

1

00:00:00,000 --> 00:00:07,000

This program is about unsolved mysteries.

2

00:00:07,000 --> 00:00:13,000

Whenever possible, the actual family members and police officials have participated in recreating the events.

3

00:00:13,000 --> 00:00:16,000

What you are about to see is not a news broadcast.

4

00:00:21,000 --> 00:00:26,000

In September of 1979, 19-year-old Mickey West vanished without a trace.

5

00:00:26,000 --> 00:00:31,000

Exactly seven years later, a note was found from someone who claimed to have witnessed Mickey's murder.

6

00:00:31,000 --> 00:00:34,000

But his identity remains unknown.

7

00:00:34,000 --> 00:00:42,000

Between 1890 and 1920, thousands of homeless children rode orphan trains to new families in the Midwest.

8

00:00:42,000 --> 00:00:46,000

Today many want to find the brothers and sisters they never knew.

9

00:00:46,000 --> 00:00:52,000

In 1967, a five-year-old boy fell into a rain-swollen creek in Nutley, New Jersey.

10

00:00:53,000 --> 00:00:58,000

Two months later, his body was found in the river, three miles away.

11

00:00:58,000 --> 00:01:05,000

In 1974, a New York banker boarded a commuter train to take him home to New Jersey.

12

00:01:05,000 --> 00:01:08,000

During the train ride, he vanished.

13

00:01:08,000 --> 00:01:13,000

Two months later, his body was found on the bank of a nearby river.

14

00:01:14,000 --> 00:01:21,000

In 1976, a 14-year-old schoolgirl left her home on Staten Island to look for a summer job.

15

00:01:21,000 --> 00:01:24,000

That afternoon, she disappeared.

16

00:01:24,000 --> 00:01:29,000

Two years later, her body was found in an abandoned shipyard.

17

00:01:32,000 --> 00:01:37,000

What Link sees cases together is Dorothy Allison, a housewife from Nutley, New Jersey.

18

00:01:37,000 --> 00:01:42,000

She predicted where all three bodies would be found, while the other three bodies were found in the river.

19

00:01:42,000 --> 00:01:48,000

What happened to the victims, and remarkably in two cases, predicted when they would be discovered.

20

00:01:48,000 --> 00:01:55,000

Dorothy Allison and the authorities with whom she has worked claim she has psychic powers.

21

00:01:55,000 --> 00:02:00,000

In my lifetime, this is the most amazing thing that ever happened to me.

22

00:02:00,000 --> 00:02:04,000

To see the ultimate results of everything that she had said.

23

00:02:04,000 --> 00:02:09,000

It's as though I turned on a TV station and got a picture.

24

00:02:09,000 --> 00:02:14,000

And this is what I get when I get a vision of something or a place or a person or anything.

25

00:02:14,000 --> 00:02:18,000

It's as though you're turning on, tuning in on a TV set.

26

00:02:18,000 --> 00:02:22,000

Dorothy Allison is called almost daily by police detectives.

27

00:02:22,000 --> 00:02:27,000

And although she's never paid for her work, she's been asked to help in hundreds of investigations.

28

00:02:27,000 --> 00:02:34,000

In the next hour, we'll follow Dorothy Allison on a current murder investigation and explore two other unsolved mysteries.

29

00:02:34,000 --> 00:02:39,000

We'll also tell you how our viewers helped capture a murder suspect and his teenage girlfriend.

30

00:02:39,000 --> 00:02:43,000

Join me. You may be able to help solve a mystery.

31

00:03:34,000 --> 00:03:42,000

On September 11th, 1979, in a small town of St. Joseph, Missouri, a young woman named Mickey Joe West left for work.

32

00:03:42,000 --> 00:03:46,000

She was never seen again.

33

00:03:46,000 --> 00:03:53,000

Her friends and family suspect foul play, but her body has never been found.

34

00:03:53,000 --> 00:03:58,000

I think I know what happened to Mickey.

35

00:03:58,000 --> 00:04:03,000

I think I know who did it. And I think I know why they did it.

36

00:04:03,000 --> 00:04:06,000

We have a suspect that we established the day after the disappearance.

37

00:04:06,000 --> 00:04:11,000

We've talked to him several times. We know where he lives now. We know where he can reach him.

38

00:04:11,000 --> 00:04:14,000

We just simply have no evidence against him at this point.

39

00:04:14,000 --> 00:04:20,000

I believe that this person who's described as the number one suspect, I believe that he abducted her.

40

00:04:20,000 --> 00:04:25,000

And within two or three hours of that time, I believe he killed her.

41

00:04:25,000 --> 00:04:30,000

At the time of her disappearance, Mickey Joe West was 19 years old.

42

00:04:30,000 --> 00:04:36,000

She was an outgoing, friendly girl who worked as a nurse's aide at the St. Joseph State Hospital.

43

00:04:36,000 --> 00:04:40,000

She was funny. She could make a bad situation into a good one.

44

00:04:40,000 --> 00:04:49,000

When I had bad days, I was at my worst end. She'd come in and everything would be all right because she'd say something funny.

45

00:04:49,000 --> 00:04:55,000

Mickey became involved in the bitter marital dispute of a friend of hers, perhaps too involved.

46

00:04:55,000 --> 00:04:58,000

She began to receive threats.

47

00:04:58,000 --> 00:05:05,000

The last time I talked to Mickey on the phone, she was scared. She was afraid for her life.

48

00:05:05,000 --> 00:05:09,000

So she told me she was going to carry a hammer to work with her.

49

00:05:09,000 --> 00:05:15,000

That next morning, she got up and left her house and was on her way to the bus stop.

50

00:05:15,000 --> 00:05:18,000

And that was the last that anyone ever heard from her.

51

00:05:18,000 --> 00:05:24,000

At this point, the only case we have is a missing person. We have no crime. We have a missing

person.

52

00:05:24,000 --> 00:05:27,000

We have no body to establish a murder case.

53

00:05:27,000 --> 00:05:33,000

Without a body, we cannot convict anyone of murder.

54

00:05:33,000 --> 00:05:45,000

We have evidence that there were threats made to Mickey, that she was followed by this person, that he had a motive to do this, that he could have done this, and we just need the body.

55

00:05:46,000 --> 00:05:52,000

For seven years, no new evidence was found.

56

00:05:52,000 --> 00:06:01,000

Then in 1986, a delivery man at a Kansas City shopping mall, 75 miles from where she disappeared, found a letter.

57

00:06:01,000 --> 00:06:07,000

It was addressed to the St. Joseph police. He opened it and read, I need your help.

58

00:06:07,000 --> 00:06:11,000

I was with, and here we cannot mention the person's name.

