

 **Lue Elizondo**  @LueElizondo · 12h

3. Please know I am not retired from this and working harder than ever behind the scenes. The fruits of which will become apparent in the near term. My track record hopefully speaks for itself. Hope you have a great and pleasant week...

6 19 135 2,226

1
00:00:49,150 --> 00:00:01,020
foreign

2
00:00:55,970 --> 00:00:52,010
thanks for joining me everybody for this

3
00:00:59,810 --> 00:00:55,980
edition of UAP news there's a lot going

4
00:01:02,810 --> 00:00:59,820
on between the Mojave triangle or flares

5
00:01:06,429 --> 00:01:02,820
or object or whatever it is the NASA

6
00:01:10,250 --> 00:01:06,439
public UAP meeting that lasted for hours

7
00:01:12,050 --> 00:01:10,260
and we also have kind of little things

8
00:01:13,969 --> 00:01:12,060
happening too in the background that I

9
00:01:16,670 --> 00:01:13,979
think are important that I'll highlight

10
00:01:19,789 --> 00:01:16,680
as well as far as the Mojave triangle

11
00:01:20,749 --> 00:01:19,799
goes and Jeremy Corbell in that case I

12
00:01:21,469 --> 00:01:20,759
think

13
00:01:24,109 --> 00:01:21,479

um

14

00:01:26,630 --> 00:01:24,119

you know there's a lot I could say but

15

00:01:28,130 --> 00:01:26,640

not a lot of it I guess would be overly

16

00:01:30,170 --> 00:01:28,140

positive

17

00:01:32,690 --> 00:01:30,180

um we've heard from Witnesses we don't

18

00:01:34,910 --> 00:01:32,700

have any names from those Witnesses they

19

00:01:36,710 --> 00:01:34,920

all say it was a craft but there's a

20

00:01:38,330 --> 00:01:36,720

whole lot of other people that saw this

21

00:01:41,149 --> 00:01:38,340

thing that we haven't heard from are

22

00:01:42,590 --> 00:01:41,159

there any people that saw the lights and

23

00:01:44,929 --> 00:01:42,600

really didn't think it was a big deal

24

00:01:47,090 --> 00:01:44,939

when we've only heard from maybe 10 or

25

00:01:49,190 --> 00:01:47,100

less of the witnesses I don't think we

26
00:01:51,590 --> 00:01:49,200
can really judge anything based off for

27
00:01:54,050 --> 00:01:51,600
that and still Mick West made with the

28
00:01:56,210 --> 00:01:54,060
flares from Jeremy corbell's video

29
00:01:58,130 --> 00:01:56,220
is a perfect match and so far the best

30
00:02:00,710 --> 00:01:58,140
evidence we have as far as determining

31
00:02:03,350 --> 00:02:00,720
what the objects are I believe the NASA

32
00:02:06,170 --> 00:02:03,360
UAP public meeting followed along the

33
00:02:08,570 --> 00:02:06,180
same vein as the Aero public hearings to

34
00:02:10,729 --> 00:02:08,580
be quite honest with you now there were

35
00:02:13,130 --> 00:02:10,739
a couple people that stood out to me in

36
00:02:15,350 --> 00:02:13,140
that group that seemed more interested

37
00:02:18,110 --> 00:02:15,360
and took the topic a little bit more

38
00:02:20,330 --> 00:02:18,120

serious you know than others did like

39

00:02:22,010 --> 00:02:20,340

Scott Kelly it was actually the

40

00:02:25,729 --> 00:02:22,020

International Space Station was

41

00:02:27,650 --> 00:02:25,739

convinced we flew by a UFO it was Bart

42

00:02:29,630 --> 00:02:27,660

Simpson I don't think it's helpful to

43

00:02:31,369 --> 00:02:29,640

have people like that on the board since

44

00:02:34,430 --> 00:02:31,379

one of the big takeaways from the

45

00:02:36,650 --> 00:02:34,440

meeting was how stigma still exists

46

00:02:39,229 --> 00:02:36,660

strongly how people that were

47

00:02:41,509 --> 00:02:39,239

participating in this NASA panel were

48

00:02:44,150 --> 00:02:41,519

being harassed because of it seemingly

49

00:02:46,369 --> 00:02:44,160

from people like their colleagues and

50

00:02:48,050 --> 00:02:46,379

probably the public chunker Patrick said

51
00:02:49,910 --> 00:02:48,060
he was harassed quite a bit after the

52
00:02:52,250 --> 00:02:49,920
last hearing the one thing I can say

53
00:02:54,589 --> 00:02:52,260
about this is and whoever is listening

54
00:02:55,850 --> 00:02:54,599
if if you've done that I doubt it but

55
00:02:57,890 --> 00:02:55,860
we're not going to get anywhere with

56
00:02:59,330 --> 00:02:57,900
this if we just harass people that look

57
00:03:01,369 --> 00:02:59,340
into the topic

58
00:03:02,990 --> 00:03:01,379
now the topic is very used to that

59
00:03:05,210 --> 00:03:03,000
happening

60
00:03:07,190 --> 00:03:05,220
and so right now is a huge turning point

61
00:03:10,570 --> 00:03:07,200
where we can either push through that

62
00:03:13,250 --> 00:03:10,580
stigma and come out on the other side

63
00:03:14,570 --> 00:03:13,260

or allow the topic to continue to be

64

00:03:16,790 --> 00:03:14,580

stigmatized

65

00:03:20,509 --> 00:03:16,800

some of the smartest people

66

00:03:25,009 --> 00:03:23,330

vocally saying it's a problem and that

67

00:03:26,869 --> 00:03:25,019

we need to fight against it and I think

68

00:03:29,149 --> 00:03:26,879

that's great spheres seen all over the

69

00:03:31,430 --> 00:03:29,159

world via Shanker Patrick what are these

70

00:03:34,009 --> 00:03:31,440

fears what do we know about them is it

71

00:03:36,170 --> 00:03:34,019

an inkblot type of sphere where it looks

72

00:03:38,809 --> 00:03:36,180

like a sphere but it's so far away could

73

00:03:41,210 --> 00:03:38,819

be anything from a balloon to a plane

74

00:03:44,750 --> 00:03:41,220

to a real sphere I'd like more

75

00:03:47,390 --> 00:03:44,760

information on specific sphere cases as

76
00:03:49,250 --> 00:03:47,400
once again the Robertson panel redeemed

77
00:03:51,830 --> 00:03:49,260
itself and came back from the dead

78
00:03:55,270 --> 00:03:51,840
showed up at the NASA meeting and tried

79
00:03:57,830 --> 00:03:55,280
to show a mystery via airplanes and then

80
00:04:02,149 --> 00:03:57,840
unveiled the mystery as quite mundane

81
00:04:04,550 --> 00:04:02,159
this is a newly released uh video and

82
00:04:07,490 --> 00:04:04,560
was unable to intercept them is because

83
00:04:09,949 --> 00:04:07,500
after further analysis it was shown that

84
00:04:12,530 --> 00:04:09,959
those objects were actually much farther

85
00:04:14,270 --> 00:04:12,540
away from the P3 than they thought which

86
00:04:16,670 --> 00:04:14,280
is you know something right out of the

87
00:04:19,550 --> 00:04:16,680
Robertson panel book

88
00:04:21,650 --> 00:04:19,560

literally and then someone debunked the

89

00:04:24,290 --> 00:04:21,660

go fast video or said it wasn't go

90

00:04:25,670 --> 00:04:24,300

faster it was go slow basically and you

91

00:04:27,650 --> 00:04:25,680

know what

92

00:04:30,230 --> 00:04:27,660

I don't have that much interest in those

93

00:04:32,629 --> 00:04:30,240

Navy videos as as other people do like

94

00:04:34,790 --> 00:04:32,639

maybe it is slow maybe other people

95

00:04:36,590 --> 00:04:34,800

thought it was fast but it is slow maybe

96

00:04:38,330 --> 00:04:36,600

there's confusion there

97

00:04:40,730 --> 00:04:38,340

apparently there's a longer video where

98

00:04:42,409 --> 00:04:40,740

it makes a 90 degree turn Chris melon

99

00:04:44,689 --> 00:04:42,419

said there was a longer video of it is

100

00:04:46,790 --> 00:04:44,699

that the case or is that just also one

101
00:04:47,700 --> 00:04:46,800
of those uh what a coincidence type of

102
00:04:49,969 --> 00:04:47,710
situations

103
00:04:52,070 --> 00:04:49,979
[Music]

