00:00:03,030 --> 00:01:00,189  
[Music]

2  
00:01:06,830 --> 00:01:02,170  
thank you

3  
00:01:09,950 --> 00:01:08,280  
hope you're doing good

4  
00:01:14,710 --> 00:01:09,960  
[Music]

5  
00:01:20,210 --> 00:01:14,720  
we got a Tuesday on our hands a Tuesday

6  
00:01:23,270 --> 00:01:20,220  
August 2nd at exactly 3 33 p.m Central

7  
00:01:25,429 --> 00:01:23,280  
Time 3 33 p.m Central Time depending on

8  
00:01:27,050 --> 00:01:25,439  
where you are it could be 4 444 it could

9  
00:01:29,390 --> 00:01:27,060  
be 222.

10  
00:01:31,569 --> 00:01:29,400  
or 111.

11  
00:01:36,230 --> 00:01:31,579  
could be any of those

12  
00:01:39,109 --> 00:01:36,240  
so you know just saying hope everybody's

13  
00:01:41,030 --> 00:01:39,119

doing good we had uh some uh something

14

00:01:45,710 --> 00:01:41,040

pretty interesting today that we'll get

15

00:01:48,350 --> 00:01:45,720

into it is uh Mr Dr Gary Nolan uh was on

16

00:01:51,350 --> 00:01:48,360

Tucker Carlson today he's got like a

17

00:01:53,389 --> 00:01:51,360

little special on Fox News Nation where

18

00:01:56,030 --> 00:01:53,399

he uh talks a little bit about UFOs

19

00:01:57,410 --> 00:01:56,040

which is pretty interesting uh so we'll

20

00:02:00,109 --> 00:01:57,420

talk about that a little bit because

21

00:02:03,350 --> 00:02:00,119

some interesting stuff came up there

22

00:02:07,490 --> 00:02:05,810

um and I wanted to talk about some of

23

00:02:09,169 --> 00:02:07,500

the

24

00:02:11,809 --> 00:02:09,179

you know stuff coming out of Congress

25

00:02:14,990 --> 00:02:11,819

that I think is really interesting

26

00:02:18,229 --> 00:02:15,000

uh so we're gonna get into that and I

27

00:02:21,650 --> 00:02:18,239

have some documents that we can get into

28

00:02:24,650 --> 00:02:21,660

um in regards to materials UFO materials

29

00:02:26,570 --> 00:02:24,660

um looking into the past at Air Force

30

00:02:30,170 --> 00:02:26,580

documents

31

00:02:33,050 --> 00:02:30,180

um we can get a little bit on

32

00:02:34,910 --> 00:02:33,060

well we can at least imagine or start to

33

00:02:37,550 --> 00:02:34,920

think about uh where some of these

34

00:02:40,490 --> 00:02:37,560

materials may be if we go based off of

35

00:02:42,949 --> 00:02:40,500

those documents no of course if there's

36

00:02:45,830 --> 00:02:42,959

some black projects or some sneaky under

37

00:02:48,830 --> 00:02:45,840

the table stuff I may not be able to

38

00:02:51,050 --> 00:02:48,840

find that you know but nonetheless

39

00:02:53,930 --> 00:02:51,060

there's some very interesting things in

40

00:02:55,910 --> 00:02:53,940

those documents that we can look at that

41

00:02:57,350 --> 00:02:55,920

are very interesting so we can look at

42

00:02:59,570 --> 00:02:57,360

that we're going to listen to some

43

00:03:02,030 --> 00:02:59,580

witness testimony we're gonna go back to

44

00:03:04,550 --> 00:03:02,040

the old days the way it was where we

45

00:03:06,770 --> 00:03:04,560

listened to some witness testimony and

46

00:03:08,270 --> 00:03:06,780

then we're also going to have

47

00:03:10,790 --> 00:03:08,280

um the

48

00:03:13,430 --> 00:03:10,800

a segment that we do called what the

49

00:03:16,610 --> 00:03:13,440

heck is that where we look at some

50

00:03:20,270 --> 00:03:16,620

supposed UFO videos and ask ourselves

51

00:03:22,190 --> 00:03:20,280

what the heck is that

52

00:03:24,589 --> 00:03:22,200

which may or may not be something I

53

00:03:26,750 --> 00:03:24,599

never stand by them you know I want to

54

00:03:28,970 --> 00:03:26,760

show them it doesn't mean I believe with

55

00:03:33,050 --> 00:03:28,980

my whole heart that these are from outer

56

00:03:34,610 --> 00:03:33,060

space or interdimensional it just means

57

00:03:38,750 --> 00:03:34,620

that somebody

58

00:03:41,449 --> 00:03:38,760

thanks sir UFOs and and posted them on

59

00:03:42,470 --> 00:03:41,459

the interwebs for us to look at and ask

60

00:03:44,270 --> 00:03:42,480

ourselves

61

00:03:47,809 --> 00:03:44,280

what the heck is that let me take a

62

00:03:49,789 --> 00:03:47,819

second to say what's up um to everybody

63

00:03:51,410 --> 00:03:49,799

in the chat thanks for being here Megan

64

00:04:43,129 --> 00:03:51,420

t

65

00:04:45,830 --> 00:04:43,139

really really good and

66

00:04:47,990 --> 00:04:45,840

um it's it's worth it's definitely worth

67

00:04:49,430 --> 00:04:48,000

listening to and a couple interesting

68

00:04:52,550 --> 00:04:49,440

things came up in that that we'll talk

69

00:04:56,629 --> 00:04:52,560

about uh Laura Sosa what's up

70

00:04:59,030 --> 00:04:56,639

Joe says it was 2233 over there Army

71

00:05:02,450 --> 00:04:59,040

time over there

72

00:05:04,969 --> 00:05:02,460

um we got Josh what's up I love doing

73

00:05:06,890 --> 00:05:04,979

this time it seems like I'm getting some

74

00:05:08,689 --> 00:05:06,900

different people in the house for this

75

00:05:11,510 --> 00:05:08,699

show that's awesome spread it out some

76  
00:05:13,909 --> 00:05:11,520  
different people can come hang out live

77  
00:05:18,350 --> 00:05:13,919  
what's up

78  
00:05:23,090 --> 00:05:20,330  
um

79  
00:05:26,029 --> 00:05:23,100  
Dave Mills what's up

80  
00:05:27,770 --> 00:05:26,039  
everybody appreciate you hanging up

81  
00:05:29,629 --> 00:05:27,780  
feel free to comment if you have any

82  
00:05:32,689 --> 00:05:29,639  
questions for me which I don't expect

83  
00:05:34,370 --> 00:05:32,699  
you to you know let me know you can put

84  
00:05:36,710 --> 00:05:34,380  
them in all caps

85  
00:05:39,710 --> 00:05:36,720  
maybe I'll see it maybe I can answer it

86  
00:05:41,870 --> 00:05:39,720  
for you I got nothing better to do

87  
00:05:43,550 --> 00:05:41,880  
paranormal pixie Lara what's up thanks

88  
00:05:45,290 --> 00:05:43,560

for coming I really appreciate you I

89

00:05:47,870 --> 00:05:45,300

appreciate you coming here

90

00:05:50,570 --> 00:05:47,880

Tommy Carter says timberchetta Project

91

00:05:52,969 --> 00:05:50,580

Unity today thanks for the tip time

92

00:05:54,650 --> 00:05:52,979

anything good come out of that Tom or is

93

00:05:55,309 --> 00:05:54,660

it kind of

94

00:05:57,529 --> 00:05:55,319

um

95

00:05:59,629 --> 00:05:57,539

talk about ezekiel's wheel again or

96

00:06:01,309 --> 00:05:59,639

what's going on there let me know

97

00:06:03,230 --> 00:06:01,319

it'd be interesting

98

00:06:07,510 --> 00:06:03,240

so

99

