17
00:00:44,450 --> 00:00:51,920
hola buenas tardes thank you thank you

18
00:00:49,890 --> 00:00:54,659
for being here having had watched this

19
00:00:51,920 --> 00:00:56,520
community develop over the last five or

20
00:00:54,659 --> 00:00:59,218
six years it's a great privilege to see

21
00:00:56,520 --> 00:01:01,260
so many people here today and I'm really

22
00:00:59,219 --> 00:01:05,549
thankful that you've all made the effort

23
00:01:01,259 --> 00:01:07,200
in the interest to to come we've already

24
00:01:05,549 --> 00:01:08,880
said we've all got different ideas about

25
00:01:07,200 --> 00:01:11,670
the national size that we've run we

26
00:01:08,879 --> 00:01:12,959
don't always agree on everything and so

27
00:01:11,670 --> 00:01:14,700
I've taken the liberty of changing my

28
00:01:12,959 --> 00:01:16,589
talk a little bit after what we heard

29

00:01:14,700 --> 00:01:19,079
yesterday about some of the things that

30
00:01:16,590 --> 00:01:20,969
Bob Dean said and secret space fleets

31
00:01:19,079 --> 00:01:23,789
and things then I'm not going to it's

32
00:01:20,969 --> 00:01:25,709
still going to have a UK definition to

33
00:01:23,790 --> 00:01:27,240
it but I'm I've changed a few things cuz

34
00:01:25,709 --> 00:01:28,559
I think there's a few issues that come

35
00:01:27,239 --> 00:01:31,530
to light given what we heard yesterday

36
00:01:28,560 --> 00:01:34,439
so i want to i want to mention those

37
00:01:31,530 --> 00:01:39,210
anyway yet my name's david griffin i set

38
00:01:34,438 --> 00:01:42,359
up the UK initiative in 2006 it was the

39
00:01:39,209 --> 00:01:45,419
first sight national site outside of the

40
00:01:42,359 --> 00:01:48,569
American continent and really as

41
00:01:45,420 --> 00:01:50,368
developed quite quickly and we've got a

42
00:01:48,569 --> 00:01:55,199
good a good group of people now over to

43
00:01:50,368 --> 00:01:56,459

her involved in the in the UK so I just

44

00:01:55,200 --> 00:01:58,439

wanted to give an idea just quickly if

45

00:01:56,459 --> 00:02:00,780

what Exopolitics has grown to sort mean

46

00:01:58,438 --> 00:02:02,519

to me just on a sort of basic

47

00:02:00,780 --> 00:02:04,560

fundamental level on quite interested in

48

00:02:02,519 --> 00:02:06,780

in the way Exopolitics has grown as a

49

00:02:04,560 --> 00:02:09,810

concept and we've seen it we've seen it

50

00:02:06,780 --> 00:02:12,539

sort of blossom in the last few years so

51

00:02:09,810 --> 00:02:13,259

I at one point always comes to mind when

52

00:02:12,539 --> 00:02:14,789

I think about

53

00:02:13,259 --> 00:02:16,348

politics is this idea when when

54

00:02:14,789 --> 00:02:17,878

politicians are asked about the UFO

55

00:02:16,348 --> 00:02:20,429

issue and this has happened for a sort

56

00:02:17,878 --> 00:02:22,469

of a good decade or two now in fact this

57

00:02:20,430 --> 00:02:25,319

happened with Obama quite recently while

58
00:02:22,469 --> 00:02:27,239
Obama was being elected a White House

59
00:02:25,318 --> 00:02:30,589
journalist I think it was asked the

60
00:02:27,239 --> 00:02:32,969
question about the UFO ET issue and

61
00:02:30,590 --> 00:02:34,680
that's what you know what Obama's going

62
00:02:32,969 --> 00:02:37,500
to do about it and Obama gave the

63
00:02:34,680 --> 00:02:39,150
classic reply which is no you know we

64
00:02:37,500 --> 00:02:41,128
have to deal with we have to deal with

65
00:02:39,150 --> 00:02:43,799
the situation down here before we can

66
00:02:41,128 --> 00:02:45,209
deal with the situation up there and I

67
00:02:43,799 --> 00:02:46,620
think this comes to the core what XO

68
00:02:45,209 --> 00:02:47,939
policy is about it's about dissolving

69
00:02:46,620 --> 00:02:49,620
these boundaries that there is no

70
00:02:47,939 --> 00:02:51,780
difference between down there and up

71
00:02:49,620 --> 00:02:53,879
here and essentially we're dealing with

