

Advanced Aerospace Weapon System Applications Contract - Update

(b)(3):10 USC 424;(b)(6)

This briefing is classified
UNCLASSIFIED//~~FOUO~~

1
00:00:37,770 --> 00:00:24,940

so

2
00:00:37,780 --> 00:00:42,709

[Music]

3
00:00:48,389 --> 00:00:45,830

what's up everybody

4
00:00:50,069 --> 00:00:48,399
happy tuesday hope you're doing well

5
00:00:52,549 --> 00:00:50,079

um

6
00:00:55,910 --> 00:00:52,559

we are going to cover

7
00:00:58,950 --> 00:00:55,920

that thing called awesome

8
00:01:01,110 --> 00:00:58,960
you know some people could say it sounds

9
00:01:05,270 --> 00:01:01,120

like a sneeze

10
00:01:09,670 --> 00:01:07,270

no but uh

11
00:01:13,590 --> 00:01:09,680

first of all hello

12
00:01:15,990 --> 00:01:13,600
to everybody here uh laura brent

13
00:01:17,749 --> 00:01:16,000

elena andres

14

00:01:21,910 --> 00:01:17,759

chose everybody else who's here i

15

00:01:23,510 --> 00:01:21,920

appreciate it feel free to comment and

16

00:01:25,429 --> 00:01:23,520

join the chat

17

00:01:27,590 --> 00:01:25,439

i really do appreciate it

18

00:01:29,190 --> 00:01:27,600

uh dutch how you doing

19

00:01:30,789 --> 00:01:29,200

um we're gonna have a good time today

20

00:01:32,469 --> 00:01:30,799

and we're gonna cover what is an

21

00:01:33,990 --> 00:01:32,479

important topic so

22

00:01:36,469 --> 00:01:34,000

uh

23

00:01:38,789 --> 00:01:36,479

some paperwork has come out from

24

00:01:40,630 --> 00:01:38,799

whatsapp

25

00:01:42,310 --> 00:01:40,640

what's up jason

26

00:01:45,830 --> 00:01:42,320

appreciate you hanging out

27

00:01:47,030 --> 00:01:45,840

uh in that paperwork it goes beyond the

28

00:01:49,109 --> 00:01:47,040

um

29

00:01:50,469 --> 00:01:49,119

the dirts which are basically the papers

30

00:01:53,350 --> 00:01:50,479

that they put together the research

31

00:01:59,670 --> 00:01:56,630

so i figured we had george and uh calm

32

00:02:01,749 --> 00:01:59,680

on here not too long ago

33

00:02:03,109 --> 00:02:01,759

and

34

00:02:04,870 --> 00:02:03,119

you know at that point we only had the

35

00:02:08,229 --> 00:02:04,880

papers and there's only so much you can

36

00:02:10,790 --> 00:02:08,239

really go by by then and this story is

37

00:02:12,949 --> 00:02:10,800

you know of awesome a tip

38

00:02:15,670 --> 00:02:12,959

and everything goes back a ways now

39

00:02:17,510 --> 00:02:15,680

right that was 2008

40

00:02:19,110 --> 00:02:17,520

so

41

00:02:21,510 --> 00:02:19,120

that's a while

42

00:02:24,630 --> 00:02:23,350

you know so it's just now that some of

43

00:02:27,510 --> 00:02:24,640

this stuff is coming out thanks to

44

00:02:28,869 --> 00:02:27,520

people like uh alejandro rojet rojas

45

00:02:32,790 --> 00:02:28,879

um

46

00:02:34,470 --> 00:02:32,800

and uh keith basterfield george knapp

47

00:02:36,710 --> 00:02:34,480

uh the book that him and calm put

48

00:02:38,390 --> 00:02:36,720

together with uh lakoski

49

00:02:40,229 --> 00:02:38,400

senator harry reid there's all this

50

00:02:42,229 --> 00:02:40,239

stuff going on and there's all sorts of

51
00:02:44,790 --> 00:02:42,239
people saying different things about

52
00:02:45,830 --> 00:02:44,800
what they think is going on with osap

53
00:02:48,070 --> 00:02:45,840
and atep

54
00:02:50,470 --> 00:02:48,080
and lou elizondo and all that kind of

55
00:02:53,990 --> 00:02:50,480
stuff for instance um

56
00:02:56,470 --> 00:02:54,000
black vault kind of seems to think that

57
00:02:58,550 --> 00:02:56,480
the asset program

58
00:03:00,470 --> 00:02:58,560
the dia wanted them to put together just

59
00:03:01,830 --> 00:03:00,480
these papers and that alone and they

60
00:03:03,589 --> 00:03:01,840
wound up

61
00:03:05,030 --> 00:03:03,599
doing all this paranormal stuff at

62
00:03:08,070 --> 00:03:05,040
skinwalker ranch

63
00:03:12,070 --> 00:03:08,080

uh without the i8 no one basically

64

00:03:17,030 --> 00:03:15,430
they think all sorts of stuff and

65

00:03:19,509 --> 00:03:17,040
to me

66

00:03:21,350 --> 00:03:19,519
if you look at the whole picture

67

00:03:23,670 --> 00:03:21,360
everything lewis said over the years

68

00:03:25,910 --> 00:03:23,680
everything that george has said senator

69

00:03:28,470 --> 00:03:25,920
harry reid everything

70

00:03:31,509 --> 00:03:28,480
um and then you incorporate like the

71

00:03:32,630 --> 00:03:31,519
history of uh ufo investigations with

72

00:03:35,750 --> 00:03:32,640
the government

73

00:03:37,750 --> 00:03:35,760
who did those investigations the wording

74

00:03:39,509 --> 00:03:37,760
of those groups

75

00:03:42,789 --> 00:03:39,519
things start to come together a little

76

00:03:44,630 --> 00:03:42,799

bit so i thought that i would do

77

00:03:47,270 --> 00:03:44,640

a little synopsis

78

00:03:48,710 --> 00:03:47,280

educated hypothesis

79

00:03:51,430 --> 00:03:48,720

i would say

80

00:03:52,550 --> 00:03:51,440

on what exactly

81

00:03:55,910 --> 00:03:52,560

i think

82

00:03:59,350 --> 00:03:55,920

is going on

83

00:04:03,830 --> 00:04:00,789

there's a couple ways that we could do

84

00:04:06,550 --> 00:04:03,840

this but i figured i would start with

85

00:04:06,560 --> 00:04:13,350

the history of the ufo investigations

86

00:04:17,030 --> 00:04:15,350

and so we know

87

00:04:18,949 --> 00:04:17,040

what were these groups called that did

88

00:04:22,469 --> 00:04:18,959

these investigations right

89

00:04:24,629 --> 00:04:22,479

i mean we know it as blue book or grudge

90

00:04:26,710 --> 00:04:24,639

or sign but who were the people that

91

00:04:29,830 --> 00:04:26,720

were running those code projects

92

00:04:31,510 --> 00:04:29,840

codenamed projects which again were code

93

00:04:33,110 --> 00:04:31,520

had code names

94

00:04:35,670 --> 00:04:33,120

they were attic

95

00:04:38,469 --> 00:04:35,680

right aerospace technical intelligence

96

00:04:42,390 --> 00:04:40,469

really ran it and they gave it a code

97

00:04:43,350 --> 00:04:42,400

name a blue book

98

00:04:44,230 --> 00:04:43,360

grudge

99

00:04:46,550 --> 00:04:44,240

sign

100

00:04:48,150 --> 00:04:46,560

whatever

101
00:04:49,670 --> 00:04:48,160
later on

102
00:04:52,870 --> 00:04:49,680
foreign

103
00:04:55,670 --> 00:04:52,880
technology division

104
00:04:58,070 --> 00:04:55,680
did investigations as well

105
00:04:59,749 --> 00:04:58,080
now people say they look at it

106
00:05:03,189 --> 00:04:59,759
on its face and say foreign so they're

107
00:05:04,150 --> 00:05:03,199
talking about like china russia right

108
00:05:05,990 --> 00:05:04,160
yes

109
00:05:08,469 --> 00:05:06,000
and others

110
00:05:10,710 --> 00:05:08,479
case in point we'll get to

111
00:05:12,950 --> 00:05:10,720
and we'll just start off here with

112
00:05:14,150 --> 00:05:12,960
some simple photographs

113
00:05:15,749 --> 00:05:14,160

because it really drives them to the

114

00:05:17,350 --> 00:05:15,759

point

115

00:05:18,950 --> 00:05:17,360

some of these photographs you are

116

00:05:21,990 --> 00:05:18,960

familiar with and this is from a case

117

00:05:23,510 --> 00:05:22,000

august 3rd 1965 and i'm really only

118

00:05:26,310 --> 00:05:23,520

showing these

119

00:05:28,070 --> 00:05:26,320

so you can see

120

00:05:32,550 --> 00:05:28,080

what does it say on there it says

121

00:05:39,909 --> 00:05:35,670

air force special command

122

00:05:45,749 --> 00:05:41,909

you're probably familiar with these

123

00:05:45,759 --> 00:05:48,790

these pictures

124

00:05:54,550 --> 00:05:51,270

now what's interesting is

125

00:05:59,110 --> 00:05:57,590

who actually did the research

126
00:06:02,950 --> 00:05:59,120
into this

127
00:06:06,469 --> 00:06:04,629
and i don't want to take too long so we

128
00:06:07,590 --> 00:06:06,479
can get into the newer stuff but i just

129
00:06:09,430 --> 00:06:07,600
want to

130
00:06:12,150 --> 00:06:09,440
kind of bring you up to speed with

131
00:06:13,350 --> 00:06:12,160
history as our guide as far as what this

132
00:06:18,710 --> 00:06:13,360
stuff looks like inside of the

133
00:06:18,720 --> 00:06:22,710
so

134
00:06:22,720 --> 00:06:26,710
let me make this a little bigger for you

135
00:06:31,590 --> 00:06:28,790
boom there we go

136
00:06:33,270 --> 00:06:31,600
so check this out

137
00:06:35,430 --> 00:06:33,280
the people that investigated this case

138
00:06:38,390 --> 00:06:35,440

that we just looked at the picture of it

139

00:06:41,749 --> 00:06:38,400

space systems division

140

00:06:45,029 --> 00:06:41,759

air force systems command

141

