

GRAVITATIONAL EFFECT
OF A SPHERICAL DISTRIBUTION
OF MASS

A-Ray

$r \sin \theta$

length is $\rightarrow 2\pi(r \sin \theta)$

$2\pi r^2 \sin \theta d\theta$

1
00:00:08,400 --> 00:00:05,360

[Music]

2
00:00:11,279 --> 00:00:08,410

imagine a place between shadow the

3
00:00:15,989 --> 00:00:11,289

substance the place where the world has

4
00:00:18,840 --> 00:00:15,999

just been not many pass through here

5
00:00:24,660 --> 00:00:18,850

they just tend to get burned up in fact

6
00:00:28,500 --> 00:00:24,670

it is the knowledge was corrosive yeah

7
00:00:30,710 --> 00:00:28,510

an acid the mind can unwrap so you're

8
00:00:35,160 --> 00:00:30,720

gonna want to keep your wits about you

9
00:00:38,069 --> 00:00:35,170

you gotta feel great some patients they

10
00:00:38,939 --> 00:00:38,079

say the secret of the finder sometimes

11
00:00:47,060 --> 00:00:38,949

that's true

12
00:01:05,609 --> 00:00:57,890

[Music]

13
00:01:07,770 --> 00:01:05,619

McMinnville yes yes I haven't outlived

14

00:01:09,029 --> 00:01:07,780

my welcome here thank you again for

15

00:01:11,850 --> 00:01:09,039

having me

16

00:01:13,920 --> 00:01:11,860

guys what an incredible really exciting

17

00:01:14,910 --> 00:01:13,930

weekend just as a fan and I'm very

18

00:01:22,169 --> 00:01:14,920

excited

19

00:01:24,960 --> 00:01:22,179

Bogg Lazar is here we did it man we

20

00:01:28,559 --> 00:01:24,970

flipped the script thanks to Bob for

21

00:01:31,649 --> 00:01:28,569

deciding to tell you his story again we

22

00:01:33,120 --> 00:01:31,659

will have a live Q&A there are specific

23

00:01:34,320 --> 00:01:33,130

things we'll go over you haven't heard

24

00:01:36,690 --> 00:01:34,330

before we're gonna get very specific

25

00:01:39,649 --> 00:01:36,700

today but write really thoughtful

26

00:01:43,919 --> 00:01:39,659

questions you know not manifestos

27

00:01:46,590 --> 00:01:43,929

questions right yes questions and then

28

00:01:48,180 --> 00:01:46,600

we'll do our best to answer them enjoy

29

00:01:52,289 --> 00:01:48,190

the film will be right up here on stage

30

00:01:55,350 --> 00:01:52,299

after and thank you guys this story is

31

00:01:58,130 --> 00:01:55,360

extraordinary especially if it's true

32

00:02:00,620 --> 00:01:58,140

and it all started in the desert

33

00:02:01,970 --> 00:02:00,630

just north of blood finish a local

34

00:02:04,460 --> 00:02:01,980

scientist who's worked at Groom Lake

35

00:02:06,680 --> 00:02:04,470

said to beware top-secret weapon systems

36

00:02:08,570 --> 00:02:06,690

have been tested over the years he has

37

00:02:10,700 --> 00:02:08,580

asked that his identity be shielded

38

00:02:12,260 --> 00:02:10,710

exactly what's going on up there what's

39

00:02:16,370 --> 00:02:12,270

going on up there could be the most

40

00:02:18,980 --> 00:02:16,380

important event in history physical

41

00:02:20,420 --> 00:02:18,990

contact and proof from another another

42

00:02:24,260 --> 00:02:20,430

system another planet and other

43

00:02:25,670 --> 00:02:24,270

intelligence what would happen to you if

44

00:02:29,360 --> 00:02:25,680

the government learned that you were

45

00:02:31,430 --> 00:02:29,370

giving us this information you just want

46

00:02:35,330 --> 00:02:31,440

to stay alive maybe this has been kept

47

00:02:39,350 --> 00:02:35,340

from us for a good reason sir how do we

48

00:02:41,990 --> 00:02:39,360

know you are who you say you are my

49

00:02:43,850 --> 00:02:42,000

name's Bob Lazar I'm known for working

50

00:02:50,630 --> 00:02:43,860

at a classified base and reverse

51
00:03:02,600 --> 00:02:54,800
you are the bat can we ever be made

52
00:03:06,380 --> 00:03:02,610
whole before not believe I have no

53
00:03:09,980 --> 00:03:06,390
motivation to live the science and the

54
00:03:12,680 --> 00:03:09,990
technology can change us the boys look

55
00:03:20,890 --> 00:03:12,690
to the skies for answers

56
00:03:26,449 --> 00:03:23,180
thank you Bob for letting me make the

57
00:03:28,100 --> 00:03:26,459
movie this story spans as you know 30

58
00:03:31,460 --> 00:03:28,110
years so thanks for watching the movie

59
00:03:34,520 --> 00:03:31,470
let's jump directly into it it's been

60
00:03:38,150 --> 00:03:34,530
said by George many times that Bob Lazar

61
00:03:40,190 --> 00:03:38,160
is a reluctant UFO Messiah I want to

62
00:03:42,530 --> 00:03:40,200
hear when you were gonna be put on the

63
00:03:45,050 --> 00:03:42,540

news and you were nervous about your

64
00:03:46,550 --> 00:03:45,060
well being how George Knapp had the tape

65
00:03:48,530 --> 00:03:46,560
and you said okay let's do it

66
00:03:51,229 --> 00:03:48,540
and the second he's putting in that tape

67
00:03:52,910 --> 00:03:51,239
there was a wrestling match you did not

68
00:03:54,920 --> 00:03:52,920
want your name and face out there so

69
00:03:58,070 --> 00:03:54,930
each of you I want to hear your side on

70
00:04:02,180 --> 00:03:58,080
stage before we start the agreement was

71
00:04:06,380 --> 00:04:02,190
that we could film all of this back in

72
00:04:07,130 --> 00:04:06,390
the 80s and that at any time if I change

73
00:04:10,460 --> 00:04:07,140
my mind

74
00:04:11,479 --> 00:04:10,470
George guaranteed me we'll just pull it

75
00:04:14,210 --> 00:04:11,489
that's it

76

00:04:17,330 --> 00:04:14,220

there's no problem so we did film all of

77

00:04:19,430 --> 00:04:17,340

it and things started to get tense and I

78

00:04:21,680 --> 00:04:19,440

began to get worried as time went on and

79

00:04:23,510 --> 00:04:21,690

it finally came to the day where it was

80

00:04:28,520 --> 00:04:23,520

going to be aired on the five o'clock

81

00:04:30,770 --> 00:04:28,530

news if I recall and you know kind of

82

00:04:33,070 --> 00:04:30,780

near the last minute but not the last

83

00:04:35,990 --> 00:04:33,080

minute you know I decided you know what

84

00:04:41,480 --> 00:04:36,000

let's not do it I'm not going to go

85

00:04:46,040 --> 00:04:41,490

public with this and George just said no

86

00:04:50,360 --> 00:04:46,050

we're doing it and so I tried to grab

87

00:04:52,219 --> 00:04:50,370

the tape from George and I think that

88

00:04:54,590 --> 00:04:52,229

that's about all I remember I don't know

89

00:04:56,300 --> 00:04:54,600

where it went after that well I wouldn't

90

00:05:00,840 --> 00:04:56,310

call it a wrestling match it was more of

91

00:05:06,420 --> 00:05:04,110

but just context of that is that 30

92

00:05:08,400 --> 00:05:06,430

years ago this week this Wednesday

93

00:05:09,750 --> 00:05:08,410

marked 30 years since the dentist's

94

00:05:11,700 --> 00:05:09,760

interviewed the anonymous interview and

95

00:05:14,220 --> 00:05:11,710

it's the synchronicity of it with the

96

00:05:15,930 --> 00:05:14,230

anniversary for this festival and the

97

00:05:19,290 --> 00:05:15,940

30th anniversary of that event that

98

00:05:22,260 --> 00:05:19,300

changed our lives and the life of area

99

00:05:24,360 --> 00:05:22,270

51 itself is amazing it's almost like

100

00:05:27,000 --> 00:05:24,370

it's scripted but we did that interview

101
00:05:28,740 --> 00:05:27,010
with with Bob as Dennis I had not met

102
00:05:30,750 --> 00:05:28,750
him it was a last-minute thing you know

103
00:05:32,670 --> 00:05:30,760
it was somebody had canceled I'd been

104
00:05:33,360 --> 00:05:32,680
hearing about Bob from John Lear for a

105
00:05:35,370 --> 00:05:33,370
long time

106
00:05:38,310 --> 00:05:35,380
somebody had canceled for our 5 o'clock

107
00:05:40,500 --> 00:05:38,320
news and we said called Lear Hank and

108
00:05:42,540 --> 00:05:40,510
your flying saucer guy then Terry 51 guy

109
00:05:44,190 --> 00:05:42,550
can he do an interview I had no idea

110
00:05:46,890 --> 00:05:44,200
what was going on in Bob's life at the

111
00:05:49,500 --> 00:05:46,900
time that he'd ran into some trouble

112
00:05:51,360 --> 00:05:49,510
with his employers and was afraid for

113
00:05:54,120 --> 00:05:51,370

his life and was surprised when they

114

00:05:57,960 --> 00:05:54,130

said yes we put the 5 o'clock interview

115

00:05:59,910 --> 00:05:57,970

on this story comes spilling out all of

116

00:06:01,770 --> 00:05:59,920

our jaws were dropping the general

117

00:06:04,050 --> 00:06:01,780

manager comes running in is that real

118

00:06:05,550 --> 00:06:04,060

the news director calls me in is that

119

00:06:08,310 --> 00:06:05,560

for real the phone's ringing off the

120

00:06:10,290 --> 00:06:08,320

hook all hell's breaking loose we don't

121

00:06:13,200 --> 00:06:10,300

know if it was real but we decided to

122

00:06:15,180 --> 00:06:13,210

find out it so the next weekend we go to

123

00:06:17,010 --> 00:06:15,190

Lear's house to meet Lazar

124

00:06:18,450 --> 00:06:17,020

my own news director and I Bob we're

125

00:06:19,650 --> 00:06:18,460

gonna put him through his paces gonna

126

00:06:21,240 --> 00:06:19,660

ask him bunch of questions I was

127

00:06:23,850 --> 00:06:21,250

background figure out if we believe his

128

00:06:27,030 --> 00:06:23,860

story and we left that meeting on holy

129

00:06:29,430 --> 00:06:27,040

crap this sounds like it's true and if

130

00:06:32,010 --> 00:06:29,440

it is it's the biggest story we're ever

131

00:06:33,510 --> 00:06:32,020

gonna cover it was also the riskiest

132

00:06:35,460 --> 00:06:33,520

story we were ever gonna cover because

133

00:06:37,800 --> 00:06:35,470

our reputations were on the line

134

00:06:39,780 --> 00:06:37,810

individually as journalists we could be

135

00:06:41,580 --> 00:06:39,790

ridicule it can damage the reputation of

136

00:06:44,760 --> 00:06:41,590

the station so we're gonna take our time

137

00:06:46,640 --> 00:06:44,770

and check this out I had to talk Bob it

138

00:06:49,140 --> 00:06:46,650

took me another month to talk Bob into

139

00:06:52,020 --> 00:06:49,150

getting a safety interview going on

140

00:06:53,220 --> 00:06:52,030

camera not to be aired just to have it

141

00:06:54,420 --> 00:06:53,230

in case something happened to him

142

00:06:55,950 --> 00:06:54,430

because it was a lot of strange stuff

143

00:06:57,480 --> 00:06:55,960

going on at the time yeah their threats

144

00:06:59,250 --> 00:06:57,490

are being made to him we were all being

145

00:07:01,500 --> 00:06:59,260

followed around our phones were tapped

146

00:07:04,080 --> 00:07:01,510

it was a very tense time and it's hard

147

00:07:05,640 --> 00:07:04,090

to convey to people 30 years later how

148

00:07:08,190 --> 00:07:05,650

real it was what was real we lived

149

00:07:09,930 --> 00:07:08,200

through it what was going on so we had

150

00:07:11,910 --> 00:07:09,940

that first interview that was our safety

151
00:07:13,500 --> 00:07:11,920
interview and I promised I wouldn't air

152
00:07:16,320 --> 00:07:13,510
it that was just in case Bob

153
00:07:18,180 --> 00:07:16,330
bumped off or something and also as a

154
00:07:20,280 --> 00:07:18,190
measure of protection to let people know

155
00:07:21,570 --> 00:07:20,290
that we've already got the interview you

156
00:07:23,790 --> 00:07:21,580
don't need to kill him anymore we're

157
00:07:25,920 --> 00:07:23,800
still gonna tell this story and then we

158
00:07:28,110 --> 00:07:25,930
did another interview in November for

159
00:07:29,340 --> 00:07:28,120
this series and I remember Bob stole all

160
00:07:31,620 --> 00:07:29,350
that I work at walking out of the

161
00:07:33,300 --> 00:07:31,630
meeting with with Bob and saying gosh we

162
00:07:35,580 --> 00:07:33,310
could do a multi-part series this could

163
00:07:37,890 --> 00:07:35,590

be like five parts or something we end

164

00:07:39,960 --> 00:07:37,900

up doing two weeks each of the stories

165

00:07:41,190 --> 00:07:39,970

were you know typical news story even in

166

00:07:43,620 --> 00:07:41,200

those days hasn't been a half two

167

00:07:46,080 --> 00:07:43,630

minutes these stories were 12 13 14

168

00:07:48,060 --> 00:07:46,090

minutes long and it was the biggest

169

00:07:52,410 --> 00:07:48,070

highest-rated thing that's ever been on

170

00:07:55,560 --> 00:07:52,420

television Las Vegas so more context we

171

00:07:57,510 --> 00:07:55,570

ended up doing a two-week series part 6

172

00:07:58,170 --> 00:07:57,520

is where we're gonna reveal the identity

173

00:08:00,720 --> 00:07:58,180

of Bob

174

00:08:03,480 --> 00:08:00,730

so we're five parts into it setting it

175

00:08:04,200 --> 00:08:03,490

up history of area 51 and ufology and

176

00:08:06,150 --> 00:08:04,210

all that stuff

177

00:08:08,160 --> 00:08:06,160

we've already teased it over the weekend

178

00:08:09,930 --> 00:08:08,170

Monday's the day we're gonna release the

179

00:08:11,610 --> 00:08:09,940

identity of this mysterious Dennis

180

00:08:13,650 --> 00:08:11,620

character and the whole world was trying

