

1

00:00:00,000 --> 00:00:08,880

Many experts believe aliens may have visited Earth before and will inevitably descend upon

2

00:00:08,880 --> 00:00:10,840

us in the future.

3

00:00:10,840 --> 00:00:16,960

But more unsettling is the possibility that aliens are already here and that they are

4

00:00:16,960 --> 00:00:21,280

using us for their own benefit.

5

00:00:21,280 --> 00:00:28,240

Join us as we investigate the growing possibility that aliens closely monitor planet Earth and

6

00:00:28,240 --> 00:00:39,240

that our civilization just may be their prized experiment.

7

00:00:39,240 --> 00:00:41,720

A global effort has begun.

8

00:00:41,720 --> 00:00:47,880

Secret files hidden from the public for decades detailing every UFO account are now available

9

00:00:47,880 --> 00:00:48,880

to the public.

10

00:00:48,880 --> 00:00:54,280

We are about to uncover the truth behind these classified documents.

11

00:00:54,280 --> 00:00:58,280

Find out what the government doesn't want you to know.

12

00:00:58,280 --> 00:00:59,280

Unsealed.

13

00:00:59,280 --> 00:01:01,280

Alien files.

14

00:01:01,280 --> 00:01:04,680

Exposing the biggest secret on planet Earth.

15

00:01:04,680 --> 00:01:11,920

UFOs and close encounters have been reported around the world for decades in densely populated

16

00:01:11,920 --> 00:01:20,000

urban centers along coastal areas, in rural farmland and in barren deserts.

17

00:01:20,000 --> 00:01:22,920

But why are UFOs here?

18

00:01:22,920 --> 00:01:25,840

What do they want?

19

00:01:25,840 --> 00:01:30,360

There are several different theories about why extraterrestrials might be visiting the

20

00:01:30,360 --> 00:01:31,360

Earth.

21

00:01:31,360 --> 00:01:34,520

That this is the prelude to some sort of alien invasion.

22

00:01:34,520 --> 00:01:41,800

That they're after our resources, whatever it is, and that they are scouting us, studying

23

00:01:41,800 --> 00:01:49,560

us and this is prelude to them coming here all guns blazing to either exterminate us

24

00:01:49,560 --> 00:01:51,040

or enslave us.

25

00:01:51,040 --> 00:01:56,560

There's a lot of theories on why they're here and I think when you truly want to answer

26

00:01:56,560 --> 00:02:01,960

that question you have to understand what the human race wants from the stars and that's

27

00:02:01,960 --> 00:02:06,360

the knowledge, it's the experience, it's the understanding of what's truly going on out

28

00:02:06,360 --> 00:02:07,360

there.

29

00:02:07,360 --> 00:02:12,280

Other theories are that they are just scientists.

30

00:02:12,280 --> 00:02:17,360

That the reason for studying Earth is purely scientific.

31

00:02:17,360 --> 00:02:22,760

They're interested in geology, meteorology.

32

00:02:22,760 --> 00:02:28,880

Science tells us that the Earth will eventually cease to exist and to survive this future

33

00:02:28,880 --> 00:02:34,960

catastrophe, the human race must develop the ability to colonize another planet.

34

00:02:34,960 --> 00:02:37,960

The human race cannot be here for infinity.

35

00:02:37,960 --> 00:02:42,960

So the same is true for other planets out there in the universe.

36

00:02:42,960 --> 00:02:48,640

Earth will die which means livable planets that are perfect today will not necessarily

37

00:02:48,640 --> 00:02:50,760

be perfect tomorrow.

38

00:02:50,760 --> 00:02:58,200

Here on Earth one way to transform inhospitable environments is called terraforming.

39

00:02:58,200 --> 00:03:06,560

Terraforming is the process by which one would take a hostile environment, an alien planet

40

00:03:06,560 --> 00:03:15,280

like Mars or Venus and one would effect through a number of different strategies, changes

41

00:03:15,280 --> 00:03:23,480

devised at making the planet more like Earth in many ways indistinguishable from Earth.

42

00:03:23,480 --> 00:03:27,720

So if an alien civilization wants to terraform Earth I think it's safe to say that they may

43

00:03:27,720 --> 00:03:30,840

need another planet to live.

44

00:03:30,840 --> 00:03:36,160

That we might be close to being perfect for them because they evolved on a hotter planet

45

00:03:36,280 --> 00:03:40,920

or maybe a colder planet so they need to turn the temperature down or turn the heater up

46

00:03:40,920 --> 00:03:45,960

so to speak but they could come and change and morph this planet into what they need.

