

WEAPONIZED #5

# THE SCIENCE OF ANIMAL MUTILATIONS

GUEST : DR. COLM KELLEHER

1  
00:00:06,889 --> 00:00:04,130  
Secrets cover-ups and strange phenomena

2  
00:00:09,890 --> 00:00:06,899  
UFOs and ideas that challenge reality

3  
00:00:11,509 --> 00:00:09,900  
itself all these Mysteries all this time

4  
00:00:14,089 --> 00:00:11,519  
are we ever going to get to the bottom

5  
00:00:16,609 --> 00:00:14,099  
of these my name is George Knapp I dig

6  
00:00:18,950 --> 00:00:16,619  
into news stories that others can't or

7  
00:00:20,630 --> 00:00:18,960  
won't I'm Jeremy Corbell and for some

8  
00:00:22,670 --> 00:00:20,640  
reason people tell me things they

9  
00:00:27,349 --> 00:00:22,680  
probably shouldn't

10  
00:00:32,590 --> 00:00:29,570  
some viewers may find this episode of

11  
00:00:38,030 --> 00:00:35,990  
hey this is weaponized we have a special

12  
00:00:40,670 --> 00:00:38,040  
guest a long time friend of ours Dr

13  
00:00:43,250 --> 00:00:40,680

column Kelleher an eminent scientist and

14

00:00:45,170 --> 00:00:43,260

investigator and we got a lot of ground

15

00:00:47,510 --> 00:00:45,180

to cover I thought we would start with

16

00:00:49,790 --> 00:00:47,520

maybe a a general term that gets way

17

00:00:52,790 --> 00:00:49,800

overused it's become sort of a buzzword

18

00:00:55,250 --> 00:00:52,800

in scientific circles you see physicists

19

00:00:57,229 --> 00:00:55,260

using it you see UFO researchers using

20

00:00:58,850 --> 00:00:57,239

it all kinds of people who don't

21

00:01:00,830 --> 00:00:58,860

seemingly know what it means don't know

22

00:01:03,049 --> 00:01:00,840

what the source of Consciousness is but

23

00:01:06,289 --> 00:01:03,059

column you've worked on Consciousness

24

00:01:07,490 --> 00:01:06,299

related issues for decades give us a

25

00:01:09,649 --> 00:01:07,500

sense of

26  
00:01:11,810 --> 00:01:09,659  
um does the public understand what it is

27  
00:01:13,789 --> 00:01:11,820  
does science understand what it is and

28  
00:01:16,250 --> 00:01:13,799  
how it relates in general terms to the

29  
00:01:17,750 --> 00:01:16,260  
topics that we all discuss privately and

30  
00:01:20,210 --> 00:01:17,760  
and publicly

31  
00:01:22,190 --> 00:01:20,220  
well obviously you know Consciousness

32  
00:01:24,350 --> 00:01:22,200  
means uh different things to different

33  
00:01:27,170 --> 00:01:24,360  
people as you've just said but

34  
00:01:29,749 --> 00:01:27,180  
um from the the perspective of what's

35  
00:01:32,450 --> 00:01:29,759  
becoming more and more mainstream I

36  
00:01:35,030 --> 00:01:32,460  
think we've got a new sort of format for

37  
00:01:37,910 --> 00:01:35,040  
discussing Consciousness in even in

38  
00:01:40,370 --> 00:01:37,920

academic circles and people like Jeffrey

39

00:01:43,690 --> 00:01:40,380

kreypal people like Professor Donald

40

00:01:46,850 --> 00:01:43,700

Hoffman from UC Irvine Edward Kelly

41

00:01:48,890 --> 00:01:46,860

there's quite a few people who are now

42

00:01:50,630 --> 00:01:48,900

coming forward and they're discussing

43

00:01:53,990 --> 00:01:50,640

Consciousness in a completely different

44

00:01:56,510 --> 00:01:54,000

way the Paradigm like for 100 years has

45

00:01:59,030 --> 00:01:56,520

been that Consciousness arises from the

46

00:02:01,670 --> 00:01:59,040

brain and what they're saying is we're

47

00:02:03,889 --> 00:02:01,680

turning that completely on its head and

48

00:02:07,510 --> 00:02:03,899

we're saying that Consciousness is

49

00:02:10,790 --> 00:02:07,520

actually a lot bigger than what's being

50

00:02:13,430 --> 00:02:10,800

allegedly made in the brain so the whole

51  
00:02:15,710 --> 00:02:13,440  
format of Consciousness is changing and

52  
00:02:19,369 --> 00:02:15,720  
as this brings more and more into

53  
00:02:23,150 --> 00:02:19,379  
mainstream as a as a person who's looked

54  
00:02:25,430 --> 00:02:23,160  
at UFOs for many many years I see an

55  
00:02:28,850 --> 00:02:25,440  
awful lot of relevance for Consciousness

56  
00:02:31,910 --> 00:02:28,860  
and the overlap with UFOs in fact I see

57  
00:02:35,030 --> 00:02:31,920  
human consciousness as being a sort of a

58  
00:02:39,170 --> 00:02:35,040  
link a linchpin for this the future

59  
00:02:43,130 --> 00:02:39,180  
study of UFOs I think it's all well and

60  
00:02:46,070 --> 00:02:43,140  
good to you know do a lot of uh research

61  
00:02:50,690 --> 00:02:46,080  
on sensor-driven technology with UFOs

62  
00:02:53,150 --> 00:02:50,700  
but the the real effects of of UFOs on

63  
00:02:56,390 --> 00:02:53,160

humans have to do with effects on

64

00:02:58,550 --> 00:02:56,400

Consciousness as well as effects on on

65

00:03:01,190 --> 00:02:58,560

other aspects physiological effects

66

00:03:04,369 --> 00:03:01,200

psychological effects so the idea that

67

00:03:08,150 --> 00:03:04,379

Consciousness might be prime quote

68

00:03:10,930 --> 00:03:08,160

unquote is a pretty New Concept that has

69

00:03:12,830 --> 00:03:10,940

been sort of out on the margins of

70

00:03:16,850 --> 00:03:12,840

Neuroscience but it's getting more

71

00:03:20,089 --> 00:03:16,860

mainstream now and I believe that the

72

00:03:23,750 --> 00:03:20,099

study of UFO will benefit from this new

73

00:03:26,330 --> 00:03:23,760

infusion of you know creativity from

74

00:03:28,670 --> 00:03:26,340

Academia I love how you just went for

75

00:03:30,410 --> 00:03:28,680

the jugular and we are deep in it I just

76

00:03:33,290 --> 00:03:30,420

want to before we go anywhere I want to

77

00:03:35,390 --> 00:03:33,300

say I am so excited to have you on this

78

00:03:38,089 --> 00:03:35,400

show because you guys have been friends

79

00:03:39,530 --> 00:03:38,099

for so long and over those years you

80

00:03:40,610 --> 00:03:39,540

know for the decade we've been working

81

00:03:42,410 --> 00:03:40,620

together

82

00:03:44,869 --> 00:03:42,420

um I've gotten to know you and we become

83

00:03:47,690 --> 00:03:44,879

friends but this is a rare opportunity

84

00:03:50,149 --> 00:03:47,700

where we can just talk from a very

85

00:03:52,250 --> 00:03:50,159

um from a disposition of knowledge of

86

00:03:54,649 --> 00:03:52,260

each other for a long time I'm excited

87

00:03:56,809 --> 00:03:54,659

that you're here because you have been

88

00:03:58,850 --> 00:03:56,819

Central to a lot of what's been going on

89

00:04:01,729 --> 00:03:58,860

a lot of times the public could never

90

00:04:03,470 --> 00:04:01,739

know about it but now they can and

91

00:04:05,750 --> 00:04:03,480

that's why you talking with your buddy

92

00:04:07,970 --> 00:04:05,760

column just talking to him so people can

93

00:04:10,910 --> 00:04:07,980

hear to see kind of what brought you

94

00:04:12,289 --> 00:04:10,920

here how you got to the point of being I

95

00:04:14,030 --> 00:04:12,299

don't know what a good reference would

96

00:04:16,969 --> 00:04:14,040

be but it's like you've studied things

97

00:04:19,069 --> 00:04:16,979

that most of the world has never even

98

00:04:22,189 --> 00:04:19,079

considered but but you didn't start that

99

00:04:24,050 --> 00:04:22,199

way I'm curious what column Dr column

100

00:04:26,030 --> 00:04:24,060

Keller's origin story is like where does

101  
00:04:28,610 --> 00:04:26,040  
that yeah how does this happen so let's

102  
00:04:31,010 --> 00:04:28,620  
let's set the stage he's in Ireland he's

103  
00:04:33,710 --> 00:04:31,020  
in Dublin he's taking classes drinking

104  
00:04:35,870 --> 00:04:33,720  
pints and chasing girls what what was

105  
00:04:37,850 --> 00:04:35,880  
your degree in column and what was your

106  
00:04:40,430 --> 00:04:37,860  
long-term plan how did you end up here

107  
00:04:43,010 --> 00:04:40,440  
so you're making it sound like I had a

108  
00:04:45,469 --> 00:04:43,020  
Damascus experience in Dublin which

109  
00:04:49,010 --> 00:04:45,479  
probably arose through a couple of pints

110  
00:04:51,469 --> 00:04:49,020  
of Guinness but yeah uh I was studying

111  
00:04:53,749 --> 00:04:51,479  
biochemistry in University College

112  
00:04:56,170 --> 00:04:53,759  
Dublin and then I went on and I studied

113  
00:05:00,110 --> 00:04:56,180

biochemistry in Trinity College Dublin

114

00:05:04,129 --> 00:05:00,120

and part of that was part of that latter

115

00:05:06,530 --> 00:05:04,139

study was a sojourn in France down in uh

116

00:05:10,610 --> 00:05:06,540

in south of France where I spent eight

117

00:05:13,189 --> 00:05:10,620

months at a laboratory in France and met

118

00:05:15,710 --> 00:05:13,199

a Canadian guy and we collaborated on

119

00:05:18,050 --> 00:05:15,720

some experiments and they worked really

120

00:05:22,249 --> 00:05:18,060

well so we invited me over to Canada so

121

00:05:24,290 --> 00:05:22,259

I I left Ireland in 1980 Something uh

122

00:05:26,270 --> 00:05:24,300

just for a couple of years and I was

123

00:05:28,730 --> 00:05:26,280

intending to go back to Ireland but you

124

00:05:32,510 --> 00:05:28,740

know I never left I never left North

125

00:05:35,270 --> 00:05:32,520

America I mean here I am almost 35 to 40

126  
00:05:38,510 --> 00:05:35,280  
years later and I'm still here and I I

127  
00:05:41,330 --> 00:05:38,520  
think I've been sort of very very

128  
00:05:42,730 --> 00:05:41,340  
fortunate in the way things have sort of

129  
00:05:47,210 --> 00:05:42,740  
unfolded

130  
00:05:50,029 --> 00:05:47,220  
over the years I moved from Ottawa in

131  
00:05:52,129 --> 00:05:50,039  
Canada to Toronto spent a few years in

132  
00:05:55,790 --> 00:05:52,139  
Toronto spent a few years in Vancouver

133  
00:05:57,830 --> 00:05:55,800  
came down to Denver Colorado all you

134  
00:06:00,650 --> 00:05:57,840  
know following work and following

135  
00:06:02,749 --> 00:06:00,660  
different aspects of research and then I

136  
00:06:04,370 --> 00:06:02,759  
moved to Las Vegas Nevada to join

137  
00:06:08,390 --> 00:06:04,380  
National Institute for Discovery Science

138  
00:06:10,070 --> 00:06:08,400

in 1996 spent eight years in Las Vegas

139

00:06:13,189 --> 00:06:10,080

and then I moved to a biotechnology

140

00:06:15,409 --> 00:06:13,199

company in San Francisco and then I got

141

00:06:18,550 --> 00:06:15,419

a very mysterious call Through the

142

00:06:21,650 --> 00:06:18,560

Grapevine that there was a a new

143

00:06:23,870 --> 00:06:21,660

government-sponsored program in 2008

144

00:06:26,090 --> 00:06:23,880

starting up so I moved back to Las Vegas

145

00:06:28,430 --> 00:06:26,100

and I've been here ever since so it's

146

00:06:30,469 --> 00:06:28,440

kind of like this long shaggy dog story

147

00:06:33,950 --> 00:06:30,479

so yeah we're going to back you up

148

00:06:35,749 --> 00:06:33,960

though so you are you study you are a

149

00:06:36,950 --> 00:06:35,759

scientist in what realm were you doing

150

00:06:38,809 --> 00:06:36,960

besides like who are some of your

151

00:06:40,790 --> 00:06:38,819

mentors at the time time before you

152

00:06:42,469 --> 00:06:40,800

answer this strange ad in a newspaper I

153

00:06:44,629 --> 00:06:42,479

want to get to which changes your life

154

00:06:46,309 --> 00:06:44,639

forever from how I understand it yeah

155

00:06:48,529 --> 00:06:46,319

what kind of science were you doing who

156

00:06:50,330 --> 00:06:48,539

are your mentors and what inspired you

157

00:06:52,730 --> 00:06:50,340

by your Mentor you were a mainstream guy

158

00:06:55,070 --> 00:06:52,740

doing mainstream science for a while and

159

00:06:57,050 --> 00:06:55,080

then you went off the rails right that's

160

00:06:59,050 --> 00:06:57,060

right yeah I fell fell off the cliff

161

00:07:00,830 --> 00:06:59,060

what kind of science

162

00:07:03,469 --> 00:07:00,840

I guess

163

00:07:07,430 --> 00:07:03,479

um the main Mentor me as you speak of

164

00:07:10,010 --> 00:07:07,440

mentors uh was a guy in the Ontario

165

00:07:13,670 --> 00:07:10,020

Cancer Institute in Toronto I was

166

00:07:16,610 --> 00:07:13,680

studying the molecular biology of acute

167

00:07:20,390 --> 00:07:16,620

myeloblastic leukemia in other words how

168

00:07:22,570 --> 00:07:20,400

how leukemic cells grow and they grow

169

00:07:25,670 --> 00:07:22,580

out of control and they kill people so

170

00:07:27,469 --> 00:07:25,680

part of my my study was working with

171

00:07:29,689 --> 00:07:27,479

this guy

172

00:07:32,570 --> 00:07:29,699

Ernest McCullough who was actually

173

00:07:36,290 --> 00:07:32,580

credited with discovering stem cells and

174

00:07:38,570 --> 00:07:36,300

mice back in the 60s so the Ontario

175

00:07:41,450 --> 00:07:38,580

Cancer Institute was sort of of the

176

00:07:44,450 --> 00:07:41,460

place in Canada it was kind of the

177

00:07:47,029 --> 00:07:44,460

flagship place for research in Canada so

178

00:07:49,550 --> 00:07:47,039

I had I had this guy as a mentor and one

179

00:07:53,210 --> 00:07:49,560

of the things that he always drummed

180

00:07:55,249 --> 00:07:53,220

into me was look son if you really want

181

00:07:58,309 --> 00:07:55,259

to catch a big fish

182

00:08:01,129 --> 00:07:58,319

Go Fish in places where there's nobody

183

00:08:03,830 --> 00:08:01,139

else fishing and you know I that whole

184

00:08:05,930 --> 00:08:03,840

sort of advice stuck with me because I

185

00:08:08,150 --> 00:08:05,940

could see you know

186

00:08:10,610 --> 00:08:08,160

um the difference between you know

187

00:08:14,270 --> 00:08:10,620

Sciences business as usual versus

188

00:08:17,930 --> 00:08:14,280

science in in a sort of a much more

189

00:08:21,350 --> 00:08:17,940

um I guess Paradigm creating way so

190

00:08:23,749 --> 00:08:21,360

um I I took his advice to heart and um

191

00:08:25,850 --> 00:08:23,759

you know I was I was working down in

192

00:08:29,029 --> 00:08:25,860

Denver Colorado in an Immunology

193

00:08:31,010 --> 00:08:29,039

Research Institute when I saw this I

194

00:08:34,850 --> 00:08:31,020

opened Science magazine which is kind of

195

00:08:37,969 --> 00:08:34,860

the the sort of uh Bible yes the Bible

196

00:08:40,550 --> 00:08:37,979

of of Science and um you know you see

197

00:08:43,310 --> 00:08:40,560

ads for post-doctoral fellowships and

198

00:08:46,310 --> 00:08:43,320

virology and you know sort of graduate

199

00:08:47,810 --> 00:08:46,320

students and sort of biochemistry but in

200

00:08:50,150 --> 00:08:47,820

the middle of all of these really

201  
00:08:53,090 --> 00:08:50,160  
technical ads there was a sort of a

202  
00:08:55,190 --> 00:08:53,100  
almost a full-page ad saying we are

203  
00:08:58,610 --> 00:08:55,200  
recruiting scientists who are interested

204  
00:09:01,370 --> 00:08:58,620  
in researching the origin and evolution

205  
00:09:03,889 --> 00:09:01,380  
of Consciousness in the universe I mean

206  
00:09:06,530 --> 00:09:03,899  
can you imagine for a for a sort of a

207  
00:09:08,630 --> 00:09:06,540  
mainstream biologist sort of biochemist

208  
00:09:11,090 --> 00:09:08,640  
looking at this I mean the kind of the

209  
00:09:12,829 --> 00:09:11,100  
word the verbiage just blew my mind and

210  
00:09:17,269 --> 00:09:12,839  
there was a phone number at the bottom

211  
00:09:20,389 --> 00:09:17,279  
uh of of the the page so I naturally I

212  
00:09:22,970 --> 00:09:20,399  
was so intrigued I called it and um you

213  
00:09:25,430 --> 00:09:22,980

know I got to talk to

214

00:09:27,410 --> 00:09:25,440

um Robert Bigelow's assistant and then I

215

00:09:30,829 --> 00:09:27,420

got to talk to Robert Bigelow and then I

216

00:09:34,310 --> 00:09:30,839

found myself out in Las Vegas Nevada

217

00:09:36,370 --> 00:09:34,320

um in uh Robert Bigelow's corporate

218

00:09:39,650 --> 00:09:36,380

office sort of sitting there

219

00:09:43,310 --> 00:09:39,660

interviewing me and he hired me a couple

220

00:09:45,829 --> 00:09:43,320

of weeks later and it was like a a total

221

00:09:48,110 --> 00:09:45,839

uh life-changing sort of change in

222

00:09:50,570 --> 00:09:48,120

Direction because I moved from

223

00:09:53,990 --> 00:09:50,580

mainstream science into what could be

224

00:09:56,389 --> 00:09:54,000

called you know borderline science or

225

00:09:58,730 --> 00:09:56,399

liminal science or or you know science

226

00:10:01,550 --> 00:09:58,740

that was not 100 accepted by the

227

00:10:03,889 --> 00:10:01,560

