

1

00:00:00,000 --> 00:00:05,400

Where do UFOs come from?

2

00:00:05,400 --> 00:00:06,400

Distant galaxies?

3

00:00:06,400 --> 00:00:07,400

Wormholes?

4

00:00:07,400 --> 00:00:11,480

Other planets in our own solar system?

5

00:00:11,480 --> 00:00:16,400

Or are they coming from somewhere even closer?

6

00:00:16,400 --> 00:00:19,560

Are they coming from Earth?

7

00:00:19,560 --> 00:00:22,400

There are strange things flying around in the skies.

8

00:00:22,400 --> 00:00:24,760

Are they alien spacecraft?

9

00:00:24,760 --> 00:00:27,720

Are they advanced military projects?

10

00:00:27,720 --> 00:00:32,320

Scientists believe governments around the world may be secretly developing advanced

11

00:00:32,320 --> 00:00:36,160

aircraft with alien technology.

12

00:00:36,160 --> 00:00:48,640

Join us as we investigate the existence of UFOs from Earth.

13

00:00:48,640 --> 00:00:51,120

A global effort has begun.

14

00:00:51,120 --> 00:00:57,200

Secret files hidden from the public for decades, detailing every UFO account, are now available

15

00:00:57,200 --> 00:00:58,640

to the public.

16

00:00:58,640 --> 00:01:03,680

We are about to uncover the truth behind these classified documents.

17

00:01:03,680 --> 00:01:07,000

Find out what the government doesn't want you to know.

18

00:01:07,000 --> 00:01:10,680

Unseal alien files.

19

00:01:10,680 --> 00:01:15,720

Exposing the biggest secret on planet Earth.

20

00:01:15,720 --> 00:01:22,560

Some UFO sightings cannot be explained, and many of them occur near military bases.

21

00:01:22,560 --> 00:01:24,640

Is this a coincidence?

22

00:01:24,640 --> 00:01:27,600

Or is there a connection?

23

00:01:27,600 --> 00:01:33,120

Many ufologists believe that government scientists may be secretly developing advanced aircraft

24

00:01:33,120 --> 00:01:36,960

that do not look like anything we have seen before.

25

00:01:36,960 --> 00:01:41,520

If this is true, where did the technology come from?

26

00:01:41,520 --> 00:01:44,080

Did we develop it ourselves?

27

00:01:44,080 --> 00:01:46,960

Or did we acquire it?

28

00:01:46,960 --> 00:01:54,360

One of the great theories in the UFO community is that if an alien spacecraft really did

29

00:01:54,360 --> 00:02:01,520

crash in Roswell, New Mexico in 1947, we now have that technology.

30

00:02:01,520 --> 00:02:06,120

In other words, the government, the military, the scientific community all came together

31

00:02:06,120 --> 00:02:14,840

in secret and derived all sorts of scientific and technological breakthroughs from the wreckage.

32

00:02:14,840 --> 00:02:20,680

The theory of back engineering is if an alien spacecraft were to crash here on Earth, we

33

00:02:20,680 --> 00:02:26,400

as human scientists would be able to go out, actually take this technology and figure out

34

00:02:26,400 --> 00:02:27,640

how it works.

35

00:02:27,640 --> 00:02:35,920

It's been alleged that the integrated circuit chip, night vision goggles, lasers, Kevlar,

36

00:02:35,920 --> 00:02:43,080

body armor, all sorts of technology derives from a crashed alien spacecraft at Roswell.

37

00:02:43,080 --> 00:02:48,920

We then take our technology, which is an advanced, and bring it up to that speed, bring it up

38

00:02:48,920 --> 00:02:51,200

to that level.

39

00:02:51,200 --> 00:02:56,280

Many experts believe that if the government had an alien spaceship fall in their lap,

40

00:02:56,280 --> 00:03:03,480

they would jump at the chance to understand its design and keep the entire project a secret.

41

00:03:03,480 --> 00:03:08,680

Of course they would try to figure out how it worked, and of course they would try to

42

00:03:08,680 --> 00:03:16,520

use that to ensure that the United States had that power, that technology.

43

00:03:16,520 --> 00:03:21,240

It was like the military caught on and thought, maybe we can make these things fly.

44

00:03:21,240 --> 00:03:26,120

Maybe instead of two wings and a tail, we can make aircraft that are flying saucers.

