

1
00:00:01,680 --> 00:00:07,349
what's up everybody

2
00:00:11,270 --> 00:00:10,070
having some internet troubles that's for

3
00:00:12,150 --> 00:00:11,280
sure so

4
00:00:15,350 --> 00:00:12,160
um

5
00:00:17,510 --> 00:00:15,360
hopefully everything works out okay

6
00:00:19,670 --> 00:00:17,520
um

7
00:00:21,910 --> 00:00:19,680
gotta do what you gotta do i guess it it

8
00:00:23,109 --> 00:00:21,920
was running super slow

9
00:00:24,070 --> 00:00:23,119
and

10
00:00:25,589 --> 00:00:24,080
then

11
00:00:27,429 --> 00:00:25,599
you know i'm trying to change the router

12
00:00:29,109 --> 00:00:27,439
and

13
00:00:32,470 --> 00:00:29,119

so

14

00:00:34,870 --> 00:00:32,480

we'll see how that works um can you guys

15

00:00:37,190 --> 00:00:34,880

hear me okay it looks like maybe there's

16

00:00:40,630 --> 00:00:37,200

a little

17

00:00:42,549 --> 00:00:40,640

delay going on or something possibly

18

00:00:46,310 --> 00:00:42,559

i'm not sure

19

00:00:48,389 --> 00:00:46,320

so hopefully it's nothing too bad

20

00:00:50,709 --> 00:00:48,399

um because that would suck

21

00:00:51,990 --> 00:00:50,719

that would really suck that would really

22

00:00:52,790 --> 00:00:52,000

suck

23

00:00:56,869 --> 00:00:52,800

um

24

00:00:58,310 --> 00:00:56,879

what i'm going to start out with here is

25

00:00:59,510 --> 00:00:58,320

so i'm going to start out with something

26

00:01:00,869 --> 00:00:59,520

a little different i'm going to start

27

00:01:03,430 --> 00:01:00,879

out with a

28

00:01:05,670 --> 00:01:03,440

um video that i made i posted on twitter

29

00:01:07,030 --> 00:01:05,680

it went pretty well this is not relation

30

00:01:09,350 --> 00:01:07,040

to the case we're going to be talking

31

00:01:10,230 --> 00:01:09,360

about which is pretty interesting i must

32

00:01:13,670 --> 00:01:10,240

say

33

00:01:15,270 --> 00:01:13,680

um this is a case that was actually in

34

00:01:19,590 --> 00:01:15,280

one of rupelt's books

35

00:01:21,109 --> 00:01:19,600

um it happened july 14 1952 in norfolk

36

00:01:24,230 --> 00:01:21,119

virginia

37

00:01:26,010 --> 00:01:24,240

um and it's a pretty great case so

38

00:01:29,510 --> 00:01:26,020

i'm just gonna play that quick

39

00:01:31,429 --> 00:01:29,520

[Music]

40

00:01:33,830 --> 00:01:31,439

the following impressions were received

41

00:01:36,069 --> 00:01:33,840

by the pilots in our of interest to

42

00:01:37,510 --> 00:01:36,079

project blue book a

43

00:01:39,910 --> 00:01:37,520

the saucers were in a controlled

44

00:01:41,590 --> 00:01:39,920

formation and during deceleration prior

45

00:01:44,950 --> 00:01:41,600

to the change of direction they did not

46

00:01:47,190 --> 00:01:44,960

hold perfect formation but some almost

47

00:01:49,990 --> 00:01:47,200

overran the leader after the turn they

48

00:01:52,230 --> 00:01:50,000

were again in good formation b the glow

49

00:01:54,069 --> 00:01:52,240

of light on the top surface was related

50

00:01:56,230 --> 00:01:54,079

to the power source since in

51
00:01:58,069 --> 00:01:56,240
deceleration the light dimmed and

52
00:01:59,670 --> 00:01:58,079
apparently brightened when power was

53
00:02:01,350 --> 00:01:59,680
again applied

54
00:02:04,469 --> 00:02:01,360
see thickness of the objects was

55
00:02:06,230 --> 00:02:04,479
estimated at 10 to 15 feet d the objects

56
00:02:08,469 --> 00:02:06,240
did not respond in natural laws and

57
00:02:10,790 --> 00:02:08,479
appeared weightless they were not

58
00:02:13,190 --> 00:02:10,800
affected by gravity or momentum since

59
00:02:16,550 --> 00:02:13,200
they changed direction 150 degrees

60
00:02:18,229 --> 00:02:16,560
without turning or coming to a stop

61
00:02:21,110 --> 00:02:18,239
no physical characteristics were

62
00:02:23,750 --> 00:02:21,120
noticeable except as already mentioned

63
00:02:26,229 --> 00:02:23,760

the light on the top of the saucers was

64

00:02:29,430 --> 00:02:26,239

internal and not projected since it was

65

00:02:31,110 --> 00:02:29,440

not reflected off the dc4

66

00:02:32,869 --> 00:02:31,120

if the light did not pulse but was

67

00:02:35,509 --> 00:02:32,879

steady and the objects were sharply

68

00:02:37,990 --> 00:02:35,519

outlined there was no corona or easy

69

00:02:41,110 --> 00:02:38,000

periphery surrounding them the dimming

70

00:02:43,750 --> 00:02:41,120

was as if it was by reduction of power

71

00:02:47,270 --> 00:02:43,760

they also went completely off

72

00:02:50,390 --> 00:02:47,280

instantly and instantly reappeared

73

00:02:52,630 --> 00:02:50,400

gee the objects are definitely not of

74

00:02:56,070 --> 00:02:52,640

earthly origin

75

00:02:57,670 --> 00:02:56,080

comments of preparing officer of report

76

00:03:00,149 --> 00:02:57,680

one the observers are considered

77

00:03:01,670 --> 00:03:00,159

reliable and evidently saw just what

78

00:03:04,229 --> 00:03:01,680

they described

79

00:03:07,110 --> 00:03:04,239

assuming that they were in view 10 miles

80

00:03:07,910 --> 00:03:07,120

before the turn in 10 miles after the

81

00:03:10,070 --> 00:03:07,920

turn

82

00:03:12,149 --> 00:03:10,080

and that 10 seconds elapsed in this

83

00:03:14,869 --> 00:03:12,159

period the disc covered at 20 miles in

84

00:03:16,949 --> 00:03:14,879

10 seconds a speed fantastic to

85

00:03:18,790 --> 00:03:16,959

contemplate

86

00:03:20,550 --> 00:03:18,800

air force comments five jet aircraft

87

00:03:22,710 --> 00:03:20,560

were in vicinity of langley air force

88

00:03:24,949 --> 00:03:22,720

base at the time of observation after

89

00:03:27,270 --> 00:03:24,959

various checks was surrounding air force

90

00:03:29,589 --> 00:03:27,280

agencies it was concluded that the

91

00:03:31,750 --> 00:03:29,599

objects were not the five jet aircraft

92

00:03:34,149 --> 00:03:31,760

other checks for known airborne objects

93

00:03:36,390 --> 00:03:34,159

were made with negative results the air

94

00:03:43,670 --> 00:03:36,400

force conclusion is officially

95

00:03:47,990 --> 00:03:45,430

so yeah that's a video i think i'm gonna

96

00:03:50,309 --> 00:03:48,000

make more of those if you guys um like

97

00:03:53,030 --> 00:03:50,319

those um i do

98

00:03:54,789 --> 00:03:53,040

like making them because there's just a

99

00:03:56,789 --> 00:03:54,799

little bit of

100

00:03:58,830 --> 00:03:56,799

uh creativity in there which is pretty

101

00:04:04,470 --> 00:03:58,840

cool

102

00:04:07,110 --> 00:04:04,480

so let's just touch on some of the

103

00:04:08,229 --> 00:04:07,120

um some news somebody hit on it here

104

00:04:10,949 --> 00:04:08,239

already

105

00:04:16,469 --> 00:04:10,959

uh mr dope knows

106

00:04:17,909 --> 00:04:16,479

so we got uh jacques vallee um

107

00:04:19,670 --> 00:04:17,919

joined project galileo and you know

108

00:04:20,789 --> 00:04:19,680

we've had evie lobe on here a couple

109

00:04:24,390 --> 00:04:20,799

times now

110

00:04:25,830 --> 00:04:24,400

super dudes love talking to him um so

111

00:04:29,189 --> 00:04:25,840

that's interesting because they're

112

00:04:31,110 --> 00:04:29,199

pretty much scooping up um everybody

113

00:04:35,270 --> 00:04:31,120

they scooped up

114

00:04:35,990 --> 00:04:35,280

lou elizondo chris mellon um

115

00:04:40,310 --> 00:04:36,000

now

116

00:04:42,950 --> 00:04:40,320

something that is a little bit weird to

117

00:04:45,270 --> 00:04:42,960

me is um nick pope i don't know if he

118

00:04:46,950 --> 00:04:45,280

really

119

00:04:48,710 --> 00:04:46,960

i don't know i guess i'll just stop it

120

00:04:51,350 --> 00:04:48,720

there but

121

00:04:52,710 --> 00:04:51,360

that is pretty interesting to me

122

00:04:54,870 --> 00:04:52,720

so

123

00:04:56,950 --> 00:04:54,880

you know what does shock valet bring

124

00:04:58,790 --> 00:04:56,960

jacques valet brings

125

00:05:01,990 --> 00:04:58,800

something different to project galileo

126

00:05:03,270 --> 00:05:02,000

that's for sure i mean um first of all

127

00:05:11,670 --> 00:05:03,280

he

128

00:05:14,070 --> 00:05:11,680

that

129

00:05:15,430 --> 00:05:14,080

and he went more

130

00:05:17,110 --> 00:05:15,440

you know

131

00:05:19,189 --> 00:05:17,120

i hate saying interdimensional but i

132

00:05:22,150 --> 00:05:19,199

guess interdimensional but you know one

133

00:05:24,390 --> 00:05:22,160

thing about jacques valet is

134

00:05:25,909 --> 00:05:24,400

he'll tell you that you know he's still

135

00:05:27,510 --> 00:05:25,919

searching for the truth he's still

136

00:05:29,749 --> 00:05:27,520

searching for answers

137

00:05:32,710 --> 00:05:29,759

which i know everybody else is too but

138

00:05:37,029 --> 00:05:34,310

you know i

139

00:05:39,189 --> 00:05:37,039

he's not really gonna make his mind up

140

00:05:41,029 --> 00:05:39,199

unless something is like very clear i

141

00:05:42,710 --> 00:05:41,039

listened to an interview with him um

142

00:05:43,990 --> 00:05:42,720

somewhat recently

143

00:05:45,350 --> 00:05:44,000

um

144

00:05:46,870 --> 00:05:45,360

you know where he's talking about how

145

00:05:48,230 --> 00:05:46,880

tempting it is to come up with a

146

00:05:49,350 --> 00:05:48,240

conclusion

147

00:05:51,430 --> 00:05:49,360

um

148

00:05:53,830 --> 00:05:51,440

but you just can't do it you just can't

149

00:05:54,629 --> 00:05:53,840

do it you know you just can't and you

150

00:05:56,950 --> 00:05:54,639

know

151
00:05:59,909 --> 00:05:56,960
a lot of people do obviously like linda

152
00:06:00,870 --> 00:05:59,919
mull dr greer other people

153
00:06:01,830 --> 00:06:00,880
um

154
00:06:03,670 --> 00:06:01,840
but

155
00:06:05,110 --> 00:06:03,680
you know at least i'm on the side of

156
00:06:06,950 --> 00:06:05,120
where

157
00:06:09,110 --> 00:06:06,960
you know i'm not gonna make

158
00:06:11,029 --> 00:06:09,120
i can't make my mind up either and i

159
00:06:13,270 --> 00:06:11,039
tend to go towards

160
00:06:15,029 --> 00:06:13,280
a person like jacques valet i know he

161
00:06:15,990 --> 00:06:15,039
talks about the control system and all

162
00:06:16,340 --> 00:06:16,000
that

163
00:06:18,309 --> 00:06:16,350

um

164

00:06:20,790 --> 00:06:18,319

[Music]