59

00:06:11,000 --> 00:06:17,000

When he killed Mickey Joe West and hid the body, I can kill myself now. Please help.

60

00:06:17,000 --> 00:06:20,000

This letter was unsigned.

61

00:06:22,000 --> 00:06:28,000

About a month later, on October 2nd, another note was found in the same mall.

62

00:06:28,000 --> 00:06:32,000

A security guard who worked in the mall found this note in a hallway there.

63

00:06:32,000 --> 00:06:42,000

It was obviously the same envelope, the same paper, obviously the same person had the same message on it, and it too was delivered to the police and opened the park and eventually to our department.

64

00:06:42,000 --> 00:06:49,000

Both of the notes named the man who has been and is now the prime suspect.

65

00:06:49,000 --> 00:06:59,000

The author in these notes said that he was with the person who had killed her, that he did not kill her himself, that he could not stand this knowledge that he had, and that he needed help.

66

00:06:59,000 --> 00:07:05,000

They were both unsigned, and so far we have not come up with any solid leads as to who the author is.

67

00:07:08,000 --> 00:07:18,000

Seven weeks later, three more letters were found. This time in St. Joseph, the town where Mickey was last seen, the first of these was discovered in a shopping mall.

68

00:07:18,000 --> 00:07:23,000

The same day another was found at a local truck stop.

69

00:07:23,000 --> 00:07:29,000

Then a janitor found another letter in the same St. Joseph shopping mall.

70

00:07:29,000 --> 00:07:44,000

After the three notes were found in St. Joseph, we had a total of five notes, all established to be from the same author, all saying the same message, naming the same suspect, but getting us no closer than to making the case or proving the case against this person than we were before.

71

00:07:44,000 --> 00:07:59,000

We've explored the possibility that the notes are a hoax, but we believe they're genuine because of the details that he's given us about the crime, because of the way they're written, because of the feelings that they express. They just seem realistic.

72

00:08:01,000 --> 00:08:09,000

When we examined these letters, it was obvious to us that the person who wrote them was intimidated by the person who killed Mickey Joe.

73

00:08:09,000 --> 00:08:14,000

These weren't letters written by a stranger. They were written by someone who was personally acquainted with the victim.

74

00:08:14,000 --> 00:08:26,000

They're deep-seated feelings of guilt, not guilt because the writer was personally responsible for having killed Mickey, but because he was present when it happened and wasn't able to stop it.

75

00:08:27,000 --> 00:08:40,000

On January 13, 1988, nine years after Mickey's disappearance, another letter turned up at a Kansas City Mall theater. It was addressed to the police and a local TV station.

76

00:08:43,000 --> 00:08:50,000

Eight months later, a reporter for the TV station, Thurman Mitchell, received a letter addressed to him personally.

77

00:08:51,000 --> 00:09:08,000

In this letter, the author said that if Thurman would come alone, he would show him where Mickey Joe West is. He said that he did not want the reward, that he was not interested in the reward. He said that he was not himself involved in the crime, that he needed help again.

78

00:09:11,000 --> 00:09:18,000

In response to this letter that Mr. Mitchell received, he did a new story, asking this person to come forward and contact him personally.

79

00:09:21,000 --> 00:09:25,000

He was asking that witness to call the telephone number on the screen and talk to us and we'll pass that information on to him.

80

00:09:25,000 --> 00:09:34,000

An on-air appeal proved unsuccessful. Today the letter writer remains anonymous. The case of Mickey Joe West is still unsolved.

81

00:09:34,000 --> 00:09:47,000

The author of these notes is the most important witness that we could have in this case. If he knows where she is, if he was there and he will testify, he is absolutely crucial.

82

00:09:48,000 --> 00:10:02,000

I would just like to ask him to come forward and tell us what he knows or if he doesn't want to come forward, write us a letter and tell us where she is in the letter or give us a phone call. Come forward in some way.

83

00:10:02,000 --> 00:10:10,000

We miss Mickey and it's been nine years and we just want to know what happened to her.

84

00:10:17,000 --> 00:10:32,000

Last month we broadcast a story about Dave Davis from Pittsburgh, Michigan, a man accused of murdering his wife.

85

00:10:33,000 --> 00:10:46,000

On July the 23rd, 1980, Davis and his wife Shannon were horseback riding on their farm 80 miles outside Detroit. Davis claims that Shannon lost control of her horse, fell and struck her head.

86

00:10:46,000 --> 00:10:52,000

She was rushed to the hospital but doctors pronounced her dead on arrival.

87

00:10:53,000 --> 00:11:04,000

After a few days, Shannon's parents found out that Davis had taken out six large life insurance policies on Shannon. They had their daughter's body exhumed.

88

00:11:04,000 --> 00:11:12,000

The results showed traces of an animal tranquilizer as well as two injection marks, one on her wrist and one on her shoulder.

89

00:11:13,000 --> 00:11:27,000

Police found out that Davis had indeed had access to the animal tranquilizer through a deer hunting group. Justice's arrest seemed imminent. Davis fled. He had not been seen since October the 13th, 1981.

90

00:11:27,000 --> 00:11:42,000

FBI and different ones had said don't discount the fact that he may already be dead. We felt like, no, he's out there someplace. He was a rugged outdoors individual. He was a survivor.

91

00:11:42,000 --> 00:12:02,000

We broadcast Davis's story twice. Within days of our second broadcast, Dave Davis was captured. A viewer identified him as a man named Davis Meyer Bell, who was living on the tiny island chain of American Samoa, 2,000 miles south of Hawaii.

92

00:12:02,000 --> 00:12:06,000

Davis, alias Bell, was arrested three days later.

93

00:12:06,000 --> 00:12:09,000

Any comment on the charges against you, Mr. Davis?

94

00:12:09,000 --> 00:12:10,000

I didn't do it.

95

00:12:10,000 --> 00:12:12,000

Police, your wife was poisoned.

96

00:12:12,000 --> 00:12:13,000

I didn't do it.

97

00:12:18,000 --> 00:12:29,000

Police learned that four years ago, Davis had fled to American Samoa, where he lived in this house. Before that, he had lived in Florida, Haiti and Alaska, among other places.

98

00:12:30,000 --> 00:12:38,000

Two years ago, he married a 20-year-old Samoan woman. He told her that his first wife had died in a tragic accident.

99

00:12:38,000 --> 00:12:47,000

In American Samoa, Davis obtained a job as a pilot for a small commercial airline. He was apprehended on his way to work at the airport.

100

00:12:48,000 --> 00:13:00,000

Davis was extradited to Honolulu, Hawaii. He admitted his identity and voluntarily agreed to return to Michigan to stand trial. In return, federal authorities dropped charges of unlawful flight.