45

00:03:26,120 --> 00:03:30,240

And so through the late 1940s and the 50s, you saw on the drawing boards of the United

46

00:03:30,240 --> 00:03:35,720

States Air Force and the military these schematics for flying saucer type designs.

47

00:03:35,720 --> 00:03:37,760

The incentive is huge.

48

00:03:37,760 --> 00:03:44,120

Any nation on earth acquiring extraterrestrial technology would self-evidently be the dominant

49

00:03:44,120 --> 00:03:48,600

force on the planet for the foreseeable future.

50

00:03:48,600 --> 00:03:52,440

Unsealed case file, the Avrocar.

51

00:03:52,440 --> 00:03:57,000

March 1958, Toronto, Canada.

52

00:03:57,000 --> 00:04:02,600

Leading aerospace engineer John Frost, working for DeHaveland, Canada, pitches a proof of

53

00:04:02,600 --> 00:04:06,960

concept test vehicle called the Avrocar.

54

00:04:06,960 --> 00:04:14,280

Originally conceived as a flying jeep, it was expected to replace the helicopter in battle.

55

00:04:14,280 --> 00:04:20,680

Over the years, numerous patents have been granted for disk-shaped craft.

56

00:04:20,680 --> 00:04:26,920

It's been a sort of holy grail for aeronautical engineers and inventors.

57

00:04:26,920 --> 00:04:29,360

Can we get something like this to fly?

58

00:04:29,360 --> 00:04:33,960

One thing that skeptics love to point to during the 1950s and 1960s is the fact that

59

00:04:33,960 --> 00:04:38,280

the military could have been testing flying saucer type aircraft.

60

00:04:38,280 --> 00:04:45,320

They point to one, specifically the Avrocar, which was very much a metallic disk-shaped

61

00:04:45,320 --> 00:04:46,720

flying saucer.

62

00:04:46,720 --> 00:04:54,520

Sadly, when you look at the footage of this, what you see is this thing just hovering a

63

00:04:54,520 --> 00:05:01,560

few feet above the ground, wobbling around in a really unstable way.

64

00:05:01,560 --> 00:05:06,680

Actually, a disk-shaped object is surprisingly unstable.

65

00:05:06,680 --> 00:05:11,400

They couldn't figure out how to make this craft stable enough to actually have some kind

66

00:05:11,400 --> 00:05:13,400

of a flight that was worthwhile.

67

00:05:13,400 --> 00:05:17,880

They took it out of the hangar, they tried to make it go up, and it just simply didn't.

68

00:05:17,880 --> 00:05:22,880

It soon became apparent that the original concept was flawed, and the development of

69

00:05:22,880 --> 00:05:26,480

the Avrocar was cancelled.

70

00:05:26,480 --> 00:05:28,000

Now that might sound odd.

71

00:05:28,000 --> 00:05:30,080

I mean, Frisbees seemed to go quite well.

72

00:05:30,080 --> 00:05:31,080

Who knows?

73

00:05:31,080 --> 00:05:36,480

Maybe that wobbly old film footage of the Avrocar is just disinformation.

74

00:05:36,480 --> 00:05:38,120

Maybe they got it to work after all.

75

00:05:38,120 --> 00:05:43,560

But if there are other civilizations visiting us that are thousands, if not millions of

76

00:05:43,560 --> 00:05:47,120

years ahead, could we even understand their technology?

77

00:05:47,120 --> 00:05:53,800

The question is, did American ingenuity create a flying saucer that actually flew?

78

00:05:53,800 --> 00:06:01,400

I mean, ask yourself if a jet fighter crashed in, I don't know, 300 years ago.

79

00:06:01,400 --> 00:06:09,400

Could anyone really even figure out what it was, let alone rebuild one?

80

00:06:09,400 --> 00:06:14,800

Many UFO enthusiasts believe American aerospace scientists have been working on developing

81

00:06:14,800 --> 00:06:19,240

a top secret flying saucer since the 1940s.

82

00:06:19,240 --> 00:06:22,240

Publicly, attempts have failed.

83

00:06:22,240 --> 00:06:27,320

But behind closed doors, there are rumors that they have successfully designed one of

84

00:06:27,320 --> 00:06:31,000

the most advanced vehicles ever known.

85

00:06:31,000 --> 00:06:33,800

There are strange things flying around in the skies.

86

00:06:33,800 --> 00:06:36,160

Are they alien spacecraft?

