

1
00:00:00,000 --> 00:00:02,720
foreign

2
00:00:36,530 --> 00:00:12,290
[Music]

3
00:00:36,540 --> 00:00:40,569
too late at night

4
00:00:50,810 --> 00:00:42,840
Faith believes

5
00:00:50,820 --> 00:01:02,389
[Music]

6
00:01:02,399 --> 00:01:07,850
it's

7
00:01:11,710 --> 00:01:10,520
just gotta let it flow

8
00:01:15,249 --> 00:01:11,720
[Music]

9
00:01:15,259 --> 00:01:20,270
you just gotta let it

10
00:01:20,280 --> 00:01:23,870
sadness

11
00:01:30,780 --> 00:01:25,320
gotta let it flow

12
00:01:36,410 --> 00:01:31,670
[Music]

13
00:01:42,050 --> 00:01:38,990

um you can actually find that song on

14

00:01:43,910 --> 00:01:42,060

Spotify if you want

15

00:01:45,950 --> 00:01:43,920

make believe in

16

00:01:48,830 --> 00:01:45,960

they rip you off they don't give you any

17

00:01:50,810 --> 00:01:48,840

amount of money for that crap but

18

00:01:55,609 --> 00:01:50,820

you know if you get Spotify

19

00:02:03,590 --> 00:01:59,209

so uh there was actually there's like

20

00:02:09,589 --> 00:02:06,170

in the UAP world

21

00:02:11,750 --> 00:02:09,599

so I figured I would do a little stream

22

00:02:14,690 --> 00:02:11,760

about it

23

00:02:18,350 --> 00:02:14,700

um so we can catch up because you know I

24

00:02:20,449 --> 00:02:18,360

actually do a lot of stuff here like on

25

00:02:22,790 --> 00:02:20,459

the history uh

26

00:02:24,949 --> 00:02:22,800

um all sorts of so and I can

27

00:02:27,530 --> 00:02:24,959

definitely get my lights right

28

00:02:29,869 --> 00:02:27,540

bull and all sorts of stuff so I

29

00:02:31,130 --> 00:02:29,879

can't leave this stuff behind that's for

30

00:02:33,110 --> 00:02:31,140

sure

31

00:02:35,150 --> 00:02:33,120

um but so have you asked it's witness

32

00:02:38,089 --> 00:02:35,160

citizen

33

00:02:42,949 --> 00:02:38,099

so yeah you can just uh look that up

34

00:02:45,410 --> 00:02:42,959

right whenever you want to

35

00:02:47,509 --> 00:02:45,420

uh I'll add more stuff you know at some

36

00:02:50,690 --> 00:02:47,519

point but

37

00:02:52,970 --> 00:02:50,700

um so the first thing I wanted to tackle

38

00:03:03,369 --> 00:02:52,980

is

39

00:03:05,630 --> 00:03:03,379

if you didn't know that happened today

40

00:03:08,270 --> 00:03:05,640

we've kind of went through this in the

41

00:03:10,550 --> 00:03:08,280

past but we can briefly you know just

42

00:03:13,670 --> 00:03:10,560

kind of go through everything here

43

00:03:17,149 --> 00:03:15,470

you know we have General uh the

44

00:03:19,490 --> 00:03:17,159

secretary shell in coordination with the

45

00:03:21,050 --> 00:03:19,500

director design organizations with the

46

00:03:22,509 --> 00:03:21,060

Department of Defense and intelligence

47

00:03:25,490 --> 00:03:22,519

Community that's

48

00:03:27,710 --> 00:03:25,500

appropriate expertise authorities uh

49

00:03:28,850 --> 00:03:27,720

accesses to Data Systems platforms one

50

00:03:30,710 --> 00:03:28,860

of the things that came out today

51

00:03:31,390 --> 00:03:30,720

actually was

52

00:03:36,470 --> 00:03:31,400

um

53

00:03:38,570 --> 00:03:36,480

that if oh hello if you are in the if

54

00:03:40,490 --> 00:03:38,580

you have an IC

55

00:03:41,869 --> 00:03:40,500

if you're part of the IC Community you

56

00:03:44,330 --> 00:03:41,879

have to give them the data like

57

00:03:45,170 --> 00:03:44,340

immediately upon this thing

58

00:03:46,430 --> 00:03:45,180

um

59

00:03:49,670 --> 00:03:46,440

you know

60

00:03:51,649 --> 00:03:49,680

going into action so that's pretty cool

61

00:03:53,210 --> 00:03:51,659

um there's like no ifs says or buts

62

00:03:54,830 --> 00:03:53,220

about it

63

00:03:57,410 --> 00:03:54,840

um

64

00:04:00,649 --> 00:03:57,420

so you know and Robert and I were

65

00:04:03,289 --> 00:04:00,659

talking about you know past reporting it

66

00:04:05,149 --> 00:04:03,299

you know uh issues with this stuff from

67

00:04:07,429 --> 00:04:05,159

the 50s

68

00:04:09,830 --> 00:04:07,439

um so you know the one thing I can say

69

00:04:11,830 --> 00:04:09,840

that's the difference is at least you

70

00:04:14,750 --> 00:04:11,840

know this isn't

71

00:04:16,729 --> 00:04:14,760

in public versus you know what we were

72

00:04:20,090 --> 00:04:16,739

reading yesterday was um behind closed

73

00:04:22,730 --> 00:04:21,289

um

74

00:04:23,990 --> 00:04:22,740

so

75

00:04:25,610 --> 00:04:24,000

you know it would take a while to read

76

00:04:28,670 --> 00:04:25,620

all this so I

77

00:04:29,870 --> 00:04:28,680

if you haven't read it you can just ask

78

00:04:31,310 --> 00:04:29,880

me for it and I'll send it to you

79

00:04:35,390 --> 00:04:31,320

otherwise

80

00:04:40,189 --> 00:04:38,450

um pretty interesting here analysis of

81

00:04:42,170 --> 00:04:40,199

data relating to unidentified aerial

82

00:04:43,670 --> 00:04:42,180

phenomenon collected through geospatial

83

00:04:46,249 --> 00:04:43,680

signals human intelligence and

84

00:04:48,290 --> 00:04:46,259

measurement and signals intelligence uh

85

00:04:50,090 --> 00:04:48,300

the number of reported incidents of

86

00:04:51,890 --> 00:04:50,100

unidentified aerial phenomenon over

87

00:04:54,110 --> 00:04:51,900

restricted airspace in the United States

88

00:04:55,850 --> 00:04:54,120

as we covered yesterday that's been

89

00:04:56,930 --> 00:04:55,860

going on since

90

00:04:58,330 --> 00:04:56,940

um

91

00:05:00,710 --> 00:04:58,340

well really

92

00:05:03,050 --> 00:05:00,720

1947 I guess but

93

00:05:06,110 --> 00:05:03,060

um yesterday we

94

00:05:08,029 --> 00:05:06,120

went over a document that was in 1952

95

00:05:11,090 --> 00:05:08,039

where it said the same thing

96

00:05:13,310 --> 00:05:11,100

you know but again this isn't public so

97

00:05:15,050 --> 00:05:13,320

you know as much as it can be irritating

98

00:05:16,129 --> 00:05:15,060

that this has been going on for that

99

00:05:18,529 --> 00:05:16,139

long

100

00:05:22,610 --> 00:05:18,539

um there is a difference here and it's

101
00:05:24,350 --> 00:05:22,620
that it is public so that is a positive

102
00:05:26,029 --> 00:05:24,360
and sometimes I lose sight of that

103
00:05:29,810 --> 00:05:26,039
myself but

104
00:05:34,909 --> 00:05:32,990
um so yeah Megan what's up

105
00:05:37,129 --> 00:05:34,919
