

1
00:00:00,900 --> 00:00:05,390
and this is weapons

2
00:00:10,549 --> 00:00:08,089
we investigated a lot of these cases and

3
00:00:13,970 --> 00:00:10,559
we found because of these medical

4
00:00:16,129 --> 00:00:13,980
associations we postulated that some

5
00:00:20,510 --> 00:00:16,139
kind of sampling exercise might be going

6
00:00:23,210 --> 00:00:20,520
on at the same time as the uh the quote

7
00:00:25,370 --> 00:00:23,220
unquote genuine mutilation so that that

8
00:00:27,890 --> 00:00:25,380
sort of brings brings this whole

9
00:00:28,910 --> 00:00:27,900
bi-directional mimicry hypothesis what

10
00:00:32,870 --> 00:00:28,920
does that mean I don't know what the

11
00:00:35,569 --> 00:00:32,880
word means so so mimicry here we have a

12
00:00:38,870 --> 00:00:35,579
phenomenon that began we think in the

13
00:00:40,910 --> 00:00:38,880

1950s it probably began earlier but you

14

00:00:44,330 --> 00:00:40,920

know a lot of the cases started emerging

15

00:00:46,729 --> 00:00:44,340

in the late 1950s and and 1960s of

16

00:00:48,410 --> 00:00:46,739

cattle mutilations all the way through

17

00:00:50,690 --> 00:00:48,420

the western part of the United States

18

00:00:52,670 --> 00:00:50,700

and also up in Canada

19

00:00:55,430 --> 00:00:52,680

um and actually in other countries too

20

00:00:58,010 --> 00:00:55,440

so here we have a phenomenon that's

21

00:01:01,189 --> 00:00:58,020

quote unquote genuine but at the same

22

00:01:04,009 --> 00:01:01,199

time we're finding these occasional

23

00:01:07,070 --> 00:01:04,019

cases where it's pretty obvious that

24

00:01:09,710 --> 00:01:07,080

somebody is using sedatives is using

25

00:01:13,429 --> 00:01:09,720

hypodermic needles and is using medical

26
00:01:14,870 --> 00:01:13,439
equipment to exsanguinate animals so we

27
00:01:16,030 --> 00:01:14,880
postulated that there were two things

28
00:01:18,289 --> 00:01:16,040
going on

29
00:01:20,630 --> 00:01:18,299
simultaneously that were causing a lot

30
00:01:22,550 --> 00:01:20,640
of confusion you've got number one a

31
00:01:25,390 --> 00:01:22,560
quote unquote genuine phenomenon and

32
00:01:28,130 --> 00:01:25,400
number two you've got this medical

33
00:01:31,690 --> 00:01:28,140
surveillance project that has been

34
00:01:35,149 --> 00:01:31,700
carried out knowing that you know most

35
00:01:37,490 --> 00:01:35,159
veterinarians will not touch a mutilated

36
00:01:41,770 --> 00:01:37,500
animal because the quote-unquote aliens

37
00:01:44,870 --> 00:01:41,780
are associated with mutilated animals so

38
00:01:46,550 --> 00:01:44,880

these these small covert surveillance

39

00:01:49,609 --> 00:01:46,560

programs

40

00:01:52,670 --> 00:01:49,619

um that are being carried out

41

00:01:54,649 --> 00:01:52,680

um are being carried out knowing uh that

42

00:01:56,749 --> 00:01:54,659

the all overall umbrella of cattle

43

00:01:59,810 --> 00:01:56,759

mutilations is protecting the

44

00:02:01,370 --> 00:01:59,820

perpetrators from being caught so I mean

45

00:02:03,710 --> 00:02:01,380

that's the bi-directional mimic where

46

00:02:06,410 --> 00:02:03,720

you've got you've got the quote unquote

47

00:02:08,510 --> 00:02:06,420

real phenomenon you've got a a small

48

00:02:10,669 --> 00:02:08,520

program that's hiding underneath the

49

00:02:13,369 --> 00:02:10,679

phenomenon and then you've got the

50

00:02:16,250 --> 00:02:13,379

phenomenon that's actually mimicking you

51
00:02:18,589 --> 00:02:16,260
know the uh the the the government

52
00:02:21,229 --> 00:02:18,599
surveillance program so you've got this

53
00:02:23,690 --> 00:02:21,239
you can you can create these Z plots but

54
00:02:27,290 --> 00:02:23,700
the problem is that you're looking at

55
00:02:30,050 --> 00:02:27,300
cattle mutilations through the lens of

56
00:02:32,150 --> 00:02:30,060
two layers of deception you know so

57