87

00:06:36,160 --> 00:06:38,880

Are they advanced military projects?

88

00:06:38,880 --> 00:06:45,600

Or are they military projects derived from back-engineered alien technology?

89

00:06:45,600 --> 00:06:50,600

Unsealed case file, the TR-3.

90

00:06:50,600 --> 00:06:56,160

Now allegedly, even though there's no proof of it yet, this is a triangle-shaped aircraft

91

00:06:56,160 --> 00:07:02,160

developed by the military that can fly at great speeds and pretty much perform unlike

92

00:07:02,160 --> 00:07:06,440

any other piece of technology that we currently have flying in the sky.

93

00:07:06,440 --> 00:07:09,120

Is there a mixture of fact and fiction here?

94

00:07:09,120 --> 00:07:10,120

I don't know.

95

00:07:10,120 --> 00:07:17,800

But this segues out of the UFO community and into the aviation community.

96

00:07:17,800 --> 00:07:20,240

And there's a genuine mystery here.

97

00:07:20,240 --> 00:07:25,280

It is rumored to be designed by one of Lockheed Martin's advanced development programs at

98

00:07:25,280 --> 00:07:29,600

the infamous Skunk Works in Palmdale, California.

99

00:07:29,600 --> 00:07:40,200

Unconfirmed reports say the TR-3 is 600 feet across and capable of 40G accelerations.

100

00:07:40,200 --> 00:07:45,600

But what differentiates it from conventional craft is something called electro-gravity

101

00:07:45,600 --> 00:07:48,120

propulsion.

102

00:07:48,120 --> 00:07:53,440

Electro-gravity is an invention by T-Towns and Brown where he really aimed to try and

103

00:07:53,440 --> 00:07:56,400

figure out a different type of propulsion.

104

00:07:56,400 --> 00:08:00,920

Brown is granted a UK patent for a gravitator.

105

00:08:00,920 --> 00:08:05,320

A device that he claims can control gravity.

106

00:08:05,320 --> 00:08:11,360

What he was trying to do was create an electrical field and alter the electrical field around

107

00:08:11,360 --> 00:08:12,360

an object.

108

00:08:12,360 --> 00:08:17,320

He called it electro-gravity, where altering that electrical field would allow a craft

109

00:08:17,320 --> 00:08:22,880

to travel at a much faster speed and a much different and more efficient way.

110

00:08:22,880 --> 00:08:28,280

If Brown did develop the gravitator, the anti-gravity technology could have changed

111

00:08:28,280 --> 00:08:29,960

the world.

112

00:08:29,960 --> 00:08:34,840

This really would be the holy grail of propulsion.

113

00:08:34,840 --> 00:08:39,040

This again would take us into the realms of science fiction.

114

00:08:39,040 --> 00:08:44,840

So it's an area that a lot of people are examining extremely seriously.

115

00:08:44,840 --> 00:08:52,760

If the TR-3B does exist, some experts believe it might explain recent high-profile UFO sight

116

00:08:52,840 --> 00:08:53,840

findings.

117

00:08:53,840 --> 00:08:57,120

You've got these black triangle flying craft in the sky.

118

00:08:57,120 --> 00:09:02,480

You've got some photographs floating around that really show what essentially could be

119

00:09:02,480 --> 00:09:09,320

a very stealth aircraft-like piece of technology that the United States can be developing.

120

00:09:09,320 --> 00:09:17,680

If this exists, could it be that these things aren't alien but super-secret aviation projects

121

00:09:17,680 --> 00:09:22,320

that the government will go to any lengths to hide and cover up?

122

00:09:22,320 --> 00:09:27,640

It is possible that they could have back-engineered whatever crashed and essentially took that

123

00:09:27,640 --> 00:09:32,920

technology that was alien at the time and made a commonplace today.

124

00:09:32,920 --> 00:09:40,160

Recently, Mexican physicist Miguel Alcubierre developed a groundbreaking theory about how

125

00:09:40,160 --> 00:09:44,880

we may be able to navigate time and space.

126

00:09:44,880 --> 00:09:49,920

Alcubierre's warp bubble theory said that instead of traveling from point A to point

127

00:09:50,000 --> 00:09:55,920

B in a straight line, that what you could essentially do is bend space and time.

128

00:09:55,920 --> 00:10:02,000

Now this is the idea that in the early universe, shortly after the Big Bang, there was a period

129

00:10:02,000 --> 00:10:07,600

of what's called inflation that does seem to be faster than light.