00:06:12,350 --> 00:06:07,520

the first thing that I thought we could

100

00:06:14,270 --> 00:06:12,360

uh get into here was the article

101  
00:06:15,950 --> 00:06:14,280  
um from a good friend of the show

102  
00:06:18,350 --> 00:06:15,960  
Christopher Sharp

103  
00:06:20,510 --> 00:06:18,360  
Liberation times

104  
00:06:22,850 --> 00:06:20,520  
and we got Jay King making comments

105  
00:06:24,950 --> 00:06:22,860  
about my hair

106  
00:06:28,430 --> 00:06:24,960  
that I actually have here I'm growing it

107  
00:06:33,590 --> 00:06:31,490  
um see how long we can get it right

108  
00:06:35,510 --> 00:06:33,600  
and so yeah this piece by Christopher

109  
00:06:37,610 --> 00:06:35,520  
sharp on Liberation times is fantastic

110  
00:06:39,590 --> 00:06:37,620  
he is always on top of it Mr Christopher

111  
00:06:40,909 --> 00:06:39,600  
sharp by the way

112  
00:06:42,469 --> 00:06:40,919  
um

113  
00:06:44,689 --> 00:06:42,479

by the way Christopher sharp was not

114

00:06:46,309 --> 00:06:44,699

Coast to Coast with uh George Knapp this

115

00:06:48,529 --> 00:06:46,319

past Sunday night

116

00:06:50,629 --> 00:06:48,539

and you should definitely listen to it

117

00:06:51,770 --> 00:06:50,639

it's funny with Coast to Coast because

118

00:06:53,870 --> 00:06:51,780

um

119

00:06:59,450 --> 00:06:53,880

you know

120

00:07:01,010 --> 00:06:59,460

says good guess right but it the only

121

00:07:03,170 --> 00:07:01,020

way I can listen to it is by signing up

122

00:07:04,909 --> 00:07:03,180

on their website really and paying six

123

00:07:07,249 --> 00:07:04,919

dollars a month to be able to listen to

124

00:07:09,050 --> 00:07:07,259

the shows and that's you know with all

125

00:07:11,570 --> 00:07:09,060

these different things that I have to

126  
00:07:14,270 --> 00:07:11,580  
pay for you know monthly whatever it be

127  
00:07:17,570 --> 00:07:14,280  
I wind up canceling it after I listen to

128  
00:07:19,430 --> 00:07:17,580  
the one I want to listen to and then

129  
00:07:21,650 --> 00:07:19,440  
something else comes up like my boy

130  
00:07:24,230 --> 00:07:21,660  
Christopher sharp being on there and I

131  
00:07:25,490 --> 00:07:24,240  
have to re-up my subscription so I can

132  
00:07:29,629 --> 00:07:25,500  
listen to that so if you're listening to

133  
00:07:33,650 --> 00:07:29,639  
George Mr Sharp I paid 6.99 basically

134  
00:07:35,570 --> 00:07:33,660  
just to listen to an hour of that so but

135  
00:07:37,909 --> 00:07:35,580  
it was worth it it was worth it it's

136  
00:07:39,529 --> 00:07:37,919  
pretty good and I'll do my best to get

137  
00:07:40,969 --> 00:07:39,539  
my fill on other uh Coast to Coast

138  
00:07:42,830 --> 00:07:40,979

interview as well while I have that

139

00:07:43,790 --> 00:07:42,840

subscription so back to it Liberation

140

00:07:46,550 --> 00:07:43,800

times

141

00:07:48,770 --> 00:07:46,560

a fantastic piece here we have the

142

00:07:51,189 --> 00:07:48,780

Senate's in intelligence committee

143

00:07:53,629 --> 00:07:51,199

criticizes pentagon is UFOs

144

00:07:56,510 --> 00:07:53,639

exponentially increased whilst making

145

00:07:59,150 --> 00:07:56,520

clear that new office will not

146

00:08:02,270 --> 00:07:59,160

investigate man-made objects I mean the

147

00:08:04,490 --> 00:08:02,280

whole gist of the article is pretty much

148

00:08:06,529 --> 00:08:04,500

I mean there's more to it obviously but

149

00:08:08,930 --> 00:08:06,539

the the main points here in the title

150

00:08:11,809 --> 00:08:08,940

this is well done

151

00:08:14,930 --> 00:08:11,819

uh for sure so check that out I put the

152

00:08:17,930 --> 00:08:14,940

link in the description of this video so

153

00:08:19,730 --> 00:08:17,940

we can take a look now let's look at the

154

00:08:22,189 --> 00:08:19,740

the direct quote here

155

00:08:24,710 --> 00:08:22,199

uh we have

156

00:08:26,689 --> 00:08:24,720

we're going to look at

157

00:08:29,930 --> 00:08:26,699

um the direct quotation

158

00:08:34,610 --> 00:08:32,690

just to give you a little bit of context

159

00:08:36,889 --> 00:08:34,620

here we'll start at at the top to send

160

00:08:39,829 --> 00:08:36,899

it select committee on intelligence has

161

00:08:41,750 --> 00:08:39,839

released its explanatory report for its

162

00:08:44,570 --> 00:08:41,760

intelligence authorization Act

163

00:08:46,910 --> 00:08:44,580

2023 language which has provided context

164

00:08:52,630 --> 00:08:46,920

for congress's a more significant push

165

00:08:54,710 --> 00:08:52,640

for transparency regarding uh you a u p

166

00:08:56,630 --> 00:08:54,720

you know it's kind of interesting right

167

00:08:59,269 --> 00:08:56,640

I think we might have to change that

168

00:09:01,370 --> 00:08:59,279

from UAP to uaup

169

00:09:04,070 --> 00:09:01,380

and by the way that might be pretty good

170

00:09:07,009 --> 00:09:04,080

because a certain somebody

171

00:09:11,269 --> 00:09:07,019

um put a patent on UAP for clothing so

172

00:09:14,630 --> 00:09:12,769

they would kind of be screwed up but

173

00:09:16,970 --> 00:09:14,640

somebody else should patent that first

174

00:09:19,130 --> 00:09:16,980

and make sure anyone wants to use it for

175

00:09:20,990 --> 00:09:19,140

clothing can do it for free and that

176

00:09:22,670 --> 00:09:21,000

would be just fantastic

177

00:09:24,889 --> 00:09:22,680

but

178

00:09:26,630 --> 00:09:24,899

if you don't know that story I'm not

179

00:09:28,490 --> 00:09:26,640

going to get further into it and I

180

00:09:31,430 --> 00:09:28,500

apologize

181

00:09:34,610 --> 00:09:31,440

so basically uh this first quote here is

182

00:09:36,170 --> 00:09:34,620

directly from that explanatory report we

183

00:09:37,670 --> 00:09:36,180

have at a time when cross domain

184

00:09:39,170 --> 00:09:37,680

transmedium threats to United States

185

00:09:40,970 --> 00:09:39,180

national security are expanding

186

00:09:42,710 --> 00:09:40,980

exponentially

187

00:09:45,110 --> 00:09:42,720

the committee is disappointed with the

188

00:09:46,850 --> 00:09:45,120

slow pace of DOD LED efforts to

189

00:09:49,490 --> 00:09:46,860

establish the office to address those

190

00:09:52,850 --> 00:09:49,500

threats and to replace the former UAP

191

00:09:55,790 --> 00:09:52,860

task force as required in section 1683

192

00:09:59,090 --> 00:09:55,800

of the National Defense authorization

193

00:10:00,650 --> 00:09:59,100

act or fiscal year 2822.