165

00:06:22,710 --> 00:06:20,800

but

166

00:06:24,629 --> 00:06:22,720

you know i don't even think he's 100 on

167

00:06:25,909 --> 00:06:24,639

that you know it's it's like one of

168

00:06:27,749 --> 00:06:25,919

those things the

169

00:06:29,029 --> 00:06:27,759

more people you talk to that research

170

00:06:31,749 --> 00:06:29,039

this stuff

171

00:06:33,430 --> 00:06:31,759

um the the more they research it

172

00:06:35,270 --> 00:06:33,440

uh the less they know the less they

173

00:06:36,950 --> 00:06:35,280

understand you know

174

00:06:38,950 --> 00:06:36,960

um and

175

00:06:41,270 --> 00:06:38,960

that is the fact that is the case isn't

176
00:06:43,029 --> 00:06:41,280
that sorry i shaved my head not too long

177
00:06:44,950 --> 00:06:43,039
ago and

178
00:06:46,950 --> 00:06:44,960
i was curious if my hair is long enough

179
00:06:47,930 --> 00:06:46,960
to start doing it again but i don't know

180
00:06:50,870 --> 00:06:47,940
maybe not

181
00:06:53,670 --> 00:06:50,880
[Laughter]

182
00:06:57,990 --> 00:06:55,830
so that's pretty interesting um and you

183
00:06:59,749 --> 00:06:58,000
can check that out

184
00:07:02,150 --> 00:06:59,759
let me say what's up to everybody we got

185
00:07:06,150 --> 00:07:02,160
jay christopher king what's up buddy

186
00:07:08,629 --> 00:07:06,160
awesome can't wait to uh host uh leslie

187
00:07:11,189 --> 00:07:08,639
kane on wednesday with you sir that's

188
00:07:12,629 --> 00:07:11,199

going to be really super cool so i can't

189

00:07:16,390 --> 00:07:12,639

wait for that

190

00:07:19,670 --> 00:07:16,400

i'm not looking forward to that

191

00:07:20,629 --> 00:07:19,680

and we have grayskull

192

00:07:24,070 --> 00:07:20,639

um

193

00:07:25,670 --> 00:07:24,080

what else we got ntm e9 some newer faces

194

00:07:27,510 --> 00:07:25,680

that usually aren't

195

00:07:29,909 --> 00:07:27,520

kind of here on a regular basis which i

196

00:07:31,670 --> 00:07:29,919

appreciate we got j long time no see

197

00:07:34,309 --> 00:07:31,680

awesome to have you here

198

00:07:36,950 --> 00:07:34,319

um mr robert goford

199

00:07:39,749 --> 00:07:36,960

um lara bug

200

00:07:42,390 --> 00:07:39,759

um who else we got jessie peak what's up

201
00:07:45,589 --> 00:07:42,400
man awesome to see you here diesel girl

202
00:07:48,790 --> 00:07:45,599
i'm glad you loved the video awesome

203
00:07:52,150 --> 00:07:48,800
um very nice bite-sized info dumb yeah

204
00:07:53,830 --> 00:07:52,160
josh awesome surf psych what's up

205
00:07:55,189 --> 00:07:53,840
awesome glad you're here christian

206
00:07:58,390 --> 00:07:55,199
awesome

207
00:08:01,189 --> 00:07:58,400
um dope knows yep everybody else who's

208
00:08:02,309 --> 00:08:01,199
here josh what's up uh witness citizens

209
00:08:04,070 --> 00:08:02,319
in the house

210
00:08:06,629 --> 00:08:04,080
that's awesome

211
00:08:08,309 --> 00:08:06,639
yo my guys sean mikey abstract is here

212
00:08:11,350 --> 00:08:08,319
awesome

213
00:08:13,510 --> 00:08:11,360

uh craig t music everybody uh really

214

00:08:15,589 --> 00:08:13,520

cool to see some new faces we're doing

215

00:08:18,469 --> 00:08:15,599

our thing today

216

00:08:19,909 --> 00:08:18,479

and i have um some pretty

217

00:08:21,510 --> 00:08:19,919

interesting stuff we're gonna we're

218

00:08:23,589 --> 00:08:21,520

gonna touch on today

219

00:08:25,990 --> 00:08:23,599

um

220

00:08:27,110 --> 00:08:26,000

so

221

00:08:29,029 --> 00:08:27,120

you know when you're looking through the

222

00:08:31,270 --> 00:08:29,039

blue book archives you really sometimes

223

00:08:33,909 --> 00:08:31,280

just never know what you're gonna find

224

00:08:38,230 --> 00:08:33,919

you know um sometimes

225

00:08:41,670 --> 00:08:38,240

you're just picking random things and

226

00:08:43,670 --> 00:08:41,680

random projects or random files and you

227

00:08:46,949 --> 00:08:43,680

just don't know what's really gonna pop

228

00:08:49,670 --> 00:08:46,959

up all the time you know

229

00:08:53,030 --> 00:08:49,680

and it i've kind of got a feel for like

230

00:08:55,030 --> 00:08:53,040

just looking at the cover page

231

00:08:56,949 --> 00:08:55,040

uh what

232

00:08:59,430 --> 00:08:56,959

may be a good

233

00:09:01,509 --> 00:08:59,440

set of documents what may not be a good

234

00:09:03,509 --> 00:09:01,519

set of documents i know what things to

235

00:09:05,509 --> 00:09:03,519

search now the search isn't perfect by

236

00:09:07,350 --> 00:09:05,519

any means that's for sure

237

00:09:08,949 --> 00:09:07,360

but using the search

238

00:09:10,070 --> 00:09:08,959

what words to use and all that kind of

239

00:09:13,269 --> 00:09:10,080

stuff

240

00:09:18,949 --> 00:09:16,230

this one i searched atomic

241

00:09:21,350 --> 00:09:18,959

and i got a pretty interesting case here

242

00:09:25,269 --> 00:09:23,110

that it

243

00:09:27,350 --> 00:09:25,279

kind of spans a few years but the the

244

00:09:29,110 --> 00:09:27,360

main starting point is mount um

245

00:09:30,630 --> 00:09:29,120

hopefully i say this right palomar

246

00:09:33,509 --> 00:09:30,640

california

247

00:09:36,870 --> 00:09:33,519

um basically there were geiger counters

248

00:09:37,990 --> 00:09:36,880

that were going off the hook

249

00:09:40,150 --> 00:09:38,000

and

250

00:09:41,910 --> 00:09:40,160

it was curious curious enough to people

251
00:09:43,910 --> 00:09:41,920
like um

252
00:09:46,389 --> 00:09:43,920
you know the blue book folks

253
00:09:51,110 --> 00:09:48,310
you know kind of wound up going all out

254
00:09:53,110 --> 00:09:51,120
to to see if this was a legit thing or

255
00:09:54,070 --> 00:09:53,120
not

256
00:09:56,230 --> 00:09:54,080
and

257
00:09:57,910 --> 00:09:56,240
they got some other people from los

258
00:10:00,470 --> 00:09:57,920
alamos labs

259
00:10:02,949 --> 00:10:00,480
and sandia corporation

260
00:10:05,910 --> 00:10:02,959
who were also

261
00:10:08,710 --> 00:10:05,920
getting readings on this and we're able

262
00:10:12,069 --> 00:10:08,720
to correlate some of these sightings

263
00:10:13,590 --> 00:10:12,079

with the radiation spikes

264

00:10:16,630 --> 00:10:13,600

so but you know me

265

00:10:19,269 --> 00:10:16,640

i rather just read from the documents

266

00:10:20,710 --> 00:10:19,279

that's my favorite thing to do

267

00:10:24,150 --> 00:10:20,720

because it's straight from the horse's

268

00:10:29,670 --> 00:10:27,269

i still love your content uh sorry yeah

269

00:10:33,190 --> 00:10:29,680

sorry bro i just you know did something

270

00:10:34,870 --> 00:10:33,200

um to kind of quiet out uh negativity

271

00:10:37,350 --> 00:10:34,880

for a second not that you were bringing

272

00:10:39,190 --> 00:10:37,360

it of course not you're a great guy

273

00:10:41,910 --> 00:10:39,200

um other things were and i was trying to

274

00:10:45,190 --> 00:10:41,920

get them out of my feed bro

275

00:10:47,430 --> 00:10:45,200

um so you know that's how it goes

276

00:10:48,870 --> 00:10:47,440

but i appreciate you here i appreciate

277

00:10:51,350 --> 00:10:48,880

everybody here

278

00:10:52,870 --> 00:10:51,360

um and showing support

279

00:10:55,350 --> 00:10:52,880

really do

280

00:10:58,790 --> 00:10:55,360

because this stuff does take a lot of

281

00:11:03,590 --> 00:11:02,069

so these are a couple of personalities

282

00:11:07,590 --> 00:11:03,600

that will be involved

283

00:11:10,870 --> 00:11:07,600

uh we got w carter phd physics caltech

284

00:11:13,350 --> 00:11:10,880

um h.t giddings jr um the physics

285

00:11:15,509 --> 00:11:13,360

university of el zone arizona an

286

00:11:20,710 --> 00:11:15,519

equipment lab at los alamos and you'll

287

00:11:27,430 --> 00:11:23,030

so i'm just going to skip through a few

288

00:11:28,949 --> 00:11:27,440

pages here to get to the good stuff so

289

00:11:31,829 --> 00:11:28,959

we're going to start here on december

290

00:11:34,310 --> 00:11:31,839

29th 1952 and we have preparation for a

291

00:11:37,269 --> 00:11:34,320

trip to los alamos new mexico and the

292

00:11:38,470 --> 00:11:37,279

west coast and this trip is from captain

293

00:11:39,430 --> 00:11:38,480

rupaul

294

00:11:43,750 --> 00:11:39,440

so

295

00:11:45,750 --> 00:11:43,760

people are getting these um

296

00:11:46,710 --> 00:11:45,760

uh geiger counters

297

00:11:48,069 --> 00:11:46,720

readings

298

00:11:49,750 --> 00:11:48,079

and they're matching them with

299

00:11:50,790 --> 00:11:49,760

unidentified flying objects that are

300

00:11:52,629 --> 00:11:50,800

showing up

301

00:11:55,110 --> 00:11:52,639

and sometimes they're

302

00:11:57,350 --> 00:11:55,120

you know seeing them in the paper like

303

00:11:59,190 --> 00:11:57,360

you know a couple days later and want to

304

00:12:01,269 --> 00:11:59,200

be in you know at the same time their

305

00:12:04,629 --> 00:12:01,279

geiger counter went up so

306

00:12:06,389 --> 00:12:04,639

um that's just a little back story and

307

00:12:08,230 --> 00:12:06,399

now there is some meetings happening

308

00:12:10,629 --> 00:12:08,240

with some of these scientists who were

309

00:12:12,150 --> 00:12:10,639

getting those readings and blue book and

310

00:12:14,150 --> 00:12:12,160

they're trying to get a grasp on this

311

00:12:16,069 --> 00:12:14,160

because rupaul actually has past

312

00:12:18,710 --> 00:12:16,079

information of this happening at other

313

00:12:20,550 --> 00:12:18,720

places one of which is oak ridge if

314

00:12:24,069 --> 00:12:20,560

you're familiar with that one i think

315

00:12:27,509 --> 00:12:24,079

it's in 1949 or something oak ridge um

316

00:12:29,829 --> 00:12:27,519

had a couple instances of that happening

317

00:12:31,910 --> 00:12:29,839

and then mount palomar in california so

318

00:12:34,069 --> 00:12:31,920

fast forward here to

319

00:12:37,750 --> 00:12:34,079

shortly after christmas

320

00:12:41,990 --> 00:12:37,760

1952 and keep in mind contextually um

321

00:12:46,550 --> 00:12:44,629

you know what happened in 1952 earlier

322

00:12:48,870 --> 00:12:46,560

that year i mean we had the washington

323

00:12:51,750 --> 00:12:48,880

dc thing 1952

324

00:12:55,670 --> 00:12:51,760

was probably yeah jay you're right 1952

325

00:12:56,710 --> 00:12:55,680

was a busy year um could be

326

00:12:59,750 --> 00:12:56,720

maybe

327

00:13:00,949 --> 00:12:59,760

the busiest year i'm not positive but it

328

00:13:05,430 --> 00:13:00,959

could be

329

00:13:12,470 --> 00:13:08,389

at least from you know 47 to

330

00:13:15,190 --> 00:13:13,990

so we have

331

00:13:16,949 --> 00:13:15,200

i'm just going to start reading from

332

00:13:19,030 --> 00:13:16,959

this a little bit

333

00:13:21,829 --> 00:13:19,040

this is a memorandum for the record um

334

00:13:24,150 --> 00:13:21,839

we have captain rupel called lieutenant

335

00:13:26,310 --> 00:13:24,160

colonel paul division of

336

00:13:28,550 --> 00:13:26,320

military application atomic energy

337

00:13:30,230 --> 00:13:28,560

commission washington dc purpose for the

338

00:13:34,870 --> 00:13:30,240

call was to coordinate the visit to los

339

00:13:36,470 --> 00:13:34,880

alamos um colonel bootman

340

00:13:38,550 --> 00:13:36,480

has previously been briefed on the

341

00:13:40,949 --> 00:13:38,560

possible correlation between detection

342

00:13:42,949 --> 00:13:40,959

of radiation from unknown sources in

343

00:13:45,189 --> 00:13:42,959

unidentified flying objects by captain

344

00:13:48,230 --> 00:13:45,199

rupaul during a visit to aec

345

00:13:50,550 --> 00:13:48,240

approximately two weeks ago

346

00:13:52,470 --> 00:13:50,560

colonel was requested to contact los

347

00:13:56,230 --> 00:13:52,480

alamos laboratories and request that mr

348

00:13:58,389 --> 00:13:56,240

carter mr gettings and mr shim

349

00:14:00,470 --> 00:13:58,399

simmons come to albuquerque for the

350

00:14:04,069 --> 00:14:00,480

interrogation if possible

351
00:14:07,829 --> 00:14:05,990
in this was possible i think they meant

352
00:14:12,710 --> 00:14:07,839
if

353
00:14:14,949 --> 00:14:12,720
requested that rupal and lieutenant

354
00:14:17,670 --> 00:14:14,959
olsen be given a clearance to talk with

355
00:14:20,870 --> 00:14:17,680
them at los alamos so basically they get

356
00:14:25,430 --> 00:14:23,030
um and colonel stated it would

357
00:14:27,430 --> 00:14:25,440
be all right for attic to make direct

358
00:14:29,509 --> 00:14:27,440
contact with these people to arrange for

