

The background of the image is a dark space scene. On the left, a portion of a satellite or space station component is visible, featuring a white cylindrical object with the number '032' printed on it. On the right, a large array of solar panels is visible, consisting of a grid of rectangular cells. The overall scene is set against a starry black background.

EXTRAORDINARY BELIEFS  
PODCAST PRESENTED BY  
JEREMY KENYON LOCKYER CORBELL  
TRANSMISSION TOPIC  
UFO SCIENCE & TECHNOLOGY  
2016 CONTACT IN THE DESERT

1  
00:00:18,820 --> 00:00:16,299  
hi everybody welcome to the desert my

2  
00:00:20,530 --> 00:00:18,830  
name is Jeremy corbel my friends and

3  
00:00:22,710 --> 00:00:20,540  
enemies call me for name because I have

4  
00:00:25,540 --> 00:00:22,720  
four names jeremy kenyan locker corbel

5  
00:00:27,280 --> 00:00:25,550  
I'm an accidental filmmaker especially

6  
00:00:30,430 --> 00:00:27,290  
in this subject I was a jiu-jitsu

7  
00:00:32,980 --> 00:00:30,440  
fighter I I did that my entire life and

8  
00:00:36,250 --> 00:00:32,990  
I like to say at one point my curiosity

9  
00:00:37,810 --> 00:00:36,260  
got weaponized I mean that literally in

10  
00:00:39,610 --> 00:00:37,820  
the sense that there was nothing that

11  
00:00:42,400 --> 00:00:39,620  
would stop me from looking deeper into

12  
00:00:44,050 --> 00:00:42,410  
these subjects I find them fascinating I

13  
00:00:46,690 --> 00:00:44,060

think everybody's got a piece to the

14

00:00:48,580 --> 00:00:46,700

puzzle but none of us know the entirety

15

00:00:50,530 --> 00:00:48,590

of what's going on there is a real

16

00:00:53,860 --> 00:00:50,540

phenomenon I think it's much broader

17

00:00:56,290 --> 00:00:53,870

than then is often perceived by an

18

00:00:59,160 --> 00:00:56,300

individual and so it kind of made it my

19

00:01:02,850 --> 00:00:59,170

my point to look into this my initial

20

00:01:05,740 --> 00:01:02,860

introduction into these realms luckily I

21

00:01:07,450 --> 00:01:05,750

met George Knapp he became a mentor to

22

00:01:09,730 --> 00:01:07,460

me as a journalist I really looked up to

23

00:01:11,860 --> 00:01:09,740

him he broke the area 51 story you all

24

00:01:13,539 --> 00:01:11,870

kind of know him from the Lazar case you

25

00:01:16,750 --> 00:01:13,549

know he kind of helped guide me there's

26  
00:01:18,940 --> 00:01:16,760  
a powerful signal to noise problem since

27  
00:01:20,920 --> 00:01:18,950  
the beginning of looking at these topics

28  
00:01:22,510 --> 00:01:20,930  
there's two layers of deception one is

29  
00:01:24,070 --> 00:01:22,520  
the visitors themselves the others the

30  
00:01:26,410 --> 00:01:24,080  
intelligence agencies and then the third

31  
00:01:29,109 --> 00:01:26,420  
actually would be ourselves you know we

32  
00:01:30,190 --> 00:01:29,119  
often take our own perspective and try

33  
00:01:32,920 --> 00:01:30,200  
to apply to something we don't

34  
00:01:34,899 --> 00:01:32,930  
understand and so I think that all those

35  
00:01:38,580 --> 00:01:34,909  
layers of kind of deception even our own

36  
00:01:42,250 --> 00:01:38,590  
deception causes a kind of unique way a

37  
00:01:43,749 --> 00:01:42,260  
clouded way to look at these topics /

38  
00:01:46,870 --> 00:01:43,759

one I don't even know that these are

39

00:01:50,440 --> 00:01:46,880

extraterrestrials I know for a fact that

40

00:01:52,660 --> 00:01:50,450

there are aircraft in the sky that are

41

