

1  
00:00:00,900 --> 00:00:05,690  
and this is weapons

2  
00:00:10,970 --> 00:00:08,450  
everybody hearing about this so what is

3  
00:00:13,490 --> 00:00:10,980  
the difference animals are killed and by

4  
00:00:15,770 --> 00:00:13,500  
Predators all the time there's signature

5  
00:00:18,950 --> 00:00:15,780  
things why is this even worth the

6  
00:00:22,370 --> 00:00:18,960  
investigation what are the key Hallmarks

7  
00:00:24,710 --> 00:00:22,380  
of a CA that you saw repeatedly Case by

8  
00:00:26,810 --> 00:00:24,720  
case repeated that tells you this is

9  
00:00:28,429 --> 00:00:26,820  
something other than normal predatory

10  
00:00:30,589 --> 00:00:28,439  
animals give me a laundry list tell me

11  
00:00:33,709 --> 00:00:30,599  
what you've seen well

12  
00:00:36,709 --> 00:00:33,719  
the uh the the first obvious uh

13  
00:00:39,290 --> 00:00:36,719

difference is that a predator when they

14

00:00:41,930 --> 00:00:39,300

attack a cow you know whether it be

15

00:00:44,450 --> 00:00:41,940

coyotes or Wolves or or whatever

16

00:00:47,690 --> 00:00:44,460

Predator cats

17

00:00:50,209 --> 00:00:47,700

um there's a lot of mess you know they

18

00:00:52,190 --> 00:00:50,219

open up the abdomen they open up you

19

00:00:54,470 --> 00:00:52,200

know various parts of the animal and

20

00:00:57,229 --> 00:00:54,480

there's a huge amount of Blood on the on

21

00:00:59,869 --> 00:00:57,239

the grass there's a lot of entrails

22

00:01:02,529 --> 00:00:59,879

spread around I mean we've seen this uh

23

00:01:05,270 --> 00:01:02,539

so so it's uh it's pretty obvious

24

00:01:08,090 --> 00:01:05,280

complete contrast with a with a cattle

25

00:01:11,149 --> 00:01:08,100

mutilation is there's usually pretty

26  
00:01:13,730 --> 00:01:11,159  
precise Cuts around the anus for example

27  
00:01:16,070 --> 00:01:13,740  
would be cord out you can see the edges

28  
00:01:17,929 --> 00:01:16,080  
of the wounds on the hide and they're

29  
00:01:20,570 --> 00:01:17,939  
very sharp edges I mean it looks like

30  
00:01:23,450 --> 00:01:20,580  
some kind of a scalpel or a surgical

31  
00:01:26,330 --> 00:01:23,460  
instrument has been used a lot of the

32  
00:01:28,910 --> 00:01:26,340  
time you see eyes removed and you see a

33  
00:01:32,390 --> 00:01:28,920  
sort of a a really sharp cut around the

34  
00:01:35,390 --> 00:01:32,400  
eyes we've even looked at the hair on on

35  
00:01:38,749 --> 00:01:35,400  
under a microscope of around the eyes

36  
00:01:41,630 --> 00:01:38,759  
and you can see how how crisp the cuts

37  
00:01:44,390 --> 00:01:41,640  
are from around the eyes ears are are a

38  
00:01:46,969 --> 00:01:44,400

lot of the time lopped off sometimes you

39

00:01:49,130 --> 00:01:46,979

know the ear carries a a plastic ear tag

40

00:01:51,530 --> 00:01:49,140

that the Rancher uses to identify the

41

00:01:54,590 --> 00:01:51,540

animal a lot of time that plastic air

42

00:01:58,310 --> 00:01:54,600

tag is gone but the the clean slice

43

00:02:01,850 --> 00:01:58,320

through the ear is very very different

44

00:02:06,170 --> 00:02:01,860

um you know from predators now even even

45

00:02:10,070 --> 00:02:06,180

Birds sometimes can can cause Sharp Cuts

46

00:02:11,869 --> 00:02:10,080

but not the plethora of Sharp Cuts that

47

00:02:14,510 --> 00:02:11,879

are very very distinctive around the

