

1  
00:00:31,950 --> 00:00:15,749  
[Music]

2  
00:00:52,630 --> 00:00:35,910  
skin walker

3  
00:00:58,630 --> 00:00:55,350  
what's up everybody

4  
00:01:00,709 --> 00:00:58,640  
thanks for joining me on this uh

5  
00:01:02,470 --> 00:01:00,719  
kind of an odd late show for me usually

6  
00:01:03,510 --> 00:01:02,480  
i'm an afternoon guy

7  
00:01:05,270 --> 00:01:03,520  
um

8  
00:01:07,030 --> 00:01:05,280  
so i appreciate you hanging out being

9  
00:01:07,990 --> 00:01:07,040  
here for this i'm looking forward to it

10  
00:01:12,550 --> 00:01:08,000  
we have

11  
00:01:14,789 --> 00:01:12,560  
uh a couple of legends here from

12  
00:01:17,670 --> 00:01:14,799  
this very hot book

13  
00:01:20,550 --> 00:01:17,680

that you can buy the description

14

00:01:23,109 --> 00:01:20,560

uh of this video has links to these

15

00:01:26,550 --> 00:01:23,119

books so if you have not read them you

16

00:01:29,830 --> 00:01:26,560

should one is a very detailed account of

17

00:01:30,630 --> 00:01:29,840

a program called assap that was run

18

00:01:33,590 --> 00:01:30,640

um

19

00:01:35,749 --> 00:01:33,600

basically out of dia

20

00:01:37,510 --> 00:01:35,759

so you should definitely

21

00:01:39,429 --> 00:01:37,520

check it out

22

00:01:41,670 --> 00:01:39,439

today we have our co-host mr g

23

00:01:44,230 --> 00:01:41,680

christopher king how are you doing sir

24

00:01:47,030 --> 00:01:44,240

i'm doing great it's nice to do a um

25

00:01:49,109 --> 00:01:47,040

it's nice to do a rare evening show i uh

26

00:01:51,270 --> 00:01:49,119

i think it's because you know rumor has

27

00:01:54,069 --> 00:01:51,280

it that uh george knapp's powers

28

00:01:55,350 --> 00:01:54,079

actually increased tenfold after sundown

29

00:01:57,190 --> 00:01:55,360

so

30

00:01:59,270 --> 00:01:57,200

i've heard that you heard that too right

31

00:02:00,950 --> 00:01:59,280

so no i think that's my

32

00:02:02,789 --> 00:02:00,960

you know that that's my guess for why

33

00:02:05,350 --> 00:02:02,799

this is happening but um

34

00:02:16,390 --> 00:02:05,360

but i'm i'm really moving forward i know

35

00:02:22,710 --> 00:02:19,190

casinos of las vegas that probably

36

00:02:24,309 --> 00:02:22,720

give the power there

37

00:02:27,589 --> 00:02:24,319

thanks everybody in the chat for hanging

38

00:02:30,470 --> 00:02:27,599

out kristen uh kirsten um

39

00:02:33,190 --> 00:02:30,480

we got uh miss miller there and taylor

40

00:02:36,390 --> 00:02:33,200

andres everybody i really appreciate you

41

00:02:38,070 --> 00:02:36,400

being here um as far as the live chat i

42

00:02:39,750 --> 00:02:38,080

made it so only members could chat

43

00:02:41,750 --> 00:02:39,760

tonight i did that for a particular

44

00:02:44,309 --> 00:02:41,760

reason um there's

45

00:02:47,190 --> 00:02:44,319

one epidemic we all know it's uh covet

46

00:02:49,990 --> 00:02:47,200

19 we have another one and it's just

47

00:02:52,869 --> 00:02:50,000

downright disrespectful trolls so i did

48

00:02:54,710 --> 00:02:52,879

that to keep the conversation cool uh we

49

00:02:57,110 --> 00:02:54,720

did you know garner some questions

50

00:02:58,630 --> 00:02:57,120

online so to make sure everybody could

51  
00:03:00,470 --> 00:02:58,640  
participate there

52  
00:03:03,030 --> 00:03:00,480  
um but let's just get right into it

53  
00:03:05,350 --> 00:03:03,040  
because people aren't here for us dude

54  
00:03:06,550 --> 00:03:05,360  
yep i've got a i got a quick bio if you

55  
00:03:08,630 --> 00:03:06,560  
want me to read it or we can just go

56  
00:03:10,949 --> 00:03:08,640  
right into it sure okay

57  
00:03:13,990 --> 00:03:10,959  
uh george knapp is a veteran television

58  
00:03:15,990 --> 00:03:14,000  
news journalist for klas in las vegas

59  
00:03:17,830 --> 00:03:16,000  
he's also a long-standing weekend host

60  
00:03:19,030 --> 00:03:17,840  
of the popular radio program coast to

61  
00:03:21,270 --> 00:03:19,040  
coast am

62  
00:03:24,070 --> 00:03:21,280  
among other honors he's earned two

63  
00:03:26,710 --> 00:03:24,080

national edward r murrow awards for his

64

00:03:28,630 --> 00:03:26,720

investigative stories and is a nine-time

65

00:03:32,149 --> 00:03:28,640

winner of the associated press mark

66

00:03:35,509 --> 00:03:32,159

twain award for best news writing he's

67

00:03:37,589 --> 00:03:35,519

also won 24 regional emmys

68

00:03:39,270 --> 00:03:37,599

column kelleher is a biochemist with an

69

00:03:41,830 --> 00:03:39,280

extensive background in cell and

70

00:03:43,509 --> 00:03:41,840

molecular biology he served as vice

71

00:03:45,430 --> 00:03:43,519

president and chief scientist for

72

00:03:48,149 --> 00:03:45,440

environmental control and life support

73

00:03:49,830 --> 00:03:48,159

systems at bigelow aerospace he's also

74

00:03:51,990 --> 00:03:49,840

managed the day-to-day operations for

75

00:03:54,630 --> 00:03:52,000

the advanced aerospace weapon systems

76

00:03:56,470 --> 00:03:54,640

application program or awsap

77

00:03:58,710 --> 00:03:56,480

for the us government through a contract

78

00:04:00,949 --> 00:03:58,720

given to bigelow aerospace advanced

79

00:04:03,110 --> 00:04:00,959

space studies through the dia

80

00:04:04,789 --> 00:04:03,120

he was also the deputy administrator for

81

00:04:07,190 --> 00:04:04,799

the national institute for discovery

82

00:04:08,789 --> 00:04:07,200

science and currently has a similar role

83

00:04:11,270 --> 00:04:08,799

at the bigelow institute for

84

00:04:12,949 --> 00:04:11,280

consciousness studies together they've

85

00:04:15,270 --> 00:04:12,959

co-written the book

86

00:04:17,670 --> 00:04:15,280

hunt for the skinwalker and with james

87

00:04:19,270 --> 00:04:17,680

lakatsky they also co-wrote last year's

88

00:04:22,310 --> 00:04:19,280

intriguing follow-up

89

00:04:23,189 --> 00:04:22,320

skinwalkers at the pentagon george

90

00:04:25,510 --> 00:04:23,199

column

91

00:04:29,270 --> 00:04:25,520

it's a real honor to have you both on

92

00:04:31,030 --> 00:04:29,280

the show today john jay great to be here

93

00:04:32,710 --> 00:04:31,040

yeah super super grateful for the time

94

00:04:35,670 --> 00:04:32,720

donating the time i couldn't thank you

95

00:04:37,990 --> 00:04:35,680

enough um but we were just

96

00:04:40,230 --> 00:04:38,000

you know not to get off on on a bad note

97

00:04:42,710 --> 00:04:40,240

here but we were just informed about

98

00:04:45,270 --> 00:04:42,720

uh mr john lear from you that

99

00:04:47,670 --> 00:04:45,280

unfortunately passed away last night and

100

00:04:49,990 --> 00:04:47,680

um i know he played a critical role in

101  
00:04:50,870 --> 00:04:50,000  
your career uh george

102  
00:04:53,670 --> 00:04:50,880  
um

103  
00:04:55,350 --> 00:04:53,680  
yeah so i'm i'm sorry about uh

104  
00:04:56,629 --> 00:04:55,360  
i'm sorry about that um if there's

105  
00:04:57,430 --> 00:04:56,639  
anything you want to say about him feel

106  
00:04:59,830 --> 00:04:57,440  
free

107  
00:05:02,150 --> 00:04:59,840  
well um john was a complicated man he

108  
00:05:05,029 --> 00:05:02,160  
was a great man in many respects he was

109  
00:05:06,790 --> 00:05:05,039  
the son of a legend in aviation you know

110  
00:05:09,510 --> 00:05:06,800  
bill lear developed the

111  
00:05:11,670 --> 00:05:09,520  
uh learjet also the eight-track tape by

112  
00:05:13,830 --> 00:05:11,680  
the way uh in the early days if you look

113  
00:05:16,070 --> 00:05:13,840

back into the files sean i know you dig

114

00:05:17,830 --> 00:05:16,080

into a lot of old document stuff there

115

00:05:19,909 --> 00:05:17,840

are clear indications bill lear was

116

00:05:22,230 --> 00:05:19,919

involved in anti-gravity research

117

00:05:24,870 --> 00:05:22,240

because of all of his account

118

00:05:26,950 --> 00:05:24,880

accomplishments in aviation john young

119

00:05:28,950 --> 00:05:26,960

john got to meet all these legends and

120

00:05:31,510 --> 00:05:28,960

uh and develop relationships with him

121

00:05:33,350 --> 00:05:31,520

and he in some ways was kind of the

122

00:05:35,110 --> 00:05:33,360

black sheep of the lear family but he

123

00:05:37,189 --> 00:05:35,120

carved his own path

124

00:05:39,110 --> 00:05:37,199

at the age of 18 he becomes an aviator

125

00:05:41,590 --> 00:05:39,120

himself he flies everything he had

126  
00:05:42,550 --> 00:05:41,600  
multiple more than a dozen world speed

127  
00:05:45,189 --> 00:05:42,560  
records

128  
00:05:47,029 --> 00:05:45,199  
he crashed at a young age too

129  
00:05:48,469 --> 00:05:47,039  
terrible injuries that stayed with him

130  
00:05:50,950 --> 00:05:48,479  
the rest of his life

131  
00:05:53,430 --> 00:05:50,960  
he worked for cia he flew for the cia in

132  
00:05:55,590 --> 00:05:53,440  
vietnam and then other hot spots as a

133  
00:05:58,469 --> 00:05:55,600  
cargo pilot around the world

134  
00:06:00,309 --> 00:05:58,479  
and uh he was my entry point to the ufo

135  
00:06:02,070 --> 00:06:00,319  
story he came into the news station one

136  
00:06:03,909 --> 00:06:02,080  
day in 1989

137  
00:06:06,550 --> 00:06:03,919  
and plopped a big pile of documents on

138  
00:06:08,950 --> 00:06:06,560

this on the desk of my mentor ned day

139

00:06:11,270 --> 00:06:08,960

our managing editor the supreme the best

140

00:06:14,710 --> 00:06:11,280

reporter in las vegas ever and said hey

141

00:06:16,710 --> 00:06:14,720

ned i i had helped ned break a big story

142

00:06:18,629 --> 00:06:16,720

the existence of a plane that was

143

00:06:21,510 --> 00:06:18,639

invisible to radar out in a place called

144

00:06:23,830 --> 00:06:21,520

area 51. so he had certain credibility

145

00:06:26,469 --> 00:06:23,840

with ned and he showed him this pile of

146

00:06:28,629 --> 00:06:26,479

documents ufo documents you got to look

147

00:06:30,070 --> 00:06:28,639

at this is the biggest story ever it'll

148

00:06:32,070 --> 00:06:30,080

be the crowning achievement of your

149

00:06:34,390 --> 00:06:32,080

career and uh ned looked at some of this

150

00:06:36,550 --> 00:06:34,400

stuff he said this can't be real if it

151  
00:06:38,150 --> 00:06:36,560  
was real i'd already know about it so he

152  
00:06:41,029 --> 00:06:38,160  
shoved it aside

153  
00:06:42,790 --> 00:06:41,039  
i was eavesdropping as always and i said

154  
00:06:44,710 --> 00:06:42,800  
let me take a look at that stuff and i

155  
00:06:46,390 --> 00:06:44,720  
read this this material and i thought

156  
00:06:49,189 --> 00:06:46,400  
well this is kind of intriguing and at

157  
00:06:50,550 --> 00:06:49,199  
the time i i hosted this little radio uh

158  
00:06:52,390 --> 00:06:50,560  
tv show

159  
00:06:54,150 --> 00:06:52,400  
30 minute interview program called on

160  
00:06:55,670 --> 00:06:54,160  
the record that aired in the mornings

161  
00:06:56,870 --> 00:06:55,680  
saturday or sunday morning at seven

162  
00:06:58,469 --> 00:06:56,880  
o'clock

163  
00:07:00,469 --> 00:06:58,479

nobody watched it i'd have the city

164

00:07:02,790 --> 00:07:00,479

council or something like that on there

165

00:07:04,870 --> 00:07:02,800

and uh i had leer on and the the

166

00:07:06,550 --> 00:07:04,880

response was huge i just let him go i

167

00:07:08,150 --> 00:07:06,560

never heard all this ufo stuff before

168

00:07:09,909 --> 00:07:08,160

just let him go

169

00:07:11,350 --> 00:07:09,919

and he unleashed this torrent of

170

00:07:12,790 --> 00:07:11,360

information that i had never heard the

171

00:07:14,629 --> 00:07:12,800

likes of before

172

00:07:15,990 --> 00:07:14,639

and the phone starts ringing and people

173

00:07:17,830 --> 00:07:16,000

are wondering is that the real deal

174

00:07:19,510 --> 00:07:17,840

what's going on and i start reading a

175

00:07:21,510 --> 00:07:19,520

little bit about ufos and then they had

176  
00:07:23,430 --> 00:07:21,520  
him back again the response was bigger

177  
00:07:25,430 --> 00:07:23,440  
had him on a third time

178  
00:07:27,990 --> 00:07:25,440  
and he hinted that this would have been

179  
00:07:30,309 --> 00:07:28,000  
late 1988 he hinted that he knew a guy

180  
00:07:31,990 --> 00:07:30,319  
who'd just been hired out in area 51 and

181  
00:07:34,309 --> 00:07:32,000  
there's going to be some revelations

182  
00:07:35,990 --> 00:07:34,319  
about flying saucers and the guy he

183  
00:07:39,350 --> 00:07:36,000  
he was referencing

184  
00:07:41,110 --> 00:07:39,360  
was bob lazar and it was in fact it's to

185  
00:07:44,710 --> 00:07:41,120  
the day march

186  
00:07:45,830 --> 00:07:44,720  
29 1989 last night same night that john

187  
00:07:47,189 --> 00:07:45,840  
lear died

188  
00:07:56,869 --> 00:07:47,199

he

189

00:07:58,790 --> 00:07:56,879

video of an object

190

00:08:00,950 --> 00:07:58,800

glowing object that rose over the

191

00:08:02,469 --> 00:08:00,960

mountains of papua's lake not not groom

192

00:08:04,550 --> 00:08:02,479

lake

193

00:08:05,670 --> 00:08:04,560

blowing made some maneuvers then went

194

00:08:07,830 --> 00:08:05,680

back down

195

00:08:09,589 --> 00:08:07,840

that was the lazar had said that's when

196

00:08:12,230 --> 00:08:09,599

it's gonna they're gonna fly that night

197

00:08:13,749 --> 00:08:12,240

and uh and sure enough it did so there

198

00:08:15,670 --> 00:08:13,759

was an interesting guy

199

00:08:17,029 --> 00:08:15,680

went into a lot of conspiracy theories

200

00:08:18,950 --> 00:08:17,039

that you know you had to take with a

201  
00:08:20,629 --> 00:08:18,960  
grain of salt but i owe him a debt

202  
00:08:22,309 --> 00:08:20,639  
because he really did help me so much in

203  
00:08:23,110 --> 00:08:22,319  
the beginning got me interested in it

204  
00:08:25,749 --> 00:08:23,120  
and

205  
00:08:27,830 --> 00:08:25,759  
for good or for better or worse

206  
00:08:29,830 --> 00:08:27,840  
it really was helpful

207  
00:08:32,469 --> 00:08:29,840  
thanks for sharing that story i mean i

208  
00:08:34,550 --> 00:08:32,479  
think uh a lot of us especially you know

209  
00:08:36,550 --> 00:08:34,560  
being somewhat new here there's there's

210  
00:08:39,029 --> 00:08:36,560  
a lot of history to this topic that you

211  
00:08:41,750 --> 00:08:39,039  
know i'm somewhat ignorant too so being

212  
00:08:43,750 --> 00:08:41,760  
able to learn that and also realizing

213  
00:08:46,310 --> 00:08:43,760

that there is so much more to people

214

00:08:48,310 --> 00:08:46,320

than you know uh is pretty important

215

00:08:50,870 --> 00:08:48,320

especially like chandler like

216

00:08:52,949 --> 00:08:50,880

um i think maybe people think about the

217

00:08:54,710 --> 00:08:52,959

moon bases or something like that but

218

00:08:57,750 --> 00:08:54,720

you know he was a real person that

219

00:08:59,190 --> 00:08:57,760

contributed a lot uh to this topic um

220

00:09:01,990 --> 00:08:59,200

for the simple fact that you're here

221

00:09:04,790 --> 00:09:02,000

today um and that's you know played a

222

00:09:06,550 --> 00:09:04,800

huge role in ossap and as senator reid

223

00:09:08,710 --> 00:09:06,560

and bob bigelow i mean

224

00:09:10,070 --> 00:09:08,720

who knows you know if one of those

225

00:09:12,230 --> 00:09:10,080

pieces were missing

226

00:09:15,750 --> 00:09:12,240

so it's true yeah yeah

227

00:09:17,190 --> 00:09:15,760

that being said uh transitioning to

228

00:09:18,310 --> 00:09:17,200

um

229

00:09:20,230 --> 00:09:18,320

the book

230

00:09:21,269 --> 00:09:20,240

um there's there's been a lot of talk

231

00:09:23,750 --> 00:09:21,279

about

232

00:09:26,230 --> 00:09:23,760

um the differences of uh

233

00:09:29,269 --> 00:09:26,240

atip and ossep and

234

00:09:31,750 --> 00:09:29,279

some people even seemingly trying to

235

00:09:33,670 --> 00:09:31,760

pit uh maybe you guys against lou

236

00:09:35,430 --> 00:09:33,680

elizondo i remember

237

00:09:37,750 --> 00:09:35,440

when this book came out one of the first

238

00:09:40,070 --> 00:09:37,760

things that was talked about was the

239

00:09:41,910 --> 00:09:40,080

remote viewing section or when he was at

240

00:09:43,509 --> 00:09:41,920

dinner with you guys and he was telling

241

00:09:46,310 --> 00:09:43,519

stories about it and people just latched

242

00:09:49,590 --> 00:09:46,320

on to that right away and and tried to

243

00:09:51,750 --> 00:09:49,600

to you know tear a hole in in you know

