

1
00:00:53,590 --> 00:00:24,610

[Music]

2
00:00:59,830 --> 00:00:56,709

what's up everybody happy thursday we

3
00:01:01,590 --> 00:00:59,840

have a pretty decent show today i think

4
00:01:03,670 --> 00:01:01,600

it's going to be pretty good we got a mr

5
00:01:05,670 --> 00:01:03,680

lou elizondo and

6
00:01:08,469 --> 00:01:05,680

our wednesday now today thursday friend

7
00:01:09,510 --> 00:01:08,479

jay christopher king i'll bring him in

8
00:01:10,870 --> 00:01:09,520

quick

9
00:01:14,310 --> 00:01:10,880

how you doing sir

10
00:01:17,910 --> 00:01:14,320

hey i'm doing very very well i'm uh

11
00:01:19,270 --> 00:01:17,920

really um i'm excited to be here for um

12
00:01:21,350 --> 00:01:19,280

this

13
00:01:23,190 --> 00:01:21,360

wildly

14

00:01:24,630 --> 00:01:23,200
unknowable day in a lot of ways you know

15

00:01:27,270 --> 00:01:24,640
this is this is

16

00:01:29,429 --> 00:01:27,280
this will probably prove to be

17

00:01:32,310 --> 00:01:29,439
um one of the pivotal moments of the

18

00:01:34,230 --> 00:01:32,320
year if not the next few years um it

19

00:01:37,429 --> 00:01:34,240
remains to be seen it's there's a lot of

20

00:01:39,350 --> 00:01:37,439
questions in the air today and um i

21

00:01:43,910 --> 00:01:39,360
can't and we couldn't have known that

22

00:01:45,350 --> 00:01:43,920
we'd have a guest um with with the

23

00:01:46,469 --> 00:01:45,360
with the knowledge

24

00:01:51,749 --> 00:01:46,479
of

25

00:01:53,510 --> 00:01:51,759
we have today in louis lozando so i'm

26

00:01:55,109 --> 00:01:53,520

looking forward to this conversation

27

00:01:58,630 --> 00:01:55,119

yeah uh

28

00:02:01,910 --> 00:01:58,640

i mean i'm with with ukraine uh my wife

29

00:02:03,109 --> 00:02:01,920

like her mom is 100 percent uh ukraine

30

00:02:05,270 --> 00:02:03,119

uh so it's

31

00:02:08,229 --> 00:02:05,280

it's a little um hitting us a little

32

00:02:10,630 --> 00:02:08,239

hard in our house right now so um

33

00:02:12,630 --> 00:02:10,640

hopefully this will you know serve as

34

00:02:15,430 --> 00:02:12,640

somewhat of a vacation

35

00:02:17,030 --> 00:02:15,440

uh from how intense that is but um i

36

00:02:18,630 --> 00:02:17,040

know you can only do so much especially

37

00:02:19,430 --> 00:02:18,640

when something is so serious like that

38

00:02:20,630 --> 00:02:19,440

so

39

00:02:22,710 --> 00:02:20,640

uh but

40

00:02:26,070 --> 00:02:22,720

you know i'm gonna get rid of the somber

41

00:02:26,869 --> 00:02:26,080

note and bring uh our guest in right now

42

00:02:30,229 --> 00:02:26,879

and

43

00:02:32,070 --> 00:02:30,239

you know i do have somewhat of a

44

00:02:33,589 --> 00:02:32,080

bone to pick with him

45

00:02:35,750 --> 00:02:33,599

and

46

00:02:37,910 --> 00:02:35,760

it's been really irritating me for a

47

00:02:41,830 --> 00:02:37,920

long time and i'm glad i can finally pin

48

00:02:46,150 --> 00:02:43,670

what is with the hate on the pineapple

49

00:02:50,710 --> 00:02:48,710

i'm just kidding you know it's it's not

50

00:02:52,869 --> 00:02:50,720

hate it's more just a mystery

51
00:02:55,190 --> 00:02:52,879
you know i i i get that people have

52
00:02:57,110 --> 00:02:55,200
their own personal preferences but you

53
00:02:59,430 --> 00:02:57,120
know to me vegetables and meat go on a

54
00:03:00,149 --> 00:02:59,440
pizza fruit is something you have you

55
00:03:01,110 --> 00:03:00,159
know

56
00:03:02,470 --> 00:03:01,120
after

57
00:03:03,589 --> 00:03:02,480
dinner

58
00:03:05,430 --> 00:03:03,599
and it's just you know one of those

59
00:03:06,869 --> 00:03:05,440
things that gets hard for me to get used

60
00:03:08,790 --> 00:03:06,879
to i have some very good friends of mine

61
00:03:10,790 --> 00:03:08,800
that are that are pineapple pizza people

62
00:03:12,070 --> 00:03:10,800
and they're wonderful people right um i

63
00:03:14,229 --> 00:03:12,080

think they're probably a little bit

64

00:03:14,760 --> 00:03:14,239

off-kilter but you know hold it against

65

00:03:18,949 --> 00:03:14,770

them i think

66

00:03:20,550 --> 00:03:18,959

[Laughter]

