:00:14,000 --> 00:00:19,000

The next big war, if or when it comes,

5

00:00:19,000 --> 00:00:21,000

is going to be fought in two theaters,

6

00:00:21,000 --> 00:00:24,000

cyberspace and outer space.

7

00:00:24,000 --> 00:00:28,000

But control of cyberspace is child's play

8

00:00:28,000 --> 00:00:32,000

compared to the domination of outer space.

9

00:00:32,000 --> 00:00:36,000

And the race between superpowers, as far as we know,

10

00:00:36,000 --> 00:00:38,000

is up for grabs.

11

00:00:38,000 --> 00:00:42,000

Plans to mine the moon for the experimental propulsion fuel

12

00:00:42,000 --> 00:00:45,000

Helium-3 are already underway,

13

00:00:45,000 --> 00:00:49,000

as are plans to create weaponized satellites.

14

00:00:49,000 --> 00:00:53,000

But insiders claim that the US and other countries

15

00:00:53,000 --> 00:00:56,000

have already been secretly militarizing space

16

00:00:56,000 --> 00:00:58,000

for 50 years.

17

00:00:58,000 --> 00:01:02,000

Join us as we investigate the secret existence

18

00:01:02,000 --> 00:01:04,000

of a US space force.

19

00:01:10,000 --> 00:01:12,000

A global effort has begun.

20

00:01:12,000 --> 00:01:15,000

Secret files hidden from the public for decades,

21

00:01:15,000 --> 00:01:20,000

detailing every UFO account, are now available to the public.

22

00:01:20,000 --> 00:01:24,000

We are about to uncover the truth behind these classified documents.

23

00:01:24,000 --> 00:01:28,000

Find out what the government doesn't want you to know.

24

00:01:28,000 --> 00:01:35,000

Unsealed, alien files, exposing the biggest secret on planet Earth.

25

00:01:35,000 --> 00:01:42,000

Since the early 1960s, we've experimented with how to travel off planet Earth.

26

00:01:42,000 --> 00:01:46,000

We've been to the moon, landed rovers on Mars

27

00:01:46,000 --> 00:01:50,000

and sent probes beyond the edge of our solar system.

28

00:01:51,000 --> 00:01:54,000

To establish a permanent presence in space,

29

00:01:54,000 --> 00:01:57,000

we developed the International Space Station.

30

00:01:57,000 --> 00:02:01,000

To service the space station and resupply it with food,

31

00:02:01,000 --> 00:02:04,000

experimental equipment and astronauts,

32

00:02:04,000 --> 00:02:08,000

the US successfully developed the Space Shuttle.

33

00:02:08,000 --> 00:02:15,000

But in 1986, something happened that many will never forget.

34

00:02:15,000 --> 00:02:19,000

January 28, 1986.

35

00:02:19,000 --> 00:02:23,000

The Space Shuttle Challenger is launched on a routine mission.

36

00:02:23,000 --> 00:02:28,000

But 73 seconds into the flight, something goes terribly wrong.

37

00:02:28,000 --> 00:02:33,000

An O-ring seal on one of its rocket boosters fails at liftoff.

38

00:02:33,000 --> 00:02:37,000

This leads to a breach of the shuttle's external gas tank.

39

00:02:37,000 --> 00:02:40,000

The massive aerodynamic forces acting on the shuttle

40

00:02:40,000 --> 00:02:44,000

as it escapes Earth's atmosphere, expands the breach.

41

00:02:44,000 --> 00:02:48,000

And the result is a catastrophic failure.

42

00:02:48,000 --> 00:02:53,000

The Challenger disintegrates off Florida's coast above Cape Canaveral.

43

00:02:53,000 --> 00:02:56,000

Seven crew members die.

44

00:02:56,000 --> 00:03:01,000

The Challenger accident is a brutal reminder of the hazards of space travel

45

00:03:01,000 --> 00:03:07,000

and makes many in the aeronautical industry rethink the way we travel into space.

46

00:03:07,000 --> 00:03:13,000

The incident is also a defining blow to a top secret group in the American space industry.

47

00:03:13,000 --> 00:03:16,000

Less than two years after the Challenger accident,

48

00:03:16,000 --> 00:03:22,000

an article appears in the New York Times that stuns many insiders.