244

00:09:52,550 --> 00:09:51,760

in you guys um

245

00:09:54,710 --> 00:09:52,560

so

246

00:09:56,389 --> 00:09:54,720

first of all like can you set the record

247

00:09:58,630 --> 00:09:56,399

straight i mean i'm sure you're that

248

00:10:00,949 --> 00:09:58,640

wasn't your intent and and i guess

249

00:10:02,470 --> 00:10:00,959

second question for both of you guys um

250

00:10:04,949 --> 00:10:02,480

you know

251

00:10:07,190 --> 00:10:04,959

where is the line between the two

252

00:10:09,030 --> 00:10:07,200

you know osap and at for my knowledge

253

00:10:09,910 --> 00:10:09,040

a-tip was a nickname inserted in a

254

00:10:10,790 --> 00:10:09,920

letter

255

00:10:12,150 --> 00:10:10,800

um

256

00:10:14,790 --> 00:10:12,160

and that's about it

257

00:10:16,710 --> 00:10:14,800

and asap got basically all the funding

258

00:10:17,509 --> 00:10:16,720

and did most of the work

259

00:10:19,350 --> 00:10:17,519

he

260

00:10:21,590 --> 00:10:19,360

um

261

00:10:23,750 --> 00:10:21,600

military sightings and and was out of

262

00:10:26,230 --> 00:10:23,760

the pentagon correct

263

00:10:27,750 --> 00:10:26,240

i think column got to know lou a lot

264

00:10:29,910 --> 00:10:27,760

much earlier before me so he should

265

00:10:32,470 --> 00:10:29,920

probably take this first well

266

00:10:35,829 --> 00:10:32,480

you know that dinner that you described

267

00:10:39,030 --> 00:10:35,839

i i was i was at that dinner and uh

268

00:10:41,430 --> 00:10:39,040

it was like the the crandall cram of the

269

00:10:44,069 --> 00:10:41,440

inter-agency experts

270

00:10:46,310 --> 00:10:44,079

who all had a burning interest in ufos

271

00:10:49,430 --> 00:10:46,320

and louis elizondo was one of those

272

00:10:51,190 --> 00:10:49,440

axelrod was there lakotsky was there hal

273

00:10:51,990 --> 00:10:51,200

put off was there robert bigelow was

274

00:10:56,710 --> 00:10:52,000

there

275

00:10:57,750 --> 00:10:56,720

have always wanted to maintain a low

276  
00:10:59,990 --> 00:10:57,760  
profile

277  
00:11:01,350 --> 00:11:00,000  
so that dinner was uh was a sort of a

278  
00:11:04,230 --> 00:11:01,360  
who's who

279  
00:11:06,150 --> 00:11:04,240  
in washington dc from multiple different

280  
00:11:08,550 --> 00:11:06,160  
intelligence agencies

281  
00:11:11,910 --> 00:11:08,560  
all of whom had a burning interest in

282  
00:11:13,990 --> 00:11:11,920  
ufos and lou elizondo was part of that

283  
00:11:15,910 --> 00:11:14,000  
team he was a special agent

284  
00:11:16,630 --> 00:11:15,920  
counterintelligence agent that worked

285  
00:11:20,949 --> 00:11:16,640  
for

286  
00:11:23,750 --> 00:11:20,959  
intelligence at the time

287  
00:11:24,710 --> 00:11:23,760  
so his role in in this whole thing was

288  
00:11:26,949 --> 00:11:24,720

to

289

00:11:28,630 --> 00:11:26,959

um you know uh

290

00:11:30,630 --> 00:11:28,640

basically function as the

291

00:11:32,470 --> 00:11:30,640

counter-intelligence guru

292

00:11:33,750 --> 00:11:32,480

in this whole program because there was

293

00:11:36,790 --> 00:11:33,760

a lot of

294

00:11:39,990 --> 00:11:36,800

um concern in many areas of the pentagon

295

00:11:43,110 --> 00:11:40,000

that you know there could be leaks

296

00:11:44,470 --> 00:11:43,120

regarding this uh this program

297

00:11:46,550 --> 00:11:44,480

so

298

00:11:48,550 --> 00:11:46,560

the asap program

299

00:11:50,870 --> 00:11:48,560

was the advanced aerospace weapons

300

00:11:54,069 --> 00:11:50,880

systems application program which was

301  
00:11:56,230 --> 00:11:54,079  
the 22 million dollar program that was

302  
00:11:59,190 --> 00:11:56,240  
funded through the defense intelligence

303  
00:12:00,230 --> 00:11:59,200  
agency ran for 24 months and three

304  
00:12:02,870 --> 00:12:00,240  
months of

305  
00:12:04,470 --> 00:12:02,880  
uh no cost extension a total of 27

306  
00:12:08,150 --> 00:12:04,480  
months

307  
00:12:12,310 --> 00:12:08,160  
so asap was the recipient of the money

308  
00:12:15,190 --> 00:12:12,320  
it had full-time uh 50 full-time

309  
00:12:17,269 --> 00:12:15,200  
researchers everything from phd level

310  
00:12:18,710 --> 00:12:17,279  
scientists master's degrees scientists

311  
00:12:21,750 --> 00:12:18,720  
technicians

312  
00:12:24,470 --> 00:12:21,760  
um counterintelligence people

313  
00:12:25,430 --> 00:12:24,480

security people translators

314

00:12:26,389 --> 00:12:25,440

um

315

00:12:28,230 --> 00:12:26,399

you know

316

00:12:30,230 --> 00:12:28,240

right across the gamut military

317

00:12:33,430 --> 00:12:30,240

intelligence professionals

318

00:12:35,910 --> 00:12:33,440

all working full-time on the

319

00:12:38,550 --> 00:12:35,920

the overall question uh that the defense

320

00:12:40,870 --> 00:12:38,560

intelligence agency was initially

321

00:12:43,350 --> 00:12:40,880

focused on was

322

00:12:45,990 --> 00:12:43,360

are ufos

323

00:12:48,550 --> 00:12:46,000

do they constitute a threat

324

00:12:51,110 --> 00:12:48,560

regarding their presence in the airspace

325

00:12:55,110 --> 00:12:51,120

over the united states

326

00:12:56,710 --> 00:12:55,120

so uh the 50 strong people worked

327

00:12:59,350 --> 00:12:56,720

round the clock essentially for two

328

00:13:00,389 --> 00:12:59,360

years to uh to try to answer that

329

00:13:04,069 --> 00:13:00,399

question

330

00:13:05,269 --> 00:13:04,079

so the atip uh the whole atip acronym

331

00:13:09,110 --> 00:13:05,279

came up

332

00:13:11,269 --> 00:13:09,120

in july of 2009 when senator reid

333

00:13:13,670 --> 00:13:11,279

was realizing that there were elements

334

00:13:15,030 --> 00:13:13,680

of the assap program that really needed

335

00:13:17,509 --> 00:13:15,040

to go

336

00:13:19,829 --> 00:13:17,519

to a special access program status

337

00:13:23,430 --> 00:13:19,839

partly to protect the security of the

338

00:13:24,870 --> 00:13:23,440

program but also to protect it from the

339

00:13:28,150 --> 00:13:24,880

um the

340

00:13:30,949 --> 00:13:28,160

large amount of unease in the uh in the

341

00:13:33,430 --> 00:13:30,959

pentagon at this kind of a very

342

00:13:37,430 --> 00:13:33,440

controversial program so

343

00:13:39,189 --> 00:13:37,440

the acronym a tip was used as a moniker

344

00:13:42,150 --> 00:13:39,199

to disguise

345

00:13:45,750 --> 00:13:42,160

uh the name asap for the program during

346

00:13:49,829 --> 00:13:45,760

that process of going to the pentagon um

347

00:13:53,110 --> 00:13:49,839

to secure special excess program status

348

00:13:55,269 --> 00:13:53,120

fast forward several years the the uh

349

00:13:59,110 --> 00:13:55,279

the program osap program

350

00:14:02,230 --> 00:13:59,120

essentially shut down at the end of 2010

351

00:14:04,470 --> 00:14:02,240

december of 2010 uh there were elements

352

00:14:05,509 --> 00:14:04,480

of of the program that continued in

353

00:14:07,509 --> 00:14:05,519

terms of

354

00:14:09,670 --> 00:14:07,519

trying to um

355

00:14:11,189 --> 00:14:09,680

repurpose some of some of the

356

00:14:14,230 --> 00:14:11,199

congressional funding that was still

357

00:14:16,629 --> 00:14:14,240

available into other landing sites

358

00:14:18,230 --> 00:14:16,639

besides the the defense intelligence

359

00:14:19,350 --> 00:14:18,240

agency so

360

00:14:22,629 --> 00:14:19,360

um

361

00:14:24,949 --> 00:14:22,639

about 2015 or 2016

362

00:14:28,470 --> 00:14:24,959

um is the first time that people i'm

363

00:14:32,389 --> 00:14:28,480

associated with ever heard the name atip

364

00:14:35,590 --> 00:14:32,399

and atip was associated with a small

365

00:14:37,189 --> 00:14:35,600

pentagon program that was focused on

366

00:14:39,750 --> 00:14:37,199

investigating

367

00:14:43,110 --> 00:14:39,760

interactions between ufos and military

368

00:14:45,670 --> 00:14:43,120

aircraft ufos and and carrier strike

369

00:14:47,829 --> 00:14:45,680

groups off the both the west coast and

370

00:14:50,230 --> 00:14:47,839

the east coast of the united states

371

00:14:52,150 --> 00:14:50,240

and um that program was completely

372

00:14:54,310 --> 00:14:52,160

separate from the

373

00:14:56,389 --> 00:14:54,320

uh the asap program

374

00:14:59,269 --> 00:14:56,399

it's uh it was carried out to the best

375

00:15:01,350 --> 00:14:59,279

of my knowledge by uh people who were

376

00:15:03,670 --> 00:15:01,360

extremely interested

377

00:15:06,550 --> 00:15:03,680

in uh getting to the bottom of the the

378

00:15:08,069 --> 00:15:06,560

ufo phenomenon particularly as it

379

00:15:11,030 --> 00:15:08,079

pertained to

380

00:15:13,350 --> 00:15:11,040

interaction with military aircraft and

381

00:15:16,629 --> 00:15:13,360

um aircraft carriers

382

00:15:20,230 --> 00:15:16,639

um it did not have the the broad scope

383

00:15:23,030 --> 00:15:20,240

or the funding that assaf had but it was

384

00:15:24,870 --> 00:15:23,040

a genuine project that went on at the

385

00:15:26,710 --> 00:15:24,880

pentagon

386

00:15:29,910 --> 00:15:26,720

to the best of my knowledge i've talked

387

00:15:30,710 --> 00:15:29,920

to people about this and they they they

388

00:15:34,069 --> 00:15:30,720

did

389

00:15:36,629 --> 00:15:34,079

know about us our atip back in

390

00:15:40,550 --> 00:15:36,639

2016 uh time frame

391

00:15:43,430 --> 00:15:40,560

so uh new york star times broke that big

392

00:15:46,470 --> 00:15:43,440

expose in december of 2017

393

00:15:49,509 --> 00:15:46,480

and they kind of conflated the 22

394

00:15:50,629 --> 00:15:49,519

million dollar program with the atip

395

00:15:52,629 --> 00:15:50,639

moniker

396

00:15:55,910 --> 00:15:52,639

the that the guy who was leading that

397

00:15:59,269 --> 00:15:55,920

a-tip was lu elizondo and they conflated

398

00:16:01,430 --> 00:15:59,279

him with the 22 million dollar program

399

00:16:04,310 --> 00:16:01,440

that was being run out of the uh the

400

00:16:06,550 --> 00:16:04,320

defense intelligence agency and you know

401

00:16:09,590 --> 00:16:06,560

i mean these things happen

402

00:16:12,949 --> 00:16:09,600

uh there was no sort of conflict

403

00:16:16,389 --> 00:16:12,959

um that the transition between assap and

404

00:16:18,629 --> 00:16:16,399

atip was was fairly nondescript

405

00:16:21,030 --> 00:16:18,639

um but it was the

406

00:16:23,670 --> 00:16:21,040

media essentially that ran away with the

407

00:16:24,870 --> 00:16:23,680

new york times article and four years

408

00:16:27,350 --> 00:16:24,880

later

409

00:16:29,189 --> 00:16:27,360

we decided you know to put the uh put

410

00:16:30,790 --> 00:16:29,199

the record straight

411

00:16:33,829 --> 00:16:30,800

because partly

412

00:16:36,710 --> 00:16:33,839

one of our you know one of our beefs was

413

00:16:39,350 --> 00:16:36,720

that the the media had only focused on

414

00:16:41,749 --> 00:16:39,360

about three percent of the scope of the

415

00:16:44,310 --> 00:16:41,759

asap program so we wanted to set the

416

00:16:45,990 --> 00:16:44,320

record straight and essentially tell the

417

00:16:47,910 --> 00:16:46,000

other 97

418

00:16:49,990 --> 00:16:47,920

of what the assad program was really

419

00:16:50,949 --> 00:16:50,000

about and that's what the book really

420

00:16:53,110 --> 00:16:50,959

does

421

00:16:55,509 --> 00:16:53,120

as you know you know in ufo world

422

00:16:57,590 --> 00:16:55,519

everything becomes a major a point of

423

00:17:00,470 --> 00:16:57,600

disagreement and there are folks who

424

00:17:03,030 --> 00:17:00,480

don't like lou elizondo who try to use

425

00:17:04,549 --> 00:17:03,040

our book as a way to bash him aha he's

426

00:17:07,750 --> 00:17:04,559

not telling the truth this is a wrong

427

00:17:10,069 --> 00:17:07,760

story not true the story of asap

428

00:17:12,230 --> 00:17:10,079

asap is one thing a tips the other the

429

00:17:14,230 --> 00:17:12,240

confusion was created by the media and

430

00:17:16,150 --> 00:17:14,240

there's nothing in our book that bashes

431

00:17:19,110 --> 00:17:16,160

lou or his his story or his account of

432

00:17:22,069 --> 00:17:19,120

what atep has done secondly people who

433

00:17:23,110 --> 00:17:22,079

defend luke uh see it as maybe an attack

434

00:17:24,949 --> 00:17:23,120

on him

435

00:17:27,429 --> 00:17:24,959

so they go after us as well i've seen

436

00:17:29,669 --> 00:17:27,439

these comments and tweets and and and

437

00:17:31,990 --> 00:17:29,679

commentaries and stories what we really

438

00:17:34,390 --> 00:17:32,000

need is a good program like atep not

439

00:17:36,950 --> 00:17:34,400

some little tiny private contract like

440

00:17:39,350 --> 00:17:36,960

asap well awesome was a massive program

441

00:17:41,750 --> 00:17:39,360

50 full-time employees investigators

442

00:17:43,190 --> 00:17:41,760

they produced an incredible database and

443

00:17:46,950 --> 00:17:43,200

a series of reports that we'll talk

444

00:17:49,190 --> 00:17:46,960

about atip was small it was informal

445

00:17:50,950 --> 00:17:49,200

it's this loose confederation of people

446

00:17:52,870 --> 00:17:50,960

inside the pentagon who had an interest

447

00:17:55,830 --> 00:17:52,880

in this program we don't know what their

448

00:17:57,990 --> 00:17:55,840

budget is lewis said it had a budget

449

00:17:59,669 --> 00:17:58,000

maybe he's right and i'm sure he can be

450

00:18:01,750 --> 00:17:59,679

able to prove it at some point but the

451  
00:18:03,990 --> 00:18:01,760  
22 million was awesome that was not a

452  
00:18:07,430 --> 00:18:04,000  
tip there were people who worked with

453  
00:18:09,350 --> 00:18:07,440  
atip who were also involved with assad

454  
00:18:12,230 --> 00:18:09,360  
they were kind of loose

455  
00:18:14,710 --> 00:18:12,240  
advisors people in positions of power

456  
00:18:16,950 --> 00:18:14,720  
who helped uh for example on the tic tac

457  
00:18:18,789 --> 00:18:16,960  
report that was an awesome project the

458  
00:18:22,070 --> 00:18:18,799  
tic tac was something that awesap dug

459  
00:18:24,789 --> 00:18:22,080  
into and produced an incredible analysis

460  
00:18:26,070 --> 00:18:24,799  
uh i i released one of those analyses

461  
00:18:27,430 --> 00:18:26,080  
the first one that was done but there

462  
00:18:28,630 --> 00:18:27,440  
was a much bigger one that the world

463  
00:18:30,150 --> 00:18:28,640

hasn't seen

464

00:18:32,630 --> 00:18:30,160

that was a

465

00:18:34,070 --> 00:18:32,640

huge accomplishment and as i said the

466

00:18:35,909 --> 00:18:34,080

world has not seen it but that was

467

00:18:37,990 --> 00:18:35,919

awesome not atep

468

00:18:40,789 --> 00:18:38,000

i don't think people realize that that

469

00:18:42,390 --> 00:18:40,799

that the whole tic tac episode that was

470

00:18:45,430 --> 00:18:42,400

uh investigated by

471

00:18:47,110 --> 00:18:45,440

by ossep and uh axelrod correct

472

00:18:49,750 --> 00:18:47,120

yeah yes

473

00:18:51,190 --> 00:18:49,760

and so no actually the the originator of

474

00:18:52,710 --> 00:18:51,200

that um

475

00:18:54,710 --> 00:18:52,720

that tic tac

476

00:18:57,430 --> 00:18:54,720

event uh report

477

00:19:01,190 --> 00:18:57,440

essentially was one of the first people

478

00:19:03,270 --> 00:19:01,200

that i interviewed and hired at uh at

479

00:19:05,270 --> 00:19:03,280

the las vegas center

480

00:19:07,590 --> 00:19:05,280

for the asap program

481

00:19:08,789 --> 00:19:07,600

it was a guy lieutenant colonel from the

482

00:19:11,590 --> 00:19:08,799

marines

483

00:19:14,310 --> 00:19:11,600

who had a really excellent resume had a

484

00:19:16,630 --> 00:19:14,320

great background and who walked in sat

485

00:19:18,230 --> 00:19:16,640

down i basically had hired him within

486

00:19:19,909 --> 00:19:18,240

10-15 minutes

487

00:19:21,510 --> 00:19:19,919

halfway through the interview or towards

488

00:19:24,070 --> 00:19:21,520

the end of the interview he drops this

489

00:19:28,150 --> 00:19:24,080

bombshell on me that he'd been involved

490

00:19:31,750 --> 00:19:28,160

in this uh really intense encounter with

491

00:19:32,870 --> 00:19:31,760

the ufo off the coast of san diego um as

492

00:19:35,510 --> 00:19:32,880

part of the

493

00:19:36,950 --> 00:19:35,520

nimitz carrier strike group and so

494

00:19:39,750 --> 00:19:36,960

nobody

495

00:19:42,470 --> 00:19:39,760

