

1
00:00:49,389 --> 00:00:09,280
we're going to talk about flying saucers

2
00:00:49,399 --> 00:00:53,450
thank you

3
00:00:57,049 --> 00:00:55,430
today the office of the Director of

4
00:00:59,150 --> 00:00:57,059
National Intelligence released their

5
00:01:01,670 --> 00:00:59,160
unclassified version of the annual

6
00:01:03,889 --> 00:01:01,680
unidentified aerial phenomena or UAP

7
00:01:06,230 --> 00:01:03,899
report required by the National Defense

8
00:01:09,530 --> 00:01:06,240
authorization act for the fiscal year

9
00:01:11,330 --> 00:01:09,540
2022 the report is available on the odni

10
00:01:14,030 --> 00:01:11,340
website but you can also find the link

11
00:01:16,070 --> 00:01:14,040
on our DOD press release which we put

12
00:01:18,590 --> 00:01:16,080
out a short while ago and which is also

13
00:01:20,990 --> 00:01:18,600

posted on defense.gov and with that I

14

00:01:25,810 --> 00:01:21,000

will take your questions Randy thank you

15

00:01:31,310 --> 00:01:25,820

sir on the 2022 UAP report there's

16

00:01:34,429 --> 00:01:31,320

366 reports since July 2022 the majority

17

00:01:36,890 --> 00:01:34,439

of those originate from U.S Navy and Air

18

00:01:38,390 --> 00:01:36,900

Force aviators and operators who

19

00:01:41,210 --> 00:01:38,400

witnessed them during their operational

20

00:01:43,730 --> 00:01:41,220

duties and reported them to the previous

21

00:01:45,830 --> 00:01:43,740

task force and now Arrow Through

22

00:01:48,530 --> 00:01:45,840

official channels what are those

23

00:01:51,770 --> 00:01:48,540

official channels that the Pentagon has

24

00:01:53,749 --> 00:01:51,780

set up for better information sharing on

25

00:01:55,730 --> 00:01:53,759

this topic yeah thanks very much the

26

00:01:58,370 --> 00:01:55,740

question uh so first of all let me just

27

00:02:00,649 --> 00:01:58,380

say right up top that the department

28

00:02:02,090 --> 00:02:00,659

wants to thank the office of the

29

00:02:04,130 --> 00:02:02,100

Director of National Intelligence for

30

00:02:05,810 --> 00:02:04,140

leading the collaborative effort to

31

00:02:08,570 --> 00:02:05,820

produce this report as well as all the

32

00:02:10,490 --> 00:02:08,580

other agencies that that supported it I

33

00:02:13,729 --> 00:02:10,500

would encourage you to as I'm sure you

34

00:02:17,089 --> 00:02:13,739

are read that report for any type of

35

00:02:19,670 --> 00:02:17,099

detailed information broadly speaking

36

00:02:21,050 --> 00:02:19,680

when it comes to the types of processes

37

00:02:24,530 --> 00:02:21,060

and procedures that have been

38

00:02:26,990 --> 00:02:24,540

established the the Aero office as you

39

00:02:28,910 --> 00:02:27,000

highlighted has

40

00:02:32,030 --> 00:02:28,920

closely worked with each of the service

41

00:02:33,949 --> 00:02:32,040

branches to come up with a streamlined

42

00:02:36,949 --> 00:02:33,959

reporting system to be able to to

43

00:02:38,990 --> 00:02:36,959

collect that information and then in

44

00:02:41,229 --> 00:02:39,000

addition to the military branches is

45

00:02:43,670 --> 00:02:41,239

also working with the interagency so

46

00:02:45,410 --> 00:02:43,680

organizations like NOAA the Coast Guard

47

00:02:47,990 --> 00:02:45,420

Department of the energy just to name a

48

00:02:50,690 --> 00:02:48,000

few and so by establishing those

49

00:02:52,309 --> 00:02:50,700

reporting procedures what it does and I

50

00:02:54,229 --> 00:02:52,319

think you'll see this in the report is

51
00:02:56,270 --> 00:02:54,239
it allows the collection of data and

52
00:02:58,250 --> 00:02:56,280
more data allows us to be a little bit

53
00:03:01,009 --> 00:02:58,260
more rigorous in terms of how we go

54
00:03:02,809 --> 00:03:01,019
after investigating these incidents so

55
00:03:04,610 --> 00:03:02,819
hopefully that yeah it does and I

56
00:03:06,890 --> 00:03:04,620
appreciate the transparency here just a

57
00:03:09,949 --> 00:03:06,900
quick follow-up the report says that

58
00:03:13,250 --> 00:03:09,959
regarding health concerns so far no

59
00:03:15,589 --> 00:03:13,260
Encounters of UAB have been aligned with

60
00:03:18,470 --> 00:03:15,599
serious anomalous Health incidents

61
00:03:20,809 --> 00:03:18,480
Congress pushed you guys and mandated

62
00:03:23,149 --> 00:03:20,819
odni and the Pentagon to look into that

63
00:03:25,610 --> 00:03:23,159

which means there were reports from

64

00:03:27,890 --> 00:03:25,620

military aviators about anomalous Health

65

00:03:30,589 --> 00:03:27,900

incidents is there anything you guys can

66

00:03:33,290 --> 00:03:30,599

share about what those Health incidents

67

00:03:35,149 --> 00:03:33,300

ended up being if they were not UAP yeah

68

00:03:36,770 --> 00:03:35,159

I don't I don't have any information to

69

00:03:38,449 --> 00:03:36,780

provide I'd encourage you to take a look

70

00:03:41,089 --> 00:03:38,459

at the report I would say broadly

71

00:03:44,149 --> 00:03:41,099

speaking I think one of the key points

72

00:03:48,170 --> 00:03:44,159

in this report you know given given the

73

00:03:50,330 --> 00:03:48,180

potential uh Hazard that uaps do present

74

00:03:53,869 --> 00:03:50,340

notably there's been no reported

75

00:03:57,289 --> 00:03:53,879

collisions of of military aircraft or

76

00:03:59,149 --> 00:03:57,299

U.S aircraft rather and uaps but in

77

00:04:02,630 --> 00:03:59,159

terms of those specifics I'd I'd refer

78

00:04:04,550 --> 00:04:02,640

you back what's up everybody pretty

79

00:04:07,490 --> 00:04:04,560

pretty interesting hey how he keeps

80

00:04:10,130 --> 00:04:07,500

saying you know for further detail you

81

00:04:13,570 --> 00:04:10,140

can go to the report but

82

00:04:16,430 --> 00:04:13,580

you know I don't think there are details

83

00:04:17,750 --> 00:04:16,440

in the report uh but but thanks for

84

00:04:18,890 --> 00:04:17,760

joining us we're going to go over the

85

00:04:20,449 --> 00:04:18,900

report a little bit and some other

86

00:04:22,430 --> 00:04:20,459

things

87

00:04:24,770 --> 00:04:22,440

um bear with me I'm getting a little

88

00:04:27,290 --> 00:04:24,780

sick I tested Posse for covid so I'm

89

00:04:29,710 --> 00:04:27,300

doing the best I can right now

90

00:04:33,770 --> 00:04:29,720

um and I have a couple guests with us

91

00:04:35,270 --> 00:04:33,780

and who we have today is first Mr Graham

92

00:04:38,150 --> 00:04:35,280

how are you sir

93

00:04:40,310 --> 00:04:38,160

hello Sean I'm sorry to hear you're

94

00:04:42,590 --> 00:04:40,320

under the weather uh that's okay I

95

00:04:45,530 --> 00:04:42,600

appreciate it thanks for being here and

96

00:04:47,629 --> 00:04:45,540

we also have Mr disclosure team Vinnie

97

00:04:48,890 --> 00:04:47,639

how are you sir I'm good man thank you

98

00:04:51,230 --> 00:04:48,900

for having me and yeah I hope you feel

99

00:04:52,969 --> 00:04:51,240

better soon yeah thanks

100

00:04:55,670 --> 00:04:52,979

um and I just mentioned that because I

101
00:04:57,170 --> 00:04:55,680
love when people feel bad for me and I

102
00:04:59,210 --> 00:04:57,180
feel better and all that kind of stuff

103
00:05:02,510 --> 00:04:59,220
so that's why I said it no I appreciate

104
00:05:04,310 --> 00:05:02,520
you coming it's been kind of uh like um

105
00:05:07,129 --> 00:05:04,320
you know it's interesting you know

106
00:05:08,570 --> 00:05:07,139
before the report came out I you know I

107
00:05:10,310 --> 00:05:08,580
was thinking a lot about where's the

108
00:05:12,230 --> 00:05:10,320
media on the ndaa language and

109
00:05:14,030 --> 00:05:12,240
everything and then I was thinking in

110
00:05:15,710 --> 00:05:14,040
the back of my head like I bet they're

111
00:05:18,230 --> 00:05:15,720
just waiting for the report to come out

112
00:05:20,450 --> 00:05:18,240
sure enough the report comes out and

113
00:05:22,370 --> 00:05:20,460

then you know every media Outlet talks

114

00:05:24,110 --> 00:05:22,380

about it and and all that kind of stuff

115

00:05:26,990 --> 00:05:24,120

so

116

00:05:29,689 --> 00:05:27,000

you know we could go through the report

117

00:05:32,210 --> 00:05:29,699

in a little bit of detail

118

00:05:33,890 --> 00:05:32,220

um but first let me just get uh some

119

00:05:35,270 --> 00:05:33,900

quick thoughts from you guys on the

120

00:05:36,650 --> 00:05:35,280

report or anything else that you want to

121

00:05:38,749 --> 00:05:36,660

discuss whether it be the media that

122

00:05:41,210 --> 00:05:38,759

came after it or anything so so Graham

123

00:05:43,070 --> 00:05:41,220

what are your initial thoughts on it it

124

00:05:44,689 --> 00:05:43,080

was a little bit of a left eye really it

125

00:05:47,210 --> 00:05:44,699

was one of those kind of management

126

00:05:49,969 --> 00:05:47,220

reports that uh has a lot of wording in

127

00:05:52,070 --> 00:05:49,979

it uh repeats itself quite a bit uh

128

00:05:53,629 --> 00:05:52,080

ultimately says very little

129

00:05:55,129 --> 00:05:53,639

um there was certainly no

130

00:05:57,830 --> 00:05:55,139

um sort of harking back to the previous

131

00:05:59,810 --> 00:05:57,840

unidentified claims 143 that hadn't been

132

00:06:02,210 --> 00:05:59,820

identified from the preliminary report

133

00:06:05,150 --> 00:06:02,220

uh there was no mention of those bar

134

00:06:06,710 --> 00:06:05,160

just the fact that they existed

135

00:06:08,210 --> 00:06:06,720

um and obviously there was quite a

136

00:06:09,950 --> 00:06:08,220

substantial amount of ones that weren't

137

00:06:11,810 --> 00:06:09,960

identified this time but there was very

138

00:06:14,029 --> 00:06:11,820

little kind of meat beyond that you know

139

00:06:16,430 --> 00:06:14,039

to actually get a teeth into and try to

140

00:06:18,890 --> 00:06:16,440

discuss and analyze uh all that in the

141

00:06:20,330 --> 00:06:18,900

qualified report but if that's going to

142

00:06:22,969 --> 00:06:20,340

be the kind of direction of travel for

143

00:06:24,710 --> 00:06:22,979

future ones then you know it's not

144

00:06:26,270 --> 00:06:24,720

pointless looking forward to Future

145

00:06:28,249 --> 00:06:26,280

reports but if they're going to be the

146

00:06:30,650 --> 00:06:28,259

same as this then it's just a box

147

00:06:31,909 --> 00:06:30,660

ticking exercise on behalf of the

148

00:06:33,650 --> 00:06:31,919

officials to say right yeah we've

149

00:06:35,629 --> 00:06:33,660

informed the public but you know what

150

00:06:37,309 --> 00:06:35,639

that means you know it's no we haven't

151
00:06:39,529 --> 00:06:37,319
really it's when people say oh yeah

152
00:06:42,350 --> 00:06:39,539
we've put a consultation out but it's

153
00:06:44,390 --> 00:06:42,360
not really a consultation it's more just

154
00:06:45,710 --> 00:06:44,400
a it is like a box ticking exercise to

155
00:06:48,830 --> 00:06:45,720
say yeah we've done that we've told the

156
00:06:50,809 --> 00:06:48,840
public and then they move on

157
00:06:52,610 --> 00:06:50,819
and what about you Vinnie

158
00:06:55,730 --> 00:06:52,620
you see I I had to keep it in my mind

159
00:06:59,689 --> 00:06:55,740
that when this report was first mandated

160
00:07:01,730 --> 00:06:59,699
was in the fiscal year 2022 ndaa that's

161
00:07:03,950 --> 00:07:01,740
when we had just they just announced a

162
00:07:04,909 --> 00:07:03,960
month or two before that the aoi MSG

163
00:07:06,590 --> 00:07:04,919

group

164

00:07:09,650 --> 00:07:06,600

Arrow wasn't set up until sort of

165

00:07:11,629 --> 00:07:09,660

halfway through 2022 so this is new for

166

00:07:13,430 --> 00:07:11,639

them and I think Brigadier General Pat

167

00:07:15,469 --> 00:07:13,440

Ryder says it quite well that this is

168

00:07:18,290 --> 00:07:15,479

really to initially set up the processes

169

00:07:20,749 --> 00:07:18,300

and procedures going forward you know

170

00:07:23,570 --> 00:07:20,759

Sean Kirkpatrick hasn't had a big team

171

00:07:26,029 --> 00:07:23,580

to work with uh to get this report done

172

00:07:27,710 --> 00:07:26,039

I think the fact that they're seeing the

173

00:07:30,770 --> 00:07:27,720

start of inter-agency and military

174

00:07:32,029 --> 00:07:30,780

branches cooperating sounds like it's a

175

00:07:34,010 --> 00:07:32,039

good thing so they're off to a good

176

00:07:37,309 --> 00:07:34,020

start but I think anybody that was

177

00:07:38,870 --> 00:07:37,319

expecting big Revelations you know I

178

00:07:40,610 --> 00:07:38,880

think should have should learn by now

179

00:07:42,409 --> 00:07:40,620

that that's not what these reports are

180

00:07:44,270 --> 00:07:42,419

going to generate

181

00:07:46,129 --> 00:07:44,280

um so and as far as things like you know

182

00:07:49,010 --> 00:07:46,139

I thought it was unidentified anomalous

183

00:07:51,469 --> 00:07:49,020

phenomena that has come in the new ndaa

184

00:07:53,450 --> 00:07:51,479

for fiscal year 2023 so we won't see

185

00:07:56,510 --> 00:07:53,460

that until the next report which I

186

00:07:59,570 --> 00:07:56,520

believe is June this year yeah no great

187

00:08:02,870 --> 00:07:59,580

tick a bit on the positive end which

188

00:08:05,330 --> 00:08:02,880

which is good you know yeah quite a bit

189

00:08:07,309 --> 00:08:05,340

of negativity it's too easy to to be

190

00:08:08,930 --> 00:08:07,319

negative about this but I think anyone

191

00:08:11,029 --> 00:08:08,940

going into this should have really kept

192

00:08:13,909 --> 00:08:11,039

their expectations low as far as

193

00:08:16,189 --> 00:08:13,919

data that you know feeds what we really

194

00:08:18,589 --> 00:08:16,199

want which is you know the the juicy

195

00:08:21,529 --> 00:08:18,599

details of the UAP themselves that was

196

00:08:23,330 --> 00:08:21,539

never going to come sure to be

197

00:08:25,129 --> 00:08:23,340

charitable it is effectively a

198

00:08:27,469 --> 00:08:25,139

preliminary report for the new people

199

00:08:29,749 --> 00:08:27,479

it's you know you can almost scratch off

200

00:08:31,790 --> 00:08:29,759

the what the last one as being a kind of

201
00:08:33,949 --> 00:08:31,800
there's no continuation between the two

202
00:08:36,050 --> 00:08:33,959
bar the figures and the rest it is a

203
00:08:38,209 --> 00:08:36,060
completely new set of Staff as Vinnie

204
00:08:40,430 --> 00:08:38,219
says so yeah they've got to get you know

205
00:08:41,990 --> 00:08:40,440
the groundwork done but hopefully the

206
00:08:43,909 --> 00:08:42,000
future ones aren't going to be like this

207
00:08:45,530 --> 00:08:43,919
but I suspect

208
00:08:47,389 --> 00:08:45,540
um there could just be a cut and paste

209
00:08:49,130 --> 00:08:47,399
job for the next few we'll have to see

210
00:08:50,990 --> 00:08:49,140
what they come up with in the next one

211
00:08:52,550 --> 00:08:51,000
will be the one that actually you know

212
00:08:54,530 --> 00:08:52,560
sort of sets the direction of travel I

213
00:08:56,389 --> 00:08:54,540

think we can't pin too much on this

214

00:08:58,130 --> 00:08:56,399

particular report to see whether this is

215

00:09:01,850 --> 00:08:58,140

going to be how they go forward yeah

216

00:09:03,410 --> 00:09:01,860

yeah yeah no I was I was just good to

217

00:09:04,610 --> 00:09:03,420

say you can tell there's a little bit of

218

00:09:07,070 --> 00:09:04,620

a difference and that's for a reason

219

00:09:10,070 --> 00:09:07,080

from the from the first preliminary

220

00:09:12,350 --> 00:09:10,080

assessment done by the uaptf

221

00:09:14,690 --> 00:09:12,360

who you know have people like Travis

222

00:09:17,090 --> 00:09:14,700

Taylor we know now was a part of that I

223

00:09:20,449 --> 00:09:17,100

think Jay Stratton right he was the head

224

00:09:23,329 --> 00:09:20,459

of the starts yeah yeah and and and they

225

00:09:25,790 --> 00:09:23,339

even had they were looking at this stuff

226

00:09:28,009 --> 00:09:25,800

for a while you know at least a couple

227

00:09:29,509 --> 00:09:28,019

years I think probably longer Jay

228

00:09:31,670 --> 00:09:29,519

Stratton

229

00:09:33,230 --> 00:09:31,680

um Travis Taylor so so they had a bit of

230

00:09:35,509 --> 00:09:33,240

a head start but it was more detailed

231

00:09:38,329 --> 00:09:35,519

they mentioned you know how many near

232

00:09:40,550 --> 00:09:38,339

collisions how many had uh radio

233

00:09:42,290 --> 00:09:40,560

frequency signals established with it

234

00:09:44,750 --> 00:09:42,300

you know and that's what I kind of

235

00:09:47,690 --> 00:09:44,760

appreciated a bit more about that

236

00:09:50,570 --> 00:09:47,700

assessment was a little more detail on

237

00:09:53,030 --> 00:09:50,580

the the interesting ones you know but I

