Lawmakers in both the House and Senate are hot on the trail of UAP secrets - not merely the military files and restricted documents - but the actual hardware long rumored to exist within classified silos, special access programs, or the hangars of major defense contractors. And in Canada, a longtime Member of Parliament has challenged the defense establishment to embrace UFO transparency and to investigate an alleged multinational program created to reverse-engineer UAP tech. In this episode Jeremy Corbell and George Knapp review the astonishing progress of the past few months and also evaluate the significant barriers that might still prevent anything approaching full disclosure.</p> <p>•••</p> <p>In WEAPONIZED, Jeremy Corbell and George Knapp pull back the veil on the world of the known, to explore the unexplained. 2023 06 27 Jeremy Corbell <https://youtu.be/FegEPzJHVis> WEAPONIZED EPISODE %2323 WHO ARE THE VISITORS & WHY ARE THEY HERE

Author Whitley Strieber has endured a lifetime of bizarre encounters with a non-human intelligence. In his 1987 blockbuster "Communion", Strieber described a series of terrifying intrusions by seemingly alien creatures he called The Visitors. The book sold millions of copies, was made into a major motion picture, and generated hundreds of thousands of letters from people around the world who reported similar experiences. Strieber's own encounters with the Visitors have not only continued over the ensuing decades but have evolved into an even more complex mystery, one that seems to involve more than one non-human species as well as human souls and the afterlife. In this candid conversation with Jeremy Corbell and George Knapp, Strieber revisits his most unusual encounters, shares his private thoughts about the reasons for the UFO coverup, discusses current developments involving crash retrievals and whistleblowers, and addresses the central question - are we ready for the truth?

2023 06 13 Jeremy Corbell https://youtu.be/dc6V0O_OPJ0 WEAPONIZED EPISODE %2321 Confessions Of A UFO Insider - The Dave Grusch Revelations Recently-retired intelligence officer David Grusch did not want to become a UFO whistleblower. Grusch spent much of his life protecting the most sensitive secrets in the world, many of them housed inside Special Access Programs that were unknown, even to congressional overseers. When Grusch uncovered evidence of illegal activity within the intelligence community, related to UFO operations and programs, he reported his suspicions to the appropriate authorities and hoped that higher-ups would address the allegations. Instead, he became a target himself. Shadowy operatives inside the intelligence community and in league with powerful defense contractors, tried to silence, punish, and discredit him. Grusch not only learned startling truths about UFO research by government employees, but also uncovered evidence of a massive and ongoing disinformation effort created to mislead congress, the media, and the public. [Transcript Link](#)

Days ago, Grusch stepped out of the shadows and spoke publicly for the first time. UFOs are real, he says, and they are here.

More than a year ago, Grusch sought the advice of journalists George Knapp and Jeremy Corbell. In this episode of WEAPONIZED, Jeremy and George tell the inside story of their friendship with Grusch, why he risked everything by coming forward, and about other government insiders and whistleblowers who are prepared to follow in Grusch's footsteps.

2023 06 08 Jeremy Corbell <https://youtu.be/KMRt8dAPJ8Y> WEAPONIZED EPISODE %2320 Lord Huron - Life & Death With The Cosmic Cowboys

What happens to us after we die? Can love transcend physical death? Are time and space mere illusions? Existential and philosophical questions are at the heart of the music produced by Lord Huron, an indie band based in Los Angeles. Fans have given them the nickname of "Cosmic Cowboys" due to the nature of the subjects addressed in their songs and albums. Ghost - both literal and figurative - make frequent appearances in their lyrics, along with ancient legends, malevolent spirits, cosmological lore, and a smattering of broken hearts and lost loves. Ben Schneider, the founder of the Lord Huron, is also its lead singer and principal songwriter. Schneider grew up in the shadow of the Great Lakes where he absorbed much of the rich history of the region and the Native Americans who've lived there for centuries. His music combines elements of folk, rock, country, punk, Asian, and even surf influences. The sound is lush and multi-layered, and the songs address complicated ideas not usually found in popular music. Music critics have struggled to find a specific niche for Lord Huron, but the fan base has no such problem. In this episode. Jeremy and George ask Ben Schneider about the inspiration for his songs, pay a visit to the hidden Whispering Pines recording studio, and share video clips from Lord Huron concerts, including the current tour.

2023 05 30 Jeremy Corbell https://youtu.be/WHIry_C1MTc WEAPONIZED EPISODE %2319 Mystery In The Mojave - Case Closed

In April 2021, dozens of US Marines stationed at the sprawling Twentynine Palms base in the Mojave desert witnessed what they describe as an unusual array of lights in the night sky. These Marines, many of whom work directly with flares and other ordnance, were at the base for an extended two month training exercise. Several of them said they saw the outline of a "craft" behind the lights and, in their opinion, the lights in the sky did not resemble any of the flares that are routinely used in training exercises or that they are familiar with. Last week, in an effort to generate additional information, WEAPONIZED unveiled several videos recorded by the eyewitnesses, along with low light photos which appear to show the outline of a triangular object. The episode set off a wave of UFO coverage by major news media, inquiries from congressional staffers, and, not surprisingly, significant criticism from online UFO personalities. In this episode, Jeremy and George will share new information and interviews with Marine witnesses who came forward to respond to social media speculations and will explain why this incident remains an open, active investigation.

2023 05 23 Jeremy Corbell <https://youtu.be/PpVkn6SaLjw> WEAPONIZED EPISODE %2318 The Silent Triangle Of Twentynine Palms

In the spring of 2021, almost two years to the day, dozens of U.S. Marines being trained at the sprawling base at Twentynine Palms watched in awe as a massive, triangular-shaped object sat motionless in the sky for a period of more than ten minutes. Several Marines recorded images of the triangle on their cell phones, including phones equipped with low light features. Base commanders reacted quickly to the sighting. They mobilized ground units, dispatched helicopters, and fired off flares to try and illuminate the mystery craft. Jeremy and George have obtained multiple videos and photos recorded during the incident and also interviewed several of the Marines who were present. The witnesses alternately described the object as the size of a two story house and as long as half a football field. Despite the number of qualified witnesses and the excellent images recorded during the encounter, the case was not reported up the chain of command, nor was the information shared with AARO (the All-domain Anomaly Resolution Office), the government's formal UAP investigative agency. In this episode of WEAPONIZED, Jeremy and George describe the sequence of events, share videos and photos along with recorded statements from two eyewitnesses, and also review a few other recent developments related to UAP.