how you doing thanks for being here

106
00:05:40,610 --> 00:05:37,139
hereless primate

107
00:05:42,830 --> 00:05:40,620
uh Benji what's up Priscilla

108
00:05:46,490 --> 00:05:42,840
I got some announcements about Priscilla

109
00:05:49,850 --> 00:05:46,500
actually uh which is pretty cool

110
00:05:52,790 --> 00:05:49,860
um Andres what's up brother

111
00:05:53,990 --> 00:05:52,800
he is if you guys don't know this is the

112
00:05:54,529 --> 00:05:54,000
man that

113
00:05:57,170 --> 00:05:54,539

um

114

00:05:58,249 --> 00:05:57,180

one of uh the guys who started UFO

115

00:06:01,070 --> 00:05:58,259

Twitter

116

00:06:03,469 --> 00:06:01,080

and uh really the whole and UAP secrecy

117

00:06:04,730 --> 00:06:03,479

movement which we're doing a special day

118

00:06:08,029 --> 00:06:04,740

for that

119

00:06:11,629 --> 00:06:08,039

December 17th and we have phenomenal

120

00:06:13,070 --> 00:06:11,639

guests lined up Steve Stephen Bassett

121

00:06:15,170 --> 00:06:13,080

Ross kohlhart

122

00:06:17,090 --> 00:06:15,180

um John Ramirez

123

00:06:20,090 --> 00:06:17,100

um just to name a few we got Priscilla

124

00:06:22,070 --> 00:06:20,100

uh Stone who will be co-hosting that

125

00:06:23,749 --> 00:06:22,080

event with me uh we have disclosure team

126
00:06:26,689 --> 00:06:23,759
we'll be co-hosting that event with me

127
00:06:28,249 --> 00:06:26,699
we got Benji who's co-hosting that

128
00:06:30,230 --> 00:06:28,259
um event with me

129
00:06:33,170 --> 00:06:30,240
uh Robert makes a good point this is

130
00:06:37,850 --> 00:06:33,180
actual legislation

131
00:06:43,610 --> 00:06:40,490
um and we also have we can we have a lot

132
00:06:46,370 --> 00:06:43,620
of people so we have uh UAP media UK

133
00:06:49,670 --> 00:06:46,380
will be coming by uh that event as well

134
00:06:52,790 --> 00:06:49,680
going back to and UAB secrecy day

135
00:06:57,350 --> 00:06:52,800
um Jay Christopher King we have

136
00:06:59,870 --> 00:06:57,360
um a lot of people from France

137
00:07:02,390 --> 00:06:59,880
which is called by the way the

138
00:07:03,890 --> 00:07:02,400

um Baptista I believe so

139

00:07:05,570 --> 00:07:03,900

um and he's got some Heavy Hitters on

140

00:07:06,650 --> 00:07:05,580

store he's given me the names but I'm

141

00:07:09,350 --> 00:07:06,660

going to do it like an official

142

00:07:12,650 --> 00:07:09,360

announcement with that so surf's like

143

00:07:14,210 --> 00:07:12,660

what's up awesome awesome you could join

144

00:07:17,990 --> 00:07:14,220

us

145

00:07:20,510 --> 00:07:18,000

so that would be very cool so now I will

146

00:07:22,969 --> 00:07:20,520

just get to

147

00:07:28,850 --> 00:07:22,979

the part where

148

00:07:35,450 --> 00:07:30,650

so

149

00:07:38,930 --> 00:07:35,460

we're here added uh gillibrand

150

00:07:40,850 --> 00:07:38,940

Rubio Hendrick

151
00:07:42,830 --> 00:07:40,860
that's bipartisan and you know what's

152
00:07:45,050 --> 00:07:42,840
really cool is um

153
00:07:47,450 --> 00:07:45,060
Rubio's still on board after all this

154
00:07:50,809 --> 00:07:47,460
you know it wasn't like to me that

155
00:07:53,330 --> 00:07:50,819
proves it wasn't like a a you know a

156
00:07:54,890 --> 00:07:53,340
show of whatever crap like he was in and

157
00:07:57,230 --> 00:07:54,900
out just for a second or whatever he's

158
00:08:01,430 --> 00:07:57,240
still in this he's showing bipartisan

159
00:08:04,670 --> 00:08:01,440
support uh behind a very expansive and

160
00:08:12,129 --> 00:08:04,680
massive uh legislation here

161
00:08:17,809 --> 00:08:15,589
you know they're

162
00:08:19,550 --> 00:08:17,819
they're looking at everything so that's

163
00:08:22,309 --> 00:08:19,560

good I mean you

164

00:08:24,170 --> 00:08:22,319

as much as you want to I want to you

165

00:08:25,850 --> 00:08:24,180

know know like don't put the foreign

166

00:08:28,189 --> 00:08:25,860

crap in there or whatever it's like I

167

00:08:31,490 --> 00:08:28,199

guess you just kind of have to

168

00:08:35,690 --> 00:08:32,990

we have everything in there from

169

00:08:42,529 --> 00:08:35,700

reporting and an analysis of incidents

170

00:08:49,310 --> 00:08:46,610

uh there was collection I think

171

00:08:55,310 --> 00:08:53,389

of the UAP if possible so hopefully

172

00:08:57,889 --> 00:08:55,320

you know that doesn't mean take it down

173

00:09:02,810 --> 00:08:57,899

and if we try some

174

00:09:07,009 --> 00:09:04,550

who knows

175

00:09:08,990 --> 00:09:07,019

who it knows

176

00:09:11,030 --> 00:09:09,000

in this section the term special

177

00:09:15,110 --> 00:09:11,040

activity airspace means the following

178

00:09:19,870 --> 00:09:17,690

just kidding but

179

00:09:22,370 --> 00:09:19,880

it's like are they giving us a secret

180

00:09:26,570 --> 00:09:22,380

inter-dimensional tip right there

181

00:09:28,269 --> 00:09:26,580

so that is pretty good stuff pretty good

182

00:09:30,889 --> 00:09:28,279

stuff

183

00:09:35,050 --> 00:09:30,899

pretty pretty pretty pretty good

184

00:09:35,060 --> 00:09:40,009

no sir I'm 37 man

185

00:09:40,019 --> 00:09:45,470

I'm 37 bro ain't no dad

186

00:09:51,790 --> 00:09:48,290

cool Uncle man that's still like it

187

00:09:53,509 --> 00:09:51,800

would be an old person how old are you

188

00:09:56,150 --> 00:09:53,519

foreign

189

00:09:59,090 --> 00:09:56,160

yeah you know Robert's right we need to

190

00:10:00,949 --> 00:09:59,100

begin the healing process I love that

191

00:10:02,389 --> 00:10:00,959

yeah because there are a lot of

192

00:10:04,430 --> 00:10:02,399

ufologists

193

00:10:06,170 --> 00:10:04,440

like Robert

194

00:10:09,290 --> 00:10:06,180

who have been doing this for a very long

195

00:10:11,750 --> 00:10:09,300

time and and it's hard to just uh flip

196

00:10:14,210 --> 00:10:11,760

the switch and go okay great thank you

197

00:10:16,670 --> 00:10:14,220

for for this now because they've put

198

00:10:19,850 --> 00:10:16,680

their Heart and souls into investigating

199

00:10:21,230 --> 00:10:19,860

this stuff for 20 30 40 40 years you

200

00:10:25,490 --> 00:10:21,240

know

201

00:10:30,700 --> 00:10:28,550

no I didn't say her name

202

00:10:33,050 --> 00:10:30,710

oh you just must have a boogie

203

00:10:35,810 --> 00:10:33,060

[Laughter]

