[Music]

2
00:00:32,389 --> 00:00:29,599

something often heard by someone who has

3
00:00:35,430 --> 00:00:32,399

experienced something anomalous is

4
00:00:37,030 --> 00:00:35,440

i didn't ask for this

5
00:00:39,110 --> 00:00:37,040

i didn't ask to have my life turned

6
00:00:41,830 --> 00:00:39,120

upside down i didn't ask for my thoughts

7
00:00:43,830 --> 00:00:41,840

to constantly be on ufos

8
00:00:46,869 --> 00:00:43,840

and always stuck on thinking about what

9
00:00:49,670 --> 00:00:46,879

peeked into my consciousness

10
00:00:52,980 --> 00:00:51,830

and why me

11
00:00:54,709 --> 00:00:52,990

what did i do

12
00:00:57,670 --> 00:00:54,719

[Music]

13
00:01:01,189 --> 00:00:59,430

i needed guidance and some help on how

14

00:01:03,590 --> 00:01:01,199

to live

15

00:01:06,469 --> 00:01:03,600

i was already lost and now i just feel

16

00:01:06,479 --> 00:01:10,830

how is any of this supposed to help

17

00:01:16,149 --> 00:01:13,670

me mean i can barely talk about it it's

18

00:01:19,749 --> 00:01:16,159

a struggle to tell someone i've known my

19

00:01:24,830 --> 00:01:21,350

sometimes when i do they'll look at me

20

00:01:27,429 --> 00:01:24,840

like i'm crazy and you know what i feel

21

00:01:31,030 --> 00:01:27,439

crazy i try to debunk my experience

22

00:01:38,310 --> 00:01:33,109

so who are they to claim dominance over

23

00:01:41,990 --> 00:01:40,230

and it's not fair to treat me like i'm

24

00:01:43,590 --> 00:01:42,000

weird because i've experienced something

25

00:01:45,590 --> 00:01:43,600

they haven't

26

00:01:47,749 --> 00:01:45,600

it's not fair to judge me against others

27

00:01:50,550 --> 00:01:47,759

who have said similar things

28

00:01:52,469 --> 00:01:50,560

but may have been lying

29

00:01:55,350 --> 00:01:52,479

it's not fair to treat me like i asked

30

00:02:01,270 --> 00:01:55,360

for this i didn't

31

00:02:01,280 --> 00:02:04,950

now that doesn't mean i know what it is

32

00:02:09,830 --> 00:02:06,830

and what i

33

00:02:12,790 --> 00:02:09,840

saw doesn't mean i know any more about

34

00:02:15,350 --> 00:02:12,800

this than anyone else

35

00:02:16,420 --> 00:02:15,360

but i'd like to know

36

00:02:19,510 --> 00:02:16,430

in my lifetime

37

00:02:21,350 --> 00:02:19,520

[Music]

38

00:02:23,589 --> 00:02:21,360

would be nice to deal with some other

39

00:02:26,630 --> 00:02:23,599

questions in life and focus on something

40

00:02:28,309 --> 00:02:26,640

else for a change

41

00:02:30,150 --> 00:02:28,319

and not be handcuffed to a giant

42

00:02:31,750 --> 00:02:30,160

question

43

00:02:33,910 --> 00:02:31,760

who are they

44

00:02:36,630 --> 00:02:33,920

why are they here

45

00:02:37,600 --> 00:02:36,640

and what do they want with me

46

00:02:40,229 --> 00:02:37,610

what do they want with us

47

00:02:42,309 --> 00:02:40,239

[Music]

