

Dr. Kirkpatrick

1  
00:00:06,170 --> 00:00:04,249  
but the Air Force has said time and time

2  
00:00:08,089 --> 00:00:06,180  
again this is a quote from Richard

3  
00:00:10,430 --> 00:00:08,099  
Horner assistant Secretary of the Air

4  
00:00:13,129 --> 00:00:10,440  
Force for research and development

5  
00:00:14,089 --> 00:00:13,139  
all but a small percentage of these

6  
00:00:16,430 --> 00:00:14,099  
reports

7  
00:00:18,650 --> 00:00:16,440  
of unidentified flying up I want to

8  
00:00:21,050 --> 00:00:18,660  
underscore today that only a very small

9  
00:00:23,269 --> 00:00:21,060  
percentage of UAP reports display

10  
00:00:25,730 --> 00:00:23,279  
signatures that could reasonably be

11  
00:00:27,950 --> 00:00:25,740  
described as anomalies however there

12  
00:00:30,050 --> 00:00:27,960  
have been a certain percentage of this

13  
00:00:32,150 --> 00:00:30,060

volume of reports

14

00:00:33,530 --> 00:00:32,160  
that have been made by credible

15

00:00:36,590 --> 00:00:33,540  
Observers

16

00:00:38,630 --> 00:00:36,600  
of relatively incredible things have

17

00:00:41,150 --> 00:00:38,640  
been definitely attributed to Natural

18

00:00:45,290 --> 00:00:41,160  
phenomena that are neither mysterious

19

00:00:47,950 --> 00:00:45,300  
nor diet end quote weatherable Mirage

20

00:00:51,650 --> 00:00:47,960  
ordinary Sky phenomena like meteors

21

00:00:53,150 --> 00:00:51,660  
airplanes themselves what about them get

22

00:00:56,930 --> 00:00:53,160  
to see his child's Eastern Airlines

23

00:00:59,450 --> 00:00:56,940  
Captain T Kravitz TWA Robert Dickens TWA

24

00:01:01,910 --> 00:00:59,460  
Colonel Donald J Blakely U.S Air Force a

25

00:01:03,529 --> 00:01:01,920  
wing Commander I could go down a list of

26

00:01:05,149 --> 00:01:03,539

people who know what they're doing and

27

00:01:07,070 --> 00:01:05,159

they're still on duty they're still for

28

00:01:09,109 --> 00:01:07,080

the American people should write to

29

00:01:10,969 --> 00:01:09,119

their congressmen and insist that open

30

00:01:12,710 --> 00:01:10,979

hearings be held by the senate committee

31

00:01:14,270 --> 00:01:12,720

on permanent on the permanent committee

32

00:01:16,250 --> 00:01:14,280

on government operations which has been

33

00:01:18,800 --> 00:01:16,260

looking into this for six months

34

00:01:47,149 --> 00:01:18,810

foreign

35

00:01:53,389 --> 00:01:47,159

[Music]

36

00:02:00,350 --> 00:01:56,990

what's up everybody happy Friday we made

37

00:02:02,929 --> 00:02:00,360

it to the weekend so that's uh some

38

00:02:05,149 --> 00:02:02,939

pretty good news I'm glad that we have

39

00:02:05,870 --> 00:02:05,159

made it that far

40

00:02:08,930 --> 00:02:05,880

um

41

00:02:10,910 --> 00:02:08,940

thanks for joining me today

42

00:02:13,309 --> 00:02:10,920

I know there's plenty of other things

43

00:02:17,150 --> 00:02:13,319

that you could probably do so the fact

44

00:02:19,250 --> 00:02:17,160

that you spend your time here with me to

45

00:02:21,830 --> 00:02:19,260

talk about this stuff is freaking

46

00:02:23,930 --> 00:02:21,840

awesome and I appreciate it thanks to

47

00:02:27,050 --> 00:02:23,940

everybody who turned out for the live

48

00:02:29,150 --> 00:02:27,060

stream of the Senate hearings we had a

49

00:02:31,490 --> 00:02:29,160

pretty good turnout seems like that

50

00:02:35,390 --> 00:02:31,500

stuff is pretty popular that was a a

51  
00:02:37,190 --> 00:02:35,400  
well-viewed uh episode so I'm glad

52  
00:02:40,729 --> 00:02:37,200  
everybody checked it out and you guys

53  
00:02:42,229 --> 00:02:40,739  
were as always so kind in the chat

54  
00:02:44,449 --> 00:02:42,239  
um during that and I really appreciate

55  
00:02:48,110 --> 00:02:44,459  
it I don't think I had to block anybody

56  
00:02:49,610 --> 00:02:48,120  
which is just freaking awesome

57  
00:02:54,290 --> 00:02:49,620  
so

58  
00:02:58,030 --> 00:02:54,300  
kind of do

59  
00:03:01,369 --> 00:02:58,040  
like a realistic approach in evaluation

60  
00:03:04,630 --> 00:03:01,379  
of the hearing from Mr Sean Kirkpatrick

61  
00:03:07,970 --> 00:03:04,640  
you notice in the beginning

62  
00:03:11,690 --> 00:03:07,980  
the intro to the episode

63  
00:03:15,290 --> 00:03:11,700

you should notice a couple similarities

64

00:03:17,089 --> 00:03:15,300

between back in the day and now

65

00:03:18,710 --> 00:03:17,099

so if you didn't catch that go back and

66

00:03:20,210 --> 00:03:18,720

watch it

67

00:03:22,910 --> 00:03:20,220

um

68

00:03:24,530 --> 00:03:22,920

we're looking for that

69

00:03:27,110 --> 00:03:24,540

for anomalous stuff we're looking for

70

00:03:29,089 --> 00:03:27,120

that very small percentage I'll just say

71

00:03:32,509 --> 00:03:29,099

that they're very small

72

00:03:34,610 --> 00:03:32,519

certain small percentage of anomalous

73

00:03:37,430 --> 00:03:34,620

things that's

74

00:03:40,789 --> 00:03:37,440

what we look for so I thought we could

75

00:03:44,570 --> 00:03:40,799

get this party started by introducing a

76

00:03:46,910 --> 00:03:44,580

new source to our stream

77

00:03:49,850 --> 00:03:46,920

we have never read anything from this

78

00:03:52,250 --> 00:03:49,860

new source so we're gonna do it now

79

00:03:56,690 --> 00:03:52,260

pretty exciting put the link in the chat

80

00:03:59,750 --> 00:03:56,700

for you it's r d r news

81

00:04:01,729 --> 00:03:59,760

so they did an article Senate hearing on

82

00:04:06,170 --> 00:04:01,739

UAP Spark's concern for whistleblowers

83

00:04:11,149 --> 00:04:06,180

by Toby Martinez Shane Frakes and

84

00:04:12,530 --> 00:04:11,159

Christopher sharp Roswell Daily Record

85

00:04:14,449 --> 00:04:12,540

um the Senate's emerging threats and

86

00:04:16,129 --> 00:04:14,459

capabilities subcommittee held the

87

00:04:19,430 --> 00:04:16,139

hearing with both close to public

88

00:04:20,390 --> 00:04:19,440

sessions on measures related to UAP on

89

00:04:22,610 --> 00:04:20,400

Wednesday

90

00:04:24,170 --> 00:04:22,620

emerging from the hearings and absence

91

00:04:26,930 --> 00:04:24,180

of clear direction for whistleblowers

92

00:04:29,570 --> 00:04:26,940

who wish to come forward with this with

93

00:04:31,670 --> 00:04:29,580

sensitive information all domain anomaly

94

00:04:33,350 --> 00:04:31,680

resolution office director Shanker

95

00:04:35,990 --> 00:04:33,360

Patrick provided testimony for both

96

00:04:38,150 --> 00:04:36,000

sessions of the hearing his office Bears

97

00:04:40,070 --> 00:04:38,160

the responsibility of undertaking the

98

00:04:43,430 --> 00:04:40,080

department of defense's Endeavors to

99

00:04:46,790 --> 00:04:43,440

investigate UAP as mandated by the 2023

100

00:04:48,469 --> 00:04:46,800

National Defense authorization act in

101

00:04:50,210 --> 00:04:48,479

addition the arrow together with

102

00:04:52,189 --> 00:04:50,220

Secretary of Defense Lloyd Austin is

103

00:04:54,170 --> 00:04:52,199

accountable for creating a mechanism

104

00:04:55,730 --> 00:04:54,180

that enables whistleblowers to securely

105

00:04:58,129 --> 00:04:55,740

provide information that could

106

00:05:00,650 --> 00:04:58,139

subsequently be brought to Congressional

107

00:05:03,230 --> 00:05:00,660

leadership as well as defense and

108

00:05:05,450 --> 00:05:03,240

intelligence committees

109

00:05:07,370 --> 00:05:05,460

when asked about the progress on this

110

00:05:08,870 --> 00:05:07,380

mechanism Kirkpatrick stated that he had

111

00:05:11,270 --> 00:05:08,880

submitted the first version of a

112

00:05:14,270 --> 00:05:11,280

public-facing website product to his

113

00:05:16,610 --> 00:05:14,280

superiors for approval Before Christmas

114

00:05:18,770 --> 00:05:16,620

Kirkpatrick indicated that testimony so

115

00:05:21,530 --> 00:05:18,780

far had been mainly with people referred

116

00:05:23,510 --> 00:05:21,540

to him by Congress

117

00:05:25,430 --> 00:05:23,520

so I would like to First say thank you

118

00:05:27,950 --> 00:05:25,440

all very much for referring the

119

00:05:29,570 --> 00:05:27,960

witnesses that you have thus far to us I

120

00:05:31,310 --> 00:05:29,580

appreciate that we've brought in nearly

121

00:05:33,409 --> 00:05:31,320

two dozen so far that's been very

122

00:05:35,210 --> 00:05:33,419

helpful I'd ask that you continue to do

123

00:05:37,430 --> 00:05:35,220

that until we have an approved plan he

124

00:05:39,469 --> 00:05:37,440

said the Roswell Daily Record has

125

00:05:41,629 --> 00:05:39,479

learned from several sources familiar

126

00:05:43,730 --> 00:05:41,639

with the matter but not authorized to

127

00:05:45,890 --> 00:05:43,740

discuss it publicly that arrow is asking

128

00:05:48,710 --> 00:05:45,900

whistleblowers to pay for their own

129

00:05:52,129 --> 00:05:48,720

travel and accommodations in order to

130

00:05:55,249 --> 00:05:52,139

provide testimony in Washington D.C

131

00:05:57,830 --> 00:05:55,259

in addition at least one witness

132

00:06:00,050 --> 00:05:57,840

testimony was taken over the phone from

133

00:06:01,430 --> 00:06:00,060

an unsecured location even though the

134

00:06:05,270 --> 00:06:01,440

Whistleblower was bound to a

135

00:06:08,930 --> 00:06:06,430

so

136

00:06:11,450 --> 00:06:08,940

I really just wanted to read that part

137

00:06:14,330 --> 00:06:11,460

because I think it's so interesting uh

138

00:06:16,189 --> 00:06:14,340

the part here several sources familiar

139

00:06:17,029 --> 00:06:16,199

with the matter

140

00:06:19,189 --> 00:06:17,039

um

141

00:06:20,190 --> 00:06:19,199

arrows asking whistleblowers to pay it

142

00:06:22,550 --> 00:06:20,200

for their own travel

143

00:06:24,469 --> 00:06:22,560

[Laughter]