72
00:02:51,780 --> 00:02:56,219
trying to dissolve that idea so we can

73
00:02:53,878 --> 00:02:58,078
work the 22 together that problems on

74
00:02:56,219 --> 00:03:00,810
terrestrial problems can in fact be

75
00:02:58,079 --> 00:03:03,480
dealt with by looking into the whole

76
00:03:00,810 --> 00:03:06,239
area free energy space exploration that

77
00:03:03,479 --> 00:03:07,888
XO politics deal with that includes like

78
00:03:06,239 --> 00:03:09,420
dissolving the the difference the

79
00:03:07,889 --> 00:03:12,200
boundary between terrestrial and

80
00:03:09,419 --> 00:03:18,869
extraterrestrial human versus alien and

81
00:03:12,199 --> 00:03:20,488
ultimately self and other and I the the

82
00:03:18,870 --> 00:03:22,259
reason Exopolitics attracted me in the

83
00:03:20,489 --> 00:03:25,439
first place you know more perhaps more

84
00:03:22,259 --> 00:03:27,209
than the straight UFO field was because

85
00:03:25,439 --> 00:03:29,579
I can see the way that it pulled in

86

00:03:27,209 --> 00:03:33,239
these multiple areas and wasn't afraid

87
00:03:29,579 --> 00:03:35,159
to deal with the multiple areas we say

88
00:03:33,239 --> 00:03:36,239
it often works on a sort of a parallel

89
00:03:35,159 --> 00:03:39,000
processing level it's a

90
00:03:36,239 --> 00:03:40,650
multidisciplinary approach and and I

91
00:03:39,000 --> 00:03:42,840
think that's the you know we live in a

92
00:03:40,650 --> 00:03:45,090
complex here it's a complex cultural

93
00:03:42,840 --> 00:03:46,799
time and we need a discipline that does

94
00:03:45,090 --> 00:03:48,840
just that isn't afraid to pull in these

95
00:03:46,799 --> 00:03:50,939
different areas you know whether it's

96
00:03:48,840 --> 00:03:53,069
something strange is mythology and also

97
00:03:50,939 --> 00:03:54,750
new physics Exopolitics has done really

98
00:03:53,068 --> 00:03:57,298
well in pulling these areas in and

99
00:03:54,750 --> 00:04:03,150
focusing it through the lens of the ET

100
00:03:57,299 --> 00:04:04,439

and UFO issue the the other point i

101

00:04:03,150 --> 00:04:06,449

thought was really interesting that's

102

00:04:04,439 --> 00:04:09,060

this mentioned now and then if you look

103

00:04:06,449 --> 00:04:11,400

at the various polls that come out when

104

00:04:09,060 --> 00:04:12,840

the public are actually asked about you

105

00:04:11,400 --> 00:04:16,680

know what's their acceptance all their

106

00:04:12,840 --> 00:04:18,870

belief in ET UFO issues it usually comes

107

00:04:16,680 --> 00:04:19,889

around about last few years last decade

108

00:04:18,870 --> 00:04:21,810

or so it comes out around about

109

00:04:19,889 --> 00:04:24,718

two-thirds or seventy percent like the

110

00:04:21,810 --> 00:04:27,040

roper poll and i just wanted you to

111

00:04:24,718 --> 00:04:29,199

think about what other area what you

112

00:04:27,040 --> 00:04:33,510

got 70 sent public belief in something

113

00:04:29,199 --> 00:04:35,620

is excluded from the main cultural

114

00:04:33,509 --> 00:04:40,029

institutions such as such as higher

115
00:04:35,620 --> 00:04:43,240
education you know and maybe in so far

116
00:04:40,029 --> 00:04:45,159
that that that's that inertia that that

117
00:04:43,240 --> 00:04:47,350
reluctance to take hold of the et UFO

118
00:04:45,160 --> 00:04:49,060
issue it says something or contradictory

119
00:04:47,350 --> 00:04:50,560
it may well mean that this is this is a

120
00:04:49,060 --> 00:04:53,139
pertinent issue and that's that's why

121
00:04:50,560 --> 00:04:54,399
this issue is about to break through in

122
00:04:53,139 --> 00:04:55,659
fact the one area that's actually

123
00:04:54,399 --> 00:04:57,719
dealing with this property I think at

124
00:04:55,660 --> 00:05:00,370
the moment and hopefully leading away

125
00:04:57,720 --> 00:05:02,290
it's Michael saliz Exopolitics journal

126
