

Sean

Jay Christopher King

1
00:00:08,390 --> 00:00:12,549
[Music]

2
00:00:44,910 --> 00:00:20,950
so

3
00:00:54,000 --> 00:00:51,720
[Music]

4
00:01:07,630 --> 00:00:54,010
[Applause]

5
00:01:16,070 --> 00:01:13,670
[Music]

6
00:01:18,020 --> 00:01:16,080
those blips are solid they're good and

7
00:01:20,469 --> 00:01:18,030
solid

8
00:01:22,630 --> 00:01:20,479
[Laughter]

9
00:01:24,390 --> 00:01:22,640
that's me just rocking and rolling

10
00:01:25,830 --> 00:01:24,400
hopefully you don't mind it

11
00:01:27,350 --> 00:01:25,840
sometimes you got to do that i was in

12
00:01:31,190 --> 00:01:27,360
that kind of mood

13
00:01:33,910 --> 00:01:31,200

looks like i'm wearing like my dark sith

14

00:01:36,230 --> 00:01:33,920

robe today but really it's just a black

15

00:01:37,429 --> 00:01:36,240

button down with hood on it so

16

00:01:39,510 --> 00:01:37,439

don't worry

17

00:01:42,789 --> 00:01:39,520

everything's normal so today we are

18

00:01:45,510 --> 00:01:42,799

going to have a pretty cool show usually

19

00:01:47,190 --> 00:01:45,520

we bring on jay and we have a guest but

20

00:01:50,469 --> 00:01:47,200

turns out people don't want to talk to

21

00:01:54,710 --> 00:01:52,550

we're just going to talk to each other

22

00:01:57,190 --> 00:01:54,720

and i look forward to that because uh

23

00:01:58,550 --> 00:01:57,200

jay's a fantastic person so

24

00:02:00,389 --> 00:01:58,560

um

25

00:02:01,830 --> 00:02:00,399

we're gonna bring him on as soon as he

26

00:02:04,550 --> 00:02:01,840

looks at me

27

00:02:07,830 --> 00:02:04,560

and yep okay he's ready all right is

28

00:02:10,150 --> 00:02:07,840

everybody ready here he comes

29

00:02:12,150 --> 00:02:10,160

there he is okay oh what's up buddy

30

00:02:14,309 --> 00:02:12,160

how's it going good

31

00:02:16,070 --> 00:02:14,319

it's not that nobody wants to talk to us

32

00:02:18,470 --> 00:02:16,080

there's plenty of people to talk to we

33

00:02:20,470 --> 00:02:18,480

just it's not what i hear i got i got

34

00:02:22,949 --> 00:02:20,480

sick there was

35

00:02:24,550 --> 00:02:22,959

like um you were working on your dark

36

00:02:27,589 --> 00:02:24,560

sith studies

37

00:02:30,150 --> 00:02:27,599

and uh you know and you were rocking and

38

00:02:31,030 --> 00:02:30,160

rolling with uh you're awesome

39

00:02:33,270 --> 00:02:31,040

so

40

00:02:34,949 --> 00:02:33,280

what are you gonna do man that's cool

41

00:02:36,309 --> 00:02:34,959

we'll we'll have more guests on soon

42

00:02:37,350 --> 00:02:36,319

there's a bunch of people in the mix for

43

00:02:40,470 --> 00:02:37,360

that

44

00:02:42,470 --> 00:02:40,480

i love the intro by the way oh yeah it's

45

00:02:45,589 --> 00:02:42,480

kind of kind of more of a driving rock

46

00:02:47,190 --> 00:02:45,599

tune than uh the normal you know see i

47

00:02:49,990 --> 00:02:47,200

was just gonna have this shirt but you

48

00:02:50,949 --> 00:02:50,000

can it starts becoming like see-through

49

00:02:54,470 --> 00:02:50,959

like

50

00:02:55,830 --> 00:02:54,480

i'm going through a traversable wormhole

51
00:02:58,309 --> 00:02:55,840
or something like you're going through a

52
00:03:00,070 --> 00:02:58,319
traversable wormhole yeah man

53
00:03:02,149 --> 00:03:00,080
look you're gonna yeah you got like an

54
00:03:03,910 --> 00:03:02,159
equator thing happening with the where

55
00:03:04,630 --> 00:03:03,920
you got a eclipse thing happening with

56
00:03:15,030 --> 00:03:04,640
the

57
00:03:16,790 --> 00:03:15,040
should we should do we should do a show

58
00:03:17,750 --> 00:03:16,800
sometimes it's just like a best of your

59
00:03:20,470 --> 00:03:17,760
intros

60
00:03:22,710 --> 00:03:20,480
yeah i have that in the can actually i

61
00:03:24,710 --> 00:03:22,720
have it all edited and everything

62
00:03:27,270 --> 00:03:24,720
oh boy

63
00:03:29,830 --> 00:03:27,280

we should get number 100 we should do it

64

00:03:32,070 --> 00:03:29,840

at like like a mystery science three

65

00:03:33,910 --> 00:03:32,080

theater 3000 kind of gig where we where

66

00:03:36,869 --> 00:03:33,920

we'd like talk over the trailers while

67

00:03:41,270 --> 00:03:36,879

they happen and we point out

68

00:03:44,070 --> 00:03:41,280

um i like the um is there any uap news

69

00:03:45,750 --> 00:03:44,080

there is uap news though what is it i i

70

00:03:47,509 --> 00:03:45,760

did want to mention how cool i thought

71

00:03:50,229 --> 00:03:47,519

it was that in the skinwalker song that

72

00:03:52,149 --> 00:03:50,239

you had last week you put xylophone in

73

00:03:54,949 --> 00:03:52,159

it yeah and i thought that was a really

74

00:03:56,229 --> 00:03:54,959

nice touch you know um nobody

75

00:03:58,789 --> 00:03:56,239

you know when you think about having a

76
00:04:01,509 --> 00:03:58,799
creepy skinwalker song like people don't

77
00:04:02,789 --> 00:04:01,519
really think you know about xylophones

78
00:04:04,789 --> 00:04:02,799
as being an element that would

79
00:04:07,110 --> 00:04:04,799
automatically go in there people that

80
00:04:09,910 --> 00:04:07,120
kind of independent thinking mind it's

81
00:04:12,149 --> 00:04:09,920
important right well i'm trying to you

82
00:04:13,589 --> 00:04:12,159
know kind of surprise you like let's say

83
00:04:15,350 --> 00:04:13,599
you're walking around skinwalker ranch

84
00:04:17,509 --> 00:04:15,360
and you see this dinosaur with like a

85
00:04:19,270 --> 00:04:17,519
beaver tail that kind of surprised where

86
00:04:20,550 --> 00:04:19,280
it's just bam

87
00:04:25,270 --> 00:04:20,560
what

88
00:04:26,310 --> 00:04:25,280

xylophone dino beaver

89

00:04:28,390 --> 00:04:26,320

i get it

90

00:04:29,189 --> 00:04:28,400

yeah just trying to be weird so yeah you

91

00:04:30,070 --> 00:04:29,199

know

92

00:04:32,629 --> 00:04:30,080

yeah

93

00:04:35,430 --> 00:04:32,639

so what's uh what do we got uh in the

94

00:04:37,350 --> 00:04:35,440

uap news bracket we have it's pretty

95

00:04:40,550 --> 00:04:37,360

interesting that the

96

00:04:42,629 --> 00:04:40,560

uh the whole asap papers and the thirds

97

00:04:43,909 --> 00:04:42,639

you know um came out

98

00:04:46,550 --> 00:04:43,919

and

99

00:04:48,230 --> 00:04:46,560

uh via like uh public press so a few

100

00:04:50,390 --> 00:04:48,240

people wrote about it

101
00:04:51,590 --> 00:04:50,400
um a few um

102
00:04:54,230 --> 00:04:51,600
you know

103
00:04:57,110 --> 00:04:54,240
people have not liked it a lot of people

104
00:04:59,110 --> 00:04:57,120
have liked it um

105
00:05:01,029 --> 00:04:59,120
and apparently it's even going to be

106
00:05:02,550 --> 00:05:01,039
like tucker carlson tonight i've heard

107
00:05:04,390 --> 00:05:02,560
is going to talk about the biological

108
00:05:06,070 --> 00:05:04,400
effects part of it

109
00:05:07,510 --> 00:05:06,080
which you know i don't like to bring in

110
00:05:09,670 --> 00:05:07,520
the politics

111
00:05:11,110 --> 00:05:09,680
if you ask me about the guy and it has

112
00:05:12,390 --> 00:05:11,120
nothing to do with this i'm gonna tell

113
00:05:14,230 --> 00:05:12,400

you

114

00:05:15,909 --> 00:05:14,240

i'm changing the channel and that's a

115

00:05:18,070 --> 00:05:15,919

nice way of putting it

116

00:05:19,909 --> 00:05:18,080

but you know he's talking about this so

117

00:05:21,270 --> 00:05:19,919

you know i'll probably watch it for

118

00:05:22,390 --> 00:05:21,280

better for worse

119

00:05:24,310 --> 00:05:22,400

but um

120

00:05:27,590 --> 00:05:24,320

i'm also hearing stuff about like some

121

00:05:30,390 --> 00:05:27,600

of this was actually old old news

122

00:05:32,790 --> 00:05:30,400

um i'm not really sure if that's uh the

123

00:05:35,110 --> 00:05:32,800

truth or not do you know by chance

124

00:05:37,350 --> 00:05:35,120

i mean in terms of in terms of the durds

125

00:05:39,510 --> 00:05:37,360

themselves i mean some of them some of

126
00:05:41,909 --> 00:05:39,520
them started leaking

127
00:05:44,469 --> 00:05:41,919
gosh upwards of about

128
00:05:46,629 --> 00:05:44,479
three or four years ago i think were the

129
00:05:48,790 --> 00:05:46,639
first ones that i saw leaked

130
00:05:51,430 --> 00:05:48,800
but i think that i think that it what

131
00:05:54,150 --> 00:05:51,440
happens is and george knapp was it was

132
00:05:55,189 --> 00:05:54,160
pretty key in in some of the initial

133
00:05:57,350 --> 00:05:55,199
leaks

134
00:05:59,270 --> 00:05:57,360
um and kind of

135
00:06:00,710 --> 00:05:59,280
partially i think because he's so close

136
00:06:02,469 --> 00:06:00,720
to uh

137
00:06:05,270 --> 00:06:02,479
you know people like colin and bob

138
00:06:07,029 --> 00:06:05,280

bigelow that um it's it's it's not

139

00:06:09,510 --> 00:06:07,039

surprising that he would have been able

140

00:06:12,309 --> 00:06:09,520

to leak a document like that if it were

141

00:06:14,230 --> 00:06:12,319

to be of interest um and

142

00:06:17,510 --> 00:06:14,240

though i think that it it certainly

143

00:06:20,629 --> 00:06:18,390

well

144

00:06:23,670 --> 00:06:20,639

i think we launched new anita kazoo

145

00:06:24,870 --> 00:06:23,680

thanks scott yeah um

146

00:06:27,430 --> 00:06:24,880

um

147

00:06:29,270 --> 00:06:27,440

hello yeah yeah yeah your internet uh

148

00:06:31,830 --> 00:06:29,280

popped up for a second but

149

00:06:33,590 --> 00:06:31,840

we got you i'm here though okay cool so

150

00:06:36,629 --> 00:06:33,600

i think but i think that it

151
00:06:38,629 --> 00:06:36,639
it having the foia actually process and

152
00:06:41,749 --> 00:06:38,639
having them actually release through the

153
00:06:44,790 --> 00:06:41,759
foi process has definitely given it like

154
00:06:47,270 --> 00:06:44,800
a new level where it kind of reaches re

155
00:06:48,870 --> 00:06:47,280
yeah it reaches above sea level in a way

156
00:06:50,870 --> 00:06:48,880
in terms of credibility that it didn't

157
00:06:53,189 --> 00:06:50,880
have before so

158
00:06:55,589 --> 00:06:53,199
and i think that what we're seeing here

159
00:06:58,710 --> 00:06:55,599
possibly i was i was talking a little

160
00:07:00,950 --> 00:06:58,720
bit with our our good friend baptiste um

161
00:07:03,110 --> 00:07:00,960
our good french

162
00:07:05,189 --> 00:07:03,120
uh friend baptiste about this earlier

163
00:07:06,390 --> 00:07:05,199

today and

164

00:07:08,150 --> 00:07:06,400

you know there's

165

00:07:10,550 --> 00:07:08,160

without going into detail about what he

166

00:07:12,950 --> 00:07:10,560

said but there you know there are kind

167

00:07:14,550 --> 00:07:12,960

of conversations where it's like

168

00:07:15,350 --> 00:07:14,560

you know why

169

00:07:19,430 --> 00:07:15,360

is

170

00:07:21,589 --> 00:07:19,440

are

171

00:07:23,830 --> 00:07:21,599

why is like the daily mirror publishing

172

00:07:25,990 --> 00:07:23,840

it right now right

173

00:07:28,150 --> 00:07:26,000

when you think about people i saw even

174

00:07:29,110 --> 00:07:28,160

earlier today that nick pope was on news

175

00:07:30,870 --> 00:07:29,120

nation

176

00:07:32,390 --> 00:07:30,880

seemingly probably getting his talking

177

00:07:34,469 --> 00:07:32,400

points together to go on to tucker

178

00:07:35,909 --> 00:07:34,479

carlson tonight i wouldn't be surprised

179

00:07:37,830 --> 00:07:35,919

if he showed up you know what i mean

180

00:07:39,990 --> 00:07:37,840

it's kind of weird by the way we got to

181

00:07:42,390 --> 00:07:40,000

start throwing in some uh substitutes

182

00:07:44,150 --> 00:07:42,400

you know like switch it up a bit

183

00:07:46,309 --> 00:07:44,160

that's what it was exactly complaining

184

00:07:47,909 --> 00:07:46,319

about like an hour ago i was like look

185

00:07:50,309 --> 00:07:47,919

you need

186

00:07:51,670 --> 00:07:50,319

i'm surprised they need somebody else to

187

00:07:53,589 --> 00:07:51,680

like switch in a couple of those

188

00:07:56,230 --> 00:07:53,599

thoughts because at this point it's like

189

00:07:57,990 --> 00:07:56,240

if there's going to be aoi msg talking

190

00:07:59,350 --> 00:07:58,000

points if there's going to be like

191

00:08:01,430 --> 00:07:59,360

pentagon

192

00:08:03,029 --> 00:08:01,440

susan goff talking points

193

00:08:04,309 --> 00:08:03,039

it's like oh it's going to be nick pope

194

00:08:06,950 --> 00:08:04,319

nick pope's the guy it's like isn't

195

00:08:10,150 --> 00:08:06,960

there like a younger

196

00:08:12,390 --> 00:08:10,160

don't you have anybody else like that

197

00:08:15,430 --> 00:08:12,400

there's any ageism going on here you

198

00:08:17,589 --> 00:08:15,440

know no or no but like you know

199

00:08:19,189 --> 00:08:17,599

isn't there like a cool woman you could

