

STORY TAKEN FROM THE BUFFALO NEWS JULY 31ST, 1952

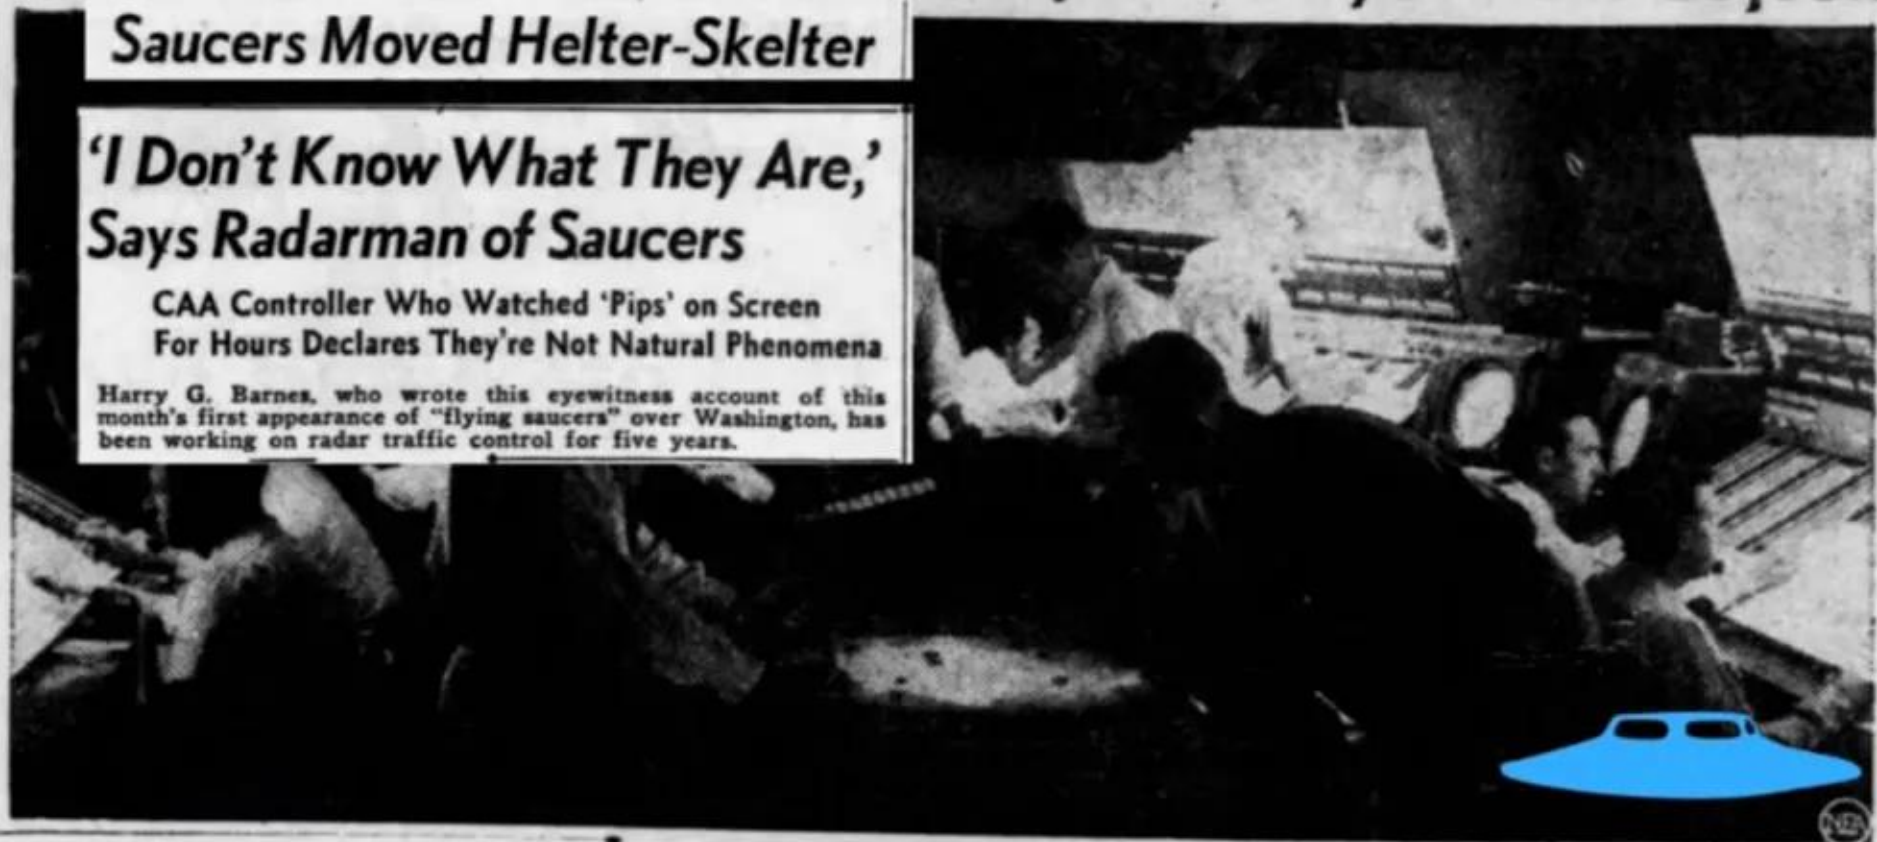

How CAA Radar in Washington Spotted Mysterious Objects

Saucers Moved Helter-Skelter

**'I Don't Know What They Are,'
Says Radarman of Saucers**

CAA Controller Who Watched 'Pips' on Screen
For Hours Declares They're Not Natural Phenomena

Harry G. Barnes, who wrote this eyewitness account of this month's first appearance of "flying saucers" over Washington, has been working on radar traffic control for five years.

Sean Raasch

1
00:00:08,570 --> 00:00:06,289
what is up everybody

2
00:00:11,570 --> 00:00:08,580
um thanks for joining me on this

3
00:00:14,509 --> 00:00:11,580
wonderful Monday

4
00:00:16,670 --> 00:00:14,519
I hope you're doing well I'm kind of I'm

5
00:00:18,710 --> 00:00:16,680
a little disheveled I've been a little

6
00:00:20,929 --> 00:00:18,720
rushed getting here but I made it

7
00:00:22,189 --> 00:00:20,939
and I'm gonna make it worthwhile this is

8
00:00:25,490 --> 00:00:22,199
going to be a great show I have some

9
00:00:28,070 --> 00:00:25,500
great stuff planned so I look forward to

10
00:00:30,650 --> 00:00:28,080
sharing that stuff with you uh sharing

11
00:00:34,729 --> 00:00:30,660
any UAP news that has come up since we

12
00:00:37,670 --> 00:00:34,739
last hung out and you know looking at

13
00:00:39,590 --> 00:00:37,680

some old records

14

00:00:42,470 --> 00:00:39,600

that are very interesting

15

00:00:44,209 --> 00:00:42,480

and maybe even a what the heck is that

16

00:00:46,910 --> 00:00:44,219

segment

17

00:00:51,950 --> 00:00:46,920

if there's time all that and more after

18

00:00:58,549 --> 00:00:55,010

reported by reputable trained observers

19

00:01:00,590 --> 00:00:58,559

the object was flying head on at us it

20

00:01:02,710 --> 00:01:00,600

was 50 times the magnitude of the

21

00:01:30,830 --> 00:01:02,720

brightest star

22

00:01:43,609 --> 00:01:30,840

[Music]