144

00:06:26,870 --> 00:06:24,479

all right so you had an encounter you

145

00:06:29,510 --> 00:06:26,880

want to come talk to Hero that's fine

146

00:06:32,689 --> 00:06:29,520

we can do that

147

00:06:34,610 --> 00:06:32,699

as long as you pay for your plane in

148

00:06:37,070 --> 00:06:34,620

your hotel and I don't care if you stay

149

00:06:39,409 --> 00:06:37,080

in the motel freaking six

150

00:06:41,390 --> 00:06:39,419

you're paying for it

151  
00:06:43,730 --> 00:06:41,400  
I don't care if you drive

152  
00:06:46,370 --> 00:06:43,740  
if you run

153  
00:06:48,529 --> 00:06:46,380  
I don't care if you take a limo

154  
00:06:50,629 --> 00:06:48,539  
you're paying

155  
00:06:52,189 --> 00:06:50,639  
so I don't know then it goes on to say

156  
00:06:54,230 --> 00:06:52,199  
that they had one

157  
00:06:55,909 --> 00:06:54,240  
um kind of witness talked to Kirkpatrick

158  
00:06:59,150 --> 00:06:55,919  
over the phone I think it was for some

159  
00:07:01,610 --> 00:06:59,160  
pretty sensitive information and the uh

160  
00:07:04,550 --> 00:07:01,620  
NDA not disclosure agreement kind of

161  
00:07:06,590 --> 00:07:04,560  
information so and it apparently was

162  
00:07:08,510 --> 00:07:06,600  
unsecured so who knows what's going on

163  
00:07:10,790 --> 00:07:08,520

over there it seems like a complete

164

00:07:12,290 --> 00:07:10,800

show to be honest seems like Kirkpatrick

165

00:07:13,730 --> 00:07:12,300

doesn't have enough money it seems like

166

00:07:15,770 --> 00:07:13,740

he doesn't have enough help seems like

167

00:07:19,550 --> 00:07:15,780

he barely wants to be there

168

00:07:21,290 --> 00:07:19,560

so we'll see how that goes

169

00:07:22,610 --> 00:07:21,300

but everybody should check out that

170

00:07:24,350 --> 00:07:22,620

website

171

00:07:26,089 --> 00:07:24,360

um

172

00:07:29,170 --> 00:07:26,099

seems pretty good they're stepping up

173

00:07:33,890 --> 00:07:29,180

the news as far as reporting on

174

00:07:38,809 --> 00:07:37,070

one thing I wanted to do here

175

00:07:42,529 --> 00:07:38,819

was

176

00:07:46,309 --> 00:07:42,539

get into some of the

177

00:07:52,370 --> 00:07:48,589

so but before I forget I just have to

178

00:07:55,309 --> 00:07:52,380

send myself the correct

179

00:07:58,430 --> 00:07:57,050

so

180

00:07:59,930 --> 00:07:58,440

what did you guys think of the hearing

181

00:08:02,390 --> 00:07:59,940

tell me in your chat

182

00:08:04,550 --> 00:08:02,400

you guys hate it I know you guys hated

183

00:08:06,589 --> 00:08:04,560

it because everybody wants disclosure

184

00:08:09,290 --> 00:08:06,599

with the Big D

185

00:08:13,670 --> 00:08:09,300

not the Little League

186

00:08:15,290 --> 00:08:13,680

okay so 2017 meteor oh man that's kind

187

00:08:16,490 --> 00:08:15,300

of loud is that too loud you guys let me

188

00:08:20,150 --> 00:08:16,500

know

189

00:08:23,330 --> 00:08:20,160

I don't want it to be too loud

190

00:08:27,589 --> 00:08:23,340

okay so the way I got this kind of setup

191

00:08:28,790 --> 00:08:27,599

is I'm gonna play it in comment so I'm

192

00:08:29,990 --> 00:08:28,800

just going to start it from the

193

00:08:31,610 --> 00:08:30,000

beginning and we'll go through the

194

00:08:33,889 --> 00:08:31,620

hearing

195

00:08:36,230 --> 00:08:33,899

um and we'll see what's up in late 2017

196

00:08:38,209 --> 00:08:36,240

media reports surfaced about activity

197

00:08:40,610 --> 00:08:38,219

set in motion by the late long-serving

198

00:08:42,589 --> 00:08:40,620

Majority Leader Senator Harry Reid more

199

00:08:43,969 --> 00:08:42,599

than a decade ago we learned that there

200

00:08:45,769 --> 00:08:43,979

was strong evidence and advanced

201  
00:08:47,150 --> 00:08:45,779  
technology reflected in the features and

202  
00:08:49,970 --> 00:08:47,160  
performance characteristics of many

203  
00:08:52,009 --> 00:08:49,980  
objects observed by our highly trained

204  
00:08:53,990 --> 00:08:52,019  
service members operating top of the

205  
00:08:56,269 --> 00:08:54,000  
line military equipment

206  
00:08:58,130 --> 00:08:56,279  
we learned that for the at least the

207  
00:08:59,990 --> 00:08:58,140  
past eight years military Pilots

208  
00:09:02,150 --> 00:09:00,000  
frequently encountered unknown objects

209  
00:09:04,009 --> 00:09:02,160  
in controlled airspace off both the east

210  
00:09:06,230 --> 00:09:04,019  
and west coast across the continental

211  
00:09:09,050 --> 00:09:06,240  
United States in test and training areas

212  
00:09:10,970 --> 00:09:09,060  
and ranges we don't know where they are

213  
00:09:13,190 --> 00:09:10,980

they come from who made them or how they

214

00:09:15,170 --> 00:09:13,200

operate

215

00:09:16,850 --> 00:09:15,180

so the reason I played that clip in all

216

00:09:18,230 --> 00:09:16,860

these clips I picked because I thought

217

00:09:20,690 --> 00:09:18,240

they were important for one reason or

218

00:09:23,269 --> 00:09:20,700

another this one is Senator gillibran

219

00:09:27,350 --> 00:09:23,279

makes clear that this process started

220

00:09:29,570 --> 00:09:27,360

because of Senator Reid in 2017. so she

221

00:09:31,850 --> 00:09:29,580

started this whole hearing making it

222

00:09:34,910 --> 00:09:31,860

known that the reason that we are here

223

00:09:37,430 --> 00:09:34,920

is because of the events of 2017 which

224

00:09:40,730 --> 00:09:37,440

if you remember as people like Lou

225

00:09:43,850 --> 00:09:40,740

Elizondo Chris melon the New York Times

226  
00:09:46,130 --> 00:09:43,860  
story and others so if you're wondering

227  
00:09:48,590 --> 00:09:46,140  
if we were here because of the work of

228  
00:09:50,389 --> 00:09:48,600  
blue elizanto and others I think you got

229  
00:09:52,250 --> 00:09:50,399  
your answer right there because they

230  
00:09:52,970 --> 00:09:52,260  
were mentioned

231  
00:09:58,070 --> 00:09:52,980  
um

232  
00:10:02,090 --> 00:09:59,870  
I thought that was despite our best

233  
00:10:04,370 --> 00:10:02,100  
efforts the president's budget for fiscu

234  
00:10:06,350 --> 00:10:04,380  
is 23 and 24 requested only enough

235  
00:10:08,870 --> 00:10:06,360  
funding to defray the operating expenses

236  
00:10:10,130 --> 00:10:08,880  
of Arrow it included almost no funds to

237  
00:10:11,570 --> 00:10:10,140  
sustain the critical research and

238  
00:10:13,730 --> 00:10:11,580

development necessary to support a

239

00:10:16,009 --> 00:10:13,740

serious investigation

240

00:10:19,490 --> 00:10:16,019

no budget

241

00:10:21,710 --> 00:10:19,500

um the President issued his budget

242

00:10:23,570 --> 00:10:21,720

and he didn't put enough to barely do

243

00:10:25,310 --> 00:10:23,580

anything for Arrow and that's the

244

00:10:28,070 --> 00:10:25,320

president's budget so

245

00:10:32,389 --> 00:10:28,080

the president is not allocating enough

246

00:10:36,710 --> 00:10:34,430

not good

247

00:10:38,870 --> 00:10:36,720

uapf frequently observed flying in

248

00:10:40,670 --> 00:10:38,880

extremely high or very low speeds and

249

00:10:42,350 --> 00:10:40,680

come in various sizes and shapes during

250

00:10:45,650 --> 00:10:42,360

the recent shootdowns over North America

251  
00:10:47,269 --> 00:10:45,660  
DOD disclosed that filters on radar

252  
00:10:48,949 --> 00:10:47,279  
systems were adjusted to allow for

253  
00:10:50,870 --> 00:10:48,959  
detection and tracking of diverse sets

254  
00:10:52,790 --> 00:10:50,880  
of objects for the first time while

255  
00:10:55,130 --> 00:10:52,800  
opening the aperture can overload the

256  
00:10:56,810 --> 00:10:55,140  
real-time analytic process we cannot

257  
00:10:58,370 --> 00:10:56,820  
keep turning a blind eye to surveillance

258  
00:11:01,190 --> 00:10:58,380  
data that is critical to detecting

259  
00:11:03,530 --> 00:11:01,200  
attracting UAP

260  
00:11:06,190 --> 00:11:03,540  
right there she acknowledged Mr Chris

261  
00:11:09,290 --> 00:11:06,200  
melon who is the one to say and mention

262  
00:11:11,150 --> 00:11:09,300  
the issue of opening the aperture on the

263  
00:11:12,590 --> 00:11:11,160

radar so that they could pick up these

264

00:11:14,449 --> 00:11:12,600

different objects

265

00:11:15,650 --> 00:11:14,459

so just wanted to make that clear that

266

00:11:19,970 --> 00:11:15,660

she's

267

00:11:23,750 --> 00:11:22,310

we need to know whether Dr kirpatrick

268

00:11:26,150 --> 00:11:23,760

could achieve the necessary control over

269

00:11:28,130 --> 00:11:26,160

sensor filters and the storage and

270

00:11:30,710 --> 00:11:28,140

access to Raw surveillance data to find

271

00:11:32,750 --> 00:11:30,720

UAP anomalies finally one of the tasks

272

00:11:35,269 --> 00:11:32,760

Congress set for Arrow is serving as an

273

00:11:36,889 --> 00:11:35,279

open door for Witnesses of UAP events or

274

00:11:39,590 --> 00:11:36,899

participants in government activities

275

00:11:41,509 --> 00:11:39,600

related to uaps to come forward securely

276

00:11:43,490 --> 00:11:41,519

and disclose what they know without fear

277

00:11:45,230 --> 00:11:43,500

of Retribution for any possible

278

00:11:47,090 --> 00:11:45,240

violations of previously signed

279

00:11:49,310 --> 00:11:47,100

non-disclosure agreements Congress

280

00:11:51,530 --> 00:11:49,320

mandated that arrow set up a publicly

281

00:11:55,069 --> 00:11:51,540

discoverable and accessible process for

282

00:12:01,910 --> 00:11:59,750

public safe disclosure so

283

00:12:05,150 --> 00:12:01,920

they're setting it up

284

00:12:09,050 --> 00:12:05,160

for a disclosure to happen so people

285

00:12:10,610 --> 00:12:09,060

need to go there and do it once the

286

00:12:11,810 --> 00:12:10,620

process is set up on the website the

287

00:12:13,370 --> 00:12:11,820

other thing that's kind of concerning is

288

00:12:14,329 --> 00:12:13,380

there's another person that's done this

289

00:12:15,550 --> 00:12:14,339

before

290

00:12:18,110 --> 00:12:15,560

but

291

00:12:23,030 --> 00:12:18,120

they are

292

00:12:28,490 --> 00:12:26,150

kind of uh press

293

00:12:30,590 --> 00:12:28,500

press conference thing Mr Dr Greer with

294

00:12:33,290 --> 00:12:30,600

his whistleblowers so I I think

295

00:12:36,710 --> 00:12:33,300

everybody should do this instead of that

296

00:12:38,810 --> 00:12:36,720

so hopefully the dod get that set up

297

00:12:40,910 --> 00:12:38,820

pretty quick because we're waiting on

298

00:12:44,870 --> 00:12:40,920

the dod for a lot of different things

299

00:12:45,590 --> 00:12:44,880

including this public safe disclosure

300

00:12:47,150 --> 00:12:45,600

um

301  
00:12:49,129 --> 00:12:47,160  
aspect

302  
00:12:51,230 --> 00:12:49,139  
well the main anomaly resolution office

303  
00:12:53,870 --> 00:12:51,240  
in July of last year

304  
00:12:56,629 --> 00:12:53,880  
though arrow is still a young office the

305  
00:12:58,430 --> 00:12:56,639  
spotlight on UAP in recent months

306  
00:13:01,009 --> 00:12:58,440  
underscores the importance of its work

307  
00:13:02,690 --> 00:13:01,019  
and the need for UAP to be taken

308  
00:13:04,910 --> 00:13:02,700  
seriously as a matter of National

309  
00:13:09,949 --> 00:13:04,920  
Security

310  
00:13:11,930 --> 00:13:09,959  
known UAP are a matter of National

311  
00:13:13,850 --> 00:13:11,940  
Security

312  
00:13:15,889 --> 00:13:13,860  
in case you were wondering that's why

313  
00:13:17,870 --> 00:13:15,899

they're doing this

314

00:13:20,690 --> 00:13:17,880

important to note however

315

00:13:22,790 --> 00:13:20,700

arrow is the culmination of Decades of

316

00:13:24,530 --> 00:13:22,800

DOD intelligence community and

317

00:13:26,750 --> 00:13:24,540

congressionally directed efforts to

318

00:13:28,790 --> 00:13:26,760

successfully resolve UAP encountered

319

00:13:31,490 --> 00:13:28,800

first and foremost by U.S military

320

00:13:34,730 --> 00:13:31,500

personnel specifically Navy and Air

321

00:13:41,030 --> 00:13:37,310

arrow is a culmination of previous DOD

322

00:13:44,949 --> 00:13:41,040

UAB efforts my question is which one is

323

00:13:48,230 --> 00:13:44,959

he saying it's a culmination of efforts

324

00:13:50,870 --> 00:13:48,240

compounding out from 1969 well what's he

325

00:13:52,310 --> 00:13:50,880

saying awesome atip

326

00:13:54,530 --> 00:13:52,320

what

327

00:13:57,650 --> 00:13:54,540

and I would have asked about that it's a

328

00:14:01,550 --> 00:13:57,660

culmination of what previous DOD UAP

329

00:14:07,910 --> 00:14:04,490

Mission we cannot answer Decades of

330

00:14:10,490 --> 00:14:07,920

questions about UAP all at once but we

331

00:14:12,110 --> 00:14:10,500

must begin somewhere while I assure you

332

00:14:14,690 --> 00:14:12,120

that Arrow will follow scientific

333

00:14:17,210 --> 00:14:14,700

evidence wherever it leads I ask for

334

00:14:18,889 --> 00:14:17,220

your patience as DOD first prioritizes

335

00:14:21,170 --> 00:14:18,899

Safety and Security of our military

336

00:14:23,509 --> 00:14:21,180

personnel and installations in all

337

00:14:29,449 --> 00:14:23,519

domains

338

00:14:30,829 --> 00:14:29,459

is their number one issue so he pretty

339

00:14:33,829 --> 00:14:30,839

much just

340

00:14:35,569 --> 00:14:33,839

address the historic

341

00:14:37,670 --> 00:14:35,579

citing stuff

342

00:14:40,509 --> 00:14:37,680

by saying we can't answer all your

343

00:14:42,710 --> 00:14:40,519

questions in one day you know

344

00:14:44,750 --> 00:14:42,720

but they

345

00:14:46,189 --> 00:14:44,760

you know intend to

346

00:14:48,470 --> 00:14:46,199

after

347

00:14:51,290 --> 00:14:48,480

they get the safety stuff done

348

00:14:55,970 --> 00:14:51,300

with all the different military branches

349

00:14:58,490 --> 00:14:55,980

so I think that's uh important

350

00:15:00,170 --> 00:14:58,500

as far as expectations that they have a

351

00:15:04,009 --> 00:15:00,180

lot of work to do before they even get

352

00:15:08,210 --> 00:15:05,810

arrow is partnering with the services

353

00:15:09,769 --> 00:15:08,220

intelligence Community doe as well as

354

00:15:12,050 --> 00:15:09,779

civil partners and across the U.S

355

00:15:14,389 --> 00:15:12,060

government to tap into this resources of

356

00:15:16,069 --> 00:15:14,399

the interagency

357

00:15:19,569 --> 00:15:16,079

foreign

358

00:15:21,470 --> 00:15:19,579

I don't like a lot a lot of hands

359

00:15:22,910 --> 00:15:21,480

in the problem

360

00:15:26,150 --> 00:15:22,920

they have people from all different

361

00:15:28,069 --> 00:15:26,160

intelligence agencies and all across the

362

00:15:29,930 --> 00:15:28,079

place Department of energy who is

363

00:15:33,050 --> 00:15:29,940

supposed to be holding some of these

364

00:15:34,430 --> 00:15:33,060

secrets so there's a lot of uh hands in

365

00:15:36,769 --> 00:15:34,440

the pot here and when that happens

366

00:15:40,129 --> 00:15:36,779

things can go wrong if there is some

367

00:15:42,110 --> 00:15:40,139

deep secret or whatever you can be sure

368

00:15:43,910 --> 00:15:42,120

that whoever is holding that secret is

369

00:15:45,290 --> 00:15:43,920

spying on the program I just thought

370

00:15:48,710 --> 00:15:45,300

that was interesting that a lot of

371

00:15:53,990 --> 00:15:51,410

the UAP challenge is more an operational

372

00:15:58,030 --> 00:15:54,000

and scientific issue than it is an

373

00:16:02,269 --> 00:16:00,650

it's a scientific issue more than the

374

00:16:04,250 --> 00:16:02,279

intelligence issue which is very

375

00:16:05,990 --> 00:16:04,260

interesting because they just got done

376

00:16:08,269 --> 00:16:06,000

saying UAP are a matter of National

377

00:16:10,250 --> 00:16:08,279

Security

378

00:16:13,189 --> 00:16:10,260

so

379

00:16:15,769 --> 00:16:13,199

it's a scientific issue that's a part of

380

00:16:17,870 --> 00:16:15,779

National Security I don't know it's kind

381

00:16:18,769 --> 00:16:17,880

of just interesting and it seems a

382

00:16:20,389 --> 00:16:18,779

little

383

00:16:22,189 --> 00:16:20,399

conflicting

384

00:16:24,769 --> 00:16:22,199

p

385

00:16:27,170 --> 00:16:24,779

I want to underscore today that only a

386

00:16:29,449 --> 00:16:27,180

very small percentage of UAP reports

387

00:16:32,829 --> 00:16:29,459

display signatures that could reasonably

388