200

00:08:21,830 --> 00:08:19,199

find that could be doing these talking

201
00:08:23,430 --> 00:08:21,840
points just like do like maybe like half

202
00:08:25,110 --> 00:08:23,440
of them every once in a while you could

203
00:08:26,790 --> 00:08:25,120
bounce in and out with nick pope and

204
00:08:28,230 --> 00:08:26,800
somebody else christine i don't know

205
00:08:31,510 --> 00:08:28,240
that would be great

206
00:08:33,269 --> 00:08:31,520
uh i mean i mean but like i feel like

207
00:08:35,829 --> 00:08:33,279
she has a more independent mind than

208
00:08:38,469 --> 00:08:35,839
nick pope does i feel like nick oh you

209
00:08:40,790 --> 00:08:38,479
mean yeah okay yeah i don't i don't mean

210
00:08:43,190 --> 00:08:40,800
to like um yeah

211
00:08:45,829 --> 00:08:43,200
well i could just go with a robot

212
00:08:48,150 --> 00:08:45,839
yeah i'm not i'm not gonna like uh

213
00:08:49,990 --> 00:08:48,160

go too far down the road of uh

214

00:08:52,230 --> 00:08:50,000

identifying yeah

215

00:08:54,949 --> 00:08:52,240

give us the trash talk

216

00:08:56,790 --> 00:08:54,959

i just don't think like i'm just

217

00:08:59,509 --> 00:08:56,800

look man i just remember when they were

218

00:09:01,269 --> 00:08:59,519

when they were like uh when the aoi msg

219

00:09:03,590 --> 00:09:01,279

office was like no we can take care of

220

00:09:04,630 --> 00:09:03,600

it trust us it'll be fine trust us we

221

00:09:06,870 --> 00:09:04,640

got it

222

00:09:09,030 --> 00:09:06,880

i remember that nick pope had had was

223

00:09:10,790 --> 00:09:09,040

tweeting about it within like

224

00:09:13,350 --> 00:09:10,800

practically before the story even broke

225

00:09:15,670 --> 00:09:13,360

that it was happening and and

226

00:09:16,870 --> 00:09:15,680

so the essential tenor of his tweets and

227

00:09:18,949 --> 00:09:16,880

stuff was like

228

00:09:21,350 --> 00:09:18,959

was basically saying like

229

00:09:23,030 --> 00:09:21,360

you know i too think we should trust our

230

00:09:25,030 --> 00:09:23,040

you know reptilian overlords you know

231

00:09:26,230 --> 00:09:25,040

like it was very much

232

00:09:28,870 --> 00:09:26,240

um

233

00:09:29,910 --> 00:09:28,880

you know the the kind of like

234

00:09:32,389 --> 00:09:29,920

uh

235

00:09:33,110 --> 00:09:32,399

news guy on the simpsons routine you

236

00:09:37,910 --> 00:09:33,120

know

237

00:09:39,910 --> 00:09:37,920

there are a lot of people that don't

238

00:09:41,269 --> 00:09:39,920

trust those kinds of lines it's time to

239

00:09:42,790 --> 00:09:41,279

switch it up

240

00:09:44,310 --> 00:09:42,800

that's that's that's all i got to say

241

00:09:46,710 --> 00:09:44,320

you know there's plenty of people who

242

00:09:48,710 --> 00:09:46,720

i'm sure would love to do that to just

243

00:09:51,350 --> 00:09:48,720

you know reach outside of that box a

244

00:09:54,470 --> 00:09:51,360

little bit and pick somebody

245

00:09:58,870 --> 00:09:54,480

yeah for god's sakes so that's about it

246

00:09:59,829 --> 00:09:58,880

but we you know speaking on the thirds

247

00:10:01,590 --> 00:09:59,839

um

248

00:10:04,630 --> 00:10:01,600

which i got a pretty interesting comment

249

00:10:06,710 --> 00:10:04,640

yesterday from a friend of show

250

00:10:08,550 --> 00:10:06,720

he apparently likes when i do

251
00:10:10,389 --> 00:10:08,560
talk dirty

252
00:10:13,670 --> 00:10:10,399
i thought that was pretty funny

253
00:10:16,630 --> 00:10:13,680
the ird why yeah

254
00:10:20,470 --> 00:10:19,190
that's right we absolutely do

255
00:10:23,030 --> 00:10:20,480
and uh

256
00:10:25,750 --> 00:10:23,040
and this one was um and this one happens

257
00:10:27,509 --> 00:10:25,760
to have been written by a

258
00:10:30,310 --> 00:10:27,519
a guy named dr eric davis now you

259
00:10:32,389 --> 00:10:30,320
wouldn't know that necessarily if you

260
00:10:34,710 --> 00:10:32,399
if you got the foia version because his

261
00:10:36,230 --> 00:10:34,720
name is actually redacted from the foid

262
00:10:38,550 --> 00:10:36,240
version however

263
00:10:41,030 --> 00:10:38,560

previous versions that have leaked out

264

00:10:42,389 --> 00:10:41,040

have his name like this one does right

265

00:10:43,190 --> 00:10:42,399

right and um

266

00:10:45,269 --> 00:10:43,200

but

267

00:10:46,630 --> 00:10:45,279

it's a fantastic document it's really

268

00:10:48,910 --> 00:10:46,640

interesting and of course this was

269

00:10:51,030 --> 00:10:48,920

written back in the area around

270

00:10:53,990 --> 00:10:51,040

2008-2009 and so

271

00:10:56,630 --> 00:10:54,000

and so there have been

272

00:10:58,710 --> 00:10:56,640

it's um bob mcguire was pointing out to

273

00:11:00,790 --> 00:10:58,720

me earlier today that that um

274

00:11:01,990 --> 00:11:00,800

there have been some

275

00:11:04,710 --> 00:11:02,000

some

276

00:11:06,630 --> 00:11:04,720

advances in the field that have that

277

00:11:09,670 --> 00:11:06,640

have happened since this paper was

278

00:11:12,069 --> 00:11:09,680

written but as we recall you know these

279

00:11:14,630 --> 00:11:12,079

these papers were commissioned

280

00:11:17,829 --> 00:11:14,640

these 38 papers were commissioned

281

00:11:21,990 --> 00:11:17,839

um to ostensibly the stated reason was

282

00:11:23,910 --> 00:11:22,000

to imagine our technology 50 years out

283

00:11:26,710 --> 00:11:23,920

and then kind of like look ahead to the

284

00:11:27,750 --> 00:11:26,720

next step within all of these fields

285

00:11:28,630 --> 00:11:27,760

that

286

00:11:32,550 --> 00:11:28,640

were

287

00:11:33,990 --> 00:11:32,560

you could term as being potential

288

00:11:35,509 --> 00:11:34,000

observables

289

00:11:39,990 --> 00:11:35,519

with

290

00:11:42,310 --> 00:11:40,000

ufology and the paranormal in general

291

00:11:44,310 --> 00:11:42,320

and with regard to exotic propulsion and

292

00:11:46,710 --> 00:11:44,320

things like this and so eric

293

00:11:49,509 --> 00:11:46,720

um who you know um

294

00:11:50,790 --> 00:11:49,519

we know from uh leslie kane and ralph

295

00:11:51,750 --> 00:11:50,800

blumenthal's

296

00:11:53,910 --> 00:11:51,760

uh

297

00:11:56,629 --> 00:11:53,920

their i think their third new york times

298

00:11:59,990 --> 00:11:56,639

article in their series um

299

00:12:03,990 --> 00:12:00,000

you know mentioned eric davis and had

300

00:12:05,829 --> 00:12:04,000

a quote about how he had briefed members

301
00:12:09,110 --> 00:12:05,839
of congress

302
00:12:10,470 --> 00:12:09,120
uh about a potential crash retrieval

303
00:12:14,470 --> 00:12:10,480
situation

304
00:12:16,870 --> 00:12:14,480
and uh yeah so anyway you know the guy

305
00:12:18,710 --> 00:12:16,880
the guy works for aerospace corporation

306
00:12:21,990 --> 00:12:18,720
it's down there in huntsville

307
00:12:23,430 --> 00:12:22,000
as i recall and uh you know it's you put

308
00:12:25,269 --> 00:12:23,440
two and two together the guys were

309
00:12:26,949 --> 00:12:25,279
writing wormhole articles and he's

310
00:12:28,150 --> 00:12:26,959
briefing members of congress about crash

311
00:12:29,990 --> 00:12:28,160
retrievals

312
00:12:32,069 --> 00:12:30,000
it's an interesting you know those are

313
00:12:33,190 --> 00:12:32,079

interesting kind of breadcrumbs to put

314

00:12:35,990 --> 00:12:33,200

together

315

00:12:38,870 --> 00:12:36,000

yeah and he's he's proposed stuff

316

00:12:40,550 --> 00:12:38,880

as part of workshops for nasa i know you

317

00:12:42,790 --> 00:12:40,560

know what's interesting is he actually

318

00:12:45,269 --> 00:12:42,800

did a pretty interesting interview with

319

00:12:47,670 --> 00:12:45,279

the basement office and i had the host

320

00:12:50,310 --> 00:12:47,680

of that show on here a while back and

321

00:12:52,870 --> 00:12:50,320

and we did an interview and he told me

322

00:12:56,710 --> 00:12:52,880

that eric davis off camera flatly told

323

00:12:57,509 --> 00:12:56,720

him that uh he thinks it's aliens

324

00:13:01,430 --> 00:12:57,519

yeah

325

00:13:03,829 --> 00:13:01,440

you know it was like that kind of person

326

00:13:05,030 --> 00:13:03,839

uh who you know puts papers together

327

00:13:07,750 --> 00:13:05,040

like this

328

00:13:09,110 --> 00:13:07,760

um does amazing work is obviously

329

00:13:10,470 --> 00:13:09,120

brilliant

330

00:13:11,829 --> 00:13:10,480

is sitting here

331

00:13:13,430 --> 00:13:11,839

saying that

332

00:13:16,470 --> 00:13:13,440

you know like

333

00:13:17,430 --> 00:13:16,480

now i know you know what does that mean

334

00:13:19,590 --> 00:13:17,440

you know it could mean a lot of

335

00:13:21,430 --> 00:13:19,600

different things but just the fact that

336

00:13:23,590 --> 00:13:21,440

he's saying that apparently he's

337

00:13:24,710 --> 00:13:23,600

briefing people on off-world vehicles

338

00:13:27,350 --> 00:13:24,720

like

339

00:13:29,910 --> 00:13:27,360

it's amazing to me how uh you know a lot

340

00:13:31,990 --> 00:13:29,920

of that just goes over people's heads

341

00:13:33,190 --> 00:13:32,000

like that should be

342

00:13:35,190 --> 00:13:33,200

you know people always talk about

343

00:13:36,069 --> 00:13:35,200

disclosure it's like well i mean you

344

00:13:40,629 --> 00:13:36,079

don't

345

00:13:43,030 --> 00:13:40,639

about disclosure

346

00:13:45,030 --> 00:13:43,040

because you're getting it you know

347

00:13:48,230 --> 00:13:45,040

um but people just ask for more it's not

348

00:13:49,990 --> 00:13:48,240

enough right so yeah or we have yeah

349

00:13:52,949 --> 00:13:50,000

it's it's difficult because we get these

350

00:13:54,710 --> 00:13:52,959

great you know we we tend to on on this

351
00:13:55,910 --> 00:13:54,720
show and just the way that we talk to

352
00:13:57,670 --> 00:13:55,920
each other and the people that we

353
00:14:00,550 --> 00:13:57,680
associate with generally try to focus on

354
00:14:02,629 --> 00:14:00,560
the positive of these situations and

355
00:14:04,389 --> 00:14:02,639
and it's easy

356
00:14:05,990 --> 00:14:04,399
when you're not on twitter it's easy to

357
00:14:08,069 --> 00:14:06,000
forget

358
00:14:09,990 --> 00:14:08,079
that there are people that make it their

359
00:14:12,150 --> 00:14:10,000
business to try to find

360
00:14:14,069 --> 00:14:12,160
uh problems and virtually everything

361
00:14:16,389 --> 00:14:14,079
right yeah whether that's true if if

362
00:14:17,910 --> 00:14:16,399
it's a slow news week they're gonna

363
00:14:20,389 --> 00:14:17,920

they're gonna complain about how it's a

364

00:14:23,269 --> 00:14:20,399

slow news week if you if you if you get

365

00:14:26,230 --> 00:14:23,279

the the crazy if you get the wild asap

366

00:14:27,990 --> 00:14:26,240

dirts about traversable wormholes like

367

00:14:29,670 --> 00:14:28,000

released through a foia they're gonna

368

00:14:31,269 --> 00:14:29,680

complain about that too

369

00:14:32,629 --> 00:14:31,279

and you know there's yeah there's this

370

00:14:35,110 --> 00:14:32,639

wait where's the proof they're

371

00:14:36,389 --> 00:14:35,120

traversable

372

00:14:38,310 --> 00:14:36,399

right

373

00:14:39,350 --> 00:14:38,320

that's what i want to know prove it

374

00:14:40,150 --> 00:14:39,360

prove it

375

00:14:42,629 --> 00:14:40,160

yeah

376

00:14:45,269 --> 00:14:42,639

there's these wormholes but nobody ever

377

00:14:47,910 --> 00:14:45,279

proved that they were traversable

378

00:14:49,750 --> 00:14:47,920

so right yeah and and what eric davis

379

00:14:51,750 --> 00:14:49,760

even says within the paper is that you

380

00:14:54,310 --> 00:14:51,760

know we don't know how to do this

381

00:14:56,790 --> 00:14:54,320

ourselves yet but there are

382

00:14:59,350 --> 00:14:56,800

you know tantalizing possibilities here

383

00:15:02,069 --> 00:14:59,360

right yeah you know he he's got some

384

00:15:03,829 --> 00:15:02,079

really fun charts in here on

385

00:15:05,829 --> 00:15:03,839

on on

386

00:15:09,110 --> 00:15:05,839

page five i think it is as you're going

387

00:15:11,750 --> 00:15:09,120

down like he he does mention how

388

00:15:15,350 --> 00:15:11,760

one of the earliest proposed versions of

389

00:15:16,550 --> 00:15:15,360

a wormhole um famously was

390

00:15:25,110 --> 00:15:16,560

this

391

00:15:26,870 --> 00:15:25,120

uh the idea of wormhole partially came

392

00:15:29,269 --> 00:15:26,880

out of of something that they were

393

00:15:30,790 --> 00:15:29,279

talking about back in the day about some

394

00:15:33,350 --> 00:15:30,800

something that eventually became known

395

00:15:34,230 --> 00:15:33,360

as an einstein rosen bridge

396

00:15:38,550 --> 00:15:34,240

and

397