101

00:13:00,000 --> 00:13:15,000

Around the turn of the century, the streets of New York City were filled with starving immigrant children who had no one to care for them. The city orphanages overflowed. School classes and afternoon naps often took place outside of the city.

102

00:13:30,000 --> 00:13:41,000

The city was filled with people outside, even in the bitter cold. To alleviate the crowded conditions, the Children's Aid Society of New York came up with a unique plan.

103

00:13:45,000 --> 00:13:52,000

They began to put orphans on trains bound for the south and the Midwest, hoping they would be adopted by farm families along the route.

104

00:13:53,000 --> 00:14:10,000

Between 1890 and 1929, scores of trains carried at least 150,000 orphans into the heartland of America. Sadly, many of them were separated from their brothers and sisters, whom they would never see again.

105

00:14:11,000 --> 00:14:23,000

In 1910, two brothers named Algie and Johnny rode on an orphan train, along with a group of other orphans they headed for Arkansas, hoping to be adopted.

106

00:14:27,000 --> 00:14:37,000

When we left New York, none of us knew where we was going, but the guys at Tuckers knew where he's headed for. Fadville was the destination.

107

00:14:41,000 --> 00:14:54,000

When Algie and Johnny's train arrived in Fayetteville, Arkansas, prospective parents were waiting to look the children over. The brothers hoped they would be able to stay together.

108

00:14:54,000 --> 00:15:08,000

When they stopped, I raised it, lined it up to the side of the track. One thing I remember, I just wondered what they were going to do with me and Johnny.

109

00:15:08,000 --> 00:15:23,000

I had hoped that we'd both be in some home together. People come in and look at the kids. Some of

them took them to make farmers out of them, or slaves out of them.

110

00:15:24,000 --> 00:15:30,000

Some people take them cause they loved them. How do you like this one?

111

00:15:30,000 --> 00:15:36,000

Oh, I like them. What's your name? Algie. Algie, you're going to go with me.

112

00:15:37,000 --> 00:15:42,000

When it came time to make the decision, the couple who took Algie only wanted one child.

113

00:15:43,000 --> 00:15:56,000

He took me and didn't want to take Johnny. Well, they just voted for it, and I just cried like I couldn't. But I just know they separated just from me.

114

00:15:56,000 --> 00:15:59,000

One father took Johnny and one took me.

115

00:16:00,000 --> 00:16:13,000

Finally, it took me a long time I got over that, but still, it come to my mind once in a while, we're easy.

116

00:16:13,000 --> 00:16:19,000

And then the old man had raised me, I wouldn't have found all of it. I know it.

117

00:16:19,000 --> 00:16:26,000

Happily, Algie and Johnny, the brothers who were separated when they rode the orphan train, had been reuniting.

118

00:16:27,000 --> 00:16:29,000

Power train, Johnny.

119

00:16:30,000 --> 00:16:39,000

Tonight, we will meet two other orphan train riders, Francis Murphy and Sylvia Wemhoff, who have been unable to find their lost siblings.

120

00:16:41,000 --> 00:16:50,000

In 1921, Sylvia Wemhoff, whose last name then was Voke, was taken out of a New York City orphanage to ride an orphan train to Nebraska.

121

00:16:51,000 --> 00:17:07,000

Her parents were dead, and she left behind an older sibling about whom she knew nothing. Sylvia was three years old, and the children on her train had been selected sight unseen by members of

churches in Columbus, Nebraska.

122

00:17:08,000 --> 00:17:18,000

Sylvia was a very small child when she rode the orphan train. She was taken in a bit of a different manner because she was spoken for ahead of time.

123

00:17:18,000 --> 00:17:24,000

On your papers, there's a name and a number. The number will correspond with the number here.

124

00:17:25,000 --> 00:17:37,000

Numbers would be sewn onto the children's garments with their name and the birth date. The corresponding matching parent that had been found and located by the founding hospital would have a number corresponding to the number.

125

00:17:38,000 --> 00:17:41,000

And when they got to the train station, they would match the number and take the child.

126

00:17:44,000 --> 00:17:46,000

And this was the way Sylvia Wemhoff was chosen.

127

00:17:49,000 --> 00:17:54,000

Sylvia's last name was changed to Mick when she was adopted by the John Mick family.

128

00:17:56,000 --> 00:18:05,000

They had a small farm in Lindsay, Nebraska, and Sylvia, along with another orphan, a boy, was happily welcomed into the family.

129

00:18:06,000 --> 00:18:21,000

When I was about 17, 18 years old, and I began to question my mother Mick, whether I had any brothers or sisters. And if so, I wonder if we could ever get together.

130

00:18:22,000 --> 00:18:32,000

After years of searching, Sylvia located her birth certificate. It showed that she was born Stephanie Voek, spelled W-O-L-K.

131

00:18:33,000 --> 00:18:38,000

And that her mother Pauline Vitovich from Austria already had a child when Sylvia was born.

132

00:18:41,000 --> 00:18:48,000

Sylvia was adopted when she was three years old and today is 70. She is desperately trying to locate her missing sibling,

133

00:18:48,000 --> 00:18:53,000

even though there is no way to tell whether she is looking for a brother or a sister.

134

00:18:57,000 --> 00:19:04,000

The day after our broadcast, Sylvia's search came to an end. She learned that her brother's 72-year-old Joseph Voek was living in New York City.

135

00:19:04,000 --> 00:19:08,000

Voek's stepdaughter had seen our broadcast and recognized the names on Sylvia's birth certificate.

136

00:19:09,000 --> 00:19:14,000

On September 25th, Sylvia flew to New York and met her brother Joseph for the first time.

137

00:19:15,000 --> 00:19:21,000

Joseph, your sister Sylvia is here.

138

00:19:25,000 --> 00:19:27,000

I'm so happy.

139

00:19:27,000 --> 00:19:32,000

I'm so glad. I'm so happy to see you.

140

00:19:35,000 --> 00:19:43,000

We hugged each other and we were just really thrilled and happy that we finally finally got together.

141

00:19:45,000 --> 00:19:52,000

I had heard I had a sister and I was awfully pleased when I saw her and thankful, thankful to God.

142

00:19:53,000 --> 00:19:56,000

Yes, that's me on there.

143

00:19:57,000 --> 00:20:04,000

Most brothers and sisters grew up sharing their lives together, but for Sylvia and Joseph, love and memories are just beginning.

144

00:20:07,000 --> 00:20:14,000

The next man we will meet is Francis Murphy. In 1928, when he was 11, he too rode the orphan train.