194

00:10:03,410 --> 00:10:00,660

so

195

00:10:05,150 --> 00:10:03,420

what's our big takeaway first of all the

196

00:10:05,990 --> 00:10:05,160

transmedium thread thing is not going

197

00:10:08,990 --> 00:10:06,000

away

198

00:10:10,790 --> 00:10:09,000

you know we had aim suck

199

00:10:13,370 --> 00:10:10,800

um just focusing on Airborne stuff

200

00:10:16,250 --> 00:10:13,380

Congress is like no not gonna do that

201

00:10:19,430 --> 00:10:16,260

you gotta throw in the Aerospace and

202

00:10:21,050 --> 00:10:19,440

undersea phenomenon which is you know

203

00:10:22,850 --> 00:10:21,060

it's it's pretty good you don't get much

204

00:10:25,130 --> 00:10:22,860

on that from looking at Blue Book

205

00:10:28,190 --> 00:10:25,140

documents but I've heard enough stories

206

00:10:29,329 --> 00:10:28,200

and and uh you know enough

207

00:10:31,130 --> 00:10:29,339

um

208

00:10:32,230 --> 00:10:31,140

you know people talking about that I

209

00:10:35,630 --> 00:10:32,240

guess to

210

00:10:38,569 --> 00:10:35,640

where it's words of concern I've done my

211

00:10:41,870 --> 00:10:38,579

my own little research on uh man-made

212

00:10:44,569 --> 00:10:41,880

American trans medium stuff and and I

213

00:10:47,509 --> 00:10:44,579

can't find anything so

214

00:10:48,769 --> 00:10:47,519

um just throwing that out there but I

215

00:10:50,210 --> 00:10:48,779

think it's pretty great that they're

216

00:10:53,990 --> 00:10:50,220

being tough about it but the main thing

217

00:10:56,030 --> 00:10:54,000

here is uh expanding exponentially

218

00:10:59,150 --> 00:10:56,040

cross domain trans medium threats the

219

00:11:01,310 --> 00:10:59,160

United States national security are

220

00:11:03,430 --> 00:11:01,320

expanding exponentially so a couple

221

00:11:06,050 --> 00:11:03,440

times a couple things here first of all

222

00:11:08,509 --> 00:11:06,060

expanding exponentially

223

00:11:11,030 --> 00:11:08,519

right

224

00:11:12,710 --> 00:11:11,040

so what does that mean

225

00:11:15,290 --> 00:11:12,720

to me

226

00:11:17,810 --> 00:11:15,300

it means there's an issue technology is

227

00:11:21,769 --> 00:11:17,820

getting pretty big

228

00:11:24,530 --> 00:11:21,779

um whether they're uaps China or Russia

229

00:11:26,930 --> 00:11:24,540

I kind of take it as uh you know they're

230

00:11:28,670 --> 00:11:26,940

all expanding exponentially and it needs

231

00:11:30,889 --> 00:11:28,680

to be taken care of and looked at the

232

00:11:33,410 --> 00:11:30,899

one thing playing against it being a

233

00:11:34,730 --> 00:11:33,420

foreign adversary in this group and

234

00:11:37,670 --> 00:11:34,740

concerned about it being a foreign

235

00:11:39,410 --> 00:11:37,680

adversary is later in this explanatory

236

00:11:41,930 --> 00:11:39,420

report they don't say they're not

237

00:11:45,829 --> 00:11:41,940

interested in anything that is known to

238

00:11:51,710 --> 00:11:48,710

the other thing threats

239

00:11:54,590 --> 00:11:51,720

trans medium threats they're not saying

240

00:11:58,190 --> 00:11:54,600

possible transmitting threats or

241

00:12:01,370 --> 00:11:58,200

could be maybe sorta kinda they're

242

00:12:03,949 --> 00:12:01,380

saying transmedium threats

243

00:12:05,870 --> 00:12:03,959

to the United States national security

244

00:12:09,350 --> 00:12:05,880

does that mean they're

245

00:12:11,509 --> 00:12:09,360

hunkering down a little bit more on the

246

00:12:13,009 --> 00:12:11,519

threat aspect

247

00:12:14,990 --> 00:12:13,019

well

248

00:12:17,269 --> 00:12:15,000

possibly if they're expanding

249

00:12:21,530 --> 00:12:17,279

exponentially and it's a threat seems

250

00:12:26,389 --> 00:12:23,509

if the current bill is enacted then

251  
00:12:27,650 --> 00:12:26,399  
Arrow which uh now also possesses its

252  
00:12:30,050 --> 00:12:27,660  
own Twitter account

253  
00:12:31,250 --> 00:12:30,060  
by the way first thing we got to do get

254  
00:12:32,810 --> 00:12:31,260  
a Twitter account

255  
00:12:34,430 --> 00:12:32,820  
Pam

256  
00:12:36,350 --> 00:12:34,440  
right

257  
00:12:38,750 --> 00:12:36,360  
you look at the Congressional hearings

258  
00:12:40,250 --> 00:12:38,760  
with Ray and Moultrie up there you

259  
00:12:42,110 --> 00:12:40,260  
pretty much you're like what are you

260  
00:12:44,210 --> 00:12:42,120  
guys even doing

261  
00:12:46,250 --> 00:12:44,220  
doesn't really seem like much you can't

262  
00:12:51,170 --> 00:12:46,260  
say that anymore folks because they have

263  
00:12:55,610 --> 00:12:53,569

oh God

264

00:12:57,829 --> 00:12:55,620

you know well let's give them time maybe

265

00:13:00,350 --> 00:12:57,839

they'll do something right government

266

00:13:02,269 --> 00:13:00,360

has done absolutely anything for the

267

00:13:07,069 --> 00:13:02,279

public in UFOs

268

00:13:09,769 --> 00:13:07,079

75 years but maybe now it'll change

269

00:13:14,030 --> 00:13:09,779

a sign of things to come or they made a

270

00:13:20,930 --> 00:13:15,889

the bill would also create a core group

271

00:13:25,490 --> 00:13:20,940

of consisting reps from CIA NSA Doe

272

00:13:28,910 --> 00:13:25,500

uh nro Air Force Space Force DIA

273

00:13:30,470 --> 00:13:28,920

National geospatial Intelligence Agency

274

00:13:32,210 --> 00:13:30,480

so that's pretty good

275

00:13:33,769 --> 00:13:32,220

that's pretty good

276

00:13:35,509 --> 00:13:33,779

um getting a representative from each

277

00:13:36,769 --> 00:13:35,519

one of these places means that each one

278

00:13:38,449 --> 00:13:36,779

of these departments is going to have to

279

00:13:40,129 --> 00:13:38,459

be involved which means they're all

280

00:13:43,250 --> 00:13:40,139

going to have to communicate which is

281

00:13:45,829 --> 00:13:43,260

you know seemingly fantastic

282

00:13:47,629 --> 00:13:45,839

now we

283

00:13:49,730 --> 00:13:47,639

you know there's a lot and then I would

284

00:13:51,590 --> 00:13:49,740

have to say just as far as you know we

285

00:13:53,990 --> 00:13:51,600

keep kind of ignoring the elephant in

286

00:13:55,970 --> 00:13:54,000

the room which is I think that all these

287

00:13:58,370 --> 00:13:55,980

people kind of already know what's going

288

00:14:03,949 --> 00:14:00,230

um but you know whatever

289

00:14:06,290 --> 00:14:03,959

so I guess it's good that uh this looks

290

00:14:08,090 --> 00:14:06,300

good it looks good you know Congress

291

00:14:09,470 --> 00:14:08,100

might not know that other people and

292

00:14:11,449 --> 00:14:09,480

these people know what's going on

293

00:14:13,670 --> 00:14:11,459

already but you know if you were to set

294

00:14:15,710 --> 00:14:13,680

something up to Annex them

295

00:14:17,090 --> 00:14:15,720

you know great legislation to make sure

296

00:14:21,650 --> 00:14:17,100

that you get the information they're

297

00:14:26,210 --> 00:14:24,769

elimination of cap on compensation

298

00:14:28,490 --> 00:14:26,220

damages

299

00:14:30,710 --> 00:14:28,500

for retaliatory revocation of security

300

00:14:33,710 --> 00:14:30,720

clinches and access determination so

301

00:14:35,210 --> 00:14:33,720

basically if somebody's security

302

00:14:37,370 --> 00:14:35,220

clearance

303

00:14:39,350 --> 00:14:37,380

it's taken away maybe for being a

304

00:14:42,410 --> 00:14:39,360

whistleblower or something like that uh

305

00:14:45,949 --> 00:14:42,420

you know they can sue them and

306

00:14:49,610 --> 00:14:45,959

apparently for and there's no you know

307

00:14:52,129 --> 00:14:49,620

cap on that so for instance

308

00:14:53,689 --> 00:14:52,139

if a Mr Gary Reed

309

00:14:55,910 --> 00:14:53,699

wanted to

310

00:14:59,930 --> 00:14:55,920

take away or I don't know if he could or

311

00:15:03,110 --> 00:14:59,940

not but take away uh Lou elizondo's

312

00:15:04,790 --> 00:15:03,120

um security clearance

313

00:15:06,590 --> 00:15:04,800

that's a big deal to him because his

314

00:15:10,189 --> 00:15:06,600

work his Consulting work for the space

315

00:15:12,829 --> 00:15:10,199

force even he's going to need that

316

00:15:14,509 --> 00:15:12,839

so they're saying no be careful because

317

00:15:16,129 --> 00:15:14,519

he can sue the crap out of here if you

318

00:15:18,590 --> 00:15:16,139

do

319

00:15:22,850 --> 00:15:18,600

and I'm sure that may have happened to

320

00:15:33,230 --> 00:15:24,530

so

321

00:15:38,569 --> 00:15:36,410

and here we go here the formal DOD uh

322

00:15:40,189 --> 00:15:38,579

and IC definition of the terms used by

323

00:15:42,590 --> 00:15:40,199

the office shall be updated to include

324

00:15:44,509 --> 00:15:42,600

space and undersea

325

00:15:46,509 --> 00:15:44,519

you know they're like

326

00:15:49,430 --> 00:15:46,519

hey

327

00:15:51,710 --> 00:15:49,440

aimsog not gonna happen

328

00:15:53,090 --> 00:15:51,720

gotta include space and undersea and the

329

00:15:55,009 --> 00:15:53,100

scope of the office shall be inclusive

330

00:15:58,550 --> 00:15:55,019

of those additional domains with focus

331

00:16:01,910 --> 00:15:58,560

on addressing Tech surprise and unknown

332

00:16:05,150 --> 00:16:03,050

what does that mean temporary

333

00:16:07,189 --> 00:16:05,160

non-attributed objects or those that are

334

00:16:08,749 --> 00:16:07,199

positively identified as man-made after

335

00:16:10,550 --> 00:16:08,759

analysis will be passed to the

336

00:16:12,470 --> 00:16:10,560

appropriate offices and should not be

337

00:16:14,449 --> 00:16:12,480

considered under the definition as

338

00:16:16,249 --> 00:16:14,459

unidentified Aerospace undersea

339

00:16:19,550 --> 00:16:16,259

phenomenon so they're saying

340

00:16:24,069 --> 00:16:19,560

for instance the 2019 incident

341

00:16:26,689 --> 00:16:24,079

where you got all these pyramids or UFOs

342

00:16:30,230 --> 00:16:26,699

swarming Navy ships off the West Coast

343

00:16:34,249 --> 00:16:30,240

2019 that Corbell has worked hard on

344

00:16:35,810 --> 00:16:34,259

if those were found to be drones those

345

00:16:37,610 --> 00:16:35,820

wouldn't be included

346

00:16:39,829 --> 00:16:37,620

as soon as they find out that they're

347

00:16:42,230 --> 00:16:39,839

man-made they don't want anything to do

348

00:16:45,110 --> 00:16:42,240

with it they just want to focus on what

349

00:16:48,730 --> 00:16:45,120

I would assume is weather phenomenon or

350

00:16:54,110 --> 00:16:48,740

you know UFOs whether they be

351  
00:17:00,650 --> 00:16:58,310  
so it's a great article

352  
00:17:02,629 --> 00:17:00,660  
and you know he's got a lot more of

353  
00:17:05,630 --> 00:17:02,639  
those on his page

354  
00:17:07,909 --> 00:17:05,640  
I can't support this guy enough

355  
00:17:10,189 --> 00:17:07,919  
it's got great stuff the one thing that

356  
00:17:15,890 --> 00:17:10,199  
he mentioned in here uh also that was

357  
00:17:23,090 --> 00:17:18,890  
they're basically saying that um

358  
00:17:25,669 --> 00:17:23,100  
this group has to go back to

359  
00:17:27,350 --> 00:17:25,679  
go back through history right they have

360  
00:17:28,429 --> 00:17:27,360  
to go back through the history of all

361  
00:17:29,690 --> 00:17:28,439  
this they have to find the different

362  
00:17:32,690 --> 00:17:29,700  
ndas

363  
00:17:35,330 --> 00:17:32,700

they have to find like the little uh

364

00:17:39,409 --> 00:17:35,340

paper trail of

365

00:17:42,590 --> 00:17:39,419

you know possible Legacy programs

366

00:17:45,230 --> 00:17:42,600

which I think is very important

367

00:17:48,169 --> 00:17:45,240

the interesting thing which Chris points

368

00:17:50,390 --> 00:17:48,179

out here is

369

00:17:52,669 --> 00:17:50,400

they have to go back to January 1st

370

00:17:55,430 --> 00:17:52,679

1947.