00:02:35,630 --> 00:02:32,160
you've got the layer of deception from

58
00:02:38,990 --> 00:02:35,640
the uh from the phenomenon you've also

59
00:02:41,690 --> 00:02:39,000
got the layer of deception from the

60
00:02:44,990 --> 00:02:41,700
um the government program that is using

61
00:02:47,869 --> 00:02:45,000
in cattle mutilations as a cover for a

62
00:02:50,990 --> 00:02:47,879
surveillance effort so you've got two

63
00:02:53,570 --> 00:02:51,000

layers of deception it's very very

64

00:02:55,550 --> 00:02:53,580

difficult for an outsider coming into

65

00:02:57,949 --> 00:02:55,560

this to penetrate those two layers of

66

00:03:01,490 --> 00:02:57,959

deception you can draw exactly the same

67

00:03:03,710 --> 00:03:01,500

plot for the UFO phenomenon you know UFO

68

00:03:06,350 --> 00:03:03,720

phenomenon starts off as being genuine

69

00:03:09,350 --> 00:03:06,360

then you I mean we interviewed Colonel

70

00:03:13,309 --> 00:03:09,360

Barry Hennessy who was the head of the

71

00:03:14,930 --> 00:03:13,319

infamous afosi PJ we interviewed him as

72

00:03:18,170 --> 00:03:14,940

part of the ASAP program

73

00:03:19,850 --> 00:03:18,180

this I mean he blatantly told us he

74

00:03:23,210 --> 00:03:19,860

didn't tell us on camera but he told us

75

00:03:25,970 --> 00:03:23,220

that they had used the UFO phenomenon as

76

00:03:28,309 --> 00:03:25,980

a cover for their Advanced projects and

77

00:03:30,589 --> 00:03:28,319

this guy was part of the Air Force the

78

00:03:32,570 --> 00:03:30,599

afosi so

79

00:03:34,250 --> 00:03:32,580

um so we have the same thing we've got a

80

00:03:37,190 --> 00:03:34,260

we've got a quote unquote genuine

81

00:03:38,990 --> 00:03:37,200

phenomenon we've got a series of

82

00:03:43,309 --> 00:03:39,000

advanced technology projects special

83

00:03:46,490 --> 00:03:43,319

Access program uh going on using the UFO

84

00:03:48,770 --> 00:03:46,500

as a as a cover and then you've got this

85

00:03:52,309 --> 00:03:48,780

sort of reverse engineering setup that's

86

00:03:55,309 --> 00:03:52,319

going on that are creating these

87

00:03:57,170 --> 00:03:55,319

um you know special access programs that

88

00:03:59,750 --> 00:03:57,180

are are happening and then you've got

89

00:04:01,729 --> 00:03:59,760

the phenomenon that is mimicking these

90

00:04:02,470 --> 00:04:01,739

special access programs you know you've

91

00:04:05,690 --> 00:04:02,480

got

92

00:04:08,390 --> 00:04:05,700

helicopters with impossible levels of of

93

00:04:10,610 --> 00:04:08,400

acceleration you've got you know craft

94

00:04:13,490 --> 00:04:10,620

flying around the place

95

00:04:16,009 --> 00:04:13,500

um that look like triangular craft that

96

00:04:18,530 --> 00:04:16,019

that should be part of the you know Air

97

00:04:20,569 --> 00:04:18,540

Force Arsenal but they're probably the

98

00:04:22,550 --> 00:04:20,579

phenomenon so you've got this two layers

99

00:04:23,870 --> 00:04:22,560

of deception with the UFO phenomenon so

100

00:04:26,210 --> 00:04:23,880

the question is

101
00:04:29,030 --> 00:04:26,220
which we've been asking for decades are

102
00:04:31,249 --> 00:04:29,040
they ours are theirs you you uh

103
00:04:33,170 --> 00:04:31,259
eventually wrote a book about your ideas

104
00:04:35,450 --> 00:04:33,180
Brain Trust it was right where you're

105
00:04:38,390 --> 00:04:35,460
looking at the two levels so there is a

106
00:04:43,310 --> 00:04:38,400
legitimate mystery something carving up

107
00:04:45,710 --> 00:04:43,320
cattle horses sheep dogs cats deer other

108
00:04:47,810 --> 00:04:45,720
wild animals it's not just it's not just

109
00:04:50,810 --> 00:04:47,820
cows right that something has been doing

110
00:04:53,330 --> 00:04:50,820
this taking particular Parts uh I'd be

111
00:04:55,430 --> 00:04:53,340
interested in why those parts what what

112