49

00:03:22,000 --> 00:03:34,000

So in 1989, the New York Times publishes an article that says that we had a Codrave 32 military-trained astronauts

50

00:03:34,000 --> 00:03:42,000

and a multi-billion dollar budget going on for a shuttle program at Vandenberg Air Force Base.

51

00:03:42,000 --> 00:03:44,000

It's crazy.

52

00:03:44,000 --> 00:03:55,000

A secret Codrave of 32 astronauts who were outside of the normal NASA space program had been axed

53

00:03:55,000 --> 00:04:02,000

and that associated with this various facilities, effectively an entire secret spaceport,

54

00:04:02,000 --> 00:04:05,000

were also going to be mothballed.

55

00:04:05,000 --> 00:04:11,000

The article cites the Challenger accident as the key reason the military is getting out of using manned space shuttles.

56

00:04:11,000 --> 00:04:19,000

If we had a multi-billion dollar military space shuttle program going on in Los Angeles and in Vandenberg,

57

00:04:19,000 --> 00:04:24,000

multi-billion dollar, and we didn't know about it, nobody knew about this thing,

58

00:04:24,000 --> 00:04:28,000

what else could our government possibly have going on in space?

59

00:04:28,000 --> 00:04:33,000

Once again, the government finds itself under suspicion.

60

00:04:33,000 --> 00:04:37,000

They could have already had a military space force up there, we really don't know.

61

00:04:37,000 --> 00:04:44,000

When we consider the story about the cutting of 32 astronauts from this covert program,

62

00:04:44,000 --> 00:04:51,000

I think there's a temptation to think, well, the program in its entirety has been axed,

63

00:04:51,000 --> 00:05:01,000

but in my experience of cuts within government, what actually happens is that a small part of the program is cut out

64

00:05:01,000 --> 00:05:04,000

to satisfy the financiers.

65

00:05:04,000 --> 00:05:07,000

So could a space force exist? Absolutely.

66

00:05:07,000 --> 00:05:10,000

Could we hide it? Could the government hide that secret? Absolutely.

67

00:05:10,000 --> 00:05:16,000

If a space force exists, when and why was it created?

68

00:05:16,000 --> 00:05:20,000

Unsealed case file. The Twining Memo.

69

00:05:20,000 --> 00:05:23,000

July 26th, 1947.

70

00:05:23,000 --> 00:05:28,000

Less than three weeks after the famous UFO crash in Roswell, New Mexico,

71

00:05:28,000 --> 00:05:35,000

US President Harry Truman signs the most important act of the 20th century.

72

00:05:35,000 --> 00:05:38,000

The National Security Act.

73

00:05:38,000 --> 00:05:43,000

It leads swiftly to the creation of the CIA, the National Security Council,

74

00:05:43,000 --> 00:05:48,000

an independent Air Force, and the Department of Defense.

75

00:05:48,000 --> 00:05:56,000

Three weeks earlier, four-star general Nathan Twining flies unannounced to Kirtland Air Force Base.

76

00:05:56,000 --> 00:06:02,000

Many experts believe he arrives to help cover up the Roswell UFO crash.

77

00:06:02,000 --> 00:06:07,000

September 18th, 1947. The CIA is born.

78

00:06:07,000 --> 00:06:09,000

Five days later, the Twining Memo comes out.

79

00:06:09,000 --> 00:06:20,000

Nathan Twining wrote a memo which in many ways perhaps set the scene for what a lot of people claim has followed.

80

00:06:20,000 --> 00:06:24,000

And he said in his memo that UFOs were real.

81

00:06:24,000 --> 00:06:34,000

They are clearly under intelligent control, and they're often seen in close proximity of highly sensitive military establishments

82

00:06:34,000 --> 00:06:38,000

and particularly nuclear facilities.

83

00:06:38,000 --> 00:06:45,000

He said, for that reason, this subject must be studied carefully and taken extremely seriously.

84

00:06:45,000 --> 00:06:51,000

The Twining Memo says we need to investigate the technology, but what do you do with that technology if it's real?

85

00:06:51,000 --> 00:06:53,000

What does it give you the ability to do?

