

**UFOS: AN EARLY COVER UP
WITH ROBERT KOFORD**

1
00:00:11,890 --> 00:00:02,560
[Laughter]

2
00:00:13,120 --> 00:00:11,900
[Music]

3
00:00:13,670 --> 00:00:13,130
[Laughter]

4
00:00:14,750 --> 00:00:13,680
[Music]

5
00:00:22,710 --> 00:00:14,760
[Applause]

6
00:00:25,190 --> 00:00:22,720
[Music]

7
00:00:27,830 --> 00:00:25,200
even with the western winds

8
00:00:29,509 --> 00:00:27,840
[Music]

9
00:00:33,910 --> 00:00:29,519
taking me away

10
00:00:40,810 --> 00:00:36,630
don't need a telescope to see

11
00:00:48,549 --> 00:00:40,820
where we need to live free

12
00:00:51,270 --> 00:00:48,559
[Music]

13
00:00:53,670 --> 00:00:51,280

and this is for all the voices

14

00:01:00,240 --> 00:00:53,680

[Music]

15

00:01:24,310 --> 00:01:04,290

[Laughter]

16

00:01:24,320 --> 00:01:30,350

but it takes enough heart to bother

17

00:01:41,770 --> 00:01:35,550

unidentified aerial phenomena

18

00:01:48,610 --> 00:01:46,069

[Music]

19

00:01:50,469 --> 00:01:48,620

meaning is blurry as it gets attention

20

00:01:55,910 --> 00:01:50,479

[Music]

21

00:02:01,270 --> 00:01:58,469

filled up in my room with documents in

22

00:02:06,220 --> 00:02:03,590

gotta go the distance or you'll end up

23

00:02:08,229 --> 00:02:06,230

with torture

24

00:02:10,630 --> 00:02:08,239

[Music]

25

00:02:13,589 --> 00:02:10,640

positive in nature

26

00:02:17,110 --> 00:02:13,599

but harmful making me safer

27

00:02:17,120 --> 00:02:21,990

forget it started long ago

28

00:02:31,200 --> 00:02:25,830

many eyes on the sky

29

00:02:31,210 --> 00:02:42,550

[Music]

30

00:02:47,980 --> 00:02:45,030

but it takes enough heart

31

00:02:56,390 --> 00:02:47,990

to bother

32

00:02:56,400 --> 00:03:01,330

phenomenon

33

00:03:01,340 --> 00:03:29,190

[Music]

34

00:03:48,390 --> 00:03:31,750

couldn't hear these noises

35

00:03:54,789 --> 00:03:52,149

hello everybody um i hope you enjoyed

36

00:03:57,190 --> 00:03:54,799

that little music snippet i

37

00:03:58,949 --> 00:03:57,200

put some pretty cool pictures behind it

38

00:04:00,789 --> 00:03:58,959

um

39

00:04:02,550 --> 00:04:00,799

pretty pretty

40

00:04:04,470 --> 00:04:02,560

pretty interesting ones for sure if you

41

00:04:06,229 --> 00:04:04,480

have time take a look back at that but i

42

00:04:07,509 --> 00:04:06,239

plan on also doing like an episode where

43

00:04:09,429 --> 00:04:07,519

we're just looking at the pictures

44

00:04:12,070 --> 00:04:09,439

because there's hundreds

45

00:04:15,509 --> 00:04:12,080

and hundreds of them for sure so

46

00:04:17,509 --> 00:04:15,519

uh we will do that at some point um it's

47

00:04:19,030 --> 00:04:17,519

just tough because there is so many and

48

00:04:20,150 --> 00:04:19,040

sometimes you want to know more about

49

00:04:23,030 --> 00:04:20,160

them first

50

00:04:24,469 --> 00:04:23,040

um so you know it's got a twofold i'd

51
00:04:27,350 --> 00:04:24,479
like to show you the pictures but i'd

52
00:04:29,830 --> 00:04:27,360
also like to grab the cases and you know

53
00:04:31,909 --> 00:04:29,840
find out what the deal is with them

54
00:04:34,629 --> 00:04:31,919
first you know

55
00:04:37,670 --> 00:04:34,639
but that being said hope everybody had a

56
00:04:38,629 --> 00:04:37,680
very very happy new year

57
00:04:39,990 --> 00:04:38,639
um

58
00:04:41,189 --> 00:04:40,000
mine was

59
00:04:43,270 --> 00:04:41,199
i had a great

60
00:04:45,590 --> 00:04:43,280
new year's eve um

61
00:04:46,740 --> 00:04:45,600
i was sleeping probably

62
00:04:48,150 --> 00:04:46,750
10 30 maybe

63
00:04:50,390 --> 00:04:48,160

[Laughter]

64

00:04:54,230 --> 00:04:50,400

11 with covid and everything it just

65

00:04:57,670 --> 00:04:54,240

didn't make sense to go out and um

66

00:05:00,150 --> 00:04:57,680

uh you know my wife uh has a very

67

00:05:02,550 --> 00:05:00,160

public type job and everything and we

68

00:05:04,710 --> 00:05:02,560

you know um parents are older and stuff

69

00:05:08,070 --> 00:05:04,720

so just didn't make a whole lot of sense

70

00:05:10,310 --> 00:05:08,080

but you know me i was still looking at a

71

00:05:11,670 --> 00:05:10,320

bunch of ufo stuff and hanging out with

72

00:05:13,270 --> 00:05:11,680

her

73

00:05:15,430 --> 00:05:13,280

and i made cheeseburgers so that was

74

00:05:17,189 --> 00:05:15,440

pretty cool um so first of all just want

75

00:05:19,510 --> 00:05:17,199

to say what's up to everybody

76

00:05:21,029 --> 00:05:19,520

um diesel girl

77

00:05:23,430 --> 00:05:21,039

daniel

78

00:05:24,629 --> 00:05:23,440

paranormal pixie love the name

79

00:05:28,550 --> 00:05:24,639

um

80

00:05:30,230 --> 00:05:28,560

uh jos of course josh uh the sparky lady

81

00:05:33,670 --> 00:05:30,240

um

82

00:05:36,710 --> 00:05:33,680

who else we got in here k42d your video

83

00:05:39,749 --> 00:05:36,720

by the way k42d uh people seem to like

84

00:05:40,710 --> 00:05:39,759

that a lot on twitter that's for sure

85

00:05:43,189 --> 00:05:40,720

um

86

00:05:44,870 --> 00:05:43,199

that was a that was a popular one on the

87

00:05:47,830 --> 00:05:44,880

the tweeter verse

88

00:05:51,350 --> 00:05:47,840

so uh good job there

89

00:05:55,110 --> 00:05:51,360

um then we have lionel f thank you

90

00:05:58,309 --> 00:05:55,120

um hopefully you are doing well

91

00:05:59,270 --> 00:05:58,319

um toby surfside grand master

92

00:06:01,990 --> 00:05:59,280

um

93

00:06:04,710 --> 00:06:02,000

megan t what's up so happy everybody's

94

00:06:08,070 --> 00:06:04,720

joining us today misty guys jason fay

95

00:06:10,150 --> 00:06:08,080

what's going on um so today we're going

96

00:06:12,469 --> 00:06:10,160

to do a pretty neat show we're bringing

97

00:06:15,189 --> 00:06:12,479

on somebody that you're familiar with in

98

00:06:17,189 --> 00:06:15,199

the chat that's for sure his name is

99

00:06:20,230 --> 00:06:17,199

robert colford

100

00:06:22,309 --> 00:06:20,240

he's brought some interesting documents

101

00:06:24,309 --> 00:06:22,319

to the table and you know me i like

102

00:06:26,150 --> 00:06:24,319

those interesting documents

103

00:06:28,150 --> 00:06:26,160

um

104

00:06:29,189 --> 00:06:28,160

and so we're going to discuss those a

105

00:06:31,110 --> 00:06:29,199

little bit

106

00:06:33,029 --> 00:06:31,120

so we're going to take a

107

00:06:36,150 --> 00:06:33,039

you know a time travel

108

00:06:40,150 --> 00:06:36,160

mechanism and go all the way back

109

00:06:44,710 --> 00:06:42,629

to start um

110

00:06:46,309 --> 00:06:44,720

you might go back even further than that

111

00:06:49,670 --> 00:06:46,319

so

112

00:06:51,830 --> 00:06:49,680

that's for sure and um i hope you join

113

00:06:52,870 --> 00:06:51,840

us join me tomorrow i'm gonna go over

114

00:06:53,830 --> 00:06:52,880

the

115

00:06:56,309 --> 00:06:53,840

um

116

00:06:58,629 --> 00:06:56,319

lonnie zamora case tomorrow i have a

117

00:07:00,309 --> 00:06:58,639

bunch of documents on that i think a lot

118

00:07:03,110 --> 00:07:00,319

of people haven't seen

119

00:07:05,189 --> 00:07:03,120

a good amount of them because um

120

00:07:06,710 --> 00:07:05,199

you know in the archives i think most

121

00:07:08,790 --> 00:07:06,720

people just see the

122

00:07:10,629 --> 00:07:08,800

the new mexico

123

00:07:13,510 --> 00:07:10,639

uh folder and

124

00:07:15,749 --> 00:07:13,520

and see what's in there but they failed

125

00:07:17,800 --> 00:07:15,759

probably to find the other ones that

126
00:07:19,350 --> 00:07:17,810
were in a different states folder

127
00:07:21,350 --> 00:07:19,360
[Laughter]

128
00:07:23,430 --> 00:07:21,360
so that is very interesting and i can't

129
00:07:25,029 --> 00:07:23,440
wait to share those with you um so we'll

130
00:07:26,629 --> 00:07:25,039
do that tomorrow and on wednesday we

131
00:07:29,029 --> 00:07:26,639
have uh

132
00:07:31,990 --> 00:07:29,039
mr christopher sharp

133
00:07:33,510 --> 00:07:32,000
from liberation times and our dear

134
00:07:35,830 --> 00:07:33,520
friend jay christopher king will be

135
00:07:37,670 --> 00:07:35,840
making a return

136
00:07:39,670 --> 00:07:37,680
so wednesday look out for that as we

137
00:07:41,830 --> 00:07:39,680
review the past year i know everybody's

138
00:07:43,029 --> 00:07:41,840

doing their reviews and everything

139

00:07:44,629 --> 00:07:43,039

um

140

00:07:47,350 --> 00:07:44,639

which usually makes me not want to do

141

00:07:48,629 --> 00:07:47,360

stuff like that you know but

142

00:07:51,350 --> 00:07:48,639

but you kind of have to because it was

143

00:07:54,150 --> 00:07:51,360

such a good is such a big year so

144

00:07:56,230 --> 00:07:54,160

um we are going to do that uh but

145

00:07:58,710 --> 00:07:56,240

without further ado i think i'll just go

146

00:08:01,670 --> 00:07:58,720

ahead and bring him in

147

00:08:03,990 --> 00:08:01,680

uh mr robert copford

148

00:08:07,189 --> 00:08:04,000

um how are you today

149

00:08:08,469 --> 00:08:07,199

sir hey hey

150

00:08:12,710 --> 00:08:08,479

good to see you

151
00:08:14,150 --> 00:08:12,720
you've been um

152
00:08:15,749 --> 00:08:14,160
you know had some surgery and all that

153
00:08:18,629 --> 00:08:15,759
kind of stuff and

154
00:08:20,550 --> 00:08:18,639
um got your booster shot so how are you

155
00:08:22,390 --> 00:08:20,560
feeling with everything

156
00:08:23,510 --> 00:08:22,400
finally coming around

157
00:08:26,629 --> 00:08:23,520
yeah

158
00:08:28,309 --> 00:08:26,639
good good to hear probably who knows how

159
00:08:29,270 --> 00:08:28,319
much of it was me

160
00:08:31,029 --> 00:08:29,280
but uh

161
00:08:32,870 --> 00:08:31,039
i remember hearing beforehand you know

162
00:08:35,190 --> 00:08:32,880
this was one of those this last

163
00:08:36,630 --> 00:08:35,200

operation for my hernias was

164

00:08:38,870 --> 00:08:36,640

you know don't worry you'll be up and

165

00:08:41,350 --> 00:08:38,880

around in no time you know

166

00:08:44,330 --> 00:08:41,360

yeah of course the reality of it was the

167

00:08:48,150 --> 00:08:44,340

very second i'm out of anesthesia

168

00:08:52,070 --> 00:08:48,160

[Laughter]

169

00:08:56,550 --> 00:08:54,550

so it took me a couple more days getting

170

00:08:59,590 --> 00:08:56,560

through that but then all of a sudden i

171

00:09:02,230 --> 00:08:59,600

made a nice you know upward climbing

172

00:09:04,150 --> 00:09:02,240

good and here you are yes

173

00:09:05,509 --> 00:09:04,160

yeah

174

00:09:07,509 --> 00:09:05,519

noise you might hear some noise

175

00:09:10,230 --> 00:09:07,519

occasionally we have roofers

176

00:09:13,190 --> 00:09:10,240

oh yeah yeah i heard that

177

00:09:15,590 --> 00:09:13,200

yeah so they're uh tacking in some

178

00:09:16,630 --> 00:09:15,600

putting in some shingles yes yes they

179

00:09:19,110 --> 00:09:16,640

are

180

00:09:21,110 --> 00:09:19,120

did they tell you that it had they had a

181

00:09:22,630 --> 00:09:21,120

lifetime guarantee

182

00:09:25,990 --> 00:09:22,640

no they didn't even tell us they were

183

00:09:27,990 --> 00:09:26,000

coming i just know that

184

00:09:29,190 --> 00:09:28,000

i spent a lot of time in that world so

185

00:09:31,910 --> 00:09:29,200

you know

186

00:09:34,389 --> 00:09:31,920

going on the right house

187

00:09:36,870 --> 00:09:34,399

just know that they don't give you it's

188

00:09:39,430 --> 00:09:36,880

not about the material warranty it's

189

00:09:41,990 --> 00:09:39,440

about the labor warranty that's what you

190

00:09:46,550 --> 00:09:42,000

want to get so

191

00:09:49,190 --> 00:09:46,560

okay so enough about roofing warranty

192

00:09:52,470 --> 00:09:49,200

so i sent this case to you

193

00:09:54,470 --> 00:09:52,480

um i think it was last week via email

194

00:09:55,829 --> 00:09:54,480

and it was interesting for me i'll just

195

00:09:57,110 --> 00:09:55,839

kind of preface it a little bit with

196

00:09:59,030 --> 00:09:57,120

this

197

00:10:01,269 --> 00:09:59,040

um because

198

00:10:03,430 --> 00:10:01,279

for anybody who doesn't know uh he does

199

00:10:06,389 --> 00:10:03,440

a lot robert here does a lot of research

200

00:10:08,389 --> 00:10:06,399

into the date march 25th

201
00:10:09,829 --> 00:10:08,399
1948

202
00:10:11,269 --> 00:10:09,839
um

203
00:10:12,710 --> 00:10:11,279
you know in

204
00:10:15,910 --> 00:10:12,720
relation to a lot of different things

205
00:10:18,710 --> 00:10:15,920
but what happened then was a i think it

206
00:10:19,990 --> 00:10:18,720
was emergency air order came out

207
00:10:21,350 --> 00:10:20,000
um

208
00:10:23,110 --> 00:10:21,360
and

209
00:10:24,550 --> 00:10:23,120
so anyways i knew that that was in the

210
00:10:26,870 --> 00:10:24,560
back of my head and i was looking at

211
00:10:28,150 --> 00:10:26,880
cases uh in the archives

212
00:10:30,870 --> 00:10:28,160
and i found

213
00:10:34,550 --> 00:10:30,880

this day march 25th it was just coming

214

00:10:36,870 --> 00:10:34,560

up like for four or five in a row for

215

00:10:39,670 --> 00:10:36,880

cases um

216

00:10:42,230 --> 00:10:39,680

and so that emergency air order was

217

00:10:44,790 --> 00:10:42,240

popping up in regards to these ufo cases

218

00:10:46,710 --> 00:10:44,800

so this one that i brought up was really

219

00:10:49,910 --> 00:10:46,720

pretty great

220

00:10:51,509 --> 00:10:49,920

um and i think you agreed so i'm gonna

221

00:10:52,470 --> 00:10:51,519

bring that up here

222

00:10:54,069 --> 00:10:52,480

um

223

00:10:56,710 --> 00:10:54,079

as that's the case that kind of made me

224

00:11:01,030 --> 00:10:56,720

send it to you and started this off

225

00:11:05,990 --> 00:11:01,040

to bring you back here on the show

226

00:11:06,870 --> 00:11:06,000

so the location is fort bliss texas

227

00:11:09,910 --> 00:11:06,880

date

228

00:11:13,190 --> 00:11:09,920

may 19th 1949

229

00:11:16,870 --> 00:11:14,550

you have to say it like you've got

230

00:11:19,990 --> 00:11:16,880

something in your cheeks

231

00:11:22,630 --> 00:11:20,000

flat flashing light degrees above the

232

00:11:25,110 --> 00:11:22,640

horizon it moved away at approximately

233

00:11:27,350 --> 00:11:25,120

100 degrees in descending

234

00:11:29,750 --> 00:11:27,360

irregular rolling and tilting

235

00:11:32,150 --> 00:11:29,760

military aircraft reported in the area

236

00:11:34,470 --> 00:11:32,160

at that time

237

00:11:37,110 --> 00:11:34,480

but look at all those observers

238

00:11:39,269 --> 00:11:37,120

well that should all be blacked out

239

00:11:43,509 --> 00:11:39,279

should it yeah

240

00:11:47,720 --> 00:11:46,710

well you know there they are so

241

00:11:50,069 --> 00:11:47,730

it's too late now

242

00:11:52,790 --> 00:11:50,079

[Applause]