mainstream so I mean it was that ad in

228

00:10:06,650 --> 00:10:03,899

Science magazine that I I could I guess

229

00:10:08,810 --> 00:10:06,660

say change my life it was the one it was

230

00:10:09,949 --> 00:10:08,820

the uninvestigated is what it was and

231

00:10:13,090 --> 00:10:09,959

what year because I want to see where

232

00:10:16,370 --> 00:10:13,100

that where that possible 1996. yeah

233

00:10:18,050 --> 00:10:16,380

yeah wow I joined an organization called

234

00:10:20,690 --> 00:10:18,060

the National Institute for Discovery

235

00:10:22,370 --> 00:10:20,700

Science and you know the name of the

236

00:10:26,570 --> 00:10:22,380

National Institute for Discovery Science

237

00:10:28,610 --> 00:10:26,580

is is worth noting because Discovery is

238

00:10:31,790 --> 00:10:28,620

the sort of essence of the scientific

239

00:10:34,910 --> 00:10:31,800

process and that the purpose for for

240

00:10:38,210 --> 00:10:34,920

nids as it was called for short was to

241

00:10:41,090 --> 00:10:38,220

actually investigate anomalies and

242

00:10:44,690 --> 00:10:41,100

investigating anomalies was an inherent

243

00:10:47,509 --> 00:10:44,700

part of the discovery process in in sort

244

00:10:49,910 --> 00:10:47,519

of opening up new fields for research so

245

00:10:51,769 --> 00:10:49,920

I thought that the nomenclature you know

246

00:10:54,350 --> 00:10:51,779

naming National Institute for Discovery

247

00:10:56,750 --> 00:10:54,360

Science was a very good move on the part

248

00:10:59,630 --> 00:10:56,760

of Robert Bigelow the idea of uh

249

00:11:01,490 --> 00:10:59,640

investigating anomalies is Central to

250

00:11:04,190 --> 00:11:01,500

Scientific progress you know you can

251  
00:11:06,530 --> 00:11:04,200  
stay in a safe Lane and and spend your

252  
00:11:08,509 --> 00:11:06,540  
whole career living within the Paradigm

253  
00:11:10,370 --> 00:11:08,519  
not risking going outside the boundaries

254  
00:11:12,829 --> 00:11:10,380  
of what's acceptable but in the history

255  
00:11:14,090 --> 00:11:12,839  
of science the ones that really make the

256  
00:11:16,310 --> 00:11:14,100  
difference are the ones that pursue

257  
00:11:19,009 --> 00:11:16,320  
anomalies something that doesn't fit the

258  
00:11:21,230 --> 00:11:19,019  
General accepted knowledge absolutely I

259  
00:11:24,110 --> 00:11:21,240  
couldn't agree more I mean I I and I

260  
00:11:26,630 --> 00:11:24,120  
think when Robert Bigelow founded uh

261  
00:11:29,030 --> 00:11:26,640  
needs as it became as it became known as

262  
00:11:32,090 --> 00:11:29,040  
I think that was a central objective was

263  
00:11:35,329 --> 00:11:32,100

to bring in some mainstream

264

00:11:39,470 --> 00:11:35,339

quote-unquote scientists we were shortly

265

00:11:41,509 --> 00:11:39,480

joined by a physicist Eric Davis uh who

266

00:11:45,050 --> 00:11:41,519

was sort of Since since then become

267

00:11:47,870 --> 00:11:45,060

quite well known in the UFO circles and

268

00:11:52,190 --> 00:11:47,880

we also uh hired our Robert Bigelow

269

00:11:54,769 --> 00:11:52,200

hired a DVM PhD guy named George on that

270

00:11:56,870 --> 00:11:54,779

who was an expert at animal pathology

271

00:11:59,750 --> 00:11:56,880

and on the purpose for doing that was

272

00:12:02,389 --> 00:11:59,760

because this organization was going to

273

00:12:05,329 --> 00:12:02,399

investigate scientific anomalies among

274

00:12:09,110 --> 00:12:05,339

which were cattle mutilations and so the

275

00:12:10,329 --> 00:12:09,120

whole idea of hiring a full-time staff

276

00:12:14,030 --> 00:12:10,339

member

277

00:12:16,610 --> 00:12:14,040

of animal pathologist was to actually do

278

00:12:19,250 --> 00:12:16,620

that kind of work and so it was a sort

279

00:12:23,329 --> 00:12:19,260

of an overt attempt to get a jump start

280

00:12:26,389 --> 00:12:23,339

on a field that was very very Arcane and

281

00:12:29,690 --> 00:12:26,399

very sort of mysterious I mean thousands

282

00:12:32,630 --> 00:12:29,700

of these cattle beginning in the 1960s

283

00:12:36,470 --> 00:12:32,640

and going into the 1970s were being

284

00:12:39,470 --> 00:12:36,480

found dead on ranchers properties with

285

00:12:44,090 --> 00:12:39,480

parts removed either reproductive organs

286

00:12:46,790 --> 00:12:44,100

or lips or eyes or tongues and it was uh

287

00:12:49,970 --> 00:12:46,800

it was a mystery nobody had been caught

288

00:12:53,569 --> 00:12:49,980

or charged in decades which is a very

289

00:12:55,610 --> 00:12:53,579

unusual situation because normally if

290

00:12:58,069 --> 00:12:55,620

you've got a quote-unquote serial killer

291

00:13:00,829 --> 00:12:58,079

you know eventually they're caught in

292

00:13:02,990 --> 00:13:00,839

charge but this was decades later during

293

00:13:06,050 --> 00:13:03,000

the 90s and this had been going on for

294

00:13:10,190 --> 00:13:06,060

30 to 40 years without anybody getting

295

00:13:13,730 --> 00:13:10,200

charged or caught so nids nids

296

00:13:15,530 --> 00:13:13,740

you know got a DVM PhD

297

00:13:17,930 --> 00:13:15,540

um animal pathologist

298

00:13:19,310 --> 00:13:17,940

right from the get-go in order to sort

299

00:13:21,710 --> 00:13:19,320

of get a jump start on animal

300

00:13:23,629 --> 00:13:21,720

mutilations we thought we could solve it

301

00:13:26,930 --> 00:13:23,639

and probably you know

302

00:13:29,629 --> 00:13:26,940

um maybe six months to a year but you

303

00:13:32,269 --> 00:13:29,639

know uh we were sort of uh I think we

304

00:13:35,389 --> 00:13:32,279

were met with an awful lot more uh

305

00:13:37,730 --> 00:13:35,399

complexity this really this gets to me

306

00:13:39,350 --> 00:13:37,740

because it's like so George has along

307

00:13:41,269 --> 00:13:39,360

the way really kind of educated me on

308

00:13:43,670 --> 00:13:41,279

all this history and stuff I didn't know

309

00:13:45,410 --> 00:13:43,680

about animal mutilations I was

310

00:13:47,269 --> 00:13:45,420

interested in nuts and bolts and flying

311

00:13:48,889 --> 00:13:47,279

saucers right over the over time you

312

00:13:51,350 --> 00:13:48,899

know George's kind of showed me here's

313

00:13:52,910 --> 00:13:51,360

where the FBI was involved here's in the

314

00:13:54,949 --> 00:13:52,920

70s what happened here are the

315

00:13:56,629 --> 00:13:54,959

documented cases the pathology labs and

316

00:13:58,670 --> 00:13:56,639

then working with you I kind of started

317

00:14:00,710 --> 00:13:58,680

getting a bigger picture but just for

318

00:14:02,329 --> 00:14:00,720

our audience or anybody who's unfamiliar

319

00:14:05,170 --> 00:14:02,339

with this when we talk about something

320

00:14:07,610 --> 00:14:05,180

as mysterious as the UFO phenomenon I'd

321

00:14:09,230 --> 00:14:07,620

begrudgingly had to come to an

322

00:14:11,629 --> 00:14:09,240

understanding that possibly something

323

00:14:13,670 --> 00:14:11,639

like this what I consider this other

324

00:14:15,290 --> 00:14:13,680

mystery because I wasn't listening to

325

00:14:18,110 --> 00:14:15,300

people who are who were experiencing

326

00:14:21,470 --> 00:14:18,120

this things that this other mystery in

327

00:14:23,870 --> 00:14:21,480

my mind might have or be correlated to

328

00:14:26,389 --> 00:14:23,880

the UFO phenomenon right but when you're

329

00:14:29,090 --> 00:14:26,399

studying it with nids at the beginning

330

00:14:30,889 --> 00:14:29,100

a scientific team and and you're you're

331

00:14:32,329 --> 00:14:30,899

you know on the ground you're going to

332

00:14:33,949 --> 00:14:32,339

these things you're doing pathologies

333

00:14:36,470 --> 00:14:33,959

you're doing stuff that like other the

334

00:14:38,090 --> 00:14:36,480

governments wouldn't do right in your

335

00:14:39,769 --> 00:14:38,100

mind did you make any association

336

00:14:41,449 --> 00:14:39,779

immediatly that this has something to

337

00:14:43,250 --> 00:14:41,459

do with a bigger phenomenon are you just

338

00:14:45,949 --> 00:14:43,260

looking at mutilations and trying to

339

00:14:48,110 --> 00:14:45,959

find the killers I think a bit of both

340

00:14:49,610 --> 00:14:48,120

um I I know the veterinarian that joined

341

00:14:52,550 --> 00:14:49,620

National Institute for Discovery Science

342

00:14:56,090 --> 00:14:52,560

was very skeptical about any possible

343

00:14:59,090 --> 00:14:56,100

linkage between UFOs and calculations

344

00:15:02,410 --> 00:14:59,100

however uh the literature that we looked

345

00:15:05,629 --> 00:15:02,420

into suggested that there were a lot of

346

00:15:08,810 --> 00:15:05,639

unusual lights in the sky that usually

347

00:15:12,290 --> 00:15:08,820

were seen by ranchers or people close to

348

00:15:14,030 --> 00:15:12,300

ranchers immediately preceding finding

349

00:15:15,889 --> 00:15:14,040

their animal dead in the posture the

350

00:15:17,269 --> 00:15:15,899

following day so that's the last thing

351

00:15:19,730 --> 00:15:17,279

they would report that's been when

352

00:15:21,530 --> 00:15:19,740

George and I have studied specific cases

353

00:15:24,769 --> 00:15:21,540

with this mutilation thing under the

354

00:15:27,230 --> 00:15:24,779

radar although filmed uh what what's

355

00:15:28,670 --> 00:15:27,240

interesting is that that's the the last

356

00:15:30,829 --> 00:15:28,680

thing a Rancher wants to tell you

357

00:15:33,110 --> 00:15:30,839

they'll tell you somebody [h\_\_h] up my

358

00:15:35,150 --> 00:15:33,120

cow and I'd like them arrested I'd like

359

00:15:37,370 --> 00:15:35,160

to find out what's going on yeah but

360

00:15:39,290 --> 00:15:37,380

they they're hesitant to tell you the

361

00:15:41,210 --> 00:15:39,300

lights thing or the what what else they

362

00:15:43,009 --> 00:15:41,220

see well I'd add this is you know I've

363

00:15:45,350 --> 00:15:43,019

reported it a number of times the number

364

00:15:48,170 --> 00:15:45,360

we use is there's been at least 10 000

365

00:15:49,970 --> 00:15:48,180

cases reported and uh you know it's

366

00:15:52,310 --> 00:15:49,980

supposedly satanic Cults out there

367

00:15:54,590 --> 00:15:52,320

carving up cows and other animals or

368

00:15:56,569 --> 00:15:54,600

it's coyotes doing it obviously it is

369

00:15:59,090 --> 00:15:56,579

not coyotes or Predators doing it we'll

370

00:16:01,550 --> 00:15:59,100

get into that but also the Cults I mean

371

00:16:03,590 --> 00:16:01,560

where are all these Beals above uh

372

00:16:05,449 --> 00:16:03,600

worshipers are running around out in

373

00:16:07,310 --> 00:16:05,459

ranches and how are they have never been

374

00:16:09,530 --> 00:16:07,320

caught the actual number is probably

375

00:16:11,030 --> 00:16:09,540

many times that because ranchers

376

00:16:12,829 --> 00:16:11,040

experience this they don't want to deal

377

00:16:14,449 --> 00:16:12,839

with it they dig a hole throw the cow in

378

00:16:16,730 --> 00:16:14,459

it and and just forget about it they

379

00:16:19,189 --> 00:16:16,740

don't report it to anyone so the actual

380

00:16:21,769 --> 00:16:19,199

problem could be a lot bigger than than

381

00:16:24,170 --> 00:16:21,779

what anybody knows well it is you and I

382

00:16:25,730 --> 00:16:24,180

all the time get cases associated with

383

00:16:27,410 --> 00:16:25,740

this where they're like we want you want

384

00:16:29,269 --> 00:16:27,420

to tell you we want to show you photos

385

00:16:32,090 --> 00:16:29,279

we don't want it public we don't want

386

00:16:34,370 --> 00:16:32,100

our name and you know one we're able to

387

00:16:36,590 --> 00:16:34,380

go investigate and but the the whole

388

00:16:38,509 --> 00:16:36,600

thing is is that you're right this is

389

00:16:53,410 --> 00:16:38,519

not something that is just on their

390

00:17:00,590 --> 00:16:56,710

got a call from the guy in Dumas Texas

391

00:17:03,110 --> 00:17:00,600

and he has what appears to be an

392

00:17:04,789 --> 00:17:03,120

exceptionally interesting Academy

393

00:17:06,350 --> 00:17:04,799

relation I'm going to show you the

394

00:17:08,990 --> 00:17:06,360

photos from it

395

00:17:10,549 --> 00:17:09,000

see if you think this is a valid case I

396

00:17:13,010 --> 00:17:10,559

like to meet with George Knapp because

397

00:17:15,890 --> 00:17:13,020

he has walked the walk for decades

398

00:17:18,890 --> 00:17:15,900

before me we're talking about a reporter

399

00:17:21,770 --> 00:17:18,900

who has broken global news from the mob

400

00:17:23,990 --> 00:17:21,780

to political investigations he's a

401  
00:17:25,429 --> 00:17:24,000  
touchstone for truth there aren't many

402  
00:17:27,590 --> 00:17:25,439  
things we can say for sure about this

403  
00:17:30,110 --> 00:17:27,600  
but there are a couple one is we know at

404  
00:17:32,150 --> 00:17:30,120  
least 10 000 cases in all 50 states

405  
00:17:33,409 --> 00:17:32,160  
they've been reported since the 1970s

406  
00:17:35,690 --> 00:17:33,419  
I'm going to share something with you

407  
00:17:37,430 --> 00:17:35,700  
that is pretty startling this is a paper

408  
00:17:39,350 --> 00:17:37,440  
that was written by needs National

409  
00:17:40,850 --> 00:17:39,360  
Institute for Discovery Science one of

410  
00:17:43,430 --> 00:17:40,860  
the investigations that They carried out

411  
00:17:45,169 --> 00:17:43,440  
was in Montana there was a sheriff his

412  
00:17:47,330 --> 00:17:45,179  
county is home to Malmstrom Air Force

413  
00:17:49,070 --> 00:17:47,340

Base nuclear missiles yeah and there

414

00:17:51,049 --> 00:17:49,080

were a whole outbreak of these UFO

415

00:17:53,930 --> 00:17:51,059

sightings over the missile bases but by

416

00:17:56,390 --> 00:17:53,940

the way just interject in Dumas Texas is

417

00:17:59,289 --> 00:17:56,400

one of the largest nuclear missile

418

00:18:03,190 --> 00:17:59,299

disarmament and maintenance facilities

419

00:18:07,490 --> 00:18:06,049

extraordinary coincidence well it is

420

00:18:09,350 --> 00:18:07,500

exactly the pattern that happened in

421

00:18:12,110 --> 00:18:09,360

Montana over a series of years they had

422

00:18:14,029 --> 00:18:12,120

something like 200 mutilations in this

423

00:18:16,190 --> 00:18:14,039

guy's County and it was happening in the

424

00:18:18,470 --> 00:18:16,200

same time period that UFOs were

425

00:18:20,270 --> 00:18:18,480

appearing over these missile silos as

426

00:18:22,310 --> 00:18:20,280

some of those silos were taken down they

427

00:18:24,289 --> 00:18:22,320

were inoperative for a period of time by

428

00:18:26,690 --> 00:18:24,299

what the story has put out its mystery

429

00:18:28,130 --> 00:18:26,700

helicopters holy [\h\_\_\h] it was reported by

430

00:18:30,409 --> 00:18:28,140

The Washington Post and the world

431

00:18:34,010 --> 00:18:30,419

ignored it it's well documented this is

432

00:18:35,870 --> 00:18:34,020

a report by the FBI in the late 70s a

433

00:18:37,669 --> 00:18:35,880

big outbreak of Cattlemen relations and

434

00:18:38,930 --> 00:18:37,679

some U.S senators said hey let's get to

435

00:18:41,029 --> 00:18:38,940

the bottom of this the ranchers are

436

00:18:42,830 --> 00:18:41,039

raised in hell and they hired an ex-fbi

437

00:18:44,870 --> 00:18:42,840

agent and basically gave him an

438

00:18:47,690 --> 00:18:44,880

assignment explain this this is the

439

00:18:49,730 --> 00:18:47,700

actual FBI in the FBI right he took a

440

00:18:51,409 --> 00:18:49,740

lot of legitimate evidence and then gave

441

00:18:53,330 --> 00:18:51,419

a whitewash explanation that it's

442

00:18:56,570 --> 00:18:53,340

Predators it's [h\_\_\h] it's not

443

00:18:57,830 --> 00:18:56,580

Predators contrary to the FBI and the

444

00:19:00,110 --> 00:18:57,840

government's attempts to wipe this away

445

00:19:02,270 --> 00:19:00,120

with that that report yeah the mystery

446

00:19:04,669 --> 00:19:02,280

continues if cattle mutilation

447

00:19:06,409 --> 00:19:04,679

does happen in waves we have a

448

00:19:08,390 --> 00:19:06,419

re-emergence there have been you know

449

00:19:11,029 --> 00:19:08,400

really concerted efforts to make the

450

00:19:12,770 --> 00:19:11,039

public ignore it and explain it away the

451  
00:19:14,630 --> 00:19:12,780  
Public's not stupid Witnesses are

452  
00:19:17,210 --> 00:19:14,640  
reaching out to me now it's [h\_\_\h]