371

00:17:58,250 --> 00:17:55,440

which reflects the establishment of the

372

00:18:00,230 --> 00:17:58,260

atomic energy Commission

373

00:18:02,570 --> 00:18:00,240

very interesting

374

00:18:05,090 --> 00:18:02,580

so why is that interesting it's

375

00:18:07,970 --> 00:18:05,100

interesting to me that there

376

00:18:11,210 --> 00:18:07,980

not saying you know like every UFO book

377

00:18:13,070 --> 00:18:11,220

that ever exists says this all started

378

00:18:15,830 --> 00:18:13,080

with Kendall Kenneth Arnold's citing

379

00:18:17,930 --> 00:18:15,840

blah blah blah right so you would

380

00:18:19,730 --> 00:18:17,940

think that maybe that would be the date

381

00:18:23,210 --> 00:18:19,740

or whatever but they're starting on

382

00:18:25,549 --> 00:18:23,220

January 1st 1947 not the Roswell crash

383

00:18:26,630 --> 00:18:25,559

date not any of that they're starting on

384

00:18:29,210 --> 00:18:26,640

the date

385

00:18:31,909 --> 00:18:29,220

uh where we have the establishment of

386

00:18:36,049 --> 00:18:31,919

the atomic energy commission which

387

00:18:37,850 --> 00:18:36,059

uh is not a thing anymore

388

00:18:41,330 --> 00:18:37,860

but it was

389

00:18:43,490 --> 00:18:41,340  
and I find that very interesting

390

00:18:45,110 --> 00:18:43,500  
if we relate the atomic energy

391

00:18:48,830 --> 00:18:45,120  
commission or try to find some

392

00:18:52,250 --> 00:18:48,840  
commonality between them and UFOs you

393

00:18:55,490 --> 00:18:52,260  
don't have to go very far in fact

394

00:18:57,529 --> 00:18:55,500  
there's this little thing called uh the

395

00:19:00,289 --> 00:18:57,539  
green fireballs

396

00:19:02,890 --> 00:19:00,299  
where the whole southwestern part of the

397

00:19:08,810 --> 00:19:06,230  
were basically inundated with these

398

00:19:12,529 --> 00:19:08,820  
green Fireball UFO type things that just

399

00:19:14,510 --> 00:19:12,539  
uh went over all Los Alamos

400

00:19:17,029 --> 00:19:14,520  
um I think it's Sandy Labs it's called I

401  
00:19:20,150 --> 00:19:17,039  
may have not said that right but

402  
00:19:21,529 --> 00:19:20,160  
um and even some army bases in Texas

403  
00:19:24,470 --> 00:19:21,539  
West Texas

404  
00:19:27,350 --> 00:19:24,480  
all over the place Dr Lepaz Roswell

405  
00:19:29,510 --> 00:19:27,360  
actually uh was was a part of that in

406  
00:19:31,490 --> 00:19:29,520  
1949 they had a sighting

407  
00:19:35,270 --> 00:19:31,500  
but the interesting part

408  
00:19:40,190 --> 00:19:37,610  
the atomic energy Commission

409  
00:19:42,770 --> 00:19:40,200  
was a part of they were

410  
00:19:45,529 --> 00:19:42,780  
like their security officers at Los

411  
00:19:47,210 --> 00:19:45,539  
Alamos yet the atomic energy commission

412  
00:19:50,150 --> 00:19:47,220  
security officers

413  
00:19:52,690 --> 00:19:50,160

yeah Los Alamos was those were some of

414

00:19:57,110 --> 00:19:52,700

the most most Witnesses biggest

415

00:19:59,270 --> 00:19:57,120

Witnesses of these Fireballs were them

416

00:20:00,950 --> 00:19:59,280

and you even had

417

00:20:03,649 --> 00:20:00,960

project twinkle when they would have

418

00:20:07,490 --> 00:20:03,659

which is the green Fireball study headed

419

00:20:11,029 --> 00:20:08,930

I know some of this might be a little

420

00:20:12,710 --> 00:20:11,039

Insider baseball for you but you know

421

00:20:14,810 --> 00:20:12,720

you can look it up green Fireballs Dr

422

00:20:17,450 --> 00:20:14,820

lapaz

423

00:20:20,149 --> 00:20:17,460

some of their meetings on these

424

00:20:22,370 --> 00:20:20,159

we're at Los Alamos

425

00:20:24,110 --> 00:20:22,380

and atomic energy commission officers

426  
00:20:25,370 --> 00:20:24,120  
were there

427  
00:20:26,870 --> 00:20:25,380  
you know

428  
00:20:30,049 --> 00:20:26,880  
there was even a sighting over Mount

429  
00:20:32,390 --> 00:20:30,059  
Palomar Palomar observatory in

430  
00:20:35,450 --> 00:20:32,400  
California forget the date maybe early

431  
00:20:40,130 --> 00:20:37,909  
where they got some readings some

432  
00:20:41,210 --> 00:20:40,140  
radiation readings one a UFO flew

433  
00:20:44,390 --> 00:20:41,220  
overhead

434  
00:20:48,110 --> 00:20:44,400  
and it was during this time

435  
00:20:50,090 --> 00:20:48,120  
that uh scientists at from the atomic

436  
00:20:51,830 --> 00:20:50,100  
energy commission were saying that they

437  
00:20:54,890 --> 00:20:51,840  
were getting readings when UFOs were

438  
00:20:57,110 --> 00:20:54,900

coming by too they made attic

439

00:21:00,230 --> 00:20:57,120

Blue Book Rupert

440

00:21:02,029 --> 00:21:00,240

give them a briefing

441

00:21:04,549 --> 00:21:02,039

so they were

442

00:21:06,169 --> 00:21:04,559

involved with this UFO stuff right from

443

00:21:07,610 --> 00:21:06,179

the start which is very interesting to

444

00:21:09,830 --> 00:21:07,620

me

445

00:21:11,930 --> 00:21:09,840

just to learn a little bit more about

446

00:21:15,529 --> 00:21:11,940

the atomic energy Commission

447

00:21:16,850 --> 00:21:15,539

also known as aec was an agency of the

448

00:21:18,710 --> 00:21:16,860

United States government established

449

00:21:19,850 --> 00:21:18,720

after World War II by the US Congress to

450

00:21:21,830 --> 00:21:19,860

Foster and control the peacetime

451  
00:21:23,990 --> 00:21:21,840  
development of atomic Science and

452  
00:21:26,810 --> 00:21:24,000  
Technology

453  
00:21:31,490 --> 00:21:26,820  
thank you

454  
00:21:34,010 --> 00:21:31,500  
Truman signed the mick McMahon atomic

455  
00:21:36,590 --> 00:21:34,020  
energy act on August 1st 1946

456  
00:21:39,230 --> 00:21:36,600  
transferring the control of the atomic

457  
00:21:42,490 --> 00:21:39,240  
energy from military to civilian hands

458  
00:21:45,409 --> 00:21:42,500  
effective on January 1st

459  
00:21:48,770 --> 00:21:45,419  
1947. this shift gave the members of the

460  
00:21:50,930 --> 00:21:48,780  
aec complete control of the plants

461  
00:21:54,230 --> 00:21:50,940  
Laboratories equipment and Personnel

462  
00:21:57,590 --> 00:21:54,240  
assembled during the war to produce the

463  
00:22:03,070 --> 00:22:00,110

and what do we hear with these UFOs all

464

00:22:06,289 --> 00:22:03,080

the time is there connection to you know

465

00:22:09,350 --> 00:22:06,299

nuclear facilities

466

00:22:12,230 --> 00:22:09,360

so we kind of get more

467

00:22:18,049 --> 00:22:12,240

meat on the bone of this connection to

468

00:22:24,350 --> 00:22:20,870

we'll see what happens with that

469

00:22:28,370 --> 00:22:24,360

now this was abolished in it says here

470

00:22:36,110 --> 00:22:33,350

so it or 74 energy reorganization Act of

471

00:22:36,120 --> 00:22:39,649

so

472

00:22:45,529 --> 00:22:42,890

in 1977 Jimmy Carter signed into law the

473

00:22:47,570 --> 00:22:45,539

department of energy organization act so

474

00:22:50,149 --> 00:22:47,580

then we have the DOE

475

00:22:52,909 --> 00:22:50,159

coming in

476  
00:22:55,730 --> 00:22:52,919  
what's interesting about the doe we hear

477  
00:23:00,950 --> 00:22:58,610  
about the DOE

478  
00:23:03,409 --> 00:23:00,960  
being involved with this right Chris

479  
00:23:05,510 --> 00:23:03,419  
Mellon once said someone asked him if

480  
00:23:07,370 --> 00:23:05,520  
you were if you could look anywhere for

481  
00:23:12,049 --> 00:23:07,380  
this UFO stuff secret technology where

482  
00:23:16,010 --> 00:23:14,210  
I think you know pretty much everybody

483  
00:23:17,990 --> 00:23:16,020  
like all the famous names whether it be

484  
00:23:19,250 --> 00:23:18,000  
Lu Elizondo Tim McMillan look these are

485  
00:23:21,710 --> 00:23:19,260  
all different people that I've heard

486  
00:23:23,810 --> 00:23:21,720  
mentioned Doe

487  
00:23:26,090 --> 00:23:23,820  
which makes this very interesting what

488  
00:23:29,630 --> 00:23:26,100

I'm about to share

489

00:23:34,130 --> 00:23:29,640

which is from the uh interview today

490

00:23:39,649 --> 00:23:37,250

where Gary Nolan is talking about the

491

00:23:43,010 --> 00:23:39,659

brain injuries

492

00:23:45,409 --> 00:23:43,020

the white matter disease

493

00:23:47,330 --> 00:23:45,419

that some of these Witnesses

494

00:23:49,850 --> 00:23:47,340

whether they've gone up and touched the

495

00:23:51,710 --> 00:23:49,860

UFO or have gotten too close to it have

496

00:23:53,750 --> 00:23:51,720

shown

497

00:23:57,470 --> 00:23:53,760

injuries in the brain

498

00:23:59,350 --> 00:23:57,480

well in this slide that he shows

499

00:24:00,830 --> 00:23:59,360

we can see

500

00:24:03,350 --> 00:24:00,840

[Music]