23

00:01:50,109 --> 00:01:45,890

hey what's up everybody in the chat we

24

00:01:52,330 --> 00:01:50,119

have Josh Mikey Andres Lord bass

25

00:01:55,370 --> 00:01:52,340

levadian rise

26

00:01:57,469 --> 00:01:55,380

disclosure team what's up Deanna Mr

27

00:01:59,929 --> 00:01:57,479

Robert colford

28

00:02:02,030 --> 00:01:59,939

um super crazy movie geek awesome love

29

00:02:04,490 --> 00:02:02,040

the name

30

00:02:07,609 --> 00:02:04,500

um I wonder like when you're filling out

31

00:02:09,469 --> 00:02:07,619

like it application for a job is super

32

00:02:11,029 --> 00:02:09,479

crazy your first name and movie geek

33

00:02:13,490 --> 00:02:11,039

your last name

34

00:02:15,650 --> 00:02:13,500

or is crazy movie or middle name I'm not

35

00:02:17,150 --> 00:02:15,660

really sure but I like it thanks

36

00:02:20,449 --> 00:02:17,160

everybody for hanging out we're gonna

37

00:02:22,550 --> 00:02:20,459

get into some stuff here

38

00:02:24,470 --> 00:02:22,560

um so I hope you enjoy it I have a

39

00:02:27,589 --> 00:02:24,480

little bit of a slow internet connection

40

00:02:30,589 --> 00:02:27,599

so hopefully that doesn't

41

00:02:33,530 --> 00:02:30,599

um hurt us too much

42

00:02:34,910 --> 00:02:33,540

I can see the little Wi-Fi thing up in

43

00:02:37,250 --> 00:02:34,920

the upper right hand corner it's giving

44

00:02:39,589 --> 00:02:37,260

me the weak bars and I'm getting kind of

45

00:02:43,910 --> 00:02:39,599

worried about it so we have something

46

00:02:47,630 --> 00:02:43,920

that came in uh via Twitter and it was

47

00:02:51,229 --> 00:02:47,640

it's a letter basically uh to Avril

48

00:02:53,210 --> 00:02:51,239

Haynes Director of National Intelligence

49

00:02:54,050 --> 00:02:53,220

um and we're gonna get into that a

50

00:02:59,690 --> 00:02:54,060

little bit

51
00:03:01,490 --> 00:02:59,700
so it was sent by uh Warner Rubio and

52
00:03:04,790 --> 00:03:01,500
they have some worries about arrow in

53
00:03:07,130 --> 00:03:04,800
the direction that it is headed so they

54
00:03:09,050 --> 00:03:07,140
write with we write with concerns about

55
00:03:11,470 --> 00:03:09,060
the slow implementation of the fiscal

56
00:03:14,449 --> 00:03:11,480
year 23 National Defense authorization

57
00:03:16,369 --> 00:03:14,459
act guidance on the all domain anomaly

58
00:03:18,830 --> 00:03:16,379
resolution office

59
00:03:21,170 --> 00:03:18,840
uh the ndaa language strengths

60
00:03:23,149 --> 00:03:21,180
strengthens arrow and establishes it as

61
00:03:25,130 --> 00:03:23,159
the nation's Clearinghouse and analytics

62
00:03:27,649 --> 00:03:25,140
center of gravity

63
00:03:29,509 --> 00:03:27,659

for UAP to inform both the intelligence

64
00:03:32,270 --> 00:03:29,519
community and U.S Department of Defense

65
00:03:35,149 --> 00:03:32,280
leaders about UAP and to avoid strategic

66
00:03:37,309 --> 00:03:35,159
intelligent surprise the language

67
00:03:39,229 --> 00:03:37,319
articulated a series of actions to be

68
00:03:40,670 --> 00:03:39,239
undertaken regarding the stand-up of the

69
00:03:42,649 --> 00:03:40,680
office and information sharing with

70
00:03:46,550 --> 00:03:42,659
Congress nearly four months after the

71
00:03:49,130 --> 00:03:46,560
enactment of FY 23 ndaa we are concerned

72
00:03:51,050 --> 00:03:49,140
not to have seen more tangible evidence

73
00:03:53,149 --> 00:03:51,060
of the implementation of the ACT

74
00:03:55,009 --> 00:03:53,159
especially regarding the following

75
00:03:57,170 --> 00:03:55,019
provisions

76

00:03:59,149 --> 00:03:57,180

I must say I'm not sure where this comes

77

00:04:01,190 --> 00:03:59,159

from so

78

00:04:02,890 --> 00:04:01,200

um I think the signal Dan initially

79

00:04:05,449 --> 00:04:02,900

posted this on Twitter

80

00:04:07,930 --> 00:04:05,459

so it looks pretty good hopefully it's

81

00:04:10,429 --> 00:04:07,940

not uh a hoax

82

00:04:13,550 --> 00:04:10,439

there's nothing crazy in it for that to

83

00:04:17,629 --> 00:04:13,560

be the case so uh

84

00:04:19,729 --> 00:04:17,639

FY 23 ndaa requires director of Arrow to

85

00:04:21,530 --> 00:04:19,739

report directly to the principal deputy

86

00:04:23,870 --> 00:04:21,540

director National Intelligence and the

87

00:04:25,670 --> 00:04:23,880

deputy secretary of defense despite

88

00:04:27,409 --> 00:04:25,680

assurances that there is a proposed plan

89

00:04:29,330 --> 00:04:27,419

to implement this change in reporting in

90

00:04:31,430 --> 00:04:29,340

circulation we have yet to see any final

91

00:04:33,110 --> 00:04:31,440

guidance issued we request that you

92

00:04:34,670 --> 00:04:33,120

provide us an update on the proposed

93

00:04:37,570 --> 00:04:34,680

plan including the timeline for

94

00:04:41,030 --> 00:04:37,580

Assurance issuance of the final Guidance

95

00:04:43,129 --> 00:04:41,040

the FY NDA am

96

00:04:44,570 --> 00:04:43,139

uh specified that the Director of

97

00:04:46,550 --> 00:04:44,580

National Intelligence will appoint a

98

00:04:48,830 --> 00:04:46,560

deputy director of Arrow from the IC

99

00:04:51,050 --> 00:04:48,840

however to date a deputy director has

100

00:04:52,790 --> 00:04:51,060

not been identified the deputy director

101
00:04:55,010 --> 00:04:52,800
of Arrow is intended to be the vocal

102
00:04:59,150 --> 00:04:55,020
point for IC integration and to be fully

103
00:05:01,490 --> 00:04:59,160
empowered by the pddni to convene the IC

104
00:05:03,770 --> 00:05:01,500
on the UAP issue we ask that you update

105
00:05:07,490 --> 00:05:03,780
us on the timeline for appointing a

106
00:05:09,950 --> 00:05:07,500
deputy director the FY 23 ndaa

107
00:05:11,810 --> 00:05:09,960
establishes secure process for Arrow to

108
00:05:13,249 --> 00:05:11,820
interview Witnesses we are pleased with

109
00:05:15,230 --> 00:05:13,259
the number of interviews Arrow has

110
00:05:17,689 --> 00:05:15,240
conducted but has that Congress be

111
00:05:19,550 --> 00:05:17,699
regularly informed about the content of

112
00:05:23,629 --> 00:05:19,560
the interviews going forward

113
00:05:26,450 --> 00:05:23,639

FY 23 ndaa also directed Arrow to stand

114

00:05:28,550 --> 00:05:26,460

up a secure public-facing website or a

115

00:05:30,290 --> 00:05:28,560

communication mechanism to outline the

116

00:05:32,570 --> 00:05:30,300

secure process for witnesses to come

117

00:05:34,490 --> 00:05:32,580

forward with relevant information to

118

00:05:37,189 --> 00:05:34,500

date we have seen no efforts to

119

00:05:39,230 --> 00:05:37,199

communicate the existence of the secure

120

00:05:41,090 --> 00:05:39,240

process to the public we request that

121

00:05:43,070 --> 00:05:41,100

you provide us an update on the plan to

122

00:05:45,890 --> 00:05:43,080

publicize the secure process for

123

00:05:47,590 --> 00:05:45,900

witnesses to come forward finally we

124

00:05:49,969 --> 00:05:47,600

have not seen evidence of it in

125

00:05:52,010 --> 00:05:49,979

aerostrategic communication strategy

126

00:05:54,950 --> 00:05:52,020

Aero established a Twitter presence in

127

00:05:58,189 --> 00:05:54,960

July 2022 but has yet to boast anything

128

00:06:00,590 --> 00:05:58,199

further despite attracting over 31 000

129

00:06:04,010 --> 00:06:00,600

followers wow that's a lot I wish I had

130

00:06:07,430 --> 00:06:04,020

31 000 followers I'll tell you what

131

00:06:09,770 --> 00:06:07,440

I'd be using my Twitter account even

132

00:06:14,510 --> 00:06:11,930

well probably not but still that'd be

133

00:06:16,249 --> 00:06:14,520

pretty cool this highlights the lack of

134

00:06:18,469 --> 00:06:16,259

communication and transparency with the

135

00:06:20,930 --> 00:06:18,479

public we seek to understand why Arrow

136

00:06:22,969 --> 00:06:20,940

has not made use of its social media

137

00:06:24,770 --> 00:06:22,979

presence and the future plan for

138

00:06:26,990 --> 00:06:24,780

educating the public on the mission and

139

00:06:29,270 --> 00:06:27,000

findings of Arrow

140

00:06:31,189 --> 00:06:29,280

to date we are cautiously optimistic

141

00:06:33,710 --> 00:06:31,199

about the limited progress being made by

142

00:06:35,930 --> 00:06:33,720

arrow and we support the considerable

143

00:06:38,210 --> 00:06:35,940

efforts of Arrow at director Sean

144

00:06:40,189 --> 00:06:38,220

kirpatrick to meet Congressional intent

145

00:06:41,870 --> 00:06:40,199

thank you for your attention to these

146

00:06:46,249 --> 00:06:41,880

important matters we look forward to

147

00:06:47,990 --> 00:06:46,259

your timely response so I would say

148

00:06:49,730 --> 00:06:48,000

that's pretty good that they're staying

149

00:06:52,249 --> 00:06:49,740

on top of things they're writing letters

150

00:06:55,430 --> 00:06:52,259

they're demanding action

151
00:06:57,770 --> 00:06:55,440
that's good one thing that you know I I

152
00:06:59,029 --> 00:06:57,780
really you know and this is just a

153
00:07:02,210 --> 00:06:59,039
personal

154
00:07:03,050 --> 00:07:02,220
um thing I guess more than anything but

155
00:07:05,029 --> 00:07:03,060
um

156
00:07:08,990 --> 00:07:05,039
and they write in here this highlights

157
00:07:13,249 --> 00:07:10,850
well finally they said

158
00:07:15,230 --> 00:07:13,259
um you know they're talking about uh

159
00:07:17,210 --> 00:07:15,240
arrow and sharing their efforts on their

160
00:07:20,390 --> 00:07:17,220
Twitter account

161
00:07:23,150 --> 00:07:20,400
and educating it the public

162
00:07:26,270 --> 00:07:23,160
on the mission and findings of Arrow

163
00:07:28,249 --> 00:07:26,280

educating the public

164

00:07:32,230 --> 00:07:28,259

and the mission and findings of Arrow is

165

00:07:34,610 --> 00:07:32,240

a really poor choice of words

166

00:07:37,189 --> 00:07:34,620

especially from

167

00:07:40,930 --> 00:07:37,199

you know the the UFO side of things why

168

00:07:44,450 --> 00:07:40,940

because educating the public is what the

169

00:07:49,430 --> 00:07:44,460

CIA and Air Force decided to do back in

170

00:07:51,529 --> 00:07:49,440

1952 via a Robertson panel document

171

00:07:54,050 --> 00:07:51,539

that you can get on the CIA website they

172

00:07:56,689 --> 00:07:54,060

intended to educate the public so

173

00:07:58,010 --> 00:07:56,699

I don't like seeing that you know

174

00:08:02,150 --> 00:07:58,020

so

175

00:08:04,070 --> 00:08:02,160

maybe you could be aware

176

00:08:06,050 --> 00:08:04,080

of the topic

177

00:08:08,930 --> 00:08:06,060

you know maybe get an advisor or

178

00:08:12,950 --> 00:08:08,940

something I'm available

179

00:08:14,990 --> 00:08:12,960

you know so and

180

00:08:17,749 --> 00:08:15,000

you know what though something I've been

181

00:08:20,150 --> 00:08:17,759

thinking about with this arrow thing is

182

00:08:21,770 --> 00:08:20,160

um obviously we want uh there to be a

183

00:08:24,950 --> 00:08:21,780

great government

184

00:08:28,550 --> 00:08:24,960

you know group to study uaps and be

185

00:08:33,110 --> 00:08:30,409

but we've just been burned so much but

186

00:08:35,570 --> 00:08:33,120

in the past it's so hard to have faith

187

00:08:38,570 --> 00:08:35,580

and and Robert in here just said It

188

00:08:40,490 --> 00:08:38,580

reminds me of the 1967 docs we both went

189

00:08:43,430 --> 00:08:40,500

over yeah totally

190

00:08:45,170 --> 00:08:43,440

totally it totally does and you know

191

00:08:48,110 --> 00:08:45,180

what I worry about with this is like a

192

00:08:51,290 --> 00:08:50,030

you know where everybody's excited that

193

00:08:54,050 --> 00:08:51,300

the smartest people are going to be

194

00:08:56,870 --> 00:08:54,060

looking at this topic and in the end

195

00:08:59,090 --> 00:08:56,880

it gets poo poed

196

00:09:01,970 --> 00:08:59,100

and I do think that there is a little

197

00:09:03,290 --> 00:09:01,980

bit of a disconnect between what some

198

00:09:04,910 --> 00:09:03,300

people

199

00:09:07,009 --> 00:09:04,920

um you know pay attention to and get

200

00:09:09,949 --> 00:09:07,019

into regarding this topic and and even

201
00:09:12,410 --> 00:09:09,959
with Congress and you know how Senator

202
00:09:14,570 --> 00:09:12,420
gillibrand talks for instance

203
00:09:15,470 --> 00:09:14,580
you know we have all this stuff about

204
00:09:17,389 --> 00:09:15,480
um

205
00:09:18,350 --> 00:09:17,399
uh whistleblowers and all that kind of

206
00:09:20,030 --> 00:09:18,360
stuff

207
00:09:21,949 --> 00:09:20,040
um going to shonker Patrick and I think

208
00:09:25,190 --> 00:09:21,959
that's been verified for sure and people

209
00:09:26,690 --> 00:09:25,200
have talked to him about

210
00:09:30,290 --> 00:09:26,700
um

211
00:09:33,170 --> 00:09:30,300
you know reverse engineering of UFOs

212
00:09:34,550 --> 00:09:33,180
and dark projects from the government on

213
00:09:36,290 --> 00:09:34,560

that kind of stuff and people have

214

00:09:40,310 --> 00:09:36,300
reported that to Dr Kirkpatrick

215

00:09:44,150 --> 00:09:42,470
you know and we have Tim burchett going

216

00:09:45,769 --> 00:09:44,160
you know there's a big cover-up there's

217

00:09:48,110 --> 00:09:45,779
a massive cover-up you know and Senator

218

00:09:50,449 --> 00:09:48,120
jailbrand doesn't really get into the

219

00:09:52,730 --> 00:09:50,459
Weeds on that at all

220

00:09:56,410 --> 00:09:52,740
as far as like another kind of life or

221

00:09:59,090 --> 00:09:56,420
anything she seems to be more uh foreign

222

00:10:01,910 --> 00:09:59,100
oriented and she just did an interview

223

00:10:03,650 --> 00:10:01,920
with the good trouble show met Ford

224

00:10:06,889 --> 00:10:03,660
um you know it was a good interview and

225

00:10:09,470 --> 00:10:06,899
I'm super glad that she actually you

226

00:10:10,670 --> 00:10:09,480

know donated her time to talk to one of

227

00:10:12,710 --> 00:10:10,680

those channels I thought it was really

228

00:10:14,570 --> 00:10:12,720

cool a couple things that she said in

229

00:10:17,570 --> 00:10:14,580

there is that stuck out to me one of

230

00:10:19,670 --> 00:10:17,580

them was uh we won't know all the past

231

00:10:22,070 --> 00:10:19,680

Secrets but I'll make sure we know the

232

00:10:25,250 --> 00:10:22,080

future ones a little bit concerning to

233

00:10:27,949 --> 00:10:25,260

me especially uh considering their deep

234

00:10:30,829 --> 00:10:27,959

dive back to 1945 that they're supposed

235

00:10:32,930 --> 00:10:30,839

to do I understand that it wouldn't take

236

00:10:35,210 --> 00:10:32,940

um wouldn't be priority maybe for

237

00:10:37,670 --> 00:10:35,220

Kirkpatrick as as we learned in his

238

00:10:39,530 --> 00:10:37,680

hearing the safety of the different

239

00:10:41,930 --> 00:10:39,540

military bases and everything is is

240

00:10:44,509 --> 00:10:41,940

Paramount in in the history aspect would

241

00:10:45,889 --> 00:10:44,519

come later but for her to say that we

242

00:10:47,870 --> 00:10:45,899

won't know all the past Secrets but I'll

243

00:10:49,009 --> 00:10:47,880

make sure we know the future ones

244

00:10:50,750 --> 00:10:49,019

um

245

00:10:52,430 --> 00:10:50,760

you know what does that mean I would I

246

00:10:54,769 --> 00:10:52,440

would have loved to unpack that a little

247

00:10:57,410 --> 00:10:54,779

more if we're going back to 1945 what do

248

00:10:59,630 --> 00:10:57,420

you mean you know um

249

00:11:02,030 --> 00:10:59,640

and what are these Whistle blowers for

250

00:11:03,710 --> 00:11:02,040

that are coming to you know tell

251
00:11:06,889 --> 00:11:03,720
Kirkpatrick about reverse engineering

252
00:11:09,110 --> 00:11:06,899
stuff in Black projects that would have

253
00:11:11,150 --> 00:11:09,120
um happened in the past

254
00:11:12,590 --> 00:11:11,160
and it's a secret so I'm not sure what's

255
00:11:15,230 --> 00:11:12,600
up there

256
00:11:18,050 --> 00:11:15,240
um she also said something you know and

257
00:11:19,730 --> 00:11:18,060
I must say that I wasn't like super

258
00:11:22,069 --> 00:11:19,740
focused on the interview I was listening

259
00:11:24,470 --> 00:11:22,079
to it while I was doing other things so

260
00:11:25,730 --> 00:11:24,480
uh you know my if my nose could be

261
00:11:28,310 --> 00:11:25,740
better I'm sorry but the other thing

262
00:11:31,009 --> 00:11:28,320
that she said was uh arrow is not for

263
00:11:31,970 --> 00:11:31,019

UFO enthusiasts

264

00:11:34,370 --> 00:11:31,980

um

265

00:11:38,269 --> 00:11:34,380

you know I'm not saying that it should

266

00:11:39,769 --> 00:11:38,279

be but but why why say that I guess you

267

00:11:41,810 --> 00:11:39,779

know

268

00:11:44,449 --> 00:11:41,820

um

269

00:11:46,130 --> 00:11:44,459

I don't know I I probably wouldn't uh I

270

00:11:48,590 --> 00:11:46,140

probably wouldn't use that language UFO

271

00:11:50,810 --> 00:11:48,600

enthusiasts the other thing is uh

272

00:11:52,730 --> 00:11:50,820

whistleblowers so they're trying to get

273

00:11:54,949 --> 00:11:52,740

a public-facing website we know that

274

00:11:57,350 --> 00:11:54,959

already

275

00:12:01,370 --> 00:11:57,360

um she kind of gave a little more

276

00:12:03,170 --> 00:12:01,380

details on that which would be a website

277

00:12:04,910 --> 00:12:03,180

that would um

278

00:12:07,370 --> 00:12:04,920

you know be public facing where anyone

279

00:12:08,449 --> 00:12:07,380

could upload media so like you know if I

280

00:12:10,190 --> 00:12:08,459

caught something or you caught something

281

00:12:13,250 --> 00:12:10,200

you could upload it it's kind of weird

282

00:12:14,810 --> 00:12:13,260

and also they would put a unclassified

283

00:12:16,670 --> 00:12:14,820

data

284

00:12:18,050 --> 00:12:16,680

um from Arrow so that's pretty good that

285

00:12:21,230 --> 00:12:18,060

they'll have a public website where that

286

00:12:24,050 --> 00:12:21,240

stuff goes unfortunately uh she also

287

00:12:26,389 --> 00:12:24,060

said Advanced foreign technology like um

288

00:12:27,949 --> 00:12:26,399

I think Matt asked something in in

289

00:12:30,230 --> 00:12:27,959

regards to Keeping a Secret and all that

290

00:12:31,970 --> 00:12:30,240

kind of stuff keeping secrets and she

291

00:12:33,590 --> 00:12:31,980

mentioned foreign technology so if like

292

00:12:36,170 --> 00:12:33,600

China or something had super Advanced

293

00:12:38,630 --> 00:12:36,180

drones or technology

294

00:12:40,730 --> 00:12:38,640

um we wouldn't find out about it

295

00:12:43,430 --> 00:12:40,740

basically Advanced foreign technology

296

00:12:45,050 --> 00:12:43,440

would stay secret so

297

00:12:48,410 --> 00:12:45,060

um what kind of evidence would we

298

00:12:51,290 --> 00:12:48,420

actually see in the unclassified website

299

00:12:55,129 --> 00:12:51,300

um I would imagine it would be

300

00:12:57,470 --> 00:12:55,139

um either really boring prosaic stuff or

301
00:13:01,550 --> 00:12:57,480
likely Prozac but they weren't able to

302
00:13:07,670 --> 00:13:04,730
like that orb video that we got

303
00:13:09,170 --> 00:13:07,680
not too uh that we got pretty recently

304
00:13:11,509 --> 00:13:09,180
from the hearing

305
00:13:13,490 --> 00:13:11,519
so I don't know I don't think Jilla

306
00:13:15,829 --> 00:13:13,500
brand is really too concerned about uh

307
00:13:18,650 --> 00:13:15,839
non-human intelligence

308
00:13:20,090 --> 00:13:18,660
to be quite Frank and I don't think a

309
00:13:21,650 --> 00:13:20,100
lot of people are

310
00:13:22,970 --> 00:13:21,660
um

311
00:13:25,610 --> 00:13:22,980
I don't know there's a disconnect

312
00:13:27,829 --> 00:13:25,620
there's there's one side of people that

313
00:13:29,810 --> 00:13:27,839

are just you know really playing it cool

314

00:13:31,129 --> 00:13:29,820

as far as this goes and just really

315

00:13:33,530 --> 00:13:31,139

concerned about things like Chinese

316

00:13:36,230 --> 00:13:33,540

balloons and

317

00:13:39,710 --> 00:13:36,240

um you know all that kind of stuff and

318

00:13:42,230 --> 00:13:39,720

uh you know foreign technology so and

319

00:13:43,910 --> 00:13:42,240

there's another group that's really

320

00:13:45,290 --> 00:13:43,920

concerned with the whistleblowers crash

321

00:13:48,470 --> 00:13:45,300

retrievals and all that kind of stuff

322

00:13:49,970 --> 00:13:48,480

and those two are so different

323

00:13:52,009 --> 00:13:49,980

um it would be great to have some people

324

00:13:53,340 --> 00:13:52,019

on the same page so apparently some news

325

00:13:53,990 --> 00:13:53,350

that came in was

326

00:13:56,030 --> 00:13:54,000

[Music]