47

00:03:45,960 --> 00:03:54,480

If you can build a spaceship and come to Earth actually causing a volcano to erupt or changing

48

00:03:54,480 --> 00:03:58,880

the path of a hurricane would probably be child's play.

49

00:03:58,880 --> 00:04:06,000

Recently one such incident had the UFO community and the public on high alert.

50

00:04:06,000 --> 00:04:08,000

One sealed case file.

51

00:04:08,000 --> 00:04:15,840

The Popocatepetal UFO May 30th 2013 Central Mexico.

52

00:04:15,840 --> 00:04:22,800

Active volcano Popocatepetal is Mexico's second highest peak and only 40 miles southeast

53

00:04:22,800 --> 00:04:25,040

of Mexico City.

54

00:04:25,040 --> 00:04:31,880

Mexican volcanologists obviously need to keep a very close idea on all the volcanoes and

55

00:04:31,880 --> 00:04:37,280

particularly Popocatepetal has been the subject of some considerable concern so there

56

00:04:37,280 --> 00:04:41,680

are remote cameras set up to monitor the volcano.

57

00:04:41,680 --> 00:04:47,720

On May 30th 2013 there was a UFO that was caught on camera that was seen streaking across

58

00:04:47,720 --> 00:04:50,200

the sky towards Mt. Popo.

59

00:04:50,200 --> 00:04:57,240

One day scientists when reviewing the film saw an anomalous light and when they played

60

00:04:57,240 --> 00:05:06,960

the film it seemed to show this UFO actually at one point changing direction and flying

61

00:05:06,960 --> 00:05:10,960

directly into the crater of the volcano itself.

62

00:05:10,960 --> 00:05:17,400

Why would a UFO fly into the smoking caldera of a volcano and how could it sustain such

63

00:05:17,400 --> 00:05:18,760

high temperatures?

64

00:05:18,760 --> 00:05:25,960

A lot of people theorize that these UFOs are helping civilization on Earth by stopping

65

00:05:25,960 --> 00:05:27,800

natural disasters.

66

00:05:27,800 --> 00:05:30,200

Mt. Popo is an active volcano.

67

00:05:30,200 --> 00:05:35,720

It can blow at any time and some think that these UFOs will have some type of physical

68

00:05:35,720 --> 00:05:41,480

effect on the mountain itself, on that volcano to in essence calm it down to where it doesn't

69

00:05:41,480 --> 00:05:45,240

erupt in essence killing thousands of people.

70

00:05:45,240 --> 00:05:50,720

One theory is that extraterrestrials monitor the Earth and occasionally use technology to

71

00:05:50,720 --> 00:05:53,840

keep us safe from a global catastrophe.

72

00:05:53,840 --> 00:05:58,640

Some people have said that this is what happened with the UFO at Popocanta Patel that this

73

00:05:58,640 --> 00:06:05,440

was some sort of probe sent into the volcano to prevent it from erupting.

74

00:06:05,440 --> 00:06:11,840

Many believe that the alien civilization that's visiting Earth is trying to help us to preserve

75

00:06:11,840 --> 00:06:18,440

us to stop any natural disaster that might just to stop a volcano in the middle of Mexico

76

00:06:18,440 --> 00:06:20,360

to save lives.

77

00:06:20,360 --> 00:06:22,040

Death is a part of living.

78

00:06:22,040 --> 00:06:23,520

It's just a fact.

79

00:06:23,520 --> 00:06:27,200

So if these are physical creatures and physical beings, I don't believe they're going to

80

00:06:27,200 --> 00:06:30,640

come to a planet simply to play God.

81

00:06:30,640 --> 00:06:36,080

It just doesn't seem plausible to me.

82

00:06:36,080 --> 00:06:41,400

Experts are divided on whether alien visitors are friend or foe.

83

00:06:41,400 --> 00:06:47,080

But ever since the first atomic bomb test on July 16th 1945 in Alamon.

84

00:06:47,080 --> 00:06:52,960

Seems clear that there is a connection of some sort between the UFO phenomenon and the

85

00:06:52,960 --> 00:06:56,800

development of nuclear technology on Earth.

