

1

00:00:00,000 --> 00:00:09,600

This program is about unsolved mysteries. Whenever possible, the actual family members

2

00:00:09,600 --> 00:00:13,680

and police officials have participated in recreating the events. What you are about

3

00:00:13,680 --> 00:00:15,520

to see is not a news broadcast.

4

00:00:15,520 --> 00:00:26,960

1966, Quang Tri Province, South Vietnam. A helicopter crash claims a life of Navy medic

5

00:00:26,960 --> 00:00:31,840

Mark Dennis. Four years later, this photograph of an unknown American POW

6

00:00:31,840 --> 00:00:36,480

who appeared in Newsweek magazine. The Dennis family became convinced that

7

00:00:36,480 --> 00:00:42,720

Mark had survived the crash, as captured by the Viet Cong. Dorothy Isatt, an

8

00:00:42,720 --> 00:00:47,120

unassuming Canadian homemaker, has captured these eerie lights on film and

9

00:00:47,120 --> 00:00:52,240

believes there is no explanation other than UFOs. The skeptics are unconvinced.

10

00:00:53,200 --> 00:00:59,760

Ricardo Caputo, a charismatic ladies man and allegedly a brutal killer. According to the

11

00:00:59,760 --> 00:01:04,560

police, Caputo has murdered at least five women and authorities need your help to catch him.

12

00:01:06,160 --> 00:01:10,800

Also tonight, an update on a recent profile of one of the FBI's 10 most wanted criminals.

13

00:01:11,440 --> 00:01:15,760

Thanks to our broadcast, a suspected serial child molester is now in custody.

14

00:01:16,560 --> 00:01:22,080

Join us. You may be able to help solve a mystery.

15

00:01:52,240 --> 00:02:02,080

Music

16

00:02:12,960 --> 00:02:15,600

March 1966, Miami's Burgo High.

17

00:02:15,600 --> 00:02:18,080

Well, if I remember right, this is the hardest part.

18

00:02:18,960 --> 00:02:27,920

The war in Vietnam was escalating. Navy medic Mark Dennis said goodbye to his family.

19

00:02:27,920 --> 00:02:39,920

Music

20

00:02:39,920 --> 00:02:46,000

Mark had joined the Navy in 1964 at the age of 17. He chose to be a medic because he believed it

21

00:02:46,000 --> 00:02:49,120

would be useful in his desire to one day become a missionary.

22

00:02:49,120 --> 00:02:52,320

So, you keep careful. You know what they tell you to do.

23

00:02:52,320 --> 00:02:53,280

Yes, sir.

24

00:02:54,800 --> 00:02:58,720

Mark Dennis was a deeply religious young man with a strong sense of compassion.

25

00:03:00,000 --> 00:03:04,560

According to his family, he had volunteered for service in Vietnam so that a married soldier

26

00:03:04,560 --> 00:03:06,400

with a family would not have to go.

27

00:03:10,320 --> 00:03:14,480

Once in Vietnam, Mark was attached to the Marine Second Battalion Company E,

28

00:03:14,560 --> 00:03:20,800

stationed in Dong Ha, next to the demilitarized. In combat slang, the sector was hot.

29

00:03:25,120 --> 00:03:30,880

We all knew he was going into combat, but it was really not on anybody's mind that it was

30

00:03:30,880 --> 00:03:38,080

as bad as it became a few months later. So, we all felt, you know, it was dangerous,

31

00:03:38,080 --> 00:03:40,880

but it was his place to go. He had volunteered.

32

00:03:41,280 --> 00:03:43,680

Music

33

00:03:43,680 --> 00:03:49,600

July 15, 1966. Mark and 15 other men were brought to Chinook helicopter,

34

00:03:49,600 --> 00:03:53,120

bringing assistance to a battalion hemmed in by the North Vietnamese Army.

35

00:03:54,240 --> 00:04:00,320

The helicopter ran into heavy enemy gunfire. This is an actual photograph of Mark's helicopter

36

00:04:00,320 --> 00:04:06,480

shortly after it was hit. The helicopter crashed and exploded in the midst of an infantry firefight.

37

00:04:07,120 --> 00:04:12,720

According to Navy records, only three men survived. A pilot, a co-pilot and a gunner.

38

00:04:13,760 --> 00:04:15,760

Thirteen men had perished in the crash.

39

00:04:19,360 --> 00:04:23,840

When I came down the street, I saw the Navy vehicle. The first thing that hit my mind is

40

00:04:23,840 --> 00:04:29,280

hit Mark that killed. I pulled up to the house and I heard my sister yell, Mark, he's dead.

41

00:04:29,840 --> 00:04:31,280

Mom.

42

00:04:36,000 --> 00:04:44,800

It was just a total shock. Then the weight for the casket, it just was days and then turned into weeks.

43

00:04:47,040 --> 00:04:52,720

The whole thing was really a trauma that is difficult to date even to talk about.

44

00:04:53,360 --> 00:04:55,680

Music

45

00:04:55,680 --> 00:05:01,280

Mark Dennis was buried on August 9, 1966. Due to the condition of the body,

46

00:05:01,280 --> 00:05:05,520

the Navy suggested that the family not view the remains. They complied.

47

00:05:07,600 --> 00:05:13,120

The first four years was rough and the Vietnam War went on and we just tried to shut it out of our

48

00:05:13,120 --> 00:05:25,360

lives until 1970. On November 30, 1970, Newsweek magazine published this photograph of an unknown

49

00:05:25,360 --> 00:05:30,560

prisoner of war. When the Dennis family saw the photograph, they thought it looked just like Mark.

50

00:05:31,760 --> 00:05:36,800

Suddenly faced with a possibility that Mark might be alive, they immediately contacted the Navy.

51

00:05:38,640 --> 00:05:42,240

Naval authorities requested additional photographs of Mark to see if they could

52

00:05:42,320 --> 00:05:49,840

make a positive identification. Six weeks passed. Finally, the Navy concluded the man in the

53

00:05:49,840 --> 00:05:56,720

photograph was not Mark Dennis, but rather a previously documented prisoner. The Navy continued

54

00:05:56,720 --> 00:06:02,640

to maintain Mark had been killed in action. Unconvinced, Jerry Dennis requested that the

55

00:06:02,640 --> 00:06:08,160

Navy forward Mark's death certificate. The death certificate brought a disturbing revelation.

56

00:06:08,960 --> 00:06:14,640

It appeared that every man killed in the crash had been positively identified except Mark Dennis.

57

00:06:17,520 --> 00:06:21,760

The Navy stated that they were definitely able to match 12 bodies found in the wreckage with

58

00:06:21,760 --> 00:06:28,080

12 men from Mark's unit. The 13th body was burned beyond recognition. They apparently assumed it

59

00:06:28,080 --> 00:06:33,280

was marked by a process of elimination. Jerry Dennis, still believing the man pictured in

60

00:06:33,280 --> 00:06:39,200

Newsweek might be his brother, now became convinced that Mark had survived. Several weeks after the

61

00:06:39,200 --> 00:06:44,400

photograph appeared, Jerry received further evidence that his brother might not have died in the crash.