00:05:00,370 --> 00:05:03,910
which I'm also a contributing editor to

127
00:05:02,290 --> 00:05:06,189
so if you want to have a look some good

128
00:05:03,910 --> 00:05:10,390
articles have a look at the Exopolitics

129
00:05:06,189 --> 00:05:12,850
journal side so yet just focusing on the

130
00:05:10,389 --> 00:05:14,319
UK briefly then Nick Pope cover this I'm

131
00:05:12,850 --> 00:05:16,360
not going to go into huge amount of

132
00:05:14,319 --> 00:05:20,409
detail but really interesting that the

133
00:05:16,360 --> 00:05:22,830
UK was a focus in 2008 of huge world

134
00:05:20,410 --> 00:05:26,620
reports in the press because we had

135
00:05:22,829 --> 00:05:29,680
sightings basically rapidly increased in

136
00:05:26,620 --> 00:05:32,530
in 2009 we're looking at looking at the

137
00:05:29,680 --> 00:05:34,329
situation where again reporting

138
00:05:32,529 --> 00:05:39,339
sightings are actually go into double if

139
00:05:34,329 --> 00:05:42,189
you go back to 2008 as a page from the

140
00:05:39,339 --> 00:05:44,979
UK site and we had a huge debate

141
00:05:42,189 --> 00:05:49,000
comments feedback on the forum regards

142
00:05:44,980 --> 00:05:51,310
UFO sightings and really you know 2008

143

00:05:49,000 --> 00:05:52,720
was a huge area with some great cases if

144
00:05:51,310 --> 00:05:54,579
you go to the UK site and have a look

145
00:05:52,720 --> 00:05:58,240
you of that thread particularly you'll

146
00:05:54,579 --> 00:05:59,919
see some really interesting feedback one

147
00:05:58,240 --> 00:06:01,870
thing after yesterday that I wanted to

148
00:05:59,920 --> 00:06:03,730
to focus on because I thought I can't

149
00:06:01,870 --> 00:06:06,220
let this conference go by I wasn't going

150
00:06:03,730 --> 00:06:08,650
to mention it without it's trying to

151
00:06:06,220 --> 00:06:10,000
point out we discuss Bob Dean and Henry

152
00:06:08,649 --> 00:06:11,529
deacon came on in a few other people

153
00:06:10,000 --> 00:06:14,500
we've been discussing about structures

154
00:06:11,529 --> 00:06:17,949
on Mars on the moon the idea of a secret

155
00:06:14,500 --> 00:06:19,959
space fleet all these things and I ended

156
00:06:17,949 --> 00:06:21,789
up thinking yesterday will to an extent

157
00:06:19,959 --> 00:06:23,680

it's good that we think about all these

158

00:06:21,790 --> 00:06:26,050

issues but at the end of the day the UFO

159

00:06:23,680 --> 00:06:27,850

and et field has a long list of

160

00:06:26,050 --> 00:06:29,170

casualties from people that have

161

00:06:27,850 --> 00:06:31,540

actually come forward and blowing the

162

00:06:29,170 --> 00:06:34,210

whistle or just reveal the truth or

163

00:06:31,540 --> 00:06:35,800

denied their security owns and basically

164

00:06:34,209 --> 00:06:37,449

come forward now Gary McKinnon is

165

00:06:35,800 --> 00:06:39,879

probably the moment is the most

166

00:06:37,449 --> 00:06:40,209

important one of these two UK citizen

167

00:06:39,879 --> 00:06:50,889

that spy

168

00:06:40,209 --> 00:06:52,659

60 years in jail for four actually yeah

169

00:06:50,889 --> 00:06:54,098

Gary's facing 60 years at the moments

170

00:06:52,660 --> 00:06:55,599

when when in fact the British government

171

00:06:54,098 --> 00:06:56,709

were hoping to it was actually going to

172
00:06:55,598 --> 00:06:58,329
get a very basic what we call a

173
00:06:56,709 --> 00:06:59,649
community service order for what he did

174
00:06:58,329 --> 00:07:01,870
but it seems the Americans are not

175
00:06:59,649 --> 00:07:04,659
playing ball with this so the poor guys

176
00:07:01,870 --> 00:07:07,240
had seven years I've been having

177
00:07:04,660 --> 00:07:09,130
constant court dates and I'm just

178
00:07:07,240 --> 00:07:10,240
briefly go through his case but I just

179
00:07:09,129 --> 00:07:11,469
wanted to make a point that you know

180
00:07:10,240 --> 00:07:13,870
