

Loose Threads

1
00:00:05,809 --> 00:00:04,309
hey this is Sean

2
00:00:10,070 --> 00:00:05,819
and this is Jay

3
00:00:39,770 --> 00:00:10,080
and you're watching witness citizen

4
00:00:45,610 --> 00:00:41,920
foreign

5
00:00:47,930 --> 00:00:45,620
[Music]

6
00:00:50,029 --> 00:00:47,940
happy Wednesday night how are you doing

7
00:00:53,510 --> 00:00:50,039
sir I'm doing really well how are you

8
00:00:55,970 --> 00:00:53,520
doing happy birthday to you yeah

9
00:00:58,970 --> 00:00:55,980
we celebrate Wednesdays here that's

10
00:01:00,830 --> 00:00:58,980
right we're Wednesday celebrators we we

11
00:01:01,930 --> 00:01:00,840
believe in the power of hump day over

12
00:01:04,850 --> 00:01:01,940
here yeah

13
00:01:09,649 --> 00:01:04,860

no my turkey day was good I did the the

14

00:01:14,390 --> 00:01:09,659

parents thing the the in-laws thing so

15

00:01:16,429 --> 00:01:14,400

uh I had a lot of Thanksgiving food yep

16

00:01:18,469 --> 00:01:16,439

um you know and that was pretty good

17

00:01:20,749 --> 00:01:18,479

that was pretty good what about you did

18

00:01:22,550 --> 00:01:20,759

did you go back home or anything or how

19

00:01:25,730 --> 00:01:22,560

did you celebrate well kind of all that

20

00:01:29,090 --> 00:01:25,740

yeah I went I went uh to my my partner's

21

00:01:35,030 --> 00:01:29,100

mom's house outside Columbus Ohio and

22

00:01:37,370 --> 00:01:35,040

that was fun and so we had like a lot of

23

00:01:40,550 --> 00:01:37,380

um traditional Ohio style Regional

24

00:01:42,710 --> 00:01:40,560

cooking uh which was delicious and uh

25

00:01:44,330 --> 00:01:42,720

yeah it was great a lot of cheesy

26

00:01:46,730 --> 00:01:44,340

potatoes and stuff like that that like

27

00:01:48,950 --> 00:01:46,740

was definitely not on the diet plan

28

00:01:51,950 --> 00:01:48,960

beforehand and this is

29

00:01:54,469 --> 00:01:51,960

cut off from the diet plan again as of

30

00:01:56,050 --> 00:01:54,479

now but um

31

00:01:58,069 --> 00:01:56,060

all right

32

00:01:59,330 --> 00:01:58,079

and then when they're on the table and

33

00:02:01,490 --> 00:01:59,340

they're just tempting you and you're

34

00:02:04,310 --> 00:02:01,500

just looking at them it's like it'd be

35

00:02:06,590 --> 00:02:04,320

rude to say no it'd be yep yeah I'll

36

00:02:08,930 --> 00:02:06,600

just take this piece right here and then

37

00:02:12,830 --> 00:02:08,940

and then all of a second you know in

38

00:02:17,750 --> 00:02:12,840

seconds it's thirds oh yeah yep good

39

00:02:20,390 --> 00:02:17,760

good good so you know the the UAP uh

40

00:02:22,130 --> 00:02:20,400

kind of news circuit is

41

00:02:25,070 --> 00:02:22,140

you know

42

00:02:28,130 --> 00:02:25,080

kind of slow isn't it

43

00:02:29,990 --> 00:02:28,140

what do you think well it there's a

44

00:02:32,089 --> 00:02:30,000

slowness and I feel like there's like

45

00:02:34,729 --> 00:02:32,099

both a slowness and a fastness that's

46

00:02:37,910 --> 00:02:34,739

happening right now in a way because the

47

00:02:42,050 --> 00:02:37,920

slowness is that we are anticipating

48

00:02:44,570 --> 00:02:42,060

this big um this UAP task force report

49

00:02:46,550 --> 00:02:44,580

um the second iteration of that and we

50

00:02:49,009 --> 00:02:46,560

got one I mean the one thing is all

51
00:02:50,869 --> 00:02:49,019
right we got one last year and it kind

52
00:02:52,610 --> 00:02:50,879
of sucked it wasn't that great you know

53
00:02:54,770 --> 00:02:52,620
what I mean it was okay you know what I

54
00:02:56,990 --> 00:02:54,780
mean it it said it had some numbers in

55
00:02:59,809 --> 00:02:57,000
it that we could use as talking points

56
00:03:01,490 --> 00:02:59,819
and then other than that there wasn't a

57
00:03:04,009 --> 00:03:01,500
whole lot there you know there it was

58
00:03:05,869 --> 00:03:04,019
just like oh well this is the amount of

59
00:03:07,130 --> 00:03:05,879
things we were looking at here's what we

60
00:03:09,410 --> 00:03:07,140
could identify here's what we couldn't

61
00:03:11,690 --> 00:03:09,420
identify and all the rest of it

62
00:03:14,270 --> 00:03:11,700
um basically uh Fu American public

63
00:03:16,910 --> 00:03:14,280

that's for closed door hearings

64

00:03:18,350 --> 00:03:16,920

um that's it uh thanks a good day so

65

00:03:21,470 --> 00:03:18,360

we've been waiting for this since

66

00:03:24,050 --> 00:03:21,480

October 31st when it was supposedly due

67

00:03:26,149 --> 00:03:24,060

and um and a lot of people in our

68

00:03:30,050 --> 00:03:26,159

community have been like have been

69

00:03:32,270 --> 00:03:30,060

griping like all day every day

70

00:03:34,130 --> 00:03:32,280

and I'm I'm not immune to this myself

71

00:03:36,290 --> 00:03:34,140

I've done the same thing like looking at

72

00:03:37,910 --> 00:03:36,300

my watch wondering what's going on and

73

00:03:39,130 --> 00:03:37,920

at the same time like

74

00:03:42,050 --> 00:03:39,140

wait wait wait

75

00:03:44,030 --> 00:03:42,060

your watch tells you what's going on

76

00:03:46,490 --> 00:03:44,040

no you know I'm looking at my watch

77

00:03:48,770 --> 00:03:46,500

thinking like you know it's you know

78

00:03:50,990 --> 00:03:48,780

it's four weeks overdue or whatever and

79

00:03:53,270 --> 00:03:51,000

so it's a silverdo homework but at the

80

00:03:55,729 --> 00:03:53,280

same time like it sucked you know the

81

00:03:59,030 --> 00:03:55,739

the report was was not great last time

82

00:04:02,229 --> 00:03:59,040

so what do we you know we're waiting for

83

00:04:06,050 --> 00:04:02,239

something that's going to disappoint us

84

00:04:07,970 --> 00:04:06,060

that's that's sick isn't it it is I

85

00:04:10,009 --> 00:04:07,980

think that's sick I don't know if it's

86

00:04:12,229 --> 00:04:10,019

the definition of insanity but it's not

87

00:04:14,270 --> 00:04:12,239

it's not it's not maybe the best way to

88

00:04:17,629 --> 00:04:14,280

go and roll into the holiday season it's

89

00:04:19,610 --> 00:04:17,639

kind of like it's like if you

90

00:04:22,069 --> 00:04:19,620

um you know set up this time to have

91

00:04:25,510 --> 00:04:22,079

coffee with uh a girl you're really into

92

00:04:29,330 --> 00:04:25,520

right got a super big crush on

93

00:04:31,790 --> 00:04:29,340

but you kind of know that she's not

94

00:04:33,469 --> 00:04:31,800

really into you but you don't pay

95

00:04:35,450 --> 00:04:33,479

attention to that part of your brain

96

00:04:38,990 --> 00:04:35,460

telling you that you're just excited to

97

00:04:41,270 --> 00:04:39,000

go and meet with her so you go and you

98

00:04:45,170 --> 00:04:41,280

know you're super into it and she's like

99

00:04:46,909 --> 00:04:45,180

yeah you know I like you as a friend

100

00:04:49,490 --> 00:04:46,919

you know

101
00:04:51,170 --> 00:04:49,500
and you're you kind of feel stupid that

102
00:04:53,390 --> 00:04:51,180
you're even excited for this to begin

103
00:04:56,450 --> 00:04:53,400
with because in the end she doesn't like

104
00:04:58,610 --> 00:04:56,460
you like that you know right next with

105
00:05:01,189 --> 00:04:58,620
the UAP report is you're you're excited

106
00:05:02,570 --> 00:05:01,199
wow UAP report but you but you're not

107
00:05:04,550 --> 00:05:02,580
paying attention to the part in your

108
00:05:05,450 --> 00:05:04,560
brain that's Sonia it's not gonna be

109
00:05:08,350 --> 00:05:05,460
good

110
00:05:11,090 --> 00:05:08,360
you know yeah

111
00:05:15,050 --> 00:05:11,100
one of my favorite Parts about this is

112
00:05:17,510 --> 00:05:15,060
that that for in the in the picture that

113
00:05:21,050 --> 00:05:17,520

you set up it's basically she's she's

114

00:05:24,230 --> 00:05:21,060

just not that into you but you is the

115

00:05:26,330 --> 00:05:24,240

American public and she is like

116

00:05:27,830 --> 00:05:26,340

somewhere between the government and the

117

00:05:32,570 --> 00:05:27,840

military-industrial complex or something

118

00:05:39,409 --> 00:05:35,390

um whatever makes it make more sense

119

00:05:42,170 --> 00:05:39,419

yeah exactly so yeah we'll see we'll see

120

00:05:45,830 --> 00:05:42,180

uh there was this interview today uh uh

121

00:05:48,770 --> 00:05:45,840

John Greenwell did with uh uh Mr Taylor

122

00:05:51,230 --> 00:05:48,780

the the chief scientist for the UAP task

123

00:05:55,730 --> 00:05:51,240

force and they touched on it a little

124

00:05:58,610 --> 00:05:55,740

bit and and Taylor Dr Taylor uh seemed

125

00:06:01,670 --> 00:05:58,620

to say that it was more so you know a

126

00:06:03,710 --> 00:06:01,680

shuffling of the Congress people and you

127

00:06:04,969 --> 00:06:03,720

know nobody knows what they're doing in

128

00:06:07,249 --> 00:06:04,979

the in the house right now because

129

00:06:10,370 --> 00:06:07,259

there's so much going on and new people

130

00:06:13,550 --> 00:06:10,380

are taking over and reports are laid all

131

00:06:16,490 --> 00:06:13,560

the time and it's not a big deal and

132

00:06:19,249 --> 00:06:16,500

it's not some weird conspiracy thing

133

00:06:21,290 --> 00:06:19,259

and you know that's fine and dandy to me

134

00:06:24,830 --> 00:06:21,300

but um

135

00:06:27,770 --> 00:06:26,150

I mean

136

00:06:29,270 --> 00:06:27,780

you know the first of all they set a

137

00:06:30,770 --> 00:06:29,280

precedent with the first report even

138

00:06:32,210 --> 00:06:30,780

though it wasn't that great it was still

139

00:06:35,090 --> 00:06:32,220

on time

140

00:06:36,290 --> 00:06:35,100

um true and um

141

00:06:39,230 --> 00:06:36,300

you know

142

00:06:40,850 --> 00:06:39,240

I I don't know I I mean you already have

143

00:06:44,210 --> 00:06:40,860

leaks in the media the New York Times

144

00:06:46,730 --> 00:06:44,220

Julian Barnes came out and you know

145

00:06:49,249 --> 00:06:46,740

um from his Anonymous DOD sources and

146

00:06:52,189 --> 00:06:49,259

said this is just Chinese drones go to

147

00:06:55,909 --> 00:06:52,199

bed people and there was another leak to

148

00:06:59,150 --> 00:06:55,919

the is it Daily News Daily Mail Daily

149

00:07:01,550 --> 00:06:59,160

Mail yeah that was like uh there's

150

00:07:03,230 --> 00:07:01,560

actually Reaper drones that caught orbs

151
00:07:04,189 --> 00:07:03,240
in the Middle East darting off the

152
00:07:06,950 --> 00:07:04,199
camera

153
00:07:10,430 --> 00:07:06,960
so you have these leaks see from kind of

154
00:07:11,930 --> 00:07:10,440
you know um competing sides for a

155
00:07:14,990 --> 00:07:11,940
different narrative each are kind of

156
00:07:17,210 --> 00:07:15,000
going for a different narrative and

157
00:07:19,490 --> 00:07:17,220
you know you're telling me Oh it's it's

158
00:07:20,650 --> 00:07:19,500
just late nobody's paying attention it's

159
00:07:23,930 --> 00:07:20,660
no big deal

160
00:07:26,749 --> 00:07:23,940
uh I don't know I think you know I think

161
00:07:29,390 --> 00:07:26,759
it's to me it seems clear that maybe

162
00:07:30,770 --> 00:07:29,400
this report was kind of either turned in

163
00:07:32,510 --> 00:07:30,780

or

164

00:07:36,110 --> 00:07:32,520

um you know the the contents of it were

165

00:07:38,570 --> 00:07:36,120

brief to to Congress or whoever and

166

00:07:40,790 --> 00:07:38,580

they weren't happy with it and they're

167

00:07:44,689 --> 00:07:40,800

redoing it that's probably what's going

168

00:07:46,790 --> 00:07:44,699

on in my opinion but you know

169

00:07:48,650 --> 00:07:46,800

um it was just late and nobody's

170

00:07:50,570 --> 00:07:48,660

communicating I feel like somebody would

171

00:07:53,089 --> 00:07:50,580

be loud about that you know whether it's

172

00:07:54,290 --> 00:07:53,099

gillibrand or whoever they would they

173

00:07:55,790 --> 00:07:54,300

would say

174

00:07:56,930 --> 00:07:55,800

you know because it's pretty much like

175

00:07:59,210 --> 00:07:56,940

they're just sticking their middle

176

00:08:01,550 --> 00:07:59,220

finger up at them like I know yeah we're

177

00:08:04,850 --> 00:08:01,560

supposed to do this report but you know

178

00:08:06,710 --> 00:08:04,860

nobody cares you know so good luck yeah

179

00:08:08,570 --> 00:08:06,720

and then at the same time there's also

180

00:08:13,070 --> 00:08:08,580

like kind of a weird complicitness right

181

00:08:15,110 --> 00:08:13,080

because uh gillibrand isn't saying

182

00:08:16,610 --> 00:08:15,120

anything about it and Rubio isn't saying

183

00:08:19,309 --> 00:08:16,620

anything about it and the normal people

184

00:08:22,309 --> 00:08:19,319

that were used to kind of looking around

185

00:08:24,830 --> 00:08:22,319

and and looking for progress on this

186

00:08:26,749 --> 00:08:24,840

issue over the last couple years are

187

00:08:29,330 --> 00:08:26,759

weirdly quiet you know

188

00:08:33,050 --> 00:08:29,340

um uh all we have is like Tim Burchette

189

00:08:36,370 --> 00:08:33,060

on on like Jay on like Jay Anderson show

190

00:08:38,690 --> 00:08:36,380

we're at Project Unity

191

00:08:40,850 --> 00:08:38,700

sorry to interrupt but by the way the

192

00:08:42,469 --> 00:08:40,860

temperature you know God bless him he's

193

00:08:45,230 --> 00:08:42,479

coming out there and talking about UFOs

194

00:08:48,050 --> 00:08:45,240

and stuff but there's nothing I dislike

195

00:08:49,850 --> 00:08:48,060

more about somebody who's who's just

196

00:08:52,269 --> 00:08:49,860

kind of complains and doesn't come up

197

00:08:55,250 --> 00:08:52,279

with the solution to fix anything right

198

00:08:57,530 --> 00:08:55,260

it's just like uh we're getting snowed

199

00:08:59,030 --> 00:08:57,540

this is all a cover-up don't expect to

200

00:09:01,910 --> 00:08:59,040

see anything why do you trust the

201

00:09:03,889 --> 00:09:01,920

government it's like okay well

202

00:09:06,590 --> 00:09:03,899

shouldn't you also be saying like but

203

00:09:09,470 --> 00:09:06,600

I'm gonna get to the bottom of it or I'm

204

00:09:11,930 --> 00:09:09,480

gonna do what I can you know it's a very

205

00:09:13,490 --> 00:09:11,940

good point to like fix it all he does is

206

00:09:17,329 --> 00:09:13,500

like kind of Debbie down or everything

207

00:09:19,009 --> 00:09:17,339

it's like nobody needs that that's a

208

00:09:22,370 --> 00:09:19,019

very good point I mean it makes you

209

00:09:24,889 --> 00:09:22,380

wonder like is that kind of you know we

210

00:09:26,870 --> 00:09:24,899

we know we've been in the game long

211

00:09:29,329 --> 00:09:26,880

enough that we recognize that government

212

00:09:30,949 --> 00:09:29,339

isn't just like a monolith and there's

213

00:09:32,389 --> 00:09:30,959

lots of little moving parts and things

214

00:09:34,610 --> 00:09:32,399

like that and different different

215

00:09:36,889 --> 00:09:34,620

factions and stuff like that and at the

216

00:09:38,449 --> 00:09:36,899

same time if like almost everybody but

217

00:09:40,550 --> 00:09:38,459

one person is being completely quiet

218

00:09:42,769 --> 00:09:40,560

about stuff and then the other guy's

219

00:09:45,410 --> 00:09:42,779

like like this is a bunch of [h__h]