00:15:40,629 --> 00:15:38,560

eric davis takes pains to point out that

398

00:15:43,189 --> 00:15:40,639

that we would have to use

399

00:15:44,069 --> 00:15:43,199

seemingly a different kind of method

400

00:15:44,790 --> 00:15:44,079

um

401
00:15:48,310 --> 00:15:44,800
to

402
00:15:53,350 --> 00:15:48,320
the

403
00:15:55,910 --> 00:15:53,360
rosenware were looking at was something

404
00:15:57,590 --> 00:15:55,920
that wouldn't probably work in terms of

405
00:15:59,829 --> 00:15:57,600
us getting getting through one or not

406
00:16:01,189 --> 00:15:59,839
right um but yeah we've got these we've

407
00:16:02,150 --> 00:16:01,199
got these fun charts that are really

408
00:16:04,310 --> 00:16:02,160
helpful

409
00:16:05,430 --> 00:16:04,320
um some of them

410
00:16:11,350 --> 00:16:05,440
if you

411
00:16:12,710 --> 00:16:11,360
zoom through here where is it paige

412
00:16:14,230 --> 00:16:12,720
it's pretty intense because if you

413
00:16:16,949 --> 00:16:14,240

realize what we're talking about here

414

00:16:18,949 --> 00:16:16,959

it's talking about interstellar travel

415

00:16:20,470 --> 00:16:18,959

we're talking about making actual

416

00:16:22,870 --> 00:16:20,480

spaceships

417

00:16:25,189 --> 00:16:22,880

you know like that we see in sci-fi

418

00:16:28,230 --> 00:16:25,199

movies and people have been working on

419

00:16:30,150 --> 00:16:28,240

interstellar travel for a while and it's

420

00:16:30,790 --> 00:16:30,160

always the propulsion that seems to kind

421

00:16:33,350 --> 00:16:30,800

of

422

00:16:35,829 --> 00:16:33,360

uh hamper things for them

423

00:16:38,550 --> 00:16:35,839

um and it seems like the more i look

424

00:16:40,629 --> 00:16:38,560

into this this sort of theory is the one

425

00:16:42,870 --> 00:16:40,639

everyone is gravitating towards these

426

00:16:44,790 --> 00:16:42,880

days it's but most especially things

427

00:16:47,030 --> 00:16:44,800

like the cashmere effect i'm not sure if

428

00:16:48,310 --> 00:16:47,040

that's involved with this or not

429

00:16:50,710 --> 00:16:48,320

um

430

00:16:53,189 --> 00:16:50,720

but yeah it's pretty interesting

431

00:16:54,550 --> 00:16:53,199

yeah and i mean to kind of take a few

432

00:16:57,509 --> 00:16:54,560

steps back and look at the bigger

433

00:16:58,389 --> 00:16:57,519

picture the one of the reasons why this

434

00:17:00,470 --> 00:16:58,399

um

435

00:17:02,150 --> 00:17:00,480

is a fruitful

436

00:17:03,990 --> 00:17:02,160

field of study

437

00:17:06,549 --> 00:17:04,000

for some is because of course there's

438

00:17:09,110 --> 00:17:06,559

been the long-standing debate among a

439

00:17:10,390 --> 00:17:09,120

lot of people recognizing that

440

00:17:14,630 --> 00:17:10,400

even if we

441

00:17:19,429 --> 00:17:14,640

light speed

442

00:17:21,990 --> 00:17:19,439

possible then we then it's going to take

443

00:17:24,949 --> 00:17:22,000

forever to get anywhere anywhere decent

444

00:17:27,350 --> 00:17:24,959

right yeah and and even just to the next

445

00:17:30,710 --> 00:17:27,360

solar system will take an obscenely long

446

00:17:34,470 --> 00:17:30,720

time and so finding something like this

447

00:17:37,590 --> 00:17:34,480

um makes makes those

448

00:17:38,870 --> 00:17:37,600

old old rules irrelevant yeah partially

449

00:17:40,070 --> 00:17:38,880

you know and this was a talking point

450

00:17:41,270 --> 00:17:40,080

back in the blue book days this was

451
00:17:42,789 --> 00:17:41,280
something that people talked about all

452
00:17:45,430 --> 00:17:42,799
the time because they're like oh aliens

453
00:17:47,990 --> 00:17:45,440
they can't be here it's impossible

454
00:17:49,669 --> 00:17:48,000
because because even if

455
00:17:51,430 --> 00:17:49,679
they could travel at the speed of light

456
00:17:53,190 --> 00:17:51,440
which was at that point was

457
00:17:56,070 --> 00:17:53,200
inconceivably fast

458
00:17:58,310 --> 00:17:56,080
that um that it would take them 100 000

459
00:18:00,870 --> 00:17:58,320
years to get here or whatever

460
00:18:02,310 --> 00:18:00,880
number got thrown out given whatever

461
00:18:03,830 --> 00:18:02,320
star system

462
00:18:06,390 --> 00:18:03,840
they were proposed to be coming from

463
00:18:09,110 --> 00:18:06,400

right so it's important to keep that in

464

00:18:11,270 --> 00:18:09,120

mind when looking at this in terms of of

465

00:18:12,470 --> 00:18:11,280

what could be the fruitful thing

466

00:18:15,029 --> 00:18:12,480

even when they

467

00:18:16,630 --> 00:18:15,039

would look at the idea of aliens coming

468

00:18:17,510 --> 00:18:16,640

here like blue book they actually did a

469

00:18:20,310 --> 00:18:17,520

couple

470

00:18:22,150 --> 00:18:20,320

um hypothetical studies well what what

471

00:18:23,909 --> 00:18:22,160

would they use and they would have to

472

00:18:26,470 --> 00:18:23,919

use you know at that point the

473

00:18:28,549 --> 00:18:26,480

technology we knew existed which was

474

00:18:31,510 --> 00:18:28,559

rocket propelled basically

475

00:18:34,310 --> 00:18:31,520

and so because of that yeah like he said

476

00:18:36,150 --> 00:18:34,320

oh can't happen it's impossible but it's

477

00:18:38,710 --> 00:18:36,160

so interesting because here we are we

478

00:18:40,150 --> 00:18:38,720

have someone pretty much figuring this

479

00:18:41,669 --> 00:18:40,160

out right

480

00:18:43,190 --> 00:18:41,679

um

481

00:18:44,230 --> 00:18:43,200

pretty much as far as you can take it at

482

00:18:46,870 --> 00:18:44,240

this point

483

00:18:48,870 --> 00:18:46,880

um and then we talk about these other

484

00:18:49,990 --> 00:18:48,880

beings and how far ahead

485

00:18:51,909 --> 00:18:50,000

they are

486

00:18:53,510 --> 00:18:51,919

from us uh

487

00:18:55,590 --> 00:18:53,520

you know their tech

488

00:18:57,909 --> 00:18:55,600

we've heard like 100 years thousand

489

00:19:01,510 --> 00:18:57,919

years or whatever so you put that in

490

00:19:06,230 --> 00:19:03,430

maybe things are a little more possible

491

00:19:10,630 --> 00:19:09,190

in all sorts of realms

492

00:19:14,230 --> 00:19:10,640

uh absolutely

493

00:19:16,310 --> 00:19:14,240

absolutely and um and not to jump the

494

00:19:19,510 --> 00:19:16,320

gun here too much but

495

00:19:22,549 --> 00:19:19,520

i mean one of one of the things that

496

00:19:25,350 --> 00:19:22,559

that um and again like i'm not an eric

497

00:19:26,390 --> 00:19:25,360

davis you know i'm more i'm more

498

00:19:32,630 --> 00:19:26,400

like

499

00:19:34,230 --> 00:19:32,640

green paper but not

500

00:19:35,990 --> 00:19:34,240

you know

501
00:19:37,430 --> 00:19:36,000
it's thrown out here

502
00:19:40,070 --> 00:19:37,440
bio effects

503
00:19:41,830 --> 00:19:40,080
yeah but um but

504
00:19:44,470 --> 00:19:41,840
one of the things that he points out and

505
00:19:46,230 --> 00:19:44,480
so you am i the best person to analyze

506
00:19:47,750 --> 00:19:46,240
this paper certainly not we're just

507
00:19:49,830 --> 00:19:47,760
taking it together and it's a way to

508
00:19:51,190 --> 00:19:49,840
have a conversation but you know one of

509
00:19:54,150 --> 00:19:51,200
the things that he's talking about here

510
00:19:57,029 --> 00:19:54,160
is and this is so true of many of many

511
00:19:59,350 --> 00:19:57,039
situations where one of the one of the

512
00:20:01,190 --> 00:19:59,360
things that he's talking about is how

513
00:20:02,789 --> 00:20:01,200

um we'd have

514

00:20:05,190 --> 00:20:02,799

with the with

515

00:20:07,669 --> 00:20:05,200

the method that he was a proposing here

516

00:20:09,909 --> 00:20:07,679

or a method that he was proposing here

517

00:20:12,870 --> 00:20:09,919

um we would have to make enormous

518

00:20:13,750 --> 00:20:12,880

quantities of of this

519

00:20:16,950 --> 00:20:13,760

this

520

00:20:19,510 --> 00:20:16,960

what's called negative energy all right

521

00:20:21,350 --> 00:20:19,520

and it it falls into one of these like

522

00:20:23,350 --> 00:20:21,360

really difficult things to to think

523

00:20:25,430 --> 00:20:23,360

about but when it

524

00:20:27,590 --> 00:20:25,440

what it really comes down to is that

525

00:20:30,310 --> 00:20:27,600

there are so many methods of propulsion

526
00:20:32,789 --> 00:20:30,320
plasma propulsion things like this and

527
00:20:35,029 --> 00:20:32,799
and in terms of of

528
00:20:37,430 --> 00:20:35,039
where it comes down to

529
00:20:39,909 --> 00:20:37,440
how can we make

530
00:20:41,430 --> 00:20:39,919
like an obscene i love this chart i love

531
00:20:42,870 --> 00:20:41,440
this chart i want to come back to this

532
00:20:45,430 --> 00:20:42,880
right in one second

533
00:20:47,029 --> 00:20:45,440
um because if

534
00:20:49,029 --> 00:20:47,039
there are so many

535
00:20:51,430 --> 00:20:49,039
aspects in science where people say like

536
00:20:52,789 --> 00:20:51,440
yadda yadda yeah you know you know we

537
00:20:54,630 --> 00:20:52,799
could do it but

538
00:20:56,789 --> 00:20:54,640

it'll probably never happen because the

539

00:20:58,470 --> 00:20:56,799

amount of energy we'd we'd have to

540

00:21:00,870 --> 00:20:58,480

produce to be able to do that is

541

00:21:02,310 --> 00:21:00,880

inconceivable or we know the actual

542

00:21:04,470 --> 00:21:02,320

amount but that just seems like

543

00:21:06,230 --> 00:21:04,480

something that we can't do but in a lot

544

00:21:08,789 --> 00:21:06,240

of ways that's a very short-term

545

00:21:12,470 --> 00:21:08,799

thinking situation right because look at

546

00:21:14,549 --> 00:21:12,480

the amount of of power that just over

547

00:21:16,390 --> 00:21:14,559

the course of the last 100 years like

548

00:21:17,990 --> 00:21:16,400

what we've been able to develop in terms

549

00:21:19,909 --> 00:21:18,000

of energy generation and things like

550

00:21:22,470 --> 00:21:19,919

this and then you know as things speed

551
00:21:24,789 --> 00:21:22,480
up who knows but i love i love this

552
00:21:27,190 --> 00:21:24,799
chart okay first of all people i

553
00:21:28,789 --> 00:21:27,200
remember when this paper first leaked

554
00:21:31,110 --> 00:21:28,799
some people were looking through here

555
00:21:33,830 --> 00:21:31,120
and they're like this guy's a joke what

556
00:21:34,630 --> 00:21:33,840
kind of serious scientist would have

557
00:21:57,590 --> 00:21:34,640
a

558
00:21:59,750 --> 00:21:57,600
you seen this guy's tie collection

559
00:22:02,710 --> 00:21:59,760
you know like this guy

560
00:22:03,669 --> 00:22:02,720
it's fantastic the guy is you know

561
00:22:10,149 --> 00:22:03,679
there's

562
00:22:12,549 --> 00:22:10,159
okay and it's eccentric geniuses all

563
00:22:15,110 --> 00:22:12,559

right like if you find a boring genius

564

00:22:16,950 --> 00:22:15,120

show them to me because like and

565

00:22:18,789 --> 00:22:16,960

not to cut you off here but i mean i

566

00:22:22,630 --> 00:22:18,799

think we found

567

00:22:24,549 --> 00:22:22,640

um you know how uh crazy things may be

568

00:22:27,029 --> 00:22:24,559

coming into our space i mean what is

569

00:22:29,190 --> 00:22:27,039

that that's a dino

570

00:22:32,789 --> 00:22:29,200

sewer

571

00:22:35,750 --> 00:22:32,799

yeah exactly yeah dino i mean

572

00:22:38,390 --> 00:22:36,870

right so

573

00:22:39,990 --> 00:22:38,400

you know there's more to it than we

574

00:22:42,950 --> 00:22:40,000

thought right i mean i know it's just a

575

00:22:44,070 --> 00:22:42,960

drawing but uh it's kind of uh painting

576

00:22:45,510 --> 00:22:44,080

a picture

577

00:22:48,230 --> 00:22:45,520

so right

578

00:22:50,470 --> 00:22:48,240

so flat face wormhole or stargate which

579

00:22:52,549 --> 00:22:50,480

is also hypersurface would not distort

580

00:22:54,630 --> 00:22:52,559

the mirror image of the remote space

581

00:22:56,230 --> 00:22:54,640

region or other universe seen through it

582

00:22:58,549 --> 00:22:56,240

because the negative surface energy

583

00:23:00,789 --> 00:22:58,559

density and negative surface tensions of

584

00:23:03,190 --> 00:23:00,799

the exotic matter threading its throat

585

00:23:05,510 --> 00:23:03,200

is zero as seen and felt by light and

586

00:23:07,990 --> 00:23:05,520

matter passing through it

587

00:23:09,350 --> 00:23:08,000

and it'll say recall equation four

588

00:23:11,029 --> 00:23:09,360

that's what i thought he would go with

589

00:23:13,029 --> 00:23:11,039

and you're familiar with equation four

590

00:23:15,350 --> 00:23:13,039

we can get into that right

591

00:23:16,500 --> 00:23:15,360

oh totally absolutely no so why don't

592

00:23:19,350 --> 00:23:16,510

you take the lead

593

00:23:21,830 --> 00:23:19,360

[Laughter]