104
00:04:54,350 --> 00:04:52,080
hopefully time will tell but again

105
00:04:56,570 --> 00:04:54,360
regardless we're here NASA at historic

106
00:04:58,430 --> 00:04:56,580
public UAP meeting these people don't

107
00:05:02,629 --> 00:04:58,440
know what's going on they're working

108
00:05:04,189 --> 00:05:02,639
with different data or not all the data

109
00:05:06,770 --> 00:05:04,199
you know if we're to listen to other

110
00:05:08,510 --> 00:05:06,780
people well NASA says they're working

111
00:05:10,310 --> 00:05:08,520
with you know unclassified stuff

112
00:05:11,749 --> 00:05:10,320
whatever Shanker Patrick works with some

113
00:05:13,730 --> 00:05:11,759

classified stuff but apparently not

114

00:05:15,590 --> 00:05:13,740

enough

115

00:05:18,050 --> 00:05:15,600

it's clear that they want to just forget

116

00:05:20,090 --> 00:05:18,060

the history everyone wants to just

117

00:05:21,230 --> 00:05:20,100

forget the history is it damn shame just

118

00:05:24,710 --> 00:05:21,240

erasing

119

00:05:26,450 --> 00:05:24,720

the entire history of this subject and

120

00:05:28,070 --> 00:05:26,460

just focusing on them now they say

121

00:05:30,770 --> 00:05:28,080

there's no evidence of anything that's

122

00:05:33,230 --> 00:05:30,780

you know not human so why would they go

123

00:05:34,610 --> 00:05:33,240

look at past cases if that's what they

124

00:05:35,990 --> 00:05:34,620

think they're not going to concern

125

00:05:37,550 --> 00:05:36,000

themselves with that because they don't

126

00:05:39,529 --> 00:05:37,560

really believe it so our next story

127

00:05:41,390 --> 00:05:39,539

actually has to do with Ryan Graves the

128

00:05:44,090 --> 00:05:41,400

pilot that's actually been very public

129

00:05:46,490 --> 00:05:44,100

about uh uaps and has done plenty of

130

00:05:48,710 --> 00:05:46,500

interviews and so on and so forth him

131

00:05:51,830 --> 00:05:48,720

and other pilots and other people

132

00:05:55,010 --> 00:05:51,840

actually started a Aviation safety group

133

00:05:58,129 --> 00:05:55,020

I guess their plan is to push for

134

00:06:01,430 --> 00:05:58,139

Aviation safety in relation to uaps NBC

135

00:06:04,430 --> 00:06:01,440

news as the U.S government expands UFO

136

00:06:07,070 --> 00:06:04,440

investigations new group forms for

137

00:06:09,050 --> 00:06:07,080

pilots who spot them the first active

138

00:06:10,909 --> 00:06:09,060

duty military pilot to come forward to

139

00:06:12,950 --> 00:06:10,919

Congress about his experience with

140

00:06:14,510 --> 00:06:12,960

so-called unexplained aerial phenomenon

141

00:06:16,850 --> 00:06:14,520

is starting in first of its kind

142

00:06:18,710 --> 00:06:16,860

non-profit group to support other pilots

143

00:06:20,870 --> 00:06:18,720

who see things that can't explain he

144

00:06:23,150 --> 00:06:20,880

said airline passengers are encouraged

145

00:06:25,129 --> 00:06:23,160

to report suspicious activity in the

146

00:06:27,170 --> 00:06:25,139

name of National Security but the pilots

147

00:06:29,150 --> 00:06:27,180

on those same planes often face

148

00:06:30,710 --> 00:06:29,160

professional stigma and institutional

149

00:06:34,189 --> 00:06:30,720

obstacles and Reporting unexplained

150

00:06:36,230 --> 00:06:34,199

aerial phenomena or uaps that could

151
00:06:38,090 --> 00:06:36,240
represent National Security threats in

152
00:06:40,670 --> 00:06:38,100
the age of drones and spy balloons

153
00:06:43,129 --> 00:06:40,680
Advocates say for instance the Federal

154
00:06:45,890 --> 00:06:43,139
Aviation Administration has no mechanism

155
00:06:49,070 --> 00:06:45,900
for Pilots to report uaps the term

156
00:06:52,249 --> 00:06:49,080
preferred to UFOs instead directing them

157
00:06:54,890 --> 00:06:52,259
to civilian UFO groups that are often

158
00:06:57,409 --> 00:06:54,900
dismissed as the domain of cranks and

159
00:07:00,230 --> 00:06:57,419
conspiracy theorists Americans for safe

160
00:07:01,430 --> 00:07:00,240
Aerospace which is officially launching

161
00:07:03,650 --> 00:07:01,440
Thursday

162
00:07:07,070 --> 00:07:03,660
as the first pilot LED advocacy

163
00:07:09,770 --> 00:07:07,080

organization dedicated to uaps seeks to

164

00:07:12,409 --> 00:07:09,780

change that co-founded and run by former

165

00:07:15,050 --> 00:07:12,419

Navy fighter pilot Ryan Graves the group

166

00:07:18,050 --> 00:07:15,060

which provided exclusive details to NBC

167

00:07:20,510 --> 00:07:18,060

News aims to better support aviators

168

00:07:22,909 --> 00:07:20,520

who witness unexplained events the group

169

00:07:25,249 --> 00:07:22,919

wants to push for policy changes like

170

00:07:27,170 --> 00:07:25,259

better reporting mechanisms serve as a

171

00:07:29,450 --> 00:07:27,180

hub for pilot whistleblowers and

172

00:07:31,089 --> 00:07:29,460

advocate for more Disclosure by military

173

00:07:33,350 --> 00:07:31,099

and other government agencies

174

00:07:35,210 --> 00:07:33,360

unidentified objects in our airspace

175

00:07:37,309 --> 00:07:35,220

present an urgent and critical safety

176

00:07:38,870 --> 00:07:37,319

and national security issue but Pilots

177

00:07:41,450 --> 00:07:38,880

are not getting the support they need

178

00:07:43,730 --> 00:07:41,460

and the respect they deserve Graves said

179

00:07:46,730 --> 00:07:43,740

when I serve my Squadron was

180

00:07:49,610 --> 00:07:46,740

encountering UAP nearly every day and

181

00:07:51,350 --> 00:07:49,620

nothing was being done you can read the

182

00:07:53,510 --> 00:07:51,360

rest of that story by clicking on the

183

00:07:56,150 --> 00:07:53,520

link in the description of this video

184

00:07:58,370 --> 00:07:56,160

now this is a very interesting idea of

185

00:08:00,830 --> 00:07:58,380

putting together a group specifically

186

00:08:03,050 --> 00:08:00,840

for Pilots to come forward with their

187

00:08:05,629 --> 00:08:03,060

experiences and share what they had

188

00:08:07,430 --> 00:08:05,639

encountered stuff like this has existed

189

00:08:10,370 --> 00:08:07,440

before you know and maybe not pilot

190

00:08:13,969 --> 00:08:10,380

specific but there's been a nightcap and

191

00:08:16,249 --> 00:08:13,979

National UFO Reporting Center in kufos

192

00:08:19,070 --> 00:08:16,259

with Alan heineck all sorts of different

193

00:08:20,809 --> 00:08:19,080

civilian uh organizations but the

194

00:08:23,330 --> 00:08:20,819

difference with this one is it's

195

00:08:25,730 --> 00:08:23,340

pilot-led and pilot specific so they're

196

00:08:28,010 --> 00:08:25,740

specifically reaching out for people in

197

00:08:30,529 --> 00:08:28,020

the air who have had these different

198

00:08:32,510 --> 00:08:30,539

experiences and rumor has it there's

199

00:08:35,630 --> 00:08:32,520

already a couple Pilots

200

00:08:37,610 --> 00:08:35,640

I'm coming forward with some cases that

201
00:08:39,769 --> 00:08:37,620
include multiple Witnesses so hopefully

202
00:08:41,810 --> 00:08:39,779
that happens I think it's a fantastic

203
00:08:43,370 --> 00:08:41,820
idea actually

204
00:08:46,550 --> 00:08:43,380
um if you want Pilots comfortable coming

205
00:08:48,889 --> 00:08:46,560
forward why not put a respectable highly

206
00:08:50,930 --> 00:08:48,899
accomplished Aviator in front of them to

207
00:08:53,150 --> 00:08:50,940
talk to about it who's also experienced

208
00:08:54,590 --> 00:08:53,160
strange stuff and completely understands

209
00:08:56,930 --> 00:08:54,600
I think it's beautiful I think it's

210
00:08:59,269 --> 00:08:56,940
perfect and I think that's a great idea

211
00:09:02,090 --> 00:08:59,279
because the more this group is actually

212
00:09:03,110 --> 00:09:02,100
utilized the more pressure will be on

213
00:09:05,090 --> 00:09:03,120

the government to actually be

214

00:09:07,610 --> 00:09:05,100

transparent with everything that's going

215

00:09:10,389 --> 00:09:07,620

on you know because they'll be fighting

216

00:09:13,850 --> 00:09:10,399

against Pilots coming out and speaking

217

00:09:16,250 --> 00:09:13,860

all the time because it does happen

218

00:09:18,110 --> 00:09:16,260

a lot more than people think interesting

219

00:09:20,030 --> 00:09:18,120

things happen on Twitter sometimes and

220

00:09:22,190 --> 00:09:20,040

it's it's good to keep track for me

221

00:09:24,710 --> 00:09:22,200

personally at least of what happens on

222

00:09:27,050 --> 00:09:24,720

there not for the drama aspect of it but

