[Music]

2
00:00:20,960 --> 00:01:06,880
so

3
00:01:06,890 --> 00:01:14,149
[Music]

4
00:01:19,590 --> 00:01:17,030
what is up everybody

5
00:01:21,190 --> 00:01:19,600
um happy monday

6
00:01:22,469 --> 00:01:21,200
hope the week is starting pretty well

7
00:01:25,590 --> 00:01:22,479
for you

8
00:01:34,270 --> 00:01:25,600
um it's valentine's day so

9
00:01:38,390 --> 00:01:36,230
[Laughter]

10
00:01:41,109 --> 00:01:38,400
to all of you so thanks everybody for

11
00:01:42,389 --> 00:01:41,119
being here we got uh lord bass what is

12
00:01:46,069 --> 00:01:42,399

13
00:01:48,469 --> 00:01:46,079

um mr josh hello sir

14

00:01:50,310 --> 00:01:48,479

lionel f what's happening for whatever

15

00:01:51,830 --> 00:01:50,320

reason i always think of lionel richie

16

00:01:54,310 --> 00:01:51,840

when i see you

17

00:01:56,630 --> 00:01:54,320

um i have no idea

18

00:01:58,630 --> 00:01:56,640

if you are even close

19

00:02:00,950 --> 00:01:58,640

to who that person is

20

00:02:04,069 --> 00:02:00,960

as far as similarities

21

00:02:08,710 --> 00:02:06,310

so

22

00:02:11,589 --> 00:02:08,720

pretty weird uh witness citizen what's

23

00:02:14,470 --> 00:02:11,599

up uh dieselgirl what's happening you're

24

00:02:17,110 --> 00:02:14,480

hooked to the ufo podcast

25

00:02:18,470 --> 00:02:17,120

k42d is as well

26

00:02:21,350 --> 00:02:18,480

27

00:02:24,229 --> 00:02:21,360

you know i appreciate that

28

00:02:26,869 --> 00:02:24,239

i appreciate that and thank you so much

29

00:02:29,750 --> 00:02:26,879

for the nice comment um regarding my

30

00:02:31,990 --> 00:02:29,760

appearance on spaced out radio i do

31

00:02:34,869 --> 00:02:32,000

appreciate that that was a great time

32

00:02:37,430 --> 00:02:34,879

so thank you to them for inviting me and

33

00:02:40,390 --> 00:02:37,440

let me talk i talked about some things

34

00:02:41,990 --> 00:02:40,400

that i don't usually get into so

35

00:02:44,229 --> 00:02:42,000

um if you're interested you should go

36

00:02:46,790 --> 00:02:44,239

check that out

37

00:02:49,110 --> 00:02:46,800

it was a good time

38

00:02:50,710 --> 00:02:49,120

uh joe's what's happening i'm surprised

39

00:02:52,630 --> 00:02:50,720

you're awake

40

00:02:54,229 --> 00:02:52,640

but i'll take it

41

00:02:55,670 --> 00:02:54,239

i'm glad you are

42

00:02:57,990 --> 00:02:55,680

so

43

00:03:00,470 --> 00:02:58,000

um

44

00:03:03,030 --> 00:03:00,480

toby what's happening oh that was josh

45

00:03:04,630 --> 00:03:03,040

again oops sorry

46

00:03:07,670 --> 00:03:04,640

toby what's happening

47

00:03:10,149 --> 00:03:07,680

49

00:03:13,830 --> 00:03:12,000

everybody being here

50

00:03:19,670 --> 00:03:13,840

um

51
00:03:21,350 --> 00:03:19,680
booked a interview for

52
00:03:23,190 --> 00:03:21,360
march 2nd

53
00:03:24,550 --> 00:03:23,200
with lou elizondo so that should be

54
00:03:26,949 --> 00:03:24,560
pretty cool

55
00:03:28,390 --> 00:03:26,959
that should be pretty good um he hasn't

56
00:03:29,830 --> 00:03:28,400
it's been a while

57
00:03:31,190 --> 00:03:29,840
um

58
00:03:32,789 --> 00:03:31,200
since he's been on so i'm looking

59
00:03:34,070 --> 00:03:32,799
forward to that catching up and we're

60
00:03:36,630 --> 00:03:34,080
gonna have

61
00:03:38,949 --> 00:03:36,640
the best dude ever

62
00:03:41,670 --> 00:03:38,959
uh wednesday friend mr j christopher

63
00:03:43,430 --> 00:03:41,680

king co-hosting that one so

64

00:03:47,509 --> 00:03:43,440

it's gonna be

65

00:03:49,830 --> 00:03:47,519

fan freakin tastic

66

00:03:51,830 --> 00:03:49,840

and i hope

67

00:03:54,229 --> 00:03:51,840

that you all can join

68

00:03:55,910 --> 00:03:54,239

lc what's up i don't know if you're new

69

00:03:56,869 --> 00:03:55,920

here but if you are i appreciate it

70

00:03:59,429 --> 00:03:56,879

welcome

71

00:04:01,110 --> 00:03:59,439

i hope you have a good time

72

00:04:02,869 --> 00:04:01,120

um

73

00:04:06,229 --> 00:04:02,879

if you're watching make sure you log in

74

00:04:08,229 --> 00:04:06,239

subscribe uh hit that thumbs up button

75

00:04:10,630 --> 00:04:08,239

um because if it turns out you don't

76

00:04:12,630 --> 00:04:10,640

like it you can always reverse course

77

00:04:15,750 --> 00:04:12,640

and on thumbs up

78

00:04:17,830 --> 00:04:15,760

on thumbs up you know how that goes so

79

00:04:19,509 --> 00:04:17,840

if you have to you can do that

80

00:04:23,510 --> 00:04:19,519

you know

81

00:04:24,550 --> 00:04:23,520

i tried to do the best i can so that's

82

00:04:26,390 --> 00:04:24,560

you know

83

00:04:29,270 --> 00:04:26,400

not

84

00:04:32,469 --> 00:04:29,280

hopefully a circumstance that will

85

00:04:33,990 --> 00:04:32,479

um show up but you never know

86

00:04:35,590 --> 00:04:34,000

ever know i could say something that

87

00:04:37,500 --> 00:04:35,600

pisses you off

88

00:04:39,189 --> 00:04:37,510

i've done it before

89

00:04:43,510 --> 00:04:39,199

[Laughter]

