

UAP NEWS 4.27.22

plus GRAEME

RENDALL

TALKS ABOUT HIS

NEW BOOK

1
00:00:09,850 --> 00:00:02,150
hey

2
00:00:28,310 --> 00:00:16,350
[Music]

3
00:00:39,590 --> 00:00:29,940
my god

4
00:00:39,600 --> 00:00:44,549
flying object

5
00:01:02,790 --> 00:00:46,470
showing ufos seamlessly traveling

6
00:01:09,350 --> 00:01:06,310
what's up everybody uh happy wednesday

7
00:01:11,510 --> 00:01:09,360
i hope your update is going

8
00:01:13,429 --> 00:01:11,520
uh pretty good you know you got to be

9
00:01:14,310 --> 00:01:13,439
realistic i'm not going to say i hope

10
00:01:15,910 --> 00:01:14,320
it's

11
00:01:18,070 --> 00:01:15,920
you know the best wednesday ever in the

12
00:01:19,749 --> 00:01:18,080
world or

13
00:01:21,670 --> 00:01:19,759

you know a terrible wednesday i just

14

00:01:23,590 --> 00:01:21,680

hope it's a fine wednesday you know we

15

00:01:25,270 --> 00:01:23,600

have to be realistic just like our

16

00:01:27,429 --> 00:01:25,280

studies in

17

00:01:28,550 --> 00:01:27,439

chief right we have to go by the facts

18

00:01:30,789 --> 00:01:28,560

factually

19

00:01:31,749 --> 00:01:30,799

wednesdays are always

20

00:01:34,950 --> 00:01:31,759

yeah

21

00:01:37,749 --> 00:01:36,550

i think that's pretty good right and

22

00:01:40,230 --> 00:01:37,759

hopefully

23

00:01:42,069 --> 00:01:40,240

uh this show and these these beautiful

24

00:01:44,550 --> 00:01:42,079

faces i'm about to bring in

25

00:01:45,830 --> 00:01:44,560

one of which is someone you're uber

26

00:01:48,069 --> 00:01:45,840

familiar with

27

00:01:49,990 --> 00:01:48,079

jay christopher king how are you sir

28

00:01:52,310 --> 00:01:50,000

i'm doing well it's great to be here on

29

00:01:55,190 --> 00:01:52,320

hump day with sean i missed you last

30

00:02:01,270 --> 00:01:55,200

week and um i hope that i can

31

00:02:05,970 --> 00:02:03,510

i just hope i hope that i can as as

32

00:02:08,309 --> 00:02:05,980

usual bring you from

33

00:02:10,469 --> 00:02:08,319

[Laughter]