48

00:02:17,030 --> 00:02:14,520

animal the next really sort of defining

49

00:02:19,970 --> 00:02:17,040

characteristic is usually lack of blood

50

00:02:22,910 --> 00:02:19,980

you know when when you got cats or

51  
00:02:26,570 --> 00:02:22,920  
coyotes or wolves attacking cows you

52  
00:02:28,790 --> 00:02:26,580  
know the mess is unbelievable in many of

53  
00:02:31,430 --> 00:02:28,800  
these cases that we investigated there's

54  
00:02:33,650 --> 00:02:31,440  
really no blood in the animal or

55  
00:02:37,309 --> 00:02:33,660  
underneath the animal or on the animals

56  
00:02:40,430 --> 00:02:37,319  
so now that's not all cases but in some

57  
00:02:43,729 --> 00:02:40,440  
cases we had a we had a case that's been

58  
00:02:47,089 --> 00:02:43,739  
well documented in uh on the Skinwalker

59  
00:02:51,110 --> 00:02:47,099  
Ranch in Utah for example where you know

60  
00:02:52,690 --> 00:02:51,120  
an 84 pound calf that had been born the

61  
00:02:56,270 --> 00:02:52,700  
night previously

62  
00:02:58,610 --> 00:02:56,280  
was found dead on the pasture

63  
00:03:02,930 --> 00:02:58,620

the Rancher and his wife had tagged this

64

00:03:05,750 --> 00:03:02,940

animal just 45 minutes prior they were

65

00:03:09,350 --> 00:03:05,760

still in the pasture and sort of maybe

66

00:03:11,390 --> 00:03:09,360

200 300 yards away and they their dogs

67

00:03:13,910 --> 00:03:11,400

started acting up so they went to

68

00:03:15,830 --> 00:03:13,920

investigate and they found the mother of

69

00:03:18,770 --> 00:03:15,840

the calf that had been they had just

70

00:03:21,410 --> 00:03:18,780

tagged uh dragging its feet and sort of

71

00:03:23,210 --> 00:03:21,420

acting very strangely They Came Upon

72

00:03:25,970 --> 00:03:23,220

This calf that they had tagged 45

73

00:03:27,949 --> 00:03:25,980

minutes previously the calf was spread

74

00:03:30,350 --> 00:03:27,959

out on the pasture on their photographs

75

00:03:32,589 --> 00:03:30,360

on the internet of this we did a full

76  
00:03:35,930 --> 00:03:32,599  
report and we published it many times

77  
00:03:39,890 --> 00:03:35,940  
but the calf was like spread eagled out

78  
00:03:42,410 --> 00:03:39,900  
on the on the pasture all four legs well

79  
00:03:44,869 --> 00:03:42,420  
three legs were sort of spread out one

80  
00:03:46,910 --> 00:03:44,879  
of the legs was was about 10 feet away

81  
00:03:49,550 --> 00:03:46,920  
from the animal but the interesting

82  
00:03:52,670 --> 00:03:49,560  
thing was that we flew up on Robert

83  
00:03:55,250 --> 00:03:52,680  
Bigelow's private jet we were standing

84  
00:03:56,270 --> 00:03:55,260  
over that animal within seven hours of

85  
00:03:58,850 --> 00:03:56,280  
death

86  
00:04:02,630 --> 00:03:58,860  
so the animal was still fresh I mean you

87  
00:04:05,149 --> 00:04:02,640  
could see the animals uh pinkish flesh

88  
00:04:08,990 --> 00:04:05,159

was not a drop of blood in the animal

89

00:04:10,910 --> 00:04:09,000

its entire body cavity was empty all you

90

00:04:14,210 --> 00:04:10,920

could see was the sort of the spine

91

00:04:17,810 --> 00:04:14,220

running down from head head head to

92

00:04:21,770 --> 00:04:17,820

stern of the animal and the uh the legs

93

00:04:22,370 --> 00:04:21,780

were were spread out it was almost like

94

00:04:27,290 --> 00:04:22,380

