1  
00:00:04,710 --> 00:00:02,230  
well a congressional hearing last month

2  
00:00:06,550 --> 00:00:04,720  
reigniting the debate over ufos my next

3  
00:00:08,390 --> 00:00:06,560  
guest is an investigative filmmaker he

4  
00:00:11,030 --> 00:00:08,400  
says navy crew members have confirmed a

5  
00:00:13,749 --> 00:00:11,040  
2019 incident where their fleet was

6  
00:00:15,990 --> 00:00:13,759  
apparently swarmed by at least 100

7  
00:00:18,390 --> 00:00:16,000  
unidentified flying objects here to talk

8  
00:00:19,510 --> 00:00:18,400  
about it is jeremy corbell jeremy thank

9  
00:00:21,109 --> 00:00:19,520  
you for coming on we very much

10  
00:00:23,990 --> 00:00:21,119  
appreciate the department of defense

11  
00:00:26,790 --> 00:00:24,000  
tells congress these ufos are probably

12  
00:00:29,390 --> 00:00:26,800  
drones but navy crews are telling you

13  
00:00:32,150 --> 00:00:29,400

that these objects are doing

14

00:00:34,470 --> 00:00:32,160

unexplainable things so so what do they

15

00:00:37,350 --> 00:00:34,480

mean by that

16

00:00:40,630 --> 00:00:37,360

right so the american public as well as

17

00:00:43,430 --> 00:00:40,640

congress was not shown the truth they

18

00:00:45,029 --> 00:00:43,440

were shown one piece out of six pieces

19

00:00:48,630 --> 00:00:45,039

of corroborative evidence that i

20

00:00:50,229 --> 00:00:48,640

provided to the public so it was a lie

21

00:00:52,869 --> 00:00:50,239

through omission

22

00:00:55,750 --> 00:00:52,879

what really happened on that day goes

23

00:00:58,869 --> 00:00:55,760

far beyond actually across those days

24

00:01:01,510 --> 00:00:58,879

go far beyond one ship this was this

25

00:01:03,670 --> 00:01:01,520

involved numerous ships i'll say up to

26  
00:01:05,670 --> 00:01:03,680  
about 10 of them that were experiencing

27  
00:01:08,469 --> 00:01:05,680  
these unidentifieds that flew with

28  
00:01:10,950 --> 00:01:08,479  
impunity and were in a sense just

29  
00:01:14,149 --> 00:01:10,960  
swarming these navy warships so this

30  
00:01:16,550 --> 00:01:14,159  
series is massive on scale and scope the

31  
00:01:18,630 --> 00:01:16,560  
controllers of these units they have not

32  
00:01:20,710 --> 00:01:18,640  
been identified by our department of

33  
00:01:23,030 --> 00:01:20,720  
defense this is a national security

34  
00:01:24,870 --> 00:01:23,040  
issue so the obfuscation that we saw in

35  
00:01:27,590 --> 00:01:24,880  
that congressional hearing it's very

36  
00:01:29,270 --> 00:01:27,600  
unfortunate but but i i do have hope

37  
00:01:31,429 --> 00:01:29,280  
because i i believe there is new

38  
00:01:34,069 --> 00:01:31,439

legislation that is going to bring to

39

00:01:36,230 --> 00:01:34,079

light the ufo transparency because this

40

00:01:37,910 --> 00:01:36,240

is a real issue but we see these things

41

00:01:39,749 --> 00:01:37,920

jeremy and i'm wondering what you think

42

00:01:41,109 --> 00:01:39,759

it is i mean are we talking about alien

43

00:01:43,749 --> 00:01:41,119

spaceships are we talking about

44

00:01:46,149 --> 00:01:43,759

potentially black projects from this

45

00:01:48,630 --> 00:01:46,159

country or other countries or is this

46

00:01:51,109 --> 00:01:48,640

just simply the stuff that's out of our

47

00:01:53,109 --> 00:01:51,119

technological range

48

00:01:55,830 --> 00:01:53,119

right so that's kind of the key point is

49

00:01:57,830 --> 00:01:55,840

that i don't know we don't know our

50

00:01:59,749 --> 00:01:57,840

department of defense doesn't know

51  
00:02:01,350 --> 00:01:59,759  
they've ruled out that it's our black

52  
00:02:04,310 --> 00:02:01,360  
technology and they ruled that out

53  
00:02:06,230 --> 00:02:04,320  
definitively so whose is it now you know

54  
00:02:08,389 --> 00:02:06,240  
could it be russia could it be china

55  
00:02:10,229 --> 00:02:08,399  
that has essentially been ruled out at

56  
00:02:12,390 --> 00:02:10,239  
this point you know where's the landing

57  
00:02:14,790 --> 00:02:12,400  
site where's the takeoff we're talking

58  
00:02:16,710 --> 00:02:14,800  
about a massive scope and scale of a

59  
00:02:19,030 --> 00:02:16,720  
hundred plus of these units flying

60  
00:02:20,949 --> 00:02:19,040  
around now the question is they also

61  
00:02:23,670 --> 00:02:20,959  
showed unique properties unique