00:16:35,509 --> 00:16:32,839

be described as anomalous

389

00:16:38,329 --> 00:16:35,519

small percentage of anomalous signatures

390

00:16:40,430 --> 00:16:38,339

but half are anomalous apparently most

391

00:16:42,590 --> 00:16:40,440

without signatures so he said a couple

392

00:16:45,530 --> 00:16:42,600

different things here first he's saying

393

00:16:46,790 --> 00:16:45,540

only a small percentage show anomalous

394

00:16:51,350 --> 00:16:46,800

signatures

395

00:16:52,129 --> 00:16:51,360

but he also says that out of 650

396

00:16:55,790 --> 00:16:52,139

um

397

00:16:58,249 --> 00:16:55,800

cases that they're currently on half of

398

00:17:01,810 --> 00:16:58,259

them about

399

00:17:05,689 --> 00:17:03,410

characteristics

400

00:17:08,270 --> 00:17:05,699

so the only thing I can think of is that

401  
00:17:11,270 --> 00:17:08,280  
he means only a small percentage show

402  
00:17:13,850 --> 00:17:11,280  
actual signatures electronic signatures

403  
00:17:15,530 --> 00:17:13,860  
but half of them

404  
00:17:17,090 --> 00:17:15,540  
seem like they could have anomalous

405  
00:17:19,250 --> 00:17:17,100  
characteristics but they don't have

406  
00:17:21,110 --> 00:17:19,260  
enough data that's what I took from that

407  
00:17:22,490 --> 00:17:21,120  
but again it's very conflicting because

408  
00:17:25,429 --> 00:17:22,500  
in one spot he's saying a small

409  
00:17:27,590 --> 00:17:25,439  
percentage have anomalous signatures and

410  
00:17:30,049 --> 00:17:27,600  
when he was talking about the 650 cases

411  
00:17:33,289 --> 00:17:30,059  
he said about half of them

412  
00:17:33,299 --> 00:17:37,130  
so what's the deal

413  
00:17:42,409 --> 00:17:39,230

in other words Arrow's mission is to

414

00:17:44,529 --> 00:17:42,419

turn UAP into SCP somebody else's

415

00:17:50,270 --> 00:17:44,539

problem

416

00:17:51,650 --> 00:17:50,280

sap so or SCP and the further we go on

417

00:17:54,350 --> 00:17:51,660

through the seat

418

00:17:56,330 --> 00:17:54,360

you know you'll realize that to me the

419

00:17:57,830 --> 00:17:56,340

picture becomes clear here that any

420

00:17:59,210 --> 00:17:57,840

possible disclosure won't come from

421

00:18:02,390 --> 00:17:59,220

Arrow

422

00:18:06,230 --> 00:18:04,669

that if he finds anything

423

00:18:08,210 --> 00:18:06,240

where the only explanation is

424

00:18:11,090 --> 00:18:08,220

extraterrestrial

425

00:18:14,330 --> 00:18:11,100

he's going to give it to NASA

426  
00:18:16,130 --> 00:18:14,340  
and if it's anomalous and winds up being

427  
00:18:18,230 --> 00:18:16,140  
like foreign like Chinese or something

428  
00:18:20,570 --> 00:18:18,240  
like that he's going to give it

429  
00:18:23,150 --> 00:18:20,580  
to the intelligence community

430  
00:18:28,909 --> 00:18:23,160  
so either way we're not going to find

431  
00:18:33,710 --> 00:18:31,370  
in the event sufficient scientific data

432  
00:18:35,690 --> 00:18:33,720  
were ever attained that a UAP

433  
00:18:38,210 --> 00:18:35,700  
encountered can only be explained by

434  
00:18:40,070 --> 00:18:38,220  
extraterrestrial origin we are committed

435  
00:18:42,890 --> 00:18:40,080  
to working with our interagency partners

436  
00:18:46,669 --> 00:18:42,900  
at Nasa to appropriately inform U.S

437  
00:18:51,529 --> 00:18:48,409  
as I just said

438  
00:18:53,750 --> 00:18:51,539

ET Discovery goes to NASA not to the

439

00:18:57,350 --> 00:18:55,850

so apparently from there it would go to

440

00:18:59,450 --> 00:18:57,360

the public I guess is what they're

441

00:19:02,270 --> 00:18:59,460

saying but it's interesting so if he

442

00:19:03,710 --> 00:19:02,280

finds something he you know disclosure

443

00:19:05,029 --> 00:19:03,720

isn't going to work this way it's not

444

00:19:07,310 --> 00:19:05,039

going to come from a hearing from

445

00:19:08,990 --> 00:19:07,320

Kirkpatrick because if he found

446

00:19:10,430 --> 00:19:09,000

something he just told you he'd shown

447

00:19:12,169 --> 00:19:10,440

NASA

448

00:19:13,789 --> 00:19:12,179

so it wouldn't be discovered in a

449

00:19:16,250 --> 00:19:13,799

question and answer session at a public

450

00:19:20,570 --> 00:19:18,770

for those few cases that have leaked to

451  
00:19:22,909 --> 00:19:20,580  
the public previously and subsequently

452  
00:19:24,650 --> 00:19:22,919  
commented on by the U.S government I

453  
00:19:26,390 --> 00:19:24,660  
encourage those who hold alternative

454  
00:19:28,549 --> 00:19:26,400  
theories or views to submit your

455  
00:19:30,830 --> 00:19:28,559  
research to Credible peer-reviewed

456  
00:19:33,529 --> 00:19:30,840  
scientific journals arrow is working

457  
00:19:35,930 --> 00:19:33,539  
very hard to do the same that is how

458  
00:19:38,570 --> 00:19:35,940  
science works not by blog or social

459  
00:19:44,289 --> 00:19:40,669  
attention Midwest Corbell Travis Taylor

460  
00:19:46,789 --> 00:19:44,299  
G Stratton Etc you're being called out

461  
00:19:49,190 --> 00:19:46,799  
so he says

462  
00:19:50,870 --> 00:19:49,200  
basically what it sounds like to any

463  
00:19:53,029 --> 00:19:50,880

anybody who's trying to make a case on

464

00:19:55,490 --> 00:19:53,039

any of these UAP things what I take it

465

00:19:58,970 --> 00:19:55,500

as is gimbal Tic Tac

466

00:20:00,169 --> 00:19:58,980

go fast maybe the pyramid video all

467

00:20:02,810 --> 00:20:00,179

those people are trying to make

468

00:20:04,370 --> 00:20:02,820

Arguments for that he's saying

469

00:20:06,409 --> 00:20:04,380

um you know science runs by peer review

470

00:20:07,610 --> 00:20:06,419

so put together your idea and have it

471

00:20:09,169 --> 00:20:07,620

peer-reviewed

472

00:20:10,970 --> 00:20:09,179

you know and that's what he's saying

473

00:20:13,789 --> 00:20:10,980

that he's going to be doing but the

474

00:20:15,770 --> 00:20:13,799

interesting thing is that we don't have

475

00:20:17,270 --> 00:20:15,780

all the freaking data men so how are we

476  
00:20:19,250 --> 00:20:17,280  
supposed to put something together for

477  
00:20:20,330 --> 00:20:19,260  
peer review when we don't have all the

478  
00:20:22,130 --> 00:20:20,340  
data

479  
00:20:24,110 --> 00:20:22,140  
it's ridiculous

480  
00:20:25,909 --> 00:20:24,120  
so he's trying to take a cheap shot at

481  
00:20:29,330 --> 00:20:25,919  
people who have their ideas and what

482  
00:20:31,070 --> 00:20:29,340  
they think about the different cases

483  
00:20:34,549 --> 00:20:31,080  
tells them to do something with peer

484  
00:20:36,890 --> 00:20:34,559  
review when we don't have the data

485  
00:20:39,049 --> 00:20:36,900  
yeah tell whoever those people were that

486  
00:20:41,450 --> 00:20:39,059  
took the data bricks off the uh what was

487  
00:20:44,810 --> 00:20:41,460  
it the Princeton

488  
00:20:47,450 --> 00:20:44,820

tell those guys to to help us out so we

489

00:20:49,070 --> 00:20:47,460

can't put a peer review paper together

490

00:20:51,830 --> 00:20:49,080

because they have the data apparently

491

00:20:54,710 --> 00:20:51,840

from the Tic Tac event so

492

00:21:03,590 --> 00:20:59,450

as of this week we are tracking over a

493

00:21:07,010 --> 00:21:03,600

total of 650 cases

494

00:21:09,049 --> 00:21:07,020

now the report in January basically said

495

00:21:11,990 --> 00:21:09,059

about half of the ones at that time

496

00:21:14,390 --> 00:21:12,000

about 150 were balloon were likely

497

00:21:17,090 --> 00:21:14,400

balloon-like or something like that that

498

00:21:18,950 --> 00:21:17,100

doesn't mean they're resolved

499

00:21:21,350 --> 00:21:18,960

we've been through this Project Blue

500

00:21:24,230 --> 00:21:21,360

Book did the same thing probably or

501  
00:21:27,890 --> 00:21:24,240  
possibly balloon you know so they don't

502  
00:21:30,590 --> 00:21:27,900  
know for sure if it's a balloon

503  
00:21:32,390 --> 00:21:30,600  
let's just say if the object is moving

504  
00:21:34,850 --> 00:21:32,400  
with the Wind

505  
00:21:36,950 --> 00:21:34,860  
it was reported as a sphere they'll

506  
00:21:39,470 --> 00:21:36,960  
probably say

507  
00:21:41,270 --> 00:21:39,480  
it's a possible balloon

508  
00:21:43,010 --> 00:21:41,280  
just like Blue Book did that'll get

509  
00:21:46,310 --> 00:21:43,020  
written up by my team

510  
00:21:48,230 --> 00:21:46,320  
that then goes to a senior technical

511  
00:21:50,110 --> 00:21:48,240  
Advisory Group

512  
00:21:53,570 --> 00:21:50,120  
which is outside of all of those people

513  
00:21:54,430 --> 00:21:53,580

made up of senior technical folks and

514

00:22:01,570 --> 00:21:54,440

and

515

00:22:04,490 --> 00:22:01,580

retired out of the community

516

00:22:08,930 --> 00:22:04,500

and they they essentially peer review

517

00:22:10,789 --> 00:22:08,940

what that case recommendation is

518

00:22:13,490 --> 00:22:10,799

they write their recommendations that

519

00:22:15,350 --> 00:22:13,500

comes back to me I review it we make a

520

00:22:16,310 --> 00:22:15,360

determination and I'll sign off one way

521

00:22:18,710 --> 00:22:16,320

or the other

522

00:22:22,610 --> 00:22:18,720

and then that will go out as the the

523

00:22:29,210 --> 00:22:26,330

so he's got two groups in ic group and

524

00:22:30,770 --> 00:22:29,220

he's got his own intelligence group in a

525

00:22:33,110 --> 00:22:30,780

scientific group they look at it he

526

00:22:35,990 --> 00:22:33,120

looks at it and then it goes to these

527

00:22:39,230 --> 00:22:36,000

retired intelligence folks

528

00:22:40,070 --> 00:22:39,240

who do a final peer review who are these

529

00:22:42,830 --> 00:22:40,080

people

530

00:22:44,690 --> 00:22:42,840

why should we trust them

531

00:22:45,830 --> 00:22:44,700

there's so many people involved here

532

00:22:49,310 --> 00:22:45,840

like

533

00:22:50,450 --> 00:22:49,320

just more ways for things to go to go

534

00:22:52,130 --> 00:22:50,460

not well

535

00:22:54,590 --> 00:22:52,140

so I just thought that was interesting

536

00:22:56,450 --> 00:22:54,600

who are these retired intelligence folks

537

00:22:58,850 --> 00:22:56,460

um given the final peer review on the

538

00:23:01,730 --> 00:22:58,860

individual UAP cases

539

00:23:04,310 --> 00:23:01,740

so he gets a case

540

00:23:06,529 --> 00:23:04,320

and just about three or four different

541

00:23:08,870 --> 00:23:06,539

three different groups of people are

542

00:23:13,850 --> 00:23:08,880

looking at it with a final peer review

543

00:23:19,490 --> 00:23:16,850

once we have an approved web portal to

544

00:23:20,810 --> 00:23:19,500

hang the unclassified stuff we will D

545

00:23:26,390 --> 00:23:20,820

you know we would downgrade and

546

00:23:32,210 --> 00:23:29,210

once the dod approves this is how

547

00:23:34,789 --> 00:23:32,220

information will become public so

548

00:23:37,130 --> 00:23:34,799

what he just said is

549

00:23:40,370 --> 00:23:37,140

that once the dod approves his little

550

00:23:45,110 --> 00:23:40,380

portal online that's where he'll put his

551  
00:23:48,950 --> 00:23:46,549  
so

552  
00:23:54,590 --> 00:23:48,960  
it's interesting that I think it seems

553  
00:23:58,850 --> 00:23:56,810  
because of that

554  
00:24:02,510 --> 00:23:58,860  
that takes time

555  
00:24:04,610 --> 00:24:02,520  
so of those over 650 you know we've

556  
00:24:10,070 --> 00:24:04,620  
prioritized

557  
00:24:14,450 --> 00:24:10,080  
about uh half of them to be of of

558  
00:24:22,010 --> 00:24:17,570  
so 325 cases are of

559  
00:24:24,950 --> 00:24:23,810  
that's a lot

560  
00:24:27,049 --> 00:24:24,960  
half

561  
00:24:32,390 --> 00:24:27,059  
of the cases

562  
00:24:37,730 --> 00:24:35,210  
so that's a great question part of what

563  
00:24:40,730 --> 00:24:37,740

we have to do as we go through these

564

00:24:42,950 --> 00:24:40,740

especially the ones that show

565

00:24:45,890 --> 00:24:42,960

signatures of advanced technical

566

00:24:48,409 --> 00:24:45,900

capabilities is determine if there is a

567

00:24:51,649 --> 00:24:48,419

foreign Nexus

568

00:24:54,169 --> 00:24:51,659

that's really hard if what we observe

569

00:24:56,690 --> 00:24:54,179

doesn't have a Chinese or Russian flag

570

00:24:58,549 --> 00:24:56,700

on the side of it

571

00:25:00,529 --> 00:24:58,559

now

572

00:25:01,070 --> 00:25:00,539

I think it is

573

00:25:03,470 --> 00:25:01,080

um

574

00:25:08,810 --> 00:25:03,480

prudent to say

575

00:25:10,789 --> 00:25:08,820

of the of the cases that are showing

576

00:25:13,010 --> 00:25:10,799

it you know some sort of advanced

577

00:25:15,350 --> 00:25:13,020

technical signature of which we're

578

00:25:19,190 --> 00:25:15,360

talking single percentages of the entire

579

00:25:21,289 --> 00:25:19,200

population of cases we have

580

00:25:23,270 --> 00:25:21,299

um I am concerned

581

00:25:26,570 --> 00:25:23,280

about

582

00:25:29,029 --> 00:25:26,580

what that Nexus is and I have indicators

583

00:25:31,190 --> 00:25:29,039

that some are related to foreign

584

00:25:34,190 --> 00:25:31,200

capabilities

585

00:25:35,510 --> 00:25:34,200

we have to investigate that with our IC

586

00:25:38,210 --> 00:25:35,520

partners

587

00:25:40,250 --> 00:25:38,220

and as we get evidence to support that

588

00:25:44,390 --> 00:25:40,260

that gets then handed off to the

589

00:25:55,010 --> 00:25:44,400

appropriate IC agency to investigate

590

00:25:59,870 --> 00:25:57,710

a couple things first of all is

591

00:26:01,549 --> 00:25:59,880

he said it's it's really hard to detect

592

00:26:03,769 --> 00:26:01,559

things when they don't have a you know a

593

00:26:05,450 --> 00:26:03,779

Chinese or Russian flag on it so what I

594

00:26:07,970 --> 00:26:05,460

took away from that is

595

00:26:10,490 --> 00:26:07,980

so that's your problem from identifying

596

00:26:13,669 --> 00:26:10,500

things meaning you have

597

00:26:16,070 --> 00:26:13,679

clear video to tell what it is but

598

00:26:17,090 --> 00:26:16,080

there's no flag on it otherwise you

599

00:26:21,230 --> 00:26:17,100

could tell

600

00:26:22,909 --> 00:26:21,240

so let's see those clear videos

601  
00:26:24,649 --> 00:26:22,919  
also concerned about the small

602  
00:26:28,190 --> 00:26:24,659  
percentage of cases with anomalous

603  
00:26:31,310 --> 00:26:28,200  
signatures indicators that some not all

604  
00:26:38,149 --> 00:26:31,320  
of them are foreign

605  
00:26:43,850 --> 00:26:40,250  
he's saying he has indicators some are

606  
00:26:46,789 --> 00:26:43,860  
foreign these anomalous signatures

607  
00:26:49,789 --> 00:26:46,799  
electronic signatures so a couple of

608  
00:26:52,549 --> 00:26:49,799  
things that I would ask is

609  
00:26:55,190 --> 00:26:52,559  
you know what what are you looking at

610  
00:26:57,890 --> 00:26:55,200  
that's different from like Lou Elizondo

611  
00:27:01,190 --> 00:26:57,900  
for instance

612  
00:27:02,870 --> 00:27:01,200  
you know does he have extra intelligence

613  
00:27:05,510 --> 00:27:02,880

that's telling them that some of this

614

00:27:07,909 --> 00:27:05,520

stuff could be foreign what's the deal

615

00:27:11,210 --> 00:27:07,919

why are there two different takes there

616

00:27:14,830 --> 00:27:11,220

what are you not seeing

617

00:27:18,769 --> 00:27:14,840

or he said some so are there some

618

00:27:20,630 --> 00:27:18,779

foreign anomalous Vehicles perhaps as

619

00:27:23,409 --> 00:27:20,640

well

620

00:27:28,130 --> 00:27:23,419

as interdimensional extra dimensional

621

00:27:32,230 --> 00:27:28,140

extra terrestrial time traveler type

622

00:27:41,330 --> 00:27:36,289

and you said there seems to be some

623

00:27:43,669 --> 00:27:41,340

indicators uh so just Josh said

624

00:27:46,090 --> 00:27:43,679

something pretty important he didn't he

625

00:27:49,070 --> 00:27:46,100

say Advanced Technic technical

626  
00:27:51,590 --> 00:27:49,080  
signatures not necessarily anomalous

627  
00:27:56,210 --> 00:27:51,600  
the wording is important yeah it is

628  
00:28:01,789 --> 00:28:00,169  
he did say Advanced but I then I think

629  
00:28:04,850 --> 00:28:01,799  
that's up to him

630  
00:28:06,409 --> 00:28:04,860  
to correctly categorize that for the

631  
00:28:09,110 --> 00:28:06,419  
audience what's the difference between

632  
00:28:10,250 --> 00:28:09,120  
anomalous and advanced anomalous I would