2023 05 09 Jeremy Corbell <https://youtu.be/C8Z6IBxCOv0> WEAPONIZED EPISODE %2316 Russian Scientists Risked Everything to investigate UFOs

During the darkest days of the Cold War, leaders in the USSR publicly described the UFO mystery as a capitalist plot, unworthy of scientific study. But behind the scenes, communist dictators held a much different view. They authorized secret scientific studies of UFOs. For decades, individual scientists and academic groups throughout the USSR surreptitiously investigated UFO cases and incidents, at the risk of imprisonment - or worse. Most of their work wasn't made public until the fall of the USSR in the early 90's. Journalist George Knapp traveled to Russia twice in the 90's and spoke with scientists who had never before appeared on camera to discuss their work. In this episode, he and Jeremy Corbell review the courageous work done by Russian scientists during dangerous times.

Dr. Kirkpatrick said he's seen no credible evidence of any ET tech flying in our skies. 2023 04 11 Jeremy Corbell <https://youtu.be/tvUfdN2fyww> WEAPONIZED EPISODE %2312 UFO & Paranormal Connections + The AAWSAP Legacy

Biochemist Dr. Colm Kelleher was a project manager for the largest government-funded UFO investigation in US history. The Defense Intelligence Agency (DIA) spent \$22 million over 27 months in its study of UFO incidents, cases, and technology. Kelleher personally oversaw the hiring of 50 full-time employees and investigators but was also a hands-on field investigator for AAWSAP, the direct precursor to AATIP, the UAP Task Force, and AARO. In this second half of our interview. Kelleher discussed the overlap of UFO incidents with seemingly paranormal phenomena, including the so-called "hitchhiker effect" at Skinwalker Ranch and other locations. Kelleher confirms the main purpose of AAWSAP was to identify and eventually duplicate UFO technology. And - for the first time - he reveals his personal knowledge of UFO crash retrieval efforts.

2023 04 04 Jeremy Corbell <https://youtu.be/dyzaJwEINsl> WEAPONIZED EPISODE %2311 Hollywood In Transition + The Future Of Movies, TV and Streaming

The movie and TV industries have been pummeled by changes in recent years. The pandemic decimated theater attendance and the emergence of streaming services changed the model that major studios have used for decades. George and Jeremy are joined by John Long, co-founder of Buddha Jones, one of the most highly regarded and successful trailer producers in Hollywood. Long and his team have worked directly with most of the major studios and best-known directors but have also expanded into marketing projects for television and streaming networks, winning numerous industry awards for creative campaigns. Buddha Jones has worked on several UFO-themed projects including the blockbuster hit NOPE. George and Jeremy talk with John about the future of Hollywood, challenges to the traditional business model, and about the art of making the perfect movie trailer. (John also takes the time to poke at George while recounting some of their long history together.)

This is US military filmed UFO footage from an active conflict zone; imaged by the US Air Force using a Reaper drone. This UFO has been officially designated by the Air Force as a UAP (Unidentified Anomalous Phenomena), but is NOT yet currently part of the active United States UAP investigations; seemingly due to obstacles of information-flow after collection. The Department of Defense's AARO (All-domain Anomaly Resolution Office) is NOW aware of this case.

2023 02 28 Jeremy Corbell <https://youtu.be/v8VxTPhQ29U> WEAPONIZED EPISODE %236 Crashed Saucer Overseer

For decades, stories of crashed UFOs and secret recovery operations have permeated popular culture. Has the US government stashed alien craft - and perhaps alien bodies - inside the military industrial complex, perhaps in remote desert locations such as Area 51? In the early 1990s, a former high-level executive with a major defense contractor shared his story with a Las Vegas journalist and promised to record video deposition to be released after his death. The story involved a UFO that had been recovered from a crash site in New Mexico, along with a still-living crew member. The identity of the industry executive has never been confirmed by the journalist... until now.

EPISODE DESCRIPTION : The presence of a Chinese surveillance balloon over American airspace culminated in the dramatic destruction of the balloon by a U.S. warplane. In the days after that highly publicized incident, three additional "unknown objects" were detected and shot down over North America. The government says it has not yet determined what the objects are. Does this represent a new level of transparency regarding UAP intrusions, or is the public being misled? Jeremy and George discuss how these incidents unfolded, what the public has been told, and why we may not be getting the straight story. Actor and comedian Dave Foley joins the discussion with his take on the confusion between UAP and spy balloons, and how the reporting of recent events reveal the truth about the now famous UAP swarms of 2019.

2023 02 07 Jeremy Corbell https://youtu.be/hsyj481bq_U WEAPONIZED EPISODE %233 The Pentagon's Top UFO Hunter

Between 2007 and 2021, the U.S. government authorized three distinct efforts to investigate and evaluate UFO/UAP incidents, cases, and effects - the acronyms were AAWSAP, AATIP, and the UAPTF. Only one person in the entire Defense Department had a key role in all three programs. Jay Stratton was a career intelligence officer who worked for the Office of Naval Intelligence, the Defense Warning Office of the DIA, and in other sensitive national security programs. He specialized in the reverse engineering of technologies, threats, and future scenarios. In 2007, he was recruited to consult with the DIA-funded investigation known as AAWSAP, the Advanced Aerospace Weapon System Applications Program, a contract awarded to a private company affiliated with Bigelow Aerospace. The first case he investigated was the now-famous "Tic Tac" UFO incident. After AAWSAP ended, Stratton worked closely with Lue Elizondo on a successor effort known as AATIP, which focused exclusively on military encounters with UFOs. After Elizondo left government, Stratton was asked to form a new program that eventually was formalized by Congress as the UAP Task Force. During those years, he created a massive, classified briefing presentation that was delivered to Pentagon officials, intelligence agencies, defense contractors, and members of Congress. Stratton left government in 2021 and is currently employed by Radiance Technologies. The interview with WEAPONIZED is the first public statement he has ever made about his work as the government's top UFO hunter.

John "Guts" Gutierrez is an active duty Navy Commander having served for 17 years, initially as a helicopter pilot deployed all over the world, and credentialed as an Aviation Safety Officer. He's a graduate of the U.S. Naval Academy in Annapolis and has a personal passion for the UAP mystery. In this episode of WEAPONIZED, Jeremy & George talk with John about his life and personal perspective on the current, global UAP mystery. They also talk in-depth about the now famous UFO swarm event series that occurred off the coast of California in 2019. This is a case now widely known due to Jeremy's & George's reporting on the events. This dramatic UFO event series included 10 Navy warships that were brazenly swarmed by over 100 Unidentified Flying Objects (UFOs). For the first time ever - we get to hear what really happened - directly from two military eyewitnesses tasked with responding to the incursions within United States restricted airspace.