501  
00:24:07,789 --> 00:24:03,360  
in the upper right hand corner

502  
00:24:10,070 --> 00:24:07,799  
well crap sorry about that

503  
00:24:16,630 --> 00:24:10,080  
I'm gonna do this a little bit different

504  
00:24:23,289 --> 00:24:20,510  
uh what does that say I even highlighted

505  
00:24:27,710 --> 00:24:26,210  
d-o-e Advanced propulsion Gravity

506  
00:24:32,390 --> 00:24:27,720  
Research

507  
00:24:36,649 --> 00:24:34,370  
threat is making it more into the

508  
00:24:38,210 --> 00:24:36,659  
mainstream language here as a definitive

509  
00:24:39,890 --> 00:24:38,220  
thing I would say if you look at the

510  
00:24:40,970 --> 00:24:39,900  
Congressional language we look at this

511  
00:24:43,010 --> 00:24:40,980  
threat

512  
00:24:46,310 --> 00:24:43,020  
doe Department of energy Advanced

513  
00:24:52,190 --> 00:24:49,250

very interesting

514

00:24:58,669 --> 00:24:54,350

so the DOE

515

00:24:58,679 --> 00:25:03,769

has something to do with this

516

00:25:08,690 --> 00:25:05,269

right

517

00:25:15,950 --> 00:25:10,549

and it looks like they were doing some

518

00:25:23,450 --> 00:25:18,169

if we look at that

519

00:25:27,830 --> 00:25:26,390

human effects Advanced propulsion where

520

00:25:29,870 --> 00:25:27,840

else have we heard of something like

521

00:25:32,510 --> 00:25:29,880

that

522

00:25:35,630 --> 00:25:32,520

I'll tell you

523

00:25:38,390 --> 00:25:35,640

the ASAP papers the offset papers kit

524

00:25:40,669 --> 00:25:38,400

green study of effects

525

00:25:43,370 --> 00:25:40,679

of anomalous Aerospace vehicles on

526

00:25:43,380 --> 00:25:46,789

that's where

527

00:25:53,570 --> 00:25:49,490

Gary Nolan even says in that interview

528

00:25:57,590 --> 00:25:56,090

uh he mentions that that kick green

529

00:26:02,990 --> 00:25:57,600

study basically and how he was looking

530

00:26:07,669 --> 00:26:05,450

so

531

00:26:09,830 --> 00:26:07,679

you know I like to try my best to

532

00:26:11,690 --> 00:26:09,840

connect dots right

533

00:26:13,669 --> 00:26:11,700

so we kind of connected a little dot to

534

00:26:15,470 --> 00:26:13,679

some UFOs some green Fireballs the

535

00:26:17,750 --> 00:26:15,480

atomic energy commission back in the day

536

00:26:22,010 --> 00:26:17,760

the late 40s early 50s

537

00:26:25,850 --> 00:26:22,020

and we brought it to the doe just now

538

00:26:31,730 --> 00:26:25,860

looking at effects of these UFOs to

539

00:26:37,130 --> 00:26:34,310

so we're going to go backwards again

540

00:26:40,490 --> 00:26:37,140

and bring bring the propulsion bit back

541

00:26:44,870 --> 00:26:42,409

because that was the doe propulsion

542

00:26:47,990 --> 00:26:44,880

remember Advanced propulsion so this is

543

00:26:51,890 --> 00:26:48,000

a document 1952 by the CAA right

544

00:26:54,890 --> 00:26:51,900

basically what they were doing was

545

00:26:57,230 --> 00:26:54,900

um giving an overall look at uh Blue

546

00:26:59,870 --> 00:26:57,240

Book and and who's looking at the UFO

547

00:27:04,730 --> 00:26:59,880

situation this is I believe

548

00:27:06,289 --> 00:27:04,740

says 1952 so this is uh obviously pre

549

00:27:10,490 --> 00:27:06,299

um Robertson report which was early

550

00:27:12,890 --> 00:27:10,500

January CIA the most CIA UFO documents

551  
00:27:16,010 --> 00:27:12,900  
you'll find is in that era

552  
00:27:19,850 --> 00:27:17,810  
this the administrative unit now

553  
00:27:22,789 --> 00:27:19,860  
handling the Air Force inquiry on these

554  
00:27:25,810 --> 00:27:22,799  
phenomena is the United the unidentified

555  
00:27:30,289 --> 00:27:25,820  
flying object section of the aircraft

556  
00:27:38,210 --> 00:27:33,289  
of the technical analysis division

557  
00:27:42,409 --> 00:27:41,269  
is the group Project Blue Book ran out

558  
00:27:45,590 --> 00:27:42,419  
of

559  
00:27:48,889 --> 00:27:45,600  
Blue Book was the code name it was attic

560  
00:27:51,710 --> 00:27:48,899  
that was actually doing the work right

561  
00:27:53,450 --> 00:27:51,720  
so if you go even further so I thought

562  
00:27:55,430 --> 00:27:53,460  
it was just attic until I read this and

563  
00:27:59,570 --> 00:27:55,440

then you go down even further they have

564

00:28:05,810 --> 00:28:03,409

well even with attic there is one

565

00:28:12,110 --> 00:28:05,820

there's a UFO section

566

00:28:17,389 --> 00:28:14,750

of the technical analysis Center I did

567

00:28:19,850 --> 00:28:17,399

not know that so the people looking at

568

00:28:24,470 --> 00:28:19,860

UFOs back in the day were in the

569

00:28:24,480 --> 00:28:27,950

tying it together

570

00:28:35,029 --> 00:28:30,889

the best that I can

571

00:28:41,330 --> 00:28:38,870

so some things don't change that much I

572

00:28:47,690 --> 00:28:41,340

guess eh

573

00:28:53,870 --> 00:28:51,370

so what we're going to do now

574

00:28:56,930 --> 00:28:53,880

is I'm going to take

575

00:28:58,789 --> 00:28:56,940

a little talking a break

576  
00:29:02,630 --> 00:28:58,799  
right

577  
00:29:04,070 --> 00:29:02,640  
and we're going to listen to

578  
00:29:06,230 --> 00:29:04,080  
actually

579  
00:29:08,630 --> 00:29:06,240  
yeah and we're going to listen to some

580  
00:29:12,470 --> 00:29:08,640  
witness testimony

581  
00:29:18,470 --> 00:29:15,830  
and we're gonna get on with the show

582  
00:29:22,610 --> 00:29:18,480  
how's that it's about five minutes hope

583  
00:29:22,620 --> 00:29:28,490  
ging with a navy boy

584  
00:29:30,889 --> 00:29:29,690  
who watched the balloon one Sunday

585  
00:29:32,870 --> 00:29:30,899  
morning

586  
00:29:34,370 --> 00:29:32,880  
here in New Mexico

587  
00:29:35,690 --> 00:29:34,380  
uh in the company of some really

588  
00:29:37,070 --> 00:29:35,700

enlisted men

589

00:29:39,529 --> 00:29:37,080

none of them may have been working man

590

00:29:41,510 --> 00:29:39,539

he never seen this before and was using

591

00:29:43,130 --> 00:29:41,520

the theater light to follow the balloon

592

00:29:45,230 --> 00:29:43,140

and after a little while I looked up to

593

00:29:46,430 --> 00:29:45,240

see how he was doing and I saw an object

594

00:29:48,769 --> 00:29:46,440

that I thought was a balloon that was

595

00:29:50,210 --> 00:29:48,779

moving into the East quite rapidly and I

596

00:29:52,669 --> 00:29:50,220

urge that he'd get back on the balloon

597

00:29:54,049 --> 00:29:52,679

and he assured me he had the balloon so

598

00:29:55,730 --> 00:29:54,059

I immediately took the theater lights

599

00:29:57,830 --> 00:29:55,740

looked for it and he did have the

600

00:29:59,510 --> 00:29:57,840

balloon I was very interested in what

601  
00:30:01,730 --> 00:29:59,520  
this other object was so I abandoned the

602  
00:30:03,830 --> 00:30:01,740  
balloon and began tracking it it was

603  
00:30:06,710 --> 00:30:03,840  
moving very rapidly about five degrees

604  
00:30:08,990 --> 00:30:06,720  
or so per second across the sky went all

605  
00:30:11,090 --> 00:30:09,000  
the way from the southwest down into the

606  
00:30:13,250 --> 00:30:11,100  
Northeast and let it increase the

607  
00:30:17,750 --> 00:30:13,260  
elevation angle and got small in a hurry

608  
00:30:20,570 --> 00:30:17,760  
it uh did all this about 65 seconds

609  
00:30:22,730 --> 00:30:20,580  
we were quite private about this so we

610  
00:30:24,289 --> 00:30:22,740  
made another uh Foundation I released

611  
00:30:27,830 --> 00:30:24,299  
another balloon and followed it this

612  
00:30:29,930 --> 00:30:27,840  
time to 90 000 feet in this balloon

613  
00:30:31,909 --> 00:30:29,940

went into the South it had North Wind at

614

00:30:33,710 --> 00:30:31,919

all altitudes from the surface up to 90

615

00:30:35,330 --> 00:30:33,720

000 feet yet this object that I had

616

00:30:37,669 --> 00:30:35,340

thought initially was a balloon move

617

00:30:39,409 --> 00:30:37,679

Against the Wind so I knew this wasn't a

618

00:30:42,470 --> 00:30:39,419

balloon it wasn't a bird and it wasn't

619

00:30:44,750 --> 00:30:42,480

Venus I went over and called The White

620

00:30:46,430 --> 00:30:44,760

Sands Missile Range Block House to find

621

00:30:49,070 --> 00:30:46,440

out uh if they would launched something

622

00:30:53,409 --> 00:30:49,080

and I got some message back to the fact

623

00:30:59,810 --> 00:30:57,190

this is Dave Airport Manager Lake Wales

624

00:31:02,149 --> 00:30:59,820

Wednesday afternoon at approximately

625

00:31:06,529 --> 00:31:02,159

three o'clock I received a phone call

626  
00:31:09,049 --> 00:31:06,539  
from a an observer in Lake Wales telling

627  
00:31:11,330 --> 00:31:09,059  
me that there was an object in the sky

628  
00:31:13,310 --> 00:31:11,340  
what he figured

629  
00:31:14,990 --> 00:31:13,320  
[Music]