00:06:47,430 --> 00:06:45,039

space systems division

142

00:06:55,029 --> 00:06:47,440

aerospace technical intelligence center

143

00:06:58,870 --> 00:06:57,350

this is a different case and i'm just

144

00:07:01,510 --> 00:06:58,880

using a different case

145

00:07:03,350 --> 00:07:01,520

so you can

146

00:07:04,390 --> 00:07:03,360

um see that it wasn't a one-time

147

00:07:06,550 --> 00:07:04,400

occurrence

148

00:07:09,909 --> 00:07:06,560

right this is a different case that was

149

00:07:12,950 --> 00:07:09,919

april 21st 1966 again reported to the

150

00:07:12,960 --> 00:07:18,230

staff security

151
00:07:24,469 --> 00:07:20,230
here's another case

152
00:07:24,479 --> 00:07:28,790
space systems division

153
00:07:32,629 --> 00:07:30,390
and these are ufo

154
00:07:37,189 --> 00:07:32,639
sightings

155
00:07:41,110 --> 00:07:38,790
part of the air force

156
00:07:43,589 --> 00:07:41,120
investigated as well as aerial technical

157
00:07:46,070 --> 00:07:43,599
intelligence center right

158
00:07:49,189 --> 00:07:46,080
so i showed that to you for a particular

159
00:07:52,230 --> 00:07:50,550
one is

160
00:07:55,749 --> 00:07:52,240
when we look at these papers that they

161
00:08:00,469 --> 00:07:55,759
put together asap right advanced aerial

162
00:08:06,150 --> 00:08:03,749
we can look in those papers

163
00:08:08,629 --> 00:08:06,160

and as we get to these documents

164

00:08:09,990 --> 00:08:08,639

they say things as far as what their

165

00:08:14,469 --> 00:08:10,000

goal was and what they were supposed to

166

00:08:16,550 --> 00:08:14,479

do was to look into technology

167

00:08:18,710 --> 00:08:16,560

you know basically disruptive technology

168

00:08:21,029 --> 00:08:18,720

up to 40 years away from now and what

169

00:08:22,950 --> 00:08:21,039

that would look like

170

00:08:26,469 --> 00:08:22,960

in foreign systems

171

00:08:32,230 --> 00:08:29,029

so when we look at foreign weapons or

172

00:08:36,070 --> 00:08:34,310

it would behoove us to just

173

00:08:41,029 --> 00:08:36,080

think that that means

174

00:08:45,269 --> 00:08:42,949

in the past

175

00:08:46,870 --> 00:08:45,279

that's awesome at ufos

176

00:08:48,470 --> 00:08:46,880

and we're not making that up we just

177

00:08:49,590 --> 00:08:48,480

looked at the documents

178

00:08:51,750 --> 00:08:49,600

and there's

179

00:08:56,070 --> 00:08:51,760

decades worth of those documents to

180

00:08:56,080 --> 00:09:01,190

so the other thing you could say is

181

00:09:06,630 --> 00:09:03,509

that was the air force right and this

182

00:09:08,710 --> 00:09:06,640

last app is dia

183

00:09:11,110 --> 00:09:08,720

the di8

184

00:09:13,030 --> 00:09:11,120

look into any of this stuff ufos

185

00:09:14,710 --> 00:09:13,040

paranormal stuff whatever

186

00:09:17,829 --> 00:09:14,720

foreign technology

187

00:09:19,350 --> 00:09:17,839

well yes in fact they did

188

00:09:22,790 --> 00:09:19,360

this i found the other day on their

189

00:09:27,910 --> 00:09:26,230

it was uh from a warsaw pact

190

00:09:32,470 --> 00:09:27,920

if you're familiar with that that was

191

00:09:36,150 --> 00:09:32,480

like um something formed to combat nato

192

00:09:42,230 --> 00:09:38,310

this is something that the

193

00:09:44,949 --> 00:09:42,240

air force put together for the dia

194

00:09:47,990 --> 00:09:44,959

foreign technology division right ftd

195

00:09:52,230 --> 00:09:50,790

paraphysics r d warsaw pack so what

196

00:09:55,350 --> 00:09:52,240

could be in this

197

00:09:56,230 --> 00:09:55,360

all sorts of stuff

198

00:09:57,030 --> 00:09:56,240

right

199

00:09:58,470 --> 00:09:57,040

this

200

00:10:00,150 --> 00:09:58,480

handled

201
00:10:03,509 --> 00:10:00,160
and gave a deep history on the

202
00:10:08,949 --> 00:10:03,519
paraphysics going back to the late 1800s

203
00:10:12,949 --> 00:10:11,350
and we're talking about things like

204
00:10:15,910 --> 00:10:12,959
spoon bending

205
00:10:17,910 --> 00:10:15,920
rv we're talking about

206
00:10:20,710 --> 00:10:17,920
which is a remote viewing we're talking

207
00:10:21,750 --> 00:10:20,720
about um psychic abilities we're talking

208
00:10:24,310 --> 00:10:21,760
about

209
00:10:28,069 --> 00:10:24,320
even deeper things like um

210
00:10:29,990 --> 00:10:28,079
how our minds connect as holograms um

211
00:10:31,509 --> 00:10:30,000
all sorts of stuff

212
00:10:33,269 --> 00:10:31,519
the dia

213
00:10:34,949 --> 00:10:33,279

got this report and it's on their

214

00:10:37,350 --> 00:10:34,959
website

215

00:10:38,949 --> 00:10:37,360
which i would think

216

00:10:42,470 --> 00:10:38,959
is

217

00:10:45,910 --> 00:10:44,710
kyle asks where did these docs come from

218

00:10:48,230 --> 00:10:45,920
these ducks

219

00:10:49,829 --> 00:10:48,240
this one particular pair of physics came

220

00:10:51,990 --> 00:10:49,839
from the dia

221

00:10:53,430 --> 00:10:52,000
foia reading room

222

00:10:54,870 --> 00:10:53,440
the other ones i

223

00:10:56,710 --> 00:10:54,880
showed

224

00:10:59,670 --> 00:10:56,720
were

225

00:11:02,710 --> 00:10:59,680
attic files which you can find in the

226

00:11:06,310 --> 00:11:02,720

blue book archives

227

00:11:06,320 --> 00:11:11,509

along with about 10 000 other files

228

00:11:11,519 --> 00:11:18,389

or folders files i should say

229

00:11:22,949 --> 00:11:21,350

so this here is another thing

230

00:11:25,990 --> 00:11:22,959

that is found

231

00:11:29,430 --> 00:11:26,000

on the dia's website

232

00:11:30,470 --> 00:11:29,440

it's about grill flame and sri sri was

233

00:11:31,350 --> 00:11:30,480

rained by

234

00:11:32,970 --> 00:11:31,360

well

235

00:11:35,110 --> 00:11:32,980

hal pudov worked there um

236

00:11:37,430 --> 00:11:35,120

[Music]

237

00:11:39,350 --> 00:11:37,440

uh russell targ or tag is it i always

238

00:11:41,829 --> 00:11:39,360

get that wrong

239

00:11:45,350 --> 00:11:41,839

they did a lot of rv stuff they did a

240

00:11:47,190 --> 00:11:45,360

bunch of stuff they even proposed a

241

00:11:49,829 --> 00:11:47,200

contract i think it was the cia to

242

00:11:51,269 --> 00:11:49,839

investigate ufos in like 1972 or

243

00:11:57,670 --> 00:11:51,279

something

244

00:11:59,590 --> 00:11:57,680

well to what extent i'm not sure but he

245

00:12:01,509 --> 00:11:59,600

just talked about grill flame and his

246

00:12:04,389 --> 00:12:01,519

latest talk at archives of the

247

00:12:09,590 --> 00:12:07,590

grill flame is an out there project that

248

00:12:11,670 --> 00:12:09,600

a lot of people would like to discredit

249

00:12:14,550 --> 00:12:11,680

as far as remote viewing and all that

250

00:12:18,150 --> 00:12:14,560

sort of stuff the fact is the dia

251
00:12:20,230 --> 00:12:18,160
the cia and other people

252
00:12:21,990 --> 00:12:20,240
the army as we can see

253
00:12:28,550 --> 00:12:22,000
use this stuff

254
00:12:32,470 --> 00:12:30,550
as we move on we get to advanced

255
00:12:34,150 --> 00:12:32,480
aerospace weapon system applications

256
00:12:35,750 --> 00:12:34,160
contract

257
00:12:37,350 --> 00:12:35,760
so we know

258
00:12:41,269 --> 00:12:37,360
aerospace

259
00:12:44,949 --> 00:12:43,590
as far as a word for groups of the

260
00:12:47,430 --> 00:12:44,959
government arms of the government that

261
00:12:49,590 --> 00:12:47,440
would investigate ufos

262
00:12:53,829 --> 00:12:49,600
we're told that this was a program that

263
00:12:57,990 --> 00:12:55,990

the dia

264

00:12:59,990 --> 00:12:58,000

definitely has a history of

265

00:13:02,150 --> 00:13:00,000

researching and looking into paranormal

266

00:13:03,670 --> 00:13:02,160

aspects we also know

267

00:13:04,829 --> 00:13:03,680

asap

268

00:13:06,550 --> 00:13:04,839

looked into

269

00:13:08,550 --> 00:13:06,560

paranormal

270

00:13:11,829 --> 00:13:08,560

things as well

271

00:13:13,990 --> 00:13:11,839

i don't see anything out of the ordinary

272

00:13:19,350 --> 00:13:14,000

right now

273

00:13:19,360 --> 00:13:23,430

all the papers that came out

274

00:13:27,829 --> 00:13:24,870

and

275

00:13:29,990 --> 00:13:27,839

just kind of i went through all of them

276

00:13:33,350 --> 00:13:30,000

most of them are just the different uh

277

00:13:34,550 --> 00:13:33,360

papers that they have written

278

00:13:37,750 --> 00:13:34,560

which you know

279

00:13:39,509 --> 00:13:37,760

there's like a 1500 pages worth

280

00:13:39,860 --> 00:13:39,519

so i went through

281

00:13:41,910 --> 00:13:39,870

um

282

00:13:43,990 --> 00:13:41,920

[Music]