327

00:14:02,509 --> 00:13:59,269

Roswell Daily News I think reported that

328

00:14:04,550 --> 00:14:02,519

um another uh hearing except this time

329

00:14:07,129 --> 00:14:04,560

in the Congress has or

330

00:14:10,190 --> 00:14:07,139

yeah not the Senate but the house

331

00:14:11,509 --> 00:14:10,200

another hearing has been approved so but

332

00:14:13,190 --> 00:14:11,519

they're figuring out the details and

333

00:14:15,170 --> 00:14:13,200

probably in June so we'll see how that

334

00:14:17,629 --> 00:14:15,180

goes what I would really like to see is

335

00:14:20,210 --> 00:14:17,639

a multi-day hearing with multiple

336

00:14:23,449 --> 00:14:20,220

Witnesses you know whether they have

337

00:14:25,490 --> 00:14:23,459

been a part of previous uh programs or

338

00:14:27,650 --> 00:14:25,500

they were just you know witnesses to

339

00:14:29,389 --> 00:14:27,660

some pretty intense UAP encounters I

340

00:14:31,129 --> 00:14:29,399

would see a mult I would like to see a

341

00:14:33,889 --> 00:14:31,139

multi-day thing where where all those

342

00:14:35,569 --> 00:14:33,899

people get to talk on the record uh once

343

00:14:39,050 --> 00:14:35,579

and for all you know if you really want

344

00:14:41,210 --> 00:14:39,060

to tackle this subject like stop beating

345

00:14:43,370 --> 00:14:41,220

around the bush go direct to the

346

00:14:46,310 --> 00:14:43,380

witnesses let's see their conviction

347

00:14:49,430 --> 00:14:46,320

their emotion their honesty and their

348

00:14:52,610 --> 00:14:49,440

truth because really that's why we're

349

00:14:54,410 --> 00:14:52,620

all here we're not here because someone

350

00:14:56,350 --> 00:14:54,420

who hasn't witnessed something said

351
00:14:59,090 --> 00:14:56,360
something right we're all here because

352
00:15:01,730 --> 00:14:59,100
really impressive people have reported

353
00:15:03,350 --> 00:15:01,740
really impressive things you know or

354
00:15:05,750 --> 00:15:03,360
where somebody who has seen something

355
00:15:08,030 --> 00:15:05,760
ourselves let's stop eating around the

356
00:15:09,889 --> 00:15:08,040
bush and hear from these people

357
00:15:12,650 --> 00:15:09,899
you know if people have taken part in

358
00:15:15,170 --> 00:15:12,660
past dark programs that has to do with

359
00:15:18,290 --> 00:15:15,180
UFOs and retrievals

360
00:15:20,030 --> 00:15:18,300
let's get those people testified you

361
00:15:21,310 --> 00:15:20,040
know

362
00:15:27,829 --> 00:15:21,320
so

363
00:15:30,050 --> 00:15:27,839

that's what I would like to see

364

00:15:32,389 --> 00:15:30,060

speaking of the hearings they did show

365

00:15:34,129 --> 00:15:32,399

that video that they weren't able to

366

00:15:36,009 --> 00:15:34,139

identify

367

00:15:38,689 --> 00:15:36,019

um

368

00:15:40,129 --> 00:15:38,699

Dr Shanker Patrick did and the one was a

369

00:15:42,410 --> 00:15:40,139

plane or whatever and the other was a

370

00:15:44,509 --> 00:15:42,420

sphere that they couldn't identify it

371

00:15:48,470 --> 00:15:44,519

was definitely weird looking was it uh

372

00:15:51,350 --> 00:15:48,480

spooky like UFO stuff I don't know

373

00:15:52,670 --> 00:15:51,360

um it was definitely weird but it's

374

00:15:54,530 --> 00:15:52,680

blurry enough where it could be anything

375

00:15:56,930 --> 00:15:54,540

you know and I always say this when it

376

00:15:58,490 --> 00:15:56,940

comes to like classic UFO videos or

377

00:16:00,710 --> 00:15:58,500

pictures

378

00:16:01,970 --> 00:16:00,720

um what they really represent is an ink

379

00:16:04,910 --> 00:16:01,980

blot

380

00:16:07,069 --> 00:16:04,920

you know so anytime you see a UFO video

381

00:16:10,430 --> 00:16:07,079

or a picture it's always kind of fuzzy

382

00:16:12,949 --> 00:16:10,440

enough to where you know it's in the eye

383

00:16:15,290 --> 00:16:12,959

of the beholder like I can see a UFO

384

00:16:17,389 --> 00:16:15,300

just as much as anyone else could see a

385

00:16:19,790 --> 00:16:17,399

balloon and there's nothing to prove

386

00:16:21,110 --> 00:16:19,800

otherwise you know these are ink plots

387

00:16:26,629 --> 00:16:21,120

make

388

00:16:30,949 --> 00:16:29,090

so uh but I

389

00:16:32,870 --> 00:16:30,959

this article that I want to go over from

390

00:16:36,230 --> 00:16:32,880

Liberation times I thought was really

391

00:16:39,769 --> 00:16:36,240

cool for a couple reasons first of all

392

00:16:43,790 --> 00:16:39,779

it's scientific uh an aeronautical

393

00:16:47,569 --> 00:16:43,800

engineer who is staying Anonymous

394

00:16:50,410 --> 00:16:47,579

um wrote about this Fear Can spheres fly

395

00:16:53,090 --> 00:16:50,420

and he put some time into Research into

396

00:16:54,470 --> 00:16:53,100

looking at what it would take to you

397

00:16:56,689 --> 00:16:54,480

know to have a sphere fly in how that

398

00:16:58,310 --> 00:16:56,699

would happen so he says after seeing all

399

00:17:00,110 --> 00:16:58,320

the recent news about slang orbs and

400

00:17:02,030 --> 00:17:00,120

spheres a few colleagues and I spent

401
00:17:04,010 --> 00:17:02,040
time looking at the possibilities of how

402
00:17:06,230 --> 00:17:04,020
spheres could fly or at least levitate

403
00:17:08,689 --> 00:17:06,240
this fear is absolutely not an effective

404
00:17:10,309 --> 00:17:08,699
aerodynamic shape but subsonic speeds it

405
00:17:11,990 --> 00:17:10,319
creates no lift and generates large

406
00:17:13,909 --> 00:17:12,000
amounts of drag as the boundary layer

407
00:17:16,309 --> 00:17:13,919
separates from the surface once it

408
00:17:18,650 --> 00:17:16,319
reaches the maximum diameter

409
00:17:20,449 --> 00:17:18,660
and its supersonic speeds it forms a

410
00:17:22,789 --> 00:17:20,459
strong Bose shock wave and acts as a

411
00:17:25,370 --> 00:17:22,799
speed brick the USSR uses spherical

412
00:17:27,949 --> 00:17:25,380
shape for its bow stock one re-entry

413
00:17:29,450 --> 00:17:27,959

vehicle for this reason so aerodynamics

414

00:17:31,370 --> 00:17:29,460

is not the answer

415

00:17:33,590 --> 00:17:31,380

a few months ago a colleague proposed a

416

00:17:36,350 --> 00:17:33,600

hypothesis that his fear was built with

417

00:17:38,150 --> 00:17:36,360

exotic superconducting materials some of

418

00:17:41,990 --> 00:17:38,160

these include bismuth in case that

419

00:17:44,690 --> 00:17:42,000

sounds familiar it does could fly using

420

00:17:46,730 --> 00:17:44,700

Quantum magnetic levitation also known

421

00:17:49,310 --> 00:17:46,740

as the meissner effect

422

00:17:50,750 --> 00:17:49,320

when these materials are cooled to or

423

00:17:53,029 --> 00:17:50,760

below the critical temperature they

424

00:17:54,470 --> 00:17:53,039

expel magnetic fields this effect would

425

00:17:56,270 --> 00:17:54,480

apply to the Earth's magnetic field

426
00:17:58,490 --> 00:17:56,280
therefore by switching sections of

427
00:18:00,770 --> 00:17:58,500
sphere's surface on to expel the

428
00:18:02,990 --> 00:18:00,780
magnetic field and off to stop the

429
00:18:05,690 --> 00:18:03,000
effect one could make a sphere levitate

430
00:18:07,789 --> 00:18:05,700
and even move in any direction

431
00:18:09,590 --> 00:18:07,799
the round shape is the perfect shape to

432
00:18:11,630 --> 00:18:09,600
achieve such movement depending on the

433
00:18:14,510 --> 00:18:11,640
granularity of these superconductor

434
00:18:16,549 --> 00:18:14,520
sections we initially dismissed this

435
00:18:19,610 --> 00:18:16,559
hypothesis because the Earth's magnetic

436
00:18:21,710 --> 00:18:19,620
field is weak and a 5 to 10 foot

437
00:18:23,990 --> 00:18:21,720
diameter sphere would have no way of

438
00:18:25,909 --> 00:18:24,000

generating the needed power but our

439

00:18:27,950 --> 00:18:25,919

thinking has evolved and we now think

440

00:18:30,409 --> 00:18:27,960

this is a viable solution when coupled

441

00:18:31,909 --> 00:18:30,419

with another emerging Technology power

442

00:18:34,130 --> 00:18:31,919

beaming

443

00:18:36,710 --> 00:18:34,140

let's discuss the Meisner effect and how

444

00:18:39,169 --> 00:18:36,720

it would work first assuming the sphere

445

00:18:40,850 --> 00:18:39,179

can generate enough cooling power or

446

00:18:43,070 --> 00:18:40,860

that the Earth's magnetic field can be

447

00:18:45,110 --> 00:18:43,080

Amplified as fear built out of exotic

448

00:18:48,890 --> 00:18:45,120

superconducting materials could levitate

449

00:18:49,909 --> 00:18:48,900

stale often wins and even move in any

450

00:18:51,830 --> 00:18:49,919

direction

451
00:18:53,810 --> 00:18:51,840
this could be accomplished by placing

452
00:18:55,370 --> 00:18:53,820
this superconducting plates in a

453
00:18:57,289 --> 00:18:55,380
grid-like fashion

454
00:18:59,810 --> 00:18:57,299
the plates would be independent of each

455
00:19:02,210 --> 00:18:59,820
other and could be turned on

456
00:19:04,909 --> 00:19:02,220
in tune to expel the magnetic field or

457
00:19:07,310 --> 00:19:04,919
turned off to not expelled by an

458
00:19:10,370 --> 00:19:07,320
algorithm depending on what maneuver it

459
00:19:14,990 --> 00:19:12,650
to levitate the sphere would turn off or

460
00:19:17,450 --> 00:19:15,000
lower the power of the plates on the top

461
00:19:19,130 --> 00:19:17,460
half and turn on and adjust the power of

462
00:19:20,630 --> 00:19:19,140
the plates on the bottom half to expel

463
00:19:22,730 --> 00:19:20,640

the magnetic field

464

00:19:25,010 --> 00:19:22,740

too much power in the sphere shoots

465

00:19:27,289 --> 00:19:25,020

upward or too little and it falls to the

466

00:19:29,150 --> 00:19:27,299

ground the same applies to staying Aloft

467

00:19:30,950 --> 00:19:29,160

in high winds plates over the surface

468

00:19:32,630 --> 00:19:30,960

would power up to expel the magnetic

469

00:19:35,210 --> 00:19:32,640

field and push against the wind

470

00:19:36,890 --> 00:19:35,220

multi-axis movement can also be achieved

471

00:19:38,450 --> 00:19:36,900

in this manner by increasing power to

472

00:19:40,909 --> 00:19:38,460

some of the plates and lowering or

473

00:19:43,250 --> 00:19:40,919

switching off others

474

00:19:44,750 --> 00:19:43,260

with increasing grid granularity which

475

00:19:46,789 --> 00:19:44,760

results in smaller and smaller plates

476
00:19:48,409 --> 00:19:46,799
the maneuvering capability becomes

477
00:19:50,870 --> 00:19:48,419
increasingly sharper

478
00:19:52,190 --> 00:19:50,880
this technology could stop hover and

479
00:19:54,110 --> 00:19:52,200
accelerate in a different direction

480
00:19:55,549 --> 00:19:54,120
mimicking some of the descriptions of

481
00:19:58,190 --> 00:19:55,559
UAP

482
00:20:00,470 --> 00:19:58,200
with this technology it can what this

483
00:20:02,630 --> 00:20:00,480
technology can account for is supersonic

484
00:20:05,210 --> 00:20:02,640
speed

485
00:20:07,970 --> 00:20:05,220
assuming the combination of very cool

486
00:20:09,590 --> 00:20:07,980
high cooling power in enhanced magnetic

487
00:20:11,810 --> 00:20:09,600
field in a lightning fast computer to

488
00:20:13,669 --> 00:20:11,820

control the superconducting plates this

489

00:20:16,370 --> 00:20:13,679

system can go from hover to high

490

00:20:19,130 --> 00:20:16,380

subsonic speeds and stop and turn at 90

491

00:20:20,690 --> 00:20:19,140

degree angles but crossing the transonic

492

00:20:22,610 --> 00:20:20,700

barrier and dealing with a bow shock

493

00:20:25,250 --> 00:20:22,620

wave requires a very different type of

494

00:20:27,590 --> 00:20:25,260

Technology like plasma actuators that we

495

00:20:30,470 --> 00:20:27,600

will save for another time

496

00:20:32,270 --> 00:20:30,480

let's now turn to the other platform

497

00:20:35,210 --> 00:20:32,280

first magnetic field is very weak

498

00:20:37,430 --> 00:20:35,220

ranging from 0.3 to 0.6 Gauss a magnet