223

00:09:29,210 --> 00:09:27,060

for news Twitter these days is actually

224

00:09:31,670 --> 00:09:29,220

the quickest place to get informed on

225

00:09:34,550 --> 00:09:31,680

world news and sometimes you just get

226

00:09:36,590 --> 00:09:34,560

weird things like this that include Lou

227

00:09:38,449 --> 00:09:36,600

Elizondo who hasn't done an interview in

228

00:09:41,210 --> 00:09:38,459

a very long time which is

229

00:09:43,310 --> 00:09:41,220

you know his decision obviously he did

230

00:09:46,670 --> 00:09:43,320

so many in the past that you can't blame

231

00:09:48,470 --> 00:09:46,680

the guy but an anonymous some person on

232

00:09:50,690 --> 00:09:48,480

Twitter who I don't know that's why I

233

00:09:52,550 --> 00:09:50,700

was going to say Anonymous but it maybe

234

00:09:56,329 --> 00:09:52,560

he is because he just has a name on here

235

00:09:58,370 --> 00:09:56,339

it says Dustin Lou Elizondo so NASA just

236

00:10:00,710 --> 00:09:58,380

came out and crapped all over your go

237

00:10:02,449 --> 00:10:00,720

fast video are you ever going to come

238

00:10:06,170 --> 00:10:02,459

out of retirement on this subject and

239

00:10:08,150 --> 00:10:06,180

shut these debunkers down WTF man your

240

00:10:10,610 --> 00:10:08,160

silence on this issue is deafening comes

241

00:10:13,490 --> 00:10:10,620

out and just responds to this one random

242

00:10:16,070 --> 00:10:13,500

person and says Dustin what you are

243

00:10:18,110 --> 00:10:16,080

seeing are the desperate last throws of

244

00:10:20,750 --> 00:10:18,120

bureaucracy before the real conversation

245

00:10:23,570 --> 00:10:20,760

begins we've come a long way in five

246

00:10:25,670 --> 00:10:23,580

years in the same breath NASA is

247

00:10:28,370 --> 00:10:25,680

supporting the creation of a permanent

248

00:10:30,410 --> 00:10:28,380

UAP effort it was finally admitted that

249

00:10:33,470 --> 00:10:30,420

orbs are being seen all over the world

250

00:10:35,829 --> 00:10:33,480

and maneuvering an uncharacteristic ways

251
00:10:38,329 --> 00:10:35,839
and that stigma is still a major problem

252
00:10:41,690 --> 00:10:38,339
also that NASA's staff are being

253
00:10:44,750 --> 00:10:41,700
harassed is reinforcing the stigma my

254
00:10:46,490 --> 00:10:44,760
perspective is this is historic I shared

255
00:10:47,990 --> 00:10:46,500
that perspective as well and that

256
00:10:50,090 --> 00:10:48,000
doesn't mean one thing or another it

257
00:10:52,009 --> 00:10:50,100
just means it's a historic he says

258
00:10:53,930 --> 00:10:52,019
please know that I am not retired from

259
00:10:56,030 --> 00:10:53,940
this and working harder than ever behind

260
00:10:58,130 --> 00:10:56,040
the scenes the fruits of which will

261
00:11:00,110 --> 00:10:58,140
become apparent in the near term

262
00:11:01,009 --> 00:11:00,120
my track record hopefully speaks for

263
00:11:03,290 --> 00:11:01,019

itself

264

00:11:05,150 --> 00:11:03,300

hope you have a great and pleasant week

265

00:11:08,509 --> 00:11:05,160

what a nice guy

266

00:11:10,190 --> 00:11:08,519

doesn't actually responded thanks for

267

00:11:11,990 --> 00:11:10,200

the response in your opinion is the

268

00:11:14,389 --> 00:11:12,000

confirmation of the metallic spheres a

269

00:11:17,329 --> 00:11:14,399

soft opening basically for what's really

270

00:11:19,130 --> 00:11:17,339

to come he says great question I think

271

00:11:21,170 --> 00:11:19,140

it's pretty evident NASA nor the US

272

00:11:23,449 --> 00:11:21,180

government knows what the hell is going

273

00:11:24,949 --> 00:11:23,459

on regarding these orbs chances are the

274

00:11:27,889 --> 00:11:24,959

same holds true for many other

275

00:11:30,590 --> 00:11:27,899

incursions and you know to me from the

276

00:11:33,470 --> 00:11:30,600

outside and watching like this NASA

277

00:11:34,850 --> 00:11:33,480

thing or or even the arrow thing it is

278

00:11:37,130 --> 00:11:34,860

clear that these people don't know what

279

00:11:40,670 --> 00:11:37,140

the hell is going on and there may be

280

00:11:43,970 --> 00:11:40,680

people that do that aren't talking that

281

00:11:46,910 --> 00:11:43,980

need to because we are wasting a mass

282

00:11:48,590 --> 00:11:46,920

amount of time and money going about

283

00:11:51,110 --> 00:11:48,600

this process

284

00:11:53,630 --> 00:11:51,120

while good valid information that could

285

00:11:54,590 --> 00:11:53,640

be rather enlightening is not being

286

00:11:56,870 --> 00:11:54,600

shared

287

00:11:58,610 --> 00:11:56,880

continuing on this fear tip you know me

288

00:12:00,350 --> 00:11:58,620

I like to go back in time and look at

289

00:12:02,810 --> 00:12:00,360

cases and see if there's anything that

290

00:12:05,329 --> 00:12:02,820

lines up with what we're hearing today

291

00:12:07,210 --> 00:12:05,339

and as we know metallic spheres around

292

00:12:10,430 --> 00:12:07,220

spheres whatever you want to call them

293

00:12:12,610 --> 00:12:10,440

make up a large quantity of the UAP

294

00:12:14,810 --> 00:12:12,620

sightings that are in arrows Holdings

295

00:12:16,970 --> 00:12:14,820

apparently they go from every anywhere

296

00:12:19,449 --> 00:12:16,980

from stationery to Mach 2. I went back

297

00:12:23,269 --> 00:12:19,459

in the records and tried to find

298

00:12:25,069 --> 00:12:23,279

a case Blue Book maybe at least one that

299

00:12:30,470 --> 00:12:25,079

sounded kind of similar here's what we

300

00:12:32,690 --> 00:12:30,480

got 29 September 1965 afsc right Pat the

301
00:12:35,569 --> 00:12:32,700
following UFO report was received from

302
00:12:38,870 --> 00:12:35,579
District intelligence office 11th Naval

303
00:12:40,910 --> 00:12:38,880
District San Diego California and is

304
00:12:44,449 --> 00:12:40,920
forwarded in accordance with paragraph

305
00:12:47,210 --> 00:12:44,459
13B AFR 200-2 is amended description of

306
00:12:49,190 --> 00:12:47,220
the object spherical basketball

307
00:12:51,889 --> 00:12:49,200
silver with bright orange glow

308
00:12:53,690 --> 00:12:51,899
particularly around edges absolute round

309
00:12:57,170 --> 00:12:53,700
and appeared to have the color of

310
00:12:59,690 --> 00:12:57,180
aluminum or dull steel left wispy trail

311
00:13:02,030 --> 00:12:59,700
of fire from the top and bottom of the

312
00:13:03,590 --> 00:13:02,040
sphere no sound it suddenly appeared in

313
00:13:06,050 --> 00:13:03,600

the sky moving from Northwest to

314

00:13:07,670 --> 00:13:06,060

Southwest was not too bright at first

315

00:13:11,030 --> 00:13:07,680

but immediately became very bright

316

00:13:12,470 --> 00:13:11,040

suddenly went dark and was gone and it

317

00:13:15,670 --> 00:13:12,480

was observed for at least 10 seconds

318

00:13:18,710 --> 00:13:15,680

date of sighting September 10th 1965

319

00:13:21,290 --> 00:13:18,720

exceptionally clear night full moon no

320

00:13:23,629 --> 00:13:21,300

clouds are restriction to visibility the

321

00:13:25,250 --> 00:13:23,639

witness is a aircraft maintenance

322

00:13:29,750 --> 00:13:25,260

officer

323

00:13:34,090 --> 00:13:29,760

U.S Navy Los Alamitos California 23

324

00:13:37,490 --> 00:13:34,100

years Aviation experience qualified

325

00:13:38,629 --> 00:13:37,500

reciprocating and jet engine pilot 2500

326
00:13:41,810 --> 00:13:38,639
hours

327
00:13:43,550 --> 00:13:41,820
flying time so quite experienced so the

328
00:13:47,090 --> 00:13:43,560
person that wrote this report their name

329
00:13:48,710 --> 00:13:47,100
was Lieutenant Colonel Bertram Cowan

330
00:13:52,069 --> 00:13:48,720
lieutenant colonel in the United States

331
00:13:54,590 --> 00:13:52,079
Air Force Chief exploitation branch

332
00:13:56,090 --> 00:13:54,600
director of intelligence you know the

333
00:13:58,490 --> 00:13:56,100
interesting thing sometimes about these

334
00:14:00,530 --> 00:13:58,500
Blue Book files is you have all sorts of

335
00:14:03,290 --> 00:14:00,540
different people like chiming in sending

336
00:14:05,389 --> 00:14:03,300
reports forwarding memos whatever and

337
00:14:07,790 --> 00:14:05,399
this exploitation branch is not one you

338
00:14:09,829 --> 00:14:07,800

see all the time he said I'm told that a

339

00:14:12,590 --> 00:14:09,839

rocket was launched at Vandenberg Air

340

00:14:15,769 --> 00:14:12,600

Force Base that night I'm positive that

341

00:14:17,810 --> 00:14:15,779

this sighting was not of a rocket or any

342

00:14:20,569 --> 00:14:17,820

