

**Weather Balloon Touches Off
Flying Saucer Fever At Austin**

Flying saucer fever mounting

**Flying Saucers Called Ships
Of Visitors from Space**
But Air Force Officials Deny Story of
Voyages to Earth from Another Planet

1
00:00:04,850 --> 00:00:03,409
and one last thing before I turn it over

2
00:00:06,349 --> 00:00:04,860
to the Admiral I just wanted to make

3
00:00:07,730 --> 00:00:06,359
sure we addressed this from the White

4
00:00:10,490 --> 00:00:07,740
House I know there have been questions

5
00:00:13,669 --> 00:00:10,500
and and concerns about this but there is

6
00:00:16,129 --> 00:00:13,679
no again no indication of aliens or

7
00:00:19,010 --> 00:00:16,139
extraterrestrial activity with these

8
00:00:21,109 --> 00:00:19,020
recent takedowns again there is no

9
00:00:22,970 --> 00:00:21,119
indication of aliens or terrestrial

10
00:00:24,769 --> 00:00:22,980
activity with these recent takedowns

11
00:00:26,630 --> 00:00:24,779
wanted to make sure that the American

12
00:00:29,029 --> 00:00:26,640
people knew that all of you knew that

13
00:00:30,410 --> 00:00:29,039

and it was important for us to say that

14

00:00:32,150 --> 00:00:30,420

from here because we've been hearing a

15

00:00:35,510 --> 00:00:32,160

lot about it

16

00:00:38,030 --> 00:00:35,520

um I I I'm not

17

00:00:40,190 --> 00:00:38,040

would you tell us I'm just you know I

18

00:00:42,049 --> 00:00:40,200

loved E.T the movie but I'm just gonna

19

00:00:43,729 --> 00:00:42,059

leave it there the President also

20

00:00:46,069 --> 00:00:43,739

instructed the intelligence Community to

21

00:00:48,590 --> 00:00:46,079

take a broad look at the phenomenon of

22

00:00:50,450 --> 00:00:48,600

unidentified aerial objects

23

00:00:52,490 --> 00:00:50,460

indeed President Biden conducted the

24

00:00:54,830 --> 00:00:52,500

first ever daily intelligence briefing

25

00:00:58,310 --> 00:00:54,840

session devoted to this phenomenon back

26

00:00:59,930 --> 00:00:58,320

in June of 2021. he was brief that this

27

00:01:02,090 --> 00:00:59,940

is not just an issue for the United

28

00:01:04,070 --> 00:01:02,100

States but one for the rest of the world

29

00:01:06,950 --> 00:01:04,080

and as I said our friends and our

30

00:01:09,469 --> 00:01:06,960

partners are dealing with this as well

31

00:01:11,149 --> 00:01:09,479

we worked on a bipartisan basis to stand

32

00:01:11,990 --> 00:01:11,159

up an office at the Pentagon to study

33

00:01:13,730 --> 00:01:12,000

this

34

00:01:16,550 --> 00:01:13,740

in partnership with the intelligence

35

00:01:18,170 --> 00:01:16,560

Community academic institutions and the

36

00:01:20,810 --> 00:01:18,180

private sector

37

00:01:22,730 --> 00:01:20,820

these unidentified aerial phenomena have

38

00:01:25,370 --> 00:01:22,740

been reported for many years without

39

00:01:26,330 --> 00:01:25,380

explanation or deep examination by the

40

00:01:28,490 --> 00:01:26,340

government

41

00:01:30,289 --> 00:01:28,500

President Biden has changed all that

42

00:01:31,910 --> 00:01:30,299

we are finally trying to understand them

43

00:01:37,270 --> 00:01:31,920

better

44

00:01:39,890 --> 00:01:37,280

[Music]

45

00:01:41,330 --> 00:01:39,900

with all due respect to the Air Force I

46

00:01:49,969 --> 00:01:41,340

believe that some of them will prove to

47

00:01:49,979 --> 00:02:07,500

ha

48

00:02:07,510 --> 00:02:14,809

[Music]