220

00:09:46,970 --> 00:09:45,420

nothing's ever gonna happen then it

221

00:09:49,250 --> 00:09:46,980

seems like they're all kind of playing

222

00:09:50,810 --> 00:09:49,260

for the same team in a weird

223

00:09:52,910 --> 00:09:50,820

right

224

00:09:55,970 --> 00:09:52,920

yeah totally

225

00:09:58,790 --> 00:09:55,980

and it's almost kind of like uh

226

00:10:00,769 --> 00:09:58,800

somebody probably oh sorry you're

227

00:10:03,710 --> 00:10:00,779

breaking up on me a little bit here okay

228

00:10:05,150 --> 00:10:03,720

I'm back but it it it's almost like I

229

00:10:07,009 --> 00:10:05,160

could almost see someone like poking

230

00:10:09,290 --> 00:10:07,019

them to say that just tell everybody

231

00:10:12,170 --> 00:10:09,300

nothing's gonna happen would you like

232

00:10:14,389 --> 00:10:12,180

yeah it's getting out of hand because I

233

00:10:16,970 --> 00:10:14,399

mean well another thing is that that

234

00:10:20,930 --> 00:10:16,980

kind of happened the other day as well

235

00:10:22,430 --> 00:10:20,940

when um Danny Sheehan went on to Jimmy

236

00:10:24,410 --> 00:10:22,440

church I don't know if you saw that

237

00:10:26,449 --> 00:10:24,420

interview I saw it I did I saw I didn't

238

00:10:29,389 --> 00:10:26,459

see the whole thing you know there's

239

00:10:32,509 --> 00:10:29,399

usually you know you can watch Danny

240

00:10:34,670 --> 00:10:32,519

Shan for like two hours and often you

241

00:10:37,490 --> 00:10:34,680

can kind of zero in for about 40 minutes

242

00:10:39,829 --> 00:10:37,500

and get the gist of of what he what the

243

00:10:41,690 --> 00:10:39,839

points that he wants to circle on

244

00:10:44,269 --> 00:10:41,700

um I should have watched the whole thing

245

00:10:46,250 --> 00:10:44,279

but like uh so he was saying that

246

00:10:48,590 --> 00:10:46,260

there's no report because there's no

247

00:10:51,170 --> 00:10:48,600

office basically that the office is like

248

00:10:53,329 --> 00:10:51,180

a show for the most part

249

00:10:54,710 --> 00:10:53,339

um that he thinks uh I mean correct me

250

00:10:56,630 --> 00:10:54,720

if I'm wrong here but it sounded like he

251
00:10:59,030 --> 00:10:56,640
was basically like well they know that

252
00:11:00,650 --> 00:10:59,040
they're a Sitting Duck once the new

253
00:11:04,009 --> 00:11:00,660
right the new

254
00:11:06,170 --> 00:11:04,019
um funding bill gets passed which will

255
00:11:08,690 --> 00:11:06,180
create a new office and so they're just

256
00:11:10,970 --> 00:11:08,700
sitting sitting on their hands because

257
00:11:14,230 --> 00:11:10,980
they know that whatever they do is going

258
00:11:17,150 --> 00:11:14,240
to be rendered defunct with them

259
00:11:20,630 --> 00:11:17,160
like rendered obsolete within like days

260
00:11:22,850 --> 00:11:20,640
to weeks anyway right so who cares and

261
00:11:24,889 --> 00:11:22,860
you know I mean I do kind of understand

262
00:11:27,170 --> 00:11:24,899
the element of that where it's like well

263
00:11:29,150 --> 00:11:27,180

if we just wait until the you know

264

00:11:30,350 --> 00:11:29,160

if we just wait until the end of winter

265

00:11:33,050 --> 00:11:30,360

then we're not going to have to

266

00:11:34,610 --> 00:11:33,060

winterize the tires for another nine

267

00:11:37,670 --> 00:11:34,620

months or whatever you know what I mean

268

00:11:39,410 --> 00:11:37,680

and although that makes uh a lot of

269

00:11:41,389 --> 00:11:39,420

sense you know if that were the case

270

00:11:43,790 --> 00:11:41,399

right like if you know you're gonna get

271

00:11:46,310 --> 00:11:43,800

fired why to put in 100 effort kind of

272

00:11:47,030 --> 00:11:46,320

thing right but

273

00:11:50,090 --> 00:11:47,040

um

274

00:11:52,430 --> 00:11:50,100

I also don't know how true that could

275

00:11:54,710 --> 00:11:52,440

possibly be again like listening to Doc

276

00:11:56,509 --> 00:11:54,720

Taylor today he was asked how many

277

00:11:58,670 --> 00:11:56,519

people were part of the UAP task force

278

00:12:01,610 --> 00:11:58,680

and he said at least one person from

279

00:12:03,769 --> 00:12:01,620

every government agency was involved at

280

00:12:06,350 --> 00:12:03,779

meetings he was at there would be you

281

00:12:08,030 --> 00:12:06,360

know 15 16 people there you know and

282

00:12:09,590 --> 00:12:08,040

they put out a report and all that stuff

283

00:12:11,329 --> 00:12:09,600

and they meet and do the thing and they

284

00:12:13,610 --> 00:12:11,339

were restricted by covid but they still

285

00:12:16,069 --> 00:12:13,620

had meetings and looked at videos and

286

00:12:18,850 --> 00:12:16,079

photos and data and all this so like

287

00:12:22,970 --> 00:12:18,860

that's a that's a task force that's not

288

00:12:26,329 --> 00:12:22,980

you know nothing that's not nothing and

289

00:12:27,949 --> 00:12:26,339

it's something and I remember she in on

290

00:12:29,930 --> 00:12:27,959

Jimmy Church saying something there was

291

00:12:32,030 --> 00:12:29,940

there was uh the on the initial report

292

00:12:35,930 --> 00:12:32,040

the first report we got that it was like

293

00:12:38,150 --> 00:12:35,940

400 some pages long and I I don't know

294

00:12:40,069 --> 00:12:38,160

that that uh proved to be correct but

295

00:12:43,009 --> 00:12:40,079

it's interesting to me because both

296

00:12:46,009 --> 00:12:43,019

can't be true right you can't have a UAP

297

00:12:49,009 --> 00:12:46,019

task force that doesn't exist it's fake

298

00:12:51,710 --> 00:12:49,019

it's a shell or it it's a yeah it's a

299

00:12:53,150 --> 00:12:51,720

ruse but yet put together for some page

300

00:12:54,129 --> 00:12:53,160

report so

301
00:12:58,550 --> 00:12:54,139
yeah

302
00:13:01,190 --> 00:12:58,560
right I don't know about that but

303
00:13:02,810 --> 00:13:01,200
you know just just being honest but you

304
00:13:06,050 --> 00:13:02,820
know he's also in the loop because he's

305
00:13:08,350 --> 00:13:06,060
you know uh Lou Alexander's attorney so

306
00:13:11,810 --> 00:13:08,360
he's got to have more information

307
00:13:14,269 --> 00:13:11,820
than you know we do

308
00:13:17,329 --> 00:13:14,279
yeah you know so I don't I don't know

309
00:13:19,370 --> 00:13:17,339
some it's like

310
00:13:22,069 --> 00:13:19,380
you know and nothing nothing against him

311
00:13:24,050 --> 00:13:22,079
you know I'm just talking about stuff

312
00:13:25,970 --> 00:13:24,060
I've noticed but in in the UFO community

313
00:13:28,009 --> 00:13:25,980

in general from the little time I've

314

00:13:29,930 --> 00:13:28,019

been here I've noticed there's

315

00:13:32,930 --> 00:13:29,940

there's kind of a lot of that there's

316

00:13:34,670 --> 00:13:32,940

some truth there's some made up stuff

317

00:13:36,410 --> 00:13:34,680

and then there's some stuff like I don't

318

00:13:38,150 --> 00:13:36,420

know what you're talking about and you

319

00:13:41,030 --> 00:13:38,160

kind of have to decipher which is which

320

00:13:42,650 --> 00:13:41,040

and it's can be frustrating but you know

321

00:13:44,569 --> 00:13:42,660

you got to do what you got to do

322

00:13:46,910 --> 00:13:44,579

you're absolutely right I mean there's

323

00:13:48,949 --> 00:13:46,920

there's a lot of especially when you're

324

00:13:51,470 --> 00:13:48,959

getting that close to Capitol Hill it

325

00:13:53,870 --> 00:13:51,480

seems like or you're anywhere near kind

326

00:13:57,170 --> 00:13:53,880

of like Suburban Virginia like that

327

00:13:59,449 --> 00:13:57,180

whole area especially for some reason it

328

00:14:01,550 --> 00:13:59,459

seems like for many reasons

329

00:14:03,110 --> 00:14:01,560

um I just think it's it's like baked

330

00:14:04,790 --> 00:14:03,120

into the formula that they're going to

331

00:14:06,850 --> 00:14:04,800

give you like three talking points and

332

00:14:09,829 --> 00:14:06,860

and like four pieces of spin because

333

00:14:11,569 --> 00:14:09,839

that's what that's what you know

334

00:14:13,190 --> 00:14:11,579

government officials do that's what like

335

00:14:15,230 --> 00:14:13,200

I see people do that's what military

336

00:14:18,050 --> 00:14:15,240

industrial complex people do and like

337

00:14:20,990 --> 00:14:18,060

you know I think it's important to

338

00:14:22,970 --> 00:14:21,000

recognize that we you know you're

339

00:14:24,170 --> 00:14:22,980

talking about you know The Black Vault

340

00:14:25,610 --> 00:14:24,180

you're talking about John Greenwald

341

00:14:27,710 --> 00:14:25,620

earlier and things like that you know

342

00:14:29,990 --> 00:14:27,720

and and

343

00:14:33,050 --> 00:14:30,000

you know it's it's important to to

344

00:14:36,650 --> 00:14:33,060

highlight to people that you know from

345

00:14:38,750 --> 00:14:36,660

John's perspective he's like

346

00:14:40,850 --> 00:14:38,760

he presents himself as if he's leaking

347

00:14:43,430 --> 00:14:40,860

these classified not leaking but he's

348

00:14:47,150 --> 00:14:43,440

presenting these classified documents

349

00:14:49,009 --> 00:14:47,160

these you know these secretive documents

350

00:14:51,230 --> 00:14:49,019

um from you know the military that are

351
00:14:52,970 --> 00:14:51,240
often you know he's foyering he's great

352
00:14:55,970 --> 00:14:52,980
at foying

353
00:14:59,210 --> 00:14:55,980
um and he is gonna get out what he can

354
00:15:01,790 --> 00:14:59,220
right and at the same time be you know

355
00:15:04,310 --> 00:15:01,800
like there's there's definitely a

356
00:15:06,590 --> 00:15:04,320
long-standing situation where

357
00:15:08,449 --> 00:15:06,600
he's just publishing what they want him

358
00:15:10,129 --> 00:15:08,459
to publish like they're just publishing

359
00:15:12,170 --> 00:15:10,139
what he what what they're he's

360
00:15:14,629 --> 00:15:12,180
publishing what they're allowing him to

361
00:15:16,790 --> 00:15:14,639
publish no just to seek none of this is

362
00:15:19,310 --> 00:15:16,800
secret like none of this this is all

363
00:15:21,290 --> 00:15:19,320

[h__\h] is in the recycling then as far as

364

00:15:22,430 --> 00:15:21,300

I'm concerned there you know they're not

365

00:15:24,110 --> 00:15:22,440

going to give him anything interesting

366

00:15:26,689 --> 00:15:24,120

and like who does he talk to when he

367

00:15:31,069 --> 00:15:26,699

goes there he talks to Susan who is like

368

00:15:33,290 --> 00:15:31,079

who is like the the the the you know the

369

00:15:36,230 --> 00:15:33,300

like defensive tight end of like the

370

00:15:38,210 --> 00:15:36,240

whole operation over over in the

371

00:15:39,889 --> 00:15:38,220

disinformation wing of the Pentagon or

372

00:15:42,410 --> 00:15:39,899

whatever right I mean that's that's what

373

00:15:44,750 --> 00:15:42,420

she does so you know I don't understand

374

00:15:45,730 --> 00:15:44,760

like like that's that doesn't seem like

375

00:15:49,730 --> 00:15:45,740

a really

376

00:15:51,350 --> 00:15:49,740

viable route for for anything that'll

377

00:15:53,870 --> 00:15:51,360

ever approach transparency every

378

00:15:55,670 --> 00:15:53,880

anything that will ever be the full

379

00:15:57,230 --> 00:15:55,680

truth about anything because there's you

380

00:15:59,210 --> 00:15:57,240

know we've all known for many years that

381

00:16:00,410 --> 00:15:59,220

that's that's not how they operate

382

00:16:02,269 --> 00:16:00,420

that's not what they're paid to do

383

00:16:03,350 --> 00:16:02,279

that's not what any of those people are

384

00:16:06,230 --> 00:16:03,360

paid to do

385

00:16:08,150 --> 00:16:06,240

yeah it's uh it's interesting I mean on

386

00:16:11,210 --> 00:16:08,160

the one hand we've learned a lot of good

387

00:16:13,129 --> 00:16:11,220

things from from foia you know stuff

388

00:16:15,769 --> 00:16:13,139

from in the past whether it be like all

389

00:16:18,530 --> 00:16:15,779

the blue book case files or or what have

390

00:16:20,389 --> 00:16:18,540

you like that's good stuff but

391

00:16:22,550 --> 00:16:20,399

um like fast forward to now and what's

392

00:16:24,889 --> 00:16:22,560

coming out now

393

00:16:26,389 --> 00:16:24,899

um yeah I mean it's pretty clear that um

394

00:16:30,050 --> 00:16:26,399

the only things you're going to receive

395

00:16:32,449 --> 00:16:30,060

via foia are are things like you said

396

00:16:34,009 --> 00:16:32,459

that you'd find in kind of the the

397

00:16:36,050 --> 00:16:34,019

recycling bin that they don't really

398

00:16:38,090 --> 00:16:36,060

care too much about a case in point like

399

00:16:40,790 --> 00:16:38,100

a document came out where all the the

400

00:16:42,530 --> 00:16:40,800

shapes of the uaps were blacked out you

401
00:16:44,509 --> 00:16:42,540
couldn't even see the shapes you know

402
00:16:47,269 --> 00:16:44,519
and when you're reading one of these

403
00:16:49,610 --> 00:16:47,279
cases that it came out

404
00:16:53,090 --> 00:16:49,620
um you know you get one word every four

405
00:16:55,790 --> 00:16:53,100
lines you know out of it about like what

406
00:16:57,530 --> 00:16:55,800
happened and it's you know what are you

407
00:16:59,870 --> 00:16:57,540
supposed to do so

408
00:17:02,930 --> 00:16:59,880
but then there's there's this other side

409
00:17:05,750 --> 00:17:02,940
of it too where you know the the waters

410
00:17:07,189 --> 00:17:05,760
can be so muddy that it's you know at

411
00:17:09,230 --> 00:17:07,199
least a

412
00:17:10,850 --> 00:17:09,240
it's like what do you do because he

413
00:17:13,610 --> 00:17:10,860

obviously can't just go making up stuff

414

00:17:15,110 --> 00:17:13,620

on your own you have to base it off at

415

00:17:20,210 --> 00:17:15,120

something you can't just believe

416

00:17:22,789 --> 00:17:20,220

everybody either so it's like what you

417

00:17:24,650 --> 00:17:22,799

know it's it's almost

418

00:17:26,270 --> 00:17:24,660

like no matter what the government does

419

00:17:29,150 --> 00:17:26,280

no matter what they tell you no matter

420

00:17:31,970 --> 00:17:29,160

whatever it's like you can't

421

00:17:33,610 --> 00:17:31,980

you can't work off of it it just seems

422

00:17:37,270 --> 00:17:33,620

so you know

423

00:17:39,710 --> 00:17:37,280

untrustworthy I guess you know I mean

424

00:17:42,049 --> 00:17:39,720

it's it's funny We've joked about this

425

00:17:44,630 --> 00:17:42,059

before and and you know I don't

426
00:17:46,730 --> 00:17:44,640
understand you know there's a lot to be

427
00:17:48,409 --> 00:17:46,740
positive about with like within our

428
00:17:50,210 --> 00:17:48,419
community and there's I think there's a

429
00:17:52,970 --> 00:17:50,220
lot of progress that's been made in

430
00:17:55,130 --> 00:17:52,980
terms of like where Academia is with

431
00:17:58,010 --> 00:17:55,140
this and where like the Grassroots is

432
00:18:01,250 --> 00:17:58,020
with the normal studies and ufology and

433
00:18:04,909 --> 00:18:01,260
everything and and at the same time you

434
00:18:06,590 --> 00:18:04,919
know you have done amazing work with as

435
00:18:09,049 --> 00:18:06,600
you're putting it you know files that

436
00:18:10,850 --> 00:18:09,059
that largely came out

437
00:18:13,010 --> 00:18:10,860
you know in the decades past that

438
00:18:15,169 --> 00:18:13,020

actually had you know were pretty

439

00:18:17,390 --> 00:18:15,179

fruitful and had had some meat on the

440

00:18:19,250 --> 00:18:17,400

bones and things like that and but these

441

00:18:21,470 --> 00:18:19,260

days it seems like they've just you know

442

00:18:23,390 --> 00:18:21,480

ever since you know Roswell or around

443

00:18:25,669 --> 00:18:23,400

that era they've just been tightening

444

00:18:27,529 --> 00:18:25,679

the bolts you know what I mean they've

445

00:18:30,049 --> 00:18:27,539

been tightening tightening all the bolts

446

00:18:32,150 --> 00:18:30,059

like that much tighter ever since and

447

00:18:34,250 --> 00:18:32,160

they've just you know in general they

448

00:18:35,870 --> 00:18:34,260

whoever they is whichever you know

449

00:18:36,890 --> 00:18:35,880

outfit within there whether you're

450

00:18:37,789 --> 00:18:36,900

talking about the Air Force whether

451
00:18:39,289 --> 00:18:37,799
you're talking about the Pentagon

452
00:18:41,270 --> 00:18:39,299
whoever you're talking about they've

453
00:18:43,370 --> 00:18:41,280
just gotten better and better at kind of

454
00:18:44,810 --> 00:18:43,380
like tightening the lids for the most

455
00:18:47,090 --> 00:18:44,820
part and they'll just give us whatever

456
00:18:48,110 --> 00:18:47,100
they want to give us and so you know on

457
00:18:52,130 --> 00:18:48,120
the one hand

458
00:18:54,950 --> 00:18:52,140
like I wish that we like as a culture

459
00:18:57,350 --> 00:18:54,960
within ufology I wish that I think that

460
00:18:59,090 --> 00:18:57,360
it's important to keep the heat on a lot

461
00:19:01,370 --> 00:18:59,100
of these people and then at the same

462
00:19:04,250 --> 00:19:01,380
time like I think you know we've been

463
00:19:06,470 --> 00:19:04,260

led to like listen for the truth from

464

00:19:09,110 --> 00:19:06,480

these people that are paid to lie to us

465

00:19:11,870 --> 00:19:09,120

or paid to not be transparent with us

466

00:19:13,549 --> 00:19:11,880

you know for like a strategic advantage

467

00:19:15,529 --> 00:19:13,559

or you know National Security or

468

00:19:17,090 --> 00:19:15,539

whatever they want to say and there is

469

00:19:18,350 --> 00:19:17,100

some truth to that I'm sure you know

470

00:19:20,029 --> 00:19:18,360

what I mean like if they were just like

471

00:19:20,930 --> 00:19:20,039

here's here's you know here's free

472

00:19:23,450 --> 00:19:20,940

energy

473

00:19:25,070 --> 00:19:23,460

uh you know it's really simple you can

474

00:19:27,230 --> 00:19:25,080

do it with the parts in your microwave

475

00:19:28,730 --> 00:19:27,240

no problem and then you know some

476

00:19:30,529 --> 00:19:28,740

[h__h] gonna like blow up the world

477

00:19:33,110 --> 00:19:30,539

that night because that's the way it

478

00:19:34,610 --> 00:19:33,120

goes right so you know I get I get a

479

00:19:36,830 --> 00:19:34,620

bunch of that stuff on a very basic

480

00:19:38,570 --> 00:19:36,840

level and then at the same time it's

481

00:19:41,690 --> 00:19:38,580

just like just [h__h] tell us that the

482

00:19:43,549 --> 00:19:41,700

ETS exist just [h__h] say it just

483

00:19:46,310 --> 00:19:43,559

[h__h] you know get drunk one night and

484

00:19:50,049 --> 00:19:46,320

say it get drunk one night get your

485

00:19:55,029 --> 00:19:50,059

stream yard link up yeah just go just

486

00:20:00,230 --> 00:19:58,010

a real good night put some Everclear and

487

00:20:02,770 --> 00:20:00,240

Biden's you know ice cream cone or

488

00:20:05,990 --> 00:20:02,780

whatever whatever needs to happen

489

00:20:09,230 --> 00:20:06,000

but there there's also like

490

00:20:12,110 --> 00:20:09,240

like also something I think is uh why is

491

00:20:14,570 --> 00:20:12,120

it up to them you know um right these

492

00:20:17,690 --> 00:20:14,580

well these well these like entities or

493

00:20:21,110 --> 00:20:17,700

or ETS or what have you whatever you

494

00:20:23,510 --> 00:20:21,120

know may be here like why wouldn't they

495

00:20:25,130 --> 00:20:23,520

you know just let everybody know that

496

00:20:26,390 --> 00:20:25,140

they're here instead of this weird

497

00:20:29,390 --> 00:20:26,400

individual

498

00:20:31,669 --> 00:20:29,400

uh one-on-one kind of stuff you know it

499

00:20:34,850 --> 00:20:31,679

it kind of makes me think like

500

00:20:37,970 --> 00:20:34,860

a lot more of it would be up to them

501
00:20:40,430 --> 00:20:37,980
than even the government you know like

502
00:20:42,950 --> 00:20:40,440
if the government says that they're real

503
00:20:45,230 --> 00:20:42,960
you kind of also have to be partners

504
00:20:47,270 --> 00:20:45,240
with them in this right because you

505
00:20:49,610 --> 00:20:47,280
can't say they're real and nobody and

506
00:20:51,529 --> 00:20:49,620
they don't show up to anybody you know

507
00:20:53,510 --> 00:20:51,539
nobody's going to believe that right so

508
00:20:55,610 --> 00:20:53,520
you kind of have to

509
00:20:57,830 --> 00:20:55,620
it's like I it's almost like a weird

510
00:20:59,750 --> 00:20:57,840
partnership has to happen right like

511
00:21:01,669 --> 00:20:59,760
yeah that's a good point you do that

512
00:21:03,049 --> 00:21:01,679
yeah I think that that's a really good

513
00:21:05,870 --> 00:21:03,059

point and as far as that partnership

514

00:21:09,590 --> 00:21:05,880

goes you know I mean I'm guessing

515

00:21:13,850 --> 00:21:09,600

you know from what we have from what we

516

00:21:16,010 --> 00:21:13,860

the evidence and the kind of signal data

517

00:21:18,710 --> 00:21:16,020

you might say the traffic the signal

518

00:21:21,110 --> 00:21:18,720

traffic data that we've that we've found

519

00:21:25,490 --> 00:21:21,120

in terms of like where activity is you

520

00:21:28,010 --> 00:21:25,500

know east of Miami in the water or

521

00:21:30,590 --> 00:21:28,020

or near Cadillac Catalina Island in the

522

00:21:32,570 --> 00:21:30,600

water or some like nebulous area like

523

00:21:34,610 --> 00:21:32,580

south and east of Australia sounds like

524

00:21:37,850 --> 00:21:34,620

you know you know various mountain

525

00:21:40,250 --> 00:21:37,860

ranges that we know generally speaking

526

00:21:42,770 --> 00:21:40,260

where there's at least some

527

00:21:44,870 --> 00:21:42,780

you know whether it's a portal whether

528

00:21:47,690 --> 00:21:44,880

it's a base whatever it is it's like

529

00:21:51,529 --> 00:21:47,700

some kind of like you know off-ramp from

530

00:21:52,970 --> 00:21:51,539

The Intergalactic Super Highway are are

531

00:21:55,789 --> 00:21:52,980

in these locations where they get

532

00:21:58,010 --> 00:21:55,799

spotted more often than not right and

533

00:22:00,289 --> 00:21:58,020

then so then it does seem like there's

534

00:22:02,390 --> 00:22:00,299

you know we've been slowly figuring that

535

00:22:06,049 --> 00:22:02,400

out we've been learning about more about

536

00:22:07,850 --> 00:22:06,059

that and so you know that's that's like

537

00:22:10,130 --> 00:22:07,860

the real leak that we get that's what we

538

00:22:12,770 --> 00:22:10,140

that's that's where we keep finding

539

00:22:15,230 --> 00:22:12,780

things and that seems to be almost the

540

00:22:17,090 --> 00:22:15,240

most fruitful Arena that one of the more

541

00:22:18,590 --> 00:22:17,100

fruitful Arenas that we found ourselves

542

00:22:20,690 --> 00:22:18,600

in the last five years is that we

543

00:22:23,270 --> 00:22:20,700

suddenly that we have more of like a

544

00:22:26,090 --> 00:22:23,280

world map for activity than we did and

545

00:22:27,590 --> 00:22:26,100

we've got we've got a better we've got a

546

00:22:31,010 --> 00:22:27,600

better picture of what that looks like

547

00:22:32,210 --> 00:22:31,020

in a way and that kind of does point to

548

00:22:34,070 --> 00:22:32,220

the idea that there must be some

549

00:22:36,470 --> 00:22:34,080

complicitness because I would have to

550

00:22:39,350 --> 00:22:36,480

think that if there were bases there

551
00:22:42,409 --> 00:22:39,360
were known stable portals or whatever

552
00:22:45,770 --> 00:22:42,419
the hell is going on on there that that

553
00:22:48,230 --> 00:22:45,780
you know they that whatever you know

554
00:22:50,390 --> 00:22:48,240
beings entities

555
00:22:52,010 --> 00:22:50,400