238

00:09:54,769 --> 00:09:53,040

think it's also very clear uh to

239

00:09:57,110 --> 00:09:54,779

Graham's Point why it seems like kind of

240

00:09:59,570 --> 00:09:57,120

a cut and paste job with these is

241

00:10:01,970 --> 00:09:59,580

you know this is no different than

242

00:10:03,530 --> 00:10:01,980

you know the old days when they had blue

243

00:10:05,509 --> 00:10:03,540

book and everything when they'd come out

244

00:10:08,630 --> 00:10:05,519

with the Air Force UFO fact sheet the

245

00:10:10,910 --> 00:10:08,640

thing was so plain you know you

246

00:10:12,710 --> 00:10:10,920

it was basically nothing you know and

247

00:10:14,630 --> 00:10:12,720

you had no idea what was actually in the

248

00:10:17,690 --> 00:10:14,640

Blue Book files what were which were

249

00:10:20,509 --> 00:10:17,700

quite revelatory cases you know

250

00:10:22,550 --> 00:10:20,519

um so it's kind of the same as far as

251

00:10:25,970 --> 00:10:22,560

that goes and you know to your point

252

00:10:27,590 --> 00:10:25,980

Vinnie you know I I can't speak for

253

00:10:30,350 --> 00:10:27,600

anyone else so I want to say we should

254

00:10:32,449 --> 00:10:30,360

but you know at least for me

255

00:10:34,190 --> 00:10:32,459

um I'm not going to expect

256

00:10:35,509 --> 00:10:34,200

yeah I'm not going to go in here

257

00:10:38,570 --> 00:10:35,519

expecting and that they're going to say

258

00:10:40,610 --> 00:10:38,580

and we found that Roswell was true and

259

00:10:43,250 --> 00:10:40,620

the spaceship was there and that they

260

00:10:45,350 --> 00:10:43,260

put bodies over here and we found it and

261

00:10:46,850 --> 00:10:45,360

here's your preliminary assessment you

262

00:10:50,990 --> 00:10:46,860

know like that's just not going to be

263

00:10:53,630 --> 00:10:51,000

how it works one of the reasons is a

264

00:10:55,970 --> 00:10:53,640

part of their job is public relations as

265

00:10:57,410 --> 00:10:55,980

well like it or not like so when they're

266

00:10:59,210 --> 00:10:57,420

writing this report

267

00:11:02,269 --> 00:10:59,220

they're going to be very careful with

268

00:11:04,490 --> 00:11:02,279

their language as to not give any little

269

00:11:07,069 --> 00:11:04,500

pieces or bits that could be taken and

270

00:11:09,350 --> 00:11:07,079

ran with by the press or by people like

271

00:11:12,130 --> 00:11:09,360

us you know and that's that's just the

272

00:11:15,949 --> 00:11:12,140

fact they want to make that thing so

273

00:11:17,870 --> 00:11:15,959

boring yeah so that that can't happen so

274

00:11:19,550 --> 00:11:17,880

that the most people can say is well

275

00:11:21,829 --> 00:11:19,560

this is how many were unidentified

276

00:11:23,750 --> 00:11:21,839

that's all I know yeah I think the

277

00:11:25,190 --> 00:11:23,760

important Point as well is did this you

278

00:11:27,769 --> 00:11:25,200

know reach the Mandate of what Congress

279

00:11:30,110 --> 00:11:27,779

asked for in fiscal year 2022 and it

280

00:11:31,850 --> 00:11:30,120

probably did so the real test is that

281

00:11:35,509 --> 00:11:31,860

they take what's now passed into law for

282

00:11:37,910 --> 00:11:35,519

the new ndaa and Elevate the results for

283

00:11:40,430 --> 00:11:37,920

this upcoming report in June but you

284

00:11:42,290 --> 00:11:40,440

know Pat Ryder again sort of his focus

285

00:11:43,790 --> 00:11:42,300

and a lot of focus coming out the dod

286

00:11:45,829 --> 00:11:43,800

and the Pentagon is on the safety of

287

00:11:48,410 --> 00:11:45,839

service Personnel installations and

288

00:11:49,850 --> 00:11:48,420

bases based on incursions into sensitive

289

00:11:52,850 --> 00:11:49,860

airspace that's number one it's the

290

00:11:54,170 --> 00:11:52,860

Department of Defense so this you know

291

00:11:55,370 --> 00:11:54,180

I'm still hearing a lot of people going

292

00:11:57,350 --> 00:11:55,380

oh they're still talking about the

293

00:11:58,850 --> 00:11:57,360

threat they're not a threat well this is

294

00:12:00,949 --> 00:11:58,860

how you look at it as a defense

295

00:12:03,230 --> 00:12:00,959

department this is number one for

296

00:12:05,329 --> 00:12:03,240

keeping everybody in the US safe and so

297

00:12:07,130 --> 00:12:05,339

that's kind of otherwise because they

298

00:12:08,690 --> 00:12:07,140

sell it otherwise as a program to be

299

00:12:10,610 --> 00:12:08,700

funded and to be staffed and all the

300

00:12:12,889 --> 00:12:10,620

rest of it if there wasn't this you know

301
00:12:16,370 --> 00:12:12,899
perceived threat angle or the very

302
00:12:20,210 --> 00:12:16,380
minimum safety to flight yeah exactly a

303
00:12:21,949 --> 00:12:20,220
Flight Risk so it's crazy to think oh

304
00:12:23,750 --> 00:12:21,959
there isn't a threat and you can't

305
00:12:25,730 --> 00:12:23,760
assume that or it's all love and light

306
00:12:27,829 --> 00:12:25,740
because we don't know you know some

307
00:12:30,949 --> 00:12:27,839
people's experiences clearly go in that

308
00:12:32,630 --> 00:12:30,959
direction but others don't so and even

309
00:12:33,949 --> 00:12:32,640
if you take that other equation from a

310
00:12:35,210 --> 00:12:33,959
simple defense point of view if you've

311
00:12:36,650 --> 00:12:35,220
got things coming over your oil space

312
00:12:38,690 --> 00:12:36,660
you don't know what they are you can't

313
00:12:40,550 --> 00:12:38,700

intercept them you can't deal with them

314

00:12:42,410 --> 00:12:40,560

um let alone you know or identify them

315

00:12:44,810 --> 00:12:42,420

then they are going to be perceived in

316

00:12:46,069 --> 00:12:44,820

some angles as some kind of threat or

317

00:12:48,230 --> 00:12:46,079

some kind of thing that needs to be

318

00:12:49,550 --> 00:12:48,240

addressed and identified and that's what

319

00:12:51,410 --> 00:12:49,560

they're doing that's the bare bonus of

320

00:12:53,030 --> 00:12:51,420

it and this is this is kind of like

321

00:12:55,370 --> 00:12:53,040

where we always find ourselves with the

322

00:12:56,690 --> 00:12:55,380

UAP thing right is it a threat or is it

323

00:12:58,850 --> 00:12:56,700

not the first thing you got to think of

324

00:13:01,370 --> 00:12:58,860

as far as

325

00:13:03,769 --> 00:13:01,380

um why it's like you said uh venue why

326

00:13:05,810 --> 00:13:03,779

it's in the dod they're looking at this

327

00:13:07,550 --> 00:13:05,820

and perceiving it as a threat because of

328

00:13:09,590 --> 00:13:07,560

where they find them which is nuclear

329

00:13:12,590 --> 00:13:09,600

installations Lawrence Livermore

330

00:13:15,710 --> 00:13:12,600

laboratory right Sandy Labs other places

331

00:13:19,009 --> 00:13:15,720

and that includes drones right and other

332

00:13:22,250 --> 00:13:19,019

things and I'm sorry but a drone you

333

00:13:24,610 --> 00:13:22,260

know over a nuclear establishment is a

334

00:13:27,170 --> 00:13:24,620

very scary situation yeah

335

00:13:29,750 --> 00:13:27,180

because that drone could carry anything

336

00:13:32,090 --> 00:13:29,760

on it or whatever so so that's really

337

00:13:34,310 --> 00:13:32,100

dangerous and then including that you

338

00:13:36,350 --> 00:13:34,320

know we have bona fide like uaps like

339

00:13:37,730 --> 00:13:36,360

Tic Tac type stories and all that kind

340

00:13:40,550 --> 00:13:37,740

of stuff

341

00:13:43,790 --> 00:13:40,560

um which is also a threat because you

342

00:13:47,269 --> 00:13:43,800

know you don't know what something is

343

00:13:49,129 --> 00:13:47,279

you know and you know I hate to say but

344

00:13:50,690 --> 00:13:49,139

Lou always said it all the time right so

345

00:13:52,550 --> 00:13:50,700

if you woke up in the morning in your

346

00:13:54,290 --> 00:13:52,560

house all the doors were locked and

347

00:13:55,310 --> 00:13:54,300

everything and you saw muddy boot prints

348

00:13:56,990 --> 00:13:55,320

in your house

349

00:13:58,910 --> 00:13:57,000

but there is nothing taken nothing

350

00:14:01,009 --> 00:13:58,920

damaged nothing you know would you

351
00:14:02,750 --> 00:14:01,019
perceive that as a threat and of course

352
00:14:05,990 --> 00:14:02,760
it is because you don't know the person

353
00:14:07,490 --> 00:14:06,000
uh the intent behind that person are

354
00:14:09,410 --> 00:14:07,500
they coming back tonight what are they

355
00:14:12,350 --> 00:14:09,420
going to do that time you know and so on

356
00:14:14,629 --> 00:14:12,360
and so forth so did you know it's also

357
00:14:15,829 --> 00:14:14,639
that the report was drafted by the

358
00:14:19,009 --> 00:14:15,839
National Intelligence manager for

359
00:14:20,750 --> 00:14:19,019
aviation in addition to ro so you know

360
00:14:22,550 --> 00:14:20,760
um you know Nim's got a uh that

361
00:14:24,410 --> 00:14:22,560
basically added me in their effectively

362
00:14:25,730 --> 00:14:24,420
air intelligence aren't they so they're

363
00:14:27,350 --> 00:14:25,740

they're looking at all kind of threats

364

00:14:28,970 --> 00:14:27,360

around the battle space but in the air

365

00:14:30,889 --> 00:14:28,980

so it's natural that you know they're

366

00:14:33,530 --> 00:14:30,899

gonna sort of probably defer to them in

367

00:14:35,210 --> 00:14:33,540

terms of things that prefer

368

00:14:37,850 --> 00:14:35,220

um sort of constitute some kind of like

369

00:14:40,250 --> 00:14:37,860

air risk or safety risk in the air let

370

00:14:42,650 --> 00:14:40,260

alone a threat this this is a good point

371

00:14:46,009 --> 00:14:42,660

but so Potential Threat as Lou said but

372

00:14:48,470 --> 00:14:46,019

right so at least for me when I'm

373

00:14:50,509 --> 00:14:48,480

decision making right a part of that

374

00:14:52,670 --> 00:14:50,519

decision making is looking at the worst

375

00:14:54,410 --> 00:14:52,680

case scenario you know

376

00:14:56,150 --> 00:14:54,420

you have to look at the worst case

377

00:14:57,590 --> 00:14:56,160

scenario especially if you know you're

378

00:14:59,750 --> 00:14:57,600

charged with protecting an entire

379

00:15:02,090 --> 00:14:59,760

country sure you know around such

380

00:15:04,430 --> 00:15:02,100

sensitive installations what's the worst

381

00:15:06,170 --> 00:15:04,440

thing that could happen here in

382

00:15:08,389 --> 00:15:06,180

when you think of that

383

00:15:11,389 --> 00:15:08,399

that's how you have to base your actions

384

00:15:14,449 --> 00:15:11,399

you know until you get better not you

385

00:15:16,790 --> 00:15:14,459

know info or knowledge on it I guess so

386

00:15:18,410 --> 00:15:16,800

so that's what they're doing here is the

387

00:15:21,530 --> 00:15:18,420

report

388

00:15:23,990 --> 00:15:21,540

um that we can take a look at

389

00:15:32,210 --> 00:15:24,000

kind of small though to be honest with

390

00:15:35,870 --> 00:15:34,250

I got coronavirus leave me alone God

391

00:15:38,750 --> 00:15:35,880

damn it

392

00:15:40,250 --> 00:15:38,760

so yeah so you could take a look at this

393

00:15:44,990 --> 00:15:40,260

um I

394

00:15:47,990 --> 00:15:45,000

highlighted some things in here so

395

00:15:50,870 --> 00:15:48,000

you know because a lot of it's just you

396

00:15:52,910 --> 00:15:50,880

know as Graham said kind of just like

397

00:15:56,449 --> 00:15:52,920

um boilerplate

398

00:16:07,189 --> 00:15:58,790

so

399

00:16:09,590 --> 00:16:07,199

pretty good

400

00:16:11,689 --> 00:16:09,600

uh but then we have the table of

401
00:16:14,870 --> 00:16:11,699
contents whatever so that's two pages

402
00:16:16,670 --> 00:16:14,880
down straight away yeah right so now

403
00:16:19,430 --> 00:16:16,680
we're already on page three so the

404
00:16:20,990 --> 00:16:19,440
executive summary uh on a UAP reporting

405
00:16:22,490 --> 00:16:21,000
is increasing enabling a greater

406
00:16:24,530 --> 00:16:22,500
awareness of the airspace increased

407
00:16:26,870 --> 00:16:24,540
opportunity to resolve UAP events in

408
00:16:28,910 --> 00:16:26,880
addition to the 144 UAP reports covered

409
00:16:32,569 --> 00:16:28,920
during the 17 years of UAP reporting

410
00:16:34,790 --> 00:16:32,579
included in the office of dni uh prelim

411
00:16:36,590 --> 00:16:34,800
assessment there but 247 reports and

412
00:16:38,569 --> 00:16:36,600
another 119 that were either since

413
00:16:41,329 --> 00:16:38,579

discovered or reported after the prelim

414

00:16:44,150 --> 00:16:41,339

assessments time period this totals 510

415

00:16:48,889 --> 00:16:44,160

UAP reports as of the 30th of August

416

00:16:50,329 --> 00:16:48,899

2022 additional this is

417

00:16:52,069 --> 00:16:50,339

um comes up a couple times in this

418

00:16:54,949 --> 00:16:52,079

report and I think it's important this

419

00:16:57,350 --> 00:16:54,959

last sentence additional information is

420

00:16:59,090 --> 00:16:57,360

provided in the classified version of

421

00:17:01,189 --> 00:16:59,100

this report

422

00:17:02,870 --> 00:17:01,199

you know so what is that additional

423

00:17:04,250 --> 00:17:02,880

information

424

00:17:06,409 --> 00:17:04,260

um and then this thing and you guys can

425

00:17:08,809 --> 00:17:06,419

chime in at any time but uh this thing

426
00:17:11,449 --> 00:17:08,819
here we got UAP events continue to occur

427
00:17:13,370 --> 00:17:11,459
in restricted or sensitive airspace

428
00:17:16,270 --> 00:17:13,380
highlighting possible concerns for

429
00:17:20,150 --> 00:17:16,280
safety of flight or adversary collection

430
00:17:23,689 --> 00:17:20,160
uh activity and what I wanted to do real

431
00:17:27,530 --> 00:17:23,699
quick just so people can uh kind of get

432
00:17:30,610 --> 00:17:27,540
in a a an idea at least of why I think

433
00:17:33,250 --> 00:17:30,620
some of this is kind of

434
00:17:35,750 --> 00:17:33,260
ridiculous to be quite Frank

435
00:17:39,950 --> 00:17:35,760
and I'm going to show you why that is

436
00:17:43,789 --> 00:17:41,990
um this document in 1952 and there's

437
00:17:45,470 --> 00:17:43,799
others like it that hint at it but I'm

438
00:17:48,350 --> 00:17:45,480

just going to this one quick memorandum

439

00:17:49,850 --> 00:17:48,360

for the director of the CIA

440

00:17:51,049 --> 00:17:49,860

and I'm not going to spend a lot of time

441

00:17:53,409 --> 00:17:51,059

on here I'm just going to hit bullet

442

00:17:55,669 --> 00:17:53,419

point for uh right at the bottom

443

00:17:57,230 --> 00:17:55,679

sightings of unexplained objects at

444

00:17:59,090 --> 00:17:57,240

Great altitudes and traveling at high

445

00:18:01,010 --> 00:17:59,100

speeds in the vicinity of major U.S

446

00:18:02,330 --> 00:18:01,020

defense installations are such nature

447

00:18:04,970 --> 00:18:02,340

that they are not attributable to

448

00:18:08,990 --> 00:18:04,980

natural phenomenon or known types of

449

00:18:13,190 --> 00:18:09,000

aerial Vehicles this is in 1952 we're in

450

00:18:16,190 --> 00:18:13,200

2023 and we have the same language in in

451
00:18:18,470 --> 00:18:16,200
regards to UAP do we not what is it what

452
00:18:20,870 --> 00:18:18,480
do you what do you guys think

453
00:18:23,029 --> 00:18:20,880
well we're not we're not moving forward

454
00:18:25,010 --> 00:18:23,039
from that with the same arguments and

455
00:18:26,990 --> 00:18:25,020
the same lack of information the same

456
00:18:29,690 --> 00:18:27,000
requests for better reporting better

457
00:18:31,490 --> 00:18:29,700
data collection and better analysis that

458
00:18:33,529 --> 00:18:31,500
was all you know gone through in the

459
00:18:36,470 --> 00:18:33,539
early in the late 1940s and early 1950s

460
00:18:39,650 --> 00:18:36,480
and culminating in blue books uh status

461
00:18:40,909 --> 00:18:39,660
report number 14 which we can discuss

462
00:18:42,950 --> 00:18:40,919
later if you want because there are

463
00:18:44,690 --> 00:18:42,960

parallels between that and this

464

00:18:45,409 --> 00:18:44,700

sure

465

00:18:47,150 --> 00:18:45,419

um

466

00:18:48,950 --> 00:18:47,160

unless you got something Benny I'll just

467

00:18:51,830 --> 00:18:48,960

keep going

468

00:18:53,570 --> 00:18:51,840

but he's on mute I'm on mute sorry my

469

00:18:55,549 --> 00:18:53,580

mistake oh yeah the one thing and again

470

00:18:57,890 --> 00:18:55,559

it's me probably me just being quite um

471

00:19:00,049 --> 00:18:57,900

optimistic is that this report was

472

00:19:01,490 --> 00:19:00,059

written while Arrow was situated under

473

00:19:04,010 --> 00:19:01,500

the office of the under secretary of

474

00:19:05,870 --> 00:19:04,020

defense for intelligence arrow is now

475

00:19:08,570 --> 00:19:05,880

not under them they've moved more under

476

00:19:10,789 --> 00:19:08,580

