

1
00:00:05,190 --> 00:00:03,590
what's up everybody happy tuesday

2
00:00:07,269 --> 00:00:05,200
uh hope your week is going all right

3
00:00:09,270 --> 00:00:07,279
mine is going pretty well it's a busy

4
00:00:11,589 --> 00:00:09,280
week i got a lot going on i got i'm

5
00:00:15,589 --> 00:00:11,599
doing shows every day and we had the

6
00:00:17,109 --> 00:00:15,599
nuap secrecy event on friday um that i'm

7
00:00:18,390 --> 00:00:17,119
super excited about it's coming up

8
00:00:19,510 --> 00:00:18,400
pretty fast

9
00:00:23,189 --> 00:00:19,520
um

10
00:00:25,349 --> 00:00:23,199
so a lot's going on for me and for the

11
00:00:27,910 --> 00:00:25,359
uap world for sure

12
00:00:28,950 --> 00:00:27,920
um i believe i was talking to frankel a

13
00:00:32,470 --> 00:00:28,960

little bit

14

00:00:34,870 --> 00:00:32,480

and he may even have a little insight on

15

00:00:36,470 --> 00:00:34,880

why the uh science advisory committee

16

00:00:38,150 --> 00:00:36,480

wasn't included

17

00:00:39,750 --> 00:00:38,160

in the amendment so

18

00:00:40,549 --> 00:00:39,760

i'm looking forward to hearing about

19

00:00:42,630 --> 00:00:40,559

that

20

00:00:45,270 --> 00:00:42,640

and just talking to him in general seems

21

00:00:46,069 --> 00:00:45,280

like a great guy super knowledgeable um

22

00:00:49,670 --> 00:00:46,079

so

23

00:00:52,150 --> 00:00:49,680

we're gonna have a great chat and i'm

24

00:00:53,270 --> 00:00:52,160

just gonna play a little opener as i

25

00:00:55,670 --> 00:00:53,280

usually do

26

00:01:02,680 --> 00:00:55,680

and we'll be back for a

27

00:02:23,350 --> 00:01:22,990

[Music]