145

00:20:15,000 --> 00:20:21,000

His baby sister Margaret and his mother, who was too poor to take care of him, were both left behind.

146

00:20:24,000 --> 00:20:30,000

When I got on the train, I didn't really feel that I was being wrenched away from somebody.

147

00:20:31,000 --> 00:20:40,000

I didn't know that much about my mother so that it wasn't a matter of tearing me away from her because I was away from her all the time anyway.

148

00:20:41,000 --> 00:20:44,000

It was a big adventure more than anything else.

149

00:20:45,000 --> 00:20:50,000

As a kid in New York, you have to remember that we didn't know the West.

150

00:20:51,000 --> 00:20:59,000

And what we knew was from the picture shows we saw of cowboys and Indians and baby engineers and going that direction.

151

00:21:00,000 --> 00:21:05,000

That was the biggest thrill that a kid in my time could really expect.

152

00:21:11,000 --> 00:21:16,000

Francis' excitement soon turned to sadness.

153

00:21:18,000 --> 00:21:22,000

Hello, I'm Camille Mitchell at the Children's Aid Society. I brought your boys.

154

00:21:23,000 --> 00:21:27,000

And stop after stop, potential adopted parents would be waiting to pick their child from the crowd.

155

00:21:28,000 --> 00:21:30,000

But not all the children found new parents.

156

00:21:31,000 --> 00:21:41,000

Francis, who had boarded the train in New York with such high hopes, began to realize that none of the families along the train's route wanted him.

157

00:21:42,000 --> 00:21:44,000

Hi, Lewis. Welcome to our family.

158

00:21:45,000 --> 00:21:54,000

Fourteen or fifteen children that were leaving, they just got off the train with their belongings and it didn't look Francis usually staying on the train.

159

00:21:54,000 --> 00:22:01,000

And he would see the crowd and get smaller and smaller until finally he was the only child left on the train.

160

00:22:01,000 --> 00:22:03,000

Bye-bye.

161

00:22:15,000 --> 00:22:20,000

Francis never was adopted. He went from family to family as a foster child.

162

00:22:24,000 --> 00:22:28,000

In spite of his early hardships, Francis' life turned out well.

163

00:22:29,000 --> 00:22:34,000

He became a high school teacher, married, and had five children and six grandchildren.

164

00:22:37,000 --> 00:22:43,000

Francis Murphy rode the orphan train sixty years ago, developed heart disease in 1987.

165

00:22:44,000 --> 00:22:47,000

And sadly he died soon after we filmed his interview in November.

166

00:22:47,000 --> 00:22:53,000

Francis' wife and family have continued his search and they ask that we present his story despite the fact that he is gone.

167

00:22:54,000 --> 00:23:01,000

They hope to unite the family who still loves Francis, the family he never knew and wanted so desperately to find.

168

00:23:02,000 --> 00:23:06,000

It was extremely important to Francis to go ahead with this interview.

169

00:23:07,000 --> 00:23:10,000

He'd been looking forward to it for literally months.

170

00:23:12,000 --> 00:23:16,000

And just the hope that he would find somebody.

171

00:23:17,000 --> 00:23:21,000

Particularly his sister was important.

172

00:23:23,000 --> 00:23:26,000

He didn't know much about love growing up.

173

00:23:28,000 --> 00:23:33,000

And he found out as he got older and had a family of his own.

174

00:23:34,000 --> 00:23:38,000

I think his finding, Margaret, would be an extension of that love.

175

00:23:38,000 --> 00:23:45,000

It's still very important to us that we finish what he tried to do.

176

00:23:52,000 --> 00:23:56,000

Francis Murphy's sister, Margaret, would be about sixty-two years old today.

177

00:23:57,000 --> 00:24:02,000

She was probably born in either Yonkers or New York City and she may have been adopted.

178

00:24:03,000 --> 00:24:06,000

Francis and Margaret's mother was healed of Harding Murphy.

179

00:24:07,000 --> 00:24:10,000

Their grandparents were John and Elizabeth Harding from Nova Scotia.

180

00:24:11,000 --> 00:24:14,000

Francis' father was Martin Murphy.

181

00:24:33,000 --> 00:24:36,000

These are affidavits from police departments around the country.

182

00:24:37,000 --> 00:24:39,000

Attesting to Dorothy Allison's psychic powers.

183

00:24:40,000 --> 00:24:43,000

The use of psychics and police work is almost always controversial.

184

00:24:44,000 --> 00:24:48,000

Frequently they're inaccurate. All too often they are shoddard.

185

00:24:49,000 --> 00:24:52,000

But there are a few who do indeed seem to have a special gift.

186

00:24:53,000 --> 00:24:56,000

The unexplainable ability to predict details still locked in the future.

187

00:24:57,000 --> 00:25:01,000

An ability which in itself is an unsolved mystery.

188

00:25:03,000 --> 00:25:15,000

On December 3rd, 1967, five-year-old Michael Cursix and his older brother went out to play at around 8.15 a.m.

189

00:25:16,000 --> 00:25:22,000

As he were playing, Michael lost his footing, fell into a churning river, was swept away and drowned.

190

00:25:23,000 --> 00:25:33,000

Two hours before Michael's accident, at 5.56 a.m., Dorothy Allison woke from a horrific nightmare.

191

00:25:34,000 --> 00:25:38,000

Her lucid and frightening dream predicted Michael's death.

192

00:25:39,000 --> 00:25:43,000

I saw this little boy in a pipe. His hands were like this in the dream.

193

00:25:44,000 --> 00:25:47,000

They were clasped together and they were very black. I didn't know why.

194

00:25:48,000 --> 00:25:49,000

They were so black because he was so white.

195

00:25:49,000 --> 00:25:52,000

I saw this tremendous illumination of light.

196

00:25:53,000 --> 00:25:58,000

Almost as though he had been in a... it seemed to me like a vacuum.

197

00:26:01,000 --> 00:26:06,000

For weeks the authorities searched the river, but there was no trace of Michael's body.

198

00:26:08,000 --> 00:26:14,000

A month after Michael disappeared, Dorothy went to the police and insisted that someone listened to her story.

199

00:26:14,000 --> 00:26:19,000

I had a dream of this little boy stuck in a pipe.

200

00:26:20,000 --> 00:26:24,000

The one brief newspaper article about the case did not contain a picture of Michael.

201

00:26:25,000 --> 00:26:29,000

The police were startled when Dorothy accurately described the clothes he was wearing.

202

00:26:30,000 --> 00:26:33,000

He had on this green snow suit.

203

00:26:34,000 --> 00:26:41,000

Underneath the snow suit he had on a polo shirt with stripes and underneath that another shirt with a metal pin to it.