um

95

00:04:28,810 --> 00:04:27,300

the calf had been very carefully laid on

96

00:04:31,249 --> 00:04:28,820

the grass

97

00:04:33,710 --> 00:04:31,259

not a drop of blood in the animal

98

00:04:35,390 --> 00:04:33,720

underneath the animal we actually went

99

00:04:37,730 --> 00:04:35,400

to the trouble of going to the local

100

00:04:41,030 --> 00:04:37,740

abattoir we got four liters of blood

101  
00:04:43,189 --> 00:04:41,040  
just in case you know this a lot of

102  
00:04:45,830 --> 00:04:43,199  
blood had had sort of seeped into the

103  
00:04:47,810 --> 00:04:45,840  
ground and disappeared it had not rained

104  
00:04:50,749 --> 00:04:47,820  
during that period so there was really

105  
00:04:53,510 --> 00:04:50,759  
no way that the the blood had been

106  
00:04:55,550 --> 00:04:53,520  
washed off but the thing was not a

107  
00:04:58,490 --> 00:04:55,560  
single drop of blood on the animal when

108  
00:05:01,140 --> 00:04:58,500  
we poured blood on that grass it was

109  
00:05:04,850 --> 00:05:01,150  
obvious it was so obvious

110  
00:05:08,810 --> 00:05:07,070  
the Gormans were especially sensitive

111  
00:05:11,570 --> 00:05:08,820  
because of the losses they'd already

112  
00:05:14,150 --> 00:05:11,580  
suffered out of a herd of 80 cattle they

113  
00:05:17,270 --> 00:05:14,160

lost 14 head prior to the arrival of

114

00:05:19,850 --> 00:05:17,280

nids some disappeared others were sliced

115

00:05:22,249 --> 00:05:19,860

up twelve more cows and calves were

116

00:05:24,230 --> 00:05:22,259

killed while mids was on the ranch their

117

00:05:26,450 --> 00:05:24,240

neighbors the Garcias lost several

118

00:05:28,010 --> 00:05:26,460

animals as well some of their cattle

119

00:05:29,990 --> 00:05:28,020

appeared to have been killed by being

120

00:05:32,510 --> 00:05:30,000

dropped onto the pasture from a great

121

00:05:34,850 --> 00:05:32,520

height the cattle mutilation mystery has

122

00:05:37,790 --> 00:05:34,860

been reported in at least 15 states

123

00:05:39,529 --> 00:05:37,800

dating back to the 1960s thousands of

124

00:05:41,749 --> 00:05:39,539

animals have been sliced up with

125

00:05:44,330 --> 00:05:41,759

surgical Precision mostly under the

126  
00:05:46,610 --> 00:05:44,340  
cover of Darkness if humans are doing it

127  
00:05:48,890 --> 00:05:46,620  
not a single suspect has ever been

128  
00:05:51,409 --> 00:05:48,900  
caught for the Gormans the livestock

129  
00:05:54,230 --> 00:05:51,419  
losses were devastating both financially

130  
00:05:56,029 --> 00:05:54,240  
and psychologically and then things got

131  
00:06:00,110 --> 00:05:56,039  
worse

132  
00:06:01,850 --> 00:06:00,120  
on March 10 1997 Tom Gorman and his wife

133  
00:06:04,370 --> 00:06:01,860  
walked out of their home and into the

134  
00:06:06,529 --> 00:06:04,380  
pasture planning to tag the ears of

135  
00:06:08,689 --> 00:06:06,539  
several calves that had been born in the

136  
00:06:11,450 --> 00:06:08,699  
preceding days it was a bright clear

137  
00:06:12,890 --> 00:06:11,460  
morning snow was on the ground 50 yards

138  
00:06:15,730 --> 00:06:12,900

from their house they found the first

139

00:06:19,310 --> 00:06:15,740

calf as they were with their their dog

140

00:06:21,590 --> 00:06:19,320

the two of them tagged and weighed this

141

00:06:23,330 --> 00:06:21,600

