

1
00:00:06,950 --> 00:00:03,830
so can you tell us any update on the uh

2
00:00:09,190 --> 00:00:06,960
airborne objects identification and

3
00:00:11,669 --> 00:00:09,200
management synchronization

4
00:00:14,549 --> 00:00:11,679
group otherwise known as the aomsig any

5
00:00:17,029 --> 00:00:14,559
update on what they're doing

6
00:00:17,990 --> 00:00:17,039
uh i don't have an update for you on the

7
00:00:19,269 --> 00:00:18,000
on the

8
00:00:22,870 --> 00:00:19,279
the

9
00:00:25,029 --> 00:00:22,880
about uh

10
00:00:28,870 --> 00:00:25,039
um we're still uh

11
00:00:30,870 --> 00:00:28,880
uh working uh to uh sufficiently staff

12
00:00:31,990 --> 00:00:30,880
uh that organization and get them into a

13
00:00:33,670 --> 00:00:32,000

battle rhythm but i don't have any

14

00:00:35,430 --> 00:00:33,680

updates for you and i could not hear

15

00:00:37,190 --> 00:00:35,440

your first question

16

00:00:38,310 --> 00:00:37,200

give me a comment about

17

00:00:39,750 --> 00:00:38,320

next week

18

00:00:43,270 --> 00:00:39,760

congress is going to hold the first

19

00:00:45,910 --> 00:00:43,280

hearing in 50 years on

20

00:00:48,470 --> 00:00:45,920

ufos uaps i was wondering if you just

21

00:00:51,189 --> 00:00:48,480

comment on that since two people from

22

00:00:53,430 --> 00:00:51,199

uh u.s military gonna be uh testifying

23

00:00:54,869 --> 00:00:53,440

there yeah no we look um we're we're

24

00:00:56,470 --> 00:00:54,879

looking forward to the upcoming

25

00:00:59,830 --> 00:00:56,480

opportunity here to engage members of

26

00:01:00,869 --> 00:00:59,840

congress on this very important matter

27

00:01:03,110 --> 00:01:00,879

i'm not going to get ahead of that

28

00:01:05,189 --> 00:01:03,120

testimony but

29

00:01:06,710 --> 00:01:05,199

but we are absolutely committed to being

30

00:01:07,990 --> 00:01:06,720

as transparent as we can with the

31

00:01:11,270 --> 00:01:08,000

american people and with members of

32

00:01:16,710 --> 00:01:14,710

uh about our perspectives on this and uh

33

00:01:19,270 --> 00:01:16,720

and what we're gonna try to do to

34

00:01:22,230 --> 00:01:19,280

uh to make sure we

35

00:01:23,270 --> 00:01:22,240

uh have a better process for identifying

36

00:01:29,670 --> 00:01:23,280

uh

37

00:01:32,069 --> 00:01:29,680

analyzing that information

38

00:01:34,390 --> 00:01:32,079

in a more proactive coordinated way than

39

00:01:36,149 --> 00:01:34,400

it's been done in the past and that we

40

00:01:38,789 --> 00:01:36,159

also are doing what we need to do to

41

00:01:42,310 --> 00:01:38,799

mitigate any safety issues

42

00:01:44,789 --> 00:01:42,320

as as many of these uh phenomena have

43

00:01:48,389 --> 00:01:44,799

been cited in in training ranges uh and

44

00:01:52,069 --> 00:01:49,910

we're very much concerned about safety

45

00:01:53,670 --> 00:01:52,079

of flight so we're looking forward to

46

00:01:55,350 --> 00:01:53,680

the opportunity to talk to congress

47

00:01:57,670 --> 00:01:55,360

about this i won't get ahead of it just

48

00:01:59,990 --> 00:01:57,680

quickly how concerned is the pentagon

49

00:02:01,350 --> 00:02:00,000

that these might be some kind of uh

50

00:02:02,630 --> 00:02:01,360

adversary

51

00:02:04,870 --> 00:02:02,640

um

52

00:02:07,030 --> 00:02:04,880

you know objects from somebody like

53

00:02:10,150 --> 00:02:07,040

china or russia etc

54

00:02:14,229 --> 00:02:10,160

i uh i i don't have we don't have a view

55

00:02:15,350 --> 00:02:14,239

on that uh uh howard i mean we're

56

00:02:23,030 --> 00:02:15,360

uh

57

00:02:25,270 --> 00:02:23,040

particularly in terms of training ranges

58

00:02:27,430 --> 00:02:25,280

that uh that we do have we think

59

00:02:29,830 --> 00:02:27,440

legitimate safety of flight concerns

60

00:02:31,190 --> 00:02:29,840

here um but but

61

00:02:34,150 --> 00:02:31,200

the department hasn't come to a

62

00:02:35,270 --> 00:02:34,160

conclusion um uh about what all these

63

00:02:36,949 --> 00:02:35,280

phenomena

64

00:02:38,390 --> 00:02:36,959

are what they represent

65

00:02:40,630 --> 00:02:38,400

that's why we're putting this group

66

00:02:42,790 --> 00:02:40,640

together so that we can do a better job

67

00:02:44,949 --> 00:02:42,800

of just collating the information it's

68

00:02:47,430 --> 00:02:44,959

been sort of ad hoc in the past in terms

69

00:02:48,309 --> 00:02:47,440

of a pilot here or a pilot there seeing

70

00:02:49,750 --> 00:02:48,319

something

71

00:02:51,509 --> 00:02:49,760

and the reporting procedures haven't

72

00:02:53,350 --> 00:02:51,519

been consistent so what we're trying to

73

00:02:55,270 --> 00:02:53,360

do with this group is get together a

74

00:02:56,229 --> 00:02:55,280

process here and i know process isn't

75

00:02:58,470 --> 00:02:56,239

very

76
00:03:00,070 --> 00:02:58,480
fun uh for you to report on and probably

77
00:03:01,509 --> 00:03:00,080
not very fun for me to talk about but

78
00:03:03,110 --> 00:03:01,519
that's what we need we need a better

79
00:03:07,450 --> 00:03:03,120
process that's what this group is going

80
00:03:07,460 --> 00:03:25,270
[Music]

81
00:03:29,509 --> 00:03:28,229
what is up everybody uh

82
00:03:31,190 --> 00:03:29,519
happy

83
00:03:33,270 --> 00:03:31,200
freaking wednesday

84
00:03:34,869 --> 00:03:33,280
we got the one and only wednesday friend

85
00:03:36,550 --> 00:03:34,879
here

86
00:03:39,110 --> 00:03:36,560
hey what's up

87
00:03:40,949 --> 00:03:39,120
you got your mid-american cup drink

88
00:03:43,270 --> 00:03:40,959

yeah

89

00:03:47,030 --> 00:03:43,280

because that's a phrase that people say

90

00:03:48,390 --> 00:03:47,040

gotcha mid-america cup drink um

91

00:03:50,550 --> 00:03:48,400

yeah it's actually

92

00:03:53,030 --> 00:03:50,560

it's uh i've got these matching pair of

93

00:03:55,830 --> 00:03:53,040

old man on the moon apollo 11 classes

94

00:03:58,149 --> 00:03:55,840

from back in 69. yeah um

95

00:04:01,030 --> 00:03:58,159

yeah my partner and i yeah we call this

96

00:04:03,110 --> 00:04:01,040

the fine china you know definitely above

97

00:04:06,229 --> 00:04:03,120

the regular regular

98

00:04:08,710 --> 00:04:06,239

wine glasses so right yep right yeah you

99

00:04:11,670 --> 00:04:08,720

caught me mid america drink i'll take

100

00:04:17,189 --> 00:04:14,789

that's a beautiful cup i love that so uh

101
00:04:19,990 --> 00:04:17,199
yesterday yeah so some pretty great news

102
00:04:21,509 --> 00:04:20,000
uh well you know like um i think ralph

103
00:04:22,950 --> 00:04:21,519
said it great on the show yesterday he

104
00:04:24,469 --> 00:04:22,960
goes it

105
00:04:25,990 --> 00:04:24,479
you know we could learn a lot we don't

106
00:04:27,830 --> 00:04:26,000
have to learn a lot

107
00:04:28,950 --> 00:04:27,840
you know it's up to the questions that

108
00:04:31,909 --> 00:04:28,960
congress

109
00:04:33,990 --> 00:04:31,919
um brings and and the information they

110
00:04:36,390 --> 00:04:34,000
they come armed with so

111
00:04:37,990 --> 00:04:36,400
hopefully they come armed with uh some

112
00:04:39,670 --> 00:04:38,000
good questions we have a lot of stuff

113
00:04:41,189 --> 00:04:39,680

that we can go through as far as the

114

00:04:42,550 --> 00:04:41,199

questions that people have been asking

115

00:04:44,870 --> 00:04:42,560

on twitter and

116

00:04:46,629 --> 00:04:44,880

and all that kind of stuff and and maybe

117

00:04:49,270 --> 00:04:46,639

we can be informed a little bit on a

118

00:04:51,030 --> 00:04:49,280

couple people that will be testifying

119

00:04:53,350 --> 00:04:51,040

absolutely i know you have some

120

00:04:54,870 --> 00:04:53,360

information on that so uh

121

00:04:57,350 --> 00:04:54,880

you know i'm looking forward to it first

122

00:04:59,510 --> 00:04:57,360

time in a long time that uh you know

123

00:05:01,590 --> 00:04:59,520

public hearings are gonna happen like

124

00:05:03,670 --> 00:05:01,600

this you know whether they're a couple

125

00:05:06,469 --> 00:05:03,680

witnesses or a lot fact is this is

126

00:05:09,670 --> 00:05:06,479

different and it's awesome

127

00:05:12,469 --> 00:05:09,680

absolutely it's it's historic of course

128

00:05:15,590 --> 00:05:12,479

i i mean as it was established very well

129

00:05:18,070 --> 00:05:15,600

online yesterday and and in uh ralph and

130

00:05:19,749 --> 00:05:18,080

leslie's new york times article uh early

131

00:05:21,749 --> 00:05:19,759

yesterday morning

132

00:05:23,270 --> 00:05:21,759

very historic it's been over five

133

00:05:25,350 --> 00:05:23,280

decades since something like this has

134

00:05:28,790 --> 00:05:25,360

happened and

135

00:05:31,350 --> 00:05:28,800

um interestingly on uh

136

00:05:33,430 --> 00:05:31,360

yesterday on on twitter the house

137

00:05:36,230 --> 00:05:33,440

intelligence committee tweeted

138

00:05:37,029 --> 00:05:36,240

and okay one thing here is to appreciate

139

00:05:39,029 --> 00:05:37,039

is

140

00:05:40,870 --> 00:05:39,039

that the tweet from the house

141

00:05:43,990 --> 00:05:40,880

intelligence committee yesterday was

142

00:05:45,189 --> 00:05:44,000

their first tweet since march 22nd okay

143

00:05:47,430 --> 00:05:45,199

oh well

144

00:05:48,950 --> 00:05:47,440

they don't tweet all that much and so i

145

00:05:50,790 --> 00:05:48,960

i guess that tells you something in

146

00:05:52,550 --> 00:05:50,800

terms of like what

147

00:05:53,990 --> 00:05:52,560

that this kind of breached water in

148

00:05:55,430 --> 00:05:54,000

terms of the significance of what

149

00:05:57,990 --> 00:05:55,440

they're talking about here

150

00:06:00,150 --> 00:05:58,000

um but they're friends like elon musk

151

00:06:02,309 --> 00:06:00,160

there you go and they say

152

00:06:05,350 --> 00:06:02,319

and here it says um you know andre

153

00:06:08,230 --> 00:06:05,360

carson's gonna gonna lead it but uh it

154

00:06:11,110 --> 00:06:08,240

says on may 17th the c3

155

00:06:14,230 --> 00:06:11,120

subcommittee led by representative andre

156

00:06:15,830 --> 00:06:14,240

carson of indiana as i recall yep

157

00:06:18,230 --> 00:06:15,840

will hold an open hearing on

158

00:06:20,950 --> 00:06:18,240

unidentified aerial phenomena this will

159

00:06:22,870 --> 00:06:20,960

be the committee's first open hearing on

160

00:06:24,710 --> 00:06:22,880

the topic and members will push for

161

00:06:28,629 --> 00:06:24,720

greater transparency

162

00:06:31,749 --> 00:06:28,639

from the ic so the intelligence

163

00:06:33,110 --> 00:06:31,759

community so you know we already so we

164

00:06:34,469 --> 00:06:33,120

already have a little bit of a mission

165

00:06:36,230 --> 00:06:34,479

statement here

166

00:06:38,550 --> 00:06:36,240

we know who's going to be

167

00:06:40,950 --> 00:06:38,560

we know what subcommittee is going to be

168

00:06:43,350 --> 00:06:40,960

doing this and we also have the

169

00:06:45,670 --> 00:06:43,360

interesting verbiage here of the first

170

00:06:47,909 --> 00:06:45,680

open hearing on the topic which seems to

171

00:06:49,440 --> 00:06:47,919

suggest that this may not be a one and

172

00:06:50,950 --> 00:06:49,450

done kind of scenario

173

00:06:51,830 --> 00:06:50,960

[Laughter]

174

00:06:54,230 --> 00:06:51,840

yeah

175

00:06:57,510 --> 00:06:54,240

very astute

176
00:07:00,070 --> 00:06:58,210
thank you

177
00:07:01,110 --> 00:07:00,080
[Laughter]