48

00:02:44,470 --> 00:02:42,319

are we an active participant in whatever

49

00:02:49,110 --> 00:02:44,480

is happening here or more of an innocent

50

00:02:53,750 --> 00:02:51,270

it pains me most to think about all the

51
00:02:55,670 --> 00:02:53,760
people that passed away never having any

52
00:02:59,990 --> 00:02:55,680
of these questions answered although

53
00:03:04,390 --> 00:03:01,910
some people have spent their entire life

54
00:03:07,190 --> 00:03:04,400
looking for an answer only to die no

55
00:03:11,990 --> 00:03:07,200
farther along than i am

56
00:03:12,000 --> 00:03:15,430
so why am i saying all this

57
00:03:19,190 --> 00:03:16,869
i guess it's because i feel like

58
00:03:21,430 --> 00:03:19,200
experiences and the people who have them

59
00:03:25,509 --> 00:03:21,440
are often forgotten when in fact they

60
00:03:29,750 --> 00:03:27,750
we are going to gain any momentum on

61
00:03:31,509 --> 00:03:29,760
finding out what the different phenomena

62
00:03:33,030 --> 00:03:31,519
are

63
00:03:35,350 --> 00:03:33,040

trying to prove their existence by

64

00:03:36,949 --> 00:03:35,360

constantly battling over navy videos or

65

00:03:39,270 --> 00:03:36,959

government secrets and who's right and

66

00:03:41,509 --> 00:03:39,280

who's wrong it hasn't made any headway

67

00:03:43,670 --> 00:03:41,519

in 75 years and that is not likely to

68

00:03:44,830 --> 00:03:43,680

change

69

00:03:47,589 --> 00:03:44,840

but we can

70

00:03:50,789 --> 00:03:47,599

change we can move forward in knowing

71

00:03:54,309 --> 00:03:50,799

the phenomenon is real

72

00:03:58,789 --> 00:03:54,319

and when we finally do that

73

00:04:01,429 --> 00:03:58,799

we can truly confront its implications

74

00:04:04,630 --> 00:04:01,439

and move forward with an understanding

75

00:04:06,309 --> 00:04:04,640

that this life isn't what we thought

76

00:04:08,789 --> 00:04:06,319

it's actually more robust than we

77

00:04:12,830 --> 00:04:11,030

and in a way more beautiful

78

00:04:17,590 --> 00:04:12,840

and personally to

79

00:04:17,600 --> 00:04:22,629

so i'm turning to the next chapter

80

00:04:22,639 --> 00:04:31,670

here i come

81

00:04:34,950 --> 00:04:34,070

what's up everybody thanks for being

82

00:04:40,070 --> 00:04:34,960

here

83

00:04:42,230 --> 00:04:40,080

hey sean that was

84

00:04:44,469 --> 00:04:42,240

what an excellent intro that was

85

00:04:46,790 --> 00:04:44,479

beautiful that's really nice

86

00:04:47,830 --> 00:04:46,800

thanks music was great the eye candy was

87

00:04:48,950 --> 00:04:47,840

great

88

00:04:51,990 --> 00:04:48,960

um

89

00:04:53,909 --> 00:04:52,000

uh all the text was very heartfelt and

90

00:04:54,790 --> 00:04:53,919

it was beautiful man that was awesome

91

00:04:58,070 --> 00:04:54,800

thanks

92

00:05:02,230 --> 00:04:58,080

yeah it came from the old ticker

93

00:05:05,189 --> 00:05:03,590

yeah man

94

00:05:05,990 --> 00:05:05,199

i love you to see you

95

00:05:10,390 --> 00:05:06,000

yeah

96

00:05:12,790 --> 00:05:10,400

do something uh meaningful impactful of

97

00:05:15,430 --> 00:05:12,800

course you know and i was just

98

00:05:17,510 --> 00:05:15,440

uh thinking of all that different stuff

99

00:05:20,629 --> 00:05:17,520

today and just wanted a way to put it

100

00:05:22,790 --> 00:05:20,639

out there um so i did that i know it's

101
00:05:24,230 --> 00:05:22,800
five minutes but i do hope people

102
00:05:26,070 --> 00:05:24,240
appreciate it i do appreciate the

103
00:05:27,430 --> 00:05:26,080
comments in there on the video i do

104
00:05:30,150 --> 00:05:27,440
appreciate it

105
00:05:33,270 --> 00:05:30,160
very nice of you so thanks for joining

106
00:05:35,590 --> 00:05:33,280
us how have you been uh last week we

107
00:05:37,990 --> 00:05:35,600
were uh talking to

108
00:05:39,270 --> 00:05:38,000
um mr randall nickerson i thought that

109
00:05:40,150 --> 00:05:39,280
was great

110
00:05:42,150 --> 00:05:40,160
so

111
00:05:44,070 --> 00:05:42,160
how have you been since

112
00:05:45,990 --> 00:05:44,080
i've been good yeah i feel like that

113
00:05:49,350 --> 00:05:46,000

intro did a great job of kind of

114

00:05:52,390 --> 00:05:49,360

bringing in a lot of the sentiment

115

00:05:55,510 --> 00:05:52,400

that um we explored with randall uh last

116

00:05:57,590 --> 00:05:55,520

week and it was great to see that um

117

00:06:00,550 --> 00:05:57,600

you know that video

118

00:06:02,550 --> 00:06:00,560

that last week's episode um got some

119

00:06:04,629 --> 00:06:02,560

traction and got some conversations

120

00:06:07,749 --> 00:06:04,639

started online which is really

121

00:06:09,029 --> 00:06:07,759

really cool to see um i've been well

122

00:06:10,950 --> 00:06:09,039

i've been well

123

00:06:12,790 --> 00:06:10,960

that's because you opened up you know

124

00:06:14,870 --> 00:06:12,800

and and i think

125

00:06:16,710 --> 00:06:14,880

you know when people see that and the

126

00:06:18,950 --> 00:06:16,720

emotions involved

127

00:06:20,710 --> 00:06:18,960

with experiences and people who have

128

00:06:22,950 --> 00:06:20,720

them i think

129

00:06:25,270 --> 00:06:22,960

you know it's it's touching it's moving

130

00:06:27,270 --> 00:06:25,280

and it gets um

131

00:06:28,870 --> 00:06:27,280

it gets the ball rolling in different

132

00:06:30,469 --> 00:06:28,880

ways you know and thinking about the

133

00:06:32,150 --> 00:06:30,479

implications and what people deal with

134

00:06:34,710 --> 00:06:32,160

when they have experiences

135

00:06:36,309 --> 00:06:34,720

and how real this is because uh when it

136

00:06:37,350 --> 00:06:36,319

comes down to the human emotion they're

137

00:06:39,670 --> 00:06:37,360

like

138

00:06:41,749 --> 00:06:39,680

you can't fake that you know that that's

139

00:06:43,670 --> 00:06:41,759

real and p and

140

00:06:45,990 --> 00:06:43,680

people don't have to analyze it they can

141

00:06:46,870 --> 00:06:46,000

turn off their brains and they can feel

142

00:06:50,550 --> 00:06:46,880

it too

143

00:06:52,629 --> 00:06:50,560

you know so i think that's

144

00:06:54,950 --> 00:06:52,639

i thought that was awesome so that was a

145

00:06:56,870 --> 00:06:54,960

really awesome moment it's uh

146

00:07:00,150 --> 00:06:56,880

why i do this so

147

00:07:01,189 --> 00:07:00,160

oh man oh i appreciate that but you know

148

00:07:03,990 --> 00:07:01,199

and

149

00:07:06,070 --> 00:07:04,000

um it's great to have this place where

150

00:07:08,309 --> 00:07:06,080

we can do that and it feels like you

151
00:07:11,909 --> 00:07:08,319
know over the course of

152
00:07:13,029 --> 00:07:11,919
doing this consistently with you for

153
00:07:14,629 --> 00:07:13,039
over

154
00:07:17,589 --> 00:07:14,639
eight months now it's been about eight

155
00:07:19,909 --> 00:07:17,599
months and um wow has it been that long

156
00:07:21,510 --> 00:07:19,919
yeah isn't that cool and then i mean we

157
00:07:23,029 --> 00:07:21,520
we started at the beginning of december

158
00:07:24,790 --> 00:07:23,039
so that's eight months right there and

159
00:07:27,909 --> 00:07:24,800
now we're into the

160
00:07:28,790 --> 00:07:27,919
and um before that you know we'd

161
00:07:31,110 --> 00:07:28,800
um

162
00:07:32,870 --> 00:07:31,120
you'd had me on about once a month for

163
00:07:33,749 --> 00:07:32,880

maybe three or four months before that

164

00:07:36,550 --> 00:07:33,759

right

165

00:07:38,790 --> 00:07:37,430

well

166

00:07:40,710 --> 00:07:38,800

shoot and i couldn't get enough of you

167

00:07:42,870 --> 00:07:40,720

either but i think that you know

168

00:07:44,950 --> 00:07:42,880

the you already had a really wonderful

169

00:07:46,790 --> 00:07:44,960

searching tone established

170

00:07:50,550 --> 00:07:46,800

like before the first time that i popped

171

00:07:52,150 --> 00:07:50,560

up on on your stream yard and then

172

00:07:53,909 --> 00:07:52,160

you know over the course of the last

173

00:07:55,430 --> 00:07:53,919

months we've really developed a dialogue

174

00:07:57,510 --> 00:07:55,440

so the kinds

175

00:07:59,589 --> 00:07:57,520

the kinds of conversations

176

00:08:01,830 --> 00:07:59,599

that we're having right now and we have

177

00:08:04,390 --> 00:08:01,840

last week you know it's it's all a

178

00:08:06,950 --> 00:08:04,400

process of kind of like evolving with

179

00:08:09,189 --> 00:08:06,960

each other and with the audience and and

180

00:08:09,909 --> 00:08:09,199

how we were able to explore these themes

181

00:08:12,629 --> 00:08:09,919

so

182

00:08:14,790 --> 00:08:12,639

you know i i think as much as

183

00:08:17,029 --> 00:08:14,800

as you're pointing at me i'm pointing

184

00:08:18,390 --> 00:08:17,039

you know it's that classic situation of

185

00:08:19,990 --> 00:08:18,400

when you when you point at somebody you

186

00:08:21,350 --> 00:08:20,000

got three fingers pointed right back at

187

00:08:23,990 --> 00:08:21,360

you right

188

00:08:26,150 --> 00:08:24,000

yeah and you deserve a lot of credit for

189

00:08:28,629 --> 00:08:26,160

for what you do with this show i

190

00:08:31,270 --> 00:08:28,639

appreciate it man yeah it's not uh it

191

00:08:33,029 --> 00:08:31,280

can be you know to like a lot of things

192

00:08:35,589 --> 00:08:33,039

in life they could be somewhat thankless

193

00:08:37,589 --> 00:08:35,599

but um you know one

194

00:08:39,829 --> 00:08:37,599

at the end of the day the people in the

195

00:08:42,230 --> 00:08:39,839

chat and people on twitter and you know

196

00:08:43,909 --> 00:08:42,240

folks like yourself um

197

00:08:46,710 --> 00:08:43,919

really

198

00:08:48,310 --> 00:08:46,720

activate the feels you know and that's

199

00:08:49,030 --> 00:08:48,320

what it's all about that's the reminder

200

00:08:49,990 --> 00:08:49,040

of

201
00:08:51,990 --> 00:08:50,000

why

202
00:08:53,509 --> 00:08:52,000

you know i'm doing this to begin with is

203
00:08:54,949 --> 00:08:53,519

is because

204
00:08:57,190 --> 00:08:54,959

there's

205
00:08:58,949 --> 00:08:57,200
that's kind of like my hint that it's

206
00:08:59,910 --> 00:08:58,959
right whatever you're doing is right

207
00:09:01,990 --> 00:08:59,920
because

208
00:09:05,269 --> 00:09:02,000
you're touching something beautiful you

209
00:09:07,350 --> 00:09:05,279
know and and that's hard to measure so

210
00:09:09,350 --> 00:09:07,360
i like doing that yeah

211
00:09:10,550 --> 00:09:09,360
what were we gonna talk about today

212
00:09:12,470 --> 00:09:10,560
oh gosh

213
00:09:14,310 --> 00:09:12,480

well one thing you know we've got a lot

214

00:09:16,790 --> 00:09:14,320

of great things to talk about

215

00:09:19,269 --> 00:09:16,800

you know and i think one kind of last

216

00:09:21,750 --> 00:09:19,279

thing on the topic of last week before

217

00:09:22,870 --> 00:09:21,760

we go on yeah this week

218

00:09:25,990 --> 00:09:22,880

is that

219

00:09:28,310 --> 00:09:26,000

some people might not recognize um or

220

00:09:29,430 --> 00:09:28,320

realize what some of the undercurrent

221

00:09:32,070 --> 00:09:29,440

of

222

00:09:34,710 --> 00:09:32,080

like why i was thanking randall

223

00:09:36,470 --> 00:09:34,720

um and of course it had a lot to do with

224

00:09:37,750 --> 00:09:36,480

aerial phenomenon

225

00:09:40,150 --> 00:09:37,760

and

226

00:09:42,550 --> 00:09:40,160

great film amazing film one of the best

227

00:09:43,829 --> 00:09:42,560

kind of mature statements on

228

00:09:49,509 --> 00:09:43,839

on

229

00:09:51,750 --> 00:09:49,519

with an anomalous experience and and

230

00:09:53,750 --> 00:09:51,760

growing up and processing it

231

00:09:56,389 --> 00:09:53,760

you know from the from a first person

232

00:09:57,350 --> 00:09:56,399

perspective incredible and very mature

233

00:09:58,150 --> 00:09:57,360

that way

234

00:09:59,990 --> 00:09:58,160

um

235

00:10:02,069 --> 00:10:00,000

and also as we

236

00:10:04,550 --> 00:10:02,079

touched on previously

237

00:10:07,190 --> 00:10:04,560

um randall nickerson worked with john

238

00:10:09,430 --> 00:10:07,200

mack and is an experimenter himself

239

00:10:12,949 --> 00:10:09,440

and but one thing that we didn't touch

240

00:10:15,269 --> 00:10:12,959

on and it was partially by design um

241

00:10:17,990 --> 00:10:15,279

because it was it was important for us

242

00:10:19,590 --> 00:10:18,000

to focus on randall's current work is

243

00:10:22,069 --> 00:10:19,600

that randall was one of the first people

244

00:10:25,030 --> 00:10:22,079

to really come out

245

00:10:28,470 --> 00:10:25,040

as an experimenter publicly on television

246

00:10:29,269 --> 00:10:28,480

back in the 90s yeah that's right

247

00:10:32,389 --> 00:10:29,279

and

248

00:10:37,910 --> 00:10:32,399

the

249

00:10:40,550 --> 00:10:37,920

such a pioneer in that regard

250

00:10:41,509 --> 00:10:40,560

you know over 25 years was

251
00:10:43,190 --> 00:10:41,519
was

252
00:10:44,150 --> 00:10:43,200
a lot of

253
00:10:46,630 --> 00:10:44,160
um

254
00:10:47,670 --> 00:10:46,640
where my admiration was coming from

255
00:10:49,750 --> 00:10:47,680
um

256
00:10:52,710 --> 00:10:49,760
you know being able to take come from

257
00:10:55,750 --> 00:10:52,720
that perspective and he got hammered he

258
00:10:57,350 --> 00:10:55,760
got hammered for it by like incredibly

259
00:11:00,069 --> 00:10:57,360
famous interviewers

260
00:11:01,829 --> 00:11:00,079
for for and you know people would

261
00:11:04,310 --> 00:11:01,839
publicly debate in magazines and

262
00:11:07,190 --> 00:11:04,320
newspapers about you know when we talked

263
00:11:08,069 --> 00:11:07,200

about you know were the abductees

264

00:11:10,550 --> 00:11:08,079

just

265

00:11:11,910 --> 00:11:10,560

crazy or are they looking for fame or is

266

00:11:13,430 --> 00:11:11,920

this all just

267

00:11:16,949 --> 00:11:13,440

you know um

268

00:11:19,030 --> 00:11:16,959

a function of a misunderstanding of

269

00:11:21,269 --> 00:11:19,040

sleep and dreams and things like that

270

00:11:23,750 --> 00:11:21,279

sleep paralysis you know

271

00:11:26,150 --> 00:11:23,760

in some of those conversations they were

272

00:11:27,190 --> 00:11:26,160

talking in part about randall

273

00:11:31,509 --> 00:11:27,200

and

274

00:11:34,470 --> 00:11:31,519

recognize um

275

00:11:35,269 --> 00:11:34,480

you know the the strength that it took

276

00:11:43,750 --> 00:11:35,279

to

277

00:11:45,750 --> 00:11:43,760

field

278

00:11:48,630 --> 00:11:45,760

and you know move through a lot of

279

00:11:50,870 --> 00:11:48,640

processing and be able to

280

00:11:53,350 --> 00:11:50,880

um come back with as strong of a

281

00:11:57,350 --> 00:11:53,360

statement as aerial phenomenon and his

282

00:11:58,629 --> 00:11:57,360

upcoming films will be so what a revenge

283

00:12:00,069 --> 00:11:58,639

to her huh

284

00:12:03,910 --> 00:12:00,079

yeah

285

00:12:06,629 --> 00:12:03,920

that's absolutely right that's a good

286

00:12:09,269 --> 00:12:06,639

way to look at it yeah or or a hero's

287

00:12:11,750 --> 00:12:09,279

journey yeah yeah or both yeah that's

288

00:12:14,629 --> 00:12:11,760

more positive spin yeah

289

00:12:16,069 --> 00:12:14,639

no but uh and i can

290

00:12:18,310 --> 00:12:16,079

you know i can

291

00:12:22,310 --> 00:12:18,320

relate on a very small

292

00:12:24,069 --> 00:12:22,320

small small teeny scale but it's like

293

00:12:25,829 --> 00:12:24,079

you know i have the same kind of

294

00:12:28,470 --> 00:12:25,839

attitude where

295

00:12:31,110 --> 00:12:28,480

you know when i would play music

296

00:12:33,750 --> 00:12:31,120

and release songs you know if if one

297

00:12:36,230 --> 00:12:33,760

didn't go over a well or somebody gave a

298

00:12:38,550 --> 00:12:36,240

bad review or something i would go back

299

00:12:39,990 --> 00:12:38,560

to the the office the studio right i'd

300

00:12:43,110 --> 00:12:40,000

be like oh yeah yeah you didn't like

301
00:12:45,110 --> 00:12:43,120
that one huh okay well okay you know a

302
00:12:48,069 --> 00:12:45,120
few months later or whatever it's like

303
00:12:49,750 --> 00:12:48,079
how about this you know or whatever yeah

304
00:12:52,470 --> 00:12:49,760
except for him it was like 14 years

305
00:12:53,750 --> 00:12:52,480
later or whatever but you know even more

306
00:12:55,910 --> 00:12:53,760
than that but

307
00:12:57,829 --> 00:12:55,920
um yeah um

308
00:12:59,350 --> 00:12:57,839
but a powerful statement nonetheless you

309
00:13:00,710 --> 00:12:59,360
got to stick with it right it's an

310
00:13:03,190 --> 00:13:00,720
example

311
00:13:04,870 --> 00:13:03,200
stick with it and if you're doing

312
00:13:07,350 --> 00:13:04,880
good things that

313
00:13:08,949 --> 00:13:07,360

are are heart-led it'll pay off yeah

314

00:13:09,829 --> 00:13:08,959

absolutely

315

00:13:12,710 --> 00:13:09,839

so

316

00:13:13,670 --> 00:13:12,720

have

317

00:13:17,190 --> 00:13:13,680

um

318

00:13:20,870 --> 00:13:17,200

time with somebody who's who's a hero in

319

00:13:23,110 --> 00:13:20,880

in different ways for sure yeah um so uh

320

00:13:25,430 --> 00:13:23,120

for this week we were we were talking

321

00:13:27,990 --> 00:13:25,440

earlier in the day as we often do by

322

00:13:29,430 --> 00:13:28,000

text on the morning of a show

323

00:13:32,389 --> 00:13:29,440

and we've been kind of talking for a

324

00:13:34,710 --> 00:13:32,399

little while and you know this last week

325

00:13:37,670 --> 00:13:34,720

has been pretty eventful in a few

326

00:13:42,629 --> 00:13:39,910

yesterday

327

00:13:44,310 --> 00:13:42,639

the twittersphere and other other realms

328

00:13:45,350 --> 00:13:44,320

of the ufological

329

00:13:48,629 --> 00:13:45,360

lit up

330

00:13:50,310 --> 00:13:48,639

because gary nolan dr gary nolan from

331

00:13:52,470 --> 00:13:50,320

stanford um

332

00:13:54,470 --> 00:13:52,480

went on tucker carlson's show and gave

333

00:13:56,790 --> 00:13:54,480

an hour-long interview

334

00:13:58,629 --> 00:13:56,800

um and that lit up a lot of

335

00:14:01,189 --> 00:13:58,639

conversations for a lot of different

336

00:14:02,790 --> 00:14:01,199

reasons and we can talk about that maybe

337

00:14:03,750 --> 00:14:02,800

later in the show today

338

00:14:06,069 --> 00:14:03,760

um

339

00:14:08,389 --> 00:14:06,079

there's also a new arti there's a new

340

00:14:10,389 --> 00:14:08,399

interview with mike gallagher um who is

341

00:14:13,189 --> 00:14:10,399

a representative who

342

00:14:15,189 --> 00:14:13,199

who kind of famously now amongst our

343

00:14:17,590 --> 00:14:15,199

circles

344

00:14:19,430 --> 00:14:17,600

uh brought up the the

345

00:14:21,750 --> 00:14:19,440

wilson davis notes

346

00:14:24,230 --> 00:14:21,760

uh in the congressional subcommittee

347

00:14:26,069 --> 00:14:24,240

hearing back in may in front of moultrie

348

00:14:28,310 --> 00:14:26,079

and bray the first

349

00:14:29,670 --> 00:14:28,320

ufo hearings in congress in over 50

350

00:14:31,750 --> 00:14:29,680

years

351
00:14:33,829 --> 00:14:31,760
so there's some interesting

352
00:14:35,350 --> 00:14:33,839
information there where he

353
00:14:37,509 --> 00:14:35,360
talked about

354
00:14:38,870 --> 00:14:37,519
the wilson davis notes again in a new

355
00:14:40,230 --> 00:14:38,880
interview

356
00:14:42,949 --> 00:14:40,240
but first

357
00:14:45,030 --> 00:14:42,959
why don't do you want to look at

358
00:14:47,590 --> 00:14:45,040
dr hal put off

359
00:14:49,750 --> 00:14:47,600
uh put out this is

360
00:14:52,150 --> 00:14:49,760
this ultra-terrestrial models

361
00:14:55,590 --> 00:14:52,160
um this really lit up uh

362
00:14:58,710 --> 00:14:55,600
the online conversation as well

363
00:15:00,310 --> 00:14:58,720

this uh came out on sunday

364

00:15:01,910 --> 00:15:00,320

this last sunday

365

00:15:03,829 --> 00:15:01,920

and

366

00:15:04,949 --> 00:15:03,839

boy boy boy uh

367

00:15:09,509 --> 00:15:04,959

did

368

00:15:11,750 --> 00:15:09,519

now for those that don't know

369

00:15:14,069 --> 00:15:11,760

maybe we should set up first who how put

370

00:15:15,750 --> 00:15:14,079

off is really briefly and

371

00:15:17,430 --> 00:15:15,760

where did this and where did this paper

372

00:15:19,269 --> 00:15:17,440

come from so

373

00:15:20,150 --> 00:15:19,279

so um

374

00:15:22,870 --> 00:15:20,160

uh

375

00:15:24,629 --> 00:15:22,880

just for those of you that have been

376

00:15:26,710 --> 00:15:24,639

um

377

00:15:29,590 --> 00:15:26,720

not in the conversation for too long hal

378

00:15:31,350 --> 00:15:29,600

put off um he works at a company that he

379

00:15:34,069 --> 00:15:31,360

founded right now called earth tech

380

00:15:36,470 --> 00:15:34,079

international he's also the director of

381

00:15:38,470 --> 00:15:36,480

and of the institute for advanced

382

00:15:41,310 --> 00:15:38,480

studies at austin

383

00:15:44,069 --> 00:15:41,320

um he earned his phd from stanford in

384

00:15:47,030 --> 00:15:44,079

1967 as a theoretical and experimental

385

00:15:49,590 --> 00:15:47,040

physicist specializing in lasers

386

00:15:51,670 --> 00:15:49,600

and his present research typically

387

00:15:54,710 --> 00:15:51,680

ranged from theoretical studies

388

00:15:58,150 --> 00:15:54,720

concerning fundamental electrodynamics

389

00:15:59,829 --> 00:15:58,160

gravitation and the quantum vacuum to

390

00:16:01,910 --> 00:15:59,839

laboratory studies of innovative

391

00:16:03,430 --> 00:16:01,920

approaches to energy generation and

392

00:16:06,629 --> 00:16:03,440

space propulsion

393

00:16:07,670 --> 00:16:06,639

it's a long-winded way of saying that he

394

00:16:08,790 --> 00:16:07,680

has been

395

00:16:13,670 --> 00:16:08,800

a

396

00:16:16,550 --> 00:16:13,680

long time

397

00:16:18,069 --> 00:16:16,560

since the early 70s famously he was

398

00:16:20,870 --> 00:16:18,079

involved in

399

00:16:22,550 --> 00:16:20,880

the cia's remote viewing program with

400

00:16:23,590 --> 00:16:22,560

stanford research

401
00:16:26,389 --> 00:16:23,600
um

402
00:16:28,069 --> 00:16:26,399
uh institute where he was stationed for

403
00:16:30,069 --> 00:16:28,079
quite a long time working with people

404
00:16:32,470 --> 00:16:30,079
like english

405
00:16:34,949 --> 00:16:32,480
it's a big program i mean some of those

406
00:16:37,269 --> 00:16:34,959
programs worked on things like the iran

407
00:16:40,230 --> 00:16:37,279
hostage crisis and had some actual

408
00:16:41,910 --> 00:16:40,240
success with it uh i ran for about 20

409
00:16:46,550 --> 00:16:41,920
years i believe

410
00:16:49,430 --> 00:16:46,560
um and you know i really really really

411
00:16:50,550 --> 00:16:49,440
really did i say really doubt that it

412
00:16:52,790 --> 00:16:50,560
stopped

413
00:16:54,310 --> 00:16:52,800

uh when the funding ran out for that

414

00:16:56,949 --> 00:16:54,320

actually like towards the end a lot of

415

00:16:57,829 --> 00:16:56,959

people um what was the name of it again

416

00:16:59,829 --> 00:16:57,839

um

417

00:17:04,150 --> 00:16:59,839

yeah it's project stargate you mean yeah

418

00:17:06,789 --> 00:17:04,160

stargate so stargate was uh really um

419

00:17:09,510 --> 00:17:06,799

tied into the cia people think of the

420

00:17:11,270 --> 00:17:09,520

cia a lot with starkid um but it

421

00:17:14,470 --> 00:17:11,280

actually a lot of it got moved to the

422

00:17:17,029 --> 00:17:14,480

dia you know which you actually start

423

00:17:18,630 --> 00:17:17,039

seeing the more you dig the dia has had

424

00:17:21,429 --> 00:17:18,640

their hands on

425

00:17:23,270 --> 00:17:21,439

all this phenomena type of stuff for a

426

00:17:26,150 --> 00:17:23,280

very long time

427

00:17:29,430 --> 00:17:26,160

absolutely and it's true that that when

428

00:17:30,789 --> 00:17:29,440

people look at hal put off's career

429

00:17:33,029 --> 00:17:30,799

you can really

430

00:17:34,630 --> 00:17:33,039

create start to create and people have

431

00:17:37,270 --> 00:17:34,640

in the past create

432

00:17:38,070 --> 00:17:37,280

a pretty good mind map

433

00:17:41,430 --> 00:17:38,080

for

434

00:17:42,950 --> 00:17:41,440

some of the more

435

00:17:43,990 --> 00:17:42,960

accessible

436

00:17:44,870 --> 00:17:44,000

um

437

00:17:47,750 --> 00:17:44,880

uh

438

00:17:50,230 --> 00:17:47,760

kind of leading edge programs with

439

00:17:53,190 --> 00:17:50,240

regard to the phenomenon have been

440

00:17:54,390 --> 00:17:53,200

in the early 70s at stanford research

441

00:17:57,190 --> 00:17:54,400

institute

442

00:18:01,750 --> 00:17:57,200

with the cia how was there and then

443

00:18:05,750 --> 00:18:01,760

towards say by the end of the 90s he was

444

00:18:08,150 --> 00:18:05,760

under a dia contract uh at nids the

445

00:18:09,430 --> 00:18:08,160

national institute for discovery science

446

00:18:13,350 --> 00:18:09,440

um

447

00:18:14,789 --> 00:18:13,360

working with people like eric davis and

448

00:18:15,830 --> 00:18:14,799

bob bigelow

449

00:18:20,230 --> 00:18:15,840

and

450

00:18:21,270 --> 00:18:20,240

other people over there

451
00:18:23,909 --> 00:18:21,280
and then

452
00:18:26,950 --> 00:18:23,919
um moving through he was

453
00:18:28,789 --> 00:18:26,960
a huge he had a huge impact in the asap

454
00:18:30,549 --> 00:18:28,799
program that was written about in

455
00:18:31,590 --> 00:18:30,559
skinwalkers at the pentagon and

456
00:18:33,830 --> 00:18:31,600
elsewhere

457
00:18:36,950 --> 00:18:33,840
which is interesting right because uh a

458
00:18:39,190 --> 00:18:36,960
common um you know

459
00:18:40,390 --> 00:18:39,200
common argument against you know asap

460
00:18:41,510 --> 00:18:40,400
and everything is

461
00:18:43,350 --> 00:18:41,520
you know

462
00:18:46,070 --> 00:18:43,360
someone got convinced up a couple of

463
00:18:47,430 --> 00:18:46,080

crazy stories to start this uh program

464

00:18:49,190 --> 00:18:47,440

out the middle of nowhere but they

465

00:18:51,990 --> 00:18:49,200

completely forget that these people have

466

00:18:53,430 --> 00:18:52,000

been involved in paranormal phenomena

467

00:18:56,230 --> 00:18:53,440

with the government

468

00:18:58,390 --> 00:18:56,240

for a lot longer than that you know way

469

00:18:59,430 --> 00:18:58,400

before that started you know so it's not

470

00:19:01,669 --> 00:18:59,440

like they're

471

00:19:03,270 --> 00:19:01,679

bringing in a couple of stranger gumshoe

472

00:19:04,870 --> 00:19:03,280

people and going hey you saw something

473

00:19:06,789 --> 00:19:04,880

weird at a ranch huh here's a couple

474

00:19:08,630 --> 00:19:06,799

million bucks like they have

475

00:19:11,270 --> 00:19:08,640

you know relationships with these people

476

00:19:13,110 --> 00:19:11,280

going back decades you know so

477

00:19:15,270 --> 00:19:13,120

you know that's an important thing to

478

00:19:17,430 --> 00:19:15,280

keep in mind uh in regards to the oscip

479

00:19:20,549 --> 00:19:17,440

and skidmarker ranch i think so

480

00:19:24,630 --> 00:19:20,559

oh absolutely 100 and you know not only

481

00:19:27,270 --> 00:19:24,640

that um people like russell targ and hal

482

00:19:29,110 --> 00:19:27,280

put off weren't just kind of like

483

00:19:30,310 --> 00:19:29,120

wingnut psychics hanging out in a

484

00:19:33,350 --> 00:19:30,320

basement

485

00:19:34,789 --> 00:19:33,360

near stanford uh these were people that

486

00:19:36,310 --> 00:19:34,799

had

487

00:19:39,110 --> 00:19:36,320

really really

488

00:19:41,830 --> 00:19:39,120

um

489

00:19:42,950 --> 00:19:41,840

high level impressive careers

490

00:19:45,510 --> 00:19:42,960

um

491

00:19:48,230 --> 00:19:45,520

you know as physicists and right and

492

00:19:49,990 --> 00:19:48,240

were experts in field in in

493

00:19:52,390 --> 00:19:50,000

in fields

494

00:19:53,909 --> 00:19:52,400

that were as practical as laser

495

00:19:55,590 --> 00:19:53,919

technology right

496

00:19:58,470 --> 00:19:55,600

before moving into these kinds of

497

00:20:01,110 --> 00:19:58,480

directions and as we know now you know

498

00:20:03,430 --> 00:20:01,120

hal is quietly working on

499

00:20:05,350 --> 00:20:03,440

projects and he only kind of pops up

500

00:20:07,110 --> 00:20:05,360

every once in a while

501
00:20:10,390 --> 00:20:07,120
uh in recent years

502
00:20:11,990 --> 00:20:10,400
and he'll kind of like drop a big bomb

503
00:20:14,470 --> 00:20:12,000
bombshell speech

504
00:20:16,070 --> 00:20:14,480
at a industry convention and the video

505
00:20:18,310 --> 00:20:16,080
eventually makes it out or something

506
00:20:20,630 --> 00:20:18,320
like that some months later and we just

507
00:20:22,470 --> 00:20:20,640
kind of like this paper yeah and it's

508
00:20:25,350 --> 00:20:22,480
kind of like this paper and you'll

509
00:20:28,070 --> 00:20:25,360
notice italian from this paper to gary

510
00:20:31,270 --> 00:20:28,080
nolan with tucker carlson too

511
00:20:33,830 --> 00:20:31,280
absolutely absolutely absolutely we're

512
00:20:36,470 --> 00:20:33,840
we're painting a kind of a big picture

513
00:20:38,149 --> 00:20:36,480

here now another thing about hal is if

514

00:20:40,710 --> 00:20:38,159

if you go on the if anybody out there

515

00:20:43,669 --> 00:20:40,720

goes on to the earth tech website

516

00:20:46,070 --> 00:20:43,679

they'll find that hal's got a crazy

517

00:20:47,350 --> 00:20:46,080

bibliography page a list of a bunch of

518

00:20:49,029 --> 00:20:47,360

his articles

519

00:20:49,909 --> 00:20:49,039

and and

520

00:20:50,789 --> 00:20:49,919

you know

521

00:20:54,070 --> 00:20:50,799

say

522

00:20:55,750 --> 00:20:54,080

just looking over here uh in 2010 he

523

00:20:57,350 --> 00:20:55,760

published a paper called advanced space

524

00:20:59,510 --> 00:20:57,360

propulsion based on

525

00:21:01,190 --> 00:20:59,520

vacuum space-time metric engineering

526
00:21:04,149 --> 00:21:01,200
right um

527
00:21:06,549 --> 00:21:04,159
there was one in 2016 quantum ground

528
00:21:08,149 --> 00:21:06,559
states as equilibrium particle vacuum

529
00:21:10,310 --> 00:21:08,159
interaction states

530
00:21:11,830 --> 00:21:10,320
and you know a lot of these

531
00:21:15,510 --> 00:21:11,840
are are in

532
00:21:18,470 --> 00:21:15,520
very large mainstream journals like the

533
00:21:20,710 --> 00:21:18,480
uh european journal of physics

534
00:21:24,070 --> 00:21:20,720
um and

535
00:21:25,909 --> 00:21:24,080
and he's even written papers for nasa i

536
00:21:28,470 --> 00:21:25,919
mean if you want to get as big as it

537
00:21:30,390 --> 00:21:28,480
gets like he's written papers for at

538
00:21:33,990 --> 00:21:30,400

nasa yeah you know

539

00:21:38,870 --> 00:21:35,830

and places like the journal for british

540

00:21:41,830 --> 00:21:38,880

interplanetary uh the journal of british

541

00:21:44,390 --> 00:21:41,840

interplanetary society and that's one of

542

00:21:46,390 --> 00:21:44,400

the oldest um aeronautics

543

00:21:47,830 --> 00:21:46,400

scientific journals uh that's still

544

00:21:50,070 --> 00:21:47,840

around i think that that started in

545

00:21:53,029 --> 00:21:50,080

about 1934. so anyway the guy gets

546

00:21:55,270 --> 00:21:53,039

around he publishes widely and um and

547

00:21:58,310 --> 00:21:55,280

however this paper

548

00:21:59,350 --> 00:21:58,320

has a really really interesting history

549

00:22:04,630 --> 00:21:59,360

um

550

00:22:07,110 --> 00:22:04,640

first that i heard about this paper was

551
00:22:10,070 --> 00:22:07,120
maybe six or seven years ago

552
00:22:12,710 --> 00:22:10,080
oh well um and and this has been kind of

553
00:22:13,590 --> 00:22:12,720
a long rumored paper

554
00:22:16,310 --> 00:22:13,600
um

555
00:22:18,070 --> 00:22:16,320
or a version of this paper has been a

556
00:22:20,710 --> 00:22:18,080
long rumored paper

557
00:22:21,990 --> 00:22:20,720
that that it was like oh you know i i

558
00:22:23,909 --> 00:22:22,000
don't know if you know this or not but

559
00:22:25,909 --> 00:22:23,919
hal put off really went out on a limb

560
00:22:27,750 --> 00:22:25,919
and he wrote this paper that people have

561
00:22:30,549 --> 00:22:27,760
been passing around a little bit

562
00:22:33,750 --> 00:22:30,559
on the ultra-terrestrial hypothesis

563
00:22:36,070 --> 00:22:33,760

and you know for from reading

564

00:22:38,630 --> 00:22:36,080

you know you hear about the guy that was

565

00:22:41,029 --> 00:22:38,640

in the remote viewing program well that

566

00:22:43,270 --> 00:22:41,039

co-founded it and then went on to

567

00:22:45,590 --> 00:22:43,280

write papers on polarizable vacuum

568

00:22:48,310 --> 00:22:45,600

approaches to general relativity you

569

00:22:51,029 --> 00:22:48,320

know for him to kind of go out on a limb

570

00:22:54,789 --> 00:22:51,039

and to write about the possibility

571

00:22:58,870 --> 00:22:54,799

uh that there is maybe another

572

00:23:00,710 --> 00:22:58,880

uh species on earth that that considers

573

00:23:04,070 --> 00:23:00,720

this a home

574

00:23:06,149 --> 00:23:04,080

you know that was that was a pretty um

575

00:23:08,950 --> 00:23:06,159

that was a pretty big bombshell even as

576

00:23:11,750 --> 00:23:08,960

a rumor years ago

577

00:23:13,110 --> 00:23:11,760

yeah it kind of reminds me of uh you

578

00:23:14,950 --> 00:23:13,120

know when you hear about how people

579

00:23:16,149 --> 00:23:14,960

talked about valet or john keel when

580

00:23:18,149 --> 00:23:16,159

they started coming out with their

581

00:23:19,669 --> 00:23:18,159

different hypotheses that weren't just

582

00:23:22,070 --> 00:23:19,679

extraterrestrial

583

00:23:23,430 --> 00:23:22,080

you know i feel like

584

00:23:25,710 --> 00:23:23,440

you know throughout the years when

585

00:23:29,029 --> 00:23:25,720

people go well maybe it's not

586

00:23:30,710 --> 00:23:29,039

extraterrestrial per se maybe it's

587

00:23:32,549 --> 00:23:30,720

oh what the hell

588

00:23:34,630 --> 00:23:32,559

[Laughter]