the banner of the odni directly so

477

00:19:13,010 --> 00:19:10,799

Moultrie the whole Moultrie thing won't

478

00:19:15,409 --> 00:19:13,020

have as much of a park going forward

479

00:19:16,970 --> 00:19:15,419

right and we you know I I was worried

480

00:19:20,330 --> 00:19:16,980

that there was some obfuscation coming

481

00:19:23,690 --> 00:19:20,340

from him and so almost controlling arrow

482

00:19:26,870 --> 00:19:23,700

and Sean Kirkpatrick uh to a degree so

483

00:19:28,730 --> 00:19:26,880

I'm hoping that now that he's you know

484

00:19:30,890 --> 00:19:28,740

Kirkpatrick's move from under Moultrie

485

00:19:32,330 --> 00:19:30,900

we can kind of maybe they'll get a bit

486

00:19:34,190 --> 00:19:32,340

more freedom to kind of do it for

487

00:19:37,610 --> 00:19:34,200

themselves without worrying too much

488

00:19:40,010 --> 00:19:37,620

about that yeah we'll see it only time

489

00:19:42,590 --> 00:19:40,020

will tell but a lot has changed in that

490

00:19:44,870 --> 00:19:42,600

in between what we've just got and what

491

00:19:47,270 --> 00:19:44,880

we might get in the next report so yeah

492

00:19:48,830 --> 00:19:47,280

yeah but but again one one last thing is

493

00:19:51,169 --> 00:19:48,840

I've found

494

00:19:52,610 --> 00:19:51,179

six seven points that I took from this

495

00:19:54,590 --> 00:19:52,620

report that I found really interesting

496

00:19:57,350 --> 00:19:54,600

so for me it was definitely not a

497

00:19:59,270 --> 00:19:57,360

nothing Burger sure was it was it weak

498

00:20:02,330 --> 00:19:59,280

yeah it was weak but you can still take

499

00:20:04,669 --> 00:20:02,340

away things to work on sure

500

00:20:07,549 --> 00:20:04,679

um well yeah what one thing for me and

501
00:20:09,830 --> 00:20:07,559
this is kind of the negative sense look

502
00:20:12,169 --> 00:20:09,840
at all these people that that helped

503
00:20:15,350 --> 00:20:12,179
with this report right sure

504
00:20:17,510 --> 00:20:15,360
all these freaking people and the only

505
00:20:20,870 --> 00:20:17,520
thing that they could tell us was how

506
00:20:25,730 --> 00:20:23,390
you know at this point it's like it's

507
00:20:28,250 --> 00:20:25,740
it's almost borderline embarrassing to

508
00:20:30,289 --> 00:20:28,260
me is like a public thing like look at

509
00:20:32,510 --> 00:20:30,299
the robustness of everybody that's

510
00:20:33,710 --> 00:20:32,520
helping and I'm sorry it would be a Pity

511
00:20:35,330 --> 00:20:33,720
that they couldn't actually break down

512
00:20:36,770 --> 00:20:35,340
the figures as to you know where this

513
00:20:38,210 --> 00:20:36,780

place came from

514

00:20:39,770 --> 00:20:38,220

um did it come from the Department of

515

00:20:40,909 --> 00:20:39,780

energy did it come from Nassau did it

516

00:20:43,130 --> 00:20:40,919

come from you know this that and the

517

00:20:44,690 --> 00:20:43,140

other uh it's a shame I mean I'm trying

518

00:20:46,250 --> 00:20:44,700

to be positive as much as I can here

519

00:20:47,450 --> 00:20:46,260

that you know it's a shame that they

520

00:20:49,549 --> 00:20:47,460

weren't broken down between those

521

00:20:51,049 --> 00:20:49,559

because later on it actually mentions

522

00:20:53,029 --> 00:20:51,059

about the increased number between the

523

00:20:54,049 --> 00:20:53,039

US Navy and U.S Air Force and of course

524

00:20:55,789 --> 00:20:54,059

there's always been this traditional

525

00:20:57,710 --> 00:20:55,799

kind of thing about the US Air Force

526
00:20:59,450 --> 00:20:57,720
dragging its feet in terms of getting to

527
00:21:01,789 --> 00:20:59,460
grips for this so it'd be interesting to

528
00:21:03,890 --> 00:21:01,799
see as well what the numbers of those

529
00:21:06,110 --> 00:21:03,900
cases were were most of them still

530
00:21:10,190 --> 00:21:06,120
coming outside of the same thing from

531
00:21:11,750 --> 00:21:10,200
the U.S Navy yeah because like at least

532
00:21:12,970 --> 00:21:11,760
saw this report was made you know it

533
00:21:16,370 --> 00:21:12,980
could totally be

534
00:21:18,289 --> 00:21:16,380
499 Navy they'll have that information

535
00:21:21,470 --> 00:21:18,299
in the classified in the classified

536
00:21:22,970 --> 00:21:21,480
section yeah absolutely yeah you know

537
00:21:24,470 --> 00:21:22,980
notwithstanding all the other

538
00:21:26,330 --> 00:21:24,480

information that Walter were desperate

539

00:21:27,289 --> 00:21:26,340

to see but that will be in there at

540

00:21:29,390 --> 00:21:27,299

least now wouldn't have thought that

541

00:21:31,789 --> 00:21:29,400

would harm anybody by being able to put

542

00:21:34,070 --> 00:21:31,799

that out but maybe you know they see

543

00:21:35,930 --> 00:21:34,080

that differently well it's probably not

544

00:21:40,190 --> 00:21:35,940

favorable to the Air Force owners soon

545

00:21:43,310 --> 00:21:41,930

um one thing I have mentioned in these

546

00:21:44,630 --> 00:21:43,320

highlighted in these highlighted

547

00:21:47,450 --> 00:21:44,640

sections that you've done the word

548

00:21:49,370 --> 00:21:47,460

sensor is is filling is in quite a few

549

00:21:51,710 --> 00:21:49,380

of those highlighted sections and that

550

00:21:54,289 --> 00:21:51,720

speaks volumes because they are not

551
00:21:56,149 --> 00:21:54,299
generally just relying on these aviators

552
00:21:58,370 --> 00:21:56,159
from the Air Force and the Navy to

553
00:22:00,710 --> 00:21:58,380
report these things they are getting the

554
00:22:03,230 --> 00:22:00,720
data on sensor systems as well and

555
00:22:04,549 --> 00:22:03,240
probably a lot of it so I think that's

556
00:22:06,470 --> 00:22:04,559
really important yeah because they're

557
00:22:07,970 --> 00:22:06,480
getting reports from the aviators they

558
00:22:10,490 --> 00:22:07,980
can then go and check the sensors and

559
00:22:11,990 --> 00:22:10,500
there you've got two data points so you

560
00:22:15,409 --> 00:22:12,000
need to still say that they operate

561
00:22:17,529 --> 00:22:15,419
correctly and capture them so yeah

562
00:22:19,909 --> 00:22:17,539
they're not they're not

563
00:22:24,549 --> 00:22:19,919

the local Tandy down the road or

564

00:22:30,610 --> 00:22:27,890

I don't know what that is it's an

565

00:22:35,470 --> 00:22:30,620

electronics store okay

566

00:22:38,029 --> 00:22:35,480

all right uh we can keep it there uh

567

00:22:41,630 --> 00:22:38,039

yeah uh this

568

00:22:43,130 --> 00:22:41,640

you know this this is you know as much

569

00:22:45,289 --> 00:22:43,140

as I talk about a lot of similarities

570

00:22:47,210 --> 00:22:45,299

between you know the Blue Book days and

571

00:22:48,649 --> 00:22:47,220

and you know what's going on now or

572

00:22:51,169 --> 00:22:48,659

whatever there are some major

573

00:22:53,270 --> 00:22:51,179

differences I would say too and as far

574

00:22:54,950 --> 00:22:53,280

as we can see from the outside you know

575

00:22:58,010 --> 00:22:54,960

this will be the first hole a government

576
00:23:00,049 --> 00:22:58,020
type approach right like in Blue Book it

577
00:23:01,549 --> 00:23:00,059
was the Air Force some people would

578
00:23:02,870 --> 00:23:01,559
report things to the Air Force whether

579
00:23:05,090 --> 00:23:02,880
it be the Navy or the Coast Guard

580
00:23:07,250 --> 00:23:05,100
whoever but really it was the air force

581
00:23:09,529 --> 00:23:07,260
that was you know taking these reports

582
00:23:12,110 --> 00:23:09,539
and putting on the public face so here

583
00:23:15,350 --> 00:23:12,120
we're gonna have you know all sorts of

584
00:23:17,930 --> 00:23:15,360
government entities helping with this

585
00:23:20,450 --> 00:23:17,940
um approach and for me that just kind of

586
00:23:22,190 --> 00:23:20,460
speaks to how serious the situation is I

587
00:23:24,770 --> 00:23:22,200
don't think you put this together and

588
00:23:26,390 --> 00:23:24,780

spend all this time and all these

589

00:23:28,190 --> 00:23:26,400
resources putting together this

590

00:23:29,330 --> 00:23:28,200
collection mechanism working with all

591

00:23:32,630 --> 00:23:29,340
these people this whole government

592

00:23:34,490 --> 00:23:32,640
approach if it's not a big deal you know

593

00:23:36,110 --> 00:23:34,500
it's obviously a big deal there's

594

00:23:39,049 --> 00:23:36,120
there's something going on or this stuff

595

00:23:40,850 --> 00:23:39,059
wouldn't happen so I I thought it was

596

00:23:42,649 --> 00:23:40,860
worth highlighting that so I could

597

00:23:45,230 --> 00:23:42,659
remember to bring out the differences

598

00:23:47,930 --> 00:23:45,240
between past you know efforts in this

599

00:23:50,270 --> 00:23:47,940
one that I highlighted and I am

600

00:23:52,310 --> 00:23:50,280
uh Aviation they actually authored the

601
00:23:54,590 --> 00:23:52,320
first preliminary assessment too which

602
00:23:56,450 --> 00:23:54,600
is interesting so

603
00:23:58,549 --> 00:23:56,460
um their Vocal Point for this it seems

604
00:24:00,529 --> 00:23:58,559
like there's you know putting on the big

605
00:24:03,590 --> 00:24:00,539
shoes and and taking the lead role on

606
00:24:05,210 --> 00:24:03,600
this so and they're kind of uh new to me

607
00:24:07,310 --> 00:24:05,220
at least within the past couple years

608
00:24:08,930 --> 00:24:07,320
first time I've heard of them

609
00:24:10,370 --> 00:24:08,940
um and then of course everybody saw the

610
00:24:12,169 --> 00:24:10,380
patch that came out with the flank

611
00:24:14,810 --> 00:24:12,179
saucer on it that disappeared not too

612
00:24:16,970 --> 00:24:14,820
long after which is you know a very tiny

613
00:24:19,430 --> 00:24:16,980

version of Roswell all over again here

614

00:24:21,770 --> 00:24:19,440

we go it's real never mind just kidding

615

00:24:24,289 --> 00:24:21,780

you know so that's interesting

616

00:24:26,570 --> 00:24:24,299

um so we'll see what that's about you

617

00:24:28,370 --> 00:24:26,580

know and how that goes uh it makes sense

618

00:24:30,710 --> 00:24:28,380

on the outside but as far as I remember

619

00:24:32,450 --> 00:24:30,720

in X Air Force guy also was the head of

620

00:24:35,210 --> 00:24:32,460

this place so I'm not sure

621

00:24:36,590 --> 00:24:35,220

I have to look into that but uh you know

622

00:24:38,810 --> 00:24:36,600

so I don't know if that's a good thing

623

00:24:40,370 --> 00:24:38,820

or not but

624

00:24:41,690 --> 00:24:40,380

um if you guys see anything as I scroll

625

00:24:44,390 --> 00:24:41,700

through here that you want to talk about

626
00:24:46,730 --> 00:24:44,400
go ahead yeah one thing of those that

627
00:24:49,130 --> 00:24:46,740
those numbers there the 26 characterized

628
00:24:51,049 --> 00:24:49,140
163 characterized

629
00:24:52,549 --> 00:24:51,059
that bit below where it's you've

630
00:24:54,590 --> 00:24:52,559
highlighted it initial characterization

631
00:24:56,510 --> 00:24:54,600
does not mean positively resolved or

632
00:24:58,669 --> 00:24:56,520
identified that's that's really vital

633
00:24:59,750 --> 00:24:58,679
that I found that's but that's the

634
00:25:01,730 --> 00:24:59,760
takeaway that's actually being lost

635
00:25:03,770 --> 00:25:01,740
though isn't it because the media

636
00:25:05,630 --> 00:25:03,780
reported us over half can be attributed

637
00:25:08,570 --> 00:25:05,640
to knowing causes actually that's not

638
00:25:11,330 --> 00:25:08,580

what it says and also when you and even

639

00:25:13,610 --> 00:25:11,340

if that was the case then you can't you

640

00:25:15,350 --> 00:25:13,620

have to add in the other 143 from the

641

00:25:17,930 --> 00:25:15,360

first report and it actually means that

642

00:25:19,850 --> 00:25:17,940

more than half it's about 65 or so are

643

00:25:20,990 --> 00:25:19,860

unidentified and that's quite a large

644

00:25:22,789 --> 00:25:21,000

number

645

00:25:24,289 --> 00:25:22,799

um now we also don't know what the

646

00:25:26,810 --> 00:25:24,299

methodology was behind the kind of

647

00:25:28,789 --> 00:25:26,820

evaluations uh this is again a parallel

648

00:25:31,789 --> 00:25:28,799

with blue with blue book uh instead of

649

00:25:33,350 --> 00:25:31,799

support 14 from 1955. there's no

650

00:25:35,450 --> 00:25:33,360

information about the methodology the

651
00:25:37,310 --> 00:25:35,460
kind of evaluations were done the people

652
00:25:39,830 --> 00:25:37,320
who were doing them and what their your

653
00:25:41,630 --> 00:25:39,840
technical expertise was back then it was

654
00:25:45,169 --> 00:25:41,640
a panel from Atik and also from

655
00:25:46,669 --> 00:25:45,179
Engineers or scientists but now you know

656
00:25:48,590 --> 00:25:46,679
does anybody know who who is actually

657
00:25:50,870 --> 00:25:48,600
you know sort of calling these out and

658
00:25:54,110 --> 00:25:50,880
say oh well this is a balloon this is a

659
00:25:55,310 --> 00:25:54,120
a drone a uas yeah that's a that's a

660
00:25:57,049 --> 00:25:55,320
phrase that's been around for a while

661
00:25:59,090 --> 00:25:57,059
but that now they're calling them those

662
00:26:00,230 --> 00:25:59,100
rather than just drones

663
00:26:02,029 --> 00:26:00,240

um but does anybody know you know what

664

00:26:04,070 --> 00:26:02,039

the criteria was and who's been making

665

00:26:06,190 --> 00:26:04,080

these you know evaluations because I

666

00:26:08,990 --> 00:26:06,200

certainly don't know

667

00:26:10,190 --> 00:26:09,000

sorry oh just real quick just to kind of

668

00:26:12,890 --> 00:26:10,200

limit that point

669

00:26:15,590 --> 00:26:12,900

um you know I wrote this little thing a

670

00:26:17,570 --> 00:26:15,600

while ago but this is kind of similar to

671

00:26:20,269 --> 00:26:17,580

back in Blue Book like this is a blue

672

00:26:23,330 --> 00:26:20,279

book uh I believe it's a briefing to the

673

00:26:25,130 --> 00:26:23,340

Air Defense command from attic

674

00:26:28,070 --> 00:26:25,140

um and I highlighted here we can only

675

00:26:30,289 --> 00:26:28,080

positively identify about seven percent

676
00:26:33,289 --> 00:26:30,299
but right above that we believe we can

677
00:26:34,850 --> 00:26:33,299
explain all but about 20 you know so

678
00:26:37,010 --> 00:26:34,860
what they're saying is

679
00:26:39,470 --> 00:26:37,020
and then down below this figure is not

680
00:26:41,149 --> 00:26:39,480
truly representative of the facts due to

681
00:26:43,669 --> 00:26:41,159
the methods used in evaluating the

682
00:26:47,029 --> 00:26:43,679
reports okay probables and possibles

683
00:26:51,130 --> 00:26:47,039
exactly so if something's in a

684
00:26:53,450 --> 00:26:51,140
you know and it moves kind of slowly

685
00:26:54,950 --> 00:26:53,460
moves like a balloon they just call it a

686
00:26:57,049 --> 00:26:54,960
balloon they haven't they don't know

687
00:26:58,370 --> 00:26:57,059
that it is they're not so well I mean

688
00:26:59,870 --> 00:26:58,380

sometimes they actually have a balloon

689

00:27:02,330 --> 00:26:59,880

track and they can you know actually

690

00:27:04,130 --> 00:27:02,340

positively identify it is that sometimes

691

00:27:06,470 --> 00:27:04,140

they don't have a balloon track for that

692

00:27:08,570 --> 00:27:06,480

area but they call it a balloon anyways

693

00:27:11,149 --> 00:27:08,580

just because maybe you have some how

694

00:27:12,250 --> 00:27:11,159

someone described it you know so it's

695

00:27:14,570 --> 00:27:12,260

important

696

00:27:16,490 --> 00:27:14,580

now we're seeing on everyone in the

697

00:27:18,649 --> 00:27:16,500

chats you know asking us to talk about

698

00:27:21,950 --> 00:27:18,659

this we're now seeing the term balloon

699

00:27:24,010 --> 00:27:21,960

like entities or balloon entities you

700

00:27:26,210 --> 00:27:24,020

know what's that all about

701
00:27:28,549 --> 00:27:26,220
it's a strange it's a strange way of

702
00:27:30,409 --> 00:27:28,559
wording it isn't it and I I believe they

703
00:27:33,830 --> 00:27:30,419
mean items I don't believe the main kind

704
00:27:35,930 --> 00:27:33,840
of beings you know because that's what

705
00:27:38,149 --> 00:27:35,940
the we would well that's what I would

706
00:27:39,890 --> 00:27:38,159
certainly take that word to mean in this

707
00:27:43,010 --> 00:27:39,900
kind of context but that I'm sure they

708
00:27:45,529 --> 00:27:43,020
mean you know an item an object but it's

709
00:27:46,669 --> 00:27:45,539
it's a weird way to describe it they

710
00:27:48,230 --> 00:27:46,679
need to be careful because they can have

711
00:27:50,570 --> 00:27:48,240
people in the UFO yeah you're thinking

712
00:27:57,850 --> 00:27:50,580
that these are like oh yeah aliens like

713
00:28:03,590 --> 00:28:01,149

[Laughter]