component thereof nor was it a

343

00:14:24,170 --> 00:14:20,579

conventional aircraft or balloon it was

344

00:14:26,269 --> 00:14:24,180

a large metal sphere that was clear and

345

00:14:29,569 --> 00:14:26,279

distinct that appeared to be glowing

346

00:14:30,769 --> 00:14:29,579

from high speed in the atmosphere in the

347

00:14:32,150 --> 00:14:30,779

end he said there was a small

348

00:14:34,370 --> 00:14:32,160

possibility it could have been a weather

349

00:14:36,410 --> 00:14:34,380

balloon as they're located next to EI

350

00:14:38,629 --> 00:14:36,420

Toro which is a Marine base in

351
00:14:41,389 --> 00:14:38,639
California but obviously the description

352
00:14:44,449 --> 00:14:41,399
given and Bertram really didn't think

353
00:14:48,350 --> 00:14:44,459
that was the case and it neither do I

354
00:14:50,930 --> 00:14:48,360
it's an old case I found this I believe

355
00:14:53,389 --> 00:14:50,940
this is a aerial phenomenon research

356
00:14:54,829 --> 00:14:53,399
organization publication but I can't be

357
00:14:57,230 --> 00:14:54,839
positive but I found it in a blue book

358
00:14:58,930 --> 00:14:57,240
file following sphere is found in in

359
00:15:01,610 --> 00:14:58,940
early April

360
00:15:04,850 --> 00:15:01,620
1963 newspapers were printing the news

361
00:15:07,129 --> 00:15:04,860
of a mysterious metal sphere found by Mr

362
00:15:08,509 --> 00:15:07,139
Jay McClure on station property near

363
00:15:11,150 --> 00:15:08,519

broken Hill

364

00:15:13,009 --> 00:15:11,160

New South Wales and Australia on the 8th

365

00:15:15,829 --> 00:15:13,019

of April it was shipped to Broken Hill

366

00:15:18,829 --> 00:15:15,839

for examination by scientists there it

367

00:15:21,590 --> 00:15:18,839

could not be cut or broken into by the

368

00:15:23,389 --> 00:15:21,600

use of a filer hacksaw metallurgist at

369

00:15:25,430 --> 00:15:23,399

the zinc Corporation said it had been

370

00:15:28,430 --> 00:15:25,440

subjected to Great Heat

371

00:15:31,370 --> 00:15:28,440

14 inches in diameter weighed 12 pounds

372

00:15:32,810 --> 00:15:31,380

and was spherical and Hollow McClure who

373

00:15:34,250 --> 00:15:32,820

found the object said that no one had

374

00:15:36,470 --> 00:15:34,260

been in the area of the sheep station

375

00:15:37,430 --> 00:15:36,480

where the object was found for about 50

376

00:15:39,230 --> 00:15:37,440

years

377

00:15:41,389 --> 00:15:39,240

after the initial news release from

378

00:15:43,129 --> 00:15:41,399

broken Hill which contained the

379

00:15:44,569 --> 00:15:43,139

foregoing information the object was

380

00:15:46,250 --> 00:15:44,579

shipped to the weapons research

381

00:15:48,889 --> 00:15:46,260

establishment in Salisbury for

382

00:15:50,750 --> 00:15:48,899

examination Mr R Pitman Hooper the zinc

383

00:15:52,910 --> 00:15:50,760

corporation's manager refused to make

384

00:15:54,410 --> 00:15:52,920

any real comment on reports that the

385

00:15:56,530 --> 00:15:54,420

corporation's metallurgists at broken

386

00:15:58,970 --> 00:15:56,540

Hill had determined via x-ray

387

00:16:01,129 --> 00:15:58,980

spectrographic examination that the

388

00:16:04,069 --> 00:16:01,139

object contained berlinium titanium and

389

00:16:07,189 --> 00:16:04,079

magnesium and had only this to say all I

390

00:16:09,530 --> 00:16:07,199

can say at this stage Zar scientists

391

00:16:11,389 --> 00:16:09,540

have had a look at the object that any

392

00:16:13,129 --> 00:16:11,399

test they may have made so far are

393

00:16:14,930 --> 00:16:13,139

inconclusive and that the sphere has

394

00:16:17,090 --> 00:16:14,940

been placed in the charge of a senior

395

00:16:19,610 --> 00:16:17,100

army officer the director of the broken

396

00:16:23,449 --> 00:16:19,620

Hill division of the U of New South

397

00:16:25,790 --> 00:16:23,459

Wales Mr TK Hogan on the 30th of April A

398

00:16:27,530 --> 00:16:25,800

dispatch out of Canberra said

399

00:16:29,389 --> 00:16:27,540

that this fear had definitely been

400

00:16:31,970 --> 00:16:29,399

identified as a part of a space vehicle

401
00:16:34,430 --> 00:16:31,980
it went on to explain that Mr Allen

402
00:16:36,110 --> 00:16:34,440
fairhall Australian Supply Minister told

403
00:16:37,850 --> 00:16:36,120
the House of Representatives that this

404
00:16:40,009 --> 00:16:37,860
fear was identified as a part of his

405
00:16:41,449 --> 00:16:40,019
space vehicle and then Australia it was

406
00:16:43,790 --> 00:16:41,459
communicating with the overseas

407
00:16:46,249 --> 00:16:43,800
governments from whose spacecraft it

408
00:16:47,810 --> 00:16:46,259
might have come that dispatch also said

409
00:16:49,730 --> 00:16:47,820
that the sphere carried the faint

410
00:16:52,249 --> 00:16:49,740
outline of a hammer and sickle the

411
00:16:54,290 --> 00:16:52,259
Soviet emblem fairholz said this fear

412
00:16:56,689 --> 00:16:54,300
had not been opened as it might contain

413
00:16:58,249 --> 00:16:56,699

something of scientific interest it's a

414

00:17:00,110 --> 00:16:58,259

million one chance that a piece of

415

00:17:02,329 --> 00:17:00,120

orbiting Hardware should survive the

416

00:17:03,889 --> 00:17:02,339

temperature of re-entry and be recovered

417

00:17:05,449 --> 00:17:03,899

in one piece he said various other

418

00:17:07,429 --> 00:17:05,459

newspapers carried the news that

419

00:17:09,409 --> 00:17:07,439

scientists unnamed had determined that

420

00:17:10,850 --> 00:17:09,419

the object was a pressure vessel from a

421

00:17:13,090 --> 00:17:10,860

space vehicle designed to withstand

422

00:17:15,470 --> 00:17:13,100

great pressure apparently no information

423

00:17:17,929 --> 00:17:15,480

was released concerning the mystery

424

00:17:20,750 --> 00:17:17,939

sphere but a small article on the Omaha

425

00:17:22,789 --> 00:17:20,760

World Herald Nebraska USA for 2nd

426

00:17:24,829 --> 00:17:22,799

October 1963 carried the information

427

00:17:27,110 --> 00:17:24,839

that the first fear had not been

428

00:17:29,330 --> 00:17:27,120

identified when the SEC one was found in

429

00:17:31,690 --> 00:17:29,340

October about 35 miles from the location

430

00:17:34,370 --> 00:17:31,700

of the first one the press release

431

00:17:36,110 --> 00:17:34,380

divulged the fact that despite inquiries

432

00:17:38,690 --> 00:17:36,120

abroad the Australian government had not

433

00:17:40,850 --> 00:17:38,700

located the origin of the first fear the

434

00:17:43,669 --> 00:17:40,860

second sphere was described as 16 inches

435

00:17:45,350 --> 00:17:43,679

in diameter and weighing 18 pounds it

436

00:17:48,110 --> 00:17:45,360

was also said to be a stainless steel

437

00:17:50,510 --> 00:17:48,120

ball on which a valve had been turned

438

00:17:53,029 --> 00:17:50,520

into a fuse Mass apparently as a result

439

00:17:55,310 --> 00:17:53,039
of intense heat it is interesting to

440

00:17:57,470 --> 00:17:55,320
note that to this date no definite news

441

00:17:59,810 --> 00:17:57,480
concerning the metallic makeup of that

442

00:18:01,549 --> 00:17:59,820
first fear has been released nor has

443

00:18:03,529 --> 00:18:01,559
there been any further description or

444

00:18:05,510 --> 00:18:03,539
clarification of the physical properties

445

00:18:07,190 --> 00:18:05,520
of the second this brings to mind

446

00:18:10,010 --> 00:18:07,200
another mysterious object which was

447

00:18:11,990 --> 00:18:10,020
found in South Africa in early 1962.

448

00:18:13,669 --> 00:18:12,000
this subject was identified as a

449

00:18:16,370 --> 00:18:13,679
spherical titanium pressure tank from

450

00:18:18,470 --> 00:18:16,380
the fuel tank of an LS rocket

451
00:18:20,390 --> 00:18:18,480
there was no doubt that this object at

452
00:18:23,270 --> 00:18:20,400
least according to press reports

453
00:18:25,370 --> 00:18:23,280
belong to a U.S space vehicle

454
00:18:27,409 --> 00:18:25,380
the question now arises concerning the

455
00:18:29,150 --> 00:18:27,419
reason that the Australian spheres have

456
00:18:31,610 --> 00:18:29,160
not been identified the most recent

457
00:18:34,669 --> 00:18:31,620
release States unequivocally that the

458
00:18:35,750 --> 00:18:34,679
Spheres has been disowned by Russia and

459
00:18:37,490 --> 00:18:35,760
the U.S

460
00:18:41,390 --> 00:18:37,500
than once

461
00:18:43,410 --> 00:18:41,400
[Music]

462
00:18:56,270 --> 00:18:43,420
foreign

463
00:18:58,669 --> 00:18:56,280

[Music]

