

1  
00:01:05,599 --> 00:01:16,289  
the phenomenon of me is sin oficial ms

2  
00:01:14,250 --> 00:01:18,829  
interleukin is the consumer confidence

3  
00:01:16,290 --> 00:01:18,830  
ante

4  
00:01:26,530 --> 00:01:33,379  
thank you for that introduction by

5  
00:01:30,939 --> 00:01:36,769  
wonderful ingredients from where I come

6  
00:01:33,379 --> 00:01:39,978  
from from Hawaii so the traditional

7  
00:01:36,769 --> 00:01:44,689  
Hawaiian greeting is Aloha so along how

8  
00:01:39,978 --> 00:01:47,000  
to follow my Spanish friends and I just

9  
00:01:44,689 --> 00:01:48,679  
want to let everyone know when I tell

10  
00:01:47,000 --> 00:01:50,719  
them that I'm from Hawaii there's no

11  
00:01:48,680 --> 00:01:55,910  
need to apologize the Spanish beaches

12  
00:01:50,719 --> 00:01:58,340  
they're beautiful beaches here I'm

13  
00:01:55,909 --> 00:02:01,579  
having trouble getting the PowerPoint so

14  
00:01:58,340 --> 00:02:03,530  
I might need some help I I want to be

15  
00:02:01,579 --> 00:02:07,700  
able to say a little bit about the

16  
00:02:03,530 --> 00:02:12,189  
slogan for this conference it's time for

17  
00:02:07,700 --> 00:02:15,949  
truth and it definitely is a time for

18  
00:02:12,189 --> 00:02:23,180  
the truth to come out and what I'm gonna

19  
00:02:15,949 --> 00:02:26,419  
be doing what I will be doing is going

20  
00:02:23,180 --> 00:02:29,980  
through the evidence because this is the

21  
00:02:26,419 --> 00:02:32,929  
truth it's the evidence and many people

22  
00:02:29,979 --> 00:02:35,959  
have not looked at all of the evidence

23  
00:02:32,930 --> 00:02:38,930  
because they say well some things we

24  
00:02:35,959 --> 00:02:41,629  
accept this true and we look at that and

25  
00:02:38,930 --> 00:02:45,379  
other things I say no no that's baloney

26  
00:02:41,629 --> 00:02:47,810  
or that's that's lies that's false and I

27  
00:02:45,379 --> 00:02:50,000  
say we won't look at that well what I do

28  
00:02:47,810 --> 00:02:52,099  
and what many of my colleague

29

00:02:50,000 --> 00:02:54,199  
in the Excel politics movement is we

30  
00:02:52,099 --> 00:02:56,269  
look at all the evidence we have to look

31  
00:02:54,199 --> 00:02:58,969  
at all of the evidence and we have to

32  
00:02:56,270 --> 00:03:01,250  
consider it and we have to understand

33  
00:02:58,969 --> 00:03:03,710  
what's the most valid or what's the

34  
00:03:01,250 --> 00:03:06,430  
strongest evidence but we also have to

35  
00:03:03,710 --> 00:03:09,260  
understand that the other evidence which

36  
00:03:06,430 --> 00:03:15,050  
might not be as strong is still

37  
00:03:09,259 --> 00:03:17,439  
something to be considered so that's

38  
00:03:15,050 --> 00:03:22,160  
what I will be doing in my presentation

39  
00:03:17,439 --> 00:03:25,039  
is talking to you about the evidence so

40  
00:03:22,159 --> 00:03:28,039  
what how do we investigate the evidence

41  
00:03:25,039 --> 00:03:30,229  
our Carl Sagan said that extraordinary

42  
00:03:28,039 --> 00:03:34,759  
claims require extraordinary proof and

43  
00:03:30,229 --> 00:03:37,310

that is often taken to mean that we need

44

00:03:34,759 --> 00:03:39,829

to look at proof that can be evaluated

45

00:03:37,310 --> 00:03:43,330

through the Natural Sciences the

46

00:03:39,830 --> 00:03:47,560

scientific method that will look at

47

00:03:43,330 --> 00:03:51,160

verifying hard facts hard evidence

48

00:03:47,560 --> 00:03:54,590

empirical objects observable events

49

00:03:51,159 --> 00:03:57,769

documents testing these are the things

50

00:03:54,590 --> 00:03:59,590

that some people say that this is all

51

00:03:57,769 --> 00:04:01,810

that matters when it comes to these

52

00:03:59,590 --> 00:04:05,030

incredible claims concerning

53

00:04:01,810 --> 00:04:08,390

extraterrestrial life but there are

54

00:04:05,030 --> 00:04:12,650

problems with this approach the analysis

55

00:04:08,389 --> 00:04:16,759

of hard facts involve interpretive and

56

00:04:12,650 --> 00:04:20,269

subjective processes which vary so even

57

00:04:16,759 --> 00:04:22,579

if you focus on hard evidence you still

58  
00:04:20,269 --> 00:04:24,939  
have to interpret it you still have to

59  
00:04:22,579 --> 00:04:27,409  
try to come up with a way of

60  
00:04:24,939 --> 00:04:29,469  
understanding its significance and that

61  
00:04:27,410 --> 00:04:32,419  
is subjective it happens in their head

62  
00:04:29,470 --> 00:04:34,910  
so investigative methods for evidence of

63  
00:04:32,418 --> 00:04:38,359  
extraterrestrial life and technology we

64  
00:04:34,910 --> 00:04:40,430  
need to go beyond just hard evidence we

65  
00:04:38,360 --> 00:04:43,790  
need to look at things that also happen

66  
00:04:40,430 --> 00:04:45,709  
inside of the human mind so this is I

67  
00:04:43,790 --> 00:04:48,470  
think more accurate for what we need to

68  
00:04:45,709 --> 00:04:51,259  
do with the challenges extraordinary

69  
00:04:48,470 --> 00:04:54,950  
claims require extraordinary in

70  
00:04:51,259 --> 00:04:58,519  
installations social scientific methods

71  
00:04:54,949 --> 00:05:02,180  
used to evaluate soft facts subjective

72  
00:04:58,519 --> 00:05:05,149  
or social processes for example witness

73  
00:05:02,180 --> 00:05:08,540  
testimonies how reliable is a witness

74  
00:05:05,149 --> 00:05:12,620  
what is the motivation for a witness we

75  
00:05:08,540 --> 00:05:14,270  
need to say whether other things are

76  
00:05:12,620 --> 00:05:17,629  
consistent with the witness testimony

77  
00:05:14,269 --> 00:05:21,560  
are they will related social processes

78  
00:05:17,629 --> 00:05:23,649  
are witnesses debunked or attacked this

79  
00:05:21,560 --> 00:05:27,050  
is something that influences the

80  
00:05:23,649 --> 00:05:30,310  
investigation extraordinary

81  
00:05:27,050 --> 00:05:33,439  
investigations require both natural and

82  
00:05:30,310 --> 00:05:37,120  
social science methods for evaluating

83  
00:05:33,439 --> 00:05:40,930  
evidence supporting extraordinary claims

84  
00:05:37,120 --> 00:05:44,840  
the scientific method involves both

85  
00:05:40,930 --> 00:05:49,129  
investigation of hard facts and also

86

00:05:44,839 --> 00:05:51,409  
social facts but common bias that only

87  
00:05:49,129 --> 00:05:54,709  
hard facts matter when it comes to

88  
00:05:51,410 --> 00:05:58,370  
extraordinary claims is itself a social

89  
00:05:54,709 --> 00:06:00,889  
fact but can never remove the reality

90  
00:05:58,370 --> 00:06:04,329  
that what happens in the human mind is

91  
00:06:00,889 --> 00:06:06,949  
always going to interpret everything

92  
00:06:04,329 --> 00:06:09,949  
around us whether it's empirical

93  
00:06:06,949 --> 00:06:12,889  
evidence or whether it's soft evidence

94  
00:06:09,949 --> 00:06:17,300  
or soft bags like witness testimony the

95  
00:06:12,889 --> 00:06:19,250  
human mind will always interpret that so

96  
00:06:17,300 --> 00:06:21,949  
we need to rank the evidence of

97  
00:06:19,250 --> 00:06:25,399  
extraterrestrial life and technology so

98  
00:06:21,949 --> 00:06:29,629  
I will try to rank this in terms of hard

99  
00:06:25,399 --> 00:06:33,319  
and soft facts typically sources

100  
00:06:29,629 --> 00:06:37,009

confirmed by hard facts rank higher than

101

00:06:33,319 --> 00:06:43,060

those are confirmed by suspects so if I

102

00:06:37,009 --> 00:06:43,060

have a firm an object flying in space

103

00:06:44,519 --> 00:06:51,069

power then say testimony then of me

104

00:06:48,430 --> 00:06:53,800

saying I saw an object flying in space

105

00:06:51,069 --> 00:06:57,040

we say that fool has higher ranking

106

00:06:53,800 --> 00:06:59,800

evidentiary ranking sources that combine

107

00:06:57,040 --> 00:07:02,710

both conformable hard and soft facts

108

00:06:59,800 --> 00:07:06,730

ranked high as reliable evidentiary

109

00:07:02,709 --> 00:07:09,329

sources so this is what I will do in my

110

00:07:06,730 --> 00:07:13,360

presentation in ranking the evidence

111

00:07:09,329 --> 00:07:16,000

strong evidence very strong ranking both

112

00:07:13,360 --> 00:07:20,069

hard and soft facts exists to support

113

00:07:16,000 --> 00:07:23,379

the primary evidence no inconsistencies

114

00:07:20,069 --> 00:07:26,500

witness testimony supported by photos

115  
00:07:23,379 --> 00:07:28,540  
and forms so things that people say or

116  
00:07:26,500 --> 00:07:31,089  
that they interpret is happening around

117  
00:07:28,540 --> 00:07:33,910  
them that concerns extraterrestrial life

118  
00:07:31,089 --> 00:07:38,399  
and technology is supported by hard

119  
00:07:33,910 --> 00:07:41,680  
evidence film photos model ranking is

120  
00:07:38,399 --> 00:07:44,169  
primarily soft facts but also supported

121  
00:07:41,680 --> 00:07:47,110  
by hard facts as secondary or

122  
00:07:44,170 --> 00:07:48,160  
circumstantial evidence only minor

123  
00:07:47,110 --> 00:07:51,699  
inconsistencies

124  
00:07:48,160 --> 00:07:54,760  
for example witnesses whose credentials

125  
00:07:51,699 --> 00:07:57,839  
are supported by documents that is an

126  
00:07:54,759 --> 00:08:00,819  
example of where you have soft fact

127  
00:07:57,839 --> 00:08:02,909  
supported by circumstantial evidence

128  
00:08:00,819 --> 00:08:06,069  
which is some documents for example

129  
00:08:02,910 --> 00:08:09,090  
documents can prove that someone worked