714

00:28:06,049 --> 00:28:03,600

no see here's where I disagree with you

715

00:28:09,549 --> 00:28:06,059

if they say entities this means

716

00:28:12,830 --> 00:28:09,559

something that has a heartbeat

717

00:28:14,990 --> 00:28:12,840

and it just happens to be shaped like a

718

00:28:17,810 --> 00:28:15,000

balloon and kind of floats through this

719

00:28:20,390 --> 00:28:17,820

guy okay so I think this is we're first

720

00:28:22,370 --> 00:28:20,400

hearing about this new

721

00:28:24,710 --> 00:28:22,380

um living being it that looks like a

722

00:28:27,649 --> 00:28:24,720

balloon and it's Mr staphoofed from

723

00:28:29,810 --> 00:28:27,659

Ghostbusters yeah yeah

724

00:28:31,909 --> 00:28:29,820

but I mean really what they're really

725

00:28:33,470 --> 00:28:31,919

saying that is kind of going back on

726

00:28:35,990 --> 00:28:33,480

what we were just talking about they

727

00:28:39,049 --> 00:28:36,000

don't know positively that something is

728

00:28:41,210 --> 00:28:39,059

a balloon right for instance so they

729

00:28:44,289 --> 00:28:41,220

have to say balloon like

730

00:28:46,730 --> 00:28:44,299

entity you know so

731

00:28:48,289 --> 00:28:46,740

I know it's the last bit is attributed

732

00:28:50,090 --> 00:28:48,299

to so that's different kind of um you

733

00:28:52,130 --> 00:28:50,100

know sort of wording again and that's

734

00:28:54,169 --> 00:28:52,140

probably correct in terms of the being

735

00:28:57,110 --> 00:28:54,179

able to you know I positively identify

736

00:28:59,690 --> 00:28:57,120

six cases as being Birds weather events

737

00:29:02,330 --> 00:28:59,700

or Airborne debuts such as plastic bags

738

00:29:03,769 --> 00:29:02,340

and that's probably right but then when

739

00:29:07,130 --> 00:29:03,779

you you see the wording above and it

740

00:29:09,590 --> 00:29:07,140

says 26 and 163 characterized that

741

00:29:11,330 --> 00:29:09,600

doesn't that yeah that definitely is not

742

00:29:13,789 --> 00:29:11,340

the wording you would use if you were

743

00:29:16,430 --> 00:29:13,799

going to identify something positively

744

00:29:18,049 --> 00:29:16,440

as one of those things so yeah you've

745

00:29:19,730 --> 00:29:18,059

got to read between the lines there and

746

00:29:21,710 --> 00:29:19,740

see what they really mean and I know

747

00:29:23,950 --> 00:29:21,720

they've clarified underneath but you

748

00:29:26,930 --> 00:29:23,960

know it just seems yeah well why bother

749

00:29:28,370 --> 00:29:26,940

yeah well and I think that could be the

750

00:29:30,169 --> 00:29:28,380

difference between this report and the

751
00:29:32,269 --> 00:29:30,179
last one like the the preliminary

752
00:29:35,990 --> 00:29:32,279
assessment they didn't go on a leap and

753
00:29:39,889 --> 00:29:36,000
say well yeah we initially characterized

754
00:29:41,330 --> 00:29:39,899
kinda as this you know they had one that

755
00:29:43,010 --> 00:29:41,340
they knew for sure was a balloon the

756
00:29:46,870 --> 00:29:43,020
rest they just didn't know for sure yeah

757
00:29:50,870 --> 00:29:49,610
189 identified Against One Last Time

758
00:29:53,930 --> 00:29:50,880
round

759
00:29:57,490 --> 00:29:53,940
um it's it's rather weird and assumption

760
00:29:59,570 --> 00:29:57,500
to make answers to you and me so

761
00:30:01,010 --> 00:29:59,580
and then this is what you're going to

762
00:30:03,529 --> 00:30:01,020
see all the time in the different news

763
00:30:06,470 --> 00:30:03,539

reports 171 uncharacterized and

764

00:30:08,450 --> 00:30:06,480

unattributed UAP reports uh demonstrated

765

00:30:10,250 --> 00:30:08,460

unusual flight characteristics or

766

00:30:13,070 --> 00:30:10,260

performance capabilities and require

767

00:30:15,230 --> 00:30:13,080

further analysis you know so this is

768

00:30:17,090 --> 00:30:15,240

really what everyone's interested in and

769

00:30:18,649 --> 00:30:17,100

that's what we get the least amount of

770

00:30:20,330 --> 00:30:18,659

details on you know going back to what

771

00:30:22,490 --> 00:30:20,340

you said Graham about I wish they'd give

772

00:30:25,010 --> 00:30:22,500

you some details on this stuff like give

773

00:30:26,810 --> 00:30:25,020

an example of one of those cases how is

774

00:30:28,490 --> 00:30:26,820

it so hard you know like and this is

775

00:30:30,590 --> 00:30:28,500

what we mean this is what it looks like

776

00:30:31,970 --> 00:30:30,600

like this case you know they can

777

00:30:33,169 --> 00:30:31,980

actually sanitize and they have done in

778

00:30:36,110 --> 00:30:33,179

the past there's precedence for this

779

00:30:38,269 --> 00:30:36,120

they have actually included cases

780

00:30:41,090 --> 00:30:38,279

um Blue Book special status report 14

781

00:30:42,889 --> 00:30:41,100

actually had 12 cases in it which they

782

00:30:45,350 --> 00:30:42,899

they sanitize the details so they took

783

00:30:47,389 --> 00:30:45,360

the the location Edition and the name of

784

00:30:48,769 --> 00:30:47,399

the witness and even the actually

785

00:30:51,110 --> 00:30:48,779

include the date so you could actually

786

00:30:52,850 --> 00:30:51,120

work out now which ones they are but

787

00:30:54,409 --> 00:30:52,860

there and then even the summary wasn't

788

00:30:56,330 --> 00:30:54,419

anywhere near the amount of detail for

789

00:30:58,789 --> 00:30:56,340

the cases and they had an artist that

790

00:31:00,529 --> 00:30:58,799

came in and redrew the sketches so there

791

00:31:03,169 --> 00:31:00,539

weren't it all was what the original

792

00:31:04,490 --> 00:31:03,179

sketches look like either but at least

793

00:31:06,649 --> 00:31:04,500

they added some information in for

794

00:31:09,830 --> 00:31:06,659

people to look at although it was as

795

00:31:11,450 --> 00:31:09,840

we've discussed off off air it wasn't

796

00:31:13,789 --> 00:31:11,460

actually something the public could have

797

00:31:16,010 --> 00:31:13,799

easy access to very own you got a

798

00:31:18,289 --> 00:31:16,020

summary and a press release much like

799

00:31:19,730 --> 00:31:18,299

what we're getting now we're getting you

800

00:31:21,049 --> 00:31:19,740

know the the comments from the Pentagon

801
00:31:23,750 --> 00:31:21,059
through the print through the Press um

802
00:31:25,909 --> 00:31:23,760
The Briefing but also just the executive

803
00:31:28,130 --> 00:31:25,919
summary of the report so nothing really

804
00:31:29,630 --> 00:31:28,140
changes but you're uh but you're both

805
00:31:32,149 --> 00:31:29,640
right there are things to pull from this

806
00:31:33,649 --> 00:31:32,159
which we haven't seen before the one

807
00:31:35,210 --> 00:31:33,659
other thing as well is look we these

808
00:31:36,889 --> 00:31:35,220
numbers that they've given us we knew

809
00:31:39,169 --> 00:31:36,899
these numbers or these numbers were

810
00:31:40,990 --> 00:31:39,179
reported back in October when Josh

811
00:31:43,370 --> 00:31:41,000
Boswell and Christian

812
00:31:45,310 --> 00:31:43,380
they came out with these numbers so

813
00:31:47,269 --> 00:31:45,320

someone and the sources that they have

814

00:31:49,430 --> 00:31:47,279

are telling them the right information

815

00:31:51,710 --> 00:31:49,440

but what else was in that article that

816

00:31:53,630 --> 00:31:51,720

is not in here there are examples of

817

00:31:56,450 --> 00:31:53,640

cases I've got one next to me examples

818

00:31:58,909 --> 00:31:56,460

include video shot by Reaper drones and

819

00:32:01,070 --> 00:31:58,919

conducting surveillance that caught orbs

820

00:32:03,470 --> 00:32:01,080

flying around then suddenly bolting off

821

00:32:05,450 --> 00:32:03,480

so if you put I mean and this is still

822

00:32:06,830 --> 00:32:05,460

heavily speculative but if that

823

00:32:08,990 --> 00:32:06,840

information on the numbers is correct

824

00:32:11,510 --> 00:32:09,000

then what's to say that this information

825

00:32:13,730 --> 00:32:11,520

about these Reaper drone and orbs is not

826

00:32:19,690 --> 00:32:13,740

also correct it begs the question at

827

00:32:23,450 --> 00:32:22,010

you know you wonder what kind of

828

00:32:25,010 --> 00:32:23,460

intelligence value somebody to be able

829

00:32:27,769 --> 00:32:25,020

to get out of that particular statement

830

00:32:29,389 --> 00:32:27,779

and why it wasn't included but those are

831

00:32:32,029 --> 00:32:29,399

decisions that aren't made by us are

832

00:32:33,649 --> 00:32:32,039

they so yeah well what they what they

833

00:32:37,310 --> 00:32:33,659

don't want to do is is give information

834

00:32:39,230 --> 00:32:37,320

that could lead people to

835

00:32:41,389 --> 00:32:39,240

um you know kind of like what I was

836

00:32:42,649 --> 00:32:41,399

talking about earlier you know orbs are

837

00:32:44,389 --> 00:32:42,659

in the headlines and then all of a

838

00:32:46,070 --> 00:32:44,399

sudden picking up orbs in the Middle

839

00:32:47,450 --> 00:32:46,080

East and then what are these orbs now

840

00:32:49,970 --> 00:32:47,460

they got to make another report that

841

00:32:52,250 --> 00:32:49,980

details what orbs are and balloon-like

842

00:32:53,870 --> 00:32:52,260

entities isn't going to cut it I guess

843

00:32:55,190 --> 00:32:53,880

also there's another dimension as well

844

00:32:57,710 --> 00:32:55,200

isn't it because if the more information

845

00:33:00,049 --> 00:32:57,720

they gave out which is can be checked

846

00:33:01,850 --> 00:33:00,059

even if it's quite Anonymous you could

847

00:33:02,990 --> 00:33:01,860

almost you know there might be ways of

848

00:33:04,850 --> 00:33:03,000

actually finding out when and where

849

00:33:07,789 --> 00:33:04,860

something happened and then that leads

850

00:33:08,810 --> 00:33:07,799

to foils doesn't it so the last thing

851

00:33:10,850 --> 00:33:08,820

they want to do is Lay enough

852

00:33:12,889 --> 00:33:10,860

information down that people can then

853

00:33:14,269 --> 00:33:12,899

sort of you know go to them and say well

854

00:33:16,009 --> 00:33:14,279

look we want all the information on this

855

00:33:18,769 --> 00:33:16,019

which they will then either have to

856

00:33:20,389 --> 00:33:18,779

provide or or deny or whatever but it

857

00:33:22,190 --> 00:33:20,399

then just adds more to their problems

858

00:33:23,750 --> 00:33:22,200

doesn't it uh that you know it's less

859

00:33:25,250 --> 00:33:23,760

information that they have to give out

860

00:33:27,169 --> 00:33:25,260

if they don't bother doing it in the

861

00:33:30,350 --> 00:33:27,179

first place and I'm sorry but that's

862

00:33:33,409 --> 00:33:30,360

like totally against transparency that's

863

00:33:36,889 --> 00:33:33,419

totally against working for them tell us

864

00:33:39,649 --> 00:33:36,899

about it like that's like not you're not

865

00:33:42,230 --> 00:33:39,659

supposed to cut Corners because it's

866

00:33:44,210 --> 00:33:42,240

difficult you know we pay a lot of taxes

867

00:33:47,330 --> 00:33:44,220

a lot of taxes you know and there's a

868

00:33:49,970 --> 00:33:47,340

lot of interest in this and you know for

869

00:33:51,710 --> 00:33:49,980

someone to just kind of hide the the

870

00:33:52,310 --> 00:33:51,720

meat so to speak

871

00:33:54,710 --> 00:33:52,320

um

872

00:33:56,750 --> 00:33:54,720

not not cool although you know we're

873

00:33:58,190 --> 00:33:56,760

kind of used to it but

874

00:33:59,810 --> 00:33:58,200

um hopefully something like that changes

875

00:34:02,570 --> 00:33:59,820

you know but we kind of see all these

876

00:34:04,789 --> 00:34:02,580

steps too that are that have been put in

877

00:34:09,050 --> 00:34:04,799

place recently which are just tighter

878

00:34:11,510 --> 00:34:09,060

restrictions on on UAP data like videos

879

00:34:13,730 --> 00:34:11,520

um all going to a more secured

880

00:34:16,010 --> 00:34:13,740

um you know system

881

00:34:17,570 --> 00:34:16,020

um and other classifications on UAP that

882

00:34:19,909 --> 00:34:17,580

make it harder to get that stuff out

883

00:34:21,530 --> 00:34:19,919

like um I put a link into in the

884

00:34:23,510 --> 00:34:21,540

description of this video and you can

885

00:34:26,030 --> 00:34:23,520

click on it and you can get a new batch

886

00:34:28,250 --> 00:34:26,040

of UAP reports

887

00:34:31,190 --> 00:34:28,260

um and you can look at those but you're

888

00:34:33,589 --> 00:34:31,200

not going to find any shapes any colors

889

00:34:35,210 --> 00:34:33,599

any characteristics nothing they're

890

00:34:36,770 --> 00:34:35,220

going to say such and such flew over

891

00:34:39,230 --> 00:34:36,780

here when he saw

892

00:34:43,129 --> 00:34:39,240

and then he said it looked like a

893

00:34:47,270 --> 00:34:43,139

but nobody knew how the color was so

894

00:34:49,010 --> 00:34:47,280

you know like and that's uh and you

895

00:34:51,710 --> 00:34:49,020

can't get anything from it you know and

896

00:34:53,030 --> 00:34:51,720

to me what that says to me is they're

897

00:34:54,349 --> 00:34:53,040

not saying it looked like a drone

898

00:34:56,149 --> 00:34:54,359

they're not saying it looked like a

899

00:34:58,070 --> 00:34:56,159

balloon they're not saying it it looked

900

00:34:59,750 --> 00:34:58,080

like an aircraft with its lights out

901
00:35:02,150 --> 00:34:59,760
they're saying it looked like something

902
00:35:03,410 --> 00:35:02,160
that would probably make headlines and

903
00:35:05,329 --> 00:35:03,420
that's why they're blacking it out

904
00:35:07,010 --> 00:35:05,339
they're blacking the stuff out because

905
00:35:10,310 --> 00:35:07,020
they don't want people to grab a hold of

906
00:35:12,950 --> 00:35:10,320
it and go you know off with it if if one

907
00:35:15,470 --> 00:35:12,960
report came out that said that the guy

908
00:35:18,050 --> 00:35:15,480
saw something that looked metallic and

909
00:35:21,530 --> 00:35:18,060
shaped like a disc it's over

910
00:35:25,849 --> 00:35:21,540
it's over you know at that point when

911
00:35:27,470 --> 00:35:25,859
that happens like there's no excuses

912
00:35:29,329 --> 00:35:27,480