204

00:10:36,350 --> 00:10:35,820

all right well at least as well I have

205

00:10:38,449 --> 00:10:36,360

um

206

00:10:40,310 --> 00:10:38,459

so we have to anyways to finish my

207

00:10:43,190 --> 00:10:40,320

thought and what Robert touched on

208

00:10:45,710 --> 00:10:43,200

um yeah we have to

209

00:10:48,410 --> 00:10:45,720

um as long as this goes through and um

210

00:10:50,630 --> 00:10:48,420

things begin to be transparent uh

211

00:10:52,930 --> 00:10:50,640

apparently Jazz Shaw

212

00:10:55,970 --> 00:10:52,940

um thinks that um

213

00:10:58,490 --> 00:10:55,980

someone may officially

214

00:10:59,930 --> 00:10:58,500

from the government like a kind of

215

00:11:02,030 --> 00:10:59,940

higher up person

216

00:11:04,690 --> 00:11:02,040

will officially be putting extra

217

00:11:07,790 --> 00:11:04,700

terrestrial on the table

218

00:11:10,550 --> 00:11:07,800

which is I'm pretty

219

00:11:12,530 --> 00:11:10,560

again like yesterday we knew it was

220

00:11:15,410 --> 00:11:12,540

always on the table we proved that but

221

00:11:18,470 --> 00:11:15,420

it has never been public

222

00:11:19,190 --> 00:11:18,480

and that's the difference so

223

00:11:22,069 --> 00:11:19,200

um

224

00:11:24,889 --> 00:11:22,079

you know that much is neat

225

00:11:25,970 --> 00:11:24,899

how much will the public care or accept

226

00:11:26,810 --> 00:11:25,980

this

227

00:11:29,030 --> 00:11:26,820

thank you

228

00:11:30,650 --> 00:11:29,040

I don't know you know there's all sorts

229

00:11:33,769 --> 00:11:30,660

of ways to think about it some say

230

00:11:35,269 --> 00:11:33,779

that's why we need the data

231

00:11:39,829 --> 00:11:35,279

um if you listen to John Mack something

232

00:11:42,889 --> 00:11:39,839

we touched on on this past Sunday was

233

00:11:45,650 --> 00:11:42,899

um data alone may not be able to prove

234

00:11:47,690 --> 00:11:45,660

everything to people

235

00:11:49,790 --> 00:11:47,700

um you know sometimes it comes down to

236

00:11:52,129 --> 00:11:49,800

their world view

237

00:11:55,190 --> 00:11:52,139

um but at the very least hopefully we

238

00:11:58,310 --> 00:11:55,200

get the opportunity to try you know that

239

00:12:03,610 --> 00:12:00,410

so

240

00:12:05,810 --> 00:12:03,620

our best what's up

241

00:12:08,389 --> 00:12:05,820

Lord pass

242

00:12:11,090 --> 00:12:08,399

um something I wanted to say

243

00:12:13,970 --> 00:12:11,100

so I have a couple new things that are

244

00:12:20,449 --> 00:12:13,980

coming up with the show

245

00:12:24,710 --> 00:12:22,310

this sounds kind of perverted in a weird

246

00:12:28,910 --> 00:12:24,720

way I would love to get my hands on some

247

00:12:31,129 --> 00:12:28,920

hard data I'm just kidding

248

00:12:33,769 --> 00:12:31,139

on Monday nights

249

00:12:36,470 --> 00:12:33,779

I'm going to have an official and

250

00:12:38,629 --> 00:12:36,480

full-time co-host

251
00:12:42,470 --> 00:12:38,639
and that is going to be

252
00:12:46,790 --> 00:12:43,930
Quantum witch

253
00:12:50,449 --> 00:12:46,800
Quantum Witch is going to be an official

254
00:12:52,610 --> 00:12:50,459
Monday night co-host with me

255
00:12:55,009 --> 00:12:52,620
so that's her

256
00:12:56,329 --> 00:12:55,019
Priscilla Stone every Monday night well

257
00:12:59,269 --> 00:12:56,339
you know unless something comes up or

258
00:13:02,090 --> 00:12:59,279
whatever uh she'll be here with me

259
00:13:06,350 --> 00:13:02,100
uh for the show she is an official

260
00:13:08,329 --> 00:13:06,360
co-host so that is awesome I don't know

261
00:13:10,310 --> 00:13:08,339
what official means really but

262
00:13:11,930 --> 00:13:10,320
official

263
00:13:12,829 --> 00:13:11,940

and I'm so much looking forward to that

264

00:13:14,389 --> 00:13:12,839

because

265

00:13:16,009 --> 00:13:14,399

um I really wanted to spice things up

266

00:13:19,069 --> 00:13:16,019

with different personalities and people

267

00:13:22,190 --> 00:13:19,079

that I appreciate and like care about so

268

00:13:24,769 --> 00:13:22,200

um she is one of them

269

00:13:29,389 --> 00:13:24,779

and on Wednesdays

270

00:13:31,009 --> 00:13:29,399

we have a another official co-host

271

00:13:37,610 --> 00:13:31,019

a different one

272

00:13:41,449 --> 00:13:39,650

so that is pretty cool so we have

273

00:13:43,490 --> 00:13:41,459

Priscilla on Mondays and J Christopher

274

00:13:45,530 --> 00:13:43,500

King on Wednesdays

275

00:13:48,170 --> 00:13:45,540

um that will start next week I believe

276

00:13:52,310 --> 00:13:48,180

so uh we're gonna give that a try bring

277

00:13:54,590 --> 00:13:52,320

in in some new faces uh more often and

278

00:13:57,350 --> 00:13:54,600

yeah spice things up a little bit get

279

00:14:01,069 --> 00:13:57,360

more faces on the screen because you

280

00:14:03,769 --> 00:14:01,079

know what as much as I like doing the

281

00:14:07,860 --> 00:14:05,990

I have to admit

282

00:14:14,150 --> 00:14:07,870

I was always better with a band

283

00:14:17,870 --> 00:14:16,730

so yeah I'm psyched too man that'll be

284

00:14:21,170 --> 00:14:17,880

cool

285

00:14:23,990 --> 00:14:21,180

and so you know Wednesdays the timing

286

00:14:24,829 --> 00:14:24,000

might uh fluctuate it depends like you

287

00:14:26,389 --> 00:14:24,839

know

288

00:14:28,670 --> 00:14:26,399

I'm gonna try to do the six o'clock

289

00:14:31,430 --> 00:14:28,680

thing but just like yesterday six

290

00:14:33,170 --> 00:14:31,440

o'clock was was kind of challenging with

291

00:14:36,050 --> 00:14:33,180

the schedule with one car and the wife

292

00:14:37,610 --> 00:14:36,060

so we'll see how that goes but uh hoping

293

00:14:39,769 --> 00:14:37,620

to stick definitely six o'clock on

294

00:14:41,090 --> 00:14:39,779

Monday nights uh Wednesday night

295

00:14:43,910 --> 00:14:41,100

flip-flop

296

00:14:46,189 --> 00:14:43,920

more likely might be back to 130s and I

297

00:14:47,750 --> 00:14:46,199

still got to find you know the rest will

298

00:14:50,689 --> 00:14:47,760

probably just kind of be ad-libbed like

299

00:14:52,069 --> 00:14:50,699

like today was I guess I don't know so

300

00:14:54,470 --> 00:14:52,079

anyways

301
00:14:57,590 --> 00:14:54,480
um the other thing I wanted to mention

302
00:15:02,210 --> 00:15:00,590
or bring up so to speak

303
00:15:06,050 --> 00:15:02,220
is

304
00:15:07,550 --> 00:15:06,060
a new UAP case that um black fault

305
00:15:11,990 --> 00:15:07,560
actually

306
00:15:13,970 --> 00:15:12,000
uncovered which is pretty neat you know

307
00:15:15,829 --> 00:15:13,980
as much as people give them crap I give

308
00:15:20,329 --> 00:15:15,839
give them crap by the way you know

309
00:15:23,210 --> 00:15:20,339