62

00:06:47,280 --> 00:06:52,880

In 1971, an article about Jerry Dennis' efforts to find out what happened to his brother appeared

63

00:06:52,880 --> 00:06:59,600

in local newspaper. The next day, Jerry was visited by a Navy dental technician named Steve Wilcox.

64

00:07:00,480 --> 00:07:06,000

Steve Wilcox had been Mark's best friend in boot camp. Six months after Mark was reported killed,

65

00:07:06,000 --> 00:07:12,240

Steve met another medic who had served with Mark in Vietnam. Everybody that came to the hospital

66

00:07:12,240 --> 00:07:16,000

had to come through my office. They had to deliver their dental records to me, so I knew where everybody

67

00:07:16,000 --> 00:07:23,120

came from. And I knew that there was just one medic who had come from Nam. I saw him later and we

68

00:07:23,120 --> 00:07:27,760

had a chance to talk. We worked together a lot in the field as medics. He's one of the best medics in

69

00:07:27,760 --> 00:07:33,680

the group too. I mentioned that I had a friend that was killed in Nam and mentioned that it was Mark Dennis.

70

00:07:34,400 --> 00:07:41,760

And he was in Mark's unit. Hey, were you there when that chopper went down? No, I wasn't actually there.

71

00:07:43,680 --> 00:07:47,120

Look. Then he started to share some information with me that was

72

00:07:47,840 --> 00:07:53,360

coming off-card. It really surprised me. I don't think Mark died that day. But they sent the body

73

00:07:53,680 --> 00:07:58,560

home. I mean the family buried Mark. Well, I was in the first recovery crew, right?

74

00:07:58,560 --> 00:08:01,760

First of all, he said that Mark was not supposed to have been on that helicopter.

75

00:08:02,640 --> 00:08:07,040

And secondly, nobody really in the unit believed that Mark was dead. There was no evidence at the

76

00:08:07,040 --> 00:08:13,360

crash site that he was on the helicopter when it crashed. Go, let's get out of here! Come on!

77

00:08:13,360 --> 00:08:17,040

In the chaotic aftermath of the crash, the medic recalled that no equipment

78

00:08:17,440 --> 00:08:22,240

belonging to Navy medics were found in the debris, nor where Mark Dennis' dog found.

79

00:08:26,560 --> 00:08:31,360

Most alarm, he reported that there were not 13 bodies recovered as claimed by the Navy.

80

00:08:40,720 --> 00:08:43,200

I was very frustrated that I could not remember his name.

81

00:08:47,120 --> 00:08:52,480

There are a lot of things that were unsettling with him. I was more concerned with Mark,

82

00:08:52,480 --> 00:08:55,760

naturally. So that's what I remember the most. But I do remember that he was...

83

00:08:58,800 --> 00:09:03,280

He indicated things were happening there that he didn't understand and bothered him.

84

00:09:06,000 --> 00:09:11,120

Based on Steve Wilcox's story, the Dennis family chose to ignore the Navy's recommendation not

85

00:09:11,200 --> 00:09:14,560

to view the body. They decided to have the remains exhumed.

86

00:09:22,720 --> 00:09:26,800

Because the body had been burned beyond recognition, military procedure called for the

87

00:09:26,800 --> 00:09:32,240

uniform to be placed on top. The remains were underneath, wrapped in a plastic bag covered by

88

00:09:32,240 --> 00:09:39,840

a Navy blanket. Jerry found dog tags pinned to the blanket. The tags seemed brand new and still

89

00:09:39,920 --> 00:09:46,640

had sharp edges. I immediately grabbed the dog tag to read it and a burr in the dog tag

90

00:09:47,360 --> 00:09:51,680

sunk into my thumb, actually drew blood. And I immediately realized these

91

00:09:51,680 --> 00:09:54,560

dog tags were never worn or they would have cut your chest to ribbons.

92

00:09:56,880 --> 00:09:59,920

Jerry also noticed curious burn marks on the tags.

93

00:10:01,200 --> 00:10:05,520

They were not from a helicopter crash. I was into the arson field. I knew

94

00:10:05,520 --> 00:10:09,360

what the temperatures reached in that helicopter as it burned and melted down.

95

00:10:09,360 --> 00:10:14,880

These dog tags were not in that helicopter. Jerry Dennis once again contacted the Navy.

96

00:10:15,520 --> 00:10:19,680

Their initial response was that the tags must have been thrown from the helicopter and burned

97

00:10:19,680 --> 00:10:27,120

at a lower temperature. Later they arrived at a different conclusion. The ID tags that are

98

00:10:27,120 --> 00:10:32,080

recovered from a crash site would have been brought to the mortuary with the remains.

99

00:10:32,640 --> 00:10:36,560

But since it was not mentioned on the death certificate that ID tags

100

00:10:36,560 --> 00:10:42,080

were part of the identification process, I have to assume that new ID tags were made at

101

00:10:42,080 --> 00:10:46,560

the Army Mortuary in Saigon. That was standard policy at that time.

102

00:10:47,680 --> 00:10:53,520

That is normal. It is not normal to make up a dog tag and burn it to make it simulate that it was in a

103

00:10:53,520 --> 00:11:00,080

crash. Jerry had lab technicians examine residue from the tags. They concluded that

104

00:11:00,080 --> 00:11:03,680

tags had been charred in a low-grade fire under a controlled flame.

105

00:11:06,160 --> 00:11:11,440

A forensic anthropologist determined that the height of the dead man was approximately 5 feet 7,

106

00:11:11,440 --> 00:11:17,200

which corresponded with the Navy's estimate. However, in 1963, Mark Dennis was measured

107

00:11:17,200 --> 00:11:24,160

at 5 feet 9 and a half. Further, his family claims that when he left for Vietnam three years later,

108

00:11:24,160 --> 00:11:31,680

he had grown to 6 feet tall. Jerry also ordered tests on scrapings taken from the remains.

109

00:11:32,560 --> 00:11:36,160

The tests revealed traces of lead, another inconsistency.

110

00:11:38,320 --> 00:11:45,120

The body was not blown up in a Chinook helicopter because the Chinook helicopter uses JP4, JP5,

111

00:11:45,120 --> 00:11:48,160

non-lendicare scene. This body had been burned with regular gasoline.

112

00:11:48,960 --> 00:11:56,240

What he failed to consider as possible other contaminants of lead in that incident were military

113

00:11:56,240 --> 00:12:01,680

radio batteries on board the aircraft, ammunition, paint from the aircraft, that kind of thing.

114

00:12:02,720 --> 00:12:07,440

The standard reference used by the FBI states that there are also minute

115

00:12:07,440 --> 00:12:10,400

presence of lead and that occurs naturally in human bone.

116

00:12:11,120 --> 00:12:15,440

We weren't talking about bone marrow. We're talking about the residues, the smoke,

117

00:12:16,160 --> 00:12:21,120

on the surface of the burn areas, the bone, the flesh, the skull itself.

118

00:12:22,000 --> 00:12:24,400

So they were comparing eggs and oranges.