589

00:23:37,110 --> 00:23:34,640

confused and angry like now i gotta

590

00:23:38,710 --> 00:23:37,120

think about this thing so but you know

591

00:23:41,830 --> 00:23:38,720

as you go through the paper he does a

592

00:23:44,149 --> 00:23:41,840

really good job of uh you know um

593

00:23:47,310 --> 00:23:44,159

getting to the point of you know what to

594

00:23:49,750 --> 00:23:47,320

look for if it was extraterrestrial or

595

00:23:51,830 --> 00:23:49,760

ultra-terrestrial or you know uh

596

00:23:53,350 --> 00:23:51,840

basically um

597

00:23:55,430 --> 00:23:53,360

you know people traveling in time

598

00:23:58,070 --> 00:23:55,440

machines and all that time travelers so

599

00:24:00,070 --> 00:23:58,080

i really appreciate that so um because

600

00:24:01,590 --> 00:24:00,080

it gives you a good basis

601
00:24:03,750 --> 00:24:01,600
for how to study and look at this to

602
00:24:05,190 --> 00:24:03,760
begin with but as you see and he kind of

603
00:24:06,230 --> 00:24:05,200
points out in the beginning here there

604
00:24:08,070 --> 00:24:06,240
could be a

605
00:24:09,269 --> 00:24:08,080
you know a mesh

606
00:24:11,430 --> 00:24:09,279
of all of them

607
00:24:13,669 --> 00:24:11,440
you know and you can kind of tell as you

608
00:24:15,909 --> 00:24:13,679
go through the paper like well yeah it's

609
00:24:17,269 --> 00:24:15,919
kind of got a little here a little there

610
00:24:21,430 --> 00:24:17,279
so

611
00:24:23,590 --> 00:24:21,440
and as katie thanks for joining us katie

612
00:24:25,510 --> 00:24:23,600
um and thanks to everybody over in the

613
00:24:27,430 --> 00:24:25,520

chat katie points out honestly it's a

614

00:24:28,870 --> 00:24:27,440

great starting point to orient new folks

615

00:24:31,430 --> 00:24:28,880

to all the theories

616

00:24:33,110 --> 00:24:31,440

abs i completely agree i know sean i

617

00:24:34,789 --> 00:24:33,120

think does as well as he's just saying

618

00:24:36,710 --> 00:24:34,799

and you know that's why we're going to

619

00:24:37,669 --> 00:24:36,720

go through this puppy today

620

00:24:41,110 --> 00:24:37,679

because

621

00:24:44,470 --> 00:24:41,120

it's a relatively short paper um and and

622

00:24:46,710 --> 00:24:44,480

at the same time uh it's it is pretty

623

00:24:49,190 --> 00:24:46,720

much geared for a wide audience to be

624

00:24:50,310 --> 00:24:49,200

able to entertain these these these

625

00:24:51,350 --> 00:24:50,320

notions

626
00:24:55,029 --> 00:24:51,360
and

627
00:24:55,909 --> 00:24:55,039
for many people in the audience that

628
00:24:57,830 --> 00:24:55,919
aren't

629
00:25:00,950 --> 00:24:57,840
quite as

630
00:25:04,470 --> 00:25:00,960
enthusiastic about the minutia of the

631
00:25:05,510 --> 00:25:04,480
field as sean or i am you might not

632
00:25:08,549 --> 00:25:05,520
have

633
00:25:10,870 --> 00:25:08,559
decided as of yet that you had

634
00:25:12,830 --> 00:25:10,880
uh 20 minutes in your day

635
00:25:14,710 --> 00:25:12,840
to read to read a

636
00:25:17,269 --> 00:25:14,720
paper um

637
00:25:19,909 --> 00:25:17,279
from a theoretical physicist right right

638
00:25:21,750 --> 00:25:19,919

and we'd we totally get that um however

639

00:25:23,750 --> 00:25:21,760

this is totally worth it

640

00:25:26,789 --> 00:25:23,760

um well you want to get you want to get

641

00:25:28,390 --> 00:25:26,799

rolling sure man um do you want to do

642

00:25:31,110 --> 00:25:28,400

you want to roll the old mouse while i

643

00:25:33,590 --> 00:25:31,120

um while i read here cool

644

00:25:35,029 --> 00:25:33,600

all right cool um your version is going

645

00:25:36,630 --> 00:25:35,039

to be a little bit smaller than mine so

646

00:25:37,990 --> 00:25:36,640

i'm just going to open up my version as

647

00:25:39,990 --> 00:25:38,000

well and you can just kind of follow

648

00:25:43,510 --> 00:25:40,000

along on the screen here that's right

649

00:25:45,269 --> 00:25:43,520

sure so i'm starting on the abstract

650

00:25:46,630 --> 00:25:45,279

um i'm not going to do the voice i'm not

651

00:25:48,149 --> 00:25:46,640

going to do how's voice it'd be really

652

00:25:49,590 --> 00:25:48,159

hard to do his voice anyway yeah that's

653

00:25:50,390 --> 00:25:49,600

not a easy one

654

00:25:53,190 --> 00:25:50,400

yeah

655

00:25:55,350 --> 00:25:53,200

um abstract under consideration in this

656

00:25:56,149 --> 00:25:55,360

paper are two seminal statements and

657

00:25:58,870 --> 00:25:56,159

their

658

00:26:01,830 --> 00:25:58,880

con commitments currently unknown as

659

00:26:04,230 --> 00:26:01,840

follows one there is an unidentified

660

00:26:06,710 --> 00:26:04,240

phenomenon interacting with the current

661

00:26:09,269 --> 00:26:06,720

human population on earth

662

00:26:11,070 --> 00:26:09,279

two it is currently unknown whether the

663

00:26:12,630 --> 00:26:11,080

phenomenon is exclusively

664

00:26:14,269 --> 00:26:12,640

extraterrestrial

665

00:26:15,830 --> 00:26:14,279

extra dimensional

666

00:26:17,669 --> 00:26:15,840

crypto-terrestrial

667

00:26:19,750 --> 00:26:17,679

demonic or gen

668

00:26:22,710 --> 00:26:19,760

proto-ancient human

669

00:26:26,149 --> 00:26:22,720

time travelers etc or some combination

670

00:26:28,149 --> 00:26:26,159

or mutation of any or all of these

671

00:26:31,430 --> 00:26:28,159

however it appears highly likely that

672

00:26:34,149 --> 00:26:31,440

the phenomenon per se is not constituted

673

00:26:36,470 --> 00:26:34,159

exclusively of members of the current

674

00:26:38,630 --> 00:26:36,480

human population

675

00:26:41,669 --> 00:26:38,640

in this paper we address the above under

676
00:26:43,750 --> 00:26:41,679
the overarching theme ultraterrestrials

677
00:26:46,710 --> 00:26:43,760
in order to develop a template to be

678
00:26:49,430 --> 00:26:46,720
matched against data at hand and that

679
00:26:51,269 --> 00:26:49,440
may be procured in the future

680
00:26:53,430 --> 00:26:51,279
keywords extraterrestrials

681
00:26:57,029 --> 00:26:53,440
ultra-terrestrials time travelers

682
00:26:59,830 --> 00:26:57,039
forensics disclosure

683
00:27:02,310 --> 00:26:59,840
background as one takes a decades-long

684
00:27:04,549 --> 00:27:02,320
view of the unidentified aerial

685
00:27:07,190 --> 00:27:04,559
phenomenon topic it is easy to become

686
00:27:09,990 --> 00:27:07,200
frustrated by what one sees as a lack of

687
00:27:13,110 --> 00:27:10,000
robust progress in establishing sure and

688
00:27:15,669 --> 00:27:13,120

certain iron-clad data points about even

689

00:27:17,909 --> 00:27:15,679

the most fundamental of issues these

690

00:27:19,269 --> 00:27:17,919

issues prompt such key questions as

691

00:27:21,510 --> 00:27:19,279

follows

692

00:27:24,870 --> 00:27:21,520

is the phenomenon predominantly nuts and

693

00:27:27,830 --> 00:27:24,880

bolts psychological or metaphysical

694

00:27:29,750 --> 00:27:27,840

assuming such distinctions can be made

695

00:27:31,750 --> 00:27:29,760

a great question

696

00:27:33,830 --> 00:27:31,760

is the source of the phenomenon

697

00:27:36,870 --> 00:27:33,840

predominantly terrestrial

698

00:27:38,389 --> 00:27:36,880

ultra-terrestrial eg and ancient occult

699

00:27:41,830 --> 00:27:38,399

group ice

700

00:27:43,990 --> 00:27:41,840

isolated prediluvial high-tech society

701
00:27:47,350 --> 00:27:44,000
possibly stranded ets that are thought

702
00:27:49,029 --> 00:27:47,360
of as gods or extraterrestrial assuming

703
00:27:51,269 --> 00:27:49,039
that distinctions between these

704
00:27:53,830 --> 00:27:51,279
alternatives are meaningful

705
00:27:55,190 --> 00:27:53,840
deluvial just you know as pre-flood like

706
00:27:56,710 --> 00:27:55,200
basically

707
00:27:57,669 --> 00:27:56,720
that's right that's right

708
00:27:59,190 --> 00:27:57,679
yeah

709
00:28:01,190 --> 00:27:59,200
and you know i didn't know what that

710
00:28:02,549 --> 00:28:01,200
word meant i had to look it up so that's

711
00:28:05,190 --> 00:28:02,559
why i'm saying it

712
00:28:07,830 --> 00:28:05,200
and there definitely have been some like

713
00:28:09,269 --> 00:28:07,840

big ass floods in in our in in the

714

00:28:11,029 --> 00:28:09,279

history of the world regardless of

715

00:28:13,110 --> 00:28:11,039

whether you're a big bible believer or

716

00:28:14,789 --> 00:28:13,120

not we can look at the rocks and find

717

00:28:15,669 --> 00:28:14,799

that to be the case right

718

00:28:17,269 --> 00:28:15,679

um

719

00:28:20,149 --> 00:28:17,279

so

720

00:28:22,710 --> 00:28:20,159

has the phenomenon ramped up in our era

721

00:28:24,470 --> 00:28:22,720

or has it been essentially constant over

722

00:28:26,789 --> 00:28:24,480

millennia

723

00:28:29,269 --> 00:28:26,799

are oftentimes related topics such as

724

00:28:32,149 --> 00:28:29,279

claimed abductions crop circles and

725

00:28:34,710 --> 00:28:32,159

animal mutilations truly related or are

726

00:28:36,710 --> 00:28:34,720

they separate categories of phenomena

727

00:28:39,110 --> 00:28:36,720

another great question

728

00:28:41,190 --> 00:28:39,120

are institutions such as governments

729

00:28:42,230 --> 00:28:41,200

truly that much more knowledgeable than

730

00:28:44,070 --> 00:28:42,240

we are

731

00:28:46,630 --> 00:28:44,080

even if only in certain protected

732

00:28:49,510 --> 00:28:46,640

domains or are they essentially in the

733

00:28:51,510 --> 00:28:49,520

same position as we are give or take

734

00:28:53,110 --> 00:28:51,520

some hard data in hand

735

00:28:55,350 --> 00:28:53,120

another great question

736

00:28:57,510 --> 00:28:55,360

yeah now critique

737

00:29:00,310 --> 00:28:57,520

as we critique our position vis-a-vis

738

00:29:02,070 --> 00:29:00,320

these issues three factors stand out as

739

00:29:04,789 --> 00:29:02,080

weaknesses that potentially could be

740

00:29:06,710 --> 00:29:04,799

addressed by developing new strategies

741

00:29:09,990 --> 00:29:06,720

they are one

742

00:29:12,389 --> 00:29:10,000

data gathering is essentially passive

743

00:29:14,470 --> 00:29:12,399

typically events are reported and data

744

00:29:16,789 --> 00:29:14,480

are gathered and analyzed this

745

00:29:19,110 --> 00:29:16,799

constitutes essentially a reactive as

746

00:29:20,950 --> 00:29:19,120

opposed to a proactive mode

747

00:29:22,950 --> 00:29:20,960

this is not meant as a pejorative

748

00:29:25,350 --> 00:29:22,960

statement astrophysicists find

749

00:29:28,549 --> 00:29:25,360

themselves in the same situation

750

00:29:30,149 --> 00:29:28,559

even seemingly proactive movements such

751

00:29:32,789 --> 00:29:30,159

as john greenwald

752

00:29:34,789 --> 00:29:32,799

junior's foia document

753

00:29:37,350 --> 00:29:34,799

foia government documents search in the

754

00:29:40,149 --> 00:29:37,360

public arena or attempted collection of

755

00:29:41,430 --> 00:29:40,159

the detritus of classified programs by

756

00:29:44,070 --> 00:29:41,440

some

757

00:29:46,149 --> 00:29:44,080

under special protected conditions

758

00:29:49,269 --> 00:29:46,159

simply constitute efforts to cause the

759

00:29:51,510 --> 00:29:49,279

government to release data to passive

760

00:29:53,430 --> 00:29:51,520

ever hopeful recipients

761

00:29:55,029 --> 00:29:53,440

the ball is still in someone else's

762

00:29:57,430 --> 00:29:55,039

court

763

00:29:59,750 --> 00:29:57,440

other more proactive measures could be

764

00:30:02,549 --> 00:29:59,760

taken ranging from the relatively

765

00:30:05,430 --> 00:30:02,559

prosaic eg setting up all-weather

766

00:30:07,909 --> 00:30:05,440

all-sky optical or infrared monitoring

767

00:30:09,190 --> 00:30:07,919

stations through the more tech intensive

768

00:30:11,830 --> 00:30:09,200

approaches

769

00:30:14,310 --> 00:30:11,840

like magnetic disturbance and rf

770

00:30:15,909 --> 00:30:14,320

gigahertz detectors multi-variable

771

00:30:19,830 --> 00:30:15,919

monitoring suites

772

00:30:23,029 --> 00:30:19,840

and exo archaeological investigations

773

00:30:25,510 --> 00:30:23,039

to the arcane eg search for evidence of

774

00:30:28,389 --> 00:30:25,520

anomalous manipulation of human genetic

775

00:30:33,029 --> 00:30:28,399

structure and stretching to the esoteric

776

00:30:37,190 --> 00:30:35,510

so boy already he's going he's moving

777

00:30:40,230 --> 00:30:37,200

through a blistering

778

00:30:42,149 --> 00:30:40,240

array of approaches and considerations

779

00:30:43,350 --> 00:30:42,159

with regard to these topics so we're

780

00:30:44,870 --> 00:30:43,360

going to keep moving through here and

781

00:30:46,630 --> 00:30:44,880

then we're going to and

782

00:30:49,190 --> 00:30:46,640

maybe we can come back to some of these

783

00:30:50,789 --> 00:30:49,200

how's that sound sean yeah sure

784

00:30:54,230 --> 00:30:50,799

you need a break

785

00:30:56,870 --> 00:30:54,240

give it a shot okay good uh okay so two

786

00:30:59,029 --> 00:30:56,880

by and large our models hypotheses are

787

00:31:01,430 --> 00:30:59,039

relatively circumscribed

788

00:31:03,350 --> 00:31:01,440

as stated in entry to above although

789

00:31:05,430 --> 00:31:03,360

interested parties tend to be proponents

790

00:31:08,230 --> 00:31:05,440

of what would appear to be a wide range

791

00:31:11,190 --> 00:31:08,240

of hypotheses ranging from it's all

792

00:31:13,190 --> 00:31:11,200

psychological check your dsm-5

793

00:31:15,509 --> 00:31:13,200

through interdimensional time travelers

794

00:31:18,310 --> 00:31:15,519

and angels to graze an advanced

795

00:31:20,870 --> 00:31:18,320

spacecraft from zeta reticuli there are

796

00:31:23,509 --> 00:31:20,880

additional options that though mentioned

797

00:31:26,070 --> 00:31:23,519

in passing in the literature are not

798

00:31:28,070 --> 00:31:26,080

taken very seriously and therefore go

799

00:31:29,990 --> 00:31:28,080

relatively unresearched

800

00:31:33,269 --> 00:31:30,000

these include such categories as a

801
00:31:36,389 --> 00:31:33,279
hidden community of et's or gods

802
00:31:38,230 --> 00:31:36,399
possibly stranded here millennia ago

803
00:31:39,909 --> 00:31:38,240
allah zechariah citchin's earth

804
00:31:42,389 --> 00:31:39,919
chronicles series

805
00:31:45,110 --> 00:31:42,399
isolated remnants of a pre-diluvial

806
00:31:47,590 --> 00:31:45,120
high-tech society as in the atlantis

807
00:31:49,509 --> 00:31:47,600
myth or an ancient occult group who

808
00:31:51,909 --> 00:31:49,519
happened to stumble on new energy

809
00:31:54,950 --> 00:31:51,919
sources in control of gravity

810
00:31:57,430 --> 00:31:54,960
and including a post-world war ii covert

811
00:31:59,029 --> 00:31:57,440
cabal of the military industrial complex

812
00:32:00,710 --> 00:31:59,039
variety

813
00:32:02,789 --> 00:32:00,720

as in richard dolan's breakaway

814

00:32:04,789 --> 00:32:02,799

civilization concept

815

00:32:08,070 --> 00:32:04,799

we consider some of these options in

816

00:32:12,789 --> 00:32:10,230

so boy he's just he's really opening up

817

00:32:16,310 --> 00:32:12,799

the can uh here uh

818

00:32:18,870 --> 00:32:16,320

yeah so three analysis speculation not

819

00:32:20,549 --> 00:32:18,880

forensics constitutes the present core

820

00:32:22,870 --> 00:32:20,559

modus operandi

821

00:32:25,669 --> 00:32:22,880

as the various hypotheses are generated

822

00:32:27,909 --> 00:32:25,679

and pursued hypothesis generation and

823

00:32:29,830 --> 00:32:27,919

data are gathered considerable

824

00:32:34,870 --> 00:32:29,840

intellectual effort goes into attempting

825

00:32:38,789 --> 00:32:36,870

this is certainly a healthy activity

826

00:32:40,710 --> 00:32:38,799

driving as it does from the instinctive

827

00:32:42,870 --> 00:32:40,720

and productive human urge to reduce

828

00:32:44,149 --> 00:32:42,880

ambiguity in interpreting one's

829

00:32:46,149 --> 00:32:44,159

surroundings

830

00:32:47,990 --> 00:32:46,159

however this approach could profit by

831

00:32:50,630 --> 00:32:48,000

incorporating elements of a more

832

00:32:53,110 --> 00:32:50,640

forensic gumshoe style as in

833

00:32:55,190 --> 00:32:53,120

criminalistics and intelligence work

834

00:32:57,509 --> 00:32:55,200

the very fact that so many hypotheses

835

00:33:00,389 --> 00:32:57,519

remain on the table regarding the source

836

00:33:02,549 --> 00:33:00,399

of the phenomenon clearly indicates that

837

00:33:05,190 --> 00:33:02,559

forensic work to date has been

838

00:33:08,549 --> 00:33:05,200

inadequate to even eliminate certain

839

00:33:10,710 --> 00:33:08,559

options hypothesis elimination all three

840

00:33:12,230 --> 00:33:10,720

forms of hypothesis handling are

841

00:33:14,070 --> 00:33:12,240

required

842

00:33:14,950 --> 00:33:14,080

that's a pretty key concept

843

00:33:17,269 --> 00:33:14,960

and

844

00:33:18,470 --> 00:33:17,279

uh we'll get back to that the gumshoe

845

00:33:20,549 --> 00:33:18,480

approach

846

00:33:22,870 --> 00:33:20,559

strategy for forward motion

847

00:33:25,110 --> 00:33:22,880

given the tenor of the above remarks the

848

00:33:27,750 --> 00:33:25,120

following recommendations are offered as

849

00:33:30,389 --> 00:33:27,760

proactive measures to make headway

850

00:33:32,710 --> 00:33:30,399

specifically it would behoove us to set

851
00:33:35,350 --> 00:33:32,720
aside our tentativeness about any given

852
00:33:37,750 --> 00:33:35,360
hypothesis place it on the table as

853
00:33:40,549 --> 00:33:37,760
almost certainly true and go for it with

854
00:33:42,070 --> 00:33:40,559
an aggressive forensic mindset

855
00:33:44,070 --> 00:33:42,080
considering the following disparate

856
00:33:47,590 --> 00:33:44,080
hypothetical examples of the type

857
00:33:50,789 --> 00:33:47,600
outlined in entry two in the abstract

858
00:33:52,870 --> 00:33:50,799
one the extraterrestrial hypothesis

859
00:33:54,950 --> 00:33:52,880
in this scenario crash retrievals of

860
00:33:57,590 --> 00:33:54,960
nuts and bolts alien hardware have

861
00:33:59,750 --> 00:33:57,600
occurred the tetras the detritus of

862
00:34:01,269 --> 00:33:59,760
which has been distributed in the us to

863
00:34:04,630 --> 00:34:01,279

corporate america

864

00:34:06,470 --> 00:34:04,640

uh i.e the colonel corso scenario

865

00:34:08,310 --> 00:34:06,480

setting aside the specific claims of

866

00:34:10,310 --> 00:34:08,320

colonel corso if such is the case

867

00:34:12,230 --> 00:34:10,320

certain tell-tale signatures should

868

00:34:14,470 --> 00:34:12,240

emerge under scrutiny

869

00:34:15,990 --> 00:34:14,480

moreover some evidence indicates this

870

00:34:17,510 --> 00:34:16,000

could be the case

871

00:34:19,270 --> 00:34:17,520

these would include

872

00:34:22,389 --> 00:34:19,280

a certain level of relatively low

873

00:34:24,550 --> 00:34:22,399

profile possibly statesman influence

874

00:34:27,030 --> 00:34:24,560

integrated investment control of a

875

00:34:29,190 --> 00:34:27,040

select set of global multinational

876

00:34:32,230 --> 00:34:29,200

corporations with convergent

877

00:34:35,190 --> 00:34:32,240

interlocking technology developments eg

878

00:34:37,109 --> 00:34:35,200

aerospace and electronics corporations

879

00:34:39,430 --> 00:34:37,119

if biological specimens have been

880

00:34:42,629 --> 00:34:39,440

retrieved the development of unusual

881

00:34:44,629 --> 00:34:42,639

lines of biological genetic inquiry by

882

00:34:46,950 --> 00:34:44,639

highly qualified professionals whose

883

00:34:49,030 --> 00:34:46,960

career path would seem to diverge

884

00:34:51,990 --> 00:34:49,040

suddenly from what might have been

885

00:34:55,349 --> 00:34:52,000

extrapolated from their earlier work eg

886

00:34:57,030 --> 00:34:55,359

accelerated research into retroviruses

887

00:34:58,390 --> 00:34:57,040

he's painting quite a picture here and

888

00:35:00,790 --> 00:34:58,400

he's throwing in

889

00:35:02,710 --> 00:35:00,800

a lot of breadcrumbs

890

00:35:04,470 --> 00:35:02,720

and uh you know

891

00:35:07,030 --> 00:35:04,480

if if people say that there's nothing

892

00:35:08,870 --> 00:35:07,040

happening uh uh kind of under the table

893

00:35:10,870 --> 00:35:08,880

in this paper i think they'd be

894

00:35:12,390 --> 00:35:10,880

extraordinarily mistaken even just from

895

00:35:13,349 --> 00:35:12,400

that point right there

896

00:35:15,990 --> 00:35:13,359

sure

897

00:35:18,950 --> 00:35:16,000

sudden initiation in the late 40s or

898

00:35:21,589 --> 00:35:18,960

early 50s without clear precedence and a

899

00:35:23,349 --> 00:35:21,599

known ufo-related research institute's

900

00:35:25,829 --> 00:35:23,359

e.g battelle

901
00:35:27,670 --> 00:35:25,839
of concentrated development of new

902
00:35:30,790 --> 00:35:27,680
high-strength high-temperature

903
00:35:32,950 --> 00:35:30,800
low-density intermetallic alloys funded

904
00:35:35,589 --> 00:35:32,960
by nearby government facilities such as

905
00:35:37,349 --> 00:35:35,599
wright patterson air force base eg

906
00:35:38,790 --> 00:35:37,359
nitinol

907
00:35:41,430 --> 00:35:38,800
the accelerated development of

908
00:35:44,710 --> 00:35:41,440
geopolitical alliances space weaponry

909
00:35:48,310 --> 00:35:44,720
etc for reasons not wholly interpretable

910
00:35:52,069 --> 00:35:48,320
in terms of national interest agendas eg

911
00:35:54,310 --> 00:35:52,079
sdi and u.s space force

912
00:35:57,030 --> 00:35:54,320
evidence for covert manipulation of the

913
00:35:58,950 --> 00:35:57,040

ufo et theme in the public sector by

914

00:36:02,630 --> 00:35:58,960

governmental entities

915

00:36:04,790 --> 00:36:02,640

eg the cia's 1953 robertson panel now

916

00:36:07,109 --> 00:36:04,800

this is amazing that this kind of former

917

00:36:08,710 --> 00:36:07,119

cia guy is throwing cia a little bit

918

00:36:10,310 --> 00:36:08,720

under the bus with the robertson panel

919

00:36:12,710 --> 00:36:10,320

mentioned

920

00:36:13,829 --> 00:36:12,720

well that was way before his time yeah

921

00:36:14,790 --> 00:36:13,839

it's true

922

00:36:17,430 --> 00:36:14,800

um

923

00:36:19,750 --> 00:36:17,440

evidence for generally sub rosa highly

924

00:36:22,310 --> 00:36:19,760

classified programs addressing the uap

925

00:36:25,030 --> 00:36:22,320

issue eg as in the recently revealed

926
00:36:27,349 --> 00:36:25,040
assap a-tip programs now that's kind of

927
00:36:29,349 --> 00:36:27,359
fun because he's he's mentioning his own

928
00:36:30,069 --> 00:36:29,359
old program in there which is pretty

929
00:36:33,430 --> 00:36:30,079
cool

930
00:36:35,589 --> 00:36:33,440
uh privatized access to space eg by

931
00:36:37,990 --> 00:36:35,599
enterprises such as spacex bigelow

932
00:36:40,310 --> 00:36:38,000
airspace and blue origin or threats to

933
00:36:42,630 --> 00:36:40,320
national international security eeg and

934
00:36:44,630 --> 00:36:42,640
nation state terrorism might serve to

935
00:36:47,109 --> 00:36:44,640
stimulate the surfacing of certain

936
00:36:50,710 --> 00:36:47,119
technological developments and materials

937
00:36:52,310 --> 00:36:50,720
at an accelerated rate and so on

938
00:36:55,190 --> 00:36:52,320

two

939

00:36:57,829 --> 00:36:55,200

the isolated humans hypothesis an

940

00:37:00,230 --> 00:36:57,839

isolated high-tech closed community of

941

00:37:02,710 --> 00:37:00,240

humans with somewhat advanced scientific

942

00:37:03,750 --> 00:37:02,720

knowledge exists apart from the known

943

00:37:05,510 --> 00:37:03,760

culture

944

00:37:07,910 --> 00:37:05,520

telltale signatures might include

945

00:37:10,550 --> 00:37:07,920

continuing observation of technology

946

00:37:14,550 --> 00:37:10,560

only somewhat in advance of public

947

00:37:17,349 --> 00:37:14,560

knowledge eg the 1897 airships cases

948

00:37:20,470 --> 00:37:17,359

unaccounted for missing financial assets

949

00:37:22,470 --> 00:37:20,480

in industrial grade resources possibly

950

00:37:25,190 --> 00:37:22,480

including individuals

951
00:37:27,270 --> 00:37:25,200
apparent covert misdirection of society

952
00:37:30,150 --> 00:37:27,280
in the absence of real evidence to

953
00:37:32,710 --> 00:37:30,160
accept the likelihood of et presence

954
00:37:35,030 --> 00:37:32,720
the relative lack of evidence of

955
00:37:38,150 --> 00:37:35,040
extremely advanced sophistication of

956
00:37:40,710 --> 00:37:38,160
hardware i.e hardware clearly beyond

957
00:37:42,390 --> 00:37:40,720
present day design and manufacture even

958
00:37:46,069 --> 00:37:42,400
conceptually

959
00:37:48,630 --> 00:37:46,079
three the stranded or colonizing et's

960
00:37:50,470 --> 00:37:48,640
quote unquote gods hypothesis

961
00:37:52,550 --> 00:37:50,480
telltale signatures might include

962
00:37:55,670 --> 00:37:52,560
evidence and myths for high-tech

963
00:37:57,510 --> 00:37:55,680

interpretation of claimed devices beyond

964

00:38:00,710 --> 00:37:57,520

human capability of the era to

965

00:38:03,589 --> 00:38:00,720

manufacture e.g nuclear-powered algae

966

00:38:04,550 --> 00:38:03,599

production mana machine in biblical

967

00:38:06,710 --> 00:38:04,560

times

968

00:38:09,589 --> 00:38:06,720

hard evidence for isolated

969

00:38:12,790 --> 00:38:09,599

mountain bases detectable by satellite

970

00:38:14,630 --> 00:38:12,800

signature of fast walker or uct flight

971

00:38:15,910 --> 00:38:14,640

paths

972

00:38:19,109 --> 00:38:15,920

what

973

00:38:22,069 --> 00:38:19,119

or anomalous undersea activity or bases

974

00:38:23,910 --> 00:38:22,079

detectable by distributed underwater

975

00:38:26,790 --> 00:38:23,920

monitoring systems

976

00:38:29,349 --> 00:38:26,800

covert elite group exercising occult

977

00:38:31,990 --> 00:38:29,359

religious influence in society

978

00:38:35,349 --> 00:38:32,000

evidence for buried high-tech artifacts

979

00:38:39,510 --> 00:38:35,359

or locales with unusual signal radiation

980

00:38:41,910 --> 00:38:39,520

characteristics here skinwalker ranch

981

00:38:42,710 --> 00:38:41,920

that's right that's right

982

00:38:44,390 --> 00:38:42,720

yep

983

00:38:46,150 --> 00:38:44,400

um now we're really gonna have to come

984

00:38:47,349 --> 00:38:46,160

back to number three there because we're

985

00:38:49,270 --> 00:38:47,359

gonna have to come back to all these

986

00:38:51,589 --> 00:38:49,280

points because he's again he's throwing

987

00:38:53,190 --> 00:38:51,599

out crazy breadcrumbs all over this dang

988

00:38:54,470 --> 00:38:53,200

thing

989

00:38:56,550 --> 00:38:54,480

four

990

00:38:58,390 --> 00:38:56,560

um the interdimensional or time

991

00:39:00,550 --> 00:38:58,400

travelers hypothesis

992

00:39:03,430 --> 00:39:00,560

gaining access to our space-time

993

00:39:06,230 --> 00:39:03,440

continuum tell-tale signs might take the

994

00:39:09,030 --> 00:39:06,240

form of fortian phenomena of instant

995

00:39:11,510 --> 00:39:09,040

appearance disappearance of beings

996

00:39:13,670 --> 00:39:11,520

in a reverse process humans experience

997

00:39:16,470 --> 00:39:13,680

quote-unquote portal access to alternate

998

00:39:19,750 --> 00:39:16,480

realities appearance of beings out of

999

00:39:21,190 --> 00:39:19,760

sync in dress mannerism or language or

1000

00:39:26,710 --> 00:39:21,200

technology

1001
00:39:29,349 --> 00:39:26,720
financial transaction timeline or other

1002
00:39:31,270 --> 00:39:29,359
futures oriented activity indicative of

1003
00:39:34,150 --> 00:39:31,280
advanced foreknowledge

1004
00:39:36,230 --> 00:39:34,160
fascinating evidence for teleportation

1005
00:39:39,109 --> 00:39:36,240
of individuals or material over

1006
00:39:41,670 --> 00:39:39,119
geophysical distances there are some you

1007
00:39:43,510 --> 00:39:41,680
know anecdotal cases of this appearance

1008
00:39:45,589 --> 00:39:43,520
of humanoids in conformance with

1009
00:39:49,190 --> 00:39:45,599
predicted genetic evolution of

1010
00:39:51,349 --> 00:39:49,200
present-day homo sapiens etc

1011
00:39:53,670 --> 00:39:51,359
obviously in the above examples we have

1012
00:39:55,670 --> 00:39:53,680
a helter skelter montage of elements

1013
00:39:57,430 --> 00:39:55,680

from much of the mythology of claimed

1014

00:39:59,670 --> 00:39:57,440

ufo experience

1015

00:40:02,390 --> 00:39:59,680

where i consider we need to go with it

1016

00:40:05,510 --> 00:40:02,400

is this to shift away from a strategy

1017

00:40:08,550 --> 00:40:05,520

that relies solely on further content

1018

00:40:11,510 --> 00:40:08,560

analysis toward what the intelligence

1019

00:40:12,950 --> 00:40:11,520

world calls traffic analysis

1020

00:40:15,750 --> 00:40:12,960

very key point

1021

00:40:16,950 --> 00:40:15,760

that is to first order independent of

1022

00:40:19,349 --> 00:40:16,960

content

1023

00:40:21,670 --> 00:40:19,359

that is while not issuing the present

1024

00:40:23,750 --> 00:40:21,680

strategies in place we incorporate into

1025

00:40:26,550 --> 00:40:23,760

our studies in his aggressive and

1026

00:40:29,430 --> 00:40:26,560

proactive a way as we can muster

1027

00:40:31,670 --> 00:40:29,440

more forensic work to expand

1028

00:40:34,069 --> 00:40:31,680

expand our playing field and extract

1029

00:40:36,470 --> 00:40:34,079

from the data in its surrounds more of

1030

00:40:38,470 --> 00:40:36,480

the patterns and networks that appear to

1031

00:40:41,030 --> 00:40:38,480

yoke the data together

1032

00:40:42,390 --> 00:40:41,040

rather than just attending to the data

1033

00:40:44,390 --> 00:40:42,400

itself

1034

00:40:46,950 --> 00:40:44,400

since this takes such hard work and such

1035

00:40:49,750 --> 00:40:46,960

a commitment of effort in new arenas of

1036

00:40:52,309 --> 00:40:49,760

investigation it probably also means as

1037

00:40:54,790 --> 00:40:52,319

suggested above being willing to press a

1038

00:40:57,109 --> 00:40:54,800

given hypothesis to the limit

1039

00:40:59,349 --> 00:40:57,119