86

00:06:56,800 --> 00:07:03,760

It's interesting that the birth of the modern UFO phenomenon in 1947 came very soon after

87

00:07:03,760 --> 00:07:10,560

the detonation of the first atomic bombs first as a test and then of course Hiroshima and

88

00:07:10,560 --> 00:07:11,640

Nagasaki.

89

00:07:11,640 --> 00:07:17,480

There's a lot of speculation that our nuclear development, our nuclear arsenals, the technology

90

00:07:17,480 --> 00:07:23,760

that could allow the human race to completely wipe itself literally off the map would be

91

00:07:23,760 --> 00:07:26,800

of great interest to another society.

92

00:07:26,800 --> 00:07:34,520

It's also interesting that really the first burst of UFO activity took place in a geographical

93

00:07:34,520 --> 00:07:40,960

part of the United States where so much of the world's nuclear industry was actually

94

00:07:40,960 --> 00:07:42,520

based.

95

00:07:42,520 --> 00:07:51,760

Roswell was actually the home of the world's only atomic bomb capable squadron in 1947.

96

00:07:51,760 --> 00:07:57,720

But what may have begun in New Mexico spread to all corners of the United States.

97

00:07:57,720 --> 00:08:02,880

Unsealed case file, the Minot UFO.

98

00:08:02,880 --> 00:08:09,120

October 24th 1968, Minot Air Force Base, North Dakota.

99

00:08:09,120 --> 00:08:17,600

There was an intriguing UFO encounter at Minot Air Force Base in 1968 and this involved

100

00:08:17,600 --> 00:08:25,800

by varying reports one or even two UFOs in close proximity of the base.

101

00:08:25,800 --> 00:08:31,760

And one of the things that made this case so compelling was that the UFO was tracked

102

00:08:31,760 --> 00:08:33,040

on radar.

103

00:08:33,040 --> 00:08:39,640

In the early 1960s, Minot became a major strategic air command base with nuclear tipped intercontinental

104

00:08:39,640 --> 00:08:43,200

ballistic missiles and man bombers.

105

00:08:43,200 --> 00:08:45,800

A incoming B-52 was on patrol.

106

00:08:45,800 --> 00:08:50,280

It was coming in for a landing and it was radioed that there was an unidentified craft

107

00:08:50,280 --> 00:08:54,040

about three miles from their aircraft.

108

00:08:54,040 --> 00:09:03,000

Now there was a B-52 bomber returning to the base and a personnel at Minot were in communication

109

00:09:03,000 --> 00:09:05,360

with the B-52.

110

00:09:05,360 --> 00:09:11,080

They said we are tracking on our radar scope an uncorrelated target and they asked the

111

00:09:11,080 --> 00:09:23,280

crew to look out for this and the crew themselves saw a UFO and subsequently the perimeter alarm,

112

00:09:23,280 --> 00:09:29,360

both the outer and the inner perimeter alarm were triggered.

113

00:09:29,360 --> 00:09:36,160

These pictures are actual radar scope photographs taken of the unidentified Minot object.

114

00:09:36,160 --> 00:09:43,120

Now they couldn't figure out exactly what this thing was but the B-52 confirmed by radar

115

00:09:43,120 --> 00:09:47,360

that there was a fast moving object about three miles away.

116

00:09:47,360 --> 00:09:52,920

Then all of a sudden as the documentation says the craft went from three miles to about

117

00:09:52,920 --> 00:09:58,000

one mile from the aircraft like that at a very fast rate of speed.

118

00:09:58,000 --> 00:10:01,440

Nothing that they said their technology at the time just couldn't do.

119

00:10:01,440 --> 00:10:08,200

At one point communications went offline again so one has all the way through this encounter

120

00:10:08,200 --> 00:10:09,480

the corroboration.

121

00:10:09,480 --> 00:10:12,640

This UFO was seen visually.

122

00:10:12,640 --> 00:10:14,280

It was tracked on radar.

123

00:10:14,280 --> 00:10:20,960

It was seen by the military witnesses on board the B-52 and it somehow triggered the remote

124

00:10:20,960 --> 00:10:24,160

sensors that set off the alarms.

125

00:10:24,160 --> 00:10:28,480

In evidential terms a case does not get much better than that.

126

00:10:28,480 --> 00:10:36,120

The B-52 crew claims the UFO paced their aircraft for about 20 miles before quickly disappearing.

127

00:10:36,120 --> 00:10:42,280

The B-52 crew was then radioed about a second UFO being seen on radar by the base that was

128

00:10:42,280 --> 00:10:49,160

either slightly above or on the ground just outside the military installation.