00:01:54,700 --> 00:01:52,670

flying with impunity and they have been

42

00:01:57,789 --> 00:01:54,710

for a very long time probably since and

43

00:01:59,080 --> 00:01:57,799

you know back to antiquity and I think a

44

00:02:01,179 --> 00:01:59,090

lot of the people in the government it

45

00:02:03,219 --> 00:02:01,189

just as confused or people I've talked

46

00:02:05,050 --> 00:02:03,229

with just as confused as we are there

47

00:02:07,120 --> 00:02:05,060

may be a small section of people within

48

00:02:09,330 --> 00:02:07,130

our outside maybe of the United States

49

00:02:11,009 --> 00:02:09,340

government that control this information

50

00:02:13,320 --> 00:02:11,019

that's what it appears to some of the

51  
00:02:16,949 --> 00:02:13,330  
witness ever talked with but I don't

52  
00:02:19,320 --> 00:02:16,959  
know so all I can do as a filmmaker is

53  
00:02:22,170 --> 00:02:19,330  
talk with people about what I say their

54  
00:02:25,710 --> 00:02:22,180  
beliefs are now some people's beliefs

55  
00:02:28,589 --> 00:02:25,720  
are founded more in personal experience

56  
00:02:30,780 --> 00:02:28,599  
or you know actual hands-on experience

57  
00:02:32,610 --> 00:02:30,790  
and other people it's not based on that

58  
00:02:35,009 --> 00:02:32,620  
so I try to find the people that have

59  
00:02:36,330 --> 00:02:35,019  
hands on experience and talk with him a

60  
00:02:38,280 --> 00:02:36,340  
lot of them have happened to be

61  
00:02:40,229 --> 00:02:38,290  
scientists i know that this panel is

62  
00:02:41,759 --> 00:02:40,239  
kind of about propulsion and science is

63  
00:02:44,309 --> 00:02:41,769

that it or something like that engine

64

00:02:45,990 --> 00:02:44,319

okay so so let's you know let's let's

65

00:02:48,240 --> 00:02:46,000

talk about a couple top because on that

66

00:02:49,890 --> 00:02:48,250

my initial introduction to the subject

67

00:02:51,839 --> 00:02:49,900

matter was actually through a number of

68

00:02:53,220 --> 00:02:51,849

military friends that i had you know i

69

00:02:55,199 --> 00:02:53,230

learned a lot of information like I'm

70

00:02:58,080 --> 00:02:55,209

very credible and then a number of

71

00:02:59,819 --> 00:02:58,090

people I was connected to so for example

72

00:03:02,400 --> 00:02:59,829

some of the people I've recently been

73

00:03:05,600 --> 00:03:02,410

filming with for my films that I did a

74

00:03:07,530 --> 00:03:05,610

short film on Lazar I find his story

75

00:03:09,750 --> 00:03:07,540

fascinating and I found his story

76

00:03:12,240 --> 00:03:09,760

important and so I've been you know

77

00:03:15,809 --> 00:03:12,250

spending a lot of my effort digging

78

00:03:19,500 --> 00:03:15,819

deeper into that you know next was John

79

00:03:22,020 --> 00:03:19,510

Lear the godfather of conspiracy now as

80

00:03:23,550 --> 00:03:22,030

an individual what an incredible human

81

00:03:24,800 --> 00:03:23,560

being I mean he at one time he was the

82

00:03:28,110 --> 00:03:24,810

youngest man ever to climb the

83

00:03:29,789 --> 00:03:28,120

Matterhorn as a kid he's only two people

84

00:03:31,500 --> 00:03:29,799

flew under the Golden Gate Bridge with a

85

00:03:34,229 --> 00:03:31,510

busted out and Jim the guys lived a

86

00:03:36,210 --> 00:03:34,239

crazy life and he's got some incredible

87

00:03:38,580 --> 00:03:36,220

belief systems I mean out there as a

88

00:03:41,539 --> 00:03:38,590