90

00:04:46,950 --> 00:04:43,520

so what i wanted to do today it was

91

00:04:49,430 --> 00:04:46,960

um go over that

92

00:04:51,430 --> 00:04:49,440

preliminary assessment

93

00:04:56,070 --> 00:04:51,440

that we got of unidentified aerial

94

00:04:59,189 --> 00:04:56,080

phenomenon back in june of 2021

95

00:05:01,029 --> 00:04:59,199

i feel like enough time has passed

96

00:05:03,430 --> 00:05:01,039

where a lot of

97

00:05:07,510 --> 00:05:03,440

maybe what you would call

98

00:05:08,390 --> 00:05:07,520

i don't know hype or initial

99

00:05:10,629 --> 00:05:08,400

you know

100

00:05:12,790 --> 00:05:10,639

feeling feelings and thoughts of it kind

101
00:05:15,110 --> 00:05:12,800
of dissipate and maybe you kind of

102
00:05:16,550 --> 00:05:15,120
forget about it a little bit

103
00:05:18,950 --> 00:05:16,560
um so

104
00:05:20,150 --> 00:05:18,960
you know it's about time we get back

105
00:05:22,469 --> 00:05:20,160
into it

106
00:05:25,590 --> 00:05:22,479
as we're supposed to get another one in

107
00:05:27,990 --> 00:05:25,600
october which you know should be

108
00:05:30,790 --> 00:05:28,000
a liminary assessment

109
00:05:33,430 --> 00:05:30,800
aka a regular

110
00:05:35,430 --> 00:05:33,440
unclassified report so

111
00:05:38,310 --> 00:05:35,440
i think it's good to look at this

112
00:05:40,230 --> 00:05:38,320
to kind of know what we got last time

113
00:05:50,870 --> 00:05:40,240

and

114

00:05:52,710 --> 00:05:50,880

expect

115

00:05:55,029 --> 00:05:52,720

we should call some ruckus because i

116

00:05:56,870 --> 00:05:55,039

think this gives us some good tips on

117

00:06:00,870 --> 00:05:56,880

you know the things and strategies that

118

00:06:06,230 --> 00:06:03,830

um to you know do a better job basically

119

00:06:07,830 --> 00:06:06,240

getting more data on everything so if we

120

00:06:09,430 --> 00:06:07,840

take a look at this and we see what

121

00:06:11,749 --> 00:06:09,440

their plans were we can kind of know

122

00:06:15,350 --> 00:06:11,759

what to expect when october comes

123

00:06:19,590 --> 00:06:15,360

and that report comes back around so

124

00:06:23,590 --> 00:06:21,270

first of all and i highlighted like a

125

00:06:25,029 --> 00:06:23,600

lot of stuff so you know we'll try to

126

00:06:28,790 --> 00:06:25,039

get to all of it

127

00:06:30,629 --> 00:06:28,800

but uh first you know off the bat

128

00:06:33,110 --> 00:06:30,639

you know i want to say that there were

129

00:06:35,189 --> 00:06:33,120

some major conflicts within the

130

00:06:37,270 --> 00:06:35,199

preliminary assessment

131

00:06:39,830 --> 00:06:37,280

that's most definitely for sure and

132

00:06:41,830 --> 00:06:39,840

we're going to highlight some of those

133

00:06:45,990 --> 00:06:41,840

this isn't

134

00:06:48,390 --> 00:06:46,000

me going over the assessment to just be

135

00:06:50,710 --> 00:06:48,400

all giddy over getting an assessment and

136

00:06:52,629 --> 00:06:50,720

you know being unusually kind everything

137

00:06:54,790 --> 00:06:52,639

in here that's not what

138

00:06:56,070 --> 00:06:54,800

this is gonna be this is gonna be

139

00:06:57,430 --> 00:06:56,080

looking at it

140

00:06:59,670 --> 00:06:57,440

um

141

00:07:01,990 --> 00:06:59,680

you know like i'm the boss and somebody

142

00:07:03,670 --> 00:07:02,000

made this report for me and what i have

143

00:07:05,189 --> 00:07:03,680

to say about it

144

00:07:12,150 --> 00:07:05,199

you know

145

00:07:14,469 --> 00:07:12,160

that i do want to get this out of the

146

00:07:16,309 --> 00:07:14,479

way that it's great that we do have a

147

00:07:18,550 --> 00:07:16,319

preliminary assessment and we've gotten

148

00:07:21,830 --> 00:07:18,560

this far to get that

149

00:07:23,350 --> 00:07:21,840

to the point of where we are expecting a

150

00:07:26,230 --> 00:07:23,360

unclassified

151
00:07:28,150 --> 00:07:26,240
assessment in october

152
00:07:30,950 --> 00:07:28,160
you know so all of that is good all of

153
00:07:33,589 --> 00:07:30,960
that is positive right

154
00:07:36,790 --> 00:07:33,599
but now let's throw that positive

155
00:07:38,710 --> 00:07:36,800
let's throw that positivity to the side

156
00:07:40,070 --> 00:07:38,720
and give an honest

157
00:07:42,309 --> 00:07:40,080
assessment

158
00:07:45,029 --> 00:07:42,319
of the preliminary

159
00:07:46,309 --> 00:07:45,039
assessment

160
00:07:48,469 --> 00:07:46,319
so

161
00:07:49,990 --> 00:07:48,479
that's what the goal is

162
00:07:53,670 --> 00:07:50,000
so we're going to get to this first part

163
00:07:56,070 --> 00:07:53,680

here scope and assumptions

164

00:07:59,110 --> 00:07:56,080

all right so the preliminary report is

165

00:08:00,790 --> 00:07:59,120

provided by the office of o dni in

166

00:08:02,070 --> 00:08:00,800

response to the provision

167

00:08:04,629 --> 00:08:02,080

accompanying the intelligence

168

00:08:06,869 --> 00:08:04,639

authorization fiscal year 2021

169

00:08:09,430 --> 00:08:06,879

that dni in consultation with the sect

170

00:08:12,309 --> 00:08:09,440

defense is to submit an intelligent

171

00:08:13,589 --> 00:08:12,319

assessment of the threat posed by uap

172

00:08:15,510 --> 00:08:13,599

and the progress

173

00:08:17,589 --> 00:08:15,520

um the department of defense

174

00:08:19,350 --> 00:08:17,599

unidentified aerial phenomena the task

175

00:08:22,230 --> 00:08:19,360

force has made in understanding this

176
00:08:24,830 --> 00:08:22,240
threat right away

177
00:08:28,790 --> 00:08:24,840
we're looking at this

178
00:08:30,869 --> 00:08:28,800
as a threat post right

179
00:08:32,790 --> 00:08:30,879
it's not saying possible they do later

180
00:08:35,509 --> 00:08:32,800
but right here it says to submit an

181
00:08:37,110 --> 00:08:35,519
intelligence assessment of the threat

182
00:08:39,350 --> 00:08:37,120
post

183
00:08:43,509 --> 00:08:39,360
after that

184
00:08:44,949 --> 00:08:43,519
uaptf has made in understanding this

185
00:08:46,949 --> 00:08:44,959
threat

186
00:08:49,350 --> 00:08:46,959
okay now here comes a little bit of a

187
00:08:51,350 --> 00:08:49,360
conflict to me personally uh the report

188
00:08:52,870 --> 00:08:51,360

provides an overview for policymakers of

189

00:08:55,670 --> 00:08:52,880

the challenges associated with

190

00:08:58,870 --> 00:08:55,680

characterizing the potential

191

00:09:00,870 --> 00:08:58,880

threat posed by uap while also providing

192

00:09:01,829 --> 00:09:00,880

a means to develop relevant processes

193

00:09:03,350 --> 00:09:01,839

whatever

194

00:09:06,389 --> 00:09:03,360

so here we have

195

00:09:12,150 --> 00:09:06,399

and you can read this as it's up

196

00:09:15,670 --> 00:09:13,910

submit an intelligence assessment of a

197

00:09:17,430 --> 00:09:15,680

threat pose

198

00:09:20,070 --> 00:09:17,440

understanding this threat

199

00:09:21,030 --> 00:09:20,080

and then characterizing a potential

200

00:09:22,790 --> 00:09:21,040

threat

201
00:09:24,790 --> 00:09:22,800
posed by ufp well that's a little bit

202
00:09:26,630 --> 00:09:24,800
conflicting and then here we go again as

203
00:09:31,750 --> 00:09:26,640
to enhance the intelligence community's

204
00:09:35,990 --> 00:09:33,430
so it's very threat

205
00:09:38,550 --> 00:09:36,000
based

206
00:09:40,150 --> 00:09:38,560
other than this one part that backs off

207
00:09:42,230 --> 00:09:40,160
of it a little bit

208
00:09:45,910 --> 00:09:42,240
and says characterizing

209
00:09:50,150 --> 00:09:47,670
moving on the data set described in this

210
00:09:51,829 --> 00:09:50,160
report is currently limited primarily to

211
00:09:54,710 --> 00:09:51,839
us government reporting of incidents

212
00:09:57,590 --> 00:09:54,720
occurring from november 2004 to march

213
00:10:02,550 --> 00:09:59,910

this will be

214

00:10:03,990 --> 00:10:02,560

important moving on to this assessment

215

00:10:05,430 --> 00:10:04,000

that it says that it continues to be

216

00:10:07,030 --> 00:10:05,440

collected and analyzed why did i

217

00:10:08,790 --> 00:10:07,040

highlight that part that part i

218

00:10:10,949 --> 00:10:08,800

highlighted because that gives us

219

00:10:13,590 --> 00:10:10,959

something to work with for what we

220

00:10:16,389 --> 00:10:13,600

should expect in october so for a year

221

00:10:18,870 --> 00:10:16,399

now just about

222

00:10:21,269 --> 00:10:18,880

more data has continued to be collected

223

00:10:23,990 --> 00:10:21,279

and analyzed

224

00:10:25,670 --> 00:10:24,000

and as we get to the later parts of this

225

00:10:30,150 --> 00:10:25,680

report

226

00:10:32,949 --> 00:10:30,160

we'll see how much emphasis went into

227

00:10:36,470 --> 00:10:32,959

formalizing a better collection process

228

00:10:39,269 --> 00:10:36,480

so doing that along with this year

229

00:10:39,279 --> 00:10:43,350

we should expect more

230

00:10:46,310 --> 00:10:44,630

i would say

231

00:10:47,350 --> 00:10:46,320

than this preliminary assessment and we

232

00:10:49,590 --> 00:10:47,360

should anyways because this is

233

00:10:50,470 --> 00:10:49,600

preliminary right okay

234

00:10:54,230 --> 00:10:50,480

but

235

00:10:58,310 --> 00:10:56,470

od and i prepared this report for

236

00:10:59,670 --> 00:10:58,320

congressional intelligence armed service

237

00:11:01,829 --> 00:10:59,680

committees

238

00:11:04,069 --> 00:11:01,839

uh the uap task force and the odni

239

00:11:06,069 --> 00:11:04,079

national intelligence manager manager

240

00:11:07,509 --> 00:11:06,079

for aviation drafted this report why did

241

00:11:10,790 --> 00:11:07,519

i highlight that because there's

242

00:11:11,590 --> 00:11:10,800

somebody uh right now

243

00:11:13,509 --> 00:11:11,600

um

244

00:11:15,269 --> 00:11:13,519

you know maybe i'm wrong with how he

245

00:11:17,030 --> 00:11:15,279

characterizes this and i'm not trying to

246

00:11:20,389 --> 00:11:17,040

call anyone out i'm just

247

00:11:22,389 --> 00:11:20,399

correcting what i see as um

248

00:11:23,750 --> 00:11:22,399

maybe not accurate

249

00:11:25,910 --> 00:11:23,760

um which is

250

00:11:28,630 --> 00:11:25,920

a black vault saying that the air force

251
00:11:30,630 --> 00:11:28,640
um co-drafted or drafted the report

252
00:11:32,710 --> 00:11:30,640
which is just not

253
00:11:35,190 --> 00:11:32,720
completely accurate because we can see

254
00:11:37,350 --> 00:11:35,200
here it's the uap task force and the

255
00:11:39,750 --> 00:11:37,360
odni national intelligence manager for

256
00:11:41,750 --> 00:11:39,760
aviation which is not the air force

257
00:11:44,790 --> 00:11:41,760
maybe that person was air force i think

258
00:11:47,509 --> 00:11:44,800
they are or were

259
00:11:49,590 --> 00:11:47,519
but this is odni national intelligence

260
00:11:50,790 --> 00:11:49,600
manager for aviation

261
00:11:52,629 --> 00:11:50,800
now these are all the people that

262
00:11:55,269 --> 00:11:52,639
contributed with

263
00:11:57,030 --> 00:11:55,279

to the report as many of you know and

264

00:11:58,790 --> 00:11:57,040

are familiar with

265

00:12:00,870 --> 00:11:58,800

dia

266

00:12:03,430 --> 00:12:00,880

we went over many old blue book cases

267

00:12:05,750 --> 00:12:03,440

where dia got some information also we

268

00:12:07,350 --> 00:12:05,760

know fbi did and are always interesting

269

00:12:08,829 --> 00:12:07,360

because they have all the satellites

270

00:12:11,269 --> 00:12:08,839

that collect

271

00:12:14,310 --> 00:12:11,279

information around the world

272

00:12:15,829 --> 00:12:14,320

uh like our spy satellites nga

273

00:12:18,069 --> 00:12:15,839

that's something john ramirez has told

274

00:12:20,310 --> 00:12:18,079

about i've sent an avoid to them they

275

00:12:22,629 --> 00:12:20,320

have not responded i checked in they

276

00:12:25,350 --> 00:12:22,639

have not responded to that either

277

00:12:28,870 --> 00:12:25,360

so i'm not holding my breath

278

00:12:31,509 --> 00:12:28,880

uh nsa uh air force army navy

279

00:12:33,350 --> 00:12:31,519

uh darpa which is really interesting

280

00:12:34,629 --> 00:12:33,360

darpa is

281

00:12:38,230 --> 00:12:34,639

if you're not familiar with them but

282

00:12:41,350 --> 00:12:38,240

they do uh advanced research projects

283

00:12:43,430 --> 00:12:41,360

like they make tiny little like drones

284

00:12:44,629 --> 00:12:43,440

and you'll find like the brain implant

285

00:12:46,150 --> 00:12:44,639

paperwork

286

00:12:48,949 --> 00:12:46,160

uh drawn up

287

00:12:50,710 --> 00:12:48,959

drawn up by them no joke but you know

288

00:12:53,269 --> 00:12:50,720

they actually put that together

289

00:12:56,389 --> 00:12:53,279

um faa

290

00:12:58,230 --> 00:12:56,399

which is great um because you know

291

00:13:00,949 --> 00:12:58,240

if you just look at a flight tracker

292

00:13:02,790 --> 00:13:00,959

your flight radar tracker pop that up

293

00:13:06,949 --> 00:13:02,800

that's all faa all those planes

294

00:13:08,790 --> 00:13:06,959

basically uh noaa that's great uh oceans

295

00:13:10,790 --> 00:13:08,800

you know all that stuff

296

00:13:12,150 --> 00:13:10,800

um

297

00:13:13,750 --> 00:13:12,160

they actually put together a really

298

00:13:15,829 --> 00:13:13,760

fantastic report that you can find in

299

00:13:17,269 --> 00:13:15,839

the cia foyer reading room

300

00:13:20,310 --> 00:13:17,279

um on

301

00:13:21,990 --> 00:13:20,320

the lakenheath um ufo sighting and

302

00:13:24,710 --> 00:13:22,000

there's another one that they did too

303

00:13:27,190 --> 00:13:24,720

and probably more but those i could only

304

00:13:28,230 --> 00:13:27,200

find two

305

00:13:30,870 --> 00:13:28,240

and

306

00:13:33,110 --> 00:13:30,880

who else we got they put nga in there

307

00:13:35,750 --> 00:13:33,120

twice which is interesting

308

00:13:37,190 --> 00:13:35,760

that's a little sloppy isn't it

309

00:13:39,509 --> 00:13:37,200

i just noticed that

310

00:13:41,910 --> 00:13:39,519

got nga here

311

00:13:45,030 --> 00:13:41,920

and nga here

312

00:13:46,470 --> 00:13:45,040

unless they're two different ngas

313

00:13:49,189 --> 00:13:46,480

but

314

00:13:52,150 --> 00:13:49,199

uh so that seems a little sloppy odie

315

00:13:54,870 --> 00:13:52,160

and i um i tried to look and i am

316

00:13:57,910 --> 00:13:54,880

emerging in disruptive technology up

317

00:14:00,069 --> 00:13:57,920

um couldn't find a a whole lot on

318

00:14:03,269 --> 00:14:00,079

what that organization does but you know

319

00:14:04,949 --> 00:14:03,279

i'm assuming it's within the name there

320

00:14:07,110 --> 00:14:04,959

looking at emerging and disruptive

321

00:14:09,110 --> 00:14:07,120

technology so

322

00:14:10,790 --> 00:14:09,120

um national counter intelligence and

323

00:14:12,629 --> 00:14:10,800

security center and national

324

00:14:17,350 --> 00:14:12,639

intelligence council

325

00:14:21,189 --> 00:14:19,030

and

326

00:14:24,389 --> 00:14:21,199

we know what the cia does right you

327

00:14:26,550 --> 00:14:24,399

could say they have no um

328

00:14:30,870 --> 00:14:26,560

you know they can't really do much on

329

00:14:33,189 --> 00:14:30,880

american soil but can the nro

330

00:14:33,580 --> 00:14:33,199

i doubt it so

331

00:14:35,430 --> 00:14:33,590

um

332

00:14:36,790 --> 00:14:35,440

[Music]