00:04:58,670 --> 00:04:55,440
they whoever they are could learn from

113
00:05:00,710 --> 00:04:58,680

it and then the secondary monitoring

114

00:05:02,450 --> 00:05:00,720

either government or industry that is

115

00:05:04,370 --> 00:05:02,460

tracking something through the food

116

00:05:06,409 --> 00:05:04,380

chain what were they looking for what

117

00:05:07,969 --> 00:05:06,419

what could be learned based on the parts

118

00:05:11,330 --> 00:05:07,979

that are being taken from these various

119

00:05:16,550 --> 00:05:11,340

animals well we put out the hypothesis

120

00:05:20,689 --> 00:05:16,560

at nids back in 2003 we were looking for

121

00:05:22,909 --> 00:05:20,699

what could possibly be of such interest

122

00:05:23,830 --> 00:05:22,919

that I mean normally if you want to

123

00:05:26,510 --> 00:05:23,840

track something you go to

124

00:05:28,129 --> 00:05:26,520

slaughterhouses and you gather samples I

125

00:05:30,650 --> 00:05:28,139

mean there's no there's nothing

126
00:05:33,170 --> 00:05:30,660
mysterious about that but if you want to

127
00:05:36,290 --> 00:05:33,180
track spread of something through herds

128
00:05:38,150 --> 00:05:36,300
in the wild the way you do it is illegal

129
00:05:40,670 --> 00:05:38,160
I mean you basically start sampling

130
00:05:42,770 --> 00:05:40,680
animals if it's Wildlife it's not

131
00:05:45,529 --> 00:05:42,780
illegal but if these are cattle that are

132
00:05:49,129 --> 00:05:45,539
owned by ranchers it is illegal so you

133
00:05:51,469 --> 00:05:49,139
do it under under covert why would the

134
00:05:53,629 --> 00:05:51,479
government just have their own staple of

135
00:05:55,370 --> 00:05:53,639
cows that they would yeah why would you

136
00:05:57,469 --> 00:05:55,380
go steal somebody's cow instead because

137
00:06:00,529 --> 00:05:57,479
you're tracking something that's that's

138
00:06:02,770 --> 00:06:00,539

moving through the food chain in the in

139

00:06:05,570 --> 00:06:02,780

the west of the United States

140

00:06:06,770 --> 00:06:05,580

okay yeah yeah I mean we're eating cows

141

00:06:08,270 --> 00:06:06,780

right right but we're not eating the

142

00:06:10,129 --> 00:06:08,280

government's cows so it's like that's

143

00:06:13,430 --> 00:06:10,139

that's why they're do well well I mean

144

00:06:16,550 --> 00:06:13,440

the the the the real kicker here is that

145

00:06:19,070 --> 00:06:16,560

there's a long history of

146

00:06:21,590 --> 00:06:19,080

um I mean nids came up with a hypothesis

147

00:06:24,129 --> 00:06:21,600

that one of the possible infectious

148

00:06:26,870 --> 00:06:24,139

organisms that could be traveling

149

00:06:29,150 --> 00:06:26,880

surreptitiously through the herds was

150

00:06:31,330 --> 00:06:29,160

what what is called a prion which is an

151
00:06:34,390 --> 00:06:31,340
infectious protein indestructible

152
00:06:37,010 --> 00:06:34,400
indestructible and it it actually

153
00:06:38,510 --> 00:06:37,020
has destroyed a lot of the elk

154
00:06:40,370 --> 00:06:38,520
population a lot of the deer population

155
00:06:43,909 --> 00:06:40,380
in the western part of the United States

156
00:06:47,990 --> 00:06:43,919
and Canada but you know it also infects

157
00:06:51,110 --> 00:06:48,000
cows it infects deers and Elk so we we

158
00:06:53,870 --> 00:06:51,120
looked at the hypothesis that the

159
00:06:56,330 --> 00:06:53,880
Infectious organism which is a very

160
00:07:00,050 --> 00:06:56,340
devastating disease a brain disease

161
00:07:03,590 --> 00:07:00,060
called Christian Jakob syndrome where

162
00:07:05,809 --> 00:07:03,600
you're a human's brain turns to Swiss

163
00:07:08,029 --> 00:07:05,819

cheese in cows it's called mad cow

164

00:07:12,650 --> 00:07:08,039

disease and it erupted in the United

165

00:07:15,890 --> 00:07:12,660

Kingdom in the 1990s and you know people

166