34

00:02:13,030 --> 00:02:10,479

and we can do the same for our our

35

00:02:14,869 --> 00:02:13,040

wonderful audience out there

36

00:02:16,309 --> 00:02:14,879

no i missed you too man

37

00:02:18,150 --> 00:02:16,319

i know you were away i hope that time

38

00:02:20,949 --> 00:02:18,160

went all right for you i'm glad to have

39

00:02:23,589 --> 00:02:20,959

you back so with a familiar guest as

40

00:02:25,830 --> 00:02:23,599

well right absolutely yeah it's

41

00:02:28,309 --> 00:02:25,840

wonderful to have mr rindell here again

42

00:02:30,550 --> 00:02:28,319

today i've got a short bio um for him if

43

00:02:32,630 --> 00:02:30,560

if you oh do one of those i think it's

44

00:02:34,710 --> 00:02:32,640

like that's like my dream is to have you

45

00:02:35,670 --> 00:02:34,720

write a bio for me and introduce me one

46

00:02:37,350 --> 00:02:35,680

day

47

00:02:38,949 --> 00:02:37,360

okay well we'll just have to we'll have

48

00:02:39,990 --> 00:02:38,959

to reorganize the show a little bit but

49

00:02:41,430 --> 00:02:40,000

that's okay

50

00:02:42,949 --> 00:02:41,440

okay well

51
00:02:45,509 --> 00:02:42,959
take it away sir

52
00:02:48,390 --> 00:02:45,519
go out all right here let me uh wait oh

53
00:02:49,910 --> 00:02:48,400
i i almost got it here just just

54
00:02:51,270 --> 00:02:49,920
you know we could do a little drumroll

55
00:02:52,229 --> 00:02:51,280
here there we go

56
00:02:54,470 --> 00:02:52,239
okay

57
00:02:56,710 --> 00:02:54,480
graham rindahl is a full-time author and

58
00:02:59,430 --> 00:02:56,720
commentator on the unidentified aerial

59
00:03:01,430 --> 00:02:59,440
phenomenon issue he's also a contributor

60
00:03:03,270 --> 00:03:01,440
to the debrief and a frequent guest on

61
00:03:04,949 --> 00:03:03,280
various podcasts like this one looking

62
00:03:06,790 --> 00:03:04,959
at the uap issue

63
00:03:09,910 --> 00:03:06,800

he writes articles on the subject for

64

00:03:11,430 --> 00:03:09,920

uap media uk as well

65

00:03:13,190 --> 00:03:11,440

he's written a critically acclaimed work

66

00:03:14,869 --> 00:03:13,200

looking at the foo fighters witness

67

00:03:16,949 --> 00:03:14,879

during world war ii and the numerous

68

00:03:21,190 --> 00:03:16,959

wartime cases that occurred before the

69

00:03:23,509 --> 00:03:21,200

term was coined in november 1944. he's

70

00:03:25,509 --> 00:03:23,519

been an aviation and world war ii

71

00:03:28,070 --> 00:03:25,519

history enthusiast from an early age

72

00:03:30,949 --> 00:03:28,080

when he was given airfix model aircraft

73

00:03:32,630 --> 00:03:30,959

kits to keep him quiet married to joe he

74

00:03:34,789 --> 00:03:32,640

lives in rural

75

00:03:36,869 --> 00:03:34,799

northumberland between the beach and the

76

00:03:38,869 --> 00:03:36,879

hills today he'll be joining us to talk

77

00:03:40,710 --> 00:03:38,879

about his new book announced and

78

00:03:43,750 --> 00:03:40,720

released earlier today

79

00:03:47,350 --> 00:03:43,760

called flying saucer fever aerial ufo

80

00:03:49,190 --> 00:03:47,360

encounters 1950 1950-1952

81

00:03:50,309 --> 00:03:49,200

mr rindel it's great to have you on the

82

00:03:51,430 --> 00:03:50,319

show

83

00:03:53,509 --> 00:03:51,440

hi guys

84

00:04:04,630 --> 00:03:53,519

so are we going to go from

85

00:04:09,990 --> 00:04:07,670

no this is amazing i uh i i was so happy

86

00:04:12,070 --> 00:04:10,000

to wake up with this news today earlier

87

00:04:16,390 --> 00:04:12,080

that uh that you just you know surprise

88

00:04:18,469 --> 00:04:16,400

released a 799 page book uh on unleashed

89

00:04:19,909 --> 00:04:18,479

it onto the world it's amazing i think

90

00:04:21,069 --> 00:04:19,919

when the paperback comes out it's going

91

00:04:23,909 --> 00:04:21,079

to be

92

00:04:26,070 --> 00:04:23,919

466 pages so they'll see the kindle

93

00:04:27,430 --> 00:04:26,080

slightly larger but yes it's um it's

94

00:04:29,270 --> 00:04:27,440

slightly smaller than the the foo

95

00:04:31,030 --> 00:04:29,280

fighters book but it's still yeah still

96

00:04:32,950 --> 00:04:31,040

fairly weighty you can use a door stop

97

00:04:34,870 --> 00:04:32,960

when you're finished reading it

98

00:04:36,950 --> 00:04:34,880

it's good because yeah i did definitely

99

00:04:42,390 --> 00:04:36,960

need a new one the the last one you gave

100

00:04:46,230 --> 00:04:44,310

no like yeah of course

101
00:04:47,909 --> 00:04:46,240
i was just talking about you the other

102
00:04:50,790 --> 00:04:47,919
day on this show

103
00:04:52,870 --> 00:04:50,800
uh well i talked about it in regards to

104
00:04:55,030 --> 00:04:52,880
uh that research show i did where you

105
00:04:57,749 --> 00:04:55,040
know i gave people quick tips on how to

106
00:05:00,070 --> 00:04:57,759
look up cases and stuff and i was

107
00:05:01,590 --> 00:05:00,080
talking about how you know it's i think

108
00:05:03,270 --> 00:05:01,600
it's important if people want to learn

109
00:05:04,790 --> 00:05:03,280
about this topic you know if they if

110
00:05:06,950 --> 00:05:04,800
they have the time of course

111
00:05:09,350 --> 00:05:06,960
to look at these cases for themselves

112
00:05:11,189 --> 00:05:09,360
you know like and and what do you take

113
00:05:13,510 --> 00:05:11,199

from it what what is your take from

114

00:05:15,830 --> 00:05:13,520

these different cases and that you know

115

00:05:16,870 --> 00:05:15,840

be subjected to somebody's spin or

116

00:05:18,150 --> 00:05:16,880

someone's

117

00:05:20,310 --> 00:05:18,160

uh you know

118

00:05:22,629 --> 00:05:20,320

their you know prerogative or or what

119

00:05:24,629 --> 00:05:22,639

their intent may be in in writing it or

120

00:05:26,150 --> 00:05:24,639

whatever whether it's you know to get

121

00:05:28,629 --> 00:05:26,160

you to

122

00:05:30,710 --> 00:05:28,639

think it's aliens or to think it's

123

00:05:31,590 --> 00:05:30,720

all balloons you know one way or another

124

00:05:33,909 --> 00:05:31,600

and

125

00:05:36,469 --> 00:05:33,919

um but then i did say you know not

126

00:05:37,670 --> 00:05:36,479

everybody has time for that and so if

127

00:05:39,510 --> 00:05:37,680

you're gonna read a book if you're going

128

00:05:41,590 --> 00:05:39,520

to read authors you have to make sure

129

00:05:44,150 --> 00:05:41,600

that they write their stuff that way and

130

00:05:46,469 --> 00:05:44,160

i mentioned you as graeme rendell as one

131

00:05:47,670 --> 00:05:46,479

of those people that you can trust when

132

00:05:49,350 --> 00:05:47,680

when you read their books and i

133

00:05:50,150 --> 00:05:49,360

mentioned you know the foo fighters book

134

00:05:53,830 --> 00:05:50,160

and

135

00:05:56,390 --> 00:05:53,840

find that stuff in the archives you know

136

00:05:57,990 --> 00:05:56,400

like that was that was a you know so to

137

00:05:59,909 --> 00:05:58,000

speaking boots on the ground or research

138

00:06:02,150 --> 00:05:59,919

which was phenomenal so

139

00:06:03,590 --> 00:06:02,160

um you know when you know i heard you

140

00:06:06,790 --> 00:06:03,600

were doing this book and you came out

141

00:06:08,870 --> 00:06:06,800

with it today like um just super excited

142

00:06:10,469 --> 00:06:08,880

because there's so many cases um that

143

00:06:13,189 --> 00:06:10,479

you you know you and i have looked at in

144

00:06:14,309 --> 00:06:13,199

there that just deserve

145

00:06:15,830 --> 00:06:14,319

you know i don't know if deserves the

146

00:06:18,309 --> 00:06:15,840

right word but should should be out

147

00:06:19,189 --> 00:06:18,319

there should be accessible to people

148

00:06:21,110 --> 00:06:19,199

because

149

00:06:23,110 --> 00:06:21,120

you know not everybody has the patience

150

00:06:24,950 --> 00:06:23,120

uh to look through the the crummy

151

00:06:27,350 --> 00:06:24,960

lettering or to find

152

00:06:29,670 --> 00:06:27,360

the case that they should find to know

153

00:06:33,029 --> 00:06:29,680

more about this stuff so you know thanks

154

00:06:35,670 --> 00:06:33,039

for doing that and i just want to

155

00:06:37,670 --> 00:06:35,680

uh congratulate you on that and and you

156

00:06:39,270 --> 00:06:37,680

know your second ufo book

157

00:06:41,270 --> 00:06:39,280

um so

158

00:06:43,749 --> 00:06:41,280

you know with that being said how long

159

00:06:45,909 --> 00:06:43,759

did it take you to put it together

160

00:06:48,629 --> 00:06:45,919

you know i can't remember um i really

161

00:06:51,830 --> 00:06:48,639

can't remember this time it's because i

162

00:06:53,670 --> 00:06:51,840

have written another one since then uh

163

00:06:55,670 --> 00:06:53,680

which is still which is still to come

164

00:06:57,510 --> 00:06:55,680

out yet and it's uh somebody else is

165

00:06:59,350 --> 00:06:57,520

doing a forward for it the basically

166

00:07:01,029 --> 00:06:59,360

that they ran on from each other because

167

00:07:03,670 --> 00:07:01,039

the this one is

168

00:07:05,510 --> 00:07:03,680

to 49 that i finished um

169

00:07:08,469 --> 00:07:05,520

and the idea is that i was going to do a

170

00:07:10,550 --> 00:07:08,479

few just you know to cover that

171

00:07:13,189 --> 00:07:10,560

part of history where there was a lot of

172

00:07:15,189 --> 00:07:13,199

sightings of this type of nature and it

173

00:07:17,270 --> 00:07:15,199

was the kind of dawn of the flying

174

00:07:18,469 --> 00:07:17,280

sources if you like and you know

175

00:07:21,510 --> 00:07:18,479

obviously the foo fighters came

176

00:07:23,350 --> 00:07:21,520

beforehand but people do still associate

177

00:07:26,870 --> 00:07:23,360

you know the the start of the modern day

178

00:07:29,589 --> 00:07:26,880

phenomenon as being june 47. um so i had

179

00:07:31,350 --> 00:07:29,599

the idea of writing like either a book

180

00:07:33,110 --> 00:07:31,360

or just a couple of books which would

181

00:07:34,870 --> 00:07:33,120

cover the period from about the midfield

182

00:07:38,070 --> 00:07:34,880

the end of the second world war till

183

00:07:40,550 --> 00:07:38,080

about the end of the 50s um with just

184

00:07:42,309 --> 00:07:40,560

the just the the pilot and the aircrew

185

00:07:44,390 --> 00:07:42,319

sightings because that's what i've got

186

00:07:46,550 --> 00:07:44,400

an interest in in terms of aviation but

187

00:07:49,110 --> 00:07:46,560

also of ufos so it was a nice thing just

188

00:07:52,070 --> 00:07:49,120

to go and search through the archives

189

00:07:52,950 --> 00:07:52,080

and pull out all of these types of cases

190

00:07:55,350 --> 00:07:52,960

um

191

00:07:57,589 --> 00:07:55,360

because to me they're really interesting

192

00:08:00,710 --> 00:07:57,599

but you know you you yourself have

193

00:08:02,150 --> 00:08:00,720

looked at old cases not just these type

194

00:08:03,350 --> 00:08:02,160

of cases but people standing on the

195

00:08:05,189 --> 00:08:03,360

ground watching

196

00:08:08,150 --> 00:08:05,199

strange things that just can't identify

197

00:08:11,430 --> 00:08:08,160

and can't understand and yes

198

00:08:12,550 --> 00:08:11,440

blue book got a a rap it got a real bad

199

00:08:15,430 --> 00:08:12,560

reputation

200

00:08:18,070 --> 00:08:15,440

in terms of trashing witnesses trashing

201
00:08:19,830 --> 00:08:18,080
cases um coming up with all sorts of

202
00:08:21,510 --> 00:08:19,840
weird and wonderful

203
00:08:23,830 --> 00:08:21,520
explanations for things you're like

204
00:08:25,510 --> 00:08:23,840
swamp gas but actually when you look at

205
00:08:27,749 --> 00:08:25,520
the information especially in the early

206
00:08:30,710 --> 00:08:27,759
days and you look at project signing

207
00:08:32,230 --> 00:08:30,720
liquor project grudges that the report

208
00:08:33,430 --> 00:08:32,240
the reports that they came out with

209
00:08:34,790 --> 00:08:33,440
which are in the archives that you

210
00:08:37,029 --> 00:08:34,800
mentioned before

211
00:08:39,029 --> 00:08:37,039
the information itself is great you know

212
00:08:40,949 --> 00:08:39,039
it's got a hell of a lot of detail in it

213
00:08:42,949 --> 00:08:40,959

and you just have to wade through it

214

00:08:44,870 --> 00:08:42,959

it's the actual interpretations that

215

00:08:47,110 --> 00:08:44,880

were put on it afterwards about you know

216

00:08:49,269 --> 00:08:47,120

from the experts saying oh well this is

217

00:08:52,389 --> 00:08:49,279

what that means this is what they really

218

00:08:54,070 --> 00:08:52,399

saw you know it wasn't what he described

219

00:08:56,630 --> 00:08:54,080

when he was flying and he was seeing

220

00:08:59,110 --> 00:08:56,640

this thing um it was this instead it was

221

00:09:01,030 --> 00:08:59,120

venus it was mars it was it was a

222

00:09:02,630 --> 00:09:01,040

balloon you know it's a similar sort of

223

00:09:04,790 --> 00:09:02,640

thing that you hear nowadays when people

224

00:09:08,310 --> 00:09:04,800

are trying to basically tell commander

225

00:09:10,790 --> 00:09:08,320

david fravor what he saw that day

226

00:09:13,590 --> 00:09:10,800

or all the other the pilots who saw you

227

00:09:15,430 --> 00:09:13,600

know the the the gimbal um objects oh

228

00:09:17,110 --> 00:09:15,440

you just saw commercial aircraft flying

229

00:09:19,430 --> 00:09:17,120

in the in the opposite direction or

230

00:09:20,949 --> 00:09:19,440

another f-18 or or or

231

00:09:23,269 --> 00:09:20,959

eagle or something you know then this is

232

00:09:26,070 --> 00:09:23,279

the kind of this kind of thing has never

233

00:09:27,910 --> 00:09:26,080

changed it it happened back then as well

234

00:09:30,550 --> 00:09:27,920

albeit not through the the guys of

235

00:09:32,630 --> 00:09:30,560

social media um so

236

00:09:34,389 --> 00:09:32,640

you know it's one you know what goes

237

00:09:36,870 --> 00:09:34,399

around comes around it it just seems to

238

00:09:39,110 --> 00:09:36,880

be we're just reinventing the same wheel

239

00:09:41,030 --> 00:09:39,120

all the time if you like yeah no

240

00:09:43,269 --> 00:09:41,040

actually that brings up a good point

241

00:09:45,670 --> 00:09:43,279

i'll ask you this before i give it to

242

00:09:48,230 --> 00:09:45,680

jay that brings up a good point uh you

243

00:09:50,230 --> 00:09:48,240

know with the advent of social media it

244

00:09:51,990 --> 00:09:50,240

seems like back then at least you know

245

00:09:54,150 --> 00:09:52,000

and doing the research that

246

00:09:56,470 --> 00:09:54,160

there is a lot more

247

00:09:57,670 --> 00:09:56,480

you know i guess we won't know for until

248

00:09:59,670 --> 00:09:57,680

you know

249

00:10:01,269 --> 00:09:59,680

more time passes but it seems like there

250

00:10:04,630 --> 00:10:01,279

was so many more

251

00:10:06,710 --> 00:10:04,640

uh cases and so many more uh like

252

00:10:09,910 --> 00:10:06,720

whether it be newspaper articles written

253

00:10:11,190 --> 00:10:09,920

about individual cases like what do you

254

00:10:12,870 --> 00:10:11,200

think

255

00:10:14,790 --> 00:10:12,880

this may be a hard question but what do

256

00:10:17,990 --> 00:10:14,800

you think the difference would be if you

257

00:10:19,350 --> 00:10:18,000

know those same types of occurrences uh

258

00:10:21,110 --> 00:10:19,360

what happened now

259

00:10:22,949 --> 00:10:21,120

uh with the adventist social media do

260

00:10:24,630 --> 00:10:22,959

you think we'd still be in this position

261

00:10:25,350 --> 00:10:24,640

rather along farther behind what do you

262

00:10:27,430 --> 00:10:25,360

think

263

00:10:29,910 --> 00:10:27,440

i i do i don't know the answer to that

264

00:10:31,430 --> 00:10:29,920

question i mean back then some of the

265

00:10:33,110 --> 00:10:31,440

the more kind of

266

00:10:35,430 --> 00:10:33,120

famous cases i feel like they've got a

267

00:10:37,030 --> 00:10:35,440

hell of a lot of coverage but that was

268

00:10:38,790 --> 00:10:37,040

the way the things worked in the media

269

00:10:40,230 --> 00:10:38,800

back then so you'd get a story that

270

00:10:43,110 --> 00:10:40,240

would be written and it would go on the

271

00:10:44,550 --> 00:10:43,120

wire service so it would be one story

272

00:10:46,470 --> 00:10:44,560

that would have a lot maybe a lot of

273

00:10:48,069 --> 00:10:46,480

detail in but then other papers would

274

00:10:49,430 --> 00:10:48,079

take up you know take hold of it and

275

00:10:51,190 --> 00:10:49,440

they would put their own spin on it as

276
00:10:53,430 --> 00:10:51,200
well so you'd see the same essential

277
00:10:54,470 --> 00:10:53,440
details but they'll be spun maybe a

278
00:10:55,910 --> 00:10:54,480
hundred different ways a hundred

279
00:10:57,030 --> 00:10:55,920
different newspapers

280
00:10:58,550 --> 00:10:57,040
and that was the same for the foo

281
00:11:00,069 --> 00:10:58,560
fighters you know back then as well they

282
00:11:01,990 --> 00:11:00,079
were doing pretty much the same then for

283
00:11:04,630 --> 00:11:02,000
certain stories but it became much more

284
00:11:05,430 --> 00:11:04,640
prevalent in the late 40s and early 50s

285
00:11:06,630 --> 00:11:05,440
when

286
00:11:09,509 --> 00:11:06,640
the likes of

287
00:11:11,110 --> 00:11:09,519
up and ap got a hold of these these

288
00:11:12,949 --> 00:11:11,120

stories from from a particular

289

00:11:14,949 --> 00:11:12,959

journalist and just went right okay

290

00:11:16,550 --> 00:11:14,959

there you go it's right across america's

291

00:11:19,910 --> 00:11:16,560

i mean i think they're called syndicated

292

00:11:22,470 --> 00:11:19,920

don't they um and then little papers in

293

00:11:24,710 --> 00:11:22,480

little towns all over america would

294

00:11:27,030 --> 00:11:24,720

find the story and they would they would

295

00:11:29,030 --> 00:11:27,040

either just publish it verbatim or they

296

00:11:31,110 --> 00:11:29,040

would have somebody rewrite bits of it

297

00:11:32,470 --> 00:11:31,120

just to add little bits of color in it

298

00:11:34,790 --> 00:11:32,480

especially if there's somebody local

299

00:11:36,230 --> 00:11:34,800

involved in it um or just just alter it

300

00:11:37,990 --> 00:11:36,240

slightly just so it was more palatable

301
00:11:39,990 --> 00:11:38,000
to their own readers putting some spin

302
00:11:42,310 --> 00:11:40,000
on it somewhere about what they thought

303
00:11:43,910 --> 00:11:42,320
about it and then so you got these

304
00:11:46,230 --> 00:11:43,920
different stories but essentially the

305
00:11:48,310 --> 00:11:46,240
same details so that was your social

306
00:11:51,030 --> 00:11:48,320
media back then it was just lots of

307
00:11:52,550 --> 00:11:51,040
little provincial newspapers especially

308
00:11:55,190 --> 00:11:52,560
effectively taking telling the same

309
00:11:57,110 --> 00:11:55,200
story from the same core details because

310
00:11:59,110 --> 00:11:57,120
there wasn't anything else to go on uh

311
00:12:01,829 --> 00:11:59,120
they were only going on what the united

312
00:12:03,190 --> 00:12:01,839
states air force spokesman was saying or

313
00:12:04,710 --> 00:12:03,200

if they managed to get to interview the

314

00:12:06,949 --> 00:12:04,720

pilots what they said or their witnesses

315

00:12:09,590 --> 00:12:06,959

on the ground etc now you can you can

316

00:12:11,990 --> 00:12:09,600

see that today as well because i suppose

317

00:12:13,990 --> 00:12:12,000

that's the same because in terms of the

318

00:12:16,470 --> 00:12:14,000

us navy sightings we're only going on a

319

00:12:19,190 --> 00:12:16,480

very limited amount of information um

320

00:12:20,550 --> 00:12:19,200

and people are effectively regurgitating

321

00:12:22,550 --> 00:12:20,560

those details

322

00:12:24,550 --> 00:12:22,560

and then sort of elaborating a little

323

00:12:25,990 --> 00:12:24,560

bit and exaggerating them to a certain

324

00:12:28,870 --> 00:12:26,000

degree or

325

00:12:30,550 --> 00:12:28,880

or just spinning them to a suit whatever

326

00:12:33,350 --> 00:12:30,560

your agenda whichever direction they're

327

00:12:34,230 --> 00:12:33,360

coming from so we've got the same

328

00:12:37,590 --> 00:12:34,240

thing

329

00:12:39,590 --> 00:12:37,600

just in a digital age i guess um you

330

00:12:41,269 --> 00:12:39,600

know it's slightly different but it

331

00:12:42,870 --> 00:12:41,279

boils down to about the same thing

332

00:12:44,710 --> 00:12:42,880

they're telling the same story with

333

00:12:46,870 --> 00:12:44,720

limited information lots of different

334

00:12:49,670 --> 00:12:46,880

ways

335

00:12:52,629 --> 00:12:49,680

yeah i and i deeply appreciate that you

336

00:12:56,710 --> 00:12:52,639

know you you're so careful to be

337

00:12:58,949 --> 00:12:56,720

unbiased in in in your research and in

338

00:13:00,870 --> 00:12:58,959

fact uh in your estimate of the