333

00:14:39,430 --> 00:14:36,800

and i would think that those two are

334

00:14:42,389 --> 00:14:39,440

both kind of closely linked so why is

335

00:14:44,710 --> 00:14:42,399

the cia not mentioned on here

336

00:14:47,030 --> 00:14:44,720

um i'm not sure

337

00:14:51,110 --> 00:14:47,040

i mean obviously i'm not sure but it is

338

00:14:55,990 --> 00:14:52,949

uh these assumptions these assumptions

339

00:14:57,590 --> 00:14:56,000

here are important and we'll see why as

340

00:14:59,750 --> 00:14:57,600

we go through various forms of sensors

341

00:15:00,949 --> 00:14:59,760

that register uap generally operate

342

00:15:01,910 --> 00:15:00,959

correctly

343

00:15:04,150 --> 00:15:01,920

right

344

00:15:06,389 --> 00:15:04,160

they generally operate correctly and

345

00:15:09,750 --> 00:15:06,399

capture enough real data to allow

346

00:15:12,310 --> 00:15:09,760

initial assessments

347

00:15:13,750 --> 00:15:12,320

but some uap may be attributable to

348

00:15:16,790 --> 00:15:13,760

sensor anomalies

349

00:15:19,990 --> 00:15:16,800

right there in and of itself

350

00:15:21,670 --> 00:15:20,000

is a conflict so they generally operate

351
00:15:24,470 --> 00:15:21,680
correctly and capture enough real data

352
00:15:30,790 --> 00:15:27,829
sometimes it may be uap

353
00:15:31,829 --> 00:15:30,800
maybe attributable sensor anomalies

354
00:15:35,269 --> 00:15:31,839
doesn't

355
00:15:39,269 --> 00:15:37,430
um so i'm just going to keep going

356
00:15:42,470 --> 00:15:39,279
through all this stuff

357
00:15:44,069 --> 00:15:42,480
i see some some new people have shown in

358
00:15:47,910 --> 00:15:44,079
here we got robert

359
00:15:48,870 --> 00:15:47,920
uh paranormal pixies eyes to disguise

360
00:15:51,990 --> 00:15:48,880
um

361
00:15:53,030 --> 00:15:52,000
rachel that ufo lady

362
00:15:57,269 --> 00:15:53,040
no

363
00:15:59,269 --> 00:15:57,279

sorry about that but i see you remember

364

00:16:01,430 --> 00:15:59,279

now and i appreciate that

365

00:16:02,790 --> 00:16:01,440

um after i get through it if you guys

366

00:16:06,310 --> 00:16:02,800

want to throw me some questions feel

367

00:16:09,509 --> 00:16:08,069

and i don't want to spend a whole lot of

368

00:16:12,550 --> 00:16:09,519

time on it just really that the

369

00:16:14,790 --> 00:16:12,560

highlighted aspects i i suppose

370

00:16:16,550 --> 00:16:14,800

um but again i want to go through this

371

00:16:19,110 --> 00:16:16,560

because we're supposed to get one in

372

00:16:21,430 --> 00:16:19,120

october so if we know what they did last

373

00:16:24,069 --> 00:16:21,440

time and kind of see

374

00:16:26,389 --> 00:16:24,079

we can see what to expect as you know

375

00:16:30,470 --> 00:16:26,399

they pretty much put it in writing uh

376

00:16:33,030 --> 00:16:31,670

so here

377

00:16:36,230 --> 00:16:33,040

the limited amount of high quality

378

00:16:38,310 --> 00:16:36,240

reporting on uap hampers our ability to

379

00:16:43,350 --> 00:16:38,320

draw from conclusions about the nature

380

00:16:47,509 --> 00:16:45,189

they considered a range of information

381

00:16:49,350 --> 00:16:47,519

on uap described in u.s military and ic

382

00:16:51,350 --> 00:16:49,360

intelligence community reporting but

383

00:16:53,990 --> 00:16:51,360

because the reporting lacks sufficient

384

00:16:55,670 --> 00:16:54,000

uh specificity ultimately recognized

385

00:16:56,870 --> 00:16:55,680

that a unique tailored reporting process

386

00:16:59,189 --> 00:16:56,880

was required

387

00:17:01,350 --> 00:16:59,199

as a result the task force concentrated

388

00:17:04,470 --> 00:17:01,360

its review on reports that occurred

389

00:17:07,429 --> 00:17:04,480

between 2004 and 2021 the majority of

390

00:17:08,630 --> 00:17:07,439

which are a result of this new tailored

391

00:17:11,029 --> 00:17:08,640

process

392

00:17:11,949 --> 00:17:11,039

okay so

393

00:17:13,510 --> 00:17:11,959

if it's

394

00:17:15,429 --> 00:17:13,520

2004

395

00:17:17,590 --> 00:17:15,439

through 2021

396

00:17:20,150 --> 00:17:17,600

in the majority of which are the result

397

00:17:21,029 --> 00:17:20,160

of a new tailored process

398

00:17:23,110 --> 00:17:21,039

um

399

00:17:25,829 --> 00:17:23,120

i think it goes without saying right

400

00:17:27,510 --> 00:17:25,839

that the majority of these aren't going

401
00:17:29,750 --> 00:17:27,520
to be

402
00:17:33,029 --> 00:17:29,760
from 2004 and i think we've heard that

403
00:17:35,190 --> 00:17:33,039
2019 and on was kind of most of them but

404
00:17:38,150 --> 00:17:35,200
um that's interesting right that's a

405
00:17:39,669 --> 00:17:38,160
huge amount of years here

406
00:17:41,669 --> 00:17:39,679
and then they're saying the majority are

407
00:17:44,310 --> 00:17:41,679
a new taylor process so

408
00:17:47,110 --> 00:17:44,320
how many did you pick from 2004 do we

409
00:17:48,870 --> 00:17:47,120
find out in this report we'll see

410
00:17:51,190 --> 00:17:48,880
and why couldn't you be more specific

411
00:17:53,510 --> 00:17:51,200
with what those were

412
00:17:58,230 --> 00:17:53,520
and why those worked

413
00:18:02,789 --> 00:18:00,710

most of the uap reported probably

414

00:18:04,950 --> 00:18:02,799

do represent physical objects given that

415

00:18:09,110 --> 00:18:04,960

a majority of uap were registered across

416

00:18:11,669 --> 00:18:09,120

multiple sensors to include radar

417

00:18:14,150 --> 00:18:11,679

visual observation okay

418

00:18:17,830 --> 00:18:14,160

so

419

00:18:19,430 --> 00:18:17,840

go over those reports from blue book

420

00:18:24,710 --> 00:18:19,440

constantly where there's visual

421

00:18:29,909 --> 00:18:26,310

and

422

00:18:33,190 --> 00:18:31,190

they're saying

423

00:18:35,190 --> 00:18:33,200

they probably do represent a physical

424

00:18:37,270 --> 00:18:35,200

physical objects

425

00:18:39,270 --> 00:18:37,280

given that a majority of the uap were

426

00:18:44,950 --> 00:18:39,280

registered across all these multiple

427

00:18:44,960 --> 00:18:51,510

and we go back to what we just looked at

428

00:18:54,870 --> 00:18:52,950

which is

429

00:18:57,270 --> 00:18:54,880

various forms of sensors that register

430

00:18:59,029 --> 00:18:57,280

uap generally operate correctly

431

00:19:05,270 --> 00:18:59,039

but some may be attributable to the

432

00:19:10,870 --> 00:19:06,789

and i think there's going to be more on

433

00:19:15,350 --> 00:19:12,390

because they're back and forth with the

434

00:19:16,789 --> 00:19:15,360

sensor stuff they'll say it's

435

00:19:18,070 --> 00:19:16,799

yeah we'll get we'll get to that so

436

00:19:19,750 --> 00:19:18,080

that's in the following pages but

437

00:19:21,510 --> 00:19:19,760

remember those things

438

00:19:23,750 --> 00:19:21,520

um and then here we have there are

439

00:19:26,390 --> 00:19:23,760

probably multiple types of uap requiring

440

00:19:28,310 --> 00:19:26,400

different explanations

441

00:19:29,750 --> 00:19:28,320

so i put yeah conflicts with assumptions

442

00:19:32,630 --> 00:19:29,760

okay

443

00:19:34,950 --> 00:19:32,640

sorry five potential categories clutter

444

00:19:37,190 --> 00:19:34,960

atmospheric phenomenon us government or

445

00:19:39,029 --> 00:19:37,200

u.s industrial developmental programs

446

00:19:41,190 --> 00:19:39,039

foreign adversary systems and a

447

00:19:45,909 --> 00:19:41,200

catch-all other bin

448

00:19:51,110 --> 00:19:47,830

we'll get to that i guess i'm gonna i'm

449

00:19:56,390 --> 00:19:54,390

uap clearly poses safety flight risk yep

450

00:19:58,310 --> 00:19:56,400

consistent consolidation of reports from

451
00:20:01,110 --> 00:19:58,320
across the federal government

452
00:20:05,190 --> 00:20:01,120
yep we know that you actually said that

453
00:20:12,310 --> 00:20:08,230
and a majority of your reports

454
00:20:12,320 --> 00:20:17,909
available reporting largely inconclusive

455
00:20:22,070 --> 00:20:20,310
all right so no standardized reporting

456
00:20:24,470 --> 00:20:22,080
mechanism existed until the navy

457
00:20:27,270 --> 00:20:24,480
established one in 2019. all right so

458
00:20:29,510 --> 00:20:27,280
what we're all so why are they from 2004

459
00:20:31,029 --> 00:20:29,520
to 2020

460
00:20:33,110 --> 00:20:31,039
right so what

461
00:20:35,190 --> 00:20:33,120
came from before 2019 and why were those

462
00:20:40,070 --> 00:20:35,200
good enough air force subsequently

463
00:20:40,080 --> 00:20:45,909

so the air force just adopted it in 2020

464

00:20:52,390 --> 00:20:49,270

but the navy established it in 2019 and

465

00:20:54,630 --> 00:20:52,400

as we find out all these reports are

466

00:20:56,549 --> 00:20:54,640

from the navy

467

00:20:57,669 --> 00:20:56,559

but it remains limited to u.s government

468

00:20:59,590 --> 00:20:57,679

reporting

469

00:21:01,430 --> 00:20:59,600

what do you even mean

470

00:21:05,190 --> 00:21:01,440

it's from the navy

471

00:21:10,149 --> 00:21:07,029

keep that in mind chris mellon

472

00:21:12,789 --> 00:21:10,159

uh was just recently saying that

473

00:21:17,110 --> 00:21:12,799

how these are all

474

00:21:23,029 --> 00:21:20,789

and they say that later in this report

475

00:21:24,470 --> 00:21:23,039

after considering the information the

476
00:21:27,190 --> 00:21:24,480
task force focused on reports that

477
00:21:28,830 --> 00:21:27,200
involved uap largely witnessed firsthand

478
00:21:31,110 --> 00:21:28,840
by military

479
00:21:35,750 --> 00:21:31,120
aviators here again

480
00:21:37,669 --> 00:21:35,760
why don't they just put navy aviators

481
00:21:40,789 --> 00:21:37,679
and that were collected from systems we

482
00:21:42,710 --> 00:21:40,799
considered to be reliable okay so

483
00:21:47,430 --> 00:21:42,720
they're saying their sensors again are

484
00:21:51,190 --> 00:21:48,870
where they're saying their senses are

485
00:21:52,710 --> 00:21:51,200
reliable

486
00:21:56,390 --> 00:21:52,720
and yet

487
00:22:01,110 --> 00:21:59,190
you know explain any uap but one it's a

488
00:22:04,070 --> 00:22:01,120

deflating balloon which i don't think

489

00:22:05,990 --> 00:22:04,080

you probably need sensors for even

490

00:22:08,470 --> 00:22:06,000

we were able to identify one reported

491

00:22:11,590 --> 00:22:08,480

uap with high confidence in the deflated

492

00:22:14,149 --> 00:22:11,600

balloon high confidence

493

00:22:17,990 --> 00:22:14,159

that balloon deflated

494

00:22:19,510 --> 00:22:18,000

okay so 144 reports originated from usg

495

00:22:21,830 --> 00:22:19,520

sources

496

00:22:23,830 --> 00:22:21,840

okay so again

497

00:22:26,470 --> 00:22:23,840

why don't they just put navy

498

00:22:29,110 --> 00:22:26,480

of these 80 reports involved observation

499

00:22:31,830 --> 00:22:29,120

with multiple sensors which you say are

500

00:22:35,270 --> 00:22:33,110

and reliable

501
00:22:37,350 --> 00:22:35,280
most reports described uap as objects

502
00:22:40,470 --> 00:22:37,360
that interrupted pre-planned training or

503
00:22:42,789 --> 00:22:40,480
other military so here is where

504
00:22:45,110 --> 00:22:42,799
i put this most seems all

505
00:22:49,430 --> 00:22:45,120
well seems to be all

506
00:22:54,549 --> 00:22:51,909
right limited data leaves most uap

507
00:22:56,950 --> 00:22:54,559
unexplained they're all unexplained but

508
00:22:59,669 --> 00:22:58,149
so

509
00:23:02,230 --> 00:22:59,679
which kind of makes me think too why

510
00:23:06,549 --> 00:23:02,240
even put the one in there

511
00:23:06,559 --> 00:23:10,149
i don't know

512
00:23:14,950 --> 00:23:12,470
so if that's how they use the word most

513
00:23:17,190 --> 00:23:14,960

you would think that pretty much all

514

00:23:18,950 --> 00:23:17,200

of the uap are objects that interrupted

515

00:23:20,390 --> 00:23:18,960

pre-planned training or other military

516

00:23:22,310 --> 00:23:20,400

activity

517

00:23:25,750 --> 00:23:22,320

that's an assumption though the most

518

00:23:31,750 --> 00:23:29,270

um and then this goes into stigmas

519

00:23:33,510 --> 00:23:31,760

such as how to appropriately filter out

520

00:23:35,029 --> 00:23:33,520

radar clutter ensure safety flight for

521

00:23:38,310 --> 00:23:35,039

military and civilian aircraft are

522

00:23:39,110 --> 00:23:38,320

long-standing in the aviation community

523

00:23:39,990 --> 00:23:39,120

um

524

00:23:42,310 --> 00:23:40,000

we

525

00:23:44,710 --> 00:23:42,320

i've learned definitely that there's so

526

00:23:48,950 --> 00:23:44,720

many things at least in the past that

527

00:23:53,510 --> 00:23:48,960

radar has been confused by

528

00:23:55,830 --> 00:23:53,520

um they've been something called angels

529

00:23:57,510 --> 00:23:55,840

yes they're called angels which are like

530

00:24:00,230 --> 00:23:57,520

birds and bugs

531

00:24:02,549 --> 00:24:00,240

there's uh chaff which are basically

532

00:24:04,950 --> 00:24:02,559

like metal flakes dropped

533

00:24:07,590 --> 00:24:04,960

around a plane to confuse the radar

534

00:24:09,110 --> 00:24:07,600

um astronomical things can actually sit

535

00:24:09,370 --> 00:24:09,120

off the radar

536

00:24:10,870 --> 00:24:09,380

um

537

00:24:13,510 --> 00:24:10,880

[Music]

