**PART
2 of 2**

1
00:00:07,940 --> 00:00:06,259
cancel the training exercise all of our

2
00:00:22,010 --> 00:00:07,950
head start looking up I guess now we

3
00:00:24,560 --> 00:00:22,020
know that it's around us is when we

4
00:00:27,740 --> 00:00:24,570
should wake attack and incredible

5
00:00:30,710 --> 00:00:27,750
capabilities as far as aviation goes

6
00:00:33,920 --> 00:00:30,720
there's no wings no rotor so lifting

7
00:00:36,740 --> 00:00:33,930
services no control services definition

8
00:00:38,210 --> 00:00:36,750
don't slow down it just stops instantly

9
00:00:40,190 --> 00:00:38,220
and goes the other direction it was

10
00:00:43,729 --> 00:00:40,200
watching us you're watching they

11
00:00:46,100 --> 00:00:43,739
actively tried to jam the radar active

12
00:00:48,139 --> 00:00:46,110
cameo Raider is hostile action this

13
00:00:49,420 --> 00:00:48,149

thing disappeared in a second which is

14

00:00:54,270 --> 00:00:49,430

gone

15

00:00:54,280 --> 00:01:00,170

[Music]

16

00:01:09,870 --> 00:01:05,310

so I understand the Marine Corps at 17

17

00:01:11,219 --> 00:01:09,880

years old for good reason I did that I

18

00:01:13,050 --> 00:01:11,229

was fortunate enough they selected me

19

00:01:15,870 --> 00:01:13,060

they sent me to college to the Naval

20

00:01:17,310 --> 00:01:15,880

Academy and and I was fortunate enough

21

00:01:19,469 --> 00:01:17,320

to get to fly and so every one that

22

00:01:21,029 --> 00:01:19,479

flies tactical airplanes in a navy which

23

00:01:22,469 --> 00:01:21,039

when I say tactical I mean things that

24

00:01:24,539 --> 00:01:22,479

go off of aircraft carriers and come

25

00:01:25,889 --> 00:01:24,549

back on aircraft carriers has a security

26

00:01:28,040 --> 00:01:25,899

clearance and then you go through

27

00:01:31,080 --> 00:01:28,050

extensive training and when I say

28

00:01:33,120 --> 00:01:31,090

training it never stops so for the

29

00:01:34,590 --> 00:01:33,130

entire 18 years I flew you're in some

30

00:01:36,330 --> 00:01:34,600

type of training and you're always being

31

00:01:37,830 --> 00:01:36,340

evaluated we get taught what other

32

00:01:40,590 --> 00:01:37,840

airplanes look like we fly against other

33

00:01:42,719 --> 00:01:40,600

airplanes I float against everything in

34

00:01:44,550 --> 00:01:42,729

the u.s. inventory except for the Raptor

35

00:01:46,770 --> 00:01:44,560

I did five cruises to the Persian Gulf

36

00:01:48,749 --> 00:01:46,780

so I spent a lot of time over there a

37

00:01:50,700 --> 00:01:48,759

lot of time over Iraq and a lot of time

38

00:01:52,260 --> 00:01:50,710

over Africa so there's a lot that goes

39

00:01:54,029 --> 00:01:52,270

into this and all the stuff that we have

40

00:01:57,029 --> 00:01:54,039

to learn and train too as far as being

41

00:01:59,010 --> 00:01:57,039

professional observers because if we're

42

00:02:00,300 --> 00:01:59,020

not in a shooting or we're actually out

43

00:02:01,560 --> 00:02:00,310

there you know things will try and come

44

00:02:03,480 --> 00:02:01,570

out towards the boat and then we have to

45

00:02:06,120 --> 00:02:03,490

intercept them and help them go to other

46

00:02:09,509 --> 00:02:06,130

direction so you know we are we are

47

00:02:11,670 --> 00:02:09,519

professional observers and after at this

48

00:02:14,759 --> 00:02:11,680

point when the incident happened I had

49

00:02:18,569 --> 00:02:14,769

been flying for about 16 years about

50

00:02:23,580 --> 00:02:18,579

3,600 hours I went to Top Gun so I am

51
00:02:27,150 --> 00:02:23,590
one of those guys so this is a clear no

52
00:02:29,039 --> 00:02:27,160
clouds perfect Southern California day

53
00:02:30,900 --> 00:02:29,049
and as I look off the right side the guy

54
00:02:32,430 --> 00:02:30,910
in the back see do jet says hey skipper

55
00:02:35,520 --> 00:02:32,440
do you and I kind of finished the

56
00:02:37,050 --> 00:02:35,530
sentence dude do you see that and we're

57
00:02:39,599 --> 00:02:37,060
watching this little white object and

58
00:02:42,090 --> 00:02:39,609
it's going like this we get to about the

59
00:02:45,090 --> 00:02:42,100
12 o'clock it goes I start pulling

60
00:02:46,560 --> 00:02:45,100
across a circle it's coming up gets in

61
00:02:48,720 --> 00:02:46,570
front of my nose you see it start to

62
00:02:50,640 --> 00:02:48,730
accelerate and it goes poof and it's

63
00:02:52,530 --> 00:02:50,650

gone I looked at it for over five

64

00:02:54,720 --> 00:02:52,540

minutes and I chased it I got within a

65

00:02:56,849 --> 00:02:54,730

half mile of it it had no wings it had

66

00:02:58,170 --> 00:02:56,859

no rotors had no known propulsion system

67

00:02:59,789 --> 00:02:58,180

there's no plume coming out there's no

68

00:03:02,460 --> 00:02:59,799

heat signature no nothing they had been

69

00:03:04,319 --> 00:03:02,470

coming down from above 80,000 come down

70

00:03:05,909 --> 00:03:04,329

hang out at 20,000 for about three hours

71

00:03:07,020 --> 00:03:05,919

and they go straight back up we just

72

00:03:07,309 --> 00:03:07,030

happened to be out there one when I was

73

00:03:09,380 --> 00:03:07,319

there

74

00:03:11,149 --> 00:03:09,390

a lot of claims have been made since

75

00:03:13,309 --> 00:03:11,159

your story came out since the New York

76
00:03:14,690 --> 00:03:13,319
Times broke at additional press coverage

77
00:03:16,670 --> 00:03:14,700
and different witnesses have come

78
00:03:19,069 --> 00:03:16,680
forward who say they were on the ship

79
00:03:21,559 --> 00:03:19,079
they saw it with their eyes they saw it

80
00:03:24,020 --> 00:03:21,569
on radar they they were there they're

81
00:03:26,750 --> 00:03:24,030
part of it and I wonder you without

82
00:03:29,170 --> 00:03:26,760
naming names address the some of the

83
00:03:34,940 --> 00:03:29,180
claims that you have seen and heard

84
00:03:39,800 --> 00:03:34,950
because you were there so there are four

85
00:03:46,069 --> 00:03:39,810
of us four that physically saw this

86
00:03:49,720 --> 00:03:46,079
thing for two of us have talked in the

87
00:03:52,189 --> 00:03:49,730
New York Times article one of them is

88
00:03:55,220 --> 00:03:52,199

gonna be in a show that comes out on the

89

00:03:57,709 --> 00:03:55,230

31st called unidentified that person

90

00:03:59,149 --> 00:03:57,719

remains two of them they're still on

91

00:04:01,670 --> 00:03:59,159

active duty and they don't want to come

92

00:04:04,939 --> 00:04:01,680

forward my backseater does not come

93

00:04:06,229 --> 00:04:04,949

forward at all okay the guy that talked

94

00:04:08,089 --> 00:04:06,239

in the New York Times open he doesn't

95

00:04:09,379 --> 00:04:08,099

talk anymore and like I said this is

96

00:04:11,569 --> 00:04:09,389

probably my first and last public

97

00:04:14,179 --> 00:04:11,579

appearance so there were four of us that

98

00:04:15,679 --> 00:04:14,189

saw it the two people that were in the

99

00:04:16,939 --> 00:04:15,689

airplane that took the video did not

100

00:04:22,009 --> 00:04:16,949

physically see it with their eyes but

101
00:04:23,480 --> 00:04:22,019
they got the video okay so if anyone

102
00:04:25,310 --> 00:04:23,490
that was on the ship is an eyewitness

103
00:04:27,499 --> 00:04:25,320
then there's fifty five hundred people

104
00:04:30,189 --> 00:04:27,509
on the USS Nimitz that are eyewitnesses

105
00:04:32,420 --> 00:04:30,199
to this because I will guarantee you

106
00:04:34,070 --> 00:04:32,430
thirty minutes after it happened and we

107
00:04:37,040 --> 00:04:34,080
got back onboard that ship the entire

108
00:04:39,950 --> 00:04:37,050
ship knew that it happened okay

109
00:04:44,570 --> 00:04:39,960
the movies changed to men and black

110
00:04:46,249 --> 00:04:44,580
signs Independence Day we have comics I

111
00:04:48,260 --> 00:04:46,259
have an airplane comic that it's usually

112
00:04:50,839 --> 00:04:48,270
based on the far side and there are it's

113
00:04:52,279 --> 00:04:50,849

our ship schedule but for two days in a

114

00:04:56,390 --> 00:04:52,289

row was that and for two days they

115

00:05:01,459 --> 00:04:56,400

played alien movies Mars Attacks is one

116

00:05:03,469 --> 00:05:01,469

of our favorites by the way so I always

117

00:05:09,499 --> 00:05:03,479

carry slim with me just been just in

118

00:05:12,830 --> 00:05:09,509

case so I shouldn't make jokes but

119

00:05:14,689 --> 00:05:12,840

that's how I am so and then you had the

120

00:05:15,200 --> 00:05:14,699

cruiser there's about 400 people on the

121

00:05:17,430 --> 00:05:15,210

cruiser

122

00:05:19,110 --> 00:05:17,440

there were people in the radar room

123

00:05:21,360 --> 00:05:19,120

there was the controller that was

124

00:05:25,380 --> 00:05:21,370

actually talking so yes what's that guy

125

00:05:28,620 --> 00:05:25,390

really seeing got a round scope in front

126

00:05:30,210 --> 00:05:28,630

of them right and unlike TV where the

127

00:05:32,670 --> 00:05:30,220

the stroke goes around you know you see

128

00:05:33,870 --> 00:05:32,680

the sweep goes around Aegis cruisers

129

00:05:36,000 --> 00:05:33,880

don't have that they're phased array

130