119

00:12:26,240 --> 00:12:32,080

In November 1971, Jerry officially requested a change in Mark's status from killed in action

120

00:12:32,080 --> 00:12:39,280

to missing in action. The Navy refused. I was given a choice, either accepting that body

121

00:12:40,160 --> 00:12:45,200

or if we refuse to accept it, the Navy was going to bury it in our LinkedIn cemetery with

122

00:12:45,200 --> 00:12:48,800

Mark's headstone on it and I decided there was no way in hell they're going to do that.

123

00:12:50,000 --> 00:12:55,760

Two months later, the Dennis family reburied the body in Miami's Burk. Jerry placed a ribbon

124

00:12:55,760 --> 00:13:00,560

upon the headstone. It read, in memory of one known only to God.

125

00:13:01,520 --> 00:13:10,640

March 1973, the war in Vietnam was over. The first prisoners of war began coming home.

126

00:13:11,840 --> 00:13:15,280

The Dennis family prayed that Mark would be among them. He was not.

127

00:13:16,640 --> 00:13:21,360

The arrival of the Vietnamese boat people in the late 1970s brought renewed hope.

128

00:13:21,360 --> 00:13:24,880

Stories of American GIs still being held captive in Vietnam.

129

00:13:25,520 --> 00:13:33,680

For most of us, the Vietnam War had begun to fade by 1980. For Jerry Dennis and the families of

130

00:13:33,680 --> 00:13:39,600

other men whose fate was still unknown, the war raged on. Jerry decided to renew his efforts

131

00:13:39,600 --> 00:13:44,160

and petitioned his congressman to investigate the circumstances surrounding Mark's death.

132

00:13:48,880 --> 00:13:53,680

In 1981, pressure from Jerry's congressman forced the Navy into interviewing Captain

133

00:13:53,680 --> 00:14:00,080

Gary Lucas, the helicopter gunner who survived the crash. In a signed affidavit, Lucas stated

134

00:14:00,080 --> 00:14:03,600

that two men had jumped from the helicopter, though he assumed they were killed.

135

00:14:05,920 --> 00:14:12,160

The man who got out of this alive said men jumped out of the aircraft in enemy territory prior to

136

00:14:12,160 --> 00:14:19,360

the crash. At least two, he saw jump. Did he see it? The pilot said that the smoke was so bad after

137

00:14:19,360 --> 00:14:24,560

the aircraft was hit he could not see to fly the helicopter. Or did he see two people move

138

00:14:24,560 --> 00:14:29,520

towards the rear of the aircraft to try and get away from the fire? The fact remains that the,

139

00:14:29,520 --> 00:14:32,800

all the remains of those that's perished on that aircraft were recovered.

140

00:14:34,480 --> 00:14:39,760

When I first became involved in this, it was a personal issue. It was a brother, Mark Dennis,

141

00:14:39,760 --> 00:14:44,720

the kid that got left behind by the U.S. government. And it was a very personal thing.

142

00:14:44,960 --> 00:14:48,480

Everybody involved in this issue of the family members start out that way,

143

00:14:48,480 --> 00:14:55,120

but you don't remain that way very long. Over the next four years, Jerry Dennis became

144

00:14:55,120 --> 00:15:01,920

increasingly active in national POW and MIA organizations. He made numerous trips to Washington

145

00:15:01,920 --> 00:15:09,120

to plead his case. Then in December of 1986, Jerry got another piece of compelling evidence

146

00:15:10,080 --> 00:15:12,000

that Mark had not died in the crash.

147

00:15:14,480 --> 00:15:19,200

This is a bracelet of Jerry's brother who has a POW. A gentleman to my left

148

00:15:19,200 --> 00:15:22,560

really became absorbed in listening and I knew he was interested.

149

00:15:24,080 --> 00:15:28,880

Excuse me. Yes, sir. I didn't want to interrupt, but I happened to overhear part of your conversation.

150

00:15:29,920 --> 00:15:35,040

My name is John King. John, Jerry, this is Gerald. I heard you talking about the POWs.

151

00:15:35,920 --> 00:15:39,760

Well, I was in the Air Force. I happened to be a POW myself from 66 to 69.

152

00:15:41,840 --> 00:15:45,680

I was moved around a lot, four different camps, and the last camp I was in,

153

00:15:46,560 --> 00:15:51,440

there was a gentleman by the name of Dennis. I said, well, what was his first name? I don't know.

154

00:15:51,440 --> 00:15:57,840

We all went by nicknames. I said, what was his nickname? When he told me his nickname was Preacher,

155

00:15:57,840 --> 00:16:03,920

I get cold chills. Mark was very close to the church. He talked about becoming a missionary

156

00:16:03,920 --> 00:16:08,240

before he went in the service. While in the service, he had just written home in the letters

157

00:16:08,240 --> 00:16:13,680

that his unit was separated and he was the acting chaplet for the group he was in. He was proud of that.

158

00:16:16,000 --> 00:16:18,080

Here's a man telling us all these years later.

159

00:16:23,200 --> 00:16:25,440

Excuse me, but that was his nickname.

160

00:16:28,640 --> 00:16:30,400

Then we pulled out Mark's picture.

161

00:16:34,240 --> 00:16:38,640

Yeah. Yeah, that's him. You're sure? I'm positive. That's him.

162

00:16:42,880 --> 00:16:48,560

It's what I'd been saying all along could be, probably was, that he lived. He definitely lived

163

00:16:48,560 --> 00:16:54,000

through the creation in 66. The odds he was still alive, especially if he was once captured as a medic,

164

00:16:54,000 --> 00:17:01,280

he was useful to these people as a medic. I basically feel I had become pretty good friends

165

00:17:01,280 --> 00:17:06,880

with Mr. Jerry Dennis over the years since I've been working with him. I made every effort on behalf

166

00:17:06,880 --> 00:17:13,040

of the Navy to try and convince him that we have a positive identification of his brother, Mark's remains.

167

00:17:14,560 --> 00:17:21,120

I get the impression from Mr. Dennis that he still does not believe they are his brother's remains,

168

00:17:21,120 --> 00:17:27,600

or for some reason doesn't want to believe it, but I in my own heart feel that for sure we have

169

00:17:27,600 --> 00:17:35,200

the remains of Mark Dennis. No matter what we come up with, I swear if I marched Mark Dennis

170

00:17:35,200 --> 00:17:41,360

in to the United States Navy headquarters tomorrow, they'd find some excuse to discredit his identification.

171

00:17:41,360 --> 00:17:44,240

It doesn't matter what you present, they aren't going to change.

172

00:17:46,480 --> 00:17:51,200

Did Mark Dennis die on the helicopter crash, or did he survive only to be taken prisoner by the

173

00:17:51,200 --> 00:17:58,080

North Vietnamese? Jerry Dennis may never know who is buried in his brother's grave,

174

00:17:58,080 --> 00:18:03,120

but if it isn't Mark Dennis, then another family has never been able to put their son to rest.

175

00:18:05,600 --> 00:18:12,400

Whether Mark is alive today, I don't know. What condition he would be in, where he would be at,

176

00:18:12,400 --> 00:18:19,040

I don't know. But in my opinion, no one else knows either, except from Vietnamese who hold the keys.