67

00:03:23,910 --> 00:03:20,560

it's just one of those things you know

68

00:03:26,550 --> 00:03:23,920

um i just i you know for me pineapples

69

00:03:27,910 --> 00:03:26,560

go in in fruit cocktails and and and

70

00:03:30,309 --> 00:03:27,920

whatnot

71

00:03:32,789 --> 00:03:30,319

fruit i bet but those you have a lot of

72

00:03:35,750 --> 00:03:32,799

i'm sure fruit cocktails

73

00:03:37,509 --> 00:03:35,760

yeah okay both figuratively and uh

74

00:03:38,470 --> 00:03:37,519

literally

75

00:03:40,630 --> 00:03:38,480

um

76

00:03:43,190 --> 00:03:40,640

i think you know jay sent me a couple

77

00:03:45,430 --> 00:03:43,200

questions um he's usually more prepared

78

00:03:47,990 --> 00:03:45,440

than my i am with the questions and

79

00:03:49,589 --> 00:03:48,000

everything and he had a really great uh

80

00:03:52,149 --> 00:03:49,599

question his first one

81

00:03:53,990 --> 00:03:52,159

um so jay i'll i'll give you the floor

82

00:03:55,030 --> 00:03:54,000

if you want to start with that one

83

00:03:55,910 --> 00:03:55,040

oh sure

84

00:03:58,630 --> 00:03:55,920

okay

85

00:04:00,309 --> 00:03:58,640

and and it's great to meet you lou i i i

86

00:04:02,550 --> 00:04:00,319

really admire what you've been what

87

00:04:04,550 --> 00:04:02,560

you've been doing the last years um

88

00:04:06,470 --> 00:04:04,560

we're meeting on a date

89

00:04:08,949 --> 00:04:06,480

thanks uh we're meeting on a day that

90

00:04:11,429 --> 00:04:08,959

may prove to be incredibly consequential

91

00:04:12,789 --> 00:04:11,439

earlier today russia invaded the ukraine

92

00:04:14,710 --> 00:04:12,799

and according to news on the ground

93

00:04:16,469 --> 00:04:14,720

though there they may have already taken

94

00:04:18,949 --> 00:04:16,479

a major airport in the nation's capital

95

00:04:21,430 --> 00:04:18,959

and other strategic sites it's difficult

96

00:04:23,749 --> 00:04:21,440

today for many people to even comprehend

97

00:04:24,950 --> 00:04:23,759

what the full ramifications of this

98

00:04:26,790 --> 00:04:24,960

could be

99

00:04:28,070 --> 00:04:26,800

given your history of military service

100

00:04:30,390 --> 00:04:28,080

your work working the pentagon and the

101
00:04:32,870 --> 00:04:30,400
reports that your security clearance

102
00:04:34,629 --> 00:04:32,880
affords you how are you feeling how are

103
00:04:36,790 --> 00:04:34,639
you reading the news today and what do

104
00:04:38,950 --> 00:04:36,800
you foresee in the days to come

105
00:04:41,749 --> 00:04:38,960
sure well jay great great uh great way

106
00:04:44,790 --> 00:04:41,759
to start a a conversation um obviously

107
00:04:47,270 --> 00:04:44,800
not uap related uh if i may i'd like to

108
00:04:49,909 --> 00:04:47,280
just respectfully uh differ slightly

109
00:04:51,909 --> 00:04:49,919
from from your assertion that today the

110
00:04:54,550 --> 00:04:51,919
invasion began um in my opinion the

111
00:04:55,990 --> 00:04:54,560
invasion began quite some time ago

112
00:04:59,510 --> 00:04:56,000
this is just the beginning of the ground

113
00:05:01,350 --> 00:04:59,520

forces um putin is is is not stupid

114

00:05:03,189 --> 00:05:01,360

this is uh this is a chess master this

115

00:05:04,390 --> 00:05:03,199

is a former colonel in the kgb counter

116

00:05:07,029 --> 00:05:04,400

intelligence

117

00:05:08,710 --> 00:05:07,039

um he doesn't do anything haphazardly

118

00:05:11,029 --> 00:05:08,720

he's always thinking two and three and

119

00:05:12,790 --> 00:05:11,039

four steps ahead and looking at second

120

00:05:14,070 --> 00:05:12,800

order and third order consequences of

121

00:05:17,110 --> 00:05:14,080

those decisions

122

00:05:18,870 --> 00:05:17,120

um i i suspect the invasion began

123

00:05:20,469 --> 00:05:18,880

much much

124

00:05:22,469 --> 00:05:20,479

further back in time probably it could

125

00:05:24,150 --> 00:05:22,479

be up towards a year and what i mean by

126

00:05:26,230 --> 00:05:24,160

that i mean setting up the chess board

127

00:05:29,189 --> 00:05:26,240

to for for to give him the greatest

128

00:05:31,430 --> 00:05:29,199

chance of victory that means um doing a

129

00:05:32,790 --> 00:05:31,440

certain type of cyber activities to make

130

00:05:35,590 --> 00:05:32,800

sure that if he needs to bring down

131

00:05:37,830 --> 00:05:35,600

certain uh communication nodes or or

132

00:05:39,430 --> 00:05:37,840

infrastructure he can do that

133

00:05:41,909 --> 00:05:39,440

probably paying off certain local

134

00:05:43,830 --> 00:05:41,919

officials and state officials

135

00:05:45,350 --> 00:05:43,840

probably paying off members of the media

136

00:05:47,270 --> 00:05:45,360

getting certain uh

137

00:05:49,990 --> 00:05:47,280

propaganda machines in place

138

00:05:53,270 --> 00:05:50,000

psychological operations um you know all

139

00:05:54,390 --> 00:05:53,280

that was done a long time before to

140

00:05:55,830 --> 00:05:54,400

today

141

00:05:57,749 --> 00:05:55,840

people look at the news and they see

142

00:06:00,550 --> 00:05:57,759

that oh there's been some artillery fire

143

00:06:02,550 --> 00:06:00,560

and and some some activity with with

144

00:06:05,510 --> 00:06:02,560

small arms fire and aircraft and even

145

00:06:08,309 --> 00:06:05,520

tanks um that's really just the result

146

00:06:09,590 --> 00:06:08,319

of of a lot of planning and preparation

147

00:06:11,830 --> 00:06:09,600

ahead of time

148

00:06:14,230 --> 00:06:11,840

i agree with you i think it's abominable

149

00:06:16,150 --> 00:06:14,240

i think it's terrible but i also don't

150

00:06:18,150 --> 00:06:16,160

think it's a surprise

151
00:06:20,550 --> 00:06:18,160
and and part of putin's

152
00:06:22,710 --> 00:06:20,560
putin's actions and reaction is based

153
00:06:25,749 --> 00:06:22,720
upon our either lack of action or

154
00:06:27,670 --> 00:06:25,759
inaction um for better for worse uh the

155
00:06:28,870 --> 00:06:27,680
last 10 years or so

156
00:06:30,390 --> 00:06:28,880
and this by the way is on both

157
00:06:32,390 --> 00:06:30,400
conservative and liberal side the

158
00:06:35,110 --> 00:06:32,400
responsibility the failure

159
00:06:36,870 --> 00:06:35,120
uh we have failed to recognize some of

160
00:06:39,110 --> 00:06:36,880
the telltale signs um that this was

161
00:06:41,189 --> 00:06:39,120
going on um the best and brightest in

162
00:06:43,830 --> 00:06:41,199
our intelligence community unfortunately

163
00:06:47,510 --> 00:06:43,840

were distracted with other things and um

164

00:06:48,390 --> 00:06:47,520

and now uh you know here we are um i

165

00:06:50,550 --> 00:06:48,400

i think

166

00:06:51,749 --> 00:06:50,560

you know there's a there's a interesting

167

00:06:54,309 --> 00:06:51,759

old saying

168

00:06:57,990 --> 00:06:54,319

uh one of the ancient philosophers had

169

00:07:00,230 --> 00:06:58,000

asked a uh a very very senior uh general

170

00:07:02,870 --> 00:07:00,240

once said uh how do you reward your

171

00:07:05,110 --> 00:07:02,880

greatest generals um and

172

00:07:06,390 --> 00:07:05,120

the response from from this this leader

173

00:07:08,469 --> 00:07:06,400

was well

174

00:07:12,710 --> 00:07:08,479

i give my good generals

175

00:07:15,350 --> 00:07:12,720

i give them uh war bounty and land and

176

00:07:18,309 --> 00:07:15,360

you know accolades and i i recognize him

177

00:07:20,710 --> 00:07:18,319

that way but sadly my greatest generals

178

00:07:22,390 --> 00:07:20,720

i i can't recognize at all

179

00:07:25,110 --> 00:07:22,400

and the response from the philosopher

180

00:07:26,950 --> 00:07:25,120

was why is that if sir they're so great

181

00:07:28,629 --> 00:07:26,960

he said see my greatest generals are so

182

00:07:30,469 --> 00:07:28,639

good that that they can win a war

183

00:07:31,270 --> 00:07:30,479

without every us ever having to actually

184

00:07:33,110 --> 00:07:31,280

fight

185

00:07:35,029 --> 00:07:33,120

we avoid going to war all together right

186

00:07:37,350 --> 00:07:35,039

and so therefore there is no way to

187

00:07:40,469 --> 00:07:37,360

recognize that um you know good generals

188

00:07:41,270 --> 00:07:40,479

win wars the best generals avoid wars

189

00:07:42,870 --> 00:07:41,280

and

190

00:07:44,629 --> 00:07:42,880

i think i think you're absolutely right

191

00:07:45,430 --> 00:07:44,639

i think it's tragic that we are in this

192

00:07:47,670 --> 00:07:45,440

state

193

00:07:49,270 --> 00:07:47,680

um i also fear that other adversaries

194

00:07:51,189 --> 00:07:49,280

will take advantage of that

195

00:07:53,189 --> 00:07:51,199

um i think we're coming off the heels of

196

00:07:55,110 --> 00:07:53,199

20 years of of confrontation whether

197

00:07:56,070 --> 00:07:55,120

it's afghanistan or iraq or anything in

198

00:07:58,309 --> 00:07:56,080

between

199

00:07:59,990 --> 00:07:58,319

i'm not sure that uh it is politically

200

00:08:02,150 --> 00:08:00,000

palatable that we're going to involve

201
00:08:03,830 --> 00:08:02,160
ourselves any more than we already have

202
00:08:05,749 --> 00:08:03,840
i think sanctions and harshly worded

203
00:08:07,189 --> 00:08:05,759
memorandums only go so far and quite

204
00:08:08,150 --> 00:08:07,199
frankly i don't think putin gives a damn

205
00:08:10,710 --> 00:08:08,160
about that

206
00:08:13,749 --> 00:08:10,720
um so we can posture all we want in

207
00:08:16,150 --> 00:08:13,759
reality there are some adversaries some

208
00:08:18,150 --> 00:08:16,160
bullies that only respect force

209
00:08:20,469 --> 00:08:18,160
um and by the way that's just not

210
00:08:22,869 --> 00:08:20,479
involving you know the ukraine that

211
00:08:26,390 --> 00:08:22,879
involves uh anybody with a type with a

212
00:08:28,869 --> 00:08:26,400
mentality of of of trying to to dominate

213
00:08:30,070 --> 00:08:28,879

uh someone else or conversation or a

214

00:08:30,950 --> 00:08:30,080

narrative

215

00:08:33,110 --> 00:08:30,960

yeah

216

00:08:35,190 --> 00:08:33,120

um that's really well put and i could i

217

00:08:37,589 --> 00:08:35,200

could go on this conversation for a

218

00:08:40,310 --> 00:08:37,599

while with you especially right now

219

00:08:41,589 --> 00:08:40,320

um i'm sure that the people are here um

220

00:08:43,829 --> 00:08:41,599

would love to

221

00:08:45,670 --> 00:08:43,839

talk about something something else

222

00:08:48,070 --> 00:08:45,680

related to uab so

223

00:08:50,070 --> 00:08:48,080

i'll segue into that but i think it's a

224

00:08:52,630 --> 00:08:50,080

good segue with with how busy our

225

00:08:55,269 --> 00:08:52,640

intelligence community will be right now

226

00:08:56,790 --> 00:08:55,279

um you know will the

227

00:08:58,870 --> 00:08:56,800

different uap studies going on

228

00:09:00,230 --> 00:08:58,880

throughout the government and and our

229

00:09:02,310 --> 00:09:00,240

congress and how serious they've been

230

00:09:04,150 --> 00:09:02,320

taking it will that take a blow will

231

00:09:05,590 --> 00:09:04,160

that will that suffer

232

00:09:07,190 --> 00:09:05,600

yeah i will it'll be a distraction and

233

00:09:08,550 --> 00:09:07,200

my biggest concern is not so much that

234

00:09:10,150 --> 00:09:08,560

because we can help try keeping it on

235

00:09:11,750 --> 00:09:10,160

track with with the work that chris and

236

00:09:13,590 --> 00:09:11,760

myself and others are doing

237

00:09:14,870 --> 00:09:13,600

it's for me it's it's the void it's the

238

00:09:17,430 --> 00:09:14,880

vacuum that

239

00:09:19,030 --> 00:09:17,440

um you know this this this community the

240

00:09:20,389 --> 00:09:19,040

ufo community has been plagued with for

241

00:09:21,670 --> 00:09:20,399

so long it's the charlatans and

242

00:09:25,030 --> 00:09:21,680

hucksters that will try to fill that

243

00:09:27,269 --> 00:09:25,040

void that vacuum and try to to to hijack

244

00:09:29,190 --> 00:09:27,279

a narrative for their own self gain to

245

00:09:31,110 --> 00:09:29,200

perpetuate their own their own their own

246

00:09:33,910 --> 00:09:31,120

self value and and that for me is most

247

00:09:36,070 --> 00:09:33,920

concerning we're seeing it right now um

248

00:09:38,470 --> 00:09:36,080

and you know unfortunately it is a

249

00:09:39,750 --> 00:09:38,480

distraction uh but you know it's it's

250

00:09:42,150 --> 00:09:39,760

it's like a duck

251

00:09:43,670 --> 00:09:42,160

pecking at your ankles you know it's it

252

00:09:46,470 --> 00:09:43,680

it's really more annoying than anything

253

00:09:47,750 --> 00:09:46,480

else the real shame here is not that

254

00:09:49,509 --> 00:09:47,760

that vacuum is being filled with

255

00:09:51,269 --> 00:09:49,519

fraudsters and hucksters and by the way

256

00:09:53,190 --> 00:09:51,279

people who actually have

257

00:09:55,030 --> 00:09:53,200

criminal records uh for things like

258

00:09:57,829 --> 00:09:55,040

fraud and identity theft right and in

259

00:09:59,190 --> 00:09:57,839

some cases being violent against uh

260

00:10:01,030 --> 00:09:59,200

their their

261

00:10:03,670 --> 00:10:01,040

female counterpart which i think is is

262

00:10:05,829 --> 00:10:03,680

disgusting and inexcusable

263

00:10:07,590 --> 00:10:05,839

that truth will will come out and you

264

00:10:09,829 --> 00:10:07,600

know like always you know people will

265

00:10:11,030 --> 00:10:09,839

get disillusioned and say oh you

266

00:10:13,350 --> 00:10:11,040

know these

267

00:10:15,590 --> 00:10:13,360

these guys are bad news uh the problem

268

00:10:18,630 --> 00:10:15,600

is is the toll it takes on the community

269

00:10:20,630 --> 00:10:18,640

because every time people do that

270

00:10:22,949 --> 00:10:20,640

people follow that even if it's just two

271

00:10:24,150 --> 00:10:22,959

or three or two or three hundred people

272

00:10:26,230 --> 00:10:24,160

that's two or three hundred people that

273

00:10:28,710 --> 00:10:26,240

are being led astray from from from the

274

00:10:30,150 --> 00:10:28,720

real topic of uap studies and then they

275

00:10:31,670 --> 00:10:30,160

get disillusioned and then they felt

276

00:10:33,590 --> 00:10:31,680

disheartened right and it's once again

277

00:10:35,110 --> 00:10:33,600

this roller coaster ride

278

00:10:37,110 --> 00:10:35,120

where they're being you know pulled

279

00:10:38,470 --> 00:10:37,120

whipsawed back and forth by these cults

280

00:10:41,190 --> 00:10:38,480

of personality

281

00:10:42,389 --> 00:10:41,200

and unfortunately you know they they

282

00:10:43,590 --> 00:10:42,399

they haven't done their due diligence

283

00:10:45,269 --> 00:10:43,600

haven't looked into the background of

284

00:10:46,870 --> 00:10:45,279

some of these people and they just

285

00:10:48,710 --> 00:10:46,880

accept what they say is truth and

286

00:10:49,990 --> 00:10:48,720

without any type of track record

287

00:10:51,990 --> 00:10:50,000

whatsoever

288

00:10:54,230 --> 00:10:52,000

um

289

00:10:56,069 --> 00:10:54,240

so there you have it

290

00:10:57,829 --> 00:10:56,079

i think it's just people like trying to

291

00:11:00,790 --> 00:10:57,839

play the opposite side of the field

292

00:11:02,150 --> 00:11:00,800

right um and that just because it's the

293

00:11:04,470 --> 00:11:02,160

opposite side of the field doesn't mean

294

00:11:07,350 --> 00:11:04,480

it's going to be the better or even have

295

00:11:08,870 --> 00:11:07,360

sense uh involved with it unfortunately

296

00:11:10,630 --> 00:11:08,880

it's it's so hard for people to take

297

00:11:12,389 --> 00:11:10,640

things at face value

298

00:11:14,310 --> 00:11:12,399

i can respect the opposite side of the

299

00:11:15,670 --> 00:11:14,320

field i i don't mind that i don't mind

300

00:11:17,509 --> 00:11:15,680

opposition i don't mind healthy

301

00:11:19,269 --> 00:11:17,519

conversation i don't mind

302

00:11:20,949 --> 00:11:19,279

dissension amongst the ranks provided

303

00:11:22,550 --> 00:11:20,959

that it's informed ascension right and

304

00:11:24,710 --> 00:11:22,560

it's and the intent is for a good reason

305

00:11:27,430 --> 00:11:24,720

and that is to try to bring the truth

306

00:11:28,550 --> 00:11:27,440

out but when it's simply to to divert

307

00:11:29,990 --> 00:11:28,560

from the truth

308

00:11:32,710 --> 00:11:30,000

that's what i have a problem with when

309

00:11:34,310 --> 00:11:32,720

it's deliberately done to mislead people

310

00:11:36,069 --> 00:11:34,320

then then for i have a problem with it

311

00:11:37,030 --> 00:11:36,079

that to me that is that's that's a

312

00:11:39,430 --> 00:11:37,040

concern

313

00:11:40,550 --> 00:11:39,440

um you know people just got to be smart

314

00:11:41,990 --> 00:11:40,560

about it they got to do their due

315

00:11:44,470 --> 00:11:42,000

diligence they got to do their research

316

00:11:46,389 --> 00:11:44,480

and unfortunately i i just simply don't

317

00:11:48,710 --> 00:11:46,399

have time to hold everybody's hand

318

00:11:50,550 --> 00:11:48,720

through this this this process

319

00:11:52,870 --> 00:11:50,560

yeah you're only one man and

320

00:11:53,910 --> 00:11:52,880

you've done quite a bit um

321

00:11:55,590 --> 00:11:53,920

to

322

00:11:56,949 --> 00:11:55,600

one question i i have for you we're

323

00:11:58,710 --> 00:11:56,959

gonna start this is like a viewer

324

00:12:01,110 --> 00:11:58,720

question they emailed this to me uh we

325

00:12:03,590 --> 00:12:01,120

hear a lot about uh biological effects

326

00:12:05,750 --> 00:12:03,600

and usually that kind of um you know you

327

00:12:08,870 --> 00:12:05,760

think negative negative effects what are

328

00:12:11,829 --> 00:12:08,880

they um what are there any positive

329

00:12:13,509 --> 00:12:11,839

biological effects that you're aware of

330

00:12:15,430 --> 00:12:13,519

i mean there's there's reports that some

331

00:12:17,829 --> 00:12:15,440

people have extraordinary experiences

332

00:12:20,389 --> 00:12:17,839

right um and and let's face it there are

333

00:12:22,150 --> 00:12:20,399

people in reality that have trauma and

334

00:12:23,590 --> 00:12:22,160

drama in their lives and they turn out

335

00:12:25,590 --> 00:12:23,600

wind up

336

00:12:27,829 --> 00:12:25,600

magically possessing these these these

337

00:12:29,829 --> 00:12:27,839

almost superhero-like capabilities you

338

00:12:31,350 --> 00:12:29,839

become virtuosos on the piano instantly

339

00:12:33,190 --> 00:12:31,360

right or they they wind up being able to

340

00:12:35,030 --> 00:12:33,200

speak a foreign language virtually

341

00:12:37,269 --> 00:12:35,040

overnight um

342

00:12:38,550 --> 00:12:37,279

so you know unfortunately it's probably

343

00:12:40,550 --> 00:12:38,560

more common

344

00:12:42,790 --> 00:12:40,560

than not that effects tend to be

345

00:12:44,949 --> 00:12:42,800

negative whether it's psychological

346

00:12:47,910 --> 00:12:44,959

effects such as fear or some sort of

347

00:12:49,030 --> 00:12:47,920

ptsd type type related

348

00:12:51,350 --> 00:12:49,040

trauma

349

00:12:54,710 --> 00:12:51,360

in some cases physiological right so you

350

00:12:56,629 --> 00:12:54,720

have uh potential um let's see if i can

351

00:12:59,110 --> 00:12:56,639

if i can explain this uh you may have

352

00:13:00,870 --> 00:12:59,120

superficial what appear to be sunburn or

353

00:13:03,030 --> 00:13:00,880

or what's really radiation burns right

354

00:13:05,750 --> 00:13:03,040

and then you have uh

355

00:13:07,269 --> 00:13:05,760

internal as the the durds suggest and

356

00:13:08,790 --> 00:13:07,279

some of the the research that my

357

00:13:11,110 --> 00:13:08,800

organization did

358

00:13:13,430 --> 00:13:11,120

that um there's there's physiological

359

00:13:15,269 --> 00:13:13,440

consequences you know internal damage to

360

00:13:17,430 --> 00:13:15,279

internal organs and so that's

361

00:13:18,949 --> 00:13:17,440

there is also data to suggest that and