49

00:02:20,990 --> 00:02:17,330

what's up everybody thanks for joining

50

00:02:22,430 --> 00:02:21,000

me on this Monday afternoon at a little

51
00:02:25,430 --> 00:02:22,440
well I guess we're a little late it's

52
00:02:27,110 --> 00:02:25,440
104 PM Central but I hope that's close

53
00:02:29,690 --> 00:02:27,120
enough for you

54
00:02:31,369 --> 00:02:29,700
um we have had quite a time with all

55
00:02:34,369 --> 00:02:31,379
these Chinese balloons and objects

56
00:02:36,470 --> 00:02:34,379
flying around the nation so I thought it

57
00:02:39,050 --> 00:02:36,480
would be good to just maybe touch on

58
00:02:40,610 --> 00:02:39,060
that a little bit bring in I would say

59
00:02:45,770 --> 00:02:40,620
maybe a

60
00:02:49,449 --> 00:02:45,780
uh Flying Saucer Aficionado uh historian

61
00:02:52,670 --> 00:02:49,459
and author uh Graham Randall to kind of

62
00:02:55,130 --> 00:02:52,680
Enlighten us maybe

63
00:02:58,910 --> 00:02:55,140

are there things from the past that we

64
00:03:01,070 --> 00:02:58,920
can you know take and and maybe apply to

65
00:03:04,910 --> 00:03:01,080
what's going on now with everything

66
00:03:06,589 --> 00:03:04,920
happening you know as far as the

67
00:03:08,089 --> 00:03:06,599
Pentagon the government not being able

68
00:03:10,490 --> 00:03:08,099
to tell us much about some of the

69
00:03:12,949 --> 00:03:10,500
objects it could really easily go into

70
00:03:14,509 --> 00:03:12,959
flag saucer alien mode right

71
00:03:16,910 --> 00:03:14,519
um and that's why I call this video flag

72
00:03:20,509 --> 00:03:16,920
saucer fever it's it's not that I'm

73
00:03:23,570 --> 00:03:20,519
saying that um you know there's uh Alien

74
00:03:25,670 --> 00:03:23,580
or E.T craft all over the place what I'm

75
00:03:28,250 --> 00:03:25,680
saying is there's UFOs right

76

00:03:30,710 --> 00:03:28,260

unidentified flying objects and

77

00:03:32,570 --> 00:03:30,720

sometimes with that and with the lack of

78

00:03:34,790 --> 00:03:32,580

information people can kind of fill in

79

00:03:37,610 --> 00:03:34,800

their own blanks and it can become

80

00:03:41,630 --> 00:03:37,620

anything from

81

00:03:44,330 --> 00:03:41,640

um you know all the different uh

82

00:03:47,149 --> 00:03:44,340

etuh kind of

83

00:03:49,670 --> 00:03:47,159

I don't know what to call a you know

84

00:03:52,490 --> 00:03:49,680

Grays there's Grays all the different uh

85

00:03:54,170 --> 00:03:52,500

Rays all the different races or you can

86

00:03:55,789 --> 00:03:54,180

say it's pretty something prosaic so

87

00:03:58,910 --> 00:03:55,799

there's a lot of choices but I wanted to

88

00:04:00,589 --> 00:03:58,920

get into this with uh Graham here and

89

00:04:02,210 --> 00:04:00,599

I'm gonna bring him and you can check

90

00:04:05,149 --> 00:04:02,220

the description for his information he's

91

00:04:07,789 --> 00:04:05,159

an author of three uh Flags officer UFO

92

00:04:09,949 --> 00:04:07,799

books which are just fantastic

93

00:04:12,350 --> 00:04:09,959

um and if you want to get into the

94

00:04:14,089 --> 00:04:12,360

nitty-gritty of the past in blue book

95

00:04:16,729 --> 00:04:14,099

reports and pilot reports I definitely

96

00:04:19,550 --> 00:04:16,739

recommend purchasing those books they're

97

00:04:22,909 --> 00:04:19,560

great fantastic reads

98

00:04:25,070 --> 00:04:22,919

um pure fact and detail

99

00:04:27,230 --> 00:04:25,080

um no wild speculation or anything like

100

00:04:29,390 --> 00:04:27,240

that he leaves it up to the reader to

101
00:04:31,129 --> 00:04:29,400
kind of make up their mind and and and

102
00:04:33,409 --> 00:04:31,139
what to take from the knowledge and

103
00:04:35,510 --> 00:04:33,419
parts on you so I really do appreciate

104
00:04:37,010 --> 00:04:35,520
that so without further Ado I'm gonna

105
00:04:39,710 --> 00:04:37,020
bring in

106
00:04:42,590 --> 00:04:39,720
the men the myth

107
00:04:44,950 --> 00:04:42,600
in the legend Mr Graham how are you sir

108
00:04:46,909 --> 00:04:44,960
hello

109
00:04:49,249 --> 00:04:46,919
I can't even get my words out tonight

110
00:04:51,710 --> 00:04:49,259
thank you very much for the invitation

111
00:04:55,129 --> 00:04:51,720
um yet I'm still in the coffee but the

112
00:04:57,129 --> 00:04:55,139
night is young okay good good yeah uh if

113
00:04:59,890 --> 00:04:57,139

Vinnie was here we would have some wine

114

00:05:02,330 --> 00:04:59,900

yeah yeah

115

00:05:04,010 --> 00:05:02,340

no so thanks for doing this I know it's

116

00:05:05,930 --> 00:05:04,020

kind of last minute I didn't really

117

00:05:07,850 --> 00:05:05,940

necessarily plan on it either but I

118

00:05:10,189 --> 00:05:07,860

really appreciate that you're agile and

119

00:05:12,050 --> 00:05:10,199

flexible and able to do this because you

120

00:05:13,850 --> 00:05:12,060

know obviously I respect your opinion

121

00:05:15,770 --> 00:05:13,860

and you're so well-rounded in your

122

00:05:17,810 --> 00:05:15,780

knowledge of the subject that I thought

123

00:05:19,790 --> 00:05:17,820

it'd be great to bring you in here as as

124

00:05:22,610 --> 00:05:19,800

we discuss uh kind of the recent

125

00:05:25,189 --> 00:05:22,620

incursions in North America so

126

00:05:28,129 --> 00:05:25,199

um the the first thing that I would uh

127

00:05:30,529 --> 00:05:28,139

ask you is we just said that press

128

00:05:32,689 --> 00:05:30,539

conference a little bit

129

00:05:34,730 --> 00:05:32,699

um you know that I played those two

130

00:05:36,950 --> 00:05:34,740

clips at the beginning for a reason the

131

00:05:39,830 --> 00:05:36,960

first one was was kind of to show that

132

00:05:42,950 --> 00:05:39,840

there is some stigma that still exists

133

00:05:46,249 --> 00:05:42,960

right uh she brought up uh flying

134

00:05:47,689 --> 00:05:46,259

saucers and Aliens as a joke and

135

00:05:50,090 --> 00:05:47,699

um you know whatever you believe about

136

00:05:51,469 --> 00:05:50,100

that it it's not a joke and then the

137

00:05:54,290 --> 00:05:51,479

double speak

138

00:05:55,670 --> 00:05:54,300

because John Kirby comes up in a very

139

00:05:59,629 --> 00:05:55,680

serious tone

140

00:06:02,629 --> 00:05:59,639

and says that yeah UAP are real it's a

141

00:06:06,590 --> 00:06:02,639

global phenomenon and we're finally

142

00:06:07,670 --> 00:06:06,600

taking it seriously you know so kind of

143

00:06:10,129 --> 00:06:07,680

what's your take on the press conference

144

00:06:13,370 --> 00:06:10,139

and I guess uh those clips I mean just

145

00:06:16,010 --> 00:06:13,380

generally UFOs uh by definition are

146

00:06:18,469 --> 00:06:16,020

unidentified flying objects and UAP are

147

00:06:21,050 --> 00:06:18,479

unidentified Arrow phenomena so until

148

00:06:22,490 --> 00:06:21,060

somebody identifies what you know this

149

00:06:24,590 --> 00:06:22,500

whatever these things are flying through

150

00:06:28,129 --> 00:06:24,600

the sky then they remain in those terms

151
00:06:30,650 --> 00:06:28,139
so you know just as a pure statement

152
00:06:33,230 --> 00:06:30,660
that's correct but then when they start

153
00:06:35,809 --> 00:06:33,240
using or bring the stigma into it and

154
00:06:38,150 --> 00:06:35,819
whilst the the press the Press officer

155
00:06:40,370 --> 00:06:38,160
when she first said something it wasn't

156
00:06:42,529 --> 00:06:40,380
necessarily a joke and she was just

157
00:06:44,990 --> 00:06:42,539
trying to say look it's that we don't

158
00:06:47,150 --> 00:06:45,000
think they're aliens you can see you can

159
00:06:48,890 --> 00:06:47,160
see the kind of the reaction from the

160
00:06:50,809 --> 00:06:48,900
from the crowd from the from the uh the

161
00:06:52,610 --> 00:06:50,819
journalists because let's face it I

162
00:06:54,770 --> 00:06:52,620
think a lot of the people out there in

163
00:06:57,409 --> 00:06:54,780

in the audience uh are posting the

164

00:06:59,570 --> 00:06:57,419

questions they're not that you know sort

165

00:07:02,270 --> 00:06:59,580

of clued up on what we're looking at

166

00:07:04,129 --> 00:07:02,280

they are probably political reporters

167

00:07:05,629 --> 00:07:04,139

there may be a few defense reporters in

168

00:07:07,249 --> 00:07:05,639

there of course as well but I think a

169

00:07:08,090 --> 00:07:07,259

lot of them be on the political beat and

170

00:07:10,430 --> 00:07:08,100

they're looking at the political

171

00:07:13,309 --> 00:07:10,440

reaction to what's going on in your over

172

00:07:15,050 --> 00:07:13,319

your country so therefore they go you

173

00:07:17,150 --> 00:07:15,060

know they're not necessarily well versed

174

00:07:18,650 --> 00:07:17,160

in the subject nor the history of it so

175

00:07:20,570 --> 00:07:18,660

therefore they've got they they're just

176

00:07:21,830 --> 00:07:20,580

reacting to events if you like

177

00:07:23,749 --> 00:07:21,840

um and they're going to ask you know

178

00:07:25,969 --> 00:07:23,759

pretty sort of bug standard questions

179

00:07:27,290 --> 00:07:25,979

which won't have a lot of depth in there

180

00:07:28,610 --> 00:07:27,300

were one or two

181

00:07:30,230 --> 00:07:28,620

um if anybody was watching the whole

182

00:07:32,270 --> 00:07:30,240

thing there was there were one or two

183

00:07:33,830 --> 00:07:32,280

really really good questions uh but I

184

00:07:35,450 --> 00:07:33,840

think a lot of it is just comes down to

185

00:07:38,089 --> 00:07:35,460

the fact that well the U.S government

186

00:07:39,409 --> 00:07:38,099

are still reacting to a lot of it

187

00:07:43,189 --> 00:07:39,419

um they've been caught with a trousers

188

00:07:44,629 --> 00:07:43,199

down to to kind of phrase in some ways

189

00:07:46,070 --> 00:07:44,639

um and also there's a lot of information

190

00:07:48,350 --> 00:07:46,080

they still don't want to give out

191

00:07:50,510 --> 00:07:48,360

because you know that they don't want to

192

00:07:52,550 --> 00:07:50,520

um probably you know give away a lot of

193

00:07:54,770 --> 00:07:52,560

their intelligence gathering um kind of

194

00:07:56,629 --> 00:07:54,780

like um capabilities either so we're

195

00:07:59,510 --> 00:07:56,639

going back to the why they don't give

196

00:08:01,730 --> 00:07:59,520

information out about UFOs new AP it's

197

00:08:03,170 --> 00:08:01,740

still it's the same the only reason why

198

00:08:05,270 --> 00:08:03,180

obviously this is all sort of in the

199

00:08:07,550 --> 00:08:05,280

public eye as far as I can understand

200

00:08:09,469 --> 00:08:07,560

this because that first spy balloon was

201
00:08:10,610 --> 00:08:09,479
noticed by a reporter Somewhere over the

202
00:08:12,710 --> 00:08:10,620
Midwest

203
00:08:14,510 --> 00:08:12,720
um and you know that yeah and that's how

204
00:08:16,610 --> 00:08:14,520
it got into the public uh into the

205
00:08:18,770 --> 00:08:16,620
public eye and if if he hadn't seen it

206
00:08:21,589 --> 00:08:18,780
or he hadn't tracked it or photographed

207
00:08:23,210 --> 00:08:21,599
it or whatever then chances are you know

208
00:08:24,710 --> 00:08:23,220
somebody might have you know everybody

209
00:08:26,689 --> 00:08:24,720
anybody with that kind of capability

210
00:08:28,790 --> 00:08:26,699
might have missed it and it would have

211
00:08:30,830 --> 00:08:28,800
just been down to you know Joe blogs in

212
00:08:32,209 --> 00:08:30,840
the street saying oh yeah I saw this

213
00:08:34,190 --> 00:08:32,219

flying over and everybody going yeah

214

00:08:37,070 --> 00:08:34,200

yeah yeah yeah yeah the aliens are here

215

00:08:39,350 --> 00:08:37,080

yeah exactly so therefore you can write

216

00:08:41,449 --> 00:08:39,360

off things like this just by saying oh

217

00:08:43,010 --> 00:08:41,459

it's just something mundane or it's a

218

00:08:45,670 --> 00:08:43,020

weather balloon now where have we heard

219

00:08:52,670 --> 00:08:49,850

yeah I mean just like for the for the

220

00:08:54,590 --> 00:08:52,680

like image for this video I I took a

221

00:08:56,570 --> 00:08:54,600

little newspaper clipping that said

222

00:09:00,110 --> 00:08:56,580

weather balloons

223

00:09:01,670 --> 00:09:00,120

um you know get people up on flag sauce

224

00:09:03,829 --> 00:09:01,680

or fever or whatever or start playing

225

00:09:06,350 --> 00:09:03,839

exhaust or fever because

226

00:09:08,570 --> 00:09:06,360

um you know I've I found like just a

227

00:09:09,530 --> 00:09:08,580

similarity in there and it you know I

228

00:09:12,350 --> 00:09:09,540

think he hit on a couple really

229

00:09:14,509 --> 00:09:12,360

important things one of which is

230

00:09:17,170 --> 00:09:14,519

um the the reporters that are working on

231

00:09:20,449 --> 00:09:17,180

this are so unfamiliar with the history

232

00:09:22,009 --> 00:09:20,459

of you know UFOs and what that looks

233

00:09:25,190 --> 00:09:22,019

like that they come to these press

234

00:09:27,290 --> 00:09:25,200

conferences kind of with uh you know you

235

00:09:29,150 --> 00:09:27,300

could tell the kind of the incorrect

236

00:09:31,670 --> 00:09:29,160

questions to ask there's a there's a lot

237

00:09:33,590 --> 00:09:31,680

more uh pointed things that that you

238

00:09:36,889 --> 00:09:33,600

could be asking them

239

00:09:40,910 --> 00:09:36,899

um for instance you know you know more

240

00:09:45,050 --> 00:09:40,920

than I do that a lot of UFO reports were

241

00:09:46,970 --> 00:09:45,060

chalked up to balloons you know and and

242

00:09:50,269 --> 00:09:46,980

there was don't like when the the

243

00:09:53,449 --> 00:09:50,279

Montana event happened recently uh over

244

00:09:56,269 --> 00:09:53,459

Malmstrom and they've they found the you

245

00:09:57,769 --> 00:09:56,279

know the radar anomaly

246

00:10:01,490 --> 00:09:57,779

and that's what they chalked it up to

247

00:10:04,430 --> 00:10:01,500

later to say that the object over the

248

00:10:06,470 --> 00:10:04,440

lake uh to the east by Michigan

249

00:10:10,790 --> 00:10:06,480

they thought that to be the same object

250

00:10:13,009 --> 00:10:10,800

and it I just couldn't help but think of

251

00:10:16,250 --> 00:10:13,019

all the radar anomaly

252

00:10:18,290 --> 00:10:16,260

freaking cases in Project Blue Book

253

00:10:20,090 --> 00:10:18,300

where sometimes they're up to seven

254

00:10:22,370 --> 00:10:20,100

thousand miles per hour they send up

255

00:10:26,329 --> 00:10:22,380

Jets to go after it just like they do

256

00:10:28,310 --> 00:10:26,339

now you know and there's nothing there

257

00:10:30,170 --> 00:10:28,320

um yeah so yeah kind of what's your take

258

00:10:32,509 --> 00:10:30,180

on you know what can we take from from

259

00:10:34,670 --> 00:10:32,519

history and apply here what are some of

260

00:10:36,530 --> 00:10:34,680

the similarities what how do we identify

261

00:10:38,470 --> 00:10:36,540

the differences you brought a historian

262

00:10:43,009 --> 00:10:38,480

on so let's let's have a history lesson

263

00:10:45,050 --> 00:10:43,019

yes okay so um let's go back to the

264

00:10:46,730 --> 00:10:45,060

early 1950s in fact let's go a bit

265

00:10:48,350 --> 00:10:46,740

further back before that sort of late

266

00:10:49,610 --> 00:10:48,360

40s and we're not going to necessarily

267

00:10:51,710 --> 00:10:49,620

talk about UFOs here but we're just

268

00:10:54,949 --> 00:10:51,720

going to talk about the Cold War yeah so

269

00:10:56,389 --> 00:10:54,959

you've got the iron curtains come down

270

00:10:57,470 --> 00:10:56,399

um both the Americans and the Soviets

271

00:10:59,569 --> 00:10:57,480

are trying to see what each other are

272

00:11:01,130 --> 00:10:59,579

doing and it's easier said than done

273

00:11:03,110 --> 00:11:01,140

especially when the Americans are trying

274

00:11:04,730 --> 00:11:03,120

to find out what's happening in Russia

275

00:11:06,769 --> 00:11:04,740

because Russia is a big country they've

276

00:11:08,990 --> 00:11:06,779

got quite good air defenses in terms of

277

00:11:11,449 --> 00:11:09,000

you know shooting down any like American

278

00:11:14,210 --> 00:11:11,459

bomber long-range aircraft that could

279

00:11:16,190 --> 00:11:14,220

fly over Russia and so the track the

280

00:11:18,769 --> 00:11:16,200

Americans your guys are trying to find a

281

00:11:20,750 --> 00:11:18,779

way of being able to get some kind of

282

00:11:22,250 --> 00:11:20,760

reconnaissance platform over Russia and

283

00:11:24,050 --> 00:11:22,260

this is obviously before spy satellites

284

00:11:26,569 --> 00:11:24,060

the first satellite didn't go around the

285

00:11:27,590 --> 00:11:26,579

earth until 1957 when Sputnik and of

286

00:11:29,569 --> 00:11:27,600

course the Americans were slightly

287

00:11:31,970 --> 00:11:29,579

slightly behind the curve in terms of

288

00:11:34,069 --> 00:11:31,980

getting their own space program together

289

00:11:36,829 --> 00:11:34,079

it came a lot afterwards but it wasn't

290

00:11:38,569 --> 00:11:36,839

as quick as the Russians so before that

291

00:11:39,829 --> 00:11:38,579

in the 10 years older before that when

292

00:11:40,970 --> 00:11:39,839

you know the Americans are still trying

293

00:11:43,069 --> 00:11:40,980

to work out what's happening behind the

294

00:11:45,769 --> 00:11:43,079

Iron Curtain they can't really send

295

00:11:47,269 --> 00:11:45,779

aircraft out too far because the

296

00:11:48,350 --> 00:11:47,279

Russians can easily shut them down not

297

00:11:50,870 --> 00:11:48,360

necessarily missiles but with

298

00:11:53,389 --> 00:11:50,880

interceptors and yes there were some

299

00:11:56,150 --> 00:11:53,399

attempts to send a conventional jet

300

00:11:58,370 --> 00:11:56,160

aircraft across from America and from

301

00:12:01,850 --> 00:11:58,380

Britain uh in the in the sort of really

302