28

00:02:27,270 --> 00:02:25,830

so yeah i can't promote that enough

29

00:02:31,110 --> 00:02:27,280

gotta make sure people come and watch

30

00:02:32,470 --> 00:02:31,120

right uh so without further ado i'm

31

00:02:35,430 --> 00:02:32,480

going to

32

00:02:37,830 --> 00:02:35,440

bring in the man the myth the legend mr

33

00:02:39,830 --> 00:02:37,840

frick milburn how are you sir hey buddy

34

00:02:41,910 --> 00:02:39,840

it's good to be here how you doing

35

00:02:43,270 --> 00:02:41,920

pretty good yeah i'm i'm super happy

36

00:02:45,830 --> 00:02:43,280

that you're that you're on here and we

37

00:02:48,150 --> 00:02:45,840

can chat so how's your week been so far

38

00:02:49,670 --> 00:02:48,160

uh it's been okay it's been okay um but

39

00:02:51,509 --> 00:02:49,680

yeah i'm very happy to be here and i

40

00:02:54,229 --> 00:02:51,519

thank you very much for the invite

41

00:02:55,750 --> 00:02:54,239

oh man it's my pleasure yeah i saw

42

00:02:57,990 --> 00:02:55,760

um you were real sweet and said

43

00:02:59,830 --> 00:02:58,000

something nice about the article that

44

00:03:00,869 --> 00:02:59,840

christopher and i wrote for liberation

45

00:03:03,670 --> 00:03:00,879

times

46

00:03:04,550 --> 00:03:03,680

um and his site's just kicking butt too

47

00:03:07,030 --> 00:03:04,560

so

48

00:03:08,309 --> 00:03:07,040

um you know i'm always happy when when

49

00:03:10,149 --> 00:03:08,319

somebody says something like that

50

00:03:12,550 --> 00:03:10,159

because you probably know just as much

51
00:03:14,550 --> 00:03:12,560
as i do when you put in so much work and

52
00:03:15,990 --> 00:03:14,560
you know a little bit of recognition

53
00:03:19,270 --> 00:03:16,000
goes a long way

54
00:03:21,190 --> 00:03:19,280
for your um just for your attitude and

55
00:03:22,790 --> 00:03:21,200
determination so

56
00:03:25,030 --> 00:03:22,800
i really like those pieces i like your

57
00:03:26,710 --> 00:03:25,040
piece um i like christopher's pieces and

58
00:03:29,190 --> 00:03:26,720
i like the piece that bob pliskin did as

59
00:03:31,270 --> 00:03:29,200
well on um on signatures because you

60
00:03:33,110 --> 00:03:31,280
know there's the

61
00:03:34,630 --> 00:03:33,120
the uap topic i mean it's taken off

62
00:03:37,430 --> 00:03:34,640
phenomenally in terms of some really

63
00:03:39,910 --> 00:03:37,440

really good analysts podcasters bloggers

64

00:03:41,350 --> 00:03:39,920

and just contributors in general um but

65

00:03:42,710 --> 00:03:41,360

when you come across pieces like that

66

00:03:44,550 --> 00:03:42,720

and when i came across the liberation

67

00:03:46,149 --> 00:03:44,560

times website i was like wow like i want

68

00:03:47,350 --> 00:03:46,159

to be referencing um some of these

69

00:03:49,670 --> 00:03:47,360

articles because these guys are doing

70

00:03:52,070 --> 00:03:49,680

really deep dives and also that indian

71

00:03:53,589 --> 00:03:52,080

ufo researcher talking about um you know

72

00:03:55,750 --> 00:03:53,599

that the cultural differences that could

73

00:03:58,149 --> 00:03:55,760

lead um you know to uap causing a war

74

00:03:59,350 --> 00:03:58,159

between india and pakistan so

75

00:04:01,589 --> 00:03:59,360

that that's i mean i've looked at the

76

00:04:03,270 --> 00:04:01,599

india pakistan issue for for for kind of

77

00:04:04,470 --> 00:04:03,280

quite a few years but it was only

78

00:04:06,470 --> 00:04:04,480

recently in the last couple of years

79

00:04:08,630 --> 00:04:06,480

that i got on top of the the fact that

80

00:04:10,470 --> 00:04:08,640

uap might cause them to have a nuclear

81

00:04:11,910 --> 00:04:10,480

exchange and then with this guy deep

82

00:04:14,390 --> 00:04:11,920

diving on the cultural aspects was

83

00:04:15,910 --> 00:04:14,400

really fascinating on top of that

84

00:04:18,870 --> 00:04:15,920

yeah they have a very interesting

85

00:04:20,390 --> 00:04:18,880

relationship uh that's for sure and you

86

00:04:22,870 --> 00:04:20,400

know it

87

00:04:25,110 --> 00:04:22,880

seems like a tinderbox at times

88

00:04:27,350 --> 00:04:25,120

definitely with different influences

89

00:04:29,430 --> 00:04:27,360

coming in and out you know

90

00:04:31,590 --> 00:04:29,440

um so that that could be dangerous for

91

00:04:33,990 --> 00:04:31,600

sure it you know

92

00:04:37,030 --> 00:04:34,000

and that's kind of along the same lines

93

00:04:39,909 --> 00:04:37,040

why it can be dangerous for us and china

94

00:04:42,629 --> 00:04:39,919

or russia and sending off the wrong

95

00:04:45,270 --> 00:04:42,639

uh you know alarms when it may not be

96

00:04:46,469 --> 00:04:45,280

any you know anything either of us have

97

00:04:48,070 --> 00:04:46,479

to do with

98

00:04:49,590 --> 00:04:48,080

uh but

99

00:04:50,950 --> 00:04:49,600

you know look go ahead sorry i don't

100

00:04:52,870 --> 00:04:50,960

know i was just going to say i'm just

101

00:04:54,230 --> 00:04:52,880

going to add in um

102

00:04:57,030 --> 00:04:54,240

john alexander's book colonel john

103

00:04:59,590 --> 00:04:57,040

alexander ufos uh realities myths and

104

00:05:02,230 --> 00:04:59,600

conspiracies he actually visited norad

105

00:05:04,150 --> 00:05:02,240

um you know when he was a colonel and uh

106

00:05:05,510 --> 00:05:04,160

he he survived so what about the ufos

107

00:05:08,230 --> 00:05:05,520

and the guys even oh you mean like you

108

00:05:09,590 --> 00:05:08,240

know the the truck those tracks so they

109

00:05:10,790 --> 00:05:09,600

were already trying to filter them out

110

00:05:11,830 --> 00:05:10,800

because they were they didn't want to

111

00:05:13,830 --> 00:05:11,840

have a

112

00:05:17,590 --> 00:05:13,840

you know misidentification

113

00:05:20,310 --> 00:05:17,600

yeah that yeah they've i feel like

114

00:05:21,990 --> 00:05:20,320

you know ever since um

115

00:05:24,710 --> 00:05:22,000

i think it's air material command or

116

00:05:29,029 --> 00:05:24,720

whatever is you know taking over that

117

00:05:31,749 --> 00:05:29,039

whole ufo study back in the 50s

118

00:05:33,350 --> 00:05:31,759

the radar tracks have always been the

119

00:05:35,909 --> 00:05:33,360

issue you know

120

00:05:37,749 --> 00:05:35,919

whether but they never really you know

121

00:05:40,390 --> 00:05:37,759

at least in the documents that i've seen

122

00:05:42,629 --> 00:05:40,400

they they never really

123

00:05:44,870 --> 00:05:42,639

once like maybe there's a couple where

124

00:05:46,390 --> 00:05:44,880

they admit it's a real phenomenon and

125

00:05:48,070 --> 00:05:46,400

they don't know what it is otherwise

126

00:05:50,390 --> 00:05:48,080

they're always saying

127

00:05:52,710 --> 00:05:50,400

it's a balloon or like angels they call

128

00:05:55,590 --> 00:05:52,720

them like birds insects or whatever or

129

00:05:58,230 --> 00:05:55,600

you know um chaff or

130

00:05:59,909 --> 00:05:58,240

any of that stuff you know um but

131

00:06:00,870 --> 00:05:59,919

whatever they pick

132

00:06:03,670 --> 00:06:00,880

there's

133

00:06:06,150 --> 00:06:03,680

enough cases that don't fit the

134

00:06:08,629 --> 00:06:06,160

fit the bill for those things you know

135

00:06:09,909 --> 00:06:08,639

it norad i would be super interested in

136

00:06:12,150 --> 00:06:09,919

learning more about them i'm just

137

00:06:14,309 --> 00:06:12,160

starting to see them on some documents

138

00:06:15,670 --> 00:06:14,319

out of blue book um which is pretty

139

00:06:18,309 --> 00:06:15,680

interesting

140

00:06:19,670 --> 00:06:18,319

um but how about you where did you start

141

00:06:21,990 --> 00:06:19,680

with um

142

00:06:23,510 --> 00:06:22,000

you know uaps and ufos i understand you

143

00:06:25,270 --> 00:06:23,520

served in iraq so thank you very much

144

00:06:26,150 --> 00:06:25,280

for that service and i'm sure you've

145

00:06:27,990 --> 00:06:26,160

done it

146

00:06:29,670 --> 00:06:28,000

yeah small part compared to a lot of

147

00:06:33,029 --> 00:06:29,680

people but um yeah

148

00:06:34,309 --> 00:06:33,039

um i started with uap um

149

00:06:36,150 --> 00:06:34,319

well i kind of was really brought up

150

00:06:37,909 --> 00:06:36,160

with it i mean i i've got books like

151
00:06:41,270 --> 00:06:37,919
that that my ideas and my parents had

152
00:06:43,670 --> 00:06:41,280
like in the 1960s um like you know um

153
00:06:46,870 --> 00:06:43,680
sanderson uninvited visitors those types

154
00:06:48,390 --> 00:06:46,880
of things um serious ufo books um but i

155
00:06:49,510 --> 00:06:48,400
was really brought up with it and then

156
00:06:51,830 --> 00:06:49,520
um

157
00:06:53,430 --> 00:06:51,840
i in the military as well that piqued my

158
00:06:55,270 --> 00:06:53,440
interest and

159
00:06:57,189 --> 00:06:55,280
after that i kind of like left it alone

160
00:06:59,029 --> 00:06:57,199
i just read a book maybe you know a

161
00:07:00,830 --> 00:06:59,039
couple or a couple of books a year on it

162
00:07:03,510 --> 00:07:00,840
and then it was kind of um

163
00:07:05,749 --> 00:07:03,520

2000 i i really kind of started getting

164

00:07:07,270 --> 00:07:05,759

back into it and um you know the rest is

165

00:07:08,110 --> 00:07:07,280

history really since

166

00:07:10,710 --> 00:07:08,120

um

167

00:07:11,990 --> 00:07:10,720

2017 and it really kicked off with the

168

00:07:14,550 --> 00:07:12,000

new york times

169

00:07:16,629 --> 00:07:14,560

and then um oh yeah i was just gathering

170

00:07:17,909 --> 00:07:16,639

info really and just accumulating

171

00:07:19,270 --> 00:07:17,919

knowledge but then i got really really

172

00:07:21,350 --> 00:07:19,280

into it and then it took me about a year

173

00:07:23,430 --> 00:07:21,360

to write the first paper uh in terms of

174

00:07:24,629 --> 00:07:23,440

from having a concept to do it and then

175

00:07:26,150 --> 00:07:24,639

i was like no no wait because there's

176

00:07:28,309 --> 00:07:26,160

more stuff that's going to come out and

177

00:07:29,830 --> 00:07:28,319

then i picked the right time to do it

178

00:07:31,430 --> 00:07:29,840

and that was really it and i haven't

179

00:07:32,550 --> 00:07:31,440

kind of looked back from that but i i'm

180

00:07:36,469 --> 00:07:32,560

recently

181

00:07:38,950 --> 00:07:36,479

know like a lot of other people

182

00:07:40,150 --> 00:07:38,960

well yeah i know it's and people have

183

00:07:41,990 --> 00:07:40,160

their different

184

00:07:43,670 --> 00:07:42,000

chapters or times they've come in some

185

00:07:46,070 --> 00:07:43,680

people have had experiences when they're

186

00:07:48,230 --> 00:07:46,080

like six years old and ever since or

187

00:07:49,350 --> 00:07:48,240

some people have just naturally been

188

00:07:50,230 --> 00:07:49,360

interested

189

00:07:52,390 --> 00:07:50,240

since

190

00:07:53,830 --> 00:07:52,400

you know being young some

191

00:07:57,510 --> 00:07:53,840

new york times

192

00:07:59,270 --> 00:07:57,520

a lot of people i've i've realized have

193

00:08:01,270 --> 00:07:59,280

became interested during like the

194

00:08:02,309 --> 00:08:01,280

lockdowns of coronavirus and everything

195

00:08:03,430 --> 00:08:02,319

too

196

00:08:05,350 --> 00:08:03,440

um

197

00:08:08,309 --> 00:08:05,360

you know what was your what was here

198

00:08:09,270 --> 00:08:08,319

kind of did have you had an experience

199

00:08:10,469 --> 00:08:09,280

or

200

00:08:15,189 --> 00:08:10,479

yeah

201
00:08:16,309 --> 00:08:15,199
of really ready to go on that on the

202
00:08:19,350 --> 00:08:16,319
record with it i'll be happy to talk

203
00:08:21,189 --> 00:08:19,360
about it with you off the record um

204
00:08:22,150 --> 00:08:21,199
my mom's an experiencer

205
00:08:24,230 --> 00:08:22,160
um

206
00:08:26,390 --> 00:08:24,240
that's like you know missing time

207
00:08:28,469 --> 00:08:26,400
the whole the whole kind of works um

208
00:08:29,589 --> 00:08:28,479
i've had missing time but um i'll be

209
00:08:31,350 --> 00:08:29,599
happy to talk about off the record i'm

210
00:08:32,389 --> 00:08:31,360
just not ready ready to go out there

211
00:08:34,630 --> 00:08:32,399
with it yet

212
00:08:36,870 --> 00:08:34,640
completely respect that yeah but not

213
00:08:38,949 --> 00:08:36,880

nothing horrible just you know some some

214

00:08:41,269 --> 00:08:38,959

experiences were a bit weird and and uh

215

00:08:43,909 --> 00:08:41,279

other ones were kind of weird but but

216

00:08:44,710 --> 00:08:43,919

maybe pleasant no belonging

217

00:08:47,030 --> 00:08:44,720

sure

218

00:08:49,350 --> 00:08:47,040

yeah i've just had really one major one

219

00:08:50,070 --> 00:08:49,360

and you know that was it i haven't had

220

00:08:53,430 --> 00:08:50,080

it

221

00:08:54,949 --> 00:08:53,440

aware of that stuff then you start

222

00:08:57,430 --> 00:08:54,959

noticing other things and you're like

223

00:08:59,590 --> 00:08:57,440

wait a minute

224

00:09:01,350 --> 00:08:59,600

you know but um

225

00:09:02,389 --> 00:09:01,360

you know we were discussing earlier

226
00:09:05,110 --> 00:09:02,399
before

227
00:09:07,509 --> 00:09:05,120
the show a little bit about um

228
00:09:09,910 --> 00:09:07,519
the gila brand amendment

229
00:09:11,670 --> 00:09:09,920
which is awesome um that it looks like

230
00:09:14,870 --> 00:09:11,680
it's going to pass maybe even signed

231
00:09:16,870 --> 00:09:14,880
today possibly i'm not sure but they

232
00:09:19,190 --> 00:09:16,880
left out this the scientific community

233
00:09:20,710 --> 00:09:19,200
aspect like project galileo

234
00:09:22,870 --> 00:09:20,720
um

235
00:09:24,470 --> 00:09:22,880
what are your thoughts on that

236
00:09:26,550 --> 00:09:24,480
yeah i mean it's interesting you say

237
00:09:27,590 --> 00:09:26,560
that um i've been

238
00:09:29,910 --> 00:09:27,600

um

239

00:09:31,269 --> 00:09:29,920

talking to chris mellon for a while and

240

00:09:32,790 --> 00:09:31,279

just getting you know his take on

241

00:09:35,269 --> 00:09:32,800

various things either on or off the

242

00:09:37,670 --> 00:09:35,279

record and other people as well on

243

00:09:38,710 --> 00:09:37,680

friday's unidentified celebrity view we

244

00:09:41,190 --> 00:09:38,720

were actually

245

00:09:42,710 --> 00:09:41,200

um debating this very thing about the

246

00:09:44,470 --> 00:09:42,720

aerial and trans media phenomena

247

00:09:45,829 --> 00:09:44,480

advisory committee and why it was left

248

00:09:46,790 --> 00:09:45,839

out of the draft that kind of went

249

00:09:48,710 --> 00:09:46,800

through

250

00:09:50,630 --> 00:09:48,720

um and what was the significance of it

251
00:09:52,070 --> 00:09:50,640
and some of us thought well okay

252
00:09:55,030 --> 00:09:52,080
they didn't attach too much significance

253
00:09:57,590 --> 00:09:55,040
to it but i actually believe that uh

254
00:09:59,829 --> 00:09:57,600
that there is a significance attached to

255
00:10:02,069 --> 00:09:59,839
it for not having been

256
00:10:03,590 --> 00:10:02,079
included and that's because uh as i'll

257
00:10:05,190 --> 00:10:03,600
go into i'll give the quote in a minute

258
00:10:06,310 --> 00:10:05,200
but shall i just quickly run through

259
00:10:07,910 --> 00:10:06,320
what i think

260
00:10:09,430 --> 00:10:07,920
why people would get upset about it

261
00:10:10,230 --> 00:10:09,440
perhaps at dod

262
00:10:12,310 --> 00:10:10,240
um

263
00:10:14,470 --> 00:10:12,320

yeah i mean i i think i watch your video

264

00:10:15,910 --> 00:10:14,480

and i'm on par with you i mean you'll

265

00:10:17,670 --> 00:10:15,920

probably have a lot more to say about it

266

00:10:21,350 --> 00:10:17,680

but you know having lou and melon

267

00:10:22,310 --> 00:10:21,360

involved possibly from project galileo

268

00:10:23,829 --> 00:10:22,320

well sure

269

00:10:25,750 --> 00:10:23,839

in fact let me just put the quote out

270

00:10:27,030 --> 00:10:25,760

there this is um because i wanted to get

271

00:10:28,550 --> 00:10:27,040

i wanted to get a quote from somebody

272

00:10:30,550 --> 00:10:28,560

else apart from chris because i asked i

273

00:10:32,230 --> 00:10:30,560

asked him originally and i said um are

274

00:10:34,710 --> 00:10:32,240

you and lou there's going to be three

275

00:10:35,509 --> 00:10:34,720

slots for galileo project right so are

276

00:10:38,389 --> 00:10:35,519

you

277

00:10:39,670 --> 00:10:38,399

he's like oh well he's been kid just

278

00:10:41,190 --> 00:10:39,680

like well it's a bit early to tell but i

279

00:10:43,030 --> 00:10:41,200

could kind of sense that

280

00:10:44,470 --> 00:10:43,040

that they would get it and they'd be the

281

00:10:45,910 --> 00:10:44,480

most the two

282

00:10:47,430 --> 00:10:45,920

not scientists well i mean actually lou

283

00:10:49,990 --> 00:10:47,440

does have a science background but uh

284

00:10:51,430 --> 00:10:50,000

they would be perfect um but then the

285

00:10:53,910 --> 00:10:51,440

quote that i got from somebody else

286

00:10:55,430 --> 00:10:53,920

who's a dod insider and they're well um

287

00:10:56,870 --> 00:10:55,440

they're well acquainted with the process

288

00:10:59,110 --> 00:10:56,880

of what's been going on with gillibrand

289

00:11:01,190 --> 00:10:59,120

arrangement and they said uh and i quote

290

00:11:03,269 --> 00:11:01,200

the likely participation of elizondo and

291

00:11:05,350 --> 00:11:03,279

melon did not help right as in to get

292

00:11:06,949 --> 00:11:05,360

the amendment uh to get that subsection

293

00:11:09,350 --> 00:11:06,959

in they said

294

00:11:11,509 --> 00:11:09,360

um they as in do a dod would have

295

00:11:13,269 --> 00:11:11,519

objected regardless for several reasons

296

00:11:15,590 --> 00:11:13,279

they feared press leaks and security

297

00:11:17,829 --> 00:11:15,600

issues and generally don't like um and

298

00:11:20,150 --> 00:11:17,839

generally don't welcome more oversight

299

00:11:22,069 --> 00:11:20,160

in any case that was the quote and i

300

00:11:23,350 --> 00:11:22,079

mean you can see why because you know

301
00:11:24,790 --> 00:11:23,360
people think oh well it's just like a

302
00:11:26,790 --> 00:11:24,800
scientific advisory committee but if you

303
00:11:28,550 --> 00:11:26,800
actually look at the the small print it

304
00:11:30,870 --> 00:11:28,560
says advising the office and the

305
00:11:33,110 --> 00:11:30,880
execution of the duties of the office as

306
00:11:34,550 --> 00:11:33,120
provided by the subsection and

307
00:11:36,470 --> 00:11:34,560
advising the director regarding the

308
00:11:38,069 --> 00:11:36,480
gathering and analysis of data and

309
00:11:39,430 --> 00:11:38,079
scientific research and development

310
00:11:41,269 --> 00:11:39,440
pertaining to unidentified aerial

311
00:11:43,030 --> 00:11:41,279
phenomena so if you're going to advise

312
00:11:44,069 --> 00:11:43,040
regarding the gathering and analysis of

313
00:11:45,350 --> 00:11:44,079

data that means that you're going to

314

00:11:47,030 --> 00:11:45,360

have to have some knowledge of the

315

00:11:48,790 --> 00:11:47,040

process right and some knowledge of the

