

1
00:00:05,269 --> 00:00:02,810
without describing specifically what's

2
00:00:07,490 --> 00:00:05,279
in the photographs it's a magnificent

3
00:00:09,710 --> 00:00:07,500
clear photograph of Captain's Lake taken

4
00:00:12,230 --> 00:00:09,720
in the daytime during the daytime now I

5
00:00:14,270 --> 00:00:12,240
got within a mile of the lake bed and I

6
00:00:15,650 --> 00:00:14,280
had a powerful set of binoculars yes it

7
00:00:18,170 --> 00:00:15,660
looked like a dry lake bed to me nothing

8
00:00:24,109 --> 00:00:18,180
else well that's what it is a different

9
00:00:28,929 --> 00:00:26,570
so he came from the other direction okay

10
00:00:32,569 --> 00:00:28,939
this is supposedly before S4 was built

11
00:00:34,370 --> 00:00:32,579
well see 49ers can't trophy for us but

12
00:00:36,229 --> 00:00:34,380
he was out there when escort was

13
00:00:38,510 --> 00:00:36,239

operating he did his stuff when it was

14

00:00:40,850 --> 00:00:38,520

operating he did it like two years after

15

00:00:42,709 --> 00:00:40,860

Bob's story came out but he had no idea

16

00:00:44,750 --> 00:00:42,719

about the UFO stuff this guy is an

17

00:00:48,049 --> 00:00:44,760

archaeologist his name is Jerry Freeman

18

00:00:51,650 --> 00:00:48,059

and he had an idea he wanted to track

19

00:00:55,250 --> 00:00:51,660

the history of the 49ers the groups of

20

00:00:59,029 --> 00:00:55,260

settlers who came across the country

21

00:01:02,450 --> 00:00:59,039

um uh in 1849 to get to the California

22

00:01:04,969 --> 00:01:02,460

Gold Fields so he had a unique idea he

23

00:01:08,330 --> 00:01:04,979

infiltrated the Nevada Test Site from

24

00:01:10,550 --> 00:01:08,340

the south and the west and traveled all

25

00:01:12,590 --> 00:01:10,560

the way across it he sneaked across it

26

00:01:15,109 --> 00:01:12,600

avoiding security knew he was

27

00:01:17,630 --> 00:01:15,119

trespassing but he would travel at night

28

00:01:19,730 --> 00:01:17,640

and hide under rocks and in caves during

29

00:01:24,109 --> 00:01:19,740

the day he made it all the way up to

30

00:01:27,289 --> 00:01:24,119

Papu's Lake this was in

31

00:01:29,450 --> 00:01:27,299

see the story is 1997. so it's after the

32

00:01:31,370 --> 00:01:29,460

Bob Lazar story has come out this guy

33

00:01:33,230 --> 00:01:31,380

has no idea about Bob Lazar he has no

34

00:01:35,149 --> 00:01:33,240

idea about flying saucers he's not into

35

00:01:37,969 --> 00:01:35,159

that but he traveled all the way up to

36

00:01:40,789 --> 00:01:37,979

Papoose Lake and in his story and I I

37

00:01:44,510 --> 00:01:40,799

inherited a lot of his files he says he

38

00:01:47,690 --> 00:01:44,520

was out at night by Papoose and all of a

39

00:01:51,410 --> 00:01:47,700

sudden out of nowhere a door opens up I

40

00:01:54,050 --> 00:01:51,420

mean like just a door in space a light a

41

00:01:56,749 --> 00:01:54,060

bluish light that opened up a door way

42

00:01:57,469 --> 00:01:56,759

to who knows where and then poof it was

43

00:01:59,630 --> 00:01:57,479

gone

44

00:02:02,270 --> 00:01:59,640

this guy had no idea about

45

00:02:04,190 --> 00:02:02,280

flying saucers Bob Lazar John Lee or any

46

00:02:07,429 --> 00:02:04,200

of this stuff but this that's the story

47

00:02:09,949 --> 00:02:07,439

he told unfortunately as he traversed

48

00:02:12,650 --> 00:02:09,959

the Nevada Test Site he ran into pockets

49

00:02:16,070 --> 00:02:12,660

of radiation and got contracted cancer