359
00:14:31,189 --> 00:14:29,519
a briefing and this is interesting

360
00:14:33,110 --> 00:14:31,199
because it's a

361
00:14:34,150 --> 00:14:33,120
sandia

362
00:14:36,550 --> 00:14:34,160
um

363
00:14:38,550 --> 00:14:36,560

corporation

364

00:14:40,150 --> 00:14:38,560

not like labs unless it's the same i'm

365

00:14:41,509 --> 00:14:40,160

not sure

366

00:14:43,110 --> 00:14:41,519

i guess i could have checked that but

367

00:14:48,389 --> 00:14:43,120

here we go

368

00:14:53,670 --> 00:14:50,629

and we got some duplicates in here so

369

00:14:56,790 --> 00:14:55,509

i guess we're going to rewind just a

370

00:14:59,189 --> 00:14:56,800

little bit more on the evening of the

371

00:15:01,269 --> 00:14:59,199

15th of december 52 rupert called the

372

00:15:03,030 --> 00:15:01,279

homer giddings jr

373

00:15:05,110 --> 00:15:03,040

los alamos new mexico the purpose of the

374

00:15:06,470 --> 00:15:05,120

call was to contact mr

375

00:15:08,389 --> 00:15:06,480

whoever

376

00:15:10,230 --> 00:15:08,399

in regard to some previous data that

377

00:15:12,629 --> 00:15:10,240

rupa had obtained about a correlation

378

00:15:15,990 --> 00:15:12,639

between sightings and radiation

379

00:15:19,509 --> 00:15:18,069

although not too much debt obtained over

380

00:15:22,230 --> 00:15:19,519

the phone

381

00:15:23,509 --> 00:15:22,240

uh mr whoever did shed some light on

382

00:15:26,870 --> 00:15:23,519

some of the questions that had been

383

00:15:28,550 --> 00:15:26,880

asked in regard to the correlations

384

00:15:30,949 --> 00:15:28,560

um

385

00:15:34,150 --> 00:15:30,959

mr dobia was the person who knew people

386

00:15:36,790 --> 00:15:34,160

at mount polymer that was in 1959 on

387

00:15:43,110 --> 00:15:36,800

thanksgiving by the way

388

00:15:47,430 --> 00:15:44,870

the gentleman involved at the sightings

389

00:15:51,030 --> 00:15:47,440

at los alamos

390

00:15:53,269 --> 00:15:51,040

stated that between october 1st 51

391

00:15:55,910 --> 00:15:53,279

and october 1st 52

392

00:15:58,470 --> 00:15:55,920

he had picked three or four definite

393

00:16:00,389 --> 00:15:58,480

indications of radiation from unknown

394

00:16:02,150 --> 00:16:00,399

sources that several of them have

395

00:16:04,230 --> 00:16:02,160

correlated with newspaper articles

396

00:16:07,749 --> 00:16:04,240

within two hours

397

00:16:11,189 --> 00:16:07,759

he was not sure how many mr

398

00:16:14,870 --> 00:16:13,350

in describing it this is interesting so

399

00:16:17,430 --> 00:16:14,880

in describing the nature of the

400

00:16:19,509 --> 00:16:17,440

radiation which had been picked up

401
00:16:21,749 --> 00:16:19,519
he stated that they picked up a vertical

402
00:16:25,269 --> 00:16:21,759
component a particle that penetrated

403
00:16:26,629 --> 00:16:25,279
three thin walled tubes in the roof of

404
00:16:28,870 --> 00:16:26,639
the building

405
00:16:30,470 --> 00:16:28,880
the tubes are 5 8 inches in diameter and

406
00:16:32,150 --> 00:16:30,480
2 inches on center

407
00:16:34,949 --> 00:16:32,160
he stated that they had checked all

408
00:16:37,269 --> 00:16:34,959
sources of radiation from the laboratory

409
00:16:44,150 --> 00:16:37,279
and that this type of radiation was far

410
00:16:49,590 --> 00:16:47,350
so not natural basically

411
00:16:51,110 --> 00:16:49,600
i was asked to obtain more information

412
00:16:56,389 --> 00:16:51,120
in the type of equipment you use to get

413
00:17:00,230 --> 00:16:58,150

give me more information

414

00:17:03,110 --> 00:17:00,240

basically

415

00:17:04,949 --> 00:17:03,120

and then we have another rerun there

416

00:17:06,549 --> 00:17:04,959

so

417

00:17:08,230 --> 00:17:06,559

you know i've been seeing

418

00:17:09,909 --> 00:17:08,240

these folks lately

419

00:17:14,069 --> 00:17:09,919

and it's the

420

00:17:14,079 --> 00:17:18,789

the navy pretty interesting

421

00:17:22,309 --> 00:17:20,789

so we have here at the request reference

422

00:17:24,150 --> 00:17:22,319

an effort has been made to discover

423

00:17:26,870 --> 00:17:24,160

additional information concerning

424

00:17:32,310 --> 00:17:26,880

reoccurrences of the type reported by

425

00:17:36,230 --> 00:17:34,549

down a little bit

426

00:17:37,590 --> 00:17:36,240

so they haven't got any more it

427

00:17:39,830 --> 00:17:37,600

basically is what they're saying the

428

00:17:41,510 --> 00:17:39,840

navy here but although they took the

429

00:17:43,830 --> 00:17:41,520

equipment down

430

00:17:45,830 --> 00:17:43,840

like a year ago okay well that could be

431

00:17:47,909 --> 00:17:45,840

why

432

00:17:49,430 --> 00:17:47,919

so enclosed is forwarded for the

433

00:17:51,430 --> 00:17:49,440

convenience

434

00:17:53,430 --> 00:17:51,440

of thomas it's believed to be a full

435

00:17:54,950 --> 00:17:53,440

account containing all that was known at

436

00:17:57,350 --> 00:17:54,960

the time subsequently the only

437

00:17:59,590 --> 00:17:57,360

development known to this office came in

438

00:18:03,990 --> 00:17:59,600

january 50 when in response to further

439

00:18:07,909 --> 00:18:06,070

uh so

440

00:18:09,669 --> 00:18:07,919

this is actually this is important

441

00:18:11,750 --> 00:18:09,679

because here they say

442

00:18:15,909 --> 00:18:11,760

they did a detailed check faulty fuse

443

00:18:23,350 --> 00:18:18,710

so but when they recreated this scenario

444

00:18:26,150 --> 00:18:23,360

uh they used a lot more than one

445

00:18:28,789 --> 00:18:26,160

geiger counter coincidence finder they

446

00:18:30,630 --> 00:18:28,799

also used other tools and they were all

447

00:18:39,830 --> 00:18:30,640

corroborating each other so i'll get to

448

00:18:42,789 --> 00:18:40,950

all right so

449

00:18:43,990 --> 00:18:42,799

on the date here it looks like we just

450

00:18:45,510 --> 00:18:44,000

keep going backwards which is

451
00:18:47,909 --> 00:18:45,520
interesting

452
00:18:51,350 --> 00:18:47,919
uh after briefing but again like i

453
00:18:55,590 --> 00:18:53,190
you know like

454
00:18:56,789 --> 00:18:55,600
it's interesting that all this stuff is

455
00:18:59,990 --> 00:18:56,799
in this

456
00:19:02,070 --> 00:19:00,000
folder for that just says

457
00:19:08,870 --> 00:19:02,080
california basically this blue book

458
00:19:08,880 --> 00:19:12,630
so

459
00:19:17,110 --> 00:19:14,710
major hermann december 1st 52 after

460
00:19:19,190 --> 00:19:17,120
briefing by bauer rubel of this center

461
00:19:21,270 --> 00:19:19,200
on unidentified flying objects at los

462
00:19:23,190 --> 00:19:21,280
alamos crew arranged a special meeting

463
00:19:26,230 --> 00:19:23,200

with a small group from the laboratory

464

00:19:29,350 --> 00:19:26,240

several of these people had evidence

465

00:19:33,590 --> 00:19:29,360

possible correlation in ufos and unusual

466

00:19:37,350 --> 00:19:35,590

uh the prelim data obtained from these

467

00:19:39,669 --> 00:19:37,360

people has been studied and it is now

468

00:19:41,270 --> 00:19:39,679

believed advisable to contact them again

469

00:19:43,190 --> 00:19:41,280

and get more details to determine

470

00:19:45,190 --> 00:19:43,200

whether or not attic should

471

00:19:47,669 --> 00:19:45,200

make a more complete study of the

472

00:19:49,909 --> 00:19:47,679

subject

473

00:19:53,029 --> 00:19:49,919

top secret

474

00:19:55,110 --> 00:19:53,039

um rupaul who has an air force top

475

00:20:00,789 --> 00:19:55,120

secret uh q with type clearance you

476
00:20:05,029 --> 00:20:02,789
don't see that very often

477
00:20:09,350 --> 00:20:05,039
these were the people at the meeting

478
00:20:09,360 --> 00:20:13,669
signed it

479
00:20:13,679 --> 00:20:18,950
this goes through

480
00:20:22,470 --> 00:20:21,750
yeah short circuit in the counters not

481
00:20:26,789 --> 00:20:22,480
the

482
00:20:32,149 --> 00:20:29,830
on november 4th 52 rhubilt and olson

483
00:20:35,990 --> 00:20:32,159
visited colonel hood chief the nuclear

484
00:20:38,230 --> 00:20:36,000
powered aircraft branch of wadc

485
00:20:40,149 --> 00:20:38,240
which is right air development center by

486
00:20:42,549 --> 00:20:40,159
the way

487
00:20:43,669 --> 00:20:42,559
which i see them a lot

488
00:20:45,430 --> 00:20:43,679

lately

489

00:20:47,350 --> 00:20:45,440

previous to this visit colonel hood had

490

00:20:50,230 --> 00:20:47,360

contacted attic in regards to certain

491

00:20:52,070 --> 00:20:50,240

sightings of ufos at oak ridge

492

00:20:53,110 --> 00:20:52,080

national laboratory tennessee which we

493

00:20:54,789 --> 00:20:53,120

talked about

494

00:20:56,630 --> 00:20:54,799

in which he and the naval officer had

495

00:20:58,070 --> 00:20:56,640

attempted to obtain correlation between

496

00:21:01,669 --> 00:20:58,080

sightings of peaks and radiation

497

00:21:05,510 --> 00:21:03,590

so basically they keep talking about

498

00:21:06,950 --> 00:21:05,520

this um

499

00:21:09,270 --> 00:21:06,960

to affect this correlation they went to

500

00:21:11,350 --> 00:21:09,280

a radar site at knoxville he did not

501
00:21:12,789 --> 00:21:11,360
know for sure whether or not it was adc

502
00:21:14,390 --> 00:21:12,799
at the time he got a copy of their log

503
00:21:16,390 --> 00:21:14,400
of unknown tracks

504
00:21:18,149 --> 00:21:16,400
um they said it wasn't too successful

505
00:21:20,390 --> 00:21:18,159
but they were able to corroborate a

506
00:21:22,549 --> 00:21:20,400
couple unknown tracks

507
00:21:23,669 --> 00:21:22,559
and

508
00:21:25,590 --> 00:21:23,679
um

509
00:21:27,669 --> 00:21:25,600
radiation spikes

510
00:21:29,350 --> 00:21:27,679
christian aerial phenomenon department

511
00:21:31,590 --> 00:21:29,360
oh yeah

512
00:21:34,549 --> 00:21:31,600
that is definitely a thing aerial

513
00:21:36,549 --> 00:21:34,559

phenomena department yep

514

00:21:38,549 --> 00:21:36,559

uh they had names for this stuff that

515

00:21:41,350 --> 00:21:38,559

nobody even really well for the most

516

00:21:44,070 --> 00:21:41,360

part don't really realize but yeah there

517

00:21:47,430 --> 00:21:44,080

was an aerial phenomenon department and

518

00:21:51,350 --> 00:21:47,440

that was the department a part of

519

00:21:59,350 --> 00:21:54,149

that brand project blue book which was a

520

00:22:08,710 --> 00:22:03,909

so

521

00:22:10,390 --> 00:22:08,720

continue to talk about this stuff um

522

00:22:13,590 --> 00:22:10,400

they find a couple correlations from the

523

00:22:15,750 --> 00:22:13,600

airport in the unknown tracks

524

00:22:18,310 --> 00:22:15,760

no record it was made or kept

525

00:22:20,310 --> 00:22:18,320

consequently the percent correlation is

526
00:22:22,230 --> 00:22:20,320
not known

527
00:22:24,950 --> 00:22:22,240
so in the end really

528
00:22:27,750 --> 00:22:26,470
but there's a lot of big shots involved

529
00:22:29,909 --> 00:22:27,760
with this stuff colonel hood gave the

530
00:22:31,430 --> 00:22:29,919
name of a mr ed bettis at oak ridge

531
00:22:33,430 --> 00:22:31,440
national laboratory who could possibly

532
00:22:35,350 --> 00:22:33,440
give more details mr bettis is

533
00:22:37,830 --> 00:22:35,360
electronic specialist at the nepa

534
00:22:42,310 --> 00:22:39,909
the possibility of detecting the passage

535
00:22:44,230 --> 00:22:42,320
of a nuclear-powered aircraft was

536
00:22:46,789 --> 00:22:44,240
discussed

537
00:22:48,549 --> 00:22:46,799
colonel hood stated that ground counters

538
00:22:50,230 --> 00:22:48,559

would definitely register if such an

539

00:22:52,950 --> 00:22:50,240

aircraft passed overhead

540

00:22:55,270 --> 00:22:52,960

who had a nuclear-powered aircraft

541

00:22:57,110 --> 00:22:55,280

in 1952.

542

00:22:58,789 --> 00:22:57,120

uh he said that if he remembered

543

00:23:00,710 --> 00:22:58,799

correctly it had been computed that the

544

00:23:01,990 --> 00:23:00,720

aircraft being designed in the us would

545

00:23:03,909 --> 00:23:02,000

give it one

546

00:23:06,149 --> 00:23:03,919

run oh

547

00:23:09,430 --> 00:23:06,159

they had an aircraft being designed in

548

00:23:12,470 --> 00:23:09,440

the u.s a powered aircraft

549

00:23:14,549 --> 00:23:12,480

in 1952

550

00:23:16,630 --> 00:23:14,559

well

551
00:23:18,230 --> 00:23:16,640
he stated that naturally the shielding

552
00:23:21,190 --> 00:23:18,240
determines how much radiation would be

553
00:23:25,029 --> 00:23:21,200
detected on an unshield missile

554
00:23:26,870 --> 00:23:25,039
the level would rise by factor of 10.