um don't want to be found or would like

556
00:22:53,870 --> 00:22:52,020
to not be bothered for as long as

557
00:22:56,210 --> 00:22:53,880
possible they've you know some of these

558
00:22:57,590 --> 00:22:56,220
you know some people have guessed that

559
00:23:00,110 --> 00:22:57,600
some of these beings may have been here

560
00:23:02,570 --> 00:23:00,120
as long as we have right or that they've

561
00:23:05,450 --> 00:23:02,580
been here for like at least a long

562
00:23:07,490 --> 00:23:05,460
freaking time right and so you know I'm

563
00:23:09,169 --> 00:23:07,500

sure that a lot of if that's the case

564

00:23:11,270 --> 00:23:09,179

then I'm sure that a bunch of them are

565

00:23:13,669 --> 00:23:11,280

like okay well you know if you just

566

00:23:16,190 --> 00:23:13,679

stink I'm quite

567

00:23:17,750 --> 00:23:16,200

you know like just turn the lights off

568

00:23:19,070 --> 00:23:17,760

you know while the car is coming down

569

00:23:21,770 --> 00:23:19,080

the road and everybody you know just

570

00:23:23,990 --> 00:23:21,780

kind of peek up from the Windows like

571

00:23:25,010 --> 00:23:24,000

just just hide you know like the kids

572

00:23:26,930 --> 00:23:25,020

aren't going to come looking for

573

00:23:30,890 --> 00:23:26,940

Halloween candy if we just shut the hell

574

00:23:33,590 --> 00:23:30,900

up you know yeah yeah and it'd be a life

575

00:23:35,630 --> 00:23:33,600

that they'd be used to you know yeah and

576

00:23:37,549 --> 00:23:35,640

to upend that and all of a sudden

577

00:23:39,710 --> 00:23:37,559

everybody knows and people go out there

578

00:23:42,470 --> 00:23:39,720

in their scientific Expeditions and

579

00:23:45,169 --> 00:23:42,480

start poking around yep maybe that could

580

00:23:47,450 --> 00:23:45,179

lead to some bad things I don't know so

581

00:23:49,430 --> 00:23:47,460

yeah and and so maybe that maybe that's

582

00:23:50,870 --> 00:23:49,440

one level where it's like you know what

583

00:23:53,270 --> 00:23:50,880

they have been doing which is this kind

584

00:23:55,130 --> 00:23:53,280

of like one-on-one Grassroots door

585

00:23:57,830 --> 00:23:55,140

knocking campaign seemingly if you're

586

00:23:59,330 --> 00:23:57,840

gonna if you're you know if if you

587

00:24:01,130 --> 00:23:59,340

believe people like us that have had our

588

00:24:03,350 --> 00:24:01,140

own experiences that feel deeply

589

00:24:05,570 --> 00:24:03,360

personal and then they just Jet and

590

00:24:07,370 --> 00:24:05,580

you're like well can we have a question

591

00:24:09,770 --> 00:24:07,380

and answer session here please can we

592

00:24:12,649 --> 00:24:09,780

just do an AMA is that possible can you

593

00:24:14,330 --> 00:24:12,659

just sit still for one second yeah all

594

00:24:17,750 --> 00:24:14,340

right I'm just gonna

595

00:24:19,549 --> 00:24:17,760

yeah but um you know so there's so we

596

00:24:20,810 --> 00:24:19,559

get this Grassroots door-to-door like

597

00:24:23,890 --> 00:24:20,820

you know like they're Mormons or

598

00:24:29,350 --> 00:24:23,900

something like that and then yeah

599

00:24:33,409 --> 00:24:31,789

yeah yeah but they're not going to do

600

00:24:34,909 --> 00:24:33,419

the other thing because if they do the

601
00:24:36,770 --> 00:24:34,919
other thing you know the the

602
00:24:38,630 --> 00:24:36,780
Independence Day thing or whatever like

603
00:24:40,490 --> 00:24:38,640
you know this is a mass sighting that's

604
00:24:43,549 --> 00:24:40,500
that's what the this isn't a touchdown

605
00:24:45,770 --> 00:24:43,559
this isn't me blocking a goal and that's

606
00:24:47,450 --> 00:24:45,780
that's my gesture for uh for

607
00:24:49,669 --> 00:24:47,460
Independence Day

608
00:24:52,010 --> 00:24:49,679
um if they do that then that's then that

609
00:24:55,130 --> 00:24:52,020
uh that just signals it feels like that

610
00:24:57,890 --> 00:24:55,140
signals you know the kind of defensive

611
00:24:59,750 --> 00:24:57,900
posturing that we are so that we must be

612
00:25:01,669 --> 00:24:59,760
known for you know what I mean if we're

613
00:25:05,090 --> 00:25:01,679

known for anything to anybody else it

614

00:25:06,590 --> 00:25:05,100

must be how insane we are and how we

615

00:25:08,930 --> 00:25:06,600

just like you know what I mean in terms

616

00:25:10,669 --> 00:25:08,940

of like destroying each other just

617

00:25:12,470 --> 00:25:10,679

destroying each other destroying the

618

00:25:15,169 --> 00:25:12,480

planet destroying whatever's around us

619

00:25:16,970 --> 00:25:15,179

like not like taking stuff for granted I

620

00:25:18,409 --> 00:25:16,980

mean I I have to figure that it would be

621

00:25:20,330 --> 00:25:18,419

something like that and like maybe our

622

00:25:23,750 --> 00:25:20,340

sense of humor I don't know you know

623

00:25:25,850 --> 00:25:23,760

sense of humor but they gotta they got a

624

00:25:28,070 --> 00:25:25,860

great sense of humor yeah yeah they're

625

00:25:30,649 --> 00:25:28,080

doing all this weird stuff they're or

626

00:25:33,110 --> 00:25:30,659

like they break their backs for this

627

00:25:36,890 --> 00:25:33,120

green paper that they can't get stuff

628

00:25:39,169 --> 00:25:36,900

with and stare at all day basically

629

00:25:45,110 --> 00:25:39,179

grown-up hairless monkeys but they're

630

00:25:51,830 --> 00:25:49,250

so we we have our guest here uh

631

00:25:53,990 --> 00:25:51,840

Omega point and

632

00:25:56,690 --> 00:25:54,000

you know I I think we could get into

633

00:25:58,130 --> 00:25:56,700

that a little bit we we touched on

634

00:26:01,850 --> 00:25:58,140

um this paper he wrote with a couple

635

00:26:05,570 --> 00:26:01,860

other people hermetic penetrator and or

636

00:26:07,850 --> 00:26:05,580

what just dramatic penetrator and

637

00:26:09,830 --> 00:26:07,860

um it is pretty good it's a 200 some

638

00:26:13,010 --> 00:26:09,840

page paper so

639

00:26:14,690 --> 00:26:13,020

did you have an introduction

640

00:26:16,130 --> 00:26:14,700

um I yeah you know what I didn't have

641

00:26:18,049 --> 00:26:16,140

like a classic

642

00:26:20,149 --> 00:26:18,059

um jstyle introduction for a mega point

643

00:26:22,130 --> 00:26:20,159

but I'll just say that um Omega Point's

644

00:26:23,630 --> 00:26:22,140

a great guy I I met him in person at The

645

00:26:26,390 --> 00:26:23,640

Archives of the impossible conference

646

00:26:29,269 --> 00:26:26,400

earlier this year uh real sweetheart um

647

00:26:32,510 --> 00:26:29,279

we'd been talking for a while and um

648

00:26:34,310 --> 00:26:32,520

uh he's he's a really bright guy he puts

649

00:26:36,409 --> 00:26:34,320

he as you can see in this in this

650

00:26:40,310 --> 00:26:36,419

document he puts he puts a lot of pieces

651
00:26:41,570 --> 00:26:40,320
together and uh and he's also um uh what

652
00:26:43,549 --> 00:26:41,580
a lot of people don't realize is that he

653
00:26:47,330 --> 00:26:43,559
also has a great sense of humor

654
00:26:49,490 --> 00:26:47,340
um which as as you and I know is really

655
00:26:51,950 --> 00:26:49,500
one of the best things that uh we have

656
00:26:55,370 --> 00:26:51,960
as a human species so

657
00:26:56,510 --> 00:26:55,380
um great to have you here today Mr

658
00:26:58,789 --> 00:26:56,520
Omega point

659
00:27:00,890 --> 00:26:58,799
hey how's it going guys good how are you

660
00:27:03,470 --> 00:27:00,900
sir yeah I can y'all can hear me okay

661
00:27:06,110 --> 00:27:03,480
yeah absolutely all right I love coming

662
00:27:07,310 --> 00:27:06,120
to you yeah go ahead no you go ahead

663
00:27:08,570 --> 00:27:07,320

tell me where you're coming from because

664

00:27:10,130 --> 00:27:08,580

it looks like you're inside your

665

00:27:12,409 --> 00:27:10,140

Christmas presents which is awesome yeah

666

00:27:13,370 --> 00:27:12,419

yeah actually ever since I started

667

00:27:15,830 --> 00:27:13,380

talking to

668

00:27:16,970 --> 00:27:15,840

um hermes this is just sort of I'm

669

00:27:19,130 --> 00:27:16,980

always in an altered state of

670

00:27:20,810 --> 00:27:19,140

consciousness so this is just sort of

671

00:27:23,570 --> 00:27:20,820

like the way everything looks now it's

672

00:27:26,450 --> 00:27:23,580

very psychedelic it's very

673

00:27:28,730 --> 00:27:26,460

um you know I just it's always like I'm

674

00:27:32,330 --> 00:27:28,740

on peyote just perpetually on peyote all

675

00:27:34,669 --> 00:27:32,340

the time nice yeah yeah so I'm in my

676

00:27:36,549 --> 00:27:34,679

laundry room because this is just the

677

00:27:39,590 --> 00:27:36,559

way my life is right now

678

00:27:42,769 --> 00:27:39,600

I'm talking about UFOs yeah awesome

679

00:27:44,870 --> 00:27:42,779

Fulton sucks and talking UFOs that's

680

00:27:46,430 --> 00:27:44,880

right that's right yeah I I was telling

681

00:27:47,990 --> 00:27:46,440

my wife earlier that it'd be uh uh

682

00:27:49,789 --> 00:27:48,000

perfect if we had some sort of like a

683

00:27:52,010 --> 00:27:49,799

Harry Potter closet or something that I

684

00:27:53,590 --> 00:27:52,020

could be under like the stairs

685

00:27:56,930 --> 00:27:53,600

um something even smaller than this

686

00:27:59,810 --> 00:27:56,940

absolutely yeah yeah but anyway guys

687

00:28:02,390 --> 00:27:59,820

thanks for having me on yeah yeah thanks

688

00:28:03,289 --> 00:28:02,400

for doing this I mean we I listen to

689

00:28:05,210 --> 00:28:03,299

yeah and

690

00:28:08,450 --> 00:28:05,220

um the the Dolan podcast that was pretty

691

00:28:11,149 --> 00:28:08,460

great uh I I read the paper

692

00:28:13,370 --> 00:28:11,159

um it's it's good it's it's you know an

693

00:28:15,350 --> 00:28:13,380

easy read as far as you know you you

694

00:28:17,149 --> 00:28:15,360

made it really understandable and and

695

00:28:19,549 --> 00:28:17,159

connecting your dots and in your thought

696

00:28:21,350 --> 00:28:19,559

processes so

697

00:28:22,970 --> 00:28:21,360

um I appreciate you doing that I really

698

00:28:25,909 --> 00:28:22,980

enjoyed it

699

00:28:27,789 --> 00:28:25,919

um I guess I'd like to start out with

700

00:28:30,710 --> 00:28:27,799

with asking like

701
00:28:32,930 --> 00:28:30,720
uh why you know what was your motivation

702
00:28:35,630 --> 00:28:32,940
you have a kid I'm sure you have a job

703
00:28:38,450 --> 00:28:35,640
you're a busy person uh what made you

704
00:28:40,549 --> 00:28:38,460
put in all that effort to try to connect

705
00:28:43,370 --> 00:28:40,559
these dots

706
00:28:47,090 --> 00:28:43,380
yeah so um

707
00:28:48,830 --> 00:28:47,100
my co-author and I uh penetrator we had

708
00:28:50,570 --> 00:28:48,840
just been talking about some of this

709
00:28:53,870 --> 00:28:50,580
stuff that it we were just kind of dming

710
00:28:55,669 --> 00:28:53,880
back and forth especially once the oak

711
00:28:58,789 --> 00:28:55,679
Shannon notes came out you know he kind

712
00:29:00,169 --> 00:28:58,799
of made this connection between

713
00:29:04,010 --> 00:29:00,179

um you know what was in the Wilson Davis

714

00:29:06,769 --> 00:29:04,020

notes that ATP 10 and the AP 10 kind of

715

00:29:09,470 --> 00:29:06,779

connection between those two things

716

00:29:11,510 --> 00:29:09,480

um and we had just kind of been sort of

717

00:29:13,310 --> 00:29:11,520

throwing things at each other and our

718

00:29:14,810 --> 00:29:13,320

direct messages for

719

00:29:16,130 --> 00:29:14,820

um for a few days and I think at one

720

00:29:19,130 --> 00:29:16,140

point we were just like hey we should

721

00:29:20,690 --> 00:29:19,140

like do something with all of this uh we

722

00:29:21,889 --> 00:29:20,700

should put this together we should do

723

00:29:23,750 --> 00:29:21,899

something together and maybe it'll be

724

00:29:26,690 --> 00:29:23,760

good and we'll just see what happens and

725

00:29:28,669 --> 00:29:26,700

so it just and it just happened I don't

726

00:29:30,590 --> 00:29:28,679

there wasn't there wasn't like a grand

727

00:29:32,690 --> 00:29:30,600

scheme at the beginning or anything like

728

00:29:33,830 --> 00:29:32,700

that it was definitely a shared Rabbit

729

00:29:36,889 --> 00:29:33,840

Hole

730

00:29:39,470 --> 00:29:36,899

um and almost I I felt like I got really

731

00:29:41,389 --> 00:29:39,480

really excited to talk to Hermes every

732

00:29:43,190 --> 00:29:41,399

day I probably my wife can't hear me

733

00:29:45,470 --> 00:29:43,200

thank God but I probably talked to him

734

00:29:47,269 --> 00:29:45,480

more than I talked to my wife for the

735

00:29:49,669 --> 00:29:47,279

month or so about a month that it took

736

00:29:52,190 --> 00:29:49,679

us to put that together and wow you did

737

00:29:53,930 --> 00:29:52,200

that in a month yeah yeah well well we

738

00:29:56,029 --> 00:29:53,940

had to because I mean so much of it is

739

00:29:57,409 --> 00:29:56,039

about those those Oceanic notes and

740

00:30:00,710 --> 00:29:57,419

that's when they came out and that's

741

00:30:03,049 --> 00:30:00,720

kind of I feel like that and obviously

742

00:30:05,570 --> 00:30:03,059

um you know Jay's interview

743

00:30:07,130 --> 00:30:05,580

um is what really kind of set it all off

744

00:30:08,330 --> 00:30:07,140

and and started you know and I know that

745

00:30:10,310 --> 00:30:08,340

we're not the only ones who were doing

746

00:30:11,630 --> 00:30:10,320

that like lots of people were making

747

00:30:12,769 --> 00:30:11,640

those connections but there were some

748

00:30:13,730 --> 00:30:12,779

things that I think we found that were

749

00:30:14,990 --> 00:30:13,740

new

750

00:30:16,070 --> 00:30:15,000

um and we're like some we should put

751

00:30:18,289 --> 00:30:16,080

this together we should just see what

752

00:30:21,289 --> 00:30:18,299

happens and it just kind of snowballed

753

00:30:22,970 --> 00:30:21,299

and before you know it you know uh I'm

754

00:30:25,930 --> 00:30:22,980

talking about UFOs in my laundry room

755

00:30:28,789 --> 00:30:25,940

with you guys so that's

756

00:30:31,310 --> 00:30:28,799

excellent living the dream living the

757

00:30:32,690 --> 00:30:31,320

dream that's right and and when we're on

758

00:30:34,669 --> 00:30:32,700

Witnesses and we just have to remember

759

00:30:37,970 --> 00:30:34,679

to refer to Jay Anderson as other Jay

760

00:30:39,830 --> 00:30:37,980

Jay yes other J on the rest of Twitter

761

00:30:41,630 --> 00:30:39,840

we can just share the name but here he's

762

00:30:43,630 --> 00:30:41,640

other Jay that's that's right other J

763

00:30:46,490 --> 00:30:43,640

that's right I'm fine with that J2

764

00:30:49,549 --> 00:30:46,500

that's right

765

00:30:51,830 --> 00:30:49,559

um so um so what what really brought you

766

00:30:54,169 --> 00:30:51,840

into the field in general like when when

767

00:30:55,850 --> 00:30:54,179

did you decide that this was like an

768

00:30:58,970 --> 00:30:55,860

unavoidable topic

769

00:31:01,730 --> 00:30:58,980

um that uh you know what what really

770

00:31:04,549 --> 00:31:01,740

obsessed you about this topic you know I

771

00:31:07,310 --> 00:31:04,559

think that uh like many people people

772

00:31:09,409 --> 00:31:07,320

involved with UFOs I am sort of a

773

00:31:11,630 --> 00:31:09,419

natural contrarian and I think I've been

774

00:31:14,029 --> 00:31:11,640

that way my whole life

775

00:31:15,470 --> 00:31:14,039

um and and so I think I I it probably in

776

00:31:16,730 --> 00:31:15,480

high school and maybe even in middle

777

00:31:18,470 --> 00:31:16,740

school it's hard for me to remember back

778

00:31:19,970 --> 00:31:18,480

that that far

779

00:31:22,610 --> 00:31:19,980

um I've always kind of gravitated

780

00:31:25,370 --> 00:31:22,620

towards ideas and things maybe that are

781

00:31:27,950 --> 00:31:25,380

outside of the accepted Norm

782

00:31:30,710 --> 00:31:27,960

um and you know so I do know we were

783

00:31:34,490 --> 00:31:30,720

talking earlier about Leslie uh about

784

00:31:35,630 --> 00:31:34,500

Leslie K and you know she's really

785

00:31:37,370 --> 00:31:35,640

um and I told you she's kind of like

786

00:31:39,769 --> 00:31:37,380

she's my number one

787

00:31:42,649 --> 00:31:39,779

um and and the reason is is because when

788

00:31:44,870 --> 00:31:42,659

her book UFOs came out

789

00:31:47,389 --> 00:31:44,880

um you know I think it was in maybe 2008

790

00:31:48,889 --> 00:31:47,399

when that came out I I got that I was in

791

00:31:51,350 --> 00:31:48,899

college I can remember I was I would

792

00:31:52,970 --> 00:31:51,360

have been uh a sophomore in college or

793

00:31:55,549 --> 00:31:52,980

something like that and it's like it

794

00:31:57,649 --> 00:31:55,559

made it safe to start talking about UFOs

795

00:31:59,810 --> 00:31:57,659

with my friends and to to actually

796

00:32:00,950 --> 00:31:59,820

devote time to the subject rather than

797

00:32:02,750 --> 00:32:00,960

just kind of being someone who would

798

00:32:04,909 --> 00:32:02,760

casually you know watch a documentary or

799

00:32:07,190 --> 00:32:04,919

read a book here and there to really

800

00:32:09,289 --> 00:32:07,200

take a deep dive so I certainly haven't

801

00:32:11,389 --> 00:32:09,299

been in it you know for 30 years or

802

00:32:14,090 --> 00:32:11,399

anything like that but

803

00:32:16,190 --> 00:32:14,100

um you know I really you know I'm sure

804

00:32:18,350 --> 00:32:16,200

she would not like me saying this but uh

805

00:32:20,570 --> 00:32:18,360

this is kind of her fault

806

00:32:23,750 --> 00:32:20,580

loose threats is kind of Leslie King's

807

00:32:27,169 --> 00:32:23,760

fault so um just because of of that book

808

00:32:28,549 --> 00:32:27,179

and um and you know uh just kind of the

809

00:32:30,470 --> 00:32:28,559

rabbit hole that that sent me down and

810

00:32:31,669 --> 00:32:30,480

I'm sure I I know for a fact that I'm

811

00:32:33,350 --> 00:32:31,679

not the only one that that's the case

812

00:32:35,750 --> 00:32:33,360

where there are a lot of people I've

813

00:32:37,669 --> 00:32:35,760

encountered who have said the same thing

814

00:32:41,870 --> 00:32:37,679

um and so I know her you know her story

815

00:32:43,010 --> 00:32:41,880

in 2017 with Ralph Blumenthal

816

00:32:46,010 --> 00:32:43,020

um you know the New York Times that's a

817

00:32:49,010 --> 00:32:46,020

big deal but uh I honestly think that

818

00:32:50,149 --> 00:32:49,020

book was I I won't say a bigger deal but

819

00:32:51,529 --> 00:32:50,159

it was a really big deal for me

820

00:32:53,510 --> 00:32:51,539

personally and I know that there are

821

00:32:55,610 --> 00:32:53,520

lots of people who uh a lot of people

822

00:32:58,130 --> 00:32:55,620

who feel the same

823

00:32:59,630 --> 00:32:58,140

well yeah and it's interesting because

824

00:33:01,730 --> 00:32:59,640

to me

825

00:33:03,590 --> 00:33:01,740

um you know folks can learn so much more

826

00:33:05,930 --> 00:33:03,600

about this topic if they actually take

827

00:33:08,450 --> 00:33:05,940

it upon themselves to to do something

828

00:33:10,430 --> 00:33:08,460

that may be a little more labor

829

00:33:13,730 --> 00:33:10,440

intensive whether it's reading an entire

830

00:33:15,350 --> 00:33:13,740

book or looking at

831

00:33:17,450 --> 00:33:15,360

um a bunch of documents reading a bunch

832

00:33:19,070 --> 00:33:17,460

of documents taking it upon herself to

833

00:33:21,289 --> 00:33:19,080

try to find a little bit of Truth this

834

00:33:24,169 --> 00:33:21,299

subject takes

835

00:33:26,870 --> 00:33:24,179

um you know to find anything about it it

836

00:33:28,549 --> 00:33:26,880

takes motivation from the person you

837

00:33:30,110 --> 00:33:28,559

know you can sit back like you said and

838

00:33:32,450 --> 00:33:30,120

watch the documentaries but they're all

839

00:33:34,610 --> 00:33:32,460

peppered with narrative and a lot of

840

00:33:37,250 --> 00:33:34,620

things that uh

841

00:33:39,769 --> 00:33:37,260

a lot of the times are just a lot of

842

00:33:43,370 --> 00:33:39,779

speculation without a lot a lot of facts

843

00:33:46,610 --> 00:33:43,380

behind it in in Leslie's book is is all

844

00:33:49,070 --> 00:33:46,620

fact it's all pilot you know testimony

845

00:33:51,350 --> 00:33:49,080

yeah you know like I'm an experienced

846

00:33:54,049 --> 00:33:51,360

pilot I have this many hours experience

847

00:33:56,690 --> 00:33:54,059

flying and this is what happened you

848

00:34:00,169 --> 00:33:56,700

know and you leave like

849

00:34:02,330 --> 00:34:00,179

what you know versus you know watching

850

00:34:04,070 --> 00:34:02,340

you know Nick Pope tell a story about

851
00:34:07,009 --> 00:34:04,080
something that happened a couple years

852
00:34:10,129 --> 00:34:07,019
ago for you know three minutes at a time

853
00:34:12,589 --> 00:34:10,139
while they say yeah well and also you

854
00:34:14,349 --> 00:34:12,599
know aliens have it made the pyramids so

855
00:34:17,089 --> 00:34:14,359
right you know

856
00:34:19,629 --> 00:34:17,099
let's talk about Antarctica for you know

857
00:34:22,190 --> 00:34:19,639
three three days

858
00:34:24,230 --> 00:34:22,200
which is you know it's interesting and

859
00:34:26,869 --> 00:34:24,240
you know are you gonna find things out

860
00:34:28,490 --> 00:34:26,879
without ideas but yeah that's true

861
00:34:31,070 --> 00:34:28,500
that's true I think there is there is

862
00:34:33,290 --> 00:34:31,080
value in in a little bit of speculation

863
00:34:35,089 --> 00:34:33,300

and being a little credulous

864

00:34:38,210 --> 00:34:35,099

um because I think it does lead you down

865

00:34:40,010 --> 00:34:38,220

novel paths and I think that

866

00:34:41,510 --> 00:34:40,020

um you know one thing that people who

867

00:34:43,190 --> 00:34:41,520

are outside of this subject I think that

868

00:34:44,510 --> 00:34:43,200

they're really missing out on is the

869

00:34:46,369 --> 00:34:44,520

learning experience that you mentioned

870

00:34:49,010 --> 00:34:46,379

because you don't just learn about UFOs

871

00:34:51,770 --> 00:34:49,020

when you learn about UFOs right you are

872

00:34:53,210 --> 00:34:51,780

learning I mean especially with

873

00:34:55,490 --> 00:34:53,220

something putting together something

874

00:34:57,650 --> 00:34:55,500

like loose threads I mean there's a lot

875

00:34:59,390 --> 00:34:57,660

of stuff in there that outside of what I

876
00:35:01,670 --> 00:34:59,400
wrote in loose threads I have absolutely

877
00:35:04,670 --> 00:35:01,680
no idea about and and it's just because

878
00:35:06,349 --> 00:35:04,680
it was like almost uh you know a

879
00:35:08,390 --> 00:35:06,359
performance task like this is Project

880
00:35:09,770 --> 00:35:08,400
based learning right you're you're given

881
00:35:10,970 --> 00:35:09,780
this you're trying to accomplish this

882
00:35:12,349 --> 00:35:10,980
thing and before you know it you're like

883
00:35:15,710 --> 00:35:12,359
reading about

884
00:35:18,109 --> 00:35:15,720
um you know biocentrism and you know I

885
00:35:19,790 --> 00:35:18,119
know I mean yeah you know you're going

886
00:35:22,190 --> 00:35:19,800
looking for you're going looking for

887
00:35:23,810 --> 00:35:22,200
Tech or or connections or whatever and

888
00:35:27,050 --> 00:35:23,820

and you know you're looking up how

889

00:35:28,490 --> 00:35:27,060

put-offs SRI or whatever and you're down

890

00:35:30,170 --> 00:35:28,500

these rabbit holes and all of a sudden

891

00:35:32,510 --> 00:35:30,180

you're learning about yeah like directed

892