594

00:23:23,590 --> 00:23:21,840

i mean but if we if the basically what

595

00:23:25,430 --> 00:23:23,600

it comes down to is if we skip all the

596

00:23:28,630 --> 00:23:25,440

way to the conclusion way at the end

597

00:23:29,510 --> 00:23:28,640

right and it says the way forward right

598

00:23:31,590 --> 00:23:29,520

um

599

00:23:33,510 --> 00:23:31,600

and so

600

00:23:34,830 --> 00:23:33,520

so basically we're talking about he's

601
00:23:37,990 --> 00:23:34,840
talking about how

602
00:23:39,909 --> 00:23:38,000
the the potentialities for this kind of

603
00:23:42,710 --> 00:23:39,919
first came about with some with some

604
00:23:44,630 --> 00:23:42,720
seed discoveries back in the 1890s

605
00:23:45,990 --> 00:23:44,640
and then saying that a game changer

606
00:23:47,669 --> 00:23:46,000
changer may appear that could

607
00:23:49,430 --> 00:23:47,679
dramatically accelerate or alter the

608
00:23:50,950 --> 00:23:49,440
direction of an experimental traversable

609
00:23:52,870 --> 00:23:50,960
wormhole program

610
00:23:54,470 --> 00:23:52,880
such in a game changer could entail new

611
00:23:57,029 --> 00:23:54,480
physics that is predicted by a complete

612
00:23:59,430 --> 00:23:57,039
comprehensive quantum gravity theory or

613
00:24:02,470 --> 00:23:59,440

quantum gravity theory that is a subset

614

00:24:05,029 --> 00:24:02,480

of larger unified field theory

615

00:24:07,190 --> 00:24:05,039

the new field of and this is kind of a

616

00:24:09,029 --> 00:24:07,200

key here the new field of emergent

617

00:24:11,669 --> 00:24:09,039

space-time gravity suggests that

618

00:24:13,990 --> 00:24:11,679

gravitation is not a fundamental force

619

00:24:17,029 --> 00:24:14,000

of nature because among many other

620

00:24:19,669 --> 00:24:17,039

considerations of its extreme weakness

621

00:24:21,750 --> 00:24:19,679

relative to the other forces of nature

622

00:24:23,350 --> 00:24:21,760

and since this paper was written that's

623

00:24:25,990 --> 00:24:23,360

been something that has really become a

624

00:24:28,950 --> 00:24:26,000

dominant theme and interesting in some

625

00:24:32,070 --> 00:24:28,960

form of yeah absolutely in terms of you

626

00:24:35,590 --> 00:24:32,080

know how fundamental is gravity and what

627

00:24:37,269 --> 00:24:35,600

and why is gravity so weak and basically

628

00:24:39,590 --> 00:24:37,279

essentially that there is

629

00:24:42,149 --> 00:24:39,600

people admit you know that there is a

630

00:24:44,310 --> 00:24:42,159

lot about gravity that we don't actually

631

00:24:45,750 --> 00:24:44,320

fundamentally understand and it seems to

632

00:24:47,590 --> 00:24:45,760

point at

633

00:24:50,070 --> 00:24:47,600

maybe two different

634

00:24:52,789 --> 00:24:50,080

types of gravity or a non-fundamental

635

00:24:54,950 --> 00:24:52,799

nature of gravity and so maybe he was

636

00:24:57,190 --> 00:24:54,960

tipping a hat towards something that may

637

00:24:57,990 --> 00:24:57,200

have been privately known yeah here it

638

00:24:59,269 --> 00:24:58,000

is

639

00:25:04,070 --> 00:24:59,279

yeah

640

00:25:08,870 --> 00:25:06,870

you know especially the the the

641

00:25:12,830 --> 00:25:08,880

we there's a lot we don't realize about

642

00:25:16,070 --> 00:25:12,840

the the gravity um of the situation

643

00:25:17,750 --> 00:25:16,080

yeah yeah and again if i if we're

644

00:25:21,110 --> 00:25:17,760

murdering a couple of these points in

645

00:25:23,350 --> 00:25:21,120

terms of uh please feel free to to to

646

00:25:25,269 --> 00:25:23,360

tell us in the chat or troll us on

647

00:25:27,430 --> 00:25:25,279

twitter or whatever we're just um we're

648

00:25:29,350 --> 00:25:27,440

just two bumbling guys looking through

649

00:25:30,710 --> 00:25:29,360

docks and trying to figure stuff out

650

00:25:33,269 --> 00:25:30,720

ourselves right

651
00:25:34,789 --> 00:25:33,279
a couple of cats bumbling through decks

652
00:25:36,630 --> 00:25:34,799
but one of the things that's really

653
00:25:38,950 --> 00:25:36,640
interesting about this is that you know

654
00:25:41,350 --> 00:25:38,960
there there is a new documentary coming

655
00:25:43,990 --> 00:25:41,360
up right uh coming up the first week of

656
00:25:46,230 --> 00:25:44,000
may and um

657
00:25:49,029 --> 00:25:46,240
and it's it's a really

658
00:25:51,110 --> 00:25:49,039
interesting situation you know there's

659
00:25:52,950 --> 00:25:51,120
it's the uapx team

660
00:25:54,710 --> 00:25:52,960
that trailer just came out

661
00:25:56,549 --> 00:25:54,720
i think it was two days ago

662
00:25:58,070 --> 00:25:56,559
the trailer came out and there had been

663
00:26:00,630 --> 00:25:58,080

kind of private

664

00:26:03,029 --> 00:26:00,640

there had been private um

665

00:26:05,190 --> 00:26:03,039

uh rumblings about this for a while but

666

00:26:07,029 --> 00:26:05,200

people were kind of told to keep quiet

667

00:26:09,110 --> 00:26:07,039

about it and so you can see from this

668

00:26:10,310 --> 00:26:09,120

picture here this is from the trailer

669

00:26:11,750 --> 00:26:10,320

this is from the trailer that was

670

00:26:14,390 --> 00:26:11,760

released the other day

671

00:26:16,870 --> 00:26:14,400

okay what was that a movie called again

672

00:26:18,950 --> 00:26:16,880

it's called a tear in the sky and it's

673

00:26:21,430 --> 00:26:18,960

coming out the first week of may

674

00:26:23,430 --> 00:26:21,440

and carolyn corey is kind of one of the

675

00:26:26,070 --> 00:26:23,440

co-hosts and they got william shatner in

676

00:26:27,669 --> 00:26:26,080

there um they kind of really it seems

677

00:26:29,510 --> 00:26:27,679

that they really juiced it up in terms

678

00:26:30,789 --> 00:26:29,520

of making it look as much kind of like a

679

00:26:33,510 --> 00:26:30,799

history channel

680

00:26:35,510 --> 00:26:33,520

program as possible in a lot of ways um

681

00:26:36,789 --> 00:26:35,520

yeah i don't i don't know how close to a

682

00:26:40,470 --> 00:26:36,799

production it is in terms of the

683

00:26:43,750 --> 00:26:40,480

production company but essentially

684

00:26:46,149 --> 00:26:43,760

they they took three teams

685

00:26:47,990 --> 00:26:46,159

and it was largely uapx that did this

686

00:26:50,070 --> 00:26:48,000

okay and so you can see here that they

687

00:26:52,870 --> 00:26:50,080

are triangulating an area with three

688

00:26:55,110 --> 00:26:52,880

teams that had pretty sophisticated

689

00:26:57,190 --> 00:26:55,120

equipment fleur fleur cameras things

690

00:26:59,269 --> 00:26:57,200

like this and they were pointing towards

691

00:27:01,590 --> 00:26:59,279

the area around what you see in the

692

00:27:03,750 --> 00:27:01,600

bottom left which is catalina island

693

00:27:05,510 --> 00:27:03,760

which is long rumored to be

694

00:27:24,950 --> 00:27:05,520

a

695

00:27:28,389 --> 00:27:24,960

i believe it's five nights or so

696

00:27:30,710 --> 00:27:28,399

and um and uh they hit pay dirt

697

00:27:33,029 --> 00:27:30,720

apparently um they even in the trailer

698

00:27:36,149 --> 00:27:33,039

they talked about they it seems that

699

00:27:39,269 --> 00:27:36,159

they've got some tic tacs on camera um

700

00:27:41,990 --> 00:27:39,279

from multiple viewpoints it sounds like

701
00:27:44,630 --> 00:27:42,000
and not only that if you skip over to

702
00:27:46,149 --> 00:27:44,640
one of the other pictures here it's it's

703
00:27:49,110 --> 00:27:46,159
what the the

704
00:27:51,269 --> 00:27:49,120
the um the title is yeah there you go

705
00:27:53,430 --> 00:27:51,279
you see there's this kind of

706
00:27:55,669 --> 00:27:53,440
there it says up here wormhole like

707
00:27:57,190 --> 00:27:55,679
anomaly okay

708
00:27:58,870 --> 00:27:57,200
and uh

709
00:28:00,149 --> 00:27:58,880
and um

710
00:28:02,230 --> 00:28:00,159
word on this

711
00:28:03,590 --> 00:28:02,240
i i don't want to speak too much because

712
00:28:06,549 --> 00:28:03,600
like i don't want to connect the dots

713
00:28:09,430 --> 00:28:06,559

too much but they got tic tacs and they

714

00:28:11,269 --> 00:28:09,440

got a wormhole like anomaly

715

00:28:13,269 --> 00:28:11,279

they got tic-tacs and they got a

716

00:28:14,789 --> 00:28:13,279

wormhole-like anomaly

717

00:28:16,870 --> 00:28:14,799

i don't want to say any more about

718

00:28:19,590 --> 00:28:16,880

because i i guess i'm not supposed to

719

00:28:21,269 --> 00:28:19,600

but um if you flip to one i think i gave

720

00:28:24,070 --> 00:28:21,279

you one other picture but maybe it's not

721

00:28:26,630 --> 00:28:24,080

in there but but essentially it seems

722

00:28:28,630 --> 00:28:26,640

that that they may have grabbed a

723

00:28:29,510 --> 00:28:28,640

quote-unquote tear in the sky

724

00:28:32,070 --> 00:28:29,520

um

725

00:28:36,149 --> 00:28:32,080

that is being used by

726

00:28:39,190 --> 00:28:36,159

by uh craft to possibly get in and out

727

00:28:41,669 --> 00:28:39,200

of our kind of local area right isn't

728

00:28:42,870 --> 00:28:41,679

that i mean and isn't that the thing

729

00:28:45,190 --> 00:28:42,880

like

730

00:28:47,750 --> 00:28:45,200

you know it's always uh you know whether

731

00:28:49,350 --> 00:28:47,760

it's radar sightings or or this or that

732

00:28:50,070 --> 00:28:49,360

it's always how do these things leave

733

00:28:53,029 --> 00:28:50,080

and

734

00:28:54,630 --> 00:28:53,039

you know you hit the testimony of

735

00:28:56,149 --> 00:28:54,640

whether it's the pilots chasing them or

736

00:28:58,310 --> 00:28:56,159

whoever and it's

737

00:28:59,750 --> 00:28:58,320

uh we were looking for you know we were

738

00:29:01,909 --> 00:28:59,760

chasing them we were vectored towards

739

00:29:03,510 --> 00:29:01,919

them and okay so what happened it just

740

00:29:05,590 --> 00:29:03,520

disappeared

741

00:29:09,669 --> 00:29:05,600

you know like what do you what do you

742

00:29:12,389 --> 00:29:11,269

yeah

743

00:29:14,630 --> 00:29:12,399

sit and

744

00:29:16,630 --> 00:29:14,640

keep going yeah no and it's just

745

00:29:19,909 --> 00:29:16,640

interesting because all this stuff seems

746

00:29:22,789 --> 00:29:19,919

to be coming together more or less um

747

00:29:24,710 --> 00:29:22,799

you know as as far as

748

00:29:27,110 --> 00:29:24,720

how they're doing this there you go you

749

00:29:28,630 --> 00:29:27,120

know yeah there you go so this is this

750

00:29:30,870 --> 00:29:28,640

was kind of a screen grab again this is

751
00:29:32,549 --> 00:29:30,880
just from the trailer um so anybody can

752
00:29:33,750 --> 00:29:32,559
find this over on youtube and maybe we

753
00:29:36,310 --> 00:29:33,760
can throw a link in the show notes or

754
00:29:37,830 --> 00:29:36,320
something like that but um it certainly

755
00:29:40,070 --> 00:29:37,840
looks like there's something odd going

756
00:29:42,389 --> 00:29:40,080
on there and it seem and not only that

757
00:29:44,149 --> 00:29:42,399
but i think more to the point

758
00:29:46,070 --> 00:29:44,159
you know in one of those other pictures

759
00:29:47,350 --> 00:29:46,080
here they were looking at

760
00:29:50,070 --> 00:29:47,360
they were looking at what they were

761
00:29:53,350 --> 00:29:50,080
looking at from multiple viewpoints

762
00:29:54,630 --> 00:29:53,360
and from multiple types of gear right so

763
00:29:56,789 --> 00:29:54,640

they were looking

764

00:29:58,789 --> 00:29:56,799

and so there it seemed that they were

765

00:30:01,029 --> 00:29:58,799

doing the best they could to to come

766

00:30:02,470 --> 00:30:01,039

from several different angles in terms

767

00:30:03,590 --> 00:30:02,480

of detection

768

00:30:05,669 --> 00:30:03,600

right

769

00:30:07,350 --> 00:30:05,679