178
00:07:03,589 --> 00:07:01,120
thank you

179
00:07:05,670 --> 00:07:03,599
yeah that's great i feel like that's uh

180
00:07:07,270 --> 00:07:05,680
you know kind of the vibe we've been

181
00:07:09,670 --> 00:07:07,280
getting a little bit this tip of the

182
00:07:12,550 --> 00:07:09,680
iceberg kind of thing you know this is

183
00:07:14,790 --> 00:07:12,560
just the the start so to speak and you

184
00:07:16,629 --> 00:07:14,800
know but i again i would i would assume

185
00:07:19,110 --> 00:07:16,639
a lot of it has to do with uh what's

186
00:07:21,350 --> 00:07:19,120
going to be said on tuesday and and how

187
00:07:23,029 --> 00:07:21,360
much uh farther they'll have to dig

188
00:07:23,990 --> 00:07:23,039

which i would assume would have to be

189

00:07:28,950 --> 00:07:24,000

pretty

190

00:07:30,950 --> 00:07:28,960

this topic that's for sure so would you

191

00:07:32,950 --> 00:07:30,960

mind telling us a little bit about uh

192

00:07:34,790 --> 00:07:32,960

the the people who will be testifying

193

00:07:36,550 --> 00:07:34,800

the the witnesses

194

00:07:38,390 --> 00:07:36,560

oh sure um

195

00:07:42,550 --> 00:07:38,400

there are two

196

00:07:43,350 --> 00:07:42,560

in the new york times article

197

00:07:44,469 --> 00:07:43,360

that

198

00:07:52,790 --> 00:07:44,479

are

199

00:07:54,550 --> 00:07:52,800

scott bray

200

00:07:55,510 --> 00:07:54,560

and um

201
00:07:58,710 --> 00:07:55,520
in

202
00:08:01,270 --> 00:07:58,720
i believe it was just on on leslie's

203
00:08:04,469 --> 00:08:01,280
um facebook page which is which is

204
00:08:06,790 --> 00:08:04,479
public but um she indicated that it's

205
00:08:09,189 --> 00:08:06,800
her understanding leslie kane's it's her

206
00:08:11,909 --> 00:08:09,199
understanding that the only two people

207
00:08:14,550 --> 00:08:11,919
that are going to be called uh that day

208
00:08:15,270 --> 00:08:14,560
are ronald moultrie and scott bray

209
00:08:17,749 --> 00:08:15,280
so

210
00:08:20,070 --> 00:08:17,759
ronald moultrie is the undersecretary of

211
00:08:22,790 --> 00:08:20,080
defense for intelligence and security

212
00:08:25,110 --> 00:08:22,800
and scott bray is the deputy director of

213
00:08:28,550 --> 00:08:25,120

nature naval intelligence so these are

214

00:08:31,189 --> 00:08:28,560

two very very senior positions

215

00:08:33,430 --> 00:08:31,199

and they have it's interesting that

216

00:08:35,990 --> 00:08:33,440

these two are being called

217

00:08:38,230 --> 00:08:36,000

and you know of course between now and

218

00:08:40,630 --> 00:08:38,240

then and maybe even after then we can

219

00:08:41,750 --> 00:08:40,640

speculate about exactly why these are

220

00:08:44,870 --> 00:08:41,760

the two

221

00:08:45,990 --> 00:08:44,880

um to to bring in first

222

00:08:48,389 --> 00:08:46,000

right

223

00:08:49,990 --> 00:08:48,399

um

224

00:08:51,910 --> 00:08:50,000

yeah so

225

00:08:54,389 --> 00:08:51,920

you're bringing in pretty high level

226

00:08:56,389 --> 00:08:54,399

people first and we're getting a lot of

227

00:08:59,269 --> 00:08:56,399

hints that this would probably be the

228

00:09:01,750 --> 00:08:59,279

first hearing so um i think that's

229

00:09:04,150 --> 00:09:01,760

spectacular um

230

00:09:06,150 --> 00:09:04,160

you know go to go to the go as high as

231

00:09:07,509 --> 00:09:06,160

he can right away i mean

232

00:09:09,750 --> 00:09:07,519

that's pretty great it's also pretty

233

00:09:11,990 --> 00:09:09,760

interesting um

234

00:09:14,230 --> 00:09:12,000

uh what ralph said yesterday on on the

235

00:09:16,070 --> 00:09:14,240

show here about how you know they've

236

00:09:18,630 --> 00:09:16,080

known about it for a while

237

00:09:20,470 --> 00:09:18,640

you know other people

238

00:09:22,949 --> 00:09:20,480

i guess has been in the works for a bit

239

00:09:24,470 --> 00:09:22,959

so you know thinking about that too is

240

00:09:26,070 --> 00:09:24,480

pretty interesting and how it's you know

241

00:09:28,470 --> 00:09:26,080

been kept secret for so long as well

242

00:09:30,630 --> 00:09:28,480

said start to keep secrets in dc so

243

00:09:32,150 --> 00:09:30,640

so i thought that was pretty interesting

244

00:09:34,470 --> 00:09:32,160

too and

245

00:09:35,350 --> 00:09:34,480

you know i wonder if it has any

246

00:09:37,509 --> 00:09:35,360

um

247

00:09:40,389 --> 00:09:37,519

if there's any relation

248

00:09:43,350 --> 00:09:40,399

to you know gary reed being you know

249

00:09:45,509 --> 00:09:43,360

taken out of his position

250

00:09:47,990 --> 00:09:45,519

well that's an interesting point with

251
00:09:49,590 --> 00:09:48,000
gary reid i mean you know one of the

252
00:09:52,389 --> 00:09:49,600
areas

253
00:09:53,190 --> 00:09:52,399
that gary reed specialized in of course

254
00:09:55,310 --> 00:09:53,200
is

255
00:09:56,870 --> 00:09:55,320
has notably been pointed out as

256
00:09:59,670 --> 00:09:56,880
counterintelligence

257
00:10:00,470 --> 00:09:59,680
now this this particular subcommittee is

258
00:10:04,470 --> 00:10:00,480
on

259
00:10:06,550 --> 00:10:04,480
counterterrorism counterintelligence and

260
00:10:08,790 --> 00:10:06,560
counter proliferation

261
00:10:11,509 --> 00:10:08,800
and so that would seem to indicate that

262
00:10:14,710 --> 00:10:11,519
we're specifically targeting oversight

263
00:10:16,310 --> 00:10:14,720

of the uap task force office and the new

264

00:10:19,190 --> 00:10:16,320

office as well

265

00:10:20,630 --> 00:10:19,200

it's also it's also interesting because

266

00:10:22,630 --> 00:10:20,640

you wonder

267

00:10:23,990 --> 00:10:22,640

one wonders

268

00:10:26,790 --> 00:10:24,000

how much

269

00:10:28,150 --> 00:10:26,800

this could be about transparency and

270

00:10:29,750 --> 00:10:28,160

it's also

271

00:10:31,430 --> 00:10:29,760

i'm sure that people could maybe

272

00:10:34,069 --> 00:10:31,440

appreciate the irony of the

273

00:10:36,870 --> 00:10:34,079

counterintelligence subcommittee

274

00:10:39,829 --> 00:10:36,880

running a hearing on transparency

275

00:10:43,030 --> 00:10:39,839

that'll be kind of an interesting

276

00:10:44,949 --> 00:10:43,040

layer to kind of fold into the debate

277

00:10:47,509 --> 00:10:44,959

next week and after

278

00:10:49,670 --> 00:10:47,519

yeah that's true

279

00:10:50,949 --> 00:10:49,680

it's kind of oxymoron-ish a little bit

280

00:10:53,590 --> 00:10:50,959

huh

281

00:10:56,069 --> 00:10:53,600

well maybe you know i mean we like we we

282

00:10:58,310 --> 00:10:56,079

always we want to

283

00:10:59,590 --> 00:10:58,320

believe the best in these situations and

284

00:11:01,910 --> 00:10:59,600

then we always have to kind of

285

00:11:04,150 --> 00:11:01,920

anticipate the worst right and

286

00:11:05,829 --> 00:11:04,160

usually usually the reality of what

287

00:11:07,269 --> 00:11:05,839

happens is somewhere in between those

288

00:11:09,590 --> 00:11:07,279

two scenarios

289

00:11:11,110 --> 00:11:09,600

yeah like the truth right yeah

290

00:11:12,550 --> 00:11:11,120

you got that person's story that

291

00:11:14,630 --> 00:11:12,560

person's story and then the truth is

292

00:11:17,509 --> 00:11:14,640

somewhere in the middle right

293

00:11:19,430 --> 00:11:17,519

yeah now so one

294

00:11:21,190 --> 00:11:19,440

oh sure one interesting thing that i

295

00:11:23,110 --> 00:11:21,200

wanted to that i wanted to mention and

296

00:11:24,710 --> 00:11:23,120

maybe this can kind of transition over

297

00:11:25,590 --> 00:11:24,720

into some of the questions

298

00:11:28,710 --> 00:11:25,600

um

299

00:11:31,110 --> 00:11:28,720

is that you know we probably when we're

300

00:11:32,870 --> 00:11:31,120

talking about what happens when people

301

00:11:34,949 --> 00:11:32,880

are called in front of congress right

302

00:11:36,310 --> 00:11:34,959

and we've probably we've seen many times

303

00:11:40,389 --> 00:11:36,320

i'm sure where

304

00:11:43,269 --> 00:11:40,399

um you know for for larger committees or

305

00:11:45,269 --> 00:11:43,279

and panels that when you say see a

306

00:11:48,069 --> 00:11:45,279

potential supreme court justice come up

307

00:11:50,230 --> 00:11:48,079

or or anybody that's called up that it's

308

00:11:51,509 --> 00:11:50,240

not just kind of random scatter shot

309

00:11:54,629 --> 00:11:51,519

questions for the most part you're

310

00:11:57,269 --> 00:11:54,639

listening to a line of questioning and

311

00:11:59,990 --> 00:11:57,279

the different people on these committees

312

00:12:01,670 --> 00:12:00,000

may have their own line of questioning

313

00:12:03,670 --> 00:12:01,680

and so we may hear

314

00:12:05,990 --> 00:12:03,680

one thing to think of and keep in mind

315

00:12:07,750 --> 00:12:06,000

is that we may hear various competing

316

00:12:10,150 --> 00:12:07,760

lines of questioning

317

00:12:12,069 --> 00:12:10,160

coming into this situation and they

318

00:12:15,110 --> 00:12:12,079

might have their own aims their own

319

00:12:16,629 --> 00:12:15,120

goals that may not quite be cohesive

320

00:12:18,790 --> 00:12:16,639

right right that i mean they could come

321

00:12:19,750 --> 00:12:18,800

in like you know with russian ukraine

322

00:12:23,030 --> 00:12:19,760

you know

323

00:12:25,269 --> 00:12:23,040

on this that could be a valid thing that

324

00:12:27,430 --> 00:12:25,279

somebody brings up one of the

325

00:12:30,310 --> 00:12:27,440

you know one of the people or says

326

00:12:31,509 --> 00:12:30,320

um you know especially with how you know

327

00:12:33,269 --> 00:12:31,519

heated

328

00:12:34,550 --> 00:12:33,279

uh the political parties are with each

329

00:12:37,509 --> 00:12:34,560

other so

330

00:12:39,190 --> 00:12:37,519

you never know um it could you know we'd

331

00:12:42,230 --> 00:12:39,200

like to go in there with our perspective

332

00:12:44,150 --> 00:12:42,240

and what we'd ask and everything but um

333

00:12:46,150 --> 00:12:44,160

and and there are certain people i have

334

00:12:48,470 --> 00:12:46,160

faith will kind of have that uh

335

00:12:49,350 --> 00:12:48,480

mentality like andre carson

336

00:12:53,110 --> 00:12:49,360

um

337

00:12:54,949 --> 00:12:53,120

but other others may not so yeah that's

338

00:12:57,350 --> 00:12:54,959

that's right and another interesting

339

00:12:58,629 --> 00:12:57,360

thing that we could probably appreciate

340

00:13:00,710 --> 00:12:58,639

is that

341

00:13:01,670 --> 00:13:00,720

curiously when you know when we talk

342

00:13:02,470 --> 00:13:01,680

about

343

00:13:05,269 --> 00:13:02,480

you know

344

00:13:08,550 --> 00:13:05,279

could these ever be adversarial drones

345

00:13:11,030 --> 00:13:08,560

or could these ever be adversarial craft

346

00:13:13,750 --> 00:13:11,040

and of course in a small percentage of

347

00:13:15,509 --> 00:13:13,760

cases um there there's there's always

348

00:13:17,990 --> 00:13:15,519

the potentiality of drones happening

349

00:13:20,389 --> 00:13:18,000

right but of course with the ukraine war

350

00:13:22,790 --> 00:13:20,399

um i think it's pretty clear that russia

351
00:13:23,990 --> 00:13:22,800
is at a disadvantage when it comes to

352
00:13:27,350 --> 00:13:24,000
advanced

353
00:13:29,829 --> 00:13:27,360
weaponry of any sort these days um

354
00:13:32,310 --> 00:13:29,839
as long as they're not using their nukes

355
00:13:33,590 --> 00:13:32,320
but one key thing here is that ron

356
00:13:34,389 --> 00:13:33,600
moultrie

357
00:13:36,870 --> 00:13:34,399
actually

358
00:13:38,710 --> 00:13:36,880
his early specialty back in the day what

359
00:13:41,430 --> 00:13:38,720
he built his career on

360
00:13:43,189 --> 00:13:41,440
is in russian intelligence

361
00:13:44,389 --> 00:13:43,199
oh very interesting

362
00:13:46,310 --> 00:13:44,399
okay

363
00:13:47,350 --> 00:13:46,320

he he actually speaks russian or he has

364

00:13:48,949 --> 00:13:47,360

working

365

00:13:50,790 --> 00:13:48,959

proficiency in russian and in fact he

366

00:13:52,710 --> 00:13:50,800

got his master of science in strategic

367

00:13:55,750 --> 00:13:52,720

intelligence and russian studies wow all

368

00:13:56,710 --> 00:13:55,760

right now now on the other hand scott

369

00:13:58,310 --> 00:13:56,720

bray

370

00:14:01,189 --> 00:13:58,320

um is

371

00:14:04,949 --> 00:14:01,199

his one of his prior jobs was being the

372

00:14:08,710 --> 00:14:04,959

senior intelligence officer for china

373

00:14:12,230 --> 00:14:08,720

2008 to 2010 right he was also a us

374

00:14:14,470 --> 00:14:12,240

defense attache to china and uh before

375

00:14:17,670 --> 00:14:14,480

that at the office of naval intelligence

376

00:14:19,590 --> 00:14:17,680

from 2004 to 2007 he was a china subject

377

00:14:21,829 --> 00:14:19,600

matter expert and deputy senior

378

00:14:24,710 --> 00:14:21,839

intelligence officer for china so if

379

00:14:27,189 --> 00:14:24,720

you're so it just so happens that you've

380

00:14:29,910 --> 00:14:27,199

got one guy that could answer

381

00:14:32,470 --> 00:14:29,920

uh pretty definitively

382

00:14:34,150 --> 00:14:32,480

one would think with regard to whether

383

00:14:36,470 --> 00:14:34,160

these could be chinese and you've got

384

00:14:38,150 --> 00:14:36,480

another guy who could answer relatively

385

00:14:39,509 --> 00:14:38,160

definitively about whether they're

386

00:14:42,230 --> 00:14:39,519

russian or not

387

00:14:44,550 --> 00:14:42,240

um even so that's kind of a fascinating

388

00:14:46,550 --> 00:14:44,560

thing to to pull into things as well

389

00:14:48,949 --> 00:14:46,560

and you sir are bringing the heat with

390

00:14:51,990 --> 00:14:48,959

that information great job that is

391

00:14:53,590 --> 00:14:52,000

impressive yeah so if if

392

00:14:54,870 --> 00:14:53,600

you know it

393

00:14:57,509 --> 00:14:54,880

it's a great

394

00:14:59,030 --> 00:14:57,519

let's

395

00:15:01,110 --> 00:14:59,040

you know there's a couple things that

396

00:15:03,350 --> 00:15:01,120

that i wanted to get off my chest

397

00:15:04,230 --> 00:15:03,360

about these hearing things the first one

398

00:15:06,949 --> 00:15:04,240

is

399

00:15:09,110 --> 00:15:06,959

um you know like drones or quadcopters

400

00:15:11,350 --> 00:15:09,120

or whatever so if if that's what these

401
00:15:13,269 --> 00:15:11,360
really were and this was some sort of

402
00:15:14,949 --> 00:15:13,279
let's hide that information so people

403
00:15:16,069 --> 00:15:14,959
don't know our vulnerability kind of

404
00:15:18,629 --> 00:15:16,079
thing right

405
00:15:21,590 --> 00:15:18,639
um it would be extremely difficult to

406
00:15:23,829 --> 00:15:21,600
find uh an admission of

407
00:15:26,150 --> 00:15:23,839
fear for these drones being in our

408
00:15:29,189 --> 00:15:26,160
airspace online or on a government

409
00:15:32,389 --> 00:15:29,199
website which you know is not the case

410
00:15:34,150 --> 00:15:32,399
so if you know i've found multiple

411
00:15:36,069 --> 00:15:34,160
things about how

412
00:15:37,990 --> 00:15:36,079
there's a you know a lot of commercial

413
00:15:39,269 --> 00:15:38,000

drones are being bought more and more

414

00:15:41,189 --> 00:15:39,279

all the time and they're in our

415

00:15:43,509 --> 00:15:41,199

commercial air space and it's hard to

416

00:15:46,150 --> 00:15:43,519

keep track of them and you know getting

417

00:15:47,829 --> 00:15:46,160

in and out of the airlines uh pathways

418

00:15:50,069 --> 00:15:47,839

and all that kind of stuff that's easy

419

00:15:52,150 --> 00:15:50,079

to find on government websites so if

420

00:15:56,389 --> 00:15:52,160

that was the case this would be a very

421

00:15:59,189 --> 00:15:57,269

right

422

00:16:01,829 --> 00:15:59,199

so i just wanted to throw that out there

423

00:16:04,389 --> 00:16:01,839

in the in the second thing is um

424

00:16:07,189 --> 00:16:04,399

you know some people whether it be on

425

00:16:09,829 --> 00:16:07,199

you know twitter or or elsewhere

426

00:16:11,430 --> 00:16:09,839

um negative nancies uh as far as the

427

00:16:13,030 --> 00:16:11,440

congressional hearings they're gonna say

428

00:16:14,310 --> 00:16:13,040

the same stuff they're not gonna tell

429

00:16:17,030 --> 00:16:14,320

you anything

430

00:16:20,230 --> 00:16:17,040

like let's just get real for a quick

431

00:16:23,110 --> 00:16:20,240

second all right this has never happened