00:12:03,590 --> 00:12:01,860

early 50s so like 50 51 time to time

303

00:12:08,269 --> 00:12:03,600

um and it got even to the point where

304

00:12:10,850 --> 00:12:08,279

the Americans handed us the RAF some um

305

00:12:13,009 --> 00:12:10,860

b-45 tornadoes they were twin Jets and

306

00:12:15,769 --> 00:12:13,019

reconnaissance aircraft and like bomber

307

00:12:18,590 --> 00:12:15,779

and we put RAF markings on them and we

308

00:12:20,810 --> 00:12:18,600

flew them over part of western Russia to

309

00:12:22,910 --> 00:12:20,820

look at sensitive sites and they nearly

310

00:12:25,370 --> 00:12:22,920

got shot down it was it was quite lucky

311

00:12:27,110 --> 00:12:25,380

actually the pilots didn't get downed

312

00:12:28,430 --> 00:12:27,120

um so this kind of thing happened and

313

00:12:30,530 --> 00:12:28,440

then of course there was some flights

314

00:12:32,030 --> 00:12:30,540

around the borders and some aircraft you

315

00:12:33,889 --> 00:12:32,040

know some NATO aircraft got shut down

316

00:12:35,509 --> 00:12:33,899

because the Russians didn't like uh

317

00:12:39,470 --> 00:12:35,519

planes being right on their border or

318

00:12:41,150 --> 00:12:39,480

just sort of little incursions so but

319

00:12:42,590 --> 00:12:41,160

you still couldn't get very far into

320

00:12:44,030 --> 00:12:42,600

Russia you certainly couldn't get Beyond

321

00:12:45,230 --> 00:12:44,040

Moscow you couldn't get into the Ural

322

00:12:47,930 --> 00:12:45,240

Mountains you couldn't get across to

323

00:12:49,850 --> 00:12:47,940

another city base and settler Russia

324

00:12:51,470 --> 00:12:49,860

and there's a lot you know nobody knew

325

00:12:53,269 --> 00:12:51,480

what was happening in those areas so

326

00:12:56,509 --> 00:12:53,279

they came up with an idea of using

327

00:12:57,949 --> 00:12:56,519

balloons and there were various programs

328

00:13:00,290 --> 00:12:57,959

that came up with now you've heard of

329

00:13:02,569 --> 00:13:00,300

Mogul because of that kind of Roswell

330

00:13:05,090 --> 00:13:02,579

that's high altitude experiments and

331

00:13:07,310 --> 00:13:05,100

there were some other ones which were

332

00:13:08,870 --> 00:13:07,320

effectively a high altitude balloon with

333

00:13:10,910 --> 00:13:08,880

an instrument package underneath it so

334

00:13:12,590 --> 00:13:10,920

cameras basically

335

00:13:13,730 --> 00:13:12,600

um and they were they came up with

336

00:13:15,230 --> 00:13:13,740

various names there was certain there

337

00:13:18,230 --> 00:13:15,240

was different types of project there was

338

00:13:20,090 --> 00:13:18,240

one that was called uh project ws119l

339

00:13:21,949 --> 00:13:20,100

which I think also went under the name

340

00:13:24,170 --> 00:13:21,959

of genetrix but there was also another

341

00:13:25,550 --> 00:13:24,180

one called Moby Dick and essentially

342

00:13:28,009 --> 00:13:25,560

what they did was they would launch

343

00:13:29,449 --> 00:13:28,019

balloons from either America or there

344

00:13:32,329 --> 00:13:29,459

was a place in Britain where they did it

345

00:13:34,970 --> 00:13:32,339

and Norway turkey and they would float

346

00:13:36,590 --> 00:13:34,980

using the the prevailing winds to that

347

00:13:38,150 --> 00:13:36,600

they would go to altitude and then it

348

00:13:39,650 --> 00:13:38,160

would fly over Russia and the idea was

349

00:13:41,030 --> 00:13:39,660

that it would Splash it would either be

350

00:13:42,650 --> 00:13:41,040

they would come down to the Pacific

351
00:13:45,110 --> 00:13:42,660
Ocean or possibly of the continental

352
00:13:46,790 --> 00:13:45,120
United States or they could have a

353
00:13:48,410 --> 00:13:46,800
Contraption fitted to the front of an

354
00:13:50,810 --> 00:13:48,420
airplane which would effectively the

355
00:13:52,310 --> 00:13:50,820
sort of um catch the cable with the

356
00:13:53,569 --> 00:13:52,320
instrument package and it would catch it

357
00:13:54,889 --> 00:13:53,579
in mid-air if you like it was like

358
00:13:56,629 --> 00:13:54,899
either of that or a big net or something

359
00:13:59,090 --> 00:13:56,639
that had some kind of specialized

360
00:14:01,129 --> 00:13:59,100
delivery system uh collection system so

361
00:14:02,990 --> 00:14:01,139
the idea was that the blue over the

362
00:14:04,310 --> 00:14:03,000
Soviet Union take pictures and they'd

363
00:14:06,230 --> 00:14:04,320

retrieve the film

364

00:14:07,970 --> 00:14:06,240

now these balloons didn't really work

365

00:14:09,170 --> 00:14:07,980

too well um but they did try it they

366

00:14:11,750 --> 00:14:09,180

tried over a number of years but

367

00:14:14,269 --> 00:14:11,760

ultimately it wasn't successful when spy

368

00:14:16,610 --> 00:14:14,279

Cyrus spouse satellites came along it

369

00:14:18,769 --> 00:14:16,620

was much easier the only thing with spy

370

00:14:20,569 --> 00:14:18,779

satellites are that you can you know

371

00:14:22,310 --> 00:14:20,579

when they're coming over because you can

372

00:14:23,750 --> 00:14:22,320

track their position and you can track

373

00:14:25,790 --> 00:14:23,760

the duration that they're going to be

374

00:14:28,910 --> 00:14:25,800

over a certain area so if you've got

375

00:14:31,009 --> 00:14:28,920

um a facility like say Area 51 for

376

00:14:33,050 --> 00:14:31,019

instance and you've got aircraft that

377

00:14:34,970 --> 00:14:33,060

are being tested there that you don't

378

00:14:36,829 --> 00:14:34,980

want the Russians to see then what you

379

00:14:38,870 --> 00:14:36,839

do is you know when the the satellites

380

00:14:40,250 --> 00:14:38,880

coming over you put it in a hangar and

381

00:14:41,990 --> 00:14:40,260

then when the satellite gets out of the

382

00:14:43,069 --> 00:14:42,000

range you pull the aircraft out again

383

00:14:45,350 --> 00:14:43,079

and start doing what you're going to do

384

00:14:46,790 --> 00:14:45,360

with it and that's the little game they

385

00:14:48,410 --> 00:14:46,800

used to play

386

00:14:50,329 --> 00:14:48,420

um with various sensitive facilities

387

00:14:52,730 --> 00:14:50,339

right throughout the rest of the Cold

388

00:14:56,329 --> 00:14:52,740

War when satellites were being used by

389

00:14:58,250 --> 00:14:56,339

all sides the thing is nowadays that

390

00:15:00,769 --> 00:14:58,260

talking about the fact that balloons

391

00:15:01,790 --> 00:15:00,779

seem to be coming back in terms of what

392

00:15:04,550 --> 00:15:01,800

they can do

393

00:15:07,250 --> 00:15:04,560

because Spike satellites are on fixed

394

00:15:09,769 --> 00:15:07,260

gestures you can't make them hover

395

00:15:12,949 --> 00:15:09,779

um they can be so they can sit in one

396

00:15:14,750 --> 00:15:12,959

place but spy site lights tend to move

397

00:15:16,790 --> 00:15:14,760

um because they get you know better

398

00:15:20,090 --> 00:15:16,800

coverage and all the rest of it so

399

00:15:22,189 --> 00:15:20,100

balloons do have their place in in kind

400

00:15:24,290 --> 00:15:22,199

of modern Espionage if you like because

401
00:15:26,870 --> 00:15:24,300
they can lighter longer so they can stay

402
00:15:29,689 --> 00:15:26,880
in in one relative position a bit longer

403
00:15:31,850 --> 00:15:29,699
and apparently they can even maneuver if

404
00:15:33,530 --> 00:15:31,860
you have little sort of packages

405
00:15:36,110 --> 00:15:33,540
underneath with with propellers and

406
00:15:37,910 --> 00:15:36,120
motors and stuff like that so there are

407
00:15:40,610 --> 00:15:37,920
ways to do it

408
00:15:42,829 --> 00:15:40,620
so there you go in a nutshell there's

409
00:15:44,569 --> 00:15:42,839
the whole idea of a lot of this is kind

410
00:15:46,490 --> 00:15:44,579
of reconnaissance and this has been

411
00:15:47,449 --> 00:15:46,500
happening for a long time it's never

412
00:15:50,090 --> 00:15:47,459
gone away

413
00:15:51,949 --> 00:15:50,100

right chances are that somewhere along

414

00:15:53,930 --> 00:15:51,959

the line balloons might have been used

415

00:15:56,030 --> 00:15:53,940

over a long period of time and we may

416

00:15:57,710 --> 00:15:56,040

just be finding out now or there's been

417

00:15:59,629 --> 00:15:57,720

some kind of resurgence in it and the

418

00:16:01,910 --> 00:15:59,639

you know the Chinese or the Russians are

419

00:16:03,889 --> 00:16:01,920

both have decided to let's say oh

420

00:16:05,210 --> 00:16:03,899

they're dust off this program and start

421

00:16:07,009 --> 00:16:05,220

using them

422

00:16:09,470 --> 00:16:07,019

um I was listening to a radio uh our

423

00:16:11,090 --> 00:16:09,480

radio news in the UK and the UK a couple

424

00:16:13,250 --> 00:16:11,100

of hours ago and they were talking about

425

00:16:15,650 --> 00:16:13,260

a Chinese facility and a Chinese

426

00:16:17,750 --> 00:16:15,660

scientist who a few years ago was

427

00:16:19,370 --> 00:16:17,760

promoting and actually experimenting

428

00:16:22,370 --> 00:16:19,380

with you know high altitude balloons for

429

00:16:24,769 --> 00:16:22,380

this kind of purpose so yeah it's come

430

00:16:27,350 --> 00:16:24,779

back and of course

431

00:16:29,090 --> 00:16:27,360

um the likes of Chris Mellon who was

432

00:16:31,670 --> 00:16:29,100

talking about you know we need to change

433

00:16:33,829 --> 00:16:31,680

the filters on um you know your tracking

434

00:16:35,569 --> 00:16:33,839

Services the NORAD for the missile

435

00:16:38,269 --> 00:16:35,579

tracking because it might be able to

436

00:16:40,310 --> 00:16:38,279

pick up AP if we change the parameters

437

00:16:42,710 --> 00:16:40,320

of the radar search well as soon as they

438

00:16:44,210 --> 00:16:42,720

do it and guess what they start finding

439

00:16:47,090 --> 00:16:44,220

lots of other things don't they yeah

440

00:16:49,490 --> 00:16:47,100

that that was quite uh amazing like

441

00:16:51,170 --> 00:16:49,500

whenever first kind of saw his tweet too

442

00:16:53,329 --> 00:16:51,180

like the the first thing I thought was

443

00:16:56,269 --> 00:16:53,339

this is ridiculous like how would they

444

00:17:00,230 --> 00:16:56,279

not have radar

445

00:17:02,329 --> 00:17:00,240

you know that could track balloons or or

446

00:17:04,630 --> 00:17:02,339

even drones for that matter you know

447

00:17:07,370 --> 00:17:04,640

that that could come over our country

448

00:17:09,770 --> 00:17:07,380

because of what could happen a potential

449

00:17:11,390 --> 00:17:09,780

disaster or you know that could happen

450

00:17:13,429 --> 00:17:11,400

with something like that and the thing I

451
00:17:16,010 --> 00:17:13,439
thought of was you know fugo balloons

452
00:17:17,510 --> 00:17:16,020
from World War II where they you know

453
00:17:19,610 --> 00:17:17,520
they tried they're basically bomb

454
00:17:21,289 --> 00:17:19,620
balloons that they that they shot over

455
00:17:22,250 --> 00:17:21,299
the ocean to come on over here and

456
00:17:24,650 --> 00:17:22,260
that's

457
00:17:27,230 --> 00:17:24,660
you know something like that

458
00:17:29,390 --> 00:17:27,240
which is a lot more sophisticated and

459
00:17:31,490 --> 00:17:29,400
Well Done could be very dangerous oh

460
00:17:33,230 --> 00:17:31,500
true yeah I mean and nowadays you know

461
00:17:35,150 --> 00:17:33,240
the idea of a fuga which is a basically

462
00:17:37,730 --> 00:17:35,160
a balloon with a bombs an incendiary

463
00:17:40,430 --> 00:17:37,740

bomb like underneath it was never going

464

00:17:42,289 --> 00:17:40,440

to be anything that would work nowadays

465

00:17:44,090 --> 00:17:42,299

back in the day the Japanese were using

466

00:17:45,890 --> 00:17:44,100

them because they want to set fire to

467

00:17:47,630 --> 00:17:45,900

the forests the Northwest Pacific that

468

00:17:49,130 --> 00:17:47,640

was the idea

469

00:17:50,750 --> 00:17:49,140

um and there was a few people killed on

470

00:17:52,430 --> 00:17:50,760

the ground who basically found the

471

00:17:53,870 --> 00:17:52,440

packages and and wanted to see what they

472

00:17:56,690 --> 00:17:53,880

were and they exploded in the face kind

473

00:17:58,610 --> 00:17:56,700

of thing and again killed them but um

474

00:18:00,890 --> 00:17:58,620

beyond that you know they're not that

475

00:18:02,750 --> 00:18:00,900

effective weapon but if you want to sort

476

00:18:04,490 --> 00:18:02,760

of you know scare people and if you're

477

00:18:06,590 --> 00:18:04,500

wanting to tie up an air defense of

478

00:18:07,970 --> 00:18:06,600

another country and you want to make

479

00:18:09,470 --> 00:18:07,980

them run around in circles trying to

480

00:18:11,690 --> 00:18:09,480

work out what the hell's going on this

481

00:18:13,850 --> 00:18:11,700

is an ideal way of doing it yeah yeah

482

00:18:15,350 --> 00:18:13,860

there's there's various schools of

483

00:18:16,970 --> 00:18:15,360

thought as to why this is particularly

484

00:18:18,110 --> 00:18:16,980

happening now

485

00:18:20,150 --> 00:18:18,120

um obviously we've got the war in

486

00:18:22,310 --> 00:18:20,160

Ukraine that's going on we have the the

487

00:18:25,070 --> 00:18:22,320

kind of you know the tensions of Taiwan

488

00:18:26,990 --> 00:18:25,080

so you can understand why a essential

489

00:18:28,970 --> 00:18:27,000

adversary of the United States would

490

00:18:31,669 --> 00:18:28,980

want to sort of throw things into the

491

00:18:32,990 --> 00:18:31,679

mix and saw some confusion and you know

492

00:18:34,909 --> 00:18:33,000

all the rest of it and just you know

493

00:18:35,810 --> 00:18:34,919

sort of ramp up the kind of the tension

494

00:18:37,789 --> 00:18:35,820

a bit

495

00:18:40,549 --> 00:18:37,799

um Without Really committing much in the

496

00:18:41,990 --> 00:18:40,559

way of forces you know it doesn't matter

497

00:18:44,150 --> 00:18:42,000

if a few of their balloons are shot down

498

00:18:45,830 --> 00:18:44,160

that you know your guys aren't going to

499

00:18:48,470 --> 00:18:45,840

go to war with China because they've

500

00:18:50,870 --> 00:18:48,480

sent some balloons over you yeah it

501
00:18:52,850 --> 00:18:50,880
doesn't work that way does it yeah no

502
00:18:54,650 --> 00:18:52,860
and that reminds me of like uh I was

503
00:18:57,049 --> 00:18:54,660
searching some of the old uh news

504
00:18:59,090 --> 00:18:57,059
archives I'm trying to find something

505
00:19:01,430 --> 00:18:59,100
kind of relatable and one thing I

506
00:19:03,529 --> 00:19:01,440
stumbled across and uh maybe I'll

507
00:19:06,230 --> 00:19:03,539
remember this maybe not but it seems

508
00:19:09,830 --> 00:19:06,240
like it was almost 20 years ago or so

509
00:19:12,409 --> 00:19:09,840
now uh we had a plane over

510
00:19:16,970 --> 00:19:12,419
um kind of by China and you know like we

511
00:19:19,669 --> 00:19:16,980
see now they sent uh a jet after it you

512
00:19:21,890 --> 00:19:19,679
know or yeah and they bumped and they

513
00:19:24,470 --> 00:19:21,900

crashed and that was seemed like it was

514

00:19:27,110 --> 00:19:24,480

a pretty huge international incident and

515

00:19:28,549 --> 00:19:27,120

yeah that didn't turn out the war so no

516

00:19:30,110 --> 00:19:28,559

but that's the thing with this because

517

00:19:31,909 --> 00:19:30,120

these are unmanned or presumably

518

00:19:33,830 --> 00:19:31,919

unmanned these you know these crafts so

519

00:19:35,630 --> 00:19:33,840

therefore there's no kind of risk

520

00:19:37,669 --> 00:19:35,640

involved in terms of you know humans

521

00:19:38,810 --> 00:19:37,679

being killed and that that that's the

522

00:19:40,430 --> 00:19:38,820

kind of thing when you put the human

523

00:19:41,690 --> 00:19:40,440

element into it that's what it Sparks

524

00:19:43,250 --> 00:19:41,700

off things

525

00:19:46,090 --> 00:19:43,260

um but let's you know you were talking

526

00:19:48,830 --> 00:19:46,100

before about radar and cases where

527

00:19:51,650 --> 00:19:48,840

you just go yeah go back to the 50s

528

00:19:53,690 --> 00:19:51,660

again uh or the late 40s and see the

529

00:19:55,549 --> 00:19:53,700

amount of the cases that appeared in

530

00:19:57,529 --> 00:19:55,559

Project sign project Grudge and Project

531

00:20:00,669 --> 00:19:57,539

Blue Book that were written off as

532

00:20:03,350 --> 00:20:00,679

balloons right even though on the ground

533

00:20:05,090 --> 00:20:03,360

the they couldn't find balloon launches

534

00:20:06,950 --> 00:20:05,100

that match the profile and sometimes the

535

00:20:08,690 --> 00:20:06,960

colors of the balloons meant that they

536

00:20:11,690 --> 00:20:08,700

were they were black and there were they

537

00:20:13,549 --> 00:20:11,700

wouldn't been seen and so ignite let's

538

00:20:15,289 --> 00:20:13,559

say when Pilots were reporting seeing

539

00:20:17,270 --> 00:20:15,299

strange things and then of course as we

540

00:20:20,029 --> 00:20:17,280

mentioned before as well radar cases

541

00:20:22,669 --> 00:20:20,039

that were written off as anomalies where

542

00:20:24,169 --> 00:20:22,679

it offers ground clearly written off as

543

00:20:26,330 --> 00:20:24,179

um you know Pro um problems with the

544

00:20:30,950 --> 00:20:26,340

actual Machinery with the radar sense

545

00:20:33,529 --> 00:20:30,960

but was that the case yeah I'm always

546

00:20:35,750 --> 00:20:33,539

wondering if it was especially when you

547

00:20:38,029 --> 00:20:35,760

get into some of these uh old blue book

548

00:20:40,870 --> 00:20:38,039

reports or where they show a you know

549

00:20:44,950 --> 00:20:40,880

radar anomalies anomalous propagation

550

00:20:47,630 --> 00:20:44,960

and they talked to the radar operators

551
00:20:49,430 --> 00:20:47,640
yeah and they're certain they say I know

552
00:20:52,190 --> 00:20:49,440
what anomalous propagation looks like

553