453  
00:19:19,010 --> 00:19:17,220  
amazing when I started doing this I

454  
00:19:21,890 --> 00:19:19,020  
never wanted to touch the mutilation

455  
00:19:24,230 --> 00:19:21,900  
topic so strange and Fringe people

456  
00:19:27,049 --> 00:19:24,240  
equate them with UFOs and government

457  
00:19:29,390 --> 00:19:27,059  
conspiracies but I can't ignore the

458  
00:19:30,890 --> 00:19:29,400  
facts there's physical evidence and when

459  
00:19:32,870 --> 00:19:30,900  
there's physical evidence there's

460  
00:19:35,150 --> 00:19:32,880  
something we can learn from that you see

461  
00:19:37,310 --> 00:19:35,160  
patterns happening here that are

462  
00:19:39,710 --> 00:19:37,320  
intertwined with these cases of true

463  
00:19:42,110 --> 00:19:39,720

mutilation

464

00:19:44,690 --> 00:19:42,120

yeah

465

00:19:46,310 --> 00:19:44,700

Jesus

466

00:19:47,870 --> 00:19:46,320

when you start out with this

467

00:19:50,570 --> 00:19:47,880

investigation and nids is doing it

468

00:19:54,169 --> 00:19:50,580

there's anecdotal accounts of witnesses

469

00:19:56,150 --> 00:19:54,179

ranchers lawmen who see strange lights

470

00:19:58,909 --> 00:19:56,160

in the sky black helicopters and things

471

00:20:00,350 --> 00:19:58,919

of that sort in association with you uh

472

00:20:02,210 --> 00:20:00,360

the cattle mutilations the animal

473

00:20:04,789 --> 00:20:02,220

mutilations but there isn't really any

474

00:20:06,590 --> 00:20:04,799

solid proof do you start the

475

00:20:08,450 --> 00:20:06,600

investigation looking at the physical

476  
00:20:10,490 --> 00:20:08,460  
evidence or do you start with a premise

477  
00:20:13,070 --> 00:20:10,500  
that maybe it's involved or you don't

478  
00:20:15,590 --> 00:20:13,080  
allow yourself to establish it well we

479  
00:20:18,310 --> 00:20:15,600  
we really did not

480  
00:20:20,690 --> 00:20:18,320  
um begin to correlate any sort of

481  
00:20:23,090 --> 00:20:20,700  
correlations with uh with the UFO

482  
00:20:26,450 --> 00:20:23,100  
phenomena at the very beginning our

483  
00:20:30,350 --> 00:20:26,460  
whole uh idea was to convince law

484  
00:20:32,330 --> 00:20:30,360  
enforcement and ranchers to report these

485  
00:20:35,750 --> 00:20:32,340  
things to us as quickly as possible

486  
00:20:38,750 --> 00:20:35,760  
because remember in the summer if if a

487  
00:20:42,770 --> 00:20:38,760  
cow drops dead with wounds to the body

488  
00:20:45,049 --> 00:20:42,780

you've essentially got 48 hours max in

489

00:20:48,289 --> 00:20:45,059

order to get there get on the scene

490

00:20:50,810 --> 00:20:48,299

and then take samples you conduct a full

491

00:20:54,409 --> 00:20:50,820

what's called a necropsy an animal

492

00:20:57,350 --> 00:20:54,419

biopsy or autopsy and sort of take a

493

00:20:59,570 --> 00:20:57,360

whole bunch of of tissues and then send

494

00:21:01,789 --> 00:20:59,580

them to a variety of Laboratories but

495

00:21:04,430 --> 00:21:01,799

you the clock is ticking once that

496

00:21:07,010 --> 00:21:04,440

animal hits the ground you know you've

497

00:21:08,570 --> 00:21:07,020

got the obliteration of evidence that

498

00:21:11,450 --> 00:21:08,580

starts happening especially in the

499

00:21:14,029 --> 00:21:11,460

summer with summer heat you've got sort

500

00:21:18,230 --> 00:21:14,039

of uh Decay happens really quickly now

501  
00:21:21,409 --> 00:21:18,240  
it accelerated even more because the cow

502  
00:21:23,450 --> 00:21:21,419  
has multiple stomachs which are full of

503  
00:21:25,250 --> 00:21:23,460  
these bacteria that just explode when

504  
00:21:28,490 --> 00:21:25,260  
the animal dies so you're running

505  
00:21:30,950 --> 00:21:28,500  
against the clock so the the idea for

506  
00:21:32,690 --> 00:21:30,960  
nids was to contact

507  
00:21:34,370 --> 00:21:32,700  
UM hundreds and hundreds of ranchers

508  
00:21:36,529 --> 00:21:34,380  
hundreds of law enforcement people

509  
00:21:39,169 --> 00:21:36,539  
around the country veterinarians

510  
00:21:41,930 --> 00:21:39,179  
veterinarian associations so we set up

511  
00:21:43,970 --> 00:21:41,940  
this hotline that we had so that law

512  
00:21:45,950 --> 00:21:43,980  
enforcement people could call because a

513  
00:21:47,870 --> 00:21:45,960

lot of the time Ranchers would call a

514

00:21:49,909 --> 00:21:47,880

law enforcement and say look there's

515

00:21:52,010 --> 00:21:49,919

obviously some Monkey Business going on

516

00:21:54,950 --> 00:21:52,020

on my property because I've had a couple

517

00:21:58,549 --> 00:21:54,960

of animals died and they're not being

518

00:22:00,710 --> 00:21:58,559

killed by Coyotes so we we would get a

519

00:22:04,010 --> 00:22:00,720

call from law enforcement and say you

520

00:22:06,350 --> 00:22:04,020

know in you know Northern Montana we've

521

00:22:08,330 --> 00:22:06,360

got a case of this animal died last

522

00:22:10,549 --> 00:22:08,340

night so we would have this rapid

523

00:22:14,090 --> 00:22:10,559

reaction response we would get up there

524

00:22:15,590 --> 00:22:14,100

within sort of 12 hours or less we'd

525

00:22:17,330 --> 00:22:15,600

have the veterinarian with us the

526

00:22:20,210 --> 00:22:17,340

veterinarian would be on the pasture

527

00:22:22,970 --> 00:22:20,220

conducting a full necropsy on the animal

528

00:22:26,330 --> 00:22:22,980

he'd be taking all of these tissue

529

00:22:28,430 --> 00:22:26,340

samples uh he'd be sampling around where

530

00:22:30,649 --> 00:22:28,440

the cuts are you'd be taking blood

531

00:22:33,230 --> 00:22:30,659

samples and all of that and then send

532

00:22:36,529 --> 00:22:33,240

them to a variety of you know histology

533

00:22:38,930 --> 00:22:36,539

Labs biochemical chemical analysis so we

534

00:22:41,210 --> 00:22:38,940

went the whole Monty on the on the

535

00:22:43,130 --> 00:22:41,220

animal mutilation phenomenon and you

536

00:22:45,710 --> 00:22:43,140

know it was a very expensive process I

537

00:22:48,049 --> 00:22:45,720

mean it was not locally Robert Bigelow

538

00:22:49,850 --> 00:22:48,059

had a lot of money to put into National

539

00:22:53,330 --> 00:22:49,860

Institute for Discovery Science but

540

00:22:56,690 --> 00:22:53,340

doing this for an animal was not uh not

541

00:22:59,930 --> 00:22:56,700

cheap right and I mean from a Rancher it

542

00:23:02,510 --> 00:22:59,940

made zero economic sense to pour a whole

543

00:23:04,730 --> 00:23:02,520

bunch of money into finding out how his

544

00:23:06,950 --> 00:23:04,740

animal died he'd already lost his money

545

00:23:08,570 --> 00:23:06,960

once that animal hit the posture so

546

00:23:10,310 --> 00:23:08,580

there was really no point in doing that

547

00:23:12,590 --> 00:23:10,320

but no one had ever done this before

548

00:23:16,010 --> 00:23:12,600

certainly not on this scale not on this

549

00:23:19,250 --> 00:23:16,020

no not at the level of uh of analytical

550

00:23:20,510 --> 00:23:19,260

depth that needs went into and you know

551  
00:23:22,730 --> 00:23:20,520  
like I said we had a full-time

552  
00:23:26,270 --> 00:23:22,740  
veterinarian having a full-time

553  
00:23:29,390 --> 00:23:26,280  
veterinarian capable of conducting full

554  
00:23:32,570 --> 00:23:29,400  
necropsies when the animal is still in

555  
00:23:35,149 --> 00:23:32,580  
that 48-hour period before death was a

556  
00:23:37,669 --> 00:23:35,159  
very unique thing because I mean we

557  
00:23:40,310 --> 00:23:37,679  
tried Contracting veterinarians later on

558  
00:23:42,470 --> 00:23:40,320  
and uh you know having a veterinarian

559  
00:23:44,690 --> 00:23:42,480  
who's extremely busy has a high case

560  
00:23:47,570 --> 00:23:44,700  
load getting that veterinarian out to a

561  
00:23:49,430 --> 00:23:47,580  
past you're within you know 24 hours was

562  
00:23:51,409 --> 00:23:49,440  
a chore it was a lot of the time it

563  
00:23:53,630 --> 00:23:51,419

wasn't possible so having a full-time

564

00:23:55,850 --> 00:23:53,640

veterinarian really helped let me ask

565

00:23:58,789 --> 00:23:55,860

you is it burning so

566

00:24:01,310 --> 00:23:58,799

everybody hearing about this so what is

567

00:24:03,169 --> 00:24:01,320

the difference animals are killed and by

568

00:24:05,870 --> 00:24:03,179

Predators all the time right there's

569

00:24:08,450 --> 00:24:05,880

signature things why is this even worth

570

00:24:10,850 --> 00:24:08,460

the investigation what are the key

571

00:24:13,789 --> 00:24:10,860

Hallmarks of a CA that you saw

572

00:24:16,310 --> 00:24:13,799

repeatedly Case by case repeated that

573

00:24:17,810 --> 00:24:16,320

tells you this is something other than

574

00:24:19,250 --> 00:24:17,820

normal Predator animals give me a

575

00:24:20,870 --> 00:24:19,260

laundry list tell me what you've seen

576

00:24:23,930 --> 00:24:20,880

well

577

00:24:26,990 --> 00:24:23,940

the uh the the first obvious uh

578

00:24:29,570 --> 00:24:27,000

difference is that a predator when they

579

00:24:32,149 --> 00:24:29,580

attack a cow you know whether it be

580

00:24:34,850 --> 00:24:32,159

coyotes or Wolves or or whatever

581

00:24:37,970 --> 00:24:34,860

Predator uh cats

582

00:24:40,430 --> 00:24:37,980

um there's a lot of mess you know they

583

00:24:42,470 --> 00:24:40,440

open up the abdomen they open up you

584

00:24:44,690 --> 00:24:42,480

know various parts of the animal and

585

00:24:47,510 --> 00:24:44,700

there's a huge amount of Blood on the on

586

00:24:50,149 --> 00:24:47,520

the grass there's a lot of entrails

587

00:24:52,810 --> 00:24:50,159

spread around I mean we've seen this uh

588

00:24:55,370 --> 00:24:52,820

so so it's uh it's pretty obvious

589

00:24:57,370 --> 00:24:55,380

complete contrast with that with a

590

00:25:01,190 --> 00:24:57,380

cattle mutilation is there's usually

591

00:25:03,350 --> 00:25:01,200

pretty precise Cuts around the anus for

592

00:25:06,169 --> 00:25:03,360

example would be cord out you can see

593

00:25:08,029 --> 00:25:06,179

the edges of the wounds on the hide and

594

00:25:10,549 --> 00:25:08,039

they're very sharp edges I mean it looks

595

00:25:13,549 --> 00:25:10,559

like some kind of a scalpel or a

596

00:25:16,250 --> 00:25:13,559

surgical instrument has been used a lot

597

00:25:18,710 --> 00:25:16,260

of the time you see eyes removed and you

598

00:25:21,470 --> 00:25:18,720

see a sort of a a really sharp cut

599

00:25:25,070 --> 00:25:21,480

around the eyes we've even looked at the

600

00:25:28,310 --> 00:25:25,080

hair on on under a microscope of around

601  
00:25:31,130 --> 00:25:28,320  
the eyes and you can see how how crisp

602  
00:25:33,230 --> 00:25:31,140  
the cuts are from around the eyes ears

603  
00:25:36,169 --> 00:25:33,240  
are are a lot of the time lopped off

604  
00:25:38,810 --> 00:25:36,179  
sometimes you know the ear carries a a

605  
00:25:41,090 --> 00:25:38,820  
plastic ear tag that the Rancher uses to

606  
00:25:43,850 --> 00:25:41,100  
identify the animal a lot of time that

607  
00:25:47,029 --> 00:25:43,860  
plastic air tag is gone but the the

608  
00:25:48,590 --> 00:25:47,039  
clean slice through the ear is very very

609  
00:25:52,130 --> 00:25:48,600  
different

610  
00:25:56,450 --> 00:25:52,140  
um you know from predators now even even

611  
00:26:00,350 --> 00:25:56,460  
Birds sometimes can can cause Sharp Cuts

612  
00:26:02,149 --> 00:26:00,360  
but not the plethora of Sharp Cuts that

613  
00:26:04,789 --> 00:26:02,159

are very very distinctive around the

614

00:26:07,310 --> 00:26:04,799

animal the next really sort of defining

615

00:26:10,250 --> 00:26:07,320

characteristic is usually lack of blood

616

00:26:13,190 --> 00:26:10,260

you know when when you got cats or

617

00:26:15,610 --> 00:26:13,200

coyotes or wolves attacking cows you

618

00:26:17,810 --> 00:26:15,620

know the mess is unbelievable

619

00:26:20,930 --> 00:26:17,820

in many of these cases that we

620

00:26:23,090 --> 00:26:20,940

investigated there's really no blood in

621

00:26:26,210 --> 00:26:23,100

the animal or underneath the animal or

622

00:26:29,870 --> 00:26:26,220

on the animal so now that's not all

623

00:26:32,570 --> 00:26:29,880

cases but in some cases we had a we had

624

00:26:35,149 --> 00:26:32,580

a case that's been well documented in uh

625

00:26:39,289 --> 00:26:35,159

on the Skinwalker Ranch in Utah for

626

00:26:42,970 --> 00:26:39,299

example where you know an 84 pound calf

627

00:26:46,490 --> 00:26:42,980

that had been born the night previously

628

00:26:48,890 --> 00:26:46,500

was found dead on the pasture

629

00:26:53,149 --> 00:26:48,900

the Rancher and his wife had tagged this

630

00:26:55,970 --> 00:26:53,159

animal just 45 minutes prior they were

631

00:26:59,570 --> 00:26:55,980

still in the pasture and sort of maybe

632

00:27:01,610 --> 00:26:59,580

200 300 yards away and they their dogs

633

00:27:04,130 --> 00:27:01,620

started acting up so they went to

634

00:27:06,049 --> 00:27:04,140

investigate and they found the mother of

635

00:27:08,990 --> 00:27:06,059

the calf that had been they had just

636

00:27:11,630 --> 00:27:09,000

tagged uh dragging its feet and sort of

637

00:27:13,430 --> 00:27:11,640

acting very strangely They Came Upon

638

00:27:16,190 --> 00:27:13,440

This calf that they had tagged 45

639

00:27:18,169 --> 00:27:16,200

minutes previously the calf was spread

640

00:27:20,630 --> 00:27:18,179

out on the pasture on their photographs

641

00:27:22,810 --> 00:27:20,640

on the internet of this we did a full

642

00:27:26,149 --> 00:27:22,820

report and we published it many times

643

00:27:30,110 --> 00:27:26,159

but the calf was like spread eagled out

644

00:27:32,630 --> 00:27:30,120

on the on the pasture all four legs well

645

00:27:35,090 --> 00:27:32,640

three legs were sort of spread out one

646

00:27:37,130 --> 00:27:35,100

of the legs was was about 10 feet away

647

00:27:39,769 --> 00:27:37,140

from the animal but the interesting

648

00:27:42,890 --> 00:27:39,779

thing was that we flew up on Robert

649

00:27:45,470 --> 00:27:42,900

Bigelow's private jet we were standing

650

00:27:46,549 --> 00:27:45,480

over that animal within seven hours of