316

00:11:50,389 --> 00:11:48,800

platforms that are producing the data

317

00:11:53,190 --> 00:11:50,399

because you've got to advise someone how

318

00:11:56,470 --> 00:11:53,200

to best use your resources effectively

319

00:12:00,150 --> 00:11:56,480

so i could see how having um you know

320

00:12:02,310 --> 00:12:00,160

sort of 20 members from uh nasa from

321

00:12:03,829 --> 00:12:02,320

galileo from um

322

00:12:08,629 --> 00:12:03,839

um

323

00:12:10,230 --> 00:12:08,639

and you know and others and and from you

324

00:12:11,750 --> 00:12:10,240

know scu i could i could imagine that

325

00:12:13,910 --> 00:12:11,760

dod wouldn't want that at all it's just

326

00:12:17,350 --> 00:12:13,920

another layer of oversight effectively

327

00:12:19,509 --> 00:12:17,360

right right yeah and yeah definitely uh

328

00:12:21,269 --> 00:12:19,519

more places to for things to leak and

329

00:12:23,350 --> 00:12:21,279

information to get out and

330

00:12:24,790 --> 00:12:23,360

in the wrong hands because let's face it

331

00:12:26,870 --> 00:12:24,800

like as much as we want the information

332

00:12:28,710 --> 00:12:26,880

to come out there's still probably

333

00:12:30,069 --> 00:12:28,720

you know security risks involved with

334

00:12:32,150 --> 00:12:30,079

how they gathered the data and

335

00:12:33,750 --> 00:12:32,160

everything i would imagine so

336

00:12:35,350 --> 00:12:33,760

oh absolutely and i mean so i think some

337

00:12:37,509 --> 00:12:35,360

of the i mean it'll be some of the

338

00:12:38,949 --> 00:12:37,519

platforms like you it says

339

00:12:40,150 --> 00:12:38,959

no individual may be appointed to the

340

00:12:41,590 --> 00:12:40,160

committee

341

00:12:43,269 --> 00:12:41,600

unless the secretary director jointly

342

00:12:44,790 --> 00:12:43,279

determined the individual one qualifies

343

00:12:46,550 --> 00:12:44,800

for security clearance at the secret

344

00:12:47,509 --> 00:12:46,560

level or higher so if you're going to

345

00:12:49,590 --> 00:12:47,519

look at platforms you're probably

346

00:12:51,750 --> 00:12:49,600

talking minimum top secret to be able to

347

00:12:54,230 --> 00:12:51,760

know about those platforms right right

348

00:12:55,670 --> 00:12:54,240

and their capabilities so yeah but i

349

00:12:57,190 --> 00:12:55,680

think the security issue i mean that's

350

00:12:59,750 --> 00:12:57,200

why you have that's why you have

351

00:13:01,910 --> 00:12:59,760

security clearances but i can see dod

352

00:13:03,670 --> 00:13:01,920

using that as a reason um but you know

353

00:13:05,350 --> 00:13:03,680

you're right i mean people kind of uh

354

00:13:06,870 --> 00:13:05,360

sort of maybe slightly maligned me

355

00:13:09,190 --> 00:13:06,880

because i've always taken the line that

356

00:13:10,949 --> 00:13:09,200

um you know yeah disclosure is you know

357

00:13:12,389 --> 00:13:10,959

a positive aspect and i welcome it and

358

00:13:14,069 --> 00:13:12,399

i'm as interested as the next person but

359

00:13:15,829 --> 00:13:14,079

i've always been very kind of like you

360

00:13:17,110 --> 00:13:15,839

know from my first paper

361

00:13:18,470 --> 00:13:17,120

you can't just like open the hangar

362

00:13:20,629 --> 00:13:18,480

doors and just let it all hang out in

363

00:13:22,230 --> 00:13:20,639

the wind you know you have to be very

364

00:13:23,829 --> 00:13:22,240

very prescient of like the national

365

00:13:25,030 --> 00:13:23,839

security imperatives now i know there's

366

00:13:26,790 --> 00:13:25,040

a lot of people who just like they just

367

00:13:27,990 --> 00:13:26,800

want to do away with all of that but um

368

00:13:29,430 --> 00:13:28,000

you know realistically can't in the

369

00:13:31,829 --> 00:13:29,440

world that we live in

370

00:13:33,670 --> 00:13:31,839

yeah especi especially if there we do

371

00:13:35,269 --> 00:13:33,680

have any of the technology or anything

372

00:13:38,310 --> 00:13:35,279

like that i would imagine things start

373

00:13:39,910 --> 00:13:38,320

to get pretty dicey at that point but

374

00:13:45,829 --> 00:13:39,920

you know

375

00:13:47,269 --> 00:13:45,839

for as long as you've been investigating

376

00:13:49,189 --> 00:13:47,279

it there's

377

00:13:51,590 --> 00:13:49,199

as far as releasing things to the public

378

00:13:53,910 --> 00:13:51,600

there aren't older things that they

379

00:13:55,350 --> 00:13:53,920

could share whether it be an old you

380

00:13:58,470 --> 00:13:55,360

know video

381

00:14:00,710 --> 00:13:58,480

from from a jet from the 90s or 80s or

382

00:14:03,590 --> 00:14:00,720

something that you know that uses maybe

383

00:14:05,509 --> 00:14:03,600

outdated technology that's yeah not as

384

00:14:07,269 --> 00:14:05,519

important anymore i don't know what the

385

00:14:09,350 --> 00:14:07,279

case is there but

386

00:14:10,150 --> 00:14:09,360

you know i would think so

387

00:14:11,350 --> 00:14:10,160

but

388

00:14:15,030 --> 00:14:11,360

um

389

00:14:16,629 --> 00:14:15,040

he was talking about uh he's saying okay

390

00:14:18,470 --> 00:14:16,639

well i can talk about this because it's

391

00:14:19,910 --> 00:14:18,480

um it's been released the public and

392

00:14:22,150 --> 00:14:19,920

it's an outdated platform when he was

393

00:14:23,189 --> 00:14:22,160

talking about you know sats so yeah i

394

00:14:25,189 --> 00:14:23,199

mean i don't see why they couldn't do

395

00:14:27,189 --> 00:14:25,199

that like old uh you know aircraft

396

00:14:28,790 --> 00:14:27,199

sensing technology and all type of ford

397

00:14:31,430 --> 00:14:28,800

looking into infrared that's now

398

00:14:33,030 --> 00:14:31,440

obsolete for example an old radar an old

399

00:14:34,629 --> 00:14:33,040

satellite

400

00:14:35,509 --> 00:14:34,639

yeah i mean for goodness sakes i think

401
00:14:38,470 --> 00:14:35,519
there's

402
00:14:40,389 --> 00:14:38,480
public video of different clips of

403
00:14:41,990 --> 00:14:40,399
you know that whether they're chasing

404
00:14:43,430 --> 00:14:42,000
another jet or

405
00:14:44,949 --> 00:14:43,440
you know doing practice runs or

406
00:14:46,949 --> 00:14:44,959
something i'm pretty sure

407
00:14:50,389 --> 00:14:46,959
you know i've seen other kinds of videos

408
00:14:52,550 --> 00:14:50,399
online of older you know machines or

409
00:14:54,550 --> 00:14:52,560
or jets or what have you but

410
00:14:57,189 --> 00:14:54,560
you know it's some of the things that we

411
00:15:00,870 --> 00:14:57,199
may not know until we know you know

412
00:15:03,350 --> 00:15:00,880
what whatever that is but um

413
00:15:05,670 --> 00:15:03,360

you know and melon even said i think uh

414

00:15:07,350 --> 00:15:05,680

on his podcast with uh max

415

00:15:11,030 --> 00:15:07,360

moskowicz

416

00:15:13,350 --> 00:15:11,040

where it was him lou and avi he said

417

00:15:15,430 --> 00:15:13,360

he was pretty sure or he knows that they

418

00:15:18,230 --> 00:15:15,440

have other videos like the ones they

419

00:15:20,550 --> 00:15:18,240

released like the tic tac and gimbal

420

00:15:22,949 --> 00:15:20,560

um that could just as well be released

421

00:15:25,030 --> 00:15:22,959

at this point so

422

00:15:27,030 --> 00:15:25,040

you know i on the one hand i hate that

423

00:15:28,470 --> 00:15:27,040

he says that because it's a tease but on

424

00:15:32,949 --> 00:15:28,480

the other

425

00:15:35,350 --> 00:15:32,959

you know and when lou says there's 23

426

00:15:36,230 --> 00:15:35,360

minute video sometimes i i look at that

427

00:15:38,550 --> 00:15:36,240

as

428

00:15:40,710 --> 00:15:38,560

them kind of saying publicly to whoever

429

00:15:42,069 --> 00:15:40,720

is involved with this stuff like i know

430

00:15:44,949 --> 00:15:42,079

what kind of poker hand you're dealing

431

00:15:46,150 --> 00:15:44,959

with i've seen it you know

432

00:15:48,790 --> 00:15:46,160

it's so

433

00:15:51,509 --> 00:15:48,800

so let it out there and play it um

434

00:15:53,030 --> 00:15:51,519

and your experience sorry go ahead yeah

435

00:15:54,389 --> 00:15:53,040

well i was just gonna say in your

436

00:15:56,870 --> 00:15:54,399

experience

437

00:15:59,350 --> 00:15:56,880

you know what kind of

438

00:16:02,150 --> 00:15:59,360

how complicated is that process really

439

00:16:05,189 --> 00:16:02,160

if they wanted to do something like that

440

00:16:07,269 --> 00:16:05,199

what to do to disclose more more info

441

00:16:09,189 --> 00:16:07,279

yeah more videos or information or

442

00:16:11,829 --> 00:16:09,199

something maybe from technology that's

443

00:16:12,590 --> 00:16:11,839

outdated or even you know something like

444

00:16:15,990 --> 00:16:12,600

the

445

00:16:17,350 --> 00:16:16,000

2004 incident or two incident was it

446

00:16:20,230 --> 00:16:17,360

yeah i mean that would probably be a

447

00:16:22,790 --> 00:16:20,240

little bit too too too too close in the

448

00:16:24,069 --> 00:16:22,800

recent past um but i mean even if you

449

00:16:26,470 --> 00:16:24,079

were talking about something for the 60s

450

00:16:28,230 --> 00:16:26,480

or the 70s i mean okay so you're not

451
00:16:29,829 --> 00:16:28,240
going to damage american capabilities

452
00:16:31,110 --> 00:16:29,839
because you're showing like an outdated

453
00:16:33,350 --> 00:16:31,120
platform and its capabilities

454
00:16:34,629 --> 00:16:33,360
effectively but you know maybe if they

455
00:16:36,230 --> 00:16:34,639
shot something that was really really

456
00:16:37,829 --> 00:16:36,240
interesting that shows you know without

457
00:16:39,590 --> 00:16:37,839
doubt that it's extraterrestrial or

458
00:16:42,550 --> 00:16:39,600
whatever they'd have a problem with that

459
00:16:44,550 --> 00:16:42,560
um as in you know non-human non-human

460
00:16:45,990 --> 00:16:44,560
origin craft right

461
00:16:47,590 --> 00:16:46,000
i always say i i don't know because i

462
00:16:49,110 --> 00:16:47,600
don't have access to

463
00:16:50,710 --> 00:16:49,120

the relevant information to be able to

464

00:16:52,389 --> 00:16:50,720

make a determination of what would be

465

00:16:53,990 --> 00:16:52,399

you know against national security or

466

00:16:55,590 --> 00:16:54,000

not um and i know a lot of people are

467

00:16:57,670 --> 00:16:55,600

going to say oh well you know these guys

468

00:17:00,389 --> 00:16:57,680

just want to hang on to info as long as

469

00:17:02,470 --> 00:17:00,399

they can but um you know whenever you

470

00:17:05,189 --> 00:17:02,480

release documents or imagery or whatever

471

00:17:07,029 --> 00:17:05,199

it is um it has to go through like a

472

00:17:08,549 --> 00:17:07,039

process to make sure that there is no

473

00:17:11,189 --> 00:17:08,559

way that it can compromise you know

474

00:17:12,150 --> 00:17:11,199

current operations sources methods

475

00:17:14,949 --> 00:17:12,160

and

476
00:17:17,510 --> 00:17:14,959
so what do you think do you think these

477
00:17:19,590 --> 00:17:17,520
are uh extraterrestrial or do you have

478
00:17:21,909 --> 00:17:19,600
any hypothesis

479
00:17:23,590 --> 00:17:21,919
i i mean i i really keep an open mind i

480
00:17:25,189 --> 00:17:23,600
mean it's so good yes

481
00:17:26,630 --> 00:17:25,199
yeah i mean

482
00:17:27,990 --> 00:17:26,640
it's like a fruit salad for me i mean

483
00:17:30,230 --> 00:17:28,000
i've been talking recently to people

484
00:17:31,990 --> 00:17:30,240
about um you know future humans

485
00:17:33,590 --> 00:17:32,000
am i i asked this question i mean in my

486
00:17:35,029 --> 00:17:33,600
first paper to colonel john alexander i

487
00:17:36,710 --> 00:17:35,039
mean he spent a lot of time camped out a

488
00:17:39,029 --> 00:17:36,720

skin walker he spent a lot of time you

489

00:17:41,590 --> 00:17:39,039

know before pre-needs days and he spent

490

00:17:43,350 --> 00:17:41,600

a lot of time with his um um you know at

491

00:17:46,230 --> 00:17:43,360

the pentagon trying to figure out uh you

492

00:17:47,750 --> 00:17:46,240

know what ufo were and you know who was

493

00:17:49,590 --> 00:17:47,760

behind them and i asked him i said well

494

00:17:51,909 --> 00:17:49,600

is it like ultra terrestrial is it extra

495

00:17:53,510 --> 00:17:51,919

dimensional interdimensional is it time

496

00:17:55,430 --> 00:17:53,520

travel or is it et

497

00:17:57,430 --> 00:17:55,440

um and he's like well you know yes no

498

00:17:59,190 --> 00:17:57,440

maybe you know all of the above you know

499

00:18:00,950 --> 00:17:59,200

could be a combination thereof you know

500

00:18:03,190 --> 00:18:00,960

time travelling et's time travelling

501
00:18:04,789 --> 00:18:03,200
interdimensionals i don't know

502
00:18:06,789 --> 00:18:04,799
right yeah that's kind of the trickiest

503
00:18:08,549 --> 00:18:06,799
part and even in that report they they

504
00:18:11,029 --> 00:18:08,559
had hinted that there was multiple types

505
00:18:13,350 --> 00:18:11,039
of phenomena so and to me that's just

506
00:18:15,830 --> 00:18:13,360
not the way you talk about you know a

507
00:18:18,070 --> 00:18:15,840
foreign adversary tech or your own tech

508
00:18:19,909 --> 00:18:18,080
is multiple phenomena

509
00:18:21,430 --> 00:18:19,919
you know that's just not

510
00:18:23,190 --> 00:18:21,440
that's just not how it goes and all the

511
00:18:25,590 --> 00:18:23,200
documents that i've read what whatever

512
00:18:26,470 --> 00:18:25,600
they're referring to phenomena it's

513
00:18:28,789 --> 00:18:26,480

either

514

00:18:30,630 --> 00:18:28,799

it's usually just scientific you know or

515

00:18:31,750 --> 00:18:30,640

like a geomagnetic phenomena or

516

00:18:36,950 --> 00:18:31,760

something

517

00:18:40,950 --> 00:18:36,960

it's never

518

00:18:43,190 --> 00:18:40,960

you know has to do with uh human tech

519

00:18:44,950 --> 00:18:43,200

yeah you know yeah and it wouldn't make

520

00:18:47,750 --> 00:18:44,960

much sense either to

521

00:18:50,549 --> 00:18:47,760

put it all you know out there publicly

522

00:18:53,430 --> 00:18:50,559

um if they knew it was foreign tech

523

00:18:55,029 --> 00:18:53,440

saying that they don't know what it is

524

00:18:56,870 --> 00:18:55,039

yeah i mean i'm sure you know some of it

525

00:18:58,150 --> 00:18:56,880

can be um

526

00:18:59,110 --> 00:18:58,160

i mean there's a very good you know

527

00:19:00,549 --> 00:18:59,120

article

528

00:19:02,310 --> 00:19:00,559

some very good pieces from you know from

529

00:19:03,430 --> 00:19:02,320

the war zone right uh

530

00:19:04,950 --> 00:19:03,440

talking about you know the possibility

531

00:19:06,390 --> 00:19:04,960

you know drones and i mean there's no

532

00:19:09,669 --> 00:19:06,400

reason why you know drones could not be

533

00:19:10,549 --> 00:19:09,679

confused for uap sure um but i think now

534

00:19:11,909 --> 00:19:10,559

that they you know they've drilled it

535

00:19:13,110 --> 00:19:11,919

down they've got the capabilities to be

536

00:19:15,750 --> 00:19:13,120

able to tell what is a drone and what

537

00:19:18,549 --> 00:19:15,760

isn't a drone um yeah and i think even

538

00:19:21,029 --> 00:19:18,559

though the um you know the odni report

539

00:19:23,029 --> 00:19:21,039

in june it you know it was pretty pretty

540

00:19:24,230 --> 00:19:23,039

clear they couldn't figure out what the

541

00:19:26,470 --> 00:19:24,240

things were that they were looking at i

542

00:19:27,669 --> 00:19:26,480

mean they were unexplained right um you

543

00:19:29,430 --> 00:19:27,679

know there was only one case where they

544

00:19:30,789 --> 00:19:29,440

could actually explain it um out of the

545

00:19:32,150 --> 00:19:30,799

ones that they looked at

546

00:19:34,549 --> 00:19:32,160

so

547

00:19:36,070 --> 00:19:34,559

interesting yeah yeah but then again you

548

00:19:37,190 --> 00:19:36,080

know would they really say

549

00:19:39,669 --> 00:19:37,200

would they really want to say that

550

00:19:41,430 --> 00:19:39,679

there's some kind of like advanced um

551
00:19:42,549 --> 00:19:41,440
chinese tech that's penetrating u.s

552
00:19:44,390 --> 00:19:42,559
airspace they probably wouldn't would

553
00:19:46,070 --> 00:19:44,400
they

554
00:19:47,190 --> 00:19:46,080
no yeah because that could be a little

555
00:19:49,990 --> 00:19:47,200
sense of mess

556
00:19:52,470 --> 00:19:50,000
hysteria you know so to speak a little

557
00:19:53,350 --> 00:19:52,480
bit as well you know but what are you

558
00:19:55,350 --> 00:19:53,360
trying

559
00:19:57,669 --> 00:19:55,360
what are your thoughts on the origins of

560
00:19:58,950 --> 00:19:57,679
of of you know the intelligences behind

561
00:19:59,830 --> 00:19:58,960
the craft

562
00:20:01,830 --> 00:19:59,840
yes

563
00:20:03,430 --> 00:20:01,840

in general well you know it's funny i

564

00:20:05,029 --> 00:20:03,440

don't know that anyone's ever asked me

565

00:20:07,510 --> 00:20:05,039

that

566

00:20:09,190 --> 00:20:07,520

i think um

567

00:20:11,350 --> 00:20:09,200

kind of more along the lines of what you

568

00:20:13,350 --> 00:20:11,360

say you know there could be

569

00:20:14,710 --> 00:20:13,360

a smorgasbord or a fruit salad of

570

00:20:15,909 --> 00:20:14,720

different things going on most

571

00:20:18,390 --> 00:20:15,919

definitely

572

00:20:20,230 --> 00:20:18,400

um what

573

00:20:22,630 --> 00:20:20,240

you know mike in my experience and what

574

00:20:24,870 --> 00:20:22,640

i've experienced um

575

00:20:26,950 --> 00:20:24,880

you know i didn't see a craft and what i

576

00:20:29,510 --> 00:20:26,960

saw was pretty up close

577

00:20:31,990 --> 00:20:29,520

um so i don't know what that means if it

578

00:20:33,270 --> 00:20:32,000

was covered in whatever this stuff is

579

00:20:35,190 --> 00:20:33,280

that i saw

580

00:20:37,830 --> 00:20:35,200

or if it's

581

00:20:39,430 --> 00:20:37,840

you know um has nothing to do with being

582

00:20:41,830 --> 00:20:39,440

a physical thing

583

00:20:44,470 --> 00:20:41,840

i'm not sure you know um and then you

584

00:20:45,350 --> 00:20:44,480

have abductions which are so

585

00:20:46,710 --> 00:20:45,360

you know

586

00:20:49,830 --> 00:20:46,720

real

587

00:20:51,510 --> 00:20:49,840

you know um and what they are is kind of

588

00:20:53,190 --> 00:20:51,520

unknown are they

589

00:20:55,750 --> 00:20:53,200

something the phenomenon wants you to

590

00:20:57,510 --> 00:20:55,760

see is it some sort of control system or

591

00:20:58,549 --> 00:20:57,520

is it what it is

592

00:21:01,590 --> 00:20:58,559

um

593

00:21:04,310 --> 00:21:01,600

so you can't i can't really say what it

594

00:21:05,990 --> 00:21:04,320

is and it's funny because

595

00:21:07,430 --> 00:21:06,000

for the most part

596

00:21:09,110 --> 00:21:07,440

i'm the kind of guy that thinks the

597

00:21:12,390 --> 00:21:09,120

government doesn't really

598

00:21:14,870 --> 00:21:12,400

know 100 what it is either

599

00:21:19,430 --> 00:21:16,390

but that could be the case where you

600

00:21:21,830 --> 00:21:19,440

know uh let's say they got a craft or in

601
00:21:23,909 --> 00:21:21,840
bodies or whatever