86

00:06:53,000 --> 00:06:59,000

You have propulsion, you have other technologies like night vision and things like that.

87

00:06:59,000 --> 00:07:02,000

So what are you naturally going to do with that information?

88

00:07:02,000 --> 00:07:06,000

You're going to corral it, you're going to keep it from your enemies, like the Russians or whoever.

89

00:07:06,000 --> 00:07:12,000

You're going to get your best scientist on it, and you're going to run with that technology in what's the next step?

90

00:07:12,000 --> 00:07:16,000

You're going to put it in a craft and use it to go somewhere.

91

00:07:16,000 --> 00:07:19,000

So Space Force is born.

92

00:07:19,000 --> 00:07:30,000

General Twining may have seen the Roswell crash with his own eyes, but his reaction is to plan a way for America itself to get into space.

93

00:07:33,000 --> 00:07:39,000

Evidence may point to the existence of a secret independent US Space Force,

94

00:07:39,000 --> 00:07:44,000

but it's one thing to have a plan and quite another to put it into action.

95

00:07:44,000 --> 00:07:50,000

Unsealed case file, the X-20 Dinosaur.

96

00:07:50,000 --> 00:07:55,000

Starting in 1957, the United States Air Force started developing the X-20 Dinosaur.

97

00:07:55,000 --> 00:08:02,000

What this was was a defense space plane, so to speak, that was going to have a variety of capabilities, or at least that was the intent.

98

00:08:02,000 --> 00:08:07,000

The Air Force starts the dinosaur program a year before the creation of NASA,

99

00:08:07,000 --> 00:08:12,000

and it has defense, not exploration, on its mind.

100

00:08:12,000 --> 00:08:27,000

The X-20 is allegedly developed for a variety of military missions, including satellite maintenance, reconnaissance bombing, space rescue, and as a savour tour of enemy satellites.

101

00:08:27,000 --> 00:08:36,000

When NASA is created, the new space agency develops the Mercury Space Capsules for exploration and ballistic reentry.

102

00:08:36,000 --> 00:08:43,000

But the design of the Air Force's dinosaur is eerily similar to the modern shuttle.

103

00:08:43,000 --> 00:08:52,000

It can allegedly reach Earth orbit at the speed of an intercontinental ballistic missile and return to Earth by gliding down under pilot control.

104

00:08:52,000 --> 00:08:59,000

It can land at an airfield instead of deploying a parachute and splashing down in the ocean, like NASA's capsules.

105

00:08:59,000 --> 00:09:06,000

They spent to the tune of five billion dollars in today's standards to develop a craft that can fly in space,

106

00:09:06,000 --> 00:09:15,000

potentially take out enemy satellites, potentially strike other countries, potentially do reconnaissance work, kind of a wide array of defense capabilities.

107

00:09:15,000 --> 00:09:20,000

But the X-20 dinosaur is reportedly plagued with design problems.

108

00:09:20,000 --> 00:09:29,000

Uncertainty over the development of its experimental booster rocket, which launches it into orbit, slows development to a halt.

109

00:09:29,000 --> 00:09:43,000

After a comprehensive program study in 1963, Secretary of Defense Robert McNamara says the X-20 dinosaur did not have any real objectives for orbital flight.

110

00:09:43,000 --> 00:09:51,000

Unfortunately, they really couldn't make the plane. They couldn't build it, and the project was eventually scrubbed.

111

00:09:51,000 --> 00:09:56,000

The Air Force's decision to halt the program is a reversal of its previous policy.

112

00:09:56,000 --> 00:10:03,000

But could a secret industry have continued to develop the X-20 behind closed doors?

113

00:10:03,000 --> 00:10:12,000

In 2001, a hacker from the UK uncovers evidence that points to something many thought did not exist.

114

00:10:13,000 --> 00:10:18,000

Unsealed case file. Non-terrestrial officers.

115

00:10:18,000 --> 00:10:25,000

Gary McKinnon was a computer hacker that allegedly got into NASA computers and discovered much more than he bargained for.

116

00:10:25,000 --> 00:10:41,000

Between 2001 and 2002, UK IT expert Gary McKinnon allegedly gains illegal access to over 50 US agency computer systems, including the secret NASA database.