00:20:53,990 --> 00:20:52,200
you know I I've seen all the different

554
00:20:56,330 --> 00:20:54,000
things I can see and this is different

555
00:20:59,750 --> 00:20:56,340
I've never seen anything like this

556
00:21:03,169 --> 00:20:59,760
before but you know on the other hand

557
00:21:06,710 --> 00:21:03,179
what are you supposed to do if you you

558
00:21:08,270 --> 00:21:06,720
know Vector Jets you know to where the

559
00:21:10,789 --> 00:21:08,280
radar targets are and there's nothing

560
00:21:12,169 --> 00:21:10,799
there like what what are you supposed to

561
00:21:13,669 --> 00:21:12,179
do and something's moving at seven

562
00:21:17,150 --> 00:21:13,679
thousand miles per hour that shouldn't

563
00:21:19,250 --> 00:21:17,160

be possible like you know it's uh it's

564

00:21:20,810 --> 00:21:19,260

crazy but but I totally thought of that

565

00:21:22,970 --> 00:21:20,820

in regards to the Montana incident

566

00:21:25,310 --> 00:21:22,980

because it made me think like

567

00:21:26,750 --> 00:21:25,320

how many times has this sort of thing

568

00:21:28,610 --> 00:21:26,760

happened before you know and that's

569

00:21:30,890 --> 00:21:28,620

actually that's actually the the most

570

00:21:33,770 --> 00:21:30,900

interesting object of all of them so far

571

00:21:36,049 --> 00:21:33,780

to me is because

572

00:21:38,029 --> 00:21:36,059

they got hit with a radar track over

573

00:21:40,130 --> 00:21:38,039

like Mouse from sensitive airspace right

574

00:21:43,250 --> 00:21:40,140

how many UFO things have we seen at that

575

00:21:44,870 --> 00:21:43,260

base so many that's right and they they

576

00:21:46,610 --> 00:21:44,880

couldn't find it they lost the track so

577

00:21:49,909 --> 00:21:46,620

they called it a radar anomaly they went

578

00:21:51,590 --> 00:21:49,919

public with this too for whatever reason

579

00:21:54,230 --> 00:21:51,600

um and then it winds up over in Michigan

580

00:21:55,970 --> 00:21:54,240

so that and what they're saying is at

581

00:21:58,850 --> 00:21:55,980

least in this last press conference and

582

00:22:00,890 --> 00:21:58,860

that it seems like these objects are

583

00:22:02,510 --> 00:22:00,900

moving with the prevailing winds you

584

00:22:05,090 --> 00:22:02,520

know they're just going along with the

585

00:22:07,909 --> 00:22:05,100

winds so the the thing I'm thinking is

586

00:22:10,190 --> 00:22:07,919

like first of all like how does this

587

00:22:11,990 --> 00:22:10,200

thing stay in the air how does it how do

588

00:22:14,630 --> 00:22:12,000

you lose radar and something that would

589

00:22:16,909 --> 00:22:14,640

be you know going that slow over a super

590

00:22:19,010 --> 00:22:16,919

sensitive site and then how does it end

591

00:22:20,990 --> 00:22:19,020

up the next day all the way over in

592

00:22:23,990 --> 00:22:21,000

Michigan it's still a relatively high

593

00:22:25,370 --> 00:22:24,000

altitude you know like what is powering

594

00:22:27,110 --> 00:22:25,380

this thing and how does it do something

595

00:22:29,450 --> 00:22:27,120

like that and then it's an octagon

596

00:22:32,870 --> 00:22:29,460

apparently with strings falling from it

597

00:22:34,250 --> 00:22:32,880

but that's you know and this is I'm

598

00:22:36,350 --> 00:22:34,260

getting off track but this is one of the

599

00:22:38,149 --> 00:22:36,360

most frustrating Parts about this stuff

600

00:22:39,890 --> 00:22:38,159

too is there's so many

601
00:22:42,169 --> 00:22:39,900
how did some of these people have

602
00:22:44,810 --> 00:22:42,179
sources where they're getting you know

603
00:22:48,169 --> 00:22:44,820
descriptions of the objects like minutes

604
00:22:50,450 --> 00:22:48,179
after that after it happens you know and

605
00:22:52,570 --> 00:22:50,460
there's always unknown sources like uh

606
00:22:55,970 --> 00:22:52,580
cylindrical over in Alaska or whatever

607
00:22:59,029 --> 00:22:55,980
or the Yukon and then octagon with

608
00:23:01,789 --> 00:22:59,039
strings Comet from it over here Jeremy

609
00:23:03,770 --> 00:23:01,799
corbell's Dr majelli fish UFOs we're

610
00:23:04,850 --> 00:23:03,780
shooting them down what the hell is

611
00:23:07,310 --> 00:23:04,860
going on

612
00:23:10,010 --> 00:23:07,320
it seems a lot of different kind of

613
00:23:11,330 --> 00:23:10,020

platforms at play maybe you know if if

614

00:23:12,649 --> 00:23:11,340

it is like China they're sending them

615

00:23:14,510 --> 00:23:12,659

across maybe they're experimenting with

616

00:23:16,130 --> 00:23:14,520

a lot of different platforms

617

00:23:17,690 --> 00:23:16,140

um in terms of I mean just going quickly

618

00:23:19,070 --> 00:23:17,700

back to the the balloon experiments from

619

00:23:20,510 --> 00:23:19,080

the 50s that were sending over Russia

620

00:23:22,370 --> 00:23:20,520

the Russians could actually shoot some

621

00:23:24,950 --> 00:23:22,380

of them down in the evening because in

622

00:23:26,810 --> 00:23:24,960

in the balloons would actually sink

623

00:23:28,789 --> 00:23:26,820

um when it got um you're sort of it was

624

00:23:30,710 --> 00:23:28,799

getting dark because of the way that the

625

00:23:32,810 --> 00:23:30,720

the air currents and the pressure inside

626

00:23:34,730 --> 00:23:32,820

the bloom works I'm not entirely sure

627

00:23:36,830 --> 00:23:34,740

exactly how it works but I'm not a

628

00:23:39,590 --> 00:23:36,840

meteorologist but the balloons would

629

00:23:41,210 --> 00:23:39,600

sink as a as towards the end of the day

630

00:23:43,669 --> 00:23:41,220

and then the morning they would climb up

631

00:23:45,529 --> 00:23:43,679

again it's just the way it worked so you

632

00:23:47,630 --> 00:23:45,539

can understand why things might go down

633

00:23:49,010 --> 00:23:47,640

up and down through the altitudes and of

634

00:23:50,630 --> 00:23:49,020

course they may have a semblance of

635

00:23:52,549 --> 00:23:50,640

control obviously you're saying they're

636

00:23:54,529 --> 00:23:52,559

going you know they're being used in the

637

00:23:56,930 --> 00:23:54,539

prevailing winds but they might have

638

00:23:59,930 --> 00:23:56,940

enough kind of control that they've got

639

00:24:02,690 --> 00:23:59,940

a little bit of movement within that

640

00:24:04,070 --> 00:24:02,700

um you know because if you if you strap

641

00:24:05,049 --> 00:24:04,080

on a little kind of I don't know a

642

00:24:07,909 --> 00:24:05,059

little Electric

643

00:24:09,950 --> 00:24:07,919

with a few propellers you can probably

644

00:24:11,750 --> 00:24:09,960

steer one of these things to a certain

645

00:24:13,310 --> 00:24:11,760

degree you won't be able to change its

646

00:24:15,470 --> 00:24:13,320

overall direction but you might be able

647

00:24:17,870 --> 00:24:15,480

to move it out you know out of out of

648

00:24:19,909 --> 00:24:17,880

its direction by a few degrees either

649

00:24:22,070 --> 00:24:19,919

way and that might be enough just to get

650

00:24:23,930 --> 00:24:22,080

it over exactly where you want it

651
00:24:26,029 --> 00:24:23,940
um because I presume if it is something

652
00:24:28,070 --> 00:24:26,039
that it's you know the Chinese Ascent

653
00:24:30,950 --> 00:24:28,080
that it's sending information back to

654
00:24:32,450 --> 00:24:30,960
them via whichever means so there's a

655
00:24:34,010 --> 00:24:32,460
whole lot of stuff going on there but

656
00:24:37,010 --> 00:24:34,020
you're right you know if there's

657
00:24:38,630 --> 00:24:37,020
different packages then that just adds

658
00:24:41,270 --> 00:24:38,640
confusion everything else as well

659
00:24:42,890 --> 00:24:41,280
because yes okay the first one was a spy

660
00:24:44,810 --> 00:24:42,900
balloon and it had that array underneath

661
00:24:47,870 --> 00:24:44,820
it which was clearly some kind of sensor

662
00:24:50,570 --> 00:24:47,880
or multiple sensors and maybe

663
00:24:52,510 --> 00:24:50,580

Communications as well but these other

664

00:24:56,149 --> 00:24:52,520

things don't seem to have that kind of

665

00:24:57,409 --> 00:24:56,159

underslung instrument package so what

666

00:25:00,470 --> 00:24:57,419

are they

667

00:25:06,409 --> 00:25:00,480

kind of

668

00:25:08,390 --> 00:25:06,419

stat that's a fancy it covers balloons

669

00:25:10,070 --> 00:25:08,400

airships and a lot of other things right

670

00:25:13,250 --> 00:25:10,080

are they testing some kind of platform

671

00:25:16,070 --> 00:25:13,260

that has some other kind of capabilities

672

00:25:18,049 --> 00:25:16,080

um you know just to see how that how the

673

00:25:20,630 --> 00:25:18,059

Air Force react against them or is it

674

00:25:21,890 --> 00:25:20,640

something else entirely we're not which

675

00:25:22,850 --> 00:25:21,900

simply don't know at the moment Sean

676

00:25:25,010 --> 00:25:22,860

because we just don't have an

677

00:25:27,370 --> 00:25:25,020

information and they're not saying yeah

678

00:25:30,470 --> 00:25:27,380

yeah and apparently

679

00:25:33,590 --> 00:25:30,480

there's no there's been no

680

00:25:35,810 --> 00:25:33,600

uh tracks today of anything but um you

681

00:25:38,149 --> 00:25:35,820

know it would just be so

682

00:25:40,850 --> 00:25:38,159

incredibly hard to

683

00:25:43,070 --> 00:25:40,860

uh believe that once they open up those

684

00:25:46,789 --> 00:25:43,080

Radars you know for slower moving

685

00:25:49,370 --> 00:25:46,799

objects uh at particular altitudes in

686

00:25:50,090 --> 00:25:49,380

certain size objects smaller objects

687

00:25:51,529 --> 00:25:50,100

um

688

00:25:53,810 --> 00:25:51,539

you know it would be very hard to

689

00:25:56,029 --> 00:25:53,820

believe that this would be

690

00:25:58,310 --> 00:25:56,039

you know it could go a couple ways

691

00:26:02,090 --> 00:25:58,320

really either they're all over the place

692

00:26:04,010 --> 00:26:02,100

and we're just now finding out or it's

693

00:26:06,769 --> 00:26:04,020

uh instigated because of recent tensions

694

00:26:09,289 --> 00:26:06,779

with with China it's one question yeah

695

00:26:11,450 --> 00:26:09,299

the other question is how long has it

696

00:26:13,909 --> 00:26:11,460

been going on for right you know was

697

00:26:15,409 --> 00:26:13,919

that first Chinese Bible in the the was

698

00:26:17,870 --> 00:26:15,419

actually the first one or have there

699

00:26:19,130 --> 00:26:17,880

been other ones yeah you know women were

700

00:26:20,690 --> 00:26:19,140

talking before about the fact it was

701
00:26:22,070 --> 00:26:20,700
just chance it was seen and photographed

702
00:26:23,450 --> 00:26:22,080
and all the rest of it you know had

703
00:26:26,870 --> 00:26:23,460
there been other ones

704
00:26:30,010 --> 00:26:26,880
other parts of the world as well so yeah

705
00:26:33,710 --> 00:26:30,020
it's it's a yeah

706
00:26:35,690 --> 00:26:33,720
it's kind of like psychological warfare

707
00:26:39,110 --> 00:26:35,700
kind of thing we're trying to send oh no

708
00:26:40,970 --> 00:26:39,120
we've got 10 10 U.S balloons over our

709
00:26:43,190 --> 00:26:40,980
airspace in the in the past couple years

710
00:26:45,470 --> 00:26:43,200
or whatever they said and and we're

711
00:26:47,930 --> 00:26:45,480
gonna shoot one down now they the other

712
00:26:49,370 --> 00:26:47,940
day they said that or you know but then

713
00:26:52,610 --> 00:26:49,380

you asked John Kirby at the press

714

00:26:54,769 --> 00:26:52,620

conference and he said no yeah but the

715

00:26:55,970 --> 00:26:54,779

interesting part about it is and the

716

00:26:59,510 --> 00:26:55,980

reporter did a good job with this

717

00:27:02,570 --> 00:26:59,520

question because uh you know Kirby said

718

00:27:04,730 --> 00:27:02,580

not over China airspace right Chinese

719

00:27:07,970 --> 00:27:04,740

airspace And the reporter was like yes

720

00:27:10,549 --> 00:27:07,980

but you know basically I you know I'm

721

00:27:12,830 --> 00:27:10,559

just um

722

00:27:14,810 --> 00:27:12,840

um well basically he just said

723

00:27:18,350 --> 00:27:14,820

um China has a different idea of what

724

00:27:20,750 --> 00:27:18,360

their airspace is you know so as have

725

00:27:23,510 --> 00:27:20,760

your balloons or anything been in what

726

00:27:26,090 --> 00:27:23,520

they consider their airspace and John

727

00:27:39,130 --> 00:27:26,100

Kirby just replied we have not ever sent

728

00:27:43,610 --> 00:27:41,870

the P3 Orion that got bumped by the

729

00:27:46,850 --> 00:27:43,620

Chinese fighter

730

00:27:49,370 --> 00:27:46,860

um you know they cut they you're US Navy

731

00:27:51,649 --> 00:27:49,380

and and the Air Force do send aircraft

732

00:27:54,289 --> 00:27:51,659

to the borders of what you consider

733

00:27:55,610 --> 00:27:54,299

still to be Chinese airspace uh I know

734

00:27:57,230 --> 00:27:55,620

that they have a different idea about

735

00:27:59,149 --> 00:27:57,240

what what their kind of territorial

736

00:28:01,549 --> 00:27:59,159

limits are but

737

00:28:03,769 --> 00:28:01,559

it does happen and and obviously the

738

00:28:06,049 --> 00:28:03,779

Royal Navy sent ships through the area

739

00:28:07,669 --> 00:28:06,059

um a year or two ago uh to actually um

740

00:28:10,130 --> 00:28:07,679

enforce the law of the sea kind of thing

741

00:28:12,169 --> 00:28:10,140

so it's not as if we need a balloon to

742

00:28:14,330 --> 00:28:12,179

do that you know or you need a balloon

743

00:28:15,830 --> 00:28:14,340

to do that so they're quite capable of

744

00:28:17,149 --> 00:28:15,840

sending aircraft so we're just wondering

745

00:28:19,669 --> 00:28:17,159

what the kind of gain is for the

746

00:28:21,710 --> 00:28:19,679

Americans to send a balloon over China

747

00:28:22,909 --> 00:28:21,720

um you know but notwithstanding the

748

00:28:24,470 --> 00:28:22,919

conversation we just had before about

749

00:28:26,570 --> 00:28:24,480

the fact that they can lighter a bit

750

00:28:27,730 --> 00:28:26,580

more than Spicer lights can but it just

751

00:28:30,110 --> 00:28:27,740

seems like

752

00:28:32,029 --> 00:28:30,120

you know it's a bit of a propaganda

753

00:28:34,370 --> 00:28:32,039

queue if the Chinese would say oh that

754

00:28:36,169 --> 00:28:34,380

we'll shut down this American Balloon

755

00:28:37,490 --> 00:28:36,179

um but there's a question is why haven't

756

00:28:39,590 --> 00:28:37,500

they done it already if they had 10

757

00:28:41,630 --> 00:28:39,600

because I don't think I don't think the

758

00:28:43,250 --> 00:28:41,640

Chinese would be as reluct as a kind of

759

00:28:45,230 --> 00:28:43,260

reluctant to shoot them down over land

760

00:28:47,990 --> 00:28:45,240

as the Americans were in case the

761

00:28:50,510 --> 00:28:48,000

civilian casualties all around

762

00:28:52,250 --> 00:28:50,520

um now the next question is though how

763

00:28:55,190 --> 00:28:52,260

many people live in Montana and what's

764

00:28:58,370 --> 00:28:55,200

the population density is it like one

765

00:29:00,590 --> 00:28:58,380

every twenty I don't know it's a lot

766

00:29:03,890 --> 00:29:00,600

yeah very small isn't it

767

00:29:05,210 --> 00:29:03,900

um okay but you get my point though the

768

00:29:07,430 --> 00:29:05,220

Chinese wouldn't be as squeamish would

769

00:29:08,690 --> 00:29:07,440

they so they would shut down and you

770

00:29:12,470 --> 00:29:08,700

know and deal with the consequences

771

00:29:15,409 --> 00:29:12,480

later on so I wonder why if they have

772

00:29:16,970 --> 00:29:15,419

had 10 and it's a big if if they had 10

773

00:29:18,830 --> 00:29:16,980

beforehand why they haven't tried to

774

00:29:20,930 --> 00:29:18,840

shoot one down is it because they can't

775

00:29:23,149 --> 00:29:20,940

I'd do they have aircraft that can fly

776

00:29:25,310 --> 00:29:23,159

that high and send a missile up

777

00:29:27,289 --> 00:29:25,320

um or is it just um the fact that

778

00:29:29,990 --> 00:29:27,299

they're just putting that out there to

779

00:29:32,029 --> 00:29:30,000

try and kind of sow confusion again and

780

00:29:34,310 --> 00:29:32,039

say look well we've had them as well and

781

00:29:36,190 --> 00:29:34,320

it muddies the waters as to where those

782

00:29:38,630 --> 00:29:36,200

latest three are actually theirs or not

783

00:29:40,370 --> 00:29:38,640

yeah yeah and that'll be very

784

00:29:42,649 --> 00:29:40,380

interesting to find out more about those

785

00:29:45,649 --> 00:29:42,659

objects hopefully we can I mean because

786

00:29:48,409 --> 00:29:45,659

the longer it does go on I think uh the

787

00:29:50,450 --> 00:29:48,419

the more fantastic stories that you know

788

00:29:52,430 --> 00:29:50,460

become and I'm I'm also very surprised

789

00:29:54,830 --> 00:29:52,440

how public everything has been and I

790

00:29:56,750 --> 00:29:54,840

think that goes back to

791

00:29:58,730 --> 00:29:56,760

um what you said about that the civilian

792

00:30:00,590 --> 00:29:58,740

Montana guy who started it off by taking

793

00:30:02,330 --> 00:30:00,600

a picture of the balloon and now it's

794

00:30:04,669 --> 00:30:02,340

like they almost have to be public with

795

00:30:06,049 --> 00:30:04,679

this stuff I guess but you know back in

796

00:30:08,330 --> 00:30:06,059

the day the Blue Book days or whatever

797

00:30:10,250 --> 00:30:08,340

none of that stuff was public unless it

798

00:30:12,110 --> 00:30:10,260

leaked to the Press already and then

799

00:30:13,669 --> 00:30:12,120

they would actually investigate the case

800

00:30:16,250 --> 00:30:13,679

but

801
00:30:17,690 --> 00:30:16,260
um you know so I think I think today I

802
00:30:19,789 --> 00:30:17,700
think I think today with social media

803
00:30:21,769 --> 00:30:19,799
it's much easier if something did just

804
00:30:23,630 --> 00:30:21,779
drift across the country and it wasn't

