

1
00:00:06,710 --> 00:00:04,550
and this is weapons

2
00:00:08,750 --> 00:00:06,720
because we've gone there because we're

3
00:00:10,070 --> 00:00:08,760
in the uncomfortable territory for me of

4
00:00:14,030 --> 00:00:10,080
all of this stuff

5
00:00:16,010 --> 00:00:14,040
um I I do want you to talk about a term

6
00:00:18,890 --> 00:00:16,020
that you guys really coined

7
00:00:22,250 --> 00:00:18,900
um that is so interesting to me because

8
00:00:24,890 --> 00:00:22,260
of your background in as a scientist you

9
00:00:27,710 --> 00:00:24,900
know the hitchhiker effect the idea that

10
00:00:30,589 --> 00:00:27,720
when people have these experiences that

11
00:00:33,170 --> 00:00:30,599
many report that there's some sort of

12
00:00:35,090 --> 00:00:33,180
after effect or an effect that follows

13
00:00:37,430 --> 00:00:35,100

them for some time and we're not just

14

00:00:40,850 --> 00:00:37,440

talking lore you know talking over a

15

00:00:44,330 --> 00:00:40,860

campfire we're talking very serious life

16

00:00:46,549 --> 00:00:44,340

consequences physically and mentally to

17

00:00:50,209 --> 00:00:46,559

people who are heroic for our country

18

00:00:52,549 --> 00:00:50,219

and have had problems and and you have

19

00:00:53,750 --> 00:00:52,559

studied this you know people say you

20

00:00:56,630 --> 00:00:53,760

know they want to study different things

21

00:00:59,290 --> 00:00:56,640

about UFOs I'm always call them UFOs UAP

22

00:01:03,049 --> 00:00:59,300

cool but UFOs just looks cooler so UFOs

23

00:01:05,750 --> 00:01:03,059

there are trackable traceable biological

24

00:01:08,810 --> 00:01:05,760

implications to being in close proximity

25

00:01:11,450 --> 00:01:08,820

to the UAP or UFO

26

00:01:14,450 --> 00:01:11,460

and you guys did a lot of study that all

27

00:01:16,789 --> 00:01:14,460

septed extensive study on the biological

28

00:01:18,830 --> 00:01:16,799

negative even within the brain of human

29

00:01:21,530 --> 00:01:18,840

beings I don't know if it goes as far as

30

00:01:24,050 --> 00:01:21,540

into the genetics or DNA but there were

31

00:01:26,570 --> 00:01:24,060

things you could trace and track that

32

00:01:28,609 --> 00:01:26,580

you can talk about so The Hitchhiker

33

00:01:30,890 --> 00:01:28,619

effect break it down for me you guys

34

00:01:34,490 --> 00:01:30,900

what is that

35

00:01:36,770 --> 00:01:34,500

well I I guess the poster child for The

36

00:01:39,710 --> 00:01:36,780

Hitchhiker effect is is the guy we call

37

00:01:40,969 --> 00:01:39,720

Axelrod and as George has said maybe his

38

00:01:44,030 --> 00:01:40,979

name is going to change in the next

39
00:01:45,710 --> 00:01:44,040
while come out is what you mean yeah the

40
00:01:49,249 --> 00:01:45,720
book is actually right his name is gonna

41
00:01:54,109 --> 00:01:49,259
come out yeah so so I remember

42
00:01:58,249 --> 00:01:54,119
um sort of being right beside Axelrod on

43
00:02:00,649 --> 00:01:58,259
the Skinwalker Ranch in July of 2009 I

44
00:02:02,389 --> 00:02:00,659
was standing right beside him and um you

45
00:02:04,789 --> 00:02:02,399
know he was talking to his wife and his

46
00:02:07,249 --> 00:02:04,799
wife was sort of saying that there was

47
00:02:09,490 --> 00:02:07,259
weird stuff happening in the house I

48
00:02:12,170 --> 00:02:09,500