464

00:19:00,590 --> 00:18:58,679

a lot of other interesting cases that

465

00:19:02,150 --> 00:19:00,600

involve metal balls or Chrome balls or

466

00:19:04,970 --> 00:19:02,160

whatever you want to call it Metals

467

00:19:07,250 --> 00:19:04,980

fears metallic spheres

468

00:19:09,289 --> 00:19:07,260

it's your name you choose what you want

469

00:19:12,289 --> 00:19:09,299

to call it pick it go with it I don't

470

00:19:14,870 --> 00:19:12,299

care dating Back to December 1949 North

471

00:19:17,930 --> 00:19:14,880

Carolina unconventional and unidentified

472

00:19:20,150 --> 00:19:17,940

aircraft cited was actually described as

473

00:19:23,750 --> 00:19:20,160

a metal ball it was first reported

474

00:19:26,150 --> 00:19:23,760

flying West over town at about 1645 by a

475

00:19:27,770 --> 00:19:26,160

doctor of Hamlet North Carolina and

476
00:19:29,630 --> 00:19:27,780
another witness they reported the ship

477
00:19:32,210 --> 00:19:29,640
to the local airport where an overseas

478
00:19:34,970 --> 00:19:32,220
News correspondent took off in a light

479
00:19:37,190 --> 00:19:34,980
plane to chase the craft a former Air

480
00:19:39,049 --> 00:19:37,200
Force pilot said he saw the Craft only

481
00:19:41,690 --> 00:19:39,059
once from the air and that it definitely

482
00:19:44,330 --> 00:19:41,700
was not a saucer shaped he said he was

483
00:19:46,310 --> 00:19:44,340
unable to overtake it but from the

484
00:19:50,270 --> 00:19:46,320
distance it appeared to be a large metal

485
00:19:52,850 --> 00:19:50,280
ball without any external fittings such

486
00:19:55,070 --> 00:19:52,860
as our ordinarily carried by free

487
00:19:57,409 --> 00:19:55,080
balloons although The Observers said the

488
00:20:00,590 --> 00:19:57,419

craft didn't seem very fast it did

489

00:20:03,190 --> 00:20:00,600

disappear when it got to the sun June

490

00:20:05,990 --> 00:20:03,200

1955 we have Kenneth Wick at Washington

491

00:20:08,270 --> 00:20:06,000

even though the Air Force blew this guy

492

00:20:10,250 --> 00:20:08,280

off they blew everybody off honestly

493

00:20:12,590 --> 00:20:10,260

they didn't want to investigate the case

494

00:20:15,350 --> 00:20:12,600

because it was reported a year after the

495

00:20:18,650 --> 00:20:15,360

sighting fair enough but it was reported

496

00:20:21,710 --> 00:20:18,660

by this civilian in Washington uh that

497

00:20:24,169 --> 00:20:21,720

he saw a large shiny metal ball and it

498

00:20:26,330 --> 00:20:24,179

appeared low Over The Observer came to a

499

00:20:28,970 --> 00:20:26,340

stop then left with a high rate of speed

500

00:20:31,370 --> 00:20:28,980

states he heard a chug chug sound he

501
00:20:34,610 --> 00:20:31,380
then reported it to the FBI who then

502
00:20:36,470 --> 00:20:34,620
gave it to Air Force OSI now they didn't

503
00:20:38,390 --> 00:20:36,480
give everything to OSI so I thought that

504
00:20:41,390 --> 00:20:38,400
was pretty interesting that is the Air

505
00:20:43,370 --> 00:20:41,400
Force's office of special investigations

506
00:20:45,310 --> 00:20:43,380
probably the most interesting and my

507
00:20:47,289 --> 00:20:45,320
favorite one comes out of Liberty Ohio

508
00:20:50,150 --> 00:20:47,299
February 6

509
00:20:52,490 --> 00:20:50,160
1965. we have a metallic sphere that was

510
00:20:55,370 --> 00:20:52,500
actually found and submitted to the Air

511
00:20:57,950 --> 00:20:55,380
Force for analyzing this guy's kid

512
00:21:00,110 --> 00:20:57,960
apparently was swimming in a lake and

513
00:21:03,350 --> 00:21:00,120

they saw the metal ball and I guess they

514

00:21:05,750 --> 00:21:03,360

saw it for a while but it was too deep

515

00:21:07,370 --> 00:21:05,760

for him for a few days to actually get

516

00:21:10,070 --> 00:21:07,380

it apparently it wasn't this day the

517

00:21:12,049 --> 00:21:10,080

ball was like 29 pounds I believe if

518

00:21:14,150 --> 00:21:12,059

you've ever had a bowling ball 16 pound

519

00:21:16,310 --> 00:21:14,160

bowling ball it's kind of heavy the Air

520

00:21:18,529 --> 00:21:16,320

Force materials laboratory actually

521

00:21:20,210 --> 00:21:18,539

tested this thing which is always so

522

00:21:22,730 --> 00:21:20,220

interesting to me because if they think

523

00:21:24,470 --> 00:21:22,740

it's prosaic there's nothing to these

524

00:21:27,289 --> 00:21:24,480

weird things people find why would they

525

00:21:30,950 --> 00:21:27,299

go through all this hassle to test the

526

00:21:33,169 --> 00:21:30,960

materials sphere is an aluminum 195

527

00:21:36,409 --> 00:21:33,179

casting alloy casting that has been

528

00:21:38,750 --> 00:21:36,419

rough machined at both ends and at the

529

00:21:41,149 --> 00:21:38,760

equator external finish was a black

530

00:21:43,490 --> 00:21:41,159

paint set screws or steel one quarter

531

00:21:45,830 --> 00:21:43,500

diameter 28 threads per inch with allen

532

00:21:48,470 --> 00:21:45,840

wrench head fitting recognized as

533

00:21:50,570 --> 00:21:48,480

standard American steel alloy is of the

534

00:21:52,310 --> 00:21:50,580

4100 series type this container was

535

00:21:54,649 --> 00:21:52,320

apparently designed for compressive type

536

00:21:56,750 --> 00:21:54,659

loads the design is such that would not

537

00:21:59,990 --> 00:21:56,760

be suitable for internal gas pressure

538

00:22:02,870 --> 00:22:00,000

because of the relatively weak method of

539

00:22:04,789 --> 00:22:02,880

closure seems kind of boring right well

540

00:22:06,710 --> 00:22:04,799

I'm not saying it isn't but it does get

541

00:22:08,930 --> 00:22:06,720

more interesting the further they get

542

00:22:10,549 --> 00:22:08,940

into testing this the more theories they

543

00:22:12,890 --> 00:22:10,559

come up with as far as what it could be

544

00:22:15,409 --> 00:22:12,900

for the less answers they actually have

545

00:22:17,690 --> 00:22:15,419

they thought possibly it was used for

546

00:22:19,789 --> 00:22:17,700

Waste Disposal container for radioactive

547

00:22:22,190 --> 00:22:19,799

materials however it would not be an

548

00:22:24,110 --> 00:22:22,200

effective container from a payload point

549

00:22:26,510 --> 00:22:24,120

of view person actually had discussions

550

00:22:27,950 --> 00:22:26,520

with Mound laboratory indicated that

551
00:22:30,529 --> 00:22:27,960
they were not comparable to any

552
00:22:32,570 --> 00:22:30,539
radioactive waste containers they're

553
00:22:34,370 --> 00:22:32,580
familiar with some years ago the

554
00:22:36,409 --> 00:22:34,380
University of Dayton Research Institute

555
00:22:38,690 --> 00:22:36,419
manufactured containers something like

556
00:22:40,970 --> 00:22:38,700
the one now under consideration in

557
00:22:43,430 --> 00:22:40,980
support of atomic tests in Nevada sounds

558
00:22:45,830 --> 00:22:43,440
reasonable however the project engineer

559
00:22:47,690 --> 00:22:45,840
on that program examined the sphere and

560
00:22:50,149 --> 00:22:47,700
he discounted it as being one of the

561
00:22:52,190 --> 00:22:50,159
type used by them in the end they were

562
00:22:54,890 --> 00:22:52,200
not able to establish the intended use

563
00:22:57,110 --> 00:22:54,900

of this device they did not land on a

564

00:22:59,500 --> 00:22:57,120

conclusion and this happened kind of a

565

00:23:09,669 --> 00:22:59,510

lot in the Blue Book days

566

00:23:50,990 --> 00:23:09,679

[Music]

567

[Music]