499

00:20:39,230 --> 00:20:37,440

you hang on your fridge door has a

500

00:20:40,909 --> 00:20:39,240

strength of a hundred it goes for

501
00:20:42,529 --> 00:20:40,919
comparison to make this work we would

502
00:20:45,110 --> 00:20:42,539
need an extremely cooled superconductor

503
00:20:46,789 --> 00:20:45,120
combined with some way to amplify the

504
00:20:49,070 --> 00:20:46,799
magnetic field

505
00:20:51,049 --> 00:20:49,080
this is the original reason we rejected

506
00:20:52,549 --> 00:20:51,059
this idea earlier but that was only

507
00:20:55,070 --> 00:20:52,559
until we realized it could be

508
00:20:57,710 --> 00:20:55,080
accomplished with power beaming

509
00:20:59,390 --> 00:20:57,720
power beaming is defined as a

510
00:21:02,029 --> 00:20:59,400
point-to-point transfer of electrical

511
00:21:04,490 --> 00:21:02,039
energy by a directed electromagnetic

512
00:21:07,070 --> 00:21:04,500
beam who's the brainchild of Nikola

513
00:21:08,510 --> 00:21:07,080

Tesla but only now is finally becoming a

514

00:21:10,549 --> 00:21:08,520

reality

515

00:21:12,789 --> 00:21:10,559

the basics involve a large craft or

516

00:21:15,049 --> 00:21:12,799

satellite let's call it the mothership

517

00:21:17,570 --> 00:21:15,059

bimic powered a smaller dependent

518

00:21:19,610 --> 00:21:17,580

Vehicles let's call them lightcraft via

519

00:21:22,190 --> 00:21:19,620

electromagnetic beams such as lasers

520

00:21:24,590 --> 00:21:22,200

microwaves or similar methods

521

00:21:28,070 --> 00:21:24,600

we have even tested this technology on

522

00:21:30,289 --> 00:21:28,080

the space force forces x37b space bling

523

00:21:31,970 --> 00:21:30,299

the majority of future drones and

524

00:21:33,710 --> 00:21:31,980

satellites will almost certainly be like

525

00:21:34,970 --> 00:21:33,720

graphs that are powered by a Mothership

526
00:21:37,310 --> 00:21:34,980
of some kind

527
00:21:39,890 --> 00:21:37,320
if our hypothetical sphere is a light

528
00:21:42,830 --> 00:21:39,900
graft and has a powerful Mothership then

529
00:21:44,810 --> 00:21:42,840
the obstacles start to melt away

530
00:21:46,370 --> 00:21:44,820
powerful Mothership with advanced

531
00:21:48,529 --> 00:21:46,380
technology can certainly beam enough

532
00:21:50,330 --> 00:21:48,539
power to our sphere to achieve extreme

533
00:21:52,669 --> 00:21:50,340
super cool temperatures

534
00:21:54,470 --> 00:21:52,679
and with Advanced enough technology such

535
00:21:56,450 --> 00:21:54,480
a Mothership could even increase the

536
00:21:57,649 --> 00:21:56,460
strength of the magnetic field around

537
00:22:00,289 --> 00:21:57,659
the sphere

538
00:22:02,990 --> 00:22:00,299

so the concept was still far-fetched

539

00:22:05,090 --> 00:22:03,000

does not seem impossible

540

00:22:08,210 --> 00:22:05,100

anymore

541

00:22:10,370 --> 00:22:08,220

condorman who wishes to remain anonymous

542

00:22:12,049 --> 00:22:10,380

as a senior level aerospace engineer who

543

00:22:14,090 --> 00:22:12,059

has worked in the defense industry for

544

00:22:15,230 --> 00:22:14,100

over 30 years designing advanced

545

00:22:16,970 --> 00:22:15,240

technology

546

00:22:18,890 --> 00:22:16,980

so there you go

547

00:22:20,690 --> 00:22:18,900

I thought that was pretty cool to get

548

00:22:22,730 --> 00:22:20,700

that so

549

00:22:24,289 --> 00:22:22,740

This Guy's in the Aerospace bits you

550

00:22:26,149 --> 00:22:24,299

know can I confirm that no he goes by

551
00:22:28,610 --> 00:22:26,159
Anonymous but he sounds pretty dang

552
00:22:31,490 --> 00:22:28,620
smart and he doesn't say that spheres

553
00:22:34,010 --> 00:22:31,500
flying at super fast

554
00:22:36,230 --> 00:22:34,020
um speeds is necessarily possible but

555
00:22:38,870 --> 00:22:36,240
everything else

556
00:22:40,850 --> 00:22:38,880
theoretically is

557
00:22:43,430 --> 00:22:40,860
so it's pretty interesting

558
00:22:45,649 --> 00:22:43,440
kind of goes to show well you know what

559
00:22:47,149 --> 00:22:45,659
I always think is American Tech what

560
00:22:49,490 --> 00:22:47,159
we're working on is always far in

561
00:22:52,850 --> 00:22:49,500
advance of what we see

562
00:22:55,130 --> 00:22:52,860
you know like the YouTube plane

563
00:22:58,730 --> 00:22:55,140

I think it made a first official test

564

00:23:00,230 --> 00:22:58,740

flight 1955. I want to say

565

00:23:02,810 --> 00:23:00,240

but they were working on it for a few

566

00:23:05,390 --> 00:23:02,820

years before that is that what this fear

567

00:23:07,669 --> 00:23:05,400

is maybe possibly

568

00:23:09,590 --> 00:23:07,679

so you want to always research UFOs back

569

00:23:10,730 --> 00:23:09,600

in the day they're never as small as

570

00:23:12,770 --> 00:23:10,740

these fears

571

00:23:15,110 --> 00:23:12,780

so it's pretty interesting

572

00:23:19,610 --> 00:23:15,120

but we'll see

573

00:23:21,529 --> 00:23:19,620

time well freaking tell man I'll tell

574

00:23:23,690 --> 00:23:21,539

you that right now

575

00:23:26,390 --> 00:23:23,700

so I thought that was a great article

576

00:23:29,390 --> 00:23:26,400

and I think now is probably a good time

577

00:23:32,990 --> 00:23:29,400

to maybe

578

00:23:36,350 --> 00:23:33,000

I don't know transition into

579

00:23:40,669 --> 00:23:40,070

thought that we could get into

580

00:23:42,789 --> 00:23:40,679

um

581

00:23:46,310 --> 00:23:42,799

some

582

00:23:49,370 --> 00:23:46,320

old documents and old cases and I find

583

00:23:49,380 --> 00:23:53,990

but for now I think this is probably

584

00:24:04,310 --> 00:23:59,330

good time for me to take a talking break

585

00:24:09,350 --> 00:24:07,669

that way I can really deliver on the

586

00:24:10,970 --> 00:24:09,360

second half of the show

587

00:24:14,090 --> 00:24:10,980

because you know that's important to me

588

00:24:14,100 --> 00:24:24,250

let's do this

589

00:24:29,450 --> 00:24:26,990

good evening tonight we go after a

590

00:24:31,610 --> 00:24:29,460

fantastic story the story that flying

591

00:24:34,070 --> 00:24:31,620

saucers from other worlds are visiting

592

00:24:35,930 --> 00:24:34,080

our planet just as we are exploring

593

00:24:37,190 --> 00:24:35,940

outer space with our own rocket

594

00:24:39,350 --> 00:24:37,200

satellites

595

00:24:41,750 --> 00:24:39,360

Our Guest is former Marine Air Corps

596

00:24:43,070 --> 00:24:41,760

Major Donald Keyhole who has the

597

00:24:45,350 --> 00:24:43,080

supportive scores of prominent

598

00:24:47,870 --> 00:24:45,360

businessmen military men and some

599

00:24:50,330 --> 00:24:47,880

scientists it is campaign to prove that

600

00:24:51,890 --> 00:24:50,340

flying saucers exist

601
00:24:53,750 --> 00:24:51,900
if you're curious to know why major

602
00:24:56,390 --> 00:24:53,760
keyhoe charges at the United States Air

603
00:24:58,970 --> 00:24:56,400
Force is deliberately deluding us when

604
00:25:00,409 --> 00:24:58,980
it called Salsa's story is the bunk if

605
00:25:02,930 --> 00:25:00,419
you want to hear his own evidence that

606
00:25:04,370 --> 00:25:02,940
the saucers are real and his reaction to

607
00:25:07,310 --> 00:25:04,380
the claim of two Americans who say

608
00:25:08,990 --> 00:25:07,320
they've spoken with men from Venus

609
00:25:09,710 --> 00:25:09,000
we'll go after those stories in just a

610
00:25:12,649 --> 00:25:09,720
moment

611
00:25:16,330 --> 00:25:12,659
my name is Mike Wallace the cigarette is

612
00:25:21,280 --> 00:25:18,230
the new

613
00:25:23,169 --> 00:25:21,290

High filtration filter Parliament

614

00:25:25,390 --> 00:25:23,179

[Music]

615

00:25:30,730 --> 00:25:25,400

presents

616

00:25:37,190 --> 00:25:34,370

a Mike Wallace interview

617

00:25:39,710 --> 00:25:37,200

we'll meet major Kehoe in just a minute

618

00:25:42,890 --> 00:25:39,720

how does your cigarette stack up against

619

00:25:45,169 --> 00:25:42,900

other brands well if parliament's your

620

00:25:46,430 --> 00:25:45,179

smoke you're smoking the best because

621

00:25:49,310 --> 00:25:46,440

now

622

00:25:50,330 --> 00:25:49,320

Parliament with the recessed filter is

623

00:25:51,710 --> 00:25:50,340

best

624

00:25:54,529 --> 00:25:51,720

that's

625

00:25:57,350 --> 00:25:54,539

the new high five or high filtration

626

00:26:00,830 --> 00:25:57,360

polished the proof

627

00:26:03,350 --> 00:26:00,840

well suppose I show you first Parliament

628

00:26:06,590 --> 00:26:03,360

is best because only Parliament can give

629

00:26:10,130 --> 00:26:06,600

you over 30 000 traps no other popular

630

00:26:13,090 --> 00:26:10,140

cigarette delivers less nicotine and tar

631

00:26:16,730 --> 00:26:13,100

second unlike ordinary filters

632

00:26:19,909 --> 00:26:16,740

parliament's filter is recessed set feet

633

00:26:22,549 --> 00:26:19,919

down inside here so the Trap nicotine

634

00:26:25,310 --> 00:26:22,559

and tar can't get on your lips

635

00:26:27,529 --> 00:26:25,320

and third because it's recessed there's

636

00:26:29,810 --> 00:26:27,539

no bitter taste of concentrated nicotine

637

00:26:31,430 --> 00:26:29,820

and tar to spoil parliament's pure

638

00:26:33,470 --> 00:26:31,440

tobacco flavor

639

00:26:35,690 --> 00:26:33,480

these filter findings are confirmed by

640

00:26:38,630 --> 00:26:35,700

the United States testing company

641

00:26:41,390 --> 00:26:38,640

over 30 000 traps exclusive recessed

642

00:26:43,970 --> 00:26:41,400

filter flavor pure protection

643

00:26:48,710 --> 00:26:43,980

yes now smoke the best high filtration

644

00:26:52,909 --> 00:26:50,690

and now to our story

645

00:26:55,250 --> 00:26:52,919

major Donald Kehoe is the director of

646

00:26:56,870 --> 00:26:55,260

the national investigations committee on

647

00:26:59,630 --> 00:26:56,880

aerial phenomena

648

00:27:01,970 --> 00:26:59,640

as head of this private group interested

649

00:27:03,710 --> 00:27:01,980

in flying saucers he's repeatedly

650

00:27:05,990 --> 00:27:03,720

attacked the United States Air Force and

651
00:27:08,390 --> 00:27:06,000
others proclaiming that flying saucers

652
00:27:11,390 --> 00:27:08,400
are apparently Flights of Fancy and not

653
00:27:13,549 --> 00:27:11,400
flights by martians or men from a moon

654
00:27:17,090 --> 00:27:13,559
independent surveys show that millions

655
00:27:19,130 --> 00:27:17,100
of Americans do share his beliefs in

656
00:27:20,990 --> 00:27:19,140
these Celestial sources

657
00:27:22,430 --> 00:27:21,000
major Keyhole first of all let me ask

658
00:27:24,710 --> 00:27:22,440
you this most people in the United

659
00:27:26,210 --> 00:27:24,720
States in spite of the fact that I say

660
00:27:27,490 --> 00:27:26,220
that Millions do believe I think you

661
00:27:30,169 --> 00:27:27,500
will agree

662
00:27:34,669 --> 00:27:30,179
all right all right all right all right

663
00:27:41,049 --> 00:27:35,750

he's alive

664

00:27:46,070 --> 00:27:43,730

yes so

665

00:27:48,529 --> 00:27:46,080

um that Mike Wallace interview is pretty

666

00:27:50,390 --> 00:27:48,539

interesting for sure and it reminds me

667

00:27:55,250 --> 00:27:50,400

so much

668

00:27:58,370 --> 00:27:55,260

of now you know For Better or For Worse

669

00:28:00,409 --> 00:27:58,380

Havana comes in Foo Fighters were small

670

00:28:02,570 --> 00:28:00,419

kind of going back before we hit the

671

00:28:06,649 --> 00:28:02,580

parliament commercial is smaller UFOs

672

00:28:09,409 --> 00:28:06,659

yeah they did I mean they were reported

673

00:28:13,010 --> 00:28:09,419

I definitely saw some in the Blue Book

674

00:28:14,390 --> 00:28:13,020

files I'm just saying typically but you

675

00:28:20,029 --> 00:28:14,400

know

676
00:28:22,789 --> 00:28:20,039
what the hell

677
00:28:24,950 --> 00:28:22,799
this stuff is so

678
00:28:27,529 --> 00:28:24,960
you know there's that

679
00:28:32,630 --> 00:28:27,539
[Laughter]