um you know essentially in the world at

496

00:19:46,150 --> 00:19:42,480

the time knew about that um and it was

497

00:19:47,669 --> 00:19:46,160

the asap people i i contacted james t

498

00:19:49,909 --> 00:19:47,679

lakatsky who was the defense

499

00:19:53,110 --> 00:19:49,919

intelligence agency analyst who was

500

00:19:55,990 --> 00:19:53,120

running the program and on the the dc

501  
00:19:58,630 --> 00:19:56,000  
part um i also talked with robert

502  
00:20:01,669 --> 00:19:58,640  
bigelow about it and lukowski then

503  
00:20:04,470 --> 00:20:01,679  
contacted axelrod and he put together a

504  
00:20:07,270 --> 00:20:04,480  
team of investigators that went out and

505  
00:20:09,350 --> 00:20:07,280  
actually interviewed every single pilot

506  
00:20:11,990 --> 00:20:09,360  
that had encountered the the tic tac

507  
00:20:15,830 --> 00:20:12,000  
object as well as multiple crew members

508  
00:20:18,789 --> 00:20:15,840  
of the uss princeton so um all of those

509  
00:20:21,830 --> 00:20:18,799  
uh data were put together by axelrod and

510  
00:20:22,789 --> 00:20:21,840  
his team into a report that george just

511  
00:20:25,669 --> 00:20:22,799  
mentioned

512  
00:20:28,870 --> 00:20:25,679  
um that was sent as one of the 104

513  
00:20:31,110 --> 00:20:28,880

reports that asap submitted to

514

00:20:33,510 --> 00:20:31,120

the defense intelligence agency as

515

00:20:35,350 --> 00:20:33,520

deliverables for that 22 million dollar

516

00:20:37,669 --> 00:20:35,360

contract

517

00:20:39,669 --> 00:20:37,679

the you know the the confusion also from

518

00:20:41,990 --> 00:20:39,679

the people who were involved all along

519

00:20:44,710 --> 00:20:42,000

the way so there was a core group of

520

00:20:47,350 --> 00:20:44,720

pentagon advisors who were interested in

521

00:20:49,830 --> 00:20:47,360

asap some of those attended this dinner

522

00:20:51,990 --> 00:20:49,840

those same people after asap was

523

00:20:54,950 --> 00:20:52,000

kneecapped and the money was pulled they

524

00:20:57,510 --> 00:20:54,960

became the core of atec and lou elizondo

525

00:20:59,669 --> 00:20:57,520

to his credit resurrected it you know as

526

00:21:01,590 --> 00:20:59,679

best he could a smaller version but he

527

00:21:02,390 --> 00:21:01,600

kept it going with these same group of

528

00:21:06,630 --> 00:21:02,400

people

529

00:21:08,870 --> 00:21:06,640

the backbone of the uap task force as

530

00:21:10,630 --> 00:21:08,880

well so you know they've they've moved

531

00:21:13,430 --> 00:21:10,640

along from program to program but there

532

00:21:15,110 --> 00:21:13,440

is no conflict between ossap and atip

533

00:21:17,909 --> 00:21:15,120

except those that have been created by

534

00:21:19,510 --> 00:21:17,919

ufo nuts and those confu the confusion

535

00:21:23,029 --> 00:21:19,520

that's been created by media reports

536

00:21:28,310 --> 00:21:25,029

thanks so much for helping to clarify

537

00:21:29,190 --> 00:21:28,320

that that's that's really helpful um

538

00:21:31,350 --> 00:21:29,200

you know

539

00:21:33,430 --> 00:21:31,360

one one thing that's come up before is

540

00:21:36,710 --> 00:21:33,440

that um you know the hunt for the

541

00:21:39,350 --> 00:21:36,720

skinwalker was largely documenting a lot

542

00:21:42,950 --> 00:21:39,360

of the work that nids was doing on the

543

00:21:44,870 --> 00:21:42,960

skinwalker ranch and it had the kind of

544

00:21:47,110 --> 00:21:44,880

um in

545

00:21:49,350 --> 00:21:47,120

amazing consequence

546

00:21:51,510 --> 00:21:49,360

as it's been said that that people read

547

00:21:54,310 --> 00:21:51,520

this book and that actually may have

548

00:21:56,390 --> 00:21:54,320

been very influential in in terms of

549

00:21:59,430 --> 00:21:56,400

developing the asap program and getting

550

00:22:00,870 --> 00:21:59,440

that initial funding now of course with

551  
00:22:03,350 --> 00:22:00,880  
skinwalkers at the pentagon we're

552  
00:22:05,430 --> 00:22:03,360  
looking at the work that asap did and

553  
00:22:07,669 --> 00:22:05,440  
you know i i have a quote here from

554  
00:22:09,270 --> 00:22:07,679  
george saying if there's any one lesson

555  
00:22:12,310 --> 00:22:09,280  
to be learned from this book you need to

556  
00:22:15,029 --> 00:22:12,320  
follow the evidence where it leads and

557  
00:22:15,750 --> 00:22:15,039  
column uh

558  
00:22:18,390 --> 00:22:15,760  
with

559  
00:22:21,190 --> 00:22:18,400  
saying

560  
00:22:22,549 --> 00:22:21,200  
the temple is robust the template should

561  
00:22:24,789 --> 00:22:22,559  
be repeated

562  
00:22:27,430 --> 00:22:24,799  
the template should be expanded

563  
00:22:30,390 --> 00:22:27,440

beyond a two-year program

564

00:22:32,710 --> 00:22:30,400

along those lines um are you

565

00:22:35,190 --> 00:22:32,720

are you looking forward to possibly

566

00:22:37,590 --> 00:22:35,200

being actively involved yourself in a

567

00:22:38,310 --> 00:22:37,600

program like this if it were to be able

568

00:22:47,669 --> 00:22:38,320

to

569

00:22:49,510 --> 00:22:47,679

would you be excited are you excited

570

00:22:52,230 --> 00:22:49,520

about any possible prospects or anything

571

00:22:55,350 --> 00:22:52,240

on the horizon that might end up in a

572

00:22:57,669 --> 00:22:55,360

quadrant like that well

573

00:22:58,630 --> 00:22:57,679

that's a pretty complicated question but

574

00:22:59,350 --> 00:22:58,640

um

575

00:23:02,950 --> 00:22:59,360

so

576  
00:23:03,750 --> 00:23:02,960  
going back to the uap task force

577  
00:23:06,470 --> 00:23:03,760  
um

578  
00:23:07,270 --> 00:23:06,480  
the the people on the uap task force

579  
00:23:09,830 --> 00:23:07,280  
were

580  
00:23:12,149 --> 00:23:09,840  
i mean i know them i've i've had a lot

581  
00:23:13,830 --> 00:23:12,159  
of zoom calls with them and

582  
00:23:14,950 --> 00:23:13,840  
um as they were going through that

583  
00:23:17,669 --> 00:23:14,960  
process

584  
00:23:20,149 --> 00:23:17,679  
um they they later became the you know

585  
00:23:22,549 --> 00:23:20,159  
department of defense made it official

586  
00:23:25,110 --> 00:23:22,559  
and then they sort of morphed into other

587  
00:23:26,710 --> 00:23:25,120  
iterations but the original people on

588  
00:23:29,430 --> 00:23:26,720

that task force

589

00:23:32,549 --> 00:23:29,440

were very very much in sync

590

00:23:36,070 --> 00:23:32,559

with the uh both the findings and the

591

00:23:38,310 --> 00:23:36,080

strategy behind the asap approach which

592

00:23:41,510 --> 00:23:38,320

and the osap approach just very simply

593

00:23:43,669 --> 00:23:41,520

was to look at both the technology

594

00:23:44,630 --> 00:23:43,679

associated with ufos

595

00:23:49,909 --> 00:23:44,640

all

596

00:23:52,870 --> 00:23:49,919

parameters that can be gleaned from both

597

00:23:55,190 --> 00:23:52,880

human observers and sensors as well as

598

00:23:59,190 --> 00:23:55,200

the second part was the the effects of

599

00:24:01,269 --> 00:23:59,200

ufo on humans which is a much more sort

600

00:24:04,390 --> 00:24:01,279

of complicated

601  
00:24:05,269 --> 00:24:04,400  
medical slash scientific inquiry

602  
00:24:07,510 --> 00:24:05,279  
which

603  
00:24:09,990 --> 00:24:07,520  
a lot of people tend to avoid if

604  
00:24:11,750 --> 00:24:10,000  
possible because it does once you start

605  
00:24:13,830 --> 00:24:11,760  
dealing with biology

606  
00:24:16,710 --> 00:24:13,840  
the uncertainty principle starts kicking

607  
00:24:18,950 --> 00:24:16,720  
in and things tend to get messy but you

608  
00:24:21,909 --> 00:24:18,960  
know that the bottom line is that the

609  
00:24:25,350 --> 00:24:21,919  
the folks on the uap task force even as

610  
00:24:27,190 --> 00:24:25,360  
it evolved had a very um

611  
00:24:29,590 --> 00:24:27,200  
you know they had a very sort of broad

612  
00:24:32,390 --> 00:24:29,600  
scope of what could be done or what

613  
00:24:34,710 --> 00:24:32,400

needed to be done um you know as time

614

00:24:38,149 --> 00:24:34,720

has gone on the the program is now

615

00:24:41,269 --> 00:24:38,159

located at the office of the uh under

616

00:24:44,789 --> 00:24:41,279

secretary for defensive and intelligence

617

00:24:47,110 --> 00:24:44,799

um as well as the um you know major

618

00:24:49,909 --> 00:24:47,120

player in this is the u.s air force

619

00:24:51,350 --> 00:24:49,919

so there's a lot less interest in the

620

00:24:54,230 --> 00:24:51,360

broad scope

621

00:24:56,549 --> 00:24:54,240

that the original version of the uap

622

00:24:58,710 --> 00:24:56,559

task force had been interested in and

623

00:25:00,390 --> 00:24:58,720

now there's sort of uh there's a lot of

624

00:25:01,909 --> 00:25:00,400

foot dragging going on

625

00:25:03,990 --> 00:25:01,919

you know there are various attempts

626

00:25:07,110 --> 00:25:04,000

within the the pentagon and the

627

00:25:09,830 --> 00:25:07,120

department of defense to try to carve

628

00:25:12,870 --> 00:25:09,840

out particular niches that could be

629

00:25:14,710 --> 00:25:12,880

really relevant as time goes on so in

630

00:25:17,510 --> 00:25:14,720

answer to your question i guess it

631

00:25:18,950 --> 00:25:17,520

really depends on what comes out of this

632

00:25:21,190 --> 00:25:18,960

whole sort of

633

00:25:22,630 --> 00:25:21,200

sausage making activity that's going on

634

00:25:24,950 --> 00:25:22,640

behind the scenes

635

00:25:27,350 --> 00:25:24,960

because what could come out could be

636

00:25:31,190 --> 00:25:27,360

a very dilute version of project blue

637

00:25:35,190 --> 00:25:31,200

book if the air force and the usdi has

638

00:25:37,750 --> 00:25:35,200

its way or alternatively if the senate

639

00:25:38,630 --> 00:25:37,760

uh and and the congress have have their

640

00:25:41,830 --> 00:25:38,640

way

641

00:25:43,750 --> 00:25:41,840

um because they put forward some very

642

00:25:46,870 --> 00:25:43,760

straightforward

643

00:25:49,830 --> 00:25:46,880

easy to understand proposals

644

00:25:51,990 --> 00:25:49,840

if they're if their attack is followed i

645

00:25:54,310 --> 00:25:52,000

would definitely be interested in being

646

00:25:55,909 --> 00:25:54,320

involved in a program like that but i

647

00:25:58,789 --> 00:25:55,919

certainly would not be interested

648

00:26:02,470 --> 00:25:58,799

involved in a program that was dominated

649

00:26:05,190 --> 00:26:02,480

by a a combination of the usdi

650

00:26:07,990 --> 00:26:05,200

and the united states air force because

651  
00:26:11,350 --> 00:26:08,000  
history has a way of repeating itself

652  
00:26:14,230 --> 00:26:11,360  
and you know blue book ended in 1969

653  
00:26:15,830 --> 00:26:14,240  
but the idea that that this program

654  
00:26:18,950 --> 00:26:15,840  
could evolve into

655  
00:26:21,190 --> 00:26:18,960  
a light version of blue of blue book uh

656  
00:26:22,470 --> 00:26:21,200  
would hold absolutely zero interest for

657  
00:26:27,029 --> 00:26:22,480  
me

658  
00:26:29,510 --> 00:26:27,039  
like having read thousands of those

659  
00:26:31,909 --> 00:26:29,520  
files it's incredible to to see how

660  
00:26:34,950 --> 00:26:31,919  
easily they wrote off the cases

661  
00:26:35,750 --> 00:26:34,960  
um as meteors or you know what have you

662  
00:26:37,430 --> 00:26:35,760  
even

663  
00:26:39,669 --> 00:26:37,440

towards the end heineck would would

664

00:26:41,190 --> 00:26:39,679

refuse to even cooperate with their

665

00:26:43,269 --> 00:26:41,200

analysis and give a different one and

666

00:26:45,029 --> 00:26:43,279

call it unidentified then they would

667

00:26:47,190 --> 00:26:45,039

wind up getting menzel involved because

668

00:26:48,390 --> 00:26:47,200

they just couldn't sustain it but right

669

00:26:51,029 --> 00:26:48,400

um

670

00:26:54,230 --> 00:26:51,039

you know the one of these dirt that's a

671

00:26:56,230 --> 00:26:54,240

pretty um important at least it was for

672

00:26:58,230 --> 00:26:56,240

me when i when i read it was an

673

00:27:00,070 --> 00:26:58,240

anomalous uh you know health effects

674

00:27:01,590 --> 00:27:00,080

sub-acute and acute it's called

675

00:27:03,190 --> 00:27:01,600

something like that um

676  
00:27:04,830 --> 00:27:03,200  
you know basically talks about

677  
00:27:08,310 --> 00:27:04,840  
everything from

678  
00:27:11,669 --> 00:27:08,320  
telepathy um to

679  
00:27:13,990 --> 00:27:11,679  
all sorts of rf uh you know

680  
00:27:14,870 --> 00:27:14,000  
symptoms from burning to all sorts of

681  
00:27:17,350 --> 00:27:14,880  
stuff

682  
00:27:19,669 --> 00:27:17,360  
in there um and one quote really stood

683  
00:27:21,750 --> 00:27:19,679  
out to me you know maybe you could uh

684  
00:27:24,149 --> 00:27:21,760  
clear that up i know kick green was the

685  
00:27:26,149 --> 00:27:24,159  
author if i'm i'm correct

686  
00:27:28,870 --> 00:27:26,159  
as the purpose of this paper is to argue

687  
00:27:30,710 --> 00:27:28,880  
that data exists to reverse engineer

688  
00:27:32,830 --> 00:27:30,720

propulsion systems of anomalous

689

00:27:35,830 --> 00:27:32,840

aerospace vehicles

690

00:27:37,750 --> 00:27:35,840

um i mean to to be able to do that you

691

00:27:39,990 --> 00:27:37,760

have to know what kind of propulsion the

692

00:27:42,389 --> 00:27:40,000

anomalous aerospace vehicle

693

00:27:44,389 --> 00:27:42,399

is using correct am i reading that quote

694

00:27:46,710 --> 00:27:44,399

wrong or is that say what i think it

695

00:27:52,710 --> 00:27:49,909

um well my interpretation of that is

696

00:27:55,190 --> 00:27:52,720

that you can if if you have enough um

697

00:27:58,870 --> 00:27:55,200

biological data especially as it

698

00:28:00,389 --> 00:27:58,880

pertains to non-ionizing radiation or

699

00:28:01,750 --> 00:28:00,399

you know in some cases ionizing

700

00:28:04,789 --> 00:28:01,760

radiation but let's stick with

701  
00:28:08,070 --> 00:28:04,799  
non-ionizing radiation for the moment if

702  
00:28:10,789 --> 00:28:08,080  
you have enough data on that in terms of

703  
00:28:13,029 --> 00:28:10,799  
impacts on cells impacts on on

704  
00:28:15,350 --> 00:28:13,039  
hematological parameters

705  
00:28:16,389 --> 00:28:15,360  
you can do a good job of estimating

706  
00:28:21,510 --> 00:28:16,399  
energy

707  
00:28:24,470 --> 00:28:21,520  
starting to look at what the engineering

708  
00:28:26,870 --> 00:28:24,480  
to produce that energy might look like

709  
00:28:29,669 --> 00:28:26,880  
so that's would be my interpretation of

710  
00:28:31,430 --> 00:28:29,679  
what that that paper is saying um you

711  
00:28:34,230 --> 00:28:31,440  
know maybe kit green has a different

712  
00:28:36,870 --> 00:28:34,240  
interpretation but you know that

713  
00:28:40,070 --> 00:28:36,880

it is possible with enough data in the

714

00:28:41,029 --> 00:28:40,080

biological sphere to do a pretty good

715

00:28:44,470 --> 00:28:41,039

job

716

00:28:47,990 --> 00:28:44,480

in terms of at least boxing in the uh

717

00:28:50,230 --> 00:28:48,000

the parameters that should be studied uh

718

00:28:52,389 --> 00:28:50,240

with respect to the engineering of what

719

00:28:54,389 --> 00:28:52,399

produced that radiation

720

00:28:57,430 --> 00:28:54,399

right and we also had you know from the

721

00:28:59,190 --> 00:28:57,440

beginning uh boss app was a technology

722

00:29:00,549 --> 00:28:59,200

program they wanted to be able to figure

723

00:29:03,350 --> 00:29:00,559

this stuff out

724

00:29:05,430 --> 00:29:03,360

jim lakatsky has said uh in the book and

725

00:29:07,590 --> 00:29:05,440

to us in interviews and things that this

726  
00:29:09,269 --> 00:29:07,600  
was a ufo program they wanted to figure

727  
00:29:11,909 --> 00:29:09,279  
out the technology how did these things

728  
00:29:13,990 --> 00:29:11,919  
fly are they a threat can we duplicate

729  
00:29:16,389 --> 00:29:14,000  
it that's that was the primary mission

730  
00:29:18,470 --> 00:29:16,399  
we've seen a lot of speculation in the

731  
00:29:21,029 --> 00:29:18,480  
ufo world that it had nothing to do with

732  
00:29:23,590 --> 00:29:21,039  
ufos and these foia people saying oh my

733  
00:29:25,110 --> 00:29:23,600  
gosh it doesn't say ufos they assume

734  
00:29:27,590 --> 00:29:25,120  
that they are the smartest people in the

735  
00:29:29,430 --> 00:29:27,600  