651  
00:27:49,130 --> 00:27:46,559  
death

652  
00:27:52,909 --> 00:27:49,140  
so the animal was still fresh I mean you

653  
00:27:55,450 --> 00:27:52,919  
could see the animals uh pinkish flesh

654  
00:27:59,269 --> 00:27:55,460  
was not a drop of blood in the animal

655  
00:28:01,190 --> 00:27:59,279  
its entire body cavity was empty all you

656  
00:28:04,490 --> 00:28:01,200  
could see was the sort of the spine

657  
00:28:08,149 --> 00:28:04,500  
running down from head head head to

658  
00:28:11,990 --> 00:28:08,159  
stern of the animal and the uh the legs

659  
00:28:12,590 --> 00:28:12,000  
were were spread out it was almost like

660  
00:28:17,510 --> 00:28:12,600  
um

661  
00:28:19,029 --> 00:28:17,520  
the calf had been very carefully laid on

662  
00:28:21,470 --> 00:28:19,039  
the grass

663  
00:28:23,930 --> 00:28:21,480

not a drop of blood in the animal

664

00:28:25,610 --> 00:28:23,940

underneath the animal we actually went

665

00:28:27,950 --> 00:28:25,620

to the trouble of going to the local

666

00:28:31,250 --> 00:28:27,960

abattoir we got four liters of blood

667

00:28:33,409 --> 00:28:31,260

just in case you know this a lot of

668

00:28:36,049 --> 00:28:33,419

blood have had sort of seeped into the

669

00:28:38,029 --> 00:28:36,059

ground and disappeared it had not rained

670

00:28:40,970 --> 00:28:38,039

during that period so there was really

671

00:28:43,730 --> 00:28:40,980

no way that the the blood had been

672

00:28:45,769 --> 00:28:43,740

washed off but the thing was not a

673

00:28:48,710 --> 00:28:45,779

single drop of blood on the animal when

674

00:28:51,450 --> 00:28:48,720

we poured blood on that grass it was

675

00:28:55,130 --> 00:28:51,460

obvious it was so obvious

676  
00:28:59,090 --> 00:28:57,350  
the Gormans were especially sensitive

677  
00:29:01,850 --> 00:28:59,100  
because of the losses they'd already

678  
00:29:04,430 --> 00:29:01,860  
suffered out of a herd of 80 cattle they

679  
00:29:07,549 --> 00:29:04,440  
lost 14 head prior to the arrival of

680  
00:29:10,130 --> 00:29:07,559  
nids some disappeared others were sliced

681  
00:29:12,529 --> 00:29:10,140  
up twelve more cows and calves were

682  
00:29:14,510 --> 00:29:12,539  
killed while mids was on the ranch their

683  
00:29:16,730 --> 00:29:14,520  
neighbors the Garcias lost several

684  
00:29:18,289 --> 00:29:16,740  
animals as well some of their cattle

685  
00:29:20,269 --> 00:29:18,299  
appeared to have been killed by being

686  
00:29:22,789 --> 00:29:20,279  
dropped onto the pasture from a great

687  
00:29:25,190 --> 00:29:22,799  
height the cattle mutilation mystery has

688  
00:29:28,070 --> 00:29:25,200

been reported in at least 15 states

689

00:29:29,810 --> 00:29:28,080

dating back to the 1960s thousands of

690

00:29:32,090 --> 00:29:29,820

animals have been sliced up with

691

00:29:34,610 --> 00:29:32,100

surgical Precision mostly under the

692

00:29:36,889 --> 00:29:34,620

cover of Darkness if humans are doing it

693

00:29:39,169 --> 00:29:36,899

not a single suspect has ever been

694

00:29:41,690 --> 00:29:39,179

caught for the Gormans the livestock

695

00:29:44,450 --> 00:29:41,700

losses were devastating both financially

696

00:29:46,310 --> 00:29:44,460

and psychologically and then things got

697

00:29:50,330 --> 00:29:46,320

worse

698

00:29:52,070 --> 00:29:50,340

on March 10 1997 Tom Gorman and his wife

699

00:29:54,590 --> 00:29:52,080

walked out of their home and into the

700

00:29:56,750 --> 00:29:54,600

pasture planning to tag the ears of

701  
00:29:58,909 --> 00:29:56,760  
several calves that had been born in the

702  
00:30:01,669 --> 00:29:58,919  
preceding days it was a bright clear

703  
00:30:03,110 --> 00:30:01,679  
morning snow was on the ground 50 yards

704  
00:30:05,889 --> 00:30:03,120  
from their house they found the first

705  
00:30:09,529 --> 00:30:05,899  
calf as they were with their their dog

706  
00:30:11,870 --> 00:30:09,539  
the two of them tagged and weighed this

707  
00:30:13,610 --> 00:30:11,880  
animal they they checked it at I believe

708  
00:30:17,870 --> 00:30:13,620  
was 84 pounds

709  
00:30:19,130 --> 00:30:17,880  
or 87 pounds and they left the animal

710  
00:30:20,810 --> 00:30:19,140  
there

711  
00:30:23,090 --> 00:30:20,820  
with the with the mother everything

712  
00:30:26,870 --> 00:30:23,100  
seemed to be fine although they did

713  
00:30:30,110 --> 00:30:26,880

detect an odor in the air around this uh

714

00:30:31,730 --> 00:30:30,120

area they they detected a strong musk

715

00:30:33,769 --> 00:30:31,740

smell

716

00:30:36,590 --> 00:30:33,779

um they took note of it and then they

717

00:30:39,350 --> 00:30:36,600

headed west and they went about 300

718

00:30:41,990 --> 00:30:39,360

yards west beyond the the dog run was is

719

00:30:44,470 --> 00:30:42,000

not was not there at the time but about

720

00:30:47,450 --> 00:30:44,480

300 yards Beyond

721

00:30:47,990 --> 00:30:47,460

towards where that incline is

722

00:30:49,789 --> 00:30:48,000

um

723

00:30:52,549 --> 00:30:49,799

and they were tagging a second animal

724

00:30:54,769 --> 00:30:52,559

only 30 to 40 minutes had passed the

725

00:30:56,630 --> 00:30:54,779

Gormans had an unobstructed view of

726

00:30:59,510 --> 00:30:56,640

everything in the field but didn't see

727

00:31:01,789 --> 00:30:59,520

or hear anything unusual until their dog

728

00:31:04,549 --> 00:31:01,799

focused its attention back toward the

729

00:31:06,889 --> 00:31:04,559

house and the first calf the dog with

730

00:31:08,990 --> 00:31:06,899

them down here at this stage began to

731

00:31:11,029 --> 00:31:09,000

act really strangely it started growling

732

00:31:13,549 --> 00:31:11,039

the hair on the back of its neck went up

733

00:31:17,149 --> 00:31:13,559

and it started facing back

734

00:31:19,909 --> 00:31:17,159

towards here growling and snarling and

735

00:31:21,889 --> 00:31:19,919

then it just took off West away from

736

00:31:24,409 --> 00:31:21,899

this spot it just took off it was never

737

00:31:26,389 --> 00:31:24,419

seen again the Gormans were curious and

738

00:31:28,970 --> 00:31:26,399

walked back across the field first thing

739

00:31:32,389 --> 00:31:28,980

they saw was the mother of the animal

740

00:31:33,610 --> 00:31:32,399

was running back and forth kind of in a

741

00:31:37,010 --> 00:31:33,620

in a

742

00:31:39,769 --> 00:31:37,020

sort of half circle from about this area

743

00:31:41,930 --> 00:31:39,779

to the fence line just running back and

744

00:31:44,269 --> 00:31:41,940

forth and it was limping I mean it was

745

00:31:46,310 --> 00:31:44,279

dragging its foot it was limping they

746

00:31:48,289 --> 00:31:46,320

met the animal

747

00:31:50,750 --> 00:31:48,299

and they noticed that it was just

748

00:31:52,970 --> 00:31:50,760

totally out of breath it was panting it

749

00:31:55,070 --> 00:31:52,980

was obviously in deep stress and it was

750

00:31:57,649 --> 00:31:55,080

dragging one leg and then they noticed

751  
00:31:59,630 --> 00:31:57,659  
the calf or what was left of it

752  
00:32:00,590 --> 00:31:59,640  
spread eagle on the ground just about

753  
00:32:03,470 --> 00:32:00,600  
here

754  
00:32:06,470 --> 00:32:03,480  
with uh was it was lying with all four

755  
00:32:09,529 --> 00:32:06,480  
limbs just spread on the ground all of

756  
00:32:12,710 --> 00:32:09,539  
its internal body cavity was gone it was

757  
00:32:16,310 --> 00:32:12,720  
completely pretty well all of its muscle

758  
00:32:19,909 --> 00:32:16,320  
was gone from the from the Torso the

759  
00:32:22,370 --> 00:32:19,919  
legs were still intact but the one of

760  
00:32:24,950 --> 00:32:22,380  
the ears was also gone so

761  
00:32:26,930 --> 00:32:24,960  
they called Ned's the Rancher placed a

762  
00:32:28,909 --> 00:32:26,940  
call to the nid's investigators who'd

763  
00:32:31,610 --> 00:32:28,919

returned to Las Vegas for a rare weekend

764

00:32:33,590 --> 00:32:31,620

off within a few hours a four-man team

765

00:32:34,789 --> 00:32:33,600

including a veterinarian was on the

766

00:32:37,310 --> 00:32:34,799

scene

767

00:32:39,350 --> 00:32:37,320

that crowsy started and the first thing

768

00:32:41,510 --> 00:32:39,360

that the veterinarian noticed during the

769

00:32:43,549 --> 00:32:41,520

necropsy was that the the ear of the

770

00:32:45,289 --> 00:32:43,559

animal had been sliced off with a very

771

00:32:48,110 --> 00:32:45,299

sharp instrument

772

00:32:51,010 --> 00:32:48,120

possibly a scalpel and the air had

773

00:32:55,669 --> 00:32:51,020

contained a very large plastic Yellow

774

00:32:59,810 --> 00:32:55,679

Tag like a an air tag that they had just

775

00:33:01,210 --> 00:32:59,820

put on and it was gone so the necropsy

776

00:33:03,889 --> 00:33:01,220

proceeded

777

00:33:05,810 --> 00:33:03,899

about 10 feet away from the animal there

778

00:33:08,269 --> 00:33:05,820

was a femur one of the femurs had been

779

00:33:10,970 --> 00:33:08,279

forcibly ripped out of a ball and socket

780

00:33:13,370 --> 00:33:10,980

joint which is extremely difficult to do

781

00:33:15,350 --> 00:33:13,380

I mean in terms strength it was it

782

00:33:18,350 --> 00:33:15,360

looked initially you know superficially

783

00:33:20,990 --> 00:33:18,360

like a massive Predator had just Lane

784

00:33:23,870 --> 00:33:21,000

waste to this animal removed you know 60

785

00:33:25,549 --> 00:33:23,880

pounds of meat in 45 minutes which we

786

00:33:27,470 --> 00:33:25,559

don't know of any predator that could

787

00:33:29,990 --> 00:33:27,480

have done that and how could a predator

788

00:33:32,509 --> 00:33:30,000

inflict such Carnage without being seen

789

00:33:35,029 --> 00:33:32,519

or heard by the Rancher his wife or his

790

00:33:37,009 --> 00:33:35,039

dog who were a few hundred yards away in

791

00:33:39,590 --> 00:33:37,019

the same field on what was a quiet

792

00:33:42,230 --> 00:33:39,600

Sunday morning no four-legged Predator

793

00:33:44,389 --> 00:33:42,240

known to science could do it the team

794

00:33:46,549 --> 00:33:44,399

gathered tissue and Bone samples which

795

00:33:48,830 --> 00:33:46,559

were sent to three independent pathology

796

00:33:50,930 --> 00:33:48,840

Labs the results arrived later but

797

00:33:53,090 --> 00:33:50,940

confirmed what seemed obvious in the

798

00:33:55,250 --> 00:33:53,100

pasture that day the calf had been

799

00:33:57,889 --> 00:33:55,260

carved up by someone wielding sharp

800

00:34:00,830 --> 00:33:57,899

metallic instruments a heavy machete

801  
00:34:03,230 --> 00:34:00,840  
like object had slammed into the bones a

802  
00:34:05,210 --> 00:34:03,240  
smaller scalpel-like knife had sliced

803  
00:34:06,590 --> 00:34:05,220  
the hide and muscle but closer

804  
00:34:08,389 --> 00:34:06,600  
inspection revealed that it was

805  
00:34:11,869 --> 00:34:08,399  
definitely sharp instruments used there

806  
00:34:14,270 --> 00:34:11,879  
was no sign of blood there was no sign

807  
00:34:17,149 --> 00:34:14,280  
of entrails around it was perfectly

808  
00:34:18,950 --> 00:34:17,159  
clean not a drop of blood on the grass

809  
00:34:20,690 --> 00:34:18,960  
we weren't even as far as doing an

810  
00:34:22,329 --> 00:34:20,700  
experiment by pouring blood in the grass

811  
00:34:25,310 --> 00:34:22,339  
to see how fast it would seep through

812  
00:34:27,169 --> 00:34:25,320  
videotape the grass and showed you know

813  
00:34:29,329 --> 00:34:27,179

even two days later you could still see

814

00:34:31,310 --> 00:34:29,339

the stain on the grass so there was no

815

00:34:33,530 --> 00:34:31,320

blood whatsoever not a single drop

816

00:34:35,690 --> 00:34:33,540

either underneath the animal on the

817

00:34:38,329 --> 00:34:35,700

animal or on the grass it was just

818

00:34:40,609 --> 00:34:38,339

completely clean a professional tracker

819

00:34:42,230 --> 00:34:40,619

was brought in he scoured every inch of

820

00:34:44,990 --> 00:34:42,240

ground in and around down the field

821

00:34:47,389 --> 00:34:45,000

looking for tracks human animal or

822

00:34:49,250 --> 00:34:47,399

vehicle nothing eventually the

823

00:34:51,649 --> 00:34:49,260

investigators reached an unsettling

824

00:34:53,629 --> 00:34:51,659

conclusion the bottom line is this

825

00:34:56,089 --> 00:34:53,639

animal must have been killed elsewhere

826  
00:34:57,770 --> 00:34:56,099  
because there was no blood there was no

827  
00:35:00,109 --> 00:34:57,780  
blood on the scene and then the animal

828  
00:35:03,710 --> 00:35:00,119  
must have been brought back laid down

829  
00:35:06,050 --> 00:35:03,720  
carefully almost you know really almost

830  
00:35:08,750 --> 00:35:06,060  
ritually on the spot where it had been

831  
00:35:10,730 --> 00:35:08,760  
tagged the nids team investigated dozens

832  
00:35:13,370 --> 00:35:10,740  
of Mutilation cases across the country

833  
00:35:16,130 --> 00:35:13,380  
many of the tissue samples were analyzed

834  
00:35:18,410 --> 00:35:16,140  
in need's own lab in Las Vegas and then

835  
00:35:21,230 --> 00:35:18,420  
double checked by independent labs they

836  
00:35:23,630 --> 00:35:21,240  
hired the Utah calf was in a category

837  
00:35:26,390 --> 00:35:23,640  
all its own it seemed akin to

838  
00:35:28,670 --> 00:35:26,400

psychological warfare intended to shock

839

00:35:30,530 --> 00:35:28,680

and frighten the witnesses the following

840

00:35:32,870 --> 00:35:30,540

night there was another scare in the

841

00:35:34,970 --> 00:35:32,880

darkness of the first Homestead shots

842

00:35:37,490 --> 00:35:34,980

were fired at something that had rattled

843

00:35:39,349 --> 00:35:37,500

the herd eventually column Kelleher

844

00:35:42,710 --> 00:35:39,359

surmised that the perpetrators

845

00:35:45,349 --> 00:35:42,720

responsible for the calf were like an

846

00:35:47,510 --> 00:35:45,359

assembly line in a meat packing plant a

847

00:35:51,589 --> 00:35:47,520

machine was involved with this Carnage

848

00:35:54,780 --> 00:35:51,599

whatever happened to that calf was a an

849

00:35:58,069 --> 00:35:54,790

extraordinarily skillful job

850

00:36:12,829 --> 00:35:58,079

[Music]