538

00:24:18,470 --> 00:24:13,520

some geometric uh geomagnetic like

539

00:24:20,390 --> 00:24:18,480
anomalies can set off radar um

540

00:24:23,029 --> 00:24:20,400
other planes

541

00:24:26,149 --> 00:24:23,039
sometimes um i read one report where the

542

00:24:29,510 --> 00:24:26,159
pilot was pretty sure his flight partner

543

00:24:31,590 --> 00:24:29,520
was setting off his radar because it was

544

00:24:34,390 --> 00:24:31,600
the ping was exactly where the person

545

00:24:39,350 --> 00:24:36,870
uh lightning

546

00:24:41,590 --> 00:24:39,360
yep beams across and interfere with each

547

00:24:43,510 --> 00:24:41,600
other all that stuff and this is stuff

548

00:24:44,789 --> 00:24:43,520
that we've figured out

549

00:24:49,430 --> 00:24:44,799
from

550

00:24:50,950 --> 00:24:49,440
and 50s

551
00:24:53,990 --> 00:24:50,960
so the only thing i would have to say

552
00:24:56,950 --> 00:24:54,000
here about this is that

553
00:25:00,070 --> 00:24:58,470
i mean i guess i have to believe but i

554
00:25:02,070 --> 00:25:00,080
can't believe that they haven't figured

555
00:25:04,870 --> 00:25:02,080
all that stuff out by now

556
00:25:08,470 --> 00:25:07,110
because they're constantly working on or

557
00:25:10,870 --> 00:25:08,480
they were at least

558
00:25:11,750 --> 00:25:10,880
i'm sure they still still are trying to

559
00:25:16,710 --> 00:25:11,760
better

560
00:25:20,310 --> 00:25:18,549
so sensor vantage points and the numbers

561
00:25:21,669 --> 00:25:20,320
of sensors concurrently observing an

562
00:25:24,149 --> 00:25:21,679
object play substantial roles in

563
00:25:26,470 --> 00:25:24,159

distinguishing uap from known objects

564

00:25:27,990 --> 00:25:26,480

and determining whether uap demonstrates

565

00:25:29,590 --> 00:25:28,000

breakthrough aerospace capabilities

566

00:25:31,190 --> 00:25:29,600

optical sensors have the benefit of

567

00:25:32,630 --> 00:25:31,200

providing some insight into relative

568

00:25:34,950 --> 00:25:32,640

size shape and structures radio

569

00:25:39,590 --> 00:25:34,960

frequency sensors provide more accurate

570

00:25:45,190 --> 00:25:43,190

well they do say that

571

00:25:46,549 --> 00:25:45,200

right here

572

00:25:48,230 --> 00:25:46,559

that's why i said the sensors are

573

00:25:50,870 --> 00:25:48,240

important that we talked about earlier

574

00:25:55,510 --> 00:25:50,880

ezra the those sensors are not generally

575

00:25:58,950 --> 00:25:56,390

so

576

00:26:01,190 --> 00:25:58,960

if they're not suited for uap how do you

577

00:26:07,430 --> 00:26:01,200

know they play a substantial role in

578

00:26:11,990 --> 00:26:10,549

i mean am i wrong in thinking that

579

00:26:13,190 --> 00:26:12,000

is it wrong

580

00:26:15,430 --> 00:26:13,200

but

581

00:26:20,390 --> 00:26:15,440

i mean

582

00:26:26,149 --> 00:26:22,470

so if they're not generally suited for

583

00:26:27,830 --> 00:26:26,159

identifying uap and then you say

584

00:26:30,549 --> 00:26:27,840

that they play a substantial role in

585

00:26:36,630 --> 00:26:30,559

distinguishing uap from known objects

586

00:26:36,640 --> 00:26:41,269

somebody tell me if that's just me

587

00:26:41,279 --> 00:26:46,630

that's uh very conflicting

588

00:26:53,830 --> 00:26:50,149

ah thank you robert very good

589

00:26:57,029 --> 00:26:53,840

thank you um all right so

590

00:27:00,310 --> 00:26:57,039

but some potential patterns do emerge

591

00:27:03,510 --> 00:27:00,320

okay so again the sensors that aren't

592

00:27:04,310 --> 00:27:03,520

generally suited to distinguish uap

593

00:27:06,950 --> 00:27:04,320

um

594

00:27:09,029 --> 00:27:06,960

notice some patterns

595

00:27:11,750 --> 00:27:09,039

uh some clustering of uap observations

596

00:27:12,950 --> 00:27:11,760

regarding shape size and particular

597

00:27:16,950 --> 00:27:12,960

propulsion

598

00:27:16,960 --> 00:27:20,630

you see that

599

00:27:25,430 --> 00:27:21,830

but what you don't see in this

600

00:27:27,350 --> 00:27:25,440

preliminary assessment is anything

601
00:27:28,549 --> 00:27:27,360
about these

602
00:27:31,190 --> 00:27:28,559
patterns

603
00:27:33,190 --> 00:27:31,200
as far as

604
00:27:36,710 --> 00:27:33,200
shape

605
00:27:40,630 --> 00:27:38,310
you know they go into

606
00:27:42,549 --> 00:27:40,640
some saying that um they don't show a

607
00:27:43,750 --> 00:27:42,559
sign of repulsion

608
00:27:45,350 --> 00:27:43,760
that's one

609
00:27:48,470 --> 00:27:45,360
of the patterns but we don't get

610
00:27:50,470 --> 00:27:48,480
anything on shape or the size

611
00:27:54,710 --> 00:27:50,480
or the clustering

612
00:28:02,070 --> 00:27:58,710
this reminds me of the triangle pyramid

613
00:28:03,830 --> 00:28:02,080

uap sighting

614

00:28:06,230 --> 00:28:03,840
of the video that mr jeremy corbell

615

00:28:08,230 --> 00:28:06,240
released clustering of uap observations

616

00:28:11,909 --> 00:28:08,240
regarding shape

617

00:28:14,630 --> 00:28:11,919
and size well that would be one

618

00:28:17,190 --> 00:28:14,640
on the 2019 social

619

00:28:19,990 --> 00:28:17,200
you know incident debatey wrote this big

620

00:28:23,190 --> 00:28:20,000
thing on it swarms of them

621

00:28:25,029 --> 00:28:23,200
that would be a cluster of uap

622

00:28:28,310 --> 00:28:25,039
although in the deck logs

623

00:28:30,870 --> 00:28:28,320
they wrote uav and that's being used big

624

00:28:33,430 --> 00:28:30,880
time by people to debunk

625

00:28:36,389 --> 00:28:33,440
um the possibility of those being ufos

626

00:28:39,669 --> 00:28:36,399

or uaps which you know i don't have

627

00:28:42,870 --> 00:28:41,190

i don't have anything in the game for

628

00:28:44,950 --> 00:28:42,880

that you know i don't

629

00:28:48,230 --> 00:28:44,960

i'm not going to say it's uap or uav

630

00:28:50,549 --> 00:28:48,240

like it is whatever it is whatever i

631

00:28:52,149 --> 00:28:50,559

want to say you know i don't have any

632

00:28:55,350 --> 00:28:52,159

information enough

633

00:28:59,990 --> 00:28:55,360

to say um with clarity

634

00:29:00,000 --> 00:29:05,269

you know but here

635

00:29:07,669 --> 00:29:06,870

and i'm not saying they're describing

636

00:29:19,590 --> 00:29:07,679

that

637

00:29:21,590 --> 00:29:19,600

may result from a collection bias as a

638

00:29:23,669 --> 00:29:21,600

result of focused attention greater

639

00:29:27,110 --> 00:29:23,679

numbers of latest generation sensors

640

00:29:31,110 --> 00:29:27,120

that aren't designed for uap

641

00:29:35,110 --> 00:29:32,710

and a handful of uap appear to

642

00:29:40,789 --> 00:29:35,120

demonstrate advanced technology

643

00:29:44,630 --> 00:29:42,389

uap movement patterns or flight

644

00:29:47,029 --> 00:29:44,640

characteristics

645

00:29:48,870 --> 00:29:47,039

move at considerable speed stationary

646

00:29:50,549 --> 00:29:48,880

and winds aloft move against the wind

647

00:29:52,389 --> 00:29:50,559

maneuver abruptly

648

00:29:54,230 --> 00:29:52,399

without discernible means of propulsion

649

00:29:56,470 --> 00:29:54,240

in a small number of cases military

650

00:29:58,789 --> 00:29:56,480

aircraft systems process radio frequency

651
00:30:00,070 --> 00:29:58,799
energy associated with uap sightings

652
00:30:02,310 --> 00:30:00,080
this

653
00:30:03,590 --> 00:30:02,320
so far

654
00:30:06,830 --> 00:30:03,600
fits

655
00:30:11,350 --> 00:30:06,840
with what we know of as ufo sightings

656
00:30:15,190 --> 00:30:13,269
you know when we read these on the show

657
00:30:19,029 --> 00:30:15,200
even though i mean

658
00:30:21,269 --> 00:30:19,039
obviously they're mostly old reports

659
00:30:24,149 --> 00:30:21,279
even old videos and and lots of

660
00:30:26,149 --> 00:30:24,159
descriptions moving against the wind

661
00:30:28,950 --> 00:30:26,159
maneuvering abruptly

662
00:30:32,070 --> 00:30:28,960
considerable speed

663
00:30:36,870 --> 00:30:32,080

discernible means of propulsion

664

00:30:40,149 --> 00:30:38,230

um

665

00:30:42,230 --> 00:30:40,159

further analysis to determine if

666

00:30:43,510 --> 00:30:42,240

breakthrough technologies were

667

00:30:48,830 --> 00:30:43,520

demonstrated

668

00:30:53,909 --> 00:30:50,470

is

669

00:30:56,950 --> 00:30:55,750

you know right up here the uap appeared

670

00:30:58,950 --> 00:30:56,960

to remain stationary all that

671

00:31:01,110 --> 00:30:58,960

considerable speeds ceremonies of

672

00:31:02,870 --> 00:31:01,120

propulsion wouldn't that be breakthrough

673

00:31:05,509 --> 00:31:02,880

technology

674

00:31:07,990 --> 00:31:05,519

would further analysis do you have to do

675

00:31:11,350 --> 00:31:08,000

to determine if like how could that not

676
00:31:14,870 --> 00:31:11,360
be breakthrough technology

677
00:31:18,389 --> 00:31:16,470
robert brings up a good point does that

678
00:31:20,070 --> 00:31:18,399
mean that other sensors

679
00:31:30,549 --> 00:31:20,080
were designed to look for uap

680
00:31:35,750 --> 00:31:32,710
that's true that would be a great uh

681
00:31:38,470 --> 00:31:35,760
like court of law question

682
00:31:39,430 --> 00:31:38,480
oh you must mean that some were designed

683
00:31:42,389 --> 00:31:39,440
for that

684
00:31:46,389 --> 00:31:42,399
so here we go uh uap probably a lack of

685
00:31:50,710 --> 00:31:48,870
again like with all this stuff i just

686
00:31:53,909 --> 00:31:50,720
don't really understand it since they

687
00:31:58,630 --> 00:31:55,750
any of them

688
00:32:01,830 --> 00:32:00,230

so how do you know they lack a single

689

00:32:03,430 --> 00:32:01,840

explanation if you don't know what any

690

00:32:05,990 --> 00:32:03,440

of them are

691

00:32:08,389 --> 00:32:06,000

some uap may be technologies deployed by

692

00:32:12,950 --> 00:32:08,399

china russia another nation

693

00:32:16,070 --> 00:32:14,870

so they definitely put that in here

694

00:32:18,149 --> 00:32:16,080

right