805
00:30:25,669 --> 00:30:23,640
going to disappear like overnight or

806
00:30:27,830 --> 00:30:25,679
disappear within the wink of an eye then

807
00:30:30,830 --> 00:30:27,840
what people are going to see it track it

808
00:30:33,230 --> 00:30:30,840
over days and that's what happened in

809
00:30:36,350 --> 00:30:33,240
the first instance people say like why

810
00:30:39,289 --> 00:30:36,360
doesn't this happen with uh you know uh

811
00:30:42,110 --> 00:30:39,299
a phenomenon that that is you know

812
00:30:45,529 --> 00:30:42,120
non-human like if if we can do that with

813
00:30:47,090 --> 00:30:45,539

a balloon or or whatever like uh we

814

00:30:48,590 --> 00:30:47,100

don't have pictures of that why isn't

815

00:30:50,210 --> 00:30:48,600

you know the government coming forth

816

00:30:51,649 --> 00:30:50,220

with that if it exists you know the

817

00:30:53,930 --> 00:30:51,659

thing is you see we don't know what

818

00:30:56,990 --> 00:30:53,940

exists in terms of like photography

819

00:30:58,970 --> 00:30:57,000

layer of images of previous events we

820

00:31:00,529 --> 00:30:58,980

have no idea we go on the Blue Book

821

00:31:02,149 --> 00:31:00,539

records and we go on

822

00:31:04,250 --> 00:31:02,159

um you know the the projects before that

823

00:31:05,870 --> 00:31:04,260

and there's rumors of pictures being

824

00:31:07,850 --> 00:31:05,880

taken but we've never seen them for

825

00:31:09,230 --> 00:31:07,860

certain events

826

00:31:11,330 --> 00:31:09,240

um there are there's information from

827

00:31:12,830 --> 00:31:11,340

files which has been redacted you know

828

00:31:13,970 --> 00:31:12,840

we know there are files which are

829

00:31:16,070 --> 00:31:13,980

missing

830

00:31:18,889 --> 00:31:16,080

um which have information about reports

831

00:31:20,450 --> 00:31:18,899

you and I both know that so there there

832

00:31:22,490 --> 00:31:20,460

is information out there that still

833

00:31:25,370 --> 00:31:22,500

hasn't been divulged and we still don't

834

00:31:26,870 --> 00:31:25,380

have things like the 23 sort of you know

835

00:31:29,029 --> 00:31:26,880

minute video or all this kind of stuff

836

00:31:30,769 --> 00:31:29,039

do we so there's a whole lot of

837

00:31:34,010 --> 00:31:30,779

information out there which still hasn't

838

00:31:35,750 --> 00:31:34,020

come into the public realm and until it

839

00:31:37,549 --> 00:31:35,760

does then we're still guessing about a

840

00:31:39,769 --> 00:31:37,559

lot of this but the things we don't know

841

00:31:41,570 --> 00:31:39,779

are that you know for a while

842

00:31:43,430 --> 00:31:41,580

um like Lou Alexander who's been saying

843

00:31:45,230 --> 00:31:43,440

that the government dropped the ball on

844

00:31:47,149 --> 00:31:45,240

on basically you're sort of taking this

845

00:31:49,250 --> 00:31:47,159

kind of thing seriously and then when

846

00:31:51,289 --> 00:31:49,260

they did they start finding things and

847

00:31:52,789 --> 00:31:51,299

then it's only taken you know recently

848

00:31:55,010 --> 00:31:52,799

for them to actually take the gloves off

849

00:31:56,570 --> 00:31:55,020

the radar and then finding a whole load

850

00:31:59,029 --> 00:31:56,580

of other things so this is what we both

851

00:32:01,850 --> 00:31:59,039

Lou and also Chris Mellon have been

852

00:32:04,130 --> 00:32:01,860

advocating for for a few years now

853

00:32:05,330 --> 00:32:04,140

um yeah so would you would you know I

854

00:32:07,310 --> 00:32:05,340

don't know how you feel I like it

855

00:32:09,250 --> 00:32:07,320

probably guess how you feel but

856

00:32:11,990 --> 00:32:09,260

um all this stuff is is

857

00:32:14,149 --> 00:32:12,000

to me even though like what I want to

858

00:32:15,769 --> 00:32:14,159

learn about is is the tough stuff right

859

00:32:17,330 --> 00:32:15,779

the actual

860

00:32:18,950 --> 00:32:17,340

um odd Phenomenon with weird

861

00:32:22,549 --> 00:32:18,960

characteristics and all that kind of

862

00:32:26,450 --> 00:32:22,559

stuff but um you know it's still

863

00:32:29,450 --> 00:32:26,460

this is definitely Vindication for you

864

00:32:32,570 --> 00:32:29,460

know Lou Chris melon of course the other

865

00:32:35,029 --> 00:32:32,580

in company who you know went forward to

866

00:32:36,830 --> 00:32:35,039

get this in Congress because uh in the

867

00:32:39,049 --> 00:32:36,840

end and so many people were saying this

868

00:32:41,029 --> 00:32:39,059

the whole freaking time even though

869

00:32:43,789 --> 00:32:41,039

debunkers wouldn't pay attention to it

870

00:32:45,649 --> 00:32:43,799

is whether it's Chinese drones whether

871

00:32:47,870 --> 00:32:45,659

it's

872

00:32:49,789 --> 00:32:47,880

um you know alien spaceships whatever it

873

00:32:52,190 --> 00:32:49,799

is we got to find out what it is and

874

00:32:56,330 --> 00:32:52,200

protect our country basically you know

875

00:32:59,389 --> 00:32:56,340

so this is a win-win whatever we find

876

00:33:01,190 --> 00:32:59,399

and here we are we find this stuff and

877

00:33:04,549 --> 00:33:01,200

it wouldn't have been found without

878

00:33:06,649 --> 00:33:04,559

without that Focus I I highly doubt we

879

00:33:09,649 --> 00:33:06,659

would be here without that focus on this

880

00:33:11,389 --> 00:33:09,659

sort of thing so you know uh that along

881

00:33:13,909 --> 00:33:11,399

with you know Lou elizondo's interview

882

00:33:17,210 --> 00:33:13,919

with the IG coming out clearly stating

883

00:33:19,730 --> 00:33:17,220

that atip existed and he let it

884

00:33:21,409 --> 00:33:19,740

um I think this is kind of a a big

885

00:33:24,649 --> 00:33:21,419

moment

886

00:33:25,970 --> 00:33:24,659

um for his kind of The Saga within this

887

00:33:27,769 --> 00:33:25,980

realm was it with so many people

888

00:33:32,149 --> 00:33:27,779

doubting it how do you feel

889

00:33:33,769 --> 00:33:32,159

I I agree totally I think it's it

890

00:33:35,090 --> 00:33:33,779

it's weird because a lot of people have

891

00:33:37,250 --> 00:33:35,100

been trying to

892

00:33:38,810 --> 00:33:37,260

um you know sort of suggest that Lou if

893

00:33:40,310 --> 00:33:38,820

the Charlton and Clinton's not

894

00:33:41,990 --> 00:33:40,320

everything you know to say has been a

895

00:33:44,330 --> 00:33:42,000

Vindication of what he what he said and

896

00:33:46,909 --> 00:33:44,340

what he stood for and what he did and it

897

00:33:48,710 --> 00:33:46,919

it's it's very strange that even they've

898

00:33:50,149 --> 00:33:48,720

been very quiet recently or maybe just

899

00:33:53,870 --> 00:33:50,159

the fact that I'm mute them I don't know

900

00:33:55,909 --> 00:33:53,880

yeah I'm black one or two at least so

901
00:33:57,409 --> 00:33:55,919
yeah just give me a second Sean I'm just

902
00:33:59,630 --> 00:33:57,419
going to turn my uh I'm just going to

903
00:34:01,190 --> 00:33:59,640
tell my plug on because my battery on my

904
00:34:04,549 --> 00:34:01,200
laptop's just going a bit low at the

905
00:34:07,970 --> 00:34:04,559
second time oh yeah that's that's okay

906
00:34:10,369 --> 00:34:07,980
um so while he's doing that

907
00:34:13,070 --> 00:34:10,379
I can just tell you that even though

908
00:34:15,530 --> 00:34:13,080
that a lot these objects most likely are

909
00:34:17,210 --> 00:34:15,540
uh prosaic right

910
00:34:20,349 --> 00:34:17,220
um it's still

911
00:34:23,629 --> 00:34:20,359
I can't help but be excited right

912
00:34:25,909 --> 00:34:23,639
so again I'll be excited because I feel

913
00:34:28,310 --> 00:34:25,919

like the more they do this the more they

914

00:34:31,609 --> 00:34:28,320

look at this stuff the more likely it is

915

00:34:34,010 --> 00:34:31,619

for them to to get a grasp on you know

916

00:34:35,869 --> 00:34:34,020

this phenomenon that John Kirby

917

00:34:37,909 --> 00:34:35,879

discussed at the press conference that

918

00:34:39,530 --> 00:34:37,919

is very real and global

919

00:34:41,030 --> 00:34:39,540

and it's amazing now that they're

920

00:34:43,849 --> 00:34:41,040

actually coming out and saying you know

921

00:34:45,470 --> 00:34:43,859

the phenomenon like UAP are real yes

922

00:34:48,649 --> 00:34:45,480

okay they might turn out still to be

923

00:34:50,329 --> 00:34:48,659

Chinese five balloons but we need that

924

00:34:52,609 --> 00:34:50,339

kind of you know sort of realization

925

00:34:54,530 --> 00:34:52,619

that maybe not everything is but you

926
00:34:57,349 --> 00:34:54,540
still have to check and that's what

927
00:34:59,510 --> 00:34:57,359
we've all been pushing for recently it's

928
00:35:00,829 --> 00:34:59,520
I personally I don't think these are

929
00:35:02,329 --> 00:35:00,839
some kind of non-human intelligence

930
00:35:04,070 --> 00:35:02,339
these things have been shot down over

931
00:35:07,130 --> 00:35:04,080
the states I might be wrong about that

932
00:35:09,589 --> 00:35:07,140
but I don't think I am however we still

933
00:35:11,270 --> 00:35:09,599
need to you know be chasing after these

934
00:35:13,910 --> 00:35:11,280
things and also everything else that

935
00:35:15,710 --> 00:35:13,920
comes up as well because otherwise you

936
00:35:17,390 --> 00:35:15,720
might as well not bother having the the

937
00:35:19,370 --> 00:35:17,400
investigation program if you're just

938
00:35:20,930 --> 00:35:19,380

going to sit and talk and say oh well

939

00:35:22,730 --> 00:35:20,940

they're nothing to worry about because

940

00:35:24,230 --> 00:35:22,740

we've been through all that before we

941

00:35:25,970 --> 00:35:24,240

went through all that with blue book

942

00:35:27,050 --> 00:35:25,980

Sign Language yeah at the end of the day

943

00:35:28,849 --> 00:35:27,060

they just went oh there's nothing to

944

00:35:31,670 --> 00:35:28,859

worry about don't bother and in the UK

945

00:35:34,250 --> 00:35:31,680

they even shot shut down the UFO desk

946

00:35:35,690 --> 00:35:34,260

because that it was a case of well we've

947

00:35:37,130 --> 00:35:35,700

got better things to spend the money on

948

00:35:38,690 --> 00:35:37,140

and we're not we're not coming up with

949

00:35:40,910 --> 00:35:38,700

anything but really were you

950

00:35:42,710 --> 00:35:40,920

investigating it effectively enough to

951
00:35:44,210 --> 00:35:42,720
actually find things or were you just

952
00:35:46,130 --> 00:35:44,220
coming along with a kind of dismissive

953
00:35:47,510 --> 00:35:46,140
attitude anyway and therefore you would

954
00:35:50,150 --> 00:35:47,520
you would get what you were looking for

955
00:35:52,190 --> 00:35:50,160
nothing yeah yeah and I'll say that's

956
00:35:53,810 --> 00:35:52,200
what the the Blue Book effectively um

957
00:35:55,609 --> 00:35:53,820
sort of came up with because you had a

958
00:35:57,109 --> 00:35:55,619
recommendations that it should be shut

959
00:35:58,970 --> 00:35:57,119
down because they weren't finding

960
00:36:00,650 --> 00:35:58,980
anything but actually they weren't

961
00:36:02,089 --> 00:36:00,660
really looking you know they were just

962
00:36:04,370 --> 00:36:02,099
pressing everything as a weather balloon

963
00:36:07,130 --> 00:36:04,380

or Venus yeah and they were finding

964

00:36:09,470 --> 00:36:07,140

stuff they it it's either they were just

965

00:36:11,390 --> 00:36:09,480

completely negligent didn't care either

966

00:36:13,310 --> 00:36:11,400

it went somewhere else and they actually

967

00:36:15,109 --> 00:36:13,320

worked on it or

968

00:36:17,270 --> 00:36:15,119

you know or they were that stupid which

969

00:36:19,430 --> 00:36:17,280

I don't think they were but you know you

970

00:36:22,970 --> 00:36:19,440

know like me there is so many instances

971

00:36:25,370 --> 00:36:22,980

where there's radar tracks and visual

972

00:36:28,130 --> 00:36:25,380

um corroborating the the movement of the

973

00:36:29,630 --> 00:36:28,140

object and at the end of the day

974

00:36:31,790 --> 00:36:29,640

um they would call it the the guys

975

00:36:34,910 --> 00:36:31,800

looking at Venus and we have anomalous

976
00:36:37,670 --> 00:36:34,920
propagation here they would separate the

977
00:36:40,010 --> 00:36:37,680
two parts of the case and then try and

978
00:36:41,930 --> 00:36:40,020
basically debunk them in isolation so as

979
00:36:44,270 --> 00:36:41,940
you say they would then say oh well if

980
00:36:47,050 --> 00:36:44,280
they saw Venus and then it just happened

981
00:36:49,609 --> 00:36:47,060
to coincide with a radar anomaly

982
00:36:51,550 --> 00:36:49,619
and yeah yeah

983
00:36:53,690 --> 00:36:51,560
right

984
00:36:56,150 --> 00:36:53,700
especially when they would see something

985
00:36:59,349 --> 00:36:56,160
first and then turn on their radar sets

986
00:37:05,210 --> 00:37:02,150
I've just finished writing about the um

987
00:37:07,010 --> 00:37:05,220
the 5354 ones as you're aware and right

988
00:37:08,750 --> 00:37:07,020

there's a few cases there but I'm also

989

00:37:10,970 --> 00:37:08,760

right I'm starting to write about the 55

990

00:37:12,230 --> 00:37:10,980

56 ones and there's a few in there as

991

00:37:14,510 --> 00:37:12,240

well and it's exactly the same thing

992

00:37:16,550 --> 00:37:14,520

they're basically trying sort of like

993

00:37:18,589 --> 00:37:16,560

divide and conquer almost it's a oh yeah

994

00:37:20,270 --> 00:37:18,599

well we can't say that these things too

995

00:37:21,770 --> 00:37:20,280

things are linked because that might

996

00:37:23,450 --> 00:37:21,780

suggest that this is actually real what

997

00:37:25,490 --> 00:37:23,460

we're looking at so oh yeah we're going

998

00:37:26,930 --> 00:37:25,500

to make an explanation for this one and

999

00:37:28,849 --> 00:37:26,940

now we've also got to make up an

1000

00:37:31,550 --> 00:37:28,859

explanation for this and it sounds more

1001
00:37:33,470 --> 00:37:31,560
crazy than actually what the pilots are

1002
00:37:37,970 --> 00:37:33,480
saying in the first place right which is

1003
00:37:40,370 --> 00:37:37,980
like what yeah yeah incredible Venus

1004
00:37:43,910 --> 00:37:40,380
just shot up out of the sky and I and I

1005
00:37:45,290 --> 00:37:43,920
lost it well man we got to get Galileo

1006
00:37:48,109 --> 00:37:45,300
back working on this stuff or something

1007
00:37:50,150 --> 00:37:48,119
I don't know yeah you would think there

1008
00:37:51,829 --> 00:37:50,160
would be more these cases you you would

1009
00:37:54,230 --> 00:37:51,839
think if people were saying things like

1010
00:37:56,210 --> 00:37:54,240
Venus and radar anomalies you know they

1011
00:37:57,770 --> 00:37:56,220
were propping up you know time after

1012
00:37:59,810 --> 00:37:57,780
time you thought there would be even

1013
00:38:01,550 --> 00:37:59,820

more cases you're thinking even more

1014

00:38:04,010 --> 00:38:01,560

pilots will be seeing Venus not knowing

1015

00:38:05,569 --> 00:38:04,020

what it was and strange radar cases

1016

00:38:08,030 --> 00:38:05,579

where people were going oh that's a UFO

1017

00:38:09,530 --> 00:38:08,040

but no you know it was just these

1018

00:38:12,470 --> 00:38:09,540

isolated cases but there were still

1019

00:38:14,810 --> 00:38:12,480

chalked it was those yeah and and

1020

00:38:18,770 --> 00:38:14,820

important installations too you know

1021

00:38:20,930 --> 00:38:18,780

like it in the fridge the thing that

1022

00:38:25,010 --> 00:38:20,940

always got me was like Hey if if you're

1023

00:38:27,890 --> 00:38:25,020

having these uh anomalous propagation uh

1024

00:38:29,870 --> 00:38:27,900

radar anomaly situations first of all

1025

00:38:33,410 --> 00:38:29,880

like why have you not fixed that yet

1026

00:38:35,270 --> 00:38:33,420

like you had this going on from 47 till

1027

00:38:38,329 --> 00:38:35,280

you know what

1028

00:38:40,790 --> 00:38:38,339

I'm sure until this day but why is that

1029

00:38:42,710 --> 00:38:40,800

something that you haven't got a handle

1030

00:38:44,030 --> 00:38:42,720

on yet pretty much it were the earlier

1031

00:38:46,490 --> 00:38:44,040

Radars where they were a bit kind of

1032

00:38:48,589 --> 00:38:46,500

glitchy and um like it was good as the

1033

00:38:50,630 --> 00:38:48,599

new ones but now the new ones the Spy

1034

00:38:52,790 --> 00:38:50,640

one radar the one that when they did the

1035

00:38:55,310 --> 00:38:52,800

upgrade it caught all those the Tic Tacs

1036

00:38:57,050 --> 00:38:55,320

coming down from 80 000 feet you know it

1037

00:38:58,550 --> 00:38:57,060

was it does that mean that was kind of

1038

00:39:00,050 --> 00:38:58,560

like glitchy you know was there a

1039

00:39:01,069 --> 00:39:00,060

problem with that well no there are the

1040

00:39:03,290 --> 00:39:01,079

people that looked at it said it was

1041

00:39:05,950 --> 00:39:03,300

working well that was an astronomical

1042

00:39:09,950 --> 00:39:05,960

event that they were witnessing in

1043

00:39:12,109 --> 00:39:09,960

it was pesky meteor radar there's

1044

00:39:15,970 --> 00:39:12,119

probably million dollar radar system

1045

00:39:20,510 --> 00:39:18,890

on an aside here the meteoroid they

1046

00:39:23,510 --> 00:39:20,520

actually call it an asteroid falling off

1047

00:39:24,829 --> 00:39:23,520

on BBC News it was only a meteor across

1048

00:39:27,410 --> 00:39:24,839

it's only a meteor across it's a

1049

00:39:29,390 --> 00:39:27,420

meteorite the one that um exploded of

1050

00:39:31,370 --> 00:39:29,400

the of the English Channel um like last

1051

00:39:33,890 --> 00:39:31,380

night or early this morning right that's

1052

00:39:35,930 --> 00:39:33,900

an amazing like time as a coincidence

1053

00:39:37,849 --> 00:39:35,940

just when the Americans are shooting

1054

00:39:42,420 --> 00:39:37,859

down spy Billings and there's all this

1055

00:39:48,770 --> 00:39:46,569

[Laughter]