00:05:39,660 --> 00:05:36,010

right so they're just and they don't

131

00:05:41,250 --> 00:05:39,670

scan normal they kind of do this right

132

00:05:42,690 --> 00:05:41,260

they're very innate it's very very fast

133

00:05:43,980 --> 00:05:42,700

so they scan high volumes of the

134

00:05:46,980 --> 00:05:43,990

airspace really really fast it's an

135

00:05:49,050 --> 00:05:46,990

amazing system so you get little numbers

136

00:05:50,910 --> 00:05:49,060

next to blips they can put their cursors

137

00:05:53,070 --> 00:05:50,920

over them and give data so it's a 3d

138

00:05:56,160 --> 00:05:53,080

radar so it'll give range altitude and

139

00:05:58,050 --> 00:05:56,170

bearing so that's 3d and you can go all

140

00:06:02,040 --> 00:05:58,060

that things out at seventy-five miles at

141

00:06:03,390 --> 00:06:02,050

two to zero at 30,000 feet okay so and

142

00:06:05,010 --> 00:06:03,400

then they also have the ability to see

143

00:06:06,450 --> 00:06:05,020

like asmath elevation of things coming

144

00:06:08,160 --> 00:06:06,460

down but you got to be looking at that

145

00:06:09,870 --> 00:06:08,170

so the actual controller has seen stuff

146

00:06:12,180 --> 00:06:09,880

when he's talking to us it's a 20,000

147

00:06:13,530 --> 00:06:12,190

and as the radar updates or loses track

148

00:06:15,810 --> 00:06:13,540

he doesn't know so when we gonna merge

149

00:06:17,400 --> 00:06:15,820

plot and he loses it because he can't

150

00:06:19,920 --> 00:06:17,410

see anymore because we're now that's our

151

00:06:22,440 --> 00:06:19,930

blip is on top of that blip that's kind

152

00:06:27,780 --> 00:06:22,450

of it so they tracked up to I want to

153

00:06:30,540 --> 00:06:27,790

caveat this 10 not 110 is the max they

154

00:06:33,720 --> 00:06:30,550

were told us they saw now if it's

155

00:06:36,360 --> 00:06:33,730

different than that I was never told the

156

00:06:40,320 --> 00:06:36,370

other rumors that come out is you guys

157

00:06:43,200 --> 00:06:40,330

signed on disclosures never happened it

158

00:06:46,350 --> 00:06:43,210

was classified never happened

159

00:06:51,450 --> 00:06:46,360

men in suits showed up we're gonna get

160

00:06:53,400 --> 00:06:51,460

that one later okay so when this thing

161

00:06:55,650 --> 00:06:53,410

broke back to Jeremy's original question

162

00:06:57,840 --> 00:06:55,660

that I messed up because how was it when

163

00:07:01,110 --> 00:06:57,850

this thing hit so I can tell you right

164

00:07:04,860 --> 00:07:01,120

now I completely underestimated the

165

00:07:07,710 --> 00:07:04,870

power of a New York Times article I'll

166

00:07:09,420 --> 00:07:07,720

admit that palladia wrote it Helene

167

00:07:10,740 --> 00:07:09,430

Cooper called me on Thursday after hit

168

00:07:15,159 --> 00:07:10,750

the airwaves on Saturday at 2:00 o'clock

169

00:07:20,170 --> 00:07:15,169

and said how you doing I said Wow

170

00:07:23,110 --> 00:07:20,180

my phone is non-stop ringing and people

171

00:07:24,610 --> 00:07:23,120

can find where you live it helped them

172

00:07:26,110 --> 00:07:24,620

that the guy put that I live in Windham

173

00:07:27,369 --> 00:07:26,120

New Hampshire below the caption on the

174

00:07:28,600 --> 00:07:27,379

picture of the New York Times which

175

00:07:32,230 --> 00:07:28,610

didn't make me happy but that's a

176

00:07:33,939 --> 00:07:32,240

different story so you know what saw

177

00:07:36,339 --> 00:07:33,949

what all comes out of this as far as the

178

00:07:38,140 --> 00:07:36,349

rumors of the New York Times article is

179

00:07:40,029 --> 00:07:38,150

very well I got to read it before they

180

00:07:41,890 --> 00:07:40,039

put it in the paper The Washington Post

181

00:07:43,540 --> 00:07:41,900

is really good and I have talked to a

182

00:07:46,929 --> 00:07:43,550

total of now that I just talked to

183

00:07:51,610 --> 00:07:46,939

George I have talked to get this 20

184

00:07:53,499 --> 00:07:51,620

people total 20 that's it so it's on it

185

00:07:56,769 --> 00:07:53,509

was over three hundred publications it's

186

00:08:00,399 --> 00:07:56,779

been on hundreds of news things I have

187

00:08:02,529 --> 00:08:00,409

talked to 20 so for your reference out

188

00:08:05,709 --> 00:08:02,539

there if you want to research this New

189

00:08:08,969 --> 00:08:05,719

York Times Washington Post London

190

00:08:14,140 --> 00:08:08,979

sun-times Tucker Carlson Erin Burnett

191

00:08:15,760 --> 00:08:14,150

waters World another CNN one Jeremy I've

192

00:08:17,379 --> 00:08:15,770

talked to a lot he's got some stuff on

193

00:08:19,089 --> 00:08:17,389

his website because we kind of go

194

00:08:20,290 --> 00:08:19,099

through this excuse my language and some

195

00:08:21,939 --> 00:08:20,300

of that because I'm driving to my truck

196

00:08:23,529 --> 00:08:21,949

home from work and he'll start asking me

197

00:08:25,329 --> 00:08:23,539

questions and it kind of pisses me off

198

00:08:27,939 --> 00:08:25,339

when people start making stuff up so

199

00:08:29,409 --> 00:08:27,949

that's really about it's really the

200

00:08:30,519 --> 00:08:29,419

truth and you know and we're gonna get

201
00:08:33,339 --> 00:08:30,529
two questions here in a minute and you

202
00:08:35,889 --> 00:08:33,349
can ask them all you want but the story

203
00:08:38,800 --> 00:08:35,899
has been the same for 15 years when it

204
00:08:41,050 --> 00:08:38,810
hit the airways first guy to call me is

205
00:08:42,130 --> 00:08:41,060
about 2:15 on saturday it goes on the

206
00:08:44,769 --> 00:08:42,140
air at 2:00 o'clock it's when it hits

207
00:08:47,350 --> 00:08:44,779
the internet he's like I caught I answer

208
00:08:49,210 --> 00:08:47,360
the phone he goes you're an idiot I said

209
00:08:52,240 --> 00:08:49,220
what he goes try and eat lunch and

210
00:08:54,400 --> 00:08:52,250
you're on my my iPad what did you do I

211
00:08:55,990 --> 00:08:54,410
said I I got asked to do this by Lou

212
00:08:59,590 --> 00:08:56,000
Elizondo who ran a tip program at the

213
00:09:02,470 --> 00:08:59,600

Pentagon and he goes alright and then it

214

00:09:03,970 --> 00:09:02,480

started and it's been kind of it kind of

215

00:09:05,170 --> 00:09:03,980

does this it dies off and then the Navy

216

00:09:06,639 --> 00:09:05,180

releases that they're changing the

217

00:09:09,720 --> 00:09:06,649

reporting procedures and I goes up

218

00:09:12,040 --> 00:09:09,730

minute this TV thing it's you know I

219

00:09:13,449 --> 00:09:12,050

guess you're being diplomatic but some

220

00:09:14,889 --> 00:09:13,459

of the stories and claims that have been

221

00:09:17,949 --> 00:09:14,899

made by people who may have been on

222

00:09:22,480 --> 00:09:17,959

those ships are just [h__h] okay so

223

00:09:27,280 --> 00:09:22,490

we'll hit it so these two were at a

224

00:09:28,360 --> 00:09:27,290

festival and he sends me a picture of

225

00:09:32,139 --> 00:09:28,370

the man you

226

00:09:34,720 --> 00:09:32,149

and it's got a thing by who has seen

227

00:09:36,910 --> 00:09:34,730

nimitz encounters stick your hands up

228

00:09:39,100 --> 00:09:36,920

it's like a cartoon depictions shows the

229

00:09:40,629 --> 00:09:39,110

airplanes flying around it should not be

230

00:09:42,420 --> 00:09:40,639

on the internet anymore because I had

231

00:09:44,829 --> 00:09:42,430

him take it down

232

00:09:49,389 --> 00:09:44,839

that guy was there there were some other

233

00:09:56,230 --> 00:09:49,399

guys there that I guess they now have

234

00:10:00,699 --> 00:09:56,240

PTSD from this they it's okay so I don't

235

00:10:01,930 --> 00:10:00,709

have PTSD I saw it I got looked at by

236

00:10:03,160 --> 00:10:01,940

the lady who wrote the New York Times

237

00:10:05,290 --> 00:10:03,170

instead when I said I'm gonna go check

238

00:10:07,720 --> 00:10:05,300

it out she's like he what she was I left

239

00:10:09,490 --> 00:10:07,730

I said no no I want to see how close I

240

00:10:12,610 --> 00:10:09,500

could get she said what if you just saw

241

00:10:19,350 --> 00:10:12,620

like an alien inside us I waved what are

242

00:10:23,439 --> 00:10:19,360

you gonna do you mean let's get it on so

243

00:10:24,879 --> 00:10:23,449

sorry fighter pilot ego so I think he

244

00:10:29,920 --> 00:10:24,889

would have won just cuz I saw that thing

245

00:10:31,329 --> 00:10:29,930

fly but it's you know the story is from

246

00:10:32,710 --> 00:10:31,339

our story and the four of us that

247

00:10:34,360 --> 00:10:32,720

physically saw it have the exact same

248

00:10:36,370 --> 00:10:34,370

story and has not changed in the last 15

249

00:10:38,410 --> 00:10:36,380

years almost 15 years I don't want

250

00:10:43,090 --> 00:10:38,420

someone to go Woods it actually happened

251
00:10:45,310 --> 00:10:43,100
in November almost 15 years so I tend to

252
00:10:48,600 --> 00:10:45,320
deal with you know very reluctant UFO

253
00:10:51,040 --> 00:10:48,610
messiahs with my life for some reason I

254
00:10:53,050 --> 00:10:51,050
remember very very uncomfortable

255
00:10:55,060 --> 00:10:53,060
incident the first time I was able to