339

00:13:03,110 --> 00:13:00,880

situation chapter towards the end of the

340

00:13:04,949 --> 00:13:03,120

book you say i've been careful not to

341

00:13:06,550 --> 00:13:04,959

include too much of my own bias within

342

00:13:08,550 --> 00:13:06,560

this book since i do not believe it is

343

00:13:11,430 --> 00:13:08,560

helpful my thoughts are simply opinions

344

00:13:13,829 --> 00:13:11,440

no better and no worse than anyone

345

00:13:16,790 --> 00:13:13,839

else's i really appreciate

346

00:13:18,230 --> 00:13:16,800

you putting that in and and remaining in

347

00:13:19,670 --> 00:13:18,240

that kind of

348

00:13:21,269 --> 00:13:19,680

neutral state as much as humanly

349

00:13:23,990 --> 00:13:21,279

possible i think that's a really

350

00:13:26,870 --> 00:13:24,000

admirable thing given how much spin

351
00:13:29,670 --> 00:13:26,880
happens both from local newspapers to

352
00:13:31,990 --> 00:13:29,680
you know celebrity ufo just authors

353
00:13:34,230 --> 00:13:32,000
right um

354
00:13:35,750 --> 00:13:34,240
document hunting now document hunting

355
00:13:37,430 --> 00:13:35,760
and diving into the research has given a

356
00:13:39,269 --> 00:13:37,440
lot of emphasis on the show what

357
00:13:41,430 --> 00:13:39,279
references did you most look at in

358
00:13:43,509 --> 00:13:41,440
writing flying saucer fever

359
00:13:45,829 --> 00:13:43,519
so it's basically the ones that came

360
00:13:47,750 --> 00:13:45,839
from the likes of project sign project

361
00:13:50,230 --> 00:13:47,760
grudge project blue book now bear in

362
00:13:52,550 --> 00:13:50,240
mind the first two had um well the first

363
00:13:53,829 --> 00:13:52,560

two had already been a thing since the

364

00:13:56,710 --> 00:13:53,839

start of the you know before the start

365

00:13:58,870 --> 00:13:56,720

of the books in terms of timeline the um

366

00:14:02,069 --> 00:13:58,880

sign had already sort of been defuncted

367

00:14:05,110 --> 00:14:02,079

at the end of 1948 officially in 1949

368

00:14:07,350 --> 00:14:05,120

but more or less 1948 and then grudge

369

00:14:10,230 --> 00:14:07,360

had taken over but grudge had also been

370

00:14:12,310 --> 00:14:10,240

cancelled towards the end of 1949 but it

371

00:14:13,990 --> 00:14:12,320

actually kept going in a kind of

372

00:14:16,230 --> 00:14:14,000

it was almost like it was death warmed

373

00:14:20,069 --> 00:14:16,240

up uh until blue book took over in in

374

00:14:22,389 --> 00:14:20,079

march 1942 and effectively for the first

375

00:14:24,790 --> 00:14:22,399

two years of this book that i've written

376

00:14:26,470 --> 00:14:24,800

in terms of the time scale grudge was

377

00:14:28,389 --> 00:14:26,480

just like a couple of people filing away

378

00:14:30,629 --> 00:14:28,399

reports and that was all it was and they

379

00:14:33,030 --> 00:14:30,639

weren't doing anything so with with the

380

00:14:35,110 --> 00:14:33,040

information they said they were because

381

00:14:36,150 --> 00:14:35,120

it was called project saucer in terms of

382

00:14:38,389 --> 00:14:36,160

a public

383

00:14:40,550 --> 00:14:38,399

um you know faced exercise but that

384

00:14:42,230 --> 00:14:40,560

covered project sign as well

385

00:14:44,069 --> 00:14:42,240

this was like a kind of public term for

386

00:14:45,990 --> 00:14:44,079

both of those programs and of course

387

00:14:47,350 --> 00:14:46,000

they were you know the us air force was

388

00:14:48,870 --> 00:14:47,360

saying oh yes well we are looking at

389

00:14:50,629 --> 00:14:48,880

them we're taking them seriously kind of

390

00:14:52,230 --> 00:14:50,639

thing but actually in the background

391

00:14:54,069 --> 00:14:52,240

once sign went out the way grudge was

392

00:14:55,829 --> 00:14:54,079

just a case of yeah yeah we don't we

393

00:14:58,150 --> 00:14:55,839

don't really agree with all this this is

394

00:15:00,069 --> 00:14:58,160

just a kind of like a make work exercise

395

00:15:02,230 --> 00:15:00,079

if you like um

396

00:15:03,509 --> 00:15:02,240

until they realize that they had to do

397

00:15:05,829 --> 00:15:03,519

something about it eventually because

398

00:15:08,069 --> 00:15:05,839

the the reports just didn't didn't stop

399

00:15:10,310 --> 00:15:08,079

coming so that's where the the reports

400

00:15:12,790 --> 00:15:10,320

come from and blue book actually did

401
00:15:15,269 --> 00:15:12,800
retrospective looks uh you know looking

402
00:15:17,670 --> 00:15:15,279
into older cases so you'll see a lot of

403
00:15:19,910 --> 00:15:17,680
blue book evaluations on things that

404
00:15:22,870 --> 00:15:19,920
happened long before they actually uh

405
00:15:24,949 --> 00:15:22,880
came into being so those are the other

406
00:15:27,750 --> 00:15:24,959
core kind of documents from you know

407
00:15:29,590 --> 00:15:27,760
what i've i've used to get um the

408
00:15:31,189 --> 00:15:29,600
information for this book because

409
00:15:33,110 --> 00:15:31,199
they're actually a treasure trove as i

410
00:15:35,509 --> 00:15:33,120
said before that the information

411
00:15:36,790 --> 00:15:35,519
is solid in terms of these these are

412
00:15:39,509 --> 00:15:36,800
coming from pilots these are coming from

413
00:15:41,670 --> 00:15:39,519

air other air crew who are seeing things

414

00:15:43,430 --> 00:15:41,680

they don't understand and it's just the

415

00:15:44,790 --> 00:15:43,440

same kind of thing as the the foo

416

00:15:46,949 --> 00:15:44,800

fighters references that i got from the

417

00:15:49,189 --> 00:15:46,959

squadron records from world war ii you

418

00:15:50,710 --> 00:15:49,199

know it's these are pilots who or or

419

00:15:52,470 --> 00:15:50,720

aircrew who are talking so they're quite

420

00:15:54,629 --> 00:15:52,480

professional the well-trained good

421

00:15:57,189 --> 00:15:54,639

observers you know pretty much you know

422

00:15:59,110 --> 00:15:57,199

beyond reproach in terms of a witness

423

00:16:00,629 --> 00:15:59,120

um and they're coming up with all these

424

00:16:04,150 --> 00:16:00,639

stories about things that you know

425

00:16:05,990 --> 00:16:04,160

justify explanation and yet

426

00:16:07,670 --> 00:16:06,000

people are saying well okay well we

427

00:16:08,870 --> 00:16:07,680

think you're seeing something else you

428

00:16:10,389 --> 00:16:08,880

know we're seeing you're seeing a

429

00:16:12,870 --> 00:16:10,399

weather balloon you're seeing mars and

430

00:16:14,790 --> 00:16:12,880

all this kind of stuff but that is those

431

00:16:16,790 --> 00:16:14,800

are the documents so the information in

432

00:16:19,269 --> 00:16:16,800

them is perfect in terms of their

433

00:16:22,710 --> 00:16:19,279

historian because they are the bona

434

00:16:25,030 --> 00:16:22,720

fider you know sort of records of what

435

00:16:27,350 --> 00:16:25,040

the witnesses said happened and then

436

00:16:29,269 --> 00:16:27,360

you've also got the analysis when you

437

00:16:31,990 --> 00:16:29,279

can find it because it's not always that

438

00:16:34,069 --> 00:16:32,000

clear in terms of how much information

439

00:16:35,910 --> 00:16:34,079

um is included about the thought

440

00:16:38,790 --> 00:16:35,920

processes behind coming to the

441

00:16:41,030 --> 00:16:38,800

conclusions of blueberwell atik uh their

442

00:16:42,790 --> 00:16:41,040

technology and intelligence center that

443

00:16:44,470 --> 00:16:42,800

they were the experts that came up with

444

00:16:46,069 --> 00:16:44,480

the information and then blue book that

445

00:16:49,829 --> 00:16:46,079

basically did the evaluation based on

446

00:16:51,590 --> 00:16:49,839

that um though that information isn't as

447

00:16:53,670 --> 00:16:51,600

prevalent through the reports that was

448

00:16:55,269 --> 00:16:53,680

probably held somewhere else uh the

449

00:16:57,509 --> 00:16:55,279

workings out if you like although it's

450

00:16:59,430 --> 00:16:57,519

it's there in in very very you know sort

451
00:17:01,350 --> 00:16:59,440
of small detail

452
00:17:04,390 --> 00:17:01,360
but all that's really helpful to tell

453
00:17:05,909 --> 00:17:04,400
these stories um you don't need any bias

454
00:17:08,470 --> 00:17:05,919
really to actually tell the story

455
00:17:10,309 --> 00:17:08,480
because there's the information um i'll

456
00:17:12,789 --> 00:17:10,319
put a little bit i've got a little bit

457
00:17:14,549 --> 00:17:12,799
of sort of writing around these just to

458
00:17:16,230 --> 00:17:14,559
set the scenes if you like and to

459
00:17:18,069 --> 00:17:16,240
explain what types of aircraft these

460
00:17:19,669 --> 00:17:18,079
were that they were being involved in

461
00:17:21,189 --> 00:17:19,679
the situations and and some of the back

462
00:17:22,949 --> 00:17:21,199
stories for the pilots and what happened

463
00:17:25,750 --> 00:17:22,959

to them afterwards uh just to give a bit

464

00:17:27,750 --> 00:17:25,760

of color and a bit of context um and

465

00:17:30,150 --> 00:17:27,760

also maybe to explain what was happening

466

00:17:31,669 --> 00:17:30,160

but in terms of bias i don't need to

467

00:17:33,669 --> 00:17:31,679

really go into it i have got a little

468

00:17:35,190 --> 00:17:33,679

bit because i am biased i'm interested

469

00:17:36,950 --> 00:17:35,200

in neufolgi i'm i think there's

470

00:17:38,470 --> 00:17:36,960

something to it so i'm not going to just

471

00:17:39,750 --> 00:17:38,480

dismiss everything as being you know

472

00:17:41,590 --> 00:17:39,760

mars and weather balloons and all that

473

00:17:43,830 --> 00:17:41,600

kind of stuff and some of the things are

474

00:17:45,190 --> 00:17:43,840

so preposterous that i have to say that

475

00:17:47,430 --> 00:17:45,200

can't be right you know what they said

476

00:17:49,029 --> 00:17:47,440

was wish you know and i'm sure you know

477

00:17:50,950 --> 00:17:49,039

other people when they read it will set

478

00:17:52,630 --> 00:17:50,960

will say the same but we're all

479

00:17:55,750 --> 00:17:52,640

different we all come at this from

480

00:17:57,510 --> 00:17:55,760

different angles so um you know we all

481

00:17:59,350 --> 00:17:57,520

have different um sort of

482

00:18:01,190 --> 00:17:59,360

theories and and sort of opinions on

483

00:18:02,870 --> 00:18:01,200

what things are but the documents

484

00:18:03,990 --> 00:18:02,880

themselves you know which is what your

485

00:18:07,110 --> 00:18:04,000

question was

486

00:18:09,430 --> 00:18:07,120

those are all fixed they are simply the

487

00:18:11,590 --> 00:18:09,440

the root and the cause and the core of

488

00:18:14,230 --> 00:18:11,600

um you know all what's happening but

489

00:18:15,669 --> 00:18:14,240

they're all from the blue book uh

490

00:18:18,070 --> 00:18:15,679

archives

491

00:18:19,750 --> 00:18:18,080

and they're really really good

492

00:18:21,909 --> 00:18:19,760

yeah yeah if you want to say something

493

00:18:23,909 --> 00:18:21,919

about blue book positively they're

494

00:18:25,510 --> 00:18:23,919

really good um

495

00:18:27,350 --> 00:18:25,520

after a while i think things change

496

00:18:29,190 --> 00:18:27,360

because i have a sneak peek at

497

00:18:31,270 --> 00:18:29,200

subsequent years you know from about the

498

00:18:33,110 --> 00:18:31,280

mid 50s onwards and in the 60s and the

499

00:18:35,350 --> 00:18:33,120

reporting seems to go downhill but

500

00:18:36,870 --> 00:18:35,360

that's because maybe they hived off some

501
00:18:38,950 --> 00:18:36,880
of the better cases whereas this is

502
00:18:41,029 --> 00:18:38,960
quite early in the game and i think a

503
00:18:43,430 --> 00:18:41,039
lot of the stuff was still there

504
00:18:46,710 --> 00:18:43,440
you know so yeah

505
00:18:48,549 --> 00:18:46,720
i mean yeah i i agree with you like the

506
00:18:51,029 --> 00:18:48,559
the level of uh

507
00:18:52,789 --> 00:18:51,039
you know that they didn't

508
00:18:55,590 --> 00:18:52,799
at least seemingly that when they were

509
00:18:57,350 --> 00:18:55,600
taking down the testimony of whoever saw

510
00:18:59,430 --> 00:18:57,360
you know the object and whatever they

511
00:19:01,830 --> 00:18:59,440
said that they took it down word for

512
00:19:03,990 --> 00:19:01,840
word is as much as you can tell with the

513
00:19:05,750 --> 00:19:04,000

colors the maneuvers and and all that

514

00:19:08,950 --> 00:19:05,760

and you know it's pretty interesting too

515

00:19:10,789 --> 00:19:08,960

because i forget what year it is but um

516

00:19:12,710 --> 00:19:10,799

you know they did actually have like

517

00:19:15,350 --> 00:19:12,720

basically schedules of all weather

518

00:19:16,710 --> 00:19:15,360

balloon releases and and and whatnot too

519

00:19:19,110 --> 00:19:16,720

that they could see

520

00:19:20,950 --> 00:19:19,120

and and still you know they would log

521

00:19:22,710 --> 00:19:20,960

things up to probably balloon or

522

00:19:24,470 --> 00:19:22,720

possibly balloon or

523

00:19:26,150 --> 00:19:24,480

you know or whatever you even know i

524

00:19:27,909 --> 00:19:26,160

mean i mentioned the workings out before

525

00:19:29,350 --> 00:19:27,919

you know about how how a lot of it's not

526

00:19:31,190 --> 00:19:29,360

included but actually those kind of

527

00:19:32,710 --> 00:19:31,200

inquiries are so you mentioned about

528

00:19:34,630 --> 00:19:32,720

your schedules for weather balloons

529

00:19:36,710 --> 00:19:34,640

you'll see the the like the likes of

530

00:19:39,430 --> 00:19:36,720

rupell to captain rupell from blue book

531

00:19:42,390 --> 00:19:39,440

he'll actually contact the the local

532

00:19:44,230 --> 00:19:42,400

weather station um or a weather bureau

533

00:19:46,549 --> 00:19:44,240

um associated with a local local

534

00:19:47,830 --> 00:19:46,559

airfield or air base and saying when did

535

00:19:49,510 --> 00:19:47,840

you launch these balloons we'll come

536

00:19:51,990 --> 00:19:49,520

back and you see the the letters all the

537

00:19:54,070 --> 00:19:52,000

time types that come back were the times

538

00:19:55,750 --> 00:19:54,080

of the launches and even the winds at

539

00:19:57,430 --> 00:19:55,760

different heights so you can even work

540

00:19:59,029 --> 00:19:57,440

out yourself which direction the balloon

541

00:20:01,110 --> 00:19:59,039

would have gone in at a certain time a

542

00:20:02,710 --> 00:20:01,120

certain time of day and a certain height

543

00:20:04,950 --> 00:20:02,720

and then you can match it up you can do

544

00:20:07,669 --> 00:20:04,960

the workings out that they did almost in

545

00:20:08,870 --> 00:20:07,679

your head um and and then determine

546

00:20:10,390 --> 00:20:08,880

where that balloon should have been

547

00:20:11,750 --> 00:20:10,400

should have been where that pilot saw it

548

00:20:13,669 --> 00:20:11,760

no and therefore it's not balloon then

549

00:20:14,710 --> 00:20:13,679

it's something else you know i'm not

550

00:20:15,669 --> 00:20:14,720

going to go into that kind of detail in

551
00:20:18,230 --> 00:20:15,679
the booth because that would get

552
00:20:19,510 --> 00:20:18,240
absolutely boring very quickly

553
00:20:20,870 --> 00:20:19,520
if people want to go and look at the

554
00:20:22,470 --> 00:20:20,880
information from themselves because i've

555
00:20:24,390 --> 00:20:22,480
got it all listed where it comes from

556
00:20:26,310 --> 00:20:24,400
you know you'll see you'll see all that

557
00:20:28,470 --> 00:20:26,320
and if you've got a mind to then you can

558
00:20:30,149 --> 00:20:28,480
just you know start drawing things on a

559
00:20:31,270 --> 00:20:30,159
bit of paper and working oh yeah the

560
00:20:33,110 --> 00:20:31,280
balloon should have been there sort of

561
00:20:34,070 --> 00:20:33,120
thing and no okay but the aircraft's

562
00:20:35,830 --> 00:20:34,080
there and he's looking at something in

563
00:20:37,590 --> 00:20:35,840

that direction you know

564

00:20:39,990 --> 00:20:37,600

it's it's great stuff

565

00:20:41,270 --> 00:20:40,000

well i'm not sure how much time we have

566

00:20:42,470 --> 00:20:41,280

um so

567

00:20:45,430 --> 00:20:42,480

you know there's a couple things that

568

00:20:47,750 --> 00:20:45,440

definitely want to get in here um first

569

00:20:50,310 --> 00:20:47,760

of all i see a couple questions about uh

570

00:20:52,950 --> 00:20:50,320

foo fighters from graham uh for graham

571

00:20:54,710 --> 00:20:52,960

you we've done that video before so you

572

00:20:56,390 --> 00:20:54,720

can go back

573

00:20:59,190 --> 00:20:56,400

into my thick archives and check that

574

00:21:01,750 --> 00:20:59,200

out and he's given his opinion on that

575

00:21:03,590 --> 00:21:01,760

and which is great obviously but

576

00:21:05,909 --> 00:21:03,600

but that's why we do multiple videos

577

00:21:07,750 --> 00:21:05,919

right but i did want to get to

578

00:21:11,029 --> 00:21:07,760

um your artwork your artwork is

579

00:21:13,270 --> 00:21:11,039

beautiful um the cover on on

580

00:21:15,909 --> 00:21:13,280

on this book is is just as beautiful as

581

00:21:18,149 --> 00:21:15,919

the one on the the you know ufos poor

582

00:21:20,390 --> 00:21:18,159

roswell book and i love that you have a

583

00:21:22,710 --> 00:21:20,400

theme developed here in artwork theme

584

00:21:25,350 --> 00:21:22,720

you know but because it's by the the

585

00:21:27,510 --> 00:21:25,360

same artist um and i think that is

586

00:21:30,070 --> 00:21:27,520

really cool you know as a musician doing

587

00:21:32,470 --> 00:21:30,080

artwork i really you know have a huge

588

00:21:34,549 --> 00:21:32,480

appreciation for that and it it always

589

00:21:36,630 --> 00:21:34,559

speaks volumes to the work inside and i

590

00:21:38,630 --> 00:21:36,640

think it's you know um

591

00:21:40,390 --> 00:21:38,640

always underrated when it when it

592

00:21:42,390 --> 00:21:40,400

shouldn't be i think that the cover is

593

00:21:44,630 --> 00:21:42,400

always a big deal so i wanted to bring

594

00:21:47,590 --> 00:21:44,640

up the cyrez version

595

00:21:49,510 --> 00:21:47,600

and and you know show it here

596

00:21:51,510 --> 00:21:49,520

and if there's anything you want to say

597

00:21:54,630 --> 00:21:51,520

about this particular scene or or

598

00:21:56,789 --> 00:21:54,640

anything so would i i don't just like um

599

00:21:57,990 --> 00:21:56,799

you know ask dan and olaf to come up

600

00:21:59,110 --> 00:21:58,000

with something just off the top of the

601
00:22:01,590 --> 00:21:59,120
heads or

602
00:22:03,590 --> 00:22:01,600
something off top of my head um so you

603
00:22:05,270 --> 00:22:03,600
know they said to me when they agreed to

604
00:22:07,430 --> 00:22:05,280
do the cover it was you know what would

605
00:22:08,870 --> 00:22:07,440
you like to have on so um come up with a

606
00:22:10,630 --> 00:22:08,880
case like i did with the foo fighters

607
00:22:13,590 --> 00:22:10,640
book and this happened on the first of

608
00:22:16,789 --> 00:22:13,600
may 1952 over dallas month and um air

609
00:22:18,549 --> 00:22:16,799
base in arizona suicide site tucson

610
00:22:20,710 --> 00:22:18,559
um and yes if you look at the tail of

611
00:22:22,149 --> 00:22:20,720
the aircraft you'll see a number on it

612
00:22:24,230 --> 00:22:22,159
and you'll also see the buzz number on

613
00:22:25,350 --> 00:22:24,240

the forward fuselage so it's a real

614

00:22:26,630 --> 00:22:25,360

aircraft

615

00:22:29,070 --> 00:22:26,640

um you know

616

00:22:32,789 --> 00:22:29,080

that is uh 44

617

00:22:34,630 --> 00:22:32,799

92015 it is actually a b-36

618

00:22:36,549 --> 00:22:34,640

you know peacemaker bomber

619

00:22:40,230 --> 00:22:36,559

belonged to the 11th

620

00:22:41,750 --> 00:22:40,240

bombardment squadron uh or barbara wings

621

00:22:43,909 --> 00:22:41,760

sorry it um

622

00:22:45,750 --> 00:22:43,919

so yeah it's the real aircraft that's a

623

00:22:47,350 --> 00:22:45,760

real colour scheme from that particular

624

00:22:49,270 --> 00:22:47,360

aircraft and if you notice that the

625

00:22:50,310 --> 00:22:49,280

propellers on a b-36 actually face

626
00:22:52,549 --> 00:22:50,320
backwards

627
00:22:53,590 --> 00:22:52,559
um yeah yeah uh

628
00:22:55,270 --> 00:22:53,600
that was a particular type of the

629
00:22:57,750 --> 00:22:55,280
conveyor bomber and it doesn't have the

630
00:22:59,830 --> 00:22:57,760
podded engines like the the later d and

631
00:23:02,230 --> 00:22:59,840
h variants did so it's actually a

632
00:23:04,630 --> 00:23:02,240
particular type of early mark of this

633
00:23:06,230 --> 00:23:04,640
particular aircraft anyway one day this

634
00:23:07,990 --> 00:23:06,240
aircraft was flying over the base and

635
00:23:08,380 --> 00:23:08,000
there was an intelligence officer called

636
00:23:10,549 --> 00:23:08,390
um

637
00:23:12,549 --> 00:23:10,559
[Music]