362

00:13:20,949 --> 00:13:18,959

the problem is that there's there's

363

00:13:23,509 --> 00:13:20,959

there's there's

364

00:13:26,150 --> 00:13:23,519

it's really hard to quantify and qualify

365

00:13:27,509 --> 00:13:26,160

uh biological effects um it doesn't mean

366

00:13:29,829 --> 00:13:27,519

that they're not real they are real the

367

00:13:32,310 --> 00:13:29,839

question is you know every person reacts

368

00:13:34,389 --> 00:13:32,320

a little bit differently to something um

369

00:13:36,310 --> 00:13:34,399

even even things that affect us you'd

370

00:13:38,870 --> 00:13:36,320

think the same where you and i can both

371

00:13:40,230 --> 00:13:38,880

touch a hot stove um i might get a third

372

00:13:42,870 --> 00:13:40,240

degree burn whereas you might just get a

373

00:13:44,470 --> 00:13:42,880

second degree burn right right so uh

374

00:13:46,389 --> 00:13:44,480

it's it's hard it's it's very

375

00:13:49,350 --> 00:13:46,399

challenging but it is important and

376

00:13:51,350 --> 00:13:49,360

those effects seem to kind of mirror um

377

00:13:53,030 --> 00:13:51,360

a lot of these studies at least that our

378

00:13:55,829 --> 00:13:53,040

government has done into different like

379

00:13:57,030 --> 00:13:55,839

direct energy and and you know emp kind

380

00:13:58,629 --> 00:13:57,040

of effects

381

00:14:00,150 --> 00:13:58,639

so it's got to be hard to differentiate

382

00:14:01,509 --> 00:14:00,160

between the two as well well i mean look

383

00:14:02,949 --> 00:14:01,519

at havana syndrome we still don't know

384

00:14:04,310 --> 00:14:02,959

what the hell that causes that right and

385

00:14:05,910 --> 00:14:04,320

it's real and people that are that are

386

00:14:08,150 --> 00:14:05,920

actually you know have

387

00:14:10,470 --> 00:14:08,160

been gotten very very sick from that

388

00:14:11,189 --> 00:14:10,480

um and we still we still don't know and

389

00:14:12,629 --> 00:14:11,199

so

390

00:14:14,150 --> 00:14:12,639

you know that's that's proof positive

391

00:14:15,590 --> 00:14:14,160

that there are there are mysteries out

392

00:14:17,590 --> 00:14:15,600

there that that

393

00:14:19,269 --> 00:14:17,600

involve biological effects that we just

394

00:14:20,790 --> 00:14:19,279

simply don't have enough data yet but we

395

00:14:23,750 --> 00:14:20,800

need to get more data

396

00:14:26,310 --> 00:14:23,760

yeah yeah um in the final along those

397

00:14:27,990 --> 00:14:26,320

lines in the final episode of

398

00:14:30,150 --> 00:14:28,000

the show unidentified which you are

399

00:14:31,990 --> 00:14:30,160

heavily featured on uh you said that if

400

00:14:33,670 --> 00:14:32,000

people are being taken against their

401
00:14:34,790 --> 00:14:33,680
will that could be perceived as an act

402
00:14:36,629 --> 00:14:34,800
of war

403
00:14:38,230 --> 00:14:36,639
just last week in conversation with the

404
00:14:40,949 --> 00:14:38,240
co-founder of mine in the experiencer

405
00:14:43,829 --> 00:14:40,959
group stuart davis uh jim simavan a

406
00:14:45,269 --> 00:14:43,839
colleague of yours at tsa said that he

407
00:14:47,110 --> 00:14:45,279
viewed his personal encounter with

408
00:14:48,949 --> 00:14:47,120
non-human entities in his own bedroom

409
00:14:50,069 --> 00:14:48,959
with his wife as a human rights

410
00:14:52,069 --> 00:14:50,079
violation

411
00:14:54,150 --> 00:14:52,079
gary nolan semivan and others have

412
00:14:56,389 --> 00:14:54,160
indicated long-standing programs close

413
00:14:58,629 --> 00:14:56,399

to governmental agencies studying the

414

00:15:02,230 --> 00:14:58,639

biology and biological effects on

415

00:15:04,230 --> 00:15:02,240

contact experiencers and abductees

416

00:15:08,230 --> 00:15:04,240

close to what you term as the six of

417

00:15:09,590 --> 00:15:08,240

observable of biological effects

418

00:15:11,430 --> 00:15:09,600

in the experiencer group we have

419

00:15:14,069 --> 00:15:11,440

military experiencers in almost every

420

00:15:15,750 --> 00:15:14,079

single confidential support meeting

421

00:15:17,750 --> 00:15:15,760

we're very aware that non-human

422

00:15:19,590 --> 00:15:17,760

visitation has been tracked and studied

423

00:15:21,350 --> 00:15:19,600

for quite a long time with some of the

424

00:15:23,910 --> 00:15:21,360

people that

425

00:15:25,829 --> 00:15:23,920

i've just mentioned it's not hearsay and

426

00:15:27,990 --> 00:15:25,839

it hasn't been for many years now that

427

00:15:29,990 --> 00:15:28,000

people like nolan and your old tsa

428

00:15:31,269 --> 00:15:30,000

colleague jim simavan are courageously

429

00:15:33,749 --> 00:15:31,279

coming forward

430

00:15:35,749 --> 00:15:33,759

um is is this an opportunity for you to

431

00:15:38,470 --> 00:15:35,759

speak more directly to this profoundly

432

00:15:40,069 --> 00:15:38,480

challenging topic of of contact with

433

00:15:42,790 --> 00:15:40,079

non-human energies

434

00:15:44,389 --> 00:15:42,800

yes and no yes in the sense that that

435

00:15:46,949 --> 00:15:44,399

people now are coming out where i had to

436

00:15:48,949 --> 00:15:46,959

allude before to a six observable are

437

00:15:50,230 --> 00:15:48,959

coming out and and stating for the

438

00:15:52,310 --> 00:15:50,240

record yes that was one of the

439

00:15:55,430 --> 00:15:52,320

observables um so it's them saying it

440

00:15:57,910 --> 00:15:55,440

not me um but there are areas of this

441

00:16:00,310 --> 00:15:57,920

topic i still cannot discuss

442

00:16:01,670 --> 00:16:00,320

uh again and this is going to rub people

443

00:16:03,189 --> 00:16:01,680

the wrong way and you know my suggestion

444

00:16:05,430 --> 00:16:03,199

if you don't want to hear it then

445

00:16:07,269 --> 00:16:05,440

meet me for a second or two

446

00:16:08,470 --> 00:16:07,279

but i have a security clearance you know

447

00:16:10,069 --> 00:16:08,480

and by the way let me let me set

448

00:16:11,509 --> 00:16:10,079

something straight here

449

00:16:15,110 --> 00:16:11,519

when you have a security clearance not

450

00:16:16,790 --> 00:16:15,120

only are you required to to keep secrets

451
00:16:19,189 --> 00:16:16,800
that you have sworn to keep but you also

452
00:16:21,350 --> 00:16:19,199
can't tell a lie okay because that's an

453
00:16:22,629 --> 00:16:21,360
indicator of a psychological issue

454
00:16:24,790 --> 00:16:22,639
so the fact that i have a security

455
00:16:26,310 --> 00:16:24,800
clearance at the ts level top secret

456
00:16:28,710 --> 00:16:26,320
level there's something called

457
00:16:29,829 --> 00:16:28,720
continuous evaluation ce

458
00:16:31,030 --> 00:16:29,839
and when you have a certain level of

459
00:16:32,550 --> 00:16:31,040
security clearance you are put into that

460
00:16:34,389 --> 00:16:32,560
category and you are continuously

461
00:16:35,670 --> 00:16:34,399
monitored they're looking at your credit

462
00:16:37,350 --> 00:16:35,680
scores they're looking at your

463
00:16:39,590 --> 00:16:37,360

psychological stability looking whether

464

00:16:41,110 --> 00:16:39,600

or not uh you have any indications of

465

00:16:43,509 --> 00:16:41,120

deception or you're a liar and they look

466

00:16:44,870 --> 00:16:43,519

at all sorts of stuff right uh you

467

00:16:47,430 --> 00:16:44,880

you're you're subject to random

468

00:16:49,189 --> 00:16:47,440

polygraph examinations just like i am

469

00:16:52,150 --> 00:16:49,199

and so what's important to note is not

470

00:16:55,350 --> 00:16:52,160

only do can i not tell a secret i also

471

00:16:57,829 --> 00:16:55,360

can't tell a lie um i get i will i will

472

00:17:00,629 --> 00:16:57,839

lose my lose my security clearance in

473

00:17:02,550 --> 00:17:00,639

about a second flat if i do

474

00:17:04,789 --> 00:17:02,560

so i have to be very very very careful

475

00:17:06,390 --> 00:17:04,799

on one hand i can't lie but at the other

476

00:17:08,870 --> 00:17:06,400

hand i also can't say everything i know

477

00:17:11,029 --> 00:17:08,880

and so uh it's a bit of a balancing act

478

00:17:12,630 --> 00:17:11,039

um i think when you're asking about how

479

00:17:13,990 --> 00:17:12,640

i feel about you know jay let me ask you

480

00:17:15,510 --> 00:17:14,000

a personal question if i made do you

481

00:17:16,789 --> 00:17:15,520

have any children you have to tell me

482

00:17:18,470 --> 00:17:16,799

how many you have or if you're a boy or

483

00:17:21,110 --> 00:17:18,480

girl but you have any children no i

484

00:17:23,429 --> 00:17:21,120

don't no okay do you have a significant

485

00:17:26,069 --> 00:17:23,439

other in your life i sure do

486

00:17:28,630 --> 00:17:26,079

okay so let's say this significant other

487

00:17:30,070 --> 00:17:28,640

uh was taken against their free will

488

00:17:32,470 --> 00:17:30,080

somewhere right

489

00:17:34,789 --> 00:17:32,480

in essence kidnapped right and while

490

00:17:36,870 --> 00:17:34,799

they were kidnapped um someone or

491

00:17:39,350 --> 00:17:36,880

something decides to

492

00:17:41,750 --> 00:17:39,360

to to touch them in a way without their

493

00:17:43,510 --> 00:17:41,760

their consent or their permission okay

494

00:17:45,590 --> 00:17:43,520

so now you have kidnapping now you also

495

00:17:47,590 --> 00:17:45,600

have assault okay

496

00:17:49,430 --> 00:17:47,600

and then you have someone potentially

497

00:17:51,990 --> 00:17:49,440

causing long-term

498

00:17:54,950 --> 00:17:52,000

uh physiological distress

499

00:17:56,950 --> 00:17:54,960

to your significant other long-term so

500

00:17:58,070 --> 00:17:56,960

now they suffer

501
00:17:59,029 --> 00:17:58,080
from a

502
00:18:01,510 --> 00:17:59,039
medically

503
00:18:02,470 --> 00:18:01,520
some sort of long-term consequence right

504
00:18:04,549 --> 00:18:02,480
um

505
00:18:06,230 --> 00:18:04,559
you know and ultimately ultimately at

506
00:18:07,830 --> 00:18:06,240
some point god forbid it leads to their

507
00:18:09,750 --> 00:18:07,840
death well you know in our country

508
00:18:12,470 --> 00:18:09,760
that's that's homicide you know there's

509
00:18:14,549 --> 00:18:12,480
people that that get you know

510
00:18:16,150 --> 00:18:14,559
assaulted and two years later they die

511
00:18:18,630 --> 00:18:16,160
because they've been in a coma and then

512
00:18:21,029 --> 00:18:18,640
they charge the person with murder um

513
00:18:23,510 --> 00:18:21,039

it's very serious um it is a human

514

00:18:25,750 --> 00:18:23,520

rights violation it's it's it's it's

515

00:18:27,990 --> 00:18:25,760

it's a crime if i do anything

516

00:18:29,830 --> 00:18:28,000

against your your free will and volition

517

00:18:31,990 --> 00:18:29,840

you know medical doctors have a

518

00:18:33,990 --> 00:18:32,000

hippocratic oath do no harm

519

00:18:36,310 --> 00:18:34,000

um that doesn't necessarily seem to be

520

00:18:38,070 --> 00:18:36,320

the same case here and then you have the

521

00:18:40,310 --> 00:18:38,080

psychological issues where if people

522

00:18:41,669 --> 00:18:40,320

truly are being taken away again

523

00:18:43,110 --> 00:18:41,679

hypothetically

524

00:18:45,590 --> 00:18:43,120

against their will

525

00:18:47,270 --> 00:18:45,600

um and then they come back and nobody

526

00:18:48,230 --> 00:18:47,280

believes them and whatnot then there's

527

00:18:50,150 --> 00:18:48,240

you know

528

00:18:52,390 --> 00:18:50,160

another issue right because now you have

529

00:18:54,070 --> 00:18:52,400

you know potentially ptsd situation you

530

00:18:56,870 --> 00:18:54,080

have a situation where

531

00:18:59,990 --> 00:18:56,880

now now the quality of someone's life um

532

00:19:01,430 --> 00:19:00,000

isn't uh isn't what it could be right

533

00:19:03,110 --> 00:19:01,440

and they don't get they can't realize

534

00:19:05,909 --> 00:19:03,120

their full potential so

535

00:19:08,230 --> 00:19:05,919

so it's um it's a big problem it's a big

536

00:19:10,150 --> 00:19:08,240

problem and uh especially if there's not

537

00:19:13,190 --> 00:19:10,160

a whole lot we can do about it um you

538

00:19:14,630 --> 00:19:13,200

know that that that to me is is

539

00:19:16,549 --> 00:19:14,640

it's a significant aspect of this

540

00:19:18,070 --> 00:19:16,559

conversation one that we have to

541

00:19:20,549 --> 00:19:18,080

approach though i think scientifically

542

00:19:22,549 --> 00:19:20,559

we have to avoid going down the woo road

543

00:19:24,310 --> 00:19:22,559

and when i say that i don't mean it with

544

00:19:25,909 --> 00:19:24,320

disrespect what i simply mean is we have

545

00:19:28,630 --> 00:19:25,919

to stick to the facts

546

00:19:31,110 --> 00:19:28,640

uh we have to sure and in my opinion if

547

00:19:33,029 --> 00:19:31,120

we want to have a uh you know an

548

00:19:35,590 --> 00:19:33,039

educated conversation about this this

549

00:19:37,750 --> 00:19:35,600

particular aspect of the phenomenon

550

00:19:39,990 --> 00:19:37,760

and once we get that galactic court set

551
00:19:41,270 --> 00:19:40,000
up then we can start suing them yeah i'm

552
00:19:42,710 --> 00:19:41,280
just kidding okay

553
00:19:44,549 --> 00:19:42,720
so

554
00:19:46,310 --> 00:19:44,559
the for the alternative you can move to

555
00:19:47,669 --> 00:19:46,320
wyoming and you know have four german

556
00:19:49,029 --> 00:19:47,679
shepherds and

557
00:19:49,750 --> 00:19:49,039
there you go

558
00:19:53,029 --> 00:19:49,760
you know

559
00:19:55,830 --> 00:19:53,039
so means for self-protection

560
00:19:57,990 --> 00:19:55,840
um now i mean you've done some fantastic

561
00:20:00,549 --> 00:19:58,000
work with like getting this uh you know

562
00:20:02,789 --> 00:20:00,559
to congress and getting this legislation

563
00:20:04,789 --> 00:20:02,799

passed i know it this is a group effort

564

00:20:07,110 --> 00:20:04,799

and you couldn't do it alone i know that

565

00:20:08,870 --> 00:20:07,120

already but just like from me to you and

566

00:20:10,630 --> 00:20:08,880

everybody else thank you so much for

567

00:20:12,310 --> 00:20:10,640

that because you do get beat up

568

00:20:13,750 --> 00:20:12,320

constantly and all the time

569

00:20:16,230 --> 00:20:13,760

um

570

00:20:17,830 --> 00:20:16,240

but again i can't take i can cannot take

571

00:20:19,909 --> 00:20:17,840

credit for it and i won't take credit

572

00:20:21,510 --> 00:20:19,919

for it because it's it really has to be

573

00:20:23,990 --> 00:20:21,520

shared with everybody not just people

574

00:20:25,990 --> 00:20:24,000

like like uh you see with chris mellon

575

00:20:27,990 --> 00:20:26,000

doing doing great work and gary nolan

576

00:20:30,070 --> 00:20:28,000

and whatnot but also the people like you

577

00:20:31,909 --> 00:20:30,080

remember the fifth pillar of engagement

578

00:20:34,470 --> 00:20:31,919

and perhaps the most important is public

579

00:20:35,750 --> 00:20:34,480

engagement and and you need to look no

580

00:20:38,070 --> 00:20:35,760

further than the mirror sean than to

581

00:20:39,830 --> 00:20:38,080

realize you're part of that so

582

00:20:41,190 --> 00:20:39,840

you know if if you want to give credit

583

00:20:43,430 --> 00:20:41,200

to somebody i would suggest looking in

584

00:20:45,350 --> 00:20:43,440

the mirror because you you and others

585

00:20:47,909 --> 00:20:45,360

like you and jay are doing a tremendous

586

00:20:50,549 --> 00:20:47,919

job uh making this conversation

587

00:20:53,029 --> 00:20:50,559

palatable for the first time in 75 years

588

00:20:54,710 --> 00:20:53,039

um it's people like you that are that

589

00:20:57,110 --> 00:20:54,720

are championing this cause and saying to

590

00:20:58,870 --> 00:20:57,120

hell with stigma and taboo um screw the

591

00:21:01,029 --> 00:20:58,880

haters let's let's let's have a real

592

00:21:02,390 --> 00:21:01,039

conversation you know um yeah anything

593

00:21:03,909 --> 00:21:02,400

in history that's worth pursuing is

594

00:21:05,830 --> 00:21:03,919

going to have resistance that's just the

595

00:21:07,190 --> 00:21:05,840

way it's always been it's not easy and

596

00:21:09,190 --> 00:21:07,200

you're going to have these these people

597

00:21:12,390 --> 00:21:09,200

that will come out of the woodwork and

598

00:21:13,990 --> 00:21:12,400

try to throw stones um but that's okay

599

00:21:16,470 --> 00:21:14,000

because you got truth on your side you

600

00:21:17,510 --> 00:21:16,480

know and so it's um you know it is what

601
00:21:19,029 --> 00:21:17,520
it is

602
00:21:21,110 --> 00:21:19,039
i appreciate it you embolden us with

603
00:21:22,950 --> 00:21:21,120
your courage um that's for sure one

604
00:21:24,470 --> 00:21:22,960
question i have here is um

605
00:21:27,029 --> 00:21:24,480
you know with your time in atip and

606
00:21:28,950 --> 00:21:27,039
everything and and having worked with uh

607
00:21:31,590 --> 00:21:28,960
congress whether it be behind the scenes

608
00:21:33,510 --> 00:21:31,600
or whatever um do you know or can you

609
00:21:36,149 --> 00:21:33,520
say if the information that you're aware

610
00:21:37,350 --> 00:21:36,159
of what you know in your time uh with

611
00:21:38,149 --> 00:21:37,360
atip is

612
00:21:39,990 --> 00:21:38,159
is

613
00:21:42,070 --> 00:21:40,000

you know aligned with congress and what

614

00:21:45,190 --> 00:21:42,080

they've seen either on classified or

615

00:21:46,549 --> 00:21:45,200

classified material uh undoubtedly yes

616

00:21:48,390 --> 00:21:46,559

um and

617

00:21:50,470 --> 00:21:48,400

it is it is it

618

00:21:52,950 --> 00:21:50,480

it is painting an extremely compelling

619

00:21:56,310 --> 00:21:52,960

picture um there is data coming out

620

00:21:57,590 --> 00:21:56,320

almost almost on a daily basis now think

621

00:21:59,430 --> 00:21:57,600

about that for a minute because most

622

00:22:02,470 --> 00:21:59,440

people are thinking nimitz maybe

623

00:22:04,789 --> 00:22:02,480

roosevelt or uss kid or omaha

624

00:22:06,870 --> 00:22:04,799

you know years ago um we're talking

625

00:22:09,270 --> 00:22:06,880

about things happening almost on a daily

626

00:22:11,510 --> 00:22:09,280

basis now at this point

627

00:22:13,990 --> 00:22:11,520

and and it's become evident that we do

628

00:22:17,190 --> 00:22:14,000

not have a clear sight picture of our of

629

00:22:19,270 --> 00:22:17,200

our air domain uh we do not have

630

00:22:21,510 --> 00:22:19,280

air domain awareness as we like to say

631

00:22:23,350 --> 00:22:21,520

um that we should uh and that's that's

632

00:22:24,310 --> 00:22:23,360

problematic

633

00:22:27,510 --> 00:22:24,320

yeah

634

00:22:28,870 --> 00:22:27,520

most definitely i um i was listening

635

00:22:30,549 --> 00:22:28,880

earlier today i realize this is a little

636

00:22:32,310 --> 00:22:30,559

unfair so i'm just gonna mention the

637

00:22:34,950 --> 00:22:32,320

paraphrase and then move on to my actual

638

00:22:36,950 --> 00:22:34,960

questions so you don't have to um uh jim

639

00:22:38,630 --> 00:22:36,960

cinnavan uh has been doing this series

640

00:22:40,230 --> 00:22:38,640

of interviews lately he first with

641

00:22:41,990 --> 00:22:40,240

george knapp and then with stewart davis

642

00:22:43,669 --> 00:22:42,000

and he um

643

00:22:46,710 --> 00:22:43,679

in an interview that's due to be

644

00:22:50,390 --> 00:22:46,720

published very soon um he says

645

00:22:52,549 --> 00:22:50,400

that anybody who who asks can get this

646

00:22:54,950 --> 00:22:52,559

confidential brief that's related to the

647

00:22:57,990 --> 00:22:54,960

task force report that came out last

648

00:22:59,029 --> 00:22:58,000

summer and he he said well under

649

00:23:03,909 --> 00:22:59,039

in his

650

00:23:06,390 --> 00:23:03,919

read in on

651
00:23:09,190 --> 00:23:06,400
the aerospace capabilities of russia and

652
00:23:10,710 --> 00:23:09,200
china they can clearly see that from the

653
00:23:12,950 --> 00:23:10,720
data that i think you were just