177

00:18:19,200 --> 00:18:26,400

But the point is, Mark Dennis has a right, a constitutional right, to not be listed dead by the stroke of a pen.

178

00:18:27,760 --> 00:18:30,800

He has a right to be accounted for, he has a right to be demanded,

179

00:18:31,600 --> 00:18:34,640

and that's never been done by our government for Mark Dennis.

180

00:18:38,880 --> 00:18:44,800

After the story originally aired, additional details emerge which may shed new light on the mystery of Mark Dennis.

181

00:18:45,360 --> 00:18:53,360

We were contacted by the Department of the Army, which sought to clarify some of the more controversial issues presented in our broadcast.

182

00:18:54,480 --> 00:18:59,680

As we reported, Jerry Dennis first became convinced that his brother might still be alive,

183

00:18:59,680 --> 00:19:04,560

when Newsweek magazine published this photograph of an unidentified prisoner of war.

184

00:19:05,120 --> 00:19:08,160

Jerry felt that it bore a strong resemblance to Mark.

185

00:19:08,720 --> 00:19:14,720

Six months later, the Dennis family was told by the Navy that the man had been positively identified as Paul Galanti,

186

00:19:14,720 --> 00:19:22,720

a U.S. Navy commander shot down over North Vietnam in 1966 and released from captivity in 1973.

187

00:19:22,720 --> 00:19:28,720

Nevertheless, Jerry Dennis continued to press his case against the military.

188

00:19:30,720 --> 00:19:34,720

I was in the Air Force, I happened to be a POW myself from 66 to 69.

189

00:19:35,120 --> 00:19:41,120

Sixteen years later, in 1986, Jerry met a man named John King.

190

00:19:41,120 --> 00:19:45,120

King presented himself as a former POW who had managed to escape.

191

00:19:45,120 --> 00:19:49,120

He claimed to have met Mark Dennis while both were in captivity.

192

00:19:49,120 --> 00:19:51,120

Yeah, yeah, that's him.

193

00:19:51,120 --> 00:19:57,120

It is now known that the name John King is not officially listed as a POW in any branch of the military.

194

00:19:57,520 --> 00:20:03,520

Perhaps the most controversial aspect of the case concerns a remains exhumed from Mark Dennis's grave.

195

00:20:03,520 --> 00:20:11,520

Jerry Dennis did not believe X-rays taken of those bones matched X-rays taken of his brother at the time of his enlistment.

196

00:20:11,520 --> 00:20:17,520

With a cooperation of the U.S. Department of the Army, we contacted Dr. John Fitzpatrick,

197

00:20:17,520 --> 00:20:19,520

an independent forensic radiologist.

198

00:20:19,520 --> 00:20:25,520

To positively identify the body, Dr. Fitzpatrick was the only one who was in the military.

199

00:20:25,920 --> 00:20:31,920

To positively identify the body, Dr. Fitzpatrick examined a blow-up of a known X-ray of Mark Dennis,

200

00:20:31,920 --> 00:20:35,920

an X-ray of the remains buried in Mark Dennis's grave.

201

00:20:35,920 --> 00:20:43,920

When he compared three specific points from the X-rays, he concluded that the bones had exactly the same configuration.

202

00:20:45,920 --> 00:20:53,920

I compared the X-rays taken on the three vertebrae that were excavated from the site in Vietnam

203

00:20:54,320 --> 00:20:58,320

and the X-ray of Mark Dennis.

204

00:20:58,320 --> 00:21:02,320

The three vertebrae are identical.

205

00:21:02,320 --> 00:21:06,320

There's enough unique about everybody, no matter what we look at, that no two people are alike.

206

00:21:06,320 --> 00:21:14,320

And therefore, the vertebrae are those of Mark Dennis, and this is a 100% identification.

207

00:21:18,320 --> 00:21:22,320

After we received Dr. Fitzpatrick's analysis, we contacted Jerry Dennis for his comments.

208

00:21:22,720 --> 00:21:29,720

In spite of the new forensic findings, Jerry still believes that his brother did not die when the Navy said he did.

209

00:21:29,720 --> 00:21:33,720

The Department of the Army considers a case of Mark Dennis closed.

210

00:21:36,720 --> 00:21:42,720

Next, our viewers help capture Kenneth Robert Snapp, one of the FBI's 10 most wanted criminals.

211

00:21:52,720 --> 00:21:57,720

Recently, the director of the FBI, William Sessions, made a special appeal on unsolved mysteries

212

00:21:57,720 --> 00:22:01,720

to announce the latest addition to the FBI's 10 most wanted list.

213

00:22:03,720 --> 00:22:10,720

In 1964, Kenneth Robert Stanton was convicted of child molestation and diagnosed as a criminal sexual psychopath.

214

00:22:11,720 --> 00:22:15,720

He was later declared fit to re-enter society and was set free.

215

00:22:16,120 --> 00:22:23,120

In 1989, Stanton was identified in Jackson, Mississippi by a 12-year-old girl he allegedly attempted to molest.

216

00:22:23,120 --> 00:22:29,120

According to the girl, Stanton gained entry into her home by posing as a policeman.

217

00:22:31,120 --> 00:22:33,120

Hi, is your mother home?

218

00:22:33,120 --> 00:22:35,120

No.

219

00:22:35,120 --> 00:22:38,120

Well, I'm Officer Tom Cole. I'm with the local police.

220

00:22:38,120 --> 00:22:43,120

He has a high IQ and he's very intelligent. He's able to gain their confidence to get inside the house.

221

00:22:43,520 --> 00:22:45,520

I'll be gone.

222

00:22:49,520 --> 00:22:55,520

Once he's inside and he's determined that the children or child is alone,

223

00:22:56,520 --> 00:23:03,520

he blindfolds him frequently. Quite often he uses eye drops and a thermometer, possibly for a distraction.

224

00:23:05,520 --> 00:23:09,520

It's at that time then that he continues on in assaults the children.

225

00:23:09,920 --> 00:23:14,920

According to the 12-year-old girl, Stanton fled when she began screaming.

226

00:23:15,920 --> 00:23:25,920

After the Jackson, Mississippi assault, there were identifications of Stanton in Columbus, Mississippi as well as Tuscaloosa, Alabama,

227

00:23:25,920 --> 00:23:30,920

Leesburg, Georgia, Douglasville, Georgia and Warner Robins, Georgia.

228

00:23:30,920 --> 00:23:36,920

After reviewing a number of these cases and looking at Stanton's history from the early 1960s,

229

00:23:37,320 --> 00:23:45,320

we were able to conclude that he apparently was a lifelong child molester and probably could be

described as a serial child molester.

230

00:23:48,320 --> 00:23:51,320

Update. Kenneth Robert Stanton has been captured.

231

00:23:51,320 --> 00:23:59,320

Within minutes of our broadcast, several viewers called our telecenter to report that Stanton was living in a trailer park in Moreno, Ohio with his wife.

232

00:23:59,320 --> 00:24:02,320

He had been married just a few weeks earlier.