117

00:10:41,000 --> 00:10:49,000

What he claims to have found when he hacked into NASA computers was a list of non-terrestrial Air Force officers.

118

00:10:49,000 --> 00:10:54,000

He claimed that he had found pictures of craft.

119

00:10:54,000 --> 00:11:04,000

He uncovered, according to him, documentation that proved that not only were aliens real, not only was NASA scrubbing out UFOs in their photos,

120

00:11:04,000 --> 00:11:10,000

but also that there was this secret space force that existed that could potentially travel to other

planets,

121

00:11:10,000 --> 00:11:14,000

or that there were military personnel that were currently in space.

122

00:11:14,000 --> 00:11:27,000

He found what he thought were ship names, but instead of being USS Enterprise, it's USS Enterprise, United States spaceship.

123

00:11:27,000 --> 00:11:34,000

Gary McKinnon alleges that NASA is actively involved in a massive cover-up.

124

00:11:34,000 --> 00:11:45,000

Now the names of these supposed ships are interesting in themselves because one of them was apparently the USS Hillencutter.

125

00:11:45,000 --> 00:11:52,000

And Hillencutter was one of the people believed to be on the infamous Majestic 12 committee.

126

00:11:52,000 --> 00:12:03,000

The super secret body charged with keeping UFOs secret from the public and managing the whole UFO

situation.

127

00:12:03,000 --> 00:12:09,000

The problem remains, what exactly did McKinnon really see and what evidence is being covered up?

128

00:12:09,000 --> 00:12:17,000

So Gary McKinnon's hack really led to the rise of this idea that there is a secret space force,

129

00:12:17,000 --> 00:12:26,000

maybe part of a wider shadow government. I've even heard phrases such as a breakaway civilization used for this.

130

00:12:29,000 --> 00:12:34,000

Many experts believe America has operated a secret space force for decades,

131

00:12:34,000 --> 00:12:41,000

with ultra-high-tech ships designed for a wide array of space defense capabilities.

132

00:12:41,000 --> 00:12:46,000

But what does one of its ships look like and what is it really capable of?

133

00:12:47,000 --> 00:12:52,000

Unsealed case file, the X-37B.

134

00:12:52,000 --> 00:12:57,000

April 2010, the X-37B is launched.

135

00:12:57,000 --> 00:13:05,000

At less than 30 feet long and just 10 feet tall, the craft is not unlike a miniature space shuttle.

136

00:13:05,000 --> 00:13:09,000

Information about its mission is closely guarded.

137

00:13:10,000 --> 00:13:17,000

Insiders speculate that NASA and the U.S. Air Force have been secretly funding the project for decades.

138

00:13:17,000 --> 00:13:25,000

But the unmanned X-37B is now being developed by DARPA, the Defense Advanced Research Projects Agency.

139

00:13:25,000 --> 00:13:30,000

The CIA claims the X-37B is performing secret reconnaissance,

140

00:13:30,000 --> 00:13:37,000

while the Air Force alleges that the X-37B's objectives are testing reusable space technologies.

141

00:13:37,000 --> 00:13:42,000

But many believe it is being used for other reasons.

142

00:13:42,000 --> 00:13:48,000

Is it possible that the dinosaur program of the 1950s and 1960s that never came to fruition

143

00:13:48,000 --> 00:13:52,000

is now flying above our heads with the label the X-37B?

144

00:13:52,000 --> 00:13:55,000

With today's defense requirements, I wouldn't put it past it.

145

00:13:55,000 --> 00:14:02,000

We're told that the X-37's unmanned, so at this point with their testing, they're not sending up anybody yet.

146

00:14:02,000 --> 00:14:08,000

But it is possible that the X-37 could be a small model of a much bigger craft

147

00:14:08,000 --> 00:14:11,000

that essentially could carry humans to space,

148

00:14:11,000 --> 00:14:18,000

essentially could create a space force that could fend off our enemies from the safety of the cosmos.

149

00:14:18,000 --> 00:14:23,000

The X-37B shatters all previous records for space flight.

150

00:14:23,000 --> 00:14:30,000

In August 2014, it lands after an incredible 627 days in space.