633  
00:28:12,350 --> 00:28:10,260  
think is something that you can't make

634  
00:28:14,450 --> 00:28:12,360  
sense of Advance is something you

635  
00:28:15,590 --> 00:28:14,460  
understand but it's just kind of beyond

636  
00:28:16,970 --> 00:28:15,600  
your Realm

637  
00:28:18,409 --> 00:28:16,980  
I don't know

638  
00:28:19,669 --> 00:28:18,419

it's interesting that's a good point

639

00:28:22,610 --> 00:28:19,679

Josh

640

00:28:25,070 --> 00:28:22,620

good point for us today uh could you

641

00:28:28,730 --> 00:28:25,080

describe Potential Threat that might

642

00:28:31,010 --> 00:28:28,740

exist out there if they are foreign sure

643

00:28:32,930 --> 00:28:31,020

Nexus

644

00:28:34,810 --> 00:28:32,940

in order to do this research

645

00:28:38,930 --> 00:28:34,820

appropriately

646

00:28:40,430 --> 00:28:38,940

we have to also be cognizant of what is

647

00:28:45,190 --> 00:28:40,440

the state of the art and Development

648

00:28:51,590 --> 00:28:48,409

uh that's what ASAP did so basically

649

00:28:53,269 --> 00:28:51,600

what he's saying he's going to do is

650

00:28:55,730 --> 00:28:53,279

look at

651  
00:28:57,890 --> 00:28:55,740  
the technology 50 years down the road

652  
00:29:00,529 --> 00:28:57,900  
and what's beyond that those are exactly

653  
00:29:02,810 --> 00:29:00,539  
what the aseb Nerds were so that he's

654  
00:29:07,310 --> 00:29:02,820  
just gonna do that again apparently

655  
00:29:09,169 --> 00:29:07,320  
the adversary is not

656  
00:29:11,330 --> 00:29:09,179  
waiting

657  
00:29:12,649 --> 00:29:11,340  
they are advancing and they're advancing

658  
00:29:14,930 --> 00:29:12,659  
quickly

659  
00:29:16,430 --> 00:29:14,940  
if I were to put on some of my old hats

660  
00:29:20,149 --> 00:29:16,440  
I would tell you

661  
00:29:23,210 --> 00:29:20,159  
they are less risk-averse at technical

662  
00:29:25,070 --> 00:29:23,220  
advancement than we are

663  
00:29:27,110 --> 00:29:25,080

right they are just willing to try

664

00:29:29,090 --> 00:29:27,120

things and see if it works

665

00:29:31,909 --> 00:29:29,100

are there capabilities that could be

666

00:29:34,310 --> 00:29:31,919

employed against us in both an ISR and a

667

00:29:36,590 --> 00:29:34,320

weapons fashion absolutely

668

00:29:39,430 --> 00:29:36,600

do I have evidence that they're doing it

669

00:29:43,789 --> 00:29:39,440

in these cases

670

00:29:45,649 --> 00:29:43,799

no but I have concerning indicators

671

00:29:47,990 --> 00:29:45,659

what does that mean concerning

672

00:29:50,330 --> 00:29:48,000

indicators

673

00:29:52,970 --> 00:29:50,340

it's interesting that he kind of tells

674

00:29:55,370 --> 00:29:52,980

you how the foreign actors kind of work

675

00:29:58,010 --> 00:29:55,380

as well you know so

676  
00:30:00,950 --> 00:29:58,020  
they're a little more cowboyish about

677  
00:30:04,130 --> 00:30:00,960  
their experiments so if they did try

678  
00:30:07,490 --> 00:30:04,140  
something some weird technology

679  
00:30:10,370 --> 00:30:07,500  
they could just you know try it against

680  
00:30:13,010 --> 00:30:10,380  
being safe apparently

681  
00:30:13,020 --> 00:30:15,950  
so

682  
00:30:20,090 --> 00:30:17,570  
you know my relationship with the

683  
00:30:22,130 --> 00:30:20,100  
commands are are very good I just came

684  
00:30:23,930 --> 00:30:22,140  
back from uh sitting down with with

685  
00:30:26,029 --> 00:30:23,940  
General van hurk and all the all the J

686  
00:30:28,310 --> 00:30:26,039  
staff out at North com a couple weeks

687  
00:30:30,889 --> 00:30:28,320  
ago talking through exactly what we need

688  
00:30:34,130 --> 00:30:30,899

to do to help them get their arms around

689

00:30:39,649 --> 00:30:36,950

he needs to help NORAD get their arms

690

00:30:42,409 --> 00:30:39,659

around this so that sounds like a

691

00:30:45,310 --> 00:30:42,419

problem to me I think it's statements

692

00:30:48,889 --> 00:30:45,320

like this that if anybody had any doubt

693

00:30:50,750 --> 00:30:48,899

the seriousness of of this and why it's

694

00:30:52,970 --> 00:30:50,760

happening I think that should be kind of

695

00:30:55,549 --> 00:30:52,980

put to bed right now if this Kirkpatrick

696

00:30:58,490 --> 00:30:55,559

is going to NORAD and helping them get

697

00:30:59,990 --> 00:30:58,500

their arms around this which means a

698

00:31:03,049 --> 00:31:00,000

problem

699

00:31:05,570 --> 00:31:03,059

um it's serious so whether you're a

700

00:31:08,029 --> 00:31:05,580

debunker or not I think there is

701  
00:31:10,549 --> 00:31:08,039  
something real going on and I think we

702  
00:31:12,289 --> 00:31:10,559  
got that through this hearing whether

703  
00:31:15,889 --> 00:31:12,299  
it's foreign

704  
00:31:18,409 --> 00:31:15,899  
or not is another question or if there's

705  
00:31:21,110 --> 00:31:18,419  
both but it's clear there is a serious

706  
00:31:23,810 --> 00:31:21,120  
issue so I think everybody should be on

707  
00:31:26,450 --> 00:31:23,820  
board with this no matter where you

708  
00:31:30,649 --> 00:31:28,730  
um are outside of our DOD and IC

709  
00:31:31,870 --> 00:31:30,659  
Partners to extend our collection

710  
00:31:34,850 --> 00:31:31,880  
posture

711  
00:31:36,950 --> 00:31:34,860  
targeted at some of these key areas that

712  
00:31:39,830 --> 00:31:36,960  
you saw on that heat map

713  
00:31:43,250 --> 00:31:39,840

that have a lot of activity so that we

714

00:31:45,830 --> 00:31:43,260

can turn on extra collection when an

715

00:31:47,590 --> 00:31:45,840

operator sees something so part of this

716

00:31:50,870 --> 00:31:47,600

is generating

717

00:31:53,630 --> 00:31:50,880

as a response function in what we call a

718

00:31:55,669 --> 00:31:53,640

tactic technique and procedure for an

719

00:31:57,830 --> 00:31:55,679

operator when he sees something calls

720

00:32:00,169 --> 00:31:57,840

back to the operations floor they can

721

00:32:02,450 --> 00:32:00,179

turn on additional collection what does

722

00:32:04,310 --> 00:32:02,460

that collection look like how do I bring

723

00:32:07,330 --> 00:32:04,320

all that together so I can get more data

724

00:32:10,130 --> 00:32:07,340

on what is that thing

725

00:32:11,750 --> 00:32:10,140

what he's saying there is he wants to

726  
00:32:13,730 --> 00:32:11,760  
have the ability to have private

727  
00:32:16,430 --> 00:32:13,740  
contractors activate more data

728  
00:32:18,710 --> 00:32:16,440  
collection when a sighting comes in

729  
00:32:21,409 --> 00:32:18,720  
that's what he's saying so he wants to

730  
00:32:23,710 --> 00:32:21,419  
have the ability when a pilot or whoever

731  
00:32:27,769 --> 00:32:23,720  
Ryan Graves or whoever reports something

732  
00:32:31,190 --> 00:32:27,779  
that this other contractor can or

733  
00:32:35,870 --> 00:32:31,200  
private entity whatever can

734  
00:32:38,470 --> 00:32:35,880  
activate their other signature finding

735  
00:32:40,070 --> 00:32:38,480  
technology

736  
00:32:42,529 --> 00:32:40,080  
foreign

737  
00:32:45,049 --> 00:32:42,539  
do you need any authorities that you

738  
00:32:46,610 --> 00:32:45,059

don't have to uh get get the data there

739

00:32:48,409 --> 00:32:46,620

are some authorities that we need we

740

00:32:50,570 --> 00:32:48,419

currently are operating under title 10

741

00:32:52,549 --> 00:32:50,580

authorities but we have

742

00:32:54,889 --> 00:32:52,559

um you know good relationships across

743

00:32:57,010 --> 00:32:54,899

the other agencies but having additional

744

00:32:58,490 --> 00:32:57,020

authorities for collection tasking

745

00:33:00,230 --> 00:32:58,500

counterintelligence that's something

746

00:33:02,930 --> 00:33:00,240

those are all things that would be

747

00:33:07,370 --> 00:33:04,850

uh quick before I go on to this from

748

00:33:08,990 --> 00:33:07,380

Andres they give Trenton Russia way too

749

00:33:10,549 --> 00:33:09,000

much credit career of stealing American

750

00:33:11,510 --> 00:33:10,559

Tech and suddenly they have advanced

751  
00:33:15,590 --> 00:33:11,520  
Tech

752  
00:33:18,350 --> 00:33:15,600  
I wouldn't be so sure only because

753  
00:33:19,909 --> 00:33:18,360  
this is a reoccurring theme is that

754  
00:33:22,789 --> 00:33:19,919  
China's advancing

755  
00:33:24,289 --> 00:33:22,799  
so Russia I don't know but uh that

756  
00:33:26,389 --> 00:33:24,299  
China's advancing of course yeah they

757  
00:33:28,130 --> 00:33:26,399  
stole stuff from us or whatever but

758  
00:33:31,310 --> 00:33:28,140  
they're apparently like leading in

759  
00:33:33,409 --> 00:33:31,320  
things like AI out of like 34 to 36

760  
00:33:37,549 --> 00:33:33,419  
important emerging Technologies they're

761  
00:33:39,789 --> 00:33:37,559  
leading the US in a lot of those so

762  
00:33:43,909 --> 00:33:39,799  
I'm not sure that that's so true anymore

763  
00:33:48,350 --> 00:33:43,919

maybe about Russia it is but China seems

764

00:33:52,990 --> 00:33:49,029

um

765

00:33:58,130 --> 00:33:56,450

more Authority so he's I think it was

766

00:33:59,750 --> 00:33:58,140

title 10 or whatever and he needs to be

767

00:34:01,789 --> 00:33:59,760

title 50 I don't know I don't get into

768

00:34:03,230 --> 00:34:01,799

the weeds with that stuff but he doesn't

769

00:34:05,870 --> 00:34:03,240

have enough authority to do what he

770

00:34:07,789 --> 00:34:05,880

needs to do so

771

00:34:10,250 --> 00:34:07,799

um and that's basically collection

772

00:34:11,990 --> 00:34:10,260

tasking so what he would be doing I'm

773

00:34:15,109 --> 00:34:12,000

assuming is telling someone like I don't

774

00:34:17,290 --> 00:34:15,119

know nro hey can you do this with your

775

00:34:19,070 --> 00:34:17,300

satellites to try to pick up UAP

776

00:34:20,450 --> 00:34:19,080

counterintelligence I'm not sure what he

777

00:34:22,129 --> 00:34:20,460

would do with that counterintelligence

778

00:34:24,470 --> 00:34:22,139

always seems to be involved with UAP

779

00:34:26,149 --> 00:34:24,480

even going back to the the Blue Book

780

00:34:29,930 --> 00:34:26,159

days I would assume maybe

781

00:34:31,909 --> 00:34:29,940

counterintelligence would be more for

782

00:34:33,470 --> 00:34:31,919

um you know foreign stuff

783

00:34:35,629 --> 00:34:33,480

you know helping out to see what's

784

00:34:37,849 --> 00:34:35,639

foreign what isn't because we got to

785

00:34:38,810 --> 00:34:37,859

keep in mind even if they don't identify

786

00:34:43,490 --> 00:34:38,820

something

787

00:34:45,770 --> 00:34:43,500

whether it's a stupid balloon or a drone

788

00:34:47,389 --> 00:34:45,780

or whatever so that unfortunately until

789

00:34:50,089 --> 00:34:47,399

it gets identified is going to be in the

790

00:34:51,950 --> 00:34:50,099

mix with all this stuff

791

00:34:56,089 --> 00:34:51,960

but he needs more Authority he doesn't

792

00:35:04,910 --> 00:34:59,589

and probably by Design so USD ins and

793

00:35:05,630 --> 00:35:04,920

the uh I I currently report to USD ins

794

00:35:08,990 --> 00:35:05,640

um

795

00:35:09,829 --> 00:35:09,000

until they come up with the the plan for

796

00:35:12,710 --> 00:35:09,839

how they're going to implement

797

00:35:19,490 --> 00:35:16,310

DOD and dni are working through that now

798

00:35:24,310 --> 00:35:19,500

I'd have to refer you back to USD ins on

799

00:35:30,410 --> 00:35:27,470

officially passed legislation being

800

00:35:32,630 --> 00:35:30,420

stonewalled by DOD I think I counted

801  
00:35:36,410 --> 00:35:32,640  
like four different things that are

802  
00:35:38,410 --> 00:35:36,420  
waiting on other people DOD to do The

803  
00:35:41,750 --> 00:35:38,420  
Whistleblower thing

804  
00:35:44,329 --> 00:35:41,760  
approval of a public

805  
00:35:47,030 --> 00:35:44,339  
engagements

806  
00:35:49,609 --> 00:35:47,040  
um and a couple other things so the dod

807  
00:35:51,470 --> 00:35:49,619  
is actively four months

808  
00:35:53,750 --> 00:35:51,480  
you know

809  
00:35:56,329 --> 00:35:53,760  
at least

810  
00:35:58,550 --> 00:35:56,339  
and that they're not

811  
00:35:59,990 --> 00:35:58,560  
they're not implementing the law the

812  
00:36:05,450 --> 00:36:00,000  
Department of Defense is not

813  
00:36:09,890 --> 00:36:07,849

so that's about it

814

00:36:10,690 --> 00:36:09,900

Congress also set up a process whereby

815

00:36:13,190 --> 00:36:10,700

people

816

00:36:14,750 --> 00:36:13,200

subject to non-disclosure agreements

817

00:36:16,010 --> 00:36:14,760

preventing them from disclosing what

818

00:36:18,470 --> 00:36:16,020

they may have witnessed or participated

819

00:36:19,910 --> 00:36:18,480

in could tell you what they know that

820

00:36:22,550 --> 00:36:19,920

risk of Retribution from the or

821

00:36:24,109 --> 00:36:22,560

violation of their ndas have you

822

00:36:25,730 --> 00:36:24,119

submitted a public-facing website

823

00:36:28,310 --> 00:36:25,740

product for approval to your superiors

824

00:36:32,030 --> 00:36:28,320

and how long has it been under review

825

00:36:35,990 --> 00:36:32,040

I have we submitted the first version of

826

00:36:39,950 --> 00:36:38,210

and do you have an estimate from them

827

00:36:43,250 --> 00:36:39,960

when they will respond and when you'll

828

00:36:45,530 --> 00:36:43,260

have feedback on that no no I don't okay

829

00:36:47,690 --> 00:36:45,540

no

830

00:36:50,810 --> 00:36:47,700

doesn't even have

831

00:36:53,270 --> 00:36:50,820

any feedback for when the dod would be

832

00:36:56,630 --> 00:36:53,280

able to

833

00:37:01,849 --> 00:36:59,270

so who's who's who is the dod

834

00:37:03,530 --> 00:37:01,859

accountable to

835

00:37:06,010 --> 00:37:03,540

because they're the ones holding all

836

00:37:09,770 --> 00:37:07,970

so who are they accountable to

837

00:37:11,810 --> 00:37:09,780

apparently nobody

838

00:37:13,550 --> 00:37:11,820

so

839

00:37:16,310 --> 00:37:13,560

when do you expect that you will

840

00:37:16,970 --> 00:37:16,320

establish a public-facing discoverable

841

00:37:19,250 --> 00:37:16,980

um

842

00:37:24,050 --> 00:37:19,260

an access portal for people to use to

843

00:37:28,069 --> 00:37:26,510

she tries to ask again you just

844

00:37:30,109 --> 00:37:28,079

completely

845

00:37:34,970 --> 00:37:30,119

doesn't answer and doesn't even

846

00:37:40,430 --> 00:37:38,390

so I would like to First say thank you

847

00:37:43,130 --> 00:37:40,440

all very much for

848

00:37:45,470 --> 00:37:43,140

um you know that's not what we asked

849

00:37:47,210 --> 00:37:45,480

we asked when The Whistleblower thing

850

00:37:50,690 --> 00:37:47,220

was going to be ready to go

851  
00:37:51,650 --> 00:37:50,700  
and then he goes with his well first let

852  
00:37:53,510 --> 00:37:51,660  
me

853  
00:37:56,150 --> 00:37:53,520  
correctly

854  
00:37:59,329 --> 00:37:56,160  
present

855  
00:38:01,430 --> 00:37:59,339  
my answer I'm referring the witnesses

856  
00:38:03,890 --> 00:38:01,440  
that you have thus far to us I

857  
00:38:06,349 --> 00:38:03,900  
appreciate that we've brought in nearly

858  
00:38:08,450 --> 00:38:06,359  
two dozen so far it's been it's been

859  
00:38:10,370 --> 00:38:08,460  
very uh helpful I'd ask that you

860  
00:38:11,770 --> 00:38:10,380  
continue to do that until we have an

861  
00:38:14,990 --> 00:38:11,780  
approved plan

862  
00:38:18,109 --> 00:38:15,000  
we have a multi-phased approach for

863  
00:38:20,329 --> 00:38:18,119

doing that that we've been uh

864

00:38:22,430 --> 00:38:20,339  
socializing I have submitted for

865

00:38:23,950 --> 00:38:22,440  
approval

866

00:38:26,450 --> 00:38:23,960  
sometime

867

00:38:28,849 --> 00:38:26,460  
and once that happens then we should be

868

00:38:31,370 --> 00:38:28,859  
able to push all that out and get get

869

00:38:33,170 --> 00:38:31,380  
this a little more automated great

870

00:38:36,170 --> 00:38:33,180  
um what I would ask though is as you all

871

00:38:38,390 --> 00:38:36,180  
continue to refer to us and refer

872

00:38:41,870 --> 00:38:38,400  
witnesses to us I'd appreciate if you do

873

00:38:43,730 --> 00:38:41,880  
that please try to prioritize the ones

874

00:38:47,690 --> 00:38:43,740  
that you want to do because we do have a

875

00:38:49,630 --> 00:38:47,700  
small research staff dealing with that

876