204

00:26:41,000 --> 00:26:44,000

And also he had his shoes on the wrong feet.

205

00:26:45,000 --> 00:26:50,000

There was a possibility that this could have been a hoax. There's always that possibility.

206

00:26:52,000 --> 00:26:58,000

When she came up with this description, I became overwhelmed because I knew this boy. I knew this family.

207

00:26:59,000 --> 00:27:03,000

It just got me to a point where I had to know more about what she was dreaming.

208

00:27:04,000 --> 00:27:06,000

Maybe there was something more that she couldn't remember now.

209

00:27:07,000 --> 00:27:08,000

Maybe just questioning her would bring more of it out.

210

00:27:09,000 --> 00:27:14,000

But we were going to work with her because she just got me. She just got me.

211

00:27:16,000 --> 00:27:23,000

When I started to talk to Don, I kept telling him that I saw the number 120, but whatever that meant, I don't know.

212

00:27:24,000 --> 00:27:27,000

I also saw the number eight and didn't know what that meant either.

213

00:27:28,000 --> 00:27:34,000

And I kept insisting that his body would be found behind the school. I insisted on that.

214

00:27:39,000 --> 00:27:43,000

As a search for Michael continued, Dorothy's clues began to mount up.

215

00:27:44,000 --> 00:27:56,000

The number eight, the school, the parking lot behind an ITT factory, number, gold lettering on a window, and the number 120.

216

00:27:57,000 --> 00:28:02,000

She had mentioned the number 120 the very first day that we were together.

217

00:28:03,000 --> 00:28:05,000

And we thought, well, maybe it's an address.

218

00:28:06,000 --> 00:28:10,000

And in the area that we were in initially, there was no 120.

219

00:28:11,000 --> 00:28:16,000

Then we thought, well, maybe it would be January 20th, the month and the day.

220

00:28:17,000 --> 00:28:20,000

That came and went. No significance whatsoever.

221

00:28:20,000 --> 00:28:25,000

But that 120 kept coming up. And to me especially, and I couldn't understand why.

222

00:28:26,000 --> 00:28:28,000

By now they were starting to lose their patience.

223

00:28:29,000 --> 00:28:32,000

And Don for carers says, my God, I'm trying, but I don't know what you're saying.

224

00:28:33,000 --> 00:28:37,000

I said, well, look, he will be found on February 7th, and then our troubles will be over.

225

00:28:38,000 --> 00:28:39,000

You will know the story of Michael Perriss.

226

00:28:40,000 --> 00:28:45,000

The day the boy was found, it was 120 in the afternoon of February 7th.

227

00:28:45,000 --> 00:28:48,000

And I was told that the baby was found.

228

00:28:50,000 --> 00:28:55,000

The spot where Michael's body was found coincided with several of Dorothy's clues.

229

00:28:56,000 --> 00:29:03,000

Dorothy's vision of a number eight was echoed by the fact that elementary school PS 8 stands on the riverbank nearby.

230

00:29:05,000 --> 00:29:08,000

Across the riverbank, there was a sign that the baby was found.

231

00:29:08,000 --> 00:29:12,000

And I was told by the fact that elementary school PS 8 stands on the riverbank nearby.

232

00:29:15,000 --> 00:29:20,000

Across the street is a lumber yard. Next door is an office building with gold letters on the window.

233

00:29:23,000 --> 00:29:28,000

Directly across the river is a local ITT factory at its parking lot.

234

00:29:29,000 --> 00:29:34,000

And when Michael was found, he was wearing exactly the same clothes that Dorothy had dreamt.

235

00:29:34,000 --> 00:29:40,000

And although his galoshes were on the correct feet, his undershoes were indeed on the wrong feet.

236

00:29:44,000 --> 00:29:50,000

We backtracked. And everything that she was saying now fit into place, just like a puzzle.

237

00:29:51,000 --> 00:29:56,000

You pick up a piece and you toss it around until you link it and show the picture.

238

00:29:57,000 --> 00:30:00,000

It means nothing. But now everything seems to fit in place.

239

00:30:00,000 --> 00:30:04,000

We started, I started to kick myself for not knowing what she was talking about.

240

00:30:05,000 --> 00:30:13,000

There have been many, many times that I struck out completely and I really wanted to find a child

and got no answers.

241

00:30:14,000 --> 00:30:19,000

Till today, I don't know why. But there are several cases where I never come up with anything.

242

00:30:20,000 --> 00:30:22,000

Not even one little clue that I know of.

243

00:30:22,000 --> 00:30:29,000

Dorothy Allison has lived in New Jersey all her life. She has four children and her husband Bob is an engineer for a construction company in Manhattan.

244

00:30:30,000 --> 00:30:37,000

When Dorothy was 14, she had the first indication of her psychic abilities when she correctly predicted the death of her father.

245

00:30:38,000 --> 00:30:43,000

Since the Michael Kersick's investigation, most of Dorothy's cases have been homicides.

246

00:30:44,000 --> 00:30:48,000

Many of the victims have been victims of the murder.

247

00:30:48,000 --> 00:30:53,000

Most of Dorothy's cases have been homicides. Many of the victims have been children.

248

00:30:56,000 --> 00:31:00,000

I've often thought to myself, why does this happen to me? Why not somebody else?

249

00:31:01,000 --> 00:31:08,000

Because it has been very hard on me emotionally, physically. It has not been a happy thing for me at all times.

250

00:31:09,000 --> 00:31:21,000

On December 20, 1974, a New York banker, John DeMars, left his Manhattan office to ride the train home to New Jersey.

251

00:31:23,000 --> 00:31:29,000

He was happily married with two young children and habitually called his wife if he was going to be even five minutes late.

252

00:31:29,000 --> 00:31:37,000

But on this day, when his train stopped at Nutley, John DeMars was not on board. He had simply vanished.

253

00:31:40,000 --> 00:31:45,000

Our first thoughts were maybe he embezzled money. We didn't find anything wrong with the bank.

254

00:31:46,000 --> 00:31:50,000

Maybe he ran away with another girl. We found out that that wasn't true.

255

00:31:51,000 --> 00:31:53,000

We just couldn't find this fellow, so I went to see Dorothy.

256

00:31:54,000 --> 00:31:59,000

I said, Dorothy, I'm looking for a male adult that's been missing for more than 24 hours.

257

00:32:00,000 --> 00:32:02,000

Her first words worked to me was, he's drowned.

258

00:32:03,000 --> 00:32:07,000

I said, he fell off the train. He said, how could he fall off the train in the water?

259

00:32:08,000 --> 00:32:12,000

I said, no, I said, you received misinformation. He fell off the train. He's in water.