1056

00:39:51,109 --> 00:39:48,780

they're shooting off all over the place

1057

00:39:53,270 --> 00:39:51,119

yeah you know that's the thing about us

1058

00:39:54,650 --> 00:39:53,280

ufologists is we have to wear a lot of

1059

00:39:57,170 --> 00:39:54,660

different hats you know we have to be

1060

00:39:59,630 --> 00:39:57,180

somewhat astronomers yeah you know we

1061

00:40:01,910 --> 00:39:59,640

have to know about aircraft radar sets

1062

00:40:06,109 --> 00:40:01,920

all that kind of stuff yeah but the the

1063

00:40:08,630 --> 00:40:06,119

you know it's it's just incredible how

1064

00:40:10,490 --> 00:40:08,640

you know we're also witnessing how the

1065

00:40:13,010 --> 00:40:10,500

public reacts to all this like what if

1066

00:40:15,310 --> 00:40:13,020

they were like alien ships or something

1067

00:40:17,810 --> 00:40:15,320

or whatever

1068

00:40:19,250 --> 00:40:17,820

intelligence yeah you don't have to go

1069

00:40:21,890 --> 00:40:19,260

too far away from what's happening at

1070

00:40:23,630 --> 00:40:21,900

the moment to actually envisage a time

1071

00:40:24,650 --> 00:40:23,640

when that might be true

1072

00:40:26,089 --> 00:40:24,660

um you know the fact that you've got

1073

00:40:27,470 --> 00:40:26,099

these kind of anomalous things flying

1074

00:40:28,609 --> 00:40:27,480

around let's say for argument's sake

1075

00:40:30,770 --> 00:40:28,619

that there was something you know

1076

00:40:32,270 --> 00:40:30,780

visiting and it appears in different

1077

00:40:34,069 --> 00:40:32,280

parts of the country and over the world

1078

00:40:35,810 --> 00:40:34,079

and air forces are going up and they

1079

00:40:37,010 --> 00:40:35,820

can't quite get you know to shoot them

1080

00:40:39,410 --> 00:40:37,020

down

1081

00:40:40,910 --> 00:40:39,420

um or they do try even and maybe the

1082

00:40:42,710 --> 00:40:40,920

shoot down one or two or they or they

1083

00:40:44,150 --> 00:40:42,720

fail in the process but then you have

1084

00:40:45,770 --> 00:40:44,160

you know that's the math and you have

1085

00:40:48,770 --> 00:40:45,780

the press conferences and you have all

1086

00:40:50,089 --> 00:40:48,780

the news all all the all TV coverage on

1087

00:40:54,069 --> 00:40:50,099

the news

1088

00:40:57,589 --> 00:40:56,089

scenario played out on Twitter already

1089

00:41:00,970 --> 00:40:57,599

people are suggesting that's the case

1090

00:41:03,470 --> 00:41:00,980

yeah what else are we gonna do right

1091

00:41:05,030 --> 00:41:03,480

I can understand why people you know

1092

00:41:07,609 --> 00:41:05,040

want that to happen and therefore they

1093

00:41:09,650 --> 00:41:07,619

it it just goes on from there but I

1094

00:41:12,950 --> 00:41:09,660

still think these are are prosaic and

1095

00:41:14,450 --> 00:41:12,960

I'm afraid yeah yeah explain why why I'm

1096

00:41:16,250 --> 00:41:14,460

not I don't disagree with you but

1097

00:41:18,109 --> 00:41:16,260

explain what your thought process and

1098

00:41:19,849 --> 00:41:18,119

why you think that's the case I think

1099

00:41:21,349 --> 00:41:19,859

it's just I mean the first thing is just

1100

00:41:24,349 --> 00:41:21,359

because they seem to be really easy to

1101

00:41:25,790 --> 00:41:24,359

shoot down that's the the first thing

1102

00:41:28,550 --> 00:41:25,800

that's the probably the most important

1103

00:41:30,050 --> 00:41:28,560

thing I think is because let's I mean if

1104

00:41:32,270 --> 00:41:30,060

you go back to the Tic Tac and how

1105

00:41:35,630 --> 00:41:32,280

maneuverable it was and how fast it was

1106

00:41:38,030 --> 00:41:35,640

then with that you know be able to be

1107

00:41:39,650 --> 00:41:38,040

shot down I know I had somebody coming

1108

00:41:40,790 --> 00:41:39,660

back to me when I made a similar comment

1109

00:41:42,050 --> 00:41:40,800

on Twitter the other day and they said

1110

00:41:44,270 --> 00:41:42,060

well yes it could because it could be

1111

00:41:45,530 --> 00:41:44,280

locked on by radar well I don't know if

1112

00:41:47,089 --> 00:41:45,540

that's the case just because something

1113

00:41:48,770 --> 00:41:47,099

can be seen on radar doesn't mean to say

1114

00:41:50,150 --> 00:41:48,780

it can be shut down

1115

00:41:52,010 --> 00:41:50,160

um you know it all depends on the

1116

00:41:56,450 --> 00:41:52,020

capability of whatever's you're firing

1117

00:41:58,730 --> 00:41:56,460

at so it's not that it's not that simple

1118

00:42:00,890 --> 00:41:58,740

um so you know if

1119

00:42:02,630 --> 00:42:00,900

that's the first thing

1120

00:42:04,609 --> 00:42:02,640

um because these things just drift about

1121

00:42:05,930 --> 00:42:04,619

they don't really have that much control

1122

00:42:07,490 --> 00:42:05,940

over them

1123

00:42:08,930 --> 00:42:07,500

um and the fact that the Chinese fire

1124

00:42:10,370 --> 00:42:08,940

balloon that could shoot a Sidewinder

1125

00:42:11,630 --> 00:42:10,380

right through it so they just popped it

1126
00:42:14,030 --> 00:42:11,640
basically because we saw the footage

1127
00:42:15,349 --> 00:42:14,040
which seems quite dangerous to do if you

1128
00:42:16,609 --> 00:42:15,359
were if you were to do it over land

1129
00:42:19,130 --> 00:42:16,619
right because the thing didn't even

1130
00:42:20,510 --> 00:42:19,140
explode because it's you know latex or

1131
00:42:22,010 --> 00:42:20,520
whatever the hell it's made out of so

1132
00:42:23,870 --> 00:42:22,020
where's the thing going to land that

1133
00:42:25,670 --> 00:42:23,880
seems dangerous well I just came down

1134
00:42:27,290 --> 00:42:25,680
the sea didn't it and then of course the

1135
00:42:28,550 --> 00:42:27,300
the one that was it the one that the

1136
00:42:30,230 --> 00:42:28,560
shot down over

1137
00:42:31,670 --> 00:42:30,240
um which I can't forget now I get

1138
00:42:34,849 --> 00:42:31,680

confused as it was the second or the

1139

00:42:37,010 --> 00:42:34,859

fourth one it it broke up into bits

1140

00:42:38,630 --> 00:42:37,020

um so that's obviously you know

1141

00:42:40,130 --> 00:42:38,640

something more of a structure rather

1142

00:42:41,390 --> 00:42:40,140

than the craft but then again it might

1143

00:42:43,490 --> 00:42:41,400

be just out in the description we don't

1144

00:42:45,109 --> 00:42:43,500

know we haven't gotten information uh

1145

00:42:47,390 --> 00:42:45,119

but it seems like these don't

1146

00:42:49,430 --> 00:42:47,400

necessarily you know sort of match UAP

1147

00:42:52,630 --> 00:42:49,440

because uip tend to have quite

1148

00:42:55,910 --> 00:42:52,640

extraordinary kind of performance

1149

00:42:58,069 --> 00:42:55,920

yeah how many reports have we read uh

1150

00:42:59,690 --> 00:42:58,079

from the olden days where Pilots were

1151
00:43:02,270 --> 00:42:59,700
actually vectored towards the tracks

1152
00:43:04,010 --> 00:43:02,280
they actually had got an eye on it and

1153
00:43:07,309 --> 00:43:04,020
when they got to a certain distance from

1154
00:43:09,530 --> 00:43:07,319
it yeah but also go back to the the

1155
00:43:11,030 --> 00:43:09,540
World War II the Foo Fighters and not

1156
00:43:12,290 --> 00:43:11,040
the the lights but the actual things

1157
00:43:14,270 --> 00:43:12,300
that were seen flying off behind

1158
00:43:16,370 --> 00:43:14,280
aircraft and the ones that were fired at

1159
00:43:18,470 --> 00:43:16,380
the stuff I've written about

1160
00:43:20,750 --> 00:43:18,480
um you know they were in effectively

1161
00:43:22,250 --> 00:43:20,760
invulnerable to bullets going into them

1162
00:43:24,470 --> 00:43:22,260
so I can't think there'd be any

1163
00:43:27,230 --> 00:43:24,480

different from missile to be honest

1164

00:43:29,329 --> 00:43:27,240

um so you know if we're looking at those

1165

00:43:31,010 --> 00:43:29,339

kind of things and if this is a you know

1166

00:43:34,010 --> 00:43:31,020

if these were anything on on that kind

1167

00:43:35,329 --> 00:43:34,020

of level then again you know if you fire

1168

00:43:37,130 --> 00:43:35,339

something at it you know whether it be

1169

00:43:39,770 --> 00:43:37,140

kind of a Canon shells or a missile is

1170

00:43:41,750 --> 00:43:39,780

it going to do any damage you know so I

1171

00:43:43,550 --> 00:43:41,760

I just don't know

1172

00:43:44,870 --> 00:43:43,560

um I mean people are saying well if you

1173

00:43:46,790 --> 00:43:44,880

can if you can see it you can track it

1174

00:43:49,150 --> 00:43:46,800

you can kill it but I'm not entirely

1175

00:43:51,950 --> 00:43:49,160

sure it's that that simple yeah

1176

00:43:53,809 --> 00:43:51,960

sorry gone no I was just going to say

1177

00:43:57,050 --> 00:43:53,819

especially with uh you know how complex

1178

00:43:59,569 --> 00:43:57,060

our sensor systems are now it seems like

1179

00:44:01,309 --> 00:43:59,579

um you know it's not a catch-all and you

1180

00:44:03,170 --> 00:44:01,319

have to tune it for certain objects it's

1181

00:44:05,450 --> 00:44:03,180

a credible incredible to me that we

1182

00:44:07,069 --> 00:44:05,460

don't have like maybe multiple types of

1183

00:44:08,690 --> 00:44:07,079

Radars that all look for different

1184

00:44:12,050 --> 00:44:08,700

things in different places but

1185

00:44:14,930 --> 00:44:12,060

apparently you know we don't but

1186

00:44:17,630 --> 00:44:14,940

um one good thing is however these um

1187

00:44:20,150 --> 00:44:17,640

especially the f-16s that went up um

1188

00:44:23,030 --> 00:44:20,160

after the the thing above Lake Huron was

1189

00:44:25,010 --> 00:44:23,040

a 20 000 feet it was they had a they had

1190

00:44:26,630 --> 00:44:25,020

I think um what they call sniper pods on

1191

00:44:29,089 --> 00:44:26,640

them which are like kind of targeting

1192

00:44:31,670 --> 00:44:29,099

and kind of try um recording equipment

1193

00:44:33,710 --> 00:44:31,680

so they might have uh sort of like some

1194

00:44:36,410 --> 00:44:33,720

high definition kind of like you know uh

1195

00:44:40,309 --> 00:44:36,420

footage of what it was before they

1196

00:44:42,710 --> 00:44:40,319

brought it down you think we'll see it

1197

00:44:45,230 --> 00:44:42,720

um well there's a question in the press

1198

00:44:47,690 --> 00:44:45,240

conference wasn't it because if they do

1199

00:44:48,829 --> 00:44:47,700

show it there's no reason to not show

1200

00:44:50,109 --> 00:44:48,839

other ones

1201

00:44:53,510 --> 00:44:50,119

I know

1202

00:44:55,250 --> 00:44:53,520

it's setting a present isn't it so you

1203

00:44:57,349 --> 00:44:55,260

know it the fact that they came out with

1204

00:44:58,730 --> 00:44:57,359

well the footage of it of the balloon

1205

00:45:00,470 --> 00:44:58,740

being popped

1206

00:45:03,130 --> 00:45:00,480

now I can't remember whether that was

1207

00:45:05,329 --> 00:45:03,140

official or whether that was yeah

1208

00:45:09,050 --> 00:45:05,339

I don't think it was official footage

1209

00:45:10,190 --> 00:45:09,060

was it so I don't think as you have just

1210

00:45:12,109 --> 00:45:10,200

said there I don't think they're going

1211

00:45:13,910 --> 00:45:12,119

to release it anytime soon and I think

1212

00:45:15,530 --> 00:45:13,920

they're like try and sort of Wiggle out

1213

00:45:16,790 --> 00:45:15,540

of it by its uh you know oh it's

1214

00:45:18,349 --> 00:45:16,800

classified you know we've got too much

1215

00:45:19,790 --> 00:45:18,359

information around it like we do with

1216

00:45:21,109 --> 00:45:19,800

other footage you know like they've said

1217

00:45:22,970 --> 00:45:21,119

well things are we can't release that

1218

00:45:24,290 --> 00:45:22,980

because there's too much kind of

1219

00:45:25,790 --> 00:45:24,300

classified information around the

1220

00:45:27,530 --> 00:45:25,800

targeting and about the tracking and all

1221

00:45:29,150 --> 00:45:27,540

the rest of it so I can understand why

1222

00:45:32,210 --> 00:45:29,160

they might want to get out of it by by

1223

00:45:34,309 --> 00:45:32,220

that but Kirby didn't shut the door on

1224

00:45:37,069 --> 00:45:34,319

that did he all he said was he'll have

1225

00:45:38,390 --> 00:45:37,079

to ask the dood that's that was what his

1226

00:45:40,309 --> 00:45:38,400

response was and he was I think that's

1227

00:45:44,150 --> 00:45:40,319

what he's response to the day was to a

1228

00:45:46,069 --> 00:45:44,160

similar question so yeah and if you if

1229

00:45:48,410 --> 00:45:46,079

you fire that question at the dod well

1230

00:45:50,890 --> 00:45:48,420

they're not gonna we know that girl

1231

00:45:53,450 --> 00:45:50,900

sorry listen Kirby

1232

00:45:56,450 --> 00:45:53,460

stop wasting your time let me tell you

1233

00:46:02,210 --> 00:45:56,460

how this works I wonder if um anybody

1234

00:46:06,470 --> 00:46:05,089

yeah no that brings me kind of to an

1235

00:46:08,569 --> 00:46:06,480

interesting point or interesting

1236

00:46:10,730 --> 00:46:08,579

question how do you think uh you know in

1237

00:46:13,130 --> 00:46:10,740

any way that that that you think makes

1238

00:46:15,890 --> 00:46:13,140

sense how do you think these recent

1239

00:46:19,309 --> 00:46:15,900

events will affect

1240

00:46:20,870 --> 00:46:19,319

um you know genuine UAP or Arrow or you

1241

00:46:23,690 --> 00:46:20,880

know getting information on genuinely

1242

00:46:25,730 --> 00:46:23,700

anomalous things and just how it's

1243

00:46:27,410 --> 00:46:25,740

treated in the in the Press too how do

1244

00:46:29,510 --> 00:46:27,420

you think all this will affect that well

1245

00:46:31,970 --> 00:46:29,520

I think I think the people who um are

1246

00:46:36,109 --> 00:46:31,980

anti-uap you know the debunkers and the

1247

00:46:39,050 --> 00:46:36,119

people like um Jason colovito and um Mr

1248

00:46:40,130 --> 00:46:39,060

Barnes uh the New York Times writer I

1249

00:46:41,870 --> 00:46:40,140

think they're the people who are going

1250

00:46:43,250 --> 00:46:41,880

to like just go oh well here you know

1251
00:46:45,890 --> 00:46:43,260
here's Vindication for everything we've

1252
00:46:47,990 --> 00:46:45,900
been saying these are just balloons you

1253
00:46:50,109 --> 00:46:48,000
know all the unidentified stuff the car

1254
00:46:53,390 --> 00:46:50,119
that didn't get a description in the UAP

1255
00:46:55,430 --> 00:46:53,400
reports uh the first and second one all

1256
00:46:57,109 --> 00:46:55,440
the ones that they can't identify are

1257
00:46:58,970 --> 00:46:57,119
just balloons so that's probably what

1258
00:47:01,250 --> 00:46:58,980
they're gonna like just pin it all on

1259
00:47:03,770 --> 00:47:01,260
and you can understand why they do that

1260
00:47:05,349 --> 00:47:03,780
but that'll be the easy kind of out for

1261
00:47:07,670 --> 00:47:05,359
them

1262
00:47:09,710 --> 00:47:07,680
sorry well I was just going to say do

1263
00:47:11,750 --> 00:47:09,720

you think at least their mentality of

1264

00:47:13,490 --> 00:47:11,760

how they feel about an office like Arrow

1265

00:47:14,750 --> 00:47:13,500

will change I mean because not

1266

00:47:16,930 --> 00:47:14,760

necessarily that they'll find anything

1267

00:47:20,870 --> 00:47:16,940

otherworldly but they're finding things

1268

00:47:22,849 --> 00:47:20,880

that we haven't found before that could

1269

00:47:25,190 --> 00:47:22,859

be dangerous so that's positive right

1270

00:47:27,069 --> 00:47:25,200

can they still bash the effort so I was

1271

00:47:29,990 --> 00:47:27,079

going to get on to that because yes

1272

00:47:32,270 --> 00:47:30,000

we'll debunk because and they will take

1273

00:47:34,730 --> 00:47:32,280

that as being they're just all balloons

1274

00:47:38,150 --> 00:47:34,740

or something similar but

1275

00:47:40,430 --> 00:47:38,160

meanwhile the people who run the UAP the

1276
00:47:43,190 --> 00:47:40,440
RO and you're looking for UAP and the

1277
00:47:46,010 --> 00:47:43,200
people who are directing them to do so

1278
00:47:48,829 --> 00:47:46,020
see all this happening now and realize

1279
00:47:50,450 --> 00:47:48,839
the fact that this is useful this is you

1280
00:47:52,670 --> 00:47:50,460
know this is actually imperative even

1281
00:47:54,470 --> 00:47:52,680
it's a it's an intelligence Gap that

1282
00:47:56,270 --> 00:47:54,480
hasn't been plugged

1283
00:47:58,430 --> 00:47:56,280
um so yeah okay it's an easy job just to

1284
00:47:59,930 --> 00:47:58,440
fiddle about with the radar but you know

1285
00:48:01,430 --> 00:47:59,940
you still then have to collect the

1286
00:48:02,569 --> 00:48:01,440
information you have to be able to do

1287
00:48:04,430 --> 00:48:02,579
something with it you have to know it's