and so you know i think it'll be

770

00:30:09,110 --> 00:30:07,360

interesting in the days ahead obviously

771

00:30:10,950 --> 00:30:09,120

we don't know all the information about

772

00:30:12,710 --> 00:30:10,960

this case and i'm sure that

773

00:30:14,630 --> 00:30:12,720

no matter what happens

774

00:30:16,070 --> 00:30:14,640

some people will be really psyched about

775

00:30:17,350 --> 00:30:16,080

it and some people will be super

776

00:30:18,630 --> 00:30:17,360

disappointed about it but it's

777

00:30:20,230 --> 00:30:18,640

definitely going to be a story that

778

00:30:22,389 --> 00:30:20,240

we're going to be hearing about more in

779

00:30:24,950 --> 00:30:22,399

the weeks to come i mean and that's kind

780

00:30:26,549 --> 00:30:24,960

of always you know in the past at least

781

00:30:28,470 --> 00:30:26,559

has been the issue with these sort of

782

00:30:31,110 --> 00:30:28,480

things whether it be

783

00:30:34,070 --> 00:30:31,120

you know um for instance the skinwalker

784

00:30:36,070 --> 00:30:34,080

show or you know bob lazar documentary

785

00:30:38,950 --> 00:30:36,080

or whatever like people get very excited

786

00:30:41,190 --> 00:30:38,960

about this stuff um it comes time for

787

00:30:43,669 --> 00:30:41,200

you for it to come out it comes out and

788

00:30:45,110 --> 00:30:43,679

you know people are

789

00:30:47,269 --> 00:30:45,120

just like oh

790

00:30:48,950 --> 00:30:47,279

yeah that was cool i guess you know and

791

00:30:52,470 --> 00:30:48,960

here we are waiting for the next thing

792

00:30:54,549 --> 00:30:52,480

to come and people just want that one

793

00:30:56,149 --> 00:30:54,559

you know that with that one that knocks

794

00:30:58,230 --> 00:30:56,159

it out of the park

795

00:30:59,909 --> 00:30:58,240

but i think it's also important to talk

796

00:31:01,909 --> 00:30:59,919

about what does that mean

797

00:31:04,149 --> 00:31:01,919

you know what does that look like what

798

00:31:06,470 --> 00:31:04,159

is that one you know what's that one

799

00:31:08,630 --> 00:31:06,480

that will uh knock out out of the park

800

00:31:10,549 --> 00:31:08,640

not only for you but people you know

801
00:31:12,149 --> 00:31:10,559
and and i think

802
00:31:14,310 --> 00:31:12,159
you know it's pretty agreeable for

803
00:31:16,070 --> 00:31:14,320
everybody to say if there is some sort

804
00:31:19,590 --> 00:31:16,080
of evidence of

805
00:31:22,070 --> 00:31:19,600
of you know an anomalous vehicle from

806
00:31:24,149 --> 00:31:22,080
that's on video from different

807
00:31:26,149 --> 00:31:24,159
points of view with different data

808
00:31:28,389 --> 00:31:26,159
points that all line up to explain the

809
00:31:30,630 --> 00:31:28,399
same thing that data is accessible to

810
00:31:33,190 --> 00:31:30,640
everybody everybody can you know make

811
00:31:35,509 --> 00:31:33,200
sense of what it is and what it means

812
00:31:37,830 --> 00:31:35,519
you know where it doesn't need as

813
00:31:39,990 --> 00:31:37,840

a billion different translators to to

814

00:31:42,630 --> 00:31:40,000

break it down to you you know like

815

00:31:44,549 --> 00:31:42,640

something that's just uh palatable and

816

00:31:47,669 --> 00:31:44,559

understandable um

817

00:31:48,549 --> 00:31:47,679

you know um and not uh baby steps at a

818

00:31:50,870 --> 00:31:48,559

time

819

00:31:53,830 --> 00:31:50,880

you know so you know you have to rent

820

00:31:56,149 --> 00:31:53,840

see you know the next dvd or

821

00:31:58,470 --> 00:31:56,159

you know see the next documentary like

822

00:31:59,909 --> 00:31:58,480

um because that all kind of plays in the

823

00:32:02,310 --> 00:31:59,919

same pattern we've seen throughout

824

00:32:03,269 --> 00:32:02,320

ufology for so long right

825

00:32:04,630 --> 00:32:03,279

absolutely

826

00:32:06,870 --> 00:32:04,640

so it's

827

00:32:10,630 --> 00:32:06,880

and you know and people say that this

828

00:32:13,430 --> 00:32:10,640

could be it uabx or this documentary and

829

00:32:15,830 --> 00:32:13,440

i'm always going to you know

830

00:32:16,870 --> 00:32:15,840

hope that it is

831

00:32:18,310 --> 00:32:16,880

you know

832

00:32:21,190 --> 00:32:18,320

of course

833

00:32:22,950 --> 00:32:21,200

um and but we'll see how it goes i feel

834

00:32:25,190 --> 00:32:22,960

like the build-up and how this has all

835

00:32:26,470 --> 00:32:25,200

been going over the last few years we're

836

00:32:29,110 --> 00:32:26,480

gonna get to

837

00:32:31,029 --> 00:32:29,120

that point you know and it feels like

838

00:32:32,710 --> 00:32:31,039

it's coming sooner than later but that's

839

00:32:35,190 --> 00:32:32,720

just a feeling

840

00:32:37,269 --> 00:32:35,200

yeah and and this is all and i think

841

00:32:38,950 --> 00:32:37,279

those are all good points and and i

842

00:32:39,990 --> 00:32:38,960

think it's important to remember that it

843

00:32:41,269 --> 00:32:40,000

you know

844

00:32:43,830 --> 00:32:41,279

along the lines of what you're saying

845

00:32:45,909 --> 00:32:43,840

it's it's it's inevitably going to be

846

00:32:48,870 --> 00:32:45,919

more like a constellation

847

00:32:51,029 --> 00:32:48,880

of events and a constellation of cases

848

00:32:53,190 --> 00:32:51,039

that are really going to galvanize

849

00:32:55,830 --> 00:32:53,200

people in general you know because some

850

00:32:56,710 --> 00:32:55,840

people they they only care if there's

851
00:33:00,870 --> 00:32:56,720
like

852
00:33:02,789 --> 00:33:00,880
case right there are some people that

853
00:33:03,750 --> 00:33:02,799
are gonna get totally turned on by that

854
00:33:05,350 --> 00:33:03,760
you know they're just gonna

855
00:33:08,630 --> 00:33:05,360
automatically gravitate towards that

856
00:33:10,310 --> 00:33:08,640
kind of a case you know uh my aunt kathy

857
00:33:11,669 --> 00:33:10,320
not one of those people you know what i

858
00:33:12,870 --> 00:33:11,679
mean there's always going to be other

859
00:33:14,149 --> 00:33:12,880
people that

860
00:33:15,990 --> 00:33:14,159
that they they're going to be more

861
00:33:18,710 --> 00:33:16,000
interested in

862
00:33:20,710 --> 00:33:18,720
you know the human element or they're

863
00:33:21,590 --> 00:33:20,720

going to be more interested in and

864

00:33:23,590 --> 00:33:21,600

whether

865

00:33:26,549 --> 00:33:23,600

if something ever happened to them or

866

00:33:28,389 --> 00:33:26,559

not sure and and so

867

00:33:31,909 --> 00:33:28,399

you know one of the things that i really

868

00:33:34,789 --> 00:33:31,919

appreciate about say for example column

869

00:33:37,350 --> 00:33:34,799

column kelleher and asap and nids and

870

00:33:39,350 --> 00:33:37,360

that whole constellation of of people

871

00:33:40,149 --> 00:33:39,360

that we were talking about and talking

872

00:33:42,870 --> 00:33:40,159

with

873

00:33:43,830 --> 00:33:42,880

last week is that you know they

874

00:33:49,110 --> 00:33:43,840

that

875

00:33:51,350 --> 00:33:49,120

looking at for decades now which is is

876
00:33:53,750 --> 00:33:51,360
trying to make the bigger picture

877
00:33:56,549 --> 00:33:53,760
because to some people

878
00:33:58,070 --> 00:33:56,559
they'll be like oh ufos or bs however i

879
00:34:00,149 --> 00:33:58,080
do know that poltergeists are true

880
00:34:02,310 --> 00:34:00,159
because you know my neighbor had one or

881
00:34:03,750 --> 00:34:02,320
something right or whatever

882
00:34:05,509 --> 00:34:03,760
and then if you can find these

883
00:34:08,389 --> 00:34:05,519
connections between these these

884
00:34:09,669 --> 00:34:08,399
different arenas areas and show how

885
00:34:11,109 --> 00:34:09,679
possibly

886
00:34:13,430 --> 00:34:11,119
that there might be some connection

887
00:34:15,669 --> 00:34:13,440
there then then it gives a little bit

888
00:34:17,750 --> 00:34:15,679

more sway to those people that might

889

00:34:19,909 --> 00:34:17,760

think about one field and not the other

890

00:34:22,389 --> 00:34:19,919

within with regard to anomalous

891

00:34:24,710 --> 00:34:22,399

phenomena right right right

892

00:34:27,030 --> 00:34:24,720

and and we're talking about you know i

893

00:34:29,109 --> 00:34:27,040

always go back to um

894

00:34:30,869 --> 00:34:29,119

uh john mack when it comes to this like

895

00:34:34,550 --> 00:34:30,879

um whatever it is

896

00:34:35,669 --> 00:34:34,560

um for it to be accepted needs to um you

897

00:34:39,430 --> 00:34:35,679

know

898

00:34:40,389 --> 00:34:39,440

a title wave of a different world view

899

00:34:42,230 --> 00:34:40,399

and

900

00:34:44,149 --> 00:34:42,240

you know needs to come with it that's

901
00:34:46,069 --> 00:34:44,159
how we'll know it is

902
00:34:48,389 --> 00:34:46,079
what it is right

903
00:34:50,470 --> 00:34:48,399
like it'll be something that's agreeable

904
00:34:51,909 --> 00:34:50,480
to anybody who looks at it pretty much

905
00:34:54,230 --> 00:34:51,919
but

906
00:34:55,990 --> 00:34:54,240
you know because he can have you know

907
00:34:58,069 --> 00:34:56,000
yes it's different for everybody but if

908
00:35:01,109 --> 00:34:58,079
you like myself i have my personal

909
00:35:02,790 --> 00:35:01,119
experience if i see that video that's

910
00:35:04,870 --> 00:35:02,800
corroborated with the data or whatever

911
00:35:08,150 --> 00:35:04,880
that connects to that experience

912
00:35:09,349 --> 00:35:08,160
man that would be amazing you know um

913
00:35:11,990 --> 00:35:09,359

but do you think

914

00:35:13,430 --> 00:35:12,000

people would buy whatever it is they see

915

00:35:16,230 --> 00:35:13,440

on a screen

916

00:35:18,550 --> 00:35:16,240

without experiencing it themselves no

917

00:35:21,030 --> 00:35:18,560

whatever it is you know

918

00:35:23,190 --> 00:35:21,040

i don't know i think yeah i think i

919

00:35:26,230 --> 00:35:23,200

think there are some people that

920

00:35:27,190 --> 00:35:26,240

have been so trained into

921

00:35:30,150 --> 00:35:27,200

um

922

00:35:32,470 --> 00:35:30,160

cgi and visual propoganda and how that's

923

00:35:34,390 --> 00:35:32,480

been used and manipulated over the

924

00:35:36,470 --> 00:35:34,400

course of the last years that for some

925

00:35:37,589 --> 00:35:36,480

people something they see on tv is never

926
00:35:42,870 --> 00:35:37,599
gonna

927
00:35:44,390 --> 00:35:42,880
many no matter how many michio kaku's or

928
00:35:46,950 --> 00:35:44,400
no matter how many

929
00:35:49,109 --> 00:35:46,960
if you bring back stephen hawking or you

930
00:35:51,510 --> 00:35:49,119
know or

931
00:35:53,589 --> 00:35:51,520
or any figure from the bible somehow

932
00:35:55,910 --> 00:35:53,599
through some miracle you still won't get

933
00:35:59,750 --> 00:35:55,920
that yeah but this is freaking moses one

934
00:36:01,750 --> 00:35:59,760
he was 600 years old and they're like

935
00:36:04,069 --> 00:36:01,760
that doesn't look like the moses that i

936
00:36:05,670 --> 00:36:04,079
saw in my church no

937
00:36:09,750 --> 00:36:05,680
no that's not right

938
00:36:15,510 --> 00:36:13,190

that's funny um yeah so

939

00:36:19,430 --> 00:36:15,520

that's it's interesting to think about

940

00:36:21,030 --> 00:36:19,440

and then to think about you know um

941

00:36:23,670 --> 00:36:21,040

will we even be able to get there you

942

00:36:25,109 --> 00:36:23,680

know will we survive to get to a point

943

00:36:29,349 --> 00:36:25,119

to experience

944

00:36:31,589 --> 00:36:29,359

some sort of uh overwhelming um you know

945

00:36:33,270 --> 00:36:31,599

change in world view or disclosure

946

00:36:33,620 --> 00:36:33,280

whatever you want to call it

947

00:36:34,790 --> 00:36:33,630

um

948

00:36:38,069 --> 00:36:34,800

[Music]