243

00:11:53,829 --> 00:11:52,800

but we have a lot of lieutenants and

244

00:11:55,269 --> 00:11:53,839

privates

245

00:11:56,629 --> 00:11:55,279

though well they're all military

246

00:11:58,550 --> 00:11:56,639

observers so

247

00:12:02,150 --> 00:11:58,560

as far as i know that that they could be

248

00:12:03,670 --> 00:12:02,160

unclassified but is that wrong

249

00:12:06,710 --> 00:12:03,680

what's that

250

00:12:09,750 --> 00:12:06,720

i thought the military um observers

251

00:12:12,470 --> 00:12:09,760

don't have to be blocked out

252

00:12:14,870 --> 00:12:12,480

no when they when they made all this

253

00:12:16,870 --> 00:12:14,880

public they were at the first level

254

00:12:19,750 --> 00:12:16,880

anyway they were responsible to blackout

255

00:12:21,910 --> 00:12:19,760

everybody's private information oh

256

00:12:24,870 --> 00:12:21,920

so that when it was released it was no

257

00:12:26,150 --> 00:12:24,880

longer considered restricted top secret

258

00:12:27,430 --> 00:12:26,160

restricted

259

00:12:29,430 --> 00:12:27,440

right so if you move everybody's

260

00:12:31,590 --> 00:12:29,440

personal information that kind of stuff

261

00:12:33,509 --> 00:12:31,600

it moves it into unclassified and then

262

00:12:36,069 --> 00:12:33,519

you can release it

263

00:12:38,150 --> 00:12:36,079

so they just make names it's all no big

264

00:12:39,750 --> 00:12:38,160

it happens i've seen it happen yeah

265

00:12:41,750 --> 00:12:39,760

you've seen it happen some of the funny

266

00:12:43,350 --> 00:12:41,760

places they go to the trouble and then

267

00:12:44,629 --> 00:12:43,360

right at the end of the document there's

268

00:12:47,110 --> 00:12:44,639

the person's name

269

00:12:48,860 --> 00:12:47,120

yeah right right right right sometimes

270

00:12:51,670 --> 00:12:48,870

even a couple sentences later

271

00:12:52,389 --> 00:12:51,680

[Laughter]

272

00:12:53,269 --> 00:12:52,399

so

273

00:12:54,470 --> 00:12:53,279

um

274

00:12:55,990 --> 00:12:54,480

what

275

00:12:57,350 --> 00:12:56,000

you know you you were the one who

276

00:12:59,269 --> 00:12:57,360

actually said you wanted to start with

277

00:13:01,110 --> 00:12:59,279

this case what were you thinking what's

278

00:13:03,269 --> 00:13:01,120

up that main page maybe

279

00:13:05,430 --> 00:13:03,279

scroll back up to the first uh

280

00:13:06,710 --> 00:13:05,440

no okay that'd be the first actual eight

281

00:13:09,750 --> 00:13:06,720

by eleven

282

00:13:12,150 --> 00:13:09,760

memo come this this must be it this is

283

00:13:14,230 --> 00:13:12,160

27 may yeah note the first paragraph

284

00:13:16,150 --> 00:13:14,240

that must been what caught the search

285

00:13:16,949 --> 00:13:16,160

engine when you were looking it up

286

00:13:19,829 --> 00:13:16,959

yeah

287

00:13:21,829 --> 00:13:19,839

and this again is like you said this in

288

00:13:24,550 --> 00:13:21,839

the reference you know a

289

00:13:25,949 --> 00:13:24,560
director intelligence general staff

290

00:13:29,430 --> 00:13:25,959
united states army

291

00:13:31,750 --> 00:13:29,440
csgid 452.1

292

00:13:33,509 --> 00:13:31,760
that was the file number the army

293

00:13:35,670 --> 00:13:33,519
intelligence came up for unconventional

294

00:13:38,870 --> 00:13:35,680
aircraft

295

00:13:40,949 --> 00:13:38,880
and the other thing this a 1917

296

00:13:41,990 --> 00:13:40,959
is a top secret control

297

00:13:44,550 --> 00:13:42,000
like

298

00:13:46,430 --> 00:13:44,560
looking up the

299

00:13:49,189 --> 00:13:46,440
the committee on overhead

300

00:13:52,470 --> 00:13:49,199
reconnaissance and you know the common

301
00:13:54,870 --> 00:13:52,480
step they always had their uh talent

302
00:13:55,590 --> 00:13:54,880
was one one of their control mechanisms

303
00:13:57,670 --> 00:13:55,600
right

304
00:13:58,710 --> 00:13:57,680
i'm looking up that metric

305
00:14:01,110 --> 00:13:58,720
control

306
00:14:03,750 --> 00:14:01,120
that's all the same thing

307
00:14:05,269 --> 00:14:03,760
a 1917 that's what it is and this is a

308
00:14:06,389 --> 00:14:05,279
general staff

309
00:14:09,189 --> 00:14:06,399
order

310
00:14:10,870 --> 00:14:09,199
for unconventional aircraft

311
00:14:12,790 --> 00:14:10,880
so it's interesting that like you're

312
00:14:14,550 --> 00:14:12,800
noticing i noticed

313
00:14:16,470 --> 00:14:14,560

which is another reason thing that

314

00:14:18,870 --> 00:14:16,480

actually bolstered it but even though

315

00:14:21,430 --> 00:14:18,880

tons of references to the exact one you

316

00:14:23,350 --> 00:14:21,440

know 25 march director

317

00:14:25,189 --> 00:14:23,360

there are plenty of other ones the first

318

00:14:26,150 --> 00:14:25,199

time i saw it it threw me it was one it

319

00:14:29,030 --> 00:14:26,160

said

320

00:14:30,790 --> 00:14:29,040

1 november 1940 but it cited the same

321

00:14:32,310 --> 00:14:30,800

document and then i started seeing a

322

00:14:34,030 --> 00:14:32,320

pattern here like i mentioned before

323

00:14:35,829 --> 00:14:34,040

over that uh

324

00:14:37,750 --> 00:14:35,839

adc-455

325

00:14:40,230 --> 00:14:37,760

it depended on who but

326

00:14:42,629 --> 00:14:40,240

most of the time when something big

327

00:14:44,629 --> 00:14:42,639

happened that replaces the one before it

328

00:14:46,710 --> 00:14:44,639

right they'll start with that date now

329

00:14:47,990 --> 00:14:46,720

so it's a kind of a way of saying this

330

00:14:49,910 --> 00:14:48,000

is still in

331

00:14:52,150 --> 00:14:49,920

under you know a general order blah blah

332

00:14:54,389 --> 00:14:52,160

blah is still in effect as you can see

333

00:14:55,750 --> 00:14:54,399

on this stage and i've seen it but other

334

00:14:58,389 --> 00:14:55,760

times i've seen him reference the

335

00:14:59,269 --> 00:14:58,399

original one 25 march

336

00:15:02,230 --> 00:14:59,279

just

337

00:15:04,949 --> 00:15:02,240

a tip for any researchers watching here

338

00:15:08,470 --> 00:15:04,959

i believe what it was that i searched

339

00:15:10,150 --> 00:15:08,480

were a couple things i think this csg id

340

00:15:11,910 --> 00:15:10,160

i searched

341

00:15:13,430 --> 00:15:11,920

you know so it's searching stuff like

342

00:15:15,590 --> 00:15:13,440

that or a

343

00:15:18,949 --> 00:15:15,600

1917

344

00:15:21,509 --> 00:15:18,959

or down here akb aab

345

00:15:24,150 --> 00:15:21,519

is searching that kind of stuff is what

346

00:15:26,230 --> 00:15:24,160

you know gets you into these different

347

00:15:27,990 --> 00:15:26,240

you know documents that might may or may

348

00:15:29,990 --> 00:15:28,000

not be important i guess you don't find

349

00:15:31,829 --> 00:15:30,000

out until you start looking at them but

350

00:15:34,230 --> 00:15:31,839

those are the things you search rather

351
00:15:36,470 --> 00:15:34,240
than you know like city and state or you

352
00:15:38,710 --> 00:15:36,480
know yeah yeah or whatever but the uh

353
00:15:41,110 --> 00:15:38,720
this actual directive here that their

354
00:15:43,749 --> 00:15:41,120
question that's was authored by

355
00:15:46,389 --> 00:15:43,759
colonel riley f ennis

356
00:15:48,230 --> 00:15:46,399
uh he was head of what they call in the

357
00:15:50,870 --> 00:15:48,240
intelligence group

358
00:15:52,949 --> 00:15:50,880
so which that's really important because

359
00:15:55,189 --> 00:15:52,959
as much as i have been able to tell so

360
00:15:57,910 --> 00:15:55,199
far in my own research

361
00:16:00,310 --> 00:15:57,920
which is very similar to what you do

362
00:16:01,509 --> 00:16:00,320
but when i was concentrating my efforts

363
00:16:03,269 --> 00:16:01,519

here

364

00:16:05,269 --> 00:16:03,279

i've noticed that

365

00:16:08,150 --> 00:16:05,279

the general staff

366

00:16:10,230 --> 00:16:08,160

intelligence group is kind of like the

367

00:16:12,069 --> 00:16:10,240

equivalent of being it's the central

368

00:16:13,110 --> 00:16:12,079

intelligence group it just never went

369

00:16:16,389 --> 00:16:13,120

away

370

00:16:17,110 --> 00:16:16,399

so even though the cia became the cia

371

00:16:19,189 --> 00:16:17,120

the

372

00:16:21,110 --> 00:16:19,199

and you can really see it in a lot of

373

00:16:23,350 --> 00:16:21,120

the back and forth between helen cotter

374

00:16:25,990 --> 00:16:23,360

and the army after allen carter becomes

375

00:16:28,629 --> 00:16:26,000

dci there's still

376

00:16:29,590 --> 00:16:28,639

trouble getting the army to cooperate

377

00:16:31,509 --> 00:16:29,600

with them

378

00:16:33,189 --> 00:16:31,519

like there are all these memo after memo

379

00:16:35,350 --> 00:16:33,199

you've probably seen him you know

380

00:16:37,749 --> 00:16:35,360

referring to army liaison with you know

381

00:16:39,509 --> 00:16:37,759

vlogger why haven't they been sharing

382

00:16:40,870 --> 00:16:39,519

the daily intelligence like you know all

383

00:16:42,550 --> 00:16:40,880

these things

384

00:16:43,670 --> 00:16:42,560

and then hillary's saying you know we

385

00:16:46,069 --> 00:16:43,680

need more

386

00:16:48,389 --> 00:16:46,079

sharing that's actually what led up to

387

00:16:51,110 --> 00:16:48,399

what i was interested in general bowling

388

00:16:53,749 --> 00:16:51,120

thing with metric because when i first

389

00:16:56,069 --> 00:16:53,759

started seeing that metric control

390

00:16:58,550 --> 00:16:56,079

that was about the same time trouble was

391

00:17:00,550 --> 00:16:58,560

brewing for people like forestall and it

392

00:17:02,230 --> 00:17:00,560

was right about the time when all this

393

00:17:03,670 --> 00:17:02,240

stuff supposedly starts leaking about a

394

00:17:05,429 --> 00:17:03,680

flying saucer

395

00:17:06,309 --> 00:17:05,439

landing in the desert you know and then

396

00:17:08,630 --> 00:17:06,319

you get

397

00:17:09,829 --> 00:17:08,640

uh behind the flying saucers by frank

398

00:17:11,750 --> 00:17:09,839

scully

399

00:17:13,510 --> 00:17:11,760

right it all comes right on the heel of

400

00:17:15,750 --> 00:17:13,520

all right in that little

401
00:17:18,789 --> 00:17:15,760
inverted fulcrum you know that's that

402
00:17:22,309 --> 00:17:18,799
date in that late 1949 period from march

403
00:17:24,069 --> 00:17:22,319
25th from this directive on the 25th

404
00:17:25,750 --> 00:17:24,079
up until that time period where these

405
00:17:27,590 --> 00:17:25,760
stuff started leaking

406
00:17:29,669 --> 00:17:27,600
yeah there was it there's a huge case

407
00:17:32,310 --> 00:17:29,679
before that too it was maybe a year

408
00:17:34,310 --> 00:17:32,320
before right but uh captain mentel that

409
00:17:36,150 --> 00:17:34,320
was a big deal on the seventh

410
00:17:38,549 --> 00:17:36,160
yeah a month before

411
00:17:41,590 --> 00:17:38,559
yeah this is an interesting uh

412
00:17:43,029 --> 00:17:41,600
unidentified aerial phenomenon yeah

413
00:17:44,830 --> 00:17:43,039

what year is that

414

00:17:47,990 --> 00:17:44,840

may 19

415

00:17:49,350 --> 00:17:48,000

1949 so i mean i've just highlighted

416

00:17:51,270 --> 00:17:49,360

that because a lot of people go why are

417

00:17:52,710 --> 00:17:51,280

they changing it to this or what you

418

00:17:54,870 --> 00:17:52,720

know

419

00:17:57,669 --> 00:17:54,880

it's ufo or whatever like they've been

420

00:18:00,390 --> 00:17:57,679

saying uab not specifically uap but

421

00:18:02,789 --> 00:18:00,400

unidentified aerial phenomenon

422

00:18:04,789 --> 00:18:02,799

that again this is the army

423

00:18:06,390 --> 00:18:04,799

and and notice that could be important

424

00:18:08,390 --> 00:18:06,400

with a bunch of the things i'm looking

425

00:18:11,190 --> 00:18:08,400

into including this that this is

426
00:18:12,789 --> 00:18:11,200
generated because it's an army unit

427
00:18:14,870 --> 00:18:12,799
right so they're using the army

428
00:18:17,510 --> 00:18:14,880
directive that came down from the

429
00:18:20,230 --> 00:18:17,520
intelligence division and namely colonel

430
00:18:22,230 --> 00:18:20,240
rylianis intelligence group they're the

431
00:18:26,789 --> 00:18:22,240
ones that authored gsc

432
00:18:28,630 --> 00:18:26,799
uh csg id 452.1 on 25 march 1948. so

433
00:18:30,390 --> 00:18:28,640
this is an army unit and they're using

434
00:18:32,230 --> 00:18:30,400
that as their

435
00:18:33,909 --> 00:18:32,240
thing aka you know that thing up there i

436
00:18:35,750 --> 00:18:33,919
think that's alaskan air command or

437
00:18:38,070 --> 00:18:35,760
something it's an air command

438
00:18:41,270 --> 00:18:38,080

filing agency you know i can't i think

439

00:18:43,669 --> 00:18:41,280

it has to do with uh alaska

440

00:18:45,590 --> 00:18:43,679

but it's still the same filing group

441

00:18:48,630 --> 00:18:45,600

452.1

442

00:18:51,029 --> 00:18:48,640

yep unconventional aircraft

443

00:18:53,270 --> 00:18:51,039

there it is see the author gsc at the

444

00:18:54,789 --> 00:18:53,280

bottom you'll see that in a lot of uh

445

00:18:56,470 --> 00:18:54,799

you see if you scrolled up just a teeny

446

00:18:59,029 --> 00:18:56,480

bit if that was

447

00:19:01,669 --> 00:18:59,039

right here look see eustis poland he

448

00:19:03,110 --> 00:19:01,679

took i think he took anna's place after

449

00:19:06,310 --> 00:19:03,120

anna stepped

450

00:19:08,310 --> 00:19:06,320

outside i'm pretty sure it's either

451
00:19:09,669 --> 00:19:08,320
eustis poland i think is who it was and

452
00:19:12,789 --> 00:19:09,679
notice

453
00:19:15,750 --> 00:19:12,799
assistant chief of staff g2

454
00:19:17,909 --> 00:19:15,760
yeah and so his counterpart at hamilton

455
00:19:20,630 --> 00:19:17,919
air force base was assistant chief of

456
00:19:21,669 --> 00:19:20,640
staff intelligence air 2

457
00:19:22,630 --> 00:19:21,679
uh

458
00:19:24,870 --> 00:19:22,640
yeah

459
00:19:27,590 --> 00:19:24,880
controlled everything the army

460
00:19:30,549 --> 00:19:27,600
and the army air corps stuff

461
00:19:33,669 --> 00:19:30,559
blessing the early days of the air force

462
00:19:34,390 --> 00:19:33,679
sending this right to right pat

463
00:19:36,070 --> 00:19:34,400

well

464

00:19:37,669 --> 00:19:36,080

that's what this directive gives them

465

00:19:39,909 --> 00:19:37,679

permission to interact with is

466

00:19:41,510 --> 00:19:39,919

wright-patterson air force base for the

467

00:19:43,350 --> 00:19:41,520

commanding general too commanding

468

00:19:45,909 --> 00:19:43,360

general that's that's uh commanding

469

00:19:46,890 --> 00:19:45,919

general of ray patterson

470

00:19:49,909 --> 00:19:46,900

that's a big deal

471

00:19:51,909 --> 00:19:49,919

[Laughter]