even though it may be the wrong one so

1040

00:41:01,430 --> 00:40:59,359

that our understanding of the range of

1041

00:41:04,470 --> 00:41:01,440

possibilities to which we must keep our

1042

00:41:07,670 --> 00:41:04,480

mind open does not act to disperse our

1043

00:41:09,430 --> 00:41:07,680

focused activity so that's all that's

1044

00:41:11,510 --> 00:41:09,440

very much the kind of take it seriously

1045

00:41:14,790 --> 00:41:11,520

hold it lightly approach that that we

1046

00:41:16,390 --> 00:41:14,800

often talk about actually you know it is

1047

00:41:19,430 --> 00:41:16,400

uh now here

1048

00:41:22,150 --> 00:41:19,440

uh four ultra-terrestrials

1049

00:41:24,870 --> 00:41:22,160

as a focused example of broadening the

1050

00:41:26,710 --> 00:41:24,880

scope of our investigation let us con

1051

00:41:30,309 --> 00:41:26,720

consider the ultra-terrestrial

1052

00:41:32,150 --> 00:41:30,319

hypothesis as defined above eg an

1053

00:41:35,030 --> 00:41:32,160

ancient occult group isolated

1054

00:41:37,670 --> 00:41:35,040

pre-diluvial high-tech society

1055

00:41:40,630 --> 00:41:37,680

possibly stranded ets that are

1056

00:41:43,190 --> 00:41:40,640

quote-unquote viewed as gods i.e

1057

00:41:45,190 --> 00:41:43,200

sequestered terrestrial cultures

1058

00:41:48,230 --> 00:41:45,200

examples two and three above

1059

00:41:50,150 --> 00:41:48,240

existing alongside us in distinct

1060

00:41:52,870 --> 00:41:50,160

stealth

1061

00:41:54,710 --> 00:41:52,880

first what are possible signatures of an

1062

00:41:57,190 --> 00:41:54,720

ultra-terrestrial as opposed to

1063

00:42:00,069 --> 00:41:57,200

extraterrestrial presence

1064

00:42:02,950 --> 00:42:00,079

density of sightings over decades if not

1065

00:42:05,630 --> 00:42:02,960

centuries potentially indicative of a

1066

00:42:07,750 --> 00:42:05,640

present time local as opposed to

1067

00:42:10,309 --> 00:42:07,760

extraterrestrial source

1068

00:42:13,270 --> 00:42:10,319

in other words that the uap phenomena is

1069

00:42:16,069 --> 00:42:13,280

so ubiquitous as to argue against the

1070

00:42:18,790 --> 00:42:16,079

simple model of an occasionally visiting

1071

00:42:21,589 --> 00:42:18,800

extraterrestrial explorer

1072

00:42:24,150 --> 00:42:21,599

recent since world war ii claimed

1073

00:42:26,630 --> 00:42:24,160

focused messaging regarding elimination

1074

00:42:29,190 --> 00:42:26,640

of nuclear technologies and concern

1075

00:42:32,069 --> 00:42:29,200

regarding environmental degradation are

1076
00:42:35,670 --> 00:42:32,079
would-be reasonable themes for a co-lay

1077
00:42:38,069 --> 00:42:35,680
co-located but isolated terrestrially

1078
00:42:40,230 --> 00:42:38,079
located society

1079
00:42:42,950 --> 00:42:40,240
so meaning that if some if something was

1080
00:42:45,349 --> 00:42:42,960
living alongside us that they would also

1081
00:42:47,430 --> 00:42:45,359
be super interested in

1082
00:42:49,430 --> 00:42:47,440
keeping us away from nuclear weapons and

1083
00:42:52,630 --> 00:42:49,440
ruining the environment for out of their

1084
00:42:55,430 --> 00:42:52,640
own self-interest if nothing else

1085
00:42:57,670 --> 00:42:55,440
via subterfuge and disinformation

1086
00:43:01,109 --> 00:42:57,680
stealthily injected proliferating

1087
00:43:04,230 --> 00:43:01,119
emphasis on the et theme as misdirection

1088
00:43:07,349 --> 00:43:04,240

to prevent exposure of local terrestrial

1089

00:43:10,829 --> 00:43:07,359

habitation as in theater a la jacques

1090

00:43:14,390 --> 00:43:10,839

ville's messengers of deception

1091

00:43:17,430 --> 00:43:14,400

um there's some good anecdote stuff too

1092

00:43:19,430 --> 00:43:17,440

in uh invisible college on that and

1093

00:43:20,950 --> 00:43:19,440

in regards to yuri geller so maybe we

1094

00:43:22,870 --> 00:43:20,960

should bring that up too at some point

1095

00:43:25,190 --> 00:43:22,880

but absolutely

1096

00:43:27,349 --> 00:43:25,200

um and now stick with us folks because

1097

00:43:29,030 --> 00:43:27,359

we're kind of coming coming into the

1098

00:43:31,190 --> 00:43:29,040

home plate area here

1099

00:43:35,470 --> 00:43:31,200

we're getting towards the end of this of

1100

00:43:40,150 --> 00:43:37,910

interactions with humanoid genotype

1101
00:43:41,589 --> 00:43:40,160
ranging from modern humans to creatures

1102
00:43:43,670 --> 00:43:41,599
including sightings of quote-unquote

1103
00:43:45,670 --> 00:43:43,680
little people over the centuries

1104
00:43:47,990 --> 00:43:45,680
encounters with non-humans that haunt

1105
00:43:50,950 --> 00:43:48,000
our folklore let alone genetically

1106
00:43:53,030 --> 00:43:50,960
engineered biological robots or drones

1107
00:43:57,910 --> 00:43:53,040
all variants within the lexicon of

1108
00:44:00,790 --> 00:43:57,920
alternative forms of the human genome

1109
00:44:03,030 --> 00:44:00,800
seeming emphasis on reproduction eg

1110
00:44:06,069 --> 00:44:03,040
harvesting of sperm and ova from certain

1111
00:44:08,309 --> 00:44:06,079
genetic lines let alone hybridization

1112
00:44:11,589 --> 00:44:08,319
could be speak outreach toward genetic

1113
00:44:15,030 --> 00:44:11,599

diversity for a relatively inbred

1114

00:44:16,390 --> 00:44:15,040

local isolated society on the wane and

1115

00:44:20,230 --> 00:44:16,400

suffering from a potentially

1116

00:44:23,109 --> 00:44:21,109

uh

1117

00:44:26,069 --> 00:44:23,119

observation of vehicles not that

1118

00:44:28,790 --> 00:44:26,079

advanced i.e comprehensible as opposed

1119

00:44:30,870 --> 00:44:28,800

to magical even if nonetheless well in

1120

00:44:33,670 --> 00:44:30,880

advance of our own

1121

00:44:36,470 --> 00:44:33,680

use of telepathic information transfer

1122

00:44:39,030 --> 00:44:36,480

only marginally ahead of present day

1123

00:44:40,710 --> 00:44:39,040

technical neurobiological advances in

1124

00:44:42,470 --> 00:44:40,720

the public domain

1125

00:44:44,230 --> 00:44:42,480

now it's interesting that he mentions in

1126

00:44:47,430 --> 00:44:44,240

the public domain as opposed to the

1127

00:44:49,430 --> 00:44:47,440

private domain isn't it right sure

1128

00:44:51,589 --> 00:44:49,440

it brings you back to his talk with uh

1129

00:44:55,990 --> 00:44:51,599

weinstein where he talked about

1130

00:44:57,829 --> 00:44:56,000

certain things uh as a part of physics

1131

00:44:59,990 --> 00:44:57,839

might have been kept secret

1132

00:45:02,390 --> 00:45:00,000

absolutely yeah

1133

00:45:05,030 --> 00:45:02,400

reports of cave-like or undersea

1134

00:45:07,349 --> 00:45:05,040

destinations during claimed abductions

1135

00:45:09,430 --> 00:45:07,359

now that i mean that goes all the way

1136

00:45:11,670 --> 00:45:09,440

back through mythological history

1137

00:45:14,069 --> 00:45:11,680

amongst world cultures

1138

00:45:16,069 --> 00:45:14,079

um given the need for secrecy concerning

1139

00:45:18,630 --> 00:45:16,079

the reality of all of the above on the

1140

00:45:21,109 --> 00:45:18,640

part of ultra-terrestrials as co-located

1141

00:45:22,870 --> 00:45:21,119

denizens of our planet while nonetheless

1142

00:45:25,510 --> 00:45:22,880

being subject to a certain level of

1143

00:45:27,270 --> 00:45:25,520

codependence the inscrutable nature of

1144

00:45:29,109 --> 00:45:27,280

the interactions would not be an

1145

00:45:30,710 --> 00:45:29,119

unexpected outcome

1146

00:45:32,630 --> 00:45:30,720

second under the assumption of

1147

00:45:33,990 --> 00:45:32,640

compelling evidence for the above it

1148

00:45:36,069 --> 00:45:34,000

would be critical to discern the

1149

00:45:38,470 --> 00:45:36,079

motivations of the ultra-terrestrials to

1150

00:45:40,790 --> 00:45:38,480

main such a secret existence

1151
00:45:43,349 --> 00:45:40,800
of possible utmost concern to them could

1152
00:45:46,230 --> 00:45:43,359
be an overarching fear of exploitation

1153
00:45:48,390 --> 00:45:46,240
even annihilation due to vulnerabilities

1154
00:45:51,190 --> 00:45:48,400
despite possessing certain levels of

1155
00:45:53,109 --> 00:45:51,200
technological superiority or fear of

1156
00:45:55,510 --> 00:45:53,119
assimilation and consequent loss of

1157
00:45:57,910 --> 00:45:55,520
culture religion customs

1158
00:46:00,790 --> 00:45:57,920
uncontrolled genetic mingling i.e

1159
00:46:02,630 --> 00:46:00,800
culture shock fear of human diseases

1160
00:46:05,109 --> 00:46:02,640
concern for consequences to the

1161
00:46:07,109 --> 00:46:05,119
terrestrial human population with its

1162
00:46:09,430 --> 00:46:07,119
attendance reciprocal effects on their

1163
00:46:11,510 --> 00:46:09,440

own culture potential disruption of

1164

00:46:14,069 --> 00:46:11,520

resource gathering including benefits

1165

00:46:16,309 --> 00:46:14,079

derived from stealthy interactions with

1166

00:46:19,670 --> 00:46:16,319

and possibly manipulating certain

1167

00:46:22,150 --> 00:46:19,680

aspects of the human terrestrial society

1168

00:46:23,990 --> 00:46:22,160

third what might be the consequences for

1169

00:46:26,069 --> 00:46:24,000

humanity of disclosure of an

1170

00:46:28,950 --> 00:46:26,079

ultra-terrestrial group as it compared

1171

00:46:31,030 --> 00:46:28,960

with that of extraterrestrial visitation

1172

00:46:32,790 --> 00:46:31,040

clearly the devil is in the details but

1173

00:46:34,230 --> 00:46:32,800

one could speculate that the former

1174

00:46:36,309 --> 00:46:34,240

might be more

1175

00:46:38,950 --> 00:46:36,319

dire than the latter considering that

1176

00:46:40,870 --> 00:46:38,960

they have been here amongst us perhaps

1177

00:46:43,270 --> 00:46:40,880

in very personal ways

1178

00:46:45,109 --> 00:46:43,280

in contrast et visitation in all

1179

00:46:47,270 --> 00:46:45,119

probability being more foreign and

1180

00:46:49,270 --> 00:46:47,280

inscrutable could be safer

1181

00:46:51,910 --> 00:46:49,280

such topics constitute interesting

1182

00:46:53,910 --> 00:46:51,920

material for sociological research for

1183

00:46:55,430 --> 00:46:53,920

more detailed discussion of what i have

1184

00:46:56,630 --> 00:46:55,440

called here the ultra-terrestrial

1185

00:46:58,950 --> 00:46:56,640

hypothesis

1186

00:47:01,030 --> 00:46:58,960

i recommend the crypto-terrestrials by

1187

00:47:02,230 --> 00:47:01,040

mac tony's we'll get into that after

1188

00:47:04,069 --> 00:47:02,240

here as well

1189

00:47:05,829 --> 00:47:04,079

are there any hints in the uap

1190

00:47:08,630 --> 00:47:05,839

literature that there is evidence that

1191

00:47:10,790 --> 00:47:08,640

the ultra-terrestrial scenario outlined

1192

00:47:12,150 --> 00:47:10,800

above may have some

1193

00:47:14,870 --> 00:47:12,160

validity

1194

00:47:17,670 --> 00:47:14,880

author nick redfearn of all people in

1195

00:47:18,950 --> 00:47:17,680

his book the nasa conspiracies asserts

1196

00:47:22,069 --> 00:47:18,960

that there is

1197

00:47:23,829 --> 00:47:22,079

his interview of an ex nasa

1198

00:47:26,549 --> 00:47:23,839

gemini they actually pronounced it

1199

00:47:28,390 --> 00:47:26,559

gemini back in the day contractor led to

1200

00:47:30,790 --> 00:47:28,400

the claim that there was evidence of a

1201
00:47:33,349 --> 00:47:30,800
small band of individuals who were not

1202
00:47:36,069 --> 00:47:33,359
aliens from some distant star system at

1203
00:47:38,950 --> 00:47:36,079
all but supposedly represented the last

1204
00:47:41,670 --> 00:47:38,960
vestiges of a very ancient terrestrial

1205
00:47:44,390 --> 00:47:41,680
race of beings that thousands of years

1206
00:47:46,549 --> 00:47:44,400
ago had an advanced and isolated

1207
00:47:48,390 --> 00:47:46,559
civilization that was responsible for

1208
00:47:50,309 --> 00:47:48,400
the legends of atlantis and similar

1209
00:47:52,950 --> 00:47:50,319
stories but who were forced by

1210
00:47:56,069 --> 00:47:52,960
circumstances to retreat into remote

1211
00:47:57,910 --> 00:47:56,079
sequestered locales for survival eg into

1212
00:48:00,069 --> 00:47:57,920
mountains in the seabed

1213
00:48:01,990 --> 00:48:00,079

at present they were primarily concerned

1214

00:48:04,069 --> 00:48:02,000

about nuclear war and degradation of the

1215

00:48:06,069 --> 00:48:04,079

environment and this has led to some

1216

00:48:07,030 --> 00:48:06,079

degree of attempting to influence our

1217

00:48:09,030 --> 00:48:07,040

culture

1218

00:48:11,030 --> 00:48:09,040

however they felt it had to be carried

1219

00:48:13,670 --> 00:48:11,040

out under the ruse that they were from

1220

00:48:15,349 --> 00:48:13,680

distant star systems to protect what

1221

00:48:16,390 --> 00:48:15,359

they felt to be their vulnerable

1222

00:48:19,109 --> 00:48:16,400

position

1223

00:48:21,030 --> 00:48:19,119

despite their advanced technology

1224

00:48:22,549 --> 00:48:21,040

isn't it fascinating that that one of

1225

00:48:24,150 --> 00:48:22,559

the concrete shout outs is that

1226

00:48:25,030 --> 00:48:24,160

particular case

1227

00:48:26,069 --> 00:48:25,040

yeah

1228

00:48:28,150 --> 00:48:26,079

and now

1229

00:48:30,790 --> 00:48:28,160

one last paragraph here before we go

1230

00:48:32,630 --> 00:48:30,800

into the sources correlation with et

1231

00:48:34,390 --> 00:48:32,640

hypothesis

1232

00:48:37,030 --> 00:48:34,400

although the ultra-terrestrial

1233

00:48:39,589 --> 00:48:37,040

hypothesis scenario considered here

1234

00:48:41,829 --> 00:48:39,599

considers an expansion of the model to

1235

00:48:44,150 --> 00:48:41,839

include other than the simple

1236

00:48:46,549 --> 00:48:44,160

extraterrestrial hypothesis the

1237

00:48:49,109 --> 00:48:46,559

predicted observable consequences of the

1238

00:48:51,829 --> 00:48:49,119

two options are quite parallel for our

1239

00:48:54,150 --> 00:48:51,839

purposes here careful consideration of

1240

00:48:56,470 --> 00:48:54,160

data obtained along the way are to be

1241

00:48:59,109 --> 00:48:56,480

matched against templates for the two

1242

00:49:02,069 --> 00:48:59,119

major options ultra-terrestrial or

1243

00:49:07,829 --> 00:49:02,079

extraterrestrial keeping in mind that it

1244

00:49:10,549 --> 00:49:09,030

wow

1245

00:49:13,270 --> 00:49:10,559

what a home dinger

1246

00:49:14,150 --> 00:49:13,280

um was that it's right it's so short

1247

00:49:17,270 --> 00:49:14,160

right

1248

00:49:22,950 --> 00:49:20,790

it's so much to take in

1249

00:49:25,910 --> 00:49:22,960

you know so like you can't go much

1250

00:49:29,510 --> 00:49:25,920

farther than 14 pages and have any

1251
00:49:30,950 --> 00:49:29,520
chance of uh keeping up with the content

1252
00:49:32,870 --> 00:49:30,960
no you know because right away you're

1253
00:49:36,309 --> 00:49:32,880
like what which one's ultra which one's

1254
00:49:38,230 --> 00:49:36,319
extra what what did the time travelers

1255
00:49:41,190 --> 00:49:38,240
what do i got to do for that again you

1256
00:49:42,309 --> 00:49:41,200
know like it's a lot you know it really

1257
00:49:46,630 --> 00:49:42,319
is

1258
00:49:48,470 --> 00:49:46,640
pick up

1259
00:49:50,309 --> 00:49:48,480
we can pick through a few things here

1260
00:49:51,829 --> 00:49:50,319
one thing i saw people mentioning in the

1261
00:49:53,109 --> 00:49:51,839
chat is that

1262
00:49:55,109 --> 00:49:53,119
is that um

1263
00:49:57,030 --> 00:49:55,119

asking what book that was now one of the

1264

00:49:58,390 --> 00:49:57,040

books that he mentioned distinctly as

1265

00:50:01,430 --> 00:49:58,400

big shout out is

1266

00:50:02,870 --> 00:50:01,440

is the crypto terrestrials by mac tony's

1267

00:50:05,030 --> 00:50:02,880

now um

1268

00:50:07,190 --> 00:50:05,040

uh we actually on the experienter group

1269

00:50:08,710 --> 00:50:07,200

we had this for book club

1270

00:50:10,710 --> 00:50:08,720

and

1271

00:50:13,829 --> 00:50:10,720

this is pretty fun we had this for book

1272

00:50:16,950 --> 00:50:13,839

club uh eight days before

1273

00:50:20,069 --> 00:50:16,960

hal's paper got published oh wow

1274

00:50:21,670 --> 00:50:20,079

wow now was that total coincidence no

1275

00:50:24,309 --> 00:50:21,680

um was it cool that it happened

1276

00:50:26,630 --> 00:50:24,319

absolutely uh james and dolia and i

1277

00:50:28,710 --> 00:50:26,640

co-hosted it and we had some great

1278

00:50:31,430 --> 00:50:28,720

people there including mike clelland who

1279

00:50:33,910 --> 00:50:31,440

actually did um the illustrations in

1280

00:50:36,710 --> 00:50:33,920

here yeah uh who we had on the show a

1281

00:50:40,069 --> 00:50:36,720

while ago yeah um illustrations in there

1282

00:50:43,109 --> 00:50:40,079

oh wow yeah isn't that cool um yeah

1283

00:50:46,390 --> 00:50:43,119

mike and and mac were very good friends

1284

00:50:48,150 --> 00:50:46,400

um as um as was uh david metcalf who

1285

00:50:50,230 --> 00:50:48,160

we've also had on the show after the

1286

00:50:51,270 --> 00:50:50,240

archives of the impossible conference

1287

00:50:54,950 --> 00:50:51,280

yeah

1288

00:50:57,430 --> 00:50:54,960

but um mac tony's um died very suddenly

1289

00:50:59,030 --> 00:50:57,440

at the age of 34 as he was completing

1290

00:50:59,829 --> 00:50:59,040

this book

1291

00:51:03,109 --> 00:50:59,839

um

1292

00:51:04,870 --> 00:51:03,119

and that's kind of a and he had

1293

00:51:07,349 --> 00:51:04,880

apparently a heart condition died in his

1294

00:51:08,390 --> 00:51:07,359

sleep and his and

1295

00:51:10,390 --> 00:51:08,400

this was

1296

00:51:12,630 --> 00:51:10,400

weeks from being finished

1297

00:51:14,470 --> 00:51:12,640

um and he was kind of blazing right

1298

00:51:17,670 --> 00:51:14,480

through it it's a short work it's about

1299

00:51:19,910 --> 00:51:17,680

120 pages um when you read it um it's

1300

00:51:22,150 --> 00:51:19,920

clear that some of the passages were

1301
00:51:23,910 --> 00:51:22,160
gonna he was probably gonna go back and

1302
00:51:27,349 --> 00:51:23,920
flesh out in more detail

1303
00:51:30,630 --> 00:51:27,359
um but the the manuscript um

1304
00:51:32,630 --> 00:51:30,640
he died and his mother actually saved a

1305
00:51:34,950 --> 00:51:32,640
manuscript that was physically printed

1306
00:51:38,309 --> 00:51:34,960
out and sitting on his desk

1307
00:51:39,829 --> 00:51:38,319
and um and greg bishop and mike clelland

1308
00:51:41,910 --> 00:51:39,839
and a few other people

1309
00:51:44,710 --> 00:51:41,920
kind of rallied together to get it

1310
00:51:48,150 --> 00:51:44,720
published after the past

1311
00:51:50,549 --> 00:51:48,160
incredible story yeah um but if people

1312
00:51:52,390 --> 00:51:50,559
are interested in and kind of getting

1313
00:51:55,349 --> 00:51:52,400

more into the nitty-gritty

1314

00:51:57,349 --> 00:51:55,359

of of the ultra-terrestrial hypothesis i

1315

00:51:59,910 --> 00:51:57,359

highly highly highly recommend this book

1316

00:52:02,230 --> 00:51:59,920

it's also available as an audiobook

1317

00:52:05,030 --> 00:52:02,240

so so and it's again it's it's only

1318

00:52:07,670 --> 00:52:05,040

about 120 pages so it's it's actually a

1319

00:52:09,030 --> 00:52:07,680

pretty fast read

1320

00:52:10,150 --> 00:52:09,040

um

1321

00:52:11,829 --> 00:52:10,160

so

1322

00:52:13,829 --> 00:52:11,839

i guess

1323

00:52:17,430 --> 00:52:13,839

you know it's uh

1324

00:52:19,510 --> 00:52:17,440

my main overall takeaways are

1325

00:52:22,390 --> 00:52:19,520

you know the first the distinction and

1326

00:52:24,630 --> 00:52:22,400

kind of uh investigations and and not

1327

00:52:27,750 --> 00:52:24,640

just um like the days of maybe sitting

1328

00:52:29,589 --> 00:52:27,760

by and and collecting data and simply

1329

00:52:31,190 --> 00:52:29,599

just attended the data as he says

1330

00:52:32,790 --> 00:52:31,200

they're are kind of not getting us

1331

00:52:33,750 --> 00:52:32,800

anywhere so basically just sitting

1332

00:52:35,589 --> 00:52:33,760

around

1333

00:52:37,670 --> 00:52:35,599

seeing that radar tracks pop up it's

1334

00:52:39,910 --> 00:52:37,680

unidentified okay put it over in the

1335

00:52:40,790 --> 00:52:39,920

pile and that's it move on right

1336

00:52:41,750 --> 00:52:40,800

and

1337

00:52:44,230 --> 00:52:41,760

or

1338

00:52:47,030 --> 00:52:44,240

even seemingly proactive things now that

1339

00:52:48,549 --> 00:52:47,040

struck me too you know you're it feels

1340

00:52:50,390 --> 00:52:48,559

like you're proactive because you're out

1341

00:52:53,030 --> 00:52:50,400

there searching for documents as he

1342

00:52:55,510 --> 00:52:53,040

talks about john greenwald blackbull or

1343

00:52:57,589 --> 00:52:55,520

myself right but you're still beholden

1344

00:52:59,349 --> 00:52:57,599

to the other side you know responding to

1345

00:53:00,870 --> 00:52:59,359

you with the right documents and all

1346

00:53:03,910 --> 00:53:00,880

that kind of stuff so

1347

00:53:04,950 --> 00:53:03,920

he says uh you know so

1348

00:53:07,190 --> 00:53:04,960

you know

1349

00:53:08,950 --> 00:53:07,200

but then he talks about more proactive

1350

00:53:10,950 --> 00:53:08,960

things you know

1351
00:53:12,710 --> 00:53:10,960
that you can do more gum gum shoe

1352
00:53:16,390 --> 00:53:12,720
investigator type things

1353
00:53:18,950 --> 00:53:16,400
now what can people like myself do

1354
00:53:21,670 --> 00:53:18,960
you know we talked about telepathy is he

1355
00:53:24,710 --> 00:53:21,680
saying maybe try ce5

1356
00:53:26,470 --> 00:53:24,720
i mean it seems like that i mean it it

1357
00:53:28,790 --> 00:53:26,480
seems like that could be an effective

1358
00:53:30,870 --> 00:53:28,800
avenue for some you know i mean i don't

1359
00:53:32,790 --> 00:53:30,880
i don't discount you know jamesy and

1360
00:53:34,790 --> 00:53:32,800
doley and and i are good friends you

1361
00:53:36,950 --> 00:53:34,800
know he's a friend of yours as well heck

1362
00:53:38,790 --> 00:53:36,960
i i put up a picture on twitter of the

1363
00:53:40,470 --> 00:53:38,800

three of us hanging around a bowl of

1364

00:53:42,710 --> 00:53:40,480

chips earlier today

1365

00:53:49,030 --> 00:53:42,720

um

1366

00:53:50,870 --> 00:53:49,040

from work in the experimenter group and

1367

00:53:52,870 --> 00:53:50,880

things like that you know i i believe

1368

00:53:55,109 --> 00:53:52,880

that human there is really something to

1369

00:53:57,750 --> 00:53:55,119

human initiated contact efforts you know

1370

00:53:59,910 --> 00:53:57,760

be it through through

1371

00:54:01,510 --> 00:53:59,920

uh laser pointers in the sky or

1372

00:54:03,510 --> 00:54:01,520

meditation you know some of the stuff

1373

00:54:05,589 --> 00:54:03,520

works though is sometimes illegal like

1374

00:54:07,270 --> 00:54:05,599

laser pointers in the sky yeah i don't

1375

00:54:08,549 --> 00:54:07,280

know if i'd recommend that necessarily

1376
00:54:09,750 --> 00:54:08,559
but no

1377
00:54:11,990 --> 00:54:09,760
right

1378
00:54:14,309 --> 00:54:12,000
but yeah but then don't you get into the

1379
00:54:16,309 --> 00:54:14,319
issue of uh what you know like what hal

1380
00:54:18,630 --> 00:54:16,319
was talking about before where basically

1381
00:54:20,630 --> 00:54:18,640
these beings are lying to you to make

1382
00:54:22,710 --> 00:54:20,640
you think that they're extraterrestrial

1383
00:54:25,589 --> 00:54:22,720
because they don't want you to really

1384
00:54:27,349 --> 00:54:25,599
have a hint at their existence here on

1385
00:54:29,030 --> 00:54:27,359
earth because maybe

1386
00:54:30,790 --> 00:54:29,040
even though they have advanced

1387
00:54:33,510 --> 00:54:30,800
technology they have their weaknesses

1388
00:54:35,430 --> 00:54:33,520

too and vulnerabilities and they don't

1389

00:54:37,589 --> 00:54:35,440

want us to know about it and what that

1390

00:54:39,990 --> 00:54:37,599

reminds me of is i'm reading invisible

1391

00:54:43,030 --> 00:54:40,000

college right now and uh jacques valet

1392

00:54:45,829 --> 00:54:43,040

talks about yuri gary geller and

1393

00:54:47,430 --> 00:54:45,839

um this being that they were him and

1394

00:54:50,470 --> 00:54:47,440

somebody else i forgot the name we're

1395

00:54:52,150 --> 00:54:50,480

talking to spectra it was called

1396

00:54:53,349 --> 00:54:52,160

and

1397

00:54:55,510 --> 00:54:53,359

you know so they would have this

1398

00:54:57,750 --> 00:54:55,520

conversations with these beings and and

1399

00:54:59,590 --> 00:54:57,760

talk about what they said and everything

1400

00:55:00,710 --> 00:54:59,600

and that they were

1401

00:55:02,870 --> 00:55:00,720

[Music]

1402

00:55:05,190 --> 00:55:02,880

you know valet made kind of the point of

1403

00:55:07,910 --> 00:55:05,200

now are they communicating but they can

1404

00:55:10,710 --> 00:55:07,920

only communicate at the the ability of

1405

00:55:12,230 --> 00:55:10,720

geller's brain basically like they can't

1406

00:55:15,190 --> 00:55:12,240

make him more intelligent they have to

1407

00:55:16,549 --> 00:55:15,200

work with his intelligence or

1408

00:55:18,710 --> 00:55:16,559

are they lying

1409

00:55:20,630 --> 00:55:18,720

or what because one of the examples that

1410

00:55:24,230 --> 00:55:20,640

he uses they would talk about light

1411

00:55:25,589 --> 00:55:24,240

years as as far as um

1412

00:55:28,150 --> 00:55:25,599

uh time

1413

00:55:30,390 --> 00:55:28,160

they would go you know it's it's

1414

00:55:32,870 --> 00:55:30,400

you know so long ago

1415

00:55:34,470 --> 00:55:32,880

light years long ago or whatever away

1416

00:55:35,990 --> 00:55:34,480

it's like well that's not the definition

1417

00:55:38,390 --> 00:55:36,000

of eight years you know like that's not

1418

00:55:40,630 --> 00:55:38,400

how you use that term so obviously

1419

00:55:42,870 --> 00:55:40,640

something is wrong here and you know and

1420

00:55:44,470 --> 00:55:42,880

you hear other messages too where

1421

00:55:47,349 --> 00:55:44,480

you know that's it that's another thing

1422

00:55:49,910 --> 00:55:47,359

of uh maybe

1423

00:55:51,829 --> 00:55:49,920

you know you hear a lot about that

1424

00:55:53,990 --> 00:55:51,839

in ufology about

1425

00:55:56,950 --> 00:55:54,000

you know getting false messages the

1426

00:55:58,950 --> 00:55:56,960

trickster aspect stuff like that so sure

1427

00:56:01,829 --> 00:55:58,960

how do you if you're doing c5 how do you

1428

00:56:04,950 --> 00:56:01,839

trust what you see or the you know the

1429

00:56:07,270 --> 00:56:04,960

telepathic messages you may receive

1430

00:56:10,069 --> 00:56:07,280

that's right and as as a couple people

1431

00:56:12,470 --> 00:56:10,079

have pointed out in the chat you know um

1432

00:56:13,349 --> 00:56:12,480

yuri geller uh

1433

00:56:15,430 --> 00:56:13,359

has

1434

00:56:17,670 --> 00:56:15,440

made dubious claims in the past and some

1435

00:56:20,069 --> 00:56:17,680

people say like oh you know he's for

1436

00:56:21,349 --> 00:56:20,079

those that don't know yuri geller um is

1437

00:56:22,870 --> 00:56:21,359

an israeli

1438

00:56:23,670 --> 00:56:22,880

um

1439

00:56:25,510 --> 00:56:23,680

uh

1440

00:56:27,430 --> 00:56:25,520

kind of psychic

1441

00:56:30,549 --> 00:56:27,440

and pk

1442

00:56:33,510 --> 00:56:30,559

like a telekinetic um

1443

00:56:35,030 --> 00:56:33,520

showman in a way an entertainer that

1444

00:56:37,030 --> 00:56:35,040

was famous for

1445

00:56:40,150 --> 00:56:37,040

apparently bending spoons and other

1446

00:56:42,630 --> 00:56:40,160

objects on tv back in the day now what

1447

00:56:43,829 --> 00:56:42,640

you know regardless of him spoon bending

1448

00:56:46,390 --> 00:56:43,839

or not

1449

00:56:49,190 --> 00:56:46,400

what he has admitted and there seems to

1450

00:56:50,390 --> 00:56:49,200

be a pretty decent trail about this is

1451
00:56:51,510 --> 00:56:50,400
that he

1452
00:56:53,910 --> 00:56:51,520
um

1453
00:56:59,109 --> 00:56:56,150
affiliated with

1454
00:57:01,750 --> 00:56:59,119
israeli intelligence right and that part

1455
00:57:03,750 --> 00:57:01,760
of his job was to kind of insinuate

1456
00:57:07,510 --> 00:57:03,760
himself into

1457
00:57:09,430 --> 00:57:07,520
in into kind of psychic circles into

1458
00:57:11,109 --> 00:57:09,440
circles where people were

1459
00:57:13,030 --> 00:57:11,119
kind of studying the phenomena and

1460
00:57:14,870 --> 00:57:13,040
things like that and because he was kind

1461
00:57:17,109 --> 00:57:14,880
of a gifted showman that was associated

1462
00:57:19,349 --> 00:57:17,119
with this stuff you know he was pretty

1463
00:57:22,150 --> 00:57:19,359

famous back then and would get himself

1464

00:57:24,549 --> 00:57:22,160

into interesting conversations

1465

00:57:26,630 --> 00:57:24,559

and so you know one interesting thing

1466

00:57:28,710 --> 00:57:26,640

about your gallery is that regardless of

1467

00:57:31,270 --> 00:57:28,720

whether he's spoon bending or not

1468

00:57:33,190 --> 00:57:31,280

you know it is interesting that

1469

00:57:36,470 --> 00:57:33,200

he's interesting as a figure because

1470

00:57:37,829 --> 00:57:36,480

he's a relatively chatty oversharer when

1471

00:57:39,829 --> 00:57:37,839

it comes to

1472

00:57:42,950 --> 00:57:39,839

like like

1473

00:57:44,390 --> 00:57:42,960

intelligence agents and so you know you

1474

00:57:46,230 --> 00:57:44,400

can kind of take that for what it's

1475

00:57:48,390 --> 00:57:46,240

worth you know some people

1476
00:57:50,230 --> 00:57:48,400
um even knowing that might view him as

1477
00:57:52,069 --> 00:57:50,240
kind of a rick dodie kind of figure

1478
00:57:53,510 --> 00:57:52,079
where you don't you can't necessarily

1479
00:57:55,589 --> 00:57:53,520
trust what he's saying and there's

1480
00:57:57,480 --> 00:57:55,599
probably some truth to that

1481
00:57:59,270 --> 00:57:57,490
you can't trust rick dodie

1482
00:58:00,069 --> 00:57:59,280
[Laughter]