256
00:10:58,090 --> 00:10:55,070
talk grant a favor so I actually had

257
00:10:59,829 --> 00:10:58,100
known about the event series prior to

258
00:11:02,199 --> 00:10:59,839
Paco releasing the article I was tipped

259
00:11:05,199 --> 00:11:02,209
off by some sources but I held back

260
00:11:06,100 --> 00:11:05,209
because I wasn't it wasn't public and it

261
00:11:08,439 --> 00:11:06,110
wasn't something I felt comfortable

262
00:11:10,269 --> 00:11:08,449
invading people's privacy

263
00:11:12,639 --> 00:11:10,279

however when Paco published his article

264

00:11:14,680 --> 00:11:12,649

I got the thumbs up hey man you can go

265

00:11:15,550 --> 00:11:14,690

now so first thing I try to contact

266

00:11:18,970 --> 00:11:15,560

command a favor

267

00:11:22,030 --> 00:11:18,980

I I don't speak pilot I'm charming Dave

268

00:11:24,040 --> 00:11:22,040

Dix art Dave so they know Dave so I'm

269

00:11:25,389 --> 00:11:24,050

not you know I'm charming but I don't

270

00:11:27,819 --> 00:11:25,399

speak pilot so I was kind of getting

271

00:11:30,250 --> 00:11:27,829

coached by Paco he got to be brief you

272

00:11:32,470 --> 00:11:30,260

got to talk in this way I'm grateful you

273

00:11:37,269 --> 00:11:32,480

did talk with me but I got to tell you

274

00:11:39,850 --> 00:11:37,279

Dave what was not in any he did not want

275

00:11:41,049 --> 00:11:39,860

to talk about he expressly told me do

276

00:11:43,449 --> 00:11:41,059

not

277

00:11:45,369 --> 00:11:43,459

lish something I said Dave somebody is

278

00:11:48,459 --> 00:11:45,379

going to get wind of this in the UFO

279

00:11:50,589 --> 00:11:48,469

community and you will be [h__h] because

280

00:11:52,239 --> 00:11:50,599

they will twist it they will twist it

281

00:11:54,759 --> 00:11:52,249

you know but we ended up talking for

282

00:11:56,169 --> 00:11:54,769

years I mean I got I was able to get a

283

00:11:58,029 --> 00:11:56,179

deeper understanding because it's just

284

00:11:59,469 --> 00:11:58,039

the way he describes things in detail

285

00:12:01,149 --> 00:11:59,479

there's a question I'd like to get to

286

00:12:03,489 --> 00:12:01,159

just from the audience just to get a few

287

00:12:05,739 --> 00:12:03,499

of these in David can you speak on any

288

00:12:08,529 --> 00:12:05,749

additional so my point is he was not he

289

00:12:10,719 --> 00:12:08,539

was a reluctant witness you know can you

290

00:12:13,059 --> 00:12:10,729

speak to any additional information or

291

00:12:16,539 --> 00:12:13,069

realizations that might have come from

292

00:12:18,999 --> 00:12:16,549

the unseen radar footage so can you can

293

00:12:20,919 --> 00:12:19,009

you tell us anything more that you

294

00:12:24,309 --> 00:12:20,929

haven't told yeah so the biggest thing

295

00:12:25,929 --> 00:12:24,319

is we don't know we're all I know where

296

00:12:27,489 --> 00:12:25,939

the tape so I took the original tapes

297

00:12:29,799 --> 00:12:27,499

and I copied them and they go in the

298

00:12:31,509 --> 00:12:29,809

safe and then we came back we went on

299

00:12:33,459 --> 00:12:31,519

cruise that stuff goes back and forth

300

00:12:35,259 --> 00:12:33,469

somewhere between now and this thing

301
00:12:36,879 --> 00:12:35,269
break and those tapes just vanished most

302
00:12:38,079 --> 00:12:36,889
likely someone opened up found 2 8 mil

303
00:12:39,939 --> 00:12:38,089
tapes and said hey we can reuse these

304
00:12:41,289 --> 00:12:39,949
things slap stickers on him and slammed

305
00:12:43,809 --> 00:12:41,299
him an airplane and taped over whatever

306
00:12:45,399 --> 00:12:43,819
we had the radar tapes from the USS

307
00:12:46,839 --> 00:12:45,409
Princeton those were supposed to be

308
00:12:48,459 --> 00:12:46,849
pulled an archive there's rumors at oh

309
00:12:52,359 --> 00:12:48,469
they pulled into port and some guys in

310
00:12:53,769 --> 00:12:52,369
suits came and took it off I will say

311
00:12:57,369 --> 00:12:53,779
this I'm doubtful

312
00:13:00,249 --> 00:12:57,379
mihaela I'm skeptical I could probably

313
00:13:01,719 --> 00:13:00,259

track down the CEO who I know and ask

314

00:13:02,919 --> 00:13:01,729

him because if anyone's gonna come on

315

00:13:07,019 --> 00:13:02,929

board the boat and take something off

316

00:13:11,559 --> 00:13:07,029

that ship captain has to approve it okay

317

00:13:14,229 --> 00:13:11,569

so it's watch what you read on the

318

00:13:16,809 --> 00:13:14,239

Internet I gave you some very reliable

319

00:13:18,549 --> 00:13:16,819

sources there are some people that say

320

00:13:21,039 --> 00:13:18,559

there are witnesses that I will not be

321

00:13:24,989 --> 00:13:21,049

associated with I'll just say that

322

00:13:28,479 --> 00:13:24,999

somehow that video appeared on online

323

00:13:30,879 --> 00:13:28,489

2007-2008 the clip it was on someone

324

00:13:33,909 --> 00:13:30,889

stole it yes someone stole it from the

325

00:13:35,409 --> 00:13:33,919

US Navy off a classified server so when

326

00:13:37,839 --> 00:13:35,419

we come back the tapes go in and we have

327

00:13:39,669 --> 00:13:37,849

this giant rack of things and they tape

328

00:13:41,499 --> 00:13:39,679

it all into a giant hard drive and Civic

329

00:13:43,179 --> 00:13:41,509

and that's the stuff that gets dispersed

330

00:13:45,339 --> 00:13:43,189

out and goes to a network that we have

331

00:13:47,499 --> 00:13:45,349

it's it's encrypted and classified for

332

00:13:49,929 --> 00:13:47,509

good reason that we don't want everyone

333

00:13:51,579 --> 00:13:49,939

reading everything that we do it's not a

334

00:13:52,869 --> 00:13:51,589

conspiracy theory it's just how we do

335

00:13:54,240 --> 00:13:52,879

business

336

00:13:55,770 --> 00:13:54,250

so

337

00:13:56,940 --> 00:13:55,780

when it first got sent to me they

338

00:13:59,010 --> 00:13:56,950

actually the guy that sent to me was a

339

00:14:00,450 --> 00:13:59,020

guy in my back seat I get this email

340

00:14:03,390 --> 00:14:00,460

with a link says hey skipper looked

341

00:14:05,820 --> 00:14:03,400

familiar so I get it and then it showed

342

00:14:08,310 --> 00:14:05,830

up on YouTube and it was on YouTube for

343

00:14:09,540 --> 00:14:08,320

years and I would tell the story on

344

00:14:11,010 --> 00:14:09,550

people go free like oh yeah there's a

345

00:14:13,650 --> 00:14:11,020

video and I had the link and I would

346

00:14:17,040 --> 00:14:13,660

forward the link out and then the link

347

00:14:20,010 --> 00:14:17,050

disappeared when the unofficial official

348

00:14:24,050 --> 00:14:20,020

report was done which some of you have

349

00:14:27,300 --> 00:14:24,060

probably read the redacted version of so

350

00:14:30,480 --> 00:14:27,310

well about that I released it last year

351

00:14:32,340 --> 00:14:30,490

it was redacted it was a 12 or 13 page

352

00:14:35,100 --> 00:14:32,350

report an analysis that was done years

353

00:14:39,000 --> 00:14:35,110

later that looked at multiple sensor

354

00:14:41,550 --> 00:14:39,010

systems that was a legit unofficial

355

00:14:44,100 --> 00:14:41,560

official report but legit right very oh

356

00:14:46,890 --> 00:14:44,110

yeah I know the guy that did it it's it

357

00:14:48,480 --> 00:14:46,900

is a very credible report that is there

358

00:14:50,430 --> 00:14:48,490

any other sensors that picked up

359

00:14:52,440 --> 00:14:50,440

information that could know cuz someone

360

00:14:54,000 --> 00:14:52,450

any audience asked me you know did it

361

00:14:55,410 --> 00:14:54,010

pick there was no ESM they weren't

362

00:14:56,880 --> 00:14:55,420

getting the SM cuts off of it which is

363

00:14:58,680 --> 00:14:56,890

if something's out there amid and we

364

00:15:00,930 --> 00:14:58,690

have passive things that will pick it up

365

00:15:03,150 --> 00:15:00,940

so you can see what's out there we have

366

00:15:04,950 --> 00:15:03,160

it on the airplane - it's called radar

367

00:15:06,510 --> 00:15:04,960

warning receiver so you can tell threat

368

00:15:10,080 --> 00:15:06,520

systems are looking at you it tells you

369

00:15:12,420 --> 00:15:10,090

it identifies them in layman's terms but

370

00:15:14,670 --> 00:15:12,430

no we did we got no passive cuts the

371

00:15:16,590 --> 00:15:14,680

only thing we got was great our hit from

372

00:15:18,300 --> 00:15:16,600

the airplane obviously the e2s that's

373

00:15:20,370 --> 00:15:18,310

the looks like a little mini AWACS plane

374

00:15:22,500 --> 00:15:20,380

it flies off the carrier they could see

375

00:15:24,210 --> 00:15:22,510

it the carrier could see it

376

00:15:26,340 --> 00:15:24,220

the cruiser could see it it's just

377

00:15:28,350 --> 00:15:26,350

airplanes we were limited an hour

378

00:15:30,210 --> 00:15:28,360

depending on the frequency range that

379

00:15:32,400 --> 00:15:30,220

the radar operates in can make it easier

380

00:15:33,690 --> 00:15:32,410

or harder to see an object like that so

381

00:15:35,430 --> 00:15:33,700

I'm gonna assume that where we operate

382

00:15:37,310 --> 00:15:35,440

was a little bit harder to see it and