654
00:23:15,990 --> 00:23:12,960
referring to that we're talking about

655
00:23:17,590 --> 00:23:16,000
orders of magnitude beyond what what is

656
00:23:18,950 --> 00:23:17,600
capable with

657
00:23:21,029 --> 00:23:18,960
correct nation

658
00:23:23,029 --> 00:23:21,039
but but it is for clarification it's not

659
00:23:25,029 --> 00:23:23,039
anybody can get access to this

660
00:23:27,430 --> 00:23:25,039
confidential information if you have an

661
00:23:28,710 --> 00:23:27,440
appropriate security clearance then yes

662
00:23:30,310 --> 00:23:28,720
you can

663
00:23:31,590 --> 00:23:30,320

but unfortunately if you do not have a

664

00:23:33,909 --> 00:23:31,600

security clearance or not the

665

00:23:35,750 --> 00:23:33,919

appropriate level no you cannot have

666

00:23:37,270 --> 00:23:35,760

access to it they'll have to give you

667

00:23:39,430 --> 00:23:37,280

something that's watered down because of

668

00:23:41,430 --> 00:23:39,440

sources and methods and other classified

669

00:23:43,990 --> 00:23:41,440

aspects but he's absolutely right and

670

00:23:46,149 --> 00:23:44,000

yeah and people are are receiving those

671

00:23:47,110 --> 00:23:46,159

briefings on a regular and continuing

672

00:23:48,789 --> 00:23:47,120

basis

673

00:23:50,390 --> 00:23:48,799

yes i should i misspoke i shouldn't

674

00:23:51,350 --> 00:23:50,400

admit

675

00:23:53,510 --> 00:23:51,360

even

676

00:23:55,750 --> 00:23:53,520

hinted at the idea that uh you know me

677

00:23:57,750 --> 00:23:55,760

or my neighbor could go get it a success

678

00:23:59,269 --> 00:23:57,760

along these lines a successful strategy

679

00:24:01,190 --> 00:23:59,279

that you've employed for the sake of the

680

00:24:02,950 --> 00:24:01,200

larger cultural conversation the last

681

00:24:05,190 --> 00:24:02,960

years and others have as well has been

682

00:24:07,190 --> 00:24:05,200

to say with regard to uaps these could

683

00:24:08,710 --> 00:24:07,200

be russian these could be chinese what

684

00:24:10,390 --> 00:24:08,720

if another country's military has

685

00:24:13,830 --> 00:24:10,400

leapfrogged us that was a successful

686

00:24:15,830 --> 00:24:13,840

strategy earlier on and you've also

687

00:24:17,990 --> 00:24:15,840

continually hinted and indicated that

688

00:24:21,269 --> 00:24:18,000

you and others are quite aware that many

689

00:24:22,870 --> 00:24:21,279

uaps showing the six observables now are

690

00:24:25,990 --> 00:24:22,880

certainly not another conventional

691

00:24:28,870 --> 00:24:26,000

military superpower given the incredible

692

00:24:30,549 --> 00:24:28,880

dangers that can occur in the fog of war

693

00:24:32,789 --> 00:24:30,559

and given we're now talking about

694

00:24:35,110 --> 00:24:32,799

russia's true capabilities do you think

695

00:24:36,950 --> 00:24:35,120

it may be time to shift or drop the

696

00:24:38,549 --> 00:24:36,960

these uaps could be russian we're not

697

00:24:39,510 --> 00:24:38,559

sure talking point for the sake of

698

00:24:41,430 --> 00:24:39,520

clarity

699

00:24:43,750 --> 00:24:41,440

i i don't because there's still people

700

00:24:45,430 --> 00:24:43,760

that haven't crossed that bridge yet and

701
00:24:47,430 --> 00:24:45,440
you have to leave the benefit of the

702
00:24:49,510 --> 00:24:47,440
doubt you have to give them a way to

703
00:24:51,269 --> 00:24:49,520
look at this topic because there are

704
00:24:53,430 --> 00:24:51,279
people who the moment you say that

705
00:24:55,430 --> 00:24:53,440
something could be existential they will

706
00:24:56,870 --> 00:24:55,440
immediately shut down they will not even

707
00:24:58,390 --> 00:24:56,880
listen to the very next word you have to

708
00:25:00,390 --> 00:24:58,400
say and i experienced it when i was in

709
00:25:02,310 --> 00:25:00,400
the secretary's office briefing some

710
00:25:03,510 --> 00:25:02,320
very senior people i had some people who

711
00:25:06,149 --> 00:25:03,520
just at the end of the briefing could

712
00:25:07,510 --> 00:25:06,159
not process the topic and i was pawned

713
00:25:08,870 --> 00:25:07,520

off to other people because not because

714

00:25:11,510 --> 00:25:08,880

they didn't believe in it it was just

715

00:25:13,590 --> 00:25:11,520

too overwhelming they just could not

716

00:25:15,269 --> 00:25:13,600

they could not process the data and they

717

00:25:16,390 --> 00:25:15,279

admitted it and look i don't even want

718

00:25:18,070 --> 00:25:16,400

to think about it well what do you mean

719

00:25:20,870 --> 00:25:18,080

you don't believe it no i i can't think

720

00:25:21,990 --> 00:25:20,880

about it because it's too much right

721

00:25:23,990 --> 00:25:22,000

and so

722

00:25:25,750 --> 00:25:24,000

uh i think you have to leave that door

723

00:25:28,230 --> 00:25:25,760

open because from a national security

724

00:25:30,230 --> 00:25:28,240

perspective the look let's face it the

725

00:25:31,669 --> 00:25:30,240

department of defense mission is to to

726

00:25:33,990 --> 00:25:31,679

understand and have the potential to

727

00:25:35,830 --> 00:25:34,000

defeat our adversaries if needed

728

00:25:38,070 --> 00:25:35,840

so you have to frame this conversation

729

00:25:40,789 --> 00:25:38,080

potentially as a potential adversary

730

00:25:41,990 --> 00:25:40,799

right if you want potential involvement

731

00:25:43,190 --> 00:25:42,000

from the intelligence community

732

00:25:44,390 --> 00:25:43,200

department of defense which by the way

733

00:25:47,110 --> 00:25:44,400

they have a lot of data so if you want

734

00:25:49,430 --> 00:25:47,120

that data you have to be very careful

735

00:25:50,230 --> 00:25:49,440

how how you couch the question if you

736

00:25:52,789 --> 00:25:50,240

ask

737

00:25:54,310 --> 00:25:52,799

the the department of defense how much

738

00:25:55,350 --> 00:25:54,320

how many files do you have on ufos

739

00:25:57,510 --> 00:25:55,360

chances are they're going to come back

740

00:25:58,549 --> 00:25:57,520

and say not very many if you come back

741

00:26:00,549 --> 00:25:58,559

and you say

742

00:26:03,269 --> 00:26:00,559

how many uh reports you have on

743

00:26:04,950 --> 00:26:03,279

unidentified uas incurring into our our

744

00:26:07,029 --> 00:26:04,960

controlled airspace

745

00:26:07,750 --> 00:26:07,039

here and and abroad they're probably

746

00:26:10,070 --> 00:26:07,760

going to come back with a different

747

00:26:11,190 --> 00:26:10,080

answer say well that we got a lot of

748

00:26:14,149 --> 00:26:11,200

right so

749

00:26:16,149 --> 00:26:14,159

uh you you have to you have to keep you

750

00:26:18,870 --> 00:26:16,159

have to keep that option open even

751
00:26:21,590 --> 00:26:18,880
though it is increasingly more and more

752
00:26:23,430 --> 00:26:21,600
uh remote chance that that is what we're

753
00:26:25,110 --> 00:26:23,440
dealing with you know but again i have

754
00:26:26,390 --> 00:26:25,120
to be very careful you have to leave

755
00:26:28,549 --> 00:26:26,400
that door open

756
00:26:29,350 --> 00:26:28,559
uh even if it's just a crack in my

757
00:26:31,430 --> 00:26:29,360
opinion

758
00:26:33,190 --> 00:26:31,440
okay and really kind of serves the same

759
00:26:34,549 --> 00:26:33,200
purpose as well if you if you're just

760
00:26:36,230 --> 00:26:34,559
trying to collect intelligence on

761
00:26:37,510 --> 00:26:36,240
unidentifieds in your airspace whatever

762
00:26:39,269 --> 00:26:37,520
it is you're just trying to get the

763
00:26:41,269 --> 00:26:39,279

information and figure it out from there

764

00:26:43,830 --> 00:26:41,279

which kind of shifts me to

765

00:26:48,310 --> 00:26:43,840

the uss princeton in the recent release

766

00:26:49,029 --> 00:26:48,320

of the kind of uh swarms of uaps

767

00:26:51,029 --> 00:26:49,039

but

768

00:26:52,950 --> 00:26:51,039

documented in the deck logs as

769

00:26:55,590 --> 00:26:52,960

identified as drones

770

00:26:57,750 --> 00:26:55,600

do you know if that's just something of

771

00:26:59,269 --> 00:26:57,760

routine habit do they just do that even

772

00:27:01,269 --> 00:26:59,279

if it's something that they have you

773

00:27:02,549 --> 00:27:01,279

know no idea what it is

774

00:27:04,630 --> 00:27:02,559

yeah because they know it's going to be

775

00:27:05,909 --> 00:27:04,640

foia i mean

776

00:27:08,070 --> 00:27:05,919

they're doing exactly what i would have

777

00:27:09,750 --> 00:27:08,080

done if i was still in uniform i would i

778

00:27:11,590 --> 00:27:09,760

would i would put quote-unquote drones

779

00:27:13,830 --> 00:27:11,600

look when i look at the 1910 that i

780

00:27:15,990 --> 00:27:13,840

requested i didn't write the word ufo i

781

00:27:17,269 --> 00:27:16,000

wrote the word uas you know and then i

782

00:27:19,990 --> 00:27:17,279

said you know things like i don't know

783

00:27:21,510 --> 00:27:20,000

balloons drones quadcopters right sure

784

00:27:22,710 --> 00:27:21,520

uh we weren't talking about that the

785

00:27:24,870 --> 00:27:22,720

problem is that the people i was doing

786

00:27:26,389 --> 00:27:24,880

the request weren't clear to my program

787

00:27:27,669 --> 00:27:26,399

so i couldn't say ufos because then

788

00:27:30,310 --> 00:27:27,679

that's acknowledging we had a ufo

789

00:27:31,750 --> 00:27:30,320

program which i couldn't do so you know

790

00:27:33,430 --> 00:27:31,760

you that

791

00:27:35,750 --> 00:27:33,440

those those tech blogs are written that

792

00:27:37,510 --> 00:27:35,760

way because of that exact reason you

793

00:27:39,029 --> 00:27:37,520

know they say hey look you know whatever

794

00:27:41,190 --> 00:27:39,039

you do don't write the word ufo because

795

00:27:43,430 --> 00:27:41,200

then they're gonna that that will be

796

00:27:45,269 --> 00:27:43,440

foi able right freedom of information act

797

00:27:46,630 --> 00:27:45,279

and then they're gonna say ah see i told

798

00:27:49,029 --> 00:27:46,640

you guys we're hiding information so

799

00:27:50,710 --> 00:27:49,039

just write the word drone and you know

800

00:27:53,350 --> 00:27:50,720

we'll we'll take it from there we know

801
00:27:54,950 --> 00:27:53,360
what you mean wink wink nudge nudge um

802
00:27:56,710 --> 00:27:54,960
you know sometimes that that is the case

803
00:27:58,710 --> 00:27:56,720
and other times you know maybe there

804
00:28:00,149 --> 00:27:58,720
there are drones but but

805
00:28:01,909 --> 00:28:00,159
not all the time

806
00:28:03,190 --> 00:28:01,919
what are so if you're familiar with this

807
00:28:07,269 --> 00:28:03,200
what are some of the

808
00:28:09,990 --> 00:28:07,279
uh differences of uh uaps uh in i don't

809
00:28:12,710 --> 00:28:10,000
know like our locust drone swarm

810
00:28:14,230 --> 00:28:12,720
uh program that we have and

811
00:28:16,630 --> 00:28:14,240
you know work on i don't know where that

812
00:28:19,110 --> 00:28:16,640
program's at but i know people like to

813
00:28:21,430 --> 00:28:19,120

you know compare the two so look bottom

814

00:28:23,269 --> 00:28:21,440

line is drones are are subject to

815

00:28:25,510 --> 00:28:23,279

the same limitations any anything else

816

00:28:27,510 --> 00:28:25,520

we have technologically speaking okay

817

00:28:29,350 --> 00:28:27,520

if you want something that can fly and

818

00:28:31,590 --> 00:28:29,360

loiter we call loiter for a long time

819

00:28:32,630 --> 00:28:31,600

you have to build big wings

820

00:28:34,230 --> 00:28:32,640

and something that's going to fly at

821

00:28:35,909 --> 00:28:34,240

super high altitude

822

00:28:37,110 --> 00:28:35,919

and it's just going to kind of loiter up

823

00:28:38,789 --> 00:28:37,120

there for weeks and weeks and weeks and

824

00:28:40,630 --> 00:28:38,799

weeks and there are examples of those

825

00:28:41,909 --> 00:28:40,640

long range

826

00:28:43,269 --> 00:28:41,919

drones they're not very fast

827

00:28:44,310 --> 00:28:43,279

particularly

828

00:28:46,310 --> 00:28:44,320

and they don't have a whole lot of

829

00:28:47,990 --> 00:28:46,320

maneuverability and they don't hover

830

00:28:50,310 --> 00:28:48,000

they just kind of float up there right

831

00:28:53,269 --> 00:28:50,320

then you have the quadcopters and and

832

00:28:54,789 --> 00:28:53,279

whatnot these are drones that can

833

00:28:56,149 --> 00:28:54,799

what appear to be instantaneous

834

00:28:57,590 --> 00:28:56,159

acceleration but they're not really

835

00:28:58,870 --> 00:28:57,600

instantaneous acceleration we're not

836

00:29:01,190 --> 00:28:58,880

talking about

837

00:29:03,110 --> 00:29:01,200

zero to 60 in one second you know that's

838

00:29:05,190 --> 00:29:03,120

not really instantaneous acceleration

839

00:29:07,029 --> 00:29:05,200

what we're talking about are just drones

840

00:29:08,070 --> 00:29:07,039

that can go very very fast uh and they

841

00:29:10,070 --> 00:29:08,080

can switch but they don't have loiter

842

00:29:11,590 --> 00:29:10,080

capability and they don't have really

843

00:29:13,350 --> 00:29:11,600

high altitude capability so there's

844

00:29:15,190 --> 00:29:13,360

always a compromise either you have

845

00:29:16,789 --> 00:29:15,200

something that can hover and move around

846

00:29:18,950 --> 00:29:16,799

pretty quickly and rapidly for a very

847

00:29:20,870 --> 00:29:18,960

short period of time because the lift

848

00:29:22,389 --> 00:29:20,880

capability on that is is subject to its

849

00:29:24,789 --> 00:29:22,399

payload right and his payload in this

850

00:29:27,110 --> 00:29:24,799

case is is a battery and by the way

851
00:29:29,830 --> 00:29:27,120
lithium-ion batteries aren't lightweight

852
00:29:31,830 --> 00:29:29,840
they're heavy so you need to to use that

853
00:29:33,350 --> 00:29:31,840
juice you've got to have a pretty robust

854
00:29:34,789 --> 00:29:33,360
platform now people say well i have this

855
00:29:36,549 --> 00:29:34,799
little quadcopter yeah but that thing

856
00:29:37,990 --> 00:29:36,559
flies for 15 minutes

857
00:29:39,269 --> 00:29:38,000
you want to sit there and move around

858
00:29:40,870 --> 00:29:39,279
for hours and hours and hours with

859
00:29:42,310 --> 00:29:40,880
blinking lights and moving over the deck

860
00:29:43,350 --> 00:29:42,320
of a ship in the middle of the ocean and

861
00:29:44,630 --> 00:29:43,360
by the way you have to fly there in the

862
00:29:46,630 --> 00:29:44,640
first place then you got to fly out of

863
00:29:48,149 --> 00:29:46,640

there that ain't a little quadcopter you

864

00:29:49,430 --> 00:29:48,159

know you can you can convince yourself

865

00:29:51,029 --> 00:29:49,440

all day long that you think it is but

866

00:29:52,710 --> 00:29:51,039

it's not it's something else the

867

00:29:54,789 --> 00:29:52,720

question is what is it is there some

868

00:29:57,190 --> 00:29:54,799

sort of hybrid technology where someone

869

00:29:59,669 --> 00:29:57,200

has figured out to use uh you know some

870

00:30:02,630 --> 00:29:59,679

sort of semi-inflatable lighter than air

871

00:30:04,789 --> 00:30:02,640

balloon with an impeller uh that allows

872

00:30:06,070 --> 00:30:04,799

it to move like a drone but float like a

873

00:30:07,909 --> 00:30:06,080

balloon and

874

00:30:10,149 --> 00:30:07,919

sure but then does that drone go

875

00:30:11,269 --> 00:30:10,159

underwater well no okay now we've got

876

00:30:13,590 --> 00:30:11,279

another problem

877

00:30:15,510 --> 00:30:13,600

uso does anything go into space no it

878

00:30:17,510 --> 00:30:15,520

doesn't go into space does that thing

879

00:30:20,149 --> 00:30:17,520

you know can it can it can it disable

880

00:30:22,389 --> 00:30:20,159

nuclear capabilities well no so

881

00:30:25,510 --> 00:30:22,399

you know you i'm sure you catch my drift

882

00:30:28,230 --> 00:30:25,520

here right oh yeah yeah and i'm i'm on

883

00:30:29,909 --> 00:30:28,240

the same page completely i just you know

884

00:30:31,830 --> 00:30:29,919

in my research i come across things and

885

00:30:33,669 --> 00:30:31,840

i'm like if we could draw a line between

886

00:30:35,430 --> 00:30:33,679

this technology that obviously exists

887

00:30:39,190 --> 00:30:35,440

and it's documented you know obviously

888

00:30:41,830 --> 00:30:40,470

people say all the time well lou doesn't

889

00:30:43,110 --> 00:30:41,840

know anything about drones actually you

890

00:30:44,310 --> 00:30:43,120

know what that's one of the reasons why

891

00:30:46,630 --> 00:30:44,320

i was probably able to generate it

892

00:30:49,029 --> 00:30:46,640

because i did actually i worked on back

893

00:30:51,190 --> 00:30:49,039

in the 90s some very at the time very

894

00:30:53,909 --> 00:30:51,200

sensitive uav platforms hunter uav or

895

00:30:55,909 --> 00:30:53,919

the original pioneer uav dark star uav

896

00:30:57,750 --> 00:30:55,919

and technology protection and you know

897

00:30:59,110 --> 00:30:57,760

some cases cruise missile technology i

898

00:31:01,750 --> 00:30:59,120

won't go into detail

899

00:31:03,830 --> 00:31:01,760

and and they simply do did not nor do

900

00:31:06,230 --> 00:31:03,840

they now have some of the capabilities

901
00:31:07,590 --> 00:31:06,240
that we're seeing you know

902
00:31:09,029 --> 00:31:07,600
you might have a drone that can do one

903
00:31:10,549 --> 00:31:09,039
of those things but

904
00:31:12,630 --> 00:31:10,559
not all five

905
00:31:14,149 --> 00:31:12,640
i gotta ask you this question sorry j

906
00:31:15,990 --> 00:31:14,159
then i'll let you take it

907
00:31:18,389 --> 00:31:16,000
um roswell you've been talking about

908
00:31:20,230 --> 00:31:18,399
roswell and i know um

909
00:31:22,950 --> 00:31:20,240
you know things can get conflated or

910
00:31:26,389 --> 00:31:22,960
whatever but i have just like searched

911
00:31:28,870 --> 00:31:26,399
those blue book files so much

912
00:31:31,430 --> 00:31:28,880
and i can't find anything on that on

913
00:31:33,830 --> 00:31:31,440

roswell in there so when you talk about

914

00:31:35,590 --> 00:31:33,840

data my question is is it publicly

915

00:31:37,110 --> 00:31:35,600

available data that everyone has seen

916

00:31:39,190 --> 00:31:37,120

whether it be in books or something like

917

00:31:41,350 --> 00:31:39,200

that or are you privy to something that

918

00:31:43,110 --> 00:31:41,360

that we would not be

919

00:31:46,389 --> 00:31:43,120

yeah i i can't go into a lot of detail

920

00:31:49,269 --> 00:31:46,399

on that unfortunately that's all right

921

00:31:51,590 --> 00:31:49,279

because that gets into my my

922

00:31:54,549 --> 00:31:51,600

that crosses the line of my mda and what

923

00:31:57,269 --> 00:31:54,559

i have access to now um i'm really not

924

00:31:59,430 --> 00:31:57,279

at privy to to elaborate on um you know

925

00:32:01,590 --> 00:31:59,440

at some point in the future maybe um

926

00:32:02,950 --> 00:32:01,600

sure you know hopefully you know i think

927

00:32:04,470 --> 00:32:02,960

if things continue to move in the

928

00:32:06,310 --> 00:32:04,480

direction that they are

929

00:32:08,950 --> 00:32:06,320

um it's going to become increasingly

930

00:32:11,430 --> 00:32:08,960

evident that um

931

00:32:14,230 --> 00:32:11,440

several of us that were part of atip are

932

00:32:15,590 --> 00:32:14,240

are still heavily engaged in this topic

933

00:32:17,430 --> 00:32:15,600

um

934

00:32:18,310 --> 00:32:17,440

in a capacity that may not necessarily

935

00:32:19,750 --> 00:32:18,320

be

936

00:32:22,310 --> 00:32:19,760

um

937

00:32:25,750 --> 00:32:22,320

you know readily available to the public

938

00:32:27,350 --> 00:32:25,760

uh we are we are very much still very

939

00:32:28,710 --> 00:32:27,360

patriotic we want to do the right thing

940

00:32:30,230 --> 00:32:28,720

we want to help

941

00:32:32,710 --> 00:32:30,240

um and so

942

00:32:34,950 --> 00:32:32,720

you know don't be surprised if if

943

00:32:36,389 --> 00:32:34,960

certain people affiliated with with atip