130  
00:08:06,069 --> 00:08:11,050  
in the military when they say they saw

131  
00:08:09,089 --> 00:08:13,299  
some evidence concerning

132  
00:08:11,050 --> 00:08:15,900  
extraterrestrial life the documents

133  
00:08:13,300 --> 00:08:18,970  
don't prove that the person sole

134  
00:08:15,899 --> 00:08:20,679  
evidence of extra staff they just show

135  
00:08:18,970 --> 00:08:23,700  
that the person worked in the military

136  
00:08:20,680 --> 00:08:26,170  
so this is that is circumstantial

137  
00:08:23,699 --> 00:08:30,789  
documentary evidence supporting

138  
00:08:26,170 --> 00:08:34,960  
testimony and weak ranking is only soft

139  
00:08:30,790 --> 00:08:35,259  
facts supported by the evidence

140  
00:08:34,960 --> 00:08:38,830  
nuts

141  
00:08:35,259 --> 00:08:40,929  
well some of the the most important

142  
00:08:38,830 --> 00:08:43,120  
evidence that we had comes from

143

00:08:40,929 --> 00:08:46,089  
so this is the first category I look at

144  
00:08:43,120 --> 00:08:47,980  
an example official for five files

145  
00:08:46,090 --> 00:08:53,230  
they're being released by the US Air

146  
00:08:47,980 --> 00:08:57,700  
Force Spain in 1992 297 France 2007

147  
00:08:53,230 --> 00:08:59,350  
Britain another source of documents

148  
00:08:57,700 --> 00:09:02,620  
comes from the Freedom of Information

149  
00:08:59,350 --> 00:09:05,139  
Act in the US Canada Britain I believe

150  
00:09:02,620 --> 00:09:07,060  
other countries have similar legislation

151  
00:09:05,139 --> 00:09:09,069  
where national security files are

152  
00:09:07,059 --> 00:09:13,029  
Declassified after so many years and

153  
00:09:09,070 --> 00:09:15,480  
then finally the third category is

154  
00:09:13,029 --> 00:09:18,610  
leaked documents documents that are

155  
00:09:15,480 --> 00:09:20,800  
supposed to be official documents but

156  
00:09:18,610 --> 00:09:22,389  
they're new so there's no official

157  
00:09:20,799 --> 00:09:26,729

confirmation that these are real

158

00:09:22,389 --> 00:09:29,080

documents the ranking the strengths

159

00:09:26,730 --> 00:09:32,649

official documents reveal government

160

00:09:29,080 --> 00:09:35,110

policies and programs related to UFOs no

161

00:09:32,649 --> 00:09:39,370

inconsistencies when official documents

162

00:09:35,110 --> 00:09:41,620

are released weaknesses inconsistencies

163

00:09:39,370 --> 00:09:43,899

in leaked documents you need to debate

164

00:09:41,620 --> 00:09:46,720

other reliability of incredible claims

165

00:09:43,899 --> 00:09:49,809

concerning UFOs and extraterrestrial

166

00:09:46,720 --> 00:09:51,720

intelligence with leaked documents

167

00:09:49,809 --> 00:09:54,099

documents that have not been officially

168

00:09:51,720 --> 00:09:56,470

acknowledged often there are some

169

00:09:54,100 --> 00:09:59,050

inconsistencies and this leads to a

170

00:09:56,470 --> 00:10:01,090

strong debate so the overall ranking

171

00:09:59,049 --> 00:10:05,159

that I have to give to the documents

172  
00:10:01,090 --> 00:10:08,050  
category is strong to moderate

173  
00:10:05,159 --> 00:10:09,730  
whistleblower testimony this is the

174  
00:10:08,049 --> 00:10:12,370  
second main category that I will be

175  
00:10:09,730 --> 00:10:15,159  
looking at our military and corporate

176  
00:10:12,370 --> 00:10:18,179  
personnel who come across evidence of

177  
00:10:15,159 --> 00:10:21,159  
extraterrestrial life and technology

178  
00:10:18,179 --> 00:10:23,289  
typically people who come forward as

179  
00:10:21,159 --> 00:10:26,230  
whistleblowers by abeyance

180  
00:10:23,289 --> 00:10:29,409  
and they often are very willing to

181  
00:10:26,230 --> 00:10:32,110  
testify under oath

182  
00:10:29,409 --> 00:10:34,689  
there is no discernable intent to profit

183  
00:10:32,110 --> 00:10:38,680  
and in cases they suffer financial loss

184  
00:10:34,690 --> 00:10:41,380  
of public ridicule for testimony they up

185  
00:10:38,679 --> 00:10:45,578  
until now until the current moment there

186  
00:10:41,379 --> 00:10:46,899  
still is very little monetary gain for

187  
00:10:45,578 --> 00:10:49,689  
people who come forward as

188  
00:10:46,899 --> 00:10:51,309  
whistleblowers it's very difficult to

189  
00:10:49,690 --> 00:10:54,190  
come forward and talk about these topics

190  
00:10:51,309 --> 00:11:01,239  
because one often does lose their job or

191  
00:10:54,190 --> 00:11:03,639  
their career or their pension we need to

192  
00:11:01,240 --> 00:11:06,159  
look at some of the different categories

193  
00:11:03,639 --> 00:11:08,278  
of whistleblowers one category is

194  
00:11:06,159 --> 00:11:11,169  
whistleblowers his credentials are

195  
00:11:08,278 --> 00:11:14,980  
confirmed and they give sense and give

196  
00:11:11,169 --> 00:11:17,019  
significant circumstantial support the

197  
00:11:14,980 --> 00:11:19,389  
background gives support to their claims

198  
00:11:17,019 --> 00:11:23,169  
so for example one of the speakers that

199  
00:11:19,389 --> 00:11:24,850  
will be talking to the conference to the

200

00:11:23,169 --> 00:11:29,469  
summit was the command sergeant major

201  
00:11:24,850 --> 00:11:32,709  
Robert Dean documents prove that he did

202  
00:11:29,470 --> 00:11:35,350  
work at NATO supreme headquarters and

203  
00:11:32,708 --> 00:11:37,359  
this is where he says he saw classified

204  
00:11:35,350 --> 00:11:39,339  
NATO documents on UFOs and

205  
00:11:37,360 --> 00:11:41,699  
extraterrestrial life and so it can be

206  
00:11:39,339 --> 00:11:44,949  
confirmed through documentation that

207  
00:11:41,698 --> 00:11:48,490  
Doug Dean did work at the supreme

208  
00:11:44,948 --> 00:11:50,919  
headquarters operations center so he did

209  
00:11:48,490 --> 00:11:52,930  
work there so he could had seen these

210  
00:11:50,919 --> 00:11:55,929  
documents Asian claims so there's

211  
00:11:52,929 --> 00:11:58,539  
circumstantial documentary support for

212  
00:11:55,929 --> 00:12:01,629  
these incredible claims of a made out

213  
00:11:58,539 --> 00:12:05,169  
document on UFOs

214  
00:12:01,629 --> 00:12:08,318

another type of whistleblower testimony

215

00:12:05,169 --> 00:12:09,639

our credentials and background confirmed

216

00:12:08,318 --> 00:12:12,818

but they'll not give significant

217

00:12:09,639 --> 00:12:14,110

circumstantial support to the claims in

218

00:12:12,818 --> 00:12:16,299

the United States there was a

219

00:12:14,110 --> 00:12:18,818

whistleblower of Staff Sergeant Clifford

220

00:12:16,299 --> 00:12:21,429

stone who said that he worked for

221

00:12:18,818 --> 00:12:25,000

classified UFO crash and travel programs

222

00:12:21,429 --> 00:12:28,449

around the world that he was stationed

223

00:12:25,000 --> 00:12:29,409

in Germany and that for 20 years he went

224

00:12:28,450 --> 00:12:33,040

around the world

225

00:12:29,409 --> 00:12:37,809

retraining these crashed UFOs that he

226

00:12:33,039 --> 00:12:39,610

was instructed to work on officially

227

00:12:37,809 --> 00:12:42,069

though the documents only show that he

228

00:12:39,610 --> 00:12:45,580

worked for the US Army for 22 years but

229  
00:12:42,070 --> 00:12:47,379  
as a cleric as a clerk so it doesn't

230  
00:12:45,580 --> 00:12:50,259  
really give strong circumstantial

231  
00:12:47,379 --> 00:12:53,350  
support but nevertheless does confirm

232  
00:12:50,259 --> 00:12:56,620  
that he worked for the army and finally

233  
00:12:53,350 --> 00:12:58,000  
the third type of whistleblower are

234  
00:12:56,620 --> 00:13:00,299  
those whose credentials and background

235  
00:12:58,000 --> 00:13:02,620  
are unconfirmed but may have

236  
00:13:00,299 --> 00:13:05,349  
circumstantial support for their claims

237  
00:13:02,620 --> 00:13:09,429  
for example Bob Lazar who says that he

238  
00:13:05,350 --> 00:13:12,519  
wrote that area 51 on classified UFO

239  
00:13:09,429 --> 00:13:15,159  
reverse engineering projects are very

240  
00:13:12,519 --> 00:13:17,470  
circumstantial support for his claims

241  
00:13:15,159 --> 00:13:20,620  
that he did for example work at Los

242  
00:13:17,470 --> 00:13:22,629  
Alamos National Laboratories so that is

243  
00:13:20,620 --> 00:13:25,330  
circumstantial support for him even

244  
00:13:22,629 --> 00:13:27,460  
though he's background and credentials

245  
00:13:25,330 --> 00:13:29,560  
have not been confirmed so those are

246  
00:13:27,460 --> 00:13:32,410  
different types of whistleblowers so the

247  
00:13:29,559 --> 00:13:34,359  
strengths are firsthand testimony by

248  
00:13:32,409 --> 00:13:37,600  
individuals who could appear before

249  
00:13:34,360 --> 00:13:40,839  
quotes legislative bodies under penalty

250  
00:13:37,600 --> 00:13:43,800  
of perjury and multiple whistleblowers

251  
00:13:40,839 --> 00:13:46,660  
revealed broad patents and programs

252  
00:13:43,799 --> 00:13:48,370  
weaknesses hard evidence and documents

253  
00:13:46,659 --> 00:13:50,799  
not available to substantiate

254  
00:13:48,370 --> 00:13:55,089  
testimonies so the overall ranking again

255  
00:13:50,799 --> 00:13:58,088  
is strong to moderate third category I

256  
00:13:55,089 --> 00:14:02,070  
look at is the witness testimonies

257

00:13:58,089 --> 00:14:05,880  
witness reports concerning UFOs or

258  
00:14:02,070 --> 00:14:08,710  
unidentified submersible objects u.s.