383

00:15:39,870 --> 00:15:37,320

they can change they have different

384

00:15:41,400 --> 00:15:39,880

spectrum that they can operate in which

385

00:15:44,220 --> 00:15:41,410

allows them to see stuff that we can't

386

00:15:47,579 --> 00:15:44,230

so so the arguments been made that

387

00:15:49,650 --> 00:15:47,589

because that video clip was on some

388

00:15:52,950 --> 00:15:49,660

social media site years ago it's not

389

00:15:56,070 --> 00:15:52,960

official it was manufactured it wasn't

390

00:15:57,300 --> 00:15:56,080

released by the Pentagon your years

391

00:15:59,340 --> 00:15:57,310

later your thoughts on that

392

00:16:00,750 --> 00:15:59,350

oh no the the video that's out there

393

00:16:02,520 --> 00:16:00,760

that's a minute 30 seconds at the

394

00:16:05,010 --> 00:16:02,530

Pentagon authorized release and it's now

395

00:16:07,710 --> 00:16:05,020

it's everywhere that is real that is not

396

00:16:09,119 --> 00:16:07,720

a joke that is not doctored with

397

00:16:10,740 --> 00:16:09,129

I literally watched that video like

398

00:16:12,600 --> 00:16:10,750

probably within 15 minutes of that

399

00:16:16,379 --> 00:16:12,610

airplane landing

400

00:16:18,660 --> 00:16:16,389

I had it they were mine you know cuz

401
00:16:22,679 --> 00:16:18,670
when you're the boss you get to do that

402
00:16:24,059 --> 00:16:22,689
so I copied them because those are

403
00:16:25,439 --> 00:16:24,069
things that I have to buy because I have

404
00:16:28,050 --> 00:16:25,449
a limited budget because it's your tax

405
00:16:31,079 --> 00:16:28,060
dollars and I was pretty frugal with

406
00:16:33,210 --> 00:16:31,089
them so I took two new tapes I copied

407
00:16:34,559 --> 00:16:33,220
them so we had it so then because the

408
00:16:35,910 --> 00:16:34,569
back Cedars have tapes assigned to them

409
00:16:36,749 --> 00:16:35,920
and they use them over and over and over

410
00:16:38,819 --> 00:16:36,759
and then if there's something pertinent

411
00:16:40,499 --> 00:16:38,829
we copy it and then they keep going so

412
00:16:42,300 --> 00:16:40,509
it was copied and then it was obviously

413
00:16:44,069 --> 00:16:42,310

digitized because it's it's it's an

414

00:16:46,319 --> 00:16:44,079

analogue it's not digital tape the new

415

00:16:48,389 --> 00:16:46,329

stuff I think is digital but at the time

416

00:16:50,670 --> 00:16:48,399

we had high eight just normal same thing

417

00:16:53,400 --> 00:16:50,680

I'll say camcorders but no one has those

418

00:16:57,240 --> 00:16:53,410

anymore but camcorders we're out there

419

00:17:00,749 --> 00:16:57,250

so yeah so there are famously three

420

00:17:03,840 --> 00:17:00,759

officially released Pentagon verified

421

00:17:06,630 --> 00:17:03,850

videos your video the tic-tock video the

422

00:17:08,669 --> 00:17:06,640

one from your command the gimbal video

423

00:17:10,799 --> 00:17:08,679

where we see the craft that looks just

424

00:17:13,949 --> 00:17:10,809

like Lazar described and that movement

425

00:17:15,809 --> 00:17:13,959

and then the go-fast video now the talk

426

00:17:18,270 --> 00:17:15,819

about those I want to hear the pilots

427

00:17:21,090 --> 00:17:18,280

that filmed the gimbal the pilots that

428

00:17:23,730 --> 00:17:21,100

filmed the go-fast the it's been

429

00:17:26,250 --> 00:17:23,740

publicly said already so the cubes with

430

00:17:28,020 --> 00:17:26,260

circular auras that's public so those

431

00:17:30,480 --> 00:17:28,030

things that we've talked about or heard

432

00:17:31,950 --> 00:17:30,490

about online tell me about the pilots

433

00:17:34,440 --> 00:17:31,960

tell me about the you know people like

434

00:17:37,169 --> 00:17:34,450

to argue the gimbal is an airplane that

435

00:17:40,289 --> 00:17:37,179

is just turning or banking and the heat

436

00:17:42,240 --> 00:17:40,299

signature is of something prosaic can

437

00:17:43,470 --> 00:17:42,250

you talk about those other vehicles or

438

00:17:45,419 --> 00:17:43,480

crafts and debt you know from other

439

00:17:48,000 --> 00:17:45,429

pilots and what you see in those videos

440

00:17:48,840 --> 00:17:48,010

yeah let's start with the gimbal video

441

00:17:50,880 --> 00:17:48,850

that's the one where the guys are

442

00:17:52,289 --> 00:17:50,890

talking and it starts to rotate you know

443

00:17:53,520 --> 00:17:52,299

it looks like a kind of a saucer where

444

00:17:56,820 --> 00:17:53,530

the thing sticking on top bottom does

445

00:17:58,470 --> 00:17:56,830

this okay so I talked to one of the

446

00:18:02,820 --> 00:17:58,480

crews that was out there doing that that

447

00:18:04,440 --> 00:18:02,830

was out there when the video was shot if

448

00:18:05,730 --> 00:18:04,450

you understand what you're looking at is

449

00:18:07,950 --> 00:18:05,740

because people oh I could be an airplane

450

00:18:09,380 --> 00:18:07,960

no it couldn't be

451
00:18:12,260 --> 00:18:09,390
you actually and there's there's

452
00:18:14,220 --> 00:18:12,270
debunkers that say oh it's this it's not

453
00:18:15,930 --> 00:18:14,230
usually when an airplane rolls this

454
00:18:18,830 --> 00:18:15,940
point there's this thing that keeps us

455
00:18:21,150 --> 00:18:18,840
flying their wings and wings create lift

456
00:18:23,220 --> 00:18:21,160
when you go like this

457
00:18:26,789 --> 00:18:23,230
there is no lift yeah well if you don't

458
00:18:29,130 --> 00:18:26,799
if you don't pull it does this right so

459
00:18:31,049 --> 00:18:29,140
really in theory like a 90-degree angle

460
00:18:32,010 --> 00:18:31,059
a bank who's seen the Blue Angels of the

461
00:18:34,289 --> 00:18:32,020
Thunderbirds when they they're really

462
00:18:35,490 --> 00:18:34,299
not totally at ninety after they eat a

463
00:18:36,659 --> 00:18:35,500

little rudder and they can do some

464

00:18:39,450 --> 00:18:36,669

things to keep the airplane as it flies

465

00:18:41,520 --> 00:18:39,460

by their knife heads past but truly at

466

00:18:43,230 --> 00:18:41,530

zero degrees or a 90 degrees angle Bank

467

00:18:44,520 --> 00:18:43,240

there is zero lift being created and the

468

00:18:49,230 --> 00:18:44,530

airplane will start to descend the

469

00:18:51,090 --> 00:18:49,240

airplane it just sits there so if it if

470

00:18:52,799 --> 00:18:51,100

it does it has to put G on and you're

471

00:18:54,090 --> 00:18:52,809

gonna see an aspect change like this so

472

00:18:56,549 --> 00:18:54,100

if it's this way you're gonna see this

473

00:18:58,200 --> 00:18:56,559

or you're gonna see this in that video

474

00:19:00,210 --> 00:18:58,210

you don't see any change it just sits

475

00:19:02,340 --> 00:19:00,220

there and it rolls around like this

476

00:19:04,440 --> 00:19:02,350

doesn't move you get no aspect change at

477

00:19:07,610 --> 00:19:04,450

all it's not an airplane that no we know

478

00:19:09,810 --> 00:19:07,620

no actually they they almost hit one

479

00:19:11,130 --> 00:19:09,820

there's a couple things I see this is

480

00:19:13,169 --> 00:19:11,140

all off Virginia by the way it's the

481

00:19:15,450 --> 00:19:13,179

vacates sirs whiskey areas out there -

482

00:19:15,899 --> 00:19:15,460

that's where NES Oceana goes out and

483

00:19:18,539 --> 00:19:15,909

trains

484

00:19:20,220 --> 00:19:18,549

so they actually there's a couple things

485

00:19:21,330 --> 00:19:20,230

they've tracked them it just sitting

486

00:19:23,549 --> 00:19:21,340

there they've tracked about high rates

487

00:19:25,260 --> 00:19:23,559

of speed they've been tracked lots the

488

00:19:27,419 --> 00:19:25,270

radars are using now or even better than

489

00:19:28,250 --> 00:19:27,429

the ones that I had in the Super Hornet

490

00:19:32,070 --> 00:19:28,260

it's pretty amazing

491

00:19:34,020 --> 00:19:32,080

so more advanced technology you know

492

00:19:35,279 --> 00:19:34,030

cooler stuff more capable they're seeing

493

00:19:36,960 --> 00:19:35,289

it at first they thought they were when

494

00:19:38,370 --> 00:19:36,970

they first saw it they thought all these

495

00:19:39,810 --> 00:19:38,380

are just ghost hits and I'm like now

496

00:19:41,760 --> 00:19:39,820

that radar really doesn't provide ghost

497

00:19:43,409 --> 00:19:41,770

hits which are false targets it's pretty

498

00:19:44,520 --> 00:19:43,419

good and then someone actually threw

499

00:19:45,630 --> 00:19:44,530

their targeting pod out there and there

500

00:19:46,799 --> 00:19:45,640

was something there because you can't

501
00:19:48,840 --> 00:19:46,809
hide from the targeting pod if you've

502
00:19:50,370 --> 00:19:48,850
got any heat signature and that's what

503
00:19:52,710 --> 00:19:50,380
really started this but they've been

504
00:19:54,870 --> 00:19:52,720
seen by many people as far as on the

505
00:19:56,850 --> 00:19:54,880
radar and there's been a couple that

506
00:19:58,770 --> 00:19:56,860
have seen visual because one guy almost

507
00:20:00,600 --> 00:19:58,780
hit one it was just sitting there this

508
00:20:02,850 --> 00:20:00,610
is recent this is real reasons this

509
00:20:04,560 --> 00:20:02,860
within the last five years did they