944

00:32:37,830 --> 00:32:36,399

and other efforts

945

00:32:39,830 --> 00:32:37,840

you know may be working behind the

946

00:32:41,669 --> 00:32:39,840

scenes now to to try to continue this

947

00:32:43,190 --> 00:32:41,679

conversation

948

00:32:45,909 --> 00:32:43,200

sure fantastic

949

00:32:48,710 --> 00:32:45,919

understood um along those lines going

950

00:32:50,630 --> 00:32:48,720

back to world war ii and beyond uh

951
00:32:52,470 --> 00:32:50,640
potentially millennia if you're looking

952
00:32:55,750 --> 00:32:52,480
at people like jacques vallee and chris

953
00:32:56,789 --> 00:32:55,760
obeck's work compiling old case reports

954
00:32:59,029 --> 00:32:56,799
um

955
00:33:00,870 --> 00:32:59,039
from the historical record we have

956
00:33:02,789 --> 00:33:00,880
plenty of data that suggests that

957
00:33:05,830 --> 00:33:02,799
large-scale warfare often seems to

958
00:33:07,669 --> 00:33:05,840
attract surveillance by uaps ufos

959
00:33:10,070 --> 00:33:07,679
on related phenomena do you have any

960
00:33:12,230 --> 00:33:10,080
thoughts or potential concerns about uap

961
00:33:14,870 --> 00:33:12,240
being drawn out in eastern europe and

962
00:33:17,750 --> 00:33:14,880
russia right now and can you foresee the

963
00:33:20,630 --> 00:33:17,760

possibility of obvious uap activity in

964

00:33:23,110 --> 00:33:20,640

war zones undermining public confidence

965

00:33:24,950 --> 00:33:23,120

in any way

966

00:33:28,230 --> 00:33:24,960

i mean it's possible uh you know we

967

00:33:30,870 --> 00:33:28,240

haven't any seen any overt involvement

968

00:33:32,789 --> 00:33:30,880

um you know uh

969

00:33:35,830 --> 00:33:32,799

let me

970

00:33:39,029 --> 00:33:35,840

um

971

00:33:40,950 --> 00:33:39,039

this is a very emotionally charged topic

972

00:33:44,389 --> 00:33:40,960

for a lot of people right

973

00:33:45,750 --> 00:33:44,399

and if someone says um you know these

974

00:33:46,870 --> 00:33:45,760

things are

975

00:33:48,149 --> 00:33:46,880

benign they're here to help us they're

976
00:33:49,430 --> 00:33:48,159
here to stop us from annihilating

977
00:33:50,710 --> 00:33:49,440
ourselves

978
00:33:52,549 --> 00:33:50,720
let's just take that argument for just

979
00:33:53,990 --> 00:33:52,559
one second if i may

980
00:33:56,070 --> 00:33:54,000
um

981
00:33:56,870 --> 00:33:56,080
in 1945

982
00:33:59,430 --> 00:33:56,880
we

983
00:34:01,669 --> 00:33:59,440
instantaneously converted the biomass of

984
00:34:04,230 --> 00:34:01,679
over 500 000 people from a solid state

985
00:34:06,470 --> 00:34:04,240
to a gaseous state we vaporize human

986
00:34:08,310 --> 00:34:06,480
beings using an atomic bomb two of them

987
00:34:10,629 --> 00:34:08,320
in fact hiroshima and nagasaki 13

988
00:34:12,470 --> 00:34:10,639

kilotons and roughly 22 some

989

00:34:14,710 --> 00:34:12,480

kilo tons respectively

990

00:34:16,790 --> 00:34:14,720

and ended the lives of both short term

991

00:34:18,310 --> 00:34:16,800

and long term of over half a million

992

00:34:20,710 --> 00:34:18,320

people

993

00:34:22,869 --> 00:34:20,720

nowhere did the uap stop that

994

00:34:25,669 --> 00:34:22,879

nowhere did the uap stop our development

995

00:34:28,069 --> 00:34:25,679

into the nuclear age in fact nowhere did

996

00:34:30,950 --> 00:34:28,079

uaps stop us from going to war in world

997

00:34:32,310 --> 00:34:30,960

war ii or korean war or vietnam

998

00:34:33,750 --> 00:34:32,320

they haven't stopped us right now with

999

00:34:35,030 --> 00:34:33,760

ukraine they haven't stopped coveted

1000

00:34:36,470 --> 00:34:35,040

they haven't stopped global climate

1001
00:34:37,750 --> 00:34:36,480
change they haven't stopped famine

1002
00:34:41,190 --> 00:34:37,760
global famine

1003
00:34:44,310 --> 00:34:41,200
so to suggest that um a uap may be here

1004
00:34:46,069 --> 00:34:44,320
for for the benefit of mankind

1005
00:34:47,589 --> 00:34:46,079
that really has yet to be seen we

1006
00:34:49,430 --> 00:34:47,599
haven't we haven't seen any now what we

1007
00:34:50,950 --> 00:34:49,440
have seen is absolute

1008
00:34:52,869 --> 00:34:50,960
uh preparation of the battlefield we've

1009
00:34:54,790 --> 00:34:52,879
seen seen things looking at at our

1010
00:34:56,470 --> 00:34:54,800
capabilities what military capabilities

1011
00:34:58,310 --> 00:34:56,480
nuclear capabilities that that we have

1012
00:35:00,710 --> 00:34:58,320
seen what does that mean we don't know

1013
00:35:03,030 --> 00:35:00,720

yet so i say that just as a word of

1014

00:35:05,030 --> 00:35:03,040

caution for anybody out there who wants

1015

00:35:06,390 --> 00:35:05,040

you know to follow the the strain of you

1016

00:35:09,349 --> 00:35:06,400

know they're here and they want to sing

1017

00:35:11,190 --> 00:35:09,359

kumbaya and teach us well okay maybe but

1018

00:35:13,990 --> 00:35:11,200

but they haven't they haven't they

1019

00:35:16,790 --> 00:35:14,000

haven't really done anything yet overtly

1020

00:35:19,510 --> 00:35:16,800

to to help our species out in a way that

1021

00:35:20,870 --> 00:35:19,520

we can we can publicly recognize so

1022

00:35:23,030 --> 00:35:20,880

the real question is okay then why are

1023

00:35:24,550 --> 00:35:23,040

they here right maybe they're natural

1024

00:35:26,150 --> 00:35:24,560

maybe they're just here to observe maybe

1025

00:35:27,510 --> 00:35:26,160

they're just you know like us right

1026
00:35:29,190 --> 00:35:27,520
they're not going to interfere when we

1027
00:35:31,349 --> 00:35:29,200
go to to the middle of the congo and

1028
00:35:33,510 --> 00:35:31,359
watch the big silverback gorillas when

1029
00:35:35,349 --> 00:35:33,520
they fight they beat their chest

1030
00:35:37,190 --> 00:35:35,359
we don't necessarily interfere right

1031
00:35:39,510 --> 00:35:37,200
when we're filming a documentary in

1032
00:35:41,670 --> 00:35:39,520
africa and the cheetah chasing the the

1033
00:35:42,470 --> 00:35:41,680
antelope and the cheetah tears into it

1034
00:35:44,310 --> 00:35:42,480
you know

1035
00:35:47,190 --> 00:35:44,320
the cameraman doesn't get involved just

1036
00:35:48,710 --> 00:35:47,200
he's just documenting what's happening

1037
00:35:51,190 --> 00:35:48,720
so that's possibility we just simply

1038
00:35:52,790 --> 00:35:51,200

don't know um and as far as your

1039

00:35:54,069 --> 00:35:52,800

question is here with the ukraine now

1040

00:35:55,510 --> 00:35:54,079

what we're seeing with russia or

1041

00:35:58,470 --> 00:35:55,520

potentially another

1042

00:36:00,470 --> 00:35:58,480

issue in the future um

1043

00:36:02,390 --> 00:36:00,480

you know i i i can't answer that

1044

00:36:05,109 --> 00:36:02,400

question i wouldn't be surprised if

1045

00:36:06,950 --> 00:36:05,119

there is increased interest in what we

1046

00:36:09,109 --> 00:36:06,960

are doing to each other

1047

00:36:11,430 --> 00:36:09,119

but i'm not convinced yet that

1048

00:36:13,030 --> 00:36:11,440

anything's going to happen to to stop it

1049

00:36:14,790 --> 00:36:13,040

um i think i think that's going to be up

1050

00:36:16,550 --> 00:36:14,800

to us to try to figure out

1051
00:36:18,310 --> 00:36:16,560
yeah and you just go back to world war

1052
00:36:19,910 --> 00:36:18,320
ii and the foo fighters and you know

1053
00:36:22,310 --> 00:36:19,920
those were definitely seen and we've

1054
00:36:24,710 --> 00:36:22,320
seen these around nuclear uh reactors

1055
00:36:26,310 --> 00:36:24,720
and in in sights and uh and all that for

1056
00:36:28,230 --> 00:36:26,320
a long time but like you said they

1057
00:36:30,310 --> 00:36:28,240
haven't done anything to stop it the one

1058
00:36:32,310 --> 00:36:30,320
thing i was curious about is uh we

1059
00:36:34,310 --> 00:36:32,320
pretty much decimated the marshall

1060
00:36:36,150 --> 00:36:34,320
islands with nuclear bombs is that a

1061
00:36:37,430 --> 00:36:36,160
place we've seen a lot of uaps do you

1062
00:36:39,190 --> 00:36:37,440
know

1063
00:36:40,710 --> 00:36:39,200

um

1064

00:36:42,150 --> 00:36:40,720

you know to to be completely honest with

1065

00:36:44,390 --> 00:36:42,160

you i'm not aware of any specific

1066

00:36:45,750 --> 00:36:44,400

reporting um i am aware of alleged

1067

00:36:47,030 --> 00:36:45,760

reporting around things such as

1068

00:36:49,349 --> 00:36:47,040

chernobyl

1069

00:36:50,790 --> 00:36:49,359

and fukushima and possibly even three

1070

00:36:53,990 --> 00:36:50,800

mile island

1071

00:36:56,790 --> 00:36:54,000

um you know also some other locations

1072

00:36:58,310 --> 00:36:56,800

that i can't talk about um that are

1073

00:37:00,150 --> 00:36:58,320

nuclear related

1074

00:37:02,230 --> 00:37:00,160

um so that's that's interesting that's

1075

00:37:06,069 --> 00:37:02,240

that's something that is is curious

1076

00:37:08,310 --> 00:37:06,079

right uh yeah definitely i so uh i don't

1077

00:37:09,990 --> 00:37:08,320

know about bikini atoll or anything like

1078

00:37:11,190 --> 00:37:10,000

that frankly there's not a whole lot of

1079

00:37:12,870 --> 00:37:11,200

persistent surveillance out there

1080

00:37:15,990 --> 00:37:12,880

there's a whole whole lot of nothing out

1081

00:37:17,589 --> 00:37:16,000

there so to dedicate resources uh i'm

1082

00:37:19,670 --> 00:37:17,599

not sure now there does seem to be some

1083

00:37:21,670 --> 00:37:19,680

sort of hot spots as we've now

1084

00:37:23,670 --> 00:37:21,680

seen with things like catalina island

1085

00:37:25,910 --> 00:37:23,680

and some other places

1086

00:37:27,990 --> 00:37:25,920

the question is why well there's still a

1087

00:37:30,069 --> 00:37:28,000

lot of discussion on potentially why

1088

00:37:32,710 --> 00:37:30,079

there's a lot of potential reasons

1089

00:37:34,390 --> 00:37:32,720

we don't exactly know yet

1090

00:37:35,990 --> 00:37:34,400

now what maybe the key is to look at

1091

00:37:37,510 --> 00:37:36,000

other hot spots and try to identify

1092

00:37:39,349 --> 00:37:37,520

commonalities so if you have let's say

1093

00:37:41,349 --> 00:37:39,359

five hot spots that you know you're

1094

00:37:42,950 --> 00:37:41,359

getting a lot of uap activity are there

1095

00:37:45,910 --> 00:37:42,960

commonalities are there commonalities

1096

00:37:46,630 --> 00:37:45,920

perhaps in the in in the soil and and

1097

00:37:51,030 --> 00:37:46,640

the

1098

00:37:53,190 --> 00:37:51,040

you know

1099

00:37:54,390 --> 00:37:53,200

geological formations there or is there

1100

00:37:55,670 --> 00:37:54,400

something there from a mineral

1101
00:37:57,510 --> 00:37:55,680
perspective or there's something there

1102
00:37:59,510 --> 00:37:57,520
from a technical perspective technology

1103
00:38:00,790 --> 00:37:59,520
perspective there that we have right so

1104
00:38:02,150 --> 00:38:00,800
these are all the questions that are

1105
00:38:04,069 --> 00:38:02,160
that are being asked

1106
00:38:05,349 --> 00:38:04,079
are you familiar with earth lights by

1107
00:38:06,870 --> 00:38:05,359
chance

1108
00:38:09,670 --> 00:38:06,880
yeah i think you refer to them as spook

1109
00:38:10,870 --> 00:38:09,680
lights or ghost lights yeah yeah um

1110
00:38:13,750 --> 00:38:10,880
you know when you when you talk about

1111
00:38:15,910 --> 00:38:13,760
these things possibly being you know uh

1112
00:38:18,870 --> 00:38:15,920
here and and being natural to this place

1113
00:38:20,310 --> 00:38:18,880

i tend to think of that um have you

1114

00:38:22,870 --> 00:38:20,320

thought on that at all

1115

00:38:24,630 --> 00:38:22,880

sure marfa texas joplin missouri these

1116

00:38:26,230 --> 00:38:24,640

things are very common in fact

1117

00:38:28,550 --> 00:38:26,240

indigenous people aboriginal people have

1118

00:38:31,910 --> 00:38:28,560

been reporting these for millennia

1119

00:38:34,310 --> 00:38:31,920

and so it's it's nothing yep any

1120

00:38:35,510 --> 00:38:34,320

connection there to these uaps

1121

00:38:36,470 --> 00:38:35,520

possibly

1122

00:38:37,829 --> 00:38:36,480

possible

1123

00:38:40,870 --> 00:38:37,839

yeah

1124

00:38:45,270 --> 00:38:40,880

any chance you could tell us about a um

1125

00:38:50,069 --> 00:38:47,670

wow uh i'd rather not do that right now

1126

00:38:52,150 --> 00:38:50,079

that's fine um it's i don't want to

1127

00:38:54,950 --> 00:38:52,160

prejudice a jury you know it's

1128

00:38:56,790 --> 00:38:54,960

interesting it's it's it's it's tempting

1129

00:38:57,750 --> 00:38:56,800

it really is but

1130

00:38:59,030 --> 00:38:57,760

um

1131

00:39:01,190 --> 00:38:59,040

i think i'll probably say that for

1132

00:39:02,870 --> 00:39:01,200

another conversation at some point

1133

00:39:04,069 --> 00:39:02,880

because at the end of the day it's you

1134

00:39:06,150 --> 00:39:04,079

know people always want to know what

1135

00:39:07,910 --> 00:39:06,160

does lou think and it's you know it's

1136

00:39:09,270 --> 00:39:07,920

really tempting but at the end of the

1137

00:39:10,790 --> 00:39:09,280

day doesn't matter what i think what

1138

00:39:11,990 --> 00:39:10,800

matters is what what the facts of the

1139

00:39:13,030 --> 00:39:12,000

data suggest

1140

00:39:14,470 --> 00:39:13,040

and this is again the problem with

1141

00:39:15,589 --> 00:39:14,480

ufology up to to this day because

1142

00:39:16,870 --> 00:39:15,599

everybody thinks it matters what they

1143

00:39:18,550 --> 00:39:16,880

think and it doesn't

1144

00:39:20,310 --> 00:39:18,560

you know it doesn't

1145

00:39:21,430 --> 00:39:20,320

the the the phenomenon to give the damn

1146

00:39:22,710 --> 00:39:21,440

what you think

1147

00:39:23,990 --> 00:39:22,720

it doesn't give a damn what i think or

1148

00:39:26,150 --> 00:39:24,000

anybody else

1149

00:39:28,470 --> 00:39:26,160

um and people that are making a nice

1150

00:39:30,150 --> 00:39:28,480

little cottage industry by by providing

1151

00:39:31,670 --> 00:39:30,160

a narrative to people i know and i'm the

1152

00:39:32,870 --> 00:39:31,680

only one that knows well you know what

1153

00:39:34,710 --> 00:39:32,880

forgive my language but you're full of

1154

00:39:36,710 --> 00:39:34,720

you know

1155

00:39:37,670 --> 00:39:36,720

you need to go back and and and pick up

1156

00:39:38,950 --> 00:39:37,680

another hobby because you're a

1157

00:39:40,950 --> 00:39:38,960

distraction to this you're not you're

1158

00:39:42,390 --> 00:39:40,960

not helping you're actually you're

1159

00:39:43,829 --> 00:39:42,400

actually what you are that we want to

1160

00:39:45,270 --> 00:39:43,839

know why we haven't had any progress in

1161

00:39:46,470 --> 00:39:45,280

the last 75 years look in the mirror

1162

00:39:48,310 --> 00:39:46,480

because you've been holding it back

1163

00:39:49,349 --> 00:39:48,320

because that nonsensical way of looking

1164

00:39:50,950 --> 00:39:49,359

at things

1165

00:39:52,390 --> 00:39:50,960

you know we we have to avoid that

1166

00:39:54,069 --> 00:39:52,400

temptation

1167

00:39:56,069 --> 00:39:54,079

of providing answers because we don't

1168

00:39:57,829 --> 00:39:56,079

have them yet and you know i'll tell you

1169

00:39:59,510 --> 00:39:57,839

right now lou elizondo isn't smart

1170

00:40:01,109 --> 00:39:59,520

enough to figure it out we need smart

1171

00:40:02,950 --> 00:40:01,119

people on board we need academia

1172

00:40:04,150 --> 00:40:02,960

scientists and technologists and we need

1173

00:40:05,910 --> 00:40:04,160

governments and we need i mean we need

1174

00:40:09,109 --> 00:40:05,920

everybody on board you know philosophers

1175

00:40:11,750 --> 00:40:09,119

theologians sociologists psychologists

1176
00:40:13,829 --> 00:40:11,760
because this topic is is just as much as

1177
00:40:15,510 --> 00:40:13,839
about us as a species as it is about

1178
00:40:16,790 --> 00:40:15,520
anything else you know the way we even

1179
00:40:19,349 --> 00:40:16,800
look at things

1180
00:40:22,470 --> 00:40:19,359
uh may not be the right way to even even

1181
00:40:25,510 --> 00:40:22,480
even to to to to

1182
00:40:27,990 --> 00:40:25,520
try to process what this really is about

1183
00:40:29,670 --> 00:40:28,000
i mean we may be our worst enemy when it

1184
00:40:31,750 --> 00:40:29,680
comes to this this

1185
00:40:33,510 --> 00:40:31,760
topic because we

1186
00:40:35,430 --> 00:40:33,520
psychologically just we're not even

1187
00:40:36,470 --> 00:40:35,440
asking the right questions

1188
00:40:38,950 --> 00:40:36,480

yep

1189

00:40:40,470 --> 00:40:38,960

yeah along those lines i i completely

1190

00:40:43,589 --> 00:40:40,480

agree with what you're saying there and

1191

00:40:45,349 --> 00:40:43,599

i uh um i i think along the lines of the

1192

00:40:47,109 --> 00:40:45,359

conversation that we were having before

1193

00:40:49,270 --> 00:40:47,119

we came out in front of the curtain here

1194

00:40:51,430 --> 00:40:49,280

you know there are a lot of people that

1195

00:40:52,470 --> 00:40:51,440

feel that they contribute to the field

1196

00:40:54,470 --> 00:40:52,480

mainly by

1197

00:40:55,910 --> 00:40:54,480

being kind of like subjective

1198

00:40:56,710 --> 00:40:55,920

goalkeepers

1199

00:40:59,109 --> 00:40:56,720

for

1200

00:41:01,589 --> 00:40:59,119

their own subjective

1201
00:41:03,430 --> 00:41:01,599
understanding of the fabric of consensus

1202
00:41:05,910 --> 00:41:03,440
reality or something like that rather

1203
00:41:07,430 --> 00:41:05,920
than where the data actually is you know

1204
00:41:09,829 --> 00:41:07,440
and along the lines of what you're just

1205
00:41:11,990 --> 00:41:09,839
saying with regard to the data and how

1206
00:41:13,990 --> 00:41:12,000
we might not be looking at things in a

1207
00:41:17,510 --> 00:41:14,000
certain way you know some people have

1208
00:41:19,750 --> 00:41:17,520
recently referenced work um by people

1209
00:41:22,790 --> 00:41:19,760
like don hoffman who wrote a book called

1210
00:41:24,470 --> 00:41:22,800
the case against reality uh with and

1211
00:41:27,190 --> 00:41:24,480
this idea within consciousness that

1212
00:41:27,910 --> 00:41:27,200
we've evolved um with kind of blinders

1213
00:41:31,670 --> 00:41:27,920

on

1214

00:41:33,750 --> 00:41:31,680

reality

1215

00:41:36,390 --> 00:41:33,760

because we have you know we don't see

1216

00:41:39,510 --> 00:41:36,400

the ir range we don't hear as well as

1217

00:41:42,790 --> 00:41:39,520

dogs do etc etc etc that we've evolved

1218

00:41:44,870 --> 00:41:42,800

mainly to eat and procreate and anything

1219

00:41:48,150 --> 00:41:44,880

that might spook us or might be outside

1220

00:41:50,390 --> 00:41:48,160

the the range of what we normally need

1221

00:41:52,470 --> 00:41:50,400

has been filtered out i was wondering if

1222

00:41:54,309 --> 00:41:52,480

you have thoughts on that and you had a

1223

00:41:56,550 --> 00:41:54,319

along those lines you had a quote in

1224

00:41:58,710 --> 00:41:56,560

your theory of everything interview

1225

00:42:01,109 --> 00:41:58,720

with kurt a few months ago and you are

1226
00:42:03,589 --> 00:42:01,119
asking how do we pull ourselves out of a

1227
00:42:06,630 --> 00:42:03,599
human paradigm so i'd like to to get

1228
00:42:08,150 --> 00:42:06,640
your reflections on those two thoughts

1229
00:42:09,510 --> 00:42:08,160
well first of all let me i'll address

1230
00:42:11,829 --> 00:42:09,520
that i guess you had a gentleman here

1231
00:42:13,910 --> 00:42:11,839
named terry hall or a woman named terry

1232
00:42:15,270 --> 00:42:13,920
hall i don't know which uh um so no

1233
00:42:17,109 --> 00:42:15,280
offense if i

1234
00:42:18,230 --> 00:42:17,119
if i don't know if you're gender

1235
00:42:19,589 --> 00:42:18,240
sensitive

1236
00:42:21,750 --> 00:42:19,599
but ask the question so well what

1237
00:42:23,349 --> 00:42:21,760
questions should we ask you know i think

1238
00:42:25,270 --> 00:42:23,359

you should ask all the questions

1239

00:42:27,030 --> 00:42:25,280

questions are no there's nothing wrong

1240