695

00:32:22,230 --> 00:32:18,159

and later they do say

696

00:32:22,240 --> 00:32:26,950

to tie it to anybody

697

00:32:31,110 --> 00:32:28,389

but they definitely put

698

00:32:39,509 --> 00:32:31,120

the option in here for

699

00:32:44,389 --> 00:32:42,310

but here it it's here uap incidents are

700

00:32:47,029 --> 00:32:44,399

resolved they will fall into one of the

701

00:32:49,509 --> 00:32:47,039

five potential airborne clutter

702

00:32:51,590 --> 00:32:49,519

then it says

703

00:32:54,149 --> 00:32:51,600

uh foreign adversary systems and a catch

704

00:32:55,990 --> 00:32:54,159

all other bin with the exception of the

705

00:32:57,669 --> 00:32:56,000

one instance where we determined with

706

00:32:59,190 --> 00:32:57,679

high confidence that the

707

00:33:05,029 --> 00:32:59,200

uap

708

00:33:07,430 --> 00:33:05,039

specifically a deflating balloon so then

709

00:33:08,710 --> 00:33:07,440

if they're using one of these 144

710

00:33:11,750 --> 00:33:08,720

reports

711

00:33:13,830 --> 00:33:11,760

and describing all these

712

00:33:15,669 --> 00:33:13,840

and saying that they accept this one we

713

00:33:19,590 --> 00:33:15,679

put the other bin

714

00:33:25,509 --> 00:33:23,269

they would be saying would could fit

715

00:33:27,509 --> 00:33:25,519

any of these other categories some of

716

00:33:34,149 --> 00:33:27,519

which are foreign adversary systems and

717

00:33:37,590 --> 00:33:35,909

although most of the uap described in

718

00:33:39,590 --> 00:33:37,600

our dataset probably remain unidentified

719

00:33:42,149 --> 00:33:39,600

due to limited data or challenges to

720

00:33:44,630 --> 00:33:42,159

collection processing or analysis we

721

00:33:46,230 --> 00:33:44,640

may require scientific knowledge to

722

00:33:47,990 --> 00:33:46,240

successfully collect on analyze and

723

00:33:49,830 --> 00:33:48,000

characterize some of them

724

00:33:51,110 --> 00:33:49,840

we would group such objects in this

725

00:33:53,350 --> 00:33:51,120

category

726

00:33:55,990 --> 00:33:53,360

so

727

00:33:57,350 --> 00:33:56,000

there are other ben they're saying

728

00:33:59,669 --> 00:33:57,360

um

729

00:34:02,710 --> 00:33:59,679

they would put

730

00:34:04,070 --> 00:34:02,720

you know uaps or ufos that they're not

731

00:34:09,909 --> 00:34:04,080

going to be able to figure out because

732

00:34:09,919 --> 00:34:16,310

more or less

733

00:34:21,030 --> 00:34:19,109

11 reports of documented in documented

734

00:34:25,270 --> 00:34:21,040

instances in which pilots reported near

735

00:34:25,280 --> 00:34:30,230

because one of those could be

736

00:34:30,240 --> 00:34:33,750

a crash

737

00:34:38,790 --> 00:34:36,710

currently lack data to indicate uap

738

00:34:40,790 --> 00:34:38,800

then they throw this in here like data

739

00:34:42,550 --> 00:34:40,800

to indicate uap are a part of a foreign

740

00:34:44,950 --> 00:34:42,560

collection program or indicative of a

741

00:34:48,550 --> 00:34:44,960

major technical advancement by

742

00:34:54,389 --> 00:34:51,190

so though

743

00:34:59,030 --> 00:34:56,950

it's just a lot of conflictions in here

744

00:35:00,230 --> 00:34:59,040

we continue to monitor for evidence of

745

00:35:01,990 --> 00:35:00,240

such programs given the

746

00:35:07,750 --> 00:35:02,000

counterintelligence challenge they would

747

00:35:12,150 --> 00:35:09,829

but again like all of this is really

748

00:35:16,630 --> 00:35:12,160

hard to digest when

749

00:35:16,640 --> 00:35:20,390

none of this makes sense

750

00:35:24,230 --> 00:35:22,710

if they're all unexplained

751
00:35:25,670 --> 00:35:24,240
so

752
00:35:27,109 --> 00:35:25,680
i don't know maybe they're just trying

753
00:35:29,030 --> 00:35:27,119
their best i guess it's what they're

754
00:35:31,270 --> 00:35:29,040
working with they didn't have much time

755
00:35:34,790 --> 00:35:31,280
i know that

756
00:35:34,800 --> 00:35:39,750
incidents

757
00:35:43,349 --> 00:35:40,950
okay

758
00:35:45,910 --> 00:35:43,359
a long-term goal so this is what we can

759
00:35:47,910 --> 00:35:45,920
try to expect from october widen the

760
00:35:50,390 --> 00:35:47,920
scope of its work to include additional

761
00:35:53,430 --> 00:35:50,400
uap events documented documented by

762
00:35:58,310 --> 00:35:53,440
broader swath of government personnel

763
00:36:02,630 --> 00:36:00,710

the initial focus

764

00:36:04,310 --> 00:36:02,640

will be to employ artificial

765

00:36:06,230 --> 00:36:04,320

intelligence and machine learning

766

00:36:07,990 --> 00:36:06,240

algorithms to cluster and recognize

767

00:36:09,430 --> 00:36:08,000

similarities and patterns and features

768

00:36:13,109 --> 00:36:09,440

of the data points

769

00:36:14,630 --> 00:36:13,119

i highlighted that because well a

770

00:36:16,069 --> 00:36:14,640

you know um

771

00:36:18,630 --> 00:36:16,079

you would think that this is going on

772

00:36:21,670 --> 00:36:18,640

right now right so they'll have some of

773

00:36:24,230 --> 00:36:21,680

this information for october

774

00:36:28,390 --> 00:36:24,240

and b this is like what avi lobe is

775

00:36:33,910 --> 00:36:30,150

he's using artificial intelligence and

776

00:36:37,030 --> 00:36:35,270

but not so much to recognize

777

00:36:39,190 --> 00:36:37,040

similarities and patterns and features

778

00:36:42,550 --> 00:36:39,200

of the data points but to find uaps

779

00:36:45,990 --> 00:36:44,150

oh here we go as the database

780

00:36:51,190 --> 00:36:46,000

accumulates information from known

781

00:36:55,510 --> 00:36:52,069

so

782

00:36:58,470 --> 00:36:55,520

differentiating between the two

783

00:37:02,310 --> 00:36:58,480

like avi says if he catches a high def

784

00:37:08,310 --> 00:37:02,320

picture of a bird he's got no problem

785

00:37:12,870 --> 00:37:10,790

then here we go at the end of the report

786

00:37:13,829 --> 00:37:12,880

majority uap data is from u.s navy

787

00:37:15,990 --> 00:37:13,839

reporting

788

00:37:18,069 --> 00:37:16,000

but efforts are underway to standardize

789

00:37:23,510 --> 00:37:18,079

incident reporting across u.s military

790

00:37:23,520 --> 00:37:26,069

okay

791

00:37:30,630 --> 00:37:28,630

at least they admitted that

792

00:37:35,030 --> 00:37:30,640

that it's uh

793

00:37:39,109 --> 00:37:37,670

so i think some of this pressure that's

794

00:37:41,190 --> 00:37:39,119

being put on the air force by chris

795

00:37:43,990 --> 00:37:41,200

millen and and whatever

796

00:37:47,430 --> 00:37:45,190

you know

797

00:37:49,829 --> 00:37:47,440

for what they're working on now so maybe

798

00:37:52,310 --> 00:37:49,839

uh something in october can actually be

799

00:37:55,430 --> 00:37:52,320

more robust

800

00:37:57,510 --> 00:37:55,440

since they'll have all this stuff

801
00:37:59,510 --> 00:37:57,520
they're currently working to acquire

802
00:38:02,470 --> 00:37:59,520
additional reporting from the air force

803
00:38:05,750 --> 00:38:02,480
in the faa which is

804
00:38:10,150 --> 00:38:05,760
uh great

805
00:38:15,589 --> 00:38:12,390
for many reasons

806
00:38:18,630 --> 00:38:15,599
but they are all too used to

807
00:38:20,310 --> 00:38:18,640
many commercial drones and retail drones

808
00:38:21,990 --> 00:38:20,320
in those problems

809
00:38:23,829 --> 00:38:22,000
that they're dealing with

810
00:38:28,710 --> 00:38:23,839
so maybe they have a little bit more of

811
00:38:34,150 --> 00:38:30,790
air force data collection historically

812
00:38:40,150 --> 00:38:38,310
um six month pilot program november 2020

813
00:38:49,270 --> 00:38:40,160

but

814

00:38:50,710 --> 00:38:49,280

them on notice

815

00:38:54,550 --> 00:38:50,720

that they should be prepared for the

816

00:38:59,510 --> 00:38:57,030

the faa is able to isolate data of

817

00:39:01,670 --> 00:38:59,520

interest to the uap tf and make it

818

00:39:04,069 --> 00:39:01,680

available they also have a robust and

819

00:39:05,510 --> 00:39:04,079

effective outreach program

820

00:39:07,270 --> 00:39:05,520

that can help reach members of the

821

00:39:09,109 --> 00:39:07,280

aviation community

822

00:39:12,470 --> 00:39:09,119

to highlight the importance of reporting

823

00:39:16,390 --> 00:39:14,550

hopefully they play ball because

824

00:39:19,750 --> 00:39:16,400

obviously none of these reports are from

825

00:39:23,829 --> 00:39:21,349

they plan to update its current

826

00:39:26,470 --> 00:39:23,839

interagency uap collection

827

00:39:31,190 --> 00:39:28,630

so they plan to update it although

828

00:39:34,470 --> 00:39:31,200

something was put in place in 2019 which

829

00:39:36,550 --> 00:39:34,480

the air force adopted in 2020

830

00:39:37,670 --> 00:39:36,560

so they're updating it past

831

00:39:40,630 --> 00:39:37,680

that

832

00:39:43,750 --> 00:39:42,069

and then we have research and

833

00:39:51,030 --> 00:39:43,760

development

834

00:39:51,040 --> 00:39:55,349

from sign to blue book

835

00:39:58,069 --> 00:39:57,030

research and development has always been

836

00:40:00,069 --> 00:39:58,079

a thing

837

00:40:01,829 --> 00:40:00,079

80-17

838

00:40:04,390 --> 00:40:01,839

was the last research and development

839

00:40:07,270 --> 00:40:05,510

um

840

00:40:09,270 --> 00:40:07,280

the one that even at the university of

841

00:40:13,430 --> 00:40:09,280

colorado worked under to put together

842

00:40:18,630 --> 00:40:15,030

i don't know if that's the same one i

843

00:40:22,069 --> 00:40:20,069

you know

844

00:40:24,390 --> 00:40:22,079

research and development was a pretty

845

00:40:25,670 --> 00:40:24,400

big deal what are you researching and

846

00:40:28,069 --> 00:40:25,680

developing

847

00:40:31,109 --> 00:40:28,079

if you don't know what anything is

848

00:40:35,380 --> 00:40:32,790

then a rundown of these little things

849

00:40:39,109 --> 00:40:37,349

[Music]