181

00:08:16,520 --> 00:08:13,660

to figure out who he was and that was

182

00:08:19,260 --> 00:08:16,530

the day that Bob's in the station and

183

00:08:21,960 --> 00:08:19,270

trying to grab the tape I've changed my

184

00:08:23,340 --> 00:08:21,970

mind cuz it now sorry where to who are

185

00:08:24,960 --> 00:08:23,350

too late into it I mean literally we

186

00:08:27,270 --> 00:08:24,970

were editing right up to the last minute

187

00:08:29,130 --> 00:08:27,280

and I am taking the tape down to the

188

00:08:31,650 --> 00:08:29,140

Edit Bay and I'm gonna run out to this

189

00:08:34,469 --> 00:08:31,660

studio and we started hustling for the

190

00:08:36,330 --> 00:08:34,479

tape and rustle a little bit and I know

191

00:08:38,640 --> 00:08:36,340

it's too late we're too late into it and

192

00:08:40,290 --> 00:08:38,650

ran down the hallway stuck the tape in

193

00:08:47,890 --> 00:08:40,300

the machine and then I went out on set

194

00:08:51,250 --> 00:08:49,360

there's a lot I want to cover today

195

00:08:53,830 --> 00:08:51,260

based on your question so let's

196

00:08:56,140 --> 00:08:53,840

rapid-fire go through them Bob do you

197

00:09:02,590 --> 00:08:56,150

feel that this movie accurately tells

198

00:09:04,540 --> 00:09:02,600

your story yeah it really does I mean I

199

00:09:09,910 --> 00:09:04,550

had a chance to kind of go through it

200

00:09:14,260 --> 00:09:09,920

and Jeremy assured me unlike George that

201
00:09:16,810 --> 00:09:14,270
it is at any point you know if there's

202
00:09:18,580 --> 00:09:16,820
something that I said was inaccurate I

203
00:09:21,370 --> 00:09:18,590
just said it had to be factually

204
00:09:23,860 --> 00:09:21,380
accurate it didn't matter if I like

205
00:09:27,790 --> 00:09:23,870
something or not it just as long as it

206
00:09:30,370 --> 00:09:27,800
was was true but yeah yeah there was it

207
00:09:32,490 --> 00:09:30,380
certainly told the story up to that part

208
00:09:35,530 --> 00:09:32,500
I mean there's a whole lot it didn't say

209
00:09:37,360 --> 00:09:35,540
but that's way too much to fit into her

210
00:09:39,070 --> 00:09:37,370
an hour and a half you know there's like

211
00:09:41,020 --> 00:09:39,080
two hours of bonus materials and I'm

212
00:09:42,670 --> 00:09:41,030
still releasing footage to clarify

213
00:09:46,240 --> 00:09:42,680

certain points but just to be very clear

214

00:09:48,520 --> 00:09:46,250

Bob gave me absolute access to his life

215

00:09:49,750 --> 00:09:48,530

was able to interview his mom you know

216

00:09:51,370 --> 00:09:49,760

his friends that all went through

217

00:09:54,220 --> 00:09:51,380

there's a lot of people that didn't go

218

00:09:56,290 --> 00:09:54,230

on camera couldn't go on camera on

219

00:09:58,570 --> 00:09:56,300

behalf of Bob because of whatever

220

00:10:01,120 --> 00:09:58,580

reasons they had so a lot of the

221

00:10:03,040 --> 00:10:01,130

information I gave you everything I

222

00:10:04,930 --> 00:10:03,050

could in the movie the only restriction

223

00:10:06,940 --> 00:10:04,940

because as I'm looking this you know I'm

224

00:10:09,190 --> 00:10:06,950

looking I got to be honest you got to

225

00:10:10,630 --> 00:10:09,200

look for holes I'm looking at Bob I'm

226

00:10:13,780 --> 00:10:10,640

looking at a story and he gave me

227

00:10:15,640 --> 00:10:13,790

complete access his archives of tapes go

228

00:10:17,500 --> 00:10:15,650

ahead and take him documents cell phone

229

00:10:19,650 --> 00:10:17,510

who do you want to call he was helpful

230

00:10:23,170 --> 00:10:19,660

in every way he could for me to help

231

00:10:26,290 --> 00:10:23,180

clarify his story the only thing he said

232

00:10:29,080 --> 00:10:26,300

was do not twist it more it's got to be

233

00:10:30,430 --> 00:10:29,090

accurate that's it and so hopefully we

234

00:10:31,780 --> 00:10:30,440

achieved that and you got a taste of

235

00:10:36,100 --> 00:10:31,790

that there's a lot more coming through

236

00:10:39,040 --> 00:10:36,110

the bonus material okay this is

237

00:10:40,270 --> 00:10:39,050

interesting one because we have command

238

00:10:42,610 --> 00:10:40,280

a flavor in the audience from real

239

00:10:45,400 --> 00:10:42,620

excited to speak with soon grateful that

240

00:10:47,520 --> 00:10:45,410

you're here commander Bob do you have

241

00:10:51,640 --> 00:10:47,530

any thoughts on the recently revealed

242

00:10:55,870 --> 00:10:51,650

UFO videos and program detailed by the

243

00:10:57,760 --> 00:10:55,880

New York Times so meaning I can give all

244

00:10:59,800 --> 00:10:57,770

the tick-tocking he knows craft you have

245

00:11:01,780 --> 00:10:59,810

any thoughts about your experiences and

246

00:11:03,760 --> 00:11:01,790

and now the acknowledgement of

247

00:11:05,590 --> 00:11:03,770

a reverse engineering program the

248

00:11:07,960 --> 00:11:05,600

attempt to reverse engineer propulsion

249

00:11:10,000 --> 00:11:07,970

system as far as how they're looking at

250

00:11:12,370 --> 00:11:10,010

it but more importantly the gimbal and

251
00:11:14,440 --> 00:11:12,380
the tick-tock the movements of those do

252
00:11:17,590 --> 00:11:14,450
you have any thoughts on that yeah very

253
00:11:20,470 --> 00:11:17,600
much so I mean they they move they

254
00:11:23,200 --> 00:11:20,480
behave I mean they act exactly like a

255
00:11:25,650 --> 00:11:23,210
gravity propelled craft would it's to me

256
00:11:29,110 --> 00:11:25,660
it's a very vindicating thing and

257
00:11:32,200 --> 00:11:29,120
speaking to commander flavor and looking

258
00:11:35,320 --> 00:11:32,210
at the tape and you can see the way you

259
00:11:37,030 --> 00:11:35,330
know a crap move as he mentioned the way

260
00:11:38,410 --> 00:11:37,040
it moves like a ping-pong ball and a cup

261
00:11:39,940 --> 00:11:38,420
and bouncing around something that

262
00:11:41,650 --> 00:11:39,950
doesn't have inertia I me a propulsion

263
00:11:44,200 --> 00:11:41,660

like this is not possible with our

264

00:11:47,530 --> 00:11:44,210

technology and probably won't be for a

265

00:11:50,560 --> 00:11:47,540

very long time but yeah these crafts

266

00:11:53,710 --> 00:11:50,570

seem to operate exactly like the craft

267

00:11:55,900 --> 00:11:53,720

that I worked on so it was I find that

268

00:11:57,640 --> 00:11:55,910

really fascinating I'm I'm anxious to

269

00:11:59,350 --> 00:11:57,650

talk to him some more about exactly what

270

00:12:01,390 --> 00:11:59,360

he saw that people are making that

271

00:12:03,450 --> 00:12:01,400

connection now because look in 1989

272

00:12:06,040 --> 00:12:03,460

George Knapp broke the story Bob

273

00:12:08,110 --> 00:12:06,050

government program attempting to

274

00:12:10,810 --> 00:12:08,120

reverse-engineer UFOs remember we had

275

00:12:13,360 --> 00:12:10,820

been told 1969 that all ended that has

276

00:12:16,030 --> 00:12:13,370

proven to be a lie by the Pentagon now

277

00:12:17,820 --> 00:12:16,040

by their own admission and thanks George

278

00:12:20,980 --> 00:12:17,830

for approving those videos were real

279

00:12:23,380 --> 00:12:20,990

through the right process so now through

280

00:12:25,270 --> 00:12:23,390

the lens of 30 years not only the

281

00:12:27,940 --> 00:12:25,280

reports of how these things move and the

282

00:12:29,800 --> 00:12:27,950

videos of how they move but we're living

283

00:12:33,910 --> 00:12:29,810

in an era where we now know the study of

284

00:12:36,070 --> 00:12:33,920

UFOs has been n is currently live and

285

00:12:38,500 --> 00:12:36,080

strong so we have to account for that

286

00:12:40,330 --> 00:12:38,510

when we look at what Bob has told you

287

00:12:42,010 --> 00:12:40,340

again Bob is just telling you his story

288

00:12:44,530 --> 00:12:42,020

take it or leave it

289

00:12:47,560 --> 00:12:44,540

it's better for him if you leave it

290

00:12:49,480 --> 00:12:47,570

because his life and his wife is great

291

00:12:51,280 --> 00:12:49,490

and he doesn't need more interruption

292

00:12:54,130 --> 00:12:51,290

but he thought it was important enough

293

00:12:56,260 --> 00:12:54,140

to untwist the knots over the years that

294

00:12:59,050 --> 00:12:56,270

have been twisted so that's what you get

295

00:13:00,490 --> 00:12:59,060

hopefully in the movie ok ok this is

296

00:13:02,710 --> 00:13:00,500

interesting what some some of these

297

00:13:05,200 --> 00:13:02,720

little obscure questions that Bob didn't

298

00:13:08,980 --> 00:13:05,210

cover in the film what is the history of

299

00:13:11,650 --> 00:13:08,990

the alien human interactions according

300

00:13:13,450 --> 00:13:11,660

to the briefing documents that you were

301
00:13:14,440 --> 00:13:13,460
able to read when you were there

302
00:13:17,590 --> 00:13:14,450
what is the history

303
00:13:19,780 --> 00:13:17,600
of the kind of human-alien thing like

304
00:13:22,509 --> 00:13:19,790
what did they tell you about the they

305
00:13:26,319 --> 00:13:22,519
didn't tell me anything I have to make a

306
00:13:28,240 --> 00:13:26,329
very big distinction between the

307
00:13:32,319 --> 00:13:28,250
information and technology I had

308
00:13:36,490 --> 00:13:32,329
hands-on and could verify and you know

309
00:13:38,079 --> 00:13:36,500
analyze and briefings that I read that

310
00:13:42,250 --> 00:13:38,089
had to do with other facets of the

311
00:13:43,960 --> 00:13:42,260
project which I can't I can't say if

312
00:13:46,030 --> 00:13:43,970
they were real I don't know why they

313
00:13:49,509 --> 00:13:46,040

would be other information I read in the

314

00:13:51,850 --> 00:13:49,519

briefings was accurate so but there was

315

00:13:54,579 --> 00:13:51,860

some information from other groups

316

00:13:56,470 --> 00:13:54,589

everything was split into so many

317

00:13:59,050 --> 00:13:56,480

different groups that some dealt with

318

00:14:02,170 --> 00:13:59,060

metallurgy some dealt with you know the

319

00:14:04,389 --> 00:14:02,180

origin of the craft and information was

320

00:14:06,970 --> 00:14:04,399

so compartmentalized we couldn't talk to

321

00:14:08,980 --> 00:14:06,980

the other groups which is a really

322

00:14:10,780 --> 00:14:08,990

ridiculous way to have science move

323

00:14:13,720 --> 00:14:10,790

forward you have to have communication

324

00:14:17,019 --> 00:14:13,730

so there the way the military handles

325

00:14:20,139 --> 00:14:17,029

stuff it just doesn't work with research

326

00:14:22,060 --> 00:14:20,149

but they were so concerned about you

327

00:14:24,730 --> 00:14:22,070

know somebody getting more information

328

00:14:28,480 --> 00:14:24,740

than they need they kept everything

329

00:14:31,210 --> 00:14:28,490

separate but in any case they alluded to

330

00:14:34,300 --> 00:14:31,220

the fact that there was there was some

331

00:14:38,740 --> 00:14:34,310

alien human interaction at some point

332

00:14:40,269 --> 00:14:38,750

but that they had been involved with us

333

00:14:42,970 --> 00:14:40,279

for a long time that's the allegation

334

00:14:44,290 --> 00:14:42,980

yeah went back it went back very far the

335

00:14:46,350 --> 00:14:44,300

craft had been here for like ten

336

00:14:48,670 --> 00:14:46,360

thousand years or something like that

337

00:14:51,280 --> 00:14:48,680

right you had mentioned before kind of

338

00:14:53,650 --> 00:14:51,290

new new information that you they were

339

00:14:57,069 --> 00:14:53,660

they gave you the impression that the

340

00:14:58,840 --> 00:14:57,079

craft that you worked on and the other

341

00:15:00,880 --> 00:14:58,850

ones were from some sort of

342

00:15:02,800 --> 00:15:00,890

archaeological that's the impression I

343

00:15:04,809 --> 00:15:02,810

had it was for more of an archeological

344

00:15:06,970 --> 00:15:04,819

archeological dig it wasn't like the

345

00:15:09,340 --> 00:15:06,980

aliens land and said here's one of our

346

00:15:11,259 --> 00:15:09,350

craft you know I think it's just

347

00:15:14,980 --> 00:15:11,269

something I don't know how he came

348

00:15:17,079 --> 00:15:14,990

across it but we did but they were they

349

00:15:19,120 --> 00:15:17,089

were very old I want to get into these

350

00:15:20,889 --> 00:15:19,130

specifics that for 30 years people have

351

00:15:22,809 --> 00:15:20,899

asked and Baba's explained to me but he

352

00:15:24,460 --> 00:15:22,819

just haven't explained to you so let's

353

00:15:26,620 --> 00:15:24,470

get into these little details you

354

00:15:27,670 --> 00:15:26,630

mentioned in the documentary that you

355

00:15:30,850 --> 00:15:27,680

have just mantled

356

00:15:34,329 --> 00:15:30,860

devices from another civilization what

357

00:15:37,660 --> 00:15:34,339

fasteners methods are used to hold it