you know so that's why they're not

913
00:35:31,250 --> 00:35:29,339

showing that stuff

914

00:35:32,810 --> 00:35:31,260

um not to say that that exists but if it

915

00:35:35,630 --> 00:35:32,820

did that would be a reason

916

00:35:37,670 --> 00:35:35,640

for them to hide it so

917

00:35:39,589 --> 00:35:37,680

just just you've just scroll past a bit

918

00:35:41,030 --> 00:35:39,599

I was just gonna highlight and it was

919

00:35:43,069 --> 00:35:41,040

looking at how they're going to analyze

920

00:35:44,450 --> 00:35:43,079

these things so it says arrows analytic

921

00:35:46,310 --> 00:35:44,460

mythology

922

00:35:48,470 --> 00:35:46,320

um sorry methodology requires a whole a

923

00:35:49,930 --> 00:35:48,480

government approach to resolving you've

924

00:35:52,910 --> 00:35:49,940

just gone past it again

925

00:35:55,190 --> 00:35:52,920

UAP events to include analysts and

926
00:35:57,290 --> 00:35:55,200
Science and Technology Specialists to

927
00:35:59,450 --> 00:35:57,300
help resolve UAP and that interests me

928
00:36:02,810 --> 00:35:59,460
to like are they good how far external

929
00:36:05,150 --> 00:36:02,820
outside of the dod that are they going

930
00:36:07,370 --> 00:36:05,160
to go to speak to analysts Science and

931
00:36:09,470 --> 00:36:07,380
Technology Specialists like that's a

932
00:36:11,690 --> 00:36:09,480
broad phrase and so that's I find that

933
00:36:13,790 --> 00:36:11,700
interesting and I think something to to

934
00:36:16,010 --> 00:36:13,800
dig in something I've got questions

935
00:36:17,990 --> 00:36:16,020
about a few people It also says I mean

936
00:36:19,670 --> 00:36:18,000
to to look at it as well it says it

937
00:36:21,109 --> 00:36:19,680
requires it doesn't mean to say they've

938
00:36:25,130 --> 00:36:21,119

actually got something in place either

939

00:36:26,990 --> 00:36:25,140

does it so I mean arrow is what

940

00:36:29,390 --> 00:36:27,000

Kirkpatrick we saw a few job

941

00:36:31,130 --> 00:36:29,400

descriptions advertised a few months

942

00:36:33,170 --> 00:36:31,140

back are they gonna are they gonna

943

00:36:35,569 --> 00:36:33,180

employ analysts Science and Technology

944

00:36:37,490 --> 00:36:35,579

Specialists yeah

945

00:36:38,810 --> 00:36:37,500

it's it's more a case of you know are

946

00:36:40,550 --> 00:36:38,820

they going to let this information out

947

00:36:43,250 --> 00:36:40,560

and how far they're going to let it out

948

00:36:44,510 --> 00:36:43,260

and exactly yeah that's the question

949

00:36:46,190 --> 00:36:44,520

isn't it

950

00:36:47,810 --> 00:36:46,200

um because just because they say oh yes

951
00:36:49,849 --> 00:36:47,820
it needs to doesn't mean to say it's how

952
00:36:51,530 --> 00:36:49,859
they're going to get done as well or if

953
00:36:53,569 --> 00:36:51,540
it gets done it's going to be buried so

954
00:36:56,990 --> 00:36:53,579
far away in a special Access program

955
00:36:59,630 --> 00:36:57,000
yeah but having these people send ndas

956
00:37:01,490 --> 00:36:59,640
you know like again we only have this to

957
00:37:03,050 --> 00:37:01,500
really compare it to as far as documents

958
00:37:04,910 --> 00:37:03,060
so I keep going back to Blue Book but

959
00:37:06,890 --> 00:37:04,920
Blue Book had there are people that they

960
00:37:08,750 --> 00:37:06,900
go to too that people had no idea about

961
00:37:13,069 --> 00:37:08,760
like whether it be professors that were

962
00:37:15,829 --> 00:37:13,079
at MIT or you know a psychologist or

963
00:37:17,870 --> 00:37:15,839

whoever they had their consultants and

964

00:37:20,569 --> 00:37:17,880

you know this is probably going to be

965

00:37:22,609 --> 00:37:20,579

somewhat of you know the same type of

966

00:37:24,410 --> 00:37:22,619

thing where if there's a radar return

967

00:37:25,849 --> 00:37:24,420

that is really just bizarre they'll

968

00:37:28,370 --> 00:37:25,859

probably go to the radar specialist

969

00:37:29,810 --> 00:37:28,380

wherever that person is you know I think

970

00:37:31,910 --> 00:37:29,820

one thing as well is that Congress have

971

00:37:33,710 --> 00:37:31,920

never been had their eyes as firmly on

972

00:37:34,930 --> 00:37:33,720

on something like this is that you know

973

00:37:37,550 --> 00:37:34,940

this is the first time that it's been

974

00:37:39,710 --> 00:37:37,560

absolutely you know looking over the

975

00:37:41,510 --> 00:37:39,720

shoulder of these people so they've got

976
00:37:43,370 --> 00:37:41,520
to reach the mandates of Congress and

977
00:37:45,410 --> 00:37:43,380
they will get you know these oversight

978
00:37:48,170 --> 00:37:45,420
committees breathing down their necks as

979
00:37:50,089 --> 00:37:48,180
well I think that's good to to be aware

980
00:37:52,609 --> 00:37:50,099
of as well that's a great Point Benny

981
00:37:54,050 --> 00:37:52,619
like as far as you know the you know

982
00:37:55,970 --> 00:37:54,060
going back I know there are some

983
00:37:57,829 --> 00:37:55,980
differences between this and and what

984
00:38:00,290 --> 00:37:57,839
happened in the past and one of those is

985
00:38:03,589 --> 00:38:00,300
what you just said uh never is Congress

986
00:38:06,710 --> 00:38:03,599
taken this taken this this far as far as

987
00:38:09,589 --> 00:38:06,720
mandated legislation rule of law Donald

988
00:38:12,589 --> 00:38:09,599

Keyhole busted his butt to try to get

989

00:38:14,750 --> 00:38:12,599

Congress to do something about this

990

00:38:16,550 --> 00:38:14,760

um and what would happen is the the

991

00:38:18,109 --> 00:38:16,560

different Representatives would actually

992

00:38:20,030 --> 00:38:18,119

get briefings by the Air Force or

993

00:38:22,550 --> 00:38:20,040

whatever and by the end of it they

994

00:38:25,250 --> 00:38:22,560

didn't care anymore you know

995

00:38:27,589 --> 00:38:25,260

so this is different and so that's it's

996

00:38:29,329 --> 00:38:27,599

good that you pointed that out I did uh

997

00:38:30,650 --> 00:38:29,339

highlight this odni and arrow have

998

00:38:32,690 --> 00:38:30,660

maintained communication with their

999

00:38:35,930 --> 00:38:32,700

Allied Partners regarding UAP because

1000

00:38:38,930 --> 00:38:35,940

well if if you look and ask somebody

1001

00:38:40,670 --> 00:38:38,940

whether it be Australia or Britain uh

1002

00:38:42,650 --> 00:38:40,680

they're they're not going to say that

1003

00:38:44,750 --> 00:38:42,660

they're going to say we haven't talked

1004

00:38:53,650 --> 00:38:44,760

to them Australia I know for sure has

1005

00:38:59,210 --> 00:38:56,630

this morning uh it was it was it was

1006

00:39:01,730 --> 00:38:59,220

said that was the case uh but yeah I

1007

00:39:04,370 --> 00:39:01,740

mean UK which is plural right I mean

1008

00:39:06,710 --> 00:39:04,380

sorry Partners is plural right so that

1009

00:39:08,630 --> 00:39:06,720

would imply more than one it would imply

1010

00:39:10,250 --> 00:39:08,640

at least the five eyes yeah absolutely

1011

00:39:12,170 --> 00:39:10,260

and that's more likely what it would be

1012

00:39:14,690 --> 00:39:12,180

but also you just wonder what kind of

1013

00:39:17,089 --> 00:39:14,700

you know how much information shared or

1014

00:39:19,190 --> 00:39:17,099

is it a case of you know they ask say

1015

00:39:21,290 --> 00:39:19,200

Britain for information on what the RAF

1016

00:39:23,390 --> 00:39:21,300

are picking up and then what happens to

1017

00:39:24,829 --> 00:39:23,400

in the direction do the Americans then

1018

00:39:26,750 --> 00:39:24,839

give them information so yeah this is

1019

00:39:28,370 --> 00:39:26,760

what we found out about UAP or is it

1020

00:39:29,750 --> 00:39:28,380

just like a one-way Street

1021

00:39:31,310 --> 00:39:29,760

um I would have thought more information

1022

00:39:33,109 --> 00:39:31,320

probably goes to America because they're

1023

00:39:35,210 --> 00:39:33,119

the people who actually have a analysis

1024

00:39:37,849 --> 00:39:35,220

program at least that we're aware of at

1025

00:39:40,310 --> 00:39:37,859

the moment on the go whereas it looks

1026

00:39:41,870 --> 00:39:40,320

like the mot at the moment unless we

1027

00:39:43,490 --> 00:39:41,880

sort of definitely know different have

1028

00:39:46,370 --> 00:39:43,500

nothing in place or at least nothing

1029

00:39:48,589 --> 00:39:46,380

that's publicly acknowledged yeah so

1030

00:39:51,230 --> 00:39:48,599

there are shared systems between the

1031

00:39:53,630 --> 00:39:51,240

five eyes Services where you know people

1032

00:39:55,930 --> 00:39:53,640

with top secret SCI clearance or the

1033

00:39:58,310 --> 00:39:55,940

equivalent of in the whichever country

1034

00:40:00,230 --> 00:39:58,320

which is probably not a lot of people in

1035

00:40:02,450 --> 00:40:00,240

the UK to be honest really when the

1036

00:40:04,790 --> 00:40:02,460

grand scheme of things so

1037

00:40:08,150 --> 00:40:04,800

they have access and the UK have access

1038

00:40:11,810 --> 00:40:08,160

to certain data points let's say sensor

1039

00:40:13,250 --> 00:40:11,820

data video data but we'll you know as

1040

00:40:15,230 --> 00:40:13,260

Graham knows all too well the

1041

00:40:17,930 --> 00:40:15,240

boilerplate responses still come thick

1042

00:40:20,030 --> 00:40:17,940

and fast when it contacted in any way

1043

00:40:21,410 --> 00:40:20,040

shape or form and it says maintain

1044

00:40:22,670 --> 00:40:21,420

communication but that doesn't mean to

1045

00:40:24,890 --> 00:40:22,680

say it's on any kind of official level

1046

00:40:27,349 --> 00:40:24,900

either exactly it could be a like a a

1047

00:40:29,089 --> 00:40:27,359

very unofficial appeal sort of just like

1048

00:40:31,250 --> 00:40:29,099

um you know something like an ad hoc

1049

00:40:33,710 --> 00:40:31,260

Arrangement where they talk to certain

1050

00:40:35,210 --> 00:40:33,720

people at certain times uh it doesn't

1051
00:40:38,210 --> 00:40:35,220
have to go through official channels

1052
00:40:40,190 --> 00:40:38,220
yeah so yeah who knows what the

1053
00:40:41,569 --> 00:40:40,200
arrangements are they could just be the

1054
00:40:44,030 --> 00:40:41,579
swapping pictures of balloon entities

1055
00:40:45,420 --> 00:40:44,040
it'll be the desk clerk at second yes

1056
00:40:48,589 --> 00:40:45,430
hello

1057
00:40:53,510 --> 00:40:50,870
oh yes I can write this down how big was

1058
00:40:56,390 --> 00:40:53,520
it now all right

1059
00:40:59,270 --> 00:40:56,400
I headed this department God damn it I

1060
00:41:00,950 --> 00:40:59,280
wrote down so much stuff okay so

1061
00:41:02,810 --> 00:41:00,960
um the other thing uh to date there have

1062
00:41:05,150 --> 00:41:02,820
been no reported collisions between you

1063
00:41:07,550 --> 00:41:05,160

as aircraft and UAP again very

1064

00:41:09,290 --> 00:41:07,560

misleading because the first thing I

1065

00:41:10,910 --> 00:41:09,300

could say is

1066

00:41:13,190 --> 00:41:10,920

um how about near collisions which we

1067

00:41:16,130 --> 00:41:13,200

learned about a lot of them uh in the

1068

00:41:18,890 --> 00:41:16,140

last report and you know so when they go

1069

00:41:20,930 --> 00:41:18,900

back to 1945 I don't think that they're

1070

00:41:23,450 --> 00:41:20,940

going to be bringing this stuff up you

1071

00:41:25,550 --> 00:41:23,460

know but The Mantel case I think we

1072

00:41:27,170 --> 00:41:25,560

should get this on the record quick uh

1073

00:41:30,430 --> 00:41:27,180

Graham because people have written about

1074

00:41:33,530 --> 00:41:30,440

this recently and said it was a balloon

1075

00:41:36,890 --> 00:41:33,540

but can you quick tell us in The Mantel

1076

00:41:40,490 --> 00:41:36,900

case in 1948 Captain mantel died from

1077

00:41:44,170 --> 00:41:40,500

chasing a UFO why was it not a balloon

1078

00:41:47,089 --> 00:41:44,180

it wasn't a balloon because well the the

1079

00:41:48,710 --> 00:41:47,099

rupelt reckoned it was a Skyhook and

1080

00:41:51,290 --> 00:41:48,720

that was one of the secret U.S Navy

1081

00:41:53,089 --> 00:41:51,300

projects at the time but when he said it

1082

00:41:54,290 --> 00:41:53,099

would have been launch from they weren't

1083

00:41:55,790 --> 00:41:54,300

launching them from there at the time

1084

00:41:57,770 --> 00:41:55,800

the the one of the people who actually

1085

00:41:59,150 --> 00:41:57,780

worked on the program said that the

1086

00:42:00,950 --> 00:41:59,160

location that he said it must have come

1087

00:42:02,390 --> 00:42:00,960

from hadn't been operating it wasn't

1088

00:42:04,970 --> 00:42:02,400

operating until three years afterwards

1089

00:42:06,710 --> 00:42:04,980

or something like that so and also the

1090

00:42:08,810 --> 00:42:06,720

times it went the height it was at

1091

00:42:11,150 --> 00:42:08,820

there's a whole real a lot of things you

1092

00:42:12,770 --> 00:42:11,160

can go into that just say it's not the

1093

00:42:14,450 --> 00:42:12,780

case but there were other cases around

1094

00:42:16,910 --> 00:42:14,460

the same time where there were head-on

1095

00:42:18,410 --> 00:42:16,920

passes by objects at airplanes the

1096

00:42:20,630 --> 00:42:18,420

George Goldman case first of October

1097

00:42:22,550 --> 00:42:20,640

1948 is one of them there'd also been

1098

00:42:25,609 --> 00:42:22,560

things from World War II where they'd

1099

00:42:27,890 --> 00:42:25,619

been head-on passes by lights and they'd

1100

00:42:30,290 --> 00:42:27,900

been the mission 115 or schweinfelt

1101

00:42:31,849 --> 00:42:30,300

where a show of things fell on on the

1102

00:42:35,450 --> 00:42:31,859

aircraft and one struck an aircraft

1103

00:42:37,790 --> 00:42:35,460

allegedly so there are cases of sort of

1104

00:42:39,470 --> 00:42:37,800

impacts at least with odd things and and

1105

00:42:41,210 --> 00:42:39,480

aircraft but whether or not it's

1106

00:42:43,550 --> 00:42:41,220

actually a reported Collision then

1107

00:42:45,770 --> 00:42:43,560

that's a different story and to do in in

1108

00:42:48,170 --> 00:42:45,780

terms of their cases that they have

1109