1288
00:48:05,930 --> 00:48:04,440

Trends you have to try and track these

1289

00:48:07,370 --> 00:48:05,940

things back to their Source you have to

1290

00:48:09,349 --> 00:48:07,380

do a whole lot of other kind of analysis

1291

00:48:10,609 --> 00:48:09,359

work around them you know it's not just

1292

00:48:12,770 --> 00:48:10,619

a case of shooting them down because

1293

00:48:14,990 --> 00:48:12,780

well you know any fool can do that kind

1294

00:48:16,550 --> 00:48:15,000

of thing to a point but you know there's

1295

00:48:18,050 --> 00:48:16,560

a lot more information around it that's

1296

00:48:19,490 --> 00:48:18,060

you know one of the reasons why they

1297

00:48:21,170 --> 00:48:19,500

said they left it alone so long because

1298

00:48:22,970 --> 00:48:21,180

they want to like to to see what it was

1299

00:48:25,910 --> 00:48:22,980

doing and get some more intelligence

1300

00:48:27,890 --> 00:48:25,920

kind of value from from tracking it and

1301

00:48:29,510 --> 00:48:27,900

observing it and all the rest of it so

1302

00:48:31,609 --> 00:48:29,520

therefore it's easy just to shoot one of

1303

00:48:34,370 --> 00:48:31,619

these things down to a point but you

1304

00:48:37,370 --> 00:48:34,380

need to know a lot more around it so

1305

00:48:40,130 --> 00:48:37,380

that's another side of it but in the

1306

00:48:42,650 --> 00:48:40,140

meantime yes it's important because if

1307

00:48:45,470 --> 00:48:42,660

they do start ramping up the UAP kind of

1308

00:48:47,930 --> 00:48:45,480

information collection then who knows

1309

00:48:50,329 --> 00:48:47,940

what else might come up from it you know

1310

00:48:52,430 --> 00:48:50,339

right what else might be found what else

1311

00:48:54,290 --> 00:48:52,440

what other information might they

1312

00:48:56,450 --> 00:48:54,300

discover they might discover a whole lot

1313

00:48:58,430 --> 00:48:56,460

of other things which aren't related but

1314

00:48:59,829 --> 00:48:58,440

end up in the same net

1315

00:49:02,329 --> 00:48:59,839

yeah

1316

00:49:04,849 --> 00:49:02,339

let me let me ask you this I I can't

1317

00:49:08,390 --> 00:49:04,859

Square this circle and I don't I don't

1318

00:49:10,970 --> 00:49:08,400

know if I ever will be able to but um

1319

00:49:12,890 --> 00:49:10,980

you know so you have there's there's

1320

00:49:15,290 --> 00:49:12,900

this crash retrieval stuff being talked

1321

00:49:17,510 --> 00:49:15,300

about that's that's pretty hot in in the

1322

00:49:19,309 --> 00:49:17,520

the UFO Twitter sphere right

1323

00:49:20,630 --> 00:49:19,319

um because of the Wilson Davis notes or

1324

00:49:22,910 --> 00:49:20,640

whatever

1325

00:49:24,770 --> 00:49:22,920

um Jacques valet's recent book that kind

1326
00:49:26,270 --> 00:49:24,780
of seems to confirm some of the stories

1327
00:49:28,130 --> 00:49:26,280
that were told not that they're accurate

1328
00:49:30,770 --> 00:49:28,140
but that the stories have in fact been

1329
00:49:33,650 --> 00:49:30,780
told by important people

1330
00:49:35,450 --> 00:49:33,660
um and and then you have like a

1331
00:49:36,589 --> 00:49:35,460
statement by John Kirby where he's like

1332
00:49:38,809 --> 00:49:36,599
in fact

1333
00:49:42,410 --> 00:49:38,819
um you know this Administration is

1334
00:49:44,630 --> 00:49:42,420
taking these phenomenon uh seriously and

1335
00:49:47,390 --> 00:49:44,640
it's for the first time as as we may not

1336
00:49:49,490 --> 00:49:47,400
have taken it so seriously before so can

1337
00:49:53,089 --> 00:49:49,500
both of those things be true can there

1338
00:49:56,030 --> 00:49:53,099

be a government Rogue operation on you

1339

00:49:58,250 --> 00:49:56,040

know reverse engineered flag saucers and

1340

00:49:59,329 --> 00:49:58,260

the government finally in 2023 taking it

1341

00:50:01,309 --> 00:49:59,339

seriously

1342

00:50:03,109 --> 00:50:01,319

depends how big these programs have been

1343

00:50:05,270 --> 00:50:03,119

historically I guess and you know how

1344

00:50:07,550 --> 00:50:05,280

much kind of like uh clout the people

1345

00:50:09,470 --> 00:50:07,560

who run them have and how much money

1346

00:50:11,510 --> 00:50:09,480

they can squirrel away from defense

1347

00:50:13,670 --> 00:50:11,520

budgets or any other type of budget to

1348

00:50:14,990 --> 00:50:13,680

funnel into these programs right I guess

1349

00:50:17,510 --> 00:50:15,000

there are things that have been hidden

1350

00:50:19,550 --> 00:50:17,520

for a long time uh in other kind of you

1351

00:50:21,050 --> 00:50:19,560

know Fields Etc

1352

00:50:22,550 --> 00:50:21,060

um I can envisioned that kind of thing

1353

00:50:23,809 --> 00:50:22,560

happening but if the weather crash

1354

00:50:25,910 --> 00:50:23,819

retrievals have happened in the past

1355

00:50:27,589 --> 00:50:25,920

again I don't know I've heard all the

1356

00:50:29,450 --> 00:50:27,599

stories you know I've read a lot I've

1357

00:50:31,069 --> 00:50:29,460

read them for years I'm still don't know

1358

00:50:32,990 --> 00:50:31,079

whether they're true or not that it's

1359

00:50:34,670 --> 00:50:33,000

one of these things where I'd like I'd

1360

00:50:36,589 --> 00:50:34,680

probably like them to be true

1361

00:50:38,210 --> 00:50:36,599

um but that doesn't mean to say

1362

00:50:40,970 --> 00:50:38,220

um you know sort of I'm gonna say they

1363

00:50:42,650 --> 00:50:40,980

are because I I simply don't know and

1364

00:50:44,329 --> 00:50:42,660

things like Roswell and a lot of other

1365

00:50:46,250 --> 00:50:44,339

stories uh stories that are out there

1366

00:50:47,569 --> 00:50:46,260

there's still kind of competing

1367

00:50:49,849 --> 00:50:47,579

narratives

1368

00:50:51,650 --> 00:50:49,859

um there are witnesses who aren't quite

1369

00:50:54,049 --> 00:50:51,660

what they say they are a lot of the time

1370

00:50:55,730 --> 00:50:54,059

so it's kind of muddies the water again

1371

00:50:56,990 --> 00:50:55,740

um you know there's an element there'll

1372

00:50:58,670 --> 00:50:57,000

be a core element of Truth somewhere

1373

00:51:01,549 --> 00:50:58,680

along the lines in all of these stories

1374

00:51:04,130 --> 00:51:01,559

but as to what how much goes beyond that

1375

00:51:06,349 --> 00:51:04,140

I simply don't know but yeah I would

1376

00:51:07,609 --> 00:51:06,359

love a lot of it to be true can it sort

1377

00:51:09,470 --> 00:51:07,619

of coincide with what's happening now

1378

00:51:11,809 --> 00:51:09,480

yes of course it can

1379

00:51:13,609 --> 00:51:11,819

um you know it just because one side or

1380

00:51:15,049 --> 00:51:13,619

one part of government or something

1381

00:51:16,849 --> 00:51:15,059

looked after by certain people in

1382

00:51:18,589 --> 00:51:16,859

government might be doing one thing it

1383

00:51:20,990 --> 00:51:18,599

doesn't say that the people who we're

1384

00:51:23,210 --> 00:51:21,000

looking at now talking about all this

1385

00:51:24,710 --> 00:51:23,220

actually know what's happening there so

1386

00:51:26,030 --> 00:51:24,720

you know it could be two separate

1387

00:51:27,049 --> 00:51:26,040

factions

1388

00:51:29,089 --> 00:51:27,059

um you know you've got the government

1389

00:51:31,130 --> 00:51:29,099

who we know and love doing all this

1390

00:51:32,329 --> 00:51:31,140

stuff in the open now and we've got this

1391

00:51:34,010 --> 00:51:32,339

you know kind of people behind the

1392

00:51:35,450 --> 00:51:34,020

scenes who for whatever reason are

1393

00:51:37,130 --> 00:51:35,460

keeping everything on the on the quiet

1394

00:51:39,170 --> 00:51:37,140

you know getting on with what they've

1395

00:51:40,250 --> 00:51:39,180

been doing for the last 78 years who

1396

00:51:41,809 --> 00:51:40,260

knows

1397

00:51:43,849 --> 00:51:41,819

um that's just me topping on the top of

1398

00:51:45,589 --> 00:51:43,859

my head I'm not putting that including

1399

00:51:47,270 --> 00:51:45,599

yeah I'm not putting that across as a

1400

00:51:48,710 --> 00:51:47,280

fact at all uh because I have no

1401

00:51:50,150 --> 00:51:48,720

evidence to back any of that up that's

1402

00:51:50,990 --> 00:51:50,160

just me just talking off the top of my

1403

00:51:52,790 --> 00:51:51,000

head yeah

1404

00:51:54,710 --> 00:51:52,800

we're just imagining how both could be

1405

00:51:57,470 --> 00:51:54,720

true at the same time yeah

1406

00:51:59,329 --> 00:51:57,480

um and and that's a good point you know

1407

00:52:00,890 --> 00:51:59,339

um a lot a lot of these programs seem to

1408

00:52:03,230 --> 00:52:00,900

be outside of the normal budgeting

1409

00:52:05,390 --> 00:52:03,240

appropriation process so if if that's

1410

00:52:08,270 --> 00:52:05,400

the case and something super black uh

1411

00:52:10,750 --> 00:52:08,280

someone like John Kirby might have uh no

1412

00:52:15,410 --> 00:52:14,150

yeah you have no idea whatsoever and of

1413

00:52:16,849 --> 00:52:15,420

course he's he's just reacting to

1414

00:52:18,589 --> 00:52:16,859

information that's being sent in and

1415

00:52:21,049 --> 00:52:18,599

passing the chain he's got he's got no

1416

00:52:23,210 --> 00:52:21,059

real insight into any of it

1417

00:52:24,290 --> 00:52:23,220

um but the crusher the crash retrievals

1418

00:52:26,450 --> 00:52:24,300

I mean you're talking about you know

1419

00:52:28,430 --> 00:52:26,460

retrievals they're having a hell of a

1420

00:52:29,870 --> 00:52:28,440

job trying to get you know find the bits

1421

00:52:31,970 --> 00:52:29,880

that were not in Alaska on the Yukon

1422

00:52:34,609 --> 00:52:31,980

aren't they so well it's it's obviously

1423

00:52:36,829 --> 00:52:34,619

a very inhospitable area especially this

1424

00:52:39,049 --> 00:52:36,839

time of year so I can understand how how

1425

00:52:41,990 --> 00:52:39,059

difficult it might be to try and find

1426
00:52:44,270 --> 00:52:42,000
the bits of this and we've seen you know

1427
00:52:46,370 --> 00:52:44,280
I'm gonna be that guy I guess but and

1428
00:52:49,250 --> 00:52:46,380
we've seen reports like that in Blue

1429
00:52:51,109 --> 00:52:49,260
Book you know where something has

1430
00:52:52,910 --> 00:52:51,119
crashed whether you know they thought it

1431
00:52:55,849 --> 00:52:52,920
was a part of a satellite or this or

1432
00:52:57,530 --> 00:52:55,859
that nunuistry in terrain that they

1433
00:53:00,049 --> 00:52:57,540
couldn't access so they just said forget

1434
00:53:01,730 --> 00:53:00,059
it you know but this time they're

1435
00:53:03,530 --> 00:53:01,740
actually retrieving it how frustrating

1436
00:53:06,230 --> 00:53:03,540
would that be though if you could get

1437
00:53:07,970 --> 00:53:06,240
through all that ice you know and and

1438
00:53:10,190 --> 00:53:07,980

just Trek all the way up the mountain

1439

00:53:12,109 --> 00:53:10,200

takes you three days just like that show

1440

00:53:14,569 --> 00:53:12,119

naked and afraid you're at the end of

1441

00:53:16,730 --> 00:53:14,579

the trip and you're starving no water

1442

00:53:21,670 --> 00:53:16,740

finally you get there and it's just like

1443

00:53:26,030 --> 00:53:23,870

and then you have to come out on

1444

00:53:27,950 --> 00:53:26,040

national TV and go

1445

00:53:31,849 --> 00:53:27,960

here it is

1446

00:53:34,250 --> 00:53:31,859

made in China China

1447

00:53:37,250 --> 00:53:34,260

in China with the big middle finger up

1448

00:53:38,210 --> 00:53:37,260

yeah oh man that would be frustrating

1449

00:53:40,730 --> 00:53:38,220

um

1450

00:53:42,910 --> 00:53:40,740

so what are you

1451

00:53:45,290 --> 00:53:42,920

I guess what are

1452

00:53:48,470 --> 00:53:45,300

in the end do you think this helps or

1453

00:53:50,329 --> 00:53:48,480

hurts the the genuine UAP cause I think

1454

00:53:52,849 --> 00:53:50,339

it's like I think it's a bit of both so

1455

00:53:54,710 --> 00:53:52,859

I think it hurts because people are

1456

00:53:56,809 --> 00:53:54,720

going to think oh well everything that's

1457

00:53:59,329 --> 00:53:56,819

being talked about are just balloons of

1458

00:54:01,309 --> 00:53:59,339

one striper yeah so I think that's the

1459

00:54:03,049 --> 00:54:01,319

downside but I think the upside is

1460

00:54:04,609 --> 00:54:03,059

actually that if there's a kind of

1461

00:54:07,190 --> 00:54:04,619

collective effort to like you know sort

1462

00:54:09,770 --> 00:54:07,200

of take even just the collection

1463

00:54:11,270 --> 00:54:09,780

seriously so you know Ro and anything

1464

00:54:13,790 --> 00:54:11,280

else that might decide to you know if

1465

00:54:16,190 --> 00:54:13,800

they decide to ramp it up and or or do

1466

00:54:17,809 --> 00:54:16,200

something else with the kind of the the

1467

00:54:19,910 --> 00:54:17,819

information gathering side of things

1468

00:54:21,470 --> 00:54:19,920

that can only be good because hopefully

1469

00:54:22,849 --> 00:54:21,480

you know in the overall collection

1470

00:54:26,270 --> 00:54:22,859

process we'll come up with some other

1471

00:54:29,210 --> 00:54:26,280

information that is are on balloons and

1472

00:54:31,370 --> 00:54:29,220

might be truly anomalous yeah but that

1473

00:54:34,190 --> 00:54:31,380

but you know whichever side of that

1474

00:54:36,829 --> 00:54:34,200

actually equation is in the you know um

1475

00:54:38,630 --> 00:54:36,839

is more than the other so I can't help

1476

00:54:40,370 --> 00:54:38,640

but think that the downside will be the

1477

00:54:42,170 --> 00:54:40,380

one that comes up because it'll be the

1478

00:54:43,790 --> 00:54:42,180

voices they'll be the louder voices

1479

00:54:45,650 --> 00:54:43,800

saying oh this is all just balloons and

1480

00:54:47,569 --> 00:54:45,660

you know full well the media will latch

1481

00:54:50,230 --> 00:54:47,579

on to that because that's the bit they

1482

00:54:52,130 --> 00:54:50,240

can cope with you know yeah

1483

00:54:54,530 --> 00:54:52,140

we've seen the fact that they've shot

1484

00:54:55,910 --> 00:54:54,540

one down so therefore they'll go oh yeah

1485

00:54:57,410 --> 00:54:55,920

well these are just balloons and then

1486

00:54:59,450 --> 00:54:57,420

the questions will come the next time

1487

00:55:01,190 --> 00:54:59,460

there's a you know Lou or or somebody

1488

00:55:04,010 --> 00:55:01,200

else or Chris melon or somebody else

1489

00:55:05,750 --> 00:55:04,020

turns up on national TV and and talks

1490

00:55:08,829 --> 00:55:05,760

about this issue somebody will ask him

1491

00:55:13,069 --> 00:55:08,839

no doubt aren't all these just balloons

1492

00:55:14,870 --> 00:55:13,079

no doubt yeah no doubt yeah I do think

1493

00:55:17,150 --> 00:55:14,880

it's interesting how this could be kind

1494

00:55:19,549 --> 00:55:17,160

of positioned too

1495

00:55:22,130 --> 00:55:19,559

uh get everyone on the same team though

1496

00:55:24,530 --> 00:55:22,140

so to speak you know actually

1497

00:55:27,230 --> 00:55:24,540

get getting us closer to a point where

1498

00:55:28,970 --> 00:55:27,240

it's like we're just we just want

1499

00:55:31,609 --> 00:55:28,980

information that's all we're looking for

1500

00:55:35,510 --> 00:55:31,619

you know whatever the object is we just

1501
00:55:37,730 --> 00:55:35,520
want to beat this to be safe and to know

1502
00:55:40,130 --> 00:55:37,740
what the objects are at this point if

1503
00:55:41,809 --> 00:55:40,140
you care about your country you know you

1504
00:55:44,390 --> 00:55:41,819
should because of these recent events

1505
00:55:46,430 --> 00:55:44,400
most uh you know especially

1506
00:55:48,530 --> 00:55:46,440
we should all be on the same team at

1507
00:55:49,970 --> 00:55:48,540
this point which is which is you know

1508
00:55:51,650 --> 00:55:49,980
interesting how that's kind of

1509
00:55:53,809 --> 00:55:51,660
positioned now I think because of this

1510
00:55:56,270 --> 00:55:53,819
because maybe before you know people

1511
00:55:58,670 --> 00:55:56,280
didn't really care Oh balloons big deal

1512
00:56:01,970 --> 00:55:58,680
blah blah we don't need to spend a bunch

1513
00:56:04,010 --> 00:56:01,980

of money looking for that well now I

1514

00:56:05,690 --> 00:56:04,020

think that tone maybe would change a

1515

00:56:08,630 --> 00:56:05,700

little bit which would yeah put us in

1516

00:56:11,510 --> 00:56:08,640

the same bench so

1517

00:56:13,010 --> 00:56:11,520

it's uh yeah I mean even our prime

1518

00:56:15,410 --> 00:56:13,020

minister came out I think earlier today

1519

00:56:16,730 --> 00:56:15,420

yeah tell me about that yeah well he was

1520

00:56:18,290 --> 00:56:16,740

asked the question

1521