850

00:40:41,270 --> 00:40:39,119

range follower here's where we can tell

851
00:40:42,309 --> 00:40:41,280
this is the one thing that they

852
00:40:45,030 --> 00:40:42,319
um

853
00:40:48,309 --> 00:40:45,040
aren't specific about here

854
00:40:51,589 --> 00:40:48,319
is operating area restricted air space

855
00:40:54,630 --> 00:40:51,599
it's also a boat

856
00:40:56,950 --> 00:40:54,640
um i found a case online

857
00:40:57,910 --> 00:40:56,960
where a fishing boat

858
00:41:00,309 --> 00:40:57,920
was

859
00:41:01,270 --> 00:41:00,319
confused by the navy as a ranged fowler

860
00:41:03,030 --> 00:41:01,280
and they

861
00:41:05,430 --> 00:41:03,040
are

862
00:41:07,670 --> 00:41:05,440
was confused as a target

863
00:41:09,910 --> 00:41:07,680

and they like a target practice target

864

00:41:11,750 --> 00:41:09,920

and they were shooting at it

865

00:41:15,349 --> 00:41:11,760

but it was a range

866

00:41:18,470 --> 00:41:15,359

range followers of fishing boat

867

00:41:20,390 --> 00:41:18,480

not good that was a big deal

868

00:41:22,870 --> 00:41:20,400

submit intelligence assessment of the

869

00:41:24,470 --> 00:41:22,880

threat posed by uep in the progress

870

00:41:26,550 --> 00:41:24,480

the task force is made to understand

871

00:41:27,829 --> 00:41:26,560

this threat so here we go back to the

872

00:41:33,190 --> 00:41:27,839

threat

873

00:41:35,670 --> 00:41:33,200

by uap

874

00:41:37,270 --> 00:41:35,680

is made to understand this threat they

875

00:41:39,430 --> 00:41:37,280

don't say potential anymore they said

876

00:41:43,109 --> 00:41:39,440

potential one time every other time it's

877

00:41:43,119 --> 00:41:47,030

i found that interesting

878

00:41:53,589 --> 00:41:50,390

detailed analysis of data of the fbi see

879

00:41:54,390 --> 00:41:53,599

this is important because um when those

880

00:41:58,150 --> 00:41:54,400

um

881

00:42:00,550 --> 00:41:58,160

remember it like lax there was

882

00:42:05,030 --> 00:42:00,560

this guy on like a jetpack or whatever

883

00:42:08,150 --> 00:42:05,040

jetpack guy cruising through the planes

884

00:42:11,750 --> 00:42:08,160

at lax um well the fbi was the one

885

00:42:14,630 --> 00:42:11,760

investigating that so if you

886

00:42:16,470 --> 00:42:14,640

think about the faa

887

00:42:18,630 --> 00:42:16,480

which that would have been you know

888

00:42:21,190 --> 00:42:18,640

documented by the faa right and they get

889

00:42:24,790 --> 00:42:21,200

the fbi to investigate it so i would

890

00:42:28,550 --> 00:42:24,800

think all ufo incidents is more or less

891

00:42:29,750 --> 00:42:28,560

um that the faa gets maybe the fbi

892

00:42:32,069 --> 00:42:29,760

has

893

00:42:35,109 --> 00:42:32,079

the biggest hand in investigating those

894

00:42:39,510 --> 00:42:37,030

that's what we can expect from them i

895

00:42:42,230 --> 00:42:39,520

would think

896

00:42:44,069 --> 00:42:42,240

and uap may be attributed to one or more

897

00:42:47,030 --> 00:42:44,079

foreign adversaries identification of

898

00:42:49,510 --> 00:42:47,040

potential aerospace there are threats

899

00:42:54,950 --> 00:42:49,520

and an assessment of whether this

900

00:42:58,710 --> 00:42:56,309

so

901
00:43:03,990 --> 00:42:58,720
what can we expect for

902
00:43:07,349 --> 00:43:05,589
a lot

903
00:43:08,309 --> 00:43:07,359
they have a standardized reporting

904
00:43:09,430 --> 00:43:08,319
system

905
00:43:10,870 --> 00:43:09,440
um

906
00:43:12,950 --> 00:43:10,880
the air force

907
00:43:17,030 --> 00:43:12,960
should be contributing the faa will be

908
00:43:20,470 --> 00:43:18,180
and

909
00:43:23,030 --> 00:43:20,480
[Music]

