2
00:00:36,559 --> 00:00:40,069
what's up everybody

3
00:00:40,079 --> 00:00:48,150
how's it going

4
00:00:53,430 --> 00:00:50,950
can you guys hear me okay

5
00:00:54,549 --> 00:00:53,440
i hope you can hear me okay

6
00:00:56,110 --> 00:00:54,559
let me know i'm trying something a

7
00:00:59,189 --> 00:00:56,120
little bit different

8
00:01:02,389 --> 00:00:59,199
[Music]

00:01:07,830 --> 00:01:04,630
robert

10
00:01:12,950 --> 00:01:09,830
thanks for joining

11
00:01:16,390 --> 00:01:12,960
i do appreciate it uh we're gonna get

12
00:01:16,400 --> 00:01:20,390
pretty interesting stuff today

13
00:01:26,630 --> 00:01:24,870

some material analysis

14

00:01:28,550 --> 00:01:26,640

um you know

15

00:01:30,069 --> 00:01:28,560

if you guys have heard of uh mr gary

16

00:01:32,550 --> 00:01:30,079

nolan

17

00:01:34,789 --> 00:01:32,560

who just joined the galileo project by

18

00:01:36,230 --> 00:01:34,799

the way which is pretty cool

19

00:01:40,080 --> 00:01:36,240

um

20

00:01:43,109 --> 00:01:40,090

he's been testing some fragments

21

00:01:46,069 --> 00:01:43,119

[Music]

22

00:01:49,190 --> 00:01:46,079

so and it seems like for the most part

23

00:01:51,990 --> 00:01:49,200

this stuff is like magnesium

24

00:01:54,230 --> 00:01:52,000

and bismuth and

25

00:01:56,080 --> 00:01:54,240

might be

26

00:01:57,270 --> 00:01:56,090

slag metal slag

27

00:01:58,550 --> 00:01:57,280

[Music]

28

00:02:00,100 --> 00:01:58,560

apparently

29

00:02:01,670 --> 00:02:00,110

um but you know

30

00:02:03,910 --> 00:02:01,680

[Music]

31

00:02:05,670 --> 00:02:03,920

who's to say i guess right

32

00:02:07,590 --> 00:02:05,680

i think he'll say when the time is right

33

00:02:09,190 --> 00:02:07,600

but that brings me to something that

34

00:02:11,190 --> 00:02:09,200

i've noticed

35

00:02:14,309 --> 00:02:11,200

um

36

00:02:16,150 --> 00:02:14,319

in doing some research

37

00:02:17,990 --> 00:02:16,160

you know going through blue book files

38

00:02:20,150 --> 00:02:18,000

like i do

39

00:02:23,510 --> 00:02:20,160

and it has to do with something called

40

00:02:24,790 --> 00:02:23,520

project white stork

41

00:02:26,470 --> 00:02:24,800

um

42

00:02:28,229 --> 00:02:26,480

project white stork is pretty

43

00:02:31,190 --> 00:02:28,239

interesting

44

00:02:33,190 --> 00:02:31,200

there's also a project stork

45

00:02:35,190 --> 00:02:33,200

which is pretty interesting too

46

00:02:36,790 --> 00:02:35,200

and i haven't determined if those are

47

00:02:38,869 --> 00:02:36,800

the same but they probably are because

48

00:02:41,350 --> 00:02:38,879

they're both running by the same company

49

00:02:43,270 --> 00:02:41,360

it seemed like um it started with

50

00:02:44,710 --> 00:02:43,280

project stork stork was like the first

51
00:02:47,030 --> 00:02:44,720
ibm

52
00:02:50,710 --> 00:02:47,040
um like computerized system where they

53
00:02:53,030 --> 00:02:50,720
put the ufo reports into basically like

54
00:02:54,470 --> 00:02:53,040
the color of it the shape of it

55
00:02:55,990 --> 00:02:54,480
um

56
00:02:57,830 --> 00:02:56,000
you know the maneuvers it made the kind

57
00:03:00,550 --> 00:02:57,840
of witness and all that stuff and they'd

58
00:03:02,550 --> 00:03:00,560
they'd put it into

59
00:03:05,350 --> 00:03:02,560
um

60
00:03:07,110 --> 00:03:05,360
they put it into this ibm like computer

61
00:03:09,030 --> 00:03:07,120
system to try to find like patterns and

62
00:03:11,750 --> 00:03:09,040
all that kind of stuff

63
00:03:15,350 --> 00:03:12,630

you know

64

00:03:17,190 --> 00:03:15,360

apparently they didn't find any

65

00:03:18,550 --> 00:03:17,200

but

66

00:03:20,790 --> 00:03:18,560

um that's not what this show is about

67

00:03:22,949 --> 00:03:20,800

this [h__h] yeah punch cards basically is

68

00:03:24,550 --> 00:03:22,959

what they are

69

00:03:25,910 --> 00:03:24,560

robert is right

70

00:03:28,080 --> 00:03:25,920

definitely

71

00:03:29,670 --> 00:03:28,090

um so for this

72

00:03:31,430 --> 00:03:29,680

[Music]

73

00:03:32,070 --> 00:03:31,440

off the beamer clubhouse you got that

74

00:03:35,990 --> 00:03:32,080

right yep

75

00:03:38,869 --> 00:03:37,350

um

76

00:03:41,589 --> 00:03:38,879

so yeah so it's pretty interesting

77

00:03:43,350 --> 00:03:41,599

because project white stork is

78

00:03:44,550 --> 00:03:43,360

so like i said ran by the same company

79

00:03:47,670 --> 00:03:44,560

but

80

00:03:48,949 --> 00:03:47,680

they did a whole lot of different stuff

81

00:03:53,990 --> 00:03:48,959

for

82

00:03:57,429 --> 00:03:54,000

um atec atic out of um

83

00:03:58,869 --> 00:03:57,439

ohio and wright patterson air force base

84

00:04:01,429 --> 00:03:58,879

so

85

00:04:03,030 --> 00:04:01,439

it's pretty

86

00:04:04,949 --> 00:04:03,040

pretty good stuff so

87

00:04:07,509 --> 00:04:04,959

the first thing i'll just kind of show

88

00:04:10,869 --> 00:04:07,519

you is

89

00:04:15,350 --> 00:04:12,630

they did the material analysis but they

90

00:04:18,310 --> 00:04:15,360

also did other stuff like i said so

91

00:04:22,150 --> 00:04:18,320

the other stuff that they do

92

00:04:24,860 --> 00:04:22,160

is very very interesting too

93

00:04:28,230 --> 00:04:24,870

of course

94

00:04:38,790 --> 00:04:28,240

[Music]

95

00:04:45,189 --> 00:04:40,469

if the music is too loud just let me

96

00:04:45,199 --> 00:04:51,110

so this here project white store

97

00:04:55,909 --> 00:04:52,870

pretty interesting here project white

98

00:04:58,390 --> 00:04:55,919

store task response a survey of recent

99

00:05:01,670 --> 00:04:58,400

uh soviet literature on the problem of

100

00:05:03,990 --> 00:05:01,680

contact with extraterrestrials

101
00:05:04,790 --> 00:05:04,000
so this is pretty great so

102
00:05:07,029 --> 00:05:04,800
uh

103
00:05:09,350 --> 00:05:07,039
the soviet union in the time

104
00:05:11,029 --> 00:05:09,360
well i don't know if they still do but

105
00:05:12,870 --> 00:05:11,039
they did a lot of work in trying to

106
00:05:14,390 --> 00:05:12,880
contact extraterrestrials and what that

107
00:05:17,029 --> 00:05:14,400
would look like

108
00:05:20,230 --> 00:05:17,039
well project white stork did a whole

109
00:05:22,230 --> 00:05:20,240
rundown on what that looked like and if

110
00:05:26,150 --> 00:05:22,240
you follow me on social you may have

111
00:05:29,909 --> 00:05:26,160
seen this before um

112
00:05:32,710 --> 00:05:29,919
and you know yeah look at that 1967 very

113
00:05:33,670 --> 00:05:32,720

interesting 1967.