- 2022 09 17 Jeremy Corbell https://youtu.be/Z4_gJ4gj17A Bob Lazar + The Truth About A Secret UFO Base
- Is our government working on crashed UFOs? Bob Lazar said he worked on reverse engineering alien spacecraft at a military facility in 1989 called SITE 4 (within the Area 51 designation). He described a unique and highly camouflaged building, built into the mountains and located at Papoose Lake... which is about 17 miles south of Groom Lake.
- People have argued for 33 years if Lazar was telling the truth about a secret operational UFO facility at Papoose Lake.
- The thing is... there was a civilian who snuck onto the Area 51 base - and took a look at Papoose Lake for himself. Did you know that?
- In the spring 1997, an archeologist named Jerry Freeman snuck into the forbidden zone of Area 51 (and Papoose Lake). He is the only civilian known to have gained access to where Bob Lazar said was a hidden military installation. Lazar reported a unique and highly camouflaged building the military used to storehouse and reverse-engineer extraterrestrial flying saucers.
- However, many people like to claim that Jerry Freeman never reported seeing anything unusual at Papoose Lake... that his excursion was uneventful, and that somehow his account throws shade on what Bob Lazar told us.
- But that's a load of horseshit.

BOB LAZAR
Well, the briefings were blue folders, and just had an overview of the other [UFO exploitation] projects going on that could potentially connect to what we were doing.

JEREMY CORBELL
And there were three in particular?

BOB LAZAR
Our project was Galileo. And the two other ones were Project Sidekick - and that dealt with any of the weapon potential of the craft. That was the biggest project on the base. The other one was Looking Glass. And that had to do with the effects of gravity's distortion, and time, you know, about potentially being able to get information forward through time. So there were other projects, again, dealing with other aspects of the craft, some biological and metallurgical - things of that sort. But the fact that there is actually a concerted effort to use gravity to actually manipulate time - I

2022 06 29 Jeremy Corbell <https://youtu.be/PcpXHq6WBxQ> JEREMY CORBELL + UFO QUESTIONS & SHOOT-DOWN ORDERS

When it comes to UFOs you have been lied to - and Congress was lied to as well. Lies though omission and obfuscation have permeated and propagated relentlessly - when it comes to the complex nature of the UFO phenomenon. Media agenda and inherent bias has dictated loose interpretation of the facts. But those days are over. Questions are your weapons this year... so what should we be asking?

[Transcript Link](#)

UFO QUESTIONS : What does "drone" mean? Can we agree on a definition? Are we even arguing about that? Why has the scope and scale of the 2019 UFO/UAP events been reduced to one or two pieces of visual evidence (omitting the larger portion of documentation)? Where did these units land? Where did they takeoff from? Who operated them? Why isn't Congress getting the full info? Will new UFO legislation be implemented to help with UFO transparency? Has it already been drafted? Is our handling of the UFO mystery an intelligence failure? Can we reverse course if it's deemed to be an intelligence failure? Are we even asking the right questions?

"I don't care if these were 'drones' or true UFOs - pyramids, triangles or even seagulls with lights strapped onto their wings - I want the fundamental question to be answered. Do we know the controllers of these units? Because if we don't, America and many other nations who have experienced the same kind of encounters around the world consistently and recently, are susceptible to attack by an unknown technologically advanced entity that can

This is an important interview straight outa Ireland. Jeremy Corbell mentions Bob Lazar and talks about UFO secrecy. Understand that throughout modern UFO history the highest number of close encounters with true UFO/UAP have been in relation to our military operations globally. With an increased frequency.

Our service members have been silenced. Silenced not only by a necessary strategic defense methodology - but also by unintentional mechanisms of bureaucracy. The bottleneck is real when it comes to UFO reporting in our government. More on this later.

There is now a visible path forward. A path has been forged towards discovery and UFO transparency. So get ready.

It will be a game of millimeters - not meters. This is by the nature of the information - and not some conspiracy so we will recognize the world that we live in as we move forward. The world we live in - that we have ALWAYS lived in - will just be more expansive and inclusive and wondrous than can possibly be imagined at this moment.

Rejoice friends. The time is now. Fight harder. Fight smarter. Never give up. Ever. Complacency has never complimented progress.

One day the UFO goalpost will stop moving - and you will be hit with the wonder and awe that in 1989 there was a guy who was tasked with attempting to reverse-engineer an alien spacecraft for the United States military. That he went public about it. That his name is Bob Lazar - and that he's been telling you how it is for over 30 fucking years. [Transcript Link](#)

This post was inspired by #UFOTwitter folks who recently did some digging into Bob Lazar's W2 stub that he received from the "DEPARTMENT" of Naval Intelligence. Same kinda digging that was done over three decades ago - when researchers ALSO came up with the same evidence. However, this orbit around the Sun was accomplished by a dude named Rich (richgel999 on Twitter) and his findings inspired me to finally release this never before seen clip from my years of filming with Lazar.

Makes you wonder what else Lazar told you that's true... doesn't it 🤔🚩👁️

2022 04 27 Jeremy Corbell <https://youtu.be/Yp13yGUxXJs> Jeremy Corbell on UFOs + FOX News with reporter John Hook

Do you believe we're being visited here on Earth? A Gallup poll says 4 in 10 Americans now think some UFOs that people have spotted were alien spacecraft visiting Earth from other planets or galaxies. This is up from a third saying so two years ago. [Transcript Link](#)

This number has climbed because for the first time, the government is expressing concern over sightings of crafts that simply can't be explained by our current understanding of physics.

It presents two problems: our adversaries have developed superior technology or this stuff is otherworldly. Either way, the choices are troubling.

FOX 10's John Hook talks to Jeremy Corbell, a documentary filmmaker who has been doing a deep dive into the UFO subject for over 20 years.

John Hook - If we've had craft actually go down where we've recovered materials, as you've said, these are unmanned. There's no life on board.