00:42:49,609 --> 00:42:48,180

these 510 cases that were collected then

1110

00:42:51,290 --> 00:42:49,619

they could well be corrected so they've

1111

00:42:53,630 --> 00:42:51,300

been very important collisions but I bet

1112

00:42:55,370 --> 00:42:53,640

there's been the emissions sure well we

1113

00:42:57,230 --> 00:42:55,380

know that yeah

1114

00:42:58,490 --> 00:42:57,240

um health concerns interesting I think

1115

00:43:00,410 --> 00:42:58,500

it was Katie Holland who actually

1116

00:43:02,270 --> 00:43:00,420

pointed this out to me

1117

00:43:04,730 --> 00:43:02,280

um or mentioned on Twitter I can't

1118

00:43:06,349 --> 00:43:04,740

remember which you the way they talk

1119

00:43:08,690 --> 00:43:06,359

about adverse health effects UAP

1120

00:43:11,150 --> 00:43:08,700

confirmed there have been no encounters

1121

00:43:14,089 --> 00:43:11,160

with UAP confirmed to contribute

1122

00:43:16,910 --> 00:43:14,099

directly to Everest health related

1123

00:43:19,309 --> 00:43:16,920

effects to the Observer so confirmed to

1124

00:43:22,130 --> 00:43:19,319

contribute directly first of all UAP

1125

00:43:23,930 --> 00:43:22,140

stands for unidentified right so if

1126

00:43:25,490 --> 00:43:23,940

something's unidentified how are you

1127

00:43:27,349 --> 00:43:25,500

going to know if it actually did

1128

00:43:29,750 --> 00:43:27,359

something bad to somebody especially if

1129

00:43:31,790 --> 00:43:29,760

it's with some RF or electromagnetic

1130

00:43:34,550 --> 00:43:31,800

frequency you know you're you're not

1131

00:43:36,290 --> 00:43:34,560

gonna be able to to prove something like

1132

00:43:37,849 --> 00:43:36,300

that really so

1133

00:43:40,550 --> 00:43:37,859

yeah I think what's important with that

1134

00:43:42,470 --> 00:43:40,560

as well is that the cases looked at Prim

1135

00:43:44,589 --> 00:43:42,480

predominantly in this report were from

1136

00:43:47,930 --> 00:43:44,599

the one year period

1137

00:43:49,309 --> 00:43:47,940

2021-2022 And if you think about cases

1138

00:43:51,650 --> 00:43:49,319

that we've heard of historically that

1139

00:43:53,990 --> 00:43:51,660

involve adverse health effects a lot of

1140

00:43:56,270 --> 00:43:54,000

the cases they don't seem to spring up

1141

00:43:58,849 --> 00:43:56,280

with any negative effects maybe for a

1142

00:44:01,190 --> 00:43:58,859

year two three longer down the road so

1143

00:44:03,890 --> 00:44:01,200

something to bear in mind I think yeah

1144

00:44:05,690 --> 00:44:03,900

like uh the rental shrimp case Burrows

1145

00:44:07,730 --> 00:44:05,700

didn't know about it yeah yeah and that

1146

00:44:11,150 --> 00:44:07,740

he was kind of screwed up until later

1147

00:44:13,790 --> 00:44:11,160

and that's a confirmed case because the

1148

00:44:17,089 --> 00:44:13,800

government ponied up money

1149

00:44:18,770 --> 00:44:17,099

um to pay him for for what he went

1150

00:44:24,470 --> 00:44:18,780

through there so that's a confirmed

1151

00:44:26,450 --> 00:44:24,480

Health effect from a UAP so I mean I can

1152

00:44:28,790 --> 00:44:26,460

think of have been instant effects would

1153

00:44:30,890 --> 00:44:28,800

be Cashland room 1980 and also the

1154

00:44:33,230 --> 00:44:30,900

Falcon Lake uh case where you have that

1155

00:44:34,870 --> 00:44:33,240

uh grid over his chest and there have

1156

00:44:37,430 --> 00:44:34,880

been there have been others like

1157

00:44:39,770 --> 00:44:37,440

there was a young girl who said she got

1158

00:44:41,410 --> 00:44:39,780

burned or whatever but as far as like

1159

00:44:43,670 --> 00:44:41,420

you know this of government

1160

00:44:45,410 --> 00:44:43,680

documentation that we're paying you

1161

00:44:47,450 --> 00:44:45,420

because of the health effects you

1162

00:44:48,890 --> 00:44:47,460

encountered during this UAP incident but

1163

00:44:50,150 --> 00:44:48,900

also what about psychological effects

1164

00:44:51,530 --> 00:44:50,160

because that health effects as well

1165

00:44:53,510 --> 00:44:51,540

aren't they yeah sure they've been

1166

00:44:55,550 --> 00:44:53,520

damaged through con you know through

1167

00:44:58,730 --> 00:44:55,560

alleged contact and sightings and all

1168

00:45:01,190 --> 00:44:58,740

the rest of it so you know you could add

1169

00:45:02,930 --> 00:45:01,200

that to that list and if they do this

1170

00:45:04,430 --> 00:45:02,940

historical you know sort of uh

1171

00:45:06,290 --> 00:45:04,440

retrospective they're going to find a

1172

00:45:09,710 --> 00:45:06,300

lot of cases that do which before that

1173

00:45:11,329 --> 00:45:09,720

remate yeah uh UAP continue to represent

1174

00:45:13,790 --> 00:45:11,339

a hazard of flight safety impose a

1175

00:45:16,250 --> 00:45:13,800

possible adversary collection threat you

1176

00:45:18,710 --> 00:45:16,260

know I know this this may seem like a

1177

00:45:21,109 --> 00:45:18,720

leap to some people but a possible

1178

00:45:24,230 --> 00:45:21,119

adversary collection threat doesn't just

1179

00:45:27,650 --> 00:45:24,240

mean Russia or China you know in the uh

1180

00:45:30,230 --> 00:45:27,660

event that uh let's say aliens were here

1181

00:45:32,690 --> 00:45:30,240

in a flying saucer hovering over our

1182

00:45:35,950 --> 00:45:32,700

nuclear stuff that would fall into

1183

00:45:38,630 --> 00:45:35,960

possible adversary collection threat

1184

00:45:40,550 --> 00:45:38,640

you know so that's something to keep in

1185

00:45:42,530 --> 00:45:40,560

mind too as far as another intelligence

1186

00:45:44,450 --> 00:45:42,540

if it was you know a lot of people say

1187

00:45:45,829 --> 00:45:44,460

they're here watching us or whatever or

1188

00:45:47,390 --> 00:45:45,839

they're concerned with their nukes if

1189

00:45:49,970 --> 00:45:47,400

they're flying around that stuff that

1190

00:45:52,089 --> 00:45:49,980

would fall right into that so you know

1191

00:45:56,270 --> 00:45:52,099

they're not gonna do a separate one for

1192

00:45:58,730 --> 00:45:56,280

balloon-like entities you know so

1193

00:46:01,609 --> 00:45:58,740

coordinated efforts between DOD that I

1194

00:46:02,329 --> 00:46:01,619

see and other government agencies

1195

00:46:04,609 --> 00:46:02,339

um

1196

00:46:06,290 --> 00:46:04,619

so this is just kind of goes to stuff we

1197

00:46:08,990 --> 00:46:06,300

talked about already a whole government

1198

00:46:11,470 --> 00:46:09,000

robust approach

1199

00:46:15,050 --> 00:46:11,480

This Is The Stuff Congress wants to see

1200

00:46:17,390 --> 00:46:15,060

these appendix appendixes at the end is

1201
00:46:18,589 --> 00:46:17,400
exactly what Congress want to see and

1202
00:46:20,510 --> 00:46:18,599
then what they want to see them actually

1203
00:46:22,010 --> 00:46:20,520
follow through with what they're asking

1204
00:46:24,109 --> 00:46:22,020
what they're saying they're going to do

1205
00:46:26,450 --> 00:46:24,119
because this is still to me this is

1206
00:46:29,390 --> 00:46:26,460
still the very start and early days of

1207
00:46:31,790 --> 00:46:29,400
Arrow you know yeah Patrick just jumped

1208
00:46:33,710 --> 00:46:31,800
in and and to me it kind of and we'll

1209
00:46:35,569 --> 00:46:33,720
get to this but um here I just

1210
00:46:38,210 --> 00:46:35,579
highlighted you know requirement not

1211
00:46:40,970 --> 00:46:38,220
later in the 31st October that didn't

1212
00:46:45,050 --> 00:46:42,410
um but all these things that they didn't

1213
00:46:46,309 --> 00:46:45,060

give us any information on yada yada you

1214

00:46:47,270 --> 00:46:46,319

know which would have been nice to get

1215

00:46:47,930 --> 00:46:47,280

but

1216

00:46:51,170 --> 00:46:47,940

um

1217

00:46:54,230 --> 00:46:51,180

you can kind of tell the the difference

1218

00:46:57,109 --> 00:46:54,240

at least right now in between

1219

00:47:00,770 --> 00:46:57,119

um what the status quo was and what it

1220

00:47:03,589 --> 00:47:00,780

may be with Sean Kirkpatrick this report

1221

00:47:05,650 --> 00:47:03,599

you don't really get much right but when

1222

00:47:08,150 --> 00:47:05,660

you look at

1223

00:47:10,130 --> 00:47:08,160

what I get from this report is a lot of

1224

00:47:12,710 --> 00:47:10,140

ideas like here's where we are we

1225

00:47:14,510 --> 00:47:12,720

gathered all these reports

1226

00:47:16,370 --> 00:47:14,520

um and we don't really know but it's

1227

00:47:18,349 --> 00:47:16,380

mandated to tell you something so we got

1228

00:47:23,210 --> 00:47:18,359

to tell you something yeah um so here

1229

00:47:26,510 --> 00:47:23,220

you go and then when we kind of get into

1230

00:47:28,970 --> 00:47:26,520

um what came out as far as Sean

1231

00:47:32,329 --> 00:47:28,980

Kirkpatrick's

1232

00:47:34,970 --> 00:47:32,339

um slides you can kind of see what the

1233

00:47:37,670 --> 00:47:34,980

intent is now exactly it's a lot clearer

1234

00:47:39,530 --> 00:47:37,680

in this right so we kind of looked at

1235

00:47:43,790 --> 00:47:39,540

where they're at which is not very far

1236

00:47:46,250 --> 00:47:43,800

they just have a bunch of uh cases

1237

00:47:48,849 --> 00:47:46,260

most of which don't seem to even be

1238

00:47:53,510 --> 00:47:48,859

positively identified

1239

00:47:55,550 --> 00:47:53,520

and no we have the planet action so so

1240

00:47:57,470 --> 00:47:55,560

this is pretty interesting it's all

1241

00:47:59,690 --> 00:47:57,480

stuff that seems like it was in the

1242

00:48:00,950 --> 00:47:59,700

Congressional language already I mean

1243

00:48:02,690 --> 00:48:00,960

here they're using unidentified

1244

00:48:05,150 --> 00:48:02,700

anomalous phenomenon so you can see

1245

00:48:07,010 --> 00:48:05,160

there's a switch over from aerial to

1246

00:48:09,829 --> 00:48:07,020

anomalous but that way you see it says

1247

00:48:11,930 --> 00:48:09,839

spaceborne Airborne sebon ortrans medium

1248

00:48:14,510 --> 00:48:11,940

light that's what we want to see bold

1249

00:48:16,130 --> 00:48:14,520

yeah that's it there's no like does that

1250

00:48:18,730 --> 00:48:16,140

mean trans medium does it mean this

1251
00:48:22,430 --> 00:48:18,740
doesn't mean we're getting clear clear

1252
00:48:26,030 --> 00:48:23,809
um well yeah which is completely

1253
00:48:28,010 --> 00:48:26,040
important so there's really technical

1254
00:48:29,690 --> 00:48:28,020
stuff here

1255
00:48:31,670 --> 00:48:29,700
um you know minimize Technical and

1256
00:48:33,530 --> 00:48:31,680
intelligence surprise you know that's

1257
00:48:36,290 --> 00:48:33,540
always the goal of whoever's looking at

1258
00:48:38,510 --> 00:48:36,300
these UFOs right Graham like even attic

1259
00:48:41,270 --> 00:48:38,520
yeah during Blue Book that that was

1260
00:48:44,390 --> 00:48:41,280
their real mission of course to you know

1261
00:48:46,550 --> 00:48:44,400
avoid surprise like that so

1262
00:48:48,650 --> 00:48:46,560
um so that makes complete sense

1263
00:48:50,210 --> 00:48:48,660

their Vision unidentified anomalous

1264

00:48:52,069 --> 00:48:50,220

objects are effectively and efficiently

1265

00:48:54,109 --> 00:48:52,079

detected tract analyzed and managed by

1266

00:48:56,270 --> 00:48:54,119

way of normalized DOD IC and civil

1267

00:48:57,710 --> 00:48:56,280

business practices by adherence to the

1268

00:48:59,750 --> 00:48:57,720

highest scientific and intelligence

1269

00:49:01,970 --> 00:48:59,760

trait graph standards greater

1270

00:49:04,550 --> 00:49:01,980

transparency and shared awareness you

1271

00:49:07,190 --> 00:49:04,560

had to have Chad GPT right there because

1272

00:49:09,589 --> 00:49:07,200

that is just wonderful before you scroll

1273

00:49:12,710 --> 00:49:09,599

the the Box on the right hand side the

1274

00:49:14,390 --> 00:49:12,720

second Point down it says the Gap and

1275

00:49:16,010 --> 00:49:14,400

right at the end of that sentence the

1276
00:49:19,670 --> 00:49:16,020
gap between phenomena and the United

1277
00:49:20,990 --> 00:49:19,680
States as far as technological you know

1278
00:49:22,250 --> 00:49:21,000
that's what they're going to be looking

1279
00:49:25,130 --> 00:49:22,260
at you know when they talk about

1280
00:49:26,990 --> 00:49:25,140
capabilities that seem anomalous you

1281
00:49:28,849 --> 00:49:27,000
know this is what they're looking at

1282
00:49:30,290 --> 00:49:28,859
they're looking at how far Advanced are

1283
00:49:32,030 --> 00:49:30,300
the things that we're witnessing to what

1284
00:49:34,630 --> 00:49:32,040
we know we're capable of

1285
00:49:38,750 --> 00:49:36,829
do you see the other one as well the

1286
00:49:41,450 --> 00:49:38,760
second from bottom is indications of

1287
00:49:44,030 --> 00:49:41,460
foreign observation of and reaction to

1288
00:49:45,650 --> 00:49:44,040

phenomena yeah so that was an

1289

00:49:49,069 --> 00:49:45,660

interesting one as well are they looking

1290

00:49:52,130 --> 00:49:49,079

at what other other countries are coming

1291

00:49:54,829 --> 00:49:52,140

up with and that's could be why

1292

00:49:57,410 --> 00:49:54,839

Kirkpatrick linked this like Chinese

1293

00:50:00,589 --> 00:49:57,420

yeah exactly that was the only link on

1294

00:50:02,710 --> 00:50:00,599

the whole slide right went straight to

1295

00:50:05,329 --> 00:50:02,720

China so straight to your Chinese

1296

00:50:07,790 --> 00:50:05,339

wanting to collaborate on on looking at

1297

00:50:09,650 --> 00:50:07,800

UAP yeah so China's looking at UAP

1298

00:50:11,089 --> 00:50:09,660

they're actually you know at least

1299

00:50:13,609 --> 00:50:11,099

supposedly

1300

00:50:16,309 --> 00:50:13,619

um using AI to help them out artificial

1301
00:50:18,410 --> 00:50:16,319
intelligence so you know a lot of this

1302
00:50:21,530 --> 00:50:18,420
comes down to why

1303
00:50:23,630 --> 00:50:21,540
the U.S government started remote

1304
00:50:25,190 --> 00:50:23,640
viewing and looking at parapsychology

1305
00:50:27,000 --> 00:50:25,200
why did they do that they did that

1306
00:50:29,690 --> 00:50:27,010
because they learned Russia was

1307
00:50:31,790 --> 00:50:29,700
[Laughter]

