

1

00:00:00,000 --> 00:00:07,480

If aliens exist, how do they navigate the vast regions of space?

2

00:00:07,480 --> 00:00:14,640

And if they have visited Earth, did they leave behind any clues about where they came from?

3

00:00:14,640 --> 00:00:20,400

From holographic star maps to intra-terrestrial wormholes inside Earth?

4

00:00:20,400 --> 00:00:27,200

Join us as we investigate how spaceships complete interstellar travel and the staggering possibility

5

00:00:27,200 --> 00:00:32,200

that some aliens may have revealed their directions home.

6

00:00:37,200 --> 00:00:43,200

A global effort has begun. Secret files hidden from the public for decades,

7

00:00:43,200 --> 00:00:47,200

detailing every UFO account, are now available to the public.

8

00:00:47,200 --> 00:00:52,200

We are about to uncover the truth behind these classified documents.

9

00:00:52,200 --> 00:00:59,200

Find out what the government doesn't want you to know. Unsealed, alien files,

10

00:00:59,200 --> 00:01:03,200

exposing the biggest secret on planet Earth.

11

00:01:04,200 --> 00:01:10,200

The universe is such an infinite place that light from the stars we see at night,

12

00:01:10,200 --> 00:01:15,200

stars in our own galaxy, takes hundreds of years to reach us.

13

00:01:15,200 --> 00:01:20,200

And there are hundreds of billions of galaxies in the universe.

14

00:01:20,200 --> 00:01:24,200

Within the universe, Earth is like a grain of sand in the Sahara.

15

00:01:24,200 --> 00:01:30,200

So, if extraterrestrials have visited here, how did they find us?

16

00:01:30,200 --> 00:01:37,200

Where did they come from? And how did they cross such an unfathomable distance?

17

00:01:37,200 --> 00:01:43,200

One of the popular theories is a wormhole or a portal that an alien civilization could travel to.

18

00:01:43,200 --> 00:01:47,200

Instead of point A and point B having a straight line to connect them,

19

00:01:47,200 --> 00:01:52,200

the UN essence will morph space and time and bring those points together.

20

00:01:52,200 --> 00:01:57,200

Unsealed case file, the Oswald Abduction.

21

00:01:57,200 --> 00:02:02,200

October 15th, 1979, Rio de Janeiro, Brazil.

22

00:02:02,200 --> 00:02:07,200

Respected concert pianist Lule Oswald is driving at night with a friend

23

00:02:07,200 --> 00:02:11,200

down a coastal highway 30 miles north of Rio.

24

00:02:11,200 --> 00:02:18,200

Suddenly, several hundred yards offshore, she sees UFOs launch out of the water.

25

00:02:19,200 --> 00:02:24,200

They saw UFO and underwent what the UFO community would say is

26

00:02:24,200 --> 00:02:30,200

almost like a classic missing time alien abduction encounter.

27

00:02:31,200 --> 00:02:37,200

Lule and her friend later describe seeing a black UFO, darker than the sky,

28

00:02:37,200 --> 00:02:42,200

with a domed top that is more than 300 meters across.

29

00:02:42,200 --> 00:02:45,200

Two smaller UFOs chase their car.

30

00:02:45,200 --> 00:02:52,200

Lule and her friend panic, but the next instant find themselves driving safely down the road again.

31

00:02:52,200 --> 00:02:59,200

All is normal, except for one thing. It's three hours later.

32

00:02:59,200 --> 00:03:06,200

Investigators soon discover other UFO encounters have been reported on the same stretch of lonely highway,

33

00:03:06,200 --> 00:03:12,200

but Lule's nightmare does not fully begin until she undergoes hypnosis.

34

00:03:12,200 --> 00:03:17,200

She asks one of the beings where they come from, and he describes a tunnel

35

00:03:17,200 --> 00:03:20,200

connecting to a portal under Antarctica.

36

00:03:20,200 --> 00:03:26,200

This was one of the upshots of the Lule Oswald case, that actually there are,

37

00:03:26,200 --> 00:03:33,200

I suppose what you would call, portals, gateways perhaps to other locations, other dimensions,

38

00:03:33,200 --> 00:03:42,200

and that those portals are hidden out of our sight by virtue of being in our oceans.

