CITIZEN

1
00:00:04,670 --> 00:00:01,910

okay

2
00:00:12,580 --> 00:00:04,680

what's up this is Sean and this is Jay

3
00:00:17,630 --> 00:00:14,950

[Music]

4
00:00:18,950 --> 00:00:17,640

a little due respect to the Air Force I

5
00:00:45,330 --> 00:00:18,960

believe that some of them will prove to

6
00:00:45,340 --> 00:00:54,010

[Music]

7
00:00:58,490 --> 00:00:56,090

I did it

8
00:01:01,490 --> 00:00:58,500

you got a new open you haven't opened

9
00:01:03,590 --> 00:01:01,500

it's nice I like it we have a new open I

10
00:01:07,250 --> 00:01:03,600

like it right for those that don't know

11
00:01:09,649 --> 00:01:07,260

Sean spins an inordinate or has been in

12
00:01:12,109 --> 00:01:09,659

the past an inordinate amount of time on

13
00:01:14,030 --> 00:01:12,119

our opens and he's done such a bang-up

14

00:01:17,030 --> 00:01:14,040

job of it like I have a film degree and

15

00:01:18,890 --> 00:01:17,040

I'm still amazed at like how quickly and

16

00:01:19,969 --> 00:01:18,900

well you can throw together an open it's

17

00:01:21,830 --> 00:01:19,979

insane

18

00:01:23,870 --> 00:01:21,840

um but that one was that was great and

19

00:01:25,670 --> 00:01:23,880

also I I was surprised to see Donald

20

00:01:28,850 --> 00:01:25,680

Kehoe in there that was cool

21

00:01:29,810 --> 00:01:28,860

yeah you know it's uh the Donald Keyhole

22

00:01:32,210 --> 00:01:29,820

thing

23

00:01:35,210 --> 00:01:32,220

you know I've seen it used in uh other

24

00:01:38,149 --> 00:01:35,220

UFO stuff before uh very seldom but I

25

00:01:41,749 --> 00:01:38,159

feel like most people know about the

26
00:01:45,230 --> 00:01:41,759
Samford clip so General Sanford there's

27
00:01:47,210 --> 00:01:45,240
a 1952 press conference

28
00:01:49,850 --> 00:01:47,220
um after the Washington DC sightings in

29
00:01:53,270 --> 00:01:49,860
Sanford took up most of it but at the

30
00:01:55,789 --> 00:01:53,280
end then Donald Kehoe comes on you know

31
00:01:58,490 --> 00:01:55,799
and then you see that clip and I feel

32
00:02:01,310 --> 00:01:58,500
like most people forget about that clip

33
00:02:03,050 --> 00:02:01,320
um because he's just like listen

34
00:02:06,190 --> 00:02:03,060
these are I think these are

35
00:02:09,410 --> 00:02:06,200
interplanetary origin man

36
00:02:13,190 --> 00:02:10,790
it's in chronicity because you know what

37
00:02:14,630 --> 00:02:13,200
I'm gonna do a little bragging here I

38
00:02:15,710 --> 00:02:14,640

hope you don't mind is and it just

39

00:02:19,490 --> 00:02:15,720

happens to be right here on the table

40

00:02:22,369 --> 00:02:19,500

like yesterday in the mail I received a

41

00:02:24,350 --> 00:02:22,379

first edition copy of Donald kehoe's

42

00:02:27,830 --> 00:02:24,360

flying saucers from outer space it's the

43

00:02:30,470 --> 00:02:27,840

second one oh and um it was it was only

44

00:02:31,729 --> 00:02:30,480

19 bucks I found it for only 19 bucks

45

00:02:33,830 --> 00:02:31,739

online

46

00:02:35,449 --> 00:02:33,840

um wow which was crazy and so I was just

47

00:02:37,250 --> 00:02:35,459

scrolling through stuff and I was like

48

00:02:39,949 --> 00:02:37,260

yep getting that um didn't even think

49

00:02:42,410 --> 00:02:39,959

twice about it and it's great um uh

50

00:02:44,570 --> 00:02:42,420

because it's you know hey remember this

51
00:02:47,089 --> 00:02:44,580
do you remember that photo Leslie has a

52
00:02:48,530 --> 00:02:47,099
copy of that up on her up on her um

53
00:02:51,650 --> 00:02:48,540
let's see that again

54
00:02:54,710 --> 00:02:51,660
uh it's uh Salem Massachusetts oh yeah

55
00:02:55,490 --> 00:02:54,720
it's the National Guard guy took that

56
00:02:59,449 --> 00:02:55,500
photo

57
00:03:01,610 --> 00:02:59,459
yeah and they actually actually I

58
00:03:03,470 --> 00:03:01,620
believe that your Force tried to and you

59
00:03:05,589 --> 00:03:03,480
don't see this photo very often but the

60
00:03:09,170 --> 00:03:05,599
Air Force tried to

61
00:03:12,589 --> 00:03:09,180
duplicate it with an experiment and it

62
00:03:15,229 --> 00:03:12,599
doesn't look the same work yeah not at

63
00:03:16,369 --> 00:03:15,239

all and yeah Seaman Albert's shell yeah

64

00:03:18,670 --> 00:03:16,379

so anyway

65

00:03:21,949 --> 00:03:18,680

um but um for those that don't know

66

00:03:24,530 --> 00:03:21,959

Kehoe was a really central figure early

67

00:03:26,270 --> 00:03:24,540

on and he was especially Central early

68

00:03:28,790 --> 00:03:26,280

on because

69

00:03:30,770 --> 00:03:28,800

um he had the cooperation of folks in

70

00:03:33,470 --> 00:03:30,780

the Air Force this was before the Air

71

00:03:36,649 --> 00:03:33,480

Force really started to to kind of clamp

72

00:03:38,750 --> 00:03:36,659

down and take up and you know took that

73

00:03:41,030 --> 00:03:38,760

position that they've held largely

74

00:03:42,710 --> 00:03:41,040

speaking for about 70 years now where

75

00:03:44,809 --> 00:03:42,720

they just where they don't give up

76

00:03:46,430 --> 00:03:44,819

anything for the most part

77

00:03:48,229 --> 00:03:46,440

um and they were actually really

78

00:03:50,030 --> 00:03:48,239

Cooperative with him for this first

79

00:03:51,890 --> 00:03:50,040

first couple books

80

00:03:54,770 --> 00:03:51,900

um and so this was the one this was kind

81

00:03:57,470 --> 00:03:54,780

of like the last gasp of of the Air

82

00:04:00,589 --> 00:03:57,480

Force actually took talking uh on the

83

00:04:02,330 --> 00:04:00,599

record or at least having actual

84

00:04:04,250 --> 00:04:02,340

spokespeople come out and talk about

85

00:04:05,690 --> 00:04:04,260

them like you were talking about on TV

86

00:04:07,550 --> 00:04:05,700

and elsewhere

87

00:04:09,890 --> 00:04:07,560

um so anyway that was really cool to see

88

00:04:12,710 --> 00:04:09,900

good old donkey over there yeah it

89

00:04:14,809 --> 00:04:12,720

didn't take too much time for the Air

90

00:04:17,870 --> 00:04:14,819

Force to really just start

91

00:04:21,170 --> 00:04:17,880

uh blaming Donald Keough for

92

00:04:24,170 --> 00:04:21,180

for all the all the sightings like uh

93

00:04:26,210 --> 00:04:24,180

man his book came out and all right you

94

00:04:28,490 --> 00:04:26,220

know this true magazine thing came out

95

00:04:30,409 --> 00:04:28,500

and then all of a sudden people started

96

00:04:32,330 --> 00:04:30,419

reporting stuff yeah so

97

00:04:34,670 --> 00:04:32,340

of course I have this

98

00:04:37,930 --> 00:04:34,680

oh yeah yeah yeah

99

00:04:39,830 --> 00:04:37,940

um now did you did you get that from um

100

00:04:42,530 --> 00:04:39,840

cliffstone's files or did you get that

101
00:04:45,469 --> 00:04:42,540
from elsewhere no that's uh in the

102
00:04:47,930 --> 00:04:45,479
archives man that's just I actually like

103
00:04:50,330 --> 00:04:47,940
on my website witnesscitizen.com you go

104
00:04:52,310 --> 00:04:50,340
to research tools and there's a link

105
00:04:55,570 --> 00:04:52,320
that says Blue Book photos you click on

106
00:04:58,550 --> 00:04:55,580
that and it's a Google Drive of every

107
00:05:00,170 --> 00:04:58,560
Blue Book photo in the archives I think

108
00:05:01,969 --> 00:05:00,180
there's over a hundred and I downloaded

109
00:05:03,909 --> 00:05:01,979
them all and put them in the Google

110
00:05:07,370 --> 00:05:03,919
drive folder

111
00:05:09,950 --> 00:05:07,380
and and so you can see there's a lot of

112
00:05:13,790 --> 00:05:09,960
different versions that we'd never see

113
00:05:16,730 --> 00:05:13,800

um yeah that's great so great for a lot

114

00:05:18,950 --> 00:05:16,740

of them I actually

115

00:05:22,310 --> 00:05:18,960

went and

116

00:05:25,790 --> 00:05:22,320

put in the actual Bluebook file

117

00:05:27,590 --> 00:05:25,800

too so you can see here you go to Blue

118

00:05:30,770 --> 00:05:27,600

Book photos

119

00:05:32,390 --> 00:05:30,780

and yeah let's go yeah we got

120

00:05:34,670 --> 00:05:32,400

Massachusetts done here you click on

121

00:05:36,469 --> 00:05:34,680

that and you have the photos to the left

122

00:05:38,570 --> 00:05:36,479

and then to the right you have the

123

00:05:41,029 --> 00:05:38,580

actual file

124

00:05:43,070 --> 00:05:41,039

so beautiful two Coast Guard

125

00:05:45,230 --> 00:05:43,080

photographers observed and photographed

126

00:05:46,730 --> 00:05:45,240

four bright lights over Salem Coast

127

00:05:50,689 --> 00:05:46,740

Guard Station

128

00:05:53,270 --> 00:05:50,699

so so good yeah and that was that was 71

129

00:05:55,249 --> 00:05:53,280

years ago look at that already uh yeah

130

00:05:56,870 --> 00:05:55,259

great case

131

00:05:58,730 --> 00:05:56,880

um I know that it's Leslie one of Leslie

132

00:06:00,529 --> 00:05:58,740

Kane's favorite

133

00:06:01,909 --> 00:06:00,539

um favorite cases involving photographic

134

00:06:04,430 --> 00:06:01,919

evidence

135

00:06:06,170 --> 00:06:04,440

um and uh it's so cool to have that

136

00:06:07,730 --> 00:06:06,180

little tie there that's great yeah

137

00:06:10,490 --> 00:06:07,740

there's there's a lot of interesting

138

00:06:12,529 --> 00:06:10,500

photographs in there there's some that

139

00:06:13,969 --> 00:06:12,539

are just like that can't be real of

140

00:06:17,090 --> 00:06:13,979

course but

141

00:06:19,370 --> 00:06:17,100

um you know is what it is but we have

142

00:06:23,210 --> 00:06:19,380

uh we actually have some news which is

143

00:06:24,770 --> 00:06:23,220

always fun I oh yeah you know where

144

00:06:26,510 --> 00:06:24,780

you're not just like kind of scraping

145

00:06:28,450 --> 00:06:26,520

the ground for

146

00:06:31,969 --> 00:06:28,460

um

147

00:06:33,469 --> 00:06:31,979

to talk about yeah so we sure do the

148

00:06:37,790 --> 00:06:33,479

first one I think that we could talk

149

00:06:41,090 --> 00:06:37,800

about that um is uh probably the most

150

00:06:43,490 --> 00:06:41,100

popular I guess you could say is the uh

151

00:06:48,170 --> 00:06:43,500

the the Iraq or the

152

00:06:50,870 --> 00:06:48,180

sure Muslim Iraq orb so Jeremy Corbell

153

00:06:53,809 --> 00:06:50,880

and George knepp started a new podcast

154

00:06:56,870 --> 00:06:53,819

called weaponized

155

00:06:58,909 --> 00:06:56,880

um which I think airs on Tuesdays at

156

00:07:02,210 --> 00:06:58,919

midnight so

157

00:07:04,909 --> 00:07:02,220

for the first podcast uh it was just a

158

00:07:07,129 --> 00:07:04,919

lot of history about both of them how

159

00:07:08,629 --> 00:07:07,139

they started uh the other things that

160

00:07:11,210 --> 00:07:08,639

they're interested in and everything it

161

00:07:13,129 --> 00:07:11,220

kind of a lead up to uh the things that

162

00:07:15,710 --> 00:07:13,139

they're going to be talking about so and

163

00:07:17,870 --> 00:07:15,720

on this first episode they unveiled a

164

00:07:21,710 --> 00:07:17,880

couple new things the first of which was

165

00:07:23,990 --> 00:07:21,720

a very short recorded testimony uh from

166

00:07:27,050 --> 00:07:24,000

one of the Navy guys that was a part of

167

00:07:29,089 --> 00:07:27,060

the 2019 West Coast drone swarms UFO

168

00:07:30,589 --> 00:07:29,099

swarms event

169

00:07:33,529 --> 00:07:30,599

um it was really short he didn't give a

170

00:07:35,210 --> 00:07:33,539

name or anything and he said all he

171

00:07:36,409 --> 00:07:35,220

really basically said is they came in

172

00:07:39,529 --> 00:07:36,419

from one way

173

00:07:41,809 --> 00:07:39,539

and they left the other way so Jeremy

174

00:07:43,670 --> 00:07:41,819

corbell's big thing was that was big to

175

00:07:45,230 --> 00:07:43,680

him because

176

00:07:47,390 --> 00:07:45,240

um if it was like a drone or something

177

00:07:49,309 --> 00:07:47,400

it would probably leave the same way it

178

00:07:51,110 --> 00:07:49,319

came mhm

179

00:07:55,189 --> 00:07:51,120

so that's what you got there and then

180

00:07:56,570 --> 00:07:55,199

the second thing is the picture of the

181

00:07:57,950 --> 00:07:56,580

orb

182

00:08:00,230 --> 00:07:57,960

so

183

00:08:02,330 --> 00:08:00,240

yeah do you want to should we show that

184

00:08:05,930 --> 00:08:02,340

and then we can talk a little bit about

185

00:08:08,870 --> 00:08:05,940

yeah okay well we have

186

00:08:11,749 --> 00:08:08,880

you know this website has so many goofy

187

00:08:13,969 --> 00:08:11,759

ads it is unreal but I feel like I'm

188

00:08:17,150 --> 00:08:13,979

just getting viruses with it on my

189

00:08:19,670 --> 00:08:17,160

computer right now you're just worming

190

00:08:21,770 --> 00:08:19,680

your way into my hard drive yeah so for

191

00:08:23,869 --> 00:08:21,780

some for some reason I get a few less

192

00:08:26,089 --> 00:08:23,879

ads on mine but it's still overwhelming

193

00:08:28,550 --> 00:08:26,099

a little less than that but

194

00:08:30,230 --> 00:08:28,560

um just in case anybody you know this

195

00:08:35,089 --> 00:08:30,240

edition of witness citizen brought to

196

00:08:38,870 --> 00:08:35,099

you by Hulu and Facebook and we don't

197

00:08:40,490 --> 00:08:38,880

have any sponsors yeah but

198

00:08:42,170 --> 00:08:40,500

you know so I'm not going to leave it up

199

00:08:44,570 --> 00:08:42,180

too long because that's just like too

200

00:08:45,829 --> 00:08:44,580

much but um

201
00:08:47,570 --> 00:08:45,839
sure

202
00:08:49,850 --> 00:08:47,580
um do you want to go through it just a

203
00:08:52,430 --> 00:08:49,860
little bit the story would you mind sure

204
00:08:57,590 --> 00:08:52,440
yeah of course um I grabbed the photo

205
00:08:58,850 --> 00:08:57,600
yeah so here let me see if I can

206
00:09:01,430 --> 00:08:58,860
um

207
00:09:03,590 --> 00:09:01,440
uh dailymail.com obtained an exclusive

208
00:09:06,170 --> 00:09:03,600
image of a metallic looking orb flying

209
00:09:08,509 --> 00:09:06,180
over in Iraq city Iraqi City caught on

210
00:09:11,329 --> 00:09:08,519
video by a us spy plane the image

211
00:09:13,430 --> 00:09:11,339
captured in April 2016 by an

212
00:09:15,470 --> 00:09:13,440
intelligence reconnaissance plane was

213
00:09:18,769 --> 00:09:15,480

included in a classified briefing video

214

00:09:21,829 --> 00:09:18,779

on UFOs shown to multiple U.S government

215

00:09:26,110 --> 00:09:21,839

agencies and so before we go on one part

216

00:09:29,090 --> 00:09:26,120

of this yeah is that that um this still

217

00:09:31,790 --> 00:09:29,100

uh that was recorded by a reconnaissance

218

00:09:34,370 --> 00:09:31,800

plane flying over mosul Iraq

219

00:09:36,769 --> 00:09:34,380

um the the actual video clip is

220

00:09:40,490 --> 00:09:36,779

apparently only about four seconds long

221

00:09:41,810 --> 00:09:40,500

and you can see apparently this metallic

222

00:09:44,509 --> 00:09:41,820

orb

223

00:09:46,910 --> 00:09:44,519

um tracking along or flying through for

224

00:09:49,850 --> 00:09:46,920

about one second of that time of that

225

00:09:51,769 --> 00:09:49,860

four seconds but right now we don't even

226

00:09:54,230 --> 00:09:51,779

have that four seconds we just have a

227

00:09:56,449 --> 00:09:54,240

still we just have a still that may just

228

00:09:57,889 --> 00:09:56,459

be from a slideshow looks like

229

00:09:59,870 --> 00:09:57,899

um that could be from a PowerPoint

230

00:10:02,930 --> 00:09:59,880

presentation something those nuts it's a

231

00:10:04,850 --> 00:10:02,940

screen grab and apparently this kind of

232

00:10:06,889 --> 00:10:04,860

came around the same the same way that

233

00:10:10,850 --> 00:10:06,899

the other stuff Jeremy corbel released

234

00:10:13,910 --> 00:10:10,860

so is it's an unclassified photo that's

235

00:10:17,090 --> 00:10:13,920

a part of a classified presentation and

236

00:10:19,009 --> 00:10:17,100

it seems like that is from the same uh

237

00:10:20,810 --> 00:10:19,019

group of images and videos that he

238

00:10:23,329 --> 00:10:20,820

released before with the pyramids and

239

00:10:25,190 --> 00:10:23,339

the the USS Omaha the sphere going into

240

00:10:27,710 --> 00:10:25,200

the water and everything so it seems

241

00:10:30,650 --> 00:10:27,720

like it's from that same batch

242

00:10:32,930 --> 00:10:30,660

yeah I see in the chat a guy named Dave

243

00:10:35,509 --> 00:10:32,940

Mills is asking do we have any idea of

244

00:10:39,290 --> 00:10:35,519

the size of the sphere I've seen I've

245

00:10:44,990 --> 00:10:39,300

seen approximations from between 5 to 15

246

00:10:47,210 --> 00:10:45,000

feet is that about right Sean yeah what

247

00:10:49,009 --> 00:10:47,220

it it looks like it

248

00:10:50,630 --> 00:10:49,019

um was so what I was able to do is I

249

00:10:52,370 --> 00:10:50,640

just really just went to Google Earth

250

00:10:56,269 --> 00:10:52,380

and kind of

251
00:10:58,670 --> 00:10:56,279
um did like a quick measurement of it

252
00:10:59,750 --> 00:10:58,680
it's it's you know is it reliable I

253
00:11:01,970 --> 00:10:59,760
don't know because I don't know how

254
00:11:05,810 --> 00:11:01,980
close it is to the camera it's very

255
00:11:07,490 --> 00:11:05,820
important far away so I just kind of

256
00:11:09,050 --> 00:11:07,500
you know compared it with other things

257
00:11:11,930 --> 00:11:09,060
and and kind of gave it a measurement

258
00:11:14,389 --> 00:11:11,940
here now there's it's kind of

259
00:11:16,130 --> 00:11:14,399
interesting

260
00:11:17,870 --> 00:11:16,140
that

261
00:11:19,910 --> 00:11:17,880
you know what what do you see when you

262
00:11:22,190 --> 00:11:19,920
look at that a lot of people see that

263
00:11:25,310 --> 00:11:22,200

and are mentioning the Chrome spheres

264

00:11:28,069 --> 00:11:25,320

right like it's a chrome ball or a

265

00:11:30,889 --> 00:11:28,079

chrome sphere but really what I see is

266

00:11:33,230 --> 00:11:30,899

just the the white

267

00:11:35,509 --> 00:11:33,240

like the what like a white orb and

268

00:11:37,069 --> 00:11:35,519

underneath it is either like a shadow or

269

00:11:38,750 --> 00:11:37,079

a black spot on the road or something

270

00:11:40,970 --> 00:11:38,760

you know what I mean

271

00:11:42,530 --> 00:11:40,980

I could see that as well that's a that's

272

00:11:44,630 --> 00:11:42,540

an interesting point I hadn't thought of

273

00:11:46,190 --> 00:11:44,640

it that way I mean you know since we

274

00:11:48,170 --> 00:11:46,200

don't have the benefit of having the

275

00:11:50,930 --> 00:11:48,180

full video you know even if we had four

276

00:11:52,730 --> 00:11:50,940

frames rather than just one

277

00:11:54,410 --> 00:11:52,740

um we would we would have a better time

278

00:11:56,690 --> 00:11:54,420

of it right

279

00:11:58,610 --> 00:11:56,700

um you know I think that that's and

280

00:12:00,290 --> 00:11:58,620

that's obviously going to be one of the

281

00:12:03,769 --> 00:12:00,300

frustrations of this case at least until

282

00:12:05,810 --> 00:12:03,779

we get you know knock on wood the actual

283

00:12:07,730 --> 00:12:05,820

video footage right

284

00:12:09,769 --> 00:12:07,740

um and we've already heard from various

285

00:12:11,569 --> 00:12:09,779

people that oh that'll be a little bit

286

00:12:13,730 --> 00:12:11,579

more difficult because sources and

287

00:12:15,410 --> 00:12:13,740

methods yada yada

288

00:12:17,210 --> 00:12:15,420

um showing the capabilities of these

289

00:12:18,710 --> 00:12:17,220

cameras but you know I don't know that

290

00:12:20,630 --> 00:12:18,720

four seconds is really going to show the

291

00:12:23,449 --> 00:12:20,640

full capabilities of these cameras and

292

00:12:25,130 --> 00:12:23,459

you'd think if you can Cobble together a

293

00:12:26,990 --> 00:12:25,140

hundred million dollar supply plane or

294

00:12:28,730 --> 00:12:27,000

whatever it is that you know you could

295

00:12:30,290 --> 00:12:28,740

figure out how to redact a four second

296

00:12:32,990 --> 00:12:30,300