283

00:13:46,389 --> 00:13:44,000

basically all of them and and clipped

284

00:13:49,030 --> 00:13:46,399

out the things that

285

00:13:53,350 --> 00:13:49,040

uh we could go through that kind of

286

00:13:56,710 --> 00:13:54,949

in the second paragraph of his letter

287

00:13:58,949 --> 00:13:56,720

senator reid cites the identification of

288

00:14:01,030 --> 00:13:58,959

highly sensitive unconventional

289

00:14:02,710 --> 00:14:01,040

unconventional aerospace related

290

00:14:05,110 --> 00:14:02,720

findings

291

00:14:08,870 --> 00:14:05,120

what ufos were called oftentimes were

292

00:14:10,470 --> 00:14:08,880

unconventional flying objects

293

00:14:11,990 --> 00:14:10,480

that will require extraordinary

294

00:14:14,550 --> 00:14:12,000

protection although most of the

295

00:14:16,790 --> 00:14:14,560

unclassified reports discuss

296

00:14:19,269 --> 00:14:16,800

unconventional aerospace technologies di

297

00:14:21,189 --> 00:14:19,279

is unaware of any report containing

298

00:14:22,470 --> 00:14:21,199

information sufficiently sensitive and

299

00:14:25,990 --> 00:14:22,480

vulnerable

300

00:14:27,590 --> 00:14:26,000

to require extra protection associated

301

00:14:28,790 --> 00:14:27,600

so what does this mean

302

00:14:30,389 --> 00:14:28,800

this

303

00:14:33,110 --> 00:14:30,399

why did they say that why did they say

304

00:14:35,350 --> 00:14:33,120

that asap didn't need a special access

305

00:14:37,269 --> 00:14:35,360

program or basically protection well

306

00:14:39,189 --> 00:14:37,279

that's because all their research that

307

00:14:41,829 --> 00:14:39,199

they did for those papers

308

00:14:44,870 --> 00:14:41,839

was based off of unclassified public

309

00:14:50,629 --> 00:14:47,990

and this was in the first year

310

00:14:52,310 --> 00:14:50,639

senator harry reid wanted extraordinary

311

00:14:53,829 --> 00:14:52,320

protection

312

00:14:55,910 --> 00:14:53,839

because in the following year the next

313

00:14:57,269 --> 00:14:55,920

year coming up things were going to

314

00:14:58,470 --> 00:14:57,279

start to

315

00:15:02,310 --> 00:14:58,480

get to a point of where they were

316

00:15:11,110 --> 00:15:05,509

and i'll tell you why i think already

317

00:15:15,509 --> 00:15:12,870

and it's interesting when dia looks at

318

00:15:17,509 --> 00:15:15,519

this because they've given they gave

319

00:15:20,470 --> 00:15:17,519

reviews on basically all the papers that

320

00:15:25,110 --> 00:15:20,480

they wrote whatsapp and put together

321

00:15:28,550 --> 00:15:27,030

one they didn't touch or give a review

322

00:15:29,829 --> 00:15:28,560

for

323

00:15:32,470 --> 00:15:29,839

was

324

00:15:34,629 --> 00:15:32,480

the biological effects which is we went

325

00:15:37,350 --> 00:15:34,639

over on the show not too long ago which

326

00:15:45,590 --> 00:15:37,360

is obviously ufo related because

327

00:15:51,030 --> 00:15:47,350

materials for advanced aerospace

328

00:15:51,040 --> 00:15:57,749

so this is interesting to me

329

00:16:01,749 --> 00:15:59,910

i'll read it the info memo responds to

330

00:16:03,749 --> 00:16:01,759

your request for the

331

00:16:06,069 --> 00:16:03,759

blank to review the quality value of the

332

00:16:07,910 --> 00:16:06,079

first year technical reports delivered

333

00:16:10,389 --> 00:16:07,920

under awe sap contract with bigelow

334

00:16:11,670 --> 00:16:10,399

aerospace bass as a reminder you made

335

00:16:14,310 --> 00:16:11,680

this request

336

00:16:16,310 --> 00:16:14,320

to personnel during 15 of may

337

00:16:17,910 --> 00:16:16,320

2009

338

00:16:19,749 --> 00:16:17,920

after meeting with senator harry reid

339

00:16:22,550 --> 00:16:19,759

the goal of the contract is to identify

340

00:16:24,310 --> 00:16:22,560

key technologies and physics concepts

341

00:16:25,990 --> 00:16:24,320

that would support revolutionary

342

00:16:27,670 --> 00:16:26,000

aerospace vehicle research and

343

00:16:30,230 --> 00:16:27,680

development contracted studies were

344

00:16:32,150 --> 00:16:30,240

designed to provide prioritized list of

345

00:16:33,350 --> 00:16:32,160

technologies concepts

346

00:16:34,949 --> 00:16:33,360

that then

347

00:16:36,790 --> 00:16:34,959

would drive detailed focused searches

348

00:16:38,550 --> 00:16:36,800

into foreign

349

00:16:41,430 --> 00:16:38,560

aerospace research and development

350

00:16:43,189 --> 00:16:41,440

remember that word foreign

351

00:16:46,870 --> 00:16:43,199

we just went over that

352

00:16:49,030 --> 00:16:46,880

foreign technology division aerospace

353

00:16:51,350 --> 00:16:49,040

atec

354

00:16:57,269 --> 00:16:51,360

aerospace technical intelligence center

355

00:17:01,269 --> 00:16:59,269

so we have to remember that when we look

356

00:17:03,350 --> 00:17:01,279

at this stuff now so we can have some

357

00:17:05,590 --> 00:17:03,360

sort of context with it

358

00:17:07,510 --> 00:17:05,600

each research report into the areas of

359

00:17:09,909 --> 00:17:07,520

lift propulsion control power generation

360

00:17:11,909 --> 00:17:09,919

spatial temporal translation materials

361

00:17:15,909 --> 00:17:11,919

structural configuration signature

362

00:17:17,909 --> 00:17:15,919

reduction human interface human effects

363

00:17:20,390 --> 00:17:17,919

and armament was written by world-class

364

00:17:23,270 --> 00:17:20,400

technical experts in industry and or

365

00:17:29,430 --> 00:17:25,270

human effects remember again we looked

366

00:17:32,789 --> 00:17:30,390

this

367

00:17:34,070 --> 00:17:32,799

i picked out because it was super

368

00:17:36,150 --> 00:17:34,080

interesting to me

369

00:17:39,510 --> 00:17:36,160

this is in regards to

370

00:17:41,990 --> 00:17:39,520

um hypersonic technology

371

00:17:43,830 --> 00:17:42,000

and i'm trying to look into

372

00:17:46,390 --> 00:17:43,840

uh the different aspects of hypersonic

373

00:17:47,909 --> 00:17:46,400

technology it's also interesting to me

374

00:17:49,669 --> 00:17:47,919

because

375

00:17:51,750 --> 00:17:49,679

this talks about

376

00:17:53,270 --> 00:17:51,760

the different efforts to do that one by

377

00:17:55,750 --> 00:17:53,280

which

378

00:17:57,590 --> 00:17:55,760

was nasa and the other was the air force

379

00:17:58,390 --> 00:17:57,600

and it got to a point where they both

380

00:18:00,950 --> 00:17:58,400

had

381

00:18:06,230 --> 00:18:00,960

a disagreement you can see here the us

382

00:18:10,070 --> 00:18:08,070

over the operational capability of these

383

00:18:12,470 --> 00:18:10,080

aircraft what they're trying to do here

384

00:18:16,470 --> 00:18:12,480

and what this is talking about is making

385

00:18:20,710 --> 00:18:18,070

that what

386

00:18:24,150 --> 00:18:20,720

this is about is making a spaceship that

387

00:18:30,230 --> 00:18:24,160

can be manned and fly to outer space and

388

00:18:39,190 --> 00:18:32,870

those are the different designs drawings

389

00:18:50,230 --> 00:18:41,110

and i just clipped these out because i

390

00:18:54,230 --> 00:18:52,549

uh what's interesting here is it gets

391

00:18:57,110 --> 00:18:54,240

into a couple of the companies that were

392

00:18:58,230 --> 00:18:57,120

actually trying to do this mcdonald

393

00:19:02,230 --> 00:18:58,240

douglas

394

00:19:07,590 --> 00:19:05,029

that is a great comment elena

395

00:19:10,470 --> 00:19:07,600

interesting shape

396

00:19:12,310 --> 00:19:10,480

and it says right up here it says delta

397

00:19:16,230 --> 00:19:12,320

what do we see we see a lot of triangle

398

00:19:23,270 --> 00:19:19,909

uh salvador pi is his uh

399

00:19:25,830 --> 00:19:23,280

um patent craft

400

00:19:30,390 --> 00:19:25,840

triangle shaped

401
00:19:35,909 --> 00:19:33,430
there are triangle shapes that are

402
00:19:40,150 --> 00:19:35,919
flown so to speak if you can say flown

403
00:19:40,160 --> 00:19:44,310
which a human interface

404
00:19:48,710 --> 00:19:46,390
that can control matter without use of

405
00:19:57,510 --> 00:19:48,720
anything like your limbs

406
00:20:07,190 --> 00:19:58,950
uh

407
00:20:09,190 --> 00:20:07,200
can go try to find them for you

408
00:20:10,630 --> 00:20:09,200
and share them with you

409
00:20:14,549 --> 00:20:10,640
um

410
00:20:18,830 --> 00:20:14,559
alejandro rowhead rojas got them

411
00:20:25,029 --> 00:20:21,990
and yeah so that's that's how i got them

412
00:20:27,350 --> 00:20:25,039
the sun wrote about uh this as well

413
00:20:29,590 --> 00:20:27,360

and they wrote about basically

414

00:20:30,470 --> 00:20:29,600

the episode that we did last week or

415

00:20:33,110 --> 00:20:30,480

even

416

00:20:36,070 --> 00:20:33,120

uh the week before which was about uh

417

00:20:37,029 --> 00:20:36,080

biological effects so we were on top of

418

00:20:38,470 --> 00:20:37,039

that

419

00:20:40,230 --> 00:20:38,480

before they were

420

00:20:43,590 --> 00:20:40,240

as always here

421

00:20:45,510 --> 00:20:43,600

and witness freaking citizen

422

00:20:46,710 --> 00:20:45,520

yeah

423

00:20:48,470 --> 00:20:46,720

um

424

00:20:49,590 --> 00:20:48,480

quick glance

425

00:20:51,430 --> 00:20:49,600

yeah

426

00:20:53,669 --> 00:20:51,440

i'll try to get them but uh if you

427

00:20:56,789 --> 00:20:53,679

follow keith basterfield

428

00:21:00,830 --> 00:20:56,799

um you're likely to find them rather

429

00:21:05,669 --> 00:21:02,710

so

430

00:21:08,870 --> 00:21:05,679

hopefully that helps