472

00:19:54,390 --> 00:19:51,919

yeah so then uh was there anything else

473

00:19:56,789 --> 00:19:54,400

in here that yeah

474

00:19:58,549 --> 00:19:56,799

uh i just it's a good one you know may

475

00:20:00,310 --> 00:19:58,559

yeah maybe scroll down and show that

476
00:20:01,510 --> 00:20:00,320
they the guy drew a picture of the

477
00:20:03,350 --> 00:20:01,520
object

478
00:20:06,710 --> 00:20:03,360
uh from the top and from the side i

479
00:20:08,789 --> 00:20:06,720
think your strategic air command

480
00:20:12,789 --> 00:20:08,799
interesting see all those the directives

481
00:20:14,710 --> 00:20:12,799
are following are 45 5 and 200-1

482
00:20:16,070 --> 00:20:14,720
they're essentially the same as the at

483
00:20:19,029 --> 00:20:16,080
the army directive but the army

484
00:20:21,110 --> 00:20:19,039
directive started theirs on march 25th

485
00:20:24,470 --> 00:20:21,120
1948

486
00:20:26,390 --> 00:20:24,480
and i swear i think that explained that

487
00:20:27,830 --> 00:20:26,400
i can't say it does explain it but i

488
00:20:30,230 --> 00:20:27,840

really feel strong in this difference

489

00:20:32,070 --> 00:20:30,240

with the army the army general staff and

490

00:20:35,190 --> 00:20:32,080

their intelligence group could really

491

00:20:37,270 --> 00:20:35,200

possibly be an answer in partial answer

492

00:20:39,029 --> 00:20:37,280

to why some of this other stuff seems so

493

00:20:41,830 --> 00:20:39,039

elusive like

494

00:20:43,750 --> 00:20:41,840

crash recoveries stuff like that

495

00:20:46,149 --> 00:20:43,760

because

496

00:20:48,710 --> 00:20:46,159

it is always the army that's out on the

497

00:20:51,510 --> 00:20:48,720

site of or purported crash you know

498

00:20:53,110 --> 00:20:51,520

roping it off or whatever even the uh

499

00:20:54,950 --> 00:20:53,120

lani zamora one

500

00:20:57,430 --> 00:20:54,960

uh the army was there

501
00:20:58,310 --> 00:20:57,440
you know roping it off and everything

502
00:21:00,070 --> 00:20:58,320
when

503
00:21:02,630 --> 00:21:00,080
right after world war ii

504
00:21:05,430 --> 00:21:02,640
when hap arnold was turning over control

505
00:21:06,789 --> 00:21:05,440
of the the army air force to general

506
00:21:08,310 --> 00:21:06,799
spots

507
00:21:09,510 --> 00:21:08,320
that he turned it over to him and like

508
00:21:11,110 --> 00:21:09,520
because they knew

509
00:21:12,549 --> 00:21:11,120
we're going to make a real air force and

510
00:21:14,870 --> 00:21:12,559
you're going to be the guy that's going

511
00:21:16,789 --> 00:21:14,880
to get it done from you yes sir you know

512
00:21:18,710 --> 00:21:16,799
so smart takes over and that's kind of

513
00:21:21,510 --> 00:21:18,720

what he's doing and he's the guy in

514

00:21:23,350 --> 00:21:21,520

place when that emergency happens on

515

00:21:25,110 --> 00:21:23,360

march 25th

516

00:21:27,669 --> 00:21:25,120

but in this army

517

00:21:29,190 --> 00:21:27,679

you could see the army uh

518

00:21:30,950 --> 00:21:29,200

having separate

519

00:21:33,190 --> 00:21:30,960

tentacles in this

520

00:21:34,950 --> 00:21:33,200

yeah that at the end of the war when the

521

00:21:37,510 --> 00:21:34,960

central intelligence group was created

522

00:21:38,870 --> 00:21:37,520

it was an army thing

523

00:21:39,990 --> 00:21:38,880

not you know

524

00:21:42,230 --> 00:21:40,000

so

525

00:21:43,590 --> 00:21:42,240

as the oss they're thinking what are we

526

00:21:45,590 --> 00:21:43,600

going to do with all these spies and

527

00:21:47,190 --> 00:21:45,600

these spy networks we created that's all

528

00:21:49,510 --> 00:21:47,200

army

529

00:21:51,510 --> 00:21:49,520

and so donovan's oss there they were

530

00:21:53,190 --> 00:21:51,520

first going to disband it all

531

00:21:55,110 --> 00:21:53,200

but then they're thinking no we can't

532

00:21:57,430 --> 00:21:55,120

disband it after conferring back and

533

00:22:00,310 --> 00:21:57,440

forth with the army people because that

534

00:22:02,710 --> 00:22:00,320

just took years of work to get the army

535

00:22:04,390 --> 00:22:02,720

to the level they had all these networks

536

00:22:06,549 --> 00:22:04,400

and stuff and they still had all those

537

00:22:09,190 --> 00:22:06,559

networks at the end of the war

538

00:22:10,950 --> 00:22:09,200

so the central intelligence group

539

00:22:12,390 --> 00:22:10,960

became kind of the

540

00:22:14,630 --> 00:22:12,400

thing working with what they called

541

00:22:16,870 --> 00:22:14,640

their strategic services unit which was

542

00:22:18,630 --> 00:22:16,880

really the oss but as they were

543

00:22:20,470 --> 00:22:18,640

phasing it out

544

00:22:21,510 --> 00:22:20,480

that and i i mentioned hubert i thought

545

00:22:24,310 --> 00:22:21,520

that was interesting because then we

546

00:22:26,149 --> 00:22:24,320

have that in interplanetary unit

547

00:22:27,669 --> 00:22:26,159

unit that supposedly existed that would

548

00:22:33,029 --> 00:22:27,679

have been about that

549

00:22:33,909 --> 00:22:33,039

since they did use the term unit there

550

00:22:36,630 --> 00:22:33,919

but

551
00:22:38,830 --> 00:22:36,640
as the oss and that stuff is infusing

552
00:22:41,430 --> 00:22:38,840
into the army's

553
00:22:43,750 --> 00:22:41,440
cig the

554
00:22:46,110 --> 00:22:43,760
and it's getting closer to it becoming a

555
00:22:49,510 --> 00:22:46,120
civilian agency in july

556
00:22:52,310 --> 00:22:49,520
1947 when it's really kicking in that

557
00:22:55,029 --> 00:22:52,320
whole period of time especially

558
00:22:57,909 --> 00:22:55,039
you can picture the army

559
00:22:59,990 --> 00:22:57,919
clutching to everything with both fists

560
00:23:01,510 --> 00:23:00,000
you know everything they had

561
00:23:04,149 --> 00:23:01,520
information

562
00:23:04,789 --> 00:23:04,159
spies counter intelligence activities

563
00:23:07,029 --> 00:23:04,799

all

564

00:23:09,029 --> 00:23:07,039

they were like grinning

565

00:23:09,909 --> 00:23:09,039

but holding everything like this you

566

00:23:17,750 --> 00:23:09,919

know

567

00:23:19,750 --> 00:23:17,760

i'm sure director of intelligence we'll

568

00:23:20,630 --> 00:23:19,760

send it off but then the next memo will

569

00:23:23,110 --> 00:23:20,640

be

570

00:23:25,510 --> 00:23:23,120

didn't i ask you to send me those

571

00:23:28,950 --> 00:23:25,520

letters oh yes that must have been some

572

00:23:33,270 --> 00:23:30,870

they went on for a long time the army

573

00:23:35,510 --> 00:23:33,280

did not trust the cia because they had

574

00:23:36,870 --> 00:23:35,520

just developed so much and they didn't

575

00:23:39,590 --> 00:23:36,880

want to let it go

576

00:23:41,590 --> 00:23:39,600

yeah well i think that's a you know it

577

00:23:43,909 --> 00:23:41,600

seems like that's even a problem these

578

00:23:46,310 --> 00:23:43,919

days is the intelligence different

579

00:23:48,149 --> 00:23:46,320

intelligence agencies trusting each

580

00:23:50,789 --> 00:23:48,159

other or wanting to give up the

581

00:23:52,070 --> 00:23:50,799

information that they have

582

00:23:54,470 --> 00:23:52,080

interesting

583

00:23:56,070 --> 00:23:54,480

well in the gsc his

584

00:23:58,310 --> 00:23:56,080

predecessor is the war department

585

00:24:00,310 --> 00:23:58,320

general staff which prosecuted world war

586

00:24:01,510 --> 00:24:00,320

one and world war ii

587

00:24:04,149 --> 00:24:01,520

and so

588

00:24:07,510 --> 00:24:04,159

i'm sorry go ahead no that's okay i'm

589

00:24:09,029 --> 00:24:07,520

bringing up your documents here

590

00:24:13,149 --> 00:24:09,039

this one's interesting on a couple of

591

00:24:15,830 --> 00:24:14,630

www.bluebookarchive.org while it was

592

00:24:17,510 --> 00:24:15,840

still a thing

593

00:24:20,310 --> 00:24:17,520

right and

594

00:24:22,310 --> 00:24:20,320

it was funny how even that group a good

595

00:24:24,630 --> 00:24:22,320

guy grew for sure because they were

596

00:24:26,710 --> 00:24:24,640

housing all these occasions and their

597

00:24:28,390 --> 00:24:26,720

ocr system was great

598

00:24:30,310 --> 00:24:28,400

to search through stuff

599

00:24:32,630 --> 00:24:30,320

but when you get the documents i just

600

00:24:35,750 --> 00:24:32,640

happened to trip i was searching all

601
00:24:37,590 --> 00:24:35,760
over for this and i fear it was in there

602
00:24:40,149 --> 00:24:37,600
but then i realized maybe this was why

603
00:24:41,590 --> 00:24:40,159
it took so long this is actually fixed

604
00:24:44,070 --> 00:24:41,600
quite a bit by me

605
00:24:45,510 --> 00:24:44,080
the the real copy you get this black all

606
00:24:49,269 --> 00:24:45,520
over this you could really actually

607
00:24:51,269 --> 00:24:49,279
barely read any of it it was all black

608
00:24:53,110 --> 00:24:51,279
it did it on purpose like because i've

609
00:24:55,510 --> 00:24:53,120
seen other copies like frank warren's

610
00:24:57,830 --> 00:24:55,520
copies these are great they're all clear

611
00:24:59,430 --> 00:24:57,840
there's no

612
00:25:01,430 --> 00:24:59,440
and y'all see that one up there on the

613
00:25:03,669 --> 00:25:01,440

left-hand side

614

00:25:05,029 --> 00:25:03,679

but i kept this page because it's it's

615

00:25:06,950 --> 00:25:05,039

the page it's one that gives those

616

00:25:09,990 --> 00:25:06,960

famous quotes you know

617

00:25:12,470 --> 00:25:10,000

and this was done by colonel mccooy out

618

00:25:15,190 --> 00:25:12,480

there at right field

619

00:25:16,630 --> 00:25:15,200

he's the one behind this information see

620

00:25:18,630 --> 00:25:16,640

that it says

621

00:25:19,669 --> 00:25:18,640

you know this as requested by george

622

00:25:22,149 --> 00:25:19,679

shuligan

623

00:25:23,909 --> 00:25:22,159

head of uh off uh office of intelligence

624

00:25:25,990 --> 00:25:23,919

requirements

625

00:25:27,669 --> 00:25:26,000

uh that's why it says as requested by

626
00:25:29,830 --> 00:25:27,679
acting chief of staff air intelligence

627
00:25:32,149 --> 00:25:29,840
which was he was at the time

628
00:25:33,590 --> 00:25:32,159
proposed below the considered opinion by

629
00:25:36,870 --> 00:25:33,600
this command blah blah we know this

630
00:25:38,630 --> 00:25:36,880
right but it was by the personnel of t2

631
00:25:40,470 --> 00:25:38,640
aircraft laboratory engineering and that

632
00:25:42,549 --> 00:25:40,480
so that's howard mccooy

633
00:25:44,710 --> 00:25:42,559
at right field so he was the one that

634
00:25:46,789 --> 00:25:44,720
gave them the information that george

635
00:25:48,870 --> 00:25:46,799
that uh george shuligan put together to

636
00:25:51,190 --> 00:25:48,880
get this famous report where it says the

637
00:25:52,390 --> 00:25:51,200
philomonum the philomenon reported as

638
00:25:53,780 --> 00:25:52,400

real

639

00:26:00,700 --> 00:25:53,790

the phenomenon

640

00:26:04,630 --> 00:26:02,630

[Laughter]