mean this was uh right after

49
00:02:14,990 --> 00:02:12,180
axelrod's experience on the on the

50
00:02:18,170 --> 00:02:15,000
property but to cut a very long story

51
00:02:20,570 --> 00:02:18,180
short what what what happened was

52
00:02:23,030 --> 00:02:20,580
um when Axelrod and his two Compadres

53
00:02:25,309 --> 00:02:23,040
who were on the property they had these

54
00:02:27,650 --> 00:02:25,319
very intense experiences on the property

55
00:02:30,490 --> 00:02:27,660
they flew back home to the east coast

56
00:02:33,589 --> 00:02:30,500
and they went to their their homes and

57
00:02:35,150 --> 00:02:33,599
axelrod's family started

58
00:02:38,210 --> 00:02:35,160
um experiencing

59
00:02:40,309 --> 00:02:38,220
all these paranormal events you know

60
00:02:42,830 --> 00:02:40,319
their teenage Sons would wake up and

61
00:02:44,990 --> 00:02:42,840
these black Shadows would be standing

62
00:02:47,930 --> 00:02:45,000
hovering over their beds sort of in a

63
00:02:49,610 --> 00:02:47,940

very threatening way they would wake up

64

00:02:52,309 --> 00:02:49,620

to go to the bathroom and they'd see

65

00:02:54,530 --> 00:02:52,319

these sort of black objects that would

66

00:02:57,110 --> 00:02:54,540

be in the hallways that were obviously

67

00:02:59,030 --> 00:02:57,120

black objects they weren't sort of a

68

00:03:02,330 --> 00:02:59,040

trick of the light

69

00:03:04,570 --> 00:03:02,340

and then one night sort of uh after this

70

00:03:07,070 --> 00:03:04,580

whole thing started erupting

71

00:03:08,470 --> 00:03:07,080

axelrod's wife was just turning off the

72

00:03:12,229 --> 00:03:08,480

lights in the kitchen

73

00:03:14,390 --> 00:03:12,239

that was overlooking their backyard and

74

00:03:16,970 --> 00:03:14,400

out of the corner of their of her eyes

75

00:03:20,750 --> 00:03:16,980

she caught a movement down in the in in

76
00:03:24,050 --> 00:03:20,760
the backyard and she saw this ridiculous

77
00:03:27,170 --> 00:03:24,060
Mythic semi-mythical creature of a of a

78
00:03:30,290 --> 00:03:27,180
what looked like a wolf standing on its

79
00:03:32,509 --> 00:03:30,300
hind legs leaning against a tree in the

80
00:03:34,910 --> 00:03:32,519
in her backyard and she was looking and

81
00:03:38,210 --> 00:03:34,920
she looked away she looked back it was

82
00:03:40,789 --> 00:03:38,220
still there I mean it was it was like

83
00:03:43,670 --> 00:03:40,799
something out of Mythology that she was

84
00:03:45,229 --> 00:03:43,680
looking at and she I mean she just

85
00:03:47,570 --> 00:03:45,239
turned off the light and went to bed I

86
00:03:50,330 --> 00:03:47,580
mean she was freaked out to the extent

87
00:03:52,670 --> 00:03:50,340
that she never said anything to her

88
00:03:54,710 --> 00:03:52,680

family about this so you so there's just

89

00:03:56,809 --> 00:03:54,720

tons of this right tons of this idea of

90

00:03:58,789 --> 00:03:56,819

a hitchhiker effect that it comes and

91

00:04:00,410 --> 00:03:58,799

like a virus infects your family and

92

00:04:02,809 --> 00:04:00,420

love loved ones and it follows you after

93

00:04:04,670 --> 00:04:02,819

like you go to the ranch or whatever the

94

00:04:06,710 --> 00:04:04,680

bigger picture people encounter Close

95

00:04:09,890 --> 00:04:06,720

Encounters of UFOs this hitchhiker

96

00:04:11,270 --> 00:04:09,900

