This irregular somewhat rounded pellet is principally silver. It contains 1 to 10 percent silicon probably as sand picked up before the metal solidified.

The sample includes also the following impurities,

2
00:01:27,190 --> 00:01:22,230

what's up

3
00:01:29,670 --> 00:01:27,200

uh how's everybody doing today

4
00:01:31,030 --> 00:01:29,680

how are you good to see you thanks for

5
00:01:34,230 --> 00:01:31,040

coming

6
00:01:38,390 --> 00:01:34,240

jay what's up oh thank you

7
00:01:42,310 --> 00:01:38,400

those are super fun to make

8
00:01:46,550 --> 00:01:44,710

yeah so how are you guys doing today i

9
00:01:50,950 --> 00:01:46,560

hope you are doing

10
00:01:54,469 --> 00:01:52,389

yesterday i'm not sure if you caught it

11
00:01:57,590 --> 00:01:54,479

but i was on max's

12
00:02:00,230 --> 00:01:57,600

podcast and we

13
00:02:02,149 --> 00:02:00,240

along with vinnie and we interviewed

14

00:02:05,510 --> 00:02:02,159

evie loeb

15

00:02:09,190 --> 00:02:05,520

that was pretty neat he is a

16

00:02:12,390 --> 00:02:09,200

very smart person i'm super excited

17

00:02:15,510 --> 00:02:12,400

on what he's doing and embarking on

18

00:02:17,270 --> 00:02:15,520

um i believe that he

19

00:02:19,270 --> 00:02:17,280

was having a press conference to

20

00:02:22,790 --> 00:02:19,280

announce that today

21

00:02:25,910 --> 00:02:22,800

um so make sure

22

00:02:26,630 --> 00:02:25,920

that you watch that um because that

23

00:02:30,949 --> 00:02:26,640

should be

24

00:02:35,509 --> 00:02:32,949

you know we'll see how this goes but

25

00:02:37,670 --> 00:02:35,519

it's hopefully

26

00:02:39,670 --> 00:02:37,680

game changing for us i had to have a

27

00:02:42,949 --> 00:02:39,680

serious person

28

00:02:49,670 --> 00:02:42,959

looking at these things in a serious way

29

00:02:54,309 --> 00:02:51,190

things that are closer to earth like

30

00:02:58,070 --> 00:02:54,319

nobody's thought of that apparently

31

00:03:01,670 --> 00:02:58,080

um so great that's awesome

32

00:03:05,990 --> 00:03:01,680

um i'm glad he's doing that and

33

00:03:10,309 --> 00:03:09,670

you know see through his uh research and

34

00:03:13,430 --> 00:03:10,319

everything

35

00:03:14,550 --> 00:03:13,440

so it would be a real shame if he had to

36

00:03:18,869 --> 00:03:14,560

stop short because

37

00:03:20,560 --> 00:03:18,879

of something like that

38

00:03:22,309 --> 00:03:20,570

wouldn't you say

39

00:03:27,190 --> 00:03:22,319

[Music]