human being I like to kind of look at

89

00:03:43,680 --> 00:03:41,549  
people and say how did you come to your

90

00:03:45,659 --> 00:03:43,690  
understanding because I'm sure some of

91

00:03:48,180 --> 00:03:45,669  
you have wild beliefs that are not

92

00:03:50,009 --> 00:03:48,190  
congruent with mine either but we're all

93

00:03:51,539 --> 00:03:50,019  
looking at similar things I'd like to

94

00:03:54,330 --> 00:03:51,549  
get to understand i'd like to get to

95

00:03:57,210 --> 00:03:54,340  
meet people and look at what they think

96

00:04:00,030 --> 00:03:57,220  
and how they got there i'm also doing a

97

00:04:01,680 --> 00:04:00,040  
whole series on a guy called nano man

98

00:04:04,170 --> 00:04:01,690  
George Knapp and I released his real

99

00:04:07,860 --> 00:04:04,180  
name his name is Chris Cooper he's a

100

00:04:09,569 --> 00:04:07,870  
really really fascinating scientist who

101

00:04:12,240 --> 00:04:09,579

works primarily in carbon nanotubes

102

00:04:14,339 --> 00:04:12,250

thread construction but also was working

103

00:04:16,440 --> 00:04:14,349

on a propulsion system that gave it a

104

00:04:18,149 --> 00:04:16,450

cool name called it the space Drive but

105

00:04:18,729 --> 00:04:18,159

essentially that the Navy was studying

106

00:04:20,140 --> 00:04:18,739

it and I

107

00:04:22,510 --> 00:04:20,150

through my navel contacts that's who

108

00:04:24,309 --> 00:04:22,520

told me to go talk with him and I filmed

109

00:04:25,510 --> 00:04:24,319

him now this is my fifth year filming

110

00:04:27,490 --> 00:04:25,520

with him and I've only released two

111

00:04:29,830 --> 00:04:27,500

shorts so there's a bunch coming about

112

00:04:31,480 --> 00:04:29,840

about his scientific endeavors some of

113

00:04:32,860 --> 00:04:31,490

which will fall flat on their face but

114

00:04:35,379 --> 00:04:32,870

other ones because he's pushing the

115

00:04:38,290 --> 00:04:35,389

bleeding edge have had and will have

116

00:04:39,520 --> 00:04:38,300

success so success or failure I love

117

00:04:43,089 --> 00:04:39,530

working with people who are really

118

00:04:44,650 --> 00:04:43,099

trying to push the envelope and again as

119

00:04:46,300 --> 00:04:44,660

my curiosity has been weaponized that's

120

00:04:47,969 --> 00:04:46,310

what I'm going to try to do in my film

121

00:04:50,409 --> 00:04:47,979

work so you know are these

122

00:04:53,469 --> 00:04:50,419

extraterrestrials extra dimensionals or

123

00:04:56,860 --> 00:04:53,479

extra temporals you know who knows time

124

00:04:58,570 --> 00:04:56,870

and space is relative and that's what's

125

00:05:01,300 --> 00:04:58,580

interesting that's what's interesting to

126  
00:05:03,129 --> 00:05:01,310  
me so there's a huge mystery here and I

127  
00:05:05,320 --> 00:05:03,139  
like you I'm trying to get a little bit

128  
00:05:07,570 --> 00:05:05,330  
closer to that and I think science is an

129  
00:05:09,580 --> 00:05:07,580  
aspect of that and I'm sure a lot of you

130  
00:05:11,800 --> 00:05:09,590  
are here are here for a reason you have

131  
00:05:13,540 --> 00:05:11,810  
some sort of interest in the subject and

132  
00:05:15,490 --> 00:05:13,550  
I don't know if it stems from a personal

133  
00:05:18,520 --> 00:05:15,500  
experience I have not had one myself

134  
00:05:21,640 --> 00:05:18,530  
that I can classify as you know and a

135  
00:05:24,580 --> 00:05:21,650  
UFO experience but I no longer have the