video

297

00:12:34,850 --> 00:12:33,000

um with you know of enough detail that

298

00:12:36,590 --> 00:12:34,860

it would scrub some identifying

299

00:12:40,430 --> 00:12:36,600

characteristics but I don't know you

300

00:12:41,750 --> 00:12:40,440

know yeah and it's I I don't really I'm

301
00:12:44,569 --> 00:12:41,760
not really buying that a whole lot

302
00:12:46,670 --> 00:12:44,579
because you know you look at the the

303
00:12:49,310 --> 00:12:46,680
different marks and and things that are

304
00:12:51,410 --> 00:12:49,320
on the screen and everything so what's

305
00:12:53,389 --> 00:12:51,420
the difference uh if it's a still photo

306
00:12:55,490 --> 00:12:53,399
or you're actually showing a move I

307
00:12:58,370 --> 00:12:55,500
really don't understand and it's only

308
00:13:00,350 --> 00:12:58,380
four seconds which is kind of um hard to

309
00:13:02,090 --> 00:13:00,360
believe too like I'm sure the video has

310
00:13:04,250 --> 00:13:02,100
to be a lot longer than that but maybe

311
00:13:07,850 --> 00:13:04,260
it's only this thing is only in the

312
00:13:10,069 --> 00:13:07,860
video for four seconds right maybe that

313
00:13:12,170 --> 00:13:10,079

um but I don't know we're not going to

314

00:13:14,449 --> 00:13:12,180

be able to tell a whole lot until we see

315

00:13:17,569 --> 00:13:14,459

like a video of it moving and even at

316

00:13:20,269 --> 00:13:17,579

that point you know we'll see

317

00:13:22,730 --> 00:13:20,279

um I I you know what I get

318

00:13:23,870 --> 00:13:22,740

I'm grateful that there's news coming

319

00:13:26,870 --> 00:13:23,880

out and there's something like this

320

00:13:28,990 --> 00:13:26,880

coming out you know but I also just wish

321

00:13:32,090 --> 00:13:29,000

that we had more information you know

322

00:13:33,710 --> 00:13:32,100

absolutely now I think I mean there are

323

00:13:37,910 --> 00:13:33,720

a couple interesting things about this a

324

00:13:38,949 --> 00:13:37,920

that you know I saw that Ryan Graves

325

00:13:41,449 --> 00:13:38,959

um

326
00:13:43,430 --> 00:13:41,459
responded to you yesterday about this

327
00:13:46,550 --> 00:13:43,440
over on Twitter and was like yeah you

328
00:13:48,170 --> 00:13:46,560
know if this is about 10 feet in

329
00:13:49,730 --> 00:13:48,180
diameter I can't remember the exact

330
00:13:52,370 --> 00:13:49,740
measurement but I think he was saying

331
00:13:55,910 --> 00:13:52,380
around 10 feet that it would be that it

332
00:13:57,490 --> 00:13:55,920
would track with what was reported off

333
00:14:01,430 --> 00:13:57,500
the East Coast

334
00:14:03,829 --> 00:14:01,440
or one you know UAP

335
00:14:06,170 --> 00:14:03,839
um classification that was reported

336
00:14:08,810 --> 00:14:06,180
pretty often out there

337
00:14:11,269 --> 00:14:08,820
um I don't know if if you saw that tweet

338
00:14:13,970 --> 00:14:11,279

from him to you but um you know I think

339

00:14:17,030 --> 00:14:13,980

it's it's interesting that

340

00:14:18,970 --> 00:14:17,040

when we hear about multiple sensor

341

00:14:22,009 --> 00:14:18,980

systems these days

342

00:14:24,110 --> 00:14:22,019

they're they're people are trying to

343

00:14:26,030 --> 00:14:24,120

kind of get around and I don't have any

344

00:14:28,970 --> 00:14:26,040

kind of I don't have any kind of

345

00:14:31,190 --> 00:14:28,980

clearances I don't have any secret top

346

00:14:32,810 --> 00:14:31,200

secret I have nothing like this I went

347

00:14:35,449 --> 00:14:32,820

to art school I went to film school

348

00:14:37,310 --> 00:14:35,459

right they don't let people like me have

349

00:14:40,790 --> 00:14:37,320

clearances like that intentionally

350

00:14:43,310 --> 00:14:40,800

speaking me neither yeah so like but so

351

00:14:45,829 --> 00:14:43,320

I'm not entirely sure and I don't ask

352

00:14:47,449 --> 00:14:45,839

directly about situations that are

353

00:14:49,970 --> 00:14:47,459

classified because I don't think that

354

00:14:52,430 --> 00:14:49,980

it's in my best interest to do so right

355

00:14:54,829 --> 00:14:52,440

with sources and stuff like that but you

356

00:14:57,170 --> 00:14:54,839

know that said you know there have been

357

00:14:59,750 --> 00:14:57,180

a lot of situations where people have

358

00:15:03,170 --> 00:14:59,760

alluded to the fact that in the in

359

00:15:05,930 --> 00:15:03,180

recent years we have much better we

360

00:15:08,930 --> 00:15:05,940

meaning the US military anyway or maybe

361

00:15:10,910 --> 00:15:08,940

the five eyes has much better sensing

362

00:15:13,189 --> 00:15:10,920

equipment than they had and that it

363

00:15:15,350 --> 00:15:13,199

recently people keep talking about these

364

00:15:18,110 --> 00:15:15,360

recent upgrades that have happened over

365

00:15:20,750 --> 00:15:18,120

the last years right and so when we when

366

00:15:24,290 --> 00:15:20,760

we hear about a four second video

367

00:15:27,710 --> 00:15:24,300

in that is something of that size

368

00:15:30,650 --> 00:15:27,720

we have to remember that there are that

369

00:15:33,530 --> 00:15:30,660

there are projects like the space fence

370

00:15:34,790 --> 00:15:33,540

which Christopher melon has often talked

371

00:15:37,910 --> 00:15:34,800

about

372

00:15:40,069 --> 00:15:37,920

that regularly track from a satellite

373

00:15:41,090 --> 00:15:40,079

perspective anything that's like a

374

00:15:43,490 --> 00:15:41,100

basketball

375

00:15:45,769 --> 00:15:43,500

you know or bigger or even smaller than

376

00:15:48,590 --> 00:15:45,779

a basketball bigger coming into our

377

00:15:50,689 --> 00:15:48,600

atmosphere or it's task two right and

378

00:15:52,189 --> 00:15:50,699

there has been uh you know there's been

379

00:15:53,870 --> 00:15:52,199

some scuttlebutt you know there's been

380

00:15:55,610 --> 00:15:53,880

some word on the street that the

381

00:15:57,949 --> 00:15:55,620

Contemporary sensor settings are just

382

00:16:01,009 --> 00:15:57,959

kind of like on all the time and that

383

00:16:02,810 --> 00:16:01,019

it's basically like especially in a war

384

00:16:05,090 --> 00:16:02,820

zone like that that you're gonna have

385

00:16:08,810 --> 00:16:05,100

like the equivalent of a space fence

386

00:16:10,790 --> 00:16:08,820

on perpetually right yeah so right and

387

00:16:12,470 --> 00:16:10,800

if that is happening however that's

388

00:16:13,970 --> 00:16:12,480

happening and I don't know how that's

389

00:16:17,210 --> 00:16:13,980

happening

390

00:16:20,629 --> 00:16:17,220

um you would that would tell you that

391

00:16:26,230 --> 00:16:20,639

there should be much more data tracking

392

00:16:32,689 --> 00:16:29,329

I I think one thing needs to be clear

393

00:16:35,389 --> 00:16:32,699

here and and what that is is the United

394

00:16:39,170 --> 00:16:35,399

States government has way more

395

00:16:41,870 --> 00:16:39,180

information on UFOs than I believe we

396

00:16:44,389 --> 00:16:41,880

could even imagine I mean right right

397

00:16:47,870 --> 00:16:44,399

they have the video of that I'm sure

398

00:16:49,970 --> 00:16:47,880

they have more data on that and you know

399

00:16:52,009 --> 00:16:49,980

as far as I'm concerned we were told

400

00:16:54,410 --> 00:16:52,019

we've been told by many people that

401
00:16:56,990 --> 00:16:54,420
there's way way better quality videos

402
00:16:58,970 --> 00:16:57,000
that exist right and the government just

403
00:17:01,730 --> 00:16:58,980
keeps treating us like babies like we

404
00:17:04,069 --> 00:17:01,740
can't handle it and they hide behind the

405
00:17:05,210 --> 00:17:04,079
sources and methods bullcrap you know

406
00:17:08,569 --> 00:17:05,220
right

407
00:17:11,809 --> 00:17:08,579
um max Moskowitz what one of my

408
00:17:13,130 --> 00:17:11,819
um podcast buddies he uh I interviewed

409
00:17:15,350 --> 00:17:13,140
Chris Mellon and he just kind of

410
00:17:18,169 --> 00:17:15,360
reposted that video and Chris Mellon

411
00:17:21,350 --> 00:17:18,179
said like there's basically identical

412
00:17:24,169 --> 00:17:21,360
videos to the Tic Tac Gimbal and go Fest

413
00:17:26,390 --> 00:17:24,179

that that they have that they won't

414

00:17:29,090 --> 00:17:26,400

release that's not released and Lou

415

00:17:31,549 --> 00:17:29,100

Elizondo had to go through all this crap

416

00:17:33,230 --> 00:17:31,559

and Chris melon to actually get these

417

00:17:35,450 --> 00:17:33,240

released you know and what happened

418

00:17:37,909 --> 00:17:35,460

after that they put a tighter

419

00:17:39,710 --> 00:17:37,919

Stranglehold on the videos and the goods

420

00:17:42,169 --> 00:17:39,720

they moved them from one server to the

421

00:17:44,210 --> 00:17:42,179

to a different one Tom Rogan kind of

422

00:17:46,310 --> 00:17:44,220

touched on that a little bit John

423

00:17:48,409 --> 00:17:46,320

Greenwald has talked about that about a

424

00:17:51,430 --> 00:17:48,419

little bit but classification is really

425

00:17:55,310 --> 00:17:51,440

tightened you know so

426

00:17:56,870 --> 00:17:55,320

which is just so frustrating

427

00:17:59,690 --> 00:17:56,880

because

428

00:18:01,310 --> 00:17:59,700

we can handle this stuff you know like

429

00:18:03,830 --> 00:18:01,320

we're sitting here scraping the bottom

430

00:18:05,750 --> 00:18:03,840

of the barrel for for a picture like

431

00:18:07,310 --> 00:18:05,760

that we're looking at and again God

432

00:18:10,789 --> 00:18:07,320

bless Jeremy Corbell for coming out with

433

00:18:14,510 --> 00:18:10,799

it doing that but in reality in reality

434

00:18:15,529 --> 00:18:14,520

what is that it's nothing it's a blob of

435

00:18:18,350 --> 00:18:15,539

light

436

00:18:20,570 --> 00:18:18,360

it's maybe a chrome ball it's maybe this

437

00:18:22,370 --> 00:18:20,580

or maybe that like and we shouldn't have

438

00:18:24,529 --> 00:18:22,380

to

439

00:18:26,990 --> 00:18:24,539

um talk about maybe this or maybe that

440

00:18:30,049 --> 00:18:27,000

you know when there's things available

441

00:18:32,630 --> 00:18:30,059

that are that are a lot more clear and

442

00:18:35,450 --> 00:18:32,640

with better resolution that we can

443

00:18:37,010 --> 00:18:35,460

actually discuss and dive into you know

444

00:18:38,930 --> 00:18:37,020

I see all these scientists jumping on

445

00:18:40,370 --> 00:18:38,940

board and there's Chris melon posted

446

00:18:41,810 --> 00:18:40,380

this this big event that's happening

447

00:18:44,470 --> 00:18:41,820

with all these phds and different

448

00:18:47,090 --> 00:18:44,480

scientists coming and talking about UAP

449

00:18:50,390 --> 00:18:47,100

you know and the thing I keep thinking

450

00:18:51,230 --> 00:18:50,400

of is like what can they really talk

451
00:18:54,650 --> 00:18:51,240
about

452
00:18:56,450 --> 00:18:54,660
like there's there's no like data from

453
00:18:58,549 --> 00:18:56,460
the government you know that like

454
00:19:00,650 --> 00:18:58,559
they're not giving out any data for

455
00:19:01,909 --> 00:19:00,660
scientists to actually dig into and

456
00:19:04,850 --> 00:19:01,919
discuss

457
00:19:06,470 --> 00:19:04,860
yeah I mean I think that that it's good

458
00:19:08,450 --> 00:19:06,480
that you brought that up I I'm I'm

459
00:19:10,130 --> 00:19:08,460
really glad that you brought that up

460
00:19:11,930 --> 00:19:10,140
um that's that's the first online

461
00:19:14,570 --> 00:19:11,940
Symposium

462
00:19:18,230 --> 00:19:14,580
um for a new academic Journal that's

463
00:19:19,789 --> 00:19:18,240

called limina right and um and

464

00:19:22,970 --> 00:19:19,799

Christopher melon and it's an online

465

00:19:25,970 --> 00:19:22,980

Symposium that's that's coming up

466

00:19:29,330 --> 00:19:25,980

um February 3rd through 5th I believe it

467

00:19:30,289 --> 00:19:29,340

is and um it's actually really pretty

468

00:19:33,590 --> 00:19:30,299

cool

469

00:19:35,690 --> 00:19:33,600

um it's it's kind of under the Aegis of

470

00:19:39,289 --> 00:19:35,700

of SCU

471

00:19:42,770 --> 00:19:39,299

um which is which is great and I think

472

00:19:46,010 --> 00:19:42,780

here let me find it yeah the the society

473

00:19:47,570 --> 00:19:46,020

for UAP studies not to throw you off

474

00:19:49,630 --> 00:19:47,580

real quick but we have Mr Christopher

475

00:19:52,430 --> 00:19:49,640

sharp here hello sir thanks for coming

476

00:19:55,070 --> 00:19:52,440

oh you said you you would argue that

477

00:19:58,250 --> 00:19:55,080

it's very very big not just or but a UAP

478

00:20:00,950 --> 00:19:58,260

in an act of combat zone that's why it's

479

00:20:03,350 --> 00:20:00,960

important yeah and a couple more things

480

00:20:05,270 --> 00:20:03,360

hi Chris by the way it's great to have

481

00:20:07,010 --> 00:20:05,280

you here I mean if you want to jump on

482

00:20:09,110 --> 00:20:07,020

the podcast I don't know I don't know if

483

00:20:12,169 --> 00:20:09,120

you got a jacket on or whatever but feel

484

00:20:15,470 --> 00:20:12,179

free to join but um you know also in

485

00:20:17,390 --> 00:20:15,480

Chris's article uh Chris uh it says it's

486

00:20:19,190 --> 00:20:17,400

the first publicly revealed image from

487

00:20:21,289 --> 00:20:19,200

the US government's ongoing UFO

488

00:20:24,770 --> 00:20:21,299

investigation showing an unidentified

489

00:20:28,070 --> 00:20:24,780

craft over a conflict Zone so there's

490

00:20:33,130 --> 00:20:28,080

there's a piece of data there now

491

00:20:36,289 --> 00:20:33,140

um and you know there are it's uh Chris

492

00:20:39,230 --> 00:20:36,299

says in the article that this is that

493

00:20:41,930 --> 00:20:39,240

this was flying alongside an MC12 spy

494

00:20:43,730 --> 00:20:41,940

plane The Briefing describes and shows

495

00:20:46,070 --> 00:20:43,740

the UFO as moving from south to North

496

00:20:47,930 --> 00:20:46,080

adding it that it does not appear to

497

00:20:52,250 --> 00:20:47,940

descend

498

00:20:54,470 --> 00:20:52,260

um and it was sent

499

00:20:56,930 --> 00:20:54,480

now one piece of information that's

500

00:21:01,310 --> 00:20:56,940

that's kind of that's also interesting

501
00:21:03,529 --> 00:21:01,320
here is that it was sent to

502
00:21:06,169 --> 00:21:03,539
uh Langley

503
00:21:09,110 --> 00:21:06,179
joint Air Force Base

504
00:21:10,370 --> 00:21:09,120
uh for here let me see where can I find

505
00:21:13,190 --> 00:21:10,380
that here

506
00:21:16,549 --> 00:21:13,200
gosh there's so many ads on this yeah

507
00:21:18,770 --> 00:21:16,559
that's crazy right yeah yeah but uh

508
00:21:20,930 --> 00:21:18,780
I mean basically basically it's just yes

509
00:21:22,730 --> 00:21:20,940
an active war zone like Jeremy corbel's

510
00:21:25,909 --> 00:21:22,740
releasing this stuff and it's great and

511
00:21:29,510 --> 00:21:25,919
I I hope that it puts

512
00:21:31,909 --> 00:21:29,520
um pressure on on the powers to to be to

513
00:21:33,830 --> 00:21:31,919

release more things you know or at least

514

00:21:35,510 --> 00:21:33,840

give the public a chance to actually

515

00:21:38,149 --> 00:21:35,520

digest some of this stuff because it's

516

00:21:39,409 --> 00:21:38,159

just not fair it's ridiculous

517

00:21:41,090 --> 00:21:39,419

um especially for all the people that

518

00:21:42,770 --> 00:21:41,100

have had their own encounters or have

519

00:21:46,010 --> 00:21:42,780

seen things up close or whatever like

520

00:21:47,870 --> 00:21:46,020

share this stuff for them so you know

521

00:21:49,250 --> 00:21:47,880

people can be better educated on what

522

00:21:51,890 --> 00:21:49,260

they're looking at and what they see

523

00:21:55,190 --> 00:21:51,900

like what is wrong with you you're paid

524

00:21:58,669 --> 00:21:55,200

by the taxpayers I've paid you to do

525

00:22:00,830 --> 00:21:58,679

your job and you treat me like like a

526

00:22:03,230 --> 00:22:00,840

little kid just like hiding stuff like

527

00:22:05,450 --> 00:22:03,240

like I'm not a big boy like I can't look

528

00:22:07,490 --> 00:22:05,460

at it well who are you why do you get to

529

00:22:10,370 --> 00:22:07,500

look at it and I can't why can you

530

00:22:13,130 --> 00:22:10,380

handle it but I can't handle it you know

531

00:22:15,430 --> 00:22:13,140

I would beg to differ that that I may be

532

00:22:19,130 --> 00:22:15,440

more suited to handle it than you

533

00:22:21,289 --> 00:22:19,140

yeah I mean people that already you know

534

00:22:22,610 --> 00:22:21,299

when you're talking about how people

535

00:22:25,190 --> 00:22:22,620

could be

536

00:22:27,169 --> 00:22:25,200

suitable for dealing with this kind of

537

00:22:29,630 --> 00:22:27,179

information in the future you know there

538

00:22:34,130 --> 00:22:29,640

is there would be a case to be made as

539

00:22:35,990 --> 00:22:34,140

you're saying to already to to filter in

540

00:22:38,750 --> 00:22:36,000

people that have already gone through

541

00:22:41,029 --> 00:22:38,760

extraordinary ontological shock with

542

00:22:42,890 --> 00:22:41,039

regard to these situations that have

543

00:22:44,029 --> 00:22:42,900

already kind of had their their mind

544

00:22:45,350 --> 00:22:44,039

blown

545

00:22:46,970 --> 00:22:45,360

um with their with either their own

546

00:22:49,010 --> 00:22:46,980

sightings or their own experiences and

547

00:22:50,750 --> 00:22:49,020

we've seen in the past from what it

548

00:22:53,390 --> 00:22:50,760

seems like

549

00:22:55,130 --> 00:22:53,400

um from from what Lou Elizondo and

550

00:22:57,590 --> 00:22:55,140

others have alluded to and even Mario

551
00:23:00,110 --> 00:22:57,600
Woods last week you know Mario had his

552
00:23:01,730 --> 00:23:00,120
own encounter in 1977 it was heavily

553
00:23:07,970 --> 00:23:01,740
documented

554
00:23:10,909 --> 00:23:07,980
um and then you know he had a long

555
00:23:13,730 --> 00:23:10,919
illustrious career at National Labs that

556
00:23:15,230 --> 00:23:13,740
were dealing with you know nuclear

557
00:23:18,289 --> 00:23:15,240
material and all sorts of other

558
00:23:21,950 --> 00:23:18,299
situations that are regularly surveilled

559
00:23:23,870 --> 00:23:21,960
by UAP right and so you could make you

560
00:23:26,090 --> 00:23:23,880
could make a strong case that at least

561
00:23:27,590 --> 00:23:26,100
at certain levels of the

562
00:23:29,450 --> 00:23:27,600
military-industrial complex that's

563
00:23:32,029 --> 00:23:29,460

already happening that they've already

564

00:23:33,950 --> 00:23:32,039

elected to start to start filtering in

565

00:23:36,950 --> 00:23:33,960

people that have dealt with ontological

566

00:23:40,549 --> 00:23:36,960

shock and he's you know from what I can

567

00:23:41,270 --> 00:23:40,559

tell he he's a solid citizen that works

568

00:23:44,450 --> 00:23:41,280

hard

569

00:23:47,210 --> 00:23:44,460

right and keeps a healthy life and you

570

00:23:50,270 --> 00:23:47,220

know participates in the simulation that

571

00:23:52,250 --> 00:23:50,280

we have running you know but but does uh

572

00:23:55,610 --> 00:23:52,260

his best and does a great job at it and

573

00:23:57,770 --> 00:23:55,620

he had quite an encounter as you say you

574

00:24:01,130 --> 00:23:57,780

know you can't show somebody a video or

575

00:24:03,830 --> 00:24:01,140

or photo that would be as jarring as his

576

00:24:06,409 --> 00:24:03,840

actual experience was and yet he's a

577

00:24:08,810 --> 00:24:06,419

very productive member of society so

578

00:24:10,970 --> 00:24:08,820

yeah I think we can handle some photos

579

00:24:13,730 --> 00:24:10,980

and I'm just

580

00:24:16,370 --> 00:24:13,740

and I just get sick and tired of it like

581

00:24:18,529 --> 00:24:16,380

the the freaking hearing that we had and

582

00:24:20,270 --> 00:24:18,539

all this stuff it's like what are we

583

00:24:22,669 --> 00:24:20,280

what are you doing why are you even

584