630  
00:31:18,490 --> 00:31:15,000  
went outside my

631  
00:31:23,149 --> 00:31:18,500  
house and looked up viewing this object

632  
00:31:29,930 --> 00:31:26,210  
it might be a stray Williams

633  
00:31:35,840 --> 00:31:32,630  
in the area and since it is

634  
00:31:38,630 --> 00:31:35,850  
to report these wounds we decided that

635  
00:31:40,490 --> 00:31:38,640  
[Music]

636  
00:31:44,630 --> 00:31:40,500  
the traffic

637  
00:31:46,909 --> 00:31:44,640  
we entered the piper Apache

638  
00:31:48,649 --> 00:31:46,919

engine

639

00:31:51,710 --> 00:31:48,659

see it to climb up to

640

00:31:52,370 --> 00:31:51,720

view this object we climbed sixteen

641

00:31:56,870 --> 00:31:52,380

thousand

642

00:32:02,210 --> 00:31:56,880

for Haines City

643

00:32:08,090 --> 00:32:03,769

keep the object

644

00:32:10,970 --> 00:32:08,100

Ive 50 to 60 000

645

00:32:13,549 --> 00:32:10,980

we kept the object

646

00:32:15,649 --> 00:32:13,559

doing it at all times thereby

647

00:32:17,870 --> 00:32:15,659

by eliminating the chance possibility

648

00:32:26,450 --> 00:32:22,009

upon receiving a upper winds report

649

00:32:29,090 --> 00:32:26,460

giving us winds at 50 000 feet of 22

650

00:32:31,850 --> 00:32:31,009

qualified the chance it might be a

651  
00:32:34,430 --> 00:32:31,860  
weather

652  
00:32:36,830 --> 00:32:34,440  
because of the fact that

653  
00:32:38,570 --> 00:32:36,840  
when

654  
00:32:40,850 --> 00:32:38,580  
it's been drifting and this object

655  
00:32:41,570 --> 00:32:40,860  
stayed stationary directly over Haines

656  
00:32:42,889 --> 00:32:41,580  
City

657  
00:32:48,230 --> 00:32:42,899  
for more than 2

658  
00:32:56,950 --> 00:32:54,049  
this object the object appeared to have

659  
00:33:01,610 --> 00:32:56,960  
or trailing

660  
00:33:08,149 --> 00:33:04,430  
appeared to be oblong in shape

661  
00:33:10,430 --> 00:33:08,159  
the tail part of the object was not

662  
00:33:11,690 --> 00:33:10,440  
visible at all at all times probably due

663  
00:33:13,430 --> 00:33:11,700

to

664

00:33:15,409 --> 00:33:13,440

a reflection

665

00:33:18,590 --> 00:33:15,419

we discount the fact that it was could

666

00:33:21,230 --> 00:33:18,600

have been a web 11 due to the fact that

667

00:33:23,690 --> 00:33:21,240

the object was much too shiny weather

668

00:33:26,210 --> 00:33:23,700

balloons are coated

669

00:33:28,310 --> 00:33:26,220

Pottery effect so that they will not

670

00:33:30,950 --> 00:33:28,320

and reflect

671

00:33:33,950 --> 00:33:30,960

we've all the people in the aircraft

672

00:33:36,710 --> 00:33:35,570

with me time we

673

00:33:38,330 --> 00:33:36,720

Pilots

674

00:33:43,310 --> 00:33:38,340

headline for many years

675

00:33:43,320 --> 00:33:47,630

we discount the

676  
00:33:53,389 --> 00:33:50,149  
the long past experience

677  
00:33:59,630 --> 00:33:53,399  
we kept the object in sight until

678  
00:34:03,409 --> 00:33:59,640  
approximately 5 42 at which time the

679  
00:34:08,450 --> 00:34:05,810  
fit on our next

680  
00:34:10,669 --> 00:34:08,460  
next completely disappeared

681  
00:34:13,490 --> 00:34:10,679  
appeared to be no decent whatsoever

682  
00:34:17,510 --> 00:34:13,500  
whatsoever to the object this is Dave

683  
00:34:22,069 --> 00:34:19,369  
pretty good accounts you know what

684  
00:34:26,270 --> 00:34:22,079  
sticks out to me with those accounts is

685  
00:34:27,589 --> 00:34:26,280  
the whole balloon thing right

686  
00:34:29,869 --> 00:34:27,599  
um

687  
00:34:31,609 --> 00:34:29,879  
you know a lot of people are they're

688  
00:34:33,770 --> 00:34:31,619

just balloons right or whatever but

689

00:34:37,210 --> 00:34:33,780

these people one of them was

690

00:34:40,069 --> 00:34:37,220

specifically already looking at balloons

691

00:34:42,290 --> 00:34:40,079

and it was something different

692

00:34:44,810 --> 00:34:42,300

the other one

693

00:34:46,730 --> 00:34:44,820

is is telling you that they know what

694

00:34:48,950 --> 00:34:46,740

the balloons look like and it's not that

695

00:34:50,990 --> 00:34:48,960

and it reminds me so much of today's

696

00:34:52,669 --> 00:34:51,000

Witnesses whether it be Ryan Graves or

697

00:34:56,329 --> 00:34:52,679

fravor

698

00:34:58,730 --> 00:34:56,339

um you know Skeptics or whatever always

699

00:35:00,109 --> 00:34:58,740

try to come up with some prosaic answer

700

00:35:02,690 --> 00:35:00,119

like people haven't thought of that

701  
00:35:04,310 --> 00:35:02,700  
already whether it be a missile or a

702  
00:35:05,750 --> 00:35:04,320  
balloon or a bird right like these

703  
00:35:07,790 --> 00:35:05,760  
people are first getting up in the air

704  
00:35:09,650 --> 00:35:07,800  
for the for the very first time in their

705  
00:35:12,349 --> 00:35:09,660  
life

706  
00:35:14,930 --> 00:35:12,359  
and they're confused by this right but

707  
00:35:17,030 --> 00:35:14,940  
all I have to say is like um the

708  
00:35:18,589 --> 00:35:17,040  
Skeptics or whatever Skeptics sure

709  
00:35:20,270 --> 00:35:18,599  
everybody says Skeptics are good sure

710  
00:35:22,670 --> 00:35:20,280  
that's fine

711  
00:35:27,230 --> 00:35:22,680  
um but they are

712  
00:35:32,390 --> 00:35:30,109  
with everything going on in the world uh

713  
00:35:35,569 --> 00:35:32,400

Congress isn't going to do what they're

714

00:35:39,710 --> 00:35:35,579

doing and say what they're saying

715

00:35:41,690 --> 00:35:39,720

um based off of uh light rumors

716

00:35:44,870 --> 00:35:41,700

right

717

00:35:48,290 --> 00:35:44,880

there's been historically so much stigma

718

00:35:53,390 --> 00:35:51,589

that people running for office

719

00:35:56,329 --> 00:35:53,400

I could have touched it with a 10-foot

720

00:35:58,790 --> 00:35:56,339

pole unless there's a whole lot of meat

721

00:36:02,450 --> 00:35:59,870

so

722

00:36:05,450 --> 00:36:02,460

put that in your pipe and smoke it

723

00:36:08,030 --> 00:36:05,460

there's some there's a there's real

724

00:36:11,569 --> 00:36:08,040

things going on

725

00:36:16,370 --> 00:36:11,579

will it actually be taken care of

726  
00:36:18,530 --> 00:36:16,380  
will we get answers yet to be determined

727  
00:36:20,329 --> 00:36:18,540  
but things are looking pretty good that

728  
00:36:24,109 --> 00:36:20,339  
at least Congress will get some answers

729  
00:36:29,210 --> 00:36:26,630  
but um

730  
00:36:30,349 --> 00:36:29,220  
you know it's encouraging and I just

731  
00:36:34,430 --> 00:36:30,359  
can't

732  
00:36:36,230 --> 00:36:34,440  
confirmation you know and not that we

733  
00:36:38,569 --> 00:36:36,240  
need it not that we need confirmation

734  
00:36:40,130 --> 00:36:38,579  
from the government to know that uaps

735  
00:36:44,390 --> 00:36:40,140  
are real especially those of us that

736  
00:36:46,370 --> 00:36:44,400  
have seen them you know what I've seen

737  
00:36:48,589 --> 00:36:46,380  
you know my main experience which which

738  
00:36:51,650 --> 00:36:48,599

put me here you know there's there's no

739

00:36:53,750 --> 00:36:51,660

confusing that for anything else

740

00:36:55,849 --> 00:36:53,760

you know and and there's so many people

741

00:36:58,849 --> 00:36:55,859

have gone through so much more than than

742

00:37:03,950 --> 00:37:00,230

um but

743

00:37:08,690 --> 00:37:06,829

for the day where stigma completely dies

744

00:37:11,329 --> 00:37:08,700

you know and that was a part of Gary

745

00:37:13,310 --> 00:37:11,339

Nolan's interview uh with Tucker Carlson

746

00:37:16,849 --> 00:37:13,320

I really appreciated that he went out on

747

00:37:19,010 --> 00:37:16,859

a limb and and talked about that stigma

748

00:37:20,569 --> 00:37:19,020

you know it's wrong and how he wants to

749

00:37:22,069 --> 00:37:20,579

create an atmosphere for people to be

750

00:37:23,930 --> 00:37:22,079

able to openly report and talk about

751  
00:37:28,010 --> 00:37:23,940  
this stuff because they shouldn't feel

752  
00:37:28,020 --> 00:37:31,130  
because it's real

753  
00:37:36,470 --> 00:37:33,410  
so

754  
00:37:39,530 --> 00:37:36,480  
because it's real

755  
00:37:45,470 --> 00:37:43,310  