358

00:15:39,400 --> 00:15:37,670

together screws clips whatever can you

359

00:15:42,610 --> 00:15:39,410

tell us about yeah this is something

360

00:15:44,800 --> 00:15:42,620

that fascinates me I mean back in back

361

00:15:47,920 --> 00:15:44,810

in the 80s there was no 3d printing so

362

00:15:50,530 --> 00:15:47,930

it was it was a complete mystery how

363

00:15:53,350 --> 00:15:50,540

this stuff was put together the craft

364

00:15:56,440 --> 00:15:53,360

itself there is not one single right

365

00:15:58,240 --> 00:15:56,450

angle anywhere and any part of it every

366

00:16:01,650 --> 00:15:58,250

single thing has a radius of curvature

367

00:16:04,210 --> 00:16:01,660

to it and I think in the 80s I said when

368

00:16:07,449 --> 00:16:04,220

talking with George it's as if somebody

369

00:16:09,550 --> 00:16:07,459

made a big model out of wax and then

370

00:16:12,250 --> 00:16:09,560

heated it just a little bit so it all

371

00:16:13,780 --> 00:16:12,260

melted and then let it cool and that's

372

00:16:16,060 --> 00:16:13,790

the way everything looked it had

373

00:16:17,590 --> 00:16:16,070

everything in a smooth interconnecting

374

00:16:20,110 --> 00:16:17,600

look to it there were no fasteners

375

00:16:22,870 --> 00:16:20,120

anywhere there were no seams anywhere

376

00:16:25,540 --> 00:16:22,880

and you know nowadays you think well if

377

00:16:28,060 --> 00:16:25,550

they had some gigantic 3d printer I

378

00:16:30,730 --> 00:16:28,070

guess you know using alien technology

379

00:16:32,140 --> 00:16:30,740

they could make it that way but I didn't

380

00:16:35,110 --> 00:16:32,150

even think of that back then it was just

381

00:16:37,540 --> 00:16:35,120

a mystery how it was but I mean was what

382

00:16:40,120 --> 00:16:37,550

was even more so of a mystery is that

383

00:16:43,980 --> 00:16:40,130

there's no wiring anywhere you know the

384

00:16:46,329 --> 00:16:43,990

components from you know a reactor that

385

00:16:48,430 --> 00:16:46,339

terminates tremendous amounts of power

386

00:16:50,199 --> 00:16:48,440

and the other sub components the

387

00:16:52,420 --> 00:16:50,209

amplifiers and the emitters there's

388

00:16:54,400 --> 00:16:52,430

nothing connecting up and when you

389

00:16:58,240 --> 00:16:54,410

remove them and move them away they

390

00:17:01,510 --> 00:16:58,250

still work it's it's unreal I mean it is

391

00:17:03,190 --> 00:17:01,520

absolute borderline magic so it's it's

392

00:17:05,169 --> 00:17:03,200

nothing that we're gonna you know

393

00:17:07,510 --> 00:17:05,179

duplicate me we're gonna add this to an

394

00:17:09,730 --> 00:17:07,520

f-16 or something it's it's gonna be a

395

00:17:12,819 --> 00:17:09,740

long time before we know what the hell's

396

00:17:14,380 --> 00:17:12,829

going on so George's said to me from the

397

00:17:15,970 --> 00:17:14,390

very beginning look if people don't want

398

00:17:17,980 --> 00:17:15,980

to believe Bob they're gonna find a

399

00:17:19,809 --> 00:17:17,990

thousand ways to discredit him because

400

00:17:22,540 --> 00:17:19,819

that's they don't want to believe you so

401
00:17:24,939 --> 00:17:22,550
go ahead however you're if you deny the

402
00:17:26,260 --> 00:17:24,949
evidence that we have then you're

403
00:17:29,530 --> 00:17:26,270
missing the picture and some of the

404
00:17:31,810 --> 00:17:29,540
greatest skeptics online you know tend

405
00:17:33,640 --> 00:17:31,820
to fixate on these little things in one

406
00:17:34,870 --> 00:17:33,650
question that's been like looming for 30

407
00:17:37,120 --> 00:17:34,880
years and Bob and I talked about it for

408
00:17:39,490 --> 00:17:37,130
like a minute and people are asking well

409
00:17:41,230 --> 00:17:39,500
how did you turn the reactor off Bob if

410
00:17:42,700 --> 00:17:41,240
the reactor is on

411
00:17:44,980 --> 00:17:42,710
and you're putting your hands to it

412
00:17:47,080 --> 00:17:44,990
there's a gravitational field right and

413
00:17:49,570 --> 00:17:47,090

you can't put chance how did you turn it

414

00:17:51,310 --> 00:17:49,580

on or off and that seems to be one of

415

00:17:54,130 --> 00:17:51,320

the things like the people that want to

416

00:17:55,930 --> 00:17:54,140

just not believe just bring up it's not

417

00:17:58,570 --> 00:17:55,940

even in like a nice way just asking a

418

00:18:00,220 --> 00:17:58,580

question so publicly just how did you

419

00:18:02,290 --> 00:18:00,230

turn the reactor on or off Bob

420

00:18:04,810 --> 00:18:02,300

are they implying that it can't be

421

00:18:06,940 --> 00:18:04,820

turned off or yes the implication is

422

00:18:08,560 --> 00:18:06,950

with the gravity field as described

423

00:18:10,900 --> 00:18:08,570

oh so we can't reach it okay that's

424

00:18:12,880 --> 00:18:10,910

that's not how you turn the reactor off

425

00:18:15,340 --> 00:18:12,890

you don't touch the reactor I mean there

426

00:18:18,100 --> 00:18:15,350

there are actually a lot of ways to do

427

00:18:19,780 --> 00:18:18,110

that but the way we most commonly turned

428

00:18:22,360 --> 00:18:19,790

it off is if you take one of the

429

00:18:23,919 --> 00:18:22,370

emitters and rotate it I don't know what

430

00:18:25,840 --> 00:18:23,929

the angle is I think it was like 80

431

00:18:29,230 --> 00:18:25,850

degrees or something but if you rotate

432

00:18:32,430 --> 00:18:29,240

it at the reactor shuts down so they

433

00:18:36,790 --> 00:18:32,440

it's kind of a load sensing reactor and

434

00:18:40,090 --> 00:18:36,800

rotating the emitter to that angle at

435

00:18:42,370 --> 00:18:40,100

magical angle whatever it was that's

436

00:18:44,530 --> 00:18:42,380

like a null position the reactor shuts

437

00:18:46,390 --> 00:18:44,540

down and that's how we turn it on and

438

00:18:49,360 --> 00:18:46,400

off but I mean there's there's not an

439

00:18:51,610 --> 00:18:49,370

on/off switch everything is very fluid

440

00:18:57,310 --> 00:18:51,620

and operates when you really don't think

441

00:19:01,330 --> 00:18:57,320

it will yeah so how has your life or

442

00:19:03,549 --> 00:19:01,340

business how has your life or business

443

00:19:10,030 --> 00:19:03,559

changed since the release of the movie

444

00:19:11,470 --> 00:19:10,040

besides the raid Bob yeah the the raid

445

00:19:13,299 --> 00:19:11,480

was not a good okay let's think about

446

00:19:16,049 --> 00:19:13,309

the goods your life or business change

447

00:19:19,030 --> 00:19:16,059

since the release of the movie or has it

448

00:19:20,830 --> 00:19:19,040

not a lot you know it's a very

449

00:19:22,600 --> 00:19:20,840

specialized business we sell scientific

450

00:19:24,250 --> 00:19:22,610

equipment and you know radioactive

451
00:19:25,810 --> 00:19:24,260
isotopes and chemicals it's not like the

452
00:19:28,510 --> 00:19:25,820
average person goes I need some

453
00:19:31,299 --> 00:19:28,520
strontium 90 and you know they're not

454
00:19:33,520 --> 00:19:31,309
gonna so it really did snot an increase

455
00:19:35,680 --> 00:19:33,530
in business although you gave me some of

456
00:19:38,110 --> 00:19:35,690
the extra movie posters you had and we

457
00:19:40,690 --> 00:19:38,120
put them on the website so we sold some

458
00:19:42,669 --> 00:19:40,700
of the posters but I mean by Bob's

459
00:19:46,840 --> 00:19:42,679
having a sale on strontium 90 that's

460
00:19:49,360 --> 00:19:46,850
right it's a no really it hasn't

461
00:19:52,120 --> 00:19:49,370
affected it at all I mean that's not any

462
00:19:53,340 --> 00:19:52,130
big degree I should say the effect that

463
00:19:56,249 --> 00:19:53,350

that I have seen is

464

00:19:58,620 --> 00:19:56,259

now in light of what is known publicly

465

00:20:01,200 --> 00:19:58,630

around the world about UFOs and about

466

00:20:02,789 --> 00:20:01,210

the projects that people are now not

467

00:20:04,889 --> 00:20:02,799

with their pitchforks in the audience

468

00:20:06,779 --> 00:20:04,899

that they want to hear okay maybe he is

469

00:20:07,950 --> 00:20:06,789

telling us the truth would they want to

470

00:20:10,350 --> 00:20:07,960

hear what you have to say and I think

471

00:20:13,590 --> 00:20:10,360

that's the biggest change you know Bob

472

00:20:16,499 --> 00:20:13,600

is not profiteering off of my film he

473

00:20:17,549 --> 00:20:16,509

wants me to succeed as a filmmaker he

474

00:20:19,499 --> 00:20:17,559

just wanted me to tell his story

475

00:20:21,539 --> 00:20:19,509

accurately I just want to make that

476

00:20:25,049 --> 00:20:21,549

clear because you know the hardest thing

477

00:20:29,220 --> 00:20:25,059

that I see is that people try to vilify

478

00:20:30,899 --> 00:20:29,230

or try to attack the messenger to

479

00:20:32,399 --> 00:20:30,909

dismiss the message and that's what I've

480

00:20:36,119 --> 00:20:32,409

seen and I think it's ridiculous but

481

00:20:38,490 --> 00:20:36,129

here we go next one small stature aside

482

00:20:40,619 --> 00:20:38,500

why else do you think they might have

483

00:20:43,289 --> 00:20:40,629

been called the kids remember they

484

00:20:45,629 --> 00:20:43,299

called they never said aliens they said

485

00:20:46,889 --> 00:20:45,639

they always said the kids yeah yeah yeah

486

00:20:50,639 --> 00:20:46,899

so why do you think they call them the

487

00:20:53,669 --> 00:20:50,649

kids that's just conjecture I mean at

488

00:20:55,799 --> 00:20:53,679

the hey it says small stature aside but

489

00:20:57,779 --> 00:20:55,809

that's the only thing I would grab on to

490

00:21:01,740 --> 00:20:57,789

was just because there were little

491

00:21:05,369 --> 00:21:01,750

creatures obviously but I don't know I

492

00:21:08,340 --> 00:21:05,379

don't know do you think that you are

493

00:21:11,460 --> 00:21:08,350

part of some sort of covert operation

494

00:21:12,779 --> 00:21:11,470

unbeknownst to you at the time so you

495

00:21:14,730 --> 00:21:12,789

know how people say you were there they

496

00:21:16,769 --> 00:21:14,740

showed you it like a movie set they

497

00:21:20,070 --> 00:21:16,779

faked stuff you know do you think you

498

00:21:21,869 --> 00:21:20,080

were part of a court no okay so how do

499

00:21:23,940 --> 00:21:21,879

you know how do you know that what they

500

00:21:26,610 --> 00:21:23,950

showed you wasn't faked and I it's

501
00:21:29,759 --> 00:21:26,620
important for people to hear well first

502
00:21:35,159 --> 00:21:29,769
of all the stuff that I had hands-on

503
00:21:37,980 --> 00:21:35,169
experience with it is impossible to fake

504
00:21:41,369 --> 00:21:37,990
things like that you cannot fake a force

505
00:21:44,490 --> 00:21:41,379
field you cannot fake time slowing down

506
00:21:47,369 --> 00:21:44,500
I mean these things are not possible at

507
00:21:50,039 --> 00:21:47,379
all and probably won't be for hundreds

508
00:21:53,220 --> 00:21:50,049
of years using our technology so that

509
00:21:56,310 --> 00:21:53,230
you know there's there's no doubt about

510
00:21:59,249 --> 00:21:56,320
the technology I was involved in was way

511
00:22:02,340 --> 00:21:59,259
way beyond what humans are capable of at

512
00:22:05,250 --> 00:22:02,350
this point the way the craft was

513
00:22:07,220 --> 00:22:05,260

assembled like I said you know the huge

514

00:22:09,590 --> 00:22:07,230

amounts of power moving around

515

00:22:11,450 --> 00:22:09,600

out enter connections and I mean this is

516

00:22:14,330 --> 00:22:11,460

beyond what Tesla would have ever

517

00:22:17,960 --> 00:22:14,340

dreamed of again these things are not

518

00:22:18,860 --> 00:22:17,970

possible so yeah a movies that that's

519

00:22:20,750 --> 00:22:18,870

ridiculous

520

00:22:22,460 --> 00:22:20,760

Bob has always made that distinction to

521

00:22:23,870 --> 00:22:22,470

me I was like how do you know the

522

00:22:26,360 --> 00:22:23,880

difference between you know the

523

00:22:28,700 --> 00:22:26,370

documents and he goes what I had

524

00:22:30,710 --> 00:22:28,710

hands-on is what I can tell you about

525

00:22:32,930 --> 00:22:30,720

you just said two things I want you to

526

00:22:36,200 --> 00:22:32,940

clarify forcefield

527

00:22:38,450 --> 00:22:36,210

and time just slowing down time or

528

00:22:40,130 --> 00:22:38,460

stopping times time dilation explain

529

00:22:42,080 --> 00:22:40,140

those the force field when we had the

530

00:22:44,510 --> 00:22:42,090

reactor fired up it was one of the

531

00:22:46,159 --> 00:22:44,520

things that Barry my coworker showed me

532

00:22:48,320 --> 00:22:46,169

and I think I mentioned that in the

533

00:22:50,630 --> 00:22:48,330

movie you put your he said put your try

534

00:22:53,480 --> 00:22:50,640

to put your hand on the sphere at the

535

00:22:56,600 --> 00:22:53,490