what steve bassett calls the truth

181
00:07:11,470 --> 00:07:15,490
embargo all the cover-up has many

182
00:07:13,870 --> 00:07:16,899
casualties it's not just Gary they go

183
00:07:15,490 --> 00:07:23,110
back you know we could list we could

184
00:07:16,899 --> 00:07:24,728
almost many of them so Gary's case some

185
00:07:23,110 --> 00:07:27,038
of you may know about this but basically

186
00:07:24,728 --> 00:07:28,478
Gary began looking into this issue the

187
00:07:27,038 --> 00:07:30,519
free energy issue because in Britain in

188
00:07:28,478 --> 00:07:32,769
in the round about the year 2000 we had

189
00:07:30,519 --> 00:07:34,839
a big problem with with high cost energy

190
00:07:32,769 --> 00:07:37,029
and we got situation where elderly

191
00:07:34,839 --> 00:07:38,589
people were actually having to decide

192
00:07:37,029 --> 00:07:41,888
whether they could turn the heating on

193
00:07:38,589 --> 00:07:43,209
in the day or actually actually decide

194
00:07:41,889 --> 00:07:44,650
that they wanted to eat it was getting

195
00:07:43,209 --> 00:07:46,418
that it was getting that bad that energy

196
00:07:44,649 --> 00:07:47,918
was costing that much this was one of

197
00:07:46,418 --> 00:07:49,810
the key points as well as his interest

198
00:07:47,918 --> 00:07:52,719
in UFOs the mazing go looking on these

199
00:07:49,810 --> 00:07:54,939
military networks for information regard

200

00:07:52,720 --> 00:07:57,310
to free energy and the UFO issue that

201
00:07:54,939 --> 00:07:58,689
was the driving force behind it he

202
00:07:57,310 --> 00:08:00,459
accessed several military networks

203
00:07:58,689 --> 00:08:02,918
government networks like NASA the

204
00:08:00,459 --> 00:08:05,680
Pentagon etc and ultimately was found

205
00:08:02,918 --> 00:08:08,049
out in 2002 and arrested by the British

206
00:08:05,680 --> 00:08:09,430
high-tech National Crime Unit and as I

207
00:08:08,050 --> 00:08:10,689
mentioned as then that since then

208
00:08:09,430 --> 00:08:14,199
there's been this seven years struggle

209
00:08:10,689 --> 00:08:15,728
to to actually extradite him for his

210
00:08:14,199 --> 00:08:17,829
what they call hacking but really he

211
00:08:15,728 --> 00:08:20,158
admits he's no he's no genius it was

212
00:08:17,829 --> 00:08:20,158
pretty easy

213
00:08:27,009 --> 00:08:30,479
this video should play I think

214
00:08:34,960 --> 00:08:42,120

the got some sound any sound

215

00:08:48,269 --> 00:08:53,909

okay no no sounds right well based

216

00:08:50,639 --> 00:08:56,460

that's a BBC news report that that went

217

00:08:53,909 --> 00:08:57,569

into into Gary's case is quite

218

00:08:56,460 --> 00:08:58,620

interesting he's got an interview is

219

00:08:57,570 --> 00:09:00,420

only a couple of minutes long it's got

220

00:08:58,620 --> 00:09:01,620

an interview with him but I think we've

221

00:09:00,419 --> 00:09:03,509

got this microphone I think there's some

222

00:09:01,620 --> 00:09:06,330

sound issues at the moment so we'll

223

00:09:03,509 --> 00:09:09,259

we'll skip that what I did want to back

224

00:09:06,330 --> 00:09:13,980

up is the situation that not a lot of

225

00:09:09,259 --> 00:09:15,569

people know about and that's another

226

00:09:13,980 --> 00:09:17,909

another case that actually links in with

227

00:09:15,570 --> 00:09:19,080

Gary's case is another UK citizen just

228

00:09:17,909 --> 00:09:20,909

briefly mentioned the reasons why I

229
00:09:19,080 --> 00:09:23,160
think Gary was a guy who's actually

230
00:09:20,909 --> 00:09:26,100
caught and why they pursue into the

231
00:09:23,159 --> 00:09:27,569
greed they are basically humiliations

232
00:09:26,100 --> 00:09:30,029
through the security measures that were

233
00:09:27,570 --> 00:09:32,340
in place and in the US networks were

234
00:09:30,029 --> 00:09:35,069
pretty much basic if you look into the

235
00:09:32,340 --> 00:09:37,950