00:24:24,470 --> 00:24:22,679

having this hearing seriously like

585

00:24:26,990 --> 00:24:24,480

you're wasting money even having this

586

00:24:29,450 --> 00:24:27,000

hearing because we we're not learning

587

00:24:32,510 --> 00:24:29,460

anything why did you even come out with

588

00:24:34,850 --> 00:24:32,520

a report a UAP report just like have

589

00:24:36,350 --> 00:24:34,860

Gauss and somebody an email of of the

590

00:24:39,409 --> 00:24:36,360

number of unidentifieds because that's

591

00:24:41,570 --> 00:24:39,419

basically all it was yeah I like I liked

592

00:24:43,850 --> 00:24:41,580

what Ross cultart said he was like it

593

00:24:45,169 --> 00:24:43,860

read as if the kind of report that

594

00:24:47,210 --> 00:24:45,179

somebody could have written on their

595

00:24:49,549 --> 00:24:47,220

laptop on the front steps on their way

596

00:24:50,570 --> 00:24:49,559

in to file it you know what I mean and I

597

00:24:52,310 --> 00:24:50,580

thought that that was great because

598

00:24:54,710 --> 00:24:52,320

knowing him and his long career in

599

00:24:58,130 --> 00:24:54,720

journalism you know all journalists

600

00:24:59,750 --> 00:24:58,140

start as Chris could probably attest

601
00:25:01,130 --> 00:24:59,760
um to being late with their homework

602
00:25:02,510 --> 00:25:01,140
every once in a while and having to

603
00:25:04,490 --> 00:25:02,520
finish it on the steps or in the

604
00:25:07,130 --> 00:25:04,500
elevator or on the plane or whatever

605
00:25:09,230 --> 00:25:07,140
um Chris also mentions over here he says

606
00:25:13,610 --> 00:25:09,240
just as an update we're awaiting word

607
00:25:16,070 --> 00:25:13,620
from Pentagon on the orb and uh and that

608
00:25:18,890 --> 00:25:16,080
that Susan said they're working on a

609
00:25:20,510 --> 00:25:18,900
response so you know we'll see what that

610
00:25:25,190 --> 00:25:20,520
response is

611
00:25:27,529 --> 00:25:25,200
um and like if if that's true like Susan

612
00:25:29,269 --> 00:25:27,539
said she's working on a response right

613
00:25:32,090 --> 00:25:29,279

there it's like

614

00:25:35,330 --> 00:25:32,100

I have to think about how I'm going to

615

00:25:38,029 --> 00:25:35,340

hide officegate or lie to you you know

616

00:25:39,830 --> 00:25:38,039

because the truth doesn't take time to

617

00:25:42,529 --> 00:25:39,840

come up with the truth

618

00:25:44,269 --> 00:25:42,539

just comes out naturally because that's

619

00:25:47,510 --> 00:25:44,279

what it is you don't have to think about

620

00:25:49,190 --> 00:25:47,520

it you know so taking all this time to

621

00:25:51,590 --> 00:25:49,200

think about what you're going to say and

622

00:25:53,269 --> 00:25:51,600

crap is is already a sign like well we

623

00:25:55,430 --> 00:25:53,279

gotta we gotta think about oh we're

624

00:25:58,250 --> 00:25:55,440

gonna spin this so you know it doesn't

625

00:25:59,990 --> 00:25:58,260

get more popular than it already is you

626
00:26:02,870 --> 00:26:00,000
know yeah if it's anything like the

627
00:26:04,610 --> 00:26:02,880
report for sure and Chris also says over

628
00:26:06,230 --> 00:26:04,620
and over in the chat from our

629
00:26:08,390 --> 00:26:06,240
understanding they've spent six years

630
00:26:10,549 --> 00:26:08,400
trying to work it out and it remains

631
00:26:13,070 --> 00:26:10,559
unresolved so we will try to get

632
00:26:15,710 --> 00:26:13,080
confirmation on that and I did see over

633
00:26:17,750 --> 00:26:15,720
over on the article itself in there it

634
00:26:19,669 --> 00:26:17,760
says one intelligence Source said the

635
00:26:22,130 --> 00:26:19,679
video was sent to Joint Base Langley

636
00:26:24,289 --> 00:26:22,140
Eustis in Virginia which I was trying to

637
00:26:26,930 --> 00:26:24,299
find earlier where imagery and

638
00:26:30,529 --> 00:26:26,940

electronic signals intelligence experts

639

00:26:33,529 --> 00:26:30,539

studied it for U.S Central Command so in

640

00:26:35,330 --> 00:26:33,539

that they're they're alluding to to the

641

00:26:36,890 --> 00:26:35,340

kind of advanced sensors that we were

642

00:26:41,269 --> 00:26:36,900

talking about earlier

643

00:26:43,549 --> 00:26:41,279

um and they they have like they have

644

00:26:45,409 --> 00:26:43,559

this whole world on lockdown as far as

645

00:26:47,390 --> 00:26:45,419

surveillance man they have it all over

646

00:26:49,190 --> 00:26:47,400

the place and in ways we can't even

647

00:26:50,990 --> 00:26:49,200

imagine

648

00:26:52,970 --> 00:26:51,000

um and so so to think that they don't

649

00:26:54,649 --> 00:26:52,980

have any sensor you know data on that

650

00:26:57,350 --> 00:26:54,659

which it would just be silly of course

651
00:27:01,430 --> 00:26:57,360
they have something whatever it is

652
00:27:04,970 --> 00:27:01,440
um oh sure I mean yeah and it's

653
00:27:06,950 --> 00:27:04,980
yeah these days it's absolutely I mean

654
00:27:10,190 --> 00:27:06,960
you you hear about people talking about

655
00:27:13,430 --> 00:27:10,200
spy planes that can you know focus in on

656
00:27:15,230 --> 00:27:13,440
on a on like a on a dime or a quarter

657
00:27:16,549 --> 00:27:15,240
you know on the top of a building or

658
00:27:17,810 --> 00:27:16,559
something like that of course there's

659
00:27:19,789 --> 00:27:17,820
there's there's going to be more

660
00:27:22,070 --> 00:27:19,799
especially in a conflict Zone there's

661
00:27:26,149 --> 00:27:22,080
there's going to be a lot more

662
00:27:28,310 --> 00:27:26,159
um and I um I I do appreciate that a

663
00:27:29,510 --> 00:27:28,320

little bit more information of that is

664

00:27:32,230 --> 00:27:29,520

coming out

665

00:27:34,610 --> 00:27:32,240

um on on the other hand you know without

666

00:27:36,769 --> 00:27:34,620

even just giving us the four second

667

00:27:39,890 --> 00:27:36,779

video or something like that we're left

668

00:27:42,890 --> 00:27:39,900

at least for now with this kind of like

669

00:27:45,890 --> 00:27:42,900

trust me bro you know mindset with

670

00:27:47,870 --> 00:27:45,900

regard to to like hearing about Advanced

671

00:27:49,430 --> 00:27:47,880

sensing hearing about the space fence

672

00:27:52,190 --> 00:27:49,440

things like that

673

00:27:55,909 --> 00:27:52,200

um without without necessarily having

674

00:27:59,029 --> 00:27:55,919

any any anything to show for it and

675

00:28:01,010 --> 00:27:59,039

again it you know I I just if anybody's

676

00:28:02,450 --> 00:28:01,020

listening out there and if and if

677

00:28:05,090 --> 00:28:02,460

they're interested said and like people

678

00:28:07,370 --> 00:28:05,100

are having like faith in their own

679

00:28:09,169 --> 00:28:07,380

government for example you know just you

680

00:28:10,789 --> 00:28:09,179

know throwing out one concept among many

681

00:28:12,350 --> 00:28:10,799

that you could pay attention to for for

682

00:28:14,029 --> 00:28:12,360

good reason

683

00:28:15,950 --> 00:28:14,039

um if you're gonna spend a billion

684

00:28:17,690 --> 00:28:15,960

dollars on a space fence or 10 million

685

00:28:20,149 --> 00:28:17,700

dollars on a space fence or however many

686

00:28:23,390 --> 00:28:20,159

million dollars on a situation like this

687

00:28:26,330 --> 00:28:23,400

you should also maybe build in a way to

688

00:28:29,990 --> 00:28:26,340

have like an a redacted export function

689

00:28:32,330 --> 00:28:30,000

on set machine I mean come on you know

690

00:28:33,950 --> 00:28:32,340

what I mean you're going to be showing

691

00:28:35,870 --> 00:28:33,960

this to people with various levels of

692

00:28:38,690 --> 00:28:35,880

classification and you didn't figure out

693

00:28:41,269 --> 00:28:38,700

how to like have like a redacted expert

694

00:28:44,510 --> 00:28:41,279

function on there come on yeah you know

695

00:28:46,850 --> 00:28:44,520

what I I bet they do have something like

696

00:28:49,970 --> 00:28:46,860

that and that's the frustrating part is

697

00:28:50,690 --> 00:28:49,980

they probably have a way to just you

698

00:28:52,669 --> 00:28:50,700

know

699

00:28:54,529 --> 00:28:52,679

um strip it of any classified stuff or

700

00:28:56,330 --> 00:28:54,539

sensitive stuff and show it to somebody

701
00:28:58,730 --> 00:28:56,340
because of what you said like

702
00:29:02,870 --> 00:28:58,740
interagency stuff like you have to share

703
00:29:05,630 --> 00:29:02,880
things whatever like I bet they do but

704
00:29:10,130 --> 00:29:05,640
um again you know whatever it is why do

705
00:29:12,289 --> 00:29:10,140
you think why do you think there's this

706
00:29:16,370 --> 00:29:12,299
why do you think there's been such a

707
00:29:19,930 --> 00:29:16,380
like a build up to to hearings to Arrow

708
00:29:23,269 --> 00:29:19,940
to to all these you know seemingly

709
00:29:25,070 --> 00:29:23,279
transparent things but meanwhile

710
00:29:27,049 --> 00:29:25,080
they're

711
00:29:28,909 --> 00:29:27,059
you know over classifying this stuff

712
00:29:31,970 --> 00:29:28,919
even more

713
00:29:33,769 --> 00:29:31,980

and making it less a you know attainable

714

00:29:36,710 --> 00:29:33,779

to for the public to actually get their

715

00:29:38,750 --> 00:29:36,720

hands on what what yeah the point of

716

00:29:42,769 --> 00:29:38,760

that it's a really interesting question

717

00:29:44,930 --> 00:29:42,779

because as as we noticed two weeks ago

718

00:29:47,389 --> 00:29:44,940

um when we had Tom Rogan on the show who

719

00:29:49,250 --> 00:29:47,399

writes for the Washington examiner and

720

00:29:51,230 --> 00:29:49,260

has a long history with Jane's defense

721

00:29:53,690 --> 00:29:51,240

weekly

722

00:29:55,730 --> 00:29:53,700

um as does Nick cook and other folks

723

00:29:58,669 --> 00:29:55,740

um who are you know very closely tied

724

00:30:00,350 --> 00:29:58,679

have reported on the defense industry

725

00:30:04,190 --> 00:30:00,360

for quite some time

726

00:30:05,630 --> 00:30:04,200

Tom Rogan you know he was he briefly

727

00:30:06,950 --> 00:30:05,640

mentioned

728

00:30:10,370 --> 00:30:06,960

um that

729

00:30:13,310 --> 00:30:10,380

that uh there have been that he's heard

730

00:30:15,350 --> 00:30:13,320

words that there have been kind of

731

00:30:17,510 --> 00:30:15,360

retractions and people pulling things a

732

00:30:20,090 --> 00:30:17,520

little bit tighter uh on the

733

00:30:22,549 --> 00:30:20,100

confidential version of the intranet

734

00:30:24,769 --> 00:30:22,559

that military that the military and

735

00:30:26,570 --> 00:30:24,779

government I see folks use you know

736

00:30:28,549 --> 00:30:26,580

there's there's a system called supernet

737

00:30:31,070 --> 00:30:28,559

and there's another system called jwix

738

00:30:33,950 --> 00:30:31,080

and apparently some of these some of

739

00:30:36,830 --> 00:30:33,960

these long rumored UAP videos that have

740

00:30:38,750 --> 00:30:36,840

lived on one system or another some of

741

00:30:40,970 --> 00:30:38,760

them have moved from the secret system

742

00:30:43,430 --> 00:30:40,980

over the top secret system and some of

743

00:30:45,950 --> 00:30:43,440

those maybe even have been have been

744

00:30:48,409 --> 00:30:45,960

even pulled altogether

745

00:30:50,269 --> 00:30:48,419

um and and the word on the street with

746

00:30:52,490 --> 00:30:50,279

regard to that was specifically to

747

00:30:55,250 --> 00:30:52,500

discourage from leaking

748

00:30:57,470 --> 00:30:55,260

um and you know I mean of course you

749

00:31:02,289 --> 00:30:57,480

know you and I aren't aren't encouraging

750

00:31:04,970 --> 00:31:02,299

anybody to break the law right I am

751
00:31:08,930 --> 00:31:04,980
breaking the law and read something

752
00:31:10,750 --> 00:31:08,940
amazing change the world just even like

753
00:31:13,909 --> 00:31:10,760
you know like

754
00:31:16,490 --> 00:31:13,919
be a little selfless here just do it

755
00:31:18,350 --> 00:31:16,500
figure it out like but make sure it's

756
00:31:20,210 --> 00:31:18,360
really freaking good don't do that if

757
00:31:22,010 --> 00:31:20,220
it's just gonna be like something that

758
00:31:25,310 --> 00:31:22,020
we can argue about for the next 20 years

759
00:31:26,810 --> 00:31:25,320
you know only do it if it's like this is

760
00:31:29,330 --> 00:31:26,820
the legit thing that's going to change

761
00:31:31,310 --> 00:31:29,340
the face of the yeah you know if you do

762
00:31:32,870 --> 00:31:31,320
it if you have that then freaking do it

763
00:31:35,389 --> 00:31:32,880

man

764

00:31:38,029 --> 00:31:35,399

yeah I mean I think there's probably

765

00:31:40,130 --> 00:31:38,039

other routes that that especially now

766

00:31:41,930 --> 00:31:40,140

that the Whistleblower the quote unquote

767

00:31:46,130 --> 00:31:41,940

whistleblower language has been put into

768

00:31:48,649 --> 00:31:46,140

the ndaa we can hope that that there are

769

00:31:51,950 --> 00:31:48,659

and I think that there are you know

770

00:31:54,889 --> 00:31:51,960

creative minded people that have decent

771

00:31:56,930 --> 00:31:54,899

data that are able to start to come

772

00:31:59,810 --> 00:31:56,940

forward in a way that's that's legal

773

00:32:01,669 --> 00:31:59,820

even like Mario last week you know and

774

00:32:04,310 --> 00:32:01,679

he you know he's willing to talk to us

775

00:32:06,230 --> 00:32:04,320

before he even goes in uh to talk to

776
00:32:08,510 --> 00:32:06,240
Sean Kirkpatrick or whoever he's going

777
00:32:10,370 --> 00:32:08,520
to be speaking with in Arrow right so

778
00:32:12,049 --> 00:32:10,380
you know that's great and of course

779
00:32:14,269 --> 00:32:12,059
Robert Solace is going to be talking to

780
00:32:15,590 --> 00:32:14,279
them as well and Robert Salas has has

781
00:32:17,930 --> 00:32:15,600
been very forthright about this

782
00:32:20,090 --> 00:32:17,940
information Mario said that there are

783
00:32:21,830 --> 00:32:20,100
eight people including himself that he

784
00:32:23,570 --> 00:32:21,840
knew of that were going to be testifying

785
00:32:25,310 --> 00:32:23,580
soon right

786
00:32:28,730 --> 00:32:25,320
um and we know who two of those people

787
00:32:30,769 --> 00:32:28,740
are so far right but again like what is

788
00:32:32,210 --> 00:32:30,779

the point of all this if they not going

789

00:32:34,610 --> 00:32:32,220

to share it with people they have no

790

00:32:37,190 --> 00:32:34,620

stipulations to tell the the public

791

00:32:39,470 --> 00:32:37,200

about any of these findings like if uh

792

00:32:42,110 --> 00:32:39,480

Eric Davis or other people walk in and

793

00:32:43,610 --> 00:32:42,120

testify and say yep there's materials

794

00:32:45,710 --> 00:32:43,620

they're at Lockheed or whatever and

795

00:32:47,990 --> 00:32:45,720

let's even say that they actually

796

00:32:50,870 --> 00:32:48,000

somehow get access to it and get to see

797

00:32:53,990 --> 00:32:50,880

it and it you know they all know that

798

00:32:55,370 --> 00:32:54,000

it's legit not made by humans material

799

00:32:57,590 --> 00:32:55,380

here it is

800

00:33:00,769 --> 00:32:57,600

there they don't have to tell us and

801
00:33:03,049 --> 00:33:00,779
they probably wouldn't tell us so like

802
00:33:04,490 --> 00:33:03,059
you know I I just don't give a

803
00:33:08,990 --> 00:33:04,500
about any of this if you're not going to

804
00:33:10,610 --> 00:33:09,000
tell me you know like yeah yeah and I

805
00:33:12,409 --> 00:33:10,620
mean me personally but but the world

806
00:33:15,889 --> 00:33:12,419
like what what are you doing all this

807
00:33:18,230 --> 00:33:15,899
for if there's no plan to actually tell

808
00:33:18,950 --> 00:33:18,240
the people of the world what the truth

809
00:33:22,250 --> 00:33:18,960
is

810
00:33:24,830 --> 00:33:22,260
you know yeah I mean I think one aspect

811
00:33:27,769 --> 00:33:24,840
with this is that like we're speaking

812
00:33:30,830 --> 00:33:27,779
about limina earlier that you know we

813
00:33:32,330 --> 00:33:30,840

need we we also we need to have more

814

00:33:33,830 --> 00:33:32,340

pressure points and we've talked about

815

00:33:36,710 --> 00:33:33,840

this before that we need to have more

816

00:33:38,389 --> 00:33:36,720

pressure points kind of as a society as

817

00:33:40,130 --> 00:33:38,399

people that are interested in the truth

818

00:33:42,529 --> 00:33:40,140

and are interested in these great big

819

00:33:46,130 --> 00:33:42,539

Mysteries you know because so many

820

00:33:48,470 --> 00:33:46,140

people watching right now you know us so

821

00:33:50,930 --> 00:33:48,480

many people in the field and so many

822

00:33:52,909 --> 00:33:50,940

important people in the field that have

823

00:33:55,250 --> 00:33:52,919

I have made significant discoveries on

824

00:33:57,409 --> 00:33:55,260

their own like like Gary Nolan or Avila

825

00:33:59,870 --> 00:33:57,419

or folks like that they think that this

826

00:34:03,289 --> 00:33:59,880

is you know that any little piece of

827

00:34:04,730 --> 00:34:03,299

this is the biggest story and or one of

828

00:34:06,830 --> 00:34:04,740

the biggest very biggest stories in

829

00:34:09,530 --> 00:34:06,840

human history which is the chapter where

830

00:34:14,089 --> 00:34:09,540

we we come into contact with other

831

00:34:16,369 --> 00:34:14,099

Advanced uh intelligences right and I I

832

00:34:19,550 --> 00:34:16,379

completely believe that I completely

833

00:34:21,409 --> 00:34:19,560

agree with that and you know we need we

834

00:34:23,750 --> 00:34:21,419

need to continue to encourage more

835

00:34:25,730 --> 00:34:23,760

pressure points that aren't people that

836

00:34:28,669 --> 00:34:25,740

are paid to keep secrets

837

00:34:30,169 --> 00:34:28,679

um because you know if if folks like

838

00:34:32,510 --> 00:34:30,179

some of those folks that are going to be

839

00:34:35,510 --> 00:34:32,520

speaking at that limit of Symposium uh

840

00:34:38,169 --> 00:34:35,520

in in early February you know if if

841

00:34:41,990 --> 00:34:38,179

people are interested in transparency

842

00:34:46,129 --> 00:34:42,000

and if and if people can be

843

00:34:48,950 --> 00:34:46,139

if it can be in their financial or their

844

00:34:51,589 --> 00:34:48,960

their best interest in in some way shape

845

00:34:55,129 --> 00:34:51,599

or form that it benefits them to have

846

00:34:57,349 --> 00:34:55,139

that transparency then then I feel like

847

00:35:00,109 --> 00:34:57,359

that's that's the way that it starts to

848

00:35:03,589 --> 00:35:00,119

work right because you see a lot of

849

00:35:06,230 --> 00:35:03,599

situations where where people

850

00:35:09,470 --> 00:35:06,240

they they're interested in transparency

851
00:35:11,810 --> 00:35:09,480
and until the point where you know a

852
00:35:13,910 --> 00:35:11,820
paycheck is involved or their pension is

853
00:35:16,190 --> 00:35:13,920
involved or something like that because

854
00:35:17,750 --> 00:35:16,200
or they're they're put in danger which

855
00:35:20,690 --> 00:35:17,760
is a very real

856
00:35:23,990 --> 00:35:20,700
situation these days right and it's like

857
00:35:25,790 --> 00:35:24,000
you know with you talking about the

858
00:35:27,530 --> 00:35:25,800
various ways that that surveillance

859
00:35:29,930 --> 00:35:27,540
happens the various ways that people can

860
00:35:31,849 --> 00:35:29,940
be tracked very easily these days it's

861
00:35:33,650 --> 00:35:31,859
not easy to get away with very much it's

862
00:35:35,990 --> 00:35:33,660
not easy to blast something out to the

863
00:35:38,089 --> 00:35:36,000

world and then disappear like you know

864

00:35:39,770 --> 00:35:38,099

people you know people in the old days

865

00:35:41,270 --> 00:35:39,780

they could disappear really easily but

866

00:35:42,890 --> 00:35:41,280

they couldn't blast something out to the

867

00:35:44,390 --> 00:35:42,900

whole world now you can blast something