602
00:21:25,669 --> 00:21:23,919
um

603
00:21:28,230 --> 00:21:25,679
but if those things are that much more

604
00:21:30,390 --> 00:21:28,240
advanced than us would they still really

605
00:21:31,990 --> 00:21:30,400
have the same capabilities now

606
00:21:34,390 --> 00:21:32,000
you know they would probably be even

607
00:21:37,510 --> 00:21:34,400
more advanced and maybe more complicated

608
00:21:38,710 --> 00:21:37,520
to figure out than it was at the start

609
00:21:40,230 --> 00:21:38,720
um

610
00:21:43,350 --> 00:21:40,240
who knows but i do know there's

611
00:21:46,470 --> 00:21:43,360
something that's for sure

612
00:21:48,630 --> 00:21:46,480
and it almost seems like it's on purpose

613
00:21:51,110 --> 00:21:48,640

as far as like just being out of our

614

00:21:53,510 --> 00:21:51,120

grasp you know i've also noticed that

615

00:21:55,190 --> 00:21:53,520

the technology or whatever is always

616

00:21:57,270 --> 00:21:55,200

just like a little bit ahead of what our

617

00:21:59,190 --> 00:21:57,280

capabilities are

618

00:22:01,029 --> 00:21:59,200

yeah so if you're in 1930s it kind of

619

00:22:03,029 --> 00:22:01,039

has rivets and bolts and you know kind

620

00:22:05,110 --> 00:22:03,039

of advances or if it's the 1870s it's

621

00:22:07,350 --> 00:22:05,120

like air ships isn't that kind of

622

00:22:09,830 --> 00:22:07,360

yeah that's a that's exactly right

623

00:22:12,950 --> 00:22:09,840

airships yeah um

624

00:22:14,549 --> 00:22:12,960

we didn't have that capability yeah um

625

00:22:16,149 --> 00:22:14,559

and i always say too like if flying

626

00:22:17,590 --> 00:22:16,159

saucer came you know if somebody

627

00:22:20,149 --> 00:22:17,600

actually saw like a

628

00:22:22,549 --> 00:22:20,159

quote-unquote the like legit flying

629

00:22:25,510 --> 00:22:22,559

saucer iconic flank saucer that we see

630

00:22:27,909 --> 00:22:25,520

it would look like a hot rod so to speak

631

00:22:30,630 --> 00:22:27,919

you know look like like a classic car

632

00:22:32,710 --> 00:22:30,640

like a mid-century automobile

633

00:22:35,669 --> 00:22:32,720

it wouldn't make as much sense

634

00:22:36,950 --> 00:22:35,679

um so i'd maybe there's a part to this

635

00:22:39,190 --> 00:22:36,960

you know where there's a little

636

00:22:41,430 --> 00:22:39,200

manipulation going on to where you know

637

00:22:42,950 --> 00:22:41,440

we see what would make most sense to us

638

00:22:44,710 --> 00:22:42,960

too

639

00:22:46,630 --> 00:22:44,720

that's a very good point um

640

00:22:48,549 --> 00:22:46,640

and you know i often wonder i mean and i

641

00:22:50,390 --> 00:22:48,559

don't denigrate anybody's experiences at

642

00:22:52,789 --> 00:22:50,400

talk because i've had had experiences

643

00:22:54,390 --> 00:22:52,799

but you know i often wonder

644

00:22:55,750 --> 00:22:54,400

if say you're

645

00:22:57,669 --> 00:22:55,760

you know you're on your own and you'll

646

00:22:58,950 --> 00:22:57,679

see outside you see a uap are you

647

00:23:00,230 --> 00:22:58,960

actually seeing something or is it

648

00:23:01,510 --> 00:23:00,240

something that's projected in your brain

649

00:23:03,190 --> 00:23:01,520

are you actually seeing what's there or

650

00:23:04,710 --> 00:23:03,200

not i mean at least with the nimitz case

651
00:23:06,630 --> 00:23:04,720
and other cases like that okay it's seen

652
00:23:08,870 --> 00:23:06,640
on multiple different radars it's seen

653
00:23:11,750 --> 00:23:08,880
with the mark one eyeball by you know uh

654
00:23:14,310 --> 00:23:11,760
pilots and backseaters um it's seen by

655
00:23:16,470 --> 00:23:14,320
you know hawkeye right in the air so and

656
00:23:18,950 --> 00:23:16,480
it was probably actually seen from um

657
00:23:22,310 --> 00:23:18,960
uh radars along the coast right in san

658
00:23:23,590 --> 00:23:22,320
diego as well so you know that that i

659
00:23:25,750 --> 00:23:23,600
would say yeah it's a physical craft

660
00:23:27,110 --> 00:23:25,760
it's not a projection of some

661
00:23:29,350 --> 00:23:27,120
into your imagination because it's been

662
00:23:30,789 --> 00:23:29,360
seen on systems and by humans i mean

663
00:23:32,549 --> 00:23:30,799

it'd have to be some pretty crazy

664

00:23:34,870 --> 00:23:32,559

spoofing technology if it was spoofing

665

00:23:36,630 --> 00:23:34,880

your brain and uh you know radars and

666

00:23:37,430 --> 00:23:36,640

sensors at the same time

667

00:23:39,110 --> 00:23:37,440

yeah

668

00:23:40,789 --> 00:23:39,120

so i don't know i mean some some of the

669

00:23:41,990 --> 00:23:40,799

things you know really astound me uh

670

00:23:43,590 --> 00:23:42,000

especially from you know some of the

671

00:23:45,750 --> 00:23:43,600

reports from skinwalker about you know

672

00:23:47,669 --> 00:23:45,760

people feeling fear or sensing fear or

673

00:23:50,149 --> 00:23:47,679

having kind of projections of you know

674

00:23:52,710 --> 00:23:50,159

emotions into them um that yeah that

675

00:23:53,990 --> 00:23:52,720

this phenom or phenomena or phenomenon

676
00:23:55,510 --> 00:23:54,000
can project

677
00:23:57,029 --> 00:23:55,520
and make us see things that aren't there

678
00:23:58,950 --> 00:23:57,039
or make us feel things that we that we

679
00:24:02,070 --> 00:23:58,960
wouldn't normally feel yeah kind of take

680
00:24:05,029 --> 00:24:02,080
advantage of your emotions um it

681
00:24:06,230 --> 00:24:05,039
i forgot who i asked about this but it

682
00:24:07,909 --> 00:24:06,240
was something along the lines about

683
00:24:09,669 --> 00:24:07,919
skinwalker ranch and

684
00:24:13,350 --> 00:24:09,679
you know asking if they noticed some

685
00:24:15,510 --> 00:24:13,360
sort of a reflection of the emotion or

686
00:24:16,710 --> 00:24:15,520
uh attitude of the person that's there

687
00:24:18,230 --> 00:24:16,720
so to speak

688
00:24:21,190 --> 00:24:18,240

you know if someone's going and they're

689

00:24:23,029 --> 00:24:21,200

kind of afraid or maybe even angry that

690

00:24:24,950 --> 00:24:23,039

they have to go or grumpy

691

00:24:27,430 --> 00:24:24,960

does it seem like there's a reflection

692

00:24:29,269 --> 00:24:27,440

of that the activity you know and kind

693

00:24:30,230 --> 00:24:29,279

of like what you put out you get back

694

00:24:31,750 --> 00:24:30,240

yeah

695

00:24:33,590 --> 00:24:31,760

you know and

696

00:24:35,430 --> 00:24:33,600

i don't have anything to back this up

697

00:24:39,350 --> 00:24:35,440

because i completely forgot who it was

698

00:24:43,909 --> 00:24:41,990

and that's pretty interesting to me but

699

00:24:46,630 --> 00:24:43,919

then you have stuff like

700

00:24:48,630 --> 00:24:46,640

you know that doctor in the book where

701
00:24:50,149 --> 00:24:48,640
the blue orb goes to the car and goes

702
00:24:51,990 --> 00:24:50,159
through the guy's body

703
00:24:53,909 --> 00:24:52,000
and he was sick for a long time now

704
00:24:56,710 --> 00:24:53,919
actually that brings me to

705
00:24:58,789 --> 00:24:56,720
um gary nolan's uh work recently where

706
00:25:01,190 --> 00:24:58,799
he was looking at um brain scans and

707
00:25:02,870 --> 00:25:01,200
everything what's your take on all that

708
00:25:04,549 --> 00:25:02,880
i think it's superb that somebody of his

709
00:25:07,430 --> 00:25:04,559
caliber is is involved in it and

710
00:25:08,630 --> 00:25:07,440
actually um i was watching a

711
00:25:11,669 --> 00:25:08,640
um

712
00:25:13,909 --> 00:25:11,679
a live panel with uh russell targ dr dr

713
00:25:15,350 --> 00:25:13,919

russell todd dr jackson

714

00:25:17,269 --> 00:25:15,360

um

715

00:25:18,870 --> 00:25:17,279

robert morningstar

716

00:25:20,149 --> 00:25:18,880

and uh that was really interesting what

717

00:25:22,230 --> 00:25:20,159

they were talking about his work about

718

00:25:23,750 --> 00:25:22,240

nolan's work i think it's fascinating i

719

00:25:27,269 --> 00:25:23,760

also think it's fascinating

720

00:25:28,950 --> 00:25:27,279

i think it's i think it's very um

721

00:25:30,630 --> 00:25:28,960

are very important that they can

722

00:25:33,110 --> 00:25:30,640

safeguard you know the american war

723

00:25:35,350 --> 00:25:33,120

fighters and others who have to who will

724

00:25:36,630 --> 00:25:35,360

come into contact with the phenomena

725

00:25:38,630 --> 00:25:36,640

but i also thought it was fascinating

726

00:25:40,789 --> 00:25:38,640

what what um dr nolan was saying about

727

00:25:42,470 --> 00:25:40,799

schizophrenics that they have a part of

728

00:25:44,870 --> 00:25:42,480

their brain that can be activated or

729

00:25:47,190 --> 00:25:44,880

that doesn't quite work well uh doesn't

730

00:25:49,110 --> 00:25:47,200

work normally so they may see things and

731

00:25:50,390 --> 00:25:49,120

hear things that other people can't and

732

00:25:52,070 --> 00:25:50,400

then he kind of poses a question well

733

00:25:54,390 --> 00:25:52,080

you know who who's the one having the

734

00:25:56,310 --> 00:25:54,400

hallucinations is it us because we can't

735

00:25:57,590 --> 00:25:56,320

access like a real level of reality

736

00:25:59,350 --> 00:25:57,600

that's actually going on around us

737

00:26:00,789 --> 00:25:59,360

whereas they can i thought that was very

738

00:26:02,470 --> 00:26:00,799

interesting as well

739

00:26:04,070 --> 00:26:02,480

yeah that

740

00:26:05,830 --> 00:26:04,080

go ahead yeah and you're saying that you

741

00:26:07,350 --> 00:26:05,840

know our senses are very are very

742

00:26:09,830 --> 00:26:07,360

limited it's kind of like our senses are

743

00:26:11,909 --> 00:26:09,840

to filter out like most of what's there

744

00:26:13,830 --> 00:26:11,919

right that makes it makes sense

745

00:26:17,029 --> 00:26:13,840

that's actually something john mack was

746

00:26:18,470 --> 00:26:17,039

uh hitting on um in his day

747

00:26:20,870 --> 00:26:18,480

um

748

00:26:23,269 --> 00:26:20,880

in general just about the

749

00:26:26,390 --> 00:26:23,279

how we're so quick to diagnose a mental

750

00:26:28,870 --> 00:26:26,400

condition with such little understanding

751

00:26:30,470 --> 00:26:28,880

of how the brain works

752

00:26:32,950 --> 00:26:30,480

you know

753

00:26:34,950 --> 00:26:32,960

the brain is pretty complex i mean

754

00:26:35,830 --> 00:26:34,960

there's so many things about it that we

755

00:26:38,230 --> 00:26:35,840

don't

756

00:26:40,230 --> 00:26:38,240

understand even though we may claim to

757

00:26:41,909 --> 00:26:40,240

you know like let's say prescribing a

758

00:26:45,110 --> 00:26:41,919

medicine that we have no idea what the

759

00:26:47,190 --> 00:26:45,120

long-term effect will be you know in 20

760

00:26:48,070 --> 00:26:47,200

30 40 50 years

761

00:26:51,029 --> 00:26:48,080

and

762

00:26:53,590 --> 00:26:51,039

maybe looking at those diff those kind

763

00:26:56,310 --> 00:26:53,600

of um conditions

764

00:26:59,190 --> 00:26:56,320

a little differently or maybe just not

765

00:27:00,149 --> 00:26:59,200

stopping to look at them

766

00:27:04,390 --> 00:27:00,159

you know

767

00:27:06,230 --> 00:27:04,400

and i'm not saying anybody is but just

768

00:27:08,230 --> 00:27:06,240

maybe there's something else going on

769

00:27:09,990 --> 00:27:08,240

sometimes you know

770

00:27:10,950 --> 00:27:10,000

maybe some people are just

771

00:27:13,190 --> 00:27:10,960

have

772

00:27:15,750 --> 00:27:13,200

a little too much of something but

773

00:27:16,870 --> 00:27:15,760

maybe that's not necessarily a bad thing

774

00:27:18,630 --> 00:27:16,880

you know

775

00:27:20,230 --> 00:27:18,640

they can access a reality that maybe you

776

00:27:21,510 --> 00:27:20,240

know that other people can't i mean i

777

00:27:23,350 --> 00:27:21,520

was telling my grandma my dearly

778

00:27:25,110 --> 00:27:23,360

departed grandma i mean she was what you

779

00:27:27,350 --> 00:27:25,120

call gifted i mean she and my

780

00:27:28,870 --> 00:27:27,360

grandfather were always seeing like um

781

00:27:30,870 --> 00:27:28,880

effectively what you call spirits or

782

00:27:33,110 --> 00:27:30,880

ghosts in all the different houses and

783

00:27:35,110 --> 00:27:33,120

places that they lived so did

784

00:27:36,630 --> 00:27:35,120

you know i did they have something did

785

00:27:38,230 --> 00:27:36,640

their brains work in a certain way that

786

00:27:39,590 --> 00:27:38,240

allowed them to access a reality that

787

00:27:40,789 --> 00:27:39,600

other people can't

788

00:27:42,630 --> 00:27:40,799

yeah

789

00:27:44,470 --> 00:27:42,640

very interesting

790

00:27:46,830 --> 00:27:44,480

um

791

00:27:51,430 --> 00:27:46,840

and i think about you know if i had any

792

00:27:53,269 --> 00:27:51,440

effects you know like that when um

793

00:27:55,190 --> 00:27:53,279

when i had my sighting or anything and i

794

00:27:58,630 --> 00:27:55,200

can't

795

00:28:00,230 --> 00:27:58,640

but i would like to have my brain

796

00:28:03,029 --> 00:28:00,240

scanned now

797

00:28:04,870 --> 00:28:03,039

yeah

798

00:28:06,950 --> 00:28:04,880

you know because i wonder

799

00:28:09,990 --> 00:28:06,960

uh most definitely

800

00:28:13,110 --> 00:28:10,000

um but i don't know do you think

801

00:28:15,510 --> 00:28:13,120

there's any sense of uh rationing up

802

00:28:17,350 --> 00:28:15,520

fear unnecessarily so to speak with that

803

00:28:19,830 --> 00:28:17,360

stuff with

804

00:28:23,510 --> 00:28:19,840

uh dr nolan kind of relating it to like

805

00:28:26,870 --> 00:28:25,269

no i mean i think that if they're if

806

00:28:30,710 --> 00:28:26,880

there are health risks and i think

807

00:28:33,110 --> 00:28:30,720

clearly there are um and even i mean kit

808

00:28:35,029 --> 00:28:33,120

green's uh paper his dirt his defense

809

00:28:37,430 --> 00:28:35,039

intelligence reference document and then

810

00:28:39,029 --> 00:28:37,440

there was also the paper from um

811

00:28:41,750 --> 00:28:39,039

his names got off the top of my head

812

00:28:44,710 --> 00:28:41,760

that i referenced uh in my first paper

813

00:28:46,070 --> 00:28:44,720

uh not late 1960s he was a nasa and

814

00:28:48,389 --> 00:28:46,080

aeronautical engineer and he didn't

815

00:28:50,070 --> 00:28:48,399

release his book on ufos and it wasn't

816

00:28:51,830 --> 00:28:50,080

released until after he died but he was

817

00:28:53,430 --> 00:28:51,840

talking about effects on of uap on

818

00:28:54,870 --> 00:28:53,440

people as well and then i also

819

00:28:56,710 --> 00:28:54,880

referenced um

820

00:28:59,350 --> 00:28:56,720

you know the the uk's project condyn

821

00:29:03,430 --> 00:28:59,360

report by defense intelligence 55 which

822

00:29:05,029 --> 00:29:03,440

uh was kind of came out 1999 2000 and uh

823

00:29:06,630 --> 00:29:05,039

and that was uh

824

00:29:08,470 --> 00:29:06,640

talks quite a lot about you know the

825

00:29:11,110 --> 00:29:08,480

electrical effects the effects on people

826

00:29:13,190 --> 00:29:11,120

the sounds that they hear

827

00:29:14,710 --> 00:29:13,200

how it affects them effectively uh in

828

00:29:15,990 --> 00:29:14,720

logical sense in a psychological and

829

00:29:17,830 --> 00:29:16,000

emotional sense

830

00:29:18,789 --> 00:29:17,840

so i think it's very important that

831

00:29:20,389 --> 00:29:18,799

these things are taken into

832

00:29:23,750 --> 00:29:20,399

consideration

833

00:29:24,950 --> 00:29:23,760

yeah and it's you know

834

00:29:26,950 --> 00:29:24,960

a good look in mentioning the

835

00:29:28,710 --> 00:29:26,960

psychological and emotional aspect you

836

00:29:30,310 --> 00:29:28,720

know because i think

837

00:29:31,750 --> 00:29:30,320

you know when i think about it at least

838

00:29:34,630 --> 00:29:31,760

it's definitely

839

00:29:38,470 --> 00:29:34,640

affected me psychologically because my

840

00:29:40,549 --> 00:29:38,480

entire uh life and you know

841

00:29:42,549 --> 00:29:40,559

what i do with my time has changed and

842

00:29:44,950 --> 00:29:42,559

that's enough that's an effect

843

00:29:46,630 --> 00:29:44,960

you know that's a psychological effect i

844

00:29:50,070 --> 00:29:46,640

wanted to bring this up i know you like

845

00:29:51,830 --> 00:29:50,080

documents i found this in a old

846

00:29:59,430 --> 00:29:51,840

um

847

00:30:01,669 --> 00:29:59,440

wow about a story of them trying to i

848

00:30:03,269 --> 00:30:01,679

think it was the cash landrum case is

849

00:30:06,470 --> 00:30:03,279

what it was possibly

850

00:30:09,750 --> 00:30:06,480

um but this soldier was trying to

851
00:30:13,029 --> 00:30:09,760
get information out about possible um

852
00:30:15,750 --> 00:30:13,039
medical effects from flank saucers

853
00:30:17,269 --> 00:30:15,760
and it also went through how bad he was

854
00:30:18,630 --> 00:30:17,279
treated

855
00:30:20,789 --> 00:30:18,640
you know um

856
00:30:22,310 --> 00:30:20,799
while he was still an army officer and

857
00:30:23,269 --> 00:30:22,320
how they pretty much tried to force him

858
00:30:25,669 --> 00:30:23,279
out

859
00:30:27,669 --> 00:30:25,679
um but this is interesting dr annan uh

860
00:30:30,149 --> 00:30:27,679
colleagues assistants during his autopsy

861
00:30:31,830 --> 00:30:30,159
of a crew member retrieved from a crash

862
00:30:33,510 --> 00:30:31,840
oh this is something different

863
00:30:36,149 --> 00:30:33,520

uh this is about a crash landing in an

864

00:30:37,830 --> 00:30:36,159

autopsy with a body

865

00:30:39,350 --> 00:30:37,840

that's still interesting

866

00:30:40,789 --> 00:30:39,360

that's very interesting

867

00:30:43,350 --> 00:30:40,799

that might not that reminds me as well

868

00:30:46,149 --> 00:30:43,360

that reminds me of the the pascagoula um

869

00:30:47,990 --> 00:30:46,159

ufo incident was in 1974 because once

870

00:30:49,350 --> 00:30:48,000

the guys were done uh with the sheriff

871

00:30:51,190 --> 00:30:49,360

once the sheriff's because they put that

872

00:30:53,350 --> 00:30:51,200

a tape recorder on the table didn't they

873

00:30:54,389 --> 00:30:53,360

um yeah to hear them talking to each

874

00:30:55,830 --> 00:30:54,399

other and they realized actually these

875

00:30:57,269 --> 00:30:55,840

guys aren't making it out they're making

876

00:30:58,950 --> 00:30:57,279

it up they're really freaked out and

877

00:31:00,789 --> 00:30:58,960

then after that they got taken to an air

878

00:31:03,430 --> 00:31:00,799

force base and they got poked and

879

00:31:05,430 --> 00:31:03,440

prodded by doctors so the air force was

880

00:31:07,909 --> 00:31:05,440

was checking them for you know physical

881

00:31:10,789 --> 00:31:07,919

emotional psychological effects

882

00:31:12,870 --> 00:31:10,799

wow that is yeah and this cash landrum

883

00:31:15,190 --> 00:31:12,880

case was a lot like that

884

00:31:18,630 --> 00:31:15,200

um oh here it is i found it super

885

00:31:20,389 --> 00:31:18,640

interesting um they actually sued uh

886

00:31:22,710 --> 00:31:20,399

this cash lady

887

00:31:24,310 --> 00:31:22,720

for like 20 million bucks they they

888

00:31:26,230 --> 00:31:24,320