949

00:36:40,950 --> 00:36:38,079

you know because as this ramps up we see

950

00:36:42,550 --> 00:36:40,960

you know world conflict ramping up

951
00:36:44,390 --> 00:36:42,560
and and other things

952
00:36:45,750 --> 00:36:44,400
and it's absolutely you know it's

953
00:36:47,910 --> 00:36:45,760
something a part of me thinks it's no

954
00:36:48,790 --> 00:36:47,920
coincidence like what's the deal you

955
00:36:50,630 --> 00:36:48,800
know

956
00:36:53,349 --> 00:36:50,640
a lot of people think that and a lot of

957
00:36:55,670 --> 00:36:53,359
people that are very you know sane

958
00:36:59,109 --> 00:36:55,680
individuals i mean it's hard to not see

959
00:37:02,390 --> 00:36:59,119
that that this that there's been

960
00:37:03,750 --> 00:37:02,400
at the very least it's impossible to to

961
00:37:08,630 --> 00:37:03,760
to

962
00:37:10,390 --> 00:37:08,640
push away you know on one hand

963
00:37:13,430 --> 00:37:10,400

there has been more

964

00:37:15,030 --> 00:37:13,440

disclosure you know since the 2017

965

00:37:17,190 --> 00:37:15,040

uh new york times article on the one

966

00:37:19,109 --> 00:37:17,200

side right that absolutely has happened

967

00:37:20,630 --> 00:37:19,119

and since then there's been increasing

968

00:37:23,030 --> 00:37:20,640

amounts of that with people like

969

00:37:24,550 --> 00:37:23,040

elizondo and colin keller and chris

970

00:37:26,069 --> 00:37:24,560

millen and all the other stuff then on

971

00:37:28,230 --> 00:37:26,079

the other hand you have the part where

972

00:37:29,990 --> 00:37:28,240

it's like gosh you know

973

00:37:32,310 --> 00:37:30,000

california wildfires that's like a whole

974

00:37:34,470 --> 00:37:32,320

nother season somewhere between summer

975

00:37:35,670 --> 00:37:34,480

and fall now and yeah

976
00:37:37,430 --> 00:37:35,680
you know and then we have these world

977
00:37:38,790 --> 00:37:37,440
conflicts happening and it's it's

978
00:37:40,470 --> 00:37:38,800
difficult to

979
00:37:41,910 --> 00:37:40,480
and you can act like they're not tied

980
00:37:43,430 --> 00:37:41,920
together and maybe they're not you know

981
00:37:46,150 --> 00:37:43,440
maybe they don't have anything to do

982
00:37:48,069 --> 00:37:46,160
with each other but you know it's

983
00:37:49,990 --> 00:37:48,079
can you imagine going back in time and

984
00:37:51,910 --> 00:37:50,000
telling somebody like donald kehoe or

985
00:37:53,270 --> 00:37:51,920
whatever like okay it's gonna happen but

986
00:37:55,109 --> 00:37:53,280
you know um

987
00:37:56,790 --> 00:37:55,119
there's gonna be aspects about that that

988
00:37:58,310 --> 00:37:56,800

are gonna be kind of inconvenient it's

989

00:38:02,310 --> 00:37:58,320

always gonna be kind of like the third

990

00:38:03,349 --> 00:38:02,320

story because uh yeah you know yeah no i

991

00:38:05,349 --> 00:38:03,359

hear you

992

00:38:07,030 --> 00:38:05,359

yeah and that's that's

993

00:38:08,870 --> 00:38:07,040

that's kind of interesting too because

994

00:38:10,550 --> 00:38:08,880

it you know a lot of people talk about

995

00:38:12,950 --> 00:38:10,560

uh how

996

00:38:14,950 --> 00:38:12,960

you know i think it was even like what

997

00:38:16,829 --> 00:38:14,960

ronald reagan or whatever in his speech

998

00:38:20,630 --> 00:38:16,839

like um how the world would come

999

00:38:22,069 --> 00:38:20,640

together in in the face of uh

1000

00:38:24,870 --> 00:38:22,079

you know another

1001
00:38:25,990 --> 00:38:24,880
alien race coming here whatever

1002
00:38:26,790 --> 00:38:26,000
um

1003
00:38:29,430 --> 00:38:26,800
yeah

1004
00:38:31,670 --> 00:38:29,440
and it's you know and we see almost like

1005
00:38:32,390 --> 00:38:31,680
the desire the need for us to come

1006
00:38:33,670 --> 00:38:32,400
together

1007
00:38:34,950 --> 00:38:33,680
at some point

1008
00:38:36,950 --> 00:38:34,960
um

1009
00:38:38,470 --> 00:38:36,960
at some point soon right let's take a

1010
00:38:40,870 --> 00:38:38,480
sec to say

1011
00:38:43,430 --> 00:38:40,880
uh thank you to everybody in the chat

1012
00:38:45,430 --> 00:38:43,440
right absolutely thanks everybody for

1013
00:38:48,069 --> 00:38:45,440

being here we've got some real all-stars

1014

00:38:49,030 --> 00:38:48,079

we've got benji i see john davies over

1015

00:38:52,150 --> 00:38:49,040

here

1016

00:38:53,030 --> 00:38:52,160

uh sir psych and andres

1017

00:38:54,470 --> 00:38:53,040

uh

1018

00:38:56,390 --> 00:38:54,480

victor

1019

00:38:57,829 --> 00:38:56,400

uh he's great

1020

00:39:00,630 --> 00:38:57,839

joss

1021

00:39:02,630 --> 00:39:00,640

all sorts of folks over here laura

1022

00:39:04,150 --> 00:39:02,640

wonderful people continuing the

1023

00:39:07,190 --> 00:39:04,160

conversation over here which is

1024

00:39:08,710 --> 00:39:07,200

absolutely wonderful to see yeah

1025

00:39:10,470 --> 00:39:08,720

i really appreciate everyone being here

1026

00:39:13,270 --> 00:39:10,480

and being so kind in the chat

1027

00:39:14,470 --> 00:39:13,280

and being nice to each other that is

1028

00:39:16,470 --> 00:39:14,480

super important

1029

00:39:18,310 --> 00:39:16,480

uh when that falls apart everything else

1030

00:39:20,550 --> 00:39:18,320

does and there's so much bullcrap going

1031

00:39:23,829 --> 00:39:20,560

on in the world that um

1032

00:39:25,030 --> 00:39:23,839

it pays to be polite when you can right

1033

00:39:26,950 --> 00:39:25,040

when you have enough emotional

1034

00:39:29,670 --> 00:39:26,960

intelligence to do that

1035

00:39:31,670 --> 00:39:29,680

absolutely and it isn't always easy

1036

00:39:34,550 --> 00:39:31,680

yeah and it it could be the thing that

1037

00:39:35,349 --> 00:39:34,560

helps get us through

1038

00:39:37,589 --> 00:39:35,359

this

1039

00:39:39,030 --> 00:39:37,599

like all of these wild stories and all

1040

00:39:41,430 --> 00:39:39,040

these wild events that we have in front

1041

00:39:42,630 --> 00:39:41,440

of us right having compassion and love

1042

00:39:44,230 --> 00:39:42,640

for each other

1043

00:39:46,550 --> 00:39:44,240

uh and being able to deal with each

1044

00:39:48,550 --> 00:39:46,560

other as civilly as possible

1045

00:39:50,390 --> 00:39:48,560

yeah super important right

1046

00:39:52,390 --> 00:39:50,400

yeah and it's not always easy right

1047

00:39:54,630 --> 00:39:52,400

because we have those situations where

1048

00:39:57,589 --> 00:39:54,640

people still even in this community seem

1049

00:40:00,790 --> 00:39:57,599

to be making fun of anything

1050

00:40:02,150 --> 00:40:00,800

you know that comes our way and it's so

1051
00:40:04,230 --> 00:40:02,160
um

1052
00:40:08,069 --> 00:40:04,240
it's so

1053
00:40:09,430 --> 00:40:08,079
uh trite at this point right um

1054
00:40:11,670 --> 00:40:09,440
what you know

1055
00:40:13,270 --> 00:40:11,680
making someone who who believes in

1056
00:40:15,990 --> 00:40:13,280
something like this or

1057
00:40:17,190 --> 00:40:16,000
at least is curious or someone who's had

1058
00:40:19,030 --> 00:40:17,200
an experience

1059
00:40:21,030 --> 00:40:19,040
making them feel like less of a person

1060
00:40:23,270 --> 00:40:21,040
for it you know

1061
00:40:25,510 --> 00:40:23,280
and right and and and that's just like

1062
00:40:27,190 --> 00:40:25,520
we've had enough of that right

1063
00:40:28,230 --> 00:40:27,200

absolutely

1064

00:40:31,430 --> 00:40:28,240

so

1065

00:40:33,829 --> 00:40:31,440

it's it's tough because it still happens

1066

00:40:35,829 --> 00:40:33,839

yep and as we've said before you know

1067

00:40:38,230 --> 00:40:35,839

you can do it because you have a need

1068

00:40:39,910 --> 00:40:38,240

kindness in you you can also normally

1069

00:40:42,309 --> 00:40:39,920

normalize want to normalize these

1070

00:40:44,790 --> 00:40:42,319

conversations because you realize that

1071

00:40:46,309 --> 00:40:44,800

that you're not getting all the data if

1072

00:40:47,990 --> 00:40:46,319

you if you're making people feel

1073

00:40:49,270 --> 00:40:48,000

uncomfortable they're not going to talk

1074

00:40:50,710 --> 00:40:49,280

about what they know

1075

00:40:53,589 --> 00:40:50,720

right or what they've experienced or

1076

00:40:55,510 --> 00:40:53,599

what they've seen and what have you you

1077

00:40:56,790 --> 00:40:55,520

know and you know it was pointed out

1078

00:40:57,750 --> 00:40:56,800

earlier that

1079

00:40:59,670 --> 00:40:57,760

um

1080

00:41:01,430 --> 00:40:59,680

i don't know that i should say by who

1081

00:41:04,309 --> 00:41:01,440

but you know there's there's this

1082

00:41:06,309 --> 00:41:04,319

there's this idea that that

1083

00:41:07,910 --> 00:41:06,319

the reason why some of these stories are

1084

00:41:10,069 --> 00:41:07,920

getting planted in places like the sun

1085

00:41:12,630 --> 00:41:10,079

and stuff like that is because there is

1086

00:41:13,750 --> 00:41:12,640

it's still this weird tactic of trying

1087

00:41:15,270 --> 00:41:13,760

to

1088

00:41:17,510 --> 00:41:15,280

smear

1089

00:41:20,630 --> 00:41:17,520

this topic by throwing it into more like

1090

00:41:23,670 --> 00:41:20,640

tabloid oriented papers so that yeah so

1091

00:41:25,589 --> 00:41:23,680

that so that so that respectable people

1092

00:41:26,870 --> 00:41:25,599

don't pursue this stuff but i don't i

1093

00:41:28,150 --> 00:41:26,880

just don't think that that's really

1094

00:41:29,910 --> 00:41:28,160

going to be something that's going to be

1095

00:41:32,550 --> 00:41:29,920

working in the days ahead because there

1096

00:41:34,390 --> 00:41:32,560

there are honest intellectually curious

1097

00:41:36,630 --> 00:41:34,400

people that have been turned onto this

1098

00:41:38,150 --> 00:41:36,640

topic you know i heard diana pasoka

1099

00:41:40,069 --> 00:41:38,160

talking about this just a few weeks ago

1100

00:41:42,230 --> 00:41:40,079

there's there's so many academics that

1101

00:41:43,829 --> 00:41:42,240

are getting turned on to this stuff and

1102

00:41:46,390 --> 00:41:43,839

so even if you don't need the whole

1103

00:41:48,390 --> 00:41:46,400

pentagon to be on board because you have

1104

00:41:50,390 --> 00:41:48,400

all these other people that are just

1105

00:41:52,390 --> 00:41:50,400

also paid money to think about things in

1106

00:41:54,390 --> 00:41:52,400

their own way in their own

1107

00:41:56,390 --> 00:41:54,400

right in their in their in within

1108

00:41:59,430 --> 00:41:56,400

physics or within anthropology or all

1109

00:42:00,150 --> 00:41:59,440

these other fields that do have a tie to

1110

00:42:08,550 --> 00:42:00,160

to

1111

00:42:11,190 --> 00:42:08,560

you know our place in the greater cosmos

1112

00:42:13,270 --> 00:42:11,200

the fabric of reality like what field

1113

00:42:16,710 --> 00:42:13,280

doesn't touch upon these things right

1114

00:42:19,030 --> 00:42:16,720

yeah that's true you know um and

1115

00:42:21,030 --> 00:42:19,040

also in this field like

1116

00:42:23,270 --> 00:42:21,040

you know some people

1117

00:42:25,510 --> 00:42:23,280

who i try to stay away from who claim to

1118

00:42:27,750 --> 00:42:25,520

know what this is and what's going

1119

00:42:30,150 --> 00:42:27,760

and what's going on right

1120

00:42:32,069 --> 00:42:30,160

there are those but aside from that like

1121

00:42:34,150 --> 00:42:32,079

this this topic

1122

00:42:36,710 --> 00:42:34,160

um is something that will be new pretty

1123

00:42:38,710 --> 00:42:36,720

much for everybody at the same time you

1124

00:42:40,950 --> 00:42:38,720

know which is so interesting

1125

00:42:42,710 --> 00:42:40,960

because it won't be

1126

00:42:45,510 --> 00:42:42,720

you know like um

1127

00:42:47,270 --> 00:42:45,520

you know any converting to a belief of

1128

00:42:49,349 --> 00:42:47,280

any sort of religion or anything like

1129

00:42:52,230 --> 00:42:49,359

that it'll be this new thing all at once

1130

00:42:54,230 --> 00:42:52,240

that everybody has to grapple with in in

1131

00:42:55,750 --> 00:42:54,240

um try to understand kind of at the same

1132

00:42:57,589 --> 00:42:55,760

time more or less but

1133

00:42:59,990 --> 00:42:57,599

um you know i'm glad that i'm i'm

1134

00:43:01,589 --> 00:43:00,000

sitting next to people like you uh right

1135

00:43:05,430 --> 00:43:01,599

now because

1136

00:43:07,430 --> 00:43:05,440

um endearing caring intelligent um

1137

00:43:10,230 --> 00:43:07,440

thoughtful and

1138

00:43:12,950 --> 00:43:10,240

um i'm just appreciative um to to be

1139

00:43:15,349 --> 00:43:12,960

surrounded by that right now so oh man

1140

00:43:16,790 --> 00:43:15,359

we got a whole community and you know

1141

00:43:18,230 --> 00:43:16,800

there's a guy named josh in the chat

1142

00:43:20,390 --> 00:43:18,240

that was just talking about how we just

1143

00:43:22,150 --> 00:43:20,400

need to ignore these people and i think

1144

00:43:24,550 --> 00:43:22,160

we generally do a pretty good job of

1145

00:43:25,589 --> 00:43:24,560

that you know the more toxic aspects of

1146

00:43:27,589 --> 00:43:25,599

the field

1147

00:43:30,069 --> 00:43:27,599

um so it's it's i think that it's

1148

00:43:32,069 --> 00:43:30,079

important to just every once in a while

1149

00:43:33,589 --> 00:43:32,079

maybe acknowledge that they happen you

1150

00:43:36,710 --> 00:43:33,599

know that there's that part of the

1151

00:43:40,230 --> 00:43:36,720

debate because i think a lot of people

1152

00:43:41,589 --> 00:43:40,240

are get discouraged when they try to to

1153

00:43:43,829 --> 00:43:41,599

to get online and have these

1154

00:43:45,990 --> 00:43:43,839

conversations and then they see so much

1155

00:43:47,190 --> 00:43:46,000

toxic stuff and so right it's important

1156

00:43:49,430 --> 00:43:47,200

it's i think it's important to

1157

00:43:50,950 --> 00:43:49,440

acknowledge like we see that too and we

1158

00:43:53,270 --> 00:43:50,960

know that we definitely know that that

1159

00:43:56,309 --> 00:43:53,280

stuff is out there and we're just doing

1160

00:43:57,109 --> 00:43:56,319

our best to to try to to focus on the

1161

00:43:59,030 --> 00:43:57,119

work

1162

00:44:01,589 --> 00:43:59,040

and not on the personalities and things

1163

00:44:03,270 --> 00:44:01,599

like that yeah and some days you'll be

1164

00:44:06,790 --> 00:44:03,280

better than others right

1165

00:44:09,829 --> 00:44:06,800

absolutely absolutely yeah let's move on

1166

00:44:11,750 --> 00:44:09,839

to the you know i labeled a classic case

1167

00:44:15,349 --> 00:44:11,760

but maybe i should have labeled it it

1168

00:44:18,150 --> 00:44:15,359

should be a classic case this case

1169

00:44:21,670 --> 00:44:18,160

is very interesting um it takes place in

1170

00:44:24,710 --> 00:44:21,680

1949 february

1171

00:44:26,550 --> 00:44:24,720

in sandberg pass california

1172

00:44:28,309 --> 00:44:26,560

pretty interesting because we have a

1173

00:44:30,710 --> 00:44:28,319

pilot

1174

00:44:32,309 --> 00:44:30,720

who's basically uh first lieutenant

1175

00:44:34,550 --> 00:44:32,319

pilot of the air force i'm just reading

1176

00:44:37,030 --> 00:44:34,560

from it here

1177

00:44:39,910 --> 00:44:37,040

and he went on a round-robin flight

1178

00:44:42,390 --> 00:44:39,920

we have two uh witnesses by the way

1179

00:44:44,870 --> 00:44:42,400

um california to los angeles in return

1180

00:44:47,349 --> 00:44:44,880

reported he was circled by jet propelled

1181

00:44:50,550 --> 00:44:47,359

blimp which uh were very common then by

1182

00:44:53,510 --> 00:44:50,560

the way only 600 miles per hour um the

1183

00:44:56,790 --> 00:44:53,520

thing is uh this person was actually

1184

00:44:58,390 --> 00:44:56,800

i believe um transferring

1185

00:45:00,790 --> 00:44:58,400

like um

1186

00:45:04,309 --> 00:45:00,800

um prisoners or something

1187

00:45:06,150 --> 00:45:04,319

and was also

1188

00:45:09,190 --> 00:45:06,160

like going to be in a bowling tournament

1189

00:45:12,710 --> 00:45:11,430

which is a hilarious thing he goes on

1190

00:45:16,710 --> 00:45:12,720

this flight

1191

00:45:18,550 --> 00:45:16,720

um and sees this big blimp looking thing

1192

00:45:19,589 --> 00:45:18,560

that he says with jet propelled or

1193

00:45:21,910 --> 00:45:19,599

whatever

1194

00:45:23,910 --> 00:45:21,920

um and did maneuvers like right over the

1195

00:45:27,109 --> 00:45:23,920

top of his head whether it be 180

1196

00:45:29,589 --> 00:45:27,119

degrees or a 360 degree maneuver

1197

00:45:31,109 --> 00:45:29,599

the passenger uh pilot

1198

00:45:32,790 --> 00:45:31,119

oddly enough

1199

00:45:35,190 --> 00:45:32,800

didn't see anything which is pretty

1200

00:45:37,750 --> 00:45:35,200

interesting and the other witness was a

1201
00:45:39,109 --> 00:45:37,760
arts uh like an art school student

1202
00:45:40,790 --> 00:45:39,119
so

1203
00:45:44,829 --> 00:45:40,800
um

1204
00:45:47,270 --> 00:45:44,839
it's pretty interesting to me mostly

1205
00:45:49,510 --> 00:45:47,280
because you know they they called it a

1206
00:45:51,109 --> 00:45:49,520
mirage right

1207
00:45:54,870 --> 00:45:51,119
that that's what they wanted

1208
00:45:56,630 --> 00:45:54,880
uh calling it and to me it's just so

1209
00:45:58,950 --> 00:45:56,640
indicative of

1210
00:46:01,270 --> 00:45:58,960
how this has gone for so long if it's

1211
00:46:03,670 --> 00:46:01,280
something that doesn't make sense

1212
00:46:05,990 --> 00:46:03,680
it's fake it's not real

1213
00:46:08,150 --> 00:46:06,000

right and it's a very and it's a very

1214

00:46:09,670 --> 00:46:08,160

concrete description you know we've got

1215

00:46:12,150 --> 00:46:09,680

you know it's 20

1216

00:46:14,470 --> 00:46:12,160

20 degrees above the flight path that

1217

00:46:17,510 --> 00:46:14,480

they were on you know it does it does

1218

00:46:19,829 --> 00:46:17,520

this 360 move in about 40 seconds as

1219

00:46:22,230 --> 00:46:19,839

from what i saw it seemed to be going

1220

00:46:24,069 --> 00:46:22,240

maybe 600 miles now okay and if we're

1221

00:46:25,990 --> 00:46:24,079

talking 600 miles an hour is that what

1222

00:46:28,960 --> 00:46:26,000

we're talking about like yeah

1223

00:46:30,390 --> 00:46:28,970

what blimp goes 600 miles an hour now

1224

00:46:31,990 --> 00:46:30,400

[Laughter]