that being said I wanted to

756  
00:37:47,150 --> 00:37:45,480  
talk about

757  
00:37:50,390 --> 00:37:47,160  
this

758  
00:37:52,550 --> 00:37:50,400  
so talking about some

759  
00:37:54,950 --> 00:37:52,560  
materials right we were going to look at

760  
00:37:57,050 --> 00:37:54,960  
materials so looking back at some blue

761  
00:37:59,810 --> 00:37:57,060  
book reports

762  
00:38:02,150 --> 00:37:59,820  
some Blue Book stuff

763  
00:38:05,690 --> 00:38:02,160

what can we find on materials well this

764

00:38:08,230 --> 00:38:05,700

first one here comes from

765

00:38:12,050 --> 00:38:08,240

kind of like an Administration document

766

00:38:15,770 --> 00:38:14,030

and

767

00:38:17,630 --> 00:38:15,780

if you guys want the whole thing I'll

768

00:38:18,890 --> 00:38:17,640

share it in the chat here with you so

769

00:38:22,010 --> 00:38:18,900

you can look at it in the National

770

00:38:22,020 --> 00:38:24,890

if you'd like

771

00:38:28,609 --> 00:38:27,170

but I just took this page because it

772

00:38:30,710 --> 00:38:28,619

talks about materials and here we are

773

00:38:32,690 --> 00:38:30,720

special Air Force analytical groups and

774

00:38:34,550 --> 00:38:32,700

on occasion East Minn Kota I handled the

775

00:38:36,470 --> 00:38:34,560

technical aspects of radar sightings and

776

00:38:39,829 --> 00:38:36,480

most photographic reports

777

00:38:46,609 --> 00:38:43,910

we haven't got any

778

00:38:48,710 --> 00:38:46,619

of those right so each makodek looking

779

00:38:52,430 --> 00:38:48,720

at technical aspects of radar sightings

780

00:38:55,490 --> 00:38:52,440

right we haven't gotten any reports from

781

00:38:59,690 --> 00:38:55,500

Eastman Kodak on radar sightings where

782

00:39:04,190 --> 00:39:01,670

and you go down here physical specimens

783

00:39:05,150 --> 00:39:04,200

suspected of a connection with the

784

00:39:09,050 --> 00:39:05,160

sightings

785

00:39:11,630 --> 00:39:09,060

physical specimens suspected

786

00:39:14,890 --> 00:39:11,640

of connection with UFO sightings

787

00:39:18,950 --> 00:39:14,900

physical specimens from UFO sightings

788

00:39:22,010 --> 00:39:18,960

processed by such groups as Patel

789

00:39:24,710 --> 00:39:22,020

Memorial Institute

790

00:39:29,150 --> 00:39:24,720

Air Force material Laboratory

791

00:39:35,569 --> 00:39:30,890

Libby Owens

792

00:39:41,390 --> 00:39:38,510

and certain academic groups Northwestern

793

00:39:44,690 --> 00:39:41,400

University Department of geology

794

00:39:48,410 --> 00:39:44,700

all those people

795

00:39:52,550 --> 00:39:48,420

need to be looked at for a UFO materials

796

00:39:55,130 --> 00:39:52,560

because as it plainly states an Air

797

00:39:57,109 --> 00:39:55,140

Force freaking documents

798

00:39:59,450 --> 00:39:57,119

physical specimens

799

00:40:02,870 --> 00:39:59,460

connected with UFO sightings processed

800

00:40:05,690 --> 00:40:02,880

by groups such as these Patel

801  
00:40:07,430 --> 00:40:05,700  
Air Force material lab the U.S Food and

802  
00:40:10,370 --> 00:40:07,440  
Drug Administration libyons and Corning

803  
00:40:12,470 --> 00:40:10,380  
fiberglass companies

804  
00:40:15,950 --> 00:40:12,480  
answered and economic groups now that's

805  
00:40:22,550 --> 00:40:19,130  
but you have to look at all of them

806  
00:40:24,050 --> 00:40:22,560  
the main one here is Patel

807  
00:40:32,230 --> 00:40:24,060  
Patel

808  
00:40:35,450 --> 00:40:32,240  
had something called project stork

809  
00:40:38,210 --> 00:40:35,460  
s-t-o-r-k that worked with the Air Force

810  
00:40:41,569 --> 00:40:38,220  
and project stork did all the analysis

811  
00:40:42,589 --> 00:40:41,579  
of turf samples so for some sightings of

812  
00:40:45,170 --> 00:40:42,599  
uh

813  
00:40:48,050 --> 00:40:45,180

Landings they would take Turf samples

814

00:40:49,730 --> 00:40:48,060

one a controlled sample and a sample

815

00:40:51,109 --> 00:40:49,740

from where the UFO land and project

816

00:40:53,390 --> 00:40:51,119

stork would take a look at it and

817

00:40:54,829 --> 00:40:53,400

analyze it and look for any type of

818

00:40:56,870 --> 00:40:54,839

radiation

819

00:40:58,609 --> 00:40:56,880

can I wear anything else

820

00:41:00,410 --> 00:40:58,619

if you go on my website you can look at

821

00:41:02,990 --> 00:41:00,420

the Florida case that I have on my

822

00:41:06,050 --> 00:41:03,000

website where they specifically found no

823

00:41:09,470 --> 00:41:06,060

reason for the sample where UFO landed

824

00:41:11,089 --> 00:41:09,480

was as different as it was from the

825

00:41:13,430 --> 00:41:11,099

controlled specimen you know that's

826  
00:41:18,470 --> 00:41:13,440  
project stork who did that project stork

827  
00:41:25,970 --> 00:41:22,010  
as time went on they changed

828  
00:41:28,670 --> 00:41:25,980  
from Project stork to White stork

829  
00:41:32,089 --> 00:41:28,680  
big change right

830  
00:41:34,550 --> 00:41:32,099  
so now this is just an example

831  
00:41:38,630 --> 00:41:34,560  
of a document that talks about white

832  
00:41:42,410 --> 00:41:40,550  
for in in this instance there was a

833  
00:41:44,630 --> 00:41:42,420  
meteorite it could have actually been a

834  
00:41:46,730 --> 00:41:44,640  
meteorite maybe not I don't know

835  
00:41:49,370 --> 00:41:46,740  
composition analysis does not appear

836  
00:41:51,109 --> 00:41:49,380  
warranted blah blah white stork will

837  
00:41:55,010 --> 00:41:51,119  
also be asked about the monetary value

838  
00:41:59,390 --> 00:41:57,890

full report will be furnished your

839

00:42:02,510 --> 00:41:59,400  
office on receipt from White stork

840

00:42:05,030 --> 00:42:02,520  
another thing we have gotten we don't

841

00:42:12,230 --> 00:42:05,040  
have these reports on all the different

842

00:42:16,309 --> 00:42:14,329  
that's something if I was in Congress I

843

00:42:18,349 --> 00:42:16,319  
would be wanting to look at

844

00:42:20,770 --> 00:42:18,359  
Patel

845

00:42:24,430 --> 00:42:20,780  
stork

846

00:42:26,690 --> 00:42:24,440  
these are just further examples

847

00:42:29,990 --> 00:42:26,700  
here's something some sample that they

848

00:42:33,770 --> 00:42:31,970  
but this was Ferro chromium and magnetic

849

00:42:36,290 --> 00:42:33,780  
and not Radioactive

850

00:42:41,630 --> 00:42:36,300  
but it shows here's an analysis of one

851  
00:42:46,010 --> 00:42:43,910  
oh I'm no scientist but these look like

852  
00:42:48,650 --> 00:42:46,020  
fairly

853  
00:42:51,290 --> 00:42:48,660  
um prosaic things not that that means

854  
00:42:53,089 --> 00:42:51,300  
anything it just looks to be this was on

855  
00:42:56,089 --> 00:42:53,099  
something

856  
00:42:57,770 --> 00:42:56,099  
that's called angel hair

857  
00:42:59,630 --> 00:42:57,780  
if you're not familiar with Angel here

858  
00:43:01,730 --> 00:42:59,640  
that's something that was purported to

859  
00:43:12,470 --> 00:43:01,740  
fall out of the sky during certain UFO

860  
00:43:18,230 --> 00:43:15,230  
just another thing that shows uh Turf

861  
00:43:22,609 --> 00:43:18,240  
sample white stork right this is later

862  
00:43:27,589 --> 00:43:24,950  
so yeah

863  
00:43:29,210 --> 00:43:27,599

but that is not

864

00:43:33,050 --> 00:43:29,220

it

865

00:43:34,670 --> 00:43:33,060

now we have something pretty interesting

866

00:43:37,370 --> 00:43:34,680

that comes up

867

00:43:39,650 --> 00:43:37,380

when we look at materials

868

00:43:44,329 --> 00:43:39,660

and it's people that weren't even

869

00:43:50,109 --> 00:43:47,150

that looked at materials this one comes

870

00:43:54,290 --> 00:43:52,430

Townsend Brown

871

00:43:55,910 --> 00:43:54,300

a company called Whitehall Rand

872

00:43:57,710 --> 00:43:55,920

Incorporated

873

00:43:59,210 --> 00:43:57,720

you look in the left-hand Corner space

874

00:44:01,550 --> 00:43:59,220

technology propulsion guidance

875

00:44:04,670 --> 00:44:01,560

Communications they were consultants in

876

00:44:08,750 --> 00:44:06,530

there's something that fell in

877

00:44:11,210 --> 00:44:08,760

Woodbridge in 1960.

