2  
00:00:12,589 --> 00:00:10,889

these gravity emitters can be swung all

3  
00:00:15,259 --> 00:00:12,599

the way up to 180 degrees

4  
00:00:17,750 --> 00:00:15,269

this one swings up and creates a

5  
00:00:20,330 --> 00:00:17,760

distortion in front of it allowing the

6  
00:00:23,679 --> 00:00:20,340

craft just slide forward so that's how

7  
00:00:27,470 --> 00:00:23,689

they're omicron configuration operate

8  
00:00:30,740 --> 00:00:27,480

the Delta configuration uses all three

9  
00:00:33,319 --> 00:00:30,750

and unlike science fiction movies where

10  
00:00:35,420 --> 00:00:33,329

you see flying saucers just flying like

11  
00:00:38,720 --> 00:00:35,430

that they actually fly belly-first

12  
00:00:40,729 --> 00:00:38,730

the craft flies along leaves the

13  
00:00:42,830 --> 00:00:40,739

atmosphere of the planet it turns its

14

00:00:45,020 --> 00:00:42,840

belly to the destination the three

15

00:00:48,560 --> 00:00:45,030

amplifiers focus in on the destination