62  
00:02:25,430 --> 00:02:23,680  
abilities it is understood by our navy

63  
00:02:27,190 --> 00:02:25,440

that they're trans medium in nature they

64

00:02:29,030 --> 00:02:27,200

were able to go into the water and out

65

00:02:31,350 --> 00:02:29,040

of the water and i provided video

66

00:02:33,509 --> 00:02:31,360

evidence that shows something like that

67

00:02:35,670 --> 00:02:33,519

yeah so the real question is whose are

68

00:02:37,350 --> 00:02:35,680

these i'm not going to speculate i don't

69

00:02:38,710 --> 00:02:37,360

know that's our department of defense

70

00:02:40,630 --> 00:02:38,720

that needs to know i want to play some

71

00:02:42,470 --> 00:02:40,640

sound if i can jeremy this is from the

72

00:02:44,550 --> 00:02:42,480

hearing and then i'll get your response

73

00:02:47,030 --> 00:02:44,560

on the other side watch

74

00:02:50,309 --> 00:02:47,040

there have been no collisions between

75

00:02:51,830 --> 00:02:50,319

any u.s assets in one of these uaps

76

00:02:54,229 --> 00:02:51,840

correct we have not had a collision

77

00:02:56,390 --> 00:02:54,239

we've had at least 11 near misses though

78

00:02:58,470 --> 00:02:56,400

it just amazes me there have been no

79

00:03:00,630 --> 00:02:58,480

collisions and if we don't know where

80

00:03:02,949 --> 00:03:00,640

these things are going jeremy if we have

81

00:03:05,350 --> 00:03:02,959

no idea what their capabilities are you

82

00:03:06,949 --> 00:03:05,360

would think and these possibly were

83

00:03:09,670 --> 00:03:06,959

drones you would think there would be a

84

00:03:11,030 --> 00:03:09,680

collision at some point in time

85

00:03:13,830 --> 00:03:11,040

right well here's the deal you know what

86

00:03:16,630 --> 00:03:13,840

does drone mean nobody's arguing if it's

87

00:03:18,309 --> 00:03:16,640

manned or unmanned the question is whose

88

00:03:20,630 --> 00:03:18,319

are they now i'll tell you something

89

00:03:21,990 --> 00:03:20,640

that was a tricky thing collisions

90

00:03:23,670 --> 00:03:22,000

they're talking about near misses we

91

00:03:26,710 --> 00:03:23,680

don't want those but i will tell you

92

00:03:29,110 --> 00:03:26,720

this as of just a couple weeks ago i am

93

00:03:31,830 --> 00:03:29,120

directly knowledgeable about the fact

94

00:03:34,710 --> 00:03:31,840

that our air force sometimes engages

95

00:03:37,190 --> 00:03:34,720

kinetically which means fires upon what

96

00:03:39,670 --> 00:03:37,200

we know to be ufos but the other problem

97

00:03:41,509 --> 00:03:39,680

is sometimes we don't and how they

98

00:03:44,070 --> 00:03:41,519

determine that is a problem a lot of

99

00:03:46,149 --> 00:03:44,080

this ufo information is not going up the

100

00:03:47,830 --> 00:03:46,159

chain of command as it should be so and

101  
00:03:49,270 --> 00:03:47,840  
that's why people are providing me video

102  
00:03:51,430 --> 00:03:49,280  
not going up the chain of command would

103  
00:03:52,949 --> 00:03:51,440  
you consider this an intelligence

104  
00:03:55,110 --> 00:03:52,959  
failure that we don't know more

105  
00:03:57,670 --> 00:03:55,120  
information about what these are

106  
00:03:59,990 --> 00:03:57,680  
this is an intelligence failure beyond

107  
00:04:01,830 --> 00:04:00,000  
the scope of what we saw in 911 if we

108  
00:04:03,910 --> 00:04:01,840  
don't know who's operating right off our

109  
00:04:06,070 --> 00:04:03,920  
coast of california and flying with

110  
00:04:08,309 --> 00:04:06,080  
impunity in our restricted airspace we

111  
00:04:10,470 --> 00:04:08,319  
have a real problem i got to go here but

112  
00:04:13,030 --> 00:04:10,480  
one crew member called the energy

113  
00:04:15,910 --> 00:04:13,040

capacity of these quoting here world

114

00:04:18,629 --> 00:04:15,920

changing fair assessment

115

00:04:20,550 --> 00:04:18,639

yeah essentially the height the altitude

116

00:04:22,950 --> 00:04:20,560

the number of them the duration if you

117

00:04:25,510 --> 00:04:22,960

add it all up we need to know who built

118

00:04:28,629 --> 00:04:25,520

this technology let it be from somewhere

119

00:04:30,629 --> 00:04:28,639

else or from here that's irrelevant we

120

00:04:32,710 --> 00:04:30,639

need to know the operators of these

121

00:04:34,550 --> 00:04:32,720

units jeremy corbell thanks for coming