40

00:03:30,830 --> 00:03:27,200

um so yeah otherwise

41

00:03:37,030 --> 00:03:30,840

news and stuff has been kind of

42

00:03:41,350 --> 00:03:40,229

so i don't know i'm sure some people are

43

00:03:47,990 --> 00:03:41,360

getting a little

44

00:03:48,000 --> 00:03:51,430

you know it's not too

45

00:03:55,030 --> 00:03:53,509

it's okay that things are a little quiet

46

00:03:57,670 --> 00:03:55,040

right

47

00:03:59,670 --> 00:03:57,680

i mean it's been kind of nuts this year

48

00:04:01,830 --> 00:03:59,680

um

49

00:04:03,110 --> 00:04:01,840

for sure hard to keep up with everything

50

00:04:05,030 --> 00:04:03,120

in the news

51

00:04:07,270 --> 00:04:05,040

all the different uh articles and

52

00:04:08,630 --> 00:04:07,280

interviews

53

00:04:11,270 --> 00:04:08,640

everything which is a good thing

54

00:04:12,550 --> 00:04:11,280

obviously um

55

00:04:14,550 --> 00:04:12,560

but you know at some point you gotta

56

00:04:17,590 --> 00:04:14,560

reload right

57

00:04:21,270 --> 00:04:17,600

so possibly that's what's happening

58

00:04:25,189 --> 00:04:23,990

i would put some money on it um some

59

00:04:29,350 --> 00:04:25,199

guest announcements

60

00:04:34,790 --> 00:04:29,360

i have um it looks like

61

00:04:40,390 --> 00:04:38,070

so hopefully that will be this wednesday

62

00:04:41,990 --> 00:04:40,400

waiting for a final confirmation but

63

00:04:45,670 --> 00:04:42,000

that's what it's uh looking like

64

00:04:47,030 --> 00:04:45,680

so that's cool um i wanted to talk to

65

00:04:50,950 --> 00:04:47,040

him for a long time

66

00:04:52,790 --> 00:04:50,960

so um i'm pretty excited about that i

67

00:04:54,950 --> 00:04:52,800

mean he wrote this book

68

00:04:55,990 --> 00:04:54,960

um in regards to all this stuff and

69

00:05:02,150 --> 00:04:56,000

musicians

70

00:05:06,870 --> 00:05:05,670

in that too and um chrissy newton's also

71

00:05:12,070 --> 00:05:06,880

going to be on

72

00:05:14,230 --> 00:05:12,080

should be a pretty cool week other than

73

00:05:17,830 --> 00:05:14,240

that you are

74

00:05:22,150 --> 00:05:17,840

stuck with me i might take a day off

75

00:05:27,670 --> 00:05:26,230

to kind of get my things in order

76

00:05:29,830 --> 00:05:27,680

you know like all those clips and stuff

77

00:05:31,510 --> 00:05:29,840

that i make i'd like to just have some

78

00:05:39,909 --> 00:05:31,520

time to put that all together

79

00:05:46,230 --> 00:05:41,670

um yeah let's look at some of these

80

00:05:46,240 --> 00:05:57,909

here we go yeah that's true

81

00:06:03,350 --> 00:06:00,870

yeah some critical people could rival

82

00:06:10,390 --> 00:06:07,110

that's true i mean

83

00:06:12,550 --> 00:06:10,400

yeah i remember when um

84

00:06:14,150 --> 00:06:12,560

the new york times and washington post

85

00:06:18,830 --> 00:06:14,160

not too long ago

86

00:06:21,270 --> 00:06:18,840

um broke news on the report right

87

00:06:24,950 --> 00:06:21,280

and said that we couldn't

88

00:06:30,150 --> 00:06:24,960

that it wasn't ours and we couldn't rule

89
00:06:33,510 --> 00:06:32,390
and i remember somebody coming out with

90
00:06:37,029 --> 00:06:33,520
a clip that uh

91
00:06:38,790 --> 00:06:37,039
the the times and um post

92
00:06:41,670 --> 00:06:38,800
had their hands on the classified report

93
00:06:43,029 --> 00:06:41,680
and they were gonna publish that

94
00:06:46,830 --> 00:06:43,039
remember that i don't know if you guys

95
00:06:52,390 --> 00:06:48,870
um so

96
00:06:53,909 --> 00:06:52,400
it's like you just gotta sit and wait

97
00:06:57,189 --> 00:06:53,919
like what else can you do

98
00:06:59,350 --> 00:06:57,199
you can do your part making phone calls

99
00:07:01,749 --> 00:06:59,360
calling congress all that kind of stuff

100
00:07:02,469 --> 00:07:01,759
uh writing emails getting together with

101
00:07:06,710 --> 00:07:02,479
other people

102
00:07:10,230 --> 00:07:06,720
creating bigger crowds more motivation

103
00:07:11,350 --> 00:07:10,240
that's what we can do and then how we

104
00:07:18,710 --> 00:07:11,360
see that payoff is

105
00:07:24,950 --> 00:07:23,589
yeah yeah

106
00:07:27,029 --> 00:07:24,960
yeah totally you know when we

107
00:07:28,790 --> 00:07:27,039
interviewed him yesterday uh we asked

108
00:07:32,629 --> 00:07:28,800
him about classified research

109
00:07:35,430 --> 00:07:32,639
and he or classified information and he

110
00:07:41,270 --> 00:07:39,110
um which is interesting his reasoning

111
00:07:42,629 --> 00:07:41,280
is so that he can just always be honest

112
00:07:44,070 --> 00:07:42,639
and transparent with what he knows and

113
00:07:45,270 --> 00:07:44,080

he doesn't have to worry about anything

114

00:07:50,550 --> 00:07:45,280

like that

115

00:07:56,830 --> 00:07:53,749

uh like smart in any way shape or form

116

00:07:57,990 --> 00:07:56,840

if they have data that could help you

117

00:08:02,550 --> 00:07:58,000

out

118

00:08:08,309 --> 00:08:06,070

i don't know it is very interesting

119

00:08:10,469 --> 00:08:08,319

so i'm hoping to see what happens it is

120

00:08:13,350 --> 00:08:10,479

at harvard

121

00:08:14,790 --> 00:08:13,360

um so have we seen this kind of stuff in

122

00:08:18,469 --> 00:08:14,800

a university before

123

00:08:20,390 --> 00:08:18,479

yes um

124

00:08:21,670 --> 00:08:20,400

maybe not the way he's doing it but we

125

00:08:24,830 --> 00:08:21,680

have seen

126

00:08:26,070 --> 00:08:24,840

university of colorado investigate the

127

00:08:30,469 --> 00:08:26,080

phenomena

128

00:08:37,589 --> 00:08:33,509

we'll see we'll see what happens

129

00:08:41,430 --> 00:08:39,190

well we know that a lot of work has to

130

00:08:42,949 --> 00:08:41,440

go into it so i you know although it's

131

00:08:45,190 --> 00:08:42,959

great that it's happening

132

00:08:47,110 --> 00:08:45,200

um the payoff as far as what they're

133

00:08:52,790 --> 00:08:47,120

looking for that might not be for a bit

134

00:08:59,670 --> 00:08:56,389

yeah i mean i get you but what if

135

00:09:01,670 --> 00:08:59,680

you had like the last piece of a puzzle

136

00:09:03,590 --> 00:09:01,680

and it was just classified information

137

00:09:05,590 --> 00:09:03,600

and you worked for like 10 years to find

138

00:09:09,910 --> 00:09:05,600

it when they could have just

139

00:09:12,470 --> 00:09:09,920

you know that's the way i look at it but

140

00:09:14,710 --> 00:09:12,480

um maybe you could have one of his like

141

00:09:17,110 --> 00:09:14,720

really smart

142

00:09:17,750 --> 00:09:17,120

lackeys look at it first and decide if

143

00:09:21,030 --> 00:09:17,760

anything

144

00:09:23,750 --> 00:09:21,040

is usable so then

145

00:09:26,790 --> 00:09:23,760

he doesn't have to know you know just an

146

00:09:34,710 --> 00:09:30,470

but i didn't go to harvard so

147

00:09:34,720 --> 00:09:39,670

ain't dead right um

148

00:09:39,680 --> 00:09:45,190

i have a pretty cool

149

00:09:51,910 --> 00:09:50,070

oh wait let's look at look at this

150

00:09:53,350 --> 00:09:51,920

craig's book is a must read he was a

151
00:09:58,150 --> 00:09:53,360
colorado investigator

152
00:10:02,870 --> 00:09:58,160
interesting as he talked about the

153
00:10:02,880 --> 00:10:14,310
investigating this stuff robert

154
00:10:21,670 --> 00:10:18,550
oh cool

155
00:10:23,910 --> 00:10:21,680
yeah definitely yeah and

156
00:10:25,509 --> 00:10:23,920
you know the more you have to rely on

157
00:10:30,230 --> 00:10:25,519
somebody else

158
00:10:35,750 --> 00:10:32,710
uh yeah i'll have to read that um right

159
00:10:41,590 --> 00:10:39,269
reading a book by john keel

160
00:10:42,870 --> 00:10:41,600
and it is really fantastic i would have

161
00:10:45,110 --> 00:10:42,880
to say

162
00:10:47,350 --> 00:10:45,120
um and i'm really glad i read it i wish

163
00:10:51,829 --> 00:10:47,360

i would have read it earlier

164

00:10:55,030 --> 00:10:51,839

um it's interesting though so so far

165

00:10:56,550 --> 00:10:55,040

he's pretty much saying that

166

00:10:58,150 --> 00:10:56,560

you know this was written a while ago

167

00:11:01,110 --> 00:10:58,160

but yeah

168

00:11:02,069 --> 00:11:01,120

operation trojan horse yeah so i do the

169

00:11:06,230 --> 00:11:02,079

audiobooks

170

00:11:14,550 --> 00:11:09,509

that's a great book um and it's

171

00:11:18,550 --> 00:11:14,560

very paraphysical is how he describes it

172

00:11:19,910 --> 00:11:18,560

um more he's basically saying it's not

173

00:11:24,870 --> 00:11:19,920

like a nuts and bolts

174

00:11:31,590 --> 00:11:28,389

and this phenomenon is mainly like here

175

00:11:32,870 --> 00:11:31,600

already which is interesting because

176

00:11:36,310 --> 00:11:32,880

that's what we're getting to

177

00:11:38,870 --> 00:11:36,320

right now and then there was this

178

00:11:40,550 --> 00:11:38,880

author other author mentioned in this

179

00:11:43,670 --> 00:11:40,560

book um

180

00:11:46,710 --> 00:11:43,680

i'm going to say his name was ray palmer

181

00:11:48,470 --> 00:11:46,720

who is from my hometown actually

182

00:11:51,110 --> 00:11:48,480

who actually wrote a book i think it was

183

00:11:54,629 --> 00:11:51,120

called the secret world i can't find it

184

00:11:59,350 --> 00:11:54,639

for sale anywhere but he

185

00:12:05,269 --> 00:12:03,670

and that was decades ago

186

00:12:06,710 --> 00:12:05,279

um to the point where he was like

187

00:12:08,389 --> 00:12:06,720

ostracized

188

00:12:10,550 --> 00:12:08,399

by other people for like the

189

00:12:13,430 --> 00:12:10,560

extraterrestrial folks

190

00:12:14,550 --> 00:12:13,440

didn't like that um

191

00:12:17,829 --> 00:12:14,560

[Music]