114

00:05:35,590 --> 00:05:33,680

um

115

00:05:37,830 --> 00:05:35,600

that means a couple of things

116

00:05:39,830 --> 00:05:37,840

one of the things it means is how long

117

00:05:44,870 --> 00:05:39,840

this company runs project white stork

118

00:05:48,950 --> 00:05:46,710

also known as project blue book sign and

119

00:05:52,070 --> 00:05:48,960

grudge

120

00:05:57,990 --> 00:05:55,510

and that's just about the time

121

00:06:00,150 --> 00:05:58,000

right before basically uh the university

122

00:06:02,390 --> 00:06:00,160

of colorado or maybe during even the

123

00:06:06,629 --> 00:06:02,400

university of colorado and the condom

124

00:06:11,510 --> 00:06:08,710

you know a couple years later in 1969

125

00:06:13,430 --> 00:06:11,520

they put an official end

126

00:06:15,029 --> 00:06:13,440

to a blue book

127

00:06:16,309 --> 00:06:15,039

so i'm going all the way up at the top

128

00:06:18,629 --> 00:06:16,319

so you can see what this is foreign

129

00:06:19,790 --> 00:06:18,639

technology division soviet effort to

130

00:06:21,830 --> 00:06:19,800

contact

131

00:06:23,830 --> 00:06:21,840

extraterrestrial life

132

00:06:24,770 --> 00:06:23,840

february 3rd which is almost its

133

00:06:28,309 --> 00:06:24,780

anniversary

134

00:06:33,990 --> 00:06:30,629

pretty crazy huh

135

00:06:35,430 --> 00:06:34,000

so yeah

136

00:06:36,510 --> 00:06:35,440

so you'll have to check this out this is

137

00:06:38,309 --> 00:06:36,520

actually on my website

138

00:06:39,749 --> 00:06:38,319

witnesscitizen.com so you can check this

139

00:06:43,350 --> 00:06:39,759

stuff out for yourself

140

00:06:45,189 --> 00:06:43,360

um but it's definitely interesting

141

00:06:51,029 --> 00:06:45,199

what is the nature of life what is the

142

00:06:55,990 --> 00:06:54,309

with so many stars some of them at least

143

00:06:57,510 --> 00:06:56,000

must have some planets etcetera it's

144

00:07:01,510 --> 00:06:57,520

impossible at the present time to prove

145

00:07:03,110 --> 00:07:01,520

or disprove the existence of planets

146

00:07:04,870 --> 00:07:03,120

the size of earth even around the

147

00:07:06,790 --> 00:07:04,880

nearest stars let alone life on these

148

00:07:07,420 --> 00:07:06,800

planets so why are you doing this little

149

00:07:10,629 --> 00:07:07,430

study

150

00:07:14,950 --> 00:07:12,629

pretty interesting

151

00:07:17,350 --> 00:07:14,960

so that's the just kind of

152

00:07:19,110 --> 00:07:17,360

taking in a little bit just to kind of

153

00:07:21,589 --> 00:07:19,120

show you what this project white store

154

00:07:23,189 --> 00:07:21,599

did for the air force

155

00:07:25,189 --> 00:07:23,199

you can see here in this respect

156

00:07:26,790 --> 00:07:25,199

scientists are in exactly the same

157

00:07:28,950 --> 00:07:26,800

position as their predecessors one in

158

00:07:31,110 --> 00:07:28,960

the 18th century or even the ancient

159

00:07:32,710 --> 00:07:31,120

greeks 2 000 years ago the only

160

00:07:34,469 --> 00:07:32,720

difference is considered extremely

161

00:07:36,629 --> 00:07:34,479

significant by the proponents of life in

162

00:07:38,309 --> 00:07:36,639

the universe is modern of man's

163

00:07:40,870 --> 00:07:38,319

possession of radio communication

164

00:07:43,029 --> 00:07:40,880

techniques capable of reaching out to 1

165

00:07:45,430 --> 00:07:43,039

000 light years or more

166

00:07:48,150 --> 00:07:45,440

that's pretty far

167

00:07:51,189 --> 00:07:49,510

what's kind of interesting when i look

168

00:07:53,749 --> 00:07:51,199

at this though is

169

00:07:56,230 --> 00:07:53,759

you know um at the time i'm sure they

170

00:07:57,350 --> 00:07:56,240

thought if we're gonna find et life now

171

00:07:59,270 --> 00:07:57,360

would be a good time because our

172

00:08:00,710 --> 00:07:59,280

technology is so advanced so much more

173

00:08:02,390 --> 00:08:00,720

than it was before

174

00:08:06,309 --> 00:08:02,400

and probably that's exactly what we're

175

00:08:06,319 --> 00:08:10,830

interesting

176
00:08:10,840 --> 00:08:15,189
very so

177
00:08:20,790 --> 00:08:16,070
the

178
00:08:29,880 --> 00:08:22,070
is

179
00:08:39,670 --> 00:08:29,890
star

180
00:08:41,269 --> 00:08:39,680
[Music]

181
00:08:43,750 --> 00:08:41,279
and here it is

182
00:08:46,070 --> 00:08:43,760
so we have syracuse new york this case

183
00:08:48,430 --> 00:08:46,080
is um what looks like the memorandum at

184
00:08:51,910 --> 00:08:48,440
least was july 12

185
00:08:54,550 --> 00:08:51,920
1960 subject possible foreign space

186
00:08:55,670 --> 00:08:54,560
object

187
00:08:57,110 --> 00:08:55,680
they were

188
00:08:58,790 --> 00:08:57,120

just right here as you requested

189

00:09:00,070 --> 00:08:58,800
returning here within the subject

190

00:09:02,310 --> 00:09:00,080
samples

191

00:09:04,150 --> 00:09:02,320
screw up a little bit it gives you a

192

00:09:08,230 --> 00:09:04,160
little bit more

193

00:09:09,990 --> 00:09:08,240
insight on what was going on

194

00:09:12,200 --> 00:09:10,000
so we have

195

00:09:13,910 --> 00:09:12,210
um right here

196

00:09:15,670 --> 00:09:13,920
[Music]

197

00:09:18,150 --> 00:09:15,680
it is suggested that the two samples be

198

00:09:21,670 --> 00:09:18,160
subjected to a preliminary investigation

199

00:09:23,990 --> 00:09:21,680
consisting of a microstructural analysis

200

00:09:26,310 --> 00:09:24,000
and depending on the results obtained

201

00:09:28,310 --> 00:09:26,320

a spectrographic analysis for

202

00:09:29,829 --> 00:09:28,320

composition at the conclusion of this

203

00:09:32,230 --> 00:09:29,839

investigation the results would be

204

00:09:33,910 --> 00:09:32,240

integrated and reported to attic along

205

00:09:35,829 --> 00:09:33,920

with recommendations if any for

206

00:09:37,110 --> 00:09:35,839

additional investigation and a cost

207

00:09:37,910 --> 00:09:37,120

estimate

208

00:09:39,350 --> 00:09:37,920

uh

209

00:09:40,710 --> 00:09:39,360

so they're talking about how much this

210

00:09:43,509 --> 00:09:40,720

is gonna cost

211

00:09:46,949 --> 00:09:43,519

so in here project white stork

212

00:09:48,630 --> 00:09:46,959

pws is what it's called

213

00:09:51,350 --> 00:09:48,640

so you can see that right on the last

214

00:09:54,550 --> 00:09:51,360

line line number three before proceeding

215

00:09:57,430 --> 00:09:54,560

with such examination pws

216

00:09:58,870 --> 00:09:57,440

will await authorization

217

00:10:01,670 --> 00:09:58,880

so you can see how this is going they

218

00:10:05,910 --> 00:10:01,680

would get things like this

219

00:10:08,150 --> 00:10:05,920

from ufo investigations and they would

220

00:10:09,910 --> 00:10:08,160

contract them out to be analyzed and

221

00:10:12,230 --> 00:10:09,920

looked at so the reason why this is

222

00:10:15,509 --> 00:10:12,240

important to me is because when we talk

223

00:10:17,190 --> 00:10:15,519

about ufo fragments or crashes or

224

00:10:18,790 --> 00:10:17,200

or anything like that

225

00:10:20,870 --> 00:10:18,800

is it in the hands of the government is

226

00:10:22,630 --> 00:10:20,880

it in the hands of a private corporation

227

00:10:24,710 --> 00:10:22,640

well this is an example of how it could

228

00:10:26,310 --> 00:10:24,720

very well be in the hands of a private

229

00:10:27,430 --> 00:10:26,320

corporation

230

00:10:28,470 --> 00:10:27,440

because

231

00:10:34,470 --> 00:10:28,480

you know

232

00:10:38,630 --> 00:10:37,269

since the cost of the pws analysis the

233

00:10:40,310 --> 00:10:38,640

sample enclosed with the first

234

00:10:41,509 --> 00:10:40,320

endorsement would have to be defrayed by

235

00:10:44,710 --> 00:10:41,519

material

236

00:10:46,710 --> 00:10:44,720

p at css it is requested that pws return

237

00:10:49,990 --> 00:10:46,720

the samples to this office

238

00:10:53,390 --> 00:10:50,000

but you'll see that sometimes maybe

239

00:10:57,509 --> 00:10:55,990

[Music]