868

00:35:46,010 --> 00:35:44,400

out to the world in like two seconds

869

00:35:48,230 --> 00:35:46,020

flat

870

00:35:51,890 --> 00:35:48,240

um as long as you get like retweeted or

871

00:35:54,290 --> 00:35:51,900

whatever but you can't disappear right

872

00:35:56,510 --> 00:35:54,300

so it creates a little bit of a

873

00:35:58,250 --> 00:35:56,520

conundrum there in terms of like how how

874

00:36:00,410 --> 00:35:58,260

are people going to go about doing this

875

00:36:02,750 --> 00:36:00,420

in the in quote unquote the right way

876

00:36:04,069 --> 00:36:02,760

right and you know what going back a

877

00:36:05,329 --> 00:36:04,079

little bit when you're you know talking

878

00:36:06,650 --> 00:36:05,339

about different pressure points and

879

00:36:08,810 --> 00:36:06,660

stuff and other people doing their own

880

00:36:11,750 --> 00:36:08,820

studies agreed and only or Jacques

881

00:36:13,130 --> 00:36:11,760

Valley or other people you know um

882

00:36:16,430 --> 00:36:13,140

yeah you know the thing that I think

883

00:36:19,370 --> 00:36:16,440

about too is it's like

884

00:36:22,250 --> 00:36:19,380

that they're using screwdrivers though

885

00:36:24,950 --> 00:36:22,260

when the government has a drill you know

886

00:36:27,589 --> 00:36:24,960

right it's like fine if you're not going

887

00:36:29,510 --> 00:36:27,599

to show your drill with me I'll just do

888

00:36:31,250 --> 00:36:29,520

all these manually with the screwdriver

889

00:36:33,829 --> 00:36:31,260

you know while they just look at you and

890

00:36:36,710 --> 00:36:33,839

say he can't handle an electric drill

891

00:36:39,230 --> 00:36:36,720

it's too much you know like I promise

892

00:36:41,270 --> 00:36:39,240

you I can handle an electric drill yeah

893

00:36:43,089 --> 00:36:41,280

it may have taken me a while as a kid

894

00:36:45,349 --> 00:36:43,099

but I figured it out eventually right

895

00:36:46,670 --> 00:36:45,359

and you know in the whole thing it just

896

00:36:48,290 --> 00:36:46,680

comes back to like they're supposed to

897

00:36:50,569 --> 00:36:48,300

serve the people and this is something

898

00:36:52,250 --> 00:36:50,579

we're interested in you know and we want

899

00:36:53,870 --> 00:36:52,260

information about and and they don't

900

00:36:55,490 --> 00:36:53,880

give it to us but

901
00:36:57,170 --> 00:36:55,500
um you know Christopher sharp it brings

902
00:36:58,310 --> 00:36:57,180
up a good point too the next push for

903
00:37:03,349 --> 00:36:58,320
Congress

904
00:37:05,990 --> 00:37:03,359
regarding transparency and you know so

905
00:37:07,609 --> 00:37:06,000
far I can say that they haven't

906
00:37:09,650 --> 00:37:07,619
you know first of all the report was

907
00:37:11,990 --> 00:37:09,660
super late nobody from Congress said a

908
00:37:14,990 --> 00:37:12,000
dang word about it you know right the

909
00:37:18,530 --> 00:37:15,000
report finally comes up super except for

910
00:37:20,950 --> 00:37:18,540
yeah oh go ahead bird Chad yeah

911
00:37:23,690 --> 00:37:20,960
um that the report actually comes out

912
00:37:25,609 --> 00:37:23,700
and let's just like push perchetta off

913
00:37:26,510 --> 00:37:25,619

to the side for a second nobody says

914

00:37:28,849 --> 00:37:26,520

anything

915

00:37:31,069 --> 00:37:28,859

you know and then what they do say they

916

00:37:32,630 --> 00:37:31,079

all go oh I'm so happy thank you thank

917

00:37:35,510 --> 00:37:32,640

you for doing this you know thank you

918

00:37:37,910 --> 00:37:35,520

for doing that and this and there's no

919

00:37:39,650 --> 00:37:37,920

transparency in it they don't give us a

920

00:37:41,630 --> 00:37:39,660

single case they don't give us a shape

921

00:37:43,790 --> 00:37:41,640

they don't give us anything you know

922

00:37:45,710 --> 00:37:43,800

other than these numbers and they're all

923

00:37:48,050 --> 00:37:45,720

like oh thank you thank you so much for

924

00:37:49,010 --> 00:37:48,060

uh this is looking fantastic like no it

925

00:37:51,950 --> 00:37:49,020

isn't

926

00:37:55,790 --> 00:37:51,960

it doesn't look good at all there's no

927

00:37:57,829 --> 00:37:55,800

transparency right you know and it's and

928

00:38:00,109 --> 00:37:57,839

it's true that even if you know as

929

00:38:02,930 --> 00:38:00,119

others have said if

930

00:38:07,130 --> 00:38:02,940

that very short report could have easily

931

00:38:08,569 --> 00:38:07,140

had a few unexplained cases it could

932

00:38:10,670 --> 00:38:08,579

have you know it could have had five

933

00:38:12,230 --> 00:38:10,680

cases in there where it's just like a

934

00:38:15,050 --> 00:38:12,240

quick blow by blow of the kind of

935

00:38:16,970 --> 00:38:15,060

examples of unidentified situations just

936

00:38:18,710 --> 00:38:16,980

the five most compelling unidentified

937

00:38:20,930 --> 00:38:18,720

ones they could have easily done that it

938

00:38:23,510 --> 00:38:20,940

was not that was not what they were and

939

00:38:25,010 --> 00:38:23,520

by not having that you can tell that

940

00:38:27,950 --> 00:38:25,020

that's not what they were out to do they

941

00:38:29,510 --> 00:38:27,960

were not sure to to to entice people to

942

00:38:32,210 --> 00:38:29,520

be interested in the subject they were

943

00:38:34,069 --> 00:38:32,220

trying to explain it away Project Blue

944

00:38:37,430 --> 00:38:34,079

Book style early project book lifestyle

945

00:38:39,530 --> 00:38:37,440

right anyway

946

00:38:41,569 --> 00:38:39,540

give an example of each case you know

947

00:38:42,890 --> 00:38:41,579

here's one of the drones that we've got

948

00:38:45,290 --> 00:38:42,900

here's one of the balloons that we got

949

00:38:47,690 --> 00:38:45,300

here's one of the ones that kind of

950

00:38:50,210 --> 00:38:47,700

seemed to make crazy moves that we need

951
00:38:53,210 --> 00:38:50,220
to study more here's this here's that

952
00:38:58,310 --> 00:38:55,910
just freaking show us man otherwise then

953
00:39:00,050 --> 00:38:58,320
we have people like corbel getting you

954
00:39:03,230 --> 00:39:00,060
know putting stuff out creating the

955
00:39:05,210 --> 00:39:03,240
whole podcast around it right you know

956
00:39:07,370 --> 00:39:05,220
and

957
00:39:10,069 --> 00:39:07,380
in doing all that

958
00:39:12,230 --> 00:39:10,079
because the government secrecy you know

959
00:39:14,630 --> 00:39:12,240
like that yeah they're doing this to

960
00:39:16,970 --> 00:39:14,640
themselves and

961
00:39:19,490 --> 00:39:16,980
you know you have a lot other people a

962
00:39:22,550 --> 00:39:19,500
lot of other people like actual real

963
00:39:24,290 --> 00:39:22,560

grifters who go out there and do crazy

964

00:39:26,870 --> 00:39:24,300

things and just take advantage of that

965

00:39:28,970 --> 00:39:26,880

all the time and fool people take their

966

00:39:30,710 --> 00:39:28,980

money steal their money whatever you

967

00:39:33,050 --> 00:39:30,720

know and that's all because of the

968

00:39:38,990 --> 00:39:36,050

I mean yeah I know I'm being pretty hard

969

00:39:41,690 --> 00:39:39,000

on it but no no no we need to be real at

970

00:39:43,730 --> 00:39:41,700

some point right sure yeah well and

971

00:39:46,670 --> 00:39:43,740

another thing I mean here's another like

972

00:39:50,329 --> 00:39:46,680

little gem of advice along with redacted

973

00:39:52,550 --> 00:39:50,339

export function right now if if if

974

00:39:54,470 --> 00:39:52,560

you're going to do a slow rolling

975

00:39:56,630 --> 00:39:54,480

disclosure campaign if you're going to

976
00:39:58,490 --> 00:39:56,640
slow roll this process as has been

977
00:40:00,109 --> 00:39:58,500
seemingly done for the last five years

978
00:40:02,270 --> 00:40:00,119
right

979
00:40:05,329 --> 00:40:02,280
um Drip by drip you know kind of like

980
00:40:08,630 --> 00:40:05,339
moving moving moving

981
00:40:09,790 --> 00:40:08,640
one yard or two yards or five yards each

982
00:40:13,370 --> 00:40:09,800
year

983
00:40:15,349 --> 00:40:13,380
now if you were to do that and if you

984
00:40:17,630 --> 00:40:15,359
were to be at like a really precarious

985
00:40:20,210 --> 00:40:17,640
point in history a really precarious

986
00:40:23,930 --> 00:40:20,220
point in human history where you know

987
00:40:27,770 --> 00:40:23,940
there's there's a huge escalation of

988
00:40:29,089 --> 00:40:27,780

arms in the Ukraine and we're now we've

989

00:40:30,650 --> 00:40:29,099

just agreed to send a bunch of Tanks

990

00:40:32,390 --> 00:40:30,660

over there so it's Germany so it's

991

00:40:34,790 --> 00:40:32,400

Poland and they're already saying like

992

00:40:35,990 --> 00:40:34,800

oh they won't get there for months you

993

00:40:37,370 --> 00:40:36,000

know they won't be able to be on the

994

00:40:38,510 --> 00:40:37,380

front lines for months because they have

995

00:40:40,670 --> 00:40:38,520

to train people in and all this stuff

996

00:40:42,650 --> 00:40:40,680

and you know what they're telling you is

997

00:40:44,329 --> 00:40:42,660

not just that the time that the tanks

998

00:40:46,550 --> 00:40:44,339

are going there but that they're already

999

00:40:49,310 --> 00:40:46,560

anticipating that this conflict is not

1000

00:40:51,710 --> 00:40:49,320

going to be over for anytime soon right

1001

00:40:53,089 --> 00:40:51,720

I mean that that's that's the piece of

1002

00:40:54,650 --> 00:40:53,099

news that people are really supposed to

1003

00:40:57,230 --> 00:40:54,660

hear right now they're bracing people

1004

00:40:58,730 --> 00:40:57,240

for the fact that a there should be like

1005

00:41:00,290 --> 00:40:58,740

much there's going to be much more

1006

00:41:02,750 --> 00:41:00,300

escalation and then it's going to be

1007

00:41:05,030 --> 00:41:02,760

like months and you know months if not

1008

00:41:07,250 --> 00:41:05,040

years of this right that's that's what

1009

00:41:10,010 --> 00:41:07,260

the new uses it's not the tanks it's

1010

00:41:11,870 --> 00:41:10,020

it's that it's the schedule and along

1011

00:41:14,089 --> 00:41:11,880

those lines you know we're looking at a

1012

00:41:16,550 --> 00:41:14,099

schedule here with regard to like how

1013

00:41:18,890 --> 00:41:16,560

this information is being dispersed how

1014

00:41:21,589 --> 00:41:18,900

it's coming out to us and one thing that

1015

00:41:24,349 --> 00:41:21,599

I would suggest is if you're if you

1016

00:41:26,089 --> 00:41:24,359

would like to have the Good Will of the

1017

00:41:27,890 --> 00:41:26,099

people or if you would if you're

1018

00:41:30,349 --> 00:41:27,900

concerned about people running around in

1019

00:41:33,770 --> 00:41:30,359

the streets ontological shock or people

1020

00:41:35,870 --> 00:41:33,780

having massive distrust and and who's

1021

00:41:38,329 --> 00:41:35,880

they're paying their taxes to just

1022

00:41:40,490 --> 00:41:38,339

release it yourselves don't sneak it out

1023

00:41:43,010 --> 00:41:40,500

don't don't you know like give a video

1024

00:41:44,990 --> 00:41:43,020

like let Chris millin leak it to the New

1025

00:41:46,849 --> 00:41:45,000

York Times to you know to put it you

1026

00:41:48,349 --> 00:41:46,859

know well you could do that and that was

1027

00:41:51,470 --> 00:41:48,359

great that that did happen like that

1028

00:41:53,630 --> 00:41:51,480

right that's perfect for them but if you

1029

00:41:57,410 --> 00:41:53,640

really want to get people back on board

1030

00:42:00,589 --> 00:41:57,420

and to make people feel safe at all

1031

00:42:02,750 --> 00:42:00,599

you know what I mean then then you know

1032

00:42:05,270 --> 00:42:02,760

there's really easy places to start here

1033

00:42:08,150 --> 00:42:05,280

instead of giving people screen grab

1034

00:42:10,130 --> 00:42:08,160

giving screen grabs to like you know the

1035

00:42:12,650 --> 00:42:10,140

the hippest person under 50 that you can

1036

00:42:14,150 --> 00:42:12,660

find that is like aligned with you you

1037

00:42:15,410 --> 00:42:14,160

know what I mean or whatever it's gonna

1038

00:42:18,470 --> 00:42:15,420

be

1039

00:42:21,109 --> 00:42:18,480

um I mean that's that's just me but you

1040

00:42:22,910 --> 00:42:21,119

know let people write their stories

1041

00:42:24,710 --> 00:42:22,920

after the government releases it you

1042

00:42:26,569 --> 00:42:24,720

know or whatever versus you know because

1043

00:42:29,569 --> 00:42:26,579

he you get so many like

1044

00:42:32,210 --> 00:42:29,579

like little leaks too people like in the

1045

00:42:34,490 --> 00:42:32,220

dod talking to other people like one's

1046

00:42:36,829 --> 00:42:34,500

talking to Julian Barnes you know and

1047

00:42:38,930 --> 00:42:36,839

he's writing this crappy article that

1048

00:42:41,390 --> 00:42:38,940

pisses everybody off the report doesn't

1049

00:42:43,310 --> 00:42:41,400

even come out for months you know and

1050

00:42:44,870 --> 00:42:43,320

then you actually have somebody getting

1051
00:42:47,810 --> 00:42:44,880
um some accurate information like Chris

1052
00:42:50,450 --> 00:42:47,820
sharp and you know the Daily Mail who

1053
00:42:52,550 --> 00:42:50,460
actually got accurate information you

1054
00:42:54,109 --> 00:42:52,560
know and then even the orb thing they

1055
00:42:56,750 --> 00:42:54,119
talked about and then here's the picture

1056
00:42:58,550 --> 00:42:56,760
of it like why are they doing

1057
00:43:00,109 --> 00:42:58,560
the government's job

1058
00:43:02,030 --> 00:43:00,119
you know that's what the government

1059
00:43:05,390 --> 00:43:02,040
should be doing why are they doing it

1060
00:43:08,329 --> 00:43:05,400
you know like I'm not paying them taxes

1061
00:43:10,010 --> 00:43:08,339
I should be I guess you know yeah we

1062
00:43:12,250 --> 00:43:10,020
should yeah that should be that should

1063
00:43:15,530 --> 00:43:12,260

be in the pie chart next year like like

1064

00:43:18,890 --> 00:43:15,540

1.1 you know you know one penny is going

1065

00:43:20,870 --> 00:43:18,900

to Jeremy Corbell over there right taxes

1066

00:43:23,990 --> 00:43:20,880

as he delivers this government

1067

00:43:25,910 --> 00:43:24,000

information to me yeah and like if

1068

00:43:28,370 --> 00:43:25,920

Jeremy you know or George sees us in the

1069

00:43:29,750 --> 00:43:28,380

future you know George you know God

1070

00:43:32,210 --> 00:43:29,760

bless you for doing the work that you've

1071

00:43:33,770 --> 00:43:32,220

been doing for for 40 plus years you

1072

00:43:36,470 --> 00:43:33,780

know thank you Jeremy for for getting

1073

00:43:38,750 --> 00:43:36,480

out what you're doing but uh you know

1074

00:43:40,609 --> 00:43:38,760

for those of us that are in the chat

1075

00:43:42,290 --> 00:43:40,619

um please you know give at least a penny

1076

00:43:45,470 --> 00:43:42,300

each of you to Chris sharp he needs a

1077

00:43:46,970 --> 00:43:45,480

holiday he says and then meanwhile these

1078

00:43:49,670 --> 00:43:46,980

people go out and they do all this stuff

1079

00:43:51,349 --> 00:43:49,680

like Chris corbellum nap or whatever and

1080

00:43:52,910 --> 00:43:51,359

you just have these you know we've

1081

00:43:55,730 --> 00:43:52,920

talked about this so many times but then

1082

00:43:58,010 --> 00:43:55,740

you just have like these uh uh armchair

1083

00:44:00,410 --> 00:43:58,020

quarterbacks just like complaining the

1084

00:44:02,210 --> 00:44:00,420

whole time you know like you're talking

1085

00:44:05,270 --> 00:44:02,220

about us right you're talking yeah no

1086

00:44:07,190 --> 00:44:05,280

well no you know like other people who

1087

00:44:09,770 --> 00:44:07,200

just can't wait to pounce on it and say

1088

00:44:10,550 --> 00:44:09,780

how stupid it is you know just like what

1089

00:44:11,750 --> 00:44:10,560

do you

1090

00:44:13,370 --> 00:44:11,760

it's

1091

00:44:16,130 --> 00:44:13,380

you know for the love of God everybody

1092

00:44:18,589 --> 00:44:16,140

just stop listening to those people like

1093

00:44:20,990 --> 00:44:18,599

I'm so tired of people like retweeting a

1094

00:44:22,910 --> 00:44:21,000

debunkers thing and going this is why

1095

00:44:25,130 --> 00:44:22,920

this person's stupid or whatever just

1096

00:44:27,530 --> 00:44:25,140

stop sharing it stop giving this person

1097

00:44:30,290 --> 00:44:27,540

attention because when you do

1098

00:44:34,250 --> 00:44:30,300

there could be one more person that it

1099

00:44:36,290 --> 00:44:34,260

reaches that is maybe a pessimist or

1100

00:44:42,430 --> 00:44:36,300

having a bad day that latches on to it

1101

00:44:47,750 --> 00:44:45,770

yeah I agree I agree I think one thing

1102

00:44:50,510 --> 00:44:47,760

to pay attention to is that you know

1103

00:44:52,069 --> 00:44:50,520

people people go to Mick West you know

1104

00:44:54,170 --> 00:44:52,079

he's shown up even in the New York Times

1105

00:44:55,970 --> 00:44:54,180

and that Julian Barnes piece and you

1106

00:44:57,230 --> 00:44:55,980

know he's he's shown up at different

1107

00:45:00,109 --> 00:44:57,240

places

1108

00:45:03,470 --> 00:45:00,119

um and that he's like a go-to for

1109

00:45:04,849 --> 00:45:03,480

debunking UAP situations and you know

1110

00:45:07,010 --> 00:45:04,859

for what reason the guy's just a video

1111

00:45:08,510 --> 00:45:07,020

game designer you know and he's like a

1112

00:45:10,309 --> 00:45:08,520

retired video game designer he doesn't

1113

00:45:12,650 --> 00:45:10,319

even make video games anymore he used to

1114

00:45:13,670 --> 00:45:12,660

you know what what you know why who

1115

00:45:15,410 --> 00:45:13,680

cares

1116

00:45:18,230 --> 00:45:15,420

um you know why they care they care

1117

00:45:20,690 --> 00:45:18,240

because we care right if we stop giving

1118

00:45:22,730 --> 00:45:20,700

them oxygen he wouldn't be the go-to guy

1119

00:45:24,890 --> 00:45:22,740

anymore because we wouldn't care about

1120

00:45:27,170 --> 00:45:24,900

him they look at us

1121

00:45:29,510 --> 00:45:27,180

they literally look at our field and go

1122

00:45:31,069 --> 00:45:29,520

like okay who's you know who's you know

1123

00:45:32,750 --> 00:45:31,079

we have to give the counterweight here

1124

00:45:34,329 --> 00:45:32,760

who's the counterweight here who's the

1125

00:45:38,510 --> 00:45:34,339

other side

1126
00:45:40,910 --> 00:45:38,520
quests in green Sweden let's yeah we but

1127
00:45:43,190 --> 00:45:40,920
we need to think like as as a community

1128
00:45:44,930 --> 00:45:43,200
not in a group think way but each of us

1129
00:45:47,030 --> 00:45:44,940
should think about like who do you want

1130
00:45:48,770 --> 00:45:47,040
to give oxygen to and if there is

1131
00:45:51,170 --> 00:45:48,780
somebody that's on the other side

1132
00:45:53,870 --> 00:45:51,180
whatever other side of the conversation

1133
00:45:55,849 --> 00:45:53,880
that there is you know look for somebody

1134
00:45:57,829 --> 00:45:55,859
that has that's coming at it from a

1135
00:46:00,710 --> 00:45:57,839
place of good faith where they're like

1136
00:46:03,170 --> 00:46:00,720
honestly trying to understand or they're

1137
00:46:04,790 --> 00:46:03,180
honestly they honestly have an

1138
00:46:06,230 --> 00:46:04,800

alternative Viewpoint to you because a

1139

00:46:08,510 --> 00:46:06,240

that's going to be a more interesting

1140

00:46:10,550 --> 00:46:08,520

conversation for you totally you're not

1141

00:46:13,010 --> 00:46:10,560

just going to be talking to a wall and

1142

00:46:14,690 --> 00:46:13,020

be in the future you know the people

1143

00:46:16,910 --> 00:46:14,700

that you know the journalists the

1144

00:46:19,730 --> 00:46:16,920

editors out there that look for the

1145

00:46:21,890 --> 00:46:19,740

other side of this debate are going to

1146

00:46:23,390 --> 00:46:21,900

find those people that are operating in

1147

00:46:26,150 --> 00:46:23,400

good faith and will have a more high