39

00:03:42,200 --> 00:03:47,200

Some people believe that other dimensions are all around us,

40

00:03:47,200 --> 00:03:53,200

and that within them laws of physics totally different to our own may apply.

41

00:03:53,200 --> 00:03:58,200

Theories of wormholes and portals and bending space and time, that all sounds great,

42

00:03:58,200 --> 00:04:02,200

but there is a possibility that it's just a theory, that none of it is true.

43

00:04:02,200 --> 00:04:09,200

But recently, NASA discovered that a portal may not be just the cornerstone of science fiction.

44

00:04:09,200 --> 00:04:15,200

NASA's Themis spacecraft is designed to detect electromagnetic fields that interact with the Earth,

45

00:04:15,200 --> 00:04:22,200

fields that create the aurora borealis, but instead it found something remarkable.

46

00:04:22,200 --> 00:04:31,200

Their Themis spacecraft has located portals in the Earth's magnetic field, which they call X points.

47

00:04:31,200 --> 00:04:41,200

Particles will actually spill out from one side of the Sun, go through where the bridge or the barricade of the two magnetic fields

48

00:04:41,200 --> 00:04:47,200

joined together will go through that, and actually have quite a bit of effect here on the planet Earth,

49

00:04:47,200 --> 00:04:53,200

where extreme light shows of the aurora borealis will light up our atmosphere.

50

00:04:53,200 --> 00:04:59,200

They are, from an undeniable scientific mainstream point of view,

51

00:04:59,200 --> 00:05:08,200

a way in which from the Sun's magnetic field to the Earth's magnetic field, there is this flow.

52

00:05:08,200 --> 00:05:12,200

Imagine a canoeist on a lake.

53

00:05:12,200 --> 00:05:20,200

Now, that canoeist will have to paddle, but now imagine that same canoeist on a fast flowing river.

54

00:05:20,200 --> 00:05:25,200

You know, they actually don't have to do anything, they just go with the flow.

55

00:05:25,200 --> 00:05:34,200

That is maybe how extraterrestrials are using the natural phenomena that we find in the universe to travel.

56

00:05:34,200 --> 00:05:42,200

Many experts believe NASA's Themis spacecraft may have discovered the genesis of how portals come to be,

57

00:05:42,200 --> 00:05:46,200

and it may be the key to extraterrestrial technology.

58

00:05:46,200 --> 00:05:54,200

We're on the cusp of understanding these little hidden discoveries in the universe that maybe one day will understand

59

00:05:54,200 --> 00:06:02,200

there's a portal between point A and point B, that instead of creating that straight line and traversing it over 100,000 years,

60

00:06:02,200 --> 00:06:08,200

you can travel through a doorway and get there in a day and a half.

61

00:06:08,200 --> 00:06:16,200

Our limited understanding of the physical universe may be the only thing preventing us from navigating the galaxy,

62

00:06:16,200 --> 00:06:23,200

but when the time does come for humans to travel well beyond the moon, like all explorers, we will need a map.

63

00:06:23,200 --> 00:06:30,200

Whether you are human or whether you're alien, if you want to get from A to B, you need a map.

64

00:06:30,200 --> 00:06:35,200

Unsealed case file, Betty and Barney Hill.

65

00:06:35,200 --> 00:06:40,200

September 19th 1961, Portsmouth, New Hampshire.

66

00:06:40,200 --> 00:06:50,200

Betty and Barney Hill are driving a rural stretch of New Hampshire highway when they claim 11 humanoid creatures from a UFO abduct them.

67

00:06:50,200 --> 00:06:56,200

And one of these aliens allegedly shows Betty a map.

68

00:06:56,200 --> 00:07:08,200

When Betty Hill underwent hypnotic regression, one of the things that she recalled was being showed what she could only really describe as a star map.

69

00:07:08,200 --> 00:07:14,200

As she drew this star map for quite a long time, no one really knew exactly what she drew.

70

00:07:14,200 --> 00:07:22,200

The extraterrestrial apparently explained to her, this is planet Earth and this is our world,

71

00:07:22,200 --> 00:07:30,200

and these lines between the various dots are effectively the routes by which they travel.

72

00:07:30,200 --> 00:07:37,200

It's an astounding claim. Can this map actually be the location of an alien civilization?

73

00:07:37,200 --> 00:07:42,200

Years later, an amateur astronomer decided to find out.