2021 07 28 Jeremy Corbell <https://youtu.be/dKbYwwePTQ> The man who FILMED the TIC TAC UFO speaks on camera for the first time For the first time on camera... Commander Chad Underwood clarifies and informs what happened when he encountered and recorded what is now the most famous modern UFO footage of all-time. Cmdr. Underwood is a badass Navy Weapon Systems Officer from VFA-41 (the legendary Black Aces). He was flying in an F/A-18 Super Hornet - and was responsible for fighting the aircraft. Underwood's testimony represents the first time in history a military "whizzo" recorded a UFO during operations - and the encounter footage has been confirmed directly by the United States Government as being ACTUAL footage of an Advanced Aerospace Vehicle of unknown origin - a real UFO. [Transcript Link](#)

Cmdr. Underwood's account and footage also represents independent corroborating evidence to accompany the experience of Cmdr. David Fravor - the man who CHASED a TIC TAC shaped UFO with his fighter jet for our military.

The advanced and unidentified craft they observed and engaged that day - was able to outpace & outmaneuver our nation's most advanced war planes. It did in-fact "zoom off" to the left of Underwood's wing - and it broke the lock on his ATFLIR targeting pod. It had no typical aeronautics or aerospace propulsion signatures - no tail, no wings, no exhaust plumes - and it also was able to Offensively Jam our fighter plane's radar & weapons systems. This is NOT an isolated event - quite the opposite.

Under the circumstances of this encounter - this is considered an

EXCLUSIVE : Full story at <https://www.ExtraordinaryBeliefs.com> • In 2019 U.S. Navy warships were swarmed by UFOs. Over the past months, I've provided a large amount of cumulative and corroborate visual data to support this fact. What I'm providing today is video footage - captured from THE DECK of the USS Omaha - by the on-board "VIPER" TEAM (Visual Intelligence Personnel) on July 15th 2019 - in a restricted warning area off San Diego.

[Transcript Link](#)

This footage represents an additional type of visual data collection - corroborative visual evidence - depicting a UFO event series that reached a crescendo with at least one of the unknown targets entering the water. No wreckage found. None of the unknown craft were recovered - despite a tasked search by at least one of our U.S. Navy submarines.

I will let you determine the significance of this footage for yourself - yet I will highlight a few key aspects of this military UFO encounter - for your consideration.

This footage illustrates that the UFOs surrounding our warships had lights (as previously reported) - that they were self-luminous and appeared to be unconcerned by the presence of our tactical Navy warships.

These UFOs were NOT inconspicuous... they were brazen; boldly buzzing our warships. To many involved, it stands to reason that the UFOs (their operators) WANTED to be seen and recorded. What

BACKGROUND

This footage was filmed in the CIC (Combat Information Center) of the USS Omaha on July 15th 2019 in a warning area off San Diego by Visual Intelligence Personnel (VIPER team). This RADAR data release shows four clips; multiple unknown targets (and one civilian vessel). Some of the unknown targets drop off RADAR in this footage. This happened numerous times throughout the UFO encounter series. At the height of the contacts - there were at least fourteen unknowns observed at one time. The event series reached a crescendo with one of the unknown targets entering the water at 11pm. No wreckage found. None of the unidentified craft were recovered.

This is corroborative sensor data demonstrating a significant UFO event series - where unknowns were swarming US Navy warships. This type of cross-platform information verification is both unique and rare in the pursuit of the UFO mystery.

2020 12 14 Jeremy Corbell <https://youtu.be/ORZPL9oNBxl> What's up with UFO & ALIEN claims by the former Israeli Space Program Director, Prof Haim Eshed

Here is a 20 min interview with the man that broke the story about the Israeli Space Program Director - Prof. Haim Eshed - and his statements regarding UFOs and ALIENS. After going viral in Mass Media... what to make from it all? Is it all BULLSHIT? Major news outlets including CNN, FOX and FORBES reported a Frankenstein sound-bite version of quotes from the long-form interview (which was only available in Hebrew). What was lost in translation? What was the context for such exotic claims about UFOs and ALIENS? Is there any substance to the claims?

[0](#)

I talk with the man who was in the room with Prof. Haim Eshed. The journalist who conducted the interview with him and wrote the piece. Should we dismiss the statements as insane? Or are we missing something? I definitely wanna know!

As my mentor in journalism George Knapp says... "It's the duty of science & journalism to investigate the unexplained; not to explain the uninvestigated". So that's what I'm doing.

Meet John Ehrhart. John is an electro-optics specialist who was tasked by his employment with Boeing - an Aerospace defense contractor - to directly work on the operational Navy ATFLIR targeting pod systems. These systems are commonly used on American fighter jets. Jets like Cmdr. David Fravor's - the pilot who chased a UFO for the United States Military. Like Lt. Cmdr. Chad Underwood - the Weapon Systems Operator who FILMED - the now famous TIC TAC UFO. If anybody knows how these ATFLIR targeting-pod bad boys work - the details, their mechanics - and how to interpret the data... it's John.

The reason I felt compelled to clarify the specifics of the Pentagon GIMBAL UFO CRAFT footage - is because I've witnessed numerous debunkers contort and twist the facts of this bonafide UFO footage - with a mental gymnastics worthy of a gold medal. It's almost as if they fear a reality greater than the one they have pre-determined. It's a sort of existential bias - and their only defense - is that you're too dumb to investigate the unexplained. I don't think you're dumb - I just think you're busy. So I did some of the work for you.

This is a twelve minute podcast for your enjoyment. So here's John. He shared some time with me to give you some ACTUAL expert testimony. To clarify some technical aspects of what you are and what you are NOT seeing in the GIMBAL UFO FLIR footage.

Here is the CORE of what Bob Lazar has been telling you for over thirty years. This clip is from Jeremy Corbell's Netflix film 'Bob Lazar: Area 51 & Flying Saucers' - and breaks down what is different about the alien technology he worked on. In a 1989 interview with George Knapp, and when Corbell filmed with him in 2018 - Bob describes the gravity-based propulsion systems of the off-world hardware he not only touched, but dismantled. Unlike human propulsion technology that requires an equal and opposite reaction, the craft Bob worked on distorted time & space to move it forward. This civilization-changing technology is being suppressed, and he argues that we have a right to know what's really in the possession of our government and derivative intelligence agencies.