1148

00:46:28,010 --> 00:46:26,160

level conversation right yeah enough at

1149

00:46:31,390 --> 00:46:28,020

picking these extremes too you know it's

1150

00:46:34,790 --> 00:46:31,400

like either uh it's all completely

1151
00:46:37,010 --> 00:46:34,800
debunked balloons birds and crap or it's

1152
00:46:39,349 --> 00:46:37,020
aliens you know like these are the two

1153
00:46:41,089 --> 00:46:39,359
options that the most a lot of media is

1154
00:46:44,150 --> 00:46:41,099
trying to present people with you know

1155
00:46:46,970 --> 00:46:44,160
which is like completely throwing your

1156
00:46:49,010 --> 00:46:46,980
dart at the dartboard and you know

1157
00:46:53,150 --> 00:46:49,020
landing on the pool table which is

1158
00:46:55,309 --> 00:46:53,160
completely wrong like you have people in

1159
00:46:56,690 --> 00:46:55,319
the middle which like for me for

1160
00:46:57,530 --> 00:46:56,700
instance like

1161
00:46:59,750 --> 00:46:57,540
foreign

1162
00:47:02,030 --> 00:46:59,760
I can't look at the picture that was

1163
00:47:04,849 --> 00:47:02,040

released and tell you what it is you

1164

00:47:07,849 --> 00:47:04,859

know like I can't say it it's alien Tech

1165

00:47:10,490 --> 00:47:07,859

I can't say it it's uh Chrome basketball

1166

00:47:12,290 --> 00:47:10,500

I can't do any of that you know and

1167

00:47:14,990 --> 00:47:12,300

that's the guide on its truth anybody

1168

00:47:17,089 --> 00:47:15,000

who looks at that has to be honest with

1169

00:47:19,010 --> 00:47:17,099

themselves and and think that so when

1170

00:47:21,109 --> 00:47:19,020

Mick West comes out and says oh it's

1171

00:47:24,410 --> 00:47:21,119

probably this or that he's full of

1172

00:47:26,270 --> 00:47:24,420

he has no idea what it is just like I

1173

00:47:27,890 --> 00:47:26,280

have no idea what it is and anyone who

1174

00:47:29,690 --> 00:47:27,900

would say it's alien Tech is full of

1175

00:47:32,030 --> 00:47:29,700

because they don't know you know

1176
00:47:34,609 --> 00:47:32,040
like nobody knows and you guys are

1177
00:47:37,730 --> 00:47:34,619
fighting over this stuff like the the

1178
00:47:39,710 --> 00:47:37,740
goal is to put this out there and you

1179
00:47:44,770 --> 00:47:39,720
know get more pressure for for some

1180
00:47:49,430 --> 00:47:47,870
and I mean and as people have commented

1181
00:47:51,950 --> 00:47:49,440
before like listening to physics from

1182
00:47:55,490 --> 00:47:51,960
the guy that from a guy that helped make

1183
00:47:57,170 --> 00:47:55,500
Tony Hawk too which is awesome it's an

1184
00:47:58,550 --> 00:47:57,180
awesome game I've played Tony Hawk too

1185
00:48:01,250 --> 00:47:58,560
but you know the physics in that game

1186
00:48:02,750 --> 00:48:01,260
are way off you can get on a half-pipe

1187
00:48:05,829 --> 00:48:02,760
and go 100 feet in the air it doesn't

1188
00:48:11,510 --> 00:48:08,829

anyway

1189

00:48:14,750 --> 00:48:11,520

it isn't life just that much more fun

1190

00:48:15,650 --> 00:48:14,760

that way right I mean yeah it's fun I

1191

00:48:19,130 --> 00:48:15,660

think you would have learned something

1192

00:48:20,569 --> 00:48:19,140

from that I know so dude did you want to

1193

00:48:23,270 --> 00:48:20,579

cover a couple of the other stories yeah

1194

00:48:24,770 --> 00:48:23,280

I suppose I suppose we should yeah we

1195

00:48:27,589 --> 00:48:24,780

just have too good of a time just

1196

00:48:31,430 --> 00:48:27,599

talking yeah we gotta stand track here

1197

00:48:33,290 --> 00:48:31,440

okay so what we have next is we had some

1198

00:48:33,890 --> 00:48:33,300

news come out

1199

00:48:37,790 --> 00:48:33,900

um

1200

00:48:41,390 --> 00:48:37,800

about a tech startup called Enigma Labs

1201

00:48:44,569 --> 00:48:41,400

so DOD or Arrow or whatever is a

1202

00:48:45,770 --> 00:48:44,579

partnered up partnered up with Enigma

1203

00:48:47,210 --> 00:48:45,780

Labs

1204

00:48:49,730 --> 00:48:47,220

um to

1205

00:48:51,530 --> 00:48:49,740

you know kind of streamline data I guess

1206

00:48:54,349 --> 00:48:51,540

so

1207

00:48:57,050 --> 00:48:54,359

if you want to start talking about it

1208

00:48:58,790 --> 00:48:57,060

I'll get my Link My Links set up here so

1209

00:49:03,490 --> 00:48:58,800

people can see it basically Brian Bender

1210

00:49:08,750 --> 00:49:06,109

would you like to start maybe with the

1211

00:49:11,150 --> 00:49:08,760

about page on Enigma lamps and we could

1212

00:49:12,710 --> 00:49:11,160

kind of like set up who Enigma Labs say

1213

00:49:14,630 --> 00:49:12,720

that they are and then we could kind of

1214

00:49:17,750 --> 00:49:14,640

go from there or something yeah sure

1215

00:49:21,849 --> 00:49:17,760

yeah we could do that okay cool

1216

00:49:26,030 --> 00:49:21,859

so if I can find it yeah it's just

1217

00:49:26,690 --> 00:49:26,040

enigmabooks.io about yeah yeah

1218

00:49:29,809 --> 00:49:26,700

um

1219

00:49:32,630 --> 00:49:29,819

now Enigma here let me I'll wait until

1220

00:49:36,050 --> 00:49:32,640

you get stuff up here but they've got IO

1221

00:49:39,069 --> 00:49:36,060

like we have.com dot org dot net now

1222

00:49:42,050 --> 00:49:39,079

there's IO I mean if you like getting

1223

00:49:44,030 --> 00:49:42,060

enigma.com these days is probably you

1224

00:49:47,150 --> 00:49:44,040

know that would you know that would be

1225

00:49:50,089 --> 00:49:47,160

at the cost of pretty penny but um so I

1226

00:49:52,130 --> 00:49:50,099

O right but Enigma essentially okay they

1227

00:49:54,710 --> 00:49:52,140

say our mission to advance progress on

1228

00:49:56,990 --> 00:49:54,720

UAP using Cutting Edge technology and

1229

00:49:59,329 --> 00:49:57,000

social intelligence only through

1230

00:50:01,130 --> 00:49:59,339

thoughtful open-minded study of identif

1231

00:50:03,770 --> 00:50:01,140

unidentified phenomena can we get

1232

00:50:06,650 --> 00:50:03,780

answers we're focused on building and

1233

00:50:09,890 --> 00:50:06,660

keep our team low profile for privacy

1234

00:50:12,530 --> 00:50:09,900

now it's funny that like even within the

1235

00:50:15,230 --> 00:50:12,540

first two sentences like they feel like

1236

00:50:17,210 --> 00:50:15,240

saying that is important with regard to

1237

00:50:20,270 --> 00:50:17,220

their mission but we can we'll get back

1238

00:50:23,329 --> 00:50:20,280

to that later okay then immediately they

1239

00:50:25,670 --> 00:50:23,339

say get on the app get on the IOS app

1240

00:50:26,870 --> 00:50:25,680

waitlist okay so they just told you

1241

00:50:28,430 --> 00:50:26,880

they're not going to tell you who they

1242

00:50:29,809 --> 00:50:28,440

are however if you want to get on the

1243

00:50:32,270 --> 00:50:29,819

waitlist for the app that they you don't

1244

00:50:35,450 --> 00:50:32,280

even know exists yet uh go ahead for it

1245

00:50:38,329 --> 00:50:35,460

anyway I'm not okay let's just cut the

1246

00:50:41,150 --> 00:50:38,339

here like right you can't jump into

1247

00:50:43,309 --> 00:50:41,160

the UFO community in the UFO field and

1248

00:50:46,250 --> 00:50:43,319

all this stuff and and not tell people

1249

00:50:48,290 --> 00:50:46,260

who you are and start off with secrecy

1250

00:50:49,430 --> 00:50:48,300

which is the whole reason we're here to

1251
00:50:52,790 --> 00:50:49,440
begin with

1252
00:50:55,670 --> 00:50:52,800
you know we're here at this stage

1253
00:50:58,010 --> 00:50:55,680
because of Secrets you know and people

1254
00:50:59,630 --> 00:50:58,020
hiding things and they come in here and

1255
00:51:03,109 --> 00:50:59,640
say we're not telling you anything about

1256
00:51:04,730 --> 00:51:03,119
us you know other than uh Alejandro

1257
00:51:07,430 --> 00:51:04,740
Rojas

1258
00:51:09,589 --> 00:51:07,440
um is our PR guy okay and we're telling

1259
00:51:12,049 --> 00:51:09,599
you that because he talks so you got to

1260
00:51:15,230 --> 00:51:12,059
put a name to it you know like what the

1261
00:51:18,589 --> 00:51:15,240
hell is that like uh

1262
00:51:20,150 --> 00:51:18,599
you know yeah and whatever they could be

1263
00:51:22,010 --> 00:51:20,160

doing something great their app could be

1264

00:51:24,290 --> 00:51:22,020

fantastic they could you know

1265

00:51:27,230 --> 00:51:24,300

revolutionize the whole UAP world you

1266

00:51:30,349 --> 00:51:27,240

know whatever just like

1267

00:51:32,809 --> 00:51:30,359

what are you ashamed of like it makes me

1268

00:51:35,210 --> 00:51:32,819

think like you don't want people to to

1269

00:51:36,650 --> 00:51:35,220

find out what they would find out by

1270

00:51:39,410 --> 00:51:36,660

looking into these people because you

1271

00:51:41,630 --> 00:51:39,420

have yeah ufologists are some of the

1272

00:51:43,010 --> 00:51:41,640

best researchers that exist and if you

1273

00:51:45,349 --> 00:51:43,020

put names

1274

00:51:47,569 --> 00:51:45,359

on Enigma Labs they're all going to get

1275

00:51:49,130 --> 00:51:47,579

researched so instead of being lazy and

1276

00:51:51,470 --> 00:51:49,140

maybe picking people with the Shady

1277

00:51:54,710 --> 00:51:51,480

history why don't you just pick good

1278

00:51:56,630 --> 00:51:54,720

reputable outstanding citizens well and

1279

00:51:59,150 --> 00:51:56,640

here and there's another thing okay so

1280

00:52:01,849 --> 00:51:59,160

as far as setup goes you know Enigma

1281

00:52:05,349 --> 00:52:01,859

lamps they say that they're trying to

1282

00:52:08,210 --> 00:52:05,359

build a comprehensive database of of

1283

00:52:09,950 --> 00:52:08,220

sightings with parameters they want to

1284

00:52:13,730 --> 00:52:09,960

make a central kind of reporting house

1285

00:52:15,410 --> 00:52:13,740

much as like new Ford and mufon and

1286

00:52:18,410 --> 00:52:15,420

others over the years nightcap and

1287

00:52:20,690 --> 00:52:18,420

others have done right right and and so

1288

00:52:22,430 --> 00:52:20,700

they want to make the new version of

1289

00:52:23,990 --> 00:52:22,440

that with an app and they want to kind

1290

00:52:27,470 --> 00:52:24,000

of make it fun they want to have cool

1291

00:52:30,770 --> 00:52:27,480

maps you know they want to have a social

1292

00:52:33,349 --> 00:52:30,780

media aspect to them you know I saw the

1293

00:52:35,510 --> 00:52:33,359

other day that that they are hiring

1294

00:52:37,250 --> 00:52:35,520

right now they're they're based out of

1295

00:52:38,990 --> 00:52:37,260

New York by the way I'm like pointing

1296

00:52:43,609 --> 00:52:39,000

generally in the direction of their

1297

00:52:45,770 --> 00:52:43,619

office and and in Midtown Manhattan but

1298

00:52:49,190 --> 00:52:45,780

you know they're hiring right now for a

1299

00:52:50,870 --> 00:52:49,200

community manager you know and and um

1300

00:52:52,609 --> 00:52:50,880

somebody pointed out to me because you

1301
00:52:54,170 --> 00:52:52,619
know like I'm a community manager I

1302
00:52:57,170 --> 00:52:54,180
manage the community of the experiencer

1303
00:52:59,809 --> 00:52:57,180
group or I have and until I recently

1304
00:53:02,750 --> 00:52:59,819
um gave that part of the job over to a

1305
00:53:05,089 --> 00:53:02,760
wonderful uh associate of my name Robin

1306
00:53:07,490 --> 00:53:05,099
Lasseter he's another staff person sure

1307
00:53:09,410 --> 00:53:07,500
so anyway so somebody sent it to me

1308
00:53:11,690 --> 00:53:09,420
because they were like hey man look at

1309
00:53:13,309 --> 00:53:11,700
that and I was like wait a second and

1310
00:53:15,170 --> 00:53:13,319
and I started reading it and I was like

1311
00:53:17,690 --> 00:53:15,180
gosh they're they're seriously going to

1312
00:53:20,390 --> 00:53:17,700
pay somebody 95 I think it was like 95

1313
00:53:22,250 --> 00:53:20,400

it was about as close to six figures to

1314

00:53:23,569 --> 00:53:22,260

do a community manager job which is an

1315

00:53:25,609 --> 00:53:23,579

extraordinary amount of money for a

1316

00:53:27,829 --> 00:53:25,619

community management position yeah now

1317

00:53:29,210 --> 00:53:27,839

you know and so like there's they're

1318

00:53:32,450 --> 00:53:29,220

definitely they definitely have money

1319

00:53:37,549 --> 00:53:32,460

behind them they're definitely trying to

1320

00:53:40,790 --> 00:53:37,559

to make a wave here and and in my

1321

00:53:42,410 --> 00:53:40,800

estimation you know they've they've

1322

00:53:45,530 --> 00:53:42,420

started off

1323

00:53:48,049 --> 00:53:45,540

like on a colossally bad foot with

1324

00:53:50,329 --> 00:53:48,059

regard to to

1325

00:53:51,950 --> 00:53:50,339

um to even within the first couple

1326

00:53:54,049 --> 00:53:51,960

sentences saying

1327

00:53:55,970 --> 00:53:54,059

you know we're taking an open-minded

1328

00:53:57,730 --> 00:53:55,980

approach and you if you want to

1329

00:54:00,530 --> 00:53:57,740

know who we are

1330

00:54:01,970 --> 00:54:00,540

what what another thing you're doing is

1331

00:54:04,010 --> 00:54:01,980

they're not taking the risk all of us

1332

00:54:06,829 --> 00:54:04,020

take by putting our face on this like

1333

00:54:08,690 --> 00:54:06,839

they don't want to have to deal with uh

1334

00:54:11,930 --> 00:54:08,700

their their friend or whatever going oh

1335

00:54:14,150 --> 00:54:11,940

so you're into this alien stuff now huh

1336

00:54:16,010 --> 00:54:14,160

like how is that and now they can't go

1337

00:54:17,990 --> 00:54:16,020

to the cool Brooklyn party with all the

1338

00:54:21,349 --> 00:54:18,000

hoity-toities because they're the alien

1339

00:54:23,510 --> 00:54:21,359

person now you know yeah there could be

1340

00:54:25,190 --> 00:54:23,520

some of that too too you gotta put it on

1341

00:54:27,710 --> 00:54:25,200

the line if you want to participate Mike

1342

00:54:29,690 --> 00:54:27,720

I'm sorry right and and you know there

1343

00:54:33,170 --> 00:54:29,700

there are a couple aspects of this that

1344

00:54:35,210 --> 00:54:33,180

I you know you can make I'm just a

1345

00:54:38,870 --> 00:54:35,220

devil's advocacy case here you know I

1346

00:54:41,990 --> 00:54:38,880

you know it is understandable that if

1347

00:54:44,150 --> 00:54:42,000

they knew or they anticipated that they

1348

00:54:47,150 --> 00:54:44,160

were going to be working with arrow or

1349

00:54:50,150 --> 00:54:47,160

whatever office if they were at just at

1350

00:54:53,809 --> 00:54:50,160

the outset you know like getting

1351
00:54:56,450 --> 00:54:53,819
themselves ready to partner with the

1352
00:54:58,069 --> 00:54:56,460
intelligence Community or you know some

1353
00:54:59,930 --> 00:54:58,079
aspect of the military-industrial

1354
00:55:01,849 --> 00:54:59,940
complex I mean it would be

1355
00:55:04,309 --> 00:55:01,859
understandable why they'd want to put

1356
00:55:05,990 --> 00:55:04,319
some Protections in place not saying

1357
00:55:07,549 --> 00:55:06,000
that that's the best way to do it but

1358
00:55:10,010 --> 00:55:07,559
did they you know that they'd have to

1359
00:55:11,569 --> 00:55:10,020
anticipate something so you know it's

1360
00:55:13,430 --> 00:55:11,579
it's possible

1361
00:55:15,230 --> 00:55:13,440
it's always It's always important to

1362
00:55:17,450 --> 00:55:15,240
recognize like where did this decision

1363
00:55:19,309 --> 00:55:17,460

come from and it and it probably didn't

1364

00:55:23,089 --> 00:55:19,319

come from whoever is like the rank and

1365

00:55:24,710 --> 00:55:23,099

file employees of of enigma Labs so you

1366

00:55:26,870 --> 00:55:24,720

know there's I'm sure that there's a

1367

00:55:28,970 --> 00:55:26,880

bunch of people over there that are just

1368

00:55:31,549 --> 00:55:28,980

psyched to have a cool job in the uip

1369

00:55:33,589 --> 00:55:31,559

space and and they were told by somebody

1370

00:55:35,270 --> 00:55:33,599

else like oh guess what you're using a

1371

00:55:36,950 --> 00:55:35,280

pseudonym and they're like okay I guess

1372

00:55:39,410 --> 00:55:36,960

I'm Jasper Johnson or whatever you know

1373

00:55:40,790 --> 00:55:39,420

what I mean yeah and you know the whole

1374

00:55:42,890 --> 00:55:40,800

thing's pretty dumb because you can go

1375

00:55:44,990 --> 00:55:42,900

on LinkedIn actually and and look at

1376

00:55:46,250 --> 00:55:45,000

about nine ten people who work at Enigma

1377

00:55:49,250 --> 00:55:46,260

Labs so

1378

00:55:50,870 --> 00:55:49,260

yeah their their names are on there so I

1379

00:55:53,270 --> 00:55:50,880

don't you know whatever they're trying

1380

00:55:55,970 --> 00:55:53,280

to do they're doing a poor job of it

1381

00:55:59,510 --> 00:55:57,290

because they're fake names because this

1382

00:56:02,089 --> 00:55:59,520

article here like that that I found

1383

00:56:04,849 --> 00:56:02,099

about this is kind of amazing from from

1384

00:56:06,890 --> 00:56:04,859

Keith basterfield looks like

1385

00:56:07,849 --> 00:56:06,900

um I don't know if it's actually from

1386

00:56:09,410 --> 00:56:07,859

him

1387

00:56:10,430 --> 00:56:09,420

but

1388

00:56:12,290 --> 00:56:10,440

um

1389

00:56:14,990 --> 00:56:12,300

yeah I think there's a different author

1390

00:56:16,730 --> 00:56:15,000

but oh Pauline Wilson maybe okay but

1391

00:56:19,069 --> 00:56:16,740

this is Keith basterfield's website

1392

00:56:21,230 --> 00:56:19,079

anyway right right so

1393

00:56:23,569 --> 00:56:21,240

um and for those that don't know um you

1394

00:56:26,150 --> 00:56:23,579

know uh Keith basterfield is a really

1395

00:56:28,329 --> 00:56:26,160

really amazing underknown researcher

1396

00:56:31,549 --> 00:56:28,339

he's down in Australia

1397

00:56:33,170 --> 00:56:31,559

yeah he's yeah he's one of the best

1398

00:56:35,150 --> 00:56:33,180

um but he hates going on podcasts he

1399

00:56:36,890 --> 00:56:35,160

doesn't do podcasts and so

1400

00:56:39,290 --> 00:56:36,900

um he's not more known because he

1401
00:56:40,069 --> 00:56:39,300
doesn't show up on any of the shows he

1402
00:56:45,650 --> 00:56:40,079
doesn't

1403
00:56:48,950 --> 00:56:45,660
he's he talks to people and he's like a

1404
00:56:50,870 --> 00:56:48,960
kind of he's an underknown Gem and he's

1405
00:56:52,549 --> 00:56:50,880
and a lot of people really look up to

1406
00:56:54,770 --> 00:56:52,559
him in the community you know if you

1407
00:56:57,530 --> 00:56:54,780
want to know if you really want to get

1408
00:56:59,630 --> 00:56:57,540
up to speed on on what's going on out

1409
00:57:02,210 --> 00:56:59,640
there uh and you have a lot of time on

1410
00:57:03,170 --> 00:57:02,220
your hands to read dense blogs you

1411
00:57:05,569 --> 00:57:03,180
should totally check out Keith

1412
00:57:08,690 --> 00:57:05,579
basterfield's work because he's he's a

1413
00:57:12,230 --> 00:57:08,700

real gem he's a brilliant mind and uh

1414

00:57:14,210 --> 00:57:12,240

he's it's he's a real he it has there we

1415

00:57:16,730 --> 00:57:14,220

benefit so much from his work anyway

1416

00:57:20,089 --> 00:57:16,740

Sean yeah so well this article is great

1417

00:57:22,910 --> 00:57:20,099

because what basically what uh as Joe

1418

00:57:24,710 --> 00:57:22,920

you know uh the author of this article

1419

00:57:27,049 --> 00:57:24,720

did is kind of

1420

00:57:29,089 --> 00:57:27,059

um show you how there are many different

1421

00:57:30,950 --> 00:57:29,099

databases

1422

00:57:32,870 --> 00:57:30,960

um that or different tech companies that

1423

00:57:35,750 --> 00:57:32,880

were trying to do this

1424

00:57:38,450 --> 00:57:35,760

um phenomenon phenomena AI none whatever

1425

00:57:39,170 --> 00:57:38,460

what a stupid name sorry

1426

00:57:42,589 --> 00:57:39,180

um

1427

00:57:44,690 --> 00:57:42,599

Enigma labs and then there was another

1428

00:57:46,250 --> 00:57:44,700

one and he goes through all of them and

1429

00:57:48,170 --> 00:57:46,260

and talks about him and gives you a

1430

00:57:50,210 --> 00:57:48,180