680
00:28:37,909 --> 00:28:36,529
that I have just branded that's called a

681
00:28:40,370 --> 00:28:37,919
blast

682
00:28:44,150 --> 00:28:40,380
from the past you see this life and

683
00:28:53,390 --> 00:28:44,160
where all right you've seen one yeah

684
00:28:58,909 --> 00:28:56,630
all right it blast from the past so I

685
00:29:01,970 --> 00:28:58,919
put together a little thing here for us

686
00:29:03,409 --> 00:29:01,980
that we can

687
00:29:05,570 --> 00:29:03,419
foreign

688
00:29:07,669 --> 00:29:05,580

get into so I'm having some computer

689

00:29:11,149 --> 00:29:07,679

issues here

690

00:29:17,750 --> 00:29:11,159

so Blast from the Past what I wanted to

691

00:29:23,090 --> 00:29:19,789

I don't know why it just keeps playing

692

00:29:28,610 --> 00:29:23,100

sorry about that is this interesting

693

00:29:33,769 --> 00:29:30,950

there are a lot of sightings in July

694

00:29:38,090 --> 00:29:33,779

1952

695

00:29:40,310 --> 00:29:38,100

it all came to a head with Washington DC

696

00:29:41,990 --> 00:29:40,320

and general Samford here

697

00:29:45,110 --> 00:29:42,000

and they said the Washington DC

698

00:29:46,730 --> 00:29:45,120

sightings were temperature inversions

699

00:29:48,350 --> 00:29:46,740

now there's a big press conference with

700

00:29:51,970 --> 00:29:48,360

General Sanford that a lot of people

701
00:29:54,889 --> 00:29:51,980
recognize or remember

702
00:29:56,930 --> 00:29:54,899
but most of the press conference is not

703
00:29:59,149 --> 00:29:56,940
in that clip that's a five minute clip

704
00:30:01,850 --> 00:29:59,159
that's online that you can see but the

705
00:30:04,669 --> 00:30:01,860
actual transcript of the whole thing is

706
00:30:06,289 --> 00:30:04,679
in the archives so I pulled it up and

707
00:30:07,850 --> 00:30:06,299
just took a couple bits of this so we

708
00:30:10,850 --> 00:30:07,860
could see

709
00:30:14,330 --> 00:30:10,860
um major Sanford here who says

710
00:30:17,090 --> 00:30:14,340
you know first the press to ask them

711
00:30:19,130 --> 00:30:17,100
um is it all right to ask if the Air

712
00:30:21,830 --> 00:30:19,140
Force thinks that these objects the

713
00:30:23,750 --> 00:30:21,840

other night in DC were a result of

714

00:30:26,210 --> 00:30:23,760

temperature inversions

715

00:30:28,549 --> 00:30:26,220

Sanford said well I'll answer that first

716

00:30:31,010 --> 00:30:28,559

try to and then ask Captain James for an

717

00:30:33,049 --> 00:30:31,020

opinion I don't think that we are quite

718

00:30:35,330 --> 00:30:33,059

sure that the Menzel theory of

719

00:30:37,669 --> 00:30:35,340

temperature inversion or that scientists

720

00:30:39,350 --> 00:30:37,679

are sure that this is a good theory it's

721

00:30:41,450 --> 00:30:39,360

supported by some people other people

722

00:30:45,049 --> 00:30:41,460

who have had equal competence it would

723

00:30:47,990 --> 00:30:45,059

appear discredited so the gamble as to

724

00:30:51,110 --> 00:30:48,000

whether it is the cause or not is about

725

00:30:53,990 --> 00:30:51,120

50 50 preposition it's appealing it does

726

00:30:55,669 --> 00:30:54,000

satisfy certain concerns is that a fair

727

00:30:58,610 --> 00:30:55,679

statement or answer to that question

728

00:31:00,350 --> 00:30:58,620

then Captain James corrects them sir the

729

00:31:04,310 --> 00:31:00,360

Menzel Theory applies mainly to light

730

00:31:05,990 --> 00:31:04,320

rays yes yes oh yes in regard to the

731

00:31:08,570 --> 00:31:06,000

temperature inversion effect on radar

732

00:31:10,970 --> 00:31:08,580

waves it's fairly well established uh

733

00:31:13,669 --> 00:31:10,980

down below the Press said uh wasn't

734

00:31:15,409 --> 00:31:13,679

there a naval battle during the during

735

00:31:18,529 --> 00:31:15,419

the war in which there was a great

736

00:31:21,350 --> 00:31:18,539

engagement fought against an inversion

737

00:31:23,930 --> 00:31:21,360

of radar I would love

738

00:31:25,310 --> 00:31:23,940

to know more about that story

739

00:31:27,169 --> 00:31:25,320
they were fighting a temperature

740

00:31:29,930 --> 00:31:27,179
inversion

741

00:31:31,850 --> 00:31:29,940
um that would be great to know

742

00:31:33,590 --> 00:31:31,860
um but you can see here yeah Sanford did

743

00:31:35,450 --> 00:31:33,600
the temperature inversion thing it's

744

00:31:38,750 --> 00:31:35,460
interesting that he said actually it was

745

00:31:41,870 --> 00:31:40,250
you know and a lot of people didn't

746

00:31:44,750 --> 00:31:41,880
agree on it although the temperature

747

00:31:48,049 --> 00:31:44,760
inversion for the DC sightings went on

748

00:31:51,769 --> 00:31:48,059
to be the reason for them

749

00:31:55,970 --> 00:31:53,810
wasn't too sure about it

750

00:31:57,830 --> 00:31:55,980
the Press says General Sanford to clear

751

00:31:59,630 --> 00:31:57,840

that point up I think Captain James

752

00:32:01,310 --> 00:31:59,640

indicated earlier in this reference the

753

00:32:03,289 --> 00:32:01,320

temperature inversion you now say that

754

00:32:04,970 --> 00:32:03,299

these are good returns

755

00:32:08,090 --> 00:32:04,980

can you get good Returns on this

756

00:32:10,190 --> 00:32:08,100

temperature inversion reflection

757

00:32:12,110 --> 00:32:10,200

that's what he says

758

00:32:15,350 --> 00:32:12,120

that's just a small part of it this

759

00:32:18,110 --> 00:32:15,360

story gets a lot better

760

00:32:22,130 --> 00:32:18,120

so I actually

761

00:32:22,140 --> 00:32:25,909

something very interesting

762

00:32:31,549 --> 00:32:27,409

in

763

00:32:37,490 --> 00:32:34,370

that I want to get to

764

00:32:40,430 --> 00:32:37,500

and here it is

765

00:32:43,730 --> 00:32:40,440

but first of all let me actually

766

00:32:45,590 --> 00:32:43,740

do something else

767

00:32:47,990 --> 00:32:45,600

I gotta do this a different way sorry

768

00:32:50,029 --> 00:32:48,000

about that

769

00:32:51,110 --> 00:32:50,039

here we go so I found this in the

770

00:32:52,909 --> 00:32:51,120

newspaper and I thought it was really

771

00:32:55,370 --> 00:32:52,919

good because for all the research that

772

00:32:57,649 --> 00:32:55,380

I've put into the DC sightings and

773

00:33:01,250 --> 00:32:57,659

everything somehow I missed this story

774

00:33:04,490 --> 00:33:01,260

and it's a first person account from the

775

00:33:07,610 --> 00:33:04,500

actual CAA which is now the FAA but the

776
00:33:09,590 --> 00:33:07,620
CAA radar operator who had a few years

777
00:33:12,130 --> 00:33:09,600
of experience

778
00:33:17,450 --> 00:33:12,140
um so I took this story from the Buffalo

779
00:33:19,250 --> 00:33:17,460
News July 31st 1952 how CAA radar in

780
00:33:24,889 --> 00:33:19,260
Washington it's about a mysterious

781
00:33:31,789 --> 00:33:26,930
was a really cool picture by the way as

782
00:33:33,529 --> 00:33:31,799
well so saucers moved halter Skelter

783
00:33:35,990 --> 00:33:33,539
the controller said I don't know what

784
00:33:38,450 --> 00:33:36,000
they are it says radar men of saucer CAA

785
00:33:40,370 --> 00:33:38,460
controller who watched Pips which were

786
00:33:43,370 --> 00:33:40,380
the blips the things that show up on the

787
00:33:46,310 --> 00:33:43,380
radar screen for hours declares they're

788
00:33:48,350 --> 00:33:46,320

not natural phenomena Harry G Barnes who

789

00:33:50,509 --> 00:33:48,360

wrote this eyewitness account

790

00:33:52,730 --> 00:33:50,519

of this month's first appearance of

791

00:33:55,370 --> 00:33:52,740

flying saucers over Washington has been

792

00:33:58,009 --> 00:33:55,380

working on radar traffic control for

793

00:33:59,810 --> 00:33:58,019

over five years

794

00:34:01,430 --> 00:33:59,820

so we got somebody really experienced

795

00:34:03,110 --> 00:34:01,440

actually writing this article which is

796

00:34:07,250 --> 00:34:03,120

great

797

00:34:09,470 --> 00:34:07,260

so shortly after midnight on July 19th

798

00:34:11,869 --> 00:34:09,480

Ed Nugent called me over to the radar

799

00:34:15,050 --> 00:34:11,879

scope and laughingly said

800

00:34:17,270 --> 00:34:15,060

here's a fleet of flank saucers for you

801
00:34:20,329 --> 00:34:17,280
as it turns out now Ed could very well

802
00:34:22,070 --> 00:34:20,339
have been stating an absolute fact I'm a

803
00:34:24,710 --> 00:34:22,080
senior air Route traffic controller for

804
00:34:26,149 --> 00:34:24,720
civil Aeronautics Administration and was

805
00:34:28,310 --> 00:34:26,159
in charge of the air Route traffic

806
00:34:30,349 --> 00:34:28,320
control center that particular night at

807
00:34:32,930 --> 00:34:30,359
Washington's national airport

808
00:34:34,909 --> 00:34:32,940
briefly part of our job is to constantly

809
00:34:37,070 --> 00:34:34,919
monitor the skies around the nation's

810
00:34:40,970 --> 00:34:37,080
capital with the electronic eye of radar

811
00:34:43,250 --> 00:34:40,980
for purposes of controlling air traffic

812
00:34:45,230 --> 00:34:43,260
our shift had been on duty about 40

813
00:34:47,450 --> 00:34:45,240

minutes eight men were on this

814

00:34:49,849 --> 00:34:47,460

particular shift it was a normal night

815

00:34:52,430 --> 00:34:49,859

for both flying and weather the sky was

816

00:34:55,010 --> 00:34:52,440

cloudless no storms were approaching

817

00:34:55,909 --> 00:34:55,020

air traffic was light as usual for that

818

00:34:58,130 --> 00:34:55,919

period

819

00:35:01,550 --> 00:34:58,140

I think those facts are important in

820

00:35:04,130 --> 00:35:01,560

connection with what came later

821

00:35:06,050 --> 00:35:04,140

the things which caused Ed to call me

822

00:35:09,290 --> 00:35:06,060

over to the scope were seven fips

823

00:35:11,569 --> 00:35:09,300

clustered irregularly in one corner the

824

00:35:14,050 --> 00:35:11,579

scope is 24 inches in diameter and the

825

00:35:16,670 --> 00:35:14,060

Pips show up at a pale Violet spots

826

00:35:19,790 --> 00:35:16,680

ordinarily they represent aircraft in

827

00:35:21,349 --> 00:35:19,800

the air the radar we were using skins 70

828

00:35:23,150 --> 00:35:21,359

mile radius

829

00:35:25,310 --> 00:35:23,160

the seven Pips indicated that the

830

00:35:27,470 --> 00:35:25,320

objects or whatever they were were in

831

00:35:29,870 --> 00:35:27,480

the air over an area about nine miles in

832

00:35:32,150 --> 00:35:29,880

diameter 15 miles South Southwest of

833

00:35:34,970 --> 00:35:32,160

Washington we knew immediately that a

834

00:35:37,190 --> 00:35:34,980

very strange situation existed

835

00:35:39,530 --> 00:35:37,200

first from all the information we had at

836

00:35:43,190 --> 00:35:39,540

hand we knew that the spots were not

837

00:35:45,890 --> 00:35:43,200

aircraft at least not friendly aircraft

838

00:35:48,829 --> 00:35:45,900

that left three possibilities enemy

839

00:35:51,589 --> 00:35:48,839

aircraft some unexplained flying objects

840

00:35:53,810 --> 00:35:51,599

there's something wrong with the radar

841

00:35:55,670 --> 00:35:53,820

we tracked the seven Pips for about five

842

00:35:57,770 --> 00:35:55,680

minutes and quickly determined that they

843

00:36:00,530 --> 00:35:57,780

were moving between 100 and 130 miles

844

00:36:02,510 --> 00:36:00,540

per hour while we could observe them

845

00:36:04,970 --> 00:36:02,520

but their movements were completely

846

00:36:06,050 --> 00:36:04,980

radical compared to those of ordinary

847

00:36:08,870 --> 00:36:06,060

aircraft

848

00:36:11,390 --> 00:36:08,880

they followed no set course we're not in

849

00:36:13,190 --> 00:36:11,400

any formation and we only seem to be

850

00:36:14,630 --> 00:36:13,200

able to track them for about three miles

851

00:36:16,490 --> 00:36:14,640

at a time

852

00:36:18,829 --> 00:36:16,500

the individual pip would seem to

853

00:36:21,710 --> 00:36:18,839

disappear from the scope at intervals

854

00:36:23,630 --> 00:36:21,720

later I realized that if these objects

855

00:36:26,510 --> 00:36:23,640

had made any sudden burst of extremely

856

00:36:29,930 --> 00:36:26,520

high speed that would account for them

857

00:36:32,210 --> 00:36:29,940

disappearing from the scope temporarily

858

00:36:34,310 --> 00:36:32,220

a radar is only designed to track known

859

00:36:41,990 --> 00:36:34,320

types of aircraft or objects in the air

860

00:36:46,069 --> 00:36:44,150

pretty great story

861

00:36:48,530 --> 00:36:46,079

after five minutes of watching The

862

00:36:50,690 --> 00:36:48,540

Strange Pips I asked Jim Copeland and

863

00:36:52,670 --> 00:36:50,700

Jim Ritchie to experience radar

864

00:36:54,530 --> 00:36:52,680

controllers to check our observations

865

00:36:56,569 --> 00:36:54,540

they confirmed our findings then I

866

00:36:58,910 --> 00:36:56,579

called the airport control tower to see

867

00:37:00,530 --> 00:36:58,920

what the radar showed there the radar

868

00:37:02,089 --> 00:37:00,540

operator verified the same thing

869

00:37:05,450 --> 00:37:02,099

instantly

870

00:37:07,190 --> 00:37:05,460

at this time I notified the air force of

871

00:37:08,870 --> 00:37:07,200

our observation this is a regular

872

00:37:10,790 --> 00:37:08,880

procedure but some parts of it are

873

00:37:13,010 --> 00:37:10,800

secret and I am not at Liberty to

874

00:37:15,050 --> 00:37:13,020

explain it in detail

875

00:37:16,970 --> 00:37:15,060

but we kept the Air Force informed of

876
00:37:18,950 --> 00:37:16,980
subsequent observations which continued

877
00:37:22,010 --> 00:37:18,960
for approximately the next six hours

878
00:37:23,630 --> 00:37:22,020
until after daylight when we could no

879
00:37:25,730 --> 00:37:23,640
longer distinguish the objects from

880
00:37:28,609 --> 00:37:25,740
other aircraft

881
00:37:30,470 --> 00:37:28,619
an early Sunday morning is an especially

882
00:37:32,450 --> 00:37:30,480
busy time for both private flying and

883
00:37:34,490 --> 00:37:32,460
Military Reserve flag

884
00:37:36,230 --> 00:37:34,500
before notifying the air force of our

885
00:37:37,609 --> 00:37:36,240
findings our technicians that carefully

886
00:37:40,790 --> 00:37:37,619
checked the equipment to make certain

887
00:37:44,870 --> 00:37:40,800
that it was operating perfectly

888
00:37:49,010 --> 00:37:44,880

these are the most important events

889

00:37:54,410 --> 00:37:52,069

during it the first hour of the objects

890

00:37:56,750 --> 00:37:54,420

had moved over all sectors of our scope

891

00:37:59,150 --> 00:37:56,760

that meant that they had been over the

892

00:38:04,730 --> 00:37:59,160

restricted areas of Washington including

893

00:38:09,410 --> 00:38:06,829

at the first opportunity Mr Richie

894

00:38:12,290 --> 00:38:09,420

contacted Capital airline pilot Captain

895

00:38:14,390 --> 00:38:12,300

Pearman a veteran of 17 years of flying

896

00:38:16,130 --> 00:38:14,400

shortly after taking off Mr Ritchie ass

897

00:38:18,109 --> 00:38:16,140

kept a pyramid to look for the objects

898

00:38:19,310 --> 00:38:18,119

we were watching on scope he agreed to

899

00:38:21,290 --> 00:38:19,320

do this

900

00:38:24,650 --> 00:38:21,300

all of a sudden his voice came over the

901
00:38:28,310 --> 00:38:24,660
radio which we could all hear with the

902
00:38:31,010 --> 00:38:28,320
words there's one and there it goes

903
00:38:33,050 --> 00:38:31,020
he described it as just a bright light

904
00:38:34,010 --> 00:38:33,060
moving faster than a shooting star at

905
00:38:35,930 --> 00:38:34,020
times

906
00:38:38,270 --> 00:38:35,940
his subsequent descriptions of the

907
00:38:42,230 --> 00:38:38,280
movements of the object coincided with

908
00:38:46,069 --> 00:38:42,240
the position of our Pips at all times

909
00:38:51,410 --> 00:38:49,069
during the next 14 minutes he reported

910
00:38:54,050 --> 00:38:51,420
that he saw six such lights

911
00:38:56,750 --> 00:38:54,060
he said they had no tail no recognizable

912
00:38:58,130 --> 00:38:56,760
shape and were just bright lights in the

913
00:39:00,650 --> 00:38:58,140

dark sky

914

00:39:02,810 --> 00:39:00,660

each sighting coincided with a pip

915

00:39:05,030 --> 00:39:02,820

we could see near his plane

916

00:39:07,069 --> 00:39:05,040

when he reported that the light streaked

917

00:39:10,130 --> 00:39:07,079

off at high speed it disappeared on her

918

00:39:12,170 --> 00:39:10,140

scope for the apparent reason I cited

919

00:39:14,329 --> 00:39:12,180

while he was giving us reports of his

920

00:39:16,130 --> 00:39:14,339

sightings he was on a course from

921

00:39:18,530 --> 00:39:16,140

Herndon Virginia

922

00:39:20,630 --> 00:39:18,540

to Martinsburg West Virginia

923

00:39:23,030 --> 00:39:20,640

some of the other Pilots we contacted

924

00:39:25,310 --> 00:39:23,040

reported that they were unable to see

925

00:39:27,710 --> 00:39:25,320

the objects I had the distinct feeling

926
00:39:30,109 --> 00:39:27,720
that some of them were just unwilling to

927
00:39:32,329 --> 00:39:30,119
discuss the subject over the radio

928
00:39:34,130 --> 00:39:32,339
however one other commercial pilot did

929
00:39:36,829 --> 00:39:34,140
flatly confirm seeing a light off his

930
00:39:38,030 --> 00:39:36,839
left wing which we saw as a PIV on the

931
00:39:40,250 --> 00:39:38,040
scope

932
00:39:41,930 --> 00:39:40,260
he was coming in for his landing and the

933
00:39:44,329 --> 00:39:41,940
tower scope reported the same radar

934
00:39:45,170 --> 00:39:44,339
sighting the light disappeared on our

935
00:39:47,990 --> 00:39:45,180
scope

936
00:39:52,730 --> 00:39:48,000
and from his view about four miles

937
00:39:58,190 --> 00:39:55,310
nobody talks about this part

938
00:40:04,310 --> 00:40:01,010

that the radar operator

939

00:40:08,870 --> 00:40:04,320

was able to match their blips to visual

940

00:40:13,069 --> 00:40:11,329

but yet safer goes out on a press

941

00:40:14,990 --> 00:40:13,079

conference it's a temperature inversions

942

00:40:19,849 --> 00:40:15,000

and we're dealing with the same very

943

00:40:23,810 --> 00:40:21,650

during the whole period of observation

944

00:40:25,370 --> 00:40:23,820

we could detect no pattern to the

945

00:40:27,230 --> 00:40:25,380

movement of these objects however they

946

00:40:29,870 --> 00:40:27,240

did seem to become most active around

947

00:40:31,849 --> 00:40:29,880

the planes we saw on the scope

948

00:40:34,730 --> 00:40:31,859

we did not see the Pips in any

949

00:40:37,250 --> 00:40:34,740

recognizable formation at any time

950

00:40:40,130 --> 00:40:37,260

the radar we were using does not show

951
00:40:42,410 --> 00:40:40,140
altitude and is faintly possible

952
00:40:44,510 --> 00:40:42,420
that the objects could have been in a

953
00:40:46,670 --> 00:40:44,520
vertical formation without are

954
00:40:49,790 --> 00:40:46,680
recognizing it

955
00:40:51,589 --> 00:40:49,800
at one time toward Daybreak we counted

956
00:40:53,870 --> 00:40:51,599
10 objects over Andrew's field just

957
00:40:55,849 --> 00:40:53,880
outside of Washington we cited seven

958
00:40:57,829 --> 00:40:55,859
originally most of the time we could

959
00:40:59,870 --> 00:40:57,839
count eight of them

960
00:41:01,550 --> 00:40:59,880
the only recognizable Behavior pattern

961
00:41:04,190 --> 00:41:01,560
which occurred to me from watching the

962
00:41:10,310 --> 00:41:04,200
Pips was that they acted like a bunch of

963
00:41:15,950 --> 00:41:13,250

it was Helter Skelter as if directed by

964

00:41:17,870 --> 00:41:15,960

some innate curiosity

965

00:41:20,569 --> 00:41:17,880

at times they moved as a group or

966

00:41:23,030 --> 00:41:20,579

cluster other times as individuals over

967

00:41:24,829 --> 00:41:23,040

widely scattered areas

968

00:41:26,810 --> 00:41:24,839

other than some information in

969

00:41:29,510 --> 00:41:26,820

connection with our Communications with

970

00:41:31,250 --> 00:41:29,520

the Air Force which is classified the

971

00:41:33,410 --> 00:41:31,260

above is a complete factual description

972

00:41:36,109 --> 00:41:33,420

of the important events which took place

973

00:41:38,270 --> 00:41:36,119

during those six hours these facts I

974

00:41:41,030 --> 00:41:38,280

have set forth in my official report to

975

00:41:43,190 --> 00:41:41,040

CAA

976
00:41:46,370 --> 00:41:43,200
speaking personally

977
00:41:47,990 --> 00:41:46,380
and not officially for CAA

978
00:41:50,030 --> 00:41:48,000
I would like to make these additional

979
00:41:54,349 --> 00:41:50,040
comments

980
00:41:56,930 --> 00:41:54,359
radar is strictly an Electronics device

981
00:41:59,750 --> 00:41:56,940
it has no imagination

982
00:42:02,690 --> 00:41:59,760
it reports only what it sees

983
00:42:06,650 --> 00:42:02,700
the equipment was imperfect operating

984
00:42:11,569 --> 00:42:09,589
there is no other conclusion I can reach

985
00:42:13,510 --> 00:42:11,579
but then for six hours on the morning of

986
00:42:15,950 --> 00:42:13,520
July 20 there were at least 10

987
00:42:17,390 --> 00:42:15,960
unidentifiable objects moving above

988
00:42:20,390 --> 00:42:17,400

Washington

989

00:42:22,670 --> 00:42:20,400
they were not ordinary aircraft

990

00:42:24,109 --> 00:42:22,680
I could tell that by their movement on

991

00:42:26,690 --> 00:42:24,119
the scope

992

00:42:29,329 --> 00:42:26,700
I can safely deduce that they performed

993

00:42:31,190 --> 00:42:29,339
at gyrations which no known aircraft

994

00:42:33,050 --> 00:42:31,200
could perform

995

00:42:35,210 --> 00:42:33,060
by this

996

00:42:37,609 --> 00:42:35,220
I mean that our scope showed that they

997

00:42:41,329 --> 00:42:37,619
could make right angled turns

998

00:42:43,550 --> 00:42:41,339
and complete reversals of flight

999

00:42:45,670 --> 00:42:43,560
nor in my opinion could any natural

1000

00:42:47,930 --> 00:42:45,680
phenomena such as shooting stars

1001

00:42:50,510 --> 00:42:47,940

electrical disturbances or clouds

1002

00:42:53,390 --> 00:42:50,520

account for these spots on our radar

1003

00:42:56,569 --> 00:42:53,400

exactly what they are I don't know

1004

00:43:00,470 --> 00:42:56,579

you now know as much about them as I do

1005

00:43:01,910 --> 00:43:00,480

and your guess is as good as mine

1006

00:43:03,829 --> 00:43:01,920

oh

1007

00:43:07,609 --> 00:43:03,839

wow

1008

00:43:13,490 --> 00:43:10,010

pretty cool

1009

00:43:19,490 --> 00:43:16,609

got a hold of the original

1010

00:43:24,710 --> 00:43:21,770

of the radar

1011

00:43:26,930 --> 00:43:24,720

at Washington National Airport and I had

1012

00:43:29,809 --> 00:43:26,940

no idea this existed I don't know if

1013

00:43:33,710 --> 00:43:29,819

anybody else does they probably do

1014

00:43:38,390 --> 00:43:35,930

and I think that's pretty cool

1015

00:43:40,190 --> 00:43:38,400

the radar control room of the CAA at

1016

00:43:42,770 --> 00:43:40,200

Washington National Airport tracks range

1017

00:43:44,510 --> 00:43:42,780

of objects on the large scope

1018

00:43:46,970 --> 00:43:44,520

and Center foreground

1019

00:43:49,309 --> 00:43:46,980

it shows position of aircraft within a

1020

00:43:52,190 --> 00:43:49,319

radius of 70 miles the picture below is

1021

00:43:53,990 --> 00:43:52,200

what CAA traffic controller saw mystery

1022

00:43:55,069 --> 00:43:54,000

blips were tracked from Midnight until

1023

00:43:58,730 --> 00:43:55,079

dawn

1024

00:44:04,010 --> 00:44:02,390

so these blips

1025

00:44:07,130 --> 00:44:04,020

you can see the arrows to them they say

1026

00:44:09,650 --> 00:44:07,140

aircraft blips but that's what the UFO

1027

00:44:13,970 --> 00:44:09,660

blips actually are

1028

00:44:15,589 --> 00:44:13,980

so so not only did we have uh

1029

00:44:18,890 --> 00:44:15,599

radar

1030

00:44:21,349 --> 00:44:18,900

and we also have visual

1031

00:44:25,790 --> 00:44:21,359

and we also have physical evidence of

1032

00:44:29,809 --> 00:44:25,800

the radar picture the radar photograph

1033

00:44:33,109 --> 00:44:29,819

in 19 freaking 52.