910
00:43:25,670 --> 00:43:23,040
they have had a year of continued data

911
00:43:30,710 --> 00:43:25,680
collection right

912
00:43:35,670 --> 00:43:33,589
i expect i expect disappointment too but

913
00:43:38,710 --> 00:43:35,680

based on what they said

914

00:43:40,870 --> 00:43:38,720

in this report and what they put forth

915

00:43:43,430 --> 00:43:40,880

as what they're doing

916

00:43:48,470 --> 00:43:43,440

i guess we should be asking a lot versus

917

00:43:52,069 --> 00:43:50,230

they should have if they come back with

918

00:43:55,990 --> 00:43:52,079

the same kind of assessment of

919

00:43:57,910 --> 00:43:56,000

we don't know what these are

920

00:43:59,589 --> 00:43:57,920

we don't know if it's foreign or if it's

921

00:44:01,190 --> 00:43:59,599

ours or if

922

00:44:02,630 --> 00:44:01,200

whatever

923

00:44:06,470 --> 00:44:02,640

you know that's

924

00:44:08,069 --> 00:44:06,480

that's not acceptable at this point and

925

00:44:13,349 --> 00:44:08,079

it's not that i can go do anything about

926
00:44:18,230 --> 00:44:15,270
i hope congress

927
00:44:20,150 --> 00:44:18,240
is actually looking over

928
00:44:21,829 --> 00:44:20,160
this

929
00:44:23,750 --> 00:44:21,839
you know definitely in relation to that

930
00:44:26,550 --> 00:44:23,760
preliminary assessment because that kind

931
00:44:28,950 --> 00:44:26,560
of set what expectations should be like

932
00:44:30,870 --> 00:44:28,960
again if i was a boss of a company and

933
00:44:33,510 --> 00:44:30,880
somebody gave me that report and they

934
00:44:35,670 --> 00:44:33,520
were to put forth another report in the

935
00:44:38,630 --> 00:44:35,680
same time that we're discussing here i

936
00:44:40,150 --> 00:44:38,640
would expect those things to be done

937
00:44:42,150 --> 00:44:40,160
by the time that

938
00:44:43,829 --> 00:44:42,160

october report comes

939

00:44:45,589 --> 00:44:43,839

and to be documented

940

00:44:48,390 --> 00:44:45,599

and showed to me they were already

941

00:44:51,430 --> 00:44:48,400

picking up patterns

942

00:44:59,030 --> 00:44:54,790

that they didn't really tell us about

943

00:45:01,750 --> 00:45:00,150

you know

944

00:45:03,589 --> 00:45:01,760

at the very least i would expect more

945

00:45:11,510 --> 00:45:03,599

information on those patterns which

946

00:45:15,910 --> 00:45:13,430

more or less

947

00:45:19,349 --> 00:45:15,920

so but you know and i know it was super

948

00:45:21,270 --> 00:45:19,359

hard on it but that was the point

949

00:45:23,430 --> 00:45:21,280

the point was to be hard on it see the

950

00:45:26,710 --> 00:45:23,440

conflicts

951
00:45:30,630 --> 00:45:26,720
and not just you know sugarcoat it

952
00:45:34,630 --> 00:45:32,390
and you know i think it's very

953
00:45:37,670 --> 00:45:34,640
conflicting

954
00:45:40,390 --> 00:45:37,680
although i do stress

955
00:45:44,069 --> 00:45:40,400
that it is very good that we got one

956
00:45:48,950 --> 00:45:45,829
and they were unexplained in their

957
00:45:50,630 --> 00:45:48,960
maneuvers in there and all the ufo

958
00:45:55,030 --> 00:45:50,640
you know characteristics that we're used

959
00:45:58,790 --> 00:45:56,790
right

960
00:46:01,430 --> 00:45:58,800
and we got one and things are in motion

961
00:46:03,190 --> 00:46:01,440
and things are put in process

962
00:46:05,109 --> 00:46:03,200
to

963
00:46:08,870 --> 00:46:05,119

get a lot better

964

00:46:15,270 --> 00:46:09,829

so

965

00:46:18,550 --> 00:46:17,270

i would have sent them back to finish it

966

00:46:20,710 --> 00:46:18,560

well yeah it was a preliminary

967

00:46:25,750 --> 00:46:20,720

assessment you know they had to get it

968

00:46:29,270 --> 00:46:27,349

you know hopefully that's what they're

969

00:46:31,670 --> 00:46:29,280

doing now

970

00:46:33,750 --> 00:46:31,680

robert

971

00:46:35,349 --> 00:46:33,760

and i would assume so

972

00:46:37,030 --> 00:46:35,359

i hope so

973

00:46:38,950 --> 00:46:37,040

all right now

974

00:46:41,670 --> 00:46:38,960

it's time to

975

00:46:43,349 --> 00:46:41,680

flip the switch and go to unless anybody

976

00:46:45,349 --> 00:46:43,359

had any questions for me

977

00:46:47,109 --> 00:46:45,359

um i don't know you know what i could

978

00:46:49,030 --> 00:46:47,119

answer from you i'm not smarter than

979

00:46:54,870 --> 00:46:49,040

anybody else i just read from the thing

980

00:46:59,510 --> 00:46:57,030

um

981

00:47:00,710 --> 00:46:59,520

but you know if you have one i can try

982

00:47:08,470 --> 00:47:00,720

my best

983

00:47:12,390 --> 00:47:08,480

lighting thank you very much i

984

00:47:16,950 --> 00:47:13,990

all right so what we're going to do now

985

00:47:19,270 --> 00:47:16,960

is it's going to be triangle

986

00:47:21,430 --> 00:47:19,280

ufo special

987

00:47:25,510 --> 00:47:21,440

i have two

988

00:47:26,309 --> 00:47:25,520

videos in audio of triangle cases

989

00:47:29,829 --> 00:47:26,319

so

990

00:47:31,589 --> 00:47:29,839

let's get into it this is the first one

991

00:47:33,270 --> 00:47:31,599

god dang it i didn't write down where

992

00:47:36,710 --> 00:47:33,280

they were from

993

00:47:38,390 --> 00:47:36,720

so that may be a mystery sorry but

994

00:47:39,670 --> 00:47:38,400

here we go did you want to make a report

995

00:47:41,349 --> 00:47:39,680

yes okay

996

00:47:44,069 --> 00:47:41,359

okay first give us the description what

997

00:47:45,589 --> 00:47:44,079

you saw okay i didn't see it okay this

998

00:47:47,990 --> 00:47:45,599

has been reported to me this is the

999

00:47:50,230 --> 00:47:48,000

edgarmont police department yes okay in

1000

00:47:51,109 --> 00:47:50,240

edgar massachusetts yes

1001

00:47:53,750 --> 00:47:51,119

okay

1002

00:47:58,470 --> 00:47:53,760

briefly what she saw was uh she was

1003

00:48:03,990 --> 00:48:00,950

okay and a loud noise outside her house

1004

00:48:05,190 --> 00:48:04,000

at approximately uh

1005

00:48:07,349 --> 00:48:05,200

8 a.m

1006

00:48:09,670 --> 00:48:07,359

this morning sunday morning

1007

00:48:13,510 --> 00:48:09,680

okay she was embarrassed to report it

1008

00:48:15,670 --> 00:48:13,520

okay okay and um

1009

00:48:17,589 --> 00:48:15,680

she experienced she thought what was a

1010

00:48:20,390 --> 00:48:17,599

dream i don't know she explained the

1011

00:48:21,990 --> 00:48:20,400

phenomenon as uh she woke up with a pain

1012

00:48:23,990 --> 00:48:22,000

in her side

1013

00:48:24,870 --> 00:48:24,000

okay and then she noticed she had been

1014

00:48:26,710 --> 00:48:24,880

uh

1015

00:48:30,230 --> 00:48:26,720

i don't know if she had like a cut or

1016

00:48:31,910 --> 00:48:30,240

something on her chest area okay okay

1017

00:48:35,430 --> 00:48:31,920

and

1018

00:48:37,750 --> 00:48:35,440

her shoes were wet she didn't remember

1019

00:48:39,349 --> 00:48:37,760

leaving the house for the night

1020

00:48:41,910 --> 00:48:39,359

for some reason she walked up into the

1021

00:48:44,630 --> 00:48:41,920

area where she seen the light

1022

00:48:45,910 --> 00:48:44,640

and she's seen a triangular

1023

00:48:47,109 --> 00:48:45,920

i don't know what you'd call it i just

1024

00:48:49,750 --> 00:48:47,119

went up and looked at it with another

1025

00:48:53,430 --> 00:48:49,760

police officer i'd describe it as a

1026
00:48:54,950 --> 00:48:53,440
a area in the grass

1027
00:48:57,589 --> 00:48:54,960
with three

1028
00:49:00,309 --> 00:48:57,599
triangular

1029
00:49:02,470 --> 00:49:00,319
uh spots on the grass

1030
00:49:03,829 --> 00:49:02,480
impressions right it would be an

1031
00:49:06,150 --> 00:49:03,839
impression but it's not a deep

1032
00:49:07,750 --> 00:49:06,160
impressive grass is soft okay

1033
00:49:09,910 --> 00:49:07,760
it would be the grasses down in those

1034
00:49:13,030 --> 00:49:09,920
three spots and the grass is discolored

1035
00:49:13,910 --> 00:49:13,040
to a white color okay okay

1036
00:49:17,430 --> 00:49:13,920
um

1037
00:49:21,829 --> 00:49:17,440
we measured the spots they're all

1038
00:49:26,950 --> 00:49:24,230

the three of them yes and from center to

1039

00:49:28,829 --> 00:49:26,960

center measured it is exactly 10 feet 4

1040

00:49:31,589 --> 00:49:28,839

inches

1041

00:49:32,630 --> 00:49:31,599

okay um i did take some of the grass as

1042

00:49:34,549 --> 00:49:32,640

a sample i probably shouldn't have

1043

00:49:37,990 --> 00:49:34,559

touched it with my hands but i did

1044

00:49:42,630 --> 00:49:39,750

i'll be screaming

1045

00:49:46,390 --> 00:49:44,870

she reports that last night the next

1046

00:49:47,190 --> 00:49:46,400

night i guess it was the night after

1047

00:49:48,870 --> 00:49:47,200

this

1048

00:49:50,150 --> 00:49:48,880

would have been monday night she did see

1049

00:49:51,270 --> 00:49:50,160

in the sky

1050

00:50:01,670 --> 00:49:51,280

a

1051
00:50:03,190 --> 00:50:01,680
report him but

1052
00:50:05,670 --> 00:50:03,200
finally convinced her we took pictures

1053
00:50:10,549 --> 00:50:05,680
of the uh

1054
00:50:12,390 --> 00:50:10,559
discolorations and the grass and uh also

1055
00:50:14,390 --> 00:50:12,400
did the measuring of course now file

1056
00:50:17,910 --> 00:50:14,400
report here

1057
00:50:21,030 --> 00:50:19,510
and your number there okay and it's the

1058
00:50:22,800 --> 00:50:21,040
agreement police department that's

1059
00:50:35,270 --> 00:50:22,810
e-t-r-e-m-o-n-t

1060
00:50:35,280 --> 00:50:40,549
my question is what is nanu nanu

1061
00:50:40,559 --> 00:50:43,829
have you ever heard that

1062
00:50:48,950 --> 00:50:46,470
what what is nanu nanu i have no idea

1063
00:50:53,190 --> 00:50:48,960

what nano nano is

1064

00:50:55,430 --> 00:50:53,200

um hoping you guys knew but maybe not

1065

00:50:59,990 --> 00:50:55,440

all right next one this one i actually

1066

00:51:05,910 --> 00:51:01,829

oh it's a morgan mindy thing you guys

1067

00:51:10,630 --> 00:51:08,549

all right gotcha

1068

00:51:12,390 --> 00:51:10,640

i'm calling from plymouth north carolina

1069

00:51:14,230 --> 00:51:12,400

yes um

1070

00:51:17,270 --> 00:51:14,240

i don't i don't know what i do somebody

1071

00:51:19,430 --> 00:51:17,280

gave me this number but i saw

1072

00:51:21,829 --> 00:51:19,440

something spectacular in the sky last

1073

00:51:23,990 --> 00:51:21,839

night that i have no explanation for in

1074

00:51:25,990 --> 00:51:24,000

fact i'm sure as many as 50 to 100

1075

00:51:27,829 --> 00:51:26,000

people saw it in different areas last

1076
00:51:29,589 --> 00:51:27,839
night okay would you describe what you

1077
00:51:32,950 --> 00:51:29,599
saw okay

1078
00:51:36,390 --> 00:51:32,960
what i saw appeared not to have much of

1079
00:51:39,030 --> 00:51:36,400
a shape on one side it looked round

1080
00:51:40,870 --> 00:51:39,040
all right on the other side

1081
00:51:42,309 --> 00:51:40,880
of i couldn't tell you what shape it was

1082
00:51:43,349 --> 00:51:42,319
i just couldn't see it was such a dark

1083
00:51:44,390 --> 00:51:43,359
knight even though there were a lot of

1084
00:51:47,270 --> 00:51:44,400
stars

1085
00:51:49,670 --> 00:51:47,280
i'm sure it had as many as 20

1086
00:51:53,190 --> 00:51:49,680
pulsating red lights

1087
00:51:54,069 --> 00:51:53,200
one white light at the front of it

1088
00:51:56,950 --> 00:51:54,079

okay

1089

00:51:57,990 --> 00:51:56,960

when i stopped on the highway it also

1090

00:52:00,069 --> 00:51:58,000

stopped

1091

00:52:02,230 --> 00:52:00,079

all right i cut my car off to get out to

1092

00:52:03,030 --> 00:52:02,240

see if i could hear it i could not hear

1093

00:52:07,910 --> 00:52:03,040

it

1094

00:52:10,150 --> 00:52:07,920

else would come by and stop nobody did

1095

00:52:12,870 --> 00:52:10,160

the object stayed right there

1096

00:52:13,750 --> 00:52:12,880

i turned around and went back about a

1097

00:52:15,349 --> 00:52:13,760

mile

1098

00:52:17,750 --> 00:52:15,359

which is on a fairly straight stretch of

1099

00:52:19,589 --> 00:52:17,760

road into my mother-in-law's when i

1100

00:52:22,390 --> 00:52:19,599

pulled into her driveway i could still

1101
00:52:24,069 --> 00:52:22,400
see it i went in and got her to come out

1102
00:52:26,390 --> 00:52:24,079
and look at it she came out but she's an

1103
00:52:28,470 --> 00:52:26,400
elderly lady and she just could not see

1104
00:52:30,150 --> 00:52:28,480
it that far away i could still see the

1105
00:52:32,230 --> 00:52:30,160
pulsating red lights

1106
00:52:34,390 --> 00:52:32,240
okay i got her in the car but by the

1107
00:52:36,470 --> 00:52:34,400
time i got back on the highway the

1108
00:52:38,790 --> 00:52:36,480
object was gone all right we've had

1109
00:52:41,750 --> 00:52:38,800
people that reported seeing it in a

1110
00:52:43,510 --> 00:52:41,760
triangular shape we've had one lady two

1111
00:52:46,470 --> 00:52:43,520
ladies that have told us it appeared to

1112
00:52:49,030 --> 00:52:46,480
change shapes from oval to triangular

1113
00:52:52,549 --> 00:52:49,040

they all described it with pulsating red

1114

00:52:54,549 --> 00:52:52,559

lights and one big white light

1115

00:52:56,309 --> 00:52:54,559

we've had people that said it hovered

1116

00:52:57,589 --> 00:52:56,319

over their houses

1117

00:52:59,510 --> 00:52:57,599

um

1118

00:53:01,430 --> 00:52:59,520

when we've had one man that said it

1119

00:53:03,270 --> 00:53:01,440

appeared to follow him down the highway

1120

00:53:06,069 --> 00:53:03,280

i work at a radio station and we've had

1121

00:53:07,750 --> 00:53:06,079

lots of calls this morning about it

1122

00:53:09,510 --> 00:53:07,760

you don't have any you can't give me any

1123

00:53:12,230 --> 00:53:09,520

explanation we call cherry point which

1124

00:53:13,910 --> 00:53:12,240

is our nearest air force station and

1125

00:53:16,309 --> 00:53:13,920

they could give us no explanation

1126
00:53:18,309 --> 00:53:16,319
whatsoever they said that they had only

1127
00:53:20,069 --> 00:53:18,319
normal maneuvers going on last night in

1128
00:53:22,870 --> 00:53:20,079
our area okay now what time did that

1129
00:53:25,190 --> 00:53:22,880
occur i saw it at five minutes to seven

1130
00:53:27,430 --> 00:53:25,200
okay my husband saw it at quarter to

1131
00:53:29,990 --> 00:53:27,440
seven he was ahead he left the house

1132
00:53:32,710 --> 00:53:30,000
about 10 minutes ahead of me all right

1133
00:53:34,950 --> 00:53:32,720
he went six miles down the road all

1134
00:53:35,590 --> 00:53:34,960
right it circled over where he was and

1135
00:53:37,109 --> 00:53:35,600
came back

1136
00:53:39,990 --> 00:53:37,119
[Applause]

1137
00:53:42,390 --> 00:53:40,000
okay he also saw one of the flashing red

1138
00:53:45,510 --> 00:53:42,400

lights leave it

1139

00:53:48,069 --> 00:53:45,520

and go slam out of sight

1140

00:53:49,750 --> 00:53:48,079

when you stopped and got out of the car

1141

00:53:52,309 --> 00:53:49,760

can you estimate the distance between

1142

00:53:54,470 --> 00:53:52,319

you and the object at that point

1143

00:53:57,030 --> 00:53:54,480

okay

1144

00:54:00,790 --> 00:53:57,040

all right the radio station tower here

1145

00:54:07,349 --> 00:54:03,750

uh about 285 feet

1146

00:54:08,790 --> 00:54:07,359

uh i would say not much higher up than

1147

00:54:10,549 --> 00:54:08,800

that okay

1148

00:54:12,230 --> 00:54:10,559

and maybe it was i'm not a very good

1149

00:54:13,910 --> 00:54:12,240

distance person

1150

00:54:15,670 --> 00:54:13,920

you know especially

1151
00:54:17,270 --> 00:54:15,680
right it was just and i'm not good in

1152
00:54:19,910 --> 00:54:17,280
the daytime either

1153
00:54:21,190 --> 00:54:19,920
it was just i could tell whatever it was

1154
00:54:22,790 --> 00:54:21,200
was huge

1155
00:54:24,390 --> 00:54:22,800
okay if you feel it was within a city

1156
00:54:26,230 --> 00:54:24,400
block

1157
00:54:29,430 --> 00:54:26,240
no it was taller than that higher than

1158
00:54:33,510 --> 00:54:32,630
no it was farther tonight than that okay

1159
00:54:34,870 --> 00:54:33,520
okay

1160
00:54:35,829 --> 00:54:34,880
now uh how long did you watch it all

1161
00:54:37,589 --> 00:54:35,839
together

1162
00:54:39,030 --> 00:54:37,599
oh about three minutes

1163
00:54:42,230 --> 00:54:39,040

but we've had other people that watched

1164

00:54:48,309 --> 00:54:45,829

an abruptly abruptly cuts off there

1165

00:54:49,750 --> 00:54:48,319

unfortunately but that is a pretty

1166

00:54:53,030 --> 00:54:49,760

intense one

1167

00:54:55,589 --> 00:54:53,040

50 200.