1225

00:46:35,190 --> 00:46:32,000

much less than

1226
00:46:36,150 --> 00:46:35,200
you know 70 years ago 70 plus 73 years

1227
00:46:40,790 --> 00:46:36,160
ago

1228
00:46:43,670 --> 00:46:40,800
a 600 mile an hour

1229
00:46:44,950 --> 00:46:43,680
rocket rocket rocket boosted blimp

1230
00:46:47,670 --> 00:46:44,960
right

1231
00:46:49,589 --> 00:46:47,680
amazing now this you i always see this

1232
00:46:51,349 --> 00:46:49,599
too which is so interesting like the the

1233
00:46:53,589 --> 00:46:51,359
people who are investigating these they

1234
00:46:55,750 --> 00:46:53,599
talk about the the witnesses right and

1235
00:46:57,750 --> 00:46:55,760
they always have to speak to their um

1236
00:46:59,910 --> 00:46:57,760
you know their character and here we

1237
00:47:01,670 --> 00:46:59,920
have the the second witness uh it was

1238
00:47:03,589 --> 00:47:01,680

another lieutenant but it was a student

1239

00:47:06,150 --> 00:47:03,599

of industrial arts at fresno state

1240

00:47:08,550 --> 00:47:06,160

teachers college um they wrote appeared

1241

00:47:10,710 --> 00:47:08,560

to be an earnest young man rather quiet

1242

00:47:12,309 --> 00:47:10,720

and reserved with no particular aptitude

1243

00:47:15,270 --> 00:47:12,319

for self-expression

1244

00:47:18,150 --> 00:47:15,280

he is yeah which is not very nice but he

1245

00:47:19,990 --> 00:47:18,160

is regarded as sober and respectable and

1246

00:47:22,309 --> 00:47:20,000

enjoys a good reputation among his

1247

00:47:23,910 --> 00:47:22,319

associates in the school in the opinion

1248

00:47:25,829 --> 00:47:23,920

of the investigating officer the

1249

00:47:28,630 --> 00:47:25,839

lieutenant would have neither the

1250

00:47:32,390 --> 00:47:28,640

inclination nor the ability to construct

1251

00:47:34,230 --> 00:47:32,400

this report in a wild flight of fancy

1252

00:47:36,630 --> 00:47:34,240

i kind of hope that he didn't see that

1253

00:47:37,510 --> 00:47:36,640

assessment afterwards right right yeah

1254

00:47:39,589 --> 00:47:37,520

yeah

1255

00:47:41,670 --> 00:47:39,599

that would really bum me out if i was oh

1256

00:47:43,270 --> 00:47:41,680

we have the third actually i missed that

1257

00:47:45,270 --> 00:47:43,280

we have a third witness

1258

00:47:47,109 --> 00:47:45,280

lieutenant was first interviewed 22nd

1259

00:47:49,030 --> 00:47:47,119

march 49 he

1260

00:47:50,790 --> 00:47:49,040

uh reported that at the time of the

1261

00:47:53,349 --> 00:47:50,800

observation he had been seated in the

1262

00:47:56,470 --> 00:47:53,359

left pilot seat of the

1263

00:47:58,150 --> 00:47:56,480

f-11 aircraft does that say i'm not sure

1264

00:47:59,829 --> 00:47:58,160

uh flying the return leg of a round

1265

00:48:00,870 --> 00:47:59,839

robin cross country

1266

00:48:03,030 --> 00:48:00,880

um

1267

00:48:04,150 --> 00:48:03,040

yeah so sorry i missed that third one

1268

00:48:06,230 --> 00:48:04,160

there but yeah that was pretty

1269

00:48:08,549 --> 00:48:06,240

interesting the other interesting thing

1270

00:48:09,829 --> 00:48:08,559

is yeah here's the description as you

1271

00:48:12,069 --> 00:48:09,839

talked about it

1272

00:48:14,470 --> 00:48:12,079

sausage shaped

1273

00:48:19,030 --> 00:48:14,480

and that both the forward and trailing

1274

00:48:27,109 --> 00:48:19,040

ends resembled a b29 nose

1275

00:48:30,549 --> 00:48:29,109

yep

1276

00:48:34,150 --> 00:48:30,559

maybe uh

1277

00:48:38,790 --> 00:48:36,710

and guess where this was

1278

00:48:40,420 --> 00:48:38,800

i was off the coast california off it

1279

00:48:42,150 --> 00:48:40,430

goes to southern california right

1280

00:48:43,630 --> 00:48:42,160

[Laughter]

1281

00:48:46,950 --> 00:48:43,640

absolutely

1282

00:48:47,910 --> 00:48:46,960

1949 1949 folks

1283

00:48:49,109 --> 00:48:47,920

well

1284

00:48:54,630 --> 00:48:49,119

a

1285

00:48:57,109 --> 00:48:54,640

looked like two fingers

1286

00:48:58,309 --> 00:48:57,119

well two fingers

1287

00:48:59,270 --> 00:48:58,319

yeah

1288

00:49:00,790 --> 00:48:59,280

yep

1289

00:49:02,710 --> 00:49:00,800

and uh

1290

00:49:05,670 --> 00:49:02,720

and they thought that though that there

1291

00:49:07,349 --> 00:49:05,680

was exhaust coming off the back

1292

00:49:09,510 --> 00:49:07,359

right it seemed like there was some kind

1293

00:49:11,510 --> 00:49:09,520

of that there's some kind of exhaust or

1294

00:49:13,910 --> 00:49:11,520

fire coming off the back there's

1295

00:49:15,430 --> 00:49:13,920

illumination so in one generation what

1296

00:49:17,510 --> 00:49:15,440

you don't know what the thing is would

1297

00:49:19,349 --> 00:49:17,520

it you know what are you gonna say it is

1298

00:49:21,670 --> 00:49:19,359

oh it was obviously a spaceship and one

1299

00:49:22,549 --> 00:49:21,680

end was illuminated no

1300

00:49:25,829 --> 00:49:22,559

you know

1301

00:49:27,510 --> 00:49:25,839

the guy thought it was a blimp uh

1302

00:49:30,790 --> 00:49:27,520

a jet blimp

1303

00:49:32,549 --> 00:49:30,800

with uh you know some exhaust

1304

00:49:34,230 --> 00:49:32,559

absolutely that's how the brain works

1305

00:49:36,630 --> 00:49:34,240

you know 100

1306

00:49:38,549 --> 00:49:36,640

and this is and this is how this stuff i

1307

00:49:40,710 --> 00:49:38,559

mean sean this is one of your great

1308

00:49:42,790 --> 00:49:40,720

gifts here is is and this is what more

1309

00:49:44,950 --> 00:49:42,800

people need to be doing in the field is

1310

00:49:47,109 --> 00:49:44,960

is not looking for the words tic tac

1311

00:49:49,109 --> 00:49:47,119

obviously as you've mentioned many times

1312

00:49:52,150 --> 00:49:49,119

when you go back in the history but look

1313

00:49:55,510 --> 00:49:52,160

for this the look for cigars right or

1314

00:49:57,510 --> 00:49:55,520

look for tubes or or look you know

1315

00:49:59,829 --> 00:49:57,520

eggs eggs yeah

1316

00:50:02,069 --> 00:49:59,839

yeah absolutely you know

1317

00:50:05,750 --> 00:50:02,079

all of these kinds of situations yeah

1318

00:50:07,109 --> 00:50:05,760

which all go back to the in you know

1319

00:50:08,870 --> 00:50:07,119

traverse the same

1320

00:50:10,790 --> 00:50:08,880

that traversable wormhole but you know

1321

00:50:13,430 --> 00:50:10,800

the same time period

1322

00:50:15,670 --> 00:50:13,440

um there's egg shapes like most people

1323

00:50:18,309 --> 00:50:15,680

think of that they think of uh socorro

1324

00:50:21,430 --> 00:50:18,319

milani zamora but i am just putting

1325

00:50:24,950 --> 00:50:21,440

together a folder worth of you know at

1326
00:50:25,710 --> 00:50:24,960
least i'm up to like 10 egg shape craft

1327
00:50:28,230 --> 00:50:25,720
in

1328
00:50:29,270 --> 00:50:28,240
1949 you know

1329
00:50:31,910 --> 00:50:29,280
like

1330
00:50:33,829 --> 00:50:31,920
it's been going on for for uh quite a

1331
00:50:35,510 --> 00:50:33,839
while at the same

1332
00:50:37,829 --> 00:50:35,520
types of

1333
00:50:39,510 --> 00:50:37,839
descriptions you know so and this is

1334
00:50:41,829 --> 00:50:39,520
interesting too because this is another

1335
00:50:43,589 --> 00:50:41,839
reason i really like this case

1336
00:50:45,190 --> 00:50:43,599
because

1337
00:50:46,069 --> 00:50:45,200
they actually went

1338
00:50:48,069 --> 00:50:46,079

to

1339

00:50:49,510 --> 00:50:48,079

and checked with these different

1340

00:50:51,990 --> 00:50:49,520

um places

1341

00:50:53,030 --> 00:50:52,000

to see if hey were you flying something

1342

00:50:55,270 --> 00:50:53,040

weird

1343

00:50:57,510 --> 00:50:55,280

you know did you have anything in the in

1344

00:51:00,549 --> 00:50:57,520

the sky around here and they did they

1345

00:51:02,470 --> 00:51:00,559

not only checked you know like the 67th

1346

00:51:04,069 --> 00:51:02,480

attack attack

1347

00:51:06,390 --> 00:51:04,079

reconnaissance like

1348

00:51:08,069 --> 00:51:06,400

first fighter group based operations

1349

00:51:10,150 --> 00:51:08,079

they also checked commercial places

1350

00:51:11,829 --> 00:51:10,160

north american aviation lockheed

1351
00:51:14,069 --> 00:51:11,839
aircraft corporation

1352
00:51:15,270 --> 00:51:14,079
um the naval air station they checked

1353
00:51:18,710 --> 00:51:15,280
all of these

1354
00:51:23,990 --> 00:51:20,710
at the time of the observation was made

1355
00:51:28,390 --> 00:51:25,910
you know it's a great point that you

1356
00:51:30,950 --> 00:51:28,400
know this is a this is you know that's a

1357
00:51:33,190 --> 00:51:30,960
that's kind of a fair amount of due

1358
00:51:35,430 --> 00:51:33,200
diligence there right if you're ringing

1359
00:51:37,190 --> 00:51:35,440
up 13 different places and getting them

1360
00:51:38,549 --> 00:51:37,200
to go and confirm go and look whether

1361
00:51:40,230 --> 00:51:38,559
they had something up there at the time

1362
00:51:41,829 --> 00:51:40,240
or not and they don't have like an

1363
00:51:44,069 --> 00:51:41,839

internet database they're not they don't

1364

00:51:45,670 --> 00:51:44,079

have to just check google drive

1365

00:51:46,630 --> 00:51:45,680

yeah they actually got to go talk to

1366

00:51:53,190 --> 00:51:46,640

people

1367

00:51:55,190 --> 00:51:53,200

cabinet somewhere and then go and call

1368

00:51:57,430 --> 00:51:55,200

the other person back things were things

1369

00:51:58,870 --> 00:51:57,440

were super different back then and oh

1370

00:52:01,270 --> 00:51:58,880

one of the other cool parts that i saw

1371

00:52:03,190 --> 00:52:01,280

in there which is just it is probably

1372

00:52:07,030 --> 00:52:03,200

totally benign but i thought that it was

1373

00:52:08,230 --> 00:52:07,040

it was a fun detail as a what if is that

1374

00:52:11,349 --> 00:52:08,240

the person

1375

00:52:13,109 --> 00:52:11,359

um was trying to radio the one other

1376

00:52:15,349 --> 00:52:13,119

ship that he saw

1377

00:52:16,549 --> 00:52:15,359

and he actually ended up talking to

1378

00:52:21,030 --> 00:52:16,559

somebody

1379

00:52:21,910 --> 00:52:21,040

couldn't under identify who that person

1380

00:52:25,190 --> 00:52:21,920

was

1381

00:52:26,309 --> 00:52:25,200

fun

1382

00:52:28,470 --> 00:52:26,319

uh

1383

00:52:30,470 --> 00:52:28,480

you know beard scratcher right there

1384

00:52:32,390 --> 00:52:30,480

yeah that's weird because he landed you

1385

00:52:34,790 --> 00:52:32,400

know the other uh

1386

00:52:36,710 --> 00:52:34,800

planes and pilots that were

1387

00:52:38,950 --> 00:52:36,720

you know in the area or dispatchers or

1388

00:52:41,109 --> 00:52:38,960

whatever you'd call them

1389

00:52:44,309 --> 00:52:41,119

you go hey that was you right

1390

00:52:46,150 --> 00:52:44,319

so yeah here at the end

1391

00:52:48,710 --> 00:52:46,160

the other pilot that i was attempting to

1392

00:52:50,630 --> 00:52:48,720

contact did not observe the object and

1393

00:52:52,160 --> 00:52:50,640

to my knowledge i am the only person who

1394

00:52:54,390 --> 00:52:52,170

may not well that's not the part

1395

00:52:57,430 --> 00:52:54,400

[Laughter]