00:35:35,150 --> 00:35:32,520

energy weapons and yeah and you know

893

00:35:36,829 --> 00:35:35,160

non-ionizing radiation you're like I

894

00:35:41,089 --> 00:35:36,839

never in a million years thought I'd be

895

00:35:46,250 --> 00:35:43,790

go ahead no I was just going to say like

896

00:35:47,990 --> 00:35:46,260

yeah when was the last time that you you

897

00:35:50,030 --> 00:35:48,000

know breathlessly read a 10-page

898

00:35:53,930 --> 00:35:50,040

document about bismuth until you got

899

00:35:55,910 --> 00:35:53,940

into Urology yeah yeah I mean that's I

900

00:35:58,849 --> 00:35:55,920

mean but it's fun and it makes learning

901
00:36:00,290 --> 00:35:58,859
fun you know and and so uh you know I I

902
00:36:02,210 --> 00:36:00,300
do kind of have a background in

903
00:36:03,349 --> 00:36:02,220
education and that's sort of what I do

904
00:36:04,970 --> 00:36:03,359
um I'm not in the classroom or anything

905
00:36:07,430 --> 00:36:04,980
but that's that's

906
00:36:09,589 --> 00:36:07,440
um sort of my uh you know my where I

907
00:36:11,390 --> 00:36:09,599
where I do my work and

908
00:36:13,430 --> 00:36:11,400
and so I look at it it's just this huge

909
00:36:15,470 --> 00:36:13,440
learning opportunity and this way that

910
00:36:17,750 --> 00:36:15,480
sort of uh I don't want to say weaponize

911
00:36:20,630 --> 00:36:17,760
your curiosity but catalyze your

912
00:36:23,030 --> 00:36:20,640
curiosity right um to get you um going

913
00:36:24,710 --> 00:36:23,040

down these these disparate paths and I

914

00:36:26,810 --> 00:36:24,720

really think that

915

00:36:28,730 --> 00:36:26,820

um I think that's what's happened to the

916

00:36:30,349 --> 00:36:28,740

people that I covered you know that we

917

00:36:32,030 --> 00:36:30,359

covered in loose threats you know I

918

00:36:34,310 --> 00:36:32,040

think that we get to see their learning

919

00:36:38,270 --> 00:36:34,320

experience and their progression over

920

00:36:39,650 --> 00:36:38,280

time to try and get at the root of this

921

00:36:41,750 --> 00:36:39,660

Enigma

922

00:36:43,490 --> 00:36:41,760

um you know there's a quote uh from

923

00:36:45,829 --> 00:36:43,500

Richard Roy and I I quote him too much

924

00:36:47,810 --> 00:36:45,839

people get annoyed by it but uh it's

925

00:36:49,550 --> 00:36:47,820

that mystery is not something that is

926
00:36:51,410 --> 00:36:49,560
unknowable it's something that's

927
00:36:53,150 --> 00:36:51,420
infinitely knowable

928
00:36:56,810 --> 00:36:53,160
um and there's something so tantalizing

929
00:36:59,569 --> 00:36:56,820
about the UFO story and the anomalous

930
00:37:00,530 --> 00:36:59,579
experience that

931
00:37:03,230 --> 00:37:00,540
um

932
00:37:05,870 --> 00:37:03,240
I feel like it is infinitely knowable

933
00:37:09,710 --> 00:37:05,880
and and for someone like at least in for

934
00:37:11,210 --> 00:37:09,720
me I mean that that drives me like I

935
00:37:13,730 --> 00:37:11,220
want to infinitely know this information

936
00:37:16,430 --> 00:37:13,740
you know even when you learn it once

937
00:37:18,109 --> 00:37:16,440
it's not Case Closed game over it's it

938
00:37:19,490 --> 00:37:18,119

changes your life you know some of the

939

00:37:21,050 --> 00:37:19,500

stuff that you

940

00:37:23,390 --> 00:37:21,060

um you know that you uncover as you

941

00:37:25,490 --> 00:37:23,400

study even some of the you know some of

942

00:37:27,230 --> 00:37:25,500

the physical science right quickly

943

00:37:28,609 --> 00:37:27,240

becomes you know you're looking at

944

00:37:30,290 --> 00:37:28,619

physics and before you know it you're

945

00:37:32,690 --> 00:37:30,300

you're looking at metaphysics and you're

946

00:37:34,849 --> 00:37:32,700

looking at spirituality and

947

00:37:37,069 --> 00:37:34,859

um you know that that's something that

948

00:37:38,990 --> 00:37:37,079

you see even with the physical sciences

949

00:37:40,670 --> 00:37:39,000

themselves that we looked at in loose

950

00:37:42,829 --> 00:37:40,680

threats you know that as they were going

951
00:37:45,170 --> 00:37:42,839
you start to see this progression where

952
00:37:47,810 --> 00:37:45,180
there's they aren't kind of looking at

953
00:37:50,750 --> 00:37:47,820
nuts and bolts you know information but

954
00:37:52,550 --> 00:37:50,760
then over time uh it sort of progresses

955
00:37:53,750 --> 00:37:52,560
to where they're they're really focused

956
00:37:56,329 --> 00:37:53,760
on

957
00:37:59,329 --> 00:37:56,339
um the experiences themselves and the

958
00:38:01,790 --> 00:37:59,339
experiences themselves as well

959
00:38:03,650 --> 00:38:01,800
um and that's a progression that you

960
00:38:05,390 --> 00:38:03,660
know we didn't intend but that's just

961
00:38:07,010 --> 00:38:05,400
what we found you know we we really

962
00:38:09,290 --> 00:38:07,020
tried to

963
00:38:11,569 --> 00:38:09,300

um you know Hermes like uh like to say

964

00:38:13,430 --> 00:38:11,579

let's let the sources speak right let's

965

00:38:15,230 --> 00:38:13,440

put it out there and let's just see what

966

00:38:17,210 --> 00:38:15,240

happens and and

967

00:38:20,390 --> 00:38:17,220

um what happened was the sort of you

968

00:38:22,370 --> 00:38:20,400

know natural progression from

969

00:38:24,349 --> 00:38:22,380

um you know talking about Advanced

970

00:38:27,230 --> 00:38:24,359

theoretical physics and you know nuclear

971

00:38:29,690 --> 00:38:27,240

you know kinds of things to

972

00:38:31,970 --> 00:38:29,700

um Consciousness and you know honestly

973

00:38:34,130 --> 00:38:31,980

just uh straight perennial tradition

974

00:38:36,710 --> 00:38:34,140

mysticism you know uh and I think you'd

975

00:38:38,870 --> 00:38:36,720

be surprised at um

976
00:38:40,490 --> 00:38:38,880
you know how how deep those guys get

977
00:38:41,810 --> 00:38:40,500
into these subjects and even publicly

978
00:38:43,310 --> 00:38:41,820
not all of it it's not like you have to

979
00:38:44,990 --> 00:38:43,320
do much digging before you can find

980
00:38:46,970 --> 00:38:45,000
those things

981
00:38:49,250 --> 00:38:46,980
um so yeah those are that's just kind of

982
00:38:50,690 --> 00:38:49,260
a yeah it's almost like it's you know

983
00:38:53,930 --> 00:38:50,700
that's one of the things I appreciated

984
00:38:55,970 --> 00:38:53,940
about the paper because it you know when

985
00:38:57,710 --> 00:38:55,980
you start looking into this stuff and

986
00:38:59,930 --> 00:38:57,720
the characters that play Within it

987
00:39:02,810 --> 00:38:59,940
whether it's Jacques Valley or Dr alpod

988
00:39:05,150 --> 00:39:02,820

off or or you know whoever it doesn't

989

00:39:07,370 --> 00:39:05,160

take you long to realize that uh these

990

00:39:10,550 --> 00:39:07,380

same people who are into UFOs and and

991

00:39:13,670 --> 00:39:10,560

studying UFOs are also heavily into

992

00:39:15,290 --> 00:39:13,680

things like remote viewing you know and

993

00:39:18,950 --> 00:39:15,300

studying things like psychotronic

994

00:39:21,109 --> 00:39:18,960

weapons or or whatever it may be and you

995

00:39:23,750 --> 00:39:21,119

know or and then there's also the side

996

00:39:25,970 --> 00:39:23,760

where there's you know some Weaponry

997

00:39:29,030 --> 00:39:25,980

involved whether it's like laser laser

998

00:39:31,069 --> 00:39:29,040

weapons or directed energy things and so

999

00:39:34,910 --> 00:39:31,079

on and so forth but

1000

00:39:36,650 --> 00:39:34,920

you know where they meet and and when I

1001

00:39:37,609 --> 00:39:36,660

think about it in your paper kind of

1002

00:39:39,770 --> 00:39:37,619

helped me

1003

00:39:43,370 --> 00:39:39,780

um put this together a little bit it's

1004

00:39:45,770 --> 00:39:43,380

almost like they're reaching for

1005

00:39:48,530 --> 00:39:47,210

um

1006

00:39:52,730 --> 00:39:48,540

you know

1007

00:39:54,050 --> 00:39:52,740

um like uh like a combination of of tech

1008

00:39:56,329 --> 00:39:54,060

and Consciousness

1009

00:39:59,270 --> 00:39:56,339

um yes the word I'm looking for is

1010

00:40:02,210 --> 00:39:59,280

slipping my mind right now

1011

00:40:05,890 --> 00:40:02,220

um you know well just like a melding of

1012

00:40:08,690 --> 00:40:05,900

the two you know yeah uh no yeah I I

1013

00:40:11,329 --> 00:40:08,700

can't think of the word right now but

1014

00:40:13,550 --> 00:40:11,339

yeah I love that you said that and and I

1015

00:40:15,190 --> 00:40:13,560

think that there's even been you know

1016

00:40:19,069 --> 00:40:15,200

um yesterday

1017

00:40:21,829 --> 00:40:19,079

Singularity oh there you go yes yes yeah

1018

00:40:23,630 --> 00:40:21,839

I I feel like they you know it's like

1019

00:40:26,210 --> 00:40:23,640

there is that Nexus that Singularity

1020

00:40:29,150 --> 00:40:26,220

right where they're they're and even if

1021

00:40:31,730 --> 00:40:29,160

you look at the the straight sort of

1022

00:40:32,750 --> 00:40:31,740

very innocuous boring honestly boring

1023

00:40:34,190 --> 00:40:32,760

sounding

1024

00:40:36,710 --> 00:40:34,200

um you know Advanced theoretical physics

1025

00:40:37,849 --> 00:40:36,720

you know papers that they're doing uh

1026

00:40:40,430 --> 00:40:37,859

you know if you look at Doctor how

1027

00:40:43,430 --> 00:40:40,440

put-offs work especially

1028

00:40:46,370 --> 00:40:43,440

um there is I mean and he has explicitly

1029

00:40:49,250 --> 00:40:46,380

stated that his goal is to find to marry

1030

00:40:50,870 --> 00:40:49,260

in a paper that he published to marry

1031

00:40:53,450 --> 00:40:50,880

physics and metaphysics that they are

1032

00:40:55,790 --> 00:40:53,460

that they arise at the same time

1033

00:40:57,470 --> 00:40:55,800

um and he draws a direct connection to

1034

00:41:00,109 --> 00:40:57,480

sort of The Perennial tradition

1035

00:41:02,810 --> 00:41:00,119

principles and

1036

00:41:05,390 --> 00:41:02,820

um you know what he's looking at uh when

1037

00:41:07,490 --> 00:41:05,400

it comes to Zero Point Energy

1038

00:41:09,470 --> 00:41:07,500

um you know p and

1039

00:41:11,930 --> 00:41:09,480

um you know there's a lot of overlap

1040

00:41:13,849 --> 00:41:11,940

there and and you know something that

1041

00:41:15,290 --> 00:41:13,859

really got me got my attention yesterday

1042

00:41:17,810 --> 00:41:15,300

and I know it got a lot of people's

1043

00:41:21,109 --> 00:41:17,820

attention was you know Danny Sheehan uh

1044

00:41:25,250 --> 00:41:21,119

was on with Jimmy church and he

1045

00:41:27,470 --> 00:41:25,260

um talked about uh that there was

1046

00:41:28,970 --> 00:41:27,480

uh you know they weren't able to from

1047

00:41:30,170 --> 00:41:28,980

what he understands or his belief is

1048

00:41:31,970 --> 00:41:30,180

that they're not able to to reverse

1049

00:41:36,170 --> 00:41:31,980

engineer these craps or really make any

1050

00:41:38,329 --> 00:41:36,180

any Headway uh because there's this sort

1051
00:41:41,810 --> 00:41:38,339
of Consciousness component that there's

1052
00:41:44,690 --> 00:41:41,820
Consciousness woven into the uh woven

1053
00:41:47,270 --> 00:41:44,700
into the tech and so they're not able to

1054
00:41:48,829 --> 00:41:47,280
figure that part out and you know

1055
00:41:52,550 --> 00:41:48,839
something something that we explored in

1056
00:41:54,890 --> 00:41:52,560
loose threads was uh you know that John

1057
00:41:57,410 --> 00:41:54,900
Burrroughs was told to start meditating

1058
00:42:00,109 --> 00:41:57,420
right so that he could

1059
00:42:02,210 --> 00:42:00,119
um you know possibly it seems to us that

1060
00:42:05,150 --> 00:42:02,220
they were preparing him to try and lure

1061
00:42:07,010 --> 00:42:05,160
in UFOs or or make better contact with

1062
00:42:08,870 --> 00:42:07,020
UFOs or possibly that could have some

1063
00:42:10,430 --> 00:42:08,880

connectivity to remote viewing or other

1064

00:42:13,609 --> 00:42:10,440

anomalous experiences that they were

1065

00:42:16,010 --> 00:42:13,619

trying to prepare him for and and

1066

00:42:17,329 --> 00:42:16,020

apparently it worked you know and and um

1067

00:42:18,890 --> 00:42:17,339

and we don't I don't think we can say

1068

00:42:20,870 --> 00:42:18,900

that for sure that was correlated with

1069

00:42:23,450 --> 00:42:20,880

his with his contemplative practices or

1070

00:42:25,010 --> 00:42:23,460

anything but uh um you know that's

1071

00:42:27,170 --> 00:42:25,020

something that there there's research

1072

00:42:29,569 --> 00:42:27,180

out out there that you know shows that

1073

00:42:31,609 --> 00:42:29,579

these sorts of these uh kind of Eastern

1074

00:42:34,970 --> 00:42:31,619

practices can change the topology of

1075

00:42:37,310 --> 00:42:34,980

someone's brain right and sure um and so

1076

00:42:39,890 --> 00:42:37,320

I always go to wonder go ahead I always

1077

00:42:42,470 --> 00:42:39,900

go to secret machines too the the yes

1078

00:42:45,109 --> 00:42:42,480

you know what that's how they fly the

1079

00:42:47,690 --> 00:42:45,119

[h__\h] with the Consciousness you know and

1080

00:42:50,329 --> 00:42:47,700

it makes sense too because um

1081

00:42:51,770 --> 00:42:50,339

you know if it if you're trying to build

1082

00:42:56,270 --> 00:42:51,780

the perfect

1083

00:42:58,490 --> 00:42:56,280

vehicle or whatever right like the only

1084

00:43:01,430 --> 00:42:58,500

way to make it perfect is to somehow

1085

00:43:03,950 --> 00:43:01,440

synchronize it with the human brain you

1086

00:43:06,490 --> 00:43:03,960

know instead of like you're using your

1087

00:43:08,690 --> 00:43:06,500

brain then to lift your arm right

1088

00:43:10,609 --> 00:43:08,700

you know you're using your brain to fly

1089

00:43:12,349 --> 00:43:10,619

the craft so you're not going from brain

1090

00:43:15,050 --> 00:43:12,359

arm to craft you're going straight from

1091

00:43:18,050 --> 00:43:15,060

brain to crap so so it's like things can

1092

00:43:19,550 --> 00:43:18,060

move it's a reflex for you know you know

1093

00:43:22,849 --> 00:43:19,560

it's it's another finger it's another

1094

00:43:24,950 --> 00:43:22,859

arm like and and it explains the way

1095

00:43:27,589 --> 00:43:24,960

that these things are reported as moving

1096

00:43:29,390 --> 00:43:27,599

you know like because Kraft can't do

1097

00:43:32,030 --> 00:43:29,400

that kind of stuff but if it was a

1098

00:43:34,190 --> 00:43:32,040

finger or an arm or something you can

1099

00:43:36,109 --> 00:43:34,200

make 90 degree turns you can do things

1100

00:43:37,970 --> 00:43:36,119

like that pretty easily you know so it's

1101
00:43:41,569 --> 00:43:37,980
kind of interesting and absolutely and

1102
00:43:43,130 --> 00:43:41,579
if you if you if you take a look at what

1103
00:43:44,809 --> 00:43:43,140
the technology does and the capabilities

1104
00:43:46,790 --> 00:43:44,819
like you're saying and you start to

1105
00:43:48,530 --> 00:43:46,800
compare those things to let's say

1106
00:43:49,730 --> 00:43:48,540
Quantum effects and I'm not going to go

1107
00:43:51,470 --> 00:43:49,740
too deep down that rabbit hole because

1108
00:43:52,490 --> 00:43:51,480
that's obviously not you know not my

1109
00:43:56,450 --> 00:43:52,500
business

1110
00:43:58,430 --> 00:43:56,460
um but uh you know there there are a lot

1111
00:44:00,650 --> 00:43:58,440
of things that arise from some of this

1112
00:44:03,829 --> 00:44:00,660
Quantum research and and quantum

1113
00:44:06,530 --> 00:44:03,839

mechanics and quantum physics that uh

1114

00:44:08,270 --> 00:44:06,540

might explain some of this you know odd

1115

00:44:10,609 --> 00:44:08,280

behavior you know like maybe it's not

1116

00:44:12,349 --> 00:44:10,619

really traveling a distance maybe if

1117

00:44:14,750 --> 00:44:12,359

everything is is if everything is

1118

00:44:17,809 --> 00:44:14,760

connected if there's really only no time

1119

00:44:19,910 --> 00:44:17,819

but now in no place but here it's very

1120

00:44:22,430 --> 00:44:19,920

mystical statement it's also apparently

1121

00:44:24,770 --> 00:44:22,440

a very scientific scientific typically

1122

00:44:26,089 --> 00:44:24,780

accurate statement um within if we're

1123

00:44:29,030 --> 00:44:26,099

talking about

1124

00:44:32,270 --> 00:44:29,040

um the foundational level of reality

1125

00:44:34,730 --> 00:44:32,280

right uh that that ultimately the

1126

00:44:36,650 --> 00:44:34,740

reality we are quantum and reality

1127

00:44:38,870 --> 00:44:36,660

everything around us you know we've kind

1128

00:44:40,550 --> 00:44:38,880

of got this this two sets of rules we've

1129

00:44:43,069 --> 00:44:40,560

got kind of like macrophysics and then

1130

00:44:46,190 --> 00:44:43,079

you've got like in the quantum realm

1131

00:44:49,790 --> 00:44:46,200

right and but it's unclear sort of where

1132

00:44:51,530 --> 00:44:49,800

that crossover you know happens and you

1133

00:44:53,089 --> 00:44:51,540

know if it's possible that you know

1134

00:44:54,829 --> 00:44:53,099

someone has been able to you know some

1135

00:44:56,809 --> 00:44:54,839

civilization or some group has been able

1136

00:44:59,270 --> 00:44:56,819

to figure out how to

1137

00:45:00,589 --> 00:44:59,280

um get those Quantum effects at a macro

1138

00:45:03,109 --> 00:45:00,599

level

1139

00:45:04,970 --> 00:45:03,119

um and and you know Consciousness would

1140

00:45:07,490 --> 00:45:04,980

be key right because it's all about the

1141

00:45:09,349 --> 00:45:07,500

Observer and you know

1142

00:45:11,210 --> 00:45:09,359

um you know if you're able to especially

1143

00:45:13,609 --> 00:45:11,220

I I've been reading actually believe it

1144

00:45:15,230 --> 00:45:13,619

or not Dr calm Kelleher

1145

00:45:16,490 --> 00:45:15,240

um recommended a book

1146

00:45:18,349 --> 00:45:16,500

um and you know he's in loose threads

1147

00:45:20,089 --> 00:45:18,359

and obviously he's a he's a right in the

1148

00:45:22,309 --> 00:45:20,099

middle of all this research and he

1149

00:45:23,690 --> 00:45:22,319

recommended the work of uh

1150

00:45:25,970 --> 00:45:23,700

um I don't remember his first name but

1151
00:45:27,829 --> 00:45:25,980
Dr Lanza and and so I've been reading

1152
00:45:30,470 --> 00:45:27,839
some of his work on biocentrism and he

1153
00:45:32,390 --> 00:45:30,480
he tries to explain some of these things

1154
00:45:34,309 --> 00:45:32,400
um without without all of the the

1155
00:45:38,630 --> 00:45:34,319
Troublesome math and it's just really

1156
00:45:41,030 --> 00:45:38,640
it's mind melting and um and it just got

1157
00:45:43,550 --> 00:45:41,040
me to thinking when Sheehan circling

1158
00:45:44,230 --> 00:45:43,560
back to what started this long Rabbit

1159
00:45:47,150 --> 00:45:44,240
Trail

1160
00:45:49,930 --> 00:45:47,160
when he said that I thought man that's

1161
00:45:53,510 --> 00:45:49,940
really ironic if that's true uh because

1162
00:45:56,150 --> 00:45:53,520
what if the case is that in order to

1163
00:45:59,450 --> 00:45:56,160

Pilot this advanced technology or to be

1164

00:46:02,690 --> 00:45:59,460

able to figure it out you have to change

1165

00:46:04,970 --> 00:46:02,700

your brain topology using meditative

1166

00:46:06,710 --> 00:46:04,980

practices contemplative practices you

1167

00:46:09,349 --> 00:46:06,720

you're that you have to basically grow

1168

00:46:11,150 --> 00:46:09,359

in Consciousness before you can actually

1169

00:46:13,609 --> 00:46:11,160

pilot the crap

1170

00:46:16,250 --> 00:46:13,619

um if that's the case that is

1171

00:46:17,809 --> 00:46:16,260

absolutely brilliant if there was a if

1172

00:46:19,550 --> 00:46:17,819

there was a civilization that wanted us

1173

00:46:21,050 --> 00:46:19,560

to grow as a species to say hey here's

1174

00:46:23,870 --> 00:46:21,060

this thing that you want to use to kill

1175

00:46:25,010 --> 00:46:23,880

people but here's the trick you by the

1176

00:46:27,230 --> 00:46:25,020

time you figure it out and you're

1177

00:46:29,510 --> 00:46:27,240

actually able to use it your ego will be

1178

00:46:31,550 --> 00:46:29,520

like completely non-existent and you'll

1179

00:46:33,670 --> 00:46:31,560

you know be walking around like from Das

1180

00:46:35,870 --> 00:46:33,680

you know yeah

1181

00:46:37,849 --> 00:46:35,880

well that's the thing like you wouldn't

1182

00:46:39,950 --> 00:46:37,859

be able to use it until you're mature

1183

00:46:42,530 --> 00:46:39,960

enough right yeah right absolutely and

1184

00:46:44,569 --> 00:46:42,540

so this is where that that Nexus kind of

1185

00:46:47,450 --> 00:46:44,579

comes into it and it's so

1186

00:46:49,730 --> 00:46:47,460

it's it's just wild because you know you

1187

00:46:52,790 --> 00:46:49,740

you see someone like you know John

1188

00:46:55,790 --> 00:46:52,800

Alexander he's looking at

1189

00:46:57,950 --> 00:46:55,800

um you know uh non-lethal weaponry and

1190

00:47:00,230 --> 00:46:57,960

directive energy and and he's a very

1191

00:47:01,730 --> 00:47:00,240

controversial character you know and but

1192

00:47:04,190 --> 00:47:01,740

at the same time he's also very

1193

00:47:05,809 --> 00:47:04,200

interested in near-death experiences he

1194

00:47:08,150 --> 00:47:05,819

might be more interested in near-death

1195

00:47:10,970 --> 00:47:08,160

experiences than he is UFOs

1196

00:47:13,550 --> 00:47:10,980

um and in fact one I I even think

1197

00:47:15,470 --> 00:47:13,560

um one of the uh

1198

00:47:19,550 --> 00:47:15,480

one of the interviews that we cited was

1199

00:47:22,910 --> 00:47:19,560

between him and and Bob McGuire on um I

1200

00:47:24,230 --> 00:47:22,920

think it was on Sor and in during one of

1201

00:47:26,210 --> 00:47:24,240

the commercial breaks he wanted to turn

1202

00:47:28,250 --> 00:47:26,220

around and ask Bob McGuire some

1203

00:47:29,510 --> 00:47:28,260

questions about his nde

1204

00:47:31,370 --> 00:47:29,520

um and that believe it or not caught our

1205

00:47:33,589 --> 00:47:31,380

eye because we did he ask him about his

1206

00:47:36,230 --> 00:47:33,599

NDA no it wasn't his NBA he wants to

1207

00:47:38,270 --> 00:47:36,240

talk about mbes and

1208

00:47:39,410 --> 00:47:38,280

um and and that's what really brought

1209

00:47:42,230 --> 00:47:39,420

him

1210

00:47:44,390 --> 00:47:42,240

to the attention of

1211

00:47:45,710 --> 00:47:44,400

um Bob Bigelow because Bob Bigelow

1212

00:47:47,510 --> 00:47:45,720

showed up at a conference where he's

1213

00:47:48,890 --> 00:47:47,520

doing a presentation on the the

1214

00:47:52,430 --> 00:47:48,900

connections between near-death

1215

00:47:55,010 --> 00:47:52,440

experiences and UFO experiences and

1216

00:47:57,770 --> 00:47:55,020

um and and they meet and start chatting

1217

00:48:00,050 --> 00:47:57,780

and you know that's those are Bob

1218

00:48:01,849 --> 00:48:00,060

Bigelow's two big things he wants to

1219

00:48:04,309 --> 00:48:01,859

know about the UFO mystery and he wants

1220

00:48:06,890 --> 00:48:04,319

to know about afterlife experiences and

1221

00:48:08,569 --> 00:48:06,900

so that's what eventually led to nid's

1222

00:48:10,609 --> 00:48:08,579

um the first thing I I just found this

1223

00:48:12,050 --> 00:48:10,619

out today because I guess I'm still you

1224

00:48:13,069 --> 00:48:12,060

know pulling on loose threads here and

1225

00:48:15,890 --> 00:48:13,079

there

1226
00:48:18,170 --> 00:48:15,900
um gotta have a version yeah part two

1227
00:48:23,410 --> 00:48:18,180
yeah even even looser threads

1228
00:48:25,670 --> 00:48:23,420
[Laughter]

