

1  
00:00:00,900 --> 00:00:05,570  
and this is weapons

2  
00:00:11,030 --> 00:00:08,390  
what if the AI

3  
00:00:13,070 --> 00:00:11,040  
suddenly creates the beacon or the

4  
00:00:15,829 --> 00:00:13,080  
signal or whatever the energetic output

5  
00:00:18,109 --> 00:00:15,839  
that they're super Advanced radar level

6  
00:00:20,029 --> 00:00:18,119  
work and have a conversation so we go on

7  
00:00:22,189 --> 00:00:20,039  
screen all of a sudden not because of

8  
00:00:24,590 --> 00:00:22,199  
our dumb asses but because we birthed

9  
00:00:26,750 --> 00:00:24,600  
something much smarter than us and then

10  
00:00:28,790 --> 00:00:26,760  
they show up so that's where you could

11  
00:00:30,290 --> 00:00:28,800  
kick around if you want to just for fun

12  
00:00:32,630 --> 00:00:30,300  
thought experiment play around with a

13  
00:00:35,930 --> 00:00:32,640

sudden appearance of these uaps assuming

14

00:00:37,729 --> 00:00:35,940

it's not uh something to do with the

15

00:00:40,369 --> 00:00:37,739

technology that we've developed they're

16

00:00:41,750 --> 00:00:40,379

coming not because of anything we've

17

00:00:43,569 --> 00:00:41,760

done not because they're afraid we're

18

00:00:46,610 --> 00:00:43,579

going to wreck the planet but because

19

00:00:49,250 --> 00:00:46,620

China the United States that we all

20

00:00:52,310 --> 00:00:49,260

recently poured billions of dollars into

21

00:00:55,670 --> 00:00:52,320

AI has developed a strong General AI

22

00:00:57,889 --> 00:00:55,680

that has somehow sent the peak it get

23

00:01:01,069 --> 00:00:57,899

his phone home and they're showing up

24

00:01:02,750 --> 00:01:01,079

baby except the UFO phenomenon has been

25

00:01:04,130 --> 00:01:02,760

happening way before advanced technology

26

00:01:05,450 --> 00:01:04,140

so we have to take that into account

27

00:01:07,310 --> 00:01:05,460

unless they figured out how to time

28

00:01:08,330 --> 00:01:07,320

travel but check it out I think where

29

00:01:10,429 --> 00:01:08,340

this conversation is going I didn't

30

00:01:12,649 --> 00:01:10,439

expect but I want to throw something

31

00:01:14,450 --> 00:01:12,659

down for you because I have been talking

32

00:01:17,570 --> 00:01:14,460

with people about this a bunch this is a

33

00:01:19,310 --> 00:01:17,580

big topic of conversation are these UFO

34

00:01:21,530 --> 00:01:19,320

things and I don't know the answer but

35

00:01:23,210 --> 00:01:21,540

are they extraterrestrial okay I

36

00:01:25,670 --> 00:01:23,220

understand what that means not from

37

00:01:27,890 --> 00:01:25,680

terraform and not from Earth yeah are

38

00:01:29,690 --> 00:01:27,900

they extra dimensional now I don't know

39

00:01:31,550 --> 00:01:29,700

what that means but people smarter than

40

00:01:33,350 --> 00:01:31,560

me I'm sure to know about Dimension [h\_\_h]