431

00:21:11,029 --> 00:21:08,880

um moving on

432

00:21:14,310 --> 00:21:11,039

begin publishing the 24 technical report

433

00:21:16,710 --> 00:21:14,320

deliverables as soon as possible

434

00:21:19,190 --> 00:21:16,720

um initiate university national lab

435

00:21:22,710 --> 00:21:19,200

research

436

00:21:24,630 --> 00:21:22,720

architecture

437

00:21:27,029 --> 00:21:24,640

ensure that the sei personal security

438

00:21:30,390 --> 00:21:27,039

clearances continue

439

00:21:31,590 --> 00:21:30,400

begin processing of lower class so this

440

00:21:39,190 --> 00:21:31,600

is just

441

00:21:39,200 --> 00:21:43,590

moving on program management plans

442

00:21:43,600 --> 00:21:45,990

so

443

00:21:49,669 --> 00:21:46,789

this

444

00:21:50,950 --> 00:21:49,679

i think is an important one and so and

445

00:21:53,190 --> 00:21:50,960

i'll tell you why in general each

446

00:21:55,990 --> 00:21:53,200

multi-year program management plan two

447

00:21:58,310 --> 00:21:56,000

to four feasibility uh technical concept

448

00:22:00,950 --> 00:21:58,320

baseline study suggested and here is the

449

00:22:03,590 --> 00:22:00,960

important one i think

450

00:22:06,230 --> 00:22:03,600

comparison of the aerospace vehicle

451

00:22:10,149 --> 00:22:06,240

concept with observable

452

00:22:18,549 --> 00:22:13,190

comparison of what aerospace vehicle

453

00:22:23,270 --> 00:22:21,350

so what they're doing here like i said

454

00:22:25,350 --> 00:22:23,280

is building a spaceship

455

00:22:28,470 --> 00:22:25,360

and they're building it based off of

456

00:22:31,909 --> 00:22:28,480

what i think is reverse engineering

457

00:22:33,909 --> 00:22:31,919

of observable data

458

00:22:40,149 --> 00:22:33,919

of something that already exists

459

00:22:43,909 --> 00:22:42,230

in the interview we had with uh calm and

460

00:22:45,750 --> 00:22:43,919

george kneb

461

00:22:47,510 --> 00:22:45,760

george plainly said

462

00:22:48,870 --> 00:22:47,520

that

463

00:22:50,950 --> 00:22:48,880

ozap

464

00:22:53,430 --> 00:22:50,960

was supposed to figure this out these

465

00:22:56,789 --> 00:22:53,440

things out

466

00:23:00,870 --> 00:22:58,789

that's what he said

467

00:23:03,830 --> 00:23:00,880

we can see all the papers

468

00:23:05,350 --> 00:23:03,840

are trying to figure something out

469

00:23:07,110 --> 00:23:05,360

and we can see this bullet point line

470

00:23:11,990 --> 00:23:07,120

comparison of the aerospace vehicle

471

00:23:15,909 --> 00:23:13,590

they're trying to reverse engineer what

472

00:23:17,510 --> 00:23:15,919

they see

473

00:23:21,430 --> 00:23:17,520

and what they've learned via human

474

00:23:23,590 --> 00:23:21,440

effects as calm set on our show

475

00:23:25,750 --> 00:23:23,600

to reverse engineer that

476
00:23:27,750 --> 00:23:25,760
to figure out the technologies to help

477
00:23:29,830 --> 00:23:27,760
figure out the technologies

478
00:23:32,230 --> 00:23:29,840
another interesting thing is we go back

479
00:23:37,590 --> 00:23:34,470
senator harry reid and when he said that

480
00:23:40,950 --> 00:23:37,600
he attempted to

481
00:23:44,549 --> 00:23:40,960
look at sensitive materials

482
00:23:44,559 --> 00:23:49,190
at lockheed martin and he was denied

483
00:23:53,350 --> 00:23:50,390
that would also

484
00:23:55,510 --> 00:23:53,360
fall in line with trying to figure out

485
00:23:57,669 --> 00:23:55,520
what the things are

486
00:24:02,789 --> 00:23:57,679
and apparently they thought

487
00:24:05,909 --> 00:24:04,549
this is interesting to me

488
00:24:08,549 --> 00:24:05,919

blake will be transferring to black

489

00:24:10,870 --> 00:24:08,559

during fy 10. if project continues past

490

00:24:14,149 --> 00:24:10,880

fy10 uh blank recommends that the

491

00:24:15,190 --> 00:24:14,159

contract to be moved out of dia okay so

492

00:24:18,070 --> 00:24:15,200

we know

493

00:24:22,149 --> 00:24:18,080

uh what we were told that uh osap ran

494

00:24:23,590 --> 00:24:22,159

from about 2008 to 2010 right

495

00:24:27,190 --> 00:24:23,600

and we also have this eight tip

496

00:24:30,789 --> 00:24:27,200

situation with lou elizondo

497

00:24:34,549 --> 00:24:30,799

and we have a letter from harry reid and

498

00:24:40,630 --> 00:24:39,510

and combines atip and asap right

499

00:24:43,029 --> 00:24:40,640

atip

500

00:24:45,830 --> 00:24:43,039

was a nickname

501
00:24:47,350 --> 00:24:45,840
for osap it was a way to discuss the

502
00:24:49,990 --> 00:24:47,360
program

503
00:24:53,750 --> 00:24:50,000
and use that name in an unclassified

504
00:24:57,110 --> 00:24:55,350
so but it

505
00:24:59,269 --> 00:24:57,120
so what it is is going back to what we

506
00:25:02,149 --> 00:24:59,279
were talking before we had

507
00:25:04,149 --> 00:25:02,159
attic right

508
00:25:07,269 --> 00:25:04,159
aerospace technical intelligence center

509
00:25:09,510 --> 00:25:07,279
and they had their code name blue book

510
00:25:12,149 --> 00:25:09,520
that did the ufo studies

511
00:25:14,630 --> 00:25:12,159
to me that's not a whole lot different

512
00:25:18,470 --> 00:25:14,640
than ossep

513
00:25:22,870 --> 00:25:21,430

i know this is probably hard to

514

00:25:24,390 --> 00:25:22,880

well it's at least hard for me to follow

515

00:25:26,230 --> 00:25:24,400

along with i'm sure it is for you as

516

00:25:29,750 --> 00:25:26,240

well but i'm doing my best you can stop

517

00:25:32,470 --> 00:25:29,760

and ask questions at any point so

518

00:25:35,029 --> 00:25:32,480

we know that offset stopped in fy10 lou

519

00:25:41,029 --> 00:25:35,039

elizondo says that he was doing a tip

520

00:25:45,590 --> 00:25:43,269

if this project

521

00:25:47,750 --> 00:25:45,600

stopped in 2010 like we were told and

522

00:25:49,750 --> 00:25:47,760

the recommendation was for that contract

523

00:25:51,510 --> 00:25:49,760

to be moved out of dia

524

00:25:54,789 --> 00:25:51,520

what are the chances

525

00:25:59,269 --> 00:25:54,799

that it did move and continue out of dia

526

00:26:05,350 --> 00:26:02,310

maybe via lou elizondo

527

00:26:08,070 --> 00:26:05,360

now called and is eight tip without the

528

00:26:08,080 --> 00:26:14,549

and without bob bigelow

529

00:26:19,669 --> 00:26:17,590

i think that's very possible

530

00:26:26,310 --> 00:26:19,679

and it kind of lines up

531

00:26:31,750 --> 00:26:29,350

so to me the contract was not renewed

532

00:26:34,549 --> 00:26:31,760

with bass but the program more or less

533

00:26:37,350 --> 00:26:34,559

moved on and moved out of dia

534

00:26:39,110 --> 00:26:37,360

we know that

535

00:26:41,669 --> 00:26:39,120

via calm

536

00:26:43,830 --> 00:26:41,679

the dinner that come had with lou

537

00:26:46,470 --> 00:26:43,840

elizondo and all that they had at dinner

538

00:26:47,909 --> 00:26:46,480

and he described to us on our interview

539

00:26:50,070 --> 00:26:47,919

that lou alexander was there for

540

00:26:52,070 --> 00:26:50,080

counterintelligence reasons basically

541

00:26:54,390 --> 00:26:52,080

which we can see in the paperwork harry

542

00:26:56,230 --> 00:26:54,400

reid and obviously others

543

00:26:57,350 --> 00:26:56,240

wanted some sort of uh

544

00:26:58,630 --> 00:26:57,360

protection

545

00:27:01,110 --> 00:26:58,640

via

546

00:27:02,470 --> 00:27:01,120

a special access program or counter

547

00:27:04,190 --> 00:27:02,480

intelligence

548

00:27:08,630 --> 00:27:04,200

lose there he's there for

549

00:27:14,070 --> 00:27:10,070

so that was probably maybe the

550

00:27:19,669 --> 00:27:16,950

this one's moving on

551
00:27:23,110 --> 00:27:19,679
a tip continues with it blue alexander

552
00:27:25,510 --> 00:27:23,120
does it and from my knowledge they do it

553
00:27:27,750 --> 00:27:25,520
in their free time

554
00:27:30,389 --> 00:27:27,760
outside of their normal

555
00:27:32,389 --> 00:27:30,399
uh government day jobs

556
00:27:39,990 --> 00:27:32,399
alexander said they had funding i don't

557
00:27:46,070 --> 00:27:42,230
so again here we got bullet point number

558
00:27:49,750 --> 00:27:47,909
we've got the senator sponsored language

559
00:27:51,350 --> 00:27:49,760
in the july 2008 supplemental

560
00:27:53,029 --> 00:27:51,360
appropriation bill for dia to

561
00:27:57,590 --> 00:27:53,039
investigate foreign

562
00:28:01,430 --> 00:28:00,149
that language falls in line with what we

563
00:28:05,590 --> 00:28:01,440

know it to be

564

00:28:09,350 --> 00:28:07,269

senator reed has a deep interest in the

565

00:28:11,350 --> 00:28:09,360

potential threat posed by unconventional

566

00:28:13,750 --> 00:28:11,360

aerospace technologies

567

00:28:15,990 --> 00:28:13,760

that is technologies that are a radical

568

00:28:18,710 --> 00:28:16,000

departure to those used in current

569

00:28:21,029 --> 00:28:18,720

advanced aerospace vehicles

570

00:28:23,750 --> 00:28:21,039

in response to this tasking like

571

00:28:25,830 --> 00:28:23,760

publisher request for proposals

572

00:28:27,350 --> 00:28:25,840

yada yada yada another thing that's

573

00:28:29,510 --> 00:28:27,360

interesting about this if you think

574

00:28:32,149 --> 00:28:29,520

about the tic tac

575

00:28:35,190 --> 00:28:32,159

incident which was 2004

576
00:28:37,830 --> 00:28:35,200
and here we are talking about

577
00:28:39,990 --> 00:28:37,840
all this technology

578
00:28:42,149 --> 00:28:40,000
writing papers

579
00:28:44,070 --> 00:28:42,159
trying to figure out

580
00:28:48,070 --> 00:28:44,080
how to make something that basically