00:07:18,350 --> 00:07:15,900

who were who were eating infected meat

167

00:07:20,510 --> 00:07:18,360

came down young people came down with

168

00:07:23,749 --> 00:07:20,520

these devastating brain diseases where

169

00:07:27,350 --> 00:07:23,759

the brains became swiss cheese and they

170

00:07:29,150 --> 00:07:27,360

but you know incurable obviously so the

171

00:07:32,749 --> 00:07:29,160

hypothesis that we were looking at is

172

00:07:34,309 --> 00:07:32,759

that this is so sort of toxic and very

173

00:07:37,189 --> 00:07:34,319

very

174

00:07:39,830 --> 00:07:37,199

um I guess inflammatory

175

00:07:43,309 --> 00:07:39,840

um is that a covert program was was

176

00:07:46,850 --> 00:07:43,319

launched in the 60s and 70s to see how

177

00:07:49,370 --> 00:07:46,860

far uh these prions might have got from

178

00:07:51,890 --> 00:07:49,380

Wildlife into the food chain when you

179

00:07:54,950 --> 00:07:51,900

say covert you mean a government decided

180

00:07:56,930 --> 00:07:54,960

Well probably a contractor a contract on

181

00:07:59,029 --> 00:07:56,940

behest of the government yes

182

00:08:01,249 --> 00:07:59,039

um did a covert program to track prions

183

00:08:03,469 --> 00:08:01,259

through the food chain that that was the

184

00:08:04,390 --> 00:08:03,479

hypothesis that we we were looking at

185

00:08:07,730 --> 00:08:04,400

because

186

00:08:10,610 --> 00:08:07,740

there is a uh you know it was a very

187

00:08:12,469 --> 00:08:10,620

bizarre series of

188

00:08:15,830 --> 00:08:12,479

um cause and effects that led to that

189

00:08:19,430 --> 00:08:15,840

hypothesis but to cut a long story short

190

00:08:22,670 --> 00:08:19,440

an NIH scientist out in Papua New Guinea

191

00:08:24,710 --> 00:08:22,680

uh was investigating this bizarre brain

192

00:08:26,869 --> 00:08:24,720

disease that people in Papua New Guinea

193

00:08:28,369 --> 00:08:26,879

were coming down with Edibles yeah there

194

00:08:30,950 --> 00:08:28,379

were cannibals they were eating their

195

00:08:32,510 --> 00:08:30,960

dead as a sign of respect but the

196

00:08:34,730 --> 00:08:32,520

problem with eating their dead was they

197

00:08:36,670 --> 00:08:34,740

were eating the these people's brains

198

00:08:39,350 --> 00:08:36,680

and they were come down with this

199

00:08:42,469 --> 00:08:39,360

uncontrollable shaking and they would

200

00:08:46,010 --> 00:08:42,479

die soon you know within a year or two

201
00:08:48,650 --> 00:08:46,020
of of symptoms starting so this guy his

202
00:08:51,769 --> 00:08:48,660
name was Carlton gajushek

203
00:08:53,810 --> 00:08:51,779
um he got the bright idea of

204
00:08:56,210 --> 00:08:53,820
you know who's kind of like a James Bond

205
00:08:58,009 --> 00:08:56,220
type he would be out in the wilds and

206
00:08:59,269 --> 00:08:58,019
these people would be dying all over the

207
00:09:02,090 --> 00:08:59,279
place

208
00:09:04,430 --> 00:09:02,100
um of this uncontrollable disease so we

209
00:09:06,350 --> 00:09:04,440
would open their skulls

210
00:09:08,509 --> 00:09:06,360
take their brains out which were

211
00:09:10,190 --> 00:09:08,519
infected with this thing and he would

212
00:09:11,630 --> 00:09:10,200
ship them back to the National

213
00:09:14,090 --> 00:09:11,640

Institutes of Health in the United

214

00:09:16,970 --> 00:09:14,100

States they all ended up in this place

215

00:09:19,910 --> 00:09:16,980

called Fort Dietrich Maryland which is a

216

00:09:23,210 --> 00:09:19,920

center of biological warfare research in

217

00:09:25,850 --> 00:09:23,220

the United States so they started

218

00:09:28,310 --> 00:09:25,860

in the 1960s they really had no idea

219

00:09:30,530 --> 00:09:28,320

what what this causative agent was doing

220

00:09:34,449 --> 00:09:30,540

or what it was they thought it might be

221

00:09:38,509 --> 00:09:34,459