129

00:10:49,160 --> 00:10:55,280

The bomber is ordered to investigate the second UFO but they cannot identify the craft.

130

00:10:55,280 --> 00:11:01,040

The B-52 was able to do a fly by and see a brightly lit object on or near the ground

131

00:11:01,040 --> 00:11:04,000

that they simply could not identify.

132

00:11:04,000 --> 00:11:09,760

After doing a pass they later landed back at base but they were never able to determine

133

00:11:09,760 --> 00:11:12,480

what the origin of those two craft were.

134

00:11:12,480 --> 00:11:22,600

Then one is faced with the inescapable conclusion that our nuclear capability, our nuclear facilities

135

00:11:22,600 --> 00:11:25,360

are at the center of all of this.

136

00:11:25,360 --> 00:11:32,080

Many other reports suggest that some UFOs are immune to Air Force defences but still have

137

00:11:32,080 --> 00:11:34,080

never attacked.

138

00:11:34,080 --> 00:11:40,560

This leads some UFO experts to wonder if aliens might be performing reconnaissance of Earth

139

00:11:40,560 --> 00:11:43,960

or perhaps policing us.

140

00:11:43,960 --> 00:11:50,400

Does a civilization become interesting and perhaps a cause for concern when it develops

141

00:11:50,400 --> 00:11:58,600

as we developed not just nuclear technology but with our rockets, the capability to ultimately

142

00:11:58,600 --> 00:12:03,480

take our nuclear technology out into the wider galaxy?

143

00:12:03,480 --> 00:12:07,800

We don't know what part our solar system plays.

144

00:12:07,800 --> 00:12:10,740

Tonight might not be that they care about the human race.

145

00:12:10,740 --> 00:12:16,340

It might be that they care about this one planet, the third rock from the sun because

146

00:12:16,340 --> 00:12:19,840

it brings stability on a much grander scale.

147

00:12:19,840 --> 00:12:24,440

If extraterrestrials are interested in one thing about planet Earth it would be that

148

00:12:24,440 --> 00:12:31,600

thing which poses the biggest significant threat both to ourselves and indeed to any

149

00:12:31,600 --> 00:12:38,080

other civilizations that might be out there.

150

00:12:38,080 --> 00:12:43,840

Evidence suggests that planet Earth is being visited by extraterrestrials but exactly why

151

00:12:43,840 --> 00:12:48,960

they are here and what they may be after is still a mystery.

152

00:12:48,960 --> 00:12:56,560

There's something about Earth that would be helpful to them if they've got a breeding

153

00:12:56,560 --> 00:13:01,360

program, a genetic study of some sort.

154

00:13:01,360 --> 00:13:08,720

There is so much biodiversity on Earth and life seems to find its way into almost every

155

00:13:08,720 --> 00:13:17,040

niche that one could really say there's almost everything and anything that you would want

156

00:13:17,040 --> 00:13:19,800

and it's right here for the taking.

157

00:13:19,800 --> 00:13:24,320

Unsealed case file, the Corina Sables Abduction.

158

00:13:24,320 --> 00:13:30,640

Aldegrove, British Columbia, July 17th, 1991.

159

00:13:30,640 --> 00:13:36,280

Corina Sables and a friend witness a huge boomerang shaped UFO in the night sky above

160

00:13:36,280 --> 00:13:37,780

her home.

161

00:13:37,780 --> 00:13:45,800

Suddenly she vanishes, only to reappear an hour later with no memory of the incident

162

00:13:45,920 --> 00:13:50,240

and she cannot account for the missing time.

163

00:13:50,240 --> 00:13:56,040

Following her disappearance she has a strange feeling that this was not the first time she

164

00:13:56,040 --> 00:13:57,520

had been taken.

165

00:13:57,520 --> 00:14:02,720

That could be something that they could come to this planet to mine for themselves.

166

00:14:02,720 --> 00:14:05,560

Maybe that resources in the human body.

167

00:14:05,560 --> 00:14:12,000

Soon after her daughter begins drawing an alien that she calls the Doctor who she says

168

00:14:12,000 --> 00:14:16,240

occasionally enters her room while she sleeps.

169

00:14:16,240 --> 00:14:21,840

The drawing opens a flood of hidden abduction memories in Sables including needles piercing

170

00:14:21,840 --> 00:14:27,520

her stomach and seeing rows of alien fetuses in liquid suspension.