interviews that he said there was very

236
00:09:35,070 --> 00:09:39,960
basic cover he managed to find passwords

237
00:09:37,950 --> 00:09:41,520
that was set to the default settings are

238
00:09:39,960 --> 00:09:42,750
managed to get through so there's a huge

239
00:09:41,519 --> 00:09:44,490
degree of embarrassment and humiliation

240
00:09:42,750 --> 00:09:46,049
on behalf of the Americans who want to

241
00:09:44,490 --> 00:09:48,149
sort of punish him or keeping quiet for

242
00:09:46,049 --> 00:09:49,799
this Gary also mentioned a few people

243
00:09:48,149 --> 00:09:52,230
know this that there were hundreds of

244
00:09:49,799 --> 00:09:54,809
Chinese IP addresses also going around

245
00:09:52,230 --> 00:09:56,639
these military networks and if you keep

246
00:09:54,809 --> 00:09:59,250
an eye on the news recently China's also

247
00:09:56,639 --> 00:10:01,860
been accused of doing cyber terrorism on

248
00:09:59,250 --> 00:10:03,299
American American organizations at the

249
00:10:01,860 --> 00:10:04,889
moments they've hacked websites in the

250
00:10:03,299 --> 00:10:07,259
last few weeks and stuff so this is this

251
00:10:04,889 --> 00:10:09,600
is ongoing but of course to to go and

252
00:10:07,259 --> 00:10:10,860
chase and arrest a Chinese citizen is

253
00:10:09,600 --> 00:10:11,610
going to cause far much more you know

254
00:10:10,860 --> 00:10:14,519
it's going to cause an international

255
00:10:11,610 --> 00:10:16,340
incident far more than the chasing the

256
00:10:14,519 --> 00:10:18,449
perhaps of British or even a US citizen

257

00:10:16,340 --> 00:10:20,670
and then of course we come on to what

258
00:10:18,450 --> 00:10:23,070
Gary what Gary found wish for those who

259
00:10:20,669 --> 00:10:24,809
don't know was highly interesting i

260
00:10:23,070 --> 00:10:26,250
think you know it's extra political in

261
00:10:24,809 --> 00:10:29,669
its in its nation has big ramifications

262
00:10:26,250 --> 00:10:31,740
for our area of study personally

263
00:10:29,669 --> 00:10:34,349
confirmed the donna hair airbrushing of

264
00:10:31,740 --> 00:10:36,299
nasa doc enough sir photos he actually

265
00:10:34,350 --> 00:10:38,040
found he went cleverly he went to the

266
00:10:36,299 --> 00:10:39,509
same area that Donna hair did if you

267
00:10:38,039 --> 00:10:42,689
seen the disclosure project video where

268
00:10:39,509 --> 00:10:44,610
there was one file for unbrushed UFOs

269
00:10:42,690 --> 00:10:47,250
and one file for the ones that have been

270
00:10:44,610 --> 00:10:49,080
altered and Gary found the same building

271
00:10:47,250 --> 00:10:52,350

and sounds like a sound virtually the

272

00:10:49,080 --> 00:10:55,710

same office and and basically confirmed

273

00:10:52,350 --> 00:10:57,269

what she'd what she said interesting as

274

00:10:55,710 --> 00:10:59,759

well he found a list of non-terrestrial

275

00:10:57,269 --> 00:11:01,079

officers which you can make off what you

276

00:10:59,759 --> 00:11:01,830

will have been lots of discussion about

277

00:11:01,080 --> 00:11:04,800

that

278

00:11:01,830 --> 00:11:07,320

an addition a spreadsheet of Fleet to

279

00:11:04,799 --> 00:11:09,209

flee transfers now the interesting thing

280

00:11:07,320 --> 00:11:11,370

about those is is of course that he

281

00:11:09,210 --> 00:11:15,030

checked up and they weren't fleet at in

282

00:11:11,370 --> 00:11:17,190

seagoing naval terrestrial ships they

283

00:11:15,029 --> 00:11:19,019

were he couldn't find the names of the

284

00:11:17,190 --> 00:11:22,440

ships that he found on this spreadsheet

285

00:11:19,019 --> 00:11:24,539

he couldn't find them linked to any

286
00:11:22,440 --> 00:11:26,910
seagoing vessels so we're looking again

287
00:11:24,539 --> 00:11:28,500
evidence of some sort of secret space

288
00:11:26,909 --> 00:11:30,240
fleet that's probably running

289