260

00:32:13,000 --> 00:32:18,000

So I said, well, can you give me any other clues as to where I would find him?

261

00:32:18,000 --> 00:32:24,000

I said, I see a row of tires, a little park with children down a hill on the sleds.

262

00:32:25,000 --> 00:32:30,000

I see a fire engine that children play on, and I see this man in this water here.

263

00:32:31,000 --> 00:32:33,000

Then she told me that she sees a bow and arrow.

264

00:32:35,000 --> 00:32:37,000

Now, where do you find a bow and arrow? I thought she was crazy.

265

00:32:42,000 --> 00:32:47,000

Two months after the disappearance, the father and his teenage son were target shooting with a bow

and arrow

266

00:32:48,000 --> 00:32:50,000

on a bluff overlooking the Pesach River.

267

00:32:55,000 --> 00:33:00,000

One of the arrows missed the target and landed a few feet from the body of John DeMars.

268

00:33:03,000 --> 00:33:09,000

The body was found on February 22nd. Dorothy had mentioned the number 222.

269

00:33:10,000 --> 00:33:14,000

Nearby was a park where rows of tires had been arranged to make a sled run.

270

00:33:15,000 --> 00:33:22,000

The question remained, how did John DeMars, a train passenger, drown in the Pesach River?

271

00:33:23,000 --> 00:33:27,000

The authorities theorized that DeMars dozed off on the way home.

272

00:33:28,000 --> 00:33:31,000

The train made an unscheduled stop on the Pesach River Bridge.

273

00:33:32,000 --> 00:33:36,000

The conductor opened the door to let another passenger off the back of the train.

274

00:33:37,000 --> 00:33:39,000

John DeMars still half asleep.

275

00:33:39,000 --> 00:33:45,000

Thought he had reached his station, he stepped out into space and fell into the river below.

276

00:33:47,000 --> 00:33:50,000

Chills go up and down your spine, believe me.

277

00:33:51,000 --> 00:33:56,000

You look around, you look at your notebook, all these notes that you wrote down three months ago.

278

00:33:57,000 --> 00:33:59,000

And everything that she had said was exactly there.

279

00:34:00,000 --> 00:34:02,000

Everything that she had said.

280

00:34:03,000 --> 00:34:06,000

How Dorothy can do these things? I don't understand psychics.

281

00:34:06,000 --> 00:34:08,000

I don't know how Dorothy's mind works.

282

00:34:09,000 --> 00:34:12,000

All I know is Dorothy told me, Ellen, go outside and cross the street.

283

00:34:13,000 --> 00:34:16,000

I would go out and cross the street because I don't know what she's seeing for me.

284

00:34:18,000 --> 00:34:25,000

Ellen Jacobson and her husband Bill became involved with Dorothy after their daughter disappeared from home in 1976.

285

00:34:37,000 --> 00:34:47,000

On May 15th, 14-year-old Susan Jacobson left her Staten Island home to interview for a job at a local ice cream parlor.

286

00:34:49,000 --> 00:34:53,000

When Susan didn't return for dinner, her parents contacted the police.

287

00:34:53,000 --> 00:35:00,000

We were basically told that our daughter was 14, she had a boyfriend, and she ran away. Point blank, that was it.

288

00:35:01,000 --> 00:35:09,000

And there's nothing they can do because if she ran away, they don't have manpower to go and look for 14-year-old girls who run away.

289

00:35:10,000 --> 00:35:12,000

So we had nothing.

290

00:35:24,000 --> 00:35:30,000

Two weeks later, the Jacobsons asked Dorothy to help. She immediately went to Staten Island with her husband Bob.

291

00:35:32,000 --> 00:35:36,000

Dorothy knew nothing about the case and had never met the Jacobsons.

292

00:35:38,000 --> 00:35:42,000

When Dorothy came, she was so down to earth it was impossible to believe.

293

00:35:43,000 --> 00:35:47,000

I had visions of, um, oh, a gypsy woman.

294

00:35:47,000 --> 00:35:52,000

I had visions of somebody laying out a deck of cards and reading cards to me or reading my hand.

295

00:35:53,000 --> 00:35:58,000

And Dorothy's first reaction when I came in was with the coffee, put the coffee card on.

296

00:36:00,000 --> 00:36:02,000

What does 256 mean to you?

297

00:36:03,000 --> 00:36:07,000

She immediately asked me what the number 2562 would mean.

298

00:36:08,000 --> 00:36:12,000

And I said, well, I could turn it into February 5th, 1962.

299

00:36:12,000 --> 00:36:14,000

I said, that's my daughter's birthday.

300

00:36:15,000 --> 00:36:18,000

She said to me, how about the number 408? What does that mean?

301

00:36:19,000 --> 00:36:23,000

I'm a total shock. I don't know what she's looking for. I said, 408. She says, maybe it's 405.

302

00:36:24,000 --> 00:36:26,000

I said, my daughter's who was born that time.

303

00:36:27,000 --> 00:36:30,000

She says, what's more? I said, excuse me. She says, what's more mean?

304

00:36:31,000 --> 00:36:34,000

I said, what do you mean more? She says, M-A-R. I want to see M-A-R.

305

00:36:35,000 --> 00:36:41,000

I said, please, let's go to the police department because the vision that I got from the police department is that I can't go to the police department.

306

00:36:42,000 --> 00:36:46,000

The vision that I got right then in May was that Hadouan had been strangled by the boyfriend.

307

00:36:47,000 --> 00:36:50,000

And that she was at this place with this big M-A-R written in red letters.

308

00:36:51,000 --> 00:36:54,000

So I went to the police department and tried to explain, but to no avail.

309

00:36:57,000 --> 00:37:00,000

The authorities were unwilling to work with a psychic.

310

00:37:01,000 --> 00:37:06,000

So Bill Jacobson decided to investigate the many clues that Dorothy had come up with on his own.

311

00:37:07,000 --> 00:37:21,000

It was an abandoned car, the letters M-A-R, smell of oil, two sets of dual church steeples, dual smokestacks, swamps, marshes.

312

00:37:23,000 --> 00:37:34,000

We searched a vast amount of Staten Island and the confusion of it is that you don't know distance and time and you can't tell past, present and future.

313

00:37:37,000 --> 00:37:42,000

Eventually we got into a place that is called Downback.

314

00:37:43,000 --> 00:37:57,000

In this area is an abandoned shipyard that was apparently active in World War I and we found a rock and on this rock were painted in red letters, the letters M-A-R.

315

00:38:06,000 --> 00:38:22,000

All the clues that she had given me helped me by way of getting me to the area of ground where Susan was eventually found.