851  
00:36:14,150 --> 00:36:12,839  
there's still people that'll say oh

852  
00:36:16,609 --> 00:36:14,160  
that's a predator that was a mountain

853  
00:36:19,130 --> 00:36:16,619  
lion that was a wolf obviously it was

854  
00:36:21,290 --> 00:36:19,140  
you know teeth marks and torn it it's

855  
00:36:22,730 --> 00:36:21,300  
not a predator it's not an you look for

856  
00:36:24,829 --> 00:36:22,740  
tracks you had a professional tracker

857  
00:36:27,050 --> 00:36:24,839  
there right no animal tracks no person

858  
00:36:30,050 --> 00:36:27,060  
tracks no vehicle tracks

859  
00:36:32,089 --> 00:36:30,060  
yes I mean we kind of did our due

860  
00:36:35,630 --> 00:36:32,099  
diligence we hired a professional

861  
00:36:39,170 --> 00:36:35,640  
tracker and they tracked a two you know

862  
00:36:41,210 --> 00:36:39,180  
two mile radius of that carcass and they

863  
00:36:43,310 --> 00:36:41,220

covered every inch of the ground I mean

864

00:36:47,270 --> 00:36:43,320

they did find tracks in the snow that

865

00:36:49,310 --> 00:36:47,280

were very bizarre mysterious tracks but

866

00:36:51,349 --> 00:36:49,320

they they were not sort of anywhere

867

00:36:53,210 --> 00:36:51,359

close to the animal they were these were

868

00:36:54,650 --> 00:36:53,220

a couple hundred yards away from me and

869

00:36:56,270 --> 00:36:54,660

again this is the broad daylight the

870

00:36:58,069 --> 00:36:56,280

Rancher and his wife are out there if

871

00:37:00,170 --> 00:36:58,079

there's a mountain lion chewing up this

872

00:37:02,630 --> 00:37:00,180

calf they would have heard something

873

00:37:05,030 --> 00:37:02,640

yeah it didn't look like chewing so

874

00:37:06,770 --> 00:37:05,040

that's it so George covers this case a

875

00:37:08,270 --> 00:37:06,780

lot in in my Movie hunt for the

876

00:37:11,329 --> 00:37:08,280

skinwalker you know that you guys are

877

00:37:13,490 --> 00:37:11,339

featured in but but I want to really get

878

00:37:16,069 --> 00:37:13,500

into this a little bit as so the volume

879

00:37:18,290 --> 00:37:16,079

of blood in these animals so blood is

880

00:37:20,450 --> 00:37:18,300

missing it's not like it's j and that

881

00:37:23,450 --> 00:37:20,460

happened on multiple cases multiple

882

00:37:25,970 --> 00:37:23,460

cases so so seven percent of the

883

00:37:29,510 --> 00:37:25,980

animal's body weight is blood so even

884

00:37:32,930 --> 00:37:29,520

with a hundred pound uh calf you know

885

00:37:35,270 --> 00:37:32,940

seven percent of that is 3.5 liters you

886

00:37:38,569 --> 00:37:35,280

should have Buckets of Blood all around

887

00:37:41,690 --> 00:37:38,579

the grass and there was not a drop of

888

00:37:43,849 --> 00:37:41,700

blood now as George mentions you know

889

00:37:45,710 --> 00:37:43,859

and not just one case many cases many

890

00:37:47,450 --> 00:37:45,720

many cases yeah I'm just giving you the

891

00:37:49,430 --> 00:37:47,460

example because we were standing over

892

00:37:50,990 --> 00:37:49,440

this calf we took a whole bunch of

893

00:37:55,849 --> 00:37:51,000

samples

894

00:37:58,210 --> 00:37:55,859

sharp instruments had been used on the

895

00:38:00,710 --> 00:37:58,220

animal uh scalpels

896

00:38:02,990 --> 00:38:00,720

scissor-like instrument but there was

897

00:38:05,930 --> 00:38:03,000

also teeth marks on the animal it was

898

00:38:09,470 --> 00:38:05,940

very very weird now

899

00:38:12,530 --> 00:38:09,480

that was an anomaly in in the case of of

900

00:38:14,930 --> 00:38:12,540

normal cattle mutilations normally what

901  
00:38:16,430 --> 00:38:14,940  
you've got is an ear is removed an eye

902  
00:38:18,170 --> 00:38:16,440  
is removed

903  
00:38:21,589 --> 00:38:18,180  
um sometimes there are wounds on the

904  
00:38:23,630 --> 00:38:21,599  
upper parts of the the neck but a lot of

905  
00:38:26,930 --> 00:38:23,640  
the time the reproductive organs are are

906  
00:38:29,569 --> 00:38:26,940  
removed the anus is poured out so it's

907  
00:38:32,690 --> 00:38:29,579  
sort of a classic series of tongue never

908  
00:38:34,730 --> 00:38:32,700  
cut yeah the tongue is sometimes removed

909  
00:38:36,950 --> 00:38:34,740  
okay so and you've got the blood out and

910  
00:38:40,010 --> 00:38:36,960  
then people I know I mean I talked with

911  
00:38:43,190 --> 00:38:40,020  
Gabe Valdez who was the kind of head guy

912  
00:38:44,930 --> 00:38:43,200  
in who you obviously but I I interviewed

913  
00:38:46,490 --> 00:38:44,940

him right before he died at four hours

914

00:38:48,349 --> 00:38:46,500

probably last inner I know it's the last

915

00:38:49,730 --> 00:38:48,359

interview you ever did so here's the

916

00:38:52,069 --> 00:38:49,740

deal it's just audio I wasn't really

917

00:38:53,510 --> 00:38:52,079

into this stuff back then to hide you

918

00:38:55,550 --> 00:38:53,520

guys thought hey meet this guy in New

919

00:38:56,870 --> 00:38:55,560

Mexico what year was that I'll I'll have

920

00:38:57,950 --> 00:38:56,880

to look back and I'll get you exactly

921

00:39:00,470 --> 00:38:57,960

that's interesting I got the recording

922

00:39:02,030 --> 00:39:00,480

but basically uh some of the things that

923

00:39:03,770 --> 00:39:02,040

I just want to see if it's confirmed by

924

00:39:07,310 --> 00:39:03,780

your uh interactions with this

925

00:39:09,050 --> 00:39:07,320

experience so chemical analysis was

926

00:39:10,490 --> 00:39:09,060

there anything that was found like

927

00:39:13,609 --> 00:39:10,500

chemical analysis when you look at

928

00:39:15,829 --> 00:39:13,619

wounds and that kind of thing yes that

929

00:39:19,270 --> 00:39:15,839

sort of started getting

930

00:39:22,310 --> 00:39:19,280

um very mysterious when we started doing

931

00:39:25,450 --> 00:39:22,320

in-depth chemical analysis of the blood

932

00:39:29,030 --> 00:39:25,460

in some of these animals we would find

933

00:39:31,190 --> 00:39:29,040

higher levels than there should be of we

934

00:39:33,230 --> 00:39:31,200

found a compound called oxendol for

935

00:39:35,870 --> 00:39:33,240

example which is actually a sedative

936

00:39:37,550 --> 00:39:35,880

when used at high concentrations but

937

00:39:40,190 --> 00:39:37,560

it's not a sedative that's used in the

938

00:39:43,550 --> 00:39:40,200

United States it's used in Europe so why

939

00:39:46,790 --> 00:39:43,560

would a sedative be in an animal in

940

00:39:48,890 --> 00:39:46,800

northeastern Utah on the pasture that's

941

00:39:51,890 --> 00:39:48,900

you know that's not used in the United

942

00:39:54,589 --> 00:39:51,900

States we found high levels of succinate

943

00:39:58,310 --> 00:39:54,599

which is a breakdown product of another

944

00:40:00,410 --> 00:39:58,320

anesthetic called succinylcholine we

945

00:40:03,170 --> 00:40:00,420

worked closely with a guy up in Montana

946

00:40:05,630 --> 00:40:03,180

called Captain Keith Wolverton who

947

00:40:08,210 --> 00:40:05,640

actually had done a sterling job back in

948

00:40:09,950 --> 00:40:08,220

the 7 70s and 80s of investigating

949

00:40:12,710 --> 00:40:09,960

Capital mutilations around Great Falls

950

00:40:15,890 --> 00:40:12,720

Montana well Wolverton had found

951  
00:40:19,730 --> 00:40:15,900  
evidence of obvious puncture wounds in

952  
00:40:22,849 --> 00:40:19,740  
the animal's jugulars they also found to

953  
00:40:24,589 --> 00:40:22,859  
drain the blood possibly well one of the

954  
00:40:26,990 --> 00:40:24,599  
one of the occasions they turned the

955  
00:40:30,349 --> 00:40:27,000  
animal over and they found this large

956  
00:40:33,829 --> 00:40:30,359  
hypodermic needle underneath the the cow

957  
00:40:36,290 --> 00:40:33,839  
and this was a really weird thing but it

958  
00:40:40,370 --> 00:40:36,300  
started getting us thinking that there's

959  
00:40:43,010 --> 00:40:40,380  
more to this than meets the eye so so it

960  
00:40:45,230 --> 00:40:43,020  
you know we we investigated dozens and

961  
00:40:48,290 --> 00:40:45,240  
dozens and dozens of different cases

962  
00:40:50,569 --> 00:40:48,300  
Academy Asian cases everywhere from

963  
00:40:55,550 --> 00:40:50,579

Washington State to California to

964

00:40:58,250 --> 00:40:55,560

Montana Utah Colorado New Mexico I mean

965

00:41:00,650 --> 00:40:58,260

we covered the gamut and sort of we were

966

00:41:03,589 --> 00:41:00,660

able to sort of distinguish two

967

00:41:05,390 --> 00:41:03,599

completely different ammos in the in the

968

00:41:08,089 --> 00:41:05,400

catalog regulation two ammo so what

969

00:41:10,670 --> 00:41:08,099

what's the well the first demo was was

970

00:41:12,530 --> 00:41:10,680

was the case one of the examples of the

971

00:41:14,630 --> 00:41:12,540

first demo was the case I just talked

972

00:41:16,730 --> 00:41:14,640

about where the the calf had been

973

00:41:18,950 --> 00:41:16,740

completely

974

00:41:21,650 --> 00:41:18,960

um you know ripped apart and sort of

975

00:41:24,470 --> 00:41:21,660

laid on the pasture we found other cases

976  
00:41:26,210 --> 00:41:24,480  
in Northern California where you know

977  
00:41:28,849 --> 00:41:26,220  
and I had been

978  
00:41:30,010 --> 00:41:28,859  
very carefully removed and put on the

979  
00:41:32,210 --> 00:41:30,020  
grass

980  
00:41:35,150 --> 00:41:32,220  
facing the animals sort of a

981  
00:41:37,130 --> 00:41:35,160  
psychological sort of uh I mean the

982  
00:41:39,710 --> 00:41:37,140  
animal Hut was dead obviously and and

983  
00:41:42,410 --> 00:41:39,720  
all of its entrails were gone but there

984  
00:41:45,290 --> 00:41:42,420  
was this eye the animal's eye from its

985  
00:41:49,310 --> 00:41:45,300  
its right eye was left carefully with

986  
00:41:53,349 --> 00:41:49,320  
all of the fluid inside the eye staring

987  
00:41:55,970 --> 00:41:53,359  
at the carcass so this was not a typical

988  
00:41:57,230 --> 00:41:55,980

animal mutilation we found a few of

989

00:41:59,870 --> 00:41:57,240

those

990

00:42:03,890 --> 00:41:59,880

um but but by far the largest number we

991

00:42:06,410 --> 00:42:03,900

found was the obvious sort of removal of

992

00:42:08,690 --> 00:42:06,420

the tongue removal of the eye uh

993

00:42:11,450 --> 00:42:08,700

sometimes there was parts of the brain

994

00:42:13,069 --> 00:42:11,460

gone removal of the reproductive organs

995

00:42:14,810 --> 00:42:13,079

were there like was there a hole where

996

00:42:16,990 --> 00:42:14,820

they took the brain out kind of thing no

997

00:42:19,069 --> 00:42:17,000

or any kind of places where you had

998

00:42:21,950 --> 00:42:19,079

organs that are taken out without

999

00:42:25,010 --> 00:42:21,960

incision marks well we came across that

1000

00:42:28,190 --> 00:42:25,020

too which was another very mysterious

1001  
00:42:31,670 --> 00:42:28,200  
part uh for example in northeastern Utah

1002  
00:42:34,849 --> 00:42:31,680  
we came across a case where

1003  
00:42:37,550 --> 00:42:34,859  
um this cow had been alive the previous

1004  
00:42:39,530 --> 00:42:37,560  
day we we did a necropsy the following

1005  
00:42:41,510 --> 00:42:39,540  
day and

1006  
00:42:44,150 --> 00:42:41,520  
um you know the

1007  
00:42:47,270 --> 00:42:44,160  
the pericardial Sac which surrounds the

1008  
00:42:50,569 --> 00:42:47,280  
heart was completely intact but the

1009  
00:42:53,210 --> 00:42:50,579  
heart was shredded as if sort of this

1010  
00:42:56,990 --> 00:42:53,220  
you know sliced and diced into a sort of

1011  
00:42:59,270 --> 00:42:57,000  
a pulp but that the pericardium which

1012  
00:43:00,829 --> 00:42:59,280  
you would normally have to get into in

1013  
00:43:02,690 --> 00:43:00,839

order to slice and dice the heart was

1014

00:43:04,609 --> 00:43:02,700

perfectly intact was there any kind of

1015

00:43:05,990 --> 00:43:04,619

incision outside the cow that would

1016

00:43:06,890 --> 00:43:06,000

allow them to get in there that you

1017

00:43:09,349 --> 00:43:06,900

notice

1018

00:43:12,410 --> 00:43:09,359

um there was an incision around the eye

1019

00:43:14,210 --> 00:43:12,420

but but a direct root from the eye to to

1020

00:43:16,849 --> 00:43:14,220

the heart was I mean it was very very

1021

00:43:20,089 --> 00:43:16,859

difficult the second thing was that we

1022

00:43:23,329 --> 00:43:20,099

did we did pregnancy analysis on the car

1023

00:43:25,430 --> 00:43:23,339

the cow had been pregnant and its womb

1024

00:43:28,130 --> 00:43:25,440

was empty you know it had been been

1025

00:43:31,490 --> 00:43:28,140

obviously pregnant the night very

1026

00:43:34,150 --> 00:43:31,500

recently so no no evidence of a fetus

1027

00:43:37,010 --> 00:43:34,160

whatsoever we also came across different

1028

00:43:39,890 --> 00:43:37,020

chemicals in in in that particular body

1029

00:43:41,870 --> 00:43:39,900

that shouldn't have been there I gotta I

1030

00:43:43,970 --> 00:43:41,880

gotta back up here very soon so I mean

1031

00:43:46,609 --> 00:43:43,980

so you personally studied this case with

1032

00:43:47,930 --> 00:43:46,619

a pericardium Sac is intact yes only a

1033

00:43:49,670 --> 00:43:47,940

hole in the eye and there was a

1034

00:43:51,530 --> 00:43:49,680

shredding of the heart yes and that's

1035

00:43:53,450 --> 00:43:51,540

not like the heart attack explodes the

1036

00:43:55,430 --> 00:43:53,460

heart into shreds this is different from

1037

00:43:57,290 --> 00:43:55,440

your personal observation yeah and

1038

00:43:58,910 --> 00:43:57,300

there's other cases where fetuses are

1039

00:44:01,730 --> 00:43:58,920

removed and there's no entry points that

1040

00:44:05,990 --> 00:44:01,740

are obvious right

1041

00:44:08,030 --> 00:44:06,000

Bones Bones have moved without incisions

1042

00:44:10,970 --> 00:44:08,040

um no we never saw that actually I mean

1043

00:44:12,170 --> 00:44:10,980

it just takes one strange I mean so now

1044

00:44:13,609 --> 00:44:12,180

but hold on you're talking about two

1045

00:44:15,410 --> 00:44:13,619

Mo's and I keep thinking about this

1046

00:44:18,170 --> 00:44:15,420

thing you keep telling me called buy

1047

00:44:20,270 --> 00:44:18,180

symmetrical mimicry if if we're talking

1048

00:44:22,069 --> 00:44:20,280

about these mutilations are being done