top and you couldn't it just pushed back

536

00:22:58,730 --> 00:22:56,610

it was like two like poles of a very

537

00:23:02,000 --> 00:22:58,740

large magnet and you know without having

538

00:23:03,830 --> 00:23:02,010

a metal hand it was it was an amazing

539

00:23:05,720 --> 00:23:03,840

feeling I mean I was I was really

540

00:23:08,090 --> 00:23:05,730

excited at that point I said oh my god

541

00:23:10,510 --> 00:23:08,100

it's a force field I mean this is this

542

00:23:12,919 --> 00:23:10,520

is awesome

543

00:23:16,370 --> 00:23:12,929

jumping over to the other question the

544

00:23:20,030 --> 00:23:16,380

time dilation when we had the reactor

545

00:23:23,120 --> 00:23:20,040

and the amplifier and emitters set up in

546

00:23:26,270 --> 00:23:23,130

the test bench we did a couple

547

00:23:29,210 --> 00:23:26,280

experiments and one of them was how we

548

00:23:31,370 --> 00:23:29,220

could get a watch to run at different

549

00:23:33,740 --> 00:23:31,380

speeds in the gravitational field so we

550

00:23:36,440 --> 00:23:33,750

actually saw time dilation so it was

551
00:23:38,030 --> 00:23:36,450
really fascinating one of the things I

552
00:23:41,030 --> 00:23:38,040
had mentioned a long time ago to George

553
00:23:43,820 --> 00:23:41,040
he lit a candle and you can see the

554
00:23:46,760 --> 00:23:43,830
flame stopped flickering but it's still

555
00:23:48,350 --> 00:23:46,770
a mitad light which it kind of shouldn't

556
00:23:50,480 --> 00:23:48,360
have so I mean there are lots of

557
00:23:52,760 --> 00:23:50,490
indications that some of our physics

558
00:23:55,039 --> 00:23:52,770
wasn't complete in explaining what was

559
00:23:57,980 --> 00:23:55,049
going on so that's why some of the stuff

560
00:24:01,120 --> 00:23:57,990
is so important that it be released to

561
00:24:03,560 --> 00:24:01,130
the public but I just I don't know

562
00:24:05,930 --> 00:24:03,570
what's happened to this information or

563
00:24:07,880 --> 00:24:05,940

the technology since I left the project

564

00:24:09,380 --> 00:24:07,890

you know Bob and I had discussed many

565

00:24:11,570 --> 00:24:09,390

times over the years

566

00:24:13,700 --> 00:24:11,580

could this be disinformation of some

567

00:24:15,890 --> 00:24:13,710

sort were you shown something and they

568

00:24:18,930 --> 00:24:15,900

assumed that eventually you'd spill the

569

00:24:20,790 --> 00:24:18,940

beans and it serves as a diversion

570

00:24:22,290 --> 00:24:20,800

or cover story for something else that's

571

00:24:24,480 --> 00:24:22,300

going on out there that they wanted to

572

00:24:26,100 --> 00:24:24,490

divert attention away from something

573

00:24:27,750 --> 00:24:26,110

else that was being tested a groom lake

574

00:24:29,850 --> 00:24:27,760

that was the first round of

575

00:24:33,300 --> 00:24:29,860

disinformation accusations sent our way

576

00:24:35,190 --> 00:24:33,310

what would be I know yeah what would be

577

00:24:37,320 --> 00:24:35,200

more classified than flying saucers

578

00:24:39,720 --> 00:24:37,330

that's the person but the other thing is

579

00:24:41,280 --> 00:24:39,730

if somebody did have an idea in mind

580

00:24:42,900 --> 00:24:41,290

that we're gonna put out this flying

581

00:24:45,720 --> 00:24:42,910

saucer story then we're not gonna crush

582

00:24:47,400 --> 00:24:45,730

him and crush his credibility and we'll

583

00:24:48,870 --> 00:24:47,410

distract attention from something else

584

00:24:50,850 --> 00:24:48,880

out there that was kind of a miserable

585

00:24:53,190 --> 00:24:50,860

failure because as a result of Bob's

586

00:24:55,710 --> 00:24:53,200

story every media organization of the

587

00:24:57,600 --> 00:24:55,720

world be two paths area 51's door tens

588

00:24:59,580 --> 00:24:57,610

of thousands of people have gone out

589

00:25:02,070 --> 00:24:59,590

there with binoculars looking in the sky

590

00:25:04,410 --> 00:25:02,080

for whatever it is that's flying out

591

00:25:06,060 --> 00:25:04,420

there every 51 is a really legitimate

592

00:25:08,250 --> 00:25:06,070

national security sight the men and

593

00:25:10,200 --> 00:25:08,260

women who toil and obscurity out there

594

00:25:12,120 --> 00:25:10,210

have helped us win the Cold War they've

595

00:25:14,250 --> 00:25:12,130

protected our country they do great and

596

00:25:16,470 --> 00:25:14,260

important work and they don't I mean

597

00:25:18,330 --> 00:25:16,480

this is not a good thing to have so much

598

00:25:19,890 --> 00:25:18,340

attention focused on that facility it's

599

00:25:21,660 --> 00:25:19,900

still important they still do important

600

00:25:23,370 --> 00:25:21,670

work so if somebody came up with a plan

601
00:25:25,380 --> 00:25:23,380
let's put out a flying saucer story to

602
00:25:28,710 --> 00:25:25,390
divert attention away from the ex

603
00:25:30,840 --> 00:25:28,720
project man they they got sent to to

604
00:25:33,780 --> 00:25:30,850
Alaska or something and because that was

605
00:25:35,280 --> 00:25:33,790
a really bad idea and again bob has

606
00:25:37,740 --> 00:25:35,290
always made a distinction between the

607
00:25:38,970 --> 00:25:37,750
technology that he had hands-on and the

608
00:25:42,530 --> 00:25:38,980
stuff that he read because some of that

609
00:25:44,550 --> 00:25:42,540
is pretty wild stuff and it fed into

610
00:25:46,230 --> 00:25:44,560
narratives that were floating around in

611
00:25:48,330 --> 00:25:46,240
the UFO world at the time we'd met

612
00:25:49,740 --> 00:25:48,340
secret treaties with aliens and we've

613
00:25:52,170 --> 00:25:49,750

given them permission to abduct people

614

00:25:53,880 --> 00:25:52,180

and they've genetically engineered us he

615

00:25:55,860 --> 00:25:53,890

doesn't know if that's true and he

616

00:25:58,050 --> 00:25:55,870

doesn't know exactly why he was shown

617

00:25:59,850 --> 00:25:58,060

that information and we've discussed it

618

00:26:02,100 --> 00:25:59,860

a bunch of times you know it's possible

619

00:26:04,650 --> 00:26:02,110

that maybe that was an added little

620

00:26:06,210 --> 00:26:04,660

bonus that they put in there just to fly

621

00:26:10,170 --> 00:26:06,220

it up the flagpole and see what happens

622

00:26:12,080 --> 00:26:10,180

but big secrets can be kept big secrets

623

00:26:14,760 --> 00:26:12,090

are kept that was one of the arguments

624

00:26:16,680 --> 00:26:14,770

about us tackling this series back then

625

00:26:19,080 --> 00:26:16,690

is that nothing this big could be kept

626

00:26:20,790 --> 00:26:19,090

secret well I will ask commander Faber

627

00:26:23,340 --> 00:26:20,800

about that later today whether big

628

00:26:26,550 --> 00:26:23,350

secrets can be kept because they can be

629

00:26:28,530 --> 00:26:26,560

you know 1969 Project Blue Book ended we

630

00:26:30,450 --> 00:26:28,540

didn't know until December 2017 or at

631

00:26:32,370 --> 00:26:30,460

least the public didn't know that they

632

00:26:34,740 --> 00:26:32,380

had an ongoing state you

633

00:26:36,300 --> 00:26:34,750

Oh study that it was going on that

634

00:26:37,980 --> 00:26:36,310

millions of dollars are being spent that

635

00:26:39,330 --> 00:26:37,990

a lot of people working on it and we've

636

00:26:41,460 --> 00:26:39,340

learned sense that there are other

637

00:26:43,140 --> 00:26:41,470

classified projects along the same line

638

00:26:44,520 --> 00:26:43,150

that we still don't know the names of

639

00:26:46,710 --> 00:26:44,530

when you don't know who's involved and

640

00:26:48,960 --> 00:26:46,720

what their focus is so secrets can and

641

00:26:50,430 --> 00:26:48,970

are kept so I want to keep with your

642

00:26:51,510 --> 00:26:50,440

questions to honor the fact that you

643

00:26:53,820 --> 00:26:51,520

wrote them I can't get through all of

644

00:26:56,610 --> 00:26:53,830

them but I do want to bring something up

645

00:27:00,120 --> 00:26:56,620

right now the raid the FBI raid there's

646

00:27:02,010 --> 00:27:00,130

recently released agency assist reports

647

00:27:03,870 --> 00:27:02,020

and I just want to tell you my

648

00:27:06,960 --> 00:27:03,880

experience I make this film

649

00:27:10,500 --> 00:27:06,970

people accused me of fabricating the

650

00:27:13,260 --> 00:27:10,510

raid to dramatize my movie I made it up

651

00:27:16,110 --> 00:27:13,270

I dealt with that for months they said

652

00:27:17,970 --> 00:27:16,120

Bob's wife joy was this was the FBI

653

00:27:20,520 --> 00:27:17,980

agent that you saw the photo of the back

654

00:27:22,980 --> 00:27:20,530

of I mean just crazy stuff so there I am

655

00:27:25,200 --> 00:27:22,990

one day defending that I'm a documentary

656

00:27:28,020 --> 00:27:25,210

filmmaker I'm just I don't need to share

657

00:27:29,700 --> 00:27:28,030

it with you I'm trying to document and

658

00:27:32,550 --> 00:27:29,710

share with you what I'm experiencing and

659

00:27:35,280 --> 00:27:32,560

seeing so there I am defending that next

660

00:27:38,220 --> 00:27:35,290

day a friend of mine he was able hours

661

00:27:40,950 --> 00:27:38,230

before us to get a local agency assist

662

00:27:44,010 --> 00:27:40,960

report we were unable to get the FBI

663

00:27:46,140 --> 00:27:44,020

report Bob said there was a warrant you

664

00:27:47,700 --> 00:27:46,150

guys I saw it upside down but you know

665

00:27:49,740 --> 00:27:47,710

they didn't hand it to me and we're

666

00:27:51,960 --> 00:27:49,750

thinking well we can't find it so we get

667

00:27:54,840 --> 00:27:51,970

this agency assist report and then like

668

00:27:56,760 --> 00:27:54,850

the next day I'm defending something

669

00:27:59,130 --> 00:27:56,770

else people are saying oh now it's

670

00:28:02,010 --> 00:27:59,140

prosaic it's just prosaic why there was

671

00:28:04,620 --> 00:28:02,020

so much law enforcement multiple agency

672

00:28:06,510 --> 00:28:04,630

wasn't the first time Bob that people

673

00:28:08,990 --> 00:28:06,520

came to Bob's place of business I said

674

00:28:11,940 --> 00:28:09,000

we were surveilled we have our own

675

00:28:13,890 --> 00:28:11,950

reasons to understand that the report

676

00:28:17,700 --> 00:28:13,900

comes out I thought there you go it

677

00:28:21,060 --> 00:28:17,710

proves what I said in my documentary it

678

00:28:23,550 --> 00:28:21,070

proves the scope the scale the forensic

679

00:28:27,660 --> 00:28:23,560

truck the surveillance and I'm like oh

680

00:28:30,660 --> 00:28:27,670

now I can relax on Twitter not the case

681

00:28:32,850 --> 00:28:30,670

it is my belief and Bob's and George's

682

00:28:34,650 --> 00:28:32,860

that they were there for 1:15 and we

683

00:28:36,480 --> 00:28:34,660

have very specific reasons that I can't

684

00:28:38,480 --> 00:28:36,490

prove yet to you but we have specific

685

00:28:42,660 --> 00:28:38,490

reasons to believe that's the case I

686

00:28:45,900 --> 00:28:42,670

want to hear from Bob what was the

687

00:28:50,130 --> 00:28:45,910

experience I want to hear your personal

688

00:28:52,800 --> 00:28:50,140

experience it was swarmed with over 24

689

00:28:55,110 --> 00:28:52,810

individuals who's from what I count but

690

00:28:56,280 --> 00:28:55,120

to came up to out a door to came up to

691

00:28:59,240 --> 00:28:56,290

you with something in their hand they

692

00:29:03,660 --> 00:28:59,250

were coming in anyway were they looking

693

00:29:05,640 --> 00:29:03,670

with hazmat teams no there's no hazmat

694

00:29:07,470 --> 00:29:05,650

okay so tell us tell us your experience

695

00:29:09,540 --> 00:29:07,480

though on this and I'll clarify later

696

00:29:12,300 --> 00:29:09,550

know when they first came in they gave

697

00:29:16,170 --> 00:29:12,310

me the cover story and yeah the place

698

00:29:17,970 --> 00:29:16,180

had 24 or so agents in there it was

699

00:29:19,470 --> 00:29:17,980

shoulder-to-shoulder you had to kind of

700

00:29:22,200 --> 00:29:19,480

move around there were so many people in

701
00:29:23,910 --> 00:29:22,210
there and which already struck me as

702
00:29:26,220 --> 00:29:23,920
being weird as if you guys are just

703
00:29:28,230 --> 00:29:26,230
looking for receipts

704
00:29:32,010 --> 00:29:28,240
what are you why did you bring everyone

705
00:29:33,540 --> 00:29:32,020
here and some of the other underlings

706
00:29:35,040 --> 00:29:33,550
they brought with them just gave me some

707
00:29:37,290 --> 00:29:35,050
paperwork they said yeah we're looking

708
00:29:39,140 --> 00:29:37,300
for you know thallium metal and I said

709
00:29:41,790 --> 00:29:39,150
oh okay I'll get it gave him a little

710
00:29:43,170 --> 00:29:41,800
vial here of thallium metal and I said

711
00:29:44,760 --> 00:29:43,180
is this what you guys have to set an