432

00:16:26,470 --> 00:16:23,120

since nineteen

433

00:16:29,710 --> 00:16:26,480

right even if it's a complete hogwash

434

00:16:33,829 --> 00:16:29,720

it's still the first time since

435

00:16:36,629 --> 00:16:33,839

1968. that is a huge step forward so

436

00:16:38,310 --> 00:16:36,639

it's time to take your glass that is

437

00:16:39,910 --> 00:16:38,320

half empty

438

00:16:42,230 --> 00:16:39,920

pour it out

439

00:16:44,870 --> 00:16:42,240

get some water

440

00:16:46,470 --> 00:16:44,880

put it in there call it half full

441

00:16:48,790 --> 00:16:46,480

and get a different perspective and look

442

00:16:50,870 --> 00:16:48,800

at this because that is freaking

443

00:16:52,790 --> 00:16:50,880

amazing and if you study the history of

444

00:16:54,389 --> 00:16:52,800

congressional records i have a couple

445

00:16:55,509 --> 00:16:54,399

documents here if we have time we'll get

446

00:16:58,790 --> 00:16:55,519

into it but

447

00:16:59,749 --> 00:16:58,800

you know starting in 1958

448

00:17:01,269 --> 00:16:59,759

what

449

00:17:02,949 --> 00:17:01,279

you know there was congressional inquiry

450

00:17:04,390 --> 00:17:02,959

on project blue book special report

451
00:17:06,230 --> 00:17:04,400
number 14

452
00:17:08,390 --> 00:17:06,240
and you know people trying to see that

453
00:17:11,350 --> 00:17:08,400
they can't see it you know

454
00:17:15,110 --> 00:17:11,360
eventually it comes out it runs up from

455
00:17:16,949 --> 00:17:15,120
1960 61 to 62 of public hearings

456
00:17:18,789 --> 00:17:16,959
they get out of it the air force gets

457
00:17:21,429 --> 00:17:18,799
out of it you know they they talk the

458
00:17:22,870 --> 00:17:21,439
committee out of it um and and they wind

459
00:17:25,549 --> 00:17:22,880
up not doing it

460
00:17:28,470 --> 00:17:25,559
years later finally something happens in

461
00:17:30,630 --> 00:17:28,480
1968 you know and

462
00:17:32,630 --> 00:17:30,640
and now all this time and and here we

463
00:17:35,510 --> 00:17:32,640

are again you know sometimes it's it's

464

00:17:38,390 --> 00:17:35,520

good to just take a deep breath and

465

00:17:40,549 --> 00:17:38,400

realize like where we are now and stop

466

00:17:42,230 --> 00:17:40,559

thinking about what could happen

467

00:17:44,870 --> 00:17:42,240

or even what has happened like i was

468

00:17:46,470 --> 00:17:44,880

just talking about and just be in the

469

00:17:49,029 --> 00:17:46,480

now right because everything else is

470

00:17:50,630 --> 00:17:49,039

imagined your future your past just live

471

00:17:52,789 --> 00:17:50,640

in the present so

472

00:17:55,350 --> 00:17:52,799

uh yeah i just wanted to say that for a

473

00:17:57,190 --> 00:17:55,360

little optimism for people too because

474

00:17:59,590 --> 00:17:57,200

um you never know what tomorrow's gonna

475

00:18:00,870 --> 00:17:59,600

bring we have no idea what the hearings

476

00:18:02,310 --> 00:18:00,880

could bring

477

00:18:04,950 --> 00:18:02,320

a lot of things have happened in the

478

00:18:07,510 --> 00:18:04,960

last few years that i know a for a fact

479

00:18:09,350 --> 00:18:07,520

whether you're a og ufologist or a new

480

00:18:11,510 --> 00:18:09,360

person a lot of things have happened

481

00:18:14,710 --> 00:18:11,520

that nobody thought would

482

00:18:15,990 --> 00:18:14,720

whether they're small big or not to you

483

00:18:18,310 --> 00:18:16,000

they're still

484

00:18:21,110 --> 00:18:18,320

new and unexpected so

485

00:18:22,710 --> 00:18:21,120

just wanted to say that too so i i think

486

00:18:24,549 --> 00:18:22,720

that's a really good point it's a really

487

00:18:26,630 --> 00:18:24,559

good perspective i mean you know i was

488

00:18:29,190 --> 00:18:26,640

negative 10 years old the last time this

489

00:18:31,350 --> 00:18:29,200

happened right led zeppelin was born

490

00:18:33,750 --> 00:18:31,360

created and died in that amount of time

491

00:18:34,870 --> 00:18:33,760

so is disco and all sorts of other

492

00:18:38,070 --> 00:18:34,880

things you know

493

00:18:40,870 --> 00:18:38,080

um the whole whole waves of ufology you

494

00:18:42,390 --> 00:18:40,880

know there are so many researchers that

495

00:18:48,150 --> 00:18:42,400

came into

496

00:18:51,270 --> 00:18:48,160

researched for the the extent maybe of

497

00:18:52,789 --> 00:18:51,280

their adult life and and are gone now

498

00:18:55,510 --> 00:18:52,799

in between the last time that this

499

00:18:57,750 --> 00:18:55,520

happened now and so this is this is

500

00:19:00,150 --> 00:18:57,760

extraordinarily momentous it's it's it

501
00:19:02,870 --> 00:19:00,160
can't it can hardly be overstated and

502
00:19:04,070 --> 00:19:02,880
especially if we're looking at this as

503
00:19:06,070 --> 00:19:04,080
as

504
00:19:08,710 --> 00:19:06,080
not potentially not being a one-and-done

505
00:19:12,470 --> 00:19:08,720
scenario this is this is right

506
00:19:13,270 --> 00:19:12,480
this has the the ability to really kind

507
00:19:14,950 --> 00:19:13,280
of

508
00:19:20,470 --> 00:19:14,960
make the

509
00:19:22,470 --> 00:19:20,480
quite a bit more so i'm very hopeful

510
00:19:25,909 --> 00:19:22,480
yeah i'm very hopeful

511
00:19:27,350 --> 00:19:25,919
um now i guess

512
00:19:30,230 --> 00:19:27,360
let's

513
00:19:33,190 --> 00:19:30,240

gentlemen

514

00:19:36,390 --> 00:19:35,110

sure but you specifically

515

00:19:38,470 --> 00:19:36,400

okay

516

00:19:39,590 --> 00:19:38,480

you know they call on representative

517

00:19:41,510 --> 00:19:39,600

king

518

00:19:43,350 --> 00:19:41,520

do you have any questions from mr

519

00:19:45,830 --> 00:19:43,360

moultrie though what do you what are you

520

00:19:47,430 --> 00:19:45,840

gonna ask you got all this history you

521

00:19:50,150 --> 00:19:47,440

got everything within the last four

522

00:19:52,150 --> 00:19:50,160

years being you know what do you start

523

00:19:53,909 --> 00:19:52,160

with what do you ask you know to

524

00:19:57,350 --> 00:19:53,919

actually get an answer

525

00:19:59,590 --> 00:19:57,360

sure um i think that one i don't

526
00:20:01,590 --> 00:19:59,600
to frame things from the outset i think

527
00:20:04,070 --> 00:20:01,600
that it would probably be

528
00:20:06,149 --> 00:20:04,080
important to kind of cast a wide net and

529
00:20:08,230 --> 00:20:06,159
then get more particular with a line of

530
00:20:10,070 --> 00:20:08,240
questioning it's great to see john

531
00:20:12,149 --> 00:20:10,080
davies here by the way he and i were

532
00:20:12,950 --> 00:20:12,159
chatting beforehand and he had he had

533
00:20:16,070 --> 00:20:12,960
some

534
00:20:18,789 --> 00:20:16,080
information

535
00:20:21,270 --> 00:20:18,799
um now one thing that he was talking

536
00:20:22,710 --> 00:20:21,280
about was uncorrelated targets with me

537
00:20:24,710 --> 00:20:22,720
and i think that that's really important

538
00:20:26,950 --> 00:20:24,720

to bring up you know this is we're

539

00:20:29,590 --> 00:20:26,960

talking about uaps but of course they've

540

00:20:33,669 --> 00:20:29,600

been referred to as ufos another term

541

00:20:37,350 --> 00:20:33,679

that uh that places like norad

542

00:20:38,870 --> 00:20:37,360

used was uct uncorrelated targets so and

543

00:20:40,310 --> 00:20:38,880

of course you know this i'm sure that

544

00:20:42,390 --> 00:20:40,320

there are plenty of other people in the

545

00:20:45,110 --> 00:20:42,400

audience that here today that do as well

546

00:20:47,350 --> 00:20:45,120

but you know along those lines i think

547

00:20:48,950 --> 00:20:47,360

one thing that i would start with to try

548

00:20:50,870 --> 00:20:48,960

to cast it wide and then get a little

549

00:20:53,430 --> 00:20:50,880

bit more particular to get some

550

00:20:55,190 --> 00:20:53,440

definitive answers out of people

551
00:20:56,390 --> 00:20:55,200
as a setup would be

552
00:20:57,350 --> 00:20:56,400
um

553
00:20:59,270 --> 00:20:57,360
okay

554
00:21:01,750 --> 00:20:59,280
along with uap

555
00:21:04,390 --> 00:21:01,760
what other terms have been used to

556
00:21:05,830 --> 00:21:04,400
relate to this phenomenon right right

557
00:21:08,470 --> 00:21:05,840
and then

558
00:21:10,390 --> 00:21:08,480
if uct is not brought up because we know

559
00:21:12,470 --> 00:21:10,400
there are a lot of cases that have been

560
00:21:14,070 --> 00:21:12,480
that have been that have been classified

561
00:21:16,230 --> 00:21:14,080
as ect

562
00:21:18,710 --> 00:21:16,240
was uct also a term used was

563
00:21:21,510 --> 00:21:18,720

uncorrelated targets also a term used

564

00:21:23,830 --> 00:21:21,520

okay then amongst all of these terms

565

00:21:25,909 --> 00:21:23,840

rough estimate how many cases are we

566

00:21:28,070 --> 00:21:25,919

talking about historically

567

00:21:29,909 --> 00:21:28,080

then if they claim not to know

568

00:21:32,630 --> 00:21:29,919

we could go in with is it more than a

569

00:21:36,149 --> 00:21:32,640

hundred is it more than a thousand is it

570

00:21:39,590 --> 00:21:36,159

more than ten thousand to get a rough

571

00:21:40,950 --> 00:21:39,600

estimate there and then and then ask

572

00:21:43,350 --> 00:21:40,960

perhaps

573

00:21:46,230 --> 00:21:43,360

along with that line of questioning

574

00:21:50,310 --> 00:21:46,240

when was the first

575

00:21:52,710 --> 00:21:50,320

we know in our military

576
00:21:54,710 --> 00:21:52,720
and are and have these has this number

577
00:21:57,590 --> 00:21:54,720
of cases been relatively evenly

578
00:21:59,830 --> 00:21:57,600
distributed amongst those years

579
00:22:01,590 --> 00:21:59,840
because after that as we know a lot of

580
00:22:03,909 --> 00:22:01,600
other questions can can kind of

581
00:22:04,669 --> 00:22:03,919
naturally get answered because if they

582
00:22:06,230 --> 00:22:04,679
say

583
00:22:08,390 --> 00:22:06,240
1917

584
00:22:10,710 --> 00:22:08,400
right then then

585
00:22:12,549 --> 00:22:10,720
there are a lot of questions about drone

586
00:22:13,190 --> 00:22:12,559
technology and things like that can kind

587
00:22:17,430 --> 00:22:13,200
of

588
00:22:19,830 --> 00:22:17,440

degree initially

589

00:22:21,590 --> 00:22:19,840

um beautiful i love that

590

00:22:23,750 --> 00:22:21,600

yeah they do especially kind of

591

00:22:25,750 --> 00:22:23,760

unpacking the different names because

592

00:22:28,230 --> 00:22:25,760

you know over the years it's clear that

593

00:22:29,909 --> 00:22:28,240

you know things have become so confused

594

00:22:34,070 --> 00:22:29,919

with the different acronyms used whether

595

00:22:36,390 --> 00:22:34,080

it be ufo uap uso uh you know all all

596

00:22:38,789 --> 00:22:36,400

different things um so i think that's

597

00:22:40,630 --> 00:22:38,799

pretty great i think that's great and

598

00:22:42,549 --> 00:22:40,640

then kind of trying to yeah gauge

599

00:22:43,590 --> 00:22:42,559

numbers wise i think that's awesome and

600

00:22:46,310 --> 00:22:43,600

no red

601
00:22:47,909 --> 00:22:46,320
um obviously is has been involved with

602
00:22:49,990 --> 00:22:47,919
this stuff even in the blue book files

603
00:22:52,549 --> 00:22:50,000
they're all they're all over the place

604
00:22:54,950 --> 00:22:52,559
uh no red with this stuff so

605
00:22:56,870 --> 00:22:54,960
i think that's great in the you know you

606
00:22:59,430 --> 00:22:56,880
can even go into things like are we

607
00:23:03,270 --> 00:22:59,440
still you know effectively using

608
00:23:04,470 --> 00:23:03,280
something like jan epp 146 which was how

609
00:23:07,510 --> 00:23:04,480
um

610
00:23:08,549 --> 00:23:07,520
norad reported ufos that was their ufo

611
00:23:10,710 --> 00:23:08,559
report

612
00:23:12,390 --> 00:23:10,720
you know and that's something that they

613
00:23:13,830 --> 00:23:12,400

are forced to work together with them on

614

00:23:15,350 --> 00:23:13,840

you know is that something we're still

615

00:23:17,750 --> 00:23:15,360

utilizing

616

00:23:19,350 --> 00:23:17,760

um on unidentified objects one thing i

617

00:23:20,789 --> 00:23:19,360

would definitely ask it and i would

618

00:23:23,270 --> 00:23:20,799

preface it with

619

00:23:25,110 --> 00:23:23,280

you know congress congressman rosh yeah

620

00:23:26,549 --> 00:23:25,120

congressman all right listen sir you

621

00:23:28,470 --> 00:23:26,559

know that first thank you for your time

622

00:23:30,070 --> 00:23:28,480

all right i really do appreciate it it's

623

00:23:32,549 --> 00:23:30,080

a lot going on in the world but you know

624

00:23:34,470 --> 00:23:32,559

as we all know this is very important

625

00:23:36,230 --> 00:23:34,480

um i did a little research and it

626
00:23:38,070 --> 00:23:36,240
doesn't take much for me to do that you

627
00:23:39,110 --> 00:23:38,080
know google's a great tool

628
00:23:41,110 --> 00:23:39,120
um but

629
00:23:43,669 --> 00:23:41,120
i found something called uh lockheed

630
00:23:45,110 --> 00:23:43,679
martin's uh space fence right and

631
00:23:47,510 --> 00:23:45,120
apparently it can track something the

632
00:23:49,830 --> 00:23:47,520
size of a softball from outer space you

633
00:23:52,390 --> 00:23:49,840
know and i think that's fantastic you

634
00:23:54,789 --> 00:23:52,400
know the more uh you know tech savvy the

635
00:23:57,750 --> 00:23:54,799
world gets the more we're going to rely

636
00:24:00,230 --> 00:23:57,760
on that sort of capability correct so

637
00:24:02,830 --> 00:24:00,240
you would agree right oh yeah yeah yeah

638
00:24:06,070 --> 00:24:02,840

i would agree yeah so

639

00:24:08,070 --> 00:24:06,080

um with that being said knowing

640

00:24:10,549 --> 00:24:08,080

that we have the best military in the

641

00:24:13,029 --> 00:24:10,559

world best tracking capabilities in the

642

00:24:16,230 --> 00:24:13,039

world have we ever tracked

643

00:24:18,789 --> 00:24:16,240

anything that remains unidentified

644

00:24:21,510 --> 00:24:18,799

to this day from outer space into our

645

00:24:24,950 --> 00:24:22,950

um

646

00:24:27,830 --> 00:24:24,960

well no i can't say it would that be

647

00:24:30,390 --> 00:24:27,840

classified and if so why

648

00:24:32,870 --> 00:24:30,400

you know um

649

00:24:34,630 --> 00:24:32,880

next question would be have we ever

650

00:24:37,190 --> 00:24:34,640

tracked anything that came out of the

651
00:24:41,590 --> 00:24:39,430
into our airspace

652
00:24:44,710 --> 00:24:41,600
have we ever tracked anything that came

653
00:24:51,350 --> 00:24:49,029
into outer space back into our space

654
00:24:53,750 --> 00:24:51,360
or vice versa

655
00:24:55,430 --> 00:24:53,760
yeah that's that's good just keeping it

656
00:24:58,070 --> 00:24:55,440
that simple

657
00:25:00,070 --> 00:24:58,080
it's not classified that's not you can't

658
00:25:02,470 --> 00:25:00,080
say that's classified to tell me if

659
00:25:03,430 --> 00:25:02,480
that's happened or not

660
00:25:05,350 --> 00:25:03,440
you know

661
00:25:07,029 --> 00:25:05,360
you're not one thing you're not using

662
00:25:09,269 --> 00:25:07,039
you're not telling me the technology

663
00:25:11,350 --> 00:25:09,279

you're not telling me anything about it

664

00:25:13,669 --> 00:25:11,360

other than if something like that has

665

00:25:16,789 --> 00:25:13,679

been tracked you know

666

00:25:20,549 --> 00:25:19,110

that's that's something

667

00:25:22,390 --> 00:25:20,559

that i would do and then i think it'd be

668

00:25:23,830 --> 00:25:22,400

important to nail

669

00:25:25,110 --> 00:25:23,840

nail on

670

00:25:27,669 --> 00:25:25,120

um

671

00:25:28,470 --> 00:25:27,679

foreign technology right i think that

672

00:25:34,870 --> 00:25:28,480

would be

673

00:25:36,870 --> 00:25:34,880

you know what do you think a

674

00:25:38,870 --> 00:25:36,880

repercussion would be or what would it

675

00:25:41,430 --> 00:25:38,880

look like if we

676
00:25:43,190 --> 00:25:41,440
found a

677
00:25:45,269 --> 00:25:43,200
uh china uh

678
00:25:47,590 --> 00:25:45,279
stealth drone in the middle of one of

679
00:25:50,470 --> 00:25:47,600
our training exercises what typically is

680
00:25:52,310 --> 00:25:50,480
the protocol for something like that

681
00:25:53,669 --> 00:25:52,320
and see what they say

682
00:25:55,350 --> 00:25:53,679
you know

683
00:25:56,630 --> 00:25:55,360
um and you can kind of take their

684
00:25:58,070 --> 00:25:56,640
answers from that

685
00:25:59,750 --> 00:25:58,080
[Music]