641

00:26:06,470 --> 00:26:04,640

so here we go here's like the second

642

00:26:09,590 --> 00:26:06,480

letter

643

00:26:11,669 --> 00:26:09,600

i'm gonna try just a different

644

00:26:13,430 --> 00:26:11,679

better way to

645

00:26:16,870 --> 00:26:13,440

bring this up

646

00:26:18,710 --> 00:26:16,880

just because you know we want people to

647

00:26:21,110 --> 00:26:18,720

be able to see it well

648

00:26:23,430 --> 00:26:21,120

yeah i think

649

00:26:26,390 --> 00:26:23,440

that didn't work

650

00:26:28,630 --> 00:26:26,400

okay so i think this might be

651
00:26:32,070 --> 00:26:28,640
a little bit better because i can zoom

652
00:26:33,190 --> 00:26:32,080
in oh yes oh

653
00:26:34,710 --> 00:26:33,200
there we go

654
00:26:36,230 --> 00:26:34,720
cool

655
00:26:38,149 --> 00:26:36,240
see now here we have a reference to it

656
00:26:40,789 --> 00:26:38,159
even obviously there's an even other

657
00:26:43,269 --> 00:26:40,799
filing systems either handwritten x

658
00:26:45,990 --> 00:26:43,279
0 0 0.9

659
00:26:48,630 --> 00:26:46,000
and then signed by the guy j j afer or

660
00:26:49,909 --> 00:26:48,640
jaffer that's an obviously other filing

661
00:26:51,669 --> 00:26:49,919
system

662
00:26:55,110 --> 00:26:51,679
right then the other one we're looking

663
00:26:58,710 --> 00:26:56,710

there's a lot of that you know i wonder

664

00:27:00,070 --> 00:26:58,720

what's in there who's doctor charles

665

00:27:01,430 --> 00:27:00,080

carroll

666

00:27:04,310 --> 00:27:01,440

what's that

667

00:27:06,870 --> 00:27:04,320

who's dr charles carroll very famous guy

668

00:27:08,630 --> 00:27:06,880

at the time we could do a little

669

00:27:09,669 --> 00:27:08,640

background search and he's got a lot of

670

00:27:11,430 --> 00:27:09,679

information

671

00:27:13,029 --> 00:27:11,440

and he would have been a guy that he

672

00:27:15,669 --> 00:27:13,039

would have been the kind of guy you brag

673

00:27:18,549 --> 00:27:15,679

about with well dr carroll said you know

674

00:27:20,870 --> 00:27:18,559

he was that kind of guy alfred

675

00:27:23,110 --> 00:27:20,880

see he's there too what's the

676
00:27:24,310 --> 00:27:23,120
significance of this document

677
00:27:26,630 --> 00:27:24,320
okay

678
00:27:28,230 --> 00:27:26,640
that again it's mccoys see that signed

679
00:27:30,549 --> 00:27:28,240
kernel air corps

680
00:27:32,830 --> 00:27:30,559
24 september 1947 the day they were

681
00:27:36,710 --> 00:27:32,840
finalizing the air

682
00:27:39,029 --> 00:27:36,720
force he's this is part of a

683
00:27:40,630 --> 00:27:39,039
a question he keeps trying notice how

684
00:27:43,110 --> 00:27:40,640
it's addressed to up at the top

685
00:27:44,870 --> 00:27:43,120
lieutenant colonel garrett

686
00:27:47,750 --> 00:27:44,880
he's the guy that was putting together

687
00:27:49,830 --> 00:27:47,760
the first estimate of the situation that

688
00:27:51,350 --> 00:27:49,840

was what they used to create project

689

00:27:53,590 --> 00:27:51,360

sign

690

00:27:55,190 --> 00:27:53,600

colonel mccooy and garrett are both with

691

00:27:56,950 --> 00:27:55,200

gsc

692

00:27:58,630 --> 00:27:56,960

even though they're air force

693

00:28:01,110 --> 00:27:58,640

they're both still with the general

694

00:28:02,470 --> 00:28:01,120

staff on their airpath

695

00:28:04,950 --> 00:28:02,480

so

696

00:28:06,630 --> 00:28:04,960

they would be lazy that's why their

697

00:28:07,909 --> 00:28:06,640

assistant chief of staff air

698

00:28:10,389 --> 00:28:07,919

intelligence that's why that's the

699

00:28:12,310 --> 00:28:10,399

liaison because the air staffs lays

700

00:28:13,510 --> 00:28:12,320

together

701
00:28:17,269 --> 00:28:13,520
so

702
00:28:18,310 --> 00:28:17,279
knows how much deviates into that army

703
00:28:19,750 --> 00:28:18,320
connection

704
00:28:22,389 --> 00:28:19,760
into the air staff that somehow we

705
00:28:24,149 --> 00:28:22,399
should be looking more into including

706
00:28:26,470 --> 00:28:24,159
2.1

707
00:28:28,389 --> 00:28:26,480
uh i would think graham might have come

708
00:28:29,190 --> 00:28:28,399
across some stuff

709
00:28:30,549 --> 00:28:29,200
yeah

710
00:28:32,710 --> 00:28:30,559
foo fighters

711
00:28:34,549 --> 00:28:32,720
yeah maybe possibly

712
00:28:37,190 --> 00:28:34,559
it seems like they're a harder nut to

713
00:28:39,190 --> 00:28:37,200

crack for whatever reason

714

00:28:40,389 --> 00:28:39,200

well it's no coincidence that other that

715

00:28:43,430 --> 00:28:40,399

control

716

00:28:45,590 --> 00:28:43,440

capital a dash 1917 the air staff was

717

00:28:47,510 --> 00:28:45,600

created in 1917

718

00:28:48,870 --> 00:28:47,520

so that makes sense they used that for

719

00:28:50,950 --> 00:28:48,880

their control

720

00:28:51,830 --> 00:28:50,960

mechanism

721

00:28:54,149 --> 00:28:51,840

so

722

00:28:56,230 --> 00:28:54,159

the air force didn't have that same type

723

00:28:57,430 --> 00:28:56,240

of control mechanism in their

724

00:28:59,590 --> 00:28:57,440

reporting

725

00:29:01,990 --> 00:28:59,600

notice oh the army did when the general

726
00:29:05,029 --> 00:29:02,000
staff got involved

727
00:29:08,149 --> 00:29:05,039
has to be in the file 452.1

728
00:29:09,990 --> 00:29:08,159
with control a 1917

729
00:29:12,149 --> 00:29:10,000
attached to it so that it gets

730
00:29:14,549 --> 00:29:12,159
controlled by the

731
00:29:17,830 --> 00:29:14,559
i guess that would be top secret

732
00:29:19,750 --> 00:29:17,840
control officer that was handling a 1917

733
00:29:21,830 --> 00:29:19,760
for the army general staff

734
00:29:24,310 --> 00:29:21,840
yeah so information is really just all

735
00:29:25,909 --> 00:29:24,320
over the place because i'll tell you

736
00:29:28,310 --> 00:29:25,919
you know there's there's one thing by

737
00:29:31,029 --> 00:29:28,320
the air force that that i've come across

738
00:29:33,750 --> 00:29:31,039

it says they've had over 11 000 some

739

00:29:35,830 --> 00:29:33,760

sightings or whatever um

740

00:29:37,350 --> 00:29:35,840

in a span of a certain amount of years

741

00:29:38,950 --> 00:29:37,360

and you look at the archives and there's

742

00:29:39,830 --> 00:29:38,960

only

743

00:29:44,310 --> 00:29:39,840

seven 10

744

00:29:50,389 --> 00:29:46,070

you know

745

00:29:54,230 --> 00:29:52,630

i don't know i know it didn't happen

746

00:29:55,909 --> 00:29:54,240

that's why this kind of thing is i think

747

00:29:57,430 --> 00:29:55,919

right here so this letter here that's

748

00:29:59,830 --> 00:29:57,440

this is why this is important it's

749

00:30:01,110 --> 00:29:59,840

direction attention director research

750

00:30:03,350 --> 00:30:01,120

and development

751
00:30:04,310 --> 00:30:03,360
remember later in 1960 those letters

752
00:30:06,070 --> 00:30:04,320
like

753
00:30:08,070 --> 00:30:06,080
were they're trying to dump it off on

754
00:30:09,510 --> 00:30:08,080
somebody supposingly in their research

755
00:30:11,350 --> 00:30:09,520
and development they're

756
00:30:13,430 --> 00:30:11,360
no no we can't take down them but well

757
00:30:14,389 --> 00:30:13,440
the research development had always been

758
00:30:16,549 --> 00:30:14,399
in

759
00:30:18,789 --> 00:30:16,559
children it's weird anyway

760
00:30:19,990 --> 00:30:18,799
craig is director research and

761
00:30:22,389 --> 00:30:20,000
development

762
00:30:23,590 --> 00:30:22,399
command for structure right and so

763
00:30:25,669 --> 00:30:23,600

that's who

764

00:30:28,149 --> 00:30:25,679

now mcstill mcco

765

00:30:29,990 --> 00:30:28,159

is writing to and he even in this number

766

00:30:31,430 --> 00:30:30,000

one see confirming the recent

767

00:30:33,909 --> 00:30:31,440

conversation

768

00:30:36,630 --> 00:30:33,919

of the undersigned mcco with general

769

00:30:37,510 --> 00:30:36,640

craig so on 9 december he had a meeting

770

00:30:38,230 --> 00:30:37,520

with

771

00:30:39,830 --> 00:30:38,240

the

772

00:30:41,990 --> 00:30:39,840

general craigie

773

00:30:42,950 --> 00:30:42,000

so the meeting was about these questions

774

00:30:45,110 --> 00:30:42,960

he has

775

00:30:47,510 --> 00:30:45,120

like that one of he mentioned in the the

776
00:30:48,870 --> 00:30:47,520
previous one we quoted now notice when

777
00:30:51,269 --> 00:30:48,880
it says in two

778
00:30:53,830 --> 00:30:51,279
comments of headquarters air force on

779
00:30:56,310 --> 00:30:53,840
these three letters have never been

780
00:30:58,630 --> 00:30:56,320
received by this command

781
00:31:00,310 --> 00:30:58,640
continued and recent reports from

782
00:31:02,470 --> 00:31:00,320
qualified observers concerning this

783
00:31:04,470 --> 00:31:02,480
phenomenon still makes this matter one

784
00:31:06,870 --> 00:31:04,480
of concern to headquarters airman's

785
00:31:08,789 --> 00:31:06,880
hearing command intelligence division uh

786
00:31:11,269 --> 00:31:08,799
department of this command is continuing

787
00:31:12,470 --> 00:31:11,279
the collection and analysis of so you

788
00:31:14,389 --> 00:31:12,480

know i mean for

789

00:31:16,870 --> 00:31:14,399

he's talking pretty big for like some

790

00:31:18,389 --> 00:31:16,880

just regular colonel out there and

791

00:31:20,149 --> 00:31:18,399

you know well

792

00:31:22,789 --> 00:31:20,159

even though i haven't heard from you we

793

00:31:24,470 --> 00:31:22,799

plan on continuing our program and he

794

00:31:26,549 --> 00:31:24,480

seems to know something

795

00:31:28,070 --> 00:31:26,559

that means it's a big deal i don't know

796

00:31:30,070 --> 00:31:28,080

why you guys aren't making a big deal

797

00:31:31,190 --> 00:31:30,080

with this you haven't even answered my

798

00:31:33,430 --> 00:31:31,200

letters

799

00:31:36,470 --> 00:31:33,440

signed colonel mccooy

800

00:31:37,750 --> 00:31:36,480

yeah interesting because

801
00:31:40,230 --> 00:31:37,760
well

802
00:31:42,230 --> 00:31:40,240
usaf you think would be making maybe a

803
00:31:44,310 --> 00:31:42,240
bigger deal of it because it was like

804
00:31:46,230 --> 00:31:44,320
the radar stuff that was

805
00:31:48,630 --> 00:31:46,240
really freaking them out like uh and

806
00:31:50,950 --> 00:31:48,640
people being able to tell if there's a

807
00:31:52,070 --> 00:31:50,960
saucer on the radar or if it's a plane

808
00:31:55,110 --> 00:31:52,080
or

809
00:31:56,950 --> 00:31:55,120
what it is and how would they react

810
00:31:58,070 --> 00:31:56,960
if it i mean if that's correct i believe

811
00:32:00,750 --> 00:31:58,080
it is but

812
00:32:02,549 --> 00:32:00,760
and these are the 47 radar sightings

813
00:32:04,549 --> 00:32:02,559

1947's

814

00:32:06,549 --> 00:32:04,559

yeah whatever level you know the same

815

00:32:08,389 --> 00:32:06,559

leftover world war ii

816

00:32:11,350 --> 00:32:08,399

stuff they're using or wait did they

817

00:32:13,590 --> 00:32:11,360

have radar sightings then in 47 oh yeah

818

00:32:15,350 --> 00:32:13,600

these were all 47

819

00:32:17,590 --> 00:32:15,360

we had our radar they just weren't that

820

00:32:20,149 --> 00:32:17,600

great for yeah they weren't they really

821

00:32:21,990 --> 00:32:20,159

weren't great for what we needed because

822

00:32:23,669 --> 00:32:22,000

bombers could come in at low altitude

823

00:32:26,230 --> 00:32:23,679

and the stuff we had would like totally

824

00:32:29,830 --> 00:32:27,830

one of the things we were feverishly

825

00:32:31,590 --> 00:32:29,840

trying to throw together low-level

826

00:32:34,310 --> 00:32:31,600

altitude

827

00:32:36,470 --> 00:32:34,320

over-the-horizon type you know

828

00:32:37,269 --> 00:32:36,480

radar stuff to so in case a bomber group

829

00:32:38,870 --> 00:32:37,279

was

830

00:32:40,950 --> 00:32:38,880

coming over the horizon you'd kind of

831

00:32:42,549 --> 00:32:40,960

know it you know it's interesting hey

832

00:32:45,190 --> 00:32:42,559

amc opinion

833

00:32:47,350 --> 00:32:45,200

concerning flying discs that's what we

834

00:32:48,789 --> 00:32:47,360

read that first one that's almost all

835

00:32:51,750 --> 00:32:48,799

blacked out

836

00:32:53,190 --> 00:32:51,760

the twining memorandum that's that one

837

00:32:55,269 --> 00:32:53,200

and that was one of the letters he

838

00:32:56,789 --> 00:32:55,279

included see he included all three of

839

00:32:57,909 --> 00:32:56,799

these big time letters he had sent

840

00:33:00,149 --> 00:32:57,919

already

841

00:33:01,990 --> 00:33:00,159

and they were included with this here

842

00:33:04,230 --> 00:33:02,000

included find these three letters you

843

00:33:06,070 --> 00:33:04,240

know to remind you that i've asked you

844

00:33:08,830 --> 00:33:06,080

before about the subject and you just

845

00:33:11,029 --> 00:33:08,840

keep ignoring me

846

00:33:13,669 --> 00:33:11,039

why uh did i

847

00:33:17,590 --> 00:33:13,679

remember to send i think i redid

848

00:33:21,350 --> 00:33:17,600

something as a jpeg that was page two of

849

00:33:22,630 --> 00:33:21,360

what i pulled out of one of the pdfs on

850

00:33:25,750 --> 00:33:22,640

on the

851
00:33:28,389 --> 00:33:25,760
our research development board rdb

852
00:33:30,310 --> 00:33:28,399
if that was possible uh

853
00:33:33,509 --> 00:33:30,320
we could figure that out i didn't

854
00:33:35,909 --> 00:33:33,519
because i remember when i spoke to uh

855
00:33:39,430 --> 00:33:35,919
to uh spaghetti he couldn't pick up a

856
00:33:41,029 --> 00:33:39,440
pdf file you know okay so i remember

857
00:33:43,190 --> 00:33:41,039
pulling something out of one and making

858
00:33:44,470 --> 00:33:43,200
it a jpeg

859
00:33:49,430 --> 00:33:44,480
i have not

860
00:33:51,190 --> 00:33:49,440
it's page two of the one that's rdb bush

861
00:33:55,750 --> 00:33:51,200
pro possible problems or something like

862
00:33:55,760 --> 00:34:00,230
could be

863
00:34:03,190 --> 00:34:01,190

is it

864

00:34:04,710 --> 00:34:03,200

uh see it's hard for me to tell which is

865

00:34:07,509 --> 00:34:04,720

which i guess

866

00:34:10,230 --> 00:34:07,519

i mean i see the basic sheet that listed

867

00:34:15,990 --> 00:34:14,470

um 1950 iac meeting bush problems yeah

868

00:34:18,310 --> 00:34:16,000

okay

869

00:34:19,589 --> 00:34:18,320

i think that's one

870

00:34:22,230 --> 00:34:19,599

okay

871

00:34:25,270 --> 00:34:22,240

sorry is it a minute is it minutes of

872

00:34:27,750 --> 00:34:25,280

ise meeting okay gotcha no uh

873

00:34:29,510 --> 00:34:27,760

no no it would not be it's uh

874

00:34:30,869 --> 00:34:29,520

forrest still might be in the title is

875

00:34:32,230 --> 00:34:30,879

he for

876

00:34:34,790 --> 00:34:32,240

no

877

00:34:37,589 --> 00:34:34,800

i've already caused a hiccup

878

00:34:41,270 --> 00:34:39,430

maybe or maybe i just screwed something

879

00:34:43,669 --> 00:34:41,280

up

880

00:34:45,430 --> 00:34:43,679

uh rdb craigie

881

00:34:49,669 --> 00:34:45,440

should be the ending of it

882

00:34:51,669 --> 00:34:49,679

okay that helps let me check yeah rdb

883

00:34:54,710 --> 00:34:51,679

craigie

884

00:35:00,470 --> 00:34:57,990

craig you are the next contestant

885

00:35:02,390 --> 00:35:00,480

on the price is right okay yeah i don't

886

00:35:03,430 --> 00:35:02,400

have that one

887

00:35:04,150 --> 00:35:03,440

right then

888

00:35:05,990 --> 00:35:04,160

well

889

00:35:07,910 --> 00:35:06,000

if you sent it to me email i could

890

00:35:09,670 --> 00:35:07,920

always uh check it out right now and

891

00:35:12,310 --> 00:35:09,680

make sure

892

00:35:14,870 --> 00:35:12,320

if you think he sent it

893

00:35:16,790 --> 00:35:14,880

that's not a problem at all

894

00:35:23,030 --> 00:35:16,800

yeah

895

00:35:23,910 --> 00:35:23,040

you you talk about it maybe i'll find it

896

00:35:26,150 --> 00:35:23,920

who knows

897

00:35:27,910 --> 00:35:26,160

i mean i did it's on page two of one of

898

00:35:29,990 --> 00:35:27,920

those uh

899

00:35:32,470 --> 00:35:30,000

pdf sites that are in that group i sent

900

00:35:34,390 --> 00:35:32,480

you but all the reason it's important

901
00:35:37,190 --> 00:35:34,400
and this is because

902
00:35:40,069 --> 00:35:37,200
i as something i recently ran across and

903
00:35:43,030 --> 00:35:40,079
it provided on page two it's handwritten

904
00:35:45,349 --> 00:35:43,040
notes by forrestal of who's in the

905
00:35:47,829 --> 00:35:45,359
research and development board

906
00:35:50,790 --> 00:35:47,839
who's there who's the leader who's the

907
00:35:51,750 --> 00:35:50,800
other people involved so vanivar bush is

908
00:35:55,990 --> 00:35:51,760
the head

909
00:35:58,550 --> 00:35:56,000
research development board

910
00:36:00,470 --> 00:35:58,560
one of the next two down

911
00:36:01,910 --> 00:36:00,480
was lieutenant general

912
00:36:04,870 --> 00:36:01,920
craigie

913
00:36:07,990 --> 00:36:04,880

okay this is the guy in the command that

914

00:36:10,230 --> 00:36:08,000

mccoy can't seem to get him to answer

915

00:36:12,470 --> 00:36:10,240

what's going on

916

00:36:15,030 --> 00:36:12,480

in the ufo you know what are we doing

917

00:36:17,270 --> 00:36:15,040

here and he keeps having asking him

918

00:36:19,670 --> 00:36:17,280

over and over again even through

919

00:36:20,950 --> 00:36:19,680

late december 47 he finally gets an

920

00:36:24,470 --> 00:36:20,960

answer and

921

00:36:27,109 --> 00:36:24,480

i think from george shilling's office

922

00:36:29,349 --> 00:36:27,119

so what was that and so

923

00:36:31,390 --> 00:36:29,359

craigie just happens to be on the

924

00:36:33,750 --> 00:36:31,400

research and development board

925

00:36:35,670 --> 00:36:33,760

[Laughter]

926
00:36:37,190 --> 00:36:35,680
and everybody including you've seen the

927
00:36:40,950 --> 00:36:37,200
sarbacher memo

928
00:36:43,510 --> 00:36:40,960
where he went to wilbert smith that the

929
00:36:45,430 --> 00:36:43,520
leader was vanibar bush and they were

930
00:36:47,510 --> 00:36:45,440
head of a saucer group

931
00:36:50,390 --> 00:36:47,520
yeah that's the research and development

932
00:36:53,270 --> 00:36:50,400
board most assuredly

933
00:36:55,030 --> 00:36:53,280
well what the heck

934
00:36:56,870 --> 00:36:55,040
yeah i can't find it for whatever reason

935
00:36:58,470 --> 00:36:56,880
i got a pdf from you but that's not

936
00:36:59,990 --> 00:36:58,480
attached to it

937
00:37:02,790 --> 00:37:00,000
well blimey

938
00:37:04,610 --> 00:37:02,800

so i'll send you these things

939

00:37:07,270 --> 00:37:04,620

you did man

940

00:37:10,550 --> 00:37:07,280

[Laughter]