233

00:24:02,720 --> 00:24:09,720

Local police and FBI agents arrived at Stanton's trailer only to learn that he himself had seen our broadcast and fled.

234

00:24:09,720 --> 00:24:12,720

Stanton's wife and neighbors were stuck.

235

00:24:13,720 --> 00:24:19,720

I've talked to my son and I've had him in front of the house, staying in the yard just in case he

comes back.

236

00:24:19,720 --> 00:24:22,720

I don't want someone like him running around the streets at all.

237

00:24:22,720 --> 00:24:25,720

Anyone that does anything like that should be put away.

238

00:24:26,120 --> 00:24:33,120

Five days later, Stanton's identified in Rock Hill, South Carolina after he allegedly attempted to molest a nine-year-old girl.

239

00:24:35,120 --> 00:24:46,120

Based on seeing the segment on the program, coupled with a police report, we suspected there was a strong possibility that Stanton was in Rock Hill or somewhere in this area.

240

00:24:46,120 --> 00:24:51,120

We proceeded on an assumption that he was possibly staying at a local motel.

241

00:24:51,520 --> 00:24:57,520

Two days later, FBI agents spotted Stanton's car in the parking lot of this motel.

242

00:24:57,520 --> 00:25:06,520

After identifying the vehicle, we established the surveillance of the motel with FBI agents in Newark County Sheriff's Department of Detectives.

243

00:25:06,520 --> 00:25:13,520

Incredibly, a check with the motel office revealed that Stanton had registered under his own name.

244

00:25:13,920 --> 00:25:21,920

He had indicated to the clerk previously that he wanted to stay an additional week, but he also wanted to move to the main building.

245

00:25:21,920 --> 00:25:30,920

The clerk at our direction called his room, told him the new room was ready and he could move.

246

00:25:30,920 --> 00:25:34,920

When Stanton emerged from his room, we arrested him.

247

00:25:35,320 --> 00:25:44,320

We asked Stanton his name. He said, you know who I am. And he indicated that he was not a threat to us, that he was only a threat to himself.

248

00:25:44,320 --> 00:25:48,320

He did indicate that the following day was his birthday.

249

00:25:56,320 --> 00:26:03,320

When we return, the police are hunting for a suspect who they believe has murdered at least five women.

250

00:26:05,320 --> 00:26:19,320

July 31, 1971, Nassau County, New York, 11 p.m.

251

00:26:19,320 --> 00:26:26,320

A 20-year-old Argentine man named Ricardo Caputo made a late-night call to the police.

252

00:26:26,320 --> 00:26:31,320

I want to talk to the police. How can I help you?

253

00:26:31,720 --> 00:26:35,720

I want to report something very important.

254

00:26:35,720 --> 00:26:37,720

Where are you calling from?

255

00:26:37,720 --> 00:26:42,720

He told police to go to the home of his girlfriend's parents. Her name was Natalie Brown.

256

00:26:44,720 --> 00:26:50,720

Caputo had been dating Natalie for over a year and had told authorities that he intended to marry her.

257

00:26:52,720 --> 00:26:58,720

I responded to the scene on Middle Neck Road. It was a small cottage type Cape Cod house.

258

00:26:59,120 --> 00:27:04,120

I went in the front door and immediately on my left I saw a kitchen and in the kitchen was the body of Miss Brown.

259

00:27:09,120 --> 00:27:14,120

She had been stabbed repeatedly. The room was covered with blood. It was really a vicious assault on her.

260

00:27:16,120 --> 00:27:20,120

It was the worst I ever seen in my history. I've covered a lot of homicides in my life.

261

00:27:20,120 --> 00:27:27,120

During the time that Natalie and Ricardo were seeing each other, I never saw any signs of volatile,

262

00:27:27,520 --> 00:27:34,520

volatile behavior on his part. Both my father and mother seemed to like him.

263

00:27:34,720 --> 00:27:38,720

They got along with him well. They both thought he was a nice boy.

264

00:27:38,720 --> 00:27:43,720

Natalie Brown's friends and family described her fiance as amiable and attractive, a winning personality.

265

00:27:45,720 --> 00:27:50,720

But in the case of Ricardo Caputo, appearances were more than deceiving. They became a lethal weapon.

266

00:27:51,320 --> 00:27:58,320

Police believe that since 1971 Caputo has employed his charms to kill again and again and again.

267

00:28:01,320 --> 00:28:08,320

After Caputo was taken into custody for Natalie Brown's murder, authorities learned that before arriving in the United States in 1970,

268

00:28:08,320 --> 00:28:12,320

he had been treated for mental illness in an Argentine hospital.

269

00:28:12,920 --> 00:28:19,920

A psychiatric review ruled that Caputo was incompetent to stand trial, so he was remanded to the Matoan State Hospital in Upstate New York.

270

00:28:22,920 --> 00:28:29,920

Matoan is a maximum security institution, and it was there that Caputo would meet a 26-year-old psychologist named Judith Becker.

271

00:28:30,920 --> 00:28:32,920

Well, hello there.

272

00:28:32,920 --> 00:28:34,920

My doctor, my friend.

273

00:28:34,920 --> 00:28:36,920

How are you?

274

00:28:36,920 --> 00:28:38,920

I'm very well thank you. How are you?

275

00:28:38,920 --> 00:28:40,920

Fine.

276

00:28:41,520 --> 00:28:50,520

I want to talk to you about the other doctors and I were discussing a project which would involve taking you and a few other patients outside to grow a garden.

277

00:28:50,520 --> 00:28:57,520

I believe it was a relationship of a psychologist and a patient.

278

00:28:59,520 --> 00:29:08,520

She felt that her patients were also her friends. She wanted them to trust her, and I think she felt they had to trust her in order to,

279

00:29:09,120 --> 00:29:12,120

for her to be able to help them.

280

00:29:12,120 --> 00:29:14,120

I will grow you the biggest tomato.

281

00:29:14,120 --> 00:29:22,120

Judith Becker was charmed by Caputo, and over the next two years, he worked overtime to gain her trust. Apparently, he succeeded.

282

00:29:22,120 --> 00:29:24,120

I do not like to remember.

283

00:29:24,120 --> 00:29:37,120

And speaking to other inmates of Matoan State Hospital, several of them stated that Ricardo Caputo had been bragging that he was going to use Judith Becker to gain his freedom from Matoan State Hospital.

284

00:29:37,720 --> 00:29:46,720

In 1973, with Judith Becker's assistance, Ricardo Caputo managed to get transferred out of Matoan to a Manhattan psychiatric hospital.

285

00:29:46,720 --> 00:29:50,720

It had been two years since Natalie Brown had been stabbed to death.

286

00:29:52,720 --> 00:29:58,720

This hospital was much less restrictive than Matoan, and allowed patients to leave the facility during the day.

287

00:29:58,720 --> 00:30:05,720

This new freedom allowed Judith and Caputo to spend more time together outside the hospital walls.

288

00:30:06,320 --> 00:30:10,320

Today, there is still a debate on just how intimate they became.

289

00:30:10,320 --> 00:30:12,320

Not like my country, but...