room and then if uh if there's a ufo

736  
00:29:31,190 --> 00:29:29,440  
program that clearly these people at the

737  
00:29:33,669 --> 00:29:31,200  
pentagon would be so stupid enough to

738  
00:29:35,909 --> 00:29:33,679

mention ufos and flying saucers in their

739

00:29:38,310 --> 00:29:35,919

emails and thus we'd catch them well

740

00:29:41,029 --> 00:29:38,320

you know i i suspect that jim mccatsky

741

00:29:42,389 --> 00:29:41,039

and others are aware that foia exists

742

00:29:44,389 --> 00:29:42,399

that if they don't want you to find

743

00:29:45,909 --> 00:29:44,399

emails that mention ufos you're not

744

00:29:47,590 --> 00:29:45,919

going to find them if they don't want

745

00:29:49,190 --> 00:29:47,600

you to find the files that were produced

746

00:29:52,230 --> 00:29:49,200

by assap you're not going to find those

747

00:29:54,149 --> 00:29:52,240

either so this was a ufo program find

748

00:29:55,269 --> 00:29:54,159

out what they are how they work are they

749

00:29:57,590 --> 00:29:55,279

a threat

750

00:29:59,669 --> 00:29:57,600

but it also as you mentioned earlier it

751  
00:30:01,590 --> 00:29:59,679  
follow the evidence where it leads and

752  
00:30:03,750 --> 00:30:01,600  
it led into some really strange places

753  
00:30:05,350 --> 00:30:03,760  
that were not anticipated by by some of

754  
00:30:07,029 --> 00:30:05,360  
the people in the program at the

755  
00:30:09,269 --> 00:30:07,039  
beginning and not by higher-ups in the

756  
00:30:10,710 --> 00:30:09,279  
dia you know i don't think that column

757  
00:30:13,269 --> 00:30:10,720  
or anybody else

758  
00:30:14,630 --> 00:30:13,279  
associated with asap wanted to be

759  
00:30:16,310 --> 00:30:14,640  
investigating what's called like

760  
00:30:17,190 --> 00:30:16,320  
poltergeist cases

761  
00:30:18,870 --> 00:30:17,200  
you know

762  
00:30:20,830 --> 00:30:18,880  
it's weird but you have to follow the

763  
00:30:23,269 --> 00:30:20,840

evidence where it leads if it

764

00:30:25,430 --> 00:30:23,279

involves spectacular phenomena they're

765

00:30:28,070 --> 00:30:25,440

reported by credible witnesses and in

766

00:30:30,310 --> 00:30:28,080

some cases biological evidence physical

767

00:30:33,110 --> 00:30:30,320

evidence of effects you have to you have

768

00:30:38,389 --> 00:30:35,990

absolutely um yeah and there's and so

769

00:30:40,950 --> 00:30:38,399

many people it seems like some people

770

00:30:43,510 --> 00:30:40,960

they get hung up within the field on on

771

00:30:45,990 --> 00:30:43,520

the cryptids aspect or the hitchhiker

772

00:30:47,350 --> 00:30:46,000

effect and and their brain and for some

773

00:30:49,269 --> 00:30:47,360

of these people it's like their brain

774

00:30:51,590 --> 00:30:49,279

stops or something like you know they

775

00:30:54,070 --> 00:30:51,600

get this element of brain freeze and

776

00:30:56,549 --> 00:30:54,080

they can't pursue it any further but i i

777

00:30:58,470 --> 00:30:56,559

really appreciate um just being

778

00:31:00,310 --> 00:30:58,480

straightforward and honest about

779

00:31:02,630 --> 00:31:00,320

about these accounts you know what's

780

00:31:04,149 --> 00:31:02,640

coming out because you know for so many

781

00:31:06,230 --> 00:31:04,159

years as we've talked about earlier

782

00:31:08,149 --> 00:31:06,240

there's and i think it's one of the big

783

00:31:09,909 --> 00:31:08,159

central themes of these books is that

784

00:31:12,549 --> 00:31:09,919

you know for decades and decades and

785

00:31:14,549 --> 00:31:12,559

decades like blue book etc

786

00:31:16,950 --> 00:31:14,559

and even well-intentioned independent

787

00:31:18,870 --> 00:31:16,960

researchers would edit out inconvenient

788

00:31:20,710 --> 00:31:18,880

details of

789

00:31:22,549 --> 00:31:20,720

because even well-intentioned ones

790

00:31:23,430 --> 00:31:22,559

because they thought it was too weird

791

00:31:25,350 --> 00:31:23,440

you know

792

00:31:27,590 --> 00:31:25,360

even just about occupants or other

793

00:31:30,630 --> 00:31:27,600

things like this and so

794

00:31:32,789 --> 00:31:30,640

you know along those lines um

795

00:31:34,230 --> 00:31:32,799

you know there's there

796

00:31:37,110 --> 00:31:34,240

with these dirties that we were just

797

00:31:40,070 --> 00:31:37,120

talking about there's been a recent uh

798

00:31:41,430 --> 00:31:40,080

foia release um

799

00:31:43,430 --> 00:31:41,440

and the person apparently would like to

800

00:31:46,549 --> 00:31:43,440

really remain not anonymous i don't know

801  
00:31:48,549 --> 00:31:46,559  
who it is um but uh a fellow named keith

802  
00:31:50,789 --> 00:31:48,559  
basterfield who's a an independent

803  
00:31:53,509 --> 00:31:50,799  
researcher down there in australia uh

804  
00:31:55,990 --> 00:31:53,519  
put together a nice zip file with 36 of

805  
00:31:58,710 --> 00:31:56,000  
these dirts now george you have been

806  
00:32:02,230 --> 00:31:58,720  
instrumental in in kind of bringing to

807  
00:32:03,990 --> 00:32:02,240  
the public the story of these amazing

808  
00:32:06,950 --> 00:32:04,000  
papers that cover everything from

809  
00:32:08,149 --> 00:32:06,960  
biological effects of close encounters

810  
00:32:10,070 --> 00:32:08,159  
of

811  
00:32:13,190 --> 00:32:10,080  
with people that are experiencers and

812  
00:32:15,590 --> 00:32:13,200  
then have traceable biological effects

813  
00:32:17,909 --> 00:32:15,600

everything from that to like wormholes

814

00:32:19,990 --> 00:32:17,919

and exotic forms of space propulsion are

815

00:32:23,029 --> 00:32:20,000

covered in these documents

816

00:32:26,389 --> 00:32:23,039

however i believe there were 38 dirts

817

00:32:28,630 --> 00:32:26,399

and this was a release of 36 dirt

818

00:32:31,029 --> 00:32:28,640

so george you released some of the you

819

00:32:32,710 --> 00:32:31,039

were instrumental in releasing or kind

820

00:32:34,549 --> 00:32:32,720

of putting out into the public some of

821

00:32:35,909 --> 00:32:34,559

the initial dirts and of course column

822

00:32:37,909 --> 00:32:35,919

you are the day-to-day operations

823

00:32:41,029 --> 00:32:37,919

manager of the program that kind of

824

00:32:42,389 --> 00:32:41,039

funded these papers are we going to see

825

00:32:44,870 --> 00:32:42,399

is there a

826

00:32:46,870 --> 00:32:44,880

good reason why those those remaining

827

00:32:49,590 --> 00:32:46,880

dirts should be

828

00:32:52,070 --> 00:32:49,600

kept away from the public or do we can

829

00:32:54,149 --> 00:32:52,080

we expect that those will be coming into

830

00:32:55,669 --> 00:32:54,159

play in the days or months or years

831

00:32:57,669 --> 00:32:55,679

ahead

832

00:32:59,269 --> 00:32:57,679

well i think i've released about a dozen

833

00:33:01,509 --> 00:32:59,279

of them uh just because i thought they

834

00:33:04,630 --> 00:33:01,519

should be out there i i you know there

835

00:33:06,470 --> 00:33:04,640

was uh i think uh boss app spent about a

836

00:33:08,950 --> 00:33:06,480

half a million dollars on those and they

837

00:33:10,950 --> 00:33:08,960

contacted hal put off with sort of

838

00:33:12,870 --> 00:33:10,960

a column you can wait in any time but

839

00:33:14,789 --> 00:33:12,880

help put up with sort of in charge of

840

00:33:16,710 --> 00:33:14,799

divvying them up picking the topics and

841

00:33:18,789 --> 00:33:16,720

then assigning them to

842

00:33:21,430 --> 00:33:18,799

particular researchers investigators and

843

00:33:23,430 --> 00:33:21,440

phds i don't know that any of them

844

00:33:25,669 --> 00:33:23,440

outside of eric davis and hal really

845

00:33:27,190 --> 00:33:25,679

knew it was part of a ufo program but

846

00:33:29,430 --> 00:33:27,200

they were writing about cutting-edge

847

00:33:31,830 --> 00:33:29,440

topics they were supposed to foresee 50

848

00:33:34,549 --> 00:33:31,840

years or 40 years in the future on

849

00:33:37,029 --> 00:33:34,559

different parts of aerospace avionics

850

00:33:39,590 --> 00:33:37,039

materials science things of that sort

851

00:33:41,509 --> 00:33:39,600

as as to establish a baseline this is

852

00:33:44,070 --> 00:33:41,519

what we know now this is state of the

853

00:33:46,070 --> 00:33:44,080

art now here's what we project state of

854

00:33:47,909 --> 00:33:46,080

the art will be in 40 years so that you

855

00:33:50,549 --> 00:33:47,919

had a baseline to compare

856

00:33:53,350 --> 00:33:50,559

anomalous cases incidents involving ufos

857

00:33:56,149 --> 00:33:53,360

and they tried to cover a wide gamut of

858

00:33:59,669 --> 00:33:56,159

the whole um array of topics that might

859

00:34:01,269 --> 00:33:59,679

be uh investigated by asap there are two

860

00:34:04,310 --> 00:34:01,279

of those that are really sensitive one

861

00:34:06,470 --> 00:34:04,320

is uh was a classified version of a

862

00:34:08,389 --> 00:34:06,480

of a dirt that's been released

863

00:34:09,750 --> 00:34:08,399

and it's technical stuff but column can

864

00:34:12,550 --> 00:34:09,760

maybe address it and i think the other

865

00:34:14,869 --> 00:34:12,560

one is kit green's paper about the human

866

00:34:17,030 --> 00:34:14,879

effects uh that's been leaked i don't

867

00:34:18,710 --> 00:34:17,040

think it's been officially uh released

868

00:34:20,310 --> 00:34:18,720

but it has been leaked

869

00:34:21,589 --> 00:34:20,320

and i you know that's some sensitive

870

00:34:24,950 --> 00:34:21,599

stuff in there

871

00:34:27,829 --> 00:34:24,960

um there was great concern that asap um

872

00:34:30,389 --> 00:34:27,839

had to consider in the investigation of

873

00:34:32,470 --> 00:34:30,399

individual cases where people had really

874

00:34:34,470 --> 00:34:32,480

deleterious health effects

875

00:34:36,470 --> 00:34:34,480

personal privacy medical privacy issues

876

00:34:37,990 --> 00:34:36,480

they had to be careful about what got

877

00:34:40,470 --> 00:34:38,000

released and i think that might be a

878

00:34:41,909 --> 00:34:40,480

factor in some of it

879

00:34:43,750 --> 00:34:41,919

essentially though kids paper is

880

00:34:45,510 --> 00:34:43,760

disturbing you know it's it's scary as

881

00:34:48,149 --> 00:34:45,520

hell and that might be why they just

882

00:34:49,990 --> 00:34:48,159

decide to keep it keep it i did a whole

883

00:34:51,750 --> 00:34:50,000

show on it

884

00:34:54,790 --> 00:34:51,760

and related it to even a couple blue

885

00:34:55,990 --> 00:34:54,800

book cases where you know a ufo hovers

886

00:34:58,550 --> 00:34:56,000

over a car

887

00:35:01,109 --> 00:34:58,560

the gal's body starts warming up and

888

00:35:03,910 --> 00:35:01,119

then i kind of uh correlated it to the

889

00:35:07,829 --> 00:35:03,920

2021 preliminary assessment where some

890

00:35:10,550 --> 00:35:07,839

show signs of rf frequency

891

00:35:13,270 --> 00:35:10,560

and i was kind of curious if maybe

892

00:35:16,230 --> 00:35:13,280

the case you investigated the tic tac

893

00:35:16,950 --> 00:35:16,240

case showed some rf frequencies that you

894

00:35:18,950 --> 00:35:16,960

know

895

00:35:21,270 --> 00:35:18,960

um kind of tied into that preliminary

896

00:35:23,910 --> 00:35:21,280

report in the human effects report by

897

00:35:28,630 --> 00:35:27,589

um the tic tac case to my knowledge did

898

00:35:31,750 --> 00:35:28,640

not

899

00:35:34,790 --> 00:35:31,760

um yield the sort of intensity that uh

900

00:35:36,710 --> 00:35:34,800

of of the non-ionizing radiation that

901  
00:35:39,270 --> 00:35:36,720  
kick green was talking about i don't

902  
00:35:42,069 --> 00:35:39,280  
have the paper in front of me so um it's

903  
00:35:44,150 --> 00:35:42,079  
difficult to to compare the numbers

904  
00:35:47,270 --> 00:35:44,160  
but i do know that for example two of

905  
00:35:49,750 --> 00:35:47,280  
the the cases that we report in our book

906  
00:35:52,470 --> 00:35:49,760  
um um both cases

907  
00:35:54,870 --> 00:35:52,480  
uh one case was in in oregon

908  
00:35:57,030 --> 00:35:54,880  
uh where where a guy was was a

909  
00:36:01,270 --> 00:35:57,040  
biotechnologist was driving

910  
00:36:02,150 --> 00:36:01,280  
uh in tour towards bend oregon and uh

911  
00:36:06,310 --> 00:36:02,160  
these

912  
00:36:08,550 --> 00:36:06,320  
uh low-flying blue objects uh came very

913  
00:36:11,589 --> 00:36:08,560

close to his car one came two came into

914

00:36:12,470 --> 00:36:11,599

the car one went through his his his

915

00:36:16,150 --> 00:36:12,480

body

916

00:36:18,950 --> 00:36:16,160

his upper upper uh abdominal cavity or

917

00:36:23,030 --> 00:36:18,960

his upper thoracic cavity um

918

00:36:25,589 --> 00:36:23,040

and um had a whole slew of uh biological

919

00:36:27,589 --> 00:36:25,599

medical effects that were downstream

920

00:36:30,630 --> 00:36:27,599

from that event

921

00:36:33,190 --> 00:36:30,640

but to name but a few there was you know

922

00:36:36,150 --> 00:36:33,200

a high high level sunburn

923

00:36:37,270 --> 00:36:36,160

uh on the skin there was sort of a loss

924

00:36:42,390 --> 00:36:37,280

of

925

00:36:45,349 --> 00:36:42,400

hearing in in left ear and left eye

926

00:36:48,550 --> 00:36:45,359

um there was hair hair started falling

927

00:36:52,069 --> 00:36:48,560

out within a week or so or a couple of

928

00:36:53,790 --> 00:36:52,079

weeks so all of these are classic signs

929

00:36:56,550 --> 00:36:53,800

of uh

930

00:36:57,670 --> 00:36:56,560

non-non-ionizing radiation effects

931

00:37:00,069 --> 00:36:57,680

um

932

00:37:02,710 --> 00:37:00,079

in some cases ionizing radiation effects

933

00:37:04,470 --> 00:37:02,720

but we would probably distinguish

934

00:37:06,470 --> 00:37:04,480

uh in terms of the sunburn and all of

935

00:37:08,870 --> 00:37:06,480

that we would probably stick with

936

00:37:11,510 --> 00:37:08,880

non-ionizing radiation second case

937

00:37:13,910 --> 00:37:11,520

occurred in georgia where this guy was

938

00:37:17,349 --> 00:37:13,920

minding his own business in his backyard

939

00:37:19,109 --> 00:37:17,359

and spotted a a low-flying uh football

940

00:37:23,270 --> 00:37:19,119

field-sized triangle

941

00:37:25,829 --> 00:37:23,280

above his house his property um he uh

942

00:37:28,790 --> 00:37:25,839

tried to take a photograph of it his his

943

00:37:31,349 --> 00:37:28,800

cell phone died he ran inside and got a

944

00:37:33,589 --> 00:37:31,359

as a powerful flashlight turn on the

945

00:37:36,710 --> 00:37:33,599

flashlight at the at the lower end of

946

00:37:39,750 --> 00:37:36,720

the at the uh the lower part of the the

947

00:37:41,990 --> 00:37:39,760

triangle and instantly this blue beam

948

00:37:45,109 --> 00:37:42,000

came out back from the underside of the

949

00:37:47,270 --> 00:37:45,119

craft hit him he it was so intense he

950

00:37:51,030 --> 00:37:47,280

turned around and he could feel it

951  
00:37:53,829 --> 00:37:51,040  
burning uh so he ran inside but um you

952  
00:37:56,310 --> 00:37:53,839  
know a few hours later he was on the

953  
00:37:59,430 --> 00:37:56,320  
couch feeling really ill he had a

954  
00:38:02,230 --> 00:37:59,440  
metallic taste in his mouth he had us

955  
00:38:04,550 --> 00:38:02,240  
you know deep deep sunburn which osap

956  
00:38:05,750 --> 00:38:04,560  
investigators photographed on the back

957  
00:38:08,390 --> 00:38:05,760  
of his neck

958  
00:38:10,630 --> 00:38:08,400  
um and you know he he went downhill

959  
00:38:13,910 --> 00:38:10,640  
medically we had two physician

960  
00:38:17,910 --> 00:38:13,920  
scientists as part of the assad asap

961  
00:38:21,270 --> 00:38:17,920  
team md phds who also had tssci

962  
00:38:23,829 --> 00:38:21,280  
clearances who uh you know flew out uh

963  
00:38:26,550 --> 00:38:23,839

for these kinds of cases but they mapped

964

00:38:29,750 --> 00:38:26,560

him over many many months and his

965

00:38:33,510 --> 00:38:29,760

deterioration over time but again

966

00:38:36,150 --> 00:38:33,520

classic signs of non-ionizing radiation

967

00:38:38,630 --> 00:38:36,160

in both those cases so you know that the

968

00:38:40,630 --> 00:38:38,640

the paper that kick green uh authored

969

00:38:42,790 --> 00:38:40,640

was almost like prescient

970

00:38:45,510 --> 00:38:42,800

in terms of predicting some of these

971

00:38:48,310 --> 00:38:45,520

cases that osap would uh would

972