animal they they checked it at I believe

142

00:06:27,650 --> 00:06:23,340

was 84 pounds

143

00:06:28,909 --> 00:06:27,660

or 87 pounds and they left the animal

144

00:06:30,650 --> 00:06:28,919

there

145

00:06:32,870 --> 00:06:30,660

with the with the mother everything

146

00:06:36,710 --> 00:06:32,880

seemed to be fine although they did

147

00:06:39,890 --> 00:06:36,720

detect an odor in the air around this uh

148

00:06:41,510 --> 00:06:39,900

area they they detected a strong musk

149

00:06:43,610 --> 00:06:41,520

smell

150

00:06:46,430 --> 00:06:43,620

um they took note of it and then they

151  
00:06:49,129 --> 00:06:46,440  
headed west and they went about 300

152  
00:06:51,830 --> 00:06:49,139  
yards west beyond the the dog run was is

153  
00:06:54,249 --> 00:06:51,840  
not was not there at the time but about

154  
00:06:57,230 --> 00:06:54,259  
300 yards Beyond

155  
00:06:59,450 --> 00:06:57,240  
towards where that incline is

156  
00:07:02,210 --> 00:06:59,460  
um and they were tagging a second animal

157  
00:07:04,430 --> 00:07:02,220  
only 30 to 40 minutes had passed the

158  
00:07:06,350 --> 00:07:04,440  
Gormans had an unobstructed view of

159  
00:07:09,230 --> 00:07:06,360  
everything in the field but didn't see

160  
00:07:11,450 --> 00:07:09,240  
or hear anything unusual until their dog

161  
00:07:14,270 --> 00:07:11,460  
focused its attention back toward the

162  
00:07:16,670 --> 00:07:14,280  
house and the first calf the dog with

163  
00:07:18,770 --> 00:07:16,680

them down here at this stage began to

164

00:07:20,749 --> 00:07:18,780

act really strangely it started growling

165

00:07:23,270 --> 00:07:20,759

the hair on the back of its neck went up

166

00:07:26,930 --> 00:07:23,280

and it started facing back

167

00:07:29,629 --> 00:07:26,940

towards here growling and snarling and

168

00:07:31,610 --> 00:07:29,639

then it just took off West away from

169

00:07:34,189 --> 00:07:31,620

this spot it just took off it was never

170

00:07:36,110 --> 00:07:34,199

seen again the Gormans were curious and

171

00:07:38,689 --> 00:07:36,120

walked back across the field first thing

172

00:07:42,110 --> 00:07:38,699

they saw was the mother of the animal

173

00:07:46,129 --> 00:07:42,120

was running back and forth kind of in a

174

00:07:48,890 --> 00:07:46,139

in a a sort of half circle from about

175

00:07:51,409 --> 00:07:48,900

this area to the fence line just running

176  
00:07:53,270 --> 00:07:51,419  
back and forth and it was limping I mean

177  
00:07:55,610 --> 00:07:53,280  
it was dragging its foot it was limping

178  
00:07:58,070 --> 00:07:55,620  
they met the animal

179  
00:08:00,529 --> 00:07:58,080  
um and they noticed that it was just

180  
00:08:02,749 --> 00:08:00,539  
totally out of breath it was panting it

181  
00:08:04,850 --> 00:08:02,759  
was obviously in deep stress and it was

182  
00:08:07,370 --> 00:08:04,860  
dragging one leg and then they noticed

183  
00:08:09,350 --> 00:08:07,380  
the calf or what was left of it

184  
00:08:10,370 --> 00:08:09,360  
spread eagle on the ground just about

185  
00:08:13,249 --> 00:08:10,380  
here

186  
00:08:16,249 --> 00:08:13,259  
with uh was it was lying with all four

187  
00:08:19,249 --> 00:08:16,259  
limbs just spread on the ground all of

188  
00:08:22,490 --> 00:08:19,259

its internal body cavity was gone it was