didn't win because

889

00:31:28,230 --> 00:31:26,240

um they

890

00:31:31,509 --> 00:31:28,240

decided basically that it wasn't a

891

00:31:33,909 --> 00:31:31,519

chinook helicopter and therefore

892

00:31:36,630 --> 00:31:33,919

they couldn't say that whatever did that

893

00:31:38,470 --> 00:31:36,640

to them was theirs so they thought they

894

00:31:40,870 --> 00:31:38,480

threw the case out but they had a whole

895

00:31:43,029 --> 00:31:40,880

interview and everything um it was quite

896

00:31:43,990 --> 00:31:43,039

interesting where they brought them into

897

00:31:52,950 --> 00:31:44,000

the

898

00:31:55,750 --> 00:31:52,960

were very similar to what we hear

899

00:31:57,190 --> 00:31:55,760

now here it is

900

00:31:59,430 --> 00:31:57,200

known radiation effects the

901
00:32:01,350 --> 00:31:59,440
electromagnetic spectrum is divided into

902
00:32:04,070 --> 00:32:01,360
groups according to wavelengths x-rays

903
00:32:06,789 --> 00:32:04,080
gamma rays very short wavelengths

904
00:32:09,750 --> 00:32:06,799
um since the regions overlap an exposed

905
00:32:11,190 --> 00:32:09,760
person may suffer effects more than one

906
00:32:13,110 --> 00:32:11,200
region

907
00:32:14,470 --> 00:32:13,120
exposure to ultraviolet radiation can

908
00:32:17,590 --> 00:32:14,480
produce

909
00:32:19,509 --> 00:32:17,600
for i don't know how to say that

910
00:32:21,190 --> 00:32:19,519
a db of the eyelids

911
00:32:23,509 --> 00:32:21,200
yeah it

912
00:32:26,470 --> 00:32:23,519
can provide a strong channel

913
00:32:29,430 --> 00:32:26,480

yeah another strong general weakness

914

00:32:32,389 --> 00:32:29,440

anorexia nausea vomiting apathy severe

915

00:32:34,310 --> 00:32:32,399

headache sleeplessness and dizziness

916

00:32:36,310 --> 00:32:34,320

uh the symptoms provide a clue to the

917

00:32:38,950 --> 00:32:36,320

type of radiation exposure the degree of

918

00:32:42,149 --> 00:32:38,960

illness depends upon the type of energy

919

00:32:44,230 --> 00:32:42,159

of the radiation wow that's interesting

920

00:32:46,710 --> 00:32:44,240

yeah certainly the most listed symptoms

921

00:32:47,909 --> 00:32:46,720

can be found in the cash landrum

922

00:32:49,110 --> 00:32:47,919

incident

923

00:32:51,830 --> 00:32:49,120

wow

924

00:32:53,110 --> 00:32:51,840

i can also say there was um

925

00:32:54,710 --> 00:32:53,120

just trying to find it now there was a

926
00:32:57,029 --> 00:32:54,720
case in uh

927
00:32:58,389 --> 00:32:57,039
in canada in the great lakes i believe

928
00:33:00,149 --> 00:32:58,399
it was just let me look i'm just gonna

929
00:33:03,269 --> 00:33:00,159
search this document

930
00:33:05,669 --> 00:33:03,279
and um this guy actually ended up with a

931
00:33:07,750 --> 00:33:05,679
yeah he ended up next to a ufo

932
00:33:09,269 --> 00:33:07,760
and then uh he saw this craft that was

933
00:33:10,549 --> 00:33:09,279
that was stationary

934
00:33:12,070 --> 00:33:10,559
but it was kind of like humming it was

935
00:33:13,269 --> 00:33:12,080
like powered up and he kind of went near

936
00:33:15,350 --> 00:33:13,279
it and he ended up with this kind of

937
00:33:16,310 --> 00:33:15,360
like burnt grill like patting across his

938
00:33:17,110 --> 00:33:16,320

chest

939

00:33:18,630 --> 00:33:17,120

and

940

00:33:19,990 --> 00:33:18,640

he was in hospital he was really really

941

00:33:21,190 --> 00:33:20,000

ill

942

00:33:23,029 --> 00:33:21,200

wow

943

00:33:25,350 --> 00:33:23,039

you know canada has some very

944

00:33:26,549 --> 00:33:25,360

interesting stuff with that uh have you

945

00:33:29,110 --> 00:33:26,559

looked into

946

00:33:31,029 --> 00:33:29,120

project magnet at all

947

00:33:32,630 --> 00:33:31,039

i haven't no

948

00:33:35,029 --> 00:33:32,640

that's interesting

949

00:33:37,269 --> 00:33:35,039

that's a very interesting case um

950

00:33:40,310 --> 00:33:37,279

project magnet was kind of canada's ufo

951
00:33:42,230 --> 00:33:40,320
study that this wb smith um was heading

952
00:33:43,509 --> 00:33:42,240
up and he was part of the

953
00:33:46,070 --> 00:33:43,519
transportation department of

954
00:33:47,669 --> 00:33:46,080
transportation or whatever over there

955
00:33:49,830 --> 00:33:47,679
and

956
00:33:52,389 --> 00:33:49,840
there's a very interesting memo from him

957
00:33:56,230 --> 00:33:52,399
talking about how uh the americans

958
00:33:57,029 --> 00:33:56,240
looked at these flying saucers

959
00:33:58,870 --> 00:33:57,039
uh

960
00:34:00,789 --> 00:33:58,880
very interesting stuff i don't have the

961
00:34:02,630 --> 00:34:00,799
document handy right now but i'll have

962
00:34:06,389 --> 00:34:02,640
that one

963
00:34:10,149 --> 00:34:08,389

yes

964

00:34:13,990 --> 00:34:10,159

very interesting

965

00:34:15,349 --> 00:34:14,000

so i'm still researching that too so um

966

00:34:16,710 --> 00:34:15,359

what do you think is going to kind of

967

00:34:18,470 --> 00:34:16,720

roll out next do you think there's kind

968

00:34:21,909 --> 00:34:18,480

of a slow drip of

969

00:34:23,270 --> 00:34:21,919

like disclosure and stuff or

970

00:34:25,510 --> 00:34:23,280

you know do you think are we are we

971

00:34:26,550 --> 00:34:25,520

guaranteed anything at this point you

972

00:34:27,990 --> 00:34:26,560

think

973

00:34:30,710 --> 00:34:28,000

well there's going to be

974

00:34:33,589 --> 00:34:30,720

unclassified reports right assuming that

975

00:34:36,230 --> 00:34:33,599

that the ndaa goes through as is right

976

00:34:37,589 --> 00:34:36,240

through the senate um

977

00:34:39,829 --> 00:34:37,599

then

978

00:34:41,589 --> 00:34:39,839

there's going to be more unclassified

979

00:34:42,950 --> 00:34:41,599

reports coming up but the meat of it is

980

00:34:44,310 --> 00:34:42,960

still i believe going to be in the is

981

00:34:46,470 --> 00:34:44,320

still going to be in the classified

982

00:34:48,149 --> 00:34:46,480

annexes um i think there's still going

983

00:34:49,589 --> 00:34:48,159

to be resistance going down the road and

984

00:34:51,190 --> 00:34:49,599

i think that the fact that you know that

985

00:34:52,550 --> 00:34:51,200

that kind of that subsection of the

986

00:34:54,550 --> 00:34:52,560

amendment on the on the advisory

987

00:34:56,550 --> 00:34:54,560

committee was left out that's that's

988

00:34:58,950 --> 00:34:56,560

part of it um if you look at you know

989

00:35:00,390 --> 00:34:58,960

earlier in the year all the obfuscation

990

00:35:03,109 --> 00:35:00,400

from the um

991

00:35:04,550 --> 00:35:03,119

uh the the dod uh public affairs

992

00:35:06,870 --> 00:35:04,560

officers and saying oh you know we need

993

00:35:07,990 --> 00:35:06,880

to coordinate our response to like uap

994

00:35:09,270 --> 00:35:08,000

requests

995

00:35:11,030 --> 00:35:09,280

you know which is almost like a way to

996

00:35:12,630 --> 00:35:11,040

circumvent before your process but hang

997

00:35:15,109 --> 00:35:12,640

on that's like the legal right of people

998

00:35:16,950 --> 00:35:15,119

to find out yeah so i think that it's

999

00:35:19,510 --> 00:35:16,960

kind of part of a long history of

1000

00:35:20,950 --> 00:35:19,520

obfuscation and trying to cover it up um

1001
00:35:22,230 --> 00:35:20,960
and also as well i think just the like

1002
00:35:23,670 --> 00:35:22,240
the fact that they don't want to have

1003
00:35:25,190 --> 00:35:23,680
you know dod and the intelligence

1004
00:35:26,710 --> 00:35:25,200
community don't want to have more

1005
00:35:28,310 --> 00:35:26,720
oversight it's more of a hassle for them

1006
00:35:30,630 --> 00:35:28,320
if they have to report to somebody like

1007
00:35:32,310 --> 00:35:30,640
more regularly yeah but i think we will

1008
00:35:34,069 --> 00:35:32,320
slowly get more things out i think the

1009
00:35:34,870 --> 00:35:34,079
genie is like so far out of the bottle

1010
00:35:38,790 --> 00:35:34,880
now

1011
00:35:39,910 --> 00:35:38,800
there's so much um

1012
00:35:41,750 --> 00:35:39,920
that there's there's been so much kind

1013
00:35:43,829 --> 00:35:41,760

of steam behind it behind you know the

1014

00:35:44,950 --> 00:35:43,839

kind of disclosure initiative i think

1015

00:35:45,990 --> 00:35:44,960

people are just going to keep pushing

1016

00:35:47,910 --> 00:35:46,000

and pushing and pushing i don't see

1017

00:35:51,349 --> 00:35:47,920

anybody giving up on it it might take

1018

00:35:53,750 --> 00:35:51,359

years i don't know i can't say but yeah

1019

00:35:55,829 --> 00:35:53,760

yeah it's just like how do they not

1020

00:35:57,910 --> 00:35:55,839

realize that uh the way they treat it

1021

00:36:01,589 --> 00:35:57,920

just makes it even more appealing and

1022

00:36:06,950 --> 00:36:04,470

you know it just builds up more intrigue

1023

00:36:08,790 --> 00:36:06,960

if they're just like oh

1024

00:36:10,710 --> 00:36:08,800

you know it's nothing and stopped like

1025

00:36:12,550 --> 00:36:10,720

replying to stuff and

1026

00:36:13,750 --> 00:36:12,560

didn't even talk about it

1027

00:36:15,750 --> 00:36:13,760

you know yeah i know i mean it's

1028

00:36:17,109 --> 00:36:15,760

shocking really it's shocking really

1029

00:36:19,190 --> 00:36:17,119

because they're supposed to be i mean

1030

00:36:20,790 --> 00:36:19,200

the foyer process it's it's a

1031

00:36:22,230 --> 00:36:20,800

constitutional right right of the

1032

00:36:23,910 --> 00:36:22,240

american people to apply for foia

1033

00:36:24,870 --> 00:36:23,920

process okay if it's classified you

1034

00:36:27,109 --> 00:36:24,880

can't see it if they're not going to

1035

00:36:29,430 --> 00:36:27,119

declassify it but and to kind of to try

1036

00:36:30,710 --> 00:36:29,440

and delay it or not reply to people

1037

00:36:33,670 --> 00:36:30,720

um

1038

00:36:35,750 --> 00:36:33,680

oh yeah sorry i i found the

1039

00:36:39,349 --> 00:36:35,760

i thought it was falcon lake manitoba

1040

00:36:41,190 --> 00:36:39,359

may 20th 1967 stefan mitchell

1041

00:36:43,589 --> 00:36:41,200

and there was an emission from the craft

1042

00:36:45,109 --> 00:36:43,599

set his clothes ablaze and left him with

1043

00:36:46,550 --> 00:36:45,119

a mysterious burn mark across his

1044

00:36:48,230 --> 00:36:46,560

stomach

1045

00:36:52,150 --> 00:36:48,240

and apparently he was really ill after

1046

00:36:55,829 --> 00:36:54,390

yeah poor guy poor guy sorry that's what

1047

00:36:57,109 --> 00:36:55,839

hal put off as well said in his lecture

1048

00:36:59,030 --> 00:36:57,119

right he's like don't don't be near the

1049

00:36:59,910 --> 00:36:59,040

craft when it's powering up

1050

00:37:00,710 --> 00:36:59,920

yeah

1051

00:37:02,150 --> 00:37:00,720

man

1052

00:37:03,589 --> 00:37:02,160

uh

1053

00:37:04,950 --> 00:37:03,599

yeah what would you do would you like

1054

00:37:06,710 --> 00:37:04,960

run or you

1055

00:37:07,589 --> 00:37:06,720

would you like try to talk to him like

1056

00:37:09,510 --> 00:37:07,599

hello

1057

00:37:10,630 --> 00:37:09,520

oh man yeah yeah but he he actually

1058

00:37:11,910 --> 00:37:10,640

because he he was a craft and he was

1059

00:37:13,510 --> 00:37:11,920

like he i think he poked his head like

1060

00:37:15,510 --> 00:37:13,520

round around the um

1061

00:37:16,790 --> 00:37:15,520

around the entrance and he he was like

1062

00:37:18,710 --> 00:37:16,800

trying to figure out was there anybody

1063

00:37:21,349 --> 00:37:18,720

inside type thing so

1064

00:37:23,190 --> 00:37:21,359

i think he just got a very lucky dose

1065

00:37:25,430 --> 00:37:23,200

um and then that kind of reminds me of

1066

00:37:26,710 --> 00:37:25,440

the rental shim incident where they

1067

00:37:28,150 --> 00:37:26,720

you know we're getting pretty close to

1068

00:37:30,150 --> 00:37:28,160

that triangle thing

1069

00:37:32,630 --> 00:37:30,160

dude put his hand on it and it like lit

1070

00:37:34,790 --> 00:37:32,640

up or something with like and he saw a

1071

00:37:37,109 --> 00:37:34,800

bunch of signs

1072

00:37:38,870 --> 00:37:37,119

on planet or something um

1073

00:37:41,030 --> 00:37:38,880

very interesting sorry he was ill for

1074

00:37:43,670 --> 00:37:41,040

years after that wasn't he as well

1075

00:37:45,109 --> 00:37:43,680

i don't remember that sounds good

1076
00:37:47,750 --> 00:37:45,119
and then he was trying to get access to

1077
00:37:48,950 --> 00:37:47,760
his records and the and the the air

1078
00:37:50,950 --> 00:37:48,960
force is going oh we don't have your

1079
00:37:52,230 --> 00:37:50,960
records like you didn't serve type thing

1080
00:37:55,270 --> 00:37:52,240
and then he eventually got his i think

1081
00:37:57,190 --> 00:37:55,280
it was his local senator um on the case

1082
00:37:59,030 --> 00:37:57,200
uh and um they basically said no no you

1083
00:38:02,630 --> 00:37:59,040
have to give the guys records you're

1084
00:38:04,150 --> 00:38:02,640
right and i think they put him on um

1085
00:38:05,430 --> 00:38:04,160
they gave him some sort of like leave

1086
00:38:07,109 --> 00:38:05,440
payments

1087
00:38:10,069 --> 00:38:07,119
and that incident

1088
00:38:12,069 --> 00:38:10,079

was the reason why

1089

00:38:13,589 --> 00:38:12,079

and i think it was lou elizondo who said

1090

00:38:16,230 --> 00:38:13,599

that too

1091

00:38:18,390 --> 00:38:16,240

um i just have found like 106 documents

1092

00:38:20,630 --> 00:38:18,400

on that case by the way

1093

00:38:22,550 --> 00:38:20,640

pretty pretty yeah pretty interesting

1094

00:38:25,270 --> 00:38:22,560

did you find those

1095

00:38:26,950 --> 00:38:25,280

i find them all over the place

1096

00:38:29,270 --> 00:38:26,960

these i found i found a lot of my

1097

00:38:34,550 --> 00:38:29,280

documents on uh

1098

00:38:39,109 --> 00:38:36,150

i know i forgot what it's called already

1099

00:38:41,349 --> 00:38:39,119

but um clifford stone had all his

1100

00:38:42,790 --> 00:38:41,359

documents on there

1101

00:38:44,230 --> 00:38:42,800

and

1102

00:38:47,510 --> 00:38:44,240

i guess he's known for having one of the

1103

00:38:48,950 --> 00:38:47,520

biggest like uh document collections and

1104

00:38:50,150 --> 00:38:48,960

i know he said a lot of stuff that's out

1105

00:38:51,670 --> 00:38:50,160

there has nothing to do with the

1106

00:38:54,470 --> 00:38:51,680

documents that he got

1107

00:38:56,710 --> 00:38:54,480

but um yeah he's got a lot of stuff on

1108

00:38:58,150 --> 00:38:56,720

there if you have to just sign up eat a

1109

00:38:59,910 --> 00:38:58,160

free membership and you can download

1110

00:39:02,470 --> 00:38:59,920

pretty much whatever you want so i took

1111

00:39:04,630 --> 00:39:02,480

the lot of it and put it put it like

1112

00:39:06,630 --> 00:39:04,640

google drive and i'm slowly like trying

1113

00:39:08,630 --> 00:39:06,640

to just put it on my website and stuff

1114

00:39:10,150 --> 00:39:08,640

um but that's where i got all the air

1115

00:39:12,470 --> 00:39:10,160

force osi

1116

00:39:13,349 --> 00:39:12,480

uh documents from the 50s

1117

00:39:14,150 --> 00:39:13,359

um

1118

00:39:15,829 --> 00:39:14,160

which

1119

00:39:17,430 --> 00:39:15,839

osi investigations

1120

00:39:19,589 --> 00:39:17,440

yep

1121

00:39:22,150 --> 00:39:19,599

yeah and and these are pretty much all

1122

00:39:23,750 --> 00:39:22,160

like uh military bases and stuff

1123

00:39:25,190 --> 00:39:23,760

it's pretty interesting

1124

00:39:27,190 --> 00:39:25,200

that's really fascinating that you say

1125

00:39:28,870 --> 00:39:27,200

that because in the skinwalkers at the

1126

00:39:29,670 --> 00:39:28,880

pentagon book when they went to speak to

1127

00:39:30,470 --> 00:39:29,680

the

1128

00:39:32,150 --> 00:39:30,480

uh

1129

00:39:33,670 --> 00:39:32,160

special investigations guys the special

1130

00:39:35,589 --> 00:39:33,680

projects division they were saying about

1131

00:39:38,950 --> 00:39:35,599

how they'd um been investigating the

1132

00:39:41,510 --> 00:39:38,960

northern tier uap incursions so it makes

1133

00:39:43,190 --> 00:39:41,520

me wonder was that the osi sorry the air

1134

00:39:45,589 --> 00:39:43,200

force officer special investigations at

1135

00:39:47,190 --> 00:39:45,599

2004 at the the nimitz taking the hard

1136

00:39:51,190 --> 00:39:47,200

drives

1137

00:39:53,589 --> 00:39:51,200

um yeah i i wouldn't uh doubt it it it

1138

00:39:55,109 --> 00:39:53,599

was pretty much um

1139

00:39:57,430 --> 00:39:55,119

you know at least then this was like in

1140

00:39:59,030 --> 00:39:57,440

the 50s and stuff but it was uh air

1141

00:40:01,190 --> 00:39:59,040

force osi

1142

00:40:02,310 --> 00:40:01,200

yeah and uh attic

1143

00:40:03,670 --> 00:40:02,320

pretty much

1144

00:40:05,510 --> 00:40:03,680

atic

1145

00:40:06,870 --> 00:40:05,520

which was um

1146

00:40:08,309 --> 00:40:06,880

you know the real

1147

00:40:09,510 --> 00:40:08,319

group

1148

00:40:12,309 --> 00:40:09,520

intelligence

1149

00:40:13,829 --> 00:40:12,319

yeah and then it changed to aerospace

1150

00:40:15,990 --> 00:40:13,839

technical intelligence center but that

1151
00:40:17,270 --> 00:40:16,000
was a real group that everything was

1152
00:40:18,870 --> 00:40:17,280
um

1153
00:40:21,109 --> 00:40:18,880
coming out of and then they had the

1154
00:40:22,950 --> 00:40:21,119
names like grudge and blue book but that

1155
00:40:25,190 --> 00:40:22,960
really meant nothing

1156
00:40:26,870 --> 00:40:25,200
absolutely nothing it was them who did

1157
00:40:29,190 --> 00:40:26,880
it then there's different all these

1158
00:40:31,510 --> 00:40:29,200
different acronyms and groups like uh

1159
00:40:32,829 --> 00:40:31,520
air force um

1160
00:40:36,230 --> 00:40:32,839
special opera

1161
00:40:39,349 --> 00:40:36,240
a-f-s-o-i was one a-f-s-c

1162
00:40:43,510 --> 00:40:42,230
it's just like it's kind of endless

1163
00:40:45,829 --> 00:40:43,520

um

1164

00:40:47,510 --> 00:40:45,839
but you know i learned all of it

1165

00:40:49,030 --> 00:40:47,520
that's for sure

1166

00:40:50,790 --> 00:40:49,040
i'm gonna bring up that link somebody

1167

00:40:53,430 --> 00:40:50,800
asked me for the link for

1168

00:40:54,309 --> 00:40:53,440
those files on my website

1169

00:40:56,470 --> 00:40:54,319
so

1170

00:40:58,790 --> 00:40:56,480
i'm on my in terms of phenomenology i'm

1171

00:40:59,829 --> 00:40:58,800
on my i've got two two google drives for

1172

00:41:02,870 --> 00:40:59,839
it right

1173

00:41:04,710 --> 00:41:02,880
so because they fill up really yeah yeah

1174

00:41:09,670 --> 00:41:04,720
yeah i'm pretty sure that's what broke

1175

00:41:14,710 --> 00:41:13,270
yeah i'm not exactly sure but um

1176
00:41:15,829 --> 00:41:14,720
you know and then it's really more than

1177
00:41:17,750 --> 00:41:15,839
anything it's just really hard to

1178
00:41:19,430 --> 00:41:17,760
organize everything

1179
00:41:21,190 --> 00:41:19,440
you know because you got so much stuff

1180
00:41:22,710 --> 00:41:21,200
that you get so many different places

1181
00:41:25,109 --> 00:41:22,720
but when you go through this stuff you

1182
00:41:27,349 --> 00:41:25,119
