

1
00:00:03,870 --> 00:00:09,220

[Music]

2
00:00:13,549 --> 00:00:11,780
after you exposed to it just for a

3
00:00:15,020 --> 00:00:13,559
little while it begins to settle in your

4
00:00:17,359 --> 00:00:15,030
mind these are normal things

5
00:00:19,250 --> 00:00:17,369
okay 115 belongs there on the chart and

6
00:00:21,290 --> 00:00:19,260
you know these this flies and this is

7
00:00:24,529 --> 00:00:21,300
how gravity works great just like

8
00:00:26,630 --> 00:00:24,539
someone being from the 1800's being

9
00:00:28,730 --> 00:00:26,640
exposed to a car for a few days he takes

10
00:00:30,200 --> 00:00:28,740
it for granted very quickly the most

11
00:00:33,740 --> 00:00:30,210
shocking thing was when I actually got

12
00:00:36,200 --> 00:00:33,750
to look inside the disk the seats in the

13
00:00:37,940 --> 00:00:36,210

panel associated with him very small

14

00:00:39,850 --> 00:00:37,950

they were you know perhaps that far off

15

00:00:42,380 --> 00:00:39,860

the ground like something smut now you

16

00:00:47,000 --> 00:00:42,390

if we had made something like that we

17

00:00:49,250 --> 00:00:47,010

wouldn't have made it to fit children it

18

00:00:53,150 --> 00:00:49,260

just led me to believe with the size of

19

00:00:55,610 --> 00:00:53,160

the alien cadavers I saw the size of the