1229
00:48:27,589 --> 00:48:25,680
your threads return of loose threads

1230
00:48:29,690 --> 00:48:27,599
that's right

1231
00:48:31,849 --> 00:48:29,700
um Bob the first thing that Bob Bigelow

1232
00:48:35,569 --> 00:48:31,859
funds after meeting with John Alexander

1233
00:48:37,550 --> 00:48:35,579
is the research of Dr Ferris Williams

1234
00:48:40,370 --> 00:48:37,560
um and that was just you know straight

1235
00:48:41,690 --> 00:48:40,380
Advanced theoretical physics uh I don't

1236
00:48:44,089 --> 00:48:41,700
think that that turned that term was

1237
00:48:46,430 --> 00:48:44,099
obviously used you know for foia Ops

1238
00:48:48,170 --> 00:48:46,440

vacation as John Alexander has admitted

1239

00:48:50,690 --> 00:48:48,180

um but I also think it was accurate you

1240

00:48:53,150 --> 00:48:50,700

know like they a lot of this stuff I

1241

00:48:56,569 --> 00:48:53,160

think where that Nexus where you kind of

1242

00:48:57,829 --> 00:48:56,579

have the the you know the science and

1243

00:49:00,230 --> 00:48:57,839

you have

1244

00:49:01,849 --> 00:49:00,240

um or I'm thinking kind of like Spiral

1245

00:49:03,410 --> 00:49:01,859

Dynamics or Ken Wilbur like your left

1246

00:49:04,730 --> 00:49:03,420

hand and your right hand things where

1247

00:49:07,069 --> 00:49:04,740

those things meet

1248

00:49:08,750 --> 00:49:07,079

seems to be

1249

00:49:10,670 --> 00:49:08,760

um if you're coming from from the

1250

00:49:13,069 --> 00:49:10,680

science angle with very Advanced

1251
00:49:15,349 --> 00:49:13,079
theoretical physics and and so and I

1252
00:49:17,930 --> 00:49:15,359
think that Dr Ferris Williams work

1253
00:49:20,630 --> 00:49:17,940
um which we got tied up in because Oh

1254
00:49:23,450 --> 00:49:20,640
Shannon talked about him

1255
00:49:27,410 --> 00:49:23,460
um during his interview and it turns out

1256
00:49:28,730 --> 00:49:27,420
that he was the principal one of the

1257
00:49:30,050 --> 00:49:28,740
principal investigators and the

1258
00:49:30,710 --> 00:49:30,060
principal

1259
00:49:33,430 --> 00:49:30,720
um

1260
00:49:36,770 --> 00:49:33,440
Consultants with

1261
00:49:39,050 --> 00:49:36,780
sisaic electric propulsion you know

1262
00:49:41,390 --> 00:49:39,060
study and the one that you know if you

1263
00:49:42,650 --> 00:49:41,400

if that's a pretty uh most people know

1264

00:49:44,150 --> 00:49:42,660

about that most people like hardcore

1265

00:49:47,510 --> 00:49:44,160

will know about that study in connection

1266

00:49:49,010 --> 00:49:47,520

with with saic and UFOs

1267

00:49:50,569 --> 00:49:49,020

um and so you know and then in Oaks

1268

00:49:53,450 --> 00:49:50,579

notes you have them saying can we meet

1269

00:49:55,609 --> 00:49:53,460

Dr Ferris Williams and then you also now

1270

00:49:58,490 --> 00:49:55,619

have you know John Alexander the first

1271

00:50:00,349 --> 00:49:58,500

thing that happens when he meets with um

1272

00:50:02,329 --> 00:50:00,359

with Bob Bigelow he says hey you should

1273

00:50:04,849 --> 00:50:02,339

you should uh meet my friend Willie over

1274

00:50:07,609 --> 00:50:04,859

here and help him fund his his research

1275

00:50:09,650 --> 00:50:07,619

and um you know and they obviously had

1276
00:50:11,089 --> 00:50:09,660
met after John Alexander went to go work

1277
00:50:14,150 --> 00:50:11,099
Atlanta

1278
00:50:16,849 --> 00:50:14,160
um and and so and then and also started

1279
00:50:20,450 --> 00:50:16,859
to kind of realize during

1280
00:50:21,829 --> 00:50:20,460
um Oak Shannon's interview with Jay he

1281
00:50:24,230 --> 00:50:21,839
actually mentions that while he was

1282
00:50:26,990 --> 00:50:24,240
working at Lionel that there were people

1283
00:50:29,210 --> 00:50:27,000
that he had come into contact with

1284
00:50:31,790 --> 00:50:29,220
um that had interest in UFOs that he and

1285
00:50:33,849 --> 00:50:31,800
Dr Williams had met people there and

1286
00:50:36,770 --> 00:50:33,859
that that they were sort of looking over

1287
00:50:38,450 --> 00:50:36,780
their shoulder and of course he caveats

1288
00:50:40,130 --> 00:50:38,460

it and says well you know I wasn't

1289

00:50:41,809 --> 00:50:40,140

really that interested in it you know I

1290

00:50:45,230 --> 00:50:41,819

mean I kind of I kind of looked at it I

1291

00:50:47,510 --> 00:50:45,240

had a a file full of reports but I

1292

00:50:49,849 --> 00:50:47,520

wasn't that interested in it which is

1293

00:50:51,829 --> 00:50:49,859

sort of obviously if you have a file

1294

00:50:53,630 --> 00:50:51,839

full of citing reports I don't I don't

1295

00:50:55,430 --> 00:50:53,640

personally have a file full of citing

1296

00:50:57,829 --> 00:50:55,440

reports you're not and you are into it

1297

00:50:59,510 --> 00:50:57,839

right if you're into it and I think

1298

00:51:01,730 --> 00:50:59,520

that's a that's another theme that I

1299

00:51:02,690 --> 00:51:01,740

hope people will see in loose threads is

1300

00:51:05,329 --> 00:51:02,700

almost

1301
00:51:07,309 --> 00:51:05,339
every single time someone at this level

1302
00:51:08,990 --> 00:51:07,319
says well you know I just kind of have a

1303
00:51:10,970 --> 00:51:09,000
casual interest it's just something I'm

1304
00:51:13,750 --> 00:51:10,980
sort of interested in

1305
00:51:16,609 --> 00:51:13,760
um that's almost never true

1306
00:51:19,790 --> 00:51:16,619
could you imagine like having our our

1307
00:51:23,450 --> 00:51:19,800
level of Interest like us three but also

1308
00:51:26,270 --> 00:51:23,460
being like you know as as smart and as

1309
00:51:28,250 --> 00:51:26,280
well educated as them and and the kind

1310
00:51:30,650 --> 00:51:28,260
of rabbit holes we would find ourselves

1311
00:51:34,069 --> 00:51:30,660
in with that added knowledge of of

1312
00:51:36,890 --> 00:51:34,079
physics and all that like yeah you would

1313
00:51:39,470 --> 00:51:36,900

no one would ever see me I'd be in a lab

1314

00:51:41,390 --> 00:51:39,480

like constantly yeah I'm trying to

1315

00:51:42,710 --> 00:51:41,400

figure this out yeah

1316

00:51:44,210 --> 00:51:42,720

yeah and that's what and that's what

1317

00:51:45,950 --> 00:51:44,220

happens right we hear about these

1318

00:51:47,750 --> 00:51:45,960

stories all the time they were like oh

1319

00:51:49,250 --> 00:51:47,760

they got hired into one of those

1320

00:51:51,950 --> 00:51:49,260

National Labs and we never saw them

1321

00:51:53,329 --> 00:51:51,960

again and you and people assume it's

1322

00:51:54,829 --> 00:51:53,339

because they're being like you know

1323

00:51:57,890 --> 00:51:54,839

people think that people are being held

1324

00:51:59,390 --> 00:51:57,900

against their will you know 900 feet you

1325

00:52:01,670 --> 00:51:59,400

know below sea level or something like

1326

00:52:03,589 --> 00:52:01,680

that when the reality is you know in

1327

00:52:05,750 --> 00:52:03,599

many cases it's probably closer to what

1328

00:52:08,450 --> 00:52:05,760

you guys were just imagineering you know

1329

00:52:10,010 --> 00:52:08,460

what I mean that yeah I mean I this this

1330

00:52:11,750 --> 00:52:10,020

will be controversial but I think if

1331

00:52:13,190 --> 00:52:11,760

someone said hey you can come in and

1332

00:52:15,290 --> 00:52:13,200

work on this and you know we'll pay you

1333

00:52:17,089 --> 00:52:15,300

well you'll be taken care of but you can

1334

00:52:19,730 --> 00:52:17,099

never you can never share anything about

1335

00:52:21,530 --> 00:52:19,740

this I probably would say yes I'd

1336

00:52:23,390 --> 00:52:21,540

probably be like yeah yeah I'll come in

1337

00:52:24,710 --> 00:52:23,400

I mean I I want transparency and I want

1338

00:52:27,950 --> 00:52:24,720

all those things but I also kind of want

1339

00:52:30,049 --> 00:52:27,960

to know uh my ego is is is still intact

1340

00:52:31,910 --> 00:52:30,059

enough for that and so I can empathize

1341

00:52:33,950 --> 00:52:31,920

with it I can empathize

1342

00:52:35,270 --> 00:52:33,960

um I feel like these these you know

1343

00:52:36,829 --> 00:52:35,280

characters

1344

00:52:38,510 --> 00:52:36,839

um they are larger than life but at the

1345

00:52:41,150 --> 00:52:38,520

same time they are in some ways just

1346

00:52:43,549 --> 00:52:41,160

like us you know they are I mean maybe

1347

00:52:45,470 --> 00:52:43,559

not in nature you know human nature you

1348

00:52:47,210 --> 00:52:45,480

want the you can have the secret of the

1349

00:52:50,089 --> 00:52:47,220

universe you just can't tell anyone else

1350

00:52:53,750 --> 00:52:50,099

yeah what would you say well no I don't

1351
00:52:55,270 --> 00:52:53,760
want it then yeah no okay fine that's

1352
00:52:58,670 --> 00:52:55,280
how it has to be

1353
00:53:00,770 --> 00:52:58,680
you know it's funny it's funny you

1354
00:53:02,390 --> 00:53:00,780
mentioned that about Los Alamos National

1355
00:53:04,670 --> 00:53:02,400
Labs because

1356
00:53:07,370 --> 00:53:04,680
um you know the the history of sightings

1357
00:53:09,589 --> 00:53:07,380
there go go back to almost the beginning

1358
00:53:12,230 --> 00:53:09,599
with the with the green Fireballs man

1359
00:53:16,490 --> 00:53:12,240
like there are so many Los Alamos UFO

1360
00:53:18,230 --> 00:53:16,500
reports dating back to 4849 it's

1361
00:53:21,950 --> 00:53:18,240
unbelievable to the point of where they

1362
00:53:23,450 --> 00:53:21,960
had their their own reports that you

1363
00:53:26,990 --> 00:53:23,460

know that they were taking themselves to

1364

00:53:30,890 --> 00:53:27,000

security uh guards for that area would

1365

00:53:33,290 --> 00:53:30,900

take the reports themselves so there's a

1366

00:53:35,569 --> 00:53:33,300

lot of UFO history baked into that

1367

00:53:38,270 --> 00:53:35,579

particular lab too so it's interesting

1368

00:53:40,430 --> 00:53:38,280

well you know John Alexander said you

1369

00:53:41,990 --> 00:53:40,440

know obviously he he says that Roswell

1370

00:53:43,910 --> 00:53:42,000

didn't happen and you you know none of

1371

00:53:46,670 --> 00:53:43,920

this happened but that if it did happen

1372

00:53:48,410 --> 00:53:46,680

it would go to Los Alamos right it

1373

00:53:51,170 --> 00:53:48,420

didn't happen and it wouldn't happen but

1374

00:53:53,930 --> 00:53:51,180

if it did I'm telling you it would go to

1375

00:53:55,549 --> 00:53:53,940

Los Alamos and yeah and um which has

1376
00:53:58,730 --> 00:53:55,559
always been very interesting to me you

1377
00:54:00,109 --> 00:53:58,740
know he worked at Los Alamos and so

1378
00:54:02,210 --> 00:54:00,119
um you know he's making those comments

1379
00:54:03,829 --> 00:54:02,220
fairly you know recently that making

1380
00:54:05,569 --> 00:54:03,839
those connections

1381
00:54:07,430 --> 00:54:05,579
um so yeah and then obviously we have

1382
00:54:09,530 --> 00:54:07,440
still to this day

1383
00:54:11,809 --> 00:54:09,540
um or not to this day but more recently

1384
00:54:13,430 --> 00:54:11,819
we have you know doe apparent doe

1385
00:54:16,250 --> 00:54:13,440
involvement in that

1386
00:54:18,349 --> 00:54:16,260
um Peru 97 case

1387
00:54:19,970 --> 00:54:18,359
um with uh Lance Corporal Jonathan

1388
00:54:22,430 --> 00:54:19,980

wagant that we that we featured along

1389

00:54:23,270 --> 00:54:22,440

with uh alongside the Virginia or jinha

1390

00:54:24,530 --> 00:54:23,280

case

1391

00:54:26,870 --> 00:54:24,540

um just because of those similarities

1392

00:54:30,170 --> 00:54:26,880

were so interesting

1393

00:54:34,069 --> 00:54:30,180

um in terms of the time frame and the um

1394

00:54:35,750 --> 00:54:34,079

location and and then also uh the you

1395

00:54:38,930 --> 00:54:35,760

know United States kind of swooping in

1396

00:54:41,030 --> 00:54:38,940

and and collecting that collecting that

1397

00:54:44,030 --> 00:54:41,040

stuff and I'm sure you're aware of this

1398

00:54:46,910 --> 00:54:44,040

but uh Gary Nolan is his interview with

1399

00:54:50,870 --> 00:54:46,920

Gary Tucker showed a slide of brain

1400

00:54:53,690 --> 00:54:50,880

scans on the show and on that slide it

1401

00:54:54,410 --> 00:54:53,700

said doe Advanced propulsion wow that's

1402

00:54:56,569 --> 00:54:54,420

right

1403

00:54:59,809 --> 00:54:56,579

yeah wow yeah I remember I remember yeah

1404

00:55:04,430 --> 00:54:59,819

I shared that on my Twitter why you know

1405

00:55:10,309 --> 00:55:07,309

um between you and everybody uh I'm

1406

00:55:13,329 --> 00:55:10,319

pretty sure it was Yeah Yeah well yeah

1407

00:55:17,030 --> 00:55:13,339

I'm wondering I speaking of uh Virginia

1408

00:55:20,510 --> 00:55:17,040

somebody on Saturday uh at our

1409

00:55:22,250 --> 00:55:20,520

conference in in New York uh somebody is

1410

00:55:24,349 --> 00:55:22,260

going to be sharing an interesting

1411

00:55:25,790 --> 00:55:24,359

update about that case and I can tell

1412

00:55:27,589 --> 00:55:25,800

you who it is and I'm not going to tell

1413

00:55:29,150 --> 00:55:27,599

you what it is because I don't know all

1414

00:55:31,609 --> 00:55:29,160

the full details but I'm really excited

1415

00:55:33,530 --> 00:55:31,619

about it wow along those lines though

1416

00:55:37,309 --> 00:55:33,540

you know you were just mentioning John

1417

00:55:40,549 --> 00:55:37,319

Alexander and you know him saying

1418

00:55:42,890 --> 00:55:40,559

he you know he's he reiterated this as

1419

00:55:44,630 --> 00:55:42,900

recently as the SCU conference that

1420

00:55:46,849 --> 00:55:44,640

happened in what was that early June or

1421

00:55:57,349 --> 00:55:46,859

something like that and so he was he was

1422

00:56:00,589 --> 00:55:59,390

you keep wanting to break up enthusiasts

1423

00:56:02,210 --> 00:56:00,599

but they actually

1424

00:56:03,349 --> 00:56:02,220

I don't want to break up with you I

1425

00:56:05,990 --> 00:56:03,359

never want to break up with you on my

1426
00:56:07,190 --> 00:56:06,000
back yeah I'm back okay yeah repeat that

1427
00:56:09,710 --> 00:56:07,200
question

1428
00:56:12,049 --> 00:56:09,720
okay so so John Alexander he's you know

1429
00:56:14,690 --> 00:56:12,059
he's down there at Su in June and he's

1430
00:56:16,250 --> 00:56:14,700
around you know some ufology enthusiasts

1431
00:56:18,349 --> 00:56:16,260
and people that follow an animal studies

1432
00:56:21,349 --> 00:56:18,359
and a bunch of Defense contractors right

1433
00:56:23,329 --> 00:56:21,359
and uh retired or active

1434
00:56:25,910 --> 00:56:23,339
and he said he goes up and he says that

1435
00:56:28,069 --> 00:56:25,920
Roswell didn't happen and you know and

1436
00:56:29,569 --> 00:56:28,079
he also says that like Eric Davis you

1437
00:56:31,309 --> 00:56:29,579
know wrote the notes you should ask him

1438
00:56:32,870 --> 00:56:31,319

he's right there

1439

00:56:36,470 --> 00:56:32,880

um you know he does this whole routine

1440

00:56:38,809 --> 00:56:36,480