240

00:10:59,509 --> 00:10:57,519

so this is

241

00:11:01,350 --> 00:10:59,519

just a little further it's requested pws

242

00:11:02,470 --> 00:11:01,360

furnished composition analysis for each

243

00:11:05,030 --> 00:11:02,480

sample

244

00:11:06,790 --> 00:11:05,040

if the composition analysis

245

00:11:09,190 --> 00:11:06,800

indicate that these samples could have

246

00:11:11,750 --> 00:11:09,200

been from sputnik 4

247

00:11:13,990 --> 00:11:11,760

uh photo micrographs and interpretations

248

00:11:19,829 --> 00:11:14,000

of the photomicrograph should be made to

249

00:11:23,509 --> 00:11:21,269

yes

250

00:11:25,829 --> 00:11:23,519

that's a good point robert

251
00:11:28,630 --> 00:11:25,839
if cin

252
00:11:29,509 --> 00:11:28,640
that right is adequate right yes that's

253
00:11:31,990 --> 00:11:29,519
correct

254
00:11:34,470 --> 00:11:32,000
and the different subdivisions

255
00:11:36,230 --> 00:11:34,480
were many

256
00:11:38,230 --> 00:11:36,240
you can't see here they're at the bottom

257
00:11:40,069 --> 00:11:38,240
philip evans colonel united states air

258
00:11:43,030 --> 00:11:40,079
force afc i n

259
00:11:44,389 --> 00:11:43,040
4 e

260
00:11:47,200 --> 00:11:44,399
let me tell you

261
00:11:49,590 --> 00:11:47,210
that's a short one

262
00:11:51,509 --> 00:11:49,600
[Music]

263
00:11:52,790 --> 00:11:51,519

you can also see here

264

00:11:55,350 --> 00:11:52,800
the bottom right hand corner box

265

00:11:58,389 --> 00:11:55,360
containing two items one metallic and

266

00:12:02,069 --> 00:11:58,399
one non-metallic

267

00:12:03,990 --> 00:12:02,079
now this is interesting to me because of

268

00:12:06,550 --> 00:12:04,000
what gary nolan's looking at and how

269

00:12:10,550 --> 00:12:06,560
it's referred to which is

270

00:12:14,470 --> 00:12:12,710
and then here again you know on uh

271

00:12:17,110 --> 00:12:14,480
robert's point up here

272

00:12:22,150 --> 00:12:17,120
uh point number two we have afca and for

273

00:12:25,670 --> 00:12:24,629
so here we can read it oh yes and of

274

00:12:27,110 --> 00:12:25,680
course

275

00:12:29,269 --> 00:12:27,120
i didn't even think of this this is

276

00:12:40,069 --> 00:12:29,279

another moon dust case

277

00:12:41,829 --> 00:12:40,079

uh it's kind of cruel to me

278

00:12:42,700 --> 00:12:41,839

doesn't have

279

00:12:44,230 --> 00:12:42,710

so here we go

280

00:12:47,350 --> 00:12:44,240

[Music]

281

00:12:49,910 --> 00:12:47,360

we have afcin-4e2x

282

00:12:52,230 --> 00:12:49,920

major friend

283

00:12:54,470 --> 00:12:52,240

on the 25th of june 1960 molten

284

00:12:56,949 --> 00:12:54,480

substance fell in the area of syracuse

285

00:12:58,790 --> 00:12:56,959

new york these objects were turned over

286

00:13:00,629 --> 00:12:58,800

to the intelligence officer 26 air

287

00:13:04,150 --> 00:13:00,639

division syracuse and were further

288

00:13:06,310 --> 00:13:04,160

forwarded to afc and 4a so how many afc

289

00:13:09,110 --> 00:13:06,320

is

290

00:13:13,430 --> 00:13:09,120

we've got a legboard

291

00:13:15,430 --> 00:13:13,440

um as possible moon dust hardware this

292

00:13:17,350 --> 00:13:15,440

date 25th of june coincides with the

293

00:13:20,870 --> 00:13:17,360

approximate re-entry and disintegration

294

00:13:31,750 --> 00:13:20,880

of the sputnik 4 carrier vehicle

295

00:13:35,910 --> 00:13:33,750

so here we go

296

00:13:36,730 --> 00:13:35,920

we have no capability to evaluate

297

00:13:38,230 --> 00:13:36,740

material

298

00:13:40,230 --> 00:13:38,240

[Music]

299

00:13:41,829 --> 00:13:40,240

at this headquarters if further if

300

00:13:45,590 --> 00:13:41,839

further information is desired for

301
00:13:49,110 --> 00:13:45,600
person whose property these items fell

302
00:13:51,350 --> 00:13:49,120
such information could be obtained

303
00:13:53,269 --> 00:13:51,360
so here they're saying basically

304
00:13:56,550 --> 00:13:53,279
we can't do it here at wright patterson

305
00:13:58,069 --> 00:13:56,560
at the air force we have to um you know

306
00:14:00,629 --> 00:13:58,079
contract this out

307
00:14:03,189 --> 00:14:00,639
and we already saw what that looked like

308
00:14:04,290 --> 00:14:03,199
300 bucks

309
00:14:06,470 --> 00:14:04,300
pretty crazy huh

310
00:14:09,060 --> 00:14:06,480
[Music]

311
00:14:12,150 --> 00:14:09,070
300 bucks

312
00:14:14,550 --> 00:14:12,160
[Music]

313
00:14:16,790 --> 00:14:14,560

so it is requesting the physical

314

00:14:20,400 --> 00:14:16,800

evidence for the ufo sighting the 25th

315

00:14:20,410 --> 00:14:24,949

[Music]

316

00:14:28,870 --> 00:14:26,710

we have a couple notes on this items are

317

00:14:30,949 --> 00:14:28,880

too late to be meteorites materials will

318

00:14:33,829 --> 00:14:30,959

be held here until instructions are

319

00:14:36,150 --> 00:14:33,839

received as to where they should be sent

320

00:14:38,790 --> 00:14:36,160

sent for analysis objects were tested by

321

00:14:42,290 --> 00:14:38,800

base medical personnel are not believed

322

00:14:47,189 --> 00:14:46,310

[Music]

323

00:14:48,790 --> 00:14:47,199

so

324

00:14:51,509 --> 00:14:48,800

you know again another thing that's

325

00:14:53,430 --> 00:14:51,519

talked about when uh gary nolan um in

326

00:14:54,470 --> 00:14:53,440

his last interview he talks about

327

00:14:56,389 --> 00:14:54,480

um

328

00:14:59,110 --> 00:14:56,399

you know the some of the substance that

329

00:15:01,590 --> 00:14:59,120

he has is he discusses how the witness

330

00:15:03,670 --> 00:15:01,600

described it coming out of the object

331

00:15:05,990 --> 00:15:03,680

like a molten

332

00:15:12,710 --> 00:15:06,000

type object

333

00:15:12,720 --> 00:15:21,509

uh the docs are unclassified yes

334

00:15:24,470 --> 00:15:22,470

so

335

00:15:27,030 --> 00:15:24,480

yeah good catch robert once again with

336

00:15:31,990 --> 00:15:27,040

cosmetic

337

00:15:37,350 --> 00:15:34,840

and the recovery of space objects

338

00:15:39,350 --> 00:15:37,360

[Music]

339

00:15:40,949 --> 00:15:39,360

project space track

340

00:15:43,269 --> 00:15:40,959

here i haven't been able to find

341

00:15:44,470 --> 00:15:43,279

anything in particular on project space

342

00:15:46,870 --> 00:15:44,480

track

343

00:15:48,629 --> 00:15:46,880

[Music]

344

00:15:53,110 --> 00:15:48,639

but you can see here also who is

345

00:15:58,870 --> 00:15:54,870

norad

346

00:16:03,430 --> 00:16:01,269

for sure and they were done and recorded

347

00:16:06,829 --> 00:16:03,440

by way of something called a service

348

00:16:09,430 --> 00:16:06,839

report c-i-r-v-i-s

349

00:16:12,150 --> 00:16:09,440

so back to the molten stuff subject moon

350

00:16:13,749 --> 00:16:12,160

does two pieces of molten unidentifiable

351

00:16:15,590 --> 00:16:13,759

material fell

352

00:16:18,710 --> 00:16:15,600

at the home of

353

00:16:23,749 --> 00:16:20,949

reportedly one piece struck the small

354

00:16:30,310 --> 00:16:23,759

sun on his boot or shoe

355

00:16:34,710 --> 00:16:31,749

stuck the guy

356

00:16:35,829 --> 00:16:34,720

on his booty shoe

357

00:16:37,990 --> 00:16:35,839

this

358

00:16:40,550 --> 00:16:38,000

size of smaller object is approximately

359

00:16:42,949 --> 00:16:40,560

that of a lemon it's apparently metallic

360

00:16:44,870 --> 00:16:42,959

but is a fairly light density second

361

00:16:46,470 --> 00:16:44,880

object is approximately six inches in

362

00:16:48,150 --> 00:16:46,480

length for inches in width and two

363

00:16:50,470 --> 00:16:48,160

inches thickness has extremely light

364

00:16:52,949 --> 00:16:50,480

density and appears to be made up

365

00:16:56,069 --> 00:16:52,959

of at least three different substances

366

00:16:57,590 --> 00:16:56,079

all show signs of subjection to extreme

367

00:16:59,350 --> 00:16:57,600

heat

368

00:17:01,189 --> 00:16:59,360

based personnel who have had opportunity

369

00:17:03,590 --> 00:17:01,199

to handle portions of meteorites believe

370

00:17:05,029 --> 00:17:03,600

both of these items are too light to be

371

00:17:07,870 --> 00:17:05,039

meteorites so we're going backwards a

372

00:17:14,630 --> 00:17:10,789

[Music]