259  
00:14:05,879 --> 00:14:13,179  
those photos are of the Phoenix light

260  
00:14:08,710 --> 00:14:15,030  
the top one Phoenix light 1997 on the

261  
00:14:13,179 --> 00:14:21,549  
bottom one is from Trinidad Ireland in

262  
00:14:15,029 --> 00:14:27,459  
1958 witness testimonies these are often

263  
00:14:21,549 --> 00:14:29,379  
supported by radar photos film many of

264  
00:14:27,460 --> 00:14:33,370  
the witnesses are very reliable

265  
00:14:29,379 --> 00:14:34,759  
airline pilots police professionals in

266  
00:14:33,370 --> 00:14:37,879  
the aviation

267  
00:14:34,759 --> 00:14:41,149  
industry many reliable witness witnesses

268  
00:14:37,879 --> 00:14:44,059  
report on these UFO or us Oh sightings

269  
00:14:41,149 --> 00:14:46,179  
and in many cases there are multiple

270  
00:14:44,059 --> 00:14:47,299  
independent witnesses such as in the

271  
00:14:46,179 --> 00:14:49,339

1997

272

00:14:47,299 --> 00:14:51,969

Phoenix lights and I believe you had a

273

00:14:49,340 --> 00:14:58,030

similar thing in Belgium in the year

274

00:14:51,970 --> 00:15:00,590

1900 with triangular craft the ranking

275

00:14:58,029 --> 00:15:02,959

the strengths of witness testimonies

276

00:15:00,590 --> 00:15:06,200

that this is based on hard evidence and

277

00:15:02,960 --> 00:15:09,920

multiple witness testimonies witnesses

278

00:15:06,200 --> 00:15:12,050

photos forms can be easily hosts in the

279

00:15:09,919 --> 00:15:14,000

modern era using computer software so

280

00:15:12,049 --> 00:15:17,029

that's a big problem how do we know that

281

00:15:14,000 --> 00:15:19,639

the photos and films aren't hoaxed so

282

00:15:17,029 --> 00:15:24,110

the overall ranking again is strong to

283

00:15:19,639 --> 00:15:27,379

moderate number four the fourth category

284

00:15:24,110 --> 00:15:30,860

is experience out reports these are

285

00:15:27,379 --> 00:15:33,350

individuals who claimed direct close

286  
00:15:30,860 --> 00:15:35,899  
encounter of the fourth time of the

287  
00:15:33,350 --> 00:15:38,300  
fourth kind with extraterrestrial life

288  
00:15:35,899 --> 00:15:41,919  
in case you're not familiar with that

289  
00:15:38,299 --> 00:15:44,329  
close encounter is part of the

290  
00:15:41,919 --> 00:15:47,120  
classification system developed by J

291  
00:15:44,330 --> 00:15:49,810  
Allen Hynek in the United States Close

292  
00:15:47,120 --> 00:15:53,000  
Encounters of the first kind is a

293  
00:15:49,809 --> 00:15:58,250  
sighting of a UFO Plus encounter of the

294  
00:15:53,000 --> 00:16:00,889  
second client is evidence of UFOs that

295  
00:15:58,250 --> 00:16:03,860  
may have been left behind close

296  
00:16:00,889 --> 00:16:06,350  
encounter of the third kind is visit

297  
00:16:03,860 --> 00:16:09,169  
seeing the occupants of these

298  
00:16:06,350 --> 00:16:11,930  
extraterrestrial craft like in the movie

299  
00:16:09,169 --> 00:16:14,419  
Steven Spielberg's Close Encounters and

300  
00:16:11,929 --> 00:16:16,639  
close encounter of the Fourth Kind these

301  
00:16:14,419 --> 00:16:18,319  
are direct experiences with

302  
00:16:16,639 --> 00:16:19,970  
extraterrestrial life and many people

303  
00:16:18,320 --> 00:16:22,340  
have come forward to talk about these

304  
00:16:19,970 --> 00:16:25,759  
they use material evidence to support

305  
00:16:22,340 --> 00:16:27,410  
these types of encounters and witness

306  
00:16:25,759 --> 00:16:30,139  
testimonies also exist to support

307  
00:16:27,409 --> 00:16:32,419  
medical experts using hypnosis and other

308  
00:16:30,139 --> 00:16:34,970  
techniques corroborate experience or

309  
00:16:32,419 --> 00:16:37,159  
testimonies as accurate reports about

310  
00:16:34,970 --> 00:16:39,129  
traumatic experiences in some cases

311  
00:16:37,159 --> 00:16:41,569  
these are traumatic experiences

312  
00:16:39,129 --> 00:16:45,320  
experienced reports fall into two main

313  
00:16:41,570 --> 00:16:48,170  
categories the first type experiences

314

00:16:45,320 --> 00:16:51,710  
are the contact days these are people

315  
00:16:48,169 --> 00:16:53,419  
who have voluntary experiences involving

316  
00:16:51,710 --> 00:16:54,440  
individuals who are fully conscious of

317  
00:16:53,419 --> 00:16:57,139  
their contacts with extraterrestrial

318  
00:16:54,440 --> 00:17:00,350  
life I'm very happy that I have a friend

319  
00:16:57,139 --> 00:17:04,119  
here from Bolivia luis fernando who has

320  
00:17:00,350 --> 00:17:06,828  
had similar contacts in bolivia and

321  
00:17:04,119 --> 00:17:09,078  
historically these are the first reports

322  
00:17:06,828 --> 00:17:12,889  
of human extraterrestrial contacts and

323  
00:17:09,078 --> 00:17:15,198  
were dominant in the 1950s and 60s and

324  
00:17:12,890 --> 00:17:17,089  
George Adamski in the United States is

325  
00:17:15,199 --> 00:17:18,980  
very palpable very popular and there are

326  
00:17:17,088 --> 00:17:21,679  
many continuing to the modern day as I

327  
00:17:18,980 --> 00:17:24,410  
mentioned Luis Fernando and Bolivia

328  
00:17:21,680 --> 00:17:25,610

these are claims involving contact with

329

00:17:24,410 --> 00:17:29,330  
our friendly human looking

330

00:17:25,609 --> 00:17:31,849  
extraterrestrials often blonds this is

331

00:17:29,329 --> 00:17:34,399  
George Adamski and this person here is

332

00:17:31,849 --> 00:17:38,929  
orphan who was supposed to be from Venus

333

00:17:34,400 --> 00:17:40,940  
he was a plastic blonde or Nordic the

334

00:17:38,930 --> 00:17:42,650  
second category of experience of the

335

00:17:40,940 --> 00:17:45,350  
abductees these are typically

336

00:17:42,650 --> 00:17:47,240  
experiences by individuals that are not

337

00:17:45,349 --> 00:17:49,879  
voluntary died are involuntary

338

00:17:47,240 --> 00:17:52,519  
experiences these people are often

339

00:17:49,880 --> 00:17:53,620  
unconscious of the context with the

340

00:17:52,519 --> 00:17:55,910  
extra-terrestrial life

341

00:17:53,619 --> 00:17:59,419  
historically beings became dominant

342

00:17:55,910 --> 00:18:04,400  
after the 1970s Whitley Strieber wrote a

343  
00:17:59,420 --> 00:18:07,580  
book communion in 1987 and then you have

344  
00:18:04,400 --> 00:18:09,980  
a picture of what often is reported you

345  
00:18:07,579 --> 00:18:12,490  
have these extraterrestrials that look

346  
00:18:09,980 --> 00:18:16,400  
like this big wraparound black eyes

347  
00:18:12,490 --> 00:18:19,599  
where people are abducted or a medically

348  
00:18:16,400 --> 00:18:21,440  
experimented on or examined these

349  
00:18:19,599 --> 00:18:26,000  
extraterrestrials are often very

350  
00:18:21,440 --> 00:18:28,759  
emotional estate with small bodies and

351  
00:18:26,000 --> 00:18:32,619  
large heads but I am NOT human looking

352  
00:18:28,759 --> 00:18:35,990  
they are humanoid important distinction

353  
00:18:32,619 --> 00:18:37,259  
ranking strength experiences are often

354  
00:18:35,990 --> 00:18:39,299  
sincere

355  
00:18:37,259 --> 00:18:41,970  
to testify under oath and have

356  
00:18:39,299 --> 00:18:43,500  
supporting evidence and witnesses they

357  
00:18:41,970 --> 00:18:44,850  
give much information about the

358  
00:18:43,500 --> 00:18:48,240  
motivations and behavior of

359  
00:18:44,849 --> 00:18:50,240  
extraterrestrial life witnesses this

360  
00:18:48,240 --> 00:18:52,410  
category often there are inconsistencies

361  
00:18:50,240 --> 00:18:54,690  
that can be found in testimonies

362  
00:18:52,410 --> 00:18:56,850  
describing incredible experiences that

363  
00:18:54,690 --> 00:18:59,340  
have a high strangeness factor this is a

364  
00:18:56,849 --> 00:19:03,000  
term that is often used in the u.s. high

365  
00:18:59,339 --> 00:19:05,639  
strangeness which is an element of the

366  
00:19:03,000 --> 00:19:08,420  
contact experience which is very

367  
00:19:05,640 --> 00:19:12,150  
difficult to explain clearly and

368  
00:19:08,420 --> 00:19:15,960  
incoherent terms in many cases the

369  
00:19:12,150 --> 00:19:18,480  
ranking is strong to moderate the fifth

370  
00:19:15,960 --> 00:19:21,630  
category that I will look at is EXO

371

00:19:18,480 --> 00:19:25,039  
archaeology now the focus here is on

372  
00:19:21,630 --> 00:19:26,840  
ancient historical texts paintings

373  
00:19:25,039 --> 00:19:30,170  
archaeological evidence for

374  
00:19:26,839 --> 00:19:33,359  
extraterrestrial life hard evidence is

375  
00:19:30,170 --> 00:19:35,100  
typically excited but significance is

376  
00:19:33,359 --> 00:19:39,779  
disputed so here you have an example

377  
00:19:35,099 --> 00:19:41,849  
from the temple of Abydos this figure

378  
00:19:39,779 --> 00:19:44,730  
was found over a hundred years ago and

379  
00:19:41,849 --> 00:19:47,399  
here you have objects on this ancient

380  
00:19:44,730 --> 00:19:48,890  
Egyptian in this ancient Egyptian temple

381  
00:19:47,400 --> 00:19:51,320  
well this object here that on

382  
00:19:48,890 --> 00:19:55,230  
highlighting I mean is that a helicopter

383  
00:19:51,319 --> 00:19:57,019  
is this one here a rocket ship is this

384  
00:19:55,230 --> 00:20:01,610  
one here some kind of underwater

385  
00:19:57,019 --> 00:20:04,670

submersible craft or a cigar shaped UFO

386

00:20:01,609 --> 00:20:08,129

again is this a hypersonic plane well

387

00:20:04,670 --> 00:20:10,590

some some will say well this is evidence

388

00:20:08,130 --> 00:20:12,690

that the Egyptians had advanced

389

00:20:10,589 --> 00:20:14,849

technology others will look at these

390

00:20:12,690 --> 00:20:16,650

same things and say well this is

391

00:20:14,849 --> 00:20:19,889

something that was just made up

392

00:20:16,650 --> 00:20:21,870

imagination so again the subjective

393

00:20:19,890 --> 00:20:23,790

evidence the subjective fact that comes

394

00:20:21,869 --> 00:20:27,149

in but nevertheless this is hard

395

00:20:23,789 --> 00:20:31,019

evidence some of the examples zecharia

396

00:20:27,150 --> 00:20:33,690

sitchin has interpreted many sumerian

397

00:20:31,019 --> 00:20:35,759

cuneiform texts depicting Anunnaki

398

00:20:33,690 --> 00:20:38,220

extraterrestrials extraterrestrials that

399

00:20:35,759 --> 00:20:43,079

help the establishment of the Sumerians

400  
00:20:38,220 --> 00:20:45,240  
zatia in 3800 BC zecharia sitchin has

401  
00:20:43,079 --> 00:20:47,849  
interpreted translated many of these

402  
00:20:45,240 --> 00:20:48,450  
texts erich von daniken and graham

403  
00:20:47,849 --> 00:20:51,599  
hancock

404  
00:20:48,450 --> 00:20:54,269  
from the from the united kingdom hanklab

405  
00:20:51,599 --> 00:20:57,359  
Daniken from germany have also done

406  
00:20:54,269 --> 00:21:00,408  
similar work with ancient texts and

407  
00:20:57,359 --> 00:21:03,658  
shamanic rituals that all point to

408  
00:21:00,409 --> 00:21:06,360  
extraterrestrial life that existed or

409  
00:21:03,659 --> 00:21:08,549  
was known in antiquity so this is a very

410  
00:21:06,359 --> 00:21:11,908  
ancient phenomenon it's not just on

411  
00:21:08,548 --> 00:21:14,369  
double phenomenon so the ranking for

412  
00:21:11,909 --> 00:21:17,520  
this category the strengths are that

413  
00:21:14,369 --> 00:21:20,399  
it's historical texts artifacts painting

414  
00:21:17,519 --> 00:21:22,349  
are all hard evidence of ancient

415  
00:21:20,400 --> 00:21:25,380  
societies and events that they

416  
00:21:22,349 --> 00:21:27,480  
experience the weaknesses the

417  
00:21:25,380 --> 00:21:30,390  
interpretation varies according to

418  
00:21:27,480 --> 00:21:32,519  
different experts most mainstream

419  
00:21:30,390 --> 00:21:35,460  
archaeologists will not accept the exo

420  
00:21:32,519 --> 00:21:38,429  
archeology thesis so there is an

421  
00:21:35,460 --> 00:21:41,100  
interpretive debate that is happening

422  
00:21:38,429 --> 00:21:44,730  
here so that's why this category gets a

423  
00:21:41,099 --> 00:21:46,558  
ranking of just moderate we're not doing

424  
00:21:44,730 --> 00:21:50,610  
this is the sixth category of evidence

425  
00:21:46,558 --> 00:21:52,440  
that my colleagues look at scientific

426  
00:21:50,609 --> 00:21:55,740  
protocols are used for developing

427  
00:21:52,440 --> 00:21:58,470  
psychic intelligence gathering the u.s.