581
00:28:35,149 --> 00:28:33,049
1960s were pretty interesting time in

582
00:28:38,450 --> 00:28:35,159
UFO history

583
00:28:40,850 --> 00:28:38,460
but what I'd like to talk about today is

584
00:28:43,730 --> 00:28:40,860
a case that happened in 1966 where

585
00:28:46,490 --> 00:28:43,740
police officers actually chased UFO for

586
00:28:49,430 --> 00:28:46,500
over 80 miles but that wasn't the only

587
00:28:51,529 --> 00:28:49,440
cop sighting around that time there were

588
00:28:53,630 --> 00:28:51,539

many the famous Lani Zamora case

589

00:28:55,909 --> 00:28:53,640

happened just two years prior and there

590

00:28:58,730 --> 00:28:55,919

were other cases that went all across

591

00:29:01,070 --> 00:28:58,740

the continental United States throughout

592

00:29:04,909 --> 00:29:01,080

the time span most of the story is about

593

00:29:06,830 --> 00:29:04,919

Dale Sparr who kind of took the lead on

594

00:29:09,830 --> 00:29:06,840

presenting this story to the public

595

00:29:11,390 --> 00:29:09,840

doing a lot of interviews with a lot of

596

00:29:13,850 --> 00:29:11,400

different people to the point of

597

00:29:17,090 --> 00:29:13,860

exhaustion now this isn't a happy ending

598

00:29:18,970 --> 00:29:17,100

but it is the reality of a lot of UFO

599

00:29:22,130 --> 00:29:18,980

experiences

600

00:29:24,889 --> 00:29:22,140

wksu news talked with deputies Barr and

601
00:29:28,190 --> 00:29:24,899
here now is his story this is only

602
00:29:30,049 --> 00:29:28,200
traffic that uh we heard was from Summit

603
00:29:31,909 --> 00:29:30,059
County Sheriff's Office

604
00:29:34,730 --> 00:29:31,919
it was uh

605
00:29:38,510 --> 00:29:34,740
just relayed by them that this lady had

606
00:29:40,669 --> 00:29:38,520
spotted a very bright object I've never

607
00:29:43,970 --> 00:29:40,679
read about flying saucers I've never

608
00:29:45,649 --> 00:29:43,980
been interested in them when I looked to

609
00:29:47,389 --> 00:29:45,659
the rear of my car which would be

610
00:29:50,870 --> 00:29:47,399
looking West

611
00:29:53,870 --> 00:29:50,880
I at first I'll never and I saw this

612
00:29:56,029 --> 00:29:53,880
bright object uh coming what would

613
00:29:59,389 --> 00:29:56,039

appear to be coming up

614

00:30:01,130 --> 00:29:59,399

from behind the trees real low and very

615

00:30:03,409 --> 00:30:01,140

bright

616

00:30:06,350 --> 00:30:03,419

and at first I

617

00:30:08,810 --> 00:30:06,360

I started to tell my partner what I seen

618

00:30:10,549 --> 00:30:08,820

and they kept getting bigger and closer

619

00:30:13,690 --> 00:30:10,559

and then they asked him if he would turn

620

00:30:15,350 --> 00:30:13,700

and look over his shoulder

621

00:30:19,549 --> 00:30:15,360

I don't know if I was having

622

00:30:21,909 --> 00:30:19,559

hallucinations or not uh

623

00:30:25,070 --> 00:30:21,919

he did a double take on it and

624

00:30:27,590 --> 00:30:25,080

this thing kept coming or evidently

625

00:30:29,389 --> 00:30:27,600

wasn't any way for us to stop it

626

00:30:31,909 --> 00:30:29,399

Tim and I were completely illuminated

627

00:30:33,590 --> 00:30:31,919

there was no difficulty in seeing each

628

00:30:35,990 --> 00:30:33,600

other it was as bright as though there

629

00:30:39,529 --> 00:30:36,000

was full sunlight

630

00:30:43,430 --> 00:30:39,539

I froze for a minute I uh I was actually

631

00:30:45,889 --> 00:30:43,440

petrified I suppose I hesitated nothing

632

00:30:48,310 --> 00:30:45,899

happened I you know didn't start

633

00:30:50,750 --> 00:30:48,320

catching on fire

634

00:30:53,750 --> 00:30:50,760

I had the feeling that I want something

635

00:30:55,010 --> 00:30:53,760

between whatever this thing was in

636

00:30:56,870 --> 00:30:55,020

myself

637

00:30:59,269 --> 00:30:56,880

I

638

00:31:01,269 --> 00:30:59,279

went for the cruiser and took money at

639

00:31:04,909 --> 00:31:01,279

the same time

640

00:31:07,970 --> 00:31:04,919

I got in in my first thought was as we

641

00:31:09,529 --> 00:31:07,980

roll a boo-boo now we have we were right

642

00:31:11,029 --> 00:31:09,539

here if anything happens we can't do

643

00:31:14,090 --> 00:31:11,039

anything

644

00:31:16,909 --> 00:31:14,100

I was waiting for the shock to go away a

645

00:31:18,710 --> 00:31:16,919

little bit I uh it's very large I'd say

646

00:31:21,470 --> 00:31:18,720

it could be between

647

00:31:24,470 --> 00:31:21,480

the first observation the minimum would

648

00:31:26,750 --> 00:31:24,480

have been 30 feet I would suggested to

649

00:31:27,590 --> 00:31:26,760

be closer to 50 feet across the base of

650

00:31:30,769 --> 00:31:27,600

it

651
00:31:32,210 --> 00:31:30,779
probably 18 foot in depth only one

652
00:31:35,149 --> 00:31:32,220
slight hum in the area

653
00:31:37,630 --> 00:31:35,159
observing it we did not have a camera

654
00:31:40,669 --> 00:31:37,640
Sergeant show and fellow advised me that

655
00:31:42,409 --> 00:31:40,679
if at all possible to follow the vehicle

656
00:31:43,610 --> 00:31:42,419
to pursue it or keep it under

657
00:31:46,070 --> 00:31:43,620
surveillance

658
00:31:48,470 --> 00:31:46,080
I could get some cars or some camera

659
00:31:50,029 --> 00:31:48,480
equipment or a photographer out there to

660
00:31:52,370 --> 00:31:50,039
take a photograph

661
00:31:53,269 --> 00:31:52,380
and if at all possible try to identify

662
00:31:55,130 --> 00:31:53,279
it

663
00:31:57,529 --> 00:31:55,140

Sergeant advised me to do this we

664

00:31:59,330 --> 00:31:57,539

started moving with the vehicle and give

665

00:32:01,370 --> 00:31:59,340

you a feeling of it was watching you

666

00:32:03,649 --> 00:32:01,380

watch it you know and at this time the

667

00:32:05,870 --> 00:32:03,659

vehicle was directly behind us or this

668

00:32:07,789 --> 00:32:05,880

object or whatever you want to call it

669

00:32:11,389 --> 00:32:07,799

or maintain another two to the amount

670

00:32:13,130 --> 00:32:11,399

time about 200 250 feet the illumination

671

00:32:15,529 --> 00:32:13,140

from it did light to ground underneath

672

00:32:18,110 --> 00:32:15,539

of it I increased the speed

673

00:32:20,570 --> 00:32:18,120

the vehicle went to 103 miles an hour

674

00:32:21,950 --> 00:32:20,580

ground speed the vehicle would slow down

675

00:32:25,070 --> 00:32:21,960

and wait for us

676

00:32:27,830 --> 00:32:25,080

and it would increase its speed again to

677

00:32:30,590 --> 00:32:27,840

103. as long as we watched the maneuver

678

00:32:32,870 --> 00:32:30,600

we watched it gain and lose altitude it

679

00:32:35,990 --> 00:32:32,880

goes through a different uh procedures

680

00:32:39,470 --> 00:32:36,000

of through its travels

681

00:32:41,690 --> 00:32:39,480

it went straight up in a vertical flight

682

00:32:44,450 --> 00:32:41,700

we watched an airliner fly underneath of

683

00:32:48,169 --> 00:32:44,460

it but uh probably our Boeing I would

684

00:32:51,230 --> 00:32:48,179

believe it to be a 707 link extinct

685

00:32:54,049 --> 00:32:51,240

projection on the whole thing was what I

686

00:32:57,830 --> 00:32:54,059

would say was about 15 20 feet long I

687

00:32:59,570 --> 00:32:57,840

described it as an antenna and three of

688

00:33:03,049 --> 00:32:59,580

us made the same observation while it

689

00:33:06,669 --> 00:33:03,059

wasn't fly a metallic uh I assume it to

690

00:33:09,830 --> 00:33:06,679

be a metallic it was a vehicle

691

00:33:13,070 --> 00:33:09,840

it is a made thing or a manufactured

692

00:33:14,210 --> 00:33:13,080

thing I feel that if it's ours it's a

693

00:33:16,190 --> 00:33:14,220

pretty good trick

694

00:33:17,870 --> 00:33:16,200

if it isn't we got a problem after doing

695

00:33:19,970 --> 00:33:17,880

some research myself I actually found

696

00:33:22,130 --> 00:33:19,980

this article on trail of the saucers

697

00:33:25,490 --> 00:33:22,140

written by Jeff Patterson who actually

698

00:33:27,710 --> 00:33:25,500

did a wonderful job capturing all the

699

00:33:30,230 --> 00:33:27,720

important details of the case I want to

700

00:33:32,450 --> 00:33:30,240

use this right up this article for kind

701

00:33:34,430 --> 00:33:32,460

of the backbone of the story

702

00:33:37,730 --> 00:33:34,440

but I'll add some interesting pieces as

703

00:33:39,889 --> 00:33:37,740

we go something happened to Dale Pilots

704

00:33:42,230 --> 00:33:39,899

have learned to avoid reporting UFOs

705

00:33:44,990 --> 00:33:42,240

because of the stigma that has existed

706

00:33:48,470 --> 00:33:45,000

in this topic for so long but in the 60s

707

00:33:51,289 --> 00:33:48,480

the police had to learn the lesson

708

00:33:53,630 --> 00:33:51,299

about staying quiet the hard way

709

00:33:57,130 --> 00:33:53,640

Dale Sparr was a perfect example of that

710

00:34:00,649 --> 00:33:57,140

just before Dawn on Sunday April 17

711

00:34:03,289 --> 00:34:00,659

1966 police officers pursued a UFO for

712

00:34:05,990 --> 00:34:03,299

nearly 90 minutes at speeds up to 100

713

00:34:10,129 --> 00:34:06,000

miles per hour the incident inspired the

714

00:34:11,990 --> 00:34:10,139

scene in Steven Spielberg's 1977 film

715

00:34:16,970 --> 00:34:12,000

classic Close Encounters of the Third

716

00:34:19,369 --> 00:34:16,980

Kind William Wetzel of nicap actually

717

00:34:22,849 --> 00:34:19,379

made this one of the best or more

718

00:34:25,730 --> 00:34:22,859

well-known cases of the time and he also

719

00:34:28,070 --> 00:34:25,740

made it one of the best documented cases

720

00:34:31,849 --> 00:34:28,080

but all the persistence wound up feeling

721

00:34:34,129 --> 00:34:31,859

kind of futile as a Hector Quintanilla

722

00:34:36,349 --> 00:34:34,139

of Project Blue Book really wasn't

723

00:34:37,669 --> 00:34:36,359

showing any interest at all in this case

724

00:34:40,070 --> 00:34:37,679