581
00:28:52,470 --> 00:28:50,230
so i think this shows and kind of proves

582
00:28:54,789 --> 00:28:52,480
that the tic deck technology and that

583
00:28:57,669 --> 00:28:54,799
tick deck is not

584
00:29:00,389 --> 00:28:57,679
our technology because as we can see

585
00:29:09,510 --> 00:29:00,399
we don't possess the means or a vehicle

586
00:29:14,789 --> 00:29:12,630
this is in 2008

587
00:29:17,269 --> 00:29:14,799
and harry reid is saying things

588
00:29:30,950 --> 00:29:17,279

like radical departure to those used in

589

00:29:30,960 --> 00:29:35,669

we have

590

00:29:38,950 --> 00:29:37,430

bottom line contract is on track the

591

00:29:41,669 --> 00:29:38,960

contract is currently proceeding on

592

00:29:44,070 --> 00:29:41,679

schedule and within cost

593

00:29:45,510 --> 00:29:44,080

sounds like that's going pretty good

594

00:29:46,630 --> 00:29:45,520

so

595

00:29:49,990 --> 00:29:46,640

there's one

596

00:29:52,310 --> 00:29:50,000

um snippet in all of this paperwork that

597

00:29:54,389 --> 00:29:52,320

people have taken

598

00:29:57,430 --> 00:29:54,399

certain people

599

00:29:59,909 --> 00:29:57,440

have taken um to throw this all down the

600

00:30:02,070 --> 00:29:59,919

toilet and it's one sentence that says

601
00:30:04,630 --> 00:30:02,080
the d.i.a

602
00:30:06,710 --> 00:30:04,640
and a paraphrasing doesn't have any use

603
00:30:09,750 --> 00:30:06,720
for this kind of work

604
00:30:13,590 --> 00:30:11,990
so you have that one statement

605
00:30:14,870 --> 00:30:13,600
all the other statements throughout this

606
00:30:16,950 --> 00:30:14,880
paperwork

607
00:30:18,950 --> 00:30:16,960
are glowing reviews

608
00:30:20,630 --> 00:30:18,960
and usefulness

609
00:30:23,430 --> 00:30:20,640
which heavily outweigh

610
00:30:24,549 --> 00:30:23,440
that one statement by that one person

611
00:30:26,389 --> 00:30:24,559
for instance

612
00:30:28,950 --> 00:30:26,399
this contract is providing a unique

613
00:30:31,110 --> 00:30:28,960

opportunity for dia to both understand

614

00:30:33,269 --> 00:30:31,120

very advanced aerospace related

615

00:30:35,510 --> 00:30:33,279

technology and to determine its threat

616

00:30:37,350 --> 00:30:35,520

potential to the us

617

00:30:40,630 --> 00:30:37,360

as efforts expand in the future with

618

00:30:43,909 --> 00:30:40,640

worldwide calibrated data collection

619

00:30:47,190 --> 00:30:46,070

right with the whole government push is

620

00:30:49,350 --> 00:30:47,200

to get

621

00:30:51,830 --> 00:30:49,360

more worldwide calibrated data

622

00:30:53,909 --> 00:30:51,840

collection work well zondo talks about

623

00:30:56,230 --> 00:30:53,919

working with other partners right

624

00:30:58,950 --> 00:30:56,240

world class expert analysis university

625

00:31:02,070 --> 00:30:58,960

and national lab collaboration

626

00:31:05,750 --> 00:31:02,080

i don't know uh avi loeb

627

00:31:09,509 --> 00:31:05,760

galileo project you can even say

628

00:31:10,950 --> 00:31:09,519

uapx isn't university but

629

00:31:14,070 --> 00:31:10,960

information exchange with major

630

00:31:16,870 --> 00:31:14,080

aerospace and electronic firms

631

00:31:21,110 --> 00:31:16,880

enhanced on i and n a

632

00:31:23,029 --> 00:31:22,230

national

633

00:31:25,430 --> 00:31:23,039

uh

634

00:31:27,509 --> 00:31:25,440

i forget what that stands for national

635

00:31:29,430 --> 00:31:27,519

air and space intelligence community i

636

00:31:32,710 --> 00:31:29,440

believe cooperation

637

00:31:35,190 --> 00:31:32,720

but what that was

638

00:31:38,070 --> 00:31:35,200

many many decades before this

639

00:31:41,830 --> 00:31:38,080

was blue book attic right patterson air

640

00:31:48,470 --> 00:31:46,710

wikipedia atic attic air force

641

00:31:54,470 --> 00:31:48,480

they'll give you the timeline it'll lead

642

00:31:58,230 --> 00:31:56,470

dia will be the integrating force behind

643

00:32:00,310 --> 00:31:58,240

the development of a center of

644

00:32:02,789 --> 00:32:00,320

excellence in the area of advanced

645

00:32:04,230 --> 00:32:02,799

aerospace weapon system applications the

646

00:32:06,710 --> 00:32:04,240

continued support and guidance of

647

00:32:08,870 --> 00:32:06,720

senator reid

648

00:32:12,310 --> 00:32:08,880

and the other senator

649

00:32:14,470 --> 00:32:12,320

i can't pronounce that last name

650

00:32:20,230 --> 00:32:14,480

uh it is crucial to the success of this

651
00:32:35,190 --> 00:32:23,110
and also andres good point attic to

652
00:32:39,669 --> 00:32:36,230
so again

653
00:32:41,269 --> 00:32:39,679
we have this d i a position

654
00:32:42,789 --> 00:32:41,279
and we kind of already went over this

655
00:32:44,549 --> 00:32:42,799
but the content

656
00:32:45,990 --> 00:32:44,559
but it's important the timeline here is

657
00:32:48,870 --> 00:32:46,000
important

658
00:32:51,509 --> 00:32:48,880
dia position based on the content of the

659
00:32:57,509 --> 00:32:53,509
excuse me fiscal year

660
00:33:00,310 --> 00:32:57,519
uh 2009 and expect

661
00:33:02,630 --> 00:33:00,320
fy10 technical reports dia cannot find

662
00:33:05,750 --> 00:33:02,640
sufficient grounds under dod regulations

663
00:33:08,549 --> 00:33:05,760

to establish a restricted sap

664

00:33:10,549 --> 00:33:08,559

again that's because those papers

665

00:33:12,470 --> 00:33:10,559

were

666

00:33:16,149 --> 00:33:12,480

written and based off of public

667

00:33:19,269 --> 00:33:17,750

however the concerns that senator reid

668

00:33:21,269 --> 00:33:19,279

raises seems to suggest that the

669

00:33:23,509 --> 00:33:21,279

security and counterintelligence issues

670

00:33:25,110 --> 00:33:23,519

are in regard to future

671

00:33:27,750 --> 00:33:25,120

phases of this program and not

672

00:33:29,110 --> 00:33:27,760

necessarily the current contract effort

673

00:33:30,950 --> 00:33:29,120

if this assumption is correct and

674

00:33:33,909 --> 00:33:30,960

senator reid is looking ahead to

675

00:33:35,990 --> 00:33:33,919

research development and acquisition

676
00:33:37,909 --> 00:33:36,000
an effort that lies outside the dod

677
00:33:40,549 --> 00:33:37,919
intelligence community's purview this in

678
00:33:43,430 --> 00:33:40,559
turn would argue that any future efforts

679
00:33:44,710 --> 00:33:43,440
beyond fy 10

680
00:33:45,909 --> 00:33:44,720
a tip

681
00:33:47,590 --> 00:33:45,919
i think

682
00:33:50,149 --> 00:33:47,600
when the current contract ends should be

683
00:33:57,190 --> 00:33:50,159
moved under the appropriate dod

684
00:34:00,789 --> 00:33:59,110
i don't know why that would be black out

685
00:34:03,750 --> 00:34:00,799
blacked out that first word there will

686
00:34:06,310 --> 00:34:03,760
be transferring to blank during fy 10

687
00:34:08,629 --> 00:34:06,320
what will be transferring

688
00:34:10,869 --> 00:34:08,639

uh blank due to economic issues will not

689

00:34:13,030 --> 00:34:10,879

be transferring okay

690

00:34:15,270 --> 00:34:13,040

program will likely become a special

691

00:34:17,750 --> 00:34:15,280

access program by june

692

00:34:19,909 --> 00:34:17,760

2010.

693

00:34:23,030 --> 00:34:19,919

maybe a tip was that special access

694

00:34:26,389 --> 00:34:23,040

program best option appears to be

695

00:34:29,109 --> 00:34:26,399

to be to move blank program

696

00:34:31,349 --> 00:34:29,119

uh to blank during this time

697

00:34:33,430 --> 00:34:31,359

well it's not very helpful but kind of

698

00:34:40,710 --> 00:34:33,440

goes along the whole lines of what we

699

00:34:40,720 --> 00:34:46,950

all right any questions

700

00:34:46,960 --> 00:34:51,270

i thought we did that pretty well

701
00:34:55,589 --> 00:34:52,790
so that's what i think

702
00:34:57,910 --> 00:34:55,599
on this stuff um

703
00:35:00,870 --> 00:34:57,920
and if you're going to

704
00:35:03,589 --> 00:35:00,880
you know uh research these aerospace

705
00:35:05,589 --> 00:35:03,599
vehicles right and try to let's say

706
00:35:07,670 --> 00:35:05,599
reverse engineer one as

707
00:35:10,150 --> 00:35:07,680
i think a lot of this paperwork is

708
00:35:11,109 --> 00:35:10,160
pretty clear that they're trying to do

709
00:35:13,750 --> 00:35:11,119
um

710
00:35:15,990 --> 00:35:13,760
what would you do to you know get the

711
00:35:17,670 --> 00:35:16,000
most observations on one which is one of

712
00:35:20,550 --> 00:35:17,680
their tasks was to

713
00:35:24,470 --> 00:35:20,560

uh build that advanced aerospace vehicle

714

00:35:26,230 --> 00:35:24,480

based off of the observables

715

00:35:28,550 --> 00:35:26,240

well you go to a place that had a lot of

716

00:35:32,069 --> 00:35:28,560

activity that i don't know maybe is

717

00:35:32,079 --> 00:35:37,349

possibly

718

00:35:37,359 --> 00:35:40,950

maybe

719

00:35:40,960 --> 00:35:44,150

probably

720

00:35:44,160 --> 00:35:47,270

so

721

00:35:47,280 --> 00:35:50,150

that being said

722

00:35:54,310 --> 00:35:51,349

they went

723

00:35:56,630 --> 00:35:54,320

a lot faster than i thought it would

724

00:35:58,710 --> 00:35:56,640

it's good but

725

00:36:01,990 --> 00:35:58,720

we do have

726

00:36:06,069 --> 00:36:02,000

something that we can segue to

727

00:36:08,710 --> 00:36:06,079

which i think is going to be pretty cool

728

00:36:14,870 --> 00:36:11,510

i think you'll like it

729

00:36:23,910 --> 00:36:14,880

you guys are very familiar

730

00:36:23,920 --> 00:36:31,660

and it is gonna be called

731

00:36:44,069 --> 00:36:39,290

[Music]