638
00:23:14,549 --> 00:23:12,559

who was actually on the the stairs of

639

00:23:16,149 --> 00:23:14,559

the or the steps of the base hospital on

640

00:23:17,909 --> 00:23:16,159

the base and he was looking up at this

641

00:23:19,590 --> 00:23:17,919

bomber going over with another airman

642

00:23:21,350 --> 00:23:19,600

standing next to him and then watched

643

00:23:23,590 --> 00:23:21,360

these two objects come close to the

644

00:23:26,950 --> 00:23:23,600

bomber and one of them as you can see

645

00:23:30,230 --> 00:23:26,960

here positions itself between the tail

646

00:23:32,870 --> 00:23:30,240

plane and the propellers of the bomber

647

00:23:35,029 --> 00:23:32,880

and it sat there for a bit

648

00:23:37,430 --> 00:23:35,039

and that is amazing you know this is a

649

00:23:38,870 --> 00:23:37,440

kind of like really close proximity you

650

00:23:40,230 --> 00:23:38,880

know this disc

651
00:23:41,029 --> 00:23:40,240
that sat there

652
00:23:44,149 --> 00:23:41,039
and

653
00:23:46,230 --> 00:23:44,159
the files in the archives only have his

654
00:23:48,830 --> 00:23:46,240
side of it and yet he was the person who

655
00:23:51,590 --> 00:23:48,840
took the testimony from the

656
00:23:53,029 --> 00:23:51,600
crew well so

657
00:23:55,510 --> 00:23:53,039
which is interesting

658
00:23:56,630 --> 00:23:55,520
and yeah that's not in the archives

659
00:23:58,149 --> 00:23:56,640
so

660
00:24:00,710 --> 00:23:58,159
where does that go where does that come

661
00:24:02,070 --> 00:24:00,720
into things so there's something missing

662
00:24:03,909 --> 00:24:02,080
there and that's intrigue that's an

663
00:24:04,870 --> 00:24:03,919

intriguing story of its own so if you

664

00:24:05,909 --> 00:24:04,880

want to hear the rest you know if you

665

00:24:07,269 --> 00:24:05,919

want to like read on the rest of the

666

00:24:09,430 --> 00:24:07,279

deals i hear the rest of deals you have

667

00:24:11,510 --> 00:24:09,440

to read the book for that but that's the

668

00:24:13,430 --> 00:24:11,520

essentially the call the story behind

669

00:24:14,549 --> 00:24:13,440

the cover um

670

00:24:17,430 --> 00:24:14,559

and of course

671

00:24:19,269 --> 00:24:17,440

you know um dan and olaf have come up

672

00:24:21,669 --> 00:24:19,279

with this amazing cover and but it's

673

00:24:23,190 --> 00:24:21,679

accurate as well it's not just you know

674

00:24:24,870 --> 00:24:23,200

kind of blue sky thinking instead oh

675

00:24:26,470 --> 00:24:24,880

yeah he's a we'll get the bomber we'll

676

00:24:27,990 --> 00:24:26,480

get the artwork and we'll get the discs

677

00:24:30,230 --> 00:24:28,000

but that's actually you know the the

678

00:24:32,310 --> 00:24:30,240

landscape around dm you know so in

679

00:24:34,390 --> 00:24:32,320

arizona and you've got the the time of

680

00:24:36,230 --> 00:24:34,400

day is correct as well so you've got the

681

00:24:37,909 --> 00:24:36,240

all that and the positions of the discs

682

00:24:40,070 --> 00:24:37,919

because there were two involved

683

00:24:42,149 --> 00:24:40,080

that's correct as well there's two

684

00:24:44,390 --> 00:24:42,159

you'll see two stars in the background

685

00:24:47,430 --> 00:24:44,400

which were the stars which would be

686

00:24:48,390 --> 00:24:47,440

visible at the time one is vega you know

687

00:24:50,310 --> 00:24:48,400

so

688

00:24:52,230 --> 00:24:50,320

and then you've got a hint of like the

689

00:24:53,909 --> 00:24:52,240

the the crew looking out the observation

690

00:24:55,990 --> 00:24:53,919

blisters of the airplane because there

691

00:24:57,350 --> 00:24:56,000

were quite a lot of blisters on the

692

00:24:59,430 --> 00:24:57,360

airplane that you could look out like

693

00:25:01,510 --> 00:24:59,440

kind of a like a half bubble window and

694

00:25:03,350 --> 00:25:01,520

you can see those on on there and of

695

00:25:05,750 --> 00:25:03,360

course the crew had been looking at

696

00:25:07,510 --> 00:25:05,760

these things going what the is that you

697

00:25:09,590 --> 00:25:07,520

know what kind of things yeah

698

00:25:12,149 --> 00:25:09,600

wow yeah so

699

00:25:13,350 --> 00:25:12,159

it's not just a pretty picture you know

700

00:25:15,830 --> 00:25:13,360

the two of them

701
00:25:17,190 --> 00:25:15,840
go they well first of all you know if

702
00:25:19,190 --> 00:25:17,200
they got a brief from me in terms of

703
00:25:21,029 --> 00:25:19,200
here's the details of the case

704
00:25:22,470 --> 00:25:21,039
and then i just got like 100 questions

705
00:25:24,230 --> 00:25:22,480
for them you know blah blah what what's

706
00:25:26,149 --> 00:25:24,240
this what's that what's that and and so

707
00:25:28,149 --> 00:25:26,159
answered all this information and then

708
00:25:30,390 --> 00:25:28,159
they wanted a representative aircraft so

709
00:25:32,390 --> 00:25:30,400
they could get a kill scheme in markings

710
00:25:34,310 --> 00:25:32,400
now unfortunately the records don't

711
00:25:35,510 --> 00:25:34,320
state the actual aircraft that was

712
00:25:38,149 --> 00:25:35,520
involved

713
00:25:40,549 --> 00:25:38,159

uh the actual the you know the the the

714

00:25:42,070 --> 00:25:40,559

physical airplane downward serial number

715

00:25:43,510 --> 00:25:42,080

so i basically had to make an educated

716

00:25:45,750 --> 00:25:43,520

guess but that is one of the aircraft

717

00:25:48,230 --> 00:25:45,760

which would likely be involved so it's

718

00:25:49,909 --> 00:25:48,240

not as exact as the wellington bomber on

719

00:25:51,909 --> 00:25:49,919

the front of the foo fighters picture

720

00:25:53,430 --> 00:25:51,919

which i actually have the markings and

721

00:25:55,830 --> 00:25:53,440

the tail number four

722

00:25:57,350 --> 00:25:55,840

but you know everything else is spot on

723

00:25:58,789 --> 00:25:57,360

um but it could well have been that

724

00:26:00,710 --> 00:25:58,799

aircraft so

725

00:26:02,390 --> 00:26:00,720

you know it's uh it's it's quite

726

00:26:04,070 --> 00:26:02,400

interesting but it's just an interesting

727

00:26:05,750 --> 00:26:04,080

case and again this is what this is one

728

00:26:07,590 --> 00:26:05,760

of these ones where people probably

729

00:26:09,269 --> 00:26:07,600

aren't aware of it you know i get i

730

00:26:12,070 --> 00:26:09,279

doubt there might be you know two or

731

00:26:13,669 --> 00:26:12,080

three people maybe even if that who in

732

00:26:15,510 --> 00:26:13,679

your audience who have never heard of

733

00:26:18,070 --> 00:26:15,520

that case before today

734

00:26:22,870 --> 00:26:20,310

and i was only dimly aware of it anyway

735

00:26:25,510 --> 00:26:22,880

i i was aware that it was a case of the

736

00:26:27,269 --> 00:26:25,520

disc with an aircraft in close proximity

737

00:26:29,269 --> 00:26:27,279

but i wasn't entirely sure that most of

738

00:26:30,870 --> 00:26:29,279

the details and then this came along oh

739

00:26:32,310 --> 00:26:30,880

yeah but i've never seen this written in

740

00:26:34,470 --> 00:26:32,320

a book anyway

741

00:26:35,990 --> 00:26:34,480

now it's kind of like christmas isn't it

742

00:26:37,909 --> 00:26:36,000

like when you when you find that new

743

00:26:40,310 --> 00:26:37,919

case that's really good that happened to

744

00:26:42,310 --> 00:26:40,320

me yesterday where the triangle episode

745

00:26:43,590 --> 00:26:42,320

because i found that amazing

746

00:26:44,789 --> 00:26:43,600

case

747

00:26:46,630 --> 00:26:44,799

um

748

00:26:48,870 --> 00:26:46,640

you know it wasn't a military pilot it

749

00:26:50,230 --> 00:26:48,880

was a commercial private guy

750

00:26:52,549 --> 00:26:50,240

flew a clipper

751
00:26:54,549 --> 00:26:52,559
uh or whatever but he had uh 20 years of

752
00:26:56,950 --> 00:26:54,559
flying experience and described this

753
00:27:00,549 --> 00:26:56,960
triangle in almost like perfect

754
00:27:01,830 --> 00:27:00,559
detail and there were like uh you know

755
00:27:03,830 --> 00:27:01,840
sets of three of them that would come

756
00:27:05,990 --> 00:27:03,840
around and he said it felt like they he

757
00:27:07,830 --> 00:27:06,000
felt like they were using his plane as a

758
00:27:09,830 --> 00:27:07,840
a point of turn and all that kind of

759
00:27:11,750 --> 00:27:09,840
stuff is so interesting when you find

760
00:27:13,669 --> 00:27:11,760
that it's like wow it's like it feels

761
00:27:14,789 --> 00:27:13,679
like everything pays off finally you

762
00:27:16,390 --> 00:27:14,799
know

763
00:27:17,830 --> 00:27:16,400

seeing some of the stuff in the archives

764

00:27:19,590 --> 00:27:17,840

i mean when you go through these old

765

00:27:21,350 --> 00:27:19,600

files and these old blue book files and

766

00:27:23,510 --> 00:27:21,360

and just the the kind of

767

00:27:25,990 --> 00:27:23,520

how much information is in the testimony

768

00:27:28,870 --> 00:27:26,000

um the detail you know it's not just

769

00:27:31,029 --> 00:27:28,880

what they saw uh it's you know how they

770

00:27:32,230 --> 00:27:31,039

saw these and actually even down to

771

00:27:33,430 --> 00:27:32,240

things like the serial number there

772

00:27:34,950 --> 00:27:33,440

playing the unit was involved and all

773

00:27:36,470 --> 00:27:34,960

this kind of stuff and you can build up

774

00:27:38,070 --> 00:27:36,480

a much bigger picture and you just get

775

00:27:39,430 --> 00:27:38,080

so much detail that you might get an

776

00:27:41,510 --> 00:27:39,440

idea of what they actually were these

777

00:27:43,750 --> 00:27:41,520

things but you have all the rest of it

778

00:27:44,950 --> 00:27:43,760

which a lot of the time is missing um

779

00:27:47,110 --> 00:27:44,960

you know you mentioned before about you

780

00:27:48,630 --> 00:27:47,120

know documents which i you mentioned

781

00:27:50,149 --> 00:27:48,640

about documents

782

00:27:52,470 --> 00:27:50,159

i remember the books i used to read in

783

00:27:53,990 --> 00:27:52,480

the late 70s and early 80s and and how

784

00:27:55,830 --> 00:27:54,000

much information you used to get it used

785

00:27:57,909 --> 00:27:55,840

to get a bit bit like this book you get

786

00:28:00,070 --> 00:27:57,919

case after case after case but

787

00:28:01,430 --> 00:28:00,080

unfortunately those to me didn't have

788

00:28:02,950 --> 00:28:01,440

much attribution they didn't have much

789

00:28:04,789 --> 00:28:02,960

context in terms of where this

790

00:28:06,549 --> 00:28:04,799

information came from it was just laid

791

00:28:08,230 --> 00:28:06,559

on the page for you but you you weren't

792

00:28:09,590 --> 00:28:08,240

sure where they'd actually got the a lot

793

00:28:10,950 --> 00:28:09,600

of the time they got the details from

794

00:28:12,310 --> 00:28:10,960

they had some footnotes but they were

795

00:28:14,149 --> 00:28:12,320

fair you know they were fairly few and

796

00:28:15,590 --> 00:28:14,159

far between and also they have these

797

00:28:17,350 --> 00:28:15,600

kind of leaps and logic where i was like

798

00:28:18,310 --> 00:28:17,360

you know i use this kind of expression

799

00:28:20,230 --> 00:28:18,320

you say oh there's lights in the sky

800

00:28:21,830 --> 00:28:20,240

that must be from zeta reticuli i mean

801
00:28:23,269 --> 00:28:21,840
that's quite exaggerated from me from my

802
00:28:25,510 --> 00:28:23,279
point of view but it was that kind of

803
00:28:27,590 --> 00:28:25,520
thing there were these leaps of logic

804
00:28:28,630 --> 00:28:27,600
and even at my early age when i was

805
00:28:30,389 --> 00:28:28,640
reading these books i was saying i'm

806
00:28:32,149 --> 00:28:30,399
thinking you can't go there from here

807
00:28:33,590 --> 00:28:32,159
you know you can't make that jump

808
00:28:35,190 --> 00:28:33,600
there's just not that information

809
00:28:37,190 --> 00:28:35,200
there's not enough detail there and we

810
00:28:38,549 --> 00:28:37,200
still can't do that to a certain extent

811
00:28:39,909 --> 00:28:38,559
so when i wrote it you know when i

812
00:28:41,590 --> 00:28:39,919
thought about

813
00:28:43,110 --> 00:28:41,600

writing my first book i was never going

814

00:28:44,630 --> 00:28:43,120

to do that i was always going to have

815

00:28:46,389 --> 00:28:44,640

enough information to say look this is

816

00:28:47,990 --> 00:28:46,399

where you get it from and i followed

817

00:28:49,909 --> 00:28:48,000

that through with this as well because

818

00:28:51,830 --> 00:28:49,919

it's unfair to an audience to just lay

819

00:28:53,190 --> 00:28:51,840

information out and then not tell people

820

00:28:55,190 --> 00:28:53,200

where they get it where you get it from

821

00:28:57,830 --> 00:28:55,200

you know and especially nowadays where

822

00:28:59,990 --> 00:28:57,840

social media is full of kind of people

823

00:29:01,909 --> 00:29:00,000

just trying it on with this on the other

824

00:29:03,990 --> 00:29:01,919

um you know facebook you can't trip over

825

00:29:06,710 --> 00:29:04,000

a ufo group on facebook without some

826

00:29:08,149 --> 00:29:06,720

fake picture or fake video on there um

827

00:29:09,750 --> 00:29:08,159

see it's got to be it's very very you've

828

00:29:11,909 --> 00:29:09,760

got to be very careful that you actually

829

00:29:13,029 --> 00:29:11,919

do present stuff if you're presenting it

830

00:29:14,710 --> 00:29:13,039

as fact

831

00:29:16,389 --> 00:29:14,720

that i am that you're going to be able

832

00:29:17,669 --> 00:29:16,399

to back it up from where it comes from

833

00:29:19,909 --> 00:29:17,679

otherwise you might as well just not

834

00:29:23,190 --> 00:29:19,919

bother

835

00:29:25,590 --> 00:29:23,200

absolutely absolutely and i

836

00:29:27,909 --> 00:29:25,600

i love that you highlighted one of those

837

00:29:30,549 --> 00:29:27,919

most overlooked cases as the cover of

838

00:29:33,990 --> 00:29:30,559

the book and in such detail uh with the

839

00:29:35,750 --> 00:29:34,000

help of ooloff and and dan that is just

840

00:29:37,669 --> 00:29:35,760

it's so masterful being able to

841

00:29:40,470 --> 00:29:37,679

collaborate in such a way and then so

842

00:29:42,549 --> 00:29:40,480

indicative of how

843

00:29:45,269 --> 00:29:42,559

precise you are with your research you

844

00:29:48,549 --> 00:29:45,279

know having come to this field from

845

00:29:51,350 --> 00:29:48,559

um writing about military encounters and

846

00:29:54,149 --> 00:29:51,360

military aviation in particular

847

00:29:56,389 --> 00:29:54,159

you know i've always been impressed and

848

00:29:58,789 --> 00:29:56,399

kind of astonished with how easily

849

00:30:01,190 --> 00:29:58,799

you're able to rattle off the

850

00:30:03,669 --> 00:30:01,200

really precise details about who was

851

00:30:05,909 --> 00:30:03,679

involved what you know what aircraft was

852

00:30:08,389 --> 00:30:05,919

it what group of people were there like

853

00:30:10,470 --> 00:30:08,399

what you know what was the kind what was

854

00:30:11,269 --> 00:30:10,480

all of the context down to those kind of

855

00:30:16,470 --> 00:30:11,279

tr

856

00:30:18,149 --> 00:30:16,480

people but actually help paint a a

857

00:30:19,110 --> 00:30:18,159

beautiful picture like on the cover of

858

00:30:20,549 --> 00:30:19,120

your book

859

00:30:22,389 --> 00:30:20,559

one of the other things that i really

860

00:30:24,230 --> 00:30:22,399

like is that you know you say in the

861

00:30:26,070 --> 00:30:24,240

introduction this is not necessarily a

862

00:30:28,789 --> 00:30:26,080

book aimed at those already familiar

863

00:30:31,110 --> 00:30:28,799

with ufo history many will recognize

864

00:30:33,029 --> 00:30:31,120

some of the cases included here however

865

00:30:35,350 --> 00:30:33,039

i would be surprised if anyone is

866

00:30:37,430 --> 00:30:35,360

familiar with them all as as you've just

867

00:30:39,669 --> 00:30:37,440

established and so i think it's really

868

00:30:41,510 --> 00:30:39,679

important you know to kind of comment

869

00:30:43,750 --> 00:30:41,520

before i go to my question sorry to be

870

00:30:46,710 --> 00:30:43,760

long-winded about that you know this is

871

00:30:49,350 --> 00:30:46,720

not this is what i really like in in in

872

00:30:51,750 --> 00:30:49,360

looking at this is that i'm used to you

873

00:30:52,950 --> 00:30:51,760

know richard's work richard dolan's work

874

00:30:55,110 --> 00:30:52,960

i'm used to

875

00:30:56,789 --> 00:30:55,120

uh timothy good's work you know bruce

876

00:30:58,549 --> 00:30:56,799

mcabee there have been a number of

877

00:31:02,230 --> 00:30:58,559

authors that have covered this

878

00:31:04,470 --> 00:31:02,240

particular area of time in larger books

879

00:31:07,350 --> 00:31:04,480

in different ways but

880

00:31:08,630 --> 00:31:07,360

this is a book that is positioned very

881

00:31:10,950 --> 00:31:08,640

precisely

882

00:31:13,430 --> 00:31:10,960

um for people that have been

883

00:31:17,350 --> 00:31:13,440

in the field for a while and is also

884

00:31:19,509 --> 00:31:17,360

very approachable to people that have

885

00:31:21,830 --> 00:31:19,519

this might be one of their first five or

886

00:31:23,990 --> 00:31:21,840

ten ufology books is there anything

887

00:31:26,470 --> 00:31:24,000

you'd like to say about that

888

00:31:29,190 --> 00:31:26,480

i write books for multiple audiences i

889

00:31:31,830 --> 00:31:29,200

always have done so the i've written

890

00:31:34,389 --> 00:31:31,840

some books about um aviation history in

891

00:31:36,310 --> 00:31:34,399

northumberland um military history

892

00:31:38,549 --> 00:31:36,320

looking at like a local eardrum that

893

00:31:40,149 --> 00:31:38,559

nobody had ever written a history of but

894

00:31:42,630 --> 00:31:40,159

it was written not just for people who

895

00:31:44,630 --> 00:31:42,640

were interested in kind of world war ii

896

00:31:46,310 --> 00:31:44,640

uh it was interested for local residents

897

00:31:47,590 --> 00:31:46,320

who may have not known all the details

898

00:31:49,269 --> 00:31:47,600

about what happened on their doorstep

899

00:31:51,430 --> 00:31:49,279

during world war ii so that was like

900

00:31:53,509 --> 00:31:51,440

another audience when i wrote the book

901
00:31:56,389 --> 00:31:53,519
on site on my trip around siberia back

902
00:31:58,470 --> 00:31:56,399
in 1992 it was yes it was a book written

903
00:32:01,110 --> 00:31:58,480
about for people who weren't wrestling

904
00:32:02,789 --> 00:32:01,120
airplanes and also interested by russian

905
00:32:04,789 --> 00:32:02,799
airplanes because bear in mind a lot

906