428

00:21:55,740 --> 00:22:02,370  
branch developed by dr. help put off

429  
00:21:58,470 --> 00:22:05,700  
this is the gentleman here dr. Hale put

430  
00:22:02,369 --> 00:22:08,219  
off and Russell Targ was a colleague of

431  
00:22:05,700 --> 00:22:10,650  
his with Ingo Swann Ingo Swann is this

432  
00:22:08,220 --> 00:22:13,890  
gentleman here at the Stanford Research

433  
00:22:10,650 --> 00:22:15,630  
Institute in 1972 they apparently they

434  
00:22:13,890 --> 00:22:17,880  
did this because they were very

435  
00:22:15,630 --> 00:22:19,919  
concerned that the different

436  
00:22:17,880 --> 00:22:21,360  
intelligence agencies in the United

437  
00:22:19,919 --> 00:22:24,929  
States were very concerned that Russia

438  
00:22:21,359 --> 00:22:29,250  
had been developing psychic espionage

439  
00:22:24,929 --> 00:22:31,440  
from the 60s and maybe the 1950s so the

440  
00:22:29,250 --> 00:22:32,150  
US intelligence community wanted to find

441  
00:22:31,440 --> 00:22:35,480  
out how

442  
00:22:32,150 --> 00:22:39,430

libel best form of intelligence

443

00:22:35,480 --> 00:22:41,569

gathering rolls some of the examples are

444

00:22:39,430 --> 00:22:45,650

from the Stanford Research Institute

445

00:22:41,569 --> 00:22:48,740

Ingo Swann and Pat price another very

446

00:22:45,650 --> 00:22:52,630

early remote viewer had very high

447

00:22:48,740 --> 00:22:56,420

accuracy rates their remote viewing

448

00:22:52,630 --> 00:22:58,970

experiments achieved greater than 65

449

00:22:56,420 --> 00:23:01,400

percent accuracy so that's very

450

00:22:58,970 --> 00:23:04,009

significant because of that high

451

00:23:01,400 --> 00:23:08,480

accuracy rate Ingo Swann was recruited

452

00:23:04,009 --> 00:23:12,170

into a covert CIA program in 1975 to spy

453

00:23:08,480 --> 00:23:14,690

on extraterrestrials this is something

454

00:23:12,170 --> 00:23:18,019

that he has revealed later and he's a

455

00:23:14,690 --> 00:23:21,200

very credible person that that was what

456

00:23:18,019 --> 00:23:23,240

he was asked to do Joseph mechanical and

457  
00:23:21,200 --> 00:23:24,830  
Courtney brown also his remote viewing

458  
00:23:23,240 --> 00:23:27,710  
on extraterrestrial life and it's only

459  
00:23:24,829 --> 00:23:31,939  
because people like Ingo Swann were

460  
00:23:27,710 --> 00:23:34,309  
successful 65% of the time that they

461  
00:23:31,940 --> 00:23:37,340  
were recruited into these programs the

462  
00:23:34,309 --> 00:23:39,649  
strengths of this scientific protocols

463  
00:23:37,339 --> 00:23:44,079  
used for developing intelligence reports

464  
00:23:39,650 --> 00:23:46,460  
with a significantly high hit rate 65%

465  
00:23:44,079 --> 00:23:48,559  
they're cast light on extraterrestrial

466  
00:23:46,460 --> 00:23:50,740  
motivations and behavior so this is a

467  
00:23:48,559 --> 00:23:53,359  
very good source of information

468  
00:23:50,740 --> 00:23:56,059  
sixty-five percent accuracy is still

469  
00:23:53,359 --> 00:23:59,089  
very good that they can tell us that

470  
00:23:56,059 --> 00:24:01,730  
extraterrestrials are on the far side of

471  
00:23:59,089 --> 00:24:04,730  
the Moon doing all sorts of interesting

472  
00:24:01,730 --> 00:24:05,839  
work over there this is a 65 percent

473  
00:24:04,730 --> 00:24:07,819  
accuracy rate

474  
00:24:05,839 --> 00:24:09,889  
well that's significant data we just

475  
00:24:07,819 --> 00:24:12,289  
can't throw it away you've got to look

476  
00:24:09,890 --> 00:24:14,570  
at that nevertheless there are

477  
00:24:12,289 --> 00:24:18,170  
weaknesses so key information is

478  
00:24:14,569 --> 00:24:21,009  
influenced by bank participant buyers

479  
00:24:18,170 --> 00:24:23,600  
and other subjective processes

480  
00:24:21,009 --> 00:24:27,619  
verification of beauty information often

481  
00:24:23,599 --> 00:24:30,859  
cannot be confirmed the 65% hit rate is

482  
00:24:27,619 --> 00:24:32,649  
for good but leaves a significant margin

483  
00:24:30,859 --> 00:24:34,779  
for error we thought the same

484  
00:24:32,650 --> 00:24:36,900  
is still a very significant margin for

485

00:24:34,779 --> 00:24:39,549  
errors how can we know for sure

486  
00:24:36,900 --> 00:24:43,600  
so the ranking for the remote viewing is

487  
00:24:39,549 --> 00:24:47,289  
in my opinion a moderate ranking now the

488  
00:24:43,599 --> 00:24:51,399  
seventh category are crop circles again

489  
00:24:47,289 --> 00:24:53,889  
this is something that has become very

490  
00:24:51,400 --> 00:24:56,890  
popular recently with many crop circles

491  
00:24:53,890 --> 00:24:59,170  
appearing especially in England I

492  
00:24:56,890 --> 00:25:01,000  
believe they're all around the world I

493  
00:24:59,170 --> 00:25:05,580  
don't know if they've had any in Spain

494  
00:25:01,000 --> 00:25:09,549  
but certainly they are both spectacular

495  
00:25:05,579 --> 00:25:12,159  
sightings of UFOs often occur after crop

496  
00:25:09,549 --> 00:25:14,049  
circles appear this indicates that they

497  
00:25:12,160 --> 00:25:16,980  
are a form of extraterrestrial

498  
00:25:14,049 --> 00:25:20,769  
communication I think many crop circles

499  
00:25:16,980 --> 00:25:23,620

have so many crop circle researchers

500

00:25:20,769 --> 00:25:27,129

have reached the conclusion that these

501

00:25:23,619 --> 00:25:29,859

are a form of communication by some

502

00:25:27,130 --> 00:25:33,310

higher intelligence you know whether

503

00:25:29,859 --> 00:25:35,709

that isn't is extraterrestrial or

504

00:25:33,309 --> 00:25:38,259

whether it's some kind of intro to

505

00:25:35,710 --> 00:25:41,440

mention or whether it's the earth

506

00:25:38,259 --> 00:25:44,230

herself in some way there's some debate

507

00:25:41,440 --> 00:25:46,509

but nevertheless it's widely accepted

508

00:25:44,230 --> 00:25:49,150

that these are not just man-made hoaxes

509

00:25:46,509 --> 00:25:53,309

that these are in fact a form of

510

00:25:49,150 --> 00:25:56,830

communication by some advanced

511

00:25:53,309 --> 00:25:59,980

intelligence the modern era beginning in

512

00:25:56,829 --> 00:26:02,740

the nineteen in the late 1970s as very

513

00:25:59,980 --> 00:26:07,000

simple designs but I become increasingly

514  
00:26:02,740 --> 00:26:09,009  
complex and then you have some some of

515  
00:26:07,000 --> 00:26:15,839  
the more recent crop circles that are

516  
00:26:09,009 --> 00:26:15,839  
very very complex some crop circles

517  
00:26:16,410 --> 00:26:24,779  
supposedly responses to messages a very

518  
00:26:20,619 --> 00:26:28,209  
famous crop circle relates to the 1974

519  
00:26:24,779 --> 00:26:31,240  
Arecibo radio transmission by Frank's by

520  
00:26:28,210 --> 00:26:33,640  
Frank Drake and Carl Sagan which was the

521  
00:26:31,240 --> 00:26:35,620  
forerunner or rather this before the

522  
00:26:33,640 --> 00:26:37,990  
establishment of our SETI the search for

523  
00:26:35,619 --> 00:26:39,788  
extraterrestrial intelligence and this

524  
00:26:37,990 --> 00:26:42,069  
and this was the

525  
00:26:39,788 --> 00:26:44,288  
I receive a messenger was was a it was a

526  
00:26:42,069 --> 00:26:48,868  
coded radio signal that went out into

527  
00:26:44,288 --> 00:26:52,388  
space in 1974 giving information about

528  
00:26:48,868 --> 00:26:57,519  
humanity elo Kino location our science

529  
00:26:52,388 --> 00:27:00,668  
mathematics and so forth in the year

530  
00:26:57,519 --> 00:27:03,548  
2001 there was a crop circle that

531  
00:27:00,669 --> 00:27:06,879  
appeared which appeared to be a response

532  
00:27:03,548 --> 00:27:10,839  
to the Arecibo message and this

533  
00:27:06,878 --> 00:27:12,928  
Chilbolton glyph for crop circle

534  
00:27:10,839 --> 00:27:16,209  
appeared next to the Chilbolton radio

535  
00:27:12,929 --> 00:27:19,119  
telescope in southern England so again

536  
00:27:16,210 --> 00:27:23,440  
another coincidence here is something

537  
00:27:19,118 --> 00:27:27,459  
that looks like a response to a message

538  
00:27:23,440 --> 00:27:30,548  
from radio astronomers using radio

539  
00:27:27,460 --> 00:27:33,278  
signals next to a radio telescope in

540  
00:27:30,548 --> 00:27:35,319  
southern England so many people believe

541  
00:27:33,278 --> 00:27:38,159  
that this in fact that this crop circle

542

00:27:35,319 --> 00:27:46,418  
is a form of extraterrestrial

543  
00:27:38,159 --> 00:27:48,070  
communication with humanity views about

544  
00:27:46,419 --> 00:27:49,028  
crop circles as messages from

545  
00:27:48,069 --> 00:27:52,108  
extraterrestrials

546  
00:27:49,028 --> 00:27:58,118  
there was a crop circle that appeared in

547  
00:27:52,108 --> 00:28:00,398  
between June 21st and June 30 2009 so

548  
00:27:58,118 --> 00:28:03,728  
that's one month ago and that appeared

549  
00:28:00,398 --> 00:28:09,668  
to predict solar activity beginning on

550  
00:28:03,729 --> 00:28:13,479  
July 7 and as it in fact occurred July

551  
00:28:09,669 --> 00:28:15,580  
4th to 11 sunspot the sunspot appeared

552  
00:28:13,479 --> 00:28:17,139  
on the Sun out of Norway was just a big

553  
00:28:15,579 --> 00:28:23,949  
surprise