little bit of the history on them and

1431

00:57:52,730 --> 00:57:50,220

it's a really fantastic article and you

1432

00:57:56,870 --> 00:57:52,740

can see that they're all kind of around

1433

00:57:58,190 --> 00:57:56,880

like the same time too you know like and

1434

00:58:00,049 --> 00:57:58,200

you were talking about this a little bit

1435

00:58:01,490 --> 00:58:00,059

before which is

1436

00:58:03,109 --> 00:58:01,500

um this is in the description for people

1437

00:58:04,490 --> 00:58:03,119

by the way so go click on it and check

1438

00:58:07,069 --> 00:58:04,500

it out

1439

00:58:08,809 --> 00:58:07,079

um but but the thing about it

1440

00:58:10,430 --> 00:58:08,819

there's a couple things so first of all

1441

00:58:11,510 --> 00:58:10,440

I think they found out who the Alex

1442

00:58:14,210 --> 00:58:11,520

Smith

1443

00:58:17,030 --> 00:58:14,220

which is the the name the pseudonym for

1444

00:58:18,710 --> 00:58:17,040

the owner of enigma lab somebody found

1445

00:58:20,630 --> 00:58:18,720

out the real name because you got the

1446

00:58:24,230 --> 00:58:20,640

best gangster investigators in the world

1447

00:58:27,829 --> 00:58:24,240

and you followed me sorry and they they

1448

00:58:30,230 --> 00:58:27,839

found it and her husband or boyfriend is

1449

00:58:33,349 --> 00:58:30,240

the person who is the director of the

1450

00:58:36,829 --> 00:58:33,359

movie the whale with Brendan Fraser

1451

00:58:40,329 --> 00:58:36,839

which is pretty interesting so and she

1452

00:58:42,770 --> 00:58:40,339

is a big like Tech startup person so and

1453

00:58:45,890 --> 00:58:42,780

you know that that all fits pretty good

1454

00:58:47,990 --> 00:58:45,900

yeah so but the other thing I wanted to

1455

00:58:50,690 --> 00:58:48,000

say is it's it's kind of clear to me

1456

00:58:52,609 --> 00:58:50,700

that uh these people knew that there'd

1457

00:58:55,309 --> 00:58:52,619

be some money in this or a government

1458

00:58:56,809 --> 00:58:55,319

contract right because they all started

1459

00:59:00,170 --> 00:58:56,819

around the same time they all started

1460

00:59:02,870 --> 00:59:00,180

around like uh actually Enigma started

1461

00:59:05,349 --> 00:59:02,880

quite a bit earlier I think maybe the

1462

00:59:08,210 --> 00:59:05,359

first of of the other database companies

1463

00:59:10,970 --> 00:59:08,220

uh but they all started really pressing

1464

00:59:13,730 --> 00:59:10,980

after the hearings right

1465

00:59:14,930 --> 00:59:13,740

so this timeline is they got the

1466

00:59:17,150 --> 00:59:14,940

hearings they're like oh they're doing

1467

00:59:21,250 --> 00:59:17,160

hearings man yeah we got to go after

1468

00:59:24,049 --> 00:59:21,260

this you know like in the like Enigma

1469

00:59:25,730 --> 00:59:24,059

especially they haven't done jack

1470

00:59:27,230 --> 00:59:25,740

all they did was sign a contract with

1471

00:59:29,270 --> 00:59:27,240

the government

1472

00:59:32,150 --> 00:59:29,280

they're a new company

1473

00:59:32,930 --> 00:59:32,160

they they have no work history in the

1474

00:59:35,630 --> 00:59:32,940

field

1475

00:59:42,370 --> 00:59:35,640

they start up and they're with the

1476

00:59:46,250 --> 00:59:44,809

or any of these other companies that

1477

00:59:49,370 --> 00:59:46,260

could put this together that you've

1478

00:59:51,349 --> 00:59:49,380

worked with for a long time yeah and

1479

00:59:54,430 --> 00:59:51,359

we're I mean and we're a notoriously

1480

00:59:56,329 --> 00:59:54,440

tricky Community when it comes to

1481

00:59:58,490 --> 00:59:56,339

to

1482

01:00:00,829 --> 00:59:58,500

um trusting the information that we're

1483

01:00:03,170 --> 01:00:00,839

told because of the topics that we've

1484

01:00:05,329 --> 01:00:03,180

been talking about all of today and you

1485

01:00:07,069 --> 01:00:05,339

know you know through the months

1486

01:00:08,510 --> 01:00:07,079

um in terms of like the his the history

1487

01:00:10,549 --> 01:00:08,520

of secrecy

1488

01:00:12,349 --> 01:00:10,559

um with this topic by not just the US

1489

01:00:14,450 --> 01:00:12,359

government but by World governments you

1490

01:00:15,890 --> 01:00:14,460

know we give we should we should

1491

01:00:17,390 --> 01:00:15,900

remember to like spread the blame around

1492

01:00:20,170 --> 01:00:17,400

because there are plenty of world

1493

01:00:22,609 --> 01:00:20,180

governments that have and you know and

1494

01:00:25,130 --> 01:00:22,619

platforms and all sorts of folks that

1495

01:00:27,049 --> 01:00:25,140

have that have been really complicit and

1496

01:00:28,490 --> 01:00:27,059

done their own job you know hiding

1497

01:00:30,170 --> 01:00:28,500

information that they've that they've

1498

01:00:31,970 --> 01:00:30,180

had about this topic

1499

01:00:33,530 --> 01:00:31,980

um and so with some people they claim

1500

01:00:34,870 --> 01:00:33,540

that it's very very well intentioned

1501
01:00:38,030 --> 01:00:34,880
because they don't want to scare people

1502
01:00:40,490 --> 01:00:38,040
and you know with some people it's you

1503
01:00:42,530 --> 01:00:40,500
know there's less reason to think that

1504
01:00:45,109 --> 01:00:42,540
that might be the case right uh and

1505
01:00:47,150 --> 01:00:45,119
they're paid to keep secrets and so but

1506
01:00:49,609 --> 01:00:47,160
yeah this this with with regard to

1507
01:00:51,230 --> 01:00:49,619
Enigma you know it's It's tricky because

1508
01:00:53,930 --> 01:00:51,240
we don't know what they've been

1509
01:00:56,329 --> 01:00:53,940
developing privately yet you know what I

1510
01:00:58,309 --> 01:00:56,339
mean we don't we don't know how cool

1511
01:01:00,710 --> 01:00:58,319
their app is we don't know what they've

1512
01:01:02,690 --> 01:01:00,720
really got we don't know what Case Files

1513
01:01:04,849 --> 01:01:02,700

they already have or I don't know what

1514

01:01:08,150 --> 01:01:04,859

Case Files they already have

1515

01:01:10,490 --> 01:01:08,160

um you know do they have do they already

1516

01:01:11,690 --> 01:01:10,500

have the old mufon archives do they

1517

01:01:13,670 --> 01:01:11,700

already have

1518

01:01:17,089 --> 01:01:13,680

um Jacques valets

1519

01:01:20,990 --> 01:01:17,099

um like famous for decades he's he's

1520

01:01:23,270 --> 01:01:21,000

been building his his personal archive

1521

01:01:25,130 --> 01:01:23,280

um and you know Bigelow had access to

1522

01:01:27,170 --> 01:01:25,140

that for a while and and back in the

1523

01:01:28,609 --> 01:01:27,180

OSAP days and folks like that but you

1524

01:01:30,829 --> 01:01:28,619

know there are there are private

1525

01:01:32,329 --> 01:01:30,839

archives of cases and things like that

1526

01:01:35,329 --> 01:01:32,339

that have been compiled over the years

1527

01:01:36,950 --> 01:01:35,339

and presumably you know if they're

1528

01:01:39,170 --> 01:01:36,960

trying to be a storehouse of information

1529

01:01:40,730 --> 01:01:39,180

they're probably looking for old cases

1530

01:01:43,010 --> 01:01:40,740

and they're probably looking for new

1531

01:01:45,710 --> 01:01:43,020

cases too so it's going to be

1532

01:01:46,849 --> 01:01:45,720

interesting to see like what what do

1533

01:01:49,849 --> 01:01:46,859

they have

1534

01:01:51,470 --> 01:01:49,859

because you know one thing is like if

1535

01:01:53,750 --> 01:01:51,480

they've been if they're trying to be

1536

01:01:55,370 --> 01:01:53,760

secretive about things we're gonna you

1537

01:01:57,410 --> 01:01:55,380

know many people in our community are

1538

01:01:59,150 --> 01:01:57,420

going to have a knee-jerk reaction and

1539

01:02:01,730 --> 01:01:59,160

just be like well that's totally left up

1540

01:02:03,829 --> 01:02:01,740

that's totally effed up and we won't

1541

01:02:06,650 --> 01:02:03,839

even necessarily listen to what happens

1542

01:02:09,289 --> 01:02:06,660

after that but you know there could and

1543

01:02:11,690 --> 01:02:09,299

so but at the same time we've been

1544

01:02:15,289 --> 01:02:11,700

trained as a community and I think like

1545

01:02:16,730 --> 01:02:15,299

trained almost like dogs to like to like

1546

01:02:19,130 --> 01:02:16,740

pick up any little bit of information

1547

01:02:21,770 --> 01:02:19,140

that we can from like the dod or whoever

1548

01:02:23,270 --> 01:02:21,780

right and we're used to that aspect but

1549

01:02:25,210 --> 01:02:23,280

as soon as there's a new game in town

1550

01:02:28,789 --> 01:02:25,220

we're just like screw that

1551
01:02:30,470 --> 01:02:28,799
and and so and so there is an aspect

1552
01:02:33,170 --> 01:02:30,480
where it's like well maybe we should you

1553
01:02:35,089 --> 01:02:33,180
know like like a you know having

1554
01:02:36,650 --> 01:02:35,099
pseudonyms at the outset that's that's

1555
01:02:38,690 --> 01:02:36,660
that's a pretty bad that's a

1556
01:02:41,089 --> 01:02:38,700
phenomenally bad decision to do with our

1557
01:02:42,770 --> 01:02:41,099
community it just is I don't see any

1558
01:02:46,549 --> 01:02:42,780
other way to describe that I don't see

1559
01:02:48,710 --> 01:02:46,559
any way to like make to soft pedal and

1560
01:02:51,109 --> 01:02:48,720
and make that make that anyway nicer

1561
01:02:53,650 --> 01:02:51,119
that's just a rampantly bad idea in our

1562
01:02:56,270 --> 01:02:53,660
community especially with your PR person

1563
01:02:58,190 --> 01:02:56,280

you think would know better or it would

1564

01:02:59,990 --> 01:02:58,200

at least be like telling them like hey I

1565

01:03:02,569 --> 01:03:00,000

don't you probably shouldn't do that

1566

01:03:04,549 --> 01:03:02,579

right you know yeah like you don't

1567

01:03:07,609 --> 01:03:04,559

understand like these people have been

1568

01:03:10,069 --> 01:03:07,619

having to watch like uh you know people

1569

01:03:12,770 --> 01:03:10,079

give testimony in Shadows without their

1570

01:03:15,170 --> 01:03:12,780

face showing called Anonymous or called

1571

01:03:17,030 --> 01:03:15,180

bird names just to try to get any sort

1572

01:03:19,190 --> 01:03:17,040

of information that winds up being fake

1573

01:03:22,250 --> 01:03:19,200

information like you should probably

1574

01:03:26,030 --> 01:03:22,260

give them something you know yeah but

1575

01:03:27,710 --> 01:03:26,040

you know maybe hey maybe be their hearts

1576

01:03:29,690 --> 01:03:27,720

in the right place and they're going to

1577

01:03:32,510 --> 01:03:29,700

do a bang-up job and a great job maybe

1578

01:03:35,630 --> 01:03:32,520

that's the case you know I mean I I like

1579

01:03:37,490 --> 01:03:35,640

I hope so I mean and you know it remains

1580

01:03:38,870 --> 01:03:37,500

to be seen and this will be a developing

1581

01:03:41,089 --> 01:03:38,880

story obviously we're going to be

1582

01:03:42,970 --> 01:03:41,099

hearing about this company unless they

1583

01:03:45,589 --> 01:03:42,980

go belly up tomorrow we're going to be

1584

01:03:46,609 --> 01:03:45,599

listening to situations and and hearing

1585

01:03:48,650 --> 01:03:46,619

about the work that they're going to be

1586

01:03:52,750 --> 01:03:48,660

doing and hopefully you know we have

1587

01:03:56,690 --> 01:03:52,760

more to go on in the near future and and

1588

01:03:58,970 --> 01:03:56,700

I'm I'm guessing that you know it's not

1589

01:04:01,309 --> 01:03:58,980

all going to be bad because here's the

1590

01:04:04,630 --> 01:04:01,319

thing is that some people have

1591

01:04:07,490 --> 01:04:04,640

have definitely assumed the worst and

1592

01:04:09,530 --> 01:04:07,500

that is understandable and have been

1593

01:04:12,170 --> 01:04:09,540

like oh they're some people have jumped

1594

01:04:14,569 --> 01:04:12,180

to the conclusion that like oh Enigma is

1595

01:04:16,670 --> 01:04:14,579

like they're out to spy on the UFO

1596

01:04:18,829 --> 01:04:16,680

community and like I have one thing to

1597

01:04:20,569 --> 01:04:18,839

say we're already getting spied on we've

1598

01:04:23,150 --> 01:04:20,579

been spied on the whole time like

1599

01:04:24,950 --> 01:04:23,160

there's no have no illusions about that

1600

01:04:27,890 --> 01:04:24,960

if you're a notable researcher in this

1601
01:04:29,510 --> 01:04:27,900
field you've been tracked okay yeah like

1602
01:04:31,010 --> 01:04:29,520
you just have like there's there's a

1603
01:04:33,530 --> 01:04:31,020
long-standing history of that that's not

1604
01:04:35,089 --> 01:04:33,540
paranoia that's fact and like there have

1605
01:04:36,710 --> 01:04:35,099
been plenty of Declassified documents

1606
01:04:38,450 --> 01:04:36,720
and things like that that have borne

1607
01:04:40,910 --> 01:04:38,460
that out that over the years like our

1608
01:04:44,210 --> 01:04:40,920
info our our community has been tracked

1609
01:04:46,549 --> 01:04:44,220
very happily and not not to mention the

1610
01:04:49,130 --> 01:04:46,559
fact that like you know we all carry

1611
01:04:50,990 --> 01:04:49,140
surveillance devices in our pockets and

1612
01:04:53,270 --> 01:04:51,000
we're using a surveillance device right

1613
01:04:55,190 --> 01:04:53,280

now to podcast to each other right yeah

1614

01:04:57,049 --> 01:04:55,200

with each other and everybody out there

1615

01:04:59,390 --> 01:04:57,059

we've got a camera right here you know

1616

01:05:01,730 --> 01:04:59,400

what I mean like we you know many people

1617

01:05:03,230 --> 01:05:01,740

know what the Utah data center is if you

1618

01:05:04,789 --> 01:05:03,240

don't know what the Utah data center is

1619

01:05:06,829 --> 01:05:04,799

you should look it up you know what I

1620

01:05:09,109 --> 01:05:06,839

mean keystroke logging recording like

1621

01:05:10,190 --> 01:05:09,119

how do you think that Facebook knows

1622

01:05:12,170 --> 01:05:10,200

that you were talking about Teenage

1623

01:05:14,390 --> 01:05:12,180

Mutant Ninja Turtles 15 months ago and

1624

01:05:16,670 --> 01:05:14,400

serves you up an ad about it like we all

1625

01:05:18,530 --> 01:05:16,680

know we all know this stuff and so when

1626
01:05:20,569 --> 01:05:18,540
people are like they're tracking us

1627
01:05:23,329 --> 01:05:20,579
they're they're it's like yeah that is

1628
01:05:25,490 --> 01:05:23,339
that one of the the themes that comes up

1629
01:05:26,990 --> 01:05:25,500
is that one of the complaints that comes

1630
01:05:30,770 --> 01:05:27,000
up with like Enigma like they're going

1631
01:05:35,089 --> 01:05:32,450
there were there were a couple threads

1632
01:05:37,490 --> 01:05:35,099
along with the one that that docks the

1633
01:05:39,589 --> 01:05:37,500
the head of the operation that I saw

1634
01:05:41,089 --> 01:05:39,599
okay and I'm and I'm not gonna name who

1635
01:05:43,250 --> 01:05:41,099
that person is because I don't I don't

1636
01:05:45,470 --> 01:05:43,260
think doc even though this is kind of a

1637
01:05:46,789 --> 01:05:45,480
messed up situation I don't believe in I

1638
01:05:48,710 --> 01:05:46,799

don't believe that doxing on the

1639

01:05:50,809 --> 01:05:48,720

Internet is the right thing to do no

1640

01:05:56,450 --> 01:05:50,819

that's stupid

1641

01:05:59,510 --> 01:05:56,460

um it's uh yeah it's it's like the the

1642

01:06:01,730 --> 01:05:59,520

the virtual way of like fist fighting

1643

01:06:04,010 --> 01:06:01,740

you know yeah I mean I just

1644

01:06:06,349 --> 01:06:04,020

categorically I don't think doxing is is

1645

01:06:08,089 --> 01:06:06,359

is something to be encouraged so I'm not

1646

01:06:12,950 --> 01:06:08,099

going to say that person's Fame but like

1647

01:06:14,870 --> 01:06:12,960

but you know along when that happened

1648

01:06:16,849 --> 01:06:14,880

um other people were kind of chiming in

1649

01:06:20,410 --> 01:06:16,859

and saying like you know we're we're

1650

01:06:23,030 --> 01:06:20,420

under attack or something like that

1651

01:06:25,010 --> 01:06:23,040

as if it was like you followed you 911

1652

01:06:29,829 --> 01:06:25,020

or something like that and like I just

1653

01:06:34,130 --> 01:06:32,569

I know it is too much and I and I think

1654

01:06:36,589 --> 01:06:34,140

it's just important to take a step back

1655

01:06:38,690 --> 01:06:36,599

sometimes and recognize like you know if

1656

01:06:40,309 --> 01:06:38,700

you're going to be really involved in

1657

01:06:41,390 --> 01:06:40,319

this community and you're really going

1658

01:06:45,829 --> 01:06:41,400

to make

1659

01:06:49,130 --> 01:06:45,839

know that you're going to have eyes on

1660

01:06:52,730 --> 01:06:49,140

you it's just the way that it goes and I

1661

01:06:55,069 --> 01:06:52,740

when I used to help Richard Dolan out

1662

01:06:57,470 --> 01:06:55,079

um on his with his members website and

1663

01:07:01,010 --> 01:06:57,480

and with with his correspondence and

1664

01:07:03,589 --> 01:07:01,020

stuff like that and and um you know I

1665

01:07:06,170 --> 01:07:03,599

heard stories like plenty about that

1666

01:07:08,569 --> 01:07:06,180

about you know the old days and tracking

1667

01:07:10,789 --> 01:07:08,579

and how these days generally speaking

1668

01:07:12,470 --> 01:07:10,799

it's it's very seamless you know if

1669

01:07:14,809 --> 01:07:12,480

you're like

1670

01:07:16,849 --> 01:07:14,819

um there are so many different ways to

1671

01:07:18,529 --> 01:07:16,859

to track folks these days

1672

01:07:21,289 --> 01:07:18,539

um that generally speaking in the

1673

01:07:23,990 --> 01:07:21,299

Contemporary framework in 2023 and

1674

01:07:25,430 --> 01:07:24,000

unless it's it's you're being tracked by

1675

01:07:26,990 --> 01:07:25,440

like a third world country or something

1676

01:07:28,309 --> 01:07:27,000

like that you're probably not going to

1677

01:07:30,650 --> 01:07:28,319

notice it

1678

01:07:32,870 --> 01:07:30,660

um because they've gotten pretty dang

1679

01:07:34,789 --> 01:07:32,880

good at the whole thing yeah I I wish at

1680

01:07:37,549 --> 01:07:34,799

least these people who who would track

1681

01:07:39,170 --> 01:07:37,559

you or or whatever would at least like

1682

01:07:41,569 --> 01:07:39,180

um like because I don't care because I'm

1683

01:07:42,770 --> 01:07:41,579

not doing anything interesting you know

1684

01:07:43,970 --> 01:07:42,780

the things they come up with they're

1685

01:07:45,789 --> 01:07:43,980

probably like man that guy's really

1686

01:07:49,130 --> 01:07:45,799

inactive or

1687

01:07:51,529 --> 01:07:49,140

you know like he really likes UFOs and

1688

01:07:53,690 --> 01:07:51,539

football you know or whatever like boy

1689

01:07:55,250 --> 01:07:53,700

Jay hasn't gone I'm kind of worried

1690

01:07:57,529 --> 01:07:55,260

about Jay hasn't gone to the gym in

1691

01:07:59,750 --> 01:07:57,539

three weeks like communicate with me

1692

01:08:01,809 --> 01:07:59,760

give me a tip or some life advice or

1693

01:08:05,450 --> 01:08:01,819

something at least like yeah

1694

01:08:08,029 --> 01:08:05,460

you took a left over there but it seemed

1695

01:08:09,650 --> 01:08:08,039

a little sad it's really pretty if you

1696

01:08:11,270 --> 01:08:09,660

were to take a right the landscape is

1697

01:08:13,609 --> 01:08:11,280

much more beautiful so take a right next

1698

01:08:16,010 --> 01:08:13,619

time you know thank you at least you're

1699

01:08:17,510 --> 01:08:16,020

contributing yeah something but you know

1700

01:08:19,849 --> 01:08:17,520

the last story I feel like we can get

1701

01:08:22,430 --> 01:08:19,859

into here if you're okay to move on for

1702

01:08:25,189 --> 01:08:22,440

sure um Enigma Labs my where I'm at with

1703

01:08:26,630 --> 01:08:25,199

them is they started off on a terrible

1704

01:08:28,849 --> 01:08:26,640

foot

1705

01:08:30,890 --> 01:08:28,859

um but you know

1706

01:08:32,769 --> 01:08:30,900

I I hope it works out I hope they do

1707

01:08:36,950 --> 01:08:32,779

great stuff I hope they really help

1708