316

00:38:23,000 --> 00:38:32,000

When I saw the M-A-R I was astounded and I felt it had to be the area.

317

00:38:33,000 --> 00:38:37,000

I have to call Dorothy, I have to get her over here, I have to show her what I found.

318

00:38:38,000 --> 00:38:46,000

When Dorothy saw the M-A-R on a rock she said, this is it, this is where your daughter is, now we need the cops.

319

00:38:47,000 --> 00:38:56,000

We need the dogs, we need the bloodhounds, we need to drag through the swamps and marshes but we had none of that.

320

00:38:57,000 --> 00:39:05,000

We searched as much as we could by ourselves, we felt that we had done a good search, unfortunately we never found my dog.

321

00:39:05,000 --> 00:39:21,000

Twenty-two months later three boys rot muskrat hunting in the precise area were built and searched.

322

00:39:22,000 --> 00:39:30,000

Just one hundred yards from the M-A-R letters they discovered the remains of Susan Jacobson concealed in two oil drums.

323

00:39:30,000 --> 00:39:45,000

From the place where Susan was found you could see almost all at the same time, dual church steeples, smokestacks, the abandoned car, the rock with the letters M-A-R.

324

00:39:46,000 --> 00:39:56,000

Susan was found in an oil drum which is a smell of oil and Dorothy had also said that Susan was in water but she didn't drown.

325

00:39:56,000 --> 00:40:04,000

The autopsy revealed that Susan had been strangled and her body dumped at the bottom of the water filled hole.

326

00:40:06,000 --> 00:40:12,000

Dempsey Hawkins, Susan's boyfriend, was arrested, tried and convicted of her murder.

327

00:40:14,000 --> 00:40:25,000

Dorothy knew that my daughter was murdered. She admitted to us maybe nine months after my daughter's disappearance to the fact that who did the murder, she named the person to us.

328

00:40:27,000 --> 00:40:35,000

And everything that she said, she said how she was murdered and where and what Dorothy said came true.

329

00:40:40,000 --> 00:40:43,000

In the three cases we have seen Dorothy's success has been astonishing.

330

00:40:44,000 --> 00:40:51,000

But keep in mind that over the years Dorothy has worked on hundreds of investigations and in many she was unable to come up with information that helped the authorities.

331

00:40:52,000 --> 00:40:59,000

In a moment we'll follow Dorothy on a current murder investigation to see exactly what she does and how she does it.

332

00:41:01,000 --> 00:41:05,000

Last March we looked for a case where we could examine Dorothy Allison's psyche gifts.

333

00:41:06,000 --> 00:41:10,000

We found a homicide in Hagerstown, Maryland with a police at a dead end.

334

00:41:11,000 --> 00:41:15,000

They agreed we could ask Dorothy to assist in the case and film the investigation as it happened.

335

00:41:15,000 --> 00:41:22,000

As you'll see Dorothy came up with the name of a possible suspect but for legal reasons we have chosen to disguise this name.

336

00:41:23,000 --> 00:41:29,000

We gave Dorothy absolutely no information on the case. She didn't know the name of the victim or the state where it happened.

337

00:41:30,000 --> 00:41:32,000

She didn't even know it was a murder case.

338

00:41:37,000 --> 00:41:44,000

Dorothy was contacted by Sergeant Keith Watenscheid of the Maryland State Police who is in charge of the ongoing investigation.

339

00:41:45,000 --> 00:41:49,000

Mrs. Allison. Yes. How are you? Fine, thank you. How are you?

340

00:41:50,000 --> 00:41:59,000

Knowing absolutely nothing about the case Dorothy drew up a list of clues the night before Detective Watenscheid's call and then dictated the list in several conversations the next day.

341

00:42:00,000 --> 00:42:05,000

What we should do is be looking for a janitor in school, somebody that worked in school as a janitor.

342

00:42:05,000 --> 00:42:12,000

I feel there's some kind of kidnap, abduction of some kind or something like that.

343

00:42:13,000 --> 00:42:18,000

I also feel that I'm dealing with a suspect who has suicidal tendencies and something wrong with the feet.

344

00:42:19,000 --> 00:42:26,000

The numbers one and seven were very important whether it's 71 or 17 I don't know just yet.

345

00:42:27,000 --> 00:42:33,000

The clues were random images that might relate to the victim, the murderer, friends or even the police.

346

00:42:33,000 --> 00:42:40,000

I feel also that this person wears glasses and sometimes a wig to look different.

347

00:42:41,000 --> 00:42:43,000

A wig? Yes.

348

00:42:44,000 --> 00:42:56,000

When I was talking to Dorothy on the telephone she mentioned about a police officer possibly in disguise wearing a beard that he now doesn't have and a wig or hairpiece of that nature.

349

00:42:56,000 --> 00:43:02,000

That kind of keyed upon me because I'm a policeman I don't film in disguise but I am in plain clothes.

350

00:43:03,000 --> 00:43:13,000

I wear a hairpiece and I just took a beard off two days ago I was on vacation and she could have been keying in on me which is possible.

351

00:43:18,000 --> 00:43:22,000

Dorothy flew to Hagerstown with her husband Bob to meet with Detective Watenscheid.

352

00:43:23,000 --> 00:43:27,000

Immediately after they landed Dorothy had a name for the authorities.

353

00:43:28,000 --> 00:43:33,000

Mrs. Elson, how are you? I'm sorry to watch you but stay pretty. How's your flight? Great.

354

00:43:34,000 --> 00:43:38,000

I will have a name for you. Beautiful.

355

00:43:39,000 --> 00:43:44,000

Okay and I also have some other things that I got it's kind of scribbled but there's a name for you okay.

356

00:43:45,000 --> 00:43:50,000

It's either Chuck is in nickname and then it's either Bernstein or Goldstein the last name.

357

00:43:50,000 --> 00:43:57,000

When it comes to psychics if you looked at me in general sense I would tell you I think they're a bunch of baloney

358

00:43:58,000 --> 00:44:03,000

but I'm keeping an open mind towards Dorothy Elson because I want to solve this case very badly.

359

00:44:04,000 --> 00:44:15,000

For four years a police have been unable to solve the case of Laurie Zimmerman a 15 year old school girl who in April 1984 left her aunt's house and simply disappeared.

360

00:44:16,000 --> 00:44:21,000

Eight days later Laurie's partially naked body was found in the forest 12 miles away.

361

00:44:22,000 --> 00:44:28,000

She had been beaten and suffocated. The coroner found a foreign object lodged in her throat.

362

00:44:30,000 --> 00:44:39,000

I feel that she was in front of a library when she met these two brothers or two cousins or twin friends of hers right from her own neighborhood.