effect okay but like okay ghost stories

97

00:04:12,890 --> 00:04:11,280

I don't know these people I don't

98

00:04:15,229 --> 00:04:12,900

believe it let's just say that's that's

99

00:04:17,210 --> 00:04:15,239

my perspective right right I'm just like

100

00:04:20,349 --> 00:04:17,220

ghost stories cool story don't care but

101
00:04:23,450 --> 00:04:20,359
you had actually physical traceable

102
00:04:26,570 --> 00:04:23,460
biological things that could be directly

103
00:04:28,670 --> 00:04:26,580
linked to these UFO or UAP encounters

104
00:04:31,070 --> 00:04:28,680
can you talk about any of that the

105
00:04:33,730 --> 00:04:31,080
things that well no you can trace yeah

106
00:04:37,070 --> 00:04:33,740
just to kind of finish off the the the

107
00:04:40,310 --> 00:04:37,080
that primary kind of example

108
00:04:43,490 --> 00:04:40,320
um the two sons were were in in the uh

109
00:04:45,969 --> 00:04:43,500
in the room uh near the backyard on the

110
00:04:49,969 --> 00:04:45,979
Saturday morning following her sighting

111
00:04:53,090 --> 00:04:49,979
and uh one of them lucks out and they

112
00:04:56,090 --> 00:04:53,100
see this upright creature Wolfman wolf

113
00:04:57,830 --> 00:04:56,100

wolf creature running quickly well

114

00:05:00,350 --> 00:04:57,840

actually it was standing still looking

115

00:05:02,770 --> 00:05:00,360

at them in a threatening way and then it

116

00:05:05,330 --> 00:05:02,780

took off heading for the tree line

117

00:05:07,610 --> 00:05:05,340

kicking up leaves as it went and two

118

00:05:10,550 --> 00:05:07,620

legs on two legs okay anatomically

119

00:05:13,850 --> 00:05:10,560

impossible so so the uh the whole idea

120

00:05:15,590 --> 00:05:13,860

that you know a dog I mean you see dogs

121

00:05:17,749 --> 00:05:15,600

in the circus getting up on their two

122

00:05:20,710 --> 00:05:17,759

legs and sort of tottering around this

123

00:05:23,930 --> 00:05:20,720

thing was moving fluidly at speed

124

00:05:25,370 --> 00:05:23,940

kicking up leaves as it went the family

125

00:05:27,290 --> 00:05:25,380

went out into the into the yard

126

00:05:29,090 --> 00:05:27,300

afterwards and they went over to the

127

00:05:31,670 --> 00:05:29,100

tree line where they had seen this and

128

00:05:34,610 --> 00:05:31,680

there were these obvious large claw

129

00:05:37,790 --> 00:05:34,620

marks on the tree trunk okay so was this

130

00:05:40,010 --> 00:05:37,800

a sort of a a trick of the mind or was

131

00:05:42,590 --> 00:05:40,020

kicking up the lead intelligence agency

132

00:05:45,050 --> 00:05:42,600

playing some sort of MK Ultra mind game

133

00:05:47,990 --> 00:05:45,060

on our intelligence agency folks I mean

134

00:05:50,210 --> 00:05:48,000

whatever it was it was leaving uh

135

00:05:51,890 --> 00:05:50,220

physical traces in the environment and

136

00:05:54,830 --> 00:05:51,900

that that's sort of a key part of this

137

00:05:57,590 --> 00:05:54,840

whole thing so we studied this this

138

00:06:01,070 --> 00:05:57,600

so-called hitchhiker effect and it was

139

00:06:03,170 --> 00:06:01,080

so common over time time you know we

140

00:06:05,570 --> 00:06:03,180

started tracking back to the original

141

00:06:08,390 --> 00:06:05,580

mid's days and we found that in some

142

00:06:10,249 --> 00:06:08,400

cases you know I remember