555
00:23:28,149 --> 00:23:26,880
as far as can be determined this would

556
00:23:29,590 --> 00:23:28,159
be the only way to detect a

557
00:23:38,310 --> 00:23:29,600
nuclear-powered aircraft as the

558
00:23:42,149 --> 00:23:39,990
instrumentation was discussed colonel

559
00:23:44,149 --> 00:23:42,159
hood said that during 1915 airborne

560
00:23:47,110 --> 00:23:44,159
counter had been devised and attempts

561
00:23:53,110 --> 00:23:47,120
were made to use it in the wing tank of

562
00:23:57,350 --> 00:23:55,430
this is interesting number seven oh wait

563
00:23:58,710 --> 00:23:57,360

don't skip that so he stated that he

564

00:24:00,470 --> 00:23:58,720

didn't believe an airborne system would

565

00:24:02,710 --> 00:24:00,480

be too successful because the area would

566

00:24:07,190 --> 00:24:02,720

give radiation would be to localize his

567

00:24:08,870 --> 00:24:07,200

idea on instrumentation was to utilize a

568

00:24:10,710 --> 00:24:08,880

magnetometer

569

00:24:12,950 --> 00:24:10,720

in an effort to establish whether or not

570

00:24:14,710 --> 00:24:12,960

reported object was material or not

571

00:24:17,190 --> 00:24:14,720

contrary to what we've been told he

572

00:24:19,430 --> 00:24:17,200

believed that meter could be easily

573

00:24:20,950 --> 00:24:19,440

obtained and that had a fairly long

574

00:24:23,269 --> 00:24:20,960

range

575

00:24:25,190 --> 00:24:23,279

um he suggested a setup of several types

576
00:24:26,149 --> 00:24:25,200
of instruments all cross-checking each

577
00:24:29,510 --> 00:24:26,159
other

578
00:24:33,990 --> 00:24:29,520
a magnetometer a directional coincidence

579
00:24:34,000 --> 00:24:37,750
and mr

580
00:24:40,549 --> 00:24:38,710
robert

581
00:24:46,710 --> 00:24:40,559
made the point that if you go back to

582
00:24:53,669 --> 00:24:50,310
if you go back to the aztec case um

583
00:24:55,909 --> 00:24:53,679
this solace newton

584
00:24:58,830 --> 00:24:55,919
had something called a doodlebug

585
00:25:03,430 --> 00:25:01,590
that and solace newton actually got

586
00:25:06,950 --> 00:25:03,440
dumped on

587
00:25:11,830 --> 00:25:09,350
this is interesting

588
00:25:13,669 --> 00:25:11,840

a couple of pages up it says

589

00:25:15,430 --> 00:25:13,679

that it began in january when a spike

590

00:25:18,070 --> 00:25:15,440

was recorded january 6th was the day

591

00:25:20,230 --> 00:25:18,080

that why not echo published the report

592

00:25:24,710 --> 00:25:20,240

and then that evening this recited in

593

00:25:32,230 --> 00:25:27,029

nice one

594

00:25:36,070 --> 00:25:33,669

who had mentioned that his branch was

595

00:25:37,750 --> 00:25:36,080

interested in einstein's latest theories

596

00:25:39,750 --> 00:25:37,760

on a relationship between gravity and

597

00:25:41,590 --> 00:25:39,760

the lines of magnetic force his branch

598

00:25:43,669 --> 00:25:41,600

had contacted einstein

599

00:25:45,430 --> 00:25:43,679

and obtained the names of several people

600

00:25:46,870 --> 00:25:45,440

whom we thought could pursue this idea

601
00:25:48,950 --> 00:25:46,880
further and determine how his theory

602
00:25:50,789 --> 00:25:48,960
could be utilized for power

603
00:25:52,470 --> 00:25:50,799
the office of flight research is now

604
00:25:54,310 --> 00:25:52,480
contacting these people to see whether

605
00:25:56,950 --> 00:25:54,320
or not they would accept a study

606
00:26:04,149 --> 00:25:56,960
contract

607
00:26:04,159 --> 00:26:07,190
interesting

608
00:26:12,710 --> 00:26:09,269
what year did he apparently go check out

609
00:26:16,549 --> 00:26:14,630
i don't know what year that is but it's

610
00:26:19,750 --> 00:26:16,559
pretty interesting

611
00:26:25,350 --> 00:26:19,760
here we have direct government paperwork

612
00:26:29,750 --> 00:26:27,750
colonel hood's suggestion was that we go

613
00:26:31,190 --> 00:26:29,760

ahead with a limited instrumentation

614

00:26:33,110 --> 00:26:31,200

program

615

00:26:34,710 --> 00:26:33,120

um his idea was that the cost would be

616

00:26:36,549 --> 00:26:34,720

low and he believes we could get at

617

00:26:38,950 --> 00:26:36,559

least preliminary data that we could

618

00:26:40,950 --> 00:26:38,960

expand upon

619

00:26:45,269 --> 00:26:40,960

he offered attic any aid his branch

620

00:26:48,870 --> 00:26:47,110

the only conclusion they made a very

621

00:26:51,110 --> 00:26:48,880

preliminary type of study on the

622

00:26:53,029 --> 00:26:51,120

correlation

623

00:26:54,950 --> 00:26:53,039

um there's definitely nothing to get our

624

00:26:56,630 --> 00:26:54,960

teeth into again however there are

625

00:26:59,310 --> 00:26:56,640

indications that there may be some

626
00:27:01,110 --> 00:26:59,320
correlation president

627
00:27:06,470 --> 00:27:01,120
magnetometer

628
00:27:14,470 --> 00:27:07,350
um

629
00:27:17,029 --> 00:27:16,149
then we have a

630
00:27:20,710 --> 00:27:17,039
dupe

631
00:27:24,149 --> 00:27:22,389
pretty interesting though this einstein

632
00:27:26,070 --> 00:27:24,159
stuff huh

633
00:27:28,630 --> 00:27:26,080
colonel hood had mentioned the fact that

634
00:27:30,230 --> 00:27:28,640
his branch was interested in einstein's

635
00:27:32,310 --> 00:27:30,240
latest theories on a relationship

636
00:27:34,870 --> 00:27:32,320
between gravity and the lines of

637
00:27:37,350 --> 00:27:34,880
magnetic force

638
00:27:40,389 --> 00:27:37,360

his branch has contacted einstein and

639

00:27:43,590 --> 00:27:40,399

obtained the names of several people

640

00:27:49,430 --> 00:27:46,830

i'll tell you one thing that this is

641

00:27:51,590 --> 00:27:49,440

not um how

642

00:27:54,230 --> 00:27:51,600

you know you talk if there's nothing to

643

00:27:55,590 --> 00:27:54,240

the ufo thing

644

00:27:57,830 --> 00:27:55,600

that's for sure

645

00:27:59,590 --> 00:27:57,840

like all this is going on meanwhile

646

00:28:01,909 --> 00:27:59,600

general sanford just a few months

647

00:28:03,990 --> 00:28:01,919

earlier was telling everybody

648

00:28:10,310 --> 00:28:04,000

the press that there's nothing to see

649

00:28:16,389 --> 00:28:11,190

pretty

650

00:28:17,190 --> 00:28:16,399

from that homer gettings

651
00:28:19,029 --> 00:28:17,200
when

652
00:28:20,789 --> 00:28:19,039
colonel bauer and i were at los alamos

653
00:28:24,549 --> 00:28:20,799
on the 23rd of october giving the

654
00:28:26,310 --> 00:28:24,559
briefing on uaps

655
00:28:29,190 --> 00:28:26,320
we discussed the correlation between

656
00:28:32,070 --> 00:28:29,200
sightings see i don't know what uaf is

657
00:28:37,909 --> 00:28:32,080
unidentified ariel

658
00:28:42,070 --> 00:28:40,470
i don't know what that what that is

659
00:28:43,909 --> 00:28:42,080
and the detection of certain types of

660
00:28:45,669 --> 00:28:43,919
radiation at the time we unfortunately

661
00:28:47,269 --> 00:28:45,679
didn't get too many details down on

662
00:28:49,029 --> 00:28:47,279
paper as we were too busy getting drunk

663
00:28:54,470 --> 00:28:49,039

and talking

664

00:28:58,630 --> 00:28:56,470

um so they're now attempting to run down

665

00:29:00,950 --> 00:28:58,640

reports los alamos security people in

666

00:29:02,549 --> 00:29:00,960

the navy reports at palomar

667

00:29:03,909 --> 00:29:02,559

so we may not be able to find them

668

00:29:10,830 --> 00:29:03,919

however

669

00:29:10,840 --> 00:29:17,750

up so i'll skip that

670

00:29:23,269 --> 00:29:21,350

interesting here uh second paragraph

671

00:29:24,710 --> 00:29:23,279

i realize that all of these requests are

672

00:29:26,149 --> 00:29:24,720

going to cause you and your people a

673

00:29:28,950 --> 00:29:26,159

great deal of extra work we would

674

00:29:31,029 --> 00:29:28,960

appreciate anything you can give us

675

00:29:33,269 --> 00:29:31,039

however as we fully intend to follow

676

00:29:35,990 --> 00:29:33,279

this through up to the point of setting

677

00:29:38,230 --> 00:29:36,000

up a net of visual and instrumental

678

00:29:39,430 --> 00:29:38,240

locations if necessary

679

00:29:43,029 --> 00:29:39,440

your information will be used to

680

00:29:43,039 --> 00:29:50,470

well i think it's pretty good

681

00:29:50,480 --> 00:29:55,909

and you can read this as i go through it

682

00:29:59,990 --> 00:29:58,070

if you all think of above data as too

683

00:30:01,830 --> 00:30:00,000

much to get into a letter you would

684

00:30:09,750 --> 00:30:01,840

rather not put in a letter we can come

685

00:30:16,310 --> 00:30:12,310

and we're going down to this again

686

00:30:21,110 --> 00:30:18,710

graph showing the time of day at which

687

00:30:22,549 --> 00:30:21,120

off-scale motion of the geiger counter

688

00:30:23,590 --> 00:30:22,559

recorded

689

00:30:24,710 --> 00:30:23,600

occurred

690

00:30:27,990 --> 00:30:24,720

graph showing the frequency of

691

00:30:31,590 --> 00:30:28,000

occurrences on a calendar basis

692

00:30:37,960 --> 00:30:33,350

somebody was misspelling a lot here the

693

00:30:37,970 --> 00:30:43,669

[Laughter]