686
00:26:02,549 --> 00:25:59,760
to go a little further okay so when

687
00:26:04,390 --> 00:26:02,559
these uaps come through are we doing the

688
00:26:06,470 --> 00:26:04,400

same type of routine

689

00:26:07,990 --> 00:26:06,480

are we treating these differently from a

690

00:26:09,830 --> 00:26:08,000

scenario like that

691

00:26:11,430 --> 00:26:09,840

you know just to kind of separate the

692

00:26:14,230 --> 00:26:11,440

two

693

00:26:15,269 --> 00:26:14,240

because i think that would be important

694

00:26:17,909 --> 00:26:15,279

but

695

00:26:20,470 --> 00:26:17,919

absolutely i mean i think coming out of

696

00:26:22,870 --> 00:26:20,480

the water into orbit like that

697

00:26:25,269 --> 00:26:22,880

i i i really appreciate that that is

698

00:26:28,149 --> 00:26:25,279

kind of the flip in a way of what chris

699

00:26:30,470 --> 00:26:28,159

millen suggested as a first preliminary

700

00:26:32,390 --> 00:26:30,480

question uh yesterday you know he

701
00:26:35,029 --> 00:26:32,400
tweeted one of the critical questions

702
00:26:36,630 --> 00:26:35,039
for the upcoming house uap hearing is do

703
00:26:39,350 --> 00:26:36,640
we have evidence of intelligently

704
00:26:41,269 --> 00:26:39,360
controlled unknowns in orbit or in space

705
00:26:44,470 --> 00:26:41,279
and you're and you're going along those

706
00:26:46,630 --> 00:26:44,480
lines but you know but go but it's just

707
00:26:49,669 --> 00:26:46,640
it's just as valid to ask it from the

708
00:26:51,350 --> 00:26:49,679
other way around and especially

709
00:26:53,909 --> 00:26:51,360
you're kind of

710
00:26:55,990 --> 00:26:53,919
qu your rather

711
00:26:59,190 --> 00:26:56,000
particular question about water into

712
00:27:00,070 --> 00:26:59,200
orbit and back is i think that that

713
00:27:02,470 --> 00:27:00,080

that's

714

00:27:04,710 --> 00:27:02,480

very very good in terms of what it could

715

00:27:06,470 --> 00:27:04,720

imply you know yeah right and you don't

716

00:27:08,070 --> 00:27:06,480

even have to throw the intelligent part

717

00:27:09,590 --> 00:27:08,080

in there at that point like at that

718

00:27:11,909 --> 00:27:09,600

point if it's able to do that it's like

719

00:27:17,510 --> 00:27:15,830

you know it must be but yeah um

720

00:27:19,190 --> 00:27:17,520

you know it'll be interesting there's so

721

00:27:21,029 --> 00:27:19,200

many different things you could ask you

722

00:27:24,789 --> 00:27:21,039

know yeah along those lines you could

723

00:27:27,909 --> 00:27:24,799

also ask you know it would be it'd be

724

00:27:29,909 --> 00:27:27,919

pretty amazing to hear an answer to

725

00:27:32,710 --> 00:27:29,919

have we ever tracked a landing

726

00:27:33,669 --> 00:27:32,720

right correct or or how often do these

727

00:27:35,590 --> 00:27:33,679

things

728

00:27:37,510 --> 00:27:35,600

you know come down to the ground like

729

00:27:39,590 --> 00:27:37,520

how much does that happen i think that

730

00:27:41,269 --> 00:27:39,600

that's you know ever since the days of

731

00:27:43,430 --> 00:27:41,279

john keel that's been something that's

732

00:27:46,470 --> 00:27:43,440

been kind of complained about

733

00:27:48,310 --> 00:27:46,480

you know in terms of of they're not just

734

00:27:50,230 --> 00:27:48,320

they're not just always 10 000 feet in

735

00:27:53,269 --> 00:27:50,240

the air you know and right

736

00:27:55,029 --> 00:27:53,279

it's important to kind of get past i

737

00:27:56,549 --> 00:27:55,039

think you know this

738

00:27:59,350 --> 00:27:56,559

it's one of the things that i talk about

739

00:28:01,350 --> 00:27:59,360

most i think is is we need to get out of

740

00:28:03,590 --> 00:28:01,360

the just the cockpit

741

00:28:05,510 --> 00:28:03,600

videos and and get down to talking about

742

00:28:07,750 --> 00:28:05,520

what happens when these things

743

00:28:09,029 --> 00:28:07,760

get you know close close to the earth

744

00:28:10,870 --> 00:28:09,039

itself right

745

00:28:12,389 --> 00:28:10,880

yeah i mean and with

746

00:28:14,389 --> 00:28:12,399

one of the reasons some of those

747

00:28:16,389 --> 00:28:14,399

biological effects you know you never

748

00:28:18,070 --> 00:28:16,399

know could have been put in the news is

749

00:28:20,389 --> 00:28:18,080

as a

750

00:28:22,149 --> 00:28:20,399

a little a string to grab on for a

751
00:28:23,669 --> 00:28:22,159
hearing like this you know we've all

752
00:28:25,190 --> 00:28:23,679
seen in the news these biological

753
00:28:27,590 --> 00:28:25,200
effects

754
00:28:29,269 --> 00:28:27,600
you know from uaps and ufos

755
00:28:30,950 --> 00:28:29,279
you know how often are these things

756
00:28:33,029 --> 00:28:30,960
being reported by our pilots these

757
00:28:33,750 --> 00:28:33,039
effects when they encounter uap

758
00:28:35,909 --> 00:28:33,760
you know

759
00:28:38,230 --> 00:28:35,919
it's a great question right there you

760
00:28:39,830 --> 00:28:38,240
know oh absolutely that's a great

761
00:28:41,909 --> 00:28:39,840
question you know they could definitely

762
00:28:44,549 --> 00:28:41,919
you know

763
00:28:47,110 --> 00:28:44,559

the fact that the physical effects

764

00:28:49,830 --> 00:28:47,120

the kit green physical effects dirt

765

00:28:52,149 --> 00:28:49,840

um did make it into the press

766

00:28:54,070 --> 00:28:52,159

you know they're not uaps what are what

767

00:28:55,269 --> 00:28:54,080

kind of anomalous vehicles are causing

768

00:28:56,310 --> 00:28:55,279

this to our

769

00:28:57,190 --> 00:28:56,320

pilots

770

00:28:59,110 --> 00:28:57,200

you know

771

00:29:00,789 --> 00:28:59,120

what would that be even that could be a

772

00:29:03,909 --> 00:29:00,799

perfectly great line of questioning

773

00:29:07,350 --> 00:29:03,919

because it again it would hint at or or

774

00:29:09,510 --> 00:29:07,360

directly imply something about how close

775

00:29:12,549 --> 00:29:09,520

contact can be right

776

00:29:14,470 --> 00:29:12,559

which has always been kind of a closely

777

00:29:17,350 --> 00:29:14,480

guarded and navigated

778

00:29:19,909 --> 00:29:17,360

um a point that that people often don't

779

00:29:20,710 --> 00:29:19,919

want to go on record about you know even

780

00:29:22,870 --> 00:29:20,720

even

781

00:29:25,190 --> 00:29:22,880

former officials of the pentagon and

782

00:29:27,750 --> 00:29:25,200

elsewhere have have a hard time you know

783

00:29:29,510 --> 00:29:27,760

using the a word and things like that

784

00:29:30,470 --> 00:29:29,520

with regard to this stuff

785

00:29:32,870 --> 00:29:30,480

totally

786

00:29:34,470 --> 00:29:32,880

yeah um

787

00:29:36,389 --> 00:29:34,480

something i thought

788

00:29:38,549 --> 00:29:36,399

was interesting right now there's a

789

00:29:41,029 --> 00:29:38,559

little play back and forth on

790

00:29:43,029 --> 00:29:41,039

unidentified aerial phenomenon an

791

00:29:44,149 --> 00:29:43,039

unidentified aerial vehicle if you

792

00:29:45,510 --> 00:29:44,159

notice that

793

00:29:47,110 --> 00:29:45,520

there's a little back and forth what do

794

00:29:49,110 --> 00:29:47,120

you think that's about

795

00:29:50,950 --> 00:29:49,120

i think that that's really interesting

796

00:29:51,909 --> 00:29:50,960

you know um

797

00:29:53,590 --> 00:29:51,919

and

798

00:29:54,630 --> 00:29:53,600

i am curious

799

00:29:56,389 --> 00:29:54,640

you know

800

00:29:59,190 --> 00:29:56,399

could that just be

801
00:30:00,789 --> 00:29:59,200
a continuation of the shell game that

802
00:30:02,710 --> 00:30:00,799
you've been

803
00:30:05,590 --> 00:30:02,720
so successfully highlighting for the

804
00:30:08,310 --> 00:30:05,600
last year on the show you know is that

805
00:30:09,750 --> 00:30:08,320
part of it um and then there's also the

806
00:30:11,669 --> 00:30:09,760
part that again

807
00:30:12,950 --> 00:30:11,679
keel valet

808
00:30:15,350 --> 00:30:12,960
you know

809
00:30:18,070 --> 00:30:15,360
kehoe many other people historically

810
00:30:20,310 --> 00:30:18,080
over time have pointed out as being a

811
00:30:22,789 --> 00:30:20,320
very valid thing which is that you know

812
00:30:25,110 --> 00:30:22,799
sometimes when people look at what seems

813
00:30:27,430 --> 00:30:25,120

to be an intelligently controlled object

814

00:30:29,510 --> 00:30:27,440

in the sky it seems to have like a

815

00:30:32,470 --> 00:30:29,520

plasma bubble around it or for lack of a

816

00:30:36,470 --> 00:30:32,480

better term or something that looks like

817

00:30:38,950 --> 00:30:36,480

a a ball of light possibly surrounding

818

00:30:40,789 --> 00:30:38,960

a craft people have even said in certain

819

00:30:42,870 --> 00:30:40,799

situations that if they looked through

820

00:30:46,389 --> 00:30:42,880

night vision goggles or through other

821

00:30:47,830 --> 00:30:46,399

through other situations that what was

822

00:30:49,990 --> 00:30:47,840

a light ball

823

00:30:51,830 --> 00:30:50,000

may actually be reduced down to looking

824

00:30:54,149 --> 00:30:51,840

like being able to see more of a

825

00:30:56,230 --> 00:30:54,159

concrete form within that

826
00:30:59,110 --> 00:30:56,240
now at the same time there's stuff like

827
00:31:01,909 --> 00:30:59,120
ball lightning right there's there's all

828
00:31:03,830 --> 00:31:01,919
sorts of amorphous types of sky

829
00:31:06,669 --> 00:31:03,840
phenomena that have also been reported

830
00:31:09,909 --> 00:31:06,679
where people almost see like almost like

831
00:31:11,509 --> 00:31:09,919
bioluminescent jellyfish looking looking

832
00:31:12,789 --> 00:31:11,519
shapes that show up in the sky every

833
00:31:13,830 --> 00:31:12,799
once in a while and this goes back

834
00:31:15,990 --> 00:31:13,840
decades

835
00:31:18,710 --> 00:31:16,000
and it's weird and it's bizarre but is

836
00:31:21,029 --> 00:31:18,720
that biology is it just a species that

837
00:31:22,710 --> 00:31:21,039
we don't know yet right so you know

838
00:31:25,669 --> 00:31:22,720

there's there's kind of plenty that can

839

00:31:27,029 --> 00:31:25,679

be in there between phenomena and

840

00:31:28,389 --> 00:31:27,039

vehicles

841

00:31:30,630 --> 00:31:28,399

yeah and totally

842

00:31:32,389 --> 00:31:30,640

right completely especially if the

843

00:31:35,590 --> 00:31:32,399

vehicle is uh

844

00:31:37,750 --> 00:31:35,600

you know a biological one

845

00:31:38,630 --> 00:31:37,760

yeah yeah i mean

846

00:31:40,870 --> 00:31:38,640

right

847

00:31:43,110 --> 00:31:40,880

yeah i mean maybe you know that could be

848

00:31:45,509 --> 00:31:43,120

a really amazingly

849

00:31:46,389 --> 00:31:45,519

smart way to navigate around a question

850

00:31:48,310 --> 00:31:46,399

is that

851
00:31:49,269 --> 00:31:48,320
as if if you knew some of these craft

852
00:31:54,549 --> 00:31:49,279
were

853
00:31:55,350 --> 00:31:54,559
like upgraded biology

854
00:31:57,830 --> 00:31:55,360
yeah

855
00:32:00,230 --> 00:31:57,840
or you know then then

856
00:32:02,789 --> 00:32:00,240
then you could get somebody to sincerely

857
00:32:04,389 --> 00:32:02,799
answer a no to a question that that you

858
00:32:06,310 --> 00:32:04,399
wouldn't skate around

859
00:32:09,110 --> 00:32:06,320
that's yeah you just go straight up to

860
00:32:10,389 --> 00:32:09,120
him and go mr moultrie

861
00:32:19,750 --> 00:32:10,399
yeah

862
00:32:21,990 --> 00:32:19,760
so sarah i'm sure you've seen the whole

863
00:32:22,789 --> 00:32:22,000

but one thing you could ask somebody too

864

00:32:25,110 --> 00:32:22,799

is

865

00:32:26,789 --> 00:32:25,120

um you know if

866

00:32:29,430 --> 00:32:26,799

have you ever heard of

867

00:32:32,630 --> 00:32:29,440

louis elizondo and if so uh what do you

868

00:32:35,909 --> 00:32:32,640

know about his role within the ousdi

869

00:32:38,310 --> 00:32:35,919

investigating uh uap

870

00:32:40,149 --> 00:32:38,320

absolutely i mean i've heard rumors that

871

00:32:41,350 --> 00:32:40,159

he's i don't know if that he's confirmed

872

00:32:43,350 --> 00:32:41,360

this but i've heard rumors that he's

873

00:32:44,149 --> 00:32:43,360

going to be in town next week

874

00:32:45,830 --> 00:32:44,159

so

875

00:32:48,789 --> 00:32:45,840

you know for all we know he's going to

876

00:32:50,230 --> 00:32:48,799

be in the room if not testifying himself

877

00:32:51,830 --> 00:32:50,240

so because right don't we want to know

878

00:32:55,269 --> 00:32:51,840

about that too like so much has been

879

00:32:56,470 --> 00:32:55,279

hidden about awesome and atip right and

880

00:32:57,350 --> 00:32:56,480

and whatever

881

00:32:58,470 --> 00:32:57,360

but

882

00:33:01,669 --> 00:32:58,480

you know

883

00:33:04,230 --> 00:33:01,679

like even when the the dni put

884

00:33:07,110 --> 00:33:04,240

uh the offset papers on their website

885

00:33:09,590 --> 00:33:07,120

under unidentified aerial phenomenon

886

00:33:11,269 --> 00:33:09,600

and then totally backed out of it and

887

00:33:14,389 --> 00:33:11,279

changed course

888

00:33:15,590 --> 00:33:14,399

and uploaded a tip uh tab and put them

889

00:33:18,149 --> 00:33:15,600

in there like

890

00:33:21,590 --> 00:33:18,159

and susan galbian caught

891

00:33:22,549 --> 00:33:21,600

lying to us through through statements

892

00:33:24,070 --> 00:33:22,559

um

893

00:33:25,990 --> 00:33:24,080

you know maybe bending the truth you

894

00:33:27,909 --> 00:33:26,000

could say or whatever it wants to be

895

00:33:30,950 --> 00:33:27,919

play on words whatever it is

896

00:33:34,549 --> 00:33:30,960

like she's been playing games and that's

897

00:33:36,310 --> 00:33:34,559

that is totally valid um

898

00:33:39,590 --> 00:33:36,320

you know worry and thing that could be

899

00:33:41,509 --> 00:33:39,600

addressed i think as as far as like

900

00:33:44,549 --> 00:33:41,519

you know people taxpayers

901
00:33:46,789 --> 00:33:44,559
uh pay you guys to do your jobs and this

902
00:33:48,870 --> 00:33:46,799
is how you're treating people and um

903
00:33:50,710 --> 00:33:48,880
treating the community and i think it

904
00:33:53,190 --> 00:33:50,720
would be behoove you not to set the

905
00:33:56,070 --> 00:33:53,200
record straight on on what actually

906
00:33:57,590 --> 00:33:56,080
uh happened and exactly how it looked

907
00:33:58,870 --> 00:33:57,600
you know

908
00:33:59,750 --> 00:33:58,880
absolutely

909
00:34:01,750 --> 00:33:59,760
i mean

910
00:34:03,909 --> 00:34:01,760
you know along those lines

911
00:34:05,750 --> 00:34:03,919
we talk about the shell game of these

912
00:34:07,350 --> 00:34:05,760
terms and this in the shell game that

913
00:34:10,710 --> 00:34:07,360

often happens where there's this kind of

914

00:34:12,550 --> 00:34:10,720

misdirected element in terms of of the

915

00:34:15,750 --> 00:34:12,560

convenient

916

00:34:18,149 --> 00:34:15,760

mess of classification systems right

917

00:34:19,430 --> 00:34:18,159

and at the same time

918

00:34:22,230 --> 00:34:19,440

there's also

919

00:34:24,629 --> 00:34:22,240

the the kind of cat with a laser pointer

920

00:34:27,030 --> 00:34:24,639

effect that you could say has been

921

00:34:29,829 --> 00:34:27,040

happening within the last four and a

922

00:34:32,550 --> 00:34:29,839

half years with regard to osap and atip

923

00:34:35,030 --> 00:34:32,560

right as fascinating as those programs

924

00:34:36,389 --> 00:34:35,040

are they're certainly not the only ones

925

00:34:38,310 --> 00:34:36,399

and that's one of the reasons why this

926
00:34:40,869 --> 00:34:38,320
new office has been made is to to

927
00:34:43,030 --> 00:34:40,879
collate and try to to to to make some

928
00:34:44,069 --> 00:34:43,040
kind of central clearinghouse right

929
00:34:44,950 --> 00:34:44,079
right so

930
00:34:47,030 --> 00:34:44,960
so

931
00:34:50,790 --> 00:34:47,040
i mean it would be really really

932
00:34:52,470 --> 00:34:50,800
interesting to to just try to get a

933
00:34:54,310 --> 00:34:52,480
basic list

934
00:34:57,109 --> 00:34:54,320
off of these two gentlemen moultrie and

935
00:35:00,390 --> 00:34:57,119
bray for you know what

936
00:35:02,630 --> 00:35:00,400
you have this new aoi msg office

937
00:35:06,230 --> 00:35:02,640
where you know where

938
00:35:08,630 --> 00:35:06,240

if it's not completely on the road yet

939

00:35:10,150 --> 00:35:08,640

which it seems like it's not it seems

940

00:35:11,750 --> 00:35:10,160

like they've had hype maybe they've had

941

00:35:13,109 --> 00:35:11,760

hiring problems

942

00:35:15,190 --> 00:35:13,119

right there's been

943

00:35:16,950 --> 00:35:15,200

you know things like this and so if

944

00:35:18,790 --> 00:35:16,960

that's the case if if the wheels aren't

945

00:35:21,750 --> 00:35:18,800

completely on the road yet

946

00:35:23,589 --> 00:35:21,760

what is their goal for like where are

947

00:35:25,829 --> 00:35:23,599

they collating from

948

00:35:27,829 --> 00:35:25,839

you know give us give us the kinds of

949

00:35:30,470 --> 00:35:27,839

give us the a-tips that exist now

950

00:35:32,390 --> 00:35:30,480

between between places like maybe nasa

951
00:35:34,630 --> 00:35:32,400
you know what i mean for the air force

952
00:35:36,630 --> 00:35:34,640
wherever you know places that that have

953
00:35:39,589 --> 00:35:36,640
been trying to kind of like

954
00:35:41,750 --> 00:35:39,599
keep behind closed doors for a long time

955
00:35:44,069 --> 00:35:41,760
that get the gary reed thing again you

956
00:35:45,190 --> 00:35:44,079
know the gary reed guy gets in trouble

957
00:35:46,870 --> 00:35:45,200
and then

958
00:35:49,990 --> 00:35:46,880
there's

959
00:35:51,910 --> 00:35:50,000
classified listings for jobs

960
00:35:53,670 --> 00:35:51,920
in the office he was supposed to be you

961
00:35:54,630 --> 00:35:53,680
know looking over

962
00:35:56,310 --> 00:35:54,640
it's

963
00:35:58,850 --> 00:35:56,320

you know what what i could kind of see

964

00:36:00,230 --> 00:35:58,860

happening a little bit is um

965

00:36:02,630 --> 00:36:00,240

[Music]