41

00:01:35,210 --> 00:01:33,360

all that it's a mathematics thing from

42

00:01:38,270 --> 00:01:35,220

how I understand it but all these extra

43

00:01:40,429 --> 00:01:38,280

dimensional beings okay cool maybe uh

44

00:01:42,109 --> 00:01:40,439

are these extra temporal and and they're

45

00:01:43,789 --> 00:01:42,119

indications that they could be by the

46

00:01:45,710 --> 00:01:43,799

way that they operate through space-time

47

00:01:47,630 --> 00:01:45,720

so you've got those three big things

48

00:01:51,310 --> 00:01:47,640

that now the public is kind of hip to

49

00:01:54,050 --> 00:01:51,320

that this UFO uh puzzle could represent

50

00:01:56,090 --> 00:01:54,060

beings from extra time extra Dimension

51  
00:01:59,510 --> 00:01:56,100  
extraterrestrial or something in between

52  
00:02:02,330 --> 00:01:59,520  
there's something in between gin archons

53  
00:02:03,770 --> 00:02:02,340  
sure but the big one that is something

54  
00:02:05,389 --> 00:02:03,780  
you know I've been kind of trying to

55  
00:02:07,789 --> 00:02:05,399  
wrap my head around for a while I call

56  
00:02:10,609 --> 00:02:07,799  
it techno-terrestrial so you know the

57  
00:02:12,470 --> 00:02:10,619  
idea of pan spermia which are a planet

58  
00:02:15,470 --> 00:02:12,480  
accidentally gets seated with some sort

59  
00:02:18,170 --> 00:02:15,480  
of DNA or RNA or yeah and it populates

60  
00:02:19,970 --> 00:02:18,180  
through now there's directed panspermia

61  
00:02:21,710 --> 00:02:19,980  
which a lot of people don't exactly know

62  
00:02:24,290 --> 00:02:21,720  
but I'm sure you do which is the idea of

63  
00:02:26,330 --> 00:02:24,300

an intentional seeding of a planet with

64

00:02:29,390 --> 00:02:26,340

some sort of life-bearing kind of

65

00:02:31,970 --> 00:02:29,400

growing fruit right or Watson wrote a

66

00:02:34,390 --> 00:02:31,980

wonderful essay on it if anyone is

67

00:02:36,710 --> 00:02:34,400

interested like because they

68

00:02:38,449 --> 00:02:36,720

millions guys based on the age of the

69

00:02:40,190 --> 00:02:38,459

Earth they didn't understand how DNA had

70

00:02:44,809 --> 00:02:40,200

even evolved based on the age of the

71

00:02:48,350 --> 00:02:44,819

Earth it seems very improbable that the

72

00:02:50,470 --> 00:02:48,360

number of of perfect things that happen

73

00:02:54,890 --> 00:02:50,480

to create DNA could have happened

74

00:02:57,350 --> 00:02:54,900

randomly in the what is it 13.7 billion

75

00:02:59,509 --> 00:02:57,360

years the earth has existed that the

76  
00:03:03,350 --> 00:02:59,519  
comparison I read another book the odds

77  
00:03:05,750 --> 00:03:03,360  
are like imagine playing slots and

78  
00:03:06,830 --> 00:03:05,760  
hitting the jackpot on a slot machine

79  
00:03:09,229 --> 00:03:06,840  
with

80  
00:03:12,170 --> 00:03:09,239  
I don't remember how many like a million

81  
00:03:14,509 --> 00:03:12,180  
different a million cherries all lining

82  
00:03:16,670 --> 00:03:14,519  
up at once like it's that that insanely

83  
00:03:18,050 --> 00:03:16,680  
improbable so I don't remember if it was

84  
00:03:21,830 --> 00:03:18,060  
crick or Watson but one of them

85  
00:03:23,570 --> 00:03:21,840  
speculated that the only what like one

86  
00:03:26,270 --> 00:03:23,580  
possible way to happen was directed

87  
00:03:28,490 --> 00:03:26,280  
panspermia and so now a step further if

88  
00:03:30,170 --> 00:03:28,500

we if we say Okay direct depend spermia

89

00:03:32,869 --> 00:03:30,180

is something in our world that we could

90

00:03:35,390 --> 00:03:32,879

conceive of my ideas for the

91

00:03:37,970 --> 00:03:35,400

techno-terrestrial is that everything

92

00:03:40,009 --> 00:03:37,980

we're seeing this explosion of human

93

00:03:42,350 --> 00:03:40,019

capability within the technological

94

00:03:44,990 --> 00:03:42,360

field that that could be the purpose

95

00:03:46,910 --> 00:03:45,000