189

00:08:26,089 --> 00:08:22,500

completely pretty well all of its muscle

190

00:08:29,629 --> 00:08:26,099

was gone from the from the Torso the

191

00:08:32,089 --> 00:08:29,639

legs were still intact but the one of

192

00:08:34,730 --> 00:08:32,099

the ears was also gone so

193

00:08:36,709 --> 00:08:34,740

they called Ned's the Rancher placed a

194

00:08:38,630 --> 00:08:36,719

call to the nid's investigators who'd

195

00:08:41,389 --> 00:08:38,640

returned to Las Vegas for a rare weekend

196

00:08:43,370 --> 00:08:41,399

off within a few hours a four-man team

197

00:08:44,530 --> 00:08:43,380

including a veterinarian was on the

198

00:08:47,210 --> 00:08:44,540

scene

199

00:08:49,190 --> 00:08:47,220

necropsy started and the first thing

200

00:08:51,290 --> 00:08:49,200

that the veterinarian noticed during the

201

00:08:53,389 --> 00:08:51,300

necropsy was that the the ear of the

202

00:08:55,070 --> 00:08:53,399

animal had been sliced off with a very

203

00:08:57,829 --> 00:08:55,080

sharp instrument

204

00:09:00,730 --> 00:08:57,839

possibly a scalpel and the ear had

205

00:09:05,449 --> 00:09:00,740

contained a very large plastic Yellow

206

00:09:09,530 --> 00:09:05,459

Tag like a an ear tag that they had just

207

00:09:10,930 --> 00:09:09,540

put on and it was gone so the necropsy

208

00:09:13,610 --> 00:09:10,940

proceeded

209

00:09:15,530 --> 00:09:13,620

about 10 feet away from the animal there

210

00:09:18,050 --> 00:09:15,540

was a femur one of the femurs had been

211

00:09:20,690 --> 00:09:18,060

forcibly ripped out of a ball and socket

212

00:09:23,090 --> 00:09:20,700

joint which is extremely difficult to do

213

00:09:25,070 --> 00:09:23,100

I mean in terms strength it was it

214

00:09:28,009 --> 00:09:25,080

looked initially you know superficially

215

00:09:30,710 --> 00:09:28,019

like a massive Predator had just Lane

216

00:09:33,650 --> 00:09:30,720

waste to this animal removed you know 60

217

00:09:35,269 --> 00:09:33,660

pounds of meat in 45 minutes which we

218

00:09:37,190 --> 00:09:35,279

don't know of any predator that could

219

00:09:39,710 --> 00:09:37,200

have done that and how could a predator

220

00:09:42,290 --> 00:09:39,720

inflict such Carnage without being seen

221

00:09:44,810 --> 00:09:42,300

or heard by the Rancher his wife or his

222

00:09:46,730 --> 00:09:44,820

dog who were a few hundred yards away in

223

00:09:49,310 --> 00:09:46,740

the same field on what was a quiet

224

00:09:51,949 --> 00:09:49,320

Sunday morning no four-legged Predator

225

00:09:54,110 --> 00:09:51,959

known to science could do it the team

226  
00:09:56,269 --> 00:09:54,120  
gathered tissue and Bone samples which

227  
00:09:58,550 --> 00:09:56,279  
were sent to three independent pathology

228  
00:10:00,650 --> 00:09:58,560  
Labs the results arrived later but

229  
00:10:02,810 --> 00:10:00,660  
confirmed what seemed obvious in the

230  
00:10:04,970 --> 00:10:02,820  
pasture that day the calf had been

231  
00:10:07,610 --> 00:10:04,980  
carved up by someone wielding sharp

232  
00:10:10,550 --> 00:10:07,620  
metallic instruments a heavy machete

233  
00:10:12,949 --> 00:10:10,560  
like object had slammed into the bones a

234  
00:10:14,930 --> 00:10:12,959  
smaller scalpel-like knife had sliced

235  
00:10:16,310 --> 00:10:14,940  
the hide and muscle but closer