510
00:20:06,480 --> 00:20:04,570
describe these things as conventional

511
00:20:08,549 --> 00:20:06,490
aircraft or what how did they describe

512
00:20:09,960 --> 00:20:08,559
these things they almost hit there they

513
00:20:12,510 --> 00:20:09,970

describe it as well the one that almost

514

00:20:15,539 --> 00:20:12,520

got hit it was like a clear beach ball

515

00:20:18,539 --> 00:20:15,549

sphere with a cube inside so the little

516

00:20:20,159 --> 00:20:18,549

apex is each corner hit the cube so I

517

00:20:21,510 --> 00:20:20,169

don't know if it's like a you know is it

518

00:20:24,409 --> 00:20:21,520

a beach ball or is it like a force field

519

00:20:27,299 --> 00:20:24,419

I don't know there's something around

520

00:20:28,470 --> 00:20:27,309

they never they never this is this is

521

00:20:30,899 --> 00:20:28,480

kind of what's prompting I think they're

522

00:20:32,310 --> 00:20:30,909

getting heat from other avenues of the

523

00:20:34,049 --> 00:20:32,320

government because of what happened with

524

00:20:37,029 --> 00:20:34,059

our incident that

525

00:20:42,060 --> 00:20:37,039

you know hindsight being 20/20 which is

526

00:20:44,020 --> 00:20:42,070

how I live my life yeah

527

00:20:46,570 --> 00:20:44,030

price should have done something about

528

00:20:49,090 --> 00:20:46,580

it you know maybe put a little effort

529

00:20:50,560 --> 00:20:49,100

into this if not to go figure out what

530

00:20:53,799 --> 00:20:50,570

can come in and penetrate a battle group

531

00:20:55,240 --> 00:20:53,809

like that but God just what if we what

532

00:20:56,350 --> 00:20:55,250

if we can harness that technology what

533

00:20:57,700 --> 00:20:56,360

if you can reverse-engineer that

534

00:21:00,220 --> 00:20:57,710

technology very much what bob was

535

00:21:01,539 --> 00:21:00,230

talking about to go can we do this cuz a

536

00:21:05,680 --> 00:21:01,549

technology that would do that would

537

00:21:07,930 --> 00:21:05,690

change change everything we do I work

538

00:21:10,480 --> 00:21:07,940

with a guy he's a friend of mine it was

539

00:21:11,279 --> 00:21:10,490

like employee number 11 at SpaceX he's

540

00:21:14,049 --> 00:21:11,289

not there anymore

541

00:21:15,250 --> 00:21:14,059

and I go hey you know and they're having

542

00:21:16,600 --> 00:21:15,260

a meeting you guys are all happy you can

543

00:21:18,220 --> 00:21:16,610

land that little rocket pack on the pad

544

00:21:19,500 --> 00:21:18,230

and reuse it they go yeah I go he had

545

00:21:22,750 --> 00:21:19,510

one of these things that's all obsolete

546

00:21:24,279 --> 00:21:22,760

all of it so the other question is can a

547

00:21:26,649 --> 00:21:24,289

kind of human body withstand those

548

00:21:29,409 --> 00:21:26,659

forces that remains to be you know

549

00:21:31,539 --> 00:21:29,419

something that accelerates you know

550

00:21:34,330 --> 00:21:31,549

there's people would say no but then you

551
00:21:35,649 --> 00:21:34,340
go well what if what if you could or you

552
00:21:38,799 --> 00:21:35,659
just start the acceleration a little

553
00:21:40,870 --> 00:21:38,809
slower you know in the deceleration your

554
00:21:44,409 --> 00:21:40,880
conversation last night with Lazarre was

555
00:21:47,950 --> 00:21:44,419
a little bit about the idea of the

556
00:21:49,299 --> 00:21:47,960
gravity insulation that if something

557
00:21:51,250 --> 00:21:49,309
could move with that kind of inertia

558
00:21:52,840 --> 00:21:51,260
even the physical matter of the craft

559
00:21:54,370 --> 00:21:52,850
itself probably couldn't withstand a

560
00:21:56,919 --> 00:21:54,380
ping-pong ball like hitting against wall

561
00:21:58,390 --> 00:21:56,929
coming back with that fast right so

562
00:22:00,370 --> 00:21:58,400
there's something going on with these

563
00:22:05,380 --> 00:22:00,380

propulsion systems it's outside of our

564

00:22:06,820 --> 00:22:05,390

scope oh yeah but you know when you had

565

00:22:09,940 --> 00:22:06,830

to see the look on our face after we saw

566

00:22:11,649 --> 00:22:09,950

it so you watch something like that and

567

00:22:13,510 --> 00:22:11,659

you go oh and then you watch it you come

568

00:22:15,100 --> 00:22:13,520

up from it's hard enough to just be

569

00:22:17,110 --> 00:22:15,110

hanging out down low and then just start

570

00:22:18,490 --> 00:22:17,120

climbing up it will you know it takes a

571

00:22:20,020 --> 00:22:18,500

while to get you know normally we you

572

00:22:22,419 --> 00:22:20,030

know if we're going that slow like if we

573

00:22:24,310 --> 00:22:22,429

could hover we can't then if you ever

574

00:22:25,810 --> 00:22:24,320

seen anyone seen a Harrier demo the

575

00:22:27,340 --> 00:22:25,820

Marines we're cus it's our when they

576

00:22:28,690 --> 00:22:27,350

start to take off it kind of takes it a

577

00:22:31,360 --> 00:22:28,700

minute and it kind of does this and then

578

00:22:33,190 --> 00:22:31,370

it starts to accelerate up that's a lot

579

00:22:35,320 --> 00:22:33,200

of energy those airplanes are light

580

00:22:38,890 --> 00:22:35,330

loaded they don't have a full combat

581

00:22:40,690 --> 00:22:38,900

load so there's a lot going on so when

582

00:22:42,130 --> 00:22:40,700

you look at something that can just I'm

583

00:22:44,230 --> 00:22:42,140

gonna come up and check yeah you go

584

00:22:47,230 --> 00:22:44,240

I'm impressed matter of fact I came back

585

00:22:48,669 --> 00:22:47,240

and my XO looks at me and he goes

586

00:22:50,260 --> 00:22:48,679

standing there and he says that's my

587

00:22:52,660 --> 00:22:50,270

number two guy I was the number one guy

588

00:22:55,030 --> 00:22:52,670

so if you watch dr. evil I was number

589

00:22:58,840 --> 00:22:55,040

one he was number two then he became

590

00:23:01,060 --> 00:22:58,850

number one so he looks I mean he says

591

00:23:04,330 --> 00:23:01,070

hey what do you think that was and I go

592

00:23:06,310 --> 00:23:04,340

oh no but I want to fly it you know it

593

00:23:07,570 --> 00:23:06,320

was pretty cool let me ask you about

594

00:23:09,220 --> 00:23:07,580

that what you think it was too because

595

00:23:10,450 --> 00:23:09,230

you know we you know in private we can

596

00:23:12,520 --> 00:23:10,460

talk about it and we know you're

597

00:23:14,950 --> 00:23:12,530

speculating but just your opinion your

598

00:23:17,320 --> 00:23:14,960

opinion is matters to me it matters to

599

00:23:19,270 --> 00:23:17,330

the audience you know is this something

600

00:23:22,630 --> 00:23:19,280

that humans could have created this

601
00:23:27,790 --> 00:23:22,640
craft you saw so if you to ask me in

602
00:23:29,500 --> 00:23:27,800
2004 I probably would win you know you

603
00:23:33,000 --> 00:23:29,510
don't know what they're doing and I

604
00:23:35,730 --> 00:23:33,010
don't ask because I really don't care

605
00:23:38,020 --> 00:23:35,740
but I would go Wow

606
00:23:39,730 --> 00:23:38,030
keeping something like that a technology

607
00:23:42,160 --> 00:23:39,740
that advanced hidden for fifteen years

608
00:23:43,480 --> 00:23:42,170
you know I not listen to Bob's questions

609
00:23:47,410 --> 00:23:43,490
and I totally agree with what he's

610
00:23:49,180 --> 00:23:47,420
saying but you can keep secrets but

611
00:23:52,360 --> 00:23:49,190
eventually they leak out and I'll just

612
00:23:54,160 --> 00:23:52,370
use the 117 before you know the 117 was

613
00:23:56,980 --> 00:23:54,170

around four years before it was

614

00:23:58,750 --> 00:23:56,990

acknowledged and then there was pictures

615

00:24:00,940 --> 00:23:58,760

of it in Germany you know those little

616

00:24:02,290 --> 00:24:00,950

grainy shots and then the Air Force came

617

00:24:03,910 --> 00:24:02,300

out and acknowledged that we had this

618

00:24:06,760 --> 00:24:03,920

thing and they started using it more so

619

00:24:11,740 --> 00:24:06,770

you can you can you can hide stuff for a

620

00:24:13,450 --> 00:24:11,750

period of time but eventually the rumors

621

00:24:15,490 --> 00:24:13,460

are gonna come out that you're gonna

622

00:24:18,490 --> 00:24:15,500

start to to see something like this and

623

00:24:20,500 --> 00:24:18,500

after 15 years you know we're still

624

00:24:22,150 --> 00:24:20,510

pumping diesel fuel and jet engines and

625

00:24:23,830 --> 00:24:22,160

sucking air and blowing it out the back

626
00:24:26,580 --> 00:24:23,840
to make us go and I go man if you have

627
00:24:29,770 --> 00:24:26,590
this self-driving cars

628
00:24:31,480 --> 00:24:29,780
Tesla because you don't have to go like

629
00:24:32,830 --> 00:24:31,490
super fast if you have something that

630
00:24:34,870 --> 00:24:32,840
manipulates that you could just cruise

631
00:24:36,520 --> 00:24:34,880
all around you know you have this little

632
00:24:39,010 --> 00:24:36,530
reactor in your car and you just you

633
00:24:43,620 --> 00:24:39,020
know no output everyone wants a green

634
00:24:49,320 --> 00:24:45,900
no one throw rocks at me I know I'm up

635
00:24:52,020 --> 00:24:49,330
here but for something like this you

636
00:24:53,490 --> 00:24:52,030