290

00:30:12,320 --> 00:30:16,320

From there, their relationship became romantic.

291

00:30:17,320 --> 00:30:22,320

From time to time, he would leave the grounds and go up to her apartment in Yacuz.

292

00:30:22,320 --> 00:30:28,320

Judy and Ricardo did not have a romantic relationship.

293

00:30:28,320 --> 00:30:31,320

She never described it that way.

294

00:30:31,920 --> 00:30:38,920

And I believe she knew enough about her profession and her patience to not have allowed that to happen.

295

00:30:38,920 --> 00:30:46,920

I think she felt that he needed whatever help she might be able to give him.

296

00:30:46,920 --> 00:30:51,920

Judith even took Caputo home to meet her family.

297

00:30:51,920 --> 00:30:57,920

When we met Ricardo, she introduced him as a fellow who worked with her at Matoan.

298

00:30:58,520 --> 00:31:05,520

She continued the relationship as a friend and as a psychologist and as somebody he could turn to.

299

00:31:07,520 --> 00:31:13,520

And I don't believe that she knew she was in as much danger as she ultimately was.

300

00:31:16,520 --> 00:31:19,520

October 21, 1974.

301

00:31:19,520 --> 00:31:24,520

Judith had failed to meet her parents as planned for a family boating trip.

302

00:31:25,120 --> 00:31:28,120

Concerned they went to her apartment.

303

00:31:28,120 --> 00:31:35,120

They located the super of the apartment building and by the use of a passkey allowed them to enter the apartment.

304

00:31:39,120 --> 00:31:41,120

Judy?

305

00:31:41,120 --> 00:31:50,120

When they entered the apartment where she lived, there was dinner for two on the coffee table in the living room.

306

00:31:50,120 --> 00:31:52,120

Judy?

307

00:31:52,720 --> 00:32:01,720

When they entered the bedroom, they found their daughter lying on her back in bed, wearing only a half slip.

308

00:32:01,720 --> 00:32:08,720

She had been brutally beaten about the head and strangled with one of her stockings.

309

00:32:10,720 --> 00:32:15,720

Police believe that Caputo took Judith's car, checkbook and some of her clothing.

310

00:32:15,720 --> 00:32:17,720

Then he disappeared.

311

00:32:18,320 --> 00:32:25,320

San Francisco, six months later, Ricardo Caputo had met another trusting woman.

312

00:32:25,320 --> 00:32:29,320

Barbara Taylor was a local book editor.

313

00:32:29,320 --> 00:32:34,320

These pictures were taken by Barbara and Caputo on a romantic getaway to Yosemite.

314

00:32:34,320 --> 00:32:41,320

But on March 30, 1975, Barbara was discovered beaten to death in her apartment.

315

00:32:41,320 --> 00:32:45,320

Caputo's fingerprints were found at the scene of the crime.

316

00:32:45,320 --> 00:32:52,320

By the time Barbara's body was discovered, Ricardo Caputo was nowhere to be found.

317

00:32:52,320 --> 00:32:58,320

Five days later, El Paso, Texas, the search for Ricardo Caputo took a dramatic turn.

318

00:32:58,320 --> 00:33:05,320

A man calling himself Ricardo Diaz was delivered into the hands of U.S. immigration by Mexican authorities.

319

00:33:05,320 --> 00:33:12,320

He was turned over to the custody of U.S. officials and he was incarcerated at the alien detention facility,

320

00:33:12,320 --> 00:33:14,320

which is located here in El Paso, Texas.

321

00:33:14,320 --> 00:33:17,320

There was actually a lock up there where he was being detained.

322

00:33:17,320 --> 00:33:22,320

No charges had been filed against him. It was just an administrative thing.

323

00:33:22,320 --> 00:33:27,320

At first Diaz attracted little attention until he was finger-prepared.

324

00:33:27,320 --> 00:33:32,320

He knew then that it would not take long for his real identity to be uncovered.

325

00:33:32,320 --> 00:33:36,320

Ricardo Diaz was in reality Ricardo Caputo.

326

00:33:38,320 --> 00:33:41,320

April 7, 1975.

327

00:33:42,320 --> 00:33:49,320

Caputo and three other detainees took the guard hostage and picked up makeshift weapons in the kitchen.

328

00:33:57,320 --> 00:34:02,320

The men then fled the compound and crossed the border into Mexico in a stolen car.

329

00:34:05,320 --> 00:34:09,320

All the men were recaptured, with the exception of Caputo.

330

00:34:09,320 --> 00:34:13,320

His companions told police Caputo was headed to Mexico City.

331

00:34:15,320 --> 00:34:22,320

There he moved in with a young 21-year-old college student by the name of Laura Marie Gomez.

332

00:34:22,320 --> 00:34:29,320

Two years later, 23-year-old Laura Marie Gomez was found dead in her Mexico City apartment.

333

00:34:29,320 --> 00:34:38,320

Miss Gomez was found brutally beaten, stomped to death. She had been tortured prior to her death.

334

00:34:38,320 --> 00:34:41,320

Laura Gomez was two and a half months pregnant.

335

00:34:41,320 --> 00:34:47,320

Police believe the killer and the father were the same man, Ricardo Caputo.

336

00:34:47,320 --> 00:34:57,320

Handsome, charming, intelligent, has a violent temper which usually results in homicidal outburst.

337

00:34:57,320 --> 00:35:03,320

Since he's done this all over the United States and in Mexico, we have to consider him a serial killer.

338

00:35:04,320 --> 00:35:09,320

Incredibly, police believe Ricardo Caputo has killed again.

339

00:35:09,320 --> 00:35:16,320

On August 2, 1983, 60-year-old Jackie Bernard, a prominent author and social activist,

340

00:35:16,320 --> 00:35:21,320

was found murdered, her throat crushed, in her West Side Manhattan apartment.

341

00:35:22,320 --> 00:35:28,320

On January 22, 1985, a private investigator hired by Jackie's family

342

00:35:28,320 --> 00:35:34,320

received an anonymous phone call identifying Jackie's killer as Ricardo Caputo.

343

00:35:34,320 --> 00:35:42,320

The caller also said that Caputo boasted about killing several other women and also some men.

344

00:35:43,320 --> 00:35:47,320

At Jackie Bernard's residence, her superintendent told Gordon McEwan

345

00:35:47,320 --> 00:35:54,320

he was positive that he had seen Caputo on the premises, attempting to gain entry into Jackie's apartment.

346

00:35:55,320 --> 00:36:00,320

The superintendent was absolutely positive of his identification of Caputo.

347

00:36:00,320 --> 00:36:06,320

He even added that the hairline of Caputo's hair had receded somewhat.

348

00:36:06,320 --> 00:36:11,320

He also informed me that Caputo spoke with a South American accent.

349

00:36:11,320 --> 00:36:13,320

He was very positive.

350

00:36:14,320 --> 00:36:17,320

Caputo is a chameleon.

351

00:36:17,320 --> 00:36:21,320

He can change his identity, he can change his looks,

352

00:36:21,320 --> 00:36:24,320

and he can kill and have no remorse for having killed.