941

00:37:12,390 --> 00:37:10,560

so research and development was like uh

942

00:37:14,069 --> 00:37:12,400

definitely one of their

943

00:37:16,150 --> 00:37:14,079

[Music]

944

00:37:18,390 --> 00:37:16,160

uh

945

00:37:19,750 --> 00:37:18,400

you know big deals with research in this

946

00:37:22,790 --> 00:37:19,760

phenomenon

947

00:37:24,550 --> 00:37:22,800

wasn't it oh yeah from there i mean

948

00:37:26,390 --> 00:37:24,560

i wanted to use it for weapons basically

949

00:37:27,270 --> 00:37:26,400

right

950

00:37:29,510 --> 00:37:27,280

you know

951
00:37:31,349 --> 00:37:29,520
it looks like definitely sometimes

952
00:37:33,990 --> 00:37:31,359
through the articles of the art air

953
00:37:36,710 --> 00:37:34,000
defense motif you know here again

954
00:37:39,990 --> 00:37:36,720
another struggle between the army and

955
00:37:41,510 --> 00:37:40,000
the air force is the air defense

956
00:37:43,829 --> 00:37:41,520
was an army thing

957
00:37:45,510 --> 00:37:43,839
so again just like the other stuff at

958
00:37:46,950 --> 00:37:45,520
the beginning as they were working out

959
00:37:48,950 --> 00:37:46,960
air defense stuff

960
00:37:51,030 --> 00:37:48,960
the army was the ones that were doing

961
00:37:53,430 --> 00:37:51,040
everything again i think that's

962
00:37:56,390 --> 00:37:53,440
definitely why we see in the files

963
00:37:58,790 --> 00:37:56,400

assistant chief of staff intelligence

964

00:38:01,510 --> 00:37:58,800

army ground intelligence g2 and

965

00:38:04,069 --> 00:38:01,520

assistant chief of staff intelligence

966

00:38:05,109 --> 00:38:04,079

air force etude you'll always see those

967

00:38:07,510 --> 00:38:05,119

two

968

00:38:09,190 --> 00:38:07,520

in connection to the real serious files

969

00:38:12,150 --> 00:38:09,200

and he had marshall chad well in there

970

00:38:13,750 --> 00:38:12,160

with the cia and they were trying to do

971

00:38:15,990 --> 00:38:13,760

their research and development and all

972

00:38:18,950 --> 00:38:16,000

that stuff so you got like three

973

00:38:22,230 --> 00:38:18,960

different branches of intelligence

974

00:38:27,430 --> 00:38:26,150

like doing things with this helen cutter

975

00:38:28,870 --> 00:38:27,440

some of might would have been going on

976

00:38:31,589 --> 00:38:28,880

there i think hill and cutter at the

977

00:38:33,910 --> 00:38:31,599

beginning was being kind of kept out by

978

00:38:35,750 --> 00:38:33,920

the army because they're the ones

979

00:38:37,109 --> 00:38:35,760

bellyaching the most about the army not

980

00:38:38,470 --> 00:38:37,119

sharing with them

981

00:38:40,710 --> 00:38:38,480

right so

982

00:38:44,550 --> 00:38:40,720

if the army was keeping a lot of them

983

00:38:47,430 --> 00:38:44,560

you could see of if in the 49ish period

984

00:38:50,069 --> 00:38:47,440

hill and goddard started figuring it out

985

00:38:51,990 --> 00:38:50,079

it being maybe like crash like

986

00:38:53,510 --> 00:38:52,000

aztec you know and they're the army's

987

00:38:54,310 --> 00:38:53,520

been keeping it under wraps and they're

988

00:38:56,230 --> 00:38:54,320

kind of

989

00:38:58,630 --> 00:38:56,240

you know i did get i don't know if i

990

00:39:01,109 --> 00:38:58,640

mentioned this last time but i wish i

991

00:39:02,550 --> 00:39:01,119

i know i kept it on the hard drive so i

992

00:39:04,630 --> 00:39:02,560

can prove that i really got it from a

993

00:39:05,589 --> 00:39:04,640

web page but back in the day way back in

994

00:39:08,310 --> 00:39:05,599

the day

995

00:39:10,790 --> 00:39:08,320

the air force on its regular

996

00:39:13,510 --> 00:39:10,800

page about itself it did have these two

997

00:39:15,430 --> 00:39:13,520

pages on colonel harold watson that were

998

00:39:18,470 --> 00:39:15,440

no place else and i remember grabbing

999

00:39:20,630 --> 00:39:18,480

them because they were talking about how

1000

00:39:23,030 --> 00:39:20,640

sometime in 47

1001

00:39:25,510 --> 00:39:23,040

the air force namely colonel harold

1002

00:39:29,510 --> 00:39:25,520

watson same one we know about in the ufo

1003

00:39:32,230 --> 00:39:29,520

field yeah he was using the first

1004

00:39:33,670 --> 00:39:32,240

equipment they had available to use uh

1005

00:39:35,109 --> 00:39:33,680

as a

1006

00:39:37,270 --> 00:39:35,119

uh

1007

00:39:40,710 --> 00:39:37,280

eavesdropping on whatever the army was

1008

00:39:43,030 --> 00:39:40,720

doing out at white sands missile range

1009

00:39:46,069 --> 00:39:43,040

why would the air force need to be they

1010

00:39:47,109 --> 00:39:46,079

were using signals intelligence stuff

1011

00:39:48,230 --> 00:39:47,119

in a

1012

00:39:50,310 --> 00:39:48,240

place of their and they were

1013

00:39:52,550 --> 00:39:50,320

eavesdropping on the army

1014

00:39:53,829 --> 00:39:52,560

whatever the army was doing out there

1015

00:39:56,790 --> 00:39:53,839

when was that

1016

00:39:59,349 --> 00:39:56,800

it was like late 47 or right around the

1017

00:40:01,270 --> 00:39:59,359

same time period 47 48

1018

00:40:02,310 --> 00:40:01,280

in this window that i'm where they're

1019

00:40:04,870 --> 00:40:02,320

still

1020

00:40:05,910 --> 00:40:04,880

struggling with sharing information with

1021

00:40:07,430 --> 00:40:05,920

their

1022

00:40:09,589 --> 00:40:07,440

fellows

1023

00:40:11,430 --> 00:40:09,599

there you go there's the first date 455

1024

00:40:14,309 --> 00:40:11,440

is updated from what i can tell from

1025

00:40:16,550 --> 00:40:14,319

sixth february okay

1026

00:40:18,230 --> 00:40:16,560

and there is some stuff

1027

00:40:19,589 --> 00:40:18,240

i sent it to you but again i didn't i

1028

00:40:21,750 --> 00:40:19,599

don't want to be held like oh no now

1029

00:40:24,550 --> 00:40:21,760

this file now this file you know oh yeah

1030

00:40:27,510 --> 00:40:24,560

we can do that uh

1031

00:40:29,670 --> 00:40:27,520

smoking object and that coincidentally

1032

00:40:30,870 --> 00:40:29,680

was published on the same date 26

1033

00:40:32,710 --> 00:40:30,880

february

1034

00:40:34,069 --> 00:40:32,720

there's a couple other fightings i found

1035

00:40:36,710 --> 00:40:34,079

same date

1036

00:40:38,630 --> 00:40:36,720

26 february and 25 february so obviously

1037

00:40:39,829 --> 00:40:38,640

stuff was going on

1038

00:40:41,430 --> 00:40:39,839

that they were

1039

00:40:43,270 --> 00:40:41,440

working on and every time something

1040

00:40:44,309 --> 00:40:43,280

happened the date would take on that new

1041

00:40:46,069 --> 00:40:44,319

date

1042

00:40:47,109 --> 00:40:46,079

like i said that's this one's 26

1043

00:40:49,109 --> 00:40:47,119

february

1044

00:40:51,030 --> 00:40:49,119

and then one november i saw one with

1045

00:40:53,030 --> 00:40:51,040

nova and yep there's a

1046

00:40:53,990 --> 00:40:53,040

there's a bomber crew that sites the

1047

00:40:56,470 --> 00:40:54,000

disc

1048

00:41:00,470 --> 00:40:56,480

on one november 1948 and that's the new

1049

00:41:01,349 --> 00:41:00,480

date for you know the gs csg id uh

1050

00:41:04,230 --> 00:41:01,359

letter

1051
00:41:05,910 --> 00:41:04,240
but 45 5 and 200-1 even though it

1052
00:41:07,589 --> 00:41:05,920
doesn't say that anywhere this is pretty

1053
00:41:09,430 --> 00:41:07,599
much exactly

1054
00:41:11,190 --> 00:41:09,440
those directives

1055
00:41:12,630 --> 00:41:11,200
so you see later and even says here you

1056
00:41:15,349 --> 00:41:12,640
know in compliance with paragraph 3

1057
00:41:18,069 --> 00:41:15,359
regulation number 45 5

1058
00:41:21,670 --> 00:41:18,079
headquarters strategic air command

1059
00:41:23,510 --> 00:41:21,680
and so this is pretty much 45.5 and 201

1060
00:41:25,589 --> 00:41:23,520
both this is how

1061
00:41:29,109 --> 00:41:25,599
except instead of smoking object they

1062
00:41:30,470 --> 00:41:29,119
would say maybe 350-09 a smoking object

1063
00:41:35,030 --> 00:41:30,480

category

1064

00:41:37,190 --> 00:41:35,040

see out there air air intelligence 350

1065

00:41:39,510 --> 00:41:37,200

instead of 452.1

1066

00:41:41,670 --> 00:41:39,520

and this is a smoking object so that's

1067

00:41:47,190 --> 00:41:41,680

probably the smoking object file i hope

1068

00:41:51,670 --> 00:41:49,300

somebody's in trouble

1069

00:41:53,829 --> 00:41:51,680

[Laughter]

1070

00:41:55,090 --> 00:41:53,839

it's an unclassified document it's not

1071

00:41:56,470 --> 00:41:55,100

our fault

1072

00:41:58,550 --> 00:41:56,480

[Laughter]

1073

00:42:00,630 --> 00:41:58,560

so uh

1074

00:42:02,550 --> 00:42:00,640

weird smoking objects were being seen

1075

00:42:06,069 --> 00:42:02,560

about this time right up until right

1076
00:42:07,589 --> 00:42:06,079
before the march 25th incident

1077
00:42:08,550 --> 00:42:07,599
uh one in

1078
00:42:11,030 --> 00:42:08,560
in

1079
00:42:12,390 --> 00:42:11,040
bakersfield california where

1080
00:42:15,030 --> 00:42:12,400
people saw

1081
00:42:17,750 --> 00:42:15,040
thick brown smoke behind a slow moving

1082
00:42:19,430 --> 00:42:17,760
object that just stopped all of a sudden

1083
00:42:21,349 --> 00:42:19,440
and then what they thought might have

1084
00:42:23,829 --> 00:42:21,359
been a parachute was

1085
00:42:25,750 --> 00:42:23,839
sailing off into the distance

1086
00:42:29,270 --> 00:42:25,760
because there was uh definitely a

1087
00:42:30,950 --> 00:42:29,280
smoking object in uh like newfoundland

1088
00:42:32,950 --> 00:42:30,960

too around then

1089

00:42:34,950 --> 00:42:32,960

there are i think a few yeah

1090

00:42:36,710 --> 00:42:34,960

yeah and there's a picture with that

1091

00:42:38,790 --> 00:42:36,720

that i have which is pretty interesting

1092

00:42:40,550 --> 00:42:38,800

you see a huge trail of smoke coming

1093

00:42:43,190 --> 00:42:40,560

from the sky

1094

00:42:44,390 --> 00:42:43,200

so if i was a regular old ic guy

1095

00:42:46,470 --> 00:42:44,400

or gal and

1096

00:42:48,630 --> 00:42:46,480

i'm seeing things called smoking object

1097

00:42:50,790 --> 00:42:48,640

you know you can see how still in their

1098

00:42:52,390 --> 00:42:50,800

brain they're still thinking

1099

00:42:54,069 --> 00:42:52,400

you know enemy

1100

00:42:55,190 --> 00:42:54,079

activity with the

1101
00:42:57,510 --> 00:42:55,200
the uh

1102
00:42:58,470 --> 00:42:57,520
the russians are behind it all

1103
00:43:01,190 --> 00:42:58,480
yeah

1104
00:43:03,109 --> 00:43:01,200
that that would have been so hard to not

1105
00:43:05,109 --> 00:43:03,119
jump to i mean we've seen those other

1106
00:43:06,950 --> 00:43:05,119
well they even see things like you know

1107
00:43:09,589 --> 00:43:06,960
the the uh

1108
00:43:11,829 --> 00:43:09,599
the exciting or you know

1109
00:43:13,430 --> 00:43:11,839
wonderful is pretty much ignored you

1110
00:43:16,150 --> 00:43:13,440
know as an explanation i can't remember

1111
00:43:17,589 --> 00:43:16,160
the the terminology but it was obvious

1112
00:43:19,109 --> 00:43:17,599
what they were saying you know don't

1113
00:43:21,430 --> 00:43:19,119

even ask me if i think it's

1114

00:43:23,990 --> 00:43:21,440

extraterrestrial we're not even going to

1115

00:43:25,990 --> 00:43:24,000

talk about that or we don't do that

1116

00:43:26,740 --> 00:43:26,000

ma'am i don't think we have a sense of

1117

00:43:29,829 --> 00:43:26,750

humor

1118

00:43:31,829 --> 00:43:29,839

[Laughter]