and it's it's funny to me because like

1441

00:56:41,690 --> 00:56:38,819

this it's exactly the kind of like

1442

00:56:44,510 --> 00:56:41,700

annoying thing that we get used to

1443

00:56:46,250 --> 00:56:44,520

within this field is is that these guys

1444

00:56:48,530 --> 00:56:46,260

perform for each other sometimes and

1445

00:56:50,390 --> 00:56:48,540

it's like it's like he was doing like a

1446

00:56:52,790 --> 00:56:50,400

child like it's like he was a children's

1447

00:56:54,770 --> 00:56:52,800

magician or something like that right

1448

00:56:56,510 --> 00:56:54,780

and instead of pulling a rabbit out of a

1449

00:56:59,089 --> 00:56:56,520

hat he's gonna lie to you completely

1450

00:57:01,010 --> 00:56:59,099

bald-faced you know without even like an

1451
00:57:02,930 --> 00:57:01,020
eyebrow twitching or anything like that

1452
00:57:05,150 --> 00:57:02,940
yeah that that's his version of like

1453
00:57:08,329 --> 00:57:05,160
ta-da I did it look I lied for all of

1454
00:57:10,010 --> 00:57:08,339
you yet again yeah you know that Roswell

1455
00:57:12,109 --> 00:57:10,020
didn't have and that and that he's

1456
00:57:15,710 --> 00:57:12,119
saying that like in Huntsville

1457
00:57:17,210 --> 00:57:15,720
where we know where we know through

1458
00:57:19,370 --> 00:57:17,220
places like Aerospace Corporation

1459
00:57:20,930 --> 00:57:19,380
through Northrop they like it's the high

1460
00:57:22,430 --> 00:57:20,940
one of the highest concentrations of

1461
00:57:23,829 --> 00:57:22,440
Defense contractors that are

1462
00:57:26,270 --> 00:57:23,839
specifically interested in

1463
00:57:27,770 --> 00:57:26,280

electrography and anti-gravidics yeah

1464

00:57:29,150 --> 00:57:27,780

that he's going to say that that didn't

1465

00:57:31,549 --> 00:57:29,160

happen you know what I mean like there's

1466

00:57:34,849 --> 00:57:31,559

there's something about that that is

1467

00:57:36,950 --> 00:57:34,859

it's almost like it's almost like its

1468

00:57:39,109 --> 00:57:36,960

own it's a it's its own kink like it's

1469

00:57:41,150 --> 00:57:39,119

its own perversion is to be able to talk

1470

00:57:44,569 --> 00:57:41,160

like that in a situation such as that

1471

00:57:50,750 --> 00:57:47,870

you know uh Colonel Alexander is a very

1472

00:57:53,329 --> 00:57:50,760

uh he's he's a very complicated

1473

00:57:56,030 --> 00:57:53,339

character and I I'll be honest with you

1474

00:57:58,069 --> 00:57:56,040

I I don't know I don't know what to make

1475

00:57:59,390 --> 00:57:58,079

of him and I think that maybe I think he

1476

00:58:00,890 --> 00:57:59,400

kind of likes that to some extent I

1477

00:58:03,109 --> 00:58:00,900

think he's sure just you know how we

1478

00:58:04,670 --> 00:58:03,119

talked about uh being contrarians or

1479

00:58:06,650 --> 00:58:04,680

maybe I talked about that

1480

00:58:09,650 --> 00:58:06,660

um earlier I think that that they're

1481

00:58:11,329 --> 00:58:09,660

contrarians too and so how do you be a

1482

00:58:13,370 --> 00:58:11,339

contrarian in a room full of contrarians

1483

00:58:14,930 --> 00:58:13,380

well you you go you do the opposite of

1484

00:58:16,549 --> 00:58:14,940

whatever it is that that you know

1485

00:58:18,470 --> 00:58:16,559

whatever if they all Zig you're going to

1486

00:58:20,630 --> 00:58:18,480

Zack that's what you do

1487

00:58:23,510 --> 00:58:20,640

um and so I do think there could be that

1488

00:58:25,790 --> 00:58:23,520

aspect to it and you know I will

1489

00:58:28,130 --> 00:58:25,800

I will um

1490

00:58:29,690 --> 00:58:28,140

you know to some extent leave the

1491

00:58:31,490 --> 00:58:29,700

possibility open that maybe he actually

1492

00:58:33,349 --> 00:58:31,500

believes it maybe he actually believes

1493

00:58:35,089 --> 00:58:33,359

that stuff he's got this idea that if

1494

00:58:36,650 --> 00:58:35,099

that happens if all of this stuff

1495

00:58:38,750 --> 00:58:36,660

happened I I would have known about it

1496

00:58:40,849 --> 00:58:38,760

and that's you hear that quite often

1497

00:58:41,930 --> 00:58:40,859

with people at at high levels if this is

1498

00:58:43,309 --> 00:58:41,940

the case then I would have known about

1499

00:58:46,370 --> 00:58:43,319

it Chris melon used to say the same

1500

00:58:49,069 --> 00:58:46,380

thing and he switched um notably

1501

00:58:51,430 --> 00:58:49,079

um that's true and and so uh

1502

00:58:53,990 --> 00:58:51,440

you know I think I think to some extent

1503

00:58:55,970 --> 00:58:54,000

uh that that could be the case also

1504

00:58:57,710 --> 00:58:55,980

maybe it's the case that he got in you

1505

00:58:59,450 --> 00:58:57,720

know that that maybe he maybe he's

1506

00:59:01,190 --> 00:58:59,460

involved in a program

1507

00:59:03,530 --> 00:59:01,200

um you know or multiple programs or has

1508

00:59:05,569 --> 00:59:03,540

been and that's just part of you know

1509

00:59:07,069 --> 00:59:05,579

part of the deal you you're working on

1510

00:59:08,450 --> 00:59:07,079

this program you have to play ball you

1511

00:59:10,190 --> 00:59:08,460

have to say what we tell you to say and

1512

00:59:11,870 --> 00:59:10,200

if he does if he has to do that then

1513

00:59:14,230 --> 00:59:11,880

that's what he has to do I mean sign

1514

00:59:17,210 --> 00:59:14,240

contracts you sign ndas

1515

00:59:20,089 --> 00:59:17,220

you have to lie sometimes it's really

1516

00:59:22,130 --> 00:59:20,099

clear uh reading loose threads that uh

1517

00:59:25,789 --> 00:59:22,140

all of these people know a whole lot

1518

00:59:28,430 --> 00:59:25,799

more yes about this than is public yeah

1519

00:59:30,650 --> 00:59:28,440

precisely yes and you know I've been

1520

00:59:33,530 --> 00:59:30,660

told before by

1521

00:59:37,609 --> 00:59:33,540

somebody who you know I respect their

1522

00:59:39,349 --> 00:59:37,619

opinion that and that they are the mj-12

1523

00:59:42,710 --> 00:59:39,359

that they are the kind of the control

1524

00:59:45,530 --> 00:59:42,720

system around this so you never know I

1525

00:59:47,450 --> 00:59:45,540

mean if like I told Jay last week

1526

00:59:49,609 --> 00:59:47,460

um if there's Congressional hearings I

1527

00:59:52,490 --> 00:59:49,619

now know who I want to testify because

1528

00:59:56,089 --> 00:59:54,170

I would like to see each and every one

1529

00:59:58,670 --> 00:59:56,099

of those people in there John Alexander

1530

01:00:01,190 --> 00:59:58,680

Bob Bilbo Jacques valet helped boot off

1531

01:00:03,829 --> 01:00:01,200

Eric Davis like why would we not bring

1532

01:00:05,930 --> 01:00:03,839

them up there I understand that uh you

1533

01:00:08,270 --> 01:00:05,940

know pilots and sightings are are great

1534

01:00:10,789 --> 01:00:08,280

right but if these people have been

1535

01:00:12,289 --> 01:00:10,799

studying it for decades some of which

1536

01:00:14,990 --> 01:00:12,299

has been done with with Government

1537

01:00:15,609 --> 01:00:15,000

funding like why aren't these people

1538

01:00:18,770 --> 01:00:15,619

um

1539

01:00:20,690 --> 01:00:18,780

testifying yeah here's that picture I

1540

01:00:23,710 --> 01:00:20,700

was telling you about wow oh nice I took

1541

01:00:25,849 --> 01:00:23,720

a screenshot of it yeah there it is yeah

1542

01:00:27,289 --> 01:00:25,859

I think I might have to grab that one

1543

01:00:30,530 --> 01:00:27,299

from you man that's that's pretty great

1544

01:00:33,730 --> 01:00:30,540

all right yeah that doesn't seem right

1545

01:00:39,470 --> 01:00:37,069

I think one of the things that we that

1546

01:00:40,309 --> 01:00:39,480

we really tried to do was examine not

1547

01:00:41,930 --> 01:00:40,319

just

1548

01:00:43,789 --> 01:00:41,940

um them individually but their

1549

01:00:45,770 --> 01:00:43,799

interpersonal relationships you know try

1550

01:00:47,390 --> 01:00:45,780

to get down to the sociology of the of

1551

01:00:49,910 --> 01:00:47,400

the onion if you will

1552

01:00:53,210 --> 01:00:49,920

um a sort of this multi-layered

1553

01:00:54,470 --> 01:00:53,220

um collaboration you know uh across you

1554

01:00:55,970 --> 01:00:54,480

know different institutions it's not

1555

01:00:56,930 --> 01:00:55,980

even just with uh you know with the

1556

01:00:58,789 --> 01:00:56,940

advanced theoretical physics working

1557

01:01:01,849 --> 01:00:58,799

group you know the core group they were

1558

01:01:04,730 --> 01:01:01,859

intact back in the 70s at SRI you know

1559

01:01:07,730 --> 01:01:04,740

uh yeah and I found I found a document

1560

01:01:11,870 --> 01:01:07,740

in the cia's foyer reading room for Sri

1561

01:01:14,809 --> 01:01:11,880

I think it was like 1973 where they're

1562

01:01:16,250 --> 01:01:14,819

um uh proposing to the CIA if they have

1563

01:01:19,849 --> 01:01:16,260

an interest

1564

01:01:21,049 --> 01:01:19,859

um if they were to study UFOs yeah wow

1565

01:01:24,230 --> 01:01:21,059

that's pretty interesting because you

1566

01:01:26,030 --> 01:01:24,240

don't see UFOs actually connected sorry

1567

01:01:28,010 --> 01:01:26,040

other than you know

1568

01:01:29,690 --> 01:01:28,020

maybe through a remote viewing session

1569

01:01:31,190 --> 01:01:29,700

or something but this is explicit where

1570

01:01:33,170 --> 01:01:31,200

they're where they're asking about it so

1571

01:01:34,970 --> 01:01:33,180

that's interesting you know Jacques

1572

01:01:37,370 --> 01:01:34,980

ballet was

1573

01:01:39,109 --> 01:01:37,380

um was a consultant there uh you know

1574

01:01:40,609 --> 01:01:39,119

and he was looking at that UFO

1575

01:01:42,890 --> 01:01:40,619

connection that the connection between

1576

01:01:44,510 --> 01:01:42,900

their remote viewers and

1577

01:01:47,089 --> 01:01:44,520

um UFO experience

1578

01:01:48,049 --> 01:01:47,099

uh experiences he was brought in as a

1579

01:01:49,670 --> 01:01:48,059

consultant

1580

01:01:52,010 --> 01:01:49,680

um and at the same time he was working

1581

01:01:53,569 --> 01:01:52,020

at DARPA you know um and so I think

1582

01:01:56,890 --> 01:01:53,579

that's something that that keeps coming

1583

01:01:59,030 --> 01:01:56,900

up and uh you know as as latest

1584

01:02:02,329 --> 01:01:59,040

you know there seems they're still

1585

01:02:03,349 --> 01:02:02,339

involved so you you just mentioned DARPA

1586

01:02:05,630 --> 01:02:03,359

so

1587

01:02:07,370 --> 01:02:05,640

you know in the Blue Book files towards

1588

01:02:09,829 --> 01:02:07,380

the end they had something called space

1589

01:02:10,849 --> 01:02:09,839

Trek which was how they would keep track

1590

01:02:13,849 --> 01:02:10,859

of

1591

01:02:15,829 --> 01:02:13,859

uh like uh

1592

01:02:18,109 --> 01:02:15,839

um like the Soviet Satellites and

1593

01:02:19,250 --> 01:02:18,119

everything so like if a UFO sighting

1594

01:02:20,569 --> 01:02:19,260

will come in or whatever they could

1595

01:02:22,930 --> 01:02:20,579

correlate it with the space direct

1596

01:02:25,789 --> 01:02:22,940

system and and see what it was

1597

01:02:31,250 --> 01:02:25,799

space wreck at the end of Blue Book went

1598

01:02:33,950 --> 01:02:31,260

so like 69.70 got handed over it to be

1599

01:02:37,010 --> 01:02:33,960

uh ran by DARPA

1600

01:02:38,809 --> 01:02:37,020

wow something interesting yeah I think

1601
01:02:41,329 --> 01:02:38,819
those ties are strong and and you know

1602
01:02:43,010 --> 01:02:41,339
we we had a a statement that was there

1603
01:02:45,770 --> 01:02:43,020
by ballet that said that his work at

1604
01:02:47,750 --> 01:02:45,780
DARPA can connected him to other people

1605
01:02:49,670 --> 01:02:47,760
that were studying this subject at a

1606
01:02:51,010 --> 01:02:49,680
high level and this was early

1607
01:02:53,710 --> 01:02:51,020
um you know one thing that's interesting

1608
01:02:57,710 --> 01:02:53,720
uh you know is the the Soviet connection

1609
01:02:59,089 --> 01:02:57,720
which we didn't talk about too much

1610
01:03:01,190 --> 01:02:59,099
um you know we kind of started things

1611
01:03:03,650 --> 01:03:01,200
with you know at SRI

1612
01:03:06,770 --> 01:03:03,660
um but you know SRI doesn't probably

1613
01:03:09,289 --> 01:03:06,780

happen without uh Soviet intercepts

1614

01:03:11,390 --> 01:03:09,299

without them realizing that

1615

01:03:13,789 --> 01:03:11,400

um the Soviets are you know doing all of

1616

01:03:15,710 --> 01:03:13,799

this work with psycho energetics and so

1617

01:03:18,049 --> 01:03:15,720

if you don't have that and honestly I

1618

01:03:20,150 --> 01:03:18,059

think that probably came from the NSA

1619

01:03:23,150 --> 01:03:20,160

um you know and and so you have though

1620

01:03:25,849 --> 01:03:23,160

that that's almost like maybe the the um

1621

01:03:27,890 --> 01:03:25,859

the preview to and the Catalyst for this

1622

01:03:30,470 --> 01:03:27,900

whole to where we are today I mean I

1623

01:03:32,750 --> 01:03:30,480

really I really firmly believe

1624

01:03:35,210 --> 01:03:32,760

um and I think we firmly believe that we

1625

01:03:37,190 --> 01:03:35,220

are not where we are today a

1626

01:03:39,530 --> 01:03:37,200

um you know having this conversation if

1627

01:03:41,870 --> 01:03:39,540

it was not for this Core Group this

1628

01:03:43,430 --> 01:03:41,880

movement from from then and I know

1629

01:03:45,410 --> 01:03:43,440

there's obviously you could go real

1630

01:03:46,490 --> 01:03:45,420

really back far in history but I think

1631

01:03:54,650 --> 01:03:46,500

that

1632

01:03:56,569 --> 01:03:54,660

moving forward is is really crucial and

1633

01:03:59,270 --> 01:03:56,579

it's and it's not a history that's been

1634

01:04:01,730 --> 01:03:59,280

very available to us

1635

01:04:03,289 --> 01:04:01,740

um you know I I feel like the secret

1636

01:04:05,510 --> 01:04:03,299

keepers have maybe gotten better at

1637

01:04:07,250 --> 01:04:05,520

keeping secrets you know over the years

1638

01:04:08,390 --> 01:04:07,260

um and you know they've perfected their

1639

01:04:10,010 --> 01:04:08,400

crap

1640

01:04:11,990 --> 01:04:10,020

um and so

1641

01:04:14,329 --> 01:04:12,000

yeah that that's a I think that the

1642

01:04:16,010 --> 01:04:14,339

history is important and and it's sort

1643

01:04:17,630 --> 01:04:16,020

of startling to see some of the stuff

1644

01:04:20,930 --> 01:04:17,640

that that we might just be learning

1645

01:04:23,329 --> 01:04:20,940

about today they were um you know they

1646

01:04:24,770 --> 01:04:23,339

were studying back in the 80s you know

1647

01:04:26,150 --> 01:04:24,780

some of the stuff some of those really

1648

01:04:29,089 --> 01:04:26,160

advanced concepts that we're just

1649

01:04:31,849 --> 01:04:29,099

stumbling upon you know as a community

1650

01:04:35,150 --> 01:04:31,859

um today in you know 2022.