353

00:36:24,320 --> 00:36:28,320

He's a good con artist, he's a smooth talker.

354

00:36:28,320 --> 00:36:34,320

He could function in probably just about any situation he set his mind to go into.

355

00:36:34,320 --> 00:36:38,320

I'd hate to think that Ricardo will have the opportunity to do it to another lady,

356

00:36:38,320 --> 00:36:46,320

or anybody else for that matter, and I think he'd be better off dead.

357

00:36:51,320 --> 00:37:11,320

Music

358

00:37:13,320 --> 00:37:20,320

When we return, an eerie tale of bizarre lights in the Canadian sky and a woman who is filmed.

359

00:37:22,320 --> 00:37:29,320

Music

360

00:37:29,320 --> 00:37:37,320

UFO sightings can usually be explained away as airplane lights, weather balloons, military maneuvers, even mass hysteria.

361

00:37:37,320 --> 00:37:41,320

Sightings sometimes gain credibility when they are supported by photographs

362

00:37:41,320 --> 00:37:44,320

which cannot be written off as obvious hoaxes.

363

00:37:44,320 --> 00:37:49,320

All of these photographs and thousands like them have been taken over the last 16 years in Canada.

364

00:37:49,320 --> 00:37:56,320

They baffle even the harshest skeptic and raise two elegantly simple questions, how and why.

365

00:38:00,320 --> 00:38:04,320

Vancouver, British Columbia, on the Pacific coast of Canada.

366

00:38:04,320 --> 00:38:10,320

For 35 years this city has reported an inordinate number of UFO sightings.

367

00:38:10,320 --> 00:38:15,320

The most frequent and well documented of the sightings have all been attributed to one woman,

368

00:38:15,320 --> 00:38:19,320

Dorothy Isatt, a homemaker and mother of four.

369

00:38:19,320 --> 00:38:25,320

Dorothy's first sighting occurred 16 years ago on November 9th, 1974.

370

00:38:25,320 --> 00:38:27,320

She was 52 years old.

371

00:38:30,320 --> 00:38:38,320

I was in the kitchen fixing myself a cup of tea, and I had a sensation that something was watching me.

372

00:38:39,320 --> 00:38:41,320

Music

373

00:38:41,320 --> 00:38:43,320

Very, very strong feeling.

374

00:38:43,320 --> 00:38:49,320

So I went over to the window and here was this enormous object sitting up in the sky.

375

00:38:49,320 --> 00:38:55,320

It looked like an enormous diamond, it was just flashing going around and around and around.

376

00:38:58,320 --> 00:39:02,320

It was so beautiful to look at that I felt I was really lifted up.

377

00:39:02,320 --> 00:39:05,320

It was absolutely a wonderful feeling.

378

00:39:05,320 --> 00:39:07,320

I wasn't afraid at all, you know.

379

00:39:07,320 --> 00:39:11,320

I felt really privileged to be able to see something like that.

380

00:39:13,320 --> 00:39:18,320

At that time Dorothy and her family lived in Richmond, a modest suburb of Vancouver.

381

00:39:18,320 --> 00:39:22,320

They considered themselves average working class people.

382

00:39:22,320 --> 00:39:27,320

Dorothy's husband and children took her UFO sightings lightly, almost as a joke.

383

00:39:27,320 --> 00:39:34,320

Their skepticism motivated Dorothy to prove that what she had seen was not simply a star or an airplane.

384

00:39:36,320 --> 00:39:41,320

I said I must find some way of communicating with this thing up there.

385

00:39:41,320 --> 00:39:48,320

So I picked up a flashlight and said, alright, whatever I do with this flashlight, would you please imitate me?

386

00:39:48,320 --> 00:39:55,320

So I flashed the light three times to the left and this object went three times to the left.

387

00:39:55,320 --> 00:40:01,320

Then I flashed it three times to the right and the object went three times to the right.

388

00:40:01,320 --> 00:40:06,320

Then I went three times upwards, he went three times upwards, three times downwards, he went three times downwards.

389

00:40:06,320 --> 00:40:09,320

He was doing everything and zigzagging and he went zigzag.

390

00:40:09,320 --> 00:40:13,320

So I said I'm not imagining this. I said this is really happening, so it's intelligent.

391

00:40:16,320 --> 00:40:20,320

Dorothy was amazed that the light seemed to be trying to communicate with her.

392

00:40:20,320 --> 00:40:23,320

So she attempted to capture them on film.

393

00:40:23,320 --> 00:40:26,320

The results would be startling.

394

00:40:27,320 --> 00:40:34,320

What I saw in the sky was just round objects of light, round bowls of light.

395

00:40:34,320 --> 00:40:44,320

But what was on the film, you see the bowls of light, but after a couple of frames there will be this enormous blast of light.

396

00:40:44,320 --> 00:40:50,320

This is actual footage from Dorothy's super eight millimeter home movies.

397

00:40:57,320 --> 00:41:04,320

On her home viewer, Dorothy inched the film back and forth until she isolated a single bright frame.

398

00:41:04,320 --> 00:41:10,320

What had at first appeared to be a simple flash of light was actually a maze of colored streaks.

399

00:41:12,320 --> 00:41:16,320

Oddly, the light did not spill over onto adjacent frames.

400

00:41:18,320 --> 00:41:25,320

I noticed that while I'm filming these objects, they'll suddenly stop and I'll notice one object

401

00:41:25,320 --> 00:41:32,320

shooting out a little beam at the other object and that object will be shooting out a little beam back at it.

402

00:41:32,320 --> 00:41:37,320

I guess there must be messages or something passing back and forth on these beams of light.

403

00:41:37,320 --> 00:41:42,320

Then when I get it developed, I'll find all these strange one frame shots on it.

404

00:41:44,320 --> 00:41:47,320

Dorothy had the single frames of film blown up into photographs.

405

00:41:47,320 --> 00:41:51,320

Bright kinetic beams careened in all directions.

406

00:41:51,320 --> 00:41:55,320

She also blew up frames of the mysterious balls of light.

407

00:41:55,320 --> 00:41:59,320

These photographs began to show more and more curious detail.

408

00:42:00,320 --> 00:42:02,320

Sometimes they'll beam the light down at me.

409

00:42:02,320 --> 00:42:08,320

They'll just beam this enormous light down at me, you know, and I'll be all lit up with this light.

410

00:42:09,320 --> 00:42:16,320

I used to ask them to come closer and closer because I wanted better shots and they did, you know, like come closer and closer.

411

00:42:17,320 --> 00:42:21,320

I don't think she's lying about what she's doing.

412

00:42:21,320 --> 00:42:24,320

I feel that she's quite sincere.

413

00:42:24,320 --> 00:42:33,320

On the other hand, I'm not able to assess her photographs professionally because that's not part of my expertise.

414

00:42:33,320 --> 00:42:40,320

But her personality make-up would make me believe that she's not making things up.

415

00:42:41,320 --> 00:42:48,320

Like most UFO sightings, Dorothy's experiences and her photographs seem to defy conventional logic.

416

00:42:48,320 --> 00:42:54,320

She says she used three different cameras. Each one yielded similar results.