1483
00:58:02,390 --> 00:58:00,079
right

1484
00:58:04,309 --> 00:58:02,400
um but that's a story for another day

1485
00:58:05,349 --> 00:58:04,319
but anyway so

1486
00:58:09,430 --> 00:58:05,359
yeah

1487
00:58:11,270 --> 00:58:09,440
but anyway back to back to like what can

1488
00:58:12,950 --> 00:58:11,280

we do you're talking about gumshoe work

1489

00:58:14,630 --> 00:58:12,960

and what can we do and things like that

1490

00:58:17,270 --> 00:58:14,640

and one thing that he points out and i

1491

00:58:18,950 --> 00:58:17,280

threw over in the chat um is he

1492

00:58:20,150 --> 00:58:18,960

specifically pointed out traffic

1493

00:58:22,710 --> 00:58:20,160

analysis

1494

00:58:24,789 --> 00:58:22,720

and that that that that is kind of a

1495

00:58:27,349 --> 00:58:24,799

methodology and a strategy that's used

1496

00:58:28,150 --> 00:58:27,359

in intelligence that people might want

1497

00:58:32,710 --> 00:58:28,160

to

1498

00:58:35,270 --> 00:58:32,720

finding

1499

00:58:38,630 --> 00:58:35,280

or kind of figuring out um

1500

00:58:41,349 --> 00:58:38,640

date a finding data and kind of

1501
00:58:43,510 --> 00:58:41,359
zeroing in on that data

1502
00:58:45,589 --> 00:58:43,520
and so that may be something that people

1503
00:58:47,190 --> 00:58:45,599
may want to be looking at here but one

1504
00:58:49,510 --> 00:58:47,200
thing that he does point out in the

1505
00:58:52,390 --> 00:58:49,520
paper is is saying

1506
00:58:53,349 --> 00:58:52,400
you know that there are areas that seem

1507
00:58:56,069 --> 00:58:53,359
to be

1508
00:58:58,150 --> 00:58:56,079
hot spots that would seem to core

1509
00:59:01,109 --> 00:58:58,160
correlate with the idea

1510
00:59:03,109 --> 00:59:01,119
um with beings that are hiding under sea

1511
00:59:05,109 --> 00:59:03,119
or possibly you know within mountain

1512
00:59:06,069 --> 00:59:05,119
ranges and things like that

1513
00:59:08,390 --> 00:59:06,079

and

1514

00:59:10,630 --> 00:59:08,400

you know i uh

1515

00:59:13,030 --> 00:59:10,640

hot spots i mean and we've of course

1516

00:59:15,349 --> 00:59:13,040

we've in different shows we've covered

1517

00:59:18,309 --> 00:59:15,359

that you know there's the hot spot uh

1518

00:59:21,270 --> 00:59:18,319

near under catalina island that was

1519

00:59:24,230 --> 00:59:21,280

examined in a tear in the sky and in

1520

00:59:25,829 --> 00:59:24,240

other situations recently by uapx and

1521

00:59:28,630 --> 00:59:25,839

other teams

1522

00:59:30,069 --> 00:59:28,640

exciting ranch you could say skinwalker

1523

00:59:31,670 --> 00:59:30,079

ranch

1524

00:59:34,870 --> 00:59:31,680

you know there are

1525

00:59:37,510 --> 00:59:34,880

people talk about uh ryan graves had a

1526

00:59:41,190 --> 00:59:37,520

had a very new interview it just came

1527

00:59:43,750 --> 00:59:41,200

out yesterday or the day before

1528

00:59:45,030 --> 00:59:43,760

on lex friedman um where he was talking

1529

00:59:45,750 --> 00:59:45,040

about

1530

00:59:47,589 --> 00:59:45,760

how

1531

00:59:50,870 --> 00:59:47,599

many sightings were happening off the

1532

00:59:52,549 --> 00:59:50,880

east coast of the states and it became

1533

00:59:54,470 --> 00:59:52,559

such a

1534

00:59:55,750 --> 00:59:54,480

he was talking about how it became so

1535

00:59:57,990 --> 00:59:55,760

predominant

1536

00:59:59,109 --> 00:59:58,000

uh once they put in their new radar

1537

01:00:03,430 --> 00:59:59,119

systems

1538

01:00:05,990 --> 01:00:03,440

they

1539

01:00:07,349 --> 01:00:06,000

stopped reporting every single one

1540

01:00:09,349 --> 01:00:07,359

and just

1541

01:00:11,430 --> 01:00:09,359

kind of made it

1542

01:00:13,990 --> 01:00:11,440

don't go over there now that's an

1543

01:00:16,549 --> 01:00:14,000

interesting idea because you know

1544

01:00:19,030 --> 01:00:16,559

there's a there there as somebody like

1545

01:00:21,990 --> 01:00:19,040

bill clinton might say you know right

1546

01:00:24,710 --> 01:00:22,000

where's the there there right

1547

01:00:26,309 --> 01:00:24,720

yeah that seems like a hot spot

1548

01:00:28,390 --> 01:00:26,319

right right

1549

01:00:30,549 --> 01:00:28,400

and um you know people talk about other

1550

01:00:32,870 --> 01:00:30,559

hot spots like in the pyrenees mountains

1551

01:00:35,030 --> 01:00:32,880

or mount shasta um they're

1552

01:00:36,710 --> 01:00:35,040

uh they're they're similar areas in

1553

01:00:39,270 --> 01:00:36,720

wales and

1554

01:00:42,230 --> 01:00:39,280

um yeah uh our good friend vinnie was

1555

01:00:44,630 --> 01:00:42,240

just down in colombia you know it could

1556

01:00:46,150 --> 01:00:44,640

be some stuff there or hesterlin lights

1557

01:00:48,390 --> 01:00:46,160

you know all that stuff

1558

01:00:51,990 --> 01:00:48,400

absolutely absolutely

1559

01:00:54,230 --> 01:00:52,000

now interestingly when when

1560

01:00:57,270 --> 01:00:54,240

hal does get into some of these stories

1561

01:00:59,270 --> 01:00:57,280

that that have been that have been

1562

01:01:01,750 --> 01:00:59,280

dominant through history and that there

1563

01:01:03,430 --> 01:01:01,760

could be anecdotal cases and

1564

01:01:04,710 --> 01:01:03,440

you know there was

1565

01:01:05,829 --> 01:01:04,720

for example

1566

01:01:08,789 --> 01:01:05,839

um

1567

01:01:13,670 --> 01:01:08,799

there's a guy named evans at evansville

1568

01:01:16,309 --> 01:01:13,680

vince that um in 1911 so well before

1569

01:01:17,670 --> 01:01:16,319

kind of like humanoid cases of the 50s

1570

01:01:20,069 --> 01:01:17,680

and things like that when we were

1571

01:01:22,309 --> 01:01:20,079

supposedly dealing with venusians and

1572

01:01:25,270 --> 01:01:22,319

martians that looked like uh

1573

01:01:27,589 --> 01:01:25,280

you know super hot blondes coming down

1574

01:01:31,190 --> 01:01:27,599

you know talking talking to folks

1575

01:01:33,510 --> 01:01:31,200

out in say arizona or nevada or whatever

1576

01:01:36,390 --> 01:01:33,520

before that evans wentz was talking

1577

01:01:39,510 --> 01:01:36,400

about how there is a missile in fairy

1578

01:01:41,589 --> 01:01:39,520

faith in the celtic countries he

1579

01:01:44,710 --> 01:01:41,599

he was talking about

1580

01:01:46,230 --> 01:01:44,720

a supposed race of fairy beings called

1581

01:01:48,230 --> 01:01:46,240

the gentry

1582

01:01:51,030 --> 01:01:48,240

and if you read if you read those

1583

01:01:52,630 --> 01:01:51,040

stories it was a contemporary lens he

1584

01:01:54,710 --> 01:01:52,640

was talking about

1585

01:01:57,349 --> 01:01:54,720

large

1586

01:01:58,549 --> 01:01:57,359

fair-haired beings that were kind of

1587

01:02:01,190 --> 01:01:58,559

like

1588

01:02:03,190 --> 01:02:01,200

seen as being centuries

1589

01:02:05,349 --> 01:02:03,200

or kind of guards in a way

1590

01:02:08,069 --> 01:02:05,359

and that they were understood to be to

1591

01:02:09,670 --> 01:02:08,079

live under mountains or live within the

1592

01:02:11,829 --> 01:02:09,680

earth generally

1593

01:02:14,630 --> 01:02:11,839

and that sometimes

1594

01:02:16,789 --> 01:02:14,640

back in say like the 1700s they would

1595

01:02:18,789 --> 01:02:16,799

even talk to locals

1596

01:02:20,470 --> 01:02:18,799

and people would ask them you know what

1597

01:02:22,150 --> 01:02:20,480

you know what's your deal and they'd be

1598

01:02:23,589 --> 01:02:22,160

like oh we're basically like guards and

1599

01:02:25,829 --> 01:02:23,599

we travel

1600

01:02:30,309 --> 01:02:27,990

and they're in the mountains you know

1601

01:02:32,829 --> 01:02:30,319

yeah and it and then evan smith's book

1602

01:02:36,309 --> 01:02:32,839

again published in 1911 they're like oh

1603

01:02:38,549 --> 01:02:36,319

yeah um we get traded around every once

1604

01:02:40,470 --> 01:02:38,559

in a while and there's another base

1605

01:02:41,510 --> 01:02:40,480

under the pyrenees

1606

01:02:46,309 --> 01:02:41,520

and

1607

01:02:47,670 --> 01:02:46,319

knows another anthropologist in

1608

01:02:49,910 --> 01:02:47,680

california

1609

01:02:53,430 --> 01:02:49,920

that that wrote about

1610

01:02:56,230 --> 01:02:53,440

that wrote to him about similar reports

1611

01:02:58,549 --> 01:02:56,240

of similar beings from native american

1612

01:03:01,990 --> 01:02:58,559

myth and local myth in northern

1613

01:03:03,029 --> 01:03:02,000

california under a mountain there

1614

01:03:05,190 --> 01:03:03,039

wow

1615

01:03:06,950 --> 01:03:05,200

how amazing is that so for those of you

1616

01:03:09,750 --> 01:03:06,960

that don't know uh there's this

1617

01:03:12,549 --> 01:03:09,760

long-standing kind of uh

1618

01:03:14,630 --> 01:03:12,559

a piece of lore and ufology that deals

1619

01:03:17,510 --> 01:03:14,640

with mount shasta and that there are

1620

01:03:19,029 --> 01:03:17,520

often humanoid seemingly advanced beings

1621

01:03:20,069 --> 01:03:19,039

that are that are seen around mount

1622

01:03:22,789 --> 01:03:20,079

shasta

1623

01:03:24,549 --> 01:03:22,799

so anyway it you're getting into an area

1624

01:03:27,270 --> 01:03:24,559

where between say jacques valley and

1625

01:03:29,589 --> 01:03:27,280

passport to magonia and these old in

1626

01:03:31,430 --> 01:03:29,599

these old irish celtic even native

1627

01:03:33,349 --> 01:03:31,440

american myths that would seem to

1628

01:03:35,430 --> 01:03:33,359

correlate with what hal put off is

1629

01:03:37,190 --> 01:03:35,440

talking about with this now published

1630

01:03:38,470 --> 01:03:37,200

long rumored paper

1631

01:03:39,829 --> 01:03:38,480

yeah

1632

01:03:41,430 --> 01:03:39,839

and i

1633

01:03:43,829 --> 01:03:41,440

i don't even know where to start with

1634

01:03:44,789 --> 01:03:43,839

some of that stuff you know right um the

1635

01:03:47,109 --> 01:03:44,799

the

1636

01:03:49,430 --> 01:03:47,119

because it can be so

1637

01:03:51,670 --> 01:03:49,440

um

1638

01:03:53,029 --> 01:03:51,680

like how can you be proactive about and

1639

01:03:54,789 --> 01:03:53,039

and it's hard for me to believe that

1640

01:03:57,109 --> 01:03:54,799

people haven't been proactive about

1641

01:03:59,430 --> 01:03:57,119

trying to research you know the

1642

01:04:01,990 --> 01:03:59,440

mountains and and what may be dwelling

1643

01:04:03,910 --> 01:04:02,000

in there too but there's there's some

1644

01:04:04,870 --> 01:04:03,920

great points though uh

1645

01:04:06,390 --> 01:04:04,880

about

1646

01:04:08,069 --> 01:04:06,400

certain things and you can see kind of a

1647

01:04:09,190 --> 01:04:08,079

mishmash of all the different things

1648

01:04:11,589 --> 01:04:09,200

that have been

1649

01:04:13,990 --> 01:04:11,599

uh been talked about over the course of

1650

01:04:16,390 --> 01:04:14,000

i don't know the last year or longer

1651
01:04:18,789 --> 01:04:16,400
everything from john ramirez and

1652
01:04:21,109 --> 01:04:18,799
um you know our genetics being messed

1653
01:04:23,349 --> 01:04:21,119
with and and maybe

1654
01:04:27,109 --> 01:04:23,359
came from some being to begin with you

1655
01:04:29,430 --> 01:04:27,119
know and all the way from uh abductions

1656
01:04:30,950 --> 01:04:29,440
and hybridization programs you know all

1657
01:04:33,029 --> 01:04:30,960
this stuff is

1658
01:04:35,750 --> 01:04:33,039
uh kind of involved and you know the one

1659
01:04:38,870 --> 01:04:35,760
thing i would ask is is he maybe hinting

1660
01:04:41,190 --> 01:04:38,880
at that everything he mentioned

1661
01:04:43,589 --> 01:04:41,200
could be involved

1662
01:04:44,630 --> 01:04:43,599
i think he is you know right at the end

1663
01:04:47,029 --> 01:04:44,640

he's saying

1664

01:04:48,870 --> 01:04:47,039

that this very well could be a bose and

1665

01:04:50,789 --> 01:04:48,880

situation rather than either or

1666

01:04:52,870 --> 01:04:50,799

situation because there's so many

1667

01:04:54,710 --> 01:04:52,880

different phenomena you know

1668

01:04:56,789 --> 01:04:54,720

absolutely and even gets back to

1669

01:04:59,109 --> 01:04:56,799

remember lou elizondo was recommending

1670

01:05:00,789 --> 01:04:59,119

that people read a short a science

1671

01:05:01,990 --> 01:05:00,799

fiction short story called change of the

1672

01:05:05,430 --> 01:05:02,000

scene

1673

01:05:07,029 --> 01:05:05,440

and that's largely that story um

1674

01:05:10,069 --> 01:05:07,039

you know boiled down

1675

01:05:11,270 --> 01:05:10,079

uh to one of its basic elements is that

1676
01:05:13,270 --> 01:05:11,280
you know that there could be something

1677
01:05:15,109 --> 01:05:13,280
coming from outside but that we're not

1678
01:05:16,230 --> 01:05:15,119
exactly the alphas that we think they

1679
01:05:18,150 --> 01:05:16,240
are here

1680
01:05:19,750 --> 01:05:18,160
and that there could be a such hands

1681
01:05:21,589 --> 01:05:19,760
right it kind of points to the idea that

1682
01:05:22,470 --> 01:05:21,599
there could be a situation in the future

1683
01:05:31,430 --> 01:05:22,480
where

1684
01:05:32,870 --> 01:05:31,440
technologically superior civilization

1685
01:05:35,270 --> 01:05:32,880
from elsewhere

1686
01:05:39,029 --> 01:05:35,280
is is in contact with the

1687
01:05:40,390 --> 01:05:39,039
technologically superior

1688
01:05:42,230 --> 01:05:40,400

civil legislation or breakaway

1689

01:05:44,390 --> 01:05:42,240

civilization that's already here and

1690

01:05:46,630 --> 01:05:44,400

that we're just kind of

1691

01:05:48,470 --> 01:05:46,640

dumbfounded in the middle watching stuff

1692

01:05:50,630 --> 01:05:48,480

play out it could be a good moment to

1693

01:05:53,270 --> 01:05:50,640

segue into gary nolan

1694

01:05:56,309 --> 01:05:53,280

which he's you know kind of touched on

1695

01:05:57,349 --> 01:05:56,319

in that interview with tucker carlson um

1696

01:05:59,109 --> 01:05:57,359

where

1697

01:06:01,510 --> 01:05:59,119

you know he hit that

1698

01:06:03,589 --> 01:06:01,520

there could be multiple phenomena here

1699

01:06:05,910 --> 01:06:03,599

that maybe are in friction

1700

01:06:07,510 --> 01:06:05,920

uh with each other but hold that note as

1701

01:06:09,109 --> 01:06:07,520

we take a little break

1702

01:06:10,789 --> 01:06:09,119

if you have time

1703

01:06:13,910 --> 01:06:10,799

sure yeah where are you going to play

1704

01:06:15,430 --> 01:06:13,920

that uh clip yeah we have some witness

1705

01:06:17,589 --> 01:06:15,440

testimony that we're going to listen to

1706

01:06:19,190 --> 01:06:17,599

which also allows jane i to just take a

1707

01:06:21,829 --> 01:06:19,200

little bit of a break

1708

01:06:24,950 --> 01:06:21,839

so i can you know do break things you do

1709

01:06:26,549 --> 01:06:24,960

people do on break you know for

1710

01:06:28,789 --> 01:06:26,559

five or seven minutes

1711

01:06:33,670 --> 01:06:28,799

but this is a very interesting case it's

1712

01:06:36,470 --> 01:06:33,680

a police officer and um you know it's

1713

01:06:40,150 --> 01:06:36,480

he witnesses something by the

1714

01:06:43,349 --> 01:06:40,160

nasa uh nuclear laboratory

1715

01:06:46,069 --> 01:06:43,359

um in sandusky ohio so with that we'll

1716

01:06:49,270 --> 01:06:46,079

play that and we'll be back and we'll be

1717

01:06:51,430 --> 01:06:49,280

back all right soon a few

1718

01:06:57,109 --> 01:06:51,440

not that one

1719

01:06:59,510 --> 01:06:57,119

there we go february 10 1967

1720

01:07:01,750 --> 01:06:59,520

11 22

1721

01:07:04,870 --> 01:07:01,760

erie county sheriff's department

1722

01:07:06,950 --> 01:07:04,880

sandusky ohio with constable gary butler

1723

01:07:08,710 --> 01:07:06,960

who earlier this morning

1724

01:07:10,870 --> 01:07:08,720

cited a ufo

1725

01:07:14,470 --> 01:07:10,880

over the nasa

1726

01:07:16,789 --> 01:07:14,480

installation outside of town

1727

01:07:18,950 --> 01:07:16,799

yes this is rick hillberg of

1728

01:07:20,150 --> 01:07:18,960

cleveland and earl neff of cleveland

1729

01:07:21,510 --> 01:07:20,160

interviewing

1730

01:07:24,069 --> 01:07:21,520

from nycap

1731

01:07:26,470 --> 01:07:24,079

constable butler could you uh just

1732

01:07:27,270 --> 01:07:26,480

briefly tell us run through the sighting

1733

01:07:29,029 --> 01:07:27,280

and

1734

01:07:31,430 --> 01:07:29,039

tell us what you saw on the approximate

1735

01:07:33,109 --> 01:07:31,440

times and any comments you might have or

1736

01:07:35,990 --> 01:07:33,119

elaborations

1737

01:07:37,270 --> 01:07:36,000

well this officer on the patrol the

1738

01:07:39,589 --> 01:07:37,280

earlier part of

1739

01:07:42,710 --> 01:07:39,599

friday morning was going down one of our

1740

01:07:46,150 --> 01:07:42,720

side roads shank road which runs

1741

01:07:49,510 --> 01:07:46,160

parallel with any essay the local

1742

01:07:51,510 --> 01:07:49,520

nasa establishment

1743

01:07:53,029 --> 01:07:51,520

i was going on the east from a east to

1744

01:07:54,950 --> 01:07:53,039

west direction

1745

01:07:56,789 --> 01:07:54,960

and making my

1746

01:07:59,430 --> 01:07:56,799

turn onto

1747

01:08:02,950 --> 01:07:59,440

the main road when i observe a

1748

01:08:05,990 --> 01:08:02,960

bluish bright colored

1749

01:08:07,109 --> 01:08:06,000

disc object in a southwestern direction

1750

01:08:08,789 --> 01:08:07,119

of

1751

01:08:11,109 --> 01:08:08,799

the county

1752

01:08:13,990 --> 01:08:11,119

i observed this object for approximately

1753

01:08:15,750 --> 01:08:14,000

five minutes before relaying the message

1754

01:08:17,990 --> 01:08:15,760

to the sheriff's department to make sure

1755

01:08:20,550 --> 01:08:18,000

that what i did see

1756

01:08:24,630 --> 01:08:23,030

a true thing

1757

01:08:26,789 --> 01:08:24,640

when i called when i relayed the message

1758

01:08:30,309 --> 01:08:26,799

to the sheriff's department the state

1759

01:08:31,269 --> 01:08:30,319

patrol responded also

1760

01:08:34,470 --> 01:08:31,279

the

1761

01:08:35,669 --> 01:08:34,480

deputy was on route 250 approaching a

1762

01:08:38,630 --> 01:08:35,679

bypass

1763

01:08:40,950 --> 01:08:38,640

when he called to this officer

1764

01:08:43,110 --> 01:08:40,960

i observed the object

1765

01:08:47,510 --> 01:08:43,120

in a stationary position approximately a

1766

01:08:51,669 --> 01:08:49,590

after observing it for approximately six

1767

01:08:54,309 --> 01:08:51,679

seven maybe eight minutes

1768

01:08:56,950 --> 01:08:54,319

this object began to decline towards the

1769

01:08:59,030 --> 01:08:56,960

ground it disappeared behind a group of

1770

01:09:01,110 --> 01:08:59,040

trees

1771

01:09:02,309 --> 01:09:01,120

at this time i radioed to the other

1772

01:09:04,550 --> 01:09:02,319

officers who

1773

01:09:07,590 --> 01:09:04,560

immediately responded to the area and i

1774

01:09:10,390 --> 01:09:07,600

had myself uh went to the area to which

1775

01:09:12,470 --> 01:09:10,400

i saw the object disappeared to and

1776

01:09:15,430 --> 01:09:12,480

after almost an hour and a half of

1777

01:09:17,110 --> 01:09:15,440

observation we could not locate anything

1778

01:09:19,030 --> 01:09:17,120

you mentioned during the previous

1779

01:09:21,349 --> 01:09:19,040

interview when you were filling out our

1780

01:09:22,709 --> 01:09:21,359

report form that you notice some

1781

01:09:24,309 --> 01:09:22,719

interference on your radio

1782

01:09:25,749 --> 01:09:24,319

communications approximately what time

1783

01:09:27,269 --> 01:09:25,759

did this happen what was the nature of

1784

01:09:28,470 --> 01:09:27,279

the interference

1785

01:09:30,709 --> 01:09:28,480

the time

1786

01:09:33,430 --> 01:09:30,719

i would i i'm uncertain about i would

1787

01:09:36,070 --> 01:09:33,440

estimate somewhere around four o'clock

1788

01:09:38,789 --> 01:09:36,080

there was some static i had to repeat my

1789

01:09:39,829 --> 01:09:38,799

uh transmission uh two or three times

1790

01:09:42,070 --> 01:09:39,839

because

1791

01:09:43,590 --> 01:09:42,080

the deputy at the station could not

1792

01:09:46,149 --> 01:09:43,600

understand

1793

01:09:48,390 --> 01:09:46,159

also there was two officers i believe

1794

01:09:49,430 --> 01:09:48,400

from the bellevue area who

1795

01:09:52,309 --> 01:09:49,440

saw a

1796

01:09:54,070 --> 01:09:52,319

light a bright a light

1797

01:09:55,510 --> 01:09:54,080

object in the sky which they observed

1798

01:09:57,750 --> 01:09:55,520

for several minutes and they said it

1799

01:09:59,510 --> 01:09:57,760

disappeared i don't know if this was any

1800

01:10:02,070 --> 01:09:59,520

connection at all but

1801
01:10:04,310 --> 01:10:02,080
it might have been a jet or something to

1802
01:10:07,030 --> 01:10:04,320
this fact

1803
01:10:09,430 --> 01:10:07,040
constable butler i'd like to ask you

1804
01:10:12,870 --> 01:10:09,440
did you at the distance you were away

1805
01:10:14,229 --> 01:10:12,880
from this detect any sound whatever from

1806
01:10:15,830 --> 01:10:14,239
the object

1807
01:10:18,070 --> 01:10:15,840
that's negative there was no sound

1808
01:10:20,709 --> 01:10:18,080
whatsoever i did shut off my the motor

1809
01:10:22,229 --> 01:10:20,719
to my vehicle i had the ignition on so i

1810
01:10:24,550 --> 01:10:22,239
could hear my radio

1811
01:10:26,470 --> 01:10:24,560
i heard nothing i shown this my

1812
01:10:27,350 --> 01:10:26,480
spotlight on the vicinity of where the

1813
01:10:28,229 --> 01:10:27,360

uh

1814

01:10:34,870 --> 01:10:28,239

the

1815

01:10:37,350 --> 01:10:34,880

object itself

1816

01:10:40,310 --> 01:10:37,360

i'd also like to ask you constable if

1817

01:10:42,830 --> 01:10:40,320

you've had any previous interest in this

1818

01:10:46,550 --> 01:10:42,840

subject or have you read any

1819

01:10:48,870 --> 01:10:46,560

articles or books on this particular

1820

01:10:50,390 --> 01:10:48,880

subject in the past in other words have

1821

01:10:51,750 --> 01:10:50,400

you had any interest in along those

1822

01:10:52,950 --> 01:10:51,760

lines

1823

01:10:55,510 --> 01:10:52,960

i have read

1824

01:10:58,310 --> 01:10:55,520

just a little bit local newspapers and

1825

01:11:00,709 --> 01:10:58,320

this and i have observed on the tele on

1826
01:11:02,229 --> 01:11:00,719
television and radio but as far as being

1827
01:11:04,390 --> 01:11:02,239
interested in it

1828
01:11:05,830 --> 01:11:04,400
i haven't as of yet until this point

1829
01:11:07,430 --> 01:11:05,840
i've been uh

1830
01:11:09,669 --> 01:11:07,440
fascinated with that you might say or

1831
01:11:12,070 --> 01:11:09,679
even interested in it

1832
01:11:13,990 --> 01:11:12,080
i'm like everybody else i would say that

1833
01:11:15,910 --> 01:11:14,000
has heard this or read of first people

1834
01:11:17,669 --> 01:11:15,920
of observation that

1835
01:11:19,510 --> 01:11:17,679
i too thought that

1836
01:11:22,070 --> 01:11:19,520
they were nuts in some respects but

1837
01:11:25,189 --> 01:11:22,080
after seeing what i saw last night

1838
01:11:27,030 --> 01:11:25,199

my attitude may change

1839

01:11:28,390 --> 01:11:27,040

constable butler could you give us a

1840

01:11:29,990 --> 01:11:28,400

brief description of the weather

1841

01:11:32,070 --> 01:11:30,000

conditions in the vicinity at the time

1842

01:11:34,070 --> 01:11:32,080

of the report

1843

01:11:36,470 --> 01:11:34,080

if i remember correctly i believe it was

1844

01:11:39,189 --> 01:11:36,480

cloudy it was the weather was cold

1845

01:11:41,270 --> 01:11:39,199