00:42:28,870 --> 00:42:27,040

with asking questions the problem is

1241

00:42:31,109 --> 00:42:28,880

when we provide answers that we don't we

1242

00:42:33,589 --> 00:42:31,119

don't know um

1243

00:42:35,430 --> 00:42:33,599

my advice to to terry is to continue

1244

00:42:38,790 --> 00:42:35,440

asking any and all questions that you

1245

00:42:41,190 --> 00:42:38,800

have but recognizing that that

1246

00:42:43,109 --> 00:42:41,200

we we probably don't have a lot of the

1247

00:42:44,630 --> 00:42:43,119

answers we're seeking and in fact some

1248

00:42:45,829 --> 00:42:44,640

of the questions we ask may not be

1249

00:42:48,309 --> 00:42:45,839

necessarily

1250

00:42:49,430 --> 00:42:48,319

even valid questions um doesn't mean

1251
00:42:51,510 --> 00:42:49,440
that they're not important doesn't mean

1252
00:42:54,230 --> 00:42:51,520
that they're not worthy of discussion it

1253
00:42:56,230 --> 00:42:54,240
just means that that we may have some

1254
00:42:58,710 --> 00:42:56,240
you know give me question point um when

1255
00:43:01,510 --> 00:42:58,720
i was in in

1256
00:43:02,950 --> 00:43:01,520
california uh for a little while um in

1257
00:43:06,150 --> 00:43:02,960
the um

1258
00:43:08,150 --> 00:43:06,160
you in the unidentified uh part

1259
00:43:09,829 --> 00:43:08,160
i spent a lot of time in in hollywood um

1260
00:43:11,829 --> 00:43:09,839
i'm not a hollywood guy never have been

1261
00:43:13,750 --> 00:43:11,839
never will be um

1262
00:43:15,270 --> 00:43:13,760
that's not my that's not my scene that's

1263
00:43:17,109 --> 00:43:15,280

not my crowd but the very first thing

1264

00:43:19,190 --> 00:43:17,119

that people would come up to

1265

00:43:20,710 --> 00:43:19,200

is they would say

1266

00:43:23,030 --> 00:43:20,720

what do you do

1267

00:43:23,829 --> 00:43:23,040

not not who are you right and how are

1268

00:43:26,710 --> 00:43:23,839

you

1269

00:43:28,470 --> 00:43:26,720

question

1270

00:43:30,390 --> 00:43:28,480

sure but it's probably not an

1271

00:43:32,470 --> 00:43:30,400

appropriate question as

1272

00:43:35,109 --> 00:43:32,480

how are you you know

1273

00:43:36,550 --> 00:43:35,119

it's it seemed to be very transactional

1274

00:43:38,950 --> 00:43:36,560

the question that was being asked was

1275

00:43:40,309 --> 00:43:38,960

really just to assert in their own mind

1276

00:43:42,069 --> 00:43:40,319

where we fall on the racking and

1277

00:43:43,750 --> 00:43:42,079

stacking and you know is there something

1278

00:43:45,430 --> 00:43:43,760

i can do for them do they are they are

1279

00:43:46,870 --> 00:43:45,440

they in a situation where maybe on the

1280

00:43:48,390 --> 00:43:46,880

social ladder they're above me and then

1281

00:43:49,349 --> 00:43:48,400

they don't have to deal with me who

1282

00:43:52,470 --> 00:43:49,359

knows

1283

00:43:53,910 --> 00:43:52,480

whereas in other parts of the country um

1284

00:43:55,910 --> 00:43:53,920

you know people will come up and they

1285

00:43:57,589 --> 00:43:55,920

don't really care what you do they just

1286

00:43:58,470 --> 00:43:57,599

want to know how you're doing right and

1287

00:44:01,430 --> 00:43:58,480

so

1288

00:44:02,950 --> 00:44:01,440

therein lies part of um part of when we

1289

00:44:05,349 --> 00:44:02,960

ask a question we need to make sure that

1290

00:44:07,990 --> 00:44:05,359

we're it's okay to ask all the questions

1291

00:44:09,990 --> 00:44:08,000

but some questions may be maybe a little

1292

00:44:10,870 --> 00:44:10,000

bit more fruitful pursuit than than

1293

00:44:12,150 --> 00:44:10,880

others

1294

00:44:14,150 --> 00:44:12,160

and by the way i'm not saying there's

1295

00:44:15,190 --> 00:44:14,160

any bad questions that there just may be

1296

00:44:16,550 --> 00:44:15,200

some questions that we haven't even

1297

00:44:19,829 --> 00:44:16,560

thought to ask yet

1298

00:44:22,230 --> 00:44:19,839

um so jay back to your your

1299

00:44:24,230 --> 00:44:22,240

you know your point um specifically and

1300

00:44:25,349 --> 00:44:24,240

i want to make sure i i address it

1301

00:44:28,710 --> 00:44:25,359

properly

1302

00:44:31,990 --> 00:44:28,720

um can you refine for me a little bit on

1303

00:44:33,750 --> 00:44:32,000

on your question regarding um

1304

00:44:35,430 --> 00:44:33,760

regarding what what

1305

00:44:36,630 --> 00:44:35,440

specifically you're you're concerned

1306

00:44:39,190 --> 00:44:36,640

with

1307

00:44:42,710 --> 00:44:39,200

sure um in your

1308

00:44:44,710 --> 00:44:42,720

to maybe put a fine point on it in your

1309

00:44:47,589 --> 00:44:44,720

interview with kurt on theory of

1310

00:44:48,950 --> 00:44:47,599

everything a few months ago back in

1311

00:44:51,190 --> 00:44:48,960

october

1312

00:44:53,349 --> 00:44:51,200

you kept coming back to the point of how

1313

00:44:56,950 --> 00:44:53,359

do we pull ourselves out of a human

1314

00:44:59,030 --> 00:44:56,960

paradigm and yes and you really seem

1315

00:45:01,109 --> 00:44:59,040

you seemed like you were really kind of

1316

00:45:02,870 --> 00:45:01,119

rolling that around in your head

1317

00:45:04,950 --> 00:45:02,880

and i was thinking about the kind of

1318

00:45:05,829 --> 00:45:04,960

parameters you know when we look at a

1319

00:45:07,510 --> 00:45:05,839

tree

1320

00:45:10,390 --> 00:45:07,520

we don't necessarily think of the root

1321

00:45:13,270 --> 00:45:10,400

system like like the mycelial network

1322

00:45:15,589 --> 00:45:13,280

might or we don't think of its of its

1323

00:45:17,030 --> 00:45:15,599

grand standing in the way that an ant

1324

00:45:18,550 --> 00:45:17,040

might you know what i mean all these

1325

00:45:20,069 --> 00:45:18,560

understandings from different

1326

00:45:22,470 --> 00:45:20,079

perspectives and it seemed like that's

1327

00:45:24,550 --> 00:45:22,480

kind of where you're going with regard

1328

00:45:26,230 --> 00:45:24,560

to what was called an enthymeme and

1329

00:45:28,230 --> 00:45:26,240

things like that the mystery the common

1330

00:45:31,270 --> 00:45:28,240

misperceptions that people might have

1331

00:45:33,109 --> 00:45:31,280

and yeah it might be a better dreamwork

1332

00:45:34,790 --> 00:45:33,119

yeah so

1333

00:45:36,710 --> 00:45:34,800

yeah it does it does um you know

1334

00:45:39,109 --> 00:45:36,720

obviously asking a fish to

1335

00:45:40,550 --> 00:45:39,119

to think like a bird is is gonna be

1336

00:45:43,349 --> 00:45:40,560

pretty hard right because the fish looks

1337

00:45:45,750 --> 00:45:43,359

like the water and a bird flies um

1338

00:45:48,230 --> 00:45:45,760

so so in some cases it's probably

1339

00:45:50,950 --> 00:45:48,240

impossible for a fish to completely

1340

00:45:52,870 --> 00:45:50,960

understand and relate to to a bird but

1341

00:45:55,190 --> 00:45:52,880

there are examples where a fish can

1342

00:45:57,109 --> 00:45:55,200

maybe kind of begin to experience that

1343

00:45:59,510 --> 00:45:57,119

so let's take a flying fish for example

1344

00:46:01,990 --> 00:45:59,520

that can leap out of the water and with

1345

00:46:04,309 --> 00:46:02,000

its its modified fins

1346

00:46:05,589 --> 00:46:04,319

glide for a pretty significant long

1347

00:46:07,030 --> 00:46:05,599

distance if you've ever seen a flying

1348

00:46:09,030 --> 00:46:07,040

fish over the water

1349

00:46:11,349 --> 00:46:09,040

they can they can glide and skip across

1350

00:46:13,829 --> 00:46:11,359

the water for for quite a distance right

1351

00:46:15,910 --> 00:46:13,839

now is it a bird no but for that very

1352

00:46:17,670 --> 00:46:15,920

brief moment that fish is flying man i

1353

00:46:20,630 --> 00:46:17,680

mean it's creating lift under it it's

1354

00:46:22,309 --> 00:46:20,640

moving through the air like a bird

1355

00:46:23,990 --> 00:46:22,319

so we have to think more like a flying

1356

00:46:25,670 --> 00:46:24,000

fish rather than just a fish as a

1357

00:46:27,829 --> 00:46:25,680

species we need to be

1358

00:46:31,270 --> 00:46:27,839

prepared to suspend whatever

1359

00:46:34,630 --> 00:46:31,280

preconceived notions we have

1360

00:46:35,750 --> 00:46:34,640

and uh and be able to to ask questions

1361

00:46:38,550 --> 00:46:35,760

that maybe

1362

00:46:40,710 --> 00:46:38,560

don't seem at least initially to be very

1363

00:46:42,950 --> 00:46:40,720

relevant but could wind up actually

1364

00:46:44,550 --> 00:46:42,960

holding some of the keys to the kingdom

1365

00:46:46,390 --> 00:46:44,560

and that's hard to do because we don't

1366

00:46:47,750 --> 00:46:46,400

have as a species as a human species we

1367

00:46:48,630 --> 00:46:47,760

don't have any real reference of doing

1368

00:46:50,550 --> 00:46:48,640

that

1369

00:46:52,630 --> 00:46:50,560

right um

1370

00:46:56,390 --> 00:46:52,640

so so the question is how do you do that

1371

00:46:59,589 --> 00:46:56,400

well part of that is to to bring on

1372

00:47:02,870 --> 00:46:59,599

board um

1373

00:47:05,349 --> 00:47:02,880

sociologists and human anthropologists

1374

00:47:07,670 --> 00:47:05,359

that can look at the last time human

1375

00:47:09,589 --> 00:47:07,680

beings were faced with something as big

1376

00:47:12,309 --> 00:47:09,599

as this perhaps it was the realization

1377

00:47:14,230 --> 00:47:12,319

that uh through galileo's observations

1378

00:47:15,910 --> 00:47:14,240

that the earth was not the center of the

1379

00:47:17,510 --> 00:47:15,920

solar system right

1380

00:47:19,670 --> 00:47:17,520

um that was a that was a big pill to

1381

00:47:21,510 --> 00:47:19,680

swallow and yet it turned out to be true

1382

00:47:23,510 --> 00:47:21,520

so and we had to re

1383

00:47:26,710 --> 00:47:23,520

kind of retool the way we we think about

1384

00:47:28,390 --> 00:47:26,720

things to to incorporate this this new

1385

00:47:30,630 --> 00:47:28,400

information

1386

00:47:32,870 --> 00:47:30,640

there are examples in history where

1387

00:47:35,829 --> 00:47:32,880

where we've had to completely re-change

1388

00:47:37,990 --> 00:47:35,839

the way we look at things

1389

00:47:39,910 --> 00:47:38,000

and i think maybe drawing upon some of

1390

00:47:42,069 --> 00:47:39,920

those experiences previous experience

1391

00:47:43,990 --> 00:47:42,079

and see how we handled it last time and

1392

00:47:45,190 --> 00:47:44,000

what were the questions we asked in

1393

00:47:47,109 --> 00:47:45,200

order to

1394

00:47:49,190 --> 00:47:47,119

to to come up with this new paradigm

1395

00:47:51,030 --> 00:47:49,200

maybe maybe maybe that's part of the

1396

00:47:52,950 --> 00:47:51,040

trick right you know the old question

1397

00:47:54,470 --> 00:47:52,960

that that the general wants to know is

1398

00:47:55,829 --> 00:47:54,480

do i extend my hand when the thing

1399

00:47:57,670 --> 00:47:55,839

laying so i extend my hand out in

1400

00:47:58,630 --> 00:47:57,680

friendship or do i point an m16 at its

1401

00:48:00,390 --> 00:47:58,640

head

1402

00:48:01,990 --> 00:48:00,400

and the answer may be well yeah and the

1403

00:48:03,750 --> 00:48:02,000

answer may be neither right both of

1404

00:48:06,230 --> 00:48:03,760

those may be the wrong answer you know

1405

00:48:07,990 --> 00:48:06,240

so you know the very the very question

1406

00:48:09,829 --> 00:48:08,000

is flawed it's it's not it's not

1407

00:48:12,309 --> 00:48:09,839

accurate and we need to teach

1408

00:48:14,230 --> 00:48:12,319

our our our elected officials and our

1409

00:48:16,470 --> 00:48:14,240

policymakers that there may be other

1410

00:48:19,030 --> 00:48:16,480

options to consider rather than just a

1411

00:48:20,390 --> 00:48:19,040

binary yes or no and

1412

00:48:22,710 --> 00:48:20,400

you know that's that's why we need an

1413

00:48:25,109 --> 00:48:22,720

academic advisory board with some really

1414

00:48:26,150 --> 00:48:25,119

qualified people out of the box box

1415

00:48:27,990 --> 00:48:26,160

thinkers

1416

00:48:30,630 --> 00:48:28,000

that are willing to challenge the system

1417

00:48:31,670 --> 00:48:30,640

uh in a positive way you know and really

1418

00:48:33,829 --> 00:48:31,680

really

1419

00:48:35,910 --> 00:48:33,839

get people thinking in a way that we're

1420

00:48:37,270 --> 00:48:35,920

maybe not used to thinking

1421

00:48:38,950 --> 00:48:37,280

yeah i mean that's kind of one of the

1422

00:48:41,430 --> 00:48:38,960

the difficult parts about this subject

1423

00:48:43,430 --> 00:48:41,440

is as we try to describe or think about

1424

00:48:45,349 --> 00:48:43,440

things in such a human way and if this

1425

00:48:47,190 --> 00:48:45,359

thing is alien or something

1426
00:48:48,390 --> 00:48:47,200
even more intelligent than us like the

1427
00:48:50,790 --> 00:48:48,400
chances of it

1428
00:48:54,309 --> 00:48:50,800
having any type of reason that we could

1429
00:48:55,589 --> 00:48:54,319
fathom um is is probably next to zero

1430
00:48:57,030 --> 00:48:55,599
and we put the cart in front of the

1431
00:48:58,870 --> 00:48:57,040
horse so that puts me to like things

1432
00:49:00,470 --> 00:48:58,880
like project games

1433
00:49:01,829 --> 00:49:00,480
we do it all the time since the time we

1434
00:49:03,670 --> 00:49:01,839
were a child we put human

1435
00:49:05,829 --> 00:49:03,680
anthropomorphism in everything look at a

1436
00:49:07,589 --> 00:49:05,839
child with stuffed animals right look at

1437
00:49:09,589 --> 00:49:07,599
look at you know disney movies where

1438
00:49:12,790 --> 00:49:09,599

they take cars and they you know give

1439

00:49:14,230 --> 00:49:12,800

them personalities and and character and

1440

00:49:16,710 --> 00:49:14,240

a storyline

1441

00:49:18,309 --> 00:49:16,720

it's almost in our human nature you know

1442

00:49:20,390 --> 00:49:18,319

in fact one of the very first things

1443

00:49:23,190 --> 00:49:20,400

that a baby recognizes is its mother's

1444

00:49:25,030 --> 00:49:23,200

face and sounds it's pattern recognition

1445

00:49:26,870 --> 00:49:25,040

it's it's a survival technique for our

1446

00:49:28,950 --> 00:49:26,880

species so

1447

00:49:30,710 --> 00:49:28,960

um you know i'm not saying it's a bad

1448

00:49:32,230 --> 00:49:30,720

thing it led us to where we are here

1449

00:49:34,069 --> 00:49:32,240

today we probably owe to some degree

1450

00:49:36,309 --> 00:49:34,079

some of our survival success as a

1451

00:49:38,870 --> 00:49:36,319

species because of it but it's also

1452

00:49:40,309 --> 00:49:38,880

perhaps limiting us in being able to now

1453

00:49:42,950 --> 00:49:40,319

look beyond

1454

00:49:45,270 --> 00:49:42,960

um something if if you're talking about

1455

00:49:46,950 --> 00:49:45,280

something that is not human then

1456

00:49:48,710 --> 00:49:46,960

then how do we do it right i mean

1457

00:49:51,430 --> 00:49:48,720

everything we have to include our dogs

1458

00:49:53,829 --> 00:49:51,440

our cats we we assign you know human

1459

00:49:55,670 --> 00:49:53,839

characteristics and motivations and and

1460

00:49:57,510 --> 00:49:55,680

whatnot to them um

1461

00:49:59,030 --> 00:49:57,520

and it's it's natural and normal i'm not

1462

00:50:01,270 --> 00:49:59,040

i'm not look i got four german shepherds

1463

00:50:02,710 --> 00:50:01,280

and i and i i talk to him as my kids all

1464

00:50:04,790 --> 00:50:02,720

the time you know i mean i'm just as

1465

00:50:06,549 --> 00:50:04,800

guilty of it so i'm not beating anybody

1466

00:50:08,870 --> 00:50:06,559

up on it's just natural

1467

00:50:10,390 --> 00:50:08,880

but we have to also be able to look at

1468

00:50:11,910 --> 00:50:10,400

this a little bit

1469

00:50:13,750 --> 00:50:11,920

differently because you're right we're

1470

00:50:15,990 --> 00:50:13,760

dealing with something that is there's a

1471

00:50:18,230 --> 00:50:16,000

very good possibility it is not human

1472

00:50:20,150 --> 00:50:18,240

and if it's not human then you you kind

1473

00:50:21,670 --> 00:50:20,160

of have to look at things well there's a

1474

00:50:23,829 --> 00:50:21,680

possibility it's not going to think like

1475

00:50:24,630 --> 00:50:23,839

us it's not a process data like us it's

1476

00:50:26,150 --> 00:50:24,640

not going to come to the same

1477

00:50:27,510 --> 00:50:26,160

conclusions at us they might have

1478

00:50:28,950 --> 00:50:27,520

different motivations i mean i have no

1479

00:50:30,150 --> 00:50:28,960

motivations motivations may not even

1480

00:50:31,910 --> 00:50:30,160

part of the calculus you know people say

1481

00:50:33,430 --> 00:50:31,920

why are they here well maybe the why is

1482

00:50:35,430 --> 00:50:33,440

not even the right question you know

1483

00:50:37,030 --> 00:50:35,440

maybe it's how right

1484

00:50:38,950 --> 00:50:37,040

so

1485

00:50:40,710 --> 00:50:38,960

it's it's tricky and that's why we need

1486

00:50:42,230 --> 00:50:40,720

people this is why i always say my my

1487

00:50:44,549 --> 00:50:42,240

opinion doesn't matter what matters is

1488

00:50:46,549 --> 00:50:44,559

what what you know the consensus says

1489

00:50:49,190 --> 00:50:46,559

let's get everybody together the right

1490

00:50:50,790 --> 00:50:49,200

minds to to have the conversation and

1491

00:50:52,870 --> 00:50:50,800

and let's see what we collectively come

1492

00:50:54,630 --> 00:50:52,880

up with

1493

00:50:56,470 --> 00:50:54,640

you you've been

1494

00:50:59,270 --> 00:50:56,480

there has been a collection of what

1495

00:51:01,589 --> 00:50:59,280

could be termed as right minds um with

1496

00:51:04,470 --> 00:51:01,599

uh the galileo project that you've

1497

00:51:07,190 --> 00:51:04,480

recently signed on with in in the last

1498

00:51:09,109 --> 00:51:07,200

months um i i've heard from others that

1499

00:51:11,190 --> 00:51:09,119

there are often kind of regular zoom

1500

00:51:13,190 --> 00:51:11,200

groups among some of the people that

1501
00:51:15,349 --> 00:51:13,200
to do kind of working group type stuff

1502
00:51:16,790 --> 00:51:15,359
getting them getting getting people kind

1503
00:51:18,950 --> 00:51:16,800
of up to speed with each other's

1504
00:51:20,790 --> 00:51:18,960
research things like that um is there

1505
00:51:21,829 --> 00:51:20,800
anything and i also saw that you were

1506
00:51:24,150 --> 00:51:21,839
featured

1507
00:51:26,309 --> 00:51:24,160
just last night i believe in an article

1508
00:51:28,950 --> 00:51:26,319
by chris sharp on liberation times that

1509
00:51:31,589 --> 00:51:28,960
was kind of mentioning um

1510
00:51:33,109 --> 00:51:31,599
other videos and and some and some

1511
00:51:35,510 --> 00:51:33,119
things that might be coming out do you

1512
00:51:37,829 --> 00:51:35,520
do you anticipate anything any data

1513
00:51:39,990 --> 00:51:37,839

coming from project galileo in the in

1514

00:51:41,750 --> 00:51:40,000

the upcoming months this year and what's

1515

00:51:43,109 --> 00:51:41,760

been going on that way that you can talk

1516

00:51:45,030 --> 00:51:43,119

about that

1517

00:51:46,630 --> 00:51:45,040

seems fruitful it seems like avi loeb's

1518

00:51:47,910 --> 00:51:46,640

really shifted his tone from looking

1519

00:51:49,990 --> 00:51:47,920

through the telescope to things more

1520

00:51:51,910 --> 00:51:50,000

domestically and i imagine that you have

1521

00:51:54,710 --> 00:51:51,920

a huge hand in that

1522

00:51:56,870 --> 00:51:54,720

i i'm very hopeful for for avi loeb in

1523

00:51:59,750 --> 00:51:56,880

the galileo project he has managed to

1524

00:52:01,349 --> 00:51:59,760

bring on some remarkable people um and i

1525

00:52:02,870 --> 00:52:01,359

said this jokingly before and i'll say

1526
00:52:05,430 --> 00:52:02,880
it again you know when i joined the team

1527
00:52:06,230 --> 00:52:05,440
i think the average iq dropped about 30

1528
00:52:07,589 --> 00:52:06,240
points

1529
00:52:09,670 --> 00:52:07,599
from that team

1530
00:52:11,990 --> 00:52:09,680
because i'm probably the least

1531