2020 03 28 Jeremy Corbell https://youtu.be/AZjY3b_heA GEORGE KNAPP SECRET STUDIES OF SKINWALKER RANCH

George Knapp is an icon of American journalism with a track-record of breaking stories of global impact. His three decades of news reporting has solidified our trust in his sources and information. Before the world knew about the current US Government programs to study the UFO phenomenon, Knapp gave us a foreshadowing glimpse of what was to come. He was able to break down the program structures and explain the finances - information that was later revealed to the public through other mass media. However, the connection to the US Government and Skinwalker Ranch is much misunderstood - and Knapp was able to clarify early-on. If we had listened when he first reported on this critical connection - what is happening now would have made a lot more sense.

[Transcript Link](#)

The linchpin to the active US Government UFO programs has always been Skinwalker Ranch. The Defense Intelligence Agency funded a multi-year study - using the ranch as a "living laboratory" to assess the level of threat presented by the "performances" and "intelligence" encountered at the unique location in Utah. One of the focuses was to determine potential threats to our National Security.

In this short you will hear the details of how these global events and programs were being orchestrated - out of sight from public scrutiny or congressional oversight. You will also get a glimpse of just how ahead-of-the-curve Knapp was, in explaining the dynamic connections these programs have to the now famous Skinwalker Ranch. The ranch was the inspiration for the AAWSAP (Advanced

Four years after he purchased Skinwalker Ranch, Utah real estate magnate Brandon Fugal has finally acknowledged his identity and explained why he purchased the infamous property back in 2016. But the very first interview Fugal granted was in March 2018, two years ago this month. The interview was conducted on camera and on the grounds of the ranch itself. Fugal requested that his face and name be obscured, but he spoke at length about his goals and findings. Excerpts from that first interview were featured in my film HUNT FOR THE SKINWALKER and extended clips were added.

In his first interview ever - I now have permission to reveal his true identity - the man who purchased the famous SKINWALKER RANCH from billionaire magnate, Robert Bigelow. For two years - ever since I released the inaugural interview using voice distortion technology and obscuring his face to keep his identity confidential - people have feverishly speculated on the mystery man behind the new endeavor to study the diverse UFO and "paranormal" phenomena reported at SKINWALKER RANCH. Speculation has ranged from Tony Robbins to a fake person - fronting as the new owner - with suspicion that the property is still owned by Robert Bigelow. Since those years - the new owner has decided to come forward - and his name is Brandon Fugal. He's a real-estate mogul by day - and an explorer of the unknown in his spare-time. As you will see in this first ever interview - Brandon is determined to up the ante and approach The Phenomena with a fresh and aggressive scientific rigor. He wants to know the truth too - and he's throwing down.

Have you wondered what Bob Lazar thinks of the new Pentagon released footage of UFOs? Do you wanna hear his thoughts on the footage? The Tic Tac UFO as observed by Cmdr. David Fravor and the Gimbal FLIR footage provide a compelling backdrop to Bob's account of reverse-engineering an alien propulsion system for the United States military.

It is of note to say that I filmed an in-depth conversation with Bob about the footage... here is a part of that interview where we are talking about it.

ALSO... both Lazar and Cmdr. David Fravor will be with me at the McMinnville UFO Fest this weekend... it will be filmed. It will be a great meeting of the minds!

One aspect of Bob Lazar's account that I find particularly interesting, is the way he describes the gravitational propulsion system used in these flying saucers. Many people have compared the footage from the GIMBAL UFO encounter to the descriptions by Lazar. More on this soon, but if you are curious about Lazar's description of the "Anatomy of a Flying Saucer", check out my YouTube channel (<https://www.youtube.com/JeremyCorbell>) where he details the way the craft maneuver through space/time.

2019 05 16 Jeremy Corbell <https://youtu.be/1ltmYHXJgJA> BOB LAZAR 30 YEARS AGO TODAY + THE TRUTH ABOUT UFOs & ALIENS

Today marks a moment in history that forever transformed the landscape of our understanding about UFOs, aliens and a government program to exploit a technology so powerful and dangerous; that to this day, the subject is classified higher than our most secret atomic weaponry.

[Transcript Link](#)

On May 15th, 1989 a man reluctantly came forward with famed investigative reporter - George Knapp - to reveal his work at AREA 51 (Site 4) on a program to study and attempt to reverse-engineer an alien power and propulsion system for the United States military. It was an exotic exploitation program to study flying saucers; extraterrestrial spacecraft from another world. We are talking about technology from another technologically advanced civilization who mastered space/time travel utilizing the manipulation of gravity... and they are visiting Earth.

The man who went on camera in silhouette 30 years ago to the day, was later identified as the one in only, BOB LAZAR (a reluctant UFO Messiah).

This short film provides viewers with never before seen interviews and footage; and provides a unique and intimate view into the events and people surrounding the harrowing time - 30 years ago.

Many have said it would be reckless to discount the account brought forward by Lazar; this is an understatement. No matter what you think of Lazar's account, this is a must see.

WATCH MOVIE HERE : Vimeo : <https://vimeo.com/ondemand/huntfortheskinwalker> On this day 22 years ago, the terror quotient escalated dramatically on Skinwalker Ranch when the NIDS (National Institute for Discovery Science) researchers were abruptly confronted with an "in your face" daylight mutilation of an 84 pound calf. Up until March 10th, 1997 the NIDS researchers had been chasing shadowy lights and subtle phenomena. That all changed on a bright sunny morning with the brutal killing of the newly born animal that had just been tagged 45 minutes previously.

The killing of the calf combined exquisite delicacy in the laying of the mutilated on the ground with brute force strength in ripping the femur out of its ball and socket joint. There had been violent incidents before this one - some of them of a physical nature - but on this day, the NIDS researchers were served notice that the cat and mouse game being played out on Skinwalker Ranch would become more violent, more threatening and with deliberately enhanced psychological warfare thrown in.

Who or what murdered this young calf? Why was it done in a seemingly ritualistic manner? What was the purpose of this carnage? Was this event an attempt by The Phenomenon to warn the ranchers and the scientific team? Or is this just part of something more terrifying? Big questions, disturbing answers.

December of 2017, the world learned about the Pentagon's secret study of UFOs from the New York Times. 22 million dollars was spent to investigate so-called flying saucers... but the REAL story is much bigger. There wasn't just ONE UFO study. There were TWO. The Pentagon's other LARGER investigation delved into mysteries far more profound - far more disturbing - than alleged alien aircraft. Its focus was a living laboratory and paranormal hotspot known as Skinwalker Ranch.