itself on one level which is that this

96

00:03:49,130 --> 00:03:46,920

directed panspermia which really let's

97

00:03:51,949 --> 00:03:49,140

just say directed intervention within

98

00:03:55,670 --> 00:03:51,959

the human genome to create individuals

99

00:03:58,430 --> 00:03:55,680

that can then build technology to an end

100

00:03:59,930 --> 00:03:58,440

and that that technology itself is an

101

00:04:02,390 --> 00:03:59,940

interconnectivity that we would have

102

00:04:03,830 --> 00:04:02,400

with all the space-faring nations you

103

00:04:07,369 --> 00:04:03,840

know in the world it's totally just a

104

00:04:10,009 --> 00:04:07,379

theory guys but the idea that technology

105

00:04:12,410 --> 00:04:10,019

itself and its fusion with Consciousness

106

00:04:14,630 --> 00:04:12,420

that maybe the end result is that

107

00:04:16,370 --> 00:04:14,640

Consciousness itself is the thing that

108

00:04:18,289 --> 00:04:16,380

is being propagated and I can't imagine

109

00:04:20,210 --> 00:04:18,299

something more beautiful than that that

110

00:04:23,270 --> 00:04:20,220

if there's this fast Cosmic universe and

111

00:04:25,370 --> 00:04:23,280

we see UFOs and UFOs represent this sort

112

00:04:28,070 --> 00:04:25,380

of cybernetic artificial intelligence

113

00:04:30,710 --> 00:04:28,080

that comes from an AI that is here to

114

00:04:33,950 --> 00:04:30,720

not only seed Humanity from a genetic

115

00:04:35,570 --> 00:04:33,960

purpose but also Inspire Humanity to

116

00:04:38,270 --> 00:04:35,580

continue reaching farther and farther

117

00:04:40,310 --> 00:04:38,280

towards these goals of innovation that

118

00:04:41,990 --> 00:04:40,320

is where all of this research has led me

119

00:04:45,110 --> 00:04:42,000

is that there's got to be something

120

00:04:47,510 --> 00:04:45,120

about the beauty of seeding the cosmos

121

00:04:49,430 --> 00:04:47,520

with what we feel to be creativity and

122

00:04:51,290 --> 00:04:49,440

life and Consciousness and I'm probably

123

00:04:52,430 --> 00:04:51,300

totally [h\_\_h] wrong but I wanted to

124

00:04:53,810 --> 00:04:52,440

finally throw down the Techno

125

00:04:56,689 --> 00:04:53,820

terrestrial Theory because I think it's

126

00:04:59,510 --> 00:04:56,699

beautiful I like it techno terrestrial

127

00:05:01,730 --> 00:04:59,520

look at the parable of the sower from

128

00:05:03,950 --> 00:05:01,740

this perspective you know the tell me

129

00:05:06,409 --> 00:05:03,960

this in the Bible story time baby well

130

00:05:10,610 --> 00:05:06,419

I'm gonna uh the parable of the Soul

131

00:05:12,590 --> 00:05:10,620

there was a farmer who through grain or

132

00:05:15,050 --> 00:05:12,600

seeds he threw seeds some of the seeds

133

00:05:18,650 --> 00:05:15,060

landed on rough soil and could not grow

134

00:05:20,390 --> 00:05:18,660

some of the seeds landed on you know I

135

00:05:23,270 --> 00:05:20,400

can't remember it's a variety of soil

136

00:05:24,950 --> 00:05:23,280

where the [h\_\_\h] didn't grow but some took

137

00:05:27,409 --> 00:05:24,960

root but if you look at that from the

138

00:05:28,670 --> 00:05:27,419

perspective of a some kind of super

139

00:05:30,050 --> 00:05:28,680

advanced

140

00:05:33,529 --> 00:05:30,060

uh

141

00:05:35,810 --> 00:05:33,539

mind or civilization or God knows what

142

00:05:39,170 --> 00:05:35,820

that somehow has figured out

143

00:05:40,550 --> 00:05:39,180

a way to time travel I mean this is

144

00:05:43,189 --> 00:05:40,560

something Terence McKenna talked about

145

00:05:45,830 --> 00:05:43,199

again we're I mean woo-wooing here for

146

00:05:48,650 --> 00:05:45,840

my whoever's watching that's serious and

147

00:05:51,590 --> 00:05:48,660

a scientist obviously none of us are

148

00:05:53,689 --> 00:05:51,600

heard that oh come on it's maybe about

149

00:05:55,550 --> 00:05:53,699

this kind of stuff but the idea being

150