00:32:06,470 --> 00:32:04,799
happened before the cold war but also it

907
00:32:08,470 --> 00:32:06,480
was a travelogue effectively so it was a

908
00:32:10,070 --> 00:32:08,480
trip around somewhere where no you know

909
00:32:11,750 --> 00:32:10,080
nobody in the west really had traveled

910
00:32:13,110 --> 00:32:11,760
around and there was all the detail

911
00:32:14,389 --> 00:32:13,120
about you know the areas that i was

912
00:32:16,950 --> 00:32:14,399
traveling so

913
00:32:19,110 --> 00:32:16,960

that was like aimed at another audience

914

00:32:21,110 --> 00:32:19,120

now the foo fighters book i came at it

915

00:32:21,909 --> 00:32:21,120

with the same sort of you know ethos

916

00:32:24,549 --> 00:32:21,919

that

917

00:32:26,070 --> 00:32:24,559

i wanted to write about for ufologists

918

00:32:28,549 --> 00:32:26,080

but also from military history

919

00:32:29,990 --> 00:32:28,559

enthusiasts as well and if somebody in i

920

00:32:32,549 --> 00:32:30,000

didn't say this but somebody else did

921

00:32:34,470 --> 00:32:32,559

when they reviewed my book or on twitter

922

00:32:35,669 --> 00:32:34,480

like a short you know a review they said

923

00:32:37,909 --> 00:32:35,679

this is the best history book you've

924

00:32:39,750 --> 00:32:37,919

never read and i thought that was a

925

00:32:42,149 --> 00:32:39,760

i thought that was an amazing comment i

926

00:32:43,750 --> 00:32:42,159

mean i don't think i deserve it but i

927

00:32:46,310 --> 00:32:43,760

can see where we're coming from in terms

928

00:32:48,630 --> 00:32:46,320

of you know this is a slice of

929

00:32:50,149 --> 00:32:48,640

world war ii history that just doesn't

930

00:32:51,830 --> 00:32:50,159

you know appear in the in the history

931

00:32:54,070 --> 00:32:51,840

books if you like so there's another

932

00:32:57,590 --> 00:32:54,080

audience entirely and this one's the

933

00:32:59,190 --> 00:32:57,600

same um yes okay um i've said you know

934

00:33:00,630 --> 00:32:59,200

it's more aimed at people outside but

935

00:33:02,470 --> 00:33:00,640

actually that's maybe not strictly

936

00:33:04,389 --> 00:33:02,480

correct it is aimed also with people

937

00:33:06,549 --> 00:33:04,399

from within the community because as i

938

00:33:08,549 --> 00:33:06,559

say not everybody knows

939

00:33:10,310 --> 00:33:08,559

all the you know all these cases i

940

00:33:12,870 --> 00:33:10,320

certainly didn't either you know i i

941

00:33:14,470 --> 00:33:12,880

knew only a fraction of them um

942

00:33:16,630 --> 00:33:14,480

you'll know about the nash fortенbury

943

00:33:19,590 --> 00:33:16,640

case because that's quite famous uh the

944

00:33:21,269 --> 00:33:19,600

ayla the airliner crew who saw a line of

945

00:33:24,070 --> 00:33:21,279

object like a v formation of objects

946

00:33:26,789 --> 00:33:24,080

over chesapeake bay um so

947

00:33:28,310 --> 00:33:26,799

in 52 but the stories like that where

948

00:33:29,590 --> 00:33:28,320

people are aware of them they might not

949

00:33:30,789 --> 00:33:29,600

be aware of all the details but they're

950

00:33:33,590 --> 00:33:30,799

certainly aware of them on a certain

951
00:33:35,590 --> 00:33:33,600
level um and similarly when when people

952
00:33:37,669 --> 00:33:35,600
get to read the 46-49 book that i've

953
00:33:39,750 --> 00:33:37,679
read you'll people will know about the

954
00:33:42,470 --> 00:33:39,760
the mantel case they'll know about um

955
00:33:44,149 --> 00:33:42,480
the gorman case they'll know about um

956
00:33:46,630 --> 00:33:44,159
you know uh

957
00:33:48,310 --> 00:33:46,640
kenneth arnold's cur obviously case but

958
00:33:50,310 --> 00:33:48,320
the things around them that won't

959
00:33:53,509 --> 00:33:50,320
probably have heard of so it just builds

960
00:33:55,350 --> 00:33:53,519
a picture up so yeah different audiences

961
00:33:56,389 --> 00:33:55,360
i like to write you know something it's

962
00:33:58,549 --> 00:33:56,399
not just

963
00:34:00,149 --> 00:33:58,559

aimed at a very very small niche of

964

00:34:02,389 --> 00:34:00,159

people because actually that's a way of

965

00:34:05,029 --> 00:34:02,399

limiting your readership you know

966

00:34:07,669 --> 00:34:05,039

too many books do like kind of write for

967

00:34:09,750 --> 00:34:07,679

people who you know and they tend to

968

00:34:11,030 --> 00:34:09,760

write without bearing in mind that much

969

00:34:13,190 --> 00:34:11,040

you might be other people want to read

970

00:34:15,829 --> 00:34:13,200

it and it just becomes inaccessible so

971

00:34:18,230 --> 00:34:15,839

hopefully i try to try to trans you know

972

00:34:20,069 --> 00:34:18,240

transcend just the kind of small core

973

00:34:22,069 --> 00:34:20,079

people who i know might get something

974

00:34:23,669 --> 00:34:22,079

from the book um i like to think about

975

00:34:25,190 --> 00:34:23,679

you know i might come as a as you know

976
00:34:26,069 --> 00:34:25,200
it might be me reading the book but i've

977
00:34:28,230 --> 00:34:26,079
got no

978
00:34:30,470 --> 00:34:28,240
knowledge of ufos or no knowledge of

979
00:34:32,710 --> 00:34:30,480
military aircraft you know how would i

980
00:34:34,149 --> 00:34:32,720
read it what would i get from it so it

981
00:34:36,069 --> 00:34:34,159
can't be just a list of facts and

982
00:34:37,990 --> 00:34:36,079
figures about airplanes it has to have

983
00:34:41,190 --> 00:34:38,000
some kind of description in about what

984
00:34:43,430 --> 00:34:41,200
they were or in this one some pictures

985
00:34:45,030 --> 00:34:43,440
yeah as well so

986
00:34:47,109 --> 00:34:45,040
you know and i think what what you do

987
00:34:48,629 --> 00:34:47,119
graham is a is a great like what we're

988
00:34:50,310 --> 00:34:48,639

hearing now is to take this topic

989

00:34:52,629 --> 00:34:50,320

seriously right we have to take a

990

00:34:54,069 --> 00:34:52,639

scientific approach and and and look at

991

00:34:56,069 --> 00:34:54,079

the data and all that kind of stuff and

992

00:34:58,790 --> 00:34:56,079

when i when i look at your work and what

993

00:35:01,270 --> 00:34:58,800

i try to emulate my work is

994

00:35:03,670 --> 00:35:01,280

you know i'm not his scientists and i

995

00:35:06,310 --> 00:35:03,680

can't read data and and do that but what

996

00:35:08,550 --> 00:35:06,320

i can do is take that same mindset to

997

00:35:12,150 --> 00:35:08,560

the research and how meticulous i look

998

00:35:14,390 --> 00:35:12,160

at files and you know my you know as

999

00:35:17,030 --> 00:35:14,400

hard as it is sometimes try to not be

1000

00:35:18,870 --> 00:35:17,040

biased with the end result you know or

1001

00:35:21,030 --> 00:35:18,880

what the things are and i think with

1002

00:35:23,670 --> 00:35:21,040

your book you do such an excellent job

1003

00:35:26,230 --> 00:35:23,680

of taking the topic to a next level as

1004

00:35:28,310 --> 00:35:26,240

far as fine detail in the cases you know

1005

00:35:30,069 --> 00:35:28,320

like the nash case you even brought up

1006

00:35:31,910 --> 00:35:30,079

it seemed like the newspaper even at the

1007

00:35:34,710 --> 00:35:31,920

time did a little bit of embellishment

1008

00:35:36,550 --> 00:35:34,720

on it you know and and that and that was

1009

00:35:38,950 --> 00:35:36,560

that was clear that happened but when

1010

00:35:41,190 --> 00:35:38,960

you write your stories you give

1011

00:35:43,430 --> 00:35:41,200

the nuts and bolts so to speak

1012

00:35:45,270 --> 00:35:43,440

of the story like this is what the guy

1013

00:35:46,710 --> 00:35:45,280

said this is

1014

00:35:49,910 --> 00:35:46,720

you know what happened these were the

1015

00:35:51,510 --> 00:35:49,920

scheduled balloons you know so whatever

1016

00:35:54,310 --> 00:35:51,520

but i i think you really take the

1017

00:35:56,069 --> 00:35:54,320

integrity of of writing about ufos to

1018

00:35:57,829 --> 00:35:56,079

the next level and

1019

00:35:59,990 --> 00:35:57,839

you know i think that that's really

1020

00:36:02,870 --> 00:36:00,000

needed in this community and i really

1021

00:36:05,349 --> 00:36:02,880

appreciate you for doing that so but

1022

00:36:06,790 --> 00:36:05,359

with that being said i do have

1023

00:36:09,349 --> 00:36:06,800

you know there's there's a guy in this

1024

00:36:12,630 --> 00:36:09,359

chat robert who puts in a lot of effort

1025

00:36:14,550 --> 00:36:12,640

in in studying uh ufos a lot a lot of

1026

00:36:15,349 --> 00:36:14,560

effort and

1027

00:36:17,030 --> 00:36:15,359

um

1028

00:36:19,109 --> 00:36:17,040

he brought up a question that i kind of

1029

00:36:20,870 --> 00:36:19,119

had a question about and i'm curious

1030

00:36:23,109 --> 00:36:20,880

what you think about this like

1031

00:36:25,109 --> 00:36:23,119

um at the beginning um

1032

00:36:28,150 --> 00:36:25,119

it almost seemed like

1033

00:36:30,870 --> 00:36:28,160

um that you know the fbi was in involved

1034

00:36:32,630 --> 00:36:30,880

in the 47 and all that and and

1035

00:36:34,150 --> 00:36:32,640

you know the air force officially and

1036

00:36:36,630 --> 00:36:34,160

all their documents say that you know

1037

00:36:38,950 --> 00:36:36,640

they started in 48 but we know they they

1038

00:36:41,589 --> 00:36:38,960

were looking at it earlier um

1039

00:36:43,510 --> 00:36:41,599

and the army was involved too

1040

00:36:46,230 --> 00:36:43,520

and the cia what you know was there a

1041

00:36:48,950 --> 00:36:46,240

split from the army what's your take on

1042

00:36:51,109 --> 00:36:48,960

what the army wound up doing with ufo

1043

00:36:53,190 --> 00:36:51,119

investigations did they do they

1044

00:36:54,630 --> 00:36:53,200

continued to do stuff did they really

1045

00:36:56,630 --> 00:36:54,640

just disappear

1046

00:36:58,390 --> 00:36:56,640

you know what's your take on the whole

1047

00:37:00,310 --> 00:36:58,400

seemingly split but between the

1048

00:37:01,910 --> 00:37:00,320

different uh divisions you know so you

1049

00:37:05,030 --> 00:37:01,920

talk about the us army as opposed to the

1050

00:37:07,510 --> 00:37:05,040

us army air force right yeah and then

1051
00:37:10,390 --> 00:37:07,520
there is seemingly a cia air force kind

1052
00:37:12,870 --> 00:37:10,400
of split a little bit well yeah

1053
00:37:15,750 --> 00:37:12,880
it's hard to tell i think from my point

1054
00:37:17,349 --> 00:37:15,760
of view as to where split started and

1055
00:37:18,950 --> 00:37:17,359
and how

1056
00:37:20,310 --> 00:37:18,960
most of the cases i may have looked

1057
00:37:21,990 --> 00:37:20,320
after the book i certainly do with the

1058
00:37:23,109 --> 00:37:22,000
air force there's very little army

1059
00:37:25,510 --> 00:37:23,119
involvement

1060
00:37:26,870 --> 00:37:25,520
because those cases would have been with

1061
00:37:28,630 --> 00:37:26,880
soldiers on the ground and i wasn't

1062
00:37:31,109 --> 00:37:28,640
looking at that kind of thing i have i

1063
00:37:33,349 --> 00:37:31,119

did actually see some um but it was

1064

00:37:35,510 --> 00:37:33,359

still the likes of the local air base uh

1065

00:37:39,030 --> 00:37:35,520

or the local uh office you know office

1066

00:37:41,910 --> 00:37:39,040

um osi detachments or districts rather

1067

00:37:43,829 --> 00:37:41,920

who were looking at the cases for blue

1068

00:37:45,430 --> 00:37:43,839

book uh or you know they were the people

1069

00:37:47,589 --> 00:37:45,440

who went on the ground and

1070

00:37:49,030 --> 00:37:47,599

interrogated these personnel there was a

1071

00:37:51,750 --> 00:37:49,040

there was a case in an army base out in

1072

00:37:53,430 --> 00:37:51,760

california where there was um the some

1073

00:37:55,030 --> 00:37:53,440

of the guards had seen something strange

1074

00:37:56,230 --> 00:37:55,040

like i remember i don't have all the

1075

00:37:57,589 --> 00:37:56,240

deals on top of my head because i wasn't

1076

00:38:00,150 --> 00:37:57,599

actually looking at it too closely

1077

00:38:01,910 --> 00:38:00,160

because it didn't involve airplanes um

1078

00:38:03,109 --> 00:38:01,920

but i remember that you know that they

1079

00:38:05,670 --> 00:38:03,119

did they were

1080

00:38:08,069 --> 00:38:05,680

interrogated by the same kind of people

1081

00:38:10,069 --> 00:38:08,079

who would have investigated if it had

1082

00:38:12,310 --> 00:38:10,079

been an airplane you know flying over

1083

00:38:13,430 --> 00:38:12,320

the place so

1084

00:38:15,670 --> 00:38:13,440

the kind of

1085

00:38:17,750 --> 00:38:15,680

the same people were involved in terms

1086

00:38:19,670 --> 00:38:17,760

of you know interrogating these people

1087

00:38:21,270 --> 00:38:19,680

so i think if there had been a u.s army

1088

00:38:23,030 --> 00:38:21,280

aviation case so it had been a

1089

00:38:25,190 --> 00:38:23,040

helicopter or it had been some kind of

1090

00:38:27,109 --> 00:38:25,200

like liaison airplane then it would have

1091

00:38:29,430 --> 00:38:27,119

still been the people who investigated

1092

00:38:30,710 --> 00:38:29,440

air force cases would have been involved

1093

00:38:32,069 --> 00:38:30,720

so i think those

1094

00:38:35,510 --> 00:38:32,079

elements were probably essentially the

1095

00:38:37,270 --> 00:38:35,520

same um but in terms of splits go well

1096

00:38:39,030 --> 00:38:37,280

probably because

1097

00:38:39,750 --> 00:38:39,040

the u.s government's factionalized isn't

1098

00:38:42,390 --> 00:38:39,760

it

1099

00:38:43,430 --> 00:38:42,400

all all these three-letter agencies and

1100

00:38:45,670 --> 00:38:43,440

some of the ones that probably don't

1101
00:38:47,030 --> 00:38:45,680
have like public names you know they're

1102
00:38:48,470 --> 00:38:47,040
all got their little fife domes haven't

1103
00:38:49,990 --> 00:38:48,480
they so you know they're all gonna want

1104
00:38:52,790 --> 00:38:50,000
that little kind of bit that they keep

1105
00:38:55,349 --> 00:38:52,800
control of and you know the cia were

1106
00:38:56,630 --> 00:38:55,359
obviously investigating things outside

1107
00:38:57,589 --> 00:38:56,640
outside the u.s because that's their

1108
00:39:00,230 --> 00:38:57,599
remit

1109
00:39:01,430 --> 00:39:00,240
um and they were keeping tabs on what

1110
00:39:04,069 --> 00:39:01,440
was happening in other countries they

1111
00:39:05,910 --> 00:39:04,079
were looking at foreign newspapers so

1112
00:39:08,069 --> 00:39:05,920
there are cases which come out of

1113
00:39:09,589 --> 00:39:08,079

foreign newspapers um but it's only

1114

00:39:11,109 --> 00:39:09,599

because the cia were doing you know the

1115

00:39:12,550 --> 00:39:11,119

translation or getting the translations

1116

00:39:14,069 --> 00:39:12,560

done that they were coming up with

1117

00:39:15,670 --> 00:39:14,079

information saying oh yeah this has this

1118

00:39:17,510 --> 00:39:15,680

been seen or you know some aircraft has

1119

00:39:19,670 --> 00:39:17,520

been chased by something or what have

1120

00:39:22,150 --> 00:39:19,680

you there's actually a case in the book

1121

00:39:26,630 --> 00:39:22,160

uh from africa uh and it covers a

1122

00:39:29,510 --> 00:39:26,640

uranium mine in um yeah and in a belgian

1123

00:39:31,829 --> 00:39:29,520

protectorate as was not now but as was

1124

00:39:34,230 --> 00:39:31,839

um in in central africa

1125

00:39:37,109 --> 00:39:34,240

and um there was a

1126

00:39:39,109 --> 00:39:37,119

a belgian air force pilot was sent up to

1127

00:39:40,710 --> 00:39:39,119

to to investigate an object which was

1128

00:39:41,750 --> 00:39:40,720

seen lightening over the easy remain

1129

00:39:42,790 --> 00:39:41,760

really

1130

00:39:46,390 --> 00:39:42,800

kind

1131

00:39:48,310 --> 00:39:46,400

uranium mines so yes things like that

1132

00:39:49,990 --> 00:39:48,320

attracted the attention the cia because

1133

00:39:52,390 --> 00:39:50,000

the only thing to do with you know

1134

00:39:53,750 --> 00:39:52,400

possibly atomic weapons or in nuclear

1135

00:39:55,190 --> 00:39:53,760

weapons was obviously something that

1136

00:39:57,430 --> 00:39:55,200

we're going to look at and go yeah we

1137

00:39:58,790 --> 00:39:57,440

need to be involved in this

1138

00:40:01,190 --> 00:39:58,800

translate the documents from a local

1139

00:40:03,270 --> 00:40:01,200

newspaper and then that gets fed through

1140

00:40:04,550 --> 00:40:03,280

to the various agencies and of course it

1141

00:40:06,309 --> 00:40:04,560

goes through the blue book as well so

1142

00:40:08,309 --> 00:40:06,319

it's in their files

1143

00:40:09,990 --> 00:40:08,319

so you'll see things like that as well

1144

00:40:11,750 --> 00:40:10,000

so yeah there was some cooperation as

1145

00:40:13,109 --> 00:40:11,760

well so it wasn't just a case of you

1146

00:40:14,390 --> 00:40:13,119

know that's my information i'm going to

1147

00:40:17,109 --> 00:40:14,400

keep a hold of it

1148

00:40:18,069 --> 00:40:17,119

because he's still having his army

1149

00:40:19,349 --> 00:40:18,079

sorry

1150

00:40:25,670 --> 00:40:19,359

you'd still have the army come out and

1151

00:40:29,270 --> 00:40:27,589

yeah

1152

00:40:31,430 --> 00:40:29,280

now one one thing that i really

1153

00:40:32,950 --> 00:40:31,440

appreciate as well about this book i'm

1154

00:40:35,270 --> 00:40:32,960

sorry i'm just layering on the praise

1155

00:40:37,510 --> 00:40:35,280

here uh but it's oh

1156

00:40:39,910 --> 00:40:37,520

you're so psyched about it yeah

1157

00:40:41,910 --> 00:40:39,920

another thing with regard to bringing up

1158

00:40:44,950 --> 00:40:41,920

you know other people that have covered

1159

00:40:46,390 --> 00:40:44,960

these years because again like 1950 to

1160

00:40:48,069 --> 00:40:46,400

1952

1161

00:40:49,750 --> 00:40:48,079

for those that are are just kind of

1162

00:40:51,589 --> 00:40:49,760

joining the conversation in the last

1163

00:40:53,109 --> 00:40:51,599

couple years these are absolutely

1164

00:40:56,150 --> 00:40:53,119

critical years

1165

00:40:58,550 --> 00:40:56,160

um in in the in the in the field in

1166

00:41:01,510 --> 00:40:58,560

terms of kind of the

1167

00:41:04,630 --> 00:41:01,520

there's the dog fight cases of 51

1168

00:41:07,190 --> 00:41:04,640

fireballs and 51 there's there's ufos

1169

00:41:09,670 --> 00:41:07,200

over washington over over two weekends

1170

00:41:12,069 --> 00:41:09,680

in july 1952 these are some of the these

1171

00:41:14,230 --> 00:41:12,079

are some of the biggest cases

1172

00:41:16,790 --> 00:41:14,240

uh uh for a lot of people with regard to

1173

00:41:20,150 --> 00:41:16,800