130

00:10:07,600 --> 00:10:13,200

So if that's the case, maybe we could somehow construct something that could work off those

131

00:10:13,200 --> 00:10:14,720

same principles.

132

00:10:14,720 --> 00:10:19,440

Although you wouldn't necessarily achieve speed of light, by compressing what's in

133

00:10:19,440 --> 00:10:23,840

front of you and expanding what's behind you, the time that it would take to travel

134

00:10:23,840 --> 00:10:27,160

from A to B is exponentially less.

135

00:10:27,160 --> 00:10:29,680

Imagine walking through an airport.

136

00:10:29,680 --> 00:10:34,800

Well, you can walk at a certain speed, but then imagine when you go on one of those moving

137

00:10:34,800 --> 00:10:40,600

walkways, you're going even faster because the thing that you're on is not stationary

138

00:10:40,600 --> 00:10:41,600

anymore.

139

00:10:41,960 --> 00:10:48,240

It's kind of like the layperson's explanation for this warp bubble.

140

00:10:48,240 --> 00:10:53,640

But if scientists have been able to merge advanced physics theories with rear-engineered

141

00:10:53,640 --> 00:10:59,320

alien craft, how have they kept it a secret for so long?

142

00:10:59,320 --> 00:11:03,640

You start seeing these mysterious and unknown programs in budgets, and then you try and

143

00:11:03,640 --> 00:11:07,880

do investigations on it and they say, sorry, it doesn't exist.

144

00:11:07,880 --> 00:11:10,480

And then in the next year, it's completely gone from the budget.

145

00:11:10,480 --> 00:11:12,320

It's all muddies to the waters.

146

00:11:12,320 --> 00:11:18,520

So again, when you get into the world of intelligence and counterintelligence, things get very murky

147

00:11:18,520 --> 00:11:25,080

and it's almost impossible for anyone on the outside to determine what's real and what isn't.

148

00:11:25,080 --> 00:11:31,120

So I think the general public and their knowledge about everything is decades behind what is

149

00:11:31,120 --> 00:11:32,600

actually going on.

150

00:11:40,800 --> 00:11:46,420

Now, this is supposedly a hypersonic anti-gravit of the

151

00:11:46,420 --> 00:11:50,340

space cor■dbus, which is the most familiar to Betbing.

152

00:11:50,520 --> 00:11:52,400

You could say that is is by the RAV Ra clan.

153

00:11:52,600 --> 00:11:59,240

The AL gimbal is either, or its wings magnifying the cameras while it's short for camera,

154

00:11:59,260 --> 00:12:06,920

but photographer Nik Frontie might have indeed no influence on this thing.

155

00:12:06,920 --> 00:12:11,920

supposedly a hypersonic anti-gravity space bomber.

156

00:12:12,240 --> 00:12:14,000

I mean, this thing really does sound like

157

00:12:14,000 --> 00:12:16,040

something out of Star Wars.

158

00:12:16,040 --> 00:12:20,800

Anti-gravity, killer lasers, capable of speeds,

159

00:12:20,800 --> 00:12:23,280

apparently of Mach 50.

160

00:12:23,280 --> 00:12:28,280

Mach 50 is approximately 38,000 miles per hour.

161

00:12:28,360 --> 00:12:30,160

To escape Earth's gravity,

162

00:12:30,160 --> 00:12:34,920

a spaceship needs to only travel 25,000 miles per hour.

163

00:12:34,920 --> 00:12:37,680

I mean, this would be orders of magnitude

164

00:12:37,680 --> 00:12:42,680

above anything that even the most forward-thinking people

165

00:12:43,000 --> 00:12:45,960

in the aviation community can imagine.

166

00:12:45,960 --> 00:12:49,160

It's advanced electromagnetic power generation

167

00:12:49,160 --> 00:12:54,160

allegedly uses toroidal fields to push back against gravity,

168

00:12:54,320 --> 00:12:56,060

not unlike the propulsion methods

169

00:12:56,060 --> 00:12:59,840

that many UFOI witnesses have claimed to see.

170

00:13:00,680 --> 00:13:03,280

UFOlogists believe the Taw 50

171

00:13:03,280 --> 00:13:06,880

is kept at the top secret base south of area 51,

172

00:13:06,880 --> 00:13:10,880

known as S4, and alleged sightings have appeared

173

00:13:10,880 --> 00:13:13,440

all across the Southern California deserts.