143

00:06:11,450 --> 00:06:10,259

um you know my wife remarking that you

144

00:06:13,730 --> 00:06:11,460

know there were people in the bedroom

145

00:06:16,610 --> 00:06:13,740

that sort of walking walking around the

146

00:06:18,590 --> 00:06:16,620

bedroom Robert Bigelow reported

147

00:06:20,810 --> 00:06:18,600

um a lot of activity in this household

148

00:06:23,270 --> 00:06:20,820

George Knapp had been on the property

149

00:06:24,469 --> 00:06:23,280

and I'm not going to deny weird shits

150

00:06:26,689 --> 00:06:24,479

you know look weird always happens

151
00:06:29,770 --> 00:06:26,699
around I'm sitting with you guys so the

152
00:06:32,090 --> 00:06:29,780
bottom line is that that we we

153
00:06:34,610 --> 00:06:32,100
investigated a lot of these people who

154
00:06:36,830 --> 00:06:34,620
had had The Hitchhiker effect and we

155
00:06:40,150 --> 00:06:36,840
found a small number of them were coming

156
00:06:42,710 --> 00:06:40,160
down with autoimmune diseases

157
00:06:45,529 --> 00:06:42,720
Hashimoto's thyroiditis Sovereign

158
00:06:47,570 --> 00:06:45,539
syndrome lupus

159
00:06:51,110 --> 00:06:47,580
um there was Graves disease there were

160
00:06:55,010 --> 00:06:51,120
there were other autoimmune diseases and

161
00:06:58,129 --> 00:06:55,020
from a a relatively small cluster of

162
00:06:59,510 --> 00:06:58,139
people who had endured this hitchhiker

163
00:07:00,350 --> 00:06:59,520

effect

164

00:07:03,890 --> 00:07:00,360

um

165

00:07:06,770 --> 00:07:03,900

there was a an interesting Spike or

166

00:07:10,129 --> 00:07:06,780

cluster it was disproportionate

167

00:07:12,650 --> 00:07:10,139

n is very small so the the N is pretty

168

00:07:16,430 --> 00:07:12,660

small so

169

00:07:18,590 --> 00:07:16,440

I would hesitate from uh

170

00:07:22,430 --> 00:07:18,600

publishing a scientific paper about this

171

00:07:25,010 --> 00:07:22,440

but the observations were that The

172

00:07:28,309 --> 00:07:25,020

Hitchhiker effect in many cases was

173

00:07:31,670 --> 00:07:28,319

associated with a flare-up of autoimmune

174

00:07:33,770 --> 00:07:31,680

diseases in one or more people in that

175

00:07:36,650 --> 00:07:33,780

household now

176

00:07:39,170 --> 00:07:36,660

one one other thing about the uh about

177

00:07:42,350 --> 00:07:39,180

The Hitchhiker effect is that it was not

178

00:07:46,870 --> 00:07:42,360

confined to skin marker wrench we had

179

00:07:48,670 --> 00:07:46,880

other UFO close encounter

180

00:07:53,150 --> 00:07:48,680

experiencers

181

00:07:54,950 --> 00:07:53,160

who had family and who had exactly the

182

00:07:58,490 --> 00:07:54,960

same kind of thing they went back to the

183

00:08:01,730 --> 00:07:58,500

east coast After experiencing very

184

00:08:04,029 --> 00:08:01,740

dramatic effects in say Oregon is one

185

00:08:07,070 --> 00:08:04,039

example that we put in the book

186

00:08:09,430 --> 00:08:07,080

skin workers of the Pentagon and they

187

00:08:11,689 --> 00:08:09,440

went back to the east coast and

188

00:08:14,089 --> 00:08:11,699

paranormal stuff flured up in the house

189

00:08:17,809 --> 00:08:14,099

so it's not only a Skinwalker Ranch

190

00:08:21,170 --> 00:08:17,819

specific phenomenon it's specific to

191

00:08:23,330 --> 00:08:21,180

certain intense close encounter effects