373

00:17:18,710 --> 00:17:15,429

so

374

00:17:20,309 --> 00:17:18,720

here we have the actual breakdown of the

375

00:17:21,909 --> 00:17:20,319

chemical composition which i'm not

376

00:17:25,029 --> 00:17:21,919

really

377

00:17:27,510 --> 00:17:25,039

you know privy to it any education as

378

00:17:29,190 --> 00:17:27,520

far as that goes

379

00:17:30,789 --> 00:17:29,200

you know what i'm looking at i mean i

380

00:17:31,990 --> 00:17:30,799

know what the stuff is but

381

00:17:33,430 --> 00:17:32,000

i don't know if that means it's going to

382

00:17:34,950 --> 00:17:33,440

be weird or not

383

00:17:37,909 --> 00:17:34,960

i do remember

384

00:17:39,669 --> 00:17:37,919

some of these things in samples

385

00:17:41,669 --> 00:17:39,679

that other people have talked about that

386

00:17:43,270 --> 00:17:41,679

they're not sure what they are but also

387

00:17:45,350 --> 00:17:43,280

what's included when they discuss those

388

00:17:48,789 --> 00:17:45,360

is the percentage of

389

00:17:51,029 --> 00:17:48,799

each you know mineral so to speak or

390

00:17:53,430 --> 00:17:51,039

or whatever

391

00:17:55,430 --> 00:17:53,440

so we got the factual data here

392

00:17:57,909 --> 00:17:55,440

two samples form material received in

393

00:17:58,950 --> 00:17:57,919

the sign physics laboratory numbers blah

394

00:18:01,190 --> 00:17:58,960

blah blah

395

00:18:03,990 --> 00:18:01,200

samples are analyzed by emission

396

00:18:06,150 --> 00:18:04,000

infrared x-ray diffraction mission

397

00:18:08,310 --> 00:18:06,160

analysis provided the static principle

398

00:18:12,390 --> 00:18:08,320

is calcium

399

00:18:17,029 --> 00:18:15,270

yeah we see those a lot

400

00:18:19,430 --> 00:18:17,039

titanium iron

401
00:18:21,909 --> 00:18:19,440
uh minor barium traces nickel copper

402
00:18:24,150 --> 00:18:21,919
sodium silver

403
00:18:26,470 --> 00:18:24,160
um samples were recorded and placed on

404
00:18:29,350 --> 00:18:26,480
file it revealed no significant

405
00:18:33,190 --> 00:18:29,360
absorption bands all carbon hydrogen

406
00:18:37,740 --> 00:18:34,950
see i unfortunately i don't know what

407
00:18:42,470 --> 00:18:37,750
any of that means

408
00:18:46,230 --> 00:18:44,310
yeah it's supposed to be there

409
00:18:48,630 --> 00:18:46,240
[Music]

410
00:18:51,029 --> 00:18:48,640
it's supposed to be there

411
00:18:53,190 --> 00:18:51,039
i'm trying to you know spice it up it's

412
00:18:55,669 --> 00:18:53,200
just a little too boring i feel like

413
00:18:58,630 --> 00:18:55,679

i'll just be talking

414

00:19:01,510 --> 00:19:01,270

it's kind of creepy it's like ufo stuff

415

00:19:07,270 --> 00:19:01,520

right

416

00:19:10,789 --> 00:19:08,470

i think

417

00:19:11,630 --> 00:19:10,799

but you know it could be

418

00:19:14,789 --> 00:19:11,640

it could be just me

419

00:19:17,190 --> 00:19:14,799

[Music]