732

00:36:47,510 --> 00:36:45,349

that's right

733

00:36:49,030 --> 00:36:47,520

our episode of what the heck is that

734

00:36:50,550 --> 00:36:49,040

that's what we're gonna do

735

00:36:52,870 --> 00:36:50,560

this is gonna be a little bit

736

00:36:57,109 --> 00:36:52,880

interesting it's a longer one and i have

737

00:36:59,109 --> 00:36:57,119

no idea what it is that we're looking at

738

00:37:01,670 --> 00:36:59,119

but

739

00:37:03,750 --> 00:37:01,680

uh we're gonna look at it

740

00:37:06,150 --> 00:37:03,760

so

741

00:37:07,589 --> 00:37:06,160

i'm confused i don't know i'm sure maybe

742

00:37:10,550 --> 00:37:07,599

someone's debunked it

743

00:37:12,310 --> 00:37:10,560

to be honest i found it on reddit

744

00:37:15,510 --> 00:37:12,320

whatever

745

00:37:16,950 --> 00:37:15,520

but it's going to be pretty good

746

00:37:18,630 --> 00:37:16,960

so

747

00:37:20,630 --> 00:37:18,640

let me make sure that i have the audio

748

00:37:22,950 --> 00:37:20,640

working for you because i know how you

749

00:37:25,030 --> 00:37:22,960

guys get when you can't get the audio

750

00:37:26,870 --> 00:37:25,040

you get pissed off

751
00:37:27,750 --> 00:37:26,880
and you start hitting that thumbs down

752
00:37:32,390 --> 00:37:27,760
button

753
00:37:32,400 --> 00:37:36,310
that would be great

754
00:37:39,349 --> 00:37:38,390
as long as you're here subscribe as well

755
00:37:47,270 --> 00:37:39,359
and

756
00:37:50,950 --> 00:37:49,589
our differences worldwide

757
00:37:53,670 --> 00:37:50,960
would vanish

758
00:37:56,550 --> 00:37:53,680
if we were facing an alien threat from

759
00:37:58,790 --> 00:37:56,560
outside this world

760
00:38:05,109 --> 00:37:58,800
and yet i ask you

761
00:38:09,109 --> 00:38:07,109
they're all over the damn place they're

762
00:38:10,710 --> 00:38:09,119
in our midst and they are

763
00:38:12,790 --> 00:38:10,720

family

764

00:38:15,270 --> 00:38:12,800

we're related to them because they were

765

00:38:17,510 --> 00:38:15,280

the ones that had a hand in establishing

766

00:38:20,390 --> 00:38:17,520

us as a hybrid race

767

00:38:22,790 --> 00:38:20,400

a hundred thousand years ago

768

00:38:24,710 --> 00:38:22,800

and that hybridization is still underway

769

00:38:27,270 --> 00:38:24,720

it's still happening

770

00:38:29,190 --> 00:38:27,280

even as we sit here and speak

771

00:38:30,870 --> 00:38:29,200

it hasn't stopped

772

00:38:33,430 --> 00:38:30,880

it's underway

773

00:38:37,190 --> 00:38:33,440

they have different agendas some of them

774

00:38:40,150 --> 00:38:37,200

are nice folks and some of them are not

775

00:38:42,150 --> 00:38:40,160

as i said they have different agendas

776

00:38:44,230 --> 00:38:42,160

but they're all around

777

00:38:46,710 --> 00:38:44,240

the one in the upper left hand corner

778

00:38:48,630 --> 00:38:46,720

there is another

779

00:38:51,829 --> 00:38:48,640

self-luminous

780

00:38:55,829 --> 00:38:51,839

object that moves all over the place

781

00:38:59,510 --> 00:38:55,839

that object is over 2 000 miles long it

782

00:39:02,150 --> 00:38:59,520

is an artificially constructed object

783

00:39:04,150 --> 00:39:02,160

over two thousand miles long

784

00:39:05,589 --> 00:39:04,160

it's about five hundred miles in

785

00:39:07,510 --> 00:39:05,599

diameter

786

00:39:08,950 --> 00:39:07,520

can you imagine a technology and a

787

00:39:11,030 --> 00:39:08,960

society

788

00:39:13,349 --> 00:39:11,040

that can build an object two thousand

789

00:39:15,750 --> 00:39:13,359

miles long

790

00:39:18,150 --> 00:39:15,760

for 500 miles in diameter

791

00:39:19,109 --> 00:39:18,160

oh this this is an object that flew up

792

00:39:20,790 --> 00:39:19,119

and

793

00:39:23,910 --> 00:39:20,800

knocked the soviet

794

00:39:26,230 --> 00:39:23,920

satellite out of orbit some years ago

795

00:39:29,190 --> 00:39:26,240

the soviets set up

796

00:39:31,510 --> 00:39:29,200

damn first-rate satellite

797

00:39:34,390 --> 00:39:31,520

no one believed me even from those few

798

00:39:36,870 --> 00:39:34,400

people that i was able to share this

799

00:39:38,790 --> 00:39:36,880

experience with that this is true but

800

00:39:41,030 --> 00:39:38,800

luckily with the development of the

801
00:39:42,310 --> 00:39:41,040
ufology and many great people out there

802
00:39:44,230 --> 00:39:42,320
that are doing the research and

803
00:39:46,390 --> 00:39:44,240
providing the video evidence

804
00:39:48,550 --> 00:39:46,400
so as you can see this is on infrared

805
00:39:50,710 --> 00:39:48,560
that is why his black and white is from

806
00:39:53,670 --> 00:39:50,720
sts st3

807
00:39:55,750 --> 00:39:53,680
63 sorry and they are trying to locate

808
00:39:58,150 --> 00:39:55,760
mere space station they cannot locate

809
00:39:59,990 --> 00:39:58,160
the space station because more than 100

810
00:40:02,230 --> 00:40:00,000
objects are appearing and disappearing

811
00:40:04,309 --> 00:40:02,240
from the radar those are the same type

812
00:40:06,790 --> 00:40:04,319
of craft that i observed on the asteroid

813
00:40:08,950 --> 00:40:06,800

belt between mars and jupiter and those

814

00:40:12,230 --> 00:40:08,960

are those both of light that i was

815

00:40:15,349 --> 00:40:12,240

observing in those times as you can see

816

00:40:17,270 --> 00:40:15,359

clearly creating a intelligent formation

817

00:40:18,550 --> 00:40:17,280

and they wanted to take pictures of one

818

00:40:20,630 --> 00:40:18,560

of the moons they wanted to take

819

00:40:22,790 --> 00:40:20,640

pictures of phobos

820

00:40:24,790 --> 00:40:22,800

one of the two moons of mars

821

00:40:27,670 --> 00:40:24,800

and while they were taking pictures this

822

00:40:29,349 --> 00:40:27,680

object comes up from the surface of mars

823

00:40:31,829 --> 00:40:29,359

bumps the soviet

824

00:40:34,950 --> 00:40:31,839

phobos satellite knocks it out of orbit

825

00:40:36,710 --> 00:40:34,960

and it crashes next picture please

826
00:40:38,390 --> 00:40:36,720
what you see there is a picture of

827
00:40:40,630 --> 00:40:38,400
phobos

828
00:40:43,589 --> 00:40:40,640
the the artifact the moon and i mean

829
00:40:45,430 --> 00:40:43,599
artificial moon of mars and below it you

830
00:40:49,030 --> 00:40:45,440
see an object that the soviets said

831
00:40:50,870 --> 00:40:49,040
measured roughly 15 kilometers in length

832
00:40:53,990 --> 00:40:50,880
an artificial object

833
00:40:57,349 --> 00:40:54,000
near phobos the moon

834
00:40:59,510 --> 00:40:57,359
15 kilometers in length

835
00:41:00,950 --> 00:40:59,520
next next picture please

836
00:41:03,589 --> 00:41:00,960
that's the moon

837
00:41:05,270 --> 00:41:03,599
12 miles in diameter the soviets plan to

838
00:41:07,430 --> 00:41:05,280

land on it

839

00:41:08,950 --> 00:41:07,440

well someone else said no you're not

840

00:41:12,230 --> 00:41:08,960

going to do that

841

00:41:14,309 --> 00:41:12,240

but that is a picture of phobos

842

00:41:16,390 --> 00:41:14,319

which they've all concluded is an

843

00:41:18,870 --> 00:41:16,400

artificial satellite

844

00:41:21,510 --> 00:41:18,880

this photograph was taken by your own

845

00:41:23,270 --> 00:41:21,520

nasa apollo 13 guys

846

00:41:24,870 --> 00:41:23,280

on their

847

00:41:26,870 --> 00:41:24,880

their trip to the moon that didn't work

848

00:41:28,950 --> 00:41:26,880

out too well

849

00:41:32,550 --> 00:41:28,960

and many of you may have heard rumors

850

00:41:36,630 --> 00:41:32,560

about the story but apollo 13

851

00:41:38,630 --> 00:41:36,640

had a small nuclear device aboard

852

00:41:41,030 --> 00:41:38,640

and they had been told by the guys that

853

00:41:43,589 --> 00:41:41,040

ran nasa that they were going to land on

854

00:41:45,270 --> 00:41:43,599

the surface gonna place this small

855

00:41:47,030 --> 00:41:45,280

nuclear device

856

00:41:48,870 --> 00:41:47,040

and then when they all left and came

857

00:41:51,510 --> 00:41:48,880

back aboard and came back

858

00:41:53,750 --> 00:41:51,520

they were going to detonate it and study

859

00:41:54,790 --> 00:41:53,760

the reverberations of this nuclear

860

00:41:57,670 --> 00:41:54,800

device

861

00:41:59,510 --> 00:41:57,680

study the seismology of the moon because

862

00:42:02,710 --> 00:41:59,520

they've been convinced for some years

863

00:42:04,790 --> 00:42:02,720

that the moon is basically hollow

864

00:42:07,750 --> 00:42:04,800

it appears to be somewhat of an

865

00:42:09,990 --> 00:42:07,760

artificial satellite

866

00:42:12,870 --> 00:42:10,000

well they plan to develop to detonate

867

00:42:14,790 --> 00:42:12,880

this nuclear device and then

868

00:42:17,270 --> 00:42:14,800

the others said no no you're not going

869

00:42:19,109 --> 00:42:17,280

to do that

870

00:42:21,670 --> 00:42:19,119

get back to that picture again please

871

00:42:23,829 --> 00:42:21,680

all right the object you see there in

872

00:42:27,750 --> 00:42:23,839

the middle

873

00:42:30,390 --> 00:42:27,760

over 2 000 miles long it's an artificial

874

00:42:33,270 --> 00:42:30,400

i assume metallic object

875

00:42:36,309 --> 00:42:33,280

probably crammed with guys

876

00:42:40,309 --> 00:42:36,319

and that object followed our apollo 13

877

00:42:41,910 --> 00:42:40,319

all the way to the moon around and back

878

00:42:44,710 --> 00:42:41,920

now whether they were trying to make

879

00:42:46,950 --> 00:42:44,720

sure the apollo 13 guys got home safely

880

00:42:49,589 --> 00:42:46,960

a lot whether they were the ones

881

00:42:52,309 --> 00:42:49,599

responsible for apollo 13's little

882

00:42:56,710 --> 00:42:52,319

accident which kept them from landing on

883

00:42:59,270 --> 00:42:56,720

the moon and placing that nuclear device

884

00:43:01,270 --> 00:42:59,280

who knows we may find out someday but

885

00:43:03,349 --> 00:43:01,280

here we have an artificial object in

886

00:43:05,589 --> 00:43:03,359

orbit now i've spent some time aboard

887

00:43:08,550 --> 00:43:05,599

aircraft carriers with my kid

888

00:43:09,430 --> 00:43:08,560

we have carriers with 5 000 men in the

889

00:43:11,430 --> 00:43:09,440

crew

890

00:43:15,109 --> 00:43:11,440

1000 feet long

891

00:43:18,790 --> 00:43:17,270

stack bars dining rooms i don't know

892

00:43:20,069 --> 00:43:18,800

what the heck that guy's talking about

893

00:43:22,069 --> 00:43:20,079

anymore

894

00:43:26,150 --> 00:43:22,079

can you imagine

895

00:43:28,950 --> 00:43:26,160

he just loves like i don't know i'm not

896

00:43:31,500 --> 00:43:28,960

going to sit here and vouch for

897

00:43:34,309 --> 00:43:31,510

anything that the guy says

898

00:43:36,630 --> 00:43:34,319

[Laughter]

899

00:43:41,030 --> 00:43:36,640

i'm just

900

00:43:42,630 --> 00:43:41,040

the video

901
00:43:43,750 --> 00:43:42,640
uh because what's in there is pretty

902
00:43:45,349 --> 00:43:43,760
cool

903
00:43:48,390 --> 00:43:45,359
so you know

904
00:43:50,150 --> 00:43:48,400
that's really it i'm trying to uh

905
00:43:51,670 --> 00:43:50,160
share it with you

906
00:43:54,230 --> 00:43:51,680
so you can look at it for yourself if

907
00:43:56,390 --> 00:43:54,240
you want

908
00:43:57,829 --> 00:43:56,400
yeah i mean i can't sit here and say oh

909
00:44:01,829 --> 00:43:57,839
yeah

910
00:44:09,030 --> 00:44:03,270
totally true

911
00:44:11,109 --> 00:44:09,040
if you don't believe him get out of here

912
00:44:12,790 --> 00:44:11,119
i would never do that

913
00:44:16,150 --> 00:44:12,800

uh but it's pretty pretty interesting

914

00:44:19,750 --> 00:44:16,160

video i wonder what the um reality of

915

00:44:23,990 --> 00:44:19,760

that is most definitely

916

00:44:25,990 --> 00:44:24,000

something else that i wanted to

917

00:44:29,750 --> 00:44:26,000

actually show is

918

00:44:32,150 --> 00:44:30,790

increasing

919

00:44:33,910 --> 00:44:32,160

one of the

920

00:44:37,270 --> 00:44:33,920

research papers that i think was

921

00:44:41,589 --> 00:44:37,280

actually written by mr eric davis was

922

00:44:44,710 --> 00:44:41,599

about a laser-powered spacecraft

923

00:44:48,309 --> 00:44:44,720

which is pretty interesting um

924

00:44:49,910 --> 00:44:48,319

so i'm going to show that to you

925

00:45:00,730 --> 00:44:49,920

because i found a little video on it

926

00:45:00,740 --> 00:45:09,829

[Music]

927

00:45:14,550 --> 00:45:11,910

the laser beam is made up of infrared

928

00:45:19,910 --> 00:45:17,030

as the beam pulses it strips air

929

00:45:22,470 --> 00:45:19,920

molecules of their electrons creating an

930

00:45:26,340 --> 00:45:22,480

explosive plasma that propels the craft

931

00:45:26,350 --> 00:45:37,750

[Applause]