694

00:30:47,750 --> 00:30:45,750

american pronunciation all right here we

695

00:30:52,950 --> 00:30:47,760

go

696

00:30:56,870 --> 00:30:54,870

oh man

697

00:30:58,789 --> 00:30:56,880

commanding officer pasadena personally

698

00:31:00,870 --> 00:30:58,799

investigated these incidents and while

699

00:31:03,990 --> 00:31:00,880

he does not have a belief that they're

700

00:31:06,630 --> 00:31:04,000

actually flying disks yet is at a loss

701
00:31:15,190 --> 00:31:06,640
to explain the phenomenon

702
00:31:20,549 --> 00:31:18,149
and it just continues to talk

703
00:31:23,590 --> 00:31:20,559
so this is interesting here so

704
00:31:24,950 --> 00:31:23,600
october 23rd 52 uh meeting at los alamos

705
00:31:26,549 --> 00:31:24,960
more details on the above mentioned

706
00:31:28,789 --> 00:31:26,559
subject were obtained the first incident

707
00:31:31,269 --> 00:31:28,799
occurred several years ago in mount

708
00:31:33,430 --> 00:31:31,279
palomara observatory in california

709
00:31:35,750 --> 00:31:33,440
series of geiger counters a series of

710
00:31:38,710 --> 00:31:35,760
geiger counters had been set up to study

711
00:31:40,389 --> 00:31:38,720
cosmic ray activity one person involved

712
00:31:43,110 --> 00:31:40,399
in the study happened to be outdoors

713
00:31:46,549 --> 00:31:43,120

when he saw a v of these

714

00:31:48,630 --> 00:31:46,559

of shiny objects go over

715

00:31:50,870 --> 00:31:48,640

he immediately

716

00:31:53,029 --> 00:31:50,880

uh went up to

717

00:31:54,549 --> 00:31:53,039

what he immediately went inside the

718

00:31:57,190 --> 00:31:54,559

observatory and found that the counters

719

00:32:01,110 --> 00:31:57,200

had just pinned gone up to a maximum

720

00:32:04,149 --> 00:32:02,870

this naturally aroused the curiosity of

721

00:32:05,669 --> 00:32:04,159

the people on the project and they

722

00:32:07,350 --> 00:32:05,679

agreed that if it ever happened again

723

00:32:09,269 --> 00:32:07,360

they would look outside sometime later

724

00:32:20,710 --> 00:32:09,279

it did happen and they looked out and

725

00:32:24,950 --> 00:32:22,389

uh that's pretty good correlation i

726

00:32:29,750 --> 00:32:26,070

the navy

727

00:32:31,750 --> 00:32:29,760

it was a navy cosmic ray contract

728

00:32:34,310 --> 00:32:31,760

supposedly investigated

729

00:32:38,230 --> 00:32:34,320

uh wrote a report and concluded that

730

00:32:39,909 --> 00:32:38,240

this was all due to a circuit failure

731

00:32:42,389 --> 00:32:39,919

the people operating this so then what

732

00:32:44,789 --> 00:32:42,399

are you seeing on identifieds for you

733

00:32:51,350 --> 00:32:47,029

you're seeing things with your eyes but

734

00:32:55,430 --> 00:32:53,190

the people operating the equipment also

735

00:32:57,430 --> 00:32:55,440

checked and are claimed to have flatly

736

00:33:00,070 --> 00:32:57,440

denied this saying that due to the

737

00:33:02,549 --> 00:33:00,080

circuitry it would be impossible for

738

00:33:07,269 --> 00:33:02,559

similar failures to occur in all the

739

00:33:10,950 --> 00:33:08,870

shortly after this occurrence one of the

740

00:33:12,549 --> 00:33:10,960

persons involved in the incidents moved

741

00:33:13,590 --> 00:33:12,559

to los alamos he continued to be

742

00:33:17,509 --> 00:33:13,600

interested

743

00:33:18,870 --> 00:33:17,519

setting up the same type of equipment on

744

00:33:21,350 --> 00:33:18,880

their own time

745

00:33:23,269 --> 00:33:21,360

they did this and they also detected

746

00:33:25,029 --> 00:33:23,279

unknown radiation

747

00:33:27,029 --> 00:33:25,039

in two instances they were able to

748

00:33:29,669 --> 00:33:27,039

correlate these with newspaper reports

749

00:33:31,750 --> 00:33:29,679

of the sighting of a ufo

750

00:33:34,549 --> 00:33:31,760

in these instances the people could not

751
00:33:36,470 --> 00:33:34,559
get outside to observe and had to depend

752
00:33:40,630 --> 00:33:36,480
on newspaper reports of ufos for

753
00:33:44,230 --> 00:33:42,149
the equipment was kept in operation

754
00:33:45,430 --> 00:33:44,240
until december 1950 with no more pickups

755
00:33:54,230 --> 00:33:45,440
at that time the equipment was

756
00:33:57,830 --> 00:33:56,070
well this is interesting

757
00:33:59,909 --> 00:33:57,840
there's no record of any incidents on

758
00:34:01,990 --> 00:33:59,919
these dates this does not mean very much

759
00:34:05,029 --> 00:34:02,000
however since it is known that a lot of

760
00:34:09,909 --> 00:34:05,039
the incident files were destroyed

761
00:34:14,069 --> 00:34:12,149
maybe that's where the

762
00:34:22,310 --> 00:34:14,079
um

763
00:34:22,320 --> 00:34:27,430

right here

764

00:34:31,750 --> 00:34:29,909

photograph of the geiger counter setups

765

00:34:33,990 --> 00:34:31,760

diagram of the setup and copies of the

766

00:34:37,829 --> 00:34:34,000

traces of records are shown in the

767

00:34:41,750 --> 00:34:39,510

and it should be noted all the people

768

00:34:44,629 --> 00:34:41,760

involved are qualified scientists

769

00:34:46,069 --> 00:34:44,639

working at los alamos

770

00:34:47,750 --> 00:34:46,079

they have checked every possible source

771

00:34:51,270 --> 00:34:47,760

of the radiation they can think of and

772

00:34:55,190 --> 00:34:53,190

they discussed it with many people

773

00:34:57,990 --> 00:34:55,200

including well-known scientists

774

00:34:59,510 --> 00:34:58,000

visiting los alamos there is no ready

775

00:35:01,190 --> 00:34:59,520

explanation

776

00:35:03,670 --> 00:35:01,200

either for the source of radiation

777

00:35:09,750 --> 00:35:03,680

detected or the correlation between

778

00:35:14,150 --> 00:35:11,829

reports of these incidents were made to

779

00:35:15,990 --> 00:35:14,160

the security force at los alamos and

780

00:35:17,910 --> 00:35:16,000

supposedly it were to be forwarded to

781

00:35:19,109 --> 00:35:17,920

the air force as far as can be

782

00:35:25,670 --> 00:35:19,119

determined

783

00:35:29,430 --> 00:35:27,750

what a joke along the same lines

784

00:35:31,190 --> 00:35:29,440

attention can be called to the fact that

785

00:35:33,510 --> 00:35:31,200

colonel from

786

00:35:35,589 --> 00:35:33,520

um right air development center several

787

00:35:37,270 --> 00:35:35,599

months ago and reported that the same

788

00:35:47,510 --> 00:35:37,280

thing had happened at oak ridge

789

00:35:52,150 --> 00:35:49,430

um conclusions the accounts of these

790

00:35:53,990 --> 00:35:52,160

incidences they're still vague rather

791

00:35:55,670 --> 00:35:54,000

vague too vague to draw any definite

792

00:35:57,430 --> 00:35:55,680

conclusions as to whether or not further

793

00:36:01,190 --> 00:35:57,440

actions should be taken how would you

794

00:36:04,150 --> 00:36:03,190

you just let this pass oh yeah that's

795

00:36:09,349 --> 00:36:04,160

weird

796

00:36:12,630 --> 00:36:10,710

should be taken to investigate all

797

00:36:14,310 --> 00:36:12,640

radiation monitoring stations in the us

798

00:36:21,910 --> 00:36:14,320

to determine if more correlations are

799

00:36:26,630 --> 00:36:23,750

all possible details of los alamos and

800

00:36:28,150 --> 00:36:26,640

palomar sightings be obtained

801
00:36:29,829 --> 00:36:28,160
this can be accomplished by attempting

802
00:36:36,950 --> 00:36:29,839
to locate both the reports made by the

803
00:36:41,510 --> 00:36:39,430
that's just you look at this and it's

804
00:36:43,270 --> 00:36:41,520
just disappointing to see how

805
00:36:49,829 --> 00:36:43,280
inept

806
00:36:54,630 --> 00:36:51,990
and what a lake what a cover-up hey the

807
00:36:58,310 --> 00:36:54,640
navy

808
00:37:01,670 --> 00:37:00,150
the investigative world report included

809
00:37:03,270 --> 00:37:01,680
that this was all due to a circuit

810
00:37:04,870 --> 00:37:03,280
failure

811
00:37:06,630 --> 00:37:04,880
and here we are the people the

812
00:37:11,510 --> 00:37:06,640
scientists

813
00:37:20,310 --> 00:37:13,430

for that to be the case that is not the

814

00:37:26,150 --> 00:37:22,390

what a joke

815

00:37:27,750 --> 00:37:26,160

look at

816

00:37:34,550 --> 00:37:27,760

this could mean something to somebody to

817

00:37:38,950 --> 00:37:36,630

yes thanks for catching that robert here

818

00:37:43,750 --> 00:37:38,960

we have direct proof that all files are

819

00:37:43,760 --> 00:37:48,870

i just went over that

820

00:37:52,230 --> 00:37:50,390

because around that time they were

821

00:37:54,470 --> 00:37:52,240

destroyed so here are

822

00:37:55,910 --> 00:37:54,480

like some readings we need like a

823

00:37:59,349 --> 00:37:55,920

scientist or somebody who knows what

824

00:37:59,359 --> 00:38:03,030

because i don't know

825

00:38:08,550 --> 00:38:04,390

i don't know

826

00:38:10,150 --> 00:38:08,560

interesting that we have that data that

827

00:38:17,990 --> 00:38:10,160

people complain we don't have maybe

828

00:38:24,390 --> 00:38:21,589

indicated uh extremely high

829

00:38:28,550 --> 00:38:24,400

rates is as follows all these days high

830

00:38:36,710 --> 00:38:30,710

so we could do is go to our all

831

00:38:40,310 --> 00:38:39,109

on my website you can look then and

832

00:38:44,390 --> 00:38:40,320

check out

833

00:38:48,470 --> 00:38:46,230

and working with the equipment wednesday

834

00:38:50,470 --> 00:38:48,480

following airplane tests one signal

835

00:38:53,270 --> 00:38:50,480

similar to the unknown will

836

00:38:54,790 --> 00:38:53,280

occurred while moving the main 110 volt

837

00:38:56,390 --> 00:38:54,800

connecting plug

838