00:38:52,790 --> 00:38:49,640

thanks

877

00:38:54,470 --> 00:38:52,800

he wants more witnesses from Congress so

878

00:38:56,089 --> 00:38:54,480

what does that tell me that tells me

879

00:38:57,829 --> 00:38:56,099

that they're of some value he didn't

880

00:39:00,410 --> 00:38:57,839

have to say that

881

00:39:02,089 --> 00:39:00,420

you know he didn't have to say thank you

882

00:39:03,890 --> 00:39:02,099

for the witnesses or keep sending him to

883

00:39:06,290 --> 00:39:03,900

me or whatever he didn't have to say any

884

00:39:08,630 --> 00:39:06,300

of that but he did so out of the two

885

00:39:10,569 --> 00:39:08,640

dozen Witnesses I'm guessing that he's

886

00:39:12,770 --> 00:39:10,579

gotten some things of value

887

00:39:13,910 --> 00:39:12,780

and we know some of the people who have

888

00:39:16,010 --> 00:39:13,920

come to him

889

00:39:19,069 --> 00:39:16,020

we don't know all of them

890

00:39:20,690 --> 00:39:19,079

so it'd be really great to know who

891

00:39:24,910 --> 00:39:20,700

is helping

892

00:39:31,089 --> 00:39:28,310

so we have a uh

893

00:39:33,530 --> 00:39:31,099

a number of public engagement

894

00:39:36,589 --> 00:39:33,540

recommendations according to our

895

00:39:38,870 --> 00:39:36,599

strategic plan all of those have been

896

00:39:42,950 --> 00:39:38,880

submitted for approval they have to be

897

00:39:46,970 --> 00:39:42,960

approved by usdins we are waiting for

898

00:39:52,670 --> 00:39:49,010

Here We Go Again public engagements

899

00:39:55,609 --> 00:39:52,680

probably mean using Twitter more for

900

00:39:57,410 --> 00:39:55,619

starters and again we're waiting on dod

901  
00:39:59,390 --> 00:39:57,420  
you notice that Arrow has had a Twitter

902  
00:40:01,790 --> 00:39:59,400  
for a long time and as far as their

903  
00:40:04,250 --> 00:40:01,800  
public engagement plans they're still

904  
00:40:07,190 --> 00:40:04,260  
waiting on the dod so whenever the dod

905  
00:40:10,490 --> 00:40:07,200  
wakes up from their nap apparently

906  
00:40:11,210 --> 00:40:10,500  
um public engagements might begin to

907  
00:40:14,450 --> 00:40:11,220  
happen

908  
00:40:17,390 --> 00:40:14,460  
I'm assuming that social media might be

909  
00:40:22,730 --> 00:40:21,230  
here so the vision is at one point at

910  
00:40:24,950 --> 00:40:22,740  
some point in the future

911  
00:40:27,589 --> 00:40:24,960  
you should not need an arrow

912  
00:40:29,750 --> 00:40:27,599  
if I'm successful in what I'm doing we

913  
00:40:32,450 --> 00:40:29,760

should be able to normalize everything

914

00:40:35,390 --> 00:40:32,460

that we're doing into existing processes

915

00:40:37,130 --> 00:40:35,400

functions agencies and organizations and

916

00:40:39,710 --> 00:40:37,140

make that part of their mission and

917

00:40:43,550 --> 00:40:39,720

their role right now the niche that we

918

00:40:46,130 --> 00:40:43,560

form is really going after the unknowns

919

00:40:49,730 --> 00:40:46,140

if you I think you articulated it early

920

00:40:51,770 --> 00:40:49,740

on this is a Hunt mission for what might

921

00:40:56,089 --> 00:40:51,780

somebody be doing in our backyard that

922

00:40:59,569 --> 00:40:58,490

right and so

923

00:41:03,650 --> 00:40:59,579

um

924

00:41:09,430 --> 00:41:05,710

of public engagement

925

00:41:14,870 --> 00:41:12,230

all of those have been submitted for

926

00:41:16,130 --> 00:41:14,880

approval they have to be approved by USD

927

00:41:18,770 --> 00:41:16,140

ins

928

00:41:20,270 --> 00:41:18,780

we are waiting for approval to go do

929

00:41:22,490 --> 00:41:20,280

that okay

930

00:41:24,950 --> 00:41:22,500

so again basically like this guy's got

931

00:41:26,750 --> 00:41:24,960

his ducks and his religion is he's got

932

00:41:29,390 --> 00:41:26,760

his ducks in a row and he's waiting on

933

00:41:30,470 --> 00:41:29,400

the dod at one point at some point in

934

00:41:33,290 --> 00:41:30,480

the future

935

00:41:35,450 --> 00:41:33,300

you should not need an arrow if I'm

936

00:41:37,790 --> 00:41:35,460

successful in what I'm doing we should

937

00:41:40,069 --> 00:41:37,800

be able to normalize everything that

938

00:41:43,069 --> 00:41:40,079

we're doing into existing processes

939

00:41:44,810 --> 00:41:43,079

functions agencies and organizations and

940

00:41:47,390 --> 00:41:44,820

make that part of their mission and

941

00:41:51,230 --> 00:41:47,400

their role right now the niche that we

942

00:41:53,810 --> 00:41:51,240

form is really going after the unknowns

943

00:41:56,690 --> 00:41:53,820

if you I think you articulated it early

944

00:41:58,849 --> 00:41:56,700

on this is a Hunt mission for

945

00:42:01,569 --> 00:41:58,859

what might somebody be doing in our

946

00:42:05,210 --> 00:42:01,579

backyard that we don't know about

947

00:42:07,490 --> 00:42:05,220

interesting hey uh he wants to develop

948

00:42:09,589 --> 00:42:07,500

protocols and split Hunt mission for the

949

00:42:12,109 --> 00:42:09,599

unknown so basically what he's saying is

950

00:42:15,170 --> 00:42:12,119

he wants to develop a process and a

951  
00:42:17,870 --> 00:42:15,180  
protocol that all the military branches

952  
00:42:20,810 --> 00:42:17,880  
or intelligence branches or agencies can

953  
00:42:23,150 --> 00:42:20,820  
use so that Arrow doesn't need to be in

954  
00:42:26,750 --> 00:42:23,160  
existence anymore

955  
00:42:28,670 --> 00:42:26,760  
which is really interesting because

956  
00:42:30,589 --> 00:42:28,680  
I don't know

957  
00:42:33,650 --> 00:42:30,599  
if something's unknown how do you really

958  
00:42:35,450 --> 00:42:33,660  
how do you work with that so I don't

959  
00:42:37,490 --> 00:42:35,460  
know but it's a Hunt mission and what's

960  
00:42:40,370 --> 00:42:37,500  
extremely clear through it throughout

961  
00:42:42,650 --> 00:42:40,380  
this uh hearing as well is that they are

962  
00:42:44,990 --> 00:42:42,660  
in fact just dealing with the anomalous

963  
00:42:45,829 --> 00:42:45,000

you know so

964

00:42:47,329 --> 00:42:45,839

um

965

00:42:49,130 --> 00:42:47,339

that's good

966

00:42:50,569 --> 00:42:49,140

you know so we won't get bogged down

967

00:42:51,890 --> 00:42:50,579

with a lot of balloons drones and all

968

00:42:53,810 --> 00:42:51,900

that kind of stuff and he'll be just

969

00:42:56,030 --> 00:42:53,820

trying to work on you know anomalous

970

00:42:58,550 --> 00:42:56,040

things

971

00:43:02,150 --> 00:42:58,560

right and so as arrow is developing and

972

00:43:05,510 --> 00:43:02,160

implementing its science plan it has to

973

00:43:07,970 --> 00:43:05,520

do so grounded in a solid foundation of

974

00:43:10,190 --> 00:43:07,980

scientific theory across the entire

975

00:43:13,490 --> 00:43:10,200

range of hypotheses

976  
00:43:15,829 --> 00:43:13,500  
that have been presented for what UAP

977  
00:43:19,849 --> 00:43:15,839  
are

978  
00:43:21,950 --> 00:43:19,859  
that range spans adversary breakthrough

979  
00:43:24,589 --> 00:43:21,960  
technology on one hand

980  
00:43:26,690 --> 00:43:24,599  
known objects and phenomena in the

981  
00:43:29,450 --> 00:43:26,700  
middle all the way to the extreme

982  
00:43:33,829 --> 00:43:29,460  
theories of extraterrestrials

983  
00:43:35,630 --> 00:43:33,839  
all of that has physics-based signatures

984  
00:43:38,750 --> 00:43:35,640  
associated with it whether it's

985  
00:43:41,270 --> 00:43:38,760  
theoretical from the academic community

986  
00:43:42,530 --> 00:43:41,280  
known from things like Hypersonic

987  
00:43:43,930 --> 00:43:42,540  
weapons

988  
00:43:46,550 --> 00:43:43,940

or

989

00:43:51,829 --> 00:43:46,560

adversary breakthrough Technologies as

990

00:43:56,510 --> 00:43:54,349

his paper with Avi was about imaginary

991

00:44:00,190 --> 00:43:56,520

signatures of an ET craft so basically

992

00:44:02,809 --> 00:44:00,200

what he's trying to say there is

993

00:44:06,050 --> 00:44:02,819

what are you saying more the less is

994

00:44:08,390 --> 00:44:06,060

what he did with the Avi was try to come

995

00:44:10,069 --> 00:44:08,400

up with signatures or what it would look

996

00:44:11,690 --> 00:44:10,079

like if

997

00:44:15,650 --> 00:44:11,700

um some of these fears really probably

998

00:44:17,030 --> 00:44:15,660

basically were E.T uh craft

999

00:44:18,650 --> 00:44:17,040

so

1000

00:44:22,790 --> 00:44:18,660

if people are wondering a little bit I

1001  
00:44:24,589 --> 00:44:22,800  
think he kind of uh explained that paper

1002  
00:44:27,950 --> 00:44:24,599  
all that

1003  
00:44:31,390 --> 00:44:27,960  
where NASA comes in and and the the

1004  
00:44:34,609 --> 00:44:31,400  
study that they're doing which I'm

1005  
00:44:39,950 --> 00:44:34,619  
supporting is

1006  
00:44:42,829 --> 00:44:39,960  
really looking at the unclassified data

1007  
00:44:45,829 --> 00:44:42,839  
sources that might be used to augment

1008  
00:44:47,870 --> 00:44:45,839  
our classified data sources to

1009  
00:44:50,210 --> 00:44:47,880  
understand if there's a signature there

1010  
00:44:53,290 --> 00:44:50,220  
we can pull on so very similar to The

1011  
00:44:56,030 --> 00:44:53,300  
Radars but

1012  
00:44:58,370 --> 00:44:56,040  
civil capabilities so for example we

1013  
00:45:01,069 --> 00:44:58,380

have a lot of climate science satellites

1014

00:45:04,490 --> 00:45:01,079

for example that look at Earth

1015

00:45:07,430 --> 00:45:04,500

lots of them how many of those

1016

00:45:11,030 --> 00:45:07,440

is the data valuable

1017

00:45:14,569 --> 00:45:11,040

in seeing these kinds of objects

1018

00:45:17,030 --> 00:45:14,579

foreign so that size of the objects

1019

00:45:19,010 --> 00:45:17,040

we're looking for are tip

1020

00:45:23,270 --> 00:45:19,020

interesting you mentioned that system

1021

00:45:24,530 --> 00:45:23,280

NASA is there to give unclassified kind

1022

00:45:27,770 --> 00:45:24,540

of ideas

1023

00:45:29,089 --> 00:45:27,780

for where to look for UAP which is

1024

00:45:32,030 --> 00:45:29,099

I don't know

1025

00:45:33,230 --> 00:45:32,040

kind of interesting that we keep kind of

1026

00:45:35,349 --> 00:45:33,240

um

1027

00:45:38,270 --> 00:45:35,359

getting around the bush with a

1028

00:45:41,870 --> 00:45:38,280

classification typically reported to be

1029

00:45:45,650 --> 00:45:43,790

this was kind of weird looking for

1030

00:45:47,750 --> 00:45:45,660

objects that are typically one to four

1031

00:45:49,490 --> 00:45:47,760

meters so why is that weird to me it's

1032

00:45:52,250 --> 00:45:49,500

weird to me because

1033

00:45:55,130 --> 00:45:52,260

if we're connecting any of this stuff to

1034

00:45:57,950 --> 00:45:55,140

the past past cases I'm not saying we

1035

00:46:00,309 --> 00:45:57,960

should or shouldn't I'm just saying

1036

00:46:03,950 --> 00:46:00,319

um if you study past cases

1037

00:46:06,349 --> 00:46:03,960

these things aren't one to four meters

1038

00:46:08,150 --> 00:46:06,359

you know so and I thought that when I

1039

00:46:10,730 --> 00:46:08,160

saw some of the Navy videos and now we

1040

00:46:13,190 --> 00:46:10,740

have like this orb stuff like these UFOs

1041

00:46:14,990 --> 00:46:13,200

have become a lot smaller

1042

00:46:18,230 --> 00:46:15,000

than they used to be

1043

00:46:19,970 --> 00:46:18,240

so that's uh extremely interesting to me

1044

00:46:21,410 --> 00:46:19,980

what does that mean

1045

00:46:24,010 --> 00:46:21,420

I don't know

1046

00:46:29,930 --> 00:46:24,020

but there's a difference there between

1047

00:46:36,410 --> 00:46:32,150

so that's about it that's our recap as

1048

00:46:41,089 --> 00:46:36,420

far as that goes and then we also have

1049

00:46:48,050 --> 00:46:44,210

which I found pretty interesting so we

1050

00:46:49,910 --> 00:46:48,060

have round atypical orientation so this

1051

00:46:53,329 --> 00:46:49,920

is like the typically reported UAP

1052

00:46:55,970 --> 00:46:53,339

characteristics from 96 to 2003 what I

1053

00:46:59,569 --> 00:46:55,980

would really like is that data set where

1054

00:47:01,430 --> 00:46:59,579

are those cases what cases are they

1055

00:47:02,990 --> 00:47:01,440

you know I would really love to know

1056

00:47:05,569 --> 00:47:03,000

that

1057

00:47:08,569 --> 00:47:05,579

um because we may disagree we found with

1058

00:47:11,089 --> 00:47:08,579

air force uh Blue Book stuff like there

1059

00:47:12,470 --> 00:47:11,099

are plenty disagreements on cases so I

1060

00:47:14,750 --> 00:47:12,480

don't know it would just be great to

1061

00:47:16,670 --> 00:47:14,760

know this performance altitude 10 to 30k

1062

00:47:18,170 --> 00:47:16,680

so that's in commercial airspace so

1063

00:47:20,589 --> 00:47:18,180

that's one reason they probably think

1064

00:47:23,210 --> 00:47:20,599

this is a national security issue

1065

00:47:25,010 --> 00:47:23,220

stationery to Mach 2. I'd like to know a

1066

00:47:27,470 --> 00:47:25,020

little bit more about that does it go

1067

00:47:30,109 --> 00:47:27,480

from stationary to Mach 2

1068

00:47:34,730 --> 00:47:30,119

like it's sitting there and then it goes

1069

00:47:36,410 --> 00:47:34,740

to Mach 2. or are these just variables

1070

00:47:38,930 --> 00:47:36,420

in what you've seen you've seen things

1071

00:47:41,270 --> 00:47:38,940

that are stationary but you've also seen

1072

00:47:42,170 --> 00:47:41,280

other things go muck too I'd love to

1073

00:47:45,470 --> 00:47:42,180

know

1074

00:47:48,109 --> 00:47:45,480

are those the same or different

1075

00:47:50,990 --> 00:47:48,119

no thermal exhaust detected yeah we know

1076

00:47:52,910 --> 00:47:51,000

that that's an observable

1077

00:47:55,550 --> 00:47:52,920

um intermittent so we have this radar

1078

00:47:57,589 --> 00:47:55,560

and radio things the signatures I would

1079

00:47:59,650 --> 00:47:57,599

love to hear from some smarter people as

1080

00:48:03,050 --> 00:47:59,660

far as what we can take away from this

1081

00:48:05,150 --> 00:48:03,060

because I'm not really sure

1082

00:48:07,010 --> 00:48:05,160

thermal intermittent shortwave infrared

1083

00:48:08,750 --> 00:48:07,020

medium wave infrared so what does that

1084

00:48:11,210 --> 00:48:08,760

mean if those are signatures that are

1085

00:48:14,210 --> 00:48:11,220

being picked up I would like to know

1086

00:48:15,829 --> 00:48:14,220

what we can take away from that and he

1087

00:48:17,930 --> 00:48:15,839

didn't explain any of that as far as

1088

00:48:21,470 --> 00:48:17,940

what that means and

1089

00:48:25,609 --> 00:48:23,630

because if I don't know what that means

1090

00:48:27,890 --> 00:48:25,619

that probably a lot of other people

1091

00:48:29,630 --> 00:48:27,900

don't including the Congress people

1092

00:48:31,430 --> 00:48:29,640

and that could be why they didn't ask if

1093

00:48:32,870 --> 00:48:31,440

the reported UAP morphology is

1094

00:48:37,010 --> 00:48:32,880

interesting

1095

00:48:39,650 --> 00:48:37,020

orb round sphere 52 percent

1096

00:48:42,050 --> 00:48:39,660

it's interesting that he put orb in

1097

00:48:44,990 --> 00:48:42,060

there instead of just round sphere

1098

00:48:50,150 --> 00:48:47,450

um why did he put the word orb in there

1099

00:48:52,550 --> 00:48:50,160

I don't know but

1100

00:48:56,530 --> 00:48:52,560

half of them are orb and round

1101  
00:49:01,609 --> 00:48:59,510  
stationery to Mark II I think this is

1102  
00:49:05,690 --> 00:49:01,619  
what we're looking at fellas either it's

1103  
00:49:07,250 --> 00:49:05,700  
foreign or not

1104  
00:49:09,770 --> 00:49:07,260  
but I don't know but I think we're

1105  
00:49:11,870 --> 00:49:09,780  
getting a little clear picture possibly

1106  
00:49:14,870 --> 00:49:11,880  
of the things that are really flying

1107  
00:49:17,630 --> 00:49:14,880  
around which is orb round sphere or

1108  
00:49:21,470 --> 00:49:17,640  
brown sphere one to four meters

1109  
00:49:23,150 --> 00:49:21,480  
stationary to Mach 2 no exhaust

1110  
00:49:25,790 --> 00:49:23,160  
and then we also kind of have the hot

1111  
00:49:28,010 --> 00:49:25,800  
spots here but I don't know why he calls

1112  
00:49:29,809 --> 00:49:28,020  
them hot spots because he also said that

1113  
00:49:36,710 --> 00:49:29,819

there's sensor bias

1114

00:49:39,950 --> 00:49:37,800

so

1115

00:49:42,530 --> 00:49:39,960

[Music]