932

00:45:42,230 --> 00:45:39,349

very interesting i think that's pretty

933

00:45:44,390 --> 00:45:42,240

cool too um but

934

00:45:46,550 --> 00:45:44,400

uh so laser-powered propulsion system

935

00:45:49,910 --> 00:45:46,560

they've been looking into for a very

936

00:45:52,870 --> 00:45:49,920

long time that is not new

937

00:45:59,270 --> 00:45:55,349

but with that being said

938

00:46:01,270 --> 00:45:59,280

um i don't have a whole lot else to

939

00:46:03,910 --> 00:46:01,280

go through unless anybody had any

940

00:46:05,750 --> 00:46:03,920

questions that they wanted to ask i'm

941

00:46:06,790 --> 00:46:05,760

definitely

942

00:46:13,270 --> 00:46:06,800

um

943

00:46:15,990 --> 00:46:13,280

answering any any questions that you may

944

00:46:21,349 --> 00:46:17,510

otherwise

945

00:46:25,750 --> 00:46:24,309

skedaddle that'll i would say that um

946

00:46:27,750 --> 00:46:25,760

you know there's people right here right

947

00:46:30,550 --> 00:46:27,760

now that are looking at this all type

948

00:46:32,790 --> 00:46:30,560

stuff and really trying to discredit it

949

00:46:35,270 --> 00:46:32,800

and there's taking a little

950

00:46:37,829 --> 00:46:35,280

tiny things from it and doing that now

951
00:46:40,829 --> 00:46:37,839
if you just remember all the things that

952
00:46:47,270 --> 00:46:43,349
right um the arguments given don't

953
00:46:54,550 --> 00:46:50,630
uh so us up ended in 2010 and went on as

954
00:46:58,069 --> 00:46:54,560
a tip that's what it seems like to me um

955
00:46:59,670 --> 00:46:58,079
atip was also used as a nickname for

956
00:47:01,109 --> 00:46:59,680
ossep

957
00:47:03,829 --> 00:47:01,119
and that was done by

958
00:47:09,670 --> 00:47:03,839
mr harry reid

959
00:47:13,670 --> 00:47:11,670
we know alessando kept

960
00:47:15,430 --> 00:47:13,680
investigating this stuff we also know

961
00:47:17,670 --> 00:47:15,440
that they wanted to transfer asap

962
00:47:19,829 --> 00:47:17,680
outside of dia if it continued on in a

963
00:47:22,069 --> 00:47:19,839

research and development aspect so if

964

00:47:24,790 --> 00:47:22,079

that happened maybe it continued as a

965

00:47:27,109 --> 00:47:24,800

tip with alexander in a different area

966

00:47:30,309 --> 00:47:27,119

of the government

967

00:47:35,349 --> 00:47:31,990

um

968

00:47:36,829 --> 00:47:35,359

washington commanders

969

00:47:38,950 --> 00:47:36,839

next

970

00:47:41,270 --> 00:47:38,960

question are your thoughts on lady

971

00:47:44,710 --> 00:47:41,280

fatima um

972

00:47:47,910 --> 00:47:44,720

lady fatima in brazil i'm not

973

00:47:49,910 --> 00:47:47,920

i'm not sure i know uh lady fatima was

974

00:47:52,470 --> 00:47:49,920

in portugal

975

00:47:53,670 --> 00:47:52,480

and what was that 1917 which is pretty

976
00:47:55,750 --> 00:47:53,680
interesting

977
00:47:56,950 --> 00:47:55,760
um story to me

978
00:47:58,790 --> 00:47:56,960
um

979
00:48:00,549 --> 00:47:58,800
you know to me it seems like when that

980
00:48:02,150 --> 00:48:00,559
happened that the catholic church really

981
00:48:03,510 --> 00:48:02,160
got a hold of it real quick and tried to

982
00:48:05,190 --> 00:48:03,520
spin the narrative

983
00:48:06,630 --> 00:48:05,200
uh into something that would work for

984
00:48:10,390 --> 00:48:06,640
them

985
00:48:12,390 --> 00:48:10,400
um my ancestors are from portugal

986
00:48:13,910 --> 00:48:12,400
they were there at that time i don't

987
00:48:15,510 --> 00:48:13,920
have any stories of that or anything

988
00:48:18,230 --> 00:48:15,520

unfortunately but

989

00:48:23,510 --> 00:48:18,240

you know it's kind of interesting

990

00:48:29,829 --> 00:48:25,270

um

991

00:48:32,630 --> 00:48:29,839

trip thing many years ago yeah

992

00:48:34,790 --> 00:48:32,640

any news on corbell um not that i have

993

00:48:36,549 --> 00:48:34,800

just uh the little bit that i went

994

00:48:38,549 --> 00:48:36,559

through i think it was maybe the last

995

00:48:39,750 --> 00:48:38,559

solo episode i did where they were

996

00:48:40,790 --> 00:48:39,760

talking about

997

00:48:42,309 --> 00:48:40,800

um

998

00:48:46,150 --> 00:48:42,319

with george knapp on coast to coast

999

00:48:48,470 --> 00:48:46,160

about more videos

1000

00:48:50,230 --> 00:48:48,480

which would be interesting

1001
00:48:52,069 --> 00:48:50,240
which should be

1002
00:48:53,190 --> 00:48:52,079
interesting

1003
00:48:55,510 --> 00:48:53,200
so

1004
00:48:58,470 --> 00:48:55,520
i have not i would love to that's on the

1005
00:49:02,309 --> 00:48:58,480
bucket list maybe i'll get there one day

1006
00:49:04,549 --> 00:49:02,319
i would really love to

1007
00:49:09,910 --> 00:49:04,559
yeah the the fatima event thousands of

1008
00:49:15,190 --> 00:49:12,069
that was that was a pretty big event

1009
00:49:17,829 --> 00:49:16,549
and i wonder

1010
00:49:19,750 --> 00:49:17,839
you know a lot of people say this i

1011
00:49:22,230 --> 00:49:19,760
wonder why there aren't any like mass

1012
00:49:23,510 --> 00:49:22,240
sightings now you know even phoenix

1013
00:49:26,309 --> 00:49:23,520

lights may have been the last one i'm

1014

00:49:28,150 --> 00:49:26,319

not sure i can't say for certain

1015

00:49:31,030 --> 00:49:28,160

but it's interesting as technology

1016

00:49:34,790 --> 00:49:31,040

evolves those are less and less and we

1017

00:49:36,870 --> 00:49:34,800

know that ufos for instance um

1018

00:49:38,950 --> 00:49:36,880

kind of act as if they don't like to be

1019

00:49:41,030 --> 00:49:38,960

seen right so

1020

00:49:42,829 --> 00:49:41,040

with the advent of technology

1021

00:49:47,109 --> 00:49:42,839

phones

1022

00:49:48,549 --> 00:49:47,119

accessible maybe it's possible that uh

1023

00:49:51,670 --> 00:49:48,559

different means

1024

00:49:53,990 --> 00:49:51,680

of traveling are taken

1025

00:49:55,750 --> 00:49:54,000

it would make sense

1026

00:49:59,030 --> 00:49:55,760

can't say for sure

1027

00:49:59,040 --> 00:50:03,190

it's possibility

1028

00:50:08,230 --> 00:50:06,790

oh yeah um thanks for the tip andrei's i

1029

00:50:10,549 --> 00:50:08,240

would love to go there eventually for

1030

00:50:14,950 --> 00:50:12,549

fortunately i do

1031

00:50:17,349 --> 00:50:14,960

all my time is you know put into things

1032

00:50:22,230 --> 00:50:17,359

that i don't profit from so that doesn't

1033

00:50:22,240 --> 00:50:25,349

one day

1034

00:50:28,390 --> 00:50:26,710

oh

1035

00:50:29,829 --> 00:50:28,400

do you think we as humans will use this

1036

00:50:33,109 --> 00:50:29,839

tech to build up to other worlds you

1037

00:50:36,790 --> 00:50:33,119

know that's a good question um it seems

1038

00:50:37,670 --> 00:50:36,800

um to travel to others possibly you know

1039

00:50:39,109 --> 00:50:37,680

um

1040

00:50:41,190 --> 00:50:39,119

especially with the warp drive and

1041

00:50:42,630 --> 00:50:41,200

everything and

1042

00:50:44,230 --> 00:50:42,640

you know there's there's definitely

1043

00:50:46,150 --> 00:50:44,240

initiatives

1044

00:50:48,069 --> 00:50:46,160

um like project icarus i think it's

1045

00:50:51,349 --> 00:50:48,079

called with one of the authors of one of

1046

00:50:54,710 --> 00:50:51,359

the awesome nerds actually uh runs that

1047

00:50:56,549 --> 00:50:54,720

danny uh silva did a great piece on that

1048

00:50:57,430 --> 00:50:56,559

so you can go to his website civil

1049

00:50:59,270 --> 00:50:57,440

record

1050

00:51:00,470 --> 00:50:59,280

if you want to check that out but um

1051

00:51:02,150 --> 00:51:00,480

[Music]

1052

00:51:03,990 --> 00:51:02,160

they talk about interstellar space

1053

00:51:06,630 --> 00:51:04,000

travel you know

1054

00:51:10,630 --> 00:51:06,640

and basically it's

1055

00:51:12,309 --> 00:51:10,640

you know people are trying to figure out

1056

00:51:14,790 --> 00:51:12,319

a better means of propulsion that can

1057

00:51:16,470 --> 00:51:14,800

make that possible it's the propulsion

1058

00:51:19,190 --> 00:51:16,480

that stops us from being able to do that

1059

00:51:21,109 --> 00:51:19,200

we can't do that uh with typical rocket

1060

00:51:23,670 --> 00:51:21,119

engines right

1061

00:51:24,710 --> 00:51:23,680

we can't do interstellar space travel

1062

00:51:26,710 --> 00:51:24,720

that way

1063

00:51:28,630 --> 00:51:26,720

so they're trying to figure out how to

1064

00:51:33,829 --> 00:51:28,640

do that

1065

00:51:36,870 --> 00:51:33,839

is

1066

00:51:39,109 --> 00:51:36,880

things like warp drive which seems to be

1067

00:51:42,630 --> 00:51:39,119

from all the research i've done the most

1068

00:51:47,349 --> 00:51:42,640

feasible plausible and possible

1069

00:51:51,270 --> 00:51:49,270

from everything i've been looking at and

1070

00:51:53,910 --> 00:51:51,280

there's other things like

1071

00:51:55,589 --> 00:51:53,920

nuclear propulsion all that

1072

00:51:57,349 --> 00:51:55,599

other things like that

1073

00:51:59,670 --> 00:51:57,359

um laser

1074

00:52:01,510 --> 00:51:59,680

powered propulsion

1075

00:52:02,549 --> 00:52:01,520

but in the end it seems like uh warp

1076
00:52:03,349 --> 00:52:02,559
drive is

1077
00:52:07,430 --> 00:52:03,359
the

1078
00:52:07,440 --> 00:52:09,829
so

1079
00:52:12,950 --> 00:52:11,670
would i go to another galaxy and build a

1080
00:52:14,309 --> 00:52:12,960
farmhouse

1081
00:52:16,069 --> 00:52:14,319
sure

1082
00:52:18,470 --> 00:52:16,079
why not

1083
00:52:20,710 --> 00:52:18,480
sounds interesting

1084
00:52:22,950 --> 00:52:20,720
that's for sure

1085
00:52:24,549 --> 00:52:22,960
i like interesting i do

1086
00:52:26,390 --> 00:52:24,559
interesting

1087
00:52:29,589 --> 00:52:26,400
most definitely

1088
00:52:35,670 --> 00:52:33,589

that's a good comment lionel i hope the

1089

00:52:38,710 --> 00:52:35,680

just

1090

00:52:41,190 --> 00:52:38,720

the web telescope basically will prove

1091

00:52:42,870 --> 00:52:41,200

it there is life on approximate b

1092

00:52:44,390 --> 00:52:42,880

um

1093

00:52:47,190 --> 00:52:44,400

i guess i don't have any hopes that it

1094

00:52:48,549 --> 00:52:47,200

proves it in a particular

1095

00:52:51,510 --> 00:52:48,559

place

1096

00:52:53,109 --> 00:52:51,520

but i do hope that

1097

00:52:54,710 --> 00:52:53,119

there's some evidence that can be shared

1098

00:52:56,870 --> 00:52:54,720

with the public does come from that i

1099

00:52:57,829 --> 00:52:56,880

mean nasa is interesting right now i can

1100

00:53:00,710 --> 00:52:57,839

say

1101
00:53:03,010 --> 00:53:00,720
because it seems like they're i'm

1102
00:53:04,790 --> 00:53:03,020
sharing stuff a little more um

1103
00:53:06,069 --> 00:53:04,800
[Music]

