

1
00:00:05,990 --> 00:00:04,390
that it was really improbable that

2
00:00:07,670 --> 00:00:06,000
intelligent life could travel from here

3
00:00:10,470 --> 00:00:07,680
to there but we now know because of

4
00:00:12,070 --> 00:00:10,480
modern quantum physics that uh distance

5
00:00:14,150 --> 00:00:12,080
is irrelevant when it comes to space

6
00:00:15,749 --> 00:00:14,160
time travel so you can move faster the

7
00:00:17,269 --> 00:00:15,759
speed of light particles do all the time

8
00:00:19,910 --> 00:00:17,279
so carl sagan

9
00:00:22,230 --> 00:00:19,920
was awesome but he was wrong if

10
00:00:24,870 --> 00:00:22,240
you thought that

11
00:00:28,150 --> 00:00:24,880
we're at the chateau marmar

12
00:00:30,150 --> 00:00:28,160
can have 64 baby so we're on the top of

13
00:00:54,470 --> 00:00:30,160

the world here

14

00:00:54,480 --> 00:01:04,710

take my hands

15

00:01:04,720 --> 00:01:10,630

let's win

16

00:01:10,640 --> 00:01:38,870

and