00:38:51,670 --> 00:38:48,320

investigate within you know less than a

973

00:38:53,990 --> 00:38:51,680

year of him writing this paper

974

00:38:55,670 --> 00:38:54,000

back to the durge for a second you know

975

00:38:58,150 --> 00:38:55,680

you mentioned about keith basterfield i

976  
00:39:01,349 --> 00:38:58,160  
saw the some commentary from him that

977  
00:39:03,190 --> 00:39:01,359  
the durds don't mention ufos i again you

978  
00:39:05,030 --> 00:39:03,200  
know like some of the foia information

979  
00:39:05,910 --> 00:39:05,040  
that's been requested and again it

980  
00:39:08,870 --> 00:39:05,920  
wasn't

981  
00:39:10,630 --> 00:39:08,880  
supposed to write about ufos they were

982  
00:39:13,030 --> 00:39:10,640  
supposed to write about human technology

983  
00:39:14,950 --> 00:39:13,040  
as a baseline and uh it's even been

984  
00:39:16,310 --> 00:39:14,960  
suggested that well jim lakatsky must

985  
00:39:18,390 --> 00:39:16,320  
have been running this thing without

986  
00:39:20,550 --> 00:39:18,400  
telling his superiors at dia what he was

987  
00:39:21,510 --> 00:39:20,560  
doing he's not telling them it's a ufo

988  
00:39:23,990 --> 00:39:21,520

program

989

00:39:25,829 --> 00:39:24,000

which is preposterous i mean he got

990

00:39:27,750 --> 00:39:25,839

senator reid and two other senators to

991

00:39:30,310 --> 00:39:27,760

approve 22 million dollars they said

992

00:39:32,950 --> 00:39:30,320

it's a ufo program robert bigelow the

993

00:39:34,630 --> 00:39:32,960

contractor said it's a ufo program hal

994

00:39:36,630 --> 00:39:34,640

put off the scientist in charge of the

995

00:39:39,589 --> 00:39:36,640

paper said it's a ufo program like

996

00:39:40,950 --> 00:39:39,599

catski the program manager says it it is

997

00:39:43,109 --> 00:39:40,960

column keller her the boots on the

998

00:39:45,829 --> 00:39:43,119

ground manager in nevada says it's a ufo

999

00:39:48,470 --> 00:39:45,839

program it's a ufo program the idea that

1000

00:39:50,230 --> 00:39:48,480

likkatsky pulled this off scheming

1001  
00:39:52,310 --> 00:39:50,240  
without his bosses knowing about it is

1002  
00:39:53,510 --> 00:39:52,320  
ridiculous it's ridiculous of course

1003  
00:39:54,829 --> 00:39:53,520  
they knew about it

1004  
00:39:57,510 --> 00:39:54,839  
and signed off on

1005  
00:39:59,750 --> 00:39:57,520  
it thank you so much for clarifying that

1006  
00:40:00,550 --> 00:39:59,760  
i really appreciate it um

1007  
00:40:03,910 --> 00:40:00,560  
now

1008  
00:40:06,550 --> 00:40:03,920  
um

1009  
00:40:09,430 --> 00:40:06,560  
gary nolan and jim simavan

1010  
00:40:11,030 --> 00:40:09,440  
gary nolan of course recently

1011  
00:40:13,349 --> 00:40:11,040  
finally confirmed that he was one of the

1012  
00:40:16,710 --> 00:40:13,359  
central characters with a pseudonym in

1013  
00:40:18,550 --> 00:40:16,720

diana posalka's american cosmic and jim

1014

00:40:20,710 --> 00:40:18,560

simavan of course

1015

00:40:22,710 --> 00:40:20,720

kind of came out publicly

1016

00:40:25,109 --> 00:40:22,720

as someone who's encountered non-human

1017

00:40:27,589 --> 00:40:25,119

beings even hallmarks of an abduction

1018

00:40:28,470 --> 00:40:27,599

case along with his wife on your show

1019

00:40:30,069 --> 00:40:28,480

george

1020

00:40:32,150 --> 00:40:30,079

um and

1021

00:40:34,550 --> 00:40:32,160

you know anthony further elaborated that

1022

00:40:36,390 --> 00:40:34,560

on her mutual friend stuart davis's show

1023

00:40:37,270 --> 00:40:36,400

aliens and artists of course

1024

00:40:39,030 --> 00:40:37,280

um

1025

00:40:41,349 --> 00:40:39,040

do you do

1026  
00:40:43,430 --> 00:40:41,359  
how do you both feel about seeing these

1027  
00:40:44,550 --> 00:40:43,440  
these high-profile

1028  
00:40:50,230 --> 00:40:44,560  
um

1029  
00:40:51,670 --> 00:40:50,240  
three-letter agencies and in high levels

1030  
00:40:52,950 --> 00:40:51,680  
in science

1031  
00:40:57,030 --> 00:40:52,960  
people that you've known for years

1032  
00:41:00,790 --> 00:40:59,750  
how how does it make you feel and or and

1033  
00:41:03,190 --> 00:41:00,800  
do you

1034  
00:41:05,750 --> 00:41:03,200  
see any other people possibly doing this

1035  
00:41:07,670 --> 00:41:05,760  
in the days ahead

1036  
00:41:09,349 --> 00:41:07,680  
well i'm encouraged we're all encouraged

1037  
00:41:10,790 --> 00:41:09,359  
by it you know you've always been able

1038  
00:41:12,470 --> 00:41:10,800

to assume just on the basis of

1039

00:41:14,150 --> 00:41:12,480

percentages that there were people in

1040

00:41:16,309 --> 00:41:14,160

high positions in government in the

1041

00:41:17,829 --> 00:41:16,319

pentagon and intelligence agencies i

1042

00:41:20,470 --> 00:41:17,839

don't know what the percentage of people

1043

00:41:23,109 --> 00:41:20,480

it is that have had close encounters or

1044

00:41:24,950 --> 00:41:23,119

more bizarre experiences but it is a

1045

00:41:26,710 --> 00:41:24,960

fairly substantial little slice and you

1046

00:41:29,030 --> 00:41:26,720

knew that it had to be true for them as

1047

00:41:30,390 --> 00:41:29,040

well there's been a core group of people

1048

00:41:32,390 --> 00:41:30,400

for a long time

1049

00:41:34,630 --> 00:41:32,400

that we know names that we know now

1050

00:41:37,190 --> 00:41:34,640

who've been interested in this forever

1051  
00:41:38,710 --> 00:41:37,200  
help put off kit green john alexander

1052  
00:41:40,790 --> 00:41:38,720  
folks like that who put their

1053  
00:41:42,150 --> 00:41:40,800  
reputations on the line to say yeah

1054  
00:41:44,069 --> 00:41:42,160  
we're interested in it we've seen

1055  
00:41:45,990 --> 00:41:44,079  
glimpses of it while we're on the inside

1056  
00:41:47,510 --> 00:41:46,000  
working for the government and we've

1057  
00:41:49,270 --> 00:41:47,520  
taken it outside the government to try

1058  
00:41:51,670 --> 00:41:49,280  
to figure this stuff out and they get

1059  
00:41:53,910 --> 00:41:51,680  
nothing but [h\_\_\h] from the ufo world

1060  
00:41:55,750 --> 00:41:53,920  
and beaten up you guys are spies your

1061  
00:41:57,430 --> 00:41:55,760  
spooks your disinformation agents the

1062  
00:41:58,710 --> 00:41:57,440  
same stuff that's happening to louis

1063  
00:41:59,670 --> 00:41:58,720

ondo right now

1064

00:42:01,589 --> 00:41:59,680

so

1065

00:42:03,589 --> 00:42:01,599

i applaud jim simbavan for coming

1066

00:42:05,589 --> 00:42:03,599

forward and saying it

1067

00:42:07,109 --> 00:42:05,599

we know that there are plenty of others

1068

00:42:09,430 --> 00:42:07,119

who have had the same kinds of

1069

00:42:11,190 --> 00:42:09,440

experiences who could come forward but

1070

00:42:12,710 --> 00:42:11,200

they see how people are treated when

1071

00:42:13,990 --> 00:42:12,720

they come out and say this stuff you

1072

00:42:15,990 --> 00:42:14,000

know and

1073

00:42:17,430 --> 00:42:16,000

i think there's a lot of trepidation for

1074

00:42:19,109 --> 00:42:17,440

people who have not yet come out and

1075

00:42:20,710 --> 00:42:19,119

told their stories

1076

00:42:22,470 --> 00:42:20,720

well for the record they're free to come

1077

00:42:24,470 --> 00:42:22,480

on my show i mean

1078

00:42:26,950 --> 00:42:24,480

i mean uh

1079

00:42:29,589 --> 00:42:26,960

one uh you know i think of one in

1080

00:42:31,510 --> 00:42:29,599

particular instance where uh it was uh

1081

00:42:33,109 --> 00:42:31,520

mr john ramirez i've had on this show a

1082

00:42:34,870 --> 00:42:33,119

couple times um

1083

00:42:36,550 --> 00:42:34,880

and he wasn't treated so kind and that

1084

00:42:38,870 --> 00:42:36,560

was my major on a different show and

1085

00:42:41,030 --> 00:42:38,880

that was my major point at the time was

1086

00:42:43,430 --> 00:42:41,040

um if you want more people to come out

1087

00:42:45,589 --> 00:42:43,440

and talk about their experiences

1088

00:42:48,390 --> 00:42:45,599

um you have to have a level of respect

1089

00:42:50,390 --> 00:42:48,400

in in dealing with them whether you know

1090

00:42:52,630 --> 00:42:50,400

sean espjorn hargens is is one of my

1091

00:42:54,950 --> 00:42:52,640

favorite dudes to listen to

1092

00:42:56,150 --> 00:42:54,960

um and he always says

1093

00:42:57,990 --> 00:42:56,160

you know

1094

00:42:59,109 --> 00:42:58,000

take things seriously but you can hold

1095

00:43:01,349 --> 00:42:59,119

it lightly

1096

00:43:04,230 --> 00:43:01,359

um and and i think that's perfect a

1097

00:43:08,150 --> 00:43:04,240

perfect way to approach it one thing um

1098

00:43:12,230 --> 00:43:08,160

is we wanted to hear com's response on

1099

00:43:13,670 --> 00:43:12,240

on that as well jay says

1100

00:43:15,750 --> 00:43:13,680

what was the

1101  
00:43:18,710 --> 00:43:15,760  
oh yeah i was i was wondering if column

1102  
00:43:20,790 --> 00:43:18,720  
had anything uh in response also to jim

1103  
00:43:23,829 --> 00:43:20,800  
some of anne or gary nolan's

1104  
00:43:26,790 --> 00:43:23,839  
um kind of coming out of the

1105  
00:43:28,710 --> 00:43:26,800  
uh of the closets in their own ways as

1106  
00:43:30,630 --> 00:43:28,720  
experiencers and

1107  
00:43:32,550 --> 00:43:30,640  
and with the research that that they've

1108  
00:43:34,790 --> 00:43:32,560  
been doing lately

1109  
00:43:38,550 --> 00:43:34,800  
yeah i i i

1110  
00:43:40,710 --> 00:43:38,560  
also applaud um them sort of coming out

1111  
00:43:42,870 --> 00:43:40,720  
like this because uh

1112  
00:43:45,270 --> 00:43:42,880  
i think you know somebody like gary

1113  
00:43:46,790 --> 00:43:45,280

nolan who is sort of in the at the top

1114

00:43:50,470 --> 00:43:46,800

of his game

1115

00:43:53,430 --> 00:43:50,480

in as a professor of uh of immunology

1116

00:43:55,510 --> 00:43:53,440

at stanford university and i mean this

1117

00:43:58,230 --> 00:43:55,520

this guy is

1118

00:44:01,109 --> 00:43:58,240

among the the top you know

1119

00:44:03,990 --> 00:44:01,119

probably 20 immunologists in the world

1120

00:44:06,230 --> 00:44:04,000

um so for a guy um who's that much of a

1121

00:44:09,270 --> 00:44:06,240

heavyweight to come out

1122

00:44:11,910 --> 00:44:09,280

uh with with with um these kinds of

1123

00:44:13,750 --> 00:44:11,920

details i've known gary for many years

1124

00:44:15,910 --> 00:44:13,760

and you know there's there's been a lot

1125

00:44:18,870 --> 00:44:15,920

of discussions behind the scene

1126

00:44:22,390 --> 00:44:18,880

uh but um you know it's it's

1127

00:44:25,190 --> 00:44:22,400

really gratifying to see that level of

1128

00:44:26,150 --> 00:44:25,200

discourse beginning to happen out in the

1129

00:44:29,190 --> 00:44:26,160

open

1130

00:44:32,790 --> 00:44:29,200

um and just like jim cenavan too i mean

1131

00:44:35,750 --> 00:44:32,800

jim simavon has a tremendously long

1132

00:44:36,790 --> 00:44:35,760

uh and well-decorated history as as a

1133

00:44:39,510 --> 00:44:36,800

part of the

1134

00:44:40,950 --> 00:44:39,520

central intelligence agency again for

1135

00:44:43,190 --> 00:44:40,960

for him to come

1136

00:44:45,430 --> 00:44:43,200

um out into the public like that is is

1137

00:44:47,670 --> 00:44:45,440

very gratifying um you know jacques

1138

00:44:50,230 --> 00:44:47,680

valley wrote this book at the invisible

1139

00:44:52,550 --> 00:44:50,240

college back in 1975

1140

00:44:55,910 --> 00:44:52,560

and many of the people who have sort of

1141

00:44:57,270 --> 00:44:55,920

kept a low profile over decades because

1142

00:44:59,510 --> 00:44:57,280

of the kind of

1143

00:45:01,990 --> 00:44:59,520

toxicity associated with the ufo

1144

00:45:05,190 --> 00:45:02,000

phenomenon and also because that

1145

00:45:06,630 --> 00:45:05,200

toxicity can actually negatively impact

1146

00:45:09,430 --> 00:45:06,640

your career

1147

00:45:11,910 --> 00:45:09,440

unless you're very very very well placed

1148

00:45:14,710 --> 00:45:11,920

it can have very negative ramifications

1149

00:45:16,069 --> 00:45:14,720

on your career so i really do

1150

00:45:17,750 --> 00:45:16,079

applaud

1151

00:45:20,710 --> 00:45:17,760

you know these people

1152

00:45:23,190 --> 00:45:20,720

sort of having the courage to to come

1153

00:45:25,430 --> 00:45:23,200

out but you know it's really unfortunate

1154

00:45:28,390 --> 00:45:25,440

to see the sort of ufo

1155

00:45:29,190 --> 00:45:28,400

blogosphere and and the twitter mania

1156

00:45:31,589 --> 00:45:29,200

that

1157

00:45:33,750 --> 00:45:31,599

follows when when these people

1158

00:45:34,950 --> 00:45:33,760

actually report on what what's what's

1159

00:45:37,990 --> 00:45:34,960

going on

1160

00:45:39,589 --> 00:45:38,000

um it's not exactly an incentive to to

1161

00:45:43,190 --> 00:45:39,599

do this i remember

1162

00:45:44,630 --> 00:45:43,200

um that the then head of the uap task

1163

00:45:47,030 --> 00:45:44,640

force

1164

00:45:49,510 --> 00:45:47,040

right after the the three initial videos

1165

00:45:51,190 --> 00:45:49,520

had been released i remember talking to

1166

00:45:53,510 --> 00:45:51,200

him on a zoom call

1167

00:45:54,309 --> 00:45:53,520

um you know and it was after this sort

1168

00:45:58,150 --> 00:45:54,319

of

1169

00:46:00,390 --> 00:45:58,160

um extremely hostile negative reaction

1170

00:46:02,710 --> 00:46:00,400

from the public regarding these videos i

1171

00:46:04,390 --> 00:46:02,720

mean his whole thing was saying you know

1172

00:46:07,030 --> 00:46:04,400

we went through a lot of trouble to get

1173

00:46:10,069 --> 00:46:07,040

these uh these videos released and here

1174

00:46:11,030 --> 00:46:10,079

we are just getting absolutely lambasted

1175

00:46:13,430 --> 00:46:11,040

from

1176

00:46:14,950 --> 00:46:13,440

um a bunch of people with

1177

00:46:17,990 --> 00:46:14,960

um you know

1178

00:46:19,910 --> 00:46:18,000

severe access to grind and he said look

1179

00:46:21,829 --> 00:46:19,920

you know the people i'm talking to

1180

00:46:24,069 --> 00:46:21,839

behind the scenes are saying

1181

00:46:27,589 --> 00:46:24,079

why on earth should we go through all of

1182

00:46:30,230 --> 00:46:27,599

this trouble in order to be absolutely

1183

00:46:31,510 --> 00:46:30,240

sort of lambasted and

1184

00:46:32,870 --> 00:46:31,520

vilified

1185

00:46:35,030 --> 00:46:32,880

from people

1186

00:46:37,670 --> 00:46:35,040

who have an axe to grind or who have

1187

00:46:40,710 --> 00:46:37,680

some particular agenda it's not exactly

1188

00:46:43,190 --> 00:46:40,720

a sort of a a permissive environment to

1189

00:46:45,990 --> 00:46:43,200

uh to do this so i would say the same

1190

00:46:48,470 --> 00:46:46,000

thing about people who are behind the

1191

00:46:50,390 --> 00:46:48,480

scenes and working diligently on this

1192

00:46:53,030 --> 00:46:50,400

these kinds of phenomena there it is

1193

00:46:56,550 --> 00:46:53,040

there is no incentive to actually go

1194

00:46:58,550 --> 00:46:56,560

public um because the the reception is

1195

00:47:00,069 --> 00:46:58,560

usually hostile

1196

00:47:01,750 --> 00:47:00,079

you can survive

1197

00:47:03,510 --> 00:47:01,760

what the media does to you now they're

1198

00:47:05,990 --> 00:47:03,520

sort of getting used to mainstream media

1199

00:47:08,069 --> 00:47:06,000

getting used to ufo stories coming out

1200

00:47:10,069 --> 00:47:08,079

and you can take the debunkers because

1201

00:47:11,829 --> 00:47:10,079

although there are a lot of those they

1202

00:47:14,630 --> 00:47:11,839

don't really have that much

1203

00:47:16,710 --> 00:47:14,640

um horsepower behind them but it's the

1204

00:47:19,030 --> 00:47:16,720

ufo people the true believers who are

1205

00:47:20,790 --> 00:47:19,040

the most vicious and nastiest and stay

1206

00:47:23,430 --> 00:47:20,800

on this day after day and just pound

1207

00:47:25,430 --> 00:47:23,440

away at anybody and their reputation

1208

00:47:27,750 --> 00:47:25,440

um because the truth doesn't fit their

1209

00:47:30,069 --> 00:47:27,760

particular niche

1210

00:47:32,150 --> 00:47:30,079

yeah it's it's unfortunate how of the

1211

00:47:33,670 --> 00:47:32,160

people in the ufo world at least and i

1212

00:47:36,150 --> 00:47:33,680

know this is general and they're still

1213

00:47:38,390 --> 00:47:36,160

good people in the community but

1214

00:47:39,990 --> 00:47:38,400