50

00:02:19,910 --> 00:02:16,080

and died nonetheless a lot of his files

51
00:02:23,150 --> 00:02:19,920
a lot of his footage his home video

52
00:02:25,070 --> 00:02:23,160
is here I got it

53
00:02:28,610 --> 00:02:25,080
it's a great story

54
00:02:30,530 --> 00:02:28,620
the arch the huge Stone Arch depicted in

55
00:02:32,750 --> 00:02:30,540
this Photograph does not exist he says

56
00:02:34,790 --> 00:02:32,760
the department of energy has decreed it

57
00:02:36,530 --> 00:02:34,800
so why because you and I might want to

58
00:02:38,390 --> 00:02:36,540
see it and it's within a stone's throw

59
00:02:40,850 --> 00:02:38,400
of Yucca Mountain which was designated

60
00:02:43,910 --> 00:02:40,860
as the nuclear Repository

61
00:02:46,309 --> 00:02:43,920
so basically he was petitioning Senator

62
00:02:47,809 --> 00:02:46,319
Reid to say look that's Stone Arch is

63
00:02:49,369 --> 00:02:47,819

out there the department of energy

64

00:02:51,290 --> 00:02:49,379

doesn't want to admit it because people

65

00:02:53,270 --> 00:02:51,300

would want to see it and it's it's a

66

00:02:54,830 --> 00:02:53,280

crime to not allow people to see it as

67

00:02:56,570 --> 00:02:54,840

far as the department of energy goes

68

00:02:58,970 --> 00:02:56,580

doesn't exist because they don't want

69

00:03:00,830 --> 00:02:58,980

people asking to see it they don't want

70

00:03:03,229 --> 00:03:00,840

people to access that

71

00:03:05,690 --> 00:03:03,239

this guy did he got out there took

72

00:03:07,670 --> 00:03:05,700

pictures of it and petitioned Senator

73

00:03:09,830 --> 00:03:07,680

Reid and others to acknowledge that it's

74

00:03:13,550 --> 00:03:09,840

out there and to let people in to see it

75

00:03:15,229 --> 00:03:13,560

and that is that his his ark of the

76

00:03:19,490 --> 00:03:15,239

covenant that's what he went there for

77

00:03:22,670 --> 00:03:19,500

he found that carving 1849 and some

78

00:03:26,089 --> 00:03:22,680

rocks adjacent to Papoose Lake

79

00:03:28,550 --> 00:03:26,099

and that was one Brave dude

80

00:03:30,530 --> 00:03:28,560

and committed

81

00:03:32,990 --> 00:03:30,540

and that's pretty ballsy the guy could

82

00:03:34,850 --> 00:03:33,000

have been arrested thrown into jail

83

00:03:36,410 --> 00:03:34,860

I think there were people who wanted to

84

00:03:38,449 --> 00:03:36,420

throw him into jail after he admitted

85

00:03:40,550 --> 00:03:38,459

his story that he'd trespassed because

86

00:03:44,589 --> 00:03:40,560

it was pretty clear that in fact he'd

87

00:03:49,729 --> 00:03:47,630

how do you even get on that

88

00:03:52,750 --> 00:03:49,739

from the West

89

00:03:56,990 --> 00:03:52,760

up him sensors it was a gigantic

90

00:03:59,690 --> 00:03:57,000

facility and he slipped in my mind you

91

00:04:01,670 --> 00:03:59,700

traveled at night and he hid under Rock

92

00:04:04,070 --> 00:04:01,680

so he knew you shouldn't be there right

93

00:04:06,229 --> 00:04:04,080

oh no he knew he was trespassing well

94

00:04:08,149 --> 00:04:06,239

he didn't know for S4 to look for

95

00:04:09,649 --> 00:04:08,159

the hole in the side of the

96

00:04:12,470 --> 00:04:09,659

mountain when he didn't care about that

97

00:04:14,449 --> 00:04:12,480

he was looking for the Rocks they

98

00:04:16,370 --> 00:04:14,459

there's that carving right there that he

99

00:04:17,509 --> 00:04:16,380

took the picture of nurse that

100

00:04:22,969 --> 00:04:17,519