192

00:12:21,509 --> 00:12:17,839

and apparently that was a thing

193

00:12:24,310 --> 00:12:21,519

extra like uh you know a gang

194

00:12:26,310 --> 00:12:24,320

not a gang but the extraterrestrial

195

00:12:30,389 --> 00:12:26,320

posse versus the

196

00:12:32,150 --> 00:12:30,399

interdimensional posse i don't know um

197

00:12:33,430 --> 00:12:32,160

which is interesting because you know i

198

00:12:35,590 --> 00:12:33,440

am rather new to this so

199

00:12:36,629 --> 00:12:35,600

i i could never say for sure but it did

200

00:12:39,910 --> 00:12:36,639

feel like this was

201

00:12:44,230 --> 00:12:39,920

that was kind of a um

202

00:12:47,509 --> 00:12:44,240

more modern theory and i don't mean

203

00:12:51,030 --> 00:12:47,519

created now but just focused on

204

00:12:53,670 --> 00:12:51,040

but apparently not so much

205

00:12:55,269 --> 00:12:53,680

so but this book is great i really love

206

00:12:58,949 --> 00:12:55,279

i'm learning stuff from this book

207

00:13:03,910 --> 00:13:02,150

uh some books it's more just kind of

208

00:13:07,110 --> 00:13:03,920

like jibber-jabber

209

00:13:07,910 --> 00:13:07,120

than anything important uh but that book

210

00:13:10,629 --> 00:13:07,920

is just uh

211

00:13:11,910 --> 00:13:10,639

rocked with good information so i'd

212

00:13:12,949 --> 00:13:11,920

definitely recommend it when i'm

213

00:13:14,790 --> 00:13:12,959

finished i'll

214

00:13:16,310 --> 00:13:14,800

maybe do a more thorough review even

215

00:13:20,310 --> 00:13:16,320

though most people have

216

00:13:23,750 --> 00:13:20,320

probably read it already but

217

00:13:25,670 --> 00:13:23,760

um but it is a good book it is great

218

00:13:28,470 --> 00:13:25,680

um so maybe i'll robert i'll read that

219

00:13:32,470 --> 00:13:31,030

yeah and we'll try that one next because

220

00:13:34,230 --> 00:13:32,480

i'm very interested in

221

00:13:37,350 --> 00:13:34,240

how that went down for sure because it

222

00:13:40,710 --> 00:13:37,360

was at like 1969 1970

223

00:13:41,990 --> 00:13:40,720

was it and where it went to university

224

00:13:44,470 --> 00:13:42,000

of colorado

225

00:13:45,990 --> 00:13:44,480

and that's pretty much as far as i've

226

00:13:50,150 --> 00:13:46,000

gotten in my own research

227

00:13:56,230 --> 00:13:50,160

so i'm not sure uh what's after that

228

00:14:00,710 --> 00:13:58,389

i'm going to assume i'm a caveman and

229

00:14:04,069 --> 00:14:00,720

not call it magic until proven otherwise

230

00:14:08,069 --> 00:14:04,079

calling it ai till then

231

00:14:10,150 --> 00:14:08,079

uh yeah i mean call it whatever you want

232

00:14:14,629 --> 00:14:10,160

i guess

233

00:14:17,910 --> 00:14:15,910

you know it's hard because everything's

234

00:14:20,629 --> 00:14:17,920

all speculation but you do

235

00:14:22,470 --> 00:14:20,639

have your own ideas and theories and

236

00:14:23,829 --> 00:14:22,480

although they might not be as educated

237

00:14:27,590 --> 00:14:23,839

as other people's

238

00:14:30,790 --> 00:14:27,600

uh they are still important and relevant

239

00:14:34,069 --> 00:14:30,800

um but i think the trick is to not

240

00:14:36,230 --> 00:14:34,079

commit to that idea

241

00:14:40,310 --> 00:14:36,240

and then force it upon other people like

242

00:14:45,350 --> 00:14:42,310

you know because i mean evie lobe even

243

00:14:53,509 --> 00:14:45,360

says it

244

00:15:01,110 --> 00:14:58,790

a um

245

00:15:02,629 --> 00:15:01,120

yeah ev avialobe even says it like

246

00:15:03,910 --> 00:15:02,639

where's the evidence

247

00:15:05,509 --> 00:15:03,920

you know it's interesting we actually

248

00:15:07,750 --> 00:15:05,519

talked to him about what lou said on

249

00:15:10,310 --> 00:15:07,760

max's podcast about the

250

00:15:12,230 --> 00:15:10,320

um saucers and how he described them

251
00:15:13,269 --> 00:15:12,240
with like a space-time bubble and how

252
00:15:14,629 --> 00:15:13,279
they can

253
00:15:16,470 --> 00:15:14,639
combine and that's how they make

254
00:15:19,670 --> 00:15:16,480
different shapes based on how many

255
00:15:21,829 --> 00:15:19,680
how much space they need which he

256
00:15:25,350 --> 00:15:21,839
you know predicated with speculation but

257
00:15:28,790 --> 00:15:25,360
also thought about it way too much

258
00:15:30,550 --> 00:15:28,800
for it to be uh that alone

259
00:15:33,269 --> 00:15:30,560
so there may be some truth to it maybe

260
00:15:37,110 --> 00:15:33,279
some not but anyways

261
00:15:41,189 --> 00:15:40,470
that is very that was a very good

262
00:15:44,710 --> 00:15:41,199
episode

263
00:15:48,710 --> 00:15:44,720

um i do recommend

264

00:15:50,380 --> 00:15:48,720

you go watch it but robert here threw me

265

00:15:53,430 --> 00:15:50,390

my train of throt off

266

00:15:56,470 --> 00:15:53,440

[Laughter]