um towards the people that uh you know

1215

00:47:42,390 --> 00:47:40,000

that you're that you're speaking about

1216

00:47:44,549 --> 00:47:42,400

that they act as if they're a boss you

1217

00:47:46,069 --> 00:47:44,559

know i want you to bring my evidence and

1218

00:47:47,829 --> 00:47:46,079

i want you to bring it this way with

1219

00:47:49,829 --> 00:47:47,839

these receipts and i want you to turn it

1220

00:47:52,870 --> 00:47:49,839

in at this time because if you don't i'm

1221

00:47:54,630 --> 00:47:52,880

gonna send it back and unfortunately

1222

00:47:56,309 --> 00:47:54,640

for them that's just not how it works

1223

00:47:58,870 --> 00:47:56,319

and they're ruining it for people like

1224

00:48:01,349 --> 00:47:58,880

myself or other experiencers who really

1225

00:48:03,510 --> 00:48:01,359

are desperately searching uh for answers

1226  
00:48:05,670 --> 00:48:03,520  
because they've been through anomalous

1227  
00:48:07,829 --> 00:48:05,680  
experiences that uh

1228  
00:48:09,750 --> 00:48:07,839  
you know have kind of given them a bit

1229  
00:48:10,549 --> 00:48:09,760  
of ontological shock and and they're

1230  
00:48:12,309 --> 00:48:10,559  
really

1231  
00:48:15,030 --> 00:48:12,319  
relying on people to have courage and

1232  
00:48:17,430 --> 00:48:15,040  
guts to to come out and say something in

1233  
00:48:18,950 --> 00:48:17,440  
these uh twitter trolls so to speak or

1234  
00:48:20,549 --> 00:48:18,960  
butthurt the bunkers which is my

1235  
00:48:24,470 --> 00:48:20,559  
favorite terms that i've heard from you

1236  
00:48:27,670 --> 00:48:24,480  
george um ruin it for people so yeah

1237  
00:48:29,670 --> 00:48:27,680  
i i appreciate it as well i mean as as

1238  
00:48:32,069 --> 00:48:29,680

um one of the partners with stuart and

1239

00:48:33,910 --> 00:48:32,079

the experienter group we you know within

1240

00:48:35,109 --> 00:48:33,920

that private community we're often

1241

00:48:37,190 --> 00:48:35,119

dealing with

1242

00:48:38,790 --> 00:48:37,200

people that have been in the military

1243

00:48:41,270 --> 00:48:38,800

been in other

1244

00:48:43,349 --> 00:48:41,280

areas that way and and

1245

00:48:45,109 --> 00:48:43,359

you know there's been a lot of

1246

00:48:46,870 --> 00:48:45,119

people on the fence about whether they

1247

00:48:48,790 --> 00:48:46,880

should come forward even to people in

1248

00:48:51,829 --> 00:48:48,800

their own family about these things and

1249

00:48:53,589 --> 00:48:51,839

much less you know the the terrible

1250

00:48:55,670 --> 00:48:53,599

world of twitter and things like this

1251

00:48:59,190 --> 00:48:55,680

right um and

1252

00:49:02,470 --> 00:48:59,200

of course last fall um i was i can't

1253

00:49:04,870 --> 00:49:02,480

like i came out with my own account via

1254

00:49:07,109 --> 00:49:04,880

ralph blumenthal who profiled me in a

1255

00:49:09,349 --> 00:49:07,119

story that was supposed to come out in

1256

00:49:10,870 --> 00:49:09,359

the new york times and it had gone on

1257

00:49:13,190 --> 00:49:10,880

for months and eventually had to be

1258

00:49:16,069 --> 00:49:13,200

published in the debrief because

1259

00:49:17,589 --> 00:49:16,079

because a new york times editor acted as

1260

00:49:20,069 --> 00:49:17,599

one of these goalkeepers one of these

1261

00:49:23,430 --> 00:49:20,079

goalies that shawn's talking about as

1262

00:49:25,910 --> 00:49:23,440

uh in in in a more professional kind of

1263

00:49:27,270 --> 00:49:25,920

situation um oh

1264

00:49:30,390 --> 00:49:27,280

sean did you have a question or should i

1265

00:49:32,790 --> 00:49:30,400

go into mine before the end here

1266

00:49:33,589 --> 00:49:32,800

well i did have a question and i wanted

1267

00:49:35,670 --> 00:49:33,599

to

1268

00:49:38,390 --> 00:49:35,680

you know i i know it's

1269

00:49:40,390 --> 00:49:38,400

hard to say in in a conversation i heard

1270

00:49:41,510 --> 00:49:40,400

calling me talking with mr uh jeffrey

1271

00:49:44,309 --> 00:49:41,520

mislove

1272

00:49:46,150 --> 00:49:44,319

um about how unfortunate it was

1273

00:49:48,549 --> 00:49:46,160

unfortunate it was that the program

1274

00:49:49,910 --> 00:49:48,559

stopped when it did because you were

1275

00:49:51,589 --> 00:49:49,920

you're getting kind of close you're even

1276

00:49:54,150 --> 00:49:51,599

talking about how you were tracking

1277

00:49:55,510 --> 00:49:54,160

things down a specific line and using

1278

00:49:57,109 --> 00:49:55,520

like almost hunting cameras and

1279

00:49:59,190 --> 00:49:57,119

everything and you were ready to

1280

00:50:00,950 --> 00:49:59,200

hopefully get some some footage of

1281

00:50:03,589 --> 00:50:00,960

something um

1282

00:50:05,349 --> 00:50:03,599

in all this time

1283

00:50:07,910 --> 00:50:05,359

all the short amount of time i should

1284

00:50:09,190 --> 00:50:07,920

say that that you spent in this program

1285

00:50:11,510 --> 00:50:09,200

um

1286

00:50:14,870 --> 00:50:11,520

were you able to gather

1287

00:50:19,510 --> 00:50:14,880

any idea if this sort of thing is a

1288

00:50:21,270 --> 00:50:19,520

threat is it not a threat is it um

1289

00:50:23,829 --> 00:50:21,280  
and then the entities is it all the

1290

00:50:25,670 --> 00:50:23,839  
above or are they one thing

1291

00:50:28,309 --> 00:50:25,680  
you know um you know you're seeing

1292

00:50:30,150 --> 00:50:28,319  
dinosaurs with beaver tails have you

1293

00:50:32,390 --> 00:50:30,160  
ever seen a grey alien

1294

00:50:33,829 --> 00:50:32,400  
uh wolves sometimes you shoot them and

1295

00:50:37,030 --> 00:50:33,839  
they bleed sometimes you shoot them and

1296

00:50:38,829 --> 00:50:37,040  
they don't it's like how do you even

1297

00:50:41,349 --> 00:50:38,839  
work on something like that it seems

1298

00:50:43,270 --> 00:50:41,359  
impossible which i thank you for but

1299

00:50:44,790 --> 00:50:43,280  
yeah so threat or not threat one entity

1300

00:50:46,630 --> 00:50:44,800  
or multiple

1301  
00:50:48,549 --> 00:50:46,640  
well i guess um

1302  
00:50:53,910 --> 00:50:48,559  
the the

1303  
00:50:56,870 --> 00:50:53,920  
the osap program was

1304  
00:50:57,910 --> 00:50:56,880  
initially at least we we were mandated

1305  
00:51:00,630 --> 00:50:57,920  
to

1306  
00:51:03,270 --> 00:51:00,640  
produce a threat assessment report

1307  
00:51:05,430 --> 00:51:03,280  
and one of those uh one of those reports

1308  
00:51:07,910 --> 00:51:05,440  
that went in one of those 104 or

1309  
00:51:10,309 --> 00:51:07,920  
whatever it was reports that went into

1310  
00:51:12,470 --> 00:51:10,319  
defense intelligence agency was actually

1311  
00:51:15,109 --> 00:51:12,480  
a threat assessment report but the

1312  
00:51:16,230 --> 00:51:15,119  
conclusion that we came to

1313  
00:51:23,829 --> 00:51:16,240

was

1314

00:51:26,710 --> 00:51:23,839

regarding a ufo agenda or a intent

1315

00:51:29,109 --> 00:51:26,720

to definitively come down on the side of

1316

00:51:32,069 --> 00:51:29,119

that these this phenomena represents a

1317

00:51:34,630 --> 00:51:32,079

threat we did go as far to say that this

1318

00:51:35,910 --> 00:51:34,640

this phenomenon is a threat to human

1319

00:51:38,710 --> 00:51:35,920

health

1320

00:51:41,589 --> 00:51:38,720

that's a very distinct category of

1321

00:51:43,270 --> 00:51:41,599

threat because it certainly is does not

1322

00:51:45,349 --> 00:51:43,280

imply a threat to

1323

00:51:48,309 --> 00:51:45,359

national security of the united states

1324

00:51:50,150 --> 00:51:48,319

it may just simply imply being in the

1325

00:51:52,870 --> 00:51:50,160

wrong place at the wrong time it's just

1326

00:51:55,670 --> 00:51:52,880

like you know somebody wandering by a

1327

00:51:58,069 --> 00:51:55,680

radar installation and accidentally

1328

00:52:01,510 --> 00:51:58,079

getting beamed with high-intensity radio

1329

00:52:02,230 --> 00:52:01,520

waves um you know so somebody who ends

1330

00:52:04,309 --> 00:52:02,240

up

1331

00:52:07,589 --> 00:52:04,319

sort of being in the wrong place and

1332

00:52:11,030 --> 00:52:07,599

happens to have a blue orb uh flying

1333

00:52:13,510 --> 00:52:11,040

through their body uh or or getting uh

1334

00:52:15,829 --> 00:52:13,520

getting a sort of a knee-jerk

1335

00:52:17,349 --> 00:52:15,839

reaction from a triangular craft that's

1336

00:52:20,150 --> 00:52:17,359

hovering over their

1337

00:52:22,710 --> 00:52:20,160

um their property um it there's

1338

00:52:23,670 --> 00:52:22,720

insufficient evidence from what we could

1339

00:52:25,990 --> 00:52:23,680

see

1340

00:52:29,349 --> 00:52:26,000

to define a threat to the national

1341

00:52:31,349 --> 00:52:29,359

security of the united states definitely

1342

00:52:34,150 --> 00:52:31,359

bad for your health

1343

00:52:36,549 --> 00:52:34,160

if you're in a in the vicinity of a blue

1344

00:52:39,270 --> 00:52:36,559

orb just run like hell in the opposite

1345

00:52:41,670 --> 00:52:39,280

direction um because it's probably not

1346

00:52:42,549 --> 00:52:41,680

going to be very good for your health so

1347

00:52:45,510 --> 00:52:42,559

um

1348

00:52:48,549 --> 00:52:45,520

that's kind of the extent of of where we

1349

00:52:50,870 --> 00:52:48,559

were uh we were and what we reported out

1350

00:52:52,549 --> 00:52:50,880

to the defense intelligence agency we

1351

00:52:55,349 --> 00:52:52,559

just didn't have enough data to say it

1352

00:52:57,109 --> 00:52:55,359

was a threat um the second part of your

1353

00:53:00,790 --> 00:52:57,119

question um

1354

00:53:02,069 --> 00:53:00,800

is really sort of when you look at these

1355

00:53:03,270 --> 00:53:02,079

hot spots

1356

00:53:07,270 --> 00:53:03,280

and you know

1357

00:53:10,710 --> 00:53:07,280

we spent sort of between 1996

1358

00:53:12,870 --> 00:53:10,720

and 2016 that's 20 years

1359

00:53:15,190 --> 00:53:12,880

uh our group spent on the property

1360

00:53:17,670 --> 00:53:15,200

brandon fugal is that has now spent

1361

00:53:19,670 --> 00:53:17,680

another six years on the property a lot

1362

00:53:22,870 --> 00:53:19,680

of overlapping testimony a lot of

1363

00:53:25,589 --> 00:53:22,880

overlapping data and effects on you know

1364

00:53:26,710 --> 00:53:25,599

electronics and all of that

1365

00:53:29,589 --> 00:53:26,720

what we

1366

00:53:31,829 --> 00:53:29,599

came up with i guess was that

1367

00:53:34,870 --> 00:53:31,839

there is a central sort of

1368

00:53:37,750 --> 00:53:34,880

nuts and bolts ufo phenomenon

1369

00:53:40,870 --> 00:53:37,760

that's in the in these the vicinity of

1370

00:53:42,390 --> 00:53:40,880

these uh these places and overlaid on

1371

00:53:45,910 --> 00:53:42,400

that there is a tremendous

1372

00:53:46,710 --> 00:53:45,920

sort of part of normal disneyland of

1373

00:53:50,549 --> 00:53:46,720

uh

1374

00:53:52,630 --> 00:53:50,559

effects on

1375

00:53:55,349 --> 00:53:52,640

you know human perception being

1376

00:53:57,349 --> 00:53:55,359

distorted and all of that the fact that

1377

00:53:59,670 --> 00:53:57,359

they co-locate

1378

00:54:01,750 --> 00:53:59,680

and uh you know the fact that they're

1379

00:54:04,309 --> 00:54:01,760

happening at the same time

1380

00:54:07,030 --> 00:54:04,319

as nuts and bolts ufos are flying over

1381

00:54:10,069 --> 00:54:07,040

the property is that enough evidence to

1382

00:54:12,390 --> 00:54:10,079

say that they're uh probably related i

1383

00:54:15,430 --> 00:54:12,400

don't know i mean but if you expand that

1384

00:54:18,309 --> 00:54:15,440

whole concept and you go out to people

1385

00:54:20,790 --> 00:54:18,319

to places like dulce new mexico or the

1386

00:54:22,870 --> 00:54:20,800

areas around malstrom air force base

1387

00:54:26,549 --> 00:54:22,880

that that got inundated in the late

1388

00:54:29,349 --> 00:54:26,559

1970s with all manner of nuts and bolts

1389

00:54:31,589 --> 00:54:29,359

ufos that actually were sort of

1390

00:54:33,589 --> 00:54:31,599

interfering with the nuclear weapons

1391

00:54:35,750 --> 00:54:33,599

arsenal but at the same time you were

1392

00:54:38,069 --> 00:54:35,760

getting reports of bigfoot and you're

1393

00:54:40,150 --> 00:54:38,079

getting reports of paranormal effects on

1394

00:54:41,990 --> 00:54:40,160

weird creatures and all of that in the

1395

00:54:43,109 --> 00:54:42,000

same sort of context

1396

00:54:44,950 --> 00:54:43,119

you know

1397

00:54:47,589 --> 00:54:44,960

the more of these cases that you look

1398

00:54:48,630 --> 00:54:47,599

closely at the more the correlation

1399

00:54:50,870 --> 00:54:48,640

exists

1400

00:54:53,109 --> 00:54:50,880

i don't know if that's that correlation

1401

00:54:55,349 --> 00:54:53,119

is strong enough to say

1402

00:54:56,549 --> 00:54:55,359

uh you know correlation cause is

1403

00:54:58,870 --> 00:54:56,559

causation

1404

00:55:00,230 --> 00:54:58,880

i don't know um

1405

00:55:03,430 --> 00:55:00,240

but

1406

00:55:04,870 --> 00:55:03,440

we think that the overlap is very very

1407

00:55:06,309 --> 00:55:04,880

compelling

1408

00:55:09,270 --> 00:55:06,319

i think you could say you know if

1409

00:55:11,270 --> 00:55:09,280

there's not direct evidence of a direct

1410

00:55:13,430 --> 00:55:11,280

threat to national security it certainly

1411

00:55:16,230 --> 00:55:13,440

is a national security matter when you

1412

00:55:18,230 --> 00:55:16,240

have ufos hovering over nuclear missile

1413

00:55:20,150 --> 00:55:18,240

bases the northern tier cases and

1414

00:55:21,829 --> 00:55:20,160

disabling these missiles in case you

1415

00:55:23,510 --> 00:55:21,839

needed them you wouldn't have them that

1416

00:55:25,589 --> 00:55:23,520

is an issue for national security and

1417

00:55:27,430 --> 00:55:25,599

the asap program by the way

1418

00:55:30,390 --> 00:55:27,440

delved into that those northern tier

1419

00:55:33,829 --> 00:55:30,400

cases in a big way when you have ufos

1420

00:55:36,309 --> 00:55:33,839

over ussr nuclear missile bases icbm

1421

00:55:38,230 --> 00:55:36,319

bases targeted to the u.s and those

1422

00:55:40,390 --> 00:55:38,240

missiles are suddenly engaged they're

1423

00:55:42,230 --> 00:55:40,400

ready to launch through no fault of the

1424

00:55:44,390 --> 00:55:42,240

russians that they can't control them

1425

00:55:46,710 --> 00:55:44,400

that is a national security matter

1426

00:55:48,630 --> 00:55:46,720

the russia whoever these ufos are they

1427

00:55:50,470 --> 00:55:48,640

didn't blow up any nuclear weapons they

1428

00:55:52,630 --> 00:55:50,480

didn't shoot russian weapons at us and

1429

00:55:55,030 --> 00:55:52,640

start world war three but they certainly

1430

00:55:57,030 --> 00:55:55,040

showed a mastery over our technology

1431

00:55:59,190 --> 00:55:57,040

they fly over sensitive military

1432

00:56:01,670 --> 00:55:59,200

installations nuclear power plants their

1433

00:56:03,829 --> 00:56:01,680

indications they follow nuclear aircraft

1434

00:56:06,309 --> 00:56:03,839

carriers wherever they go they've messed

1435

00:56:08,230 --> 00:56:06,319

with ships they've been you know they

1436

00:56:10,470 --> 00:56:08,240

have no respect for any national

1437

00:56:12,549 --> 00:56:10,480

boundaries or what we could consider to

1438

00:56:14,630 --> 00:56:12,559

be sensitive installations so is it a

1439

00:56:16,870 --> 00:56:14,640

national security matter yes it should

1440

00:56:18,950 --> 00:56:16,880

be studied further to figure out we

1441

00:56:21,109 --> 00:56:18,960

don't know what the agenda is or what

1442

00:56:23,510 --> 00:56:21,119

their time frame is you know we hear

1443

00:56:27,190 --> 00:56:23,520

these alien editorials where they will

1444

00:56:29,430 --> 00:56:27,200

tell contactees abductees

1445

00:56:31,430 --> 00:56:29,440

you better clean up the planet any day

1446

00:56:33,990 --> 00:56:31,440

now something big is going to happen and

1447

00:56:35,270 --> 00:56:34,000

then 50 years go by and nothing does we

1448

00:56:37,109 --> 00:56:35,280

don't know what their time frame is

1449

00:56:38,710 --> 00:56:37,119

maybe 50 years is a week and a half to

1450

00:56:39,910 --> 00:56:38,720

them you know so

1451

00:56:42,789 --> 00:56:39,920

right

1452

00:56:44,230 --> 00:56:42,799

i love that i i mean i i love the part

1453

00:56:46,870 --> 00:56:44,240

of that where we're thinking about the