554  
00:28:17,138 --> 00:28:26,918  
it had a dozen dark spots and generating

555  
00:28:23,950 --> 00:28:30,220  
plus B and C solar flares emitted by the

556  
00:28:26,919 --> 00:28:31,020

Sun so many people believe and include

557

00:28:30,220 --> 00:28:34,500  
myself

558

00:28:31,019 --> 00:28:39,269  
then that this crop circle here did

559

00:28:34,500 --> 00:28:40,500  
accurately predict that on July around

560

00:28:39,269 --> 00:28:43,349  
July 7

561

00:28:40,500 --> 00:28:46,019  
there will be solar activity and some of

562

00:28:43,349 --> 00:28:52,859  
that would involve coronal mass

563

00:28:46,019 --> 00:28:56,579  
ejections and solar flares so the

564

00:28:52,859 --> 00:28:58,859  
strengths of this category scientific

565

00:28:56,579 --> 00:29:02,429  
testing and analysis is possible to

566

00:28:58,859 --> 00:29:04,349  
determine whether man-made will not this

567

00:29:02,430 --> 00:29:05,759  
is a valid way for extraterrestrial

568

00:29:04,349 --> 00:29:09,089  
intelligence to communicate with

569

00:29:05,759 --> 00:29:11,640  
humanity and they may be accurate

570

00:29:09,089 --> 00:29:14,339  
predictions that are being made here by

571  
00:29:11,640 --> 00:29:18,440  
these crop circles that cannot be

572  
00:29:14,339 --> 00:29:22,139  
replicated by any human intelligence

573  
00:29:18,440 --> 00:29:24,840  
humans our scientists at the moment

574  
00:29:22,140 --> 00:29:27,810  
cannot predict when such thoughts will

575  
00:29:24,839 --> 00:29:29,250  
in solar activity of will begin they

576  
00:29:27,809 --> 00:29:31,679  
cannot do that we do not have the

577  
00:29:29,250 --> 00:29:34,410  
scientific knowledge to predict solar

578  
00:29:31,680 --> 00:29:36,900  
activity it's only when it begins to

579  
00:29:34,410 --> 00:29:40,259  
occur that scientists to make some

580  
00:29:36,900 --> 00:29:42,570  
predictions concerning space weather but

581  
00:29:40,259 --> 00:29:46,170  
this HAP circle that appeared in your

582  
00:29:42,569 --> 00:29:49,740  
clue in June of this year predicted

583  
00:29:46,170 --> 00:29:53,039  
solar activities prior to any sunspot

584  
00:29:49,740 --> 00:29:56,250  
activity so that is unique weaknesses

585  
00:29:53,039 --> 00:29:58,799  
well the hoaxing is a problem can be a

586  
00:29:56,250 --> 00:30:04,009  
problem it's an increasing problem with

587  
00:29:58,799 --> 00:30:06,539  
more people doing crop circle designs or

588  
00:30:04,009 --> 00:30:09,329  
creating these themselves with small

589  
00:30:06,539 --> 00:30:11,549  
groups also it's possible for a very

590  
00:30:09,329 --> 00:30:14,279  
sophisticated microwave technologies to

591  
00:30:11,549 --> 00:30:17,279  
be used to allow for some kind of

592  
00:30:14,279 --> 00:30:19,230  
intelligence agencies to do crop circles

593  
00:30:17,279 --> 00:30:21,839  
as well so they may be in fact some

594  
00:30:19,230 --> 00:30:24,360  
mixture of different types of pup

595  
00:30:21,839 --> 00:30:26,159  
circles some genuinely created by an

596  
00:30:24,359 --> 00:30:28,329  
advanced intelligence possibly

597  
00:30:26,160 --> 00:30:30,580  
extraterrestrial I was

598  
00:30:28,329 --> 00:30:33,509  
so there's a mixture here so again I

599

00:30:30,579 --> 00:30:37,839  
would give that a ranking of moderate

600  
00:30:33,509 --> 00:30:42,129  
the eighth category is expert

601  
00:30:37,839 --> 00:30:44,859  
testimonies these are people who because

602  
00:30:42,130 --> 00:30:49,059  
of their own research their own

603  
00:30:44,859 --> 00:30:51,609  
credibility have been able to interview

604  
00:30:49,058 --> 00:30:54,819  
many many people who have been able to

605  
00:30:51,609 --> 00:30:57,490  
confide in them confidentially what is

606  
00:30:54,819 --> 00:31:00,220  
happening and this is something I am

607  
00:30:57,490 --> 00:31:02,528  
other researchers often have to deal

608  
00:31:00,220 --> 00:31:05,319  
with that is we speak to many people

609  
00:31:02,528 --> 00:31:07,359  
some people say yes you can quote me you

610  
00:31:05,319 --> 00:31:09,339  
can go out into public but really others

611  
00:31:07,359 --> 00:31:11,859  
say don't quote me this is confidential

612  
00:31:09,339 --> 00:31:14,398  
this is just for you only so that means

613  
00:31:11,859 --> 00:31:16,269

that we in a way become a kind of

614

00:31:14,398 --> 00:31:19,509

spokesperson for many confidential

615

00:31:16,269 --> 00:31:22,380

witnesses whistleblowers experiences and

616

00:31:19,509 --> 00:31:26,829

so forth who do not want to go public

617

00:31:22,380 --> 00:31:30,760

and so this means experts who do go

618

00:31:26,829 --> 00:31:33,308

public they talk about their Tesla

619

00:31:30,759 --> 00:31:36,519

ticinese that they've heard and they are

620

00:31:33,308 --> 00:31:37,829

able to relay this on to the public you

621

00:31:36,519 --> 00:31:40,240

know in a reliable way

622

00:31:37,829 --> 00:31:42,490

this is probably not so strange for

623

00:31:40,240 --> 00:31:44,859

journalists because journalists do this

624

00:31:42,490 --> 00:31:48,940

many journalists will quote confidential

625

00:31:44,859 --> 00:31:50,979

sources and people know that because

626

00:31:48,940 --> 00:31:54,820

this journalist has a good reputation

627

00:31:50,980 --> 00:31:57,669

they're reliable and they are employed

628  
00:31:54,819 --> 00:31:59,859  
by a credible news agency that we can

629  
00:31:57,669 --> 00:32:02,019  
trust the journalists well similarly we

630  
00:31:59,859 --> 00:32:04,359  
can trust some of these people who are

631  
00:32:02,019 --> 00:32:05,919  
the experts who are able to give

632  
00:32:04,359 --> 00:32:10,689  
testimonies about what they have been

633  
00:32:05,919 --> 00:32:13,778  
told the diagram is one of the people

634  
00:32:10,690 --> 00:32:19,080  
that I will be talking about is Edgar

635  
00:32:13,778 --> 00:32:19,079  
Mitchell the Apollo 14 astronaut who has

636  
00:32:19,170 --> 00:32:26,490  
people especially concerning the Roswell

637  
00:32:22,890 --> 00:32:28,910  
crash the Roswell crash in 1947 in New

638  
00:32:26,490 --> 00:32:32,370  
Mexico has confirmed many people he's

639  
00:32:28,910 --> 00:32:36,930  
spoken to many people he has been able

640  
00:32:32,369 --> 00:32:40,799  
to conclude that something did in fact

641  
00:32:36,930 --> 00:32:43,380  
crash in Roswell in 1947 and it came

642  
00:32:40,799 --> 00:32:46,289  
from another planet and it was covered

643  
00:32:43,380 --> 00:32:48,690  
up by the US government that is

644  
00:32:46,289 --> 00:32:52,409  
something that he is now publicly gone

645  
00:32:48,690 --> 00:32:55,650  
on the record and very it was very

646  
00:32:52,410 --> 00:32:57,840  
pleased to see that he attended the X

647  
00:32:55,650 --> 00:33:01,050  
conference organized by my colleague

648  
00:32:57,839 --> 00:33:03,539  
Steve Bassett earlier this year in April

649  
00:33:01,049 --> 00:33:08,279  
and actually went to a press conference

650  
00:33:03,539 --> 00:33:11,490  
and actually announced his conclusions

651  
00:33:08,279 --> 00:33:13,730  
over the testimonies that he has heard

652  
00:33:11,490 --> 00:33:19,049  
about the Roswell crash and others

653  
00:33:13,730 --> 00:33:21,059  
incidents examples of witnesses mention

654  
00:33:19,049 --> 00:33:25,289  
dr. Mitchell dr. Steven Greer he'll be

655  
00:33:21,059 --> 00:33:27,299  
talking later he will be able to speak

656

00:33:25,289 --> 00:33:27,990  
at firsthand about some of the hundred

657  
00:33:27,299 --> 00:33:29,730  
missile blow

658  
00:33:27,990 --> 00:33:31,859  
many hundreds of whistleblowers he has

659  
00:33:29,730 --> 00:33:34,140  
spoken to both confidentially and for

660  
00:33:31,859 --> 00:33:36,240  
public dissemination what's been

661  
00:33:34,140 --> 00:33:38,850  
circulated to the public is really only

662  
00:33:36,240 --> 00:33:42,750  
a small percentage of probably under 20%

663  
00:33:38,849 --> 00:33:44,759  
of the entire pool of witnesses he has

664  
00:33:42,750 --> 00:33:46,410  
is the both of these testimonies are

665  
00:33:44,759 --> 00:33:48,269  
still confidential and haven't been

666  
00:33:46,410 --> 00:33:50,970  
released so I look forward to a day

667  
00:33:48,269 --> 00:33:53,700  
those testimonies are released because

668  
00:33:50,970 --> 00:33:56,009  
that will be very helpful my colleague

669  
00:33:53,700 --> 00:33:59,850  
my close colleague Paula Harris has

670  
00:33:56,009 --> 00:34:02,759

interviewed many dozens hundreds even

671

00:33:59,849 --> 00:34:05,490

use that whistleblowers and experiences

672

00:34:02,759 --> 00:34:07,529

over several decades both confidentially

673

00:34:05,490 --> 00:34:09,719

at the public distribution and she is

674

00:34:07,529 --> 00:34:13,559

certainly one of the finest researchers

675

00:34:09,719 --> 00:34:15,929

in the field in being able to

676

00:34:13,559 --> 00:34:17,369

since they interview people to get their

677

00:34:15,929 --> 00:34:20,579

firsthand report and it's really about

678

00:34:17,369 --> 00:34:22,650

the work that many of us need to do we

679

00:34:20,579 --> 00:34:27,059