00:11:28,500 --> 00:11:34,019
transnationally or serving from from

290
00:11:30,240 --> 00:11:35,700
America what sir again another UK

291
00:11:34,019 --> 00:11:37,379
citizen that service linked is another

292
00:11:35,700 --> 00:11:39,570
Bristol bro that's also run into trouble

293
00:11:37,379 --> 00:11:41,909
it's a guy called John ladder balsam and

294
00:11:39,570 --> 00:11:43,500
you may have seen his these shots on

295
00:11:41,909 --> 00:11:45,600
sort on the web if you've looked if

296
00:11:43,500 --> 00:11:47,279
you've looked around these he he got

297
00:11:45,600 --> 00:11:50,220
into what we call a stroke videography

298
00:11:47,279 --> 00:11:51,929
and found these huge great huge great

299
00:11:50,220 --> 00:11:54,300
machines out in sort of low medium Earth

300
00:11:51,929 --> 00:11:56,129
orbit and managed to get a really

301
00:11:54,299 --> 00:11:59,879
high-tech camera to to actually video

302
00:11:56,129 --> 00:12:01,379
these if you go online you'll find video

303
00:11:59,879 --> 00:12:02,789
and it gets quite high resolution

304
00:12:01,379 --> 00:12:04,740
they're still murky has got another

305
00:12:02,789 --> 00:12:06,929
picture here I think there's a few more

306
00:12:04,740 --> 00:12:08,879
there and but these are you know

307
00:12:06,929 --> 00:12:10,469
essentially these EC's uncovered

308
00:12:08,879 --> 00:12:12,240
something mammoth here these are huge

309
00:12:10,470 --> 00:12:14,750
great space stations we've this video of

310
00:12:12,240 --> 00:12:16,710
the moving around they've done some size

311
00:12:14,750 --> 00:12:19,529
estimates on them and these things are a

312
00:12:16,710 --> 00:12:22,139
massive what's interesting is back in

313
00:12:19,529 --> 00:12:24,929
two thousand eight I contacted a NASA

314

00:12:22,139 --> 00:12:26,220
employee man just found a name of

315
00:12:24,929 --> 00:12:27,870
someone I was bound commenting on

316
00:12:26,220 --> 00:12:29,370
something else and sent him and asked

317
00:12:27,870 --> 00:12:31,830
him what he thought of this and he told

318
00:12:29,370 --> 00:12:33,060
me not to release his name or even the

319
00:12:31,830 --> 00:12:34,170
information that he gave but i just

320
00:12:33,059 --> 00:12:36,779
thought i'd do it now i just think it's

321
00:12:34,169 --> 00:12:38,399
getting too late so this was in 2008 and

322
00:12:36,779 --> 00:12:39,809
if no one believes me i have the i have

323
00:12:38,399 --> 00:12:41,100
the email i'll gladly show you i'm just

324
00:12:39,809 --> 00:12:42,779
not going to show you the guy's name he

325
00:12:41,100 --> 00:12:44,940
works for JPL the Jet Propulsion

326
00:12:42,779 --> 00:12:50,069
laboratories and this is what he said

327
00:12:44,940 --> 00:12:51,360
regards john lennon wall sins images so

328
00:12:50,070 --> 00:12:55,170

a personal email response from the NASA

329

00:12:51,360 --> 00:12:58,500

JPL in boys September 2008 he says

330

00:12:55,169 --> 00:13:01,259

someone sent me similar images about six

331

00:12:58,500 --> 00:13:05,009

months ago so and these are military

332

00:13:01,259 --> 00:13:06,509

classified human spaceflight the second

333

00:13:05,009 --> 00:13:09,000

thing he said is I thought this was just

334

00:13:06,509 --> 00:13:11,129

as interesting johnson Johnson Space

335

00:13:09,000 --> 00:13:12,990

Center require a large elaborate

336

00:13:11,129 --> 00:13:14,278

spacecraft to get them where they need

337

00:13:12,990 --> 00:13:16,438

to go

338

00:13:14,278 --> 00:13:18,509

so again you know straight from the

339

00:13:16,438 --> 00:13:21,539

horse's mouth from a JPL NASA employee

340

00:13:18,509 --> 00:13:22,949

we have something that backs up what we

341

00:13:21,539 --> 00:13:24,480

were discussing on Saturday with the

342

00:13:22,948 --> 00:13:27,799

girls secret space fleet and maybe the

343
00:13:24,480 --> 00:13:30,329