1454

00:56:49,349 --> 00:56:46,880

time scale of different beings and and

1455

00:56:51,190 --> 00:56:49,359

the consciousness or just or what their

1456

00:56:53,349 --> 00:56:51,200

experience is like versus ours i think

1457

00:56:56,069 --> 00:56:53,359

that's a really important component

1458

00:56:57,910 --> 00:56:56,079

along those lines uh column um you've

1459

00:56:59,510 --> 00:56:57,920

been working with the bigelow institute

1460

00:57:01,109 --> 00:56:59,520

of consciousness studies lately and of

1461

00:57:03,589 --> 00:57:01,119

course last year the big news out of

1462

00:57:06,069 --> 00:57:03,599

that was that amazing essay contest that

1463

00:57:07,910 --> 00:57:06,079

jeffrey mishlov did such an incredible

1464

00:57:09,829 --> 00:57:07,920

multimedia essay with we've talked to

1465

00:57:12,309 --> 00:57:09,839

other people like nick cook that were

1466

00:57:15,430 --> 00:57:12,319

that were also finalists and winners of

1467

00:57:18,710 --> 00:57:15,440

the essay contest um now one thing here

1468

00:57:20,390 --> 00:57:18,720

is that if there's a story with

1469

00:57:22,390 --> 00:57:20,400

with regard to these two books one of

1470

00:57:25,030 --> 00:57:22,400

the other kind of layers of this is that

1471

00:57:27,430 --> 00:57:25,040

if you follow bigelow's programs and if

1472

00:57:29,829 --> 00:57:27,440

you caught follow column kelleher you're

1473

00:57:30,789 --> 00:57:29,839

gonna find really cool

1474

00:57:32,549 --> 00:57:30,799

stuff

1475

00:57:35,270 --> 00:57:32,559

happening you're gonna find really

1476

00:57:37,589 --> 00:57:35,280

interesting programs right um george

1477

00:57:38,630 --> 00:57:37,599

have you been following the work with um

1478

00:57:40,710 --> 00:57:38,640

that

1479

00:57:42,789 --> 00:57:40,720

have you been following the lead and to

1480

00:57:46,309 --> 00:57:42,799

these explorations of consciousness and

1481

00:57:49,829 --> 00:57:46,319

column is there room within uh within

1482

00:57:52,230 --> 00:57:49,839

bix for these kind of wilded out um

1483

00:57:55,349 --> 00:57:52,240

stories you know these kind of cases

1484

00:57:57,109 --> 00:57:55,359

have you been pursuing um some of these

1485

00:57:59,430 --> 00:57:57,119

um leading edges

1486

00:58:01,750 --> 00:57:59,440

over there and what do we expect from

1487

00:58:03,589 --> 00:58:01,760

the days to come let me ask answer this

1488

00:58:05,670 --> 00:58:03,599

first because my answer will be shorter

1489

00:58:07,430 --> 00:58:05,680

have i been following it yes uh mr

1490

00:58:09,270 --> 00:58:07,440

bigelow and column brought me into the

1491

00:58:10,390 --> 00:58:09,280

conversations pretty early on about

1492

00:58:12,230 --> 00:58:10,400

vicks

1493

00:58:14,549 --> 00:58:12,240

we had a couple of retreats at some cool

1494

00:58:16,309 --> 00:58:14,559

places in montana and to kick it around

1495

00:58:18,470 --> 00:58:16,319

and they put me on their

1496

00:58:20,710 --> 00:58:18,480

reading list i'm i can't flip this

1497

00:58:23,270 --> 00:58:20,720

around but i got about 106 books sitting

1498

00:58:25,750 --> 00:58:23,280

here that i've only read about

1499

00:58:27,670 --> 00:58:25,760

20 of them in my spare time but they've

1500

00:58:30,230 --> 00:58:27,680

they've got this incredible library that

1501  
00:58:32,470 --> 00:58:30,240  
has been designed to bring all of our

1502  
00:58:34,789 --> 00:58:32,480  
elevate all of our consciousness about

1503  
00:58:37,109 --> 00:58:34,799  
consciousness so i'm not as smart as

1504  
00:58:39,270 --> 00:58:37,119  
these guys so i i do my best to get my

1505  
00:58:40,710 --> 00:58:39,280  
head around it and how it relates to the

1506  
00:58:44,150 --> 00:58:40,720  
stories that i've followed for a long

1507  
00:58:46,630 --> 00:58:44,160  
time um ufos and and related mysteries

1508  
00:58:47,670 --> 00:58:46,640  
uh i i'm thrilled to be part of the

1509  
00:58:50,789 --> 00:58:47,680  
journey

1510  
00:58:53,109 --> 00:58:50,799  
but again with my limited capacities i'm

1511  
00:58:56,710 --> 00:58:53,119  
a junior partner in any of this stuff

1512  
00:58:59,270 --> 00:58:56,720  
right on thank you column

1513  
00:59:02,710 --> 00:58:59,280

so your your question is is pertaining

1514

00:59:06,309 --> 00:59:02,720

to uh the overlap between

1515

00:59:09,270 --> 00:59:06,319

uh the bix mission and the uh the the

1516

00:59:10,390 --> 00:59:09,280

previous programs is

1517

00:59:13,349 --> 00:59:10,400

because

1518

00:59:15,910 --> 00:59:13,359

i mean there's manifestly

1519

00:59:19,109 --> 00:59:15,920

uh the more you look into uh some of

1520

00:59:21,510 --> 00:59:19,119

these ufo programs or ufo incidents

1521

00:59:23,510 --> 00:59:21,520

um you can see that there's definitely

1522

00:59:25,670 --> 00:59:23,520

overlap between

1523

00:59:27,670 --> 00:59:25,680

what you know people in the

1524

00:59:31,270 --> 00:59:27,680

consciousness field call the survival of

1525

00:59:34,150 --> 00:59:31,280

consciousness after death paradigm

1526

00:59:37,510 --> 00:59:34,160

you know there's been numerous

1527

00:59:39,589 --> 00:59:37,520

uh sort of overlaps even with uh

1528

00:59:43,030 --> 00:59:39,599

skin walkers at the pentagon

1529

00:59:45,430 --> 00:59:43,040

sort of group of people who had the the

1530

00:59:46,470 --> 00:59:45,440

incidents happen on uh skin skidmarker

1531

00:59:48,390 --> 00:59:46,480

ranch

1532

00:59:49,270 --> 00:59:48,400

brought something home with them and

1533

00:59:52,309 --> 00:59:49,280

then

1534

00:59:54,789 --> 00:59:52,319

their kids started having unusual

1535

00:59:57,589 --> 00:59:54,799

phenomena well some of those phenomena

1536

00:59:59,349 --> 00:59:57,599

involve seeing dead people for example

1537

01:00:02,069 --> 00:59:59,359

um you know there's there's quite a few

1538

01:00:05,030 --> 01:00:02,079

stories around whitley strieber has a

1539

01:00:06,870 --> 01:00:05,040

very famous story of of during the

1540

01:00:10,230 --> 01:00:06,880

height of his abduction

1541

01:00:12,390 --> 01:00:10,240

he saw this this friend of his in the

1542

01:00:14,950 --> 01:00:12,400

middle of the abduction phenomenon only

1543

01:00:17,510 --> 01:00:14,960

to find out a week or two later that

1544

01:00:20,230 --> 01:00:17,520

this guy was actually dead at the time

1545

01:00:22,630 --> 01:00:20,240

and so so there is a a

1546

01:00:25,109 --> 01:00:22,640

notable overlap between

1547

01:00:29,750 --> 01:00:25,119

uh the survival of consciousness after

1548

01:00:33,109 --> 01:00:29,760

death and also the um you know the ufo

1549

01:00:35,430 --> 01:00:33,119

effects and ufo phenomena in general and

1550

01:00:38,150 --> 01:00:35,440

i should also say that that the whole

1551

01:00:41,190 --> 01:00:38,160

sort of paradigm shift that's occurring

1552

01:00:44,470 --> 01:00:41,200

within the human consciousness research

1553

01:00:46,789 --> 01:00:44,480

arena is very very compelling it's kind

1554

01:00:48,950 --> 01:00:46,799

of flipping everything on its head

1555

01:00:49,990 --> 01:00:48,960

and and saying that consciousness is

1556

01:00:52,069 --> 01:00:50,000

prime

1557

01:00:54,789 --> 01:00:52,079

and you know you've you've got sort of

1558

01:00:57,910 --> 01:00:54,799

people like jeffrey kripal who was on on

1559

01:01:01,190 --> 01:00:57,920

the board of of bix who is being very

1560

01:01:03,990 --> 01:01:01,200

very overt and open about the the fact

1561

01:01:07,910 --> 01:01:04,000

that you know consciousness is prime

1562

01:01:12,150 --> 01:01:07,920

and um is is sort of the leading edge of

1563

01:01:14,309 --> 01:01:12,160

of of this endeavor so i would see you

1564

01:01:16,230 --> 01:01:14,319

know in the future a convergence

1565

01:01:18,309 --> 01:01:16,240

happening between

1566

01:01:20,390 --> 01:01:18,319

the uh this

1567

01:01:22,309 --> 01:01:20,400

what's getting more and more mainstream

1568

01:01:25,670 --> 01:01:22,319

in terms of consciousness

1569

01:01:28,069 --> 01:01:25,680

uh research and the uh survival of

1570

01:01:30,230 --> 01:01:28,079

consciousness after death and some of

1571

01:01:33,750 --> 01:01:30,240

these aspects of the ufo phenomena

1572

01:01:35,510 --> 01:01:33,760

because ultimately you know um

1573

01:01:37,190 --> 01:01:35,520

we can't see

1574

01:01:38,630 --> 01:01:37,200

dead people or at least most of us can't

1575

01:01:41,190 --> 01:01:38,640

see dead people

1576

01:01:43,030 --> 01:01:41,200

um but they can see us from all of what

1577

01:01:46,150 --> 01:01:43,040

the literature is telling us

1578

01:01:49,430 --> 01:01:46,160

uh ufos appear and disappear out of our

1579

01:01:52,069 --> 01:01:49,440

our uh perceptual you know or our

1580

01:01:54,150 --> 01:01:52,079

eyesight and our hearing so they appear

1581

01:01:57,029 --> 01:01:54,160

and disappear are they

1582

01:02:00,069 --> 01:01:57,039

going and coming from the same places i

1583

01:02:00,789 --> 01:02:00,079

mean is there an overlap in terms of you

1584

01:02:02,950 --> 01:02:00,799

know

1585

01:02:06,390 --> 01:02:02,960

use a crude word location

1586

01:02:07,670 --> 01:02:06,400

or is is there a

1587

01:02:11,029 --> 01:02:07,680

consciousness

1588

01:02:13,589 --> 01:02:11,039

sort of uh commonality that links all of

1589

01:02:14,710 --> 01:02:13,599

these fields and you know our tendency

1590

01:02:20,789 --> 01:02:14,720

to

1591

01:02:22,950 --> 01:02:20,799

is ufos and this is bigfoot and this is

1592

01:02:25,910 --> 01:02:22,960

survival of consciousness after death

1593

01:02:28,309 --> 01:02:25,920

that may be our tiny brains

1594

01:02:30,630 --> 01:02:28,319

trying to grapple with a picture that's

1595

01:02:33,270 --> 01:02:30,640

actually a hell of a lot bigger than we

1596

01:02:36,150 --> 01:02:33,280

can presently comprehend

1597

01:02:39,349 --> 01:02:36,160

and so i i do see in the future a

1598

01:02:40,710 --> 01:02:39,359

convergence that uh that could happen by

1599

01:02:42,710 --> 01:02:40,720

the way just to add

1600

01:02:44,950 --> 01:02:42,720

give uh your credit where it's due to

1601

01:02:46,789 --> 01:02:44,960

robert bigelow and column is that this

1602

01:02:49,109 --> 01:02:46,799

is not a new development you go back to

1603

01:02:50,069 --> 01:02:49,119

1995 when robert bigelow established

1604

01:02:52,630 --> 01:02:50,079

nids

1605

01:02:54,309 --> 01:02:52,640

and then column came on in 96 with these

1606

01:02:56,630 --> 01:02:54,319

other amazing people edgar mitchell

1607

01:02:58,710 --> 01:02:56,640

jacques valet how put off kit green a

1608

01:03:00,710 --> 01:02:58,720

lot of really amazing folks uh this

1609

01:03:03,589 --> 01:03:00,720

brain trust but they had dual missions

1610

01:03:05,829 --> 01:03:03,599

it was it became a ufo kind of endeavor

1611

01:03:07,990 --> 01:03:05,839

but in the beginning it was ufos what's

1612

01:03:09,029 --> 01:03:08,000

the deal are there real is there life

1613

01:03:10,789 --> 01:03:09,039

elsewhere

1614

01:03:12,549 --> 01:03:10,799

that's half of it and the other half was

1615

01:03:15,029 --> 01:03:12,559

does consciousness survive physical

1616

01:03:17,510 --> 01:03:15,039

death that was the twin goals of nids in

1617

01:03:19,510 --> 01:03:17,520

the beginning eventually the ufo sort of

1618

01:03:21,109 --> 01:03:19,520

dominated the discussion then it went to

1619

01:03:22,309 --> 01:03:21,119

skinwalker ranch but that's where they

1620

01:03:23,990 --> 01:03:22,319

started so

1621

01:03:25,510 --> 01:03:24,000

for the robert bigelow this and for

1622

01:03:28,150 --> 01:03:25,520

column this is actually coming full

1623

01:03:30,470 --> 01:03:28,160

circle back to where they started

1624

01:03:32,630 --> 01:03:30,480

exactly um the original national

1625

01:03:34,950 --> 01:03:32,640

institute for discovery science had

1626

01:03:37,990 --> 01:03:34,960

people like ian stevenson who was the

1627

01:03:40,150 --> 01:03:38,000

sort of premier uh reincarnation

1628

01:03:43,430 --> 01:03:40,160

researcher he was on the science board

1629

01:03:45,829 --> 01:03:43,440

bruce grayson uh sort of the the diane

1630

01:03:49,670 --> 01:03:45,839

of near-death experience research was

1631

01:03:52,390 --> 01:03:49,680

also on the the board of ned's uh emily

1632

01:03:54,789 --> 01:03:52,400

emily cook now emily kelly who is

1633

01:03:57,109 --> 01:03:54,799

associated with the division of

1634

01:03:59,109 --> 01:03:57,119

perceptual studies at the university of

1635

01:04:01,430 --> 01:03:59,119

virginia she was on the board so there

1636

01:04:03,750 --> 01:04:01,440

was a whole slew of people

1637

01:04:04,870 --> 01:04:03,760

uh we we had a very interesting

1638

01:04:06,870 --> 01:04:04,880

conference

1639

01:04:08,470 --> 01:04:06,880

up in the mount charleston hotel i don't

1640

01:04:11,990 --> 01:04:08,480

know if you were you there george for

1641

01:04:14,549 --> 01:04:12,000

that 1997 it was a it was a conference

1642

01:04:17,190 --> 01:04:14,559

on survival of consciousness after death

1643

01:04:19,829 --> 01:04:17,200

and um you know you had a lot of

1644

01:04:22,870 --> 01:04:19,839

uh the researchers involved in that so

1645

01:04:26,150 --> 01:04:22,880

nids um nids really

1646

01:04:28,950 --> 01:04:26,160

had so much bandwidth in terms of it was

1647

01:04:30,710 --> 01:04:28,960

like a an avalanche we had to make a

1648

01:04:31,990 --> 01:04:30,720

choice between

1649

01:04:35,029 --> 01:04:32,000

um

1650

01:04:37,270 --> 01:04:35,039

focusing our energies on ufos or

1651  
01:04:39,589 --> 01:04:37,280  
focusing our energies on the survival of

1652  
01:04:42,870 --> 01:04:39,599  
consciousness after death but you know

1653  
01:04:44,950 --> 01:04:42,880  
here we are sort of 25 years later and

1654  
01:04:47,829 --> 01:04:44,960  
you know there's more and more evidence

1655  
01:04:48,789 --> 01:04:47,839  
that seems to be coming coming along

1656  
01:04:52,390 --> 01:04:48,799  
that

1657  
01:04:56,789 --> 01:04:52,400  
particular

1658  
01:04:59,910 --> 01:04:56,799  
um you know subjects may be slightly

1659  
01:05:02,630 --> 01:04:59,920  
closer than we originally thought

1660  
01:05:04,710 --> 01:05:02,640  
you know um oddly enough my experience

1661  
01:05:06,069 --> 01:05:04,720  
that brought me to this place of of

1662  
01:05:10,150 --> 01:05:06,079  
having this show

1663  
01:05:13,829 --> 01:05:10,160

was a kind of a complete

1664

01:05:15,670 --> 01:05:13,839

mixture of seeing uh ufos and

1665

01:05:18,549 --> 01:05:15,680

having a consciousness experience that

1666

01:05:19,349 --> 01:05:18,559

maybe one day i'll tell you about um

1667

01:05:20,630 --> 01:05:19,359

but

1668

01:05:22,789 --> 01:05:20,640

and i wouldn't have been here if it was

1669

01:05:26,069 --> 01:05:22,799

just one or the other you know it really

1670

01:05:28,150 --> 01:05:26,079

was both that that rocked me um

1671

01:05:29,910 --> 01:05:28,160

you know we're up against the hour i i

1672

01:05:31,510 --> 01:05:29,920

don't know how much time you have

1673

01:05:34,150 --> 01:05:31,520

um

1674

01:05:36,870 --> 01:05:34,160

but one question i would shoot myself in

1675

01:05:38,150 --> 01:05:36,880

if you have time for this question um i

1676

01:05:40,390 --> 01:05:38,160

would shoot myself in the foot if i

1677

01:05:42,789 --> 01:05:40,400

didn't ask is uh where do we go from

1678

01:05:45,270 --> 01:05:42,799

here people that aren't you know um

1679

01:05:47,829 --> 01:05:45,280

actively involved in in studying things

1680

01:05:50,789 --> 01:05:47,839

on the level you are or investigating on

1681

01:05:53,750 --> 01:05:50,799

the level you are george what what do we

1682

01:05:55,589 --> 01:05:53,760

do what do we do to um

1683

01:05:56,870 --> 01:05:55,599

you know do our part to put our best

1684

01:05:59,670 --> 01:05:56,880

foot forward

1685

01:06:02,150 --> 01:05:59,680

in helping us move along

1686

01:06:04,789 --> 01:06:02,160

i know for me uh you know i i take a lot

1687

01:06:06,309 --> 01:06:04,799

of uh cues from people like colum and

1688

01:06:08,710 --> 01:06:06,319

jim lakatsky

1689

01:06:10,870 --> 01:06:08,720

uh robert bigelow you know i've been

1690

01:06:12,870 --> 01:06:10,880

allowed to be a fly on the wall for some

1691

01:06:14,789 --> 01:06:12,880