878

00:44:13,970 --> 00:44:11,220

look at that subject well that's a

879

00:44:24,410 --> 00:44:13,980

beautiful subject fall of suspected

880

00:44:30,170 --> 00:44:27,109

pretty interesting

881

00:44:32,030 --> 00:44:30,180

and this material was constantly in

882

00:44:34,309 --> 00:44:32,040

going through different weight changes

883

00:44:36,890 --> 00:44:34,319

the continuing change in weight is

884

00:44:40,130 --> 00:44:36,900

startling and indisputable

885

00:44:43,430 --> 00:44:40,140

since Dr kuzlin weighted the sample at

886

00:44:45,829 --> 00:44:43,440

uh Harvard Hartford it has lost about

887

00:44:47,930 --> 00:44:45,839

three percent and is still decreasing

888

00:44:49,730 --> 00:44:47,940

almost surprising recent finding is that

889

00:44:53,569 --> 00:44:49,740

the material appears to have the power

890

00:44:55,970 --> 00:44:53,579

perhaps by virtue of its radiation

891

00:44:57,890 --> 00:44:55,980

to produce a weight change in certain

892

00:45:02,569 --> 00:44:57,900

receptor materials

893

00:45:08,030 --> 00:45:05,030

we now have an example of tenfold

894

00:45:10,309 --> 00:45:08,040

leverage in the gross weight change of a

895

00:45:12,589 --> 00:45:10,319

large volume of material induced merely

896

00:45:14,390 --> 00:45:12,599

by contact or close proximity with the

897

00:45:16,250 --> 00:45:14,400

sample

898

00:45:18,230 --> 00:45:16,260

many other intriguing facts are coming

899

00:45:20,329 --> 00:45:18,240

out of this investigation

900

00:45:24,410 --> 00:45:20,339

guess what we don't know what happened

901  
00:45:24,420 --> 00:45:28,910  
and we were never told about it

902  
00:45:37,670 --> 00:45:32,089  
something else

903  
00:45:40,550 --> 00:45:37,680  
and this was by a person Townsend Brown

904  
00:45:43,250 --> 00:45:40,560  
found it so somebody found this in their

905  
00:45:46,730 --> 00:45:43,260  
yard basically told a friend that was in

906  
00:45:51,950 --> 00:45:46,740  
science blah blah

907  
00:45:54,170 --> 00:45:51,960  
and this Townsend Brown got uh involved

908  
00:45:55,970 --> 00:45:54,180  
there's a lot to this Townsend Brown guy

909  
00:45:57,650 --> 00:45:55,980  
but I don't think we have time to get

910  
00:45:59,750 --> 00:45:57,660  
into that

911  
00:46:01,370 --> 00:45:59,760  
but you can look them up

912  
00:46:04,130 --> 00:46:01,380  
it's very interesting

913  
00:46:08,809 --> 00:46:04,140

most definitely

914

00:46:13,550 --> 00:46:10,490

of what they were talking about which is

915

00:46:17,030 --> 00:46:15,349

red here

916

00:46:19,730 --> 00:46:17,040

so you can see it hit this thing here

917

00:46:26,390 --> 00:46:24,170

so these are just pictures of where it

918

00:46:31,830 --> 00:46:26,400

fell

919

00:46:33,770 --> 00:46:31,840

but the material is here Coke and dust

920

00:46:38,750 --> 00:46:33,780

[Music]

921

00:46:38,760 --> 00:46:44,630

a coal with brown surface

922

00:46:44,640 --> 00:46:48,410

aluminum granules

923

00:46:53,930 --> 00:46:51,349

magnetic slag which is interesting a lot

924

00:46:57,230 --> 00:46:53,940

of the materials that you'll find in the

925

00:47:02,089 --> 00:46:57,240

Blue Book papers they wind up calling it

926

00:47:07,190 --> 00:47:04,550

so which is basically like a mix of

927

00:47:12,770 --> 00:47:07,200

different materials that comes from like

928

00:47:12,780 --> 00:47:18,710

pretty interesting though

929

00:47:23,690 --> 00:47:22,370

you know we never got a report on this

930

00:47:25,970 --> 00:47:23,700

what is it

931

00:47:28,849 --> 00:47:25,980

what does it do where did it come from

932

00:47:30,530 --> 00:47:28,859

what happened to it well it seems to me

933

00:47:32,770 --> 00:47:30,540

that it went this is a really cool

934

00:47:37,089 --> 00:47:32,780

picture actually just a side note

935

00:47:44,990 --> 00:47:39,829

so yeah

936

00:47:49,370 --> 00:47:47,630

so just wanted to do a little bit on

937

00:47:52,730 --> 00:47:49,380

materials and show you that case because

938

00:47:55,010 --> 00:47:52,740

I think it is just very very very

939

00:47:59,210 --> 00:47:55,020

interesting

940

00:48:05,930 --> 00:48:01,970

I have one more thing that we can do

941

00:48:05,940 --> 00:48:10,490

if anybody has any questions feel free

942

00:48:18,470 --> 00:48:13,849

I can answer what I can

943

00:48:22,910 --> 00:48:21,170

tomorrow we got Jan the show Mr J

944

00:48:25,490 --> 00:48:22,920

Christopher King and we're going to talk

945

00:48:28,069 --> 00:48:25,500

about uh Mr halputoff's paper that came

946

00:48:32,510 --> 00:48:30,589

which should be pretty interesting yeah

947

00:48:34,730 --> 00:48:32,520

Howard gross was basically a part of

948

00:48:36,170 --> 00:48:34,740

Mattel

949

00:48:38,210 --> 00:48:36,180

um

950

00:48:39,710 --> 00:48:38,220

you know project Stark he's definitely

951  
00:48:41,870 --> 00:48:39,720  
an interesting character there's not a

952  
00:48:45,230 --> 00:48:41,880  
whole lot that you can find on Howard

953  
00:48:47,390 --> 00:48:45,240  
cross as far as in the actual documents

954  
00:48:50,030 --> 00:48:47,400  
uh but there is

955  
00:48:53,690 --> 00:48:50,040  
it's maybe one or two things but they're

956  
00:48:57,230 --> 00:48:53,700  
they're nothing spectacular but

957  
00:48:58,549 --> 00:48:57,240  
yeah very interesting character that

958  
00:49:01,910 --> 00:48:58,559  
um definitely had something to do with

959  
00:49:07,309 --> 00:49:04,970  
pineapple on pizza or not yeah I'm I

960  
00:49:09,290 --> 00:49:07,319  
like Hawaiian pizza

961  
00:49:15,710 --> 00:49:09,300  
hate me go ahead

962  
00:49:20,170 --> 00:49:17,210  
hate me

963  
00:49:27,810 --> 00:49:20,180

but I love it

964

00:49:27,820 --> 00:50:36,349

[Music]

965

00:50:36,359 --> 00:51:27,220

foreign

966

00:51:27,230 --> 00:51:32,950

[Music]

967

00:51:39,770 --> 00:51:34,880

you sure

968

00:51:44,569 --> 00:51:42,890

so that was our version of what the heck

969

00:51:47,450 --> 00:51:44,579

is that today I hope you enjoyed it we

970

00:51:50,089 --> 00:51:47,460

had a couple videos there

971

00:51:52,670 --> 00:51:50,099

um I thought were pretty interesting

972

00:51:55,069 --> 00:51:52,680

uh there's a lot of videos out there

973

00:51:56,630 --> 00:51:55,079

it's hard to know what's what right I

974

00:51:58,490 --> 00:51:56,640

know they look weird I know when I look

975

00:51:59,990 --> 00:51:58,500

at it I don't know what it is so good

976  
00:52:03,290 --> 00:52:00,000  
question that comes to mind is what the

977  
00:52:07,849 --> 00:52:03,300  
heck is that so I thought maybe

978  
00:52:12,349 --> 00:52:07,859  
be good for this segment right so

979  
00:52:13,790 --> 00:52:12,359  
so hope you enjoyed it hope you enjoyed

980  
00:52:15,890 --> 00:52:13,800  
it very much

981  
00:52:18,170 --> 00:52:15,900  
um

982  
00:52:21,170 --> 00:52:18,180  
with that being said I think I'm out I

983  
00:52:22,730 --> 00:52:21,180  
think that is it for today's show I hope

984  
00:52:24,589 --> 00:52:22,740  
you enjoyed it

985  
00:52:26,450 --> 00:52:24,599  
I certainly did

986  
00:52:30,230 --> 00:52:26,460  
it was nice to be here

987  
00:52:35,750 --> 00:52:32,750  
you know do some work

988  
00:52:37,370 --> 00:52:35,760

do some serious work I thought it was

989

00:52:40,130 --> 00:52:37,380

cool

990

00:52:43,609 --> 00:52:40,140

so don't forget to like the video

991

00:52:46,069 --> 00:52:43,619

share and subscribe it subscribe to the

992

00:52:47,690 --> 00:52:46,079

YouTube if you have time that would be

993

00:52:49,790 --> 00:52:47,700

fantastic

994

00:52:53,150 --> 00:52:49,800

um tomorrow we got Mr J Christopher King

995

00:52:56,270 --> 00:52:53,160

in the house so I'm looking forward to

996

00:53:00,170 --> 00:52:56,280

getting down on Mr help boot offs uh

997

00:53:01,970 --> 00:53:00,180

paper that came up I'm also reading

998

00:53:04,970 --> 00:53:01,980

um

999

00:53:07,309 --> 00:53:04,980

uh invisible college right right now by

1000

00:53:08,870 --> 00:53:07,319

uh Jacques valet so

1001

00:53:11,150 --> 00:53:08,880

um when I'm done with that maybe I'll go

1002

00:53:12,349 --> 00:53:11,160

over some of the the good stuff uh from

1003

00:53:14,990 --> 00:53:12,359

that book that I'm finding because it's

1004

00:53:17,210 --> 00:53:15,000

a pretty good book so

1005

00:53:18,710 --> 00:53:17,220

but yeah that being said I appreciate

1006

00:53:20,750 --> 00:53:18,720

everyone's time I appreciate everyone

1007

00:53:22,609 --> 00:53:20,760

hanging out it's always pleasure it's

1008

00:53:25,490 --> 00:53:22,619

great to be back blah blah blah blah

1009

00:53:32,660 --> 00:53:25,500

blah so I will