the military and ufos for all of the

1174

00:41:21,349 --> 00:41:20,160

20th century you know um and and what

1175

00:41:24,150 --> 00:41:21,359

one thing that i really deeply

1176

00:41:25,990 --> 00:41:24,160

appreciate about this book is that you

1177

00:41:28,790 --> 00:41:26,000

contextualize things in such a

1178

00:41:30,069 --> 00:41:28,800

contemporary perspective you know even

1179

00:41:31,990 --> 00:41:30,079

in the first couple chapters you're

1180

00:41:33,829 --> 00:41:32,000

mentioning you know the conflict in

1181

00:41:36,069 --> 00:41:33,839

ukraine that's happening right now in

1182

00:41:38,390 --> 00:41:36,079

terms of saying you know even since the

1183

00:41:40,309 --> 00:41:38,400

50s so much of this has been couched in

1184

00:41:41,910 --> 00:41:40,319

terms of propaganda and the what if

1185

00:41:43,750 --> 00:41:41,920

they're what if it's the russians what

1186

00:41:46,230 --> 00:41:43,760

if it's the chinese and of course the

1187

00:41:48,069 --> 00:41:46,240

chinese didn't figure back then because

1188

00:41:49,430 --> 00:41:48,079

you know the chinese were nowhere near

1189

00:41:52,870 --> 00:41:49,440

where they are right now in terms of

1190

00:41:55,589 --> 00:41:52,880

capability um but the right the the the

1191

00:41:58,870 --> 00:41:55,599

cold war and and the russian factor was

1192

00:42:01,190 --> 00:41:58,880

was very much prevalent even you know

1193

00:42:03,829 --> 00:42:01,200

you're kind of leading from 50 to 52

1194

00:42:07,750 --> 00:42:03,839

into the robertson panel of january of

1195

00:42:09,589 --> 00:42:07,760

1953 but right but this kind of context

1196

00:42:11,589 --> 00:42:09,599

in terms of like drawing connections

1197

00:42:13,109 --> 00:42:11,599

between then and now is one of the

1198

00:42:15,030 --> 00:42:13,119

features of this book that could be

1199

00:42:16,630 --> 00:42:15,040

deeply appreciated by

1200

00:42:19,109 --> 00:42:16,640

people that are just coming into the

1201
00:42:21,510 --> 00:42:19,119
field people that have been into it for

1202
00:42:23,829 --> 00:42:21,520
a long time and are looking for a tether

1203
00:42:26,069 --> 00:42:23,839
from from now to them in a way that i

1204
00:42:28,790 --> 00:42:26,079
think that um you know some of the older

1205
00:42:31,510 --> 00:42:28,800
books in this field would would you know

1206
00:42:33,270 --> 00:42:31,520
would lack um for like a better term i

1207
00:42:34,870 --> 00:42:33,280
think i think as a history i mean

1208
00:42:36,470 --> 00:42:34,880
obviously i come from a historian kind

1209
00:42:37,990 --> 00:42:36,480
of point of view

1210
00:42:39,670 --> 00:42:38,000
drawing parallels between what happened

1211
00:42:41,670 --> 00:42:39,680
in the past and what happens now is a

1212
00:42:44,390 --> 00:42:41,680
great way of telling stories you know

1213
00:42:46,470 --> 00:42:44,400

about what happened back then but there

1214

00:42:48,069 --> 00:42:46,480

are parallels

1215

00:42:49,349 --> 00:42:48,079

the foo fighters that i talked about i

1216

00:42:51,510 --> 00:42:49,359

could find parallels between what

1217

00:42:53,190 --> 00:42:51,520

happened then and the

1218

00:42:54,309 --> 00:42:53,200

dave fravor's case

1219

00:42:56,069 --> 00:42:54,319

but the similar you mentioned the

1220

00:42:58,390 --> 00:42:56,079

dogfights then well they weren't just

1221

00:43:01,589 --> 00:42:58,400

dogfights in 51 there were dog fights in

1222

00:43:04,309 --> 00:43:01,599

48 as well um there were two i mean uh

1223

00:43:07,829 --> 00:43:04,319

so there was a george gorman case in in

1224

00:43:10,069 --> 00:43:07,839

in october 1948 which was effectively

1225

00:43:11,430 --> 00:43:10,079

you know give or take a different way of

1226

00:43:12,470 --> 00:43:11,440

flying around but it's essentially the

1227

00:43:14,950 --> 00:43:12,480

same kind of thing that happened with a

1228

00:43:17,109 --> 00:43:14,960

tic-tac you know that happened it

1229

00:43:20,710 --> 00:43:17,119

happened in 1943 with it were the foo

1230

00:43:22,470 --> 00:43:20,720

fighters um so these things happen

1231

00:43:25,670 --> 00:43:22,480

regularly but the cases in the book from

1232

00:43:27,990 --> 00:43:25,680

50 to 52 where jeff interceptors and

1233

00:43:30,309 --> 00:43:28,000

also piston engine fighters like the p51

1234

00:43:33,190 --> 00:43:30,319

muscle the f51 mustang were actually

1235

00:43:35,990 --> 00:43:33,200

involved in in almost engagements

1236

00:43:37,829 --> 00:43:36,000

without the firing but with objects that

1237

00:43:39,430 --> 00:43:37,839

they just didn't you know they couldn't

1238

00:43:41,030 --> 00:43:39,440

either get a grip with because they were

1239

00:43:43,109 --> 00:43:41,040

just too fast and too maneuverable for

1240

00:43:44,710 --> 00:43:43,119

them um and of course you know about

1241

00:43:46,710 --> 00:43:44,720

these things because they're happening

1242

00:43:48,470 --> 00:43:46,720

now but you mentioned ukraine i've

1243

00:43:49,750 --> 00:43:48,480

mentioned that in the book yes i've

1244

00:43:51,990 --> 00:43:49,760

linked that together i've linked the

1245

00:43:54,150 --> 00:43:52,000

kind of russian question in terms of

1246

00:43:55,750 --> 00:43:54,160

were these where you know were they the

1247

00:43:59,190 --> 00:43:55,760

source of them because there was always

1248

00:44:00,710 --> 00:43:59,200

the fear back then of um russian bombers

1249

00:44:03,190 --> 00:44:00,720

coming over the pole or coming over

1250

00:44:05,430 --> 00:44:03,200

alaska to attack uh targets in the

1251
00:44:07,910 --> 00:44:05,440
continental united states and if these

1252
00:44:10,710 --> 00:44:07,920
were manifestations of some soviet

1253
00:44:12,790 --> 00:44:10,720
developments in in amazing technology

1254
00:44:14,470 --> 00:44:12,800
than the the jet interceptors that the

1255
00:44:15,750 --> 00:44:14,480
u.s air force had at the time were just

1256
00:44:18,069 --> 00:44:15,760
you know inadequate they were totally

1257
00:44:20,950 --> 00:44:18,079
impotent in other words um but there's

1258
00:44:23,589 --> 00:44:20,960
also a parallels i i draw from the

1259
00:44:25,990 --> 00:44:23,599
the the actual radar cases and the

1260
00:44:27,750 --> 00:44:26,000
regular visual cases sorry washington in

1261
00:44:29,190 --> 00:44:27,760
july 52 the two weekends that you

1262
00:44:31,670 --> 00:44:29,200
mentioned

1263
00:44:34,150 --> 00:44:31,680

i say about the 911 cases about that

1264

00:44:36,390 --> 00:44:34,160

because there was a kind of per almost a

1265

00:44:37,430 --> 00:44:36,400

paralysis in terms of what are we going

1266

00:44:39,670 --> 00:44:37,440

to do

1267

00:44:41,109 --> 00:44:39,680

um when these things were being seen and

1268

00:44:42,790 --> 00:44:41,119

they're being plotted on radar they were

1269

00:44:44,230 --> 00:44:42,800

flying around washington but it was four

1270

00:44:46,309 --> 00:44:44,240

hours before the first jet fighters

1271

00:44:48,790 --> 00:44:46,319

turned up over this over the capital

1272

00:44:51,829 --> 00:44:48,800

now you know and i say you know go go

1273

00:44:53,829 --> 00:44:51,839

forward to 911. you know would that

1274

00:44:56,390 --> 00:44:53,839

knowing what we know now about

1275

00:44:58,230 --> 00:44:56,400

um allowing kind of mysterious things

1276

00:45:00,069 --> 00:44:58,240

over your nation's capital would that

1277

00:45:01,750 --> 00:45:00,079

situation arise now

1278

00:45:03,270 --> 00:45:01,760

yeah because of course it wouldn't you

1279

00:45:04,950 --> 00:45:03,280

know you get an aircraft come out of its

1280

00:45:07,990 --> 00:45:04,960

flight zone and you get a couple of

1281

00:45:09,349 --> 00:45:08,000

f-16s after it nowadays whereas back

1282

00:45:10,470 --> 00:45:09,359

then there were there was this kind of

1283

00:45:11,750 --> 00:45:10,480

paralysis

1284

00:45:13,510 --> 00:45:11,760

we're just oh yeah we'll just sit and

1285

00:45:15,670 --> 00:45:13,520

wait to see what happens you know and if

1286

00:45:17,430 --> 00:45:15,680

that had been a soviet aircraft on a

1287

00:45:19,349 --> 00:45:17,440

sneak attack anything a one-way mission

1288

00:45:21,670 --> 00:45:19,359

a suicide mission then they could have

1289

00:45:24,790 --> 00:45:21,680

wiped out the white house yeah

1290

00:45:26,150 --> 00:45:24,800

you know and it's probably a little

1291

00:45:27,910 --> 00:45:26,160

um

1292

00:45:29,430 --> 00:45:27,920

underrated as far as like the the

1293

00:45:30,950 --> 00:45:29,440

influence that it had on these

1294

00:45:34,710 --> 00:45:30,960

investigations was things like pearl

1295

00:45:36,390 --> 00:45:34,720

harbor you know and in in hawaii one

1296

00:45:37,430 --> 00:45:36,400

thing i wanted to ask you is that you

1297

00:45:39,030 --> 00:45:37,440

know

1298

00:45:40,550 --> 00:45:39,040

well i have two questions for you and

1299

00:45:44,950 --> 00:45:40,560

then you know you could probably go if

1300

00:45:44,960 --> 00:45:49,349

good because we got another hour to go

1301

00:45:49,359 --> 00:45:52,710

i'll just remember it sorry

1302

00:45:58,150 --> 00:45:55,910

the first one is you know now 1952 was

1303

00:46:01,030 --> 00:45:58,160

the year that was the bang-up year that

1304

00:46:04,230 --> 00:46:01,040

was the biggest year uh as far as all

1305

00:46:07,750 --> 00:46:04,240

sightings um now a lot of people

1306

00:46:08,950 --> 00:46:07,760

at least then it said that the the ufos

1307

00:46:11,829 --> 00:46:08,960

i think it was

1308

00:46:14,390 --> 00:46:11,839

the story over washington dc really lit

1309

00:46:15,589 --> 00:46:14,400

a spark and because of that a lot more

1310

00:46:17,430 --> 00:46:15,599

sightings came through the rest of the

1311

00:46:19,430 --> 00:46:17,440

year so what's your take on that if

1312

00:46:22,230 --> 00:46:19,440

you've evaluated that situation at all

1313

00:46:25,109 --> 00:46:22,240

or you know i guess any answer to

1314

00:46:27,510 --> 00:46:25,119

or speculation as to why 52 was such a

1315

00:46:30,230 --> 00:46:27,520

big year and then

1316

00:46:31,030 --> 00:46:30,240

the second question i'll just lead is um

1317

00:46:33,750 --> 00:46:31,040

um

1318

00:46:36,790 --> 00:46:33,760

how who who wrote the forward for your

1319

00:46:37,589 --> 00:46:36,800

book and and and how did that come to be

1320

00:46:39,510 --> 00:46:37,599

okay

1321

00:46:42,069 --> 00:46:39,520

um i'll answer that one first then um

1322

00:46:43,349 --> 00:46:42,079

get out of the way so i think people are

1323

00:46:45,030 --> 00:46:43,359

going to probably ask ask me two

1324

00:46:47,109 --> 00:46:45,040

questions um

1325

00:46:50,710 --> 00:46:47,119

what's the forward about and how did you

1326

00:46:53,109 --> 00:46:50,720

get louis honda to write it for you

1327

00:46:56,630 --> 00:46:53,119

so i'll answer the last one first i

1328

00:46:58,309 --> 00:46:56,640

asked him basically and he said yes um

1329

00:47:00,710 --> 00:46:58,319

that's all it was to it it was no kind

1330

00:47:02,230 --> 00:47:00,720

of you know schmutzling or um you know

1331

00:47:03,829 --> 00:47:02,240

giving him a fiver and all this kind of

1332

00:47:05,510 --> 00:47:03,839

stuff and it was just

1333

00:47:06,710 --> 00:47:05,520

just basically just contacted him one

1334

00:47:08,829 --> 00:47:06,720

day and said

1335

00:47:09,910 --> 00:47:08,839

would you would you like to do it

1336

00:47:11,270 --> 00:47:09,920

um and he

1337

00:47:12,870 --> 00:47:11,280

and he said yeah sure i'll be honored to

1338

00:47:15,589 --> 00:47:12,880

do it so and i sat in the draft and he

1339

00:47:17,270 --> 00:47:15,599

read through it and that was it um

1340

00:47:19,349 --> 00:47:17,280

yeah i wasn't expecting to say yes

1341

00:47:21,430 --> 00:47:19,359

because obviously he's you know

1342

00:47:23,030 --> 00:47:21,440

as you understand um

1343

00:47:24,470 --> 00:47:23,040

i wouldn't want him to endorse anything

1344

00:47:26,069 --> 00:47:24,480

and actually i don't believe forward as

1345

00:47:28,390 --> 00:47:26,079

an endorsement anyway

1346

00:47:29,990 --> 00:47:28,400

it's more uh kind of a commentary on on

1347

00:47:31,510 --> 00:47:30,000

something that somebody's writing so

1348

00:47:33,510 --> 00:47:31,520

people should read the book to get that

1349

00:47:35,270 --> 00:47:33,520

out of the way about the forward so

1350

00:47:37,349 --> 00:47:35,280

it's just nothing

1351

00:47:38,230 --> 00:47:37,359

and as for what he says well yes you're

1352

00:47:41,589 --> 00:47:38,240

gonna have to read the book because i'm

1353

00:47:43,349 --> 00:47:41,599

not gonna go into that um so that's that

1354

00:47:45,430 --> 00:47:43,359

um but yeah you know

1355

00:47:48,069 --> 00:47:45,440

you might you might learn something new

1356

00:47:50,549 --> 00:47:48,079

um that's all i prepared to say and in

1357

00:47:53,030 --> 00:47:50,559

terms of yeah

1358

00:47:53,910 --> 00:47:53,040

52 well it had been building up for

1359

00:47:56,069 --> 00:47:53,920

years

1360

00:47:58,230 --> 00:47:56,079

um yes i mean the title of the book

1361

00:48:00,470 --> 00:47:58,240

flying saucer fever is no accident you

1362

00:48:02,309 --> 00:48:00,480

know i i wanted to kind of get across

1363

00:48:04,790 --> 00:48:02,319

the fact that it was a you know it was a

1364

00:48:06,790 --> 00:48:04,800

feverish febrile time where there was

1365

00:48:08,790 --> 00:48:06,800

the kind of tension the anticipation the

1366

00:48:10,470 --> 00:48:08,800

kind of almost fear as well was getting

1367

00:48:12,230 --> 00:48:10,480

ramped up and it wasn't just being

1368

00:48:13,750 --> 00:48:12,240

ramped up by the newspapers you know

1369

00:48:15,510 --> 00:48:13,760

people were seeing things they were

1370

00:48:17,510 --> 00:48:15,520

seeing things regularly and then of

1371

00:48:20,150 --> 00:48:17,520

course the stories of um you know the

1372

00:48:22,230 --> 00:48:20,160

nation's air defenses being inadequate

1373

00:48:24,230 --> 00:48:22,240

being impotent you know people would

1374

00:48:25,829 --> 00:48:24,240

start to get worried that you know these

1375

00:48:26,790 --> 00:48:25,839

were well because there was this

1376

00:48:28,870 --> 00:48:26,800

narrative that it was going to be the

1377

00:48:30,309 --> 00:48:28,880

russians well who else would it be it

1378

00:48:31,750 --> 00:48:30,319

was like the foo fighters you know it

1379

00:48:33,430 --> 00:48:31,760

would be the germans who else would it

1380

00:48:35,589 --> 00:48:33,440

be well this time it was the russians

1381

00:48:37,670 --> 00:48:35,599

wasn't the chinese as jay say because

1382

00:48:39,750 --> 00:48:37,680

they were still effectively you know a

1383

00:48:41,670 --> 00:48:39,760

very um kind of you know sort of

1384

00:48:44,710 --> 00:48:41,680

war-torn country that were just getting

1385

00:48:46,790 --> 00:48:44,720

over a civil wall um and they had no

1386

00:48:48,390 --> 00:48:46,800

real industrial power base to come up

1387

00:48:49,670 --> 00:48:48,400

with amazing weapons

1388

00:48:51,030 --> 00:48:49,680

at that time

1389

00:48:53,829 --> 00:48:51,040

but the russians

1390

00:48:55,510 --> 00:48:53,839

did have some capacity to build things

1391

00:48:56,950 --> 00:48:55,520

which were out of the ordinary they

1392

00:48:59,270 --> 00:48:56,960

certainly had the fruits of german

1393

00:49:01,829 --> 00:48:59,280

technology and scientists and engineers

1394

00:49:03,589 --> 00:49:01,839

that they'd basically coerced and stolen

1395

00:49:05,670 --> 00:49:03,599

during the war uh starts at the end of

1396

00:49:08,150 --> 00:49:05,680

the war sorry so

1397

00:49:09,750 --> 00:49:08,160

they have the the capability to build

1398

00:49:12,549 --> 00:49:09,760

things that might have

1399

00:49:14,390 --> 00:49:12,559

had an influence um in terms of things

1400

00:49:16,790 --> 00:49:14,400

that could be mistaken for

1401
00:49:19,349 --> 00:49:16,800
ufos at that time but actually what they

1402
00:49:21,430 --> 00:49:19,359
had no they didn't have that although

1403
00:49:23,829 --> 00:49:21,440
people still thought they did

1404
00:49:25,829 --> 00:49:23,839
um but this the num the frequency of

1405
00:49:27,829 --> 00:49:25,839
sightings and the type of sightings the

1406
00:49:29,589 --> 00:49:27,839
nature of them and the way that these

1407
00:49:30,390 --> 00:49:29,599
things were just being able to run rings

1408
00:49:33,270 --> 00:49:30,400
around

1409
00:49:35,349 --> 00:49:33,280
the the latest jet interceptors and and

1410
00:49:36,950 --> 00:49:35,359
you know air defenses the radar systems

1411
00:49:38,470 --> 00:49:36,960
and all this kind of thing

1412
00:49:40,069 --> 00:49:38,480
must have been really frightening not

1413
00:49:41,829 --> 00:49:40,079

just to civilians who are reading about

1414

00:49:43,589 --> 00:49:41,839

the newspapers but also the people who

1415

00:49:46,150 --> 00:49:43,599

are making decisions the people who were

1416

00:49:48,470 --> 00:49:46,160

in charge of defense facilities you know

1417

00:49:51,270 --> 00:49:48,480

the sending the aircraft out saying um

1418

00:49:52,390 --> 00:49:51,280

working in charge of radar and

1419

00:49:53,990 --> 00:49:52,400

knowing that they couldn't do anything

1420

00:49:55,430 --> 00:49:54,000

about it and yet night after night after

1421

00:49:57,270 --> 00:49:55,440

night there were reports of these things

1422

00:49:59,030 --> 00:49:57,280

but then also the people in charge the

1423

00:50:00,950 --> 00:49:59,040

people higher up the food chain the

1424

00:50:03,750 --> 00:50:00,960

people who are making policy decisions

1425

00:50:07,270 --> 00:50:03,760

as to what we do about this and yes okay

1426

00:50:08,950 --> 00:50:07,280

in some levels before July 52 it must it

1427

00:50:10,870 --> 00:50:08,960

might have been an academic exercise for

1428

00:50:12,309 --> 00:50:10,880

some of them just saying

1429

00:50:13,829 --> 00:50:12,319

yeah okay we've got this problem but

1430

00:50:15,430 --> 00:50:13,839

they're not really doing anything you

1431

00:50:16,710 --> 00:50:15,440

know that they're flying around but okay

1432

00:50:18,309 --> 00:50:16,720

and then they fly off and nothing's

1433

00:50:20,470 --> 00:50:18,319

happening but when they actually turned

1434

00:50:22,470 --> 00:50:20,480

up over the nation's capital not just

1435

00:50:23,270 --> 00:50:22,480

one weekend but the following weekend as

1436

00:50:24,069 --> 00:50:23,280

well

1437

00:50:25,349 --> 00:50:24,079

and

1438

00:50:27,190 --> 00:50:25,359