267

00:16:02,069 --> 00:15:56,480

i forgot why i was mentioning that

268

00:16:07,430 --> 00:16:04,710

anyone can believe or think anything as

269

00:16:10,310 --> 00:16:07,440

long as they're not

270

00:16:11,269 --> 00:16:10,320

you know disruptive based on their

271

00:16:14,069 --> 00:16:11,279

theories

272

00:16:22,710 --> 00:16:14,079

to other people's lives in a

273

00:16:28,949 --> 00:16:22,720

non-peaceful way

274

00:16:34,829 --> 00:16:31,350

um that would be probably hell put off

275

00:16:36,710 --> 00:16:34,839

for eric davis or something

276

00:16:40,150 --> 00:16:36,720

perhaps

277

00:16:43,590 --> 00:16:40,160

very interesting well speaking of

278

00:16:47,189 --> 00:16:43,600

yeah that's okay man it's okay it's live

279

00:16:47,199 --> 00:16:53,749

ah oblivion

280

00:17:00,310 --> 00:16:57,749

if i had to guess what my theory is

281

00:17:02,829 --> 00:17:00,320

if i had to guess right i've never even

282

00:17:09,669 --> 00:17:02,839

put it out there what i think right

283

00:17:09,679 --> 00:17:14,470

i would have to say that um

284

00:17:18,390 --> 00:17:16,630

that there's a couple things going on

285

00:17:20,069 --> 00:17:18,400

and i think some maybe are reflections

286

00:17:23,189 --> 00:17:20,079

of our own consciousness while others

287

00:17:27,669 --> 00:17:25,669

in a realm we can't comprehend see or

288

00:17:33,510 --> 00:17:27,679

touch with our senses

289

00:17:36,789 --> 00:17:33,520

that we have

290

00:17:39,029 --> 00:17:36,799

um i also think that

291

00:17:41,430 --> 00:17:39,039

there can be so much drama in somebody's

292

00:17:44,830 --> 00:17:41,440

life that

293

00:17:46,870 --> 00:17:44,840

something can come to fruition

294

00:17:52,630 --> 00:17:46,880

physically

295

00:17:52,640 --> 00:17:58,830

the power of how hard those emotions are

296

00:18:03,430 --> 00:18:01,590

inside i also think there are

297

00:18:04,710 --> 00:18:03,440

nuts and bolts things but i tend to

298

00:18:07,590 --> 00:18:04,720

think those are more

299

00:18:08,070 --> 00:18:07,600

kind of like og skywatch said maybe um

300

00:18:13,270 --> 00:18:08,080

ai

301

00:18:21,350 --> 00:18:15,270

but there's definitely a paraphysical

302

00:18:25,270 --> 00:18:23,669

um because my own experience says that

303

00:18:27,029 --> 00:18:25,280

like the experience i had those things

304

00:18:30,310 --> 00:18:27,039

weren't

305

00:18:34,310 --> 00:18:30,320

nuts and bolts you know

306

00:18:40,549 --> 00:18:38,150

and that's what my experience is

307

00:18:44,789 --> 00:18:40,559

based off of you know so what am i

308

00:18:48,950 --> 00:18:47,270

i mean i see nuts and bolts on videos

309

00:18:54,070 --> 00:18:48,960

and stuff

310

00:19:06,950 --> 00:18:58,950

i don't know

311

00:19:13,750 --> 00:19:10,390

is a part of us

312

00:19:22,150 --> 00:19:13,760

and just hasn't been realized

313

00:19:26,390 --> 00:19:24,870

yeah i mean avilo ave a little bit

314

00:19:28,230 --> 00:19:26,400

interesting point about uh

315

00:19:30,230 --> 00:19:28,240

like a 3d printer that makes something

316

00:19:34,390 --> 00:19:30,240

that hops from thick planet to planet or

317

00:19:38,070 --> 00:19:35,669

and they always use the term

318

00:19:42,310 --> 00:19:38,080

unidentified aerial phenomenon

319

00:19:42,320 --> 00:19:47,029

and why is that

320

00:19:55,430 --> 00:19:50,870

and not object

321

00:19:55,440 --> 00:20:01,510

it's too particular

322

00:20:08,630 --> 00:20:06,549

what you got yeah

323

00:20:10,789 --> 00:20:08,640

i think that's how like kind of most are

324

00:20:14,470 --> 00:20:10,799

and it leaves you wondering like

325

00:20:16,070 --> 00:20:14,480

uh uh was that something or am i going

326

00:20:18,830 --> 00:20:16,080

nuts or

327

00:20:23,110 --> 00:20:18,840

you know i've had that before that's for

328

00:20:30,390 --> 00:20:26,230

yeah sure discs were objects yeah

329

00:20:32,870 --> 00:20:30,400

um so i mean as much as people say like

330

00:20:35,909 --> 00:20:32,880

it's kind of uh

331

00:20:38,310 --> 00:20:35,919

silly to think that we would be alone

332

00:20:39,350 --> 00:20:38,320

right i also think it's silly to think

333

00:20:41,830 --> 00:20:39,360

that

334

00:20:43,669 --> 00:20:41,840

we would even be close to knowing

335

00:20:45,190 --> 00:20:43,679

everything there is even about our own

336

00:20:47,510 --> 00:20:45,200

planet considering

337

00:20:51,510 --> 00:20:47,520

we haven't even explored the majority of

338

00:20:56,230 --> 00:20:54,870

you know i mean that alone should tell

339

00:20:59,430 --> 00:20:56,240

us that there is a lot

340

00:21:01,669 --> 00:20:59,440

we don't know because obviously water

341

00:21:05,029 --> 00:21:01,679

makes up most of this planet

342

00:21:08,310 --> 00:21:05,039

so we have not explored most

343

00:21:09,510 --> 00:21:08,320

of this planet i can't say that i guess

344

00:21:13,750 --> 00:21:09,520

but

345

00:21:17,430 --> 00:21:15,029

you know when they're showing new things

346

00:21:22,230 --> 00:21:17,440

down there they look like

347

00:21:26,149 --> 00:21:22,240

aliens especially like the neon green

348

00:21:34,710 --> 00:21:29,110

and they're intelligent some are pretty

349

00:21:34,720 --> 00:21:39,909

yeah sure

350

00:21:43,029 --> 00:21:41,430

yeah it could be that you know how we

351

00:21:45,110 --> 00:21:43,039

study ants or whatever we could be the

352

00:21:48,390 --> 00:21:45,120

answer you know the one thing that i

353

00:21:51,590 --> 00:21:48,400

kind of take um issue with is

354

00:21:53,029 --> 00:21:51,600

uh with avi and um other people who say

355

00:21:55,990 --> 00:21:53,039

this kind of thing is

356

00:21:56,549 --> 00:21:56,000

that we need to realize that we are not

357

00:21:58,950 --> 00:21:56,559

um

358

00:22:00,549 --> 00:21:58,960

we're not very special and we're not the

359

00:22:04,310 --> 00:22:00,559

center of the universe

360

00:22:12,149 --> 00:22:07,990

um but just because we are not that

361

00:22:14,789 --> 00:22:12,159

does not mean we are not special and i

362

00:22:21,350 --> 00:22:18,310

um when people use

363

00:22:24,789 --> 00:22:21,360

their pitch or whatever

364

00:22:29,110 --> 00:22:24,799

to put down our race or

365

00:22:34,630 --> 00:22:32,789

mankind i don't think that's appropriate

366

00:22:38,230 --> 00:22:34,640

and why are we not special because

367

00:22:43,190 --> 00:22:39,909

technology than us what does that have

368

00:22:47,669 --> 00:22:46,310

you know is somebody more am i not

369

00:22:54,070 --> 00:22:47,679

special because

370

00:22:58,230 --> 00:22:54,080

i don't have a hundred thousand dollar

371

00:23:01,590 --> 00:22:58,240

drop top convertible you know

372

00:23:03,110 --> 00:23:01,600

which is advanced tech compared to what

373

00:23:06,830 --> 00:23:03,120

i drive

374

00:23:12,950 --> 00:23:10,789

so i think we need to realize

375

00:23:16,950 --> 00:23:12,960

that you can't be special and not be the

376

00:23:23,430 --> 00:23:18,710

you know those two things aren't

377

00:23:26,710 --> 00:23:23,440

synonymous with each other

378

00:23:28,870 --> 00:23:26,720

and like so if you have any belief

379

00:23:30,710 --> 00:23:28,880

in yourself and what you can do does

380

00:23:31,750 --> 00:23:30,720

that just mean just you're arrogant and

381

00:23:34,870 --> 00:23:31,760

full of yourself

382

00:23:37,029 --> 00:23:34,880

like so unless you're depressed

383

00:23:38,950 --> 00:23:37,039

and think you're a piece of crap you're

384

00:23:48,830 --> 00:23:38,960

not realistic

385

00:23:55,750 --> 00:23:50,149

haircuts

386

00:23:55,760 --> 00:24:03,430

duck of the day

387

00:24:03,440 --> 00:24:08,789

yeah thank you very much

388

00:24:16,310 --> 00:24:13,029

i mean like the thing is even if

389

00:24:19,510 --> 00:24:16,320

there is the exact same version of me

390

00:24:21,269 --> 00:24:19,520