00:52:14,069 --> 00:52:12,000
uh least intellectual of that group

1532
00:52:15,990 --> 00:52:14,079
these are people that have really just

1533
00:52:17,349 --> 00:52:16,000
pioneered some some really incredible

1534
00:52:19,829 --> 00:52:17,359
stuff they work for harvard they work

1535
00:52:22,150 --> 00:52:19,839
for other very renowned organizations

1536
00:52:24,309 --> 00:52:22,160
and institutions around the world um

1537
00:52:26,390 --> 00:52:24,319
jacques mallet is on there um some some

1538
00:52:27,670 --> 00:52:26,400

really big heavy hitter scientists and

1539

00:52:29,750 --> 00:52:27,680

and i think it's going to continue to

1540

00:52:30,790 --> 00:52:29,760

grow i think they've got a wonderful

1541

00:52:33,190 --> 00:52:30,800

shot

1542

00:52:34,950 --> 00:52:33,200

now at at being able to shed additional

1543

00:52:36,470 --> 00:52:34,960

light on this now with that said

1544

00:52:40,710 --> 00:52:36,480

there's an old adage of you know the

1545

00:52:42,790 --> 00:52:40,720

crawl walk and run right so where are we

1546

00:52:44,470 --> 00:52:42,800

in that phase well we're probably more

1547

00:52:46,230 --> 00:52:44,480

on the floor slithering and writhing on

1548

00:52:47,829 --> 00:52:46,240

the floor like a snake we are we're not

1549

00:52:49,750 --> 00:52:47,839

even at the crawl phase yet

1550

00:52:52,230 --> 00:52:49,760

but we're getting there and what they

1551

00:52:53,430 --> 00:52:52,240

want to do is is

1552

00:52:55,430 --> 00:52:53,440

um

1553

00:52:57,829 --> 00:52:55,440

they want to create a capability and

1554

00:52:59,589 --> 00:52:57,839

they are creating it now as we speak

1555

00:53:02,710 --> 00:52:59,599

um to to

1556

00:53:05,030 --> 00:53:02,720

i to basically identify track

1557

00:53:07,270 --> 00:53:05,040

uh these these objects and then

1558

00:53:09,190 --> 00:53:07,280

hopefully try to analyze them and their

1559

00:53:10,069 --> 00:53:09,200

approach makes sense you know they're

1560

00:53:13,589 --> 00:53:10,079

using

1561

00:53:14,870 --> 00:53:13,599

real technology uh and and real software

1562

00:53:17,030 --> 00:53:14,880

capabilities

1563

00:53:19,510 --> 00:53:17,040

to try to ascertain the difference

1564

00:53:22,390 --> 00:53:19,520

between a balloon the 737 on its way to

1565

00:53:25,510 --> 00:53:22,400

lax a bird a drone

1566

00:53:26,870 --> 00:53:25,520

a meteor coming in and and i think you

1567

00:53:28,069 --> 00:53:26,880

know i

1568

00:53:30,630 --> 00:53:28,079

i think the more of these that we

1569

00:53:31,750 --> 00:53:30,640

proliferate um i think the much better

1570

00:53:33,670 --> 00:53:31,760

chance we're going to have at collecting

1571

00:53:36,470 --> 00:53:33,680

some real data that's that's my opinion

1572

00:53:38,950 --> 00:53:36,480

i think and i ch and i i really

1573

00:53:41,750 --> 00:53:38,960

really want to congratulate avi and his

1574

00:53:44,069 --> 00:53:41,760

colleagues um on on what they're doing i

1575

00:53:45,349 --> 00:53:44,079

mean they are look if if they achieve

1576

00:53:46,549 --> 00:53:45,359

success

1577

00:53:48,950 --> 00:53:46,559

guys that would be one of the greatest

1578

00:53:50,870 --> 00:53:48,960

discoveries in in in mankind's history

1579

00:53:53,990 --> 00:53:50,880

that's that's a nobel prize

1580

00:53:56,069 --> 00:53:54,000

uh and uh you know we have to make a new

1581

00:53:57,030 --> 00:53:56,079

award for that

1582

00:53:59,829 --> 00:53:57,040

yeah

1583

00:54:01,589 --> 00:53:59,839

you know and so so i think um

1584

00:54:02,870 --> 00:54:01,599

i think it's an excellent start and i'm

1585

00:54:03,910 --> 00:54:02,880

very hopeful

1586

00:54:05,430 --> 00:54:03,920

uh that

1587

00:54:07,510 --> 00:54:05,440

that that they're going to achieve

1588

00:54:08,950 --> 00:54:07,520

success but i'm even more

1589

00:54:10,470 --> 00:54:08,960

more happy that academia is now

1590

00:54:12,950 --> 00:54:10,480

beginning to have a conversation look

1591

00:54:14,630 --> 00:54:12,960

there's a university in in germany now

1592

00:54:16,549 --> 00:54:14,640

that has a curriculum on uaps there's

1593

00:54:18,390 --> 00:54:16,559

one here in the united states we're

1594

00:54:21,030 --> 00:54:18,400

having conversations now at some of the

1595

00:54:22,710 --> 00:54:21,040

most renowned academic institutions in

1596

00:54:24,230 --> 00:54:22,720

the world on this topic

1597

00:54:26,230 --> 00:54:24,240

i won't say specifically which ones

1598

00:54:28,150 --> 00:54:26,240

because they you know i'll let them have

1599

00:54:29,670 --> 00:54:28,160

that conversation but

1600

00:54:30,630 --> 00:54:29,680

but they're taking this topic seriously

1601
00:54:32,870 --> 00:54:30,640
now because of that we have a

1602
00:54:34,710 --> 00:54:32,880
responsibility especially this community

1603
00:54:35,990 --> 00:54:34,720
to make sure that we we really put our

1604
00:54:37,670 --> 00:54:36,000
best foot forward because we start

1605
00:54:39,430 --> 00:54:37,680
putting there's been times where

1606
00:54:41,430 --> 00:54:39,440
major mainstream media puts some

1607
00:54:43,430 --> 00:54:41,440
supposed expert on the news and it turns

1608
00:54:44,870 --> 00:54:43,440
out that yeah you know the

1609
00:54:45,990 --> 00:54:44,880
the person

1610
00:54:48,150 --> 00:54:46,000
themselves

1611
00:54:50,150 --> 00:54:48,160
yeah you know and it's like all right

1612
00:54:53,510 --> 00:54:50,160
you know it's you know that's not

1613
00:54:56,230 --> 00:54:53,520

helpful um so we we have to make sure

1614

00:54:58,309 --> 00:54:56,240

that we we do our own due diligence to

1615

00:55:00,230 --> 00:54:58,319

really this is why the ai capability

1616

00:55:02,549 --> 00:55:00,240

we're developing is so important

1617

00:55:03,990 --> 00:55:02,559

because you know when you have 99.9

1618

00:55:05,190 --> 00:55:04,000

degree of certainty that's something

1619

00:55:07,349 --> 00:55:05,200

that you're looking at is not an

1620

00:55:09,109 --> 00:55:07,359

aircraft and it's not one of ours and

1621

00:55:10,789 --> 00:55:09,119

it's probably not foreign

1622

00:55:12,390 --> 00:55:10,799

now you've got real data

1623

00:55:13,750 --> 00:55:12,400

but with that you have to be tempted

1624

00:55:15,190 --> 00:55:13,760

from you know

1625

00:55:15,990 --> 00:55:15,200

being a bit of a

1626

00:55:17,910 --> 00:55:16,000

uh

1627

00:55:19,349 --> 00:55:17,920

boy who cries wolf right or or a paul

1628

00:55:20,470 --> 00:55:19,359

revere you know the british are coming

1629

00:55:21,829 --> 00:55:20,480

the british are coming you but damn well

1630

00:55:23,829 --> 00:55:21,839

better make sure the british are coming

1631

00:55:26,069 --> 00:55:23,839

otherwise you know you got one shot to

1632

00:55:27,750 --> 00:55:26,079

do it right and 100 shots to do it wrong

1633

00:55:30,069 --> 00:55:27,760

so you got to you got to be extra

1634

00:55:31,990 --> 00:55:30,079

careful and extra diligent

1635

00:55:33,990 --> 00:55:32,000

uh we're almost at the hour so i got

1636

00:55:35,990 --> 00:55:34,000

like one or two questions left if that's

1637

00:55:38,950 --> 00:55:36,000

okay with you

1638

00:55:42,069 --> 00:55:40,230

this is uh

1639

00:55:44,150 --> 00:55:42,079

you know john ramirez i'm sure you're

1640

00:55:46,390 --> 00:55:44,160

familiar with him he's been on um on

1641

00:55:49,190 --> 00:55:46,400

this show and he described an incident

1642

00:55:51,190 --> 00:55:49,200

before uh asap began where they've

1643

00:55:53,589 --> 00:55:51,200

picked up a bunch of

1644

00:55:55,829 --> 00:55:53,599

seemingly intelligent orbs

1645

00:55:57,430 --> 00:55:55,839

over russian airspace i believe with a

1646

00:55:59,510 --> 00:55:57,440

kh-11

1647

00:56:01,349 --> 00:55:59,520

satellite or something

1648

00:56:03,270 --> 00:56:01,359

are you familiar with that incident can

1649

00:56:06,309 --> 00:56:03,280

you speak to it at all

1650

00:56:07,430 --> 00:56:06,319

um you know the kh is an older platform

1651
00:56:09,270 --> 00:56:07,440
i don't know

1652
00:56:11,030 --> 00:56:09,280
what i can talk about its capabilities

1653
00:56:13,030 --> 00:56:11,040
um you know there's a time was very very

1654
00:56:14,630 --> 00:56:13,040
sensitive i know there's been a lot of

1655
00:56:17,670 --> 00:56:14,640
information that's come out subsequently

1656
00:56:19,190 --> 00:56:17,680
on it um but you know i i certainly

1657
00:56:22,470 --> 00:56:19,200
wouldn't want to tread into the area of

1658
00:56:23,430 --> 00:56:22,480
nro or nga equities um you know we still

1659
00:56:25,670 --> 00:56:23,440
consider

1660
00:56:27,670 --> 00:56:25,680
our satellite capabilities um kind of

1661
00:56:29,670 --> 00:56:27,680
our crown jewels right and so we're very

1662
00:56:31,270 --> 00:56:29,680
protective of those those technologies

1663
00:56:33,430 --> 00:56:31,280

so i don't want to speak specifically on

1664

00:56:35,030 --> 00:56:33,440

platform capabilities but what i will

1665

00:56:36,549 --> 00:56:35,040

say is there's a long history that the

1666

00:56:38,069 --> 00:56:36,559

u.s government and the intelligence

1667

00:56:41,270 --> 00:56:38,079

community specifically in the defense

1668

00:56:44,710 --> 00:56:41,280

community have been aware of of uap

1669

00:56:46,710 --> 00:56:44,720

activity um in and around and over uh

1670

00:56:48,150 --> 00:56:46,720

some of our adversarial airspace and it

1671

00:56:50,630 --> 00:56:48,160

seems that our adversaries are just a

1672

00:56:52,870 --> 00:56:50,640

surprise as we are

1673

00:56:55,270 --> 00:56:52,880

excellent

1674

00:56:59,030 --> 00:56:57,670

that was a fantastic answer thank you

1675

00:57:00,710 --> 00:56:59,040

very much

1676
00:57:02,549 --> 00:57:00,720
what do you plan on releasing your book

1677
00:57:04,470 --> 00:57:02,559
or do you have a release date for uh

1678
00:57:06,069 --> 00:57:04,480
everybody's uh i'm working on it man

1679
00:57:08,630 --> 00:57:06,079
it's it's uh

1680
00:57:09,910 --> 00:57:08,640
you know i i there's

1681
00:57:11,270 --> 00:57:09,920
i think it'll become very clear when i

1682
00:57:12,710 --> 00:57:11,280
write the book and why i'm writing it

1683
00:57:14,630 --> 00:57:12,720
and

1684
00:57:16,390 --> 00:57:14,640
people will will probably have this this

1685
00:57:19,750 --> 00:57:16,400
little bit of an epiphany and say wow

1686
00:57:22,150 --> 00:57:19,760
okay that's uh that's clever um i i i

1687
00:57:25,349 --> 00:57:22,160
want to wait till it's ready um i'm

1688
00:57:26,630 --> 00:57:25,359

working very hard every day on it um

1689

00:57:28,470 --> 00:57:26,640

you know it's it's important there's a

1690

00:57:31,430 --> 00:57:28,480

lot of information to put in there

1691

00:57:33,270 --> 00:57:31,440

and uh it is um you know it's going to

1692

00:57:35,030 --> 00:57:33,280

be about this topic there's a lot i

1693

00:57:37,829 --> 00:57:35,040

could write about quite frankly

1694

00:57:40,390 --> 00:57:37,839

uh the question is how do i how do i

1695

00:57:42,309 --> 00:57:40,400

condense a whole lot of information and

1696

00:57:43,190 --> 00:57:42,319

a decade's worth of work into something

1697

00:57:45,910 --> 00:57:43,200

that is

1698

00:57:49,030 --> 00:57:45,920

is you know roughly this big and

1699

00:57:50,150 --> 00:57:49,040

you know you can you can read it and

1700

00:57:51,910 --> 00:57:50,160

so uh

1701
00:57:53,430 --> 00:57:51,920
it's challenging i'm hoping to have it

1702
00:57:54,630 --> 00:57:53,440
done um

1703
00:57:56,470 --> 00:57:54,640
soon

1704
00:57:58,710 --> 00:57:56,480
i really don't want to you know again

1705
00:58:01,349 --> 00:57:58,720
i'd rather rather under promise and over

1706
00:58:03,910 --> 00:58:01,359
deliver is is what i tend to do

1707
00:58:07,589 --> 00:58:03,920
um but i think it's fair to say that

1708
00:58:11,750 --> 00:58:10,390
not too long um we're not talking years

1709
00:58:13,030 --> 00:58:11,760
you know we're talking

1710
00:58:15,030 --> 00:58:13,040
you know

1711
00:58:16,309 --> 00:58:15,040
yeah no just asking whatever you're

1712
00:58:19,270 --> 00:58:16,319
comfortable with

1713
00:58:21,510 --> 00:58:19,280

a lot of progress has been made so far

1714

00:58:24,069 --> 00:58:21,520

a lot of progress has been made on it

1715

00:58:25,910 --> 00:58:24,079

is it more difficult or easier

1716

00:58:27,990 --> 00:58:25,920

than you thought writing a book

1717

00:58:29,910 --> 00:58:28,000

way more difficult because i have to go

1718

00:58:31,829 --> 00:58:29,920

into yeah you know i write a lot of

1719

00:58:33,349 --> 00:58:31,839

reports but but

1720

00:58:35,030 --> 00:58:33,359

for one reason because i'm having to

1721

00:58:36,309 --> 00:58:35,040

have conversations and ask people for

1722

00:58:37,430 --> 00:58:36,319

their permission to tell their part of

1723

00:58:39,990 --> 00:58:37,440

their story

1724

00:58:41,109 --> 00:58:40,000

um yeah it's not my story to tell and

1725

00:58:42,870 --> 00:58:41,119

and i need their permission out of

1726

00:58:44,549 --> 00:58:42,880

respect for them look you know

1727

00:58:45,510 --> 00:58:44,559

there was a time i give you case a point

1728

00:58:47,670 --> 00:58:45,520

um

1729

00:58:49,349 --> 00:58:47,680

jim lakaski was a good friend of mine he

1730

00:58:51,030 --> 00:58:49,359

was incredible incredible guy he did a

1731

00:58:52,230 --> 00:58:51,040

lot of stuff for his country but for

1732

00:58:53,270 --> 00:58:52,240

four years i could never mention his

1733

00:58:54,549 --> 00:58:53,280

name because i had a gentleman's

1734

00:58:56,710 --> 00:58:54,559

agreement agreement with him that i

1735

00:58:58,150 --> 00:58:56,720

would never reveal his identity and even

1736

00:59:00,470 --> 00:58:58,160

though i was taking shots all the time

1737

00:59:01,829 --> 00:59:00,480

and people were you know oh the you know

1738

00:59:03,190 --> 00:59:01,839

that was always referred to him as the

1739

00:59:05,109 --> 00:59:03,200

number one rocket scientist in the

1740

00:59:06,470 --> 00:59:05,119

government i never revealed his name

1741

00:59:08,069 --> 00:59:06,480

until he finally came out in public and

1742

00:59:10,549 --> 00:59:08,079

revealed it himself

1743

00:59:11,829 --> 00:59:10,559

um i'm not that kind of guy you know i

1744

00:59:17,190 --> 00:59:11,839

don't

1745

00:59:19,349 --> 00:59:17,200

have integrity

1746

00:59:20,630 --> 00:59:19,359

well but for me it's all i have it's all

1747

00:59:21,990 --> 00:59:20,640

i mean you die with it right either you

1748

00:59:23,190 --> 00:59:22,000

have it or you don't and if you don't

1749

00:59:25,270 --> 00:59:23,200

then you know

1750

00:59:27,270 --> 00:59:25,280

you're going to live a sorry life but

1751

00:59:31,190 --> 00:59:27,280

i it means a lot to me so there's a lot

1752

00:59:33,990 --> 00:59:31,200

of people that i need to to to get their

1753

00:59:36,390 --> 00:59:34,000

input in before i put pen to paper on

1754

00:59:37,589 --> 00:59:36,400

their part it's just not fair um

1755

00:59:39,270 --> 00:59:37,599

fortunately

1756

00:59:41,430 --> 00:59:39,280

i've gotten a lot of people to to say

1757

00:59:43,670 --> 00:59:41,440

yes um there are still a few people that

1758

00:59:45,589 --> 00:59:43,680

say no i don't i don't want that in the

1759

00:59:47,589 --> 00:59:45,599

book and i have to respect that so i

1760

00:59:49,990 --> 00:59:47,599

have to figure out ways to you know

1761

00:59:51,270 --> 00:59:50,000

provide the information it's my my my

1762

00:59:53,190 --> 00:59:51,280

one shot

1763

00:59:55,670 --> 00:59:53,200

to state the record and set the record

1764

00:59:57,270 --> 00:59:55,680

straight you know and all this

1765

00:59:58,789 --> 00:59:57,280

naysayers of people out there just

1766

01:00:01,190 --> 00:59:58,799

wasting time spinning in circles and

1767

01:00:03,030 --> 01:00:01,200

creating you know artificial drama

1768

01:00:04,870 --> 01:00:03,040

it's it's important that this book be

1769

01:00:07,030 --> 01:00:04,880

able to address any and all the concerns

1770

01:00:09,510 --> 01:00:07,040

that people have and and do it in a

1771

01:00:10,950 --> 01:00:09,520

succinct way and and that way people can

1772

01:00:12,789 --> 01:00:10,960

look at and say okay

1773

01:00:15,510 --> 01:00:12,799

the conversation now starts here this

1774

01:00:17,430 --> 01:00:15,520

book my hope is that this book

1775

01:00:18,789 --> 01:00:17,440

if this book is successful we'll never

1776

01:00:20,789 --> 01:00:18,799

be able to have anybody put the genie

1777

01:00:22,230 --> 01:00:20,799

back in the bottle people will always be

1778

01:00:24,630 --> 01:00:22,240

able to look back at this book and say

1779

01:00:26,789 --> 01:00:24,640

this was the moment that these facts

1780

01:00:28,230 --> 01:00:26,799

were established we cannot go back we

1781

01:00:30,069 --> 01:00:28,240

had there's only one direction and

1782

01:00:31,430 --> 01:00:30,079

that's forward it might not be very fast

1783

01:00:33,829 --> 01:00:31,440

but there's no putting the genie there's

1784

01:00:35,270 --> 01:00:33,839

no putting the cat back in the bag it is

1785

01:00:37,349 --> 01:00:35,280

here's where it goes

1786

01:00:39,030 --> 01:00:37,359

uh where we start and so that's what i'm

1787

01:00:40,630 --> 01:00:39,040

trying to achieve

1788

01:00:44,069 --> 01:00:40,640

it's a lot of pressure man i don't i

1789

01:00:45,109 --> 01:00:44,079

don't know how how you do that but um

1790

01:00:46,630 --> 01:00:45,119

i'm

1791

01:00:48,390 --> 01:00:46,640

very uh

1792

01:00:49,670 --> 01:00:48,400

very thankful that you're doing that so

1793

01:00:51,190 --> 01:00:49,680

so thank you very much thank you for

1794

01:00:52,549 --> 01:00:51,200

what you guys are doing and by the way

1795

01:00:54,630 --> 01:00:52,559

jay thank you for

1796

01:00:56,470 --> 01:00:54,640

for being there for some people uh you

1797

01:00:57,829 --> 01:00:56,480

know who may be in a somewhat uh

1798

01:01:00,470 --> 01:00:57,839

vulnerable state

1799

01:01:02,150 --> 01:01:00,480

uh we need good people um you know

1800

01:01:04,549 --> 01:01:02,160

especially our men and women in uniform

1801
01:01:06,630 --> 01:01:04,559
have been through a lot over the years

1802
01:01:08,150 --> 01:01:06,640
and being able to to provide some sort

1803
01:01:09,670 --> 01:01:08,160
of support doesn't matter what that

1804
01:01:11,750 --> 01:01:09,680
support is and by the way this is not

1805
01:01:14,230 --> 01:01:11,760
just to you jay but anybody out there

1806
01:01:15,670 --> 01:01:14,240
who helps our first responders um get

1807
01:01:16,870 --> 01:01:15,680
through stuff whether you're a nurse or

1808
01:01:18,549 --> 01:01:16,880
you're a teacher or you're a

1809
01:01:20,470 --> 01:01:18,559
psychotherapist or whatever whatever you

1810
01:01:22,069 --> 01:01:20,480
are i want to thank you very much for

1811
01:01:23,670 --> 01:01:22,079
your service and what you're doing for

1812
01:01:25,190 --> 01:01:23,680
our folks and our fine men and women in

1813
01:01:26,789 --> 01:01:25,200

uniform

1814

01:01:28,950 --> 01:01:26,799

because you know they have a voice too

1815

01:01:31,589 --> 01:01:28,960

and sometimes you know

1816

01:01:33,430 --> 01:01:31,599

their voices have been been been quieted

1817

01:01:35,430 --> 01:01:33,440

prematurely so i want to thank you for

1818

01:01:37,190 --> 01:01:35,440

that and sean of course you and your

1819

01:01:39,750 --> 01:01:37,200

incredible audience as always

1820

01:01:41,349 --> 01:01:39,760

for having this conversation um

1821

01:01:42,870 --> 01:01:41,359

you know if there's ever any questions

1822

01:01:44,549 --> 01:01:42,880

you have you know i'm always available i

1823

01:01:45,750 --> 01:01:44,559

try to make myself available as much as

1824

01:01:47,670 --> 01:01:45,760

possible it's definitely putting some

1825

01:01:49,510 --> 01:01:47,680

age on me because i'm i'm burning the