151

00:14:30,000 --> 00:14:36,000

For two years, a plane operated by NASA is traversing somewhere out there.

152

00:14:36,000 --> 00:14:43,000

We have no idea what it's doing. We have no idea what its mission is. What happened in that two years?

153

00:14:43,000 --> 00:14:49,000

There are some aspects to the space program that are not being publicly declared.

154

00:14:49,000 --> 00:14:56,000

What exactly is the mission of the X-37B and are its capabilities limited to the Earth's orbits?

155

00:14:56,000 --> 00:15:03,000

Some experts believe the X-37B has the capability to reach the moon, or even beyond,

156

00:15:03,000 --> 00:15:10,000

leading to speculation that the U.S. may already be developing secret, off-world bases.

157

00:15:10,000 --> 00:15:17,000

With the aura of secrecy around the X-37B, we can tell that it's one of the most heavily classified space missions that exists.

158

00:15:17,000 --> 00:15:20,000

We have no idea what its mission is.

159

00:15:20,000 --> 00:15:31,000

But the level of secrecy surrounding the X-37B leads many to believe that its mission may be rooted in the origins of a secret space force.

160

00:15:31,000 --> 00:15:36,000

The idea of a space force may be a far-fetched idea to really kind of comprehend,

161

00:15:36,000 --> 00:15:39,000

but history shows us this isn't a new idea at all.

162

00:15:39,000 --> 00:15:45,000

In the late 1950s, the Department of Defense was designing what they called Project Horizon,

163

00:15:45,000 --> 00:15:49,000

which was a military outpost that they were going to put on the moon.

164

00:15:49,000 --> 00:15:56,000

In 1959, Project Horizon sets out to develop a 12-person outpost on the moon,

165

00:15:56,000 --> 00:16:02,000

its purpose to serve as a base to explore further into outer space.

166

00:16:02,000 --> 00:16:07,000

Officially, Project Horizon never materializes.

167

00:16:07,000 --> 00:16:12,000

They wanted to do it six decades ago. Unfortunately, it just wasn't feasible.

168

00:16:12,000 --> 00:16:15,000

Today may be a different story.

169

00:16:16,000 --> 00:16:25,000

For years, many believed that the United States government is operating a secret space force with capabilities beyond the Earth's orbit.

170

00:16:25,000 --> 00:16:29,000

Until recently, it has been difficult to prove.

171

00:16:29,000 --> 00:16:40,000

But when retired Canadian Defense Minister Paul Hellyer claims there is a shadow government functioning in outer space, it becomes difficult to ignore.

172

00:16:40,000 --> 00:16:45,000

Paul Hellyer was the Defense Minister for Canada for many years.

173

00:16:45,000 --> 00:16:52,000

In 2005, he came out with a statement about UFOs, because he had seen one, so he was convinced they were real.

174

00:16:52,000 --> 00:17:02,000

He has gone on the record as saying, not only are UFOs extraterrestrial, but there have been crashes, some vehicles have been recovered,

175

00:17:02,000 --> 00:17:16,000

and the US government does have a secret space force that he's actually concerned might one day end up taking hostile action against extraterrestrials.

176

00:17:16,000 --> 00:17:24,000

Hellyer claims his concern for the security of planet Earth is the reason he has exposed the existence of a secret space force.

177

00:17:24,000 --> 00:17:30,000

No military planner is going to want to leave any part of the battlefield undefended.

178

00:17:30,000 --> 00:17:40,000

So it stands to reason that as space is going to be an important part of any future war, you have to dominate space.

179

00:17:40,000 --> 00:17:46,000

So you need a space force, and that's probably going to be largely secret.

180

00:17:46,000 --> 00:17:53,000

If you need to defend your planet, put a base here, put a base there, put a base here, and put a base there, it's simple logistics to warfare.

181

00:17:53,000 --> 00:17:58,000

Make sure you're protected from the outside, that way your enemy can't get in.

182

00:17:58,000 --> 00:18:10,000

If a space force does exist, how far into the universe does it reach? Who controls it? And is it prepared to defend our world?

183

00:18:11,000 --> 00:18:18,000

This is Unsealed. Alien Files, exposing the biggest secret on planet Earth.