1116

00:49:44,210 --> 00:49:42,540

yeah so that's it for that we're also

1117

00:49:47,089 --> 00:49:44,220

going to look at

1118

00:49:48,170 --> 00:49:47,099

the that's a good question I don't I

1119

00:49:50,030 --> 00:49:48,180

don't know

1120

00:49:52,130 --> 00:49:50,040

you know because balloon's not on there

1121

00:49:53,450 --> 00:49:52,140

so this is morphology so these are just

1122

00:49:56,270 --> 00:49:53,460

shapes

1123

00:49:58,309 --> 00:49:56,280

you know so I'm guessing

1124

00:49:59,990 --> 00:49:58,319

it doesn't matter what it actually is

1125

00:50:03,650 --> 00:50:00,000

you know

1126

00:50:07,550 --> 00:50:04,609

um

1127

00:50:09,530 --> 00:50:07,560

okay so and with this I should say that

1128

00:50:11,210 --> 00:50:09,540

it's good that there's some transparency

1129

00:50:14,210 --> 00:50:11,220

I mean maybe you're not getting the

1130

00:50:16,130 --> 00:50:14,220

answers you want to get

1131

00:50:18,770 --> 00:50:16,140

maybe we don't have all the information

1132

00:50:23,030 --> 00:50:18,780

that went into this report and I agree

1133

00:50:29,270 --> 00:50:27,290

we are getting some information here so

1134

00:50:30,710 --> 00:50:29,280

hopefully we that we can just keep that

1135

00:50:32,329 --> 00:50:30,720

train rolling and get some more

1136

00:50:35,089 --> 00:50:32,339

information

1137

00:50:37,130 --> 00:50:35,099

so that's what I got from that

1138

00:50:39,470 --> 00:50:37,140

um at this point

1139

00:50:41,450 --> 00:50:39,480

I am going to take

1140

00:50:43,069 --> 00:50:41,460

one of my

1141

00:50:45,230 --> 00:50:43,079

famous

1142

00:50:47,750 --> 00:50:45,240

talking it breaks

1143

00:50:52,010 --> 00:50:47,760

and while we do that I'm gonna cue you

1144

00:50:57,650 --> 00:50:52,020

in with an old conversation with the Mr

1145

00:51:15,710 --> 00:51:00,530

so you can check that out

1146

00:51:20,390 --> 00:51:17,930

good evening tonight we go after a

1147

00:51:22,549 --> 00:51:20,400

fantastic story the story that flying

1148

00:51:25,069 --> 00:51:22,559

saucers from other worlds are visiting

1149

00:51:26,870 --> 00:51:25,079

our planet just as we are exploring

1150

00:51:28,069 --> 00:51:26,880

outer space with our own rocket

1151  
00:51:30,230 --> 00:51:28,079  
satellite

1152  
00:51:32,630 --> 00:51:30,240  
Our Guest is former Marine Air Corps

1153  
00:51:34,010 --> 00:51:32,640  
Major Donald Keyhole who has the

1154  
00:51:36,230 --> 00:51:34,020  
supportive scores of prominent

1155  
00:51:38,750 --> 00:51:36,240  
businessmen military men and some

1156  
00:51:42,049 --> 00:51:38,760  
scientists in his campaign to prove that

1157  
00:51:43,849 --> 00:51:42,059  
flying saucers exist if you're curious

1158  
00:51:45,650 --> 00:51:43,859  
to know why major Kehoe charges at the

1159  
00:51:48,290 --> 00:51:45,660  
United States Air Force is deliberately

1160  
00:51:50,390 --> 00:51:48,300  
deluding us when it calls thoughts and

1161  
00:51:52,370 --> 00:51:50,400  
stories the bunk if you want to hear his

1162  
00:51:54,470 --> 00:51:52,380  
own evidence that the saucers are real

1163  
00:51:56,390 --> 00:51:54,480

and his reaction to the claim of two

1164

00:51:58,190 --> 00:51:56,400

Americans who say they've spoken with

1165

00:51:59,930 --> 00:51:58,200

men from Venus

1166

00:52:00,650 --> 00:51:59,940

we'll go after those stories in just a

1167

00:52:03,589 --> 00:52:00,660

moment

1168

00:52:07,270 --> 00:52:03,599

my name is Mike Wallace the cigarette is

1169

00:52:12,530 --> 00:52:09,170

the new

1170

00:52:14,089 --> 00:52:12,540

High filtration filter Parliament

1171

00:52:16,310 --> 00:52:14,099

[Music]

1172

00:52:21,549 --> 00:52:16,320

presents

1173

00:52:25,309 --> 00:52:21,559

[Music]

