

1
00:00:03,870 --> 00:00:08,680

[Music]

2
00:00:13,100 --> 00:00:11,030

when I started talking to people about

3
00:00:14,259 --> 00:00:13,110

this when I was like 13 years old people

4
00:00:17,029 --> 00:00:14,269

would almost laugh when you said

5
00:00:19,099 --> 00:00:17,039

extraterrestrials probably exist the

6
00:00:21,590 --> 00:00:19,109

worldview has changed now we know all

7
00:00:23,929 --> 00:00:21,600

these exoplanets trillions of star

8
00:00:26,060 --> 00:00:23,939

systems with habitable planets so the

9
00:00:27,470 --> 00:00:26,070

whole paradigm has shifted what's the

10
00:00:29,720 --> 00:00:27,480

next thing and now you're gonna be

11
00:00:31,849 --> 00:00:29,730

tucked you you're exactly you're gonna

12
00:00:33,560 --> 00:00:31,859

be ahead ten years right now what would

13
00:00:35,870 --> 00:00:33,570

the big deal be what is the biggest lie

14

00:00:38,930 --> 00:00:35,880

well if these things are real are they

15

00:00:40,819 --> 00:00:38,940

coming here so that's the question if we

16

00:00:43,190 --> 00:00:40,829

can kind of narrow in the discussion to

17

00:00:44,840 --> 00:00:43,200

that now rather than extra rows don't

18

00:00:46,400 --> 00:00:44,850

exist okay well we just have the one

19

00:00:48,619 --> 00:00:46,410

planet out of trillions and billions of