966

00:36:05,030 --> 00:36:02,640

uh they have

967

00:36:06,550 --> 00:36:05,040

they have a couple excuses to pull from

968

00:36:08,790 --> 00:36:06,560

if they want

969

00:36:10,230 --> 00:36:08,800

you know and they've set that up nicely

970

00:36:12,069 --> 00:36:10,240

for themselves

971

00:36:13,829 --> 00:36:12,079

you know as you can see uh we're trying

972

00:36:15,349 --> 00:36:13,839

to hire people for the office we're not

973

00:36:17,109 --> 00:36:15,359

fully staffed and they're already

974

00:36:19,190 --> 00:36:17,119

hitting that like kirby said that in

975

00:36:21,109 --> 00:36:19,200

this press conference you know we're not

976

00:36:23,270 --> 00:36:21,119

fully staffed we're trying to do this

977

00:36:25,430 --> 00:36:23,280

you know so you know what i would say is

978

00:36:28,230 --> 00:36:25,440

let me get this straight so you you took

979

00:36:30,710 --> 00:36:28,240

the prerogative away from congress

980

00:36:32,790 --> 00:36:30,720

you know and and put this together uh by

981

00:36:35,030 --> 00:36:32,800

yourself within the dod

982

00:36:37,030 --> 00:36:35,040

and you still don't have the process put

983

00:36:38,630 --> 00:36:37,040

together is that correct sir

984

00:36:40,230 --> 00:36:38,640

you know

985

00:36:41,589 --> 00:36:40,240

so

986

00:36:43,190 --> 00:36:41,599

you know

987

00:36:46,790 --> 00:36:43,200

where do you get off doing that if you

988

00:36:48,310 --> 00:36:46,800

can't do the job correctly and timely

989

00:36:49,589 --> 00:36:48,320

you know it's like

990

00:36:51,910 --> 00:36:49,599

um

991

00:36:55,510 --> 00:36:51,920

when can we expect everything to be

992

00:36:57,109 --> 00:36:55,520

fully staffed you know but i would even

993

00:36:58,550 --> 00:36:57,119

you know depending on how things go i

994

00:37:00,950 --> 00:36:58,560

would even stay away from those

995

00:37:03,030 --> 00:37:00,960

questions because you know

996

00:37:04,710 --> 00:37:03,040

that they're just uh planted excuses

997

00:37:06,710 --> 00:37:04,720

more or less so

998

00:37:09,829 --> 00:37:06,720

just go for questions where they can't

999

00:37:11,510 --> 00:37:09,839

use that as a scapegoat so to speak you

1000

00:37:15,030 --> 00:37:11,520

know

1001
00:37:16,310 --> 00:37:15,040
yeah i i i agree i mean again like i i i

1002
00:37:18,710 --> 00:37:16,320
want to

1003
00:37:21,190 --> 00:37:18,720
believe that moultrie and bray will be

1004
00:37:23,589 --> 00:37:21,200
coming there from with the position of

1005
00:37:25,910 --> 00:37:23,599
of being forthright within

1006
00:37:27,030 --> 00:37:25,920
within their security oaths and things

1007
00:37:29,750 --> 00:37:27,040
like this

1008
00:37:30,950 --> 00:37:29,760
and and at the same time

1009
00:37:32,470 --> 00:37:30,960
good for you

1010
00:37:34,310 --> 00:37:32,480
you know

1011
00:37:36,630 --> 00:37:34,320
and at the same time and i also want to

1012
00:37:39,109 --> 00:37:36,640
believe that the congressmen are coming

1013
00:37:39,910 --> 00:37:39,119

and and women of congress are coming at

1014

00:37:40,790 --> 00:37:39,920

this

1015

00:37:42,310 --> 00:37:40,800

um

1016

00:37:44,550 --> 00:37:42,320

with

1017

00:37:46,950 --> 00:37:44,560

truly wanting to to highlight

1018

00:37:48,950 --> 00:37:46,960

transparency issues and bring more out

1019

00:37:51,270 --> 00:37:48,960

and you know this is

1020

00:37:53,430 --> 00:37:51,280

this is a popular issue i think that

1021

00:37:55,750 --> 00:37:53,440

that has been correctly highlighted by

1022

00:37:57,829 --> 00:37:55,760

people in congress that this is this is

1023

00:38:00,630 --> 00:37:57,839

a situation where

1024

00:38:02,870 --> 00:38:00,640

they conveniently are not this is one of

1025

00:38:05,510 --> 00:38:02,880

the few issues kind of in washington

1026

00:38:07,109 --> 00:38:05,520

where they're conveniently

1027

00:38:09,990 --> 00:38:07,119

not at fault

1028

00:38:11,670 --> 00:38:10,000

and it by any kind in most respects you

1029

00:38:13,349 --> 00:38:11,680

know what i mean like most contemporary

1030

00:38:15,030 --> 00:38:13,359

congress people will be like well i

1031

00:38:18,310 --> 00:38:15,040

didn't you know this i didn't make this

1032

00:38:20,630 --> 00:38:18,320

bed seven years ago right etc etc true

1033

00:38:23,670 --> 00:38:20,640

you know and so if if we're talking

1034

00:38:25,990 --> 00:38:23,680

about transparency issues

1035

00:38:27,670 --> 00:38:26,000

you know it could be there could be it's

1036

00:38:29,510 --> 00:38:27,680

important to remember kind of what

1037

00:38:31,270 --> 00:38:29,520

you're hinting at here is that there's

1038

00:38:34,069 --> 00:38:31,280

probably going to be some political

1039

00:38:35,190 --> 00:38:34,079

theater occurring in this hearing right

1040

00:38:37,109 --> 00:38:35,200

yeah

1041

00:38:38,220 --> 00:38:37,119

listen do you guys think this stuff is

1042

00:38:40,710 --> 00:38:38,230

the devil

1043

00:38:43,270 --> 00:38:40,720

[Laughter]

1044

00:38:45,670 --> 00:38:43,280

is it the devil or is it not the devil

1045

00:38:47,829 --> 00:38:45,680

yeah no but you guys say it v you got to

1046

00:38:49,349 --> 00:38:47,839

turn the v to a beat devil

1047

00:38:50,950 --> 00:38:49,359

devil

1048

00:38:53,910 --> 00:38:50,960

listen mr poultry is this thing the

1049

00:39:01,589 --> 00:38:56,150

okay when we're talking about craft are

1050

00:39:06,310 --> 00:39:04,630

like mars attacks crafter yeah we're

1051
00:39:08,150 --> 00:39:06,320
talking mars we're talking venus what

1052
00:39:09,990 --> 00:39:08,160
are we talking about here i do think

1053
00:39:12,550 --> 00:39:10,000
it's interesting oh first of all over in

1054
00:39:14,150 --> 00:39:12,560
the chat i'm i'm just looking over for

1055
00:39:15,829 --> 00:39:14,160
questions and i know that we've

1056
00:39:17,190 --> 00:39:15,839
collected some great questions from

1057
00:39:18,950 --> 00:39:17,200
people on twitter

1058
00:39:21,589 --> 00:39:18,960
we also we also have some great

1059
00:39:23,190 --> 00:39:21,599
questions over over here on the chat one

1060
00:39:25,829 --> 00:39:23,200
thing that i do want to highlight first

1061
00:39:28,390 --> 00:39:25,839
is that uh uh

1062
00:39:30,230 --> 00:39:28,400
folks were hearing about um the reports

1063
00:39:32,390 --> 00:39:30,240

of jellyfish looking stuff in the sky

1064

00:39:34,710 --> 00:39:32,400

going back decades and by the way that's

1065

00:39:36,630 --> 00:39:34,720

not me keel talked about it over four

1066

00:39:38,630 --> 00:39:36,640

years ago you made that up you texted me

1067

00:39:40,230 --> 00:39:38,640

before the draw do you mind if i make up

1068

00:39:42,470 --> 00:39:40,240

something about jellyfish in this guy

1069

00:39:45,349 --> 00:39:42,480

nope nope it's it's an operation trojan

1070

00:39:47,910 --> 00:39:45,359

horse i swear i have it right here um we

1071

00:39:50,950 --> 00:39:47,920

read that one that's right that's right

1072

00:39:52,790 --> 00:39:50,960

but um but uh jelly bird folks in the

1073

00:39:54,470 --> 00:39:52,800

chat have decided that jelly bird should

1074

00:39:56,630 --> 00:39:54,480

be the name of that and i think it's as

1075

00:39:58,230 --> 00:39:56,640

good as any term and it's pretty cute

1076

00:39:59,990 --> 00:39:58,240

you know it sounds like it could be the

1077

00:40:01,910 --> 00:40:00,000

name of like a semi-professional sports

1078

00:40:04,710 --> 00:40:01,920

team too which is kind of fun

1079

00:40:06,790 --> 00:40:04,720

billy brown's san jose jelly birds

1080

00:40:07,670 --> 00:40:06,800

yeah and john davies and some others

1081

00:40:09,589 --> 00:40:07,680

were

1082

00:40:12,309 --> 00:40:09,599

bringing up the idea of just bringing up

1083

00:40:13,829 --> 00:40:12,319

the idea of retrievals or crashes yeah

1084

00:40:16,550 --> 00:40:13,839

and and

1085

00:40:19,270 --> 00:40:16,560

boy would i love that is that a day one

1086

00:40:21,510 --> 00:40:19,280

thing that could happen i mean

1087

00:40:23,030 --> 00:40:21,520

that's that's like first date before you

1088

00:40:25,589 --> 00:40:23,040

say anything you're grabbing her head

1089

00:40:27,270 --> 00:40:25,599

and going for the french kiss i don't

1090

00:40:28,950 --> 00:40:27,280

know

1091

00:40:30,470 --> 00:40:28,960

yeah it could be challenging yeah i

1092

00:40:31,990 --> 00:40:30,480

don't i don't know if we go for that on

1093

00:40:34,069 --> 00:40:32,000

the first day but

1094

00:40:36,069 --> 00:40:34,079

i mean i wouldn't discourage it

1095

00:40:38,790 --> 00:40:36,079

certainly

1096

00:40:41,190 --> 00:40:38,800

depends if you got like three hours

1097

00:40:43,990 --> 00:40:41,200

while of course you know you've got like

1098

00:40:45,990 --> 00:40:44,000

15 minutes yeah

1099

00:40:47,670 --> 00:40:46,000

yeah i don't know but maybe but a

1100

00:40:49,910 --> 00:40:47,680

well-timed

1101
00:40:52,230 --> 00:40:49,920
you know there is the the part where we

1102
00:40:54,470 --> 00:40:52,240
did learn from ralph and leslie as well

1103
00:40:57,190 --> 00:40:54,480
back in one of the older times articles

1104
00:40:59,430 --> 00:40:57,200
that they that members of congress and

1105
00:41:03,349 --> 00:40:59,440
staffers had been briefed on the

1106
00:41:04,150 --> 00:41:03,359
potentiality of of retrievals of craft

1107
00:41:07,829 --> 00:41:04,160
not

1108
00:41:09,270 --> 00:41:07,839
world right yeah

1109
00:41:11,589 --> 00:41:09,280
um so

1110
00:41:13,190 --> 00:41:11,599
and the idea that eric davis may have

1111
00:41:14,230 --> 00:41:13,200
been part of that right

1112
00:41:15,990 --> 00:41:14,240
so

1113
00:41:17,510 --> 00:41:16,000

maybe there could be a well-informed

1114

00:41:19,349 --> 00:41:17,520

question in there that's phrased in a

1115

00:41:21,430 --> 00:41:19,359

way that's not betraying

1116

00:41:23,750 --> 00:41:21,440

um the confidential nature of some of

1117

00:41:26,150 --> 00:41:23,760

those briefings it's possible

1118

00:41:28,550 --> 00:41:26,160

just let's you know i would say let's

1119

00:41:30,230 --> 00:41:28,560

just cut the crap do we have alien

1120

00:41:32,150 --> 00:41:30,240

technology or not

1121

00:41:33,270 --> 00:41:32,160

yeah and then you gotta bang your hands

1122

00:41:35,349 --> 00:41:33,280

and then it's important to bang your

1123

00:41:38,309 --> 00:41:35,359

hand on the table too right and i'm not

1124

00:41:40,390 --> 00:41:38,319

talking about humans outside from not

1125

00:41:41,430 --> 00:41:40,400

from the u.s all right i'm talking about

1126
00:41:43,030 --> 00:41:41,440
up there

1127
00:41:44,390 --> 00:41:43,040
we're down there

1128
00:41:48,309 --> 00:41:44,400
just tell us

1129
00:41:49,430 --> 00:41:48,319
rip it off like a freaking band-aid like

1130
00:41:50,950 --> 00:41:49,440
right off

1131
00:41:53,510 --> 00:41:50,960
i'm still

1132
00:41:55,670 --> 00:41:53,520
speaking of alien technology

1133
00:41:58,390 --> 00:41:55,680
uh just just to switch it up a little

1134
00:42:01,589 --> 00:41:58,400
bit sure um and this isn't alien

1135
00:42:03,589 --> 00:42:01,599
technology really but

1136
00:42:06,150 --> 00:42:03,599
it is pretty interesting this is

1137
00:42:09,750 --> 00:42:06,160
actually from

1138
00:42:11,270 --> 00:42:09,760

this picture was taken by nasa on mars

1139

00:42:13,670 --> 00:42:11,280

oh yeah

1140

00:42:16,230 --> 00:42:13,680

yeah i saw a few people um talking about

1141

00:42:19,030 --> 00:42:16,240

that yesterday it's really interesting i

1142

00:42:21,430 --> 00:42:19,040

mean it's like a freaking cave bro

1143

00:42:24,309 --> 00:42:21,440

yeah well not only that it looks i mean

1144

00:42:26,550 --> 00:42:24,319

it it it is a pretty sheer face

1145

00:42:27,430 --> 00:42:26,560

if you if you close in on it and and

1146

00:42:29,670 --> 00:42:27,440

then

1147

00:42:31,670 --> 00:42:29,680

and so it does definitely have doorway

1148

00:42:34,150 --> 00:42:31,680

like

1149

00:42:35,910 --> 00:42:34,160

looks to it now is that pareidolia you

1150

00:42:37,990 --> 00:42:35,920

know i don't know what the size and the

1151
00:42:39,990 --> 00:42:38,000
scale of this image is

1152
00:42:41,829 --> 00:42:40,000
and you know how great that is though

1153
00:42:44,309 --> 00:42:41,839
like that's clean cut

1154
00:42:45,990 --> 00:42:44,319
i know in the top and the other side

1155
00:42:48,550 --> 00:42:46,000
it's definitely

1156
00:42:49,589 --> 00:42:48,560
i mean i would definitely want to see

1157
00:42:52,790 --> 00:42:49,599
that

1158
00:42:55,030 --> 00:42:52,800
from different angles you know

1159
00:42:57,270 --> 00:42:55,040
i would i would definitely want to think

1160
00:42:59,109 --> 00:42:57,280
no i would want to see the real rover

1161
00:43:02,309 --> 00:42:59,119
it's probably

1162
00:43:03,270 --> 00:43:02,319
a martian giants space store that's all

1163
00:43:05,750 --> 00:43:03,280

i wanted

1164

00:43:08,230 --> 00:43:05,760

yeah it's probably a portal

1165

00:43:09,030 --> 00:43:08,240

you probably you walk in there and then

1166

00:43:10,230 --> 00:43:09,040

you

1167

00:43:12,390 --> 00:43:10,240

appear

1168

00:43:14,470 --> 00:43:12,400

under catalina island like right next to

1169

00:43:16,230 --> 00:43:14,480

the base that's probably what

1170

00:43:17,829 --> 00:43:16,240

i don't know but i would love to see

1171

00:43:20,069 --> 00:43:17,839

this from other angles for sure and i'd

1172

00:43:23,190 --> 00:43:20,079

love to know the scale because you know

1173

00:43:27,190 --> 00:43:23,200

is that six inches is that 60 feet i

1174

00:43:28,870 --> 00:43:27,200

just don't know what she said um

1175

00:43:30,950 --> 00:43:28,880

we don't get the chance to do this very

1176
00:43:32,470 --> 00:43:30,960
often but you know in the end when we

1177
00:43:35,060 --> 00:43:32,480
look at something like this the one

1178
00:43:39,190 --> 00:43:35,070
thing that comes to my head is just

1179
00:43:39,190 --> 00:43:39,200
[Music]

1180
00:43:42,309 --> 00:43:41,270
right i mean

1181
00:43:48,380 --> 00:43:42,319
that's my

1182
00:43:49,910 --> 00:43:48,390
first what the heck is that

1183
00:43:53,190 --> 00:43:49,920
[Laughter]

