

1
00:00:00,000 --> 00:00:05,000
What happened so far...

2
00:00:05,001 --> 00:00:13,001
Did you know that Wiltshire is the largest or second largest area for agriculture in the UK?

3
00:00:23,001 --> 00:00:30,001
The farmer takes an entry fee for visiting this circle. He will compensate his loss since this is one of the most popular formations this year.

4
00:01:56,003 --> 00:02:00,003
Camera is recording.

5
00:03:13,002 --> 00:03:20,002
We could mount the camera here on the wing to film Monique.

6
00:03:20,003 --> 00:03:24,003
We would need the GoPro for that.

7
00:03:28,006 --> 00:03:35,006
The only problem is to convince the others to get ready and bring us the camera.

8
00:03:35,007 --> 00:03:39,007
I think it would make no sense if only one of them comes here give us the stuff and drive back again.

9
00:03:39,008 --> 00:03:43,008
All of them should come here or no one at all.

10
00:03:43,008 --> 00:03:49,008
Robert: "Yeah, I think it might be a time problem. They will need at least half an hour to drive here."

11
00:03:49,008 --> 00:03:56,008
Probably we are already in the air by then.

12
00:04:05,009 --> 00:04:10,009
Hello?! Frank: "Good morning! Are you awake already?" Yeah, we are just heaving breakfast.

13
00:04:10,012 --> 00:04:20,012
Frank: "Listen, we need the GoPro, now!" Allright, we'll come. See you later.

14
00:04:51,012 --> 00:04:56,012
The Croppies Episode VII 'A view from above.'

15
00:05:47,014 --> 00:05:54,014
Around 30 minutes ago Frank called and said that he really needs the GoPro.

16
00:05:54,014 --> 00:06:00,014
Now we are on the way even without visiting the bathroom first.

17
00:06:00,016 --> 00:06:05,016
We got lost on the way and found ourselves on the motorway just like the day before yesterday.

18
00:06:05,016 --> 00:06:14,016
So, we rush like hell to get a 2nd camera onboard the plane.

19
00:06:14,016 --> 00:06:19,016
One shall be mounted on the wing and one in the cockpit. I Wonder how we'll do this.

20
00:06:22,019 --> 00:06:32,019
We'll keep an entire airfield busy. They all delayed their flights after 12 o'clock just for us.

21
00:06:37,019 --> 00:06:42,019
Frank: "Matze?!" Mathias: "Frank!? Oh, go left here! Oh well, as you noticed we just picked the wrong way."

22
00:06:42,021 --> 00:06:48,021
We'll be late by probably 9 minutes.

23
00:06:53,021 --> 00:06:58,021
Frank: "Are you using the navigation system?" Mathias: "Uhu..." Frank: " What's it saying?"

24
00:06:58,023 --> 00:07:02,023
Mathias: "25 minutes from now"

25
00:07:02,024 --> 00:07:08,024
Robert: " How is it going?" Frank: " They are here in around 25 minutes."

26
00:09:03,024 --> 00:09:09,024
Frank: "They must be here in 2 minutes." Robert: "Maybe we'll make it, maybe we don't."

27
00:10:05,024 --> 00:10:09,024
Mathias: " 200 metres and then turn right."

28
00:10:11,027 --> 00:10:16,027
There's Frank!

29

00:10:16,028 --> 00:10:24,028

Frank: "Yer one minute late. They are just taking off! But drive, maybe they'll see you and wait. I doubt it though."

30

00:10:42,028 --> 00:10:50,028

One minute...one minute... why this wasn't possible? Just a single minute.

31

00:12:25,029 --> 00:12:30,029

Two hundred meters in the air.

32

00:13:07,032 --> 00:13:13,032

Robert: "I made some nice shots where you can see the other plane flying into the frame and the crop circle in the background."

33

00:13:13,033 --> 00:13:20,033

Robert: "Let's have a look at it." Frank: "Have you seen the green car? They chased you at the airfield."

34

00:13:20,033 --> 00:13:24,033

Robert: "Green car?" Frank: "The GoPro." Robert: "No."

35

00:13:24,033 --> 00:13:28,033

Frank: "It was just standing next to you while you were still on the ground."

36

00:13:28,034 --> 00:13:35,034

Robert: "I haven't seen anything." Frank: "Yeah, it wasn't even one minute late."

37

00:13:37,037 --> 00:13:42,037

Robert: "... Oh, well... let's have a look at the footage." Frank: "Alright."

38

00:17:10,038 --> 00:17:21,038

We are heading for the Silent Circle. Monique wants to give her pictures of the crop circle to Charles.

39

00:17:21,038 --> 00:17:28,038

It is destroyed by now. If she would have gone into the air 30 minutes earlier she would have seen it unharmed.

40

00:17:28,038 --> 00:17:36,038

I think it's interesting that her cameras failed as soon as she was over the new crop circle.

41

00:17:36,039 --> 00:17:43,039

The farmer just erased it. Nevertheless she got most of it on camera.

42

00:17:43,040 --> 00:17:50,040

It's strange that her cameras failed as soon as she was directly over that one circle though.

43

00:18:34,041 --> 00:18:42,041

We heard about that before. That camera equipment etc. has problems in some crop circle formations.

44

00:18:42,044 --> 00:18:48,044

We have never experienced that before and we use very good equipment.