01:08:38,689 --> 01:08:36,960

arrow and you know I hope it goes well

1709

01:08:41,209 --> 01:08:38,699

um but most of all I really won't care

1710

01:08:45,110 --> 01:08:41,219

unless they actually tell us about how

1711

01:08:49,070 --> 01:08:45,120

it goes you know yeah so and and I agree

1712

01:08:51,709 --> 01:08:49,080

that there I mean I I hope that in in

1713

01:08:54,289 --> 01:08:51,719

the interest of what in the interest of

1714

01:08:56,990 --> 01:08:54,299

having an open-minded framework and and

1715

01:08:59,209 --> 01:08:57,000

looking at Community Building as as what

1716

01:09:00,829 --> 01:08:59,219

they say they're trying to do that they

1717

01:09:02,689 --> 01:09:00,839

should that there should be a

1718

01:09:04,849 --> 01:09:02,699

reciprocity there if anybody's

1719

01:09:08,510 --> 01:09:04,859

listening like like focusing on

1720

01:09:10,729 --> 01:09:08,520

reciprocity might might when you might

1721

01:09:13,070 --> 01:09:10,739

win over people at least to the degree

1722

01:09:15,590 --> 01:09:13,080

of of opening up a dialogue in a better

1723

01:09:19,550 --> 01:09:15,600

in a in a more grounded and healthy kind

1724

01:09:22,189 --> 01:09:19,560

of way and being a spokesperson is is so

1725

01:09:23,990 --> 01:09:22,199

uh you need a spokesperson like Rojas is

1726

01:09:26,450 --> 01:09:24,000

supposed to do or whatever but it's so

1727

01:09:28,550 --> 01:09:26,460

easy to like quell situations like this

1728

01:09:31,669 --> 01:09:28,560

when you just have an honest empathetic

1729

01:09:35,209 --> 01:09:31,679

person and that you know takes this

1730

01:09:37,309 --> 01:09:35,219

stuff on you know it just says I'm sorry

1731

01:09:39,590 --> 01:09:37,319

we're doing it this way this is what our

1732

01:09:41,630 --> 01:09:39,600

thought process was like people are

1733

01:09:43,849 --> 01:09:41,640

generally pretty understanding as long

1734

01:09:48,530 --> 01:09:43,859

as you communicate honestly you know so

1735

01:09:51,289 --> 01:09:48,540

it's very true very very true yeah so

1736

01:09:53,209 --> 01:09:51,299

um so here we go did you do you want to

1737

01:09:55,430 --> 01:09:53,219

set up this one this is uh this is yeah

1738

01:09:56,990 --> 01:09:55,440

this is a great story and it's it's good

1739

01:09:58,430 --> 01:09:57,000

that if this is the last story that

1740

01:10:00,229 --> 01:09:58,440

we're going to cover today

1741

01:10:02,270 --> 01:10:00,239

um so we're ending

1742

01:10:05,150 --> 01:10:02,280

here's a really good piece of of

1743

01:10:10,010 --> 01:10:07,550

yeah and Liberation times here we have

1744

01:10:12,530 --> 01:10:10,020

uh this January 19th project Titan

1745

01:10:14,390 --> 01:10:12,540

approved by San Marino UFOs set to be

1746

01:10:18,050 --> 01:10:14,400

discussed at the United Nations for the

1747

01:10:20,209 --> 01:10:18,060

first time since 1978. so

1748

01:10:21,530 --> 01:10:20,219

um yeah this has been in the works for a

1749

01:10:23,750 --> 01:10:21,540

little bit

1750

01:10:26,030 --> 01:10:23,760

um I remember even Lou Elizondo going to

1751
01:10:28,490 --> 01:10:26,040
San Marino talking at like a conference

1752
01:10:30,229 --> 01:10:28,500
there Mass Moskowitz made like a little

1753
01:10:33,770 --> 01:10:30,239
documentary about it everything actually

1754
01:10:37,130 --> 01:10:33,780
did a really great job with it icer is

1755
01:10:40,130 --> 01:10:37,140
the group that is behind project Titan I

1756
01:10:42,169 --> 01:10:40,140
sir I forget what the acronym stands for

1757
01:10:43,689 --> 01:10:42,179
um but there's a group of people around

1758
01:10:47,750 --> 01:10:43,699
the world that are actually involved

1759
01:10:49,430 --> 01:10:47,760
with that and yeah so we have today the

1760
01:10:51,410 --> 01:10:49,440
parliament of San Marino voted in favor

1761
01:10:53,330 --> 01:10:51,420
to participate in Project Titan meaning

1762
01:10:55,370 --> 01:10:53,340
San Marino will submit a proposal to the

1763
01:10:56,870 --> 01:10:55,380

U.N for the creation of a permanent

1764

01:10:59,090 --> 01:10:56,880

office tasked with the preparation

1765

01:11:01,310 --> 01:10:59,100

periodic Global conferences dedicated to

1766

01:11:04,370 --> 01:11:01,320

the scientific study of UFOs otherwise

1767

01:11:06,050 --> 01:11:04,380

known as UAP and total 25 members voted

1768

01:11:09,590 --> 01:11:06,060

in favor of the project while two

1769

01:11:12,050 --> 01:11:09,600

abstained and two voted against so

1770

01:11:14,930 --> 01:11:12,060

um this is pretty cool so San Marino is

1771

01:11:16,970 --> 01:11:14,940

going to bring this to the U.N

1772

01:11:19,370 --> 01:11:16,980

um and you know try to get this password

1773

01:11:21,110 --> 01:11:19,380

they talk about uaps at conferences once

1774

01:11:23,630 --> 01:11:21,120

a year you know you would think like

1775

01:11:27,410 --> 01:11:23,640

what's the big deal why can't we do this

1776

01:11:29,330 --> 01:11:27,420

let's just pass it it's obviously uh you

1777

01:11:32,030 --> 01:11:29,340

know a world problem but

1778

01:11:35,330 --> 01:11:32,040

um the what I like about it is this is

1779

01:11:38,330 --> 01:11:35,340

where it should be right this isn't a a

1780

01:11:40,430 --> 01:11:38,340

data problem or uh this country or that

1781

01:11:43,310 --> 01:11:40,440

country or an adverse rail problem that

1782

01:11:44,649 --> 01:11:43,320

this is a worldwide issue people have

1783

01:11:48,169 --> 01:11:44,659

seen UAP

1784

01:11:49,970 --> 01:11:48,179

for centuries all over the world you

1785

01:11:52,010 --> 01:11:49,980

know and we're just trying to get

1786

01:11:55,010 --> 01:11:52,020

like-minded people together to discuss

1787

01:11:56,630 --> 01:11:55,020

it so I think it's positive I think it's

1788

01:11:59,450 --> 01:11:56,640

great I hope it passes I always think

1789

01:12:01,490 --> 01:11:59,460

back to the the last time

1790

01:12:04,610 --> 01:12:01,500

um this went to the U.N with Granada Sir

1791

01:12:07,430 --> 01:12:04,620

Eric Gary in in the late 70s and there's

1792

01:12:09,410 --> 01:12:07,440

a whole complicated story there I posted

1793

01:12:12,649 --> 01:12:09,420

a really great video from red panda

1794

01:12:14,390 --> 01:12:12,659

koala that he did on the history of UFOs

1795

01:12:16,430 --> 01:12:14,400

in the U.N you can find that in the

1796

01:12:18,890 --> 01:12:16,440

description I highly recommend watch

1797

01:12:20,870 --> 01:12:18,900

watching it it's I learned a lot

1798

01:12:25,930 --> 01:12:20,880

one thing that kind of worried me was

1799

01:12:34,550 --> 01:12:31,250

I should check that out yeah and uh how

1800

01:12:36,530 --> 01:12:34,560

uh China tried to get a UAP initiative

1801

01:12:38,689 --> 01:12:36,540

um going into the U.N

1802

01:12:42,290 --> 01:12:38,699

um so there's a little kind of history

1803

01:12:46,310 --> 01:12:42,300

with China with this which you know I

1804

01:12:49,790 --> 01:12:46,320

haven't dug in enough to you know say

1805

01:12:53,570 --> 01:12:49,800

it's an issue or whatever like

1806

01:12:56,209 --> 01:12:53,580

um but but I hope it goes well so I I

1807

01:12:58,430 --> 01:12:56,219

hope it goes well too we've had I mean I

1808

01:12:59,990 --> 01:12:58,440

know a couple of people I I know a few

1809

01:13:01,250 --> 01:13:00,000

people are nicer anyway you know we've

1810

01:13:03,950 --> 01:13:01,260

had

1811

01:13:07,070 --> 01:13:03,960

um Francisco Correa from Portugal on the

1812

01:13:10,250 --> 01:13:07,080

show before he's a member of icer and um

1813

01:13:13,850 --> 01:13:10,260

like I know another guy Giorgio piazenza

1814

01:13:15,530 --> 01:13:13,860

um uh South American guy who uh is a

1815

01:13:18,950 --> 01:13:15,540

really really well-meaning good-hearted

1816

01:13:20,990 --> 01:13:18,960

guy that's that is part of icer as well

1817

01:13:22,910 --> 01:13:21,000

I think I know a couple other people but

1818

01:13:24,950 --> 01:13:22,920

I mean there's I you know it's a it's an

1819

01:13:28,689 --> 01:13:24,960

international body and like from from

1820

01:13:33,410 --> 01:13:28,699

the get-go icer was interested in having

1821

01:13:35,090 --> 01:13:33,420

like one representative in in lots of

1822

01:13:36,890 --> 01:13:35,100

world countries and it was it was trying

1823

01:13:38,270 --> 01:13:36,900

to get a broader perspective you know

1824

01:13:42,110 --> 01:13:38,280

part of it was getting a broader

1825

01:13:44,570 --> 01:13:42,120

perspective and and encouraging dialogue

1826

01:13:46,550 --> 01:13:44,580

um between nations and you know like

1827

01:13:48,770 --> 01:13:46,560

getting over the hump of the language

1828

01:13:50,630 --> 01:13:48,780

barrier and being able to to Really

1829

01:13:52,250 --> 01:13:50,640

compare notes compare cases and things

1830

01:13:56,450 --> 01:13:52,260

like that which is which is such a great

1831

01:13:58,729 --> 01:13:56,460

thing right so along the line so San

1832

01:14:01,970 --> 01:13:58,739

Marino is this if people don't know it's

1833

01:14:05,209 --> 01:14:01,980

a very tiny little uh like city-state

1834

01:14:07,370 --> 01:14:05,219

kind of like Vatican City it's in Italy

1835

01:14:08,870 --> 01:14:07,380

um and um I think there's only about 40

1836

01:14:11,390 --> 01:14:08,880

000 people that live there but it's

1837

01:14:13,130 --> 01:14:11,400

retained its autonomy rather than

1838

01:14:14,209 --> 01:14:13,140

instead of being getting absorbed by

1839

01:14:15,709 --> 01:14:14,219

Italy

1840

01:14:20,149 --> 01:14:15,719

um so they have their own representation

1841

01:14:22,910 --> 01:14:20,159

and they it's the oldest Republic in

1842

01:14:26,689 --> 01:14:22,920

history or something yeah that's still

1843

01:14:31,490 --> 01:14:26,699

around right yeah right yeah and so

1844

01:14:32,990 --> 01:14:31,500

um and they uh so what happens now is

1845

01:14:35,810 --> 01:14:33,000

that it's going to be submitted for

1846

01:14:39,410 --> 01:14:35,820

review and then if it passes like a

1847

01:14:41,930 --> 01:14:39,420

quiet review process you know that's the

1848

01:14:44,030 --> 01:14:41,940

big finger cross moment and then

1849

01:14:46,669 --> 01:14:44,040

um it'll come up for a vote a discussion

1850

01:14:48,770 --> 01:14:46,679

and a vote at the general assembly so

1851

01:14:51,229 --> 01:14:48,780

you know the big Hall at the end that

1852

01:14:52,490 --> 01:14:51,239

that is over on the east side of

1853

01:14:54,649 --> 01:14:52,500

Manhattan

1854

01:14:57,350 --> 01:14:54,659

um that you know anybody's seen on the

1855

01:15:00,590 --> 01:14:57,360

news for for decades and you know

1856

01:15:02,570 --> 01:15:00,600

interestingly the last time that that

1857

01:15:04,070 --> 01:15:02,580

UFOs really came up at the United

1858

01:15:06,649 --> 01:15:04,080

Nations

1859

01:15:10,370 --> 01:15:06,659

um as far as I know was back in 1978

1860

01:15:12,830 --> 01:15:10,380

when uh when when Granada actually

1861

01:15:14,750 --> 01:15:12,840

invited Jacques valet to speak on the

1862

01:15:17,870 --> 01:15:14,760

floor of the United Nations there was

1863

01:15:20,689 --> 01:15:17,880

Jacques valet Ellen eineck there was

1864

01:15:22,070 --> 01:15:20,699

um I think the astronaut Cooper I wrote

1865

01:15:24,169 --> 01:15:22,080

a letter because he couldn't attend but

1866

01:15:26,689 --> 01:15:24,179

he wrote a letter

1867

01:15:30,590 --> 01:15:26,699

um a helicopter military pilot came and

1868

01:15:33,110 --> 01:15:30,600

gave his testimony so it was it was full

1869

01:15:35,330 --> 01:15:33,120

on and it actually seemed like it was

1870

01:15:36,709 --> 01:15:35,340

going fairly well apparently the British

1871

01:15:38,570 --> 01:15:36,719

didn't like it I don't think the U.S

1872

01:15:40,370 --> 01:15:38,580

liked it either but from what I gather

1873

01:15:42,950 --> 01:15:40,380

it was still looking like it was going

1874

01:15:45,169 --> 01:15:42,960

to pass to be honest with you

1875

01:15:46,669 --> 01:15:45,179

um and Eric Gary was on this for at

1876

01:15:47,350 --> 01:15:46,679

least a couple years just trying to do

1877

01:15:50,630 --> 01:15:47,360

this

1878

01:15:53,390 --> 01:15:50,640

and it it turned out on like I think it

1879

01:15:56,090 --> 01:15:53,400

was even the day of the vote or a couple

1880

01:15:57,649 --> 01:15:56,100

days before the vote Eric Gary was at

1881

01:16:00,169 --> 01:15:57,659

the United Nations representative's

1882

01:16:02,330 --> 01:16:00,179

place or whatever in in New York and as

1883

01:16:04,010 --> 01:16:02,340

he was there he was getting kicked out

1884

01:16:06,830 --> 01:16:04,020

of his own country by this guy named

1885

01:16:09,709 --> 01:16:06,840

Maurice Bishop back in her eyes oh so

1886

01:16:12,229 --> 01:16:09,719

there was a coup and Maurice Bishop took

1887

01:16:14,030 --> 01:16:12,239

over and the whole thing just went away

1888

01:16:16,490 --> 01:16:14,040

because the person who cared about it

1889

01:16:18,290 --> 01:16:16,500

Eric Gary was no longer in power he

1890

01:16:20,630 --> 01:16:18,300

wound up staying in the United States

1891

01:16:22,550 --> 01:16:20,640

for a long time

1892

01:16:25,189 --> 01:16:22,560

um you know probably out of fear for his

1893

01:16:27,169 --> 01:16:25,199

own life and he was tracked by our

1894

01:16:29,630 --> 01:16:27,179

intelligence agencies like almost a

1895

01:16:32,330 --> 01:16:29,640

whole freaking time

1896

01:16:34,310 --> 01:16:32,340

he finally went back to Granada years

1897

01:16:35,750 --> 01:16:34,320

and years and years later and died of a

1898

01:16:37,910 --> 01:16:35,760

heart attack

1899

01:16:40,010 --> 01:16:37,920

um and then there's this whole weird

1900

01:16:41,930 --> 01:16:40,020

story by Wesley Bateman who I don't know

1901

01:16:43,250 --> 01:16:41,940

much about but I I think he makes stuff

1902

01:16:46,550 --> 01:16:43,260

up

1903

01:16:48,770 --> 01:16:46,560

um about Eric area and why he started

1904

01:16:51,350 --> 01:16:48,780

this which is uh kind of an interesting

1905

01:16:54,850 --> 01:16:51,360

story but I have no way to prove it so

1906

01:16:58,970 --> 01:16:54,860

I'd rather not talk about it I guess but

1907

01:17:02,689 --> 01:16:58,980

yeah but but it's interesting yeah

1908

01:17:04,250 --> 01:17:02,699

yeah and um it is interesting and it'll

1909

01:17:06,770 --> 01:17:04,260

be great to have you know and so that's

1910

01:17:08,870 --> 01:17:06,780

already 45 years ago

1911

01:17:11,330 --> 01:17:08,880

um that it was last came up in the

1912

01:17:13,250 --> 01:17:11,340

United Nations so along the lines of the

1913

01:17:15,290 --> 01:17:13,260

subcommittee hearing in the house where

1914

01:17:17,390 --> 01:17:15,300

Moultrie and braytalk last year and you

1915

01:17:19,970 --> 01:17:17,400

know we live casted it with a bunch of

1916

01:17:21,649 --> 01:17:19,980

our friends and and uh it was you know

1917

01:17:24,350 --> 01:17:21,659

the Wilson Davis notes came up and we

1918

01:17:26,209 --> 01:17:24,360

were all like whoa and uh it was a fun

1919

01:17:28,790 --> 01:17:26,219

time to hang out together yeah and it

1920

01:17:30,649 --> 01:17:28,800

was awesome and um I am looking forward

1921

01:17:34,130 --> 01:17:30,659

to what we hear the word on the street

1922

01:17:36,830 --> 01:17:34,140

is that if it does pass these these

1923

01:17:39,229 --> 01:17:36,840

closed door kind of conversations first

1924

01:17:40,970 --> 01:17:39,239

with the United Nations that it would

1925

01:17:43,850 --> 01:17:40,980

probably come up

1926

01:17:45,290 --> 01:17:43,860

um on the floor uh in the general

1927

01:17:47,209 --> 01:17:45,300

assembly

1928

01:17:48,950 --> 01:17:47,219

um maybe no sooner than September people

1929

01:17:50,689 --> 01:17:48,960

are talking about September or October

1930

01:17:52,610 --> 01:17:50,699

and you know already there's been

1931

01:17:54,290 --> 01:17:52,620

response knee-jerk reactions from people

1932

01:17:56,570 --> 01:17:54,300

being like why can't it happen sooner

1933

01:17:58,130 --> 01:17:56,580

well you know if you deal with one

1934

01:17:59,990 --> 01:17:58,140

government things happen slow as hell

1935

01:18:03,290 --> 01:18:00,000

well then try dealing with all of them

1936

01:18:04,850 --> 01:18:03,300

uh you know yeah I love that too it's

1937

01:18:07,550 --> 01:18:04,860

like well because you're not doing it

1938

01:18:09,890 --> 01:18:07,560

you know somebody else yeah and they

1939

01:18:11,930 --> 01:18:09,900

have their timeline yeah right exactly

1940

01:18:13,189 --> 01:18:11,940

and there are you know believe it or not

1941

01:18:14,990 --> 01:18:13,199

there are there are a lot of other

1942

01:18:17,570 --> 01:18:15,000

pressing issues in the world so yeah

1943

01:18:19,250 --> 01:18:17,580

here you go look you see Jacques Valley

1944

01:18:21,430 --> 01:18:19,260

has always had a great head of hair look

1945

01:18:24,530 --> 01:18:21,440

at them you can see them over there

1946

01:18:26,450 --> 01:18:24,540

second from the left there what a

1947

01:18:27,890 --> 01:18:26,460

magnificent he always had great suits

1948

01:18:29,209 --> 01:18:27,900

too I'm sorry I'm just playing around

1949

01:18:32,270 --> 01:18:29,219

for fun

1950

01:18:34,189 --> 01:18:32,280

um but yeah you know you wanna

1951

01:18:36,950 --> 01:18:34,199

you want to have and there's then

1952

01:18:38,450 --> 01:18:36,960

there's Alan heineck uh two over from

1953

01:18:40,910 --> 01:18:38,460

valet

1954

01:18:45,110 --> 01:18:40,920

so this was back in 78

1955

01:18:47,570 --> 01:18:45,120

um yeah now you know we absolutely it'd

1956

01:18:49,970 --> 01:18:47,580

be great because part of it is not just

1957

01:18:51,830 --> 01:18:49,980

you know having these conferences that

1958

01:18:54,709 --> 01:18:51,840

San Marino wants to have which would be

1959

01:18:57,350 --> 01:18:54,719

great for sure but just having the

1960

01:18:59,570 --> 01:18:57,360

discussion at the general assembly is

1961

01:19:01,130 --> 01:18:59,580

that's you know that's a significant

1962

01:19:04,310 --> 01:19:01,140

that could be a very significant

1963

01:19:07,310 --> 01:19:04,320

situation in terms of validation and

1964

01:19:10,310 --> 01:19:07,320

being able to kind of normalize the

1965

01:19:12,709 --> 01:19:10,320

conversation on on on such a wide

1966

01:19:15,410 --> 01:19:12,719

framework that it might be able to have

1967

01:19:16,910 --> 01:19:15,420

waves in terms of other other countries

1968

01:19:18,950 --> 01:19:16,920

being able to talk about this more

1969

01:19:21,110 --> 01:19:18,960

because as Christopher sharp says over

1970

01:19:23,450 --> 01:19:21,120

in the chat here he says like Lou said

1971

01:19:26,630 --> 01:19:23,460

one superpower cannot be seen as leading

1972

01:19:29,709 --> 01:19:26,640

this effort San Marino is perfect and I

1973

01:19:32,450 --> 01:19:29,719

agree to it to a large degree because

1974

01:19:33,709 --> 01:19:32,460

it's one I was talking to somebody the

1975

01:19:35,750 --> 01:19:33,719

other day and it's like one of the

1976

01:19:38,390 --> 01:19:35,760

hardest things about this conversation

1977

01:19:40,970 --> 01:19:38,400

you know the the fact that the US has

1978

01:19:42,950 --> 01:19:40,980

has had to has been in a position of

1979

01:19:46,070 --> 01:19:42,960

holding the secrets and now is in kind

1980

01:19:49,970 --> 01:19:46,080

of like the front seat in some ways is

1981

01:19:52,189 --> 01:19:49,980

is that that they are in an enormously

1982

01:19:55,910 --> 01:19:52,199

tricky position because they were like

1983

01:19:58,370 --> 01:19:55,920

they're seen as being one of of the

1984

01:20:02,689 --> 01:19:58,380

epicenters of secrecy within this topic

1985

