

1
00:00:04,150 --> 00:00:01,670
is i'm sure you're familiar with him

2
00:00:07,030 --> 00:00:04,160
he's been on um on this show and he

3
00:00:09,430 --> 00:00:07,040
described an incident before uh ossa

4
00:00:12,150 --> 00:00:09,440
began where they've picked up a bunch of

5
00:00:14,549 --> 00:00:12,160
um seemingly intelligent orbs

6
00:00:18,390 --> 00:00:14,559
uh over russian airspace i believe with

7
00:00:20,150 --> 00:00:18,400
a kh-11s satellite or something um are

8
00:00:21,990 --> 00:00:20,160
you familiar with that incident can you

9
00:00:25,029 --> 00:00:22,000
speak to it at all

10
00:00:26,150 --> 00:00:25,039
um you know the kh is an older platform

11
00:00:27,990 --> 00:00:26,160
i don't know

12
00:00:29,750 --> 00:00:28,000
what i can talk about its capabilities

13
00:00:31,750 --> 00:00:29,760

um you know there's a time was very very

14

00:00:33,350 --> 00:00:31,760

sensitive i know there's been a lot of

15

00:00:36,389 --> 00:00:33,360

information that's come out subsequently

16

00:00:37,910 --> 00:00:36,399

on it um but you know i i certainly

17

00:00:41,190 --> 00:00:37,920

wouldn't want to tread into the area of

18

00:00:42,150 --> 00:00:41,200

nro or nga equities um you know we still

19

00:00:44,389 --> 00:00:42,160

consider

20

00:00:46,389 --> 00:00:44,399

our satellite capabilities um kind of

21

00:00:47,830 --> 00:00:46,399

our crown jewels right and so we're very

22

00:00:49,270 --> 00:00:47,840

protective of those those those

23

00:00:51,510 --> 00:00:49,280

technologies so i don't want to speak

24

00:00:53,110 --> 00:00:51,520

specifically on platform capabilities

25

00:00:54,709 --> 00:00:53,120

but what i will say is there's a long

26

00:00:56,310 --> 00:00:54,719

history that the us government and the

27

00:00:58,869 --> 00:00:56,320

intelligence community specifically in

28

00:01:01,590 --> 00:00:58,879

the defense community have been aware of

29

00:01:03,430 --> 00:01:01,600

of uap activity

30

00:01:05,509 --> 00:01:03,440

in and around and over

31

00:01:06,870 --> 00:01:05,519

some of our adversarial airspace and it

32

00:01:09,350 --> 00:01:06,880

seems that our adversaries are just a

33

00:01:11,590 --> 00:01:09,360

surprise as we are

34

00:01:13,750 --> 00:01:11,600

excellent

35

00:01:16,149 --> 00:01:13,760

um

36

00:01:17,749 --> 00:01:16,159

that that was a fantastic uh answer

37

00:01:19,510 --> 00:01:17,759

thank you very much

38

00:01:21,270 --> 00:01:19,520

what do you plan on releasing your book

39

00:01:23,190 --> 00:01:21,280

or do you have a release date for uh

40

00:01:24,789 --> 00:01:23,200

everybody's uh i'm working on it man

41

00:01:27,350 --> 00:01:24,799

it's it's uh

42

00:01:28,630 --> 00:01:27,360

you know i i there's

43

00:01:29,990 --> 00:01:28,640

i think it'll become very clear when i

44

00:01:31,429 --> 00:01:30,000

write the book and why i'm writing it

45

00:01:33,350 --> 00:01:31,439

and uh yeah

46

00:01:35,109 --> 00:01:33,360

people will will probably have this this

47

00:01:38,469 --> 00:01:35,119

little bit of an epiphany and say wow

48

00:01:40,630 --> 00:01:38,479

okay that's uh that's clever um i i i

49

00:01:44,069 --> 00:01:40,640

want to wait till it's ready

50

00:01:45,350 --> 00:01:44,079

i'm working very hard every day on it um

51
00:01:47,190 --> 00:01:45,360
you know it's it's important there's a

52
00:01:50,149 --> 00:01:47,200
lot of information to put in there

53
00:01:51,990 --> 00:01:50,159
and uh it is um you know it's going to

54
00:01:54,230 --> 00:01:52,000
be about this topic there's a lot i

55
00:01:56,550 --> 00:01:54,240
could write about quite frankly uh the

56
00:01:59,109 --> 00:01:56,560
question is how do i how do i

57
00:02:01,030 --> 00:01:59,119
condense a whole lot of information and

58
00:02:01,910 --> 00:02:01,040
a decades worth of work into something

59
00:02:04,630 --> 00:02:01,920
that is
