

1
00:00:00,000 --> 00:00:05,000
The Croppies Episode III

2
00:00:10,002 --> 00:00:14,002
So far at "The Croppies"

3
00:00:49,003 --> 00:00:57,003
When you move from here to the other end you can feel the energy. I changes very fast.

4
00:01:29,006 --> 00:01:39,006
Robert:"But I had goose bumps aswell. And only in one certain circle. You know that I am sensible for such things and I really felt something special in there."

5
00:01:42,007 --> 00:01:48,007
Frank:"Well, yeah - psychology. Once it's mentioned during a chat your hair went up."

6
00:01:48,009 --> 00:01:56,009
Robert:" You think it's that easy?" Frank:"Yep." Robert:" Well, can you just tell everyone who had these feelings that it was just their imagination?"

7
00:01:56,010 --> 00:02:08,009
Frank:" No, we are not doing that. But of course it's imagination. One way or the other. Every thought is imaginary and how much they project onto reality is a completly different question."

8
00:02:41,012 --> 00:02:54,012
I going to walk ahead for another 50 metres and start from there since I don't know exactly where the circle is.

9
00:02:54,013 --> 00:03:02,013
We just follow the people. It' seems to be a quiet a distance.

10
00:03:29,014 --> 00:03:34,014
Facts, Lies, Hypotheses.

11
00:03:40,014 --> 00:03:45,014
Robert:"Damn, it's hot."

12
00:03:55,018 --> 00:04:02,018
We have a picture, guess we are are ready.

13
00:06:10,019 --> 00:06:15,019
Beautiful. Look there is Jan.

14

00:08:04,021 --> 00:08:19,021

I mean we have a professor here that can't get away from crop circles since 2004. And he is not the only professor we met in the middle of a wheat field.

15

00:08:19,023 --> 00:08:38,023

They already have enough tourists here since there is Stonehenge, Avebury... all the places they can go to. Look at that white horse, it's there for a long time.

16

00:08:38,024 --> 00:08:53,024

Maybe the farmers said to themselves: "All these people going to the stone circle and we just have stupid wheat fields nobody wants to visit. We want our share of the cake."

17

00:08:53,024 --> 00:08:57,024

Robert: "Maybe it's that. What are you saying?" Frank: "From what cake?" Robert: "From the cake of the tourism industry"

18

00:08:57,024 --> 00:09:02,024

Frank: "But the farmer gains no benefit from that." Robert: "Yeah, that's true."

19

00:09:23,028 --> 00:09:28,028

We should be able to see it soon on the right somewhere.

20

00:11:29,028 --> 00:11:33,028

Well, this way every detail gets important.

21

00:12:17,029 --> 00:12:26,029

If these are messages from aliens we have to keep in mind that geometry is a universal language. You can understand these symbols.

22

00:12:26,032 --> 00:12:37,032

I trust the opinion of the experts. I couldn't say it's real or not. I just listen to my feelings.

23

00:12:41,033 --> 00:12:53,033

Robert: "Have a look at this." Yeah these solitary tufts are fascinating. I believe that they have to define themselves.

24

00:12:53,033 --> 00:13:06,033

That's because there are many man made circles. Probably they try to add a higher level to it so they can say: "Here, try to copy that."

25

00:13:06,034 --> 00:13:17,034

Mario: "Now we have a complete picture. We are at a height of 67 metres now. I would say that this is the last shot and I am going to land. Is that okay?"

26

00:13:17,037 --> 00:13:24,037

Yep. Mario: "Alright I am going to take the chopper home"

27

00:14:12,038 --> 00:14:26,038

We are outside of the Corn Exchange in England. Since 3 years the so called summer lections, in which croppies and crop circle hunters exchange their information, take place here.

28

00:14:26,038 --> 00:14:35,038

Of course the most bizarre hyptheses make their round here. That's why we are here. We want to know it exactly and ask some questions.

29

00:15:40,042 --> 00:15:51,042

Robert: "Hello. We have seen each other in Salzburg right?" Yeah.

30

00:15:51,043 --> 00:15:55,043

Robert:" This is Frank Höfer from NuoViso, who apparently lost his name tag."

31

00:16:00,043 --> 00:16:12,043

Robert:" Great to see you again." Marianne:"Nice, to see you too. Have you been in the circles yet?"

32

00:16:12,046 --> 00:16:16,046

Robert:" Yeah, we were in three circles yesterday."

