1
00:00:11,499 --> 00:00:06,980
you don't want to come across as crazy

2
00:00:14,240 --> 00:00:11,509
yourself you you are skeptical too but

3
00:00:17,750 --> 00:00:14,250
now I have something I have something in

4
00:00:23,720 --> 00:00:17,760
my hand that cannot be explained in any

5
00:00:27,920 --> 00:00:23,730
other way where the hell did this come

6
00:00:32,150 --> 00:00:27,930
from this should not be that should not

7
00:00:34,590 --> 00:00:32,160
be for another thousand years this is so

8
00:00:37,050 --> 00:00:34,600
advanced

9
00:00:40,650 --> 00:00:37,060
we wouldn't know where the first place

10
00:00:42,360 --> 00:00:40,660
to start in making this material making

11
00:00:48,180 --> 00:00:42,370
functional machines on the nanoscale

12
00:00:49,910 --> 00:00:48,190
robots this material is so much more

13
00:00:54,330 --> 00:00:49,920

advanced than anything we can imagine

14

00:00:56,970 --> 00:00:54,340

with our technology that it doesn't even

15

00:01:00,960 --> 00:00:56,980

really show up in science fiction

16

00:01:06,180 --> 00:01:00,970

because nobody can even conceive of how

17

00:01:09,120 --> 00:01:06,190

advanced this is imagine millions upon

18

00:01:12,080 --> 00:01:09,130

millions of machines microscopic

19

00:01:16,469 --> 00:01:12,090

machines all working together in unison

20

00:01:19,710 --> 00:01:16,479

these machines are so small that we are