master and also what gary mckinnon found

344
00:13:27,799 --> 00:13:34,609
again feeling into these images that

345
00:13:30,328 --> 00:13:34,609
this British Astro videographer found

346
00:13:34,789 --> 00:13:38,429
interestingly again just regards the the

347
00:13:37,379 --> 00:13:41,039
the idea that was saying about

348
00:13:38,429 --> 00:13:44,278
whistleblowers and these these two UK

349
00:13:41,039 --> 00:13:45,929
citizens I think the validation in what

350
00:13:44,278 --> 00:13:48,389
this guy found the videographer found

351
00:13:45,929 --> 00:13:50,068
within within a couple of days of him

352
00:13:48,389 --> 00:13:51,659
putting his photos the ones that I

353
00:13:50,068 --> 00:13:54,599
showed you online regarding space

354
00:13:51,659 --> 00:13:56,639
objects the British military then then

355
00:13:54,600 --> 00:13:58,980
it basically buzzed flew in over his

356
00:13:56,639 --> 00:14:00,959
house for weeks on end with you can see

357
00:13:58,980 --> 00:14:02,519
here full proper military helicopters

358
00:14:00,958 --> 00:14:04,919
his life was made a misery he was

359
00:14:02,519 --> 00:14:06,179
followed around and so I think I think

360
00:14:04,919 --> 00:14:08,429
again that validates the fact they

361
00:14:06,179 --> 00:14:10,888
didn't want this information out and

362
00:14:08,429 --> 00:14:12,120
links links this whole thing up and it's

363
00:14:10,889 --> 00:14:14,068
just making the point that so you know

364
00:14:12,120 --> 00:14:15,808
some of these people put their their

365
00:14:14,068 --> 00:14:18,120
silly their lifestyles on the line if

366
00:14:15,808 --> 00:14:23,039
not their lives with regard to releasing

367
00:14:18,120 --> 00:14:25,230
this information so a regards to UK then

368
00:14:23,039 --> 00:14:26,639
I just wanted to just someone was with

369
00:14:25,230 --> 00:14:27,990
you I mean Nick Pope's covered a lot of

370
00:14:26,639 --> 00:14:29,370
this and he mentioned the fire fire

371

00:14:27,990 --> 00:14:32,009
release in the UK which has been really

372
00:14:29,370 --> 00:14:34,289
good and really quite useful I just said

373
00:14:32,009 --> 00:14:36,688
that the following points of left I

374
00:14:34,289 --> 00:14:40,078
think Britain in a great place for the

375
00:14:36,688 --> 00:14:42,389
sort of 2009 2010 Gary McKinnon space

376
00:14:40,078 --> 00:14:44,849
interestingly i think the alternative

377
00:14:42,389 --> 00:14:46,350
media like the internet actually paved

378
00:14:44,850 --> 00:14:49,139
the way for what the mainstream media

379
00:14:46,350 --> 00:14:51,000
such as the BBC actually did we we

380
00:14:49,139 --> 00:14:52,558
actually saw the case and sympathy for

381
00:14:51,000 --> 00:14:54,269
Gary McKinnon switch roundabout sort

382
00:14:52,558 --> 00:14:56,370
three or four months ago and I think

383
00:14:54,269 --> 00:14:59,370
that was again down to efforts on behalf

384
00:14:56,370 --> 00:15:01,860
of the UFO XO XO politics community to

385
00:14:59,370 --> 00:15:03,389

push his case push the truth remove a

386

00:15:01,860 --> 00:15:05,699

lot of the lies and exaggerations about

387

00:15:03,389 --> 00:15:07,829

this case and things like YouTube and

388

00:15:05,698 --> 00:15:09,448

forums and all this have helped push

389

00:15:07,828 --> 00:15:10,649

Gary's case and perhaps put a bit of

390

00:15:09,448 --> 00:15:12,448

pressure on so he's now getting a lot of

391

00:15:10,649 --> 00:15:13,980

support but generally that's that's

392

00:15:12,448 --> 00:15:17,039

increased public awareness of this whole

393

00:15:13,980 --> 00:15:18,870

area the Freedom of Information request

394

00:15:17,039 --> 00:15:20,909

to the mod stuff that Nick Pope touched

395

00:15:18,870 --> 00:15:22,350

on very very interesting it's got yo

396

00:15:20,909 --> 00:15:25,379

head lines in the cases they've got

397

00:15:22,350 --> 00:15:26,610

headlines in many papers in the UK so