a slow virus so they started injecting

222

00:09:40,009 --> 00:09:38,519

this these uh brain slurries into every

223

00:09:42,710 --> 00:09:40,019

animal they could get their hands on

224

00:09:44,329 --> 00:09:42,720

everything like from chimpanzees they

225

00:09:47,630 --> 00:09:44,339

set up this

226

00:09:49,550 --> 00:09:47,640

um sort of zoo like like area in

227

00:09:52,070 --> 00:09:49,560

Maryland there was actually a Wildlife

228

00:09:54,110 --> 00:09:52,080

Reserve in Maryland and they started

229

00:09:57,050 --> 00:09:54,120

injecting deer they started injecting

230

00:10:00,110 --> 00:09:57,060

chimpanzees mice rats anything they

231

00:10:01,670 --> 00:10:00,120

could lay their hands on to see if these

232

00:10:02,750 --> 00:10:01,680

animals would get sick and a lot of them

233

00:10:05,269 --> 00:10:02,760

did

234

00:10:09,050 --> 00:10:05,279

but the problem with that is that the uh

235

00:10:10,850 --> 00:10:09,060

the Wildlife Reserve was so poorly uh

236

00:10:15,050 --> 00:10:10,860

secure that a lot of these animals

237

00:10:17,870 --> 00:10:15,060

escaped and so you the origin of this

238

00:10:21,170 --> 00:10:17,880

hypothesis is that this

239

00:10:24,190 --> 00:10:21,180

prion which is a very slow way of dying

240

00:10:28,430 --> 00:10:24,200

was moving slowly through the food chain

241

00:10:31,009 --> 00:10:28,440

it and there was a a major outbreak of

242

00:10:34,370 --> 00:10:31,019

this prion disease in northeastern

243

00:10:36,769 --> 00:10:34,380

Colorado in the 60s and so the

244

00:10:39,170 --> 00:10:36,779

catalation phenomenon erupted in

245

00:10:42,290 --> 00:10:39,180

northeastern Colorado around the same

246

00:10:44,750 --> 00:10:42,300

time roughly temporally and so you know

247

00:10:47,569 --> 00:10:44,760

you've got all these sort of lights in

248

00:10:49,790 --> 00:10:47,579

the sky that were causing these animals

249

00:10:52,190 --> 00:10:49,800

or associated with these animals dying

250

00:10:53,990 --> 00:10:52,200

and so the hypothesis we put out was

251
00:10:57,050 --> 00:10:54,000
that they were actually monitoring the

252
00:10:58,610 --> 00:10:57,060
spread of these prions as it spread

253
00:11:01,130 --> 00:10:58,620
through the cattle herds in northeastern

254
00:11:03,829 --> 00:11:01,140
Colorado and then they found that there

255
00:11:06,490 --> 00:11:03,839
was spreading a lot quicker through the

256
00:11:09,350 --> 00:11:06,500
United States so and it's scary as hell

257
00:11:11,810 --> 00:11:09,360
column's book Brain Trust tracks the

258
00:11:13,310 --> 00:11:11,820
spread of this it really is through the

259
00:11:16,310 --> 00:11:13,320
food chain you know those animals get

260
00:11:18,829 --> 00:11:16,320
out a deer is infected it gets hit and

261
00:11:20,630 --> 00:11:18,839
and somebody grinds it up and feeds it

262
00:11:22,790 --> 00:11:20,640
to other animals these prions are

263
00:11:25,730 --> 00:11:22,800

indestructible so now those animals have

264

00:11:27,470 --> 00:11:25,740

it so you've had cows eating cows and

265

00:11:29,690 --> 00:11:27,480

they get it and then they they get

266

00:11:31,790 --> 00:11:29,700

ground up and people eat them and it

267

00:11:33,889 --> 00:11:31,800

goes into humans there's been an

268

00:11:35,269 --> 00:11:33,899

explosion we don't call it mad cow

269

00:11:37,610 --> 00:11:35,279

anymore but other kinds of brain

270

00:11:39,170 --> 00:11:37,620

diseases brain wasting diseases that

271

00:11:41,030 --> 00:11:39,180

nobody wants to talk about that nobody

272

00:11:43,490 --> 00:11:41,040

wants to admit might be related to this

273

00:11:45,350 --> 00:11:43,500

because they don't want to uh alienate

274

00:11:47,569 --> 00:11:45,360

the beef industry or the pig industry

275

00:11:48,790 --> 00:11:47,579

they want people to keep on eating this