1119

00:43:34,390 --> 00:43:31,839

so yeah here we go just i like this one

1120

00:43:36,390 --> 00:43:34,400

here because this is pretty much 45 5

1121

00:43:37,750 --> 00:43:36,400

and 200-1

1122

00:43:41,349 --> 00:43:37,760

which mimic

1123

00:43:44,069 --> 00:43:41,359

the predecessors to 452.1

1124

00:43:46,710 --> 00:43:44,079

a 1917 by the army gender staff that

1125

00:43:49,109 --> 00:43:46,720

march 25th morning

1126
00:43:50,550 --> 00:43:49,119
huge multi-colored ball of fire and a

1127
00:43:54,150 --> 00:43:50,560
dense cloud

1128
00:43:55,670 --> 00:43:54,160
made of smoke followed

1129
00:43:59,349 --> 00:43:55,680
kind of like that thing that guy sent

1130
00:44:01,430 --> 00:43:59,359
the k-42d that video is

1131
00:44:03,109 --> 00:44:01,440
yeah yeah that's true

1132
00:44:05,030 --> 00:44:03,119
that was an interesting video that's for

1133
00:44:06,069 --> 00:44:05,040
sure

1134
00:44:06,829 --> 00:44:06,079
hello

1135
00:44:09,190 --> 00:44:06,839
oh

1136
00:44:12,390 --> 00:44:09,200
shoot is that all right

1137
00:44:12,400 --> 00:44:17,109
yeah i had to hang up on him oh okay

1138
00:44:20,150 --> 00:44:18,790

all right so which one do you want next

1139

00:44:21,510 --> 00:44:20,160

here

1140

00:44:24,710 --> 00:44:21,520

uh

1141

00:44:27,670 --> 00:44:24,720

by golly almost any of them are good

1142

00:44:30,020 --> 00:44:27,680

okay anything that's easy to read i've

1143

00:44:34,630 --> 00:44:30,030

tried to make them all easy to read too

1144

00:44:37,270 --> 00:44:36,069

we got a research and development

1145

00:44:38,790 --> 00:44:37,280

director for collection and

1146

00:44:41,430 --> 00:44:38,800

dissemination

1147

00:44:44,309 --> 00:44:41,440

we've got a general ball

1148

00:44:47,990 --> 00:44:44,319

yeah uh uh hold that one up

1149

00:44:51,510 --> 00:44:49,430

um well

1150

00:44:53,910 --> 00:44:51,520

you know it depends on how good you are

1151

00:44:57,430 --> 00:44:53,920

reading and

1152

00:44:58,550 --> 00:44:57,440

vision vision is a thing

1153

00:45:01,030 --> 00:44:58,560

you know

1154

00:45:03,430 --> 00:45:01,040

people can see

1155

00:45:06,950 --> 00:45:03,440

is largely up to them

1156

00:45:09,589 --> 00:45:06,960

and i've been told i need glasses anyway

1157

00:45:11,829 --> 00:45:09,599

uh probably not you oh this one is

1158

00:45:14,870 --> 00:45:11,839

interesting on many levels

1159

00:45:17,430 --> 00:45:14,880

i'm glad you tripped over this one

1160

00:45:19,510 --> 00:45:17,440

look at the date if you can it's hidden

1161

00:45:23,190 --> 00:45:19,520

in that big stamp

1162

00:45:25,349 --> 00:45:23,200

12 january 1950

1163

00:45:27,589 --> 00:45:25,359

this is issued

1164

00:45:29,349 --> 00:45:27,599

by the air force office of intelligence

1165

00:45:31,109 --> 00:45:29,359

requirements that's who we were just

1166

00:45:33,030 --> 00:45:31,119

talking about the

1167

00:45:34,870 --> 00:45:33,040

intelligence requirements

1168

00:45:37,190 --> 00:45:34,880

they're the ones that started this whole

1169

00:45:39,349 --> 00:45:37,200

thing and now they're liaising with the

1170

00:45:40,950 --> 00:45:39,359

army and their unconventional aircraft

1171

00:45:43,030 --> 00:45:40,960

stuff but

1172

00:45:45,190 --> 00:45:43,040

january 6 if you might recall that was

1173

00:45:48,390 --> 00:45:45,200

the day that wyandotte echo article got

1174

00:45:50,870 --> 00:45:48,400

published in the kansas city i mean the

1175

00:45:54,790 --> 00:45:50,880

kensington or the wyandotte echo

1176

00:45:57,430 --> 00:45:54,800

6th january 1954 yeah in 1950

1177

00:45:59,829 --> 00:45:57,440

a week later this is done

1178

00:46:02,069 --> 00:45:59,839

all of these directives

1179

00:46:04,550 --> 00:46:02,079

interesting isn't it send and you read

1180

00:46:06,950 --> 00:46:04,560

each one and they're like the level of

1181

00:46:09,190 --> 00:46:06,960

importance of like uh 455 tournament

1182

00:46:11,190 --> 00:46:09,200

dash one although they're not listed so

1183

00:46:12,710 --> 00:46:11,200

obviously those are continuing

1184

00:46:14,950 --> 00:46:12,720

but all these other ones like there's a

1185

00:46:15,990 --> 00:46:14,960

really interesting if you scroll down

1186

00:46:17,670 --> 00:46:16,000

somebody

1187

00:46:19,829 --> 00:46:17,680

when they were putting this in the files

1188

00:46:21,109 --> 00:46:19,839

originally drew that arrow there

1189

00:46:23,829 --> 00:46:21,119

pointing to

1190

00:46:25,829 --> 00:46:23,839

air intelligence requirements division

1191

00:46:29,109 --> 00:46:25,839

subject reporting

1192

00:46:31,750 --> 00:46:29,119

uh memorandum number four

1193

00:46:32,470 --> 00:46:31,760

unconventional aircraft 15 february 1949

1194

00:46:34,550 --> 00:46:32,480

so

1195

00:46:38,630 --> 00:46:34,560

i wonder what happened on 15 february

1196

00:46:40,069 --> 00:46:38,640

1949 it's a date to look up for sure

1197

00:46:42,150 --> 00:46:40,079

you don't know

1198

00:46:43,109 --> 00:46:42,160

no these see and that's what i'm finding

1199

00:46:45,510 --> 00:46:43,119

out

1200

00:46:47,750 --> 00:46:45,520

would be worth willing look how

1201

00:46:49,349 --> 00:46:47,760

the 26th february is the ones up here

1202

00:46:50,550 --> 00:46:49,359

and then when it gets to the general

1203

00:46:53,349 --> 00:46:50,560

staff

1204

00:46:54,950 --> 00:46:53,359

they're a day late 27 february 1948 so

1205

00:46:57,829 --> 00:46:54,960

it was going the other way too if it was

1206

00:47:00,309 --> 00:46:57,839

air force the army got their stuff late

1207

00:47:03,270 --> 00:47:00,319

but so did the navy and the calm down of

1208

00:47:06,230 --> 00:47:03,280

the uh coast guard got his later even he

1209

00:47:08,870 --> 00:47:06,240

didn't get his until 15 march 1948. it

1210

00:47:10,630 --> 00:47:08,880

may i say that this is a wonderful

1211

00:47:12,309 --> 00:47:10,640

looking arrow

1212

00:47:14,309 --> 00:47:12,319

yeah interesting how they drew attention

1213

00:47:17,589 --> 00:47:14,319

to that air children's requirements

1214

00:47:19,030 --> 00:47:17,599

member on them see intelligence

1215

00:47:20,549 --> 00:47:19,040

that's who you ever

1216

00:47:22,069 --> 00:47:20,559

when you're looking at these documents

1217

00:47:24,390 --> 00:47:22,079

and you see stuff like that do you ever

1218

00:47:27,349 --> 00:47:24,400

think like um

1219

00:47:29,109 --> 00:47:27,359

uh like whoever did that it was trying

1220

00:47:30,950 --> 00:47:29,119

to give a clue to somebody if they ever

1221

00:47:33,430 --> 00:47:30,960

look at it one day

1222

00:47:34,950 --> 00:47:33,440

absolutely i've seen a lot of that stuff

1223

00:47:36,069 --> 00:47:34,960

as i've gone through these over the

1224

00:47:38,470 --> 00:47:36,079

years

1225

00:47:39,990 --> 00:47:38,480

you know a famous one it's controversial

1226

00:47:42,790 --> 00:47:40,000

but you know uh

1227

00:47:45,349 --> 00:47:42,800

when a colonel uh

1228

00:47:47,829 --> 00:47:45,359

at the uh um at the air ate the air

1229

00:47:50,790 --> 00:47:47,839

force when he's uh kneeling

1230

00:47:52,630 --> 00:47:50,800

with the memo in his hand at the roswell

1231

00:47:54,150 --> 00:47:52,640

right when they've got the debris in

1232

00:47:55,510 --> 00:47:54,160

front of the balloon stuff and he's got

1233

00:47:57,589 --> 00:47:55,520

the memorandum

1234

00:47:59,510 --> 00:47:57,599

to this day you know it's controversial

1235

00:48:01,270 --> 00:47:59,520

oh he wouldn't have held a top secret

1236

00:48:02,230 --> 00:48:01,280

memorandum in his hand

1237

00:48:03,829 --> 00:48:02,240

but

1238

00:48:06,390 --> 00:48:03,839

that was one of the other things about

1239

00:48:07,829 --> 00:48:06,400

you know remember scully said even

1240

00:48:09,030 --> 00:48:07,839

though people keep trying to find who

1241

00:48:10,790 --> 00:48:09,040

gen you know

1242

00:48:12,710 --> 00:48:10,800

this ghee guy is and everything and he

1243

00:48:15,270 --> 00:48:12,720

but he says in his book

1244

00:48:16,630 --> 00:48:15,280

i shared some of that with you he goes

1245

00:48:18,790 --> 00:48:16,640

he's right in there and said they were

1246

00:48:19,670 --> 00:48:18,800

it's up to eight different scientists

1247

00:48:21,589 --> 00:48:19,680

and

1248

00:48:23,109 --> 00:48:21,599

specialists that came together to talk

1249

00:48:25,270 --> 00:48:23,119

to me

1250

00:48:27,109 --> 00:48:25,280

okay this is the other one there this is

1251
00:48:29,349 --> 00:48:27,119
the meeting and

1252
00:48:30,390 --> 00:48:29,359
i admit it seems like it's mainly just

1253
00:48:32,549 --> 00:48:30,400
me that

1254
00:48:35,030 --> 00:48:32,559
but at the beginning part up until that

1255
00:48:37,430 --> 00:48:35,040
second if we read that beginning part

1256
00:48:39,030 --> 00:48:37,440
it towards the end it seems to move into

1257
00:48:41,510 --> 00:48:39,040
the direction of

1258
00:48:42,630 --> 00:48:41,520
uh arming i mean how to get enough

1259
00:48:44,470 --> 00:48:42,640
bodies

1260
00:48:45,510 --> 00:48:44,480
to get over to korea kind of thing there

1261
00:48:47,589 --> 00:48:45,520
have been

1262
00:48:49,829 --> 00:48:47,599
but two interesting things that no

1263
00:48:52,790 --> 00:48:49,839

matter what the subject is

1264

00:48:55,430 --> 00:48:52,800

they're in a top-secret control room

1265

00:48:58,230 --> 00:48:55,440

in a having an ultra-secret meeting and

1266

00:49:00,470 --> 00:48:58,240

yet you can read when you read this

1267

00:49:01,349 --> 00:49:00,480

it is not like they're thinking that at

1268

00:49:07,109 --> 00:49:01,359

all

1269

00:49:09,910 --> 00:49:07,119

yeah you talk about stuff

1270

00:49:13,270 --> 00:49:09,920

yeah interesting isn't it it is and the

1271

00:49:15,430 --> 00:49:13,280

fact that this name here workout

1272

00:49:17,750 --> 00:49:15,440

bush fits perfectly in there and you can

1273

00:49:20,390 --> 00:49:17,760

tell it is a capital b that one right

1274

00:49:22,150 --> 00:49:20,400

next to income with the dash

1275

00:49:24,150 --> 00:49:22,160

that blacked out area that is almost

1276

00:49:27,990 --> 00:49:24,160

certainly bush

1277

00:49:32,390 --> 00:49:28,829

in the

1278

00:49:34,309 --> 00:49:32,400

mid and you can see the top tip from the

1279

00:49:35,670 --> 00:49:34,319

bottom of the top of the b and then the

1280

00:49:36,790 --> 00:49:35,680

next letter

1281

00:49:45,349 --> 00:49:36,800

u

1282

00:49:47,510 --> 00:49:45,359

holding something hostage from these

1283

00:49:48,630 --> 00:49:47,520

guys this is the intelligence advisory

1284

00:49:50,470 --> 00:49:48,640

committee

1285

00:49:52,390 --> 00:49:50,480

and the subject is like you know how are

1286

00:49:53,670 --> 00:49:52,400

we going to get bush

1287

00:49:56,470 --> 00:49:53,680

to share this

1288

00:49:57,670 --> 00:49:56,480

stuff with us and that's van hoover bush

1289

00:50:00,069 --> 00:49:57,680

right

1290

00:50:00,870 --> 00:50:00,079

what's that is that van hoover is is

1291

00:50:04,150 --> 00:50:00,880

first

1292

00:50:09,190 --> 00:50:04,160

of our bush vanvar okay

1293

00:50:18,309 --> 00:50:13,270

mj12 right or whatever yeah military

1294

00:50:21,109 --> 00:50:19,349

that's the only thing that i know of

1295

00:50:23,910 --> 00:50:21,119

that stands for the mj if you've ever

1296

00:50:27,510 --> 00:50:23,920

seen mj it's on majestic grid

1297

00:50:29,750 --> 00:50:27,520

that's what they say but military is mj

1298

00:50:31,109 --> 00:50:29,760

that's interesting yeah i've i've seen

1299

00:50:33,430 --> 00:50:31,119

mj

1300

00:50:34,870 --> 00:50:33,440

hey what is zi i wanted to ask you that

1301

00:50:37,270 --> 00:50:34,880

i saw it on the last

1302

00:50:38,230 --> 00:50:37,280

interior united states

1303

00:50:39,750 --> 00:50:38,240

gotcha

1304

00:50:42,630 --> 00:50:39,760

and it's important too in some of this

1305

00:50:45,430 --> 00:50:42,640

because uh you see that struggle army

1306

00:50:47,430 --> 00:50:45,440

cig and as it's becoming civilian

1307

00:50:49,349 --> 00:50:47,440

takes a long time for them to let go of

1308

00:50:50,549 --> 00:50:49,359

the tentacles that they've developed

1309

00:50:51,670 --> 00:50:50,559

army you know

1310

00:50:54,870 --> 00:50:51,680

and

1311

00:50:57,190 --> 00:50:54,880

would it would have been that same thing

1312

00:50:59,589 --> 00:50:57,200

of an army the army guys probably

1313

00:51:02,150 --> 00:50:59,599

retained control over this board at the

1314

00:51:05,990 --> 00:51:04,069

interesting because then you were yeah

1315

00:51:09,190 --> 00:51:06,000

like you said there's got to be a whole

1316

00:51:11,190 --> 00:51:09,200

lot we're missing then

1317

00:51:13,109 --> 00:51:11,200

yeah even look how it's listed here as

1318

00:51:15,990 --> 00:51:13,119

the jrdb slash

1319

00:51:18,390 --> 00:51:16,000

cig it's like one thing

1320

00:51:20,230 --> 00:51:18,400

right so that's this deep and embedded

1321

00:51:23,589 --> 00:51:20,240

into our intelligence functions and you

1322

00:51:25,190 --> 00:51:23,599

could have gotten it at that time yeah

1323

00:51:27,109 --> 00:51:25,200

so whatever they were working on at the

1324

00:51:29,270 --> 00:51:27,119

beginning especially they wouldn't be

1325

00:51:32,870 --> 00:51:29,280

sharing it with anybody you know what

1326
00:51:36,470 --> 00:51:32,880
was interesting to me about

1327
00:51:38,950 --> 00:51:36,480
roswell and aztec really too it's that

1328
00:51:40,069 --> 00:51:38,960
these cases

1329
00:51:42,549 --> 00:51:40,079
you know

1330
00:51:44,230 --> 00:51:42,559
at least um

1331
00:51:46,390 --> 00:51:44,240
roswell because it was known at the time

1332
00:51:48,790 --> 00:51:46,400
versus aztec were you know it was kind

1333
00:51:50,549 --> 00:51:48,800
of came up later i think right after the

1334
00:51:53,829 --> 00:51:50,559
date but

1335
00:51:55,750 --> 00:51:53,839
why would there not be a report

1336
00:51:58,950 --> 00:51:55,760
on it in

1337
00:52:00,630 --> 00:51:58,960
in just that huge archives you know like

1338
00:52:03,030 --> 00:52:00,640

why

1339

00:52:05,190 --> 00:52:03,040

even if it's a balloon like they say

1340

00:52:07,190 --> 00:52:05,200

it's a balloon they have so many reports

1341

00:52:09,190 --> 00:52:07,200

in there that they call balloons and

1342

00:52:11,910 --> 00:52:09,200

meteorites and everything else so why

1343

00:52:14,470 --> 00:52:11,920

would that not be one

1344

00:52:16,790 --> 00:52:14,480

you know why would they not even take

1345

00:52:18,630 --> 00:52:16,800

certain information out of it but still

1346

00:52:20,470 --> 00:52:18,640

have a basic

1347

00:52:22,470 --> 00:52:20,480

uh air intelligence technical

1348

00:52:23,349 --> 00:52:22,480

intelligence center report on it you

1349

00:52:25,750 --> 00:52:23,359

know

1350

00:52:28,230 --> 00:52:25,760

they did on other crash investigations

1351

00:52:29,990 --> 00:52:28,240

they're in the files you know

1352

00:52:32,230 --> 00:52:30,000

many of them didn't turn up anything but

1353

00:52:33,910 --> 00:52:32,240

right

1354

00:52:36,309 --> 00:52:33,920

well that could be the key they didn't

1355

00:52:38,309 --> 00:52:36,319

turn up anything right we're looking but

1356

00:52:39,829 --> 00:52:38,319

it didn't turn up anything that's why i

1357

00:52:41,990 --> 00:52:39,839

think this might be important here at

1358

00:52:44,069 --> 00:52:42,000

the beginning the cig

1359

00:52:45,510 --> 00:52:44,079

jrdb connection

1360

00:52:46,950 --> 00:52:45,520

it's all army

1361

00:52:49,349 --> 00:52:46,960

and the army

1362

00:52:51,750 --> 00:52:49,359

could very well have it's very possible

1363

00:52:53,349 --> 00:52:51,760

they controlled all of it