1034

00:44:37,609 --> 00:44:33,119

here we are 2023

1035

00:44:42,230 --> 00:44:40,490

and then we have somebody else radar

1036

00:44:44,210 --> 00:44:42,240

experts Challenger Air Force saucer

1037

00:44:46,430 --> 00:44:44,220

Theory the nice sightings only light

1038

00:44:49,910 --> 00:44:46,440

Reflections so if you watch the show we

1039

00:44:50,510 --> 00:44:49,920

actually did like a whole thing on

1040

00:44:53,089 --> 00:44:50,520

um

1041

00:44:54,829 --> 00:44:53,099

anomalous propagation and that's prop

1042

00:44:57,770 --> 00:44:54,839

basically what temperature inversions

1043

00:45:00,770 --> 00:44:57,780

you know are so temperature inversion

1044

00:45:02,569 --> 00:45:00,780

causes anomalous propagation

1045

00:45:04,370 --> 00:45:02,579

so we have some radar experts who

1046

00:45:06,050 --> 00:45:04,380

challenge the Air Force saucer Theory

1047

00:45:07,430 --> 00:45:06,060

the nice sightings only light

1048

00:45:09,410 --> 00:45:07,440

reflections

1049

00:45:10,970 --> 00:45:09,420

radar experts and weather scientists

1050

00:45:12,950 --> 00:45:10,980

today challenge the Air Force theory

1051
00:45:14,569 --> 00:45:12,960
that flag saucers are ground objects

1052
00:45:16,430 --> 00:45:14,579
reflected in the sky under freak

1053
00:45:18,170 --> 00:45:16,440
atmospheric conditions

1054
00:45:20,089 --> 00:45:18,180
radar Crews at Washington National

1055
00:45:21,589 --> 00:45:20,099
Airport where mysterious blips have been

1056
00:45:23,630 --> 00:45:21,599
tracked three times in the last two

1057
00:45:25,550 --> 00:45:23,640
weeks maintain that they have recorded

1058
00:45:27,950 --> 00:45:25,560
unknown objects twisting in a weird

1059
00:45:29,630 --> 00:45:27,960
pattern and not light Reflections as the

1060
00:45:32,089 --> 00:45:29,640
Air Force suggested

1061
00:45:34,190 --> 00:45:32,099
U.S weather bureau while conceding that

1062
00:45:36,650 --> 00:45:34,200
a temperature inversion has existed

1063
00:45:39,069 --> 00:45:36,660

during the current hot spell took issue

1064

00:45:42,829 --> 00:45:39,079

with the theory expounded by General

1065

00:45:44,510 --> 00:45:42,839

John a Sanford air intelligence Chief a

1066

00:45:47,270 --> 00:45:44,520

temperature inversion is a layer of warm

1067

00:45:49,430 --> 00:45:47,280

air above cold air Sanford suggested

1068

00:45:52,010 --> 00:45:49,440

that under such conditions an auto

1069

00:45:55,010 --> 00:45:52,020

headlight or airport beam could be

1070

00:45:57,530 --> 00:45:55,020

reflected in the sky as a flying saucer

1071

00:45:59,809 --> 00:45:57,540

a weather bureau official said however

1072

00:46:02,270 --> 00:45:59,819

that Reflections due to such an

1073

00:46:05,030 --> 00:46:02,280

inversion ordinarily would appear on a

1074

00:46:07,670 --> 00:46:05,040

radar screen as a steady line

1075

00:46:10,730 --> 00:46:07,680

rather than as a single object

1076

00:46:12,470 --> 00:46:10,740

such as we're cited on the airport radar

1077

00:46:15,290 --> 00:46:12,480

scope

1078

00:46:16,970 --> 00:46:15,300

other saucer developments included the

1079

00:46:19,849 --> 00:46:16,980

Air Force seeking an unshakable

1080

00:46:22,069 --> 00:46:19,859

explanation of the mysterious dist Rush

1081

00:46:24,470 --> 00:46:22,079

preparations to scan the skies with a

1082

00:46:26,510 --> 00:46:24,480

battery of 200 astronomer type cameras

1083

00:46:28,849 --> 00:46:26,520

and powerful telescopes

1084

00:46:31,030 --> 00:46:28,859

the Reverend Francis Hayden director of

1085

00:46:33,470 --> 00:46:31,040

The Georgetown University

1086

00:46:35,809 --> 00:46:33,480

Observatory predicted that these saucer

1087

00:46:37,609 --> 00:46:35,819

season will reach a climax August 12th

1088

00:46:40,069 --> 00:46:37,619

the probable time of the annual

1089

00:46:42,290 --> 00:46:40,079

brilliant perside shower when thousands

1090

00:46:45,290 --> 00:46:42,300

of shooting stars filled the sky as the

1091

00:46:47,030 --> 00:46:45,300

Earth and is orbit around the Sun Passes

1092

00:46:50,510 --> 00:46:47,040

their disrupted garment

1093

00:46:53,930 --> 00:46:50,520

uh just so you know there was no busier

1094

00:46:57,770 --> 00:46:53,940

saucer time than July 1952.

1095

00:47:00,290 --> 00:46:57,780

so the Reverend was wrong

1096

00:47:03,410 --> 00:47:00,300

the Air Force was reported checking

1097

00:47:05,510 --> 00:47:03,420

photographs taken by Coast Guard Coast

1098

00:47:08,030 --> 00:47:05,520

Guardsmen at Salem Massachusetts last

1099

00:47:10,069 --> 00:47:08,040

Saturday purportedly showing five flying

1100

00:47:11,950 --> 00:47:10,079

saucers moving information two

1101
00:47:14,390 --> 00:47:11,960
Philadelphia scientists

1102
00:47:16,430 --> 00:47:14,400
agreed with the Air Force explanation of

1103
00:47:18,109 --> 00:47:16,440
the mystery visitors and blamed weird

1104
00:47:20,450 --> 00:47:18,119
Reflections resulting from the hot

1105
00:47:22,430 --> 00:47:20,460
weather jet fighter Interceptor violates

1106
00:47:24,890 --> 00:47:22,440
at bases throughout the country remain

1107
00:47:26,870 --> 00:47:24,900
on a 24-hour alert ready to take off in

1108
00:47:29,450 --> 00:47:26,880
Hot Pursuit of any saucer reported in

1109
00:47:33,230 --> 00:47:29,460
their locality the Navy confirmed that

1110
00:47:36,410 --> 00:47:33,240
on May 11 1943 mysterious objects cited

1111
00:47:39,950 --> 00:47:36,420
by radar were erroneously identified and

1112
00:47:42,230 --> 00:47:39,960
enemy ships touching off a sailboat of

1113
00:47:45,410 --> 00:47:42,240

scores of rounds of ammunition fired in

1114

00:47:47,510 --> 00:47:45,420

a non-existent enemy off Alaska the Navy

1115

00:47:49,430 --> 00:47:47,520

said the air resulted from atmospheric

1116

00:47:52,069 --> 00:47:49,440

reflection like that which sometimes

1117

00:47:54,770 --> 00:47:52,079

make freak makes freak television

1118

00:47:56,990 --> 00:47:54,780

reception possible

1119

00:47:59,569 --> 00:47:57,000

that's interesting you know because if

1120

00:48:01,370 --> 00:47:59,579

that's the case if that really happened

1121

00:48:04,609 --> 00:48:01,380

that the Navy was fighting temperature

1122

00:48:08,930 --> 00:48:04,619

inversions on their radar that in 1943

1123

00:48:11,150 --> 00:48:08,940

that even proves more that by 1952

1124

00:48:13,550 --> 00:48:11,160

these radar Observers

1125

00:48:15,230 --> 00:48:13,560

especially commercial

1126

00:48:18,530 --> 00:48:15,240

and Military

1127

00:48:20,630 --> 00:48:18,540

would be trained up on this they

1128

00:48:22,370 --> 00:48:20,640

wouldn't have the Navy fighting

1129

00:48:24,470 --> 00:48:22,380

temperature inversions and then you know

1130

00:48:26,270 --> 00:48:24,480

just not look into it and just be like

1131

00:48:28,430 --> 00:48:26,280

oh yeah that was no big deal we're not

1132

00:48:31,069 --> 00:48:28,440

going to train anybody you know to look

1133

00:48:35,329 --> 00:48:31,079

for those inversions and just in case

1134

00:48:40,130 --> 00:48:38,089

that's why they're full of crap

1135

00:48:42,530 --> 00:48:40,140

because they would do that they would

1136

00:48:45,890 --> 00:48:42,540

train their observers especially their

1137

00:48:49,069 --> 00:48:45,900

military radar operators

1138

00:48:52,609 --> 00:48:49,079

if something like that was real

1139

00:48:53,809 --> 00:48:52,619

so I wonder what really happened in 1943

1140

00:48:57,050 --> 00:48:53,819

was it

1141

00:49:00,230 --> 00:48:57,060

temperature inversions or

1142

00:49:03,050 --> 00:49:00,240

did the Navy have a battle with UFOs in

1143

00:49:07,970 --> 00:49:06,349

that would be very interesting

1144

00:49:11,930 --> 00:49:07,980

we'll have to look further into that and

1145

00:49:16,609 --> 00:49:14,870

that was you know Foo Fighter time so

1146

00:49:19,490 --> 00:49:16,619

this is you know the same thing the the

1147

00:49:21,530 --> 00:49:19,500

radar picture I just wanted to

1148

00:49:22,910 --> 00:49:21,540

make it a little bigger for you guys so

1149

00:49:25,309 --> 00:49:22,920

you could see it not that you can make

1150

00:49:27,470 --> 00:49:25,319

anything of it you know I'm not a radar

1151

00:49:29,270 --> 00:49:27,480

expert so I can't really

1152

00:49:32,510 --> 00:49:29,280

but it does show that something was

1153

00:49:37,490 --> 00:49:35,030

and people were confused obviously and

1154

00:49:40,370 --> 00:49:37,500

then this radar picture is just crazy I

1155

00:49:42,710 --> 00:49:40,380

can't believe this one didn't get famous

1156

00:49:47,930 --> 00:49:42,720

here's a radar picture with blue flag

1157

00:49:52,630 --> 00:49:50,690

and nobody cares what the heck

1158

00:49:56,349 --> 00:49:52,640

that is just crazy to me

1159

00:49:59,030 --> 00:49:56,359

[Laughter]