1184
00:43:55,030 --> 00:43:53,200
and i love it man yeah what well

1185
00:43:57,030 --> 00:43:55,040
yeah what the heck is it

1186
00:43:58,870 --> 00:43:57,040
all right man i don't know

1187
00:44:02,069 --> 00:43:58,880
we're rocking today i'm on my fourth

1188
00:44:04,309 --> 00:44:02,079

shot of espresso i'm getting all right

1189

00:44:06,630 --> 00:44:04,319

that's the one thing about driving you

1190

00:44:08,390 --> 00:44:06,640

don't smoke weed so that's what you got

1191

00:44:09,829 --> 00:44:08,400

right yeah yeah

1192

00:44:11,510 --> 00:44:09,839

i smoke

1193

00:44:12,630 --> 00:44:11,520

teed

1194

00:44:14,470 --> 00:44:12,640

it's uh

1195

00:44:15,750 --> 00:44:14,480

it's a different kind of weed

1196

00:44:19,349 --> 00:44:15,760

right on

1197

00:44:21,270 --> 00:44:19,359

yeah where it's just pure liquid thc

1198

00:44:23,750 --> 00:44:21,280

i'm just kidding

1199

00:44:26,550 --> 00:44:23,760

all right man i i used to i missed that

1200

00:44:28,230 --> 00:44:26,560

stuff so bad but i'm glad i don't

1201

00:44:30,309 --> 00:44:28,240

all right

1202

00:44:32,790 --> 00:44:30,319

because i dream now too first of all and

1203

00:44:35,030 --> 00:44:32,800

my dreams are getting nuts

1204

00:44:36,950 --> 00:44:35,040

yeah mine have been pretty wild lately

1205

00:44:39,190 --> 00:44:36,960

too we we're gonna have to do another

1206

00:44:40,870 --> 00:44:39,200

dream dive sometime soon

1207

00:44:43,670 --> 00:44:40,880

let's see what do we got here all right

1208

00:44:45,030 --> 00:44:43,680

carl anderson science is religion oh oh

1209

00:44:47,190 --> 00:44:45,040

you know jefferson's was really

1210

00:44:48,150 --> 00:44:47,200

interesting oh we can do carl's first if

1211

00:44:48,950 --> 00:44:48,160

you'd like

1212

00:44:51,190 --> 00:44:48,960

yeah

1213

00:44:54,470 --> 00:44:51,200

um for this one or that one or this one

1214

00:44:55,910 --> 00:44:54,480

see how fast you can read them oh boy

1215

00:44:56,870 --> 00:44:55,920

no

1216

00:44:58,790 --> 00:44:56,880

okay

1217

00:45:00,390 --> 00:44:58,800

why is witness testimony enough to take

1218

00:45:03,109 --> 00:45:00,400

a person's freedom away in court of law

1219

00:45:05,430 --> 00:45:03,119

yet testimony corroborative sensor data

1220

00:45:07,990 --> 00:45:05,440

okay why the reluctance to openly admit

1221

00:45:08,870 --> 00:45:08,000

this is a non-human intelligence

1222

00:45:10,630 --> 00:45:08,880

well

1223

00:45:12,150 --> 00:45:10,640

yeah that's an i mean it's an

1224

00:45:14,870 --> 00:45:12,160

interesting question with regard to

1225

00:45:16,550 --> 00:45:14,880

testimony i mean that you know i'd

1226

00:45:21,109 --> 00:45:16,560

almost

1227

00:45:23,430 --> 00:45:21,119

really talk about that maybe you know

1228

00:45:25,430 --> 00:45:23,440

this got a point

1229

00:45:27,030 --> 00:45:25,440

i mean i think it's but especially if

1230

00:45:28,950 --> 00:45:27,040

you look at it

1231

00:45:33,030 --> 00:45:28,960

from all the years combined right it's a

1232

00:45:34,790 --> 00:45:33,040

harder case to make if it's just one um

1233

00:45:37,589 --> 00:45:34,800

encounter or one episode where there's

1234

00:45:39,990 --> 00:45:37,599

one or two witnesses or whatever

1235

00:45:42,390 --> 00:45:40,000

to me it still isn't especially when you

1236

00:45:44,630 --> 00:45:42,400

have uh it you know when you have like

1237

00:45:47,109 --> 00:45:44,640

backup like radar or whatever camera

1238

00:45:49,589 --> 00:45:47,119

footage or whatever that you know

1239

00:45:50,550 --> 00:45:49,599

goes together with each other but

1240

00:45:52,150 --> 00:45:50,560

um

1241

00:45:54,069 --> 00:45:52,160

you know in this instance and what we're

1242

00:45:56,390 --> 00:45:54,079

going for you know you got to come with

1243

00:45:59,510 --> 00:45:56,400

your strongest muscles possible right so

1244

00:46:00,790 --> 00:45:59,520

but if you go with all the witness

1245

00:46:03,270 --> 00:46:00,800

testimony

1246

00:46:06,309 --> 00:46:03,280

dating back to 47 and if i was those

1247

00:46:09,670 --> 00:46:06,319

congressmen i would have a freaking list

1248

00:46:11,430 --> 00:46:09,680

of every military encounter since that

1249

00:46:13,589 --> 00:46:11,440

time

1250

00:46:17,270 --> 00:46:13,599

here we go we have 300

1251
00:46:20,870 --> 00:46:17,280
350 400 military testimonies of

1252
00:46:21,790 --> 00:46:20,880
unidentified objects right

1253
00:46:24,390 --> 00:46:21,800
what are these

1254
00:46:25,670 --> 00:46:24,400
[Laughter]