covered ASAP and all that stuff like um

310
00:15:25,129 --> 00:15:23,220
this is a perfect example of why he does

311
00:15:28,009 --> 00:15:25,139
a good job

312
00:15:29,990 --> 00:15:28,019
and that's pretty cool

313
00:15:32,150 --> 00:15:30,000

Eve voyed it got this internal Navy

314

00:15:36,110 --> 00:15:32,160

document it reveals previously unknown

315

00:15:38,689 --> 00:15:36,120

UFO UAP encounter by F-18 pilot and

316

00:15:40,370 --> 00:15:38,699

Senate staffers were briefed which also

317

00:15:42,769 --> 00:15:40,380

might

318

00:15:46,249 --> 00:15:42,779

um you know fill us in on why what we

319

00:15:47,569 --> 00:15:46,259

looked at earlier is you know getting so

320

00:15:50,810 --> 00:15:47,579

much Headway

321

00:15:55,790 --> 00:15:52,790

um Team please see below can you please

322

00:15:57,769 --> 00:15:55,800

check into I notice previous Ola weekly

323

00:15:59,810 --> 00:15:57,779

there was a brief to some staffers on a

324

00:16:02,749 --> 00:15:59,820

similar sounding program off as happy to

325

00:16:06,350 --> 00:16:02,759

blah blah a new encounter revealed here

326
00:16:09,170 --> 00:16:06,360
it is anomalous aerial vehicle encounter

327
00:16:13,790 --> 00:16:09,180
uh brief

328
00:16:15,650 --> 00:16:13,800
on 16 January f a 18 pilot from vfa 103

329
00:16:18,470 --> 00:16:15,660
met

330
00:16:22,569 --> 00:16:20,030
um they have continuing interest in

331
00:16:25,490 --> 00:16:22,579
unidentified air aerial vehicle

332
00:16:28,389 --> 00:16:25,500
intercepts that have occurred in the

333
00:16:31,550 --> 00:16:28,399
working airspace of the U.S east coast

334
00:16:34,790 --> 00:16:31,560
and blank gave a detailed brief on his

335
00:16:37,249 --> 00:16:34,800
personal encounter so

336
00:16:39,829 --> 00:16:37,259
we have somebody giving a brief

337
00:16:41,870 --> 00:16:39,839
on their encounter

338
00:16:44,810 --> 00:16:41,880

which is good that they're listening to

339

00:16:50,509 --> 00:16:46,370

um

340

00:16:55,069 --> 00:16:50,519

and the interesting part to me is

341

00:16:58,850 --> 00:16:55,079

unidentified aerial vehicle intercepts

342

00:17:08,029 --> 00:17:06,110

so intercepts are being had y'all

343

00:17:10,130 --> 00:17:08,039

interesting

344

00:17:13,069 --> 00:17:10,140

you know Robert and I again covered that

345

00:17:15,470 --> 00:17:13,079

was happening in the in 52 but

346

00:17:17,689 --> 00:17:15,480

apparently uh that had to stop for like

347

00:17:19,549 --> 00:17:17,699

safety reasons so they're here doing

348

00:17:22,069 --> 00:17:19,559

this again and Robert makes the point

349

00:17:22,970 --> 00:17:22,079

aav is mentioned

350

00:17:25,370 --> 00:17:22,980

um

351
00:17:27,829 --> 00:17:25,380
you know I I don't know that they're all

352
00:17:29,330 --> 00:17:27,839
very consistent or Care What They're

353
00:17:31,130 --> 00:17:29,340
calling it at this point it seems like

354
00:17:35,570 --> 00:17:31,140
because in the next sentence they call

355
00:17:37,730 --> 00:17:35,580
it unidentified aerial vehicle

356
00:17:40,789 --> 00:17:37,740
so we have anomalous and unidentified

357
00:17:41,870 --> 00:17:40,799
one's got capital letters the other does

358
00:17:44,770 --> 00:17:41,880
not

359
00:17:47,570 --> 00:17:44,780
uh what is interesting though

360
00:17:49,130 --> 00:17:47,580
is yeah band magic just can't be

361
00:17:52,370 --> 00:17:49,140
replaced

362
00:17:54,470 --> 00:17:52,380
good point what's interesting though is

363
00:17:57,590 --> 00:17:54,480

aav

364

00:18:00,409 --> 00:17:57,600

and encounter e is all capitalized so I

365

00:18:05,450 --> 00:18:00,419

wonder if aave would be something that

366

00:18:09,289 --> 00:18:07,610

seems like that would be an acronym that

367

00:18:12,049 --> 00:18:09,299

exists otherwise why would they

368

00:18:13,730 --> 00:18:12,059

capitalize encounter

369

00:18:15,950 --> 00:18:13,740

right

370

00:18:18,909 --> 00:18:15,960

very interesting so it's a Strike

371

00:18:23,510 --> 00:18:18,919

Fighter Squadron vfa 103

372

00:18:27,650 --> 00:18:26,210

so then he goes into

373

00:18:29,990 --> 00:18:27,660

um you can check this story out for

374

00:18:32,029 --> 00:18:30,000

yourself if you'd like

375

00:18:34,430 --> 00:18:32,039

he's got the document there that you can

376

00:18:35,870 --> 00:18:34,440

just

377

00:18:37,250 --> 00:18:35,880

um you can download the document look

378

00:18:38,270 --> 00:18:37,260

for yourself most of it's blacked out

379

00:18:39,710 --> 00:18:38,280

but

380

00:18:42,049 --> 00:18:39,720

um there is

381

00:18:44,390 --> 00:18:42,059

kind of a couple more interesting little

382

00:18:47,210 --> 00:18:44,400

tidbits in that

383

00:18:49,549 --> 00:18:47,220

um release that

384

00:18:51,409 --> 00:18:49,559

you know he didn't cover maybe for a

385

00:18:53,330 --> 00:18:51,419

couple reasons Maybe

386

00:18:54,830 --> 00:18:53,340

you know that's not his audience or

387

00:18:56,210 --> 00:18:54,840

whatever

388

00:18:58,070 --> 00:18:56,220

um but I found it very interesting

389

00:18:59,630 --> 00:18:58,080

considering what we talk about on this

390

00:19:06,409 --> 00:18:59,640

show

391

00:19:11,930 --> 00:19:09,289

um this one we've talked about this on a

392

00:19:14,390 --> 00:19:11,940

show a while ago you have to be a member

393

00:19:17,510 --> 00:19:14,400

now to see that show but it was about

394

00:19:20,390 --> 00:19:17,520

Locust swarms

395

00:19:23,630 --> 00:19:20,400

technology like literally this was a

396

00:19:27,950 --> 00:19:23,640

couple months ago we covered Locust

397

00:19:37,070 --> 00:19:31,850

who who can give me a here on that

398

00:19:43,310 --> 00:19:40,190

we went through the whole paper

399

00:19:45,830 --> 00:19:43,320

that they wrote about it

400

00:19:48,110 --> 00:19:45,840

and so here it is in the paper by the

401
00:19:48,529 --> 00:19:48,120
way it came out a couple years ago

402
00:19:51,230 --> 00:19:48,539
[Music]

403
00:19:55,610 --> 00:19:53,450
so here it is and their emails coming up

404
00:20:01,010 --> 00:19:55,620
UAB swarming technology

405
00:20:02,750 --> 00:20:01,020
Sue that is pretty interesting

406
00:20:04,789 --> 00:20:02,760
so I thought I'd bring that up I'm not

407
00:20:06,470 --> 00:20:04,799
relating that to any of the UAB stuff

408
00:20:08,570 --> 00:20:06,480
just so you know

409
00:20:11,570 --> 00:20:08,580
this is just a line item I thought was

410
00:20:14,930 --> 00:20:11,580
very interesting because

411
00:20:16,610 --> 00:20:14,940
I did that video on Locust UAB swarming

412
00:20:19,490 --> 00:20:16,620
technology

413
00:20:23,110 --> 00:20:19,500

so maybe a boy is a little more clued in

414

00:20:23,120 --> 00:20:27,020

thank you

415

00:20:33,289 --> 00:20:29,270

[Music]