know no one's gonna pay while I live in

637
00:24:54,510 --> 00:24:53,500
New Hampshire as she's four dollars a

638
00:24:57,900 --> 00:24:54,520

gallon for gas because you live in

639

00:24:59,370 --> 00:24:57,910

California you know no one would have to

640

00:25:02,460 --> 00:24:59,380

get their own gas pumped here because

641

00:25:03,420 --> 00:25:02,470

you wouldn't need it so it would change

642

00:25:06,930 --> 00:25:03,430

it would literally think about it would

643

00:25:09,600 --> 00:25:06,940

change the world for mankind 2007 Harry

644

00:25:12,000 --> 00:25:09,610

Reid working with the some folks at the

645

00:25:14,160 --> 00:25:12,010

DIA gets interested in this subject

646

00:25:15,690 --> 00:25:14,170

enough to where he initiates a program

647

00:25:18,660 --> 00:25:15,700

he gets some other senators on board

648

00:25:20,430 --> 00:25:18,670

they have a program some funding and for

649

00:25:22,290 --> 00:25:20,440

a couple of years at least there was

650

00:25:24,870 --> 00:25:22,300

research into this and on a wider

651
00:25:27,090 --> 00:25:24,880
version of topics front years Lou

652
00:25:29,700 --> 00:25:27,100
Elizondo had his own slice of a study a

653
00:25:31,710 --> 00:25:29,710
tip looking at nuts and bolts flying

654
00:25:33,930 --> 00:25:31,720
saucers encounters with military units

655
00:25:35,820 --> 00:25:33,940
and then it sort of went away we have

656
00:25:37,470 --> 00:25:35,830
reported and we have read in other news

657
00:25:39,420 --> 00:25:37,480
reports that Congress is now interested

658
00:25:42,060 --> 00:25:39,430
that the congressional staffers

659
00:25:44,880 --> 00:25:42,070
closed-door briefings with pilots with

660
00:25:46,740 --> 00:25:44,890
witnesses and that now elected members

661
00:25:48,120 --> 00:25:46,750
of Congress are looking at it without

662
00:25:50,250 --> 00:25:48,130
crossing a line or violating

663
00:25:52,890 --> 00:25:50,260

incompetence can you speak about that in

664

00:25:55,560 --> 00:25:52,900

general terms or say whatever you know

665

00:26:01,850 --> 00:25:55,570

about what that process is and where it

666

00:26:08,250 --> 00:26:01,860

might lead yeah I will this is a secret

667

00:26:10,830 --> 00:26:08,260

that's a joke yes that is true I have

668

00:26:13,650 --> 00:26:10,840

been asked I have went to Washington and

669

00:26:15,420 --> 00:26:13,660

I have talked to people I will not get

670

00:26:19,410 --> 00:26:15,430

into specifics who who I talk to because

671

00:26:22,170 --> 00:26:19,420

that is between me and them there is an

672

00:26:24,270 --> 00:26:22,180

interest in this at very high levels I

673

00:26:25,830 --> 00:26:24,280

think you're seeing that with what's the

674

00:26:26,790 --> 00:26:25,840

what two weeks ago the Navy came out so

675

00:26:29,280 --> 00:26:26,800

they're changing the reporting

676

00:26:31,200 --> 00:26:29,290

procedures I'm not going to post on

677

00:26:34,290 --> 00:26:31,210

Facebook that my job is done and I've

678

00:26:39,990 --> 00:26:34,300

been successful that's sarcasm that

679

00:26:41,550 --> 00:26:40,000

someone else but there are people I know

680

00:26:45,630 --> 00:26:41,560

for a fact there were two of us that

681

00:26:48,740 --> 00:26:45,640

went and talked to people and we've done

682

00:26:53,100 --> 00:26:48,750

it multiple times different people so

683

00:26:55,260 --> 00:26:53,110

yes this is going on yes there are

684

00:26:55,860 --> 00:26:55,270

people that think this is very important

685

00:27:00,600 --> 00:26:55,870

too

686

00:27:03,780 --> 00:27:00,610

cat they think that it's worth the money

687

00:27:06,030 --> 00:27:03,790

I personally laugh you know it was Harry

688

00:27:08,160 --> 00:27:06,040

Bree got her senator we got twenty two

689

00:27:10,560 --> 00:27:08,170

million dollars over four years right

690

00:27:14,340 --> 00:27:10,570

there are five years five years is four

691

00:27:16,250 --> 00:27:14,350

point four million dollars a year you

692

00:27:19,940 --> 00:27:16,260

guys seen the defense budget this year

693

00:27:22,520 --> 00:27:19,950

over seven hundred billion dollars

694

00:27:24,750 --> 00:27:22,530

that's like me tossing you a penny

695

00:27:26,940 --> 00:27:24,760

that's about what it is in that budget

696

00:27:29,549 --> 00:27:26,950

because I'm not rich so Penny's a lot

697

00:27:31,260 --> 00:27:29,559

but it's it's in the rounding error and

698

00:27:33,120 --> 00:27:31,270

people freaked out that oh my god you

699

00:27:36,450 --> 00:27:33,130

spent 4.4 million dollars a year at the

700

00:27:38,370 --> 00:27:36,460

Pentagon doing a tip and I go I applaud

701
00:27:39,450 --> 00:27:38,380
him four point four million dollars you

702
00:27:42,180 --> 00:27:39,460
probably a lot you probably got your

703
00:27:44,370 --> 00:27:42,190
money's worth and the fact that it

704
00:27:46,380 --> 00:27:44,380
started it ran for what five years it

705
00:27:51,450 --> 00:27:46,390
was over supposedly in 2012

706
00:27:56,070 --> 00:27:51,460
I talked to Lou in like 2016 he was

707
00:27:57,930 --> 00:27:56,080
still to Pentagon you do the math so

708
00:28:01,950 --> 00:27:57,940
usually we're talking about the program

709
00:28:03,419 --> 00:28:01,960
has it ended I would say I don't know I

710
00:28:07,200 --> 00:28:03,429
know I won't speculate I want the

711
00:28:09,390 --> 00:28:07,210
government does I'll say this having

712
00:28:12,870 --> 00:28:09,400
been a lot of time most of my adult life

713
00:28:14,549 --> 00:28:12,880

in a military we never stopped doing

714

00:28:18,090 --> 00:28:14,559

anything until someone physically tells

715

00:28:20,220 --> 00:28:18,100

us to stop I never worried about budget

716

00:28:22,440 --> 00:28:20,230

never worried about anything they tell

717

00:28:25,980 --> 00:28:22,450

you to do it you do it you find a way to

718

00:28:28,820 --> 00:28:25,990

get it done so Lewis very much like I am

719

00:28:30,990 --> 00:28:28,830

he's got a very interesting background

720

00:28:34,410 --> 00:28:31,000

for what he's been able to do

721

00:28:36,180 --> 00:28:34,420

he calls it like it is he speak for him

722

00:28:37,650 --> 00:28:36,190

he'll pray L at me but I'm speaking for

723

00:28:39,360 --> 00:28:37,660

him cuz we've had this you know he talks

724

00:28:41,640 --> 00:28:39,370

about this why he left his job cuz I

725

00:28:43,049 --> 00:28:41,650

asked him when he left and it was he

726

00:28:45,180 --> 00:28:43,059

felt that the political appointees

727

00:28:47,160 --> 00:28:45,190

between him and the Secretary madis

728

00:28:49,290 --> 00:28:47,170

[h__\h] I know him general he was

729

00:28:53,640 --> 00:28:49,300

actually my senior marine when I was

730

00:28:54,960 --> 00:28:53,650

enlisted he felt that the that it was

731

00:28:56,940 --> 00:28:54,970

being filtered so the word wasn't

732

00:28:58,680 --> 00:28:56,950

getting up to the secretary to make the

733

00:29:01,590 --> 00:28:58,690

appropriate decisions and sometimes the

734

00:29:04,650 --> 00:29:01,600

best way to speak is with your feet any

735

00:29:06,900 --> 00:29:04,660

left and now you'll see him on TV on the

736

00:29:13,830 --> 00:29:06,910

31st at 10 o'clock on History Channel

737

00:29:15,480 --> 00:29:13,840

that's a decimal pitch so yeah I think

738

00:29:15,900 --> 00:29:15,490

it's important like what do you have to

739

00:29:17,340 --> 00:29:15,910

lose

740

00:29:19,320 --> 00:29:17,350

would you guys spend twenty two million

741

00:29:21,030 --> 00:29:19,330

dollars over five years to maybe find

742

00:29:23,250 --> 00:29:21,040

something that you would do change the

743

00:29:24,690 --> 00:29:23,260

way we do with life what do you mean by

744

00:29:26,160 --> 00:29:24,700

that what what could happen if we could

745

00:29:29,130 --> 00:29:26,170

understand this technology that you

746

00:29:30,720 --> 00:29:29,140

observed well let's just start with

747

00:29:33,390 --> 00:29:30,730

transportation that would pretty much

748

00:29:34,770 --> 00:29:33,400

change because if you can do now take

749

00:29:37,590 --> 00:29:34,780

what I'm talking about what I saw

750

00:29:40,560 --> 00:29:37,600

because when I saw when I saw the Bob's

751
00:29:43,470 --> 00:29:40,570
the Bob Lazar movie that Jeremy did and

752
00:29:45,270 --> 00:29:43,480
a lot of footage it to George shot when

753
00:29:48,720 --> 00:29:45,280
I watch it there's two things that come

754
00:29:50,070 --> 00:29:48,730
to me all right first of all is when he

755
00:29:52,080 --> 00:29:50,080
talks about the propulsion system and

756
00:29:53,820 --> 00:29:52,090
how these things would move I'm like

757
00:29:55,410 --> 00:29:53,830
well that would make total sense because

758
00:29:56,460 --> 00:29:55,420
you saw in there where he describes you

759
00:29:57,750 --> 00:29:56,470
know put a bowling ball in the middle of

760
00:29:59,010 --> 00:29:57,760
the bed just sits there push on the

761
00:30:00,720 --> 00:29:59,020
outside of the bed create a void the

762
00:30:03,230 --> 00:30:00,730
bowling ball moves you look at that you

763
00:30:06,300 --> 00:30:03,240