1255
00:46:27,430 --> 00:46:25,680
whatever it is

1256
00:46:29,190 --> 00:46:27,440
and that would come with the old cia

1257
00:46:31,430 --> 00:46:29,200
docs too talking about

1258
00:46:34,950 --> 00:46:31,440
you know how we knew back in

1259
00:46:37,670 --> 00:46:34,960
50 51 52 that these things were around

1260
00:46:39,829 --> 00:46:37,680
our sensitive uh sites you know like

1261
00:46:41,750 --> 00:46:39,839
nuclear bases and stuff sure

1262
00:46:43,190 --> 00:46:41,760
why is it taking so long to get to get

1263
00:46:45,510 --> 00:46:43,200

this going i realize you haven't been

1264

00:46:46,950 --> 00:46:45,520

there that long but can you identify a

1265

00:46:48,630 --> 00:46:46,960

pattern that has brought us to this

1266

00:46:49,750 --> 00:46:48,640

point to where it hasn't been taken care

1267

00:46:51,030 --> 00:46:49,760

of

1268

00:46:52,630 --> 00:46:51,040

but

1269

00:46:54,550 --> 00:46:52,640

absolutely people really should come in

1270

00:46:56,069 --> 00:46:54,560

with the blue book cases in mind you

1271

00:46:57,670 --> 00:46:56,079

know people could even start briefing

1272

00:46:59,510 --> 00:46:57,680

themselves with things like leslie

1273

00:47:01,750 --> 00:46:59,520

kane's ufos pilots generals go on the

1274

00:47:03,190 --> 00:47:01,760

record you know

1275

00:47:05,990 --> 00:47:03,200

books like that that have been that are

1276
00:47:07,829 --> 00:47:06,000
kind of more commonly accepted as as

1277
00:47:09,349 --> 00:47:07,839
as having some real weight to them for

1278
00:47:10,870 --> 00:47:09,359
sure you know because the other thing

1279
00:47:13,510 --> 00:47:10,880
you can think of too is with these

1280
00:47:15,510 --> 00:47:13,520
hearings you're also making

1281
00:47:17,750 --> 00:47:15,520
you know you're also making a case to

1282
00:47:21,349 --> 00:47:17,760
the public of what the reality of the

1283
00:47:22,790 --> 00:47:21,359
situation is you know so if i'm

1284
00:47:25,750 --> 00:47:22,800
you know

1285
00:47:27,030 --> 00:47:25,760
really concerned uh person like carson

1286
00:47:29,030 --> 00:47:27,040
seems to be

1287
00:47:31,109 --> 00:47:29,040
like and i want the public to take this

1288
00:47:33,109 --> 00:47:31,119

seriously which would in turn reduce

1289

00:47:34,870 --> 00:47:33,119

stigma for pilots and other reporting

1290

00:47:36,230 --> 00:47:34,880

systems right

1291

00:47:38,390 --> 00:47:36,240

yep like

1292

00:47:41,109 --> 00:47:38,400

banging that drum of historical

1293

00:47:42,230 --> 00:47:41,119

precedence that absolutely no idea

1294

00:47:44,549 --> 00:47:42,240

exists

1295

00:47:46,230 --> 00:47:44,559

absolutely what goes so far

1296

00:47:48,630 --> 00:47:46,240

um yeah you like this question you said

1297

00:47:51,670 --> 00:47:48,640

mr jefferson lee most obvious question

1298

00:47:53,589 --> 00:47:51,680

would have to do with uh are these uap

1299

00:47:55,670 --> 00:47:53,599

being tracked coming in and out of uh

1300

00:47:57,829 --> 00:47:55,680

low earth orbit yeah and he sells it out

1301

00:48:00,150 --> 00:47:57,839

for us too in case we don't know

1302

00:48:01,349 --> 00:48:00,160

i appreciate that jefferson

1303

00:48:03,109 --> 00:48:01,359

and uh

1304

00:48:05,109 --> 00:48:03,119

are they coming from space if the answer

1305

00:48:06,870 --> 00:48:05,119

is a yes implications are huge and space

1306

00:48:08,630 --> 00:48:06,880

force is automatically involved and

1307

00:48:10,069 --> 00:48:08,640

that's a good point here too jefferson i

1308

00:48:10,950 --> 00:48:10,079

mean this goes back to one of the

1309

00:48:12,790 --> 00:48:10,960

earlier

1310

00:48:14,790 --> 00:48:12,800

what you were mentioning sean and what

1311

00:48:17,750 --> 00:48:14,800

chris millen would like asked as well in

1312

00:48:20,950 --> 00:48:17,760

terms of coming in and out of orbit and

1313

00:48:23,589 --> 00:48:20,960

and things like that and um

1314

00:48:26,630 --> 00:48:23,599

and it's also important to remember

1315

00:48:29,910 --> 00:48:26,640

space force and and contextualizing that

1316

00:48:32,390 --> 00:48:29,920

in terms of of of the larger picture

1317

00:48:34,710 --> 00:48:32,400

you know there it would it would be

1318

00:48:35,510 --> 00:48:34,720

really important i think given that

1319

00:48:38,630 --> 00:48:35,520

that's

1320

00:48:41,270 --> 00:48:38,640

essentially a new relatively autonomous

1321

00:48:43,270 --> 00:48:41,280

branch of the military to have a brief

1322

00:48:45,190 --> 00:48:43,280

line of questioning about how that's

1323

00:48:47,190 --> 00:48:45,200

being contextualized

1324

00:48:49,750 --> 00:48:47,200

with regard to reports

1325

00:48:51,670 --> 00:48:49,760

um with with a new test with the new

1326
00:48:53,829 --> 00:48:51,680
group and in the pentagon in general

1327
00:48:55,670 --> 00:48:53,839
that seems incredibly important

1328
00:48:56,870 --> 00:48:55,680
especially since one of the big space

1329
00:49:00,549 --> 00:48:56,880
force

1330
00:49:03,270 --> 00:49:00,559
bases is is right there along with norad

1331
00:49:04,549 --> 00:49:03,280
you know that like that area of colorado

1332
00:49:06,549 --> 00:49:04,559
i can't remember the name of that base

1333
00:49:07,829 --> 00:49:06,559
off the top of my head but you know it

1334
00:49:10,069 --> 00:49:07,839
it turned it

1335
00:49:13,030 --> 00:49:10,079
became a space force branch rather than

1336
00:49:16,630 --> 00:49:13,040
an air force branch so anyway

1337
00:49:20,150 --> 00:49:16,640
and you can't lie like their album is

1338
00:49:23,030 --> 00:49:21,670

and what's up with that

1339

00:49:25,430 --> 00:49:23,040

what's up with that

1340

00:49:27,670 --> 00:49:25,440

and also also to jefferson lee in case

1341

00:49:29,990 --> 00:49:27,680

he's watching um i think he's about to

1342

00:49:33,030 --> 00:49:30,000

have his seventh kid i met him at uh oh

1343

00:49:35,270 --> 00:49:33,040

wow i know right and uh

1344

00:49:37,589 --> 00:49:35,280

i met him at the conference down in

1345

00:49:40,870 --> 00:49:37,599

houston and he is a really delightful

1346

00:49:44,390 --> 00:49:40,880

guy a great human being so uh props and

1347

00:49:47,430 --> 00:49:44,400

congratulations to jefferson and his his

1348

00:49:51,030 --> 00:49:47,440

uh his brood and yeah and his wonderful

1349

00:49:52,390 --> 00:49:51,040

kids good good dude um

1350

00:49:54,390 --> 00:49:52,400

no this is

1351
00:49:56,870 --> 00:49:54,400
you know zach i would say is uh kind of

1352
00:49:59,109 --> 00:49:56,880
more on the skeptic i'm sick of the bs

1353
00:50:01,829 --> 00:49:59,119
kind of side so this is a good sure

1354
00:50:03,829 --> 00:50:01,839
perspective from that do we have

1355
00:50:05,990 --> 00:50:03,839
definitive data ruling out our own tech

1356
00:50:08,309 --> 00:50:06,000
foreign tech uh that points to something

1357
00:50:09,910 --> 00:50:08,319
unambiguously weird if no ought we'd be

1358
00:50:12,309 --> 00:50:09,920
playing this game with the public and i

1359
00:50:14,470 --> 00:50:12,319
think that's i really appreciate that

1360
00:50:16,309 --> 00:50:14,480
part of the question if no one would be

1361
00:50:18,790 --> 00:50:16,319
playing this game with the public

1362
00:50:20,069 --> 00:50:18,800
and and just

1363
00:50:21,990 --> 00:50:20,079

you know just

1364

00:50:23,910 --> 00:50:22,000

all together ought we be playing this

1365

00:50:25,349 --> 00:50:23,920

game with the public

1366

00:50:27,270 --> 00:50:25,359

first of all

1367

00:50:29,430 --> 00:50:27,280

art is an underused

1368

00:50:31,750 --> 00:50:29,440

word i've said that before yeah

1369

00:50:33,750 --> 00:50:31,760

you know like so

1370

00:50:36,790 --> 00:50:33,760

zack i appreciate it for that if nothing

1371

00:50:39,670 --> 00:50:36,800

else like a guy from the 50s here oh we

1372

00:50:41,430 --> 00:50:39,680

be playing this with art we i thought

1373

00:50:43,910 --> 00:50:41,440

you know donald rumsfeld used that word

1374

00:50:46,950 --> 00:50:43,920

a lot art i've looked through

1375

00:50:47,990 --> 00:50:46,960

ufo stuff and he was always saying a lot

1376

00:50:51,750 --> 00:50:48,000

interesting

1377

00:50:56,150 --> 00:50:51,760

you know i wonder what connection

1378

00:51:00,630 --> 00:50:58,549

if yes must that remain the domain of

1379

00:51:02,790 --> 00:51:00,640

the military or can we bring in outside

1380

00:51:04,870 --> 00:51:02,800

scientists and to study this now that i

1381

00:51:07,030 --> 00:51:04,880

think is a very important part of the

1382

00:51:09,589 --> 00:51:07,040

question as well or part of the

1383

00:51:11,270 --> 00:51:09,599

important framing you know and that gets

1384

00:51:13,670 --> 00:51:11,280

out another question which might be you

1385

00:51:15,910 --> 00:51:13,680

know for another day of hearings which

1386

00:51:17,589 --> 00:51:15,920

is how has the national labs and the

1387

00:51:19,829 --> 00:51:17,599

department of energy been involved in

1388

00:51:21,430 --> 00:51:19,839

this because according to many people

1389

00:51:23,190 --> 00:51:21,440

that's where a lot more of the

1390

00:51:24,710 --> 00:51:23,200

scientific study of some of this

1391

00:51:26,630 --> 00:51:24,720

material

1392

00:51:28,630 --> 00:51:26,640

has been happening you know whether it's

1393

00:51:29,910 --> 00:51:28,640

owned but overseen by patel whether

1394

00:51:31,510 --> 00:51:29,920

we're talking about

1395

00:51:34,069 --> 00:51:31,520

you know any of the other kind of

1396

00:51:36,470 --> 00:51:34,079

contractors it'd be it'd be really

1397

00:51:38,150 --> 00:51:36,480

fascinating to know what could be said

1398

00:51:39,349 --> 00:51:38,160

that way and of course we're just going

1399

00:51:40,549 --> 00:51:39,359

to assume that there are a lot of

1400

00:51:43,270 --> 00:51:40,559

answers

1401

00:51:45,270 --> 00:51:43,280

um that that will be refused or can't

1402

00:51:46,950 --> 00:51:45,280

can't be answered for for reasons of

1403

00:51:48,630 --> 00:51:46,960

national security but

1404

00:51:50,069 --> 00:51:48,640

it doesn't hurt to ask the question

1405

00:51:51,829 --> 00:51:50,079

anyway right

1406

00:51:54,470 --> 00:51:51,839

they should definitely have somebody

1407

00:51:55,990 --> 00:51:54,480

like uh in the corner of the hearings

1408

00:51:57,589 --> 00:51:56,000

with the microphone

1409

00:51:59,910 --> 00:51:57,599

that uh

1410

00:52:05,030 --> 00:51:59,920

their only job is to interrupt sometimes

1411

00:52:09,829 --> 00:52:07,349

or just uh or just maybe what the heck

1412

00:52:12,309 --> 00:52:09,839

was that you know they could

1413

00:52:15,270 --> 00:52:12,319

interject with a quick video grab what

1414

00:52:16,950 --> 00:52:15,280

the heck is that that's [h__\h] yeah

1415

00:52:18,710 --> 00:52:16,960

all right if you have developed an

1416

00:52:21,750 --> 00:52:18,720

opinion as to what intention these

1417

00:52:24,230 --> 00:52:21,760

non-human or breakaway race races have

1418

00:52:25,910 --> 00:52:24,240

what is it and what led you to form the

1419

00:52:30,630 --> 00:52:25,920

spinning

1420

00:52:32,710 --> 00:52:30,640

yeah i mean obviously great question um

1421

00:52:34,309 --> 00:52:32,720

will they go there this is where we want

1422

00:52:35,349 --> 00:52:34,319

it to go right

1423

00:52:37,190 --> 00:52:35,359

yep

1424

00:52:39,030 --> 00:52:37,200

um but

1425

00:52:41,030 --> 00:52:39,040

there it seems like other things have to

1426

00:52:41,829 --> 00:52:41,040

be established first it seems like that

1427

00:52:43,109 --> 00:52:41,839

way

1428

00:52:44,790 --> 00:52:43,119

you know

1429

00:52:46,230 --> 00:52:44,800

that

1430

00:52:48,710 --> 00:52:46,240

more than half of the country probably

1431

00:52:49,990 --> 00:52:48,720

still doesn't even believe in ufos

1432

00:52:52,630 --> 00:52:50,000

you know yeah

1433

00:52:54,950 --> 00:52:52,640

but well hopefully hopefully

1434

00:52:55,910 --> 00:52:54,960

there we get a few things on record here

1435

00:52:57,190 --> 00:52:55,920

you know

1436

00:53:02,390 --> 00:52:57,200

a couple

1437

00:53:06,069 --> 00:53:02,400

carefully

1438

00:53:07,750 --> 00:53:06,079

constructed questions

1439

00:53:10,150 --> 00:53:07,760

could lead to some

1440

00:53:12,069 --> 00:53:10,160

pretty definitive and earth-shattering

1441

00:53:12,950 --> 00:53:12,079

answers

1442

00:53:14,549 --> 00:53:12,960

so

1443

00:53:16,470 --> 00:53:14,559

let's keep exploring these questions

1444

00:53:18,230 --> 00:53:16,480

this is great thanks herman paven that's

1445

00:53:19,510 --> 00:53:18,240

awesome

1446

00:53:21,270 --> 00:53:19,520

looks like she

1447

00:53:23,190 --> 00:53:21,280

i'm not going to get into that all right

1448

00:53:24,870 --> 00:53:23,200

trevor butler

1449

00:53:26,390 --> 00:53:24,880

were materials recovered from a crash in

1450

00:53:27,430 --> 00:53:26,400

roswell and where they have unknown

1451
00:53:29,109 --> 00:53:27,440
origin

1452
00:53:31,349 --> 00:53:29,119
it's a great question and i mean that

1453
00:53:32,790 --> 00:53:31,359
would be it would definitely

1454
00:53:34,630 --> 00:53:32,800
that's the kind of

1455
00:53:36,470 --> 00:53:34,640
very sharp

1456
00:53:38,630 --> 00:53:36,480
and short question

1457
00:53:41,349 --> 00:53:38,640
that uh that could really lead the

1458
00:53:43,430 --> 00:53:41,359
evening news um you know that would

1459
00:53:44,390 --> 00:53:43,440
definitely grab people's attention for

1460
00:53:46,790 --> 00:53:44,400
sure

1461
00:53:48,549 --> 00:53:46,800
they have an out they have an excuse you

1462
00:53:51,030 --> 00:53:48,559
know well i'm sure we're all familiar

1463
00:53:52,390 --> 00:53:51,040

with the roswell report

1464

00:53:54,230 --> 00:53:52,400

you know that

1465

00:53:55,589 --> 00:53:54,240

who gives a crap put together for the

1466

00:53:59,190 --> 00:53:55,599

air force

1467

00:54:00,390 --> 00:53:59,200

you know so i refer you to that sir

1468

00:54:02,630 --> 00:54:00,400

yeah yep

1469

00:54:04,630 --> 00:54:02,640

absolutely thanks trevor that was a

1470

00:54:07,109 --> 00:54:04,640

great question

1471

00:54:09,030 --> 00:54:07,119

let's see dave gillam let's see why

1472

00:54:12,309 --> 00:54:09,040

can't videos media with no reason to be

1473

00:54:14,390 --> 00:54:12,319

classified like source methods locations

1474

00:54:16,710 --> 00:54:14,400

be shared with the us public is it

1475

00:54:19,190 --> 00:54:16,720

classified for any other reason other

1476
00:54:21,030 --> 00:54:19,200
than hiding that this is most likely

1477
00:54:23,190 --> 00:54:21,040
non-human technology

1478
00:54:25,030 --> 00:54:23,200
it's a great question dave i mean the

1479
00:54:27,670 --> 00:54:25,040
one you know this has been a popular

1480
00:54:30,069 --> 00:54:27,680
question lately online because of some

1481
00:54:31,670 --> 00:54:30,079
redacted documents that i think john

1482
00:54:32,549 --> 00:54:31,680
greenwald um

1483
00:54:37,510 --> 00:54:32,559
uh

1484
00:54:40,230 --> 00:54:37,520
month ago or two months ago and people

1485
00:54:42,870 --> 00:54:40,240
were laughing about how

1486
00:54:45,190 --> 00:54:42,880
the shapes of the craft were were

1487
00:54:46,950 --> 00:54:45,200
redacted like they like the shape the

1488
00:54:49,030 --> 00:54:46,960

shapes of the craft weren't even a lot

1489

00:54:51,430 --> 00:54:49,040

those were blacked out and people were

1490

00:54:53,270 --> 00:54:51,440

complaining about like okay so we're at

1491

00:54:55,829 --> 00:54:53,280

the point of over

1492

00:54:58,549 --> 00:54:55,839

of under transparency where we can't

1493

00:55:01,670 --> 00:54:58,559

even talk about what the shapes are now

1494

00:55:04,230 --> 00:55:01,680

one you know counter to that is

1495

00:55:06,390 --> 00:55:04,240

that there could be

1496

00:55:09,750 --> 00:55:06,400

uh shapes that

1497

00:55:11,109 --> 00:55:09,760

we have quote unquote we not me or you

1498

00:55:12,549 --> 00:55:11,119

but maybe somebody over at wright

1499

00:55:15,910 --> 00:55:12,559

patterson air force base or something

1500

00:55:19,990 --> 00:55:15,920

like that um or groom lake might have in

1501

00:55:23,030 --> 00:55:20,000

terms of experimental tech or or or a

1502

00:55:25,030 --> 00:55:23,040

classified piece of technology you know

1503

00:55:27,750 --> 00:55:25,040

for example what in the public

1504

00:55:30,309 --> 00:55:27,760

imagination could be like the triangle

1505

00:55:32,309 --> 00:55:30,319

of the tr-3b that is that is kind of

1506

00:55:35,109 --> 00:55:32,319

commonly referenced even though that's

1507

00:55:37,430 --> 00:55:35,119

probably not the actual name of a craft

1508

00:55:40,789 --> 00:55:37,440

that that could be in existence if it

1509

00:55:41,670 --> 00:55:40,799

was it definitely is not now

1510

00:55:46,150 --> 00:55:41,680

yeah

1511

00:55:47,270 --> 00:55:46,160

but hopefully that's

1512

00:55:49,750 --> 00:55:47,280

steve

1513

00:55:51,829 --> 00:55:49,760

you know it'd be cool if like that it

1514

00:55:54,150 --> 00:55:51,839

was at least you know the name of the

1515

00:55:55,910 --> 00:55:54,160

informal name of a watering hole on

1516

00:55:57,910 --> 00:55:55,920

wright patterson campus or something

1517

00:56:00,150 --> 00:55:57,920

like that that would be pretty dope

1518

00:56:01,990 --> 00:56:00,160

you know kind of a 19th hole scenario

1519

00:56:02,950 --> 00:56:02,000

but um you know what do you think about

1520

00:56:04,630 --> 00:56:02,960

this

1521

00:56:06,180 --> 00:56:04,640

yeah well i was just going to say

1522

00:56:07,349 --> 00:56:06,190

locations um

1523

00:56:08,789 --> 00:56:07,359

[Music]

1524

00:56:15,430 --> 00:56:08,799

it's

1525

00:56:17,750 --> 00:56:15,440

classification and once you share one

1526

00:56:18,789 --> 00:56:17,760

like you're turning on the faucet you

1527

00:56:21,109 --> 00:56:18,799

would think

1528

00:56:22,950 --> 00:56:21,119

like um

1529

00:56:24,950 --> 00:56:22,960

because then you've determined you know

1530

00:56:27,270 --> 00:56:24,960

this you think this could have happened

1531

00:56:29,510 --> 00:56:27,280

you know back when the first navy videos

1532

00:56:31,270 --> 00:56:29,520

got uh released although that wasn't

1533

00:56:32,789 --> 00:56:31,280

like officially

1534

00:56:34,789 --> 00:56:32,799

all right we're the government and we're

1535

00:56:35,510 --> 00:56:34,799

giving you these videos you know there

1536

00:56:39,990 --> 00:56:35,520

was

1537

00:56:43,190 --> 00:56:40,000

first time they release videos a

1538

00:56:45,910 --> 00:56:43,200

bonafide ufo uap video official release

1539

00:56:49,190 --> 00:56:45,920

from the government like here it is

1540

00:56:52,069 --> 00:56:49,200

like then then it's just like

1541

00:56:53,430 --> 00:56:52,079

you know all hell breaks loose so maybe

1542

00:56:54,470 --> 00:56:53,440

you know there's some thinking behind

1543

00:56:56,829 --> 00:56:54,480

the scenes of how that could

1544

00:56:59,349 --> 00:56:56,839

appropriately be done

1545

00:57:01,750 --> 00:56:59,359

um along with information another thing

1546

00:57:03,190 --> 00:57:01,760

is you know like this a lot of this i

1547

00:57:05,430 --> 00:57:03,200

feel like is they they don't want to

1548

00:57:06,309 --> 00:57:05,440

talk about something they can't explain

1549

00:57:07,750 --> 00:57:06,319

you know

1550

00:57:10,950 --> 00:57:07,760

and and

1551
00:57:12,950 --> 00:57:10,960
the more videos that come out and the

1552
00:57:13,750 --> 00:57:12,960
you know along with no answers about

1553
00:57:16,309 --> 00:57:13,760
them

1554
00:57:18,309 --> 00:57:16,319
is just a national security threat in

1555
00:57:19,910 --> 00:57:18,319
general to them that's how they see it

1556
00:57:24,789 --> 00:57:19,920
so

1557
00:57:25,910 --> 00:57:24,799
over in the chat too did you want to go

1558
00:57:27,750 --> 00:57:25,920
through a couple more of these twitter

1559
00:57:29,750 --> 00:57:27,760
ones and it would be kind of fun to

1560
00:57:32,069 --> 00:57:29,760
yeah if you have a little time to maybe

1561
00:57:33,589 --> 00:57:32,079
sure address a couple of those too we'll

1562
00:57:35,670 --> 00:57:33,599
go with john's here

1563
00:57:37,910 --> 00:57:35,680

sure when will we get details on the

1564

00:57:39,430 --> 00:57:37,920

non-human satellites in orbit and what

1565

00:57:41,030 --> 00:57:39,440

are they tracking

1566

00:57:44,870 --> 00:57:41,040

man you just get really right to the

1567

00:57:50,150 --> 00:57:46,440

i have no answer for you sir

1568

00:57:52,150 --> 00:57:50,160

[Laughter]

1569

00:57:54,150 --> 00:57:52,160

no but absolutely and you know there's i

1570

00:57:57,109 --> 00:57:54,160

mean there's there's a lot of there's a

1571

00:57:58,710 --> 00:57:57,119

lot of history there in terms of of

1572

00:58:00,630 --> 00:57:58,720

tracking with space fence like what

1573

00:58:02,549 --> 00:58:00,640

you're talking about before there's

1574

00:58:05,109 --> 00:58:02,559

um i think was called project saint back

1575

00:58:08,230 --> 00:58:05,119

in the 60s and 70s there was also kind

1576

00:58:10,710 --> 00:58:08,240

of a preliminary version of of tracking

1577

00:58:13,030 --> 00:58:10,720

um the kind of fast walker type

1578

00:58:14,870 --> 00:58:13,040

scenarios yeah yeah it's a racetrack

1579

00:58:16,870 --> 00:58:14,880

they had spacecraft which went hand in

1580

00:58:18,069 --> 00:58:16,880

hand with moon dust

1581

00:58:19,670 --> 00:58:18,079

um

1582

00:58:21,990 --> 00:58:19,680

you know spacetrack they they actually

1583

00:58:24,870 --> 00:58:22,000

check space track data for you know like

1584

00:58:27,430 --> 00:58:24,880

when ufos were reported to see whether

1585

00:58:28,710 --> 00:58:27,440

it was um um

1586

00:58:29,990 --> 00:58:28,720

uh like a

1587

00:58:36,789 --> 00:58:30,000

can't

1588

00:58:38,630 --> 00:58:36,799

remember which one but i would have to

1589

00:58:39,990 --> 00:58:38,640

imagine it was russia's satellite

1590

00:58:40,730 --> 00:58:40,000

probably or both

1591

00:58:42,069 --> 00:58:40,740

but um

1592

00:58:44,069 --> 00:58:42,079

[Music]

1593

00:58:46,390 --> 00:58:44,079

you know so they've been tracking stuff

1594

00:58:47,510 --> 00:58:46,400

for for a while and and i would have to

1595

00:58:49,190 --> 00:58:47,520

believe that

1596

00:58:51,750 --> 00:58:49,200

you know they've come across some

1597

00:58:54,549 --> 00:58:51,760

unidentified objects with that equipment

1598

00:58:55,990 --> 00:58:54,559

that they have not shared you know

1599

00:58:58,870 --> 00:58:56,000

absolutely

1600

00:59:00,710 --> 00:58:58,880

you know we've um again also along the

1601
00:59:02,870 --> 00:59:00,720
line of what john was just asking he's

1602
00:59:04,309 --> 00:59:02,880
also in the chat right now

1603
00:59:06,150 --> 00:59:04,319
and he says questions about the air

1604
00:59:08,309 --> 00:59:06,160
force's total disappearance on the topic

1605
00:59:10,630 --> 00:59:08,319
should be asked and of course

1606
00:59:13,109 --> 00:59:10,640
absolutely and of course sean wrote a

1607
00:59:15,430 --> 00:59:13,119
really great um article in the

1608
00:59:17,190 --> 00:59:15,440
liberation times a few months back

1609
00:59:18,309 --> 00:59:17,200
covering exactly that

1610
00:59:21,510 --> 00:59:18,319
um sure

1611
00:59:23,750 --> 00:59:21,520
love that article and um

1612
00:59:25,750 --> 00:59:23,760
you know you're my good buddy but

1613
00:59:27,990 --> 00:59:25,760

uh and not just because i really admire

1614

00:59:29,990 --> 00:59:28,000

chris sharp but um i think that that was

1615

00:59:31,589 --> 00:59:30,000

incredibly relevant you know it's an

1616

00:59:33,829 --> 00:59:31,599

important part of the topic that

1617

00:59:35,589 --> 00:59:33,839

actually brings me before we go to some

1618

00:59:37,750 --> 00:59:35,599

chat questions that brings me to what i

1619

00:59:38,710 --> 00:59:37,760

feel like is the most important

1620

00:59:41,270 --> 00:59:38,720

um

1621

00:59:43,190 --> 00:59:41,280

uh representation of the air force's

1622

00:59:45,430 --> 00:59:43,200

efforts to elude congressional hearings

1623

00:59:47,349 --> 00:59:45,440

in the past and why it's an even more

1624

00:59:50,630 --> 00:59:47,359

relevant question today is why is the

1625

00:59:53,109 --> 00:59:50,640

air force uh absent this is uh from porn

1626
00:59:55,190 --> 00:59:53,119
technology division uh dated 14th of

1627
00:59:57,190 --> 00:59:55,200
july 1961

1628
00:59:59,109 --> 00:59:57,200
uh general pierce

1629
01:00:01,270 --> 00:59:59,119
um this is in regards to congressional

1630
01:00:03,430 --> 01:00:01,280
hearings and you can see bullet point

1631
01:00:05,190 --> 01:00:03,440
number three here uh

1632
01:00:07,670 --> 01:00:05,200
the present efforts are directed toward

1633
01:00:09,990 --> 01:00:07,680
heading off the investigation

1634
01:00:13,109 --> 01:00:10,000
or if it is staker having it take place

1635
01:00:16,309 --> 01:00:13,119
in d.c with heinek consulting the ufo

1636
01:00:18,390 --> 01:00:16,319
program so basically what uh edward wynn

1637
01:00:19,990 --> 01:00:18,400
here is saying is deputy for science and

1638
01:00:21,670 --> 01:00:20,000

components for the united states air

1639

01:00:22,950 --> 01:00:21,680

force which is interesting to think

1640

01:00:25,109 --> 01:00:22,960

about

1641

01:00:27,109 --> 01:00:25,119

um

1642

01:00:28,950 --> 01:00:27,119

absolutely and i think that

1643

01:00:31,910 --> 01:00:28,960

and i think that that's a typo isn't it

1644

01:00:34,230 --> 01:00:31,920

robert friend rather than robert firend

1645

01:00:36,230 --> 01:00:34,240

if i'm not mistaken under heinek i think

1646

01:00:38,630 --> 01:00:36,240

that guy's name was robert friend if i'm

1647

01:00:40,630 --> 01:00:38,640

not mistaken

1648

01:00:42,549 --> 01:00:40,640

yeah yeah i always remember that just

1649

01:00:44,309 --> 01:00:42,559

because i always love the idea of major

1650

01:00:45,829 --> 01:00:44,319

friends that's so cute you know what i

1651
01:00:47,589 --> 01:00:45,839
mean major bread

1652
01:00:49,270 --> 01:00:47,599
major friend sounds like something that

1653
01:00:50,789 --> 01:00:49,280
would show up under my christmas tree

1654
01:00:53,349 --> 01:00:50,799
when i was seven you know what i mean

1655
01:00:55,430 --> 01:00:53,359
nice i got major friends

1656
01:00:57,109 --> 01:00:55,440
they probably they probably thought that

1657
01:00:59,190 --> 01:00:57,119
would help them escape congressional

1658
01:01:01,829 --> 01:00:59,200
hearings we just

1659
01:01:05,109 --> 01:01:01,839
don't you're not going to mess with

1660
01:01:07,270 --> 01:01:05,119
who is major friend are you

1661
01:01:08,630 --> 01:01:07,280
see this and see this is this is one of

1662
01:01:09,670 --> 01:01:08,640
the reasons why

1663
01:01:11,430 --> 01:01:09,680

uh

1664

01:01:13,030 --> 01:01:11,440

why our pairing in the show works in

1665

01:01:14,230 --> 01:01:13,040

general is that we can make deep cut

1666

01:01:17,750 --> 01:01:14,240

references

1667

01:01:19,109 --> 01:01:17,760

to people like major friend and uh

1668

01:01:21,990 --> 01:01:19,119

and it's not the first time that it's

1669

01:01:23,990 --> 01:01:22,000

come up in our minds um we've got some

1670

01:01:26,870 --> 01:01:24,000

we've got some great material over here

1671

01:01:29,670 --> 01:01:26,880

robert coford had a real good deep quite

1672

01:01:32,309 --> 01:01:29,680

deep cut question i saw

1673

01:01:34,069 --> 01:01:32,319

and it was about where is that do you

1674

01:01:37,030 --> 01:01:34,079

know why journal

1675

01:01:39,349 --> 01:01:37,040

general carl spots declared an emergency

1676

01:01:41,349 --> 01:01:39,359

in march of 1948.