416

00:20:35,810 --> 00:20:33,299

and the other one is

417

00:20:37,370 --> 00:20:35,820

you wonder we are seeing committees from

418

00:20:39,409 --> 00:20:37,380

Congress when they are getting these

419

00:20:41,149 --> 00:20:39,419

briefings and this is the

420

00:20:42,710 --> 00:20:41,159

only one that has been recently

421

00:20:44,510 --> 00:20:42,720

uncovered how many more briefings have

422

00:20:47,270 --> 00:20:44,520

they seen I'm sure

423

00:20:49,190 --> 00:20:47,280

I'm sure a lot more considering

424

00:20:50,750 --> 00:20:49,200

um

425

00:20:52,190 --> 00:20:50,760

you know that certain people even said

426

00:20:54,470 --> 00:20:52,200

these things were like an everyday

427

00:20:57,289 --> 00:20:54,480

occurrence

428

00:20:59,930 --> 00:20:57,299

I think I heard a clip from what was it

429

00:21:02,210 --> 00:20:59,940

Elizondo or something six times a day

430

00:21:03,890 --> 00:21:02,220

sometimes

431

00:21:08,149 --> 00:21:03,900

um so

432

00:21:08,159 --> 00:21:13,250

I'm sure it did get more

433

00:21:18,710 --> 00:21:16,310

and if there was one more

434

00:21:20,870 --> 00:21:18,720

I wanted to

435

00:21:26,890 --> 00:21:20,880

hopefully that's a real one nope this is

436

00:21:32,990 --> 00:21:28,610

choo

437

00:21:39,909 --> 00:21:33,000

here it is okay okay okay okay we got it

438

00:21:39,919 --> 00:21:45,010

God damn it

439

00:21:51,470 --> 00:21:47,090

oh man

440

00:21:56,830 --> 00:21:53,690

oh we'll try this one

441

00:22:00,890 --> 00:21:59,330

this is like a joke

442

00:22:02,270 --> 00:22:00,900

I'm just gonna have to delete the other

443

00:22:06,049 --> 00:22:02,280

one so I don't go through this crap

444

00:22:13,250 --> 00:22:08,270

all right here it is

445

00:22:15,470 --> 00:22:13,260

um hypersonics brief n a s-c-i

446

00:22:18,049 --> 00:22:15,480

15th of January

447

00:22:20,630 --> 00:22:18,059

Hypersonic threats

448

00:22:21,890 --> 00:22:20,640

and then we also have a directed energy

449

00:22:32,029 --> 00:22:21,900

brief

450

00:22:35,090 --> 00:22:32,039

I'm just bringing that up because we've

451
00:22:37,549 --> 00:22:35,100
also touched on these things too n n a s

452
00:22:39,049 --> 00:22:37,559
i c

453
00:22:41,149 --> 00:22:39,059
um

454
00:22:42,470 --> 00:22:41,159
I'm not sure if it was that one or a

455
00:22:49,190 --> 00:22:42,480
different one I get confused sometimes

456
00:22:55,010 --> 00:22:51,950
so

457
00:22:56,930 --> 00:22:55,020
um yeah what else were we going to cover

458
00:23:01,130 --> 00:22:56,940
here

459
00:23:07,250 --> 00:23:02,990
um yeah we've pretty much covered all of

460
00:23:07,260 --> 00:23:12,649
what we could do

461
00:23:18,730 --> 00:23:14,990
is I could show you something that I

462
00:23:24,789 --> 00:23:21,830
Grandmaster will love this and it's kind

463
00:23:35,090 --> 00:23:29,570

slide nine

464

00:23:37,250 --> 00:23:35,100

familiar with slide9

465

00:23:41,090 --> 00:23:37,260

you might get a freaking kick out of

466

00:23:41,100 --> 00:23:50,149

so I found this today

467

00:23:54,470 --> 00:23:51,590

um if you're not familiar with slide 9

468

00:23:56,090 --> 00:23:54,480

that is a slide that was found on

469

00:23:58,310 --> 00:23:56,100

Christopher melon's website basically

470

00:23:59,990 --> 00:23:58,320

about the one of atip slides it was

471

00:24:01,549 --> 00:24:00,000

slide nine and it had to do with the

472

00:24:04,130 --> 00:24:01,559

human

473

00:24:06,649 --> 00:24:04,140

um cognitive interface basically and a

474

00:24:08,630 --> 00:24:06,659

lot of it's like a psych psychological

475

00:24:10,789 --> 00:24:08,640

uh things

476

00:24:12,950 --> 00:24:10,799

and so I found this paper

477

00:24:15,590 --> 00:24:12,960

research report human cognitive

478

00:24:18,289 --> 00:24:15,600

enhancement ethical implications for

479

00:24:24,169 --> 00:24:18,299

Airman machine teaming

480

00:24:31,610 --> 00:24:27,470

a couple of the

481

00:24:33,289 --> 00:24:31,620

basically what it talks about is

482

00:24:38,930 --> 00:24:33,299

uh forming

483

00:24:45,049 --> 00:24:42,250

so what I want to do here we go okay

484

00:24:46,730 --> 00:24:45,059

abstracts advancements in human brain

485

00:24:48,529 --> 00:24:46,740

research and Neuroscience offer great

486

00:24:50,029 --> 00:24:48,539

promise for future joint or fighting

487

00:24:52,730 --> 00:24:50,039

capabilities as the National Security

488

00:24:54,649 --> 00:24:52,740

environment grows in complexity weapon

489

00:24:57,470 --> 00:24:54,659

system designs must advance to provide

490

00:24:59,210 --> 00:24:57,480

the United States joint Warfare War

491

00:25:01,789 --> 00:24:59,220

Fighters and capabilities to counter

492

00:25:04,370 --> 00:25:01,799

increasingly challenging adverse threats

493

00:25:06,950 --> 00:25:04,380

it is hypothesized that by the year 2030

494

00:25:09,890 --> 00:25:06,960

human system operators will be

495

00:25:11,930 --> 00:25:09,900

cognitively challenged to keep Pace with

496

00:25:15,350 --> 00:25:11,940

the demands of the most advanced weapon

497

00:25:17,930 --> 00:25:15,360

system designs yes because they work on

498

00:25:20,570 --> 00:25:17,940

basically the speed of light some are

499

00:25:22,730 --> 00:25:20,580

calling for the adoption of human

500

00:25:26,330 --> 00:25:22,740

cognitive enhancement coupled with

501
00:25:29,330 --> 00:25:26,340
flexible autonomy forming human machine

502
00:25:30,710 --> 00:25:29,340
teams as a means to address challenges

503
00:25:33,110 --> 00:25:30,720
to the United States technical

504
00:25:35,029 --> 00:25:33,120
superiority while human cognitive

505
00:25:36,649 --> 00:25:35,039
enhancement May hold promise the

506
00:25:39,590 --> 00:25:36,659
practice also raises questions and

507
00:25:41,230 --> 00:25:39,600
concerns and they go into that ethical

508
00:25:44,210 --> 00:25:41,240
stuff some

509
00:25:47,390 --> 00:25:44,220
theoreticians go so far as to Envision

510
00:25:49,669 --> 00:25:47,400
Dynamic cognitive coupling of human

511
00:25:52,850 --> 00:25:49,679
system operators with flexible

512
00:25:55,730 --> 00:25:52,860
autonomous machines via brain computer

513
00:25:59,630 --> 00:25:55,740

interfaces

514

00:26:02,990 --> 00:25:59,640

the resultant human machine team is

515

00:26:05,570 --> 00:26:03,000

Air Force vision for Airman machine

516

00:26:07,730 --> 00:26:05,580

teaming

517

00:26:10,370 --> 00:26:07,740

control of lethal Force demands special

518

00:26:11,750 --> 00:26:10,380

attention okay

519

00:26:17,269 --> 00:26:11,760

so

520

00:26:22,310 --> 00:26:20,570

DOD anticipates The Joint Warfighter

521

00:26:24,470 --> 00:26:22,320

human system operator will be confronted

522

00:26:27,529 --> 00:26:24,480

with challenges the cognitive function

523

00:26:29,210 --> 00:26:27,539