420

00:19:19,430 --> 00:19:17,200

uh here we go this person solomon broke

424

00:19:32,390 --> 00:19:29,830

we have some interesting distribution

425

00:19:34,630 --> 00:19:32,400

places here wwrpcp

426

00:19:37,270 --> 00:19:34,640

i'm not sure what that is

427

00:19:38,549 --> 00:19:37,280

oh we know what it is actually don't we

428

00:19:39,990 --> 00:19:38,559

it's this guy

429

00:19:51,190 --> 00:19:40,000

nope that's wade jones

430

00:19:58,310 --> 00:19:52,710

what does that mean for possible

431

00:20:05,830 --> 00:20:00,390

and here we go look at this physical

432

00:20:08,870 --> 00:20:07,270

interesting uh

433

00:20:10,310 --> 00:20:08,880

two pieces of molten substance once

434

00:20:12,870 --> 00:20:10,320

appearing to be metallic one-piece

435

00:20:14,789 --> 00:20:12,880

437

00:20:19,029 --> 00:20:17,120

from physics lab indicates both pieces

438

00:20:21,590 --> 00:20:19,039

sink composition material believed to be

439

00:20:23,029 --> 00:20:21,600

glass furnace slag

440

00:20:24,870 --> 00:20:23,039

okay

441

00:20:26,390 --> 00:20:24,880

i've learned to not really pay too much

442

00:20:30,230 --> 00:20:26,400

attention to what they put the final

443

00:20:33,350 --> 00:20:31,830

it could be right i wouldn't know i

444

00:20:35,990 --> 00:20:33,360

guess but

445

00:20:37,510 --> 00:20:36,000

you know regardless

446

00:20:40,950 --> 00:20:37,520

i wasn't here thinking it was a ufo

447

00:20:43,590 --> 00:20:41,909

you know

448

00:20:46,830 --> 00:20:43,600

this is about white stork and if there

449

00:20:51,430 --> 00:20:46,840

was a ufo piece um they most

450

00:21:00,630 --> 00:20:53,909

at least at that time

451
00:21:04,710 --> 00:21:03,270
wonderful picture

452
00:21:06,710 --> 00:21:04,720
of

453
00:21:10,789 --> 00:21:06,720
the video here

454
00:21:15,669 --> 00:21:12,950
in that piece so

455
00:21:18,470 --> 00:21:15,679
nothing too crazy about it

456
00:21:20,870 --> 00:21:18,480
but again white star took a look at it

457
00:21:24,710 --> 00:21:20,880
and this kind of gives

458
00:21:28,230 --> 00:21:27,029
one of the reasons they may

459
00:21:29,669 --> 00:21:28,240
you know

460
00:21:31,750 --> 00:21:29,679
care about meteorites and actually

461
00:21:34,390 --> 00:21:31,760
studying them

462
00:21:35,909 --> 00:21:34,400
examination of stone large black stone

463
00:21:37,669 --> 00:21:35,919

reported to be stony meteorite was

464

00:21:39,750 --> 00:21:37,679

received for examination particularly

465

00:21:43,270 --> 00:21:39,760

from the standpoint of aerodynamic lines

466

00:21:43,280 --> 00:21:47,990

what could that be used for

467

00:21:52,630 --> 00:21:50,470

vehicle reentry space vehicle re-entry

468

00:21:54,789 --> 00:21:52,640

missiles ballistic missiles the stone

469

00:21:56,230 --> 00:21:54,799

shows no signs of airflow lines such as

470

00:21:57,669 --> 00:21:56,240

our final meteorites the markings

471

00:22:00,149 --> 00:21:57,679

visible on the surface with the stone

472

00:22:02,390 --> 00:22:00,159

represent material in the bedding planes

473

00:22:04,230 --> 00:22:02,400

of sedimentary rock this material has a

474

00:22:05,110 --> 00:22:04,240

hardness somewhat greater than that of a

475

00:22:06,390 --> 00:22:05,120

meteor

476

00:22:08,950 --> 00:22:06,400

thing is

477

00:22:14,950 --> 00:22:08,960

well at least i say it is a meteorite

478

00:22:20,310 --> 00:22:17,110

but

479

00:22:25,750 --> 00:22:20,320

yeah you know they talk about it here

480

00:22:28,950 --> 00:22:27,270

but you'll see how they kind of change

481

00:22:30,549 --> 00:22:28,960

it

482

00:22:36,710 --> 00:22:30,559

this is funny

483

00:22:42,950 --> 00:22:38,710

got it funny a handwritten letter hard

484

00:22:45,990 --> 00:22:44,470

the object which at first glance

485

00:22:48,070 --> 00:22:46,000

appeared to be a meteorite was submitted

486

00:22:50,149 --> 00:22:48,080

to analysis the results of which

487

00:22:52,149 --> 00:22:50,159

completely discounts the meteorite

488

00:22:53,669 --> 00:22:52,159

possibility the tentative conclusions

489

00:22:56,230 --> 00:22:53,679

are that the stone is not a meteorite

490

00:22:57,830 --> 00:22:56,240

but most probably a volcanic

491

00:23:00,149 --> 00:22:57,840

bomb

492

00:23:03,350 --> 00:23:00,159

thrown from the throat of an active

493

00:23:05,510 --> 00:23:03,360

volcano somewhere to the north and east

494

00:23:13,110 --> 00:23:05,520

of its final resting place

495

00:23:16,870 --> 00:23:14,789

it is not improbable that it was

496

00:23:19,830 --> 00:23:16,880

transported to the spot of discovery by

497

00:23:22,390 --> 00:23:19,840

any of the several glaciers which passed

498

00:23:24,230 --> 00:23:22,400

over the volcanic area of the canadian

499

00:23:25,510 --> 00:23:24,240

shield appalachian

500

00:23:26,870 --> 00:23:25,520

uh

501
00:23:28,390 --> 00:23:26,880
i can't read that

502
00:23:29,830 --> 00:23:28,400
dystrophic region

503
00:23:31,510 --> 00:23:29,840
we shall hold the stone pending

504
00:23:33,990 --> 00:23:31,520
instructions from you regarding its

505
00:23:39,830 --> 00:23:34,000
disposal the air force wishes to extend

506
00:23:43,909 --> 00:23:41,510
yeah here it is

507
00:23:46,470 --> 00:23:43,919
it's kind of a crappy picture but um i

508
00:23:47,990 --> 00:23:46,480
do have the good pictures on my website

509
00:23:51,190 --> 00:23:48,000
under blue book photos if you're

510
00:23:52,390 --> 00:23:51,200
interested in looking

511
00:23:55,190 --> 00:23:52,400
yeah those

512
00:23:59,510 --> 00:23:55,200
passive aggressive emails existed in

513
00:24:05,029 --> 00:24:01,029

funny

514

00:24:07,669 --> 00:24:05,039

so

515

00:24:09,909 --> 00:24:07,679

here we go this is interesting

516

00:24:11,590 --> 00:24:09,919

weapons reference

517

00:24:13,269 --> 00:24:11,600

so number one references made to

518

00:24:15,269 --> 00:24:13,279

discussion between captain gregory

519

00:24:17,750 --> 00:24:15,279

relative to the meteorite left in the

520

00:24:20,149 --> 00:24:17,760

air weapon materials branch for

521

00:24:26,710 --> 00:24:20,159

examination why would they put it

522

00:24:26,720 --> 00:24:31,590

interesting

523

00:24:35,669 --> 00:24:33,590

the sample in our possession is

524

00:24:40,310 --> 00:24:35,679

unquestionably a meteorite but appears

525

00:24:44,230 --> 00:24:42,310

an examination in this case would have

526

00:24:52,870 --> 00:24:44,240

no intelligence value from the

527

00:24:56,230 --> 00:24:54,390

and we can see at the bottom white stork

528

00:24:58,710 --> 00:24:56,240

will also be asked about the monetary

529

00:25:01,190 --> 00:24:58,720

value of the meteorite

530

00:25:03,110 --> 00:25:01,200

dr h h

531

00:25:05,110 --> 00:25:03,120

i'm not even trying to say that made

532

00:25:07,430 --> 00:25:05,120

american meteorite museum macedonia

533

00:25:08,950 --> 00:25:07,440

arizona could make full assessment of

534

00:25:10,710 --> 00:25:08,960

the dollar value

535

00:25:12,640 --> 00:25:10,720

so now they're trying to they're trying

536

00:25:14,370 --> 00:25:12,650

to hawk it for money

537

00:25:16,870 --> 00:25:14,380

[Laughter]

538

00:25:18,470 --> 00:25:16,880

[Music]

539

00:25:23,909 --> 00:25:18,480

it's got no intelligence value how much

540

00:25:23,919 --> 00:25:27,029

so yeah

541

00:25:31,669 --> 00:25:28,630

very interesting

542

00:25:35,029 --> 00:25:31,679

there's a nice drawing of it apparently

543

00:25:37,130 --> 00:25:35,039

but this brings us to

544

00:25:41,590 --> 00:25:37,140

something very interesting

545

00:25:45,750 --> 00:25:44,310

institute studies meteorites for missile

546

00:25:47,110 --> 00:25:45,760

data

547

00:25:49,669 --> 00:25:47,120

what did i say

548

00:25:52,390 --> 00:25:49,679

the remains of unguided missiles which

549

00:25:54,870 --> 00:25:52,400

have been bombarding earth from outer

550

00:25:57,190 --> 00:25:54,880

space since the beginning of time are

551
00:25:59,830 --> 00:25:57,200
being studied by technicians developing

552
00:26:03,430 --> 00:25:59,840
better guided missiles

553
00:26:05,510 --> 00:26:03,440
at the battelle institute in columbus

554
00:26:08,710 --> 00:26:05,520
working for the right air development

555
00:26:12,549 --> 00:26:10,870
technicians are examining meteorites to

556
00:26:13,430 --> 00:26:12,559
see how they survive their descent to

557
00:26:16,070 --> 00:26:13,440
earth

558
00:26:17,750 --> 00:26:16,080
guided missiles traveling at high speeds

559
00:26:20,070 --> 00:26:17,760
in the friction

560
00:26:22,789 --> 00:26:20,080
uh producing atmosphere are subject to

561
00:26:24,710 --> 00:26:22,799
tremendous heat and metallic alloys to

562
00:26:25,909 --> 00:26:24,720
withstand these

563
00:26:27,909 --> 00:26:25,919

temperatures

564

00:26:30,070 --> 00:26:27,919

have to be developed by subjecting the

565

00:26:31,830 --> 00:26:30,080

nickel in iron structures of the

566

00:26:34,149 --> 00:26:31,840

meteorites

567

00:26:36,630 --> 00:26:34,159

to microscopic analysis they hope to be

568

00:26:39,190 --> 00:26:36,640

able to learn how the meteorites heated

569

00:26:43,310 --> 00:26:39,200

patel scientists are getting meteorites

570

00:26:56,630 --> 00:26:47,510

[Music]

571

00:26:58,149 --> 00:26:56,640

institute studies meteorites for missile

572

00:26:59,110 --> 00:26:58,159

data so

573

00:27:01,750 --> 00:26:59,120

uh

574

00:27:02,530 --> 00:27:01,760

maybe a part of um

575

00:27:05,029 --> 00:27:02,540

moon dance

576

00:27:08,710 --> 00:27:05,039

[Music]

577

00:27:15,350 --> 00:27:10,630

and you know how much effort they put

578

00:27:20,070 --> 00:27:18,090

would be

579

00:27:22,470 --> 00:27:20,080

[Music]

580

00:27:26,940 --> 00:27:22,480

they were studying them

581

00:27:26,950 --> 00:27:39,909

[Music]

582

00:27:39,919 --> 00:27:44,310

pretty interesting

583

00:27:50,070 --> 00:27:46,830

press one if you think sean looks

584

00:27:54,149 --> 00:27:50,080

like tom hardy

585

00:27:57,669 --> 00:27:56,430

hopefully he's not a

586

00:28:00,950 --> 00:27:57,679

[Music]

587

00:28:03,990 --> 00:28:00,960

real goofy looking guy oh this guy

588

00:28:06,710 --> 00:28:04,000

look like this guy huh

589

00:28:09,660 --> 00:28:06,720

i don't know

590

00:28:13,190 --> 00:28:11,590

[Music]

591

00:28:16,310 --> 00:28:13,200

it could

592

00:28:17,990 --> 00:28:16,320

could could be

593

00:28:19,750 --> 00:28:18,000

he's got a lot more money than me so

594

00:28:23,269 --> 00:28:19,760

i'll take it i'll look like tom hardy if

595

00:28:23,279 --> 00:28:26,310

um so yeah

596

00:28:30,070 --> 00:28:28,070

you know um

597

00:28:33,590 --> 00:28:30,080

nothing too exciting there other than

598

00:28:39,830 --> 00:28:35,350

other than that

599

00:28:42,630 --> 00:28:39,840

which i particularly find interesting

600

00:28:46,640 --> 00:28:42,640

you know to know that a part of

601
00:28:47,990 --> 00:28:46,650
blue book or ufo studies

602
00:28:49,430 --> 00:28:48,000
[Music]