1651

01:04:37,490 --> 01:04:35,160

it's really interesting the the SRI the

1652

01:04:39,530 --> 01:04:37,500

the one of the things with regard to

1653

01:04:42,710 --> 01:04:39,540

like what you're talking about in terms

1654

01:04:44,870 --> 01:04:42,720

of like Soviet that if it wasn't for the

1655

01:04:47,510 --> 01:04:44,880

Soviet intercepts that we might not have

1656

01:04:50,329 --> 01:04:47,520

SRI in general it's also interesting

1657

01:04:52,849 --> 01:04:50,339

that that that became like

1658

01:04:54,829 --> 01:04:52,859

you know the book mind reach that put

1659

01:04:57,650 --> 01:04:54,839

off in targ wrote they're calling a

1660

01:04:59,569 --> 01:04:57,660

classic book of the what they were able

1661

01:05:02,690 --> 01:04:59,579

to say at the time

1662

01:05:04,490 --> 01:05:02,700

um publicly uh in a Declassified way you

1663

01:05:06,770 --> 01:05:04,500

know as a big book I've got my copy over

1664

01:05:09,890 --> 01:05:06,780

of it right over here I've got one too

1665

01:05:12,170 --> 01:05:09,900

yeah super great book if whoever if you

1666

01:05:15,289 --> 01:05:12,180

haven't read mindreach anybody out there

1667

01:05:16,849 --> 01:05:15,299

it's amazing it's incredible it's one of

1668

01:05:19,069 --> 01:05:16,859

the what's one of the best books in the

1669

01:05:20,750 --> 01:05:19,079

field in a lot of ways um there's so

1670

01:05:22,549 --> 01:05:20,760

many wonderful pictures in there you

1671

01:05:25,309 --> 01:05:22,559

little you see all this great stuff of

1672

01:05:27,410 --> 01:05:25,319

you know like targ and put off sitting

1673

01:05:29,510 --> 01:05:27,420

there with like uh you know they're

1674

01:05:31,430 --> 01:05:29,520

they're they're wild uh Turtle

1675

01:05:33,410 --> 01:05:31,440

turtlenecks on stuff like this looking

1676

01:05:35,210 --> 01:05:33,420

like Carl Sagan it's great you get to

1677

01:05:37,970 --> 01:05:35,220

see their Lounge area downstairs with

1678

01:05:39,890 --> 01:05:37,980

the Shag carpeting it rules so but like

1679

01:05:42,829 --> 01:05:39,900

the thing about it is is that you know

1680

01:05:45,230 --> 01:05:42,839

that book had to be published basically

1681

01:05:48,650 --> 01:05:45,240

um as a face saving maneuver because

1682

01:05:50,089 --> 01:05:48,660

there's an expose of the SRI program and

1683

01:05:53,030 --> 01:05:50,099

I believe it was from Time Magazine

1684

01:05:55,069 --> 01:05:53,040

right and the thing was is that you know

1685

01:05:57,049 --> 01:05:55,079

the first thing the first explanation

1686

01:05:58,370 --> 01:05:57,059

that they stated at the time is they

1687

01:05:59,870 --> 01:05:58,380

pointed at the Soviets and they were

1688

01:06:01,670 --> 01:05:59,880

like well they were doing it first and

1689

01:06:03,470 --> 01:06:01,680

so that's why we had to do this and then

1690

01:06:05,809 --> 01:06:03,480

that's been an accepted part of the lore

1691

01:06:07,789 --> 01:06:05,819

ever since and I think it's true you

1692

01:06:09,589 --> 01:06:07,799

know what I mean and like you know you

1693

01:06:13,250 --> 01:06:09,599

and I were both in the room

1694

01:06:15,950 --> 01:06:13,260

um when um uh when when one of the later

1695

01:06:18,109 --> 01:06:15,960

project heads of Stargate um was was

1696

01:06:20,569 --> 01:06:18,119

taught was also talking about you know

1697

01:06:22,490 --> 01:06:20,579

the trying to keep up with the Soviets

1698

01:06:24,190 --> 01:06:22,500

at the time with regard to remember the

1699

01:06:30,770 --> 01:06:24,200

feeling but it's also funny because like

1700

01:06:34,849 --> 01:06:30,780

the SRI program was exposed by a

1701

01:06:36,589 --> 01:06:34,859

publication right that notoriously was

1702

01:06:40,130 --> 01:06:36,599

connected with project Mockingbird at

1703

01:06:44,569 --> 01:06:40,140

the time right so it's like like so it's

1704

01:06:46,370 --> 01:06:44,579

like okay wow right so yeah that is its

1705

01:06:48,529 --> 01:06:46,380

own version you know when I think about

1706

01:06:50,270 --> 01:06:48,539

that and then the book coming out you

1707

01:06:52,609 --> 01:06:50,280

could draw a lot of parallels actually

1708

01:06:54,770 --> 01:06:52,619

between between that and say more

1709

01:06:56,329 --> 01:06:54,780

contemporary books like you know like

1710

01:06:58,010 --> 01:06:56,339

say Skin Walkers at the Pentagon or

1711

01:07:00,109 --> 01:06:58,020

something like that yeah that are that

1712

01:07:03,170 --> 01:07:00,119

there are a version of like a

1713

01:07:05,329 --> 01:07:03,180

contemporary mythologized version of of

1714

01:07:07,970 --> 01:07:05,339

like what's been happening recently in

1715

01:07:10,490 --> 01:07:07,980

similar programs does that make sense no

1716

01:07:12,710 --> 01:07:10,500

that makes total sense and you know

1717

01:07:15,529 --> 01:07:12,720

um that I I hadn't made that connection

1718

01:07:17,450 --> 01:07:15,539

and that's that's a really uh that

1719

01:07:18,770 --> 01:07:17,460

that's really great and I think I think

1720

01:07:19,970 --> 01:07:18,780

you're absolutely right and if you have

1721

01:07:20,750 --> 01:07:19,980

to think

1722

01:07:22,250 --> 01:07:20,760

um

1723

01:07:24,470 --> 01:07:22,260

I think and this is another

1724

01:07:25,910 --> 01:07:24,480

controversial subject I think that

1725

01:07:28,670 --> 01:07:25,920

remote viewing might be a bigger secret

1726

01:07:31,609 --> 01:07:28,680

than UFOs I think it might be

1727

01:07:33,770 --> 01:07:31,619

um because if that is the case you know

1728

01:07:36,170 --> 01:07:33,780

you have to think number one

1729

01:07:38,569 --> 01:07:36,180

um people need to think that it's

1730

01:07:40,849 --> 01:07:38,579

nonsense people need to think that it's

1731

01:07:42,650 --> 01:07:40,859

that it's complete you know Hokum that

1732

01:07:45,770 --> 01:07:42,660

if there's nothing to it

1733

01:07:47,750 --> 01:07:45,780

um you know and so and and I do think

1734

01:07:49,609 --> 01:07:47,760

that if you look at the people who did

1735

01:07:51,529 --> 01:07:49,619

the studies the people who are actively

1736

01:07:52,789 --> 01:07:51,539

involved in the studies even the ones

1737

01:07:56,630 --> 01:07:52,799

who are maybe a little bit more on the

1738

01:07:58,849 --> 01:07:56,640

skeptical end they consistently say that

1739

01:08:00,289 --> 01:07:58,859

our results have been understated not

1740

01:08:01,430 --> 01:08:00,299

overstated

1741

01:08:03,109 --> 01:08:01,440

um you know there's this there's always

1742

01:08:05,329 --> 01:08:03,119

this line even among people who are

1743

01:08:06,430 --> 01:08:05,339

strong like UFO Believers and you know

1744

01:08:08,690 --> 01:08:06,440

they believe in Interventional

1745

01:08:10,069 --> 01:08:08,700

interdimensional Bigfoot and and all

1746

01:08:12,170 --> 01:08:10,079

these other things but like oh I don't

1747

01:08:14,150 --> 01:08:12,180

know about the remote viewing stuff

1748

01:08:16,249 --> 01:08:14,160

um and because because it wouldn't have

1749

01:08:18,709 --> 01:08:16,259

any intelligence value but here's the

1750

01:08:20,030 --> 01:08:18,719

thing it had intelligence value you want

1751

01:08:23,269 --> 01:08:20,040

to know how we know because they had

1752

01:08:26,689 --> 01:08:23,279

clients in the 70s and 80s they were not

1753

01:08:28,370 --> 01:08:26,699

just doing research they were actually

1754

01:08:30,050 --> 01:08:28,380

um doing uh it seems like they had

1755

01:08:31,309 --> 01:08:30,060

clients like the Air Force used them as

1756

01:08:33,050 --> 01:08:31,319

a client

1757

01:08:34,370 --> 01:08:33,060

um you know uh one thing that we didn't

1758

01:08:37,370 --> 01:08:34,380

put in there I wish I had because it's

1759

01:08:41,269 --> 01:08:37,380

It's Kind of a Funny a funny anecdote is

1760

01:08:44,990 --> 01:08:41,279

Dale Graf who was the program manager I

1761

01:08:49,010 --> 01:08:45,000

believe during the DIA years

1762

01:08:51,110 --> 01:08:49,020

he went to the premiere of The Men Who

1763

01:08:52,329 --> 01:08:51,120

Stare at Goats and he was the only

1764

01:08:54,769 --> 01:08:52,339

person there

1765

01:08:58,010 --> 01:08:54,779

associated with the program who showed

1766

01:09:00,950 --> 01:08:58,020

up to that movie premiere and he did an

1767

01:09:02,329 --> 01:09:00,960

interview and you know the interviewer

1768

01:09:05,689 --> 01:09:02,339

asked him well what did they really do

1769

01:09:07,130 --> 01:09:05,699

what did Stargate really do and he said

1770

01:09:08,510 --> 01:09:07,140

well you know they they could make a

1771

01:09:10,370 --> 01:09:08,520

movie about it but they wouldn't call it

1772

01:09:12,410 --> 01:09:10,380

Midwestern goats They Call It The Men

1773

01:09:13,910 --> 01:09:12,420

Who Stare at boats

1774

01:09:15,709 --> 01:09:13,920

um because that's what they were doing

1775

01:09:16,910 --> 01:09:15,719

they were submarine spotting they were

1776

01:09:19,430 --> 01:09:16,920

they were

1777

01:09:20,870 --> 01:09:19,440

um you know the Navy was highly aware of

1778

01:09:21,950 --> 01:09:20,880

what they were doing I'm almost certain

1779

01:09:23,689 --> 01:09:21,960

of it

1780

01:09:25,309 --> 01:09:23,699

um they were very Adept at these sorts

1781

01:09:26,870 --> 01:09:25,319

of operations and you have to think

1782

01:09:28,970 --> 01:09:26,880

about it that's a pretty low risk thing

1783

01:09:30,890 --> 01:09:28,980

if someone says hey you should look here

1784

01:09:33,169 --> 01:09:30,900

at this coordinate if you look there and

1785

01:09:34,970 --> 01:09:33,179

there's nothing there no harm no foul

1786

01:09:37,010 --> 01:09:34,980

right like I don't really see where you

1787

01:09:38,870 --> 01:09:37,020

know it's almost like people think that

1788

01:09:41,930 --> 01:09:38,880

you have to be a hundred percent with

1789

01:09:44,870 --> 01:09:41,940

remote viewing for it to have any value

1790

01:09:47,090 --> 01:09:44,880

um but no Intel Gathering you know

1791

01:09:50,090 --> 01:09:47,100

activity is a hundred percent if you

1792

01:09:51,410 --> 01:09:50,100

combine this information with all of the

1793

01:09:54,169 --> 01:09:51,420

other you know things and put it into

1794

01:09:55,790 --> 01:09:54,179

context or and usually the the viewers

1795

01:09:57,530 --> 01:09:55,800

you're not just using one remote viewer

1796

01:10:00,650 --> 01:09:57,540

you're going to use five ten remote

1797

01:10:03,410 --> 01:10:00,660

viewers looking at the same Target and

1798

01:10:04,610 --> 01:10:03,420

um you know it even if it only had you

1799

01:10:07,490 --> 01:10:04,620

know some of people say oh it's only

1800

01:10:09,169 --> 01:10:07,500

maybe like 20 accurate well that's I I

1801
01:10:10,430 --> 01:10:09,179
don't believe that at all and if you

1802
01:10:11,570 --> 01:10:10,440
listen to the people who worked on the

1803
01:10:12,830 --> 01:10:11,580
study

1804
01:10:14,750 --> 01:10:12,840
um you know the actual researchers

1805
01:10:16,910 --> 01:10:14,760
themselves it was way better than 20

1806
01:10:19,610 --> 01:10:16,920
with a lot of these remote viewers

1807
01:10:21,350 --> 01:10:19,620
um that has value 20 is better than zero

1808
01:10:22,970 --> 01:10:21,360
percent if it gives you a hint of like

1809
01:10:25,850 --> 01:10:22,980
hey maybe in this General vicinity check

1810
01:10:27,590 --> 01:10:25,860
that out that's valuable and and in the

1811
01:10:30,890 --> 01:10:27,600
Wilson Davis notes

1812
01:10:33,530 --> 01:10:30,900
um you know uh you know uh vice admiral

1813
01:10:35,510 --> 01:10:33,540

Wilson says you know oh this remote

1814

01:10:37,070 --> 01:10:35,520

viewing I know something of this right

1815

01:10:39,290 --> 01:10:37,080

he'd heard of it

1816

01:10:41,209 --> 01:10:39,300

um right and and you know this is in

1817

01:10:43,850 --> 01:10:41,219

2002

1818

01:10:46,130 --> 01:10:43,860

and so uh you know we kind of made that

1819

01:10:48,350 --> 01:10:46,140

connection with Bobby Ray Inman you know

1820

01:10:49,610 --> 01:10:48,360

that if uh vice admiral Wilson knows

1821

01:10:51,410 --> 01:10:49,620

about it then you can bet that Bobby Ray

1822

01:10:53,390 --> 01:10:51,420

Inman knows about it too

1823

01:10:56,390 --> 01:10:53,400

um and and in fact you know if you look

1824

01:10:58,430 --> 01:10:56,400

at where SRI was you know that's where

1825

01:11:01,430 --> 01:10:58,440

it's almost like he was in all of those

1826

01:11:03,770 --> 01:11:01,440

he was at CIA right director

1827

01:11:05,450 --> 01:11:03,780

um of uh I'll have to look at the speed

1828

01:11:07,130 --> 01:11:05,460

he's the director of uh was it Science

1829

01:11:08,930 --> 01:11:07,140

and Technology

1830

01:11:11,570 --> 01:11:08,940

um one of those he was off to look up

1831

01:11:14,149 --> 01:11:11,580

which director he was over he was

1832

01:11:16,189 --> 01:11:14,159

um you know director of NSA he was you

1833

01:11:18,350 --> 01:11:16,199

know at the Navy and and you know they

1834

01:11:20,689 --> 01:11:18,360

were a client almost certainly

1835

01:11:23,209 --> 01:11:20,699

um and then you have saic popping into

1836

01:11:25,250 --> 01:11:23,219

the picture and who tries to get Soul

1837

01:11:27,350 --> 01:11:25,260

control of this program

1838

01:11:29,689 --> 01:11:27,360

um but saic who you know he's he's

1839

01:11:32,350 --> 01:11:29,699

captain of the board over there

1840

01:11:35,450 --> 01:11:32,360

um and so there's

1841

01:11:38,510 --> 01:11:35,460

remote viewing is a big deal and and I I

1842

01:11:40,070 --> 01:11:38,520

think that people get tripped up by that

1843

01:11:41,149 --> 01:11:40,080

um and I think they get credulous even

1844

01:11:42,830 --> 01:11:41,159

people like I said who believe in you

1845

01:11:45,709 --> 01:11:42,840

UFOs and all you know all sorts of

1846

01:11:47,030 --> 01:11:45,719

things for whatever reason uh you know

1847

01:11:48,649 --> 01:11:47,040

remote viewing is kind of a Sticky

1848

01:11:50,030 --> 01:11:48,659

Wicket for them but I would I would

1849

01:11:52,610 --> 01:11:50,040

encourage people if you if you're not

1850

01:11:54,110 --> 01:11:52,620

convinced try it you know that you can

1851

01:11:55,970 --> 01:11:54,120

try it you could there are some free

1852

01:11:57,950 --> 01:11:55,980

courses out there I did Lori Williams

1853

01:11:58,910 --> 01:11:57,960

free course

1854

01:12:01,310 --> 01:11:58,920

um

1855

01:12:03,110 --> 01:12:01,320

and how did that turn out for you it it

1856

01:12:05,090 --> 01:12:03,120

turned me into a Believer that's what it

1857

01:12:06,290 --> 01:12:05,100

did and I mean I'm I'm a little bit more

1858

01:12:08,090 --> 01:12:06,300

credulous

1859

01:12:09,410 --> 01:12:08,100

um and I know that about myself but I

1860

01:12:11,510 --> 01:12:09,420

mean if you were to look at the data and

1861

01:12:13,669 --> 01:12:11,520

look at what the target was I mean was I

1862

01:12:17,030 --> 01:12:13,679

100 on it no but I would say I was

1863

01:12:18,709 --> 01:12:17,040

probably above 50 which if you're if

1864

01:12:20,450 --> 01:12:18,719

you're thinking I mean that

1865

01:12:22,250 --> 01:12:20,460

statistically that has to be you know

1866

01:12:23,990 --> 01:12:22,260

insane you know I'm not going to do the

1867

01:12:26,390 --> 01:12:24,000

math I'm not a map guy

1868

01:12:29,390 --> 01:12:26,400

um but it was enough that personal

1869

01:12:30,830 --> 01:12:29,400

experience was enough for me combined

1870

01:12:33,290 --> 01:12:30,840

with hearing all of these subject matter

1871

01:12:35,450 --> 01:12:33,300

experts the very people who actually you

1872

01:12:37,189 --> 01:12:35,460

know as part of their life's work did

1873

01:12:39,890 --> 01:12:37,199

the research

1874

01:12:41,630 --> 01:12:39,900

um right I I think I think there's a

1875

01:12:44,450 --> 01:12:41,640

there there and you know and so that's

1876

01:12:46,370 --> 01:12:44,460

why I was really excited when um when I

1877

01:12:47,090 --> 01:12:46,380

was able to find those

1878

01:12:49,729 --> 01:12:47,100

um

1879

01:12:51,290 --> 01:12:49,739

you know those lectures from scitec in

1880

01:12:53,630 --> 01:12:51,300

the early 90s which is actually before

1881

01:12:55,189 --> 01:12:53,640

remote viewing was Declassified

1882

01:12:57,050 --> 01:12:55,199

um you know they were in a room full of

1883

01:12:58,910 --> 01:12:57,060

people at uh abduction conference

1884

01:13:00,830 --> 01:12:58,920

believe it or not you know talking about

1885

01:13:02,450 --> 01:13:00,840

remote viewing and all of the different

1886

01:13:04,850 --> 01:13:02,460

ways they were using it and oh we found

1887

01:13:06,050 --> 01:13:04,860

this UFO site that's a that's a little

1888

01:13:06,950 --> 01:13:06,060

piece that I haven't seen too many

1889

01:13:09,830 --> 01:13:06,960

people

1890

01:13:12,110 --> 01:13:09,840

um look at is the the UFO site at Iron

1891

01:13:14,090 --> 01:13:12,120

Mountain which is and basically it looks

1892

01:13:16,189 --> 01:13:14,100

to me like maybe the most interesting

1893

01:13:17,810 --> 01:13:16,199

UFO hotspot in the world just where it's

1894

01:13:21,410 --> 01:13:17,820

at you know it's right there by Kirtland

1895

01:13:23,330 --> 01:13:21,420

and um the Trinity site and and Socorro

1896

01:13:25,130 --> 01:13:23,340

and and and

1897

01:13:26,810 --> 01:13:25,140

um you know that and apparently they

1898

01:13:29,750 --> 01:13:26,820

were remote viewing crap that were you

1899

01:13:31,910 --> 01:13:29,760

know in this area and and trying to use

1900

01:13:33,830 --> 01:13:31,920

that for reverse engineering and

1901

01:13:36,709 --> 01:13:33,840

um and I think that you know doctor put

1902

01:13:38,090 --> 01:13:36,719

off and you know uh you know Colonel

1903

01:13:39,350 --> 01:13:38,100

Alexander they were very involved in

1904

01:13:42,229 --> 01:13:39,360

these things it wasn't like there was

1905

01:13:44,590 --> 01:13:42,239

this side crew that was you know um like

1906

01:13:49,550 --> 01:13:47,090

yeah they were they were involved with

1907

01:13:51,050 --> 01:13:49,560

this it was not a sideshow and I think

1908

01:13:53,149 --> 01:13:51,060

that's one thing I really wanted people

1909

01:13:55,970 --> 01:13:53,159

to see that we really wanted people to

1910

01:13:59,750 --> 01:13:55,980

see is that this you know this um sort

1911

01:14:02,209 --> 01:13:59,760

of uh uh remote viewing and really just

1912

01:14:04,250 --> 01:14:02,219

uh psychokinesis all of these things are

1913

01:14:06,649 --> 01:14:04,260

not side pieces to this mystery at all

1914

01:14:08,689 --> 01:14:06,659

they are woven they've been woven in

1915

01:14:10,850 --> 01:14:08,699

from literally the beginning

1916

01:14:13,430 --> 01:14:10,860

um and and even going bringing back the

1917

01:14:14,990 --> 01:14:13,440

Sheehan thing you know those we've had

1918

01:14:16,250 --> 01:14:15,000

that's been part of the lore for a long

1919

01:14:17,630 --> 01:14:16,260

time you know the panels with the

1920

01:14:18,530 --> 01:14:17,640

handprints on them I mean that's been

1921

01:14:22,130 --> 01:14:18,540

around

1922

01:14:24,890 --> 01:14:22,140

that that's not a New Concept and and

1923

01:14:26,209 --> 01:14:24,900

um I don't know you know where that

1924

01:14:27,649 --> 01:14:26,219

started that that would be something

1925

01:14:29,450 --> 01:14:27,659

Sean you probably would be able to dig

1926

01:14:31,970 --> 01:14:29,460

up pretty quickly it's like when where

1927

01:14:33,709 --> 01:14:31,980

do we first hear about that that method

1928

01:14:34,910 --> 01:14:33,719

for piloting The Craft

1929

01:14:37,070 --> 01:14:34,920

um you know we have it in secret

1930

01:14:38,630 --> 01:14:37,080

machines I know that Chris Bledsoe said

1931

01:14:40,430 --> 01:14:38,640

the same thing there's like a sphere you

1932

01:14:43,130 --> 01:14:40,440

put your hand on kind of thing

1933

01:14:45,290 --> 01:14:43,140

um but yeah just wondering no that's

1934

01:14:48,350 --> 01:14:45,300

starting to be really cool yeah that's a

1935

01:14:50,510 --> 01:14:48,360

good point that's a good point

1936

01:14:53,510 --> 01:14:50,520

um that I mean that the two have been to

1937

01:14:55,610 --> 01:14:53,520

Consciousness and you know uh technology

1938

01:14:58,070 --> 01:14:55,620

have been tiptoeing around each other

1939

01:15:01,070 --> 01:14:58,080

the whole time right yeah since UFO

1940

01:15:03,290 --> 01:15:01,080

sightings there have been people who you

1941

01:15:05,450 --> 01:15:03,300

know have tried to make contact or or

1942

01:15:08,330 --> 01:15:05,460

meditate and

1943

01:15:11,330 --> 01:15:08,340

um kind of bring that to the to the fold

1944

01:15:13,490 --> 01:15:11,340

all along the while there being this

1945

01:15:16,010 --> 01:15:13,500

nuts and bolts you know importance to it

1946

01:15:18,169 --> 01:15:16,020

I mean I'll always always remember one

1947

01:15:20,930 --> 01:15:18,179

of the first uh uh at

1948

01:15:23,149 --> 01:15:20,940

uh attic it's called

1949

01:15:25,070 --> 01:15:23,159

um Advanced technical Intelligence

1950

01:15:26,570 --> 01:15:25,080

Center

1951

01:15:29,390 --> 01:15:26,580

um you know back in the 40s or whatever

1952

01:15:30,709 --> 01:15:29,400

but they came out with a a report and

1953

01:15:33,530 --> 01:15:30,719

documented you know some of their

1954

01:15:36,410 --> 01:15:33,540

meetings and in in one of the documents

1955

01:15:38,330 --> 01:15:36,420

they tasked the Rand Corporation to come

1956

01:15:41,030 --> 01:15:38,340

up with the vehicle

1957

01:15:45,169 --> 01:15:41,040

um that would be necessary to Traverse

1958

01:15:49,130 --> 01:15:45,179

space from planet to planet you know wow

1959

01:15:51,470 --> 01:15:49,140

um and this is in a a UFO you know staff

1960

01:15:55,130 --> 01:15:51,480

study kind of kind of thing for Blue

1961

01:15:57,649 --> 01:15:55,140

Book so you know to me a lot of this is

1962

01:15:59,450 --> 01:15:57,659

kind of going all the way back to

1963

01:16:01,669 --> 01:15:59,460

towards when we first started talking