1049

00:44:23,450 --> 00:44:22,079

by like Satanist people that come in

1050

00:44:25,490 --> 00:44:23,460

order okay well no one's ever been

1051  
00:44:27,770 --> 00:44:25,500  
caught okay next one someone's gonna say

1052  
00:44:29,630 --> 00:44:27,780  
it's a secret government program right

1053  
00:44:32,390 --> 00:44:29,640  
you did find a syringe and some

1054  
00:44:33,670 --> 00:44:32,400  
sedatives from another country but does

1055  
00:44:37,670 --> 00:44:33,680  
this relate to your idea of

1056  
00:44:40,490 --> 00:44:37,680  
bi-symmetrical mimicry yes partly yeah

1057  
00:44:43,069 --> 00:44:40,500  
it does now another another example of

1058  
00:44:46,670 --> 00:44:43,079  
medical equipment was uh Sheriff text

1059  
00:44:48,890 --> 00:44:46,680  
Graves uh Logan County Colorado which

1060  
00:44:51,770 --> 00:44:48,900  
was a really big epicenter of

1061  
00:44:54,109 --> 00:44:51,780  
calculations in the 1970s and 1980s

1062  
00:44:56,750 --> 00:44:54,119  
we're talking hundreds and hundreds of

1063  
00:44:59,450 --> 00:44:56,760

cases in northeastern Colorado which is

1064

00:45:02,510 --> 00:44:59,460

a big beef part of you know center of

1065

00:45:05,210 --> 00:45:02,520

the country in fact the governor uh

1066

00:45:06,950 --> 00:45:05,220

Governor actually went up

1067

00:45:10,790 --> 00:45:06,960

um Governor of Colorado went up in the

1068

00:45:12,470 --> 00:45:10,800

1970s to spec out what was going on

1069

00:45:15,470 --> 00:45:12,480

because it was so prevalent and he

1070

00:45:17,329 --> 00:45:15,480

called it an outrage that so many cattle

1071

00:45:19,730 --> 00:45:17,339

were going down and nobody seemed to

1072

00:45:21,650 --> 00:45:19,740

know why and he he said it was one of

1073

00:45:25,130 --> 00:45:21,660

the biggest outrages that he'd ever seen

1074

00:45:27,710 --> 00:45:25,140

but anyway Sheriff text Graves have been

1075

00:45:30,589 --> 00:45:27,720

investigating a lot of these mutilations

1076  
00:45:33,290 --> 00:45:30,599  
and he turned an animal over and found

1077  
00:45:36,170 --> 00:45:33,300  
medical equipment underneath the animal

1078  
00:45:38,150 --> 00:45:36,180  
that was capable of exsanguinating the

1079  
00:45:41,150 --> 00:45:38,160  
animal which is removing all the blood

1080  
00:45:43,910 --> 00:45:41,160  
from the animal so you know that case

1081  
00:45:47,030 --> 00:45:43,920  
was not very well reported because it

1082  
00:45:48,829 --> 00:45:47,040  
was overlaid on literally hundreds of

1083  
00:45:51,470 --> 00:45:48,839  
other mutilations where there was no

1084  
00:45:54,290 --> 00:45:51,480  
medical equipment found and no tracks

1085  
00:45:57,290 --> 00:45:54,300  
and mysterious lights in the sky so the

1086  
00:46:00,109 --> 00:45:57,300  
the sort of the general meme at the time

1087  
00:46:02,390 --> 00:46:00,119  
was that you know there was mysterious

1088  
00:46:04,030 --> 00:46:02,400

lights in the sky that's seemed to

1089

00:46:07,130 --> 00:46:04,040

trigger these cattle mutilations

1090

00:46:10,730 --> 00:46:07,140

therefore there may have been quote

1091

00:46:12,470 --> 00:46:10,740

unquote UFOs involved with with the you

1092

00:46:13,250 --> 00:46:12,480

know the deaths

1093

00:46:16,430 --> 00:46:13,260

um

1094

00:46:19,250 --> 00:46:16,440

I we we investigated a lot of these

1095

00:46:22,550 --> 00:46:19,260

cases and we found because of these

1096

00:46:24,890 --> 00:46:22,560

medical associations we postulated that

1097

00:46:29,270 --> 00:46:24,900

some kind of sampling exercise might be

1098

00:46:31,670 --> 00:46:29,280

going on at the same time as the uh the

1099

00:46:34,309 --> 00:46:31,680

quote unquote genuine mutilation so that

1100

00:46:36,829 --> 00:46:34,319

that sort of brings brings this whole

1101  
00:46:37,849 --> 00:46:36,839  
bi-directional mimicry hypothesis what

1102  
00:46:41,809 --> 00:46:37,859  
does that mean I don't know what the

1103  
00:46:44,510 --> 00:46:41,819  
word means so so mimicry here we have a

1104  
00:46:47,569 --> 00:46:44,520  
phenomenon that began we think in the

1105  
00:46:49,430 --> 00:46:47,579  
1950s that probably began earlier but

1106  
00:46:52,790 --> 00:46:49,440  
you know a lot of the cases started

1107  
00:46:55,430 --> 00:46:52,800  
emerging in the late 1950s and and 1960s

1108  
00:46:57,050 --> 00:46:55,440  
of cattle mutilations all the way

1109  
00:46:59,630 --> 00:46:57,060  
through the western part of the United

1110  
00:47:01,630 --> 00:46:59,640  
States and also up in Canada

1111  
00:47:04,370 --> 00:47:01,640  
um and actually in other countries too

1112  
00:47:06,950 --> 00:47:04,380  
so here we have a phenomenon that's

1113  
00:47:10,130 --> 00:47:06,960

quote unquote genuine but at the same

1114

00:47:12,890 --> 00:47:10,140

time we're finding these occasional

1115

00:47:16,010 --> 00:47:12,900

cases where it's pretty obvious that

1116

00:47:18,589 --> 00:47:16,020

somebody is using sedatives is using

1117

00:47:22,309 --> 00:47:18,599

hypodermic needles and is using medical

1118

00:47:23,809 --> 00:47:22,319

equipment to exsanguinate animals so we

1119

00:47:24,970 --> 00:47:23,819

postulated that there were two things

1120

00:47:27,170 --> 00:47:24,980

going on

1121

00:47:29,569 --> 00:47:27,180

simultaneously that were causing a lot

1122

00:47:31,490 --> 00:47:29,579

of confusion you've got number one a

1123

00:47:34,329 --> 00:47:31,500

quote unquote genuine phenomenon and

1124

00:47:37,010 --> 00:47:34,339

number two you've got this medical

1125

00:47:40,630 --> 00:47:37,020

surveillance project that has been

1126  
00:47:44,089 --> 00:47:40,640  
carried out knowing that you know most

1127  
00:47:46,430 --> 00:47:44,099  
veterinarians will not touch a mutilated

1128  
00:47:50,710 --> 00:47:46,440  
animal because the quote-unquote aliens

1129  
00:47:53,809 --> 00:47:50,720  
are associated with mutilated animals so

1130  
00:47:55,490 --> 00:47:53,819  
these these small covert surveillance

1131  
00:47:58,550 --> 00:47:55,500  
programs

1132  
00:48:01,609 --> 00:47:58,560  
um that are being carried out

1133  
00:48:03,770 --> 00:48:01,619  
um are being carried out knowing uh that

1134  
00:48:06,410 --> 00:48:03,780  
the all overall umbrella of Cattlemen

1135  
00:48:09,109 --> 00:48:06,420  
relations is protecting the perpetrators

1136  
00:48:10,730 --> 00:48:09,119  
from being caught so I mean that's the

1137  
00:48:12,950 --> 00:48:10,740  
bi-directional mimic where you've got

1138  
00:48:15,710 --> 00:48:12,960

you've got the quote unquote real

1139

00:48:18,050 --> 00:48:15,720

phenomenon you've got a a small program

1140

00:48:20,210 --> 00:48:18,060

that's hiding underneath the phenomenon

1141

00:48:22,849 --> 00:48:20,220

and then you've got the phenomenon

1142

00:48:25,849 --> 00:48:22,859

that's actually mimicking you know the

1143

00:48:28,430 --> 00:48:25,859

uh the the the government surveillance

1144

00:48:30,650 --> 00:48:28,440

program so you've got this you can you

1145

00:48:33,109 --> 00:48:30,660

can create these Z plots but the problem

1146

00:48:36,470 --> 00:48:33,119

is that you're looking at cattle

1147

00:48:39,349 --> 00:48:36,480

mutilations through the lens of two

1148

00:48:41,870 --> 00:48:39,359

layers of deception you know so you've

1149

00:48:44,870 --> 00:48:41,880

got the layer of dissection from the uh

1150

00:48:47,930 --> 00:48:44,880

from the phenomenon you've also got the

1151

00:48:50,630 --> 00:48:47,940

layer of deception from the

1152

00:48:53,930 --> 00:48:50,640

um the government program that is using

1153

00:48:56,809 --> 00:48:53,940

in cattle mutilations as a cover for a

1154

00:48:59,930 --> 00:48:56,819

surveillance effort so you've got two

1155

00:49:02,510 --> 00:48:59,940

layers of deception it's very very

1156

00:49:04,490 --> 00:49:02,520

difficult for an outsider coming into

1157

00:49:06,890 --> 00:49:04,500

this to penetrate those two layers of

1158

00:49:10,430 --> 00:49:06,900

deception you can draw exactly the same

1159

00:49:12,650 --> 00:49:10,440

plot for the UFO phenomenon you know UFO

1160

00:49:15,290 --> 00:49:12,660

phenomenon starts off as being genuine

1161

00:49:18,290 --> 00:49:15,300

then you I mean we interviewed Colonel

1162

00:49:22,250 --> 00:49:18,300

Barry Hennessy who was the head of the

1163

00:49:23,870 --> 00:49:22,260

infamous afosi PJ we interviewed him as

1164

00:49:27,050 --> 00:49:23,880

part of the OSAP program

1165

00:49:28,730 --> 00:49:27,060

this I mean he blatantly told us he

1166

00:49:32,150 --> 00:49:28,740

didn't tell us on camera but he told us

1167

00:49:34,910 --> 00:49:32,160

that they had used the UFO phenomenon as

1168

00:49:37,190 --> 00:49:34,920

a cover for their Advanced projects and

1169

00:49:39,589 --> 00:49:37,200

this guy was part of the Air Force the

1170

00:49:41,450 --> 00:49:39,599

afosi so

1171

00:49:43,130 --> 00:49:41,460

um so we have the same thing we've got a

1172

00:49:46,069 --> 00:49:43,140

we've got a quote unquote genuine

1173

00:49:47,870 --> 00:49:46,079

phenomenon we've got a series of

1174

00:49:52,190 --> 00:49:47,880

advanced technology projects special

1175

00:49:55,430 --> 00:49:52,200

Access program uh going on using the UFO

1176  
00:49:57,710 --> 00:49:55,440  
as a as a cover and then you've got this

1177  
00:50:01,250 --> 00:49:57,720  
sort of reverse engineering setup that's

1178  
00:50:04,190 --> 00:50:01,260  
going on that are creating these

1179  
00:50:06,109 --> 00:50:04,200  
um you know special access programs that

1180  
00:50:08,690 --> 00:50:06,119  
are are happening and then you've got

1181  
00:50:10,670 --> 00:50:08,700  
the phenomenon that is mimicking these

1182  
00:50:14,089 --> 00:50:10,680  
special access programs you know you've

1183  
00:50:16,910 --> 00:50:14,099  
got helicopters with impossible levels

1184  
00:50:19,490 --> 00:50:16,920  
of of acceleration you've got you know

1185  
00:50:22,370 --> 00:50:19,500  
craft flying around the place

1186  
00:50:24,829 --> 00:50:22,380  
um that look like triangular craft that

1187  
00:50:27,410 --> 00:50:24,839  
that should be part of the you know Air

1188  
00:50:29,450 --> 00:50:27,420

Force Arsenal but they're probably the

1189

00:50:31,430 --> 00:50:29,460

phenomenon so you've got this two layers

1190

00:50:32,750 --> 00:50:31,440

of deception with the UFO phenomenon so

1191

00:50:35,150 --> 00:50:32,760

the question is

1192

00:50:37,910 --> 00:50:35,160

which we've been asking for decades are

1193

00:50:40,190 --> 00:50:37,920

they ours are theirs you you uh

1194

00:50:42,050 --> 00:50:40,200

eventually wrote a book about your ideas

1195

00:50:44,030 --> 00:50:42,060

Brain Trust it was right where you're

1196

00:50:46,490 --> 00:50:44,040

looking at the the two levels so there

1197

00:50:51,530 --> 00:50:46,500

is a legitimate mystery something

1198

00:50:53,809 --> 00:50:51,540

carving up cattle horses sheep dogs cats

1199

00:50:55,970 --> 00:50:53,819

deer other wild animals well it's not

1200

00:50:57,290 --> 00:50:55,980

just it's not just cows right that

1201  
00:51:00,290 --> 00:50:57,300  
something has been doing this taking

1202  
00:51:03,290 --> 00:51:00,300  
particular Parts uh I'd be interested in

1203  
00:51:05,410 --> 00:51:03,300  
why those parts what what they whoever

1204  
00:51:07,849 --> 00:51:05,420  
they are could learn from it and then

1205  
00:51:10,010 --> 00:51:07,859  
the secondary monitoring either

1206  
00:51:12,170 --> 00:51:10,020  
government or industry that is tracking

1207  
00:51:13,849 --> 00:51:12,180  
something through the food chain what

1208  
00:51:15,710 --> 00:51:13,859  
were they looking for what what could be

1209  
00:51:17,270 --> 00:51:15,720  
learned based on the parts that are

1210  
00:51:21,410 --> 00:51:17,280  
being taken from these various animals

1211  
00:51:26,150 --> 00:51:21,420  
well we put out the hypothesis at nid's

1212  
00:51:30,230 --> 00:51:26,160  
back in 2003 we were looking for what

1213  
00:51:31,970 --> 00:51:30,240

could possibly be of such interest that

1214

00:51:33,650 --> 00:51:31,980

I mean normally if you want to track

1215

00:51:36,049 --> 00:51:33,660

something you go to to slaughter houses

1216

00:51:38,150 --> 00:51:36,059

and you gather samples I mean there's no

1217

00:51:40,790 --> 00:51:38,160

there's nothing mysterious about that

1218

00:51:43,549 --> 00:51:40,800

but if you want to track spread of

1219

00:51:45,650 --> 00:51:43,559

something through herds in the wild

1220

00:51:48,230 --> 00:51:45,660

um the way you do it is illegal I mean

1221

00:51:50,390 --> 00:51:48,240

you basically start sampling animals if

1222

00:51:52,010 --> 00:51:50,400

if it's Wildlife it's not illegal but if

1223

00:51:54,770 --> 00:51:52,020

these are cattle that are owned by

1224

00:51:58,069 --> 00:51:54,780

ranchers it is illegal so you do it

1225

00:52:00,410 --> 00:51:58,079

under under covert yeah why wouldn't the

1226  
00:52:02,510 --> 00:52:00,420  
government just have their own staple of

1227  
00:52:04,250 --> 00:52:02,520  
cows that they would yeah why would you

1228  
00:52:06,410 --> 00:52:04,260  
go steal somebody's cow instead because

1229  
00:52:09,470 --> 00:52:06,420  
you're tracking something that's that's

1230  
00:52:11,650 --> 00:52:09,480  
moving through the food chain in the in

1231  
00:52:14,450 --> 00:52:11,660  
the west of the United States

1232  
00:52:15,710 --> 00:52:14,460  
okay yeah yeah I mean we're eating cows

1233  
00:52:17,750 --> 00:52:15,720  
right right but we're not eating the

1234  
00:52:19,849 --> 00:52:17,760  
government's cows so it's not that's why

1235  
00:52:23,510 --> 00:52:19,859  
they're do well well I mean the the the

1236  
00:52:25,430 --> 00:52:23,520  
real kicker here is that there's a long

1237  
00:52:27,349 --> 00:52:25,440  
history of

1238  
00:52:29,530 --> 00:52:27,359

um I mean nids came up with the

1239

00:52:31,970 --> 00:52:29,540

hypothesis that one of the possible

1240

00:52:33,010 --> 00:52:31,980

infectious organisms that could be

1241

00:52:35,750 --> 00:52:33,020

traveling

1242

00:52:38,030 --> 00:52:35,760

surreptitiously through the herds was

1243

00:52:40,210 --> 00:52:38,040

what what is called a prion which is an