712
00:29:47,280 --> 00:29:44,770
hour just you can put that away so I

713
00:29:49,920 --> 00:29:47,290

went okay these guys are starting to

714

00:29:52,710 --> 00:29:49,930

section off the building into cubic

715

00:29:55,500 --> 00:29:52,720

meters ioanna holy cow what are you

716

00:29:57,090 --> 00:29:55,510

doing they had everybody else working

717

00:29:59,730 --> 00:29:57,100

down below and then they took me

718

00:30:03,000 --> 00:29:59,740

upstairs we went up there then they had

719

00:30:05,120 --> 00:30:03,010

the guys jump on the computers and tried

720

00:30:08,670 --> 00:30:05,130

to suck everything off of those and

721

00:30:11,820 --> 00:30:08,680

that's when they played me here you know

722

00:30:15,480 --> 00:30:11,830

our conversation which was we were

723

00:30:16,890 --> 00:30:15,490

talking about is where the 115 was

724

00:30:19,200 --> 00:30:16,900

hidden I want to get a little more

725

00:30:21,870 --> 00:30:19,210

specific about that the experience

726

00:30:23,280 --> 00:30:21,880

though they said hey Bob they showed it

727

00:30:25,590 --> 00:30:23,290

behind you to people and there and they

728

00:30:27,960 --> 00:30:25,600

have a upside down obvious warrant from

729

00:30:29,940 --> 00:30:27,970

FB on Doug you know we have a couple of

730

00:30:32,730 --> 00:30:29,950

people coming can we come in so you're

731

00:30:35,070 --> 00:30:32,740

allowing in two people and then all of a

732

00:30:37,980 --> 00:30:35,080

sudden there's about 20 for forensic

733

00:30:40,230 --> 00:30:37,990

collection agents truck multiple

734

00:30:42,690 --> 00:30:40,240

agencies the report the agency assist

735

00:30:44,970 --> 00:30:42,700

reports proves this it also says that

736

00:30:48,150 --> 00:30:44,980

there was a hazmat team you know and the

737

00:30:50,220 --> 00:30:48,160

whole suits hazmat and they cleared the

738

00:30:52,080 --> 00:30:50,230

place to make sure that didn't happen

739

00:30:53,430 --> 00:30:52,090

that didn't happen right so I talked

740

00:30:55,620 --> 00:30:53,440

with Zach about that too because in the

741

00:30:57,330 --> 00:30:55,630

film he just said has that because that

742

00:30:58,500 --> 00:30:57,340

was he just told me out there that's the

743

00:31:00,060 --> 00:30:58,510

word that came to his mind he goes but

744

00:31:02,159 --> 00:31:00,070

it wasn't like that

745

00:31:03,299 --> 00:31:02,169

from what my account that I've heard

746

00:31:06,149 --> 00:31:03,309

from you and Zack

747

00:31:08,700 --> 00:31:06,159

they appeared disinterested with this

748

00:31:10,859 --> 00:31:08,710

basic idea of toxic materials the whole

749

00:31:13,739 --> 00:31:10,869

thing was they wanted to talk to you

750

00:31:15,479 --> 00:31:13,749

upstairs is that correct yeah that's

751
00:31:17,909 --> 00:31:15,489
that's correct they wanted to talk to me

752
00:31:20,249 --> 00:31:17,919
and the other guys all they wanted was a

753
00:31:22,049 --> 00:31:20,259
couple sheets of paper so they did say

754
00:31:25,109 --> 00:31:22,059
to you out the door we're looking for

755
00:31:26,219 --> 00:31:25,119
receipts and an order form from a client

756
00:31:27,180 --> 00:31:26,229
of yours that's what they told you in

757
00:31:30,029 --> 00:31:27,190
there well this is something that

758
00:31:31,769 --> 00:31:30,039
happened like two years ago right we had

759
00:31:34,619 --> 00:31:31,779
already been over all this so it was

760
00:31:37,469 --> 00:31:34,629
clearly just a cover story to come back

761
00:31:39,749 --> 00:31:37,479
in and have access to the property which

762
00:31:41,190 --> 00:31:39,759
is which is our opinion based upon our

763
00:31:43,889 --> 00:31:41,200

experiences but I just wanted you to

764

00:31:46,859 --> 00:31:43,899

hear from Bob the agency assist report

765

00:31:50,039 --> 00:31:46,869

very odd it's very detailed and not only

766

00:31:51,899 --> 00:31:50,049

that Bob's experience of what happened

767

00:31:53,879 --> 00:31:51,909

doesn't jive with what you're reading

768

00:31:55,560 --> 00:31:53,889

and that agency assist report in a lot

769

00:31:58,859 --> 00:31:55,570

of ways now that's a lot of that it's

770

00:32:00,299 --> 00:31:58,869

not is not true we are convinced beyond

771

00:32:03,089 --> 00:32:00,309

a shadow of a doubt that our

772

00:32:05,820 --> 00:32:03,099

conversation was taken in the woods at

773

00:32:08,070 --> 00:32:05,830

his property oh and the the day before

774

00:32:10,799 --> 00:32:08,080

but I just wanted you to hear from Bob

775

00:32:13,139 --> 00:32:10,809

his personal experience of that moment

776
00:32:14,729 --> 00:32:13,149
because every turn we make you know

777
00:32:16,289 --> 00:32:14,739
there's people that just they'll never

778
00:32:19,049 --> 00:32:16,299
believe and they look for anything to

779
00:32:21,599 --> 00:32:19,059
dismiss it or almost worse they just

780
00:32:23,399 --> 00:32:21,609
believe without thinking so well either

781
00:32:25,349 --> 00:32:23,409
way they're welcome to dismiss it and

782
00:32:26,609 --> 00:32:25,359
then they ask me less questions and

783
00:32:29,759 --> 00:32:26,619
that's fine okay

784
00:32:32,399 --> 00:32:29,769
back to back to some details from the

785
00:32:36,029 --> 00:32:32,409
audience have you ever looked at s4 from

786
00:32:38,700 --> 00:32:36,039
a satellite image could you identify it

787
00:32:40,289 --> 00:32:38,710
great question about s4 like could you

788
00:32:42,440 --> 00:32:40,299

see it from a satellite image have you

789

00:32:45,479 --> 00:32:42,450

ever looked for it yeah a lot of times

790

00:32:49,139 --> 00:32:45,489

and I do like to make that distinction

791

00:32:51,479 --> 00:32:49,149

it is not area 51 it is as for area 51

792

00:32:53,460 --> 00:32:51,489

is to the north although a lot of people

793

00:32:55,859 --> 00:32:53,470

relate them together they say as far as

794

00:32:59,129 --> 00:32:55,869

part of the area 51 complex but that

795

00:33:01,379 --> 00:32:59,139

even that gets into some technicalities

796

00:33:03,570 --> 00:33:01,389

there's people say oh I know somebody

797

00:33:05,519 --> 00:33:03,580

that worked up at area 51 there's no

798

00:33:07,560 --> 00:33:05,529

flying saucers or anything like that up

799

00:33:11,549 --> 00:33:07,570

there and they're right there there

800

00:33:12,610 --> 00:33:11,559

isn't it's down at s4 there's only 22

801
00:33:15,460 --> 00:33:12,620
people when I were

802
00:33:17,920 --> 00:33:15,470
there and as far as seeing it from the

803
00:33:19,930 --> 00:33:17,930
air yeah I've seen it many times there's

804
00:33:22,240 --> 00:33:19,940
a lot of people have sent me emails

805
00:33:24,640 --> 00:33:22,250
where they they think they see the

806
00:33:26,530 --> 00:33:24,650
hangar doors at the right angle and yeah

807
00:33:28,180 --> 00:33:26,540
you can see it on Google Earth it's it's

808
00:33:30,880 --> 00:33:28,190
not obvious but you can see the road

809
00:33:33,480 --> 00:33:30,890
that I drove to down from area 51 that's

810
00:33:36,580 --> 00:33:33,490
right flew into and took bus down and

811
00:33:41,590 --> 00:33:36,590
yeah I can point it right out to you in

812
00:33:43,870 --> 00:33:41,600
fact you your buddy John Farhat hired

813
00:33:45,970 --> 00:33:43,880

some time on a Russian satellite to take

814

00:33:48,010 --> 00:33:45,980

a photo of an exact time that used to

815

00:33:49,810 --> 00:33:48,020

take a photo of Papoose Lake the

816

00:33:53,280 --> 00:33:49,820

Americans wouldn't let him do it so he

817

00:33:58,660 --> 00:33:55,840

and he's and he's got the original

818

00:34:01,030 --> 00:33:58,670

negative and on that negative is a there

819

00:34:03,460 --> 00:34:01,040

and they posted it back in the day is is

820

00:34:05,290 --> 00:34:03,470

a circular metallic object hovering

821

00:34:08,230 --> 00:34:05,300

right over the mountain range of pappus

822

00:34:10,240 --> 00:34:08,240

have you guys seen that poster they made

823

00:34:12,369 --> 00:34:10,250

it into a poster yeah it's it's great I

824

00:34:14,649 --> 00:34:12,379

mean they hit it right on the nose it

825

00:34:16,419 --> 00:34:14,659

was awesome right when Bob told them

826

00:34:19,090 --> 00:34:16,429

they should shoot that shot from a

827

00:34:21,550 --> 00:34:19,100

satellite from Russia George Knapp has

828

00:34:22,869 --> 00:34:21,560

said to me before a we've and this is

829

00:34:25,330 --> 00:34:22,879

something that a project I think we're

830

00:34:28,510 --> 00:34:25,340

gonna do together we've learned more

831

00:34:30,909 --> 00:34:28,520

about the US UFO programs from Russia

832

00:34:32,830 --> 00:34:30,919

than we have from the US and I think

833

00:34:35,110 --> 00:34:32,840

that's specifically because George took

834

00:34:38,350 --> 00:34:35,120

a trip during glass nose at Paris troika

835

00:34:40,659 --> 00:34:38,360

and came out with some documents from

836

00:34:42,909 --> 00:34:40,669

the UFO program in Russia which the

837

00:34:46,419 --> 00:34:42,919

world has yet to truly be able to see

838

00:34:50,260 --> 00:34:46,429

and I think we're gonna coming up soon

839

00:34:53,050 --> 00:34:50,270

next project George over my dead body

840

00:34:56,139 --> 00:34:53,060

oh yes yeah we'll do that project

841

00:34:58,150 --> 00:34:56,149

sometime yeah it he's not exaggerating

842

00:35:00,250 --> 00:34:58,160

I went went to Russia I had a unique

843

00:35:01,780 --> 00:35:00,260

opportunity in the early 90s when the

844

00:35:03,510 --> 00:35:01,790

you know they were trying to open up to

845

00:35:05,940 --> 00:35:03,520

the world they were experimenting with

846

00:35:08,410 --> 00:35:05,950

capitalism and democracy glasnost

847

00:35:10,570 --> 00:35:08,420

perestroika I read in New York Times

848

00:35:12,550 --> 00:35:10,580

that the KGB had opened up the Lee

849

00:35:13,900 --> 00:35:12,560

Harvey Oswald file and I thought this

850

00:35:16,810 --> 00:35:13,910

might be the time to go and see if we

851

00:35:19,300 --> 00:35:16,820

could get the UFO files so we did we

852

00:35:21,880 --> 00:35:19,310

worked on it we had a Russian physicist

853

00:35:23,590 --> 00:35:21,890

who had been a national security adviser

854

00:35:24,840 --> 00:35:23,600

to the Russian parliament and to Boris

855

00:35:27,300 --> 00:35:24,850

Yeltsin and we

856

00:35:29,700 --> 00:35:27,310

and him he had been in the United States

857

00:35:32,190 --> 00:35:29,710

a lecturing on nuclear disarmament at

858

00:35:34,230 --> 00:35:32,200

our National Laboratories had nothing to

859

00:35:35,970 --> 00:35:34,240

do when he went back so we hired company

860

00:35:38,370 --> 00:35:35,980

I was working for him and set him up and

861

00:35:39,950 --> 00:35:38,380

said go find people who were in a

862

00:35:42,810 --> 00:35:39,960

position to know about the Russian UFO

863

00:35:46,050 --> 00:35:42,820

studies who have never spoken to

864

00:35:47,610 --> 00:35:46,060

journalists Western or otherwise and let

865

00:35:49,740 --> 00:35:47,620

us know and it took him eight months and

866

00:35:51,930 --> 00:35:49,750

he set it up and I went in 93 to Russia

867

00:35:54,360 --> 00:35:51,940

and I met a guy named Colonel Boris a

868

00:35:56,370 --> 00:35:54,370

calab Ministry of Defense who had been

869

00:35:59,430 --> 00:35:56,380

in charge of this Russian program it was

870

00:36:02,430 --> 00:35:59,440

the largest UFO study probably in in

871

00:36:04,500 --> 00:36:02,440

history and for ten years the every unit

872

00:36:06,720 --> 00:36:04,510

in the vast Soviet military empire at

873

00:36:09,420 --> 00:36:06,730

the time that was ordered to every

874

00:36:12,720 --> 00:36:09,430

anomalous aircraft or ball of light or

875

00:36:14,310 --> 00:36:12,730

UFO or strange object in the sky when

876

00:36:16,680 --> 00:36:14,320

you get those reports from military

877

00:36:18,630 --> 00:36:16,690

personnel fully investigated get

878

00:36:20,310 --> 00:36:18,640

pictures get witness statements put it

879

00:36:22,560 --> 00:36:20,320

all together and send it to one central

880

00:36:25,200 --> 00:36:22,570

location and they did and we were able

881

00:36:27,510 --> 00:36:25,210

to acquire a lot of that information and

882

00:36:29,280 --> 00:36:27,520

interview Colonel Sokolov and basically

883

00:36:31,140 --> 00:36:29,290

he said they were doing the same thing

884

00:36:33,290 --> 00:36:31,150

we're trying to do he said we're we know

885

00:36:35,580 --> 00:36:33,300

that these crafts haven't capabilities

886

00:36:37,500 --> 00:36:35,590

beyond anything that we've got and we

887

00:36:39,960 --> 00:36:37,510

wanted to study this to figure it out so

888

00:36:42,090 --> 00:36:39,970

we could gain an advantage over the u.s.