there was a slight uh a breeze or wind

1846

01:11:43,910 --> 01:11:41,280

blowing out of the southwest

1847

01:11:47,669 --> 01:11:43,920

approximately 10 maybe 15 miles an hour

1848

01:11:50,070 --> 01:11:47,679

the atomic reactor nesa was in operation

1849

01:11:54,149 --> 01:11:50,080

but this and this reactor was in the

1850

01:11:56,709 --> 01:11:54,159

eastern part of the uh county or the

1851

01:11:58,390 --> 01:11:56,719

establishment of nasa

1852

01:12:00,390 --> 01:11:58,400

councilman butler do you know that any

1853

01:12:04,870 --> 01:12:00,400

of the people at nasa

1854

01:12:09,189 --> 01:12:06,790

passing anywhere near the place where it

1855

01:12:12,870 --> 01:12:09,199

might have been or not

1856

01:12:15,270 --> 01:12:12,880

well i spotted about 3 42 there was a

1857

01:12:17,350 --> 01:12:15,280

a guard of nesa who went by the area

1858

01:12:20,470 --> 01:12:17,360

about four o'clock five after four he

1859

01:12:22,950 --> 01:12:20,480

said but this had already uh

1860

01:12:25,110 --> 01:12:22,960

disappeared uh before that time

1861

01:12:28,630 --> 01:12:25,120

but as far as anybody else seeing it i

1862

01:12:32,630 --> 01:12:28,640

am i am the only one evidently that

1863

01:12:35,510 --> 01:12:32,640

had access to seeing this um this object

1864

01:12:36,950 --> 01:12:35,520

uh you were uh referring i presume to

1865

01:12:38,950 --> 01:12:36,960

plumb brook right

1866

01:12:41,830 --> 01:12:38,960

that's that's true

1867

01:12:43,110 --> 01:12:41,840

uh was there a moon or were there stars

1868

01:12:44,310 --> 01:12:43,120

that night

1869

01:12:45,830 --> 01:12:44,320

i believe the earlier part of the

1870

01:12:47,990 --> 01:12:45,840

evening there was a

1871

01:12:49,510 --> 01:12:48,000

some stars out and there was a moon but

1872

01:12:51,750 --> 01:12:49,520

at this particular time i don't believe

1873

01:12:54,229 --> 01:12:51,760

that there was any

1874

01:12:55,350 --> 01:12:54,239

did you see any other cars passing you

1875

01:12:57,910 --> 01:12:55,360

at the time

1876

01:12:59,750 --> 01:12:57,920

on the road where you were

1877

01:13:01,910 --> 01:12:59,760

negative there was no there was nobody

1878

01:13:03,350 --> 01:13:01,920

on the road this was a pretty early in

1879

01:13:05,590 --> 01:13:03,360

the morning and

1880

01:13:08,149 --> 01:13:05,600

there was nobody on the road traffic was

1881

01:13:09,590 --> 01:13:08,159

very light if any at all

1882

01:13:11,510 --> 01:13:09,600

did you notice

1883

01:13:13,750 --> 01:13:11,520

any physical

1884

01:13:16,470 --> 01:13:13,760

effects afterward any yellow effects any

1885

01:13:18,709 --> 01:13:16,480

burning of the eyes or

1886

01:13:20,709 --> 01:13:18,719

burning of any part of it exposed

1887

01:13:23,110 --> 01:13:20,719

section of skin or headache or anything

1888

01:13:24,950 --> 01:13:23,120

of this nature after looking at this

1889

01:13:26,229 --> 01:13:24,960

object

1890

01:13:27,990 --> 01:13:26,239

no there was no

1891

01:13:30,070 --> 01:13:28,000

physical

1892

01:13:33,270 --> 01:13:30,080

reaction towards this except after

1893

01:13:35,350 --> 01:13:33,280

looking at the object there were

1894

01:13:38,149 --> 01:13:35,360

same effects as you might see it

1895

01:13:41,110 --> 01:13:38,159

when the camera flash bulb itself

1896

01:13:43,110 --> 01:13:41,120

goes off in front of your eyes

1897

01:13:46,070 --> 01:13:43,120

i'd like very much to thank you for your

1898

01:13:47,830 --> 01:13:46,080

fine cooperation constable butler and i

1899

01:13:49,110 --> 01:13:47,840

know mr hillberg is very appreciative of

1900

01:13:52,790 --> 01:13:49,120

any other questions you'd like to ask

1901

01:13:57,750 --> 01:13:54,310

all right so thanks for listening to

1902

01:14:00,709 --> 01:13:57,760

that i thought it was a pretty good clip

1903

01:14:02,470 --> 01:14:00,719

interesting we have more of the nuclear

1904

01:14:04,070 --> 01:14:02,480

aspect there what you know i was just

1905

01:14:05,590 --> 01:14:04,080

commenting to

1906

01:14:07,270 --> 01:14:05,600

kirsten on here

1907

01:14:09,189 --> 01:14:07,280

you know it's kind of

1908

01:14:10,790 --> 01:14:09,199

a typical sighting you know we have

1909

01:14:13,270 --> 01:14:10,800

nuclear involved

1910

01:14:15,590 --> 01:14:13,280

and we also have the guys saying things

1911

01:14:17,430 --> 01:14:15,600

like uh you know i always thought these

1912

01:14:19,830 --> 01:14:17,440

people were crazy

1913

01:14:21,990 --> 01:14:19,840

you know right and i don't think i'm

1914

01:14:23,030 --> 01:14:22,000

gonna think that anymore you know you

1915

01:14:24,310 --> 01:14:23,040

know like

1916

01:14:25,750 --> 01:14:24,320

people don't

1917

01:14:31,030 --> 01:14:25,760

change

1918

01:14:33,750 --> 01:14:31,040

if they see just like a light in the sky

1919

01:14:35,669 --> 01:14:33,760

for instance you know the and it's even

1920

01:14:37,990 --> 01:14:35,679

funny because

1921

01:14:40,550 --> 01:14:38,000

cops on the other side or whatever saw

1922

01:14:42,630 --> 01:14:40,560

a light too and he's writing off their

1923

01:14:44,630 --> 01:14:42,640

sighting after he gets not running on

1924

01:14:45,750 --> 01:14:44,640

his own he's like well yeah but they

1925

01:14:48,709 --> 01:14:45,760

could have probably just seen some

1926

01:14:50,709 --> 01:14:48,719

aircraft or something you know right but

1927

01:14:53,510 --> 01:14:50,719

you know so but that's kind of what i

1928

01:14:55,110 --> 01:14:53,520

mean too like in in the video that you

1929

01:14:57,189 --> 01:14:55,120

know i made for the beginning it's like

1930

01:14:59,110 --> 01:14:57,199

where you're constantly debunking

1931

01:15:01,270 --> 01:14:59,120

yourself you know like

1932

01:15:02,149 --> 01:15:01,280

a lot of these skeptics and such act

1933

01:15:05,430 --> 01:15:02,159

like

1934

01:15:07,110 --> 01:15:05,440

things aren't

1935

01:15:09,110 --> 01:15:07,120

haven't already thought about that well

1936

01:15:10,950 --> 01:15:09,120

maybe i'm just seeing something wrong or

1937

01:15:12,870 --> 01:15:10,960

maybe it says or maybe it's that but at

1938

01:15:15,750 --> 01:15:12,880

the end of the day they're left with

1939

01:15:18,070 --> 01:15:15,760

i can't say it's that i don't it's not

1940

01:15:21,430 --> 01:15:18,080

that it's so obviously not that i don't

1941

01:15:23,030 --> 01:15:21,440

know what the prick it is you know and

1942

01:15:24,630 --> 01:15:23,040

and you're left with like all these

1943

01:15:26,790 --> 01:15:24,640

questions and

1944

01:15:28,390 --> 01:15:26,800

and it's like new chapter your life

1945

01:15:29,590 --> 01:15:28,400

begins

1946

01:15:33,430 --> 01:15:29,600

absolutely

1947

01:15:36,950 --> 01:15:33,440

yeah i i really deeply appreciate that

1948

01:15:40,070 --> 01:15:36,960

and and it's true i mean how often

1949

01:15:43,350 --> 01:15:40,080

you you know especially maybe at

1950

01:15:45,430 --> 01:15:43,360

the onset of of when you started really

1951

01:15:46,390 --> 01:15:45,440

kind of engaging

1952

01:15:48,070 --> 01:15:46,400

um

1953

01:15:49,750 --> 01:15:48,080

after your own experience and things

1954

01:15:51,669 --> 01:15:49,760

like that did you come across a case and

1955

01:15:52,630 --> 01:15:51,679

you were like i don't know about that

1956

01:15:54,470 --> 01:15:52,640

you know

1957

01:15:56,149 --> 01:15:54,480

all the time when i'm reading like bloop

1958

01:15:57,030 --> 01:15:56,159

but when i'm reading blue book things

1959

01:16:00,070 --> 01:15:57,040

you know

1960

01:16:01,750 --> 01:16:00,080

and then i catch myself i'm like

1961

01:16:02,950 --> 01:16:01,760

the description really isn't all that

1962

01:16:05,350 --> 01:16:02,960

different than how i would have

1963

01:16:06,390 --> 01:16:05,360

described what i saw you know

1964

01:16:08,149 --> 01:16:06,400

exactly

1965

01:16:09,590 --> 01:16:08,159

right and

1966

01:16:11,430 --> 01:16:09,600

it's funny that way

1967

01:16:13,750 --> 01:16:11,440

yeah and then and then there's

1968

01:16:16,229 --> 01:16:13,760

you know the added quality of time or

1969

01:16:17,430 --> 01:16:16,239

like looking at it in a dock versus like

1970

01:16:19,830 --> 01:16:17,440

something that might have happened

1971

01:16:22,310 --> 01:16:19,840

yesterday you know what i mean or sure

1972

01:16:23,990 --> 01:16:22,320

or a couple weeks ago and you know a lot

1973

01:16:27,990 --> 01:16:24,000

of these cases

1974

01:16:30,229 --> 01:16:28,000

you know i think one of the reasons why

1975

01:16:33,350 --> 01:16:30,239

one of the many reasons why your

1976

01:16:35,750 --> 01:16:33,360

historical document diving has been so

1977

01:16:37,910 --> 01:16:35,760

great and so fruitful and continues to

1978

01:16:39,910 --> 01:16:37,920

be so great and so fruitful

1979

01:16:40,870 --> 01:16:39,920

is

1980

01:16:47,510 --> 01:16:40,880

that

1981

01:16:50,550 --> 01:16:47,520

something say something right right and

1982

01:16:52,229 --> 01:16:50,560

and it seems a lot like these days

1983

01:16:54,390 --> 01:16:52,239

people just don't even bother

1984

01:16:55,990 --> 01:16:54,400

you know right and that that kind of i

1985

01:16:57,510 --> 01:16:56,000

i'm sorry to keep bringing this up but

1986

01:16:59,510 --> 01:16:57,520

i'm reading it now so i keep thinking

1987

01:17:01,590 --> 01:16:59,520

about it but the invisible college chuck

1988

01:17:02,870 --> 01:17:01,600

valet talks about uh you know like one

1989

01:17:04,709 --> 01:17:02,880

in ten

1990

01:17:06,229 --> 01:17:04,719

would actually report something to the

1991

01:17:07,750 --> 01:17:06,239

air force because they had such a bad

1992

01:17:09,030 --> 01:17:07,760

reputation for how they were dealing

1993

01:17:12,149 --> 01:17:09,040

with this to begin with people didn't

1994

01:17:14,229 --> 01:17:12,159

even tell them anymore you know

1995

01:17:16,149 --> 01:17:14,239

that's right it's just like so many

1996

01:17:17,430 --> 01:17:16,159

reports you know that that we don't even

1997

01:17:18,870 --> 01:17:17,440

know of and weren't even reported

1998

01:17:21,510 --> 01:17:18,880

because basically all they were doing

1999

01:17:25,430 --> 01:17:21,520

was yeah what it looked like yep okay

2000

01:17:27,910 --> 01:17:25,440

all right thanks yep all right bye

2001
01:17:29,510 --> 01:17:27,920
yeah you know so what in your left as

2002
01:17:30,870 --> 01:17:29,520
experience are going through that like

2003
01:17:32,390 --> 01:17:30,880
okay

2004
01:17:33,669 --> 01:17:32,400
what was the point of that i'd rather

2005
01:17:36,790 --> 01:17:33,679
tell somebody

2006
01:17:38,790 --> 01:17:36,800
down down the street that maybe actually

2007
01:17:41,189 --> 01:17:38,800
have been looking at ufos for a little

2008
01:17:43,830 --> 01:17:41,199
bit that maybe actually be able to give

2009
01:17:45,830 --> 01:17:43,840
me some insight on this stuff you know

2010
01:17:48,950 --> 01:17:45,840
that's right i mean i

2011
01:17:52,070 --> 01:17:48,960
i remember even just for myself um the

2012
01:17:55,030 --> 01:17:52,080
only i mean before the last few years

2013
01:17:58,709 --> 01:17:55,040

the only time that i reported something

2014

01:18:01,990 --> 01:17:58,719

i reported to newfork and and it was

2015

01:18:05,590 --> 01:18:02,000

like amber orbs in the sky back in say

2016

01:18:07,510 --> 01:18:05,600

2007 or 2006 somewhere around there and

2017

01:18:10,470 --> 01:18:07,520

you know i'd had all sorts of situations

2018

01:18:12,950 --> 01:18:10,480

before that but that one i did because

2019

01:18:14,950 --> 01:18:12,960

because it was safe and because it like

2020

01:18:16,790 --> 01:18:14,960

ticked the boxes of like the kinds of

2021

01:18:18,630 --> 01:18:16,800

reports that they liked or that they

2022

01:18:20,870 --> 01:18:18,640

published or that i said right

2023

01:18:23,350 --> 01:18:20,880

that i associated with them right right

2024

01:18:24,630 --> 01:18:23,360

yeah and then the more strangeness there

2025

01:18:26,870 --> 01:18:24,640

is with your

2026

01:18:28,870 --> 01:18:26,880

your encounter like the less likely you

2027

01:18:31,110 --> 01:18:28,880

already even report it

2028

01:18:34,070 --> 01:18:31,120

absolutely do you know if

2029

01:18:36,709 --> 01:18:34,080

like uh like a premonition dream comes

2030

01:18:38,470 --> 01:18:36,719

true like like i had around these things

2031

01:18:39,990 --> 01:18:38,480

that i saw like

2032

01:18:41,590 --> 01:18:40,000

but what am i gonna tell i'm gonna call

2033

01:18:43,669 --> 01:18:41,600

the cops and tell them and then my this

2034

01:18:46,390 --> 01:18:43,679

dream came true and

2035

01:18:48,149 --> 01:18:46,400

it was a pretty crazy dream and then i

2036

01:18:50,709 --> 01:18:48,159

saw these things so

2037

01:18:52,870 --> 01:18:50,719

you know like you just feel silly even

2038

01:18:55,430 --> 01:18:52,880

saying it while you're saying it like

2039

01:18:57,990 --> 01:18:55,440

you know even gary nolan on his thing

2040

01:18:59,830 --> 01:18:58,000

with dr carlson yesterday he's talking

2041

01:19:01,830 --> 01:18:59,840

about you know and everybody always

2042

01:19:03,750 --> 01:19:01,840

falls into this trap like

2043

01:19:05,030 --> 01:19:03,760

i know this sounds crazy

2044

01:19:10,070 --> 01:19:05,040

yeah

2045

01:19:12,709 --> 01:19:10,080

talk about it so

2046

01:19:15,189 --> 01:19:12,719

yeah absolutely and i think you know

2047

01:19:16,790 --> 01:19:15,199

it's great that i i saw online the other

2048

01:19:18,470 --> 01:19:16,800

day gary was

2049

01:19:20,229 --> 01:19:18,480

talking about

2050

01:19:21,910 --> 01:19:20,239

you know um

2051

01:19:25,030 --> 01:19:21,920

he was joking with somebody on twitter

2052

01:19:26,709 --> 01:19:25,040

about about penance like you know

2053

01:19:28,870 --> 01:19:26,719

instead of like saying the rosary or

2054

01:19:30,790 --> 01:19:28,880

something like that that somebody

2055

01:19:32,630 --> 01:19:30,800

that somebody had kind of

2056

01:19:35,430 --> 01:19:32,640

he he thought that they deserved some

2057

01:19:38,229 --> 01:19:35,440

demerits and and told them to go read

2058

01:19:40,229 --> 01:19:38,239

operation trojan horse 100 times

2059

01:19:42,870 --> 01:19:40,239

right

2060

01:19:46,550 --> 01:19:42,880

and and he also told them to read uh

2061

01:19:48,870 --> 01:19:46,560

wonders in the sky uh by valet and abec

2062

01:19:50,870 --> 01:19:48,880

about ancient sightings

2063

01:19:52,149 --> 01:19:50,880

a 100 times as well and i thought and i

2064

01:19:54,229 --> 01:19:52,159

thought for

2065

01:19:56,229 --> 01:19:54,239

you know it was those were two really

2066

01:19:59,270 --> 01:19:56,239

interesting and very

2067

01:20:01,189 --> 01:19:59,280

uh revealing books to have picked sure

2068

01:20:03,430 --> 01:20:01,199

you know yeah a this stuff has been

2069

01:20:06,390 --> 01:20:03,440

around for a while and b

2070

01:20:07,510 --> 01:20:06,400

uh good luck figuring out because it's a

2071

01:20:09,270 --> 01:20:07,520

kind of uh

2072

01:20:11,350 --> 01:20:09,280

screwing with you

2073

01:20:13,590 --> 01:20:11,360

yeah but you know i could understand

2074

01:20:15,430 --> 01:20:13,600

some kinship between gary nolan and john

2075

01:20:18,229 --> 01:20:15,440

keel in many ways because

2076

01:20:21,270 --> 01:20:18,239

they're both people that have been that

2077

01:20:24,229 --> 01:20:21,280

have put themselves or had put in front

2078

01:20:26,950 --> 01:20:24,239

of them experiencers themselves

2079

01:20:28,390 --> 01:20:26,960

and had really kind of

2080

01:20:31,430 --> 01:20:28,400

reached a

2081

01:20:33,189 --> 01:20:31,440

semblance of trust or a more long-form

2082

01:20:34,310 --> 01:20:33,199

dialogue with some of these people you

2083

01:20:36,790 --> 01:20:34,320

know and

2084

01:20:38,950 --> 01:20:36,800

you know keel would you know drive

2085

01:20:41,430 --> 01:20:38,960

around through west virginia or wherever

2086

01:20:43,030 --> 01:20:41,440

and and knock on doors and introduce

2087

01:20:45,590 --> 01:20:43,040

himself to people and

2088

01:20:47,189 --> 01:20:45,600

and and that's that's you know as hell

2089

01:20:49,350 --> 01:20:47,199

put off was talking about here in terms

2090

01:20:52,390 --> 01:20:49,360

of being a gumshoe john keel was a

2091

01:20:54,149 --> 01:20:52,400

gumshoe you know but hopkins was a gum

2092

01:20:56,149 --> 01:20:54,159

shoe there there are certain people in

2093

01:20:57,910 --> 01:20:56,159

our field that kind of deserve more

2094

01:21:00,870 --> 01:20:57,920

credit for actually

2095

01:21:03,669 --> 01:21:00,880

going and meeting the people and some of

2096

01:21:05,270 --> 01:21:03,679

the most wilded out researchers that we

2097

01:21:07,990 --> 01:21:05,280

hear of these days that had the most

2098

01:21:10,550 --> 01:21:08,000

wilded out cases it's because they

2099

01:21:11,669 --> 01:21:10,560

prized unedited data from the people

2100

01:21:13,030 --> 01:21:11,679

themselves

2101

01:21:15,590 --> 01:21:13,040

right right

2102

01:21:17,189 --> 01:21:15,600

yeah very true yeah sometimes when i

2103

01:21:18,629 --> 01:21:17,199

read those old blue book reports or

2104

01:21:20,790 --> 01:21:18,639

whatever i just

2105

01:21:23,110 --> 01:21:20,800

i can't help but wonder what else isn't

2106

01:21:24,550 --> 01:21:23,120

being told and what you know the things

2107

01:21:26,790 --> 01:21:24,560

that weren't said

2108

01:21:28,790 --> 01:21:26,800

you know yeah about these reports

2109

01:21:31,990 --> 01:21:28,800

because you know as we were saying

2110

01:21:33,270 --> 01:21:32,000

earlier the higher the strangeness

2111

01:21:36,470 --> 01:21:33,280

the less

2112

01:21:40,310 --> 01:21:36,480

uh it is to be reported you know

2113

01:21:41,430 --> 01:21:40,320

even if it's like a hot hot skin or you

2114

01:21:44,950 --> 01:21:41,440

know

2115

01:21:46,629 --> 01:21:44,960

they're not going to report to the air

2116

01:21:49,750 --> 01:21:46,639

force along with them and then i got

2117

01:21:52,550 --> 01:21:49,760

this telepathic message you know yep

2118

01:21:55,030 --> 01:21:52,560

and and valet has has

2119

01:21:57,030 --> 01:21:55,040

done so many different versions of the

2120

01:21:59,270 --> 01:21:57,040

statement that kind of

2121

01:22:01,590 --> 01:21:59,280

the more absurd of a story that i hear

2122

01:22:03,669 --> 01:22:01,600

the more likely it is to be true or the

2123

01:22:05,590 --> 01:22:03,679

more likely it is to be something that

2124

01:22:08,149 --> 01:22:05,600

happened right i mean he has different

2125

01:22:10,950 --> 01:22:08,159

versions of kind of saying that and

2126

01:22:13,430 --> 01:22:10,960

and essentially you know part of

2127

01:22:16,310 --> 01:22:13,440

there's a bit of that in what hal was

2128

01:22:18,709 --> 01:22:16,320

trying to propose in this in this new

2129

01:22:22,149 --> 01:22:18,719

um kind of rewritten paper

2130

01:22:25,270 --> 01:22:22,159

you know that that that we need to that

2131

01:22:27,510 --> 01:22:25,280

it's very very important for us to be

2132

01:22:29,350 --> 01:22:27,520

going to a wider

2133

01:22:31,510 --> 01:22:29,360

not necessarily box we need to go

2134

01:22:33,750 --> 01:22:31,520

outside the box and really kind of open

2135

01:22:35,430 --> 01:22:33,760

up the field of possibilities because

2136

01:22:36,629 --> 01:22:35,440

we're probably dealing with more than

2137

01:22:37,669 --> 01:22:36,639

one thing

2138

01:22:39,030 --> 01:22:37,679

um

2139

01:22:43,750 --> 01:22:39,040

it's probably

2140

01:22:45,669 --> 01:22:43,760

like a whole kind of ecology a whole

2141

01:22:46,790 --> 01:22:45,679

taxonomy that's outside of our current

2142

01:22:49,510 --> 01:22:46,800

structure

2143

01:22:51,510 --> 01:22:49,520

it's interesting in the 2021 preliminary

2144

01:22:53,350 --> 01:22:51,520

uap assessment they say that they say

2145

01:22:55,830 --> 01:22:53,360

that everybody dealing with multiple

2146

01:22:57,910 --> 01:22:55,840

phenomena and you go back

2147

01:23:00,870 --> 01:22:57,920

and look at uh

2148

01:23:02,310 --> 01:23:00,880

you know some of the cia um you know

2149

01:23:04,790 --> 01:23:02,320

documents and

2150

01:23:06,629 --> 01:23:04,800

and stuff that they were talking about

2151
01:23:08,790 --> 01:23:06,639
around the robertson panel they said the

2152
01:23:12,950 --> 01:23:08,800
same freaking thing

2153
01:23:14,870 --> 01:23:12,960
dealing with various phenomena you know

2154
01:23:17,510 --> 01:23:14,880
it's like

2155
01:23:19,270 --> 01:23:17,520
so that holds very true there's there's

2156
01:23:21,189 --> 01:23:19,280
some consistencies that you know

2157
01:23:22,070 --> 01:23:21,199
throughout a lot of this that you just

2158
01:23:26,470 --> 01:23:22,080
can't

2159
01:23:28,629 --> 01:23:26,480
that's right and and speaking of various

2160
01:23:31,270 --> 01:23:28,639
phenomenon and that preliminary report

2161
01:23:33,270 --> 01:23:31,280
and such you know we heard as you

2162
01:23:34,470 --> 01:23:33,280
mentioned touched on in in your solo

2163
01:23:38,470 --> 01:23:34,480

show yesterday

2164

01:23:41,270 --> 01:23:38,480

um that you know gary nolan gave this

2165

01:23:42,709 --> 01:23:41,280

pretty amazing one-hour interview

2166

01:23:43,990 --> 01:23:42,719

um

2167

01:23:46,390 --> 01:23:44,000

and

2168

01:23:48,550 --> 01:23:46,400

you know briefly touching on you know

2169

01:23:49,510 --> 01:23:48,560

tucker carlson's a pretty divisive

2170

01:23:51,030 --> 01:23:49,520

figure

2171

01:23:54,629 --> 01:23:51,040

um as

2172

01:23:58,310 --> 01:23:54,639

almost any you know uh tv

2173

01:23:59,189 --> 01:23:58,320

news common commentator can be you know

2174

01:24:01,270 --> 01:23:59,199

there are

2175

01:24:03,510 --> 01:24:01,280

you know there there's a lot of people

2176

01:24:04,950 --> 01:24:03,520

in the press that they don't just do

2177

01:24:06,709 --> 01:24:04,960

straight reporting in the news it's a

2178

01:24:08,390 --> 01:24:06,719

lot of color commentary and he's

2179

01:24:10,149 --> 01:24:08,400

definitely one of them

2180

01:24:11,030 --> 01:24:10,159

and um

2181

01:24:13,750 --> 01:24:11,040

and

2182

01:24:16,229 --> 01:24:13,760

predominantly opinion pieces these days

2183

01:24:18,070 --> 01:24:16,239

that's right that's right and and it's

2184

01:24:20,870 --> 01:24:18,080

hard to kind of

2185

01:24:23,510 --> 01:24:20,880

and for a lot of people online including

2186

01:24:26,070 --> 01:24:23,520

myself when i when i first when i first

2187

01:24:27,590 --> 01:24:26,080

heard that he was going to be

2188

01:24:30,229 --> 01:24:27,600

on the show

2189

01:24:32,070 --> 01:24:30,239

right before it had popped up online i

2190

01:24:33,470 --> 01:24:32,080

just heard that he said he shot it and i

2191

01:24:35,990 --> 01:24:33,480

was like ah

2192

01:24:37,189 --> 01:24:36,000

shoot you know what i mean in terms of

2193

01:24:38,470 --> 01:24:37,199

like

2194

01:24:40,229 --> 01:24:38,480

just

2195

01:24:42,629 --> 01:24:40,239

having to keep people cool in the

2196

01:24:44,870 --> 01:24:42,639

schoolyard you know what i mean or being

2197

01:24:47,910 --> 01:24:44,880

around the schoolyard and watching that

2198

01:24:49,350 --> 01:24:47,920

situation play out right yeah right