00:56:19,790 --> 00:56:18,300

um and he said and he said I'm

1522

00:56:21,530 --> 00:56:19,800

paraphrasing he says we've got a quick

1523

00:56:23,809 --> 00:56:21,540

reaction alert

1524

00:56:26,690 --> 00:56:23,819

um some Force here uh and there you're

1525

00:56:28,910 --> 00:56:26,700

around 24 7 and they you know they they

1526

00:56:30,410 --> 00:56:28,920

would uh take care of this

1527

00:56:32,329 --> 00:56:30,420

um so that's basically how a typhoon

1528

00:56:33,770 --> 00:56:32,339

aircraft and they would they would

1529

00:56:36,230 --> 00:56:33,780

hopefully fly down Jude and fight with

1530

00:56:37,370 --> 00:56:36,240

missile offers offered something and you

1531

00:56:39,170 --> 00:56:37,380

would expect it would be dealt with the

1532

00:56:40,730 --> 00:56:39,180

same way as them as you guys have done

1533

00:56:42,170 --> 00:56:40,740

to probably wait until it went over the

1534

00:56:45,109 --> 00:56:42,180

North Sea or the Atlantic or somewhere

1535

00:56:46,910 --> 00:56:45,119

and shoot it down then yeah what changes

1536

00:56:50,450 --> 00:56:46,920

I guess too is yeah that some of these

1537

00:56:53,870 --> 00:56:50,460

objects unknown objects even

1538

00:56:55,190 --> 00:56:53,880

um are perceived as threats that was

1539

00:56:56,930 --> 00:56:55,200

never the case back in the old days

1540

00:56:59,089 --> 00:56:56,940

either but then again the the the

1541

00:57:00,710 --> 00:56:59,099

ministry defense in the UK have said

1542

00:57:02,510 --> 00:57:00,720

that there's nothing in the last 50

1543

00:57:05,510 --> 00:57:02,520

years have constituted any kind of

1544

00:57:08,089 --> 00:57:05,520

matter of Defense significance and that

1545

00:57:10,970 --> 00:57:08,099

includes the Calvin object from August

1546

00:57:13,549 --> 00:57:10,980

1990. so you have to wonder if you know

1547

00:57:15,309 --> 00:57:13,559

what's changed in that

1548

00:57:17,809 --> 00:57:15,319

um

1549

00:57:20,089 --> 00:57:17,819

just can't be true especially if we have

1550

00:57:21,650 --> 00:57:20,099

objects like that uh you know the US

1551
00:57:24,230 --> 00:57:21,660
government says that they don't know

1552
00:57:26,210 --> 00:57:24,240
what it is right and they shot it down

1553
00:57:28,549 --> 00:57:26,220
but it was a threat because it was in

1554
00:57:31,130 --> 00:57:28,559
commercial uh you know Airlines or

1555
00:57:34,069 --> 00:57:31,140
whatever like that has to be the case

1556
00:57:34,809 --> 00:57:34,079
somewhere else like uh you know Britain

1557
00:57:37,849 --> 00:57:34,819
too

1558
00:57:39,530 --> 00:57:37,859
so well we'd certainly be asking a UAP

1559
00:57:41,329 --> 00:57:39,540
media we'd certainly be asking questions

1560
00:57:43,910 --> 00:57:41,339
of politicians saying well if you've

1561
00:57:46,390 --> 00:57:43,920
shut that down why on you know all these

1562
00:57:48,770 --> 00:57:46,400
incidents over the last 50 years

1563
00:57:50,510 --> 00:57:48,780

well why why are they of Defense

1564

00:57:52,910 --> 00:57:50,520

significance yeah why wouldn't you take

1565

00:57:54,890 --> 00:57:52,920

them so seriously so yeah it would be I

1566

00:57:56,450 --> 00:57:54,900

think you know and other people would be

1567

00:57:59,030 --> 00:57:56,460

asking similar questions

1568

00:58:02,530 --> 00:57:59,040

that's because non-human intelligence

1569

00:58:05,510 --> 00:58:02,540

exists and they're friendly

1570

00:58:09,049 --> 00:58:05,520

they have a deal that goes back to

1571

00:58:12,049 --> 00:58:09,059

Eisenhower all right give you some

1572

00:58:15,049 --> 00:58:12,059

technology we take some of your people

1573

00:58:16,790 --> 00:58:15,059

and we'll be nice to you that's awesome

1574

00:58:19,190 --> 00:58:16,800

my new followers on Twitter have been

1575

00:58:20,930 --> 00:58:19,200

saying in DMS things like that I've been

1576

00:58:22,849 --> 00:58:20,940

getting a lot of stuff recently about um

1577

00:58:26,470 --> 00:58:22,859

people are very sure about what's being

1578

00:58:29,150 --> 00:58:26,480

happening and that's I I don't see

1579

00:58:31,190 --> 00:58:29,160

whenever I approach a scenario like this

1580

00:58:32,870 --> 00:58:31,200

one like you know having a podcast like

1581

00:58:34,970 --> 00:58:32,880

I have to have an opinion A lot of my

1582

00:58:37,100 --> 00:58:34,980

stuff is you know opinion based when I

1583

00:58:37,730 --> 00:58:37,110

don't have a guest or whatever so

1584

00:58:38,270 --> 00:58:37,740

[Music]

1585

00:58:40,010 --> 00:58:38,280

um

1586

00:58:42,430 --> 00:58:40,020

you know when I approached this I'm like

1587

00:58:45,650 --> 00:58:42,440

okay we have an unknown object right

1588

00:58:47,990 --> 00:58:45,660

this is no different than if I were to

1589

00:58:50,930 --> 00:58:48,000

read a blue book report and it was

1590

00:58:52,609 --> 00:58:50,940

called unidentified or or whatever like

1591

00:58:55,190 --> 00:58:52,619

how do you treat that do I just think

1592

00:58:58,010 --> 00:58:55,200

it's aliens because it says unidentified

1593

00:59:00,650 --> 00:58:58,020

that we couldn't identify it or do I

1594

00:59:04,910 --> 00:59:00,660

think it's prosaic the question the

1595

00:59:07,490 --> 00:59:04,920

answer is I don't know yeah I don't know

1596

00:59:09,349 --> 00:59:07,500

no people shouldn't be afraid to say

1597

00:59:10,730 --> 00:59:09,359

that it shouldn't be the case that you

1598

00:59:13,370 --> 00:59:10,740

have to come up with a theory and then

1599

00:59:14,990 --> 00:59:13,380

stick to it because information we get

1600

00:59:16,670 --> 00:59:15,000

new information all the time every day

1601
00:59:18,710 --> 00:59:16,680
there's a new bit of information comes

1602
00:59:20,450 --> 00:59:18,720
through from somewhere and therefore you

1603
00:59:23,329 --> 00:59:20,460
know whatever position you have might

1604
00:59:25,849 --> 00:59:23,339
end up changing so don't weld yourself

1605
00:59:28,450 --> 00:59:25,859
to the fact that it's right that they're

1606
00:59:31,609 --> 00:59:28,460
um you know palladians or venusians or

1607
00:59:33,770 --> 00:59:31,619
light beings or you or Galactic

1608
00:59:35,510 --> 00:59:33,780
Federation or you name it you know

1609
00:59:37,849 --> 00:59:35,520
chances are you're going to be wrong

1610
00:59:40,130 --> 00:59:37,859
well what's the worst case three out

1611
00:59:43,370 --> 00:59:40,140
here so like what if you latch onto the

1612
00:59:45,230 --> 00:59:43,380
you know the Pleiadians or or whatever

1613
00:59:46,910 --> 00:59:45,240

um that these objects are and you're

1614

00:59:48,589 --> 00:59:46,920

like gung-ho and this is what's going on

1615

00:59:50,690 --> 00:59:48,599

they're getting ready for disclosure

1616

00:59:52,549 --> 00:59:50,700

they're gonna show us hey we shot this

1617

00:59:53,870 --> 00:59:52,559

down pretend everything in the past

1618

00:59:55,910 --> 00:59:53,880

never happened

1619

00:59:58,430 --> 00:59:55,920

and then you're wrong well guess what

1620

01:00:00,230 --> 00:59:58,440

you look like an idiot and what else

1621

01:00:02,809 --> 01:00:00,240

happens like the more people that do

1622

01:00:05,150 --> 01:00:02,819

that in the UFO Community the worse the

1623

01:00:08,690 --> 01:00:05,160

whole Community looks the less relevant

1624

01:00:11,870 --> 01:00:08,700

it looks um the more silly it looks the

1625

01:00:15,109 --> 01:00:11,880

more we're actually smart about this and

1626

01:00:18,289 --> 01:00:15,119

say I don't know right

1627

01:00:20,450 --> 01:00:18,299

um the more people will look at like a

1628

01:00:21,890 --> 01:00:20,460

UFO community and think wow they're

1629

01:00:23,809 --> 01:00:21,900

actually pretty level-headed people

1630

01:00:26,210 --> 01:00:23,819

we've been through a lot before anyway

1631

01:00:28,210 --> 01:00:26,220

through the contactee cups of the you

1632

01:00:31,490 --> 01:00:28,220

know the 50s and 60s

1633

01:00:33,109 --> 01:00:31,500

who said that people from other planets

1634

01:00:34,730 --> 01:00:33,119

Viet well I think he said it was Venus

1635

01:00:36,289 --> 01:00:34,740

but other people before as well have

1636

01:00:37,370 --> 01:00:36,299

said all these things and they're going

1637

01:00:38,690 --> 01:00:37,380

to have meetings and these things are

1638

01:00:41,329 --> 01:00:38,700

going to happen and all the rest of it

1639

01:00:43,309 --> 01:00:41,339

and none of it turned out to be true so

1640

01:00:44,569 --> 01:00:43,319

you know we have been there before but

1641

01:00:46,730 --> 01:00:44,579

it just seems like every so often

1642

01:00:47,990 --> 01:00:46,740

everybody has to reinvent the wheel

1643

01:00:51,289 --> 01:00:48,000

um right and I get you know I get

1644

01:00:53,089 --> 01:00:51,299

messages on my Facebook or from um you

1645

01:00:54,230 --> 01:00:53,099

know direct message on Twitter saying

1646

01:00:57,109 --> 01:00:54,240

you don't know what you're talking about

1647

01:00:58,849 --> 01:00:57,119

Greg this is what the truth is and you

1648

01:01:00,890 --> 01:00:58,859

know I've read it before or I've seen it

1649

01:01:04,089 --> 01:01:00,900

somewhere else before it turns out it

1650

01:01:06,470 --> 01:01:04,099

never turns out to be true so yeah yeah

1651
01:01:07,970 --> 01:01:06,480
you know do people do yourself a favor

1652
01:01:09,770 --> 01:01:07,980
don't send me those messages because I'm

1653
01:01:12,650 --> 01:01:09,780
afraid I don't respond to them too much

1654
01:01:15,289 --> 01:01:12,660
sorry yeah yeah no no I I understand

1655
01:01:17,390 --> 01:01:15,299
what you mean but in the end

1656
01:01:20,329 --> 01:01:17,400
there's something unexplainable that

1657
01:01:22,130 --> 01:01:20,339
exists that is the figure takeaway yeah

1658
01:01:23,569 --> 01:01:22,140
that's the big takeaway from everything

1659
01:01:25,309 --> 01:01:23,579
that there's a lot going on that we

1660
01:01:27,410 --> 01:01:25,319
simply don't understand and it might be

1661
01:01:29,690 --> 01:01:27,420
that we can't understand it not that we

1662
01:01:31,789 --> 01:01:29,700
you know we don't we just can't we don't

1663
01:01:34,309 --> 01:01:31,799

have the capability to do so

1664

01:01:36,470 --> 01:01:34,319

um right and there's there's plenty of

1665

01:01:38,750 --> 01:01:36,480

examples throughout human history where

1666

01:01:40,789 --> 01:01:38,760

we didn't understand something or we're

1667

01:01:42,890 --> 01:01:40,799

so dead set that something was different

1668

01:01:44,450 --> 01:01:42,900

and and turned out to be wrong I mean if

1669

01:01:47,089 --> 01:01:44,460

we can't even understand what is

1670

01:01:49,549 --> 01:01:47,099

probably a prosaic object that flew from

1671

01:01:51,170 --> 01:01:49,559

Montana to Michigan and we shot it down

1672

01:01:54,710 --> 01:01:51,180

how the hell do you think we're going to

1673

01:01:57,049 --> 01:01:54,720

understand it I think spacecraft I mean

1674

01:01:59,450 --> 01:01:57,059

just that little question there I think

1675

01:02:00,770 --> 01:01:59,460

the the you know the US government I

1676

01:02:02,089 --> 01:02:00,780

think the dod I think they have more

1677

01:02:03,890 --> 01:02:02,099

information that they're not letting on

1678

01:02:05,569 --> 01:02:03,900

so I think they're probably much further

1679

01:02:07,849 --> 01:02:05,579

along the road in terms of understanding

1680

01:02:09,829 --> 01:02:07,859

what these things are at the moment

1681

01:02:13,190 --> 01:02:09,839

about this point in time you know I'll

1682

01:02:14,450 --> 01:02:13,200

bet there's a strong word that you know

1683

01:02:16,370 --> 01:02:14,460

they know a lot more than they're

1684

01:02:18,049 --> 01:02:16,380

letting on but that's the way the world

1685

01:02:20,569 --> 01:02:18,059

that's what you know governments and

1686

01:02:22,730 --> 01:02:20,579

depart and defense departments do

1687

01:02:24,289 --> 01:02:22,740

um so they'll have a fair idea but they

1688

01:02:26,690 --> 01:02:24,299

may not have it cast iron but they'll

1689

01:02:28,069 --> 01:02:26,700

have a fair idea yeah well hopefully

1690

01:02:30,049 --> 01:02:28,079

they come out soon with some more

1691

01:02:32,150 --> 01:02:30,059

information there's been a lot out there

1692

01:02:34,609 --> 01:02:32,160

including things like interfering with

1693

01:02:36,650 --> 01:02:34,619

sensors on these planes and in different

1694

01:02:38,210 --> 01:02:36,660

shapes and all that kind of stuff so so

1695

01:02:40,250 --> 01:02:38,220

we'll see what shakes out hopefully

1696

01:02:41,690 --> 01:02:40,260

they'll tell us what you know if any of

1697

01:02:43,670 --> 01:02:41,700

that's true we've definitely heard

1698

01:02:47,270 --> 01:02:43,680

stories like that too back in Blue Book

1699

01:02:49,069 --> 01:02:47,280

of we just yeah so you know on the one

1700

01:02:51,170 --> 01:02:49,079

hand it's not surprising

1701

01:02:53,930 --> 01:02:51,180

um on the other hand you know it makes

1702

01:02:55,910 --> 01:02:53,940

people think it's a spaceship so they

1703

01:02:57,950 --> 01:02:55,920

need to be for a threat with with the

1704

01:03:00,530 --> 01:02:57,960

information hopefully that helps and if

1705

01:03:03,049 --> 01:03:00,540

it really is some sort of weird thing

1706

01:03:05,210 --> 01:03:03,059

um hopefully they tell us so yeah yeah

1707

01:03:08,089 --> 01:03:05,220

but I thank you for your time is there

1708

01:03:11,450 --> 01:03:08,099

anything else that you want to either

1709

01:03:13,250 --> 01:03:11,460

talk about or or whatever before we two

1710

01:03:16,250 --> 01:03:13,260

things okay sure uh yeah there'll be

1711

01:03:17,690 --> 01:03:16,260

another book coming out shortly uh I'm

1712

01:03:19,309 --> 01:03:17,700

just waiting for the artwork

1713

01:03:21,470 --> 01:03:19,319

um and you know a little bit about this

1714

01:03:22,789 --> 01:03:21,480

and your workers without a conversation

1715

01:03:25,549 --> 01:03:22,799

about it

1716

01:03:27,710 --> 01:03:25,559

um and the other thing is

1717

01:03:31,010 --> 01:03:27,720

um I was invited to speak at Roswell

1718

01:03:31,870 --> 01:03:31,020

this year so

1719

01:03:34,549 --> 01:03:31,880

um

1720

01:03:36,349 --> 01:03:34,559

very uh my colleague Vinnie as well is

1721

01:03:39,170 --> 01:03:36,359

is going out uh so we're traveling after

1722

01:03:41,809 --> 01:03:39,180

British Invasion the British Invasion so

1723

01:03:43,210 --> 01:03:41,819

yeah and the June begin in July then

1724

01:03:46,910 --> 01:03:43,220

yeah

1725

01:03:48,950 --> 01:03:46,920

Ground Zero for UFOs it's gonna be hot

1726

01:03:50,569 --> 01:03:48,960

July in New Mexico I was just thinking

1727

01:03:52,130 --> 01:03:50,579

about that it's gonna be like 120

1728

01:03:53,870 --> 01:03:52,140

freaking degrees they have air

1729

01:03:55,609 --> 01:03:53,880

conditioning wherever you could be you

1730

01:03:57,770 --> 01:03:55,619

know where I live don't you so you know

1731

01:04:00,950 --> 01:03:57,780

it's additionally a quite a cold and wet

1732

01:04:02,809 --> 01:04:00,960

country in Britain yeah I don't think

1733

01:04:05,870 --> 01:04:02,819

I've built for it for for the heat but

1734

01:04:08,329 --> 01:04:05,880

we'll see yeah well I can't wait for for

1735

01:04:11,510 --> 01:04:08,339

your new book you do great work of

1736

01:04:14,630 --> 01:04:11,520

course so and you know I I personally

1737

01:04:16,309 --> 01:04:14,640

know of uh you know in going through

1738

01:04:18,289 --> 01:04:16,319

those years and Blue Book files some of

1739

01:04:20,089 --> 01:04:18,299

the cases so so I can't wait to see you

1740

01:04:21,650 --> 01:04:20,099

you know what you wrote about and and

1741

01:04:22,549 --> 01:04:21,660

how you put it together as you always do

1742

01:04:25,970 --> 01:04:22,559

such a great job with that

1743

01:04:28,130 --> 01:04:25,980

congratulations on the the Roswell uh

1744

01:04:29,750 --> 01:04:28,140

UFO or convention

1745

01:04:31,670 --> 01:04:29,760

um I'd like to go to that I'm not

1746

01:04:32,930 --> 01:04:31,680

certain if I can yet but hopefully that

1747

01:04:35,870 --> 01:04:32,940

would be cool to see you guys so

1748

01:04:38,510 --> 01:04:35,880

hopefully that goes well

1749

01:04:41,109 --> 01:04:38,520

um yeah and I appreciate your time as

1750

01:04:44,809 --> 01:04:41,119

always thanks for doing this

1751

01:04:50,950 --> 01:04:44,819

and we'll see you next time peace out

1752

01:04:55,910 --> 01:04:53,349

[Music]

1753

01:04:57,349 --> 01:04:55,920

a little due respect to the Air Force I