889

00:36:43,410 --> 00:36:42,100

in terms of stealth capabilities we

890

00:36:45,600 --> 00:36:43,420

wanted to figure out the technology

891

00:36:47,190 --> 00:36:45,610

which as it turns out is the same thing

892

00:36:54,330 --> 00:36:47,200

we've been doing you know trying to

893

00:36:57,510 --> 00:36:54,340

figure it out to be continued Bob back

894

00:36:58,950 --> 00:36:57,520

in 1989 when you were terrified and I

895

00:37:00,750 --> 00:36:58,960

just released a new video on my youtube

896

00:37:01,500 --> 00:37:00,760

talking about that time when you were

897

00:37:05,340 --> 00:37:01,510

scared

898

00:37:07,110 --> 00:37:05,350

you took friends multiple groups three

899

00:37:09,810 --> 00:37:07,120

Wednesday's in a row you said guys

900

00:37:12,750 --> 00:37:09,820

things are really complicated for me

901
00:37:14,820 --> 00:37:12,760
it's one thing to tell you it's another

902
00:37:16,920 --> 00:37:14,830
thing to show you there's this little

903
00:37:19,140 --> 00:37:16,930
place called Papoose Lake it's not area

904
00:37:21,240 --> 00:37:19,150
51 it's south there this obscure

905
00:37:23,580 --> 00:37:21,250
mountain range there's a test flight and

906
00:37:24,630 --> 00:37:23,590
I know when it happens and I'm gonna I'm

907
00:37:27,930 --> 00:37:24,640
gonna show you and you brought friends

908
00:37:29,700 --> 00:37:27,940
out there and you showed them those test

909
00:37:30,870 --> 00:37:29,710
flights as proof to your friends because

910
00:37:32,730 --> 00:37:30,880
you said to me it's one thing telling

911
00:37:34,710 --> 00:37:32,740
someone it's another thing showing

912
00:37:37,650 --> 00:37:34,720
someone right well working there I had

913
00:37:38,850 --> 00:37:37,660

to test flight schedule so that's when I

914

00:37:40,860 --> 00:37:38,860

took it

915

00:37:43,980 --> 00:37:40,870

I mean the majority and my friends at

916

00:37:46,140 --> 00:37:43,990

that time we went out there and you know

917

00:37:48,540 --> 00:37:46,150

the craft came up you know over the

918

00:37:51,420 --> 00:37:48,550

mountain range at the time I indicated

919

00:37:55,200 --> 00:37:51,430

and you know clearly everybody was

920

00:37:57,660 --> 00:37:55,210

amazed we watched it you know do some

921

00:37:59,220 --> 00:37:57,670

amazing maneuvers since we got away with

922

00:38:02,430 --> 00:37:59,230

it you know we did it a couple more

923

00:38:07,050 --> 00:38:02,440

times you know and right up until we got

924

00:38:08,790 --> 00:38:07,060

caught so and George and I have talked

925

00:38:10,800 --> 00:38:08,800

with I think everybody now that was in

926
00:38:13,110 --> 00:38:10,810
those sightings and they don't agree on

927
00:38:15,840 --> 00:38:13,120
most things in life they do agree on one

928
00:38:18,390 --> 00:38:15,850
thing that bob was right he took him out

929
00:38:20,670 --> 00:38:18,400
there and what he showed them they had

930
00:38:25,680 --> 00:38:20,680
never seen anything before like that or

931
00:38:28,230 --> 00:38:25,690
sense so they also filmed it and there

932
00:38:29,910 --> 00:38:28,240
there's a it's an old 80's camera not

933
00:38:32,070 --> 00:38:29,920
like our iPhones be even iPhones you

934
00:38:33,570 --> 00:38:32,080
pointed at dark you get a light however

935
00:38:36,900 --> 00:38:33,580
there's a gentleman in the audience that

936
00:38:39,480 --> 00:38:36,910
did some incredible analysis of Bob's

937
00:38:42,270 --> 00:38:39,490
original footage of the flying saucer

938
00:38:44,400 --> 00:38:42,280

coming up over Papoose Lake with the new

939

00:38:45,810 --> 00:38:44,410

software and analytics that he did it's

940

00:38:49,500 --> 00:38:45,820

it's pretty incredible and he had a

941

00:38:53,010 --> 00:38:49,510

question why does the shape of the craft

942

00:38:56,520 --> 00:38:53,020

in your video change from frame to frame

943

00:38:59,940 --> 00:38:56,530

so radically are we seeing localized

944

00:39:01,890 --> 00:38:59,950

gravity lensing yeah that's exactly what

945

00:39:04,140 --> 00:39:01,900

you're saying because remember there's

946

00:39:05,730 --> 00:39:04,150

three emitters in that craft each

947

00:39:09,080 --> 00:39:05,740

emitter is producing its own

948

00:39:12,840 --> 00:39:09,090

gravitational field out of it and

949

00:39:15,420 --> 00:39:12,850

gravity bends light so it's just like

950

00:39:17,070 --> 00:39:15,430

taking a prism or cut glass ball and

951
00:39:19,560 --> 00:39:17,080
rotating it and you'll see different

952
00:39:21,750 --> 00:39:19,570
facets of light so the same thing

953
00:39:23,880 --> 00:39:21,760
happens as the craft move around and you

954
00:39:25,470 --> 00:39:23,890
see through one gravitational field to

955
00:39:27,360 --> 00:39:25,480
the next the crafts going to look

956
00:39:29,430 --> 00:39:27,370
different so it looks like it's jumping

957
00:39:34,580 --> 00:39:29,440
around or flickering and and that's

958
00:39:39,150 --> 00:39:36,690
you're probably familiar with the M

959
00:39:42,270 --> 00:39:39,160
drive which is that a propulsion device

960
00:39:44,130 --> 00:39:42,280
do you think this technology the emdrive

961
00:39:46,530 --> 00:39:44,140
I'm sorry okay emdrive

962
00:39:50,670 --> 00:39:46,540
do you think this technology is close to

963
00:39:52,410 --> 00:39:50,680

breaking the barrier for space travel no

964

00:39:56,370 --> 00:39:52,420

it's useful but I

965

00:39:58,950 --> 00:39:56,380

I am not that impressed with it I'm

966

00:40:00,839 --> 00:39:58,960

sorry you know it's the hardest things

967

00:40:03,269 --> 00:40:00,849

that I was asked I said Bob Bob look

968

00:40:06,779 --> 00:40:03,279

after all this time you know they've

969

00:40:08,849 --> 00:40:06,789

proven element 115 was fabricated he

970

00:40:10,500 --> 00:40:08,859

looked at me as like yeah of course in

971

00:40:12,450 --> 00:40:10,510

his journal but not the stable version I

972

00:40:14,099 --> 00:40:12,460

talked about there's you know dozens if

973

00:40:16,140 --> 00:40:14,109

not hundreds of isotopes or whatever he

974

00:40:18,269 --> 00:40:16,150

said he was unimpressed with the

975

00:40:20,069 --> 00:40:18,279

fabrication you know even though they

976

00:40:22,829 --> 00:40:20,079

called him when they were doing the

977

00:40:24,509 --> 00:40:22,839

experiments at fabrication you know a

978

00:40:27,329 --> 00:40:24,519

particle accelerator he was unimpressed

979

00:40:30,359 --> 00:40:27,339

the next one I go Bob they just came out

980

00:40:32,460 --> 00:40:30,369

gravity is a wave you're vindicated it's

981

00:40:34,680 --> 00:40:32,470

a wave it's not just a graviton like you

982

00:40:36,329 --> 00:40:34,690

said he goes well Jeremy you know you

983

00:40:40,049 --> 00:40:36,339

think about it I had fifty fifty percent

984

00:40:42,000 --> 00:40:40,059

chance of being right so it's hard to

985

00:40:43,980 --> 00:40:42,010

impress Bob but he's a very skeptical

986

00:40:47,029 --> 00:40:43,990

dude so I think the most pressing

987

00:40:51,990 --> 00:40:47,039

question I saw on all of these cards Bob

988

00:40:58,019 --> 00:40:52,000

what is your favorite pastime that's

989

00:41:00,210 --> 00:40:58,029

actually tough to say I don't know

990

00:41:01,980 --> 00:41:00,220

that's that's a stumper there I can tell

991

00:41:03,809 --> 00:41:01,990

you it's making laser beams and shooting

992

00:41:06,359 --> 00:41:03,819

off rockets come on yep I mean probably

993

00:41:10,470 --> 00:41:06,369

building weird things I guess would be a

994

00:41:13,200 --> 00:41:10,480

pastime blowing stuff up comes to mind

995

00:41:16,349 --> 00:41:13,210

well I fire a technic so I've been yeah

996

00:41:19,589 --> 00:41:16,359

I I've done pyrotechnics since I was 12

997

00:41:22,440 --> 00:41:19,599

so probably probably that or any kind of

998

00:41:27,480 --> 00:41:22,450

technical thing I love building stuff so

999

00:41:29,549 --> 00:41:27,490

I hired to say I I really enjoyed the

1000

00:41:31,259 --> 00:41:29,559

making of the film because the breaks of

1001
00:41:34,140 --> 00:41:31,269
our film were usually blowing things up

1002
00:41:35,789 --> 00:41:34,150
our building lasers or hearing Bob you

1003
00:41:37,380 --> 00:41:35,799
know talk on the phone - you know

1004
00:41:38,970 --> 00:41:37,390
physicist from universities or

1005
00:41:41,370 --> 00:41:38,980
government labs that are asking him

1006
00:41:43,230 --> 00:41:41,380
about you know the the atomic weight of

1007
00:41:44,579 --> 00:41:43,240
you know certain isotopes however

1008
00:41:46,829 --> 00:41:44,589
they're explaining it was above my head

1009
00:41:50,430 --> 00:41:46,839
but just hearing you do your thing my

1010
00:41:52,440 --> 00:41:50,440
goal in my film it was not to prove Bob

1011
00:41:55,170 --> 00:41:52,450
story Bob said from the very beginning I

1012
00:41:57,509 --> 00:41:55,180
I don't have everything to prove to you

1013
00:42:00,180 --> 00:41:57,519

my story that's not why I'm telling you

1014

00:42:03,089 --> 00:42:00,190

I'm telling you to save my own skin and

1015

00:42:04,660 --> 00:42:03,099

I'm also telling you because he believes

1016

00:42:07,059 --> 00:42:04,670

you have a right to know

1017

00:42:10,390 --> 00:42:07,069

take it or leave it he's always been

1018

00:42:12,430 --> 00:42:10,400

like that however however the movie

1019

00:42:14,349 --> 00:42:12,440

after 30 years it's really hard to

1020

00:42:16,569 --> 00:42:14,359

ignore some of the evidence but most

1021

00:42:18,910 --> 00:42:16,579

importantly what I hope you got from my

1022

00:42:21,279 --> 00:42:18,920

film is what I got what I personally got

1023

00:42:23,200 --> 00:42:21,289

getting to know Bob and George told me

1024

00:42:25,329 --> 00:42:23,210

this from day one when he challenged me

1025

00:42:27,940 --> 00:42:25,339

in 2012 to try to get you know the

1026

00:42:30,460 --> 00:42:27,950

Bigfoot of ufology the Elvis born again

1027

00:42:32,799 --> 00:42:30,470

on camera The Reluctant UFO Messiah on

1028

00:42:35,200 --> 00:42:32,809

camera when George challenged me to just

1029

00:42:36,339 --> 00:42:35,210

show you who Bob is to humanize him to

1030

00:42:39,160 --> 00:42:36,349

show you his daily life

1031

00:42:42,160 --> 00:42:39,170

the big question we're all sitting here

1032

00:42:46,329 --> 00:42:42,170

with is he's telling you a story is he

1033

00:42:48,130 --> 00:42:46,339

worthy of your trust that no I that's

1034

00:42:50,319 --> 00:42:48,140

the question that really is the question

1035

00:42:51,970 --> 00:42:50,329

if we can't prove it definitively it's

1036

00:42:53,769 --> 00:42:51,980

telling your story you have to decide is

1037

00:42:55,509 --> 00:42:53,779

he worthy of your trust and and the

1038

00:42:57,670 --> 00:42:55,519

world has changed now and I think I

1039

00:42:59,289 --> 00:42:57,680

would love to hear from George we are

1040

00:43:01,599 --> 00:42:59,299

living in a different world now we're

1041

00:43:04,089 --> 00:43:01,609

living in a world where we're it is now

1042

00:43:06,130 --> 00:43:04,099

admitted there are unknown craft of

1043

00:43:08,140 --> 00:43:06,140

unknown origin flying in our airspace

1044

00:43:10,809 --> 00:43:08,150

with impunity and an increased frequency

1045

00:43:12,190 --> 00:43:10,819

in our own government is not only

1046

00:43:15,819 --> 00:43:12,200

interested now but has been for a long

1047

00:43:18,490 --> 00:43:15,829

time proven so George can you just touch

1048

00:43:20,140 --> 00:43:18,500

upon Bob's story and that well it's a

1049

00:43:21,970 --> 00:43:20,150

really exciting time and things are

1050

00:43:23,799 --> 00:43:21,980

starting to move so fast I mean two

1051

00:43:26,650 --> 00:43:23,809

weeks ago the US Navy comes out with an

1052

00:43:28,299 --> 00:43:26,660

announcement just is astonishing to say

1053

00:43:31,690 --> 00:43:28,309

we're gonna try to make it easier for

1054

00:43:33,819 --> 00:43:31,700

our pilots to report UFOs these

1055

00:43:37,089 --> 00:43:33,829

encounters are increasing there there

1056

00:43:39,579 --> 00:43:37,099

are dangers to aviation there are

1057

00:43:41,230 --> 00:43:39,589

legitimate concerns legitimate reasons

1058

00:43:43,240 --> 00:43:41,240

why we need to start making it easier

1059

00:43:45,220 --> 00:43:43,250

for pilots to talk about it that would

1060

00:43:47,049 --> 00:43:45,230

be unthinkable months ago I think

1061

00:43:49,329 --> 00:43:47,059

commander flavor who we're gonna hear

1062

00:43:53,470 --> 00:43:49,339

from later today probably had a big role

1063

00:43:54,819 --> 00:43:53,480

in that happening in speaking to people

1064

00:43:56,380 --> 00:43:54,829

in Washington and letting them know this

1065

00:43:58,180 --> 00:43:56,390

is going on and the fact that these

1066

00:43:59,980 --> 00:43:58,190

reports keep coming in that there are a

1067

00:44:01,990 --> 00:43:59,990

lot of them that keep coming in now

1068

00:44:04,569 --> 00:44:02,000

dramatic sort of encounters and and

1069

00:44:06,730 --> 00:44:04,579

things that are undeniable and the fact

1070

00:44:10,749 --> 00:44:06,740

that you know we've we've learned a lot

1071

00:44:13,749 --> 00:44:10,759

about a tip and all SAP and you know

1072

00:44:15,460 --> 00:44:13,759

things that that I had been allowed to

1073

00:44:15,980 --> 00:44:15,470

know about but couldn't report for a

1074

00:44:18,500 --> 00:44:15,990

long time

1075

00:44:20,450 --> 00:44:18,510

is spilling out there's so much more

1076

00:44:22,579 --> 00:44:20,460

that's still to come there's there's so

1077

00:44:25,160 --> 00:44:22,589

much more to still to come and I don't

1078

00:44:27,079 --> 00:44:25,170

know how much of it and how soon but

1079

00:44:29,930 --> 00:44:27,089

it's coming you know and and the fact

1080

00:44:32,839 --> 00:44:29,940

that it it's synchronized with Bob story

1081

00:44:36,230 --> 00:44:32,849

and coming full circle 30 years ago he

1082

00:44:38,690 --> 00:44:36,240

comes forward and now Jeremy's film is

1083

00:44:40,160 --> 00:44:38,700

out and and and all at the same time all

1084

00:44:42,710 --> 00:44:40,170

these news events are happening where

1085

00:44:44,390 --> 00:44:42,720

the doors are opening up a little bit I

1086

00:44:46,280 --> 00:44:44,400

mean they're not wide open but they're

1087

00:44:48,260 --> 00:44:46,290

opening up quite a bit and it's an

1088

00:44:50,240 --> 00:44:48,270

exciting time I don't know if it's

1089

00:44:53,150 --> 00:44:50,250

vindication I never felt like we needed

1090

00:44:57,890 --> 00:44:53,160

to be vindicated but yeah it kind of

1091

00:45:00,470 --> 00:44:57,900

feels that way so I want to hit a couple

1092

00:45:02,000 --> 00:45:00,480

things too you know bob has always said

1093

00:45:04,370 --> 00:45:02,010

to me like in private he goes look

1094

00:45:07,880 --> 00:45:04,380

Jeremy I I'm explaining to you the best

1095

00:45:09,230 --> 00:45:07,890

I understood in alien technology I'm

1096

00:45:11,390 --> 00:45:09,240

explaining to you the best it was

1097

00:45:13,280 --> 00:45:11,400

described to me and what I saw you know

1098

00:45:15,440 --> 00:45:13,290

I don't have all the answers I'm sorry

1099

00:45:18,109 --> 00:45:15,450

but I can tell you what I saw what I

1100

00:45:19,490 --> 00:45:18,119

think and one of the things that was

1101

00:45:25,250 --> 00:45:19,500

always really touchy and I just want to

1102

00:45:27,470 --> 00:45:25,260

be straight you know did element 115 was

1103

00:45:29,870 --> 00:45:27,480

the known fuel source for the

1104

00:45:34,520 --> 00:45:29,880

extraterrestrial craft that you worked

1105

00:45:37,040 --> 00:45:34,530

on at one time in 1989 you said that you

1106

00:45:38,990 --> 00:45:37,050

got a piece of element 115 out of Los

1107

00:45:41,060 --> 00:45:39,000

Alamos where as being machined under the

1108

00:45:43,940 --> 00:45:41,070

codename la 1000 you say that in my

1109

00:45:49,540 --> 00:45:43,950

movie you did have a piece of 115 at one

1110

00:45:55,250 --> 00:45:52,640

well what where are you going with this

1111

00:45:58,850 --> 00:45:55,260

well I I'm just I'm just saying the the

1112

00:46:01,370 --> 00:45:58,860

element 115 was the key it is the thing

1113

00:46:02,750 --> 00:46:01,380

that generated that it's the fuel for

1114

00:46:05,240 --> 00:46:02,760

the craft if you want to look at that

1115

00:46:06,320 --> 00:46:05,250

way yeah and it has unique properties oh

1116

00:46:08,000 --> 00:46:06,330

absolutely

1117

00:46:10,690 --> 00:46:08,010

can you explain the unique properties of

1118

00:46:14,300 --> 00:46:10,700

element 115 so that everybody really

1119

00:46:16,040 --> 00:46:14,310

grasps it the way I feel it we were in a

1120

00:46:19,970 --> 00:46:16,050

hundred percent sure how it how it

1121

00:46:22,580 --> 00:46:19,980

worked because you just can't cut open

1122

00:46:26,810 --> 00:46:22,590

the reactor to find out what's going on

1123

00:46:29,450 --> 00:46:26,820

but it looked like the 115 is bombarded

1124

00:46:32,300 --> 00:46:29,460

with radiation and in Purdue and it

1125

00:46:34,430 --> 00:46:32,310

produces a stronger gravitational field

1126
00:46:38,450 --> 00:46:34,440
now the rest of the equipment in the

1127
00:46:40,370 --> 00:46:38,460
craft the reactor it takes that that

1128
00:46:41,150 --> 00:46:40,380
wave that gravitational wave that comes

1129
00:46:43,970 --> 00:46:41,160
off of it

1130
00:46:46,340 --> 00:46:43,980
it routes it throughout the craft in a

1131
00:46:48,710 --> 00:46:46,350
conduit just like microwaves and through

1132
00:46:50,720 --> 00:46:48,720
the skin of the craft it takes that and

1133
00:46:53,000 --> 00:46:50,730
funnels it down through the amplifiers

1134
00:46:55,960 --> 00:46:53,010
and then to the emitters so it seems to

1135
00:46:59,420 --> 00:46:55,970
behave a lot like microwaves do which

1136
00:47:02,450 --> 00:46:59,430
propagate through tuned channels but it

1137
00:47:04,340 --> 00:47:02,460
all came back to one little triangle of

1138
00:47:07,760 --> 00:47:04,350

115 that was the center of the whole

1139

00:47:10,420 --> 00:47:07,770

craft and no I mean we don't know

1140

00:47:14,030 --> 00:47:10,430

everything about it I'm not sure I could

1141

00:47:15,800 --> 00:47:14,040

duplicate me a piece of 115 I'm I'm not

1142

00:47:18,440 --> 00:47:15,810

sure I could do much with it I could

1143

00:47:20,030 --> 00:47:18,450

probably make it explode but I don't

1144

00:47:23,930 --> 00:47:20,040

think I I'm not sure I can make it

1145

00:47:25,730 --> 00:47:23,940

propel anything but you know a lot of it

1146

00:47:27,830 --> 00:47:25,740

was was guesswork - we were just trying

1147

00:47:31,190 --> 00:47:27,840

to do our best educated guesses to come

1148

00:47:34,310 --> 00:47:31,200

up with how this worked and you know our

1149

00:47:36,980 --> 00:47:34,320

number one aim was to see if we could

1150

00:47:40,100 --> 00:47:36,990

duplicate this technology with what we

1151
00:47:42,470 --> 00:47:40,110
had at hand and you know clear across

1152
00:47:45,950 --> 00:47:42,480
the board the answer was no all the time

1153
00:47:49,010 --> 00:47:45,960
so we're talking about a stabilized form

1154
00:47:51,710 --> 00:47:49,020
of element 115 so for example I learned

1155
00:47:53,300 --> 00:47:51,720
this it's not well casing stabilized it

1156
00:47:56,270 --> 00:47:53,310
means you take something I mean you're

1157
00:47:57,950 --> 00:47:56,280
let me clarify so those I learned this

1158
00:48:00,320 --> 00:47:57,960
from Bob and I can hopefully translate

1159
00:48:01,090 --> 00:48:00,330
to you so for example there are 37

1160
00:48:05,890 --> 00:48:01,100
different

1161
00:48:08,890 --> 00:48:05,900
isotopes for gold one is stable it's

1162
00:48:12,300 --> 00:48:08,900
what's on your ring right mr.