00:38:58,470 --> 00:38:56,400

following this one occurrence we were

839

00:39:00,390 --> 00:38:58,480

unable to reproduce the phenomenon we

840

00:39:02,230 --> 00:39:00,400

are completely at a loss to find any

841

00:39:04,150 --> 00:39:02,240

reasonable explanation for the equipment

842

00:39:06,069 --> 00:39:04,160

behavior we certainly appreciate your

843

00:39:11,030 --> 00:39:06,079

cooperation in arranging for flights on

844

00:39:15,510 --> 00:39:14,230

see if they could replicate it by

845

00:39:25,270 --> 00:39:15,520

you know

846

00:39:25,280 --> 00:39:28,710

and

847

00:39:34,069 --> 00:39:30,470

look at all this talk about this look at

848

00:39:38,630 --> 00:39:34,079

this division of military application

849

00:39:41,510 --> 00:39:39,910

you know you think about that and then

850

00:39:43,589 --> 00:39:41,520

you think about like the groups that

851
00:39:46,390 --> 00:39:43,599
studied this stuff um

852
00:39:49,270 --> 00:39:46,400
somewhere recently you know like um

853
00:39:51,670 --> 00:39:49,280
advanced aerial threat identification

854
00:39:54,230 --> 00:39:51,680
program

855
00:40:00,069 --> 00:39:54,240
advanced weapons it's always advanced

856
00:40:04,630 --> 00:40:01,910
division of military applications u.s

857
00:40:06,470 --> 00:40:04,640
atomic energy commission

858
00:40:11,510 --> 00:40:06,480
as you undoubtedly know this laboratory

859
00:40:14,550 --> 00:40:13,190
for its staff members one purpose of

860
00:40:16,230 --> 00:40:14,560
which is to keep us in touch with

861
00:40:17,750 --> 00:40:16,240
technical and scientific developments in

862
00:40:20,309 --> 00:40:17,760
parts of the country

863
00:40:22,069 --> 00:40:20,319

other than los alamos to this end i

864

00:40:23,910 --> 00:40:22,079

thought that perhaps the air force might

865

00:40:25,670 --> 00:40:23,920

care to give us a talk on the technical

866

00:40:28,150 --> 00:40:25,680

and scientific aspects of their studies

867

00:40:30,470 --> 00:40:28,160

concerning the so-called flying saucers

868

00:40:32,069 --> 00:40:30,480

if you think they might would you be

869

00:40:36,309 --> 00:40:32,079

good enough to make inquiry through

870

00:40:39,670 --> 00:40:37,990

perfect uh wish to make it perfectly

871

00:40:41,510 --> 00:40:39,680

clear that the laboratory claims no

872

00:40:43,270 --> 00:40:41,520

official cognizance in this field of

873

00:40:44,710 --> 00:40:43,280

activity but it is my belief that our

874

00:40:45,829 --> 00:40:44,720

staff members would be extremely

875

00:40:48,710 --> 00:40:45,839

interested

876

00:40:50,470 --> 00:40:48,720

in a discussion of the serious

877

00:40:53,109 --> 00:40:50,480

and scientific

878

00:40:59,720 --> 00:40:53,119

aspects of the air force's studies of

879

00:41:04,829 --> 00:41:02,150

[Music]

880

00:41:07,430 --> 00:41:04,839

united states atomic energy

881

00:41:13,829 --> 00:41:07,440

commission so this is perhaps when the

882

00:41:20,230 --> 00:41:16,790

on these serious and scientific aspects

883

00:41:22,550 --> 00:41:20,240

of the flying saucers

884

00:41:27,750 --> 00:41:22,560

as they were obviously very interested

885

00:41:33,030 --> 00:41:30,230

and here we have a

886

00:41:35,589 --> 00:41:33,040

yeah go ahead

887

00:41:39,510 --> 00:41:35,599

let's do it

888

00:41:42,870 --> 00:41:40,950

and the strength of your informal

889

00:41:44,710 --> 00:41:42,880

indication that a tick could possibly

890

00:41:46,230 --> 00:41:44,720

accommodate the request of los alamos

891

00:41:49,430 --> 00:41:46,240

staff members

892

00:41:52,069 --> 00:41:49,440

on flank saucers i am taking the liberty

893

00:41:54,790 --> 00:41:52,079

of so notifying dr crew

894

00:41:59,270 --> 00:41:56,710

since you will note los alamos request

895

00:42:00,950 --> 00:41:59,280

is posed at the convenience of attic i

896

00:42:03,430 --> 00:42:00,960

would appreciate very much a member of

897

00:42:05,670 --> 00:42:03,440

your staff contacting dr crew directly

898

00:42:07,670 --> 00:42:05,680

to arrange details

899

00:42:13,829 --> 00:42:07,680

so it's on

900

00:42:13,839 --> 00:42:20,550

it is happening

901
00:42:20,560 --> 00:42:25,990
it happened it happened yo

902
00:42:26,000 --> 00:42:28,470
um

903
00:42:33,510 --> 00:42:30,710
she batman with the u.s atomic energy

904
00:42:36,710 --> 00:42:33,520
commission requesting briefing

905
00:42:39,750 --> 00:42:36,720
um a tick would be very glad to present

906
00:42:43,430 --> 00:42:41,030
they're always calling this

907
00:42:45,030 --> 00:42:43,440
different here it is unidentified aerial

908
00:42:46,870 --> 00:42:45,040
objects

909
00:42:48,390 --> 00:42:46,880
to the bi-weekly i'll let your

910
00:42:49,750 --> 00:42:48,400
laboratory within the next few weeks

911
00:42:52,069 --> 00:42:49,760
personnel from this center will be

912
00:42:54,390 --> 00:42:52,079
making a trip to the west coast

913
00:42:56,790 --> 00:42:54,400

and will plan to stop off in los alamos

914

00:42:59,109 --> 00:42:56,800

at the present time no definite date can

915

00:43:01,829 --> 00:42:59,119

be set but as soon as plans for the trip

916

00:43:03,750 --> 00:43:01,839

are finalized you and budman will be

917

00:43:06,550 --> 00:43:03,760

contacted

918

00:43:09,030 --> 00:43:06,560

clearance is arranged

919

00:43:12,069 --> 00:43:09,040

it is believed that such a briefing will

920

00:43:14,069 --> 00:43:12,079

be of great value

921

00:43:19,190 --> 00:43:14,079

qualified scientists such as those at

922

00:43:23,349 --> 00:43:20,870

on various technical and scientific

923

00:43:37,510 --> 00:43:23,359

aspects of the problem

924

00:43:42,230 --> 00:43:38,470

so

925

00:43:47,750 --> 00:43:45,190

this interesting paper that's

926

00:43:56,790 --> 00:43:47,760

like not in order of what it should be

927

00:44:00,390 --> 00:43:58,390

so here's kind of the rundown of mount

928

00:44:02,069 --> 00:44:00,400

polymer

929

00:44:04,150 --> 00:44:02,079

uh one of the scientists at california

930

00:44:05,829 --> 00:44:04,160

institute technology reported to the

931

00:44:07,750 --> 00:44:05,839

office of naval research washington he

932

00:44:10,710 --> 00:44:07,760

heard a fantastic story flank disping

933

00:44:15,270 --> 00:44:12,550

the unusual feature of the report being

934

00:44:19,109 --> 00:44:15,280

that a recording geiger counter was so

935

00:44:24,150 --> 00:44:21,510

that it went completely off scale if

936

00:44:25,670 --> 00:44:24,160

true of course has meant possibly that

937

00:44:27,829 --> 00:44:25,680

excuse me the flying discs were powered

938

00:44:29,589 --> 00:44:27,839

by some form

939

00:44:33,109 --> 00:44:29,599

of atomic energy

940

00:44:34,870 --> 00:44:33,119

two different uh men at the observatory

941

00:44:37,510 --> 00:44:34,880

had witnessed these incidents contact

942

00:44:39,829 --> 00:44:37,520

made with the doctor of naval

943

00:44:41,430 --> 00:44:39,839

electronics laboratory who's operating

944

00:44:43,510 --> 00:44:41,440

the recorded geiger counter on a

945

00:44:45,750 --> 00:44:43,520

continuing basis

946

00:44:47,589 --> 00:44:45,760

doctor went to palomar to investigate

947

00:44:50,309 --> 00:44:47,599

the stories and brought back the tape

948

00:44:53,349 --> 00:44:50,319

showing the unusual oscillations of the

949

00:44:55,109 --> 00:44:53,359

pen doctor could offer no explanation

950

00:44:59,030 --> 00:44:55,119

although he's skeptical of any flying

951
00:45:00,870 --> 00:44:59,040
disc story so the doctor himself

952
00:45:05,109 --> 00:45:00,880
didn't have an explanation he didn't

953
00:45:05,119 --> 00:45:07,589
of

954
00:45:07,599 --> 00:45:12,710
possibly checking if it was faulty

955
00:45:16,150 --> 00:45:14,390
no but that's what the navy said of

956
00:45:17,670 --> 00:45:16,160
course

957
00:45:18,870 --> 00:45:17,680
that wasn't the case they were not

958
00:45:23,030 --> 00:45:18,880
faulty

959
00:45:27,990 --> 00:45:25,109
by probably smarter people than the ones

960
00:45:29,589 --> 00:45:28,000
who said that they were faulty

961
00:45:32,150 --> 00:45:29,599
it was not likely that the reaction of

962
00:45:34,230 --> 00:45:32,160
the geiger counter was the result of an

963
00:45:35,829 --> 00:45:34,240

atomically powered plane in as much as

964

00:45:38,470 --> 00:45:35,839

the pen went off scale and returned to

965

00:45:40,790 --> 00:45:38,480

scale in a matter of seconds

966

00:45:43,030 --> 00:45:40,800

whereas the polluted air from an atomic

967

00:45:44,829 --> 00:45:43,040

engine would tend to linger in the

968

00:45:47,109 --> 00:45:44,839

facility for some

969

00:45:49,510 --> 00:45:47,119

minutes it was most likely that the

970

00:45:51,670 --> 00:45:49,520

electrical relaying or amplifying

971

00:45:54,309 --> 00:45:51,680

mechanism of the counter had been

972

00:45:55,510 --> 00:45:54,319

activated by planes radio oh but you

973

00:45:57,030 --> 00:45:55,520

know what that's why they did the

974

00:45:58,710 --> 00:45:57,040

flyovers

975

00:46:00,550 --> 00:45:58,720

and guess what happened

976
00:46:06,230 --> 00:46:00,560
nothing

977
00:46:08,550 --> 00:46:07,190
so

978
00:46:09,990 --> 00:46:08,560
wrong

979
00:46:11,670 --> 00:46:10,000
in the meantime an effort was made to

980
00:46:15,190 --> 00:46:11,680
find out if a planes from naval air

981
00:46:19,589 --> 00:46:15,200
station had been in the vicinity

982
00:46:25,030 --> 00:46:21,349
it's like they're always fighting

983
00:46:25,310 --> 00:46:25,040
against something being

984
00:46:27,190 --> 00:46:25,320
um

985
00:46:28,470 --> 00:46:27,200
[Music]