1396

00:52:59,670 --> 00:52:57,440

um by someone okay here we go uh i was

1397

00:53:01,910 --> 00:52:59,680

answered by someone whom i believe to be

1398

00:53:04,230 --> 00:53:01,920

this pilot but i later determined that

1399

00:53:06,870 --> 00:53:04,240

although he had received my transmission

1400

00:53:09,270 --> 00:53:06,880

he had been unable to reply due to the

1401
00:53:11,190 --> 00:53:09,280
interference of the unknown individual

1402
00:53:13,750 --> 00:53:11,200
who was answering me so is this like

1403
00:53:15,349 --> 00:53:13,760
some kid in his bedroom like yeah i got

1404
00:53:18,230 --> 00:53:15,359
you roger that you know it's

1405
00:53:21,190 --> 00:53:18,240
intercepting the signal

1406
00:53:23,030 --> 00:53:21,200
yeah or is it or is it something else

1407
00:53:24,950 --> 00:53:23,040
bum bum bum you know

1408
00:53:26,630 --> 00:53:24,960
i uh but uh

1409
00:53:28,230 --> 00:53:26,640
you know i'm sure i'm sure that it was

1410
00:53:29,829 --> 00:53:28,240
it was just some craft that he couldn't

1411
00:53:32,390 --> 00:53:29,839
see and there's somebody else out there

1412
00:53:34,950 --> 00:53:32,400
but i love that little detail but yeah i

1413
00:53:36,710 --> 00:53:34,960

mean the the shape where it is all of

1414

00:53:39,109 --> 00:53:36,720

that it makes a lot of sense and it's

1415

00:53:40,790 --> 00:53:39,119

funny because you know we didn't know at

1416

00:53:42,470 --> 00:53:40,800

the start of today

1417

00:53:44,790 --> 00:53:42,480

necessarily what we're going to cover

1418

00:53:46,950 --> 00:53:44,800

and then it turns out that you know that

1419

00:53:48,790 --> 00:53:46,960

we can get all the way from the wormhole

1420

00:53:51,109 --> 00:53:48,800

did

1421

00:53:54,470 --> 00:53:51,119

through a tear in the sky and their

1422

00:53:56,309 --> 00:53:54,480

observation of of that same similar area

1423

00:53:58,870 --> 00:53:56,319

of southern california all the way back

1424

00:53:59,750 --> 00:53:58,880

to that case in 1949 that's a great

1425

00:54:01,990 --> 00:53:59,760

point

1426
00:54:04,069 --> 00:54:02,000
and i think it's a we look at that man

1427
00:54:07,829 --> 00:54:04,079
we we did a great job of

1428
00:54:10,230 --> 00:54:07,839
of accidentally tying tying uh 73 years

1429
00:54:12,150 --> 00:54:10,240
of history

1430
00:54:15,670 --> 00:54:12,160
together

1431
00:54:17,109 --> 00:54:15,680
man yeah yeah not bad with a case that

1432
00:54:19,030 --> 00:54:17,119
uh well i don't know maybe some people

1433
00:54:20,069 --> 00:54:19,040
have heard of but i've never heard of it

1434
00:54:22,309 --> 00:54:20,079
so

1435
00:54:24,549 --> 00:54:22,319
like this 1949 case

1436
00:54:26,309 --> 00:54:24,559
it's so interesting um because i was

1437
00:54:28,390 --> 00:54:26,319
really just looking

1438
00:54:30,710 --> 00:54:28,400

um you know

1439

00:54:32,230 --> 00:54:30,720

through files for and i was using this

1440

00:54:34,630 --> 00:54:32,240

particular word

1441

00:54:39,030 --> 00:54:34,640

i was using the word transfer

1442

00:54:40,710 --> 00:54:39,040

so i could maybe see some documents that

1443

00:54:43,349 --> 00:54:40,720

that i was looking for about when they

1444

00:54:45,030 --> 00:54:43,359

tried to transfer the the ufo program to

1445

00:54:46,069 --> 00:54:45,040

a different division

1446

00:54:48,470 --> 00:54:46,079

um

1447

00:54:51,190 --> 00:54:48,480

and a couple of those popped up as well

1448

00:54:52,390 --> 00:54:51,200

as you know a few cases and for the heck

1449

00:54:53,990 --> 00:54:52,400

of it i was like

1450

00:54:55,510 --> 00:54:54,000

i clicked on a few of the cases because

1451

00:54:58,069 --> 00:54:55,520

sometimes you'll find papers in there

1452

00:55:00,230 --> 00:54:58,079

that are don't belong in there but they

1453

00:55:02,630 --> 00:55:00,240

could be interesting and i saw this one

1454

00:55:04,549 --> 00:55:02,640

i'm like yeah and i was getting

1455

00:55:06,710 --> 00:55:04,559

i was getting bummed out at the time

1456

00:55:10,710 --> 00:55:06,720

about this because i'm like man

1457

00:55:13,589 --> 00:55:10,720

all this crap i look at is like the same

1458

00:55:16,549 --> 00:55:13,599

uh like not the citing paperwork but

1459

00:55:19,510 --> 00:55:16,559

like their you know staff studies or

1460

00:55:21,829 --> 00:55:19,520

transfer documents like they never put

1461

00:55:24,309 --> 00:55:21,839

anything in there you know that that you

1462

00:55:25,829 --> 00:55:24,319

could it's like oh you know there it is

1463

00:55:27,510 --> 00:55:25,839

and i remember hearing richard dolan

1464

00:55:29,190 --> 00:55:27,520

talk about this one times like you're

1465

00:55:31,750 --> 00:55:29,200

always looking for that document that

1466

00:55:32,829 --> 00:55:31,760

one document but it's just not there you

1467

00:55:36,069 --> 00:55:32,839

know

1468

00:55:38,870 --> 00:55:36,079

and i was like man it's a freaking

1469

00:55:40,549 --> 00:55:38,880

bummer and then i find this case

1470

00:55:43,430 --> 00:55:40,559

and i'm like

1471

00:55:45,829 --> 00:55:43,440

it reinvigorates me like i get upset and

1472

00:55:50,069 --> 00:55:48,150

you know like what the frick is going on

1473

00:55:52,549 --> 00:55:50,079

you know like how can you say that

1474

00:55:54,710 --> 00:55:52,559

there's no evidence of of this or that

1475

00:55:57,589 --> 00:55:54,720

you know like when it's not just this

1476

00:55:59,750 --> 00:55:57,599

case there's like so many of these

1477

00:56:03,589 --> 00:55:59,760

pilots military cases

1478

00:56:05,990 --> 00:56:03,599

and it's it's just um it has to be

1479

00:56:07,510 --> 00:56:06,000

some you know bit of uh

1480

00:56:10,549 --> 00:56:07,520

negligence

1481

00:56:14,829 --> 00:56:10,559

and um you know whatever secrets there

1482

00:56:17,349 --> 00:56:14,839

were if there were i were really deep

1483

00:56:19,430 --> 00:56:17,359

absolutely absolutely

1484

00:56:20,549 --> 00:56:19,440

so

1485

00:56:23,190 --> 00:56:20,559

but

1486

00:56:24,150 --> 00:56:23,200

that's all i got for today man

1487

00:56:26,390 --> 00:56:24,160

uh

1488

00:56:28,230 --> 00:56:26,400

hey i think i think we i think we

1489

00:56:29,349 --> 00:56:28,240

buttoned it up pretty good for for one

1490

00:56:32,789 --> 00:56:29,359

day's work

1491

00:56:35,510 --> 00:56:32,799

uh we covered some recent uap news we

1492

00:56:38,309 --> 00:56:35,520

we we looked at a great research paper

1493

00:56:39,910 --> 00:56:38,319

that's in the news these days i talked

1494

00:56:42,549 --> 00:56:39,920

about an upcoming documentary and some

1495

00:56:45,589 --> 00:56:42,559

scuttlebutt about it and tied it back to

1496

00:56:49,109 --> 00:56:45,599

a case from 1949. i think that's that's

1497

00:56:50,789 --> 00:56:49,119

a that's a pretty good gosh darn day

1498

00:56:53,190 --> 00:56:50,799

um you know

1499

00:56:55,030 --> 00:56:53,200

we could have went farther to back all

1500

00:56:56,789 --> 00:56:55,040

the way back to airships because we're

1501
00:56:59,589 --> 00:56:56,799
talking about jet propelled blimps i

1502
00:57:01,430 --> 00:56:59,599
mean

1503
00:57:02,870 --> 00:57:01,440
we should at some point we can yeah we

1504
00:57:04,789 --> 00:57:02,880
can look at some of those old airship

1505
00:57:07,589 --> 00:57:04,799
cases you know we can go back to some

1506
00:57:09,510 --> 00:57:07,599
valet and kasabak stuff that sounds fun

1507
00:57:10,390 --> 00:57:09,520
oh and along the lines of egg-shaped

1508
00:57:12,549 --> 00:57:10,400
craft

1509
00:57:14,230 --> 00:57:12,559
one of my very favorite cases

1510
00:57:16,950 --> 00:57:14,240
um and i know it's one of richard's

1511
00:57:19,349 --> 00:57:16,960
favorites as well actually um and

1512
00:57:23,829 --> 00:57:19,359
especially his wife tracy um the

1513
00:57:26,470 --> 00:57:23,839

valensole 1965 french case um with with

1514

00:57:29,430 --> 00:57:26,480

an egg-shaped craft and occupants that

1515

00:57:31,589 --> 00:57:29,440

landed in a field of lavender it's just

1516

00:57:34,230 --> 00:57:31,599

like a really powerful and fun visual

1517

00:57:36,390 --> 00:57:34,240

but the case itself is really great too

1518

00:57:38,470 --> 00:57:36,400

like a lot of cases from the day

1519

00:57:40,630 --> 00:57:38,480

it involved a guy just out smoking a

1520

00:57:44,150 --> 00:57:40,640

cigarette and then the wildest stuff

1521

00:57:46,069 --> 00:57:44,160

they ever saw happened just like me

1522

00:57:47,990 --> 00:57:46,079

pretty much yeah

1523

00:57:49,510 --> 00:57:48,000

what maybe it's in the hey maybe it's in

1524

00:57:57,190 --> 00:57:49,520

the tobacco

1525

00:58:01,750 --> 00:57:59,750

don't even don't even give him the gas

1526

00:58:03,190 --> 00:58:01,760

in the in the tank with

1527

00:58:04,230 --> 00:58:03,200

that kind of talk

1528

00:58:05,990 --> 00:58:04,240

all right well

1529

00:58:07,190 --> 00:58:06,000

you know thanks for doing this i really

1530

00:58:09,670 --> 00:58:07,200

had a great time with you i know we

1531

00:58:11,670 --> 00:58:09,680

didn't have uh i guess but um i think we

1532

00:58:14,230 --> 00:58:11,680

should do this more often too i really

1533

00:58:15,829 --> 00:58:14,240

enjoyed it so oh me too man yeah came

1534

00:58:17,990 --> 00:58:15,839

together really naturally i loved it

1535

00:58:20,150 --> 00:58:18,000

yeah it's great to see everybody in the

1536

00:58:22,710 --> 00:58:20,160

chat kristen says take up smoking

1537

00:58:25,109 --> 00:58:22,720

everyone gotcha kirsten great thanks

1538

00:58:27,829 --> 00:58:25,119

thanks kristen yeah my co-founder in the

1539

00:58:30,789 --> 00:58:27,839

experiencer group definitely a role

1540

00:58:32,950 --> 00:58:30,799

model and a leader in the field

1541

00:58:34,950 --> 00:58:32,960

i love where could people find you i i

1542

00:58:37,030 --> 00:58:34,960

was a bad

1543

00:58:38,950 --> 00:58:37,040

a bad guy and i i didn't put your info

1544

00:58:40,630 --> 00:58:38,960

in the description oh you can find me by

1545

00:58:44,069 --> 00:58:40,640

searching the experiencer group you can

1546

00:58:47,030 --> 00:58:44,079

find me by looking at

1547

00:58:48,829 --> 00:58:47,040

for experiencers at for experiencers on

1548

00:58:51,270 --> 00:58:48,839

twitter or you could also find me on

1549

00:58:55,349 --> 00:58:51,280

twitter uh under my name j christopher

1550

00:58:56,549 --> 00:58:55,359

king or at j a y c king 78 which is a

1551

00:58:59,430 --> 00:58:56,559

pretty wonky

1552

00:59:01,190 --> 00:58:59,440

uh twitter handle admittedly

1553

00:59:05,589 --> 00:59:01,200

do you only respond to people when they

1554

00:59:07,589 --> 00:59:05,599

call you by all three names um

1555

00:59:08,710 --> 00:59:07,599

no they just say hey jay king did are

1556

00:59:10,230 --> 00:59:08,720

you like

1557

00:59:12,710 --> 00:59:10,240

i kind of prefer

1558

00:59:15,190 --> 00:59:12,720

you know like um i i prefer it i used to

1559

00:59:17,430 --> 00:59:15,200

just go by jk for the most part and then

1560

00:59:18,630 --> 00:59:17,440

actually ralph blumenthal was he like

1561

00:59:20,870 --> 00:59:18,640

would only refer to me as jay

1562

00:59:23,030 --> 00:59:20,880

christopher and i realized that part of

1563

00:59:25,030 --> 00:59:23,040

it was for google ability and i thought

1564

00:59:26,630 --> 00:59:25,040

that that was that that was good because

1565

00:59:28,150 --> 00:59:26,640

there are a bunch of j kings out there

1566

00:59:32,069 --> 00:59:28,160

and one of them

1567

00:59:33,589 --> 00:59:32,079

runs a sells jewelry on like qvc i think

1568

00:59:34,549 --> 00:59:33,599

and another one

1569

00:59:36,789 --> 00:59:34,559

um

1570

00:59:38,390 --> 00:59:36,799

there are i think there are three guys

1571

00:59:41,430 --> 00:59:38,400

that i know of that are either in rap or

1572

00:59:44,230 --> 00:59:41,440

rnb named jay king one of whom was in

1573

00:59:46,630 --> 00:59:44,240

that band club nouveau like the 80s rnb

1574

00:59:50,230 --> 00:59:46,640

group and now he's got his own podcast

1575

00:59:52,710 --> 00:59:50,240

he's like a 60 year old dude so um it's

1576

00:59:55,589 --> 00:59:52,720

better for clarity closest i got to me

1577

00:59:57,109 --> 00:59:55,599

is sean rash who is a professional

1578

01:00:00,390 --> 00:59:57,119

bowler

1579

01:00:02,470 --> 01:00:00,400

that is not i mean as far as somebody

1580

01:00:04,870 --> 01:00:02,480

that's close to you that's not so bad

1581

01:00:06,630 --> 01:00:04,880

not bad you know not bad at all

1582

01:00:08,470 --> 01:00:06,640

all right all right thanks everybody in

1583

01:00:11,270 --> 01:00:08,480

the chat for hanging out being so great

1584

01:00:13,190 --> 01:00:11,280

and peaceful i do appreciate it jay i

1585

01:00:14,789 --> 01:00:13,200

look forward to the next time we we get

1586

01:00:15,589 --> 01:00:14,799

to do this and have a great rest of the

1587

01:00:17,829 --> 01:00:15,599

day

1588

01:00:19,510 --> 01:00:17,839

absolutely you too man and uh thanks to

1589

01:00:21,589 --> 01:00:19,520

everybody in the chat and thanks to

1590

01:00:22,789 --> 01:00:21,599

everybody watching later

1591

01:00:31,520 --> 01:00:22,799

peace

1592

01:00:44,070 --> 01:00:34,150

[Music]

1593

01:01:05,760 --> 01:00:45,750

[Applause]

1594

01:01:17,160 --> 01:01:08,789

[Music]

1595

01:01:30,790 --> 01:01:17,170

[Applause]

1596

01:01:39,270 --> 01:01:36,789

[Music]