01:20:06,830 --> 01:20:02,699

and you know other other countries that

1986

01:20:09,830 --> 01:20:06,840

don't have military that don't say that

1987

01:20:11,750 --> 01:20:09,840

they have military superiority are kind

1988

01:20:14,570 --> 01:20:11,760

of in a better place to talk about this

1989

01:20:16,729 --> 01:20:14,580

issue sometimes because you know what we

1990

01:20:20,510 --> 01:20:16,739

often talk about is that the US is in

1991

01:20:22,310 --> 01:20:20,520

the precarious position of of being kind

1992

01:20:23,870 --> 01:20:22,320

of a world leader in terms of looking at

1993

01:20:26,030 --> 01:20:23,880

themselves as the World Police or

1994

01:20:28,669 --> 01:20:26,040

whatever for better for worse and like

1995

01:20:31,910 --> 01:20:28,679

you know and and with all that that

1996

01:20:35,209 --> 01:20:31,920

implies and you know that a lot of our

1997

01:20:37,790 --> 01:20:35,219

tax money goes to you know basic

1998

01:20:40,669 --> 01:20:37,800

protection and the military right rather

1999

01:20:42,950 --> 01:20:40,679

than another Western countries that

2000

01:20:45,169 --> 01:20:42,960

don't profess to have military

2001
01:20:46,550 --> 01:20:45,179
superiority you know they'll you know

2002
01:20:47,870 --> 01:20:46,560
pay for your college and they'll give

2003
01:20:49,910 --> 01:20:47,880
you health care and they'll do this and

2004
01:20:51,709 --> 01:20:49,920
then the other thing what do we get we

2005
01:20:56,209 --> 01:20:51,719
get military superiority for whatever

2006
01:20:58,250 --> 01:20:56,219
reason right no but at the same time you

2007
01:21:00,410 --> 01:20:58,260
know as many people say you know

2008
01:21:03,350 --> 01:21:00,420
including Lou and others you know the

2009
01:21:06,110 --> 01:21:03,360
one of the binds here is that that it

2010
01:21:08,810 --> 01:21:06,120
involves admitting that we don't have

2011
01:21:11,930 --> 01:21:08,820
control over our airspace we don't have

2012
01:21:14,270 --> 01:21:11,940
there is actually something that is you

2013
01:21:17,450 --> 01:21:14,280

know that appears to be wildly Superior

2014

01:21:20,090 --> 01:21:17,460

from a technological standpoint to us so

2015

01:21:22,010 --> 01:21:20,100

yeah what better what better person to

2016

01:21:23,930 --> 01:21:22,020

do it than you know or what better

2017

01:21:26,390 --> 01:21:23,940

country to do it

2018

01:21:28,669 --> 01:21:26,400

or just contribute to this effort then a

2019

01:21:32,330 --> 01:21:28,679

small city-state that no one is looking

2020

01:21:34,490 --> 01:21:32,340

to for Aid that no one's looking to or

2021

01:21:38,570 --> 01:21:34,500

for anything right

2022

01:21:40,430 --> 01:21:38,580

yeah and um I I hope it works out you

2023

01:21:43,370 --> 01:21:40,440

know that there's so many similarities

2024

01:21:45,950 --> 01:21:43,380

between like uh Granada and this and

2025

01:21:47,990 --> 01:21:45,960

it's just as far as like small country

2026

01:21:51,110 --> 01:21:48,000

you know all that kind of that kind of

2027

01:21:53,330 --> 01:21:51,120

stuff like and it makes me think of um

2028

01:21:55,189 --> 01:21:53,340

you know is this a plan that was kind of

2029

01:21:57,470 --> 01:21:55,199

thought of before and somebody's picking

2030

01:22:00,410 --> 01:21:57,480

up the football and running with it now

2031

01:22:02,810 --> 01:22:00,420

again trying again like maybe people are

2032

01:22:04,610 --> 01:22:02,820

ready for this now or is this completely

2033

01:22:06,649 --> 01:22:04,620

separate you know I always wonder about

2034

01:22:08,209 --> 01:22:06,659

that kind of stuff like how long has

2035

01:22:10,729 --> 01:22:08,219

this effort really been going on like

2036

01:22:13,610 --> 01:22:10,739

you go back to a blue book and you see a

2037

01:22:15,110 --> 01:22:13,620

a thing from heinek saying how maybe we

2038

01:22:17,209 --> 01:22:15,120

should change this to unidentified

2039

01:22:19,070 --> 01:22:17,219

aerial phenomenon and somebody else

2040

01:22:20,930 --> 01:22:19,080

going no that people aren't ready for it

2041

01:22:22,610 --> 01:22:20,940

you know like and then these things

2042

01:22:24,709 --> 01:22:22,620

start happening and I'm just like

2043

01:22:26,870 --> 01:22:24,719

wondering like What playbook is this

2044

01:22:29,090 --> 01:22:26,880

from you know because it matches things

2045

01:22:32,209 --> 01:22:29,100

that happen in the past and what's the

2046

01:22:33,649 --> 01:22:32,219

end game you know like yeah

2047

01:22:35,209 --> 01:22:33,659

um is it going to come out with more

2048

01:22:37,490 --> 01:22:35,219

information because a lot of times it

2049

01:22:39,169 --> 01:22:37,500

seems like everybody's we're all just

2050

01:22:41,090 --> 01:22:39,179

trying to start from scratch here with

2051
01:22:43,189 --> 01:22:41,100
the government the United Nations like

2052
01:22:45,229 --> 01:22:43,199
everybody's just trying to start now

2053
01:22:47,510 --> 01:22:45,239
where are we now like how can we get

2054
01:22:49,850 --> 01:22:47,520
more data or look at the events from the

2055
01:22:53,149 --> 01:22:49,860
past few years kind of ignoring the fact

2056
01:22:55,490 --> 01:22:53,159
that there's a lot more data you know

2057
01:22:57,950 --> 01:22:55,500
that that the government has already you

2058
01:22:59,450 --> 01:22:57,960
know yeah and we could skip the line so

2059
01:23:02,930 --> 01:22:59,460
to speak and get on the roller coaster

2060
01:23:07,130 --> 01:23:02,940
right away versus you know waiting at

2061
01:23:09,950 --> 01:23:07,140
the back on a busy Saturday you know so

2062
01:23:11,870 --> 01:23:09,960
um one you know our taxes bought the

2063
01:23:14,990 --> 01:23:11,880

pass to skip the line and they're not

2064

01:23:16,850 --> 01:23:15,000

letting us you know so so it's like uh I

2065

01:23:18,850 --> 01:23:16,860

just wonder what

2066

01:23:21,709 --> 01:23:18,860

you know in the slow drip thing is is

2067

01:23:24,830 --> 01:23:21,719

interesting it is but I've just like

2068

01:23:28,310 --> 01:23:24,840

I've just seen that said

2069

01:23:30,110 --> 01:23:28,320

since the early 50s you know in

2070

01:23:31,610 --> 01:23:30,120

documents like ah they're doing a slow

2071

01:23:34,850 --> 01:23:31,620

drip they got to tell you a little at a

2072

01:23:36,050 --> 01:23:34,860

time and right you know enough to where

2073

01:23:39,530 --> 01:23:36,060

I'm like

2074

01:23:41,330 --> 01:23:39,540

is that what they're doing because

2075

01:23:48,649 --> 01:23:41,340

like

2076

01:23:50,450 --> 01:23:48,659

that I've read in the Blue Book

2077

01:23:52,669 --> 01:23:50,460

documents or whatever which was about

2078

01:23:56,390 --> 01:23:52,679

bodies and craft which is exactly what's

2079

01:23:58,310 --> 01:23:56,400

going on now slow drip bodies you know

2080

01:23:59,570 --> 01:23:58,320

like

2081

01:24:02,149 --> 01:23:59,580

uh

2082

01:24:05,270 --> 01:24:02,159

and it never happened like they died and

2083

01:24:06,590 --> 01:24:05,280

it never happened and you know like how

2084

01:24:08,390 --> 01:24:06,600

are we supposed to know we're not in

2085

01:24:09,890 --> 01:24:08,400

that same spot you know it's a very good

2086

01:24:11,450 --> 01:24:09,900

point and it's interesting that we you

2087

01:24:13,010 --> 01:24:11,460

know at the at the beginning of the

2088

01:24:15,410 --> 01:24:13,020

broadcast

2089

01:24:18,169 --> 01:24:15,420

um we're talking about Kehoe and like

2090

01:24:20,689 --> 01:24:18,179

1952 1953 because you're absolutely

2091

01:24:24,169 --> 01:24:20,699

right that in in many ways in many

2092

01:24:26,990 --> 01:24:24,179

respects if people go back to the

2093

01:24:29,090 --> 01:24:27,000

history of the field in a big way you'll

2094

01:24:32,630 --> 01:24:29,100

see that we're we're essentially in some

2095

01:24:36,890 --> 01:24:32,640

ways we're back in we're mirroring about

2096

01:24:39,830 --> 01:24:36,900

1952 right now because we're in in terms

2097

01:24:44,330 --> 01:24:39,840

of like what the public discourse is you

2098

01:24:47,149 --> 01:24:44,340

know people in 1952 I you know it may be

2099

01:24:48,410 --> 01:24:47,159

hard to believe but in in 52 it really

2100

01:24:50,330 --> 01:24:48,420

looked like

2101
01:24:51,830 --> 01:24:50,340
that there's going to be some answers

2102
01:24:53,570 --> 01:24:51,840
and that that there's going to be a lot

2103
01:24:56,630 --> 01:24:53,580
of transparency about this stuff at that

2104
01:24:59,030 --> 01:24:56,640
time and I bet if we were back in 1952

2105
01:25:00,830 --> 01:24:59,040
we would think like oh 1960 we're gonna

2106
01:25:04,790 --> 01:25:00,840
you know there's gonna be open contact

2107
01:25:07,550 --> 01:25:04,800
flip upside down absolutely and you know

2108
01:25:10,310 --> 01:25:07,560
and it just took and you know it's

2109
01:25:12,530 --> 01:25:10,320
definitely been longer than that but you

2110
01:25:14,149 --> 01:25:12,540
know and and you're right so as far as

2111
01:25:16,010 --> 01:25:14,159
the drip campaign because it you know

2112
01:25:19,669 --> 01:25:16,020
the leash got tighter for a good long

2113
01:25:21,229 --> 01:25:19,679

time and you know the Condon report you

2114

01:25:23,570 --> 01:25:21,239

know I mean the Condon committee like

2115

01:25:26,510 --> 01:25:23,580

all that stuff it it really

2116

01:25:28,790 --> 01:25:26,520

it it it it changed the game in an

2117

01:25:31,669 --> 01:25:28,800

unfortunate way and Blue Book changed

2118

01:25:34,610 --> 01:25:31,679

the game in an unfortunate way and and

2119

01:25:37,850 --> 01:25:34,620

so it's almost like you know we hit a

2120

01:25:40,250 --> 01:25:37,860

redo like on the old Nintendo and we're

2121

01:25:43,310 --> 01:25:40,260

back here and like we're not at level

2122

01:25:45,410 --> 01:25:43,320

Roswell yeah we're not at level one one

2123

01:25:47,330 --> 01:25:45,420

but we might be on level three one if

2124

01:25:50,390 --> 01:25:47,340

we're talking Super Mario Brothers right

2125

01:25:52,870 --> 01:25:50,400

yeah but and there's a lot of room for

2126
01:25:56,030 --> 01:25:52,880
growth but you know there's some parts

2127
01:25:57,649 --> 01:25:56,040
there are definitely differences too and

2128
01:26:00,010 --> 01:25:57,659
I've highlighted this before you know

2129
01:26:03,350 --> 01:26:00,020
the first uh hola government

2130
01:26:06,169 --> 01:26:03,360
legislation passed to study UFOs never

2131
01:26:08,450 --> 01:26:06,179
happened before in the past

2132
01:26:10,430 --> 01:26:08,460
um you know things like that so there

2133
01:26:12,830 --> 01:26:10,440
are differences that you can find and

2134
01:26:14,390 --> 01:26:12,840
pinpoint say okay well if I'm trying to

2135
01:26:16,010 --> 01:26:14,400
compare the two it's not a hundred

2136
01:26:19,790 --> 01:26:16,020
percent Fair because this is different

2137
01:26:22,250 --> 01:26:19,800
and it's in a positive direction so

2138
01:26:24,770 --> 01:26:22,260

um so so that's good but

2139

01:26:28,129 --> 01:26:24,780

um yeah and I plan on doing like a

2140

01:26:30,890 --> 01:26:28,139

little show or a production of

2141

01:26:32,750 --> 01:26:30,900

um the 19 the year 1947 leading up to

2142

01:26:35,030 --> 01:26:32,760

Roswell and shortly after Roswell

2143

01:26:39,229 --> 01:26:35,040

because you really get a good

2144

01:26:41,629 --> 01:26:39,239

uh idea of the

2145

01:26:43,729 --> 01:26:41,639

the mass confusion and flip-flopping

2146

01:26:45,830 --> 01:26:43,739

that went on in the Press like and just

2147

01:26:47,750 --> 01:26:45,840

looking at it from the Press like

2148

01:26:49,490 --> 01:26:47,760

what was the Press telling us through

2149

01:26:51,229 --> 01:26:49,500

all this time you know and there was

2150

01:26:54,590 --> 01:26:51,239

after Kenneth Arnold there is definitely

2151
01:26:57,890 --> 01:26:54,600
what seemed like a little hysteria like

2152
01:27:00,950 --> 01:26:57,900
the newspapers had so many reports all

2153
01:27:04,370 --> 01:27:00,960
over the country of finest flying discs

2154
01:27:08,090 --> 01:27:04,380
all over the place Pilots everything and

2155
01:27:11,030 --> 01:27:08,100
then the disc crashed you know right and

2156
01:27:12,890 --> 01:27:11,040
you know I wonder if sometimes

2157
01:27:14,450 --> 01:27:12,900
you just wouldn't explain a lot of the

2158
01:27:17,149 --> 01:27:14,460
witness testimony of course but

2159
01:27:19,910 --> 01:27:17,159
sometimes like I think like was that a

2160
01:27:22,970 --> 01:27:19,920
staged event so that they could say they

2161
01:27:25,629 --> 01:27:22,980
have one and it really is something just

2162
01:27:29,689 --> 01:27:25,639
stupid and maybe people would just like

2163
01:27:32,030 --> 01:27:29,699

oh man it was this the whole time

2164

01:27:34,910 --> 01:27:32,040

you know I mean it's an interesting

2165

01:27:37,010 --> 01:27:34,920

sometimes you know yeah and that I mean

2166

01:27:38,810 --> 01:27:37,020

it's and you look at the Robertson panel

2167

01:27:43,610 --> 01:27:38,820

that was one of the things is this you

2168

01:27:45,350 --> 01:27:43,620

know strip the mystery from UFOs you

2169

01:27:47,930 --> 01:27:45,360

know yeah and one of their ways to say

2170

01:27:50,810 --> 01:27:47,940

they would do that is take it you know a

2171

01:27:53,090 --> 01:27:50,820

puzzling case and then explain it to

2172

01:27:55,129 --> 01:27:53,100

people and show them how it's prosaic

2173

01:27:57,350 --> 01:27:55,139

you know which is the same thing at that

2174

01:27:59,990 --> 01:27:57,360

infinite Roswell which is you know what

2175

01:28:02,209 --> 01:28:00,000

Mick West tries to do what which is what

2176
01:28:04,610 --> 01:28:02,219
the government tries to do at hearings

2177
01:28:06,709 --> 01:28:04,620
you know saying those pyramids were were

2178
01:28:08,570 --> 01:28:06,719
Chinese drones and not having ebony

2179
01:28:10,729 --> 01:28:08,580
evidence to back it up other than them

2180
01:28:12,590 --> 01:28:10,739
being aware of a study that showed

2181
01:28:14,870 --> 01:28:12,600
something sometime at some point that

2182
01:28:18,350 --> 01:28:14,880
made them think okay let's just move on

2183
01:28:20,330 --> 01:28:18,360
yeah really you know come on so I don't

2184
01:28:23,209 --> 01:28:20,340
know I'm just I guess I like to make

2185
01:28:25,790 --> 01:28:23,219
comparisons so no no and it's important

2186
01:28:27,590 --> 01:28:25,800
and it's important to you know if it's

2187
01:28:29,870 --> 01:28:27,600
important to know the history because

2188
01:28:31,669 --> 01:28:29,880

you know those who you know if you don't

2189

01:28:33,950 --> 01:28:31,679

know the history you know you're doomed

2190

01:28:37,370 --> 01:28:33,960

to repeat it right so yeah

2191

01:28:39,770 --> 01:28:37,380

um hopefully if if more word can get out

2192

01:28:44,390 --> 01:28:39,780

and people can start to look

2193

01:28:47,030 --> 01:28:44,400

back pass before the 21st century you

2194

01:28:48,410 --> 01:28:47,040

know there's a rich history of cases you

2195

01:28:50,090 --> 01:28:48,420

know whether it's whether you're looking

2196

01:28:52,250 --> 01:28:50,100

at Donald Kehoe whether you're looking

2197

01:28:53,810 --> 01:28:52,260

at the work of coral Lorenzen whether

2198

01:28:56,450 --> 01:28:53,820

you're looking at the early cases of

2199

01:28:59,450 --> 01:28:56,460

Leonard Stringfield or looking at it

2200

01:29:02,270 --> 01:28:59,460

through the lens of Jean Keel who was

2201
01:29:04,550 --> 01:29:02,280
famously one of the only people that uh

2202
01:29:07,070 --> 01:29:04,560
around them that was used newspaper

2203
01:29:09,470 --> 01:29:07,080
clipping services to get all of those

2204
01:29:11,689 --> 01:29:09,480
all those reports that were happening in

2205
01:29:13,729 --> 01:29:11,699
all the regional newspapers around the

2206
01:29:15,830 --> 01:29:13,739
country you know he thought ahead and

2207
01:29:18,350 --> 01:29:15,840
was and was looking to compile those

2208
01:29:20,810 --> 01:29:18,360
from a really early time period you know

2209
01:29:23,090 --> 01:29:20,820
he's he's great for this stuff Jacque

2210
01:29:26,750 --> 01:29:23,100
filet and Chris aubek

2211
01:29:29,390 --> 01:29:26,760
um you know worked on a great book and

2212
01:29:31,010 --> 01:29:29,400
uh and wonders in the sky and Chris obek

2213
01:29:32,930 --> 01:29:31,020

just had a new follow-up talking about

2214

01:29:36,350 --> 01:29:32,940

historical cases that happened well

2215

01:29:38,570 --> 01:29:36,360

before we had any flying devices at all

2216

01:29:40,610 --> 01:29:38,580

right you know yeah when they talked

2217

01:29:42,830 --> 01:29:40,620

about airships and things like this and

2218

01:29:44,450 --> 01:29:42,840

and it's you know it's important to

2219

01:29:47,270 --> 01:29:44,460

recognize that you know things like the

2220

01:29:49,370 --> 01:29:47,280

Tic Tacs things like these glowing orbs

2221

01:29:51,530 --> 01:29:49,380

um you know flying saucers all these all

2222

01:29:53,689 --> 01:29:51,540

these situations there are so many cases

2223

01:29:55,669 --> 01:29:53,699

that go back hundreds and hundreds and

2224

01:29:57,229 --> 01:29:55,679

hundreds of years and the more that we

2225

01:30:00,290 --> 01:29:57,239

can arm ourselves with that knowledge

2226

01:30:02,510 --> 01:30:00,300

the more that we can we can push back on

2227

01:30:05,209 --> 01:30:02,520

these situations where people try to act

2228

01:30:07,129 --> 01:30:05,219

like like it's all current and it's only

2229

01:30:09,830 --> 01:30:07,139

since drones started happening that we

2230

01:30:11,629 --> 01:30:09,840

have these sightings yeah no I think it

2231

01:30:13,970 --> 01:30:11,639

might be worth to do like maybe a

2232

01:30:16,070 --> 01:30:13,980

Charles Fort episode or something you

2233

01:30:19,070 --> 01:30:16,080

know that would be so dope oh we should

2234

01:30:22,370 --> 01:30:19,080

do about his writings yeah yeah I would

2235

01:30:24,890 --> 01:30:22,380

love that yeah yeah that would be great

2236

01:30:26,570 --> 01:30:24,900

all right well I guess we could wrap it

2237

01:30:28,970 --> 01:30:26,580

up do you have anything else

2238

01:30:30,890 --> 01:30:28,980

I just want to say uh thanks to

2239

01:30:32,990 --> 01:30:30,900

everybody in the chat uh we had a real

2240

01:30:36,350 --> 01:30:33,000

active chat today it's great to see yeah

2241

01:30:39,410 --> 01:30:36,360

Robert and water lily and Chris sharp

2242

01:30:41,890 --> 01:30:39,420

thanks for joining us uh I saw Mr riddle

2243

01:30:45,229 --> 01:30:41,900

in in the chat speaking of the year

2244

01:30:47,930 --> 01:30:45,239

1947. uh well we know a couple people in

2245

01:30:51,649 --> 01:30:47,940

here that are very well versed in those

2246

01:30:54,470 --> 01:30:51,659

years back then uh so many of of the

2247

01:30:56,149 --> 01:30:54,480

wonderful folks that come uh each week

2248

01:30:57,590 --> 01:30:56,159

it's great to see you all here and

2249

01:30:58,550 --> 01:30:57,600

thanks to everybody who's watching this

2250

01:31:02,750 --> 01:30:58,560

guys

2251

01:31:04,669 --> 01:31:02,760

so positive in the chat and always

2252

01:31:06,290 --> 01:31:04,679

bringing great comments

2253

01:31:08,330 --> 01:31:06,300

um like the video subscribe if you

2254

01:31:11,090 --> 01:31:08,340

haven't leave a comment

2255

01:31:13,970 --> 01:31:11,100

um you know or or whatever follow me on

2256

01:31:14,629 --> 01:31:13,980

Twitter at witnesscitizen you know

2257

01:31:17,689 --> 01:31:14,639

um

2258

01:31:20,450 --> 01:31:17,699

all that kind of stuff so absolutely and

2259

01:31:22,790 --> 01:31:20,460

until next time I guess huh absolutely

2260

01:31:26,209 --> 01:31:22,800

yeah until next time uh thank you thank

2261

01:31:30,490 --> 01:31:26,219

you everybody and Sean I love you buddy

2262

01:31:30,500 --> 01:31:34,300