1364

00:52:55,030 --> 00:52:53,359

i mean that is what we heard about the

1365

00:52:57,510 --> 00:52:55,040

interplanetary phenomenon you know they

1366

00:52:59,270 --> 00:52:57,520

were an army unit so again how it even

1367

00:53:01,510 --> 00:52:59,280

makes sense it fits in with the little

1368

00:53:03,109 --> 00:53:01,520

puzzle and the things that developed

1369

00:53:06,069 --> 00:53:03,119

into what we know of as the air

1370

00:53:08,870 --> 00:53:06,079

intelligence services squadrons you know

1371

00:53:11,829 --> 00:53:08,880

you've seen a couple of the 1006th

1372

00:53:14,470 --> 00:53:11,839

the 11th 27th field activities group all

1373

00:53:16,069 --> 00:53:14,480

these there are so many incarnations of

1374

00:53:18,549 --> 00:53:16,079

that and it all kind of starts at that

1375

00:53:20,790 --> 00:53:18,559

same time from these oss

1376

00:53:23,030 --> 00:53:20,800

units coming into the cig

1377

00:53:26,790 --> 00:53:23,040

interesting they develop these battle

1378

00:53:30,390 --> 00:53:28,069

i think this is the one where if you go

1379

00:53:32,150 --> 00:53:30,400

to page two see here's here's halen

1380

00:53:35,430 --> 00:53:32,160

cotter

1381

00:53:36,950 --> 00:53:35,440

oh maybe it's page three

1382

00:53:39,190 --> 00:53:36,960

just checking if it's not we could just

1383

00:53:41,510 --> 00:53:39,200

go see that's english

1384

00:53:44,150 --> 00:53:41,520

he's uh delineating what he thinks his

1385

00:53:45,349 --> 00:53:44,160

responsibilities should be

1386

00:53:46,870 --> 00:53:45,359

in this

1387

00:53:49,829 --> 00:53:46,880

this is all at the beginning right

1388

00:53:51,910 --> 00:53:49,839

before forestall starts losing his mind

1389

00:53:53,750 --> 00:53:51,920

that's another thing that's bizarre

1390

00:53:55,349 --> 00:53:53,760

all of this stuff this is right at the

1391

00:53:57,750 --> 00:53:55,359

beginning

1392

00:53:59,270 --> 00:53:57,760

right when secretary forceful starts

1393

00:54:00,630 --> 00:53:59,280

losing it and then he ends up in the

1394

00:54:03,349 --> 00:54:00,640

hospital

1395

00:54:05,030 --> 00:54:03,359

okay with inve involuntional melancholia

1396

00:54:07,349 --> 00:54:05,040

it all begins

1397

00:54:08,950 --> 00:54:07,359

when with kind of when we think of as

1398

00:54:11,430 --> 00:54:08,960

the stuff started leaking out became

1399

00:54:13,270 --> 00:54:11,440

aztec you know and later you know

1400

00:54:15,510 --> 00:54:13,280

supposedly roswell too maybe because

1401

00:54:18,470 --> 00:54:15,520

they bleed together but

1402

00:54:21,109 --> 00:54:18,480

it was really in 1949 when stuff really

1403

00:54:23,750 --> 00:54:21,119

started leaking out for some reason

1404

00:54:25,589 --> 00:54:23,760

and even that makes sense if it happened

1405

00:54:27,750 --> 00:54:25,599

in 48

1406

00:54:30,069 --> 00:54:27,760

and then a pre thing like roswell like a

1407

00:54:32,630 --> 00:54:30,079

precursor a debris field that this got

1408

00:54:34,950 --> 00:54:32,640

them scratching their heads and then the

1409

00:54:38,630 --> 00:54:34,960

something actually lands

1410

00:54:40,309 --> 00:54:38,640

and they the army controls that and then

1411

00:54:43,750 --> 00:54:40,319

that's happening at the same time

1412

00:54:45,670 --> 00:54:43,760

finally after that not before but after

1413

00:54:47,829 --> 00:54:45,680

that's all over is when the army starts

1414

00:54:49,349 --> 00:54:47,839

slowly turning over

1415

00:54:51,349 --> 00:54:49,359

things to the up to that point they're

1416

00:54:54,549 --> 00:54:51,359

not they're fighting to the nail to turn

1417

00:54:56,870 --> 00:54:54,559

anything over to the ci cia

1418

00:54:57,829 --> 00:54:56,880

it's incredible

1419

00:54:59,750 --> 00:54:57,839

it goes

1420

00:55:01,270 --> 00:54:59,760

copen

1421

00:55:07,190 --> 00:55:01,280

what'd you say covet

1422

00:55:11,670 --> 00:55:08,470

uh

1423

00:55:13,829 --> 00:55:11,680

those are some pretty good docs there

1424

00:55:16,710 --> 00:55:13,839

that you shared with us i didn't share

1425

00:55:19,430 --> 00:55:16,720

that beginning you can see how mccoy see

1426

00:55:20,390 --> 00:55:19,440

mccoys was as deep as you could go

1427

00:55:23,030 --> 00:55:20,400

yeah

1428

00:55:24,710 --> 00:55:23,040

and he's in charge with colonel garrett

1429

00:55:27,270 --> 00:55:24,720

to get this starting you know and

1430

00:55:29,589 --> 00:55:27,280

they've already known me so these guys

1431

00:55:31,349 --> 00:55:29,599

are serious business they already know

1432

00:55:33,670 --> 00:55:31,359

something serious is behind this

1433

00:55:35,589 --> 00:55:33,680

whatever that is in quotes

1434

00:55:39,030 --> 00:55:35,599

something about this subject to him was

1435

00:55:41,349 --> 00:55:39,040

very serious and to his immediate and he

1436

00:55:43,030 --> 00:55:41,359

kept having to ask the people higher up

1437

00:55:44,470 --> 00:55:43,040

in this case having lieutenant general

1438

00:55:47,109 --> 00:55:44,480

craigie

1439

00:55:48,870 --> 00:55:47,119

why aren't you responding to my

1440

00:55:50,150 --> 00:55:48,880

these were classified letters you know

1441

00:55:51,589 --> 00:55:50,160

they were going directly to their

1442

00:55:54,230 --> 00:55:51,599

offices you know

1443

00:55:55,750 --> 00:55:54,240

why was he given the silent treatment

1444

00:55:57,349 --> 00:55:55,760

you know he had to go back and actually

1445

00:55:59,430 --> 00:55:57,359

ask them why

1446

00:56:00,829 --> 00:55:59,440

why aren't you answering me i find that

1447

00:56:02,470 --> 00:56:00,839

fascinating

1448

00:56:04,470 --> 00:56:02,480

yeah

1449

00:56:06,150 --> 00:56:04,480

was on the board on the research and

1450

00:56:07,670 --> 00:56:06,160

development board so i mean it doesn't

1451

00:56:09,829 --> 00:56:07,680

prove anything but

1452

00:56:12,309 --> 00:56:09,839

if well if there's nothing to it or if

1453

00:56:15,030 --> 00:56:12,319

it was just normal whatever

1454

00:56:17,589 --> 00:56:15,040

you know they'd have no

1455

00:56:19,270 --> 00:56:17,599

you know qualms to responding or

1456

00:56:21,990 --> 00:56:19,280

communicating about it

1457

00:56:23,990 --> 00:56:22,000

yeah and let's not forget mccooy

1458

00:56:25,589 --> 00:56:24,000

the guy uh letting

1459

00:56:27,589 --> 00:56:25,599

all these early people they were the

1460

00:56:29,430 --> 00:56:27,599

ones that were in when we hear about

1461

00:56:31,030 --> 00:56:29,440

that first estimate the situation we

1462

00:56:32,630 --> 00:56:31,040

always get told got f you know

1463

00:56:35,589 --> 00:56:32,640

vandenberg said no i don't want that

1464

00:56:37,030 --> 00:56:35,599

because it said they were e.t

1465

00:56:39,349 --> 00:56:37,040

interplanetary

1466

00:56:40,630 --> 00:56:39,359

that is actually the second

1467

00:56:43,589 --> 00:56:40,640

estimate of the situation if you count

1468

00:56:45,190 --> 00:56:43,599

that shuligan you know reference that

1469

00:56:46,630 --> 00:56:45,200

garrett put together

1470

00:56:48,390 --> 00:56:46,640

but there was always this other we've

1471

00:56:50,230 --> 00:56:48,400

heard from even reputable people i think

1472

00:56:51,190 --> 00:56:50,240

even repel said yeah there was an

1473

00:56:53,910 --> 00:56:51,200

estimate

1474

00:56:55,829 --> 00:56:53,920

of the situation and it was trashed and

1475

00:56:58,789 --> 00:56:55,839

and that all happened that's when they

1476
00:57:00,630 --> 00:56:58,799
started crumbling sign and reformulating

1477
00:57:01,829 --> 00:57:00,640
and what ended up becoming project

1478
00:57:03,190 --> 00:57:01,839
grudge

1479
00:57:05,109 --> 00:57:03,200
right because

1480
00:57:07,109 --> 00:57:05,119
they were cleaning house like okay you

1481
00:57:09,510 --> 00:57:07,119
guys are out of here

1482
00:57:11,990 --> 00:57:09,520
mccoy included you know you guys are all

1483
00:57:12,870 --> 00:57:12,000
but mccoy was there from the beginning i

1484
00:57:15,190 --> 00:57:12,880
think

1485
00:57:16,230 --> 00:57:15,200
randell con confirmed mccoy was with

1486
00:57:18,470 --> 00:57:16,240
griggs

1487
00:57:19,750 --> 00:57:18,480
right and they were the foo fighter

1488
00:57:22,230 --> 00:57:19,760

stuff in there

1489

00:57:25,589 --> 00:57:22,240

some investigations

1490

00:57:28,150 --> 00:57:25,599

thank you megan t for the 699 super chat

1491

00:57:30,230 --> 00:57:28,160

she's got a question for you

1492

00:57:32,470 --> 00:57:30,240

uh on to important stuff how are

1493

00:57:35,349 --> 00:57:32,480

robert's for his friends did they make

1494

00:57:37,510 --> 00:57:35,359

him a new year's eve ball dress did a

1495

00:57:41,109 --> 00:57:37,520

pumpkin carriage pick him up

1496

00:57:44,230 --> 00:57:41,119

and did he lose a shoe thank you megan

1497

00:57:46,069 --> 00:57:44,240

no this year a bigfoot congratulations

1498

00:57:47,190 --> 00:57:46,079

he hauled me into the forest that's all

1499

00:57:48,950 --> 00:57:47,200

i remember

1500

00:57:50,789 --> 00:57:48,960

really yeah

1501

00:57:51,990 --> 00:57:50,799

wow very sore

1502

00:57:53,750 --> 00:57:52,000

afterwards

1503

00:57:56,069 --> 00:57:53,760

oh that's why you're sorry you told me

1504

00:57:58,309 --> 00:57:56,079

it had like a operation

1505

00:58:01,829 --> 00:57:58,319

that i was in the hospital yeah yeah oh

1506

00:58:04,870 --> 00:58:01,839

my god who's gonna believe me that the

1507

00:58:06,549 --> 00:58:04,880

animals conspired against me again

1508

00:58:08,390 --> 00:58:06,559

no they're doing pretty good i have no

1509

00:58:10,150 --> 00:58:08,400

reason not to believe you

1510

00:58:12,549 --> 00:58:10,160

the uh i told you it would have been my

1511

00:58:14,150 --> 00:58:12,559

friend a week ago

1512

00:58:15,670 --> 00:58:14,160

you know i know that's always the risk i

1513

00:58:17,510 --> 00:58:15,680

don't want to get too attached to these

1514

00:58:19,349 --> 00:58:17,520

wild animals you know

1515

00:58:28,549 --> 00:58:19,359

so because they're always getting run

1516

00:58:33,030 --> 00:58:30,950

sometimes you'll see a cat in the like

1517

00:58:35,349 --> 00:58:33,040

i've actually lately i've seen a lot of

1518

00:58:37,349 --> 00:58:35,359

uh cats like running

1519

00:58:40,789 --> 00:58:37,359

through the road it's like what are you

1520

00:58:43,430 --> 00:58:40,799

doing what you know who's your owner

1521

00:58:45,030 --> 00:58:43,440

and why did they let you out in suburbia

1522

00:58:47,510 --> 00:58:45,040

those kind of people we always jungle

1523

00:58:49,589 --> 00:58:47,520

out here we keep our cat indoors but

1524

00:58:51,190 --> 00:58:49,599

not after our last cat our last cat got

1525

00:58:53,910 --> 00:58:51,200

poisoned somehow

1526

00:58:56,309 --> 00:58:53,920

so oh no we're totally indoors the first

1527

00:58:59,030 --> 00:58:56,319

time we've ever had totally indoor cats

1528

00:58:59,910 --> 00:58:59,040

and it's diff different world for sure

1529

00:59:01,910 --> 00:58:59,920

yeah

1530

00:59:02,950 --> 00:59:01,920

a lot more meowing

1531

00:59:08,710 --> 00:59:02,960

yeah

1532

00:59:09,990 --> 00:59:08,720

you know if you start them out that way

1533

00:59:11,829 --> 00:59:10,000

yeah uh

1534

00:59:14,069 --> 00:59:11,839

yeah it's easier

1535

00:59:16,069 --> 00:59:14,079

um you know it's interesting that you

1536

00:59:20,150 --> 00:59:16,079

know the whole kind of

1537

00:59:22,150 --> 00:59:20,160

takeaway from this for me is

1538

00:59:22,950 --> 00:59:22,160

how

1539

00:59:26,549 --> 00:59:22,960

you know

1540

00:59:28,470 --> 00:59:26,559

no communication between the air force

1541

00:59:30,230 --> 00:59:28,480

um

1542

00:59:34,069 --> 00:59:30,240

and

1543

00:59:36,630 --> 00:59:34,079

but you know it's kind of interesting to

1544

00:59:37,670 --> 00:59:36,640

me about that is

1545

00:59:40,630 --> 00:59:37,680

that was

1546

00:59:41,670 --> 00:59:40,640

we're looking at 1947 1948

1547

00:59:44,150 --> 00:59:41,680

and that's

1548

00:59:46,069 --> 00:59:44,160

been happening up until

1549

00:59:48,150 --> 00:59:46,079

with the case i'm looking at right now

1550

00:59:50,069 --> 00:59:48,160

uh socorro

1551
00:59:54,549 --> 00:59:50,079
yeah you know where

1552
00:59:56,150 --> 00:59:54,559
um they specifically go to white sands

1553
00:59:57,829 --> 00:59:56,160
and they're asking

1554
01:00:00,309 --> 00:59:57,839
for information

1555
01:00:02,470 --> 01:00:00,319
on what they have there on the

1556
01:00:05,030 --> 01:00:02,480
automobiles they have there whatever and

1557
01:00:06,390 --> 01:00:05,040
they're being told no you know we got

1558
01:00:09,349 --> 01:00:06,400
nothing

1559
01:00:11,430 --> 01:00:09,359
um but one of the guys

1560
01:00:14,630 --> 01:00:11,440
writes on one of the sheets he says i

1561
01:00:16,230 --> 01:00:14,640
still feel like the answer to this is

1562
01:00:19,270 --> 01:00:16,240
at one of the at least at one of the

1563
01:00:21,190 --> 01:00:19,280

tenant organizations within white sands

1564

01:00:23,349 --> 01:00:21,200

you know and

1565

01:00:25,190 --> 01:00:23,359

it's just interesting like why don't

1566

01:00:27,030 --> 01:00:25,200

they just freaking talk to each other

1567

01:00:32,069 --> 01:00:27,040

you know

1568

01:00:34,230 --> 01:00:32,079

prosecuted world war ii

1569

01:00:37,190 --> 01:00:34,240

pretty much and

1570

01:00:39,670 --> 01:00:37,200

it took so much effort to slowly build

1571

01:00:41,030 --> 01:00:39,680

up all that stuff they held so dearly

1572

01:00:42,789 --> 01:00:41,040

you know and

1573

01:00:45,349 --> 01:00:42,799

they were not going to

1574

01:00:46,470 --> 01:00:45,359

easily give up that's up to a brand new

1575

01:00:49,349 --> 01:00:46,480

agency

1576

01:00:52,230 --> 01:00:49,359

this is a curveball here to you but um

1577

01:00:53,829 --> 01:00:52,240

this is the mantel signing look at that

1578

01:00:55,670 --> 01:00:53,839

it is apparent from the data given that

1579

01:00:59,030 --> 01:00:55,680

the objects cited at godman air force

1580

01:01:00,230 --> 01:00:59,040

base on 7 january 1948 was not the plan

1581

01:01:01,510 --> 01:01:00,240

of venus

1582

01:01:04,549 --> 01:01:01,520

therefore this sighting must be

1583

01:01:07,589 --> 01:01:04,559

considered as unexplained

1584

01:01:08,870 --> 01:01:07,599

yeah you know we've we talked email-wise

1585

01:01:11,109 --> 01:01:08,880

about this

1586

01:01:13,109 --> 01:01:11,119

thing that is so fascinating to me about

1587

01:01:14,870 --> 01:01:13,119

this is that

1588

01:01:17,109 --> 01:01:14,880

including people to this day that i

1589

01:01:18,630 --> 01:01:17,119

respect ufo researchers you know but

1590

01:01:21,190 --> 01:01:18,640

they'll you know well

1591

01:01:23,349 --> 01:01:21,200

no no it's clear he got i've passed out

1592

01:01:26,870 --> 01:01:23,359

after he reportedly and then said and

1593

01:01:28,630 --> 01:01:26,880

then even crashed but when you realize

1594

01:01:31,190 --> 01:01:28,640

when his wingman it says later in the

1595

01:01:32,230 --> 01:01:31,200

files you see his wingmen turned back

1596

01:01:33,990 --> 01:01:32,240

in one

1597

01:01:38,150 --> 01:01:34,000

one is more specific when he asks him

1598

01:01:40,150 --> 01:01:38,160

the wingman says about 18 about 15 18. i

1599

01:01:42,470 --> 01:01:40,160

saw what i thought was like a light

1600

01:01:44,309 --> 01:01:42,480

flashing off a canopy of an aircraft

1601

01:01:47,349 --> 01:01:44,319

kind of a flash like that

1602

01:01:50,470 --> 01:01:47,359

but well that is the exact moment

1603

01:01:52,789 --> 01:01:50,480

mantel's watch is smashed and frozen

1604

01:01:55,349 --> 01:01:52,799

wow 15 18.