need to go interview the witnesses at

680

00:34:22,650 --> 00:34:29,849

first hand and try to get them on tape

681

00:34:27,059 --> 00:34:32,250

they'll record them and I need to kind

682

00:34:29,849 --> 00:34:34,139

of make special mention of a very

683

00:34:32,250 --> 00:34:36,000

important project that's just recently

684

00:34:34,139 --> 00:34:39,299

emerged which is Project Camelot with

685  
00:34:36,000 --> 00:34:42,449  
Bill Carey bill Ryan and Kenny Cassidy

686  
00:34:39,300 --> 00:34:44,130  
and they have done really important work

687  
00:34:42,449 --> 00:34:46,889  
in traveling around the world and

688  
00:34:44,130 --> 00:34:49,200  
interviewing whistleblowers experiences

689  
00:34:46,889 --> 00:34:52,589  
and making this available to the general

690  
00:34:49,199 --> 00:34:58,769  
public this is very important disagree

691  
00:34:52,590 --> 00:35:00,870  
over any experience except politics is

692  
00:34:58,769 --> 00:35:03,690  
not gonna get caught up in the debate

693  
00:35:00,869 --> 00:35:06,599  
over he's telling lies she's telling the

694  
00:35:03,690 --> 00:35:08,789  
truth we want to present the data but

695  
00:35:06,599 --> 00:35:11,130  
it's important the data the evidences is

696  
00:35:08,789 --> 00:35:13,139  
out there because ultimately the public

697  
00:35:11,130 --> 00:35:16,530  
has to choose and the public has a right

698  
00:35:13,139 --> 00:35:18,659  
to be able to use many different methods

699  
00:35:16,530 --> 00:35:21,660  
for analyzing the testimonies and not

700  
00:35:18,659 --> 00:35:25,889  
just use one standard which is often the

701  
00:35:21,659 --> 00:35:27,359  
one that some critics use against it so

702  
00:35:25,889 --> 00:35:30,119  
politics we should say well it has to be

703  
00:35:27,360 --> 00:35:31,950  
hard evidence supporting every statement

704  
00:35:30,119 --> 00:35:34,019  
and if it's not then we throw it out

705  
00:35:31,949 --> 00:35:36,149  
well that's not the way social science

706  
00:35:34,019 --> 00:35:38,570  
operates and having worked as a social

707  
00:35:36,150 --> 00:35:41,400  
scientist I can say conclusively that

708  
00:35:38,570 --> 00:35:43,710  
social science is operate by considering

709  
00:35:41,400 --> 00:35:48,990  
all of the data we don't throw data away

710  
00:35:43,710 --> 00:35:50,730  
because we might be biased the ranking

711  
00:35:48,989 --> 00:35:52,849  
credible experts give reliable

712  
00:35:50,730 --> 00:35:55,980  
assessments of confidential witnesses

713

00:35:52,849 --> 00:35:59,250  
with extraterrestrial information the

714  
00:35:55,980 --> 00:36:02,519  
weaknesses not able to publicly share

715  
00:35:59,250 --> 00:36:04,619  
data and confidential witnesses and this

716  
00:36:02,519 --> 00:36:07,110  
is a bit of a problem because if you're

717  
00:36:04,619 --> 00:36:08,819  
told something confidential you can't go

718  
00:36:07,110 --> 00:36:10,140  
out and tell people you can't just put

719  
00:36:08,820 --> 00:36:10,960  
it out in public and say well this is

720  
00:36:10,139 --> 00:36:12,519  
what I was

721  
00:36:10,960 --> 00:36:14,500  
the evidence board because it's

722  
00:36:12,519 --> 00:36:17,800  
confidential and the record of more

723  
00:36:14,500 --> 00:36:18,760  
hearsay statements are not admissible so

724  
00:36:17,800 --> 00:36:22,680  
if Edgar Mitchell

725  
00:36:18,760 --> 00:36:25,540  
despite his very impressive credentials

726  
00:36:22,679 --> 00:36:28,929  
he cannot go into a court of law and

727  
00:36:25,539 --> 00:36:33,068

antistrophe on behalf of people that he

728

00:36:28,929 --> 00:36:35,348

has heard concerning the Roswell crash

729

00:36:33,068 --> 00:36:37,210

that that would not be admissible in a

730

00:36:35,349 --> 00:36:41,140

court of law so this ring so this

731

00:36:37,210 --> 00:36:43,599

category has to be ranked moderate our

732

00:36:41,139 --> 00:36:46,750

space image analysis this is the length

733

00:36:43,599 --> 00:36:48,160

category that I look at a number of more

734

00:36:46,750 --> 00:36:50,380

official sources have offered

735

00:36:48,159 --> 00:36:53,649

independent analyses of images provided

736

00:36:50,380 --> 00:36:58,170

by by NASA European Space Agency and

737

00:36:53,650 --> 00:36:58,170

other national space agencies online

738

00:36:58,980 --> 00:37:04,179

these different agencies space agencies

739

00:37:02,199 --> 00:37:06,068

have a lot of data that has been made

740

00:37:04,179 --> 00:37:10,568

available since the early Apollo

741

00:37:06,068 --> 00:37:14,289

missions when the images of the Apollo

742  
00:37:10,568 --> 00:37:18,909  
and many other NASA missions were made

743  
00:37:14,289 --> 00:37:20,338  
available NASA officially has said that

744  
00:37:18,909 --> 00:37:22,750  
there is nothing in these images

745  
00:37:20,338 --> 00:37:24,489  
suggesting extraterrestrial life or

746  
00:37:22,750 --> 00:37:27,539  
extraterrestrial vehicles they say there

747  
00:37:24,489 --> 00:37:31,509  
is nothing there none of the images

748  
00:37:27,539 --> 00:37:32,558  
support this according to NASA and I

749  
00:37:31,510 --> 00:37:36,569  
believe that's the same with the

750  
00:37:32,559 --> 00:37:39,880  
European Space Agency but nevertheless

751  
00:37:36,568 --> 00:37:42,338  
people have come forward and abused

752  
00:37:39,880 --> 00:37:45,880  
those same images and have interpreted

753  
00:37:42,338 --> 00:37:48,099  
them to suggest that in fact this is

754  
00:37:45,880 --> 00:37:52,599  
hard evidence for extraterrestrial life

755  
00:37:48,099 --> 00:37:54,460  
of technology also there have been many

756  
00:37:52,599 --> 00:37:56,490  
people that have started to develop

757  
00:37:54,460 --> 00:38:01,150  
their own technologies they've modified

758  
00:37:56,489 --> 00:38:03,719  
infrared cameras to be able to take

759  
00:38:01,150 --> 00:38:07,980  
images or what's happening in the nights

760  
00:38:03,719 --> 00:38:09,929  
by more even in the day sky modified

761  
00:38:07,980 --> 00:38:12,240  
telescopes have also been used by

762  
00:38:09,929 --> 00:38:13,980  
civilians to generate images so more and

763  
00:38:12,239 --> 00:38:16,919  
more civilians are now developing the

764  
00:38:13,980 --> 00:38:19,769  
expertise to be able to generate their

765  
00:38:16,920 --> 00:38:22,079  
own data of what's happening in outer

766  
00:38:19,769 --> 00:38:24,539  
space using infrared cameras modified

767  
00:38:22,079 --> 00:38:27,329  
telescopes and so forth analysts claim

768  
00:38:24,539 --> 00:38:29,909  
images depict extraterrestrial vehicles

769  
00:38:27,329 --> 00:38:32,429  
and life and artifacts so look at some

770

00:38:29,909 --> 00:38:34,469  
of the examples of this probably one of

771  
00:38:32,429 --> 00:38:37,500  
the most famous of course is Richard

772  
00:38:34,469 --> 00:38:39,858  
Hoagland and the face on Mars that kind

773  
00:38:37,500 --> 00:38:44,880  
this face was looked showed up on the

774  
00:38:39,858 --> 00:38:47,219  
1976 Viking mission of Mars where

775  
00:38:44,880 --> 00:38:49,829  
satellite images were taken of the

776  
00:38:47,219 --> 00:38:52,019  
Martian surface and Richard Hoagland and

777  
00:38:49,829 --> 00:38:55,199  
many other experts have done exhaustive

778  
00:38:52,019 --> 00:38:57,570  
data image analysis on this and

779  
00:38:55,199 --> 00:39:00,719  
concluded that in fact this is

780  
00:38:57,570 --> 00:39:02,760  
artificial that this in fact was birthed

781  
00:39:00,719 --> 00:39:06,118  
by somebody it's not a natural formation

782  
00:39:02,760 --> 00:39:10,070  
and they also Richard Hoagland was also

783  
00:39:06,119 --> 00:39:12,900  
done similar work in some of the nearby

784  
00:39:10,070 --> 00:39:15,510

images in Sedona

785

00:39:12,900 --> 00:39:17,250

so he believes that this is physical

786

00:39:15,510 --> 00:39:20,820

evidence that these images provide

787

00:39:17,250 --> 00:39:24,619

physical evidence of extraterrestrial

788

00:39:20,820 --> 00:39:31,019

artifacts on Mars

789

00:39:24,619 --> 00:39:34,140

another very famous case was in 1991 the

790

00:39:31,019 --> 00:39:39,300

space shuttle mission number 48

791

00:39:34,139 --> 00:39:41,069

it took video satellite images of the

792

00:39:39,300 --> 00:39:43,740

earth or the upper atmosphere of the

793

00:39:41,070 --> 00:39:46,769

earth and you can't see it here all you

794

00:39:43,739 --> 00:39:49,588

can see is the path but this shows the

795

00:39:46,769 --> 00:39:52,530

the pathway of what would appear to be a

796

00:39:49,588 --> 00:39:55,019

UFO just a bright light as you can see

797

00:39:52,530 --> 00:39:58,710

there this is a sequence of photos and

798

00:39:55,019 --> 00:40:00,838

then it made a kind of right angle turn

799  
00:39:58,710 --> 00:40:03,480  
moved away and as soon as I thought that

800  
00:40:00,838 --> 00:40:06,389  
there was a flash of light from

801  
00:40:03,480 --> 00:40:09,570  
somewhere on the earth it was actually

802  
00:40:06,389 --> 00:40:12,989  
traced to Pine Gap Australia whoops just

803  
00:40:09,570 --> 00:40:15,320  
go back there I am from Australia and we

804  
00:40:12,989 --> 00:40:19,829  