1168

00:54:59,030 --> 00:54:55,599

that's a lot of people in north carolina

1169

00:55:00,870 --> 00:54:59,040

uh i would be very interested in hearing

1170

00:55:02,309 --> 00:55:00,880

uh more about that maybe we can look

1171

00:55:04,630 --> 00:55:02,319

into it

1172

00:55:07,349 --> 00:55:04,640

good comment from search psych home of a

1173

00:55:09,270 --> 00:55:07,359

famous abduction or two interesting

1174

00:55:12,549 --> 00:55:09,280

very interesting

1175

00:55:14,789 --> 00:55:12,559

um yeah because that lady

1176

00:55:17,990 --> 00:55:14,799

she was missing time

1177

00:55:20,470 --> 00:55:18,000

um als all sorts of stuff um

1178

00:55:21,910 --> 00:55:20,480

it's a very interesting case

1179

00:55:23,990 --> 00:55:21,920

so i wonder

1180

00:55:25,430 --> 00:55:24,000

maybe i can look into those and sit and

1181

00:55:27,430 --> 00:55:25,440

see if there's

1182

00:55:30,789 --> 00:55:27,440

any relative information to this

1183

00:55:35,670 --> 00:55:32,710

most definitely

1184

00:55:37,990 --> 00:55:35,680

so

1185

00:55:39,670 --> 00:55:38,000

oh come on robert you don't gotta piss

1186

00:55:43,109 --> 00:55:39,680

on everyone's parade with the balloon

1187

00:55:44,309 --> 00:55:43,119

eyewitnesses jesus man

1188

00:55:53,910 --> 00:55:44,319

man

1189

00:55:55,430 --> 00:55:53,920

you don't get

1190

00:55:56,710 --> 00:55:55,440

you're you know

1191

00:55:59,030 --> 00:55:56,720

when we're listening to these we're

1192

00:56:03,510 --> 00:55:59,040

basically the uap assessment

1193

00:56:08,309 --> 00:56:06,150

our sensors weren't designed

1194

00:56:16,390 --> 00:56:08,319

to tell the difference

1195

00:56:16,400 --> 00:56:21,589

what the heck is that the heck is that

1196

00:56:21,599 --> 00:56:29,109

what the heck is the heck is that

1197

00:56:33,910 --> 00:56:30,710

what the heck

1198

00:56:35,829 --> 00:56:33,920

that is probably not i don't think we'll

1199

00:56:38,950 --> 00:56:35,839

ever find out what a lot of these are

1200

00:56:40,630 --> 00:56:38,960

but this one comes from a viewer uh

1201
00:56:42,470 --> 00:56:40,640
edmund star

1202
00:56:44,390 --> 00:56:42,480
um

1203
00:56:45,670 --> 00:56:44,400
pretty cool video he sent it to me via

1204
00:56:47,349 --> 00:56:45,680
twitter

1205
00:56:48,710 --> 00:56:47,359
so uh we're gonna play it i couldn't

1206
00:56:51,109 --> 00:56:48,720
really figure out how to make it full

1207
00:56:52,470 --> 00:56:51,119
screen unfortunately but i'm gonna do my

1208
00:56:54,870 --> 00:56:52,480
best here

1209
00:56:56,549 --> 00:56:54,880
so we can

1210
00:56:58,309 --> 00:56:56,559
check this out let me get my head out of

1211
00:57:01,190 --> 00:56:58,319
the way

1212
00:57:04,630 --> 00:57:01,200
all right

1213
00:57:09,510 --> 00:57:07,510

on parsons field at radford near

1214

00:57:11,670 --> 00:57:09,520

endstone in the county of oxfordshire

1215

00:57:13,750 --> 00:57:11,680

and it was on this field that the atv

1216

00:57:16,710 --> 00:57:13,760

today film unit were filming this

1217

00:57:19,270 --> 00:57:16,720

morning when at just before noon it was

1218

00:57:20,390 --> 00:57:19,280

noticed up in the sky flying from west

1219

00:57:22,549 --> 00:57:20,400

to east

1220

00:57:25,349 --> 00:57:22,559

was what can best be described as a

1221

00:57:28,710 --> 00:57:25,359

gleaming object leaving an intermittent

1222

00:57:31,109 --> 00:57:28,720

vapor trail and the speeds between

1223

00:57:33,510 --> 00:57:31,119

these vapor trails certainly caught our

1224

00:57:35,510 --> 00:57:33,520

attention and immediately everyone said

1225

00:57:37,030 --> 00:57:35,520

ufos well what does the film unit

1226

00:57:40,069 --> 00:57:37,040

themselves say about it now the

1227

00:57:41,910 --> 00:57:40,079

cameraman at the time was noel smart

1228

00:57:43,670 --> 00:57:41,920

what did you see now well first of all

1229

00:57:45,349 --> 00:57:43,680

we saw what appeared to be a very large

1230

00:57:47,670 --> 00:57:45,359

vapour trail much thicker than the

1231

00:57:49,510 --> 00:57:47,680

normal vapor trails and um when this

1232

00:57:51,190 --> 00:57:49,520

vehicle finished it stopped at a

1233

00:57:52,309 --> 00:57:51,200

straight line you know as opposed to

1234

00:57:53,349 --> 00:57:52,319

fading out

1235

00:57:56,230 --> 00:57:53,359

um

1236

00:57:58,789 --> 00:57:56,240

the object which was obviously circular

1237

00:57:59,990 --> 00:57:58,799

and an orange yellow color

1238

00:58:01,589 --> 00:58:00,000

seemed to

1239

00:58:03,829 --> 00:58:01,599

stop very slowly

1240

00:58:05,270 --> 00:58:03,839

and then very quickly after frame went

1241

00:58:06,870 --> 00:58:05,280

so quickly just couldn't follow it

1242

00:58:09,190 --> 00:58:06,880

seemed to be an amazing speed it really

1243

00:58:14,950 --> 00:58:09,200

was

1244

00:58:16,710 --> 00:58:14,960

couldn't possibly be not a jet not for

1245

00:58:18,470 --> 00:58:16,720

the vape patrol as thick as that

1246

00:58:20,870 --> 00:58:18,480

it was going so quickly you could just

1247

00:58:22,549 --> 00:58:20,880

couldn't follow it the um and when it

1248

00:58:24,870 --> 00:58:22,559

stopped it's absolutely dead and seemed

1249

00:58:26,069 --> 00:58:24,880

to hover for what 15 20 seconds probably

1250

00:58:28,150 --> 00:58:26,079

and then off she went again leaving

1251

00:58:29,829 --> 00:58:28,160

these fantastic vape patrols

1252

00:58:31,349 --> 00:58:29,839

chris fiores you are the production

1253

00:58:33,829 --> 00:58:31,359

assistant on the unit what drew your

1254

00:58:35,510 --> 00:58:33,839

attention to the thing in the sky

1255

00:58:37,910 --> 00:58:35,520

well first of all it was the vapor trail

1256

00:58:40,150 --> 00:58:37,920

which seemed to be suddenly appear

1257

00:58:41,910 --> 00:58:40,160

um the line in the sky before the vapor

1258

00:58:43,510 --> 00:58:41,920

trail actually appeared was also visible

1259

00:58:45,190 --> 00:58:43,520

so it looked as though it must have

1260

00:58:47,990 --> 00:58:45,200

passed overhead without us noticing it

1261

00:58:48,829 --> 00:58:48,000

at all but then the vapor trail itself

1262

00:58:51,349 --> 00:58:48,839

was

1263

00:58:53,349 --> 00:58:51,359

um may i say curly as as though the

1264

00:58:55,430 --> 00:58:53,359

object that was leaving it was in fact

1265

00:58:56,950 --> 00:58:55,440

spinning then looking at the object

1266

00:58:59,109 --> 00:58:56,960

itself you could see with the naked eye

1267

00:59:02,309 --> 00:58:59,119

that it was in fact spinning and orange

1268

00:59:04,309 --> 00:59:02,319

and round what do you think it was

1269

00:59:05,910 --> 00:59:04,319

um we've taught all of us the the the

1270

00:59:07,990 --> 00:59:05,920

unit of course we've talked about it we

1271

00:59:09,589 --> 00:59:08,000

all think that um what we would like to

1272

00:59:13,430 --> 00:59:09,599

say really is that we don't know what it

1273

00:59:15,750 --> 00:59:13,440

was so we call it a ufo

1274

00:59:18,390 --> 00:59:15,760

well there are opinions of two of the

1275

00:59:19,829 --> 00:59:18,400

unit all of us saw this and now you are

1276

00:59:22,150 --> 00:59:19,839

going to see it you are going to see

1277

01:00:26,390 --> 00:59:22,160

what we believe to be the first moving

1278

01:00:26,400 --> 01:01:09,430

and now you are going

1279

01:01:13,990 --> 01:01:11,430

hmm i don't know that

1280

01:01:17,750 --> 01:01:14,000

that's a pretty good one i think um the

1281

01:01:23,190 --> 01:01:20,150

it was

1282

01:01:26,390 --> 01:01:23,200

seemingly stationary

1283

01:01:27,829 --> 01:01:26,400

for a while before it took off vapor

1284

01:01:29,589 --> 01:01:27,839

trail i don't like to see the vapor

1285

01:01:32,789 --> 01:01:29,599

trail but you know

1286

01:01:34,549 --> 01:01:32,799

it's not that i haven't read cases on it

1287

01:01:37,030 --> 01:01:34,559

so

1288

01:01:39,030 --> 01:01:37,040

it's strange and like the lady said well

1289

01:01:42,789 --> 01:01:39,040

we call it a ufo because we don't know

1290

01:01:50,230 --> 01:01:46,309

can't beat that that's exactly right

1291

01:01:53,030 --> 01:01:50,240

um oak ridge vapor trail uh 1949

1292

01:01:55,029 --> 01:01:53,040

you

1293

01:01:59,510 --> 01:01:55,039

i think there was one in 49 there was

1294

01:02:01,589 --> 01:01:59,520

also one in 47 i believe two so

1295

01:02:04,390 --> 01:02:01,599

and i'm sure those aren't the only ones

1296

01:02:06,710 --> 01:02:04,400

44 i'm not sure that wouldn't be in

1297

01:02:09,589 --> 01:02:06,720

blue books i don't know

1298

01:02:15,029 --> 01:02:13,589

could very be it um i have

1299

01:02:18,630 --> 01:02:15,039

time for

1300

01:02:18,640 --> 01:02:24,230

and we'll play it this one

1301
01:02:30,870 --> 01:02:27,109
we'll play this one um

1302
01:02:35,430 --> 01:02:32,870
decent but like i said this before too

1303
01:02:37,670 --> 01:02:35,440
like i'm always like um

1304
01:02:39,990 --> 01:02:37,680
desperately looking for

1305
01:02:40,950 --> 01:02:40,000
the videos shortly before we start the

1306
01:02:42,870 --> 01:02:40,960
show

1307
01:02:44,150 --> 01:02:42,880
that's like the last thing i look for so

1308
01:02:49,990 --> 01:02:44,160
any

1309
01:02:53,910 --> 01:02:50,000
videos that you want me to play on the

1310
01:02:55,829 --> 01:02:54,630

looks interesting

1323

01:04:51,230 --> 01:04:32,549

i wouldn't put it on the news

1324

01:04:54,630 --> 01:04:52,549

[Music]

1325

01:05:04,470 --> 01:04:54,640

sure is long

1326

01:05:04,480 --> 01:05:14,710

oh it changes a little bit

1327

01:05:14,720 --> 01:05:23,370

we're gonna speed up this playback speed

1328

01:05:23,380 --> 01:05:31,910

[Music]

1329

01:05:31,920 --> 01:05:38,309

well now the balloons are separating

1330

01:05:41,670 --> 01:05:40,150

yeah skipping forward

1331

01:05:51,190 --> 01:05:41,680

okay now there's more balloons now

1332

01:05:51,200 --> 01:06:00,710

still could be balloons i guess but

1333

01:06:10,630 --> 01:06:03,270

i don't know why they're talking so fast

1334

01:06:23,589 --> 01:06:13,109

that's balloony

1335

01:06:23,599 --> 01:06:28,230

finally someone's asking for the zoom

1336

01:06:28,240 --> 01:06:37,670

but they're all looking at it

1337

01:06:42,710 --> 01:06:39,589

interesting

1338

01:06:45,190 --> 01:06:42,720