192

00:08:24,890 --> 00:08:23,340

and by the way that family The

193

00:08:27,529 --> 00:08:24,900

Hitchhiker family that were he was

194

00:08:29,869 --> 00:08:27,539

talking about the kids would see orbs

195

00:08:31,909 --> 00:08:29,879

floating around in the in their rooms

196

00:08:34,250 --> 00:08:31,919

inside the house there were tricks where

197

00:08:35,570 --> 00:08:34,260

the dog ends up on the roof I mean there

198

00:08:36,949 --> 00:08:35,580

was a lot of really strange things like

199

00:08:40,070 --> 00:08:36,959

the original stuff from Skinwalker

200

00:08:42,350 --> 00:08:40,080

wrench the same people saying and 13

201
00:08:44,990 --> 00:08:42,360
years later it's still going on for that

202
00:08:47,449 --> 00:08:45,000
family 13 years right so but it's you

203
00:08:49,430 --> 00:08:47,459
have so many examples of this right that

204
00:08:51,350 --> 00:08:49,440
I'm aware of that that you've tracked

205
00:08:52,730 --> 00:08:51,360
that you've kind of named it this term

206
00:08:55,310 --> 00:08:52,740
because it's just something you couldn't

207
00:08:58,190 --> 00:08:55,320
ignore you know even if my mind can't

208
00:09:00,410 --> 00:08:58,200
accept it you can't ignore it as as a

209
00:09:02,990 --> 00:09:00,420
reporter as a scientist that's happening

210
00:09:05,570 --> 00:09:03,000
so but there's more right there there's

211
00:09:08,150 --> 00:09:05,580
specific things known about the negative

212
00:09:10,370 --> 00:09:08,160
biological effects on the human body if

213
00:09:13,250 --> 00:09:10,380

they get into close proximity often

214

00:09:15,230 --> 00:09:13,260

cases with it with an actual UFO let me

215

00:09:17,150 --> 00:09:15,240

let me preface this too because we just

216

00:09:19,550 --> 00:09:17,160

had this new report come out a couple of

217

00:09:21,470 --> 00:09:19,560

weeks ago from odni in which they said

218

00:09:24,170 --> 00:09:21,480

we haven't found any cases where anybody

219

00:09:26,930 --> 00:09:24,180

was been harmed by being in proximity to

220

00:09:28,730 --> 00:09:26,940

UFO which suggests maybe they should get

221

00:09:30,710 --> 00:09:28,740

in their car drive to the DIA and look

222

00:09:34,690 --> 00:09:30,720

because you guys found a lot of cases

223

00:09:37,190 --> 00:09:34,700

yeah and and and within the database of

224

00:09:40,670 --> 00:09:37,200

we we called it the data warehouse

225

00:09:44,590 --> 00:09:40,680

because uh Jacques Valley designed this

226
00:09:47,810 --> 00:09:44,600
capella data warehouse to house multiple

227
00:09:50,030 --> 00:09:47,820
subsets of databases so there were 11

228
00:09:52,850 --> 00:09:50,040
separate databases within this data

229
00:09:56,389 --> 00:09:52,860
warehouse that was transmitted to the

230
00:09:59,449 --> 00:09:56,399
defense intelligence agency in late 2010

231
00:10:01,970 --> 00:09:59,459
as a specific deliverable of the Osa

232
00:10:05,650 --> 00:10:01,980
program but within that database there

233
00:10:08,769 --> 00:10:05,660
is a subset of medical injury cases that

234
00:10:11,210 --> 00:10:08,779
allsop slash pass investigated

235
00:10:14,990 --> 00:10:11,220
you know there are two examples that I

236
00:10:19,670 --> 00:10:15,000
can think of right off of the book

237
00:10:23,210 --> 00:10:19,680
number one is a guy in Georgia

238