986
00:46:30,550 --> 00:46:28,480
just like

987
00:46:31,829 --> 00:46:30,560
out of their realm of being able to

988
00:46:33,829 --> 00:46:31,839

figure out

989

00:46:35,430 --> 00:46:33,839

you know

990

00:46:37,589 --> 00:46:35,440

they make up something about the geiger

991

00:46:39,430 --> 00:46:37,599

counters being faulty

992

00:46:41,349 --> 00:46:39,440

here

993

00:46:42,950 --> 00:46:41,359

they're saying um

994

00:46:45,030 --> 00:46:42,960

they probably went off because of the

995

00:46:47,190 --> 00:46:45,040

radio or whatever of the planes they did

996

00:46:52,950 --> 00:46:47,200

a fly over nothing happened

997

00:46:57,190 --> 00:46:54,710

you know

998

00:46:59,510 --> 00:46:57,200

and then here we are

999

00:47:03,190 --> 00:46:59,520

well let's still find out if planes

1000

00:47:04,630 --> 00:47:03,200

went over on the dates no they didn't

1001
00:47:11,190 --> 00:47:04,640
stop trying that

1002
00:47:11,200 --> 00:47:16,390
think outside of the box

1003
00:47:21,990 --> 00:47:18,950
yes hydra mikey

1004
00:47:24,230 --> 00:47:22,000
can we get more likes for this stream

1005
00:47:26,470 --> 00:47:24,240
oh yeah we got 42 people in here and if

1006
00:47:29,430 --> 00:47:26,480
i'm done and there ain't 42 thumbs up

1007
00:47:32,630 --> 00:47:29,440
i'm gonna be pissed

1008
00:47:39,190 --> 00:47:32,640
for all the reading i'm doing here

1009
00:47:42,710 --> 00:47:40,790
interesting him

1010
00:47:45,349 --> 00:47:42,720
they used both conventional and jet

1011
00:47:50,950 --> 00:47:47,910
the results were completely negative the

1012
00:48:00,069 --> 00:47:50,960
geiger counter made no unusual recording

1013
00:48:03,829 --> 00:48:01,990

what do you know

1014

00:48:05,030 --> 00:48:03,839

why are they even doing this if it was

1015

00:48:09,109 --> 00:48:05,040

faulty

1016

00:48:11,109 --> 00:48:09,119

so why would they do it

1017

00:48:12,710 --> 00:48:11,119

why would they even do the flyovers if

1018

00:48:14,150 --> 00:48:12,720

they already knew the counters were

1019

00:48:24,230 --> 00:48:14,160

faulty

1020

00:48:28,549 --> 00:48:26,390

in the opinion of the personnel of

1021

00:48:30,549 --> 00:48:28,559

office of naval research pasadena the

1022

00:48:32,309 --> 00:48:30,559

objects cited were probably conventional

1023

00:48:35,510 --> 00:48:32,319

aircraft which appeared to be abnormal

1024

00:48:38,950 --> 00:48:35,520

and designed due to lighting conditions

1025

00:48:44,710 --> 00:48:41,030

man that's it

1026

00:48:47,109 --> 00:48:45,670

huh

1027

00:48:48,790 --> 00:48:47,119

well that explains it well what about

1028

00:48:51,290 --> 00:48:48,800

the geiger counter

1029

00:48:56,790 --> 00:48:51,300

that's unexplainable oh

1030

00:48:56,800 --> 00:49:03,030

oh man

1031

00:49:08,470 --> 00:49:06,230

oh here we here oh here we go

1032

00:49:10,390 --> 00:49:08,480

but most unlikely that some member of

1033

00:49:12,230 --> 00:49:10,400

the observatory staff has been playing a

1034

00:49:14,390 --> 00:49:12,240

practical joke they're playing a

1035

00:49:18,069 --> 00:49:14,400

practical they're just like checking

1036

00:49:18,950 --> 00:49:18,079

every pocket practical joke no um planes

1037

00:49:25,030 --> 00:49:18,960

no

1038

00:49:28,309 --> 00:49:25,040

let's just forget it

1039

00:49:29,670 --> 00:49:28,319

let's just move on then

1040

00:49:33,190 --> 00:49:29,680

i don't know

1041

00:49:35,030 --> 00:49:33,200

i can't figure it out so

1042

00:49:36,950 --> 00:49:35,040

uh-huh

1043

00:49:39,030 --> 00:49:36,960

the personnel of the observatory and of

1044

00:49:40,710 --> 00:49:39,040

california institute of technology who

1045

00:49:42,710 --> 00:49:40,720

jointly operated the observatory with

1046

00:49:44,870 --> 00:49:42,720

the carnegie institute have made urgent

1047

00:49:47,750 --> 00:49:44,880

requests that no publicity be given so

1048

00:49:49,589 --> 00:49:47,760

nobody even wants publicity for this

1049

00:49:52,069 --> 00:49:49,599

another interesting thing is a lot of

1050

00:49:55,030 --> 00:49:52,079

witnesses

1051
00:49:57,030 --> 00:49:55,040
usually of the the higher strangeness

1052
00:49:59,349 --> 00:49:57,040
cases

1053
00:50:04,710 --> 00:49:59,359
are listed on the documents as not

1054
00:50:10,150 --> 00:50:06,630
now why would that be

1055
00:50:11,510 --> 00:50:10,160
they want to report a ufo

1056
00:50:12,950 --> 00:50:11,520
to the air force

1057
00:50:14,470 --> 00:50:12,960
and

1058
00:50:15,910 --> 00:50:14,480
that's like all they're in it for they

1059
00:50:17,510 --> 00:50:15,920
don't want publicity they just want to

1060
00:50:19,430 --> 00:50:17,520
report it

1061
00:50:21,829 --> 00:50:19,440
to the air force

1062
00:50:23,910 --> 00:50:21,839
that's their big thing

1063
00:50:26,390 --> 00:50:23,920

what crap

1064

00:50:29,990 --> 00:50:26,400

personality observatory

1065

00:50:31,990 --> 00:50:30,000

uh yeah adverse publicity

1066

00:50:34,470 --> 00:50:32,000

which they are most anxious to avoid

1067

00:50:37,190 --> 00:50:34,480

accordingly it is strongly urged that

1068

00:50:42,470 --> 00:50:37,200

these stories not be made available to

1069

00:50:53,349 --> 00:50:49,430

keep it away from the press

1070

00:50:58,390 --> 00:50:56,470

october 1449

1071

00:50:59,990 --> 00:50:58,400

mr whoever left the observatory and

1072

00:51:01,589 --> 00:51:00,000

started to drive down to the mount dew's

1073

00:51:03,589 --> 00:51:01,599

home the weather was good clear overhead

1074

00:51:05,349 --> 00:51:03,599

some clouds 45 degrees from the horizon

1075

00:51:07,510 --> 00:51:05,359

below after going a short distance down

1076
00:51:09,270 --> 00:51:07,520
the road he observed some objects now

1077
00:51:11,430 --> 00:51:09,280
this reminds me of uh

1078
00:51:12,790 --> 00:51:11,440
close encounters of the third kind

1079
00:51:14,390 --> 00:51:12,800
after going a short distance down the

1080
00:51:16,309 --> 00:51:14,400
road he observed some objects proceeding

1081
00:51:18,309 --> 00:51:16,319
in the northwesternly direction height

1082
00:51:19,829 --> 00:51:18,319
at five thousand feet above him

1083
00:51:21,510 --> 00:51:19,839
about ten thousand five hundred feet

1084
00:51:23,190 --> 00:51:21,520
above sea level because of the unusual

1085
00:51:25,190 --> 00:51:23,200
appearance of these objects and of the

1086
00:51:27,030 --> 00:51:25,200
unusual sound he stopped his car and got

1087
00:51:28,870 --> 00:51:27,040
out to have a better look he reported

1088
00:51:31,670 --> 00:51:28,880

that he observed no wings or tail

1089

00:51:34,950 --> 00:51:31,680

structure the objects numbering about 16

1090

00:51:37,829 --> 00:51:34,960

or 18 were flying in a perfect formation

1091

00:51:40,390 --> 00:51:37,839

of vovs and moving very rapidly the

1092

00:51:42,069 --> 00:51:40,400

sound was similar to that of jets but

1093

00:51:44,870 --> 00:51:42,079

not quite the same

1094

00:51:47,190 --> 00:51:44,880

mr marshall had uh occasion to observe

1095

00:51:54,470 --> 00:51:47,200

all types of aircraft frequently and is

1096

00:51:54,480 --> 00:52:00,549

you know

1097

00:52:00,559 --> 00:52:05,990

interesting

1098

00:52:09,030 --> 00:52:07,430

in a matter of seconds the planes

1099

00:52:11,270 --> 00:52:09,040

disappeared to the northwest he

1100

00:52:13,589 --> 00:52:11,280

described them as being of silver-like

1101
00:52:15,589 --> 00:52:13,599
color no vapor trails were observed due

1102
00:52:16,470 --> 00:52:15,599
to high speeds of motions sound appeared

1103
00:52:18,630 --> 00:52:16,480
to be

1104
00:52:21,190 --> 00:52:18,640
35-40 degrees behind the line of sight

1105
00:52:23,510 --> 00:52:21,200
interesting shortly after this incident

1106
00:52:26,069 --> 00:52:23,520
um advised him of what he had seen short

1107
00:52:27,990 --> 00:52:26,079
time later went into the room of the

1108
00:52:29,349 --> 00:52:28,000
powerhouse where the recording geiger

1109
00:52:31,349 --> 00:52:29,359
counter

1110
00:52:33,270 --> 00:52:31,359
placed there by the naval electronics

1111
00:52:35,829 --> 00:52:33,280
laboratory was located noticed that the

1112
00:52:36,870 --> 00:52:35,839
panda had made an off-scale motion to

1113
00:52:38,710 --> 00:52:36,880

the right

1114

00:52:40,150 --> 00:52:38,720

some time before

1115

00:52:43,109 --> 00:52:40,160

the time appeared to be approximately

1116

00:52:45,510 --> 00:52:43,119

thirteen fifteen at the same time which

1117

00:52:51,349 --> 00:52:45,520

mister had observed the unusual objects

1118

00:52:57,030 --> 00:52:53,750

so this

1119

00:53:01,270 --> 00:52:57,040

this person who you know

1120

00:53:03,510 --> 00:53:01,280

don't want any press nothing like that

1121

00:53:04,710 --> 00:53:03,520

here at the bottom he's an electrician

1122

00:53:10,549 --> 00:53:04,720

of considerable ability and

1123

00:53:15,270 --> 00:53:12,630

man

1124

00:53:19,910 --> 00:53:15,280

here we are 2022.

