

1
00:00:00,900 --> 00:00:05,570

and this is weapons

2
00:00:10,790 --> 00:00:07,970

those that I've spoken with who were in

3
00:00:12,950 --> 00:00:10,800

a position to know this on the Omaha

4
00:00:15,770 --> 00:00:12,960

said I'm going to regret saying this to

5
00:00:17,990 --> 00:00:15,780

you Jeremy but they just seemed to

6
00:00:20,029 --> 00:00:18,000

appear That's when we started talking

7
00:00:22,429 --> 00:00:20,039

about the fact they were going into the

8
00:00:25,070 --> 00:00:22,439

water so the the idea is if they're

9
00:00:27,529 --> 00:00:25,080

going off rate or off scan volume and

10
00:00:29,089 --> 00:00:27,539

even optically as I told you the Hilo

11
00:00:31,790 --> 00:00:29,099

Pilots are seeing go into the water

12
00:00:33,290 --> 00:00:31,800

coming they're likely coming out of the

13
00:00:35,750 --> 00:00:33,300

water too so this is that's what's

14

00:00:38,569 --> 00:00:35,760

really interesting this possibility that

15

00:00:40,310 --> 00:00:38,579

they're transmedium emerging from the

16

00:00:42,170 --> 00:00:40,320

water and descending into the water

17

00:00:43,970 --> 00:00:42,180

could there be a submarine out there

18

00:00:47,510 --> 00:00:43,980

that's launching drove somewhere in the

19

00:00:49,729 --> 00:00:47,520

water and if so would we able to detect

20

00:00:52,069 --> 00:00:49,739

a sub and detect where those drones are

21

00:00:54,770 --> 00:00:52,079

coming from if there was a foreign

22

00:00:56,869 --> 00:00:54,780

Nation submarine within that radius of

23

00:00:58,610 --> 00:00:56,879

those Hundred Mile ships that were

24

00:01:00,350 --> 00:00:58,620

launching wouldn't that kind of be big

25

00:01:01,850 --> 00:01:00,360

news yeah that'd be a big deal yeah I

26

00:01:03,830 --> 00:01:01,860

think that'd be a big deal so it's kind

27

00:01:05,210 --> 00:01:03,840

of a ridiculous idea that people they'll

28

00:01:07,310 --> 00:01:05,220

just throw it out there like they were

29

00:01:08,990 --> 00:01:07,320

probably launched as swarms by Subs we

30

00:01:10,789 --> 00:01:09,000

know that that has been thrown out there

31

00:01:13,910 --> 00:01:10,799

that even newspapers have done it the

32

00:01:16,490 --> 00:01:13,920

New York Times yeah so in advance of the

33

00:01:18,530 --> 00:01:16,500

anticipated Halloween release of this

34

00:01:20,030 --> 00:01:18,540

UAP report to Congress the New York

35

00:01:21,830 --> 00:01:20,040

Times does a hit piece call it a

36

00:01:24,289 --> 00:01:21,840

pre-bunking where they have these

37

00:01:26,450 --> 00:01:24,299

General generic explanations oh yeah

38

00:01:28,730 --> 00:01:26,460

same thing as that New York Post story

39

00:01:30,649 --> 00:01:28,740

uh We've explained this all it's no big

40

00:01:32,210 --> 00:01:30,659

deal it's got to be drones yeah and and

41

00:01:33,890 --> 00:01:32,220

of course we don't know of any drones

42

00:01:35,690 --> 00:01:33,900

that fit the bill for this and so I'm

43

00:01:37,130 --> 00:01:35,700

unsatisfied so far as we're going

44

00:01:39,109 --> 00:01:37,140

through this exercise together I'm

45

00:01:40,390 --> 00:01:39,119

unsatisfied so far that we have figured

46

00:01:42,550 --> 00:01:40,400

this out