00:10:23,870 --> 00:10:23,220

whose son was outside playing

239

00:10:26,150 --> 00:10:23,880

um

240

00:10:29,449 --> 00:10:26,160

outside he was staying in the tent sort

241

00:10:31,790 --> 00:10:29,459

of with uh with some neighbors and um

242

00:10:34,670 --> 00:10:31,800

the dog started barking outside he went

243

00:10:37,910 --> 00:10:34,680

outside to check it out and he saw this

244

00:10:40,790 --> 00:10:37,920

large triangular object hovering above

245

00:10:43,310 --> 00:10:40,800

the house and he was

246

00:10:46,310 --> 00:10:43,320

um you know kind of really intrigued it

247

00:10:49,190 --> 00:10:46,320

was silent it was low and it was a

248

00:10:51,410 --> 00:10:49,200

classic black triangle sort of

249

00:10:54,110 --> 00:10:51,420

um a hundred it was like a hundred yards

250

00:10:58,069 --> 00:10:54,120

100 yards 100 yards so a very very large

251

00:11:01,370 --> 00:10:58,079

object and it was it had lights on it

252

00:11:04,490 --> 00:11:01,380

like flat flat or like pyramid in shape

253

00:11:07,009 --> 00:11:04,500

triangle well it was a

254

00:11:08,810 --> 00:11:07,019

from his perspective it was all he could

255

00:11:11,030 --> 00:11:08,820

see was the underneath the triangle from

256

00:11:13,069 --> 00:11:11,040

angle of observation we would say I mean

257

00:11:16,009 --> 00:11:13,079

it was it was difficult to tell that

258

00:11:19,190 --> 00:11:16,019

from from his angle but anyway he tried

259

00:11:21,650 --> 00:11:19,200

taking uh taking some uh photographs of

260

00:11:24,050 --> 00:11:21,660

it with his cell phone and I mean it was

261

00:11:26,030 --> 00:11:24,060

black against a black background so it

262

00:11:28,730 --> 00:11:26,040

was obviously not going to come out very

263

00:11:30,290 --> 00:11:28,740

well so he decided to light up the

264

00:11:32,810 --> 00:11:30,300

bottom of it with the flashlight that he

265

00:11:35,630 --> 00:11:32,820

had so he had a powerful flashlight so

266

00:11:37,310 --> 00:11:35,640

he went in into his house grabbed it and

267

00:11:39,710 --> 00:11:37,320

the thing was still there when he came

268

00:11:42,470 --> 00:11:39,720

out and he lit up the bottom of it with

269

00:11:45,550 --> 00:11:42,480

with a pretty powerful flashlight and

270

00:11:49,250 --> 00:11:45,560

almost instantly this blue

271

00:11:52,670 --> 00:11:49,260

intense blue light came from one of the

272

00:11:54,410 --> 00:11:52,680

apex of the triangles and blinded him to

273

00:11:57,710 --> 00:11:54,420

the extent that he turned around and

274

00:11:59,870 --> 00:11:57,720

crouched and sort of you know uh to

275

00:12:03,949 --> 00:11:59,880

protect himself blinded him completely

276

00:12:06,889 --> 00:12:03,959

but even when he was crouching he felt

277

00:12:09,110 --> 00:12:06,899

this Burning on his neck so he ran

278

00:12:11,269 --> 00:12:09,120

inside and sort of watched it from the

279

00:12:14,389 --> 00:12:11,279

vantage point of the house and the blue

280

00:12:17,030 --> 00:12:14,399

the this blue beam that had hit him was

281

00:12:19,670 --> 00:12:17,040

uh he he described it as I think a foot

282

00:12:22,490 --> 00:12:19,680

or a couple of foot in in diameter but

283

00:12:24,650 --> 00:12:22,500

it was a very intense light so you know

284

00:12:26,509 --> 00:12:24,660