1308
00:50:33,890 --> 00:50:31,800
so if China is looking at this too

1309
00:50:35,990 --> 00:50:33,900
Russia is looking at this too they have

1310
00:50:38,930 --> 00:50:36,000
to look at it you know because that goes

1311
00:50:40,790 --> 00:50:38,940
against one of their missions which is

1312
00:50:42,710 --> 00:50:40,800
avoiding or minimizing technical

1313
00:50:47,150 --> 00:50:42,720

intelligence surprise like if they get

1314

00:50:50,569 --> 00:50:48,530

um they're using words like the safety

1315

00:50:53,089 --> 00:50:50,579

of civil society as well

1316

00:50:54,410 --> 00:50:53,099

yeah we talked about civil aviation in

1317

00:50:56,870 --> 00:50:54,420

the report but now we're talking about

1318

00:50:58,809 --> 00:50:56,880

Society I mean this is kind of scary

1319

00:51:02,809 --> 00:50:58,819

there's a lot more telling

1320

00:51:06,650 --> 00:51:03,589

um

1321

00:51:08,870 --> 00:51:06,660

reporting on UAP proximity Street we

1322

00:51:10,670 --> 00:51:08,880

already kind of but I thought this was

1323

00:51:15,230 --> 00:51:10,680

interesting critical infrastructure

1324

00:51:18,470 --> 00:51:15,240

primarily historical hmm so they're

1325

00:51:19,910 --> 00:51:18,480

primarily historical analysis yeah like

1326

00:51:21,530 --> 00:51:19,920

Maelstrom and all that kind of stuff

1327

00:51:23,150 --> 00:51:21,540

that's what it says isn't it that's like

1328

00:51:24,829 --> 00:51:23,160

and we've heard that you know Robert

1329

00:51:27,530 --> 00:51:24,839

Salas himself has said that he's been

1330

00:51:28,670 --> 00:51:27,540

asked to a brief Arrow directly so I

1331

00:51:30,710 --> 00:51:28,680

assume he's going to sit down with

1332

00:51:32,510 --> 00:51:30,720

Kirkpatrick and whoever Patrick has with

1333

00:51:34,790 --> 00:51:32,520

him some Deputy or something like that

1334

00:51:36,109 --> 00:51:34,800

and Mario Woods said the same thing so

1335

00:51:38,390 --> 00:51:36,119

he's

1336

00:51:40,490 --> 00:51:38,400

um talking to them as well I guess have

1337

00:51:43,010 --> 00:51:40,500

you spoken to Mario yeah a little bit

1338

00:51:46,010 --> 00:51:43,020

and he said a total of eight people

1339

00:51:47,990 --> 00:51:46,020

are were picked so he's interviewed him

1340

00:51:49,730 --> 00:51:48,000

yet no that's on Wednesday but he said

1341

00:51:52,910 --> 00:51:49,740

he said this

1342

00:51:54,170 --> 00:51:52,920

um like the last podcast he was on yeah

1343

00:51:57,170 --> 00:51:54,180

so

1344

00:51:59,109 --> 00:51:57,180

forward like the strengthening

1345

00:52:01,069 --> 00:51:59,119

observations and uh reporting around

1346

00:52:02,809 --> 00:52:01,079

similar places on there because that's

1347

00:52:06,170 --> 00:52:02,819

the bottom bit of that particular uh

1348

00:52:09,410 --> 00:52:06,180

column so there clearly notes an issue

1349

00:52:11,210 --> 00:52:09,420

um but you know the experts uh that

1350

00:52:13,329 --> 00:52:11,220

appeared at the hearings didn't seem to

1351

00:52:15,410 --> 00:52:13,339

have a clue about it did they

1352

00:52:18,470 --> 00:52:15,420

who has actually talked about this

1353

00:52:21,049 --> 00:52:18,480

before and I think maybe John Ramirez

1354

00:52:22,849 --> 00:52:21,059

but consequence of such moderate to high

1355

00:52:25,190 --> 00:52:22,859

potential leading to adversarial

1356

00:52:27,530 --> 00:52:25,200

misattribution of UAP to the United

1357

00:52:29,450 --> 00:52:27,540

States so you know something coming in

1358

00:52:31,190 --> 00:52:29,460

on your radar you think it's a ballistic

1359

00:52:36,849 --> 00:52:31,200

missile or something all hell breaks

1360

00:52:41,630 --> 00:52:39,650

yeah it's just a balloon entity don't

1361

00:52:46,150 --> 00:52:41,640

shoot back

1362

00:52:52,309 --> 00:52:48,950

uh you can kind of tell Lou and Chris

1363

00:52:54,109 --> 00:52:52,319

melon had their hands and maybe not this

1364

00:52:56,510 --> 00:52:54,119

directly I can't I don't know I wouldn't

1365

00:52:58,010 --> 00:52:56,520

be able to say but I've heard it I've

1366

00:53:00,230 --> 00:52:58,020

heard them talk about a lot of this

1367

00:53:02,150 --> 00:53:00,240

stuff before you know yeah I mean you

1368

00:53:03,770 --> 00:53:02,160

have to mention melon's points that he

1369

00:53:06,370 --> 00:53:03,780

raised after the release of the article

1370

00:53:09,109 --> 00:53:06,380

as well uh the report sorry

1371

00:53:12,890 --> 00:53:09,119

these uh this language

1372

00:53:16,609 --> 00:53:12,900

interesting enigmatic signatures

1373

00:53:18,710 --> 00:53:16,619

um so yeah that's you know revealing

1374

00:53:20,569 --> 00:53:18,720

that these could be all over the place

1375

00:53:25,549 --> 00:53:20,579

basically

1376

00:53:31,970 --> 00:53:28,430

um subject to UAP Laden with here they

1377

00:53:34,849 --> 00:53:31,980

uh you know try to you know hit the UFO

1378

00:53:36,410 --> 00:53:34,859

crowd here subject to uap's Latin with

1379

00:53:39,109 --> 00:53:36,420

Decades of imprecise and often

1380

00:53:41,089 --> 00:53:39,119

Sensational information I can't disagree

1381

00:53:42,170 --> 00:53:41,099

I can't either but the good thing in the

1382

00:53:43,849 --> 00:53:42,180

other side of this is that they're

1383

00:53:46,970 --> 00:53:43,859

talking about potentially briefing

1384

00:53:48,470 --> 00:53:46,980

aviators on these these kind of things

1385

00:53:49,910 --> 00:53:48,480

which sounds like they're going to be

1386

00:53:51,829 --> 00:53:49,920

offering up more information to the

1387

00:53:53,809 --> 00:53:51,839

aviators to say this is what you need to

1388

00:53:56,030 --> 00:53:53,819

look out for here's some examples almost

1389

00:53:59,750 --> 00:53:56,040

giving them access to more data and

1390

00:54:02,270 --> 00:53:59,760

sensor data and and that on UAP which is

1391

00:54:04,910 --> 00:54:02,280

not necessarily a bad thing in the long

1392

00:54:07,430 --> 00:54:04,920

in the big picture necessarily for you

1393

00:54:09,170 --> 00:54:07,440

UFO Community but I can't believe

1394

00:54:11,329 --> 00:54:09,180

they're further down the road wouldn't

1395

00:54:13,010 --> 00:54:11,339

have done that a long time ago yeah well

1396

00:54:15,290 --> 00:54:13,020

but we're talking about these reporting

1397

00:54:16,609 --> 00:54:15,300

systems that arrow is bringing in it's

1398

00:54:18,770 --> 00:54:16,619

probably the first time we're hearing

1399

00:54:21,650 --> 00:54:18,780

about the Air Force reporting to this

1400

00:54:24,829 --> 00:54:21,660

system as well so again it's a first

1401
00:54:26,569 --> 00:54:24,839
another first and so let's wait until we

1402
00:54:29,510 --> 00:54:26,579
see second third fourth fifth further

1403
00:54:31,250 --> 00:54:29,520
down the road you know yeah

1404
00:54:33,230 --> 00:54:31,260
um this is interesting characteristics

1405
00:54:35,870 --> 00:54:33,240
including physical state solid liquid

1406
00:54:38,390 --> 00:54:35,880
gas plasma

1407
00:54:40,250 --> 00:54:38,400
size shape color we'll never see any of

1408
00:54:43,150 --> 00:54:40,260
that but it's interesting that they're

1409
00:54:46,790 --> 00:54:43,160
looking for it it is definitely

1410
00:54:48,710 --> 00:54:46,800
enigmatic capabilities

1411
00:54:52,309 --> 00:54:48,720
some serious buzzwords in this isn't

1412
00:54:54,890 --> 00:54:52,319
there yeah oh yes I don't even know how

1413
00:54:57,470 --> 00:54:54,900

Dean got this you know he's just sharing

1414

00:55:01,250 --> 00:54:57,480

a Google drive folder I'm like okay

1415

00:55:04,790 --> 00:55:01,260

yeah I think it was quite accessible

1416

00:55:07,670 --> 00:55:04,800

I got sent it oh you did okay UAP

1417

00:55:08,870 --> 00:55:07,680

behavior and under apparent intelligent

1418

00:55:11,390 --> 00:55:08,880

control

1419

00:55:12,950 --> 00:55:11,400

parent response to observation and or

1420

00:55:14,630 --> 00:55:12,960

Observer presence and apparent

1421

00:55:18,109 --> 00:55:14,640

indications of indifference or hostility

1422

00:55:20,750 --> 00:55:18,119

so this is intent you know figuring out

1423

00:55:21,770 --> 00:55:20,760

intent of whatever it is

1424

00:55:24,230 --> 00:55:21,780

um over to the right hand side

1425

00:55:27,950 --> 00:55:24,240

physiological uh psychological or other

1426

00:55:31,609 --> 00:55:29,870

so you know this is all stuff that

1427

00:55:35,569 --> 00:55:31,619

Congress wants to hear too like like

1428

00:55:40,370 --> 00:55:38,270

um so yeah that's it and

1429

00:55:42,950 --> 00:55:40,380

he gave this to the defense Department's

1430

00:55:45,470 --> 00:55:42,960

UAP Mission and civil aviation one last

1431

00:55:47,870 --> 00:55:45,480

thing um if you can if you can see the

1432

00:55:49,809 --> 00:55:47,880

badge on the right hand side there uh

1433

00:55:53,390 --> 00:55:49,819

the new um emblem

1434

00:55:57,109 --> 00:55:53,400

yes so have you seen the information in

1435

00:56:02,950 --> 00:55:57,119

the Latin uh which says Universal EST

1436

00:56:08,510 --> 00:56:06,049

and what it means is universal this is a

1437

00:56:10,370 --> 00:56:08,520

loose translation our universe is

1438

00:56:11,750 --> 00:56:10,380

changing our life is what our thoughts

1439

00:56:14,990 --> 00:56:11,760

make it

1440

00:56:17,150 --> 00:56:15,000

it's pretty intense huh

1441

00:56:19,870 --> 00:56:17,160

pretty interesting isn't it

1442

00:56:24,230 --> 00:56:19,880

what do you mean

1443

00:56:25,730 --> 00:56:24,240

um that about wraps it up for that stuff

1444

00:56:27,770 --> 00:56:25,740

the only other thing I put in there is

1445

00:56:29,150 --> 00:56:27,780

kind of the new Navy documents but

1446

00:56:31,970 --> 00:56:29,160

there's not much that you can really

1447

00:56:33,770 --> 00:56:31,980

take from those the Tic Tac slide is

1448

00:56:35,870 --> 00:56:33,780

pretty interesting yeah that was

1449

00:56:36,950 --> 00:56:35,880

interesting definitely so I put this in

1450

00:56:39,049 --> 00:56:36,960

here

1451

00:56:42,109 --> 00:56:39,059

um the Tic Tac seems to be like the

1452

00:56:43,510 --> 00:56:42,119

bread and butter like this is the uh

1453

00:56:46,370 --> 00:56:43,520

bona fide

1454

00:56:49,010 --> 00:56:46,380

unidentified can't

1455

00:56:51,589 --> 00:56:49,020

really screw with this case this crazy

1456

00:56:52,849 --> 00:56:51,599

this case is unbelievable did you see

1457

00:56:54,770 --> 00:56:52,859

all the range Fowler forms that were

1458

00:56:56,630 --> 00:56:54,780

released at the same time as that I saw

1459

00:56:58,430 --> 00:56:56,640

those yeah and those seemed pretty

1460

00:57:00,109 --> 00:56:58,440

annoying to go through it was annoying I

1461

00:57:01,870 --> 00:57:00,119

went through them and it took a long

1462

00:57:05,750 --> 00:57:01,880

time and I was trying to pick out

1463

00:57:09,130 --> 00:57:05,760

keywords around the redacted bits oh man

1464

00:57:12,890 --> 00:57:09,140

it's right it's like a crossword

1465

00:57:16,069 --> 00:57:12,900

in the world yeah

1466

00:57:17,990 --> 00:57:16,079

um so yeah that about does it for that

1467

00:57:20,089 --> 00:57:18,000

the one thing that we could kind of go

1468

00:57:20,930 --> 00:57:20,099

out talking about here if you guys have