really realize like how

1183
00:41:31,030 --> 00:41:27,359
complicated they made it and it has to

1184
00:41:36,069 --> 00:41:32,870
always changing names always changing

1185
00:41:38,550 --> 00:41:36,079
groups so yeah so here's a 124

1186
00:41:41,030 --> 00:41:38,560
encounters military cops fbi osi

1187
00:41:43,990 --> 00:41:41,040
commercial pilot seaman so

1188
00:41:46,309 --> 00:41:44,000

i like just picked these i went through

1189

00:41:47,910 --> 00:41:46,319

thousands of these files and just picked

1190

00:41:49,670 --> 00:41:47,920

these ones

1191

00:41:51,829 --> 00:41:49,680

because they were those because i know

1192

00:41:53,990 --> 00:41:51,839

people you know are affected by those

1193

00:41:58,550 --> 00:41:54,000

the most i guess

1194

00:42:04,069 --> 00:42:00,950

spent hundreds of hours reading right oh

1195

00:42:07,589 --> 00:42:04,079

totally and the whole reports of these

1196

00:42:09,270 --> 00:42:07,599

are in uh the files that are also uh

1197

00:42:10,950 --> 00:42:09,280

available but i just put like the one

1198

00:42:12,309 --> 00:42:10,960

sheets here just so you know you can see

1199

00:42:15,829 --> 00:42:12,319

it and stuff

1200

00:42:17,270 --> 00:42:15,839

but uh to grab them

1201

00:42:18,550 --> 00:42:17,280

yeah you just

1202

00:42:21,430 --> 00:42:18,560

click the pic

1203

00:42:22,710 --> 00:42:21,440

yeah yeah i'll take a fly by the side

1204

00:42:26,150 --> 00:42:22,720

excellent yeah

1205

00:42:28,230 --> 00:42:26,160

and uh this one number 17

1206

00:42:30,150 --> 00:42:28,240

is oh too large

1207

00:42:32,230 --> 00:42:30,160

too large to open but that's new mexico

1208

00:42:34,630 --> 00:42:32,240

it's 700 some pages in there

1209

00:42:37,109 --> 00:42:34,640

whoa okay

1210

00:42:38,710 --> 00:42:37,119

yeah so you know what you're doing but i

1211

00:42:40,870 --> 00:42:38,720

mean that's where i got my conviction

1212

00:42:42,470 --> 00:42:40,880

that something's going on you just read

1213

00:42:45,270 --> 00:42:42,480

those and you're like okay something's

1214

00:42:48,309 --> 00:42:45,280

happening what is the freaking deal man

1215

00:42:51,109 --> 00:42:48,319

so many times visual and radar sightings

1216

00:42:54,230 --> 00:42:51,119

visual and radar settings you know

1217

00:42:56,069 --> 00:42:54,240

uh of crazy maneuvers and unbelievable

1218

00:42:57,270 --> 00:42:56,079

speeds so

1219

00:42:59,270 --> 00:42:57,280

that's exactly the same thing i've been

1220

00:43:00,550 --> 00:42:59,280

seeing in um you know spanish ufo files

1221

00:43:01,990 --> 00:43:00,560

when i go through them detached by

1222

00:43:03,190 --> 00:43:02,000

spanish air force files it's exactly the

1223

00:43:04,069 --> 00:43:03,200

same deal

1224

00:43:04,790 --> 00:43:04,079

right

1225

00:43:06,470 --> 00:43:04,800

yeah

1226

00:43:08,390 --> 00:43:06,480

you shared that link with me that was

1227

00:43:10,870 --> 00:43:08,400

pretty some pretty great research on

1228

00:43:12,710 --> 00:43:10,880

those well i mean yeah i mean it was you

1229

00:43:14,470 --> 00:43:12,720

know i just i just looked at the summary

1230

00:43:16,550 --> 00:43:14,480

but i mean the

1231

00:43:18,230 --> 00:43:16,560

the the system that they had for it was

1232

00:43:19,670 --> 00:43:18,240

i mean they were really sophisticated

1233

00:43:21,430 --> 00:43:19,680

when they're doing it and they had what

1234

00:43:22,950 --> 00:43:21,440

you know the different type of craft was

1235

00:43:25,190 --> 00:43:22,960

it like tripod or did it have like you

1236

00:43:26,230 --> 00:43:25,200

know tripod did it have wheels you know

1237

00:43:27,589 --> 00:43:26,240

wow they

1238

00:43:29,190 --> 00:43:27,599

they were really detailed how they went

1239

00:43:31,030 --> 00:43:29,200

through it so that was just a summary of

1240

00:43:32,870 --> 00:43:31,040

some of the cases what were some of the

1241

00:43:34,309 --> 00:43:32,880

more common physical aspects that you

1242

00:43:35,829 --> 00:43:34,319

saw

1243

00:43:38,150 --> 00:43:35,839

a lot of them were kind of like you know

1244

00:43:40,710 --> 00:43:38,160

orbs or lights um but there's one

1245

00:43:43,190 --> 00:43:40,720

actually really fascinating um

1246

00:43:45,829 --> 00:43:43,200

um file from the canary ions actually

1247

00:43:47,270 --> 00:43:45,839

and it's got uh a commercial pilot and

1248

00:43:48,870 --> 00:43:47,280

he's there sitting there with his with

1249

00:43:50,950 --> 00:43:48,880

his navigator and he and the flight

1250

00:43:52,150 --> 00:43:50,960

engineer and they're seeing this craft

1251

00:43:54,150 --> 00:43:52,160

that like follows them along and it's

1252

00:43:56,390 --> 00:43:54,160

got the whole kind of like log of the

1253

00:43:57,829 --> 00:43:56,400

the flight crew talking to

1254

00:43:59,670 --> 00:43:57,839

um the

1255

00:44:01,030 --> 00:43:59,680

the the radar operators right the

1256

00:44:02,230 --> 00:44:01,040

military and the civilian radar

1257

00:44:04,230 --> 00:44:02,240

operators and they're saying oh you know

1258

00:44:06,630 --> 00:44:04,240

we've got a ufo next to us and they have

1259

00:44:09,589 --> 00:44:06,640

this whole conversation it's pretty

1260

00:44:11,750 --> 00:44:09,599

really out there yeah wow but um

1261

00:44:13,670 --> 00:44:11,760

i like the quality of the of the reports

1262

00:44:15,190 --> 00:44:13,680

because a lot of it is um it's like

1263

00:44:17,430 --> 00:44:15,200

multiple military personnel a

1264

00:44:19,190 --> 00:44:17,440

combination of like pilots or police you

1265

00:44:20,309 --> 00:44:19,200

know it's it's they've got good quality

1266

00:44:22,069 --> 00:44:20,319

witnesses

1267

00:44:24,069 --> 00:44:22,079

yeah and they seem to take it a little

1268

00:44:26,309 --> 00:44:24,079

more seriously too i forget do you

1269

00:44:28,630 --> 00:44:26,319

remember that report that came out not

1270

00:44:29,990 --> 00:44:28,640

was it not too long ago by them i forgot

1271

00:44:31,270 --> 00:44:30,000

what it was called

1272

00:44:33,589 --> 00:44:31,280

but the french commenter report you're

1273

00:44:34,950 --> 00:44:33,599

talking about yes yeah yeah yeah i

1274

00:44:36,230 --> 00:44:34,960

mean the french the french and spanish

1275

00:44:37,589 --> 00:44:36,240

took a lot more seriously but i think

1276

00:44:39,109 --> 00:44:37,599

the french were

1277

00:44:40,470 --> 00:44:39,119

have always been a lot more open about

1278

00:44:42,870 --> 00:44:40,480

it the spanish didn't start being they

1279

00:44:43,829 --> 00:44:42,880

didn't release them until like 1996 i

1280

00:44:45,829 --> 00:44:43,839

believe

1281

00:44:47,349 --> 00:44:45,839

yeah you're talking about spanish yeah

1282

00:44:49,190 --> 00:44:47,359

yeah it was really because i mean spain

1283

00:44:50,470 --> 00:44:49,200

was in dictatorship in the 70s and it

1284

00:44:53,589 --> 00:44:50,480

didn't really come out of it until kind

1285

00:44:54,870 --> 00:44:53,599

of like 1982 you know um the french i

1286

00:44:56,630 --> 00:44:54,880

think they've been you know a lot more

1287

00:44:57,829 --> 00:44:56,640

open with their public for a lot longer

1288

00:44:59,349 --> 00:44:57,839

and i mean hey if you're talking about

1289

00:45:00,630 --> 00:44:59,359

you know a disclosure in the states i

1290

00:45:02,230 --> 00:45:00,640

mean you forget about other countries

1291

00:45:03,910 --> 00:45:02,240

but you know why couldn't they follow

1292

00:45:05,910 --> 00:45:03,920

the french example because the french

1293

00:45:07,670 --> 00:45:05,920

have released a lot and they've had this

1294

00:45:09,349 --> 00:45:07,680

committee a gay pan and they've you know

1295

00:45:11,109 --> 00:45:09,359

the committed report comments report

1296

00:45:13,030 --> 00:45:11,119

they've got senior people from civil

1297

00:45:14,950 --> 00:45:13,040

aviation from the military senior air

1298

00:45:16,309 --> 00:45:14,960

force people um

1299

00:45:17,510 --> 00:45:16,319

and they've made lots of stuff available

1300

00:45:19,430 --> 00:45:17,520

to the public

1301
00:45:20,790 --> 00:45:19,440
yeah without compromising their national

1302
00:45:23,349 --> 00:45:20,800
security

1303
00:45:26,309 --> 00:45:23,359
yeah that's that's very true well maybe

1304
00:45:28,710 --> 00:45:26,319
uh mr jack vale is working

1305
00:45:30,630 --> 00:45:28,720
working some charm over there perhaps

1306
00:45:32,470 --> 00:45:30,640
you speak spanish too don't you

1307
00:45:34,630 --> 00:45:32,480
yeah yeah i do for my students

1308
00:45:36,150 --> 00:45:34,640
yes so that's

1309
00:45:37,750 --> 00:45:36,160
you know you can find a lot more truth

1310
00:45:39,990 --> 00:45:37,760
about this stuff for if you could dive

1311
00:45:41,750 --> 00:45:40,000
into documents all around the world i

1312
00:45:43,670 --> 00:45:41,760
would imagine you know but most people

1313
00:45:45,990 --> 00:45:43,680

can only speak one language but you know

1314

00:45:47,910 --> 00:45:46,000

like i'm going through uh australian

1315

00:45:51,510 --> 00:45:47,920

files same stuff just like you're

1316

00:45:53,430 --> 00:45:51,520

describing same features everything

1317

00:45:55,589 --> 00:45:53,440

yeah i mean i think you know you're

1318

00:45:57,190 --> 00:45:55,599

you're quite well set um

1319

00:45:58,790 --> 00:45:57,200

i mean like you know spanish is a very

1320

00:46:00,230 --> 00:45:58,800

widely spoken language you've got like

1321

00:46:02,550 --> 00:46:00,240

you know spain you've got all of south

1322

00:46:04,390 --> 00:46:02,560

america as well central america

1323

00:46:05,430 --> 00:46:04,400

um they're like you know yeah english as

1324

00:46:06,230 --> 00:46:05,440

well because then obviously you've got

1325

00:46:07,670 --> 00:46:06,240

to be you know the whole of the

1326
00:46:10,790 --> 00:46:07,680
english-speaking world you can dive into

1327
00:46:13,030 --> 00:46:10,800
the files yeah yeah i'd like to learn

1328
00:46:15,030 --> 00:46:13,040
more about uh portugal ufos because

1329
00:46:16,069 --> 00:46:15,040
that's where uh my ancestors are from

1330
00:46:17,360 --> 00:46:16,079
but

1331
00:46:19,109 --> 00:46:17,370
i don't speak that language

1332
00:46:21,190 --> 00:46:19,119
[Laughter]

1333
00:46:23,430 --> 00:46:21,200
maybe one that's a beautiful country

1334
00:46:26,870 --> 00:46:23,440
yeah i want to i want to definitely

1335
00:46:30,069 --> 00:46:28,390
first things first though you know you

1336
00:46:31,589 --> 00:46:30,079
got to pay the bills so what's on tap

1337
00:46:34,069 --> 00:46:31,599
for you what are you trying to get into

1338
00:46:36,230 --> 00:46:34,079

what are you studying um

1339

00:46:37,910 --> 00:46:36,240

what's your goal in all this

1340

00:46:39,990 --> 00:46:37,920

um

1341

00:46:41,430 --> 00:46:40,000

well i mean goal is i guess it is

1342

00:46:43,670 --> 00:46:41,440

knowledge and to find out as much as i

1343

00:46:45,510 --> 00:46:43,680

can but uh yeah i've got like an

1344

00:46:46,870 --> 00:46:45,520

absolutely huge reading list i must have

1345

00:46:50,150 --> 00:46:46,880

accumulated at least kind of like a

1346

00:46:51,430 --> 00:46:50,160

hundred books on a subject recently um

1347

00:46:52,390 --> 00:46:51,440

and i'm just trying to work my way

1348

00:46:54,309 --> 00:46:52,400

through

1349

00:46:55,990 --> 00:46:54,319

um but you know there's always like some

1350

00:46:57,349 --> 00:46:56,000

new document like i'm talking to you

1351

00:46:59,030 --> 00:46:57,359

today like i want to go and check out

1352

00:47:00,390 --> 00:46:59,040

all the documents and you've got and

1353

00:47:02,069 --> 00:47:00,400

read those i've got a whole load of like

1354

00:47:03,990 --> 00:47:02,079

an inbox with a whole load of documents

1355

00:47:05,750 --> 00:47:04,000

i haven't read yet then all the books

1356

00:47:07,670 --> 00:47:05,760

that i haven't read um but the way i'm

1357

00:47:09,750 --> 00:47:07,680

going yeah i want to go

1358

00:47:11,510 --> 00:47:09,760

with another paper but i want to read a

1359

00:47:13,510 --> 00:47:11,520

lot more first i want to get like into

1360

00:47:15,270 --> 00:47:13,520

more into like jack valet as well and

1361

00:47:17,109 --> 00:47:15,280

more of the high strangeness because i

1362

00:47:18,870 --> 00:47:17,119

came at it from very much you know kind

1363

00:47:19,990 --> 00:47:18,880

of like the nuts and bolts to start off

1364

00:47:21,270 --> 00:47:20,000

with and the national security

1365

00:47:23,030 --> 00:47:21,280

perspective but i want to understand

1366

00:47:24,710 --> 00:47:23,040

more about the consciousness and the

1367

00:47:25,910 --> 00:47:24,720

high strangeness because i think you

1368

00:47:27,670 --> 00:47:25,920

know that that's obviously equally

1369

00:47:29,510 --> 00:47:27,680

important um

1370

00:47:31,030 --> 00:47:29,520

that's where i'm going with it i'm just

1371

00:47:33,349 --> 00:47:31,040

i'm just taking it all in at the moment

1372

00:47:35,430 --> 00:47:33,359

sean yeah no i mean what else can you

1373

00:47:36,630 --> 00:47:35,440

really do if it was an easy subject we

1374

00:47:38,950 --> 00:47:36,640

would have had it figured out a long

1375

00:47:41,670 --> 00:47:38,960

time ago

1376

00:47:42,630 --> 00:47:41,680

you know and it's definitely not

1377

00:47:45,510 --> 00:47:42,640

um

1378

00:47:47,910 --> 00:47:45,520

you ever like try to meditate or

1379

00:47:49,910 --> 00:47:47,920

explore your own consciousness

1380

00:47:51,190 --> 00:47:49,920

yeah yeah absolutely

1381

00:47:53,109 --> 00:47:51,200

i've had some you know what you call

1382

00:47:54,710 --> 00:47:53,119

outer body experiences and quite crazy

1383

00:47:56,230 --> 00:47:54,720

ones um

1384

00:47:57,589 --> 00:47:56,240

i i mean i generally meditate just for

1385

00:47:58,950 --> 00:47:57,599

relaxation

1386

00:48:00,630 --> 00:47:58,960

and just like i like to do it you know

1387

00:48:02,390 --> 00:48:00,640

when i wake up for example and before i

1388

00:48:03,990 --> 00:48:02,400

go to bed just like i kind of start my

1389

00:48:04,710 --> 00:48:04,000

day on kind of like an even keel you

1390

00:48:05,670 --> 00:48:04,720

know

1391

00:48:07,190 --> 00:48:05,680

yeah

1392

00:48:08,230 --> 00:48:07,200

it's very easy just to wake up it's like

1393

00:48:09,670 --> 00:48:08,240

i've got to do all these things i've got

1394

00:48:10,710 --> 00:48:09,680

to do emails i've got to make breakfast

1395

00:48:12,069 --> 00:48:10,720

i got to do this i could do that i've

1396

00:48:13,990 --> 00:48:12,079

got to go to the gym whatever it's just

1397

00:48:15,030 --> 00:48:14,000

like no just take 10 or 15 minutes for

1398

00:48:17,910 --> 00:48:15,040

yourself

1399

00:48:19,589 --> 00:48:17,920

yeah you know and then start your day

1400

00:48:23,030 --> 00:48:19,599

yeah i try to do that at the lake every

1401

00:48:25,190 --> 00:48:23,040

day uh today i was just uh got

1402

00:48:27,910 --> 00:48:25,200

molly whopped by a meteor shower by the

1403

00:48:30,150 --> 00:48:27,920

lake today it was pretty intense

1404

00:48:32,069 --> 00:48:30,160

um for a second i'm like this better not

1405

00:48:33,349 --> 00:48:32,079

be ufos

1406

00:48:34,549 --> 00:48:33,359

but she lifting her leg that's really

1407

00:48:37,270 --> 00:48:34,559

cool

1408

00:48:38,950 --> 00:48:37,280

uh yeah i don't live near lake it's uh

1409

00:48:40,309 --> 00:48:38,960

by my office though so in the morning

1410

00:48:42,309 --> 00:48:40,319

i'll just go drive and hang out there

1411

00:48:43,430 --> 00:48:42,319

for a little bit before i go

1412

00:48:45,750 --> 00:48:43,440

so

1413

00:48:48,470 --> 00:48:45,760

um

1414

00:48:51,910 --> 00:48:48,480

so if you could recommend any book that

1415

00:48:53,670 --> 00:48:51,920

you have read what would it be

1416

00:48:54,950 --> 00:48:53,680

um in fact well let's just take a look

1417

00:48:57,430 --> 00:48:54,960

now um

1418

00:48:59,670 --> 00:48:57,440

do a quick library tour

1419

00:49:01,430 --> 00:48:59,680

oh robert's gonna comment i've um i

1420

00:49:02,710 --> 00:49:01,440

recently read um i'm actually reading

1421

00:49:04,230 --> 00:49:02,720

what am i reading at the moment uh i

1422

00:49:05,910 --> 00:49:04,240

studied jack vales but the last one

1423

00:49:07,030 --> 00:49:05,920

about trinity so i've got that on the go

1424

00:49:09,270 --> 00:49:07,040

i've got um

1425

00:49:11,190 --> 00:49:09,280

ufos and nukes on the go i've got ross

1426

00:49:13,109 --> 00:49:11,200

cool thoughts book on the go i've got

1427

00:49:16,470 --> 00:49:13,119

untold documents on the go

1428

00:49:19,990 --> 00:49:17,910

cool thought yeah

1429

00:49:21,510 --> 00:49:20,000

but um

1430

00:49:23,430 --> 00:49:21,520

what

1431

00:49:25,829 --> 00:49:23,440

um yeah so i've got all these books like

1432

00:49:27,990 --> 00:49:25,839

um you know john keel joseph farrell

1433

00:49:31,829 --> 00:49:28,000

nick cook nick redfern

1434

00:49:33,430 --> 00:49:31,839

paul hill was the um was the uh

1435

00:49:35,190 --> 00:49:33,440

the nasa engineer that i was telling you

1436

00:49:36,630 --> 00:49:35,200

about in the late 60s who wrote what was

1437

00:49:38,470 --> 00:49:36,640

the name of this book i would really

1438

00:49:40,870 --> 00:49:38,480

recommend this book

1439

00:49:42,710 --> 00:49:40,880

it's called

1440

00:49:45,190 --> 00:49:42,720

unconventional flying objects a former

1441

00:49:47,349 --> 00:49:45,200

nasa scientist explains how ufos really

1442

00:49:50,230 --> 00:49:47,359

work paul r hill and he got a really

1443

00:49:52,950 --> 00:49:50,240

good write-up from eric davis um eric

1444

00:49:54,790 --> 00:49:52,960

davis and and um and put off they wrote

1445

00:49:55,910 --> 00:49:54,800

a synopsis of the book and they were

1446

00:49:57,510 --> 00:49:55,920

saying look even though he was in the

1447

00:49:58,950 --> 00:49:57,520

60s and he didn't have you know the

1448

00:50:00,630 --> 00:49:58,960

knowledge that we have today like he did

1449

00:50:02,870 --> 00:50:00,640

a really good job with it and he does

1450

00:50:05,109 --> 00:50:02,880

affects you know ufos the propulsion

1451

00:50:07,670 --> 00:50:05,119

system like um how they can operate like

1452

00:50:09,990 --> 00:50:07,680

a weapon system the effects on humans so

1453

00:50:11,349 --> 00:50:10,000

i definitely recommend that book

1454

00:50:13,910 --> 00:50:11,359

um

1455

00:50:16,630 --> 00:50:13,920

so weird to me that the effects are just

1456

00:50:20,790 --> 00:50:16,640

always so close to like direct energy

1457

00:50:22,870 --> 00:50:20,800

weapons or emps or whatever but

1458

00:50:26,069 --> 00:50:22,880

you know through looking into this stuff

1459

00:50:26,870 --> 00:50:26,079

it also seems sometimes that we have

1460

00:50:29,910 --> 00:50:26,880

been

1461

00:50:31,770 --> 00:50:29,920

you know looking into ufos just about as

1462

00:50:33,990 --> 00:50:31,780

long as we've been looking into those

1463

00:50:35,910 --> 00:50:34,000

[Laughter]