174

00:13:13,440 --> 00:13:17,440

If it were to be true, I mean, we already have

175

00:13:17,440 --> 00:13:21,640

the sorts of technology that really you will see

176

00:13:21,640 --> 00:13:23,240

in these sci-fi movies.

177

00:13:23,240 --> 00:13:25,320

I mean, if we have this sort of thing,

178

00:13:25,320 --> 00:13:28,320

stealth fighters and stealth bombers

179

00:13:29,160 --> 00:13:33,000

are almost as meaningless as bike lanes.

180

00:13:33,000 --> 00:13:36,240

Top secret space vehicles like the Taw 50

181

00:13:36,240 --> 00:13:40,160

and the TR-3 are extremely elusive.

182

00:13:40,160 --> 00:13:41,980

But recent evidence supports

183

00:13:41,980 --> 00:13:45,600

what many UFOlogists have claimed for years.

184

00:13:45,600 --> 00:13:48,720

In mid to late 1991, mysterious and unexplained

185

00:13:48,720 --> 00:13:51,560

sonic booms were heard throughout Southern California.

186

00:13:51,560 --> 00:13:54,520

It's not uncommon, but there was no explanation

187

00:13:54,520 --> 00:13:55,440

for these sonic booms.

188

00:13:55,440 --> 00:13:56,920

The shuttle wasn't coming.

189

00:13:56,920 --> 00:13:58,640

Now the important thing about this, of course,

190

00:13:58,640 --> 00:14:01,560

is you can bring to bear the sort of technology

191

00:14:01,560 --> 00:14:04,760

that's used when it comes to detecting earthquakes.

192

00:14:04,760 --> 00:14:08,160

You can actually start to plot the track.

193

00:14:08,160 --> 00:14:12,080

And what it transpired to be was something

194

00:14:12,080 --> 00:14:15,260

was moving rapidly across the skies.

195

00:14:15,260 --> 00:14:17,760

The military claimed they weren't testing anything.

196

00:14:17,760 --> 00:14:21,000

So the question was what exactly was creating

197

00:14:21,000 --> 00:14:22,880

these sonic booms that were heard

198

00:14:22,880 --> 00:14:25,160

throughout Southern California?

199

00:14:25,160 --> 00:14:27,580

Now was this a conventional aircraft

200

00:14:27,580 --> 00:14:30,560

or was it alien technology?

201

00:14:30,560 --> 00:14:34,600

Again, was this extraterrestrial spacecraft

202

00:14:34,600 --> 00:14:38,080

visiting the Earth or was it the US military

203

00:14:38,080 --> 00:14:41,160

having put together something based

204

00:14:41,160 --> 00:14:44,160

on recovered alien technology?

205

00:14:46,680 --> 00:14:50,400

To this day, aerospace experts cannot explain

206

00:14:50,400 --> 00:14:53,700

what was heard in the Southern California skies.

207

00:14:53,700 --> 00:14:58,700

But the event ushered in a new era for the UFO community.

208

00:14:59,020 --> 00:15:02,380

For the first time, the UFO community began

209

00:15:02,380 --> 00:15:07,140

to use more scientific tools to try and track these things.

210

00:15:07,140 --> 00:15:11,220

And a game of cat and mouse plays itself out

211

00:15:11,220 --> 00:15:15,980

between ufologists and between the intelligence community

212

00:15:15,980 --> 00:15:16,820

and the military.

213

00:15:16,820 --> 00:15:18,880

But of course, whatever these things are,

214

00:15:18,880 --> 00:15:21,500

don't want to tell the rest of us

215

00:15:21,500 --> 00:15:24,300

about what's really flying in our skies.

216

00:15:24,300 --> 00:15:26,900

But there is one space agency that is open

217

00:15:26,900 --> 00:15:30,300

about its interest in advanced propulsion technology.

218

00:15:30,300 --> 00:15:32,500

So NASA have made no secret of the fact

219

00:15:32,500 --> 00:15:36,940

that the long-term goal must be a star mission.

220

00:15:36,940 --> 00:15:39,140

Now to achieve a star mission,

221

00:15:39,140 --> 00:15:41,440

we can't do it with the sorts of rockets

222

00:15:41,440 --> 00:15:42,620

that we have nowadays.