1964

01:16:04,130 --> 01:16:01,679

about expanding your horizons and

1965

01:16:07,010 --> 01:16:04,140

knowledge right so try to design

1966

01:16:09,530 --> 01:16:07,020

something that would be able to you know

1967

01:16:11,390 --> 01:16:09,540

go Interstellar and come here and do 90

1968

01:16:13,729 --> 01:16:11,400

degree turns and all this kind of stuff

1969

01:16:16,370 --> 01:16:13,739

because even if you fall short of it

1970

01:16:20,270 --> 01:16:16,380

right whatever you designed is going to

1971

01:16:21,890 --> 01:16:20,280

be damn cool yeah yeah but you know yeah

1972

01:16:23,689 --> 01:16:21,900

it's like you see the capability is

1973

01:16:26,090 --> 01:16:23,699

there and just the fact that it's

1974

01:16:28,430 --> 01:16:26,100

possible means that it's possible right

1975

01:16:31,010 --> 01:16:28,440

if you saw it then you know believe

1976

01:16:32,209 --> 01:16:31,020

you're lying eyes right it can happen so

1977

01:16:34,310 --> 01:16:32,219

what do we have to do to make this

1978

01:16:35,630 --> 01:16:34,320

happen and

1979

01:16:37,250 --> 01:16:35,640

um that's where the advanced theoretical

1980

01:16:38,390 --> 01:16:37,260

physics and the Consciousness piece come

1981

01:16:42,350 --> 01:16:38,400

into it

1982

01:16:46,450 --> 01:16:42,360

um yeah so yeah it's the singularity The

1983

01:16:49,310 --> 01:16:46,460

Singularity yeah I I have a a wearable

1984

01:16:51,470 --> 01:16:49,320

uh like amused headband I thought about

1985

01:16:52,209 --> 01:16:51,480

wearing it just to freak you guys out

1986

01:16:54,830 --> 01:16:52,219

um

1987

01:16:58,490 --> 01:16:54,840

just recording my brain waves through

1988

01:17:00,110 --> 01:16:58,500

this entire oh man that'd be so sick I

1989

01:17:01,850 --> 01:17:00,120

think I think you'd have to go a little

1990

01:17:04,910 --> 01:17:01,860

bit farther to really freak me out but

1991

01:17:10,090 --> 01:17:04,920

uh yeah yeah that's probably the case

1992

01:17:16,010 --> 01:17:14,450

so okay so a couple things like um I I

1993

01:17:17,689 --> 01:17:16,020

like I don't know how your time is but

1994

01:17:19,250 --> 01:17:17,699

like I I do have like a couple more

1995

01:17:20,750 --> 01:17:19,260

questions how are you doing Sean are you

1996

01:17:23,030 --> 01:17:20,760

doing okay for the moment are you you

1997

01:17:24,950 --> 01:17:23,040

can yeah I got like 10 minutes

1998

01:17:27,410 --> 01:17:24,960

okay great okay

1999

01:17:29,930 --> 01:17:27,420

um yeah I was I was wondering okay two

2000

01:17:31,490 --> 01:17:29,940

of the things that I really you know of

2001

01:17:33,229 --> 01:17:31,500

the many

2002

01:17:36,770 --> 01:17:33,239

um points that came up in loose threads

2003

01:17:39,649 --> 01:17:36,780

that that were really pretty fascinating

2004

01:17:41,870 --> 01:17:39,659

um and you really kind of you and Hermes

2005

01:17:44,450 --> 01:17:41,880

really kind of threw a light on one was

2006

01:17:48,649 --> 01:17:44,460

really kind of laying out

2007

01:17:51,229 --> 01:17:48,659

um the you know Bobby Ray Edmonds

2008

01:17:53,410 --> 01:17:51,239

um uh uh

2009

01:17:57,709 --> 01:17:53,420

and his

2010

01:17:59,689 --> 01:17:57,719

very kind of his presence and and like

2011

01:18:02,570 --> 01:17:59,699

how far reaching

2012

01:18:05,090 --> 01:18:02,580

um his work really was and how much

2013

01:18:07,370 --> 01:18:05,100

um actual evidence there was including

2014

01:18:09,350 --> 01:18:07,380

like audio evidence of of him

2015

01:18:11,090 --> 01:18:09,360

acknowledging

2016

01:18:13,790 --> 01:18:11,100

um the work that he was doing and

2017

01:18:16,550 --> 01:18:13,800

probably overseeing help helping to

2018

01:18:19,729 --> 01:18:16,560

oversee a large engineering project that

2019

01:18:21,470 --> 01:18:19,739

sounds like it was it was overseeing uh

2020

01:18:24,890 --> 01:18:21,480

reverse engineering with regards to

2021

01:18:27,669 --> 01:18:24,900

retrieved materials exotic craft Etc now

2022

01:18:29,990 --> 01:18:27,679

another thing was that that the

2023

01:18:33,110 --> 01:18:30,000

theoretical the advanced physics working

2024

01:18:35,750 --> 01:18:33,120

group and that whole you know how that

2025

01:18:38,810 --> 01:18:35,760

kind of became a family tree that fed

2026
01:18:41,930 --> 01:18:38,820
into nids and OSAP and all that but how

2027
01:18:45,290 --> 01:18:41,940
that actually was originally housed as I

2028
01:18:47,209 --> 01:18:45,300
recall in a skiff at um Braddock Dunn

2029
01:18:48,830 --> 01:18:47,219
and McDonald right

2030
01:18:51,050 --> 01:18:48,840
um and the second and the secure

2031
01:18:52,669 --> 01:18:51,060
facility in Braddock down in McDonald

2032
01:18:55,070 --> 01:18:52,679
where there are meetings so that they

2033
01:18:59,410 --> 01:18:55,080
could be private and not be not but that

2034
01:19:04,790 --> 01:18:59,420
that that that defense contractor BDM

2035
01:19:10,430 --> 01:19:08,209
so is that the best part uh oh yeah

2036
01:19:13,010 --> 01:19:10,440
where you imply the secrets to the

2037
01:19:15,890 --> 01:19:13,020
universe where you imply were you

2038
01:19:18,229 --> 01:19:15,900

implied yeah if I was Art Bell I would

2039

01:19:20,030 --> 01:19:18,239

have like blamed like the DIA for that

2040

01:19:23,750 --> 01:19:20,040

but I'm not gonna do that

2041

01:19:25,370 --> 01:19:23,760

um but but um but uh so you and you you

2042

01:19:27,830 --> 01:19:25,380

strongly implied and it seemed like

2043

01:19:31,729 --> 01:19:27,840

there was there was a there there that

2044

01:19:34,189 --> 01:19:31,739

BDM might have had at the time some

2045

01:19:36,950 --> 01:19:34,199

crashed rich or retrieved materials

2046

01:19:39,590 --> 01:19:36,960

themselves and so you have this you have

2047

01:19:41,990 --> 01:19:39,600

them housing or if they weren't there

2048

01:19:43,729 --> 01:19:42,000

maybe they were at saic in a very close

2049

01:19:45,709 --> 01:19:43,739

by kind of proximity or something like

2050

01:19:48,169 --> 01:19:45,719

this so

2051
01:19:50,990 --> 01:19:48,179
um like those were two like holy [h__h]

2052
01:19:54,229 --> 01:19:51,000
aspects for me you know with our last

2053
01:19:56,330 --> 01:19:54,239
few minutes here what did you have what

2054
01:19:58,729 --> 01:19:56,340
have did you bury in loose threads that

2055
01:20:00,950 --> 01:19:58,739
nobody's really looked at yet you know

2056
01:20:03,709 --> 01:20:00,960
in the in the last two weeks or are

2057
01:20:05,990 --> 01:20:03,719
there any like fun threads that that you

2058
01:20:07,669 --> 01:20:06,000
that you guys wove in there that you

2059
01:20:10,850 --> 01:20:07,679
feel haven't been highlighted or haven't

2060
01:20:11,810 --> 01:20:10,860
been highlighted it enough yet that's a

2061
01:20:12,770 --> 01:20:11,820
good question

2062
01:20:14,570 --> 01:20:12,780
um

2063
01:20:16,370 --> 01:20:14,580

boy I wish Hermes was here and he

2064

01:20:19,010 --> 01:20:16,380

probably is in the room with me right

2065

01:20:20,209 --> 01:20:19,020

now um astrally projecting

2066

01:20:21,530 --> 01:20:20,219

um

2067

01:20:24,530 --> 01:20:21,540

you know

2068

01:20:26,090 --> 01:20:24,540

I think that let me I made it kind of a

2069

01:20:27,530 --> 01:20:26,100

let me look here and see if I had

2070

01:20:29,270 --> 01:20:27,540

something

2071

01:20:32,030 --> 01:20:29,280

um

2072

01:20:34,070 --> 01:20:32,040

I think one thing that that

2073

01:20:35,390 --> 01:20:34,080

just an aspect I don't know if it's just

2074

01:20:39,830 --> 01:20:35,400

like a single little thing that that I

2075

01:20:41,990 --> 01:20:39,840

haven't seen too many people run with is

2076

01:20:43,970 --> 01:20:42,000

um foia and I know we were talking you

2077

01:20:46,189 --> 01:20:43,980

guys were talking earlier about foia and

2078

01:20:48,050 --> 01:20:46,199

you know that however I do think you

2079

01:20:50,390 --> 01:20:48,060

know we used foia documents in loose

2080

01:20:51,770 --> 01:20:50,400

threads and

2081

01:20:53,209 --> 01:20:51,780

um you know something that that just

2082

01:20:54,470 --> 01:20:53,219

kind of reading between the lines and

2083

01:20:56,149 --> 01:20:54,480

this is something that Hermes kind of

2084

01:20:57,350 --> 01:20:56,159

Drew my attention to so he gets all the

2085

01:20:58,610 --> 01:20:57,360

credit and he should get all the credit

2086

01:21:00,290 --> 01:20:58,620

for everything

2087

01:21:03,110 --> 01:21:00,300

um is

2088

01:21:05,930 --> 01:21:03,120

that it's possible that maybe we should

2089

01:21:09,110 --> 01:21:05,940

be foying ap10 and maybe we should be

2090

01:21:11,689 --> 01:21:09,120

foing ATP 10 and we should basically

2091

01:21:13,970 --> 01:21:11,699

give them hell through foia through all

2092

01:21:15,530 --> 01:21:13,980

of these different uh you know to try

2093

01:21:18,950 --> 01:21:15,540

and see because it's possible that maybe

2094

01:21:20,750 --> 01:21:18,960

apt AP 10 or ATP 10

2095

01:21:23,810 --> 01:21:20,760

um that that maybe that was the actual

2096

01:21:26,330 --> 01:21:23,820

you know code or or whatever

2097

01:21:28,610 --> 01:21:26,340

um the other thing is there was uh you

2098

01:21:31,189 --> 01:21:28,620

know apparently a briefing book that was

2099

01:21:33,290 --> 01:21:31,199

produced by Colonel Alexander

2100

01:21:36,590 --> 01:21:33,300

um trying to go and get funding for sure

2101

01:21:37,970 --> 01:21:36,600

yeah um and so I think that uh you know

2102

01:21:39,709 --> 01:21:37,980

it would be really cool if there's

2103

01:21:42,530 --> 01:21:39,719

anybody out there that you know if

2104

01:21:45,050 --> 01:21:42,540

Melinda Leslie if you or Jay or anybody

2105

01:21:47,030 --> 01:21:45,060

out there J2 uh anybody out there knows

2106

01:21:48,709 --> 01:21:47,040

where that's at or Oak if he's out there

2107

01:21:50,330 --> 01:21:48,719

and he knows where that's at or doctor

2108

01:21:52,490 --> 01:21:50,340

put off or anybody I think that would be

2109

01:21:53,390 --> 01:21:52,500

a really cool thing to to leak out and

2110

01:21:54,590 --> 01:21:53,400

to find

2111

01:21:56,209 --> 01:21:54,600

um because then that would be you know

2112

01:21:57,229 --> 01:21:56,219

more official

2113

01:22:00,050 --> 01:21:57,239

um

2114

01:22:03,530 --> 01:22:00,060

trying to think if there's anything

2115

01:22:04,910 --> 01:22:03,540

I think the last thing I would say is I

2116

01:22:07,189 --> 01:22:04,920

think we do have to look at the Army

2117

01:22:08,930 --> 01:22:07,199

aspect to all of this

2118

01:22:10,850 --> 01:22:08,940

um if you were to look at the major

2119

01:22:13,669 --> 01:22:10,860

branches of the military like the big

2120

01:22:16,910 --> 01:22:13,679

three no offense you know uh to our

2121

01:22:18,229 --> 01:22:16,920

Marines uh but you know Navy Army Air

2122

01:22:21,050 --> 01:22:18,239

Force who do you think has the least

2123

01:22:22,729 --> 01:22:21,060

amount of UFO material in their

2124

01:22:24,830 --> 01:22:22,739

possession if they if they had if all

2125

01:22:29,390 --> 01:22:24,840

three had them hypothetically who do you

2126
01:22:30,110 --> 01:22:29,400
think is Navy yeah Army Air Force Navy

2127
01:22:31,970 --> 01:22:30,120
um

2128
01:22:33,890 --> 01:22:31,980
I guess

2129
01:22:36,590 --> 01:22:33,900
you know if

2130
01:22:38,149 --> 01:22:36,600
I guess Army but that I don't want that

2131
01:22:40,189 --> 01:22:38,159
to come off the wrong way that they

2132
01:22:43,610 --> 01:22:40,199
don't have any right no I don't think

2133
01:22:46,610 --> 01:22:43,620
this makes it seem it seems like they

2134
01:22:48,590 --> 01:22:46,620
would have a lesser amount but they were

2135
01:22:51,169 --> 01:22:48,600
heavily involved in the beginning that's

2136
01:22:52,669 --> 01:22:51,179
for sure which which if that was taken

2137
01:22:56,149 --> 01:22:52,679
out of their custody like let's say by

2138
01:22:58,310 --> 01:22:56,159

Doe sure I mean that would be that would

2139

01:22:59,270 --> 01:22:58,320

make them probably pretty upset and it

2140

01:23:01,729 --> 01:22:59,280

would probably make them pretty

2141

01:23:04,610 --> 01:23:01,739

proactive to want to do everything they

2142

01:23:05,870 --> 01:23:04,620

can to get information and and kind of

2143

01:23:07,910 --> 01:23:05,880

reinsert themselves into that

2144

01:23:09,770 --> 01:23:07,920

conversation and so you know I talked

2145

01:23:12,050 --> 01:23:09,780

about task force Delta

2146

01:23:14,810 --> 01:23:12,060

um you know as sort of this overarching

2147

01:23:16,430 --> 01:23:14,820

um uh task force that was Blue Sky

2148

01:23:18,950 --> 01:23:16,440

Thinking I don't think it would hurt

2149

01:23:21,229 --> 01:23:18,960

anything at all for people to Foy that

2150

01:23:22,430 --> 01:23:21,239

um and and you know I I don't want to

2151

01:23:24,470 --> 01:23:22,440

disparage

2152

01:23:26,570 --> 01:23:24,480

um you know the the karate agreement

2153

01:23:29,270 --> 01:23:26,580

from too long ago but you're you know

2154

01:23:30,709 --> 01:23:29,280

we're talking about the Army is getting

2155

01:23:32,270 --> 01:23:30,719

into an agreement to get just a few

2156

01:23:35,810 --> 01:23:32,280

little bits and pieces of some stuff

2157

01:23:39,950 --> 01:23:35,820

that does not sound like uh you know a

2158

01:23:41,209 --> 01:23:39,960

branch that has an internship right it

2159

01:23:43,550 --> 01:23:41,219

sounds like they're on the outside

2160

01:23:46,010 --> 01:23:43,560

they're on the outside looking in and

2161

01:23:48,590 --> 01:23:46,020

you know it's possible you know we know

2162

01:23:50,870 --> 01:23:48,600

that you know uh Dr putoff told Jacques

2163

01:23:52,370 --> 01:23:50,880

ballet that you know Colonel Alexander

2164

01:23:54,229 --> 01:23:52,380

was more of a he was an action officer

2165

01:23:56,870 --> 01:23:54,239

it's not like he was just doing this all

2166

01:23:59,030 --> 01:23:56,880

on his own he was working you know at

2167

01:24:00,590 --> 01:23:59,040

the behest of his superiors and we know

2168

01:24:01,910 --> 01:24:00,600

that Major General stubblebine was one

2169

01:24:03,709 --> 01:24:01,920

of those superiors but he probably

2170

01:24:05,030 --> 01:24:03,719

wasn't the only one he didn't you know

2171

01:24:06,830 --> 01:24:05,040

Major General subtle Bond didn't start

2172

01:24:09,169 --> 01:24:06,840

Task Force Delta

2173

01:24:11,090 --> 01:24:09,179

um uh I I don't know if he started the

2174

01:24:13,430 --> 01:24:11,100

advanced human technology office which

2175

01:24:14,750 --> 01:24:13,440

is what uh Colonel John Alexander uh ran

2176

01:24:17,390 --> 01:24:14,760

I believe

2177

01:24:20,870 --> 01:24:17,400

um but you know I think that those

2178

01:24:24,110 --> 01:24:20,880

initiatives kind of flowed down and and

2179

01:24:25,910 --> 01:24:24,120

uh through from task force Delta

2180

01:24:27,649 --> 01:24:25,920

um and so I do think that there we need

2181

01:24:30,110 --> 01:24:27,659

to kind of look at at that as a

2182

01:24:32,030 --> 01:24:30,120

possibility to almost like a

2183

01:24:33,890 --> 01:24:32,040

um rival not rivalry but sort of

2184

01:24:35,930 --> 01:24:33,900

competition between branches to figure

2185

01:24:37,310 --> 01:24:35,940

out who has what how can we get access

2186

01:24:38,870 --> 01:24:37,320

to that

2187

01:24:41,570 --> 01:24:38,880

um I also think there's maybe something

2188

01:24:43,550 --> 01:24:41,580

going on you know between CIA and an

2189

01:24:45,530 --> 01:24:43,560

essay trying to you know especially with

2190

01:24:47,169 --> 01:24:45,540

intelligence gathering stuff like remote

2191

01:24:52,370 --> 01:24:47,179

viewing and

2192

01:24:56,290 --> 01:24:52,380

they all have UFO stuff uh right Dia NSA

2193

01:24:59,450 --> 01:24:56,300

CIA Navy yeah um

2194

01:25:02,090 --> 01:24:59,460

yeah they all have like I found

2195

01:25:05,270 --> 01:25:02,100

documents you know where NSA has

2196

01:25:08,510 --> 01:25:05,280

hundreds of UFO reports you know just

2197

01:25:10,370 --> 01:25:08,520

one one cheat one cup few lines this

2198

01:25:13,810 --> 01:25:10,380

came over here blah blah you know they

2199

01:25:16,910 --> 01:25:13,820

they all have stuff so yeah you know

2200

01:25:18,950 --> 01:25:16,920

I'm sure there is a little uh

2201

01:25:20,689 --> 01:25:18,960

competition for who knows what you know

2202

01:25:21,950 --> 01:25:20,699

and how they can learn more while the

2203

01:25:23,810 --> 01:25:21,960

other Branch doesn't want to tell them

2204

01:25:25,790 --> 01:25:23,820

anything you know that sort of thing for

2205

01:25:28,910 --> 01:25:25,800

sure yeah yeah those Dynamics are really

2206

01:25:31,310 --> 01:25:28,920

interesting and so anyway euphoia guys

2207

01:25:33,110 --> 01:25:31,320

and and gals that are out there do it I

2208

01:25:35,149 --> 01:25:33,120

I want to I'm not a foia person but I

2209

01:25:36,410 --> 01:25:35,159

would love to just see just I mean I

2210

01:25:38,390 --> 01:25:36,420

won't see it but I would just love to

2211

01:25:41,090 --> 01:25:38,400

know that they are that we're basically

2212

01:25:44,350 --> 01:25:41,100

ruining their lives by burying them and

2213

01:25:48,890 --> 01:25:46,910

I just want to say yeah but that would

2214

01:25:50,330 --> 01:25:48,900

be great having stuff from passports is

2215

01:25:51,709 --> 01:25:50,340

also would be great in that briefing

2216

01:25:53,630 --> 01:25:51,719

book you're absolutely right all that

2217

01:25:57,649 --> 01:25:53,640

stuff would be wonderful

2218

01:25:59,990 --> 01:25:57,659

um yeah Sean well yeah I just want to

2219

01:26:02,149 --> 01:26:00,000

thank you for for doing this I really

2220

01:26:04,430 --> 01:26:02,159

appreciate it in the work that you put

2221

01:26:06,590 --> 01:26:04,440

into it the loose threads Vapor I

2222

01:26:07,669 --> 01:26:06,600

suggest everybody read it but uh and he

2223

01:26:11,450 --> 01:26:07,679

has a

2224

01:26:13,250 --> 01:26:11,460

articles too uh on his website that I

2225

01:26:15,410 --> 01:26:13,260

suggest you read

2226

01:26:17,689 --> 01:26:15,420

um a very very interesting mind and I

2227

01:26:21,169 --> 01:26:17,699

love how he puts things together so I I

2228

01:26:23,629 --> 01:26:21,179

do recommend it so check that out and

2229

01:26:25,610 --> 01:26:23,639

thank you again for stopping by and Jay

2230

01:26:27,350 --> 01:26:25,620

it was pleasure with you know hanging

2231

01:26:29,750 --> 01:26:27,360

out with you as always and it was a

2232

01:26:31,790 --> 01:26:29,760

little later than we usually do but I

2233

01:26:33,890 --> 01:26:31,800

did appreciate it

2234

01:26:37,189 --> 01:26:33,900

um in the laundry room lived up to the

2235

01:26:39,790 --> 01:26:37,199

hype by the way was awesome so that's

2236

01:26:43,370 --> 01:26:39,800

right peyote laundry room

2237

01:26:45,830 --> 01:26:43,380

100 it's great to see you Mega it's

2238

01:26:49,010 --> 01:26:45,840

great to see you too Sean yeah and

2239

01:26:50,270 --> 01:26:49,020

everybody in the in the crowd thanks for

2240

01:26:52,129 --> 01:26:50,280

hanging out

2241

01:26:54,229 --> 01:26:52,139

absolutely everybody what's up to

2242

01:26:55,610 --> 01:26:54,239

everybody uh yeah buy your tickets for

2243

01:26:56,990 --> 01:26:55,620

Saturday buy your tickets yeah for

2244

01:26:59,709 --> 01:26:57,000

Saturday is there still tickets left I

2245

01:27:02,649 --> 01:26:59,719

think thank you Omega yes

2246

01:27:06,290 --> 01:27:02,659

there we go yes and I'm gonna be there

2247

01:27:09,590 --> 01:27:06,300

and the phenomena yes you are and uh and

2248

01:27:12,169 --> 01:27:09,600

Sean's gonna get his link and yes uh for

2249

01:27:14,330 --> 01:27:12,179

anybody out there I'll put a link in the

2250

01:27:16,850 --> 01:27:14,340

comments for this video

2251

01:27:18,830 --> 01:27:16,860

um we've got Christopher melon uh who's

2252

01:27:20,330 --> 01:27:18,840

gonna be interviewed by Leslie Kane live

2253

01:27:24,050 --> 01:27:20,340

on stage that's going to be amazing

2254

01:27:26,270 --> 01:27:24,060

Leslie Kane we've got some surprises

2255

01:27:27,649 --> 01:27:26,280

um we also have uh Ralph Blumenthal it's

2256

01:27:30,110 --> 01:27:27,659

actually the first time that Ralph

2257

01:27:32,510 --> 01:27:30,120

Blumenthal and Leslie have done an event

2258

01:27:35,570 --> 01:27:32,520

together uh we're kind of celebrating

2259

01:27:38,090 --> 01:27:35,580

five years uh since the five year

2260

01:27:40,250 --> 01:27:38,100

anniversary of their December 2017 New

2261

01:27:41,450 --> 01:27:40,260

York Times article uh Jeff [h__h] is

2262

01:27:43,490 --> 01:27:41,460

going to be there Whitley Streeper is

2263

01:27:45,110 --> 01:27:43,500

going to be there Sharon Hewitt Rowlett

2264

01:27:46,970 --> 01:27:45,120

is going to be there she's on the Bix

2265

01:27:49,310 --> 01:27:46,980

board we are talking about Bix a little

2266

01:27:51,530 --> 01:27:49,320

bit earlier and uh it's gonna be awesome

2267

01:27:54,590 --> 01:27:51,540

uh the great iandoli is going to be

2268

01:27:57,470 --> 01:27:54,600

there uh Priscilla Stone myself and

2269

01:27:59,870 --> 01:27:57,480

that's that's and uh

2270

01:28:01,310 --> 01:27:59,880

thanks and uh Kelly Chase is going to be

2271

01:28:04,129 --> 01:28:01,320

there it's going to be awesome uh we're

2272

01:28:05,990 --> 01:28:04,139

gonna have a lot of fun so uh yeah folks

2273

01:28:08,330 --> 01:28:06,000

if if you'd love if you'd like to hang

2274

01:28:09,590 --> 01:28:08,340

out on Saturday please join us it'll be

2275

01:28:11,030 --> 01:28:09,600

a lot of fun

2276

01:28:13,790 --> 01:28:11,040

with that being said thank you everybody

2277

01:28:16,430 --> 01:28:13,800

for hanging out with us tonight and we

2278

01:28:18,530 --> 01:28:16,440

will see you I don't know maybe next

2279

01:28:22,910 --> 01:28:18,540

week for a another installment of view

2280

01:28:27,570 --> 01:28:22,920

AP News love it see y'all love you buddy

2281

01:28:32,270 --> 01:28:27,580

love you too see y'all later bye see ya