33

00:16:16,047 --> 00:16:22,047

Frank:" I want to film your name tag that you are wearing upside down."

34

00:17:48,048 --> 00:17:56,048

"How many satellites do we have now?" We got signals from 11, no 12.

35

00:19:50,049 --> 00:19:55,049

Mario:"Matthias can you watch it ?" Matthias:"On the satellites? Yeah, we have 9 at the moment"

36

00:19:58,050 --> 00:20:02,050

Mario:" I feel like the pilot of an agriculture plane."

37

00:20:55,054 --> 00:21:03,054

Mario:" I am going to pull up a bit." Matthias:" Wow, that looks nice. Maybe you go down a bit" Mario:" Hold on I am going to fly backwards before."

38

00:21:03,055 --> 00:21:15,055

Mario:" There we go." Matthias:" Well, we got that one. Just keep it there for like 10 to 20 seconds."

39

00:21:15,056 --> 00:21:18,056

Mario:" I am going back"

40

00:22:20,057 --> 00:22:30,057

Robert:" Have a look at this. Here it says facts, lies and hyptheses. Let's ask her about it."

41

00:22:35,058 --> 00:22:40,058

Mario:" Allright let's get it down"

42

00:22:40,059 --> 00:22:45,059

Mario:" Have I lost an engine?"

43

00:22:45,060 --> 00:22:50,060

Have a look at this. I lost an engine.

44

00:23:41,064 --> 00:23:44,064

Robert:" Oh, so we can do this in German?" Elisabeth:" Yes, sure."

45

00:23:44,065 --> 00:24:00,065

During the flight an engine stopped. Because of the vibrations it lost contact to the energy circuit.

46

00:24:00,066 --> 00:24:06,066

You said that it will hold together yesterday. Mario:" Yeah I thought so."

47

00:24:06,067 --> 00:24:15,067

The more often you stick the parts together the more unstable it gets. Mario:" Yeah, enough of this. I think I better tighten the screws firmly."

48

00:24:18,067 --> 00:24:26,067

Robert:" Dear Mrs. Zollinger, you wrote a book called Facts, Lies and Hyptheses about the crop circle phenomena." Elisabeth:"Yes."

49

00:24:26,068 --> 00:24:38,068

Robert:" With who are you starting an argument in this book?" Elisabeth:" I didn't want to do that. I just wanted show what's going on in the English crop circle scene."

50

00:24:38,069 --> 00:24:50,069

I just noticed it's getting worse from year to year. All these defamations that good researchers have to face.

51

00:24:50,070 --> 00:24:56,070

I just wanted show that because it's described nowhere else.

52

00:24:56,073 --> 00:25:12,073

I don't want to convince anybody. I just show all these facts. For example the biophysical research. I show some of the hyptheses and of course some of the lies.

53
00:25:12,074 --> 00:25:16,074
The people should think for themselves about this phenomenon.

54
00:25:55,076 --> 00:26:03,076
It's not like you going into the field and you turn on your device which says this circle is real or fake.

55
00:26:03,076 --> 00:26:09,076
You have to ask yourself how you have to interpret it when you can't measure anything.

56
00:26:09,076 --> 00:26:20,076
We don't really know what's behind it. We just know it must be intelligent. It can't be a deer running in the fields like the German hunting unit once claimed.

57
00:26:39,078 --> 00:26:43,078
Robert: " Oh, come on Mrs. Zollinger. This definitely looks like mating trails from deers."

58
00:26:43,079 --> 00:26:48,079
Marianne: " I would say it might be hedgehogs." Robert: " Yeah, hedgehogs or hares."

59
00:26:48,082 --> 00:26:59,082
Marianne: " There are theories like that. But anyone who really suggest that never saw a crop circle. Especially not from the inside"

60
00:26:59,083 --> 00:27:15,083
We made a study in 2008 with the university of Vienna. We found significant evidence in a crop circle. One year later we went back and found nothing.

61
00:27:15,084 --> 00:27:21,084
That means these are evanescent stories. "What have you measured in there?" The electro magnetic field.

62
00:27:21,085 --> 00:27:27,085
The change was significant. The study was used for the master degree of a student.

63
00:27:27,086 --> 00:27:35,086
So the electro magnetic field of earth? "Yeah." Well that is interesting.

64
00:27:35,086 --> 00:27:41,086
Since the change is transient you have to treat these things carefully.

65
00:32:11,087 --> 00:32:15,087
To be continued...