223

00:15:42,620 --> 00:15:46,420

We need to get into exotic propulsion systems.

224

00:15:46,420 --> 00:15:49,700

We need faster than light travel.

225

00:15:49,700 --> 00:15:53,420

And to do that, NASA will have to devise technology

226

00:15:53,420 --> 00:15:57,580

that turns science fiction into science fact.

227

00:15:57,580 --> 00:16:00,700

Spacetime itself can be warped.

228

00:16:00,700 --> 00:16:03,700

And we see this in the real observable universe,

229

00:16:03,700 --> 00:16:06,180

around a very dense object like a star.

230

00:16:06,180 --> 00:16:09,940

So if you can control that, you have a warp drive.

231

00:16:09,940 --> 00:16:12,780

A warp drive, if it was ever built,

232

00:16:12,780 --> 00:16:16,900

would actually achieve going from point A to point B

233

00:16:16,900 --> 00:16:19,220

in a very reasonable amount of time.

234

00:16:19,220 --> 00:16:20,900

Maybe not at the speed of light,

235

00:16:20,900 --> 00:16:22,940

but something that you and I could travel

236

00:16:22,940 --> 00:16:25,540

a vast distance that we couldn't today,

237

00:16:25,540 --> 00:16:26,540

but we might tomorrow.

238

00:16:28,780 --> 00:16:30,980

Some evidence suggests the government

239

00:16:30,980 --> 00:16:34,660

is developing top secret terrestrial spaceships.

240

00:16:34,660 --> 00:16:37,340

But how the government maintains such a high level

241

00:16:37,340 --> 00:16:41,420

of control and secrecy over technological innovation

242

00:16:41,420 --> 00:16:44,620

dates back to the 1950s.

243

00:16:44,620 --> 00:16:50,620

The United States is a nation of innovation and thought

244

00:16:50,620 --> 00:16:54,620

and progress, science and technology.

245

00:16:54,620 --> 00:16:58,580

But occasionally, people who have tried to invent things

246

00:16:58,580 --> 00:17:04,260

have come up against the Invention Secrecy Act of 1951.

247

00:17:04,260 --> 00:17:09,140

Over 5,000 American patents have been refused, classified,

248

00:17:09,140 --> 00:17:13,420

and suppressed under the Invention Secrecy Act.

249

00:17:13,420 --> 00:17:16,620

The question is, why?

250

00:17:16,620 --> 00:17:19,860

All sorts of things may have applications

251

00:17:19,860 --> 00:17:22,260

that the US government wouldn't want,

252

00:17:22,260 --> 00:17:24,700

getting out, for example, to the Soviets,

253

00:17:24,700 --> 00:17:27,140

the Chinese, or to terrorists.

254

00:17:27,140 --> 00:17:31,380

But it makes you wonder, what is it that they're sitting on?

255

00:17:31,380 --> 00:17:36,500

Some of these things have been buried away for decades.

256

00:17:36,500 --> 00:17:40,460

What are they working on in secret, behind closed doors?

257

00:17:40,460 --> 00:17:44,140

The Invention Secrecy Act is perhaps a way

258

00:17:44,140 --> 00:17:48,460

in which advanced technology has been sequestered

259

00:17:48,460 --> 00:17:50,020

by the government, the military,

260

00:17:50,020 --> 00:17:52,020

and the intelligence community.

261

00:17:52,020 --> 00:17:54,420

Some experts believe that the government

262

00:17:54,420 --> 00:17:58,700

may have more than national security in mind.

263

00:17:58,700 --> 00:18:00,260

They could have very well just turned around

264

00:18:00,260 --> 00:18:03,540

and started creating it, started developing it,

265

00:18:03,540 --> 00:18:05,740

taking Joe's idea from over here

266

00:18:05,740 --> 00:18:07,860

and giving it to the scientists over here,

267

00:18:07,900 --> 00:18:11,020

so then they have free reign to do whatever they want with it.

268

00:18:11,020 --> 00:18:15,140

Lasers, spaceships, things that we can't even conceive of.

269

00:18:15,140 --> 00:18:17,300

We may already have them,

270

00:18:17,300 --> 00:18:22,140

but it just may be kept from the media and the public.

271

00:18:22,140 --> 00:18:24,700

This is Unsealed.

272

00:18:24,700 --> 00:18:28,700

Alien Files, exposing the biggest secret on planet Earth.