in fact

725

00:34:43,849 --> 00:34:40,080

when it was reported even though it was

726

00:34:45,889 --> 00:34:43,859

in Ohio the same state he's located he

727

00:34:47,210 --> 00:34:45,899

didn't even drive there to go look at

728

00:34:49,250 --> 00:34:47,220

the scene or interview the different

729

00:34:51,349 --> 00:34:49,260

Witnesses although there were different

730

00:34:53,149 --> 00:34:51,359

saucer organizations doing that pretty

731

00:34:55,609 --> 00:34:53,159

quickly and that could be a reason why

732

00:34:57,190 --> 00:34:55,619

he hated going up against them as they

733

00:34:59,570 --> 00:34:57,200

always made him look pretty bad

734

00:35:02,030 --> 00:34:59,580

eventually he would actually go and

735

00:35:04,670 --> 00:35:02,040

entertain an interview that didn't go so

736

00:35:08,030 --> 00:35:04,680

well and no matter what despite credible

737

00:35:10,190 --> 00:35:08,040

witness testimony multiple Witnesses

738

00:35:13,190 --> 00:35:10,200

the ridicule for telling this story

739

00:35:16,730 --> 00:35:13,200

would just be pure punishment especially

740

00:35:18,770 --> 00:35:16,740

for this guy now Dale Sparr felt kind of

741

00:35:21,050 --> 00:35:18,780

cheated in the whole situation he was

742

00:35:25,069 --> 00:35:21,060

the one that really led the whole police

743

00:35:26,930 --> 00:35:25,079

chase of this UFO and it wasn't even his

744

00:35:28,730 --> 00:35:26,940

decision he reported it into a police

745

00:35:30,950 --> 00:35:28,740

station and they told him to keep

746

00:35:33,410 --> 00:35:30,960

following it so people could have time

747

00:35:35,930 --> 00:35:33,420

to grab cameras and catch up to it and

748

00:35:38,089 --> 00:35:35,940

document it but he felt betrayed because

749

00:35:41,089 --> 00:35:38,099

he was the one sent out to figure out

750

00:35:42,910 --> 00:35:41,099

what this thing was he gets cast into

751
00:35:45,710 --> 00:35:42,920
the public Limelight

752
00:35:49,010 --> 00:35:45,720
subsequently his life is the one that

753
00:35:51,349 --> 00:35:49,020
gets ruined because of this experience

754
00:35:53,690 --> 00:35:51,359
and I don't blame him three other

755
00:35:55,970 --> 00:35:53,700
officers actually saw the UFO that night

756
00:35:58,550 --> 00:35:55,980
and others chased the UFO that night but

757
00:36:00,589 --> 00:35:58,560
Hector Quintanilla of Project Blue Book

758
00:36:03,770 --> 00:36:00,599
seemed for whatever reason to Signal out

759
00:36:05,329 --> 00:36:03,780
Spar now why would he single out Spar I

760
00:36:06,530 --> 00:36:05,339
haven't really been able to figure that

761
00:36:09,050 --> 00:36:06,540
out

762
00:36:12,410 --> 00:36:09,060
perhaps it's easier to debunk one

763
00:36:15,349 --> 00:36:12,420

witness than a lot of witnesses Dale was

764

00:36:17,510 --> 00:36:15,359

actually seemed the most willing to come

765

00:36:19,069 --> 00:36:17,520

forward and tell a story and that could

766

00:36:22,010 --> 00:36:19,079

also be a recent way

767

00:36:24,290 --> 00:36:22,020

the others seem more apt to just be

768

00:36:25,910 --> 00:36:24,300

quiet and not talk about it which is how

769

00:36:28,849 --> 00:36:25,920

the Air Force preferred it another

770

00:36:32,990 --> 00:36:28,859

reason he felt kind of betrayed is

771

00:36:35,510 --> 00:36:33,000

because he was driving recklessly at a

772

00:36:37,550 --> 00:36:35,520

hundred mile an hour speeds

773

00:36:40,490 --> 00:36:37,560

he felt he was putting his life on the

774

00:36:42,890 --> 00:36:40,500

line to identify this object just to be

775

00:36:45,829 --> 00:36:42,900

left in the dust he was shook up he was

776

00:36:47,630 --> 00:36:45,839

afraid he was in a trench when he saw

777

00:36:49,849 --> 00:36:47,640

the object he looked at his partner

778

00:36:52,430 --> 00:36:49,859

William neef

779

00:36:55,190 --> 00:36:52,440

and said his face was completely pale

780

00:36:56,990 --> 00:36:55,200

imagine testifying in court and being

781

00:36:59,930 --> 00:36:57,000

tormented with things like hey aren't

782

00:37:01,609 --> 00:36:59,940

you the one that saw Venus and chased it

783

00:37:03,710 --> 00:37:01,619

for nearly 90 miles

784

00:37:06,230 --> 00:37:03,720

quite embarrassing how can you ever be

785

00:37:08,930 --> 00:37:06,240

taken seriously again things would only

786

00:37:11,450 --> 00:37:08,940

get worse for poorest bar you know he

787

00:37:13,550 --> 00:37:11,460

was an Air Force veteran and he worked a

788

00:37:15,349 --> 00:37:13,560

day job in construction and night as a

789

00:37:18,410 --> 00:37:15,359

police officer just to take care of his

790

00:37:20,089 --> 00:37:18,420

wife and kids and by August 1st

791

00:37:22,310 --> 00:37:20,099

that was all gone

792

00:37:24,349 --> 00:37:22,320

his wife was actually quoted as saying

793

00:37:27,109 --> 00:37:24,359

something happened to Dale but I don't

794

00:37:28,970 --> 00:37:27,119

know what it was she said he came home

795

00:37:31,250 --> 00:37:28,980

that day and I never saw him more

796

00:37:33,770 --> 00:37:31,260

frightened before he acted strange

797

00:37:34,609 --> 00:37:33,780

listless you just sat around he looked

798

00:37:36,589 --> 00:37:34,619

pale

799

00:37:39,170 --> 00:37:36,599

all sorts of people were coming over to

800

00:37:41,390 --> 00:37:39,180

the house investigators random people

801
00:37:44,450 --> 00:37:41,400
just interviewing him interrogating them

802
00:37:48,470 --> 00:37:44,460
running them into the ground taking

803
00:37:51,770 --> 00:37:48,480
every last ounce of energy that he had

804
00:37:53,750 --> 00:37:51,780
and he changed as people often do after

805
00:37:55,430 --> 00:37:53,760
dramatic experiences

806
00:37:57,530 --> 00:37:55,440
like Dale had

807
00:37:59,810 --> 00:37:57,540
then later I guess he got real nervous

808
00:38:01,609 --> 00:37:59,820
and he would disappear for days at a

809
00:38:03,710 --> 00:38:01,619
time and his wife couldn't handle that

810
00:38:07,609 --> 00:38:03,720
anymore and she left

811
00:38:10,130 --> 00:38:07,619
and apparently they didn't just break up

812
00:38:11,810 --> 00:38:10,140
it got pretty bad one night Dale came

813
00:38:14,870 --> 00:38:11,820

home and he was in a really

814

00:38:16,609 --> 00:38:14,880

bad mood and he grabbed her

815

00:38:18,050 --> 00:38:16,619

grabbed her hard and shook her and left

816

00:38:20,089 --> 00:38:18,060

bruises

817

00:38:22,490 --> 00:38:20,099

not acceptable

818

00:38:24,109 --> 00:38:22,500

and that's how he lost his badge the

819

00:38:26,030 --> 00:38:24,119

cops were called on him and he spent a

820

00:38:28,130 --> 00:38:26,040

night in jail and they stripped it from

821

00:38:29,870 --> 00:38:28,140

him and when he got out of jail he ran

822

00:38:32,569 --> 00:38:29,880

away he left his whole life behind his

823

00:38:34,849 --> 00:38:32,579

wife and his kids

824

00:38:36,770 --> 00:38:34,859

Spire was haunted by nightmares for the

825

00:38:38,870 --> 00:38:36,780

rest of his life apparently this person

826

00:38:40,910 --> 00:38:38,880

named a Groot tracked him down and was

827

00:38:43,430 --> 00:38:40,920

able to ask him some questions at him

828

00:38:45,410 --> 00:38:43,440

some Slammy Motel he was staying at and

829

00:38:47,690 --> 00:38:45,420

he said he had nightly sweating dreams

830

00:38:50,630 --> 00:38:47,700

that were kind of a mixture of

831

00:38:53,569 --> 00:38:50,640

bizarre fantasy and reality in those

832

00:38:56,870 --> 00:38:53,579

dreams Spire lived the chase over and

833

00:38:58,010 --> 00:38:56,880

over textbook post-traumatic stress

834

00:39:00,410 --> 00:38:58,020

disorder

835

00:39:02,690 --> 00:39:00,420

and look how people treated him during

836

00:39:04,790 --> 00:39:02,700

those years Barr's life completely

837

00:39:06,650 --> 00:39:04,800

bottomed out he aired his back so he

838

00:39:09,650 --> 00:39:06,660

couldn't work anymore he couldn't pay

839

00:39:10,910 --> 00:39:09,660

his child support his parking tickets so

840

00:39:13,310 --> 00:39:10,920

he went to jail

841

00:39:15,470 --> 00:39:13,320

his car was repossessed he couldn't

842

00:39:17,030 --> 00:39:15,480

afford his motel room and so he actually

843

00:39:19,310 --> 00:39:17,040

lived on the streets for a little while

844

00:39:21,290 --> 00:39:19,320

he would become known as the cop who

845

00:39:24,109 --> 00:39:21,300

chased a flying saucer and literally

846

00:39:25,430 --> 00:39:24,119

lost his mind all because he followed an

847

00:39:28,790 --> 00:39:25,440

order

848

00:39:30,410 --> 00:39:28,800

doing what a good cop would do and maybe

849

00:39:32,870 --> 00:39:30,420

his life turned around for the better it

850

00:39:34,910 --> 00:39:32,880

was around 1977 that someone finally

851

00:39:37,250 --> 00:39:34,920

caught up to him and they did a full

852

00:39:39,170 --> 00:39:37,260

feature interview on a story and he had

853

00:39:41,569 --> 00:39:39,180

remarried he moved back to Virginia

854

00:39:43,370 --> 00:39:41,579

where he was born him and his wife took

855

00:39:44,990 --> 00:39:43,380

over a tiny taxi company in the

856

00:39:47,210 --> 00:39:45,000

neighborhood and they both worked for

857

00:39:50,089 --> 00:39:47,220

the regional Ambulance Service as well

858

00:39:52,550 --> 00:39:50,099

spire's signature crew cut was gone his

859

00:39:54,650 --> 00:39:52,560

hair and sideburns were longer he'd

860

00:39:55,730 --> 00:39:54,660

grown a mustache but he was still

861

00:39:57,890 --> 00:39:55,740

haunted

862

00:39:59,329 --> 00:39:57,900

with what he'd been through Von

863

00:40:02,150 --> 00:39:59,339

Sternberg

864

00:40:03,650 --> 00:40:02,160

who interviewed him at one point wrote

865

00:40:05,870 --> 00:40:03,660

although there are nights in the

866

00:40:08,569 --> 00:40:05,880