45

00:18:48,045 --> 00:18:53,045

I think we need to research why this happened to Monique.

46

00:18:53,046 --> 00:18:58,046

We are at the Silent Circle now and I bet we can find out more here.

47

00:19:58,047 --> 00:20:10,047

Robert:"I was expecting that I'll get sick, afraid or anything..." Frank:" And it just didn't happened"

48

00:20:10,048 --> 00:20:19,048

Robert:" Everything turned out to be normal. What I am interested in is the moment when Monique's camera failed. I wonder if our camera failed too."

49

00:20:19,048 --> 00:20:25,048

We could go there and see if our mobile phones and cameras are working at the formation.

50

00:20:25,048 --> 00:20:30,048

Mario:"That means we'll go there. Because I want..." Frank:"That your chopper goes down?"

51

00:20:30,049 --> 00:20:34,049

Mario:" No. To see a crop circle which leads to unanswered questions."

52

00:20:34,050 --> 00:20:38,050

Frank:" There is no crop circle anymore. It has been destroyed."

53

00:20:38,053 --> 00:20:50,053

Maybe because they still want to use the wheat before it gets useless after dozens of people took a walk on it day after day.

54

00:20:50,054 --> 00:21:02,054

Frank:" The fact that the farmer erased the circle is probably a sign that he doesn't want anyone making trouble in there."

55

00:21:10,055 --> 00:21:14,055

Frank:" Do you drive with rubber boots?" Robert:"Yes!" Frank:"That works?"

56

00:21:14,056 --> 00:21:20,056

Robert:"Pretty well actually. These are indeed some nice rubber boots."

57

00:21:20,057 --> 00:21:26,057

I mean who knows where we will stop next?

58

00:21:28,057 --> 00:21:33,057

Robert:"You'll keep your eyes open alright?" Frank:" What for?"

59

00:21:33,057 --> 00:21:40,057

Robert:"Guess what!" Frank:"Flying cows?" Robert:"Damn you're right. Flying cows."

60

00:22:12,058 --> 00:22:16,058

Frank:"You went up yet?"

61

00:22:19,059 --> 00:22:24,059

Can you get closer? "Down here?"

62

00:22:38,060 --> 00:22:42,060

There is a car coming.

63

00:23:08,063 --> 00:23:14,063

I just talked to the farmer who just passed. He thinks this is crap, vandalism, nonsense.

64

00:23:14,064 --> 00:23:21,064

We are not allowed to go on the field. We can take some pictures from above though since I told him we will be gone in 30 minutes.

65

00:23:21,065 --> 00:23:26,065

He just doesn't want any more people being attracted.

66

00:23:37,066 --> 00:23:46,066

He noticed it immediately in the morning at 7 o'clock and sent someone to cut it down before it gets to much attention.

67

00:23:46,067 --> 00:24:02,067

He said he is here since 1981 and that knows about the crop circles in the area since the mid 80's.

68

00:24:02,067 --> 00:24:09,067

I asked him if he ever found any trails and also told him about a neighbor that never saw anything.

69

00:24:09,067 --> 00:24:24,067

The farmer replied that he never saw someone in the fields but he found shoe laces and footsteps a few years ago and so on.

70

00:24:24,068 --> 00:24:31,068

Robert:"It's obvious for him that this is vandalism." Frank:"From aliens..."

71

00:24:31,069 --> 00:24:45,069

There are so many tourists. Just think about how many people are coming here from America for example just to examine what some people did to his field.

72

00:24:45,070 --> 00:24:52,070

He claims he is the only farmer that doesn't get anything out of it but a financial loss.

73

00:24:52,073 --> 00:24:58,073

He couldn't answer how much it would be since he had extra costs by cutting it down etc.

74

00:24:58,074 --> 00:25:08,074

Also the ghosts of the crop circles from last year are causing damage too.

75

00:25:08,075 --> 00:25:11,075

Frank:"That's what he said..." Robert:"Yeah."

76

00:25:11,076 --> 00:25:17,076

Can you turn to the right? To the other field? Mario:" That's the ghost. Shall I zoom in?"

77

00:25:17,076 --> 00:25:26,076

There is a trash problem and the ground won't remain the same.

78

00:25:26,076 --> 00:25:34,076

I also asked him if there is any farmer who isn't effected by it. He said:"No! Everyone had it at least once."

79

00:25:49,077 --> 00:25:54,077

Oh well, you'll have to live with it.

80

00:26:03,078 --> 00:26:10,078

Frank:"Didn't we had to turn right here?" Robert:"No.. Oh wait you're right."

81

00:26:14,079 --> 00:26:24,079

Robert:" So what you are trying to say is that they examined over 200 crop circles and found scientific anomalies?"

82

00:26:24,082 --> 00:26:34,082

Frank:" No. They examined over 200 crop circles, measured them etc. and of course they haven't found anomalies in every circle."

83

00:26:34,083 --> 00:26:43,083

Nevertheless they found anomalies in enough circles to proof that there is a real phenomenon.

84

00:26:43,084 --> 00:26:56,084

I mean it doesn't matter if you discovered one, two or three dozens real crop circles. It still doesn't give the awnser to what that is.

85

00:27:01,085 --> 00:27:05,085

What is that?

86

00:27:13,086 --> 00:27:18,086

To be continued...