1163
00:48:14,620 --> 00:48:12,310

radioactive and yeah decay so the

1164

00:48:16,150 --> 00:48:14,630

versions that have been fabricated by

1165

00:48:17,950 --> 00:48:16,160

slamming particles in a particle

1166

00:48:19,600 --> 00:48:17,960

accelerator and getting maybe four atoms

1167

00:48:21,310 --> 00:48:19,610

at about a million bucks apiece that

1168

00:48:23,890 --> 00:48:21,320

last for two hundred twenty milliseconds

1169

00:48:27,370 --> 00:48:23,900

we're talking about one or two different

1170

00:48:30,190 --> 00:48:27,380

isotopic combinations where there could

1171

00:48:32,410 --> 00:48:30,200

be many many more combinations in fact

1172

00:48:34,690 --> 00:48:32,420

it's predicted by science that there's

1173

00:48:37,540 --> 00:48:34,700

an island of stability right in that

1174

00:48:40,300 --> 00:48:37,550

sweet spot for 115 so what you're

1175

00:48:44,440 --> 00:48:40,310

talking about is stable physical element

1176

00:48:46,300 --> 00:48:44,450

115 220 something grams there was highly

1177

00:48:48,160 --> 00:48:46,310

machined that were used in these craft

1178

00:48:50,590 --> 00:48:48,170

is that correct that's correct look you

1179

00:48:53,560 --> 00:48:50,600

know say you were trying to use gold as

1180

00:48:56,230 --> 00:48:53,570

your as your example I mean say you were

1181

00:48:58,390 --> 00:48:56,240

just trying to fabricate gold you know

1182

00:49:00,520 --> 00:48:58,400

just from atoms I mean would you say

1183

00:49:04,120 --> 00:49:00,530

there were 37 isotopes or something like

1184

00:49:07,900 --> 00:49:04,130

that look you only have a 1 in 37 chance

1185

00:49:11,680 --> 00:49:07,910

of making it so most likely you're gonna

1186

00:49:14,830 --> 00:49:11,690

make unstable isotope after unstable

1187

00:49:18,040 --> 00:49:14,840

isotope until you know one day you fall

1188

00:49:21,610 --> 00:49:18,050

upon the combination that results in a

1189

00:49:23,950 --> 00:49:21,620

stable isotope so yeah they just began

1190

00:49:26,710 --> 00:49:23,960

playing with 115 and just the fact that

1191

00:49:29,950 --> 00:49:26,720

they made you know four atoms of it on

1192

00:49:32,500 --> 00:49:29,960

their first try and it was unstable you

1193

00:49:34,660 --> 00:49:32,510

know that really doesn't tell any story

1194

00:49:37,240 --> 00:49:34,670

you have you've got a long way to go

1195

00:49:39,340 --> 00:49:37,250

before you figure out every combination

1196

00:49:42,490 --> 00:49:39,350

and if one of them is stable

1197

00:49:44,260 --> 00:49:42,500

you'd said back then that you didn't

1198

00:49:46,000 --> 00:49:44,270

think we'd ever be able to make it it

1199

00:49:48,250 --> 00:49:46,010

would be too expensive take too much

1200

00:49:50,890 --> 00:49:48,260

energy to make a stable version that you

1201

00:49:53,170 --> 00:49:50,900

thought and it had to be natural

1202

00:49:55,810 --> 00:49:53,180

wherever we acquired it it was a perform

1203

00:49:57,640 --> 00:49:55,820

pretty snazzy supernova double star

1204

00:50:00,070 --> 00:49:57,650

something like that well I stick by that

1205

00:50:03,880 --> 00:50:00,080

when I say we can't produce it I mean a

1206

00:50:06,280 --> 00:50:03,890

usable quantity for atoms is not not

1207

00:50:08,680 --> 00:50:06,290

visible not useful it it's nothing I

1208

00:50:11,530 --> 00:50:08,690

mean to make to make a gram of it is

1209

00:50:13,230 --> 00:50:11,540

still impossible even the version that

1210

00:50:14,880 --> 00:50:13,240

they made so

1211

00:50:17,340 --> 00:50:14,890

yeah that's the amount of energy and

1212

00:50:20,520 --> 00:50:17,350

time it takes sitting there plugging

1213

00:50:24,090 --> 00:50:20,530

neutrons in is a time consuming

1214

00:50:26,850 --> 00:50:24,100

expensive task so you were told that

1215

00:50:30,090 --> 00:50:26,860

there we had a stockpile of 500 pounds

1216

00:50:32,670 --> 00:50:30,100

of element 115 however in your hand or

1217

00:50:34,530 --> 00:50:32,680

you were able to work with about 200 28

1218

00:50:37,650 --> 00:50:34,540

grams highly machined in this triangular

1219

00:50:40,380 --> 00:50:37,660

formation so you physically saw was it 2

1220

00:50:41,880 --> 00:50:40,390

2000 it was 23 it was 220 something I

1221

00:50:43,620 --> 00:50:41,890

said because I was even I can't remember

1222

00:50:46,980 --> 00:50:43,630

but yeah that's all I have

1223

00:50:49,230 --> 00:50:46,990

okay but even that amount that couldn't

1224

00:50:51,810 --> 00:50:49,240

have been made by any human technology

1225

00:50:54,000 --> 00:50:51,820

oh hell no not even with an hour

1226
00:50:56,070 --> 00:50:54,010
supernova do we think we could I mean it

1227
00:50:58,620 --> 00:50:56,080
had to become as cargo from somewhere

1228
00:51:01,440 --> 00:50:58,630
else is that correct well I mean you

1229
00:51:05,580 --> 00:51:01,450
don't know there might be advanced ways

1230
00:51:08,610 --> 00:51:05,590
of you know arranging atoms and

1231
00:51:10,320 --> 00:51:08,620
fabricating you know elements on it on a

1232
00:51:12,780 --> 00:51:10,330
gigantic scale that we haven't even

1233
00:51:15,930 --> 00:51:12,790
conceived about so the only way I know

1234
00:51:18,060 --> 00:51:15,940
of is you know the energies required and

1235
00:51:21,720 --> 00:51:18,070
pressures and temperatures you know as

1236
00:51:23,970 --> 00:51:21,730
some you know gigantic natural you know

1237
00:51:26,520 --> 00:51:23,980
foundry like guy you know a neutron star

1238
00:51:29,610 --> 00:51:26,530

or exploding supernova something along

1239

00:51:31,800 --> 00:51:29,620

those lines but I don't know look at the

1240

00:51:34,050 --> 00:51:31,810

technology that these guys have I mean

1241

00:51:36,540 --> 00:51:34,060

they nothing said and since they can

1242

00:51:38,850 --> 00:51:36,550

control gravity and they have force

1243

00:51:40,590 --> 00:51:38,860

fields and things I mean they might have

1244

00:51:42,630 --> 00:51:40,600

a machine that can crank this stuff out

1245

00:51:45,840 --> 00:51:42,640

you know like we make plastic but my

1246

00:51:50,610 --> 00:51:45,850

point is humans did humans can humans

1247

00:51:54,420 --> 00:51:50,620

cannot no did not cannot no no not at

1248

00:51:56,820 --> 00:51:54,430

all if humans can't fabricate this and

1249

00:51:59,820 --> 00:51:56,830

you were told this story what's so

1250

00:52:03,360 --> 00:51:59,830

interesting to me is you the first time

1251
00:52:05,040 --> 00:52:03,370
you go to site four and by the way site

1252
00:52:06,600 --> 00:52:05,050
for it's not toxic you're not going to

1253
00:52:08,430 --> 00:52:06,610
die of cancer just being there people

1254
00:52:09,690 --> 00:52:08,440
try to debunk bob story being you can't

1255
00:52:10,620 --> 00:52:09,700
step foot on there too much radiation

1256
00:52:12,750 --> 00:52:10,630
you're gonna die

1257
00:52:16,620 --> 00:52:12,760
I've talked to two employees of area 51

1258
00:52:18,720 --> 00:52:16,630
who have gone on Papoose for extended

1259
00:52:19,890 --> 00:52:18,730
periods of time and they are not sick so

1260
00:52:22,190 --> 00:52:19,900
that's another thing people try to

1261
00:52:25,930 --> 00:52:22,200
debunk with actually one was stopped by

1262
00:52:27,760 --> 00:52:25,940
civilian contractor EG&G

1263
00:52:29,890 --> 00:52:27,770

curity and he was a Navy guy and kind of

1264

00:52:31,780 --> 00:52:29,900

pissed about it and they stopped him if

1265

00:52:33,760 --> 00:52:31,790

so if there's no if there's no facility

1266

00:52:35,589 --> 00:52:33,770

there I'm not sure why he got stopped

1267

00:52:38,140 --> 00:52:35,599

but I got him on record and I will be

1268

00:52:39,430 --> 00:52:38,150

able to release that later one of the

1269

00:52:41,579 --> 00:52:39,440

things about your story that I find

1270

00:52:43,839 --> 00:52:41,589

really interesting your account of it

1271

00:52:46,030 --> 00:52:43,849

Bob didn't believe this was

1272

00:52:48,609 --> 00:52:46,040

extraterrestrial his friends that knew

1273

00:52:50,109 --> 00:52:48,619

him before that I've spoke with said

1274

00:52:51,940 --> 00:52:50,119

that Bob felt bad for people that

1275

00:52:54,970 --> 00:52:51,950

believed in UFOs you know they got to be

1276

00:52:57,250 --> 00:52:54,980

crazy yeah so that's who he was before

1277

00:52:59,740 --> 00:52:57,260

the first time and I want you to tell us

1278

00:53:02,230 --> 00:52:59,750

this feeling the first time he saw the

1279

00:53:05,200 --> 00:53:02,240

craft and the hanger he ran his hand

1280

00:53:08,020 --> 00:53:05,210

along it was supposed to touch it and he

1281

00:53:10,960 --> 00:53:08,030

thought wow everybody that saw five

1282

00:53:13,500 --> 00:53:10,970

saucers it was us it was America that's

1283

00:53:17,020 --> 00:53:13,510

what he thought but I thought that was

1284

00:53:19,480 --> 00:53:17,030

the first time I saw it when they let me

1285

00:53:21,760 --> 00:53:19,490

in through the hangar I thought oh I

1286

00:53:25,450 --> 00:53:21,770

mean this is the new advanced fighter

1287

00:53:29,260 --> 00:53:25,460

we're keeping secret and this explains

1288

00:53:31,800 --> 00:53:29,270

all those crazy UFO sightings and you

1289

00:53:34,780 --> 00:53:31,810

know it all made perfect sense to me

1290

00:53:37,829 --> 00:53:34,790

until you know I got in contact with

1291

00:53:40,300 --> 00:53:37,839

everything until you stepped inside

1292

00:53:41,740 --> 00:53:40,310

walked inside tell us how you walked

1293

00:53:45,069 --> 00:53:41,750

inside because people want to know that

1294

00:53:47,890 --> 00:53:45,079

but that feeling you described of seeing

1295

00:53:49,720 --> 00:53:47,900

everything the size of the seats the

1296

00:53:53,040 --> 00:53:49,730

feeling you had can you explain that to

1297

00:53:55,390 --> 00:53:53,050

everybody like you explained to me yeah

1298

00:53:59,230 --> 00:53:55,400

there is a hatch on the side that

1299

00:54:01,390 --> 00:53:59,240

extends below and above the centerline

1300

00:54:03,339 --> 00:54:01,400

and when you go and you pretty much have

1301

00:54:05,589 --> 00:54:03,349

to crawl in there they have a little

1302

00:54:08,440 --> 00:54:05,599

stanchion to go up there but it was

1303

00:54:09,940 --> 00:54:08,450

obvious I mean immediately when you go