1104
00:53:07,750 --> 00:53:06,079
you know every week at least or

1105
00:53:09,990 --> 00:53:07,760
something just the other day it was a

1106
00:53:11,109 --> 00:53:10,000
discovery of 5000 more exoplanets within

1107
00:53:14,470 --> 00:53:11,119
the galaxy

1108
00:53:16,710 --> 00:53:14,480
um then it was uh the furthest star away

1109
00:53:18,390 --> 00:53:16,720
which is like um

1110
00:53:20,230 --> 00:53:18,400
something like a billion light years

1111
00:53:21,990 --> 00:53:20,240
from the beginning of time or the big

1112
00:53:25,829 --> 00:53:22,000
bang or something

1113
00:53:29,349 --> 00:53:25,839

um and then they found on pluto recently

1114

00:53:31,510 --> 00:53:29,359

these possibly active ice volcanoes

1115

00:53:33,750 --> 00:53:31,520

all sorts of things that they're um just

1116

00:53:36,150 --> 00:53:33,760

discovering now right

1117

00:53:38,069 --> 00:53:36,160

so i can totally see that happening i'm

1118

00:53:41,349 --> 00:53:38,079

finding it some sort of other

1119

00:53:44,870 --> 00:53:42,470

and

1120

00:53:47,109 --> 00:53:44,880

you know to be honest

1121

00:53:49,589 --> 00:53:47,119

there's a strong case

1122

00:53:51,510 --> 00:53:49,599

to say that they already know

1123

00:53:53,190 --> 00:53:51,520

that that exists you know

1124

00:53:56,150 --> 00:53:53,200

um but they wouldn't need some sort of

1125

00:53:57,829 --> 00:53:56,160

medium and plan to share that right even

1126
00:53:58,870 --> 00:53:57,839
in their paperwork when they're talking

1127
00:54:00,309 --> 00:53:58,880
about

1128
00:54:02,549 --> 00:54:00,319
nasa's paperwork when they're talking

1129
00:54:04,549 --> 00:54:02,559
about going to mars and looking for

1130
00:54:06,230 --> 00:54:04,559
other signs of biological life there

1131
00:54:07,670 --> 00:54:06,240
whether it be intelligent or not isn't a

1132
00:54:09,030 --> 00:54:07,680
part of it but

1133
00:54:11,349 --> 00:54:09,040
how they would treat that how they would

1134
00:54:13,109 --> 00:54:11,359
tell other people you know

1135
00:54:14,870 --> 00:54:13,119
and in that paperwork

1136
00:54:16,549 --> 00:54:14,880
they don't just talk about

1137
00:54:18,470 --> 00:54:16,559
you know we'll just tell people we you

1138
00:54:20,710 --> 00:54:18,480

know what's the big deal

1139

00:54:22,390 --> 00:54:20,720

they talk about

1140

00:54:23,430 --> 00:54:22,400

an oversight committee

1141

00:54:24,950 --> 00:54:23,440

they talk about the different

1142

00:54:27,510 --> 00:54:24,960

implications how they would share that

1143

00:54:29,270 --> 00:54:27,520

with different scientists right so

1144

00:54:31,430 --> 00:54:29,280

um

1145

00:54:33,910 --> 00:54:31,440

you know when

1146

00:54:35,190 --> 00:54:33,920

they decide to tell other people

1147

00:54:36,549 --> 00:54:35,200

i think

1148

00:54:38,230 --> 00:54:36,559

we should know

1149

00:54:39,030 --> 00:54:38,240

that it would be attached to some sort

1150

00:54:41,829 --> 00:54:39,040

of

1151
00:54:46,150 --> 00:54:41,839
uh preconceived plan to tell people and

1152
00:54:46,160 --> 00:54:48,870
so

1153
00:54:52,230 --> 00:54:50,309
you know and

1154
00:54:54,309 --> 00:54:52,240
there's talk about what the stuff is

1155
00:54:56,230 --> 00:54:54,319
interdimensional

1156
00:54:58,230 --> 00:54:56,240
you know um

1157
00:55:00,470 --> 00:54:58,240
extraterrestrial where's the evidence

1158
00:55:02,470 --> 00:55:00,480
was it for as far as we're concerned i

1159
00:55:04,950 --> 00:55:02,480
don't know if we have evidence for it

1160
00:55:06,470 --> 00:55:04,960
being either and think about it too if

1161
00:55:10,069 --> 00:55:06,480
it's

1162
00:55:12,150 --> 00:55:10,079
extraterrestrial but we see it

1163
00:55:13,270 --> 00:55:12,160

you know being here

1164

00:55:15,030 --> 00:55:13,280

right

1165

00:55:17,270 --> 00:55:15,040

how the hell do we know

1166

00:55:18,230 --> 00:55:17,280

how extraterrestrials travel or how they

1167

00:55:19,270 --> 00:55:18,240

do it

1168

00:55:20,470 --> 00:55:19,280

you know

1169

00:55:22,710 --> 00:55:20,480

just because it seems like it's

1170

00:55:24,870 --> 00:55:22,720

interdimensional does that mean it is or

1171

00:55:26,150 --> 00:55:24,880

is that just how space-faring

1172

00:55:28,230 --> 00:55:26,160

intelligence

1173

00:55:30,150 --> 00:55:28,240

travel

1174

00:55:32,069 --> 00:55:30,160

you know from one atmosphere of a planet

1175

00:55:34,710 --> 00:55:32,079

into another

1176

00:55:37,349 --> 00:55:34,720

i don't know

1177

00:55:39,270 --> 00:55:37,359

and to know that kind of stuff i think

1178

00:55:41,589 --> 00:55:39,280

you know

1179

00:55:45,829 --> 00:55:41,599

to get that deep might be beyond us i

1180

00:55:50,870 --> 00:55:46,829

i don't

1181

00:55:52,470 --> 00:55:50,880

know but i do know that any sort of more

1182

00:55:53,589 --> 00:55:52,480

information that we get or some sort of

1183

00:55:54,870 --> 00:55:53,599

disclosure

1184

00:55:57,510 --> 00:55:54,880

is going to be well thought about

1185

00:55:58,549 --> 00:55:57,520

beforehand and things like

1186

00:56:00,309 --> 00:55:58,559

um

1187

00:56:03,190 --> 00:56:00,319

the government will think of you know

1188

00:56:04,789 --> 00:56:03,200

things like if they have any control

1189

00:56:07,349 --> 00:56:04,799

or um

1190

00:56:09,910 --> 00:56:07,359

you know enough knowledge or a good

1191

00:56:11,510 --> 00:56:09,920

enough handle on what the stuff is to

1192

00:56:14,549 --> 00:56:11,520

feel comfortable telling other people

1193

00:56:16,230 --> 00:56:14,559

about it like the public

1194

00:56:17,829 --> 00:56:16,240

because if they just come out and say

1195

00:56:19,349 --> 00:56:17,839

here's what it is

1196

00:56:21,270 --> 00:56:19,359

we don't know

1197

00:56:21,990 --> 00:56:21,280

that's the kind of thing that does lead

1198

00:56:23,510 --> 00:56:22,000

to

1199

00:56:25,510 --> 00:56:23,520

called religions

1200

00:56:30,710 --> 00:56:25,520

you know some sort of mass hysteria

1201

00:56:35,829 --> 00:56:32,069

you know

1202

00:56:43,190 --> 00:56:37,910

i don't really know

1203

00:56:48,789 --> 00:56:46,789

but if it's that hard to figure out you

1204

00:56:49,829 --> 00:56:48,799

know there's also an argument for

1205

00:56:50,950 --> 00:56:49,839

what are you going to wait forever

1206

00:56:53,589 --> 00:56:50,960

you're never going to figure this thing

1207

00:56:57,190 --> 00:56:53,599

out just tell people

1208

00:56:57,200 --> 00:57:01,349

but um

1209

00:57:01,359 --> 00:57:03,990

yeah

1210

00:57:09,990 --> 00:57:06,160

jimmy church i love that

1211

00:57:12,789 --> 00:57:10,000

[Laughter]

1212

00:57:18,630 --> 00:57:12,799

not to be confused with jimmy church

1213

00:57:21,910 --> 00:57:19,430

so

1214

00:57:21,920 --> 00:57:24,870

there is

1215

00:57:27,990 --> 00:57:26,630

um

1216

00:57:30,150 --> 00:57:28,000

there's there's a lot to be thought

1217

00:57:32,630 --> 00:57:30,160

about as far as that uh more than

1218

00:57:35,270 --> 00:57:32,640

anything i think it's important to

1219

00:57:36,470 --> 00:57:35,280

i think personally it's important to

1220

00:57:38,470 --> 00:57:36,480

think about

1221

00:57:41,349 --> 00:57:38,480

um the term

1222

00:57:42,870 --> 00:57:41,359

uh disclosure and what your actual

1223

00:57:43,910 --> 00:57:42,880

expectations are

1224

00:57:45,109 --> 00:57:43,920

right

1225

00:57:46,870 --> 00:57:45,119

and i don't

1226

00:57:51,430 --> 00:57:46,880

i don't mean that as a lower your

1227

00:57:57,430 --> 00:57:55,109

what does that look like

1228

00:57:59,109 --> 00:57:57,440

honestly

1229

00:58:00,390 --> 00:57:59,119

and another thing to think about is do

1230

00:58:02,230 --> 00:58:00,400

you think

1231

00:58:05,510 --> 00:58:02,240

that our government actually has all the

1232

00:58:09,589 --> 00:58:07,750

now you can take the route of they're

1233

00:58:10,950 --> 00:58:09,599

just ets they're raised they're from a

1234

00:58:12,950 --> 00:58:10,960

different planet that's the end there's

1235

00:58:18,069 --> 00:58:12,960

a spaceship they crash at roswell bye

1236

00:58:21,670 --> 00:58:19,750

i guess yeah it would be a typical

1237

00:58:23,990 --> 00:58:21,680

here's the body you know disclosure at

1238

00:58:25,910 --> 00:58:24,000

the white house capital d but i just do

1239

00:58:28,870 --> 00:58:25,920

not think

1240

00:58:31,829 --> 00:58:28,880

that it is um like that

1241

00:58:33,829 --> 00:58:31,839

do i know for sure of course not

1242

00:58:39,270 --> 00:58:33,839

but i think whatever it is would be a

1243

00:58:43,349 --> 00:58:41,430

you know

1244

00:58:46,150 --> 00:58:43,359

to the point of where i don't even think

1245

00:58:49,990 --> 00:58:46,160

that our government officials

1246

00:58:53,190 --> 00:58:50,000

have a handle on what it is

1247

00:58:55,589 --> 00:58:53,200

that's just what i think though

1248

00:58:55,980 --> 00:58:55,599

all right escape from series b i have no

1249

00:58:57,910 --> 00:58:55,990

idea

1250

00:59:00,710 --> 00:58:57,920

[Laughter]

1251

00:59:05,670 --> 00:59:02,150

uh

1252

00:59:07,349 --> 00:59:05,680

okay gotcha

1253

00:59:09,349 --> 00:59:07,359

that being said all right i had a good

1254

00:59:10,950 --> 00:59:09,359

time with y'all um don't forget to like

1255

00:59:13,349 --> 00:59:10,960

the video

1256

00:59:19,190 --> 00:59:13,359

super appreciate that

1257

00:59:22,100 --> 00:59:21,349

that would be awesome

1258

00:59:23,829 --> 00:59:22,110

and

1259

00:59:26,069 --> 00:59:23,839

[Music]

1260

00:59:29,829 --> 00:59:26,079

it is not that damn simple that's what i

1261

00:59:34,230 --> 00:59:31,990

so subscribe if you haven't uh like the

1262

00:59:35,510 --> 00:59:34,240

video share it that would be fantastic

1263

00:59:36,870 --> 00:59:35,520

if you could share it on like your

1264

00:59:38,789 --> 00:59:36,880

socials and stuff

1265

00:59:41,349 --> 00:59:38,799

all that stuff helps man you know i

1266

00:59:44,150 --> 00:59:41,359

don't put ads on this stuff i don't you

1267

00:59:46,789 --> 00:59:44,160

know promote um i have although a

1268

00:59:47,829 --> 00:59:46,799

patreon i don't sit here and promote it

1269

00:59:49,910 --> 00:59:47,839

um

1270

00:59:52,870 --> 00:59:49,920

or any of that kind of stuff so anything

1271

00:59:54,630 --> 00:59:52,880

you could do to support would be sharing

1272

00:59:57,030 --> 00:59:54,640

via social media liking the video

1273

00:59:59,430 --> 00:59:57,040

subscribing all that kind of stuff

1274

01:00:00,710 --> 00:59:59,440

so with that being said i appreciate all

1275

01:00:03,589 --> 01:00:00,720

your time hopefully i gave you a good

1276

01:00:05,190 --> 01:00:03,599

rundown of what i see with our 78 tip

1277

01:00:06,710 --> 01:00:05,200

hopefully

1278

01:00:08,150 --> 01:00:06,720

you know some of that resonates with you

1279

01:00:11,510 --> 01:00:08,160

and you can take it with you but in the

1280

01:00:13,030 --> 01:00:11,520

end you got to make up your own mind so

1281

01:00:24,790 --> 01:00:13,040

that being said

1282

01:00:24,800 --> 01:00:34,950

[Music]

1283

01:00:34,960 --> 01:00:39,220

so