you know

1439

00:50:28,870 --> 00:50:27,200

they eventually sent jet interceptors

1440

00:50:30,470 --> 00:50:28,880

out after them after the first after the

1441

00:50:32,309 --> 00:50:30,480

first four hours on the first weekend

1442

00:50:33,750 --> 00:50:32,319

but the things disappeared and then as

1443

00:50:35,109 --> 00:50:33,760

soon as because these aircraft were low

1444

00:50:36,790 --> 00:50:35,119

on fuel they didn't have much in the way

1445

00:50:38,470 --> 00:50:36,800

of fuel reserves anyway they could only

1446

00:50:40,309 --> 00:50:38,480

stay on target for like 10 minutes 20

1447

00:50:42,790 --> 00:50:40,319

minutes at a time and then had to head

1448

00:50:44,150 --> 00:50:42,800

back to the base um

1449

00:50:45,349 --> 00:50:44,160

the things came back again as soon as

1450

00:50:47,109 --> 00:50:45,359

they disappeared

1451
00:50:48,710 --> 00:50:47,119
you know so it was almost as they knew

1452
00:50:50,790 --> 00:50:48,720
the limitations of the aircraft that

1453
00:50:51,829 --> 00:50:50,800
were there at the time and of course the

1454
00:50:53,589 --> 00:50:51,839
same thing happened the following

1455
00:50:55,109 --> 00:50:53,599
weekend that there bit it was a quicker

1456
00:50:56,710 --> 00:50:55,119
response time because i think there was

1457
00:50:58,470 --> 00:50:56,720
a lot of pressure put on the on the us

1458
00:51:00,069 --> 00:50:58,480
air force to you've got to do something

1459
00:51:01,030 --> 00:51:00,079
about this this time rather than just

1460
00:51:02,390 --> 00:51:01,040
sitting in your hands and thinking oh

1461
00:51:04,309 --> 00:51:02,400
well yeah the intelligence officers are

1462
00:51:05,990 --> 00:51:04,319
asleep oh yeah we can't contact them in

1463
00:51:07,349 --> 00:51:06,000

the morning um yeah we've set the

1464

00:51:09,349 --> 00:51:07,359

information up the chain but and

1465

00:51:11,510 --> 00:51:09,359

actually no you hadn't because i found

1466

00:51:13,270 --> 00:51:11,520

that out the first weekend

1467

00:51:14,870 --> 00:51:13,280

that the information hadn't actually

1468

00:51:16,549 --> 00:51:14,880

been passed up the proper channels it

1469

00:51:18,549 --> 00:51:16,559

was only when they asked again a few

1470

00:51:20,069 --> 00:51:18,559

hours later oh no it hasn't oh yeah

1471

00:51:22,549 --> 00:51:20,079

we'll do that for you

1472

00:51:24,630 --> 00:51:22,559

kind of thing you know so it was

1473

00:51:26,150 --> 00:51:24,640

it was a really crazy time um but then

1474

00:51:27,750 --> 00:51:26,160

the weekend the next weekend they got

1475

00:51:30,069 --> 00:51:27,760

their act together a bit more but the

1476

00:51:31,750 --> 00:51:30,079

two weekends themselves had so much of

1477

00:51:32,710 --> 00:51:31,760

an impact on

1478

00:51:34,150 --> 00:51:32,720

you know

1479

00:51:35,510 --> 00:51:34,160

just the information that was coming out

1480

00:51:37,589 --> 00:51:35,520

in the newspapers well what are you

1481

00:51:39,349 --> 00:51:37,599

going to do about this that they had to

1482

00:51:40,150 --> 00:51:39,359

do something and of course they trotted

1483

00:51:42,390 --> 00:51:40,160

out

1484

00:51:44,230 --> 00:51:42,400

uh gerald sanford you know

1485

00:51:45,270 --> 00:51:44,240

intelligence and they had him sit in

1486

00:51:45,990 --> 00:51:45,280

front of a

1487

00:51:57,109 --> 00:51:46,000

a

1488

00:51:58,950 --> 00:51:57,119

it of him

1489

00:52:01,270 --> 00:51:58,960

you know feeling these questions and he

1490

00:52:03,910 --> 00:52:01,280

was pretty much out of his depth really

1491

00:52:05,510 --> 00:52:03,920

you know he's um he was uh he was

1492

00:52:07,430 --> 00:52:05,520

totally out of it i mean he was

1493

00:52:09,430 --> 00:52:07,440

struggling with some of the questions to

1494

00:52:12,390 --> 00:52:09,440

answer them he had uh he had a radar

1495

00:52:14,069 --> 00:52:12,400

expert uh with him as well who

1496

00:52:16,150 --> 00:52:14,079

was a bit kind of contradictory in terms

1497

00:52:18,309 --> 00:52:16,160

of what the kind of the line was about

1498

00:52:20,470 --> 00:52:18,319

what the official term for what the

1499

00:52:21,829 --> 00:52:20,480

scene was there the radar propagation

1500

00:52:24,150 --> 00:52:21,839

what are you going to say

1501
00:52:25,829 --> 00:52:24,160
you know there is multiple radar units

1502
00:52:28,069 --> 00:52:25,839
that pick these things up it wasn't just

1503
00:52:30,309 --> 00:52:28,079
like one but the aircraft pilots were

1504
00:52:32,069 --> 00:52:30,319
saying them as well at the same time

1505
00:52:34,549 --> 00:52:32,079
it was an eastern airline pilot who was

1506
00:52:36,150 --> 00:52:34,559
asked to turn around so he could see

1507
00:52:38,630 --> 00:52:36,160
this object that had been picked up on

1508
00:52:40,950 --> 00:52:38,640
the radar and he went yep i see it

1509
00:52:41,990 --> 00:52:40,960
what kind of thing so the radar visual

1510
00:52:43,910 --> 00:52:42,000
cases

1511
00:52:45,750 --> 00:52:43,920
such a great case i got into the the

1512
00:52:47,750 --> 00:52:45,760
temperature inversion aspect of it too

1513
00:52:49,750 --> 00:52:47,760

and i believe it was where like the

1514

00:52:53,270 --> 00:52:49,760

temperature inversions happen

1515

00:52:54,150 --> 00:52:53,280

during typically during a certain time

1516

00:52:56,790 --> 00:52:54,160

of day

1517

00:52:59,349 --> 00:52:56,800

or night and also at a certain point in

1518

00:53:00,630 --> 00:52:59,359

the sky i forget it's like 18 000 feet

1519

00:53:03,349 --> 00:53:00,640

or something like that

1520

00:53:05,349 --> 00:53:03,359

um and i believe like the visual

1521

00:53:07,750 --> 00:53:05,359

sighting was higher than that it was at

1522

00:53:10,390 --> 00:53:07,760

like 30 000 or something and the time of

1523

00:53:11,910 --> 00:53:10,400

day was was off as well

1524

00:53:13,349 --> 00:53:11,920

you also have to remember

1525

00:53:14,790 --> 00:53:13,359

you have to remember these radar

1526

00:53:17,430 --> 00:53:14,800

controllers at washington national

1527

00:53:19,990 --> 00:53:17,440

airport were really really experienced

1528

00:53:21,910 --> 00:53:20,000

so it was an incredibly busy airport

1529

00:53:23,750 --> 00:53:21,920

incredibly busy airspace and they

1530

00:53:25,510 --> 00:53:23,760

wouldn't have been there in that job if

1531

00:53:27,270 --> 00:53:25,520

they didn't know what they were doing

1532

00:53:29,190 --> 00:53:27,280

you know and they would have tons of

1533

00:53:31,349 --> 00:53:29,200

experience and they would see things

1534

00:53:32,950 --> 00:53:31,359

like that on a fairly regular basis you

1535

00:53:35,030 --> 00:53:32,960

know the kind of proper

1536

00:53:36,630 --> 00:53:35,040

radar angels as you call you know yeah

1537

00:53:37,910 --> 00:53:36,640

angels yeah they would know what they

1538

00:53:40,390 --> 00:53:37,920

were because they would have seen them

1539

00:53:41,910 --> 00:53:40,400

before and yet they saw them one weekend

1540

00:53:44,150 --> 00:53:41,920

and then they saw him another weekend

1541

00:53:46,870 --> 00:53:44,160

and they could tell the difference

1542

00:53:48,230 --> 00:53:46,880

even experienced radar controllers could

1543

00:53:50,309 --> 00:53:48,240

tell the difference between these kind

1544

00:53:52,630 --> 00:53:50,319

of spurious echoes that were you know

1545

00:53:54,390 --> 00:53:52,640

spurious that were proper uh radar

1546

00:53:57,030 --> 00:53:54,400

angels and these things were something

1547

00:53:59,109 --> 00:53:57,040

different and they said as much um so

1548

00:54:01,270 --> 00:53:59,119

and even the radar expert like sort of

1549

00:54:03,270 --> 00:54:01,280

agreed to a point that you know these

1550

00:54:04,950 --> 00:54:03,280

weren't necessarily what the air force

1551
00:54:06,790 --> 00:54:04,960
were trying to say they were but the

1552
00:54:08,470 --> 00:54:06,800
pilots were seeing them as well and it

1553
00:54:11,109 --> 00:54:08,480
just became a complete fast but of

1554
00:54:13,589 --> 00:54:11,119
course the press after building

1555
00:54:15,030 --> 00:54:13,599
everything up to this point of frenzy

1556
00:54:16,470 --> 00:54:15,040
this feverish

1557
00:54:18,710 --> 00:54:16,480
atmosphere you know we're going to be

1558
00:54:21,190 --> 00:54:18,720
invaded or what all these things flying

1559
00:54:23,510 --> 00:54:21,200
around the capital kind of stuff that

1560
00:54:25,910 --> 00:54:23,520
there was a kind of it was anti-climax

1561
00:54:27,829 --> 00:54:25,920
because they had a general a fairly

1562
00:54:29,190 --> 00:54:27,839
well-respected man you know standing and

1563
00:54:30,630 --> 00:54:29,200

sitting in front of them saying oh yeah

1564

00:54:33,589 --> 00:54:30,640

don't worry it's all this and i think

1565

00:54:36,470 --> 00:54:33,599

they lapped it up and they went away

1566

00:54:38,549 --> 00:54:36,480

reasonably satisfied so it was a kind of

1567

00:54:39,990 --> 00:54:38,559

it took the pressure away and

1568

00:54:41,990 --> 00:54:40,000

but the sighting still happened

1569

00:54:43,990 --> 00:54:42,000

afterwards albeit not on that scale but

1570

00:54:47,750 --> 00:54:44,000

they were still there

1571

00:54:49,670 --> 00:54:47,760

not to hog the mic j i just rarely get

1572

00:54:51,190 --> 00:54:49,680

a chance to speak

1573

00:54:53,349 --> 00:54:51,200

about this stuff

1574

00:54:55,910 --> 00:54:53,359

with with somebody that's uh so just

1575

00:54:57,910 --> 00:54:55,920

brilliant and smart like like graham but

1576

00:54:59,270 --> 00:54:57,920

little did people know and then i'll let

1577

00:55:00,230 --> 00:54:59,280

you take it from here but little did

1578

00:55:02,230 --> 00:55:00,240

people know

1579

00:55:04,069 --> 00:55:02,240

graham and and what did you think of

1580

00:55:06,789 --> 00:55:04,079

this like when

1581

00:55:09,910 --> 00:55:06,799

samford is doing that talk you know and

1582

00:55:13,349 --> 00:55:09,920

it's all around dc little do people know

1583

00:55:16,230 --> 00:55:13,359

that these this same kind of thing was

1584

00:55:18,710 --> 00:55:16,240

happening all over the country yeah

1585

00:55:21,030 --> 00:55:18,720

right around that time like langley air

1586

00:55:23,430 --> 00:55:21,040

force base all over the place all over

1587

00:55:25,349 --> 00:55:23,440

the country so in his mind when he's

1588

00:55:28,150 --> 00:55:25,359

talking right there even though it's

1589

00:55:30,309 --> 00:55:28,160

centered around dc this guy's got all

1590

00:55:32,630 --> 00:55:30,319

these different sightings happening all

1591

00:55:34,150 --> 00:55:32,640

over the place in his head

1592

00:55:35,349 --> 00:55:34,160

that's right the langley is citing it

1593

00:55:36,630 --> 00:55:35,359

actually happened about two o'clock

1594

00:55:37,910 --> 00:55:36,640

earlier that day it hadn't been the

1595

00:55:39,190 --> 00:55:37,920

night time that had been the one that

1596

00:55:41,990 --> 00:55:39,200

had kicked off the sightings on the

1597

00:55:43,910 --> 00:55:42,000

second weekend the that you know that

1598

00:55:45,589 --> 00:55:43,920

it's mentioned in the book um

1599

00:55:48,069 --> 00:55:45,599

so yes you're right there were they were

1600

00:55:50,230 --> 00:55:48,079

happening all over the place but the

1601
00:55:51,910 --> 00:55:50,240
press lovely latched on the fact that it

1602
00:55:53,589 --> 00:55:51,920
was these two weekends and it was just

1603
00:55:55,190 --> 00:55:53,599
sighting after cycling after sighting

1604
00:55:56,950 --> 00:55:55,200
and they were just like loitering around

1605
00:55:58,390 --> 00:55:56,960
the city and nothing nobody could do

1606
00:55:59,349 --> 00:55:58,400
anything about it and they didn't know

1607
00:56:00,710 --> 00:55:59,359
what they were and they didn't know what

1608
00:56:02,390 --> 00:56:00,720
the capability was and didn't know what

1609
00:56:04,630 --> 00:56:02,400
their intention was didn't know who they

1610
00:56:05,990 --> 00:56:04,640
were either and it was just well it you

1611
00:56:07,829 --> 00:56:06,000
know put yourself in the shoes of the

1612
00:56:09,349 --> 00:56:07,839
people then you know reading these

1613
00:56:12,309 --> 00:56:09,359

reports and they must have been

1614

00:56:13,430 --> 00:56:12,319

absolutely petrified some of the people

1615

00:56:14,870 --> 00:56:13,440

you know

1616

00:56:16,230 --> 00:56:14,880

yeah it must have been an interesting

1617

00:56:18,950 --> 00:56:16,240

time it would look to be a fly on the

1618

00:56:20,950 --> 00:56:18,960

wall in the radar center at washington

1619

00:56:23,270 --> 00:56:20,960

national you know

1620

00:56:24,789 --> 00:56:23,280

seeing what was going on in the kind of

1621

00:56:26,150 --> 00:56:24,799

all the battles and forwards of the

1622

00:56:28,789 --> 00:56:26,160

chatter and

1623

00:56:30,710 --> 00:56:28,799

kind of frantic phone calls to to

1624

00:56:32,789 --> 00:56:30,720

andrews air force base to out and

1625

00:56:34,309 --> 00:56:32,799

bowling air force base as well to ask

1626
00:56:36,470 --> 00:56:34,319
them you know have you passed this

1627
00:56:38,630 --> 00:56:36,480
information on where are the jets you

1628
00:56:41,589 --> 00:56:38,640
know what's going on it must have been

1629
00:56:43,670 --> 00:56:41,599
really something to to experience

1630
00:56:46,630 --> 00:56:43,680
yeah it's it's really interesting you

1631
00:56:49,190 --> 00:56:46,640
know um and for those that that are

1632
00:56:51,430 --> 00:56:49,200
are joining the the ufology conversation

1633
00:56:52,870 --> 00:56:51,440
the uap conversation within the last few

1634
00:56:55,829 --> 00:56:52,880
years it

1635
00:56:58,069 --> 00:56:55,839
um they may not know necessarily that

1636
00:56:59,910 --> 00:56:58,079
that a huge display like this happened

1637
00:57:02,309 --> 00:56:59,920
you know there's there's often

1638
00:57:04,230 --> 00:57:02,319

there's often this this kind of

1639

00:57:05,990 --> 00:57:04,240

uh there's this understanding there's

1640

00:57:08,230 --> 00:57:06,000

always been this kind of like truism

1641

00:57:10,789 --> 00:57:08,240

thanks katie of um

1642

00:57:12,789 --> 00:57:10,799

of of like well why don't they just land

1643

00:57:16,069 --> 00:57:12,799

on the white house law or something like

1644

00:57:18,950 --> 00:57:16,079

that right and in 1952 we came about as

1645

00:57:21,990 --> 00:57:18,960

close to that in a public way as we've

1646

00:57:24,470 --> 00:57:22,000

as we've ever seen so so here we are 70

1647

00:57:26,950 --> 00:57:24,480

years ago and there was kind of an

1648

00:57:29,829 --> 00:57:26,960

equivalent situation in a very

1649

00:57:31,109 --> 00:57:29,839

in a in a kind of standoffish way where

1650

00:57:33,589 --> 00:57:31,119

where we had

1651
00:57:37,750 --> 00:57:33,599
these not just one but several large

1652
00:57:39,910 --> 00:57:37,760
displays of of these uh of these craft

1653
00:57:42,950 --> 00:57:39,920
hovering over and kind of loitering over

1654
00:57:44,470 --> 00:57:42,960
as you said the dc area um so you know

1655
00:57:46,950 --> 00:57:44,480
they've kind of already ticked that box

1656
00:57:47,750 --> 00:57:46,960
off in a way you know and then and then

1657
00:57:50,069 --> 00:57:47,760
um

1658
00:57:51,670 --> 00:57:50,079
of course uh back in the 40s there was a

1659
00:57:54,309 --> 00:57:51,680
similar case what was called the battle

1660
00:57:57,910 --> 00:57:54,319
of l.a you know or the battle over la

1661
00:57:59,510 --> 00:57:57,920
where where um a very large luminous

1662
00:58:03,670 --> 00:57:59,520
craft

1663
00:58:05,030 --> 00:58:03,680

um was over la and was shelled

1664

00:58:09,030 --> 00:58:05,040

because it was during

1665

00:58:10,630 --> 00:58:09,040

world war ii and there was seemingly no

1666

00:58:12,309 --> 00:58:10,640

um

1667

00:58:14,710 --> 00:58:12,319

nothing that happened to the craft

1668

00:58:17,190 --> 00:58:14,720

itself having thousands of rounds of

1669

00:58:18,710 --> 00:58:17,200

fire uh thrown at it in the middle of

1670

00:58:20,950 --> 00:58:18,720

the night and this was of course seen by

1671

00:58:23,829 --> 00:58:20,960

thousands and thousands of people and it

1672

00:58:26,630 --> 00:58:23,839

made major newspapers um do you think

1673

00:58:29,510 --> 00:58:26,640

that there are any other cases that are

1674

00:58:32,710 --> 00:58:29,520

as important as far as a display

1675

00:58:34,150 --> 00:58:32,720

as the 1952 case or the battle of la is

1676

00:58:36,870 --> 00:58:34,160

there anything else that even kind of

1677

00:58:39,270 --> 00:58:36,880

registers as being close with regard to

1678

00:58:41,109 --> 00:58:39,280

those cases funnily enough um dave

1679

00:58:43,349 --> 00:58:41,119

partridge and i are just discussing the

1680

00:58:45,430 --> 00:58:43,359

um the battle of la in our latest uh

1681

00:58:48,309 --> 00:58:45,440

unidentified aerial podcast

1682

00:58:50,309 --> 00:58:48,319

so uh which is about to come out so um

1683

00:58:52,950 --> 00:58:50,319

yeah well aware of that particular uh

1684

00:58:55,670 --> 00:58:52,960

incident which happened in february 1942

1685

00:58:58,470 --> 00:58:55,680

um off of um yeah

1686

00:58:59,349 --> 00:58:58,480

over la it was a very strange experience

1687

00:59:02,069 --> 00:58:59,359

so

1688

00:59:02,950 --> 00:59:02,079

yeah there are cases which as you say

1689

00:59:05,109 --> 00:59:02,960

are

1690

00:59:06,230 --> 00:59:05,119

kind of vast importance the phoenix

1691

00:59:08,470 --> 00:59:06,240

lights is probably the one that would

1692

00:59:11,510 --> 00:59:08,480

come to mind i believe and that was one

1693

00:59:12,630 --> 00:59:11,520

1997 um where there was this you know

1694

00:59:14,230 --> 00:59:12,640

kind of it wasn't a triangular

1695

00:59:16,230 --> 00:59:14,240

watercraft it was a v-shaped craft

1696

00:59:18,630 --> 00:59:16,240

wasn't it with the lights along uh along

1697

00:59:22,630 --> 00:59:18,640

both sides of the v that drifted over

1698

00:59:24,390 --> 00:59:22,640

phoenix uh and then everybody saw uh and

1699

00:59:26,150 --> 00:59:24,400

was it tens of thousands of people saw

1700

00:59:28,069 --> 00:59:26,160

it wasn't just a few a few people or a

1701

00:59:30,230 --> 00:59:28,079

few hundred people it was

1702

00:59:31,829 --> 00:59:30,240

you know it seems at one point it might

1703

00:59:32,789 --> 00:59:31,839

as well be the whole population of the

1704

00:59:33,990 --> 00:59:32,799

city

1705

00:59:36,710 --> 00:59:34,000

may have seen it it was one of those

1706