363

00:44:39,000 --> 00:44:42,000

She didn't meet somebody there their name could be.

364

00:44:43,000 --> 00:44:47,000

Within minutes of leaving the airport more thoughts and images flooded Dorothy's mind.

365

00:44:48,000 --> 00:44:53,000

I feel that she had been raped. I'm Ben Merrick.

366

00:44:54,000 --> 00:45:02,000

I know that if I had to see her I don't know why but I get a feeling she has something in that of her head as though somebody hit her with something near her head.

367

00:45:03,000 --> 00:45:04,000

I'm getting something on the head.

368

00:45:05,000 --> 00:45:09,000

Her job is broken two places but that of course wasn't the cause of that.

369

00:45:11,000 --> 00:45:13,000

I get more of a suffocation. I know I can't breathe.

370

00:45:14,000 --> 00:45:17,000

There's something hot whatever it is I feel a lot of things around this girl.

371

00:45:18,000 --> 00:45:19,000

Tremendous amounts of people.

372

00:45:22,000 --> 00:45:29,000

No I think I'm getting a feeling of what actually there's a choking going on in her throat too.

373

00:45:30,000 --> 00:45:31,000

She's choking on something.

374

00:45:32,000 --> 00:45:39,000

And this is during the attack you know she's choking.

375

00:45:40,000 --> 00:45:41,000

I think you know what I'm getting at.

376

00:45:42,000 --> 00:45:45,000

There's a force on the throat but it's more of a choking type.

377

00:45:46,000 --> 00:45:47,000

Exactly.

378

00:45:48,000 --> 00:45:52,000

I feel you were girdling on something right that type of situation I'm getting.

379

00:45:53,000 --> 00:45:58,000

There's no way that Dorothy Alson would have known about an object being in the victim's throat.

380

00:45:59,000 --> 00:46:08,000

She related that it didn't seem to her to be a choking of the hands around the throat but as a choking of some type of object down inside the victim's throat.

381

00:46:09,000 --> 00:46:16,000

And I was very surprised that she keyed in on this because this is a point in the investigation that we did not make public.

382

00:46:17,000 --> 00:46:27,000

She definitely absolutely walked down the street and she goes as far as the library and then she is picked up in this yellow car that I described to the real old.

383

00:46:28,000 --> 00:46:30,000

Well here's the library right here on the left.

384

00:46:31,000 --> 00:46:35,000

After 24 hours in Hagerstown Dorothy had come up with literally dozens of possible clues.

385

00:46:36,000 --> 00:46:43,000

Many seemed unrelated to the case. Others would seem misdirected. Keith Wattenchate's hairpiece for instance.

386

00:46:44,000 --> 00:46:48,000

And the janitor Dorothy mentioned may have been Laurie's stepfather not a suspect.

387

00:46:49,000 --> 00:46:54,000

The individual she named at the airport Chuck Goldstein or Bernstein is also not a suspect.

388

00:46:54,000 --> 00:46:58,000

Though according to Dorothy he may have some information.

389

00:46:59,000 --> 00:47:02,000

But some of Dorothy's clues did seem connected to the crime.

390

00:47:03,000 --> 00:47:06,000

For example Dorothy had seen the numbers one and seven.

391

00:47:07,000 --> 00:47:11,000

She learned that Laurie had been laid to rest at the cemetery in plot 17.

392

00:47:12,000 --> 00:47:14,000

Dorothy had mentioned the name Cleveland.

393

00:47:15,000 --> 00:47:20,000

The last street sign before the crime scene was at a turn off called Cleveland Town Road.

394

00:47:20,000 --> 00:47:24,000

Dorothy had talked about an old church.

395

00:47:25,000 --> 00:47:29,000

Half a mile from where the body was found there was indeed an old church.

396

00:47:30,000 --> 00:47:40,000

All these clues might be coincidences but they might also be part of a mosaic that once assembled will create a picture of what happened to Laurie Zimmerman.

397

00:47:41,000 --> 00:47:49,000

At the crime scene Dorothy experienced the strongest sensation that she'd felt during the entire time.

398

00:47:50,000 --> 00:47:51,000

A higher investigation.

399

00:47:52,000 --> 00:47:57,000

But as far as that name I feel that I feel him stronger than anybody right now in this area.

400

00:47:58,000 --> 00:48:07,000

I feel that he's the one who took the girl here and the reason he murdered her was because she was reluctant to let him do whatever he wanted.

401

00:48:08,000 --> 00:48:12,000

So she screamed out loud and he panicked and I believe that he hit her on the head.

402

00:48:13,000 --> 00:48:14,000

You know the head area.

403

00:48:15,000 --> 00:48:16,000

I believe that he killed her that way.

404

00:48:16,000 --> 00:48:20,000

But I do believe that this man that murdered this girl.

405

00:48:21,000 --> 00:48:23,000

I think he should start looking for him.

406

00:48:24,000 --> 00:48:25,000

Okay.

407

00:48:26,000 --> 00:48:28,000

In fact that'd be positive that he is the one.

408

00:48:31,000 --> 00:48:38,000

Detective Wattensheet has run the name that Dorothy mentioned through the police computers but there are no known suspects by that name.

409

00:48:39,000 --> 00:48:41,000

In total she came up with 50 different clues.

410

00:48:41,000 --> 00:48:48,000

Only when the crime is solved we know how many of Dorothy's visions are really connected to the murder of Laurie Zimmerman.

411

00:48:55,000 --> 00:48:58,000

For every mystery there is someone somewhere who knows the truth.

412

00:48:59,000 --> 00:49:00,000

Perhaps that someone is watching.

413

00:49:01,000 --> 00:49:02,000

Perhaps it's you.

414

00:49:11,000 --> 00:49:13,000

I believe that he's the one who killed her.

415

00:49:14,000 --> 00:49:16,000

I believe that he's the one who killed her.

416

00:49:17,000 --> 00:49:19,000

I believe that he's the one who killed her.

417

00:49:20,000 --> 00:49:22,000

I believe that he's the one who killed her.

418

00:49:23,000 --> 00:49:25,000

I believe that he's the one who killed her.

419

00:49:26,000 --> 00:49:28,000

I believe that he's the one who killed her.

420

00:49:29,000 --> 00:49:31,000

I believe that he's the one who killed her.

421

00:49:32,000 --> 00:49:34,000

I believe that he's the one who killed her.

422

00:49:35,000 --> 00:49:37,000

I believe that he's the one who killed her.

423

00:49:38,000 --> 00:49:40,000

I believe that he's the one who killed her.

424

00:49:41,000 --> 00:49:43,000

I believe that he's the one who killed her.