1826

01:01:51,349 --> 01:01:49,520

candle on both ends but

1827

01:01:52,630 --> 01:01:51,359

i think it's worth it you know let's

1828

01:01:54,069 --> 01:01:52,640

let's let's continue to have the

1829

01:01:56,230 --> 01:01:54,079

conversations

1830

01:01:58,950 --> 01:01:56,240

um yeah thank you thank you very much uh

1831

01:02:01,109 --> 01:01:58,960

again i appreciate your time and i got

1832

01:02:03,670 --> 01:02:01,119

your back and we all got your back so

1833

01:02:05,990 --> 01:02:03,680

anything you ever need you let us know

1834

01:02:07,510 --> 01:02:06,000

well appreciate it i got your back so

1835

01:02:10,390 --> 01:02:07,520

you know this is we're a team and we're

1836

01:02:11,990 --> 01:02:10,400

going to continue pushing forward and uh

1837

01:02:13,990 --> 01:02:12,000

you know um

1838

01:02:16,789 --> 01:02:14,000

look any anything worth doing is is

1839

01:02:18,470 --> 01:02:16,799

usually isn't very easy right um

1840

01:02:21,670 --> 01:02:18,480

if that's very easy we wouldn't be here

1841

01:02:23,910 --> 01:02:21,680

yeah right right so it's a it's okay uh

1842

01:02:26,309 --> 01:02:23,920

we're i think we we have come very very

1843

01:02:29,029 --> 01:02:26,319

far in a very short period of time and

1844

01:02:31,430 --> 01:02:29,039

as i look forward and over the horizon

1845

01:02:33,109 --> 01:02:31,440

it's very bright i think um i think our

1846

01:02:34,630 --> 01:02:33,119

future in this topic is very bright and

1847

01:02:36,230 --> 01:02:34,640

i think we're going to continue to learn

1848

01:02:38,390 --> 01:02:36,240

and understand together as long as we

1849

01:02:40,549 --> 01:02:38,400

have the courage to continue to

1850

01:02:43,109 --> 01:02:40,559

to to

1851

01:02:45,029 --> 01:02:43,119

to ask the ask the hard questions and

1852

01:02:46,710 --> 01:02:45,039

and have the grace to to accept that

1853

01:02:48,630 --> 01:02:46,720

there are some things that we're frankly

1854

01:02:51,349 --> 01:02:48,640

not going to have answers to quite yet

1855

01:02:53,589 --> 01:02:51,359

but let's keep asking the questions

1856

01:02:56,309 --> 01:02:53,599

i do have one more question and is there

1857

01:02:59,430 --> 01:02:56,319

any questions that you've ever wanted

1858

01:03:00,630 --> 01:02:59,440

somebody to ask you and just nobody is

1859

01:03:02,710 --> 01:03:00,640

asked it yet

1860

01:03:04,470 --> 01:03:02,720

and if so what's the answer

1861

01:03:05,510 --> 01:03:04,480

so

1862

01:03:06,870 --> 01:03:05,520

well

1863

01:03:08,069 --> 01:03:06,880

it'd be a lot easier if i didn't have a

1864

01:03:10,069 --> 01:03:08,079

clearance

1865

01:03:12,789 --> 01:03:10,079

you know there's a lot of questions i

1866

01:03:14,069 --> 01:03:12,799

would love to i mean you know

1867

01:03:16,549 --> 01:03:14,079

um

1868

01:03:18,150 --> 01:03:16,559

no but you know what i i'll tell you

1869

01:03:20,309 --> 01:03:18,160

that there are people that are still

1870

01:03:22,309 --> 01:03:20,319

working in the shadows um very hard

1871

01:03:24,950 --> 01:03:22,319

right now there are people in congress

1872

01:03:27,430 --> 01:03:24,960

and congressional staff there's people

1873

01:03:29,109 --> 01:03:27,440

in the department of defense

1874

01:03:31,670 --> 01:03:29,119

um that are working very hard on this

1875

01:03:32,710 --> 01:03:31,680

topic then there's a support group of

1876

01:03:34,549 --> 01:03:32,720

people that are considered like a

1877

01:03:36,150 --> 01:03:34,559

support group that are also engaged in

1878

01:03:39,270 --> 01:03:36,160

this topic and by the way they're active

1879

01:03:41,589 --> 01:03:39,280

on twitter so you'd be surprised who on

1880

01:03:44,069 --> 01:03:41,599

twitter actually happens to be you know

1881

01:03:46,390 --> 01:03:44,079

fairly senior and and actually working

1882

01:03:48,230 --> 01:03:46,400

this topic um there are individuals that

1883

01:03:50,470 --> 01:03:48,240

i'm aware of that have started to get

1884

01:03:51,829 --> 01:03:50,480

engaged on social media

1885

01:03:53,510 --> 01:03:51,839

because they've they've seen the real

1886

01:03:55,190 --> 01:03:53,520

data and they know it's important and

1887

01:03:57,190 --> 01:03:55,200

they're trying to help the cause with of

1888

01:03:59,910 --> 01:03:57,200

course not trying to get in trouble but

1889

01:04:01,430 --> 01:03:59,920

um you know it's it's it's working it's

1890

01:04:03,190 --> 01:04:01,440

it's it's happening and it's happening

1891

01:04:04,789 --> 01:04:03,200

because of folks like you and you guys

1892

01:04:06,069 --> 01:04:04,799

doing what you do

1893

01:04:07,430 --> 01:04:06,079

anything you want to say before we get

1894

01:04:09,750 --> 01:04:07,440

out of here

1895

01:04:11,430 --> 01:04:09,760

i'm i'm just really thankful for this

1896

01:04:12,390 --> 01:04:11,440

conversation i think it's it's been

1897

01:04:15,670 --> 01:04:12,400

really helpful

1898

01:04:17,910 --> 01:04:15,680

it's it's reassuring to to to

1899

01:04:19,349 --> 01:04:17,920

be in this kind of bewildering

1900

01:04:22,069 --> 01:04:19,359

environment that we find in the news

1901

01:04:23,910 --> 01:04:22,079

cycle these days and be able to find

1902

01:04:25,670 --> 01:04:23,920

a center point with this conversation

1903

01:04:27,670 --> 01:04:25,680

and knowing that it's going to move

1904

01:04:30,230 --> 01:04:27,680

ahead regardless and so it's great to

1905

01:04:31,670 --> 01:04:30,240

hear from you today luke thanks guys

1906

01:04:33,270 --> 01:04:31,680

my pleasure listen let me leave you with

1907

01:04:35,270 --> 01:04:33,280

this humans are going to do what humans

1908

01:04:36,630 --> 01:04:35,280

do okay we always have and we always

1909

01:04:38,710 --> 01:04:36,640

will

1910

01:04:40,470 --> 01:04:38,720

we have to learn to do better

1911

01:04:42,390 --> 01:04:40,480

we have to if we really want to unlock

1912

01:04:43,910 --> 01:04:42,400

this mystery we have really got to learn

1913

01:04:45,349 --> 01:04:43,920

how to work together

1914

01:04:47,029 --> 01:04:45,359

um you know people are pointing to

1915

01:04:49,109 --> 01:04:47,039

ukraine and things like right now in

1916

01:04:50,710 --> 01:04:49,119

russia but you just have to get on

1917

01:04:53,510 --> 01:04:50,720

social media and see that we even even

1918

01:04:55,109 --> 01:04:53,520

in this topic we we eat each other alive

1919

01:04:57,109 --> 01:04:55,119

it's it's it's disgusting and it's

1920

01:04:59,029 --> 01:04:57,119

terrible it's our human nature you know

1921

01:05:02,549 --> 01:04:59,039

it is it is what holds us back as a

1922

01:05:04,069 --> 01:05:02,559

species is what holds our evolution back

1923

01:05:05,670 --> 01:05:04,079

um

1924

01:05:07,430 --> 01:05:05,680

you know so i would suggest that you

1925

01:05:09,109 --> 01:05:07,440

know to you and your audience please

1926

01:05:11,750 --> 01:05:09,119

have the courage to continue to ask the

1927

01:05:12,710 --> 01:05:11,760

questions you're asking um

1928

01:05:14,630 --> 01:05:12,720

you know

1929

01:05:16,549 --> 01:05:14,640

please do your due diligence be very

1930

01:05:18,950 --> 01:05:16,559

careful when someone says my way is a

1931

01:05:20,789 --> 01:05:18,960

way of thinking or you know try to find

1932

01:05:23,670 --> 01:05:20,799

out what people's

1933

01:05:26,470 --> 01:05:23,680

motivation is you know um

1934

01:05:28,710 --> 01:05:26,480

everybody has opinions but you know not

1935

01:05:31,029 --> 01:05:28,720

not all opinions are necessarily

1936

01:05:33,190 --> 01:05:31,039

i hate to say valid but but some of them

1937

01:05:35,109 --> 01:05:33,200

aren't you know some of them are just

1938

01:05:37,270 --> 01:05:35,119

people trying to to seek attention for

1939

01:05:38,309 --> 01:05:37,280

themselves and so please be very careful

1940

01:05:39,430 --> 01:05:38,319

of that

1941

01:05:42,230 --> 01:05:39,440

yeah

1942

01:05:44,150 --> 01:05:42,240

well thanks again thank you so much

1943

01:05:45,829 --> 01:05:44,160

guys my honor and pleasure as always

1944

01:05:46,950 --> 01:05:45,839

anytime love doing it anytime have a

1945

01:05:48,309 --> 01:05:46,960

good one

1946

01:05:50,789 --> 01:05:48,319

all right guys take care

1947

01:05:52,309 --> 01:05:50,799

see you again

1948

01:05:53,910 --> 01:05:52,319

great conversation

1949

01:05:57,670 --> 01:05:53,920

wow yeah

1950

01:05:59,990 --> 01:05:57,680

golly that was great um

1951

01:06:01,990 --> 01:06:00,000

it sure did um thanks everybody in the

1952

01:06:03,029 --> 01:06:02,000

chat thanks for everybody that's those

1953

01:06:05,670 --> 01:06:03,039

here today

1954

01:06:08,549 --> 01:06:05,680

thanks especially to lou alzando

1955

01:06:11,589 --> 01:06:08,559

and what he's done in the last years

1956

01:06:13,349 --> 01:06:11,599

um it's it's you know people talk a lot

1957

01:06:15,349 --> 01:06:13,359

about strength in numbers

1958

01:06:17,349 --> 01:06:15,359

and i think that there's that there's a

1959

01:06:19,349 --> 01:06:17,359

lot to that and i think the overall

1960

01:06:22,069 --> 01:06:19,359

community you know there's there's a

1961

01:06:24,230 --> 01:06:22,079

feeling building and there's progress

1962

01:06:26,789 --> 01:06:24,240

um and then there are people like that

1963

01:06:28,069 --> 01:06:26,799

that have had so much on their shoulders

1964

01:06:29,430 --> 01:06:28,079

um

1965

01:06:31,190 --> 01:06:29,440

during the last

1966

01:06:34,069 --> 01:06:31,200

decades even before people knew about

1967

01:06:35,589 --> 01:06:34,079

their work and people continue to be as

1968

01:06:38,069 --> 01:06:35,599

he was saying in the shadows with this

1969

01:06:39,190 --> 01:06:38,079

kind of work behind the scenes and

1970

01:06:41,190 --> 01:06:39,200

um

1971

01:06:43,510 --> 01:06:41,200

yeah

1972

01:06:44,950 --> 01:06:43,520

to me it's important to know that people

1973

01:06:46,870 --> 01:06:44,960

who are out and put their face on the

1974

01:06:48,950 --> 01:06:46,880

camera or do all this stuff behind the

1975

01:06:51,109 --> 01:06:48,960

scenes it's important to remember that

1976

01:06:53,109 --> 01:06:51,119

um they're human beings with their own

1977

01:06:54,789 --> 01:06:53,119

um you know trials and tribulations that

1978

01:06:56,390 --> 01:06:54,799

they're going through and when they put

1979

01:07:00,549 --> 01:06:56,400

something on their on their back like

1980

01:07:02,710 --> 01:07:00,559

this and and try to do it um you know

1981

01:07:05,270 --> 01:07:02,720

just remember that you

1982

01:07:06,870 --> 01:07:05,280

this is a real person you know so when

1983

01:07:09,270 --> 01:07:06,880

people go out there and take shots with

1984

01:07:11,829 --> 01:07:09,280

absolutely no evidence or proof

1985

01:07:13,430 --> 01:07:11,839

um of anything like that and just trying

1986

01:07:14,549 --> 01:07:13,440

to chop people down that are doing good

1987

01:07:17,910 --> 01:07:14,559

stuff like

1988

01:07:20,309 --> 01:07:17,920

um think twice you know um

1989

01:07:23,510 --> 01:07:20,319

i i agree i think we were talking we

1990

01:07:24,710 --> 01:07:23,520

were talking the other day um briefly um

1991

01:07:27,109 --> 01:07:24,720

about

1992

01:07:29,990 --> 01:07:27,119

how you know within the subject of

1993

01:07:31,750 --> 01:07:30,000

anomalous phenomena and the paranormal

1994

01:07:34,069 --> 01:07:31,760

ufos

1995

01:07:36,230 --> 01:07:34,079

entities that seem to be

1996

01:07:39,029 --> 01:07:36,240

more technologically capable

1997

01:07:41,029 --> 01:07:39,039

than us by possibly centuries if not

1998

01:07:43,349 --> 01:07:41,039

millennia you know

1999

01:07:45,670 --> 01:07:43,359

on these unknowable mysteries there

2000

01:07:46,630 --> 01:07:45,680

often seems to be a tendency for people

2001

01:07:53,270 --> 01:07:46,640

to

2002

01:07:54,789 --> 01:07:53,280

in that particular basket

2003

01:07:56,710 --> 01:07:54,799

do you know what i mean like

2004

01:08:00,069 --> 01:07:56,720

we've talked about it a number of times

2005

01:08:01,510 --> 01:08:00,079

and you know it's it seems that that

2006

01:08:03,990 --> 01:08:01,520

people whether they're conscious of it

2007

01:08:05,910 --> 01:08:04,000

or not sometimes they

2008

01:08:07,670 --> 01:08:05,920

they might take that

2009

01:08:10,950 --> 01:08:07,680

because they're maybe not allowed to be

2010

01:08:12,710 --> 01:08:10,960

frustrated um at work or frustrated

2011

01:08:14,630 --> 01:08:12,720

within the context of their religion

2012

01:08:15,430 --> 01:08:14,640

it's their mental punching bag which

2013

01:08:17,829 --> 01:08:15,440

i've been

2014

01:08:20,550 --> 01:08:17,839

doing as well you know sure um they

2015

01:08:22,149 --> 01:08:20,560

can't get mad at at a deity so they'll

2016

01:08:24,470 --> 01:08:22,159

get mad at the big mysteries and then

2017

01:08:27,349 --> 01:08:24,480

sometimes there's a kick the dog element

2018

01:08:29,189 --> 01:08:27,359

where it filters down to other people

2019

01:08:30,709 --> 01:08:29,199

just looking at the same mysteries and

2020

01:08:33,110 --> 01:08:30,719

that have just as big questions as

2021

01:08:35,110 --> 01:08:33,120

anybody else yeah and um

2022

01:08:37,749 --> 01:08:35,120

the one thing i really uh one of the

2023

01:08:39,990 --> 01:08:37,759

things i really love about him and and

2024

01:08:42,789 --> 01:08:40,000

you is just like that the mystery is

2025

01:08:44,789 --> 01:08:42,799

still there like you don't

2026

01:08:46,630 --> 01:08:44,799

you know um admitting that you don't

2027

01:08:48,550 --> 01:08:46,640

know what it is we're dealing with is

2028

01:08:51,430 --> 01:08:48,560

not a weakness and it's but it's so

2029

01:08:53,669 --> 01:08:51,440

tempting in this field especially to

2030

01:08:55,990 --> 01:08:53,679

pick something you know because to not

2031

01:08:58,550 --> 01:08:56,000

have control and to not have an answer

2032

01:09:00,789 --> 01:08:58,560

is like the opposite of of what we're

2033

01:09:02,229 --> 01:09:00,799

trained to do as human beings you're

2034

01:09:04,309 --> 01:09:02,239

trained to figure out the answer and

2035

01:09:05,189 --> 01:09:04,319

there's so many people just outside of

2036

01:09:07,030 --> 01:09:05,199

up

2037

01:09:08,870 --> 01:09:07,040

uap whether it be at their job or with

2038

01:09:10,630 --> 01:09:08,880

their wife or family or whatever when

2039

01:09:12,550 --> 01:09:10,640

they need to have an answer to something

2040

01:09:14,229 --> 01:09:12,560

and they don't they pick one anyways

2041

01:09:17,189 --> 01:09:14,239

because that's what they feel they

2042

01:09:20,070 --> 01:09:17,199

should be doing and that's not

2043

01:09:21,910 --> 01:09:20,080

what you should do you should be okay

2044

01:09:23,990 --> 01:09:21,920

with not having the answer and i feel

2045

01:09:25,749 --> 01:09:24,000

like once you really are even as an

2046

01:09:27,910 --> 01:09:25,759

experience here like myself you've

2047

01:09:30,789 --> 01:09:27,920

experienced things uh more dramatic than

2048

01:09:33,030 --> 01:09:30,799

i have but i can say that you know it's

2049

01:09:35,590 --> 01:09:33,040

it's tempting for me to want to pick an

2050

01:09:36,870 --> 01:09:35,600

answer for that experience but i can't

2051
01:09:38,070 --> 01:09:36,880
because

2052
01:09:39,669 --> 01:09:38,080
like

2053
01:09:44,070 --> 01:09:39,679
there's no

2054
01:09:45,510 --> 01:09:44,080
global truth to it or or known truth to

2055
01:09:47,430 --> 01:09:45,520
it there's hints of this or hints of

2056
01:09:49,269 --> 01:09:47,440
that and all i can do is look deep in

2057
01:09:50,470 --> 01:09:49,279
myself and my own consciousness and try

2058
01:09:52,789 --> 01:09:50,480
to grow that

2059
01:09:54,870 --> 01:09:52,799
and and grow as a person and try to find

2060
01:09:56,550 --> 01:09:54,880
myself in the mysteries within it and

2061
01:09:59,830 --> 01:09:56,560
and maybe get closer

2062
01:10:01,350 --> 01:09:59,840
100 and it's it's it's it's un super

2063
01:10:04,709 --> 01:10:01,360

understandable

2064

01:10:06,709 --> 01:10:04,719

why people get exhausted and frustrated

2065

01:10:08,470 --> 01:10:06,719

trying to keep all these options in play

2066

01:10:10,229 --> 01:10:08,480

and and trying to work through these

2067

01:10:12,709 --> 01:10:10,239

these situations and it can really feel

2068

01:10:14,870 --> 01:10:12,719

like a hall of mirrors sometimes um yeah

2069

01:10:16,790 --> 01:10:14,880

and but um as you as he was just saying

2070

01:10:18,070 --> 01:10:16,800

you know if we if we can avoid taking it

2071

01:10:20,870 --> 01:10:18,080

out on each other

2072

01:10:22,550 --> 01:10:20,880

um and

2073

01:10:24,550 --> 01:10:22,560

and try to grow in the process like you

2074

01:10:25,990 --> 01:10:24,560

said and then i think we'll be a lot

2075

01:10:27,189 --> 01:10:26,000

better for it and we can grow in the

2076

01:10:28,390 --> 01:10:27,199

days ahead

2077

01:10:30,390 --> 01:10:28,400

yeah well

2078

01:10:32,390 --> 01:10:30,400

well it's another another great one

2079

01:10:35,510 --> 01:10:32,400

another great one absolutely thanks to

2080

01:10:37,510 --> 01:10:35,520

everybody that uh is watching live and

2081

01:10:38,390 --> 01:10:37,520

we'll be seeing this in the near future

2082

01:10:40,870 --> 01:10:38,400

uh

2083

01:10:43,030 --> 01:10:40,880

thank you very much um for listening to

2084

01:10:44,950 --> 01:10:43,040

conversation and your support it means a

2085

01:10:47,189 --> 01:10:44,960

lot to us and

2086

01:10:48,950 --> 01:10:47,199

where can people find you

2087

01:10:51,669 --> 01:10:48,960

um they can find me

2088

01:10:53,669 --> 01:10:51,679

at the experiencer group.com for

2089

01:10:55,590 --> 01:10:53,679

experiencers that might be looking to

2090

01:10:57,750 --> 01:10:55,600

have community in conversation with

2091

01:10:59,830 --> 01:10:57,760

other people that have had anomalous

2092

01:11:01,189 --> 01:10:59,840

experiences of any and all kinds they

2093

01:11:03,510 --> 01:11:01,199

can also find

2094

01:11:06,630 --> 01:11:03,520

our group on twitter at

2095

01:11:08,630 --> 01:11:06,640

for experiencers they can also find my

2096

01:11:10,390 --> 01:11:08,640

personal account at

2097

01:11:13,430 --> 01:11:10,400

j a y c

2098

01:11:15,270 --> 01:11:13,440

king 78 i think it is phone number

2099

01:11:17,189 --> 01:11:15,280

address

2100

01:11:18,790 --> 01:11:17,199

maybe i'll stay away from that this time

2101
01:11:20,390 --> 01:11:18,800
around all right

2102
01:11:22,390 --> 01:11:20,400
but maybe you know maybe i can come up

2103
01:11:24,950 --> 01:11:22,400
with a 1-800 number for later we'll do a

2104
01:11:27,669 --> 01:11:24,960
party line thing you know that could be

2105
01:11:28,950 --> 01:11:27,679
fun i could see that being fun yeah

2106
01:11:30,950 --> 01:11:28,960
but

2107
01:11:32,870 --> 01:11:30,960
debate the pit the whole thing with

2108
01:11:34,310 --> 01:11:32,880
pineapple on pizza we could just go at

2109
01:11:35,910 --> 01:11:34,320
it for hours

2110
01:11:37,990 --> 01:11:35,920
oh yeah thanks so much for the

2111
01:11:39,669 --> 01:11:38,000
conversation thanks for i like i love

2112
01:11:41,270 --> 01:11:39,679
doing these conversations with you sean

2113
01:11:43,030 --> 01:11:41,280

and yeah me too you know we've we've

2114

01:11:44,870 --> 01:11:43,040

been developing such a nice friendship

2115

01:11:47,669 --> 01:11:44,880

just through the act of

2116

01:11:50,950 --> 01:11:47,679

of of the the act of doing together yes

2117

01:11:52,550 --> 01:11:50,960

it's awesome i love it man it is you do

2118

01:11:54,149 --> 01:11:52,560

and i love you brother

2119

01:11:55,830 --> 01:11:54,159

i love you brother see you soon all

2120

01:12:07,550 --> 01:11:55,840

right peace out