1677

01:01:44,150 --> 01:01:41,359

yeah you know

1678

01:01:46,870 --> 01:01:44,160

yeah yeah that that is a deep one and

1679

01:01:47,990 --> 01:01:46,880

there there's a lot that went on at that

1680

01:01:50,950 --> 01:01:48,000

time

1681

01:01:52,710 --> 01:01:50,960

uh as far as and i plan on getting into

1682

01:01:55,190 --> 01:01:52,720

that with them and i've found up found

1683

01:01:57,750 --> 01:01:55,200

some a timeline of things that have

1684

01:01:59,829 --> 01:01:57,760

happened uh during that time but it all

1685

01:02:00,789 --> 01:01:59,839

also revolves around

1686

01:02:10,710 --> 01:02:00,799

um

1687

01:02:12,230 --> 01:02:10,720

through a couple more of these chat

1688

01:02:13,270 --> 01:02:12,240

questions before we get off today i know

1689

01:02:15,510 --> 01:02:13,280

you're getting yeah

1690

01:02:17,990 --> 01:02:15,520

into your time here right so yeah go

1691

01:02:20,549 --> 01:02:18,000

ahead uh if you want to pick one

1692

01:02:22,789 --> 01:02:20,559

right now i'm looking for my

1693

01:02:24,309 --> 01:02:22,799

uh thing on the website where that

1694

01:02:26,150 --> 01:02:24,319

document came from so i can share it

1695

01:02:27,510 --> 01:02:26,160

with people

1696

01:02:30,230 --> 01:02:27,520

yeah

1697

01:02:32,309 --> 01:02:30,240

oh robert's got another good here

1698

01:02:34,069 --> 01:02:32,319

was lieutenant frank gorman chasing a

1699

01:02:34,950 --> 01:02:34,079

russian craft yeah we could just you

1700

01:02:36,549 --> 01:02:34,960

know

1701

01:02:39,589 --> 01:02:36,559

they could just like go straight for the

1702

01:02:41,190 --> 01:02:39,599

weeds you know yes this goes super deep

1703

01:02:42,630 --> 01:02:41,200

now there's a

1704

01:02:44,390 --> 01:02:42,640

there's a case

1705

01:02:47,589 --> 01:02:44,400

in louisiana

1706

01:02:52,069 --> 01:02:49,910

july 12th

1707

01:02:53,430 --> 01:02:52,079

we got two witnesses red light green

1708

01:02:55,320 --> 01:02:53,440

light

1709

01:02:57,349 --> 01:02:55,330

came and went what do you know

1710

01:02:58,710 --> 01:02:57,359

[Laughter]

1711

01:02:59,670 --> 01:02:58,720

all right sir

1712

01:03:04,470 --> 01:02:59,680

all right

1713

01:03:06,230 --> 01:03:04,480

yes congressman king

1714

01:03:08,309 --> 01:03:06,240

all right we're going to do two hours on

1715

01:03:11,510 --> 01:03:08,319

the lubbock lights we're going to do all

1716

01:03:15,670 --> 01:03:13,190

mr rash is going to take over and we're

1717

01:03:18,309 --> 01:03:15,680

doing all dc 1952

1718

01:03:21,510 --> 01:03:18,319

yeah until you can explain each sighting

1719

01:03:23,510 --> 01:03:21,520

and what went wrong with each radar unit

1720

01:03:25,510 --> 01:03:23,520

i like how our congress both of our

1721

01:03:27,510 --> 01:03:25,520

congressman voices is

1722

01:03:29,270 --> 01:03:27,520

like it's like swaying towards colonel

1723

01:03:31,029 --> 01:03:29,280

sanders both of us just basically want

1724

01:03:31,829 --> 01:03:31,039

to be colonel sanders when we're doing

1725

01:03:32,870 --> 01:03:31,839

this

1726

01:03:33,829 --> 01:03:32,880

all right

1727

01:03:39,670 --> 01:03:33,839

listen

1728

01:03:43,270 --> 01:03:39,680

are these the devil or not

1729

01:03:44,789 --> 01:03:43,280

oh yeah exactly oh yeah another one that

1730

01:03:46,549 --> 01:03:44,799

i would do if i were to just like

1731

01:03:48,549 --> 01:03:46,559

completely take over for this if it

1732

01:03:50,309 --> 01:03:48,559

wasn't to be roswell maybe the battle of

1733

01:03:52,390 --> 01:03:50,319

la that's but that's just because i love

1734

01:03:54,470 --> 01:03:52,400

hearing about it i think it's fun

1735

01:03:56,309 --> 01:03:54,480

yeah well just uh we'll just send robert

1736

01:03:57,349 --> 01:03:56,319

to these things he's got another great

1737

01:03:59,910 --> 01:03:57,359

question

1738

01:04:05,589 --> 01:03:59,920

did my aunt jolene get taken by a

1739

01:04:08,230 --> 01:04:06,549

that

1740

01:04:09,510 --> 01:04:08,240

oh you're muted for yeah you got to get

1741

01:04:10,789 --> 01:04:09,520

another

1742

01:04:13,430 --> 01:04:10,799

oh man

1743

01:04:15,750 --> 01:04:13,440

yep so yeah and we could do the the

1744

01:04:17,510 --> 01:04:15,760

jelly birds we could ask jelly birds why

1745

01:04:19,670 --> 01:04:17,520

does sean turn into a humble southern

1746

01:04:21,109 --> 01:04:19,680

lawyer when he phrases questions now i

1747

01:04:23,990 --> 01:04:21,119

would suggest

1748

01:04:25,750 --> 01:04:24,000

julie that perhaps when he's adopting

1749

01:04:27,349 --> 01:04:25,760

the phraseology of a congressman he's

1750

01:04:29,829 --> 01:04:27,359

not so humble

1751

01:04:32,230 --> 01:04:29,839

within within there that could be the

1752

01:04:35,029 --> 01:04:32,240

way to get sean to not be humble is to

1753

01:04:37,589 --> 01:04:35,039

now sir i'm i'm not trying to riley up

1754

01:04:39,910 --> 01:04:37,599

here sir all right but

1755

01:04:41,589 --> 01:04:39,920

it's time we get down to the brass text

1756

01:04:43,670 --> 01:04:41,599

for the american people

1757

01:04:45,109 --> 01:04:43,680

yeah that's right

1758

01:04:46,630 --> 01:04:45,119

let's talk about transparency and then

1759

01:04:47,430 --> 01:04:46,640

you then you bang on your hand on the

1760

01:04:49,109 --> 01:04:47,440

table

1761

01:04:50,789 --> 01:04:49,119

well i'm just i'm just so happy to see

1762

01:04:52,390 --> 01:04:50,799

so many wonderful people in the chat i

1763

01:04:55,270 --> 01:04:52,400

think that that's yeah me too one of the

1764

01:04:56,710 --> 01:04:55,280

most important things to see here um i

1765

01:04:58,950 --> 01:04:56,720

am so happy that we've been having this

1766

01:05:01,349 --> 01:04:58,960

conversation today i think it's great um

1767

01:05:03,270 --> 01:05:01,359

it's wonderful to see people joining in

1768

01:05:04,710 --> 01:05:03,280

and um i really

1769

01:05:06,950 --> 01:05:04,720

i really appreciate

1770

01:05:09,190 --> 01:05:06,960

that oh hey one thing to talk about is

1771

01:05:10,390 --> 01:05:09,200

that uh it turns out um

1772

01:05:11,750 --> 01:05:10,400

folks don't know this we didn't really

1773

01:05:13,430 --> 01:05:11,760

announce this do you want to talk about

1774

01:05:15,750 --> 01:05:13,440

this this um how are we going to live

1775

01:05:17,589 --> 01:05:15,760

stream the congressional agency oh right

1776

01:05:18,950 --> 01:05:17,599

right right on next tuesday

1777

01:05:23,829 --> 01:05:18,960

i am

1778

01:05:26,470 --> 01:05:23,839

congressional hearings on tuesday

1779

01:05:27,510 --> 01:05:26,480

at 9 00 a.m central standard time uh

1780

01:05:29,349 --> 01:05:27,520

we're going to have vinnie from

1781

01:05:31,349 --> 01:05:29,359

disclosure team

1782

01:05:32,950 --> 01:05:31,359

uh we're going to have signal that ufo

1783

01:05:35,589 --> 01:05:32,960

podcast i think we're going to have

1784

01:05:37,510 --> 01:05:35,599

quantum witch priscilla yourself

1785

01:05:40,150 --> 01:05:37,520

maybe graeme rendell

1786

01:05:41,430 --> 01:05:40,160

it's going to be a party right we're not

1787

01:05:45,430 --> 01:05:41,440

going to talk

1788

01:05:48,069 --> 01:05:45,440

over the hearings if we do it has to be

1789

01:05:49,829 --> 01:05:48,079

just carefully crafted and

1790

01:05:53,510 --> 01:05:49,839

as funny as mystery science theater

1791

01:05:56,069 --> 01:05:53,520

3000. if not you get kicked out

1792

01:05:57,750 --> 01:05:56,079

so absolutely and we'll definitely

1793

01:05:59,910 --> 01:05:57,760

well it'll definitely we'll we'll

1794

01:06:01,829 --> 01:05:59,920

definitely have some room to be over in

1795

01:06:03,510 --> 01:06:01,839

the chat where we can comment and we'll

1796

01:06:04,710 --> 01:06:03,520

also definitely be doing some i'm sure

1797

01:06:07,829 --> 01:06:04,720

that we'll definitely be doing some

1798

01:06:09,829 --> 01:06:07,839

follow-up conversation as as we watch

1799

01:06:11,589 --> 01:06:09,839

you know and i think that'll be really

1800

01:06:13,029 --> 01:06:11,599

important so we'll be sitting here with

1801

01:06:14,950 --> 01:06:13,039

our notepads and we'll be having a great

1802

01:06:16,470 --> 01:06:14,960

time with that that's on tuesday and

1803

01:06:18,309 --> 01:06:16,480

also i'm going to be joining you on

1804

01:06:20,789 --> 01:06:18,319

friday um we're going to be talking to

1805

01:06:23,510 --> 01:06:20,799

katie howland um correct

1806

01:06:25,349 --> 01:06:23,520

a great new friend recent friends

1807

01:06:27,750 --> 01:06:25,359

yeah she she's become

1808

01:06:29,510 --> 01:06:27,760

somewhat of a warrior on ufo twitter

1809

01:06:30,470 --> 01:06:29,520

really um

1810

01:06:34,230 --> 01:06:30,480

she's

1811

01:06:35,750 --> 01:06:34,240

bringing a great attitude positive

1812

01:06:37,990 --> 01:06:35,760

attitude and she's had some of her own

1813

01:06:39,910 --> 01:06:38,000

uh paranormal experiences so we're gonna

1814

01:06:40,789 --> 01:06:39,920

touch on that a little bit and also just

1815

01:06:43,349 --> 01:06:40,799

um

1816

01:06:46,069 --> 01:06:43,359

you know talk about uh what motivates

1817

01:06:49,510 --> 01:06:46,079

her and what brought her to ufo twitter

1818

01:06:51,910 --> 01:06:49,520

to to you know speak about this topic so

1819

01:06:54,390 --> 01:06:51,920

yeah also a lot so she's spent much of

1820

01:06:56,950 --> 01:06:54,400

her career in dc so

1821

01:06:58,309 --> 01:06:56,960

yeah and she's and she's she's worked in

1822

01:07:00,470 --> 01:06:58,319

politics so it'll be it would be

1823

01:07:02,549 --> 01:07:00,480

interesting to hear her take on

1824

01:07:05,630 --> 01:07:02,559

on is she is

1825

01:07:07,910 --> 01:07:05,640

like an immediate immune epidemiologist

1826

01:07:09,589 --> 01:07:07,920

epidemiologist yeah so i think she's got

1827

01:07:13,270 --> 01:07:09,599

a master's in public health if i'm not

1828

01:07:15,109 --> 01:07:13,280

mistaken so yeah so so again i'll be

1829

01:07:16,230 --> 01:07:15,119

surrounded by people that are smarter

1830

01:07:18,470 --> 01:07:16,240

than me

1831

01:07:18,700 --> 01:07:18,480

so and so will i

1832

01:07:20,789 --> 01:07:18,710

so

1833

01:07:23,510 --> 01:07:20,799

[Laughter]

1834

01:07:25,670 --> 01:07:23,520

so it'll be super fun oh don't you now

1835

01:07:27,430 --> 01:07:25,680

don't you go bs and me son

1836

01:07:28,950 --> 01:07:27,440

all right

1837

01:07:30,950 --> 01:07:28,960

i'm gonna work on that accent before

1838

01:07:33,109 --> 01:07:30,960

next tuesday i've got some

1839

01:07:35,029 --> 01:07:33,119

there's definitely room for growth i've

1840

01:07:38,150 --> 01:07:35,039

got it i've got it from watching all

1841

01:07:40,390 --> 01:07:38,160

these uh murder shows with my wife like

1842

01:07:42,870 --> 01:07:40,400

she just loves the murder shows can't

1843

01:07:45,109 --> 01:07:42,880

sleep unless there's a forensic files on

1844

01:07:46,150 --> 01:07:45,119

and i feel like every witness is

1845

01:07:48,230 --> 01:07:46,160

southern

1846

01:07:51,270 --> 01:07:48,240

and says i don't know i turned around

1847

01:07:54,390 --> 01:07:52,470

yeah

1848

01:07:56,630 --> 01:07:54,400

our good friend kirsten blackburn is the

1849

01:07:58,549 --> 01:07:56,640

same way she's she can't she it doesn't

1850

01:08:00,710 --> 01:07:58,559

seem like she can take a nap without

1851
01:08:02,710 --> 01:08:00,720
either either listening to a podcast

1852
01:08:05,190 --> 01:08:02,720
about some serial murder event or like a

1853
01:08:06,309 --> 01:08:05,200
cult and so yeah

1854
01:08:09,190 --> 01:08:06,319
very similar

1855
01:08:11,109 --> 01:08:09,200

1864

01:08:31,430 --> 01:08:29,359

now and in the future i i really

1865

01:08:32,630 --> 01:08:31,440

appreciate doing this with you sean

1866

01:08:35,430 --> 01:08:32,640

thank you sean

1867

01:08:36,789 --> 01:08:35,440

this is uh i always look forward to it

1868

01:08:38,630 --> 01:08:36,799

me as well

1869

01:08:39,590 --> 01:08:38,640

and you know i just realized i realized

1870

01:08:41,349 --> 01:08:39,600

the other day in that best of

1871

01:08:43,189 --> 01:08:41,359

conversation that best of clip show that

1872

01:08:44,550 --> 01:08:43,199

you did i was like oh my gosh it's six

1873

01:08:46,789 --> 01:08:44,560

months now that that we've been doing

1874

01:08:49,349 --> 01:08:46,799

this together and i just think it's it's

1875

01:08:50,789 --> 01:08:49,359

amazing man yeah we just yeah and it

1876

01:08:52,390 --> 01:08:50,799

gets more fun by the week it was

1877

01:08:54,149 --> 01:08:52,400

interesting seeing that that's the clip

1878

01:08:56,870 --> 01:08:54,159

where we first actually met

1879

01:08:59,189 --> 01:08:56,880

with ufo john oh with you

1880

01:09:01,669 --> 01:08:59,199

yeah yeah that was the very day that was

1881

01:09:03,910 --> 01:09:01,679

like three hours after ralph's article

1882

01:09:08,070 --> 01:09:03,920

came out that kind of featured that

1883

01:09:12,390 --> 01:09:09,990

it's amazing yeah seems like so much

1884

01:09:14,470 --> 01:09:12,400

more time is best than that but

1885

01:09:16,309 --> 01:09:14,480

it yeah like i just feel like i know you

1886

01:09:17,510 --> 01:09:16,319

were like uh

1887

01:09:20,309 --> 01:09:17,520

really well in

1888

01:09:22,550 --> 01:09:20,319

a good way like like a bro and it might

1889

01:09:24,470 --> 01:09:22,560

not be that way if it was in person

1890

01:09:26,309 --> 01:09:24,480

right because you hang out maybe once a

1891

01:09:27,829 --> 01:09:26,319

month or something

1892

01:09:29,110 --> 01:09:27,839

yeah yeah i mean the interesting thing

1893

01:09:30,870 --> 01:09:29,120

to think about

1894

01:09:32,309 --> 01:09:30,880

it's like band practice you know it's

1895

01:09:34,070 --> 01:09:32,319

like that's why you got to be in a band

1896

01:09:35,669 --> 01:09:34,080

with people that you like because it's

1897

01:09:37,269 --> 01:09:35,679

it just makes it a great excuse to get

1898

01:09:38,630 --> 01:09:37,279

together and then

1899

01:09:40,789 --> 01:09:38,640

and then the work just kind of like

1900

01:09:43,110 --> 01:09:40,799

falls right into play right you make the

1901

01:09:43,990 --> 01:09:43,120

magic yep absolutely we're making the

1902

01:09:45,910 --> 01:09:44,000

magic

1903

01:09:46,789 --> 01:09:45,920

so thank you sir thanks everybody in the

1904

01:09:48,709 --> 01:09:46,799

chat

1905

01:09:50,630 --> 01:09:48,719

i appreciate it we'll see you soon stay

1906

01:09:51,430 --> 01:09:50,640

1907

01:09:53,590 --> 01:09:51,440

1908

01:09:55,669 --> 01:09:53,600