somewhere else

391

00:24:23,269 --> 00:24:21,279

with the same emotions that were the

392

00:24:25,590 --> 00:24:23,279

same and the same intelligence or lack

393

00:24:28,630 --> 00:24:25,600

thereof

394

00:24:29,190 --> 00:24:28,640

that doesn't mean that i am not still

395

00:24:32,149 --> 00:24:29,200

unique

396

00:24:32,950 --> 00:24:32,159

from that person because i have my own

397

00:24:37,350 --> 00:24:32,960

perspective

398

00:24:38,390 --> 00:24:37,360

and i am not simultaneously sharing it

399

00:24:43,510 --> 00:24:38,400

with that

400

00:24:49,590 --> 00:24:45,269

and if you really wanted to make a case

401
00:24:49,600 --> 00:24:56,310
because it's infinite

402
00:25:00,870 --> 00:24:58,789
and if everything is infinite the center

403
00:25:09,510 --> 00:25:00,880
can be wherever

404
00:25:16,789 --> 00:25:14,390
i know that's not scientific

405
00:25:17,669 --> 00:25:16,799
but if the universe is never ending it's

406
00:25:23,110 --> 00:25:17,679
infinite

407
00:25:26,230 --> 00:25:24,870
and saying that doesn't mean you're

408
00:25:28,789 --> 00:25:26,240
selfish

409
00:25:30,070 --> 00:25:28,799
or a piece of crap that just means you

410
00:25:31,590 --> 00:25:30,080
are you and of course

411
00:25:35,029 --> 00:25:31,600
you're going to look through your own

412
00:25:42,149 --> 00:25:35,039
lens at things and deal with the issues

413
00:25:45,350 --> 00:25:42,159

that you have in your own life

414

00:25:48,950 --> 00:25:45,360

so i don't know just spitballing on that

415

00:25:52,549 --> 00:25:51,750

all right doc of the day i got a pretty

416

00:25:55,750 --> 00:25:52,559

good one so

417

00:25:57,669 --> 00:25:55,760

today the document of the day

418

00:26:00,149 --> 00:25:57,679

i'm gonna have to give these people fake

419

00:26:02,870 --> 00:26:00,159

names by the way

420

00:26:07,590 --> 00:26:02,880

but this happened so the day after

421

00:26:15,669 --> 00:26:12,310

which was uh july 8th

422

00:26:22,390 --> 00:26:19,029

we have something happen across

423

00:26:26,070 --> 00:26:22,400

town in michigan on the 9th

424

00:26:29,669 --> 00:26:26,080

of 1947 um a man

425

00:26:32,710 --> 00:26:29,679

was walking with his wife

426

00:26:34,230 --> 00:26:32,720

about in the backyard or behind the

427

00:26:36,710 --> 00:26:34,240

building where he worked which was dow

428

00:26:40,390 --> 00:26:36,720

chemical

429

00:26:43,669 --> 00:26:40,400

and they went there to

430

00:26:46,470 --> 00:26:43,679

pick fruit or whatever pretty stupid

431

00:26:49,590 --> 00:26:46,480

so and they're there and the lady his

432

00:26:53,350 --> 00:26:52,710

so they look at it and there's like a

433

00:26:57,110 --> 00:26:53,360

little

434

00:27:00,470 --> 00:26:57,120

explosion in the so a big white light

435

00:27:01,510 --> 00:27:00,480

and something that they referred to as

436

00:27:04,950 --> 00:27:01,520

like

437

00:27:09,110 --> 00:27:04,960

sparklers in the area

438

00:27:10,390 --> 00:27:09,120

um and then when that uh went away they

439

00:27:13,269 --> 00:27:10,400

went to go check it out what it was

440

00:27:18,070 --> 00:27:13,279

there was a big huge divot in the sand

441

00:27:21,350 --> 00:27:18,080

um and material

442

00:27:22,070 --> 00:27:21,360

so so there was a little there was a lot

443

00:27:25,190 --> 00:27:22,080

of sand

444

00:27:28,870 --> 00:27:25,200

and a little uh some silver pellets

445

00:27:32,070 --> 00:27:28,880

actual silver pellets

446

00:27:36,230 --> 00:27:32,080

what's a voodoo um

447

00:27:39,750 --> 00:27:36,240

so went home and got a tin can

448

00:27:41,750 --> 00:27:39,760

which was used two years prior for like

449

00:27:44,630 --> 00:27:41,760

acetone and something else i guess

450

00:27:45,029 --> 00:27:44,640

just for the record they brought the tin

451
00:27:47,029 --> 00:27:45,039
can

452
00:27:48,950 --> 00:27:47,039
back to the site and put some of the

453
00:27:54,149 --> 00:27:48,960
materials in there

454
00:27:57,430 --> 00:27:55,830
let's get you know i'm not going to keep

455
00:28:00,830 --> 00:27:57,440
up with a fake name anyways so

456
00:28:03,909 --> 00:28:00,840
the the dude

457
00:28:07,350 --> 00:28:03,919
um took those

458
00:28:09,990 --> 00:28:07,360
materials to the

459
00:28:10,630 --> 00:28:10,000
government to get tested he actually

460
00:28:14,230 --> 00:28:10,640
thought

461
00:28:17,590 --> 00:28:14,240
it was a meteorite and he

462
00:28:20,149 --> 00:28:17,600
was a somewhat of a skeptic this is the

463
00:28:22,310 --> 00:28:20,159

experienced person who got the materials

464

00:28:25,269 --> 00:28:22,320

and turned them in

465

00:28:27,029 --> 00:28:25,279

um in fact there was one instance where

466

00:28:30,549 --> 00:28:27,039

he was talking to an investigator

467

00:28:32,149 --> 00:28:30,559

and he mentioned

468

00:28:33,029 --> 00:28:32,159

that he doesn't know what because they

469

00:28:34,230 --> 00:28:33,039

asked him what do you think of the

470

00:28:37,669 --> 00:28:34,240

flying saucer stuff

471

00:28:38,549 --> 00:28:37,679

trying to prod him and admit that he was

472

00:28:42,230 --> 00:28:38,559

pulling a prank

473

00:28:46,710 --> 00:28:42,240

basically which he didn't

474

00:28:50,070 --> 00:28:46,720

neither did the wife um

475

00:28:54,149 --> 00:28:53,190

so yeah uh he said that he wasn't all

476
00:28:56,789 --> 00:28:54,159
that interested

477
00:28:57,430 --> 00:28:56,799
and he didn't know what to believe and

478
00:29:00,070 --> 00:28:57,440
that we

479
00:29:01,350 --> 00:29:00,080
hid the making of the atomic bomb for so

480
00:29:05,990 --> 00:29:01,360
long

481
00:29:08,070 --> 00:29:06,000
so this guy was not a believer plus

482
00:29:09,750 --> 00:29:08,080
it was the day after roswell so it

483
00:29:14,630 --> 00:29:09,760
wasn't

484
00:29:16,630 --> 00:29:14,640
people even had time to think about this

485
00:29:17,110 --> 00:29:16,640
stuff to think about doing hoaxes it was

486
00:29:21,350 --> 00:29:17,120
the day

487
00:29:28,149 --> 00:29:23,269
um and it was not a meteorite either

488
00:29:36,789 --> 00:29:32,310

so here they're a little

489

00:29:44,149 --> 00:29:41,430

left shoulder oh the uh the bad

490

00:29:45,269 --> 00:29:44,159

um so they actually turned it in and got

491

00:29:49,029 --> 00:29:45,279

some analysis done

492

00:29:52,710 --> 00:29:49,039

on that um

493

00:29:54,149 --> 00:29:52,720

material so

494

00:29:56,710 --> 00:29:54,159

it's pretty neat i'm gonna go through

495

00:29:59,029 --> 00:29:56,720

that and show you that

496

00:30:00,389 --> 00:29:59,039

um and all the other documents i have

497

00:30:03,029 --> 00:30:00,399

regarding this

498

00:30:03,669 --> 00:30:03,039

which are pretty interesting and

499

00:30:06,710 --> 00:30:03,679

thorough

500

00:30:09,590 --> 00:30:06,720

so uh that should be pretty neat so i'll

501
00:30:12,230 --> 00:30:09,600
be right back

502
00:30:13,990 --> 00:30:12,240
ladies and gentlemen the document of the

503
00:30:20,070 --> 00:30:14,000
day

504
00:30:28,149 --> 00:30:20,080
[Music]

505
00:30:35,110 --> 00:30:30,300
it's the dark of the day

506
00:30:35,120 --> 00:30:41,350
document of the day

507
00:30:44,870 --> 00:30:43,350
so yeah the document of the date uh

508
00:30:50,149 --> 00:30:44,880
today was found on the

509
00:30:52,870 --> 00:30:50,159
national archives website um

510
00:30:54,389 --> 00:30:52,880
so yeah uh without further ado so the

511
00:30:55,750 --> 00:30:54,399
first thing they did was some uh

512
00:30:57,269 --> 00:30:55,760
well i don't want to say the first thing

513
00:30:58,070 --> 00:30:57,279

but these papers are a little out of

514

00:31:00,230 --> 00:30:58,080

order so

515

00:31:01,909 --> 00:31:00,240

when i go through them i'll kind of let

516

00:31:03,080 --> 00:31:01,919

you know what i said

517

00:31:05,750 --> 00:31:03,090

earbuds blasted

518

00:31:08,789 --> 00:31:05,760

[Laughter]