00:05:57,469 --> 00:05:55,560

like McKenna talked about look if you're

151

00:05:59,450 --> 00:05:57,479

gonna make it

152

00:06:03,110 --> 00:05:59,460

a time machine

153

00:06:04,850 --> 00:06:03,120

can't like you can't go back in time

154

00:06:07,610 --> 00:06:04,860

like in other words you can't build a

155

00:06:10,249 --> 00:06:07,620

time machine and travel to a Time prior

156

00:06:11,810 --> 00:06:10,259

to the existence of the time machine but

157

00:06:14,090 --> 00:06:11,820

if you have a time machine everything

158

00:06:16,850 --> 00:06:14,100

from that point forward could

159

00:06:18,529 --> 00:06:16,860

theoretically use that whatever that

160

00:06:20,390 --> 00:06:18,539

technology was to travel to the moment

161

00:06:23,450 --> 00:06:20,400

that the time machine was created right

162

00:06:25,909 --> 00:06:23,460

so from your perspective

163

00:06:27,770 --> 00:06:25,919

imagine if like you did you were someone

164

00:06:30,590 --> 00:06:27,780

we're talking something so incredibly

165

00:06:32,870 --> 00:06:30,600

Advanced but something that also needed

166

00:06:35,749 --> 00:06:32,880

at Earth-like habitat right what more

167

00:06:38,749 --> 00:06:35,759

brilliant way to find Earth-like

168

00:06:41,749 --> 00:06:38,759

habitats than to weave together some

169

00:06:46,309 --> 00:06:41,759

kind of organic material some kind of

170

00:06:49,189 --> 00:06:46,319

free cellular goop send it out into the

171

00:06:51,710 --> 00:06:49,199

cosmos somehow programmed to over time

172

00:06:54,529 --> 00:06:51,720

evolve to the point of creating a

173

00:06:56,930 --> 00:06:54,539

wormhole a time machine whatever send

174

00:06:58,010 --> 00:06:56,940

that [h\_\_h] out and then yes it's some of

175

00:06:59,749 --> 00:06:58,020

it's just going to float in space

176  
00:07:01,490 --> 00:06:59,759  
forever some of it's going to like land

177  
00:07:05,150 --> 00:07:01,500  
in Jupiter some of it gets sucked into

178  
00:07:07,070 --> 00:07:05,160  
black holes some of it lands on planets

179  
00:07:10,070 --> 00:07:07,080  
that have water that are the right

180  
00:07:12,170 --> 00:07:10,080  
distance from the Sun the process starts

181  
00:07:15,050 --> 00:07:12,180  
over

182  
00:07:17,090 --> 00:07:15,060  
billions of years evolve some kind of

183  
00:07:19,070 --> 00:07:17,100  
humanoid being that doesn't know why but

184  
00:07:21,230 --> 00:07:19,080  
it wants technology tools it wants

185  
00:07:22,909 --> 00:07:21,240  
better tools it doesn't know that like

186  
00:07:24,770 --> 00:07:22,919  
it's doing exactly what it was

187  
00:07:26,930 --> 00:07:24,780  
programmed to do and then it gets to the

188  
00:07:28,370 --> 00:07:26,940

point where it opens up the portal

189

00:07:31,490 --> 00:07:28,380

that's what we call the singularity and

190

00:07:34,610 --> 00:07:31,500

in that moment whatever created us can

191

00:07:37,249 --> 00:07:34,620

now travel the vast distances that would

192

00:07:40,430 --> 00:07:37,259

be very dangerous and would take forever

193

00:07:42,290 --> 00:07:40,440

to travel in a second that's the UFO

194

00:07:44,330 --> 00:07:42,300

landing like we're building the portal

195

00:07:47,270 --> 00:07:44,340

we're opening up the portal for whatever

196

00:07:49,070 --> 00:07:47,280

this thing was I mean again just a

197

00:07:51,830 --> 00:07:49,080

theory just but it's the alien internet

198

00:07:54,050 --> 00:07:51,840

Theory it's the idea that we've created

199

00:07:56,150 --> 00:07:54,060

the situation where we can become part

200

00:07:58,070 --> 00:07:56,160

of a greater cosmology and understanding

201

00:07:59,510 --> 00:07:58,080

I have no idea if this is the what it is

202

00:08:01,670 --> 00:07:59,520

but it's just interesting well we don't

203

00:08:04,550 --> 00:08:01,680

know what their time scale their time

204

00:08:08,190 --> 00:08:04,560

scale is right so for us 75 years of the