74

00:07:42,200 --> 00:07:51,200

Marjorie Fish, a teacher with an astronomy background, was able to look at the star map and realized it was accurate.

75

00:07:51,200 --> 00:07:58,200

But the most amazing thing was it wasn't accurate from the viewpoint of Earth, it was accurate from the stars out there.

76

00:07:58,200 --> 00:08:05,200

The alien map allegedly depicts routes between two star systems many light years apart.

77

00:08:05,200 --> 00:08:11,200

They were able to determine it with the Zeta reticuli star system, but her star map was actually reversed.

78

00:08:11,200 --> 00:08:16,200

It was the view of the Zeta reticuli star system from the outside looking in.

79

00:08:16,200 --> 00:08:19,200

That's an amazing discovery to make.

80

00:08:19,200 --> 00:08:27,200

It's around 36, 37 light years from the Earth, so in galactic terms it's right on our doorstep,

81

00:08:27,200 --> 00:08:33,200

which makes it a prime candidate for where a civilization might be located.

82

00:08:33,200 --> 00:08:38,200

There are millions and millions of stars that are out there, this could have been anywhere.

83

00:08:38,200 --> 00:08:47,200

If the Hill's map is true, what kind of technology would allow a civilization the ability of interstellar travel?

84

00:08:47,200 --> 00:08:56,200

After years of investigation, an employee from NASA writes a groundbreaking book on UFO propulsion technology.

85

00:08:56,200 --> 00:09:10,200

Paul Hill's book, *Unconventional Flying Objects*, was one of the only, if not the only, UFO book, not to say, what are UFOs?

86

00:09:10,200 --> 00:09:12,200

Who are they? What do they want?

87

00:09:12,200 --> 00:09:19,200

But to ask that critical question that a scientist would ask, how do they work? How do they fly?

88

00:09:19,200 --> 00:09:25,200

Paul Hill was one of the leading aerodynamicists that worked for NASA and its precursor agency, NACA.

89

00:09:25,200 --> 00:09:31,200

And Paul had an extreme interest in UFOs because he actually saw a couple himself.

90

00:09:31,200 --> 00:09:36,200

He reported them while the military was doing their investigation called Project Blue Book.

91

00:09:36,200 --> 00:09:47,200

And Paul Hill put together a theory which he said, unlike science fiction, doesn't need any breakthrough physics.

92

00:09:47,200 --> 00:09:55,200

It doesn't need any leap of faith. It works with the laws of physics as they are, as we understand them.

93

00:09:55,200 --> 00:10:09,200

After studying many disc-shaped UFO encounters, Paul Hill's theory on UFO propulsion is that the UFOs are able to generate a force field around them that isolates them from the environment.

94

00:10:09,200 --> 00:10:16,200

The force field decreases the force of gravity, pulling on the UFO, and therefore, the resistance.

95

00:10:16,200 --> 00:10:35,200

It is effectively a sort of repulsive force. In other words, the sorts of things that would slow down a conventional object, like an aircraft or one of our own spacecraft, would be the weight, the mass, the air resistance.

96

00:10:35,200 --> 00:10:49,200

What you would need to do is shield your object, your UFO, from these external forces. So you would need that shielding, and you would also need a repulsive force.

97

00:10:49,200 --> 00:10:58,200

That craft could achieve those great speeds because the internal environment around the craft was much different than what was outside that bubble.

98

00:10:58,200 --> 00:11:09,200

And it would be able to fly through the stars at great speed and at great levels and to travel those light years, thousands of light years that it needed, to go from point A to point B.

99

00:11:28,200 --> 00:11:43,200

It seems clear that science is beginning to look seriously at the idea of exotic energy sources, exotic propulsion systems, rotating discs, and anti-gravity.

100

00:11:43,200 --> 00:11:50,200

These are the first steps in taking humanity out of the cosmos.

101

00:11:50,200 --> 00:12:02,200

The theory is that they could potentially unlock those secrets of the cosmos, figure out how to do 100,000 light years of travel in a very short amount of time, where, yeah, you and I can't understand that.

102

00:12:02,200 --> 00:12:07,200

But in Alien Race, who had a million-year head start on us, that's child's play.