go well that that makes a lot of sense

764

00:30:07,800 --> 00:30:06,310

the number the second thing that I would

765

00:30:09,900 --> 00:30:07,810

say that really caught me I called

766

00:30:11,550 --> 00:30:09,910

Jeremy on this is because there's a lot

767

00:30:14,600 --> 00:30:11,560

of non-believers and I won't get into my

768

00:30:19,530 --> 00:30:14,610

own personal beliefs on everything but

769

00:30:22,620 --> 00:30:19,540

like me one he doesn't like talking and

770

00:30:26,670 --> 00:30:22,630

number two he's not making anything on

771

00:30:29,910 --> 00:30:26,680

it so what's your motivation just ask

772

00:30:32,340 --> 00:30:29,920

yourself that what's the motivation and

773

00:30:34,590 --> 00:30:32,350

really besides the fact you know and Eve

774

00:30:35,820 --> 00:30:34,600

you can get he can speak for himself on

775

00:30:37,920 --> 00:30:35,830

why and I know he was up here talking

776

00:30:39,030 --> 00:30:37,930

about it but ask that those are the two

777

00:30:40,830 --> 00:30:39,040

things that hit me the first I'm like

778

00:30:42,450 --> 00:30:40,840

God I called Jeremy I said man he sounds

779

00:30:44,520 --> 00:30:42,460

just like I am when I talk about this

780

00:30:47,540 --> 00:30:44,530

it's just like kind of it is what it is

781

00:30:50,850 --> 00:30:47,550

here's what I saw he doesn't try and

782

00:30:52,440 --> 00:30:50,860

embellish like oh yeah I was in there I

783

00:30:54,450 --> 00:30:52,450

saw the alien bodies they were actually

784

00:30:57,270 --> 00:30:54,460

propping them up in the seats removing

785

00:30:59,850 --> 00:30:57,280

them like puppets no or hey they were

786

00:31:01,380 --> 00:30:59,860

walking around getting me coffee he

787

00:31:02,820 --> 00:31:01,390

doesn't do that he's he flat-out tells

788

00:31:03,810 --> 00:31:02,830

you no I didn't see that I read

789

00:31:05,910 --> 00:31:03,820

documents but I don't know if they're

790

00:31:09,450 --> 00:31:05,920

real but he tells you exactly what he

791

00:31:10,950 --> 00:31:09,460

knew so I'm not telling you exactly I'll

792

00:31:12,750 --> 00:31:10,960

tell you what I'm skeptical on but you

793

00:31:14,310 --> 00:31:12,760

know and because I talked to the guys on

794

00:31:17,640 --> 00:31:14,320

the Princeton and the CEO after that was

795

00:31:20,400 --> 00:31:17,650

a good friend of mine so I kind of got

796

00:31:21,690 --> 00:31:20,410

that and the fact that you know because

797

00:31:23,700 --> 00:31:21,700

get to the men in suits thing right now

798

00:31:27,330 --> 00:31:23,710

so that's the other one men in suits

799

00:31:31,140 --> 00:31:27,340

showed up so between us there's about

800

00:31:34,130 --> 00:31:31,150

6,000 people between the two ships of

801
00:31:37,320 --> 00:31:34,140
all of them I was about in the top 20 in

802
00:31:41,070 --> 00:31:37,330
terms of rank yeah and responsibilities

803
00:31:44,070 --> 00:31:41,080
so I would think that if someone's going

804
00:31:46,770 --> 00:31:44,080
to show up in suits to discuss this and

805
00:31:48,840 --> 00:31:46,780
tell us not to talk and I'm the guy that

806
00:31:51,020 --> 00:31:48,850
chased it that I'm probably the first

807
00:31:54,480 --> 00:31:51,030
person they're gonna come and talk to

808
00:31:57,090 --> 00:31:54,490
call me egotistical but I'm just saying

809
00:32:05,130 --> 00:31:57,100
they're probably gonna do that and it

810
00:32:07,200 --> 00:32:05,140
never happened ever no one signed an NDA

811
00:32:08,820 --> 00:32:07,210
that you know up or was asked to sign an

812
00:32:10,260 --> 00:32:08,830
NDA you know no it's funny though people

813
00:32:12,030 --> 00:32:10,270

thought we did like a good friend of

814

00:32:13,440 --> 00:32:12,040

mine who used to work for me who gave me

815

00:32:14,490 --> 00:32:13,450

the airplane comic that he saved for all

816

00:32:15,540 --> 00:32:14,500

these years I'm the New York Times he's

817

00:32:17,610 --> 00:32:15,550

like dude I knew this would come back

818

00:32:21,240 --> 00:32:17,620

because you guys signed an NDA I wrote

819

00:32:23,460 --> 00:32:21,250

him back I'm like we didn't like Tanya

820

00:32:27,540 --> 00:32:23,470

when this hit my friends I had a buddy

821

00:32:31,470 --> 00:32:27,550

of mine he was on safari in Tanzania and

822

00:32:33,510 --> 00:32:31,480

I start getting texts dude I'm on safari

823

00:32:37,680 --> 00:32:33,520

in Tanzania and you were all over my

824

00:32:40,440 --> 00:32:37,690

phone and I like to quote it up as so I

825

00:32:45,210 --> 00:32:40,450

got this bucket list trend on Google

826

00:32:46,950 --> 00:32:45,220

check Twitter check and I don't even

827

00:32:52,890 --> 00:32:46,960

have a Twitter account but there's a

828

00:32:54,390 --> 00:32:52,900

hashtag David flavor so yeah it was so

829

00:32:55,530 --> 00:32:54,400

all the people that came out like dude I

830

00:32:56,220 --> 00:32:55,540

remember you told me that story we're

831

00:32:59,700 --> 00:32:56,230

sitting in a bar

832

00:33:01,110 --> 00:32:59,710

cuz that's usually find me really I'm

833

00:33:03,630 --> 00:33:01,120

not that bad and my wife's probably

834

00:33:05,190 --> 00:33:03,640

rolling her eyes right now but no it was

835

00:33:08,700 --> 00:33:05,200

it wasn't a shock but here's the funny

836

00:33:11,100 --> 00:33:08,710

story you guys are like this so my

837

00:33:13,050 --> 00:33:11,110

mother-in-law when we first started

838

00:33:15,660 --> 00:33:13,060

dating we actually went to high school

839

00:33:18,290 --> 00:33:15,670

prom together so we've been together but

840

00:33:23,580 --> 00:33:18,300

we have our 30 year anniversary in June

841

00:33:24,960 --> 00:33:23,590

yeah yeah I married my mother-in-law's

842

00:33:28,759 --> 00:33:24,970

daughter

843

00:33:32,369 --> 00:33:28,769

okay let's be clear that makes sense so

844

00:33:33,690 --> 00:33:32,379

so yeah so I first met her I used to

845

00:33:35,159 --> 00:33:33,700

always joke with my wife we were dating

846

00:33:36,690 --> 00:33:35,169

at the time cuz her mom always had like

847

00:33:39,119 --> 00:33:36,700

the National Enquirer and all that stuff

848

00:33:41,430 --> 00:33:39,129

men in black the hot sheets it's the

849

00:33:42,930 --> 00:33:41,440

best information so she would ask me all

850

00:33:46,009 --> 00:33:42,940

this so when I started flying for the

851
00:33:49,619 --> 00:33:46,019
Navy she'd be like you ever seen UFOs no

852
00:33:54,810 --> 00:33:49,629
you ever seen UFOs no and this went on

853
00:33:57,109 --> 00:33:54,820
for years and then it stopped she

854
00:34:00,989 --> 00:33:57,119
probably shouldn't have stopped asking

855
00:34:03,509 --> 00:34:00,999
so the incident happens in 2004 and she

856
00:34:05,249 --> 00:34:03,519
hasn't asked me and I don't tell anyone

857
00:34:11,119 --> 00:34:05,259
I mean I barely gave the whole detailed

858
00:34:17,460 --> 00:34:11,129
story to my wife and kids so November

859
00:34:20,520 --> 00:34:17,470
2017 Thanksgiving I know the New York

860
00:34:22,889 --> 00:34:20,530
Times articles coming out I'm gonna have

861
00:34:24,299 --> 00:34:22,899
to divulge so we're all sitting there

862
00:34:25,829 --> 00:34:24,309
and everyone leaves you know like my

863
00:34:29,129 --> 00:34:25,839

brother-in-law has a hole and so it's

864

00:34:30,839 --> 00:34:29,139

just my wife and I and I think my son

865

00:34:32,159 --> 00:34:30,849

was with us and my mother-in-law and

866

00:34:36,059 --> 00:34:32,169

father-in-law were sitting around a

867

00:34:38,639 --> 00:34:36,069

little table and I go hey remember when

868

00:34:40,139 --> 00:34:38,649

you used to ask me about UFOs and she

869

00:34:41,399 --> 00:34:40,149

just kind of looks at me because my

870

00:34:43,799 --> 00:34:41,409

father-in-law would always be one of

871

00:34:47,309 --> 00:34:43,809

these too early you got to ask him all

872

00:34:49,230 --> 00:34:47,319

that stuff so I go well

873

00:34:52,409 --> 00:34:49,240

there's gonna be this article comes out

874

00:34:56,400 --> 00:34:52,419

in the New York Times cuz I chased a UFO

875

00:35:05,460 --> 00:34:56,410

and she immediate goal dyou

876

00:35:08,130 --> 00:35:05,470

so true story true story so it's it's

877

00:35:10,620 --> 00:35:08,140

it's it's I'll just tell you because I

878

00:35:16,920 --> 00:35:10,630

you know this is my third 15 minutes of

879

00:35:19,440 --> 00:35:16,930

fame you don't want one two's bad three

880

00:35:21,450 --> 00:35:19,450

is no and I would never want to be a

881

00:35:23,940 --> 00:35:21,460

Hollywood movie star ever he still

882

00:35:26,340 --> 00:35:23,950

thinks this is going away every month he

883

00:35:28,740 --> 00:35:26,350

tells me aren't people sick of this I've

884

00:35:30,840 --> 00:35:28,750

told my story you know we talk about

885

00:35:31,280 --> 00:35:30,850

something else and it's not gonna go

886

00:35:33,960 --> 00:35:31,290

away

887

00:35:36,380 --> 00:35:33,970

part of what bob has had to do over 30

888

00:35:39,000 --> 00:35:36,390

years with George is to untwist the

889

00:35:40,800 --> 00:35:39,010