1174

00:52:28,069 --> 00:52:25,319

a Mike Wallace interview

1175

00:52:30,710 --> 00:52:28,079

we'll meet major Kehoe in just a minute

1176  
00:52:31,970 --> 00:52:30,720  
how does your cigarette stack up against

1177  
00:52:34,790 --> 00:52:31,980  
other brands

1178  
00:52:38,030 --> 00:52:34,800  
well if parliament's your smoke you're

1179  
00:52:41,150 --> 00:52:38,040  
smoking the best because now Parliament

1180  
00:52:42,530 --> 00:52:41,160  
with the recessed filter is best

1181  
00:52:45,290 --> 00:52:42,540  
that's

1182  
00:52:48,170 --> 00:52:45,300  
the new high five or higher filtration

1183  
00:52:50,150 --> 00:52:48,180  
polyp the proof

1184  
00:52:53,329 --> 00:52:50,160  
well suppose I showed

1185  
00:52:55,609 --> 00:52:53,339  
first Parliament is best because only

1186  
00:52:58,190 --> 00:52:55,619  
Parliament can give you over 30 000

1187  
00:53:01,010 --> 00:52:58,200  
traps no other popular cigarette

1188  
00:53:04,089 --> 00:53:01,020

delivers less nicotine and tar

1189

00:53:07,549 --> 00:53:04,099

second unlike ordinary buildings

1190

00:53:10,730 --> 00:53:07,559

parliament's filter is recessed set feet

1191

00:53:13,430 --> 00:53:10,740

down inside here so the Trap nicotine

1192

00:53:16,069 --> 00:53:13,440

and tar can't get on your lips

1193

00:53:18,349 --> 00:53:16,079

and third because it's recessed there's

1194

00:53:20,690 --> 00:53:18,359

no bitter taste of concentrated nicotine

1195

00:53:22,370 --> 00:53:20,700

and tar to spoil parliament's pure

1196

00:53:24,290 --> 00:53:22,380

tobacco flavor

1197

00:53:27,049 --> 00:53:24,300

these filter findings are confirmed by

1198

00:53:29,630 --> 00:53:27,059

the United States testing company over

1199

00:53:32,270 --> 00:53:29,640

30 000 traps exclusive recess filter

1200

00:53:34,910 --> 00:53:32,280

flavor pure protection

1201  
00:53:39,530 --> 00:53:34,920  
yes now smoke the best high filtration

1202  
00:53:43,910 --> 00:53:41,569  
and now to our story

1203  
00:53:46,190 --> 00:53:43,920  
major Donald Kehoe is the director of

1204  
00:53:47,809 --> 00:53:46,200  
the national investigations committee on

1205  
00:53:50,569 --> 00:53:47,819  
aerial phenomena

1206  
00:53:52,849 --> 00:53:50,579  
as head of this private group interested

1207  
00:53:54,530 --> 00:53:52,859  
in blind thoughts he's repeatedly

1208  
00:53:56,870 --> 00:53:54,540  
attacked the United States Air Force and

1209  
00:53:59,329 --> 00:53:56,880  
others proclaiming that flying saucers

1210  
00:54:02,270 --> 00:53:59,339  
are apparently Flights of Fancy and not

1211  
00:54:04,370 --> 00:54:02,280  
flight by martians or men from the Moon

1212  
00:54:07,849 --> 00:54:04,380  
independent surveys show that millions

1213  
00:54:09,950 --> 00:54:07,859

of Americans do share his beliefs in

1214

00:54:11,930 --> 00:54:09,960

these Celestial saucers

1215

00:54:13,309 --> 00:54:11,940

major Keyhole first of all let me ask

1216

00:55:02,089 --> 00:54:13,319

you this most people in the United

1217

00:55:06,049 --> 00:55:04,490

States in spite of the fact that I say

1218

00:55:07,370 --> 00:55:06,059

that Millions do believe I think you

1219

00:55:10,190 --> 00:55:07,380

will agree that most people in the

1220

00:55:12,470 --> 00:55:10,200

United States don't believe in flying

1221

00:55:16,370 --> 00:55:12,480

saucers from outer space they probably

1222

00:55:18,770 --> 00:55:16,380

hold the view of columnist Bob considine

1223

00:55:21,950 --> 00:55:18,780

who wrote that flying saucers are

1224

00:55:25,609 --> 00:55:21,960

products of for the most part quote

1225

00:55:28,730 --> 00:55:25,619

pranksters half wits cranks publicity

1226  
00:55:30,049 --> 00:55:28,740  
hung Fanatics in general and Screwballs

1227  
00:55:32,150 --> 00:55:30,059  
end quote

1228  
00:55:32,809 --> 00:55:32,160  
how do you feel about the consider's

1229  
00:55:34,609 --> 00:55:32,819  
charge

1230  
00:55:36,470 --> 00:55:34,619  
well I know where he got the story he

1231  
00:55:38,150 --> 00:55:36,480  
got it from Colonel Watson out at the

1232  
00:55:40,010 --> 00:55:38,160  
air technical Intelligence Center in

1233  
00:55:41,450 --> 00:55:40,020  
Dayton in fact the current one even a

1234  
00:55:43,490 --> 00:55:41,460  
little farther and he said behind every

1235  
00:55:45,589 --> 00:55:43,500  
sighting was

1236  
00:55:47,690 --> 00:55:45,599  
all right all right all right all right

1237  
00:55:50,630 --> 00:55:47,700  
all right I'm back come back I'm back

1238  
00:55:52,670 --> 00:55:50,640

freaking half woods freaking half wits

1239

00:55:54,770 --> 00:55:52,680

you saw fine saucer you freaking have

1240

00:55:58,250 --> 00:55:54,780

what

1241

00:56:01,130 --> 00:55:58,260

that's crazy huh I'm half wits yeah

1242

00:56:06,890 --> 00:56:03,950

what a dope I put the

1243

00:56:08,390 --> 00:56:06,900

the video in the uh

1244

00:56:09,829 --> 00:56:08,400

chat there in case you guys want to

1245

00:56:11,569 --> 00:56:09,839

watch it

1246

00:56:15,890 --> 00:56:11,579

the whole thing it's pretty interesting

1247

00:56:17,870 --> 00:56:15,900

watching that and kind of evaluating

1248

00:56:21,770 --> 00:56:17,880

um where we're at you know from then and

1249

00:56:25,750 --> 00:56:21,780

now it's definitely interesting so

1250

00:56:28,069 --> 00:56:25,760

I suggest you check it out when you have

1251  
00:56:31,370 --> 00:56:28,079  
the time

1252  
00:56:34,250 --> 00:56:31,380  
so I'm saving the actual uh video that

1253  
00:56:36,109 --> 00:56:34,260  
we saw in Congress for something special

1254  
00:56:39,349 --> 00:56:36,119  
at the end

1255  
00:56:43,430 --> 00:56:40,910  
so

1256  
00:56:46,490 --> 00:56:43,440  
foreign

1257  
00:56:50,750 --> 00:56:46,500  
and if you're familiar with what I do

1258  
00:56:53,569 --> 00:56:50,760  
you may have an idea of what I mean

1259  
00:56:56,750 --> 00:56:53,579  
but for now I would love to get into

1260  
00:56:59,270 --> 00:56:56,760  
something a little different this is

1261  
00:57:03,349 --> 00:56:59,280  
um I'd like to cover an old case quick

1262  
00:57:06,670 --> 00:57:03,359  
here and it's uh 1968 Minot Air Force

1263  
00:57:10,190 --> 00:57:06,680

Base and that is a Strategic Air Command

1264

00:57:11,809 --> 00:57:10,200

nuclear missile base and that was going

1265

00:57:16,250 --> 00:57:11,819

on it was at the height of the Cold War

1266

00:57:19,849 --> 00:57:16,260

and we have about 14 different Witnesses

1267

00:57:23,210 --> 00:57:19,859

so I thought we would kind of check out

1268

00:57:25,190 --> 00:57:23,220

the documents here so we have Minot Air

1269

00:57:28,849 --> 00:57:25,200

Force Base 68 Air Force documents what

1270

00:57:32,270 --> 00:57:28,859

happened according to Lieutenant Moreno

1271

00:57:34,730 --> 00:57:32,280

at about oh 300 hours local of B-52 that

1272

00:57:36,890 --> 00:57:34,740

was about 39 miles Northwest of Minot

1273

00:57:39,410 --> 00:57:36,900

Air Force Base and was making practice

1274

00:57:41,510 --> 00:57:39,420

penetration cited an unidentified blip

1275

00:57:43,790 --> 00:57:41,520

on the radar initially the target

1276  
00:57:46,910 --> 00:57:43,800  
traveled approximately approximately two

1277  
00:57:51,950 --> 00:57:46,920  
and a half miles and three seconds or at

1278  
00:57:55,670 --> 00:57:53,990  
after passing from the right to the left

1279  
00:57:58,250 --> 00:57:55,680  
of the plane it assumed a position off

1280  
00:57:59,990 --> 00:57:58,260  
the left wing of the 52. the blip stayed

1281  
00:58:02,390 --> 00:58:00,000  
off the left wing for approximately 20

1282  
00:58:04,430 --> 00:58:02,400  
miles at which point it broke off scope

1283  
00:58:07,309 --> 00:58:04,440  
photographs were taken when the target

1284  
00:58:09,770 --> 00:58:07,319  
was close to the B-52 at neither of the

1285  
00:58:12,290 --> 00:58:09,780  
two transmitters in the B-52 would

1286  
00:58:15,109 --> 00:58:12,300  
operate properly but when it broke off

1287  
00:58:17,930 --> 00:58:15,119  
both returned to normal function so they

1288  
00:58:20,450 --> 00:58:17,940

have this UFO sighting and When the UFO

1289

00:58:23,630 --> 00:58:20,460

gets close to the B-52 their

1290

00:58:25,549 --> 00:58:23,640

communication Transmissions go down

1291

00:58:27,829 --> 00:58:25,559

at about this time a missile maintenance

1292

00:58:29,569 --> 00:58:27,839

man called in and reported a citing a

1293

00:58:31,309 --> 00:58:29,579

bright orangish red object the object

1294

00:58:33,650 --> 00:58:31,319

was hovering at about a thousand feet or

1295

00:58:35,510 --> 00:58:33,660

so and had a sound similar to a jet

1296

00:58:38,390 --> 00:58:35,520

engine The Observer had stopped his car

1297

00:58:40,490 --> 00:58:38,400

but he then started it up again as he

1298

00:58:42,470 --> 00:58:40,500

started to move the object followed him

1299

00:58:44,690 --> 00:58:42,480

and then accelerated and appeared to

1300

00:58:46,849 --> 00:58:44,700

stop about six to eight miles away the

1301  
00:58:49,250 --> 00:58:46,859  
Observer shortly afterward lost sight of

1302  
00:58:51,710 --> 00:58:49,260  
it in response to the maintenance man's

1303  
00:58:54,049 --> 00:58:51,720  
call the B-52 which had continued its

1304  
00:58:55,549 --> 00:58:54,059  
penetration run was Vector towards the

1305  
00:58:58,910 --> 00:58:55,559  
visual which was about 10 miles

1306  
00:59:01,069 --> 00:58:58,920  
Northwest of the base the B-52 confirmed

1307  
00:59:03,289 --> 00:59:01,079  
having cited a bright light of some type

1308  
00:59:04,930 --> 00:59:03,299  
that appeared to be hovering just over

1309  
00:59:08,510 --> 00:59:04,940  
or on the ground

1310  
00:59:10,670 --> 00:59:08,520  
14 other people in separate locations

1311  
00:59:12,950 --> 00:59:10,680  
also reported citing a similar object

1312  
00:59:16,010 --> 00:59:12,960  
also at this approximate time security

1313  
00:59:18,589 --> 00:59:16,020

alarm for one of the sites was activated

1314

00:59:21,170 --> 00:59:18,599

this was an alarm for both the outer and

1315

00:59:22,910 --> 00:59:21,180

inner ring when guards arrived at the

1316

00:59:25,309 --> 00:59:22,920

scene they found that the outer door was

1317

00:59:28,430 --> 00:59:25,319

open and the combination lock on the

1318

00:59:31,970 --> 00:59:28,440

inner door had been moved

1319

00:59:35,450 --> 00:59:31,980

interesting so we have a UFO sighting

1320

00:59:40,370 --> 00:59:37,970

and when the guards arrived

1321

00:59:43,670 --> 00:59:40,380

they found that the outer door was open

1322

00:59:46,370 --> 00:59:43,680

and the combination lock

1323

00:59:48,289 --> 00:59:46,380

interesting

1324

00:59:52,970 --> 00:59:48,299

we're going to come back to that it's a

1325

00:59:58,250 --> 00:59:56,630

there was a special on this on ABC News

1326  
01:00:00,410 --> 00:59:58,260  
as well and I wanted to play some of the

1327  
01:00:02,030 --> 01:00:00,420  
clips of the testimony but there's music

1328  
01:00:04,430 --> 01:00:02,040  
in the background and they'd probably

1329  
01:00:07,490 --> 01:00:04,440  
shut the video down so

1330  
01:00:10,910 --> 01:00:07,500  
here we go Minot Air Force Base 68

1331  
01:00:13,430 --> 01:00:10,920  
the documents the break-in

1332  
01:00:14,750 --> 01:00:13,440  
Now look for these words if it was a

1333  
01:00:17,870 --> 01:00:14,760  
person

1334  
01:00:19,430 --> 01:00:17,880  
Lieutenant Moreno asked if it was go

1335  
01:00:21,049 --> 01:00:19,440  
if it was going with the wind and

1336  
01:00:22,970 --> 01:00:21,059  
explained how we've had trouble with hot

1337  
01:00:24,650 --> 01:00:22,980  
air balloons and he gave the description

1338  
01:00:26,390 --> 01:00:24,660

duration Etc

1339

01:00:28,309 --> 01:00:26,400

Colonel warlick informed Lieutenant

1340

01:00:29,990 --> 01:00:28,319

Moreno that if he was familiar with the

1341

01:00:32,270 --> 01:00:30,000

geography he would see why this wouldn't

1342

01:00:35,329 --> 01:00:32,280

be possible there must be four or five

1343

01:00:37,250 --> 01:00:35,339

farmhouses within 10 mile radius and

1344

01:00:39,230 --> 01:00:37,260

Grano with six to ten small dwellings

1345

01:00:40,910 --> 01:00:39,240

and the areas deserted at this time of

1346

01:00:42,770 --> 01:00:40,920

the morning I doubt that there would be

1347

01:00:44,809 --> 01:00:42,780

any activity like this the sighting was

1348

01:00:46,730 --> 01:00:44,819

about 11 miles from November 7th site

1349

01:00:49,549 --> 01:00:46,740

November 7 is a missile site that's

1350

01:00:52,010 --> 01:00:49,559

where one of the nukes missiles are this

1351

01:00:54,710 --> 01:00:52,020

is a sensitive subject anybody that

1352

01:00:56,690 --> 01:00:54,720

could unlock the padlock wouldn't be a

1353

01:00:57,829 --> 01:00:56,700

prankster from the farm area there are

1354

01:01:00,049 --> 01:00:57,839

keys that

1355

01:01:01,670 --> 01:01:00,059

there are keys for these padlocks and

1356

01:01:03,890 --> 01:01:01,680

it's hard to judge how many keys have

1357

01:01:05,569 --> 01:01:03,900

been made it looks like a Navy hatch and

1358

01:01:07,670 --> 01:01:05,579

underneath it is the combination lock

1359

01:01:12,650 --> 01:01:07,680

pranksters just couldn't go and open it

1360

01:01:18,650 --> 01:01:14,990

what else would it be

1361

01:01:20,329 --> 01:01:18,660

would have to know how to open it we

1362

01:01:22,670 --> 01:01:20,339

have had about three occurrences in the

1363

01:01:24,289 --> 01:01:22,680

last two or three years doing this all

1364

01:01:26,569 --> 01:01:24,299

three of these cases were tracked back

1365

01:01:28,250 --> 01:01:26,579

to air police guys who had been in the

1366

01:01:30,890 --> 01:01:28,260

service on these areas it is not a

1367

01:01:34,010 --> 01:01:30,900

serious offense 99 out of 100 chances

1368

01:01:37,309 --> 01:01:34,020

that of a person a human being

1369

01:01:40,970 --> 01:01:37,319

accomplish this thing then it had to be

1370

01:01:44,329 --> 01:01:40,980

somebody who had a key to the padlock

1371

01:01:46,670 --> 01:01:44,339

if that a person a human being what else

1372

01:01:48,589 --> 01:01:46,680

would unlock a padlock

1373

01:01:52,250 --> 01:01:48,599

if it wasn't a human being do you get my

1374

01:01:57,470 --> 01:01:52,260

drift if it was a person

1375

01:02:02,630 --> 01:02:00,410

Colonel so and then we continue on

1376

01:02:04,670 --> 01:02:02,640

Lieutenant Moreno told Colonel warlick

1377

01:02:07,250 --> 01:02:04,680

that we have no evidence though that the

1378

01:02:08,809 --> 01:02:07,260

UFO events did this Colonel warlick

1379

01:02:11,089 --> 01:02:08,819

agreed but said that a lieutenant

1380

01:02:12,950 --> 01:02:11,099

examined the area the next day and could

1381

01:02:15,829 --> 01:02:12,960

find no evidence of cars tire tracks

1382

01:02:17,210 --> 01:02:15,839

Footprints Etc Colonel wurlich said that

1383

01:02:19,609 --> 01:02:17,220

he didn't know of an examination

1384

01:02:22,490 --> 01:02:19,619

investigation was going on or not but

1385

01:02:24,589 --> 01:02:22,500

felt they probably were looking into it

1386

01:02:26,569 --> 01:02:24,599

so remember this

1387

01:02:28,250 --> 01:02:26,579

there's a padlock

1388

01:02:29,930 --> 01:02:28,260

undone

1389

01:02:32,870 --> 01:02:29,940

the guy keeps questioning if it's a

1390

01:02:35,630 --> 01:02:32,880

person there's no Footprints no evidence

1391

01:02:39,710 --> 01:02:35,640

of cars no tire tracks nothing around

1392

01:02:39,720 --> 01:02:42,710

don't forget that

1393

01:02:42,720 --> 01:02:46,510

because we're gonna get back to it

1394

01:02:52,250 --> 01:02:49,549

Communication System malfunctions the

1395

01:02:53,990 --> 01:02:52,260

unusual part is the B-52 was in the

1396

01:02:55,730 --> 01:02:54,000

middle of a sentence and the voice just

1397

01:02:56,870 --> 01:02:55,740

quit transmitting right in the middle of

1398

01:02:58,910 --> 01:02:56,880

the word

1399

01:03:01,970 --> 01:02:58,920

because we had an accident a couple of

1400

01:03:04,069 --> 01:03:01,980

weeks ago we were quite interested

1401

01:03:06,950 --> 01:03:04,079

Ground Control asked them if they had

1402

01:03:09,470 --> 01:03:06,960

any trouble to give a mode a squawk

1403

01:03:11,450 --> 01:03:09,480

the airplane changed both UHF and

1404

01:03:13,370 --> 01:03:11,460

neither would transmit but they could

1405

01:03:15,890 --> 01:03:13,380

receive and each time to show that they

1406

01:03:19,010 --> 01:03:15,900

could receive they hit the squawk which

1407

01:03:20,750 --> 01:03:19,020

will last for about 30 seconds each time

1408

01:03:23,750 --> 01:03:20,760

there's quite a bit of this the

1409

01:03:25,309 --> 01:03:23,760

Navigator was the Navigator who watched

1410

01:03:27,950 --> 01:03:25,319

the paint disappear as fast as it

1411

01:03:29,750 --> 01:03:27,960

appeared my personal opinion is that it

1412

01:03:31,910 --> 01:03:29,760

couldn't be a malfunction because they

1413

01:03:33,890 --> 01:03:31,920

transmitted before and afterwards the

1414

01:03:35,990 --> 01:03:33,900

aircraft was not checked out afterwards

1415

01:03:38,270 --> 01:03:36,000

because the transmission was working

1416

01:03:39,770 --> 01:03:38,280

I don't know if the heavy Haze would

1417

01:03:42,049 --> 01:03:39,780

have been enough to point out the

1418

01:03:44,210 --> 01:03:42,059

transmission Lieutenant Moreno explained

1419

01:03:46,670 --> 01:03:44,220

that we do not have blah blah blah that

1420

01:03:49,609 --> 01:03:46,680

must have not been important

1421

01:03:51,589 --> 01:03:49,619

so it wasn't a malfunction

1422

01:03:53,329 --> 01:03:51,599

they change frequencies

1423

01:03:55,309 --> 01:03:53,339

neither worked

1424

01:03:57,710 --> 01:03:55,319

but it turns out they did work When the

1425

01:03:59,990 --> 01:03:57,720

UFO went away

1426

01:04:06,349 --> 01:04:02,089

so we have radar

1427

01:04:10,970 --> 01:04:09,230

Colonel warlick uh here we go

1428

01:04:12,710 --> 01:04:10,980

investigator needed help ask didn't get

1429

01:04:14,450 --> 01:04:12,720

it colonel warlick said he would be

1430

01:04:15,710 --> 01:04:14,460

flying tomorrow and Monday Colonel

1431

01:04:17,210 --> 01:04:15,720

warlick said that he had done the

1432

01:04:18,890 --> 01:04:17,220

initial investigation in accordance with

1433

01:04:21,470 --> 01:04:18,900

the regulations

1434

01:04:24,289 --> 01:04:21,480

and I met the limit of my capabilities

1435

01:04:27,109 --> 01:04:24,299

Colonel warlick I can send supplemental

1436

01:04:28,490 --> 01:04:27,119

data and will if we make our desires

1437

01:04:30,890 --> 01:04:28,500

known and inform what specific

1438

01:04:32,390 --> 01:04:30,900

information we need Colonel warlick said

1439

01:04:33,950 --> 01:04:32,400  
that we were hoping for technical

1440

01:04:36,230 --> 01:04:33,960  
assistance and we didn't get it

1441

01:04:38,750 --> 01:04:36,240  
Lieutenant Moreno told warlick we felt

1442

01:04:40,609 --> 01:04:38,760  
that he was doing an adequate job as far

1443

01:04:43,250 --> 01:04:40,619  
as technical data Colonel warlick said

1444

01:04:45,530 --> 01:04:43,260  
that this was his first report and

1445

01:04:48,109 --> 01:04:45,540  
didn't know how to ask questions or

1446

01:04:52,510 --> 01:04:48,119  
anything and he had spent too much time

1447

01:04:56,270 --> 01:04:55,190  
this is his first report that he's ever

1448

01:04:58,849 --> 01:04:56,280  
done

1449

01:05:04,309 --> 01:04:58,859  
was at this nuclear base

1450

01:05:07,789 --> 01:05:06,890  
plasma suggested as cause talk to Mr

1451

01:05:09,410 --> 01:05:07,799

Goff

1452

01:05:11,150 --> 01:05:09,420

who is quite familiar with Airborne

1453

01:05:12,710 --> 01:05:11,160

Radars Mr Goff said that from the

1454

01:05:14,150 --> 01:05:12,720

evidence available at this time it would

1455

01:05:16,370 --> 01:05:14,160

appear to him that the sightings may

1456

01:05:18,530 --> 01:05:16,380

have been precipitated by some type of

1457

01:05:20,569 --> 01:05:18,540

ionized air plasma similar to ball

1458

01:05:22,789 --> 01:05:20,579

lightning he felt that a plasma could

1459

01:05:24,530 --> 01:05:22,799

account for the radar blip loss of

1460

01:05:26,329 --> 01:05:24,540

transmission and some of the visual

1461

01:05:27,829 --> 01:05:26,339

sightings the entry of the missile site

1462

01:05:30,230 --> 01:05:27,839

is being investigated by local

1463

01:05:32,809 --> 01:05:30,240

authorities and with the information at

1464

01:05:35,569 --> 01:05:32,819

our disposal at this time no explanation

1465

01:05:39,109 --> 01:05:35,579

is offered

1466

01:05:41,809 --> 01:05:39,119

you know what they're talking about

1467

01:05:47,270 --> 01:05:41,819

it's an orb

1468

01:05:51,349 --> 01:05:49,250

and it's interesting because the same

1469

01:05:53,990 --> 01:05:51,359

way that's described is how other people

1470

01:05:59,390 --> 01:05:54,000

at those facilities

1471

01:06:04,730 --> 01:06:02,930

the witnesses and interesting additional

1472

01:06:07,130 --> 01:06:04,740

testimony so all these people were

1473

01:06:10,010 --> 01:06:07,140

Witnesses 14.