103

00:12:20,200 --> 00:12:40,200

At night, when they spot a convex object in the sky, John pulls the car over and sees a silent, black, disc-shaped UFO. He drives away in fear, but it takes an unusually long time to arrive at their destination, time for which he has no explanation.

104

00:12:40,200 --> 00:13:04,200

The Janos incident of 1978 gives us an incredibly rich narrative of another civilization. The story that emerged here from the family that encountered these extraterrestrials was that they were dealing with almost, I guess you used the phrase, galactic refugees.

105

00:13:04,200 --> 00:13:12,200

Under regression hypnosis, the man family recounts an incredible encounter with an enormous alien civilization.

106

00:13:12,200 --> 00:13:36,200

A cataclysmic event involving the destruction of one of their own moons had reigned fire and destruction on their own world, and a huge ring-shaped spaceship with 10 million passengers had effectively taken the Janos people away to seek a new home.

107

00:13:36,200 --> 00:13:43,200

The aliens allegedly tell the man family that they are parked in Earth's orbits, waiting for permission to land.

108

00:13:43,200 --> 00:13:51,200

We get this incredible account of a civilization looking for a new home right here.

109

00:13:51,200 --> 00:13:57,200

The family allegedly encounters one particular alien who offers them a stunning proposition.

110

00:13:57,200 --> 00:14:16,200

And that the leader had said, if you will deal with us, if you will give us permission to make our home here as our world has been destroyed, is that we will give you, the human race, the secrets of our spaceship.

111

00:14:16,200 --> 00:14:20,200

We will share with you our technology.

112

00:14:20,200 --> 00:14:27,200

John Mann then claims he has taken around the spaceship and shown its propulsion system.

113

00:14:27,200 --> 00:14:38,200

If humans acquired the secrets of building ships that would take us to the stars, the value of that to the human race would be incalculable.

114

00:14:38,200 --> 00:14:58,200

John Mann claims that he has shown the alien civilization's journey from Earth back to planet Janus. But how did they get here? Many modern scientists believe that developing some form of anti-gravity propulsion system is the key to understanding how many UFOs behave.

115

00:14:58,200 --> 00:15:12,200

Because there's a lot of speculation that any exotic energy source and propulsion system either uses or has as its byproduct a plasma.

116

00:15:12,200 --> 00:15:34,200

Plasma is a supercharged state of gas created by electromagnetic forces. But just how a UFO may utilize it is a mystery. Many reports of UFOs describe a bright light like a ball of plasma that often turns into a metallic looking UFO upon closer examination.

117

00:15:34,200 --> 00:15:41,200

Could plasma be the key to understanding how extraterrestrials are able to perform interstellar

travel?

118

00:15:41,200 --> 00:16:03,200

It's all tied in with plasmas. And again all of this link, UFOs, EM fields, plasmas, rotating disks, all of those links have been made in the few but significant scientific examinations of the UFO phenomenon.

119

00:16:04,200 --> 00:16:18,200

Technological advances in the fields of physics and propulsion technology are rapidly confirming what many in the UFO community have been considering for decades.

120

00:16:18,200 --> 00:16:47,200

In the 90s a maverick scientist stepped forward to claim that he had effectively constructed an anti-gravity device of some sort. He constructed these ceramic rings which he put into magnetic fields using superconductors and rotating this claimed that as much as 2% of the weight

121

00:16:48,200 --> 00:16:57,200

just disappeared. Just how important would a scientific breakthrough of that magnitude be to the future of humanity?

122

00:16:57,200 --> 00:17:15,200

If a civilization has a 100,000 year or a 500,000 year or a million year head start, their technology, their intelligence, their science, their ability to really kind of traverse the stars is going to be so far beyond the capability of the human race.

123

00:17:15,200 --> 00:17:19,200

We wouldn't even be able to fathom it as a society right now.

124

00:17:19,200 --> 00:17:28,200

Is the future of interstellar flight within our grasp? And if so, what does that say about our place in the galaxy?

125

00:17:28,200 --> 00:17:53,200

The human race needs to go to the stars if we're to evolve and survive and we can't do that without interstellar travel, viable interstellar faster than light travel. If someone can give us that, if we can trade that, the value of that, we are talking nothing less than the survival of the human race itself.

126

00:17:53,200 --> 00:17:55,200

And those are high stakes.

127

00:18:23,200 --> 00:18:25,200

you