Based on the best-selling book by George Knapp & Dr. Colm Kelleher, Hunt for The Skinwalker investigates the confidential, most extensive scientific study of a paranormal hotspot in human history. Skinwalker Ranch in Utah is famous throughout the world because of the myriad of frightening, seemingly supernatural events that have been reported in the scenic basin surrounding the property for hundreds of years. Sightings include orbs, UFOs, animal

DESCRIPTION - Former Government physicist Bob Lazar made headlines world-wide in 1989 when he came forward with his account of reverse-engineering an alien spacecraft for the US Military. The reason the public even knows the name Area 51 is because Lazar talked about the work he did at the formerly secret military base. iTUNES : <https://itunes.apple.com/us/movie/bob-lazar-area-51-flying-saucers/id1441638753> UFOs are not a matter of belief. That's an uneducated and data-poor perspective. It's either true or it's not true. The "belief" perspective is eloquently challenged by an informational data-rich reality - that the social consensus needs to catch up to.

WATCH NOW on iTUNES : <https://itunes.apple.com/us/movie/bob-lazar-area-51-flying-saucers/id1441638753> Narrated by Oscar Nominee MICKEY ROURKE - Former Government physicist Bob Lazar made headlines world-wide in 1989 when he came forward with his account of reverse-engineering an alien spacecraft for the US Military. The reason the public even knows the name Area 51 is because Lazar talked about the work he did at the formerly secret military base. Burdened with a revolutionary secret, he had to choose between his oath to his country or his conscience. His wife believes him, his mom believes him, and the closer you get to his inner-circle, the more YOU believe him. His testimony remains the most controversial and important UFO story of all time; especially if it's true. Lazar blew the whistle, shocked the world, then went silent.

Corbell's film intimately chronicles the triumphs and travails of a cosmic whistleblower. It investigates Lazar's groundbreaking claims of our government's secret program to create a fierce technology based on recovered alien vehicles. It reveals the devastating impact his actions have had on his life over the course of the last thirty years. His public disclosures have turned his life upside-down and he has tried to stay out of the spotlight. For this reason, has never let any journalist or filmmaker into the private world of his daily life - that is - until now.

Lazar + Los Alamos of clips over the next month that will be of interest to those of you
anticipating my upcoming film - Bob Lazar : Area 51 & Flying Saucers
- which is premiering on Dec 3rd, 2018 at The Theatre at Ace Hotel
DTLA. (So get your tickets while they last and BE THERE for a historic
event).

Some clips in these releases will be directly from my movie (sneak
peeks), others will be like this one, from my presentations that
detail misconceptions of the Bob Lazar story. Enjoy the posts and
PLEASE SHARE!

This particular clip is about the tired BS fake-news when people say
that, "Bob Lazar wasn't a physicist at Los Alamos National
Laboratory in the 1980s". These parrots who know nothing about
anything related to Lazar, and simply repeat uneducated and bogus
claims.

Anyway... the significance of this revelation (that Lazar DID in-fact
work at Los Alamos as a physicist... verified directly by George
Knapp in 1989 and by me just a couple years ago)... this information
directly relates to Lazar's story of UFOs, Area 51 (Site 4), and
attempting to reverse engineer an alien propulsion system for the
United States military in 1989.

Get ready... the world and UFOlogy is about to learn some

Corbell's film intimately chronicles the triumphs and travails of a cosmic whistleblower. It investigates Lazar's groundbreaking claims of our government's secret program to create a fierce technology based on recovered alien vehicles. It reveals the devastating impact his actions have had on his life over the course of the last thirty years. His public disclosures have turned his life upside-down and he has tried to stay out of the spotlight. For this reason, has never let any journalist or filmmaker into the private world of his daily life - that is - until now.

Last year, the world learned about the Pentagon's secret study of UFOs from the New York Times. 22 million dollars was spent to investigate so-called flying saucers... but the REAL story is much bigger. There wasn't just ONE UFO study. There were TWO. The Pentagon's other LARGER investigation delved into mysteries far more profound - far more disturbing - than alleged alien aircraft. Its focus was a living laboratory and paranormal hotspot known as Skinwalker Ranch.

Based on the best-selling book by George Knapp & Dr. Colm Kelleher, Hunt for The Skinwalker investigates the confidential, most extensive scientific study of a paranormal hotspot in human history. Skinwalker Ranch in Utah is famous throughout the world because of the myriad of frightening, seemingly supernatural events that have been reported in the scenic basin surrounding the property for hundreds of years. Sightings include orbs, UFOs, animal mutilations, unknown creatures, poltergeist-type activity, and many other inexplicable incidents. An exhaustive, multidisciplinary scientific study began in 1996, spearheaded by an enigmatic Las Vegas billionaire. A team of PhD-level investigators was deployed to collect evidence and spent more than a decade on the ground, interviewing witnesses, searching for explanations, and directly

2018 06 27 Jeremy Corbell <https://youtu.be/QoTIMpXkQO8> 2004 Nimitz TIC TAC UFO Cmdr. David Fravor Part 2 Presented by Jeremy Corbell This is PART II of my interview with Cmdr. David Fravor. If you haven't listened to PART I ... go do that now. You need to understand who Cmdr. Fravor is, and the nature and historical importance of his UFO encounter. [PART 1 : https://youtu.be/3L-XG1F_S7I](https://youtu.be/3L-XG1F_S7I) [Transcript Link](#)

In this discussion, we get into the details. We talk about the different witness reports on the TIC TAC UFO encounter, and we talk about the nature of observation and how it can be flawed. This highlights the important role of a good investigator, and how event witnesses can't be compared as "Apples to Apples". Cmdr. Fravor even relates a couple stories that provide deeper meaning into the feelings he has on, why intelligent observation and study into the UFO topic is important.

Dave's quite candid in this interview. His hope is that you understand the importance of serious UFO encounters, being investigated seriously. That there's so much to gain but also so much to lose, if we don't openly investigate observed UFO technologies. That he's hopeful, due to renewed government interest.

2018 06 23 Jeremy Corbell https://youtu.be/3L-XG1F_S7I 2004 Nimitz TIC TAC UFO Cmdr. David Fravor Part 1 Presented by Jeremy Corbell Commander David Fravor is a badass Top Gun fighter pilot, and in 2004, the Cmdr. Officer of VFA-41 - the Black Aces. On November 14th of that year began a typical Sunday for Cmdr. Fravor. About 100 miles S/W off the coast of San Diego, it was 70 Degrees and clear skies and an average wind speed of 3 mph. But this wasn't a typical day. Not at all. [Transcript Link](#)

The Nimitz Carrier Strike Group was preparing for deployment to the Arabian Sea, with routine pre-deployment workups. Starting on November 10th the USS Princeton had been detecting multiple AAVs (Anomalous Aerospace Vehicles... UFOs), operating in and around the vicinity of the Strike Group. The vehicles of unknown origin and function were tracked on radar, with returns descending from far above the radar's scan volume - somewhere higher than 80,000 ft. The targets would drop from above 80,000 ft to hover roughly 50 ft above the water in a matter of seconds. An impossibly fast rate of decent. And from what I've been told, at ICBM trajectories.