fabrications and the lies from a very

890

00:35:41,430 --> 00:35:40,810

simple straightforward story in a lot of

891

00:35:43,730 --> 00:35:41,440

ways

892

00:35:47,310 --> 00:35:43,740

same with commando favor I want to thank

893

00:35:51,030 --> 00:35:47,320

Dave for coming to talk with you for the

894

00:36:01,010 --> 00:35:51,040

first and only time as he said thank you

895

00:36:06,320 --> 00:36:04,220

and I just want to give a kind of final

896

00:36:07,850 --> 00:36:06,330

thoughts of you know to George as well

897

00:36:10,970 --> 00:36:07,860

pass it over to him

898

00:36:13,430 --> 00:36:10,980

my kind of final thought here is one of

899

00:36:15,890 --> 00:36:13,440

the first times I really broke the sound

900

00:36:19,850 --> 00:36:15,900

barrier with you about what you think

901
00:36:21,590 --> 00:36:19,860
what you think you saw I just I would

902
00:36:23,540 --> 00:36:21,600
love for today for people to see this

903
00:36:25,430 --> 00:36:23,550
around the world and people saying oh it

904
00:36:27,050 --> 00:36:25,440
could be this it could be that no here's

905
00:36:29,660 --> 00:36:27,060
commander David Faber sitting right here

906
00:36:31,310 --> 00:36:29,670
he told you his story direct what he saw

907
00:36:34,280 --> 00:36:31,320
as a trained observer and one of the top

908
00:36:36,140 --> 00:36:34,290
badass fighter pilots on our planet what

909
00:36:38,300 --> 00:36:36,150
he engaged so if you deny that

910
00:36:41,810 --> 00:36:38,310
information that's your problem not ours

911
00:36:43,760 --> 00:36:41,820
anymore he has spoken now so so what I

912
00:36:45,109 --> 00:36:43,770
just like to say is when I asked you and

913
00:36:46,670 --> 00:36:45,119

we broke that sound barrier of what

914

00:36:49,270 --> 00:36:46,680

we're really talking about here you said

915

00:36:51,680 --> 00:36:49,280

to me after a long uncomfortable pause

916

00:36:55,100 --> 00:36:51,690

Jeremy have you ever watched

917

00:36:56,630 --> 00:36:55,110

Independence Day well I have with my

918

00:36:58,160 --> 00:36:56,640

kids because I asked you what do you

919

00:37:00,500 --> 00:36:58,170

tell your kids about this you know what

920

00:37:03,290 --> 00:37:00,510

are you what you saw a technology so far

921

00:37:04,760 --> 00:37:03,300

advanced it's inconceivable that it's

922

00:37:06,950 --> 00:37:04,770

something created as far as we

923

00:37:09,890 --> 00:37:06,960

understand by human technology it

924

00:37:11,359 --> 00:37:09,900

appears to be distorting gravity time

925

00:37:12,109 --> 00:37:11,369

space this thing is bouncing around like

926

00:37:15,170 --> 00:37:12,119

a ping-pong ball

927

00:37:16,940 --> 00:37:15,180

you chased it you chased it how does

928

00:37:18,590 --> 00:37:16,950

that affect you how does it affect

929

00:37:20,120 --> 00:37:18,600

speaking with your wife how does it

930

00:37:21,590 --> 00:37:20,130

affect you with your with your kids has

931

00:37:24,890 --> 00:37:21,600

it affected you as as a human how you

932

00:37:29,930 --> 00:37:24,900

look at yourself on this earth man my

933

00:37:32,290 --> 00:37:29,940

kids are extremely sarcastic and both

934

00:37:33,920 --> 00:37:32,300

very smart and their mom raised him well

935

00:37:38,030 --> 00:37:33,930

so when they're together

936

00:37:39,740 --> 00:37:38,040

like I get brutalized like I walked in

937

00:37:41,210 --> 00:37:39,750

the door after doing Tucker Carlson and

938

00:37:43,130 --> 00:37:41,220

I didn't get one foot in the door and

939

00:37:45,590 --> 00:37:43,140

the memes were flying in and the jokes

940

00:37:49,910 --> 00:37:45,600

were coming because I am sober and

941

00:37:52,210 --> 00:37:49,920

believable so how does it affect me I

942

00:37:54,950 --> 00:37:52,220

don't know I'm the same guy that I was

943

00:37:55,910 --> 00:37:54,960

growing up in Toledo Ohio people that

944

00:37:58,970 --> 00:37:55,920

know me are going to yeah you're the

945

00:38:02,270 --> 00:37:58,980

same guy kind of a smart aleck that's a

946

00:38:03,859 --> 00:38:02,280

nice way of saying it if I say my kids

947

00:38:08,750 --> 00:38:03,869

got it from their mother but she says

948

00:38:10,040 --> 00:38:08,760

not so fast no it's it's you know I out

949

00:38:12,280 --> 00:38:10,050

of all of it I've met some really cool

950

00:38:19,790 --> 00:38:15,110

I've got a lot of offers that I usually

951
00:38:22,940 --> 00:38:19,800
turn down so you know and the reason I'm

952
00:38:24,950 --> 00:38:22,950
here is this guy right here he he sent

953
00:38:27,110 --> 00:38:24,960
me video from the parade last year these

954
00:38:31,100 --> 00:38:27,120
two guys like oh that like it was pretty

955
00:38:32,990 --> 00:38:31,110
fun he goes you got to go and I go well

956
00:38:35,120 --> 00:38:33,000
let me think about it and then I was

957
00:38:36,620 --> 00:38:35,130
like and I was off now I was on as often

958
00:38:38,960 --> 00:38:36,630
and they're like you can bring your wife

959
00:38:40,040 --> 00:38:38,970
and I'm like oh that helps sell it and

960
00:38:41,240 --> 00:38:40,050
of course I was even getting on the

961
00:38:42,680 --> 00:38:41,250
airplane to come here I'm thinking man I

962
00:38:44,750 --> 00:38:42,690
got so much stuff to do around my house

963
00:38:46,420 --> 00:38:44,760

I'm taking a whole weekend but it's been

964

00:38:48,260 --> 00:38:46,430

really fun it's been a great opportunity

965

00:38:51,320 --> 00:38:48,270

but I wanted to close with this one

966

00:38:53,510 --> 00:38:51,330

thing so I was asked you know what do

967

00:38:56,000 --> 00:38:53,520

you think it is and and I've said this I

968

00:39:00,050 --> 00:38:56,010

don't think I don't think we developed

969

00:39:02,510 --> 00:39:00,060

the technology I'll just say that and I

970

00:39:06,170 --> 00:39:02,520

asked my astrophysics prof once when I

971

00:39:07,700 --> 00:39:06,180

was in college I asked her I said hey do

972

00:39:12,800 --> 00:39:07,710

you believe in extraterrestrial life and

973

00:39:15,230 --> 00:39:12,810

she said no being the prodding kind of

974

00:39:17,570 --> 00:39:15,240

pain in the ass that I could be I said

975

00:39:21,440 --> 00:39:17,580

really you don't believe she doesn't I

976

00:39:23,180 --> 00:39:21,450

go it's an infinite universe and as far

977

00:39:25,610 --> 00:39:23,190

as we know there's we can't count them

978

00:39:29,360 --> 00:39:25,620

there's billions and billions of known

979

00:39:31,190 --> 00:39:29,370

stars and I know that because we would

980

00:39:33,020 --> 00:39:31,200

fly night-vision goggles which amplify

981

00:39:34,580 --> 00:39:33,030

light and you turn all the lights down

982

00:39:37,010 --> 00:39:34,590

and go up at about 30,000 feet in the

983

00:39:39,470 --> 00:39:37,020

middle of the Pacific then roll your

984

00:39:42,470 --> 00:39:39,480

head back you can see the entire Milky

985

00:39:44,540 --> 00:39:42,480

Way it's spectacular just so you know

986

00:39:46,340 --> 00:39:44,550

you can live through me but it's it's

987

00:39:47,960 --> 00:39:46,350

incredible you can actually see

988

00:39:49,790 --> 00:39:47,970

satellites going over you can see a

989

00:39:51,520 --> 00:39:49,800

movement so you sit back there and you

990

00:39:55,780 --> 00:39:51,530

look and you look at all that and you go

991

00:39:58,640 --> 00:39:55,790

if we're the only thing this is it earth

992

00:40:00,680 --> 00:39:58,650

it's pretty lonely I just want you to

993

00:40:05,090 --> 00:40:00,690

think about that it'd be like you being

994

00:40:08,120 --> 00:40:05,100

the only person on the planet it's a lot

995

00:40:09,800 --> 00:40:08,130

of space going to waste so just just put

996

00:40:11,690 --> 00:40:09,810

that in your you know I'm not gonna talk

997

00:40:14,630 --> 00:40:11,700

a little green man or any that stuff I'm

998

00:40:16,970 --> 00:40:14,640

just saying there's a lot out there that

999

00:40:19,430 --> 00:40:16,980

we don't know we can't understand

1000

00:40:22,630 --> 00:40:19,440

explain dark energy we can't explain

1001
00:40:25,510 --> 00:40:22,640
dark matter physicists will admit that

1002
00:40:28,390 --> 00:40:25,520
so just take that we still have a lot to

1003
00:40:31,300 --> 00:40:28,400
learn we are just finishing proving some

1004
00:40:33,550 --> 00:40:31,310
of I'm Stein's theories like proof that

1005
00:40:34,780 --> 00:40:33,560
we can actually see gravity waves you

1006
00:40:35,890 --> 00:40:34,790
know and the stuff that just came out of

1007
00:40:37,810 --> 00:40:35,900
the black holes there's a lot out there

1008
00:40:40,680 --> 00:40:37,820
just just keep that in your hip pocket

1009
00:40:43,420 --> 00:40:40,690
as you all walk out when people question

1010
00:40:46,150 --> 00:40:43,430
do you it's you know if we're gonna be

1011
00:40:48,280 --> 00:40:46,160
open-minded let's think that we're not

1012
00:40:52,960 --> 00:40:48,290
all that or you know let's check our

1013
00:40:55,020 --> 00:40:52,970

hubris you know and go maybe there's

1014

00:40:56,670 --> 00:40:55,030

some other stuff out there

1015

00:41:03,860 --> 00:40:56,680

[Applause]