he watched it and then this object took

285

00:12:28,069 --> 00:12:26,519

off really quickly

286

00:12:31,430 --> 00:12:28,079

um there were other objects associated

287

00:12:33,769 --> 00:12:31,440

with it he felt not good he woke up his

288

00:12:36,110 --> 00:12:33,779

whole neck was really badly sunburned

289

00:12:38,150 --> 00:12:36,120

his back was badly sunburned he had a

290

00:12:41,690 --> 00:12:38,160

metallic taste in his mouth

291

00:12:43,370 --> 00:12:41,700

had a severe headache felt nauseous he

292

00:12:46,370 --> 00:12:43,380

was interviewed by

293

00:12:48,290 --> 00:12:46,380

um by people from ASAP okay so the DIA

294

00:12:50,090 --> 00:12:48,300

he actually got to interview this guy

295

00:12:52,670 --> 00:12:50,100

and get into some of his metal we took

296

00:12:54,470 --> 00:12:52,680

photographs of a sunburn and uh took a

297

00:12:58,250 --> 00:12:54,480

lot of blood samples oh you were right

298

00:13:00,710 --> 00:12:58,260

there yeah I mean well we had to uh MD

299

00:13:02,329 --> 00:13:00,720

PhD Physicians who were on call

300

00:13:05,690 --> 00:13:02,339

basically

301

00:13:07,850 --> 00:13:05,700

um that were able to luckily travel to

302

00:13:09,470 --> 00:13:07,860

different places in the United States to

303

00:13:11,449 --> 00:13:09,480

investigate these kind of medical areas

304

00:13:13,190 --> 00:13:11,459

you got to get the report it's got to

305

00:13:14,810 --> 00:13:13,200

get to you you got to get there quick

306

00:13:17,269 --> 00:13:14,820

where you still got the summer and then

307

00:13:19,730 --> 00:13:17,279

follow it and then follow it over the

308

00:13:22,190 --> 00:13:19,740

long term and and wow and he was

309

00:13:25,610 --> 00:13:22,200

followed over multiple blood samples

310

00:13:28,670 --> 00:13:25,620

over over many many months he came down

311

00:13:31,150 --> 00:13:28,680

with a Litany of different uh medical

312

00:13:34,009 --> 00:13:31,160

issues including a phenomenon called

313

00:13:36,590 --> 00:13:34,019

castleman's disease which is which

314

00:13:39,410 --> 00:13:36,600

involves sort of these spontaneous

315

00:13:42,590 --> 00:13:39,420

eruptions of tumors but they were not

316

00:13:45,710 --> 00:13:42,600

malignant tumors but eventually you know

317

00:13:49,190 --> 00:13:45,720

he sort of began to recover and so he

318

00:13:50,509 --> 00:13:49,200

was followed over many many months over

319

00:13:52,850 --> 00:13:50,519

a year

320

00:13:55,069 --> 00:13:52,860

um but the fact is he was his health

321

00:13:57,889 --> 00:13:55,079

went really downhill after this event

322

00:14:01,069 --> 00:13:57,899

there were other cases in in our

323

00:14:02,990 --> 00:14:01,079

database that were even more so where

324

00:14:06,310 --> 00:14:03,000

you know people had came down with

325

00:14:09,710 --> 00:14:06,320

cancer they had uh you know

326

00:14:13,009 --> 00:14:09,720

after these close encounters with UFOs

327

00:14:16,370 --> 00:14:13,019

so the idea that you know there's no

328

00:14:19,449 --> 00:14:16,380

physical or pathological or medical

329

00:14:22,910 --> 00:14:19,459

injury cases associated with UFOs

330

00:14:24,949 --> 00:14:22,920

is counteracted by the database that's

331

00:14:27,769 --> 00:14:24,959

sitting on the shelves at the defense