On the 14th, Cmdr. Fravor launched with his WSO (Weapons & Sensors Officer), into the clear blue sky. Their Call Sign was FASTEAGLE 01. Cmdr. Fravor was flying a F/A-18F Super Hornet when he received vectors to an unknown contact. A controller on the USS Princeton with the call sign "POISEN" asked, "What ordnance do you have on board?". This was an odd request, due to the fact Cmdr. Fravor was NOT in an active combat area, a hot-zone. He replied that he had no live ordnance. This was real-world

Trevor was an E4 (Petty Officer Third Class) Naval Operations Specialist, providing command technical information and assistance related to Anti-Surface and Anti-Air Warfare. And as a radar operator, he was direct witness to one of the most current and well documented UFO encounters in modern history.

On December 21st, 2017 there was a tectonic shift in secrecy around the subject of UFOs. The Department of Defense authorized two videos of fighter pilots engaging UFOs to be released to the public, and the New York times published a story about our government's involvement in studying the subject.

The 2004 Nimitz "Tic Tac" UFO encounters became the tip of the spear in the public debate on UFOs. Commander David Fravor, a fighter pilot with the Black Aces, came forward with his experiences and testimony. There were a number of individuals during the events, who were aware of what was unfolding... Trevor is one of them. More and more witnesses are coming forward to date.

For those of you who remember, the Tic Tac UFO case is one that I reported on, on Coast to Coast AM with George Knapp, both in May and October of 2017.

Area 51, flying saucers from another world - and the program to create a fierce technology. Bob Lazar remains the singular most famous and controversial name in the world of UFOs. The reason you know about Area 51 is because Lazar came forward and told you about it. His disclosures have turned his life upside-down and he has tried to stay out of the spotlight. For this reason, he has never let any filmmaker into the private world of his daily life - that is - until now.

In November of 1989, ROBERT LAZAR took his 1st polygraph test to prove his honesty about the fact that he back-engineered Alien Spacecraft from another world for the United States Military at a secret base called S-4 (near the infamous Area 51).

GEORGE KNAPP (Peabody Award winning Investigative Journalist) broke the story in an attempt to assure the safety of LAZAR. Being a Cosmic Whistleblower has its price, if you're not careful. KNAPP will often say, "VET EVERY SOURCE". Well, LAZAR has been vetted for over 25 years. His story has not changed, altered, or become more elaborate. LAZAR is telling YOU the truth. It's up to you what you DO with that information.

With recent testimony by LAZAR, this short film gives a unique glimpse into the personas surrounding this EPIC saga... the most infamous UFO case of all time. The implications derived from his experiences are just starting to be realized.

He gave an audio/visual presentation, that included never before seen film-clips from his most recent documentary and investigatory films. He explored our evolving understanding of The Phenomenon (UFOs and beyond). And he made an analogy to UFOs from the Anthony Burgess's book and the Stanley Kubrick film, A Clockwork Orange. The audience was presented the hypothesis that The Phenomenon displays, "mechanistic or robotic characteristics ". Corbell proposed his theory that, "an interactive artificial intelligence is manipulating the desire of humanity." Both the nuts and bolts elements to the UFO mystery were examined, as well as, the deeper and more exotic events that seem to indicate "The Clockwork Orange Theory... an A.I. hyper-intelligence in command of the UFO display". TRUTH EMBARGO: THE ANONYMOUS INTERVIEW (21 min 56 sec) is a film director Jeremy Kenyon Lockyer Corbell. This motion picture is an exploration into the witness testimony of a highly controversial alleged ex-CIA operative who claims, through his military and intelligence career, to have been exposed to realities and technologies of an Extraterrestrial nature. This "deathbed confession" was featured as witness testimony at the Citizens Hearing on Disclosure at the National Press Club in Washington DC last year, and has caused hot debate within the intelligence and UFO communities.

THE HISTORY OF A COSMIC WHISTLEBLOWER

June 6th, 1998 - Investigative journalist Linda Moulton Howe brought a witness under the pseudonym AGENT KEWPER on the radio show Coast to Coast AM. The witness claimed that through his military service, he had acquired knowledge and first hand experience with extraterrestrials and their technologies. Immediately after this report, AGENT KEWPER was warned to cease and desist all contact with Linda Moulton Howe, or to suffer the consequences.

Fifteen years later, and fearing the end was near, the witness emerged from the shadows and was once again ready to tell his extraordinary story. Due to the warning received about speaking

Sunset Strip's premiere tattoo shop, The Shamrock Social Club is a place of both shadow and substance, a tattoo mecca that exists in shades of grey. The proprietor, Mark Mahoney, is a devout Catholic and a modern-day shaman; The Shamrock is his church. The world's elite wait months to enter the hallowed grounds of The Shamrock; not for who they are, but for who they're becoming. A place where the "Elite and the underworld meet", Corbell documents the transformation as clients interact with Mark and his indelible ink.

This strange propulsion may provide hard physical proof for the existence of the Multiverse (a four-dimensional or higher reality). The discovery would revolutionize not only our understanding of the known Universe and the physics that govern it, but would also exponentially expand the possibility of humanity becoming an interstellar spacefaring civilization. The ultimate goal? To become extraterrestrials.

"Nano Man" also believes he possesses a mysterious meta-material... not created here on Earth. We travel to a military installation and use NASA's Scanning Electron Microscope to analyze and interrogate the alleged Off-World (alien) nano-robotics best described as "UTILITY FOG" (a term from Science Fiction). Is this physical evidence of Extraterrestrial Nanotechnology from a UFO landing site? Or has everyone been fooled for some deeper reason?