1160

00:50:02,210 --> 00:49:59,040

oh it's awesome like pulling little

1161

00:50:04,790 --> 00:50:02,220

jokes like that or whatever because

1162

00:50:06,829 --> 00:50:04,800

I don't know if anyone's laughing

1163

00:50:08,930 --> 00:50:06,839

you know or if I'm just laughing at

1164

00:50:12,589 --> 00:50:08,940

myself so yeah I mean all you guys could

1165

00:50:14,510 --> 00:50:12,599

be like whatever dude stop

1166

00:50:22,670 --> 00:50:14,520

worry you could be laughing like crazy

1167

00:50:26,450 --> 00:50:24,230

but you know

1168

00:50:27,890 --> 00:50:26,460

hopefully it will happen you know text

1169

00:50:29,569 --> 00:50:27,900

me if you were laughing or something put

1170

00:50:31,130 --> 00:50:29,579

something in the chat you know make me

1171

00:50:33,770 --> 00:50:31,140

feel a little better

1172

00:50:40,010 --> 00:50:33,780

not so alone in my corniness and dad

1173

00:50:44,690 --> 00:50:43,069

okay so 1952 like we said

1174

00:50:48,970 --> 00:50:44,700

um

1175

00:50:51,650 --> 00:50:48,980

July 1952 biggest year in the business

1176

00:50:53,690 --> 00:50:51,660

right and I'm not going to go through

1177

00:50:57,770 --> 00:50:53,700

all these reports but I just put these

1178

00:51:00,710 --> 00:50:57,780

together just so you could see how many

1179

00:51:02,210 --> 00:51:00,720

actual sightings there were in July 1952

1180

00:51:05,150 --> 00:51:02,220

look at all those

1181

00:51:07,329 --> 00:51:05,160

that's a lot

1182

00:51:11,329 --> 00:51:07,339

it's a lot of sightings

1183

00:51:14,750 --> 00:51:11,339

and we just touched on one the DC One

1184

00:51:16,910 --> 00:51:14,760

but trust me they were all over and this

1185

00:51:18,589 --> 00:51:16,920

next one I thought was extremely

1186

00:51:20,569 --> 00:51:18,599

interesting and I'm only going to cover

1187

00:51:22,190 --> 00:51:20,579

this one and I'm not covering this one

1188

00:51:23,870 --> 00:51:22,200

because it's like the best one or

1189

00:51:27,349 --> 00:51:23,880

anything I just think it's interesting

1190

00:51:30,230 --> 00:51:27,359

because on this date July uh 31st or

1191

00:51:32,510 --> 00:51:30,240

July 29th or 30th around there even the

1192

00:51:34,309 --> 00:51:32,520

27th you know whatever there were so

1193

00:51:36,770 --> 00:51:34,319

many sightings on the same day all over

1194

00:51:38,930 --> 00:51:36,780

the place by military people

1195

00:51:41,990 --> 00:51:38,940

seeing multiple objects doing crazy

1196

00:51:44,030 --> 00:51:42,000

things civilians everybody

1197

00:51:46,010 --> 00:51:44,040

right

1198

00:51:48,230 --> 00:51:46,020

so this story is interesting to me

1199

00:51:49,970 --> 00:51:48,240

because I like to look for the ones that

1200

00:51:53,030 --> 00:51:49,980

are just a little bit different than the

1201

00:51:56,510 --> 00:51:53,040

other sightings and this one was

1202

00:51:58,910 --> 00:51:56,520

um it got some publicity which

1203

00:52:00,470 --> 00:51:58,920

especially makes this better because I

1204

00:52:02,630 --> 00:52:00,480

have more information that I can pull

1205

00:52:04,849 --> 00:52:02,640

from you know more interviews and such

1206

00:52:08,270 --> 00:52:04,859

so that's another reason I wanted to

1207

00:52:11,829 --> 00:52:08,280

cover this one but has to do with this

1208

00:52:15,069 --> 00:52:11,839

Marine he was a private

1209

00:52:19,370 --> 00:52:15,079

uh who photographed

1210

00:52:21,710 --> 00:52:19,380

saucers on July 29th 1952

1211

00:52:24,410 --> 00:52:21,720

this is his statement after hearing talk

1212

00:52:27,109 --> 00:52:24,420

with flank saucers his name is uh Ralph

1213

00:52:32,329 --> 00:52:30,410

private Ralph C Meyer after hearing talk

1214

00:52:33,650 --> 00:52:32,339

of flying saucers for the past two years

1215

00:52:35,750 --> 00:52:33,660

or more

1216

00:52:37,970 --> 00:52:35,760

and then hearing that a so-called saucer

1217

00:52:42,530 --> 00:52:37,980

had been seen over Miami Beach by Mr

1218

00:52:45,290 --> 00:52:42,540

blank the 28th of July 1952. I decided

1219

00:52:47,690 --> 00:52:45,300

to take home a camera

1220

00:52:50,089 --> 00:52:47,700

and there just might be more excitement

1221

00:52:51,290 --> 00:52:50,099

the navy camera as soon Kodak was

1222

00:52:54,049 --> 00:52:51,300

checked out

1223

00:52:56,089 --> 00:52:54,059

through my NCO in charge I was sitting

1224

00:53:00,109 --> 00:52:56,099

in my home and turned on my TV and heard

1225

00:53:02,089 --> 00:53:00,119

more talk of flying saucers by wtvj

1226
00:53:03,829 --> 00:53:02,099
then and there I decided to go over and

1227
00:53:05,510 --> 00:53:03,839
see Mr blank and actually talk to

1228
00:53:07,609 --> 00:53:05,520
someone who had seen one

1229
00:53:09,170 --> 00:53:07,619
I had a hunch

1230
00:53:19,549 --> 00:53:09,180
that

1231
00:53:21,710 --> 00:53:19,559
it might reappear just as those saucers

1232
00:53:24,109 --> 00:53:21,720
reappeared in Washington DC

1233
00:53:26,990 --> 00:53:24,119
I took my wife blank blank over to Miami

1234
00:53:29,390 --> 00:53:27,000
Beach oops

1235
00:53:31,609 --> 00:53:29,400
I don't know why I went backwards

1236
00:53:34,010 --> 00:53:31,619
or Miami Beach we began to look for Mr

1237
00:53:35,750 --> 00:53:34,020
blank we finally located him and I got

1238
00:53:37,790 --> 00:53:35,760

my story from him the time was about

1239

00:53:41,450 --> 00:53:37,800

nine o'clock after hearing a story I was

1240

00:53:43,490 --> 00:53:41,460

very skeptical skeptical skeptical it

1241

00:53:46,790 --> 00:53:43,500

seemed rather fantastic I asked blank if

1242

00:53:47,569 --> 00:53:46,800

he would mind if we went to the back of

1243

00:53:51,049 --> 00:53:47,579

his

1244

00:53:52,910 --> 00:53:51,059

uh blank and wait uh Mr blank was

1245

00:53:56,510 --> 00:53:52,920

visiting Mr blank I identified myself

1246

00:53:58,910 --> 00:53:56,520

and told them I had a hunch

1247

00:54:01,309 --> 00:53:58,920

his permission was granted this was

1248

00:54:04,309 --> 00:54:01,319

nearly 100 I was working on it there was

1249

00:54:07,250 --> 00:54:04,319

no official business involved so he's

1250

00:54:09,349 --> 00:54:07,260

trying to get a camera because he thinks

1251
00:54:11,809 --> 00:54:09,359
he's going to see a UFO based off of his

1252
00:54:13,670 --> 00:54:11,819
intuition which we actually hear of that

1253
00:54:16,670 --> 00:54:13,680
before

1254
00:54:18,829 --> 00:54:16,680
um which is interesting I've finally was

1255
00:54:20,750 --> 00:54:18,839
seated in Mr Blake's patio from 9 10 to

1256
00:54:22,790 --> 00:54:20,760
9 30. nothing happened and I made a

1257
00:54:26,390 --> 00:54:22,800
little joke out of it said no flag

1258
00:54:28,069 --> 00:54:26,400
saucer man yet at 9 35 it was far from a

1259
00:54:30,710 --> 00:54:28,079
joke the object appeared it was

1260
00:54:33,049 --> 00:54:30,720
startling the object or saucer was a

1261
00:54:34,849 --> 00:54:33,059
bright orange dish shaped I was not the

1262
00:54:36,829 --> 00:54:34,859
first one to see it people on the West

1263
00:54:40,130 --> 00:54:36,839

Bank of the river said that there it is

1264

00:54:42,109 --> 00:54:40,140

again immediately I jumped on my feet

1265

00:54:44,630 --> 00:54:42,119

and screamed to them is there anything

1266

00:54:48,230 --> 00:54:44,640

in the sky they said yes I didn't see it

1267

00:54:49,970 --> 00:54:48,240

immediately an apartment was in my view

1268

00:54:55,430 --> 00:54:49,980

I stepped back

1269

00:54:58,190 --> 00:54:55,440

about 15 feet and saw it the object was

1270

00:54:59,750 --> 00:54:58,200

moving from east to west it was that

1271

00:55:02,450 --> 00:54:59,760

tremendous altitude I couldn't

1272

00:55:04,790 --> 00:55:02,460

approximate approximate because there

1273

00:55:07,010 --> 00:55:04,800

were no clouds to give my approximation

1274

00:55:10,250 --> 00:55:07,020

but it was the size of a pinhead

1275

00:55:13,430 --> 00:55:10,260

compared to a half dollar piece

1276

00:55:15,589 --> 00:55:13,440

after about 15 to 20 seconds of being

1277

00:55:17,990 --> 00:55:15,599

startled I began shooting movies of the

1278

00:55:19,670 --> 00:55:18,000

object it was so small through my

1279

00:55:21,710 --> 00:55:19,680

Rangefinder that I could hardly see it

1280

00:55:24,230 --> 00:55:21,720

knowing I might be the only person on

1281

00:55:27,710 --> 00:55:24,240

Earth to get Motion Pictures of this I

1282

00:55:30,530 --> 00:55:27,720

began shooting by approximating its

1283

00:55:32,450 --> 00:55:30,540

location in my naked eye the object

1284

00:55:35,030 --> 00:55:32,460

moved across the Horizon on a perfectly

1285

00:55:37,549 --> 00:55:35,040

straight course a tremendous speed that

1286

00:55:40,730 --> 00:55:37,559

took 40 feet of film approximately 12

1287

00:55:43,609 --> 00:55:40,740

frames I have an image the photographs

1288

00:55:45,589 --> 00:55:43,619

show change in shape and surface I was

1289

00:55:47,990 --> 00:55:45,599

surprised that it wasn't visible when it

1290

00:55:50,329 --> 00:55:48,000

flew over only visible on the actual

1291

00:55:54,230 --> 00:55:50,339

film it was so much more brilliant than

1292

00:55:54,240 --> 00:55:57,589

foreign

1293

00:55:57,599 --> 00:56:01,309

guy

1294

00:56:06,049 --> 00:56:04,490

taking photos of flying freaking saucers

1295

00:56:09,049 --> 00:56:06,059

man

1296

00:56:10,670 --> 00:56:09,059

let's see what he's got

1297

00:56:14,510 --> 00:56:10,680

so that was to the Air Force and the

1298

00:56:15,829 --> 00:56:14,520

investigator the Air Force actually well

1299

00:56:17,569 --> 00:56:15,839

someone in the Air Force was actually

1300

00:56:19,010 --> 00:56:17,579

upset that there wasn't an explanation

1301
00:56:20,569 --> 00:56:19,020
for this sighting they thought there was

1302
00:56:22,730 --> 00:56:20,579
plenty of information out there to

1303
00:56:24,829 --> 00:56:22,740
actually have an explanation so they

1304
00:56:27,170 --> 00:56:24,839
decided to reevaluate the setting on

1305
00:56:29,750 --> 00:56:27,180
July 29 1952.