417

00:42:56,320 --> 00:42:59,320

We asked a photography expert to evaluate Dorothy's film.

418

00:43:00,320 --> 00:43:04,320

I have seen several similar examples of photography like this.

419

00:43:04,320 --> 00:43:10,320

Light sources in the sky with dark backgrounds are quite easy to manipulate.

420

00:43:10,320 --> 00:43:18,320

But these are more extraordinary in the sense that they were done with an 8mm camera, a motion picture camera, rather than a still camera.

421

00:43:18,320 --> 00:43:21,320

And they have so many different types of effects.

422

00:43:22,320 --> 00:43:29,320

There's images that I can't explain at all. Explain how the lights got into the individual frames.

423

00:43:30,320 --> 00:43:39,320

I can suggest ways that they could have been put in intentionally, but no ways that they could have accidentally been placed into the film.

424

00:43:40,320 --> 00:43:51,320

I believe that these images were produced by natural occurring phenomenon in the night sky and not by extraterrestrial beings or unexplained objects.

425

00:43:52,320 --> 00:44:01,320

Despite endless skepticism from the scientific community, Dorothy Isat has become an internationally known figure in the world of UFOs.

426

00:44:02,320 --> 00:44:10,320

As Dorothy's fame spread, people often came to visit her in Vancouver. One of them was Jerry Mackay, a planning and marketing consultant.

427

00:44:10,320 --> 00:44:14,320

He had read an article about Dorothy and felt strongly that he had to meet her.

428

00:44:15,320 --> 00:44:21,320

I was interested enough and moved enough by that article that I really did just want to find out more from my own interest.

429

00:44:21,320 --> 00:44:26,320

I think it's healthy to be skeptical because I was myself.

430

00:44:28,320 --> 00:44:31,320

I didn't have any previous experience with the subject matter at all.

431

00:44:31,320 --> 00:44:36,320

I didn't even realize up until that point that I had as much of an interest with it as it's turned out that I do.

432

00:44:37,320 --> 00:44:43,320

These are like daytime type shots where they look like it is or is it just the type of lighting or whatever?

433

00:44:43,320 --> 00:44:48,320

Well, I was told to try and get some pictures in a daytime as well and that's why I got these.

434

00:44:48,320 --> 00:44:58,320

I was listening very intently to what she was saying at which time I noticed that I was hearing some kind of audible sensing thing that was happening only in my right ear.

435

00:44:58,320 --> 00:45:00,320

So that they know it's solid and it's not just...

436

00:45:01,320 --> 00:45:08,320

Excuse me Dorothy, I don't mean to interrupt you but I'm getting a strange sensation in my ear here so I'm sort of losing what you're saying.

437

00:45:08,320 --> 00:45:09,320

You can hear that?

438

00:45:09,320 --> 00:45:12,320

And I looked at her and I said, yes I can. What is it?

439

00:45:12,320 --> 00:45:24,320

And this brilliant beam of smile went from ear to ear on her face and I remember the look that she gave me and she said, they're here.

440

00:45:25,320 --> 00:45:32,320

Jerry Mackay was the first person to say he actually heard the same thing that Dorothy heard.

441

00:45:36,320 --> 00:45:41,320

I don't think any more than 15 or 20 seconds went by and she said, do you see it?

442

00:45:41,320 --> 00:45:42,320

Do you see it Jerry?

443

00:45:43,320 --> 00:45:45,320

No, I don't see anything.

444

00:45:45,320 --> 00:45:46,320

Where are you looking?

445

00:45:46,320 --> 00:45:48,320

I'm looking straight ahead to cross the Cypress Bowl.

446

00:45:48,320 --> 00:45:51,320

She goes, no, no, look over here to the left where I am.

447

00:45:52,320 --> 00:45:53,320

You see it right ahead of me?

448

00:45:53,320 --> 00:46:03,320

To my complete shock and amazement, what appeared to be sitting right out in front of the window just to our left was a hard metallic object.

449

00:46:03,320 --> 00:46:08,320

I remember the feeling was so intense it was like I was standing in a vacuum and all my hair was standing on it.

450

00:46:10,320 --> 00:46:18,320

And as soon as it disappeared, Dorothy let out a giggle that was like, there you go. What do you think of that?

451

00:46:19,320 --> 00:46:25,320

Jerry commissioned an artist to draw what he and Dorothy had seen. He says he was completely overwhelmed.

452

00:46:25,320 --> 00:46:29,320

It did not occur to him to try to photograph the object.

453

00:46:34,320 --> 00:46:40,320

Dorothy has accumulated more than 25 hours of film and has had blow-ups made of 3,000 frames.

454

00:46:41,320 --> 00:46:50,320

Her enthusiasm remains unabated and she continues to film hoping that she can one day decipher the meaning, if any, of the lights.

455

00:46:51,320 --> 00:46:57,320

I feel there is some sort of message in there for us. They're trying to tell us something from these pictures.

456

00:46:58,320 --> 00:47:04,320

It seems like they're coming closer and closer all the time compared to the first pictures I used to take.

457

00:47:05,320 --> 00:47:11,320

And each picture now that I'm getting is far more vivid. It varies all the time.

458

00:47:17,320 --> 00:47:25,320

My mission is to just keep filming, I guess, and receiving these pictures for as long as I am able to

459

00:47:25,320 --> 00:47:32,320

and hope that one day someone or somewhere will be able to understand what it's all about.

460

00:47:35,320 --> 00:47:42,320

When Unsolved Mysteries visited Dorothy Isat's home in Vancouver, she told us the lights were there

461

00:47:42,320 --> 00:47:49,320

and she filmed them with a super 8mm camera. We could not see the lights, but our cameraman attempted to film them anyway.

462

00:47:49,320 --> 00:47:57,320

He also asked Dorothy to operate his camera. The film from Dorothy's 8mm camera showed the usual brilliant light patterns.

463

00:47:57,320 --> 00:48:06,320

When we developed our film, we did find one tiny unidentifiable light in the sky, but it exhibited none of the characteristic scene in Dorothy's photographs.

464

00:48:18,320 --> 00:48:26,320

Next week on Unsolved Mysteries, in 1986, the body of 28-year-old Debbie Wolfe was found in an oil drum submerged in the icy water.

465

00:48:27,320 --> 00:48:32,320

It was in the icy waters of a pond near Fayetteville, North Carolina. The police ruled it an

accidental drowning.

466

00:48:32,320 --> 00:48:36,320

The family says it was murder.

467

00:48:36,320 --> 00:48:41,320

80 years ago, Conradina Olson boarded a train in Wisconsin and was never seen again.

468

00:48:41,320 --> 00:48:49,320

Her granddaughter will not rest until she finds an answer. Did Conradina simply run away or was she murdered?

469

00:48:50,320 --> 00:48:57,320

We'll also bring you a dramatic update on our recent story of a female prison guard who fell in love with a convict and allegedly helped him escape.

470

00:48:57,320 --> 00:49:02,320

Join me next week for another edition of Unsolved Mysteries.

471

00:49:19,320 --> 00:49:24,320

We'll be back with a new episode of Unsolved Mysteries.