1464

00:50:38,390 --> 00:50:35,920

so i wonder sometimes if that stuff is

1465

00:50:41,190 --> 00:50:38,400

connected i have no idea of course but

1466

00:50:42,150 --> 00:50:41,200

it's it's very uh very interesting for

1467

00:50:43,430 --> 00:50:42,160

sure

1468

00:50:45,109 --> 00:50:43,440

um

1469

00:50:46,470 --> 00:50:45,119

yeah i know what you mean too was so

1470

00:50:48,230 --> 00:50:46,480

many books

1471

00:50:50,710 --> 00:50:48,240

i've got at least i don't know 10 or 12

1472

00:50:52,630 --> 00:50:50,720

books by valet um

1473

00:50:55,030 --> 00:50:52,640

bingo swan i got all of his books just

1474

00:50:55,910 --> 00:50:55,040

pretty much um

1475

00:50:57,829 --> 00:50:55,920

yeah

1476
00:51:00,630 --> 00:50:57,839
oh here it is this is the one i wanted

1477
00:51:05,910 --> 00:51:00,640
to share initially

1478
00:51:08,790 --> 00:51:06,829
betty

1479
00:51:11,349 --> 00:51:08,800
cashio

1480
00:51:14,230 --> 00:51:11,359
eyes swollen and watery stomach pains

1481
00:51:15,670 --> 00:51:14,240
diarrhea oh dear lord yeah this is from

1482
00:51:17,190 --> 00:51:15,680
cash landrum yes

1483
00:51:18,790 --> 00:51:17,200
yeah

1484
00:51:25,510 --> 00:51:18,800
man they really suffered those ladies

1485
00:51:31,510 --> 00:51:27,829
showing approximately 50 percent loss

1486
00:51:35,349 --> 00:51:32,910
and it's still

1487
00:51:37,270 --> 00:51:35,359
undetermined what happened there and

1488
00:51:38,390 --> 00:51:37,280

those cases are the most interesting to

1489

00:51:40,390 --> 00:51:38,400

me as well

1490

00:51:42,549 --> 00:51:40,400

so yeah i feel like i could talk to you

1491

00:51:44,150 --> 00:51:42,559

about this stuff all day

1492

00:51:48,950 --> 00:51:44,160

yeah absolutely

1493

00:51:51,829 --> 00:51:50,790

he was actually you know doing his whole

1494

00:51:53,750 --> 00:51:51,839

i don't know if you saw that he did a

1495

00:51:56,230 --> 00:51:53,760

whole presentation from like ancient

1496

00:51:57,190 --> 00:51:56,240

antique from ancient antiquity on uap

1497

00:51:59,990 --> 00:51:57,200

sightings

1498

00:52:01,829 --> 00:52:00,000

and uh there was one of um

1499

00:52:02,870 --> 00:52:01,839

potentially people suffering ill effects

1500

00:52:04,309 --> 00:52:02,880

right like in the kind of like the

1501
00:52:06,870 --> 00:52:04,319
middle ages from you know being in

1502
00:52:08,069 --> 00:52:06,880
contact with the ufo yeah and it was

1503
00:52:09,910 --> 00:52:08,079
you've got to see that presentation

1504
00:52:12,069 --> 00:52:09,920
because uh it's about two hours long he

1505
00:52:14,069 --> 00:52:12,079
literally goes from kind of like

1506
00:52:16,150 --> 00:52:14,079
yeah he literally goes for about 15 000

1507
00:52:17,589 --> 00:52:16,160
years bc or more and then he kind of

1508
00:52:19,270 --> 00:52:17,599
goes to the modern age and you just see

1509
00:52:20,710 --> 00:52:19,280
like a pattern emerging and like the

1510
00:52:22,790 --> 00:52:20,720
foot there's a there's a the first

1511
00:52:25,750 --> 00:52:22,800
triangle apparently was like seen in 15

1512
00:52:27,030 --> 00:52:25,760
something um really really incredible

1513
00:52:28,549 --> 00:52:27,040

really really good you see this whole

1514

00:52:30,710 --> 00:52:28,559

pattern emerge

1515

00:52:31,750 --> 00:52:30,720

yeah see i watched the

1516

00:52:33,750 --> 00:52:31,760

um

1517

00:52:35,670 --> 00:52:33,760

the first video he posted where he

1518

00:52:37,430 --> 00:52:35,680

wasn't doing the presentation and i

1519

00:52:39,829 --> 00:52:37,440

didn't i wasn't really

1520

00:52:42,470 --> 00:52:39,839

i wasn't really into it but i was uh i'm

1521

00:52:44,069 --> 00:52:42,480

very curious to see the presentation for

1522

00:52:45,190 --> 00:52:44,079

sure because i think this stuff has been

1523

00:52:46,470 --> 00:52:45,200

around

1524

00:52:50,230 --> 00:52:46,480

you know

1525

00:52:51,829 --> 00:52:50,240

um longer than we have and

1526

00:52:53,990 --> 00:52:51,839

you know it's

1527

00:52:57,589 --> 00:52:54,000

you can see it in an ancient scripture

1528

00:52:58,790 --> 00:52:57,599

or writings or uh cave drawings

1529

00:53:00,870 --> 00:52:58,800

or

1530

00:53:02,549 --> 00:53:00,880

you know in a lot of different things

1531

00:53:05,670 --> 00:53:02,559

but it's interesting too because it kind

1532

00:53:07,510 --> 00:53:05,680

of plays into see what you can handle

1533

00:53:08,309 --> 00:53:07,520

type of thing you know because it almost

1534

00:53:10,069 --> 00:53:08,319

seems

1535

00:53:12,549 --> 00:53:10,079

you know the way they were described or

1536

00:53:15,990 --> 00:53:12,559

were talked about was in a way that they

1537

00:53:17,750 --> 00:53:16,000

could handle you know or make sense of

1538

00:53:20,230 --> 00:53:17,760

much like we do now

1539

00:53:23,990 --> 00:53:20,240

um yeah we would make a flying saucer

1540

00:53:25,829 --> 00:53:24,000

like a 1950s mustang

1541

00:53:27,030 --> 00:53:25,839

yeah yeah

1542

00:53:28,549 --> 00:53:27,040

yeah

1543

00:53:30,710 --> 00:53:28,559

um

1544

00:53:33,030 --> 00:53:30,720

anything you want to talk about uh we're

1545

00:53:36,549 --> 00:53:33,040

about at the we're close to the hour

1546

00:53:37,829 --> 00:53:36,559

mark that's usually how long ago but um

1547

00:53:39,589 --> 00:53:37,839

not some fun

1548

00:53:40,790 --> 00:53:39,599

there's something on your brain

1549

00:53:43,510 --> 00:53:40,800

no just if there's anything you

1550

00:53:43,830 --> 00:53:43,520

particularly um wanted to discuss

1551
00:53:46,069 --> 00:53:43,840
um

1552
00:53:49,270 --> 00:53:46,079
[Music]