00:59:37,910 --> 00:59:36,720

things that everybody claims yes i saw

1707

00:59:39,349 --> 00:59:37,920

it that night

1708

00:59:40,870 --> 00:59:39,359

you know or if they didn't they knew

1709

00:59:42,950 --> 00:59:40,880

somebody claimed

1710

00:59:45,030 --> 00:59:42,960

they saw it that night and probably half

1711

00:59:47,270 --> 00:59:45,040

of that you probably did see it um you

1712

00:59:48,549 --> 00:59:47,280

know it was one of those huge spectacles

1713

00:59:50,309 --> 00:59:48,559

and then of course later on you know

1714

00:59:51,589 --> 00:59:50,319

they have the air force flying around

1715

00:59:52,870 --> 00:59:51,599

and dropping flares or pretending to

1716

00:59:54,549 --> 00:59:52,880

drop flares and all this kind of stuff

1717

00:59:56,549 --> 00:59:54,559

to try and muddy the waters there's

1718

00:59:58,950 --> 00:59:56,559

actually a case funnily from the book

1719

01:00:00,950 --> 00:59:58,960

that i wrote that actually is apparent

1720

01:00:02,549 --> 01:00:00,960

here's a parallel again for you where

1721

01:00:04,870 --> 01:00:02,559

there'd been a case and then the

1722

01:00:07,910 --> 01:00:04,880

american air force flew crisscross

1723

01:00:10,710 --> 01:00:07,920

contrails over the area to try and

1724

01:00:12,710 --> 01:00:10,720

hide the evidence maybe yeah so that's a

1725

01:00:14,630 --> 01:00:12,720

little story in the book as well so

1726

01:00:16,789 --> 01:00:14,640

there's you know things happen like that

1727

01:00:19,270 --> 01:00:16,799

it's it's really weird so yeah phoenix

1728

01:00:21,430 --> 01:00:19,280

lights you know hands down wins i think

1729

01:00:24,069 --> 01:00:21,440

in terms of spectacle unless of course

1730

01:00:27,030 --> 01:00:24,079

you're no different

1731

01:00:30,710 --> 01:00:28,870

uh jay you mentioned about you know were

1732

01:00:32,870 --> 01:00:30,720

they waiting for the to land on the

1733

01:00:35,109 --> 01:00:32,880

white house lawn in 52 well they'd

1734

01:00:37,030 --> 01:00:35,119

already pretty much done it on celluloid

1735

01:00:40,230 --> 01:00:37,040

the year before because the day the

1736

01:00:43,270 --> 01:00:40,240

earth that still came out in 1951 with

1737

01:00:46,150 --> 01:00:43,280

you know with um clatto's um

1738

01:00:47,910 --> 01:00:46,160

space ship landing on a baseball diamond

1739

01:00:49,990 --> 01:00:47,920

it wasn't it was on a park next to the

1740

01:00:51,829 --> 01:00:50,000

washington monument and of course that

1741

01:00:54,069 --> 01:00:51,839

was probably fresh in people's minds as

1742

01:00:55,829 --> 01:00:54,079

well at the time you know were these

1743

01:00:56,950 --> 01:00:55,839

things flying around the skies was it

1744

01:00:58,710 --> 01:00:56,960

something like that that was going to

1745

01:01:01,030 --> 01:00:58,720

drop in it was going to be this huge

1746

01:01:02,390 --> 01:01:01,040

terrifying robot come out of it you know

1747

01:01:04,549 --> 01:01:02,400

sort of thing so

1748

01:01:05,990 --> 01:01:04,559

which would um you know shoot death rags

1749

01:01:07,990 --> 01:01:06,000

out of it and demolish tanks and

1750

01:01:11,829 --> 01:01:08,000

artillery and guns and people and you

1751

01:01:13,510 --> 01:01:11,839

know so yeah frightening times

1752

01:01:15,829 --> 01:01:13,520

so other than i don't want to give too

1753

01:01:17,030 --> 01:01:15,839

much uh stuff away in your book i guess

1754

01:01:18,950 --> 01:01:17,040

but um

1755

01:01:21,109 --> 01:01:18,960

what is the

1756

01:01:22,870 --> 01:01:21,119

the your favorite unknown case from the

1757

01:01:25,670 --> 01:01:22,880

time period he wrote about

1758

01:01:27,510 --> 01:01:25,680

oh some good ones there's two actually

1759

01:01:30,309 --> 01:01:27,520

but they're actually linked and happened

1760

01:01:32,470 --> 01:01:30,319

over career um so you've got you've got

1761

01:01:34,950 --> 01:01:32,480

jet fighter pilots and what they see are

1762

01:01:37,190 --> 01:01:34,960

these oblong shapes

1763

01:01:39,990 --> 01:01:37,200

and they see them on successive days

1764

01:01:42,150 --> 01:01:40,000

um and they the first person who said

1765

01:01:43,990 --> 01:01:42,160

the first pilot who saw one thought it

1766

01:01:45,190 --> 01:01:44,000

was a gunnery target like a drogue you

1767

01:01:47,270 --> 01:01:45,200

know the things that they're towed along

1768

01:01:48,630 --> 01:01:47,280

by other aircraft and and pilots like

1769

01:01:50,150 --> 01:01:48,640

use them as gunnery practice the shoot

1770

01:01:51,510 --> 01:01:50,160

of them they try and shoot holes in them

1771

01:01:53,190 --> 01:01:51,520

with them

1772

01:01:54,630 --> 01:01:53,200

die tip bullets so you can see who's

1773

01:01:55,670 --> 01:01:54,640

actually fired the bullets at the

1774

01:01:57,270 --> 01:01:55,680

targets

1775

01:01:59,430 --> 01:01:57,280

so they thought it might be one those

1776

01:02:01,109 --> 01:01:59,440

that got loose and just was flying but

1777

01:02:02,950 --> 01:02:01,119

it was flying quite high and it didn't

1778

01:02:05,910 --> 01:02:02,960

look like a drogue it was it was quite a

1779

01:02:07,430 --> 01:02:05,920

regular shape and then the another pilot

1780

01:02:09,510 --> 01:02:07,440

saw another one the same day in a

1781

01:02:11,510 --> 01:02:09,520

different part of korea so

1782

01:02:14,069 --> 01:02:11,520

there was something weird flying around

1783

01:02:16,230 --> 01:02:14,079

um and that that that was not one but

1784

01:02:18,470 --> 01:02:16,240

actually that's not the probably the the

1785

01:02:20,549 --> 01:02:18,480

one i'm really interested in i have a

1786

01:02:23,190 --> 01:02:20,559

purse a very tenuous

1787

01:02:24,470 --> 01:02:23,200

tenuous personal connection with one of

1788

01:02:26,150 --> 01:02:24,480

the stories from russia what do you

1789

01:02:28,230 --> 01:02:26,160

believe i know

1790

01:02:29,829 --> 01:02:28,240

russia is not the kind of place that you

1791

01:02:31,750 --> 01:02:29,839

should really talk about at the moment

1792

01:02:33,990 --> 01:02:31,760

but where it happened a place called

1793

01:02:36,549 --> 01:02:34,000

nizhny kreshti which is like four

1794

01:02:40,230 --> 01:02:36,559

crosses uh low crop it means low crosses

1795

01:02:41,430 --> 01:02:40,240

in in russian um i visited there in july

1796

01:02:43,670 --> 01:02:41,440

ninety two

1797

01:02:46,630 --> 01:02:43,680

uh it's a polar research settlement um

1798

01:02:48,150 --> 01:02:46,640

on the on the near the arctic ocean um

1799

01:02:51,349 --> 01:02:48,160

in northeastern siberia it's actually

1800

01:02:52,630 --> 01:02:51,359

called chersky now uh but that site so i

1801

01:02:54,870 --> 01:02:52,640

know the place

1802

01:02:56,789 --> 01:02:54,880

very very well um so when i was

1803

01:02:58,950 --> 01:02:56,799

researching it and i found oh yeah and

1804

01:03:00,789 --> 01:02:58,960

this name cropped up of siberia i

1805

01:03:03,430 --> 01:03:00,799

thought i know where that is

1806

01:03:05,430 --> 01:03:03,440

so um i managed to use one of my

1807

01:03:07,990 --> 01:03:05,440

photographs in the book to develop

1808

01:03:12,549 --> 01:03:08,000

somewhere which is which is amazing so

1809

01:03:17,510 --> 01:03:15,750

a photo taken by me yeah photograph

1810

01:03:19,589 --> 01:03:17,520

taken by the author

1811

01:03:22,069 --> 01:03:19,599

uh well we're we're up against the hour

1812

01:03:24,390 --> 01:03:22,079

here unless um jay do you have any other

1813

01:03:26,549 --> 01:03:24,400

questions for for mr randall

1814

01:03:28,950 --> 01:03:26,559

i'm just um i'm

1815

01:03:30,630 --> 01:03:28,960

i'm looking forward to seeing you on on

1816

01:03:33,270 --> 01:03:30,640

saturday um

1817

01:03:35,109 --> 01:03:33,280

it's a wonderful timing and that um

1818

01:03:38,150 --> 01:03:35,119

you're going to be uh we're going to be

1819

01:03:40,789 --> 01:03:38,160

discussing above top secret by timothy

1820

01:03:42,390 --> 01:03:40,799

good um which was published i believe in

1821

01:03:46,150 --> 01:03:42,400

1988

1822

01:03:49,589 --> 01:03:46,160

um so so there we have a book that's you

1823

01:03:52,390 --> 01:03:49,599

know it's covering some similar terrain

1824

01:03:54,230 --> 01:03:52,400

in a in a large format way but of course

1825

01:03:55,029 --> 01:03:54,240

it's it's with

1826

01:03:57,349 --> 01:03:55,039

um

1827

01:03:59,349 --> 01:03:57,359

much less of the contemporary context

1828

01:04:01,109 --> 01:03:59,359

that that we've got but you know it's

1829

01:04:04,309 --> 01:04:01,119

it's going to be interesting to see how

1830

01:04:05,750 --> 01:04:04,319

that uh above top secret dovetails with

1831

01:04:08,630 --> 01:04:05,760

your new book in terms of the

1832

01:04:11,910 --> 01:04:08,640

conversation then and hopefully if we

1833

01:04:14,230 --> 01:04:11,920

can twist some arms in the uap book club

1834

01:04:16,630 --> 01:04:14,240

maybe we can talk about flying saucer

1835

01:04:18,390 --> 01:04:16,640

fever in an episode to come in the

1836

01:04:20,150 --> 01:04:18,400

months to come would you be opposed to

1837

01:04:21,589 --> 01:04:20,160

that i wouldn't be opposed to it but i

1838

01:04:23,589 --> 01:04:21,599

wouldn't want to be sort of accused of

1839

01:04:27,190 --> 01:04:23,599

any kind of you know special favors so

1840

01:04:33,109 --> 01:04:27,200

uh she's got to get him on the record

1841

01:04:36,309 --> 01:04:34,789

well beautiful this has been absolutely

1842

01:04:38,549 --> 01:04:36,319

amazing it's wonderful to be able to

1843

01:04:40,950 --> 01:04:38,559

talk to you on such an auspicious day

1844

01:04:42,390 --> 01:04:40,960

um you know it's only every so often one

1845

01:04:44,470 --> 01:04:42,400

comes out with a book though it sounds

1846

01:04:46,950 --> 01:04:44,480

like you know there's been a lot of talk

1847

01:04:49,750 --> 01:04:46,960

about foo fighters in this conversation

1848

01:04:52,710 --> 01:04:49,760

today whereas uh mr rindel is he's kind

1849

01:04:54,950 --> 01:04:52,720

of more of a guided by voices guy

1850

01:04:57,109 --> 01:04:54,960

because he's already got this big one in

1851
01:04:57,910 --> 01:04:57,119
the can and he's already on to the next

1852
01:05:04,950 --> 01:04:57,920
one

1853
01:05:07,430 --> 01:05:04,960
see so it's kind of maybe

1854
01:05:09,270 --> 01:05:07,440
as far as maybe bands go it might be

1855
01:05:10,630 --> 01:05:09,280
that might be a more

1856
01:05:12,069 --> 01:05:10,640
close analogy

1857
01:05:14,630 --> 01:05:12,079
since we're putting you down and getting

1858
01:05:16,470 --> 01:05:14,640
you on the record will you let me uh

1859
01:05:18,069 --> 01:05:16,480
co-write a chapter with you on one of

1860
01:05:21,430 --> 01:05:18,079
your upcoming books

1861
01:05:23,270 --> 01:05:21,440
oh i wouldn't yeah that's a yeah

1862
01:05:26,069 --> 01:05:23,280
yeah like i don't think he meant it but

1863
01:05:27,829 --> 01:05:26,079

he did say it on the record no thank you

1864

01:05:29,349 --> 01:05:27,839

i'll tell you what's gonna talk about it

1865

01:05:30,470 --> 01:05:29,359

how about no how about this you write

1866

01:05:31,510 --> 01:05:30,480

the forward

1867

01:05:35,270 --> 01:05:31,520

oh

1868

01:05:36,710 --> 01:05:35,280

beautiful hey all right

1869

01:05:40,789 --> 01:05:36,720

yes you'll have you'll have to

1870

01:05:45,190 --> 01:05:43,109

you're at the forward how about that

1871

01:05:47,029 --> 01:05:45,200

that's the deal wow sweet i gotta do

1872

01:05:48,230 --> 01:05:47,039

this more often get you on the record

1873

01:05:50,470 --> 01:05:48,240

and ask you for

1874

01:05:51,670 --> 01:05:50,480

things like that absolutely hey graham

1875

01:05:53,510 --> 01:05:51,680

why don't you come do a show i got a

1876

01:05:56,549 --> 01:05:53,520

couple questions for you

1877

01:05:58,630 --> 01:05:56,559

can i get 75 of anything you make on

1878

01:06:00,470 --> 01:05:58,640

anything in the future even if it's not

1879

01:06:03,430 --> 01:06:00,480

on the books it's just a regular job

1880

01:06:06,950 --> 01:06:05,349

i i had a great time with you graham

1881

01:06:09,109 --> 01:06:06,960

you're you're a super friend a great

1882

01:06:11,190 --> 01:06:09,119

colleague um i look forward to seeing

1883

01:06:12,950 --> 01:06:11,200

you saturday on uh

1884

01:06:15,750 --> 01:06:12,960

quantum witch cafes channel for the book

1885

01:06:17,349 --> 01:06:15,760

club uh to discuss top secret and if you

1886

01:06:19,029 --> 01:06:17,359

got the uk version i have a very

1887

01:06:20,950 --> 01:06:19,039

interesting question for you

1888

01:06:21,990 --> 01:06:20,960

uh when that comes so people should tune

1889

01:06:24,470 --> 01:06:22,000

in

1890

01:06:27,029 --> 01:06:24,480

um and yeah i had a great time i know

1891

01:06:29,910 --> 01:06:27,039

this is you know um there's many more to

1892

01:06:31,670 --> 01:06:29,920

come and you know i have to unveil our

1893

01:06:33,430 --> 01:06:31,680

little scene of the movie that we

1894

01:06:35,190 --> 01:06:33,440

recorded as well that's right graham

1895

01:06:36,309 --> 01:06:35,200

does some acting so

1896

01:06:38,710 --> 01:06:36,319

um

1897

01:06:40,470 --> 01:06:38,720

that'll be fantastic and so but with

1898

01:06:43,670 --> 01:06:40,480

that being said i really appreciate it

1899

01:06:45,990 --> 01:06:43,680

everybody i put the link to is twitter

1900

01:06:49,510 --> 01:06:46,000

and uh the book that you can read for

1901

01:06:51,750 --> 01:06:49,520

free for for now on kindle so go there

1902

01:06:53,910 --> 01:06:51,760

and check it out but please support him

1903

01:06:55,670 --> 01:06:53,920

and and look at his other works because

1904

01:06:56,710 --> 01:06:55,680

it's fantastic we need authors like him

1905

01:06:58,829 --> 01:06:56,720

around so

1906

01:07:01,670 --> 01:06:58,839

uh with that being

1907

01:07:04,710 --> 01:07:01,680

said thank you thank you so much mr

1908

01:07:06,870 --> 01:07:04,720

randall excellent work peace out

1909

01:07:08,309 --> 01:07:06,880

cheers

1910

01:07:11,270 --> 01:07:08,319

great show friend

1911

01:07:12,789 --> 01:07:11,280

absolutely friend that was

1912

01:07:14,710 --> 01:07:12,799

absolutely wonderful

1913

01:07:16,630 --> 01:07:14,720

i uh i

1914

01:07:19,190 --> 01:07:16,640

i love mr rundle

1915

01:07:21,430 --> 01:07:19,200

he's so great he's a fantastic writer

1916

01:07:23,589 --> 01:07:21,440

and it was wonderful to get that kind of

1917

01:07:24,390 --> 01:07:23,599

sudden homework assignment today

1918

01:07:26,549 --> 01:07:24,400

and

1919

01:07:27,670 --> 01:07:26,559

again kind of like

1920

01:07:29,270 --> 01:07:27,680

that

1921

01:07:31,750 --> 01:07:29,280

chuck any idea for what the show was

1922

01:07:33,349 --> 01:07:31,760

going to be and go with the absolute new

1923

01:07:35,589 --> 01:07:33,359

thing which which is kind of an

1924

01:07:37,270 --> 01:07:35,599

exhilarating way to arrange the day you

1925

01:07:39,670 --> 01:07:37,280

know i feel like that's kind of becoming

1926

01:07:42,470 --> 01:07:39,680

our mo you know

1927

01:07:45,670 --> 01:07:42,480

like the time the timing of what we do

1928

01:07:47,750 --> 01:07:45,680

always just works out so well

1929

01:07:49,589 --> 01:07:47,760

yeah it's it's it seems auspicious it

1930

01:07:52,870 --> 01:07:49,599

almost seems designed but

1931

01:07:55,109 --> 01:07:52,880

um very we um we're nimble we're nimble

1932

01:07:57,430 --> 01:07:55,119

thinkers and we try to adapt and i'm

1933

01:07:59,589 --> 01:07:57,440

just lazy so

1934

01:08:00,950 --> 01:07:59,599

but it works out

1935

01:08:05,029 --> 01:08:00,960

well

1936

01:08:06,470 --> 01:08:05,039

audience goes with it uh thanks to

1937

01:08:08,710 --> 01:08:06,480

everybody in the chat for being so

1938

01:08:10,390 --> 01:08:08,720

wonderful i saw so much wonderful

1939

01:08:12,390 --> 01:08:10,400

dialogue happening over there and so

1940

01:08:16,070 --> 01:08:12,400

many wonderful uh

1941

01:08:19,269 --> 01:08:16,080

people in the chat like jonathan and dan

1942

01:08:21,269 --> 01:08:19,279

and laura and katie howland and and

1943

01:08:23,030 --> 01:08:21,279

vinnie i saw earlier

1944

01:08:26,390 --> 01:08:23,040

so many want julie farrell so many

1945

01:08:28,709 --> 01:08:26,400

wonderful regulars andres i i won't go

1946

01:08:29,910 --> 01:08:28,719

and name everyone but um it's absolutely

1947

01:08:31,829 --> 01:08:29,920

gone

1948

01:08:32,870 --> 01:08:31,839

the the robert

1949

01:08:34,470 --> 01:08:32,880

the the

1950

01:08:37,110 --> 01:08:34,480

amazing community that we have

1951

01:08:39,669 --> 01:08:37,120

developing on the channel and in the

1952

01:08:41,990 --> 01:08:39,679

community in general it's it's wonderful

1953

01:08:43,749 --> 01:08:42,000

um seeing how people can actually get

1954

01:08:45,910 --> 01:08:43,759

together and

1955

01:08:47,910 --> 01:08:45,920

have pleasant conversation thoughtful

1956

01:08:51,189 --> 01:08:47,920

conversation with each other um as

1957

01:08:54,709 --> 01:08:51,199

opposed to you know when we just kind of

1958

01:08:56,950 --> 01:08:54,719

avoid certain areas

1959

01:08:59,189 --> 01:08:56,960

you know little do they know that we you

1960

01:09:00,870 --> 01:08:59,199

know right when we get off the air the

1961

01:09:02,630 --> 01:09:00,880

talking begins

1962

01:09:03,829 --> 01:09:02,640

so

1963

01:09:05,829 --> 01:09:03,839

i'm just kidding

1964

01:09:08,630 --> 01:09:05,839

unless unless sean hasn't eaten for like

1965

01:09:09,590 --> 01:09:08,640

two whole days then yeah you know

1966

01:09:11,910 --> 01:09:09,600

because

1967

01:09:13,510 --> 01:09:11,920

yeah then the hanger takes over but

1968

01:09:14,870 --> 01:09:13,520

we're absolutely okay

1969

01:09:17,430 --> 01:09:14,880

all right friend well

1970

01:09:20,709 --> 01:09:17,440

i love you buddy and uh hopefully we

1971

01:09:22,470 --> 01:09:20,719

will see you very soon

1972

01:09:24,630 --> 01:09:22,480

absolutely well if nothing else i'll see

1973

01:09:26,789 --> 01:09:24,640

you on saturday and then next wednesday

1974

01:09:29,480 --> 01:09:26,799

for sure all right all right peace have

1975

01:09:30,530 --> 01:09:29,490

a good one buddy i'll see you soon bye

1976

01:09:30,660 --> 01:09:30,540

[Music]

1977

01:09:38,519 --> 01:09:30,670

[Laughter]

1978

01:10:04,010 --> 01:09:45,010

[Music]

1979

01:10:04,020 --> 01:10:08,070

[Applause]

1980

01:10:08,080 --> 01:10:13,110

flying object