1244

00:52:43,270 --> 00:52:40,220

infectious protein indestructible

1245

00:52:45,890 --> 00:52:43,280

indestructible and it it actually

1246

00:52:47,390 --> 00:52:45,900

has destroyed a lot of the elk

1247

00:52:49,250 --> 00:52:47,400

population a lot of the deer population

1248

00:52:52,790 --> 00:52:49,260

in the western part of the United States

1249

00:52:56,809 --> 00:52:52,800

and Canada but you know it also infects

1250

00:52:59,990 --> 00:52:56,819

cows it infects deers and Elk so we we

1251  
00:53:02,750 --> 00:53:00,000  
looked at the hypothesis that the

1252  
00:53:05,210 --> 00:53:02,760  
Infectious organism which is a very

1253  
00:53:08,930 --> 00:53:05,220  
devastating disease a brain disease

1254  
00:53:12,470 --> 00:53:08,940  
called Christian Jakob syndrome where

1255  
00:53:15,109 --> 00:53:12,480  
you're a human's brain turns to Swiss

1256  
00:53:18,829 --> 00:53:15,119  
cheese in cows is called mad cow disease

1257  
00:53:21,950 --> 00:53:18,839  
and it erupted in the United Kingdom in

1258  
00:53:25,670 --> 00:53:21,960  
the 1990s and you know people who were

1259  
00:53:27,530 --> 00:53:25,680  
who were eating infected meat came down

1260  
00:53:29,930 --> 00:53:27,540  
young people came down with these

1261  
00:53:33,049 --> 00:53:29,940  
devastating brain diseases where the

1262  
00:53:36,230 --> 00:53:33,059  
brains became swiss cheese and they but

1263  
00:53:37,970 --> 00:53:36,240

you know incurable obviously so the

1264

00:53:41,630 --> 00:53:37,980

hypothesis that we were looking at is

1265

00:53:43,190 --> 00:53:41,640

that this is so sort of toxic and very

1266

00:53:46,010 --> 00:53:43,200

very

1267

00:53:48,650 --> 00:53:46,020

um I guess inflammatory

1268

00:53:52,190 --> 00:53:48,660

um is that a covert program was was

1269

00:53:55,730 --> 00:53:52,200

launched in the 60s and 70s to see how

1270

00:53:58,250 --> 00:53:55,740

far uh these prions might have got from

1271

00:54:00,770 --> 00:53:58,260

Wildlife into the food chain when you

1272

00:54:03,049 --> 00:54:00,780

say covert you mean a government decided

1273

00:54:05,809 --> 00:54:03,059

Well probably a contractor a Contractor

1274

00:54:07,910 --> 00:54:05,819

on behalf of a government yes

1275

00:54:10,130 --> 00:54:07,920

um did a covert program to track prions

1276  
00:54:12,349 --> 00:54:10,140  
through the food chain that that was the

1277  
00:54:13,270 --> 00:54:12,359  
hypothesis that we we were looking at

1278  
00:54:16,609 --> 00:54:13,280  
because

1279  
00:54:19,490 --> 00:54:16,619  
there is a uh you know it was a very

1280  
00:54:21,349 --> 00:54:19,500  
bizarre series of

1281  
00:54:24,710 --> 00:54:21,359  
um cause and effects that led to that

1282  
00:54:28,309 --> 00:54:24,720  
hypothesis but to cut a long story short

1283  
00:54:31,549 --> 00:54:28,319  
an NIH scientist out in Papua New Guinea

1284  
00:54:33,530 --> 00:54:31,559  
uh was investigating this bizarre brain

1285  
00:54:35,690 --> 00:54:33,540  
disease that people in Papua New Guinea

1286  
00:54:37,250 --> 00:54:35,700  
were coming down with Edibles yeah there

1287  
00:54:39,829 --> 00:54:37,260  
were cannibals they were eating their

1288  
00:54:41,390 --> 00:54:39,839

dead as a sign of respect but the

1289

00:54:43,549 --> 00:54:41,400

problem with eating their dead was they

1290

00:54:45,549 --> 00:54:43,559

were eating the these people's brains

1291

00:54:48,230 --> 00:54:45,559

and they were come down with this

1292

00:54:51,349 --> 00:54:48,240

uncontrollable shaking and they would

1293

00:54:54,890 --> 00:54:51,359

die soon you know within a year or two

1294

00:54:57,410 --> 00:54:54,900

of of symptoms starting so this guy his

1295

00:55:00,650 --> 00:54:57,420

name was Carlton gajushek

1296

00:55:02,690 --> 00:55:00,660

um he got the bright idea of

1297

00:55:05,089 --> 00:55:02,700

you know who's kind of like a James Bond

1298

00:55:06,890 --> 00:55:05,099

type he would be out in the wilds and

1299

00:55:08,150 --> 00:55:06,900

these people would be dying all over the

1300

00:55:10,910 --> 00:55:08,160

place

1301  
00:55:13,370 --> 00:55:10,920  
um of this uncontrollable disease so we

1302  
00:55:15,290 --> 00:55:13,380  
would open their skulls

1303  
00:55:17,450 --> 00:55:15,300  
take their brains out which were

1304  
00:55:19,130 --> 00:55:17,460  
infected with this thing and he would

1305  
00:55:20,569 --> 00:55:19,140  
ship them back to the National

1306  
00:55:23,030 --> 00:55:20,579  
Institutes of Health in the United

1307  
00:55:25,910 --> 00:55:23,040  
States they all ended up in this place

1308  
00:55:28,849 --> 00:55:25,920  
called Fort Dietrich Maryland which is a

1309  
00:55:32,150 --> 00:55:28,859  
center of biological warfare research in

1310  
00:55:34,790 --> 00:55:32,160  
the United States so they started

1311  
00:55:37,190 --> 00:55:34,800  
in the 1960s they really had no idea

1312  
00:55:39,470 --> 00:55:37,200  
what what this causative agent was doing

1313  
00:55:43,730 --> 00:55:39,480

or what it was they thought it might be

1314

00:55:47,450 --> 00:55:43,740

a slow virus so they started injecting

1315

00:55:48,950 --> 00:55:47,460

this these uh brain slurries into every

1316

00:55:51,589 --> 00:55:48,960

animal they could get their hands on

1317

00:55:53,270 --> 00:55:51,599

everything like from chimpanzees they

1318

00:55:56,569 --> 00:55:53,280

set up this

1319

00:55:58,430 --> 00:55:56,579

um sort of zoo like like area in

1320

00:56:01,010 --> 00:55:58,440

Maryland there was actually a Wildlife

1321

00:56:03,049 --> 00:56:01,020

Reserve in Maryland and they started

1322

00:56:05,990 --> 00:56:03,059

injecting deer they started injecting

1323

00:56:08,990 --> 00:56:06,000

chimpanzees mice rats anything they

1324

00:56:10,609 --> 00:56:09,000

could lay their hands on to see if these

1325

00:56:11,690 --> 00:56:10,619

animals would get sick and a lot of them

1326

00:56:14,210 --> 00:56:11,700

did

1327

00:56:17,990 --> 00:56:14,220

but the problem with that is that the uh

1328

00:56:19,849 --> 00:56:18,000

the Wildlife Reserve was so poorly uh

1329

00:56:23,990 --> 00:56:19,859

secure that a lot of these animals

1330

00:56:28,309 --> 00:56:24,000

escaped and so you the origin of this

1331

00:56:31,910 --> 00:56:28,319

hypothesis is that this prion which is a

1332

00:56:34,910 --> 00:56:31,920

very slow way of dying was moving slowly

1333

00:56:39,049 --> 00:56:34,920

through the food chain it and there was

1334

00:56:42,770 --> 00:56:39,059

a a major outbreak of this prion disease

1335

00:56:45,710 --> 00:56:42,780

in northeastern Colorado in the 60s and

1336

00:56:48,109 --> 00:56:45,720

so the calculation phenomenon erupted in

1337

00:56:51,290 --> 00:56:48,119

northeastern Colorado around the same

1338

00:56:53,690 --> 00:56:51,300

time roughly temporarily and so you know

1339

00:56:56,510 --> 00:56:53,700

you've got all these sort of lights in

1340

00:56:58,730 --> 00:56:56,520

the sky that were causing these animals

1341

00:57:01,130 --> 00:56:58,740

or associated with these animals dying

1342

00:57:02,930 --> 00:57:01,140

and so the hypothesis we put out was

1343

00:57:06,049 --> 00:57:02,940

that they were actually monitoring the

1344

00:57:07,549 --> 00:57:06,059

spread of these prions as it spread

1345

00:57:10,069 --> 00:57:07,559

through the cattle herds in northeastern

1346

00:57:12,770 --> 00:57:10,079

Colorado and then they found that there

1347

00:57:15,430 --> 00:57:12,780

was spreading a lot quicker through the

1348

00:57:18,349 --> 00:57:15,440

United States so and it's scary as hell

1349

00:57:20,750 --> 00:57:18,359

column's book Brain Trust tracks the

1350

00:57:22,309 --> 00:57:20,760

spread of this it really is through the

1351  
00:57:25,309 --> 00:57:22,319  
food chain you know those animals get

1352  
00:57:27,770 --> 00:57:25,319  
out a deer is infected it gets hit and

1353  
00:57:29,630 --> 00:57:27,780  
and somebody grinds it up and feeds it

1354  
00:57:31,730 --> 00:57:29,640  
to other animals these prions are

1355  
00:57:34,670 --> 00:57:31,740  
indestructible so now those animals have

1356  
00:57:36,410 --> 00:57:34,680  
it so you've had cows eating cows and

1357  
00:57:38,630 --> 00:57:36,420  
they get it and then they they get

1358  
00:57:40,730 --> 00:57:38,640  
ground up and people eat them and it

1359  
00:57:42,829 --> 00:57:40,740  
goes into humans there's been an

1360  
00:57:44,150 --> 00:57:42,839  
explosion we don't call at Mad Cow

1361  
00:57:46,490 --> 00:57:44,160  
anymore but other kinds of brain

1362  
00:57:48,049 --> 00:57:46,500  
diseases brain wasting diseases that

1363  
00:57:49,910 --> 00:57:48,059

nobody wants to talk about that nobody

1364

00:57:52,549 --> 00:57:49,920

wants to admit might be related to this

1365

00:57:55,250 --> 00:57:52,559

because they don't want to alienate the

1366

00:57:57,410 --> 00:57:55,260

beef industry the pig industry they want

1367

00:57:59,630 --> 00:57:57,420

people to keep on eating this stuff yeah

1368

00:58:01,549 --> 00:57:59,640

so so I remember this one time in

1369

00:58:03,589 --> 00:58:01,559

Pioneer town you sat me down at a table

1370

00:58:05,690 --> 00:58:03,599

and I was where I was filming this

1371

00:58:08,990 --> 00:58:05,700

adventure to go there's a fresh you know

1372

00:58:10,849 --> 00:58:09,000

cattle but I you laid it out for me at

1373

00:58:12,770 --> 00:58:10,859

that table you're like no this is

1374

00:58:14,510 --> 00:58:12,780

happening it's much more no matter what

1375

00:58:16,130 --> 00:58:14,520

it is you know from lights in the sky to

1376

00:58:18,230 --> 00:58:16,140

a government program to people running

1377

00:58:20,030 --> 00:58:18,240

around no one's ever been caught and you

1378

00:58:21,370 --> 00:58:20,040

sat me at that table and you laid it out

1379

00:58:23,870 --> 00:58:21,380

for me I was

1380

00:58:26,210 --> 00:58:23,880

astonished with the documentation that

1381

00:58:29,089 --> 00:58:26,220

you were able to show me from the FBI on

1382

00:58:31,069 --> 00:58:29,099

my question for you is with the book

1383

00:58:32,870 --> 00:58:31,079

Brain Trust when did you put did you

1384

00:58:35,930 --> 00:58:32,880

publish this after these investigations

1385

00:58:38,569 --> 00:58:35,940

with the nid stuff yeah okay so you had

1386

00:58:41,089 --> 00:58:38,579

Direct first-hand but the book is not

1387

00:58:43,490 --> 00:58:41,099

all about that part of the mystery it's

1388

00:58:45,890 --> 00:58:43,500

about the prions and the tracking of

1389

00:58:48,049 --> 00:58:45,900

this illness yes yeah the majority of

1390

00:58:50,270 --> 00:58:48,059

the book is about the the tracking of

1391

00:58:52,370 --> 00:58:50,280

the illness the origin in Papua New

1392

00:58:54,589 --> 00:58:52,380

Guinea and the way it it tracked into

1393

00:58:56,150 --> 00:58:54,599

the United States and then

1394

00:58:58,130 --> 00:58:56,160

um it it tracked through different

1395

00:59:00,650 --> 00:58:58,140

animals and Wildlife through the United

1396

00:59:03,710 --> 00:59:00,660

States one of the chapters does talk

1397

00:59:05,530 --> 00:59:03,720

about calculations and it does correlate

1398

00:59:09,530 --> 00:59:05,540

the uh you know that the academy

1399

00:59:12,109 --> 00:59:09,540

relations with the surveillance program

1400

00:59:14,089 --> 00:59:12,119

that was going on I've seen it said in

1401

00:59:15,770 --> 00:59:14,099

these broad statements column Keller has

1402

00:59:17,930 --> 00:59:15,780

explained the whole thing they're all

1403

00:59:19,970 --> 00:59:17,940

humans it's monitoring the something in

1404

00:59:21,890 --> 00:59:19,980

the food chain it's all explainable it's

1405

00:59:24,049 --> 00:59:21,900

not all explainable though legitimate

1406

00:59:26,450 --> 00:59:24,059

mystery yeah we still don't know who

1407

00:59:28,870 --> 00:59:26,460

they are and why they're taking these

1408

00:59:32,030 --> 00:59:28,880

particular Partners absolutely I I I I

1409

00:59:35,450 --> 00:59:32,040

think we we did enough research with

1410

00:59:38,270 --> 00:59:35,460

Ned's in the 1990s especially with the

1411

00:59:40,910 --> 00:59:38,280

academy relation phenomenon to show that

1412

00:59:43,789 --> 00:59:40,920

we're two completely separate patterns

1413

00:59:46,370 --> 00:59:43,799

of cattle mutilations and one of them

1414

00:59:49,549 --> 00:59:46,380

was not explicable through a

1415

00:59:52,190 --> 00:59:49,559

surveillance program it was way too

1416

00:59:54,530 --> 00:59:52,200

weird way too bizarre

1417

00:59:57,289 --> 00:59:54,540

um for a sampling exercise or a

1418

01:00:00,349 --> 00:59:57,299

surveillance program so we we ended up

1419

01:00:02,510 --> 01:00:00,359

that there were two classes of Cattlemen

1420

01:00:05,210 --> 01:00:02,520

relations but that message really never

1421

01:00:08,270 --> 01:00:05,220

got you know got through that there were

1422

01:00:10,549 --> 01:00:08,280

two classes of mutilations just like

1423

01:00:13,609 --> 01:00:10,559

um in the UFO with the UFO phenomenon

1424

01:00:16,490 --> 01:00:13,619

you know black triangles are they ours

1425

01:00:19,549 --> 01:00:16,500

are they theirs is it a special is it a

1426

01:00:21,770 --> 01:00:19,559

special access program or is it UFOs I

1427

01:00:24,230 --> 01:00:21,780

mean you've got these these these

1428

01:00:26,089 --> 01:00:24,240

massive black triangles and nids did a

1429

01:00:28,190 --> 01:00:26,099

lot of research on on the black triangle

1430

01:00:30,770 --> 01:00:28,200

phenomenon we interviewed hundreds of

1431

01:00:32,510 --> 01:00:30,780

witnesses around the United States and

1432

01:00:35,150 --> 01:00:32,520

you know we came up with the same kind

1433

01:00:39,370 --> 01:00:35,160

of thing there were it seemed like there

1434

01:00:42,109 --> 01:00:39,380

were sort of impossibly large

1435

01:00:44,990 --> 01:00:42,119

triangular craft that were floating over

1436

01:00:47,809 --> 01:00:45,000

neighborhoods at Treetop level that were

1437

01:00:50,390 --> 01:00:47,819

so ridiculously brightly lit if this was

1438

01:00:54,289 --> 01:00:50,400

a special Access program you know it was

1439

01:00:56,690 --> 01:00:54,299