136  
00:05:27,249 --> 00:05:24,590  
the luxury of disbelief if you spend any

137  
00:05:30,689 --> 00:05:27,259  
amount of time looking into this subject

138  
00:05:33,850 --> 00:05:30,699

matter there is a real phenomenon but my

139

00:05:36,850 --> 00:05:33,860

perspective is it is so much stranger

140

00:05:38,709 --> 00:05:36,860

than just lights in the sky and and if

141

00:05:40,689 --> 00:05:38,719

you really look into the cases and you

142

00:05:42,550 --> 00:05:40,699

really talk with people and you go deep

143

00:05:45,820 --> 00:05:42,560

into this as a journalist you will find

144

00:05:48,249 --> 00:05:45,830

that often the strangest aspects are not

145

00:05:51,129 --> 00:05:48,259

reported so you all know about

146

00:05:53,350 --> 00:05:51,139

skinwalker ranch Robert Bigelow just put

147

00:05:56,350 --> 00:05:53,360

beam right so that's the inflatable

148

00:05:57,879 --> 00:05:56,360

space habitat that he hooked on to the

149

00:05:59,890 --> 00:05:57,889

ISS and now they're planning a much

150

00:06:01,600 --> 00:05:59,900

bigger one so at one point he bought

151  
00:06:04,149 --> 00:06:01,610  
this place called skinwalker ranch where

152  
00:06:05,469 --> 00:06:04,159  
not only was there UFO activity but

153  
00:06:07,740 --> 00:06:05,479  
there was also a whole bunch of what

154  
00:06:10,540 --> 00:06:07,750  
you'd call for lack of a better term

155  
00:06:12,189 --> 00:06:10,550  
paranormal psychokinesis like all these

156  
00:06:13,540 --> 00:06:12,199  
strange things were going on he had a

157  
00:06:16,270 --> 00:06:13,550  
number of scientists studying it for

158  
00:06:18,129 --> 00:06:16,280  
years trying to capture the phenomena

159  
00:06:19,870 --> 00:06:18,139  
and everybody I talked with who worked

160  
00:06:21,580 --> 00:06:19,880  
there on the ranch says that it was

161  
00:06:24,670 --> 00:06:21,590  
there was a it was a trickster element

162  
00:06:27,550 --> 00:06:24,680  
that it's not just about UFOs that

163  
00:06:29,090 --> 00:06:27,560

there's another aspect to this that

164

00:06:30,950 --> 00:06:29,100

enlarged were

165

00:06:33,880 --> 00:06:30,960

missing and it made me go back and read

166

00:06:37,310 --> 00:06:33,890

all of john keells books if you hit him

167

00:06:39,200 --> 00:06:37,320

fascinating stuff now I got two points

168

00:06:40,910 --> 00:06:39,210

on propulsion it's not my specialty in

169

00:06:43,490 --> 00:06:40,920

my field but I document a number of

170

00:06:45,770 --> 00:06:43,500

people that work in propulsion and two

171

00:06:47,240 --> 00:06:45,780

things that I found most fascinating to

172

00:06:49,400 --> 00:06:47,250

one is there's number of people working

173

00:06:51,470 --> 00:06:49,410

with new meta materials essentially

174

00:06:55,220 --> 00:06:51,480

materials that have not existed here on

175

00:06:58,220 --> 00:06:55,230

earth before there's a almost perfect

176  
00:07:00,890 --> 00:06:58,230  
atomic layer MIT now of these elements

177  
00:07:03,470 --> 00:07:00,900  
which provides a completely significant

178  
00:07:05,900 --> 00:07:03,480  
different structure and one of the guys

179  
00:07:07,520 --> 00:07:05,910  
I'm working with has something he's

180  
00:07:09,470 --> 00:07:07,530  
calling the space Drive and what's

181  
00:07:12,320 --> 00:07:09,480  
fascinating and it's in its preliminary

182  
00:07:13,820 --> 00:07:12,330  
rd phases is he's you know looking to