603
00:28:51,510 --> 00:28:49,440
um could have been for weapons

604
00:28:53,510 --> 00:28:51,520
applications oh we got a real cool guy

605
00:28:55,430 --> 00:28:53,520
here what is the point of this guy

606
00:28:59,029 --> 00:28:55,440
ronald clement

607
00:29:01,269 --> 00:28:59,039
wow look at you

608
00:29:03,669 --> 00:29:01,279
i don't know

609
00:29:07,750 --> 00:29:03,679
what do you think

610
00:29:15,990 --> 00:29:09,269
but if there isn't there definitely

611
00:29:16,000 --> 00:29:20,710
and i'm putting you in a timeout sir

612
00:29:20,720 --> 00:29:24,230
um let me know robert

613
00:29:31,590 --> 00:29:27,430

this one

614

00:29:34,789 --> 00:29:31,600

howard cross yeah

615

00:29:36,310 --> 00:29:34,799

consider to satisfy the requirements of

616

00:29:37,830 --> 00:29:36,320

the stone is being returned under

617

00:29:44,090 --> 00:29:37,840

separate cover

618

00:29:45,669 --> 00:29:44,100

what does that mean

619

00:29:47,230 --> 00:29:45,679

[Music]

620

00:29:51,430 --> 00:29:47,240

what does that mean

621

00:29:58,710 --> 00:29:53,510

so yeah

622

00:30:04,549 --> 00:30:01,909

that's about it um so

623

00:30:06,950 --> 00:30:04,559

patel that's who it was patel project

624

00:30:10,710 --> 00:30:06,960

white stork

625

00:30:10,720 --> 00:30:13,830

the other things

626

00:30:19,430 --> 00:30:16,070

oh this is interesting robert

627

00:30:23,350 --> 00:30:19,440

i connected him to the roswell medal

628

00:30:26,870 --> 00:30:25,110

the other thing is

629

00:30:29,029 --> 00:30:26,880

so patrick white stark they're looking

630

00:30:31,190 --> 00:30:29,039

at materials for the air force they're

631

00:30:33,750 --> 00:30:31,200

making a study on

632

00:30:35,750 --> 00:30:33,760

the soviet union's

633

00:30:38,310 --> 00:30:35,760

attempt to communicate with

634

00:30:40,310 --> 00:30:38,320

extraterrestrial life if we go back to

635

00:30:43,029 --> 00:30:40,320

some of the reports we looked at before

636

00:30:45,350 --> 00:30:43,039

where the rand project was tasked with

637

00:30:47,350 --> 00:30:45,360

looking at the possibility

638

00:30:48,549 --> 00:30:47,360

of

639

00:30:50,470 --> 00:30:48,559

you know

640

00:30:51,750 --> 00:30:50,480

martians or aliens traveling here from

641

00:30:53,350 --> 00:30:51,760

outer space

642

00:30:55,510 --> 00:30:53,360

it's very interesting that everything

643

00:30:58,789 --> 00:30:55,520

that has to do with extraterrestrials or

644

00:31:02,389 --> 00:30:58,799

outer space or something like that

645

00:31:04,789 --> 00:31:02,399

is contracted out to other companies so

646

00:31:06,310 --> 00:31:04,799

if there is some sort of material or

647

00:31:08,470 --> 00:31:06,320

something like that

648

00:31:10,950 --> 00:31:08,480

i would have

649

00:31:14,230 --> 00:31:10,960

a very easy time thinking

650

00:31:14,240 --> 00:31:20,950

of a company

651
00:31:27,350 --> 00:31:24,950
very easy time thinking thinking that

652
00:31:29,269 --> 00:31:27,360
and this isn't really related to

653
00:31:31,190 --> 00:31:29,279
the ufo stuff that i know

654
00:31:33,029 --> 00:31:31,200
but this is just another document that i

655
00:31:35,430 --> 00:31:33,039
found because i wanted to make sure that

656
00:31:37,430 --> 00:31:35,440
i was right when i was saying that pws

657
00:31:40,950 --> 00:31:37,440
project white stork

658
00:31:43,110 --> 00:31:40,960
patel so we got visited at um

659
00:31:45,590 --> 00:31:43,120
project white stork at patel memorial

660
00:31:47,990 --> 00:31:45,600
institute columbus ohio last tuesday

661
00:31:50,389 --> 00:31:48,000
it's literally the only reason that i'm

662
00:31:52,149 --> 00:31:50,399
showing this but it is interesting that

663
00:31:54,389 --> 00:31:52,159

you look a little further

664

00:31:55,990 --> 00:31:54,399

number 10 who is going to pws for the

665

00:31:59,590 --> 00:31:56,000

first time on a project dealing with

666

00:32:04,149 --> 00:31:59,600

soviet research and hyper velocity

667

00:32:06,950 --> 00:32:04,159

dr heineck once gave a talk about ufos

668

00:32:10,230 --> 00:32:06,960

to a hyper velocity conference in

669

00:32:16,549 --> 00:32:12,950

and here we have osi

670

00:32:18,950 --> 00:32:16,559

which is this is c-i-a-c-i-a-o-s-i

671

00:32:20,070 --> 00:32:18,960

is considering providing funds to pws so

672

00:32:24,710 --> 00:32:20,080

that would continue its work in the

673

00:32:28,789 --> 00:32:26,310

now this is interesting because if you

674

00:32:29,669 --> 00:32:28,799

go back to what mr john ramirez talks

675

00:32:41,830 --> 00:32:29,679

about

676
00:32:43,350 --> 00:32:41,840
and who studied this stuff at cia he

677
00:32:44,870 --> 00:32:43,360
said it was in the biosciences or

678
00:32:46,070 --> 00:32:44,880
whatever

679
00:32:49,350 --> 00:32:46,080
right

680
00:32:50,870 --> 00:32:49,360
and now we grab onto pws project white

681
00:32:52,710 --> 00:32:50,880
stork

682
00:32:54,389 --> 00:32:52,720
who we know

683
00:32:56,310 --> 00:32:54,399
was looking at materials and doing

684
00:32:58,070 --> 00:32:56,320
studies of extraterrest communicating

685
00:33:01,029 --> 00:32:58,080
extraterrestrials

686
00:33:04,310 --> 00:33:01,039
so you put this together with that

687
00:33:07,029 --> 00:33:04,320
and it kind of backs up his case

688
00:33:10,870 --> 00:33:09,190

from the cia is considering providing

689

00:33:13,269 --> 00:33:10,880

funds to project white stork so that

690

00:33:15,990 --> 00:33:13,279

will continue its work basic sciences

691

00:33:17,909 --> 00:33:16,000

and possibly in medicine

692

00:33:20,230 --> 00:33:17,919

present they concentrate on subjects of

693

00:33:21,990 --> 00:33:20,240

interest to the air force oh we know air

694

00:33:25,830 --> 00:33:22,000

force's aerospace technical intelligence

695

00:33:33,830 --> 00:33:25,840

center right patterson field

696

00:33:37,509 --> 00:33:35,750

and you know the other thing that we can

697

00:33:39,430 --> 00:33:37,519

think of is

698

00:33:41,669 --> 00:33:39,440

this is 1960.

699

00:33:45,269 --> 00:33:41,679

we just looked at report in 1967 the air

700

00:33:47,830 --> 00:33:45,279

force working with him and white stork

701
00:33:49,909 --> 00:33:47,840
you know patel has been working with the

702
00:33:52,310 --> 00:33:49,919
air force since i think robert was right

703
00:33:59,029 --> 00:33:52,320
in like 1949

704
00:34:05,110 --> 00:34:01,110
so this was more so

705
00:34:07,029 --> 00:34:05,120
i'm just looking at this to make sure

706
00:34:08,950 --> 00:34:07,039
[Music]

707
00:34:13,589 --> 00:34:08,960
that we don't miss anything

708
00:34:18,950 --> 00:34:15,589
i don't think we got much else here to

709
00:34:21,430 --> 00:34:20,710
yeah so

710
00:34:23,050 --> 00:34:21,440
but

711
00:34:25,030 --> 00:34:23,060
i found that pretty good

712
00:34:37,190 --> 00:34:25,040
[Music]

713
00:34:39,829 --> 00:34:38,950

uh if they do or if it's hinted that

714

00:34:40,180 --> 00:34:39,839

they do

715

00:34:41,430 --> 00:34:40,190

um

716

00:34:44,629 --> 00:34:41,440

[Music]