2199

01:24:51,430 --> 01:24:49,360

yeah and i don't i don't want to say the

2200

01:24:53,510 --> 01:24:51,440

wrong thing either and piss the wrong

2201
01:24:55,350 --> 01:24:53,520
person off and get you know somebody

2202
01:24:57,510 --> 01:24:55,360
gets upset about it but

2203
01:25:00,950 --> 01:24:57,520
um at the end of the day

2204
01:25:03,110 --> 01:25:00,960
what we're talking about here is is uh

2205
01:25:05,510 --> 01:25:03,120
above politics and what somebody's

2206
01:25:07,110 --> 01:25:05,520
opinion might be on this or that like at

2207
01:25:09,030 --> 01:25:07,120
the end of the day we're talking about a

2208
01:25:10,950 --> 01:25:09,040
complete paradigm shift for everybody in

2209
01:25:13,189 --> 01:25:10,960
the entire world

2210
01:25:15,750 --> 01:25:13,199
you know so whether the person is

2211
01:25:18,070 --> 01:25:15,760
republican or democrat or whatever

2212
01:25:20,950 --> 01:25:18,080
it really comes to a point where if the

2213
01:25:22,790 --> 01:25:20,960

disclosure comes from the government or

2214

01:25:24,229 --> 01:25:22,800

or whatever of the of

2215

01:25:25,350 --> 01:25:24,239

you know different intelligence that are

2216

01:25:27,350 --> 01:25:25,360

among us

2217

01:25:29,590 --> 01:25:27,360

all that stuff becomes and tucker even

2218

01:25:31,910 --> 01:25:29,600

said this himself it's just not that

2219

01:25:33,030 --> 01:25:31,920

important anymore

2220

01:25:34,950 --> 01:25:33,040

you know yeah

2221

01:25:37,189 --> 01:25:34,960

it's true and it's important to think of

2222

01:25:38,709 --> 01:25:37,199

that what does post disclosure look like

2223

01:25:39,910 --> 01:25:38,719

and that's a part of it you know and

2224

01:25:41,910 --> 01:25:39,920

what are we going to do when that

2225

01:25:44,149 --> 01:25:41,920

happens when we all

2226

01:25:45,510 --> 01:25:44,159

have this revelation together as a

2227

01:25:48,709 --> 01:25:45,520

country are we going to start saying

2228

01:25:51,110 --> 01:25:48,719

like well you know we can't look at this

2229

01:25:52,149 --> 01:25:51,120

together because before that you know

2230

01:25:57,430 --> 01:25:52,159

you

2231

01:25:59,110 --> 01:25:57,440

i know that might suck

2232

01:26:00,950 --> 01:25:59,120

or whatever but

2233

01:26:04,470 --> 01:26:00,960

we have to have a new view as a human

2234

01:26:06,470 --> 01:26:04,480

race you know that's yeah and it's also

2235

01:26:09,990 --> 01:26:06,480

tricky i completely agree with you it's

2236

01:26:12,149 --> 01:26:10,000

also tricky because at the same time

2237

01:26:14,229 --> 01:26:12,159

you know it's like what tal was talking

2238

01:26:16,950 --> 01:26:14,239

about with the bose and situation where

2239

01:26:19,510 --> 01:26:16,960

we have to keep so many factors in play

2240

01:26:22,470 --> 01:26:19,520

you know this is a subject that is

2241

01:26:24,550 --> 01:26:22,480

bipartisan by nature and in in many ways

2242

01:26:27,270 --> 01:26:24,560

is above politics and it's actually and

2243

01:26:31,030 --> 01:26:27,280

it's also as we saw with the ndaa

2244

01:26:33,270 --> 01:26:31,040

language and the iia iaa language that

2245

01:26:35,750 --> 01:26:33,280

um that it's also deeply enmeshed in

2246

01:26:37,910 --> 01:26:35,760

politics right now and so

2247

01:26:41,030 --> 01:26:37,920

and so there's there's the both and

2248

01:26:44,310 --> 01:26:41,040

situation where we see this playing out

2249

01:26:47,189 --> 01:26:44,320

in political halls of power in a in an

2250

01:26:48,950 --> 01:26:47,199

open way that we haven't seen in our

2251
01:26:51,030 --> 01:26:48,960
entire lifetimes

2252
01:26:51,910 --> 01:26:51,040
and at the same time at the end of the

2253
01:26:54,950 --> 01:26:51,920
day

2254
01:26:56,790 --> 01:26:54,960
um it's one of the few topics that no

2255
01:26:58,470 --> 01:26:56,800
matter kind of what your

2256
01:27:04,950 --> 01:26:58,480
personal

2257
01:27:07,350 --> 01:27:04,960
this this can be something that they can

2258
01:27:08,149 --> 01:27:07,360
very well bring people together as we

2259
01:27:10,709 --> 01:27:08,159
saw

2260
01:27:14,870 --> 01:27:10,719
with with progressive

2261
01:27:16,790 --> 01:27:14,880
gary nolan on on a pretty conservative

2262
01:27:19,910 --> 01:27:16,800
uh talk show this week

2263
01:27:21,910 --> 01:27:19,920

another thing that uh that i can say is

2264

01:27:23,910 --> 01:27:21,920

you know uh people and families right

2265

01:27:26,229 --> 01:27:23,920

like uh i've had a pretty jarring

2266

01:27:27,189 --> 01:27:26,239

experience right um

2267

01:27:29,030 --> 01:27:27,199

and

2268

01:27:30,790 --> 01:27:29,040

you know if i talk to my parents about

2269

01:27:34,870 --> 01:27:30,800

it or whatever um

2270

01:27:38,070 --> 01:27:34,880

it uh is a lot easier for them to fathom

2271

01:27:39,990 --> 01:27:38,080

and take seriously

2272

01:27:42,070 --> 01:27:40,000

having seen

2273

01:27:44,870 --> 01:27:42,080

tucker carlson talk about it because

2274

01:27:48,310 --> 01:27:44,880

they watch the guy you know and without

2275

01:27:49,910 --> 01:27:48,320

that it might not have been uh very uh

2276

01:27:52,070 --> 01:27:49,920

digestible

2277

01:27:54,229 --> 01:27:52,080

you know but since they see that guy

2278

01:27:56,070 --> 01:27:54,239

talk about it it's like oh yeah i see

2279

01:27:57,990 --> 01:27:56,080

him talk about yeah there's something

2280

01:28:00,709 --> 01:27:58,000

going on there right and we need

2281

01:28:02,550 --> 01:28:00,719

everybody to get on that some same sort

2282

01:28:04,470 --> 01:28:02,560

of page and something that you hear a

2283

01:28:07,590 --> 01:28:04,480

lot with this stuff is like katie just

2284

01:28:10,629 --> 01:28:07,600

said it um let's let's get some more

2285

01:28:12,870 --> 01:28:10,639

um people that are less divisive to to

2286

01:28:15,430 --> 01:28:12,880

talk about this totally

2287

01:28:17,030 --> 01:28:15,440

but i i also don't think that they're

2288

01:28:19,110 --> 01:28:17,040

picking and choosing

2289

01:28:20,709 --> 01:28:19,120

uh who they can talk to about it either

2290

01:28:22,629 --> 01:28:20,719

i don't think they're

2291

01:28:24,550 --> 01:28:22,639

saying now we can talk to any news

2292

01:28:26,550 --> 01:28:24,560

anchor we want but we're going straight

2293

01:28:29,350 --> 01:28:26,560

to tucker you know i

2294

01:28:32,629 --> 01:28:29,360

i think it's more like who's willing

2295

01:28:35,270 --> 01:28:32,639

and who has uh a big audience right

2296

01:28:36,629 --> 01:28:35,280

and yeah that's just where it falls

2297

01:28:39,510 --> 01:28:36,639

i think that there's i think that

2298

01:28:41,110 --> 01:28:39,520

there's i think that there's a lot there

2299

01:28:43,270 --> 01:28:41,120

i also think that

2300

01:28:45,510 --> 01:28:43,280

i agree with you that at this point

2301

01:28:48,790 --> 01:28:45,520

there are some strange bedfellows in

2302

01:28:49,669 --> 01:28:48,800

terms of of people coming together

2303

01:28:51,669 --> 01:28:49,679

um

2304

01:28:54,229 --> 01:28:51,679

and that it's good that there are

2305

01:28:56,070 --> 01:28:54,239

strange bedfellows often because you

2306

01:28:58,870 --> 01:28:56,080

know it's it's a point that we can be

2307

01:29:00,470 --> 01:28:58,880

proud of in many ways um

2308

01:29:01,830 --> 01:29:00,480

that that

2309

01:29:06,790 --> 01:29:01,840

we can

2310

01:29:09,990 --> 01:29:06,800

can't in today's very divisive kind of

2311

01:29:12,870 --> 01:29:10,000

pop culture landscape and and be able to

2312

01:29:15,510 --> 01:29:12,880

look at things like data and look at

2313

01:29:17,430 --> 01:29:15,520

and and think about these big huge

2314

01:29:20,470 --> 01:29:17,440

questions and be able to get to a bigger

2315

01:29:22,550 --> 01:29:20,480

place with it right and it's and there's

2316

01:29:24,390 --> 01:29:22,560

also the possibility that

2317

01:29:26,550 --> 01:29:24,400

you know um

2318

01:29:28,229 --> 01:29:26,560

for a guy like gary nolan

2319

01:29:31,030 --> 01:29:28,239

um who's

2320

01:29:33,110 --> 01:29:31,040

who's very tech savvy you know he runs

2321

01:29:36,229 --> 01:29:33,120

his own lab out at stanford

2322

01:29:38,629 --> 01:29:36,239

he's an out you know gay man with a

2323

01:29:39,830 --> 01:29:38,639

partner that he's had for for quite a

2324

01:29:42,709 --> 01:29:39,840

long time

2325

01:29:44,870 --> 01:29:42,719

um you know him going on

2326

01:29:46,870 --> 01:29:44,880

uh a show like that

2327

01:29:48,790 --> 01:29:46,880

you know that's bridging a gap in and of

2328

01:29:51,030 --> 01:29:48,800

itself you know

2329

01:29:53,510 --> 01:29:51,040

yeah there's irony right there in and of

2330

01:29:54,550 --> 01:29:53,520

itself just that fact

2331

01:29:55,669 --> 01:29:54,560

you know

2332

01:29:57,350 --> 01:29:55,679

uh yeah

2333

01:29:59,270 --> 01:29:57,360

gary nolan doesn't agree with the guy's

2334

01:30:01,590 --> 01:29:59,280

politics as far as i know

2335

01:30:04,310 --> 01:30:01,600

uh he doesn't mind

2336

01:30:07,189 --> 01:30:04,320

that people know that he is a gay man

2337

01:30:10,470 --> 01:30:07,199

and tucker carlson you know as far as uh

2338

01:30:13,350 --> 01:30:10,480

most from the left side would think is

2339

01:30:18,149 --> 01:30:13,360

that's going to be an explosion of an

2340

01:30:22,229 --> 01:30:20,470

right you know parts of it were actually

2341

01:30:23,669 --> 01:30:22,239

quite beautiful

2342

01:30:27,669 --> 01:30:23,679

absolutely

2343

01:30:29,110 --> 01:30:27,679

and and it was one of the few situations

2344

01:30:30,629 --> 01:30:29,120

you know i don't

2345

01:30:34,470 --> 01:30:30,639

first of all i mean

2346

01:30:36,149 --> 01:30:34,480

i i kind of steer clear of of partisan

2347

01:30:37,990 --> 01:30:36,159

politics in general

2348

01:30:39,750 --> 01:30:38,000

in the last years partially that's for

2349

01:30:41,270 --> 01:30:39,760

the sake of the experienter group

2350

01:30:43,910 --> 01:30:41,280

partially it's so that people can like

2351
01:30:46,229 --> 01:30:43,920
listen to me and listen to the show with

2352
01:30:48,950 --> 01:30:46,239
clear head you know things like that i

2353
01:30:50,629 --> 01:30:48,960
think it's pretty important and

2354
01:30:53,590 --> 01:30:50,639
you know and but from

2355
01:30:55,350 --> 01:30:53,600
for my own sake you know because of the

2356
01:30:57,430 --> 01:30:55,360
way that things have been so divisive

2357
01:31:01,830 --> 01:30:57,440
the last years i don't watch as much

2358
01:31:06,149 --> 01:31:01,840
cable news as i used to when no i i know

2359
01:31:07,430 --> 01:31:06,159
i can't stand it dude i cannot stand it

2360
01:31:10,470 --> 01:31:07,440
at all

2361
01:31:12,470 --> 01:31:10,480
because and it it's so obvious you put

2362
01:31:17,189 --> 01:31:12,480
both each channel on whether it's fox or

2363
01:31:19,430 --> 01:31:17,199

cnn each one has their um their agenda

2364

01:31:21,750 --> 01:31:19,440

against the other one sure they're just

2365

01:31:24,790 --> 01:31:21,760

completely dedicated to and it's like i

2366

01:31:27,350 --> 01:31:24,800

can't even watch this like

2367

01:31:28,790 --> 01:31:27,360

it's it's just it just sucks you know i

2368

01:31:30,790 --> 01:31:28,800

wasn't yeah

2369

01:31:32,950 --> 01:31:30,800

it is what it is but i like staying

2370

01:31:34,709 --> 01:31:32,960

informed but i have to read it just

2371

01:31:35,510 --> 01:31:34,719

partially just because of

2372

01:31:38,629 --> 01:31:35,520

how

2373

01:31:41,590 --> 01:31:38,639

the the video

2374

01:31:43,590 --> 01:31:41,600

medium especially with tv how much it

2375

01:31:44,470 --> 01:31:43,600

kind of gets how how much it's based

2376

01:31:46,629 --> 01:31:44,480

around

2377

01:31:48,390 --> 01:31:46,639

triggering people and kind of trying to

2378

01:31:49,189 --> 01:31:48,400

elicit responses

2379

01:31:53,669 --> 01:31:49,199

and

2380

01:31:54,629 --> 01:31:53,679

like your team or the other team you

2381

01:31:57,669 --> 01:31:54,639

know

2382

01:31:59,830 --> 01:31:57,679

like or you don't feel like your team is

2383

01:32:02,950 --> 01:31:59,840

even being represented

2384

01:32:05,830 --> 01:32:02,960

yeah which is many people you know

2385

01:32:07,590 --> 01:32:05,840

it can be a real challenge and you know

2386

01:32:10,629 --> 01:32:07,600

i was

2387

01:32:12,950 --> 01:32:10,639

um go ahead yeah what were some of your

2388

01:32:15,350 --> 01:32:12,960

takeaways uh from from the nolan

2389

01:32:18,070 --> 01:32:15,360

interview and and even

2390

01:32:20,470 --> 01:32:18,080

um the the other interview with uh rep

2391

01:32:23,110 --> 01:32:20,480

gallagher that and crenshaw that we put

2392

01:32:25,590 --> 01:32:23,120

in the description there that's right um

2393

01:32:27,510 --> 01:32:25,600

i think in terms of gary noland one of

2394

01:32:28,870 --> 01:32:27,520

the cool takeaways

2395

01:32:30,470 --> 01:32:28,880

i don't know if you

2396

01:32:31,590 --> 01:32:30,480

mentioned it on the show yesterday was

2397

01:32:37,590 --> 01:32:31,600

that he

2398

01:32:40,790 --> 01:32:37,600

briefed representative mike gallagher

2399

01:32:43,669 --> 01:32:40,800

and that it sounded like he was at least

2400

01:32:45,830 --> 01:32:43,679

one he was maybe the only person but he

2401

01:32:48,550 --> 01:32:45,840

was certainly one of the people that

2402

01:32:51,590 --> 01:32:48,560

seemed to have brought brought up the

2403

01:32:53,110 --> 01:32:51,600

topic of the wilson davis docks to mike

2404

01:32:54,070 --> 01:32:53,120

gallagher

2405

01:32:59,430 --> 01:32:54,080

so

2406

01:33:01,750 --> 01:32:59,440

well just that he was he was willing to

2407

01:33:04,470 --> 01:33:01,760

go there and that he would that he

2408

01:33:07,270 --> 01:33:04,480

stated it outright was pretty amazing

2409

01:33:08,390 --> 01:33:07,280

and you know there again mike gallagher

2410

01:33:11,669 --> 01:33:08,400

is a republican

2411

01:33:12,870 --> 01:33:11,679

uh gary nolan is not and he for the

2412

01:33:15,510 --> 01:33:12,880

purposes

2413

01:33:17,750 --> 01:33:15,520

of this topic he was going in and

2414

01:33:20,070 --> 01:33:17,760

briefing a republican

2415

01:33:23,430 --> 01:33:20,080

uh congressperson and he may not have

2416

01:33:25,990 --> 01:33:23,440

been the only one you know yeah um and

2417

01:33:27,910 --> 01:33:26,000

so that's great you know so who do you

2418

01:33:30,550 --> 01:33:27,920

think told him

2419

01:33:31,750 --> 01:33:30,560

about the validity of the wilson davis

2420

01:33:34,709 --> 01:33:31,760

notes

2421

01:33:36,629 --> 01:33:34,719

i mean i i don't know i have seen a fair

2422

01:33:37,830 --> 01:33:36,639

amount of pictures oh you can't lie to

2423

01:33:42,870 --> 01:33:37,840

me

2424

01:33:45,270 --> 01:33:42,880

pictures of gary nolan and eric davis

2425

01:33:47,350 --> 01:33:45,280

together over the years you know who

2426
01:33:49,270 --> 01:33:47,360
what that wasn't their interview maybe

2427
01:33:51,830 --> 01:33:49,280
it was lex friedman or something with

2428
01:33:53,830 --> 01:33:51,840
gary nolan where you know

2429
01:33:55,750 --> 01:33:53,840
they were talking about stuff like this

2430
01:33:57,430 --> 01:33:55,760
and he was asked like well how would you

2431
01:34:00,790 --> 01:33:57,440
know who told you he goes well i was

2432
01:34:03,590 --> 01:34:00,800
told by somebody that can't lie

2433
01:34:05,910 --> 01:34:03,600
that's right and who have we

2434
01:34:07,510 --> 01:34:05,920
we've heard about eric davis as the men

2435
01:34:10,629 --> 01:34:07,520
that can't lie

2436
01:34:12,149 --> 01:34:10,639
that's right from louisando as well so

2437
01:34:14,629 --> 01:34:12,159
that's right and other people have

2438
01:34:18,790 --> 01:34:14,639

mentioned them that way too and so for

2439

01:34:21,669 --> 01:34:18,800

those of you that don't know um or uh

2440

01:34:23,910 --> 01:34:21,679

we did an episode earlier about the the

2441

01:34:26,070 --> 01:34:23,920

eric davis admiral wilson docks and you

2442

01:34:28,310 --> 01:34:26,080

should check that out for more context

2443

01:34:31,030 --> 01:34:28,320

there but eric davis is a guy that

2444

01:34:32,790 --> 01:34:31,040

actually worked for hal put off for over

2445

01:34:33,990 --> 01:34:32,800

20 years

2446

01:34:37,590 --> 01:34:34,000

and right

2447

01:34:40,950 --> 01:34:37,600

and now um works in huntsville alabama

2448

01:34:42,870 --> 01:34:40,960

um for for a different technology

2449

01:34:46,149 --> 01:34:42,880

defense contractor called aerospace

2450

01:34:48,229 --> 01:34:46,159

corporation um but eric davis was hal

2451
01:34:49,590 --> 01:34:48,239
put off chief scientist for many many

2452
01:34:50,550 --> 01:34:49,600
many years

2453
01:34:53,510 --> 01:34:50,560
and

2454
01:35:00,390 --> 01:34:53,520
um

2455
01:35:01,669 --> 01:35:00,400
himself

2456
01:35:04,149 --> 01:35:01,679
may have

2457
01:35:06,390 --> 01:35:04,159
been the guy that essentially assigned

2458
01:35:07,910 --> 01:35:06,400
eric davis to go do this meeting with

2459
01:35:10,070 --> 01:35:07,920
admiral wilson

2460
01:35:11,830 --> 01:35:10,080
poor eric davis

2461
01:35:13,590 --> 01:35:11,840
yeah

2462
01:35:15,270 --> 01:35:13,600
right and this is going to be talked

2463
01:35:17,109 --> 01:35:15,280

about forever

2464

01:35:19,109 --> 01:35:17,119

yeah

2465

01:35:20,550 --> 01:35:19,119

it's like you owe me some reparations at

2466

01:35:21,750 --> 01:35:20,560

that point sir

2467

01:35:23,669 --> 01:35:21,760

that's right

2468

01:35:24,550 --> 01:35:23,679

now i don't know if that i don't i i

2469

01:35:26,149 --> 01:35:24,560

don't know

2470

01:35:28,390 --> 01:35:26,159

for myself whether that's true or not

2471

01:35:30,629 --> 01:35:28,400

you know i don't have an email from how

2472

01:35:32,390 --> 01:35:30,639

put off telling her to go to to go to

2473

01:35:33,750 --> 01:35:32,400

nevada and do this meeting

2474

01:35:35,189 --> 01:35:33,760

but you know it's been around for a

2475

01:35:37,030 --> 01:35:35,199

while and

2476

01:35:41,430 --> 01:35:37,040

you know it was

2477

01:35:46,070 --> 01:35:43,350

eric davis isn't gonna be like i'm just

2478

01:35:47,669 --> 01:35:46,080

gonna get into some swappy area just for

2479

01:35:50,310 --> 01:35:47,679

the fun of it

2480

01:35:52,629 --> 01:35:50,320

yeah just gonna dig in yeah it's very

2481

01:35:54,709 --> 01:35:52,639

safe to assume that hal at least knew

2482

01:35:58,229 --> 01:35:54,719

the meeting was taking place

2483

01:35:59,109 --> 01:35:58,239

and probably got those notes afterwards

2484

01:36:02,790 --> 01:35:59,119

yeah

2485

01:36:04,229 --> 01:36:02,800

uh one way or another right you didn't

2486

01:36:07,109 --> 01:36:04,239

hear it here

2487

01:36:08,950 --> 01:36:07,119

but probably yeah

2488

01:36:11,669 --> 01:36:08,960

uh interesting with the the rep

2489

01:36:13,430 --> 01:36:11,679

gallagher and crenshaw interview um

2490

01:36:15,590 --> 01:36:13,440

they were talking about the wilson davis

2491

01:36:17,510 --> 01:36:15,600

notes right that's right um

2492

01:36:21,350 --> 01:36:17,520

a couple of interesting things that that

2493

01:36:24,149 --> 01:36:21,360

i uh took away from that

2494

01:36:25,510 --> 01:36:24,159

and the first one is uh their openness

2495

01:36:29,109 --> 01:36:25,520

to be able to talk about it i thought

2496

01:36:32,709 --> 01:36:29,119

that was great right yeah um

2497

01:36:34,310 --> 01:36:32,719

something mentioned on there was

2498

01:36:35,910 --> 01:36:34,320

gallagher and he was just saying it in

2499

01:36:37,910 --> 01:36:35,920

passing but

2500

01:36:40,229 --> 01:36:37,920

talking about the the vehicles and he

2501
01:36:42,950 --> 01:36:40,239
was he brought up reverse engineered

2502
01:36:44,790 --> 01:36:42,960
stealth technology and he said stealth

2503
01:36:48,310 --> 01:36:44,800
technology and what that made me think

2504
01:36:50,550 --> 01:36:48,320
of was mr bill clinton was on a late

2505
01:36:53,430 --> 01:36:50,560
night talk show recently

2506
01:36:56,390 --> 01:36:53,440
and he talked about how he had people um

2507
01:36:58,390 --> 01:36:56,400
go to area 51 and check out the place

2508
01:37:01,669 --> 01:36:58,400
and he mentioned that is where we

2509
01:37:04,390 --> 01:37:01,679
developed stealth technology

2510
01:37:06,709 --> 01:37:04,400
so i thought that was an interesting uh

2511
01:37:09,030 --> 01:37:06,719
connection there um they also talked

2512
01:37:11,109 --> 01:37:09,040
about immunity language

2513
01:37:12,390 --> 01:37:11,119

and what was interesting there is mr dan

2514

01:37:13,990 --> 01:37:12,400

crenshaw

2515

01:37:17,350 --> 01:37:14,000

knew that

2516

01:37:18,629 --> 01:37:17,360

um ufo twitter was very excited about

2517

01:37:21,350 --> 01:37:18,639

that language

2518

01:37:23,750 --> 01:37:21,360

which to me says well that guy is paying

2519

01:37:25,830 --> 01:37:23,760

attention to what we're doing

2520

01:37:26,950 --> 01:37:25,840

and he's a lawmaker so that's

2521

01:37:28,709 --> 01:37:26,960

interesting

2522

01:37:31,590 --> 01:37:28,719

absolutely

2523

01:37:34,390 --> 01:37:31,600

and yeah so i i thought that was uh

2524

01:37:36,629 --> 01:37:34,400

pretty interesting and um he's gallagher

2525

01:37:38,950 --> 01:37:36,639

specifically mentioned um

2526

01:37:40,550 --> 01:37:38,960

that they're you know in when they're

2527

01:37:41,990 --> 01:37:40,560

looking at these phenomena and the

2528

01:37:43,910 --> 01:37:42,000

different phenomena

2529

01:37:46,470 --> 01:37:43,920

um

2530

01:37:49,030 --> 01:37:46,480

there's unexplained things uh going

2531

01:37:51,750 --> 01:37:49,040

around in the air but he said that there

2532

01:37:54,390 --> 01:37:51,760

are facts involved with it

2533

01:37:56,550 --> 01:37:54,400

that make it unexplained in that other

2534

01:37:58,470 --> 01:37:56,560

than it being uh natural weather

2535

01:38:01,189 --> 01:37:58,480

phenomena which was really the only

2536

01:38:03,830 --> 01:38:01,199

option other than foreign

2537

01:38:06,070 --> 01:38:03,840

technology or american technology it was

2538

01:38:08,470 --> 01:38:06,080

natural weather phenomena so he kind of

2539

01:38:10,709 --> 01:38:08,480

crossed that one off the list for us on

2540

01:38:12,950 --> 01:38:10,719

that podcast interview which is very

2541

01:38:13,830 --> 01:38:12,960

interesting very interesting

2542

01:38:16,870 --> 01:38:13,840

so

2543

01:38:18,629 --> 01:38:16,880

and uh both crenshaw and dude were

2544

01:38:20,790 --> 01:38:18,639

gallagher were like uh they couldn't

2545

01:38:22,709 --> 01:38:20,800

imagine how it would be first of all

2546

01:38:25,830 --> 01:38:22,719

american tech and how there wouldn't be

2547

01:38:29,030 --> 01:38:25,840

any deconfliction by now you know how

2548

01:38:30,709 --> 01:38:29,040

that wouldn't be possible and uh how

2549

01:38:33,350 --> 01:38:30,719

kind of implausible that it would be

2550

01:38:34,950 --> 01:38:33,360

would be uh china or russia so

2551

01:38:36,629 --> 01:38:34,960

right it's interesting how they're

2552

01:38:38,310 --> 01:38:36,639

openly talking about that it just kind

2553

01:38:39,990 --> 01:38:38,320

of further laments the point that we're

2554

01:38:42,149 --> 01:38:40,000

dealing with something different off