was the

101
00:04:26,629 --> 00:04:22,979
he's there hiding

102
00:04:28,370 --> 00:04:26,639
that's when the door opened up no way he

103
00:04:30,230 --> 00:04:28,380
said he saw the door open up and he's

104
00:04:32,150 --> 00:04:30,240
not a UFO he doesn't know that has

105
00:04:34,189 --> 00:04:32,160
no idea about the way and he

106
00:04:36,830 --> 00:04:34,199
died from radiation stuff because he's

107
00:04:38,510 --> 00:04:36,840
sitting out there in the dark holy

108
00:04:40,010 --> 00:04:38,520
what the hell is that and it was light

109
00:04:41,450 --> 00:04:40,020
inside and a door opened from the side

110
00:04:42,890 --> 00:04:41,460
of the mountain that's where Bob's not

111
00:04:45,770 --> 00:04:42,900
in this not on the side of the mountain

112
00:04:48,590 --> 00:04:45,780
right in the middle of the desert

113
00:04:50,570 --> 00:04:48,600

in nothing nothing's there there is no

114

00:04:52,430 --> 00:04:50,580

Side of the Mountain it opens in

115

00:04:53,350 --> 00:04:52,440

complete darkness in the middle of the

116

00:04:56,390 --> 00:04:53,360

desert

117

00:04:58,310 --> 00:04:56,400

you're not saying the floor opened up no

118

00:05:01,249 --> 00:04:58,320

I am saying he's sitting here looking

119

00:05:03,469 --> 00:05:01,259

out of interdimensional space a door

120

00:05:06,290 --> 00:05:03,479

opened with light behind it yeah and he

121

00:05:07,909 --> 00:05:06,300

said saw it said this to you yeah

122

00:05:09,230 --> 00:05:07,919

Eddie okay but he came to talking

123

00:05:11,570 --> 00:05:09,240

because he knew you were into this area

124

00:05:13,010 --> 00:05:11,580

yeah but he came to me but I didn't get

125

00:05:14,330 --> 00:05:13,020

to do the story and it ended up being

126
00:05:16,070 --> 00:05:14,340
somebody else because I wasn't there at

127
00:05:18,230 --> 00:05:16,080
the time so there's some going on

128
00:05:19,850 --> 00:05:18,240
out at S4 that is way beyond our

129
00:05:22,249 --> 00:05:19,860
imagination and this guy like I said not

130
00:05:24,890 --> 00:05:22,259
a UFO guy dreamed slightly different

131
00:05:26,510 --> 00:05:24,900
Adventure

132
00:05:29,150 --> 00:05:26,520
he looked like a dry lake bed to me

133
00:05:31,249 --> 00:05:29,160
nothing else well that's what it was a

134
00:05:33,550 --> 00:05:31,259
different story what did you see I could

135
00:05:36,950 --> 00:05:33,560
clearly see what we're security lights

136
00:05:39,529 --> 00:05:36,960
on the perimeters and I could see lights

137
00:05:43,070 --> 00:05:39,539
that opened and closed near the center

138
00:05:44,689 --> 00:05:43,080

of the lake I I felt vibration I know I

139

00:05:46,550 --> 00:05:44,699

wasn't imagining it because there were

140

00:05:48,050 --> 00:05:46,560

real looking sand coming down just on

141

00:05:50,230 --> 00:05:48,060

the other side of this little watch and

142

00:05:53,510 --> 00:05:50,240

I could see him and I thought well hey

143

00:05:55,490 --> 00:05:53,520

an earthquake well then I realized this

144

00:05:57,129 --> 00:05:55,500

is not an earthquake it continued and

145

00:05:59,689 --> 00:05:57,139

continued for maybe nearly two minutes

146

00:06:01,909 --> 00:05:59,699

it's something they're testing either

147

00:06:04,189 --> 00:06:01,919

directly underground or I was feeling

148

00:06:05,870 --> 00:06:04,199

vibrations completely from Groom Lake I

149

00:06:07,790 --> 00:06:05,880

don't know I think if they'd have caught