Beyond normal human capabilities

524

00:26:31,610 --> 00:26:29,220

has envisioned these future challenges

525

00:26:33,890 --> 00:26:31,620

to human cognitive capabilities we'll

526
00:26:36,890 --> 00:26:33,900
Eclipse that which generally considered

527
00:26:38,930 --> 00:26:36,900
natural human capacity while future Wars

528
00:26:40,730 --> 00:26:38,940
will continue to feature battles of

529
00:26:42,950 --> 00:26:40,740
physical Feats the multi-domain battle

530
00:26:45,710 --> 00:26:42,960
space of the future will expand to

531
00:26:46,970 --> 00:26:45,720
include competition within a new mental

532
00:26:48,590 --> 00:26:46,980
sphere

533
00:26:51,769 --> 00:26:48,600
dimension

534
00:26:54,830 --> 00:26:51,779
a cognitive machine space seeking to

535
00:27:05,930 --> 00:26:54,840
establish cognitive supremacy of shared

536
00:27:12,070 --> 00:27:08,330
is Warfare evolves unpredictably with

537
00:27:13,930 --> 00:27:12,080
chaos and complex complexes complexity

538
00:27:16,310 --> 00:27:13,940

increasingly defining the future

539

00:27:18,350 --> 00:27:16,320

multi-domain domain battle space

540

00:27:19,970 --> 00:27:18,360

discoveries associated with neuroscience

541

00:27:22,730 --> 00:27:19,980

and advancements in neurotechnology

542

00:27:26,029 --> 00:27:22,740

offer promise for maintaining U.S war

543

00:27:28,370 --> 00:27:26,039

fighting competitive advantage

544

00:27:30,169 --> 00:27:28,380

Neuroscience is focused on Unlocking The

545

00:27:31,490 --> 00:27:30,179

Mysteries of the human brain according

546

00:27:33,590 --> 00:27:31,500

to society from Neuroscience

547

00:27:35,389 --> 00:27:33,600

neuroscientists are focused on gaining a

548

00:27:37,490 --> 00:27:35,399

better understanding the complexities

549

00:27:39,529 --> 00:27:37,500

associated with the human brain and for

550

00:27:42,470 --> 00:27:39,539

uncovering the secrets to unleash the

551
00:27:44,090 --> 00:27:42,480
full potential of humankind it is the

552
00:27:46,610 --> 00:27:44,100
view of neuroscientists that the human

553
00:27:50,690 --> 00:27:46,620
brain is more Computing capacity than a

554
00:27:58,070 --> 00:27:54,649
capabilities of course valued by U.S war

555
00:27:58,080 --> 00:28:05,169
foreign

556
00:28:09,350 --> 00:28:07,789
to understand the mental complexion of

557
00:28:11,450 --> 00:28:09,360
the human mind our ability to shape

558
00:28:14,029 --> 00:28:11,460
thoughts beliefs hopes dreams and

559
00:28:16,310 --> 00:28:14,039
imaginations

560
00:28:19,070 --> 00:28:16,320
from cognitive enhancement perspective

561
00:28:20,570 --> 00:28:19,080
Neuroscience is concerned as much with

562
00:28:22,909 --> 00:28:20,580
understanding the capabilities and

563
00:28:25,010 --> 00:28:22,919

functions of the brain and if not more

564

00:28:28,930 --> 00:28:25,020

so gaining an understanding of the inner

565

00:28:35,450 --> 00:28:33,409

uh in the early 1970s DARPA got involved

566

00:28:37,430 --> 00:28:35,460

and first funded the development of

567

00:28:39,710 --> 00:28:37,440

neurotechnology in the form of a brain

568

00:28:42,169 --> 00:28:39,720

computer interface

569

00:28:44,630 --> 00:28:42,179

that's interesting

570

00:28:46,430 --> 00:28:44,640

it is noted that darpa's interests in

571

00:28:48,230 --> 00:28:46,440

advancing neurotechnology and supportive

572

00:28:50,090 --> 00:28:48,240

Warfighter applications has grown so

573

00:28:51,950 --> 00:28:50,100

steadily ever since so if they were

574

00:28:55,310 --> 00:28:51,960

doing that in the 70s

575

00:29:01,010 --> 00:28:58,970

in 2015 no fewer than 30 000 scientists

576
00:29:02,690 --> 00:29:01,020
and Industry professionals gathered in

577
00:29:04,850 --> 00:29:02,700
Chicago for the annual Society of

578
00:29:07,130 --> 00:29:04,860
Neuroscience conference brain function

579
00:29:11,690 --> 00:29:07,140
and cognitive enhancement were hot

580
00:29:15,769 --> 00:29:14,029
we get big data enhanced Diagnostics and

581
00:29:17,450 --> 00:29:15,779
treatment spring computer interfaces for

582
00:29:20,269 --> 00:29:17,460
device control real-time neural

583
00:29:22,789 --> 00:29:20,279
monitoring plus robotic AIDS neural

584
00:29:25,549 --> 00:29:22,799
sensor based vehicle operator systems

585
00:29:27,409 --> 00:29:25,559
cognitive training video games brain

586
00:29:30,889 --> 00:29:27,419
responsive Computing system virtual

587
00:29:32,409 --> 00:29:30,899
reality treatments mindful wearables

588
00:29:35,049 --> 00:29:32,419

interesting

589

00:29:37,909 --> 00:29:35,059

collaborative cognitive simulations

590

00:29:42,350 --> 00:29:37,919

electrical and magnetic brains

591

00:29:45,649 --> 00:29:44,450

um so this is a pretty long one and

592

00:29:48,769 --> 00:29:45,659

we're only on

593

00:29:50,690 --> 00:29:48,779

page nine there

594

00:29:57,190 --> 00:29:50,700

so

595

00:29:57,200 --> 00:30:01,909

well what it um

596

00:30:07,730 --> 00:30:04,490

rumor ET will officially be on the table

597

00:30:12,830 --> 00:30:07,740

Yeah well there was um I think it was

598

00:30:13,370 --> 00:30:12,840

I think it was uh Jazz Shaw I hinted at

599

00:30:16,730 --> 00:30:13,380

um

600

00:30:18,350 --> 00:30:16,740

he doesn't know for sure but I think he

601
00:30:21,230 --> 00:30:18,360
said that

602
00:30:24,110 --> 00:30:21,240
there may be a pretty big representative

603
00:30:27,409 --> 00:30:24,120
or individual putting

604
00:30:31,490 --> 00:30:27,419
you know with the government putting E.T

605
00:30:36,769 --> 00:30:31,500
on the table for the very

606
00:30:36,779 --> 00:30:45,230
so that is what that's a

607
00:30:51,310 --> 00:30:47,810
problem um what I'm gonna do here before

608
00:30:58,549 --> 00:30:56,330
is share this paper with you

609
00:31:01,730 --> 00:30:58,559
so you can

610
00:31:05,990 --> 00:31:03,649
bam

611
00:31:09,830 --> 00:31:06,000
yes so that would be that would be

612
00:31:09,840 --> 00:31:14,509
uh ET on the table officially

613
00:31:19,009 --> 00:31:16,370

you know hopefully that

614

00:31:21,529 --> 00:31:19,019

yeah it's been long enough man you know

615

00:31:23,690 --> 00:31:21,539

we've just covered that

616

00:31:25,130 --> 00:31:23,700

you know buying closed doors it's been

617

00:31:29,389 --> 00:31:25,140

on the table since

618

00:31:30,649 --> 00:31:29,399

you know 52 at least probably 47 earlier

619

00:31:35,810 --> 00:31:30,659

you know

620

00:31:41,090 --> 00:31:38,870

then we have another co-sponsor of the

621

00:31:42,529 --> 00:31:41,100

bill thanks Darren

622

00:31:44,149 --> 00:31:42,539

awesome

623

00:31:45,950 --> 00:31:44,159

Dean Johnson updated if you don't follow

624

00:31:50,110 --> 00:31:45,960

Dean Johnson on Twitter he's been giving

625

00:31:50,509 --> 00:31:50,120

great reliable updates on this amendment

626

00:31:51,649 --> 00:31:50,519

[Music]