519

00:31:10,310 --> 00:31:08,799

uh if those uh clips or the music is too

520

00:31:14,149 --> 00:31:10,320

loud you let me know that

521

00:31:18,870 --> 00:31:14,159

um so i can uh re-edit it

522

00:31:21,909 --> 00:31:18,880

i'm slightly deaf so as you can imagine

523

00:31:25,350 --> 00:31:21,919

um yeah so here we go midland michigan

524

00:31:26,149 --> 00:31:25,360

july 9 1947 they did get a chemical

525

00:31:29,430 --> 00:31:26,159

analysis

526

00:31:31,110 --> 00:31:29,440

on it um they say no astronomical

527

00:31:34,389 --> 00:31:31,120

explanation

528

00:31:36,630 --> 00:31:34,399

but they do have silver pellets

529

00:31:38,389 --> 00:31:36,640

and they say or magnesium hydroxide what

530

00:31:44,789 --> 00:31:38,399

it really was was

531

00:31:49,669 --> 00:31:47,110

a little too loud all right yeah no no

532

00:31:57,830 --> 00:31:49,679

worries i'll uh

533

00:32:03,590 --> 00:32:01,029

so yeah they

534

00:32:04,710 --> 00:32:03,600

say this incident was evidently a prank

535

00:32:07,750 --> 00:32:04,720

or a private

536

00:32:10,470 --> 00:32:07,760

experiment which it was neither and

537

00:32:12,470 --> 00:32:10,480

we'll find that out

538

00:32:14,070 --> 00:32:12,480

and the magnesium content that they

539

00:32:15,590 --> 00:32:14,080

imply to here

540

00:32:17,509 --> 00:32:15,600

that would make sense from the fourth of

541

00:32:21,750 --> 00:32:17,519

july celebration

542

00:32:25,190 --> 00:32:21,760

um is nothing because it wasn't

543

00:32:27,110 --> 00:32:25,200

uh magnesium hydroxide so but i do have

544

00:32:31,110 --> 00:32:27,120

an entire list of a chemical breakdown

545

00:32:35,430 --> 00:32:34,149

sorry this is a project sign uh document

546

00:32:38,149 --> 00:32:35,440

i guess i should have said that

547

00:32:40,230 --> 00:32:38,159

although um i don't know what their

548

00:32:45,590 --> 00:32:40,240

relevance really is it was all

549

00:32:48,789 --> 00:32:47,110

doesn't have the details so they didn't

550

00:32:49,750 --> 00:32:48,799

even look into this oh that makes sense

551
00:32:55,190 --> 00:32:49,760
because the fbi

552
00:32:55,200 --> 00:32:59,350
which is interesting because

553
00:33:07,430 --> 00:33:03,190
there's project sign and the cia

554
00:33:17,830 --> 00:33:10,549
so to have the fbi and you're

555
00:33:21,909 --> 00:33:20,230
so here's just kind of a synopsis of

556
00:33:22,389 --> 00:33:21,919
what they saw observation of a ball of

557
00:33:24,710 --> 00:33:22,399
white

558
00:33:28,149 --> 00:33:24,720
fire which was first observed a foot or

559
00:33:33,509 --> 00:33:31,350
silver pellets an abnormal amount of

560
00:33:34,870 --> 00:33:33,519
magnesium hydroxide oh maybe there was

561
00:33:38,310 --> 00:33:34,880
both

562
00:33:39,029 --> 00:33:38,320
detailed report of incident chemical

563
00:33:45,029 --> 00:33:39,039

analysis

564

00:33:50,389 --> 00:33:46,549

so this is this is getting pretty

565

00:33:54,149 --> 00:33:52,470

so i'm not sure what the other elements

566

00:33:58,630 --> 00:33:54,159

are really but i know the

567

00:34:05,830 --> 00:34:03,590

so you got the unknown sand there

568

00:34:07,430 --> 00:34:05,840

opaque portion from unknown sand fine

569

00:34:09,510 --> 00:34:07,440

powder from unknown scent

570

00:34:10,470 --> 00:34:09,520

so you can see there is a lot more

571

00:34:13,510 --> 00:34:10,480

thorium i

572

00:34:19,109 --> 00:34:13,520

you know what does that mean no idea but

573

00:34:23,109 --> 00:34:20,869

um yeah and they kind of talk about the

574

00:34:24,629 --> 00:34:23,119

darker um

575

00:34:26,149 --> 00:34:24,639

the darker color of the sand which is

576

00:34:29,829 --> 00:34:26,159

not affected by heating

577

00:34:39,030 --> 00:34:29,839

above 250 degrees uh which could explain

578

00:34:39,040 --> 00:34:43,190

silica almost pure silica

579

00:34:50,790 --> 00:34:46,389

i mean i wish i knew what a lot of that

580

00:34:52,550 --> 00:34:50,800

well a lot of these chemicals meant but

581

00:34:54,069 --> 00:34:52,560

i do not but it's pretty interesting

582

00:34:58,230 --> 00:34:54,079

that we actually have

583

00:35:00,550 --> 00:34:58,240

a document of them testing it

584

00:35:05,349 --> 00:35:00,560

of something the day after roswell that

585

00:35:09,750 --> 00:35:07,940

the dow chemical company okay that's who

586

00:35:15,990 --> 00:35:09,760

[Music]