1474

01:06:11,569 --> 01:06:10,020

at 0308 hours the initial report was

1475

01:06:13,190 --> 01:06:11,579

received from a maintenance team en

1476

01:06:15,470 --> 01:06:13,200

route from November 8 to November 7

1477

01:06:17,750 --> 01:06:15,480

again to missile sites

1478

01:06:19,670 --> 01:06:17,760

and A1C O'Connor was the maintenance

1479

01:06:21,349 --> 01:06:19,680

team Chief and he stated that all

1480

01:06:23,210 --> 01:06:21,359

members of the team observed the lighted

1481

01:06:25,010 --> 01:06:23,220

object they further stated that it was

1482

01:06:27,230 --> 01:06:25,020

reddish orange in color a very large

1483

01:06:29,930 --> 01:06:27,240

object with flashing green and white

1484

01:06:32,450 --> 01:06:29,940

lights after they entered November 7 iaf

1485

01:06:34,609 --> 01:06:32,460

the object came directly over ahead with

1486

01:06:37,370 --> 01:06:34,619

the sound of a jet engine

1487

01:06:38,870 --> 01:06:37,380

Sergeant bond to the FSC at November

1488

01:06:42,170 --> 01:06:38,880

Fleet stated that the object which

1489

01:06:44,990 --> 01:06:42,180

looked to him as the sun came near the

1490

01:06:48,170 --> 01:06:45,000

hundred antenna November 1. it then

1491

01:06:50,990 --> 01:06:48,180

moved to the right and he sent the s.a.t

1492

01:06:54,890 --> 01:06:51,000

out to check and see what it is security

1493

01:06:59,569 --> 01:06:57,950

the object then moved out uh that the

1494

01:07:02,150 --> 01:06:59,579

object then moved about one mile away

1495

01:07:04,069 --> 01:07:02,160

with the November security alert team

1496

01:07:05,750 --> 01:07:04,079

following they came within a half a mile

1497

01:07:07,490 --> 01:07:05,760

from where it appeared to be landing

1498

01:07:09,529 --> 01:07:07,500

when it reached the surface the lights

1499

01:07:11,329 --> 01:07:09,539

became dimmer and finally went out after

1500

01:07:13,609 --> 01:07:11,339

this they could see nothing Sergeant

1501  
01:07:16,430 --> 01:07:13,619  
Smith at Oscar won suddenly object

1502  
01:07:18,410 --> 01:07:16,440  
separate in two parts and go in opposite

1503  
01:07:21,349 --> 01:07:18,420  
directions and return and pass under

1504  
01:07:23,510 --> 01:07:21,359  
each other at this time Gillette Fleet

1505  
01:07:25,309 --> 01:07:23,520  
and Mike fleet team observed the same

1506  
01:07:27,289 --> 01:07:25,319  
things and described it in the same way

1507  
01:07:30,289 --> 01:07:27,299  
the approximate grid coordinate of the

1508  
01:07:32,750 --> 01:07:30,299  
apparent Landing was at aa43 the entire

1509  
01:07:35,930 --> 01:07:32,760  
observation period as near as can be

1510  
01:07:37,370 --> 01:07:35,940  
determined was about 45 minutes so in

1511  
01:07:39,650 --> 01:07:37,380  
this testimony we have two separate

1512  
01:07:43,730 --> 01:07:39,660  
objects that split up

1513  
01:07:49,730 --> 01:07:47,410

very interesting so

1514

01:07:51,410 --> 01:07:49,740

and these are just like the kind of

1515

01:07:52,490 --> 01:07:51,420

breakdowns the timeline of events I'm

1516

01:07:53,809 --> 01:07:52,500

not going to go through all these

1517

01:07:55,849 --> 01:07:53,819

obviously because there's a lot of them

1518

01:07:57,170 --> 01:07:55,859

but you can see that this is a real

1519

01:07:58,450 --> 01:07:57,180

event

1520

01:08:00,710 --> 01:07:58,460

you know

1521

01:08:02,750 --> 01:08:00,720

we have a breakdown minute by minute

1522

01:08:06,890 --> 01:08:02,760

object now appears one mile away and

1523

01:08:08,569 --> 01:08:06,900

moving on in on them object now reverse

1524

01:08:11,390 --> 01:08:08,579

Direction and moving towards site now

1525

01:08:12,710 --> 01:08:11,400

600 feet from sight and lower from 800

1526

01:08:15,950 --> 01:08:12,720

feet

1527

01:08:17,870 --> 01:08:15,960

two are see no jet engines are now very

1528

01:08:20,390 --> 01:08:17,880

clearly moving Southwest of site and

1529

01:08:22,070 --> 01:08:20,400

gaining altitude just our Insight now

1530

01:08:23,990 --> 01:08:22,080

when it passed oversight it looked like

1531

01:08:26,450 --> 01:08:24,000

two headlights moving real slow when

1532

01:08:28,550 --> 01:08:26,460

oversight could hear engines interesting

1533

01:08:30,410 --> 01:08:28,560

interesting that they could hear engines

1534

01:08:35,030 --> 01:08:30,420

and I wonder if that's the B-52 that

1535

01:08:45,110 --> 01:08:38,930

so yeah we have plenty of proof for this

1536

01:08:51,110 --> 01:08:48,349

so the final conclusion was by Foreign

1537

01:08:52,789 --> 01:08:51,120

technology division visual star and a

1538

01:08:55,669 --> 01:08:52,799

plane

1539

01:09:02,410 --> 01:08:55,679

radar and communication issues plasma

1540

01:09:08,630 --> 01:09:05,990

I don't think that that is probably as

1541

01:09:11,329 --> 01:09:08,640

far as the visual goes uh correct but

1542

01:09:14,209 --> 01:09:11,339

you know it's just me so I think that's

1543

01:09:16,669 --> 01:09:14,219

a a pretty great case we have visual

1544

01:09:18,349 --> 01:09:16,679

we have radar that clocked it at 3 000

1545

01:09:22,910 --> 01:09:18,359

miles per hour well beyond anything

1546

01:09:29,510 --> 01:09:25,849

and now the best part of this the most

1547

01:09:31,970 --> 01:09:29,520

interesting part of this case is to me

1548

01:09:33,829 --> 01:09:31,980

the break-in part and I'm going to play

1549

01:09:34,789 --> 01:09:33,839

some testimony from somebody that was

1550

01:09:37,430 --> 01:09:34,799

there

1551  
01:09:40,910 --> 01:09:37,440  
and what somebody told him about that

1552  
01:09:44,749 --> 01:09:40,920  
aspect oh an alarm goes off and on the

1553  
01:09:49,130 --> 01:09:44,759  
missile silos and uh well anyway uh

1554  
01:09:51,709 --> 01:09:49,140  
so uh uh turns out that uh this is what

1555  
01:09:54,590 --> 01:09:51,719  
was told to us at the briefing about a

1556  
01:09:58,250 --> 01:09:54,600  
general officer the following day

1557  
01:10:01,910 --> 01:09:58,260  
so uh air police were dispatched to uh

1558  
01:10:04,310 --> 01:10:01,920  
check on the missile alarm and uh

1559  
01:10:05,870 --> 01:10:04,320  
so the first air policemen that were

1560  
01:10:07,910 --> 01:10:05,880  
sent out didn't check in when it should

1561  
01:10:10,550 --> 01:10:07,920  
have so it sent others to

1562  
01:10:13,010 --> 01:10:10,560  
check on them and the second group found

1563  
01:10:14,689 --> 01:10:13,020

the first group unconscious around their

1564

01:10:15,770 --> 01:10:14,699

vehicle with a paint burned off the top

1565

01:10:19,130 --> 01:10:15,780

of their vehicle

1566

01:10:21,350 --> 01:10:19,140

and when they came to they uh they said

1567

01:10:22,790 --> 01:10:21,360

that you know something some object that

1568

01:10:25,250 --> 01:10:22,800

they thought was going to sit down on

1569

01:10:28,189 --> 01:10:25,260

top of them and uh so they started

1570

01:10:29,570 --> 01:10:28,199

running those last that they knew but I

1571

01:10:30,890 --> 01:10:29,580

doubted they didn't squash their vehicle

1572

01:10:31,790 --> 01:10:30,900

or anything so it didn't sit down on

1573

01:10:33,350 --> 01:10:31,800

them

1574

01:10:37,250 --> 01:10:33,360

and uh

1575

01:10:39,830 --> 01:10:37,260

so uh but anyway uh it turns out that uh

1576

01:10:43,010 --> 01:10:39,840

the reason that the alarms were set off

1577

01:10:45,530 --> 01:10:43,020

is a 20-ton concrete lid covering the

1578

01:10:46,970 --> 01:10:45,540

top of a missile silo has been removed

1579

01:10:48,649 --> 01:10:46,980

and uh

1580

01:10:51,110 --> 01:10:48,659

channeling fence around the thing had

1581

01:10:53,090 --> 01:10:51,120

been squashed there's radioactivity

1582

01:10:56,570 --> 01:10:53,100

around and uh

1583

01:10:58,490 --> 01:10:56,580

the inner alarm down inside The Silo had

1584

01:11:02,510 --> 01:10:58,500

also been activated

1585

01:11:04,550 --> 01:11:02,520

well it turns out that the uh there were

1586

01:11:06,890 --> 01:11:04,560

two ways to remove the uh the concrete

1587

01:11:08,810 --> 01:11:06,900

lid you either have a large crane to

1588

01:11:11,750 --> 01:11:08,820

lift 20 tons and set it off to the side

1589

01:11:13,490 --> 01:11:11,760

or have explosive charges that blew it

1590

01:11:15,830 --> 01:11:13,500

off in case one launched the missile and

1591

01:11:24,350 --> 01:11:15,840

go to war explosive charges hadn't been

1592

01:11:28,850 --> 01:11:25,790

that missile man they have to blow that

1593

01:11:31,550 --> 01:11:28,860

yeah they blow it off yeah

1594

01:11:33,830 --> 01:11:31,560

it was just off to the side someplace it

1595

01:11:35,390 --> 01:11:33,840

wasn't on top of the the missile silo

1596

01:11:37,970 --> 01:11:35,400

anyway no

1597

01:11:40,070 --> 01:11:37,980

now a chain link fence yes tight Around

1598

01:11:42,290 --> 01:11:40,080

The Silo oh well just just to keep

1599

01:11:44,990 --> 01:11:42,300

mainly keep animals out and I guess

1600

01:11:47,630 --> 01:11:45,000

people and uh but a part of it had been

1601  
01:11:50,270 --> 01:11:47,640  
uh flattened just squashed there weren't

1602  
01:11:51,709 --> 01:11:50,280  
any any tracks around other than it was

1603  
01:11:54,830 --> 01:11:51,719  
just right there at the chain link fence

1604  
01:11:56,630 --> 01:11:54,840  
we want to point out this the written

1605  
01:11:59,390 --> 01:11:56,640  
our counter this sighting doesn't say

1606  
01:12:02,570 --> 01:11:59,400  
anything no no this was just told to us

1607  
01:12:04,270 --> 01:12:02,580  
that's file was such of an important

1608  
01:12:07,130 --> 01:12:04,280  
nature to their Force

1609  
01:12:13,550 --> 01:12:07,140  
because of the uh the missile being

1610  
01:12:18,290 --> 01:12:15,530  
what's interesting there is the person

1611  
01:12:20,990 --> 01:12:18,300  
interviewing is interviewing him it says

1612  
01:12:24,410 --> 01:12:21,000  
at the end now there's nothing in the

1613  
01:12:27,290 --> 01:12:24,420

documents uh in the official report for

1614

01:12:29,270 --> 01:12:27,300

this that talks about what he was

1615

01:12:32,450 --> 01:12:29,280

talking about the big lid

1616

01:12:34,430 --> 01:12:32,460

that was off of the missile silo but the

1617

01:12:36,110 --> 01:12:34,440

guy I don't know he must not have read

1618

01:12:38,810 --> 01:12:36,120

the blue book reports we just read

1619

01:12:41,270 --> 01:12:38,820

because it clearly talks about the

1620

01:12:43,250 --> 01:12:41,280

alarms and things being open

1621

01:12:45,709 --> 01:12:43,260

which is so interesting because in this

1622

01:12:47,030 --> 01:12:45,719

guy's testimony he says

1623

01:12:49,310 --> 01:12:47,040

um that there are no Footprints or

1624

01:12:50,810 --> 01:12:49,320

anything around that's we got that from

1625

01:12:54,830 --> 01:12:50,820

the documents and this is what somebody

1626

01:12:57,169 --> 01:12:54,840

told this guy at the time okay

1627

01:12:58,189 --> 01:12:57,179

so what somebody told him is lining up

1628

01:13:03,709 --> 01:12:58,199

with

1629

01:13:05,510 --> 01:13:03,719

now when he was talking about the lid of

1630

01:13:07,669 --> 01:13:05,520

The Silo being off he told you how it

1631

01:13:08,930 --> 01:13:07,679

would actually be removed you would need

1632

01:13:11,510 --> 01:13:08,940

a huge crane

1633

01:13:13,610 --> 01:13:11,520

it's really freaking heavy

1634

01:13:16,310 --> 01:13:13,620

so that was removed

1635

01:13:19,130 --> 01:13:16,320

and that's why colonel warlick

1636

01:13:21,410 --> 01:13:19,140

in the documents that we read

1637

01:13:25,910 --> 01:13:21,420

when talking about the break-in

1638

01:13:32,390 --> 01:13:29,510

or if an actual person did this

1639

01:13:35,570 --> 01:13:32,400

so we take that from the documents we go

1640

01:13:38,570 --> 01:13:35,580

over and watch the testimony

1641

01:13:40,370 --> 01:13:38,580

figure out that the lid on the thing is

1642

01:13:43,550 --> 01:13:40,380

so heavy you would need a huge crane to

1643

01:13:48,530 --> 01:13:46,490

no Footprints no nothing

1644

01:13:51,290 --> 01:13:48,540

your answer is right there that's a real

1645

01:13:59,810 --> 01:13:55,850

corroborated by the actual documents

1646

01:14:04,310 --> 01:14:01,669

now if we're looking for

1647

01:14:06,649 --> 01:14:04,320

extraterrestrials

1648

01:14:10,189 --> 01:14:06,659

something that doesn't seem human

1649

01:14:11,990 --> 01:14:10,199

I think that this is a great

1650

01:14:16,070 --> 01:14:12,000

example

1651

01:14:19,490 --> 01:14:16,080

something going 3000 miles per hour

1652

01:14:24,350 --> 01:14:19,500

something moved a huge

1653

01:14:30,709 --> 01:14:28,370

with no Footprints or anything around it

1654

01:14:32,990 --> 01:14:30,719

we have testimony from somebody that was

1655

01:14:34,550 --> 01:14:33,000

there that said that actually that was

1656

01:14:36,590 --> 01:14:34,560

moved by a ship

1657

01:14:39,410 --> 01:14:36,600

that almost flattened a couple police

1658

01:14:45,890 --> 01:14:42,890

and has corroborated in the documents

1659

01:14:48,830 --> 01:14:45,900

that the place was broken into

1660

01:14:51,110 --> 01:14:48,840

and that they didn't know who did it

1661

01:14:54,470 --> 01:14:51,120

very interesting case

1662

01:14:56,750 --> 01:14:54,480

14 Witnesses

1663

01:14:59,030 --> 01:14:56,760

but yet Sean Kirkpatrick when he does

1664

01:15:04,010 --> 01:14:59,040

his thing it's clear that he's starting

1665

01:15:07,729 --> 01:15:05,990

and he's getting the security of you

1666

01:15:10,669 --> 01:15:07,739

know people in line before he does the

1667

01:15:13,610 --> 01:15:10,679

historic study but if you would do this

1668

01:15:16,010 --> 01:15:13,620

dork study you would see the reality of

1669

01:15:17,810 --> 01:15:16,020

this situation

1670

01:15:20,930 --> 01:15:17,820

and the potential dangers something

1671

01:15:24,350 --> 01:15:20,940

could break in to a nuclear Silo without

1672

01:15:29,390 --> 01:15:26,630

and we have so many forms of electronic

1673

01:15:31,310 --> 01:15:29,400

evidence there the UFO came close to the

1674

01:15:33,169 --> 01:15:31,320

B-52 their Transmissions went out their

1675

01:15:35,870 --> 01:15:33,179

commute they couldn't communicate but

1676

01:15:37,729 --> 01:15:35,880

then they could again when the UFO left

1677

01:15:39,290 --> 01:15:37,739

and this isn't the only case where this

1678

01:15:40,910 --> 01:15:39,300

happens too I just don't have the time

1679

01:15:42,050 --> 01:15:40,920

to get to the other one because there's

1680

01:15:44,630 --> 01:15:42,060

another one

1681

01:15:47,050 --> 01:15:44,640

at one of these bases I think maybe a

1682

01:15:49,729 --> 01:15:47,060

year prior where the same thing happens

1683

01:15:52,070 --> 01:15:49,739

except when the UFO comes close to

1684

01:15:55,130 --> 01:15:52,080

communication in the actual missile silo

1685

01:15:57,970 --> 01:15:56,450

yeah

1686

01:16:00,169 --> 01:15:57,980

so

1687

01:16:03,470 --> 01:16:00,179

but if you were there and you want to

1688

01:16:05,689 --> 01:16:03,480

talk to shonker Patrick about it you can

1689

01:16:10,189 --> 01:16:05,699

you just have to make sure

1690

01:16:18,770 --> 01:16:12,050

your own plane

1691

01:16:18,780 --> 01:16:22,729

just letting you know

1692

01:16:26,689 --> 01:16:24,830

that you don't get any freebies

1693

01:16:28,750 --> 01:16:26,699

if you want to testify to Kirkpatrick

1694

01:16:31,669 --> 01:16:28,760

fine

1695

01:16:33,890 --> 01:16:31,679

but you better not be broke could you

1696

01:16:37,729 --> 01:16:33,900

could you imagine that somebody has the

1697

01:16:42,709 --> 01:16:41,030

but they can't tell Sean Kirkpatrick

1698

01:16:44,390 --> 01:16:42,719

because they're broke

1699

01:16:45,540 --> 01:16:44,400

and they can't pay for their hotel or

1700

01:16:48,649 --> 01:16:45,550

car

1701

01:16:51,050 --> 01:16:48,659

[Laughter]

1702

01:16:55,550 --> 01:16:51,060

if that person is you please contact me

1703

01:16:58,370 --> 01:16:55,560

if I convert you I will pay for it

1704

01:17:01,550 --> 01:16:58,380

all right guys enough is enough it's

1705

01:17:06,649 --> 01:17:01,560

time to get serious

1706

01:17:06,659 --> 01:17:08,990

yourself

1707

01:17:09,000 --> 01:17:13,250

[Music]

1708

01:17:17,630 --> 01:17:15,350

that's right everybody we got our first

1709

01:17:19,490 --> 01:17:17,640

government sanctioned what the heck is

1710

01:17:21,770 --> 01:17:19,500

that video and it comes straight from

1711

01:18:15,970 --> 01:17:21,780

the Senate hearings the orb

1712

01:18:22,430 --> 01:18:19,970

it's interesting I'm glad we got it

1713

01:18:23,810 --> 01:18:22,440

I'm not sure you know this is an

1714

01:18:25,790 --> 01:18:23,820

interesting part here where you can kind

1715

01:18:27,530 --> 01:18:25,800

of see something coming out inside

1716

01:18:29,450 --> 01:18:27,540

I don't know if that's exhaust or what

1717

01:18:34,490 --> 01:18:29,460

that is but

1718

01:18:40,490 --> 01:18:36,470

you know it's kind of similar to the

1719

01:18:45,410 --> 01:18:43,130

it seems like some people thought it was

1720

01:18:47,390 --> 01:18:45,420

the same but I don't know

1721

01:18:49,610 --> 01:18:47,400

um I'd have to believe and I do believe

1722

01:18:52,010 --> 01:18:49,620

that there are a lot better videos out

1723

01:18:54,290 --> 01:18:52,020

there uh but they're just really not

1724

01:18:56,510 --> 01:18:54,300

going to share those if

1725

01:18:59,330 --> 01:18:56,520

um it's impressive I feel like if it's

1726

01:19:02,090 --> 01:18:59,340

impressive piece of video and they can't

1727

01:19:03,590 --> 01:19:02,100

tell if it's foreign or you know some

1728

01:19:05,990 --> 01:19:03,600

other

1729

01:19:08,330 --> 01:19:06,000

um entity or an intelligence they're not

1730

01:19:10,970 --> 01:19:08,340

going to share it you know because of

1731

01:19:13,250 --> 01:19:10,980

that even if it's a small likelihood

1732

01:19:14,630 --> 01:19:13,260

that it's foreign they don't

1733

01:19:16,310 --> 01:19:14,640

they don't want to put that out there

1734

01:19:18,530 --> 01:19:16,320

that's what I'm guessing I mean I don't

1735

01:19:22,310 --> 01:19:18,540

really know but that's what it seems

1736

01:20:03,649 --> 01:19:22,320

like anyways but we're not done

1737

01:20:03,659 --> 01:21:05,090

foreign

1738

01:21:13,370 --> 01:21:06,590

one just disappear

1739

01:21:13,380 --> 01:21:19,750

what are those

1740

01:21:19,760 --> 01:21:26,030

up here

1741

01:21:31,780 --> 01:21:28,970

what the what are those

1742

01:21:46,550 --> 01:21:31,790

what the wow

1743

01:21:46,560 --> 01:22:10,200

here they come

1744

01:22:10,210 --> 01:22:22,209

[Music]

1745

01:22:22,219 --> 01:22:30,490

all right

1746

01:22:30,500 --> 01:22:37,050

what happened

1747

01:22:37,060 --> 01:22:42,229

[Music]

1748

01:22:48,229 --> 01:22:45,290

so that was what the heck is that it's

1749

01:22:51,890 --> 01:22:48,239

becoming increasingly more difficult to

1750

01:22:53,450 --> 01:22:51,900

find videos for whatever reason so I'm

1751

01:22:55,610 --> 01:22:53,460

not sure what the deal with that is it

1752

01:22:57,410 --> 01:22:55,620

almost makes me think that it's on

1753

01:23:00,290 --> 01:22:57,420

purpose you know so we can't see

1754

01:23:02,390 --> 01:23:00,300

civilian UFO videos I don't know

1755

01:23:05,030 --> 01:23:02,400

but it is a little bit more difficult

1756

01:23:08,750 --> 01:23:05,040

than it used to be on YouTube like just

1757

01:23:11,450 --> 01:23:08,760

type in YouTube UFO sightings uh UFO

1758

01:23:15,649 --> 01:23:11,460

sighting cell phone even or whatever

1759

01:23:18,290 --> 01:23:15,659

and scroll down through the options

1760

01:23:20,689 --> 01:23:18,300

slowly should click in your mind that

1761

01:23:25,550 --> 01:23:20,699

something isn't right that everything

1762

01:23:28,810 --> 01:23:25,560

you see is produced by somebody in some

1763

01:23:32,330 --> 01:23:28,820

way shape or form and you can't even see

1764

01:23:37,070 --> 01:23:32,340

civilian UFO cell phone videos

1765

01:23:39,530 --> 01:23:37,080

without a whole lot of effort to do it

1766

01:23:42,110 --> 01:23:39,540

and that's weird to me

1767

01:23:44,270 --> 01:23:42,120

that's very weird uh with that being

1768

01:23:47,030 --> 01:23:44,280

said uh I don't know I hope you enjoyed

1769

01:23:48,410 --> 01:23:47,040

the show uh we went over uh the

1770

01:23:50,450 --> 01:23:48,420

Kirkpatrick

1771

01:23:52,729 --> 01:23:50,460

um hearing I hope you got something from

1772

01:23:55,010 --> 01:23:52,739

the notes that I that I shared or the

1773

01:23:56,870 --> 01:23:55,020

things that I took away from it

1774

01:23:58,850 --> 01:23:56,880

um I hope you enjoyed the Minot Air

1775

01:24:00,649 --> 01:23:58,860

Force Base case I think that is a

1776

01:24:01,910 --> 01:24:00,659

fantastic case

1777

01:24:05,209 --> 01:24:01,920

um I hope you guys like when I cover

1778

01:24:07,010 --> 01:24:05,219

those old cases let me know if you do

1779

01:24:08,090 --> 01:24:07,020

um put it in the notes or in the chat or

1780

01:24:10,130 --> 01:24:08,100

something

1781

01:24:11,689 --> 01:24:10,140

um because I'll keep doing them for

1782

01:24:14,870 --> 01:24:11,699

different cases if you do enjoy it but

1783

01:24:18,229 --> 01:24:14,880

if you don't that's fine too

1784

01:24:19,790 --> 01:24:18,239

so that being said I had a great time

1785

01:24:20,990 --> 01:24:19,800

with you guys today

1786

01:24:24,410 --> 01:24:21,000

you know

1787

01:24:28,250 --> 01:24:24,420

I really enjoyed it you guys are a great

1788

01:24:30,830 --> 01:24:28,260

group of chatters you're always so kind

1789

01:24:33,410 --> 01:24:30,840

hit the like button

1790

01:24:36,770 --> 01:24:33,420

subscribe if you haven't

1791

01:24:40,790 --> 01:24:38,149

I don't know

1792

01:24:44,149 --> 01:24:40,800

I guess I'll

1793

01:24:48,110 --> 01:24:44,159

guess so

1794

01:24:49,729 --> 01:24:48,120

I'll see you next time yes I'll see you

1795

01:24:50,760 --> 01:24:49,739

next time okay bye

1796

01:25:21,470 --> 01:24:50,770

foreign