don't know what's happening

805  
00:40:15,320 --> 00:40:21,480  
but the NSA does have a facility at Pine

806  
00:40:19,829 --> 00:40:24,150  
Gap that's the National Security Agency

807  
00:40:21,480 --> 00:40:26,039  
which is run by the US so Pine Gap is in

808  
00:40:24,150 --> 00:40:29,340  
the straightest Australian territory

809  
00:40:26,039 --> 00:40:32,369  
hosting an American facility that is

810  
00:40:29,340 --> 00:40:36,690  
used for things that really only the NSA

811  
00:40:32,369 --> 00:40:39,029  
knows but nevertheless this is the image

812  
00:40:36,690 --> 00:40:42,420  
that was captured by the Space Shuttle

813  
00:40:39,030 --> 00:40:44,640  
video a professor of physics and

814  
00:40:42,420 --> 00:40:48,360  
astronomy professor Jack kasha who is

815  
00:40:44,639 --> 00:40:50,670  
now retired he did exhaustive analysis

816  
00:40:48,360 --> 00:40:53,610  
of these images and he basically said

817  
00:40:50,670 --> 00:40:55,650  
that NASA's explanation that these were

818  
00:40:53,610 --> 00:40:59,039  
just ice particles that were being moved

819  
00:40:55,650 --> 00:41:01,889  
by the thrusters of this of the space

820  
00:40:59,039 --> 00:41:06,659  
shuttle was nonsense that this in fact

821  
00:41:01,889 --> 00:41:09,389  
was images of distant objects moving in

822  
00:41:06,659 --> 00:41:13,859  
space performing incredible maneuvers

823  
00:41:09,389 --> 00:41:16,259  
and of unexplained phenomena and so he's

824  
00:41:13,860 --> 00:41:20,039  
he's conclude that this in fact is

825  
00:41:16,260 --> 00:41:22,950  
evidence of some kind of the basic

826  
00:41:20,039 --> 00:41:28,429  
action taken by a UFO over what appears

827

00:41:22,949 --> 00:41:28,429  
to be a particle beam weapon from 1991

828  
00:41:28,789 --> 00:41:34,739  
space imagery analysis ranking strengths

829  
00:41:31,619 --> 00:41:36,989  
expert expert analysis of significant

830  
00:41:34,739 --> 00:41:42,399  
images were officially ignored and

831  
00:41:36,989 --> 00:41:44,709  
debunked people provide

832  
00:41:42,400 --> 00:41:48,940  
whether it's Richard Hoagland whether

833  
00:41:44,710 --> 00:41:51,280  
it's professor Kesha officially NASA and

834  
00:41:48,940 --> 00:41:54,820  
many scientists will be bunk this and so

835  
00:41:51,280 --> 00:41:58,060  
well this is just imagination this is

836  
00:41:54,820 --> 00:42:03,850  
not worth any kind of serious study and

837  
00:41:58,059 --> 00:42:06,969  
so these are these are being debunked by

838  
00:42:03,849 --> 00:42:10,630  
official agencies but these experts like

839  
00:42:06,969 --> 00:42:16,089  
Hoagland and cash are give expert

840  
00:42:10,630 --> 00:42:20,170  
testimonies supported by expert image

841  
00:42:16,090 --> 00:42:22,269

analysts weaknesses cessationist claims

842

00:42:20,170 --> 00:42:24,730

made by individuals without supporting

843

00:42:22,269 --> 00:42:26,380

expert image analysis and so this is a

844

00:42:24,730 --> 00:42:28,539

big problem because if you're taking if

845

00:42:26,380 --> 00:42:31,720

you have many many people taking

846

00:42:28,539 --> 00:42:35,380

infrared photos of the sky or looking at

847

00:42:31,719 --> 00:42:38,169

the nasa images of the moon for example

848

00:42:35,380 --> 00:42:40,059

and they find objects on the moon and so

849

00:42:38,170 --> 00:42:43,720

forth then this is something that's

850

00:42:40,059 --> 00:42:45,639

going to attract kind of more

851

00:42:43,719 --> 00:42:48,579

sensational claims that are often

852

00:42:45,639 --> 00:42:50,099

unsupported by expert testimonies and

853

00:42:48,579 --> 00:42:53,409

that's really one of the things that

854

00:42:50,099 --> 00:42:55,449

needs to be provided so that this field

855

00:42:53,409 --> 00:42:58,509

where this category of evidence can be

856  
00:42:55,449 --> 00:43:01,029  
taken more seriously so I have to give

857  
00:42:58,510 --> 00:43:05,140  
this this a ranking with moderate to

858  
00:43:01,030 --> 00:43:07,180  
weak this category are the teeth the

859  
00:43:05,139 --> 00:43:09,629  
miss of the final category that I'll be

860  
00:43:07,179 --> 00:43:13,839  
looking at is channeling or telepathy

861  
00:43:09,630 --> 00:43:15,730  
tell everything is allegedly used by

862  
00:43:13,840 --> 00:43:18,640  
extraterrestrial civilizations as a

863  
00:43:15,730 --> 00:43:21,309  
standard form of communication is

864  
00:43:18,639 --> 00:43:23,949  
logical that extraterrestrials do not

865  
00:43:21,309 --> 00:43:27,639  
communicate at great interstellar

866  
00:43:23,949 --> 00:43:29,889  
distances the way we do we communicate

867  
00:43:27,639 --> 00:43:33,000  
with space shuttles with deep space

868  
00:43:29,889 --> 00:43:37,239  
missions using electronic communications

869  
00:43:33,000 --> 00:43:39,699  
and that takes some time for objects

870  
00:43:37,239 --> 00:43:43,629  
that are traveling in the other parts of

871  
00:43:39,699 --> 00:43:46,119  
our solar system because the the school

872  
00:43:43,630 --> 00:43:47,720  
of light even though it's incredible

873  
00:43:46,119 --> 00:43:50,328  
fast it still takes

874  
00:43:47,719 --> 00:43:55,578  
some time for radio communication to

875  
00:43:50,329 --> 00:43:57,289  
travel from our planet to say 7 to

876  
00:43:55,579 --> 00:44:01,310  
communicate with us let's say the

877  
00:43:57,289 --> 00:44:04,369  
Cassini satellite which is doing some

878  
00:44:01,309 --> 00:44:07,670  
some satellite imagery of Saturn and its

879  
00:44:04,369 --> 00:44:09,500  
moons it takes time for that well this

880  
00:44:07,670 --> 00:44:11,838  
is not a form of communication that

881  
00:44:09,500 --> 00:44:15,858  
extraterrestrials could use for

882  
00:44:11,838 --> 00:44:19,239  
interstellar space we're talking about

883  
00:44:15,858 --> 00:44:22,429  
distances that the size of our galaxy is

884

00:44:19,239 --> 00:44:25,189  
100,000 light years so if you were

885  
00:44:22,429 --> 00:44:27,669  
communicating across the galaxy we'll

886  
00:44:25,190 --> 00:44:29,990  
take a hundred thousand light-years for

887  
00:44:27,670 --> 00:44:31,760  
100,000 years for a one gray a

888  
00:44:29,989 --> 00:44:33,679  
transmission to go from one side of the

889  
00:44:31,760 --> 00:44:36,319  
galaxy to the other then you have to go

890  
00:44:33,679 --> 00:44:38,000  
fer to come back so this is not a form

891  
00:44:36,318 --> 00:44:41,119  
of communication that is viable

892  
00:44:38,000 --> 00:44:44,389  
so this Pope's given credence to those

893  
00:44:41,119 --> 00:44:46,280  
who claim that telepathy is the way in

894  
00:44:44,389 --> 00:44:48,769  
which extraterrestrials communicate that

895  
00:44:46,280 --> 00:44:50,450  
it's instantaneous and then that it's

896  
00:44:48,769 --> 00:44:52,699  
because of the phenomenon such as

897  
00:44:50,449 --> 00:44:54,799  
quantum entanglement which makes

898  
00:44:52,699 --> 00:44:57,098

possible the instantaneous sharing of

899

00:44:54,800 --> 00:44:59,740

information across galactic distances

900

00:44:57,099 --> 00:45:02,750

prepare the professor of Paul Bailey's

901

00:44:59,739 --> 00:45:05,088

is one of those that makes this argument

902

00:45:02,750 --> 00:45:07,670

that if we want to communicate with

903

00:45:05,088 --> 00:45:10,578

extraterrestrials we'll look at the

904

00:45:07,670 --> 00:45:13,039

human brain and the frequencies that the

905

00:45:10,579 --> 00:45:15,019

brain operates in because then is how

906

00:45:13,039 --> 00:45:17,838

extra cells will communicate with us

907

00:45:15,019 --> 00:45:19,940

so rather than checking radio

908

00:45:17,838 --> 00:45:22,759

frequencies which is what setting does

909

00:45:19,940 --> 00:45:26,510

professor Davies probabilities now

910

00:45:22,760 --> 00:45:29,119

working at the University of Arizona he

911

00:45:26,510 --> 00:45:31,370

argues that we need to monitor the

912

00:45:29,119 --> 00:45:34,220

specific frequencies in the human

913  
00:45:31,369 --> 00:45:36,349  
because that is where extraterrestrials

914  
00:45:34,219 --> 00:45:40,759  
allow me to communicate any suggest

915  
00:45:36,349 --> 00:45:43,099  
society the the alpha frequency as they

916  
00:45:40,760 --> 00:45:44,600  
where they will probably communicate and

917  
00:45:43,099 --> 00:45:47,210  
this is possible because of quantum

918  
00:45:44,599 --> 00:45:51,650  
entanglement because if the universe

919  
00:45:47,210 --> 00:45:54,500  
came from one point the Big Bang if

920  
00:45:51,650 --> 00:45:57,710  
everything came from one point that

921  
00:45:54,500 --> 00:46:00,380  
means that everything at one point in

922  
00:45:57,710 --> 00:46:03,619  
the Galactic or in universe history was

923  
00:46:00,380 --> 00:46:05,840  
united was one then it exploded and has

924  
00:46:03,619 --> 00:46:07,699  
spread throughout the universe that

925  
00:46:05,840 --> 00:46:09,079  
means that through quantum entanglement

926  
00:46:07,699 --> 00:46:12,529  
everything is connected

927  
00:46:09,079 --> 00:46:14,779  
so one thing can instantaneously

928  
00:46:12,530 --> 00:46:16,450  
communicate with something else no

929  