1605

01:01:57,510 --> 01:01:55,359

and that is not what he threatened

1606

01:01:59,510 --> 01:01:57,520

when the people that on the farm were

1607

01:02:00,390 --> 01:01:59,520

crashed it was like there at four

1608

01:02:02,309 --> 01:02:00,400

o'clock

1609

01:02:03,990 --> 01:02:02,319

he exploded over the trees at four

1610

01:02:06,870 --> 01:02:04,000

o'clock in the afternoon

1611

01:02:08,789 --> 01:02:06,880

and how did the plane not

1612

01:02:11,270 --> 01:02:08,799

you know just so supposedly it blew up

1613

01:02:13,510 --> 01:02:11,280

in mid-air but the pictures like half of

1614

01:02:14,950 --> 01:02:13,520

the plane is there still

1615

01:02:17,829 --> 01:02:14,960

you know

1616

01:02:19,510 --> 01:02:17,839

with the wing on there yeah and his body

1617

01:02:21,990 --> 01:02:19,520

was removed before the first

1618

01:02:23,829 --> 01:02:22,000

investigator even got there like yeah

1619

01:02:26,390 --> 01:02:23,839

how is that possible rushed out there

1620

01:02:28,150 --> 01:02:26,400

really fast and jimmied the

1621

01:02:30,470 --> 01:02:28,160

lock on the canopy

1622

01:02:32,870 --> 01:02:30,480

pulled him out apparently yeah that

1623

01:02:34,630 --> 01:02:32,880

probably cpr but you would think like

1624

01:02:37,430 --> 01:02:34,640

the whole thing would be

1625

01:02:39,990 --> 01:02:37,440

just like obliterated from 20 000 plus

1626
01:02:41,670 --> 01:02:40,000
feet up yeah no those witnesses

1627
01:02:43,910 --> 01:02:41,680
especially a

1628
01:02:45,589 --> 01:02:43,920
girl at the bus stop

1629
01:02:47,670 --> 01:02:45,599
and the lady who owned the ranch or a

1630
01:02:49,190 --> 01:02:47,680
farm where he crashed they were both

1631
01:02:50,390 --> 01:02:49,200
there and they not only said four

1632
01:02:52,789 --> 01:02:50,400
o'clock

1633
01:02:54,950 --> 01:02:52,799
it he exploded not too far above the

1634
01:02:56,069 --> 01:02:54,960
treetops

1635
01:02:58,230 --> 01:02:56,079
well

1636
01:03:00,150 --> 01:02:58,240
and the guy the only guy in question

1637
01:03:01,829 --> 01:03:00,160
there's this other witness he claims oh

1638
01:03:04,470 --> 01:03:01,839

yeah i saw him he was up there at about

1639

01:03:05,910 --> 01:03:04,480

20 000 feet doing a loop-de-loop and i'm

1640

01:03:07,910 --> 01:03:05,920

thinking now you think about this you

1641

01:03:09,430 --> 01:03:07,920

look right now at an airliner at 20 000

1642

01:03:10,950 --> 01:03:09,440

feet from the ground

1643

01:03:12,309 --> 01:03:10,960

and he's talking about a little p-51

1644

01:03:15,109 --> 01:03:12,319

mustang now how would he be able to

1645

01:03:17,109 --> 01:03:15,119

really see him up there at 20 000 feet

1646

01:03:18,870 --> 01:03:17,119

be sure that it was why did he know that

1647

01:03:20,789 --> 01:03:18,880

it was twenty thousand feet i believe

1648

01:03:22,390 --> 01:03:20,799

that was a seated

1649

01:03:24,309 --> 01:03:22,400

might have been a seated witness you

1650

01:03:26,390 --> 01:03:24,319

know that they put in there so that that

1651
01:03:28,150 --> 01:03:26,400
two twenty thousand foot altitude thing

1652
01:03:30,549 --> 01:03:28,160
would be uh

1653
01:03:32,549 --> 01:03:30,559
you know that's how high he was i don't

1654
01:03:34,230 --> 01:03:32,559
know what the witnesses say they heard

1655
01:03:35,190 --> 01:03:34,240
him going back and forth and back and

1656
01:03:37,190 --> 01:03:35,200
forth

1657
01:03:39,270 --> 01:03:37,200
so that means he he was probably

1658
01:03:40,870 --> 01:03:39,280
deceased at the stick

1659
01:03:42,390 --> 01:03:40,880
and so every time it turned you know

1660
01:03:44,549 --> 01:03:42,400
then the plane would turn and his body

1661
01:03:46,390 --> 01:03:44,559
would flip that way and then his plane

1662
01:03:48,390 --> 01:03:46,400
would go up that way and then his body

1663
01:03:50,789 --> 01:03:48,400

would flip this way and it would go

1664

01:03:54,069 --> 01:03:50,799

it wasn't about two minutes later when

1665

01:03:56,150 --> 01:03:54,079

he crashed it was like 40 minutes

1666

01:03:59,029 --> 01:03:56,160

so what's interesting here we have

1667

01:04:02,309 --> 01:03:59,039

blackwell object traveling at 180 miles

1668

01:04:05,270 --> 01:04:02,319

per hour directly ahead of and above me

1669

01:04:06,870 --> 01:04:05,280

now and moving at about half my speed

1670

01:04:09,029 --> 01:04:06,880

and then we have

1671

01:04:11,190 --> 01:04:09,039

captain kerry carter saying

1672

01:04:14,630 --> 01:04:11,200

object going up and forward as fast as

1673

01:04:17,109 --> 01:04:14,640

he was approximately 360 degrees then

1674

01:04:19,750 --> 01:04:17,119

he's he's quoting mint dell here i

1675

01:04:23,510 --> 01:04:19,760

believe but he says going to 20 000 feet

1676

01:04:26,710 --> 01:04:23,520

and if no closer will abandon chase

1677

01:04:29,910 --> 01:04:26,720

so the the argument there was he must

1678

01:04:31,430 --> 01:04:29,920

have been getting closer

1679

01:04:33,510 --> 01:04:31,440

something well something happened even

1680

01:04:36,150 --> 01:04:33,520

before that because remember

1681

01:04:38,710 --> 01:04:36,160

his watch is smashed and frozen at time

1682

01:04:40,950 --> 01:04:38,720

at five at 3 18

1683

01:04:42,549 --> 01:04:40,960

yeah which is only two minutes after his

1684

01:04:45,990 --> 01:04:42,559

last transmission when he said i'm going

1685

01:04:47,750 --> 01:04:46,000

up for a buddy look that's at 3 15.

1686

01:04:50,470 --> 01:04:47,760

so two minutes later his watch is

1687

01:04:53,109 --> 01:04:50,480

shattered but he did not crash until

1688

01:04:55,510 --> 01:04:53,119

many many minutes after that

1689

01:04:57,349 --> 01:04:55,520

so the crash of his plane into the

1690

01:04:58,630 --> 01:04:57,359

ground is not what smashed his watch is

1691

01:05:00,789 --> 01:04:58,640

what i'm saying

1692

01:05:03,109 --> 01:05:00,799

that happened earlier what

1693

01:05:04,150 --> 01:05:03,119

did that to his watch that's what i want

1694

01:05:06,230 --> 01:05:04,160

to know

1695

01:05:08,390 --> 01:05:06,240

well i had i was just looking at a

1696

01:05:10,549 --> 01:05:08,400

record not too long ago where the guy's

1697

01:05:12,789 --> 01:05:10,559

compass uh

1698

01:05:13,750 --> 01:05:12,799

stopped working when he got by this

1699

01:05:15,910 --> 01:05:13,760

object

1700

01:05:17,510 --> 01:05:15,920

that he was vectoring in on and trying

1701

01:05:19,829 --> 01:05:17,520

to find out what it was

1702

01:05:22,630 --> 01:05:19,839

and when the object disappeared uh the

1703

01:05:24,470 --> 01:05:22,640

cup has started working again well at

1704

01:05:27,349 --> 01:05:24,480

least hopefully

1705

01:05:28,549 --> 01:05:27,359

well that's what he says

1706

01:05:30,150 --> 01:05:28,559

yeah

1707

01:05:31,270 --> 01:05:30,160

or he's going in the wrong direction i

1708

01:05:35,109 --> 01:05:31,280

guess so

1709

01:05:36,630 --> 01:05:35,119

he's still missing now that i think yeah

1710

01:05:38,630 --> 01:05:36,640

well that's another thing maybe it

1711

01:05:40,789 --> 01:05:38,640

didn't work missing people but like what

1712

01:05:42,710 --> 01:05:40,799

was it five planes uh went missing in

1713

01:05:44,789 --> 01:05:42,720

bermuda or something

1714

01:05:46,950 --> 01:05:44,799

um and then you have the one off of

1715

01:05:50,549 --> 01:05:46,960

australia

1716

01:05:53,430 --> 01:05:50,559

and this was in the 70s or something

1717

01:05:54,390 --> 01:05:53,440

yeah there's a lot of stuff

1718

01:05:57,109 --> 01:05:54,400

crazy

1719

01:05:58,630 --> 01:05:57,119

lots of you know not uh not in here i

1720

01:06:01,510 --> 01:05:58,640

mean even though i'm aware of a lot of

1721

01:06:03,029 --> 01:06:01,520

stuff there's so much to this story

1722

01:06:04,789 --> 01:06:03,039

yeah

1723

01:06:06,789 --> 01:06:04,799

well i appreciate you coming on sir

1724

01:06:08,789 --> 01:06:06,799

always a pleasure i appreciate it too

1725

01:06:10,309 --> 01:06:08,799

thank you very much uh i

1726

01:06:12,549 --> 01:06:10,319

still you know

1727

01:06:14,789 --> 01:06:12,559

i think i've done enough research for

1728

01:06:17,349 --> 01:06:14,799

myself that i am absolutely convinced

1729

01:06:19,109 --> 01:06:17,359

i still can't say it was that disc that

1730

01:06:21,430 --> 01:06:19,119

landed on the mesa

1731

01:06:23,510 --> 01:06:21,440

but something sure as hell happened that

1732

01:06:24,789 --> 01:06:23,520

day that just caused so many different

1733

01:06:27,829 --> 01:06:24,799

things to happen

1734

01:06:28,789 --> 01:06:27,839

can they not possibly be coincidental

1735

01:06:31,270 --> 01:06:28,799

well even

1736

01:06:32,549 --> 01:06:31,280

flying discs yeah you made the point

1737

01:06:34,390 --> 01:06:32,559

that all these

1738

01:06:36,230 --> 01:06:34,400

you know new

1739

01:06:38,870 --> 01:06:36,240

um

1740

01:06:41,750 --> 01:06:38,880

work orders

1741

01:06:43,270 --> 01:06:41,760

or whatever it like happened when there

1742

01:06:46,230 --> 01:06:43,280

was like a big sighting or something

1743

01:06:49,109 --> 01:06:46,240

prompted to do the new thing and there

1744

01:06:51,029 --> 01:06:49,119

was one for march 25th 1948. you know

1745

01:06:53,910 --> 01:06:51,039

yes i mean it's quoted a lot what

1746

01:06:56,230 --> 01:06:53,920

happened on that day yeah

1747

01:06:58,230 --> 01:06:56,240

well i keep looking you know i've seen

1748

01:07:01,190 --> 01:06:58,240

things from other places in other parts

1749

01:07:03,829 --> 01:07:01,200

of the world but not for us yet you know

1750

01:07:06,230 --> 01:07:03,839

on that date yeah

1751

01:07:07,829 --> 01:07:06,240

well i'm not done yet like like i said

1752

01:07:09,829 --> 01:07:07,839

like i found a lot of those socorro

1753

01:07:12,309 --> 01:07:09,839

documents in a completely different

1754

01:07:14,470 --> 01:07:12,319

folder for a different state you know

1755

01:07:17,029 --> 01:07:14,480

right i've seen that too so

1756

01:07:19,109 --> 01:07:17,039

who knows there's so many

1757

01:07:22,069 --> 01:07:19,119

there yet it could be

1758

01:07:23,990 --> 01:07:22,079

it could still be available somewhere

1759

01:07:26,230 --> 01:07:24,000

yeah you know like a lot of these

1760

01:07:28,230 --> 01:07:26,240

archives only have like 100 views or

1761

01:07:29,589 --> 01:07:28,240

less or whatever so it's not like people

1762

01:07:31,510 --> 01:07:29,599

are just combing through them looking

1763

01:07:32,950 --> 01:07:31,520

for this stuff you know it can totally

1764

01:07:35,670 --> 01:07:32,960

be missed

1765

01:07:39,510 --> 01:07:35,680

yeah nobody has the time

1766

01:07:39,520 --> 01:07:43,589

you got me i'm there

1767

01:07:48,309 --> 01:07:46,230

they show you like the most uh where the

1768

01:07:49,510 --> 01:07:48,319

visitors are from like the top

1769

01:07:50,549 --> 01:07:49,520

visitors

1770

01:07:53,109 --> 01:07:50,559

uh for

1771

01:07:57,430 --> 01:07:53,119

for like the blue book file or whatever

1772

01:07:58,950 --> 01:07:57,440

and it's uh wisconsin

1773

01:08:01,430 --> 01:07:58,960

it doesn't say the city but it says

1774

01:08:02,870 --> 01:08:01,440

wisconsin like 300 some visits it's like

1775

01:08:04,870 --> 01:08:02,880

well it's got a

1776

01:08:06,549 --> 01:08:04,880

i guess i'm the one looking at this the

1777

01:08:08,630 --> 01:08:06,559

most uh man

1778

01:08:11,589 --> 01:08:08,640

you find out it's not you it's like this

1779

01:08:15,430 --> 01:08:11,599

12 year old kid

1780

01:08:21,189 --> 01:08:18,670

20 000 more hits hits

1781

01:08:23,990 --> 01:08:21,199

[Laughter]

1782

01:08:25,349 --> 01:08:24,000

all right well i i'm gonna get out of

1783

01:08:27,349 --> 01:08:25,359

here

1784

01:08:29,510 --> 01:08:27,359

i'm gonna be more

1785

01:08:31,349 --> 01:08:29,520

keep uh getting together my stuff for

1786

01:08:32,950 --> 01:08:31,359

tomorrow because i want to do a good job

1787

01:08:35,510 --> 01:08:32,960

with that i have a lot of interesting

1788

01:08:38,149 --> 01:08:35,520

information to share so yeah looking

1789

01:08:40,309 --> 01:08:38,159

forward to that and we'll see you next

1790

01:08:42,309 --> 01:08:40,319

time continue to rest up

1791

01:08:43,910 --> 01:08:42,319

so you can get back here and do it again

1792

01:08:47,590 --> 01:08:43,920

i'll see you in the chat

1793

01:08:49,189 --> 01:08:47,600

all right peace take care bye

1794

01:08:51,030 --> 01:08:49,199

all right thanks everybody for hanging

1795

01:08:54,390 --> 01:08:51,040

out that was a

1796

01:08:57,030 --> 01:08:54,400

pretty great talk with mr robert cofort

1797

01:09:00,650 --> 01:08:57,040

and yeah that's what you get here

1798

01:09:02,660 --> 01:09:00,660

deep diving details and documents

1799

01:09:11,940 --> 01:09:02,670

[Laughter]

1800

01:09:13,190 --> 01:09:11,950

[Music]

1801
01:09:13,730 --> 01:09:13,200
[Laughter]

1802
01:09:14,820 --> 01:09:13,740
[Music]

1803
01:09:22,789 --> 01:09:14,830
[Applause]

1804
01:09:25,260 --> 01:09:22,799
[Music]

1805
01:09:27,910 --> 01:09:25,270
even with the western winds

1806
01:09:29,590 --> 01:09:27,920
[Music]

1807
01:09:33,990 --> 01:09:29,600
taking me away

1808
01:09:39,240 --> 01:09:36,709
don't need a telescope to see

1809
01:09:48,630 --> 01:09:39,250
where we need to live free

1810
01:09:53,749 --> 01:09:51,370
and this is for all the voices

1811
01:09:57,090 --> 01:09:53,759
[Music]

1812
01:10:00,310 --> 01:09:57,100
who couldn't hear these noises

1813
01:10:04,350 --> 01:10:00,320

[Music]

1814

01:10:14,950 --> 01:10:04,360

[Laughter]

1815

01:10:19,350 --> 01:10:14,960

[Music]

1816

01:10:20,950 --> 01:10:19,360

all roads lead to a sudden departure

1817

01:10:24,390 --> 01:10:20,960

although

1818

01:10:31,410 --> 01:10:24,400

when we bleed we go farther

1819

01:10:48,670 --> 01:10:41,840

[Music]

1820

01:10:50,550 --> 01:10:48,680

meaning is blurry as it gets attention

1821

01:10:55,990 --> 01:10:50,560

[Music]

1822

01:10:58,550 --> 01:10:56,000

as i get closer here comes another

1823

01:11:01,350 --> 01:10:58,560

filled up in my room with documents in

1824

01:11:06,290 --> 01:11:03,669

gotta go the distance or you'll end up

1825

01:11:08,310 --> 01:11:06,300

with torture

1826

01:11:22,070 --> 01:11:08,320

[Music]

1827

01:11:22,080 --> 01:11:31,310

many eyes on the sky

1828

01:12:14,310 --> 01:11:37,990

[Music]

1829

01:12:25,830 --> 01:12:17,510

this is for all the voices

1830

01:12:25,840 --> 01:12:29,270

around the voices