mountains are on instead when it seems

867

00:40:10,490 --> 00:40:08,579

you can almost touch the Stars

868

00:40:12,710 --> 00:40:10,500

Spire says he doesn't look at the sky

869

00:40:15,589 --> 00:40:12,720

very much anymore

870

00:40:17,530 --> 00:40:15,599

now there are other people that saw and

871

00:40:19,250 --> 00:40:17,540

witnessed this as well

872

00:40:21,829 --> 00:40:19,260

including

873

00:40:23,990 --> 00:40:21,839

spar's partner neef

874

00:40:26,030 --> 00:40:24,000

when he talked to investigators

875

00:40:28,190 --> 00:40:26,040

apparently he tried downplaying the

876

00:40:29,990 --> 00:40:28,200

incident but his wife would tell a

877

00:40:31,849 --> 00:40:30,000

different story I hope I never see him

878

00:40:34,310 --> 00:40:31,859

like he was after the Chase he was real

879

00:40:35,390 --> 00:40:34,320

white almost in his State of Shock it

880

00:40:37,490 --> 00:40:35,400

was awful

881

00:40:39,170 --> 00:40:37,500

and people made fun of him afterwards he

882

00:40:41,990 --> 00:40:39,180

never talks about it anymore

883

00:40:44,569 --> 00:40:42,000

once he told me if that thing landed in

884

00:40:46,609 --> 00:40:44,579

my backyard I wouldn't tell a soul at

885

00:40:48,470 --> 00:40:46,619

some point Neve moved to Florida the

886

00:40:49,970 --> 00:40:48,480

Associated Press tried to find him for a

887

00:40:52,430 --> 00:40:49,980

follow-up story in 72 but couldn't

888

00:40:55,250 --> 00:40:52,440

locate him alternative weekly Cleveland

889

00:40:57,410 --> 00:40:55,260

Scene in 2004 neef stood by his story

890

00:41:00,230 --> 00:40:57,420

but he still preferred not to talk about

891

00:41:02,270 --> 00:41:00,240

it he said when I left Ohio I got away

892

00:41:05,930 --> 00:41:02,280

from it all now we have out of East

893

00:41:08,630 --> 00:41:05,940

Palestine Ohio patrolman Wayne Hudson

894

00:41:11,089 --> 00:41:08,640

actually joined Spira Neve in the

895

00:41:13,130 --> 00:41:11,099

pursuit as it came by his jurisdiction

896

00:41:15,290 --> 00:41:13,140

on the way to Pennsylvania patrolman

897

00:41:17,569 --> 00:41:15,300

Wayne Hudson actually joined knife

898

00:41:20,030 --> 00:41:17,579

Inspire on the pursuit is it went

899

00:41:21,650 --> 00:41:20,040

through his jurisdiction through East

900

00:41:23,990 --> 00:41:21,660

Palestine Ohio on the way to

901
00:41:26,270 --> 00:41:24,000
Pennsylvania Hudson also worked two jobs

902
00:41:28,010 --> 00:41:26,280
to support his wife and kids for two

903
00:41:29,810 --> 00:41:28,020
weeks after the Chase he was ridiculed

904
00:41:31,490 --> 00:41:29,820
he got phone calls of people making fun

905
00:41:34,430 --> 00:41:31,500
of him every time he left the house he

906
00:41:36,470 --> 00:41:34,440
was ridiculed on top of that the mayor

907
00:41:38,630 --> 00:41:36,480
and the city police chief were really

908
00:41:41,810 --> 00:41:38,640
upset with him for leaving this city

909
00:41:44,030 --> 00:41:41,820
limits to go on this UFO Chase

910
00:41:47,750 --> 00:41:44,040
and it's unfortunate because he used to

911
00:41:50,150 --> 00:41:47,760
be one of the top cops in the area he

912
00:41:52,970 --> 00:41:50,160
actually wound up changing his name to

913
00:41:56,050 --> 00:41:52,980

avoid publicity and moved to Seattle and

914

00:41:58,670 --> 00:41:56,060

he was a bus driver for 30 years

915

00:42:00,890 --> 00:41:58,680

apparently he was caught up with in 2002

916

00:42:02,450 --> 00:42:00,900

for a rerun of the story he was polite

917

00:42:04,130 --> 00:42:02,460

but he didn't want anything to do with

918

00:42:05,630 --> 00:42:04,140

it there was also patrolman Frank

919

00:42:07,670 --> 00:42:05,640

panzanella

920

00:42:10,190 --> 00:42:07,680

who joined on the chase towards the end

921

00:42:11,930 --> 00:42:10,200

of it after cooperating with

922

00:42:14,470 --> 00:42:11,940

investigators initially he dropped it

923

00:42:18,829 --> 00:42:14,480

never spoke again about it and actually

924

00:42:20,329 --> 00:42:18,839

turned out being a detective in 1972 I

925

00:42:21,950 --> 00:42:20,339

guess he told reporters that he saw

926

00:42:23,390 --> 00:42:21,960

something he just didn't know what it

927

00:42:25,910 --> 00:42:23,400

was and that was the end of it for him

928

00:42:27,410 --> 00:42:25,920

he said I figured if it belonged to the

929

00:42:28,730 --> 00:42:27,420

government fine and if it didn't I'd

930

00:42:30,890 --> 00:42:28,740

leave it to them to figure it out

931

00:42:33,650 --> 00:42:30,900

completely declined a request for an

932

00:42:36,170 --> 00:42:33,660

interview in 2004. Portage County

933

00:42:38,569 --> 00:42:36,180

Sheriff Raza dustman publicly defended

934

00:42:40,670 --> 00:42:38,579

the police for what they reported

935

00:42:43,849 --> 00:42:40,680

against the Air Force's Venus

936

00:42:46,490 --> 00:42:43,859

explanation all spring and summer

937

00:42:48,530 --> 00:42:46,500

but that fall he lost his bid for a

938

00:42:51,650 --> 00:42:48,540

fourth term of sheriff ending his

939

00:42:53,990 --> 00:42:51,660

20-year career his 1972 attempt at a

940

00:42:56,990 --> 00:42:54,000

comeback was also unsuccessful and he

941

00:42:59,510 --> 00:42:57,000

died the next year in 1973. Spar had it

942

00:43:01,550 --> 00:42:59,520

real rough he was quoted as saying he'll

943

00:43:03,770 --> 00:43:01,560

go to his grave saying he saw what he

944

00:43:05,750 --> 00:43:03,780

saw he can live with that saucer but he

945

00:43:08,210 --> 00:43:05,760

can't live without truth and all he

946

00:43:10,010 --> 00:43:08,220

really wanted was for the facts to be

947

00:43:11,990 --> 00:43:10,020

accepted as they were not The

948

00:43:13,970 --> 00:43:12,000

Sensational aspects of the stories that

949

00:43:16,550 --> 00:43:13,980

people were trying to tell just the

950

00:43:18,589 --> 00:43:16,560

facts that he told in his interview in

951
00:43:20,930 --> 00:43:18,599
the many interviews that he did and this

952
00:43:23,270 --> 00:43:20,940
is really just a perfect example of how

953
00:43:25,490 --> 00:43:23,280
the public treats people who see and

954
00:43:28,069 --> 00:43:25,500
Report UFOs and the stigma that we're

955
00:43:33,050 --> 00:43:28,079
fighting up against to this day that's

956
00:43:35,630 --> 00:43:33,060
lasted for decades this was in 1965 this

957
00:43:39,470 --> 00:43:35,640
man's life and other people's lives

958
00:43:42,890 --> 00:43:39,480
were at least altered dramatically

959
00:43:46,730 --> 00:43:42,900
spiers was destroyed because he reported

960
00:43:50,450 --> 00:43:46,740
a UFO the public the Twitter of those

961
00:43:53,569 --> 00:43:50,460
days trolled him to death and now NASA

962
00:43:55,910 --> 00:43:53,579
is bringing up public ridicule ridicule

963
00:43:59,510 --> 00:43:55,920

from colleagues because they're studying

964

00:44:01,130 --> 00:43:59,520

the topic NASA people grow up there are

965

00:44:03,050 --> 00:44:01,140

things in the sky and we don't know what

966

00:44:05,990 --> 00:44:03,060

they are you don't have to freak out

967

00:44:07,730 --> 00:44:06,000

about it just let people study it

968

00:44:10,010 --> 00:44:07,740

if you're not interested don't pay

969

00:44:11,630 --> 00:44:10,020

attention so thanks for joining me I

970

00:44:15,349 --> 00:44:11,640

hope you enjoyed that piece of back in

971

00:44:18,470 --> 00:44:15,359

time we had a lot to go over with that

972

00:44:19,970 --> 00:44:18,480

case because it's just so thorough and

973

00:44:24,530 --> 00:44:19,980

rich in detail

974

00:44:27,109 --> 00:44:24,540

and it's such an important example

975

00:44:29,809 --> 00:44:27,119

um what Project Blue Book was all about

976

00:44:32,270 --> 00:44:29,819

and what it created with the public

977

00:44:34,490 --> 00:44:32,280

and why we're here now still fighting

978

00:44:36,290 --> 00:44:34,500

stigma it's not the experimenter's fault

979

00:44:37,670 --> 00:44:36,300

it's not the witness's fault you know

980

00:44:40,190 --> 00:44:37,680

seeing something like that is hard

981

00:44:42,950 --> 00:44:40,200

enough to live with those thoughts

982

00:44:45,290 --> 00:44:42,960

whenever you recollect them not a

983

00:44:47,809 --> 00:44:45,300

hundred percent in pure belief of what

984

00:44:50,329 --> 00:44:47,819

you saw or experienced

985

00:44:52,550 --> 00:44:50,339

on top of it people making fun of you

986

00:44:54,410 --> 00:44:52,560

the rest of your life for it and I don't

987

00:44:56,870 --> 00:44:54,420

know what the answer is other than just

988

00:44:59,450 --> 00:44:56,880

dig deep within yourself

989

00:45:04,550 --> 00:44:59,460

as deep as you can

990

00:45:09,650 --> 00:45:08,089

and use it against

991

00:45:11,930 --> 00:45:09,660

and for everyone

992

00:45:13,609 --> 00:45:11,940

even your enemies

993

00:45:15,349 --> 00:45:13,619

so thanks for watching this episode guys

994

00:45:17,150 --> 00:45:15,359

I hope you had a good time I think that

995

00:45:19,190 --> 00:45:17,160

was a real impactful case some lessons

996

00:45:20,990 --> 00:45:19,200

to be learned and take with us

997

00:45:23,569 --> 00:45:21,000

and this is the kind of stuff that we

998

00:45:26,089 --> 00:45:23,579

can't forget moving forward because it's

999

00:45:26,990 --> 00:45:26,099

key that we understand why we're in this

1000

00:45:29,089 --> 00:45:27,000

position

1001

00:45:30,290 --> 00:45:29,099

and this is one of the reasons this is a

1002

00:45:32,270 --> 00:45:30,300

great story

1003

00:45:34,309 --> 00:45:32,280

and this is the sort of thing we have to

1004

00:45:38,020 --> 00:45:34,319

try to avoid moving forward thanks I'm

1005

00:46:15,660 --> 00:45:38,030

your host Sean Rush Peace Love adios

1006

00:46:15,670 --> 00:46:19,730

[Music]

1007

00:46:19,740 --> 00:46:23,570

thank you