1125

00:53:23,109 --> 00:53:21,270

an effort was made to report the

1126

00:53:25,430 --> 00:53:23,119

incident to the naval electronics

1127

00:53:27,109 --> 00:53:25,440

laboratory that weekend but contact

1128

00:53:29,750 --> 00:53:27,119

could not be made

1129

00:53:31,829 --> 00:53:29,760

with interested authorities now isn't

1130

00:53:33,589 --> 00:53:31,839

that something

1131

00:53:36,390 --> 00:53:33,599

contact could not be made with

1132

00:53:39,030 --> 00:53:36,400

interested authorities

1133

00:53:46,150 --> 00:53:39,040

so contact was made

1134

00:53:52,069 --> 00:53:47,589

it should be noted here that the geiger

1135

00:54:05,510 --> 00:53:54,390

except when it was usually operating

1136

00:54:05,520 --> 00:54:10,710

unfortunately

1137

00:54:20,360 --> 00:54:12,790

and we have a repeat doc here we're

1138

00:54:20,370 --> 00:54:25,430

[Music]

1139

00:54:25,440 --> 00:54:32,150

okay so this is interesting

1140

00:54:37,349 --> 00:54:34,549

about two years ago

1141

00:54:42,630 --> 00:54:37,359

oh this is not a duplicate okay

1142

00:54:46,470 --> 00:54:44,470

uh we have another statement here valley

1143

00:54:48,710 --> 00:54:46,480

center

1144

00:54:50,309 --> 00:54:48,720

while the representatives of office of

1145

00:54:51,990 --> 00:54:50,319

naval research pasadena naval

1146

00:54:53,430 --> 00:54:52,000

electronics laboratory we're proceeding

1147

00:54:55,349 --> 00:54:53,440

to mount palomar to investigate the

1148

00:54:59,030 --> 00:54:55,359

flying saucer story why are they

1149

00:55:03,190 --> 00:55:01,030

it's not their job to investigate this

1150

00:55:04,549 --> 00:55:03,200

stuff

1151
00:55:06,870 --> 00:55:04,559
you know it's supposed to be the

1152
00:55:11,349 --> 00:55:06,880
freaking air force

1153
00:55:15,190 --> 00:55:13,430
they stopped at the cafe at the foot of

1154
00:55:17,190 --> 00:55:15,200
the mountain which is operated by mister

1155
00:55:19,190 --> 00:55:17,200
whoever quite by coincidence mister told

1156
00:55:21,510 --> 00:55:19,200
them of a number of unusual observations

1157
00:55:23,750 --> 00:55:21,520
made by him outside his cafe are two

1158
00:55:25,430 --> 00:55:23,760
miniature observatories containing a 15

1159
00:55:26,390 --> 00:55:25,440
inch and six inch telescope a number of

1160
00:55:29,670 --> 00:55:26,400
different

1161
00:55:34,309 --> 00:55:29,680
um stories were told by the cafe owner

1162
00:55:37,349 --> 00:55:35,910
so here we go

1163
00:55:39,510 --> 00:55:37,359

we're saying

1164

00:55:41,589 --> 00:55:39,520

blue book is saying

1165

00:55:43,270 --> 00:55:41,599

these are pertinent

1166

00:55:45,430 --> 00:55:43,280

he stated that recently it's seen on

1167

00:55:48,710 --> 00:55:45,440

friday the 21st of october a

1168

00:55:50,390 --> 00:55:48,720

cigar-shaped object pointed at both ends

1169

00:55:52,470 --> 00:55:50,400

without projections

1170

00:55:54,789 --> 00:55:52,480

and was apparently well stabilized this

1171

00:55:57,829 --> 00:55:54,799

is on the west coast

1172

00:56:02,549 --> 00:55:57,839

cigar shape is awful like awfully

1173

00:56:06,309 --> 00:56:04,150

uh point at both ends without

1174

00:56:08,470 --> 00:56:06,319

projections and were apparently well

1175

00:56:10,789 --> 00:56:08,480

stabilized the altitude 7500 was

1176

00:56:12,230 --> 00:56:10,799

estimated for the object the object was

1177

00:56:14,870 --> 00:56:12,240

dark in color interesting that's

1178

00:56:19,670 --> 00:56:14,880

different and appeared to be 500 feet or

1179

00:56:23,349 --> 00:56:21,670

after standing still for an appropriate

1180

00:56:25,190 --> 00:56:23,359

length of time it headed upwards at a

1181

00:56:26,950 --> 00:56:25,200

terrific rate of speed leaving no vapor

1182

00:56:32,150 --> 00:56:26,960

trail

1183

00:56:33,910 --> 00:56:32,160

this observation was made with the naked

1184

00:56:35,990 --> 00:56:33,920

eye it should be noted that this

1185

00:56:39,430 --> 00:56:36,000

observation appears to have been made

1186

00:56:45,270 --> 00:56:42,390

mr at the palomar observatory cited a

1187

00:56:47,109 --> 00:56:45,280

similar object so we have two different

1188

00:56:50,390 --> 00:56:47,119

unrelated witnesses

1189

00:56:50,400 --> 00:56:55,510
with the geiger counter going off

1190

00:56:58,470 --> 00:56:57,270
and all they can do is explain it away

1191

00:57:00,309 --> 00:56:58,480
and not be interested

1192

00:57:01,910 --> 00:57:00,319
about two years ago mr had observed an

1193

00:57:03,589 --> 00:57:01,920
object through one of his telescopes

1194

00:57:04,950 --> 00:57:03,599
stated that the object came in was

1195

00:57:06,710 --> 00:57:04,960
relatively still for a while then

1196

00:57:09,510 --> 00:57:06,720
disappeared rapidly the object appeared

1197

00:57:11,750 --> 00:57:09,520
to be round and head around it a ring of

1198

00:57:13,670 --> 00:57:11,760
some sort such as the planet saturn

1199

00:57:15,670 --> 00:57:13,680
interesting when the object was first

1200

00:57:18,390 --> 00:57:15,680
sighted the outside ring seemed to

1201

00:57:25,589 --> 00:57:21,589

it's kind of like what i saw

1202

00:57:27,190 --> 00:57:25,599

and upon the object getting away the

1203

00:57:29,030 --> 00:57:27,200

counterpart appeared to rotate the

1204

00:57:31,589 --> 00:57:29,040

counterpart appeared to rotate in a

1205

00:57:37,190 --> 00:57:31,599

direction opposite to that of the ring

1206

00:57:40,470 --> 00:57:39,109

he showed visitors newspaper clipping

1207

00:57:41,910 --> 00:57:40,480

where he had addressed the local chamber

1208

00:57:44,069 --> 00:57:41,920

of congress at a luncheon meeting

1209

00:57:45,910 --> 00:57:44,079

narrating one or two stories of his

1210

00:57:47,349 --> 00:57:45,920

unusual observations of flying saucers

1211

00:57:50,230 --> 00:57:47,359

when he asked the gentleman present and

1212

00:57:51,910 --> 00:57:50,240

if any of them had ever observed similar

1213

00:57:55,109 --> 00:57:51,920

objects

1214

00:57:57,510 --> 00:57:55,119

fully 25 or 30 of the members present

1215

00:57:59,750 --> 00:57:57,520

acknowledged immediately that they had

1216

00:58:02,950 --> 00:57:59,760

seen similar objects but had been

1217

00:58:08,470 --> 00:58:02,960

reluctant to report them for fear people

1218

00:58:17,040 --> 00:58:24,390

and that's the last page

1219

00:58:24,400 --> 00:58:28,789

that's the last page yo

1220

00:58:28,799 --> 00:58:31,910

off the beam

1221

00:58:38,230 --> 00:58:35,190

25 or 30.

1222

00:58:43,910 --> 00:58:38,240

nobody wanted to be off the beam

1223

00:58:48,309 --> 00:58:45,670

well

1224

00:58:50,630 --> 00:58:48,319

i hope you guys enjoyed that uh

1225

00:58:54,789 --> 00:58:50,640

kickback

1226

00:58:54,799 --> 00:58:58,309

i think it's a great case

1227

00:59:05,030 --> 00:59:00,789

we have cigar shape objects

1228

00:59:06,710 --> 00:59:05,040

two people two different spots unrelated

1229

00:59:08,069 --> 00:59:06,720

seeing the thing geiger counters going

1230

00:59:12,309 --> 00:59:08,079

off

1231

00:59:16,950 --> 00:59:14,630

and

1232

00:59:20,230 --> 00:59:16,960

previous instances

1233

00:59:20,240 --> 00:59:23,910

radiation spikes at um

1234

00:59:23,920 --> 00:59:28,630

oak ridge

1235

00:59:33,190 --> 00:59:31,109

pretty intensio

1236

00:59:35,829 --> 00:59:33,200

pretty intense so

1237

00:59:38,630 --> 00:59:35,839

do you guys want the documents for this

1238

00:59:42,069 --> 00:59:38,640

one i bet you do don't you

1239

00:59:46,549 --> 00:59:44,230

i will upload them

1240

00:59:52,069 --> 00:59:46,559

for you if you would like

1241

00:59:55,190 --> 00:59:53,750

but

1242

00:59:58,829 --> 00:59:55,200

it's good

1243

01:00:00,470 --> 00:59:58,839

i always recommend that you read them

1244

01:00:03,750 --> 01:00:00,480

yourself

1245

01:00:07,750 --> 01:00:05,030

um

1246

01:00:10,390 --> 01:00:07,760

because when i'm reading them

1247

01:00:12,309 --> 01:00:10,400

sometimes i can go too fast or

1248

01:00:13,670 --> 01:00:12,319

you know skip over an important part

1249

01:00:17,190 --> 01:00:13,680

unfortunately

1250

01:00:17,200 --> 01:00:21,589

so there you go take a look at it

1251
01:00:25,349 --> 01:00:24,150
i hope you enjoy

1252
01:00:26,870 --> 01:00:25,359
do you have a what the heck is that

1253
01:00:28,710 --> 01:00:26,880
segment

1254
01:00:31,990 --> 01:00:28,720
no not today

1255
01:00:34,630 --> 01:00:32,000
not today unfortunately

1256
01:00:36,950 --> 01:00:34,640
need some people to give me some videos

1257
01:00:43,030 --> 01:00:36,960
for what the heck is that man

1258
01:00:49,750 --> 01:00:45,430
oh that's awesome oh you guys are great

1259
01:00:54,470 --> 01:00:52,390
you know participating

1260
01:00:56,630 --> 01:00:54,480
very courteously in the chat

1261
01:00:59,510 --> 01:00:56,640
and you know being here and supporting

1262
01:01:01,670 --> 01:00:59,520
uh the episode

1263
01:01:03,030 --> 01:01:01,680

i really do appreciate that

1264

01:01:06,470 --> 01:01:03,040

um don't forget to like the video

1265

01:01:11,109 --> 01:01:09,270

and i'm not doing a show tomorrow

1266

01:01:14,230 --> 01:01:11,119

i'll be back wednesday

1267

01:01:15,430 --> 01:01:14,240

uh with lizzie kane and jay christopher

1268

01:01:18,069 --> 01:01:15,440

king

1269

01:01:19,910 --> 01:01:18,079

so that's gonna be awesome 3 30.

1270

01:01:21,829 --> 01:01:19,920

um

1271

01:01:25,109 --> 01:01:21,839

yes don't forget to smash that like

1272

01:01:30,069 --> 01:01:27,910

i'm gonna go out with just a little kind

1273

01:01:32,069 --> 01:01:30,079

of video i made it kind of like a short

1274

01:01:34,150 --> 01:01:32,079

weird video that does make sense but it

1275

01:01:35,910 --> 01:01:34,160

was fun to make so

1276

01:01:38,870 --> 01:01:35,920

hope you like it

1277

01:01:41,030 --> 01:01:38,880

um yeah

1278

01:01:43,349 --> 01:01:41,040

thanks guys appreciate it love you

1279

01:01:44,309 --> 01:01:43,359

thanks for hanging out and we will see

1280

01:01:46,789 --> 01:01:44,319

you

1281

01:01:48,309 --> 01:01:46,799

on wednesday peace we've made a lot of

1282

01:01:50,230 --> 01:01:48,319

progress

1283

01:01:52,549 --> 01:01:50,240

and uh

1284

01:01:54,230 --> 01:01:52,559

i think the work we've done where we've

1285

01:01:55,029 --> 01:01:54,240

now determined that

1286

01:01:57,349 --> 01:01:55,039

not

1287

01:01:59,750 --> 01:01:57,359

10 or 20 people have seen these

1288

01:02:01,510 --> 01:01:59,760

kind of flying objects but hundreds and

1289

01:02:03,109 --> 01:02:01,520

hundreds of people have seen them

1290

01:02:04,309 --> 01:02:03,119

i think the american people are

1291

01:02:07,190 --> 01:02:04,319

interested

1292

01:02:09,670 --> 01:02:07,200

and i think the more we study the more

1293

01:02:11,109 --> 01:02:09,680

we don't know but the more we

1294

01:02:13,589 --> 01:02:11,119

more we

1295

01:02:15,190 --> 01:02:13,599

need to study more and more

1296

01:02:16,069 --> 01:02:15,200

more work we do on this the better off

1297

01:02:20,890 --> 01:02:16,079

we are

1298

01:02:20,900 --> 01:02:25,029

[Music]

1299

01:02:32,710 --> 01:02:26,470

there's been plenty of times where i

1300

01:02:32,720 --> 01:02:48,380

but something always brings me back

1301

01:03:04,549 --> 01:02:55,950

[Music]

1302

01:03:26,150 --> 01:03:07,580

maybe it's my experience

1303

01:03:40,549 --> 01:03:27,540

no

1304

01:03:40,559 --> 01:03:53,000

i won't figure it out but i can try

1305

01:04:46,630 --> 01:04:03,780

[Music]