587

00:35:20,870 --> 00:35:16,000

uh performed this

588

00:35:24,069 --> 00:35:20,880

and they use a spectroscopy laboratory

589

00:35:25,990 --> 00:35:24,079

wow so

590

00:35:27,670 --> 00:35:26,000

if you guys know anybody that can make

591

00:35:30,710 --> 00:35:27,680

sense of what this stuff is

592

00:35:32,870 --> 00:35:30,720

let me know high heat on sand ah

593

00:35:38,390 --> 00:35:32,880

thank you very much for your daily very

594

00:35:38,400 --> 00:35:42,870

very very interesting

595

00:35:47,990 --> 00:35:45,990

um here's some more and this is of the

596

00:35:53,990 --> 00:35:48,000

sand

597

00:35:58,390 --> 00:35:56,829

different part from the ship comes in

598

00:36:00,870 --> 00:35:58,400

later

599

00:36:02,710 --> 00:36:00,880

uh what they actually thought was that

600

00:36:04,310 --> 00:36:02,720

it was some sort of self-consuming

601
00:36:11,990 --> 00:36:04,320
missile

602
00:36:15,430 --> 00:36:12,000
i don't know

603
00:36:17,349 --> 00:36:15,440
analysis of metal sample so this was the

604
00:36:19,430 --> 00:36:17,359
silver which is basically just silver

605
00:36:23,750 --> 00:36:19,440
and then here's the sand

606
00:36:27,190 --> 00:36:23,760
uh pretty cool it was pretty pretty cool

607
00:36:28,710 --> 00:36:27,200
especially just the timing of it the day

608
00:36:31,430 --> 00:36:28,720
after roswell and then they used that

609
00:36:39,829 --> 00:36:31,440
july 4th thing again but that was

610
00:36:43,589 --> 00:36:42,470
ah nice you guys are super smart um do

611
00:36:45,050 --> 00:36:43,599
you want this document

612
00:36:51,990 --> 00:36:45,060
maybe you could do something with it

613
00:36:52,000 --> 00:36:57,910

oh nice

614

00:36:57,920 --> 00:37:02,390

wow yeah good job man

615

00:37:08,470 --> 00:37:06,870

thank you so um

616

00:37:10,150 --> 00:37:08,480

yeah here's some more of it silver

617

00:37:13,430 --> 00:37:10,160

nugget almost pure

618

00:37:14,870 --> 00:37:13,440

except for sand mixed in uh it was not

619

00:37:18,630 --> 00:37:14,880

radioactive there was

620

00:37:21,990 --> 00:37:18,640

uh the sand was found to be

621

00:37:26,790 --> 00:37:22,000

slightly radioactive and giving off

622

00:37:32,710 --> 00:37:29,670

google yeah i guess right i can't do

623

00:37:39,190 --> 00:37:35,270

um and then they did a rundown of this

624

00:37:43,270 --> 00:37:41,670

who he was where he worked the different

625

00:37:45,589 --> 00:37:43,280

jobs he had

626
00:37:47,030 --> 00:37:45,599
the different jobs in a company so they

627
00:37:51,030 --> 00:37:47,040
went pretty

628
00:37:57,109 --> 00:37:51,040
deep on this guy oh photographer worked

629
00:38:00,470 --> 00:37:59,510
um yeah they said it looked like a

630
00:38:05,430 --> 00:38:00,480
bushel basket

631
00:38:08,710 --> 00:38:05,440
funny

632
00:38:12,790 --> 00:38:10,790
um the sand they said looks similar to

633
00:38:15,270 --> 00:38:12,800
the sand at los alamos which is

634
00:38:19,190 --> 00:38:15,280
interesting

635
00:38:23,829 --> 00:38:19,200
and it's a michigan what could that mean

636
00:38:25,510 --> 00:38:23,839
um the investigators did say that he

637
00:38:31,270 --> 00:38:25,520
seemed sincere and he thought he was

638
00:38:36,390 --> 00:38:33,670

um the silver pellets were slightly

639

00:38:39,589 --> 00:38:36,400

radioactive they think it's

640

00:38:41,190 --> 00:38:39,599

be or the sand was because there

641

00:38:43,990 --> 00:38:41,200

could have been a cause of some luminous

642

00:38:49,190 --> 00:38:46,310

um and they thought it was a

643

00:38:51,080 --> 00:38:49,200

self-consuming missile

644

00:38:53,270 --> 00:38:51,090

so i think the

645

00:38:56,790 --> 00:38:53,280

[Music]

646

00:39:05,510 --> 00:38:56,800

verdict is out on that one eh

647

00:39:05,520 --> 00:39:09,510

in new mexico

648

00:39:13,109 --> 00:39:11,510

uh is the information you have asked for

649

00:39:15,670 --> 00:39:13,119

in regards to analysis of a

650

00:39:17,510 --> 00:39:15,680

certain materials discussed by the dow

651
00:39:19,990 --> 00:39:17,520
chemical company

652
00:39:23,190 --> 00:39:20,000
so why would even the whole dow chemical

653
00:39:29,589 --> 00:39:26,470
get involved in this stuff

654
00:39:32,710 --> 00:39:29,599
you know they wouldn't go for a hoax dr

655
00:39:38,870 --> 00:39:36,710
ah he did ah that's very interesting

656
00:39:41,589 --> 00:39:38,880
yeah that's that project twinkle you

657
00:39:44,950 --> 00:39:41,599
know it's interesting because

658
00:39:47,030 --> 00:39:44,960
um le paz was at los alamos and they do

659
00:39:47,589 --> 00:39:47,040
mention that they thought the sand looks

660
00:39:53,430 --> 00:39:47,599
similar

661
00:39:58,710 --> 00:39:55,910
so i'm not sure yeah this one's kind of

662
00:40:03,910 --> 00:40:00,790
this is kind of the synopsis of them

663
00:40:03,920 --> 00:40:08,790

interrogator

664

00:40:14,710 --> 00:40:12,630

yeah what i could do if you guys want

665

00:40:17,589 --> 00:40:14,720

right but i mean they they actually the

666

00:40:20,230 --> 00:40:17,599

person that found it worked there

667

00:40:21,750 --> 00:40:20,240

and they found it behind there so i'm

668

00:40:24,790 --> 00:40:21,760

imagining this guy that works there

669

00:40:28,230 --> 00:40:24,800

going to his boss and saying hey i found

670

00:40:30,550 --> 00:40:28,240

this meteorite or whatever can we test

671

00:40:36,230 --> 00:40:33,589

i don't know just

672

00:40:38,069 --> 00:40:36,240

i don't see that happening now but um

673

00:40:41,670 --> 00:40:38,079

you know corporate america

674

00:40:43,349 --> 00:40:41,680

these days it's pretty strict

675

00:40:44,790 --> 00:40:43,359

yeah dr lapaz thought it was green

676

00:40:46,390 --> 00:40:44,800

fireballs um

677

00:40:48,230 --> 00:40:46,400

or thought the green fireballs were

678

00:40:49,750 --> 00:40:48,240

self-consuming missiles

679

00:40:51,270 --> 00:40:49,760

i wanted to go back and look at that

680

00:40:53,750 --> 00:40:51,280

because

681

00:40:55,109 --> 00:40:53,760

um and when they officially said that

682

00:40:56,870 --> 00:40:55,119

roswell was a balloon

683

00:40:58,710 --> 00:40:56,880

because if he was investigate because he

684

00:40:59,910 --> 00:40:58,720

was investigating roswell as a green

685

00:41:04,069 --> 00:40:59,920

fireball case

686

00:41:06,870 --> 00:41:04,079

so was that after

687

00:41:11,430 --> 00:41:06,880

the balloon theory or before because it

688

00:41:23,910 --> 00:41:16,710

busted

689

00:41:31,349 --> 00:41:27,270

but that was the doc of

690

00:41:33,589 --> 00:41:31,359

the day did you guys like that one

691

00:41:46,829 --> 00:41:33,599

what do you guys like to see for docs of

692

00:41:50,950 --> 00:41:48,430

yep

693

00:41:54,069 --> 00:41:50,960

[Music]

694

00:41:58,630 --> 00:41:54,079

robert you are correct sir and then um

695

00:42:02,790 --> 00:41:58,640

we have yeah the uh trinity site right

696

00:42:05,829 --> 00:42:02,800

that wasn't 45 even

697

00:42:07,670 --> 00:42:05,839

um yeah do you guys like um cases do you

698

00:42:13,190 --> 00:42:07,680

like random documents

699

00:42:17,430 --> 00:42:14,829

or do you just trust me to pick what i'm

700

00:42:22,630 --> 00:42:17,440

picking let's go too

701

00:42:27,430 --> 00:42:25,829

um like a whole case or

702

00:42:29,109 --> 00:42:27,440

subject or category throughout the

703

00:42:30,309 --> 00:42:29,119

course of a whole week and cover just

704

00:42:33,829 --> 00:42:30,319

like a certain part of it

705

00:42:37,430 --> 00:42:35,430

and all you feel about that like the

706

00:42:39,910 --> 00:42:37,440

washington dc sightings there's enough

707

00:42:41,910 --> 00:42:39,920

material there

708

00:42:43,109 --> 00:42:41,920

oh you like video clips of the day i

709

00:42:45,030 --> 00:42:43,119

don't uh

710

00:42:47,589 --> 00:42:45,040

see nobody talks about that so i didn't

711

00:42:47,599 --> 00:42:55,670

i think that was a thing

712

00:43:04,069 --> 00:42:56,950

let's see what we got out there we can

713

00:43:09,109 --> 00:43:06,069

uh i like the homemade ones actually to

714

00:43:13,589 --> 00:43:10,829

it's because sometimes they're pretty

715

00:43:16,230 --> 00:43:13,599

funny

716

00:43:26,069 --> 00:43:16,240

like that one guy we watched who was

717

00:43:28,230 --> 00:43:26,079

freaking out there's an invasion

718

00:43:35,190 --> 00:43:28,240

real ufo sighting oh that's got to be

719

00:43:47,349 --> 00:43:38,829

nope seems like some stupid uh movie

720

00:43:54,870 --> 00:43:50,630

you're full sighting oh a compilation

721

00:43:58,150 --> 00:43:54,880

oh my gosh this person did my job for me

722

00:43:58,160 --> 00:44:03,270

the canadian ladies yeah

723

00:44:12,630 --> 00:44:06,829

like why did they take crash i know

724

00:44:17,270 --> 00:44:15,750

um i don't know if you were talking

725

00:44:20,150 --> 00:44:17,280

about that in relation to this

726

00:44:21,670 --> 00:44:20,160

robert or not but it's yeah like here

727

00:44:22,069 --> 00:44:21,680

they are they're doing these reports and

728

00:44:24,790 --> 00:44:22,079

stuff

729

00:44:26,390 --> 00:44:24,800

like i don't think they knew what it was

730

00:44:29,990 --> 00:44:26,400

you know

731

00:44:37,829 --> 00:44:33,829

you uap or not game show oh i got a uap

732

00:44:40,950 --> 00:44:37,839

or not for you

733

00:44:44,870 --> 00:44:40,960

all right all right here we go

734

00:44:47,190 --> 00:44:44,880

i got some stiff i got some stuff for

735

00:45:07,250 --> 00:44:50,390

and it's like a whole playlist so that's

736

00:45:24,630 --> 00:45:09,589

[Music]