1304

00:54:12,069 --> 00:54:09,950

in there why did they make this thing so

1305

00:54:13,510 --> 00:54:12,079

small what the hell is going on you

1306

00:54:16,089 --> 00:54:13,520

couldn't stand up in the middle it was

1307

00:54:18,520 --> 00:54:16,099

clearly made for something much smaller

1308

00:54:20,440 --> 00:54:18,530

than a person you know it's aside from

1309

00:54:23,950 --> 00:54:20,450

all the technology but just the physical

1310

00:54:25,839 --> 00:54:23,960

aspects of it that the material you know

1311

00:54:27,940 --> 00:54:25,849

was all the same everything was the same

1312

00:54:30,130 --> 00:54:27,950

color the way it was assembled

1313

00:54:32,859 --> 00:54:30,140

everything started looking stranger and

1314

00:54:35,410 --> 00:54:32,869

stranger to me you know and then it

1315

00:54:37,350 --> 00:54:35,420

became obvious once we started having

1316

00:54:40,050 --> 00:54:37,360

discussions about what ours worked

1317

00:54:43,350 --> 00:54:40,060

on that this is a reverse engineering

1318

00:54:46,050 --> 00:54:43,360

project you know it took a while for

1319

00:54:47,520 --> 00:54:46,060

this to hit me because I was I really

1320

00:54:50,250 --> 00:54:47,530

didn't buy any of this you have Oh

1321

00:54:51,900 --> 00:54:50,260

nonsense for a long time so Georgia I

1322

00:54:54,420 --> 00:54:51,910

wanted to ask you know again through the

1323

00:54:56,310 --> 00:54:54,430

lens of 30 years I know neither of you

1324

00:54:57,450 --> 00:54:56,320

expected this to transform your lives

1325

00:55:00,270 --> 00:54:57,460

and take over like this

1326

00:55:03,930 --> 00:55:00,280

how has reporting and taking that risk

1327

00:55:05,340 --> 00:55:03,940

on Bob's story because you've vetted him

1328

00:55:08,310 --> 00:55:05,350

you didn't just believe you vetted him

1329

00:55:10,160 --> 00:55:08,320

hard how has it changed your life over

1330

00:55:12,870 --> 00:55:10,170

30 years

1331

00:55:15,510 --> 00:55:12,880

well it certainly affected the arc of my

1332

00:55:18,150 --> 00:55:15,520

professional life I think I probably put

1333

00:55:20,160 --> 00:55:18,160

a cap on what I could do because I would

1334

00:55:22,380 --> 00:55:20,170

forever be the UFO guy and you know I've

1335

00:55:24,570 --> 00:55:22,390

done a lot of UFO stories over the years

1336

00:55:26,850 --> 00:55:24,580

starting with Bob but I've done

1337

00:55:30,270 --> 00:55:26,860

thousands of other stories and and have

1338

00:55:33,450 --> 00:55:30,280

got you know Matt and I have had some

1339

00:55:34,920 --> 00:55:33,460

success in terms of recognition for

1340

00:55:36,870 --> 00:55:34,930

those stories but it doesn't matter

1341

00:55:40,010 --> 00:55:36,880

wherever I go on the UFO guy and I'm

1342

00:55:44,970 --> 00:55:40,020

stopped and you know in restaurants and

1343

00:55:47,340 --> 00:55:44,980

bars when I end up in a bar and at Men's

1344

00:55:50,490 --> 00:55:47,350

in men's rooms and urinals as I told

1345

00:55:52,530 --> 00:55:50,500

yesterday and and at foreign countries

1346

00:55:55,050 --> 00:55:52,540

and airports and you know the UFO guy

1347

00:55:56,340 --> 00:55:55,060

and it and grocery stores and people

1348

00:55:58,530 --> 00:55:56,350

want to come up and hey do you really

1349

00:56:00,090 --> 00:55:58,540

really believe that stuff and you know

1350

00:56:01,800 --> 00:56:00,100

they don't they don't really care what I

1351
00:56:04,200 --> 00:56:01,810
believe about UFOs they want to tell me

1352
00:56:07,400 --> 00:56:04,210
their UFO story and it's just amazing to

1353
00:56:08,790 --> 00:56:07,410
me that everybody's got one and you it

1354
00:56:10,470 --> 00:56:08,800
everybody's got one

1355
00:56:12,210 --> 00:56:10,480
it's somebody in their family they've

1356
00:56:14,310 --> 00:56:12,220
seen something or somebody else in their

1357
00:56:16,350 --> 00:56:14,320
family or there's grandma has a story or

1358
00:56:18,510 --> 00:56:16,360
something landed in the backyard or out

1359
00:56:20,730 --> 00:56:18,520
in the farm it's amazing how far it

1360
00:56:23,460 --> 00:56:20,740
reaches so it has changed changed me in

1361
00:56:24,930 --> 00:56:23,470
a lot of ways in that I was not really

1362
00:56:27,540 --> 00:56:24,940
that interested in it you know until

1363
00:56:30,750 --> 00:56:27,550

started working on this and then it

1364

00:56:33,900 --> 00:56:30,760

it's captured my attention ever since

1365

00:56:35,250 --> 00:56:33,910

it's I don't work on UFO stuff all the

1366

00:56:37,140 --> 00:56:35,260

time but I think about it all the time

1367

00:56:38,970 --> 00:56:37,150

so I would add just one other thing in

1368

00:56:40,920 --> 00:56:38,980

that skepticism and this topic is

1369

00:56:42,450 --> 00:56:40,930

important it's important for you to be

1370

00:56:45,060 --> 00:56:42,460

skeptical and ask questions with

1371

00:56:46,620 --> 00:56:45,070

skepticism in the sense of hey I want to

1372

00:56:48,270 --> 00:56:46,630

know more I want to learn more I want to

1373

00:56:50,190 --> 00:56:48,280

ask questions I want to be ant I have

1374

00:56:51,150 --> 00:56:50,200

those questions answered that's fine you

1375

00:56:52,650 --> 00:56:51,160

it you need it

1376

00:56:54,810 --> 00:56:52,660

here because there's so much crazy stuff

1377

00:56:56,760 --> 00:56:54,820

in the awful world it's right to ask

1378

00:56:58,650 --> 00:56:56,770

questions a bob and ask about his

1379

00:57:01,740 --> 00:56:58,660

background and and figure out if there's

1380

00:57:03,480 --> 00:57:01,750

logic to what he's saying but skepticism

1381

00:57:06,200 --> 00:57:03,490

and debunking or two different things or

1382

00:57:08,850 --> 00:57:06,210

so much garbage and junk there's so much

1383

00:57:13,290 --> 00:57:08,860

backbiting and infighting and turf wars

1384

00:57:14,880 --> 00:57:13,300

and debunking by UFO people presumably

1385

00:57:17,220 --> 00:57:14,890

people are interested in getting to the

1386

00:57:19,320 --> 00:57:17,230

bottom of this who because a story comes

1387

00:57:22,110 --> 00:57:19,330

from somebody else they got to attack it

1388

00:57:24,480 --> 00:57:22,120

and I it's just an amazing learning

1389

00:57:26,970 --> 00:57:24,490

experience the last year or two since a

1390

00:57:29,430 --> 00:57:26,980

tip off SAP TTS a all that stuff came

1391

00:57:32,010 --> 00:57:29,440

out how vicious that the field can be

1392

00:57:34,920 --> 00:57:32,020

it's debunking it's not skepticism so

1393

00:57:36,450 --> 00:57:34,930

ask questions be skeptical but have an

1394

00:57:38,490 --> 00:57:36,460

open mind and an open heart and be

1395

00:57:40,440 --> 00:57:38,500

willing to learn stuff about it what

1396

00:57:42,120 --> 00:57:40,450

we've learned from Bob is I think it's

1397

00:57:43,680 --> 00:57:42,130

true if it wasn't true I wouldn't still

1398

00:57:46,410 --> 00:57:43,690

be reporting about it thirty years later

1399

00:57:48,750 --> 00:57:46,420

this mystery seems to be tantalizingly

1400

00:57:50,310 --> 00:57:48,760

out of our reach we learn a little bit

1401
00:57:51,840 --> 00:57:50,320
more and it moves a little bit away the

1402
00:57:54,780 --> 00:57:51,850
goalpost seems to move a little bit

1403
00:57:57,420 --> 00:57:54,790
maybe it's leading us somewhere maybe

1404
00:58:00,800 --> 00:57:57,430
it's a learning curve I hope so but we

1405
00:58:04,560 --> 00:58:00,810
don't know and but it's exciting time

1406
00:58:06,420 --> 00:58:04,570
I'm so glad for Bob that some of these

1407
00:58:08,640 --> 00:58:06,430
other events have happened to sort of

1408
00:58:10,380 --> 00:58:08,650
like take the burden off of him as being

1409
00:58:11,820 --> 00:58:10,390
this lone nut ball talking about

1410
00:58:15,390 --> 00:58:11,830
flying-saucer programs or worse

1411
00:58:19,950 --> 00:58:15,400
engineering because he hasn't deserved

1412
00:58:22,020 --> 00:58:19,960
the the scorn and ridicule and you know

1413
00:58:24,450 --> 00:58:22,030

all the stuff that's come with it over

1414

00:58:28,650 --> 00:58:24,460

the years it's been it's been a [h__h]

1415

00:58:30,870 --> 00:58:28,660

it's well I just want to end on one

1416

00:58:34,140 --> 00:58:30,880

question for you but I just wanted to

1417

00:58:36,060 --> 00:58:34,150

say you know thank you Bob thank you

1418

00:58:38,970 --> 00:58:36,070

George for letting me go on this ride

1419

00:58:41,100 --> 00:58:38,980

with you I know I hope that we were able

1420

00:58:43,140 --> 00:58:41,110

to bring things forward in a way that

1421

00:58:45,330 --> 00:58:43,150

were logical for people to be able to

1422

00:58:46,200 --> 00:58:45,340

consume thank you for letting me be a

1423

00:58:47,790 --> 00:58:46,210

part of it

1424

00:58:49,980 --> 00:58:47,800

you guys I know have been in this war

1425

00:58:52,920 --> 00:58:49,990

together for 30 years just trying to get

1426
00:58:54,600 --> 00:58:52,930
to the truth kind of last question what

1427
00:58:56,490 --> 00:58:54,610
do you want the audience here in

1428
00:58:58,530 --> 00:58:56,500
McMinnville from your story what what is

1429
00:59:00,720 --> 00:58:58,540
it you want people in the world to know

1430
00:59:02,280 --> 00:59:00,730
from watching it from what is it you

1431
00:59:05,060 --> 00:59:02,290
you're telling them what do you want

1432
00:59:07,590 --> 00:59:05,070
them to understand very simply

1433
00:59:09,990 --> 00:59:07,600
it's just like I said in the movie the

1434
00:59:12,510 --> 00:59:10,000
events that I portrayed everything that

1435
00:59:14,970 --> 00:59:12,520
I said happened exactly like I said it

1436
00:59:17,790 --> 00:59:14,980
did that's that's all the government

1437
00:59:21,840 --> 00:59:17,800
really does have or at least at that

1438
00:59:23,810 --> 00:59:21,850

time had recovered alien craft and they

1439

00:59:26,040 --> 00:59:23,820

were spending a lot of time and money

1440

00:59:27,780 --> 00:59:26,050

trying to figure out how they work and

1441

00:59:29,850 --> 00:59:27,790

see if they could duplicate it I have no

1442

00:59:32,040 --> 00:59:29,860

idea where the project is now but back

1443

00:59:33,070 --> 00:59:32,050

then that's what was going on and that's

1444

00:59:34,700 --> 00:59:33,080

what I did

1445

00:59:46,060 --> 00:59:34,710

[Applause]