717

00:34:46,310 --> 00:34:44,639

well either way i would

718

00:34:49,510 --> 00:34:46,320

i would buy that for sure

719

00:34:51,829 --> 00:34:49,520

anything extra or in the docs or meta

720

00:34:55,669 --> 00:34:51,839

materials yeah i didn't really think so

721

00:34:58,630 --> 00:34:57,670

you know the documents i'm showing i'm

722

00:35:01,270 --> 00:34:58,640

just

723

00:35:03,270 --> 00:35:01,280

more showing you that

724

00:35:04,150 --> 00:35:03,280

um

725

00:35:08,069 --> 00:35:04,160

you know

726

00:35:18,630 --> 00:35:11,510

they were definitely looking for it

727

00:35:22,150 --> 00:35:20,870

so

728

00:35:24,310 --> 00:35:22,160

yeah

729

00:35:29,030 --> 00:35:24,320

that's

730

00:35:35,910 --> 00:35:31,510

um

731

00:35:41,910 --> 00:35:37,349

show you i kind of ran through that

732

00:35:47,109 --> 00:35:44,950

there was one pretty good

733

00:35:50,069 --> 00:35:47,119

um

734

00:35:55,750 --> 00:35:50,079

there's one pretty good sighting that

735

00:36:00,150 --> 00:35:58,390

that if i can find it would be

736

00:36:02,870 --> 00:36:00,160

definitely worth

737

00:36:05,430 --> 00:36:02,880

taking a look at

738

00:36:08,310 --> 00:36:05,440

because it's unidentified

739

00:36:10,630 --> 00:36:08,320
and there was some pretty great

740

00:36:12,790 --> 00:36:10,640
back and forth

741

00:36:15,349 --> 00:36:12,800
going on

742

00:36:19,829 --> 00:36:15,359
um pretty masterful actually and it was

743

00:36:24,829 --> 00:36:21,829
and navy sightings are always

744

00:36:30,550 --> 00:36:24,839
interesting to me i don't know about

745

00:36:34,150 --> 00:36:32,150
so

746

00:36:36,470 --> 00:36:34,160
if i can find that

747

00:36:40,630 --> 00:36:36,480
we can look at that one

748

00:36:48,230 --> 00:36:43,829
and basically the air force got reamed

749

00:36:48,240 --> 00:36:53,750
but yeah here it is i found it

750

00:36:57,750 --> 00:36:55,670
um

751

00:36:59,190 --> 00:36:57,760

let me ask you does music make a

752

00:37:00,630 --> 00:36:59,200

difference to you or not because it's

753

00:37:02,470 --> 00:37:00,640

kind of a pain in the ass doing the

754

00:37:03,910 --> 00:37:02,480

music thing so if it's

755

00:37:06,310 --> 00:37:03,920

not

756

00:37:13,190 --> 00:37:06,320

making it much of a difference i could

757

00:37:19,030 --> 00:37:16,470

i could probably just keep it

758

00:37:20,870 --> 00:37:19,040

you know i have to make my own so keep

759

00:37:28,630 --> 00:37:20,880

that in mind

760

00:37:28,640 --> 00:37:32,230

you know

761

00:37:32,240 --> 00:37:36,150

okay

762

00:37:38,470 --> 00:37:37,190

um

763

00:37:40,950 --> 00:37:38,480

so

764

00:37:43,829 --> 00:37:40,960

this is pretty good

765

00:37:48,829 --> 00:37:43,839

this is pretty pretty pretty pretty good

766

00:37:55,190 --> 00:37:51,430

here i don't think that music helps much

767

00:38:04,710 --> 00:37:57,510

i can barely hear it is it that loud

768

00:38:04,720 --> 00:38:09,270

okay

769

00:38:13,750 --> 00:38:10,950

let me know if that's any better

770

00:38:19,109 --> 00:38:13,760

all right so

771

00:38:24,069 --> 00:38:21,589

june 27th

772

00:38:26,510 --> 00:38:24,079

um wait let me double check

773

00:38:29,510 --> 00:38:26,520

uh september 14th

774

00:38:32,710 --> 00:38:29,520

correspondence so this is a heineken

775

00:38:34,390 --> 00:38:32,720

letter to the person

776

00:38:36,790 --> 00:38:34,400

which is kind of interesting because

777

00:38:40,950 --> 00:38:36,800

there's a part in here

778

00:38:47,030 --> 00:38:43,750

he actually talks about how

779

00:38:48,710 --> 00:38:47,040

he believes that dr heineck believes

780

00:38:56,150 --> 00:38:48,720

that

781

00:39:00,630 --> 00:38:57,829

as far as you know some of these things

782

00:39:00,640 --> 00:39:04,390

other than that it's kind of a

783

00:39:12,950 --> 00:39:06,790

actually kind of a mean letter that he

784

00:39:16,950 --> 00:39:15,109

um so actually let me see if i can just

785

00:39:21,589 --> 00:39:16,960

find

786

00:39:21,599 --> 00:39:27,109

spaceships

787

00:39:32,790 --> 00:39:30,710

yeah so this is from heineck he goes

788

00:39:39,589 --> 00:39:32,800

you can see that where it's uh labeled

789

00:39:44,230 --> 00:39:42,310

so i have while i just uh so major

790

00:39:45,910 --> 00:39:44,240

quintilla doesn't happen to think that

791

00:39:47,510 --> 00:39:45,920

there is any mystery behind the ufo

792

00:39:49,030 --> 00:39:47,520

phenomenon while i

793

00:39:51,109 --> 00:39:49,040

think that there is probably something

794

00:39:52,230 --> 00:39:51,119

of scientific interest even just

795

00:40:00,470 --> 00:39:52,240

possibly

796

00:40:07,990 --> 00:40:03,030

kim levin

797

00:40:11,349 --> 00:40:08,790

so

798

00:40:14,069 --> 00:40:11,359

a contractor for blue book is telling

799

00:40:20,790 --> 00:40:14,079

someone that he thinks quite possibly

800

00:40:24,550 --> 00:40:22,470

he didn't say that after he left blue

801
00:40:28,150 --> 00:40:24,560
book

802
00:40:33,190 --> 00:40:30,870
he was currently contracted with project

803
00:40:34,790 --> 00:40:33,200
blue book

804
00:40:37,349 --> 00:40:34,800
and he said he thought

805
00:40:38,630 --> 00:40:37,359
that some of these ufos could quite

806
00:40:48,150 --> 00:40:38,640
possibly be

807
00:40:48,160 --> 00:40:51,670
i think that's a pretty big deal

808
00:40:55,349 --> 00:40:53,270
i mean

809
00:40:56,710 --> 00:40:55,359
just think of it today if somebody for

810
00:40:59,109 --> 00:40:56,720
the o

811
00:41:04,550 --> 00:40:59,119
aoi msg

812
00:41:09,829 --> 00:41:07,910
you know wrote a letter to somebody and

813
00:41:11,670 --> 00:41:09,839

said that they think quite possibly it

814

00:41:13,990 --> 00:41:11,680

could be spaceships

815

00:41:22,630 --> 00:41:14,000

and you knew about it you'd be freaking

816

00:41:25,430 --> 00:41:23,910

but

817

00:41:31,990 --> 00:41:25,440

you know this is

818

00:41:32,000 --> 00:41:36,630

so this letter is pretty interesting

819

00:41:44,870 --> 00:41:40,630

um and i'm just gonna read it because

820

00:41:53,190 --> 00:41:46,630

just the way he like talks about it and

821

00:41:58,309 --> 00:41:55,750

your question seems to presuppose the

822

00:41:59,750 --> 00:41:58,319

sighting of a common object neglecting

823

00:42:02,390 --> 00:41:59,760

the fact

824

00:42:04,710 --> 00:42:02,400

of the ufo having indeed become a very

825

00:42:06,630 --> 00:42:04,720

common object i would say that if the

826

00:42:08,950 --> 00:42:06,640

phenomenon had appeared to be anything

827

00:42:10,790 --> 00:42:08,960

less than common than a ufo i wouldn't

828

00:42:12,630 --> 00:42:10,800

be spending time on this report i would

829

00:42:15,109 --> 00:42:12,640

be instead putting up shelves out in the

830

00:42:20,069 --> 00:42:16,630

the united states air force pretended

831

00:42:22,390 --> 00:42:20,079

skeptic skepticism is infuriating

832

00:42:24,390 --> 00:42:22,400

the supreme irony of this that even

833

00:42:27,430 --> 00:42:24,400

today after a generation of sharply

834

00:42:30,390 --> 00:42:27,440

increased ufo activity countless capable

835

00:42:32,390 --> 00:42:30,400

fertile ingenuous and productive minds

836

00:42:33,990 --> 00:42:32,400

are wastefully diverted from any

837

00:42:36,710 --> 00:42:34,000

attention to

838

00:42:38,470 --> 00:42:36,720

ufo phenomenon through naive faith that

839

00:42:39,510 --> 00:42:38,480

our military will be the first to

840

00:42:44,790 --> 00:42:39,520

declare

841

00:42:46,150 --> 00:42:44,800

ufo possibility if it were indeed a fact

842

00:42:48,710 --> 00:42:46,160

it should not be thought that this

843

00:42:50,470 --> 00:42:48,720

naivety is an efficient automatic

844

00:42:53,349 --> 00:42:50,480

weeding out process

845

00:42:56,630 --> 00:42:53,359