171

00:14:27,520 --> 00:14:33,600

Now in this incident it's reported that DNA was actually removed.

172

00:14:33,600 --> 00:14:39,440

It's as if these people are being harvested almost as a resource.

173

00:14:39,440 --> 00:14:45,240

As the memories become more distinct Sables comes to believe that she is part of an ongoing

174

00:14:45,240 --> 00:14:49,640

experiment to create alien human hybrids.

175

00:14:49,640 --> 00:14:57,440

The Corina Sables incident is really a classic example of what you would call a repeater

176

00:14:57,440 --> 00:14:59,440

abductee.

177

00:14:59,440 --> 00:15:01,960

Somebody who's had multiple experiences.

178

00:15:01,960 --> 00:15:04,440

These things are seldom one-offs.

179

00:15:04,440 --> 00:15:09,840

Sables makes another startling revelation recalling childhood stories that her mother

180

00:15:09,840 --> 00:15:14,360

told her stories of alien abduction.

181

00:15:14,360 --> 00:15:20,080

They start in childhood they continue throughout the lifetime they seem to involve different

182

00:15:20,080 --> 00:15:23,200

members of the same family.

183

00:15:23,200 --> 00:15:29,120

The question is what sort of interest and use to the abductors is genetic material from

184

00:15:29,120 --> 00:15:32,240

multi-generational bloodlines.

185

00:15:32,240 --> 00:15:39,040

Sables claims her womb has been used by grays to produce alien fetuses but before they can

186

00:15:39,040 --> 00:15:45,240

be born she is abducted again and they are removed from her body.

187

00:15:45,240 --> 00:15:54,040

Human DNA and genetic material is being harvested as part of a program to create a hybrid race.

188

00:15:54,040 --> 00:15:57,920

But why would the grays want to crossbreed with humans?

189

00:15:57,920 --> 00:16:05,640

It's been speculated that the grays might be clones that are degrading through successive

190

00:16:05,640 --> 00:16:06,880

clonings.

191

00:16:06,880 --> 00:16:13,920

The idea one often hears is that the aliens are a dying race that they're trying to reinvigorate

192

00:16:13,920 --> 00:16:23,640

themselves by bringing in fresh genetic material to enable them to breed again to procreate

193

00:16:23,640 --> 00:16:24,640

to survive.

194

00:16:25,640 --> 00:16:34,800

Some believe that aliens may be among us and they may be after more than just our physical

195

00:16:34,800 --> 00:16:36,800

resources.

196

00:16:36,800 --> 00:16:41,640

There could be a thousand or a million or even an infinite possibilities of what they

197

00:16:41,640 --> 00:16:44,760

don't have but the human race takes for granted.

198

00:16:44,760 --> 00:16:54,560

So maybe millennia ago these were biological intelligences who lost their biology, they

199

00:16:54,560 --> 00:17:01,680

lost their bodies and it's now maybe they want back what they once had.

200

00:17:01,680 --> 00:17:08,120

Could some extraterrestrials originate from vast cyborg civilizations and if so what is

201

00:17:08,120 --> 00:17:12,520

the one key thing these beings might be lacking?

202

00:17:12,520 --> 00:17:15,560

The one thing that they might want is a soul.

203

00:17:15,560 --> 00:17:23,040

If some alien civilizations are seeking something much deeper than just our DNA what might happen

204

00:17:23,040 --> 00:17:25,200

if they succeed?

205

00:17:25,200 --> 00:17:31,800

Imagine something which has existed as a clone for millennia suddenly getting hold of human

206

00:17:31,800 --> 00:17:37,960

emotions, anger, love, fear, hate, wonder.

207

00:17:37,960 --> 00:17:41,080

Would they be able to control these emotions?

208

00:17:41,120 --> 00:17:43,080

Would they be able to handle them?

209

00:17:43,080 --> 00:17:46,880

Look at humans, you've got some really good ones and you've got some really bad ones.

210

00:17:46,880 --> 00:17:52,560

The minute a machine can think for itself and all of a sudden a thousand years of human

211

00:17:52,560 --> 00:17:58,880

thought is achieved in 72 hours by a machine, when you look at that you're flirting with

212

00:17:58,880 --> 00:17:59,880

disaster.

213

00:17:59,880 --> 00:18:06,160

This is Unseal, Alien Files, exposing the biggest secret on planet Earth.