1306
00:56:31,609 --> 00:56:29,760
the following are those points in data

1307
00:56:33,349 --> 00:56:31,619
of significance which lead to a final

1308
00:56:34,750 --> 00:56:33,359
conclusion this isn't all of them these

1309
00:56:37,069 --> 00:56:34,760
are just the ones I pulled out

1310
00:56:38,990 --> 00:56:37,079
psychological aspects strange part of

1311
00:56:42,349 --> 00:56:39,000
the story is from blank's own statement

1312
00:56:44,510 --> 00:56:42,359
uh that I had a hunch I would see a

1313
00:56:46,549 --> 00:56:44,520

saucer also I went to a Mr blank's

1314

00:56:49,130 --> 00:56:46,559

apartment to wait on the possibility

1315

00:56:50,650 --> 00:56:49,140

that a saucer may appear again as did in

1316

00:56:52,970 --> 00:56:50,660

the Washington case this statement

1317

00:56:56,630 --> 00:56:52,980

definitely establishes at least

1318

00:56:58,809 --> 00:56:56,640

anticipation or confidence on Ralph's

1319

00:57:01,670 --> 00:56:58,819

part that a saucer would appear for him

1320

00:57:04,430 --> 00:57:01,680

uh strangle Captain Gregory's comment

1321

00:57:07,190 --> 00:57:04,440

saucers just don't appear just because

1322

00:57:09,530 --> 00:57:07,200

you wish one to be there I don't know

1323

00:57:10,609 --> 00:57:09,540

sometimes they do ever heard of ce5 man

1324

00:57:12,710 --> 00:57:10,619

come on

1325

00:57:14,690 --> 00:57:12,720

also his statement I began shooting

1326

00:57:16,430 --> 00:57:14,700

pictures because I might be the only

1327

00:57:19,730 --> 00:57:16,440

person on Earth to get a motion picture

1328

00:57:22,309 --> 00:57:19,740

of this comment a question arises was

1329

00:57:24,470 --> 00:57:22,319

this an unconscious admission to the

1330

00:57:26,270 --> 00:57:24,480

integrator interviewing him that he was

1331

00:57:28,430 --> 00:57:26,280

striving towards the sun can you believe

1332

00:57:30,349 --> 00:57:28,440

this they're just like looking for any

1333

00:57:32,390 --> 00:57:30,359

excuse to discredit this guy it's

1334

00:57:33,890 --> 00:57:32,400

unbelievable conclusion if we discount

1335

00:57:35,750 --> 00:57:33,900

the statement that he observed the

1336

00:57:38,390 --> 00:57:35,760

object for three and a half minutes if

1337

00:57:41,710 --> 00:57:38,400

we did if we discount what we want to

1338

00:57:44,510 --> 00:57:41,720

Discount to make our Theory work then

1339

00:57:46,130 --> 00:57:44,520

uh and it's been proven by psychological

1340

00:57:50,390 --> 00:57:46,140

tests that most people under stress and

1341

00:57:54,589 --> 00:57:52,609

uh then the object on the basis of other

1342

00:57:56,930 --> 00:57:54,599

correlated and supported data given

1343

00:58:00,170 --> 00:57:56,940

above was possibly a meteor

1344

00:58:02,569 --> 00:58:00,180

he's not photographing a meteor okay uh

1345

00:58:04,549 --> 00:58:02,579

Colonel Johnson this is submitted in the

1346

00:58:06,950 --> 00:58:04,559

event that the matter which we discussed

1347

00:58:08,870 --> 00:58:06,960

late Thursday afternoon may come to a

1348

00:58:12,470 --> 00:58:08,880

head or result in a potential

1349

00:58:15,829 --> 00:58:12,480

controversy public relations wise

1350

00:58:17,930 --> 00:58:15,839

as far as if the Air Force is concerned

1351

00:58:20,270 --> 00:58:17,940

it is offered for whatever action or use

1352

00:58:21,710 --> 00:58:20,280

you may deem necessary no action or

1353

00:58:24,530 --> 00:58:21,720

information will be released without

1354

00:58:26,390 --> 00:58:24,540

specific approval or authority from you

1355

00:58:28,970 --> 00:58:26,400

regarding this matter

1356

00:58:34,790 --> 00:58:28,980

incredible

1357

00:58:36,349 --> 00:58:34,800

and here's the newspaper report Maureen

1358

00:58:38,450 --> 00:58:36,359

here snaps desk a strange orange

1359

00:58:41,210 --> 00:58:38,460

yellowish object traveling at more than

1360

00:58:42,650 --> 00:58:41,220

2 000 miles per hour it was photographed

1361

00:58:44,870 --> 00:58:42,660

last night by a marine cameraman

1362

00:58:47,930 --> 00:58:44,880

watching from a Miami Beach home okay

1363

00:58:49,849 --> 00:58:47,940

first of all just to be fair I don't

1364

00:58:51,530 --> 00:58:49,859

know how he would know it's going 2 000

1365

00:58:56,089 --> 00:58:51,540

miles per hour

1366

00:58:59,150 --> 00:58:56,099

so maybe he did some uh my homemade you

1367

00:59:01,250 --> 00:58:59,160

know figuring out triangulation whatever

1368

00:59:04,190 --> 00:59:01,260

you got to do but um

1369

00:59:07,250 --> 00:59:04,200

seems pretty hard for me to believe that

1370

00:59:09,530 --> 00:59:07,260

you would know that but 40 40 feet of

1371

00:59:11,210 --> 00:59:09,540

film were taken of the object as it

1372

00:59:14,150 --> 00:59:11,220

flashed across the sky at the Marine

1373

00:59:17,150 --> 00:59:14,160

reported however however showed any

1374

00:59:19,010 --> 00:59:17,160

image only eight frames of the film the

1375

00:59:21,349 --> 00:59:19,020

object which observers said they saw for

1376

00:59:23,930 --> 00:59:21,359

about 3 minutes and 30 seconds was a

1377

00:59:25,010 --> 00:59:23,940

photographed around 9 35 PM by rough

1378

00:59:29,270 --> 00:59:25,020

Mayer

1379

00:59:33,410 --> 00:59:30,950

officials at the Marine Corps Air

1380

00:59:35,809 --> 00:59:33,420

Station in apalaka released the pictures

1381

00:59:37,430 --> 00:59:35,819

and information at 2PM today without

1382

00:59:39,410 --> 00:59:37,440

comment

1383

00:59:41,630 --> 00:59:39,420

the films were shot from the Patty of

1384

00:59:43,789 --> 00:59:41,640

the home of Herman Stern

1385

00:59:45,589 --> 00:59:43,799

and his wife two days ago reported

1386

00:59:47,630 --> 00:59:45,599

spotting flank saucers in the sky above

1387

00:59:49,370 --> 00:59:47,640

the residence the film showed a

1388

00:59:51,289 --> 00:59:49,380

bowl-shaped image with a projection on

1389

00:59:53,089 --> 00:59:51,299

top the object looked like a ball of

1390

00:59:55,250 --> 00:59:53,099

fire it was not clear enough however to

1391

00:59:58,730 --> 00:59:55,260

be diagnosed as a flying saucer or a

1392

01:00:01,549 --> 00:59:58,740

meteor mayor said what he saw in the sky

1393

01:00:03,230 --> 01:00:01,559

was crystal clear and that as fast as it

1394

01:00:05,990 --> 01:00:03,240

was traveling

1395

01:00:07,789 --> 01:00:06,000

he noted detail in the object or

1396

01:00:10,010 --> 01:00:07,799

phenomenon

1397

01:00:13,789 --> 01:00:10,020

the leatherneck

1398

01:00:16,549 --> 01:00:13,799

said he went to the home of the Stearns

1399

01:00:18,589 --> 01:00:16,559

on a hunch he was not acting officially

1400

01:00:19,849 --> 01:00:18,599

for the Marines but on his own

1401
01:00:22,010 --> 01:00:19,859
initiative

1402
01:00:24,710 --> 01:00:22,020
he checked out the 16 millimeter camera

1403
01:00:26,510 --> 01:00:24,720
from the MCAS yesterday afternoon he had

1404
01:00:29,270 --> 01:00:26,520
requested permission of the Stearns to

1405
01:00:31,549 --> 01:00:29,280
watch this guy from their home along

1406
01:00:36,410 --> 01:00:31,559
uh with his wife Eleanor and a friend

1407
01:00:38,270 --> 01:00:36,420
there arrived at Stern home about 905 pm

1408
01:00:40,789 --> 01:00:38,280
about 9 30 p.m they heard neighbors

1409
01:00:42,530 --> 01:00:40,799
shout look there in the sky for several

1410
01:00:44,450 --> 01:00:42,540
seconds mayor recalled we saw nothing

1411
01:00:46,430 --> 01:00:44,460
that an orangish yellowish-shaped object

1412
01:00:48,950 --> 01:00:46,440
appeared I pulled out my camera and shot

1413
01:00:50,630 --> 01:00:48,960

about 40 feet of film after more than

1414

01:00:53,150 --> 01:00:50,640

three minutes the object disappeared

1415

01:00:55,069 --> 01:00:53,160

mayor said his wife and the friend saw

1416

01:00:57,349 --> 01:00:55,079

the object along the with the other

1417

01:00:59,450 --> 01:00:57,359

residents in the area the Marine then

1418

01:01:02,569 --> 01:00:59,460

called the officer of the day at abalaka

1419

01:01:04,250 --> 01:01:02,579

and he and a public officer Sergeant

1420

01:01:06,049 --> 01:01:04,260

went to the stern house and obtained the

1421

01:01:07,849 --> 01:01:06,059

film Marine officials at the air station

1422

01:01:10,069 --> 01:01:07,859

had no comment to make on the photos

1423

01:01:12,890 --> 01:01:10,079

they stressed the fact that mayor was

1424

01:01:16,010 --> 01:01:12,900

acting in a non-official capacity all we

1425

01:01:19,490 --> 01:01:16,020

did was process the film one officer

1426

01:01:23,870 --> 01:01:21,890

all we did was process the film no way

1427

01:01:25,490 --> 01:01:23,880

man if you process it that means you'd

1428

01:01:27,770 --> 01:01:25,500

think that they're aliens

1429

01:01:29,510 --> 01:01:27,780

the Marine 22 year old private Ralph

1430

01:01:32,150 --> 01:01:29,520

Cleveland claims he recorded the object

1431

01:01:34,490 --> 01:01:32,160

on 16 millimeter film Tuesday night

1432

01:01:35,930 --> 01:01:34,500

mayor said the crystal clear object was

1433

01:01:38,150 --> 01:01:35,940

witnessed by himself his wife and

1434

01:01:40,250 --> 01:01:38,160

another couple three and a half minutes

1435

01:01:42,890 --> 01:01:40,260

I already know this

1436

01:01:43,849 --> 01:01:42,900

is a stupid slide I shouldn't even made

1437

01:01:47,030 --> 01:01:43,859

it

1438

01:01:52,069 --> 01:01:48,049

okay

1439

01:01:53,750 --> 01:01:52,079

this is a saucer four views of the

1440

01:01:55,970 --> 01:01:53,760

Flying Saucer that flashed over Miami

1441

01:01:59,150 --> 01:01:55,980

Beach last night are reproduced from the

1442

01:02:01,309 --> 01:01:59,160

film taken by the marine marine private

1443

01:02:02,809 --> 01:02:01,319

mayor the film was released without

1444

01:02:05,030 --> 01:02:02,819

comment by Third Marine Air Wing

1445

01:02:07,309 --> 01:02:05,040

officials Miami daily news artist did

1446

01:02:09,410 --> 01:02:07,319

not retouch the saucer itself which loses

1447

01:02:11,089 --> 01:02:09,420

some detail and reproduction but did

1448

01:02:12,950 --> 01:02:11,099

retouch scratches on the film and

1449

01:02:15,289 --> 01:02:12,960

designated the object with arrows the

1450

01:02:17,329 --> 01:02:15,299

photo shot the orange yellowish object

1451

01:02:19,370 --> 01:02:17,339

was Bull shaped with projection on top

1452

01:02:21,589 --> 01:02:19,380

it speedily vanished after being watched

1453

01:02:23,089 --> 01:02:21,599

for more than three minutes and it's too

1454

01:02:26,990 --> 01:02:23,099

bad that we only have a black and white

1455

01:02:27,000 --> 01:02:31,309

here is your ink plot

1456

01:02:34,910 --> 01:02:32,450

but

1457

01:02:37,190 --> 01:02:34,920

you know what if

1458

01:02:40,549 --> 01:02:37,200

if all these sightings going on July

1459

01:02:43,010 --> 01:02:40,559

1952 like my question is what if this

1460

01:02:45,890 --> 01:02:43,020

was whatever was going on

1461

01:02:48,950 --> 01:02:45,900

what if it is a sauce we have no idea

1462

01:02:52,370 --> 01:02:51,049

but you just

1463

01:02:55,910 --> 01:02:52,380

don't

1464

01:03:03,530 --> 01:02:58,190

but that would be cool

1465

01:03:07,069 --> 01:03:05,390

here's just another picture this is kind

1466

01:03:10,510 --> 01:03:07,079

of how it showed up in the paper with uh

1467

01:03:13,130 --> 01:03:10,520

the four objects together like this

1468

01:03:16,670 --> 01:03:13,140

I love these old newspaper reports man

1469

01:03:23,089 --> 01:03:19,250

reporting

1470

01:03:25,069 --> 01:03:23,099

on saucers and stuff

1471

01:03:28,609 --> 01:03:25,079

back in the day and they would be on the

1472

01:03:30,230 --> 01:03:28,619

front page sometimes of the news

1473

01:03:31,549 --> 01:03:30,240

like some of these stories were Front

1474

01:03:34,730 --> 01:03:31,559

Page News

1475

01:03:38,329 --> 01:03:34,740

we haven't seen that

1476

01:03:40,309 --> 01:03:38,339

in a long long time

1477

01:03:43,069 --> 01:03:40,319

so you know when we talk about kind of

1478

01:03:45,530 --> 01:03:43,079

like progress and stuff with UFOs and

1479

01:03:49,849 --> 01:03:45,540

Congress and all that there are these

1480

01:03:52,130 --> 01:03:49,859

parts of the UFO story that are making

1481

01:03:54,650 --> 01:03:52,140

progress as far as Congress goes and the

1482

01:03:57,950 --> 01:03:54,660

arrow and all that blah blah even if it

1483

01:04:01,069 --> 01:03:57,960

fails it happened and it was enacted

1484

01:04:04,250 --> 01:04:01,079

into law by Congress and that's a plus

1485

01:04:06,230 --> 01:04:04,260

but there's also some backwards emotions

1486

01:04:07,789 --> 01:04:06,240

in the community as well one of which is

1487

01:04:10,370 --> 01:04:07,799

the media

1488

01:04:12,650 --> 01:04:10,380

like I said some of these reports and

1489

01:04:14,210 --> 01:04:12,660

not even just the the DC one which

1490

01:04:15,470 --> 01:04:14,220

obviously would be from page news but

1491

01:04:18,530 --> 01:04:15,480

there are other settings as well

1492

01:04:20,990 --> 01:04:18,540

throughout those years that and Other

1493

01:04:23,809 --> 01:04:21,000

Stories that made Front Page News

1494

01:04:25,730 --> 01:04:23,819

and that just doesn't happen anymore

1495

01:04:32,150 --> 01:04:25,740

um so there's there's definitely steps

1496

01:04:36,530 --> 01:04:34,430

um I just think it's important to keep

1497

01:04:38,450 --> 01:04:36,540

that in mind

1498

01:04:40,190 --> 01:04:38,460

who cares what I think is important

1499

01:04:41,630 --> 01:04:40,200

honestly

1500

01:04:44,930 --> 01:04:41,640

but

1501

01:04:48,289 --> 01:04:44,940

case or someone that does

1502

01:04:55,370 --> 01:04:52,309

I have something special that we can do

1503

01:04:58,069 --> 01:04:55,380

you might know what I'm talking about

1504

01:05:04,010 --> 01:04:58,079

you might not

1505

01:05:09,109 --> 01:05:06,470

you do orbashnos

1506

01:05:16,609 --> 01:05:09,119

and I made a new little clip for it what

1507

01:05:20,930 --> 01:05:18,770

that's right it's their segment what the

1508

01:05:23,390 --> 01:05:20,940

heck is that where we watch videos this

1509

01:05:25,370 --> 01:05:23,400

one is a little bit longer

1510

01:05:25,910 --> 01:05:25,380

all right

1511

01:05:27,950 --> 01:05:25,920

um

1512

01:05:30,230 --> 01:05:27,960

but it's it's really interesting

1513

01:05:31,250 --> 01:05:30,240

um this guy Project Unity he's on

1514

01:05:33,349 --> 01:05:31,260

Twitter

1515

01:05:35,450 --> 01:05:33,359

um he posted this video he said someone

1516

01:05:37,490 --> 01:05:35,460

uh anonymous

1517

01:05:39,470 --> 01:05:37,500

uh gave it to him or showed him or

1518

01:05:42,770 --> 01:05:39,480

whatever so they don't want to be known

1519

01:05:46,010 --> 01:05:42,780

because of blowback which I don't really

1520

01:05:47,930 --> 01:05:46,020

get it it's a cool video

1521

01:05:50,990 --> 01:05:47,940

um you know there's no blowback if you

1522

01:05:53,210 --> 01:05:51,000

don't try to pretend what things are you

1523

01:05:56,030 --> 01:05:53,220

know there's blowback when you start

1524

01:05:58,309 --> 01:05:56,040

saying things like

1525

01:06:01,190 --> 01:05:58,319

that that you don't have proof for like

1526

01:06:04,010 --> 01:06:01,200

if you go to work your day job needs to

1527

01:06:06,349 --> 01:06:04,020

start telling your co-workers aliens are

1528

01:06:07,789 --> 01:06:06,359

walking Among Us man Bob Bigelow sitting

1529

01:06:09,470 --> 01:06:07,799

on 60 Minutes

1530

01:06:11,809 --> 01:06:09,480

you know what are you gonna do Post

1531

01:06:13,970 --> 01:06:11,819

disclosure what do you know if you start

1532

01:06:15,650 --> 01:06:13,980

talking like that at work then there may

1533

01:06:17,990 --> 01:06:15,660

be some blowback

1534

01:06:19,670 --> 01:06:18,000

but if you're just showing a video that

1535

01:06:21,049 --> 01:06:19,680

looks pretty cool and you're like I

1536

01:06:24,950 --> 01:06:21,059

don't know what it is but I thought it

1537

01:06:28,789 --> 01:06:24,960

was neat there's no reason for anyone to

1538

01:06:32,450 --> 01:06:28,799

have blowback and I really don't buy it

1539

01:06:37,670 --> 01:06:34,750

an explanation for it that is

1540

01:06:39,950 --> 01:06:37,680

Supernatural or out of this world with

1541

01:06:44,089 --> 01:06:39,960

confidence

1542

01:06:46,190 --> 01:06:44,099

conviction then they'd probably blowback

1543

01:06:48,890 --> 01:06:46,200

but anyways that was along my monologue

1544

01:06:52,370 --> 01:06:48,900

for this so and there's no sound to it

1545

01:06:54,710 --> 01:06:52,380

but luckily for you I make music

1546

01:07:00,160 --> 01:06:54,720

I mean a little soundtrack for it

1547

01:07:45,170 --> 01:07:03,410

[Music]

1548

01:08:01,820 --> 01:07:47,230

foreign

1549

01:08:41,689 --> 01:08:18,849

[Music]

1550

01:08:52,730 --> 01:08:43,530

foreign

1551
01:08:56,660 --> 01:08:54,769
[Music]

1552
01:09:42,280 --> 01:08:56,670
foreign

1553
01:10:02,070 --> 01:09:57,010
[Music]

1554
01:10:12,460 --> 01:10:02,080
foreign

1555
01:10:53,169 --> 01:10:26,570
[Music]

1556
01:10:53,179 --> 01:11:10,850
thank you

1557
01:11:27,729 --> 01:11:19,250
foreign

1558
01:11:27,739 --> 01:11:33,229
for you I hope you enjoyed it

1559
01:11:37,430 --> 01:11:34,189
um

1560
01:11:39,530 --> 01:11:37,440
you know I really do enjoy spending time

1561
01:11:41,510 --> 01:11:39,540
with you guys

1562
01:11:46,070 --> 01:11:41,520
um I've been trying to put a little bit

1563
01:11:47,630 --> 01:11:46,080

more work into the history that I

1564

01:11:50,990 --> 01:11:47,640

present to you guys

1565

01:11:53,810 --> 01:11:51,000

so I hope you appreciate that or I hope

1566

01:11:54,530 --> 01:11:53,820

you enjoy it or get something out of it

1567

01:11:56,870 --> 01:11:54,540

um

1568

01:11:58,610 --> 01:11:56,880

I do like putting it together

1569

01:12:00,590 --> 01:11:58,620

um but I'm just trying to put in a

1570

01:12:03,410 --> 01:12:00,600

little more effort and hopefully have it

1571

01:12:07,250 --> 01:12:03,420

a little bit more uh organized a little

1572

01:12:09,709 --> 01:12:07,260

bit more to the point I hope you got

1573

01:12:13,250 --> 01:12:09,719

something from that stuff

1574

01:12:17,750 --> 01:12:15,410

ask your present and just let me know

1575

01:12:21,950 --> 01:12:17,760

reach out to me Deanna what's up thanks

1576

01:12:21,960 --> 01:12:24,470

um

1577

01:12:27,709 --> 01:12:26,270

so yeah

1578

01:12:30,350 --> 01:12:27,719

thanks for hanging out hit that like

1579

01:12:31,790 --> 01:12:30,360

button subscribe oh yeah I saw this

1580

01:12:38,810 --> 01:12:31,800

question I wanted to respond to it I

1581

01:12:40,430 --> 01:12:38,820

forgot Lord bass do you believe in ce5

1582

01:12:43,010 --> 01:12:40,440

you know

1583

01:12:43,020 --> 01:12:47,330

I'll tell you what I believe in

1584

01:12:55,189 --> 01:12:51,290

I don't personally think

1585

01:12:58,070 --> 01:12:56,750

well you know I don't have any proof for

1586

01:13:00,050 --> 01:12:58,080

this or anything this is intuition

1587

01:13:04,189 --> 01:13:00,060

talking but I don't personally think

1588

01:13:07,850 --> 01:13:04,199

it's the ce5 or you know maybe even the

1589

01:13:11,990 --> 01:13:07,860

act of maybe it is but or the act of

1590

01:13:13,189 --> 01:13:12,000

meditation I feel like more so it's

1591

01:13:16,550 --> 01:13:13,199

um

1592

01:13:19,550 --> 01:13:16,560

intent an intention

1593

01:13:21,950 --> 01:13:19,560

and for those not familiar ce5 is uh you

1594

01:13:24,709 --> 01:13:21,960

know commonly known in the community for

1595

01:13:27,169 --> 01:13:24,719

a way to to contact uh non-human

1596

01:13:29,530 --> 01:13:27,179

intelligence through ways of maybe

1597

01:13:32,750 --> 01:13:29,540

astral projection some sort of um

1598

01:13:36,050 --> 01:13:32,760

meditation that puts you out in the

1599

01:13:38,570 --> 01:13:36,060

cosmos to contact whatever's out there

1600

01:13:44,270 --> 01:13:40,790

but also

1601
01:13:46,490 --> 01:13:44,280
I think there's an more Zone intent and

1602
01:13:49,550 --> 01:13:46,500
I think a lot of the times what the

1603
01:13:51,590 --> 01:13:49,560
meditation is or the ce5 is is it's more

1604
01:13:53,810 --> 01:13:51,600
of a

1605
01:13:56,149 --> 01:13:53,820
um kind of gets you in the right mind

1606
01:13:59,149 --> 01:13:56,159
space right it sets you up It prepares

1607
01:14:01,610 --> 01:13:59,159
you it gives you the intent

1608
01:14:04,070 --> 01:14:01,620
to have an experience but I think it's

1609
01:14:05,870 --> 01:14:04,080
the intent part and it's the meditation

1610
01:14:10,610 --> 01:14:05,880
and everything that really prepares and

1611
01:14:14,270 --> 01:14:10,620
builds up and makes real in you your

1612
01:14:17,810 --> 01:14:15,830
could be wrong

1613
01:14:19,729 --> 01:14:17,820

but it's just you know

1614

01:14:22,610 --> 01:14:19,739

um

1615

01:14:24,590 --> 01:14:22,620

just an opinion just an idea so

1616

01:14:26,870 --> 01:14:24,600

appreciate you wanted to get to that

1617

01:14:28,790 --> 01:14:26,880

question you are here all the time lord

1618

01:14:31,910 --> 01:14:28,800

Bess and if you have a question I want

1619

01:14:34,310 --> 01:14:31,920

to answer it for sure

1620

01:14:37,070 --> 01:14:34,320

yeah and it's powerful with laser enlist

1621

01:14:39,050 --> 01:14:37,080

sure but I think it's intent right like

1622

01:14:41,510 --> 01:14:39,060

um if that's what your intent is and I

1623

01:14:43,030 --> 01:14:41,520

think meditation or ce5 is just another

1624

01:14:44,870 --> 01:14:43,040

way to really

1625

01:14:47,209 --> 01:14:44,880

cement

1626

01:14:49,550 --> 01:14:47,219

your intent

1627

01:14:51,470 --> 01:14:49,560

now in that room I'm gonna get out of

1628

01:14:53,810 --> 01:14:51,480

here thank you like the video subscribe

1629

01:14:56,209 --> 01:14:53,820

if you haven't got Ross coldheart this

1630

01:14:58,850 --> 01:14:56,219

week Jay is going to be back with me

1631

01:15:02,209 --> 01:14:58,860

interviewing that guy

1632

01:15:02,219 --> 01:15:09,229

I guess I'll see you soon peace

1633

01:15:15,770 --> 01:15:12,169

reported by reputable trained observers

1634

01:15:17,750 --> 01:15:15,780

the object was flying head on at us it

1635

01:15:19,890 --> 01:15:17,760

was 50 times the magnitude of the

1636

01:15:48,050 --> 01:15:19,900

brightest star