and if this is your assumption then it

846

00:43:00,150 --> 00:42:56,640

can be an error of

847

00:43:03,030 --> 00:43:00,160

enormously grave consequences

848

00:43:05,349 --> 00:43:03,040

political or social or worldly naivety

849

00:43:07,829 --> 00:43:05,359

cannot be correlated properly with

850

00:43:10,390 --> 00:43:07,839

special scientific talents

851

00:43:12,950 --> 00:43:10,400

it is an incontestable fact that those

852

00:43:15,510 --> 00:43:12,960

major developments in science which were

853

00:43:18,069 --> 00:43:15,520

not arrived at by evolutionary or brute

854

00:43:20,950 --> 00:43:18,079

force or accidental means were born

855

00:43:22,950 --> 00:43:20,960

through momentary inspiration

856

00:43:26,550 --> 00:43:22,960

and that a necessary condition for the

857

00:43:28,470 --> 00:43:26,560

inspiration was obviously freedom from

858

00:43:33,510 --> 00:43:28,480

conviction beforehand that a solution

859

00:43:37,829 --> 00:43:35,589

your apparent notion that you already

860

00:43:41,030 --> 00:43:37,839

have the best heads in the country

861

00:43:43,109 --> 00:43:41,040

working on this i'll be it for 20

862

00:43:44,870 --> 00:43:43,119

uninspired years

863

00:43:47,670 --> 00:43:44,880

and that you can well do without any

864

00:43:50,630 --> 00:43:47,680

suggestions from those

865

00:43:53,030 --> 00:43:50,640

dunderhead nuances who would otherwise

866

00:43:55,430 --> 00:43:53,040

plague you but for their being weeded

867

00:43:58,390 --> 00:43:55,440

out through this idiotic process is as

868

00:44:01,109 --> 00:43:58,400

fine example as can be found of tossing

869

00:44:04,150 --> 00:44:01,119

the baby out with the bath water

870

00:44:06,390 --> 00:44:04,160

i call this your apparent notion

871

00:44:08,710 --> 00:44:06,400

though certainly you have never given

872

00:44:10,870 --> 00:44:08,720

any hint publicly

873

00:44:13,430 --> 00:44:10,880

that it is so

874

00:44:15,990 --> 00:44:13,440

but perhaps through having a need or

875

00:44:18,550 --> 00:44:16,000

preference or desire to believe that we

876

00:44:20,550 --> 00:44:18,560

are not all held in control

877

00:44:22,790 --> 00:44:20,560

by brass children

878

00:44:25,670 --> 00:44:22,800

i choose the notion i hold on at the

879

00:44:30,150 --> 00:44:25,680

basis of its being the least idiotic of

880

00:44:33,910 --> 00:44:31,829

as an article of faith in the united

881

00:44:35,030 --> 00:44:33,920

states air force this is a peculiar

882

00:44:41,030 --> 00:44:35,040

compliment

883

00:44:43,430 --> 00:44:41,040

disbelieving your publicized opinions

884

00:44:44,950 --> 00:44:43,440

i do in a sense believe you know what

885

00:44:46,790 --> 00:44:44,960

you're doing but

886

00:44:49,750 --> 00:44:46,800

charge you with the indefensible

887

00:44:51,990 --> 00:44:49,760

arrogance of presuming that your clique

888

00:44:54,150 --> 00:44:52,000

of workmen who have been laboring now

889

00:44:56,630 --> 00:44:54,160

for 20 long years have been chosen by

890

00:44:59,109 --> 00:44:56,640

yourselves and therefore must be the

891

00:45:01,190 --> 00:44:59,119

best possible choice

892

00:45:02,390 --> 00:45:01,200

allowing for an avalanche of invalid

893

00:45:05,349 --> 00:45:02,400

ideas

894

00:45:07,270 --> 00:45:05,359

and some 30 million a year to consider

895

00:45:09,589 --> 00:45:07,280

and reject them

896

00:45:11,510 --> 00:45:09,599

but in view of the enormous implications

897

00:45:13,430 --> 00:45:11,520

of the solved problems and the

898

00:45:16,309 --> 00:45:13,440

tremendously increased possibility of

899

00:45:20,470 --> 00:45:16,319

their being solved by some of our many

900

00:45:22,870 --> 00:45:20,480

millions who may not be in your present

901
00:45:25,589 --> 00:45:22,880
codery

902
00:45:27,030 --> 00:45:25,599
reason does not permit your exclusion of

903
00:45:29,030 --> 00:45:27,040
those people through your maintaining

904
00:45:32,230 --> 00:45:29,040
their faith in

905
00:45:38,710 --> 00:45:32,240
that no problems of a ufo nature

906
00:45:38,720 --> 00:45:43,829
i don't know

907
00:45:43,839 --> 00:45:48,950
i thought that was pretty good

908
00:45:48,960 --> 00:45:54,150
i thought that was pretty pretty good

909
00:45:54,160 --> 00:46:05,589
so

910
00:46:10,790 --> 00:46:07,589
what was he talking about he was talking

911
00:46:16,150 --> 00:46:12,950
basically a couple navy guys

912
00:46:17,109 --> 00:46:16,160
who were out on a boat

913
00:46:18,390 --> 00:46:17,119

a boat

914

00:46:21,510 --> 00:46:18,400

a ship

915

00:46:31,510 --> 00:46:24,550

ss mount vernon victory is what it's

916

00:46:40,550 --> 00:46:32,710

they came out and they saw a pretty

917

00:46:44,870 --> 00:46:41,990

and the guy was smart he was a radio

918

00:46:48,950 --> 00:46:44,880

engineer and he went into

919

00:46:51,670 --> 00:46:50,790

um but the details are always the same

920

00:46:53,829 --> 00:46:51,680

right

921

00:46:56,470 --> 00:46:53,839

they're always phenomenal

922

00:46:58,470 --> 00:46:56,480

they always get passed to somebody

923

00:47:03,030 --> 00:46:58,480

and then that person always kind of

924

00:47:07,589 --> 00:47:04,950

you know

925

00:47:10,150 --> 00:47:07,599

um tomorrow's show is not going to

926

00:47:13,270 --> 00:47:10,160

happen that person canceled uh they want

927

00:47:17,430 --> 00:47:13,280

to reschedule but i'm not really sure if

928

00:47:21,430 --> 00:47:20,309

we'll find out it has to do with a movie

929

00:47:25,910 --> 00:47:21,440

called

930

00:47:29,589 --> 00:47:27,990

so

931

00:47:30,790 --> 00:47:29,599

i don't know but uh thursday's

932

00:47:33,190 --> 00:47:30,800

interesting we have someone called

933

00:47:35,910 --> 00:47:33,200

robert knight who took photographs of

934

00:47:38,549 --> 00:47:35,920

some of the biggest rock and roll stars

935

00:47:42,549 --> 00:47:38,559

you can imagine tom petty led zeppelin

936

00:47:46,790 --> 00:47:43,910

and

937

00:47:48,390 --> 00:47:46,800

he's had some experiences

938

00:47:50,790 --> 00:47:48,400

that we're gonna talk about

939

00:47:53,270 --> 00:47:50,800

so i'm looking forward to that one

940

00:47:56,390 --> 00:47:53,280

for sure

941

00:47:59,109 --> 00:47:56,400

but um yeah kind of slow in the ufo

942

00:48:01,829 --> 00:47:59,119

world at this point

943

00:48:04,710 --> 00:48:01,839

uh not much happening

944

00:48:08,069 --> 00:48:04,720

uh but you know that can change at any

945

00:48:12,630 --> 00:48:11,030

they can change at any point for sure

946

00:48:16,309 --> 00:48:12,640

um

947

00:48:24,549 --> 00:48:18,390

work on getting in tune with your

948

00:48:30,230 --> 00:48:27,349

maybe that would be a good idea

949

00:48:32,630 --> 00:48:30,240

for myself especially

950

00:48:34,549 --> 00:48:32,640

so i hope you like the a little

951
00:48:38,870 --> 00:48:34,559
information on project white stork i

952
00:48:41,910 --> 00:48:39,829
um

953
00:48:43,829 --> 00:48:41,920
definitely

954
00:48:47,270 --> 00:48:43,839
and yeah i don't know what i'm going to

955
00:48:51,510 --> 00:48:49,270
i'm really not sure

956
00:48:53,750 --> 00:48:51,520
uh but i'll have to think about it i

957
00:48:56,309 --> 00:48:53,760
have to think think think think what i

958
00:48:59,270 --> 00:48:56,319
want to get into next

959
00:49:05,510 --> 00:49:02,870
that being said uh i'm gonna peace out

960
00:49:09,349 --> 00:49:05,520
for the day

961
00:49:09,359 --> 00:49:13,120
check you

962
00:49:19,430 --> 00:49:14,829
[Music]

963
00:49:21,510 --> 00:49:19,440

later i appreciate you guys being here

964

00:49:22,870 --> 00:49:21,520

and i'll see you

965

00:49:25,430 --> 00:49:22,880

freaking

966

00:49:26,470 --> 00:49:25,440

this is kind of an old outro but i like

967

00:49:34,610 --> 00:49:26,480

it