236  
00:10:18,110 --> 00:10:16,320  
inspection revealed that it was

237  
00:10:21,590 --> 00:10:18,120  
definitely sharp instruments used there

238  
00:10:23,990 --> 00:10:21,600

was no sign of blood there was no sign

239

00:10:26,870 --> 00:10:24,000  
of entrails around it was perfectly

240

00:10:28,670 --> 00:10:26,880  
clean not a drop of blood on the grass

241

00:10:30,410 --> 00:10:28,680  
we went even as far as doing an

242

00:10:32,230 --> 00:10:30,420  
experiment by pouring blood in the grass

243

00:10:35,030 --> 00:10:32,240  
to see how fast it would seep through

244

00:10:36,829 --> 00:10:35,040  
videotaped the grass and showed you know

245

00:10:39,050 --> 00:10:36,839  
even two days later you could still see

246

00:10:41,030 --> 00:10:39,060  
the stain on the grass so there was no

247

00:10:43,250 --> 00:10:41,040  
blood whatsoever not a single drop

248

00:10:45,410 --> 00:10:43,260  
either underneath the animal on the

249

00:10:48,050 --> 00:10:45,420  
animal or on the grass it was just

250

00:10:50,329 --> 00:10:48,060  
completely clean a professional tracker

251  
00:10:51,949 --> 00:10:50,339  
was brought in he scoured every inch of

252  
00:10:54,710 --> 00:10:51,959  
ground in and around down the field

253  
00:10:57,110 --> 00:10:54,720  
looking for tracks human animal or

254  
00:10:58,970 --> 00:10:57,120  
vehicle nothing eventually the

255  
00:11:01,370 --> 00:10:58,980  
investigators reached an unsettling

256  
00:11:03,350 --> 00:11:01,380  
conclusion the bottom line is this

257  
00:11:05,810 --> 00:11:03,360  
animal must have been killed elsewhere

258  
00:11:07,490 --> 00:11:05,820  
because there was no blood there was no

259  
00:11:09,829 --> 00:11:07,500  
blood on the scene and then the animal

260  
00:11:13,430 --> 00:11:09,839  
must have been brought back laid down

261  
00:11:15,769 --> 00:11:13,440  
carefully almost you know really almost

262  
00:11:18,410 --> 00:11:15,779  
ritually on the spot where it had been

263  
00:11:20,449 --> 00:11:18,420

tagged the nids team investigated dozens

264

00:11:23,090 --> 00:11:20,459

of Mutilation cases across the country

265

00:11:25,790 --> 00:11:23,100

many of the tissue samples were analyzed

266

00:11:28,130 --> 00:11:25,800

in need's own lab in Las Vegas and then

267

00:11:30,949 --> 00:11:28,140

double checked by independent labs they

268

00:11:33,350 --> 00:11:30,959

hired the Utah calf was in a category

269

00:11:36,110 --> 00:11:33,360

all its own it seemed akin to

270

00:11:38,389 --> 00:11:36,120

psychological warfare intended to shock

271

00:11:40,250 --> 00:11:38,399

and frighten the witnesses the following

272

00:11:42,590 --> 00:11:40,260

night there was another scare in the

273

00:11:44,690 --> 00:11:42,600

darkness of the first Homestead shots

274

00:11:47,210 --> 00:11:44,700

were fired at something that had rattled

275

00:11:49,009 --> 00:11:47,220

the herd eventually column Kelleher

276

00:11:52,490 --> 00:11:49,019

surmised that the perpetrators

277

00:11:55,130 --> 00:11:52,500

responsible for the calf were like an

278

00:11:57,290 --> 00:11:55,140

assembly line in a meat packing plant a

279

00:12:01,310 --> 00:11:57,300

machine was involved with this Carnage

280

00:12:04,510 --> 00:12:01,320

whatever happened to that calf was a an

281

00:12:07,790 --> 00:12:04,520

extraordinarily skillful job