00:46:14,780 --> 00:46:22,670  
matter where it is in me in the universe

930  
00:46:16,449 --> 00:46:27,710  
through quantum entanglement some

931  
00:46:22,670 --> 00:46:30,829  
examples of this phone communication

932  
00:46:27,710 --> 00:46:33,519  
that is been used by researchers to give

933  
00:46:30,829 --> 00:46:36,799  
information about extraterrestrial life

934  
00:46:33,519 --> 00:46:41,509  
probably one of the most popular most

935  
00:46:36,800 --> 00:46:45,980  
cited is by Professor Tom Elkins who was

936  
00:46:41,510 --> 00:46:48,080  
a physics professor in the 1960s Carlo

937  
00:46:45,980 --> 00:46:50,990  
Ruka and Jim McCarthy who developed

938  
00:46:48,079 --> 00:46:54,829  
scientific protocols in channeling their

939  
00:46:50,989 --> 00:46:58,009  
own material from 1972 to 1975 so this

940  
00:46:54,829 --> 00:47:01,480  
is the book they were I believe six

941

00:46:58,010 --> 00:47:08,150  
books the raw material and and basically

942  
00:47:01,480 --> 00:47:09,340  
that contains the how much time do I

943  
00:47:08,150 --> 00:47:13,369  
have

944  
00:47:09,340 --> 00:47:15,740  
Magnus thank you that contains

945  
00:47:13,369 --> 00:47:18,469  
information about different

946  
00:47:15,739 --> 00:47:21,319  
extraterrestrial life forms in our

947  
00:47:18,469 --> 00:47:24,980  
galaxy in human history and that are

948  
00:47:21,320 --> 00:47:26,500  
also communicating with with the group

949  
00:47:24,980 --> 00:47:29,530  
that were performing these experiments

950  
00:47:26,500 --> 00:47:33,670  
not because alkanes

951  
00:47:29,530 --> 00:47:37,150  
physics professor indeed integers very

952  
00:47:33,670 --> 00:47:39,490  
strict protocols this this experiment

953  
00:47:37,150 --> 00:47:45,490  
that resulted in the raw material is

954  
00:47:39,489 --> 00:47:47,019  
very highly regarded its cited very

955  
00:47:45,489 --> 00:47:48,759

often by different people is probably

956

00:47:47,019 --> 00:47:50,829

the most reliable channeled material

957

00:47:48,760 --> 00:47:53,410

that is out there concerning

958

00:47:50,829 --> 00:47:55,569

extraterrestrial life and certainly is

959

00:47:53,409 --> 00:47:57,429

something worth looking at if you want

960

00:47:55,570 --> 00:47:58,990

if you're wanting to explore this

961

00:47:57,429 --> 00:48:01,809

category of information concerning

962

00:47:58,989 --> 00:48:04,029

extraterrestrial life another another

963

00:48:01,809 --> 00:48:06,250

prominent channeling experience this is

964

00:48:04,030 --> 00:48:10,450

number 10 listen that's a mistake that

965

00:48:06,250 --> 00:48:12,130

should be 10 not 8 up the top there dr.

966

00:48:10,449 --> 00:48:14,710

Andreea Puharich who was a medical

967

00:48:12,130 --> 00:48:17,200

doctor a psychiatrist

968

00:48:14,710 --> 00:48:22,150

Sir John Whitmore a British aristocrat

969

00:48:17,199 --> 00:48:25,419

foolish lemur an American channeler

970  
00:48:22,150 --> 00:48:28,480  
developed protocols for channelling they

971  
00:48:25,420 --> 00:48:30,610  
used the Faraday cage for many of their

972  
00:48:28,480 --> 00:48:33,130  
sessions so this was to ensure that

973  
00:48:30,610 --> 00:48:35,860  
there was no external interference that

974  
00:48:33,130 --> 00:48:42,010  
whatever the channel was getting I would

975  
00:48:35,860 --> 00:48:43,870  
be very accurate so this also is salient

976  
00:48:42,010 --> 00:48:45,970  
to be among the most reliable channeled

977  
00:48:43,869 --> 00:48:47,440  
material that's available and this is

978  
00:48:45,969 --> 00:48:50,889  
what the name of the book that was put

979  
00:48:47,440 --> 00:48:53,349  
out the only planet of choice by foolish

980  
00:48:50,889 --> 00:48:57,279  
lemur with this somebody channeled

981  
00:48:53,349 --> 00:49:00,339  
information that tell us a little bit

982  
00:48:57,280 --> 00:49:03,310  
about extraterrestrial life the ranking

983  
00:49:00,340 --> 00:49:05,650  
strengths developing rubbish protocols

984  
00:49:03,309 --> 00:49:07,119  
and training give unique sources of

985  
00:49:05,650 --> 00:49:09,660  
information on extraterrestrial

986  
00:49:07,119 --> 00:49:13,900  
intelligence with high signal-to-noise

987  
00:49:09,659 --> 00:49:18,250  
ratio in other words the more you

988  
00:49:13,900 --> 00:49:21,610  
develop protocols the world likely you

989  
00:49:18,250 --> 00:49:24,670  
can produce reliable information just

990  
00:49:21,610 --> 00:49:27,519  
like you choose a radio signal or radio

991  
00:49:24,670 --> 00:49:29,769  
if your radio is not tuned correctly you

992  
00:49:27,519 --> 00:49:33,309  
get a lot of noise well scientific

993  
00:49:29,769 --> 00:49:35,880  
calls for Chumlee held twiddle the radio

994  
00:49:33,309 --> 00:49:38,469  
switch so that you get a more accurate

995  
00:49:35,880 --> 00:49:40,780  
signal this is this is one of the

996  
00:49:38,469 --> 00:49:43,559  
strengths of using protocols for remote

997  
00:49:40,780 --> 00:49:46,120  
also for telepathy and channeling

998

00:49:43,559 --> 00:49:47,799  
weaknesses many individuals plan to have

999  
00:49:46,119 --> 00:49:50,259  
telepathic communications that cannot

1000  
00:49:47,800 --> 00:49:52,780  
filter noise from signal something foe

1001  
00:49:50,260 --> 00:49:55,930  
may be electronically transmitted so

1002  
00:49:52,780 --> 00:49:59,190  
there are many forms of channelled

1003  
00:49:55,929 --> 00:50:02,319  
sources in the field and some of these

1004  
00:49:59,190 --> 00:50:04,750  
are very questionable because there are

1005  
00:50:02,320 --> 00:50:06,670  
no protocols the person hears the voice

1006  
00:50:04,750 --> 00:50:10,179  
in their head and says well I'm

1007  
00:50:06,670 --> 00:50:12,130  
channeling Ralph and deep space mining

1008  
00:50:10,179 --> 00:50:14,889  
or something and that's not something we

1009  
00:50:12,130 --> 00:50:17,309  
can take as very credible so we have to

1010  
00:50:14,889 --> 00:50:21,909  
give this category a ranking of weak

1011  
00:50:17,309 --> 00:50:24,549  
just because it is something that really

1012  
00:50:21,909 --> 00:50:26,529

doesn't have much improved support for

1013

00:50:24,550 --> 00:50:30,610

it but nevertheless it's a source of

1014

00:50:26,530 --> 00:50:33,220

information that we need to consider so

1015

00:50:30,610 --> 00:50:38,019

the conclusion what are some of the

1016

00:50:33,219 --> 00:50:41,769

public policy questions that need to be

1017

00:50:38,019 --> 00:50:44,619

explored with all of this evidence we

1018

00:50:41,769 --> 00:50:47,440

should rightly concentrate on the

1019

00:50:44,619 --> 00:50:50,259

evidence that is that is the strongest

1020

00:50:47,440 --> 00:50:53,320

so emphasis should rightly be placed on

1021

00:50:50,260 --> 00:50:55,840

the strongest resources and an

1022

00:50:53,320 --> 00:50:57,970

extraordinary investigation however

1023

00:50:55,840 --> 00:51:00,550

requires serious thought Nia bold

1024

00:50:57,969 --> 00:51:07,299

evidence concerning extraterrestrial

1025

00:51:00,550 --> 00:51:09,850

life and technology my background is I

1026

00:51:07,300 --> 00:51:12,250

was a teacher I was a professor in

1027  
00:51:09,849 --> 00:51:15,339  
university and in the university what we

1028  
00:51:12,250 --> 00:51:18,190  
do is we present all of the data in

1029  
00:51:15,340 --> 00:51:22,240  
front of our students and colleagues for

1030  
00:51:18,190 --> 00:51:26,250  
consideration and opinion about what is

1031  
00:51:22,239 --> 00:51:26,250  
the most reliable data and what is

1032  
00:51:28,989 --> 00:51:32,499  
that's not the scientific method

1033  
00:51:30,699 --> 00:51:35,858  
unfortunately there are those that

1034  
00:51:32,498 --> 00:51:39,028  
criticize the Exopolitics moment because

1035  
00:51:35,858 --> 00:51:41,949  
we do include a diverse source of

1036  
00:51:39,028 --> 00:51:44,679  
evidence but this is the responsibility

1037  
00:51:41,949 --> 00:51:46,719  
of any educator you have to present all

1038  
00:51:44,679 --> 00:51:50,139  
of the evidence and not throw it away if

1039  
00:51:46,719 --> 00:51:51,969  
it doesn't fit your biases so the team

1040  
00:51:50,139 --> 00:51:55,358  
evidential resources that I presented

1041  
00:51:51,969 --> 00:51:57,039  
here provide vital data for determining

1042  
00:51:55,358 --> 00:51:59,469  
the public policy implications of

1043  
00:51:57,039 --> 00:52:01,209  
extraterrestrial life and technology if

1044  
00:51:59,469 --> 00:52:02,949  
you want to understand what are the

1045  
00:52:01,208 --> 00:52:05,828  
policy implications of all of this data

1046  
00:52:02,949 --> 00:52:10,719  
we need to consider all of this evidence

1047  
00:52:05,829 --> 00:52:13,028  
and and so finally in my most recent

1048  
00:52:10,719 --> 00:52:15,309  
book exposing US government policy on

1049  
00:52:13,028 --> 00:52:15,909  
extraterrestrial life by focusing

1050  
00:52:15,309 --> 00:52:19,059  
miserable

1051  
00:52:15,909 --> 00:52:21,278  
testimonies and documents that reveal US

1052  
00:52:19,059 --> 00:52:25,229  
public policy has been secretly

1053  
00:52:21,278 --> 00:52:25,228  
developed over the last six decades