1469

00:57:24,410 --> 00:57:20,940

time

1470

00:57:30,290 --> 00:57:26,690

um just about the

1471

00:57:31,849 --> 00:57:30,300

the way the media is covering it so far

1472

00:57:33,470 --> 00:57:31,859

I think I'd just like to interject

1473

00:57:35,630 --> 00:57:33,480

before we touch upon that is that we had

1474

00:57:37,970 --> 00:57:35,640

two statements one for Marco Rubio and

1475

00:57:40,309 --> 00:57:37,980

one from Margaret Warner as well they

1476
00:57:42,589 --> 00:57:40,319
were quite positive about the outcome of

1477
00:57:44,450 --> 00:57:42,599
the report which says to me that they're

1478
00:57:47,270 --> 00:57:44,460
quite happy with what they're getting

1479
00:57:48,650 --> 00:57:47,280
you know behind closed doors as well and

1480
00:57:50,410 --> 00:57:48,660
we've had enough people talking about

1481
00:57:52,430 --> 00:57:50,420
whistleblowers coming forward already

1482
00:57:54,349 --> 00:57:52,440
you know when it comes to the language

1483
00:57:56,329 --> 00:57:54,359
we've seen in the ndaa for the fiscal

1484
00:57:58,970 --> 00:57:56,339
year 2023 so

1485
00:58:00,650 --> 00:57:58,980
that's positive you know again it's not

1486
00:58:01,910 --> 00:58:00,660
necessarily positive for the public but

1487
00:58:04,010 --> 00:58:01,920
it says that things are still working

1488
00:58:06,290 --> 00:58:04,020

and you know that gives us something to

1489

00:58:07,690 --> 00:58:06,300

look forward to further down the line

1490

00:58:10,970 --> 00:58:07,700

Maybe

1491

00:58:12,530 --> 00:58:10,980

here's the the overall positive if we

1492

00:58:13,430 --> 00:58:12,540

couldn't have this conversation 10 years

1493

00:58:15,950 --> 00:58:13,440

ago

1494

00:58:17,390 --> 00:58:15,960

there you go so if you're going to take

1495

00:58:19,010 --> 00:58:17,400

anything positive from anything that's

1496

00:58:20,569 --> 00:58:19,020

happened in the moment you know call it

1497

00:58:22,430 --> 00:58:20,579

a nothing Burger call it cut and paste

1498

00:58:25,309 --> 00:58:22,440

Burger call it what you want 10 years

1499

00:58:27,049 --> 00:58:25,319

ago we were not in this position and we

1500

00:58:29,870 --> 00:58:27,059

know who we have to thank for that so

1501

00:58:34,270 --> 00:58:29,880

yeah I mean my life was a wreck I was 28

1502

00:58:37,069 --> 00:58:34,280

years old let's not go there okay

1503

00:58:39,109 --> 00:58:37,079

no this is uh this is interesting so as

1504

00:58:41,990 --> 00:58:39,119

far as like the media uh covering this

1505

00:58:43,730 --> 00:58:42,000

stuff so this is Dan I want to thank Dan

1506

00:58:46,010 --> 00:58:43,740

I forgot what his name the last name was

1507

00:58:47,770 --> 00:58:46,020

but uh he posted there's just kind of

1508

00:58:50,630 --> 00:58:47,780

the differences of what's being reported

1509

00:58:52,190 --> 00:58:50,640

uh a U.S official told CBS news that

1510

00:58:54,230 --> 00:58:52,200

none of the incidents have yet been

1511

00:58:56,990 --> 00:58:54,240

definitively linked to China or Russia

1512

00:58:59,030 --> 00:58:57,000

or any other country you go to I believe

1513

00:59:01,370 --> 00:58:59,040

this is New York Times some of the

1514

00:59:03,410 --> 00:59:01,380

incidents have been formally attributed

1515

00:59:05,809 --> 00:59:03,420

to Chinese surveillance with relatively

1516

00:59:07,370 --> 00:59:05,819

ordinary drone technology and connected

1517

00:59:10,130 --> 00:59:07,380

to Beijing China

1518

00:59:11,930 --> 00:59:10,140

like that's that word characterized

1519

00:59:15,589 --> 00:59:11,940

yeah some people are taking that as

1520

00:59:17,329 --> 00:59:15,599

identified as instead of what we saw in

1521

00:59:18,370 --> 00:59:17,339

the report where does that come from

1522

00:59:20,809 --> 00:59:18,380

anyway

1523

00:59:24,010 --> 00:59:20,819

because those two those two statements

1524

00:59:29,270 --> 00:59:26,870

so it you know I guess it's good just

1525

00:59:31,490 --> 00:59:29,280

good for people to know like in in these

1526

00:59:33,470 --> 00:59:31,500

instances you can read that kind of

1527

00:59:36,530 --> 00:59:33,480

stuff but but don't

1528

00:59:39,410 --> 00:59:36,540

um don't Bank on it you know like it

1529

00:59:40,549 --> 00:59:39,420

it's clear that we're seeing these

1530

00:59:42,170 --> 00:59:40,559

different media Outlets put their

1531

00:59:45,230 --> 00:59:42,180

different spins on it you know like one

1532

00:59:47,569 --> 00:59:45,240

media Outlet will say uh most of the

1533

00:59:49,910 --> 00:59:47,579

events have been identified as

1534

00:59:52,130 --> 00:59:49,920

Space trash you know

1535

00:59:55,130 --> 00:59:52,140

um balloon entities and satellites or

1536

00:59:56,089 --> 00:59:55,140

whatever and then the other one says you

1537

01:00:01,490 --> 00:59:56,099

know

1538

01:00:03,289 --> 01:00:01,500

these people are putting their different

1539

01:00:05,030 --> 01:00:03,299

influence and their different spin on it

1540

01:00:06,890 --> 01:00:05,040

in the media so you have to be aware of

1541

01:00:09,710 --> 01:00:06,900

that when you look at it you know and be

1542

01:00:11,750 --> 01:00:09,720

aware that some people like um hardcore

1543

01:00:15,170 --> 01:00:11,760

to bunkers or whatever are gonna post

1544

01:00:18,650 --> 01:00:15,180

the articles that use kind of a negative

1545

01:00:19,910 --> 01:00:18,660

um a sense of it so be aware that when

1546

01:00:20,809 --> 01:00:19,920

you're out there swimming through this

1547

01:00:22,789 --> 01:00:20,819

stuff

1548

01:00:25,849 --> 01:00:22,799

um to just look at the facts you know

1549

01:00:29,030 --> 01:00:25,859

look at the facts which is really as

1550

01:00:32,150 --> 01:00:29,040

unfortunate as and empty as the report

1551

01:00:33,890 --> 01:00:32,160

is that we looked at it gives you the

1552

01:00:35,510 --> 01:00:33,900

facts that you can count on because it's

1553

01:00:37,730 --> 01:00:35,520

in the government's own words and what

1554

01:00:40,250 --> 01:00:37,740

does that say there's 171 unidentified

1555

01:00:43,730 --> 01:00:40,260

in a very small amount of time nearly 47

1556

01:00:46,250 --> 01:00:43,740

or something unidentified officially you

1557

01:00:49,250 --> 01:00:46,260

know and if you take that back to 1952

1558

01:00:50,930 --> 01:00:49,260

you know when they said 20 were well we

1559

01:00:53,569 --> 01:00:50,940

have a lot better sensors and Technology

1560

01:00:55,490 --> 01:00:53,579

right now you know and we're doing way

1561

01:00:57,950 --> 01:00:55,500

worse than we were in 1952 with this

1562

01:01:01,069 --> 01:00:57,960

stuff so there is something

1563

01:01:02,510 --> 01:01:01,079

um that's a problem you know so

1564

01:01:06,950 --> 01:01:02,520

yeah

1565

01:01:08,990 --> 01:01:06,960

um but that's all I got for this gig

1566

01:01:10,910 --> 01:01:09,000

you guys got anything else that you

1567

01:01:12,410 --> 01:01:10,920

that's on your mind or anything else you

1568

01:01:13,910 --> 01:01:12,420

want to talk I suppose the only thing

1569

01:01:15,530 --> 01:01:13,920

would be that you mentioned earlier that

1570

01:01:18,049 --> 01:01:15,540

the kind of media was silent when it

1571

01:01:19,670 --> 01:01:18,059

came to the ndaa and then now they've

1572

01:01:21,170 --> 01:01:19,680

all been kind of really outspoken with

1573

01:01:23,089 --> 01:01:21,180

the release of the report but then the

1574

01:01:25,370 --> 01:01:23,099

New York Times drop an article today yes

1575

01:01:26,990 --> 01:01:25,380

referring back to the ndaa so it was

1576

01:01:29,390 --> 01:01:27,000

like a knock-on effect that the report

1577

01:01:31,609 --> 01:01:29,400

kind of has now giving us this Rush of

1578

01:01:34,609 --> 01:01:31,619

kind of media coverage so better late

1579

01:01:37,010 --> 01:01:34,619

than never I guess definitely I had a

1580

01:01:38,049 --> 01:01:37,020

feeling that would happen too that this

1581

01:01:40,490 --> 01:01:38,059

report

1582

01:01:41,870 --> 01:01:40,500

which way it went I think before they

1583

01:01:44,329 --> 01:01:41,880

decided to come out with much more

1584

01:01:47,530 --> 01:01:44,339

exactly you got you got language in the

1585

01:01:50,270 --> 01:01:47,540

nda8 talking about reverse engineering

1586

01:01:51,829 --> 01:01:50,280

spaceships yeah they don't do that much

1587

01:01:53,990 --> 01:01:51,839

kind of looking at the subject though

1588

01:01:56,030 --> 01:01:54,000

really the media as a whole do they um

1589

01:01:57,890 --> 01:01:56,040

you know that it's all it's all fairly

1590

01:01:59,329 --> 01:01:57,900

superficial in terms of you know

1591

01:02:02,650 --> 01:01:59,339

journalist kind of like you know so

1592

01:02:04,910 --> 01:02:02,660

journalists mostly not all of them but

1593

01:02:06,589 --> 01:02:04,920

it's all fairly kind of softball

1594

01:02:08,930 --> 01:02:06,599

questioning and you only have a few

1595

01:02:11,030 --> 01:02:08,940

people like Ross Colton Brown bender and

1596

01:02:13,789 --> 01:02:11,040

you know who are actually going through

1597

01:02:15,470 --> 01:02:13,799

an insight and George that of course uh

1598

01:02:17,870 --> 01:02:15,480

who are looking and asking you know the

1599

01:02:19,370 --> 01:02:17,880

relevant questions Tom Rogan yeah and

1600

01:02:20,450 --> 01:02:19,380

Tom Rogan yeah

1601

01:02:22,190 --> 01:02:20,460

um

1602

01:02:24,230 --> 01:02:22,200

yeah that's why they have to subscribe

1603

01:02:28,010 --> 01:02:24,240

to witness citizen so if you're watching

1604

01:02:29,750 --> 01:02:28,020

right now do it yeah hit subscribe now

1605

01:02:31,190 --> 01:02:29,760

we'll teach you all this stuff you need

1606

01:02:33,170 --> 01:02:31,200

to know no

1607

01:02:35,930 --> 01:02:33,180

um I appreciate you guys doing this it

1608

01:02:38,030 --> 01:02:35,940

does mean a lot I wanted to do uh

1609

01:02:38,750 --> 01:02:38,040

something about this and yeah you guys

1610

01:02:42,890 --> 01:02:38,760

are

1611

01:02:45,049 --> 01:02:42,900

I wanted other people to join turned out

1612

01:02:47,089 --> 01:02:45,059

it was just the Three Amigos and and

1613

01:02:49,309 --> 01:02:47,099

that worked for me too because they're

1614

01:02:51,470 --> 01:02:49,319

really get on with you guys so

1615

01:02:52,910 --> 01:02:51,480

I appreciate everything you can find

1616

01:02:54,829 --> 01:02:52,920

these chaps

1617

01:02:56,390 --> 01:02:54,839

um in the description of the video

1618

01:02:58,609 --> 01:02:56,400

you can find their contact stuff and all

1619

01:03:01,609 --> 01:02:58,619

that as we're doing this video I can

1620

01:03:04,030 --> 01:03:01,619

feel myself get sicker it's crazy like

1621

01:03:06,829 --> 01:03:04,040

I'm going through it right now

1622

01:03:10,609 --> 01:03:06,839

go and rest so I'm gonna get out of here

1623

01:03:11,930 --> 01:03:10,619

uh I appreciate it and yeah we'll catch

1624

01:03:13,910 --> 01:03:11,940

you next time thanks everybody in the

1625

01:03:16,309 --> 01:03:13,920

chat like the video subscribe all that

1626

01:03:26,569 --> 01:03:16,319

stuff and if I'm feeling better we'll

1627

01:03:36,730 --> 01:03:28,190

foreign

1628

01:03:50,680 --> 01:03:48,789

[Music]