of these programs some some of what they

1692

01:06:16,309 --> 01:06:14,799

produce not all of it because it is

1693

01:06:18,630 --> 01:06:16,319

sensitive and the people who were

1694

01:06:20,710 --> 01:06:18,640

directly involved had class security

1695

01:06:22,950 --> 01:06:20,720

clearances that i didn't have so i am

1696

01:06:24,630 --> 01:06:22,960

privileged to have been allowed to know

1697

01:06:26,150 --> 01:06:24,640

some of what's going on

1698

01:06:27,190 --> 01:06:26,160

i can tell you that what these guys

1699

01:06:29,270 --> 01:06:27,200

produced

1700

01:06:31,510 --> 01:06:29,280

is absolutely astonishing when you look

1701

01:06:34,950 --> 01:06:31,520

at the depth and breadth of the work

1702

01:06:36,630 --> 01:06:34,960

that they put together in in 27 months

1703

01:06:38,549 --> 01:06:36,640

it's astounding and the public has not

1704

01:06:40,950 --> 01:06:38,559

seen it i don't think congress has seen

1705

01:06:42,870 --> 01:06:40,960

it there's a gigantic pile of stuff we

1706

01:06:45,109 --> 01:06:42,880

wrote this book to let people know just

1707

01:06:46,789 --> 01:06:45,119

how much is out there give them an idea

1708

01:06:48,309 --> 01:06:46,799

of just how big it is

1709

01:06:50,789 --> 01:06:48,319

we want to do more on that you know we

1710

01:06:52,230 --> 01:06:50,799

have plans to do more of that stuff and

1711

01:06:54,470 --> 01:06:52,240

and try to reveal

1712

01:06:56,630 --> 01:06:54,480

uh more specifics about what they dug

1713

01:06:58,950 --> 01:06:56,640

into there's some great cases that are

1714

01:07:00,630 --> 01:06:58,960

reported incidents in that book that

1715

01:07:02,069 --> 01:07:00,640

have received no attention at all it's

1716

01:07:04,630 --> 01:07:02,079

like it just went over people's heads

1717

01:07:05,750 --> 01:07:04,640

but they have so much more that was

1718

01:07:07,589 --> 01:07:05,760

produced

1719

01:07:09,190 --> 01:07:07,599

that no one has seen you know part of

1720

01:07:11,270 --> 01:07:09,200

what is described in the book is jacques

1721

01:07:13,510 --> 01:07:11,280

ballet's data warehouse these multiple

1722

01:07:15,589 --> 01:07:13,520

layers of information and they you know

1723

01:07:17,430 --> 01:07:15,599

if osap had been allowed to continue

1724

01:07:19,270 --> 01:07:17,440

they were going to add this artificial

1725

01:07:20,870 --> 01:07:19,280

intelligence this ai component that

1726

01:07:22,789 --> 01:07:20,880

would allow you to collate and make

1727

01:07:25,109 --> 01:07:22,799

sense of all this stuff and pull it from

1728

01:07:26,549 --> 01:07:25,119

different categories and files

1729

01:07:27,430 --> 01:07:26,559

and understand it

1730

01:07:29,910 --> 01:07:27,440

that should have been allowed to

1731

01:07:32,069 --> 01:07:29,920

continue that information is still there

1732

01:07:34,710 --> 01:07:32,079

and if somebody had the guts to

1733

01:07:36,549 --> 01:07:34,720

reinstigate something like ossap

1734

01:07:39,109 --> 01:07:36,559

it's right there to use start all over

1735

01:07:40,150 --> 01:07:39,119

again this program was ended just when

1736

01:07:41,670 --> 01:07:40,160

they were getting to the point where

1737

01:07:43,190 --> 01:07:41,680

they can make some real progress and

1738

01:07:45,270 --> 01:07:43,200

it's a damn shame

1739

01:07:46,710 --> 01:07:45,280

here we are now back to have a tiny

1740

01:07:48,470 --> 01:07:46,720

little program in government we've got

1741

01:07:50,789 --> 01:07:48,480

to worry about whether the pentagon is

1742

01:07:52,309 --> 01:07:50,799

going to allow them to dig into where's

1743

01:07:54,309 --> 01:07:52,319

the hidden goodies where's the meta

1744

01:07:56,549 --> 01:07:54,319

materials are their crashes or were

1745

01:07:58,150 --> 01:07:56,559

their bodies uh you know i think there's

1746

01:07:59,990 --> 01:07:58,160

probably going to be a lot of resistance

1747

01:08:02,150 --> 01:08:00,000

to that there's going to be a resistance

1748

01:08:04,309 --> 01:08:02,160

to delving into these strange areas that

1749

01:08:05,750 --> 01:08:04,319

asap went into because they're too darn

1750

01:08:07,829 --> 01:08:05,760

weird how do you explain that in a

1751  
01:08:09,430 --> 01:08:07,839  
budget meeting that you're looking into

1752  
01:08:11,430 --> 01:08:09,440  
something that sounds like poltergeist

1753  
01:08:13,349 --> 01:08:11,440  
whether it is or not

1754  
01:08:14,150 --> 01:08:13,359  
it's a shame i you know but there's so

1755  
01:08:15,510 --> 01:08:14,160  
much

1756  
01:08:18,470 --> 01:08:15,520  
potential

1757  
01:08:20,950 --> 01:08:18,480  
that was collected by asap that's still

1758  
01:08:23,030 --> 01:08:20,960  
there to be analyzed and utilized and

1759  
01:08:25,269 --> 01:08:23,040  
some kind of a program like that should

1760  
01:08:27,110 --> 01:08:25,279  
be instituted again you have to look at

1761  
01:08:28,789 --> 01:08:27,120  
the big picture to understand this stuff

1762  
01:08:30,789 --> 01:08:28,799  
you can't just look at things flying

1763  
01:08:32,470 --> 01:08:30,799

around in the sky i was playing with a

1764

01:08:33,269 --> 01:08:32,480

laser pointer with the cats the other

1765

01:08:35,510 --> 01:08:33,279

day

1766

01:08:37,590 --> 01:08:35,520

and it occurred to me this is kind of

1767

01:08:39,110 --> 01:08:37,600

ufos this is look at this the cats are

1768

01:08:41,110 --> 01:08:39,120

running around trying to get this they

1769

01:08:43,510 --> 01:08:41,120

never catch it they never catch it it's

1770

01:08:45,590 --> 01:08:43,520

a shiny object it sure is interesting

1771

01:08:47,030 --> 01:08:45,600

that's us with ufos we just look at

1772

01:08:49,110 --> 01:08:47,040

these things in the sky we're never

1773

01:08:51,749 --> 01:08:49,120

going to figure this out you got to look

1774

01:08:53,910 --> 01:08:51,759

holistic big picture and i sure hope

1775

01:08:55,910 --> 01:08:53,920

someone's got the guts to

1776

01:09:01,030 --> 01:08:55,920

reinstitute this program and put column

1777

01:09:05,669 --> 01:09:03,349

well i i agree i agree with you and when

1778

01:09:07,349 --> 01:09:05,679

you kind of put in that context and you

1779

01:09:08,149 --> 01:09:07,359

know a lot of people feel good that that

1780

01:09:15,829 --> 01:09:08,159

we

1781

01:09:17,590 --> 01:09:15,839

versus uh the full breadth of what asap

1782

01:09:19,910 --> 01:09:17,600

was uh tackling

1783

01:09:22,070 --> 01:09:19,920

and then now you're conflicted it's like

1784

01:09:24,870 --> 01:09:22,080

we're we're doing less than we were

1785

01:09:27,349 --> 01:09:24,880

before almost so how do you

1786

01:09:29,990 --> 01:09:27,359

you know stay positive about that one i

1787

01:09:32,390 --> 01:09:30,000

don't know that's not so easy but

1788

01:09:34,390 --> 01:09:32,400

um what about you come what would you uh

1789

01:09:35,910 --> 01:09:34,400

suggest for for people like myself not

1790

01:09:38,709 --> 01:09:35,920

actively doing

1791

01:09:42,950 --> 01:09:38,719

uh field work or anything like that

1792

01:09:43,990 --> 01:09:42,960

i would not tend to um to put a lot of

1793

01:09:46,149 --> 01:09:44,000

uh

1794

01:09:47,189 --> 01:09:46,159

i guess weight on

1795

01:09:49,430 --> 01:09:47,199

what's going to come out of the

1796

01:09:50,709 --> 01:09:49,440

government i think what's really most

1797

01:09:53,030 --> 01:09:50,719

encouraging

1798

01:09:54,470 --> 01:09:53,040

that i can see in terms of straws in the

1799

01:09:56,870 --> 01:09:54,480

wind is that

1800

01:09:59,030 --> 01:09:56,880

you know the last four years um louis

1801

01:10:01,590 --> 01:09:59,040

elizondo and chris mellon have really

1802

01:10:02,630 --> 01:10:01,600

sort of stirred the pot in terms of

1803

01:10:08,149 --> 01:10:02,640

getting

1804

01:10:11,189 --> 01:10:08,159

and also raising the raising the

1805

01:10:13,270 --> 01:10:11,199

the the whole framework you know it's

1806

01:10:15,590 --> 01:10:13,280

like the rising tide

1807

01:10:19,030 --> 01:10:15,600

raises everything so

1808

01:10:21,750 --> 01:10:19,040

i i hear a lot of interest in

1809

01:10:24,950 --> 01:10:21,760

uh people in silicon valley i hear a lot

1810

01:10:28,390 --> 01:10:24,960

of interest in academia

1811

01:10:31,750 --> 01:10:28,400

research uh and and you especially on

1812

01:10:34,550 --> 01:10:31,760

the ufo front um that i don't think

1813

01:10:35,830 --> 01:10:34,560

existed you know five ten years ago

1814

01:10:37,990 --> 01:10:35,840

and you know there's a lot of

1815

01:10:39,430 --> 01:10:38,000

initiatives that are sort of going on

1816

01:10:41,750 --> 01:10:39,440

behind the scenes

1817

01:10:43,030 --> 01:10:41,760

that i think are are capable of

1818

01:10:45,750 --> 01:10:43,040

producing

1819

01:10:48,070 --> 01:10:45,760

some useful stuff i mean you you guys

1820

01:10:49,350 --> 01:10:48,080

all know about the abbey lobe initiative

1821

01:10:51,270 --> 01:10:49,360

and and

1822

01:10:53,910 --> 01:10:51,280

uh but there are other initiatives that

1823

01:10:57,110 --> 01:10:53,920

are ongoing so i

1824

01:11:01,669 --> 01:10:57,120

if i only knew about the

1825

01:11:03,830 --> 01:11:01,679

aoi msg program and its sister

1826

01:11:05,270 --> 01:11:03,840

component the united states air force

1827

01:11:08,550 --> 01:11:05,280

both of which

1828

01:11:09,430 --> 01:11:08,560

are are known for slow walking the ufo

1829

01:11:11,669 --> 01:11:09,440

topic

1830

01:11:14,709 --> 01:11:11,679

i would not be very happy about you know

1831

01:11:16,229 --> 01:11:14,719

what what has happened but i think um

1832

01:11:17,590 --> 01:11:16,239

eventually what's going to make the

1833

01:11:20,470 --> 01:11:17,600

breakthroughs

1834

01:11:23,189 --> 01:11:20,480

is probably out in the public

1835

01:11:24,709 --> 01:11:23,199

where there's uh there's an awful lot

1836

01:11:27,030 --> 01:11:24,719

more interest

1837

01:11:29,110 --> 01:11:27,040

and you know the level of people that

1838

01:11:30,470 --> 01:11:29,120

are now getting sort of interested in

1839

01:11:32,950 --> 01:11:30,480

going public

1840

01:11:35,669 --> 01:11:32,960

is catalyzing even more interest in this

1841

01:11:38,470 --> 01:11:35,679

whole thing so i would i would be

1842

01:11:40,790 --> 01:11:38,480

optimistic about what's happening

1843

01:11:43,750 --> 01:11:40,800

um and you know without tuning our own

1844

01:11:47,030 --> 01:11:43,760

horns i would say that the uh the asap

1845

01:11:49,590 --> 01:11:47,040

program was the original catalyst

1846

01:11:53,430 --> 01:11:49,600

for this entire sort of

1847

01:11:55,750 --> 01:11:53,440

evolution of ossap and then atip and

1848

01:11:57,430 --> 01:11:55,760

then uap task force

1849

01:11:59,990 --> 01:11:57,440

and then the the sort of pentagon

1850

01:12:02,550 --> 01:12:00,000

initiatives but all of the publicity

1851  
01:12:04,630 --> 01:12:02,560  
associated with that i think is driving

1852  
01:12:07,669 --> 01:12:04,640  
a lot of interest in

1853  
01:12:10,310 --> 01:12:07,679  
areas um that are well funded that have

1854  
01:12:14,709 --> 01:12:10,320  
never had interest in this before so

1855  
01:12:19,830 --> 01:12:17,189  
i would say this you guys have you know

1856  
01:12:21,990 --> 01:12:19,840  
your part could be offering a safe space

1857  
01:12:24,470 --> 01:12:22,000  
like this one where people can come and

1858  
01:12:26,630 --> 01:12:24,480  
have a rational discussion you ask

1859  
01:12:28,229 --> 01:12:26,640  
pointed questions whatever you want but

1860  
01:12:29,910 --> 01:12:28,239  
it's not like are you still beating your

1861  
01:12:32,070 --> 01:12:29,920  
wife kind of stuff or you know those

1862  
01:12:33,669 --> 01:12:32,080  
kind of things or tabloid rumors or

1863  
01:12:37,830 --> 01:12:33,679

twitter i thought you mentioned it i'm

1864

01:12:41,669 --> 01:12:40,070

anyway yeah it's a joyful conversation

1865

01:12:42,470 --> 01:12:41,679

thanks for having us here we appreciate

1866

01:12:44,390 --> 01:12:42,480

it

1867

01:12:47,750 --> 01:12:44,400

thank you

1868

01:12:50,390 --> 01:12:47,760

george this has been absolutely

1869

01:12:51,189 --> 01:12:50,400

wonderful and a true honor for sure

1870

01:12:52,630 --> 01:12:51,199

yeah

1871

01:12:53,990 --> 01:12:52,640

and i hope you liked the music video i

1872

01:12:56,229 --> 01:12:54,000

made for you i don't do that for

1873

01:12:57,830 --> 01:12:56,239

everybody

1874

01:12:59,990 --> 01:12:57,840

you guys even got a new theme song that

1875

01:13:01,669 --> 01:13:00,000

was awesome yeah it was really good very

1876

01:13:04,229 --> 01:13:01,679

enjoyable

1877

01:13:06,229 --> 01:13:04,239

all right so uh i appreciate it uh thank

1878

01:13:09,110 --> 01:13:06,239

you so much and hopefully we'll get to

1879

01:13:10,390 --> 01:13:09,120

talk to you soon we'll do okay thank you

1880

01:13:13,270 --> 01:13:10,400

very much

1881

01:13:18,790 --> 01:13:14,550

i had a great time

1882

01:13:20,790 --> 01:13:18,800

wow absolutely wonderful so good yeah uh

1883

01:13:23,910 --> 01:13:20,800

what great guys and

1884

01:13:25,910 --> 01:13:23,920

you know when you you look

1885

01:13:27,510 --> 01:13:25,920

listen you listen to these folks you you

1886

01:13:29,510 --> 01:13:27,520

read about them

1887

01:13:30,390 --> 01:13:29,520

and uh it's always a pleasure to be able

1888

01:13:35,110 --> 01:13:30,400

to

1889

01:13:37,830 --> 01:13:35,120

it's absolutely incredible you know yeah

1890

01:13:39,430 --> 01:13:37,840

these are people that are you know

1891

01:13:41,110 --> 01:13:39,440

living historical figures in a lot of

1892

01:13:42,790 --> 01:13:41,120

ways you know in terms of like the work

1893

01:13:44,950 --> 01:13:42,800

that they've been doing and how they've

1894

01:13:46,870 --> 01:13:44,960

been able to push the ball forward so

1895

01:13:49,270 --> 01:13:46,880

like who else who else would you want to

1896

01:13:51,350 --> 01:13:49,280

talk to if it was just such lucky uh

1897

01:13:53,430 --> 01:13:51,360

guys you and i like i could uh easily

1898

01:13:55,830 --> 01:13:53,440

just kept going like

1899

01:13:57,750 --> 01:13:55,840

you know it would have been no

1900

01:13:59,590 --> 01:13:57,760

yeah exactly i did too and i was just

1901

01:14:00,550 --> 01:13:59,600

like oh man we don't go over it's late

1902

01:14:02,870 --> 01:14:00,560

for me

1903

01:14:05,270 --> 01:14:02,880

i know it's late for like yeah you're

1904

01:14:06,390 --> 01:14:05,280

probably starving are you starving oh

1905

01:14:08,870 --> 01:14:06,400

i'm hungry

1906

01:14:11,270 --> 01:14:08,880

oh yeah yeah i mean i for those of you

1907

01:14:12,950 --> 01:14:11,280

in the chat or watching us

1908

01:14:15,350 --> 01:14:12,960

five years in the future sean's always

1909

01:14:17,189 --> 01:14:15,360

hungry that's kind of what i've it's

1910

01:14:19,270 --> 01:14:17,199

like that line uh with a hulk in

1911

01:14:21,669 --> 01:14:19,280

avengers where the secret is that he's

1912

01:14:24,470 --> 01:14:21,679

always angry well sean

1913

01:14:27,189 --> 01:14:24,480

sean's got his own version of that um

1914

01:14:29,270 --> 01:14:27,199

i'm always angry he's always angry

1915

01:14:31,910 --> 01:14:29,280

that's right thank you so much everybody

1916

01:14:34,310 --> 01:14:31,920

in the chat for being great um really

1917

01:14:36,310 --> 01:14:34,320

appreciate it um

1918

01:14:37,590 --> 01:14:36,320

yeah i don't know with that being said i

1919

01:14:39,990 --> 01:14:37,600

don't have anything planned for next

1920

01:14:42,390 --> 01:14:40,000

wednesday we'll have to see what happens

1921

01:14:44,790 --> 01:14:42,400

yeah i think i think we can i think we

1922

01:14:46,870 --> 01:14:44,800

can pull together a great guest and uh

1923

01:14:49,750 --> 01:14:46,880

only goes downhill from here

1924

01:14:53,590 --> 01:14:51,110

absolutely not

1925

01:14:56,790 --> 01:14:53,600

i'm gonna care bear stare you man into

1926

01:15:01,430 --> 01:14:58,709

i'm just kidding i know

1927

01:15:03,270 --> 01:15:01,440

all right well all right

1928

01:15:04,550 --> 01:15:03,280

i love you too buddy i'll see you soon

1929

01:15:08,810 --> 01:15:04,560

all right all right have a good one

1930

01:15:39,709 --> 01:15:23,510

[Music]

1931

01:15:39,719 --> 01:15:45,780

skin walker