737

00:45:29,510 --> 00:45:26,470

um i don't know why there's no sound

738

00:45:31,670 --> 00:45:29,520

though stupid

739

00:45:33,109 --> 00:45:31,680

find doe department of energy documents

740

00:45:33,670 --> 00:45:33,119

but they have a stash of goodies in

741

00:45:37,190 --> 00:45:33,680

there

742

00:45:38,710 --> 00:45:37,200

yeah i was thinking about that that

743

00:45:40,309 --> 00:45:38,720

issue that i run into with these

744

00:45:44,309 --> 00:45:40,319

different departments is they all

745

00:45:46,150 --> 00:45:44,319

have a different ways of

746

00:45:49,510 --> 00:45:46,160

doing stuff with their documents

747

00:45:49,520 --> 00:45:53,349

and

748

00:45:58,829 --> 00:45:54,550

you know so you got to like learn a

749

00:45:58,839 --> 00:46:06,069

department

750

00:46:10,069 --> 00:46:07,510

i just don't know why they don't give me

751
00:46:10,079 --> 00:46:13,750
unless maybe you can hear and i can't

752
00:46:13,760 --> 00:46:23,430
but i doubt it

753
00:46:28,150 --> 00:46:26,790
for ya tedious yeah i know and this

754
00:46:29,030 --> 00:46:28,160
stuff you know believe it or not i'm

755
00:46:32,470 --> 00:46:29,040
finding

756
00:46:36,150 --> 00:46:32,480
um not for having to

757
00:46:38,470 --> 00:46:36,160
do foias but you know i'm

758
00:46:39,190 --> 00:46:38,480
starting to debate if i have the

759
00:46:41,670 --> 00:46:39,200
patience

760
00:46:44,710 --> 00:46:41,680
to take these documents i find further

761
00:46:44,720 --> 00:46:49,670
the one i did submit

762
00:46:53,990 --> 00:46:52,470
was maybe a month and a half ago i still

763
00:46:56,870 --> 00:46:54,000

haven't

764

00:46:59,030 --> 00:46:56,880

heard anything but i did ask for a lot

765

00:47:03,349 --> 00:46:59,040

so

766

00:47:13,670 --> 00:47:11,589

maybe it just takes time

767

00:47:17,430 --> 00:47:13,680

rehashing laura is boring for me it's

768

00:47:17,440 --> 00:47:28,710

yeah see i like the history stuff

769

00:47:28,720 --> 00:47:35,109

nice sounds good

770

00:47:52,549 --> 00:47:39,670

sounds real good

771

00:47:55,270 --> 00:47:52,559

this one's interesting

772

00:47:56,470 --> 00:47:55,280

it doesn't really do anything though

773

00:47:59,349 --> 00:47:56,480

holy

774

00:48:01,589 --> 00:47:59,359

crackers oh you know what see that's

775

00:48:05,670 --> 00:48:01,599

like a jet

776

00:48:05,680 --> 00:48:17,589

or something

777

00:48:17,599 --> 00:48:32,829

oh interesting where'd you get that info

778

00:48:32,839 --> 00:48:44,309

um

779

00:48:48,790 --> 00:48:47,510

yeah that makes sense actually i'll tell

780

00:49:01,109 --> 00:48:48,800

you that

781

00:49:05,589 --> 00:49:03,030

oh yeah you're the guy who's talking

782

00:49:11,030 --> 00:49:05,599

about the article huh

783

00:49:18,390 --> 00:49:14,950

i mean put you on this spot

784

00:49:20,470 --> 00:49:18,400

look nothing in the sky at all then all

785

00:49:24,230 --> 00:49:20,480

of a sudden

786

00:49:26,950 --> 00:49:24,240

bam what is that anybody tell me what

787

00:49:31,910 --> 00:49:30,069

we're in the middle of the ocean on a

788

00:49:36,230 --> 00:49:31,920

ferry

789

00:49:56,829 --> 00:49:36,240

nothing around look nothing around

790

00:49:56,839 --> 00:50:02,870

foreign

791

00:50:07,109 --> 00:50:04,630

it's interesting everybody gets out of

792

00:50:10,870 --> 00:50:08,470

but they were doing that for the

793

00:50:18,150 --> 00:50:10,880

goodyear blimp too weren't they

794

00:50:18,160 --> 00:50:22,150

now

795

00:50:22,160 --> 00:50:40,230

and here's where they just get fake huh

796

00:50:40,240 --> 00:50:48,309

yeah i know i'm like that's not real

797

00:50:52,790 --> 00:50:51,030

but it also kind of goes to my point

798

00:50:55,990 --> 00:50:52,800

that i make sometimes if there

799

00:51:04,069 --> 00:50:56,000

is a real video that looks

800

00:51:09,670 --> 00:51:06,950

i don't know i wish your comments were

801
00:51:13,990 --> 00:51:09,680
more uh

802
00:51:15,589 --> 00:51:14,000
on time with me with me talking because

803
00:51:17,109 --> 00:51:15,599
it's like you guys catch up to what i'm

804
00:51:20,790 --> 00:51:17,119
saying

805
00:51:24,870 --> 00:51:20,800
um a little late and i may have like

806
00:51:28,390 --> 00:51:24,880
you know i'd like to react on the spot

807
00:51:30,630 --> 00:51:28,400
um so well i guess we did do

808
00:51:32,230 --> 00:51:30,640
doc of the day sorry if i'm not in a

809
00:51:34,069 --> 00:51:32,240
cheery mood today i don't know what's up

810
00:51:35,990 --> 00:51:34,079
with me

811
00:51:37,589 --> 00:51:36,000
um just kind of one of those days i

812
00:51:40,710 --> 00:51:37,599
guess

813
00:51:42,470 --> 00:51:40,720

it started off rough and then hasn't

814

00:51:45,990 --> 00:51:42,480

really rebounded yet

815

00:51:55,349 --> 00:51:51,510

because i like you guys a lot

816

00:52:01,430 --> 00:51:59,270

man i don't know why either like

817

00:52:03,190 --> 00:52:01,440

just sometimes some days you just don't

818

00:52:07,030 --> 00:52:03,200

have

819

00:52:07,040 --> 00:52:13,990

um but tomorrow is another day

820

00:52:22,790 --> 00:52:19,510

um i appreciate it you guys are sweet

821

00:52:26,790 --> 00:52:22,800

i'm supposed to go on with uh

822

00:52:29,990 --> 00:52:26,800

vinnie on his instagram

823

00:52:32,150 --> 00:52:30,000

channel so

824

00:52:33,349 --> 00:52:32,160

and i'm kind of just in flux for a week

825

00:52:36,549 --> 00:52:33,359

like i

826

00:52:38,790 --> 00:52:36,559

put together a nice new studio um but

827

00:52:43,670 --> 00:52:38,800

it's kind of a busy house for the week

828

00:52:46,870 --> 00:52:45,589

so i'm back here in my office which is

829

00:52:49,270 --> 00:52:46,880

kind of where i don't want to be doing

830

00:52:49,280 --> 00:52:53,430

tell that too

831

00:53:01,109 --> 00:52:56,710

but yeah it'd be nice to meet you guys

832

00:53:03,750 --> 00:53:01,119

in person one day

833

00:53:07,910 --> 00:53:03,760

all right i am gonna kick out of here do

834

00:53:17,670 --> 00:53:10,549

835

00:53:17,680 --> 00:53:21,109

but i will

836

00:53:21,119 --> 00:53:24,230

837