398

00:15:25,379 --> 00:15:28,129

really you're really interesting I wear

399

00:15:26,610 --> 00:15:31,639

this again public profile that you

400
00:15:28,129 --> 00:15:33,379
fo ET issue gang getting huge now also

401
00:15:31,639 --> 00:15:34,639
as thought was interesting that near

402
00:15:33,379 --> 00:15:36,799
cousins Nick might not agree with this

403
00:15:34,639 --> 00:15:38,899
by I thought the Milton Torres case that

404
00:15:36,799 --> 00:15:40,609
Nick Pope mentioned actually switches on

405
00:15:38,899 --> 00:15:42,649
its head the hold the mo deals put

406
00:15:40,610 --> 00:15:44,330
sadness mantra that UFOs with no defense

407
00:15:42,649 --> 00:15:46,009
significance no defense significance and

408
00:15:44,330 --> 00:15:48,379
yet if you look at the milton torrance

409
00:15:46,009 --> 00:15:51,409
case where they were ordered to shoot

410
00:15:48,379 --> 00:15:52,730
down a UFO over britain then I think I

411
00:15:51,409 --> 00:15:54,469
beg to differ whether that's defense

412
00:15:52,730 --> 00:15:56,509
significance I think the fact they're

413
00:15:54,470 --> 00:16:00,139
telling them to shoot down a UFO says

414
00:15:56,509 --> 00:16:01,610
says something different and also yeah a

415
00:16:00,139 --> 00:16:04,159
general vast increase in sightings as

416
00:16:01,610 --> 00:16:05,840
you mentioned between 2008 2009 and this

417
00:16:04,159 --> 00:16:07,370
year that that basically public

418
00:16:05,840 --> 00:16:09,680
awareness of this issue and media

419
00:16:07,370 --> 00:16:11,690
treatment of this issue has changed even

420
00:16:09,679 --> 00:16:13,939
even I major tabloid the Sun which is

421
00:16:11,690 --> 00:16:15,710
well known for being quite trashy is now

422
00:16:13,940 --> 00:16:17,150
it's now treating this issue a little

423
00:16:15,710 --> 00:16:19,310
bit well that the little green men are

424
00:16:17,149 --> 00:16:21,189
no longer appearing in the in the

425
00:16:19,309 --> 00:16:24,319
comments section unless a minute please

426
00:16:21,190 --> 00:16:26,270
okay so yeah this last slide anyway so

427
00:16:24,320 --> 00:16:27,980
I've just put the in the evolution for

428

00:16:26,269 --> 00:16:30,740
the UK the eve of evolution of the extra

429
00:16:27,980 --> 00:16:32,990
political XO mystical issues that the UK

430
00:16:30,740 --> 00:16:34,610
could act as a release valve for the USA

431
00:16:32,990 --> 00:16:36,139
in other words like sometimes we're seen

432
00:16:34,610 --> 00:16:37,550
as a testing ground for the USA and

433
00:16:36,139 --> 00:16:40,490
things happen here before I hadn't

434
00:16:37,549 --> 00:16:42,529
happened in America if we put together

435
00:16:40,490 --> 00:16:44,690
the knowledge to formulate the the

436
00:16:42,529 --> 00:16:46,399
European agreement that's that Robert

437
00:16:44,690 --> 00:16:48,560
spoke about then I think something could

438
00:16:46,399 --> 00:16:50,059
happen in Europe alone or the UK's in a

439
00:16:48,559 --> 00:16:52,609
position given what's happened to lead

440
00:16:50,059 --> 00:16:54,229
in its own right so as far as the UK's

441
00:16:52,610 --> 00:16:57,139
then we're aiming to continue raising

442
00:16:54,230 --> 00:16:58,370

awareness promote c5 tight contact that

443

00:16:57,139 --> 00:17:00,679

something's I'm quite keen on doing this

444

00:16:58,370 --> 00:17:02,210

year next year implement some of the

445

00:17:00,679 --> 00:17:04,490

structures if we can and the European

446

00:17:02,210 --> 00:17:06,740

Declaration which we've read out and

447

00:17:04,490 --> 00:17:09,890

continue encourage encouraging education

448

00:17:06,740 --> 00:17:12,470

and media organizations to to take up

449

00:17:09,890 --> 00:17:15,339

this case so that's it from me thank you

450

00:17:12,470 --> 00:17:15,338

for thank you for listening

451

00:17:21,009 --> 00:17:24,159

thank you