- Here is a little clip that includes testimony about Area 51 and Site 4 (S-4) from both Investigative Filmmaker Jeremy Corbell, and two-time Peabody Award winning Investigative Journalist, George Knapp.
- This clip is important because in 1989 BOB LAZAR revealed to the public the fact that he back-engineered Alien Spacecraft from another world for the United States Military at a secret base called S-4 (near the infamous Area 51).
- GEORGE KNAPP (Peabody Award winning Investigative Journalist) broke the story in an attempt to assure the safety of LAZAR. Being a Cosmic Whistleblower has its price, if you're not careful.
- KNAPP will often say, "VET EVERY SOURCE". Well, LAZAR has been vetted for over 25 years. His story has not changed, altered, or become more elaborate. LAZAR is telling YOU the truth. It's up to you what you DO with that information. The implications derived from his experiences are just starting to be realized.

For the first time in American history senior CIA officials were granted permission to openly discuss some of the achievements born of efforts from the work performed at the infamous base, Area 51. Peabody Award winning Investigative Reporter George Knapp presided over a panel.

[Transcript Link](#)

Some of the CIA's achievements at Area 51 were discussed at length at this historic event, but despite public interest, leaked stories, whistleblowers and popular lore permeating the history of Area 51... the topics of non-terrestrial cooperation and UFO reverse-engineering were not discussed... until Investigative Filmmaker, JEREMY KENYON LOCKER CORBELL, started asking questions that is.

The event was held on October 9th, 2015 at The National Atomic Testing Museum in Las Vegas, Nevada. The panel included Dr. David Robarge Ph.D. (Chief Historian of the CIA), and S. Eugene Poteat (Senior CIA Scientific Intelligence Officer, responsible for programs at Area 51).

2015 09 09 Jeremy Corbell https://youtu.be/Sidt_mMPCN8 THE THING - UFOs in Warminster England

This is some extremely rare footage of a town hall meeting in the sleepy village of Warminster in the UK, just after the first of many strange and mass UFO sightings that became known globally as "The Thing". Watching this video is astonishing really... the true and genuine fear caused to a small community of people pushed to the point of having a town hall meeting about the unexplained phenomenon. Much of the footage collected during this series of events (that lasted more than 10 years) was classified under the guise of national security by the Ministry of Defense (MOD) under the "Official Secrets Act" and sealed up and buried from the citizens or any public access. The first sign of "The Thing" was during the Christmas of 1964, when residents heard a loud, unidentifiable whine. The strange sightings were reported in the Warminster Journal. In one year alone, more than 1,000 sightings of unidentified flying objects were recorded! They continued to be seen on a regular basis between 1965 and 1977. In this video piece, watch how the cop draws the object that followed his police car on October 24th, 1967... astonishing. What do you think? Go to www.ExtraordinaryBeliefs.com to learn more.

WOMEN IN SUNGLASSES was conceived in the South of France. After the first edition of the work was stolen from a stopover at a Prague hotel room by the local Mafia who also made off with Corbell's passport, cash and camera equipment, landing the artist a 72 hour stay in a Czech jail. While incarcerated Corbell conceived the comeback of what would then become known as the Los Angeles version of WOMEN IN SUNGLASSES aka ANGEL KILLER. His art opening turned into the photo shoot itself once back in Los Angeles on the date of the show. Models poured into the party, tearing off designer blouses and rolling on Smashbox lipsticks as Corbell snapped away with a vintage Polaroid camera -- the only rule? They all wore sunglasses!

ABOUT THE ARTIST

Jeremy Kenyon Lockyer Corbell is an accidental Artist. A warrior who trained Jiu-Jitsu for the majority of his life; teaching and doing seminars around the world. The transition from Warrior to Artist began while traveling in Nepal, where he acquired a near-fatal respiratory disease that changed his life.

No longer able to train martial arts, Corbell found strength in painting on vintage doors salvaged from local demolitions around his childhood home. PLEASE READ THE DESCRIPTION TO THE END TO LEARN WHAT WAS SEEN

This happened on December 1st, 2010 at 5:09pm on a walk in Santa Monica California. My wife and I were walking west about 17 blocks from the ocean when we saw these bizarre objects in the sky. It happened so fast, I barely was able to film... and I went off the objects to get a better vantage point, so only caught them for a brief moment at the beginning of the film. I really messed up the recording because I didn't know how fast it would all happen. Fortunately I caught a brief moment of the objects using my iPhone. I have NO IDEA what they were... but as you can see... they were big and high in the air (seemingly over the ocean) and shooting off some kind of myst, contrail or light. The top one changed directions twice that you can see on the film if you forward through the beginning frame by frame. Both objects were dropping really fast. When I was walking across the street to get a better vantage point, the iPhone was unable to refocus the light, and you can't really see much after I cross the street... but you can hear in my voice that the objects were weaving back and forth like the "Silver Surfer". These things just dropped super fast. They had these crazy short contrails... and weaved back and forth as they dropped. There were not any planes visible that the objects could have been dropped out of... and WHAT THE HELL were the contrails coming off of them?!?! It really looked like the "Silver Surfer" from a cartoon. Crazy... and I have no idea what they were... but just wanted to share. I wish I had a better vantage point when I was filming. It does not look

WOMEN IN SUNGLASSES was conceived in the South of France. After the first edition of the work was stolen from a stopover at a Prague hotel room by the local Mafia who also made off with Corbell's passport, cash and camera equipment, landing the artist a 72 hour stay in a Czech jail. While incarcerated Corbell conceived the comeback of what would then become known as the Los Angeles version of WOMEN IN SUNGLASSES aka ANGEL KILLER. His art opening turned into the photo shoot itself once back in Los Angeles on the date of the show. Models poured into the party, tearing off designer blouses and rolling on Smashbox lipsticks as Corbell snapped away with a vintage Polaroid camera the only rule? They all wore sunglasses!

Corbell's latest creation, ICON, is a mixed-media series that celebrates the life and style of Sharon Tate in honor of the 40th anniversary of her passing. With the blessing of the Tate family, ICON showcases Sharons never before revealed wardrobe by designers such as Christian Dior, Thea Porter, Ossie Clark and Yves Saint Laurent. As an artist I have always been fascinated by the power of art to act as a record for human consciousness. From the first cave paintings of human handprints, to the rich history presented and preserved in Egyptian hieroglyphs. Art is a powerful vehicle for transmitting and preserving complex ideas and world-views. Art can be profoundly symbolic, and is often used to hide controversial ideas within plain sight. Masonic symbols, for example, can only be understood by those who have been schooled in their meaning. The rest of us see what we want to see... or even as we are. What we can see is a reflection of not only what we know, but also what we are capable of grasping.