a severely uh lacking in air safety

1440

01:00:58,870 --> 01:00:56,700

protocols I mean if if this was an

1441

01:01:01,849 --> 01:00:58,880

experimental aircraft flying over

1442

01:01:05,450 --> 01:01:01,859

neighborhoods a treetop level you know

1443

01:01:08,329 --> 01:01:05,460

sort of Gliding Over neighborhoods that

1444

01:01:10,670 --> 01:01:08,339

that the um the Air Force would would

1445

01:01:13,250 --> 01:01:10,680

fire these people these Pilots I mean it

1446

01:01:15,530 --> 01:01:13,260

was it made no sense but at the same

1447

01:01:18,049 --> 01:01:15,540

time we know that you know triangular

1448

01:01:21,230 --> 01:01:18,059

craft are being flown I mean the B1 and

1449

01:01:23,750 --> 01:01:21,240

the B21 are are sort of classic examples

1450

01:01:26,510 --> 01:01:23,760

of what sort of a triangular crop would

1451

01:01:28,250 --> 01:01:26,520

look like but you've got these two uh

1452

01:01:31,970 --> 01:01:28,260

different

1453

01:01:34,130 --> 01:01:31,980

um origins of these triangular craft and

1454

01:01:36,049 --> 01:01:34,140

you know it comes up with the same thing

1455

01:01:38,990 --> 01:01:36,059

you're looking at this black triangle

1456

01:01:41,030 --> 01:01:39,000

phenomenon through two layers of

1457

01:01:43,730 --> 01:01:41,040

December action and it's very very

1458

01:01:46,190 --> 01:01:43,740

difficult uh needs is such an amazing

1459

01:01:49,069 --> 01:01:46,200

organization so Bigelow starts creating

1460

01:01:50,390 --> 01:01:49,079

it in 1995 and by that time I'd been

1461

01:01:52,730 --> 01:01:50,400

friends with him for about six years

1462

01:01:54,470 --> 01:01:52,740

Robert Bigelow and he's very ambitious

1463

01:01:57,530 --> 01:01:54,480

he'd been giving out a lot of money to

1464

01:02:00,049 --> 01:01:57,540

to researchers Stan Friedman but Hopkins

1465

01:02:04,430 --> 01:02:00,059

Linda Howe all to go after their own

1466

01:02:07,130 --> 01:02:04,440

special uh a slice of the pie and uh and

1467

01:02:09,109 --> 01:02:07,140

it also offered money to these UFO

1468

01:02:10,849 --> 01:02:09,119

organizations none of whom could get

1469

01:02:13,069 --> 01:02:10,859

along so he said the hell with it I'll

1470

01:02:16,490 --> 01:02:13,079

create my own so he starts putting nids

1471

01:02:18,230 --> 01:02:16,500

together in 95 1996 the very first

1472

01:02:20,210 --> 01:02:18,240

science Advisory board meeting is held

1473

01:02:22,010 --> 01:02:20,220

at Park House in Las Vegas and they

1474

01:02:24,530 --> 01:02:22,020

asked me to come and speak

1475

01:02:26,030 --> 01:02:24,540

and I was overwhelmed I mean I I thought

1476

01:02:27,770 --> 01:02:26,040

it was really cool but overwhelmed

1477

01:02:29,630 --> 01:02:27,780

looking around that room there's Dr

1478

01:02:32,390 --> 01:02:29,640

Edgar Mitchell the sixth man to walk on

1479

01:02:34,730 --> 01:02:32,400

the moon there's Jacque ballet uh maybe

1480

01:02:36,950 --> 01:02:34,740

the greatest UFO writer thinker ever

1481

01:02:38,809 --> 01:02:36,960

there there's Hal put off there's kit

1482

01:02:41,510 --> 01:02:38,819

green only names I've sort of heard

1483

01:02:43,849 --> 01:02:41,520

about and Whispers uh in the UFO world

1484

01:02:46,609 --> 01:02:43,859

and then a lot of other academics were

1485

01:02:49,190 --> 01:02:46,619

equally impressive Harrison Schmidt who

1486

01:02:52,849 --> 01:02:49,200

was a U.S senator at the time I do a

1487

01:02:54,770 --> 01:02:52,859

presentation on the Russia UFO files and

1488

01:02:56,150 --> 01:02:54,780

uh it didn't really go anywhere I mean a

1489

01:02:57,829 --> 01:02:56,160

couple of them were interested Harrison

1490

01:02:59,930 --> 01:02:57,839

Schmidt was kind of a jerk about the

1491

01:03:01,490 --> 01:02:59,940

whole thing he was he wasn't buying it

1492

01:03:04,069 --> 01:03:01,500

it's all anecdotal and it was the

1493

01:03:06,349 --> 01:03:04,079

Russian Ministry defense files but I was

1494

01:03:08,150 --> 01:03:06,359

in so and and after that meeting that's

1495

01:03:10,430 --> 01:03:08,160

what I told Harry Reid about it about

1496

01:03:12,950 --> 01:03:10,440

this organization called nids a couple

1497

01:03:14,930 --> 01:03:12,960

of months later is when Robert Bigelow

1498

01:03:16,910 --> 01:03:14,940

hears about this Ranch in Utah and buys

1499

01:03:18,829 --> 01:03:16,920

it and around the same time he hires

1500

01:03:21,710 --> 01:03:18,839

this the young Irish guy named Colin

1501  
01:03:23,270 --> 01:03:21,720  
Kelleher who I was allowed to interact

1502  
01:03:25,069 --> 01:03:23,280  
with I get over there I don't know what

1503  
01:03:27,170 --> 01:03:25,079  
he thought why do I have to talk to this

1504  
01:03:28,789 --> 01:03:27,180  
reporter but he's telling me all this

1505  
01:03:31,609 --> 01:03:28,799  
cattle mutilation stuff

1506  
01:03:33,349 --> 01:03:31,619  
they start doing the the uh black

1507  
01:03:35,650 --> 01:03:33,359  
triangle investigation they're working

1508  
01:03:37,910 --> 01:03:35,660  
on all kinds of cool things including

1509  
01:03:40,130 --> 01:03:37,920  
Skinwalker Ranch and

1510  
01:03:42,109 --> 01:03:40,140  
it's wonderful to be on the inside and

1511  
01:03:44,150 --> 01:03:42,119  
to be able to hear this and it was also

1512  
01:03:46,130 --> 01:03:44,160  
torturous to be there as a reporter and

1513  
01:03:49,250 --> 01:03:46,140

not being able to tell anybody any of it

1514

01:03:50,750 --> 01:03:49,260

we couldn't just utter a word we end up

1515

01:03:53,089 --> 01:03:50,760

doing some stories I interviewed young

1516

01:03:54,650 --> 01:03:53,099

column I think we talked about cattle

1517

01:03:56,390 --> 01:03:54,660

regulation stuff in one of them and then

1518

01:03:59,930 --> 01:03:56,400

later did a story on black triangles

1519

01:04:01,849 --> 01:03:59,940

yeah and so we did I was allowed to to

1520

01:04:03,650 --> 01:04:01,859

pierce the veil a little bit but

1521

01:04:05,990 --> 01:04:03,660

couldn't say anything about the ranch at

1522

01:04:07,670 --> 01:04:06,000

all I just want to again I keep feel

1523

01:04:10,670 --> 01:04:07,680

like I have to back up so you have

1524

01:04:14,870 --> 01:04:10,680

direct knowledge that our government was

1525

01:04:17,450 --> 01:04:14,880

using the UFO phenomenon as cover in a

1526

01:04:20,750 --> 01:04:17,460

way like what what like faking UFO

1527

01:04:23,569 --> 01:04:20,760

encounters yeah I mean the the

1528

01:04:26,030 --> 01:04:23,579

Barry Colonel Barry Hennessy was

1529

01:04:29,690 --> 01:04:26,040

legendary in the Air Force office of

1530

01:04:32,530 --> 01:04:29,700

special investigations he ran a subset

1531

01:04:36,410 --> 01:04:32,540

of that called an organization called PJ

1532

01:04:39,710 --> 01:04:36,420

this was the sort of the really heavy

1533

01:04:42,950 --> 01:04:39,720

duty counterintelligence uh uh

1534

01:04:44,829 --> 01:04:42,960

organization and so uh we interviewed

1535

01:04:48,049 --> 01:04:44,839

him in

1536

01:04:50,690 --> 01:04:48,059

2009. like counterintelligence about the

1537

01:04:54,049 --> 01:04:50,700

UFO topic are a lot of things of of of

1538

01:04:57,710 --> 01:04:54,059

the Air Force all of the earth okay yeah

1539

01:04:59,510 --> 01:04:57,720

so so a subset of that now came up

1540

01:05:01,849 --> 01:04:59,520

during our interview we were the only

1541

01:05:05,390 --> 01:05:01,859

reason we interviewed uh Colonel

1542

01:05:07,549 --> 01:05:05,400

Hennessy was because he was a Legend

1543

01:05:11,450 --> 01:05:07,559

um in this field and we had heard rumors

1544

01:05:14,930 --> 01:05:11,460

that the Air Force had utilized the UFO

1545

01:05:16,609 --> 01:05:14,940

phenomenon to cover you know various uh

1546

01:05:20,030 --> 01:05:16,619

special access programs you know a good

1547

01:05:23,569 --> 01:05:20,040

example was an early version of the

1548

01:05:27,770 --> 01:05:23,579

F-117 Queen had crashed near Dulce in

1549

01:05:31,490 --> 01:05:27,780

New Mexico in the 80s and so there was a

1550

01:05:34,549 --> 01:05:31,500

UFO lore grew up around that part

1551  
01:05:38,210 --> 01:05:34,559  
of New Mexico and it was perpetrated by

1552  
01:05:41,030 --> 01:05:38,220  
agents of afosi so it was very

1553  
01:05:44,390 --> 01:05:41,040  
convenient for the Air Force to have a

1554  
01:05:47,450 --> 01:05:44,400  
lot of people talk about you know alien

1555  
01:05:50,450 --> 01:05:47,460  
UFOs crashing in in Northern New Mexico

1556  
01:05:53,089 --> 01:05:50,460  
when actually an early prototype of the

1557  
01:05:55,910 --> 01:05:53,099  
F-117 had crashed in Northern New Mexico

1558  
01:05:58,730 --> 01:05:55,920  
so that was an example of a sort of a

1559  
01:06:00,890 --> 01:05:58,740  
marriage of convenience and other other

1560  
01:06:03,289 --> 01:06:00,900  
examples that Colonel Hennessy gave us

1561  
01:06:05,690 --> 01:06:03,299  
was there was a very famous set of

1562  
01:06:10,130 --> 01:06:05,700  
sightings in in what was called the

1563  
01:06:13,069 --> 01:06:10,140

Northern Tier missile bases that spanned

1564

01:06:15,589 --> 01:06:13,079

between Canada and the United States

1565

01:06:18,530 --> 01:06:15,599

it was Loring Air Force Base in Maine

1566

01:06:21,230 --> 01:06:18,540

and Wordsmith Air Force Base uh miles

1567

01:06:23,990 --> 01:06:21,240

from Air Force Base uh Minot Air Force

1568

01:06:28,150 --> 01:06:24,000

Base right across the the Northern Tier

1569

01:06:32,510 --> 01:06:28,160

a lot of those bases during the 1970s

1570

01:06:36,170 --> 01:06:32,520

had incursions from very weird sort of

1571

01:06:38,990 --> 01:06:36,180

UFO type activity but Colonel Hennessy

1572

01:06:40,910 --> 01:06:39,000

told us some of those were ours you know

1573

01:06:44,510 --> 01:06:40,920

some of those were direct penetration

1574

01:06:47,569 --> 01:06:44,520

attempts to see to assess and evaluate

1575

01:06:49,670 --> 01:06:47,579

the security level of these Air Force

1576

01:06:52,730 --> 01:06:49,680

bases but he flat out said some of them

1577

01:06:55,730 --> 01:06:52,740

were not ours some of them were theirs

1578

01:06:58,130 --> 01:06:55,740

so so so it was this discrepancy between

1579

01:07:00,410 --> 01:06:58,140

some are ours and some are theirs but

1580

01:07:03,650 --> 01:07:00,420

the Northern Tier sightings are usually

1581

01:07:05,630 --> 01:07:03,660

associated with only UFO activity but we

1582

01:07:08,270 --> 01:07:05,640

know from what Colonel Hennessy told us

1583

01:07:11,750 --> 01:07:08,280

that it was both right and so you know

1584

01:07:13,549 --> 01:07:11,760

I've talked to certain uh Pilots you

1585

01:07:15,589 --> 01:07:13,559

know have you ever seen a UFO in the

1586

01:07:17,630 --> 01:07:15,599

work military Pilots right have flown

1587

01:07:20,089 --> 01:07:17,640

special craft you know and they're like

1588

01:07:22,309 --> 01:07:20,099

no but I've been one you know it's like

1589

01:07:24,410 --> 01:07:22,319

the misidentification but I I think

1590

01:07:26,150 --> 01:07:24,420

what's hard for people to unravel

1591

01:07:28,730 --> 01:07:26,160

because it was hard for me to really get

1592

01:07:31,250 --> 01:07:28,740

this which is that you've got this real

1593

01:07:33,710 --> 01:07:31,260

phenomenon of unknown which is

1594

01:07:35,569 --> 01:07:33,720

definitively we'll just say unknown at

1595

01:07:37,730 --> 01:07:35,579

this time or not ours or not a nation

1596

01:07:39,170 --> 01:07:37,740

that we know of on planet Earth that

1597

01:07:41,630 --> 01:07:39,180

we're aware of let's call them them

1598

01:07:43,789 --> 01:07:41,640

there's some there's some but that

1599

01:07:46,069 --> 01:07:43,799

there's also this misidentification

1600

01:07:48,529 --> 01:07:46,079

issue when it comes to our military

1601  
01:07:50,510 --> 01:07:48,539  
technology but there is a process for

1602  
01:07:52,670 --> 01:07:50,520  
that and eventually the people

1603  
01:07:55,789 --> 01:07:52,680  
investigating it they're able to see

1604  
01:07:57,410 --> 01:07:55,799  
that was ours you know don't waste

1605  
01:07:58,970 --> 01:07:57,420  
resources on that and there's a whole

1606  
01:08:01,730 --> 01:07:58,980  
protocol on process

1607  
01:08:03,890 --> 01:08:01,740  
and a lot of people that want to dismiss

1608  
01:08:06,170 --> 01:08:03,900  
this topic they're they're always saying

1609  
01:08:08,210 --> 01:08:06,180  
well this is a foreign Tech or this is a

1610  
01:08:11,150 --> 01:08:08,220  
black U.S project I've gone through it

1611  
01:08:13,430 --> 01:08:11,160  
Ad nauseam like how that doesn't apply

1612  
01:08:15,589 --> 01:08:13,440  
how at the highest levels when people

1613  
01:08:17,870 --> 01:08:15,599

knock on doors they get to they're

1614

01:08:20,749 --> 01:08:17,880

wasting resources if we're these are not

1615

01:08:22,970 --> 01:08:20,759

ours and that's so hard for people who

1616

01:08:25,070 --> 01:08:22,980

don't want to look at the facts to

1617

01:08:27,370 --> 01:08:25,080

understand but you're telling us these

1618

01:08:29,749 --> 01:08:27,380

different layers they all exist

1619

01:08:33,110 --> 01:08:29,759

simultaneously which is even harder to

1620

01:08:35,990 --> 01:08:33,120

grasp as a big topic now I do want to

1621

01:08:37,849 --> 01:08:36,000

kind of get into this one idea that one

1622

01:08:39,950 --> 01:08:37,859

of the reasons why I'm stoked you're

1623

01:08:42,530 --> 01:08:39,960

talking with us like openly here like

1624

01:08:45,050 --> 01:08:42,540

this man I've heard you guys talk I know

1625

01:08:48,050 --> 01:08:45,060

what's going on to a high degree is that

1626

01:08:53,630 --> 01:08:48,060

you ran like you ran

1627

01:08:55,729 --> 01:08:53,640

the largest acknowledged UFO program in

1628

01:08:58,370 --> 01:08:55,739

the history of our military that's

1629

01:09:01,729 --> 01:08:58,380

acknowledged and and that was called

1630

01:09:04,490 --> 01:09:01,739

ASAP hired through the DIA contract but

1631

01:09:06,650 --> 01:09:04,500

you were the principal who ran the

1632

01:09:13,030 --> 01:09:06,660

day-to-day the investigations is that

1633

01:09:13,040 --> 01:09:16,710

in the near future