183  
00:07:15,890 --> 00:07:13,830  
see if any of these metamaterials

184  
00:07:17,150 --> 00:07:15,900  
interact with the environment in a

185  
00:07:20,090 --> 00:07:17,160  
different way and in fact he believes

186  
00:07:21,500 --> 00:07:20,100  
that they do and he's getting small bits

187  
00:07:23,870 --> 00:07:21,510  
of propulsion this is why the Navy was

188  
00:07:25,760 --> 00:07:23,880

studying it where you are getting

189

00:07:28,160 --> 00:07:25,770

propulsion off of a field that is yet to

190

00:07:30,740 --> 00:07:28,170

be described is the best he can describe

191

00:07:32,750 --> 00:07:30,750

it so I think that with the future of

192

00:07:34,610 --> 00:07:32,760

humanity moving forward and with our

193

00:07:36,620 --> 00:07:34,620

printing abilities getting better and

194

00:07:37,940 --> 00:07:36,630

better and better I think that we can

195

00:07:40,220 --> 00:07:37,950

create alloys we can create

196

00:07:42,380 --> 00:07:40,230

metamaterials that may give us new

197

00:07:44,420 --> 00:07:42,390

properties kind of like the the stealth

198

00:07:45,740 --> 00:07:44,430

program new properties we haven't seen

199

00:07:47,690 --> 00:07:45,750

before propulsions what got me

200

00:07:49,850 --> 00:07:47,700

interested in this and then I would also

201  
00:07:52,280 --> 00:07:49,860  
like to say man let's go 10,000 years in

202  
00:07:54,140 --> 00:07:52,290  
the future for Humanity we just maybe

203  
00:07:56,390 --> 00:07:54,150  
six months ago when was it we measured

204  
00:07:59,150 --> 00:07:56,400  
and acknowledged the first gravity waves

205  
00:08:01,760 --> 00:07:59,160  
so it only took a supernova for that but

206  
00:08:03,470 --> 00:08:01,770  
essentially gravity you know is a wave

207  
00:08:05,240 --> 00:08:03,480  
it's been theorized now we know that's

208  
00:08:07,370 --> 00:08:05,250  
cool and just like any way you can

209  
00:08:09,200 --> 00:08:07,380  
amplify it again who knows unless it's a

210  
00:08:11,780 --> 00:08:09,210  
huge significant leap in technology for

211  
00:08:14,090 --> 00:08:11,790  
us humans you know maybe 10,000 years

212  
00:08:17,840 --> 00:08:14,100  
but potentially that is the most

213  
00:08:19,760 --> 00:08:17,850

fascinating propulsion idea is the

214

00:08:22,370 --> 00:08:19,770

amplification of gravity waves

215

00:08:24,680 --> 00:08:22,380

distorting space-time itself you need a

216

00:08:26,780 --> 00:08:24,690

high energy source and then that's where

217

00:08:29,090 --> 00:08:26,790

you get to some crazy realms but people

218

00:08:32,450 --> 00:08:29,100

are working on these things both pulsion

219

00:08:34,340 --> 00:08:32,460

ideas but also power sources so I'd like

220

00:08:36,200 --> 00:08:34,350

to see commanding at least ten

221

00:08:38,000 --> 00:08:36,210

years to be able to amplify gravity

222

00:08:41,750 --> 00:08:38,010

waves and see what happens Mike you know

223

00:08:43,520 --> 00:08:41,760

get getting here much easier you know to

224

00:08:47,240 --> 00:08:43,530

contact in the desert from wherever you

225

00:08:49,160 --> 00:08:47,250

live I'm here like you wanting to learn

226

00:08:50,660 --> 00:08:49,170

the truth that I'm making films on it so

227

00:08:53,060 --> 00:08:50,670

all my films are extraordinary beliefs

228

00:08:54,550 --> 00:08:53,070

calm and I hope you engaged them and I

229

00:08:56,900 --> 00:08:54,560

hope we learn more in the years to come