2555

01:38:44,870 --> 01:38:42,159

world as gary nolan would would say his

2556

01:38:47,109 --> 01:38:44,880

people uh told him you know in his

2557

01:38:48,550 --> 01:38:47,119

interview with tucker

2558

01:38:50,470 --> 01:38:48,560

one thing i think that's right that

2559

01:38:51,910 --> 01:38:50,480

would be worth talking about i guess

2560

01:38:53,430 --> 01:38:51,920

we're kind of i don't know how we're

2561

01:38:54,709 --> 01:38:53,440

doing on time i should probably get out

2562

01:38:57,030 --> 01:38:54,719

of here i guess but

2563

01:39:00,149 --> 01:38:57,040

uh from the gary nolan tucker carlson

2564

01:39:01,510 --> 01:39:00,159

interview he made the uh exhaust plume

2565

01:39:03,430 --> 01:39:01,520

idea where

2566

01:39:06,229 --> 01:39:03,440

you know when people get injured by ufos

2567

01:39:08,229 --> 01:39:06,239

or whatever um it's not so much that

2568

01:39:10,070 --> 01:39:08,239

maybe they aren't intending that but

2569

01:39:13,109 --> 01:39:10,080

you're kind of

2570

01:39:14,950 --> 01:39:13,119

accidentally in the way you know uh how

2571

01:39:16,950 --> 01:39:14,960

an airplane can be dangerous if you're

2572

01:39:20,310 --> 01:39:16,960

in the exhaust bloom but not so much if

2573

01:39:22,390 --> 01:39:20,320

you're on board you know that's right um

2574

01:39:23,669 --> 01:39:22,400

which i thought was uh very interesting

2575

01:39:26,709 --> 01:39:23,679

you know and maybe you can give a good

2576

01:39:27,590 --> 01:39:26,719

take on this what do you think of that

2577

01:39:29,830 --> 01:39:27,600

take

2578

01:39:31,430 --> 01:39:29,840

considering there are things like

2579

01:39:32,470 --> 01:39:31,440

abductions where people seem to be

2580

01:39:36,149 --> 01:39:32,480

targeted

2581

01:39:37,990 --> 01:39:36,159

you know or other types of uh scenarios

2582

01:39:40,149 --> 01:39:38,000

that are eluding me right now

2583

01:39:42,390 --> 01:39:40,159

yeah no i think i think that i think

2584

01:39:44,709 --> 01:39:42,400

it's a both and situation again

2585

01:39:46,629 --> 01:39:44,719

i think that that it seems like for

2586

01:39:48,470 --> 01:39:46,639

example famously with the rendelsham

2587

01:39:50,550 --> 01:39:48,480

case and other cases

2588

01:39:53,109 --> 01:39:50,560

that it's that

2589

01:39:55,350 --> 01:39:53,119

as gary nolan pointed out it's very hard

2590

01:39:58,229 --> 01:39:55,360

when you see something like that

2591

01:39:59,910 --> 01:39:58,239

um to not want to you know there's going

2592

01:40:00,870 --> 01:39:59,920

to be a couple different

2593

01:40:03,750 --> 01:40:00,880

major

2594

01:40:05,990 --> 01:40:03,760

impulses one is to run for the hills

2595

01:40:07,510 --> 01:40:06,000

and one is to investigate

2596

01:40:08,550 --> 01:40:07,520

another one is depending on who you are

2597

01:40:11,350 --> 01:40:08,560

where you are

2598

01:40:13,030 --> 01:40:11,360

which happens a lot people like i've

2599

01:40:14,790 --> 01:40:13,040

read a lot of accounts where people are

2600

01:40:16,790 --> 01:40:14,800

just like uh they can't move because

2601
01:40:18,550 --> 01:40:16,800
they're just in that much fear you know

2602
01:40:20,070 --> 01:40:18,560
yeah and then there's speculation about

2603
01:40:22,870 --> 01:40:20,080
did they freeze me or did i freeze

2604
01:40:24,709 --> 01:40:22,880
myself and that's it and it's a very

2605
01:40:26,709 --> 01:40:24,719
and i think both of those things

2606
01:40:28,550 --> 01:40:26,719
probably happen there but you know i

2607
01:40:30,470 --> 01:40:28,560
think that it's

2608
01:40:33,030 --> 01:40:30,480
you know it's interesting that for

2609
01:40:34,310 --> 01:40:33,040
example with gary nolan's work and with

2610
01:40:36,870 --> 01:40:34,320
kit greene's

2611
01:40:39,270 --> 01:40:36,880
uh recently um

2612
01:40:42,390 --> 01:40:39,280
uh released dirt paper that we also

2613
01:40:44,950 --> 01:40:42,400

covered in in a prior show uh kit green

2614

01:40:46,629 --> 01:40:44,960

was also looking at biological effects

2615

01:40:48,790 --> 01:40:46,639

and that was in a paper that by the way

2616

01:40:50,790 --> 01:40:48,800

was commissioned by hal put off

2617

01:40:53,990 --> 01:40:50,800

bringing it back to help it off yet

2618

01:40:56,149 --> 01:40:54,000

again for the show um but but kid green

2619

01:40:56,950 --> 01:40:56,159

you know he was tasked

2620

01:41:01,109 --> 01:40:56,960

with

2621

01:41:03,990 --> 01:41:01,119

from basically like the exhaust plume

2622

01:41:06,390 --> 01:41:04,000

effect being too close to being too

2623

01:41:09,669 --> 01:41:06,400

close to a craft and getting radiation

2624

01:41:12,229 --> 01:41:09,679

damages essentially but kit greens

2625

01:41:15,030 --> 01:41:12,239

he's plainly stated in this paper that

2626
01:41:17,590 --> 01:41:15,040
the reason why he was being tasked with

2627
01:41:20,390 --> 01:41:17,600
this was essentially not necessarily for

2628
01:41:22,709 --> 01:41:20,400
the health the continued health of the

2629
01:41:24,870 --> 01:41:22,719
experiencer themselves but so that they

2630
01:41:27,750 --> 01:41:24,880
could they could take those biological

2631
01:41:30,830 --> 01:41:27,760
effects and then use that to to reverse

2632
01:41:32,470 --> 01:41:30,840
engineer exotic propulsion technology

2633
01:41:35,510 --> 01:41:32,480
themselves yeah

2634
01:41:37,590 --> 01:41:35,520
and as we can see on the brain scan clip

2635
01:41:41,830 --> 01:41:37,600
that gary nolan is showing on the tucker

2636
01:41:46,870 --> 01:41:41,840
carlson show it plainly says d-o-e

2637
01:41:48,629 --> 01:41:46,880
um propulsion uh gravity research so um

2638
01:41:50,709 --> 01:41:48,639

absolutely i think there's your nail in

2639

01:41:53,350 --> 01:41:50,719

the coffin on that i would say well and

2640

01:41:55,669 --> 01:41:53,360

also hal put off you know earth tech

2641

01:41:59,189 --> 01:41:55,679

he very plainly states that for over the

2642

01:42:00,629 --> 01:41:59,199

last 15 20 years that he's that his

2643

01:42:01,590 --> 01:42:00,639

he's been doing

2644

01:42:04,310 --> 01:42:01,600

um

2645

01:42:06,709 --> 01:42:04,320

quiet projects in in

2646

01:42:09,350 --> 01:42:06,719

exotic propulsion research right right

2647

01:42:10,870 --> 01:42:09,360

and who was his chief science officer

2648

01:42:12,550 --> 01:42:10,880

was eric davis

2649

01:42:14,470 --> 01:42:12,560

and then eric davis went over to

2650

01:42:17,590 --> 01:42:14,480

aerospace corporation in huntsville

2651
01:42:18,390 --> 01:42:17,600
alabama which is notably long rumored to

2652
01:42:20,870 --> 01:42:18,400
be

2653
01:42:22,470 --> 01:42:20,880
a a hot spot

2654
01:42:24,870 --> 01:42:22,480
for

2655
01:42:27,189 --> 01:42:24,880
experimental aircraft design

2656
01:42:29,750 --> 01:42:27,199
and advanced propulsion research

2657
01:42:31,830 --> 01:42:29,760
interestingly it's also

2658
01:42:34,070 --> 01:42:31,840
there have also been

2659
01:42:35,910 --> 01:42:34,080
it's interesting one interesting thing

2660
01:42:37,990 --> 01:42:35,920
here that that

2661
01:42:40,629 --> 01:42:38,000
i i kind of

2662
01:42:44,470 --> 01:42:40,639
can walk close to but is almost too hot

2663
01:42:47,510 --> 01:42:44,480

to handle in some ways is is gary nolan

2664

01:42:50,390 --> 01:42:47,520

being handed a group of 100 cases where

2665

01:42:52,070 --> 01:42:50,400

about 90 of them are havana syndrome and

2666

01:42:53,910 --> 01:42:52,080

about 10 of them

2667

01:42:56,390 --> 01:42:53,920

are somebody getting too close to a

2668

01:42:57,990 --> 01:42:56,400

craft and that those were

2669

01:42:59,990 --> 01:42:58,000

that they were close to each other but

2670

01:43:01,990 --> 01:43:00,000

they weren't exactly the same thing and

2671

01:43:03,669 --> 01:43:02,000

that he was able to tell the difference

2672

01:43:04,709 --> 01:43:03,679

between the two right

2673

01:43:07,430 --> 01:43:04,719

right now

2674

01:43:09,990 --> 01:43:07,440

now that's very exciting

2675

01:43:12,470 --> 01:43:10,000

that doesn't seem like an accident right

2676

01:43:15,270 --> 01:43:12,480

and that's and i

2677

01:43:17,030 --> 01:43:15,280

wonder you have to wonder in some ways

2678

01:43:18,070 --> 01:43:17,040

um

2679

01:43:19,669 --> 01:43:18,080

uh

2680

01:43:22,390 --> 01:43:19,679

you know did

2681

01:43:24,390 --> 01:43:22,400

did the people who tasked him with this

2682

01:43:26,790 --> 01:43:24,400

that walked in unannounced at stanford

2683

01:43:29,270 --> 01:43:26,800

as he said in that interview

2684

01:43:31,750 --> 01:43:29,280

into his lab and handed them all these

2685

01:43:34,310 --> 01:43:31,760

cases and a bunch of documentation did

2686

01:43:36,550 --> 01:43:34,320

they know which of those cases

2687

01:43:39,990 --> 01:43:36,560

were havana syndrome did they know what

2688

01:43:41,750 --> 01:43:40,000

havana syndrome was at that time and and

2689

01:43:43,510 --> 01:43:41,760

did they know

2690

01:43:44,709 --> 01:43:43,520

you know it seems very well calibrated

2691

01:43:45,590 --> 01:43:44,719

they know

2692

01:43:47,910 --> 01:43:45,600

yeah

2693

01:43:51,270 --> 01:43:47,920

it seems exceptionally well calibrated

2694

01:43:52,709 --> 01:43:51,280

that 10 of those cases would would be

2695

01:43:55,030 --> 01:43:52,719

you know craft

2696

01:43:57,109 --> 01:43:55,040

quote unquote possibly not of this world

2697

01:43:57,910 --> 01:43:57,119

and that ninety percent of them

2698

01:44:00,470 --> 01:43:57,920

were

2699

01:44:02,470 --> 01:44:00,480

havana syndrome which is almost as if

2700

01:44:04,229 --> 01:44:02,480

they're saying let's see if this guy can

2701
01:44:07,350 --> 01:44:04,239
tell the difference between the two

2702
01:44:08,470 --> 01:44:07,360
right possibly possibly

2703
01:44:10,470 --> 01:44:08,480
yeah

2704
01:44:12,709 --> 01:44:10,480
very interesting and uh

2705
01:44:14,149 --> 01:44:12,719
katie makes the point uh

2706
01:44:16,470 --> 01:44:14,159
of um

2707
01:44:18,390 --> 01:44:16,480
as far as we knew as the cia is even

2708
01:44:21,270 --> 01:44:18,400
curious sit down tucker that

2709
01:44:23,030 --> 01:44:21,280
brought this stuff to him although the

2710
01:44:24,629 --> 01:44:23,040
you know sheet that he showed clearly

2711
01:44:25,750 --> 01:44:24,639
says department of energy so how does

2712
01:44:28,070 --> 01:44:25,760
that work

2713
01:44:29,510 --> 01:44:28,080

that's right that's right and she said

2714

01:44:31,990 --> 01:44:29,520

it says it makes her think that there

2715

01:44:35,270 --> 01:44:32,000

was already a pre-existing interagency

2716

01:44:37,189 --> 01:44:35,280

kind of thing going on there and i

2717

01:44:39,990 --> 01:44:37,199

i would not doubt that at all i would

2718

01:44:42,149 --> 01:44:40,000

not doubt that at all you know i mean

2719

01:44:44,229 --> 01:44:42,159

i think that you know the department of

2720

01:44:47,189 --> 01:44:44,239

energy has played into

2721

01:44:49,830 --> 01:44:47,199

um you know many situations with regard

2722

01:44:52,950 --> 01:44:49,840

to this this topic and you know even

2723

01:44:56,070 --> 01:44:52,960

their parking lot has has played into

2724

01:44:57,990 --> 01:44:56,080

um you know the david the davis and

2725

01:44:58,710 --> 01:44:58,000

wilson saga as well

2726

01:45:01,669 --> 01:44:58,720

that's right

2727

01:45:04,070 --> 01:45:01,679

[Laughter]

2728

01:45:06,470 --> 01:45:04,080

so it's all just mixed up in there yeah

2729

01:45:08,070 --> 01:45:06,480

yep there's there's a big in in mesh

2730

01:45:10,390 --> 01:45:08,080

network that we're that we're mapping

2731

01:45:12,390 --> 01:45:10,400

out here today and for the last month

2732

01:45:14,229 --> 01:45:12,400

but gary noland doesn't go on tucker

2733

01:45:18,310 --> 01:45:14,239

cross and and say the things that he

2734

01:45:20,390 --> 01:45:18,320

said without uh some sort of um

2735

01:45:23,270 --> 01:45:20,400

i want to get this stuff out here like a

2736

01:45:25,430 --> 01:45:23,280

concerted effort an idea of like i want

2737

01:45:27,669 --> 01:45:25,440

to get this information out and this is

2738

01:45:29,270 --> 01:45:27,679

what you know so this is what i have to

2739

01:45:31,189 --> 01:45:29,280

do you know you're not just like sitting

2740

01:45:32,629 --> 01:45:31,199

around doing your own thing and and

2741

01:45:34,709 --> 01:45:32,639

someone's like hey do you feel like

2742

01:45:36,390 --> 01:45:34,719

talking about stuff you know it's like

2743

01:45:40,550 --> 01:45:36,400

he wants

2744

01:45:42,229 --> 01:45:40,560

information out there you know and and i

2745

01:45:44,310 --> 01:45:42,239

really appreciate that and you could

2746

01:45:46,149 --> 01:45:44,320

almost say that maybe hal wants to as

2747

01:45:47,990 --> 01:45:46,159

well be that you know the paper comes

2748

01:45:50,550 --> 01:45:48,000

out gary's talking about a lot of stuff

2749

01:45:52,629 --> 01:45:50,560

that's in the freaking paper even

2750

01:45:54,470 --> 01:45:52,639

you know avatars possibly being

2751
01:45:55,350 --> 01:45:54,480
responsible for some of these craze or

2752
01:45:56,310 --> 01:45:55,360
whatever

2753
01:45:59,030 --> 01:45:56,320
that's right

2754
01:46:02,229 --> 01:45:59,040
so um you know the stuff going on in

2755
01:46:03,910 --> 01:46:02,239
congress um wilson davis documents it's

2756
01:46:06,310 --> 01:46:03,920
all just kind of coming together i can't

2757
01:46:08,470 --> 01:46:06,320
wait to see where it ends up

2758
01:46:10,870 --> 01:46:08,480
i completely agree with you and i'm i'm

2759
01:46:13,350 --> 01:46:10,880
really glad that that gary

2760
01:46:15,910 --> 01:46:13,360
is that dr nolan is in front of the

2761
01:46:18,470 --> 01:46:15,920
curtain these days and he's willing to

2762
01:46:20,790 --> 01:46:18,480
to put himself out there and he's he's

2763
01:46:24,790 --> 01:46:20,800

exactly the kind of great personality

2764

01:46:27,750 --> 01:46:24,800

that's and with with fantastic resources

2765

01:46:30,470 --> 01:46:27,760

with an impeccable pedigree that is and

2766

01:46:33,109 --> 01:46:30,480

such an exceptional mind that that can

2767

01:46:35,590 --> 01:46:33,119

have these conversations and is even

2768

01:46:37,910 --> 01:46:35,600

willing to to

2769

01:46:39,590 --> 01:46:37,920

um he's willing to do it in places that

2770

01:46:40,470 --> 01:46:39,600

you wouldn't necessarily expect him to

2771

01:46:43,430 --> 01:46:40,480

go

2772

01:46:45,669 --> 01:46:43,440

you're seeing him uh do it with

2773

01:46:48,310 --> 01:46:45,679

have the conversation with with people

2774

01:46:52,709 --> 01:46:48,320

that you wouldn't necessarily associate

2775

01:46:55,270 --> 01:46:52,719

um with him politically maybe you and

2776

01:46:58,390 --> 01:46:55,280

and also online we're also used to

2777

01:47:00,229 --> 01:46:58,400

seeing him doing it in a relatively

2778

01:47:01,750 --> 01:47:00,239

he's not afraid to have a combative

2779

01:47:04,229 --> 01:47:01,760

conversation every once in a while

2780

01:47:06,470 --> 01:47:04,239

either right he even seems to relish it

2781

01:47:08,950 --> 01:47:06,480

i mean diana pasulka even wrote about

2782

01:47:11,350 --> 01:47:08,960

him that way in american cosmic before

2783

01:47:13,350 --> 01:47:11,360

she was even able to identify it as gary

2784

01:47:15,350 --> 01:47:13,360

nolan which is fantastic

2785

01:47:17,669 --> 01:47:15,360

that's another thing another little deep

2786

01:47:21,030 --> 01:47:17,679

cut for for for folks in the audience

2787

01:47:22,470 --> 01:47:21,040

today is is to remind folks that that dr

2788

01:47:24,709 --> 01:47:22,480

diana basulka

2789

01:47:27,669 --> 01:47:24,719

wrote like famously wrote about gary

2790

01:47:29,910 --> 01:47:27,679

nolan in extraordinary depth and and a

2791

01:47:31,830 --> 01:47:29,920

very revealing portrait in her book

2792

01:47:33,510 --> 01:47:31,840

american cosmic and for those that want

2793

01:47:36,390 --> 01:47:33,520

to have a better picture of who this guy

2794

01:47:37,590 --> 01:47:36,400

is beyond his wikipedia page or beyond

2795

01:47:41,430 --> 01:47:37,600

his bio

2796

01:47:43,830 --> 01:47:41,440

uh on stanford.edu um

2797

01:47:46,229 --> 01:47:43,840

uh you you may want to go for american

2798

01:47:47,270 --> 01:47:46,239

cosmic because it's a it's a it's a very

2799

01:47:50,709 --> 01:47:47,280

warm

2800

01:47:52,390 --> 01:47:50,719

um and revealing and beautiful portrait

2801

01:47:54,229 --> 01:47:52,400

of a guy

2802

01:47:55,430 --> 01:47:54,239

really looking for answers i think it's

2803

01:47:57,430 --> 01:47:55,440

awesome

2804

01:47:58,870 --> 01:47:57,440

it is yeah you can really you know if

2805

01:48:00,310 --> 01:47:58,880

you've had your own experiences or

2806

01:48:02,070 --> 01:48:00,320

whatever even if you haven't and you're

2807

01:48:03,669 --> 01:48:02,080

just really um

2808

01:48:05,270 --> 01:48:03,679

you know i consider a lot of people are

2809

01:48:06,870 --> 01:48:05,280

invested in this topic who haven't you

2810

01:48:10,149 --> 01:48:06,880

know maybe seen a craft or had

2811

01:48:12,629 --> 01:48:10,159

paranormal stuff happen to them to me

2812

01:48:14,310 --> 01:48:12,639

they're still an experiencer in some way

2813

01:48:16,870 --> 01:48:14,320

because they're around and being

2814

01:48:19,510 --> 01:48:16,880

affected by everything that's happening

2815

01:48:21,270 --> 01:48:19,520

you know uh which includes a lot of

2816

01:48:23,430 --> 01:48:21,280

experiences so even with that being said

2817

01:48:25,430 --> 01:48:23,440

just like you can really put yourself in

2818

01:48:27,669 --> 01:48:25,440

that person's choosing that book is why

2819

01:48:28,709 --> 01:48:27,679

i said that so for sure

2820

01:48:30,390 --> 01:48:28,719

and

2821

01:48:31,910 --> 01:48:30,400

along the lines of gary nolan being in

2822

01:48:33,189 --> 01:48:31,920

front of the curtain it's also cool to

2823

01:48:35,590 --> 01:48:33,199

have this brief

2824

01:48:39,430 --> 01:48:35,600

moment in front of the curtain for hal

2825

01:48:41,430 --> 01:48:39,440

put off as well and you know i

2826

01:48:44,070 --> 01:48:41,440

i was lucky enough to be able to read

2827

01:48:45,669 --> 01:48:44,080

this paper before it was published like

2828

01:48:47,109 --> 01:48:45,679

an earlier version of the paper that was

2829

01:48:48,229 --> 01:48:47,119

floating around that he had written some

2830

01:48:51,669 --> 01:48:48,239

time ago

2831

01:48:54,229 --> 01:48:51,679

and he did make significant revisions

2832

01:48:55,990 --> 01:48:54,239

from the paper that i remember to what's

2833

01:48:57,189 --> 01:48:56,000

what's here today

2834

01:48:59,830 --> 01:48:57,199

and so

2835

01:49:01,910 --> 01:48:59,840

so seeing seeing him kind of rework it

2836

01:49:06,070 --> 01:49:01,920

and put in newer references and

2837

01:49:06,950 --> 01:49:06,080

elaborate uh in in some more depth here

2838

01:49:08,790 --> 01:49:06,960

and

2839

01:49:11,910 --> 01:49:08,800

what he kind of switched out what he put

2840

01:49:14,149 --> 01:49:11,920

in um i can't because i was only able to

2841

01:49:16,070 --> 01:49:14,159

read the prior version of the paper i

2842

01:49:18,229 --> 01:49:16,080

only have um

2843

01:49:20,470 --> 01:49:18,239

from memory the differences and there

2844

01:49:22,629 --> 01:49:20,480

are some cases that are different and

2845

01:49:25,030 --> 01:49:22,639

that are different here and some more um

2846

01:49:26,950 --> 01:49:25,040

contemporary relevant notes but it's

2847

01:49:29,669 --> 01:49:26,960

cool that a guy that's in a position

2848

01:49:32,310 --> 01:49:29,679

like that who's kind of very much seen

2849

01:49:36,870 --> 01:49:32,320

as the man behind the curtain uh in a

2850

01:49:43,189 --> 01:49:39,669

did this did another kind of rare peak

2851

01:49:45,589 --> 01:49:43,199

outside to to

2852

01:49:47,990 --> 01:49:45,599

to help us get the conversation going

2853

01:49:49,430 --> 01:49:48,000

again in a wider framework really cool

2854

01:49:51,350 --> 01:49:49,440

yeah

2855

01:49:53,270 --> 01:49:51,360

well

2856

01:49:55,189 --> 01:49:53,280

what do you say i think we had a great

2857

01:49:56,790 --> 01:49:55,199

show we went for an hour 50. that's

2858

01:49:58,470 --> 01:49:56,800

that's a record

2859

01:50:00,070 --> 01:49:58,480

yeah i think it is i think it's probably

2860

01:50:03,109 --> 01:50:00,080

i think it's the longest show that we've

2861

01:50:04,229 --> 01:50:03,119

had yeah um yeah we didn't plan to go

2862

01:50:05,990 --> 01:50:04,239

that long

2863

01:50:07,189 --> 01:50:06,000

no and there's other stuff we you know

2864

01:50:09,990 --> 01:50:07,199

we could have gotten into a little bit

2865

01:50:12,310 --> 01:50:10,000

more depth on but i think we boy did we

2866

01:50:14,149 --> 01:50:12,320

there's a lot of and i've been angry for

2867

01:50:16,790 --> 01:50:14,159

like 50 minutes and i haven't even said

2868

01:50:18,390 --> 01:50:16,800

anything so dude wow

2869

01:50:19,910 --> 01:50:18,400

yeah it's amazing

2870

01:50:21,750 --> 01:50:19,920

that's how much that's how passionate

2871

01:50:24,149 --> 01:50:21,760

you are about this topic

2872

01:50:26,870 --> 01:50:24,159

that you can go that long being hangry

2873

01:50:28,950 --> 01:50:26,880

and still be with us it's incredible

2874

01:50:30,310 --> 01:50:28,960

well well i appreciate it man i had a

2875

01:50:32,070 --> 01:50:30,320

great time thanks to everybody in the

2876

01:50:34,790 --> 01:50:32,080

chat um

2877

01:50:36,709 --> 01:50:34,800

too many to thank but uh i appreciate

2878

01:50:38,470 --> 01:50:36,719

everybody so much for being so

2879

01:50:40,950 --> 01:50:38,480

supportive and keeping just a great

2880

01:50:42,870 --> 01:50:40,960

polite uh respectful beautiful chat

2881

01:50:44,790 --> 01:50:42,880

going um

2882

01:50:47,109 --> 01:50:44,800

you know that means the world to me and

2883

01:50:49,189 --> 01:50:47,119

i think that really sets the tone

2884

01:50:51,109 --> 01:50:49,199

for for what we can all do moving

2885

01:50:53,350 --> 01:50:51,119

forward even unlike things like social

2886

01:50:54,709 --> 01:50:53,360

media you know absolutely

2887

01:50:57,109 --> 01:50:54,719

absolutely

2888

01:50:59,270 --> 01:50:57,119

great well thanks so much man um and

2889

01:51:01,350 --> 01:50:59,280

thanks for your great open and and

2890

01:51:04,229 --> 01:51:01,360

that that that uh

2891

01:51:05,990 --> 01:51:04,239

that wonderful account where we got

2892

01:51:07,910 --> 01:51:06,000

that we listened to earlier that was so

2893

01:51:09,990 --> 01:51:07,920

awesome yeah i loved the structure of

2894

01:51:11,350 --> 01:51:10,000

the show today it was so dope yeah it

2895

01:51:13,510 --> 01:51:11,360

was good

2896

01:51:15,750 --> 01:51:13,520

thanks thanks to you man for reading

2897

01:51:16,709 --> 01:51:15,760

that damn thing lying for lying like a

2898

01:51:18,629 --> 01:51:16,719

trooper

2899

01:51:20,709 --> 01:51:18,639

and bringing the great analysis on it

2900

01:51:23,350 --> 01:51:20,719

and helping inform us all and enlighten

2901

01:51:25,830 --> 01:51:23,360

us all with your knowledge so my

2902

01:51:28,229 --> 01:51:25,840

absolute pleasure that was awesome and

2903

01:51:30,870 --> 01:51:28,239