1553
00:53:55,030 --> 00:53:51,670
i'd look out for um kind of more

1554
00:53:57,750 --> 00:53:55,040
obfuscation going forward like after

1555
00:53:59,510 --> 00:53:57,760
the ndaa is passed yeah so they're going

1556
00:54:01,030 --> 00:53:59,520
to the eod the ic are going to have a

1557
00:54:02,069 --> 00:54:01,040
certain period of time before they have

1558
00:54:03,270 --> 00:54:02,079
to put

1559
00:54:05,190 --> 00:54:03,280
um the

1560
00:54:07,910 --> 00:54:05,200
details effectively of the of what is

1561
00:54:09,829 --> 00:54:07,920
the gilly band rubio gallego

1562
00:54:11,030 --> 00:54:09,839
amendment into force

1563
00:54:12,790 --> 00:54:11,040

and then to see

1564

00:54:14,950 --> 00:54:12,800

how well they do that do they do some

1565

00:54:16,630 --> 00:54:14,960

kind of like meld of two

1566

00:54:18,630 --> 00:54:16,640

do they have two separate officers or do

1567

00:54:20,390 --> 00:54:18,640

they have one office and are they are

1568

00:54:21,829 --> 00:54:20,400

they just following like the letter of

1569

00:54:23,430 --> 00:54:21,839

the law or are they actually in the

1570

00:54:24,950 --> 00:54:23,440

spirit of the law as well and are they

1571

00:54:26,549 --> 00:54:24,960

trying to obfuscate going forward i

1572

00:54:28,630 --> 00:54:26,559

think that's going to be really key how

1573

00:54:29,829 --> 00:54:28,640

how they put it into practice

1574

00:54:31,349 --> 00:54:29,839

i don't like that they have the two

1575

00:54:32,309 --> 00:54:31,359

different offices i'll tell you that

1576

00:54:34,630 --> 00:54:32,319

it's like what are you going to do

1577

00:54:37,109 --> 00:54:34,640

double the work are you going to really

1578

00:54:39,109 --> 00:54:37,119

cooperate with each other or right now

1579

00:54:41,349 --> 00:54:39,119

what are you doing are you hiding things

1580

00:54:43,510 --> 00:54:41,359

right now or figuring out of a way to

1581

00:54:45,430 --> 00:54:43,520

hide things in the future

1582

00:54:46,950 --> 00:54:45,440

yeah you know but from a from a

1583

00:54:48,630 --> 00:54:46,960

bureaucratic perspective i mean that

1584

00:54:50,950 --> 00:54:48,640

that doesn't make sense either because

1585

00:54:52,789 --> 00:54:50,960

um you know if you're the principle of

1586

00:54:55,270 --> 00:54:52,799

intelligence yeah is that you have

1587

00:54:56,470 --> 00:54:55,280

centralized control and you have a

1588

00:54:58,150 --> 00:54:56,480

what's called economy of effort you

1589

00:55:00,230 --> 00:54:58,160

don't want to duplicate effort

1590

00:55:01,270 --> 00:55:00,240

so you don't have overlap you know one

1591

00:55:02,710 --> 00:55:01,280

office doing one thing and then

1592

00:55:04,309 --> 00:55:02,720

overlapping with another it's just a

1593

00:55:06,549 --> 00:55:04,319

waste of resources

1594

00:55:07,990 --> 00:55:06,559

um so yeah i i'm going to be watching

1595

00:55:10,230 --> 00:55:08,000

all these things going forward to see

1596

00:55:11,910 --> 00:55:10,240

exactly what they do and how they do it

1597

00:55:12,870 --> 00:55:11,920

yeah and it's interesting to actually

1598

00:55:13,750 --> 00:55:12,880

see the

1599

00:55:15,430 --> 00:55:13,760

um

1600

00:55:17,910 --> 00:55:15,440

i always forget his name but what's his

1601
00:55:19,829 --> 00:55:17,920
face um

1602
00:55:21,990 --> 00:55:19,839
talking in actually getting asked

1603
00:55:24,470 --> 00:55:22,000
questions about these things now uh

1604
00:55:26,630 --> 00:55:24,480
kirby i think his name is yeah yeah

1605
00:55:27,750 --> 00:55:26,640
admiral john kirby yeah

1606
00:55:29,430 --> 00:55:27,760
and

1607
00:55:32,230 --> 00:55:29,440
he doesn't really seem very comfortable

1608
00:55:34,950 --> 00:55:32,240
with it which is awesome

1609
00:55:35,750 --> 00:55:34,960
yeah yeah i i i think that i mean being

1610
00:55:37,670 --> 00:55:35,760
um

1611
00:55:39,349 --> 00:55:37,680
you know being that being the mouthpiece

1612
00:55:42,230 --> 00:55:39,359
is because you know he's not going to be

1613
00:55:43,430 --> 00:55:42,240

read in on everything uh yeah right so i

1614

00:55:45,030 --> 00:55:43,440

think that's part of the problem he's

1615

00:55:46,470 --> 00:55:45,040

probably just read like

1616

00:55:48,390 --> 00:55:46,480

you know the um

1617

00:55:49,510 --> 00:55:48,400

uh you know the secretary defense's memo

1618

00:55:50,789 --> 00:55:49,520

on the setting up of the the

1619

00:55:51,910 --> 00:55:50,799

establishment of the new office that's

1620

00:55:53,349 --> 00:55:51,920

probably as far as he's gone and he's

1621

00:55:55,510 --> 00:55:53,359

got a briefing of what he can talk about

1622

00:55:57,589 --> 00:55:55,520

and what he can't probably so

1623

00:56:00,390 --> 00:55:57,599

i i can't you know see that he's gonna

1624

00:56:02,710 --> 00:56:00,400

be able to delve into it that deeply um

1625

00:56:05,670 --> 00:56:02,720

but i mean already the the report in

1626
00:56:07,910 --> 00:56:05,680
june from the ua ptf and the odni i mean

1627
00:56:10,789 --> 00:56:07,920
it was tasked last year

1628
00:56:12,549 --> 00:56:10,799
yeah congress tossed the uaptf and the

1629
00:56:13,910 --> 00:56:12,559
odni they said you know you need to tell

1630
00:56:15,349 --> 00:56:13,920
us is there a threat to this you know

1631
00:56:16,710 --> 00:56:15,359
national security the united states and

1632
00:56:19,030 --> 00:56:16,720
they haven't done that at least not in

1633
00:56:20,710 --> 00:56:19,040
the public version right um

1634
00:56:23,030 --> 00:56:20,720
so you know you could argue okay the

1635
00:56:24,710 --> 00:56:23,040
uaptf was like understaffed whatever it

1636
00:56:26,630 --> 00:56:24,720
couldn't get couldn't get access to you

1637
00:56:29,349 --> 00:56:26,640
know the the files and the info that it

1638
00:56:31,030 --> 00:56:29,359

needed um but you know the eyes are

1639

00:56:32,870 --> 00:56:31,040

going to be on them going forward to see

1640

00:56:33,910 --> 00:56:32,880

you know how transparent they really are

1641

00:56:36,950 --> 00:56:33,920

and i mean you know people aren't going

1642

00:56:38,789 --> 00:56:36,960

to stop with the foia requests either

1643

00:56:40,470 --> 00:56:38,799

no that that's for sure

1644

00:56:42,069 --> 00:56:40,480

i mean you would have to think there

1645

00:56:44,230 --> 00:56:42,079

would have to be some sense of national

1646

00:56:46,069 --> 00:56:44,240

security threat but maybe it's not you

1647

00:56:49,030 --> 00:56:46,079

know something that hitting us with

1648

00:56:50,789 --> 00:56:49,040

bombs okay or whatever but at the very

1649

00:56:51,750 --> 00:56:50,799

least they're getting in air traffic

1650

00:56:52,710 --> 00:56:51,760

grounds

1651
00:56:55,750 --> 00:56:52,720
right

1652
00:56:57,190 --> 00:56:55,760
putting our pilots uh at risk i've

1653
00:57:00,630 --> 00:56:57,200
definitely read

1654
00:57:02,230 --> 00:57:00,640
um near-collision cases yeah you know

1655
00:57:03,670 --> 00:57:02,240
physiological effects

1656
00:57:04,549 --> 00:57:03,680
yeah

1657
00:57:05,510 --> 00:57:04,559
so

1658
00:57:07,589 --> 00:57:05,520
it's

1659
00:57:09,190 --> 00:57:07,599
you know i tend to think that maybe they

1660
00:57:10,789 --> 00:57:09,200
do know there is a little bit of a

1661
00:57:13,510 --> 00:57:10,799
threat maybe they're not

1662
00:57:15,190 --> 00:57:13,520
too prepared on how to divulge that

1663
00:57:16,710 --> 00:57:15,200

information i mean for god's sakes

1664

00:57:19,589 --> 00:57:16,720

they've been saying it publicly that it

1665

00:57:21,109 --> 00:57:19,599

isn't a threat for 80 years so how are

1666

00:57:24,829 --> 00:57:21,119

they gonna just switch their tune and

1667

00:57:27,270 --> 00:57:24,839

say okay maybe we're wrong you

1668

00:57:29,430 --> 00:57:27,280

know mean with all due respect to people

1669

00:57:30,549 --> 00:57:29,440

i mean i don't see how people and i

1670

00:57:32,069 --> 00:57:30,559

greatly respect you know the likes of

1671

00:57:34,069 --> 00:57:32,079

like bob salas who i spoke to earlier

1672

00:57:35,910 --> 00:57:34,079

this year i mean he's obviously had an

1673

00:57:36,870 --> 00:57:35,920

experience i wasn't there he was right

1674

00:57:38,630 --> 00:57:36,880

and i'm not going to question his

1675

00:57:40,549 --> 00:57:38,640

integrity he's a great guy and obviously

1676
00:57:42,549 --> 00:57:40,559
you don't get that position um you know

1677
00:57:43,910 --> 00:57:42,559
to be a missile launch control officer

1678
00:57:45,270 --> 00:57:43,920
if you're given to flights of fancy and

1679
00:57:47,030 --> 00:57:45,280
you're not a very very squared away

1680
00:57:48,470 --> 00:57:47,040
person um

1681
00:57:50,230 --> 00:57:48,480
but you know he and others they're

1682
00:57:53,349 --> 00:57:50,240
convinced you know it's a message it's

1683
00:57:55,270 --> 00:57:53,359
that we have to get rid of our nukes but

1684
00:57:56,789 --> 00:57:55,280
i don't unders i'm not sure if does that

1685
00:57:59,829 --> 00:57:56,799
come from a psychological or an

1686
00:58:01,990 --> 00:57:59,839
emotional perspective because if you had

1687
00:58:04,150 --> 00:58:02,000
um you know craft with like you know

1688
00:58:06,150 --> 00:58:04,160

russian red stars or chinese red stars

1689

00:58:07,510 --> 00:58:06,160
on the side flying over a nuclear

1690

00:58:08,789 --> 00:58:07,520
facility it would be definitely

1691

00:58:09,829 --> 00:58:08,799
considered a threat they'd be carrying

1692

00:58:11,430 --> 00:58:09,839
out you know intelligence and

1693

00:58:13,030 --> 00:58:11,440
surveillance mission yeah i'd be

1694

00:58:14,470 --> 00:58:13,040
carrying out a recon

1695

00:58:15,750 --> 00:58:14,480
so yeah

1696

00:58:17,109 --> 00:58:15,760
you know and on the one hand that's

1697

00:58:18,470 --> 00:58:17,119
what's fascinating as well about bob

1698

00:58:20,710 --> 00:58:18,480
salas's uh

1699

00:58:23,109 --> 00:58:20,720
case is that initially he thought that

1700

00:58:24,710 --> 00:58:23,119
they were under attack because his uh

1701
00:58:27,109 --> 00:58:24,720
his security people were panicking he

1702
00:58:28,630 --> 00:58:27,119
said one of his guys was so was so

1703
00:58:30,390 --> 00:58:28,640
freaked he tried to climb the perimeter

1704
00:58:31,750 --> 00:58:30,400
fence and go and got injured basically

1705
00:58:33,270 --> 00:58:31,760
on the barbed wire

1706
00:58:35,349 --> 00:58:33,280
and then he said when they were trying

1707
00:58:37,109 --> 00:58:35,359
to get the wall the missiles were

1708
00:58:38,710 --> 00:58:37,119
working or the the the inertial

1709
00:58:41,270 --> 00:58:38,720
navigation systems

1710
00:58:42,950 --> 00:58:41,280
he said that one of his uh techs uh this

1711
00:58:44,870 --> 00:58:42,960
technical sergeant was in

1712
00:58:46,870 --> 00:58:44,880
um basically a companionway trying to

1713
00:58:48,390 --> 00:58:46,880

mess around with with this equipment and

1714

00:58:49,589 --> 00:58:48,400

he got a feeling that came over him of

1715

00:58:51,430 --> 00:58:49,599

like you know everything's fine

1716

00:58:53,190 --> 00:58:51,440

everything's good and you know something

1717

00:58:54,309 --> 00:58:53,200

maybe from that was projected from the

1718

00:58:56,150 --> 00:58:54,319

uap

1719

00:58:58,549 --> 00:58:56,160

so interesting that was very interesting

1720

00:59:00,230 --> 00:58:58,559

as well so i i'm you know i don't want

1721

00:59:01,670 --> 00:59:00,240

to say yeah you know they are a threat

1722

00:59:03,510 --> 00:59:01,680

or they are there so they are not i just

1723

00:59:06,710 --> 00:59:03,520

think that we should kind of like er on

1724

00:59:09,510 --> 00:59:06,720

the side of caution because even if you

1725

00:59:11,190 --> 00:59:09,520

take the view that uh they whoever they

1726
00:59:14,069 --> 00:59:11,200
are wherever they are from and wherever

1727
00:59:16,630 --> 00:59:14,079
they are from maybe um

1728
00:59:18,470 --> 00:59:16,640
our benefit are benign it's like it's

1729
00:59:19,670 --> 00:59:18,480
still a very very unequal relationship

1730
00:59:21,750 --> 00:59:19,680
that they're demonstrating you know it's

1731
00:59:23,430 --> 00:59:21,760
basically a demonstration of force isn't

1732
00:59:25,030 --> 00:59:23,440
it so you know we we have this ability

1733
00:59:27,349 --> 00:59:25,040
to completely shut you down or to start

1734
00:59:28,789 --> 00:59:27,359
your news right um you know to mess with

1735
00:59:29,910 --> 00:59:28,799
your communications and to jam your

1736
00:59:31,190 --> 00:59:29,920
radars

1737
00:59:33,190 --> 00:59:31,200
yeah um

1738
00:59:34,950 --> 00:59:33,200

and we're not exactly uh future

1739

00:59:37,190 --> 00:59:34,960

predictors so

1740

00:59:39,109 --> 00:59:37,200

that is kind of a threat because he just

1741

00:59:40,789 --> 00:59:39,119

because he because he don't know and

1742

00:59:42,710 --> 00:59:40,799

right we base our actions off of our

1743

00:59:44,870 --> 00:59:42,720

knowledge uh yeah

1744

00:59:46,549 --> 00:59:44,880

and for instance of bob solis case just

1745

00:59:48,069 --> 00:59:46,559

that one instance he talked about of

1746

00:59:50,710 --> 00:59:48,079

where the guy got scared started running

1747

00:59:52,309 --> 00:59:50,720

up the fence that's dangerous not

1748

00:59:54,950 --> 00:59:52,319

because he fell and hurt himself but

1749

00:59:56,309 --> 00:59:54,960

because that changes his decision-making

1750

00:59:58,710 --> 00:59:56,319

capabilities

1751

01:00:00,470 --> 00:59:58,720

you know yeah when that much fear you

1752

01:00:03,270 --> 01:00:00,480

know takes over you

1753

01:00:04,710 --> 01:00:03,280

um so it i think lou always kind of hits

1754

01:00:07,670 --> 01:00:04,720

it right on the head as far as the

1755

01:00:09,430 --> 01:00:07,680

threat thing goes it's it's not that

1756

01:00:10,789 --> 01:00:09,440

i'm he's saying

1757

01:00:11,589 --> 01:00:10,799

you know um

1758

01:00:14,549 --> 01:00:11,599

that

1759

01:00:17,349 --> 01:00:14,559

they are a threat on purpose you know it

1760

01:00:19,910 --> 01:00:17,359

could be the case where it's a byproduct

1761

01:00:21,430 --> 01:00:19,920

type of thing you know yeah or just kind

1762

01:00:23,270 --> 01:00:21,440

of maybe you know indifferent or maybe

1763

01:00:25,109 --> 01:00:23,280

slightly careless because they are so

1764

01:00:27,349 --> 01:00:25,119

advanced right um but i think the other

1765

01:00:29,349 --> 01:00:27,359

way of looking as well if you were if we

1766

01:00:31,430 --> 01:00:29,359

are sharing the earth with

1767

01:00:33,510 --> 01:00:31,440

i don't know like ultra terrestrials or

1768

01:00:35,670 --> 01:00:33,520

you know some race that's living

1769

01:00:36,470 --> 01:00:35,680

underground or in the sea or if you're

1770

01:00:37,829 --> 01:00:36,480

talking about whether it's

1771

01:00:39,589 --> 01:00:37,839

extraterrestrials i mean if you're

1772

01:00:42,150 --> 01:00:39,599

looking at humans how quickly that we've

1773

01:00:44,069 --> 01:00:42,160

advanced and really how kind of evil we

1774

01:00:45,910 --> 01:00:44,079

really are to each other and to other

1775

01:00:47,589 --> 01:00:45,920

species and what we do to the planet and

1776

01:00:49,030 --> 01:00:47,599

then like now we're going into space and

1777

01:00:50,950 --> 01:00:49,040

we've split the atom and we're

1778

01:00:52,870 --> 01:00:50,960

developing like you know airborne lasers

1779

01:00:55,109 --> 01:00:52,880

and you know all the rest of it but you

1780

01:00:57,030 --> 01:00:55,119

know we could commit genocide on our own

1781

01:00:58,390 --> 01:00:57,040

species what can we not be trusted to do

1782

01:01:00,789 --> 01:00:58,400

to other people

1783

01:01:02,390 --> 01:01:00,799

yeah and i think i'm not sure where i

1784

01:01:04,710 --> 01:01:02,400

read it too but i only read like

1785

01:01:07,510 --> 01:01:04,720

official documents so it's probably it's

1786

01:01:09,349 --> 01:01:07,520

probably official um the the worry is

1787

01:01:11,670 --> 01:01:09,359

too is the technology to put those

1788

01:01:14,150 --> 01:01:11,680

things in space is um a lot less

1789

01:01:16,549 --> 01:01:14,160

expensive and easier to do for a

1790

01:01:18,230 --> 01:01:16,559

non-state actor like a north korea or

1791

01:01:21,349 --> 01:01:18,240

you know god forbid a terrorist or

1792

01:01:23,750 --> 01:01:21,359

something versus like a nuclear weapon

1793

01:01:26,950 --> 01:01:23,760

which takes a lot more effort and

1794

01:01:29,349 --> 01:01:26,960

resources to put together so the

1795

01:01:31,030 --> 01:01:29,359

possibility of some sort of catastrophe

1796

01:01:33,030 --> 01:01:31,040

if you're wiping out someone's electric

1797

01:01:34,870 --> 01:01:33,040

grid isn't that much more attainable

1798

01:01:37,349 --> 01:01:34,880

that's the scary part

1799

01:01:39,430 --> 01:01:37,359

yeah i'm told by one source i speak to a

1800

01:01:41,430 --> 01:01:39,440

scientist that very much it's a concern

1801
01:01:42,710 --> 01:01:41,440
about releasing you know the aspects of

1802
01:01:45,270 --> 01:01:42,720
free energy because it's actually

1803
01:01:46,549 --> 01:01:45,280
relatively simple they tell they tell me

1804
01:01:47,829 --> 01:01:46,559
not for me but they tell me it's

1805
01:01:49,910 --> 01:01:47,839
relatively simple once you know how to

1806
01:01:51,510 --> 01:01:49,920
do it and if you had a you know a

1807
01:01:52,950 --> 01:01:51,520
terrorist group like hezbollah like a

1808
01:01:55,190 --> 01:01:52,960
transnational

1809
01:01:56,470 --> 01:01:55,200
international narco and terror group

1810
01:01:58,710 --> 01:01:56,480
that's got you know billions and

1811
01:02:01,109 --> 01:01:58,720
resources and is used to smuggling um

1812
01:02:02,630 --> 01:02:01,119
you know prohibited items for uh you

1813
01:02:03,829 --> 01:02:02,640

know the iranian nuclear program like

1814

01:02:07,670 --> 01:02:03,839

you know they can get hold of scientists

1815

01:02:11,990 --> 01:02:10,069

and that yeah that's super scary and

1816

01:02:15,190 --> 01:02:12,000

whatever it is i'm sure

1817

01:02:18,829 --> 01:02:15,200

it has to do with the geomagnetic energy

1818

01:02:21,430 --> 01:02:18,839

that's constantly flowing from our

1819

01:02:24,230 --> 01:02:21,440

earth i wouldn't know but that's just a

1820

01:02:26,710 --> 01:02:24,240

guess as a wild guess

1821

01:02:30,710 --> 01:02:26,720

uh it's an actual source i believe yeah

1822

01:02:32,150 --> 01:02:30,720

yeah yep um so with that being said

1823

01:02:33,349 --> 01:02:32,160

had a great talk with you again i hope

1824

01:02:34,870 --> 01:02:33,359

you come back

1825

01:02:35,670 --> 01:02:34,880

thank you very much i appreciate it very

1826

01:02:37,190 --> 01:02:35,680

much

1827

01:02:39,109 --> 01:02:37,200

yeah i look forward to getting uh

1828

01:02:41,589 --> 01:02:39,119

getting to know you more and

1829

01:02:43,589 --> 01:02:41,599

going a little farther next time so

1830

01:02:46,309 --> 01:02:43,599

fantastic thanks very much

1831

01:02:49,589 --> 01:02:46,319

yeah you take care

1832

01:02:56,549 --> 01:02:52,069

all right that was great that was a

1833

01:02:57,510 --> 01:02:56,559

great first gig with mr frank milburn

1834

01:02:59,910 --> 01:02:57,520

um

1835

01:03:03,990 --> 01:02:59,920

we had a great talk

1836

01:03:09,589 --> 01:03:06,870

and i had a great time

1837

01:03:11,270 --> 01:03:09,599

but today i was up at like 2 a.m and

1838

01:03:15,190 --> 01:03:11,280

couldn't fall back asleep

1839

01:03:17,670 --> 01:03:16,789

um

1840

01:03:19,829 --> 01:03:17,680

but

1841

01:03:21,270 --> 01:03:19,839

i do

1842

01:03:24,390 --> 01:03:21,280

let me say what's up to everybody too

1843

01:03:27,109 --> 01:03:24,400

jonathan davies what's up robert cowford

1844

01:03:30,470 --> 01:03:27,119

uh james warro

1845

01:03:33,190 --> 01:03:30,480

christian diesel girl surf psych darren

1846

01:03:35,270 --> 01:03:33,200

playing what's happening um

1847

01:03:37,910 --> 01:03:35,280

edmondstar07

1848

01:03:39,910 --> 01:03:37,920

lara always a pleasure

1849

01:03:42,470 --> 01:03:39,920

saw disclosure team up there what's up

1850

01:03:43,829 --> 01:03:42,480

bro i wanted to mention his actually way

1851
01:03:46,309 --> 01:03:43,839
of looking at the thread thing where

1852
01:03:47,589 --> 01:03:46,319
it's um you know it's like us walking

1853
01:03:48,870 --> 01:03:47,599
down the sidewalk there's a bunch of

1854
01:03:50,309 --> 01:03:48,880
ants

1855
01:03:52,710 --> 01:03:50,319
you don't know what you're what you're

1856
01:03:55,670 --> 01:03:52,720
killing does that mean we're a threat

1857
01:03:57,589 --> 01:03:55,680
you know that was um

1858
01:03:58,549 --> 01:03:57,599
that's a pretty good uh

1859
01:04:01,910 --> 01:03:58,559
way to

1860
01:04:04,309 --> 01:04:01,920
look at it for sure i like that

1861
01:04:06,630 --> 01:04:04,319
anybody i missed i'm sorry

1862
01:04:10,309 --> 01:04:06,640
i'm going to

1863
01:04:14,309 --> 01:04:10,319

renee cruz awesome what's up

1864

01:04:16,630 --> 01:04:14,319

and avril dr sharma what's up

1865

01:04:18,870 --> 01:04:16,640

uh pinezer

1866

01:04:20,230 --> 01:04:18,880

everybody appreciate you

1867

01:04:21,270 --> 01:04:20,240

i'm gonna go get some rest i'm gonna

1868

01:04:24,870 --> 01:04:21,280

play this

1869

01:04:28,789 --> 01:04:24,880

new song before i ditch out i must be

1870

01:04:28,799 --> 01:04:33,430

like i'm while dreaming

1871

01:04:33,440 --> 01:04:38,069

and how is it supposed to be

1872

01:04:38,079 --> 01:04:42,870

when an unknown is right next to me

1873

01:04:42,880 --> 01:04:47,510

practically oblivious

1874

01:04:47,520 --> 01:04:51,990

no time so let's get with it

1875

01:04:52,000 --> 01:04:56,549

announcing anomaly

1876

01:05:02,390 --> 01:04:58,789

magnetic deception is

1877

01:05:02,400 --> 01:05:07,190

and it can be a mess

1878

01:05:12,470 --> 01:05:10,230

without living in progress

1879

01:05:14,150 --> 01:05:12,480

i'm not the keeper

1880

01:05:21,109 --> 01:05:14,160

i'm just going deeper

1881

01:05:25,670 --> 01:05:21,119

[Music]

1882

01:05:25,680 --> 01:05:30,230

it'll be my time to try

1883

01:05:38,630 --> 01:05:34,470

and as the planes fly by so vicious

1884

01:05:38,640 --> 01:05:43,029

magnetic deception

1885

01:05:43,039 --> 01:05:48,789

you rather be left

1886

01:05:56,950 --> 01:05:50,710

when the days fly

1887

01:05:59,340 --> 01:05:56,960

[Music]

1888

01:06:01,190 --> 01:05:59,350

it's a perfect time to unwind

1889

01:06:05,829 --> 01:06:01,200

[Music]

1890

01:06:08,030 --> 01:06:05,839

think about what it's like when you die

1891

01:06:15,109 --> 01:06:08,040

yeah i know it's a cypress all right

1892

01:06:21,670 --> 01:06:19,510

excuse me if i don't trust what you do

1893

01:06:24,549 --> 01:06:21,680

just pass mistakes in red rain and

1894

01:06:28,950 --> 01:06:24,559

acting like a fool

1895

01:06:28,960 --> 01:06:34,069

but you don't see tears in my head

1896

01:06:34,079 --> 01:06:38,069

and it can be a mess

1897

01:06:38,079 --> 01:06:42,630

without living in progress

1898

01:06:47,570 --> 01:06:44,789

i'm not the keeper

1899

01:06:54,590 --> 01:06:52,160

[Laughter]

1900

01:06:58,069 --> 01:06:54,600

[Music]

1901

01:07:00,190 --> 01:06:58,079

[Applause]

1902

01:07:02,549 --> 01:07:00,200

it'll be my time to try

1903

01:07:07,190 --> 01:07:02,559

[Music]

1904

01:07:10,870 --> 01:07:07,200

and as the planes fly by so vicious

1905

01:07:10,880 --> 01:07:15,430

magnetic deception

1906

01:07:15,440 --> 01:07:20,069

you'd rather be left in

1907

01:07:20,079 --> 01:07:24,870

magnetic deception

1908

01:07:41,190 --> 01:07:26,900

forever

1909

01:07:42,010 --> 01:07:41,200

[Music]

1910

01:07:58,069 --> 01:07:42,020

rather

1911

01:08:04,120 --> 01:08:01,589

as the days fly by

1912

01:08:13,510 --> 01:08:04,130

it's my time to try