627

00:31:53,930 --> 00:31:51,659

um

628

00:31:58,070 --> 00:31:53,940

so he's a great person to Twitter I mean

629

00:32:03,049 --> 00:32:01,009

he's been reliably informed that Senator

630

00:32:05,090 --> 00:32:03,059

really blunt as co-sponsored to

631

00:32:07,490 --> 00:32:05,100

gillibrand Rubio Hendrick UAP Amendment

632

00:32:11,450 --> 00:32:07,500

this thing's gonna pass

633

00:32:11,460 --> 00:32:16,070

you know there are

634

00:32:20,450 --> 00:32:18,230

like when it's bipartisan like that

635

00:32:26,330 --> 00:32:20,460

which is

636

00:32:30,769 --> 00:32:27,250

um

637

00:32:32,810 --> 00:32:30,779

it's it's gonna pass and it continues to

638

00:32:34,970 --> 00:32:32,820

be bipartisan and now the interesting

639

00:32:36,769 --> 00:32:34,980

thing is people don't want to

640

00:32:39,409 --> 00:32:36,779

people aren't going to want to blow that

641

00:32:41,930 --> 00:32:39,419

off and say oh he wasn't working with us

642

00:32:49,190 --> 00:32:45,889

you keep put politics before this crap

643

00:32:54,769 --> 00:32:49,200

you know so I I mean I think I think

644

00:32:54,779 --> 00:32:59,870

that's a uh man Darren great

645

00:33:06,529 --> 00:33:04,370

there's very very very helpful a member

646

00:33:07,610 --> 00:33:06,539

of both Senate and select committee on

647

00:33:13,730 --> 00:33:07,620

intelligence and the Senate

648

00:33:17,870 --> 00:33:15,470

I still don't think of CT showing but

649

00:33:21,590 --> 00:33:17,880

something down here unknown or forgotten

650

00:33:25,370 --> 00:33:21,600

about for a long time maybe maybe not

651
00:33:28,070 --> 00:33:25,380
you know I can't really say end

652
00:33:31,490 --> 00:33:28,080
really who are any of us to say

653
00:33:34,909 --> 00:33:31,500
and I think at least in the preliminary

654
00:33:38,990 --> 00:33:37,549
um they hinted at you know more than one

655
00:33:41,450 --> 00:33:39,000
thing whether that means you know

656
00:33:43,850 --> 00:33:41,460
foreign drones are interdimensional or

657
00:33:45,470 --> 00:33:43,860
you know ET or whatever they they

658
00:33:47,269 --> 00:33:45,480
definitely hinted that there was more

659
00:33:50,630 --> 00:33:47,279
than one thing going on and I think that

660
00:33:52,970 --> 00:33:50,640
makes a load of sense

661
00:33:54,889 --> 00:33:52,980
you know going back to our show um

662
00:33:56,930 --> 00:33:54,899
Robert and I did yesterday

663
00:33:58,549 --> 00:33:56,940

uh we talked about the differences in

664

00:34:00,950 --> 00:33:58,559

terminology

665

00:34:03,950 --> 00:34:00,960

and how at at some points they were

666

00:34:06,169 --> 00:34:03,960

calling it just uh aerial phenomenon you

667

00:34:09,530 --> 00:34:06,179

know or in other points they would call

668

00:34:11,810 --> 00:34:09,540

it unidentified object you know

669

00:34:14,270 --> 00:34:11,820

um and that could be

670

00:34:16,430 --> 00:34:14,280

because there's two different things

671

00:34:20,089 --> 00:34:16,440

like what I saw

672

00:34:21,589 --> 00:34:20,099

um I never see an actual physical thing

673

00:34:23,210 --> 00:34:21,599

you know

674

00:34:24,829 --> 00:34:23,220

oh which I had a sighting this morning

675

00:34:26,149 --> 00:34:24,839

which is pretty

676

00:34:28,909 --> 00:34:26,159

um

677

00:34:31,069 --> 00:34:28,919

one of the more interesting ones I would

678

00:34:33,710 --> 00:34:31,079

have to say is 5 50 in the morning

679

00:34:36,230 --> 00:34:33,720

looking at Lake Michigan get out of my

680

00:34:37,609 --> 00:34:36,240

car smoke a cigarette I see something

681

00:34:40,490 --> 00:34:37,619

coming at me

682

00:34:43,069 --> 00:34:40,500

and it's like um have you ever you know

683

00:34:45,710 --> 00:34:43,079

those of you watch this guy

684

00:34:47,810 --> 00:34:45,720

you know a plane's coming at you right

685

00:34:49,430 --> 00:34:47,820

and it's got the big bright light well

686

00:34:51,109 --> 00:34:49,440

at first before you start really getting

687

00:34:53,389 --> 00:34:51,119

used to this guy you're like wow what is

688

00:34:54,889 --> 00:34:53,399

that when every time it's oh that's a

689

00:34:57,589 --> 00:34:54,899

plane it's just coming right at you with

690

00:35:00,170 --> 00:34:57,599

the big light so

691

00:35:02,390 --> 00:35:00,180

um looking towards the lake and I see a

692

00:35:05,450 --> 00:35:02,400

big bright light coming straight at me

693

00:35:06,050 --> 00:35:05,460

that reminded me of that

694

00:35:09,589 --> 00:35:06,060

um

695

00:35:11,089 --> 00:35:09,599

but I just had an eerie feeling because

696

00:35:12,530 --> 00:35:11,099

um I've never seen planes go in that

697

00:35:15,770 --> 00:35:12,540

direction there

698

00:35:18,410 --> 00:35:15,780

so I turned around to get my phone right

699

00:35:20,690 --> 00:35:18,420

to just get it out to video it or

700

00:35:24,230 --> 00:35:20,700

whatever and the

701

00:35:25,730 --> 00:35:24,240

if my car was right there so it I don't

702

00:35:27,589 --> 00:35:25,740

know it took a second two seconds or

703

00:35:29,510 --> 00:35:27,599

whatever to get my phone and I turned

704

00:35:30,829 --> 00:35:29,520

around and the thing is gone so I'll

705

00:35:32,990 --> 00:35:30,839

tell you right now if that was a plane

706

00:35:35,450 --> 00:35:33,000

that wouldn't be the case it would still

707

00:35:38,750 --> 00:35:35,460

be going in that direction

708

00:35:40,910 --> 00:35:38,760

but it wasn't there it was gone

709

00:35:42,770 --> 00:35:40,920

I look up you know I'm like what the

710

00:35:44,810 --> 00:35:42,780

hell where the hell did that thing go

711

00:35:46,310 --> 00:35:44,820

where is it

712

00:35:49,430 --> 00:35:46,320

and

713

00:35:52,130 --> 00:35:49,440

you know it's like

714

00:35:55,069 --> 00:35:52,140

it like camouflaged in with the Stars

715

00:35:59,089 --> 00:35:55,079

except I pinpointed it out and it was

716

00:36:01,730 --> 00:35:59,099

moving jaggedly like like this and then

717

00:36:03,530 --> 00:36:01,740

all of a sudden it would go like like a

718

00:36:05,750 --> 00:36:03,540

90 degree angle and then go back to like

719

00:36:07,849 --> 00:36:05,760

jaggedly or fly around in circles or

720

00:36:10,130 --> 00:36:07,859

straight down like all within this

721

00:36:12,349 --> 00:36:10,140

little confined space

722

00:36:13,730 --> 00:36:12,359

um and when I was looking at it I put my

723

00:36:18,109 --> 00:36:13,740

eye up to like

724

00:36:20,329 --> 00:36:18,119

the car like closed one eye and looked

725

00:36:21,890 --> 00:36:20,339

like on a straight edge of the car and

726

00:36:24,470 --> 00:36:21,900

just kept it there and looked at the

727

00:36:26,329 --> 00:36:24,480

thing to make sure that it like I wasn't

728

00:36:28,010 --> 00:36:26,339

just playing tricks on it because I

729

00:36:31,670 --> 00:36:28,020

could sorry I could see the distance of

730

00:36:33,470 --> 00:36:31,680

it from the car you know and no sure

731

00:36:35,510 --> 00:36:33,480

it was it was moving and it was

732

00:36:38,030 --> 00:36:35,520

literally doing that stuff and it was

733

00:36:39,770 --> 00:36:38,040

crazy because it didn't stop but my

734

00:36:44,150 --> 00:36:39,780

phone wouldn't couldn't even get close

735

00:36:46,670 --> 00:36:44,160

to capturing the thing you know so

736

00:36:50,329 --> 00:36:49,010

yeah that was a pretty intense I wish I

737

00:36:52,550 --> 00:36:50,339

wouldn't have freaking turned around to

738

00:36:54,349 --> 00:36:52,560

get my phone because if I wouldn't have

739

00:36:58,250 --> 00:36:54,359

I might have seen that thing shoot up

740

00:37:05,270 --> 00:37:01,609

man yeah that was a crazy one

741

00:37:05,280 --> 00:37:13,190

that was intense uh for sure

742

00:37:16,310 --> 00:37:14,630

um and that's the second one in a week

743

00:37:18,109 --> 00:37:16,320

there at the lake the other one was not

744

00:37:20,210 --> 00:37:18,119

like that though the other one seemed

745

00:37:22,010 --> 00:37:20,220

like it went into the lake

746

00:37:26,089 --> 00:37:22,020

I don't know I don't know what that's

747

00:37:29,089 --> 00:37:26,099

about but on that note we went over all

748

00:37:31,490 --> 00:37:29,099

the good stuff so

749

00:37:33,170 --> 00:37:31,500

um this was a spontaneous stream just to

750

00:37:35,150 --> 00:37:33,180

remind you we have Priscilla Stone

751
00:37:38,870 --> 00:37:35,160
Quantum witch on Monday night's

752
00:37:41,990 --> 00:37:38,880
permanent co-host and we have uh Jake

753
00:37:45,230 --> 00:37:42,000
Christopher King permanent co-host on

754
00:37:47,569 --> 00:37:45,240
Wednesday's super excited about that

755
00:37:50,089 --> 00:37:47,579
which reminds me tomorrow we have Avi

756
00:37:52,310 --> 00:37:50,099
loab on the on the show at 6 PM central

757
00:37:55,430 --> 00:37:52,320
time uh V

758
00:37:59,390 --> 00:37:55,440
so I'm very much looking forward to that

759
00:38:01,550 --> 00:37:59,400
do not miss that that'll be awesome

760
00:38:03,349 --> 00:38:01,560
um can't wait uh the video I did with

761
00:38:05,329 --> 00:38:03,359
him last time

762
00:38:08,210 --> 00:38:05,339
I struggled to get the views I think

763
00:38:10,430 --> 00:38:08,220

sometimes the interviews that I do

764

00:38:11,030 --> 00:38:10,440

should get

765

00:38:12,890 --> 00:38:11,040

um

766

00:38:14,450 --> 00:38:12,900

hopefully tomorrow is not one of those

767

00:38:17,150 --> 00:38:14,460

but

768

00:38:19,670 --> 00:38:17,160

um I hope you are here and enjoy that

769

00:38:21,650 --> 00:38:19,680

interview because I sure do enjoy

770

00:38:22,910 --> 00:38:21,660

talking with him and there's so much

771

00:38:24,650 --> 00:38:22,920

going on

772

00:38:26,510 --> 00:38:24,660

um especially with project Galileo and

773

00:38:31,790 --> 00:38:26,520

Elizondo and melon joining and

774

00:38:33,530 --> 00:38:31,800

everything so there's a lot to discuss

775

00:38:36,170 --> 00:38:33,540

so things are moving they're moving in

776

00:38:37,250 --> 00:38:36,180

the right direction keep your head up

777

00:38:39,050 --> 00:38:37,260

um

778

00:38:41,089 --> 00:38:39,060

but you know there's also one thing that

779

00:38:43,310 --> 00:38:41,099

you can't do that's popular in sports or

780

00:38:45,230 --> 00:38:43,320

whatever you know don't celebrate before

781

00:38:47,569 --> 00:38:45,240

you get the touchdown no matter how

782

00:38:49,430 --> 00:38:47,579

close you are right so you could feel

783

00:38:50,930 --> 00:38:49,440

good

784

00:38:53,990 --> 00:38:50,940

feel positive

785

00:38:56,690 --> 00:38:54,000

but you can't stop pressure sharing

786

00:38:59,089 --> 00:38:56,700

stuff on Twitter like if you don't have

787

00:39:00,950 --> 00:38:59,099

a show how you can participate is

788

00:39:02,450 --> 00:39:00,960

sharing stuff on Twitter telling a

789

00:39:05,030 --> 00:39:02,460

friend

790

00:39:06,950 --> 00:39:05,040

um yeah you can make calls and and write

791

00:39:09,349 --> 00:39:06,960

Representatives

792

00:39:10,970 --> 00:39:09,359

um but sometimes I think even telling

793

00:39:12,710 --> 00:39:10,980

people who don't know about this stuff

794

00:39:15,050 --> 00:39:12,720

who may want to know would be better

795

00:39:17,510 --> 00:39:15,060

because the more people that know about

796

00:39:20,349 --> 00:39:17,520

this the more pressure ultimately

797

00:39:24,470 --> 00:39:20,359

um that will be applied

798

00:39:26,930 --> 00:39:24,480

but either way anything you do helps

799

00:39:28,550 --> 00:39:26,940

so with that being said I will catch

800

00:39:30,470 --> 00:39:28,560

y'all later

801
00:39:32,750 --> 00:39:30,480
y'all be good

802
00:39:34,790 --> 00:39:32,760
and we'll see you tomorrow night 6 PM

803
00:39:38,270 --> 00:39:34,800
Central

804
00:39:39,470 --> 00:39:38,280
with Avi Lopez

805
00:39:53,710 --> 00:39:39,480
here

806
00:40:09,230 --> 00:39:59,690
[Music]

807
00:40:09,240 --> 00:40:16,380
before you leave them here

808
00:40:24,400 --> 00:40:21,650
[Music]

809
00:40:32,430 --> 00:40:24,410
with me please

810
00:40:52,170 --> 00:40:46,270
[Music]

811
00:40:53,809 --> 00:40:52,180
is
